

tion, there seems to be nothing to argue about now. It is pretty generally agreed that we've got a job to do and we'd better settle down and get it done.

WORK IS PROGRESSING ON ROAD TO STIBNITE

McCALL, IDAHO — December 11—
Work on the road to Stibnite is progressing nicely in spite of the snow and cold weather. Fred Kerby is camp superintendent of the work, with approximately 60 CCC boys plus the machine operators, doing the work.

Work is being done with a power shovel and fills are being made on the road around little Payette Lake raising it higher. A new road is being built between the Blackwell ranch and the power plant.

IN BOISE

Sheriff Merlyn Francis, Traffic Officer Wilson and Penn Stohr spent Tuesday in Boise.
