### UNIVERSITY OF IDAHO, IDAHO FALLS

*Karole Honas*

**Karole Honas '77** Karole Honas worked in television for more than 40 years, serving as an anchor at KIFI Local News 8 for nearly 30 years. She has been inducted into the Silver Circle of the National Academy of Television, Arts, and Sciences, an award honoring dedicated broadcasters who have made significant contributions to the industry and communities in their region.

As a University of Idaho alumna, she has served as a member of U of I's Journalism and Mass Media advisory board. Throughout her career she consistently reached out to U of I students interested in television news. Honas has served as a mentor for young reporters and anchors, helping them prepare for jobs in larger media markets. She is often found interacting one-on-one with her neighbors, community leaders and local businesspersons. As a broadcaster, she was always a highly recognized individual who took time to visit with those who know her from her public broadcasting position. People looked to Honas as a respected,

leading voice to investigate and report on the important issues facing communities in eastern Idaho and western Wyoming.

Honas continues to be an active and responsible member of her community. Retired for three years, she currently serves on several boards, including Idaho Falls City Club, the Bingham Group, and spends hours at Champ's Heart.

Honas met her husband, Ken Honas, at U of I. They have been married for 47 years. They have three sons, all of whom have graduated from U of I and are gainfully employed. Go Vandals!

## PRESIDENT'S MEDALLION

---

*The President's Medallion is presented at commencements to individuals selected by the university president who have made significant contributions to the cultural, economic, scientific and/or social advancement of Idaho and its people, as well as provided exceptional service to the state or nation that has influenced the well-being of humankind.*

*Jean'ne M. Shreeve*

**Jean'ne Shreeve** is the University of Idaho Distinguished Professor of Chemistry. She is the longest serving U of I employee and over her 63 years, Dr. Shreeve rose through the academic ranks from assistant to full professor and served as chair of the Department of Chemistry and Vice President for Research and Graduate Students. In 2011, she was named a Fellow of the American Chemical Society (ACS), and in February 2024 was recognized by the Washington-Idaho Border Section (WIBS) of the ACS for 70 years of active membership in the American Chemical Society. She has served in many leadership roles in the national ACS chapter and in WIBS.

Few faculty members in the country can match Shreeve's production. She and her coworkers have published more than 725 refereed academic articles, many on the development of new syntheses of fluoronitrogen compounds. Her innovation with fluorine led to many honors, including being named an Alfred P. Sloan Foundation fellow in 1970 and the Garvan-Olin Medal from the American Chemical Society in 1972. As the aerospace industry moved away from fluorine research, Shreeve's focus shifted to working with other energetic materials over the past 20 years. Her work has been cited more than 32,000 times worldwide.

The undergraduate students, graduate students and postdoctoral fellows under Dr. Shreeve's tutelage have gone on to their own distinguished careers, working for Los Alamos National Laboratory, in the military, in academics and at companies like 3M and Allied Chemical Corporation.

What particularly sets Dr. Shreeve apart from other top scientists and faculty, is how her mentoring and personal relationships with her former students and postdoctoral researchers continue even decades after they leave her research group. Roughly every other year, the Shreeve lab alumni gather to reconnect with one another and to honor Dr. Shreeve. In 2022, she celebrated with former students Brian Hill '65, Charles 'Tom' Ratliffe '67, Richard Swindell '72, Dennis Sauer '72 and Ramesh Kumar '81, who were all inducted into the U of I Alumni Hall of Fame.

Shreeve earned her bachelor's degree at the University of Montana, her master's degree at the University of Minnesota, and her doctorate at the University of Washington.

# HONORARY DEGREE

---

*An honorary degree is awarded to a person deserving of honor by virtue of scholarly distinction, noteworthy public service or significant contributions to the state of Idaho. In the selection of candidates for honorary degrees, preference is given to those who are Idaho residents or University of Idaho graduates.*

## UNIVERSITY OF IDAHO – MOSCOW – HONORARY DOCTORATE

*Keiko Ogura*

**Keiko Ogura** was born in 1937 in Hiroshima. On August 6, 1945, when Keiko was eight years old, she was exposed to the atomic bomb 2.4km away from the hypocenter. She graduated from Hiroshima Jogakuin University in 1959. In 1962, Keiko married Kaoru Ogura, who served as the director of the Hiroshima Peace Memorial Museum. After her husband's death in 1979, Keiko became an interpreting coordinator for peace-movement visitors from abroad. She has continued to carry out the mission to spread knowledge about the atomic bombings and keep the survivors' stories alive.

