## HERE WE HAVE IDAHO

1 *Alma Mater, the hope of a pioneer race;  
You're fashioned of dreams and of toil,  
Your walls and your towers by stout-hearted men  
Were raised from the rock and the soil.*

### Chorus

*And here we have Idaho,  
Winning her way to fame;  
Silver and Gold in the sunlight blaze,  
And romance lies in her name;  
Singing, we're singing of you, ah, proudly too;  
All our lives through we'll go singing,  
Singing of you, Alma Mater, our Idaho.*

2 *Now ours is the heritage, rich and so full,  
The gain of their toil and their tears;  
And ours is the fruit, and the harvest is ours,  
Oh, Idaho, gift of the years.*

### Chorus

*And here we have Idaho,  
Winning her way to fame;  
Silver and Gold in the sunlight blaze,  
And romance lies in her name;  
Singing, we're singing of you, ah, proudly too;  
All our lives through we'll go singing,  
Singing of you, Alma Mater, our Idaho.*

By noting certain features of a person's apparel, it is possible to learn several things about his or her academic status: the level of the degree attained, the branch of learning in which it was earned, and the institution.

**Gowns—**

The gowns differ according to the level of the degree. The sleeves are the principal indicator—gowns of doctors have round, bell-shaped sleeves; those of masters have long, closed sleeves that now open at the wrist; and bachelors have long, pointed sleeves. Doctoral gowns have distinctive velvet facing around the collar and down the front and three velvet bars on each sleeve.

**Hoods—**

The size of the hood also varies according to the degree. Although not a part of current academic apparel, hoods of bachelors are three feet long. A master's hood is three and one-half feet long, and a doctor's is four feet in length and has side panels. It is from the colors adorning the hood that one can learn two other facts: the hood is lined with the official colors of the college or university conferring the degree (silver and gold, of course, signifying the University of Idaho) and it is trimmed with velvet of a color denoting the wearer's branch of learning. Following are the colors that correspond to the advanced degrees granted by the University of Idaho:

Doctor of Philosophy .....	dark blue
Doctor of Education, Specialist in Education, and Master of Education .....	light blue
Juris Doctor .....	purple
Doctor of Veterinary Medicine (conferred through Washington State University) .....	gray
Master of Arts and Master of Arts in Teaching .....	white
Master of Science and Master of Natural Science .....	golden yellow
Master of Architecture .....	violet
Master of Business Administration .....	drab
Master of Engineering .....	orange
Master of Fine Arts .....	brown
Master of Forestry .....	rust
Master of Music .....	pink
Master of Public Administration .....	peacock blue

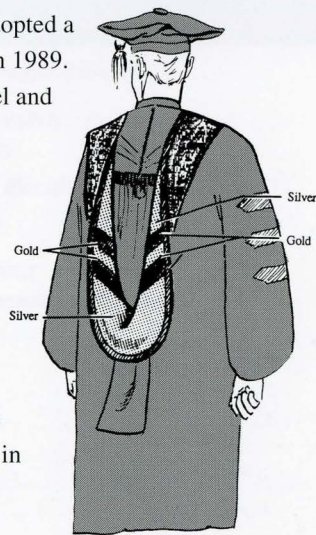

Colors for disciplines not cited above are:

Agriculture .....	maize
Dentistry .....	lilac
Economics .....	copper
Home Economics .....	maroon
Journalism .....	crimson
Library Science .....	lemon
Medicine .....	green
Nursing .....	apricot
Pharmacy .....	olive green
Physical Education .....	sage green
Public Health .....	salmon pink
Social Work .....	citron
Speech .....	silver gray
Theology .....	scarlet

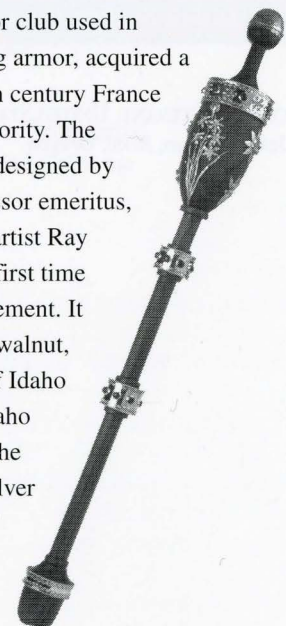

**Honor Cords—**

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: bronze cords designate graduation cum laude (with distinction); silver, magna cum laude (with great distinction); and gold, summa cum laude (with highest distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortar-board. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university's centennial year.

The MACE, a heavy staff or club used in medieval times for breaking armor, acquired a ceremonial function in 13th century France as a symbol of secular authority. The University of Idaho mace, designed by Edmund M. Chavez, professor emeritus, with metal work by Idaho artist Ray Goodner, was used for the first time at the centennial commencement. It is 32 inches long, made of walnut, and encircled with bands of Idaho gold and silver in which Idaho garnets and opals are set. The head is embellished with silver and gold representations of camas plants and syringa flowers.

*To enrich education through diversity, the University of Idaho does not discriminate on the basis of race, color, national origin, religion, sex, age, disability, or status as a Vietnam-era veteran in employment or in admission to or the operation of its educational program and activities, as required by state and federal laws and regulation. Inquiries may be directed to the university's affirmative action office.*
