PRESIDENT C. SCOTT GREEN

C. Scott Green took office as the 19th president of the University of Idaho on July 1, 2019. President Green joined U of I as a highly accomplished executive with a career in global finance, operations and administration. He is also a proud alumnus of the university, graduating in 1984 with a Bachelor of Science in accounting.

Born in Moscow, Green's family moved to Boise, where he graduated from Boise High School. Following his degree from the University of Idaho, the third-generation Vandal went to work for Boise Cascade Corporation. He went on to attend Harvard Business School and received a Master of Business Administration in 1989.

Green worked for Deloitte and Touche as part of its accelerated career program from 1989-94. He then worked in banking, serving in various management roles for Goldman Sachs and ING Barings. He published two books on the Sarbanes-Oxley Act of 2002, which reformed regulations around auditing and financial reporting.

Green went on to leadership in global law firms, including service as CEO at Pepper Hamilton and as executive director at WilmerHale. He most recently served as the chief operating and financial officer for Hogan Lovells, one of the largest law firms in the world, with annual revenues of more than \$2 billion. Green led all of the firm's worldwide operations, technology, conflicts and finance functions. He had global responsibility for more than 3,000 employees in more than 30 countries.

The first non-lawyer to run an American Lawyer 100 law firm, Green was recognized as one of the Top 50 Big Law Innovators of the Last 50 Years by The American Lawyer magazine in 2013. A certified public accountant, Green was inducted into the American Institute of Certified Public Accountants' Business and Industry Hall of Fame in 2006. He received the Institute of Internal Auditors Outstanding Contributor Award in 2004 and 2006.

Green's commitment to the University of Idaho over many years has included service on the U of I Alumni Association's national Board of Directors, the College of Business and Economics Advisory Board and on the U of I Foundation Board. He is also a Vandal Scholarship Fund supporter.

Green and his wife, Gabriella, an interior design project manager, have two adult children: Nicholas and Christina.

GUEST SPEAKERS

UNIVERSITY OF IDAHO MOSCOW

Louis J. Freeh

Louis J. Freeh advises senior leaders of global companies and governments on complex investigative, governance, compliance, and regulatory matters. Since leaving government service, Louie has been appointed by courts, corporate boards and governments to help the world's largest companies navigate legal and compliance issues related to the Foreign Corrupt Practices Act (FCPA) and similar anti-corruption regulations. Louie's firsthand experience with U.S. judicial, law enforcement and regulatory agencies, national governments, and leaders of global businesses allows him to assist organizations in navigating crisis situations and complex, multi-jurisdictional matters quickly and strategically. His expertise and leadership qualities advise and support boards, governments and CEOs on a range of sensitive undertakings including investigations and enhanced due diligence, litigation strategy, compliance monitoring and assessments, and liaison with regulatory authorities.

Louie was founder and chairman of Freeh Sporkin and Sullivan, and Freeh Group International Solutions from 2007-2020. Prior to that, he was FBI director and a federal judge.

Louie currently serves as Independent Compliance Monitor for Walmart Inc. following the company's FCPA settlement with the Department of Justice and the Securities and Exchange Commission.

April Arnzen

April Arnzen is passionate about three things: people, education and community. As chief people officer of Micron Technology and president of the Micron Foundation, April leads a team of professionals across 17 countries who drive the company's overall commitment to enrich life for all – within Micron and in the global communities it reaches.

An Idaho native and fellow Vandal, April joined Micron shortly after graduating from the University of Idaho with degrees in Human Resources and Marketing. Fulfilling her belief that education should continue throughout one's career, in 2018, April graduated from the Stanford Graduate School of Business Executive Program. In 2020, she was appointed the chief people officer of Micron, where she currently leads the company's human resources strategy and fosters a culture that embraces leadership, growth, inclusion and wellbeing for Micron's global workforce.

April believes that people are at the heart of every company's success and that Micron's strength lies within the innovation that comes from diverse ideas and perspectives. That's why she is passionate about providing opportunities for individuals from all backgrounds to achieve their career ambitions. In her role as president of the Micron Foundation, she focuses on programs that promote STEM education, inspiring girls and women to engage in engineering professions, and increasing equitable opportunities for underserved and underrepresented communities.

