GENERAL INSPECTION REPORT

(To be prepared IN INK by Inspector and mailed to R.O. promptly for typing or photostating. Technical inspections of projects to be treated in separate or supplemental report)

Superintendent Wayne Newcomb Commander Capt. Pantou  
Title Name

Inspector C. D. Simpson Accompanied by —

Date of Inspection 7-31 & 8-1 Period Spent in Inspection from 7-30 to 8-1  
From To

Date of Last General R.O. Inspection June By Whom Ed Holcomb

Activities or Projects Inspected:  
Road construction - 2 jobs.  
" maint  
Tel. Court  
Fire preparedness.  
FINDINGS Blister rust - somewhat.

(If space provided is insufficient, use additional sheets, referencing to topic by key number, as "A-1", etc.)

A. QUALITY OF ORGANIZATION:

1. Has the Supt. an adequate work program for the season? yes
2. Does it define priorities of jobs? yes  
Are the priorities observed? yes
3. Does the Supt. have well-developed "plans ahead" for each job? yes
4. Do these plans "work out"? OK.
5. Has the Supt. a thorough grasp of all phases of his job? yes
6. What success has the Supt. in his dealings with Army officers? Very good
7. What is the Supt's attitude toward the job? Interested and giving good thought.
8. What % of the Supt's time is spent "on the job" away from camp?

1 of 2 fires  
once a week to spike camp. Crowd.  
Check some B.R. work or crew 1 to 2 times a week

9. Are foremen and facilitating personnel thoroughly competent to direct or accomplish the jobs to which assigned? yes.  
If misfits exist who are they and upon what jobs? \_\_\_\_\_
10. Are foremen, leaders and asst. leaders adequate in numbers to get reasonable production from unskilled, untrained workers? adequate.
11. Are they distributed properly over the working forces? yes. 4 B.R. foremen have only 72 men.  
If not, what adjustments are recommended? \_\_\_\_\_
12. Are foremen on the job and assertive in directing work? yes.
13. Is clerical work well organized and handled effectively? yes.
14. How many inspections of field work have Supervisor or staff made since opening of camp? (List dates, length of visit and names of officers) Haynes - 4 times. moved here June 3. Moody not on Polistee Rust fields hudington 1 day on fire training hudington 3 times on B.R. Both on Elk Det. about 4 days.
15. How many purely "camp visits" have been made by Supervisor and staff? (List dates and names of officers) Simpson once. Floberg often. Moody. 3 times in July. Moody sent fire equipment.
16. Do Supervisor and staff men make it a practice to leave with the Supt. definite written memoranda covering instructions or suggestions made as a result of inspections? If urgent matters arise.

B. QUALITY OF WORK ACCOMPLISHED:

1. Do Supt., foremen, leaders and skilled workers fully understand the specifications and standards applicable to the work upon which engaged?  
List any exceptions: yes.
2. Are these standards and specifications adhered to? yes
3. If deviations from standards or specifications are found, what are they and upon what jobs? \_\_\_\_\_
4. Are written specifications lacking for any of the jobs under way? No.
5. What changes in plans, locations or specifications, if any, do you believe advisable and upon what jobs? \_\_\_\_\_

6. Are foremen active in teaching CCC men how to improve their skill? \_\_\_\_\_
7. Is the force of skilled workers, including skilled CCC men, adequate to insure proper accomplishment of the work planned for? yes,
8. If not, how many men and of what skills are lacking?

For what jobs are they needed?

9. Has the Supt. recognized the need for more skilled workers, what action has been taken to secure them and with what results?
10. Which foremen have made noticeable progress in improving the skillfulness of their crew men? Maryott
11. What steps has the Supervisor taken to impress Supt. and foremen with their responsibility for the training of workers?

Training camp.  
Written line up.

C. QUANTITY OF WORK AS COMPARED TO MAN-POWER AVAILABLE:

110 - 14620  
119 - 7613

1. Average turnout for work past 30 days About 100 -
2. Into how many working groups was this turnout divided? \_\_\_\_\_
3. Which crews, if any, seem overly large for economical accomplishment of the job at hand? none
4. Upon what jobs does output for past 30 days impress you as being too low?

none - B.R. has finished Beauty Cr.

5. In your judgment what are the reasons for low output?

6. What jobs require more than 2 hours per day travel time? Road crew but not worth while to spike all B.R. crews around this amt.
7. How many men are engaged upon these jobs? 72 B.R. 15 roads.
8. What might be done to reduce travel time on these jobs? nothing

9. Are trucks operated on a double-shift basis? no.

10. If double-shifting of trucks is not practiced, is it feasible and what reduction in numbers of trucks could be effected through its practice?  
not needed as 8 trucks set up for fire unit

11. Is maximum service efficiency being obtained from trucks?  
lower end of S. Fork Cedar

(a) Capacity loads 72 in 4 trucks - but send 2 up & 2 to

(b) Staggering crew hauling trips in and out to work not needed.

(c) Is use of trucks for recreational purposes interfering with use for material and laborer hauling? If so, cite instances:  
No.

(d) Any instances of avoidable duplication of truck use by traveling Forest officers:  
none.

(e) Any instances of trips on petty errands that could have been attended to in some other fashion:  
none observed.

12. Are bulldozers triple-shifted? If not, why?  
no. 4 enrollees are pretty well qualified.

13. Are jackhammers triple-shifted? If not, why?  
No.

14. Are grading outfits double-shifted? If not, why?  
none

15. What additional machines, if any, could be used to advantage and where?  
none.

16. What machines, if any, are out of commission, for how long, and for what cause?  
none - Compressor must be sent in soon for over haul.

How much of this time loss was preventable and how might it have been prevented?  
—

17. Are these idle machines on the job? \_\_\_\_\_  
List number, type and cause of idleness: \_\_\_\_\_
18. Do foremen have "plans ahead" for each day's work? \_\_\_\_\_
19. Are foremen active in keeping crews balanced and fully equipped with necessary tools? yes
20. Are tools properly conditioned for use? OK.
21. Do foremen see to it that necessary materials and equipment are at hand for workers use? yes.
22. If material or equipment delays have occurred, what caused them? OK.

23. How many spike camps are out? One  
How many of the working force are in such camps? One foreman & 14 enrollees.
24. Could the number of spike camps be increased to advantage? no.  
On what jobs? \_\_\_\_\_

D. USE AND CARE OF EQUIPMENT:

1. Are blasting machines in use on all jobs requiring explosives? yes.
2. Are shop facilities adequate for sharpening, fitting and repair of all tools? \_\_\_\_\_  
If not, what is lacking? \_\_\_\_\_
3. How many power-operated machines on the job?  
(a) Trucks 8 1½-ton; 1 Pick-up;  
\_\_\_\_\_ Dump; (b) Bulldozers 1;  
(c) Tractors \_\_\_\_\_; (d) Compressors 1;  
(e) Jackhammers 1; (f) Shovels \_\_\_\_\_;  
(g) Graders 1 in storage.
4. Are the mechanic services assigned to the camp adequate to keep in condition the number of machines working? One month ago, inspected every  
If not, how many additional days of mechanic thing. nothing worth  
service per month are required? calling mechanic for.

- 5. (a) Do all drivers have permits? yes.
- (b) Are speed and driving rules pasted in truck cabs? \_\_\_\_\_
- (c) Any evidence of violation of speed and driving rules? none.
- (d) Any evidence of overloading? no

6. Are trucks properly maintained?  
List exceptions (Give truck No.) all look well kept.
- (a) Lubrication no close inspection made.
  - (b) Brakes \_\_\_\_\_
  - (c) Lights \_\_\_\_\_
  - (d) Tires \_\_\_\_\_
  - (e) General \_\_\_\_\_

- 7. Are servicing facilities adequate?
  - (a) Is camp equipped with grease rack? \_\_\_\_\_
  - (b) Is check on gasoline and oil issues adequate? \_\_\_\_\_
  - (c) What provision is made for current servicing of trucks?  
\_\_\_\_\_
  - (d) Are all trucks equipped with service cards and are they used? \_\_\_\_\_
  - (e) Are Drivers Report-Accident (Form 26) provided in all trucks? \_\_\_\_\_

**E. FIRE CONTROL PREPAREDNESS:**

- 1. What is the standard of preparedness set-up for the camp? (See ECW Handbook): special fire camp. 4 smoke chasers - 50 man squadron.
- 2. Is equipment to this standard at hand? yes. Is it in proper condition? yes. 50 man F.F. outfit. Plow outfit.
- 3. Is the prescribed flying squadron selected, overhauled and trained for its job? yes.
- 4. Do the selected smokechasers understand their job? yes - Idaho men -
- 5. Are the overhead men assigned to the flying squadron the most competent fire bosses available in the camps? all are set up & were selected with fire in view.
- 6. What preparedness measures have been lined up in addition to the prescribed standard?  
\_\_\_\_\_
- 7. Are adequate arrangements agreed upon with the Commander for holding men in camp in cases of impending need? yes. Capt is very good on fire.
- 8. Are available transport facilities adequate for quick movement of 75 men? yes - Entire camp.
- 9. What additional measures other than increasing size of squadron might be taken to improve adequacy of firefighting preparedness? 50 Pulaskis - shovels & 50 extra lights - besides the cargoed outfits. Possibly - pump unit.

10. What general instructions have been promulgated by the Camp Commander relative to smoking and use of fire in the Forest by CCC men?  
*announced & promised a D.D. if caught, no smoking on highway - mouth of Cedar Cr.*
11. Is the camp itself adequately fire-proofed? If not, what needs to be done?  
*yes. no on open trucks.*

**F. CO-ORDINATION WITH ARMY:**

1. Is camp construction completed? *No.*
2. If not, what remains to be done?  
*Minor items of plumbing finishing off. graveled walks etc.*
3. When is it expected to finish this? \_\_\_\_\_
4. How many men are engaged in camp construction work?  
*11 to 13 this week.*
5. Is camp construction over-refined? *No.*  
 Cite instances: \_\_\_\_\_

7. Are Forest employees and Army co-operating effectively? *Yes.*
8. Do Army officers understand the needs of the work being done by Forest Service? *Yes - 3rd season.*
9. Does Commander switch men without consulting Supt.? *No - has the N.P.s on rotation of field workers*
10. Is mess satisfactory? *Yes*
11. Are arrangements for lunches and "extra shift" meals satisfactory? *Yes.*
12. Is camp discipline such as to strengthen the disciplinary measures required on the job by the work agency? *Yes* *Co in last 6 weeks.*
13. Are men interested in their work? *Yes - but have had 40 men leave*
14. Is selection and use of leader and asst. leader positions satisfactory to both agencies?  
*yes.*

15. Are housing facilities for work agency employees commensurate with those occupied by Army men of similar rank? *yes.*  
If not, what is needed?

*Excellent*

16. Educational activities, (a) What is being carried on? *no Ed. Adviser. 1- asst.*

(b) Are work agency employees co-operating?

G. GENERAL: (Comments on any pertinent features not covered in the regular report)

*Elk mt. road has no new work as yet.*

*al. Fisher used on construction of powder house and tool house + gas pump shed + now on service + training of flow out fit. This arrived on July 31. (team.)*

*after the Cataldo rock point is finished bull dozer will start on Elk mt. Fisher is to start on stumping + clearing.*

*a small amount of road in South Fork of Cedar Cr. will open up good wood chance for camp. Thinnings on ground.*

*Wall Pk - Copper mt clearing to be started when B.R. cross down.*

Towers

FINDINGS

(If space provided is insufficient, use additional sheets, referencing to topic by key number, as "A-1", etc.)

A. QUALITY OF ORGANIZATION:

1. Has the Supt. an adequate work program Master work plan does not  
for the season? give work program for period following B. R. C.
2. Does it define give priorities of jobs? yes  
Are the priorities observed? yes
3. Does the Supt. have well-developed  
"plans ahead" for each job? yes
4. Do these plans "work out"? yes satisfactorily
5. Has the Supt. a thorough grasp of all  
phases of his job? He seems to have.
6. What success has the Supt. in his deal- Good now, but has not  
ings with Army officers? had much success in part due to poor C.O.
7. What is the Supt's. attitude toward  
the job? Very good
8. What % of the Supt's. time is spent  
"on the job" away from camp? About 75%

9. Are foremen and facilitating personnel thoroughly competent to direct or accomplish the jobs to which assigned? Yes  
If misfits exist who are they and upon what jobs? all good average foremen
10. Are foremen, leaders and asst. leaders adequate in numbers to get reasonable production from unskilled, untrained workers? Yes. 2 rated men per foreman
11. Are they distributed properly over the working forces? I believe so.  
If not, what adjustments are recommended?

12. Are foremen on the job and assertive in directing work? Yes

13. Is clerical work well organized and handled effectively? Yes

14. How many inspections of field work have Supervisor or staff made since opening of camp? (List dates, length of visit and names of officers)  
Haynes 2  
Larson several Roads  
Guernsey 1  
Nelson 3  
Fladberg 1

15. How many purely "camp visits" have been made by Supervisor and staff? (List dates and names of officers)  
Simpson 1 Larson several Fladberg 1 Guernsey 1

16. Do Supervisor and staff men make it a practice to leave with the Supt. definite written memoranda covering instructions or suggestions made as a result of inspections?  
Have left R. R. Co inspection report

**B. QUALITY OF WORK ACCOMPLISHED:**

1. Do Supt., foremen, leaders and skilled workers fully understand the specifications and standards applicable to the work upon which engaged? Yes very well  
List any exceptions:

2. Are these standards and specifications adhered to? Yes

3. If deviations from standards or specifications are found, what are they and upon what jobs? \_\_\_\_\_

4. Are written specifications lacking for any of the jobs under way? No

5. What changes in plans, locations or specifications, if any, do you believe advisable and upon what jobs? \_\_\_\_\_

6. Are foremen active in teaching CCC men how to improve their skill? Yes very good
7. Is the force of skilled workers, including skilled CCC men, adequate to insure proper accomplishment of the work planned for? yes
8. If not, how many men and of what skills are lacking?

For what jobs are they needed?                     

9. Has the Supt. recognized the need for more skilled workers, what action has been taken to secure them and with what results?
10. Which foremen have made noticeable progress in improving the skillfulness of their crew men?  
Strandy + Trumbull
11. What steps has the Supervisor taken to impress Supt. and foremen with their responsibility for the training of workers? Covered in detail at Training camp at Carter.

C. QUANTITY OF WORK AS COMPARED TO MAN-POWER AVAILABLE:

1. Average turnout for work past 30 days 135
2. Into how many working groups was this turnout divided? 6
3. Which crews, if any, seem overly large for economical accomplishment of the job at hand? None
4. Upon what jobs does output for past 30 days impress you as being too low? None
5. In your judgment what are the reasons for low output?
6. What jobs require more than 2 hours per day travel time? None
7. How many men are engaged upon these jobs?
8. What might be done to reduce travel time on these jobs?