In 1984, she founded Hiroshima Interpreters for Peace (HIP) and published the Hiroshima Handbook and Hiroshima Peace Park Guide. In 2011, she was appointed as the official teller of the Hiroshima A-bomb experience in English by the Hiroshima Peace Culture Foundation. With a strong belief in conveying the reality of the atomic bombing to people around the world, she has shared her A-bomb experience with world leaders and people in more than 50 countries

and regions. She recently shared her story with world leaders attending the G7 Summit in May 2023. She also received the Chugoku Culture Award in Nov 2023.

The University of Idaho welcomed Keiko Ogura as a guest speaker for the "Remembering Hiroshima" event in 2022. One year later, five U of I students completed a project to translate Keiko's children's story. The story, along with the English translation, will be published in Japan as a kamishibai, a traditional method to tell children's stories using large boards with pictures on one side and text on the other. The students visited Japan to meet Keiko and present the kamishibai to her at Hiroshima University.

In recognition of her vast contributions to worldwide peace, education and relationship building with the University of Idaho community, the University of Idaho is proud to bestow upon Keiko Ogura, the honorary Doctor of Humane Letters degree as part of the Spring 2024 commencement ceremonies.

# UNIVERSITY OF IDAHO FOUNDATION

---

## *About the University of Idaho Foundation, Inc.*

The University of Idaho Foundation was established in 1970 to inspire, manage, and distribute private support to enhance the excellence of the University of Idaho. The Foundation is governed by a dedicated volunteer board of directors who share their time, treasure, and talent.

The Foundation receives gifts in a variety of forms that include cash contributions, marketable securities and real estate, and through planned giving opportunities such as bequests, gift annuities, charitable remainder trusts and others.

Over 1,800 individual endowments have been funded through charitable contributions. The endowed funds are managed in the Consolidated Investment Trust (CIT), the Foundation's pooled endowment fund. The principal is non-expendable; distributions support scholarships, faculty development, research and other programs in accordance with our donors' wishes.

With \$465 million in assets, the University of Idaho Foundation is the largest public foundation in the state of Idaho.

Idaho's WWAMI Medical Education Program is a partnership with the University of Washington School of Medicine and the states of Washington, Wyoming, Alaska, Montana, and Idaho. Started in 1972, WWAMI is currently in its 52nd year of successfully educating Idaho's physicians. The WWAMI program is nationally accredited through its partnership with the UW School of Medicine, allowing 40 Idaho medical students to complete their first 18 months of medical training at the University of Idaho, Moscow campus. Idaho's medical students complete the remainder of their clinical training in Idaho through the WWAMI clinical site in Boise and throughout the five-state WWAMI region.

# SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

---

## University of Idaho Academic Mace

Maces date to the Middle Ages and symbolize strength and authority. Each is unique and reflects the values and characteristics of the institution. The university's chief marshal, who leads all academic processions, carries the mace.

The University of Idaho's mace, used for the first time at the centennial commencement, is 32 inches long, made of walnut and encircled with bands of Idaho gold and silver in which Idaho garnets and opals have been inlaid. The head is embellished with silver and gold representations of camas plants and syringa flowers. The chair of the university's Faculty Senate, the marshal of the academic procession, carries the mace in the American tradition, at a 45-degree angle across the chest, while in England, the bearer carries it over the shoulder.

## University of Idaho President's Medallions

The first medallion was created by Idaho artists George and Macky Roberts. The President's Medallion was first used in 1965 at the inauguration of Ernest Hartung, the University of Idaho's 12th president.

The medallion's base is a three-and-a-half-inch disc of pure Idaho silver. Mounted on the base is a disc of native jasper; a sterling silver sunburst is inlaid in the disc. Inside the sunburst is a modification of the Chinese character meaning "mountain," which features three upward-pointing prongs. Over the center prong is a gold inlay, thus symbolizing "Light on the Mountain."

