CCC
INSPECTION - Coeur d'Alene, F-180
General
Frank M. Akridge
January 4, 1939

January 28, 1939.

"Note to Ranger Hansen":
Only one copy of report received.
Please review with Supt Lighten
and follow up to see that safety
rules observed & other suggestions
complied with.
Chas. W. Simpson

Forest Supervisor,
Coeur d'Alene, Idaho.

Dear Mr. Simpson:

Enclosed are two copies of general inspection report on Camp F-180. You have read this report and discussed it with Mr. Akridge and know that there is little criticism of the camp by him.

There is one matter, however, that merits attention. Some time ago we sent you sufficient copies of the new CCC Safety Regulations to supply your camps. For some reason, the camp has failed to put these regulations into use and the report indicates that the personnel are not familiar with the new regulations which make mandatory many things which formerly were merely suggested practice.

There seems to be only one way to get action on this problem and that is to have the superintendent make the study of these regulations a regular project and systematically go through them with his foremen from cover to cover.

Very sincerely yours,

EVAN W. KELLEY,
Regional Forester,

By: *C. Webb*

Acting.

Enclosures

copy sent Hansen.

GENERAL INSPECTION REPORT OUTLINE
(Revised April 1938)

Camp Name Hayden Creek Co. No. 3266 Camp No. F-180

Date of Report January 4, 1939 Forest Coeur d'Alene

Period of Inspection, From 2 ^{KK} p.m. Jan 3 to 4 a.m. p.m. Jan. 4

Inspector Akridge Accompanied by Supervisor Simpson & Ranger Larson

Superintendent D. M. Lightner Camp Commander Lt. Cassel
(Title) (Name)

EXPLANATION Answers requiring but one or two words may be written on the inspection form beside the question. Questions requiring more extensive answers should be discussed at the end of each section, using extra sheets if necessary. Remarks by the Superintendent or Forest official may be added following those of the inspector above his own initial. All discussion paragraphs must be preceded by the key letter and number of the questions to which they refer, as, "A.3.", or "A.15.b."

The Forest Supervisor or State Forester should read this report and discuss it with the inspector. His comments may be added at the end of each section. It is also requested that he sign the report in the space provided.

List the activities or projects inspected:

Hazard reduction
Stand improvement
Fuel procurement

A. QUALITY OF ORGANIZATION

1. Has Superintendent an approved Master Plan of Work? yes
- 2.a. Does Master Plan include all jobs undertaken? yes
- b. If not, have added projects received Regional Office approval? _____
- 3.a. Is Master Plan of Work supplemented by a written detailed monthly plan in which the Supervisor, Ranger and Superintendent concur? Forest doesn't believe urgent enough in
- b. Does the Superintendent keep an adequate record or chart showing future planning and accomplishment based on the Plan of Work? Only mandatory reports this case
- 4.a. Is the Superintendent informed as to the allotment received by his camp? yes
- b. Does he plan the use of material, labor, and rentals so that a maximum of work is received for a minimum cost? yes
5. Are the highest priority jobs first scheduled, manned and supplied to insure completion without tag ends? yes
6. How many inspections of field work has the Forest made during this period? Rangers? . . . 6
Supervisor's staff? . . . 1
7. Are all instructions to foremen from forestry personnel routed through the Superintendent? Check this, especially in spike camps. yes
8. Do rangers and members of the Supervisor's staff make it a practice to leave definite written memoranda covering instructions and suggestions made as a result of their inspections? all verbal. Remarks
9. Is the Superintendent's time distributed among his various duties so as to insure good supervision? yes
10. How many hours per day does the Superintendent spend away from camp on the work projects? Base your reply on the Superintendent's diary if available about 6 hours
11. Does the Superintendent delegate responsibility to the foremen on their respective jobs? . . yes
12. Are foremen and facilitating personnel thoroughly competent to organize and accomplish jobs to which assigned? yes
13. Are foremen, leaders and assistant leaders adequate in number to obtain reasonable production from unskilled, untrained workers? yes
- 14.a. Are they distributed over the working forces to the best advantage? yes
- b. If not, what do you suggest? _____

The supervisor's office has made four inspections since June using this form as their inspection outline. The forest will average about six inspections per year per camp.

