WOULD HAVE MORE WORK AND LESS PLAY

Boise.— Officials interested in the industrial recovery program had a unique experience on a recent trip through the southeast portion of the state. Accustomed to requests for more and more relief work, the officials were surprised when at one small town a small group of women waited upon them with sharp criticism of CWA and IERA work.

This work, the women said in substance, is having an evil effect upon their husbands. Said husbands, the women declared, refused to look for any employment other than the short-houred more or less agreeable and congenial relief work and spent the considerable leisure time which it afforded in contented idleness. This arrangement seemed to satisfy the husbands completely but the wives preferred that their spouses be forced to return to more remun-
