President M. Duane Nellis

M. Duane Nellis began serving as the University of Idaho's 17th president on July 1, 2009.

As the University's chief executive officer, President Nellis provides robust and engaging leadership for the University of Idaho. He provides support to 42 statewide extension offices and University center locations in Boise, Coeur d'Alene and Idaho Falls. He works with the WWAMI (Washington, Wyoming, Alaska, Montana and Idaho) Medical Education program to ensure that Idaho meets its health care needs and supports the 20 first-year medical students on the Moscow campus. Nellis also is engaged with the University alumni, friends, donors, faculty, staff and students around the world to create a University that is more entrepreneurial, sustainable, international, interdisciplinary and diverse.

Previously, Nellis served as provost and senior vice president at Kansas State University where he oversaw 12 deans and 10 other units, including the offices of the vice provost for information technology services and the vice president for research. Nellis was responsible for strengthening Kansas State's national leadership in selected strategic areas through targeted excellence investments, restructured programs and new programs that augmented student learning opportunities, and enhanced diversity and civic engagement among faculty, staff and students.

Nellis also served for seven years at West Virginia University as dean of the Eberly College of Arts and Sciences, WVU's largest academic college. At WVU, he led a highly successful capital fundraising campaign, oversaw the planning and construction of a new \$60 million Life Sciences Building, provided leadership that led to numerous college faculty and student successes, including the establishment of a new National Geospatial Development Center, a Center for Writing Excellence and a Math Learning Institute, a revitalized WVU Press and he strengthened social justice and related diversity programs across the college and university.

Serving in other professional leadership positions as well, Nellis was on the Association of Public and Land-Grant Universities Academic Officers Executive Council; president of the Association of American Geographers; National Council for Geographic Education; Gamma Theta Upsilon, the International Geographic Honor Society; Kansas Academy of Sciences; and member of the National Council of Colleges of Arts and Sciences Research Universities Committee.

President Nellis is recognized nationally and internationally for his research utilizing satellite data and geographic information systems to analyze various dimensions of the earth's land surface. This research

has been funded by more than 50 sources such as NASA, the National Geographic Society, the U.S. Agency for International Development, and the U.S. Department of Agriculture. This research has taken Nellis to such faraway places as Botswana. His research has led to more than 100 articles and reports in a wide range of professional journals, and 15 books and book chapters. He has given more than 100 professional presentations and has been invited to speak at more than 60 universities and related settings internationally.

He also has been recognized nationally and internationally for his research and teaching through numerous awards from organizations such as the Association of American Geographers (AAG), AAG's John Fraser Hart Award for Excellence in Research, the Outstanding Contributions Award by the AAG's Remote Sensing Specialty Group, the Young Research Scholar Award by the Institute of British Geographers, the Kansas State University Outstanding Teaching Award and University Adviser of the Year Award.

President Nellis is a native of the Northwest: he was born in Spokane, Washington. He met and married his wife, Ruthie, while pursuing his bachelor's degree in earth sciences/geography at Montana State University. He received his master's and doctoral degrees in geography at Oregon State University.

GUEST SPEAKERS

UNIVERSITY OF IDAHO – MOSCOW

Kristin Armstrong '95

In the wide world of athletic competition, few accomplishments surpass earning a gold medal at the Olympics. For **Kristin Armstrong '95**, that pinnacle of athletic achievement occurred in August 2008 at the Beijing Summer Olympics when she won the 14.6-mile road cycling individual time trial.

“It’s one of those dreams you have as a child in America,” she said. “It’s the most amazing day of my life.”

Armstrong became only the second American woman cyclist in history to claim an Olympic gold medal; the first gold was won by Connie Carpenter Phinny in 1984.

In addition to the Olympic gold medal, Armstrong is a two-time Olympian and five-time U.S. national champion. On the world stage, she has a total of four medals, which puts her in exclusive company with Greg LeMond as the only other American cyclist with four World Championship medals. In 2006, she won a World Championship in the elite women’s time trial and repeated the accomplishment in September 2009.

Armstrong was born into a military family in 1973 and grew up in Tennessee, Italy, California, Japan and Idaho – where she now resides. She graduated from the University of Idaho College of Education in 1995 with a bachelor’s degree in sports physiology.

She became a junior Olympian in swimming when she was 17 and excelled as a runner and triathlete until she was diagnosed with osteoarthritis in her hips in 2001. She then chose to switch gears to cycling. Soon, she became a world champion, Olympian and one of the most accomplished American cyclists ever. She continues to give back to the sports that have given her success. She is a swimming instructor and coach, an ambassador for the YMCA of Boise and works to inspire those individuals who also suffer from arthritis.

UNIVERSITY OF IDAHO – BOISE

Lori Jean Otter has served as Idaho’s First Lady since January 1, 2007, when her husband, C.L. “Butch” Otter, became governor.

Mrs. Otter was born in Pensacola, Fla., where she grew up in a naval military family as the youngest of four children and the only girl. When her father retired in the 1970s, her family moved to Twin Falls to take over a family farm. Mrs. Otter fell in love with Idaho and became active in 4-H and FFA, and took horse, sheep and pig projects to the Twin Falls County Fair.

