## EVERY COUNTY ASKED FOR MINIMUM OF 6 PROJECTS

Washington.—As part of the plan to put 4,000,000 men now on part-time relief work on full time, under the new Civil Works Administration, every State highway commission has been urged to find a minimum of 6 road projects in each of the 3,000 counties in the country on which road maintenance expenditures of not more than \$5,000 each can be made promptly. If fully realized, this would mean some 18,000 projects involving expenditure of \$90,000,000. The cost is to be advanced in the proportion of 65 per cent from Federal relief funds and 35 per cent from Federal road aid to states. Highway commissioners were asked to list immediately projects available in unemployed areas. The new Civil Works Administration is conducted by the Federal Emergency Relief Administrator, with the same office force. President Roosevelt set apart for it \$400,000,000 from the public works fund to hasten full-time employment of present part-time workers now on relief rolls, with the purpose of making them self-sustaining. Meanwhile the road improvement plan is one of many to start the 4,000,000 to work and to remove them and their dependents from relief rolls.

### COMMERCIAL CLUB TO HOLD LUNCHEON MEETING DECEMBER 1

The Cascade Commercial Club will meet at the I. O. O. F. Hall on Friday evening, December first. Eats will be served to rehabilitate the membership after a strenuous wrestling with several important problems which are to come up.

A large attendance is desired—be there!

## Government Will Make Loans To Spring Growers

Farmers seeking loans to finance the production of spring wheat in 1934, in order to be eligible for such loans are required to agree to seed not more than 85 per cent of their average annual acreage for a base

# WILL GIVE JOBS TO UNEMPLOYED

### GOVERNOR ROSS ANNOUNCES PLAN; \$150,000 PER WEEK TO BE EXPENDED

Governor Ross returned the first of the week from a several days conference in Washington, on the new civil works program to alleviate unemployment during the winter months, and announced that ten to twelve thousand men would be put to work in Idaho on various projects at an expenditure of approximately \$150,000 per week.

The work will be in charge of T. J. Lloyd of Twin Falls as chairman of civil works in Idaho and Parker Carver, director of relief.

The program calls for the taking of the first two million men from the relief rolls of the country and the next two million from the unemployed registration lists.

Jobs calling for the greatest employment of labor will be favored but an allowance of 15 to 25 per cent for materials will be allowed where necessary. This relief work will be carried on in programs close to villages and towns so that but few camps will be required.

The number of men will be allotted on a basis of 75 per cent in proportion to population and 25 per cent in proportion to enrolled unemployment.

Allotments in Idaho will vary in the various counties from fifty to several hundred men. Indications are that Valley County's quota will be about fifty men, the situation to be handled by the county relief committee.

This civil works program is aside from the C. C. C. and Forest Service projects. The Forest Service projects for this section, plans for which are not yet completed, are expected to employ about 1400 men in the Payette and Idaho Forests and it is thought that fifty men under the civil works program in addition to this will more than care for the unemployed in this section.

Under the civil works plan the minimum wage is 55 cents per hour for unskilled and \$1.20 an hour for skilled labor. Workers will be limited to 30 hours per week.

RED CROSS AIDED 3,377 FAMILIES
