Mr. David Lewis,  
Clover, Idaho, via Warrens.

Dear Uncle Dave:

Herewith copies of letters from Governor Baldrige and District Forester Rutledge in regard to your final proof. I think this will fix it up for you so that patent will be issued.

I am sending your watch, garden seeds and medicine in three separate packages and hope they will arrive before spring.

I saw Hale Patterson, the hardware man at Cascade, and he promised to send you a list of the things you purchased at his store and to trace the packages up and see why you had not received them.

I am also enclosing herewith pictures appearing in the "Statesman" this morning of our hunting party. Everybody had a good time and were well pleased with their trip in spite of the fact that they didn't get any sheep. As usual, my party was too big for a successful hunt, but the trip is the main thing anyway.

Let me know if there is anything I can do for you at any time. With best wishes for your good health and good luck, I am

Sincerely

Harry S. Shellworth
