# UI ALUMNI ASSOCIATION DISTINGUISHED IDAHOAN AWARD

This award, created in 1978, recognizes a living person who has an international or national reputation and has rendered extraordinary service to the state of Idaho and/or the University of Idaho, thereby bringing distinction to one or both. This award has been presented to a limited number of people, not necessarily every year. At no time shall more than one award be presented annually.

**Gary G. Michael, interim president of the University of Idaho**, is most deserving of the university's highest honor.

At the urging of the governor and the State Board of Education, Mr. Michael assumed the responsibilities of interim president of the University of Idaho last June. He left retirement — and the golf course — to lead the university until a permanent president could be appointed. He also took the post without remuneration, by his own choice.

Mr. Michael is recognized for his distinguished business career, rising to an elite rank among corporate executives in America, while maintaining a concentrated community involvement and commitment. His philanthropy is well known, and he is widely respected as a compassionate, principled leader who leads by example. He is a person of the highest ethical standards.

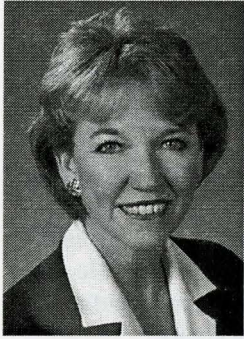

As former chairman of the board and CEO of Albertsons, Inc., Mr. Michael culminated his 34-year career with Albertsons in 2001. The retail food and drug chain has become the fourth largest in the nation, with more than 2,200 outlets and annual sales exceeding \$35 billion.

He also has been a leader in promoting excellence in education. A graduate of the University of Idaho, Mr. Michael has given unselfishly of his time, wisdom and financial support to his alma mater. He has been a member of the University of Idaho Foundation since 1975, serving under four different university presidents, before becoming the interim president. He also chaired the College of Business and Economics Campaign Cabinet, which helped build the college's first permanent home, the J. A. Albertson Building. Through Mr. Michael's leadership on *The Campaign for Idaho*, the University of Idaho surpassed its private fund-raising goal and raised \$128 million for scholarships, professorships, curriculum, technology and facilities in nearly half the time expected. The university and the state of Idaho will benefit greatly from these fund-raising efforts.

Mr. Michael also sits on numerous boards of directors, including IDACORP, Harrah's Entertainment, The Clorox Company, Questar, Inc., and Boise, the former Boise Cascade Corp. He is a member of the Financial Executives Institution and is retired chairman of the board of directors for the San Francisco Federal Reserve Bank.

Mr. Michael's recognized record of community service and his national prominence have brought great distinction to the state of Idaho.

# UNIVERSITY OF IDAHO PRESIDENT'S MEDALLION

The President's Medallion is presented to individuals who have made significant contributions to the cultural, economic, scientific and/or social advancement of Idaho and its people, and have provided exceptional service to the state or nation that has influenced the well-being of humankind.

**The late Robert H. LeBow** was the medical director at Terry Reilly Health Services, a low-income clinic in Nampa, before he experienced a bicycle accident in 2002 that left him paralyzed.

He and his wife, Gail, experienced health care "on the other side of the bed" for more than a year until Dr. LeBow's death on November 29, 2003. Gail will accept the posthumous award in his honor.

Dr. LeBow dedicated his life of 63 years to serving uninsured and under-served people in southern Idaho and worldwide through Peace Corps missions. He worked extensively on building health systems and preventive programs in more than 20 developing countries and served a two-year stint as a Peace Corps physician in Bolivia.

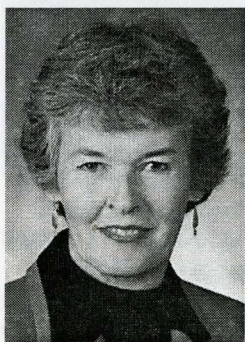

He focused most of his career on the problems of health care in the United States, both as a primary care physician and an activist for universal health care. He also ran for the Idaho

State Legislature and wrote political columns in support of change.

He was the author of "Healthcare Meltdown," a book published shortly before his accident that details the problems and inequities of the nation's health care system. It suggests an overhaul of the entire system, replacing it with a single-payer plan that covers all Americans through taxes.

Dr. LeBow was an unassuming, gentle and caring person who always seemed ready to help, listen and smile. His idealism and compassion for others have touched the lives of thousands of people. He received numerous humanitarian awards throughout his career, and the Bob LeBow Classic Bike Tour in Nampa has been established to raise money for health care for the poor.

His formal education included a bachelor's degree in Spanish history from Harvard University and Doctor of Medicine and Master's of Public Health degrees from Johns Hopkins University. He served on the boards of the National Rural Health Association and Physicians for a National Health Program as well as the state board of the Idaho Medical Association.

