ONE HUNDRED NINETEENTH
COMMENCEMENT
DECEMBER 14, 2013

“HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
 You're fashioned of dreams and of toil,
 Your walls and your towers by stout-hearted men
 Were raised from the rock and the soil.

Chorus

And here we have Idaho,
 Winning her way to fame;
 Silver and Gold in the sunlight blaze,
 And romance lies in her name;
 Singing, we're singing of you, ah, proudly too;
 All our lives through we'll go singing,
 Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
 The gain of their toil and their tears;
 And ours is the fruit, and the harvest is ours,
 Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
 Winning her way to fame;
 Silver and Gold in the sunlight blaze,
 And romance lies in her name;
 Singing, we're singing of you, ah, proudly too;
 All our lives through we'll go singing,
 Singing of you, Alma Mater, our Idaho.

Interim President Donald L. Burnett Jr.

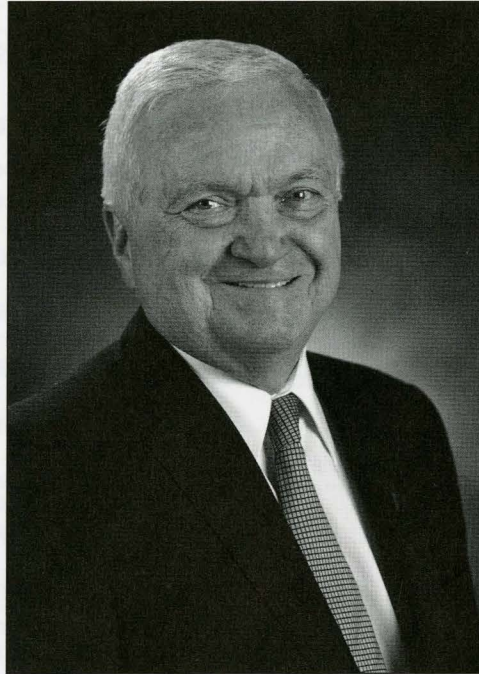

Don Burnett has served as interim President of the University of Idaho since June 1, 2013. When taking office, Don described his service as the repayment of a family debt because his parents, who attended the university during the Great Depression, felt their UI degrees provided the gateway to a world of opportunities.

Don's career before the interim presidency encompassed service as an appellate judge, practicing lawyer, Army JAG officer, state bar president, law professor, and dean of two law schools.

Born in Pocatello in 1946, Don received his baccalaureate degree magna cum laude in economics from Harvard, his J.D. degree from the University of Chicago, and an LL.M. degree from the University of Virginia. He also graduated on the "Commandant's List" from the Command & General Staff College of the U.S. Army. As a reserve officer in the Army Judge Advocate General's Corps, Don's service included the position of reserve deputy commandant and academic director of The Judge Advocate General's School. He received the U.S. Armed Forces Legion of Merit Award for career achievements when he retired as a colonel in 2001.

Don's concurrent civilian career began with service as a law clerk to the Chief Justice of the Idaho Supreme Court and as an assistant attorney general for the state of Idaho. He entered private practice in Pocatello; became president of the Idaho State Bar; chaired the Bar's professional conduct standards committee; served as a judge of the Shoshone-Bannock Tribal Court; and was executive director of the Idaho Judicial Council. In 1982, he was appointed to the newly formed Idaho Court of Appeals, and, in 1986, he was retained in office by statewide election.

In 1990, Don accepted the University of Louisville's appointment as dean of the law school now named, through efforts by Don and his colleagues, for the school's benefactor: Justice Louis D. Brandeis. Don served 12 years on the Brandeis faculty; ten of those years as dean. He chaired the Kentucky Bar Association's Ethics Committee;

served as convening member of the Kentucky Roundtable on the Environment and the Economy; and served on the board of directors of Health Kentucky, a nonprofit organization devoted to improving healthcare for the poor.

In 2002, Don returned to his native state, when he accepted appointment as dean of the University of Idaho College of Law. He served in that capacity for 11 years until being named interim president of the University. During this period, the College added subject areas of curricular emphasis and interdisciplinary collaboration; raised the level of institutional support for faculty scholarship; enhanced diversity in the faculty and student body; and

expanded the delivery of legal education in the capital city of Boise. As dean, while performing administrative duties, Don also taught Professional Responsibility and Criminal Procedure courses, a Native American Natural Resources Law seminar, and an undergraduate Honors Program seminar.