9. Are trucks operated on a double-shift basis? No
10. If double-shifting of trucks is not practiced, is it feasible and what reduction in numbers of trucks could be effected through its practice? No.
11. Is maximum service efficiency being obtained from trucks?
- (a) Capacity loads Yes
  - (b) Staggering crew hauling trips in and out to work No.
  - (c) Is use of trucks for recreational purposes interfering with use for material and laborer hauling? If so, cite instances: No
  - (d) Any instances of avoidable duplication of truck use by traveling Forest officers: No.
  - (e) Any instances of trips on petty errands that could have been attended to in some other fashion: No
12. Are bulldozers triple-shifted?  
If not, why? No. Not sufficient men
13. Are jackhammers triple-shifted?  
If not, why?
14. Are grading outfits double-shifted?  
If not, why?
15. What additional machines, if any, could be used to advantage and where?
16. What machines, if any, are out of commission, for how long, and for what cause? None

How much of this time loss was preventable and how might it have been prevented?

17. Are there idle machines on the job? *No.*  
List number, type and cause of idleness:

18. Do foremen have "plans ahead" for each day's work? *Yes*

19. Are foremen active in keeping crews balanced and fully equipped with necessary tools? *Yes*

20. Are tools properly conditioned for use? *Yes good tool caretaker.*

21. Do foremen see to it that necessary materials and equipment are at hand for worker's use? *Yes*

22. If material or equipment delays have occurred, what caused them? \_\_\_\_\_

23. How many spike camps are out? *one*  
How many of the working force are in such camps? *21*

24. Could the number of spike camps be increased to advantage? *no*  
On what jobs? \_\_\_\_\_

D. USE AND CARE OF EQUIPMENT:

1. Are blasting machines in use on all jobs requiring explosives? *yes*

2. Are shop facilities adequate for sharpening, fitting and repair of all tools? *yes*  
If not, what is lacking?

3. How many power-operated machines on the job?

(a) Trucks *4*  $1\frac{1}{2}$ -ton; *1* Pick-up;

*1* Dump; (b) Bulldozers *1*;

(c) Tractors \_\_\_\_\_; (d) Compressors \_\_\_\_\_;

(e) Jackhammers \_\_\_\_\_; (f) Shovels \_\_\_\_\_;

(g) Graders \_\_\_\_\_.

4. Are the mechanic services assigned to the camp adequate to keep in condition the number of machines working? *yes*

If not, how many additional days of mechanic service per month are required? \_\_\_\_\_

5. (a) Do all drivers have permits? Yes  
(b) Are speed and driving rules pasted in truck cabs? Yes  
(c) Any evidence of violation of speed and driving rules? No.  
(d) Any evidence of overloading? No
6. Are trucks properly maintained?  
List exceptions (Give truck No.)  
(a) Lubrication Yes  
(b) Brakes Yes  
(c) Lights Yes  
(d) Tires Yes as good as they can with available pumps  
(e) General Good. Trucks can be washed but become dusty even though they sit in camp.
7. Are servicing facilities adequate?  
(a) Is camp equipped with grease rack? Yes  
(b) Is check on gasoline and oil issues adequate? Yes  
(c) What provision is made for current servicing of trucks? Service as per regulations.  
(d) Are all trucks equipped with service cards and are they used? Yes  
(e) Are Drivers Report-Accident (Form 26) provided in all trucks? Yes.

E. FIRE CONTROL PREPAREDNESS:

1. What is the standard of preparedness set-up for the camp? (See ECW Handbook): 15 man outfit & smokechasers
2. Is equipment to this standard at hand?  
Is it in proper condition? Yes
3. Is the prescribed flying squadron selected, overhauled and trained for its job? Yes & list posted
4. Do the selected smokechasers understand their job? Yes.
5. Are the overhead men assigned to the flying squadron the most competent fire bosses available in the camps? Yes
6. What preparedness measures have been lined up in addition to the prescribed standard? Smokechasers & 15 man squadron in special tents.
7. Are adequate arrangements agreed upon with the Commander for holding men in camp in cases of impending need? Yes
8. Are available transport facilities adequate for quick movement of 75 men? Yes
9. What additional measures other than increasing size of squadrons might be taken to improve adequacy of firefighting preparedness? \_\_\_\_\_

10. What general instructions have been promulgated by the Camp Commander relative to smoking and use of fire in the Forest by CCC men?

Regulations as per Carter Training Camp.

11. Is the camp itself adequately fire-proofed?  
If not, what needs to be done?

Yes fire extinguishers & water barrels.

F. CO-ORDINATION WITH ARMY:

1. Is camp construction completed? No.

2. If not, what remains to be done?

Generator house two tent flaps

3. When is it expected to finish this? About 10 days

4. How many men are engaged in camp construction work? About 15

5. Is camp construction over-refined? No

Cite instances: \_\_\_\_\_

6. If Army overhead, aside from construction forces, consists of more than 23 men, list the uses to which the surplus is being put: \_\_\_\_\_

7. Are Forest employees and Army co-operating effectively? Yes under new setup.

8. Do Army officers understand the needs of the work being done by Forest Service? Seem to.

9. Does Commander switch men without consulting Supt.? No.

10. Is mess satisfactory? Yes good.

11. Are arrangements for lunches and "extra shift" meals satisfactory? Yes

12. Is camp discipline such as to strengthen the disciplinary measures required on the job by the work agency? No hasn't been

13. Are men interested in their work? Not very not interested in anything.

14. Is selection and use of leader and asst. leader positions satisfactory to both agencies? Yes

15. Are housing facilities for work agency employees commensurate with those occupied by Army men of similar rank? Yes.  
If not, what is needed?

16. Educational activities, (a) What is Not much, except  
being carried on?  
what foremen carry on in field

(b) Are work agency employees co-operating?

Yes

G. GENERAL: (Comments on any pertinent features not covered in the regular report)

Kafterson has had a tough proposition here due to a poor Camp Commander, this however has been changed and things seem to be on the up grade.

Camp Supt. & Foreman (Especially Strandey) are taking active part in trying to get recreational activities started in the camp, the morale of the camp has been low and it carries on out into the field. Forestry overhead feel that if they can get the boys out of their tents in the evenings and get them busy at some sport, that it will help them materially in the field.

I believe that this would be a fine camp to at least make an effort to get some grass started. The dust is awful and it has a great demoralizing influence.

Activities or Projects Inspected:

Swan Mt. Road Const.  
Roadside Cleanup - Beauty Cr.  
Wood job. Cedar Cr.

FINDINGS

(If space provided is insufficient, use additional sheets, referencing to topic by key number, as "A-1", etc.)

A. QUALITY OF ORGANIZATION:

1. Has the Supt. an adequate work program for the season? yes
2. Does it define priorities of jobs? Are the priorities observed? \_\_\_\_\_
3. Does the Supt. have well-developed "plans ahead" for each job? yes
4. Do these plans "work out"? yes
5. Has the Supt. a thorough grasp of all phases of his job? yes
6. What success has the Supt. in his dealings with Army officers? Very good.
7. What is the Supt's attitude toward the job? Good
8. What % of the Supt's time is spent "on the job" away from camp? 70%

9. Are foremen and facilitating personnel thoroughly competent to direct or accomplish the jobs to which assigned? yes  
If misfits exist who are they and upon what jobs? All understand job on which engaged
10. Are foremen, leaders and asst. leaders adequate in numbers to get reasonable production from unskilled, untrained workers? yes
11. Are they distributed properly over the working forces? yes  
If not, what adjustments are recommended?

12. Are foremen on the job and assertive in directing work? yes
13. Is clerical work well organized and handled effectively? yes
14. How many inspections of field work have Supervisor or staff made since opening of camp? (List dates, length of visit and names of officers) Haynes  
Stalberg
15. How many purely "camp visits" have been made by Supervisor and staff? (List dates and names of officers)
16. Do Supervisor and staff men make it a practice to leave with the Supt. definite written memoranda covering instructions or suggestions made as a result of inspections? Generally so

B. QUALITY OF WORK ACCOMPLISHED:

1. Do Supt., foremen, leaders and skilled workers fully understand the specifications and standards applicable to the work upon which engaged? yes.  
List any exceptions:
2. Are these standards and specifications adhered to? yes
3. If deviations from standards or specifications are found, what are they and upon what jobs? None in evidence
4. Are written specifications lacking for any of the jobs under way? Roadside cleanup
5. What changes in plans, locations or specifications, if any, do you believe advisable and upon what jobs? None.

6. Are foremen active in teaching CCC men how to improve their skill? Yes - active on job training
7. Is the force of skilled workers, including skilled CCC men, adequate to insure proper accomplishment of the work planned for? Yes.
8. If not, how many men and of what skills are lacking? None needed for jobs now under way.  
For what jobs are they needed?

9. Has the Supt. recognized the need for more skilled workers, what action has been taken to secure them and with what results?  
None needed at present.

10. Which foremen have made noticeable progress in improving the skillfulness of their crew men? All the foremen are interested in the job training program.
11. What steps has the Supervisor taken to impress Supt. and foremen with their responsibility for the training of workers?

C. QUANTITY OF WORK AS COMPARED TO MAN-POWER AVAILABLE:

1. Average turnout for work past 30 days 112 - Does not include
2. Into how many working groups was this turnout divided? 10 and 11 (wood detail)
3. Which crews, if any, seem overly large for economical accomplishment of the job at hand? None - Crews well balanced.
4. Upon what jobs does output for past 30 days impress you as being too low? Satisfactory.
5. In your judgment what are the reasons for low output?
6. What jobs require more than 2 hours per day travel time? None - Clearing job on Swan mt. about 1 3/4 hrs per day
7. How many men are engaged upon these jobs?
8. What might be done to reduce travel time on these jobs?

9. Are trucks operated on a double-shift basis? *All hauls too long to double shift satisfac.*
10. If double-shifting of trucks is not practiced, is it feasible and what reduction in numbers of trucks could be effected through its practice? *(fairly)*

11. Is maximum service efficiency being obtained from trucks? *yes*

- (a) Capacity loads *yes*
- (b) Staggering crew hauling trips in and out to work *yes*.
- (c) Is use of trucks for recreational purposes interfering with use for material and laborer hauling? If so, cite instances:

*No.*

(d) Any instances of avoidable duplication of truck use by traveling Forest officers:

*None in evidence*

(e) Any instances of trips on petty errands that could have been attended to in some other fashion: *No.*

12. Are bulldozers triple-shifted? *No.*  
If not, why?

13. Are jackhammers triple-shifted? *None in use*  
If not, why?

14. Are grading outfits double-shifted? *None in use.*  
If not, why?

15. What additional machines, if any, could be used to advantage and where? *1 1/2 ton stake trucks for Elk Mt rock job.*

16. What machines, if any, are out of commission, for how long, and for what cause? *None (truck to be used as long as needed.)*

How much of this time loss was preventable and how might it have been prevented? *✓*

17. Are there idle machines on the job?

List number, type and cause of idleness:

Re Rai Compressor No 27. Will be moved to Elk Mt Road Dec 4<sup>th</sup>

18. Do foremen have "plans ahead" for each day's work? yes

19. Are foremen active in keeping crews balanced and fully equipped with necessary tools? yes

20. Are tools properly conditioned for use? Very Satisfactory

21. Do foremen see to it that necessary materials and equipment are at hand for worker's use? yes

22. If material or equipment delays have occurred, what caused them? No serious delays.

23. How many spike camps are out? None.  
How many of the working force are in such camps? ✓

24. Could the number of spike camps be increased to advantage? ✓  
On what jobs? ✓

D. USE AND CARE OF EQUIPMENT:

1. Are blasting machines in use on all jobs requiring explosives? yes

2. Are shop facilities adequate for sharpening, fitting and repair of all tools? yes.  
If not, what is lacking? ✓

3. How many power-operated machines on the job?

(a) Trucks 5 1½-ton; 1 Pick-up;  
Dump; (b) Bulldozers 1;

(c) Tractors ✓; (d) Compressors 1;

(e) Jackhammers 1; (f) Shovels ✓;

(g) Graders Maintainer - Not being used  
(For storage)

4. Are the mechanic services assigned to the camp adequate to keep in condition the number of machines working? yes.  
If not, how many additional days of mechanic service per month are required? None.

5. (a) Do all drivers have permits? yes  
 (b) Are speed and driving rules pasted in truck cabs? yes  
 (c) Any evidence of violation of speed, and driving rules? None in evidence  
 (d) Any evidence of overloading? No.
6. Are trucks properly maintained? yes.  
 List exceptions (Give truck No.)  
 (a) Lubrication OK.  
 (b) Brakes OK  
 (c) Lights OK  
 (d) Tires OK  
 (e) General Being kept in very good condition
7. Are servicing facilities adequate?  
 (a) Is camp equipped with grease rack? yes  
 (b) Is check on gasoline and oil issues adequate? yes.  
 (c) What provision is made for current servicing of trucks? Traveling mechanic for 2 ECW Camps. Truck foreman. Servicing & minor repairs by drivers  
 (d) Are all trucks equipped with service cards and are they used? yes  
 (e) Are Drivers Report-Accident (Form 26) provided in all trucks? yes.

E. FIRE CONTROL PREPAREDNESS:

1. What is the standard of preparedness set-up for the camp? (See ECW Handbook): \_\_\_\_\_
2. Is equipment to this standard at hand?  
Is it in proper condition? \_\_\_\_\_
3. Is the prescribed flying squadron selected, overhauled and trained for its job? \_\_\_\_\_
4. Do the selected smokechasers understand their job? \_\_\_\_\_
5. Are the overhead men assigned to the flying squadron the most competent fire bosses available in the camps? \_\_\_\_\_
6. What preparedness measures have been lined up in addition to the prescribed standard?  
\_\_\_\_\_
7. Are adequate arrangements agreed upon with the Commander for holding men in camp in cases of impending need? \_\_\_\_\_
8. Are available transport facilities adequate for quick movement of 75 men? \_\_\_\_\_
9. What additional measures other than increasing size of squadrons might be taken to improve adequacy of firefighting preparedness? \_\_\_\_\_

10. What general instructions have been promulgated by the Camp Commander relative to smoking and use of fire in the Forest by CCC men?

11. Is the camp itself adequately fire-proofed?

If not, what needs to be done?

*Need fire extinguishers for tool house and repair shop.*

F. CO-ORDINATION WITH ARMY:

1. Is camp construction completed? *No*

2. If not, what remains to be done?

*Gas rack, army, Garbage rack, wood box, gravel and side walks.*

3. When is it expected to finish this? *About Jan 1<sup>st</sup>*

4. How many men are engaged in camp construction work? *17*

5. Is camp construction over-refined?

Cite instances:

6. If Army overhead, aside from construction forces, consists of more than 23 men, list the uses to which the surplus is being put: *Recent letter from district*

*headquarters authorized 26 men including assist educational advisor.*

7. Are Forest employees and Army cooperating effectively? *yes*

8. Do Army officers understand the needs of the work being done by Forest Service? *?*

9. Does Commander switch men without consulting Supt.? *No.*

10. Is mess satisfactory? *yes*

11. Are arrangements for lunches and "extra shift" meals satisfactory? *yes*

12. Is camp discipline such as to strengthen the disciplinary measures required on the job by the work agency? *yes*

13. Are men interested in their work?

14. Is selection and use of leader and asst. leader positions satisfactory to both agencies? *yes.*

15. Are housing facilities for work agency employees commensurate with those occupied by Army men of similar rank? If not, what is needed?

Yes - Very satisfactory

16. Educational activities, (a) What is being carried on?

11 courses at present  
1 by supervising (FS) personnel

(b) Are work agency employees co-operating?

Expect to start courses (night classes) this week.

G. GENERAL: (Comments on any pertinent features not covered in the regular report)

B-4. Not necessary for these jobs now under way.

