PRESIDENT CHUCK STABEN

Chuck Staben took office as the 18th president of the University of Idaho on March 1, 2014.

During President Staben's first two years at the University of Idaho, he led new statewide enrollment initiatives to meet Idaho's needs while maintaining excellence in graduate and professional education, research and outreach. The University completed a new Strategic Plan through 2025. In 2015, the University concluded its successful capital campaign, and raised \$261 million, the largest fundraising campaign in Idaho history. Staben believes that public research universities keep our nation strong, and that U of I plays a unique role in making Idaho a better place to live, with a more educated, engaged and prosperous citizenry.

Prior to his service at Idaho, Staben served as the provost of the University of South Dakota from 2008-14. From 2005-08, he served as the associate vice president for research at the University of Kentucky, and acted as vice president from 2006-07. Prior to that appointment, he was a professor of biology from 1989-2008 and served as the chair of the biology department from 2000-04. Previously, he was a postdoctoral researcher at Stanford

University from 1987-89 and at Chiron Research Laboratories from 1985-86. He was also a graduate research and teaching assistant at the University of California, Berkeley from 1978-84.

Staben's research focused on fungal developmental biology, bioinformatics and fungal genomics. He received grants from the National Science Foundation, the National Institutes of Health and other agencies. He has served on NSF and NIH grant review panels and recently served on a National Research Council committee that

reviewed the Experimental Program to Stimulate Competitive Research and the Institutional Development Award programs for the U.S. Senate. Staben taught microbiology, genetics, bioinformatics and introductory biology and he received numerous awards for teaching. Staben received a bachelor's degree from the University of Illinois, Champaign-Urbana in 1978 and a doctoral degree in biochemistry from the University of California, Berkeley in 1984. He is originally from Waukegan, Ill.

Staben and his spouse, Dr. Mary Beth Staben, have three children: Mac, Cal, and Rae. Mary Beth is a practicing physician of internal medicine.

GUEST SPEAKERS

UNIVERSITY OF IDAHO – MOSCOW

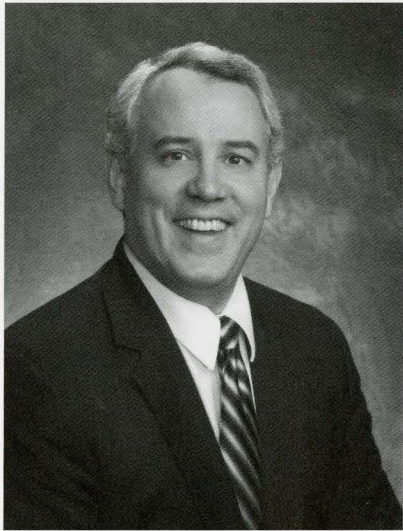

Tom Mueller

Tom Mueller, propulsion chief technology officer at SpaceX, has 30 years of propulsion development experience and is one of the world's foremost rocket engine designers. As one of SpaceX's founding members, he is responsible for building and managing the company's propulsion development group, which develops propulsion systems and engines for the Falcon launch vehicles and the Dragon spacecraft.

At SpaceX, Mueller led development of the Merlin rocket engine, the highest-performing U.S.-made hydrocarbon engine. In February 2018, 27 of these remarkable engines powered the Falcon Heavy rocket off the launch pad and put the mannequin "Starman" into orbit around the sun in a Tesla Roadster. Mueller is currently involved in development of new propulsion systems, including the next generation Raptor engine that will eventually enable humans to be a multi-planet species.

In 2017, Mueller was inducted into the Academy of Engineers at the University of Idaho. Other achievements include receiving an honorary doctorate from Loyola Marymount University and the TRW Chairman's Award, TRW's most prestigious award for technical achievement. He holds several U.S. patents in propulsion technology. Mueller received his Bachelor of Science in mechanical engineering from U of I in 1985 and went on to earn a Master of Science in mechanical engineering from Loyola Marymount University in 1992.

Tom Mueller is also a 2018 honorary degree recipient of the Doctor of Engineering, in recognition of his visionary contributions to the field of science and propulsion systems and engines. He also is a most distinguished alumnus. The University of Idaho is proud to bestow on him the degree of Doctor of Engineering with all its rights, honors, privileges and responsibilities.

David H. Bieter

David H. Bieter was elected the 54th mayor of Boise in 2003, fulfilling a dream he's had since he was a boy growing up in the city's North End.

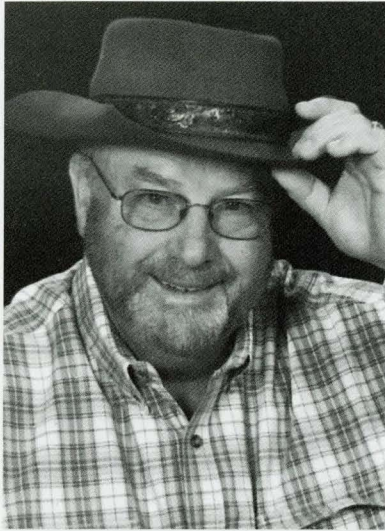

A 1987 graduate of the University of Idaho College of Law, Bieter is serving his fourth four-year term and is Boise's longest-serving mayor in the city's 150-year history.

From his first day in office, Bieter's vision has been to make Boise the most livable city in the country – a goal that continues to transform the city government's culture, drive its strategic direction, and build Boise's reputation as a welcoming city and a center for business, culture, education and outdoor recreation.

Bieter was born in Boise, attended Bishop Kelly High School and received a degree in international studies from The College of St. Thomas in St. Paul, Minnesota. After earning his Juris Doctor as a Vandal, he gained experience in municipal government as civil counsel to Bonner County in North Idaho. He later served as a land-use specialist in the Ada County Prosecutor's Office before opening a private practice in Boise.

Bieter was appointed to his father's seat in the Idaho Legislature following the tragic death of his parents, Pat and Eloise Bieter, in a car accident in 1999. He was re-elected to the District 19 House seat in 2000 and 2002.

UNIVERSITY OF IDAHO, IDAHO FALLS

Roger Ball

Roger Ball is a visionary entrepreneur and innovator who has spent his career dedicated to launching companies and achieving success.

