University of Idaho

1993 General Catalog Edition

A university is . . . an *alma mater*,
knowing her children one by one,
not a foundry, or a mint, or a treadmill.
—John Henry Newman

The task of a university is the creation
of the future, so far as rational thought
and civilized modes of appreciation
can affect the issue.
—Alfred North Whitehead

For sources of additional information,
turn to the inside back cover.

The University of Idaho has a policy of nondiscrimination on the basis of race, color, national origin, religion, sex, age, disability, or status as a Vietnam-era veteran. This policy applies to all programs, services, and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment. Such discrimination is prohibited by titles VI and VII of the Civil Rights Act of 1964, title IX of the Educational Amendments of 1972, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans' Readjustment Assistance Act of 1974, the Age Discrimination Act of 1975, the Age Discrimination in Employment Act Amendments of 1978, the Americans with Disabilities Act of 1990, the Civil Rights Act of 1991, and other state and federal laws and regulations. Questions and concerns about the application of these laws and regulations may be directed to the affirmative action officer, Human Resources and Purchasing Bldg. (885-6591), to the director, Seattle Regional Office, Office for Civil Rights, U.S. Department of Education, or to the director, Office of Federal Contract Compliance Programs, U.S. Department of Labor.

Academic Calendar for 1993-94

Dates in this calendar are subject to change without notice; dates appearing in admission and registration instructions take precedence over those listed below.

FALL SEMESTER 1993

Application closing dates for new and former students—see "Admission to the University" in the catalog	
Last day of preregistration advising and official opening date of fall semester	Thursday, Aug. 19
Classes begin (7:30 a.m.)	Monday, Aug. 23
Labor Day, a holiday	Monday, Sept. 6
Last day to register without paying late-registration fee	Tuesday, Sept. 7
Last day to add course, change section, or change from audit to regular credit without special permission	Tuesday, Sept. 7
Last day to change from pass-fail to regular-grade basis	Tuesday, Sept. 7
Last day to avoid paying drop-add fee	Tuesday, Sept. 7
Last day to turn in "Partial Enrollment" and "Senior in 500s Course" forms to the Graduate Office	Tuesday, Sept. 7
Last day to file applications for baccalaureate degrees to be awarded in December	Tuesday, Sept. 7
Last day to file applications for advanced degrees to be awarded in December	Monday, Sept. 13
Last day to withdraw from a course without having grade of W recorded—in the case of accelerated or short courses, when no more than 12.5 percent of the class-meeting hours have been completed	Monday, Sept. 20
Last day to reduce number of credits for which registered in a course or change from regular-grade to pass-fail basis	Monday, Sept. 20
Last day to change from regular credit to audit without having grade of W recorded	Monday, Sept. 20
Last day to register by paying late-registration fee but without petition	Monday, Sept. 20
Freshman early warning grade reports due	Wednesday, Sept. 22
Last day to remove or extend incompletes	Monday, Oct. 4
Classes WILL MEET this date, even though Columbus Day is a holiday	Monday, Oct. 11
Last day for midsemester examinations	Friday, Oct. 15
Midsemester grade reports due (1:30 p.m.)	Monday, Oct. 18
Registration for Writing Proficiency Test (Brink Hall 200)	Tuesday-Wednesday, Oct. 19-20
Writing Proficiency Test for transfer students (7 p.m.)	Thursday, Oct. 21
Last day to withdraw from a course or from the university—in the case of accelerated or short courses, after 12.5 percent but less than 60 percent of the class-meeting hours have been completed	Friday, Oct. 29
Last day to change from regular credit to audit	Friday, Oct. 29
Preregistration advising begins	Monday, Nov. 8
Classes WILL MEET this date, even though Veterans' Day is a holiday	Thursday, Nov. 11
Fall recess begins (5:30 p.m.)	Friday, Nov. 19
Fall recess ends (7:30 a.m.)	Monday, Nov. 29
Preregistration for spring-semester courses begins	Monday, Nov. 29
Field-trip completion deadline (7:30 a.m.)	Monday, Dec. 6
No-examination week	Monday-Friday, Dec. 6-10
Last day to report grades for challenged courses	Friday, Dec. 10
Final examinations	Monday-Friday, Dec. 13-17
Last day to file theses, dissertations, abstracts, and results of comprehensive examinations for graduate degrees to be awarded in December	Friday, Dec. 17
Close of fall semester (5:30 p.m.)	Friday, Dec. 17
Semester grade reports due (5 p.m.)	Monday, Dec. 20

SPRING SEMESTER 1994

Application closing dates for new and former students—see "Admission to the University" in the catalog	
Last day of preregistration advising and official opening date of spring semester	Thursday, Jan. 6
Classes begin (7:30 a.m.)	Monday, Jan. 10
Martin Luther King-Idaho Human Rights Day, a holiday	Monday, Jan. 17
Last day to register without paying late-registration fee	Monday, Jan. 24
Last day to add course, change section, or change from audit to regular credit without special permission	Monday, Jan. 24
Last day to change from pass-fail to regular-grade basis	Monday, Jan. 24
Last day to avoid paying drop-add fee	Monday, Jan. 24
Last day to turn in "Partial Enrollment" and "Senior in 500s Course" forms to the Graduate Office	Monday, Jan. 24
Last day to file applications for baccalaureate degrees to be awarded in May	Monday, Jan. 24
Last day to file applications for advanced degrees to be awarded in May	Monday, Jan. 31
Last day to withdraw from a course without having grade of W recorded—in the case of accelerated or short courses, when no more than 12.5 percent of the class-meeting hours have been completed	Monday, Feb. 7
Last day to reduce number of credits for which registered in a course or change from regular-grade to pass-fail basis	Monday, Feb. 7
Last day to change from regular credit to audit without having grade of W recorded	Monday, Feb. 7
Last day to register by paying late-registration fee but without petition	Monday, Feb. 7
Freshman early warning grade reports due	Wednesday, Feb. 9
Presidents' Day, a holiday	Monday, Feb. 21
Last day to remove or extend incompletes	Tuesday, Feb. 22
Last day for midsemester examinations	Friday, March 11
Spring recess begins (5:30 p.m.)	Friday, March 11
Midsemester grade reports due (1:30 p.m.)	Monday, March 14
Spring recess ends (7:30 a.m.)	Monday, March 21

Last day to withdraw from a course or from the university—in the case of accelerated or short courses, after 12.5 percent but less than 60 percent of the class-meeting hours have been completed	Friday, March 25
Last day to change from regular credit to audit	Friday, March 25
Registration for Writing Proficiency Test (Brink Hall 200)	Tuesday-Wednesday, March 29-30
Writing Proficiency Test for transfer students (7 p.m.)	Thursday, March 31
Preregistration advising begins	Monday, April 4
Preregistration for fall-semester courses begins	Monday, April 18
Field-trip completion deadline (7:30 a.m.)	Monday, May 2
No-examination week	Monday-Friday, May 2-6
Last day to report grades for challenged courses	Friday, May 6
Final examinations	Monday-Friday, May 9-13
Last day to file theses, dissertations, abstracts, and results of comprehensive examinations for graduate degrees to be awarded in May	Friday, May 13
Close of spring semester (5:30 p.m.)	Friday, May 13
Commencement Day	Saturday, May 14
Semester grade reports due (5 p.m.)	Monday, May 16

Regents and Administration
(December 1992)

The Regents of the University of Idaho

BOARD MEMBERS

- M. Karl Shurtliff, *President*, Boise (1995*)
- Keith S. Hinckley, *Vice President*, Blackfoot (1995*)
- Roy E. Mosman, *Secretary*, Moscow (1996*)
- Diane Bilyeu, *Pocatello* (1994*)
- Roberta L. Fields, *New Meadows* (1994*)
- Colleen Mahoney, *Lewiston* (1993*)
- Joseph L. Parkinson, *Boise* (1997*)
- Jerry L. Evans, *State Superintendent of Public Instruction*, Boise (ex officio)

OFFICE OF THE STATE BOARD OF EDUCATION

Rayburn Barton, *Ph.D., Executive Director*, Boise

University Administration

- Elisabeth A. Zinser, *Ph.D., President*
- Thomas O. Bell, *Ed.D., Provost*
- Jerry N. Wallace, *M.B.A., Financial Vice President*
- Harry L. Peterson, *Ph.D., Vice President for University Relations and Development*
- W. Harold Godwin, *Ph.D., Vice President for Student Affairs*
- Jean'ne M. Shreeve, *Ph.D., Vice Provost for Research and Graduate Studies*
- George M. Simmons, *Ph.D., Vice Provost for Teaching and Undergraduate Studies*
- Ronald W. Force, *M.S., Dean of Library Services*
- Matt E. Telin, *M.Ed., Registrar*
- Peter T. Brown, *M.A.T., Director of Admissions*

Major Academic Divisions

COLLEGE OF GRADUATE STUDIES

Jean'ne M. Shreeve, *Ph.D., Vice Provost for Research and Graduate Studies*

COLLEGE OF LAW

Sheldon A. Vincenti, *J.D., Dean*

UNDERGRADUATE COLLEGES**

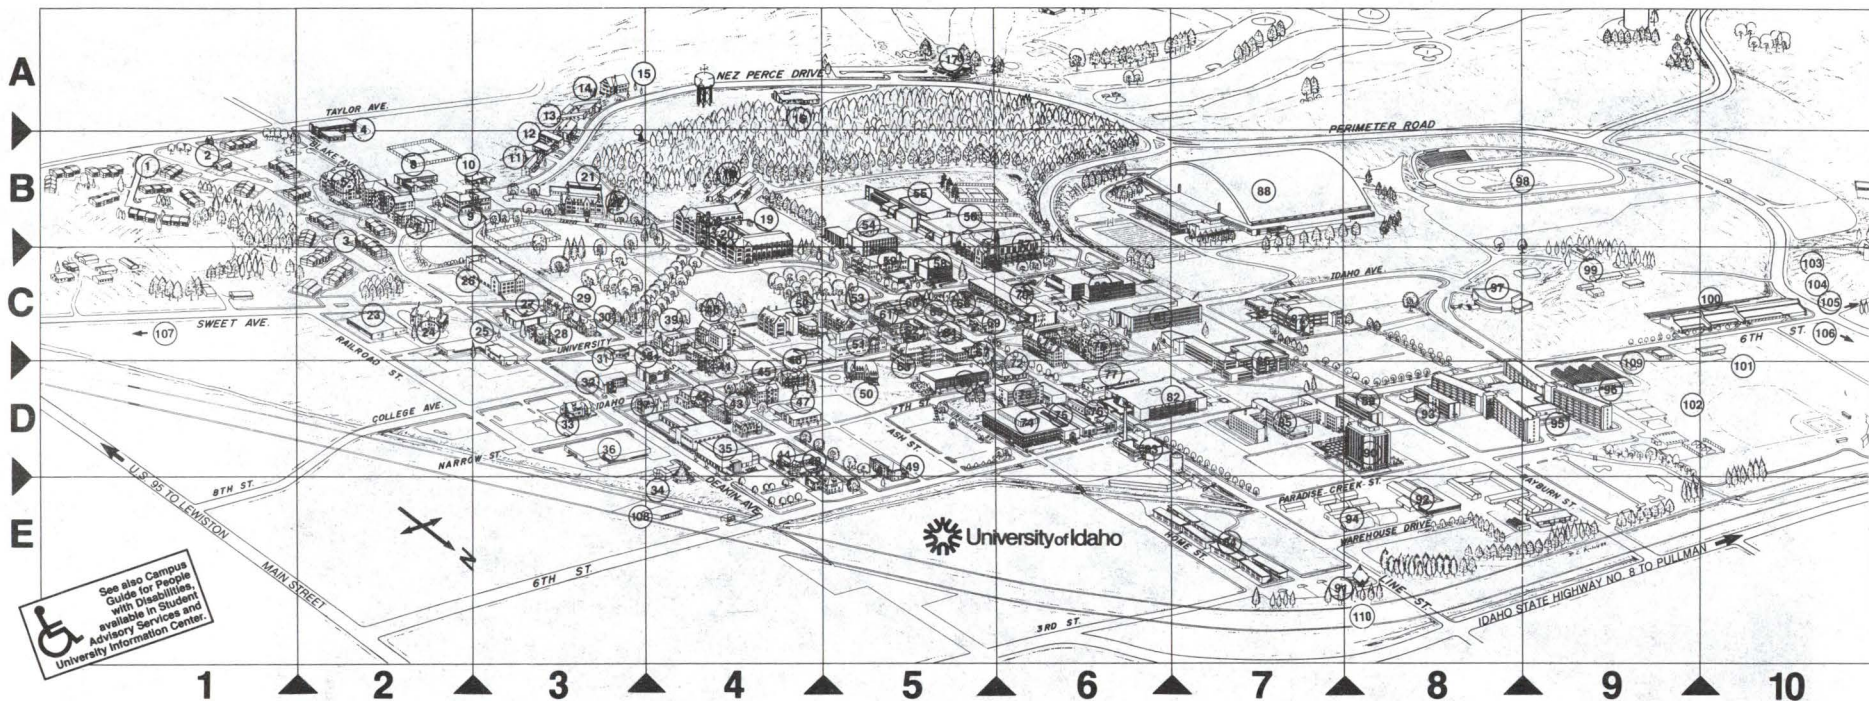

- Letters and Science—Kurt O. Olsson, *Ph.D., Dean*
- Agriculture—A. Larry Branen, *Ph.D., Dean*
- Engineering—Richard T. Jacobsen, *Ph.D., Dean*
- Mines and Earth Resources—Robert W. Bartlett, *Ph.D., Dean*
- Forestry, Wildlife and Range Sciences—John C. Hendee, *Ph.D., Dean*
- Education—N. Dale Gentry, *Ph.D., Dean*
- Business and Economics—Byron J. Dangerfield, *Ph.D., Dean*
- Art and Architecture—Paul G. Windley, *D.Arch., Dean*

*Date current appointment expires.
**Listed in the order of their founding.

The University

The University of Idaho was created in 1889 by a statute of the 15th territorial legislature. Commonly known as the university charter, that act became part of the state constitution when Idaho was admitted to the Union in 1890.

The university is a publicly supported comprehensive land-grant institution with principal responsibility in Idaho for performing research and granting the Doctor of Philosophy degree. The liberal arts and sciences, offered through the College of Letters and Science, are the heart of the university's educational programs. The primary areas of statewide responsibility of the university are agriculture, architecture, engineering, forestry and wildlife, mining and metallurgy (including international programs in those areas), foreign languages, and law.

Additional university responsibilities include programs in business, economics, and education as well as the regional medical and veterinary medical education programs in which the state participates.

To assist with its statewide mission, the university maintains resident instructional centers in Coeur d'Alene, Boise, and Idaho Falls, extension offices in 42 of Idaho's 44 counties, research and extension centers in Sandpoint, Moscow, Parma, Caldwell, Kimberly, Aberdeen, Teton, and Dubois, and field stations at McCall, Clark Fork, Point Springs, and the Taylor Ranch in central Idaho. Through its international programs, the university extends its services to many other countries.

Over 10,000 students from all states and 78 foreign countries choose programs from a vast array of disciplines. Strong undergraduate programs are coupled with nationally recognized research and scholarly achievements. There are more than 750 faculty members in teaching and research, and 1,500 staff and professional personnel.

The University Library and the Law Library contain over 2 million items of books, bound periodicals, microforms, and U.S. government publications. These resources, together with the libraries at Washington State University (eight miles to the west), equal those of major metropolitan areas.

The Moscow campus and adjacent farms cover nearly 800 acres. Other university lands, including the nearby university farms and experimental forests, exceed 10,000 acres.

The university is proud of its friendly campus atmosphere and sense of community. For example, the tradition of "Hello Walk" leading to the Administration Building dates from the 1920s, when the university president greeted students and members of the faculty and staff with a warm hello and friendly smile on his way to work. The university has granted more than 65,761 degrees since its founding, including 1,786 to the class of 1992.

The feeling of camaraderie that pervades the campus extends to Moscow, the university's "hometown." It is a thriving community of 20,000 friendly people located in the northern part of the state about 90 miles southeast of Spokane, Washington.

Moscow is the gateway to a natural wonderland. The surrounding Palouse hills and the mountains and lakes of northern Idaho provide a scenic background for university facilities. Skiing, boating, and other outdoor recreation resources are available within easy driving distance. They include the Sawtooth and Hells Canyon national recreation areas, Frank Church River of No Return Wilderness, and scenic rivers such as the Snake, Clearwater, Salmon, Lochsa, and Selway.

The university is a member of the National Association of State Universities and Land-Grant Colleges and is accredited by the Northwest Association of Schools and Colleges. Additional approval or accreditation for specific programs has been granted by the following organizations: American Bar Association, American Chemical Society, American Dietetics Association, Association of American Law Schools, Accreditation Board for Engineering and Technology, National Architectural Accrediting Board, American Society of Landscape Architects, National Association of Schools of

Music, National Council for Accreditation of Teacher Education, Society of American Foresters, National Association of School Psychologists, the Council for the Accreditation of Counseling and Related Educational Programs, and the National Recreation and Park Association Council on Accreditation.

General Honorary Societies

The university has long possessed nationally recognized marks of excellence, including chapters of national honorary and scholarship societies in practically every specialized field and chapters of the following general honorary societies: Phi Beta Kappa (since 1926), Phi Kappa Phi (since 1960), and Sigma Xi (since 1922).

Phi Beta Kappa. To qualify for nomination to Phi Beta Kappa, a candidate must have achieved a cumulative grade-point average of at least 3.33 and have fulfilled the following distribution requirements: humanities (7 semester credits); laboratory sciences and/or mathematics (11 semester credits); social sciences (7 semester credits); foreign language (completion of a single foreign language through the intermediate level, or the equivalent—16 semester credits or 4 high-school units in a single foreign language).

Phi Kappa Phi. To qualify for nomination by the local chapter of Phi Kappa Phi, a candidate must be (1) registered at UI for at least one year and (2) enrolled in the final period of his or her junior year and rank scholastically in the upper 5 percent of the class or a senior enrolled in a course of study leading to a baccalaureate degree and rank scholastically in the upper 10 percent of his or her class.

Sigma Xi. To qualify for nomination to associate membership in Sigma Xi, a student must have shown marked aptitude for research in some field of pure or applied science. An associate member must have shown noteworthy achievement as an original investigator in some field of pure or applied science to qualify for nomination to full membership.

Libraries

The University Library and the Law Library hold over 2 million items. The libraries receive 12,750 serial titles, and add over 100,000 items annually. There are subscriptions to over 200 newspapers, including all Idaho newspapers and representative papers from around the U.S. The library is a regional depository for U.S. and Idaho state government documents, U.S. patents, and the Defense Mapping Agency, and is a designated Earth Science Information Center.

The library's collections emphasize the land-grant traditions of the basic sciences, agriculture, forestry, and mining and geology, while maintaining supporting collections in the humanities and social sciences.

The library building is currently undergoing a \$12.4 million addition and renovation, to be completed in September 1993. This will increase storage, study, and research space, and result in essentially a new library facility.

The library is air-conditioned, and open 109 hours per week during the regular school term.

The Library and the Law Library operate an automated public access library system connected to the CARL network. The system offers library catalogs of the more than 200 CARL members, including the academic libraries of Colorado, Wyoming, and Hawaii. Also on the system is a table-of-contents file for over 12,000 academic journal titles and periodical indexes for a number of different subjects. The system may be accessed from terminals in the library, from computers attached to the campus network, or by modem from personal computers. In addition to CARL system databases, the library subscribes to a large number of periodical indexes on CDROM, and offers mediated bibliographic searches of online services on a cost-recovery basis.

There is a reciprocal use agreement between the UI and Washington State University Libraries, located in Pullman, eight miles away. A daily shuttle service runs between the two libraries to pick up and return books and photocopies of articles.

The library operates a staffed photocopy service, which will make photocopies from library materials, as well as enlargements, reductions and copies on special paper. Self service machines located conveniently throughout the building accept coins, debit cards, or charges to university budgets.

Galleries

The galleries serve the university, community, state, and region and are the principal facilities emphasizing the visual arts in northern Idaho. The University Gallery occupies the main floor of Ridenbaugh Hall on campus (corner of Blake Street and Campus Drive); it is open during the regular academic year. The Prichard Gallery is located at 414 South Main Street in downtown Moscow; it is open throughout the year. All gallery programs and exhibitions are open to the public and no admission is charged.

Through the galleries' rotation of exhibits, visitors may see examples of the full range of visual arts, including architecture, landscape architecture, interior design, and photography as well as the traditional art media. The objectives of these galleries are to provide opportunities for local, regional, and national artists and students to exhibit their work, and a means by which visitors' awareness and appreciation of the arts is heightened. The galleries also serve as an excellent teaching device. Ties between the university and local and regional communities are strengthened by the outreach efforts of the Prichard Gallery, which are coordinated by an advisory board composed of university and community leaders.

Exhibitions mounted each year traditionally include those by faculty members and undergraduate and graduate students from the College of Art and Architecture. Public receptions held in connection with some exhibitions, occasional musical performances presented at the galleries, and seminars with guest artists and lecturers are ways in which the gallery serves the university and the community.

The gallery facilities and programs are administered through the College of Art and Architecture.

Computer Services

Computer Services provides centralized computing resources, connectivity through a campus data communications backbone, and telephone services in support of instruction, research, and administration. Its main office is located in Administration Building Room 127.

The center is equipped with two IBM 4381 computers with related systems and remote terminals. It maintains a library of computer programs and provides consulting assistance in programming and in the use of the computer facilities through User Services in Room 18. Accounts are available for students in classes requiring access to the central computers and for graduate students.

Computer Services manages three microcomputer laboratories for teaching and student use in Administration Building Rooms 221, 225, and the basement. These microcomputers are networked and software can be accessed through a menu that is displayed when the computers are turned on. Software is available for word processing, spreadsheets, databases, graphics, communication, and other applications. Both IBM and Macintosh computers are available. Laser printing for a fee is available in Room 221; laser printing tickets may be purchased in Room 127 during regular business hours. Consulting in the use of microcomputers and the installed software is available through User Services in Room 18. Additional microcomputers are available in colleges, housing areas, the library, and the Student Union Building.

Idaho Water Resources Research Institute

The Idaho Water Resources Research Institute was established at UI by the regents on October 24, 1963. The national institute program is administered by the United States Geological Survey of the U.S. Department of the Interior to stimulate, sponsor, coordinate, and supplement research and outreach programs in the field of water

resources. The institute serves the state by developing and coordinating water research programs intended to assure the state, region, and nation adequate supplies of high-quality water.

The area of water resources planning, development, and management is a composite of many disciplines. Consequently, the Idaho Water Resources Research Institute believes that professional needs in these areas are best achieved by individuals with strong basic education in a traditional academic department enhanced by programs of study in water resources problems and professional practice. The university has developed procedures that encourage existing schools and departments to strengthen their programs in the light of the special needs for water resources. The Idaho Water Resources Research Institute has coordinated master's and doctoral programs in several disciplines and specializations through various participating divisional programs.

The objectives of the institution are to: (1) promote water resources research and coordinate the efforts of the various university divisions and departments involved in water resources research; (2) strengthen and coordinate water-related undergraduate and graduate programs and course offerings so that the university can supply well-trained teachers and leaders; (3) develop, gather, and disseminate research findings within the state universities and to various federal, state, local, and civic organizations interested in water resources; and (4) promote water education for both the youth and adult community within Idaho.

Institute for Materials and Advanced Processes

The Institute for Materials and Advanced Processes (IMAP), composed of scientists from a number of colleges and disciplines within the University of Idaho, supports, directs, and coordinates research in the areas of materials and advanced processing. The former area encompasses work in strategic and critical materials, alloy evaluation, and composite materials development. The latter includes research on materials processing using high energy sources such as plasma, laser, and electron beam as well as processing of polymer, ceramic, and composite materials.

A current major program in conjunction with the Idaho National Engineering Laboratory (INEL) is evaluating the potential for using new processes and advanced materials as substitutes for strategic and critical materials.

Other programs in the advanced materials arena cover topics including advanced metal matrix composites, intermetallic compounds, hydrogen effects in metals, and innovative ceramic concepts.

Pervasive to the whole activity is application of material science and engineering and transition of the research programs to real-world applications.

University of Idaho Press

The University of Idaho Press, founded in 1972, publishes scholarly books in the humanities, the social sciences, and the natural sciences. It serves the state, the scholarly community, and the university through a publishing program intended to exemplify the academic standards of the faculty and the significance of university research for society as a whole.

The Press issues seasonal catalogs of its new titles and books continuing in print. The Press publishes the work of academic and professional authors from across the United States and from Canada, the United Kingdom, and Europe. University of Idaho Press titles are sold throughout the West and across the country at university and retail bookstores, and to libraries and academic audiences around the world.

University Research Office

The University Research Office serves as the coordinating center for research and development activities at the university. While colleges, departments, and other units commonly develop and

administer their own research programs, the Research Office assists by organizing and promoting research and development activities, by ensuring that policies and procedures are recognized and followed, by providing grant, contract, and foundation information, and by offering every possible assistance to the faculty, staff, and students in order to increase UI's competitiveness. All grant and contract proposals are processed and recorded.

Working very closely with the vice provost for research and graduate studies is the Research Council, the faculty's standing committee involved with development of research policy and overseeing policy implementation. The council serves to resolve differences in interpretation and implementation of these policies. Additionally, the council acts as the peer review board in the university's internal competitive grants programs.

Idaho Research Foundation

The Idaho Research Foundation, Inc., is a private nonprofit corporation organized for the purpose of supporting research at the university. Its principal activity is licensing technologies that result from academic research to the private sector. The IRF identifies and protects the intellectual property developed at the University of Idaho and transfers it to the private sector through licensing agreements such that the university may secure support for and further develop its academic, research, and service responsibilities. The IRF also disseminates scientific knowledge and technical information and encourages and assists researchers and inventors by providing the means by which their scientific discoveries may be patented, copyrighted, developed, and applied. The transfer of technology that is generated through UI research turns society's investment into new products and industrial processes, thus increasing the competitiveness of Idaho and the nation.

Electron Microscopy Center

A campus-wide facility, including scanning and transmission electron microscopes and energy-dispersive x-ray microanalysis, is available for use in teaching, research, and service. Located in the Holm Research Center at the western edge of the campus, this facility is available to students and faculty members. Information concerning use of the EM Center may be secured directly from the facility or through the University Research Office.

Laboratory Animal Research Facility

A centrally located facility for housing and maintaining small animals for use in teaching and research is available to faculty members and students. Information concerning space availability, use, and services provided is available through the University Research Office or through the facility itself.

Degrees Granted

On completion of specific courses of study and recommendation of the faculty, the degrees listed below are granted by the Regents of the University of Idaho. In addition, the Certificate of General Proficiency is granted to students who complete specified lower-division educational programs at the UI/Idaho Falls Center for Higher Education.

Baccalaureate Degrees

Bachelor of Arts, B.A.
Bachelor of Science, B.S.
Bachelor of Science in
Agricultural Economics, B.S.Ag.Econ.
Agricultural Education, B.S.Ag.Ed.
Agricultural Engineering, B.S.Ag.E.
Agricultural Systems Management, B.S.A.S.M.
Animal Science, B.S.An.Sc.
Art Education, B.S.Art Ed.
Bacteriology, B.S.Bact.

Business, B.S.Bus.
Business Education, B.S.Bus.Ed.
Cartography, B.S.Cart.
Chemical Engineering, B.S.Ch.E.
Civil Engineering, B.S.C.E.
Computer Engineering, B.S.Comp.E.
Computer Science, B.S.C.S.
Education, B.S.Ed.
Electrical Engineering, B.S.E.E.
Entomology, B.S.Ent.
Family and Consumer Sciences, B.S.F.C.S.
Fishery Resources, B.S.Fish.Res.
Food Science, B.S.F.S.
Forest Products, B.S.For.Prod.
Forest Resources, B.S.For.Res.
General Agriculture, B.S.Gen.Ag.
Geography, B.S.Geog.
Geological Engineering, B.S.Geol.E.
Geology, B.S.Geol.
Interdisciplinary Studies, B.S.I.S.
Manufacturing Engineering, B.S.Mfg.E.
Mechanical Engineering, B.S.M.E.
Metallurgical Engineering, B.S.Met.E.
Mining Engineering, B.S.Min.E.
Office Administration, B.S.O.Ad.
Physical Education, B.S.P.E.
Plant Protection, B.S.Pl.Prot.
Plant Science, B.S.Pl.Sc.
Range Resources, B.S.Range Res.
Recreation, B.S.Rec.
Resource Recreation and Tourism, B.S.Res.Rc.
Soil Science, B.S.Soil Sc.
Veterinary Science, B.S.Vet.Sc.
Wildlife Resources, B.S.Wildl.Res.
Bachelor of Applied Physics, B.Appl.Phys.
Bachelor of Architecture, B.Arch.
Bachelor of Dance, B.Dan.
Bachelor of Fine Arts, B.F.A.
Bachelor of General Studies, B.G.S.
Bachelor of Landscape Architecture, B.L.Arch.
Bachelor of Music, B.Mus.
Bachelor of Naval Science, B.N.S.
Bachelor of Technology, B.Tech.

Master's Degrees

Master of Arts, M.A.
Master of Science, M.S.
Master of Architecture, M.Arch.
Master of Arts in Teaching, M.A.T.
Master of Education, M.Ed.
Master of Engineering, M.Engr.
Master of Fine Arts, M.F.A.
Master of Music, M.Mus.
Master of Natural Science, M.Nat.Sc.
Master of Public Administration, M.P.A.

Specialist Degrees in Education

Specialist in Counseling and Human Services, Couns.-Hum.Serv.Sp.
Specialist in Education, Ed.Sp.
Specialist in Educational Administration, Ed.Admin.Sp.
Specialist in School Psychology, Sch.Psych.Sp.
Specialist in Special Education, Sp.Ed.Sp.
Specialist in Vocational Education, Voc.Ed.Sp.

Professional Degree in Law

Juris Doctor, J.D.

Doctoral Degrees

Doctor of Philosophy, Ph.D.
Doctor of Education, Ed.D.

Programs Offered

Programs offered by the university are shown in the list below. Entries followed by degree abbreviations are major curricula leading to the degrees indicated. After a student has completed the requirements for a degree, the degree name and, if not already a part of the degree name, the major curriculum as shown in this list are printed on the student's diploma. (By contrast, the options listed under some curricula are areas of concentration within the major. Options and academic minors are recorded only on the student's final permanent transcript.) In parentheses after each major curriculum in the list is the college or unit through which the program is offered. The abbreviations used are: Ag, College of Agriculture; A&A, College of Art and Architecture; B&E, College of Business and Economics; Ed, College of Education; Engr, College of Engineering; FWR, College of Forestry, Wildlife and Range Sciences; GS, General Studies Program; Law, College of Law; L&S, College of Letters and Science; Min, College of Mines and Earth Resources. Graduate degrees, except the degree of Juris Doctor, are offered through the College of Graduate Studies. See the note at the end of this list.

- Accounting (B&E) B.S.Bus.

Psychology
Public Administration
Public Relations
Recreation
Social Work
Sociology
Soil Science
Spanish
Sport Science
Statistics
Technical Theatre
Theatre Arts
Theatre Arts Performance
Therapeutic Recreation
Tourism and Leisure Enterprises
Visual Communication
Wilderness and Nature Conservation
Zoology

Admission to the University

Students desiring to enter the university for the first time should write to the Admissions Office to request an admission application. They will receive applications for admission, scholarships, and financial aid and a means of requesting information on housing and various student activities.

This catalog section contains general information pertinent to all applicants for admission to the university. See "Admission of International Students" and "Admission to the College of Graduate Studies and the College of Law," near the end of this catalog section, for additional information.

Students who are pursuing a baccalaureate degree are classified as undergraduates: freshmen (fewer than 26 credits), sophomores (fewer than 58 credits), juniors (fewer than 90 credits), or seniors.

Applicants who are still in high school should apply during the first semester of their senior year and should ask the school to send a record of their first seven semesters to the Admissions Office. If otherwise qualified, the applicant will be given an early notice of tentative acceptance for fall entrance based on this record. Final acceptance will be granted when the university receives confirmation that the applicant has graduated from an accredited high school and has satisfied all admission requirements.

Admission Procedures

Credentials. Applicants for admission are required to submit:

1. Personal data on the regular "Application for Admission" form. Failure to list all institutions attended as specified on the application form is considered fraud and subjects the applicant to immediate cancellation of his or her registration.
2. An official transcript from the last high school attended and an official transcript from each institution attended beyond high school. **TRANSCRIPTS SUBMITTED IN SUPPORT OF AN APPLICATION MUST BE OFFICIAL AND MUST BE SENT DIRECTLY TO THE ADMISSIONS OFFICE BY THE ISSUING INSTITUTION (or certifying agency in the case of international students). TRANSCRIPTS WILL NOT BE ACCEPTED FROM THE APPLICANT, BECOME THE PROPERTY OF THE UNIVERSITY, AND CANNOT BE RETURNED, COPIED, OR FORWARDED.** Official transcripts must be signed by the registrar, superintendent, principal, or other authorized official of the school.
3. Each applicant for admission to the freshman class (including transfer students with fewer than 14 semester credits) is required to have the scores attained on the College Board (SAT) or the American College Testing Program (ACT) sent to the Admissions Office before registration.

Application Fee. With certain exceptions, **new** applications for admission must be accompanied by a \$25 nonrefundable application fee (\$30 for international students). This fee is not charged to students applying for nonmatriculated status.

Final Dates for Application. To provide time for evaluation and for notice of acceptance to reach the applicant before registration, applications and credentials should be received by the Admissions Office by August 1 for fall-semester entrance and by December 15 for spring-semester entrance (see "Admission of International Students" for final dates of application by those students). Applications and credentials for summer session should be received by the Admissions Office at least three weeks before the opening date of the summer session or the program in which the student intends to enroll. Applications received after the above dates will be accepted in the order of their receipt only as long as additional new students can be accommodated. Acceptance will be subject to space limitations in the division in which the applicant wishes to register.

Acceptance.

1. When an applicant's credentials have all been received and he or she has been found eligible, a letter of final acceptance and information on current costs and preregistration procedures will be sent.
2. Acceptance is granted for a specified semester or summer session. If an applicant does not register for the term for which he or she applied and was accepted, it will be necessary to submit a supplemental application if entrance at a later time is desired.

Admission Requirements

Applicants for admission to the university must present satisfactory evidence of good character.

Regular Admission

A degree-seeking applicant with fewer than 14 semester credits of college work must:

1. Submit scores received on the ACT or SAT before enrollment.
2. Have an overall high school grade-point average of at least 2.50 OR have an Enhanced ACT composite score of 19 OR an SAT Verbal and Math combined score of 830. An ACT composite score of 16 is acceptable if earned before October 1989.
3. Have completed with at least a 2.00 grade-point average the courses listed below. A credit is defined as a course taken with a minimum of 70 hours of classroom instruction. (Applicants must meet the admission requirements in effect for the year of their graduation from high school.)

a. **English:** A minimum of 8 credits, selected from composition and literature courses.

b. **Mathematics:** A minimum of 6 credits including algebra I, geometry, and another course requiring algebra I as a prerequisite. Other courses may include algebra II, analytic geometry, calculus, statistics, and trigonometry. Four of the required mathematics credits must be taken in the 10th, 11th, and 12th grades.

c. **Social Science:** A minimum of 5 credits, selected from American government (state and local), geography, U.S. history, world history, psychology, sociology, and economics (consumer economics courses approved by the Idaho State Board of Education may be counted toward this requirement).

d. **Natural Science:** A minimum of 6 credits, selected from anatomy, biology, chemistry, geology, earth science, physical science, physiology, physics, zoology, and applied science courses jointly approved by the State Department of Education (SDOE) and the State Department of Vocational Education (SDVE) (maximum of two credits in this category). Ecology will count if SDOE approved. At least two credits must involve laboratory science experience. Note: A laboratory science course is defined as one in which at least one class period each week is devoted to providing students the opportunity to manipulate equipment, materials, or specimens; develop skills in observation and analysis; and discover, demonstrate, illustrate, or test scientific principles or concepts.

e. **Humanities/Foreign Language:** A minimum of 2 credits, selected from literature, history, philosophy, foreign language, fine arts, and interdisciplinary humanities (related study of two or more of the traditional humanities disciplines). These courses should emphasize history, appreciation, theory, analysis, and/or critique. History courses beyond those required for state high school graduation may be counted. Foreign language study is strongly recommended.

f. **Other College Preparation:** A minimum of 3 credits, of which no more than one credit may be in speech or debate. Other courses may include studio/performing arts (art, dance, drama, and music) or foreign language (beyond any foreign language credit applied in the humanities/foreign language category). May include no more than two credits in SDVE-approved classes in agricultural science and technology, business and office

education, health occupations education, consumer homemaking education, occupational home economics, industrial technology education, marketing and multi-occupations education, and trade, industrial, and technical education.

Provisional Admission

A degree-seeking student who does not qualify for regular admission but satisfies one of the criteria below may petition the director of admissions for admission as a provisional student.

1. Has graduated from high school and has a predicted college grade-point average of at least 2.00 based on ACT or SAT scores.
2. Has a General Educational Development (GED) Test certificate, is at least 19 years of age, and has a predicted college grade-point average of at least 2.00 based on ACT or SAT scores.
3. Deserves special consideration because of delayed entry or by virtue of being a disadvantaged or minority student, returning veteran, or talented student desiring to enter college early, or other relevant factors.

Such applicants must then submit an admission application, official transcripts, three letters of recommendation from counselors, teachers, or other educational authorities who can attest to the applicant's academic potential, and a student statement of objectives. If admitted, the student may be required to attend pre-academic planning within an office or program to be specified in the letter of acceptance.

Applicants for provisional enrollment must submit scores received on the ACT or SAT before application processing.

If admitted, the student will be enrolled with provisional standing and will be subject to the regulations on academic probation, disqualification, and reinstatement (see regulation L in part 3) with the following additional provisions: the student's provisional standing

will be changed to regular standing upon satisfactory completion of 14 credits, 12 of which must be in four different subject areas of the general education requirements (see regulation J-3); if the student has not attained regular standing after being enrolled for three terms, he or she will be dismissed, subject to institutional committee appeal procedures.

Preparation Recommended by UI Colleges

Certain preparation in addition to the minimum requirements set forth above is advisable if a student is to enter easily and progress smoothly through a particular university curriculum. The following table indicates the high school preparation recommended for prospective majors in the respective curricula of each of the UI colleges (the table combines the minimum requirements and the recommended supplements). This tabulation should help an applicant determine whether his or her preparation is adequate for a given field of study and assist students and their advisers in planning their high school programs.

Students may be admitted with fewer academic credits than the minimum total indicated for their particular college or they may be admitted with the total academic units required but with fewer units than indicated in one or more subjects. In either case the student's college will identify subject inadequacies and prescribe the means by which these deficiencies are to be removed or satisfied. Courses needed as preparation for the student's college curriculum should be taken during the student's first year at the university.

Advanced Placement. Credit is granted for successful completion of the College Board Advanced Placement Examination, the College Level Examination Program (CLEP), and courses at military schools as recommended by the American Council on Education. Inquiries about other forms of advanced placement and requests for evaluation of advanced-placement credits or for guidelines to avoid duplication of credit should be addressed to the Registrar's Office.

PREPARATION RECOMMENDED BY COLLEGES

Subject Areas

Number of Credits Recommended by College

Students who plan to enter the General Studies Program (see part 4) should use this chart as a guide for minimum high school preparation

	Agriculture	Art & Architecture	Business & Economics	Education	Engineering	Forestry, Wildlife & Range Sciences	Letters & Science	Mines & Earth Resources
English	8	8	8	8	8	8	8	8
Mathematics ¹								
Algebra	2	2	2	2	2	2	2	2
Geometry	2	2	2	2	2	2	2	2
Advanced Algebra	2	2	2	2	2	2	2	1
Trigonometry					1	1		
Other					1			1 ²
Social Science.....	5	5	5	5	5	5	5	5
Natural Science ³								
Biology						2		
Chemistry					2	2		
Physics					2	2		2 ⁴
Unspecified	6	6	6	6	2		6	4 ⁵
Humanities/Foreign Language	2	2	2	2	2	2	2	2
Other College Preparation	3	3	3	3	3	3	3	3
Total credits.....	30	30	30	30	32	31	30	30

¹Four credits must be taken in the 10th, 11th, and 12th grades.

²Either advanced algebra, trigonometry, or solid geometry (in this order of preference).

³Must have laboratory experience in at least 2 credits.

⁴For mining, metallurgical, or geological engineering; for geography the 4 credits are unspecified.

⁵Chemistry strongly recommended.

Applicants with Previous College Credit.

1. Applicants who have been enrolled in other colleges or universities accredited by one of the regional agencies, such as the Northwest Association of Schools and Colleges, and whose scholastic records at these institutions are satisfactory may be admitted with advanced standing. These students must submit the following credentials to the Admissions Office at least one month before they expect to enter the university: a transcript from the last high school attended and separate transcripts from each of the higher institutions attended. **TRANSCRIPTS SUBMITTED IN SUPPORT OF AN APPLICATION MUST BE OFFICIAL AND MUST BE SENT DIRECTLY TO THE ADMISSIONS OFFICE BY THE ISSUING INSTITUTIONS (or certifying agency in the case of international students). TRANSCRIPTS WILL NOT BE ACCEPTED FROM THE APPLICANT, BECOME THE PROPERTY OF THE UNIVERSITY, AND CANNOT BE RETURNED, COPIED, OR FORWARDED.**

2. Upon admission of a transfer student, all credits earned or attempted and all grades received in college-level courses at accredited institutions are evaluated and core-curriculum determinations are made by the Registrar's Office (see item 9 below). The applicability of these credits to the student's program of study is determined by the student's major department. No grade points for this work are included in the computation of his or her grade-point average at the University of Idaho. Transfer credit from non-U.S. institutions is recorded with grades of pass or fail only. All transfer credits are recorded on the student's permanent record after he or she is officially registered.

3. Students admitted to the University of Idaho from other collegiate educational institutions must have complied with the academic regulations for continuance in the institution(s) that they have attended in addition to the academic regulations that are applied to students enrolled in this institution.

4. Internal advanced-placement credit granted by other accredited institutions will be honored on transfer to the University of Idaho.

5. Transfer students are selected from those applicants who present a cumulative grade-point average of at least 2.00 (C) for all college-level study attempted in all accredited colleges attended, exclusive of courses for which credits are not allowed. Students transferring from out-of-state schools into the College of Engineering must have a cumulative grade-point average of at least 2.80.

6. Transfer applicants with fewer than 14 semester hours of transfer credit must meet both beginning freshman and advanced-standing admission requirements, including submission of the required test scores. (See "Regular Admission," above.)

7. The university may grant credit for completion of certain educational programs sponsored by the Armed Forces. In evaluating these programs, consideration will be given to recommendations made by the American Council on Education and other appropriate agencies and to university degree requirements.

8. A maximum of 70 credits earned at junior or community colleges, or one-half of the total credits required for the student's intended baccalaureate degree program, whichever is the higher number, may be transferred to the University of Idaho.

9. One of the requirements for a UI baccalaureate degree is fulfillment of the general-education or "core-curriculum" requirement. Students who enter UI with transfer credit have two options for fulfilling this requirement. One option is to satisfy the requirement as outlined in regulation J-3 in part 3 of this catalog. In this case, transfer credits are evaluated on a course-by-course basis for equivalency to courses specified in J-3, and deficiencies are made up by completing the necessary additional credits in nonduplicating courses listed in J-3. As an alternative, a transfer student may satisfy the general-education requirements established by the State Board of Education as set forth immediately below. In this case, transfer credits are evaluated by subject matter, rather than on a course-by-course basis, and deficiencies are made up by completing the necessary additional credits in nonduplicating courses listed in J-3.