After graduation from Kimberly High School, First Lady Otter attended school at College of Southern Idaho where she earned an associate of arts degree in English literature. She finished her bachelor’s degree at Boise State University in education and physical education with minors in health and English.

Mrs. Otter began her teaching career in Wellton, Ariz., and returned to Idaho when she accepted a teaching and coaching position in the Meridian School District where she taught health and physical education. She coached basketball and volleyball at the middle school and high school levels for 12 years. In 2004, she completed her master’s degree in curriculum and instruction with an emphasis in educational leadership at Northwest Nazarene University. She spent two years in the Meridian School District working in administration at the elementary level.

Mrs. Otter is on the Foundation Board at St. Alphonsus Regional Medical Center, the Treasure Valley Reading Foundation and Idaho Governor’s Cup, and she is the summer reading ambassador for the Idaho Association of Libraries. She and her husband serve on the Idaho Meth Project Advisory Council and have worked to launch and promote the Idaho Meth Project, a prevention campaign designed to reduce the first-time use of methamphetamines by youth in Idaho. She was recently appointed to the Governor’s Spouses Leadership to Keep Children Alcohol Free and continues to advocate about underage drinking issues in her state.

HONORARY DEGREES

In addition, First Lady Otter has collaborated with Boise State University to design and write a children's book, "Ida Tours the Capitol." The book is designed to educate fourth graders about Idaho history.

First Lady Lori Otter has completed three marathons and remains committed to health and physical fitness. She is an avid horseback rider and rodeo fan, and she raises and trains horses.

UNIVERSITY OF IDAHO – IDAHO FALLS

Senator Bart M. Davis was elected to the Idaho State Senate in 1998. Currently, he is the Idaho Senate Majority Leader, a member of the Legislative Council and a board member of the Idaho Bond Bank Authority. He has served Idaho's governors as a chairman or member of various committees, commissions and task forces, including Idaho's Abraham Lincoln Bicentennial Commission.

Sen. Davis is a member of the Council of State Governments and CSG-WEST. His service includes: CSG past chair, CSG-West past chair, Governing Board and Executive Committees, Committee on Suggested State Legislation, International Committee, Futures Committee past chairman, Toll Fellows Selection Committee past chairman and Legal Task Force. In 1999, Sen. Davis was awarded the Toll Fellowship by CSG.

As an attorney, Sen. Davis served as a member of the Guardianship/Conservatorship Committee and the Judicial Independence and Integrity Committee. He also served the federal courts for six years as a lawyer representative to the Ninth Circuit Judicial Conference, 11 years on the Bankruptcy Court Rules Committee, and Long Range Planning Committee. He was a founding board member and past chairman of the Commercial Law and Bankruptcy Section. He is the chairman and member of the University of Idaho College of Law Advisory Council, Idaho Law Review Advisory Board, and the 2007 College of Law Conclave. Sen. Davis is a commissioner to the National Conference of Commissioners on Uniform State Laws.

Sen. Davis is the recipient of the Outstanding Republican Elected Official Award by Region VII, 2009 Legislator of the Year from the Idaho State Republican Party, Idaho Falls Chamber of Commerce Leadership to Eastern Idaho Award, Cesar Chavez/Dolores Huerta Farmworker Justice Award, Commercial Law and Bankruptcy Section Professionalism Award, and the State Government Affairs Council Shooting Star Award and 2009 Leadership Award. He also is a trustee of the Museum of Idaho.

Sen. Davis is married to Marion Davis, has six children and 11 grandchildren. He is active in his church and Rotary Club, and is a Paul Harris Fellow.

Sen. Davis received a bachelor's degree from Brigham Young University in 1978 and a law degree from University of Idaho in 1980. He was co-counsel on a case before the United States Supreme Court in 1990. He practices in the areas of construction, real property, business and commercial litigation, including bankruptcy.

UNIVERSITY OF IDAHO – COEUR D'ALENE

Chief James Allan, Coeur d'Alene Tribal Chairman, was born in Spokane in 1972 and grew up on the Coeur d'Alene Indian Reservation, with one brother, four sisters and a large extended family. In 1991, Allan graduated from Lakeside High School and was the first in his family to go to college. He attended Eastern Washington University where he received a bachelor's degree in political science in 1996. Allan understands the commitment that it takes to fulfill educational goals and encourages Indian students to make the commitment to complete higher education.

With a first name like "Chief", many had high expectations for Allan, and he worked hard to fulfill them. After graduating from college, he was hired by Coeur d'Alene Tribal Chairman Ernie Stensgar as a legislative assistant. He later served as the legislative director for the Tribe until he accepted a position as legislative associate with the National Congress of American Indians in 2000 and moved to Washington, D.C. While employed in his capacity within the legislative arena, Allan was able to navigate the complex world of public policy. In 2001, he was called back by his Tribe to serve as the administrative director. His diverse responsibilities included oversight of 19 Tribal departments made up of more than 300 employees, and a budget nearing \$10 million.