Born in 1940 in Menan on the banks of the Snake River, Ball graduated from Rigby High School. He earned his bachelor's degree in husbandry from the University of Idaho's College of Agricultural and Life Sciences in 1963 and a master's degree in animal science in 1965. There, he found great interest in chemistry and meat science; both have led him in developing products sold nationally and internationally for decades. He went on to study meat science at the University of Illinois.

His love of the mountains, rivers, lakes and wildlife brought him back to Idaho Falls to build a business and raise his family. Ball and his father formed a partnership and purchased Taylor Meat Company in Idaho Falls. As a hobby, Roger began making meat snacks, later forming the company, King B. Jerky. In the 2000s, he sold the King B brand and formed Golden Valley Natural with headquarters in Shelley, one of the largest manufacturers of natural and organic meat snacks in the world.

The meat industry took him to various corners of the world. In Australia, Ball found the plant melaleuca, which he used to create an essential oil company of the same name. It is now one of the largest direct sales companies in the world. It has since grown to more than \$2 billion in sales across the world.

In 2016, Ball co-founded 7K Metals in Idaho Falls, a company that specializes in precious metal bouillon.

Ball has been married for 58 years to his high school sweetheart, Marsha Zundel Ball. Together they have four children. All of their children are involved in the businesses Ball created. They also parented three foster children, and have 27 grandchildren and great-grandchildren.

UNIVERSITY OF IDAHO COEUR D'ALENE

Norman Gissel
photo: Shawn Gust/Coeur d'Alene Press

Norman Gissel is a Coeur d'Alene-area attorney who has been recognized for his dedication and work to fight for racial justice and civil rights.

Originally from Weiser, Gissel received his bachelor's degree in history from the University of Idaho in 1962. He served four years in the U.S. Air Force before returning to U of I and graduating with his Juris Doctor in 1970. He retired from law practice in 2015.

Gissel has held lectures across the country that address communities' responses to racism and hate groups for more than 20 years, including at the Ford Foundation in New York City. In 2016, Gissel was inducted into the Idaho Hall of Fame. Other honors include the Carl Maxey Racial Justice Award and the Kootenai County Task Force on Human Relations Civil Rights Award. He also received the Idaho State Bar Outstanding Service Award in 1989, was named citizen of the year by the Coeur d'Alene Chamber of Commerce in 2000 and also received the Idaho Bar Association Pro Bono Service Award.

His work combating hate crimes includes representing clients in a \$6.3 million lawsuit in 1998 that resulted in the bankruptcy of the Aryan Nations. He was also involved in identifying the group responsible for the bombings of The Spokesman-Review and Planned Parenthood buildings in Spokane in 1996.

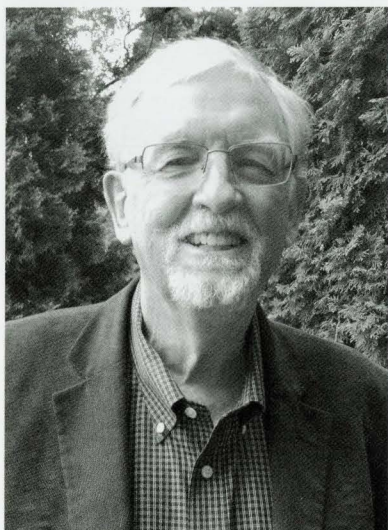

In addition to fighting for civil rights, Gissel is passionate about K-3 literacy for all Idaho children. He co-directs the communitywide Jingle Books program that provides 25,000 free books to children in every Coeur d'Alene elementary school. He was a co-founder of the Coeur d'Alene Charter Academy and served on the North Idaho College Board of Trustees from 1990-96.

Norm has been married for over 50 years to his wife, Diana, and has two daughters, four grandchildren and a great-grandchild.

HONORARY DEGREES

An honorary degree is awarded to a person deserving of honor by virtue of scholarly distinction, noteworthy public service or significant contributions to the state of Idaho. In the selection of candidates for honorary degrees, preference is given to those who are Idaho residents or University of Idaho graduates.

UNIVERSITY OF IDAHO – MOSCOW - HONORARY DOCTORATE DOCTOR OF SCIENCE, COLLEGE OF SCIENCE

Peter Griffiths

Peter Griffiths is a University of Idaho professor emeritus. He holds a doctorate from Oxford University and joined the faculty at the University of Idaho as a professor and chair of the Department of Chemistry in the College of Science in 1989. He served as chair from 1989-97 and again in 2002. He served as interim associate vice president for research from 2000-01 and retired in 2008.

Griffiths is an internationally renowned figure in the field of analytical chemistry. In his career, he has produced over 300 highly cited research articles, 55 book chapters and edited 11 books. He also served as the major professor to 52 doctoral students. He wrote the text, "Fourier Transform Infrared Spectrometry," now in its second edition, and one of the seminal texts in the field of vibrational spectroscopy. Even in retirement, Griffiths continues to publish peer-reviewed articles and his work remains highly read and cited. He has been a driving force in his field for four decades.

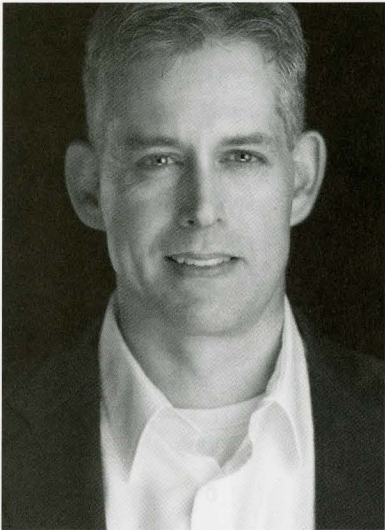

He has received honors from countries across the globe, including the United States, Great Britain, Germany, Austria and New Zealand. Among the many distinguished honors Griffiths has received during his career are the designation of distinguished professor from Ohio University in 1978, the Fritz Pregl Medal from the Austrian Society for Analytical Chemistry in 1995 and the U of I Award for Excellence in Research or Creative Activity in 1995. He is also a recipient of the Bomem Michelson Award in Molecular Spectroscopy, the Gerald S. Birth Award for Outstanding Work in Near-Infrared Spectroscopy, the Alexander von Humboldt Senior Research Fellowship and he was named an Erskine Fellow by the University of Canterbury in New Zealand in 2008.

