January 2, 1970

Dear Friends,

When fine people do something specially nice for the world we think somebody ought to say "thank you". We've told some of our friends about the vital part you have had in Maurice's work and we all thought it was time to find some way to tell you how much we appreciate what you have done.

Our conversation with Mr Taylor last summer gave us an idea, and the enclosed letter is the result. We hope you won't think us presumptuous, but it seemed right for the Taylors to have some recognition. It also seemed important to preserve some of the history Mr. Taylor knows so well.

We hope you and the Regents will agree with our little plan and that the "Jess Taylor Collection" will become a reality. In any case we wanted you to know how much we have grown to respect you both - even on our short visits.

Come see us when you can.

With warmest regards

Bob Loveland