In 2003, Allan was elected to the Coeur d'Alene Tribal Council and the following year, he was elected to serve as the vice-chairman for the Coeur d'Alene Tribe. In May 2005, he was elected to the position of chairman.

He has set priorities of streamlining policies and procedures throughout tribal programs and recruiting quality staff in key positions within the Tribe. His goals also include expanding economic development opportunities on the reservation, increasing the retention rates of Native youth in both high school and college, and promoting family involvement in all areas of life on the reservation.

Coeur d'Alene Tribal business and government operations have \$309 million impact on the North Idaho economy. The Tribe employs nearly 1,700 people through its casino resort hotel, golf course, manufacturing operation and government operations.

UNIVERSITY OF IDAHO – MOSCOW, COLLEGE OF LAW

Nancy Morris '83 has achieved a remarkable career in both the national and international spheres of law and commerce. She currently is executive vice president at Allianz Global Investors of America where she serves as chief U.S. regulatory counsel. Morris also has achieved great distinction through her leadership and service in the public sector at the Securities and Exchange Commission.

Morris has held the position of SEC secretary from 2006-08 – the first woman to hold the post. She oversaw the final legal review of all SEC rulemaking and enforcement actions submitted to and approved by the commission. Then-SEC chairman Christopher Cox credits Morris with leading an effort to help investors gain easier and quicker access to SEC information and historic documents and records. According to Cox, she “set an exemplary standard for public service on behalf of America’s investors and capital markets.”

She held previous appointments at the SEC from 2004-06 and 1985-92. Morris also worked in the private sector as vice president and associate legal counsel to the investment management firm, T. Rowe Price Associates, and as an attorney for Fidelity Investments.

“Nancy’s professional career has spanned not only the private and public sectors, but also the national and international spheres of law and commerce,” said Don Burnett, dean of the College of Law. “Her achievements, accompanied by the admiration she has earned from her peers, have brought high-profile recognition to her personally and great credit to the University of Idaho.”

Morris earned her law degree at Idaho in 1983, and was editor-in-chief of the Idaho Law Review. She currently serves on the College of Law Advisory Board, and received the Award of Merit from the law faculty in 2006. She will serve as commencement speaker for the College of Law during May 2010 ceremonies in Moscow.

The University of Idaho Alumni Hall of Fame award was created in 1962 to recognize alumni who have achieved national or international distinction by their accomplishments and leadership. Consideration is given for: distinction in career accomplishments; leadership within career organizations; voluntary leadership efforts in charitable causes; leadership efforts which have improved the cultural, social, political or economic well being of society; prior recognition and honors; and artistic, innovative or technical accomplishments.

HONORARY DEGREES

Honorary degrees are awarded to a person deserving of honor by virtue of scholarly distinction, noteworthy public service or significant contributions to the state of Idaho. In the selection of candidates for honorary degrees, preference is given to those who are Idaho residents or University of Idaho graduates.

Arden L. Bement Jr. '59, materials engineering researcher and science administrator in academia, government and private industry

Arden L. Bement Jr. was sworn in as the 12th director of the National Science Foundation in 2004 after serving seven months as acting director.

He heads the only federal agency that funds research and education in all fields of science and engineering. He directs a budget of more than \$6 billion; hundreds of programs that support approximately 200,000 scientists, engineers, educators and students across the country; and the development of world-class facilities and infrastructure.

Since the 2006 launch of the American Competitiveness Initiative, Bement has overseen initiatives that strengthen the U.S. innovation base and economic position. Other initiatives address intensifying the training of the U.S. workforce to operate in a high-tech, global economy.

Prior to his confirmation as NSF director, Bement served as director of the National Institute of Standards and Technology of the Department of Commerce from 2001-04. He also served nine years as the David A. Ross Distinguished Professor of Nuclear Engineering and head of the School of Nuclear Engineering at Purdue University.

From 1954-92, Bement held positions in industry, government and academia.

He has earned numerous awards and served in diverse government advisory roles that include: member of the Board of Overseers for the Malcolm Baldrige National Quality Award; chair of the Commission for Engineering and Technical Studies and the National Materials Advisory Board of the National Research Council; and member of the Space Station Utilization Advisory Subcommittee and the Commercialization and Technical Advisory Committee for NASA. He is a retired lieutenant colonel of the U.S. Army Corps of Engineers and a recipient of the Distinguished Service Medal of the Department of Defense.

Bement holds an engineering of metallurgy degree from the Colorado School of Mines, a master's degree in metallurgical engineering from the University of Idaho and a doctorate in metallurgical engineering from the University of Michigan. He is a member of the U.S. National Academy of Engineering and a fellow of the American Academy of Arts and Sciences, the American Nuclear Society and the American Association for the Advancement of Science.

In recognition of his national leadership and his many contributions to the state and nation, the University of Idaho is proud to confer upon Arden L. Bement Jr., a most distinguished citizen and leading alumnus, the degree of Doctor of Science.

