Mr. and Mrs. W. C. Huskey moved to the place they purchased in Meadows. Mr. and Mrs. Martin Kangas will occupy their house this winter.

Delbert Higgins is walking on crutches as a result of an injury received in a football game.

Valley County Men Register For Draft On October 16th

Idaho men from 21 to 35 inclusive will be required to register at their neighborhood voting precincts on October 16 as the first step in the creation of a conscripted army.

Those eligible will report to a neighborhood precinct between 7 a. m. and 9 p. m. October 16 to fill out a registration card and certificate. Each will be given a number corresponding to the sequence in which he registers. This number will be placed on the card and the certificate.

The registrant will retain the certificate. The card will be forwarded to the local selective service board, located in each county.

When registration is completed, the national director of selective service in Washington will be informed of the number registered in each district. Precinct judges who handled the last election will serve under the direction of county boards.

Assuming 4000 will be the highest total registered in any one district in the country, slips with numbers ranging from 1 to 4000 will be placed in individual capsules and put into a bowl in Washington.

These capsules will be drawn one at a time from the bowl. All holding numbers corresponding with the ones drawn will receive questionnaires. They will fill out the questionnaires, giving information such as type of job, marital status, dependents, etc.

The questionnaires will be returned to the local boards and classified. The men then will be placed in one of four classes:

Class 1—Those available for immediate service.

Class 2—Those deferred—or excused temporarily—because of the essential character of their present jobs.

Class 3—Those who should be deferred because of individuals dependent on them for support.

Class 4—Those specifically deferred by terms of the conscription law.

It was estimated of the 18,500,000 registrants in the U. S. about 5,000,000 will come under class 1.

The peacetime draft will fall entirely on those in class 1. They will be selected in the order in which their numbers were drawn from the bowl. Those selected will be examined by a local physician. If accepted and needed to fill the necessary complement of trainees they will be given a final examination by army, navy or marine corps medical officers. Those who pass will be inducted into the service.
