

CATARRH A GERM DISEASE

Success of Hyomei Guaranteed By
Smith & Leisenring.

Catarrh is an insidious disease of most destructive tendency. Its approaches are unalarming and its victims are well on the road to a chronic stage or to dread consumption before they realize their danger.

It is not a blood disease, but is caused by germs that lodge and grow in the air passages, causing irritation with poisonous and offensive mucous discharges. To cure this condition, stomach dosing is ineffective and the only healing agent is Hyomei. It goes directly to every nook and corner of the air passages, disinfecting, healing and curing. To be convinced of this, you have only to give Hyomei a trial, and Smith & Leisenring will sell you an outfit with the understanding that if the trial is not satisfactory, and the treatment does not relieve, your money will be refunded.

You cannot afford to trifle with catarrhal troubles, for if neglected they grow worse and the annoyance and danger rapidly increases. It is best to use Hyomei at the first symptoms of catarrh, such as stoppage of the nose, offensive breath, raising of mucous, droppings in the throat, spasmodic coughing. The sooner you use Hyomei, the sooner you will be freed from all these troubles.