Stanley P. Desjardins '58, aviation safety pioneer, engineer, educator, entrepreneur

Stanley Desjardins has more than 50 years of experience in the research and development of aerospace systems and components. He founded two companies that develop technology and products to improve occupants' chances of survival in airplane, helicopter and vehicle crashes. Energy-absorbing, crashworthy seats, whether designed by him or others who followed the principles he developed, have saved many lives and prevented debilitating injuries. The American Helicopter Society has recognized him as a pioneer in aviation safety.

Desjardins was born in a farm town in northern Minnesota, but the family followed his father to an Army base in Idaho during World War II. He served in the Korean War and the GI Bill put Desjardins into college at the University of Idaho. He studied mechanical engineering and developed an interest in solid-propellant rocketry. That led to a job at Thiokol Chemical Corp. in Utah where he worked on the nozzle design for the Minuteman program, the first solid-propellant intercontinental ballistic missiles.

Ten years later, he joined a small Arizona company to study crash safety and ended up founding Simula, Inc., to bring the research into production. The company's first big break was to supply energy-absorbing, crashworthy seats to the Sikorsky Aircraft Corp. Later, federal regulators contracted with Simula to study jet airliner crashes,

and the company's research determined stronger seats were necessary to improve safety. The company went on to design and produce crashworthy seats for military and commercial airplanes and helicopters and side-airbag systems for aviation and automobiles. Simula also became a leader in armor systems, including improved body armor, transparent armor for vehicles and lightweight armor for aircraft.

Desjardins also was responsible for major revisions in the U.S. Army's "Aircraft Crash Survival Design Guide," which was considered the authority on crash-resistant aircraft design criteria.

In 2002, Desjardins founded a new company, Safe, Inc., to continue research to advance the state-of-the-art in crashworthy seats, as well as other interests.

Desjardin is the inventor or co-inventor of six patents, and his many awards include recognition from the American Helicopter Society in 2003 for his contributions that increase aircrew and passenger safety. He also has been nominated for induction into the National Aviation Hall of Fame.

In recognition of his leadership in and contributions to the field of aviation safety, the University of Idaho is proud to confer upon Stanley P. Desjardins, a most distinguished citizen and leading alumnus, the degree of Doctor of Engineering.

Gary E. Strong '66, has been a librarian and library administrator for more than 40 years. He currently serves as university librarian at the University of California, Los Angeles, one of the top 10 academic research libraries in North America.

A native of Potlatch, Strong's career began as a student employee at the University of Idaho Library while he was earning his bachelor's degree in education. That humble beginning eventually led to positions as director of the Queens Borough Public Library in New York, which has been called the busiest public library in America, and as state librarian of California, the top administrative post in the California State Library system. In addition, he has been a consultant and adviser to the Library of Congress.

Strong is a leader in identifying and addressing key issues that reflect the social challenges that face public institutions today, such as the role of the public library in the 21st century, adult literacy, electronic equity for equal access to information, multiculturalism and cultural diversity in a pluralistic society, intellectual freedom, privacy and censorship and other topics related to the knowledge explosion.

Throughout his career, Strong has served on a number of leading library policy panels, including the White House Conference on Libraries in 1992 and the National Academies in 2008, and he is the author/editor of numerous journal articles on library and literacy issues. He regularly speaks at international library meetings on multicultural library services and electronic delivery of information services to multicultural communities. He has served on the governing board of the International Federation of Library Associations and Institutions and as its NGO representative to the United Nations.

He has been honored with the Knowledge Trust Award from the School of Information and Library Science at the University of North Carolina at Chapel Hill, the Twenty-First Century Librarian Award from Syracuse University, the Advancement of Literacy Award from the Public Library Association, and the Humphrey Award from the American Library Association's International Relations Round Table.

In addition to his bachelor's degree from the University of Idaho, Strong earned a master's degree in library science from the University of Michigan in 1967.

In recognition of his leadership in the international advancement of libraries, the University of Idaho is proud to confer upon Gary E. Strong, a most distinguished citizen and leading alumnus, the degree of Doctor of Humane Letters.

UNIVERSITY OF IDAHO PRESIDENT'S MEDALLION

The President's Medallion is presented at University of Idaho Commencement Ceremonies in May and December. Recipients are individuals who have made significant contributions to the cultural, economic, scientific and/or social advancement of Idaho and its people, and have provided exceptional service to the state or nation that has influenced the wellbeing of humankind.

UNIVERSITY OF IDAHO – MOSCOW

Wellington C. "Skip" '53 and Bee Pierce

Longtime Boise residents Skip and Bee Pierce bring energy and enthusiasm to everything they do, and their community, the University of Idaho and the state have benefited from their commitment to a variety of causes.

Skip earned a bachelor's degree in chemistry at Idaho and a master's degree from the University of California. He spent his career in the field of science, and now is the retired partner and managing director of Treasure Valley Laboratory. Skip is a former member of the Boise chapter of the Service Corps of Retired Executives, an organization that links new entrepreneurs with experienced business people who serve as mentors and offer advice on developing business plans. He also has served on the Beta Theta Pi Corporation board of directors and is currently co-chairman of their fundraising campaign.