Alternative General-Education Requirements for Transfer Students

A total of at least 36 credits that fit within the following categories and credit ranges must be completed.

a. **Communications:** 1 course (2-3 credits). Courses in this area enhance the student's ability to communicate clearly, correctly, logically, and persuasively in spoken English. Disciplines—debate, rhetoric, and speech.

b. **English Composition:** 1-2 courses (3-6 credits, depending on initial placement results). To satisfy this category, students must be able to express themselves in clear, logical, and grammatically correct written English. The first three credits may be exempt by ACT, SAT, WPCT, CLEP, or College Board AP exam.

c. **Behavioral and Social Science:** 2-4 courses (6-12 credits). Courses in this area provide instruction in the history and culture of civilization; the ways political and economic organizations, structures, and institutions function and influence thought and behavior; and the scientific method as it applies to social science research. Disciplines—anthropology, economics, geography, history, political science, psychology, and sociology. Courses must be distributed over two different disciplines.

d. **Humanities, Fine Arts, and Foreign Language:** 2-4 courses (6-12 credits). Courses in this area provide instruction in the creative process, history and aesthetic principles of the fine arts, philosophy and the arts as media for exploring the human condition and examining values, and communication skills in a foreign language. Disciplines—art, drama-theatre, foreign languages, literature, music, and philosophy.

e. **Natural Science:** 2 courses (7-12 credits). Courses in this area provide an understanding of how the biological and physical sciences explain the natural world and introduce the basic concepts and terminology of the natural sciences. Disciplines—biology, chemistry, geology, physical geography, and physics. Courses may be distributed over two different disciplines; at least one course must have had an accompanying laboratory experience.

f. **Mathematics:** 1 course (3-5 credits). Courses in this area are intended to develop logical reasoning processes; skills in the use of space, numbers, symbols, and formulas; and the ability to apply mathematical skills to solve problems. Courses may include college algebra, calculus, finite mathematics, and statistics.

Applicants with Vocational-Technical Credit. Credits earned in vocational-technical courses at accredited or state-approved vocational-technical schools may be the basis for waiving requirements or transferring credits to the University of Idaho in accordance with the following regulations:

1. When equivalence has been validated by the academic department and college that offer comparable subject matter, credits may be transferred for specific lower-division courses taken at the other institution.

2. In those cases in which comparable subject matter is not taught at the University of Idaho, the amount and characterization of the credits to be transferred is determined by the department and the dean of the college into which the student is transferring (for example, a block of credits in agriculture).

3. A grade of P (pass) is recorded for such credits that are transferred.

4. Credits transferred from vocational-technical schools are included within the 48-credit limitation of extramural and similar credits that may be counted toward a baccalaureate degree (see regulation J-5-b).

5. The department into which the student transfers decides what curricular requirements, if any, will be waived (this determination may be made independently of the transfer of credits).

6. If there are any questions concerning the waiving of distributional requirements in the college into which the student transfers, such questions are to be resolved by the dean of that college.
7. Except as substitutions for equivalent courses offered by the student's academic department, no credits in vocational-technical courses taken at a vocational-technical school may be counted toward the minimum of 128 credits required for a liberal arts degree (i.e., B.A. or B.S.) in the College of Letters and Science.

Admission as a Nonmatriculated Student. This category is for applicants who wish to pursue studies for their personal edification and who do not want to work toward a formal degree at the University of Idaho.

Admission to this category is not automatic. Applicants must meet minimum university admission requirements for freshmen or transfer students, as applicable. To ensure that applicants meet these minimums a transcript from the last accredited institution and additional documentation may be required.

If a student wishes to change to a degree program, he or she will be required to file a regular application for admission and meet regular admission requirements. The department in which the student plans to major determines how much of the credit earned while a nonmatriculated student will be counted toward the degree. Degree requirements are those listed in the catalog in effect at the time of enrollment in the University of Idaho as a degree-seeking student.

The student is responsible for ascertaining the applicability of credit earned while registered in this category. Permission of the dean of the Graduate College and the instructor is required to enroll in courses numbered 500-600. Permission of the dean of the College of Law is required to enroll in courses numbered 800-999. All students in the nonmatriculated category who register for a full course load (i.e., 12 or more credits in any semester or six or more credits in a summer session) will be disqualified if a 2.00 GPA is not earned during that semester or summer session. Nonmatriculated students who are disqualified are ineligible to continue in the university unless readmitted.

Students admitted to the nonmatriculated category at the University of Idaho are not eligible to receive federal Title IV financial aid.

A nonmatriculated student who has registered for 12 credits or more for each of two semesters is required to petition the Admissions Committee if he or she wishes to continue as a nonmatriculated student enrolled for 12 credits or more. Such a student will be required to file the same credentials as required of a regular student.

Registration as a nonmatriculated student in F-1 visa status is not permitted by the U.S. Immigration Service and no I-20AB, Certificate of Eligibility, can be issued.

A nonmatriculated applicant must complete a special application form indicating an understanding of the limitations of this category.

Admission of International Students. The University of Idaho accepts qualified students from other countries to the extent that they can be accommodated. International students are selected for admission to the university from among applicants whose previous academic records meet the minimum levels stated in 3 below. Registration as a nonmatriculated student does not meet the U.S. Immigration Service requirements for the issuance of an F-1 visa.

1. **Credentials.** Official transcripts or certified copies of the certificate, diploma, or government examination report received from any college or university must be translated into English and **MUST BE SENT BY THE CERTIFYING AGENCY DIRECTLY TO THE ADMISSIONS OFFICE.**

2. **Final Dates for Applications.** To provide time for evaluation, for notice of admission status to reach the applicant, and for INS requirements to be met for issuance of a student visa, applications and credentials should be received by the Admissions Office no later than the following dates: For fall semester, June 1; for spring semester, October 1; for summer session, March 15.

3. Grade-Point Average.

- a. Applicants who have had no previous work at the college level must have at least a high "C" average.
- b. Applicants for admission as undergraduate students who have attended a college-level institution must have completed at least one year of full-time study at an accredited college or university and must present a minimum grade-point average of 2.80 for all baccalaureate-level work attempted.
- c. Applicants for admission as graduate students are expected to have qualifications similar to those required of other graduate students, including at least a 2.80 cumulative grade-point average (or its equivalent on a different grading scale).

4. **English Proficiency.** All applicants for whom English is not the native language must present a minimum score of 525 on the Test of English as a Foreign Language (TOEFL). A higher score may be prescribed by the college or academic unit in which they plan to study. Exception to the TOEFL requirement is made for those from English-speaking countries and those who have earned a degree from either a U.S. institution or an institution in another English-speaking country. Written permission from the director of admissions must be obtained to substitute the results of another examination for TOEFL. Those transferring with a minimum of one year of full-time baccalaureate study will be evaluated individually by the Admissions Office and the appropriate department to determine whether English proficiency has been demonstrated or the TOEFL is to be required. If required, the TOEFL score must be on file before the processing of the application for admission.

5. **Financial Statement.** International students must present to the Admissions Office satisfactory statements of finances and adequate proof of financial responsibility or sponsorship for all financial obligations while attending the university.

6. **Health and Accident Insurance.** Supplemental health and accident insurance is mandatory for nonresident alien students. Students must purchase or document coverage of a policy equivalent to the UI policy before they are allowed to register or attend classes. See information on insurance in the Student Services section below.

7. **Transfer Clearance Form.** (For international students transferring from other U.S. universities.) A transfer clearance form issued by the University of Idaho must be completed by the international programs officer or foreign student adviser at the current U.S. institution and sent to the University of Idaho before an I-20 or IAP-66 can be issued.

Admission to the College of Graduate Studies and the College of Law. Students interested in graduate study should request a copy of the Graduate Bulletin. The special procedures for admission to the College of Law are described in part 4.

Student/Program Assessment

The University of Idaho, along with all other four-year public institutions in Idaho, is required by policy of the State Board of Education to assess student learning in general education and in the academic majors. In late 1991, the Northwest Association of Schools and Colleges, which provides institution-wide accreditation for the university, issued similar guidelines requiring assessment.

Effective teaching and learning are essential to meeting our long-held goal of producing responsible, well-prepared citizens and leaders in their professions. Our program of student outcomes assessment has been implemented to ensure that we continually improve the teaching and learning process and the programs that support that process.

Information vital to effective assessment includes student performance as well as student opinions on the quality of university academic programs and services. To provide this information, students may be required to participate in assessment activities; these may include, but are not limited to, examinations, performance assessments, interviews, surveys, focus groups, and follow-up studies after graduation.

Mutual Responsibility Agreement

UI's acceptance of a student for admission and the student's enrollment in the university constitute an agreement of mutual responsibility. The student's part of this agreement is to accept established UI policies and rules, to respect the laws of governmental units, and to act responsibly and in a manner appropriate to these laws, policies, and rules. UI's part is to carry out its commitment to higher education, to fulfill its responsibilities in pursuit of the academic goals and objectives of all members of the university community, and to meet its obligation to provide an atmosphere in which students will have an opportunity to be heard in matters affecting their welfare as students. UI must take appropriate disciplinary action when it has been ascertained that a student's action is contrary to UI regulations and thus that this agreement has been violated.

Fees and Expenses

The rates quoted in this section were in effect during the 1992-93 academic year. They are subject to change without notice.

Expenses for attending the University of Idaho vary with the taste and financial means of each student. The university takes pride in its record of providing high-quality instruction at reasonable cost.

Board and room are available at relatively low rates under a variety of plans. Single-occupancy rooms are subject to availability of space and cost more each semester than double-occupancy rooms. Students may reduce their living costs by sharing the work in the cooperative residence halls.

Students are encouraged to preregister for classes at the University of Idaho. For information about the registration process, contact the Registrar's Office at 208/885-6731. The Controller's Office (208/885-6538) can provide details regarding fees and expenses.

Annual Expenses

In forecasting total costs for the academic year, double the 1992-93 semester costs, allow for normal increases, and add miscellaneous costs—clothing, laundry, transportation, incidentals, social and recreational expenditures, fraternal affiliations, and personal needs.

An undergraduate student coming to the university needs about \$800 to meet initial payments. This assumes the student uses the deferral option for payment of fees and pays room and board in four equal installments. Out-of-state students need an additional \$600 to cover tuition. Personal checks, bank drafts, money orders, travelers checks, VISA, and MasterCard are all accepted by the university. Also see "Deferred Payment of Fees" further on in this catalog section.

1992-93 Costs per Semester

	Idaho Residents	Nonresidents
Tuition ¹	0	1,450
Regular full-time student fees..	648	648
Books, supplies, etc	385	385
Room and board ²	<u>1,542</u>	<u>1,542</u>
TOTAL ³	\$2,575	\$4,025

¹ In addition to special fees applicable to students enrolled in the College of Graduate Studies, the College of Law, etc.

² Double-occupancy rate in university-owned residence halls with 14 meals per week. Cooperative dormitories in which residents provide their own janitorial and dining hall services are available at a lower cost.

³ Not including personal, incidental, or travel expenses.

Regular Student Fees

Unless exempted, students carrying eight or more credits (or equivalent) and all graduate/instructional assistants (including faculty-staff spouses) on full appointment pay the full-time student fees applicable to the particular division in which the student enrolls. Students in all divisions pay \$648 a semester. Students in certain

divisions pay additional amounts; see "Special Fees" below. Fees are payable in full at the time of registration during the scheduled registration period. Also see "Deferred Payment of Fees," below.

Payment of full-time fees covers most laboratory and course charges and entitles the student to membership in the Associated Students University of Idaho (ASUI), to a nontransferable student identification card, to the services of the Alumni Office, and to the other services and facilities maintained by the university for the benefit of the students, subject to charges for special services and the payment of the special fees listed below. No reduction in fees can be made for students who may not want to use any part of these services.

Special Fees

Nonresident Tuition (students registered before fall 1992 \$1,315 per semester; new students \$1,450 per semester). Students who are classified as nonresidents of the state of Idaho pay this special fee in addition to the regular student fees. For tuition purposes, a student who is a permanent resident of the U.S. may be classified as a resident of Idaho by meeting one or more of the following qualifications:

1. Any student who has one or more parent or parents or court-appointed guardians who are domiciled in the state of Idaho. Domicile, in the case of a parent or guardian, means that individual's true, fixed, and permanent home and place of habitation. It is the place where that individual intends to remain, and to which that individual expects to return when that individual leaves without intending to establish a new domicile elsewhere. To qualify under this section, the parent, parents, or guardian must be residing in the state on the opening day of the term for which the student matriculates.
2. Any student who receives less than 50 percent of the student's support from a parent, parents, or legal guardians who are not residents of this state for voting purposes but which student has continuously resided in the state of Idaho for 12 months next preceding the opening day of the period of instruction during which the student proposes to attend the university.
3. Any student who is a graduate of an accredited secondary school in the state of Idaho and who matriculates at a college or university in the state of Idaho during the term immediately following such graduation regardless of the residency of the student's parent or guardian.
4. The spouse of a person who is classified, or is eligible for classification, as a resident of the state of Idaho for the purpose of attending a college or university.
5. A member of the armed forces of the United States, stationed in the state of Idaho on military orders.
6. A student whose parent or guardian is a member of the armed forces and stationed in the state of Idaho on military orders and who receives 50 percent or more of support from parents or legal guardians. The student, while in continuous attendance, shall not lose that residency when the student's parent or guardian is transferred on military orders.
7. A person separated under honorable conditions from the United States armed forces after at least two years of service, who at the time of separation designates the state of Idaho as intended domicile or who has Idaho as the home of record in service and enters a college or university in the state of Idaho within one year of the date of separation. (A copy of the DD-214 Separation Papers must be submitted in support of this qualification.)
8. Any individual who has been domiciled in the state of Idaho, has qualified and would otherwise be qualified under the provisions of this statute, and who is away from the state for a period of less than one calendar year and has not established legal residence elsewhere provided a 12 month period of continuous residence has been established immediately prior to departure.

For students who apply for special graduate and professional programs including, but not limited to, the WAMI (Washington,

Alaska, Montana, Idaho) Regional Medical Program, the WICHE Student Exchange Programs, Creighton University School of Dental Science, and the University of Utah College of Medicine, and the Washington, Oregon, Idaho (WOI) Regional Program in Veterinary Medical Education, additional residency requirements shall be in force. No applicant shall be certified or otherwise designated as a beneficiary of such special program who has not been a resident of the state of Idaho for at least one calendar year previous to the application date.

Additional information and interpretation of the residency regulations may be obtained from the Admissions Office.

Application Fee. For information concerning the application fee, see the section headed "Admission Procedures" at the beginning of part 2 of the catalog.

Graduate/Professional Fee. Students who enroll in the College of Graduate Studies pay this fee in addition to the regular student fees and, if applicable, nonresident tuition. Fees are \$216 per semester for full-time students or \$22 per credit for part-time students. Undergraduate and nonmatriculated students enrolling in graduate courses must also pay the appropriate graduate fee.

Law Fee. Students who enroll in the College of Law pay the graduate fee and the law school fee in addition to the regular student fees and, if applicable, nonresident tuition. The fees per semester for full-time law students are:

	Idaho Residents	Nonresidents
Regular Student Fees	648	648
Graduate/Professional Fee	216	216
Law College Fee	100	600
Nonresident Tuition	0	1,255
TOTAL	\$964	\$2,719

WUE Fee (\$324). The Western Undergraduate Exchange Program has a fee that is equal to 50 percent of the institution's full-time regular student fee (\$648). Fifty percent of this fee equals \$324. This fee is in addition to the regular student fees; nonresident tuition is not assessed WUE students.

WAMI Fee. First-year students who enroll in the WAMI Medical Education Program pay this fee in addition to the regular student fees of \$648. For 1992-93, the UI fee is \$2,307 and the University of Washington fee is \$75. The total fee per semester is \$3,000.

Registration Fee for Senior Scholars. Persons 60 years of age and older are permitted to enroll in courses on the Moscow campus, on a space-available basis. The fee is \$20 plus \$5 per credit. Senior scholars are enrolled after the regular registration days. Special fees for specific courses, e.g., music lessons, are assessed, if such charges are made to other students who take the courses concerned. Registration under this program entitles the student to instruction and library privileges only, and does not include insurance, student health services, ASUI membership, or free admission to athletic events.

Part-Time Fee (\$65 a credit or equivalent). Students who register for seven credits or less pay this fee and any special fees applicable to specific courses in lieu of regular fees and tuition. Graduate and law students pay an additional \$22 a credit.

Part-Time Nonresident Fee (\$70 per credit hour). Students who are classified as nonresident of the state of Idaho pay this fee in addition to the regular part-time fee.

Audit or Zero-Credit Fee (\$65 a credit or equivalent). Students who register as auditors or for zero credit pay this fee and any special fees applicable to specific courses unless the registration is part of a normal registration for a specific semester or other academic session for which the student has already paid the full registration fees.

Registration Service Charge (\$50). Charging this fee is an incentive for students to complete their registration in a timely manner. The effective dates for this fee are listed in the registration calendar.

Late Registration Fee (\$50). Students who are allowed to register after the last day to add classes or change course sections pay this fee.

Drop/Add Fee (\$5). A \$5 fee is charged each time a request is filed to drop or add one or more courses after the tenth day of classes.

Petition Fee (\$5). A \$5 fee is charged for each petition submitted to the Academic Petitions Committee or Graduate Council.

Video Outreach Program. Fees are \$275 per credit for off-campus students who have applied for admission to or have been admitted to the Graduate College or who register for 500-level courses. Off-campus students taking courses at the 400 level or lower and who are registered in nonmatriculated status pay \$253 per credit. Students at the University Centers pay \$117.75 per credit if matriculated or taking 500-level courses; they pay \$95 per credit if nonmatriculated or taking 400-level courses. Tapes must be viewed at the University Centers or on the campus cable system. Courses and shortcourses that have been videotaped may be rented or purchased. Typical rental fees are \$50 for a one-hour videotape or about \$2,100 for a three-credit course. For additional information, contact the Engineering Outreach Office, 208/885-6373.

Student Health Service Fees. Payment of student registration fees entitles a student to the basic services of the Student Health Service. Additional fees are charged for medications, certain studies, and additional services according to rates maintained and available at the clinic.

Insurance. All students enrolled in academic courses for credit, excluding board-appointed faculty and staff, are automatically covered by student accident insurance while attending the university. The premium for this accident insurance is included in the Uniform Student Fee. Supplemental health and accident insurance is available for an additional premium. Nonresident alien students are required to purchase UI student health insurance or show proof of comparable coverage in limits of at least \$25,000.

Music Special Fees. All students, except music majors, enrolling in courses numbered MusA 114, 124, 134, 314, 324, 334, 514, 524, 534, and MusC 507, Individual Instruction, pay \$100 for each credit or equivalent. Music majors presenting a formal recital performance in the Hampton School of Music Recital Hall are charged \$35; non-majors are charged \$50. If two or more performers present a program together, the fee may be shared by the performers. A \$12 fee is charged all students who are enrolled in MusH 101, 321, 322, and 323. The fee provides two tickets to the Auditorium Chamber Music Series. In addition, a \$15 use fee is charged all students who are enrolled in MusA 145, 146, 245, and 246 (Piano Class) and MusC 426 (Electronic Music). (Additional fees have been proposed for fall 1993.)

Departmental Special Fees. Special fees are charged for certain courses. Examples include the College of Art and Architecture that charges a general shop fee and/or fee for certain courses and the College of Education that charges special fees for physical education classes. Consult departmental offices for the current schedule of departmental special fees.

Advanced Standing Exam Fee (\$20). Charged for each separate request or petition for extramural credit—except credit for external study/experience (see below)—that is processed subsequent to a student's initial enrollment in the university. This fee applies without regard to the number of credits sought, requested, or granted. Examples of "extramural credit" are: credit by examination (see regulation D-4); credit for technical competence under such catalog entries as VocEd 270, 370, 470, and 480; and credit for bypassed courses (see regulation I).

External Study/Experience Fee (\$15 for filing and \$10 for each credit granted). The filing fee is charged at the time the student initiates formal action to have his or her work evaluated for the granting of credit for external study/experience (see regulation I-5). The per-credit fee is charged at the time the credit is granted.

Diploma Fee (\$10). This fee is payable at the time the student applies for each degree to be awarded by the university. An additional fee of \$5 is charged for a special diploma insert.

Thesis/Dissertation Binding Fee (\$16). At the time the application for the degree is filed, every candidate for an advanced degree who is submitting a thesis or dissertation (including such terminal projects as musical compositions) pays this fee to have two copies of the document bound.

Publication and Microfilming Fee (\$50). Candidates for the Ph.D. or Ed.D. degree pay this fee for the publication of the dissertation abstract and for the microfilming of the dissertation.

Transcript Fee (\$3). Every person who has established an academic record at the university (including continuing education and correspondence study) is furnished, upon request, one official copy of the academic record without charge. Additional copies, when requested, are \$3 per copy.

Yearbook Fee (\$19). Students wishing to order a copy of the *Gem of the Mountains* pay this fee at the time the order is placed.

Miscellaneous Fees.

1. For library charges, consult the University Library.
2. For costs of field trips and special equipment for certain courses, consult the instructor.
3. A greens fee is charged for the use of the Golf Course.
4. University employees and students are charged fees to park in university-owned lots.

Deferred Payment of Fees

Students who have no delinquent accounts with the university and who are assessed registration fees or tuition in excess of \$100 are eligible to defer payment of part of the fees and tuition in accordance with the following regulations:

1. At least 40 percent of fees and tuition, in addition to the service charge specified below, must be paid at the time of registration.
2. Any special fees must be paid at the time of registration including deposits, special course fees, insurance, fines, penalties, special workshop fees, and other special charges or fees.
3. Service charges for the deferred payment plan are based upon the amount deferred as follows:

Amount Deferred	Service Charge
to \$100	\$ 5
\$101-\$300	\$10
\$301-\$500	\$15
\$501-\$800	\$20
over \$800	\$25

This charge is nonrefundable and must be paid at the time of registration.

4. The deferred balance is payable in two equal installments which are due approximately four weeks and eight weeks into the semester.
5. Any delinquent installments are assessed an additional \$8 late charge, and the registration of the student concerned is subject to cancellation. **If the terms of deferral are not fulfilled, the student loses the right to defer in the future.**
6. Any aid received by a student for purposes of registration (scholarships, student loans, awards, etc.) must be applied toward the registration fees. If any aid funds remain, they are available for room, board, and books.
7. For students who wish to defer their registration fees, a separate table is set up during registration. Students can check at this table to see if they can defer and, if so, a promissory note will be drawn up and signed.
8. In the event a student who owes deferred payments withdraws from school, the difference between the portion of charges that would normally be refundable, if any, and the amount paid on the deferred plan becomes immediately due and payable in full.

Refund of Fees

Students who withdraw in accordance with the regulations governing withdrawals are entitled to the following refund of tuition and regular registration fees (except that for full-time students \$17 of the registration fee is nonrefundable once registration is completed; \$11 for part-time students). Refunds are based on the official date of withdrawal, which is considered to be the last day of class attendance.

1. When withdrawal is accomplished before the published date classes begin, 100 percent of the fees less \$17 is refunded.
2. When withdrawal is completed after classes have begun but before the close of the third week of classes, 90 percent of the fee balance less \$17 is refunded.
3. When withdrawal is completed after the close of the third week but before the close of the sixth week of classes, 70 percent of the fee balance less \$17 is refunded.
4. When withdrawal is completed after the close of the sixth week but before the close of the ninth week of classes, 50 percent of the fee balance less \$17 is refunded.
5. When withdrawal is completed after the close of the ninth week of classes, no refund is given.

Special Fees. When a student has paid special fees (laboratory fees and special course fees including music fees), he or she must contact the respective department for a refund determination.

University Residences

The University of Idaho is a residential campus with about half of the single undergraduate students living in residence halls, fraternities, and sororities. The university recognizes that a student's total education is influenced by the nature and quality of the living environment outside the classroom and encourages the development of an environment in the living groups that will be conducive to broad intellectual growth and greater participation in the life of the academic community. Campus living groups benefit from guidance services provided by advisers associated with them.

In addition to 23 independent living groups and 28 sororities and fraternities, the university provides accommodations for married students and graduate students. Additional housing is available in Moscow and the surrounding area and information may be requested from the Moscow Chamber of Commerce, 411 South Main, Moscow, Idaho 83843, or the ASUI Housing Referral Office, SUB.

Appropriate regulations are established by the university to ensure acceptable living arrangements for all students.

Residence Halls

The university houses 23 living groups in 8 residence hall buildings and provides meal service for the students who live in 21 of them. Two of the living groups, Steel House (women) and Targhee Residence (men), are cooperatives where students contribute a portion of their time to reduce living costs. Every room contains telephone service and cable hookup for the convenience of the resident. Each residence hall has study lounges, TV lounges, and complete laundry facilities. Our residence hall community provides in-house computer facilities, gameroom and activity center, and a convenience store. Personal items, such as sheets, pillowcases, bedding, and towels, are NOT furnished by the university residence halls and should be provided by the student.

See the section headed "Fees and Expenses" above for the approximate costs of living in the residence halls. More detailed information concerning student housing may be obtained from the University Residence Office, Wallace Residence Center.

Graduate Student Housing

The university offers housing for students who are enrolled in our Graduate College. We offer one-room efficiency apartments in our North Campus Center. Each apartment comes furnished and rent for 1992-93 is \$295 a month, all utilities included.

A limited number of rooms are available in the Alumni Residence Center for men and women 21 years of age or older. These single rooms are furnished, complete with hot plates and refrigerator. Leased by the year, these rooms rented for \$242 a month in 1992-93.

Family Housing

For married students with families, the university operates four housing communities and more are being developed. Apartments in the communities in 1992-93 rented for about \$225-330 a month. One-, two-, and three-bedroom units are available; some are not furnished. A \$100 deposit and last month's rent are required in advance. To apply for an apartment, write to University Residences/Family Housing, Wallace Residence Center.

University-sponsored day care facilities are available on a first-come, first-served basis and located near these communities.

Sororities

Eight national sororities have chapters on the University of Idaho campus. Each chapter owns and operates its own chapter house. These are: Alpha Gamma Delta, Alpha Xi, Alpha Phi, Delta Delta Delta, Delta Gamma, Gamma Phi Beta, Kappa Kappa Gamma, and Pi Beta Phi. The average cost for living in a sorority is about \$1,350 a semester, which includes charges for room, board, activity fees, and house corporation building fund. In addition there are pledge and initiation fees that are one-time fees paid to the national organization.

The Panhellenic Council, which is the representative body of the eight sororities, coordinates intersorority activities, formulates policies, and facilitates the Formal Sorority Rush process.

Arrangements for Sorority Living. Membership in a sorority is done by mutual selection, where sororities extend invitations and rushees either accept or decline these invitations. Women who are interested in sorority living should complete the appropriate section of the Admissions Application or write a letter to Panhellenic Council, c/o Student Advisory Services. The selection of members in each sorority is made primarily during Formal Sorority Rush, which is held before the beginning of the fall semester.

The Sorority Rush registration deadline is July 20 and the registration form should be sent to Student Advisory Services. Formal Rush is not the only opportunity to pledge a sorority, yet it is the only time when rush is coordinated by Panhellenic Council and all sororities participate. If you are unable to participate in Formal Sorority Rush but are interested in sorority membership, contact Student Advisory Services.

Fraternities

Chapters of 20 national fraternities are maintained on the University of Idaho campus. These are: Alpha Gamma Rho, Alpha Kappa Lambda, Alpha Tau Omega, Beta Theta Pi, Delta Chi, Delta Sigma Phi, Delta Tau Delta, FarmHouse, Kappa Sigma, Lambda Chi Alpha, Phi Beta Sigma, Phi Delta Theta, Phi Gamma Delta, Phi Kappa Tau, Pi Kappa Alpha, Sigma Alpha Epsilon, Sigma Chi, Sigma Nu, Tau Kappa Epsilon, and Theta Chi. Each of these groups is represented in the Interfraternity Council, which unites them in common service to the university and promotes a spirit of cooperation and self-government among fraternities.

Membership in a fraternity is done by mutual selection, where the fraternities extend invitations to join and rushees either accept or decline these invitations. The membership selection process is facilitated by each fraternity; the university does not make these arrangements. The average cost for living in a fraternity is about \$1,500 a semester, which includes room, board, and activity fees.

Arrangement for Fraternity Living. Anyone interested in fraternity living should so indicate on the admissions application or write a letter to Interfraternity Council, c/o Student Advisory Services. Those who indicate an interest in fraternity living will receive information from the various fraternities during the spring and summer before they arrive at the university. Fraternity Formal Rush is held before the beginning of the fall semester. If you are unable to participate in Formal Rush but are interested in fraternity membership, contact Student Advisory Services.

Student Services

Student Rights, Conduct, and Records

The "Statement of Student Rights," "Student Code of Conduct," and "Student Records Policy" are published in the Time Schedule. Members of the university community are urged to familiarize themselves with these basic documents.

Academic Advising and Counseling

Academic advising is regarded by the faculty as an extension of the teaching function and, therefore, as an important responsibility of each faculty member. Each matriculating student is provided with the assistance of an adviser, a member of the faculty, who attempts to communicate to students, particularly freshmen, the meaning of higher education and its significance to the student. Advisers also explain university academic requirements and assist individual students in developing programs that satisfy these requirements. The Student Counseling Center and the Career Services Center are available to assist students who are uncertain about their career objectives or are having difficulty with required curricula (see entries for these two centers below). Students should bear in mind that they have the primary responsibility for their own careers; therefore, they must take the initiative in seeking out advice and counseling. Assistance, both formal and informal, from faculty advisers and specialists, is available once sought.

Tutoring and Academic Assistance Center

The Tutoring and Academic Assistance Center (TAAC) is the university's central academic support program. Its services include: a freshman study skills class (see Inter 101 in part five), tutoring in specific classes, group study sessions for specific classes, individual counseling for academic difficulties and for improving reading skills, and a faculty-sanctioned test file.

All services of the TAAC are free to University of Idaho students. The TAAC is located at the corner of Idaho and Line Streets (phone 208/885-6307).

Student Advisory Services

The University of Idaho is comprised of a diverse student population: 25 percent of the students are married; 45 percent of the students live on campus in 20 fraternities, 8 sororities, and 23 living groups in 8 residence halls. Approximately 20 percent of the students are from out of state, and the international students represent 40 different countries. Students spend two-thirds of their time in out-of-class activities including clubs, student government, studying, intramurals, and intercollegiate activities.

A diverse student population requires that UI have a diverse student services program. Student Advisory Services provides a variety of services that focus on assisting students. Programs and services include advising students in living groups as well as those off campus, and ethnic minority students, and veterans. In addition, Student Advisory Services coordinates New Student Orientation, Women's Center, Child Care Center, and National Student Exchange Program, student leadership activities and fraternity/sorority programs, and coordinates student discipline/conduct activities.

This wide range of programs and services includes assisting families and students who may experience crisis situations that disrupt normal academic activities.

Staff members in Student Advisory Services are trained to work with individuals and groups of students and they serve as a liaison between students, departments, and agencies on and off campus.

All of the services and programs of Student Advisory Services are supportive of the academic mission of UI and are an integral part of the student's total education at the university.

Women's Center. The Women's Center serves as the focal point for women's concerns at the university and in the community. It provides a warm, comfortable place where people can explore what it means to be women and men in a changing world. It brings together people of diverse backgrounds who share a commitment to opportunity, equality, and justice for women.

Programs and services at the Women's Center include: lunch programs—presentations and discussions every Tuesday and Wednesday at 12:30 covering a wide variety of topics; library—a circulating library of over 800 books dealing primarily with information and research about women and women's lives; resource files—vertical files of information about women and issues of particular concern to women; information and referral—answers to questions and referral to other agencies and services; peer counseling—listening and support for human problems; drop-in lounge—a place to relax, read, study, meet friends, and exchange ideas; outreach—programs and speakers for campus and community organizations; newsletter—a monthly publication including information about current programs and services and news about women's issues. The Women's Center is the headquarters for the Campus Rape Education Program. The center assists with the Non-traditional Students Program and the Martin Luther King Jr. holiday.

National Student Exchange. National Student Exchange (NSE) gives University of Idaho students the opportunity to attend one of 107 colleges or universities throughout the United States for one or two semesters. UI students pay UI fees or the resident fees of their host campus. Students normally need to apply by February for the next academic year.

Credits and grades earned on exchange are incorporated into the student's University of Idaho academic record and grade-point average, and credits earned fulfill University of Idaho residence-credit requirements.

To qualify for participation in the NSE, a student should: (1) be a full-time University of Idaho student; (2) be a sophomore, junior, or first-semester senior at the time of exchange; and (3) have a grade-point average of 2.5 at the time the application is filed. Information and applications may be obtained from the NSE Office in Student Advisory Services, UCC 241 (208/885-7979).

Services for Students with Disabilities. The University of Idaho has established services for students with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973, as amended in 1986, and the Americans with Disabilities Act of 1990. The coordinator of disabled student services is available to assist disabled persons plan, arrange, and locate services they require because of their disability. The services are described in the Campus Guide for People with Disabilities. The guide is available in print and can be provided in large print, braille, or on tape with 10 working days' notice.

Prospective students are invited and encouraged to visit the campus and meet with the coordinator of disabled student services to discuss specific concerns and needs.

Students are asked to notify Student Advisory Services as soon as possible if they will require disability-related services. (Students requiring academic assistance and learning disabled students should contact Student Support Services—see below.) This voluntary self-identification will not adversely affect any admissions decision.

For further information or to make arrangements, contact the coordinator of disabled student services in Student Advisory Services, UCC 228 (telephone 208/885-7716; TDD [for deaf users] 208/885-7471).

Minority Student Programs. UI is committed to establishing and maintaining a campus environment that promotes cultural diversity. This commitment is backed by the provision of services for needs that are specific to Asian American, African/Black American, Native American, Hispanic American, Pacific Islander, and non-traditional students.

Minority Student Programs is a part of UI's Office of Student Advisory Services. It provides assistance to minority students in the areas of advising, scheduling, advocacy, financial aid planning, and accessing other student service programs. Minority Student Programs also targets and resolves issues that threaten recruitment and retention of minority students. This includes helping minority students access federal and university financial aid, especially scholarships that are targeted for minority students.

Minority Student Programs also coordinates minority student group activities. Minority student associations plan and carry out campus activities of special interest to their group members. Some of the activities are social events and some are cultural sharing and/or educational events. Minority student associations share a common goal with Minority Student Programs: to promote cultural diversity on the UI campus.

Veterans' Benefits for Educational Assistance. The Office of Veteran Affairs assists veterans, dependents, reservists, and national guardsmen who are eligible for educational benefits through the Veterans Administration. Students expecting to receive veterans benefits must apply for benefits and should contact the Office of Veteran Affairs at least six weeks before the beginning of each semester.

To qualify for payments, all veterans must be released under other than dishonorable conditions. To receive full benefits, a veteran must be pursuing an approved course of study leading to a degree or other professional objective. To be considered full time, undergraduate students must carry 12 credits or the equivalent, and graduate students must carry 9 credits or the equivalent (see regulation O-1 in part 3).

An advisory service is available to veterans and additional information, advice on benefits, or application forms may be obtained by writing to the veterans' adviser in Student Advisory Services (UCC 241).

Student Support Services

Student Support Services is a federally funded educational assistance program that helps qualifying students to establish, maintain, or improve their academic performance.

Designed to complement other campus resources, the Student Support Services program provides **highly individualized** educational planning, academic monitoring, learning and study skill development, and extensive tutoring. In addition, specialists in reading, writing, and mathematics are available to work individually with students wishing to improve basic skills or who are experiencing difficulty in these areas. Student Support Services is particularly helpful for students with special needs (e.g., re-entry, nontraditional, on academic probation, specially admitted, or disabled).

To be eligible for services, a student must be either low income, OR from a first generation family (neither parent has earned a baccalaureate degree), OR have a learning/physical disability. Students are accepted into the program on a first-come, first-served basis and are encouraged to contact the office as early in the semester as possible. For more information, stop by or call, Phinney Hall 302 (208/885-6746).

Learning Disabled Students

Student with learning disabilities are encouraged to contact the Student Support Services office as soon as possible in order to obtain timely information and to arrange for accommodative services (e.g., extended examination time, private test space, reader services). Although the program offered through Student Support Services is not designed exclusively for students with learning

disabilities, many of the services and support available through this program are essential to academic achievement. Documentation is required and limited on-campus assessment is available. Contact Student Support Services, Phinney Hall 302, or telephone 208/885-6746 for more information.

Student Counseling Center

Many students find that it is helpful to discuss their concerns with a professional who takes the time to listen and understand. Psychologists at the Student Counseling Center are available to meet with students to discuss personal, educational, or vocational concerns. Counseling can help students learn more about themselves and develop new skills to deal more effectively with personal problems, problems with abusing alcohol or other substances, relationships, and academic pressures.

The center offers the following services: individual counseling, group counseling, couples counseling, educational and career counseling, educational presentations, referral, and testing. In addition to psychological and vocational testing, the center coordinates and administers all of the national testing programs such as the GRE, ACT, NTE, LSAT, and TOEFL.

The center maintains a self-help resource room that contains books, tapes, and other informational materials on a wide variety of topics related to emotional health and well-being. The resource room also contains vocational information available through DISCOVER, a computer-based career and educational information program, and printed information on more than 700 career options as well as college catalogs for undergraduate and graduate programs throughout the region. Students are welcome to use the resource room on a drop-in basis. All services are available to full-time students and with some limitations to their spouses without charge. An appointment may be scheduled by coming to the Student Counseling Center, UCC 309, or by calling 208/885-6716.

Student Health Service

The Student Health Service is open when the university is in session, providing care to full-time and part-time students, student spouses, and dependents.

Patient care is available for fall, spring, and summer sessions, except during vacations. The Student Health Service is open Monday through Friday, 8 a.m. to 4:30 p.m. during fall and spring semesters. Summer hours are 8:30-11:30 a.m. and 1-3:30 p.m. The office operates on a walk-in basis, with no appointment necessary. Emergency care is available at Gritman Medical Center in Moscow when the Student Health Service is closed.

The Student Health Service provides out-patient care only. When hospitalization is necessary, patients will be admitted to Gritman Medical Center. Psychiatric evaluation is available from consulting psychiatrists, by referral from the Student Health Service or the Student Counseling Center. Nominal fees are charged for out-patient visits, certain procedures, and special services such as lab tests, x-rays, and medications.

Students and interested family members are eligible to visit the Student Health Service and acquaint themselves with the services available.

Health and Accident Insurance Coverage

All fee-paying students (faculty, staff, retirees, and senior citizens excepted) are automatically covered by **accident insurance** during the academic year. The insurance does not cover illness. Full-time students are covered 24 hours a day subject to exclusions and limitations in the policy. Coverage for part-time students is limited to accidents that occur on the university campus, at the student's residence, on property leased or owned by the university wherever located, and—except as otherwise limited—to participation in official university programs and travel authorized by the university. Benefits

are payable at 80 percent of usual, customary, and reasonable medical expenses due to accident, subject to exclusions and limitations in the policy. Limits of this coverage are \$5,000 in benefits paid after a \$150 deductible per accident (\$500 deductible for Club Sports and intramural accidents).

A **health and extended accident insurance** plan and a separate **catastrophic medical insurance** plan are available to University of Idaho students enrolled for academic credit and their spouses/children. These insurance plans are intended to supplement the services provided at the Student Health Center and the insurance protection provided by the basic accident insurance described above.

Health and extended accident insurance is designed to offset expenses resulting from a major accident or serious illness that might require medical care, hospitalization, and surgery beyond services provided at the Student Health Center or covered by basic student accident insurance. When purchased for the year, health and extended accident insurance provides coverage for a full year whereas the Student Health Service and the protection of the basic accident plan are available only during regular academic sessions. Health and extended accident insurance supplements Student Health Services by providing coverage for medical services that must be obtained elsewhere such as hospitalization or referral to a specialist.

Students who do not decline insurance when preregistering for classes will be covered by optional health and extended accident insurance providing \$25,000 in coverage at 80% of UCR subject to a \$150 deductible per year. Students may also elect to purchase optional catastrophic insurance extending coverage to \$250,000 for a student (\$100,000 for dependents), payable at 80% UCR, subject to a \$25,000 deductible (the amount covered by the other optional plan). Insurance may also be purchased directly from the agent. Students who do not have other health insurance and students with dependents are especially urged to purchase health and extended accident insurance. **Dependents** must purchase insurance within the enrollment period. Nonresident alien students must either purchase health and extended accident insurance or document coverage by equivalent insurance as part of their obligation to establish proof of financial responsibility for expenses incurred while attending the university.

Brochures describing the Student Health Service, the accident insurance plan, the health and accident insurance plan, and the optional catastrophic major medical plan are available from the Student Health Service, the Risk Management Office, or the agent's office and are distributed during registration.

Financial Aid

Financial aid is federal, state, university, and local assistance provided to eligible students through the Office of Student Financial Aid Services in the form of grants, loans, part-time work, and scholarships to help pay the cost of attending college. These programs may include scholarships, Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), State Student Incentive Grants (SSIG), Federal or Idaho State Work-Study Programs (CWS or IDWS), Federal Stafford Loans, Unsubsidized Stafford Loans for Middle Income Borrowers, Federal Parent Loans to Undergraduate Students (PLUS), and Federal Supplemental Loans for Students (SLS).

Because funds are limited, to receive priority consideration for all funds you must submit the University of Idaho Financial Aid Application (FAA) and the Free Application for Federal Student Aid (FAFSA) by the priority deadline each year. The priority deadline is usually in February, and is published in the financial aid publications each year. The FAFSA should be mailed no later than the end of January in order for it to reach the processor by the priority receipt deadline. In addition, all students who are new to the university must also have applied for admission by the February priority date. Students who meet all these deadlines will receive first consideration for all funds for which they qualify. Students who do not meet all of these deadlines will still be considered for Federal Pell Grants and Federal Stafford Loans, which are available throughout the year.

Financial aid during the academic year is usually awarded in expectation of full-time enrollment: 12 credits per semester for undergraduate students, 10 credits per semester for law students, or 9 credits per semester for graduate students. Students will be required to enroll full time to receive scholarships, unless the donor specifies special circumstances allowing part-time enrollment. Students who meet all deadlines, but who enroll less than full time, will be considered for federal financial aid at a lower priority than those who are enrolled full time. Any aid given for less than full-time enrollment is generally in proportion to the student's credit load. All students must enroll at least half time (6 credits per semester for undergraduate students or 5 credits per semester for graduate or law students) to be considered for any type of financial aid.

Students who wish to apply ONLY for scholarships not based on financial need and no other type of financial aid must do one of the following in order to receive consideration:

(a) Students who are attending the university for the first time in 1993-94 only need to have a complete application for admission on file by the February priority deadline.

(b) Students who are enrolled at the university during the Spring 1993 semester in at least 9 credits for undergraduates, 10 credits for law students, or 6 credits for graduates will be considered automatically (without completing any additional forms) for scholarships not based on financial need.

(c) Students who are enrolled at the university for the Spring 1993 semester but in less than 9 credits for undergraduates, 10 credits for law students, or 6 credits for graduates will need to notify the scholarship coordinator in Student Financial Aid Services by the February priority deadline of their interest in scholarships not based on financial need for 1993-94.

(d) Students who previously attended the university, but were not enrolled during the Spring 1993 semester, must file an "Application for Permit to Register" with the Registrar's Office by the February priority deadline.

Students who are awarded Federal Work-Study or Idaho State Work-Study will be offered part-time employment in order to earn their award amount. Applications for these programs are part of the general application for financial aid. Awards are made based on financial need to students who meet all the deadlines.

Students who have one or more bachelor's degrees, who are working toward an additional undergraduate degree or a teaching certificate and who are not yet admitted to graduate school, are considered to be second undergraduates and are not eligible for federal grant programs (Pell, SEOG, or SSIG). They are restricted to undergraduate borrowing limits for loan programs. Students who are admitted or enrolled in the College of Graduate Studies or the College of Law are considered to be graduate students, and are eligible to apply for all financial aid programs except Federal Pell Grants and Federal Supplemental Educational Opportunity Grants. Nonmatriculated students (those not enrolled in a degree program) may not be considered for any type of federal financial aid. Correspondence classes may not be funded by any type of federal financial aid.

