HONORARY DEGREES

An honorary degree is awarded to a person deserving of honor by virtue of scholarly distinction, noteworthy public service or significant contributions to the state of Idaho. In the selection of candidates for honorary degrees, preference is given to those who are Idaho residents or University of Idaho graduates.

Horace Axtell, Nez Perce elder, known as “Uncle” to virtually everyone on the Nez Perce Reservation, served in the U.S. Army’s 529th Engineers during World War II. While serving overseas, he kept up his language skills by pretending to have conversations with his grandmother in her native Nez Perce language. After the war, Axtell worked at the Potlatch Mill and married his wife, Andrea. A group of Nez Perce elders heard him speaking his language and invited him to learn the old Nez Perce religion.

Axtell spent time with other Plateau tribes while he learned how to conduct the various ceremonies, funerals and blessings in the Seven Drum Religion. He also learned how to conduct pipe ceremonies. He already knew the old songs, learned from church and from his grandmother.

He has taught Nez Perce language at Lewis-Clark State College and has an honorary doctorate from LCSC. Since 1978, he has conducted several hundred memorials at various sites linked to the Nez Perce War. His story has been told in a book co-written with Margo Aragon, “A Little Bit of Wisdom,” and in a documentary film, “Nee-mee-poo: The Power of Our Dance.” Axtell has given much of his time as a cultural interpreter and tribal historian to scholars, documentary filmmakers, and others interested in Nez Perce traditions.

David L. Nicandri was director of the Washington State Historical Society from July 1987 to October 8, 2011. A graduate of State University of New York (SUNY) at Plattsburgh, and the holder of a master’s degree in history from the University of Idaho, Nicandri formerly served as the chief curator of the Washington State Capital Museum.

Nicandri also was elected three times to the Tumwater, Wash. city council, and was adjunct faculty at The Evergreen State College. He has served as a consulting historian in a number of capacities, including three terms as a speaker in the “Inquiring Mind” program at Humanities Washington.

Nicandri is the author of numerous books and articles, including: “Olympia’s Forgotten Pioneers: The Oblates of Mary Immaculate” (1972); “Italians in Washington State: Emigration, 1853-1924” (1978); “Northwest Chiefs: Gustav Sohon’s Views of the 1855 Stevens Treaty Councils” (1986); and a contributing editor of “Washington: Images of State’s Heritage” (1988), the official centennial illustrated history of Washington; and most recently, “River of Promise: Lewis and Clark on the Columbia” (2010) published by the Dakota Institute and distributed nationally by Oklahoma University Press. He has published many book reviews including those that can be found in *Western Historical Quarterly*, *Montana: The Magazine of Western History*, *Overland Journal*, and the *Oregon Historical Quarterly*. He also is the executive editor of *COLUMBIA Magazine*, the journal of the Washington State Historical Society.

In May 2001, Nicandri received an honorary doctorate from Gonzaga University in recognition of the Washington State Historical Society’s expansion and proficiency during his tenure. The University of Puget Sound granted Nicandri an honorary doctorate in May 2007, and his alma mater, SUNY Plattsburgh, has named him a distinguished visiting alumnus.

Currently, Nicandri is researching for a book on the “Tacoma Renaissance,” countenancing the intersection of the Boldt Decision, the Puyallup Land Claim settlement, and the revitalization of downtown Tacoma.

General James F. Amos, 2012 Commencement Speaker, also is a recipient of an honorary degree. His biography is on page 6 of this program.

Linda Davidson '75 is associate vice president for Development and Alumni Affairs and chief development officer/West Coast at the University of Tennessee. In this role, Davidson reports to the president of the UT Foundation and she represents all UT campuses to the 12,000 alumni in the seven western states.

Davidson previously served from 1998 to 2011 as vice chancellor for Development and Alumni Affairs. During that time, the UT System surpassed a \$1 billion Campaign for Tennessee goal with a total of \$1.3 billion. Davidson led a 60-member alumni and development team that raised more than \$830 million of that goal. In addition, the alumni team established an alumni board of directors, an alumni awards program and initiated a series of new programming with the goal of creating lifetime relationships between the 220,000 UT Knoxville alumni and their university.

In 1980, Davidson was hired as the first college based fundraiser at The University of Tennessee with responsibility for the College of Liberal Arts. For a seven year period in the 1990s, Davidson returned to her undergraduate alma mater, the University of Idaho, to serve as executive director of the University of Idaho Foundation. It was during this period that she became active nationally in the arena of institutionally related foundations, and she ultimately served as chair of the Society of Institutionally Related Foundations. Other national activities include serving on the judging panel for the CASE Awards for Excellence and as a member of the Board of Directors of the Association of Public and Land Grant Universities (formerly NASULGC). Locally, Davidson has served on the boards of directors of the Downtown Rotary Club, Florence Crittenden, Tanasi Girl Scout Council as well as president of the Executive Women's Association and as an elder of Westminster Presbyterian Church. In 2010, she was named a Woman of Achievement by the Southern Appalachian Girl Scout Council.