During his Idaho deanship, Don also chaired an Idaho Supreme Court's task force on structure and resources for the state appellate courts in the next quarter-century; chaired the University of Idaho's Ethical Guidance and Oversight Committee; served as a coordinating dean of university-wide interdisciplinary programs; and served on the Advisory Council for Operation Education, a scholarship program for disabled veterans. He chaired the University's Steering Committee on Diversity and Human Rights as well as the Professionalism Committee of the American Bar Association's Section of Legal Education and Admissions to the Bar. He has received the Idaho State Bar's Distinguished Lawyer, Outstanding Service, and Professionalism awards. In 2013, he received the Idaho Business Review's first "lifetime achievements" award in law.

Don's spouse, Karen Trujillo Burnett, is a Pocatello native as well. She is an author and received her master of fine arts degree in creative writing from the University of Idaho.

GUEST SPEAKER

Dean Cori Mantle-Bromley

Corinne Mantle-Bromley was appointed dean of the College of Education in July 2010.

Prior to her appointment as dean, she served as interim associate dean, professor and chair at Washington State University's teaching and learning department. She also served as a research professor and associate director of Teacher Education and director of undergraduate initiatives at the University of Washington's College of Education; as executive vice president for the Seattle-based nonprofit Institute for Educational Inquiry; as assistant and associate professor in Colorado State University's College of Education; and as assistant professor of curriculum and instruction at the University of Kansas College of Education.

She earned her master's and doctoral degrees from the University of Idaho and her bachelor's degree from Utah State University. She taught Spanish in Idaho public schools prior to teaching for and researching the preparation of teachers. She was tenured at Colorado State University and worked with the internationally known non-profit organization, the Institute of

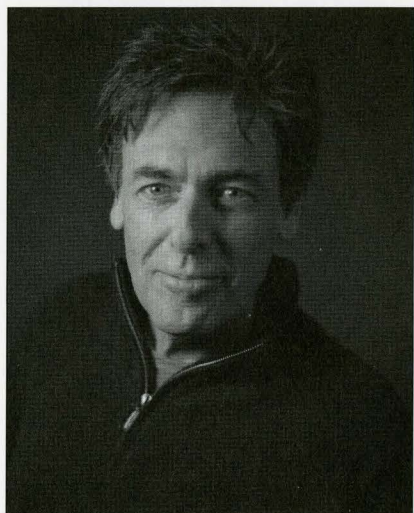

Educational Inquiry, where she focused on school-university partnerships for teaching excellence to promote public purposes of schooling in Seattle, Wash. She has published widely in research and practitioner journals as well as edited books. She is co-author of the widely used book titled, "Education for Everyone."

Dean Mantle-Bromley has lived in Mexico, Guatemala and Colombia, and has traveled throughout Europe, Central and South America, and Japan.

She also has been recognized as an Agenda for Education in a Democracy Scholar by the Institute of Educational Inquiry. In addition, she also has been recognized with an Excellence in Educational Research Award by the Phi Delta Kappa Society in Fort Collins, Colo., and an Outstanding Teacher Award by the College of Applied Human Sciences at Colorado State University. Further, at the University of Kansas she received numerous awards including the Chancellor's Award for Outstanding Teaching.

HONORARY DEGREE

An honorary degree is awarded to a person deserving of honor by virtue of scholarly distinction, noteworthy public service or significant contributions to the state of Idaho. In the selection of candidates for honorary degrees, preference is given to those who are Idaho residents or University of Idaho graduates.

Michael Kirk

Michael Kirk is an award-winning documentary filmmaker who has produced more than 200 national television programs. A former Nieman Fellow in Journalism at Harvard University, Kirk was the senior producer of “FRONTLINE” from the Public Broadcasting series’ inception in 1983 until the fall of 1987, when he created his own production company, Kirk Documentary Group.

While at the University of Idaho, he earned a bachelor’s degree in journalism with a radio-TV news option in 1971. The Michael Kirk Award in Broadcast News is awarded every spring to an outstanding senior in the UI’s School of Journalism and Mass Media. In 2000, Kirk was inducted into the University of Idaho Hall of Fame.

Kirk is the winner of every major award in journalism, including the Peabody Award, the George Polk Award, the DuPont-Columbia Award, 12 EMMYs and 7 Writer’s Guild of America Awards. Kirk frequently lectures on topics ranging from current events to issues confronting journalism. He

has appeared on a number of television programs including “Charlie Rose;” “The Today Show;” “Bill O’Reilly Show;” CNN, MSNBC and Fox news programs and a wide variety of radio broadcasts including “Fresh Air” on NPR, and hundreds of others.

Michael’s most recent “FRONTLINE” film, “League of Denial — The NFL’s Concussion Crisis,” is a two-hour investigation that reveals how, for years, the National Football League worked to refute scientific evidence that the violent collisions at the heart of the game are linked to an alarming incidence of early-onset dementia, brain damage and other devastating consequences.

