1 *Alma Mater, the hope of a pioneer race;  
You're fashioned of dreams and of toil,  
Your walls and your towers by stout-hearted men  
Were raised from the rock and the soil.*

**Chorus**

*And here we have Idaho,  
Winning her way to fame;  
Silver and Gold in the sunlight blaze,  
And romance lies in her name;  
Singing, we're singing of you, ah, proudly too;  
All our lives through we'll go singing,  
Singing of you, Alma Mater, our Idaho.*

2 *Now ours is the heritage, rich and so full,  
The gain of their toil and their tears;  
And ours is the fruit, and the harvest is ours,  
Oh, Idaho, gift of the years.*

**Chorus**

*And here we have Idaho,  
Winning her way to fame;  
Silver and Gold in the sunlight blaze,  
And romance lies in her name;  
Singing, we're singing of you, ah, proudly too;  
All our lives through we'll go singing,  
Singing of you, Alma Mater, our Idaho.*

Peggy (Van Sice) Phillips of Seattle, Washington, is a 1974 and 1976 microbiology graduate of University of Idaho. Phillips is the former executive vice president and chief operating officer of Immunex, which was acquired by Amgen in 2002 in the largest biotechnology merger in history.

Ms. Phillips helped build Immunex from a small, unprofitable venture into a \$16 billion enterprise. She played the key leadership role at Immunex in the development and marketing of Enbrel, a drug used to reduce symptoms in rheumatoid arthritis patients.

“She has become one of the leading women in the biotechnology industry,” according to Larry Branen, vice president for University Outreach and former dean of the College of Agricultural and Life Sciences. “Peggy’s contributions have had worldwide impacts on improving health and the international economy through her work at Immunex.”

Upon graduating from UI, Ms. Phillips worked for 10 years for the allergy division of Miles Labs, the U.S. division of Bayer Pharma. She joined Immunex in 1986 and was elected to the Immunex Board of Directors in 1996.

Originally from Idaho Falls, she is active in her community as a board member and executive committee member for the Alliance for Education where she is leading the advisory committee to establish inquiry-based science in the Seattle School District. Ms. Phillips is also serving on a special budgetary task force for King County; by June the committee will make recommendations to help the county better weather its fiscal crisis. On a broader perspective, she is a board member for the United States Naval Academy foundation.

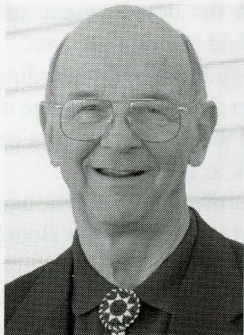

She is one of the recipients for this year’s Alumni Hall of Fame Award. Ms. Phillips is currently writing a novel.

# UNIVERSITY OF IDAHO PRESIDENT'S MEDALLION

---

The President's Medallion, an award initiated by President Bob Hoover in 1998, is presented at the University of Idaho Commencement Plenary Ceremony each May and, when appropriate, at the December Commencement Plenary Ceremony. Recipients are individuals who have made significant contributions to the cultural, economic, scientific and/or social advancement of Idaho and its people, and have provided exceptional service to the state or nation that has influenced the well being of mankind. This year's recipients are:

**Thomas Connolly, S.J.** In 1949, while beginning his pre-law education at Gonzaga University, Thomas Connolly recognized another calling that would lead him to enter the Jesuit seminary. He was ordained a priest in 1963.

But it was on April 14, 1955 that Father Connolly's education took still another important turn. He calls that day "the first day of the rest of my life." It was the day he met Mitch Michael, a Coeur d'Alene elder and spiritual leader who would become his "grandfather." Along with Gibson Eli, a Spokane Indian medicine man, these two elders were the most powerful influences in his life.