A. QUALITY OF ORGANIZATION (Continued)

- 15.a. Was dilatory action of enrollees noted on any of the jobs? no
 - b. Was this due to loafing or improper balance of individual work assignment? Discuss such instances with the Superintendent and report your findings in detail. _____
 - 16. Are there any crews which are not properly balanced for economical accomplishment of the work? balanced
 - 17.a. Do the foremen, leaders and assistant leaders confine their time entirely to jobs under their supervision? yes
 - b. Is their time distributed among the workers in such a manner as to assure maximum production by keeping all men working? yes
 - 18.a. Is clerical work well organized and effectively handled? yes
 - b. Is there sufficient clerical help to meet the needs? yes
 - 19.a. Has the Superintendent a permanent adequate record showing where all men are assigned each day? no, remarks
 - b. Do the foremen keep time reports on crews to supplement this record? yes
 - 20. Is the filing system adequate? yes
 - 21. Is correspondence answered promptly and filed currently? yes
 - 22. Check the mandatory reports for general compliance with instructions O.k.
 - 23. Are amendments to CCC handbook, safety manuals etc., received and posted currently? Check. yes
 - 24. Do all foremen and facilitating personnel read and initial important CCC, educational and safety circulars and CCC handbook amendments? majority of circulars are initial-
ed.
 - 25. Comment on any pertinent features not covered above.
- Remarks:

A.19.a. The superintendent has a record showing the number of men released to the technical service by the Army but he has no record of the individuals involved. The only record is in the foremen's timebooks. For example, 20 enrollees may be allotted to Army wood procurement, but the records do not show which individuals are assigned to wood crews. It would be hard to place the accident charge in case of accident, on to wood procurement or on technical service projects.

The hazard reduction and stand improvement projects are simple jobs to supervise and manage. The work consists mostly of fuel reduction along roadside strips, cleaning up down timber and felling standing snags. The dead material that can be used for wood is sawed and split into cord wood lengths.

CAMP ORGANIZATION
Average Last Week

Supervising and Facilitating Personnel			Projects and Number of Enrollees Assigned to Each							
Name	Classification	Salary	Accrued Annual Leave	Forest Service Overhead	Hazard Reduction	Const. Road #437A	Wood procure-ment	Maint. Road #437		Total number of Enrollees

B. QUALITY OF WORK ACCOMPLISHED

CCC Inspection

- | | |
|--|-------------------|
| 1. Are the Superintendent and foremen furnished with comprehensive specifications for all jobs listed on the Master Plan of Work in time to study them thoroughly before jobs are started? | <u>yes</u> |
| 2.a. Are specifications and instructions made available to foremen, skilled workers, leaders and assistant leaders for jobs to which they are assigned? | <u>yes</u> |
| b. Do they study them? Foremen do | <u>remarks</u> |
| c. Do they fully understand them? Foremen do | <u>remarks</u> |
| 3.a. Is there proper adherence to standards and specifications? | <u>yes</u> |
| b. If there are any deviations, what are they and upon what jobs? | |
| 4. Does the Superintendent use an adequate reminder list for each job under his supervision to check the quality and quantity of the work periodically? | <u>no</u> |
| 5. What changes in plans, locations or specifications, if any, do you believe advisable and upon what jobs? | <u>none</u> |
| 6. What steps have the Supervisor and Ranger taken to impress the Superintendent and foremen with their responsibility for the training of workers? (Go into this in detail with each Superintendent and with Supervisor or Ranger, if contacted.) | <u>remarks</u> |
| 7. Is importance of training in use of common tools recognized? | <u>yes</u> |
| 8.a. Based on your own observations, which crews do you believe show evidence of improper training? | <u>none</u> |
| b. List the weakest foremen in this respect and cite examples for improvement. | <u>all o.k.</u> |
| 9.a. Are there sufficient skilled workers, including skilled enrollees, to insure proper accomplishment of the planned work? | <u>yes</u> |
| b. If not, how many of what skills are lacking and for what jobs? | |
| 10. Do the foremen use any systematic plans ahead and have their work organized so that all phases are handled in an efficient manner? | <u>job sheets</u> |
| 11.a. Do foremen have a standard of accomplishment set up as an objective for work done by enrollees? | <u>job sheets</u> |
| b. Do they attempt to maintain this standard? | <u>yes</u> |
| 12. Comment on any pertinent features not covered above. | |