In recognition of his contributions as a faculty member and scientist, the University of Idaho is proud to bestow on him the Doctor of Science degree with all its rights, honors, privileges and responsibilities.

UNIVERSITY OF IDAHO – MOSCOW - HONORARY DOCTORATE DOCTOR OF ENGINEERING, COLLEGE OF ENGINEERING

Tom Mueller, today's commencement speaker, is a most distinguished alumnus and also an honorary degree recipient. In recognition of his visionary scientific contributions to the field of propulsion systems and engines, the University of Idaho is proud to bestow on him the degree of Doctor of Engineering. For a full biography, see page 6.

UNIVERSITY OF IDAHO – MOSCOW - HONORARY DOCTORATE
DOCTOR OF EDUCATION, COLLEGE OF EDUCATION, HEALTH AND HUMAN SCIENCES

Shawn Swanby

Shawn Swanby, president and CEO of Ednetics, believes in the transformative effect that technology can provide schools and universities. He is a leader in applied technology and has become an advocate and positive influence in the industry.

Swanby studied in the University of Idaho's College of Engineering from 1992-97. As a student, Swanby worked for both Hewlett-Packard and Apple and began consulting on the side. In 1997, he left the university to incorporate his consulting practice, Ednetics.

In the early days of Ednetics, an outside observer might have thought the focus of the company was playing video games and hacky sack. In reality, Swanby had embraced a cultural shift – geeks had become cultural drivers and agents of change. With a focus on people, teams and corporate culture, Swanby recruited many of his closest friends and together they built Ednetics into a thriving company.

Today, Ednetics has offices in Idaho, Washington, Oregon and Arizona. From engineers to interns, the whole team is solving, building and refining. Ednetics has been recognized as both one of the best places to work and most innovative companies in Idaho. Swanby has also been involved in multiple business ventures, including internet and software companies as well as a real estate development group. He serves as chief technology officer for Fatbeam, a fiber-optic provider recently ranked 190 on the Inc. 500's fastest-growing companies list.

In 2017, the College of Education, Health and Human Sciences awarded Swanby an honorary bachelor's degree.

Swanby lives in Coeur d'Alene with his wife, Sarah, and two children. He enjoys cycling, skiing, the outdoors and is still tearing things apart to see how they work.

In recognition of his contributions as a scientist and as a leader in applied technologies, the University of Idaho is proud to bestow on him the Doctor of Education degree with all its rights, honors, privileges and responsibilities.

ALUMNI ASSOCIATION BOARD OF DIRECTORS 2018-19

About the University of Idaho Alumni Association, Inc.

The University of Idaho Alumni Association, Inc. (UIAA, Inc.) is a non-dues-paying group, founded in 1898, that supports University of Idaho alumni to connect them with their alma mater. This network of more than 107,000 alumni worldwide is made of University of Idaho graduates and students who have completed 90 credits or more.

The University of Idaho Alumni Association, Inc. is managed by an elected board of directors that governs the UIAA, Inc. and meets formally three times a year. Duties of elected directors include managing corporate affairs, business and assets of the association. Appointed members may also serve on the board with no voting privileges.

UNIVERSITY OF IDAHO FOUNDATION 2018

About the University of Idaho Foundation, Inc.

The University of Idaho Foundation was established in 1970 to attract private financial support to aid in the achievement of institutional goals and to manage assets for the benefit of the University of Idaho. The Foundation is governed by a board of directors of up to 25 volunteer voting members.

The Foundation receives gifts in a variety of forms that include cash contributions, marketable securities and real estate, and through planned giving opportunities such as bequests, gift annuities, charitable remainder trusts and others.

More than 1,550 individual endowments have been funded through charitable contributions. The endowed funds are managed in the Consolidated Investment Trust (CIT), the Foundation's pooled endowment fund. The principal is non-expendable; distributions support scholarships, faculty development, research and other programs in accordance with our donors' wishes.

With more than \$320 million in assets, the University of Idaho Foundation is the largest public foundation in the state of Idaho.

Delphine Keim promoted to professor in the Department of Art and Design.

Brian Kennedy promoted to professor in the Department of Fish and Wildlife Sciences.

Kristine Levan promoted to associate professor in the Department of Sociology and Anthropology, with tenure.

Reed Lewis promoted to research professor in the Idaho Geological Survey.

Tara MacDonald promoted to associate professor in the Department of English, with tenure.

Spencer Martin promoted to clinical associate professor in the Lionel Hampton School of Music.

Stephen Miller promoted to professor in the College of Law.

Gwen Mitchell promoted to clinical associate professor in the Department of Curriculum and Instruction.

Steven Peterson promoted to clinical associate professor in the Department of Business.

William Phillips promoted to research associate professor in the Idaho Geological Survey.

John Rumel promoted to professor in the College of Law.

Shaakirrah Sanders promoted to professor in the College of Law.

Jeff Seegmiller promoted to professor in the Department of Movement Sciences.

Gail Silkwood promoted to Extension associate professor, Extension educator in the Northern District, with tenure.

Steven Smith promoted to clinical associate professor in the School of Journalism and Mass Media.

Richard Stoddart, associate professor in the General Library, granted tenure.

Penny Tenuto promoted to associate professor in the Department of Leadership and Counseling, with tenure.

Grace Wittman promoted to Extension professor, Extension educator in the Southern District.

Frederick Ytreberg promoted to professor in the Department of Physics.

