

# Lakefork CCC May Move to McCall Barracks

---

Lakefork CCC camp may soon move to McCall and occupy the barracks of the recently vacated CCC camp here, it was disclosed by officials today. Further details will be available later, it was announced.

Machinery was set up in the Lakefork CCC camp this week for enrollment of new men. Present at the camp and assisting with inaugurating the new set-up were Lt. George C. Symonds, district adjutant; Ben Hoff, district educational adviser; and Horace Hedge, forest service employee from the Regional office.

Further details will be available later, it was announced.

Machinery was set up in the Lakefork CCC camp this week for enrollment of new men. Present at the camp and assisting with inaugurating the new set-up were Lt. George C. Symonds, district adjutant; Ben Hoff, district educational adviser; and Horace Hedge, forest service employee from the Regional office.

A meeting was held with all the camp personnel in the evening at which time the new method of enrollment was explained. Possible enrollees can now be brought direct to the camp and be examined and enrolled at the camp. It is no longer necessary to be a needy case to enroll. Any young man between the ages of 16 and 24 may now enroll providing he has not previously served more than 18 months in the CCC.

### CCC Advantages

Some advantages the CCC now of-

providing he has not previously served more than 18 months in the CCC.

## CCC Advantages

Some advantages the CCC now offers enrollees are: The local camp offers job training in the various fields of Company Administration and also training in operation and care of trucks and road machinery used at the camp. Besides this excellent training and experience may be obtained in the fields of engineering, jackhammer and powder work. Also there will be offered 20 hours per week in a National Defense training class in the vocation of shipwright.

District schools being operated at this time for advantage of enrollees are: Cooks and bakers, clerks, radio, carpentry, auto mechanics, sheet metal, repair of heavy equipment. Enrollees from the camps showing special interest in these fields are sent in for full time training. A large number of men have received training in these schools and have been hired

operated  
this time for advantage of enrollees  
are: Cooks and bakers, clerks, radio  
carpentry, auto mechanics, sheet  
metal, repair of heavy equipment.  
Enrollees from the camps showing  
special interest in these fields are  
sent in for full time training. A large  
number of men have received training  
in these schools and have been hired  
by private industry and by the army  
and navy. In fact, losses from the  
schools this way have been so great  
lately that enrollees from the camps  
are finding it very easy to be sent  
to these schools.

### New Subaltern

Vincent Sullivan arrived last week  
to take over the duties of Subaltern  
in this Company. Mr. Sullivan has  
been a civilian employee in the offices  
of the Boise District CCC.