Bee earned a bachelor's degree in elementary education at Oregon State University and taught school in Idaho before she and Skip were married. She is active in the Philanthropic Educational Organization (PEO), a group that promotes education opportunities for women. She also is a sustaining member of the Junior League of Boise. She was a national travel consultant for Kappa Kappa Gamma for two years after college and served on the advisory board for their Idaho chapter. Bee was named an honorary alumna of the University in 2002.

In addition, the Pierces are involved in supporting tennis and other athletic programs in Ada County through the Boise Swim and Racquet Club.

They have provided their time and energy to support the College of Science, the Alumni Association, the former College of Letters and Science, the Vandal Scholarship Fund and the University of Idaho Foundation.

In 2006, the Pierces created the Skip and Bee Pierce Athletes in Science Scholarship Endowment to provide scholarship support to deserving intercollegiate student-athletes majoring in the College of Science.

In recognition of their outstanding volunteer service to the university, Skip and Bee were presented the Jim Lyle Award in 1994. They received the Silver and Gold Award in 2008.

ALUMNI ASSOCIATION

ALUMNI HALL OF FAME 2010

This award was created in 1962 and recognizes alumni who have achieved national or international distinction by their accomplishments and leadership. Consideration will be given for: distinction in career accomplishments; leadership within career organizations; voluntary leadership efforts in charitable causes; leadership efforts which have improved the cultural, social, political or economic well-being of society; prior recognition and honors; and artistic, innovative or technical accomplishments.

Pete T. Cenarrusa '40 has an unmatched history of public service to the state of Idaho. He was elected to nine terms in the Idaho House of Representative including three terms as Speaker of the House. He also served eight terms as Secretary of State after being appointed to the position when Edson Deal died in office. He was an Idaho elected official from 1950 until his retirement in 2003, and remains the longest serving elected state official in Idaho's history.

But his leadership, service and interests extend far beyond the political arena. He was a member of the 1940 University of Idaho boxing team that won the national intercollegiate championship. After earning a bachelor's degree in agriculture from the University of Idaho, Cenarrusa was a high school educator and coach, and introduced the first agriculture classes at both the Cambridge and Carey school districts. In 1942, he enlisted in naval aviation and served as an instructor and pilot during World War II. He remained in the Marine Reserves and retired in 1963 with the rank of major. He also was a lifetime rancher, farmer and woolgrower.

The son of Basque immigrants who developed a range sheep business in Carey, he learned the Basque language at home. In 2001, he received the honor "Basque of the World" from the Sabino Arana Foundation in Bilbao, Basque Country.

"Pete Cenarrusa is the definition of the University of Idaho's "Legacy of Leading," said Steve Johnson, executive director of alumni relations. "Pete is a war hero, a successful University of Idaho student and athlete, an honored state leader, a loyal husband and an exemplary father. The University of Idaho could not find another alumnus more deserving than Pete Cenarrusa to be included in the University of Idaho Alumni Hall of Fame."

Cenarrusa has previously been honored by his alma mater with the Alumni Association Silver and Gold Award in 1988, the College of Agricultural and Life Sciences Dean's Excellence Award in 2002, and the University of Idaho's President's Medallion in 2006.

The University of Idaho Alumni Hall of Fame award was created in 1962 to recognize alumni who have achieved national or international distinction by their accomplishments and leadership. Consideration is given for: distinction in career accomplishments; leadership within career organizations; voluntary leadership efforts in charitable causes; leadership efforts which have improved the cultural, social, political or economic well being of society; prior recognition and honors; and artistic, innovative or technical accomplishments.

Daniel D. Frye '79 has achieved international distinction through his career at IBM where he currently serves as vice president of open system development, including management of IBM's Linux Technology Center. He leads a worldwide software development team of more than 1,500 software professionals at IBM. In 2002, he was named one of the "50 Most Powerful People in Networking" by Network World magazine.

Prior to his current responsibilities, Frye was a member of IBM's Emerging Technologies and Business Opportunities team where he worked on company-wide technical strategies that predicted future trends and transitions in the Information Technology industry. It was during this time that Frye co-authored the original IBM corporate strategies for both Linux and open source software.

Linux is a computer operating system and one of the most prominent examples of free software and open-source development. Unlike proprietary operating systems such as Windows and Mac OS, all of the underlying source code for Linux is available to the public and anyone can freely use, modify, improve and redistribute it. Through Frye's leadership, IBM developers are now working with peers from around the world in the open source community with the goal of making Linux better and enabling customers to run Linux in all areas of computing.

"Dr. Frye is an excellent example of our 'Legacy of Leading,' said Scott Wood, dean of the College of Science. "He probably never imagined as a freshman that a bachelor's degree in physics from the University of Idaho would lead him to graduate school at Johns Hopkins, followed by a leadership career in developing Linux software. However, in retrospect, his own personal drive, intellect and talent, combined with the solid education he received at Idaho, clearly represent a formula for success. We in the College of Science are extremely proud to count Dr. Frye among our alumni."