CANDIDATES FOR DEGREES AND DEGREES PREVIOUSLY AWARDED

GRADUATE DEGREES

COLLEGE OF GRADUATE STUDIES

Established in 1925. Jerry R. McMurtry, Ph.D., Dean

DOCTOR OF ATHLETIC TRAINING

Erica Susan Albertin**, *Elkhart, Indiana*

Culminating Clinical Project: "An Emphasis on Patient and Clinician Outcomes Using the Mulligan Concept." Major Professor: James Michael May

Evelyn Benitez-Lopez**, *Los Angeles, California*

Culminating Clinical Project: "The Effects of the MyoKinesthetic System on Medial Tibial Stress Syndrome in the Physically Active: A Case Study." Major Professor: Lindsay Warren

Lucas Cameron Bianco, *Lynchburg, Virginia*

Culminating Clinical Project: "Redefining Patient Care in the Intercollegiate Athletics Setting through a Treatment-Based Classification Approach." Major Professor: James Michael May

Sadie Marie Buboltz, *De Pere, Wisconsin*

Culminating Clinical Project: "Advancing Clinical Practice: Evaluating and Treating Patients with a Regional Interdependence Approach." Major Professor: Russell Thomas Baker

Robert William Cox*, *Heber, Utah*

Heather Marie Cramer*, *Rancho Cordova, California*

Joshua David Cramer**, *North Wales, Pennsylvania*

Culminating Clinical Project: "A Novel Regional Interdependent Approach to Glenohumeral Rotational Motion Deficits: A Clinical Comparison and Review in Concept." Major Professor: Alan Mark Nasypany

Emily Rinn Dietz**, *Pittsburgh, Pennsylvania*

Culminating Clinical Project: "A Novel Approach to Treating Tendinopathy: Initial Development and Analysis of Treatment-Based Classification Algorithms." Major Professor: Russell Thomas Baker

Smokey Louie Fermin, *Orosi, California*

Culminating Clinical Project: "An Inquiry into the Integration of Novel Manual Therapy Techniques in Patient-Centered Athletic Training Care: A Cumulative Clinical Practice." Major Professor: James Michael May

Jaime Gail Fulcher, *Bishop, Georgia*

Culminating Clinical Project: "Treatment of Musculoskeletal Dysfunction through a Manual Therapy Approach: An Examination of Clinical Practice." Major Professor: Alan Mark Nasypany

Brandon Anthony Gonzales, *Joliet, Illinois*

Culminating Clinical Project: "A Novel Approach to the Examination and Treatment of Neurological Dysfunction through Manual Therapy." Major Professor: Alan Mark Nasypany

Karla Sue Judge*, *Whitefish, Montana*

Culminating Clinical Project: "Examining the Immediate Effects of Positional Release Therapy on Neurological Cross-Transfer and the Central Sensitization of Pain." Major Professor: Alan Mark Nasypany

Jessica Rae Keller*, *Marion, Indiana*

Culminating Clinical Project: "The Effects of Sensory Flow on the Autonomic Nervous System: A Dissertation of Clinical Practice Improvement." Major Professor: Alan Mark Nasypany

Natalia Paola La Beau, *Hawkins, California*

Culminating Clinical Project: "Clinical Examination and Treatment of Musculoskeletal Conditions Utilizing Indirect Manual Therapy Paradigms." Major Professor: Russell Thomas Baker

Braden Lee Lawson*, *Stroudsburg, Pennsylvania*

Rodrigo E. Martinez*, *Miami, Florida*

Culminating Clinical Project: "Assessing the Effects of the MyoKinesthetic System in Patients with Medial Tibial Stress Syndrome: A Novel Approach." Major Professor: Lindsay Warren

Rebecca Rae McClinton*, *Madison, Wisconsin*

Mary Jennifer McDonagh**, *Dillon, Montana*

Emilie Nicole Miley**, *Dayton, Indiana*

Culminating Clinical Project: "Evaluation and Treatment of Musculoskeletal Asymmetry through a Regional Interdependence Approach." Major Professor: James Michael May

Jessica Lauren Nash**, *Laurel, Maryland*

Culminating Clinical Project: "Comprehension and Implementation of the Mulligan Concept's Mobilizations with Movement for the Ankle and the Emotional Freedom Technique into Clinical Practice." Major Professor: Russell Thomas Baker

Ryan Patrick O'Kane, *Folsom, Pennsylvania*

Culminating Clinical Project: "Novel Evaluation and Treatment Approaches for Musculoskeletal Conditions in Clinical Practice." Major Professor: Alan Mark Nasypany

Robert Clark Oates, *Bellville, Ohio*

Culminating Clinical Project: "Evaluation and Treatment of Ankle Injury and Dysfunction in an Athletic Population while Utilizing the Mulligan Concept." Major Professor: James Michael May

Richard Donald Patterson Jr.*, *Charleston, West Virginia*

Miguel Romero Quintero*, *Sylmar, California*

Ashley Jo Reeves, *Gig Harbor, Washington*

Christanie B. Rodriguez, *San Antonio, Texas*

Culminating Clinical Project: "Improving Clinical Practice and Education through Applied Research and Advanced Manual Therapy Techniques: A Patient-Centered Care Approach." Major Professor: Lindsay Warren

Caitlin Rose Rutherford*, *Palm Springs, California*

Kevin Michael Schroeder**, *Albuquerque, New Mexico*

Culminating Clinical Project: "Integration and Implementation of Mulligan Concept's Mobilizations with Movement and Movement Assessment Screenings into Clinical Practice." Major Professor: Russell Thomas Baker

Daniel Sigley, *Hillsboro, Kansas*

Eric Keith Stanford**, *Tupelo, Mississippi*

Culminating Clinical Project: "Evaluation and Treatment of Perceived Hamstring Extensibility Dysfunction: A Concept Review, Topic Appraisal, and Novel Approaches to Clinical Practice." Major Professor: Russell Thomas Baker

Diane Lynn Stankevitz*, *West Covina, California*

Culminating Clinical Project: "Examination of the MyoKinesthetic System as Treatment for Medial Tibial Stress Syndrome: A Dissertation of Clinical Practice Improvement." Major Professor: Lindsay Warren

Krystal A. Tyree**, *North Little Rock, Arkansas*

Culminating Clinical Project: "Exploration and Integration of the Mulligan Concept MWM for the Ankle and Regional Interdependence Models for Musculoskeletal Dysfunction into Clinical Practice." Major Professor: James Michael May

Joshua Keith Underwood, *Vernon, Vermont*

Culminating Clinical Project: "A Novel Cervicocephalic Evaluation and Therapeutic Approach for Somatic Dysfunctions Associated with Concussions." Major Professor: Alan Mark Nasypany

Maisie Lee Walters*, *Everett, Washington*

Joshua David Williamson*, *Lexington, Virginia*

Alexander Zettlemoyer*, *Mechanicsburg, Pennsylvania*

* Degree awarded August 4, 2017

** Degree awarded December 15, 2017

§ Degree to be completed in a future semester

The appearance of a name in this program is presumptive evidence of graduation and graduation honors; it must not in any sense be regarded as conclusive. The academic transcript, signed and sealed by the proper university officers, remains the official testimony of the possession of the degree.