**Judith C. Meyer**, public and higher education advocate, is widely recognized as a leader in promoting excellence in education in the state of Idaho.

A Hayden resident, Ms. Meyer is a former president and member of the State Board of Education (1994-99) and during her appointment worked tirelessly to develop a vision of quality and distinction in education throughout the state. As a pioneer advocate for collaboration and in her role as state board president, she was instrumental in developing the Northern Idaho Center for Higher Education.

She recently was elected to a six-year term as a member of the North Idaho College board of trustees, and formerly served on the NIC board from 1990-1994. She currently is a member of the Idaho Business Coalition for Educational Excellence, an Albertson Foundation-sponsored committee to encourage business participation in education.

She earned a bachelor's degree in sociology from Kalamazoo College and later earned her elementary teaching credential and taught in the Chicago and Philadelphia school systems. She and her husband, Stephen, settled in the Coeur d'Alene area, where they founded Parkwood Business Properties in 1975.

Ms. Meyer's contributions go beyond education. She served on the Coeur d'Alene Chamber of Commerce Board, the Chamber Education Committee, the Blue Cross of Idaho Board, and is a founding member of Hospice of North Idaho. She is a long-time active member of the American Association of University Women, is on the board of Idaho Public Television, and is a trustee of the Kootenai-Shoshone Area Library and the Idaho State Historical Society.

**Ray W. Rigby**, attorney and rancher, has practiced law for 53 years and presently is associated with the firm of Rigby, Thatcher, Andrus, Rigby & Moeller. He was born and raised on a ranch in Rexburg. An alumnus, he received his bachelor's degree and juris doctorate from the University of Idaho.

Before entering private practice, Mr. Rigby was the prosecuting attorney in Madison County for 14 years. He served as state senator for eight years and senate assistant minority leader for four of those years. During his time in the legislature, he served on the Judiciary, Health Education and Welfare, Resources and Environment, Local Government and Tax Liaison committees.

He is the recipient of many awards throughout the state and region. A member of the Idaho State Bar for 50 years, he is the recipient of the State Bar Pro Bono Award, Professionalism Award and Idaho Distinguished Lawyer Award, as well as the University

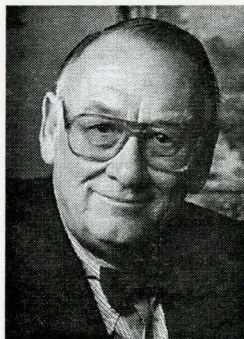

of Idaho Silver and Gold Award.

A recognized expert in water and rural electrification laws, Mr. Rigby is frequently called upon to speak and present papers at seminars and conventions and to testify before state and congressional committees on power rates.

He is highly respected for his unselfish contributions to the University of Idaho and the state of Idaho.

# H O N O R A R Y   D E G R E E S

Honorary degrees may be awarded to a person deserving of honor by virtue of scholarly distinction, noteworthy public service or significant contributions to the state of Idaho. In the selection of candidates for honorary degrees, preference is given to those who are Idaho residents or UI graduates.

**Robert W. Halliday**, Outstanding Citizen, Business Leader and Public Servant.

Mr. Halliday began his college education at age 16 and graduated from Yale University with degrees in economics and accounting. He joined the U.S. Army, was part of the D-Day Invasion on Omaha Beach, was wounded in battle several times during active duty and received seven Purple Hearts.

His career as a CPA began in New York, Washington and California with the firm of Arthur Anderson; he moved to Boise in 1956, where he built a career with Boise Cascade. He became known as particularly astute in financial problem-solving and decision-making as its vice president, treasurer and director. He was known as “the brains behind dizzying growth and acquisitions of the company.”

Mr. Halliday was instrumental in helping found Princess Cruises to tour the Mexican Riviera. He also led the merger of environmental service and manufacturing company Wheelabrator-Frye, and helped launch Franchise Finance Corporation of America and the vast and self-sufficient Nevada IL Ranch, among numerous other enterprises.

He serves on numerous corporate boards and has devoted his time to countless charitable organizations, including the FUNDSY auction in Boise, YMCA, United Way and Idaho Community Foundation. His belief in higher education has moved him to help support many others’ educations and to donate equipment to the University of Idaho. He established the Halliday Foundation in 2000, which provides more than \$50,000 annually to charitable organizations.

In recognition of a lifetime of excellence, achievements and contributions to Idaho, the University of Idaho is proud to confer upon Mr. Halliday, a most distinguished citizen, the degree of Doctor of Administrative Science.

