PRESIDENT C. SCOTT GREEN

C. Scott Green took office as the 19th president of the University of Idaho on July 1, 2019. President Green joined U of I as a highly accomplished executive with a career in global finance, operations and administration. He is also a proud alumnus of the university, graduating in 1984 with a Bachelor of Science in accounting.

Born in Moscow, Green's family moved to Boise, where he graduated from Boise High School. Following his degree from the University of Idaho, the third-generation Vandal went to work for Boise Cascade Corporation. He went on to attend Harvard Business School and received a Master of Business Administration in 1989.

Green worked for Deloitte and Touche as part of its accelerated career program from 1989-94. He then worked in banking, serving in various management roles for Goldman Sachs and ING Barings. He published two books on the Sarbanes-Oxley Act of 2002, which reformed regulations around auditing and financial reporting.

Green went on to leadership in global law firms, including service as CEO at Pepper Hamilton and as executive director at WilmerHale. He most recently served as the chief operating and financial officer for Hogan Lovells, one of the largest law firms in the world, with annual revenues of over \$2 billion. Green led all of the firm's worldwide operations, technology, conflicts and finance functions. He had global responsibility for more than 3,000 employees in more than 30 countries.

The first non-lawyer to run an American Lawyer 100 law firm, Green was recognized as one of the Top 50 Big Law Innovators of the Last 50 Years by The American Lawyer magazine in 2013. A certified public accountant, Green was inducted into the American Institute of Certified Public Accountants' Business and Industry Hall of Fame in 2006. He received the Institute of Internal Auditors Outstanding Contributor Award in 2004 and 2006.

Green's commitment to the University of Idaho over many years has included service on the U of I Alumni Association's national Board of Directors, the College of Business and Economics Advisory Board and on the U of I Foundation Board. He is also a Vandal Scholarship Fund supporter.

Scott and his wife, Gabriella, an interior design project manager, have two adult children: Nicholas and Christina.

Jerry Kramer

Jerry Kramer overcame a series of childhood injuries to become an excellent football player at the University of Idaho. The guard was drafted by the Green Bay Packers in the fourth round (39th player overall) of the 1958 NFL Draft. He starred for the Packers from 1958 to 1968 playing most of his 11-season career under the direction of Hall of Fame Coach Vince Lombardi.

Upon his entry into the NFL, he soon was hailed as one of the best blockers in the game and earned his first All-NFL acclaim in 1960, the same year the Packers lost to the Philadelphia Eagles in the NFL championship game. That game ended up as Kramer's only career postseason loss.

He continued his high level of play all while overcoming several debilitating injuries. In 1961, he missed several games due to a broken ankle that required a permanent pin to heal. Then, in 1964, he missed most of the season due to intestinal infections from wood splinters in

his abdomen that required eight surgeries to rectify. In each instance, he returned to All-NFL form.

Kramer played 130 games as the Packers guard and served as the team's placekicker for several seasons. His leadership and talents helped the franchise capture five NFL championships and victories in Super Bowls I and II.

At the time of his retirement in 1968, he held the NFL Championship Game record for most field goal attempts in a single game (five against the New York Giants in 1962) and the Packers' team record for most PATs in a season (43 in 1963).

He earned All-NFL acclaim five times (1960, 1962-63, 1966-67) and was voted to three Pro Bowls. Kramer was also named to the NFL's All-Decade Team of the 1960s, the NFL's 50th Anniversary Team in 1969 and the Super Bowl Silver Anniversary Team.

Kramer collaborated with Dick Schaap on his first book, the best-selling "Instant Replay," a diary of the season which chronicled the life of a professional football offensive lineman. He wrote a second book, "Farewell to Football." After retiring as a player in May 1969, Kramer briefly worked as a color commentator on CBS' NFL telecasts. Following Lombardi's death from cancer in 1970, Kramer edited Lombardi's "Winning Is the Only Thing," a collection of reminiscences from coaches, players, friends, and family of Lombardi whom Kramer interviewed for the book. In 1985, Kramer wrote "Distant Replay," which updated the whereabouts of the members of the Packers' Super Bowl I championship team. In October 2005, he released "Inside the Locker Room," a CD set that includes Lombardi's final locker room address as the head coach of the Packers in January 1968, immediately after Super Bowl II. In September 2006, Kramer re-released his 1968 best seller, "Instant Replay."

Kramer was inducted into the University of Idaho Athletic Hall of Fame in 2007 and is being awarded a University of Idaho Alumni Association Distinguished Idahoan Award, their highest award, in 2021.

After retirement from the NFL, Kramer lived on a ranch near Parma in southwestern Idaho. He now resides in Boise.

UNIVERSITY OF IDAHO PRESIDENT'S MEDALLION

The President's Medallion is presented at commencements to individuals selected by the university president who have made significant contributions to the cultural, economic, scientific and/or social advancement of Idaho and its people, as well as provided exceptional service to the state or nation that has influenced the well-being of humankind.