A champion for education, April serves on the Boise Schools Foundation board and is a frequent speaker in leadership forums where she inspires others to approach every opportunity and challenge with a growth mindset and a belief that a setback is a setup for something greater. In her own life, this philosophy has led to opportunities to host an event with First Lady Michelle Obama, expand her understanding of cultures around the world and thrive amidst challenge.

Looking forward, April will continue to cultivate Micron's future as an iconic American semiconductor company whose roots were founded over 40 years ago in a small Boise dentist office.

One of April's favorites quotes from American poet Maya Angelou: "Love life. Engage in it. Give it all you've got. Love it with a passion because life truly does give back, many times over, what you put into it."

Lori Barber

Lori Barber is Vice President of Academic & Student Affairs at College of Eastern Idaho (CEI). Prior to this role, she served in various leadership roles at the College. She led the creation of the General Education transfer degrees at CEI, first as Director of General Education, and then Dean of General Education. She holds a doctorate in Education Leadership and Innovation from Arizona State University. Lori did her Master's Degree in Interdisciplinary Studies where she researched the history and anthropology of food.

She has been involved in education at the K-12 and post-secondary realms for over twenty-five years. Before coming to CEI, Lori was an assistant lecturer at Idaho State University and designed her own courses, creating content, lectures, outcomes, and assessments. Lori serves on numerous state level education committees in Idaho, including as a member of the Idaho Workforce Development Council. Lori profoundly believes in the community college model and recognizes the power of education to create hope and transform lives.

UNIVERSITY OF IDAHO FOUNDATION

About the University of Idaho Foundation, Inc.

The University of Idaho Foundation was established in 1970 to inspire, manage, and distribute private support to enhance the excellence of the University of Idaho. The Foundation is governed by a dedicated volunteer board of directors who share their time, treasure, and talent.

The Foundation receives gifts in a variety of forms that include cash contributions, marketable securities and real estate, and through planned giving opportunities such as bequests, gift annuities, charitable remainder trusts and others.

Over 1,800 individual endowments have been funded through charitable contributions. The endowed funds are managed in the Consolidated Investment Trust (CIT), the Foundation's pooled endowment fund. The principal is non-expendable; distributions support scholarships, faculty development, research and other programs in accordance with our donors' wishes.

With \$429 million in assets, the University of Idaho Foundation is the largest public foundation in the state of Idaho.

Aman Gupta*, Bhilai, India

Chemical Engineering. Dissertation: "Ca(OH)2/CaO Chemical Heat Pump for Thermoamplification in Integrated Energy Systems: Thermodynamic Modeling, Experimental Investigations, and Techno-Economic Analysis." Major Professor: Vivek Utgikar

Bradley Heath, Idaho Falls**

Mechanical Engineering. Dissertation: "Characterization of Uncertainties in the Modeling of Ablation Heat Transfer in Rocket Nozzles." Major Professor: David Arcilesi

Ryan C. Hruska, Moscow

Computer Science. Dissertation: "Detection of Balsam Wolly Adelgid Infestations Using Hyperspectral Remote Sensing." Major Professor: Michael A. Haney

Jeongwhui Hong, Busan, South Korea**

Natural Resources. Dissertation: "Dietary Manipulation of Fatty Acid Biosynthesis and Metabolism to Improve Fish Performance and Fillet Content with an Emphasis on Omega-3 LC-PUFA and Arachidonic Acid when Feeding High Plant Oil Feeds." Major Professor: Brian C. Small

Jennifer Ellaine Houle, Boise

Electrical Engineering. Dissertation: "An All-Optical 4-Bit Adder Composed of Fabry-Perot Devices." Major Professor: Dennis Michael Sullivan

Emmanuel Chukwudi Ijezie, Gboko Benue State, Nigeria**

Microbiology, Molecular Biology and Biochemistry. Dissertation: "Histologic Pathology of Respiratory Viral Coinfection in Mice and Knockdown of Nidogen in a Human Cytomegalovirus Infected Brain Organoid Model." Major Professor:

