

To Dean Ernest Wohletz, College of Forestry  
From J. W. Watts, Business Manager  
Subject Taylor Ranch

UNIVERSITY OF IDAHO  
Inter-Office Memorandum

Date 28 February 1969

---

This is to advise you that the University has purchased the Taylor Ranch and final payment therefore has been made. I transmit herewith a photocopy of the deed for your information and file.

It is my understanding that the immediate responsibility for developing the program for the use of this property will be assigned to the College of Forestry, Wild Life and Range Sciences, although, as you know, several other departments of the University have indicated an interest in using this site as a base for research programs. It is therefore suggested that you proceed to develop a specific plan of operation and control in order that all concerned may have on file written policies and procedures to be followed in the operation of the Wilderness Ecology Research Center.