Mr. Michael and Mr. Eli enlisted Father Connolly in the urgent need to help them restore and safeguard the old Indian-Catholic hymns and prayers for use during the various Catholic observances and liturgies. Over the next years Father Connolly worked with tribal elders from throughout the area to assemble and rewrite the collection of hymns and prayers first published in the 1870s. He helped transcribe the hymns and prayers into the Salish language of the Coeur d'Alene, Flathead, Kalispel and Spokane Indians. With Eli, he worked to bring together aspects of traditional and Christian spirituality.

In 1977, Father Connolly began his pastoral work with the Coeur d'Alene people at the Sacred Heart Mission in DeSmet.

With sensitivity and care, Father Connolly has learned the language and culture of those he seeks to help. He can be seen each August dressed in a colorful Pendleton blanket robe over his Catholic frock and collar, as he helps officiate the annual pilgrimage to the old Cataldo Mission. The unique Indian-Catholic hymns and prayers Father Connolly helped rejuvenate in the 1950s are still heard today as he presides over a baptism of an infant or a wake for an elder, and each Sunday as he holds mass. It is a Catholic Mass that incorporates the Indian Thanksgiving Dance.

An astute historian and scholar of the Coeur d'Alene people, Father Connolly has written and edited numerous articles and books, including the important work, "Saga of the Coeur d'Alene Indians: An Account of Chief Joseph Seltice."

And the youthful 74-year-old always finds time for one of his other passions. "I try to set aside at least 20 skiing days a year!"

Father Thomas Connolly has truly bridged the cultures, and with a deep sense of compassion and duty he has earned the love, respect and admiration of Indian peoples, as well as all the people of Idaho.

**Linda Milam.** Linda Milam is in her third term as mayor of the city of Idaho Falls and has been a leader in both city government and development of higher education partnerships of the region.

Mayor Milam is a champion of higher education and has been instrumental in developing a successful partnership between the city of Idaho Falls and the University of Idaho at Idaho Falls. She serves on the Citizen's Advisory Council for University Place, is chair of the Facilities and Planning Committee, and helped facilitate the land trade with the city to extend the "green belt" into campus and through Freeman Park. Her support in the grant application to HUD now allows planning and infrastructure for the Center for Science and Technology.

Just as she has bridged local government with education, she devotes energy to building stronger relationships with the legislature as president of the Association of Idaho Cities.

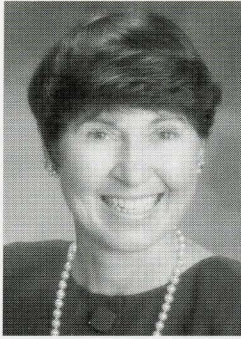

Other of her local involvements include the Board of Directors of the Eastern Idaho Community Reuse Organization, Greater Idaho Falls Chamber of Commerce (former president), Idaho Innovation Center, Regional Development Alliance, Idaho Falls Higher Education Advisory Council, and the Bonneville Historical Society.

The Mayor represents Idaho Falls on the Energy Communities Alliance. She is a member of the Judicial District 6 Magistrate's Commission, the Idaho Local Highway Technical Advisory Council, Eastern Idaho Regional Medical Center and the League of Women Voters of Idaho.

She is a graduate of the University of Nevada, Las Vegas having completed a Bachelor of Arts degree in political science with graduate work in public administration.

We salute her extraordinary dedication to community-building.

**Esther Simplot.** One of Idaho's most prominent women, Esther Becker Simplot is at home on the stage of an opera production or riding horseback in the rugged mountains of her adopted state.

Born in Omro, Wisconsin, her appreciation for both music and horses began while living on her father's dairy farm. Following high school graduation as class valedictorian, her love for horses gave way to the arts. After graduating magna cum laude with a bachelor's degree in music at MacMurray College in Illinois, she moved to the Chicago area and taught music for two years.

She then moved to New York City to study voice. During her years in New York, she sang with the Riverside Church Choir, the Canterbury Chorale, and the Master Chorale. She also performed in operatic productions and solo concerts, including a recital at Carnegie Recital Hall and a performance at the New York World's Fair.

While working in New York City and studying to earn a master's degree through the University of Indiana, she met Idaho industrialist Jack Simplot. They were married in 1972. Since that time, she has resided in Boise and traveled throughout the world with her husband.

