

## THE OMAHA SOLD.

The Omaha was sold this week to Cyrus Happy, \$5,000 being the consideration named in the deed. "*Press*"

There is some speculation <sup>as</sup> to whether Mr. Happy bought the <sup>8/12</sup> property for himself or some one else. Different attempts have been made to work the property and considerable ore has been shipped, but the work has always been done at a loss.

The property is situated just east of the Sierra Nevada and the Empire State-Idaho owns property so nearly all around it that it seems the most likely purchaser. Worked in connection with the Last Chance and other properties of this company it might prove profitable, but it is too small to pay as an independent proposition.