The heavy medallion was worn suspended from a collar woven of Idaho wool, some of which is dyed with dahlia flowers to match the jasper and some of which is from a black sheep.

The second President's Medallion, worn during commencement by then-President Timothy P. White, was commissioned in 2004. This medallion's base is a gold-leafed university seal and is worn suspended by a chain with gold leaf charms, each representing the presidents who have served the university.

# SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

## University of Idaho Academic Apparel

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

### Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator — gowns of bachelors' have pointed sleeves; those of masters' have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university's centennial year and are worn today by officials and university administration.

### Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

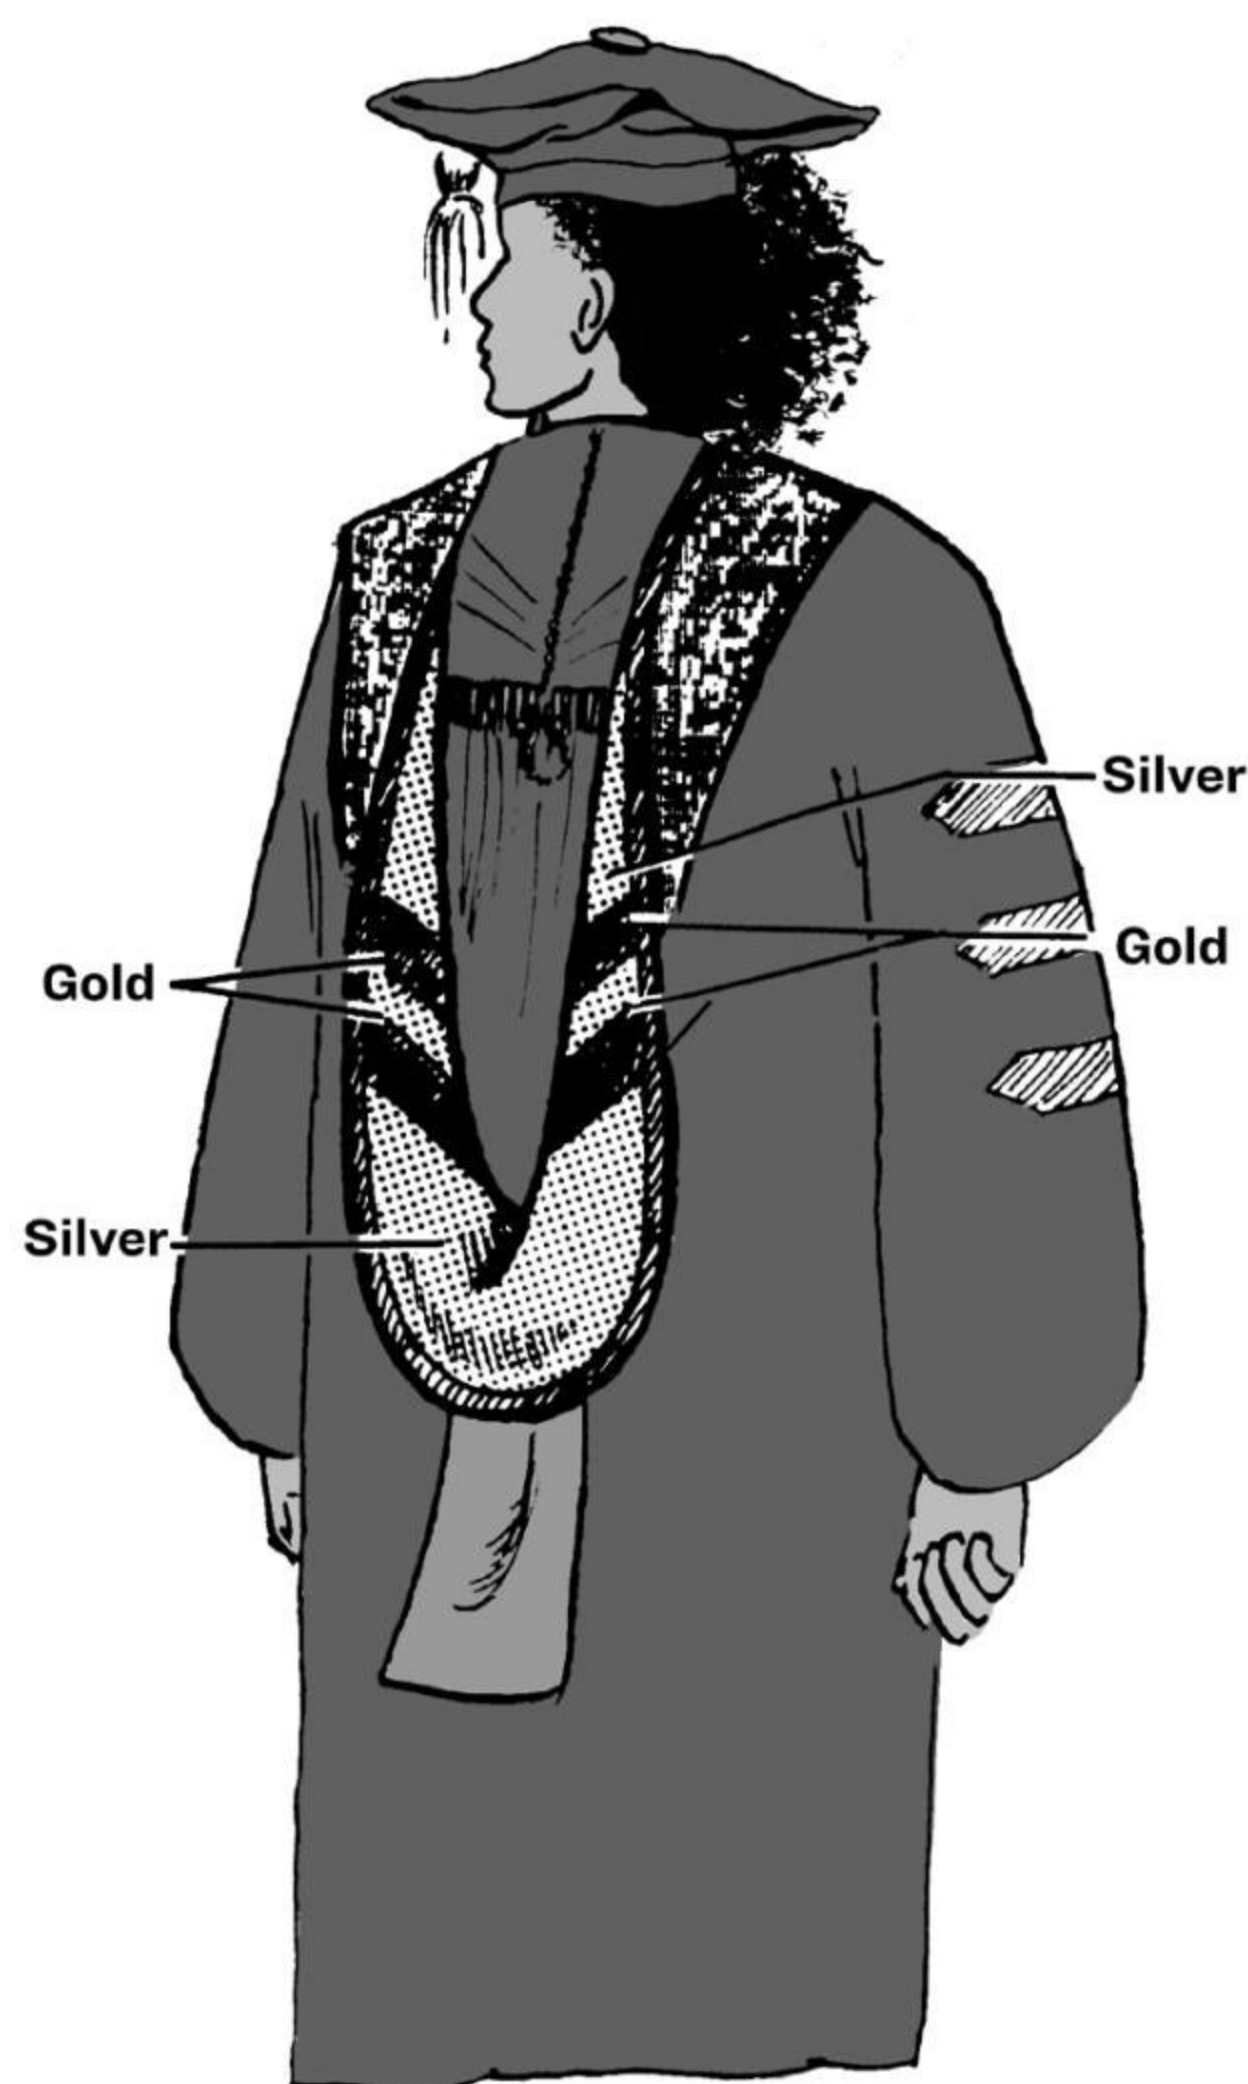

### Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study (see colors at right); the master's and specialist's tassels are black; and the doctoral tassels are old gold.

## Hoods

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining: the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming: the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are listed below:

Agriculture.....	Maize
Arts, Letters, Humanities.....	White
Commerce, Accountancy, Business.....	Drab
Economics.....	Copper
Education.....	Light Blue
Engineering.....	Orange
Fine Arts, including Architecture.....	Brown
Forestry.....	Russet
Journalism.....	Crimson
Law.....	Purple
Music.....	Pink
Philosophy.....	Dark Blue