University of Idaho and Gritman Medical Center Pandemic Response Teams

Teams from the University of Idaho and Gritman Medical Center collaboratively and courageously led the way in combatting COVID-19 in the greater Moscow community. In a testament to an unshakable community spirit, dedicated employees of both organizations often put themselves in harm's way to allow U of I students access to a transformational, in-person, educational experience throughout the 2020-21 academic year.

Putting the university first, U of I personnel partnered with Gritman early in the summer of 2020 to build a coronavirus testing operation that has been instrumental in managing the pandemic – both on campus and in the community. The U of I /Gritman lab set the standard for others across the state, leading modeling efforts for Idaho while allowing testing of every student ahead of in-person classes. Along with repeated random testing, testing of wastewater and maintenance of isolation spaces, the two institutions proved cooperation leads to successful results for the community as a whole.

Recognizing the effort and sacrifice by countless members of the pandemic response teams at both organizations, the University of Idaho awards its 2021 President's Medallion to certain faculty and staff at U of I and Gritman Medical Center key personnel. The medallion will be conferred upon:

- **Dan New**, IBEST Lab Supervisor, and **Kane Francetich**, CIO, for their foundational efforts upon which our pandemic response was built;
- **Kara Besst**, President and CEO, on behalf of the Gritman response staff;
- **Toni Broyles**, Special Assistant to the President, Strategy, on behalf of the U of I response staff;
- **Barrie Robison**, Professor, on behalf of the U of I response faculty.

A commemorative medallion memento will be given to the other members of the response teams. This honor symbolizes the dedication of several hundred employees at both institutions who demonstrated their profound commitment to putting people's well-being and their organizations' missions first.

With deep respect to both institutions, the University of Idaho bestows the President's Medallion honor to the University of Idaho and Gritman Medical Center pandemic response teams as part of the Spring 2021 Commencement Ceremonies.

In spring 2021, the President's Medallion was redesigned by student Megan Biggs to showcase the clock tower and grand architecture that overlook the main entrance of the administration building. This iconic, historic building not only houses the Office of the President but is a symbol of our community's brave and bold history. Biggs is a junior studying art and design with a minor in professional writing. She was supported on the project by Riley Merithew, a senior studying virtual technology and design with minors in computer science and art. The students were advised by Professor Delphine Keim with the Art and Design Program in the College of Art and Architecture.

Idaho's WWAMI Medical Education Program is a partnership with the University of Washington School of Medicine and the states of Washington, Wyoming, Alaska, Montana, and Idaho. Started in 1972, WWAMI is currently in its 49th year of successfully educating Idaho's physicians. The WWAMI program is nationally accredited through its partnership with the UW School of Medicine, allowing 40 Idaho medical students to complete their first 18 months of medical training at the University of Idaho, Moscow campus. Idaho's medical students complete the remainder of their clinical training in Idaho through the WWAMI clinical site in Boise and throughout the five-state WWAMI region.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Mace

Maces date to the Middle Ages and symbolize strength and authority. Each is unique and reflects the values and characteristics of the institution. The university's chief marshal, who leads all academic processions, carries the mace.

The University of Idaho's mace, used for the first time at the centennial commencement, is 32 inches long, made of walnut and encircled with bands of Idaho gold and silver in which Idaho garnets and opals have been inlaid. The head is embellished with silver and gold representations of camas plants and syringa flowers. The chair of the university's Faculty Senate, the marshal of the academic procession, carries the mace in the American tradition, at a 45-degree angle across the chest, while in England, the bearer carries it over the shoulder.

University of Idaho President's Medallions

The first medallion was created by Idaho artists George and Macky Roberts. The President's Medallion was first used in 1965 at the inauguration of Ernest Hartung, the University of Idaho's 12th president.

The medallion's base is a three-and-a-half-inch disc of pure Idaho silver. Mounted on the base is a disc of native jasper; a sterling silver sunburst is inlaid in the disc. Inside the sunburst is a modification of the Chinese character meaning "mountain," which features three upward-pointing prongs. Over the center prong is a gold inlay, thus symbolizing "Light on the Mountain."

The heavy medallion was worn suspended from a collar woven of Idaho wool, some of which is dyed with dahlia flowers to match the jasper and some of which is from a black sheep.

The second President's Medallion, worn during commencement by then-President Timothy P. White, was commissioned in 2004. This medallion's base is a gold-leafed university seal and is worn suspended by a chain with gold leaf charms, each representing the presidents who have served the university.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Apparel

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator — gowns of bachelor's have pointed sleeves; those of master's have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university's centennial year and are worn today by officials and university administration.