Davidson's husband, Mike Davidson '73 is professor and head of the Department of Food Science and Technology at the University of Tennessee, Knoxville. They have two grown daughters, Laurel and Holly.

Wayne C. Solomon earned a bachelor's degree in chemistry at the University of Idaho in 1955. He moved to the University of Illinois at Urbana-Champaign, where he now is a professor emeritus, to head the Aerospace Engineering Department in 1988.

During his tenure, Illinois' aerospace engineering department gained national prominence for research on aerodynamics, lasers, structures and space systems. Solomon also oversaw a graduate education program for McDonnell Douglas, now Boeing, in St. Louis.

Additionally, he organized and received NASA support for the Illinois Space Consortium and served as its director from 1991 until 2002. This NASA-sponsored research and education program reaches students from elementary to Ph.D. levels within institutions across the state of Illinois.

He is best known for his innovative research efforts in the areas of propulsion and of high-energy lasers. In the 70's and 80's, he and a team of scientists conducted major research and design programs for chemical lasers and laser radar devices.

A fellow of the American Institute of Aeronautics and Astroynamics, he has authored more than 200 research articles and conference proceedings. His research has been sponsored by a number of federal agencies.

Currently, Solomon serves as chairman of CU Aerospace, LLC, which he founded in 1999. A successful small company, it works closely with several universities to evolve aerospace research and provides the development expertise to commercialize aerospace innovations in the laser, electric propulsion and micro- satellites areas.

He and his wife, Janet Reis, currently divide their time between Boise and McCall.

SIGNIFICANCE OF ACADEMIC APPAREL AND MACE

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator – gowns of bachelors have pointed sleeves; those of masters have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study; the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

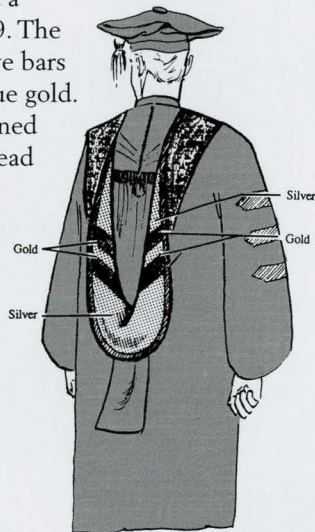

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining – the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming – the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning. Colors associated with the different disciplines are as follows:

Agriculture	Maize	Music	Pink
Arts, Letters, Humanities	White	Nursing	Apricot
Commerce, Accountancy, Business	Drab	Oratory (Speech)	Silver Gray
Dentistry	Lilac	Pharmacy	Olive Green
Economics	Copper	Philosophy	Dark Blue
Education	Light Blue	Physical Education	Sage Green
Engineering	Orange	Public Administration	Peacock Blue
Fine Arts, including Architecture	Brown	Public Health	Salmon Pink
Forestry	Russet	Science	Golden Yellow
Journalism	Crimson	Social Work	Citron
Law	Purple	Theology	Scarlet
Library Science	Lemon	Veterinary Science (DVM)	Gray
Medicine	Green		

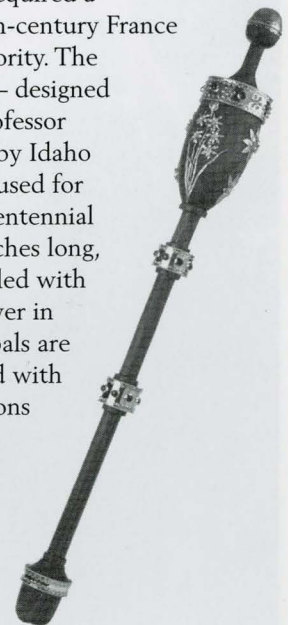

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-style soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the University's centennial year and is worn today by faculty serving as officials at the University commencements.

The mace, a heavy staff or club used in medieval times for breaking armor, acquired a ceremonial function in 13th-century France as a symbol of secular authority. The University of Idaho mace — designed by Edmund M. Chavez, professor emeritus, with metal work by Idaho artist Ray Goodner — was used for the first time at the 1989 centennial commencement. It is 32 inches long, made of walnut, and encircled with bands of Idaho gold and silver in which Idaho garnets and opals are set. The head is embellished with silver and gold representations of camas plants and syringa flowers.

To enrich education through diversity, the University of Idaho does not discriminate on the basis of race, color, national origin, religion, sex, age, disability, or status as a Vietnam-era veteran in employment or in admission to or the operation of its educational program and activities, as required by state and federal laws and regulation. “HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.