Frye earned a bachelor's degree in physics from the University of Idaho in 1979. He later earned a master's degree in physics and a doctoral degree in theoretical atomic physics from Johns Hopkins University.

Nancy Morris '83 has achieved a remarkable career in both the national and international spheres of law and commerce. She currently is executive vice president at Allianz Global Investors of America where she serves as chief U.S. regulatory counsel. Morris also has achieved great distinction through her leadership and service in the public sector at the Securities and Exchange Commission.

Morris has held the position of SEC secretary from 2006-08 – the first woman to hold the post. She oversaw the final legal review of all SEC rulemaking and enforcement actions submitted to and approved by the commission. Then-SEC chairman Christopher Cox credits Morris with leading an effort to help investors gain easier and quicker access to SEC information and historic documents and records. According to Cox, she "set an exemplary standard for public service on behalf of America's investors and capital markets."

She held previous appointments at the SEC from 2004-06 and 1985-92. Morris also worked in the private sector as vice president and associate legal counsel to the investment management firm, T. Rowe Price Associates, and as an attorney for Fidelity Investments.

"Nancy's professional career has spanned not only the private and public sectors, but also the national and international spheres of law and commerce," said Don Burnett, dean of the College of Law. "Her achievements, accompanied by the admiration she has earned from her peers, have brought high-profile recognition to her personally and great credit to the University of Idaho."

Morris earned her law degree at Idaho in 1983, and was editor-in-chief of the Idaho Law Review. She currently serves on the College of Law Advisory Board, and received the Award of Merit from the law faculty in 2006. She will serve as commencement speaker for the College of Law during May 2010 ceremonies in Moscow.

The University of Idaho Alumni Hall of Fame award was created in 1962 to recognize alumni who have achieved national or international distinction by their accomplishments and leadership. Consideration is given for: distinction in career accomplishments; leadership within career organizations; voluntary leadership efforts in charitable causes; leadership efforts which have improved the cultural, social, political or economic well being of society; prior recognition and honors; and artistic, innovative or technical accomplishments.

About the University of Idaho Alumni Association

The University of Idaho Alumni Association (UIAA), founded in 1898, is comprised of more than 90,000 alumni worldwide. The mission of the Alumni Association is to develop and strengthen lifelong alumni relationships with their alma mater. Active leadership include the UIAA national board of directors, club and chapter volunteers and the Alumni Office staff. The UIAA provides award and recognition programs, assists the University with information and communication efforts, assists with student recruitment and advocates for the University.

Once a University of Idaho student reaches 90 credits or receives a University of Idaho degree, he or she is considered part of the alumni community. The UIAA is not a dues paying organization.

*Kodjotse Afatchao, *Notse, Togo*

Environmental Science. Dissertation: "Social Conflict and Kentucky Bluegrass Field Burning in Northern Idaho." Major Professor: J. D. Wulfhorst

**Ziad Abdel Fattah Al-Sharif, *Irbid, Jordan*

Computer Science. Dissertation: "An Extensible Debugging Architecture Based on a Hybrid Debugging Framework." Major Professor: Jeffery Clint

Wafa Alkurdi, *Pullman, Washington*

Education. Dissertation: "Effect of Neuromuscular Fatigue on Ground Reaction Forces and Kinematics During Drop Landings in Adults." Major Professor: Jeff Seegmiller

*Gina Rose Marie Armer, *Idaho Falls*

Education. Dissertation: "Mary Baker Eddy's Contribution to Adult Education: An Historical Biography." Major Professor: Laura B. Holyoke

**Jocelyn Louise Aycrigg, *Denver, Colorado*

Natural Resources. Dissertation: "Spatial and Temporal Population Dynamics of an Elk Metapopulation in Idaho: Demography, Genetics, and Environmental Factors." Major Professor: Edward O. Garton

**Justin James Barnes, *Moscow*

Education. Dissertation: "Examining the Effects of an Intervention Program Concerning Sport Competitive Theory and Moral Reasoning on the Moral Cognitive Growth of Freshmen." Major Professor: Sharon K. Stoll

John Matthew Batacan, *Blackfoot*

Education. Dissertation: "The Experience of Wellness During the Dissertation Process of Recent Ph.D. Graduates: A Heuristic Study." Major Professor: Michael S. Kroth

Margery Elizabeth Beam, *Klamath Falls, Oregon*

Education. Dissertation: "A Comparison of Didactic and Inquiry Teaching Methods in a Rural Community College Earth Science Course." Major Professor: John Davis

Brent W. Bean, *Rexburg*

Education. Dissertation: "Moving Beyond Mentoring: A Collective Case Study Examining the Perceived Characteristics of Transformational Figures." Major Professor: Michael S. Kroth

Miles Frank Beaux, *Sagle*

Physics. Dissertation: "X-Ray Photoelectron Spectroscopic Analysis of Silica-Based Nanowires for Chemical and Drug Delivery to Human and Bovine Cells." Major Professor: David N. McIlroy

*Rohan Man Benjankar, *Lalitpur, Kathmandu, Nepal*

Civil Engineering. Dissertation: "Quantification of Reservoir Operation-based Losses to Floodplain Physical Processes and Impact on the Floodplain Vegetation at the Kootenai River, USA." Major Professor: Klaus Jorde

**Josh Boyce, *Houston, Texas*

Biology. Dissertation: "Ontogeny and Regulation of Estrogen Receptor Isoform Expression in Rainbow Trout (*Oncorhynchus Mykiss*)."