Other recent “FRONTLINE” productions include “Cliffhanger,” a look into the nation’s fiscal crises and the inside history of how Washington has failed to solve the country’s problems of debt and deficit, and “The Choice 2012,” the quadrennial “FRONTLINE” special that examined the political and personal biographies of presidential candidates Barack Obama and Mitt Romney. Kirk also produced the presidential special in 2008, which covered Barack Obama and John McCain and the 2000 version that featured the stories of George W. Bush and Al Gore; and “Money, Power and Wall Street,” (EMMY award, Polk Award), the four hour series that told the inside story of the financial crisis. Kirk also produced nine films about the War on Terror, including the epic four and a half hour “Bush’s War” (EMMY award).

In addition, Kirk produces programs that concentrate on social and cultural issues in America. “Death by Fire” is the story of a controversial case of one man at the center of the death penalty debate; “Caring for Your Parents” tells the story of five families who care for their elderly parents; the EMMY Award-winning “Navy Blues” examines gender politics in the military; “The Way the Music Died” a behind-the-scenes report on the recording industry; and the groundbreaking “Misunderstood Minds,” a two-year examination of the personal stories of five families confronting the challenges of a child’s learning disabilities.

In recognition of his contributions to journalism and mass media, the University of Idaho is proud to confer upon Michael Kirk — a distinguished alumnus whose life’s work has pulled back the curtain on politics, government and culture — the degree of Doctor of Humane Letters.

SIGNIFICANCE OF ACADEMIC APPAREL AND MACE

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator – gowns of bachelors have pointed sleeves; those of masters have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study; the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

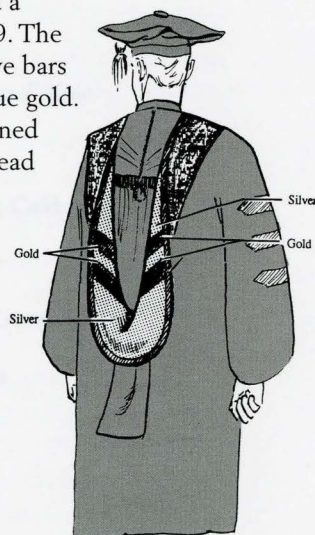

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining – the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming – the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning. Colors associated with the different disciplines are as follows:

Agriculture	Maize	Music	Pink
Arts, Letters, Humanities	White	Nursing	Apricot
Commerce, Accountancy, Business	Drab	Oratory (Speech)	Silver Gray
Dentistry	Lilac	Pharmacy	Olive Green
Economics	Copper	Philosophy	Dark Blue
Education	Light Blue	Physical Education	Sage Green
Engineering	Orange	Public Administration	Peacock Blue
Fine Arts, including Architecture	Brown	Public Health	Salmon Pink
Forestry	Russet	Science	Golden Yellow
Journalism	Crimson	Social Work	Citron
Law	Purple	Theology	Scarlet
Library Science	Lemon	Veterinary Science (DVM)	Gray
Medicine	Green		

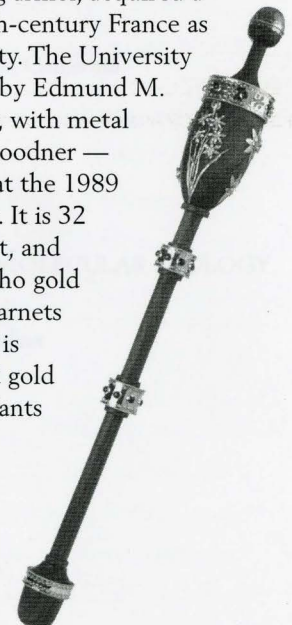

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-style soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university's centennial year and is worn today by faculty serving as officials at the university commencements.

The mace, a heavy staff or club used in medieval times for breaking armor, acquired a ceremonial function in 13th-century France as a symbol of secular authority. The University of Idaho mace — designed by Edmund M. Chavez, professor emeritus, with metal work by Idaho artist Ray Goodner — was used for the first time at the 1989 centennial commencement. It is 32 inches long, made of walnut, and encircled with bands of Idaho gold and silver in which Idaho garnets and opals are set. The head is embellished with silver and gold representations of camas plants and syringa flowers.

To enrich education through diversity, the University of Idaho does not discriminate on the basis of race, color, national origin, religion, sex, age, disability, or status as a Vietnam-era veteran in employment or in admission to or the operation of its educational program and activities, as required by state and federal laws and regulation. Inquiries may be directed to the University's Office of Human Rights, Access and Inclusion.
