
TWO CCC CAMPS TO BE OPERATED ON SOUTH FORK SALMON THIS WINTER

According to our information the two CCC Camps on the South Fork Salmon will be in operation this winter in the neighborhood of the old Reed Ranch. Roadwork looking to a hookup with Yellow Pine on a water grade, down the South Fork from Knox and up East Fork is on the program. It is understood that an effort will be made to keep the road over Big Creek summit open and a landing field at the camps is in course of construction. L. C. Luce of Cascade is in charge of the road construction on that project.

Last Friday a trainload of men to fill up those camps arrived at Cascade and was moved out to location Saturday.