C-12. Dozer on Swan Mt job being single shifted.

Distribution of men Dec. 3rd.

FS.

Army

Swan Mt Road 23

Making Fence Posts 3

Roadside Cleanup - Cedar Cr. 49

" " Beauty " 24

Kingston R.S. - 2

Truck Drivers etc - 9

Detached Duty - 1

Army Dohd. 25

Camp Const. 17

Wood - 26

Educ. Advisor 1

Det. Duty 4

Sick, leave, AWOL 14

Note - 26 men are being used on Wood detail. This seems like a large number on this job but no doubt a good plan to take advantage of the good weather for getting out the wood on Cedar Cr.

F-16 B. All the foremen are doing very well on job training. Altho there is no educational advisor at this camp plans are being made for the foremen to conduct night classes in conjunction with the educational program.

Supl. and all foremen are having discussions twice every week on various subjects such as road const, rock drilling, blasting, etc.

COMPLAINTS or SUGGESTIONS by COMMANDING OFFICER:

REMARKS:

This camp has improved considerably each inspection since Lt. Barber assumed command.

NOTE: The same system of ratings as used on Efficiency Reports will be used where required, i.e.,

Superior, 95% to 100%  
 Excellent, 85% to 95%  
 Satisfactory, 75% to 85%

Unsatisfactory, 65% to 75%  
 Inferior, Below 65%

Total Efficiency; Rating for Camp Excellent

Camp Wolf Lodge, F-182

MEMORANDUM OF TECHNICAL ROAD INSPECTION

Camp Commander, Captain John Smith.  
Camp Superintendent, Wayne Newcomb.

The present strength of this company is about 187 enrollees and of this number we are receiving as an average about 110 men for our projects. It would appear, after a thorough inspection, that the number of men retained by the Army is over-large and that a large number of men retained could be released for our work projects. (Fort Wright authorized holding some 20 men for graveling. This is about done. Camp area and walks. /s/ C. D. Simpson) However, as the camp commander has just been changed, it is doubtful if we can expect these men held on camp maintenance to be released and it is quite probable that more will be used to make the various alterations which generally result when a change is made in commanders. Impressions have been received by the writer that in some camps the total number of men being reported as held for camp construction or maintenance is not used as a whole for this work but is used as replacements or additional camp overhead. (Above is too broad a statement. We knew of one case which was corrected. /s/ C. D. Simpson)

The work at this camp is divided into three general projects: roadside cleanup, stand improvement and road construction.

Roadside cleanup

At the present time two crews are being used on roadside cleanup. These crews total about 40 men and are under the direction of Foremen Beasley and Dunnigan. This work is being done on Route # 10 which traverses the Forest from Wallace to Coeur d'Alene. The section now being worked on is about 1 1/2 miles long and is near the west boundary of the Forest.

Excellent work has been done on this work and it has increased the appearance of the adjacent forest and reduced the fire hazard materially. This work consists of the removal of the dead down and standing timber and the burning of all material

COPY FOR SUPERVISOR

Memo of Insp. Camp Wolf Lodge, F-182

thus secured with the exception of what will make wood which is transported to camp.

All cedar trees removed which are found suitable are converted into telephone poles or fence posts for use on the Forest.

### Stand Improvement

Considerable work has been done along this line and will be done later when other projects have been completed. This work will be under the supervision of Foreman Maryott. In going over the work already completed, although I am not a Forestry graduate, I was very well pleased with the appearance of the work and the obvious results that can be expected in the future from work of this nature. Stand improvement is being done in accordance with the instructions issued by Forest Management.

### Beauty Creek Road Spur #438

This project is primarily a utilization road through a stand of mixed timber which consists largely of mature white pine. This project is a spur road off from the main Beauty Creek Road and will be approximately six miles long. The location of this road was made by Foreman Joki under the supervision of Superintendent Newcomb. Excellent work was done in location on a contour grade although some discussion was had on the project in regard to the take-off. In this discussion I tried to bring out the possible shortening of the road by about three stations by using a 0.0 grade or possibly a slight adverse grade instead of approximately a 3% grade which was run out until it intersected the main road.

Both intersections had their good points and as clearing had already been completed on the route selected by the locator, it was not thought advisable to make a change. (I believe route as located is preferable although a little longer. /s/ C. D. Simpson)

### Clearing

Several crews were being used on this work under the direction of several foremen who were assigned definite sections to clear. As this work has just been started and the clearing very heavy, the job had the appearance of being bunched up. It is quite obvious that on a heavy clearing job where teams are not available and where hand logging is used, work will be somewhat bunched at the start in order to clean up the tail end and in order to provide work for the dozer. The dozer will be used to deck the logs at a later date but was receiving some necessary

Memo of Insp. Camp Wolf Lodge, F-182

overhaul, valve grinding and replacement of one roller. It was ready for work before I left the camp. (Also to skid all full length logs. Only firewood being hand logged. /s/ C. D. Simpson)

#### Stump Work

The powder work on both the stumping operation and rock work will be under the supervision of Foreman Davis. Although very little work had been done on this project by this man, I was very well impressed by his capacity upon receipt of the information that he was a promoted enrollee.

#### Superintendent Newcomb

I am very well impressed with this superintendent, not only from the fact that he has an excellent camp, well organized work projects and the apparent ability to handle the work in an efficient manner, but also in the interest shown by him in an effort to conduct his work in an economical and satisfactory manner.

#### Forestry Quarters

Quarters for the Forestry personnel in this camp are above the average of any I have seen. Furniture for the sitting room has been secured by the personnel at their own expense. Considerable pride is taken in the orderliness and neatness of these quarters. All personnel, except the paid mechanics, have the required uniforms and it is customary to clean up and change clothes before using the comforts of the living room. In inspecting a large number of camps, very few mechanics have been found who have the regular uniforms. It is not felt by the Supervisors that they can order these men to obtain uniforms as they are not entirely under their direction as pay rolls, time-sheets and expense accounts are not transmitted through their offices.

The matter of clothing for the mechanics could be settled by the Division of Engineering and a bad feeling that exists in these camps be removed.

#### Coeur d'Alene Forest

I am very well pleased by the methods used in dealing with the various personnel problems. An effort is made to see that the personnel in these camps is required to keep the accrued leave down to a minimum. (Mostly taken Saturday forenoons. /s/ C. D. Simpson) This quite obviously reduces the necessity

Memo of Insp. Camp Wolf Lodge, F-182

of employing additional foremen or the bunching up of crews when a foreman desires leave.

Salaries of personnel being used as foremen are comparable with the work being done and not as in other Forests where a "winter home" is provided for ex-superintendents handling small crews and receiving large salaries for past performance.

/s/ C. V. Stevens  
Inspector.

| 1. Has Supt. a detailed work program?   | <u>yes</u>                            |
| 2. Does it define priorities of jobs?   | <u>yes</u>                            |
| 3. Does Supt. have well-developed "plans ahead" for each job?   | <u>yes</u>                            |
| 4. What success has he in making these plans materialize?   | <u>good</u>                           |
| 5. Does Supt. keep an adequate record or chart showing accomplishment based on plan of work?  | <u>yes</u>                            |
| 6. If not, did you suggest how to keep such a record?   | <u>yes</u>                            |
| 7. Has Supt. a thorough grasp of his job?   | <u>yes</u>                            |
| 8. What is his attitude towards the job?  | <u>excellent</u>                      |
| 9. Basing your reply on analysis of Supt's diary, if available, or on other information, how many hours per day does he average away from camp on the work projects?  | <u>no diary</u><br><u>5 1/2 hours</u> |
| 10. How many hours per day do the enrollees average on work projects?   | <u>6 hours</u>                        |
| 11. Are foremen and facilitating personnel thoroughly competent to direct or accomplish jobs to which assigned? (Dig into this and discuss <u>thoroughly</u> .) Are there any misfits? If so, on what jobs? How many replacements has this camp had because of inefficiency or other unfitness? (Do not include releases due to no further need of certain overhead.) | <u>See memo</u>                       |
| 12. Are foremen, leaders and asst. leaders adequate in numbers to get reasonable production from unskilled, untrained workers? If not, what do you suggest?   | <u>yes</u>                            |
| 13. Are they distributed over the working forces to the best advantage? If not, what do you suggest?  | <u>yes</u>                            |

14. What are the minimum and maximum numbers of workers under any foreman? 3 - 21  
 What is the average for all foremen? 12
15. Are the foremen alive to their jobs in directing the work? How do they size up? excellent
16. Where you find men loafing on the job, give foreman's name and the number loafing in each case. Discuss such instances with Supt. and state what comments he offers.
17. Check clerical work and state whether it is well organized and effectitvely handled. Does Supt. know where all men are assigned each day? yes  
 Does he keep necessary records on time by projects? yes  
 Does he submit his reports on time? yes  
 Has he sufficient clerical help to meet the needs? yes
18. How many inspections of field work have Supervisor or staff made during this enrollment period? 6
19. How many purely "camp visits" by Supervisor or Staff? 3
20. How many weeks since full company arrived, or since start of period in case company arrived during a previous period? Company arrived June 2
21. Do Supervisor and staff men make it a practice to leave with the Supt. definite written memoranda covering instructions or suggestions made as a result of their inspections? written memo

B. QUALITY OF WORK ACCOMPLISHED

1. Do Supt., foremen, leaders and skilled workers fully understand the standards and specifications applicable to the work on which engaged? yes  
 Do the Supt. and foremen carry the specifications with them out on the jobs? yes  
 Discuss any exceptions.
2. Are standards and specifications adhered to?  
 If there are any deviations, what are they and upon what jobs?
3. Are written specifications lacking for any of the jobs under way? yes  
 If so, list such jobs?
4. What changes in plans, locations or specifications, if any, do you believe advisable and upon what jobs?
5. Based on your own observations, which foremen are active in teaching enrollees how to improve their skill? Cite examples.
6. Are there enough skilled workers, including skilled enrollees, to insure proper accomplishment of the planned work? yes
7. If not, how many men and of what skills are lacking?  
 For what jobs are they needed.
8. Has the Supt. recognized this need, What action has he taken to secure them? What were the results?
9. Do the Supt's various handbooks and sets of instructions show evidence of study? yes  
 Are they kept in a place readily available? yes  
 Do they have "dog ears"? yes  
 Do the foremen study any of them? yes

10. What steps has the Supervisor taken to impress the Supt. and foremen with their responsibility for the training of workers? (Go into this in detail with each Supt., and with Supervisor or staff men, if contacted.) see memo
11. Do foremen have "plans ahead" and their work lined up on the jobs so that all phases of the work are handled in an efficient manner? yes
12. Are foremen active in keeping crews balanced on the job? yes

C. QUANTITY OF WORK AS COMPARED TO MAN-POWER AVAILABLE

1. Average enrollment during past 30 days 191
2. Average number released to Supt. 109
3. Into how many working groups was this turnout divided? 8
4. List any crews which seem overly large for economical accomplishment of the work.
5. List any jobs on which the output for the past 30 days impresses you as being too low. In your judgment, what are the reasons for low output?
6. List any jobs on which the enrollees do not put in a full 6 hours on the job, exclusive of travel time. Give number of men involved and specific reasons why a full 6 hours is not spent. If less than 6 hours is not fully justified due to exceptional circumstances, what action has been taken to correct this?
7. How many spike camps are out? none
8. How many enrollees in such camps? \_\_\_\_\_
9. Could the number of spike camps be increased to advantage?  
On what jobs? \_\_\_\_\_

D. USE AND CARE OF TOOLS AND EQUIPMENT

1. How many of the following machines on the job:  
Trucks, 1½ ton 6; Pick-up 1; Dump 1.  
Bulldozers 1; Tractors \_\_\_\_\_; Compressors 1;  
Jackhammers 1; Shovels \_\_\_\_\_; Graders \_\_\_\_\_.
2. What additional trucks and machines, if any, could be used to advantage and where? none
3. Has Superintendent tried to get more trucks or machinery, and with what result?
4. What machines, if any, are out of commission, for how long, and for what cause?
5. How much of this time loss was preventable, and how might it have been prevented?
6. Are there any idle trucks or machines on the job? no  
List number, type, and cause of idleness.
7. Have surplus trucks or machinery, if any, been reported to Supervisor? yes
8. Is full use being made of all trucks? Do they double shift where possible, haul capacity loads, stagger crew hauling, make unnecessary trips?  
Discuss in detail.

7. Are adequate arrangements agreed upon with the Commander for holding men in camp in cases of impending need?
8. Are available transport facilities adequate for quick movement of 75 men?
9. What additional measures other than increasing size of squadron might be taken to improve adequacy of firefighting preparedness?
10. Check prohibition against smoking away from camp except at previously designated (posted) smoking sites, places of habitation or public camp grounds. Have enrollees been duly informed and are they complying?
11. Check fire protection in main camp. This is primarily an Army responsibility but the following should be given attention by the Supt.:
  - (a) All chimneys and stove pipes in F.S. buildings to be screened or provided with spark arresters.
  - (b) Metal floor boards under stoves.
  - (c) Blacksmith forges to be provided with screen or screened hood.
  - (d) Fire extinguishers should be available in F.S. buildings.
  - (e) Stoves should be safe distance from walls.
  - (f) Stove pipes should be riveted at joints where there is any danger of telescoping.
  - (g) Check for safe collars and roof jacks.
  - (h) Has a fire marshall been designated and is he giving proper attention to his duties? He is responsible for maintenance of fire tool caches, fire-proofing camp sites and is the fire prevention expert.

NOTE: Other fire prevention covered under G-7.

O. K.

F. COORDINATION WITH ARMY

1. (a) Is camp construction completed?  
 (b) If not, what remains to be done?  
 (c) When is it expected to finish this?  
 (d) How many enrollees are engaged in camp construction work?
2. Is camp construction over-refined?  
 Cite instances.
3. (a) If Army overhead, aside from construction forces, consists of more than 23 men, list the uses to which the surplus is being put.  
 (b) What action has been taken to reduce the force to 23 unless extras have been approved?
4. Are Forest employees and Army cooperating effectively?
5. Does Commander switch men without consulting Supt.?
6. Is mess satisfactory?
7. Are arrangements for lunches and "extra shift" meals satisfactory?
8. Is camp discipline such as to strengthen the disciplinary measures required on the job by the work agency?
9. Are men interested in their work?
10. Is selection and use of leader and asst. leader positions satisfactory to both agencies?

H. GENERAL

Comment on any pertinent features not covered in the regular report.

I. Statement by Forest Supervisor or State Forester:

I have read the above report, discussed it with  
Inspector C. V. Stevens and desire to comment

as follows: (Use extra sheets where necessary.)

- a.20. This is our Idaho Company which has been on Forest since spring of 1933.

Have made insert comments in "Memorandum of Technical Road Inspection."

(signed) Chas. D. Simpson

Forest Supervisor, or  
State Forester

ATTACHED MEMO      CAMP F-182

A.11.      The present personnel at this camp were carefully selected previous to the winter program as the Coeur d'Alene camps were reduced from 16 to 4 it was quite possible to do this and eliminate the necessity of picking men which would have to be replaced later.