DOCTOR OF EDUCATION

Richard Thomas Duke*, *Missoula, Montana*

Dissertation: "A Multi-Case Study of Professional Ethics in Alternative Education: Exploring Perspectives of Alternative School Administrators." Major Professor: Penny Lee Tenuto

George Tomlinson III, *Coeur d'Alene*

Dissertation: "A Two-Edged Sword: Improving Transitional Services for First Generation Students with Learning Disabilities in Idaho." Major Professor: Sydney Freeman

DOCTOR OF PHILOSOPHY

Ann Marie Abbott*, *Genesee*

Natural Resources. Dissertation: "A Comparison of Regional and Site Specific Biomass Equations for Three North Idaho Conifers." Major Professor: Mark James Kimsey

Russell Thomas Baker*, *Riverside, California*

Education. Dissertation: "An Examination of the Effects of Mechanical Manual Therapies on Clinician and Patient-Oriented Outcomes Measures: A Dissertation of Clinical Practice Improvement." Major Professor: Alan Mark Nasypny

Mehdi Basirat, *Shiraz, Iran*

Mechanical Engineering. Dissertation: "Dislocation-Based Modeling of Creep Deformation and Fracture in Modified 9Cr-1Mo Steels." Major Professor: Gabriel Potirniche

Traci Lynn Birdsell, *Lewiston*

Education. Dissertation: "Influences on Rural Students' College Access and Completion: A Qualitative Case Study." Major Professor: Allen Kitchel

Daniel Caetano Da Silva*, *São Paulo, Brazil*

Bioinformatics and Computational Biology. Dissertation: "Challenges and Advances for Phylogenetic Comparative Models of Trait Evolution." Major Professor: Luke J. Harmon

Julie Ann Crea, *Lewiston*

Political Science. Dissertation: "Ethical Transformational Leadership in Public Administration." Major Professor: Donald Wayne Crowley

Brian Matthew DeFriez*, *Carson City, Nevada*

Political Science. Dissertation: "Toward a Clearer Democracy: The Readability of Idaho Supreme Court Opinions as a Measure of the Court's Democratic Legitimacy." Major Professor: Brian Ellison

Anthony Rey DeLeon*, *Filer*

Mechanical Engineering. Dissertation: "Large-eddy Simulations of Microscale Turbulent Winds over Arbitrarily Complex Terrain." Major Professor: Ralph S. Budwig

Tamera Dirks, *Post Falls*

Education. Dissertation: "Baby-Boomer First-Generation Students." Major Professor: Sydney Freeman

Gary Curtis Fullmer*, *Idaho Falls*

Political Science. Dissertation: "Polarization amongst the American Public." Major Professor: William R. Lund

Heather Emily Greaves*, *Sebastopol, California*

Natural Resources. Dissertation: "Applying Lidar and High-Resolution Multispectral Imagery for Improved Quantification and Mapping of Tundra Vegetation Structure and Distribution in the Alaskan Arctic." Major Professor: Jan Ulrich Eitel

Dale Alvin Hamilton, *Caldwell*

Computer Science. Dissertation: "Improving Mapping Accuracy of Wildland Fire Effects from Hyperspatial Imagery Using Machine Learning." Major Professor: Gregory Wood Donohoe

Brenda Janene Hanley, *Moscov*

Bioinformatics and Computational Biology. Dissertation: "The Superparameters of Population Matrix Models and Their Applications." Major Professor: Brian C. Dennis

Jeffrey Kevin Heath, *Idaho Falls*

Biological Engineering. Dissertation: "Comparative Bio-Economic Impact on Rural Transit Highways from Commuter Transit Types: Department of Energy Mass Transit Analysis for Development, Retention, Modification, or Termination of Mass Transit at the Remote Sites in Idaho, Nevada, and New Mexico." Major Professor: Lee Thomas Ostrom

Jensen C. Hegg**, *Palouse, Washington*

Water Resources. Dissertation: "Movement, Migration, and Melody: An Interdisciplinary Study of Juvenile Salmon Ecology through Otolith Chemistry." Major Professor: Brian Patrick Kennedy

Shana Lee Hirsch, *Vashon Island, Washington*

Water Resources. Dissertation: "Adaptive Epistemologies: Scientific Practice and Environmental Restoration in a Changing Climate." Major Professor: Jerrold Long

Jivan Khatry*, *Kathmandu, Nepal*

Nuclear Engineering. Dissertation: "Modeling Transients and Designing a Passive Safety System for a Nuclear Thermal Rocket Using Relap5." Major Professor: Fatih Aydogan

JungJin Kim*, *Andong-si, South Korea*

Biological and Agricultural Engineering. Dissertation: "Integrated Water Resources Management in a Changing Climate: Water Quality, Quantity, Alternative, and Policy Making." Major Professor: Jae H. Ryu

Joanna Helena Kud**, *Rzeszow, Poland*

Plant Science. Dissertation: "Regulation of the Defense-related SINAC1 Transcription Factor during Defense Signaling in Tomato." Major Professor: Fangming Xiao

Sangki Lee, *Seoul, South Korea*

Civil Engineering. Dissertation: "Wildfire Effect on Water Yield in Large Watersheds." Major Professor: Daniele Tonina

Cary Ruth Lindsey, *Plantersville, Mississippi*

Geology. Dissertation: "Exploratory and Spatial Statistics for Evaluating Energy Transfer in Geothermal Areas in the Yellowstone Caldera." Major Professor: Jerry P. Fairley

Shannon Marie MacKenzie**, *Dayton, Kentucky*

Physics. Dissertation: "Complex Hydrocarbons in the Saturn System." Major Professor: Jason W. Barnes

