Lewiston, Idaho

July 3, 1935

SUBJECT: Inspection of Co. 1651, Camp Boehl's Cabin, Idaho

To : Commanding Officer, 1651st Co. C.C.C. Boehl's Cabin, Idaho

1. The Extracts from Report of Inspection of Camp S-261, Boehl's Cabin made July 3, 1935 attached hereto, are transmitted to you for corrective action will be made by indorsement hereon, as to corrective action taken.
2. The following matters are specifically mentioned as being susceptible of improvement;-
  - a. Records can be more carefully maintained
  - b. The state of discipline is listed as very good. This condition may be easily raised to excellent, by causing the men to acquire the habit of interior police and improvement of quarters. The men can avoid tracking mud and dirt into buildings and tents, if the matter is repeatedly impressed upon them. The neat arrangement of clothing and equipment can be greatly improved by providing uniform facilities, viz; hangers, lockers, shelving, etc.
  - c. Frequent inspections should be made of individual clothing and equipment in order to check state of repair, care etc. Regulation concerning marking of equipment should be consulted. See P. r. 50 i WDR CCC, 1935.
  - d. Repairs of tentage, tools, tent floors, etc, should be promptly attended to, in order that the said property be prevented from becoming unserviceable. The length of service of all government property should be prolonged where practical.
  - e. Efforts at beautification of the camp is commended. Also the elimination of mosquitoes, excellent mess, provision for fire fighting; high morale of the men, and extensive welfare activity.