B.10.      At the present time there is not an educational adviser at this camp. It is believed that one should be secured. It may be that plans have been made to send one here but as the educational activity is an Army responsibility, it would not appear justifiable to order the Forestry personnel to carry on the work and the Army receive the credit. Nevertheless the Forestry personnel are carrying on several classes in vocational subjects. Education on the job is confined to individual instruction or to occasional group meetings where interesting examples of damage by the Forests enemies have been found, or a general discussion of what is proposed in order to acquaint the enrollees with what we are trying to do and thus expedite our work.

G.7.      Excellent work has been done in the construction and maintenance of all buildings in regards to the suggestions outlined in the Safety Division Bulletins.

/s/ C. V. Stevens  
Inspector.

Camp F-182

MEMORANDUM FOR FOREST SUPERVISOR

I spent two days, February 28 and 29 at Camp F-182, accompanied by Superintendent Newcomb, on the various projects on which work is now under way and also discussing plans for future work.

It has been necessary to deviate, somewhat, from the set up on the Master Work Plan due to inclement weather and also because some projects cannot be completed in the time allotment on the Work Plan.

The roadside cleanup job on Cedar Creek will be completed, as far as is possible this time of the year, in about three weeks with favorable weather conditions. Two crews are being worked on this job. It may not be possible to complete the cleanup at this time in the creeks and in the low swampy places.

Very little timber stand improvement has been done in the past month. Most of the time there has been snow in the trees and weather conditions were considered unfavorable for this work. The crew was worked on roadside cleanup on Beauty Creek when not on the thinning job.

The work done on the thinning is very satisfactory - about twelve acres are completed to date at about forty man-days per acre. Most of the work thus far has been along the Beauty Creek spur road which means that about 60 percent of the slash on the area completed has been burned.

One crew is doing the necessary clearing for the Beauty Creek reconstruction road job in conjunction with roadside cleanup. This job is working out very well and the present plans are to continue this work.

About one-quarter mile of clearing remains to be done on the Beauty Creek spur road. Upon completion this crew will go on timber stand improvement and roadside cleanup. The bulldozer is, at present, working on the left fork of the spur road, with fair progress. One compressor (Farmer) is being used for rock work.

*Copies sent. Greensey  
Haynes  
Moody  
Shadberry*

Memo.

Except for the clearing and rock work, the Class 3 reconstruction on Beauty Creek seems to be out of the picture until conditions are more favorable. With the ground frozen, as it is at present, it seems best to do the dozing and dirt work later.

This camp has had a large number of enrollees on the sick list in the past month. An average of fourteen men per day or about 7.9 percent of the enrolled strength were confined to quarters due to sickness during the month of February.

At present, there are ten men or about 5.6 percent on Army detached duty. This, I believe, accounts for the low turnout shown on ECW Weekly form #122. Considerable work has been necessary for repairing the water system. As I understand it, Captain Smith is authorized by Fort George Wright to use men necessary to make these repairs. Newcomb assigned one of the foreman to assist in supervising and speeding up this work. This accounts for low turnout for week ending February 22nd.

Work on the Cedar Creek road was also discussed but no definite plans will be made until Mr. Haynes is consulted.

H. Flodberg  
INSPECTOR

ECW  
Supervision-Coeur d'Alene  
Wolf Lodge Camp, F-182

March 28, 1936.

MEMORANDUM OF TECHNICAL ROAD INSPECTION

Camp Superintendent, Wayne Newcomb.  
Camp Commander, Captain John Smith.

At the present time the enrolled strength of this company is about 167 and we are receiving about 120 for our projects. It is expected that we shall lose about 40 enrollees from this camp on April 10. The enrollees turned over to us are being used on the following projects:

Roadside Cleanup

Two crews are being used on this work. One crew of about 20 enrollees under Foreman Dunnigan is completing the cleanup on Highway No. 10; the other crew of about 20 men under Foreman Beasley is working on cleanup on the Beauty Creek Road.

Beauty Creek Road No. 438

This project is about 4 miles long and consists of reconstruction to a Class 3 standard. This work consists of the construction of turnouts, elimination of alignment kinks, and sharp grade breaks.

About two miles have been rough graded and the work has been done by two crews. The clearing work is under the direction of Foreman Rader who has about 20 men under him. A little over three miles of this clearing has been completed and an especial effort is being made to remove all trees in the shoulder line. The other crew is under the direction of Foreman Joki who has about 5 enrollees under him. His work has consisted of dozing the turnouts and drilling the rock points.

Beauty Creek Spur

This road is primarily a utilization road and it is planned to be about two miles long. This road consists of two spurs leading into valuable bodies of white pine and mixed timber. The greater part of the road has been cleared and dozed.

COPY FOR SUPERVISOR

*SM*

Memo of Insp. Wolf Lodge, Camp F-182

Foreman Sales is working on a log bridge at the intersection of the two spurs.

#### Stand Improvement

Two separate crews are being used at present on stand improvement. About 30 enrollees are being used on this work and are under the direction of Foreman Maryott. This work is confined at present to the area along Beauty Creek.

#### Road Progress

Excellent work has been done on this road although it has the appearance of being overwide, but this is due to construction being carried on during heavy snow and frozen-ground conditions. It is believed, however, that when this road thaws out and settles, it will be about the standard width required.

#### Management and Progress

This camp is under the supervision of Superintendent Newcomb. Taking into consideration the variety of work being carried on and the fact that the crews are widely separated, it is believed that the work shows better progress and management than has been found in the majority of camps inspected.

/s/ C. V. Stevens  
Inspector.

C. MESS and SUNDRY ITEMS:

- 1. Food Excellent Quality Excellent  
     Variety Excellent Quantity Excellent
- 2. Kitchen Personnel (Qualifications & Presentability) Excellent
- 3. Food Provision Storeroom Superior
- 4. Tableware Satisfactory Minus--dirty.
- 5. Cooking Equipment Satisfactory -- should be cleaner.
- 6. Cleaning Facilities Satisfactory
- 7. Are Mess Stores Properly Accounted for Yes
- 8. Complaints or Suggestions Concerning Mess \_\_\_\_\_

D. TRANSPORTATION:

- 1. Condition Excellent condition for old trucks.
- 2. Are Requirements of Memo. #42, June 11, 1935, Fully and Properly Complied with Yes
- 3. Repair Service Repaired at Motor Pool
- 4. Drivers Satisfactory

E. EDUCATIONAL & WELFARE ACTIVITIES:

- 1. Educational Adviser Mr. Allasina--Excellent  
     Asst. Educational Adviser Enrollee Virtue
- 2. No. of Courses 16 No. Enrolled 135 No. of Instructors 13
- 3. Magazines & Papers Receiving same
- 4. Circulation System of Library card
- 5. Camp Paper None
- 6. Recreational Equipment & Use thereof Pool, ping pong, cards, checkers, movies, radio basket ball, dances.

F. RECORDS and REPORTS:

	Remarks
1. System of Filing.....	<u>Decimal</u>
2. Company Fund Records.....	<u>See attached certificate.</u>
3. Camp Exchange Records.....	<u>See attached certificate.</u>
4. Date of Last Inspection of Accts. by Dist. Hq.	<u>March 30, 1936.</u>
5. Correspondence Book.....	<u>Satisfactory-in an out mail record</u>
6. Morning Report.....	<u>Excellent //ordered</u>
7. Sick Report.....	<u>Excellent</u>
8. Duty Roster.....	<u>Excellent</u>
9. Transportation Requests.....	<u>Locked up</u>
10. Daily Work Report.....	<u>Excellent</u>
11. Daily Sanitary Report.....	<u>Satisfactory</u>
12. Daily Diary (Log of Events)....	<u>Satisfactory</u>
13. File of Company Special Orders..	<u>Satisfactory</u>
14. Minutes of Last Safety Committee Meeting.....	<u>Excellent</u>
15. File of All Orders, Memos., etc. District and Corps.....	<u>Excellent</u>
16. Record of Telephone Calls and Telegrams.....	<u>Satisfactory</u>
17. Form #86 (or QMC 469).....	<u>Satisfactory</u>
18. Form #12.....	<u>Satisfactory</u>
19. Roster of Men Checked on Last Sanitary Inspection.....	<u>Excellent</u>
20. Weekly Roster of Kitchen Personnel, Sanitary Inspection..	<u>Satisfactory</u>
21. Meal Record Report, Officers & Foresters.....	<u>Satisfactory</u>
22. Individual Clothing and Equipment Records.....	<u>Excellent</u>
23. All Records, C & E.....	<u>Excellent</u>
24. Supply of All Forms Required....	<u>Yes</u>
25. File of Menus.....	<u>Satisfactory</u>
26. Food Storeroom Stock Record....	<u>Satisfactory</u>
27. Registered Mail Record.....	<u>Satisfactory</u>
28. Officers Register.....	<u>Satisfactory</u>
29. Leave Register (Enrollees).....	<u>Satisfactory</u>
30. GENERAL EFFICIENCY OF PAPER WORK	<u>Satisfactory</u>

G. SUPPLY FACILITIES:

- 1. Are Supplies Being Received Regularly Yes  
In Satisfactory Condition Yes
- 2. Are Requisitions Filled Promptly Yes  
With Materials as Ordered Yes

H. FIRES or OTHER EMERGENCIES:

- 1. Fires, when None
- 2. No. of Men on Fires None
- 3. Method of Rationing None
- 4. Method of Clothing and Equipping None
- 5. Officers (NAME) on Fire None
- 6. Other Emergencies None

COMPLAINTS or SUGGESTIONS by COMMANDING OFFICER: None

REMARKS:

NOTE: The same system of ratings as used on Efficiency Reports will be used where required, i.e.,

Superior, 95% to 100%	Unsatisfactory, 65% to 75%
Excellent, 85% to 95%	Inferior, Below 65%
Satisfactory, 75% to 85%	

                     Total Efficiency; Rating for Camp Excellent

GENERAL INSPECTION REPORT OUTLINE  
 (Revised June 1935)

Forest Coeur d'Alene Camp Name Wolf Lodge Camp No. F-182

Date of report March 28, 1936

Period of Inspection, From 8 <sup>am</sup> ~~pm~~ 3/27/36 to 12 <sup>am</sup> ~~pm~~ 3/28/36  
 (date) (date)

Inspector C. V. Stevens Accompanied by Herb Flodberg

Supt. Wayne Newcomb Camp Com. Capt. John Smith  
 Title Name

List below the activities or projects inspected:

**Beauty Creek Road and Spur**

Findings

(Except where very brief answers placed on this sheet will fully answer all phases of the questions, discuss in detail on blank sheets, using key letter and number, as "A-3," etc.)

A. QUALITY OF ORGANIZATION

- |   |                               |
|---|-------------------------------|
| 1. Has Supt. a detailed work program?   | <u>yes</u>                    |
| 2. Does it define priorities of jobs?   | <u>yes</u>                    |
| 3. Does Supt. have well-developed "plans ahead" for each job?   | <u>yes</u>                    |
| 4. What success has he in making these plans materialize?   | <u>good</u>                   |
| 5. Does Supt. keep an adequate record or chart showing accomplishment based on plan of work?  | <u>yes</u>                    |
| 6. If not, did you suggest how to keep such a record?   | <u>yes</u>                    |
| 7. Has Supt. a thorough grasp of his job?   | <u>yes</u>                    |
| 8. What is his attitude towards the job?  | <u>excellent</u>              |
| 9. Basing your reply on analysis of Supt's diary, if available, or on other information, how many hours per day does he average away from camp on the work projects?  | <u>6 hours</u>                |
| 10. How many hours per day do the enrollees average on work projects?   | <u>6 hours</u>                |
| 11. Are foremen and facilitating personnel thoroughly competent to direct or accomplish jobs to which assigned? (Dig into this and discuss <u>thoroughly</u> .) Are there any misfits? If so, on what jobs? How many replacements has this camp had because of inefficiency or other unfitness? (Do not include releases due to no further need of certain overhead.) | <u>no change in personnel</u> |
| 12. Are foremen, leaders and asst. leaders adequate in numbers to get reasonable production from unskilled, untrained workers?<br>If not, what do you suggest?  | <u>yes</u>                    |
| 13. Are they distributed over the working forces to the best advantage?<br>If not, what do you suggest?   | <u>yes</u>                    |

14. What are the minimum and maximum numbers of workers under any foreman? 4 - 21  
 What is the average for all foremen? 14
15. Are the foremen alive to their jobs in directing the work? How do they size up?
16. Where you find men loafing on the job, give foreman's name and the number loafing in each case. Discuss such instances with Supt. and state what comments he offers.
17. Check clerical work and state whether it is well organized and effectivly handled. Does Supt. know where all men are assigned each day? yes  
 Does he keep necessary records on time by projects? yes  
 Does he submit his reports on time? yes  
 Has he sufficient clerical help to meet the needs? yes
18. How many inspections of field work have Supervisor or staff made during this enrollment period? Every 2 weeks
19. How many purely "camp visits" by Supervisor or Staff? none
20. How many weeks since full company arrived, or since start of period in case company arrived during a previous period? June 3, 1935
21. Do Supervisor and staff men make it a practice to leave with the Supt. definite written memoranda covering instructions or suggestions made as a result of their inspections? written memo

B. QUALITY OF WORK ACCOMPLISHED

1. Do Supt., foremen, leaders and skilled workers fully understand the standards and specifications applicable to the work on which engaged? yes  
 Do the Supt. and foremen carry the specifications with them out on the jobs? no  
 Discuss any exceptions.
2. Are standards and specifications adhered to?  
 If there are any deviations, what are they and upon what jobs?
3. Are written specifications lacking for any of the jobs under way? no  
 If so, list such jobs?
4. What changes in plans, locations or specifications, if any, do you believe advisable and upon what jobs?
5. Based on your own observations, which foremen are active in teaching enrollees how to improve their skill? Cite examples.
6. Are there enough skilled workers, including skilled enrollees, to insure proper accomplishment of the planned work? yes
7. If not, how many men and of what skills are lacking? For what jobs are they needed.
8. Has the Supt. recognized this need, What action has he taken to secure them? What were the results?
9. Do the Supt's various handbooks and sets of instructions show evidence of study? yes  
 Are they kept in a place readily available? yes  
 Do they have "dog ears"? yes  
 Do the foremen study any of them? yes

- 10. What steps has the Supervisor taken to impress the Supt. and foremen with their responsibility for the training of workers? (Go into this in detail with each Supt., and with Supervisor or staff men, if contacted.)
- 11. Do foremen have "plans ahead" and their work lined up on the jobs so that all phases of the work are handled in an efficient manner?
- 12. Are foremen active in keeping crews balanced on the job?

written  
memo

yes  
yes

C. QUANTITY OF WORK AS COMPARED TO MAN-POWER AVAILABLE

- 1. Average enrollment during past 30 days
- 2. Average number released to Supt.
- 3. Into how many working groups was this turnout divided?
- 4. List any crews which seem overly large for economical accomplishment of the work.
- 5. List any jobs on which the output for the past 30 days impresses you as being too low. In your judgment, what are the reasons for low output?
- 6. List any jobs on which the enrollees do not put in a full 6 hours on the job, exclusive of travel time. Give number of men involved and specific reasons why a full 6 hours is not spent. If less than 6 hours is not fully justified due to exceptional circumstances, what action has been taken to correct this?
- 7. How many spike camps are out?
- 8. How many enrollees in such camps?
- 9. Could the number of spike camps be increased to advantage?  
On what jobs?