To receive state and federal financial aid, a student must be in good academic standing according to the Financial Aid academic satisfactory progress standards. (It should be noted that the eligibility criteria for financial aid differ from those for academic eligibility contained in regulation L-5.) All students receiving federal financial aid will be evaluated for satisfactory progress at the end of each academic year.

An undergraduate student is considered to be making satisfactory academic progress for financial aid purposes, if he or she has a cumulative GPA of at least 1.6, having completed 0-32 credit hours; or 1.8, having completed 33-64 credit hours; or 2.0, having completed 65 or more credit hours. In addition, the student must have completed (received a grade for) a minimum of 24 credit hours if he or she was enrolled full time for the academic year, or a

minimum of 12 credits if he or she enrolled full time in only one semester. If the student is enrolled less than full time, he or she must complete a minimum of 12 credits for the academic year (6 for one semester) if enrolled half time or 18 credits for the academic year (9 for one semester) if enrolled three-quarter time. Students must meet both the minimum cumulative grade-point requirement and the minimum completed credit-hour requirement to be in good standing. A student who fails one or both standards is suspended from eligibility for federal financial aid. Once a student has accumulated 24 credits more than the minimum number required for a baccalaureate degree but has not graduated, he or she is not eligible for federal financial assistance as an undergraduate.

A graduate student is considered to be making satisfactory academic progress for financial aid purposes with a cumulative grade-point average of at least 3.0. In addition, the student must have also completed (received a grade for) a minimum of 18 credit hours if enrolled full time for the academic year, or a minimum of 9 credits if enrolled full time in only one semester. If the student is enrolled less than full time, he or she must complete a minimum of 10 credits (5 for one semester). Once a student has accumulated 42 credits toward a master's degree, 72 credits toward a specialist or Master of Fine Arts degree, or 96 credits toward a doctoral degree, he or she is not longer eligible for federal financial assistance.

Students who are suspended from eligibility for federal financial aid may appeal this decision. The student must contact the academic dean of the college they were enrolled in when suspended from financial aid. The student's academic dean may recommend a waiver of the above criteria in a signed memorandum to the director of the Office of Student Financial Aid Services, who makes the final decision. A denial by the director of Student Financial Aid Services may be appealed to the Student Financial Aid Committee, and then to the Administrative Hearing Board. Students suspended from receiving financial aid may also reinstate their aid eligibility by successfully completing a semester of 12 credits with a GPA of at least 2.0 for undergraduate students, or 9 credits with a GPA of at least 3.0 for graduate students, without receiving federal financial aid. Once the successful semester has been completed, a written request for reinstatement must be submitted by the student to the Office of Student Financial Aid Services for review.

Financial aid policies and procedures are subject to change without notice to assure compliance with federal regulations. The Office of Student Financial Aid Services may be contacted for current information. Additional information is available in a student financial aid brochure published each year.

Special Awards

Many awards are made each year in recognition of outstanding achievement both in academic and nonacademic pursuits. For more information, contact the individual academic department or, for non-academic awards, the ASUI Office.

Recreational, Social, and Extracurricular Activities

The Student Union is the recreational and social center for the university community. Facilities include bowling alleys, billiard tables, music listening rooms, computer study rooms, cafeteria, snack bar, ballroom, theater, and meeting and banquet rooms. The twice-weekly campus newspaper, the *Argonaut*, and the yearbook, the *Gem of the Mountains*, are published by ASUI (Associated Students University of Idaho). These publications offer opportunities for those interested in journalism or photography. ASUI (to which every student who pays regular fees belongs) supports outdoor recreation programs, speakers, films, dances, entertainment, and special events. Extensive intramural athletic programs are available for both men and women under the direction of Campus Recreation. Recreational facilities located on the campus include the Kibbie-ASUI Activity Center, indoor and outdoor tennis and handball courts, golf course, and swimming pools.

Intercollegiate Athletics

Idaho has a strong intercollegiate athletic program for both men and women within the combined Athletic Department.

The teams are known as the Vandals. The men's program includes football, basketball, cross country, indoor and outdoor track, tennis, and golf.

The Vandal football team competes in NCAA Division I-AA with some 89 other institutions across the country. All other men's and women's sports compete in NCAA Division I.

The women's program consists of basketball, volleyball, cross country, indoor and outdoor track, tennis, and golf.

The men's and women's programs compete as members of the prestigious Big Sky Athletic Conference, which includes eight members. In addition to Idaho, Big Sky Conference members include Boise State University, Eastern Washington University, Idaho State University, Montana State University, Northern Arizona University, University of Montana, and Weber State University.

The athletic program is fortunate to have splendid facilities that are among the best in the Northwest. The Kibbie-ASUI Activity Center (also known as the "Dome") houses the Athletic Department offices, team locker rooms, weight room, and athletic training room. The Dome itself is the site for football and men's basketball games. The 16,000 seats for football and approximately 10,000 seats for basketball make it an outstanding facility. The historic Memorial Gymnasium is home for Idaho volleyball and women's basketball. Track and field and tennis make great use of the Dome as well with the five-lane, 290-meter track and the nine indoor tennis courts. The 400-meter outdoor track stadium is a real asset. The 18-hole championship golf course and numerous outdoor tennis courts complete the facility picture.

Student Organizations

University of Idaho students may organize or join associations to promote their common interests. There are many student organizations on campus with varied objectives and programs. A list of these organizations, together with names of current officers, is maintained and information concerning them may be obtained from the ASUI secretary.

New Student Services

The Office of New Student Services represents the University of Idaho to prospective students and assists those students and their counselors and parents with decisions about higher education. Staff members visit high schools and present programs about the university to interested students, attend college fairs, distribute brochures, coordinate the flow of information from UI's colleges to students who express particular educational interests, and answer questions raised by students, counselors, and parents.

New Student Services also sponsors a campus visitation program that offers prospective students an opportunity to spend two days on campus. Staff members provide campus tours, living group tours, and overnight lodging, arrange appointments with faculty members, suggest classes and activities that prospective students may attend. For more information, call the Office of New Student Services, 208/885-6163, or 800/422-6013.

Cooperative Education

Cooperative Education is an academic program in which students clarify career and academic goals, and reinforce and expand classroom study by participating in paid, practical work experience. The University of Idaho's program serves U.S. and international undergraduate and graduate students with a diversity of career interests and majors. The staff of Cooperative Education works closely with faculty and students to ensure that work experiences have academic merit, to develop appropriate learning agreements,

and to monitor work experience progress. Specific academic credits and course grades are determined by faculty advisers who approve the Cooperative Education experience based on departmental requirements, the number of hours spent during the placement, and the nature of additional projects assumed by the student.

National, regional, and local employers request Cooperative Education students in a wide variety of majors and for placements during any semester of the year typically for three to nine months in length. Specific compensation is determined by the employer offering the position. The Cooperative Education staff also assists students to find appropriate placements, develop effective application materials and interview skills, seek placement opportunities to fit their individualized academic and career interests, and make a smooth transition from school to work site.

To be eligible for Cooperative Education experiences, students must be in good academic standing in their degree program. Students must continue to be in good academic standing and perform to the employer's satisfaction at the work site to remain in the Cooperative Education placement.

Cooperative Education also has listings for non-paid (volunteer) internships that provide students with valuable work and academically relevant experience. Many of the career development programs and services are coordinated with Career Services. A weekly Cooperative Education Orientation is scheduled Tuesdays from 12:30 to 1:15 p.m. to give interested students an overview of the program and the basic application materials necessary to apply for positions. For more information, contact Cooperative Education, Education 204 (208/885-5822).

Career Services Center

The purposes of the Career Services Center are to (1) assist UI students in any field of study and at any academic level in identifying and working toward their career objectives; (2) assist students and alumni in obtaining employment appropriate to their ability, education, and experience; and (3) serve the state, region, and nation by providing information on curricula and graduates to prospective employers.

A principal feature of the center is the establishment and maintenance of a placement file for each registrant seeking employment. The files contain educational and experiential data as well as recommendations in conformance with the Educational Rights and Privacy Act. Throughout the year, representatives of business, industry, government, and education come to the center to interview student and alumni registrants. The center also maintains a part-time and summer placement system, and provides weekly newsletter publications that list employment opportunities.

Alumni Association

The University of Idaho Alumni Association exists to help create and coordinate the support of alumni and friends of the university in strengthening the academic, research, service, and leadership-building programs of the institution. It also provides individual alumni services to its members throughout the world.

All former students who earned 90 or more credits at UI and associate and honorary alumni are members of the association. Those students with 26-89 credits may be added if they request membership. The director of alumni relations and staff, along with an elected board of directors, guide the many programs and activities of the more than 61,000 members.

The Alumni Association strives to keep alumni informed about their alma mater, encourage alumni moral and material support, and apprise the university community of alumni opinion. Through a variety of awards, the association honors outstanding alumni, students, or other individuals who provide exceptional service to the institution or state of Idaho. Scholarships are given by the association to help both entering and continuing students at the university.

Alumni maintain close ties with the university as a result of Alumni Association services, such as travel tours, continuing-education programs, and campus and worldwide gatherings for special UI occasions, including Homecoming and Silver and Gold Days. The Alumni Office gathers and maintains records of alumni, and this contact service is available to the university and its alumni. The association also provides and organizes support for the university through active organizations, such as the Parents Association and the Student Alumni Relations Board.

Areas of recent emphasis for the association include informing prospective students about the university, providing continuing education opportunities, establishing a Career Network, and increasing volunteer support through the development of alumni chapters and constituency groups. The association is also strengthening and expanding its membership service area, with the Alumni Visa Card, and the addition of the Alumni Network long distance affinity program and the Quest Hotel discount program.

Religious Activities

The university is served by three campus religious centers: Campus Christian Center, corner of University and Elm; LDS Institute of Religion, 902 Deakin; and St. Augustine's Roman Catholic Center, corner of Sixth and Deakin. These centers provide opportunities for the study and practice of religion as well as resources in counseling and guidance.

All of Moscow's churches provide opportunities for religious development for University of Idaho students.

International Programs

The International Programs Office (IPO) has campus-wide responsibilities for international activities, including student and faculty exchanges and study abroad. IPO also acts as a clearinghouse for international education activities, training, development programs, and research agreements, and provides support for international activities in the colleges. IPO is located in 216 Morrill Hall, telephone 208/885-8984.

International Students

International students are an integral part of the ethnic diversity of the University of Idaho. Representing more than 70 countries from around the world, international students contribute significantly to the rich cultural atmosphere at UI.

International student services are provided by international student advisers (ISAs) in IPO. All matters pertaining to students' status with the U.S. Immigration and Naturalization Service (INS in the Department of Justice) are handled by the ISAs, and they also serve as official liaisons between students and their consular offices or sponsoring agencies. ISAs are involved with the progress of international students at every stage of the educational process, and students are encouraged to visit an ISA regularly to discuss concerns or questions related to education, financial, or cultural adjustments.

Once a student has been admitted, general information is provided about what to bring to the U.S., the U.S. educational system, and housing. An orientation before registration answers initial questions and provides new students with information and skills to succeed in their academic programs and cultural adjustment. Community contacts are arranged through the International Friendship Association, and the Students' International Association, a group of U.S. and international students, sponsors other social, cultural, and educational activities.

Nonresident alien students must either purchase health and extended accident insurance or document coverage by equivalent insurance as part of their obligation to establish proof of financial responsibility for expenses incurred while attending the university. See the insurance section in this catalog for more information.

American Language and Culture Program

The American Language and Culture Program (ALCP) offers full-time programs in intensive English. Courses are offered throughout the year, with two eight-week sessions during fall and spring semesters and one eight-week session in the summer. The program also offers specialized short-term programs on request.

Students wishing to improve their English or achieve the required level of proficiency on the Test of English as a Foreign Language (TOEFL) for admittance to UI (or other educational institutions) can work toward that goal while living on the UI campus (if desired) and attending the American Language and Culture Program. Courses in reading, writing, speaking, and listening are offered at various levels from beginning to advanced. Students take part in special cultural activities and learn about the "Culture of America and the American University."

For more information and/or applications, contact the ALCP coordinator through the International Programs Office.

Study Abroad

In addition to its responsibilities to international students, IPO encourages UI students to broaden their education and gain international perspective on their academic objectives by participating in a study abroad program. IPO maintains information on many kinds of foreign study and travel available to UI students and faculty. University of Idaho students may earn credit for foreign study and study-touring in the following ways:

1. Official University of Idaho study tours—credit may be earned under Ed 273 and 473 and departmental "special-topics" courses 204 and 404.
2. Directed study—students may plan their own educational experiences abroad, and arrange *in advance* for credit from any appropriate department. This is for education comparable to that gained in the other courses of the department, but it may be as general and inclusive as the department will allow.
3. Course challenge—certain courses may be challenged on the basis of knowledge gained abroad. See regulation D-4.
4. External study/experience—credit may be awarded to students for knowledge and/or competence gained in foreign travel. See regulation I-5. In view of the documentation required, the procedure noted in 3 above is much more effective than this "after-the-fact" procedure.
5. Transfer of credits—work in other accredited institutions of higher learning can be recognized by the transfer of credits to the University of Idaho. This work may be in the study-abroad programs of other American schools or in foreign schools. IPO has a variety of reference materials available for students to look through.

UI participates in the following study abroad programs:

International Student Exchange Program (ISEP). ISEP offers opportunities for students to study for a semester or year at 100 institutions in 40 countries. Students with sophomore, junior, senior, or graduate status, a 2.75 or better grade-point average, and two years of college-level language study (if applicable) are eligible to apply. Courses taken through ISEP are considered transfer credit and graded on a pass/fail basis.

University Studies Abroad Consortium (USAC). USAC offers opportunities for students to study for a semester or year in Spain, France, Italy, Chile, and Australia. With the exception of the Australian program site, USAC is predominantly a foreign language acquisition program. Students normally take 12-14 credits of language courses a semester as well as one culture course (history, literature, art, etc.). Several excursions designed to enhance classroom lectures are also taken each semester. Students do not need any previous language study to participate in the program. Students with sophomore, junior, senior, or graduate status and a 2.5 or better grade-point average are eligible to apply. Courses taken through USAC are considered resident credit and receive grades.

Council on International Educational Exchange (CIEE). CIEE offers opportunities for students to study for a semester or year at 34 institutions in 17 countries. Students with junior, senior, or graduate status, 2.75 or 3.00 or better grade-point average (depending on program site), and two years of college-level language study (if applicable) are eligible to apply. Courses taken through CIEE are considered resident credit and receive grades.

Cooperative Center for Study in Britain (CCSB). CCSB offers opportunities for students to study in London, Ireland, and Scotland during the summer, Oxford during the fall semester, and London during the winter break. Excursions designed to enhance classroom lectures are an integral part of this program. Students with sophomore, junior, senior, or graduate status and 2.5 or better grade-point average are eligible to apply. Courses taken through CCSB are considered resident credit and receive grades.

UI also has its own exchange programs with the following institutions:

Pontificia Universidad Católica del Ecuador (PUCE) - Ecuador. This year-long program is designed for Spanish and Latin American studies majors. Students with junior, senior, or graduate status, 2.5 or better grade-point average, and two years of college-level Spanish are eligible to apply. Courses taken at this institution are considered resident credit and are graded on a pass/fail basis. Students interested in the PUCE exchange program should contact Irina Crookston in the Department of Foreign Languages and Literatures (telephone 208/885-8965).

Ecole Supérieure de Commerce de Chambéry - France. This spring-semester program is designed for French and business majors. Internships with French businesses (if they can be arranged) are an integral part of this program. Students with junior, senior, or graduate status, 2.5 or better grade-point average, two years of college-level French, and some previous business study are eligible to apply. Courses taken at this institution are considered resident credit and receive grades. Students interested in the Chambéry exchange should contact Alan Rose in the Department of Foreign Languages and Literatures (telephone 208/885-8926) or John Knudsen in the Department of Economics (telephone 208/885-7147).

Gold Coast University College, Griffith University - Australia. This semester program is designed for business and economics

majors. Students with junior or senior status and 2.5 or better grade-point average are eligible to apply. Courses taken at this institution are considered resident credit and receive grades. Students interested in the Gold Coast University College, Griffith University exchange should contact John Knudsen in the Department of Economics (telephone 208/885-7147).

Växjö University - Sweden. This semester or year-long program is designed for education, business, and sociology majors. Students with junior, senior, or graduate status and a 2.5 or better grade-point average are eligible to apply. Växjö University offers UI students a \$300 stipend (approximately) a semester to study on their campus. Courses taken at this institution are considered resident credit and receive grades.

Brighton Polytechnic - UK. This spring-semester program is designed for physical education and recreation majors. Students with junior, senior, or graduate status, 2.5 or better grade-point average, and some previous courses in physical education or recreation studies are eligible to apply. Courses taken at this institution are considered resident credit and receive grades. Students interested in the Brighton exchange program should contact Diane Walker in the Division of Health, Physical Education, Recreation and Dance (telephone 208/885-7921).

Newcastle Upon Tyne - UK. This semester-long program is open to all majors. Students with junior, senior, or graduate status and a 2.5 or better grade-point average are eligible to apply. Courses taken at this institution are considered resident credit and receive grades.

All students who participate in USAC, CIEE, CCSB, and the PUCE, Chambéry, Växjö, Gold Coast College, Griffith University, Brighton, and Newcastle exchange programs do not pay their normal UI registration fees. Instead, they pay a \$75 registration fee (in addition to the program cost) for each semester they are abroad.

All students participating in study abroad programs are required to be registered as full-time students unless special arrangements have been made.

For more information about foreign study or travel, call or visit the study abroad coordinator in 216 Morrill Hall (telephone 208/885-8984).

General Requirements and Academic Procedures

These regulations were in effect as of January 1, 1993. See the Time Schedule for any substantive changes that may have been approved after this catalog went to press.

The following procedures and regulations have been adopted to help students, faculty members, and administrators carry out UI's overall academic program successfully. Students have the ultimate responsibility for meeting university, college, and departmental graduation requirements and academic procedures. Students, with the help of faculty advisers, should check their records each time they prepare to register to ensure that they are correctly and systematically fulfilling their degree requirements. It is the responsibility of advisers, major professors, and deans to assist students in understanding and complying with these requirements and procedures. The registrar assists by checking students' records for compliance with the regulations in this section of the catalog. Requests to waive curricular requirements, academic provisions, or academic standards should be presented to the appropriate department and/or college.

Students may petition the appropriate committee for exceptions to the administrative and academic regulations of UI. Petitions are submitted to one of the following committees depending on the nature of the petition.

Academic Petitions Committee. Student petitions for exceptions to the requirements and procedures in this catalog section (part 3) should be presented to the Academic Petitions Committee on forms available in college offices.

Academic Hearing Board. This committee hears student appeals from decisions made by college authorities concerning, but not limited to, such matters as (1) eligibility for advanced placement or credit by examination, (2) objectivity or fairness in making, administering, and evaluating class assignments, (3) maintenance of standards for conscientious performance of teaching duties, and (4) scheduling of classes, field trips, and examinations. The board does not hear appeals concerning requirements or regulations of the College of Graduate Studies or the College of Law.

Administrative Hearing Board. Students submit appeals to the Administrative Hearing Board on administrative decisions in such matters as residence status for tuition purposes, granting of student financial aid, and assessment of fees or charges (except in connection with parking regulations), and disputes involving interpretation and application of policies concerning such matters as student records, smoking, and treatment of disabled persons.

Appeals from decisions of the Academic Petitions Committee and the Academic Hearing Board are submitted to the provost. If the provost concurs with the body whose decisions was appealed, the appellant then may appeal to the president and regents if the president and regents consent to hear the appeal.

Decisions of the Administrative Hearing Board may be appealed to the president and regents when they consent to hear such appeals.

A—Matriculation

Applicants for enrollment in any course offered by UI for college credit, except correspondence study, submit personal data and credentials covering all previous academic work. (See "Admission to the University" in part 2.) After UI has received these credentials and approved the application, registration forms are prepared and the applicant's first registration at UI concludes the matriculation process.

B—Registration

B-1. Preparation of Registration Materials. Official registration forms are prepared for new students as described above. They are also prepared for students enrolled in a given semester or summer session for the succeeding semester. Former students who have not been enrolled in UI for a semester or longer should notify the

registrar of their intention to reregister at least one month before the opening of the term. Such students will be required to submit transcripts from any institutions attended since their last registration at UI, and they may also be required to complete a residence questionnaire. Failure to meet the deadline may cause a delay in registration.

B-2. Admission to Classes.

B-2-a. Instructors do not admit anyone to class whose name does not appear on the class roster or for whom they have not signed an "add" card. UI professors are given the authority to grant or deny access to classes by visiting scholars.

B-2-b. At the beginning of each academic session, students with their advisers' aid complete a trial study list. The information is then transcribed to the official registration form, which is signed by the adviser and is checked by such intracollege procedures as the student's college may require. After obtaining necessary approvals and receiving departmental validation for each course, the student files the completed registration form with the registrar. On payment of fees, admission to classes is authorized.

B-3. Auditing Classes. Auditing a course consists of attendance without participation or credit. Only lecture classes may be audited. Audited courses are not recorded on a student's permanent record, except as provided in the chart with regulation C-1.

B-4. Registration for Zero Credit. Any course offered for credit may be taken for zero credit. The implications of zero credit are:

B-4-a. Registrants are expected to do the assigned work and attend class sessions. Grades are received on the same basis as if the course were taken for credit and are entered on permanent records.

B-4-b. Students enrolled in a course for zero credit may take it P/F. This is separate from the "pass-fail option" outlined in B-11.

B-4-c. Courses taken for zero credit do not fulfill requirements.

B-4-d. Zero-credit grades have no effect on a student's grade-point average. Neither do they affect academic eligibility, disqualification, or reinstatement.

B-4-e. Students enrolled for zero credit count as regular registrants for statistical purposes, such as listing course enrollments, computing instructors' loads, and determining departmental services.

B-5. Correspondence-Study Courses. A student enrolled in the regular program is permitted to carry correspondence-study courses for college credit only with the prior written approval of his or her academic dean. Credit for correspondence-study courses will not be accepted without such approval. A student will not receive credit for a correspondence-study course offered by any institution if they have previously received a grade in the course at UI (see E-5).

B-6. Registration for Courses Without Completion of Prerequisites. Students who have not completed the prerequisites to a course for which they are otherwise eligible may register for the course with the instructor's approval.

B-7. Registration of Lower-Division Students in Upper-Division Courses. All academic programs give priority in the first two years to meeting the general requirements for the appropriate degree and acquiring the foundation for advanced study; therefore, lower-division students may not take upper-division courses. Exceptions may be made for students who have fulfilled the prerequisites and who are well prepared in their field of study. In such cases, the instructor may, with the concurrence of the student's adviser and academic dean, authorize the exception.

B-8. Registration of Undergraduate and Nonmatriculated Students in Graduate Courses. Undergraduate and nonmatriculated students may register in graduate courses under the conditions outlined in the Graduate Bulletin with the prior written approval of the instructor of the course, the student's adviser, and the dean of the College of Graduate Studies.

B-9. Registration of Students with Baccalaureate Degrees as Undergraduates. To register as undergraduates, students with baccalaureate degrees must secure the permission of the dean of the undergraduate college and file a statement with the registrar indicating that they understand that the work will not be classified as graduate work and cannot be used toward a graduate degree at a later date. (See J-7-b and c.)

B-10. Registration for Accelerated and Other Short Courses. Students may register for accelerated and other short courses at any time up to and including the starting date of the course without petition.

B-11. Pass-Fail Option.

B-11-a. Undergraduate Students.

(1) After consultation with their advisers, undergraduates who have a cumulative grade-point average of 2.00 or higher are permitted to enroll in one course a semester under this P/F option. (The grade-point requirement is not applicable to students who are taking university-level courses for the first time.) This procedure is separate from taking courses that are regularly graded P/F. Within the limitations specified above, an undergraduate may enroll under the pass-fail option in any course EXCEPT: (a) courses listed by number and title in the student's major curriculum as printed in part 5; (b) courses taken to meet the distributional requirements of the college or curriculum, unless allowed for P/F enrollment by the department in which the student is majoring; (c) courses in the major subject field; and (d) courses in closely related fields that are excluded from this option by the student's department. (See B-11-d for "Reporting of Grades.")

(2) Students in officer education programs (OEP) may enroll under this regulation in courses required because of their affiliation with the OEP ONLY with the permission of the administrator of the OEP department concerned.

(3) A maximum of 12 credits earned in courses under this regulation may be counted toward a baccalaureate degree.

B-11-b. Graduate Students.

(1) With the approval of the major professor concerned (or adviser in the case of an unclassified student) and the dean of the College of Graduate Studies, graduate students may enroll in a limited number of courses under this P/F option. This procedure is separate from taking courses that are regularly graded P/F.

(2) Courses that may be taken by graduates under this regulation are: (a) any course that the student's graduate committee deems not essential to the major field and (b) any course required to remove a deficiency or to provide background for the student's program, unless the major department stipulates that such deficiency courses must be taken on a regular-grade basis and completed with an A or B.

(3) Of the minimum number of credits required for a degree, no more than three credits in a master's or specialist program or nine in a doctoral program may be taken under this P/F option.

(4) To have P recorded for courses taken under this regulation, a graduate student must earn a C or above. A grade of D will be converted to an F on the student's records.

(5) An unclassified student may enroll for courses under this option with the approval of his or her adviser (if assigned) and the dean of the College of Graduate Studies. If, however, at a later date an unclassified student is admitted to a degree program, the above regulations apply and no changes to regular letter grades will be permitted.

B-11-c. Adds, Drops, and Changes. Students may add or drop a P/F option course in the same manner as a regular course, and they may change from P/F to regular-grade classification, or vice versa, if they do so no later than the deadlines stated in regulation C and the academic calendar. Students may make these changes by securing the signatures of the adviser or major professor and dean concerned.

B-11-d. Reporting of Grades. Instructors are not notified as to which students are enrolled in courses under this P/F option. Grades are reported in the same manner as grades in courses taken on a regular-grade basis. The registrar is responsible for converting Cs or above to Ps on students' records and, for graduates, Ds to Fs. Grades of D reported for undergraduates are recorded on students' records and are not converted.

B-12. Registration for Fewer Credits than Authorized. Students may register for a particular course for fewer credits than indicated in the Time Schedule (they may also register for zero credit under the conditions outlined in B-4); likewise, departments may list courses in the Time Schedule for fewer credits than the number authorized by this catalog.

C—Changes in Registration

C-1. Students may change their registration as provided in the "Semester Schedule for Changes in Registration" accompanying this regulation. All registration changes are effective on the date they are filed with the registrar, except in the case of withdrawal from the university before the end of the second week following midterms, which is effective on the date the indefinite-leave-of-absence card is filed in the office of the student's academic dean (see G). Students may not drop a course by simply staying out of class. Students are expected to obtain the signature of the class instructor, adviser, and dean on the drop card. These signatures are informational and do not necessarily indicate approval.

C-2. Credit Withdrawal Limitation.

C-2-a. The number of credits that may be dropped and recorded on the student's permanent record is limited to 20 credits during a student's undergraduate career at UI. Petitions must be submitted to the Academic Petitions Committee to drop more than 20 credits during a student's undergraduate career at UI.

C-2-b. If a student attempts to drop a course that would bring the total credits he or she has dropped above 20, the student will not be allowed to do so. If a student attempts to drop two or more courses simultaneously and together they would bring his or her total credits dropped above 20, the student will be asked, through the dean's office, to submit a revised request to drop only one course or a combination of courses that would not cause the limitation to be exceeded. If the student cannot be reached or fails to submit a revised request, the registrar will record dropping the course or combination of courses that bear the highest course numbers and not cause the limitation to be exceeded; the dropping of the remainder will not be allowed.

D—Credit and Continuing Education Unit

D-1. Unit of Credit Defined. One unit of credit represents what a typical student might be expected to learn in one week of full-time study (40-45 hours including class time and preparation). Each course is evaluated by a system of credits related to time spent in class, lab, study-preparation, or field investigation. A semester credit is expected to require a total of three hours of scholarly activity each week. Ordinarily one 50-minute hour of class attendance is scheduled for each credit, but any combination of class attendance, lab, study-preparation, or field investigation may be arranged. When students are permitted to register for credit in workshops and similar short courses, credit is granted on the basis of one semester credit for each week of full-time scholarly activity required. Exceptions to this policy for undergraduate courses must be approved by the University Curriculum Committee. Exceptions for graduate courses must be approved by the Graduate Council and the University Curriculum Committee.

D-2. Credit-Load Limitations. (Also see J-5.) The maximum loads specified below include credits for which the student is concurrently registered at other institutions (e.g., Washington State University and Lewis-Clark State College).

Semester Schedule for Changes in Registration

See calendar in the front of the catalog for dates. The schedule for changes in enrollment in accelerated or short-courses or during summer session is prorated, based on the number of class meeting hours (see notes below). The calendar in the front of the summer bulletin lists the dates for summer session.

DESIRED CHANGE	First two weeks of classes*	Third and fourth weeks*	Fifth week to end of second week following midterms**	After end of second week following midterms***
Drop course.	File form with registrar, if withdrawal is permitted (see regulations C-1 and C-2). No grade recorded.****		File form with registrar, if permitted. Grade is recorded as withdrawal (W).****	For compelling reasons only, upon successful petition to Academic Petitions Committee (file petition through dean's office). Grade recorded as withdrawal (W).****
Add course (regular credit or audit).	File form with registrar.	Permission of instructor, adviser, and dean required. File form with registrar.		
Change course section.	File form with registrar.	Permission of instructor and dean required. File form with registrar.		
Change from regular credit to audit.	File form with registrar. No grade recorded.		File form with registrar. Grade of W recorded and counted in 20-credit limit for withdrawal.	Not permitted.
Change from audit to regular credit.	File form with registrar.	Permission of instructor, adviser, and dean required. File form with registrar.		
Change from regular basis to pass-fail or reduce number of credits in course.	File form with registrar.	Not permitted.		
Change from pass-fail to regular basis.	File form with registrar.	Not permitted.		
Register late.	File form with registrar.	File form with registrar. Pay late-registration fee.	For compelling reasons only, upon successful petition to Academic Petitions Committee (file petition through dean's office). Pay late-registration fee.	
Withdrawal from university. (See regulation G.)	Obtain form from Student Advisory Serv., then file it in academic dean's office. No grade recorded.		Obtain form from Student Advisory Serv., then file it in academic dean's office. Grade recorded as withdrawal (WU).****	For compelling reasons only; complete medical withdrawal or petition Academic Petitions Committee (file petition through dean's office). Grade recorded as withdrawal (WU).****
Change in undergraduate curriculum or major. (Consult the graduate bulletin for procedures applicable to graduate students.)	Anytime. File form with registrar. The request to change must be approved by the dean of the college in which the new curriculum is offered. If the new curriculum is in a different college, students must meet the admission requirements of that college. Students must also see the dean of the college they are transferring out of for counseling and information purposes (not for permission to transfer). A cumulative grade point average of 2.00 or better is normally required to transfer from one UI college to another; however, any student may transfer to the General Studies Program by consulting the director of the program (the signatures in this case are only to certify that the student's academic records have been forwarded). The change of curriculum is official when the student files the completed form with the registrar.			

*In the case of accelerated or short courses, when no more than 12.5 percent of the class-meeting hours have been completed.

**In the case of accelerated or short courses, after 60 percent of the class-meeting hours have been completed.

**In the case of accelerated or short courses, after 12.5 percent but less than 60 percent of the class-meeting hours have been completed.

***In the College of Law, consult the dean's office for information concerning grades assigned when students withdraw from law courses after the second week of classes.

D-2-a. Regular Semester. A student may register for no more than 20 credits in a semester. This number may be increased to 22 with specific written approval by his or her academic dean. Registration for more than 22 credits (except for students enrolled in the WAMI Medical Education Program) is permitted only on approval of a petition to the Academic Petitions Committee (petition forms are available in deans' offices).

D-2-b. Summer and Other Sessions. Credit limitations for summer and other sessions are as follows:

Weeks	Credit Limitations
12	15
11	14
10	13
9	11
8	10
7	9
6	8
5	7
4	6
3	4
2	3
1	1

These limitations may be increased by one credit with specific written approval by the academic dean of the college in which

the student is enrolled if the student is enrolled for more than two consecutive weeks of summer session. Registration for courses with conflicting or overlapping meeting times is prohibited. **This regulation prohibits students from registering for two 1-credit workshops in the same week.** Registration for more than the above stated limits is permitted only on approval of a petition to the Academic Petitions Committee (petitions are available in the deans' offices) or by prior approval of the University Curriculum Committee.

D-2-c. Graduate-Student Appointees. A graduate assistant may register for no more than 12 credits in a semester or 6 credits in an eight-week period. On the written recommendation of the employing dean and approval by the dean of the College of Graduate Studies, an appointee is permitted to register for more than 12 credits in one semester but not more than an aggregate of 24 credits during two successive academic-year semesters.

D-2-d. Full-Time Employees. A full-time UI employee may register for no more than six credits in a semester or three credits in an eight-week period. Written approval by the employee's departmental administrator and dean or director must accompany the registration form.

D-2-e. Nonmatriculated Students. Nonmatriculated students are subject to the limitations stated in D-2-a and D-2-b. In

addition, a nonmatriculated student who has been registered for 12 or more credits in each of two semesters must petition the Admissions Committee for permission to register for 12 or more credits while continuing as a nonmatriculated student.

D-3. Transfer Credit. Credit is accepted for work completed in accredited institutions of higher education as provided in the regulations covering the admission of transfer students. (See "Applicants with Previous College Credit" in part 2; also see E-4 and J-5.)

D-4. Challenged Courses (Credit by Examination). Degree-seeking students may challenge UI lecture and associated laboratory courses—earn credit by examination—as follows:

D-4-a. No examinations under this regulation may be conducted during the last two weeks of any academic session.

D-4-b. Students are not permitted to challenge a prerequisite course after having completed the advanced course. (See I.)

D-4-c. Credit in courses offered by the College of Law may not be obtained by this procedure.

D-4-d. Students must submit evidence to the instructor that they have sufficient knowledge to challenge a course. After a student has been granted permission to challenge a course by the instructor, by the administrator of the department in which the course is offered, and by his or her academic dean, the advanced standing exam fee is paid and the complete petition is filed with the registrar. The registrar checks the student's record and, if the student is eligible to take the advanced-credit examination, notifies the instructor to proceed with the examination.

D-4-e. Undergraduates must score C or higher to pass and obtain credit. Graduates must score B or A to pass and obtain credit. A passing grade is entered as P and is not included in grade-point computations. If students do not meet these standards, no entry is made on their records.

D-4-f. Results of the challenged courses must be forwarded to the registrar no later than the beginning of the last week of the semester. In the case of graduate students, the results are sent to the registrar via the chair of the student's major department and the dean of the College of Graduate Studies.

D-5. Review and Prerequisite Courses. Students will not receive credit for courses taken in review or for courses that are prerequisites of courses they have already completed in the same subject area, except as stated in I-1.

D-6. Continuing Education Unit. Learning activities for which regular university-level credits are not awarded may be evaluated by a system of uniform continuing education units. Such units are granted in accordance with the following guidelines, which are set forth by the (national) Task Force on the Continuing Unit: A continuing education unit is expected to require 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instructors. Continuing education, as used in this definition, includes all instructional and organizational learning experiences in organized formats that impart noncredit education to post-secondary-level learners. These properties of continuing education may be applied equally under the system regardless of the teaching-learning format, program duration, source of sponsorship, subject matter, level, audience, or purpose. The number of units to be awarded is determined by considering the number of contact hours of instruction, or the equivalent, included in the educational activity. Reasonable allowance may be made for activities such as required reports, lab assignments, field trips, and supervised study.

E—Grades

E-1. Grading System.

E-1-a. For purposes of reporting and record, academic work is graded as follows: **A**-superior; **B**-above average; **C**-average; **D**-below average; **F**-failure; **I**-incomplete work of passing quality (see

regulation F); **W**-withdrawal; **WU**-withdrawal from the university; **P**-pass (see below); **IP**-in progress (see E-2); **N**-unsatisfactory and must be repeated (used only in Eng 103 and 104 and Chem 050).

E-1-b. Grades of P may be reported at the option of the department on a course-by-course basis in noncompetitive courses such as practicum, internship, seminar, and directed study. Grades of P are also reported in courses carrying the statement, "Graded P/F," in the course description. In courses in which Ps are to be used, the method of grading will be made known to the students at the beginning of the semester, and the grading system will be uniform for all students in the courses, except as provided in B-4-b. Grades under the pass-fail option are not affected by this regulation because the conversion of the regular letter grade is made by the registrar after instructors turn in the class rosters.

E-1-c. Midsemester grades in undergraduate courses must also conform to the above regulations. It is permissible to report Ps at midsemester ONLY in courses that have been approved for grading on this basis.

E-2. IP Grades.

E-2-a. Grades in Undergraduate Senior Thesis or Senior Project. The grade of IP (in progress) may be used to indicate at least minimally satisfactory progress in undergraduate courses such as senior thesis or senior project that have the statement "May be graded IP" in the course description. When the thesis or project is accepted, the IP grades are to be removed (see E-2-c). Grades of IP in undergraduate courses are considered to represent grades of at least C or P. If, in any given semester, the instructor considers the student's progress unsatisfactory, an appropriate letter grade (D or F) should be assigned for that semester.

E-2-b. Grades in Graduate Research Courses. The grade of IP (in progress) may be used in courses 500 (Master's Research and Thesis), 599 (Research), and 600 (Doctoral Research and Dissertation). When the thesis, dissertation, or other research document is accepted, or when a student ceases to work under the faculty member who is supervising his or her research, the IP grades are to be removed (see below). Grades of IP in graduate courses are considered to represent at least grades of B or P. If, in any given semester, the faculty member supervising the student's research considers the student's progress unsatisfactory, a regular letter grade (C, D, or F) should be assigned.

E-2-c. Removal of IP Grades. Departments may use on a department-wide basis either the P/F grading system, or regular letter grades, as well as P, when removing the previously assigned IP grades (e.g., a student who enrolled for six credits in course 500 one semester, four credits another semester, and five credits an additional semester could have 15 credits of IP grades removed with different grades for each of the blocks of credit registered for each semester, such as six credits of A, four credits of B, and five credits of P).

E-3. Grades in Law Courses. For additional provisions applicable to grades in law courses, see the College of Law section in part 4.

E-4. Computing Grade-Point Averages. Grades are converted by assigning the following number of points per credit for each grade: A-4, B-3, C-2, D-1, F-0. In computing the grade-point average, neither credits attempted nor grade points earned are considered for the following: courses graded I, IP, P, W, WU, or N, correspondence courses, advanced placement credit, credit by examination, or courses taken at another institution before initial enrollment at UI. Credits attempted and grades received at another recognized institution subsequent to regular enrollment at UI for at least one semester or summer session are included in the computation; in particular, when a course in which the student has received a D or an F at UI is repeated at another institution both the UI grade and the grade from the other institution are included in the computation. Credit earned at non-U.S. institutions is recorded as pass (P) or fail (F) and affects grade-point calculations accordingly. "Regular enrollment" does not include enrollment as a nonmatriculated student.

E-5. Raising a Grade by Repeating a Course. A student who has received a D or F in a course at UI or elsewhere may repeat the course at UI in an effort to raise the grade, provided a more advanced course for which the first course is a prerequisite has not been completed in the meantime. The course must be repeated in residence, not through correspondence-study enrollment. Although all grades remain on the record, only the most recent grade is counted for grade-point purposes. (See the College of Law section in part 4 for the exception to this regulation applicable to students in that college.)

E-6. Reports of Grades and Grade Changes. Grades are reported to the registrar for all courses at the end of each academic session and at midsemester for undergraduate courses (see deadlines in the academic calendar). Students are furnished copies of grade reports. The assignment of grades and changes in grades are the sole prerogative of the instructor and are reported by the instructor directly to the Registrar's Office on forms provided by that office. With respect to grade changes, an instructor may only change a grade to a new grade that he or she could have assigned initially. After a grade has been reported to the registrar, it may not be altered except by a written request stating the reasons for the alteration, signed by the instructor who submitted the original grade. If it is determined that a grade change is warranted and the instructor cannot be reached, the departmental administrator may assume the prerogatives of the instructor in connection with the grade change.

F—Grades of “Incomplete”

F-1. A grade of “Incomplete” is assigned only when the student has been in attendance and has done satisfactory work up to a time within three weeks of the close of the semester, or within one week of the close of the summer session. It may be assigned in the case of withdrawal from UI only if the withdrawal occurs within the last three weeks of the semester. If a final grade of “Incomplete” is recorded, the instructor specifies in writing on the class roster what the student must do to make up the deficiency. The instructor also specifies the grade that is to be entered on the student's record in the event that the incomplete work is not made up by the deadline.

F-2. Removal of “Incomplete” Grades. Incomplete work should be made up within six weeks after the first day of classes of the following academic semester (not including summer session). A grade of “Incomplete” that is not removed before that date automatically converts to the grade specified by the instructor on the class roster (see F-1) unless the student previously has filed with the registrar a “Permit for Extension of Time” card, signed by his or her academic dean and the instructor concerned. If the “Incomplete” grade is not removed within the six-week period, the period may be extended once for not more than one calendar year from the date such extension is approved. If an extension is granted and the work is not made up before the expiration date, the grade automatically reverts to the grade specified by the instructor on the class roster. It is the student's responsibility to see that the incomplete work is made up before the expiration date. The instructor must submit a “Removal of Incomplete” card to the registrar within 72 hours following the expiration date. In some cases, a student's eligibility to reregister is contingent on removal of “Incomplete” grades. In such cases, an extension of time for removal of the grades may not be granted. Moreover, if a student becomes academically disqualified (see L) when an “Incomplete” grade is removed, his or her registration may be cancelled. [See E-6 for further discussion on conditions for grade changes.]

F-3. “Incomplete” Grades on Record at End of Final Term. A student cannot graduate with a grade of “Incomplete” on his or her record. At the end of the term in which the student applies for a degree, a grade of “Incomplete” in any UI course reverts to the grade that the instructor had specified on the class roster (see F-1). Reverted grades that replace grades of “Incomplete” at the end of the final term are included in the computation of the student's cumulative grade-point average at graduation. Nonetheless, a student who has graduated may make up the incomplete work within the usual time limit in an effort to raise the grade on the permanent record.

G—Withdrawal Procedures.

G-1. Standard Withdrawal Procedures.

G-1-a. A student who wishes to withdraw from UI before the end of the second week following midterms must go to Student Advisory Services (241 UCC) where the process of withdrawal is started and further instructions will be furnished for completing the indefinite-leave-of-absence card. The date on which the card is filed in the office of the student's academic dean is the official date of withdrawal. Deans will not accept indefinite-leave-of-absence cards after the end of the second week following midterms.

G-1-b. A student is permitted to withdraw from UI after the end of the second week following midterms for compelling reasons only and after approval by the Academic Petitions Committee or after completing a medical withdrawal as explained in G-2. Examples of compelling reasons are: serious illness or injury of the student or death or serious illness or injury in the student's immediate family. Petitions for permission to withdraw after the end of the second week following midterms are forwarded *via the student's academic dean* to the Academic Petitions Committee on forms available in department and college offices. If the student's petition is approved, the Academic Petitions Committee will determine the effective date of the withdrawal. (See “Refund of Fees” in part 2.)

G-2. Medical Withdrawal Procedures.

G-2-a. The director of the Student Health Service is authorized to grant or require a student's withdrawal from UI for medical reasons.

G-2-b. Voluntary Medical Withdrawal. Students desiring to withdraw from UI for medical reasons will consult the director of the Student Health Service who will evaluate the request. If granted, the dean for student advisory services will be notified in writing to process the medical withdrawal.

G-2-c. Emergency Transfer to Institutional Care. The director of the Student Health Service is authorized to act as the representative of the president in emergencies that, under Idaho laws, require the transfer of a student to a community or state health facility. The student may be granted a medical withdrawal from UI at the discretion of the director.