Bernadette Deniz Johnson, Harker Heights, Texas

Biology. Dissertation: "An All-Optical 4-Bit Adder Composed of Fabry-Perot Devices." Major Professor: Adam G. Jones

Eureka Joshi, Kathmandu, Nepal

Environmental Science. Dissertation: "Western Coniferous Forest Responses to Reclaimed Water Along a Time Series of Water Reuse Facilities." Major Professor: Mark D. Coleman

Kimia Kajbaf, Shiraz, Iran

Animal Physiology. Dissertation: "Improving Feed Efficiency and Nutritional Values of Selected Rainbow Trout (*Oncorhynchus mykiss*). " Major Professor: Vikas Kumar

Amruta Suresh Kale, Nashik, India

Computer Science. Dissertation: "Provenance Documentation to Enable Explainable and Trustworthy AI." Major Professor: Xiaogang Ma

Vishwanath Deepak Ketkar, Pune (Maharashtra), India

Electrical Engineering. Dissertation: "Design and Control of a Spherical 2-DOF Thumb Exoskeleton Module for Post-Stroke Hand Rehabilitation and Assessment." Major Professor: Eric T. Wolbrecht

Steven Mark Kreyche, Mountain Home**

Physics. Dissertation: "Planetary Obliquity Evolution: Excited Retrograde Rotators and Tidal Resonant Encounters." Major Professor: Jason W. Barnes

Lukas Daniel Dominik Krumpal, Klosterneuburg, Austria

Education. Dissertation: "The Exploration of Morphological and Mechanical Properties of the Plantar Fascia in Response to Imposed Running Demands." Major Professor: Joshua Bailey

Sonja Kirsten LaPaglia, Moscow

Education. Dissertation: "Differentiating Science Motivational Factors of Adolescent College Students by Career Orientation with a Self-Determination Theory Lens on Variables and Voices - An Explanatory Sequential Mixed Methods Study Utilizing the Academic Motivation Scale in Survey and Interviews." Major Professor: Brant G. Miller

Laura A. Laumatia*, Plummer

Education. Dissertation: "Navigating New Waters: A Case Study of Settler Colonialism in the Coeur d'Alene Tribe's Legal Fight to Protect its Homeland." Major Professor: Vanessa E. Anthony-Stevens

Karen Kay Lauritzen, Post Falls

Idaho's WWAMI Medical Education Program is a partnership with the University of Washington School of Medicine and the states of Washington, Wyoming, Alaska, Montana, and Idaho. Started in 1972, WWAMI is currently in its 51st year of successfully educating Idaho's physicians. The WWAMI program is nationally accredited through its partnership with the UW School of Medicine, allowing 40 Idaho medical students to complete their first 18 months of medical training at the University of Idaho, Moscow campus. Idaho's medical students complete the remainder of their clinical training in Idaho through the WWAMI clinical site in Boise and throughout the five-state WWAMI region.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Mace

Maces date to the Middle Ages and symbolize strength and authority. Each is unique and reflects the values and characteristics of the institution. The university's chief marshal, who leads all academic processions, carries the mace.

The University of Idaho's mace, used for the first time at the centennial commencement, is 32 inches long, made of walnut and encircled with bands of Idaho gold and silver in which Idaho garnets and opals have been inlaid. The head is embellished with silver and gold representations of camas plants and syringa flowers. The chair of the university's Faculty Senate, the marshal of the academic procession, carries the mace in the American tradition, at a 45-degree angle across the chest, while in England, the bearer carries it over the shoulder.

University of Idaho President's Medallions

The first medallion was created by Idaho artists George and Macky Roberts. The President's Medallion was first used in 1965 at the inauguration of Ernest Hartung, the University of Idaho's 12th president.

The medallion's base is a three-and-a-half-inch disc of pure Idaho silver. Mounted on the base is a disc of native jasper; a sterling silver sunburst is inlaid in the disc. Inside the sunburst is a modification of the Chinese character meaning "mountain," which features three upward-pointing prongs. Over the center prong is a gold inlay, thus symbolizing "Light on the Mountain."