178  
100  
7

none at present

D. USE AND CARE OF TOOLS AND EQUIPMENT

- 1. How many of the following machines on the job:  
Trucks, 1½ ton 6; Pick-up 1; Dump 1.  
Bulldozers 1; Tractors \_\_\_\_\_; Compressors \_\_\_\_\_;  
Jackhammers 2; Shovels \_\_\_\_\_; Graders \_\_\_\_\_.
- 2. What additional trucks and machines, if any, could be used to advantage and where?
- 3. Has Superintendent tried to get more trucks or machinery, and with what result?
- 4. What machines, if any, are out of commission, for how long, and for what cause?
- 5. How much of this time loss was preventable, and how might it have been prevented?
- 6. Are there any idle trucks or machines on the job?  
List number, type, and cause of idleness.
- 7. Have surplus trucks or machinery, if any, been reported to Supervisor?
- 8. Is full use being made of all trucks? Do they double shift where possible, haul capacity loads, stagger crew hauling, make unnecessary trips?  
Discuss in detail.

no

yes

- |     |  |                       |
|-----|--|-----------------------|
| 9.  | Are bulldozers double shifted?<br>If not, why?   | <u>not at present</u> |
| 10. | Are jackhammers double shifted?<br>If not, why?  | <u>not at present</u> |
| 11. | Are grading outfits double shifted?<br>If not, why?  | _____                 |
| 12. | Are enrollees being used to fullest extent feasible<br>on bulldozers and tractors?   | <u>yes</u>            |
| 13. | Are blasting machines in use on all jobs requiring<br>explosives?  | <u>yes</u>            |
| 14. | Are there fully experienced powdermen on each job<br>where explosives are used?  | <u>yes</u>            |
| 15. | Check use of powder in loading and in execution.<br>Comment on it.   | _____                 |
| 16. | Is powder rationed out by Supt. to powder foremen?   | <u>yes</u>            |
| 17. | Are there adequate shop facilities for sharpening,<br>fitting and repairing all tools?<br>If not, what is lacking?   | <u>yes</u>            |
| 18. | Are tools properly conditioned for use?  | <u>yes</u>            |
| 19. | Do you find any tools, equipment, or materials<br>scattered about on the job, or are they gathered<br>up and properly stored?  | <u>gathered up</u>    |
| 20. | Do foremen keep their crews fully equipped with<br>necessary tools and materials?  | <u>yes</u>            |
| 21. | If material or equipment delays occurred, what<br>caused them?   | _____                 |
| 22. | (a) Do all truck drivers have permits?   | <u>yes</u>            |
|     | (b) Are speed and driving rules posted in truck cab?   | <u>yes</u>            |
|     | (c) Any evidence of violation of these rules?  | <u>no</u>             |
| 23. | (a) Are servicing facilities adequate?   | <u>yes</u>            |
|     | (b) Is camp equipped with grease rack?   | <u>yes</u>            |
|     | (c) Is adequate check kept on gasoline and oil issued?   | <u>yes</u>            |
|     | (d) Is the handling of gas and oil and the storage<br>thereof done in a safe manner?   | <u>yes</u>            |
| 24. | Does Supt. require drivers to service and maintain<br>trucks in accordance with booklet, "O-ECW-ER-Equip-<br>ment, Truck Maintenance-Camp Supt's Responsibility"?<br>Check at least two trucks against the requirements of<br>this booklet and report your findings in detail. | <u>yes</u>            |
| 25. | Does Supt. feel that the mechanic services assigned to<br>his camp are adequate to keep the trucks and machin-<br>ery in proper condition?<br>If not, discuss available services and additional needs.   | <u>yes</u>            |

E. FIRE CONTROL PREPAREDNESS

- |    |  |       |
|----|--|-------|
| 1. | What is the standard of preparedness set up for the camp?  | _____ |
| 2. | Is equipment to this standard at hand?<br>Is it in proper condition?   | _____ |
| 3. | Is the prescribed flying squadron selected, overhauled<br>and trained for its job?                             | _____ |
| 4. | Do the selected smokechasers understand their job?   | _____ |
| 5. | Are the overhead men assigned to the flying squadron<br>the most competent fire bosses available in the camps? | _____ |
| 6. | What preparedness measures have been lined up in ad-<br>dition to the prescribed standard?                     | _____ |

7. Are adequate arrangements agreed upon with the Commander for holding men in camp in cases of impending need?
8. Are available transport facilities adequate for quick movement of 75 men?
9. What additional measures other than increasing size of squadron might be taken to improve adequacy of firefighting preparedness?
10. Check prohibition against smoking away from camp except at previously designated (posted) smoking sites, places of habitation or public camp grounds. Have enrollees been duly informed and are they complying?
11. Check fire protection in main camp. This is primarily an Army responsibility but the following should be given attention by the Supt.:
  - (a) All chimneys and stove pipes in F.S. buildings to be screened or provided with spark arresters.
  - (b) Metal floor boards under stoves.
  - (c) Blacksmith forges to be provided with screen or screened hood.
  - (d) Fire extinguishers should be available in F.S. buildings.
  - (e) Stoves should be safe distance from walls.
  - (f) Stove pipes should be riveted at joints where there is any danger of telescoping.
  - (g) Check for safe collars and roof jacks.
  - (h) Has a fire marshall been designated and is he giving proper attention to his duties? He is responsible for maintenance of fire tool caches, fire-proofing camp sites and is the fire prevention expert.

NOTE: Other fire prevention covered under G-7.

O.K.

F. COORDINATION WITH ARMY

- |   |                             |
|---|-----------------------------|
| 1. (a) Is camp construction completed?  | <u>yes</u>                  |
| (b) If not, what remains to be done?  | <u>                    </u> |
| (c) When is it expected to finish this?   | <u>                    </u> |
| (d) How many enrollees are engaged in camp construction work?   | <u>none</u>                 |
| 2. Is camp construction over-refined?   | <u>no</u>                   |
| Cite instances.   | <u>                    </u> |
| 3. (a) If Army overhead, aside from construction forces, consists of more than 23 men, list the uses to which the surplus is being put. | <u>                    </u> |
| (b) What action has been taken to reduce the force to 23 unless extras have been approved?  | <u>                    </u> |
| 4. Are Forest employees and Army cooperating effectively?   | <u>yes</u>                  |
| 5. Does Commander switch men without consulting Supt.?  | <u>no</u>                   |
| 6. Is mess satisfactory?  | <u>yes</u>                  |
| 7. Are arrangements for lunches and "extra shift" meals satisfactory?   | <u>yes</u>                  |
| 8. Is camp discipline such as to strengthen the disciplinary measures required on the job by the work agency?                           | <u>yes</u>                  |
| 9. Are men interested in their work?  | <u>yes</u>                  |
| 10. Is selection and use of leader and asst. leader positions satisfactory to both agencies?  | <u>yes</u>                  |

- 11. Are housing facilities for work agency employees commensurate with those occupied by Army men of similar rank? If not, what is needed. yes
- 12. Educational activities, (a) Does camp have an educational adviser? yes
- (b) How many enrollees are taking courses? 75%
- (c) Are work agency employees cooperating? yes

G. SAFETY PROGRAM

- 1. Has a safety committee been established? (See pages S-2 to S-4 ECW Handbook) yes
- 2. Does the committee have weekly meetings? yes
- 3. Have the Supervisory personnel and leaders and asst. leaders taken the first aid course? yes
- 4. Is transportation of enrollees handled in accordance with Safety Division Bulletins No. ECW-1 and ECW-19? (Pages S-7 and S-41 ECW Handbook.) yes
- 5. Have goggles where required been supplied to enrollees and do they use them? (See page S-12 ECW Handbook) yes
- 6. Check carefully and comment on the handling and use of explosives. (Pages S-21 and S-23 ECW Handbook)
- 7. Check for compliance with fire prevention suggestions of Safety Division Bulletin No. ECW-20 at any garages and gas and oil storage buildings. Comment.
- 8. List any suggestions you may have which would improve safety conditions at camp or on the job.

H. GENERAL

Comment on any pertinent features not covered in the regular report.

I. Statement by Forest Supervisor or State Forester:

I have read the above report, discussed it with Inspector C. V. Stevens and desire to comment as follows: (Use extra sheets where necessary.)

ADDRESS REPLY TO  
DISTRICT FORESTER  
AND REFER TO

April 2, 1936

O  
ECW  
Supervision  
Inspection  
Coeur d'Alene

Forest Supervisor,  
Coeur d'Alene, Idaho.

Dear Mr. Simpson:

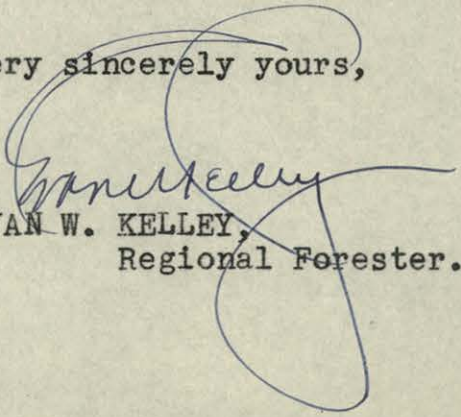

Inspector C. V. Stevens has submitted General Inspection Report on Camp F-182 Wolf Lodge made March 27 and 28. Mr. Flodberg accompanied Mr. Stevens on the inspection. You have read the report and discussed it with the inspector. Copies are attached.

Mr. Stevens makes very favorable comments upon the quality of work in this camp and upon the management of it.

During the past several months inspectors visiting the Coeur d'Alene Forest have been unanimous in their conclusions that this and other Coeur d'Alene camps were being ~~very~~, very well handled.

You and your force are to be congratulated on this fine showing.

Very sincerely yours,

  
EVAN W. KELLEY,  
Regional Forester.

 J. O. Kilgore  
 Captain, Inf-Res., 4th Infantry  
 District Inspector

District Headquarters CCC, Fort George Wright, Wash. November 14, 1936  
 To: Commanding Officer, Co. 5701, Camp B-102, Coeur d'Alene, Idaho.

Deficiencies as noted below will be corrected at once and a report of action taken submitted to D.H.Q. within ten (10) days of date of this inspection.

Deficiencies Noted:

- (1) Sec. A Line 11
- (2) Sec. B Line 2-4-6-7-
- (3) Sec. B Line 8-10-13-20
- (4) Sec. C Line 3-4
- (5) Sec. F Line 5-7-10-15-
- (6) Sec. F Line 17-19-25-27

By order of the District Commander:

  
 Ford Trimble,  
 Captain, F.A.-Res., 413th F.A.,  
 Executive Officer.

REMARKS: (Inspection Report, Co. 5701, November 10, 1936.

1. The bath house septic tank and kitchen grease trap are both causing trouble in this camp at the present time. The septic tank has no cover, but Capt. Williams stated that in his opinion it was filled up and the ground around same is not absorbing water. As a temporary measure he is digging trenches from the septic tank to the creek in rear of the camp. These trenches are being filled with rock. In all probability it will be necessary to construct a new septic tank and a new grease trap.

2. There are no fire extinguishers in this camp. Buildings do not have the proper number of water buckets.

3. Conditions described in the attached letter dated November 8, 1936, signed by Mrs. H. Selleck, were thoroughly investigated. Due to the fact this is a newly organized company they have not been feeding up to the standard of this district. Lunches have been poor and quantities served small. The ten L.E.M.'s now assigned to this company were formerly assigned to Co. 967, which in the opinion of the undersigned had the best mess in the district. Because of this fact the sudden change in the mess caused a certain amount of dissatisfaction among the L.E.M.'s. Capt. Williams was directed to obtain ten days' menus from Capt. Moore and Capt. Samuels and ordered to use these as a guide for the making up of the remainder of this month's menus. The Arkansas boys appeared to be entirely satisfied with the mess as it is now being run. Butter will be served at each meal and fresh milk will be served daily. No further trouble is anticipated with the mess.

4. It was announced at the noon meal that anyone with complaints report to the District Inspector immediately after they finished eating. No enrollees reported. The undersigned did, however, talk to three L.E.M.'s regarding the mess. None were entirely dissatisfied and stated they believed the conditions were as listed in the above paragraph.

C. MESS and SUNDRY ITEMS:

- 1. Food Sat. (See Remarks) Quality See Remarks  
 Variety See Remarks Quantity See Remarks
- 2. Kitchen Personnel (Qualifications & Presentability) Satisfactory for young cooks.
- 3. Food Provision Storeroom Satisfactory; correction made.
- 4. Tableware Satisfactory; containers very dirty.
- 5. Cooking Equipment Satisfactory
- 6. Cleaning Facilities Satisfactory
- 7. Are Mess Stores Properly Accounted for Yes
- 8. Complaints or Suggestions Concerning Mess \_\_\_\_\_

D. TRANSPORTATION:

- 1. Condition Satisfactory
- 2. Are Requirements of Memo. #42, June 11, 1935, Fully and Properly Complied with Yes
- 3. Repair Service Satisfactory
- 4. Drivers Satisfactory

E. EDUCATIONAL & WELFARE ACTIVITIES:

- 1. Educational Adviser Mr. Garver  
 Asst. Educational Adviser None
- 2. No. of Courses 25 No. Enrolled 158 No. of Instructors 8
- 3. Magazines & Papers None contract; getting few from other source.

GENERAL INSPECTION REPORT OUTLINE  
(Revised June 1935)

Forest Coeur d'Alene Camp Name Wolf Lodge Camp No. F-182

Date of report December 31, 1936

Period of Inspection, From 9:30<sup>am</sup>, Dec. 28 to 3:30<sup>pm</sup> Dec. 30.  
(date) (date)

Inspector Akridge Accompanied by H. Flodberg & Wm. Guernsey

Supt. W. S. Newcomb Camp Com. Capt. Williams  
Title Name

List below the activities or projects inspected:

- Roadside cleanup Coeur d'Alene Divide
- Stand Improvement - thinning
- Treating telephone poles by creosoting
- Pruning at Wolf Lodge

Findings

(Except where very brief answers placed on this sheet will fully answer all phases of the questions, discuss in detail on blank sheets, using key letter and number, as "A-3," etc.)

