

A CCC crew is engaged in lifting Ponderosa pine seedlings from the McCall Nursery. 50,000 trees will be sent to the Payette National Forest for planting on the Phillips Creek burn. 1,500 will be sent to the Forest Supervisor at Coeur d'Alene, Idaho, to be planted on city property by high school and junior college students.

The new Goose Creek campground

Brown's Tie & Lumber Co. has been awarded the bid for cutting approximately 13,600,000 board feet of timber on the Goose Creek area of the Idaho National Forest. Sale will be by tree measurement. Trees are being marked and roads are being laid out preparatory to logging.

Mr. Coughlin, building architect, and Mr. Partridge met with Dean D. S. Jeffers and Professor Wohletz of the U. of I. School of Forestry last Tuesday and Wednesday to discuss plans for the permanent buildings on the U. of I. Forestry School camp site. Definite plans are being made by the university to construct a large mess hall and kitchen in the immediate future. Material for the building will be purchased by the university and most of the construction work will be done by N. Y. A. labor under supervision of a competent carpenter.