G-2-d. Mandatory Medical Withdrawal. It is the responsibility of the dean for student advisory services to order a medical examination of a student if the dean has reason to believe that the student has a serious medical or psychiatric disability that substantially threatens or interferes with the welfare of the student, other members of the university community, or the educational processes of the university. The dean notifies the student and the director of the Student Health Service that such an evaluation is to be conducted. This process may be started by the director of the Student Health Service for patients under care or counseling by notifying the student and the dean for student advisory services in writing.

(1) Request for Evaluation. On notification from the dean for student advisory services, the director of the Student Health Service requests the student to undergo immediate professional evaluation by the director or the director's designee, or, at the student's request and expense, by a private physician or psychiatrist deemed appropriate by the director. A report of this evaluation is presented to the director with a specific recommendation as to whether a medical withdrawal is warranted.

(2) Evaluation Conference. The director of the Student Health Service provides the student written notice of a time and place at which the director and student will confer on the final determination as to mandatory withdrawal. The student may have the assistance of a representative at this conference. The director refers to reports, recommendations, and evaluations pertinent to the case and is empowered to request additional relevant medical or psychiatric examinations of the student.

(3) Determination of Director. Based on the evaluation and the conference, the director of the Student Health Service may determine: **(a)** that mandatory withdrawal is warranted by the student's medical or psychiatric condition; **(b)** that mandatory withdrawal is **not** warranted by the student's medical or psychiatric condition; or **(c)** that the student may remain enrolled subject to conditions specified by the director. The director transmits this decision in writing to the student and the dean for student advisory services. If withdrawal is ordered, the dean will process it.

(4) Finality of Determination. Decisions made by the director of the Student Health Service pursuant to these procedures are final.

(5) Refusal of Evaluation. If, after a request by the director of the Student Health Service, the student refuses to consult with a physician or psychiatrist, the director will, if practicable, seek the help of the student's family in persuading the student to seek appropriate professional assistance. Should these efforts not result in the student taking the desired action, the director summarizes the steps taken to secure needed information and the reasons for the withdrawal and instruct the dean for student advisory services to process the withdrawal. A copy of this order for withdrawal is sent to the student. The dean will process the withdrawal as mandatory, but involuntary.

(6) Appeal. A student may appeal to the coordinator of student services either **(a)** to revoke the order of the dean for student advisory services for a medical examination or **(b)** in case a procedural error is alleged, to order the determination of the director of the Student Health Service reopened.

G-2-e. Any student placed on medical withdrawal may, if appropriate, be informed, in writing, by the director of the Student Health Service, that he or she is eligible to return to UI at a later date on the favorable recommendation of the director. When applying for readmission, the student is responsible for providing the director with evidence of satisfactory treatment of the condition that necessitated medical withdrawal. Medical withdrawals are subject to the same refund rules and procedures as other withdrawals (see "Refund of Fees" in part 2).

G-3. Grades for Students Who Withdraw. Grades for a student who withdraws are recorded as provided in C and F-1. A student who withdraws from, or leaves, UI without official approval will receive Fs in all courses in which he or she is registered and for which the grade has not already been assigned.

H—Final Examinations

H-1. The last five days of each semester are scheduled as a final exam week (two-hour exams) in all divisions except the College of Law. The following provisions apply:

H-1-a. No quizzes or exams may be given in lecture-recitation periods during the week before finals week. Exams in lab periods and in physical education activity classes, final in-class essays in English composition classes, and final oral presentations in speech classes are permitted.

H-1-b. Instructors must meet their classes during the exam period for which they are scheduled in the finals week, either for an exam or for a final class session.

H-1-c. Final exams or final class sessions are to be held in accordance with the schedule approved by the Faculty Council and published in the Time Schedule. Instructors may deviate from the schedule only on the recommendation of the college dean and prior approval by the provost.

H-1-d. Where exams common to more than one course or section are required, they must be scheduled through the Registrar's Office and are regularly held in the evening.

H-1-e. Students with more than two finals in one day are permitted, at their option, to have the excess final(s) rescheduled to the conflict period or at a time arranged with the instructor of the course.

H-1-f. Final grades for each course must be filed with the registrar within 72 hours after its scheduled exam period.

H-1-g. Athletic contests are not to be scheduled during finals week; further, if a change in the calendar causes a scheduled athletic contest to fall within finals week, every reasonable effort must be made to reschedule the athletic contest.

H-2. Students who miss final exams without valid reason receive Fs in the exams. Students who are unavoidably absent from final exams are required to present evidence in writing to the instructor to prove that the absence was unavoidable.

H-3. Instructors, with the concurrence of their departments, may excuse individual students from final exams when such students have a grade average in the course that will not be affected by the outcome of the final exam. In such instances, the grade earned before the final exam is to be assigned as the final grade.

H-4. Early final exams are permitted for students, on an individual basis, who clearly demonstrate in writing that the reasons for early final exams are compelling (such requests require approval by the instructor and by the administrator of the department and the dean of the college in which the course is offered).

I—Advanced Placement for Undergraduates

(NOTE: See part 2 for special fee for extramural credits.)

I-1. With prior approval by the administrator of the department concerned, undergraduate degree-seeking students may bypass an elementary course and enroll in a higher vertically related course. When subject mastery of the bypassed course is regarded by the department to be essential to the understanding of the advanced course, the student with a C or better in the advanced course is eligible to receive credit and a P for any bypassed courses in the same subject-matter area. The necessary forms must be filled out and forwarded by the department concerned. *Advisers should make sure that students are aware of this opportunity for obtaining advanced-placement credit.*

I-2. Students who have completed courses at other institutions after bypassing lower vertically related courses, but have not been awarded advanced-placement credit, will be granted such credit on completion of a yet higher vertically related course at UI.

I-3. Credit is granted for advanced-placement courses completed in high school in which a rating of 5, 4, or 3 is attained in College Board advanced-placement tests.

I-4. UI also grants credit for the successful completion of tests under the College Level Examination Program (CLEP), as approved for specific courses by UI departments, and for courses completed at military schools, as recommended by the American Council on Education.

I-5. With the approval of the University Curriculum Committee's Subcommittee on External Study/Experience and payment of the applicable fees, undergraduates may be awarded lower-division and/or upper-division (100-499 series) credit in recognition of university-level knowledge or competence gained in situations outside of UI's jurisdiction (e.g., in business, industry, government, or community agencies, through travel or private study, or while studying at a proprietary institution). Petitions for such credit must be approved by the student's departmental administrator and academic dean, and must be supported by such evidence as is needed to provide a sound basis for evaluating the student's achievements. Credits granted under this regulation are recorded as "external study/experience" and a P is assigned. The applicability of credits earned through external study/experience toward the satisfaction of specific degree requirements will be determined by the department and division through which the degree is to be granted. (See J-5.) Petition forms for external study/experience are available from Correspondence Study.

I-6. Advanced-placement credit granted by other accredited institutions will be honored on transfer to UI.

I-7. A statement on all forms of advanced placement can be obtained from the Admissions Office.

J—General Requirements for Baccalaureate Degrees

Candidates for baccalaureate degrees must fulfill the following requirements. (See the Graduate Bulletin for the requirements for graduate degrees. See the College of Law section in part 4 for the requirements for the degree of Juris Doctor.)

J-1. Credit Requirements.

J-1-a. Students must have earned a minimum of 128 credits to be granted a baccalaureate degree from the University of Idaho. Some programs require a higher minimum. For the minimum number of credits required in each degree program, see the major curricula of the various degree-granting units in part 5.

J-1-b. A minimum of 36 credits in courses numbered 300 or above is required for a baccalaureate degree.

J-2. UI Course Requirements.

J-2-a. After a student has completed 88 credits (120 credits in the case of a student working toward the degree of Bachelor of Architecture), he or she must complete a minimum of 32 credits in UI courses. No credits awarded for correspondence study, bypassed courses, credit by examination, College Level Examination Program (CLEP), external study/experience, or technical competence can be counted among these 32 UI credits. Exceptions to this requirement are stated below; exceptions are also made for study abroad and student exchange programs with prior approval by the student's academic dean.

J-2-b. Candidates for baccalaureate degrees at UI centers away from the Moscow campus and candidates whose curricula specifically require the completion of courses offered by institutions other than UI are exempt from the requirement stated in J-2-a. Instead, they must complete a minimum of 32 of the last 64 credits in UI courses other than those offered by correspondence study.

J-2-c. Candidates for the B.S.Ed. degree in trade and industrial/technical education are exempt from the requirement stated in J-2-a; instead, they must complete a minimum of 64 credits in UI courses other than those offered by correspondence study.

J-3. Subject Requirements (Core Curriculum). A university education is a preparation both for living and for making a living. It offers an opportunity not only to lay the foundations of a career, but also to develop the mind to its highest potential, to cultivate the imagination as well as the power to reason, and to gain the intellectual curiosity that makes education a life-long enterprise. A central component of this preparation is the requirement that a student working toward a baccalaureate degree must complete 30-32 credits of course work in the four categories described below. This requirement is to be satisfied by earning the minimum number of credits specified for each category. (Transfer students have two options for fulfilling this requirement; these are described under "Admission Requirements" in part 2 of this catalog—see paragraph 9 of "Applicants with Previous College Credit.") **Courses that have been approved for the fulfillment of the requirement in each category are listed below; students are advised to check with deans' offices for courses that may have been added after the publication of this catalog.** Generally, the approved courses are open to lower-division students and do not have prerequisites. Note: Though a given course may be listed under more than one category, it may be used to satisfy the requirement in only one category; remedial courses may not be used to satisfy any of this requirement. **Degree-seeking students must be enrolled in Math 050 or in a course that meets the core requirement in mathematical, statistical, and computer sciences and in Eng 103 or 104 in their first year in residence and in subsequent years until the core requirements in mathematical, statistical, and computer sciences and Eng 104 have been satisfied.**

J-3-a. Communication (5-7 cr). The purpose of this requirement is to develop the ability to organize one's thoughts, to express them simply and clearly, to observe the standards and conventions of language usage, and to suit tone to audience. The requirement

is proficiency in written English equal to that needed for the completion of UI course Eng 104 and the completion of one additional course in this category. The following specific provisions apply to the English composition component:

(1) Students who attain a satisfactory score on the College Board English Achievement or Scholastic Aptitude (Verbal) Test, the American College Testing (ACT) English Test, or the Washington Pre-college Test (SAT Conversions) will be awarded credit and grades of P for Eng 103 and 104. Also, students who attain a grade of 4 or 5 on the objective portion of the CEEB Advanced Placement Program English Test and whose essay portion of that test is evaluated as satisfactory by the Department of English will be awarded credit and grades of P for Eng 103 and 104.

(2) Students who do not meet either of the conditions stated in paragraph (1) will be tentatively placed, on the basis of their scores on the tests cited above, in either Eng 103 or 104. These students will take a diagnostic test given by the Department of English and, on the basis of this test, will either (a) be required to take both Eng 103 and 104, (b) be given credit and a grade of P in Eng 103 and required to take Eng 104, or (c) be given credit and grades of P in Eng 103 and 104.

(3) Although UI accepts credits earned in comparable writing courses taken at other accredited institutions, students who have taken such courses but who have not met either of the conditions stated in paragraph (1) must take a test given by the Department of English to demonstrate that they have attained proficiency in composition equivalent to that required to complete Eng 104. Students who do not demonstrate that level of proficiency may attain the required proficiency through independent study or by taking UI courses. (See credit limitation in J-5-d.)

(4) Credits granted for Eng 103 are not applicable to the fulfillment of this requirement J-3-a.

J-4. Grade Requirements. To qualify for the baccalaureate degree, a candidate must have a cumulative grade-point average of 2.00 or better. See exceptions under E-4 and E-5.

J-5. Credit Limitations. A candidate may count toward a baccalaureate degree no more than:

J-5-a. Seventy credits earned at junior or community colleges, or one-half of the total credits required for a student's intended baccalaureate degree, whichever is the higher number.

J-5-b. Forty-eight credits in any combination of credits granted for courses taken at vocational-technical schools, external study/experience, technical competence, correspondence study, credit by examination, or advanced placement (such as CLEP, College Board advanced-placement tests, courses completed at military schools, and credit for bypassed courses). This 48-credit limitation may be exceeded for good cause with the approval of the Academic Petitions Committee (file petition through dean's office). **Note:** credits earned through any combination of external study and technical competence cannot exceed a maximum of 32 of the allowable 48 credits.

J-5-c. Twelve credits earned under the pass-fail option (see B-11).

J-5-d. Six credits in English composition.

J-5-e. Six credits in remedial-level courses; to be counted, these credits must have been earned before the fall semester 1983; no such credits earned after summer session 1983 may be counted.

J-6. Assignment of Curricular Requirements (Catalog Issue). In addition to fulfilling the general university requirements for degrees, candidates must satisfy the particular requirements specified for their curricula. The pertinent requirements are those contained in the UI catalog issue that was in effect at the time of or subsequent to the

candidate's enrollment as a degree-seeking student at UI or another institution accredited by one of the regional agencies, such as the Northwest Association of Schools and Colleges. In any case, the catalog issue designated must have been in effect within seven years of the date on which the candidate is to receive the degree.

J-7. Second Baccalaureate Degree.

J-7-a. Students may concurrently pursue two different majors leading to two different baccalaureate degrees (e.g., B.A. and B.S.Ed.) from UI by working to fulfill the general university requirements for one degree and the departmental and college subject-matter requirements for each. For exceptions to this regulation, see notes with the curricula in general studies and general agriculture in part 5. Students who plan to pursue two degrees concurrently should develop a schedule of studies that combines the degree requirements and present it to the dean(s) of the college(s) concerned as early as possible, preferably before the end of the junior year.

J-7-b. Students who have earned a baccalaureate degree at UI and who wish to complete the requirements for a different major and receive a second baccalaureate degree must earn at least 16 credits in UI courses other than those offered by correspondence study after the receipt of the first degree and fulfill the departmental and college subject-matter requirements for the second degree. (See B-9.) Students may return to UI and earn a second degree carrying the same name as one previously granted by UI so long as the requirements for a different major are satisfied. For exceptions to this regulation, see notes with the curricula in general studies and general agriculture in part 5. This regulation does not apply to students who were concurrently pursuing two different degrees under regulation J-7-a.

J-7-c. Students who have a baccalaureate degree from another recognized institution and who wish to earn another baccalaureate degree at UI must earn a minimum of 32 credits in UI courses other than those offered by correspondence study after the receipt of the first degree and fulfill the departmental and college subject-matter requirements for the degree. (See B-9.)

J-8. Degree with Double Major. Students may complete two different majors (curricula) offered under a particular baccalaureate degree and have both majors shown on their academic records and diplomas, e.g., Bachelor of Arts with majors in history and political science. Each of the majors must lead to the same degree. When majors leading to different degrees are involved, see the requirements applicable to the awarding of a second baccalaureate degree (J-7).

J-9. Academic Minors.

J-9-a. An academic minor is a prescribed course of study consisting of 18 or more credits. For descriptions of minor curricula, see the programs of the degree-granting units in part 5. In the following paragraphs of J-9, "minor" denotes "academic minor," which is to be distinguished from "teaching minor"; for information on the latter, see the College of Education section of part 4.

J-9-b. A student may pursue one or more minors in addition to a major by filing with the registrar a declaration of intention to do so. Completion of a minor is required only if specified by the degree-granting unit, but any minor completed is recorded on the student's academic record.

J-9-c. Transfer credits may be applied to a minor with the approval of the department offering the minor; however, the last nine credits applied to completion of the minor must be earned in UI courses and may not include credits earned through correspondence study.

J-9-d. A student may complete an undergraduate minor even though he or she has already earned a baccalaureate degree. If the sole objective is to complete an undergraduate minor, the student normally registers as a major in the department offering the minor or as "undeclared" in the college in which the minor is offered. If the baccalaureate degree was earned at UI, the student must complete at least six additional UI credits that apply to the minor (these six credits may not include any earned through correspondence study). If the degree was earned elsewhere, the conditions stated in J-9-c apply.

K—Academic Honors

K-1. Graduation with Honors. Candidates for baccalaureate degrees are graduated with honors if their cumulative grade-point averages are as specified in K-1-a, K-1-b, or K-1-c and if they have earned at least 56 credits in UI courses. No credits earned through correspondence study, bypassed courses, credit by examination, College Level Examination Program, external study/experience, or technical competence may be counted among these 56 credits. With prior approval by the student's academic dean, credits earned in special programs, such as study abroad and student exchange programs, may be counted. Candidates for the degree of Juris Doctor are graduated with honors under the same conditions, except that at least 84 credits in law courses are required and the grade-point average considered is based exclusively on the student's record in the College of Law. Honors are not awarded with degrees earned through the College of Graduate Studies.

K-1-a. Candidates whose grade-point averages would place them within the top 3 percent of graduates from their respective colleges over the preceding five years are graduated *summa cum laude* (with highest distinction).

K-1-b. Candidates whose grade-point averages would place them within the top 6 percent (but below the top 3 percent) of graduates from their respective colleges over the preceding five years are graduated *magna cum laude* (with great distinction).

K-1-c. Candidates whose grade-point averages would place them within the top 10 percent (but below the top 6 percent) of graduates from their respective colleges over the preceding five years are graduated *cum laude* (with distinction).

K-2. Dean's List. Students who are carrying 14 credits (10 in the College of Law) and attain a grade-point average of 3.30 (3.00 in the College of Law) for a given semester are placed on lists prepared for the college deans. (Except for grades of P earned in Eng 103 and 104, credits for which a student was graded P are not computed in the specified minimums.) These lists are publicized within UI and are distributed to news agencies.

L—Academic Probation, Disqualification, and Reinstatement**L-1. Academic Probation for Undergraduates.**

L-1-a. At the end of a semester, undergraduate students who do not attain the cumulative grade-point average required for their rank (see L-5) are placed on academic probation for the next semester of enrollment and are referred to the appropriate academic dean for advising. The effect of this probationary status is to serve notice that if a student's cumulative record at the end of the next semester in residence is unsatisfactory he or she will be disqualified and ineligible to continue at UI.

L-1-b. Students on academic probation who attain a cumulative grade-point average higher than the minimum required for their rank are automatically removed from probation.

L-1-c. Students on academic probation who attain a grade-point average of 2.00 or higher during the next or subsequent semester after being placed on probation, but whose cumulative grade-point average is still below the minimum required for their rank, remain on academic probation.

L-2. Disqualification for Undergraduates. Students on academic probation will be disqualified at the end of a probationary semester unless the minimum cumulative grade-point average required for their rank, or a semester grade-point average of at least 2.00, is attained. To reregister after being academically disqualified, students must be reinstated.

L-3. Reinstatement for Undergraduates.

L-3-a. After a first disqualification, students may be reinstated (i.e., have their eligibility to continue restored) by petition to and favorable action by the college in which they are enrolled OR by remaining out of UI for at least one semester. Summer does not qualify for a semester lay-out period.

L-3-b. After a second disqualification, students may be reinstated at any time only by petition to and favorable action by the college in which they are enrolled.

L-3-c. Students disqualified for a third time may be reinstated only after successful petition to the college in which they are enrolled and the Academic Petitions Committee.

L-3-d. Students who have been reinstated may continue to be reinstated with the approval of the dean of the college in which they are enrolled so long as they attain a 2.00 or better grade-point average for each semester following the first disqualification.

L-3-e. Students who attend another institution while under a first disqualification at UI will have an automatic reinstatement at UI if they maintain a grade-point average of 2.00 or higher at the other institution (see L-3-a). If a grade-point average of 2.00 or higher is not maintained, the student must meet the requirements applying to the admission of transfer students in order to reenter UI.

L-3-f. Students who are disqualified and reinstated are reinstated on academic probation.

L-4. Dean's Referral for Undergraduates. Students who attain a grade-point average below 1.50 during a given semester without dropping below the cumulative grade-point average required for their rank receive a dean's referral. Although this does not affect their eligibility to register, the students are referred to the appropriate academic dean for advising.

L-5. Academic Probation and Disqualification Cutoff by Rank for Undergraduates.

Rank (by Credits Earned)	Minimum Cumulative Grade-Point Average
0 through 32	1.60
33 through 64	1.80
65 and up	2.00

L-6. Registration Pending Removal of Incompletes for Undergraduates. Regulation F-2 provides that in cases where a student's eligibility to reregister is contingent on removal of incomplete grades, the student may not be granted an extension of time for such a removal.

L-7. Summer Session. Disqualification at the end of a spring semester does not affect a student's eligibility to continue in the immediately ensuing summer, but to register in any subsequent term the student must be reinstated.

L-8. Fresh Start. Qualified undergraduate students who wish to reenter the university in a specific degree program after a period of absence will be allowed a "Fresh Start" as described below.

L-8-a. To qualify for a Fresh Start, students (1) must not have been enrolled in any college or university as a full-time matriculated student for at least the five years immediately before applying for the program, (2) must have a UI cumulative GPA of less than 2.00, and (3) must be approved for the program by the college that administers the academic program they wish to pursue.

L-8-b. Once the student has completed an additional 24 credits of course work with a Fresh Start cumulative GPA of at least 2.00 and has been in the program at least two semesters, the cumulative GPA will be reset to 0.00 as of the time of admission to the Fresh Start Program.

L-8-c. Students in the Fresh Start Program will be allowed a maximum of six credits of "W" during the first two semesters after admission to the program. If the Fresh Start is successfully completed, the count for the 20-credit limit on withdrawals (see C-2) will be reset to 0 as of the time of admission to the Fresh Start Program.

L-8-d. University probation and disqualification regulations apply throughout the Fresh Start process.

L-8-e. To graduate with honors, a student in the Fresh Start Program must have at least 56 credits in UI courses after the Fresh Start (see K-1). Fresh Start Program participants are eligible for the dean's list (see K-2) on a semester-by-semester basis.

L-8-f. Application forms and explanatory materials are available at the Registrar's Office.

L-9. This regulation L does not apply to law, graduate, or full-time nonmatriculated students.

M—Attendance, Repeated Absences, Field Trips, and Official Student Travel

M-1. Attendance. Students are responsible for class attendance; in all cases of absence, students are accountable for the work missed. In the case of officially approved absence and on the request of the student, the instructor is obligated to provide an opportunity for the student to make up for missed work. In general, an absence is considered "official" when the student is: (a) participating in an approved field trip or other official UI activity (e.g., athletics, debate, music, or theatre arts); (b) confined in the Student Health Service; or (c) granted a leave of absence from UI for reasonable cause by his or her academic dean.

M-2. Repeated Absences. In courses where a substantial amount of the content can be mastered only or primarily through class participation, regular and punctual attendance is essential and may, therefore, be reflected in grading. Instructors will make clear at the beginning of each course the extent to which grades are dependent on attendance. Instructors may report to the registrar students who are repeatedly absent from classes (a form is available from departmental and college officials). Absences may be considered excessive when their number equals or exceeds the number of credits in a particular course.

M-3. Field Trips and Official Student Travel. "Field trip" is defined as any required, course-related student travel that exceeds 25 air miles from the campus or conflicts with other classes that the students involved are taking. (A trip taken within 25 air miles during the time scheduled for the particular class or at a time that does not conflict with other classes the students involved are taking is a "local trip," not a "field trip.")

M-3-a. Missed Class Work. Students participating in field trips, as defined above, or other official UI activities are responsible for conferring in advance with the instructors of any classes that will be missed in order to be eligible for making up missed class work. (See M-1.)

M-3-b. Approval of Course-Related Field Trips. Administrative approval for course-related field trips will be obtained by the person in charge of the trip as follows:

(1) Each field trip as identified in the catalog course description requires prior approval by the department in accordance with divisional procedures (application for approval should be made at least one week before the expected departure).

(2) Each field trip NOT identified in the catalog course description requires prior approval by the departmental administrator, the dean of the college, and the provost (application for approval should be made at least two weeks before the expected departure).

M-3-c. Approval of Other Official Student Travel. Administrative approval for official student travel that is NOT course related is obtained from the coordinator of student services (application for approval should be made at least two weeks before the expected departure).

M-3-d. Costs. When a college can cover all or part of the cost of a course-related field trip from allocated funds, the college should do so. If the college cannot cover the cost, or a portion thereof, the cost (or remaining portion) must be borne in proportionate share by the students in the course. Students missing required field trips identified in the catalog course description must pay their proportionate shares.

M-3-e. Field-Trip Completion Deadline. All field trips and other UI-approved student travel must be completed before 7:30 a.m. on the fifth day of classes before the start of final examinations.

M-3-f. Unofficial Student Travel. UI student accident insurance does not cover injuries sustained in the course of travel unless the travel has been officially authorized by the appropriate UI agent.

M-3-g. Vehicle Information. Information concerning privately owned vehicles (registration, insurance, driver's license, etc.) to be used for field trips or other official student travel must be filed in the Controller's Office (Rm. 101, Ad. Office Bldg.). Administrators of departments and divisions are responsible for ensuring that the required information is filed before the initial use of each privately owned vehicle in a given academic year.

M-4. Accommodation of Religious Observances in the Administration of Examinations. When tests or examinations fall on days objectionable to a student because of religious beliefs, the student should contact the instructor as soon as possible. The instructor may require the student to submit a concise, written statement of the reasons for the request. If the request appears to be made in good faith, the instructor should make alternate arrangements for the administration of the examination or test. If the instructor believes the request not to be in good faith, or if the instructor and the student are unable to agree on arrangements, the student or the instructor should seek the assistance of the departmental administrator, dean, or provost, in that order.

N—Class Rating

Class ratings of undergraduates are determined as follows: sophomore-26 credits, junior-58 credits, and senior-90 credits.

O—Miscellaneous

O-1. Credit Requirements for Full-Time Students.

O-1-a. For purposes other than fees, UI students in all divisions except the College of Graduate Studies must carry 12 credits each semester to be classified as full time.

O-1-b. For fee and tuition purposes only, students carrying eight or more credits (or equivalent in audits and zero-credit registrations) and all teaching/research assistants on full appointment, regardless of the number of credits they register for, are classified as full-time students.

O-1-c. Students in the College of Graduate Studies are considered full time: (1) when registered for nine credits (or equivalent) of course and/or thesis work; or (2) when on regular appointments as teaching assistants or research assistants.

O-1-d. Veterans and war orphans attending UI on the G.I. Bill must carry certain minimum credit loads to be considered by the Veterans' Administration for benefits as indicated in the table accompanying this regulation. (Audits do not count; repeats and reviews may be included when the student's adviser certifies that the course is required in the student's curriculum or is needed to remove a deficiency or to provide essential background for the student's program; file a copy of the program with the veterans' clerk at Student Advisory Services.)

MINIMUM CREDIT LOADS FOR VETERANS' BENEFITS

Benefits	Academic Year Undergraduate	Academic Year Graduate	Summer Session Undergrad. & Grad.
Full	12 or more	9 or more	Must be arranged
Three-fourths	9-11	6-8	
Half	6-8	4-5	
Fees & tuition only	less than 6	less than 4	

O-1-e. During the eight-week summer session, students are considered full time for fee and other purposes when carrying six or more credits (or equivalent).

O-1-f. The president, vice president, and senators of the Associated Students University of Idaho are considered full time when paying full-time student fees and carrying at least the following credit loads: president, three credits; vice president and senators, six credits. The editor and associate editor of the *Argonaut* are considered full time when paying full-time student fees and carrying at least the following credit loads: editor, three credits; associate editor, six credits.

O-2. Academic Performance. Instructors and students are responsible for maintaining academic standards and integrity in their classes. An instructor may reduce a student's grade for dishonesty in a course, but the effect may not be greater than the proportionate value of the work involved to the total requirements. If the student deems the reduction of the grade unfair, he or she may appeal through the appropriate departmental administrator and college dean, and finally to the Academic Hearing Board. Disciplinary penalties for academic dishonesty must be handled by the Student Judicial System.

O-3. Application for Degrees. Candidates for degrees must, at the beginning of the last semester or summer session in residence, pay the diploma fee and file an application with the dean of the division through which the degree is offered. If two degrees are to be received concurrently, separate applications must be filed with the dean(s) of the division(s) concerned. The application must be filed with the dean after the diploma fee has been paid at the Controller's Office. (See "Fees and Expenses" in part 2.) The last day for filing applications for baccalaureate degrees is the beginning of the third week of the semester or the beginning of the second week of summer session. The last day for filing applications for graduate degrees is the beginning of the fourth week of the semester or the beginning of the third week of summer session. If applications for degrees are transmitted by the dean to the registrar less than one month before the end of the academic session in which graduation requirements are completed, the applications will be held by the registrar and processed with those received at the beginning of the next academic session.

O-4. Commencement. Formal commencement exercises are held only at the close of the spring semester; however, diplomas are also issued at the close of the summer session and the fall semester to such candidates as have completed their graduation requirements at that time. All students who graduate in the summer, fall, or spring are entitled to participate in the annual commencement exercises. Candidates who DO NOT intend to participate in the formal commencement exercises must notify the dean of the division in which the degree program is offered before the close of the academic session in which graduation requirements are completed so that appropriate arrangements can be made. Reservations for caps, gowns, and hoods must be made by the date specified by the registrar. Diplomas are ready about five weeks after the end of the academic session in which graduation requirements are completed.

O-5. Limitations on Class Size.

O-5-a. Limitations on class size must have prior approval by the dean of the college in which the course is offered. If it becomes necessary to limit the size of a class on a continuing basis (more than two semesters), the limitations must be approved through faculty channels—University Curriculum Committee and university faculty—and be made part of the catalog description of the course.

O-5-b. Preference for enrollment in courses with limitations on class size is given to students enrolling in them for the first time. At the option of the department, students repeating courses for any reason may be placed on standby status. Students in that status are allowed to register for the course, if there is available space, by permission of the department offering the course. In no case may a student be held in standby status for any one course for more than two consecutive semesters.

O-5-c. Any student denied admission to a class may appeal in writing to the provost for a review of the circumstances involved.

O-6. Students' Right to Change Course Sections. Students have the right to change from one section of a course for which they are qualified to another section of the same course during the first two weeks of classes so long as the section into which they wish to transfer has not reached the maximum number of students that may be accommodated. (See appeal procedure in O-5.)

O-7. Availability of Instructors' Names. As a matter of principle, students and their academic advisers and deans have the right to know the names of the instructors who will teach course sections to be offered during the immediately ensuing semester or summer session. Departments are required to submit the names of instructors for all course sections for publication in the Time Schedule. Where it

is impossible to determine the teaching assignments of individual members of the instructional staff before the deadline for the Time Schedule, departments are responsible for making information concerning adjustments in teaching assignments generally available to students, advisers, and deans at such time as they occur.

O-8. Confidentiality of Academic and Counseling Records. See the student records policy in the Time Schedule.

O-9. Rights Reserved to the University.

O-9-a. Catalogs, bulletins, and course or fee schedules shall not be considered as binding contracts between UI and students. UI reserves the right at any time, without advance notice, to: (1) withdraw or cancel classes, courses, and programs; (2) change fee schedules; (3) change the academic calendar; (4) change admission and registration requirements; (5) change the regulations and requirements governing instruction in and graduation from UI and its various divisions; and (6) change any other regulations affecting students. Changes go into effect whenever the proper authorities so determine and apply not only to prospective students but also to those who are matriculated in UI. When economic and other conditions permit, UI tries to provide advance notice of such changes. In particular, when an instructional program is to be withdrawn, UI will make every reasonable effort to ensure that students who are within two years of completing graduation requirements, and who are making normal progress toward completion of those requirements, will have the opportunity to complete the program that is to be withdrawn.

O-9-b. UI also reserves the right, when a student has failed to discharge any obligation to UI, to deny that student the privilege of reregistering or to withhold the student's records or information based on the records. Students may verify the status of their accounts and be informed of any financial obligation to UI by inquiring at the cashier's window of the Controller's Office in the Administration Office Building.

O-10. Deviations from Established Class Schedules.

O-10-a. The provost periodically reminds deans and departmental administrators of their responsibility to ensure that classes meet in conformity with the course descriptions and Time Schedule. (It is the responsibility of the University Curriculum Committee to see that the time requirements stated in new or revised course descriptions satisfy general regulation D-1, "Credit Defined"; it is the responsibility of the registrar to see that listings in the Time Schedule conform to the respective course descriptions.)

O-10-b. The cancellation of a particular class session or sessions on an occasional basis, normally due to unusual circumstances affecting the instructor or the students in the class, is a matter for the instructor's discretion. Nonetheless, instructors should keep such cancellations to a minimum, be satisfied that the grounds for cancellation are defensible, give as much advance notice of the cancellation as is possible, and, if time permits, obtain the concurrence of the departmental administrator in advance. Frequent failure of an instructor to meet classes, except for reasons clearly recognizable as adequate, may be grounds for disciplinary action.

O-10-c. The scheduling of required class meetings at times other than those specified in the Time Schedule or authorized in the course descriptions (e.g., field trips) requires approval by the provost. In addition to securing the provost's approval, the instructor must give the students at least two weeks' notice, provide alternative means of completing class requirements for students who have irreconcilable conflicts with the irregular meetings, and, normally, cancel regularly scheduled class meetings equivalent to the irregular meetings. (If it is proposed that such irregular meetings be made a continuing practice, they are to be incorporated in the course description and the revised description submitted to the University Curriculum Committee for routine faculty approval.)

O-10-d. Authorized class meetings at times other than those shown in the Time Schedule is one of the topics that instructors are to discuss at the first or second class session.

General Studies Program

Dene K. Thomas, Director (112 Admin. Bldg.).

The General Studies Program, in which students at any level of competence may enroll, serves students in two ways. General studies is elected by many students in order to explore various academic areas before deciding in which degree program they would enroll. Students who wish to major in general studies may develop, in consultation with their adviser, a coherent program of studies and work toward the degree of Bachelor of General Studies, as outlined below. Also, credits and grade points earned while a student is enrolled in the program may be applied toward any other degree for which they are applicable.

Admission to the Program

New students wishing to enroll in the General Studies Program may indicate their choice on the application form for admission to the university. Students who are undecided between two majors offered by any of the university's colleges should enroll as "undeclared" students in that college rather than in general studies. Students currently enrolled in one of the colleges of the university may transfer to the program by applying to the director.

General Regulations

So that students may have the greatest opportunity to explore various types of subject-matter areas, as well as different types of student programs, there are no requirements during the advisory phase. However, to graduate, a student must either declare as a candidate for the degree of Bachelor of General Studies or transfer to one of the colleges of the university. In either case, the student must fulfill all of the requirements for the degree, including achieving an overall grade-point average of 2.00 (C). Whether in the advisory phase or in the degree program, a student ineligible to be in or to continue in the College of Business and Economics may take no more than 16 credits of lower-division work and, except for real estate and insurance courses, no more than 9 credits of upper-division work in that college. Furthermore, students may not transfer from general studies to some of the university's colleges unless they have a grade-point average of at least 2.00.

Bachelor of General Studies Curriculum

The curriculum leading to the degree of Bachelor of General Studies is designed to provide maximum flexibility for undergraduates while planning their program of studies. Since the only specific subject requirements are the general university requirements, students can plan their programs to the best advantage of their particular educational objectives. This means that students must bear the major responsibility for their choice of courses. Those who plan wisely have the opportunity to obtain an excellent education. The key admonition is: Plan your program carefully.

The major thrust of the B.G.S. degree program is nonspecialized education. Although a student could take his or her work in a limited number of departments, the intent of this program is to permit great latitude in the choice of subjects so that students may satisfy their particular objectives. No student may become a candidate for the B.G.S. degree who has already earned a baccalaureate degree or who is a candidate for another degree offered by the university.

Major. No major other than "general studies" will be certified on the student's diploma or official transcript. Students who wish to have a designated major should pursue a departmental baccalaureate degree (B.A., B.S., etc.). Naturally, a student may select a combination of courses that will be the equivalent of a major, but this will not be officially recognized by the university as a major.

Degree Requirements. In addition to the general university requirements for the baccalaureate degree (see regulation J-3), sufficient electives must be taken to total 128 credits. A *minimum of 48 credits must be earned in courses numbered 300 and above.* Not

more than 40 credits in any one subject field may be counted in the 128 credits. Candidates for the B.G.S. degree must register for and complete at least the last 16 credits applicable toward the degree after enrolling in the General Studies Program.

Suggestions to Students. Students are advised not to make a firm decision with respect to the B.G.S. degree before the end of the freshman year. During the freshman year, and probably during the sophomore year, students should consider following one of the curricula leading to a departmental baccalaureate degree, deviating from the departmental requirements only where it appears educationally advisable to do so.

It is very important that the student working toward the B.G.S. "look ahead" to see in which departments he or she wishes to accumulate the required 48 credits in upper-division courses (those numbered 300 and above). Many of these courses have prerequisites that must be completed during the early semesters of the student's undergraduate career. If planning is delayed, it may be that some courses will be "unavailable" because the student has not taken the prerequisites.

College of Agriculture

A. Larry Branen, Dean (53 Iddings Wing, Ag. Sc. Bldg.); Al J. Lingg, Associate Dean and Director of Academic and International Programs; LeRoy D. Luft, Associate Dean and Director of the Cooperative Extension System; Gary A. Lee, Associate Dean and Director of the Agricultural Experiment Station.

The College of Agriculture provides quality programs in agriculture, home economics, and related areas to all of Idaho. In addition to academic programs, the college also advances knowledge in these areas through research conducted by the Idaho Agricultural Experiment Station and provides information transfer and application of new knowledge to the state and the nation through the Cooperative Extension System. The college also actively participates in international development and student and faculty exchange programs around the world. The College of Agriculture was established in 1901. The Margaret Ritchie School of Family and Consumer Sciences became part of the college in 1983.

Advantages

The College of Agriculture offers a quality education in a productive and friendly atmosphere. Each student has a faculty adviser who is readily available to assist in academic and career planning. There is also a peer advising program to help first-time students become acquainted with the college and the university. Undergraduate students often have the opportunity to experience their major by working on research projects and internships directed by faculty members. The college also offers leadership opportunities through 14 departmental and college student organizations.

Faculty

The faculty are the key to quality education. In the College of Agriculture, there is a low student/teacher ratio and most classes are taught by faculty members. They bring to their students a strong commitment to teaching into the classroom and also richness of depth, experience, and research.

Units

The College of Agriculture offers 27 majors through 8 academic units. The units are Agricultural Economics and Rural Sociology; Agricultural Engineering; Agricultural and Extension Education; Animal and Veterinary Science; Bacteriology and Biochemistry; Food Science and Toxicology; Family and Consumer Sciences; and Plant, Soil and Entomological Sciences.

Facilities of the College

The College of Agriculture is housed in five major buildings on campus and in many other facilities around the state. Some of the unique facilities include a child development laboratory, student computer laboratories, an agricultural engineering laboratory, a food science and toxicology research center, and research farms of more than 2,500 acres for beef, dairy, sheep, plant science, and other programs. In addition to facilities at Moscow, there are offices in 42 counties and research and extension centers at 10 locations throughout Idaho.

Agricultural Experiment Station

The Idaho Agricultural Experiment Station was established in 1892 as the research function of the College of Agriculture and has the responsibility to conduct applied and basic investigations leading to problem solving and new knowledge for agricultural industries, rural communities, and family living. The Idaho Agricultural Experiment Station is coordinated with and provides research for teaching and extension to more effectively meet the needs of Idaho citizens.

The Idaho Agricultural Experiment Station is integrated into all departments of the college. Thus, most of the college's teaching faculty also have partial research appointments in the experiment station. Other faculty members have combined extension and research appointments and some are assigned to full-time research.

The Idaho agricultural research program is statewide. Research is conducted in a number of areas related to agriculture and on all major agricultural commodities. The center for the research program is located on the Moscow campus. In addition, there are 10 research and extension centers in strategic agricultural areas around the state where resident research and extension personnel are located.

The Idaho Agricultural Experiment Station shares the responsibility of developing and training future scientists through graduate assistantship programs. Currently, there are approximately 200 graduate students enrolled in the College of Agriculture, most of whom are on assistantships or partial stipends. These appointments are generally for two years at the Master of Science level and for three years in Ph.D. programs during which time the students conduct research as a part of their graduate training.

Cooperative Extension System

The Cooperative Extension System was first established by the Smith-Lever Act, signed May 8, 1914, to help extend research to the people of the United States in order to improve their farms, families, and communities. The Idaho legislature approved the cooperative extension concept in 1915. In 1917, additional state legislation brought the county boards of commissioners into the cooperative three-way federal, state, and county partnership.

Cooperative Extension is an integral part of the University of Idaho and the College of Agriculture and is administratively coordinated with the teaching and research functions of the college. The extension function is organized to extend the knowledge created through research to the people of the state of Idaho so that they can apply the findings to their particular situations, thereby solving their problems and improving their quality of life.

The headquarters of Cooperative Extension is at Moscow. District offices are located at Moscow, Boise, Twin Falls, and Idaho Falls. The state is the campus for Cooperative Extension.

Agents live and work in the areas to which they are assigned by mutual agreement of the university and the counties involved. Agricultural, home economics, and youth agents are located in 42 of Idaho's 44 counties and are also involved in multi-county programming.

Backstopping the agents are state extension specialists located across the state at Idaho Falls, Parma, Caldwell, Aberdeen, Boise, Sandpoint, Soda Springs, Twin Falls, Moscow, and Kimberly. These specialists, in turn, keep up to date by cooperating with research scientists of the College of Agriculture and the U.S. Department of Agriculture.

Educational programs in cooperative extension work are conducted in four broad areas. These are: (1) agriculture and natural resources, (2) home economics, (3) 4-H and youth development, and (4) rural development. Programs are both disciplinary and interdisciplinary and are designed to address the issues facing Idahoans. Major programming issues include water quality, youth at risk, waste management, food quality, nutrition, and agricultural sustainability.

The University of Idaho Cooperative Extension System helps people improve the social, economic, and environmental qualities of their lives through research-based education and leadership development focused on issues and needs. To accomplish this mission, the Extension System works under the basic philosophy that programs planned with people will achieve greater success than those planned for them. Extension takes the resources and research of the land-grant university out into the state so that Idaho's citizens can benefit from their university.

Degrees and Curricula Offered

Students in the College of Agriculture are encouraged to pursue a broad education. In each curriculum, minimum requirements are specified in agriculture or home economics disciplines; in the life, physical, and social sciences; and in humanities to qualify the graduate to enter professional fields in agriculture and home economics. Each curriculum also permits students to choose elective courses that will assist in personal and professional growth, development of communication skills, and a better understanding of the world in which we live.

Undergraduate. Baccalaureate degrees and major curricula offered by the College of Agriculture include Bachelor of Science degrees in General Agriculture; Agricultural Education; Agricultural Economics (with majors in agricultural economics, agribusiness, natural resources, and rural development); Agricultural Systems Management; Animal Science (with majors in animal science, agribusiness, and range-livestock management); Bacteriology; Entomology; Family and Consumer Sciences (with majors in child, family, and consumer studies; clothing, textiles, and design; and food and nutrition); Food Science; Plant Protection; Plant Science (with majors in crop management, crop science, horticultural science, and landscape horticulture); Soil Science; and Veterinary Science. See part 5 for the programs of study leading to these degrees.

Graduate. Graduate study leading to the degree of Master of Science is offered in Agricultural Economics, Agricultural Education, Animal Science, Bacteriology, Biochemistry, Entomology, Family and Consumer Sciences, Food Science, Plant Science, Soil Science, and Veterinary Science. Graduate study leading to the degree of Doctor of Philosophy is offered in Animal Physiology, Bacteriology, Biochemistry, Entomology, Plant Science, and Soil Science. Both M.S. and Ph.D. programs in Agricultural Engineering are offered through the College of Engineering. Students must fulfill the requirements of the College of Graduate Studies and the units in which they study. Consult the *Graduate Bulletin* for further information.

General Requirements for Graduation

University Requirements. See regulation J in part 3 for requirements that all students in the university must meet.

College Requirements. See part 5 for specific degree requirements within each department.

