PRESIDENT C. SCOTT GREEN

C. Scott Green took office as the 19th president of the University of Idaho on July 1, 2019. President Green joined U of I as a highly accomplished executive with a career in global finance, operations and administration. He is also a proud alumnus of the university, graduating in 1984 with a Bachelor of Science in accounting.

Born in Moscow, Green's family moved to Boise, where he graduated from Boise High School. Following his degree from the University of Idaho, the third-generation Vandal went to work for Boise Cascade Corporation. He went on to attend Harvard Business School and received a Master of Business Administration in 1989.

Green worked for Deloitte and Touche as part of its accelerated career program from 1989-94. He then worked in banking, serving in various management roles for Goldman Sachs and ING Barings. He published two books on the Sarbanes-Oxley Act of 2002, which reformed regulations around auditing and financial reporting.

Green went on to leadership in global law firms, including service as CEO at Pepper Hamilton and as executive director at WilmerHale. He most recently served as the chief operating and financial officer for Hogan Lovells, one of the largest law firms in the world, with annual revenues of more than \$2 billion. Green led all of the firm's worldwide operations, technology, conflicts and finance functions. He had global responsibility for more than 3,000 employees in more than 30 countries.

The first non-lawyer to run an American Lawyer 100 law firm, Green was recognized as one of the Top 50 Big Law Innovators of the Last 50 Years by The American Lawyer magazine in 2013. A certified public accountant, Green was inducted into the American Institute of Certified Public Accountants' Business and Industry Hall of Fame in 2006. He received the Institute of Internal Auditors Outstanding Contributor Award in 2004 and 2006.

Green's commitment to the University of Idaho over many years has included service on the U of I Alumni Association's national Board of Directors, the College of Business and Economics Advisory Board and on the U of I Foundation Board. He is also a Vandal Scholarship Fund supporter.

Green and his wife, Gabriella, an interior design project manager, have two adult children: Nicholas and Christina.

GUEST SPEAKER

Kathleen Duncan

Kathleen Duncan is a prolific national volunteer and leader, serving on the board of trustees of numerous institutions, including Loyola Marymount University; University of Puget Sound; Santa Clara University; Loyola High School of Los Angeles; California Science Center; Children's Hospital of Los Angeles, and Doheny Eye Institute. She is also on the board of the Thomas and Dorothy Leavey Foundation; a member of Las Madrinas, which supports Children's Hospital Los Angeles; Colleagues Helpers in Philanthropic Service (C.H.I.P.S.); The Colleagues Group, which supports Children's Institute, Inc., and President, Humanitarian Express providing aid to Ukraine. She received her B.A. in psychology from the University of Puget Sound and her teaching credential from Mount St. Mary's University. She previously worked in human resources at Chase Financial Services and taught 3rd and 5th grade math and science. She is also the mother of two Santa Clara graduates and a USC graduate.

UNIVERSITY OF IDAHO ALUMNI ASSOCIATION

ALUMNI ASSOCIATION BOARD OF DIRECTORS

About the University of Idaho Alumni Association, Inc.

The University of Idaho Alumni Association, Inc. (UIAA, Inc.) is a non-dues-paying group, founded in 1898, that supports University of Idaho alumni to connect them with their alma mater and each other. This network of almost 117,000 alumni worldwide is made of University of Idaho graduates and students who have completed 90 credits or more.

The University of Idaho Alumni Association, Inc. is managed by an elected board of directors that governs the UIAA, Inc. and meets formally three times a year. Duties of elected directors include managing corporate affairs, business and assets of the association. Appointed members may also serve on the board with no voting privileges.

UNIVERSITY OF IDAHO FOUNDATION

About the University of Idaho Foundation, Inc.

The University of Idaho was established in 1970 to inspire, manage and distribute private support to enhance the excellence of the University of Idaho. The Foundation is governed by a dedicated volunteer board of directors who share their time, talent and treasure.

The Foundation inspires and receives gifts from generous donors dedicated to supporting and advancing the University of Idaho through philanthropic support. Gifts come in a variety of forms that include cash contributions, marketable securities and real estate, and through planned giving opportunities such as bequests, gift annuities, charitable remainder trusts and others.

Over 1,900 individual endowments have been funded through charitable contributions. The endowed funds are managed in the Consolidated Investment Trust (CIT), the Foundation's pooled endowment fund. The principal is non-expendable; investment earnings support scholarships, faculty development, research, and other programs in accordance with the donors' wishes.

As a unified philanthropic organization, the Foundation has a scope which includes core fiduciary responsibilities of managing investments and assets, maintaining accounting records, fundraising, stewardship, data management, alumni relations and constituent engagement functions.