Remarks:

B.2.a.&b. The standards and specifications of different projects are made available to the leaders thru job instruction. Off-the-job instruction to a certain degree supplements the job instruction. (See educational program.)

The only complicated parts of the going projects are instruction of enrollees in proper work habits and doing jobs such as handling axes and saws. The enrollees' work shows improvement over green recruits but there is still room for more improvement.

B.6. Regional office circulars have been supplemented by supervisor's office memorandum of February 13, 1938.

C. QUANTITY OF WORK AS COMPARED TO MAN-POWER AVAILABLE

- 1. Average enrollment during past 30 days. 179
- 2. Average number released to Superintendent 124
- 3. Into how many working groups was this turnout divided?. 6
- 4.a. When did full company arrive? Oct. 13, 1937
- b. When did last replacements arrive?.Date Oct. 11, 1938
Number 83
- 5.a. List any jobs on which the output for the last 30 days impresses you as being too low . . o.k.
- b. In your judgment, what are the reasons for low output?. _____
- 6.a. Are there any jobs on which the enrollees do not spend the required number of hours on
the job? (Seven hours less actual transportation time allowance of not to exceed one
hour - minimum 6 hours.) All crews put in
the required
- b. If less than the required number of hours is being put in on any job, are the
reasons fully justifiable due to exceptional circumstances? Discuss fully
giving the reasons, the number of men involved and how soon the situation
will be corrected 6 hours on
project work
- 7. How many spike camps are out? none
- 8. How many enrollees in such camps? -
- 9.a. Could the number of spike camps be increased to advantage?. no
- b. On what jobs? _____
- 10. If there are spike camps out of this camp, use "Spike Camp Inspection" sheet.
- 11. Comment on any pertinent features not covered above.

Remarks:

D. USE AND CARE OF TOOLS AND EQUIPMENT

1. How many of the following machines on the job?
 Trucks 1-1/2 ton 6 Pick-ups 1 Dumps 1
 Bulldozers 1 Tractors 1 stored Compressors 1 stored
 Jackhammers 1 stored Shovels _____ Graders _____
2. What additional trucks and machines, if any, could be used to advantage and where? none
3. Has Superintendent tried to obtain more equipment, and with what results? no
- 4.a. Are any machines out of commission? no
 b. If so, for how long and for what cause? _____
- 5.a. How much of the time lost was preventable? _____
 b. How might it have been prevented? _____
- 6.a. Are there any idle trucks or machines at this camp? Only stored equipment
 b. List number, type, and cause of idleness. . . . _____
 c. Has idle machinery been reported to Supervisor? yes
- 7.a. Is full use being made of all trucks? yes
 b. Do they double shift where possible, haul capacity loads, make unnecessary trips? yes
 (Discuss in detail.) Haul capacity loads, no unnecessary trips noted.
- 8.a. Are bulldozers double shifted? no
 b. If not, why? Work doesn't warrant it
- 9.a. Are jackhammers double shifted? not used
 b. If not, why? _____
- 10.a. Are grading units double shifted? not used
 b. If not, why? _____
11. Are enrollees being used to fullest extent feasible on bulldozers and tractors? . one enrollee operator
- 12.a. Is the camp's supply of tools adequate to accomplish the jobs set up? yes
 b. Is there any surplus? no
13. Are tools properly conditioned for use? yes
- 14.a. Are there adequate shop facilities for sharpening, fitting and repairing all tools? Yes, probably need
 b. If not, what is lacking? _____ more axes.
15. Are the men sharpening and repairing tools competently instructed? yes
16. Are broken tools or equipment promptly repaired or grouped for condemning? Yes, not grouped according to
17. Are all tools marked with standard stamp? Yes, except saws. Safety Reg
- 18.a. Does the Superintendent have a tool clerk for checking tools in and out to foremen and enrollees? yes
 b. Is the system used adequate? yes
19. Are tools, equipment and materials gathered in from the work projects and properly stored? . yes
20. Are crews fully equipped with necessary tools and materials? yes
21. If material or equipment delays occurred, what caused them? yes
- 22.a. Have all truck drivers passed the required examination and have they permits? yes
 b. Are speed and driving rules (Form 607) posted in truck cabs? yes
 c. Any evidence of violation of these rules? no
- 23.a. Are servicing facilities adequate? yes
 b. Is camp supplied with a mechanic's tool kit adequate for proper maintenance of trucks? . yes
 c. Is camp equipped with grease racks? yes
 d. Is there a sufficient supply of light bulbs, fuses, bolts, etc., in camp for proper maintenance? yes
 e. Is a satisfactory check kept on gasoline and oil issued? (Forms 643 and 644.) yes
24. Does Superintendent require drivers to service and maintain trucks in accordance with booklet "O-CCC-ER-Equipment, Truck Maintenance-Camp Superintendent's Responsibility"? Check at least two trucks and report your findings in detail. yes
25. Are all trucks in use inspected daily by competent mechanic or personnel? Inspected daily by
26. Does Superintendent feel that the mechanical services assigned to this camp are sufficient to keep the trucks and machinery in proper condition? yes foremen and once a month by traveling mechanic.