Major Curricula

The specific requirements for the undergraduate majors are listed in part 5. Each student is assigned an adviser who assists in the planning of his or her program; however, the student has the final responsibility for the completion of all university, college, and departmental requirements.

College of Art and Architecture

Paul G. Windley, Dean (Art and Arch. North Annex).

The College of Art and Architecture was established in 1981 to bring together disciplines that deal with creation of the visual and physical human environment. The specific disciplines are art, architecture, landscape architecture, and interior planning and design. This combination not only increases the resources available to students, but also brings together a community of creative scholars with a common dedication to the arts. The quality of these programs has earned the college an excellent and widespread reputation.

The objective of the College of Art and Architecture is to provide an educational experience for qualified students in the design-related disciplines. Upon completion of a program in one of these disciplines, a person should develop into a professionally competent citizen, capable of making useful and valuable contributions to society. The range of these contributions varies greatly, as do the fields contained within the college.

Aptitudes

Students likely to succeed in the design fields are those with a serious purpose and willing to work hard. Equally important are: (1) ability to visualize in three dimensions; (2) ability to be creative and inquisitive; (3) ability to draw; (4) facility in the use of written and spoken English; and (5) possession of personal attributes that enable one to inspire associates and assistants to work together effectively.

Faculty

The faculty is the key to the quality of the educational experience obtained through the college programs. Combining the energies of a well recognized, scholarly and creative faculty with the innovative talents of experienced architects, designers, and artists, the college develops the skills of future professionals by preserving the balance between the theoretical and practical aspects in each of the programs represented. Within the design professions focus is placed on the application of contemporary design techniques, with an understanding of their historical development.

Facilities

The College of Art and Architecture is housed in five buildings which are located in the very center of the university campus. These buildings are all in close proximity, and well placed in relationship to university classroom buildings, library, administrative offices, and recreational facilities. The Ridenbaugh Hall Gallery on campus and the Prichard Gallery in downtown Moscow are administered by the college and provide support to all college disciplines.

Departments

There are three departments in the college: Architecture, Art, and Landscape Architecture. An interior planning and design program is offered through the Department of Architecture. Although these departments are separate entities, the teaching, research, and service missions of all the departments are integrated and coordinated at the college level.

Fees

Students in the College of Art and Architecture pay a general fee and special fees for certain courses. See "Fees and Expenses" in part 2 of this catalog.

Preparation and Admission

A statement of admission requirements is included in part 2 of this catalog. Students who contemplate entering the College of Art and Architecture with advanced standing from a junior college or other

institution should complete as many of the freshman and sophomore requirements listed in the curricula as possible. Certain courses are prerequisites to many advanced courses, and their omission will delay graduation. Certain grade-point averages and other conditions are required for entering into particular programs in the college. See the preface to each curriculum.

Degrees

Curricula leading to the following degrees are offered by the college: Bachelor of Architecture (B.Arch.), Bachelor of Fine Arts in art, interior planning and design, or photography (B.F.A.), Bachelor of Science in Art Education (B.S.Art Ed.), and Bachelor of Landscape Architecture (B.L.Arch.). In addition, a Bachelor of Arts degree (B.A.), with a major in art, is available through the College of Letters and Science. The majority of courses taken in the B.A. curriculum are housed within the College of Art and Architecture. Both the B.A. and B.F.A. degrees in art are available with nine areas of emphasis: drawing, painting, ceramics, sculpture, textile design, printmaking, photography, graphic design, and jewelry. Graduate degrees are offered in the following areas: Master of Architecture (M.Arch.), Master of Fine Arts (M.F.A.), Master of Arts in Teaching (M.A.T.), and Master of Arts (M.A.) with a major in architecture.

Undergraduate Program

The undergraduate curricula are designed to provide both a general and a professional education. All curricula within the college include a first-year basic design core as well as foundation courses unique to each discipline. The college design core for all undergraduate majors consists of Art 101, 111-112, and 121-122. The curricular options in each department offer many courses in common with other college departments. Flexibility and individuality in each student's program are provided by curriculum choice, by options within curricula, and by elective credits.

Graduate Programs

Graduate programs in the College of Art and Architecture offer the flexibility of independent studies and the guidance of an assigned faculty adviser/mentor. Students are responsible for formulating a detailed plan of study under faculty guidance. It is intended that graduate study serve as a transition from undergraduate apprenticeship to the student's emergence as a fully independent, creative artist or designer. Assistantships are available to help highly qualified students in their graduate program. More complete information on graduate studies is contained in the *Graduate Bulletin*, which may be obtained from either the College of Graduate Studies or the registrar.

Scholarships and Awards

Scholarships and awards are available to students and prospective students. See "Financial Aid" and "Special Awards" in the Student Advisory Services section of part 2. Also, get in touch with specific program administrators.

General Requirements for Graduation

University Requirements. See regulation J in part 3 for the all-university requirements for graduation.

College Requirements. See part 5 for specific degree requirements within each department.

On registering for a studio course offered in this college, the student agrees that the department offering the course may retain work completed by the student. The department will make retained work available to the student for photographing.

College of Business and Economics

Byron J. Dangerfield, Dean (211-A Admin. Bldg.); Dana Wekerle, Administrative Coordinator; Dolores A. Sanchez, Secretary of the College Faculty.

The College of Business and Economics is an integral part of the University of Idaho, a statewide comprehensive university and the land-grant institution. The university is a residential campus and has the lead role in both the liberal arts and the traditional land-grant areas of study. The programs offered by the College of Business and Economics are built on the foundation of a well-rounded, broad education in the humanities, the social and natural sciences, and mathematics. The college's core curriculum and its specialized programs support and complement the university's professional programs in areas such as agriculture, architecture, education, engineering, forestry, law, medicine, mining, and tourism.

The College of Business and Economics serves the public and private sectors of the Northwest by providing business-oriented education, research, and extension services to meet the needs of organizations and individuals in the region. These services are delivered in three ways: (1) academic programs built on a broad foundation in the liberal arts that develop critical and creative thinking, programs that facilitate the acquisition of professional knowledge and the mastery of related skills, and cultivate attitudes conducive to life-long learning; (2) research programs that advance the body of knowledge and create the scholarly atmosphere essential to good teaching, and (3) programs and applied research that foster communication between the academic community and the private and public sectors of the region.

The college was established as a professional division of the university in 1925. Long known as the College of Business Administration, it became the College of Business and Economics (CBE) in 1969. Its principal objective is to provide a sound background in the basic business principles that will help graduates as they advance into positions of responsibility. As part of a state-supported land grant university, the CBE also aims to give its students an appreciation of the social importance and responsibilities of businessmen and businesswomen, and both the values and the knowledge to discharge those responsibilities.

Through the Center for Business Development and Research, the college contributes to business development and the advancement of knowledge about our state's economy and its business activities. The center conducts management development programs for business and governmental organizations, a business publications program to provide data on the Idaho economy, and funded research projects that involve CBE and other UI faculty members and students in solving practical problems in Idaho and the Northwest.

International Business Programs. There are various programs by which a UI student can pursue international business. The following programs are available in connection with a B.S.Bus. degree: a major or minor in a foreign language; a major or minor in international studies; a major or minor in political science. In addition, a student may have a dual major in business and foreign languages or major in foreign languages (B.A.) with a business option. A third option is the international studies program (B.A.), which may be selected by itself or as a dual major with business. Contact the Dean's Office in the College of Business and Economics for further information on international business programs.

Curricula and Degrees Offered

Undergraduate. The degree of Bachelor of Science in Business is offered with seven majors through three departments, as follows: Department of Accounting — accounting; Department of Business — finance, human resources management, information systems, marketing, and production/operations management; Department of Economics — economics.

Specific requirements for each major are described in part five, "Departments of Instruction," under the appropriate department. The program of study includes three principal components: the general

university requirements, the business and economics core, and the requirements for the selected CBE major field. Detailed statements of college requirements are under "General Requirements for Graduation."

Graduate. The CBE, through the College of Graduate Studies, offers the degree of Master of Science (M.S.) in economics. The M.S. in economics provides students with a firm grounding in theory, and then emphasizes training in policy analysis and applied studies.

Graduate students must fulfill the requirements of the College of Graduate Studies and the department in which they study. Consult the Graduate Bulletin for further information.

Standing of the College

Fully accredited by the Northwest Association of Schools and Colleges, the College of Business and Economics keeps abreast of developments in business through membership in various professional organizations and by consultation with Idaho business leaders, particularly through the CBE Advisory Board. The outstanding achievements of CBE graduates in business and government, and in professional certification examinations, such as the CPA exam, attest to the quality of the programs.

General Requirements for Graduation

University Requirements. See regulation J-3 in part 3 for requirements that all students in the university must meet.

College Requirements. Before proceeding to upper-division work, students registered in the College of Business and Economics must: (1) complete at least 58 semester credit hours with a minimum cumulative grade-point average of 2.00 and (2) earn at least a 2.40 grade-point average in Econ 201 and 202, Principles of Economics; Acctg 201 and 202, Introduction to Financial Accounting and Introduction to Managerial Accounting; and Stat 251, Principles of Statistics.

A student must achieve a grade of C or better in each upper-division College of Business and Economics course listed in the requirements in business and economics (section B, below) and in each course used to satisfy major requirements (section C, below) before becoming eligible to graduate. A student is required to have at least 40 percent of the required credits in College of Business and Economics courses and at least 40 percent of the required credits in non-College of Business and Economics courses. Undergraduate students enrolled as majors in the College of Business and Economics may not take any CBE course on a pass/fail basis, with the exception of those courses offered only on a P/F basis.

Courses completed at a two-year college for transfer into the CBE core or major must be validated before they will be accepted for upper-division course requirements. Validation procedures are established by the faculty members of the CBE department offering these courses. Validation techniques include a proficiency examination, CLEP testing, or successful completion of an additional advanced course in the given field.

Candidates for the B.S.Bus. degree must be accepted officially as majors in the College of Business and Economics for at least their last two semesters before graduation, excluding summer sessions, and complete at least the last 24 credit hours applicable toward their degree during this period.

The major in accounting requires the completion of at least 136 credit hours; all other majors require the completion of at least 128 credit hours. The required program of study includes: (1) at least 52 credit hours in required and elective nonbusiness courses, (2) 36 credit hours in the business and economics core, and (3) at least 18 credit hours in the selected CBE major field. Additional undesignated electives are included in the 128 or 136 required credit hours. Candidates must demonstrate an acceptable level of proficiency in written business communication. This may require successful completion of a CBE writing proficiency exam, in addition to the required writing courses.

A. UNIVERSITY/CBE GENERAL CORE REQUIREMENTS:

Course	Credits
Communication:	
CommG 131 Fundamentals of Public Speaking.....	2
Eng 103, 104 Basic Skills & Essay Writing.....	6
Eng 205 Adv Expository Writing or 313 Business Writing or 317 Technical & Engineering Report Writing.....	3
Mathematics:	
CS 100 Introduction to Computers & Programming or CS 112 Introduction to Problem Solving & Programming (IS majors are required to take CS 112).....	3
Math 111 Finite Mathematics and 160 Survey of Calculus or 180 Analytic Geom & Calculus I; or Math 180 and 190 Analytic Geom & Calculus I, II.....	8
Stat 251 Principles of Statistics.....	3
Social Sciences:	
Econ 201, 202 Principles of Economics.....	6
Social science elective*.....	3
Humanities:	
Phil 101 Ethics.....	3
Humanities elective*.....	3
Literature elective.....	3
Natural and Applied Sciences:	
Natural and applied sciences electives*.....	8
Other courses:	
Acctg 201, 202 Intro to Financial Accounting & Managerial Accounting.....	6
BLaw 265 Legal Environment of Business.....	3
Nonbusiness elective (accounting majors take 4 credits).....	1

*To be chosen from courses that will satisfy regulation J-3.

B. CBE COMMON PROGRAM REQUIREMENTS:

Course	Credits
Bus 301 Financial Management.....	3
Bus 311 Introduction to Management.....	3
Bus 321 Marketing.....	3
Bus 332 Quantitative Methods in Business.....	3
Bus 350 Management Information Systems.....	3
Bus 370 Production/Operations Management.....	3
Bus 380 International Business or Econ 446 International Economics.....	3
Bus 490 Strategic Management.....	3
Upper-division economics electives.....	3

C. REQUIREMENTS IN MAJOR (at least 18 credits).

D. ELECTIVES (8-23 credits). Chosen in consultation with the student's adviser.

Undeclared Status

A student may enter CBE as a freshman in an undeclared status. Because the first two years are equivalent programs in all CBE majors, he or she may remain in the undeclared status until reaching junior level (completion of 58 credits). At that time, a major in the college should be selected. The undeclared status allows a student time to become acquainted with the majors within the college and to solidify career objectives before choosing a major.

College of Education

N. Dale Gentry, Dean (301 Educ. Bldg.); Larry K. Wriggle, Acting Associate Dean; Barbara Hopkins, Secretary of the College Faculty.

The College of Education was organized as an independent unit of the university in 1920. It is the principal teacher-education division and consists of the Division of Health, Physical Education, Recreation and Dance, the Division of Teacher Education, the Division of Vocational Teacher and Adult Education, the Department of Counseling and Special Education, and the Department of Educational Administration. Undergraduate programs leading to degrees in teaching fields are offered in business education, dance (teaching option), elementary education, industrial technology education, marketing education, office occupations education, physical education, secondary education, special education, and trade and industrial/technical education (teaching option). Programs leading to nonteaching degrees include: dance, industrial technology, office administration, physical education, recreation, and trade and industrial/technical education.

The education of professional personnel for the public schools constitutes a service to the state and its people and to the education profession. One of the first duties of the college is that of ensuring

that anyone who applies for admission to a program leading to educational service is qualified by preparation and personal attributes for this important work. Once admitted, the student undertakes a program that has as its objective the assurance that the candidate has laid the foundation for a broad, general education, has completed a basic study of the professional functions of the teacher, and has gained substantial competence in the subjects to be taught or in the area in which he or she will serve.

Besides preparing personnel for the schools, the college provides educational leadership for the people of Idaho, to the state's education system, and to the teaching profession through consulting services, participation in organizational activities, and research. Preparation is provided in all of the major areas of professional education.

Standing of the College

The College of Education is fully accredited by the National Council for the Accreditation of Teacher Education and the National Association of State Directors of Teacher Education and Certification. The programs of study in education are planned to meet certification requirements in Idaho, those of most other states, and the requirements of the various accrediting agencies, such as the Northwest Association of Schools and Colleges.

Center for Educational Research and Service

The Center for Educational Research and Service was established to conduct research, to facilitate research by College of Education faculty members and graduate students, and to be of assistance to local school districts and to other educational institutions. Research, study, and statistical facilities are made available to students and faculty through the center. The Upward-Bound Program, designed to help youth from low-income families achieve a college education, is housed in the center.

Center personnel have cooperated with local school districts and with the Idaho State Department of Education in such activities as school district surveys, the development and implementation of programs under federal acts, school district reorganization studies, and certification studies. Research reports or monographs on these and other activities are published through the center.

The center is financed in part through cost-reimbursement funds from state and federal sources.

Admission Requirements

Admission to the University. For a statement of general admission requirements, see part 2 of this catalog.

Transfer Students. Students who have attended college, whether at another institution or in another division of the university, before matriculation in the College of Education, must have a grade-point average of 2.00 (C) or better. The approval of the dean of the College of Education is necessary for the admission of transfer students.

Degrees and Programs Offered

Undergraduate. Baccalaureate degrees offered by this college are the Bachelor of Science in Education, Bachelor of Science in Business Education, Bachelor of Science in Office Administration, Bachelor of Science in Physical Education, Bachelor of Science in Recreation, Bachelor of Dance, and Bachelor of Technology. See part 5 for the programs of studies leading to these degrees.

Graduate. The College of Graduate Studies offers work toward advanced degrees in several disciplines of the college. Students must fulfill the requirements of the Graduate College and of the department in which they intend to study. Consult the Graduate Bulletin for further information.

In the College of Education, graduate programs include advanced degrees and a planned fifth year in teacher education. Upon the completion of the appropriate programs of study, the following degrees are conferred: Master of Science, Master of Education,

Specialist in Counseling and Human Services, Specialist in Education, Specialist in Educational Administration, Specialist in School Psychology, Specialist in Special Education, Specialist in Vocational Education, Doctor of Education, and Doctor of Philosophy.

Studies at the master's level are offered in business education, counseling and human services, educational administration, elementary education, industrial technology education, physical education, recreation, secondary education, special education, and vocational education.

Sixth-year specialist degrees are offered in counseling and human services, education, educational administration, school psychology, special education, and vocational education.

Doctoral candidates majoring in education may concentrate in adult education, counseling and human services, education, educational administration, elementary education, higher education, physical education, secondary education, special education, or vocational education.

Teacher Education Program

At the University of Idaho, the preparation of teachers is a cooperative enterprise between the College of Education and other colleges. Coordination is achieved through the Teacher Education Coordinating Committee, which is made up of representatives from the professional and academic areas involved. The screening of all applicants for admission to or continuance in the Teacher Education Program is the responsibility of the College of Education, and the dean of the College of Education is the recommending authority for certification.

Students preparing for a career in secondary teaching have the option of completing their bachelor's degrees in the College of Education (except for agricultural education, home economics education, and music education) or in the department of their subject major.

Secondary teacher education students have an adviser from the College of Education who is the primary adviser on teacher education requirements, and an adviser from the academic discipline. When a student identifies teacher education as his or her objective (this could be as early as the freshman year and certainly no later than admission to the Teacher Education Program), the education adviser is designated. Changes in the academic program require the written approval of the academic department.

Admission to the Teacher Education Program. The following regulation was effective beginning fall 1988 for all UI students applying for admission to the Teacher Education Program regardless of the date of their entry into the university. Upon completion of the first semester of the sophomore year, or 40 semester credits, all students in the College of Education and all students majoring in other colleges who plan to enter the Teacher Education Program must make application for admission to or continuance in the program. A standing committee of the college reviews each applicant's total record and presents its recommendations to the dean. Criteria for admission to the Teacher Education Program include the following: (1) completion of at least 40 semester hours with a 2.5 cumulative GPA including any transfer credits and/or credits earned in a prior degree program; (2) achievement of minimum cut-off scores on the NTE Test of Communication Skills and the Test of General Knowledge (values are available in the dean's office); (3) completion of Eng 104 with a P grade (transfer students must pass the UI Writing Proficiency Test); (4) completion of the university core requirement in math/computer science/statistics; (5) completion of Ed 201, Introduction to Teaching; (6) signature of an authorized education faculty adviser; (7) recommendations from the student's Ed 201 instructor (having received a grade of C or higher), the Ed 201 field experience cooperating teacher, and one other university faculty member; and (8) approval of the Education Admissions Review Committee. The approval of the dean of the College of Education is required for admission to or continuance in the program. Admission to the Teacher Education Program does not carry with it permission to enroll in senior practicum courses. Additional procedures and requirements apply as noted elsewhere in this section and as noted in the prerequisites to the specific courses in senior practicum.

Clinical Experience in Teacher Education

The clinical study of teaching and learning theory is given practical application through laboratory experience in both campus and field settings. Students preparing to become teachers have early involvement with school pupils and experienced teachers through laboratory components for all students in Ed 201, Introduction to Teaching, and campus or field laboratory components for special education majors. Additional clinical experience is provided students as they continue professional studies through simulated teaching situations on campus and through field laboratory components for students in methods courses. A culminating clinical teaching experience is provided in the senior practicum or graduate internship.

Senior Practicum

Admission. For admission to senior practicum courses (AgEd 460, Dan 433, Ed 430, 431, 435, FCS 471, MusT 438, PE 431, SpEd 480, and VocEd 471), the student must have satisfied the following requirements: (1) have been admitted to or continued in the Teacher Education Program; (2) have a grade-point average of at least 2.50; (3) have a grade of C or better in the common core education courses (those listed in the College of Education student handbook; (4) have a minimum 2.25 GPA in the teaching majors or minors; (5) have satisfied the other prerequisites stated in the description of the particular practicum course for which he or she wishes to register; and (6) have applied for admission to senior practicum by December 1 of the school year before enrolling for the field experience. Consult the director of clinical experiences in teacher education for more specific information.

The Program. The senior practicum is carried out in cooperating public schools so that students may obtain experience under typical school conditions. Normally it is scheduled for a semester of full-time teaching in centers designated by the College of Education.

Students should register for Ed 445, Proseminar in Teaching, the same semester as their senior practicum/student teaching.

Graduate Practicum and Internship in School Positions

Admission. Admission to the practicum and internship courses is conditioned upon acceptance in a graduate program and approval of the major professor and/or student's committee. Application for placement in the practicum or internship should be submitted by December 1 of the school year before enrolling in the field experience.

The Program. Graduate students are provided clinical experience in the study of teaching and learning and in the performance of other school positions through graduate practica and internships (see courses 597 and 598 in the various subject fields in the college).

Teacher Certification

Students who complete the four-year Teacher Education Program at the university and who achieve the state's minimum cut-off scores in the NTE Tests of Professional Knowledge, Communication Skills, and General Knowledge are eligible to receive the Idaho Standard Elementary School Certificate, the Standard Secondary School Certificate, the Exceptional Child Certificate, or the Standard Vocational Certificate. Those who complete an approved, planned fifth-year program in teacher education or an approved master's degree program are eligible to receive the Advanced Elementary School Certificate or the Advanced Secondary School Certificate. Students who complete the professional certificate program in guidance and counseling qualify for the Idaho Pupil Personnel Services Certificate. Students completing a master's degree, specialist degree, or doctorate in educational administration may qualify for an administrator's certificate.

The College of Education reserves recommendations for teacher certification to students who have completed the teacher preparation program and hold a bachelor's degree. In Idaho, the recommendation for certification requires students to achieve minimum cut-off scores on the NTE Tests of General Knowledge, Communication Skills, and Professional Knowledge.

Secondary School Teaching Certification for Majors Outside the College of Education

Students admitted to the Teacher Education Program who are enrolled in an academic department other than education normally satisfy the requirements for the Idaho Standard Secondary-School Certificate by including the core listed below as electives in their program for the baccalaureate degree and by completing one of the following options: (1) one 60-credit teaching major; (2) one 40-credit teaching major and one 20-credit teaching minor; (3) one 30-credit teaching major and one 20-credit teaching minor; or (4) two 30-credit teaching majors. (See "Teaching Majors and Minors" at the conclusion of the College of Education section.)

Core. Introduction to Teaching, 2 cr (Ed 201); Educational Psychology, 2 cr (Ed 312); Educational Measurement, 1 cr (Ed 313); Strategies for Teaching, 3 cr (Ed 314); Special Methods, 2-3 cr (Ed 474, 475, 476, 477, 478, 479, or another approved special methods course); Methods of Teaching Content Reading, 3 cr (Ed 340); Proseminar in Teaching, 3 cr (Ed 445); Practicum, 14 cr (Ed 431 or another approved practicum course); Historical and Philosophical Foundations of Education, 3 cr (Ed 468). Note: Psych 100, Introduction to Psychology, is the prerequisite to Ed 312.

Exceptions. Teacher education students majoring in the College of Education, the Department of Agricultural and Extension Education, the Ritchie School of Home Economics, or the Hampton School of Music have slightly different requirements. See the curricula for these fields in the corresponding appropriate departmental sections.

Procedures. The student initiates the certification process by obtaining an application for teacher certification from the College of Education. The application is completed and signed by the student's adviser and is then forwarded to the dean of the College of Education who works with the registrar to get the necessary supporting credentials and forwards the materials to the State Department of Education's Certification Division. The College of Education maintains a record of all students recommended for teacher certification, and it is understood that recommendations concerning a student's competence are made by the department in which the skills and concepts are taught.

General Requirements for Graduation

University Requirements. See regulation J in part 3 for requirements that all students in the university must meet.

College Requirements. All candidates for a baccalaureate degree in the College of Education must complete 128 semester credits, of which at least 36 must be in upper-division courses. The following course requirements apply to all undergraduate teacher education students in the college (see the major curricula in dance, industrial technology, office administration, recreation, sport science, and trade and industrial/technical education for the special requirements applicable to those programs):

A. GENERAL STUDIES REQUIREMENTS FOR ELEMENTARY SCHOOL TEACHING (57 credits minimum). In order to apply toward this requirement, courses must be other than education and be selected from among the humanities, social sciences, and natural sciences. Credits earned in these fields to satisfy the teaching minor may apply if they do not deal primarily with the methodology, procedures, or materials of teaching. Each of the following areas must be represented as indicated:

1. *Communications (8 credits)* (prerequisite basic skills for writing), including essay writing (Eng 104), advanced composition, and speech. The UI core curriculum requires Eng 104 and 2-4 credits from the core list.
2. *Humanities (10 credits)*, including 6 credits of literature, 2 credits of art, and 2 credits of music selected from nonmethods courses. Six to eight credits should be selected from the core curriculum humanities list.
3. *Psychology (6 credits)*, including introductory psychology (Psych 100) and developmental psychology (Psych 305).

4. *Social Science (12 credits)*, including one course in American history (Hist 111 or 112), one course in American government (PolSc 101), and 6 other credits from social sciences (other than psychology). Three to five credits must be from the UI core curriculum list.

A total of 14 credits must be from the humanities and social science core list categories.

5. *Science (12 credits)*, including biological, earth, and physical science courses requiring laboratory work. Select 4 credits each from the areas of (a) life sciences, (b) earth sciences, and (c) physical sciences. At least 8 credits must be from the UI core curriculum list in natural and applied sciences.

6. *Mathematics (9 credits):* Math 135-136, Math for Elementary Teachers I-II, and 3 credits from the UI core curriculum list in mathematical, statistical, and computer science (refer to prerequisites for Math 135-136).

B. GENERAL STUDIES REQUIREMENTS FOR SECONDARY SCHOOL TEACHING (37 credit minimum). In order to apply toward this requirement, courses must be other than education and be selected from among the humanities, social sciences, and natural sciences. Credits earned in these fields to satisfy the teaching major or teaching minor may apply if they do not deal primarily with the methodology, procedures, or materials of teaching. Each of the following areas must be represented as indicated:

1. *Communications (8 credits)* (prerequisite basic skills for writing), including essay writing (Eng 104), advanced composition, and speech. The UI core curriculum requires Eng 104 and 2-4 credits from the core list.
2. *Humanities (6 credits)*, including at least 3 credits of literature. The UI core curriculum requires that 6 to 8 credits be selected from the humanities category.
3. *Psychology (3 credits):* Psych 100, Introduction to Psychology.
4. *Social Science (6 credits)*, including at least one course in American history (Hist 111 or 112) or American government (PolSc 101). Three credits must be selected from the UI core list in this category (other than psychology).

The UI core curriculum requires 14 credits in the combined categories of humanities and social sciences. The core social science list includes Psych 100.

5. *Science-Mathematics (11 credits)*, including biological, earth, or physical science courses requiring laboratory work. The UI core curriculum requires 8 credits from natural and applied sciences and 3 credits from mathematical, statistical, and computer sciences.

C. UNIFORM REQUIREMENTS FOR ELEMENTARY AND SECONDARY TEACHING (23 CREDITS):

Course	Credits
Ed 201 Introduction to Teaching	2
Ed 312 Educational Psychology	2
Ed 313 Educational Measurement	1
Ed 314 Strategies for Teaching	3
Ed 328 Audiovisual Aids	1
*Ed 430 or 431 or SpEd 480 Practicum	14
Ed 445 Proseminar in Teaching	3
Ed 468 Historical & Philosophical Foundations of Education	3

Note: Secondary education majors must take Ed 340, Methods of Teaching Content Reading, and the special methods course appropriate to their discipline.

Major Curricula

Students in the College of Education must complete a major curriculum that leads to a degree granted by the college (B.Dan., B.S.Ed., B.S.Bus.Ed., B.S.P.E., B.S.Rec., B.Tech., or B.S.O.Ad.). These major curricula (with the degree goal identified) are listed in part 5.

Careful distinction should be made between a student's "major curriculum" and any additional "teaching majors" or "teaching minors" leading to certification.

Teaching Majors and Minors in the College of Education

The various teaching majors and teaching minors required to accompany several of the curricula listed in part 5 are outlined below. Because the College of Education reserves the right to approve or disapprove the content of all proposed teaching majors and minors, students should confer closely with their college advisers and with advisers in the academic departments concerned in the selection of these courses.

AGRICULTURAL EDUCATION

The major in agricultural education is offered only in the major curriculum leading to the degree of B.S.Ag.Ed. (see part 5). A teaching major in agricultural education is not offered.

AMERICAN STUDIES

There is no teaching endorsement in American studies in the state of Idaho. However, students earning a degree in American studies through the College of Letters and Science are able to work toward endorsements in English, history, or social science depending on which emphasis they choose in the American studies curriculum and by choosing their electives carefully. Students seeking endorsement in English will take Ed 475 as their special methods course, and students seeking endorsement in history or social studies will take Ed 476 as their special methods course. American studies students seeking endorsement should read the appropriate section under the English heading, the history heading, or the social science heading in this part of the catalog.

ART

A. 40-CREDIT ART TEACHING MAJOR

Course	Credits
Art 101 Visual Art	3
Art 111-112 Drawing I	4
Art 121-122 Visual Communication & the Design Process	6
Art 211 Drawing II	3
Art 241 Sculpture I	3
Art 301-302 History of Art	6
Courses selected from the following	12
Art 214 Textile Design I	
Art 221 Graphic Design I	
Art 231 Painting I	
Art 251 Printmaking I	
Art 261 Ceramics I	
Art 271 Jewelry I	
Art 281 Watercolor I	
Comm 281 Understanding Photography	
One art studio course (Art 311, 321, 331, 341, 351, 361, or 371)	3

B. 20-CREDIT ART TEACHING MINOR

Course	Credits
Art 101 Visual Art	3
Art 111-112 Drawing I	4
Art 121-122 Visual Communication & the Design Process	6
Courses selected from Art 211, 214, 221, 231, 241, 251, 261, 271, 281, Comm 281, or Art 311, 321, 331, 341, 351, 361, 371	7

ATHLETIC TRAINING

A teaching major in athletic training is not offered.

23-CREDIT ATHLETIC TRAINING MINOR

Note: Athletic training is not a certified or endorsed teaching subject area in Idaho.

Chem 103 is required for students who select this minor and Zool 119 is a prerequisite to H&S 245. Only students enrolled in the UI Athletic Training Room clinical experience (approved NATA students) may enroll in H&S 465, 466, 467, 468, or 469. NATA students are not required to take H&S 349.

Course	Credits
FCS 205 Concepts in Human Nutrition	3
FCS 305 Nutrition Related to Fitness & Sport	2
H&S 245 Introduction to Athletic Injuries	3
H&S 289 Drugs in Society	2
H&S 349 Advanced Athletic Injuries	3
H&S 498 Practicum in Tutoring	2
PE 300 Human Kinesiology	2
PE 418 Physiology of Exercise	3
Rec 431 Medical Terminology	1
NATA certification students must complete the following additional courses:	
H&S 465 Medical Aspects of Athletic Injuries	
H&S 466 Athletic Training: Evaluation	
H&S 467 Athletic Training: Rehabilitation	
H&S 468 Athletic Training: Modalities	
Elective: H&S 469 Athletic Training: Trends & Issues	

BIOLOGICAL SCIENCES

Note: Organic chemistry is a prerequisite to required botany and zoology courses; Math 140 is a prerequisite to required physics courses.

A. 60-CREDIT COMPOSITE TEACHING MAJOR

Course	Credits
Bact 250 General Microbiology	5
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Biol 351 General Genetics	3
Biol 352 Experimental Genetics	2
Bot 241 Systematic Botany	3
Bot 311, 312 Plant Physiology & Lab	5
Bot 425 Developmental Plant Anatomy	3
Geog 100, 101 Physical Geog & Lab	
or Geol 101, 102 Physical Geol & Lab	4
Phys 113-114-115-116 General Physics & Lab	8
Zool 324 Comparative Vertebrate Anatomy	
or 472, 473 Developmental Biology & Lab	4
Zool 423 Comparative Vertebrate Physiology	4
Approved electives from bacteriology, biology, botany, entomology, or zoology	4

B. 25- OR 26-CREDIT COMPOSITE TEACHING MINOR

Note: One course in college chemistry is a prerequisite to Biol 201; organic chemistry is a prerequisite to Bot 311 and Zool 423.

Course	Credits
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Biol 351 General Genetics	3
Bot 241 Systematic Botany or 311 Plant Physiology	
or 425 Developmental Plant Anatomy	3
Zool 324 Comparative Vertebrate Anatomy	
or 423 Comparative Vertebrate Physiology	4

BUSINESS EDUCATION

The major in business education is offered only in the major curriculum leading to the degree of B.S.Bus.Ed. (see part 5).

20-CREDIT BOOKKEEPING TEACHING MINOR

Course	Credits
BusEd 102 Typewriting II	2
BusEd 491 Teaching Business Education I	3
Acctg 201 Introduction to Financial Accounting	3
Acctg 202 Introduction to Managerial Accounting	3
BLaw 265 Legal Environment of Business	3
Econ 201, 202 Principles of Economics	6

CHEMISTRY

Note: See the physics and mathematics prerequisites for the chemistry courses listed below.

A. 42-CREDIT CHEMISTRY TEACHING MAJOR

Course	Credits
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 275, 276 Carbon Compounds & Lab and Biochem 380, 382	
Intro Biochem & Lab or Chem 277, 278 Organic Chem I & Lab	
and Chem 372, 376 Organic Chem II & Lab	8-9
Chem 302, 303 Principles of Physical Chemistry & Lab	4
Biol 201 Introduction to the Life Sciences	4
Math 180 Analytic Geometry & Calculus I	4
Phys 113-114-115-116 General Physics & Lab	8

B. 20-CREDIT CHEMISTRY TEACHING MINOR

Course	Credits
Chem 111 Prin of Chemistry or 103 Intro to Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 275, 276 Carbon Compounds & Lab	4
Chem 302, 303 Principles of Physical Chemistry & Lab	4
Biochem 380 Introductory Biochemistry	3

COACHING

A teaching major in coaching is not offered.

22-CREDIT COACHING MINOR

Note: Coaching is not a certified or endorsed teaching subject in Idaho.

Zool 119 is required for students who select this minor.

Course	Credits
H&S 245 Introduction to Athletic Injuries	3
H&S 289 Drugs in Society	2
H&S 349 Advanced Athletic Injuries	3
HEC 305 Nutrition Related to Fitness & Sport	2

PE 204 Special Topics: Coaching	4
PE 300 Human Kinesiology or PE 418 Physiology of Exercise	2-3
PE 305 Applied Sports Psych or PE 310 Cultural & Phil Aspects of Sport	2-3
PE 497 Athletic Program Management or PE 440 PE & Sport Management	3
PE 498 Practicum in Tutoring	1

COMPUTER SCIENCE

Computer science is not an area of endorsement for Idaho certification. Students may complete a secondary minor in computer science only under the 30-20-20 option where the 30 credit major and one of the 20 credit minors are in endorsement areas.

20-CREDIT COMPUTER SCIENCE TEACHING MINOR

Course	Credits
CS 112 Introduction to Problem Solving & Programming	3
CS 113 Program Design & Algorithms	3
CS 213 Data Structures	3
CS 241 Computer Organization	3
Math 176 Discrete Mathematics	4
Electives chosen from the following	3
CS 307 History of Calculating	
CS 310 Computing Languages	
CS 324 Computer Graphics	
CS 381 Software Engineering	
Math 405/CS 495 Analysis of Algorithms	
Math 485/CS 490 Theory of Computation	

CONSUMER ECONOMICS

A teaching major in consumer economics is not offered. Students selecting a minor in consumer economics must have a major in social science, home economics, business education, or marketing education to meet both college graduation requirements and state certification requirements.

20-CREDIT CONSUMER ECONOMICS TEACHING MINOR

Course	Credits
BLaw 265 Legal Environment of Business	3
BusEd 418 Teaching Consumer Economics	2
Econ 201, 202 Principles of Economics	6
FCS 448 Consumer Education	3
Electives chosen from the following	5-6
Acctg 201 Introduction to Financial Accounting	
Bus 321 Marketing	
Bus 364 Insurance	
Econ 343 Money & Banking	
FCS 123 Textiles	
FCS 346 Personal & Family Finance & Management	
FCS 428 Family Housing	
FCS 478 Recent Advances in Foods	

COUNSELING AND HUMAN SERVICES

An undergraduate major is not offered in counseling and human services. Students who wish to qualify for counseling and human services may qualify as teachers in any subject area and enroll in counseling programs later in graduate school. Those definitely planning to become counselors should seek advice from the counseling faculty. Those who do not wish to qualify as teachers may arrange for a special one-semester counseling internship in addition to the graduate program in counseling and human services.

DANCE

The major in dance is offered only in the major curriculum leading to the degree of B.Dan. (see part 5).

21-CREDIT DANCE TEACHING MINOR

The dance minor provides broad experiences in techniques, composition, production, and teaching.

Course	Credits
Dan 105 Dance (ballet, jazz, modern)	4
Dan 112 Recreational Dance Forms	2
Dan 210 Dance Theatre	1
Dan 321 Dance Pedagogy	3
Dan 325 Dance Production	3
Dan 383 Dance Composition	2
Dan 420 Dance Accompaniment or Dan 320 Labanotation	3
Dan 421 Dance History	3

EARTH SCIENCE

A. 40-CREDIT COMPOSITE TEACHING MAJOR

Course	Credits
Geog 100, 101 Physical Geography & Lab	4
Geog 401 Atmospheric Environment	3
Geol 101, 102 Physical Geol & Lab or Geol 111 Physical Geol for Sc Majors	4
Geol 106, 107 Historical Geology & Lab	4
Geol 212 Principles of Paleontology	4
Geol 260 Survey of Minerals	2
Geol 335 Geomorphology	3
Geol 405 Earth Sciences	4
Geol 408 Field Methods in the Earth Sciences	2
Phys 103, 104 General Astronomy & Lab	4

Courses selected from the following	6
Geog 180-181-182 Spatial Graphics	
Geog 380 Cartography & Graphic Communication	
Geol 261 Survey of Rocks	
Geol 360 Geologic Hazards	
Geol 361 Geology & the Environment	

B. 60-CREDIT EARTH SCIENCE TEACHING MAJOR

Course	Credits
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology or Biol 203 General Botany	4
Chem 111 Principles of Chemistry	4
Geog 100, 101 Physical Geography & Lab	4
Geog 401 Atmospheric Environment	3
Geol 101, 102 Physical Geol & Lab or Geol 111 Physical Geol for Sc Majors	4
Geol 106, 107 Historical Geology & Lab	4
Geol 212 Principles of Paleontology	4
Geol 260 Survey of Minerals	2
Geol 335 Geomorphology	3
Geol 405 Earth Sciences	4
Geol 408 Field Methods in the Earth Sciences	2
Geol 425 Sedimentology	3
Math 140 Pre-calculus Algebra & Analytic Geometry	3
Phys 103, 104 General Astronomy & Lab	4
Phys 113, 114, 115, 116 General Physics & Lab	8

ECONOMICS

A teaching major in economics is not offered.

20-CREDIT ECONOMICS TEACHING MINOR

Course	Credits
Econ 201, 202 Principles of Economics	6
Econ 351 Intermediate Macroeconomic Analysis	3
Econ 352 Intermediate Microeconomic Analysis	3
Additional upper-division credits in economics	7-8

EDUCATIONAL ADMINISTRATION

No undergraduate major or minor is offered in educational administration. Students who are planning to go into this field must first obtain a bachelor's degree, complete requirements for teacher certification, and have teaching experience, then enter the College of Graduate Studies to pursue a program leading to an advanced degree in educational administration.

ENGLISH

A. 42-CREDIT ENGLISH TEACHING MAJOR

Course	Credits
Eng 111 or 112 Literature of Western Civilization	3
Eng 211-212 Critical Approaches to Literature I-II	6
Eng 309 Advanced Prose Writing	3
Eng 341-342 Survey of British Literature	6
Eng 343-344 Survey of American Literature	6
Eng 345 Shakespeare	3
Eng 401 Writing Workshop for Teachers	3
Eng 441 Introduction to Study of Language	3
Eng 442 or 443 or 496 Linguistics	3
Eng 445 Literature for Adolescents	3
One 400-level area literature course	3

B. 33-CREDIT ENGLISH TEACHING MAJOR

Course	Credits
Eng 211-212 Critical Approaches to Literature I-II	6
Eng 309 Advanced Prose Writing	3
Eng 341-342 Survey of British Literature	6
Eng 343-344 Survey of American Literature	6
Eng 401 Writing Workshop for Teachers	3
Eng 441 Introduction to Study of Language	3
Eng 442 or 443 or 496 Linguistics	3
Eng 445 Literature for Adolescents	3

C. 24-CREDIT ENGLISH TEACHING MINOR

Course	Credits
Eng 211-212 Critical Approaches to Literature I-II	6
Eng 341 Survey of British Literature	3
Eng 343 Survey of American Literature	3
Eng 342 or 344 British or American Literature	3
Eng 401 Writing Workshop for Teachers	3
Eng 441 Introduction to Study of Language	3
Eng 445 Literature for Adolescents	3

D. 33-CREDIT ENGLISH TEACHING MAJOR THROUGH AMERICAN STUDIES

Students complete the College of Letters and Science major in American studies with the following specifications:

Course	Credits
Courses from the American Studies requirements	
Eng 343-344 Survey of American Literature	6
Eng 341 or 342—one of the two reqd courses in English (British) lit	3

Electives in American English, selected from the list of electives in the curricular requirements of the lit emphasis in the American Studies degree (incl 3 at the 400 level, one of which is Eng 441)12

Courses in addition to those reqd for the lit emphasis of the American Studies degree:

Eng 309 Advanced Prose Writing	3
Eng 401 Writing Workshop for Teachers	3
Eng 442, 443, or 496 Linguistics	3
Eng 445 Literature for Adolescents	3

ENGLISH AS A SECOND LANGUAGE

A teaching major in English as a second language is not offered.

21-CREDIT ENGLISH AS A SECOND LANGUAGE TEACHING MINOR

Course	Credits
Eng 404 Special Topics: ESL Methods	3
Eng 441 Introduction to the Study of Language	3
Eng 442 Introduction to English Syntax	3
Anthr/Soc 322 Racial & Ethnic Relations	3
Electives, of which at least two courses are in English language and linguistics (Anthr 220 and Soc 324 may be used for the third course).....	9

FRENCH

Basic language courses taken in high school or elsewhere may be evaluated for college equivalencies as part of this teaching major and minor. Consult the Department of Foreign Languages and Literatures for policies on advanced placement.

A. 40-CREDIT FRENCH TEACHING MAJOR

Course	Credits
FL/FR 101-102 Elementary French	8
FL/FR 201-202 Intermediate French	8
FL/FR 301 Advanced French Grammar	3
FL/FR 302 Advanced French Writing Skills	3
FL/FR 303 French Civilization: Institutions	3
FL/FR 304 French Culture	3
FL/FR 305 Survey of French Fiction & Drama	3
FL/FR 306 Survey of French Essay & Poetry	3
FL/FR 449 Practicum in Tutoring	1-2
Electives chosen from the following	7-10
Eng 441 Introduction to Study of Language	
FL/EN 243 English Word Origins	
Approved upper-division course in literature	
Approved upper-division French electives	

B. 22-CREDIT FRENCH TEACHING MINOR

Course	Credits
FL/FR 101-102 Elementary French	8
FL/FR 201-202 Intermediate French	8
Approved upper-div French electives (either FL/FR 301 or 302 is reqd; lab-based and lit in translation courses are not acceptable)	6

Note: A minor in French of less than 22 credits is not acceptable.