Travis Lynn McLing*, *Idaho Falls*

Geology. Dissertation: "Elucidating Water Sources and Interaction with Hydrogeologic Systems: Enthalpy, Radon, and Rare Earth Elements as Naturally Occurring Tracers." Major Professor: Robert William Smith

Mary Ellen Mincher**, *Idaho Falls*

Chemistry. Dissertation: "Extraction and Separation of Rare Earth Elements from Chloride Media Using Tetrabutyl Diglycolamide in 1-Octanol and Modified Carbon Dioxide." Major Professor: Chien M. Wai

Mohamed Sobhy Mahmoud Mohamed§, *Cairo, Egypt*

Computer Science. Dissertation: "Real-time Defense Strategies against Rogue Nodes in Vehicular Network." Major Professor: Axel W. Krings

Aimee Shay Navickis-Brasch, *Spokane, Washington*

Civil Engineering. Dissertation: "Engineering Informed by Research: Practical Applications for Stormwater Management Design and Education." Major Professor: Fritz R. Fiedler

Todd Travis Nichols**, *Bartlesville, Oklahoma*

Chemical Engineering. Dissertation: "Predicting Vapor-Liquid Equilibrium over the Entire Two-Phase Region Equation with Only Limited VLE Data." Major Professor: Vivek Utgikar

Yevgen Oleksandrovych Nosyk*, *Kharkov, Ukraine*

Physics. Dissertation: "The Nucleon-Nucleon Interaction in Chiral Effective Field Theory up to 5th Order (N4LO)." Major Professor: Ruprecht Machleidt

Yvonne Elikplim Akua Nyavor§, *Accra, Ghana*

Neuroscience. Dissertation: "Interactions between a High Fat Diet, the Gut Microbiota and Host in Enteric Neuropathy and Dysmotility." Major Professor: Onesmo B. Balemba

Aline Ortega Pieck*, *Mexico City, Mexico*

Water Resources. Dissertation: "From Carbon to Fish: Understanding Mechanisms of Human Impacts on Freshwater Ecosystems." Major Professor: Lee Alexander Vierling

Ik Ju Park*, *Seongnam-si, South Korea*

Entomology. Dissertation: "The Role of Olfactory and Visual Cues in the Host Finding Behavior of a Near-monophagous Specialist Insect Herbivore Considered for Biological Control of Weeds." Major Professor: Mark Schwarzaender

William Jeffery Reeder*, *Boise*

Civil Engineering. Dissertation: "Spatial and Temporal Dynamics of Dissolved Oxygen and Nitrous Oxide Concentrations in the Hyperheic Zone." Major Professor: Daniele Tonina

Glenn Anderson Roth*, *Idaho Falls*

Mechanical Engineering. Dissertation: "Development of a Six-Field Two-Phase Model for use in Reactor System Codes." Major Professor: Fatih Aydogan

Jessica Sarauer, *Bloomer, Wisconsin*

Natural Resources. Dissertation: "Bioenergy and Biochar as Climate Change Mitigation Factors in Northwestern USA Forests." Major Professor: Mark D. Coleman

Peter Schlesinger**, *New Hampton, New Hampshire*

Natural Resources. Dissertation: "Understanding Patterns of Land-Cover and Land-Use Change in the Trifinio Region of Central America." Major Professor: Lee Alexander Vierling

Kendra Gail Schotzko*, *Moscov*

Entomology. Dissertation: "Trees Die, Forests Live: Quantifying the Impacts of Insect Disturbances in the Intermountain West." Major Professor: Stephen P. Cook

Carlos Alberto Silva, *Rio do Sul, Brazil*

Natural Resources. Dissertation: "Advanced Methods for 3-D Forest Characterization and Mapping from Lidar Remote Sensing Data." Major Professor: Lee Alexander Vierling

Matthew Lipman Singer, *Marion, Virginia*

Biology. Dissertation: "Influences of Environmental Variation on the Bold-Shy Continuum." Major Professor: Barrie Dennis Robison

Steven James Sitler*, *Moscov*

Materials Science and Engineering. Dissertation: "Electrochemical and High Temperature Characterizations of Hafnium and Zirconium Diboride Solid Solutions with Different Additives." Major Professor: Krishnan S. Raja

Benjamin Scott Soderquist*, *Idaho Falls*

Natural Resources. Dissertation: "Simulating the Influence of Shifts in Snow Redistribution on Semi-Arid Upland Vegetation in a Warming Climate." Major Professor: Kathleen Kavanagh

Jennifer Ann Spencer§, *Boise*

Animal Physiology. Dissertation: "Improving Cattle Fertility: The Influences of Aspirin, Nutrition and Prostaglandin on the Reproductive Performance of Cattle." Major Professor: Amin Ahmadzadeh

Stuart Steiner, *Spokane, Washington*

Computer Science. Dissertation: "A Semantic Least Privilege Semi-Automated Approach to Preventing Cyber Attacks on Web Applications." Major Professor: Daniel Conte de Leon

Corinna Hildegard Stiles, *Spokane, Washington*

Education. Dissertation: "Second Life: Virtual World Case Studies Exploring Self-Determination of Adults with Developmental Disability." Major Professor: Aleksandra Hollingshead

Chi Sun**, *Singapore, Singapore*

Neuroscience. Dissertation: "Photoreceptor Transcriptome Analysis in Zebrafish." Major Professor: Deborah L. Stenkamp

Thomas Anthony Ulrich**, *Idaho Falls*

Experimental Psychology. Dissertation: "The Development and Evaluation of Attention and Situation Awareness Measures in Nuclear Process Control Using the Rancor Microworld Environment." Major Professor: Steffen Werner

Nichole Renee Valdez*, *Aurora, Colorado*

Geology. Dissertation: "The Crystal Structure of Olivine and the Effect of Crystal Orientation on X-ray Absorption Spectroscopy." Major Professor: Mickey E. Gunter

Bingxing Wu, *Shanghai, People's Republic of China*

Electrical Engineering. Dissertation: "Generic CMOS Image Sensor with Innovated Mapping Method for Traffic and Pedestrian Detection Application." Major Professor: Suat Utku Ay

Adam Young, *Bethlehem, Pennsylvania*

Natural Resources. Dissertation: "Sensitivity of Past, Present, and Future Fire Regimes to Climate and Vegetation Variability in Boreal Forest and Tundra Ecosystems." Major Professor: Luigi Boschetti

Idaho's WWAMI Medical Education Program is a partnership with the University of Washington School of Medicine and the states of Washington, Wyoming, Alaska, Montana and Idaho. Started in 1972, WWAMI is currently in its 46th year of successfully educating Idaho's physicians. The WWAMI program is nationally accredited through its partnership with the UW School of Medicine, allowing 40 Idaho medical students to complete their first 18 months of medical training at the University of Idaho, Moscow campus. Idaho's medical students will complete the remainder of their clinical training in Idaho through the WWAMI clinical site in Boise and throughout the five-state WWAMI region.