Through her performances onstage and her work behind the scenes, Mrs. Simplot has energetically shared her devotion and commitment to the performing arts.

She is one of the founding members of the Boise Opera Company and served on its board from 1972 to 1978. She appeared in leading roles for a number of the company's productions.

In 1985, Mrs. Simplot organized and presented a highly successful benefit concert for the arts at Boise's Morrison Center, and in 1986 she performed as a soloist with the Idaho Falls Chamber Orchestra at the Elkhorn Musical Festival in Sun Valley, Idaho. She also has been a soloist with the College of Idaho Symphony and has performed in many concerts throughout the Pacific Northwest.

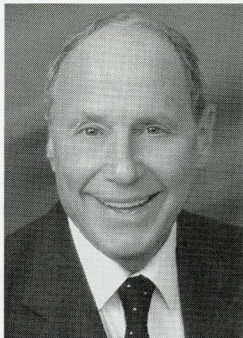

In May 1991, Mrs. Simplot organized a community fund-raising campaign to finance the renovation of the Hendren Furniture building in downtown Boise. Just 15 months later, the historic structure, named the Esther Simplot Performing Arts Center, became home for the Boise Philharmonic, Boise Opera, Inc., and Ballet Idaho.

Mrs. Simplot was a member of the Smithsonian National Board from June 1994 to June 1995. She was the first Idahoan to serve in that capacity. In April 1999, Mrs. Simplot was elected to the Velma V. Morrison Center for the Performing Arts Hall of Fame.

# MEDICAL EDUCATION PROGRAMS

## WASHINGTON-WYOMING-ALASKA-MONTANA-IDAHO PROGRAM IN MEDICAL EDUCATION

*Established in 1971. Michael B. Laskowski, Ph.D., Director*

*Idaho students receiving Doctorates in Medicine from the University of Washington through participation in the WWAMI Medical Education Program:*

John Bischoff Carpenter, <i>Boise</i>	Gordon Troy Prairie, <i>Jerome</i>
Roxie Kim Cunningham, <i>Lapwai</i>	Jason Franklin Robison, <i>Pocatello</i>
Lisa Lee Gushwa, <i>Pocatello</i>	Karin Schmidova, <i>Boise</i>
James Andrew Hill, <i>Rexburg</i>	Jared Micheal Scott, <i>Boise</i>
Sarah Marie Hollopeter, <i>Grangeville</i>	Jamie Rae Shandro, <i>Boise</i>
McKay Clifford Marler, <i>Pocatello</i>	Eric Scott Stiner, <i>Meridian</i>
Bob Joseph Naef, <i>Moscow</i>	Andrew Peter Wilper, <i>Boise</i>
Chad McKay Nicholls, <i>Burley</i>	

In the WWAMI Medical Education Program, offered by the University of Washington School of Medicine and selected universities and communities in Washington, Wyoming, Alaska, Montana, and Idaho, medical students from Idaho receive the first year of their medical training at the University of Idaho. Students attend classes at the University of Idaho and Washington State University, thus benefiting from a large group of instructors and varied selection of elective courses; laboratories and other facilities for individual work are available at both institutions. First-year students also have the opportunity to work with local physician-preceptors.

## WASHINGTON-OREGON-IDAHO PROGRAM IN VETERINARY MEDICAL EDUCATION

*Established in 1974. Richard A. Battaglia, Ph.D., Director*

*Idaho students receiving Doctorates in Veterinary Medicine from the University of Washington through the WOI cooperative program:*

Mark A. Bramwell, <i>Lewisville</i>	Trenton L. Neal, <i>Stone</i>
Kara R. Cockrum, <i>Caldwell</i>	Paul J. Nebeker, <i>Mountain Home</i>
Kevin D. Crandall, <i>Pocatello</i>	Lacy M. Redmond, <i>Caldwell</i>

Darice Henry-Ford, <i>Moscow</i>	

The University of Idaho cooperates with Washington State University and Oregon State University in a program of veterinary medical education, research and service. In the WOI program, students from Idaho take the first three years of professional training in veterinary medicine at Washington State University; faculty members from UI and WSU offer instruction in the professional and academic curricula. In the fourth year of the program, students receive part of the clinical training at the Caldwell, Idaho, veterinary medical facility.