GEOGRAPHY

A. 30-CREDIT GEOGRAPHY TEACHING MAJOR

Course	Credits
Geog 100, 101 Physical Geography & Lab	4
Geog 165 Human Geography	3
Geog 180-181-182 Spatial Graphics	3
Geog 250 World Regional Geography	3
Geog 330 Urban Geog or 240 Econ Geog or 346 Transportation	3
Geog 364 Idaho & Pacific Northwest or 362 U.S. & Canada	3
Geog 401 Atmospheric Environment or 420 Land & Resource Regulation or 427 Decision Making in Resource Management.....	3
Geog 470 Computer Mapping	3
Additional geography courses to total 30 credits	—

B. 22-CREDIT GEOGRAPHY TEACHING MINOR

Course	Credits
Geog 100, 101 Physical Geography & Lab	4
Geog 165 Human Geography	3
Geog 180-181-182 Spatial Graphics	3
Geog 240 Economic Geography	3
Geog 250 World Regional Geography	3
Geog 401 Atmospheric Environment or 420 Land & Resource Regulation or 427 Decision Making in Resource Management.....	3
Geog 470 Computer Mapping	3

GEOLOGY

A teaching major in geology is not offered.

20-CREDIT GEOLOGY TEACHING MINOR

Course	Credits
Geol 101, 102 Physical Geology & Lab	4
Geol 106, 107 Historical Geology & Lab	4
Geol 212 Principles of Paleontology	4
Geol 260 Survey of Minerals	2
Geol 261 Survey of Rocks	2

Electives chosen from the following	4
Geol 301 Field Geology & Report Writing	
Geol 335 Geomorphology	
Geol 345 Structural Geology	

GERMAN

Basic language courses taken in high school or elsewhere may be evaluated for college equivalencies as part of this teaching major and minor. Consult the Department of Foreign Languages and Literatures for policies on advanced placement.

A. 40-CREDIT GERMAN TEACHING MAJOR

Course	Credits
FL/GN 121-122 Elementary German	8
FL/GN 221-222 Intermediate German	8
FL/GN 321 German Conversation	3
FL/GN 322 German Grammar & Composition	3
FL/GN 325-326 German Culture & Institutions	6
FL/GN 329 German Language Lab or 430 German Phonetics	1-2
FL/GN 449 Practicum in Tutoring	1-2
Electives chosen from the following	6-8
Eng 441 Introduction to Study of Language	
FL/EN 243 English Word Origins	
Approved upper-division German electives	

B. 22-CREDIT GERMAN TEACHING MINOR

Course	Credits
FL/GN 121-122 Elementary German	8
FL/GN 221-222 Intermediate German	8
Approved upper-div German electives (either FL/GN 321 or 322 is reqd; lab-based and lit in translation courses are not acceptable)	6

Note: A minor in German of less than 22 credits is not acceptable.

HEALTH AND DRIVER EDUCATION

A teaching major in health and driver education is not offered. Students minoring in health and driver education who plan to apply for teacher certification must include a course in anatomy and physiology or general biology. A current advanced first aid and emergency care card is required upon graduation.

20-CREDIT HEALTH AND DRIVER EDUCATION TEACHING MINOR

This minor leads to teaching certification in health and driver education.

Course	Credits
H&S 150 Wellness Lifestyles	3
H&S 289 Drugs in Society or 404 Special Topics	2
H&S 316 School & Community Health Services	2
H&S 323 Health Education Methods & Administration	3
H&S 355 Accident Control, Prevention, & Human Ecology	2
H&S 436 Health & Wellness Promotion	3
H&S 440, 449 Driver Education I, II	6
One of the following courses	2-3
FCS 205 Concepts in Human Nutrition	
FCS 240 Intimate Relationships	
FCS 305 Nutrition Related to Fitness & Sport	
Psych 330 Human Sexuality	

HEALTH EDUCATION

A teaching major in health education is not offered. Students minoring in health education who plan to apply for teacher certification must include a course in anatomy and physiology or general biology. A current advanced first aid and emergency care card is required upon graduation.

20-CREDIT HEALTH EDUCATION TEACHING MINOR

Students minoring in health education who plan to apply for teacher certification must include a course in anatomy and physiology or general biology among the courses they select to meet the general studies requirements.

Course	Credits
H&S 150 Wellness Lifestyles	3
H&S 289 Drugs in Society	2
H&S 316 School & Community Health Services	2
H&S 323 Health Education Methods & Administration	3
H&S 350 Stress Management & Mental Health	2
H&S 355 Accident Control, Prevention, & Human Ecology or H&S 450 Contemporary Issues in Health	2
H&S 436 Health & Wellness Promotion	3
FCS 205 Concepts in Human Nutrition or FCS 305 Nutrition Related to Fitness & Sport.....	2-3
FCS 240 Intimate Relationships or Psych 330 Human Sexuality	3

HISTORY

A. 33-CREDIT HISTORY TEACHING MAJOR

Course	Credits
Hist 101-102 History of Civilization	6
Hist 111-112 Introduction to U.S. History	6
Hist 490 Senior Research Seminar	3
American government	3
Additional history courses (incl 3 cr of non-regional U.S. history)	15

Note: In selecting upper-division history courses, balance courses in the history of the Americas with courses in European and Asian history. Students who also have a teaching minor in English should take the history of England survey as part of the teaching major.

B. HISTORY TEACHING MINORS

The teaching minor in history includes one course in American government and a minimum of 20 credits in history. Follow the history teaching major (above) in selecting courses. Students must take 9 credits of U.S. history. Students who also have a teaching major in English should take the History of England courses as part of the history teaching minor.

C. 33-CREDIT HISTORY TEACHING MAJOR THROUGH AMERICAN STUDIES

American studies majors must take 9 credits in European or Asian history to maintain the required balance of old and new world history, plus 3 credits in American government.

HOME ECONOMICS EDUCATION

The major in home economics education is offered only in the major curriculum leading to the degree of B.S.H.Ec. (see part 5). A teaching minor in home economics education is not offered.

INDUSTRIAL TECHNOLOGY EDUCATION

The major in industrial technology education is offered only under the major curriculum leading to the degree of B.S.Ed. (see part 5).

22-CREDIT INDUSTRIAL TECHNOLOGY EDUCATION TEACHING MINOR

For certification to teach industrial technology education, a teaching minor must contain at least 20 credits, including not less than 15 credits distributed among and including each of the areas of metals, wood, drafting, and electricity-electronics. The remainder may be in allied or related areas. No substitution will be permitted for any of the courses required below.

Course	Credits
ITED 110 Introduction to Technology	2
ITED 120 Principles of Technology I	3
ITED 130 Basic Electronics I	3
ITED 250 Introduction to Metals Manufacturing	3
ITED 265 Computer Aided Drafting/Design or ME 101 Engr Graphics	2
ITED 280 Building Construction Technology	3
ITED 420 Curriculum Dev & Eval in Industrial Technology	3
ITED 472 Industrial Technology Teaching Methods	3

JOURNALISM

A. 32-CREDIT JOURNALISM TEACHING MAJOR

Course	Credits
Comm 121 News Writing	3
Comm 140 Mass Media & Society	3
Comm 222 Reporting	3
Comm 271 Basics of Television Production	2
Comm 281 Understanding Photography	3
Comm 325 News Editing	3
Five courses chosen from the following	15
Comm 265 Advertising & Society	
Comm 270 Broadcast Commercial Writing/Production	
Comm 278 Intro to Radio/TV Production	
Comm 323 Public Affairs Reporting	
Comm 354 Publications Editing	
Comm 374 Broadcasting Newswriting/Reporting	
Comm 425 Feature Article Writing	
Comm 441 Ethics in Mass Communication	
Comm 444 Communication & Public Opinion	
Comm 445 History of Mass Communication	
Comm 448 Law of Mass Communication	

B. 20-CREDIT JOURNALISM TEACHING MINOR

Course	Credits
Comm 121 News Writing	3
Comm 140 Mass Media & Society	3
Comm 222 Reporting	3
Comm 271 Basics of Television Production	2
Three courses chosen from the following	9
Comm 270 Broadcast Commercial Writing/Production	
Comm 281 Understanding Photography	
Comm 323 Public Affairs Reporting	
Comm 354 Publications Editing	
Comm 425 Feature Article Writing	
Comm 441 Ethics in Mass Communication	
Comm 444 Communication & Public Opinion	
Comm 445 History of Mass Communication	
Comm 448 Law of Mass Communication	

LATIN

Basic language courses taken in high school or elsewhere may be evaluated for college equivalencies as part of this teaching major or minor. Consult the Department of Foreign Languages and Literatures for policies on advanced placement.

A. 40-CREDIT LATIN TEACHING MAJOR

Course	Credits
FL/EN 211-212 Classical Mythology	4
FL/EN 243 English Word Origins	2
FL/EN 364 Literature of Rome	3

FL/LA 161-162 Elementary Latin or 261-262 Intensive Latin	8
FL/LA 369 Advanced Latin Lab	1-3
A methods course approved by adviser and classics section	
or FL/LA 449 Practicum in Tutoring	2
Upper-division Latin literature courses (minimum)	9
Electives chosen from the following	9-11
Eng 441 Introduction to Study of Language	
FL/EN 363 Literature of Ancient Greece	
FL/EN 441 Ancient Greek Civilization	
FL/EN 442 Civilization of Ancient Rome	
FL/GK 341, 342 Elementary Greek	
Hist 446 Medieval Europe	
Additional upper-div Latin courses (especially recommended)	

B. 20-CREDIT LATIN TEACHING MINOR

Course	Credits
FL/LA 161-162 Elementary Latin or 261-262 Intensive Latin	8
FL/LA 369 Advanced Latin Lab (minimum)	1
FL/EN 243 English Word Origins	2
FL/EN 364 Literature of Rome	3
Upper-division Latin literature courses	6

Note: A minor in Latin of less than 20 credits is not acceptable.

LIBRARY SCIENCE

A teaching major in library science is not offered.

LIBRARY SCIENCE TEACHING MINOR

The teaching minor in library science must total 24 credits. At least 12 of these must be in the areas of selection, organization, and administration of library materials. This teaching minor will qualify the student for the Idaho K-12 Education Media Generalist endorsement. Because library science is not a teaching field, the teacher-librarian must also qualify for a standard Idaho elementary or secondary teacher's certificate.

Note: Departmental approval and approval of site are required for the practicum; it is approved after the majority of the required course work has been completed.

Course	Credits
LibSc C420 Classification & Cataloging	4
LibSc C421 Acquisitions & Collection Development in Libraries	3
LibSc C422 Use of School Library and/or C423 Intro to Reference Work	2-5
LibSc C425 Organization & Management of Small Libraries	4
LibSc C427 Library & Media Center Practicum	1-3
Audiovisual aids and computer electives (minimum)	2
Note: The above selections must total 18 credits	
Courses selected from the following	0-6
Ed 334 Children's Literature (3 cr)	
Eng 445 Literature for Adolescents (3 cr)	
Communication/graphic arts (6 cr)	

MARKETING EDUCATION

The major in marketing education is offered only in the major curriculum leading to the degree of B.S.Bus.Ed. (see part 5). A teaching minor in marketing education is not offered.

MATHEMATICS

Note: Students who plan to apply for teacher certification with a mathematics teaching major must take Ed 418 and 478.

Math 140 and 179 may be necessary prerequisites for students with weak backgrounds.

A. 40-CREDIT MATHEMATICS TEACHING MAJOR

Course	Credits
Math 176 Discrete Mathematics	4
Math 180, 190 Analytic Geometry & Calculus	8
Math 215 Seminar in Topology of the Plane	3
Math 286 Theory of Numbers	3
Math 330 Linear Algebra or 326 Linear Programming	3
Math 390 Postulational Geometry	3
CS 112 Introduction to Problem Solving & Programming	3
Stat 251 Principles of Statistics or Stat 301 Probability & Statistics	
or Math 451 Probability Theory & Mathematical Statistics	3
Math 200 or mathematics courses numbered above 300	3
Three of the following courses (chosen from courses not already taken—	
one must be above 400)	9
Math 326 Linear Programming	
Math 330 Linear Algebra	
Math 346 Applied Combinatorics	
Math 376 Discrete Mathematics II	
Math 411 Elementary Topology	
Math 426 Optimization	
Math 461 Abstract Algebra	
Math 462 Abstract Algebra	
Math 471 Advanced Calculus	
Math 472 Advanced Calculus	

B. 30-CREDIT MATHEMATICS TEACHING MAJOR

Course	Credits
Math 176 Discrete Mathematics	4
Math 180, 190 Analytic Geometry & Calculus	8
Math 286 Theory of Numbers or 215 Seminar in Topology of the Plane	3

Math 326 Linear Programming or 330 Linear Algebra	3
Math 390 Postulational Geometry	3
Math 200 or math courses numbered above 300	3
CS 112 Introduction to Problem Solving & Programming	3
Stat 251 Principles of Statistics or Stat 301 Probability & Statistics or Math 451 Probability Theory & Mathematical Statistics	3
One of the following courses	3
Math 376 Discrete Mathematics II	
Math 411 Elementary Topology	
Math 461 Abstract Algebra	
Math 471 Advanced Calculus	

C. 20-CREDIT MATHEMATICS TEACHING MINOR

Course	Credits
Math 176 Discrete Mathematics	4
Math 180, 190 Analytic Geometry & Calculus	8
Math 286 Theory of Numbers	3
Math 390 Postulational Geometry	3
Stat 251 Principles of Statistics or Stat 301 Probability & Statistics or Math 451 Probability Theory & Mathematical Statistics	3

Note: Students who plan to apply for teacher certification with a mathematics teaching minor must take Ed 478 (Ed 418 is highly recommended).

MUSIC EDUCATION

Majors in music education are offered only in the major curricula leading to the degree of B.Mus. (see part 5).

24-CREDIT MUSIC TEACHING MINOR

Course	Credits
MusA 114 Individual Instruction	1.4
MusA 145-146 Piano Class	2
MusA 387 Conducting I	2
MusC 139-140 Aural Skills I-II	2
MusC 141, 142 Theory of Music I, II	6
MusT 381 Elem School Music Methods I or MusT 385 Choral Music in Sec School or MusT 386 Instrumental Music in Sec School	2-3
Music history courses selected from the following	6
MusH 100 Survey of Music	
MusH 321 Music in Western Civilization I	
MusH 322 Music in Western Civilization II	
MusH 323 Music in Western Civilization III	
Performance classes (depending on emphasis)	3

OFFICE OCCUPATIONS EDUCATION

The major in office occupations education is offered only in the major curriculum leading to the degree of B.S.Bus.Ed. (see part 5).

19-CREDIT OFFICE OCCUPATIONS EDUCATION TEACHING MINOR

Course	Credits
BusEd 102 Typewriting II	2
BusEd 185 Machine Calculation	2
BusEd 395 Administrative Office Procedures	3
BusEd 413 Administrative Office Management	3
BusEd 419 Word Processing	3
BusEd 492 Teaching Business Education II	3
Eng 313 Business Writing	3

OFFICER EDUCATION**20-CREDIT OFFICER EDUCATION TEACHING MINOR**

This teaching minor consists of 20 cr in approved courses from aerospace studies, military science, or naval science.

PHYSICAL EDUCATION

Also see athletic training, coaching, dance, exercise specialist, health and driver education, health education, and recreation.

The major in physical education is offered only under the major curriculum leading to the degree of B.S.Ed. (see part 5).

A. 31-CREDIT SECONDARY PHYSICAL EDUCATION TEACHING MINOR

Students who plan to apply for teacher certification must take first aid and anatomy and physiology. These requirements may be met by taking H&S 288 and Zool 119.

Course	Credits
PE Skill & Analysis courses	4
PE 201 Fitness Activities & Concepts	2
PE 260 Motor Learning	3
PE 300 Human Kinesiology or 418 Physiology of Exercise	2-3
PE 305 Applied Sports Psychology or 310 Cultural & Philosophical Aspects of Sport	2-3
PE 320 Methods & Materials in Physical Education	3
PE 321 Physical Education Teaching Lab	1
PE 380 Measurement & Evaluation	3
PE 424 Physical Education for Special Populations	3
PE 440 Physical Education & Sport Management	3
Dan 112 Recreational Dance Forms or PE 202 Skill & Analysis: Tumbling & Gymnastics	2

H&S 150 Wellness Lifestyles	3
-----------------------------------	---

B. 27-CREDIT ELEMENTARY PHYSICAL EDUCATION TEACHING MINOR

Students who plan to apply for teacher certification must first take first aid and anatomy and physiology. These requirements may be met by taking H&S 288 and Zool 119.

Course	Credits
Two credits selected from the following	2
PE 114 Skill & Analysis: Basketball	
PE 116 Skill & Analysis: Soccer & Speedball	
PE 119 Skill & Analysis: Volleyball	
PE 122 Skill & Analysis: Softball	
PE 123 Survey of Field Sports	
PE 124 Survey of Outdoor Pursuits	
PE 202 Skill & Analysis: Tumbling & Gymnastics	2
PE 250 Elem Physical & Health Ed or 240 Elem School Physical Ed	3
PE 260 Motor Learning	3
PE 305 Applied Sports Psychology or 310 Cultural & Philosophical Aspects of Sport	2-3
PE 380 Measurement & Evaluation	3
PE 418 Physiology of Exercise or 300 Human Kinesiology	2-3
PE 424 Physical Education for Special Populations	3
PE 440 Physical Education & Sport Management	3
Dan 220 Children's Dance	2
Rec 243 Recreation Activities	2

PHYSICAL SCIENCES**40-CREDIT COMPOSITE TEACHING MAJOR**

This is a 40-credit composite teaching major consisting of courses in chemistry, geology, and physics. It must include at least 18 credits in chemistry or physics and a minimum of 8 credits in each of these two fields. A teaching minor in mathematics is recommended to accompany this teaching major.

Course	Credits
Biol 100 Intro to Biology or Biol 201 Intro to the Life Sciences or Geog 100 Physical Geog or Geog 401 Atmospheric Environment	3-4
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 275 Carbon Compounds	3
Geol 101-102 Physical Geology & Lab	4
Phys 103 General Astronomy	3
Phys 210, 211, 222 Engineering Physics I, II, III	9
Phys 212, 213 Engineering Physics Lab	2
Phys 225 Introductory Physics Lab	1
Phys 411 Physical Instrumentation I	3
Additional courses in chemistry, geology, or physics to complete distribution required above	—

Recommended electives:

Biochem 380 Introductory Biochemistry
Chem 302 Principles of Physical Chemistry

PHYSICAL SCIENCE-LIFE SCIENCE**60-CREDIT COMPOSITE TEACHING MAJOR**

Course	Credits
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Phys 210, 211, 222 Engineering Physics I, II, III	9
Phys 212, 213 Engineering Physics Lab	2
Phys 225 Introductory Physics Lab	1
Phys 411 Physical Instrumentation I	3
Zool 119 Human Anatomy & Physiology	5
Courses in biology, chemistry, or physics	8
Electives chosen from the following	11

Bact 250 General Microbiology
Biol 207 Introduction to Oceanography
Biol 331 General Ecology
Geog 100, 101 Physical Geography & Lab
Geog 401 Atmospheric Environment
Inter 394 Technology & Societal Decisions
*Inter 490 Technology & Human Values
Phys 103 General Astronomy

PHYSICS**A. 40-CREDIT PHYSICS TEACHING MAJOR**

Course	Credits
Phys 103 General Astronomy	3
Phys 210, 211, 222 Engineering Physics I, II, III	9
Phys 212, 213 Engineering Physics Lab	2
Phys 225 Introductory Physics Lab	1
Phys 360 Introduction to Modern Physics	3
Phys 411 Physical Instrumentation I	3
Biol 201 Introduction to the Life Sciences	4
Chem 103 Intro to Chemistry or 111 Prin of Chemistry	4
Math 180, 190, 200 Analytic Geometry & Calculus	11

B. 20-CREDIT PHYSICS TEACHING MINOR

Course	Credits
Phys 210, 211, 222 Engineering Physics I, II, III.....	9
Phys 212, 213 Engineering Physics Lab.....	2
Phys 225 Introductory Physics Lab.....	1
Phys 360 Introduction to Modern Physics.....	3
Electives in physics (approved by adviser in Dept of Physics), including at least 2 credits of lab work.....	5

POLITICAL SCIENCE

A. 30-CREDIT POLITICAL SCIENCE TEACHING MAJOR

The distribution of credits among the five fields below must be as follows: (1) 12-15 credits in U.S. government and political process, including PolSc 101, Introduction to American Politics, and (2) 15-18 credits in the other four fields, including at least 3 credits in each field. Courses listed in more than one field may be counted in only one of those fields. Substitutions in specific courses may be made with the consent of the adviser. All 30 credits must be in political science courses; however, note that 6 additional credits in history are also required for certification in this field.

U.S. Government: Process and Policy

PolSc 101, Introduction to American Politics
 And 9-12 cr from the following: PolSc 275, 431, 432, 433,
 437, 439, 460, 464, 465, 469

Comparative Government and Politics

At least 3 credits from the following:
 PolSc 380, 381, 382, 447, 480, 482, 483, 484, 485, 487

International Relations

At least 3 credits from the following:
 PolSc 237, 438, 440, 449

Public Administration and Public Law

At least 3 credits from the following:
 PolSc 451, 452, 454, 460, 467, 468, 469

Political Thought

At least 3 credits from the following:
 PolSc 425, 426, 428, 429

B. TEACHING MINOR IN POLITICAL SCIENCE

The teaching minor in political science is a minimum of 20 credits. Six additional credits of U.S. history are also required for certification in this field.

Course	Credits
PolSc 101 Introduction to American Politics.....	3
Three additional credits in U.S. govt (see the list of courses in U.S. Govt: Process and Policy under teaching major above).....	3
Three credits in comparative govt (see the list of courses in Comparative Govt and Politics under teaching major above).....	3
Other political science courses selected from those listed in the teaching major.....	11

PSYCHOLOGY

A. 30-CREDIT PSYCHOLOGY TEACHING MAJOR

The basic objective of this teaching major is to provide the undergraduate student with preparation that leads to teaching psychology in secondary schools, and/or to undertake graduate work in several related areas. Though psychology is certifiable, it is desirable to present two teaching minors in standard secondary-school subjects. At least a teaching minor in sociology/anthropology is recommended for those anticipating graduate work in guidance and counseling and school psychology. A second teaching major in lieu of two teaching minors is acceptable preparation. The composite teaching majors (e.g., social science or physical science), if elected as a second teaching major, should meet the stipulated credit requirement.

Course	Credits
Psych 100 Introduction to Psychology.....	3
Psych 218 Introduction to Research in Behavioral Sciences.....	4
Psych 305 Developmental Psychology.....	3
Psych 310 Psych of Personality or 455 Psych of Motivation.....	3
Psych 311 Abnormal Psychology.....	3
Psych 320 Introduction to Social Psychology.....	3
Psych 372 Physiological Psychology or 444 Sensation & Perception.....	3
Psych 390 Psychology of Learning or 325 Cognitive Psychology.....	3
Stat 251 Principles of Statistics.....	3
Approved upper-division psychology elective.....	2-3

B. 20-CREDIT PSYCHOLOGY TEACHING MINOR

Course	Credits
Psych 100 Introduction to Psychology.....	3
Psych 218 Introduction to Research in Behavioral Sciences.....	4
Psych 305 Developmental Psychology.....	3
Psych 390 Psychology of Learning.....	3
Stat 251 Principles of Statistics.....	3
Approved psychology electives.....	4

RECREATION

The major and minor in recreation are outlined in part 5.

SOCIAL SCIENCE

A. 45-CREDIT COMPOSITE TEACHING MAJOR

Note: Due to extensive course overlap, social science majors may NOT select history as a second major or as a minor.

This 45-credit composite teaching major requires a minimum of 15 approved credits in history and at least 6 approved credits each in economics, geography, political science, and sociology or anthropology (all 6 credits in either sociology or anthropology). The remaining 6 credits are to be distributed among any two of these areas (excluding history and treating sociology and anthropology as one area). Required and other approved courses include:

History—Hist 101, 102, 111, 112, and one or more courses in modern U.S. or European history.

Economics—Econ 201 and 202; then 345 or 390 (if additional 3 credits are elected from this area).

Geography—Geog 165, 250, 330 (choose two or more).

Political Science—PolSc 101 and choose one or more from 275, 381, 382.

Sociology—Soc 110 and any other sociology course (excluding courses on social welfare and services).

Anthropology—Anthr 100 and any other anthropology course.

B. 45- OR 60-CREDIT TEACHING MAJOR THROUGH AMERICAN STUDIES

American studies majors add Hist 101, 102, 111, 112, and one or more courses in modern U.S. or European history. Also follow the credit distributions and recommended courses as stated above for economics, geography, political science, and sociology or anthropology.

SOCIOLOGY/ANTHROPOLOGY

A teaching major in sociology/anthropology is not offered.

20-CREDIT SOCIOLOGY/ANTHROPOLOGY TEACHING MINOR

Course	Credits
Anthr 100 Introduction to Anthropology.....	3
Anthr 220 Peoples of the World or 329 North American Indians.....	3
Soc 110 Introduction to Sociology.....	3
Soc 230 Social Problems.....	3
Approved electives in anthropology and sociology.....	8

SPANISH

Basic language courses taken in high school or elsewhere may be evaluated for college equivalencies as part of this teaching major and minor. Consult the Department of Foreign Languages and Literatures for policies on advanced placement.

A. 40-CREDIT SPANISH TEACHING MAJOR

Course	Credits
FL/SP 181-182 Elementary Spanish.....	8
FL/SP 281-282 Intermediate Spanish.....	8
FL/SP 381-382 Advanced Spanish Grammar & Composition.....	6
FL/SP 383-384 Hispanic Culture & Institutions.....	6
FL/SP 389 Spanish Language Lab or 400 Seminar in Phonetics.....	1-3
FL/SP 449 Practicum in Tutoring.....	1-2
FL/SP 493 Spanish for Teachers.....	2
Electives chosen from the following.....	5-8
Eng 441 Introduction to Study of Language	
FL/EN 243 English Word Origins	
Approved upper-division Spanish electives	

B. 22-CREDIT SPANISH TEACHING MINOR

Course	Credits
FL/SP 181-182 Elementary Spanish.....	8
FL/SP 281-282 Intermediate Spanish.....	8
Approved upper-div Spanish electives (either FL/SP 381 or 382 reqd; lab-based and lit in translation courses are not acceptable).....	6

Note: A minor in Spanish of less than 22 credits is not acceptable.

SPECIAL EDUCATION

The major in special education is offered only in the major curriculum leading to the degree of B.S.Ed. (see part 5).

20-CREDIT SPECIAL EDUCATION TEACHING MINOR

Course	Credits
SpEd 190, 290, or 390 Special Education/Field Experience.....	2
SpEd 275 Education of People with Disabilities.....	3
Approved special education electives (may incl SpEd 280, 377, 378, 425).....	15

Note: This minor is designed for individuals preparing to work in fields ancillary to special education. It is not intended for those who are interested in teaching the exceptional child. It is not a subject area minor for secondary certification purposes.

SPEECH

A. 30-CREDIT SPEECH TEACHING MAJOR

Course	Credits
CommG 131 Fundamentals of Public Speaking.....	2
CommG 132 Oral Interpretation.....	2
CommG 134 Nonverbal Communication.....	2

CommG 233 Interpersonal Communication	3
CommG 331 Conflict Management	3
CommG 332 Communication & the Small Group	3
CommG 333 Interviewing	3
CommG 335 Organizational Communication	3
Comm 140 Mass Media & Society	3
Comm 431 Professional Presentation Techniques	3
Comm 441 Ethics in Mass Communication	3

B. 20-CREDIT SPEECH TEACHING MINOR

Course	Credits
CommG 131 Fundamentals of Public Speaking	2
CommG 132 Oral Interpretation	2
CommG 233 Interpersonal Communication	3
CommG 331 Conflict Management	3
CommG 332 Communication & the Small Group	3
Courses selected from those specified for the speech teaching major	7

THEATRE ARTS**A. 40-CREDIT THEATRE ARTS TEACHING MAJOR**

Course	Credits
ThA 100 Theatre Process & Production	3
ThA 102 Theatrical Make-up	2
ThA 103-104 Theatre Technology I-II	6
ThA 105-106 Basics of Performance	4
ThA 150 Performance Lab	1
ThA 271 Play Analysis	3
ThA 272 Intermediate Acting	3
ThA 301-302 Visual Theatre & Design	6
ThA 381 Drama in Education	3
ThA 467-468 The Theatre	6
ThA 471 Directing	3

B. 25-CREDIT THEATRE ARTS TEACHING MINOR

Course	Credits
ThA 100 Theatre Process & Production	3
ThA 103-104 Theatre Technology I-II	6
ThA 105-106 Basics of Performance	4
ThA 301-302 Visual Theatre & Design	6
ThA 381 Drama in Education	3
ThA 471 Directing	3

THEATRE ARTS-SPEECH**40-CREDIT COMPOSITE TEACHING MAJOR**

Course	Credits
CommG 131 Fundamentals of Public Speaking	2
CommG 132 Oral Interpretation	2
CommG 134 Nonverbal Communication	2
CommG 233 Interpersonal Communication	3
CommG 331 Conflict Management	3
CommG 332 Communication & the Small Group	3
Comm 431 Professional Presentation Techniques	3
ThA 103-104 Theatre Technology I-II	6
ThA 105-106 Basics of Performance	4
ThA 301-302 Visual Theatre & Design	6
ThA 381 Drama in Education	3
ThA 471 Directing	3

TRADE AND INDUSTRIAL/TECHNICAL EDUCATION

Trade and industrial/technical education are offered only in the major curriculum leading to the degree of B.S.Ed. (see part 5). Teaching minors in trade and industrial/technical education are not offered.

College of Engineering

Richard T. Jacobsen, Dean (125 Janssen Engr. Bldg.); Weldon R. Tovey, Associate Dean; David M. Woodall, Associate Dean.

The mission of the college is to prepare students for professional practice, admission to advanced degree programs, leadership in the profession, and lifelong learning; to promote the discovery, development, and dissemination of knowledge through excellence in research; and to contribute to the economic development of the state, region, and nation. To this end, the college provides statewide access to high quality educational programs leading to baccalaureate and advanced degrees in engineering and computer science as described below.

The Engineering Profession

Members of the engineering profession use their knowledge of mathematics and the sciences to create useful and economic devices, structures, and systems for the benefit of the human race.

The engineer's talents are used in many ways: design, construction, and operation of public works and utilities systems; planning, construction, and operation of industrial processes and equipment; application of technical products; and creation of devices and systems needed for the support of all human activity, such as food production, transportation, communication, and control of the environment. Many engineers hold responsible managerial positions; others are key members of the interdisciplinary teams that solve the complex technical, economic, and social problems of the world.

The engineering profession recognizes that social, economic, political, and cultural, as well as technical considerations are involved in most of the works in which the modern engineer is engaged. A part of an engineer's education is devoted to the humanities and the social sciences to help him or her relate the technical preparation received to the world today and enhance the engineer's role as an educated, responsible citizen.

To qualify as an engineer, one usually undertakes a four-year college program leading to a Bachelor of Science (B.S.) degree in one of the major branches of engineering practice. Bachelor of Science graduates may either go directly into engineering employment or proceed to graduate study to pursue a given area of interest in depth. As the technology of engineering includes a wide range of subject matter that can be explored only to a limited extent in an undergraduate program, more and more students undertake graduate study for better preparation in a specific field before seeking employment as practicing engineers.

All states require that engineers engaged in work affecting public health and welfare be licensed or registered. This requires a qualifying examination in fundamentals of engineering, usually taken upon completion of undergraduate study, and a period of practical experience followed by a second qualifying examination in the practice of engineering. Many industries, while not legally required to use registered engineers, encourage registration as evidence of professional stature of their engineering employees.

The Computer Science Profession

Although much of the above applies to computer science, it is a profession with its own merits. Computer science is the systematic study of algorithmic processes that describe and transform information. It includes analysis, design, implementation, and application of computer software and computing systems; hardware selection; and language development and modification. Computer scientists work alongside engineers, scientists, and businessmen to provide faster and more efficient ways to calculate, record, manipulate, store, and use all kinds of information. Applications range from data base operations to sophisticated calculation and computer-aided design systems. Refer to the section on the Department of Computer Science in part 5 and/or write to the department for additional information.

Equal Opportunity

The degree programs of the college and the professions they represent actively seek out women and under-represented minorities. Opportunities are unlimited and an increasing number are entering the professions.

Preparation and Admission

A statement of admission requirements is included in part 2. A student may be admitted with less than the requirements listed, but the deficiency must be made up before he or she can progress very far in a college engineering course of study.

Students who contemplate entering the College of Engineering with advanced standing from other institutions should complete as many of the freshman and sophomore requirements listed in the curricula as possible. Calculus and the various introductory engineering courses are prerequisites to many advanced courses, and their omission may delay graduation.

Students from out-of-state institutions who wish to transfer to a degree program offered by the College of Engineering are invited to apply. Those whose cumulative GPA is below 2.8 for all previous college-level courses, including any courses taken at UI, may be admitted on approval of the College of Engineering Admissions Committee.

Admission to Classes

As a prerequisite to any upper-division course normally taken in the junior or senior year and offered by the College of Engineering, students in the College of Engineering must have completed selected courses from the required courses in chemistry, computer science, engineering, mathematics, and physics that are normally to be taken by them during their first two years and must have attained a grade of C or better in each of those courses.

Scholarships and Awards

Many scholarships and awards are available to College of Engineering students and prospective students. See "Financial Aid" and "Special Awards" in the student service section of part 2.

Courses of Study and Degrees

The College of Engineering includes the degree-granting Departments of Agricultural, Chemical, Civil, Electrical, and Mechanical Engineering, and of Computer Science. Careful attention is given to curriculum content and educational philosophy to keep all programs attuned to rapidly changing technology. All engineering B.S. degree programs on the Moscow campus are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET) except computer engineering, which is a new program in 1988 and has not yet applied for accreditation.

Programs in the college lead to the Bachelor of Science in seven disciplines, i.e., Bachelor of Science in Agricultural Engineering, Bachelor of Science in Chemical Engineering, Bachelor of Science in Civil Engineering, Bachelor of Science in Computer Engineering, Bachelor of Science in Electrical Engineering, Bachelor of Science in Mechanical Engineering, and Bachelor of Science in Computer Science.

The Bachelor of Science programs in engineering disciplines are designed to prepare the student either for immediate entry into the profession or for graduate study. Most of the courses taken by freshmen and sophomores are the same in all curricula. The student may postpone a final decision on a branch of study for a year or more with little, if any, consequence, thus allowing ample opportunity for professional orientation. The junior and senior years are devoted to application of basic principles in the various fields of practice.

Courses of study leading to the degrees of Master of Science (M.S.), Master of Engineering (M.Engr.), and Doctor of Philosophy (Ph.D.) are offered in agricultural, chemical, civil, electrical, and mechanical engineering. The M.S. and M.Engr. degrees are available in computer engineering, and the M.S. degree is available in computer science. The Master of Engineering in engineering management is also available. Through the facilities at the UI/Idaho Falls Center for Higher Education, the M.S., M.Engr., and Ph.D. degrees are available in nuclear engineering. The requirements for graduate degrees are outlined in the *Graduate Bulletin*.

Faculty

The faculty is the key to the quality of the engineering program. With few exceptions, faculty members in this college hold advanced engineering degrees; more than 70 percent hold the Ph.D. degree. Recognition in such publications as *Who's Who in America*, *Who's Who in the West*, *Who's Who in Engineering*, and *American Men and Women of Science* is common.

A distinguishing feature of the faculty is a blend of academic and practical experience. Many faculty members have extensive experience in practice that they bring into the classroom. This is valuable in preserving a balance between theoretical and practical aspects of engineering.

Facilities

The facilities of the College of Engineering are among the finest in the country. Work is centered in the block-square engineering complex, which includes the Allen S. Janssen Engineering Classroom Building and the J. E. Buchanan, J. Hugo Johnson, and Henry F. Gauss Engineering Laboratories. These facilities are supplemented by the agricultural engineering and isotopes laboratories at other locations on the campus. In total, more than 175,000 square feet of floor space is available for the special use of the College of Engineering. Laboratories include modern equipment for teaching and research in all areas of instruction with recent additions for computerized drafting, CAD/CAM, computerized VLSI design, and robotics. Some of the equipment is of advanced design found in only a few institutional laboratories. A microcomputer laboratory is reserved exclusively for student use. Students also have access to the University IBM 4341 and 4381 computing system, an assortment of Hewlett Packard minicomputers and engineering work stations, and various types of smaller computers.

Standing and Advantages

With a tradition of excellence dating from the founding of the University of Idaho, the College of Engineering has developed engineering bachelor's degree programs on the Moscow campus that are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology as listed previously. In recent years, degree programs in several disciplines have been made available at off-campus sites as well. Since 1896, when it granted its first degrees, graduates of the college have spread throughout the world. The large number of firms and agencies from throughout the country that send interviewers to the campus each year seeking to hire Idaho engineering graduates attest to the reputation of the university's engineering program.

The size of the college is near the median of engineering colleges in the country. It is not so large that the importance of the student as an individual is lost; it is large enough to support the faculty and facilities needed for top quality education.

Attention is given to both undergraduate and graduate programs. New concepts and knowledge resulting from the graduate program feed into the undergraduate program to keep it up to date. Undergraduate students have an opportunity to observe graduate projects to help them ascertain their interest in graduate work so that the student is better prepared and more soundly motivated if he or she does proceed to graduate work.

Engineering Experiment Station

The function of the Engineering Experiment Station is to encourage and coordinate the College of Engineering's research and extension programs that are integral parts of the college's academic and service efforts.

The research program in engineering is conducted by the regular faculty and students of the college. There is neither a separate research facility nor a separate research staff. The College of Engineering requires that any research it undertakes have academic significance. A large part of the college's research program deals with developing new knowledge that is applicable to Idaho's economy or devising new methods or applications for using existing knowledge to the benefit of the state. Most of the funds in support of research come from sources other than legislative appropriations. These funds are the result of research contracts and grants with various local, state, and federal agencies and private industry. Information regarding research capabilities is available upon request.

Believing that education is a never-ending need of man, the College of Engineering, through the means of short courses, workshops, seminars and forums, and pertinent publications, attempts to ascertain and meet the specific continuing education needs of Idaho's graduate engineers, computer scientists, and the technical community. Staff members also endeavor to provide information to the entire population of Idaho that may contribute to the successful solving of societal problems.

Off-Campus Programs

To fulfill its charge to provide engineering education to the people of Idaho, the College of Engineering provides several degree programs off campus. The Engineering in Boise program offers B.S. and M.S. degrees in electrical and computer engineering and some course work in mechanical and civil engineering. Graduate degrees are available in all disciplines at the Idaho Falls Center for Higher Education, as well as the B.S. degree in computer science. Graduate course work in electrical engineering is offered in Pocatello, and the Engineering Education Outreach program uses video technology to provide graduate and advanced undergraduate course work, including some complete master's degrees, at any location. For more information, see "Resident Instruction Centers" in part four.

General Requirements for Graduation

University Requirements. See regulation J in part 3 for requirements that all students in the university must meet.

College Requirements. The civil engineering and computer engineering curricula require 129 semester credits, manufacturing engineering 130, and mechanical engineering and electrical engineering 131. All others require a total of 128 semester credits.

Note: In calculating the credit total for each degree, the College of Engineering does not include credits that a student may have been required to earn in Eng 103, Math 140, and any courses taken to remove deficiencies.

Major Curricula

The curriculum for each major is listed in part 5. Each curriculum provides for electives to be arranged in consultation with the student's adviser in accordance with the student's interest and consistent with current department and college policies. The electives are intended to provide flexibility in the student's program. Undesignated electives will usually be taken outside of the student's major field of study.

College of Forestry, Wildlife and Range Sciences

John C. Hendee, Dean (202 Forestry, Wildlife and Range Sciences Bldg.); Ernest D. Ables, Associate Dean; Leon F. Neuenschwander, Associate Dean; Lewis Nelson, Jr., Secretary of the College Faculty.

Professional education leading to a degree in forestry began at the University of Idaho in 1909. To the initial curriculum in forest resources have been added those in forest products (1914), range resources (1917), wildlife resources (1942), fishery resources (1951), and resource recreation and tourism (formerly wildland recreation management) (1974).

The academic objective of the college is to provide its students with opportunities to become better prepared for lives of responsibility and fulfillment and to acquire competence for entry into professional careers in natural resource science and management. Each of the curricula offered by the college acquaints the student with the physical, biological, and social sciences and with the humanities, thus establishing a basis of general education and preparing the student for the scientific-professional courses addressing the use of forest and range lands and related resources. In addition to the most modern technical and academic classroom instruction, the college prides itself in "hands-on" training taking advantage of its outstanding field facilities and its emphasis on communications and student activities to enhance leadership potential.

Advantages of Location

The university is ideally located for preparing students for the renewable natural resources professions. Forest and range lands comprise 90 percent of the state's area. Forested areas include many types from the ponderosa pine in southern Idaho to the mixed coniferous and famous white pine of northern Idaho. Range lands vary from spring-fall and winter ranges in the sagebrush-grass and bunchgrass zones to summer ranges in several of the forested zones. Within the forest and range lands are hundreds of lakes and streams and extensive wilderness areas that provide habitat for fish and wildlife and opportunities for wildland recreation.

The values derived from these resources include wood products of all types; cattle and sheep in great numbers; abundant wildlife of many species; world renowned game fish; water for domestic use, power, and irrigation; and recreational activities. These natural study areas and resources are available to the student in preparing for his or her profession.

Facilities

A modern three-story, 90,000-square-foot building, the Forestry, Wildlife and Range Sciences Building incorporates classrooms, laboratories, scientific equipment, plant and animal collections, computer access, and other support functions into an ideal environment for natural resources education and research.

A university experimental forest includes 7,200 acres of forest land located about 25 miles from the campus and is managed by the college as a working forest for demonstration, research, and education. The forest properties include a 200-acre recreation area, a 33-acre privately owned nature preserve, and two smaller tracts closer to Moscow that serve as outdoor classrooms. The Frank Pitkin Forest Nursery site includes 40 acres and three greenhouses produce 750,000 seedlings annually for student training and research purposes. On the university campus, the Shattuck Arboretum, with over 60 species of trees, provides an outdoor classroom for studies in dendrology. Other field facilities include the McCall Field Campus located on Payette Lake in the mountains of west-central Idaho, the Clark Fork Field Campus in northern Idaho, the Taylor Ranch Wilderness Field Station in the heart of the Frank Church River-of-No-Return Wilderness, and the Lee A. Sharp Range Experimental Area in southern Idaho. In addition, Idaho's 37 million acres of public forest and range lands constitute a vast natural laboratory for students in all of the college's curricula.

To take advantage of these facilities and implement "hands-on" training, the college employs student logging, surveying, planting, and controlled burning crews.

Standing of the College

To promote high professional standards in forestry education, the Society of American Foresters periodically evaluates all forestry schools and rates them as accredited or not accredited. Forestry education at UI has always been accredited, assuring the student of a high quality education. Similarly, in 1985 the range resources curriculum became one of the first in the nation to be accredited by the Society for Range Management. The curriculum of the Department of Resource Recreation and Tourism is accredited by the National Recreation and Parks Association.

Departments

The college has five departments: Fish and Wildlife Resources, Forest Products, Forest Resources, Range Resources, and Resource Recreation and Tourism. Although these departments are separate administrative entities, they share a common philosophy: integrated resource management. Many of the faculty members hold joint appointments in more than one department; student programs include courses in more than one department; and the teaching, research, and service missions of all the departments are integrated and coordinated at the college level. This integration is enhanced by the Forest, Wildlife and Range Experiment Station, described below.

Degrees

Curricula leading to the following degrees are offered by the college: Bachelor of Science in Fishery Resources (B.S.Fish.Res.) with options in management and aquaculture; Bachelor of Science in Forest Products (B.S.For.Prod.) with options in forest products business management, timber harvesting, pulp and paper technology, wood construction and design; Bachelor of Science in Forest Resources (B.S.For.Res.) with options in ecosystem management, administration, production, and science; Bachelor of Science in Range Resources (B.S.Range Res.); Bachelor of Science in Resource Recreation and Tourism (B.S.Rec.Rc.) with minors in natural resource communication, wilderness and nature conservation, tourism and leisure enterprises, outdoor recreation leadership, or any other university minor; and Bachelor of Science in Wildlife Resources (B.S.Wildl.Res.) with options in quantitative sciences, habitat, aquatics, communications, policy-law-administration, and biology; Master of Science (thesis and nonthesis options); and Doctor of Philosophy, with dissertation topics in any of the five departments.

