MEMORANDUM

TO: Dave Mc Kinney

RE: Land Exchange Proposal--U. S. Forest Service

The university is proposing to exchange 40 acres of forest land located in Bonner County, which is remote from other university land holdings and is not presently used by the university. This 40 acres was gifted to the university in 1979 by Mr. James M. Spence.

Although legally, according to the "Deed of Gift", the university has no restrictions on disposing of or the use of this land, Bob Steele and I felt that out of courtesy we should advise Mr. Spence on the proposed land exchange.

Attached is a draft copy of a letter to Mr. Spence for your consideration. Bob Steele and Dick Bottger have reviewed the draft and concur.

Thank you.

A handwritten signature in cursive script, appearing to read "Don".