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

**Gowns-**

The gowns differ according to the level of the degree. The sleeves are the principal indicator —gowns of bachelors have pointed sleeves; those of masters have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelors and masters gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

**Caps-**

The color of the tassel worn on the cap varies with the level of degree. The bachelor’s tassel represents the color appropriate to the major field of study; the masters and specialists tassels are black; and the doctoral tassels are old gold.

**Hoods-**

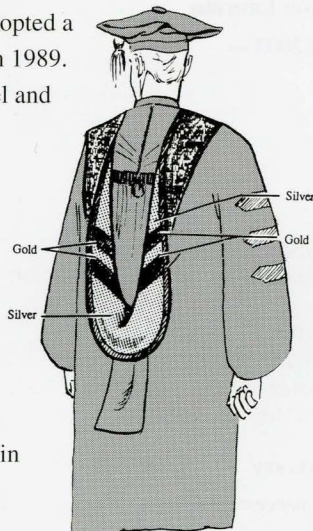

The length of the hood also varies according to the level of degree. The bachelor’s gown is worn without a hood. A master’s hood is three and one-half feet long, and a doctor’s hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. **Lining-** the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). **Trimming-** the hood is trimmed with velvet of a color appropriate to the wearer’s branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are as follows:

Architecture (MArch)	Violet	Medicine	Green
Agriculture	Maize	Music	Pink
Arts, Letters, Humanities	White	Nursing	Apricot
Commerce, Accountancy, Business	Drab	Oratory (Speech)	Silver Gray
Dentistry	Lilac	Pharmacy	Olive Green
Economics	Copper	Philosophy	Dark Blue
Education	Light Blue	Physical Education	Sage Green
Engineering	Orange	Public Administration	Peacock Blue
Fine Arts	Brown	Public Health	Salmon Pink
Forestry	Russet	Science	Golden Yellow
Journalism	Crimson	Social Work	Citron
Law	Purple	Theology	Scarlet
Library Science	Lemon	Veterinary Science (DVM)	Gray

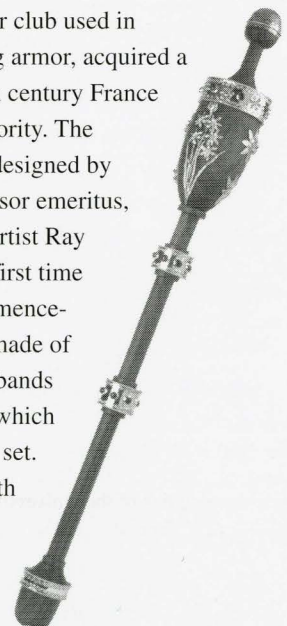

**Honor Cords—**

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze cords designate graduation cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortar-board. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university’s centennial year and is worn today by faculty serving as officials at the university commencements.

The MACE, a heavy staff or club used in medieval times for breaking armor, acquired a ceremonial function in 13th century France as a symbol of secular authority. The University of Idaho mace, designed by Edmund M. Chavez, professor emeritus, with metal work by Idaho artist Ray Goodner, was used for the first time at the 1989 centennial commencement. It is 32 inches long, made of walnut, and encircled with bands of Idaho gold and silver in which Idaho garnets and opals are set. The head is embellished with silver and gold representations of camas plants and syringa flowers.

*To enrich education through diversity, the University of Idaho does not discriminate on the basis of race, color, national origin, religion, sex, age, disability, or status as a Vietnam-era veteran in employment or in admission to or the operation of its educational program and activities, as required by state and federal laws and regulation. Inquiries may be directed to the university’s Office of Diversity and Human Rights.*