**Karen Stedtfeld Offen**, Historian and Notable Independent Scholar.

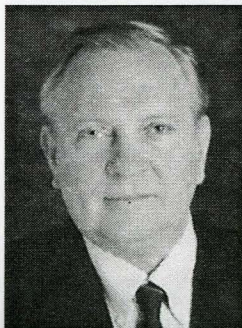

As an independent scholar and an affiliate with the Institute for Research on Women and Gender at Stanford University, Karen Offen has become a prominent authority on women’s history, comparing their histories and roles across cultures. She was one of the first historians to focus on the differences between European and American feminism.

She has dedicated her career to making women’s history an essential sub-discipline to the historical record and field of study. Over three decades, she has documented previously unknown achievements by women, given international women’s history more substance and become one of the best-known American women scholars in Europe for her works about Central and Eastern European women emerging from behind the Iron Curtain.

Dr. Offen does not rest on her scholarly laurels. She has become a generous mentor of other scholars in women’s history, takes active roles in professional organizations and has held numerous appointments at European universities. She has published five seminal books and delivered invited lectures, essays, papers and journal articles in feminist theory, international history and women’s history.

An alumna of the University of Idaho, Dr. Offen graduated with a bachelor’s degree in history and went on to complete both master’s and doctoral degrees from Stanford University. Her most recent award, one of many, was the John Simon Guggenheim Memorial Foundation Fellowship.

In recognition of a lifetime of contributions to women’s history and women professionals, both nationally and internationally, the University of Idaho is proud to confer upon Dr. Offen, a most distinguished alumna, the degree of Doctor of Humane Letters.

**James E. Rogers**, Distinguished Public Citizen and Champion For Excellence In Higher Education.

Jim Rogers has touched the lives of countless individuals in the state of Idaho and at the University of Idaho by shaping legal education here and beyond.

At the University of Idaho, he has funded a law faculty fellowship and student scholarships — and has issued a challenge for donors to match his gifts. Once fulfilled, he would like to turn his attention to faculty recruitment incentives.

Beyond UI, he has committed millions of dollars to his alma mater law school at the University of Arizona, which now bears his name; to the University of Nevada/Las Vegas law, engineering and women’s athletic programs; Idaho State University private fund

raising; and to Carroll College in Montana, University of Southern California, New York University, and many others.

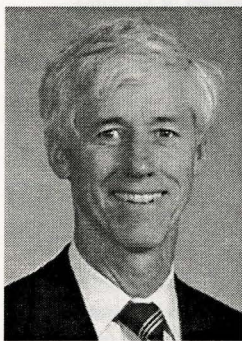

Mr. Rogers, listed as one of the country's top 12 philanthropists in "Time Magazine," is known as a generous supporter of education throughout the United States. He also has an enthusiastic, infectious ability to make others "generous philanthropic supporters." He is widely recognized as a person who gives of his own time, his own enormous teaching and consulting talents and his own resources to advance higher education.

He has been heard passing on his fervent beliefs to engage public trusteeship toward educational excellence. He says: "There are two parts to success — getting it and then doing good things with it." He encourages private support of higher education "to reach the level of academic achievement and student centeredness needed today."

In 1979 he founded Valley Broadcasting Company in Las Vegas and has become its chief executive officer. He is principal owner of Sunbelt Communications, Inc., which operates NBC affiliate television stations in cities in Nevada, Arizona, Montana, California, Wyoming and southern Idaho. In 1998, he left the active practice of law to devote all his time to Sunbelt Communications and to serve on numerous banking boards. He also lent his energies to help establish the nonprofit Kathryn Grayson Schools of Music in Idaho and Montana in honor of the well-known singer and movie star of the 1940s-60s.

He received a bachelor's degree in accounting, Juris Doctorate and Doctor of Law from the University of Arizona and a Master of Law from the University of Southern California.

In recognition of a lifetime of excellence, achievements and unselfish contributions and advocacy of higher education, the University of Idaho is proud to confer upon Mr. Rogers, a most distinguished citizen, the degree of Doctor of Administrative Science.

**Scott R. Simplot, Outstanding Citizen, Business Leader and Public Servant.**

Scott Simplot has been chairman of the board of the J. R. Simplot Company for a decade, overseeing all company activities and serving as liaison between the board and senior executive management.

The J. R. Simplot Company, with more than 13,000 employees, is a principal driver of the state's economy and a leading agribusiness company of the nation. It is one basis of Idaho's reputation for world-class potatoes, and the company has diversified into other vegetable, fertilizer, cattle, turf grass and processing/distribution systems.

Under Mr. Simplot's leadership, the J. R. Simplot Company established its own research unit to advance the cultivation and processing of potatoes, turf grasses, cattle breeding and cattle nutrition. Mr. Simplot, a UI alumnus and MBA holder from the Wharton School at the University of Pennsylvania, emphasizes the company objectives of continual

learning and problem solving through the application of science and technology. He also remains committed to "work that benefits humanity."

