## ORCHESTRA BOYS FROM CO. 250 HAVE AUTO ACCIDENT

---

Thursday night a C. C. C. truck carrying the Co. 250 orchestra members went into the barrow pit along the highway south of Gold Fork when they were returning from Donnelly where they had played for a dance. They report a car with over-bright lights confused the driver so that he got off the road.

The truck suffered a crushed cab and smashed fenders, while several of the boys were considerably smashed up and bruised, though none were critically injured.

Bill Carlin suffered broken ribs, Jack Santa Lucia a wrenched shoulder, John Toth and Carlo Tesairo numerous bruises and Geo. Brisbane of headquarters camp at Cascade suffered a wrenched back and a broken rib. Brisbane went to a Boise hospital today for treatment.

After the accident the truck was righted and the party came on to Cascade where Dr. Ward gave the injured the necessary attention.

Another C. C. C. truck turned over north of Cabarton about the same time, the driver losing control because of the slippery road. None of its occupants were injured.
