

Offered Enrollees In This District

A considerable number of former enrollees of the McCall CCC camp are now holding responsible and attractive positions throughout the country.

This point was brought out by local CCC officers in connection with the opening on May 29, the beginning of a new enrollee period.

The McCall camp, which is the prize camp of the northwest has a considerable number of vacancies. The camp, in addition to being ideally located from an enrollee's viewpoint, offers educational opportunities second to none. For instance the national defense radio school conducted at the McCall camp is one of the best in the United States.

Among former McCall CCC enrollees who have made good are three former company clerks who are now sergeants in the

located from point, offers educational opportunities second to none. For instance the national defense radio school conducted at the McCall camp is one of the best in the United States.

Among former McCall CCC enrollees who have made good are three former company clerks who are now sergeants in the U. S. army; an entire crew of men who are now employed by M-K in Wake and Guam the entire caterpillar crew which is now seeing service near Tocoma on a United States national defense project; Paul Halford, a former infirmary attendant, now attending U. S. Medical college in Chicago at Uncle Sam's expense, and many others.

In the forestry camps of this area many opportunities are offered these young men in learning to operate heavy equipment such as draglines, caterpillars, graders and trucks, all of which experience, it is pointed out, becomes very valuable in the industrial world.

They are taught use of

In the many opportunities are offered these young men in learning to operate heavy equipment such as draglines, caterpillars, graders and trucks, all of which experience, it is pointed out, becomes very valuable in the industrial world.

They are taught road construction, use of the jack hammer, powder, compression work, carpentry, care of tools and machinery and dozens of other things in the same category. They are also taught cooking, baking, store-keeping, typing, filing and all phases of clerking.

In addition, officers point out, educational opportunity is offered young men whereby they can take subjects toward high school graduation. Such credits are accepted by all high schools in the district and throughout the middle west and east.

Young men between the ages of 17 and 23 are wanted and needed.