A. QUALITY OF ORGANIZATION

1. Has Supt. a detailed work program? yes
2. Does it define priorities of jobs? yes
3. Does Supt. have well-developed "plans ahead" for each job? yes
4. What success has he in making these plans materialize? yes
5. Does Supt. keep an adequate record or chart showing accomplishment based on plan of work? appendix
6. If not, did you suggest how to keep such a record? \_\_\_\_\_
7. Has Supt. a thorough grasp of his job? yes
8. What is his attitude towards the job? yes
9. Basing your reply on analysis of Supt's diary, if available, or on other information, how many hours per day does he average away from camp on the work projects? keeps diary  
about 5 hours
10. How many hours per day do the enrollees average on work projects? 6 hours
11. Are foremen and facilitating personnel thoroughly competent to direct or accomplish jobs to which assigned? no replacements  
(Dig into this and discuss thoroughly.) Are there any all competent misfits? If so, on what jobs? How many replacements has this camp had because of inefficiency or other unfitness? (Do not include releases due to no further need of certain overhead.) appendix
12. Are foremen, leaders and asst. leaders adequate in numbers to get reasonable production from unskilled, untrained workers? yes  
If not, what do you suggest? \_\_\_\_\_
13. Are they distributed over the working forces to the best advantage? yes  
If not, what do you suggest? \_\_\_\_\_

14. What are the minimum and maximum numbers of workers under any foreman? 5 - 20  
 What is the average for all foremen? 16
15. Are the foremen alive to their jobs in directing the work? How do they size up? yes None outstanding, all about on par
16. Where you find men loafing on the job, give foreman's name and the number loafing in each case. Discuss such instances with Supt. and state what comments he offers. no men found loafing
17. Check clerical work and state whether it is well organized and effectivly handled. Does Supt. know where all men are assigned each day? yes  
 Does he keep necessary records on time by projects? yes appendix  
 Does he submit his reports on time? yes  
 Has he sufficient clerical help to meet the needs? good
18. How many inspections of field work have Supervisor or staff made during this enrollment period? supervisor's staff 3 Ranger's office 5
19. How many purely "camp visits" by Supervisor or Staff? 2
20. How many weeks since full company arrived, or since start of period in case company arrived during a previous period? October 16  
10 weeks
21. Do Supervisor and staff men make it a practice to leave with the Supt. definite written memoranda covering instructions or suggestions made as a result of their inspections? Supervisor's Office 1 Ranger's Office 1

B. QUALITY OF WORK ACCOMPLISHED

1. Do Supt., foremen, leaders and skilled workers fully understand the standards and specifications applicable to the work on which engaged? yes  
 Do the Supt. and foremen carry the specifications with them out on the jobs? where necessary  
 Discuss any exceptions.
2. Are standards and specifications adhered to? appendix  
 If there are any deviations, what are they and upon what jobs?
3. Are written specifications lacking for any of the jobs under way? yes  
 If so, list such jobs?
4. What changes in plans, locations or specifications, if any, do you believe advisable and upon what jobs? appendix
5. Based on your own observations, which foremen are active in teaching enrollees how to improve their skill? Cite examples. appendix
6. Are there enough skilled workers, including skilled enrollees, to insure proper accomplishment of the planned work? yes
7. If not, how many men and of what skills are lacking? For what jobs are they needed?
8. Has the Supt. recognized this need, What action has he taken to secure them? What were the results?
9. Do the Supt's various handbooks and sets of instructions show evidence of study? yes  
 Are they kept in a place readily available? yes  
 Do they have "dog ears"? some  
 Do the foremen study any of them? yes

I would suggest that the foremen be required to read and initial all important circulars pertaining to Supervision, education, safety, etc.

10. What steps has the Supervisor taken to impress the Supt. and foremen with their responsibility for the training of workers? (Go into this in detail with each Supt., and with Supervisor or staff men, if contacted.)
11. Do foremen have "plans ahead" and their work lined up on the jobs so that all phases of the work are handled in an efficient manner?
12. Are foremen active in keeping crews balanced on the job?

appendix

yes

yes

C. QUANTITY OF WORK AS COMPARED TO MAN-POWER AVAILABLE

1. Average enrollment during past 30 days
2. Average number released to Supt.
3. Into how many working groups was this turnout divided?
4. List any crews which seem overly large for economical accomplishment of the work.
5. List any jobs on which the output for the past 30 days impresses you as being too low. In your judgment, what are the reasons for low output?
6. List any jobs on which the enrollees do not put in a full 6 hours on the job, exclusive of travel time. Give number of men involved and specific reasons why a full 6 hours is not spent. If less than 6 hours is not fully justified due to exceptional circumstances, what action has been taken to correct this?
7. How many spike camps are out?
8. How many enrollees in such camps? 2 men on detached
9. Could the number of spike camps be increased to advantage?  
On what jobs?

G. SAFETY PROGRAM

1. Has a safety committee been established? (See pages S-2 to S-4 ECW Handbook) yes
2. Does the committee have weekly meetings? yes
3. Have the Supervisory personnel and leaders and asst. leaders taken the first aid course? all except sk. wkr. Jim Drixell have taken
4. Is transportation of enrollees handled in accordance with Safety Division Bulletins No. ECW-1 and ECW-19? (Pages S-7 and S-41 ECW Handbook.) first aid course
5. Have goggles where required been supplied to enrollees and do they use them? (See page S-12 ECW Handbook) yes
6. Check carefully and comment on the handling and use of explosives. (Pages S-21 and S-23 ECW Handbook) no explosives used.
7. Check for compliance with fire prevention suggestions of Safety Division Bulletin No. ECW-20 at any garages and gas and oil storage buildings. Comment. In compliance with regulations.
8. List any suggestions you may have which would improve safety conditions at camp or on the job. appendix

H. GENERAL

Comment on any pertinent features not covered in the regular report.

I. Statement by Forest Supervisor or State Forester:

I have read the above report, discussed it with Inspector Akridge and desire to comment as follows: (Use extra sheets where necessary.)

Report may leave the erroneous impression that pruning job and pole treatment were started as a result of Akridge's inspection. Statement is in error that treating job is an experiment to determine correct mixture. I have already communicated with "E" about difficulty of getting proper penetration.

The method of pruning follows plan recommended by Davis -- ladder method also proposed. Fort Wright has accepted responsibility for repair of C-544 and it has gone into Fort for repairs.

(signed) Chas. D. Simpson  
 -6- Forest Supervisor, or  
 State Forester

APPENDIX TO GENERAL INSPECTION REPORT CAMP F-182

A. Quality of Organization.

The Master Work Plan is being followed as nearly as possible. All the highest priority jobs are manned and scheduled to be finished in the allotted time.

The Superintendent keeps a graph chart showing the rate of accomplishment based on the plan of work.

The Supt. requires the foremen to keep the ECW Job Sheet and ECW Project Progress Record for their respective jobs. I believe that better results would be obtained if the Superintendent kept the Progress Record which is just a summary of the job sheets pertaining to the Project. In checking a few of the job sheets, some of the required data is missing such as adequate description of the day's work; daily accomplishments expected; description, amount and kind of work, etc. These forms apparently will develop into a perfunctory operation, where the original idea of the forms will be defeated.

A.11. The following is a list of foremen's names, rates, description of crews and projects.

Foremen	Rate	Project	Enrollees		
			L.	A.L.	
A. L. Fisher	\$140.00	Road Cleanup	16		2
Lyle Brown	140.00	" "	18	1	
Walt Beasley	140.00	" "	19	1	
Roscoe Maryott	140.00	Stand Improvement	12	1	1
LeVerne Griffith	140.00	" "	9		1
Jim Drexell	130.00	Skilled worker, treating telephone poles	4		1
		Stand Improvement, other Forest Service overhead		1	
		Truck Drivers	5		1
		Detached Service	6		
		Spokane Warehouse	2		
		Army Overhead	23	5	7

A.17. The clerical work appears to be effectively handled. I believe that a letter filing system could be put in effect. A good system is advocated in the ECW Handbook. The files appear to be short of important circulars, and adequate references. It is possible that some of the circulars, etc., are in the files, but could not be found.

The required amendments for the ECW Safety Manuals have not been posted in the manuals and apparently all these amendments were not available. The ECW manual was up to date except for one page.

## B. Quality of Work Accomplished.

I believe that the Superintendent, foremen and skilled workers fully understand the standards and specifications upon work which they are engaged. Two new projects were started at the time of this inspection. The two jobs are pruning and pole treating.

On the pruning job the enrollees are green at the work. This is shown in the quality of work. The foreman in charge of this project fully understands the standards, specifications and correct application of them to the job. The foreman (LaVerne Griffith) on this job is very active in teaching these enrollees, as during the time spent on the job improvement was noted in the quality of work. The quantity of work probably will be sacrificed until the enrollees become proficient.

On the pole treating job which was started at the time of the inspection, there was deviation noted from standard practice such as treating of poles that were not sawed off square, tops roofed, and treating of small poles. There are other points the Superintendent took action on there. The treating job is more of an experiment in trying to determine the correct mixture. They apparently are having trouble in obtaining the correct penetration of creosote, although it seems that they are receiving the correct penetration of oil. They have decided to resort to the "pin tacking" method to obtain the penetration  $3/4$ " to 1" in the cedar poles being treated. They have been receiving about  $1/8$ " to  $1/4$ " penetration. This was shown by different tests.

B.4. I would suggest from a fire hazard standpoint that the accumulation of limbs and branches resulting from the pruning operation be scattered instead of being left piled at the base of the trees where they have fallen from the pruning operation.

I believe that a better organized method could be worked out on the pruning job. The method used now is three operators, the first of whom, with a hand pruning saw, goes through the prunes the trees up about six to eight feet; the second with a pruning saw on an eight foot handle, and prunes up as high as he can reach, and the last operator has a pruning saw with a 14 foot handle and he prunes up to seventeen feet. It appears that there could be a telescope handle developed so that the last two operations could be combined in one.

B.5. LaVerne Friffith was not active in teaching enrollees, although his job would call for more teaching at the time of inspection, his job being a new one, whereas the other foremen's jobs have been underway longer than the Stand Improvement. All the other jobs show results of training.

B.10. Concerning O-ECW-Educational Material memorandum of June 30, 1936, they have not posted the required maps or made or posted the forest write ups. There is a forestry course given in

in this camp to enrollees that are interested. The Supt. states that all the foremen are given verbal instructions to stress the points brought out in this memorandum on the job.

#### C. Quantity of Work as Compared with Man-Power Available.

The quantity of work appears to be satisfactory for this time of year. These enrollees from Arkansas have not become acclimated. This colder climate probably has some effect on the quantity of work. The Supt. states that he can see some drop in production since colder weather has set in. He has confidence in the foremen's ability to raise the morale of the boys. At the time of the inspection, five enrollees walked off the job on Monday and on Tuesday two more walked off the job.

C.6. On the roadside cleanup, the two 26-man crews are putting in about  $5\frac{1}{2}$  to  $5\frac{3}{4}$  hours on the job. This crew leaves camp at 7:30 a.m., arrived on the job at about 8:20, works to noon, goes back to work at 12:30 p.m., leaves the job at 2:25 or 2:30 p.m., and arrives back into camp by 3 p.m.

The Supt. states that this crew have been putting in a full six hours on the job until the last snow storm which has cut down the travel time to 15 min. to 20 min.

#### D. Use and Care of Tools and Equipment.

D.4. There is only one truck out of commission, which is the one that was damaged on a recreational trip. Truck C-544 was requisitioned by the Army for this trip on December 19 and has not been put back in shape by the Army at the time of the inspection. I understand the only repairs needed are on the rack of the truck. This truck is stored at the Coeur d'Alene Forest Service Warehouse.

D.18. The tools used on the jobs appear to be in good condition. The maintenance on some of the reserve tools is not very good. This was due to the power engine being out of order. The power engine was received at the time of this inspection, and action had been taken by the Supt. to sharpen the axes. Some of the wedges and sledges among the reserve tools, have mushroomed heads.

D.24. Two Chevrolet  $1\frac{1}{2}$ -ton trucks were checked.

The trucks, as far as general maintenance, care and servicing are concerned, are in very good condition.

On the two trucks checked, C-507 and C-332, I believe that red flags should be attached in the cabs as advocated in Circular Letter O-ECW-E&S P&S Motor Vehicles O-695. The flags in C-507 have been stored under the seat and were damaged so as to be un-serviceable. This driver should also be instructed in the proper use and placing of flags and flares.

D.11.(a) Fire extinguishers are available in all Forest Service buildings. They are located inside of the buildings which are kept locked. These fire extinguishers would not instantaneously be available from the outside, until the key was obtained. I would suggest a trap door on all buildings with the extinguisher mounted on the door. This door could be sealed with a Government seal, and in case of fire, the fire extinguisher would be available from inside or outside without opening the main door and the extinguisher could be used on a fire inside of the building through the trap door.

#### G. Safety Program.

4.8. I would suggest that the front tires on trucks hauling men be replaced if the treads of tires have become worn down. There was one truck noticed that had badly worn treads on the front wheels.

I would also suggest that a stop sign be installed where the camp road enters the highway, and that all trucks should stop before going on the gravel highway.

The paragraph, "The Law and CCC Truck Drivers" on page S-8 of the ECW Handbook should be announced to all CCC truck drivers and I also suggest posting this on the bulletin board.

I believe that some attention should be given to the burning of brush under the telephone line on the roadside cleanup job, one place inspected, the galvanizing was found burned off.

#### General.

The Superintendent and foremen are very interested in their work. They are also very alert in trying to improve methods of doing work.

I believe that it is a mistake in this camp to destroy all back circulars that were issued in previous periods. Apparently the Superintendent cleaned out the files at the start of the period.

O (ECW)  
Supervision - Coeur d'Alene  
Inspection, F-182

Coeur d'Alene, Idaho,  
January 5, 1937.

MEMORANDUM FOR RANGER V. C. MOODY

I spent December 29, 1936 with your assistant, H. F. Flodberg and ECW Inspector, Frank Akridge, inspecting the work supervised by W. Newcomb at Camp F-182, Beauty Bay.

Marie Creek Pruning Crew

This work had just started on December 28 with Foreman L. Griffith supervising ten CCC men. The job was fairly well under way but the following points were noted:

1. Evidently insufficient preparation had been made to educate Griffith in the proper way to handle pruning work. Griffith had not seen the plot worked by Davis last fall nor had sufficient explanation been made. Newcomb should be on the job the morning the job starts and help start the job properly. It is felt that Inspector Akridge's presence should have made no particular difference in the matter. No regular crew lineup was made the first day, trees were missed, limbs and long stubs were left. Griffith should re-work this area, as was talked of on the ground, and iron out some of these difficulties.

Detailed information should be kept on mandays worked per acre, acreage covered, and a permanent 4-inch scale map made of the area that is to be worked. This work is particularly important in that it is about the first job of its kind to be done in this region with the exception of some experimental work done by Davis.

Stand Improvement, Beauty Creek

The crew, supervised by R. Maryott, was not on this work on the 29th. The work completed during the last few weeks looked very satisfactory with a sufficient number of check plots, both temporary and permanent, being made. It is apparent that snow will cause some difficulty in working conditions. Newcomb

demonstrated real interest and thought for his boys by placing them on another job until working conditions improve.

### Telephone Pole Treating

The equipment, tank and general lineup for treating poles appeared to be well built and well planned. The hours for treating in 50% creosote and 50% oil solution were according to regular instructions. The solution is kept at 200° F. for a minimum of seven hours and then allowed to cool for ten to twelve hours. Some difficulty is being experienced in the depth the solution will penetrate in cedar, only about 1/8 inch penetration with the present method.

It is necessary to purchase a spiked hammer to use in perforating the poles to secure proper penetration of the solution. It is necessary to secure the best treatment one foot above and one foot below the ground line. We should also attempt to secure a careful treatment of practically one inch of the sapwood in a pole. Tamarack and cedar are very difficult species to treat and no satisfactory method or solution is used at present without perforating the pole.

In talking with Mr. Simpson on this subject of treating poles, he decided to write Mr. Whitney of the Experiment Station and give him our present problem. We expect to receive some definite information shortly on this subject. In the meantime, it is suggested that you lengthen the hours of hot treatment and cold treatment for various periods and carefully check results. The daily report should be kept up currently on this work. It is not considered worth while to treat some of the small poles that have been treated. I suggest that we treat only the standard poles that will be used. We have insufficient funds to treat every kind that might be picked up. It was noted, also, that the butts of the poles were not all cut off square. This was pointed out by Akridge on the ground and is according to Handbook instructions.