Physical Education.....	Sage Green
Public Administration.....	Peacock Blue
Science.....	Golden Yellow

# UNIVERSITY OF IDAHO BOISE

## Premier Graduate, Research and Professional Development

University of Idaho Boise originated in 1910 when an Agricultural extension program was established in Ada County. In 1953, U of I Boise grew with the introduction of teacher education programs, which were expanded in the early 1980s. A cooperative agreement between the university and the Idaho Department of Fish and Game led to the 1963 opening of the Idaho Water Resources Research Institute (IWRRI) with offices in Boise, Moscow and Idaho Falls. Engineering courses were first delivered in Boise in 1988. Agricultural Extension, regional and state personnel, and several university support offices were located in Boise for greater statewide access and service in the early 1990s. In the late 1990s, Idaho WWAMI opened its doors in Boise and all U of I programmatic, advancement, athletics and other efforts in the community were brought together under the umbrella of U of I Boise. In the early 2000s, the College of Art and Architecture began offering courses in Boise, now including the first two years of its bachelor's degree in architecture. At the same time, the College of Law started offering externship opportunities and is now offering its complete Juris Doctor curriculum in Boise.

The College of Law moved into its permanent Boise-based facility at 501 W. Front Street in 2021 just a few blocks west of the main U of I Boise campus located at the corner of Broadway and Front. These facilities serve the greater southwest Idaho community by providing classroom space, housing U of I programs, and by hosting events and meetings for diverse groups of external stakeholders.