The heavy medallion was worn suspended from a collar woven of Idaho wool, some of which is dyed with dahlia flowers to match the jasper and some of which is from a black sheep.

The second President's Medallion, worn during commencement by then-President Timothy P. White, was commissioned in 2004. This medallion's base is a gold-leafed university seal and is worn suspended by a chain with gold leaf charms, each representing the presidents who have served the university.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Apparel

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator — gowns of bachelor's have pointed sleeves; those of master's have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university's centennial year and are worn today by officials and university administration.

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, **Summa cum laude** (with highest distinction); silver, **Magna cum laude** (with great distinction); and bronze, **cum laude** (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

CAPS

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study (see colors at right); the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining: the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming: the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are listed below:

| | |
|--|---------------|
| Agriculture..... | Maize |
| Arts, Letters, Humanities | White |
| Commerce, Accountancy, Business..... | Drab |
| Economics..... | Copper |
| Education..... | Light Blue |

UNIVERSITY OF IDAHO BOISE

Premier Graduate, Research and Professional Development

University of Idaho Boise originated in 1910 when an agricultural Extension program was established in Ada County. In 1953, U of I Boise grew with the introduction of teacher education programs, which were expanded in the early 1980s. A cooperative agreement between the university and the Idaho Department of Fish and Game led to the 1963 opening of the Idaho Water Resources Research Institute (IWRRI) with offices in Boise, Moscow and Idaho Falls. Engineering courses were first delivered in Boise in 1988. Agricultural Extension, regional and state personnel, and several university support offices were located in Boise for greater statewide access and service in the early 1990s. In the late 1990s, Idaho WWAMI opened its doors in Boise and all U of I programmatic, advancement, athletics and other efforts in the community were brought together under the umbrella of U of I Boise. In the early 2000s, the College of Art and Architecture began offering courses in Boise, now including the first two years of its bachelor's degree in architecture. At the same time, the College of Law started offering externship opportunities and is now offering its complete Juris Doctor curriculum in Boise.

The College of Law moved into its permanent Boise-based facility at 501 W. Front Street in 2021 just a few blocks west of the main U of I Boise campus located at the corner of Broadway and Front. These facilities serve the greater SW Idaho community by providing classroom space, housing U of I programs, and by hosting events and meetings for diverse groups of external stakeholders.

Today, students, faculty, researchers and staff work on a variety of topics that include water; natural resources and the environment; education; law; community sustainability and design; family economics; childhood education; pesticide safety and management; food technology, safety and processing; water resources engineering; and public policy.

Excellence at U of I Boise can be measured by the success of the many people we serve across the region and by the quality and achievements of our more than 140 faculty and staff members.

U of I Boise provides southwest Idaho access to all university resources. The center is focused on community impact, regional economic development and supporting university growth.

Strategically located in Boise – the economic and governmental center of Idaho and home to more than 55 percent of the state's population and business entities – U of I Boise supports teaching, learning, research, medical education and outreach. U of I Boise distinguishes itself through:

- Quality programs that accommodate working professionals and full-time students with a focus on professional and workforce development;
- Outreach to southwest Idaho's communities to foster their sustainability, growth and educational access;
- Proactive research for domestic and global solutions;
- Collaborative and interdisciplinary work with the public and private sectors, including other institutions of higher education; and
- Enduring relationships with alumni and friends to carry forward the proud history and traditions of the University of Idaho.

At U of I Boise, we welcome and respect all people. Diversity and inclusion are the core of community, and we embrace them as our guiding principles. As the Boise location of Idaho's oldest public university, we are committed to serving the region, the state, the nation, and the world.

