Dear, John:

Enclosed are brief reports and descriptions of two (2) parcels of land in Bonner County, Idaho, owned by the University of Idaho. As John Ehrenreich indicated during our recent meeting at the U of I, we desire these parcels to be included in the U.S. Forest Service appraisal as a part of the proposed land exchange.

As both of these parcels do border U.S. Forest Service property the acquisition of them would not create unmanageable "white elephants" for the Forest Service.

If we may be of further assistance in any manner to aid in appraisals or evaluations, please let us know. The meeting of Friday, 23 March, was most informative and very productive. It certainly helped to put perspectives of both the Forest Service and the University into a more understandable atmosphere.

Respectfully,

Allan E. Strong
