“HERE WE HAVE IDAHO”

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

PRESIDENT CHUCK STABEN

Chuck Staben took office as the 18th president of the University of Idaho on March 1, 2014.

During President Staben's first two years at the University of Idaho, he has led new statewide enrollment initiatives to meet Idaho's needs while maintaining excellence in graduate and professional education, research and outreach. The university completed a new Strategic Plan through 2025. In 2015, the university closed its successful capital campaign, and raised \$261 million dollars, the largest fundraising campaign in Idaho history. Staben believes that public research universities keep our nation strong, and that UI plays a unique role in making Idaho a better place to live, with a more educated, engaged and prosperous citizenry.

Prior to his service at Idaho, Staben served as the provost of the University of South Dakota from 2008-14. From 2005-08, he served as the associate vice president for research at the University of Kentucky, and acted as vice president from 2006-07. Prior to that appointment, he was a professor of biology from 1989-2008 and served as the chair of the biology department from 2000-04. Previously, he was a postdoctoral researcher at Stanford University from 1987-89 and at Chiron Research Laboratories from 1985-86. He was also a graduate research and teaching assistant at the University of California, Berkeley from 1978-84.

Staben's research focused on fungal developmental biology, bioinformatics and fungal genomics. He received grants from the National Science Foundation, the National Institutes of Health and other agencies. He has served on NSF and NIH grant review panels and recently served on a National Research Council committee that reviewed the Experimental Program to Stimulate Competitive Research and the Institutional Development Award programs for the U.S. Senate. Staben taught microbiology, genetics, bioinformatics and introductory biology and

he received numerous awards for teaching. Staben received a bachelor's degree from the University of Illinois, Champaign-Urbana in 1978 and a doctoral degree in biochemistry from the University of California, Berkeley in 1984. He is originally from Waukegan, Illinois.

Staben and his wife, Dr. Mary Beth Staben, have three children: Mac, Cal and Rae. Mac and Cal both began medical school in fall 2014. Rae graduated in 2016 from Stanford University with a degree in economics. Mary Beth is a practicing physician of internal medicine.

Larry Stauffer, Ph.D., Dean, College of Engineering

Larry Stauffer is dean of the College of Engineering and has served in this capacity since 2011. The College of Engineering is comprised of six departments that offer nine accredited undergraduate degree programs and 12 graduate degree programs at the master's and doctorate levels. The college enrolls nearly 1,800 students who are supported by 90 faculty and 60 staff primarily in Moscow, with programs in Boise, Coeur d'Alene and Idaho Falls.

Stauffer joined the University of Idaho in 1987 as a faculty member in the Department of Mechanical Engineering. In 1995, he transferred to the UI Boise Center and later became director of the College of Engineering programs in Boise. He also became the UI director of TechHelp, Idaho's manufacturing extension organization. In 2005, he also became director of the Engineering Management master's degree program. In 2009, after 15 years at UI Boise, Stauffer was appointed senior associate dean of the College of Engineering and returned to the Moscow campus.

In addition to his academic career, Stauffer worked as a design engineer with Westinghouse Electric Corp. at the Idaho National Laboratory, designed manufacturing processes at Hewlett Packard Corp., and provided technical assistance to dozens of manufacturing firms in Idaho.

He earned a bachelor's degree in mechanical engineering in 1978 and an master's degree in agricultural engineering in 1979 from Virginia Polytechnic Institute and State University. He earned his doctoral degree in mechanical engineering from Oregon State University in 1987. He has been a registered professional engineer in Idaho since 1991.

Originally from Virginia, Stauffer has resided in Idaho for 35 years. When not working, he loves to spend time in the Idaho outdoors with his wife and three sons. Depending on the season he enjoys skiing the powder on Brundage Mountain or running the rapids of the Salmon River.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Mace

Maces date to the Middle Ages and symbolize strength and authority. Each is unique and reflects the values and characteristics of the institution. The University's chief marshal, who leads all academic processions, carries the mace.

The University of Idaho's mace, used for the first time at the centennial commencement, is 32 inches long, made of walnut and encircled with bands of Idaho gold and silver in which Idaho garnets and opals have been inlaid. The head is embellished with silver and gold representations of camas plants and syringa flowers. The chair of the University's Faculty Senate, the marshal of the academic procession, carries the mace in the American tradition, at a 45-degree angle across the chest, while in England, the bearer carries it over the shoulder.

University of Idaho President's Medallions

The first medallion was created by Idaho artists George and Macky Roberts. The President's Medallion was first used in 1965 at the inauguration of Ernest Hartung, the University of Idaho's 12th president.

The medallion's base is a three-and-a-half-inch disc of pure Idaho silver. Mounted on the base is a disc of native jasper; a sterling silver sunburst is inlaid in the disc. Inside the sunburst is a modification of the Chinese character meaning "mountain," which features three upward-pointing prongs. Over the center prong is a gold inlay, thus symbolizing "Light on the Mountain."

The heavy medallion is worn suspended from a collar woven of Idaho wool, some of which is dyed with dahlia flowers to match the jasper and some of which is from a black sheep.

The second President's Medallion, worn during commencement by then-President Timothy P. White, was commissioned in 2004. This medallion's base is a gold-leafed University seal and is worn suspended by a chain with gold leaf charms, each representing the Presidents who have served the University.

The University's second, and current, President's Medallion.

The first President's Medallion created in 1965.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Apparel

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator—gowns of bachelor's have pointed sleeves; those of master's have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the University's centennial year and are worn today by officials and university administration.

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study (see colors at right); the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining: the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming: the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are listed below:

Agriculture.....	Maize
Arts, Letters, Humanities.....	White
Commerce, Accountancy, Business.....	Drab
Economics.....	Copper
Education.....	Light Blue
Engineering.....	Orange
Fine Arts, including Architecture.....	Brown
Forestry.....	Russet
Journalism.....	Crimson
Law.....	Purple
Music.....	Pink
Philosophy.....	Dark Blue
Physical Education.....	Sage Green
Public Administration.....	Peacock Blue
Science.....	Golden Yellow