Major Professor: Joseph G. Cloud

Przemyslaw Roman Brejna, *Katowice, Poland*

Chemistry. Dissertation: "Characterization of Materials for Surface- and Tip-Enhanced Raman Spectroscopy." Major Professor: Peter R. Griffiths

James R. Conrad, *Boise*

Computer Science. Dissertation: "Using Statistical Simulations to Analyze Uncertainty in Computer Security Investments, Mitigations and Vulnerabilities." Major Professor: Paul W. Oman

Sarah Renee de la Rue, *Moscow*

Geology. Dissertation: "Integrated Quantitative Palynology and Chemostratigraphy of Upper Devonian Black Shales: Implications For Anoxia-Related Controls on Green Algal Distributions." Major Professor: Peter E. Isaacson

Rita D. Dixon, *Lewiston*

Natural Resources. Dissertation: "Status and Conservation of White-Headed Woodpecker (*Picoides albolarvatus*) in the Interior West, USA: A Metapopulation Approach." Major Professor: Edward O. Garton

Stacey Jo Dunn, *Decatur, Illinois*

Biology. Dissertation: "Sexual Selection and Inbreeding in the National Bison Range, Montana, Pronghorn (*Antilocapra americana*) Population." Major Professor: John A. Byers

Gracy Elias, *Idaho Falls*

Chemistry. Dissertation: "Reactivity of Radiolytically-Produced Nitrogen Oxide Radicals Toward Aromatic." Major Professor: Chien M. Wai

**Ethan Anders Ellsworth, *Moscow*

Natural Resources. Dissertation: "Snowshoe Hare Nutrition in a Conifer Forest: Effects of Winter Food on Energy Use, Activity, and Demography in a Low-Density Population." Major Professor: Janet L. Rachlow

*Daniel Jay Evans, *Salt Lake City, Utah*

Computer Science. Dissertation: "Parameterized Computational Imaging: Optimized, Data Driven, and Time-Varying Multiphysics Modeling for Image Extension." Major Professor: Mark L. Manwaring

**Jason Owen Evans, *Coeur d'Alene*

Bioinformatics and Computational Biology. Dissertation: "High Performance Computational Methods for Molecular Phylogenetic Inference." Major Professor: Jack M. Sullivan

Ayuba Fasasi, *Accra, Ghana*

Chemistry. Dissertation: "Surface Enhanced Vibrational Spectroscopy of Surface Species for Sensor Applications." Major Professor: Peter R. Griffiths

David Bruce Ficks, *Boise*

Education. Dissertation: "Toward Transformative Learning: An Inquiry into the Work and Subsequent Learning Experiences of Individuals who Assisted Hurricane Katrina Evacuees." Major Professor: Martha Yopp

Thomas Beyene Gebrenegus, *Asmara, Eritrea*

Soil and Land Resources. Dissertation: "Application of X-ray Computed Tomography to Study Initiation and Evolution of Surface Cracks in Sand-Bentonite Mixtures." Major Professor: Marc Tuller

*Andrew D. Gillham, *La Crosse, Wisconsin*

Education. Dissertation: "Going Beyond Won-Loss Record to Identify Competent Coaches: Development of the Coaching Success Questionnaire-2." Major Professor: Damon Burton

*William Kenneth Godsoe, *Ottawa, Ontario, Canada*

Biology. Dissertation: "The Importance of Coevolution and Environmental Requirements in Large-scale Ecological Processes." Major Professor: Nils O. Pellmyr

**Caren Suzanne Goldberg, *Tucson, Arizona*

Natural Resources. Dissertation: "Pond-Breeding Amphibians in a Highly Modified Landscape: Habitat Modeling, Landscape Genetics, and Predictions of Landscape Change." Major Professor: Lisette Bogden

Eva Gut, *Novato, California*

Education. Dissertation: "Measuring the Personality Side of Motivation: Development and Validation of the Competitive Motivational Styles Questionnaire." Major Professor: Damon Burton

Degrees Conferred Earlier

*August 21, 2009 **December 18, 2009

The appearance of a name in this program is presumptive evidence of graduation and graduation honors; it must not in any sense be regarded as conclusive. The academic transcript, signed and sealed by the proper university officers, remains the official testimony of the possession of the degree.