D. USE AND CARE OF TOOLS AND EQUIPMENT (Continued)

- 27.a. Are blasting machines in use on all projects using powder? no powder used
- b. Are blasting machines tested periodically? _____
- c. Are galvanometers used for testing electric caps? _____
- d. Are there qualified men in charge of each blasting operation? _____
- e. Have blaster and storage magazine men passed the blaster's examination? _____
- f. Is the transportation of explosives done in compliance with regulations? _____
- g. Are primers made up in accordance with instructions? _____
- h. Are the permanent and job explosives magazines in compliance with regulations? _____
- i. Is a current record kept of all powder and caps issued? _____
- j. Is Form 113-R-1 maintained in truck cabs? _____
- k. Are definite warning signals posted on the bulletin boards? _____

28. Comment on any pertinent features not covered above.

Remarks:

D.24. Two Chevrolet 1½-ton trucks were inspected. They were found in very good shape. On one truck, the road flares were found to be short of fuel. The driver should be instructed in the proper placement of flares and flags on the road in case of accident while traveling.

F. COORDINATION WITH ARMY

- 1.a. Is camp construction completed? yes
- b. If not, what remains to be done? _____
- c. When is it expected to be completed? _____
- d. How many enrollees are engaged in camp construction? none
- e. How many enrollees are engaged in camp maintenance? _____
- 2.a. If Army overhead, aside from construction forces, consists of more than the approved number, list the uses to which the surplus is being put. remarks
- b. What action has been taken to reduce the force to the approved number, unless extras have been approved? _____
- 3. Are Forest employees and Army cooperating effectively? yes
- 4. Are all matters involving cooperation between the Technical Agency and the Company Commander taken up through the Project Superintendent? yes
- 5. Does Commander switch men without consulting the Superintendent? no
- 6. Is mess satisfactory as to quality and quantity? average
- 7. Do Forest Service employees pay their mess bills promptly? yes
- 8. Are arrangements for lunches and extra shift meals satisfactory? yes
- 9. Is camp discipline such as to strengthen the disciplinary measures required on the job by the work agency? yes, remarks
- 10.a. What percentage of the men are interested in their work? 85%
- b. If the percentage is low, what is the reason? See F.9.
- 11. Is selection and use of leader and assistant leader positions satisfactory to both agencies? yes
- 12. Are housing facilities for work agency employees commensurate with those occupied by Army men of comparable rank? yes
- 13. Are Technical Service personnel considerate of Army responsibilities in governing enrollees? (For instance, in such matters as loaning cars, guns, etc., to enrollees). yes
- 14.a. Are work agency quarters neat, clean and orderly? (Check for cleanliness of beds, floors, washbowls, latrines, etc. Discuss the findings.) yes
- b. Are the Forestry employees neat in appearance? yes
- 15.a. Does the Company Commander sign a requisition for use of Forestry trucks on recreational trips? yes
- b. Are the trips in harmony with the policy? yes
- c. Are enrollees returned to camp within a time limit so as not to interfere with their work the following day? yes
- 16. Comment on any pertinent features not covered above.

