

Bunker Hill & Sullivan Mining & Concentrating Company.

MINES AND WORKS AT WARDNER, IDAHO.

POSTOFFICE ADDRESS, KELLOGG, IDAHO,

July 24th, 1899.

F. W. Bradley, Esq., President,
Bunker Hill & Sullivan Mining & Concentrating Co.
Crocker Building, San Francisco, California.

Dear Sir,-

Selbys write us that they will renew their present contract with us for 300 tons per month of first class concentrates, for a period of six months, from date of first shipment. I have written them accepting the offer, and saying that we would send contract for signature shortly. I have no copies of any of our ore contracts here, and wish you would either send me your copy of the last Selby contract, or have the new contract prepared and executed down there, and send me copy of that. By running over the limit a little ^{on} each lot, we shall be able to send Selbys about 350 tons per month.

Yourstruly,

Frederick Burbidge

Expect to get an offer from Phila. P. & R. Co. who are not in the combination. None of the other concerns will do better than our present Globe contract.
