# Cascade Dam Fund Boosted \$1,000,000 More

Increase of \$1,000,000 in the appropriation for Cascade dam on Payette River was approved Monday by the United States Senate appropriations committee, according to wires received from Senator John Thomas, Senator D. Worth Clark and E. W. Rising, a vice president of the reclamation organization now in Washington.

Amount sought in the original appropriation for the Cascade project was \$500,000. The Senate committee approved \$1,500,000. Early action on the floor of the Senate is expected. The appropriation, it was explained, is in addition to \$900,000 already allotted to Cascade. Total cost of the dam is expected to be \$3,500,000. If the increased appropriation is passed it will mean that \$2,400,000 of that total will be available shortly.