WASHINGTON-IDAHO REGIONAL PROGRAM IN VETERINARY MEDICINE

Established in 1974. Amin Ahmadzadeh, Ph.D., Head of Animal and Veterinary Science

The University of Idaho cooperates with Washington State University in a program of veterinary medical education, research and service. In the program, students from Idaho take the first three years of professional training in veterinary medicine at Washington State University; faculty members from Idaho and WSU offer instruction in the professional and academic curricula. In the fourth year of the program, students receive part of the clinical training at the Caldwell, Idaho, veterinary medical facility.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Mace

Maces date to the Middle Ages and symbolize strength and authority. Each is unique and reflects the values and characteristics of the institution. The university's chief marshal, who leads all academic processions, carries the mace.

The University of Idaho's mace, used for the first time at the centennial commencement, is 32 inches long, made of walnut and encircled with bands of Idaho gold and silver in which Idaho garnets and opals have been inlaid. The head is embellished with silver and gold representations of camas plants and syringa flowers. The chair of the university's Faculty Senate, the marshal of the academic procession, carries the mace in the American tradition, at a 45-degree angle across the chest, while in England, the bearer carries it over the shoulder.

University of Idaho mace

University of Idaho President's Medallions

The first medallion was created by Idaho artists George and Macky Roberts. The President's Medallion was first used in 1965 at the inauguration of Ernest Hartung, the University of Idaho's 12th president.

The medallion's base is a three-and-a-half-inch disc of pure Idaho silver. Mounted on the base is a disc of native jasper; a sterling silver sunburst is inlaid in the disc. Inside the sunburst is a modification of the Chinese character meaning "mountain," which features three upward-pointing prongs. Over the center prong is a gold inlay, thus symbolizing "Light on the Mountain."

The heavy medallion was worn suspended from a collar woven of Idaho wool, some of which is dyed with dahlia flowers to match the jasper and some of which is from a black sheep.

The second President's Medallion, worn during commencement by then-President Timothy P. White, was commissioned in 2004. This medallion's base is a gold-leaved university seal and is worn suspended by a chain with gold leaf charms, each representing the presidents who have served the university.

The university's second, and current, President's Medallion.

The first President's Medallion, created in 1965.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Apparel

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator—gowns of bachelor's have pointed sleeves; those of master's have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the University's centennial year and are worn today by officials and university administration.

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

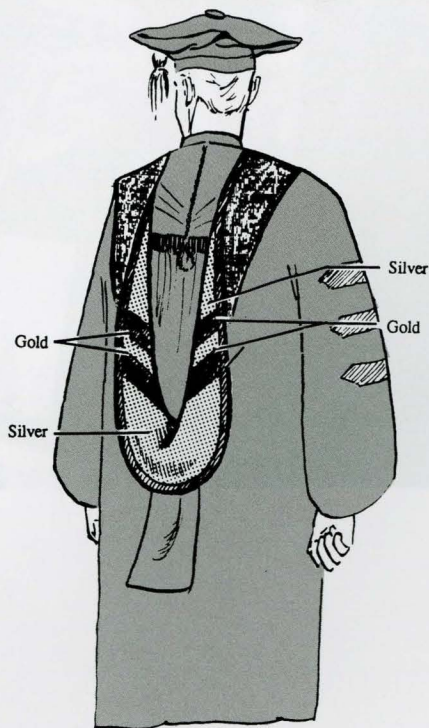

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study (see colors at right); the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining: the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming: the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are listed below:

Agriculture.....	Maize
Arts, Letters, Humanities.....	White
Commerce, Accountancy, Business.....	Drab
Economics.....	Copper
Education.....	Light Blue
Engineering.....	Orange
Fine Arts, including Architecture.....	Brown
Forestry.....	Russet
Journalism.....	Crimson
Law.....	Purple
Music.....	Pink
Philosophy.....	Dark Blue
Physical Education.....	Sage Green
Public Administration.....	Peacock Blue
Science.....	Golden Yellow

“HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

UNIVERSITY OF IDAHO BOISE

University of Idaho Boise originated in 1910 when an agricultural Extension program was established in Ada County. In 1953, U of I Boise grew with the introduction of teacher education programs, which were expanded in the early 1980s. A cooperative agreement between the University and the Idaho Department of Fish and Game led to the 1963 opening of the Idaho Water Resources Research Institute (IWRRI) with offices in Boise, Moscow and Idaho Falls. Engineering courses were first delivered in Boise in 1988. Agricultural Extension, regional and state personnel, and several University support offices were located in Boise for greater statewide access and service in the early 1990s. In the late 1990s, WWAMI opened its doors in Boise and all U of I programmatic, advancement, athletics and other efforts in the community were brought together under the umbrella of U of I Boise. In the early 2000s, the College of Art and Architecture began offering courses in Boise and the College of Law offered externship opportunities and it's now offering its complete Juris Doctor curriculum in Boise.

Today at the University of Idaho Boise, students, faculty, researchers and staff work on a variety of topics that include water, natural resources and the environment; education; law; community sustainability and design; family economics; childhood education; nutrition education; pesticide safety and management; food technology, safety and processing; water resources engineering; and public policy.

Excellence at U of I Boise can be measured by the success of the many people we serve across the region and by the quality and achievements of our more than 140 faculty and staff members.

The University of Idaho Boise provides southwest Idaho access to all University of Idaho resources. U of I Boise is focused on community impact, regional economic development and supporting university growth.