MEDICAL EDUCATION PROGRAMS

WASHINGTON-WYOMING-ALASKA-MONTANA-IDAHO PROGRAM IN MEDICAL EDUCATION

Established in 1971. Andrew L. Turner, Ph.D., Director

Idaho students receiving doctorates in medicine from the University of Washington through participation in the WWAMI Medical Education Program:

Evan Allan, *Ophthalmology*
Rebecca Allred, *Pathology*
Allyson Bateman, *Family Medicine*
Brian Byrne, *Emergency Medicine*
Kyle Chambers, *Otolaryngology*
Amy Eddy, *Internal Medicine*
Janelle Pakish, *Obstetrics and Gynecology*

Louis Poppler, *Plastic Surgery*
Lisa Said, *Pediatrics*
Maribel Serrano, *Obstetrics and Gynecology*
Laura Stoll, *Orthopaedic Surgery*
Jillian Sturm, *Family Medicine*
Sara Swoboda, *Pediatrics*
Julie Zohner, *General Surgery*

The WWAMI Medical Education Program is offered by the University of Washington School of Medicine and selected universities and communities in Washington, Wyoming, Alaska, Montana and Idaho. Medical students from Idaho receive the first year of their medical training at the University of Idaho. Students attend classes at the University of Idaho and Washington State University and benefit from a large group of instructors and a varied selection of elective courses; laboratories and other facilities for individual work are available at both institutions. First-year students also have the opportunity to work with local physician-preceptors. Third- and fourth-year clinical rotations also are available in Idaho.

WASHINGTON-IDAHO REGIONAL PROGRAM IN VETERINARY MEDICINE

Established in 1974. Carl W. Hunt, Head of Animal and Veterinary Science

The University of Idaho cooperates with Washington State University in a program of veterinary medical education, research and service. In the program, students from Idaho take the first three years of professional training in veterinary medicine at Washington State University; faculty members from Idaho and WSU offer instruction in the professional and academic curricula. In the fourth year of the program, students receive part of the clinical training at the Caldwell, Idaho, veterinary medical facility.

SIGNIFICANCE OF ACADEMIC APPAREL AND MACE

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator – gowns of bachelors have pointed sleeves; those of masters have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study; the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

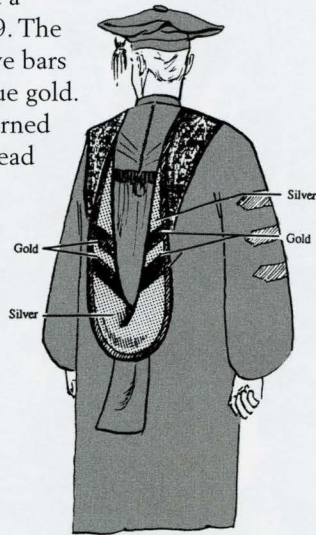

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining- the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming- the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are as follows:

| | | | |
|-----------------------------------|------------|--------------------------|---------------|
| Agriculture | Maize | Music | Pink |
| Arts, Letters, Humanities | White | Nursing | Apricot |
| Commerce, Accountancy, Business | Drab | Oratory (Speech) | Silver Gray |
| Dentistry | Lilac | Pharmacy | Olive Green |
| Economics | Copper | Philosophy | Dark Blue |
| Education | Light Blue | Physical Education | Sage Green |
| Engineering | Orange | Public Administration | Peacock Blue |
| Fine Arts, including Architecture | Brown | Public Health | Salmon Pink |
| Forestry | Russet | Science | Golden Yellow |
| Journalism | Crimson | Social Work | Citron |
| Law | Purple | Theology | Scarlet |
| Library Science | Lemon | Veterinary Science (DVM) | Gray |
| Medicine | Green | | |

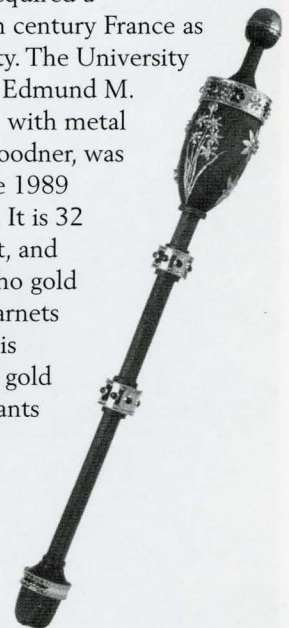

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze cords designate graduation cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university's centennial year and is worn today by faculty serving as officials at the University commencements.

The mace, a heavy staff or club used in medieval times for breaking armor, acquired a ceremonial function in 13th century France as a symbol of secular authority. The University of Idaho mace, designed by Edmund M. Chavez, professor emeritus, with metal work by Idaho artist Ray Goodner, was used for the first time at the 1989 centennial commencement. It is 32 inches long, made of walnut, and encircled with bands of Idaho gold and silver in which Idaho garnets and opals are set. The head is embellished with silver and gold representations of camas plants and syringa flowers.

To enrich education through diversity, the University of Idaho does not discriminate on the basis of race, color, national origin, religion, sex, age, disability, or status as a Vietnam-era veteran in employment or in admission to or the operation of its educational program and activities, as required by state and federal laws and regulation. Inquiries may be directed to the University's Human Rights Compliance Office.

“HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.