Admission Requirements

General. For a statement of admission requirements, see part 2.

Transfer Students. Students who propose to complete a portion of their undergraduate studies at a junior college, or elsewhere, before entering UI, should follow as closely as possible one of the curricula for the first two years set forth in part 5. A student whose program does not closely approximate one of these will not be able to graduate in four years. Total time to graduation will also be extended if wildland field ecology is not completed at the end of the sophomore year. Transfer to UI before the end of the sophomore year is usually to the student's advantage. Correspondence with the dean of the college should be initiated at least three months before the date on which the student plans to enroll.

Undergraduate Program

The undergraduate curricula are designed to provide both a general and a professional education. The objective in the first two years is to provide students with a good foundation in the biological, physical, and social sciences and in writing and speaking skills. The basic philosophy of the college is to educate according to the principles of integrated resource management while providing specialization in the student's major area of interest. Because of the emphasis placed on the integrated approach, all curricula in the college, except two options in forest products, have incorporated into them a common 20-credit set of core courses as follows: four of the six departmental principles courses, Natural Resources Ecology, Society and Natural Resources, Wildland Field Ecology I and II, and Interdisciplinary Natural Resources Planning.

The curricula and options in each department offer as many courses in common with those in other departments as possible, while ensuring that specific professional education requirements are met. Flexibility and individuality in each student's program are provided by curriculum choice, by options within curricula, and by elective credits. Provision is also made for advanced training leading to a military commission.

A variety of scholarships are available to undergraduate students based on need and merit.

Graduate Program

Programs leading to advanced degrees are offered in each of the fields represented by the undergraduate curricula of the college. Both the master's and the doctor's degree, with emphasis on conducting a research project and preparing a thesis or dissertation, are available. A nonthesis master's degree may also be obtained. Excellent facilities and opportunities are available for graduate study and research in the subject-matter areas. Research in the college is organized through the Idaho Forest, Wildlife and Range Experiment Station. Research is also supported by the Idaho Cooperative Fish and Wildlife Research Unit, the Cooperative Park Studies Unit, the Wilderness Research Center, and by various state, federal, and private organizations.

Assistantships and fellowships are available to assist highly qualified students in their graduate programs.

More complete information on graduate studies may be obtained by writing the dean of the College of Graduate Studies and requesting a copy of the Graduate Bulletin. Specific information on specializations available and projects under way may be obtained by writing the director of graduate programs, College of Forestry, Wildlife and Range Sciences.

Requirements for Graduation

University Requirements. See regulation J in part 3 for general university requirements for degrees.

College Requirements. Credits for the baccalaureate degree vary from 128 to 132 semester hours, depending on the option selected. A minimum cumulative grade-point average of 2.00 in all courses taken in this college is required for graduation. Courses in the college numbered above 299 are not open to any undergraduate student who is on academic probation.

Students who are admitted without the required unit of high school physics (see the admission requirements listed in part 2) and who select a curriculum that has no specified physics requirement must take either Phys 101 or 113, regardless of whether physics is listed as a requirement in the chosen curriculum. Courses taken to make up high-school deficiencies will not count toward the number of semester hours required for the bachelor's degree.

The college may permit substitutions or grant waivers of specified requirements. Thus, for a student with special aptitudes or interests, a program can be devised that will provide a foundation for advanced study or research or meet other acceptable and well-defined career objectives.

All electives are subject to the approval of the faculty adviser and the dean.

Summer Field Course, Internship, and Employment Requirements. Students in all curricula except the pulp and paper and wood construction and design options of forest products, are required to complete the 2-credit Wildland Field Ecology II course during the two-week period immediately following the close of spring semester in mid-May. They should finish this requirement before beginning the professional course work of their upper-division programs. Students in some curricula have an internship or summer work experience requirement. Specific information is contained in the respective departmental sections of this catalog.

Idaho Forest, Wildlife and Range Experiment Station

All members of the college faculty are on the staff of the experiment station. Other members of the station staff include full-time research associates and technicians, as well as graduate-student appointees.

The program of the experiment station is closely connected with the graduate training program of the college. Many of the graduate students enrolled in the college are on assistantships associated with station projects.

The station staff conducts research on a wide variety of renewable natural resource management problems in the areas of forestry, forest products, range, resource based recreation, resource based tourism, wildlife, and fisheries. Several projects are interdisciplinary. Funds for the station are provided by the university, by some departments of the state of Idaho, and by grants from federal, other state, and private sources. Currently a majority of these funds comes from non-university sources. More information on station activities may be obtained by writing to the associate director, Idaho Forest, Wildlife and Range Experiment Station, College of Forestry, Wildlife and Range Sciences.

College of Law

Sheldon A. Vincenti, Dean (101 Law Bldg.); Arthur D. Smith, Jr., Associate Dean.

The College of Law was organized in 1909 and is the only school devoted to the study of law in the state of Idaho. The college is a member of the Association of American Law Schools and is approved by the Council of the Section of Legal Education and Admissions to the Bar of the American Bar Association.

Purpose of the College

The role of the College of Law is to educate students for the legal profession with its many facets and its involvement in the whole range of society. The curriculum is designed to provide instruction over three academic years in principles generally applicable in the United States. The responsibilities assumed by the professional man or woman are emphasized, as are solutions to ethical problems. The study of law is also an asset to those who wish to hold positions of leadership in government or business.

Methods of instruction are adapted to the development of each student's highest potential and vary with the professor and the course. Basic instruction is accomplished primarily by way of the case system, a study of the actual decisions of appellate courts, supplemented by selected readings that provide insight into the nature of judicial and legislative processes. Problem and simulation methods are used in advanced courses. Techniques that encourage individual initiative and develop perception and communication abilities are emphasized. In the third year, clinical training provides contact with clients. Because law changes rapidly, mere accumulation of information is subordinated to the more important ends of individual development and training in critical habits of thought.

Admission to the Bar

The College of Law is fully accredited by the American Bar Association and the Association of American Law Schools, and its degree is accepted by all state bar associations. Educational prerequisites vary among states, and inquiry should be made of the secretary of the bar examiners in the state in which the applicant intends to practice to determine the existence of special requirements.

Prelegal Work

The subject matter of prelegal education is less important than the quality of work performed. Students preparing to enter law school should avoid courses that are not demanding and take those that will develop their powers of analytical thought. Intensive work will enable them to acquire the intellectual discipline and experience necessary for success in law school. Students should aspire to a critical appreciation of values and of political, economic, and social institutions; they should stress understanding, not just knowledge, in their studies. Words are the tools of the lawyer, and a major undergraduate objective in the selection both of courses and of activities outside the classroom should be development of the ability to communicate orally and in writing.

The most common undergraduate majors for law students are the social sciences or business administration. However, a degree in one of these fields is not required and many students with other backgrounds ranging from agriculture to engineering or physics are also accepted. While study of accounting is not a prerequisite for admission to the College of Law, it is highly recommended that prelaw students gain some understanding of the fundamentals of this area. As a rule, the introductory course on a college level is sufficient. Another useful skill is the ability to operate a typewriter/computer with reasonable speed and accuracy.

Within the particular college or university, prelaw advisers are available to guide students in selecting courses that will meet these objectives. The faculty of the College of Law is also available to assist in program planning.

Requirements for Admission

An applicant for admission must have a bachelor's degree from an accredited four-year college or university. Because admission to law school is competitive and because records of applicants are individually evaluated, generalizations about minimum standards are difficult. However, successful applicants ordinarily have grade-point averages that place them in the upper one-half of their graduating class and Law School Admission Test (LSAT) scores that are above the national median.

The LSAT is also required of all applicants and is given by the Law School Admission Services throughout the United States in October, December, February, and June. The exact dates, places, and cost of the test, application blanks, and a bulletin of information about the test may be obtained by writing directly to Law School Admission Services, Box 2000, Newtown, Pennsylvania 18940, or to the College of Law, University of Idaho. Applicants cannot be assured of consideration unless they take the test no later than the December administration preceding the fall semester in which they desire admission.

Registration with the Law School Data Assembly Service (LSDAS) of the Law School Admission Services is required of all applicants. Instructions concerning registration and an application blank for this purpose are contained in the same bulletin that describes the LSAT (or may be secured separately from the College of Law or the Law School Admission Services).

Procedure for Admission. All applicants must: (1) secure from the College of Law a personnel form and an application form, complete and return them to the College of Law, together with a \$30 application fee; (2) take the LSAT; and (3) register with the LSDAS and send to the College of Law an Application Matching Form. Transcripts required by the instructions on the registration blank of the LSDAS should be forwarded to that service promptly.

A decision concerning admission will be made after receipt of the College of Law personnel and application forms, the application fee, the LSAT score from the Law School Admission Services, and the file, with a transcript analysis, from the LSDAS. Applications should be initiated no later than early December before the fall term in which the student intends to register, and all information necessary to the admission decision should be on file at the College of Law by February 1 of the year in which admission is desired.

Admission to Advanced Standing

Students who have previously studied law in a law school that is either a member of the Association of American Law Schools or is approved by the American Bar Association may be admitted only if they are in good standing and eligible to continue in the school in which previously registered and if, in the opinion of the Law School Committee on Admissions, academic performance at that institution warrants such action. Usually the committee requires substantially above a 2.50 grade-point average on all law courses undertaken. There must also be space available to accommodate the student. When space is available, priority is accorded transfer applicants who are residents of Idaho. If entrance by transfer is granted, the number of credits to be recognized from the previous institution is determined by the dean of the College of Law in each case. The last 26 semester credits of law must be completed in residence at the University of Idaho.

Nondegree Candidates

Students who are not degree candidates in the College of Law but are enrolled elsewhere in UI are permitted to register for a course offered by the College of Law if the permission of the dean or associate dean of the College of Law and the instructor of the course are both granted. Such courses cannot be credited toward a law degree even if the student is later admitted to the College of Law.

Combined Degree Programs

A very limited exception to the requirement of a degree before admission exists for highly capable students enrolled in a regular combined degree program who will experience exceptional hardship

if not accepted after 98 hours of college work. Admission of these students is discretionary with the College of Law Admissions Committee and permission is rarely granted.

The conditions that must be met for a combined degree student to receive serious consideration are: (1) demonstration of outstanding ability by a cumulative pre-law average to the time of application of at least 3.50; (2) demonstration of excellent aptitude for law study by a score on the LSAT well above average; (3) submission of a certificate from an appropriate officer of the undergraduate institution attesting to the fact that the applicant will receive the bachelor's degree from his or her college or university after the successful completion of one year of law study; and (4) demonstration of some compelling reason for accelerating his or her law school admission, such as extreme personal or family hardship.

Fees

Students in the College of Law pay an amount in addition to the fees paid by graduate students in other colleges of the university. In 1992-93, that additional fee was \$200 for residents and \$1,200 for nonresidents. In 1993-94, the additional fee will be \$400 for residents and \$2,400 for nonresidents.

Grading System

1. Grades for courses taken in the College of Law shall be awarded on the basis of A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F; provided, however, that by resolution the law faculty may designate any course, or courses, to be graded on the basis of P or F.

2. Grade-point averages of students in the College of Law shall be computed by assigning the following numerical point values per semester hours: A = 4.00; A- = 3.67; B+ = 3.33; B = 3.00; B- = 2.67; C+ = 2.33; C = 2.00; C- = 1.67; D+ = 1.33; D = 1.00; D- = 0.67; F (or "fail" under the pass-fail basis) = 0.00. The cumulative grade-point average is the quotient of total points assigned, divided by total hours undertaken, except that courses in which marks of I, W, or P (pass) have been given shall be disregarded in the computation. All other courses shall be included even if they have been repeated.

3. The grading system described above became effective in 1971. It applies in determining: (a) eligibility for continuing study in the College of Law; (b) compliance with requirements for the Juris Doctor degree; and (c) class ranking within the College of Law. It is also used on any grade reports issued by the College of Law. Plus or minus grades do not appear on transcripts issued by the registrar.

4. Grades in most courses offered by the College of Law are awarded on the basis of performance in a single written examination conducted at the end of the semester. In courses where it is so announced, grades on written projects or classroom participation may be included.

Additional Information

For more detailed information about the College of Law, including descriptions of the honor system, academic requirements, requirements for graduation, and curriculum, see the College of Law Announcement.

College of Letters and Science

Kurt O. Olsson, Dean (112 Admin. Bldg.); Doyle E. Anderegg, Associate Dean; Dene K. Thomas, Associate Dean.

Established in 1900, the College of Letters and Science (L & S) is the oldest division of the university. The objectives of the college are to provide a liberal and professional education in the arts and sciences, to advance knowledge through research and scholarship, and to perform service to the university at large, the state, and the nation.

Departments and Programs of Instruction

Included within L & S are the Departments of Biological Sciences, Chemistry, English, Foreign Languages and Literatures, History, Mathematics and Statistics, Philosophy, Physics, Political Science and Public Affairs Research, Psychology, Sociology/Anthropology, and Theatre Arts. The School of Communication and the Lionel Hampton School of Music also function as departments of the college. Cooperating departments from other divisions include the Departments of Art, Bacteriology and Biochemistry, Economics, Geography, and Naval Science, and the Margaret Ritchie School of Family and Consumer Sciences. The departments and schools in L & S offer nearly 100 curricula and curricular options leading to baccalaureate degrees, as well as graduate study leading to master's and doctor's degrees.

Undergraduate. See departmental sections in part 5.

Graduate. The College of Graduate Studies offers work toward advanced degrees in many disciplines of the College of L & S. Currently work leading to a master's degree is available in the fields of anthropology, biological sciences, botany, chemistry, English, French, German, history, mathematics, music, physics, political science, psychology, Spanish, statistics, theatre arts, and zoology. The degree of Doctor of Philosophy is available in botany, chemistry, history, mathematics, physics, political science, and zoology. For the specific degrees available, see the list of programs offered in part 1.

Nondegree. A nondegree program is offered in which each student's course of study is worked out to meet his or her special needs. The program is intended primarily for students who (1) do not plan to obtain degrees at the University of Idaho, (2) plan to transfer to other institutions, or (3) have objectives that are not provided for by any of the established curricula in the college.

Interdisciplinary Studies. Students who have broad educational goals that necessitate work in several disciplines or departments may present an interdisciplinary curriculum for the B.A. or B.S. degree. For details, see the program in interdisciplinary studies in part 5.

Preparatory Programs in Medicine and Dentistry. Premedical and pre dental programs are administered by the L & S Health Studies Committee.

Environmental Sciences. The university does not offer a separate degree program in environmental sciences; however, students who wish to prepare for careers in this field should consult the L & S dean's office about the possibility of developing an appropriate plan of studies under the program in interdisciplinary studies.

Admission to the College

Students who expect to enter L & S should plan their high school electives carefully, both to lay the foundation for their general education, which will be continued in the university, and to ensure that they are adequately prepared to begin their study at the college level. Students should select subjects in English, foreign language, social sciences, natural sciences, mathematics, and fine arts that will provide a well-rounded preparation for further study. For a statement of general admission requirements, see part 2. Graduates of four-year, accredited high schools ordinarily are eligible for admission to L & S.

Regular Enrollment in a Program of Studies

Students in L & S must enroll in regular programs unless they are attending on a part-time basis (seven-credit maximum), or they are admitted to nondegree programs. Except for the two-year program in pre nursing studies, a regular program is one that leads to a degree that the college offers. However, it is not necessary to select a major curriculum until the beginning of the junior year. This permits the undecided student to take courses in a wide range of fields in order to choose a major more wisely.

Teacher Education Program

Students in L & S who are preparing for secondary-school teaching should consult the section on the College of Education in this part 4.

Laboratory of Anthropology

The Alfred W. Bowers Laboratory of Anthropology, established in 1968, serves as the research arm of the College of Letters and Science for investigations in archaeology, ethnohistory, linguistics, and physical anthropology. Major contractual research has been concentrated in historical and prehistoric archaeology for the National Park Service, Bureau of Reclamation, and the U.S. Army Corps of Engineers, burial relocation for several Northwest American Indian tribes, and archaeological surveys for the U.S. Forest Service and the Bureau of Land Management. The laboratory serves as the main clearinghouse and repository for all northern Idaho archaeological collections and records. Much of the day-to-day work consists of providing public service information on archaeological sites and artifacts for interested citizens as well as environmental impact statements for industry and government.

Modern and well equipped facilities for the cleaning, preservation, and analysis of both historic and prehistoric artifacts are contained in the laboratory. The metal artifact cleaning facilities are among the largest and best equipped in the country. The laboratory also provides space and facilities for research associates, graduate student research, teaching and comparative collections, and a regionally oriented library.

Osteological analysis of human skeletal populations is a major concentration of the laboratory. As a matter of policy, no American Indian skeletal collections are maintained. Before any such material passes through the laboratory for analysis before reburial, the project must have the approval of the tribal authorities concerned.

General Requirements for Graduation

Each student working toward a baccalaureate degree from the college must satisfactorily complete 128 semester credits (unless a higher number is specified in the particular curriculum), including at least 36 credits in courses numbered 300 and above, the all-university requirements (see regulation J-3 in part 3), and the college and departmental requirements for the degree sought. The college requirements applicable to the B.A. and B.S. degrees are listed below. The requirements for the various professional degrees (i.e., B.F.A., B.Mus., B.N.S., B. Appl.Phys., and B.Tech.) are listed by academic unit in part 5. The college B.A. and B.S. requirements do not apply to these professional degrees.

College Requirements for the B.A. and B.S. Degrees

Objectives. The college requirements for the B.A. and B.S. degrees are designed to ensure a broad, liberal education through the attainment of the following objectives: (1) proficiency in written and spoken English; (2) appreciation of great literature, music, and art; (3) knowledge of human development, the growth of social and economic institutions, and an understanding of the rights and responsibilities of the individual citizen; (4) perspective of American culture in the world at large; (5) sense of historical perspective; (6) acquaintance with moral, ethical, and aesthetic values; (7) familiarity with scientific thought and method; (8) ability to use and interpret basic mathematical concepts; (9) understanding of ecology; and (10) a continuing attitude of intellectual curiosity.

Requirements for the B.A. Degree

Humanities—6 credits (two courses) in addition to the minimum university-wide core requirements.

Social Sciences—3 credits (one course) in addition to the minimum university-wide core requirements.

Foreign Language—0-16 credits (zero-four courses), i.e., competence in one foreign language equivalent to that gained by the

completion of four semesters of college courses (through the intermediate level). This requirement may be satisfied by the completion of either of the following options: (1) 16 credits or four high-school units in one foreign language, or (2) 12 credits in one foreign language, and one three-credit course in literature translated from the same language. The 12 credits may be satisfied by three high-school units in one foreign language.

Requirements for the B.S. Degree.

Humanities—3 credits (one course) in addition to the minimum university-wide core requirements.

Social Sciences—3 credits (one course) in addition to the minimum university-wide core requirements.

Natural Sciences, Mathematics, and Statistics—6 credits (two courses) in addition to the minimum university-wide core requirements.

For the B.S. degree, the student may substitute the successful completion of an academic minor or area of emphasis of at least 18 credits approved by the department in which the student is majoring.

Courses satisfying the *humanities* requirement are those dealing with the arts, literature, and philosophy. Courses satisfying the *social sciences* requirement are those dealing with a person's social condition including social relations, institutions, history, and participation in an organized community. *Mathematics and statistics* requirements can be met by taking courses in the Department of Mathematics and Statistics. Likewise, the *natural science* requirements can be met by taking courses in the life sciences and the physical sciences.

Special topic, workshop, seminar, and directed study courses are generally not applicable. However, individual departments can, at their discretion, certify one of these nonregular courses as meeting Letters and Science B.A. or B.S. requirements in an appropriate category.

Progress in Satisfying These Requirements. Students who wish to graduate by the end of four years of college work should take a program that results in substantial progress toward the fulfillment of the preceding requirements by the end of the sophomore year. In particular, students seeking the B.A. degree should take courses in fulfillment of the foreign-language requirement as early as possible. If they cannot do this during the first semester, they should immediately take a course that can be used in partial fulfillment of the science-mathematics requirement.

Major Curricula

Selection of a Major. Each student should select a major curriculum no later than the beginning of the junior year. Lower-division students who have not decided on a major may remain in a "general" classification, which permits them to explore a variety of possible major fields of study.

Major Requirements. The departmental requirements are stated under the respective curricula in part 5.

College of Mines and Earth Resources

Robert W. Bartlett, Dean (206 Mines Bldg.); Robert L. Hautala, Associate Dean.

The College of Mines and Earth Resources (then called "School of Mines") was established in 1917 as an administrative unit of the university. There are three academic departments in the college, the Departments of Geography, of Geology and Geological Engineering, and of Metallurgical and Mining Engineering, and three other administrative divisions, the Glaciological and Arctic Sciences Institute, the Cart-O-Graphics Laboratory, and the Idaho Mining and Mineral Resources Research Institute. The Idaho Geological Survey, the director of which also serves as the dean of the college, is an affiliate program.

The college is concerned with all aspects of earth science and technology, and the course and curricular offerings have expanded considerably since the college was founded. Following is a list of the academic degrees that have been conferred in the various disciplines; the date following each is the year in which this degree was first conferred. Cartography (B.S. 1980); mining engineering (B.S. 1918, M.S. 1918, Ph.D. 1972); metallurgy, until 1934 (B.S. 1922, M.S. 1920); metallurgical engineering (B.S. 1935, M.S. 1936, Ph.D. 1973); geology (B.S. 1912, M.S. 1922, Ph.D. 1964); geological engineering (B.S. 1935, M.S. 1940); geography (B.S. 1958, M.S. 1968, Ph.D. 1989); hydrology (M.S. 1970).

In addition to the advanced degrees listed above, the College of Graduate Studies offers courses leading to these degrees: Master of Arts in Teaching with majors in geography and earth science and Master of Natural Science with a major in earth science.

Equipment and Facilities

Mining Engineering. Facilities and equipment include a rock mechanics and geophysical laboratory equipped with polariscope, strain recorder, electrical resistivity and magnetic units, a universal testing machine, a shear test machine, and other instruments for stress-strain studies of rock structure. Mine surveying instruments, ventilation apparatus, and other mining engineering tools are available. Illustrative material includes maps, drawings, films, slide collections, and video tapes that show mining methods and practices. There is video taping equipment for recording at mine sites and playback in the lab. The greatest assets for laboratory or graduate studies in mining engineering, however, are the deep mines in the Coeur d'Alene district, the small operations around the state, and the open pit mines of southern Idaho. Mining students who are interested in practical investigations or basic research can usually arrange to gather necessary data at the best source—an operating mine.

Metallurgical Engineering. The extractive metallurgy laboratories are equipped for class instruction and research in ore dressing and process metallurgy. Equipment includes crushers, ball mills, pulverizers, screens and screen shakers, flotation machines, leaching equipment, and various other concentrating machines including a Carpcu induced-roll magnetic separator and a high-intensity electrostatic separator. Equipment is available for modern instrumental analysis as well as wet chemical and fire assaying. Computer facilities allow training in data logging, on-line optimization, and process control techniques.

Physical metallurgy includes scanning electron microscopy with EDAX, the metallography laboratory with facilities for polishing and etching metals, alloys, minerals, and ceramic materials for macroscopic and microscopic examination, a variety of microscopes for visual examination of specimens, a metallograph, cameras, a darkroom for photographic work, and a corrosion studies laboratory. The x-ray diffraction laboratory is equipped to handle a large variety of problems in metallurgy, ceramics, and mineralogy, such as identification of alloy phases and minerals, texture studies, and phase diagram determinations. Other equipment includes melting furnaces, forging hammer, and rolling mill for specimen preparation, heat treating and thermal analysis furnaces, physical and mechanical test instruments, and ceramics fabrication equipment.

Geology and Geological Engineering. Laboratories are maintained for work in all of the basic courses, with large study collections of fossils, rocks, minerals, crystal models, ore suites, thin sections, polished sections, and topographic and geologic maps.

Equipment used in advanced courses include rock sawing and polishing facilities, binocular microscopes, reflection and polarizing microscopes, photomicrographic apparatus, x-ray diffraction and fluorescent equipment, and an atomic absorption spectrophotometer. The electron microprobe of the Idaho Geological Survey is available to advanced students. Also available are computers, proton magnetometers, resistivity survey equipment, a 12-channel seismograph, a gravity meter, an EDM survey unit, soil drilling and sample kits, water-level recorders, and other geophysical and hydrological equipment. Geological engineering also shares strain testing and other apparatus with mining engineering in the Geological Engineering/Mining Engineering Rock Mechanics Laboratory.

Research laboratories are equipped for work in applied geochemistry, economic geology, paleontology, photogeologic analysis, remote sensing, engineering geology, and soil testing. Facilities for research in hydrology are also available in other divisions of the university.

Through the Glaciological and Arctic Sciences Institute, cooperative facilities for field training and research in British Columbia and Alaska are available in the disciplines of mining and exploration geology, geophysics, terrestrial photogrammetry, field surveys and mappings, geomorphology, and glaciology.

Geography. The department's main laboratories are the surrounding regions, in sequence of increasing size: The Palouse, The Inland Empire, and The Pacific Northwest. There are now about 124,000 maps, numerous atlases, and 40,000 aerial photographs of Idaho in the University Library's collection. The library is a regional depository for federal documents including products of the Defense Mapping Agency. Three separate laboratories are maintained in the department for teaching and research in cartography, geographic information systems (GIS), and remote sensing. The cartographic laboratory is equipped with a process camera and darkroom, a plate maker, word processor-drive phototypesetter, and other supplemental equipment. The GIS laboratory has ARC-INFO on a HP work station, PC ARC-Info on IBM-compatible PCs, Map II on McIntosh machines, digitizers, plotters, and a scanner. ERDAS, a digital image analysis package, is available on two PCs in the remote sensing laboratory. Additional PC-based and mainframe computing are provided through the university's Computer Services facilities.

Cart-O-Graphics, the Department of Geography's graphics laboratory, offers design, drafting, and reproduction services for maps and other graphics to illustrate research reports and other publications while providing work experience for students. Although this laboratory primarily serves the university's needs, it also serves other agencies in the state and region.

Scholarship and Loan Funds

Students interested in scholarships, and who have been admitted to UI with a declared major in one of the College of Mines and Earth Resources' programs, should refer to the "Financial Aid" section in part 2 of this catalog. The following scholarships, with an annual award total of over \$270,000, are available to qualified College of Mines and Earth Resources' students: Barbee Endowment, Caldwell, Coal Division, Featherstone, Fitzgerald, Furganic, Gilbert Western, Harrison, Haynes, Howard, Idaho Mining Memorial, Larsen, Magnuson, Minerals Industry, Mines Out-of-State Tuition Waivers, Newton, Northern Engineering, Oscarson, Pothier, Savage, Smith, Staley, Stearns, Sunshine Women's, and Zeigler. Details on specific requirements to apply for one of these awards can be obtained by writing to: Associate Dean, College of Mines and Earth Resources, University of Idaho.

Idaho Geological Survey

Robert W. Bartlett, Director (206 Mines Bldg.); Earl M. Bennett, Associate Director and State Geologist (228 Morrill Hall).

The Idaho Geological Survey, by its statutory mission, is the state of Idaho's lead agency for the collection, interpretation, and dissemination of all scientific information on the geologic and mineral resources of the state. Administratively it operates in special program status at the University of Idaho with its director also serving as dean of the College of Mines and Earth Resources. As such it performs applied field and laboratory research and serves the university, the mineral and other industries, and the general public by publishing the results of its many programs and by answering correspondence and offering consultation. Analytical work with sophisticated instrumentation is a major part of all services offered.

Cooperative work between the survey and the educational programs of the College of Mines and Earth Resources and with other state and federal agencies, particularly the U.S. Survey of Mines and the U.S. Geological Survey, enhances the overall work of the college and the

survey. The staff and that of the College of Mines and Earth Resources share equipment, as well as the specialized expertise of both groups. Survey personnel, who are experienced in both applied and academic areas, are available to any department of the university for advice, consultation, and occasional lecturing. Whenever possible, students in the College of Mines and Earth Resources are offered part-time or summer work as assistants to survey professionals, frequently on projects that are funded by grant monies available for some programs. High quality graduate student dissertations, when in accord with the survey's mission and with proper permission, are often published in one of the several survey formats.

Although equipment used by the survey is housed both in the Mines Building and Morrill Hall, the principal business office of the survey and most survey personnel is located in Morrill Hall. Here, also, the survey maintains a publication sales service, including the sale of topographic maps published by the U.S. Geological Survey; this is a service used extensively by the academic community and the general public. The University Library is a repository for the many valuable American and worldwide publications received through the bureau's publication exchange program.

The survey has been housed at the university since it was originally established in 1919 under the name Idaho Bureau of Mines and Geology.

Idaho Mining and Mineral Resources Research Institute

Robert W. Bartlett, Director (206 Mines Bldg.)

The institute was established in August 1977 under Title III of Public Law 95-87, which provides for an annual appropriation by the secretary of the interior via the U.S. Office of Surface Mining to assist the various states in maintaining mineral resource research centers. These centers are usually located at land-grant institutions that have schools of mines.

As a division under the university, the Idaho Mining and Mineral Resources Research Institute (IMMRRRI) has its headquarters in the office of the dean of the College of Mines and Earth Resources. The institute has a teaching, research, and service mission aimed at the solution of a variety of mineral-related problems affecting the state and the nation today and in the future. Its aim is to work cooperatively with the Rocky Mountain Minerals Consortium and with federal, state, and other agencies particularly in Idaho, Oregon, and Washington.

The work of IMMRRRI often involves problems that are too complex to be solved by one person; a team approach is taken that combines the knowledge and skills of specialists from several disciplines including metallurgy, mining engineering, geology, geophysics, hydrology, and minerals geography, and involves consulting scientists and engineers from other disciplines. The scientific data and information derived by the institute will lead to the recovery and use of diverse and valuable mineral resources of the state of Idaho and the nation.

Glaciological and Arctic Sciences Institute

Maynard M. Miller, Director (206 Cont. Ed. Bldg. and Geology Dept., Mines Bldg.); Keith R. Mountain, Senior Scientist (211 Cont. Ed. Bldg. and Geography Dept., Mines Bldg.).

The institute was established at the university in 1975 by the Board of Regents to promote field involvement learning and research participation of undergraduate and graduate students, as well as cooperative field research with senior scientists in the arctic and mountain geosciences and allied environmental field science. Both formal and directed study field courses are given on the Juneau Icefield on the Alaska-B.C.-Yukon border, operating out of a series of field stations provided by the Foundation for Glacier and Environmental Research at the Pacific Science Center, Seattle, Washington. The academic program is cooperative with the University of Alaska-Southeast. The National Science Foundation and other agencies have provided substantial participation support

in recent years. The field training is interdisciplinary in nature and international in scope. It also conducts on-going field research in the mountains of the Pacific Northwest and in the Nepal Himalaya. Areas of interest are field and exploration geology, exploration geophysics, glaciology, Pleistocene stratigraphy, glacial and periglacial geomorphology, arctic geobotany, remote sensing, and allied areas of atmospheric sciences and survey and mapping. The summer field session runs for eight consecutive weeks during July and August. The institute houses a polar research library on campus and a documents and archives center to facilitate references to scientific data from its field programs. Opportunities for graduate thesis work are available with a faculty/student ratio of one-to-one.

Teacher Education Program

Students in the College of Mines and Earth Resources who are preparing for secondary-school teaching should consult the College of Education section in part 4.

General Requirements and Undergraduate Curricula

University Requirements. See regulation J in part 3 for the all-university requirements for graduation.

Electives. A list of acceptable electives may be consulted in the office of each head of department and adviser in the college. Electives must be approved by the head of department or the adviser involved.

Major Curricula. As specified in part 5, the programs of study in this college require 128 to 136 credits. The curricula include the departmental and general requirements as set forth above.

University Honors Program

Marvin Henberg, Director (102 Psych. Bldg.).

The University Honors Program is open to students from all undergraduate colleges and majors. The great majority of students will be able to participate in the program without adding to the total number of credits needed for graduation.

The program director and associate director act as supplemental academic advisers to all students qualifying for honors study. Honors students can anticipate a more challenging general educational experience than would otherwise be available to them. Most honors classes are small, and honors students thus profit from close intellectual contact with their instructors and fellow students. Honors students are expected to write more, think more, and discuss more than their counterparts in non-honors courses. An attractive Honors Center facility is available for use on both a formal and informal basis.

Admission

Incoming freshmen are invited to participate in the program on the basis of their high school record and standardized test scores (ACT or SAT). Admission is selective. Students receiving a 28 ACT composite score OR a 1200 SAT combined verbal and math score OR a 3.7 high school grade-point average are invited to apply. In addition, students applying must respond in writing to two essay questions. Students who do not meet the standardized test or GPA criteria can write the honors director explaining their interest in the program and their reasons for seeking admission. In these cases, in addition to the two written essays, two former teachers must send letters of recommendation to the director. Students who demonstrate superior performance during their first semester at UI may also apply for admission at the end of that semester. Transfer students are considered for admission on a case-by-case basis; students in good standing in an honors program at their previous school are automatically admitted. Their transcripts will be evaluated and appropriate credit given toward the honors certificate.

General Requirements

All honors students work toward completing a minimum of 30 credits in honors courses, satisfying requirements within specific subject areas. Full information on specific course requirements is available from the Honors Program Office. To remain a member in good standing, honors students must take at least one honors course every third semester and maintain a 3.0 cumulative grade-point average.

Honors Certificate

The honors certificate is awarded to all students who (1) complete the prescribed 30 credits in honors courses, (2) satisfy all other university and departmental requirements for graduation, and (3) achieve a minimum 3.0 GPA for all honors credits taken. Only students participating in the University Honors Program qualify for the honors certificate, and only credits taken in the program count toward the certificate. Students in the program will have all honors credits indicated as such on their permanent transcripts, even if they do not complete the full 30 credits required to earn a certificate.

Academic Major

Students participating in the University Honors Program must satisfy all requirements for their respective majors. Because a prime emphasis of the program is to provide intensive and broad exposure to a variety of academic fields, students will find that over half the honors courses will satisfy the various categories in UI's general education core requirements. The other credits required for the certificate sometimes satisfy requirements for departmental majors, and all credits count toward the total required for graduation.

Suggestion to Prospective Students

Most prospective honors students are contacted during the senior year in high school and invited to join the program. Nevertheless, it is possible that highly qualified students, especially those who apply to the university during the summer or just before registration, will be overlooked. Any student who is interested in honors study and who thinks he or she would qualify for admission is urged to write the director or drop by the program office.

Cooperative Programs

The university participates in a number of cooperative arrangements in the state and region to extend resources and take advantage of special facilities.

Washington State University

Located only eight miles apart, the University of Idaho and Washington State University, in order to take advantage of unique strengths of each institution, have for some time operated a cooperative graduate and undergraduate course program. Courses available on either campus are identified in departmental listings, and offerings are listed in the Time Schedule. In addition, the two schools cooperate in programs in medicine, veterinary medicine, and food science and technology.

Medical Education (WAMI Program)

Michael B. Laskowski, Director, Idaho WAMI Medical Education Program (304 Student Health Serv. Bldg.).

The WAMI Medical Education Program is offered by the University of Washington School of Medicine (UWSM) and selected universities and communities in Washington, Alaska, Montana, and Idaho

(WAMI). Medical students from Idaho (who must complete an application to certify Idaho residency) receive the first year of their medical training at the University of Idaho. Students attend classes at the University of Idaho and Washington State University, thus benefiting from a large group of instructors who work closely with students. First-year students also have the opportunity to work with local physician-preceptors. After completing the second year of the basic curriculum at the UWSM, the student continues in a program of clinical pathway electives during the third and fourth years that may be taken entirely at the UWSM or that may include participation in any of 23 UWSM WAMI community clinics in the four participating states. Such clerkships are available in Boise and Pocatello. Six-week clerkships in these community clinics under the auspices of the UWSM, supervised by local physicians at the office and in the hospital, offer the student a realistic approach to medical practice.

Veterinary Medical Education (WOI)

The University of Idaho cooperates with Washington State University and Oregon State University in a program of veterinary medical education, research, and service. In the WOI program, students from Idaho take the first three years of professional training in veterinary medicine at Washington State University. In the fourth year of the program, students also receive part of their training at a veterinary medical facility at Caldwell, Idaho, where they can specialize in preventive food-animal medicine. Cooperative graduate programs leading to M.S. and Ph.D. degrees are also available. Idaho students seeking to enter the professional program must complete a Washington State University Uniform Undergraduate Application Form as well as a WOI Program application. Both may be obtained from and returned to the Office of Student Services, College of Veterinary Medicine, Washington State University, Pullman, Washington 99164. In addition, Idaho applicants must secure certification of Idaho residency status by completing and submitting the appropriate residency certification forms available through the University of Idaho Admissions Office.

Idaho Falls Center for Higher Education

In cooperation with other universities in the state and region, with the U.S. Department of Energy, and with others, the University of Idaho administers graduate and undergraduate programs at the University of Idaho/Idaho Falls Center for Higher Education. For more information, see "Special Programs" further on in this part 4 of the catalog.

AWU Program

The university is a member of Associated Western Universities, which is a cooperative venture of certain institutions to make use of national laboratories located in the west. Financial support is available from the U.S. Department of Energy for graduate students and faculty to spend periods of time, up to one year, pursuing research projects at a number of these laboratories.

Interuniversity Program in Public Administration

Florence A. Heffron, Department of Political Science and Public Affairs Research (205 Admin. Bldg.).

The University of Idaho, with Idaho State University and Boise State University, offers a cooperative graduate program leading to the M.P.A. degree to provide present and prospective public administrators with a professional education and to prepare them to understand and adjust to a changing and challenging environment. Courses in core areas and in optional areas of emphasis, such as general public administration, natural resources administration, public works administration, and public finance, management, and budgeting, may be taken at any of the participating institutions without restriction. For further information, consult the Department of Political Science and Public Affairs Research.

College of Graduate Studies

Jean'ne M. Shreeve, Vice Provost for Research and Graduate Studies (112 Morrill Hall); Roger P. Wallins, Associate Dean.

The College of Graduate Studies was formally organized in 1925 (then designated as the Graduate School), but the university has offered advanced degrees for more than 90 years, awarding the first master's degree in 1897. The graduate college encompasses all divisions of the university, but does not supervise programs in the College of Law. This coverage of all regular disciplines and professional fields provides a wide variety of academic programs. Enrollments are large enough to make possible the vital interchange of ideas among students and between students and faculty that is necessary for graduate programs, and yet enrollments are sufficiently small to permit close faculty-student relationships. Interdepartmental cooperation is an important factor on the Idaho campus. The university is the chief research center for the state and as such operates active graduate programs in most areas providing a broad research base upon which graduate programs have been built.

Degree programs are offered in 68 areas for master's degrees, 6 for professional degrees, and 24 for doctoral degrees. Specific degree offerings are listed in the *Graduate Bulletin*, which also provides detailed information about the graduate college, appointments, financial aid, library, research facilities, and procedures.

Undergraduate Enrollment in the College of Graduate Studies (Partial Enrollment)

A senior with 116 or more credits and who has a cumulative grade-point average of 2.80 or higher may apply for partial enrollment in the graduate college. Seniors desiring partial enrollment must submit to and have approved by the graduate college a "Partial Enrollment" form that contains a registration plan designating undergraduate and graduate courses, thereby allowing a separate graduate transcript to be established. Capable students who are in their last year and who receive departmental approval for such enrollment can thus begin limited graduate work at an earlier date than would otherwise be possible. Partial enrollment is for one semester at a time only and does not admit or guarantee subsequent admission of such students to the graduate college. Students who have been granted partial enrollment and who later wish to be admitted to the graduate college for work on a degree must apply for admission to the graduate college following usual procedures. The deadline to apply for partial enrollment is the tenth day of class for that semester or session.

Senior in 500-Level Course

A senior may enroll in 500-level courses provided that the student has (1) a cumulative grade-point average of 2.80 or higher; (2) obtained the written approval of the instructor of the course, his or her adviser, and the vice provost for research and graduate studies; and (3) filed a "Senior in 500-Level Course" form with the graduate office. Failure to file the form with all requisite approvals, including that of the vice provost for research and graduate studies, will constitute a registration error, and no such registration is complete until the form has been accepted by the graduate college. Credits earned under this regulation are recorded on the student's undergraduate record only and may not be used subsequently toward an advanced degree. The deadline for a senior to apply for enrollment in 500-level courses is the tenth day of class for that semester or session.

Continuing Education

Continuing education programs at UI are divided into several classifications, each separately administered: credit courses, correspondence study, video outreach, noncredit classes, and workshops, shortcourses, and conferences. Each college is responsible for the development of continuing education programs based on the needs that are identified.

Credit Courses. These courses offer University of Idaho credit and are available throughout the state within the limitations indicated above. Usually a minimum of 13 students is required to offer a course, and more may be needed if instructor travel is required. In northern Idaho, courses are more commonly taught by members of the resident faculty commuting from the Moscow campus. In locations distant from the home campus, local instructors who are fully qualified may be employed subject to approval of the respective college in which the course is offered.

Generally, no single catalog of continuing education courses is available before the beginning of a semester. Instead, it is simply noted that nearly any course in the university catalog may be offered provided that an adequate number of students, a qualified instructor, and appropriate facilities are available. The schedule of courses in any geographic area is developed near the beginning of each semester and summer session. Each college is responsible for identifying and developing the courses needed, registration of students, and the administration of these programs. Individuals interested in taking courses for credit should directly contact the respective college to determine the courses available in their geographic area.

Admission procedures for enrolling in continuing education courses are streamlined. Generally, it is possible to register for a course at the time of the initial class session. In some cases to guarantee in advance the offering of a course, advance registration may be requested. Standards for admission to these courses are usually the same as for admission to credit courses on campus. Students in residence must have approval of their college before enrolling in additional credit courses.

Correspondence Study. Many UI courses are also offered through correspondence study. Each course parallels its campus counterpart in content and credits and may be started at any time, with one year allowed for completion. Most institutions limit the amount of correspondence study applicable toward a degree. For UI limitations, see regulation J-5 in part 3. A student currently enrolled at an institution of higher learning should receive written permission from his or her dean before registering for a correspondence study course. Correspondence grades are not computed in the student's grade-point average at UI.

For a bulletin that contains further information on procedures, enrollment forms, and a complete listing of college, high school, and noncredit courses, write or call the Correspondence Study Office (telephone 885-6641).

Video Outreach Program. The Video Outreach Program delivers course work by videotape leading to master's degrees in civil engineering, computer engineering, computer science, electrical engineering, geological engineering, mechanical engineering, and psychology with an emphasis in human factors. Many other courses in hazardous waste management, mathematics, and statistics are also available as well as a few noncredit shortcourses.

Lectures for regular on-campus classes are videotaped in special studio classrooms. Copies of these videotapes, together with the handouts provided by the instructors, are shipped to students once a week to their homes or workplaces. These courses are also available at reduced fees at the University of Idaho Centers in Coeur d'Alene, Boise, and Idaho Falls.

For further information, contact Engineering Outreach, University of Idaho, Moscow, Idaho 83843; (208) 885-6373.

Noncredit. The Enrichment Program office develops and administers the noncredit courses for the UI campus, Moscow, and the surrounding communities. During the fall, spring, and summer terms, over 100 classes are offered per semester to the community with total enrollments each year of approximately 6,000 participants, including children, youth, and adults. The program consists of classes in the arts, dance and music, recreation and hobbies, languages, health and fitness, foods and cooking, humanities, self-improvement, nature and the environment, and computers and career development. Programs are developed with consideration given to the needs and desires of the general public, as well as to the

economic times. Each class and instructor is independent in content, teaching style, duration, and fees; however, all have the common bond of extending the opportunities and resources of UI to the surrounding area. Classes are held both on campus and in the business community. These evening and weekend classes are scheduled to complement the working person's schedule.

