93<sup>rd</sup> Commencement

## HERE WE HAVE IDAHO

1 *Alma Mater, the hope of a pioneer race;  
You're fashioned of dreams and of toil,  
Your walls and your towers by stout-hearted men  
Were raised from the rock and the soil.*

**Chorus:**

*And here we have Idaho  
Winning her way to fame  
Silver and Gold in the sunlight blaze,  
And romance lies in her name;  
Singing, we're singing of you, ah, proudly too;  
All our lives through we'll go singing,  
singing of you, Alma Mater, our Idaho.*

2 *Now ours is the heritage, rich and so full,  
The gain of their toil and their tears;  
And ours is the fruit, and the harvest is ours,  
Oh, Idaho, gift of the years.*

**Chorus:**

*And here we have Idaho  
Winning her way to fame  
Silver and Gold in the sunlight blaze,  
And romance lies in her name;  
Singing, we're singing of you, ah, proudly too;  
All our lives through we'll go singing,  
singing of you, Alma Mater, our Idaho.*

### SIGNIFICANCE OF ACADEMIC APPAREL

By noting certain features of a person's apparel, it is possible to learn several things about his or her academic status: the level of the degree attained, the branch of learning in which it was earned, and the institution.

The GOWNS differ according to the level of the degree. The sleeves are the principal indicators — gowns of doctors have round, bell-shaped sleeves; those of masters have long closed sleeves that now open at the wrist; and bachelors have long, pointed sleeves. Doctoral gowns have distinctive velvet facing around the collar and down the front and three velvet bars on each sleeve.

The size of the HOOD also varies according to the degree. Hoods of bachelors are only three feet long (they are rarely seen today and not worn at Idaho). A master's hood is three and one-half feet long, and a doctor's is four feet in length and has side panels. It is from the colors adorning the hood that one can learn two other facts: the hood is lined with the official colors of the college or university conferring the degree (silver and gold, of course, signifying the University of Idaho) and it is trimmed with velvet of a color denoting the wearer's branch of learning. Following are the colors that correspond to the advanced degrees granted by the University of Idaho:

Doctor of Philosophy .....Dark Blue  
 Doctor of Education, Specialist in  
 Education, and Master of Education.....Light Blue  
 Juris Doctor .....Purple  
 Doctor of Veterinary Medicine (conferred  
 through Washington State University) .....Gray  
 Master of Arts and  
 Master of Arts in Teaching .....White

Master of Science and  
 Master of Natural Science .....Golden Yellow  
 Master of Architecture .....Violet  
 Master of Business Administration .....Drab  
 Master of Engineering .....Orange  
 Master of Fine Arts .....Brown  
 Master of Forestry .....Russet  
 Master of Music .....Pink  
 Master of Public Administration .....Peacock Blue

Colors for disciplines not cited above are:

Agriculture .....Maize  
 Dentistry .....Lilac  
 Economics .....Copper  
 Home Economics .....Maroon  
 Journalism .....Crimson  
 Library Science .....Lemon  
 Medicine .....Green  
 Nursing .....Apricot  
 Pharmacy .....Olive Green  
 Physical Education .....Sage Green  
 Public Health .....Salmon Pink  
 Social Work .....Citron  
 Speech .....Silver Gray  
 Theology .....Scarlet

HONOR CORDS, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: bronze cords designate graduation *cum laude* (with distinction); silver, *magna cum laude* (with great distinction); and gold, *summa cum laude* (with highest distinction). The cords are provided by the Honor Society of Phi Kappa Phi and are worn on this one occasion only.

# Citations on Retirement

## **Richard J. Beck, Associate Dean Emeritus of Library Services with rank of Professor**

Nearly 31 years after he began service with the University Library, Richard "Dick" Beck is retiring. He came to UI as science librarian September 1, 1957, two months before the dedication of the present Library Building. He helped move its 330,000 volumes from the Administration Building and has watched the collection grow to more than 1.5 million. Before coming to UI, he served with libraries at Iowa State University, the University of Minnesota, and the University of Detroit. At UI, he has served as assistant and associate librarian, as acting librarian, as associate director of libraries, and as associate dean of libraries. Professor Beck was instrumental in establishing classification of and a pay plan for library clerical staff members in 1966. He also helped establish faculty-at-large representation on the Faculty Council, and the Idaho Council of State Academic Librarians in 1968. During his years at the UI Library, he has seen the catalogs of holdings converted from three-by-five-inch cards to microfiche files, and now to computer records which will soon be on line. The book collection has been reclassified from the Dewey Decimal System to Library of Congress classification, the number of staff members has increased from 25 to 60, and weekly library hours have gone from 76 to 109. Among his honors are selection as librarian of the year by the Idaho Library Association in 1972-73, president of the Idaho Library Association in 1968-69, and knight of the year for 1981 by the Moscow Knights of Columbus.

## **Guy W. Bishop, Professor Emeritus of Entomology**

A pioneer in integrated pest management for potato and cereal insect pests in Idaho has retired after 30 years with the university. Guy W. Bishop began his UI career in February 1957 at the Research and Extension Center in Aberdeen. He moved to the main campus in Moscow in 1965, and was involved in teaching and research here until 1977, when he moved to the Research and Extension Center in Parma. One of his research emphasis areas was potato leafroll disease. After determining that it was spread by the green peach aphid, he instituted a program of control that emphasized the insect's host plants, peach trees and garden transplants. Before coming to UI, he was a research assistant at Oregon State and Washington State Universities. In addition to his duties in teaching and research, he served twice as acting head of the Department of Entomology. He has been major professor for many M.S. and Ph.D. students. He has also served on a number of regional committees studying the importance of various agricultural pests and as a member of the Faculty Council. Professor Bishop is a member of the American Potato Association, the Entomological Society of America, the Idaho Entomology Group, the International Organization for Biological Control, and the Washington Entomological Society.

## **G. Ellis Burcaw, Professor Emeritus of Anthropology**

With 22 years at the university, Ellis Burcaw is retiring. He was a director of the UI Museum and chairman of Museum Studies until 1983, when he became adjunct research professor of anthropology

with the UI Laboratory of Anthropology. Among his teaching and research interests are museum administration, and study of ethnology and peasant societies. Professor Burcaw is author of *Introduction to Museum Work*, originally written for his students at UI and now used throughout the world. He has been active on numerous committees, including the Borah Foundation Committee, the Officer Education Committee, and the Religious Studies Committee. He is a member of the American Association of Museums, American Association for State and Local History, Idaho Historic Sites Review Board, and the Museology Committee of the International Council of Museums, as well as several other associations, societies, and commissions. Burcaw has been a guest of the Belgian government at an international meeting on museum training, where he presented details of the Idaho Museum Studies Program. He is also the first American museologist to be an official guest of the East German government for lectures and consultations, and has had two articles accepted by *Neue Museumskunde*, the East German museums journal. He has been an invited teacher in Australia, India, and Czechoslovakia.

## **Zaye Chapin, Professor Emerita of Sociology**

After 20 years teaching and doing research at the University of Idaho, Zaye Chapin is retiring. She was the only social work educator at UI during her career here and was responsible for all advising and coordination of field experience for social work students. Her classes prepared many students to take and pass the Idaho examination for licensed social worker status. Chapin is proud of her professionally successful students and has maintained contact with many of them.
