# FERNCROFT LODGE IS IN PATH OF FIRE

1000 FIRE FIGHTERS TRYING TO SAVE RECENTLY REMODELED BUILDING FROM WORST FIRE THIS YEAR IN PAYETTE.

## TRAIN BURNED

A fire which stopped traffic and delayed the train, stage and telephone service between Cascade and Boise was started Thursday around noon, one mile north of Banks. The fire was said to have been started from the down going train.

The fire had spread to such an extent that by evening the forest service had approximately 1000 fire fighters en route to the fire.

Ferncroft Lodge, which has been recently remodeled, new cabins added and under new management, is in direct line of the fire and at the time of going to press the fire was about one mile from the lodge. Saving of the lodge depends on the weather conditions during the afternoon.

The north bound train Thursday evening reached Cascade with a number of cars scorched, the stock cars being on fire three times to such an extent that the trainmen had to stop and extinguish the fire.

This is the worst fire that the Payette National Forest has had this season and in one of the prettiest drives in this part of Idaho. At noon today the fire had covered around 2000 acres.

### PUBLIC ASSISTANCE GROWING LESS

The total list of those receiving all forms of public assistance was smaller July 1 than June 1, it was reported today in the monthly summary of the state bureau of public assistance, general relief (to unemployables) showing the greatest decline.

### ORVAL HARTLEY HUBBARD

Funeral services for Orval Hartley Hubbard, 49, will be conducted at the McCall community church at 2 p. m. today.

## Historic Picture

## Dick Johnson Injured In Plane Crash

Dick Johnson, brother of Bob Johnson, was seriously injured this week, while trying to aid fire fighters in the Bitterroot National Forest. Mr. Johnson and an assistant supervisor were flying under a smoke screen to reach fifty marooned men on the fire line and drop a radio and supplies.

The plane began to lose altitude as an attempt was being made to turn around in the narrow canyon when it crashed into the canyon wall. Johnson was pinned beneath the plane for several hours while the supervisor...
