FUNDS WILL BE ALLOCATED FOR ROAD PROJECT

Of chief interest at the Commercial club meeting at the I.O.O.F. hall last night was the report of the committee that traveled to Ogden last week in the interest of the Cascade Commercial club and the Cascade-Knox road.

The committee, consisting of U. R. Armstrong, Harry Nock, Courtney Schoenhut and Harry Bean journeyed to Ogden to urge regional forest service officials to appropriate forest service funds for improving the road. The committee reported that it was successful in securing the whole-hearted support of the Ogden officials and a promise of adequate funds for the proposed project.

About two hours were spent interviewing forest officials. Among those that the committee talked with were Dick Rutledge, regional forester; Bert Finch of the Bureau of Public Roads; J. C. Martin, regional chief engineer; Ben Rice, superintendent of timber sales and former Payette Forest supervisor; and others. The committee answered a few questions and talked of several things concerning the proposed road improvement to the back country.

It was also learned that funds will be appropriated to do some necessary bridge work on the McCall-Warren highway.

About to Lose CCC

At the meeting last night it was pointed out that unless the proposed fifty million dollar appropriation bill passed Congress, Valley Co. would lose two of its CCC camps, one lo-

About to Lose CCC

At the meeting last night it was pointed out that unless the proposed fifty million dollar appropriation bill passed Congress, Valley Co. would lose two of its CCC camps, one located on the South Fork of the Salmon river and one at Garden Valley. Loss of these two camps would directly affect Cascade. The club adopted a resolution urging Idaho congressmen and senators to accelerate the passage of the bill.

Rod and Gun Club

Dr. L. D. Thiel gave a short report on the activities of the Rod and Gun club and its progress in the telegraphic shoot. He said that with more favorable weather conditions in the offing, the Club would do much better.

Harry March talked about baseball and told the club that Cascade could hook up with several lower country teams and make the season more interesting. While the ground is still soft here the team could travel below and later other teams could come here for return games, Harry pointed out. He stated that the outlook for a good team in Cascade was very promising and he thought the local boys could do all right in company with such teams as they would meet by that arrangement.

Dance Coming Along O. K.

Sid Nelson reported that plans for the April Fool dance were coming along fine and that if everyone who was in attendance at the Club meet-
would come and bring someone else

Sid Nelson reported that plans for the April Fool dance were coming along fine and that if everyone who was in attendance at the Club meet would come and bring someone else with them the affair would be a big success.

Mr. Nevitt Speaks

Tom Nevitt of the Pierce Metals Development company talked about the mining moratorium having to do with the suspension of assessment work on mining claims. Mr. Nevitt pointed out that the present set-up did much to hinder development of mining possibilities and urged that the club write to the Idaho congressmen asking them to discourage such further moratoriums.

Mr. Nevitt also told about depre-