### ECW Handbook

It was suggested, by Akridge, that each camp superintendent read and initial all new Handbook amendments, and foremen do so as well. This is a good point. Also, have each foreman read the Handbook over several times a year. ECW supervisory personnel should be up on the general instructions. It would be a good practice to have the foremen spend time on fire manuals and general forest manuals during the winter with a general class once a week. It is suggested that you have your superintendents and foremen so instructed. Flint could well absorb this

Memo.

1-5-37

information with the rest.

A general summary of the camp work and the way it is being handled is satisfactory. General instructions in the ECW Handbook should be well understood and followed by the foremen.

The superintendent of any ECW camp is receiving a salary that should call for a man's being well versed in forestry practice, handling of fires, knowledge of all available regulations and keen interest in carrying on the job. It is felt that Newcomb could meet this requirement much better than he is doing.

Very truly yours,

CHAS. D. SIMPSON, Forest Supervisor,

By *W. G. Guernsey*

G. SUPPLY FACILITIES:

- 1. Are Supplies Being Received Regularly Yes  
In Satisfactory Condition Yes
- 2. Are Requisitions Filled Promptly Yes  
With Materials as Ordered Yes

H. FIRES or OTHER EMERGENCIES:

- 1. Fires, when Camp fire (in shower house).
- 2. No. of Men on Fires \_\_\_\_\_
- 3. Method of Rationing Report in Headquarters.
- 4. Method of Clothing and Equipping \_\_\_\_\_
- 5. Officers (NAME) on Fire \_\_\_\_\_
- 6. Other Emergencies \_\_\_\_\_

COMPLAINTS or SUGGESTIONS by COMMANDING OFFICER:

REMARKS: 1. The present condition of the toilet room is in an Unsatisfactory condition. This is probably partially due to frozen plumbing, but regardless of this the floors, walls and toilet bowls will be cleaned at once and toilets not in proper working order will be closed off to prevent their use by enrollees.  
2. As soon as funds are available proper steps should be taken to provide better laundry facilities for cleaning of enrollees' clothing.

(OVER)

NOTE: The same system of ratings as used on Efficiency Reports will be used where required, i.e.,

Superior, 95% to 100%	Unsatisfactory, 65% to 75%
Excellent, 85% to 95%	Inferior, Below 65%
Satisfactory, 75% to 85%	

Total Efficiency; Rating for Camp Satisfactory

REMARKS: (Cont'd.)

3. All men were in camp at time of inspection, but regardless of this fact the barracks could be kept in a better condition, all bunks neater and should not be scattered around through the barracks. The tops of lockers will be kept clean. Also weekly inspection will be made of all lockers and immediate steps will be taken to keep these in a neat and orderly manner.

G. SUPPLY FACILITIES:

- 1. Are Supplies Being Received Regularly Yes
- In Satisfactory Condition Yes
- 2. Are Requisitions Filled Promptly Yes
- With Materials as Ordered Yes

H. FIRES or OTHER EMERGENCIES:

- 1. Fires, when None
- 2. No. of Men on Fires None
- 3. Method of Rationing None
- 4. Method of Clothing and Equipping None
- 5. Officers (NAME) on Fire None
- 6. Other Emergencies None

COMPLAINTS or SUGGESTIONS by COMMANDING OFFICER:

REMARKS: 1. Gas tank for the generator is not completely buried and is immediately behind the generator house. This condition should be changed to meet the requirements as set forth in CCC Instructions, H.N.C.A.  
 2. The mess of this company appears to be the average found in the district. Up to the present time sandwiches have been served to men on work projects and the men returned to camp for the noon hour. Conditions on the work project are such as not to allow the serving of a warm meal; however, every precaution will be taken to improve the cold lunches. Capt. Williams was given orders to serve a warm meal to all enrollees in camp during the noon hour. This will tend to cut down the cost of the (OVER)

NOTE: The same system of ratings as used on Efficiency Reports will be used where required, i.e.,

Superior, 95% to 100%	Unsatisfactory, 65% to 75%
Excellent, 85% to 95%	Inferior, Below 65%
Satisfactory, 75% to 85%	

Total Efficiency; Rating for Camp Satisfactory

O (ECW)  
Supervision - Coeur d'Alene  
Inspection Camp F-182

Coeur d'Alene, Idaho,  
March 6, 1937.

MEMORANDUM FOR DISTRICT RANGERS MOODY and HAND

March 3 and 4 were spent at Camp F-182.

Most of the enrollees were working in the Canyon on road-side cleanup and snag falling. The reason for this was that the roads were not open to the jobs set up in the work plans with the exception of the pruning in Cedar Creek. Superintendent Newcomb was somewhat concerned about this as a greater number of manmonths had been used here than was set up in the original plan and less time had been spent on stand improvement. I believe that the work had been handled in the best manner possible considering the conditions of the roads and weather.

The road up Beauty Creek is being opened up to get wood. This will make it possible to put two or more crews on the thinning there. One crew is pruning on Cedar Creek. It will be impossible to do pruning on the Wolf Lodge Drainage for some time as the road up from the gate is practically impassable to Pier's Ranch and above that point the snow is about twenty inches deep where it has been plowed and is considerably deeper on the sides. It would cost too much to open this piece of road now and considerable time would be lost in walking the men unless the road were plowed. Newcomb was instructed to leave this work until later.

There are about 150 telephone poles that could be hand-logged in Milk Creek if the snow tightens up at night, otherwise it would be too soft. All of the snags visible from the road in Milk Creek and on the hillside to the north will be down by March 6. There will be more roadside cleanup on the north side of the road after the snow melts more. Ranger Hand was with Superintendent Newcomb and I on this job. It was agreed that Newcomb would finish this cleanup when weather conditions permit and before it gets too dry. The snag falling has been progressing rapidly, considering the amount of experience the enrollees have had and the depth of the snow, which is from 16 to 45 inches

depending on the exposure and the elevation. It was suggested that a little more care be taken on some of this work even if production were slowed up a little. This was discussed on the job with Hand, Newcomb and Beasley. This work improves the appearance of this area greatly, especially when traveling west.

It is impossible to use the road up Mill Creek because the take-off is not usable since Highway No. 10 has been changed. A new take-off should be made close to the mouth of Mill Creek. This makes it necessary to build about 700 feet of new road to get up on the Mill Creek Road. It will take about two shifts with a dozer. This could be done any time after the snow goes and a dozer is available.

It will be impossible to do any work on Carrill Ridge or Cedar Creek roads this period because of snow conditions.

The telephone construction on Beauty Creek should be completed when the snow melts enough so that satisfactory progress can be made. A skilled worker should be appointed for this work.

The pruning in Cedar Creek is very good except for a few trees where the work started. It was done according to the instructions in the Stand Improvement Handbook.

The telephone poles have all been treated. This is a fine bunch of poles--about 200 of the 300 being large enough to carry cross arms. Penetration was from 1/4 to 3/8 inch on the poles examined which is satisfactory for cedar.

The evening of March 3, Superintendent Newcomb held a class for the foremen on safety regulations, covering a part of the Safety Manual. Similar classes have been held during the winter on the ECW Handbook and other manuals. This is a worthwhile practice since it establishes uniform interpretations of the regulations and adds to the interest and understanding of the work.

Considering that this was a new company of enrollees last fall coming into a strange climate, they have done remarkably well. The work projects show that the Superintendent and foremen have used a great deal of patience and judgment in the training of these men on the job.

Very truly yours,

GEORGE S. HAYNES, Assistant Forester,

A. PERSONNEL - Strength and Condition:

1. Company Strength 152 No. of Men SICK 1 No. on OVERHEAD 23  
 2. No. of Men CHARGED TO TECHNICAL SERVICE 109  
 3. No. of OFFICERS ASSIGNED \_\_\_\_\_ No. of OFFICERS PRESENT AT INSP. 1  
 4. GENERAL EFFICIENCY -- Commanding Officer Capt. Twombly  
 Subordinate Officers Lieut. Gies not yet reported

Supply Officer Capt. Twombly Educational Adviser Mr. Carver  
 Camp Surgeon Dr. Foley Welfare Officer \_\_\_\_\_

5. SPIKE CAMPS -- How Many \_\_\_\_\_ No. of Men \_\_\_\_\_  
 6. How far from MAIN CAMP \_\_\_\_\_  
 7. How often does Commanding Officer visit SPIKE CAMP \_\_\_\_\_  
 8. How often does Camp Surgeon visit SPIKE CAMP \_\_\_\_\_  
 9. DISCIPLINE OF PERSONNEL Satisfactory plus MORALE Satisfactory plus  
 10. RELATIONS and COORDINATION with FOREST SERVICE Excellent  
 11. SIGNS \_\_\_\_\_

B. PHYSICAL EQUIPMENT and SANITATION:

	Remarks
1. Latrines (Type)..... <u>Flush</u>	<u>Paper holders and paper needed. Pipes need painting.</u>
2. Bath Houses.....	<u>Linoleum needed on benches. Pipes to be painted.</u>
3. Laundry Facilities.....	<u>None. Available room to be equipped at once.</u>
4. Sleeping Quarters.....	<u>Excellent minus.</u>
5. Mess Hall.....	<u>Excellent minus.</u>
6. Kitchen.....	<u>Excellent minus. Dishwashing room not neat. Must be improved.</u>
7. Cooler (Meat, etc.).....	<u>All meat must be hung up.</u>
8. Root Cellar.....	<u>Satisfactory plus.</u>
9. Garbage Disposal.....	<u>Hauled away. New grease trap being completed.</u>
10. Recreational Building.....	<u>New equipment to be purchased.</u>
11. Educational Building.....	<u>Superior.</u>
12. Camp Exchange.....	<u>Condition Excellent. Display Excellent.</u>
13. Equipment Storeroom.....	<u>Excellent.</u>
14. Surplus Equip. Storeroom..	<u>Satisfactory.</u>
15. Infirmary & Medical Equipment & Personnel.....	<u>Excellent, except lockers to be neater.</u>
16. Administration Building...	<u>Satisfactory plus.</u>
17. Officers Quarters.....	<u>Satisfactory.</u>
18. Guest Quarters.....	<u>Satisfactory.</u>
19. Forestry Quarters.....	<u>Excellent.</u>
20. Fire Precautions and Preventitives.....	<u>Satisfactory for equipment issued.</u>
21. All Heating Equipment.....	<u>Some stoves need polish.</u>
22. Generator House & Equip...	<u>Satisfactory.</u>
23. Fuel Problem.....	<u>Satisfactory.</u>
24. Water Problem.....	<u>Satisfactory.</u>
25. Fly Screens & Traps.....	<u>Satisfactory for season.</u>
26. Construction Completed....	<u>Rehabilitation not complete.</u>
27. General Camp Sanitation...	<u>Excellent minus.</u>

C. MESS and SUNDY ITEMS:

1. Food Satisfactory plus Quality Satisfactory plus  
 Variety Satisfactory plus Quantity Satisfactory plus
2. Kitchen Personnel (Qualifications & Presentability) Satisfactory for young cooks.
3. Food Provision Storeroom Excellent.
4. Tableware Excellent.
5. Cooking Equipment Some pans greasy.
6. Cleaning Facilities Room to be improved.
7. Are Mess Stores Properly Accounted for Yes.
8. Complaints or Suggestions Concerning Mess \_\_\_\_\_

D. TRANSPORTATION:

1. Condition Satisfactory.
2. Are Requirements of Memo. #13, July 6, 1937, Fully and Properly Complied with Yes.
3. Repair Service Satisfactory.
4. Drivers \_\_\_\_\_

E. EDUCATIONAL & WELFARE ACTIVITIES:

1. Educational Adviser Mr. Garver.  
 Asst. Educational Adviser \_\_\_\_\_
2. No. of Courses 39 No. Enrolled 145 No. of Instructors 19
3. Magazines & Papers Receiving same.
4. Circulation System of Library Card.
5. Camp Paper Excellent.
6. Recreational Equipment & Use thereof \_\_\_\_\_

F. RECORDS and REPORTS:

	Remarks
1. System of Filing.....	<u>Decimal.</u>
2. Company Fund Records.....	_____
3. Camp Exchange Records.....	_____
4. Date of Last Inspection of Accts. by Dist. Hq.	<u>12-6-37.</u>
5. Correspondence Book.....	_____
6. Morning Report.....	<u>Excellent.</u>
7. Sick Report.....	_____
8. Duty Roster.....	<u>Excellent.</u>
9. Transportation Requests.....	<u>Looked up.</u>
10. Daily Work Report.....	<u>Excellent.</u>
11. Daily Sanitary Report.....	<u>Satisfactory.</u>
12. Daily Diary (Log of Events)....	<u>Satisfactory.</u>
13. File of Company Special Orders..	<u>Satisfactory.</u>
14. Minutes of Last Safety Committee Meeting.....	<u>Last one December 6th</u>
15. File of All Orders, Memos., etc. District and Corps.....	<u>Satisfactory.</u>
16. Record of Telephone Calls and Telegrams.....	<u>Satisfactory.</u>
17. Form #86 (or QMC 469).....	<u>Satisfactory.</u>
18. Form #12.....	<u>Satisfactory.</u>
19. Roster of Men Checked on Last Sanitary Inspection.....	<u>Satisfactory.</u>
20. Weekly Roster of Kitchen Personnel, Sanitary Inspection..	<u>Satisfactory.</u>
21. Meal Record Report, Officers & Foresters.....	<u>Satisfactory.</u>
22. Individual Clothing and Equipment Records.....	<u>Satisfactory.</u>
23. All Records, C & E.....	<u>Consolidated not received.</u>
24. Supply of All Forms Required....	<u>Corps Forms short.</u>
25. File of Menus.....	_____
26. Food Storeroom Stock Record.....	_____
27. Registered Mail Record.....	<u>Satisfactory.</u>
28. Officers Register.....	<u>Satisfactory.</u>
29. Leave Register (Enrollees).....	<u>Satisfactory.</u>
30. GENERAL EFFICIENCY OF PAPER WORK	<u>Satisfactory.</u>

GENERAL INSPECTION REPORT OUTLINE  
(Revised June 1935)

Forest Coeur d'Alene Camp Name Beauty Bay Camp No. F182

Date of report December 22- December 23, 1937

Period of Inspection, From 8 ~~am~~ pm 12/22 to pm 12/23/37  
(date) (date)

Inspector W. G. Guernsey Accompanied by Herbert Flodberg

Supt. Wayne Newcomb Camp Com. Cap. Twombly  
Title Name

List below the activities or projects inspected:

Roadside Cleanup #439.  
Visibility clearing Coeur d'Alene Mt.  
Fernan Adm. Site.  
Visibility Clearing.

Findings

(Except where very brief answers placed on this sheet will fully answer all phases of the questions, discuss in detail on blank sheets, using key letter and number, as "A-3," etc.)

