MINES AND WORKS AT WARDNER, IDAHO.

POSTOFFICE ADDRESS.

KELLOGG, IDAHO,

file
July 26th, 1899.

F. W. Bradley, Esq., President,
B. H. & S. M. & C. Co.
San Francisco, California.

Dear Sir,-

I learned today that the Last Chance people are doing work on water rights on both forks of Pine Creek. I believe there is only one man working on each, and presume the work is merely that necessary to protect the location. They are very actively working on the water right on Government Gulch, however, and I have no doubt that they will put up a vigorous fight for that water if we attempt to divert it above them. They have also begun to timber the mouth of their tunnel on Government Gulch.

Yours truly,

Frederick Burbidge