Remarks:

F.2.a. The Army overhead consists of 24 plus F.S. orderly and 1 sandwich man, or a total of 26. There are 24 officially.

F.9. The Army discipline in the camp, especially in the mess-hall is not as good as in some of the other second corps camps. This laxity, although probably not considered serious, is believed to have some bearing on making it more difficult for the technical service to govern the enrollees in the field. However, there were no discrepancies noted in the field that would substantiate this. This information was obtained from the superintendent.

G. EDUCATIONAL PROGRAM

1. Does camp have an educational adviser? yes
- 2.a. Does a camp educational committee function? yes
- b. Does it hold regular meetings? yes
- c. Does the Superintendent or his representative function constructively on the committee? . yes
- d. Are minutes of the meetings forwarded to the regional office currently? yes
3. Has a training assistant been appointed? yes
4. Does the Superintendent or training assistant hold regular meetings of technical personnel? Periodically, no
5. Are training records being kept? yes set time.
- 6.a. Is systematic training being given on the job? Training on the job is given
- b. Is it planned beforehand? yes
- c. Do all foremen participate? yes
7. Show on the following chart the courses being taught by technical personnel off the job:

Instructor	Subject	Number of Enrollees	Class Hours per Month	Is Job Analysis Used?
Mr. Nettleton				
Mr. Lightner	Auto Mechanics	20	4	yes
Mr. Beasley	Surveying & Cruising	10	4	yes
Mr. Anderson	Forestry	20	4	yes
Mr. Sales	Const. of Bunco Cabin (has had a course in this)			
Mr. Nettleton				
Mr. Lightner	Truck Driving, Safety	12	4	yes
Mr. Arneson	Road Construction	(Planning to start Jan. 10)		

8. Comment on any pertinent features not mentioned above.
 Remarks:

H. SAFETY PROGRAM

- 1. Has a safety committee been established? yes
- 2. Does the committee have weekly meetings? Twice a month
- 3. Do all the technical personnel attend these meetings? yes
- 4.a. Has the supervisory personnel taken first aid courses? remarks
- b. Check to see if the cards are void. "
- 5.a. Has a technical safety advisory committee been set up? yes
- b. Does it investigate each accident occurring under technical supervision? yes, very good
- 6. Has a safety assistant been selected and approved by the camp safety committee and is he giving proper attention to his duties? yes
- 7. Is transportation of enrollees in stake-trucks, dump-trucks and pickups handled in accordance with safety regulations? remarks
- 8. Are specified standard goggles provided and worn in accordance with safety regulations? yes
- 9. Are all the technical personnel furnished with safety regulations booklets? yes
- 10. Are first aid kits available on project work? yes
- 11.a. Are all chimneys and stove pipes on Forestry buildings screened or provided with spark arresters? yes
- b. Are adequate fire extinguishers available in Forestry buildings? remarks
- c. Are stoves safe distances from walls? yes
- d. Are stove pipes riveted at joints? yes
- e. Check for safe collars and roof jacks O.k.
- f. Has a fire marshall been designated and is he giving proper attention to his duties? (See Fire Control Handbook.) yes
- 12. Check the electrical wiring in the technical buildings. Being rewired by Army.
- 13. Check for compliance with fire prevention suggestions and mandatory regulations of the safety regulations at any garages and gas and oil storage buildings. Comment
- 14. Check equipment, machinery and work habits in garages and on jobs for any potential hazards that might exist. Comment. Mushroomed wedges were being used on the job. More attention should be given to eliminating their use.
- 15. Comment on any pertinent features not mentioned above.