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

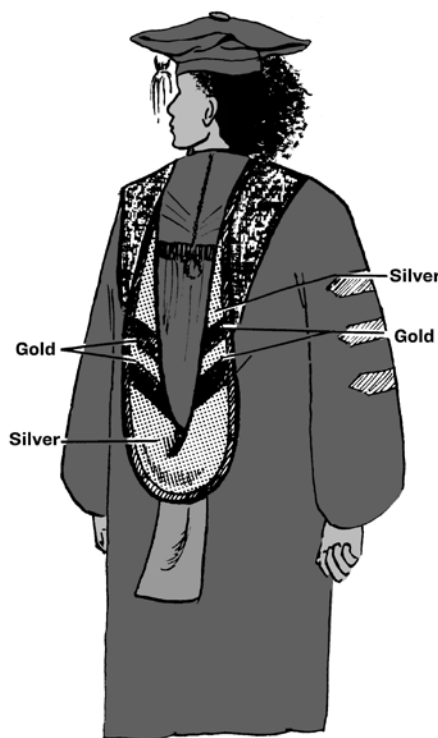

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study (see colors at right); the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining: the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming: the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are listed below:

Agriculture.....	Maize
Arts, Letters, Humanities.....	White
Commerce, Accountancy, Business.....	Drab
Economics.....	Copper
Education.....	Light Blue
Engineering.....	Orange
Fine Arts, including Architecture.....	Brown
Forestry.....	Russet
Journalism.....	Crimson
Law.....	Purple
Music.....	Pink
Philosophy.....	Dark Blue
Physical Education.....	Sage Green
Public Administration.....	Peacock Blue
Science.....	Golden Yellow

UNIVERSITY OF IDAHO BOISE

Premier Graduate, Research and Professional Development

University of Idaho Boise originated in 1910 when an agricultural Extension program was established in Ada County. In 1953, U of I Boise grew with the introduction of teacher education programs, which were expanded in the early 1980s. A cooperative agreement between the university and the Idaho Department of Fish and Game led to the 1963 opening of the Idaho Water Resources Research Institute (IWRRI) with offices in Boise, Moscow and Idaho Falls. Engineering courses were first delivered in Boise in 1988. Agricultural Extension, regional and state personnel, and several university support offices were located in Boise for greater statewide access and service in the early 1990s. In the late 1990s, Idaho WWAMI opened its doors in Boise and all U of I programmatic, advancement, athletics and other efforts in the community were brought together under the umbrella of U of I Boise. In the early 2000s, the College of Art and Architecture began offering courses in Boise, now including the first two years of its bachelor's degree in architecture. At the same time, the College of Law started offering externship opportunities and is now offering its complete Juris Doctor curriculum in Boise.

Today, students, faculty, researchers and staff work on a variety of topics that include water; natural resources and the environment; education; law; community sustainability and design; family economics; childhood education; nutrition education; pesticide safety and management; food technology, safety and processing; water resources engineering; and public policy.

Excellence at U of I Boise can be measured by the success of the many people we serve across the region and by the quality and achievements of our more than 140 faculty and staff members.

U of I Boise provides southwest Idaho access to all university resources. The center is focused on community impact, regional economic development and supporting university growth.

Strategically located in Boise – the economic and governmental center of Idaho and home to more than 55 percent of the state's population and business entities – U of I Boise supports teaching, learning, research, medical education and outreach. U of I Boise distinguishes itself through:

UNIVERSITY OF IDAHO COEUR D'ALENE

The University of Idaho Coeur d'Alene shapes the future of North Idaho by bringing university resources into our local communities. The center engages university expertise to transform education, develop innovative research and cultivate a knowledge-based economy.

Students can reach higher education excellence in Coeur d'Alene through in-person and distance degree programs led by nearly 20 local faculty. Professional development, microcourses and certificate programs bring continuing education opportunities to leaders in both the public and private sector.

Technological innovation is carving a prominent place in the future of North Idaho. U of I Coeur d'Alene elevates this emerging sector with tech opportunities for all. For nearly a decade, Dig'nIT STEM camps and high school internships have provided future Vandals with an enriching summer experience. The Vandal Manufacturing Automation Laboratory, now located at North Idaho College (NIC), is home to the local computer science and cybersecurity degree programs. Coeur d'Alene Computer Science students piloted Co-op Education in 2018, allowing students to spend six to 12 months during their junior and senior years working full time for near-market pay in the regional tech industry. For learners of all ages, the center spearheads Inspire Idaho, which provides free app development training statewide.

Surrounded by lakes, rivers and mountains, U of I Coeur d'Alene is uniquely positioned to build programming connected to the rich natural environment. Through the Confluence Project, the U of I Community Water Resource Center (CWRC) and regional partners give hundreds of high school students hands-on water science experience from the shores of Coeur d'Alene Lake to the slopes of Lookout Pass. CWRC also provides lake ambassador training through Bay Watchers, leads community conversations with the Our Gem Collaborative and educates construction workers on stormwater and erosion control.

The Coeur d'Alene center strategically plans for the future of the Lake City as an active participant with the North Idaho Higher Education consortium, CDA 2030, chambers of commerce and economic development corporations. The DeArmond Higher Education Center at NIC brings state-of-the-art student services from five higher education institutions under one roof. In Post Falls, the Jacklin Science and Technology Center supports startup companies, U of I research projects and U of I Extension in Kootenai County.

Through its degree programs, technology and research centers, and collaborative philosophy, U of I Coeur d'Alene provides outreach and opportunity for all people of North Idaho.

“HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.