With \$509 million in assets, the University of Idaho Foundation is the largest public foundation in the state of Idaho.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Mace

Maces date to the Middle Ages and symbolize strength and authority. Each is unique and reflects the values and characteristics of the institution. The university's chief marshal, who leads all academic processions, carries the mace.

The University of Idaho's mace, used for the first time at the centennial commencement, is 32 inches long, made of walnut and encircled with bands of Idaho gold and silver in which Idaho garnets and opals have been inlaid. The head is embellished with silver and gold representations of camas plants and syringa flowers. The chair of the university's Faculty Senate, the marshal of the academic procession, carries the mace in the American tradition, at a 45-degree angle across the chest, while in England, the bearer carries it over the shoulder.

University of Idaho President's Medallions

The first medallion was created by Idaho artists George and Macky Roberts. The President's Medallion was first used in 1965 at the inauguration of Ernest Hartung, the University of Idaho's 12th president.

The medallion's base is a three-and-a-half-inch disc of pure Idaho silver. Mounted on the base is a disc of native jasper; a sterling silver sunburst is inlaid in the disc. Inside the sunburst is a modification of the Chinese character meaning "mountain," which features three upward-pointing prongs. Over the center prong is a gold inlay, thus symbolizing "Light on the Mountain."

The heavy medallion was worn suspended from a collar woven of Idaho wool, some of which is dyed with dahlia flowers to match the jasper and some of which is from a black sheep.

The second President's Medallion, worn during commencement by then-President Timothy P. White, was commissioned in 2004. This medallion's base is a gold-leafed university seal and is worn suspended by a chain with gold leaf charms, each representing the presidents who have served the university.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Apparel

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator — gowns of bachelors' have pointed sleeves; those of masters' have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the university's centennial year and are worn today by officials and university administration.

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study (see colors at right); the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining: the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming: the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are listed below:

Agriculture.....	Maize
Arts, Letters, Humanities.....	White
Commerce, Accountancy, Business.....	Drab
Economics.....	Copper
Education.....	Light Blue
Engineering.....	Orange
Fine Arts, including Architecture.....	Brown
Forestry.....	Russet
Journalism.....	Crimson
Law.....	Purple

UNIVERSITY OF IDAHO BOISE

Premier Graduate, Research and Professional Development

University of Idaho Boise originated in 1910 when an Agricultural extension program was established in Ada County. In 1953, U of I Boise grew with the introduction of teacher education programs, which were expanded in the early 1980s. A cooperative agreement between the university and the Idaho Department of Fish and Game led to the 1963 opening of the Idaho Water Resources Research Institute (IWRRI) with offices in Boise, Moscow and Idaho Falls. Engineering courses were first delivered in Boise in 1988. Agricultural Extension, regional and state personnel, and several university support offices were located in Boise for greater statewide access and service in the early 1990s. In the late 1990s, Idaho WWAMI opened its doors in Boise and all U of I programmatic, advancement, athletics and other efforts in the community were brought together under the umbrella of U of I Boise. In the early 2000s, the College of Art and Architecture began offering courses in Boise, now including the first two years of its bachelor's degree in architecture. At the same time, the College of Law started offering externship opportunities and is now offering its complete Juris Doctor curriculum in Boise.

The College of Law moved into its permanent Boise-based facility at 501 W. Front Street in 2021 just a few blocks west of the main U of I Boise campus located at the corner of Broadway and Front. These facilities serve the greater southwest Idaho community by providing classroom space, housing U of I programs, and by hosting events and meetings for diverse groups of external stakeholders.

Today, students, faculty, researchers and staff work on a variety of topics that include water; natural resources and the environment; education; law; community sustainability and design; family economics; childhood education; pesticide safety and management; food technology, safety and processing; water resources engineering; and public policy.

Excellence at U of I Boise can be measured by the success of the many people we serve across the region and by the quality and achievements of our more than 200 faculty and staff members.

U of I Boise provides southwest Idaho access to all university resources. The center is focused on community impact, regional economic development and supporting university growth.

Strategically located in Boise – the economic and governmental center of Idaho and home to more than 55 percent of the state's population and business entities – U of I Boise supports teaching, learning, research, medical education and outreach. U of I Boise distinguishes itself through:

- Quality programs that accommodate working professionals and full-time students with a focus on professional and workforce development;
- Outreach to southwest Idaho's communities to foster their sustainability, growth and educational access;
- Proactive research for domestic and global solutions;
- Collaborative and interdisciplinary work with the public and private sectors, including other institutions of higher education; and
- Enduring relationships with alumni and friends to carry forward the proud history and traditions of the University of Idaho.