A. QUALITY OF ORGANIZATION

- |  |  |
|--|--|
| 1. Has Supt. a detailed work program   | <u>Yes</u>                                     |
| 2. Does it define priorities of jobs?  | <u>Yes</u>                                     |
| 3. Does Supt. have well-developed "plans ahead" for each job?  | <u>Yes</u>                                     |
| 4. What success has he in making these plans materialize?  | <u>Very good.</u>                              |
| 5. Does Supt. keep an adequate record or chart showing accomplishment based on plan of work?   | <u>Yes</u>                                     |
| 6. If not, did you suggest how to keep such a record?  | <u>Yes</u>                                     |
| 7. Has Supt. a thorough grasp of his job?  | <u>Yes</u>                                     |
| 8. What is his attitude towards the job?   | <u>Very good.</u>                              |
| 9. Basing your reply on analysis of Supt's diary, if available, or on other information, how many hours per day does he average away from camp on the work projects?   | <u>5 hrs.</u>                                  |
| 10. How many hours per day do the enrollees average on work projects?  | <u>6 hrs.</u>                                  |
| 11. Are foremen and facilitating personnel thoroughly competent to direct or accomplish jobs to which assigned? (Dig into this and discuss thoroughly) Are there any misfits? If so, on what jobs? How many replacements has this camp had because of inefficiency or other unfitness? (Do not include releases due to no further need of certain overhead.) | <u>No misfits, foreman above average.</u>      |
| 12. Are foremen, leaders and asst. leaders adequate in numbers to get reasonable production from unskilled, untrained workers?<br>If not, what do you suggest?   | <u>Need skilled worker for telephone work.</u> |
| 13. Are they distributed over the working forces to the best advantage?<br>If not, what do you suggest?  | <u>Yes</u>                                     |

- |  |  |
|--|--|
| 14. What are the minimum and maximum numbers of workers under any foreman?<br>What is the average for all foremen?   | 22 - 50<br><hr/> 30<br><hr/>                                 |
| 15. Are the foremen alive to their jobs in directing the work? How do they size up?  | Very good.<br><hr/>  |
| 16. Where you find men loafing on the job, give foreman's name and the number loafing in each case. Discuss such instances with Supt. and state what comments he offers.   | <hr/>  |
| 17. Check clerical work and state whether it is well organized and effectively handled. Does Supt. know where all men are assigned each day?<br>Does he keep necessary records on time by projects?<br>Does he submit his reports on time?<br>Has he sufficient clerical help to meet the needs? | Satisfactory<br><hr/> Yes<br><hr/> Yes<br><hr/> Yes<br><hr/> |
| 18. How many inspections of field work have Supervisor or staff made during this enrollment period?  | 3 by<br><hr/> Rangers office.<br><hr/>                       |
| 19. How many purely "camp visits" by Supervisor or Staff?  | 1<br><hr/>   |
| 20. How many weeks since full company arrived, or since start of period in case company arrived during a previous period?  | 9 weeks.<br><hr/>  |
| 21. Do Supervisor and staff men make it a practice to leave with the Supt. definite written memoranda covering instructions or suggestions made as a result of their inspections?  | Yes<br><hr/>   |

B. QUALITY OF WORK ACCOMPLISHED

- |   |   |
|---|---|
| 1. Do Supt., foremen, leaders and skilled workers fully understand the standards and specifications applicable to the work on which engaged?<br>Do the Supt. and foremen carry the specifications with them out on the jobs?<br>Discuss any exceptions. | Satisfactory<br><hr/> No<br><hr/>                                       |
| 2. Are standards and specifications adhered to?<br>If there are any deviations, what are they and upon what jobs?   | Written inst.,<br><hr/> on hand at Camp.<br><hr/>                       |
| 3. Are written specifications lacking for any of the jobs under way?<br>If so, list such jobs?  | Satisfactory, will<br><hr/> need for stand imp.<br><hr/>                |
| 4. What changes in plans, locations or specifications, if any, do you believe advisable and upon what jobs?   | No change at<br><hr/> present.<br><hr/>                                 |
| 5. Based on your own observations, which foremen are active in teaching enrollees how to improve their skill? Cite examples.  | Maryott, Roskie,<br><hr/> Brown, Joki -<br><hr/> Satisfactory.<br><hr/> |
| 6. Are there enough skilled workers, including skilled enrollees, to insure proper accomplishment of the planned work?  | Yes<br><hr/>  |
| 7. If not, how many men and of what skills are lacking?<br>For what jobs are they needed?   | Skilled<br><hr/> Worker Tel.<br><hr/>                                   |
| 8. Has the Supt. recognized this need, what action has he taken to secure them? What were the results?  | Yes<br><hr/>  |
| 9. Do the Supt's various handbooks and sets of instructions show evidence of study?<br>Are they kept in a place readily available?<br>Do they have "dog ears"?<br>Do the foremen study any of them?   | Yes<br><hr/> Yes<br><hr/> Yes<br><hr/> Yes<br><hr/>                     |

10. What steps has the Supervisor taken to impress the Supt. and foremen with their responsibility for the training of workers? (Go into this in detail with each Supt., and with Supervisor or staff men, if contacted.)
11. Do foremen have "plans ahead" and their work lined up on the jobs so that all phases of the work are handled in an efficient manner?
12. Are foremen active in keeping crews balanced on the job?

Written Inst.  
to Ranger &  
Supt.

Satisfactory

Yes

C. QUANTITY OF WORK AS COMPARED TO MAN-POWER AVAILABLE

1. Average enrollment during past 30 days
2. Average number released to Supt.
3. Into how many working groups was this turnout divided?
4. List any crews which seem overly large for economical accomplishment of the work.
5. List any jobs on which the output for the past 30 days impresses you as being too low. In your judgment, what are the reasons for low output?
6. List any jobs on which the enrollees do not put in a full 6 hours on the job, exclusive of travel time. Give number of men involved and specific reasons why a full 6 hours is not spent. If less than 6 hours is not fully justified due to exceptional circumstances, what action has been taken to correct this?
7. How many spike camps are out?
8. How many enrollees in such camps?
9. Could the number of spike camps be increased to advantage?  
On what jobs?

156

115

5

Satisfactory

None

"

No

D. USE AND CARE OF TOOLS AND EQUIPMENT

1. How many of the following machines on the job:  
Trucks, 1½-ton 6 ; Pick-up 1 ; Dump No .  
Bulldozers - ; Tractors - ; Compressors - ;  
Jackhammers - ; Shovels - ; Graders - .
2. What additional trucks and machines, if any, could be used to advantage and where?
3. Has Superintendent tried to get more trucks or machinery, and with what result?
4. What machines, if any, are out of commission, for how long and for what cause?
5. How much of this time loss was preventable, and how might it have been prevented?
6. Are there any idle trucks or machines on the job?  
List number, type, and cause of idleness.
7. Have surplus trucks or machinery, if any, been reported to Supervisor?
8. Is full use being made of all trucks? Do they double shift where possible, haul capacity loads, stagger crew hauling, make unnecessary trips?  
Discuss in detail.

Not needed.

Yes

Yes

- |  |                                 |
|--|---------------------------------|
| 9. Are bulldozers double shifted?<br>If not, why?  | _____                           |
| 10. Are jackhammers double shifted?<br>If not, why?  | _____                           |
| 11. Are grading outfits double shifted?<br>If not, why?  | _____                           |
| 12. Are enrollees being used to fullest extent feasible<br>on bulldozers and tractors?   | _____                           |
| 13. Are blasting machines in use on all jobs requiring<br>explosives?  | _____                           |
| 14. Are there fully experienced powdermen on each job<br>where explosives are used?  | _____                           |
| 15. Check use of powder in loading and in execution.<br>Comment on it.   | _____                           |
| 16. Is powder rationed out by Supt. to powder foremen?   | _____                           |
| 17. Are there adequate shop facilities for sharpening,<br>fitting and repairing all tools?<br>If not, what is lacking?   | Excellent (Note)                |
| 18. Are tools properly conditioned for use?  | Yes                             |
| 19. Do you find any tools, equipment, or materials<br>scattered about on the job, or are they gathered<br>up and properly stored?  | No                              |
| 20. Do foremen keep their crews fully equipped with<br>necessary tools and materials?  | Yes                             |
| 21. If material or equipment delays occurred, what<br>caused them?   | No delays.                      |
| 22. (a) Do all truck drivers have permits?   | Yes                             |
| (b) Are speed and driving rules posted in truck cab?   | Yes                             |
| (c) Any evidence of violation of these rules?  | No                              |
| 23. (a) Are servicing facilities adequate?   | Yes                             |
| (b) Is camp equipped with grease rack?   | Yes                             |
| (c) Is adequate check kept on gasoline and oil issued?   | Yes                             |
| (d) Is the handling of gas and oil and the storage<br>thereof done in a safe manner?   | Yes                             |
| 24. Does Supt. require drivers to service and maintain<br>trucks in accordance with booklet, "O-ECW-ER-Equip-<br>ment, Truck Maintenance-Camp Supt's Responsibility"?<br>Check at least two trucks against the requirements of<br>this booklet and report your findings in detail. | Yes                             |
| 25. Does Supt. feel that the mechanic services assigned to<br>his camp are adequate to keep the trucks and machin-<br>ery in proper condition?<br>If not, discuss available services and additional needs.   | Yes<br>Needs Mechanic<br>(Note) |

E. FIRE CONTROL PREPAREDNESS

- |   |                |
|---|----------------|
| 1. What is the standard of preparedness set up for the camp?  | Winter set up. |
| 2. Is equipment to this standard at hand?<br>Is it in proper condition?   | _____          |
| 3. Is the prescribed flying squadron selected, overhauled<br>and trained for its job?                             | _____          |
| 4. Do the selected smokechasers understand their job?   | _____          |
| 5. Are the overhead men assigned to the flying squadron<br>the most competent fire bosses available in the camps? | _____          |
| 6. What preparedness measures have been lined up in ad-<br>dition to the prescribed standard?                     | _____          |

- |   |              |
|---|--------------|
| 7. Are adequate arrangements agreed upon with the Commander for holding men in camp in cases of impending need?   |              |
| 8. Are available transport facilities adequate for quick movement of 75 men?  |              |
| 9. What additional measures other than increasing size of squadron might be taken to improve adequacy of firefighting preparedness?   |              |
| 10. Check prohibition against smoking away from camp except at previously designated (posted) smoking sites, places of habitation or public camp grounds. Have enrollees been duly informed and are they complying? | Satisfactory |
| 11. Check fire protection in main camp. This is primarily an Army responsibility but the following should be given attention by the Supt.:  |              |
| (a) All chimneys and stove pipes in F.S. buildings to be screened or provided with spark arresters.   | Yes          |
| (b) Metal floor boards under stoves.  | Yes          |
| (c) Blacksmith forges to be provided with screen or screened hood.  |              |
| (d) Fire extinguishers should be available in F.S. buildings.   | Yes          |
| (e) Stoves should be safe distance from walls.  | Yes          |
| (f) Stove pipes should be riveted at joints where there is any danger of telescoping.   |              |
| (g) Check for safe collars and roof jacks.  | Yes          |
| (h) Has a fire marshall been designated and is he giving proper attention to his duties? He is responsible for maintenance of fire tool caches, fireproofing camp sites and is the fire prevention expert.          |              |
- NOTE: Other fire prevention covered under G-7.

F. COORDINATION WITH ARMY

- |   |                      |
|---|----------------------|
| 1. (a) Is camp construction completed?  | Yes                  |
| (b) If not, what remains to be done?  | Complete             |
| (c) When is it expected to finish this?   | --                   |
| (d) How many enrollees are engaged in Camp construction work?   | 8 on CP maintenance. |
| 2. Is camp construction over-refined?<br>Cite instances.  | No                   |
| 3. (a) If Army overhead, aside from construction forces, consists of more than 23 men, list the uses to which the surplus is being put. | No                   |
| (b) What action has been taken to reduce the force to 23 unless extras have been approved?  |                      |
| 4. Are Forest employees and Army cooperating effectively?   | Satisfactory         |
| 5. Does Commander switch men without consulting Supt.?  | No                   |
| 6. Is mess satisfactory?  | Fair                 |
| 7. Are arrangements for lunches and "extra shift" meals satisfactory?   | Yes                  |
| 8. Is camp discipline such as to strengthen the disciplinary measures required on the job by the work agency?                           | Satisfactory         |
| 9. Are men interested in their work?  | Yes                  |
| 10. Is selection and use of leader and asst. leader positions satisfactory to both agencies?  | Yes                  |

11. Are housing facilities for work agency employees commensurate with those occupied by Army men of similar rank? If not, what is needed?
12. Educational activities, (a) Does camp have an educational adviser?  
 (b) How many enrollees are taking courses?  
 (c) Are work agency employees cooperating?

Good (Note)  
Yes  
98%  
Yes

G. SAFETY PROGRAM

1. Has a safety committee been established?
2. Does the committee have weekly meetings?
3. Have the Supervisory personnel and leaders and asst. leaders taken the first aid course?
4. Is transportation of enrollees handled in accordance with Safety Division Bulletins No. ECW-1 and ECW-19?
5. Have goggles where required been supplied to enrollees and do they use them?
6. Check carefully and comment on the handling and use of explosives.
7. Check for compliance with fire prevention suggestions of Safety Division Bulletin No. ECW-20 at any garages and gas and oil storage buildings. Comment.
8. List any suggestions you may have which would improve safety conditions at camp or on the job.

Yes  
Weekly Meetings.  
Yes  
Yes  
Yes  
Yes  
No use at present.  
Satisfactory

H. GENERAL

Comment on any pertinent features not covered in the regular report.

I. STATEMENT BY FOREST SUPERVISOR OR STATE FORESTER:

I have read the above report, discussed it with Inspector \_\_\_\_\_ and desire to comment as follows: (Use extra sheets where necessary.)

Inspection

Camp F182 - Beauty Bay

- D-17. New motor will be bought by Ranger Larsen to place grinding outfit in satisfactory condition.
- D-25. Mechanic Swanson is due about January 1, to make a complete overhaul of several of the trucks. Estimated time it will take the mechanic to fix the trucks is one month.

Truck costs for mileage charge as per present engineering scale amounts to \$35.00 for each  $1\frac{1}{2}$  T truck. Under present arrangement we are required to pay for mileage on liberty parties and on wood haul.

Considerable difficulty was experienced by the Supt. in late November and early December with lack of assistance from district mechanic, due in large part to Fernan road machinery and other road jobs on district requiring mechanic's time.

When new foremen such as Roskie, Joki or others enter the CC Camp a general conference should be held with the Supt., and men in question. Believe that these new foremen should dig in and catch up on CC regulations on safety and other instructions more than they do.

The lighting facilities at F182 are very poor. It is an army function to furnish satisfactory conditions for our foreman and it appears that the army does not have sufficient power to handle the entire camp with their present system. If this condition continues it is suggested that Ranger Larsen buy a good gas reading lamp for the main reading room.

With the foreman paying five dollars (\$5.00) per month rent on building or housing use, we should furnish all furniture for the camp's use. It is suggested that all camps be checked to see if satisfactory furniture is available and if not, that it be supplied.

All CC trucks were checked and their condition as far as the Supt. can handle is satisfactory. As mentioned above the mechanic plans on a considerable overhaul job at this camp.

One case of powder and some caps were stored in the temporary powder house. Plans were made to move the powder to the standard powder house at Hayden and to take the present powder house at

Beauty Bay down so no further use will be made of it.

A written plan of work for the Forman Adm. Site is being made by Mr. Haynes for the Superintendent's use. The Supt. should be in as much on the plan of work for this CC Crew, as possible.

All CC foremen should use their extra time in the winter months to catch up on their reading of regulations, instructions and plans for all types of forest work. The Supt. should make it part of his program to see that this is brought to the Foremans attention.