Strategically located in Boise, the economic and governmental center of Idaho and home of more than 55 percent of the state's population and business entities, U of I Boise supports teaching, learning, research, medical education and outreach. We distinguish ourselves through:

- Quality programs that accommodate working professionals and full-time students with a focus on professional and workforce development;
- Outreach to southwest Idaho's communities to foster their sustainability, growth and educational access;
- Proactive research for domestic and global solutions;
- Collaborative and interdisciplinary work with the public and private sectors, including other institutions of higher education; and
- Enduring relationships with alumni and friends to carry forward the proud history and traditions of the University of Idaho.

At the University of Idaho Boise, we are accessible and responsive to the public. We are committed to strength through diversity. We serve the region, the state, the nation and the world.

UNIVERSITY OF IDAHO COEUR D'ALENE

The University of Idaho Coeur d'Alene offers educational opportunities in the classroom, via the internet, and through videoconferencing. Outreach programs have grown substantially in the past several years to meet an increasing demand for services to the off-campus learner.

The University of Idaho Coeur d'Alene partners with agencies and groups to address the demand for professional development and continuing education in both the public and private sectors of the region. The public schools of Region I and the University of Idaho cooperatively plan staff development classes for all educators of the area. University of Idaho Coeur d'Alene links local business in-service needs with campus expertise.

"Working together" is a standard for University of Idaho Coeur d'Alene. As a member of local chambers of commerce and economic development corporations, the University assumes an active role in educational, research and development projects. The University of Idaho has assisted school districts, governmental agencies, non-profits and municipalities in locating and acquiring grant money for specified projects.

The opportunity to meaningfully contribute to regional economic development is clearly recognized at the University of Idaho Coeur d'Alene. Laboratory facilities are available for research and development in cooperation with corporate partners and entrepreneurs. The Jacklin Science and Technology Center at the University of Idaho Research Park in Post Falls is a technology business incubator facility oriented to stimulating and supporting startup companies. One of our important goals is to apply university resources and expertise to practical problems faced by regional businesses.

In partnership with local tech industry partners, our comprehensive Dig'nIT program increases awareness and provides technology education for K-gray learners. In addition, the Idaho legislature has followed through on an investment in a four-year computer science degree in Coeur d'Alene. The Center is spearheading a statewide program to train Idaho citizens in coding and application development that began this spring.

The University of Idaho is committed to leadership development with the Executive Master of Business Administration program in Coeur d'Alene. The class schedule is formatted to allow students to earn their MBA degree in 20 months without interrupting their careers. The program combines the rigor and depth of a traditional MBA with an integrated curriculum and flexible format of an executive program.

The University of Idaho Coeur d'Alene is actively planning for our future in Coeur d'Alene by participating with North Idaho Higher Education, the city of Coeur d'Alene, and ignite cda — the local urban renewal agency — on development of the 90-acre higher education campus in Coeur d'Alene. Planning is underway for a \$10 million northern Idaho collaborative education facility to be built in 2018-19 that will provide state-of-the-art student services and classrooms. The nascent U of I Coeur d'Alene Computer Science program contributes to the entrepreneurial ecosystem of the region via its location in the downtown Innovation Den.

Through its degree programs, technology and research centers, and collaborative philosophy, University of Idaho Coeur d'Alene provides outreach to all people of northern Idaho.

UNIVERSITY OF IDAHO, IDAHO FALLS

In Idaho Falls, our core mission is engineering, science and technology. Our campus at University Place features high-tech classrooms, excellence in the curriculum offered and renowned faculty who are actively engaged in research. The Center for Advanced Energy Studies research facility is a partnership between the three Idaho universities, University of Wyoming and the Idaho National Laboratory, the Department of Energy's lead nuclear research laboratory.

The University of Idaho has offered degree programs in Idaho Falls for more than 60 years. Since our first graduating class in 1955, more than 2,000 students have earned degrees. Many more have completed certificates and courses for professional and personal development.

Students, faculty and staff at the Idaho Falls Center are part of a community that extends throughout the entire state of Idaho. U of I serves the state of Idaho through educational centers in Boise, Coeur d'Alene and Idaho Falls, nine research and Extension centers, plus Extension offices in 42 counties and three federally recognized reservations. Students can take courses offered by faculty at multiple locations and interact with students from other disciplines.

The University of Idaho, Idaho Falls staff and faculty extend congratulations to the graduating class of 2017-18 for their achievements.

UNIVERSITY OF IDAHO FIGHT SONG

"GO, VANDALS, GO"

*Came a tribe from the North, brave and bold,
Bearing banners of Silver and Gold;
Tried and true to subdue all their foes
Go Vandals, go mighty Vandals!*

*Go, Vandals, Go,
Fight on with hearts true and bold,
Foes will fall before your Silver and your Gold,
The victory cannot be withheld from thee,
So all bear down for Idaho,
Come on old Vandals, go!*

*I-D-A-H-O
Idaho, Idaho, Go! Go! Go!*

*The victory cannot be withheld from thee,
So all bear down for Idaho,
Come on old Vandals, go!*

HISTORY

First sung at an Idaho football game in 1931, "Go, Vandals, Go" was adopted as Idaho's only fight song. It was composed by J.M. "Morey" O'Donnell, a longtime Moscow attorney, when he was a freshman at the University. A native of Granite, Idaho (north of Coeur d'Alene), Morey was a child prodigy who began playing the piano at age six, was in an orchestra by 13, and was traveling the world with a dance orchestra by the time he entered the University in 1930.

At that time, Idaho's fight song was "On Idaho" which was sung to the tune of "On Wisconsin." The ASUI sponsored an annual songfest competition among the classes, and one of its purposes was to find a new fight song. "Go, Vandals, Go" won the competition in 1930 and immediately became the Vandals only mantra. It was copyrighted by the University in 1931.

The chorus was written as whole notes and half notes so that it could be easily sung by a large crowd. Many school songs are difficult to sing because of the fast beat used to make them spirited. "Go, Vandals, Go" instead relies on a heavy drum beat and the nature of the words to carry the spirit. As a result, it is continually cited as one of the top college fight songs in America.