At U of I Boise, we welcome and respect all people. Diversity and inclusion are the core of community, and we embrace them as our guiding principles. As the Boise location of Idaho's oldest public university, we are committed to serving the region, the state, the nation, and the world.

UNIVERSITY OF IDAHO COEUR D'ALENE

The University of Idaho Coeur d'Alene (U of I Coeur d'Alene) engages university expertise to transform education, develop innovative research, and cultivate a knowledge-based economy throughout North Idaho. Students achieve higher education excellence in Coeur d'Alene through in-person and distance degree programs led by faculty from across the state. More than 30 degrees and programs are available to students who wish to attend the University of Idaho from Coeur d'Alene. A variety of professional development offerings bring continuing education opportunities to professionals in both the public and private sector. Each year programs, including 4-H, Master Gardener, and the Idaho Building Capacity project, serve hundreds of community members. The University of Idaho Coeur d'Alene provides opportunities for all people in North Idaho through its degree programs, technology and research centers, outreach, and collaborative philosophy.

Technological innovation is carving a prominent place into the future of North Idaho. U of I Coeur d'Alene elevates this emerging sector with education opportunities in technology. The College of Engineering at the University of Idaho offers computer science education that is critical for satisfying workforce needs, meeting student demand, and growing the economy in North Idaho. Faculty and students in the Vandal Manufacturing Automation Laboratory support local industry by providing curriculum designed to address industry needs. The recent additions of live lab courses in both the B.S. Medical Sciences and B.S. Industrial Technology degrees bring even more educational opportunities to the area. Increased dual credit offerings have broadened educational pathways for students in Region One high schools.

Surrounded by lakes, rivers, and mountains, U of I Coeur d'Alene is uniquely positioned to build programs in connection to its rich natural environment. U of I Coeur d'Alene is now the home of the Idaho Water Resources Research Institute (IWRRI), where conducted research supports the water resource needs of the state of Idaho. IWRRI is charged with supporting faculty across the state as they work toward excellence in water resource science. IWRRI also plays an important role in facilitating, participating in, and developing innovative education and outreach programs that provide research-generated information to water managers, agency research scientists, and the public. Through collaboration on The Confluence Project, IWRRI at the U of I and fellow regional partners give hundreds of high school students hands-on water science experience from the shores of Coeur d'Alene Lake and the slopes of Lookout Pass. IWRRI also provides lake ambassador training through Bay Watchers, leads community conversations with the Our Gem Collaborative, and educates construction workers on stormwater and erosion control (Panhandle Stormwater and Erosion Education Program).

U of I Coeur d'Alene operates several facilities in the North Idaho region. The Harbor Center in Coeur d'Alene houses classrooms, conference rooms, labs, and offices. The Hedlund Building at North Idaho College (NIC) houses the Computer Science program: classrooms, robotics labs, and offices. The DeArmond Higher Education Center at NIC brings state-of-the-art student services and classroom instruction from several higher education institutions under one roof. In Post Falls, the University of Idaho Jacklin Science and Technology Center supports startup companies, U of I research projects, and U of I Extension in Kootenai County.

Through its degree programs, technology and research centers, and collaborative philosophy, University of Idaho Coeur d'Alene provides opportunity and outreach for all people of North Idaho.

UNIVERSITY OF IDAHO, IDAHO FALLS

Celebrating Nearly 70 Years in Eastern Idaho

In Idaho Falls, our core mission is engineering, science, technology and related disciplines. Our campus at University Place features high-tech classrooms, advanced cybersecurity and engineering laboratories and excellence in the curriculum offered. The faculty are leaders in their respective fields and actively engaged in far reaching, impactful research. University of Idaho is the founding collaborator at the Center for Advanced Energy Studies, a research, education and innovation partnership between the three Idaho public universities and the Idaho National Laboratory, the Department of Energy's lead nuclear research laboratory.

University of Idaho has offered degree programs in Idaho Falls for nearly 70 years. Since our first graduating class in 1955, over 2,000 students have earned degrees in science, engineering, technology, mathematics, psychology, environmental science, education and other related disciplines. Many more have completed academic certificates and courses for professional and personal development.

Students, faculty and staff at the Idaho Falls Center are part of the community that extends throughout the entire state of Idaho. University of Idaho has Cooperative Extension offices in 42 counties and centers in Idaho Falls, Boise, Twin Falls and Coeur d'Alene and the main campus in Moscow. Students can take courses offered by faculty at multiple locations and interact with students from other fields of study in places all over the region and country.

University of Idaho, Idaho Falls faculty and staff wish to extend congratulations to the graduating class of 2024-25 for their achievements.

“HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.