UNIVERSITY OF IDAHO COEUR D'ALENE

The University of Idaho Coeur d'Alene (U of I Coeur d'Alene) engages university expertise to transform education, develop innovative research, and cultivate a knowledge-based economy throughout North Idaho. Students achieve higher education excellence in Coeur d'Alene through in-person and distance degree programs led by faculty from across the state. More than 30 degrees and programs are available to students who wish to attend the University of Idaho from Coeur d'Alene. A variety of professional development offerings bring continuing education opportunities to professionals in both the public and private sector. Each year programs, including 4-H, Master Gardener, and the Idaho Building Capacity project, serve hundreds of community members. The University of Idaho Coeur d'Alene provides opportunities for all people in North Idaho through its degree programs, technology and research centers, outreach, and collaborative philosophy.

Technological innovation is carving a prominent place into the future of North Idaho. U of I Coeur d'Alene elevates this emerging sector with education opportunities in technology. The College of Engineering at the University of Idaho offers computer science education that is critical for satisfying workforce needs, meeting student demand, and growing the economy in North Idaho. Faculty and students in the Vandal Manufacturing Automation Laboratory support local industry by providing curriculum designed to address industry needs. The recent additions of live lab courses in both the B.S. Medical Sciences and B.S. Industrial Technology degrees bring even more educational opportunities to the area. Increased dual credit offerings have broadened educational pathways for students in Region One high schools.

Surrounded by lakes, rivers, and mountains, U of I Coeur d'Alene is uniquely positioned to build programs in connection to its rich natural environment. U of I Coeur d'Alene is now the home of the Idaho Water Resources Research Institute (IWRRI), where conducted research supports the water resource needs of the state of Idaho. IWRRI is charged with supporting faculty across the state as they work toward excellence in water resource science. IWRRI also plays an important role in facilitating, participating in, and developing innovative education and outreach programs that provide research-generated information to water managers, agency research scientists, and the public. Through collaboration on The Confluence Project, IWRRI at the U of I and fellow regional partners give hundreds of high school students hands-on water science experience from the shores of Coeur d'Alene Lake and the slopes of Lookout Pass. IWRRI also provides lake ambassador training through Bay Watchers, leads community conversations with the Our Gem Collaborative, and educates construction workers on stormwater and erosion control (Panhandle Stormwater and Erosion Education Program).

U of I Coeur d'Alene operates several facilities in the North Idaho region. The Harbor Center in Coeur d'Alene houses classrooms, conference rooms, labs, and offices. The Hedlund Building at North Idaho College (NIC) houses the Computer Science program: classrooms, robotics labs, and offices. The DeArmond Higher Education Center at NIC brings state-of-the-art student services and classroom instruction from several higher education institutions under one roof. In Post Falls, the University of Idaho Jacklin Science and Technology Center supports startup companies, U of I research projects, and U of I Extension in Kootenai County.

Through its degree programs, technology and research centers, and collaborative philosophy, University of Idaho Coeur d'Alene provides opportunity and outreach for all people of North Idaho.

UNIVERSITY OF IDAHO, IDAHO FALLS

Celebrating Nearly 70 Years in Eastern Idaho

In Idaho Falls, our core mission is engineering, science, technology and related disciplines. Our campus at University Place features high-tech classrooms, advanced cybersecurity and engineering laboratories and excellence in the curriculum offered. The faculty are leaders in their respective fields and actively engaged in far reaching, impactful research. University of Idaho is the founding collaborator at the Center for Advanced Energy Studies, a research, education and innovation partnership between the three Idaho public universities and the Idaho National Laboratory, the Department of Energy's lead nuclear research laboratory.

University of Idaho has offered degree programs in Idaho Falls for nearly 70 years. Since our first graduating class in 1955, over 2000 students have earned degrees in science, engineering, technology, mathematics, psychology, environmental science, education and other related disciplines. Many more have completed academic certificates and courses for professional and personal development.

Students, faculty and staff at the Idaho Falls Center are part of the community that extends throughout the entire state of Idaho. University of Idaho has Cooperative Extension offices in 42 counties and centers in Idaho Falls, Boise, Twin Falls and Coeur d'Alene and the main campus in Moscow. Students can take courses offered by faculty at multiple locations and interact with students from other fields of study in places all over the region and country.

University of Idaho, Idaho Falls faculty and staff wish to extend congratulations to the graduating class of 2022-23 for their achievements.

“HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.