A person of modesty, Scott Simplot's quiet leadership and influence have been instrumental in the company's success. Similarly, he has helped build a spirit of cooperation between the University of Idaho and the company. He has advocated sound, science-based research in solving agriculture's challenges and has personally sponsored a number of ground-breaking research projects. He sponsored a portion of the construction of the Biotechnology Laboratory addition to the College of Agricultural and Life Sciences, which brings honor to the University of Idaho as a world-class research institution.

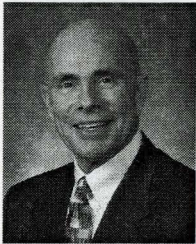

His investments in "cutting-edge" industries have brought opportunities to the state of Idaho, the nation and the world. He was an early endorser of using computers and information technology to change the business world. He was a founding member of the board of directors for Micron Technology, which has become Idaho's largest private employer.

Mr. Simplot's community commitment extends to volunteer efforts. He has helped such public groups as the Chamber of Commerce and the Salvation Army; his most recent involvement is as chair of the expansion of the Idaho Food Bank, to help alleviate hunger across the state.

In recognition of lifelong achievement, public service and significant contributions to the state of Idaho and the nation, the University of Idaho is proud to confer upon Mr. Simplot, a most distinguished alumnus, the degree of Doctor of Administrative Science.

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

### Gowns-

The gowns differ according to the level of the degree. The sleeves are the principal indicator—gowns of bachelors have pointed sleeves; those of masters have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelors and masters gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

### Caps-

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study; the masters and specialists tassels are black; and the doctoral tassels are old gold.

### Hoods-

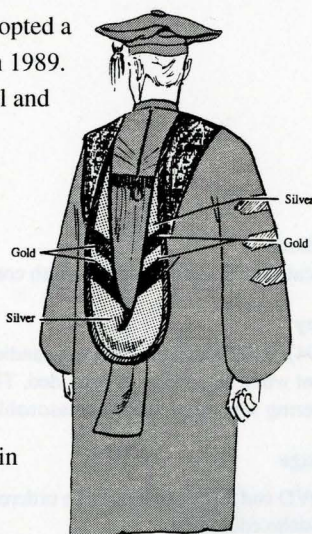

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. **Lining-** the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). **Trimming-** the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are as follows:

Architecture (MArch)	Violet	Medicine	Green
Agriculture	Maize	Music	Pink
Arts, Letters, Humanities	White	Nursing	Apricot
Commerce, Accountancy, Business	Drab	Oratory (Speech)	Silver Gray
Dentistry	Lilac	Pharmacy	Olive Green
Economics	Copper	Philosophy	Dark Blue
Education	Light Blue	Physical Education	Sage Green
Engineering	Orange	Public Administration	Peacock Blue
Fine Arts	Brown	Public Health	Salmon Pink
Forestry	Russet	Science	Golden Yellow
Journalism	Crimson	Social Work	Citron
Law	Purple	Theology	Scarlet
Library Science	Lemon	Veterinary Science (DVM)	Gray

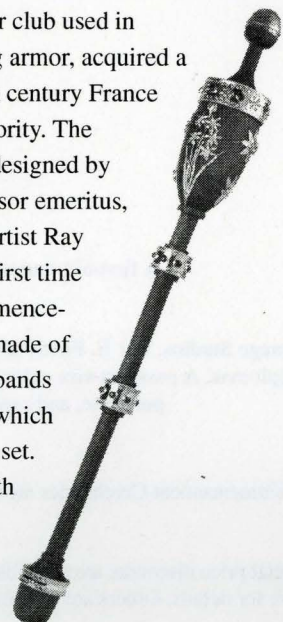

### Honor Cords—

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze cords designate graduation cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortar-board. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university's centennial year and is worn today by faculty serving as officials at the university commencements.

The MACE, a heavy staff or club used in medieval times for breaking armor, acquired a ceremonial function in 13th century France as a symbol of secular authority. The University of Idaho mace, designed by Edmund M. Chavez, professor emeritus, with metal work by Idaho artist Ray Goodner, was used for the first time at the 1989 centennial commencement. It is 32 inches long, made of walnut, and encircled with bands of Idaho gold and silver in which Idaho garnets and opals are set. The head is embellished with silver and gold representations of camas plants and syringa flowers.

*To enrich education through diversity, the University of Idaho does not discriminate on the basis of race, color, national origin, religion, sex, age, disability, or status as a Vietnam-era veteran in employment or in admission to or the operation of its educational program and activities, as required by state and federal laws and regulation. Inquiries may be directed to the university's Office of Diversity and Human Rights.*