Remarks:

H.4.a.&b. First Aid cards of Anderson (11-20-38), Langford (9-20-38), Arneson (11-29-38) and Beasley (7-11-38) have expired. Sales has lost his card. Nettleton's card is valid until 9-13-40 and Lightner's until 5-28-41.

H.7. Transportation of enrollees in stake-body trucks is done in accordance with the old safety regulations, but hardly anything has been done to comply with the new regulations in this respect, such as giving the drivers the required physical test, color blind test, hearing test, etc. The seats have not been anchored down as required. There are also numerous other regulations that should have attention.

H.11.b. The oil storage, truck garage, garage-workshop are all equipped with regulations fire extinguishers. The tool storage building is equipped with 1-quart pyrene fire extinguisher.

H.13. The oil storage building has a plank floor. To be in accordance with regulations, it should be of non-combustible material.

H.14. There are numerous new mandatory safety regulations that should have attention and should be enforced at this camp. Compliance with old regulations is very good but there has not been much progress in enforcement of new mandatory regulations.

By order of the District Commander:

 Ford Trimble,
 Captain, F.A.-Res., 10th F.A.,

GENERAL:

Good housekeeping was brought to the attention of the Commanding Officer as directed by the District Executive Officer. This should be at all times maintained and a strict follow-up inspection be installed to insure and maintain the high standards of camps. Envoleses as a whole were found to be neat and courteous. It is suggested that the Commanding Officer continuously caution his men to be well groomed, neatness in dress, and courtesies to be practiced at all times. The above notations are for strict compliance.

By order of the District Commander:

Ford Trimble
 Ford Trimble,
 Captain, F.A.-Res., 10th F.A.,
 Executive Officer.

CCC
INSPECTION
Camps F-180 and F-182
Coeur d'Alene

January 12, 1939

District Ranger,
Coeur d'Alene, Idaho.

Dear Mr. Larsen:

Mr. Akridge has completed the rough draft of his inspection reports covering Camps F-180 and Camp F-182 and they have gone to Missoula for typing and review there. On the whole, I believe he was quite well satisfied with his findings in these two camps although a number of matters were brought up which need attention.

As extra copies of his reports will be available shortly we will wait for them although there are three matters which I want to record at this time:

1. It occurred to me that the Master Work Plans which you and I worked up and which were reviewed by several of the chiefs in Missoula and finally approved have not been followed very closely. It is appreciated that conditions change and that it is often necessary to change the Plans. However, we must abide more fully by the Plans or get them changed. As we talked over, when it appears toward the end of a month that due to weather conditions, changed circumstances or the fact that some projects are done earlier than planned or are behindhand, you are requested to--in conference with me or a staff representative--make a monthly revision for the period ahead. On certain other jobs such as the work at Fernan Station a somewhat detailed plan or lineup for the coming month is needed. I will be glad to help or to provide help on any of these projects.

D.R.

2. It appeared that Superintendent Lightner had not concerned himself particularly with the new Safety Regulations and was not informed as to their provisions. There was a particularly noticeable difference in this feature between the two camps. You or Herb should make it a point to go into these matters carefully and fully, particularly with Lightner, to see that the foremen and others keep abreast of the changing requirements and get them into effect before they have to be picked up by an inspector.

3. Good progress was made on the Mount Coeur d'Alene Campground by the ERA crew with some time from the Beauty Bay Camp. I have reviewed my memorandum of August 15, 1938 and find that in two places I mentioned the screening of certain features although I did not specifically caution against the pruning of the trees in the camp area. However, this job was not set up as a job to be done and some of the jobs listed have not been completed. I fail to understand why a foreman would branch out on a tangent of his own in a matter of this kind. You should see that in the future no pruning around campgrounds is permitted unless specifically provided for. Also, I find that I failed to specify the kind of toilets to be used on the campground and there is now one old and one new green toilet in place. These are not standard for campground use and a special effort should be made next spring to provide two of the revised WPA toilets and the green frame buildings removed.

Very sincerely yours,

CHAS. D. SIMPSON

CHAS. D. SIMPSON,
Forest Supervisor.