Today, students, faculty, researchers and staff work on a variety of topics that include water; natural resources and the environment; education; law; community sustainability and design; family economics; childhood education; pesticide safety and management; food technology, safety and processing; water resources engineering; and public policy.

Excellence at U of I Boise can be measured by the success of the many people we serve across the region and by the quality and achievements of our more than 200 faculty and staff members.

U of I Boise provides southwest Idaho access to all university resources. The center is focused on community impact, regional economic development and supporting university growth.

# “HERE WE HAVE IDAHO”

---

1 Alma Mater, the hope of a pioneer race;  
You're fashioned of dreams and of toil,  
Your walls and your towers by stout-hearted men  
Were raised from the rock and the soil.

## **Chorus**

And here we have Idaho,  
Winning her way to fame;  
Silver and Gold in the sunlight blaze,  
And romance lies in her name;  
Singing, we're singing of you, ah, proudly too;  
All our lives through we'll go singing,  
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,  
The gain of their toil and their tears;  
And ours is the fruit, and the harvest is ours,  
Oh, Idaho, gift of the years.

## **Chorus**

And here we have Idaho,  
Winning her way to fame;  
Silver and Gold in the sunlight blaze,  
And romance lies in her name;  
Singing, we're singing of you, ah, proudly too;  
All our lives through we'll go singing,  
Singing of you, Alma Mater, our Idaho.
