Mr. David Lewis
Clover, Idaho

Dear Mr. Lewis:

It has become necessary for the Inter-mountain State Bank to suspend operation for a period of thirty days in order to affect a re-organization and avoid going into a receivership. A depositors' committee is now formulating plans whereby the bank can be opened at the end of said period on a sound financial basis but such plans cannot be carried out unless we receive the cooperation of each and every depositor.

We are enclosing herewith a waiver in regard to your deposit and request you to sign the same and return it at your earliest convenience. This waiver will take affect only in case the bank re-opens. If the depositors will not sign these waivers it will be absolutely impossible to re-open and it will go into the hands of a receiver.

Thanking you for your kind co-operation, we remain,

Sincerely yours,

Depositors' Committee