Conference Services. These offerings usually originate in the academic departments. University personnel develop the substantive parts of the workshop on a higher education level, and Conference Services arranges all logistics and handles all details throughout the course. The length of the programs, the format of the conference or seminar/workshop, and the fees charged to the participants vary greatly and are determined by the departments or groups sponsoring the event. Some workshops continue for three weeks while other professional conferences convene for one day only. Continuing education units (CEU's) may be available for conferences, workshops, and shortcourses. For information about CEU's, contact the department or college sponsoring the activity.

Furthermore, Conference Services is able to assist UI faculty with workshops or professional conferences by (1) making all logistical arrangements and reservations, (2) handling the bills and incoming fees, (3) preparing materials for participants, (4) registering participants at the opening of the event, and (5) presenting a complete financial statement to the department or sponsor.

Any surplus money after the bills are paid is returned to the department and/or the sponsor of the event. If the program is unable to cover the costs, the department and/or sponsor is expected to reimburse Conference Services.

For further information, write or call Conference Services, University of Idaho, Moscow, Idaho 83843 (208/885-6876).

Elderhostel. Each summer UI offers one Elderhostel week in Moscow, one week in the forestry facility at Clark Fork, Idaho, and another week in the forestry facility at McCall, Idaho, where Elderhostelers combine educational classes and recreation. Inspired by youth hostels and folk schools of Europe and guided by the needs of older citizens for intellectual stimulation and physical adventure, Elderhostel is for elder citizens on the move—not just in terms of travel, but in the sense of reaching out to new experiences. Elderhostel is based on the belief that retirement does not have to mean withdrawal, but rather that one's later years are an opportunity to enjoy new experiences.

Elderhostel programs are available at over 1,000 colleges, universities, independent schools, and other educational institutions in the U.S. and abroad. Those 60 and over are eligible for this program, which costs approximately \$285 per week for classes, room, board, field trips, and entertainment.

For a catalog of schools and classes, write: Elderhostel, 75 Federal Street, Third Floor, Boston, MA 02110. For more information about UI Elderhostel, call the Conference Services office (208/885-6876).

Resident Instructional Center

Boise Center for Higher Education

Roger L. Reynoldson, Director, UI/Boise Center for Higher Education (800 Park Blvd., Boise, Idaho 83712; 208/364-2999).

The University of Idaho/Boise Center was established to serve certification and graduate program needs for persons involved in elementary, secondary, and higher education within Boise and the adjacent areas. Certification programs are available in vocational teacher and adult education, educational administration, and special education administration. A baccalaureate degree may also be earned in vocational teacher education and trade and industrial/technical education.

Graduate programs in education include the master's and doctorate with an emphasis on vocational teacher education, educational administration, and adult education. Sixth year professional programs may be completed in educational administration, special education, and vocational teacher education.

The Boise Center serves as an outreach site for the Video Outreach engineering program. Persons interested in master's level engineering courses may enroll in the Video Outreach program.

Persons representing a variety of University of Idaho programs are housed in the Boise Center. They include: College of Agriculture communication specialists, an agricultural education supervisor, a human nutrition specialist, the college's regional office for off-campus research and cooperative extension programs, the regional development director for Vandal Boosters, the assistant director of Alumni Relations, the associate director of New Student Services, the associate director for the Idaho Resources Research Institute, the project coordinator for ICDD, and a professional staff development program for school administrators, Project LEAD.

Coeur d'Alene Center for Higher Education

Jack Dawson, Director, UI/Coeur d'Alene Center for Higher Education (925 W. Garden Ave., Coeur d'Alene, Idaho 83814; phone 208/667-2588, FAX 208/664-1272; UserID CDA).

The University of Idaho/Coeur d'Alene Center is an integral part of the university's outreach program. It began with a single course offering in 1963. To meet the growing demand in the Idaho Panhandle for postgraduate work, the center opened an office administered by a full-time director in 1980. In 1989 UI and North Idaho College joined in a unique condominium agreement, building a new NIC library, computer, telecommunications center, and UI administrative and classroom space.

Presently the center offers an average of 115 courses a year taught by 40 faculty and affiliate faculty members. Approximately 2,500 students enroll annually, earning over 4,800 credits. Available to North Idaho students are graduate degree programs in education, educational administration, counseling and human services, vocational teacher and adult education, physical education, and sport and recreation management. An undergraduate elementary education program is being offered in conjunction with North Idaho College, as are teacher certification programs in both elementary and secondary areas.

The UI/Coeur d'Alene Center has expanded its services to include telecommunications, video outreach, correspondence study, conference and enrichment services, and special education classes. Classroom 2000, inaugurated September 1992, is a room and a vision dedicated to the demonstration and use of technology, math, science, and engineering education. It showcases the latest technology, curricula, and pedagogy to provide an enrichment facility for teachers, teacher educators, and student and community patrons as well as for University of Idaho research.

Idaho Falls Center for Higher Education

Fred H. Tingey, Director, UI/Idaho Falls Center for Higher Education (P.O. Box 778, Idaho Falls, Idaho 83402; 208/526-1388).

The University of Idaho/Idaho Falls Center for Higher Education, which began evolving in the early 1950s in support of the atomic energy operation at the Idaho National Engineering Laboratory, has developed into a general education center administered by the University of Idaho. Supported in part by funds provided by the U.S. Department of Energy, the center provides undergraduate and graduate education to INEL professionals and to the general public in the Idaho Falls area. The program is administered by a resident director who reports to the provost. Through the center students holding undergraduate degrees may earn UI master's degrees in interdisciplinary studies, computer science, chemistry, physics, industrial safety, mathematics, metallurgy, and engineering. Also through the center, Ph.D. degrees in electrical, mechanical, civil, chemical, nuclear, and metallurgical engineering, physics, and chemistry may be obtained.

In addition to the graduate degrees, students may earn bachelor's degrees in technology, computer sciences, applied math, and general studies. Certificates of General Proficiency are also offered in many different areas. These certificates recognize the successful completion of approximately 30 semester credits in a particular discipline. The center offers approximately 85 courses and enrolls approximately 750 students each semester.

UI Engineering in Boise

Robert E. Rinker, Director, UI Engineering in Boise (1910 University Drive, ET201, Boise, Idaho 83725; 208/385-1309)

The University of Idaho Engineering in Boise Program, part of the UI College of Engineering, serves students, industry, and the community in the greater Boise region with engineering education and research.

This mission includes:

- providing bachelor's and graduate degrees in engineering disciplines with specialties responsive to the needs of the Boise area;
- contributing toward and enhancing cooperative engineering offerings between the Boise and Moscow campuses, and working with Boise State University for the benefit of undergraduate engineering education;
- participating in professional and community engineering related activities commensurate with areas of emphasis;
- providing a liaison with industrial and other organizations in the Boise region regarding UI engineering activities.

The UI Engineering in Boise Program strives for excellence in engineering education using both conventional and innovative delivery methods. We dedicate ourselves to excellence in teaching, student advising, research and scholarly achievement. We encourage students with respect for their intellectual potential and dignity as individual human beings.

Summer Programs

Sid Eder, Director of Summer Programs and Extended Learning (112 Continuing Ed. Bldg.).

A fourteen-week summer session begins about the third week in May. The flexible summer schedule includes a three-week early session, two four-week terms, two six-week terms, an eight-week term, and a three-week post-session. During any of the terms, many courses are accelerated into one-, two-, or three-week concentrated sessions. Many recreational and cultural activities are scheduled through the Campus Recreation Office and the Outdoor Programs Office, as well as programs presented through the Hampton School of Music and the Department of Theatre Arts. Special pre-college programs for elementary, junior, and senior high school students are also available in several departments.

Academic regulations included in this catalog are applicable during the summer session. Anyone interested in enrolling is invited to write the Summer Programs Office for a copy of the summer bulletin that is published each year in March. The bulletin contains complete information needed to register for the summer session. For more information, call (208) 885-6237.

Course Numbering System and Key to Abbreviations and Symbols

Departments and programs in this section are listed in alphabetical order. Courses are listed by subject field with the departments and programs in which they are offered. For example, under the Division of Vocational Teacher and Adult Education, the following groups appear: adult education, business education, industrial technology education, and vocational teacher education.

Numbering System

Courses numbered 010-099 are remedial-level courses carrying no credit; those numbered 100-299 are lower-division courses primarily for undergraduates; 300-499 are upper-division courses primarily for advanced undergraduates, fifth-year students, and graduates; courses numbered 500-600 are intended for and are restricted to students enrolled in the College of Graduate Studies (see regulation B-8 in part 3 for the exception to this rule); courses numbered 800-999 are intended for and are restricted to students enrolled in the College of Law.

Letter Designations with Numbers

Certain course numbers also include letters preceding the arabic number – R101, C100, etc.:

C; (C) – when included as part of the course number, offered by correspondence study only; when shown in parentheses following the number of credits, also offered by correspondence study.

H – offered only in University Honors Program.

ID – cooperative course with Washington State University offered at the University of Idaho and available to WSU students.

J – courses conducted jointly, e.g., MusA J365/J565 (Chamber Ensemble), in which students' assignments and expected levels of performance reflect the levels for which they are enrolled.

R – offered only at the UI/Idaho Falls Center for Higher Education.

WS – cooperative course with Washington State University offered at WSU and available to University of Idaho students. For complete description, consult the WSU catalog.

Subtitled Courses

An "s" in parentheses between the number and title of a course indicates that the course may be offered under the main title and/or with an appended subtitle, e.g., "Seminar" and/or "Seminar in the History of the Pacific Northwest." The specific area normally will be listed in the Time Schedule as a separate section of the main course.

Credit Designations

Immediately following each course title, the number of credits authorized is shown in parentheses. Typical designations are:

(3 cr) – three semester credits (for courses with more than one number, e.g., 101-102-103, the three credits apply to each number).

(1-3 cr) – one to three semester credits.

(3 cr; 2 cr) – three credits fall semester; two credits spring semester.

(1-3 cr, max 3) – one to three credits during any academic session and the course may be repeated until the maximum of three credits has been earned.

(3 cr, max 12) – three credits during any academic session and the course may be repeated until the maximum of twelve credits has been earned (for a course with more than one number, e.g., 301-302, the maximum is overall and applies to the combined numbers).

(cr arr) – credits to be arranged (may be repeated for credit without restriction as to maximum).

(1-3 cr, max arr) – one to three credits during any academic session, and the course may be repeated.

Parenthetical Course Numbers

Course numbers that appear in parentheses after the course credits are former numbers and appear for one edition only.

Other Abbreviations

alt/yr – offered in alternate years

coreq – corequisite

cr – credit

dem – demonstration

dept – department

disc – discussion

div – division

exam – examination

GPA – grade-point average

grad – graduate

hr – hour

intro – introduction(-tory)

jr – junior

lab(s) – laboratory(-ies)

lec – lecture(-s)

perm – permission of instructor

perm of dept – permission of department or subject-field chair

P/F – (graded) on the basis of pass or fail

prereq – prerequisite

reqd – required

soph – sophomore

sr – senior

undergrad – undergraduate

Department of Accounting

Byron Dangerfield, Acting Dept. Head (209-G Admin. Bldg.; 208/885-6453). Faculty: Teresa P. Gordon, Jeffrey L. Harkins, Melvin G. Jolly, Marla A. Myers, Marcia S. Niles, Dan Swenson, Glen G. Utzman, Jerry L. Wegman. Adjunct Faculty: John L. Farbo.

The objective of the accounting program is to prepare students to achieve their full potential in their professional careers. The program is designed to develop and enhance a student's critical thinking, judgment, and communication skills. Students are provided the opportunity to study in a full spectrum of accounting areas including financial and managerial accounting, information systems, the public sector and not-for-profit organizations, auditing, business law, and tax.

Because the demands on today's accounting professional require that individuals entering the field have a complete understanding of their professional, ethical, and social responsibilities, the program stresses the development of the individual's professional intellect, insight, and conduct. Each student will be challenged by a wide variety of teaching techniques—the traditional lecture and examination method, the case method, seminars, and directed study. The curriculum is organized to provide for the extensive use of comprehensive oral and written assignments, analytical practice sets, and the exercise of professional judgment and decision-making. Computer resources are fully integrated into the learning process, especially as a tool for analysis and problem-solving.

The curriculum is designed to accommodate students seeking careers in public accounting, industry, and the public sector. Students are required to complete a comprehensive 136-hour program of studies. The program provides for a minimum of 55 hours of course work in communications, mathematics, social sciences, humanities, and natural sciences; 36 hours of study in the common body of knowledge in business administration and economics; 35 hours of accounting and business law; and 10 hours of free electives.

Courses

ACCOUNTING

NOTE: Enrollment in 300- and 400-level accounting courses is restricted to students who have completed at least 58 credits. In addition, CBE students must have earned at least a 2.4 GPA in the CBE predictor courses.

No course (CBE or outside the college) that is required in a CBE student's major may be taken by CBE undergraduates on a P/F basis, with the exception of courses that are taught only on a P/F basis. Only upper-division CBE courses used as free electives may be taken by CBE undergraduates on a P/F basis.

Students who have not completed the prerequisite to a course for which they are otherwise eligible may register for the course with the instructor's approval.

Acctg 200 (s) **Seminar** (cr arr). Prereq: perm.

Acctg 201 **Introduction to Financial Accounting** (3 cr) (C). Overview of the nature and purpose of general purpose financial statements provided to external decision makers; emphasis on use of financial statement information. May involve evening exams. May be taken before or after Acctg 202.

Acctg 202 **Introduction to Managerial Accounting** (3) (C). Intro to cost behavior and managerial use of accounting information for planning, control, and performance evaluation. May involve evening exams. May be taken before or after Acctg 201. Prereq: CS 100 or equivalent competency.

Acctg 203 (s) **Workshop** (cr arr). Prereq: perm.

Acctg 204 (s) **Special Topics** (cr arr). Prereq: perm.

Acctg 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Acctg 299 (s) **Directed Study** (cr arr). Individual sections may be graded P/F. Prereq: perm.

Acctg 300 **Accounting Concepts and Systems** (3 cr). Carries no cr after 301. Foundations of accounting concepts and theories; conceptual framework of accounting; intro to accounting information systems; includes computer applications reinforced by practice cases; wordprocessing and spreadsheet software proficiency reqd. May involve some evening exams. Prereq: Acctg 201, 202; prereq or coreq: Bus 332, 350.

Acctg 301 **Financial Accounting and Reporting I** (3 cr). Financial reporting issues related to assets, liabilities, and stockholders' equity; emphasis on general purpose financial statements for external users. May involve some evening exams. Prereq: Acctg 300.

Acctg 302 **Financial Accounting and Reporting II** (3 cr). Financial reporting issues on special areas including leases, pensions, deferred taxes, earnings per share, changing prices, and accounting changes. May involve some evening exams. Prereq: Acctg 301, Bus 301.

Acctg 305 **Accounting Information Systems** (3 cr). Accounting info systems as collector, effective control of organizations; system analysis, design, implementation, and evaluation as they relate to major transaction cycles; sales, purchases, production, payroll, cash receipts, and disbursements. May involve some evening exams. Prereq: Acctg 300.

Acctg 330 **Accounting for Public Sector Organizations** (3 cr). Conceptual and procedural issues involving accounting, reporting, and auditing public sector organizations including state and local governments, universities, hospitals, and health and welfare organizations. May involve some evening exams. Prereq: Acctg 300.

Acctg 381 **Accounting for Managers and Investors** (3 cr). Not open for cr to accounting majors. Development of knowledge and skills relating to the use of accounting information to enhance decision making. May involve some evening exams. Prereq: Acctg 201, 202.

Acctg 385 **Cost and Management Accounting** (3 cr). Design and use of cost management systems to support decision making and influence behavior; includes tracing costs to processes, products, and customers; budgeting and responsibility accounting; builds on basic understanding of management concepts and of manufacturing processes. Prereq: Acctg 300, Bus 311; prereq or coreq: Bus 370.

Acctg 395 **Fundamentals of Accounting** (2-4 cr, max 4). Primarily for students in the M.B.A. program. Financial statements, limitation of data, partnership and corporate accounting, financial and cost analysis, and interpretation. May involve some evening exams. Prereq: perm.

Acctg 399 **Accounting Internship Program** (1-3 cr, max 3). Graded P/F. Provide career-relevant learning experience in actual work setting and expose employers to students. Prereq: accounting major and perm.

Acctg 400 (s) **Seminar** (cr arr). Prereq: perm.

Acctg 401 **Financial Accounting and Reporting III** (3 cr). Accounting and reporting issues for complex organizations; consolidations, partnerships, foreign currency, and interim/segment reporting. May involve some evening exams. Prereq: Acctg 301.

Acctg 403 (s) **Workshop** (cr arr). Prereq: perm.

Acctg 404 (s) **Special Topics** (cr arr). Prereq: perm.

Acctg J405/J505 (s) **Professional Development** (cr arr). Credit earned in these courses will not be accepted toward graduate degree programs. Prereq: perm.

Acctg 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Acctg 483 **Federal and State Taxes I** (3 cr). Income determination, deductions, accounting methods, sales of property, deferral of tax, taxation of the individual, tax research, with primary emphasis on tax planning; the case method is used. Prereq: Acctg 202 (BLaw 366, BLaw 466, and sr standing recommended).

Acctg 484 **Federal and State Taxes II** (3 cr). Taxation of corporations and partnerships with emphasis on tax planning, tax research; the case method is used. Prereq: Acctg 202 (BLaw 366, BLaw 466, Acctg 483, and sr standing recommended).

Acctg 485 **Federal Gift and Estate Taxation and Personal Financial Planning** (3 cr). Gift and estate tax consequences on property transfer during life and at death, tax research, and estate planning and personal financial planning. May involve some evening exams. Prereq: Acctg 483, 484.

Acctg 486 **Advanced Cost and Management Accounting** (3 cr). Special applications of management accounting techniques for management planning and control; current developments in management accounting. May involve some evening exams. Prereq: Acctg 385.

Acctg 491 **Accounting Theory** (3 cr). Accounting theory and contemporary issues in financial accounting. May involve some evening exams. Prereq: Acctg 301.

Acctg 493 **Principles of Auditing** (3 cr). Concepts, standards, and methods in audit judgment formulation; independent auditor's role, legal responsibilities, and codes of ethical conduct. May involve some evening exams. Prereq: Acctg 301, 305.

Acctg 494 **Contemporary Issues in Auditing** (3 cr). Exploration of selected current issues in auditing theory and practice. May involve some evening exams. Prereq: Acctg 493.

Acctg 498 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Acctg 499 (s) **Directed Study** (cr arr). Individual sections may be graded P/F. Prereq: perm.

Acctg 501 (s) **Seminar** (cr arr). Prereq: perm.

Acctg 502 (s) **Directed Study** (cr arr). Individual sections may be graded P/F. Prereq: perm.

Acctg 504 (s) **Special Topics** (cr arr). Prereq: perm.

Acctg 505 (s) **Professional Development** (cr arr). See Acctg J405/J505.

Acctg 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Acctg 520 **Accounting for Managers and Investors** (3 cr). Development of skills in use of accounting information to enhance management and/or investment decision-making, survey of fundamentals of financial and managerial accounting issues, procedures, and practices. Prereq: Acctg 395 or equiv.

Acctg 586 **Costs: Relevance, Measurement, and Applications** (3 cr). Development of cost control. Prereq: perm.

BUSINESS LAW

BLaw 265 **Legal Environment of Business** (3 cr) (C). Law and its relationship to society; legal framework of business enterprises; court organization and operation; private property and contracts as basic concepts in a free enterprise system. May involve evening exams.

BLaw 366 **Commercial Law: Business Organizations** (3 cr). Law of agency, partnerships, and corporations. May involve some evening exams. Prereq: BLaw 265.

BLaw 466 **Commercial Law: The Uniform Commercial Code** (3 cr). Law of sales, bailments, bulk sales, commercial paper, and security interests in personal property. May involve some evening exams. Prereq: BLaw 366.

Curricular Requirements

ACCOUNTING (B.S.Bus.)

This curriculum is designed to provide a broad range of accounting-oriented career opportunities and includes a well-defined body of knowledge and rigorous, comprehensive examinations to test such knowledge. Due to the magnitude of knowledge required, most accounting students will need more than eight semesters to obtain their undergraduate degree. Accounting students may want to consider the Accounting Internship Program that enables students to gain practical experience. Normally these internships involve three to six months away from the campus. Accounting professors are available as advisers to tailor the curriculum and the Internship Program to meet the needs of individual students.

Required course work includes the university requirements (see regulation J-3), the general requirements for graduation from the College of Business and Economics (see part 4), and:

Course	Credits
Acctg 300 Accounting Concepts & Systems	3
Acctg 301 Financial Accounting & Reporting I	3
Acctg 305 Accounting Information Systems	3
Acctg 330 Accounting for Public Sector Organizations	3
Acctg 385 Cost & Management Accounting	3
Acctg 483 Federal & State Taxes I	3
Acctg 493 Principles of Auditing	3
BLaw 366 Commercial Law: Business Organizations	3
Upper-division accounting electives	11

The minimum number of credits for the degree is 136. No more than 36 credits of upper-division accounting courses beyond Acctg 201 and 202 may be included in the 136 credits required for the degree.

ADULT EDUCATION—see Division of Vocational Teacher and Adult Education

Aerospace Studios

Felix F. Moran, Head (Student Union Annex; 208/885-6129). Faculty: Jesse W. Davis, Bret A. Hyde, Antone L. Lefevre, Felix F. Moran.

The Air Force Reserve Officer Training Corps (ROTC) offers eligible students education and training that leads to a commission as a second lieutenant in the U.S. Air Force. Air Force ROTC students may major in any degree program offered at UI; they supplement their major curricula with the specialized aerospace studies courses to prepare for active commissioned service.

Four-Year Program (General Military Course and Professional Officer Course). A formal application is not required for students entering the four-year program. They may register for the program at the same time and in the same manner as they enroll in their other college courses. During their freshman and sophomore years, students enroll in the General Military Course (GMC), and there is NO MILITARY OBLIGATION. They then may compete for entry into the Professional Officer Course (POC), which is normally taken during the last two years of college. Selection into the POC is highly competitive and is based on qualification on an Air Force medical examination, a physical fitness test, scores achieved on the Air Force Officer Qualifying Test (AFOQT), successful completion of a paid four-week field training course at an Air Force base, and the recommendation of the professor of aerospace studies.

Two-Year Program (Professional Officer Course). The two-year program consists of the Professional Officer Course (POC), the last two years of the four-year program. It is designed to provide greater flexibility to meet the needs of the students desiring Air Force opportunities. The basic requirement is that applicants have at least two academic years remaining at either the undergraduate or graduate level, or a combination of both.

After being nominated by the professor of aerospace studies, applicants seeking enrollment in the two-year program are evaluated on scores achieved on the AFOQT, the Air Force medical examination, a physical fitness test, and a personal interview. Because the processing procedure must be completed approximately six months in advance of intended enrollment, interested students should apply early in the fall preceding the fall term in which they plan to enter the program. Application should be made in writing or by a personal visit to the professor of aerospace studies, Student Union Annex. After successfully completing a paid six-week field training course at an Air Force base during the summer, applicants meeting all requirements may then enroll in the Professional Officer Course.

Air Force ROTC also offers financial assistance to selected students in the form of scholarships and subsistence allowances. The students compete for the scholarships through a national screening process. The Air Force offers 3 1/2-, 3-, 2 1/2-, and 2-year scholarships that cover student fees and the cost of required labs, include a textbook allowance, and provide a \$100-a-month subsistence allowance for each school year a student is on scholarship. Students interested in applying for scholarships should get in touch with this department. Nonscholarship students receive the \$100-a-month subsistence allowance while in the POC.

Field Training. Air Force ROTC field training is offered during the summer months at selected Air Force bases throughout the U.S. Students in the four-year program participate in four weeks of field training, usually between their sophomore and junior years. Students applying for entry into the two-year program must successfully complete six weeks of field training before enrollment in the Professional Officer Course. The major areas of study in the four-week field training program include junior officer training, aircraft and aircrew orientation, career orientation, survival training, base functions and Air Force environment, and physical training. The major areas of study included in the six-week field training program are essentially the same as those conducted at four-week field training and in the General Military Course including Leadership Laboratory.

Leadership Laboratory. Leadership Laboratory is taken an average of two hours a week throughout the student's enrollment in Air Force ROTC. Instruction is conducted within the framework of an organized cadet corps with a progression of experiences designed to develop each student's leadership potential. Leadership Laboratory involves a study of Air Force customs and courtesies, drill and ceremonies, career opportunities in the Air Force, and the life and work of an Air Force junior officer. Students develop their leadership potential in a practical, supervised laboratory, which typically includes field trips to Air Force installations throughout the U.S.

Aerospace Studies Courses

Aero 101-102 U.S. Aerospace Forces (2 cr). Aero 101: Air Force customs and courtesies; responsibilities and opportunities of the Air Force officer; other topics related to Air Force operations and organization. Aero 102: structure and capabilities of U.S. aerospace forces; responsibilities and opportunities of the Air Force officer. One lec and 2 hrs of lab a wk.

Aero 201-202 Evolution of Aerospace Power (2 cr). Aero 201: growth and development of airpower doctrine and concepts from the origins of manned flight through the build-up following the Korean War. Aero 202: development of airpower doctrine and concepts from the Kennedy administration to today; peaceful employment of airpower as a force for stability; introduction to leadership, team building, and problem solving. One lec and 2 hrs of lab a wk.

Aero 291 Four-Week Field Training Course (2 cr). Successful completion of this unit meets the prereq for the Professional Officer Course. Four weeks of orientation in military skills, career fields, military operations, and leadership training, conducted during the summer at an active Air Force installation. Req'd for AFROTC cadets before being commissioned. Graded P/F. Prereq: Aero 101-102, 201-202, and perm of dept.

Aero 292 Six-Week Field Training Course (6 cr). Cr will not be allowed in Aero 292 and Aero 101-102-201-202-291. Application must be made at least six months before attendance date. Successful completion of this course meets the prereq for the Professional Officer course. Six wks of academics and orientation in military skills, career fields, military operations, and leadership training, conducted during the summer at an active Air Force installation. Req'd for two-year AFROTC cadets before entering Aero 311. Graded P/F. Prereq: two yrs' college work and perm of dept.

Aero 311 Air Force Leadership (4 cr). Professional leadership and management responsibilities, Air Force communications, and functions req'd of career Air Force officers. Three hrs of lec and 2 hrs of lab a wk. Prereq: Aero 291 or 292, or perm of dept.

Aero 312 Air Force Management (4 cr). Management principles focusing on total quality management as it relates to command and supervision. Three hrs of lec and 2 hrs of lab a wk.

Aero 411 The Professional Military Officer (4 cr). Military officership as a profession; intro to the military justice system; role of national security forces in the U.S. civil-military interactions and relations. Three hrs of lec and 2 hrs of lab a wk.

Aero 412 National Security Forces in Contemporary American Society (4 cr). Defense strategy and conflict management; formulation and implementation of U.S. defense policy. Three hrs of lec and 2 hrs of lab a wk; one 1-day field trip.

Aero 499 (s) Directed Study (cr arr). Prereq: perm of dept.

Programs

The following programs are designed to provide students with a good military and leadership foundation so students completing them can serve as effective Air Force officers. They are not designed to be academic majors and thus no bachelor's degree is offered.

For a student to receive an Air Force commission, he or she must have completed either the Four-Year Program or the Two-Year Program. Prior-service students should consult the department to find out what course of study will be required for them. In addition to the courses in aerospace studies, students must take a course in mathematical reasoning. Scholarship students must take two semesters of a foreign language.

Four-Year Program

Course	Credits
Aero 101-102 U.S. Aerospace Forces	4
Aero 201-202 Evolution of Aerospace Power	4
Aero 291 Four-Week Field Training Course	2
Aero 311 Air Force Leadership	4
Aero 312 Air Force Management	4
Aero 411 The Professional Military Officer	4
Aero 412 National Security Forces	4

Two-Year Program

Course	Credits
Aero 292 Six-Week Field Training Course	6
Aero 311 Air Force Leadership	4
Aero 312 Air Force Management	4
Aero 411 The Professional Military Officer	4
Aero 412 National Security Forces	4

Department of Agricultural and Extension Education

Lou E. Riesenber, Dept. Head (224 Morrill Hall; 208/6358). Faculty: Maurice E. Johnson, John P. Mundt, Douglas A. Pals, Lou E. Riesenber, M. Susie Whittington. Affiliate Faculty: L. Devere Burton, Richard L. Ledington, Michael G. Rush.

The mission of the Department of Agricultural and Extension Education includes teaching, research, and service. The specific objectives of the department are: (1) to prepare educators for employment in teaching agriculture and extension programs; (2) to provide service and direction to FFA in Idaho; (3) to provide an opportunity for graduate study in the areas of agricultural and extension education; (4) to assist in providing inservice education for agricultural educators in Idaho; (5) to provide service to related agencies and organizations for the support of education and the development of human resources; (6) to conduct quality research in agricultural and extension education; (7) to assist in maintaining viable agricultural education programs; and (8) to assist in the development of information and instructional materials for the support of agricultural educators and extension personnel.

Courses in animal science, agricultural economics, agricultural mechanics, entomological science, plant science, and soil science will prepare graduates to teach these areas as secondary agriculture instructors and develop educational programs as county extension faculty. The agricultural education curriculum is approved by the State Board for Vocational Education. Graduates who have completed a minimum of 26 credits in agricultural education and who meet the state certification requirements for a standard secondary teaching certificate are qualified to teach secondary agriculture. Students must be admitted to the Teacher Education Program, which requires a grade-point average of at least 2.50 and success in the National Teacher Exam, before being allowed to enroll in upper-division teacher education courses and participate in student teaching. In addition, government and agribusiness agencies that seek persons with training in agriculture and education provide employment opportunities for graduates of this curriculum. Courses provide students an opportunity to develop employment opportunities in teaching agriculture, cooperative extension, and agribusiness occupations.

The department provides opportunities for professional growth and development to agricultural educators through a planned program of graduate study. The pursuit of an M.S. degree allows for the development of problem-solving skills through scientific investigation of appropriate research topics. Graduate work in agricultural and extension education is offered with the opportunity for students to elect options in agricultural sciences, extension education, vocational teacher education, international agricultural education, or other areas that parallel their career goals. Because of the diversity of research efforts by departmental faculty members, a graduate student has a wide variety of specializations from which to choose a thesis topic. Students with this degree are well prepared to move into a job market or to pursue a Ph.D. program at another institution.

The department welcomes inquiries about its programs and suggests that anyone interested in possible pursuit of a degree in agricultural and extension education should contact the department (telephone 208/885-6358).

Courses

AGRICULTURAL EDUCATION

AgEd 180 **Introduction to Agricultural Education** (1 cr). Overview of purposes and career opportunities in agricultural education; role of secondary agriculture instructor in secondary school systems. Accelerated; first half of fall semester.

AgEd 181 **Introduction to Extension Education** (1 cr). Overview of purpose and career opportunities available in extension education profession; role of cooperative extension faculty; basic principles and practices of Cooperative Extension System including related legislation. Accelerated; second half of fall semester.

AgEd 200 (s) **Seminar** (cr arr). Prereq: perm.

AgEd 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

AgEd 211 **Agricultural Education Skills** (1 cr). Alt/yrs. Technical agriculture skills applicable to teaching agriculture.

AgEd 299 (s) **Directed Study** (cr arr). Prereq: perm.

AgEd 351 **Principles and Philosophy of Vocational Education** (3 cr). Same as VocEd 351. Overview and interpretation of history, aims, and purposes of public education and vocational education; issues and programs comprising vocational education in Idaho and the U.S.

AgEd 358 **Supervising FFA and SAE Programs** (2 cr). Role of secondary agriculture instructors in supervising FFA and Supervised Agricultural Experience programs.

AgEd 359 **Developing 4-H Youth Programs** (1 cr). Planning, development, and leadership principles of 4-H/youth program; role of 4-H/youth agent and volunteer leader.

AgEd 400 (s) **Seminar** (cr arr). Prereq: perm.

AgEd 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

AgEd J448/J548 **Principles and Practices of Extension Education** (3 cr). Alt/yrs. Philosophy and principles, social and economic significance of extension education in agriculture, home economics, and 4-H youth development; exam of behavioral science concepts in organization, development, and management of extension programs. Cr earned in AgEd 548 by completion of in-depth paper on some aspect of extension education. Prereq for AgEd 548: perm.

AgEd 452 **Methods of Teaching Agriculture** (3 cr). Procedures of identifying and selecting instructional methods and materials, planning, and student evaluation criteria to effectively teach agriculture. Five lec and one 3-hr lab a wk for 8 wks.

AgEd 453 **Program Planning in Secondary and Adult Agricultural Education** (1 or 3 cr). Planning, organizing, and implementing secondary and adult programs in agriculture. Includes only the adult section of the course when taken for 1 cr. Five lec a wk for 8 wks.

AgEd 454 **Facilities Organization and Management** (2 cr). Applications of efficient planning, organizing, and teaching skills reqd in management of lab and shop facilities. Four lec and one 3-hr lab a wk for 8 wks.

AgEd 459 **Cooperative Extension Practicum** (1-9 cr, max 9). Observation, participation, and supervised experiences in a selected extension office. Prereq: jr standing and perm.

AgEd 460 **Practicum: Secondary School Teaching in Agriculture** (10 cr). Ten wks of practical experience student teaching in secondary agriculture program; in addition each student will be expected to complete one wk of early field-based experience at his or her student teaching center, to be completed the first wk of school after Jan. 1. Prereq: GPA of 2.50, admission to the Teacher Education Program, and perm of dept.

AgEd 470 **Proseminar in Agricultural Education** (1 cr, max 2). Professional issues in agricultural education.

AgEd 499 (s) **Directed Study** (cr arr). Prereq: perm.

AgEd 500 **Master's Research and Thesis** (cr arr).

AgEd 501 (s) **Seminar** (cr arr). Prereq: perm.

AgEd 502 (s) **Directed Study** (cr arr). Prereq: perm.

AgEd 503 (s) **Workshop** (cr arr). Prereq: perm.

AgEd 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

AgEd 509 **Adult Education in Agriculture and Home Economics** (3 cr). Social and psychological factors affecting adult motivation and learning, development of leadership and group dynamics; nature, philosophy, and concepts of adult life-long learning related to agricultural, home economics, and extension education. Prereq: perm.

AgEd 548 **Principles and Practices of Extension Education** (3 cr). See AgEd J448/J548.

AgEd 557 **Problems in Teaching Agriculture** (1-3 cr, max 9). Methods and new developments. Prereq: perm.

AgEd 560 **Beginning Teacher Induction in Agricultural Education** (2 cr). On-site clinical supervision, technical assistance, and leadership to beginning teachers of secondary agricultural education programs.

AgEd 562 **Instructional Methods in Agricultural Education** (3 cr). Innovations and advanced principles in teaching methods and materials.

AgEd 583 **Program Evaluation and Planning in Agricultural and Extension Education** (3 cr). Criteria and procedures for evaluation of programs in agricultural and extension education; selection and construction of evaluation devices; use of results in program planning and implementation.

AgEd 598 (s) **Internship** (cr arr). Prereq: perm.

AgEd 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

AGRICULTURE (GENERAL)

PREREQUISITE: Enrollment in courses in this subject field requires permission of the department.

Ag 200 **Seminar** (cr arr). Prereq: perm.

Ag 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

- Ag 299 (s) **Directed Study** (cr arr). Prereq: perm.
 Ag 389 **Internship** (1-6 cr, max 6). Graded P/F. Prereq: perm.
 Ag 404 (s) **Special Topics** (cr arr). Prereq: perm.
 Ag 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.
 Ag 499 (s) **Directed Study** (cr arr). Prereq: perm.

Curricular Requirements

AGRICULTURAL EDUCATION (B.S.Ag.Ed.)

The following curriculum is approved by the State Board of Vocational Education for the preparation of high school agriculture instructors. Graduates who have completed at least 26 credits in agricultural education, and who meet the state certification requirements for a Standard Secondary Teaching Certificate, are eligible to teach secondary agricultural science and technology in Idaho. In addition, government and business agencies and the Cooperative Extension System that seek persons with education in both agriculture and education provide employment opportunities for graduates of this curriculum.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
AgEd 180 Introduction to Agricultural Education.....	1
AgEd 351 Principles & Philosophy of Vocational Education	3
AgEd 358 Supervising FFA & SAE Programs	2
AgEd 452 Methods of Teaching Agriculture.....	3
AgEd 453 Program Planning in Secondary & Adult Ag Education	3
AgEd 454 Facilities Organization & Management.....	2
AgEd 460 Practicum: Secondary School Teaching in Agriculture.....	10
AgEd 470 Proseminar in Agricultural Education	2
ASM 107 Beginning Welding.....	2
ASM 202 Agricultural Shop Practices	2
ASM 210 Small Engines.....	2
CommG 131 Fundamentals of Public Speaking	2
Ed 201 Introduction to Teaching	2
Ed 312 Educational Psychology.....	2
Ed 313 Educational Measurement	1
Ed 340 Methods of Teaching Content Reading	3
Eng 313 Business Writing or 317 Technical & Engineering Report Writing or 205 Advanced Expository Writing	3
Math 140 Pre-calculus Algebra & Analytic Geom or 111 Finite Math	3-4
VocEd 464 Vocational Guidance.....	2
Computer science course.....	3
Ag electives, incl a minimum of 6 cr in ag econ, 6 cr in animal sc, 6 cr in plant sc, and 4 cr in soils	40
Natural and applied science electives, incl 4 cr in chem and Biol 201	16
Humanities and social sc electives, incl Econ 202 and Psych 100	14
Electives to total 132 cr for the degree	—

GENERAL AGRICULTURE (B.S.Gen.Ag.)

Designed for students interested in a broad education with emphasis on agriculture. The flexibility permitted enables students to get the education needed in a general farming/ranching operation and/or prepare to work as a generalist within extension settings. Students who have not decided on a major in agriculture may enroll in this curriculum and take courses in a number of departments to decide on a departmental major. Those who start in this curriculum will be informed of the requirements in other majors and plan course selections to avoid loss of time if they transfer to another major. Note: No student may become a candidate for the B.S.Gen.Ag. degree who has already earned a degree in the College of Agriculture or who is a candidate for another degree offered by the college.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
CommG 131 Fundamentals of Public Speaking	2
Eng 205 Advanced Expository Writing or 313 Business Writing or 317 Technical & Engineering Report Writing	3
Ag econ, business, and accounting courses	12
Agriculture courses, incl courses in at least four depts or divisions	50
Humanities and social sc electives, incl Econ 201 and/or 202	14
Math, statistics, and computer sc courses, incl at least 3 cr in math.....	6
Natural and applied sc courses, incl at least 4 cr of chem and 4 additional cr of either chem or physics	16
Electives to total 132 cr for the degree	—

Academic Minor Requirements

AGRICULTURAL EXTENSION EDUCATION MINOR

Course	Credits
AgEd 180 Introduction to Agricultural Education	1
AgEd 181 Introduction to Extension Education	1
AgEd 359 Developing 4-H Youth Programs.....	1
AgEd 448 Principles & Practices of Extension Education	3
AgEd 452 Methods of Teaching Agriculture.....	3
AgEd 459 Cooperative Extension Practicum	9

**Department of Agricultural Economics
and Rural Sociology**

James R. Nelson, Dept. Head (39A Iddings Wing, Ag. Sc. Bldg.; 208/885-6264).
 Faculty: Ahmed A. Araj, John E. Carlson, Robert D. Carver, Stephen C. Cooke, S. Devadoss, John C. Foltz, C. Wilson Gray, Joseph F. Guenther, Joel R. Hamilton, Aaron J. Harp, James R. Jones, Roger B. Long, LeRoy D. Luft, Corinne M. Lyle, Larry D. Makus, Gerald E. Marousek, Neil L. Meyer, Edgar L. Michalson, James R. Nelson, Paul E. Patterson, Neil R. Rimbey, David J. Walker, Russell V. Withers. Adjunct Faculty: Richard D. Gibb.

Agricultural economics is an applied branch of economics. It is a social science that deals with economic problems in agriculture, the food industry, rural communities, and the use and conservation of our natural resources. Economic principles and theories are used to obtain maximum economic efficiency in the production and marketing of agricultural commodities and in the use of natural resources in rural areas.

The agricultural economics program prepares students to solve problems faced by farmers and ranchers, agricultural marketing and supply companies, natural resource agencies, and rural communities. The department offers the degree of Bachelor of Science in Agricultural Economics with majors in agribusiness, agricultural economics, and natural resources and rural development. Areas of study within the majors include agricultural finance, agricultural policy, marketing, farm and ranch management, rural community development, international trade and development, and management of agribusiness firms.

The agribusiness major prepares students in the management functions of farms, ranches, and businesses involved with the production and marketing of farm commodities and farm production inputs. The agricultural economics major prepares students to become professional economists in marketing and supply firms and governmental agencies—many students pursue advanced degrees in this field before entering the profession. Students completing the natural resources and rural development major are prepared to enter private industry and governmental agencies that deal with economic analysis of natural resource use and rural development problems.

The department also offers the degree of Master of Science with a major in agricultural economics. Because of the diversity of research efforts by departmental faculty, a graduate student has a wide variety of specializations from which to choose a thesis project. Students with this degree are well qualified for employment in industry or public service or to pursue a Ph.D. degree.

The department welcomes inquiries about its program and suggests that anyone interested in possible pursuit of a degree in agricultural economics should get in touch with the department head (telephone 208/885-7635).

Agricultural Economics Courses

AgEc 101 **Agricultural Economics and Agribusiness** (3 cr). Applications of economic and business principles to agriculture industry; factors affecting production and marketing of agricultural products.

AgEc 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

AgEc 278 **Principles of Farm and Ranch Management** (4 cr) (C). Decision making and profit maximization using economic principles, records, enterprise analysis, and comparison of alternative farming practices. Three lec and one 2-hr lab a wk. Prereq: Econ 202 or perm.

AgEc 289 **Agricultural Markets and Prices** (3 cr). Economics of agricultural markets and pricing institutions; analysis of supply, demand, elasticity, futures markets; effects on agricultural markets and prices. Prereq or coreq: Econ 202.

AgEc 332 **Economics of Agricultural Development** (3 cr). Problems associated with the economics of development of major agricultural areas of the world. Prereq: prin of econ.

AgEc 356 **Agricultural Programs and Policies** (3 cr). Goals, methods, results of econ programs and policies in agriculture, including role of governmental and farm organizations. One 1-day field trip. Prereq: Econ 201, 202.

AgEc ID361 **Farm and Natural Resource Appraisal** (3 cr). Same as For 361. WSU Ag Ec 361. Methods; factors affecting the value of land and related resources; valuations for loans, sale, assessment, condemnation, and other purposes; procedures used by governmental and commercial agencies. One 1-day field trip. Prereq: AgEc 278 or Econ 202 or perm.

AgEc 383 **Economics for Natural Resource Managers** (3 cr). See For 383.

AgEc 389 (s) **Internship** (1-6 cr, max 6). Graded P/F. Prereq: perm of dept.

AgEc 391 **Agribusiness Management** (3 cr). Economic theory of business; applications to management of agricultural processing and service firms; accounting, statistics, and efficiency studies for problem-solving. Prereq: Econ 202 and 3 cr in accounting.

AgEc 394 **Analytical Techniques in Agribusiness and Economics** (3 cr). Linear equations, linear programming, marginal analysis, and statistical methods applied to problem solving in agribusiness and economics. Prereq: Econ 352 and Math 160 or equiv.

AgEc 404 (s) **Special Topics** (cr arr). Prereq: perm.

AgEc 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

AgEc WS430 **Financing Agribusiness Firms** (3 cr). WSU Ag Ec 430.

AgEc 451 **Land and Natural Resource Economics** (3 cr). Agricultural, forest, and mineral land use and classification; factors affecting land use; ownership, tenure, taxation, values, credit, and governmental policies. Prereq: Econ 352.

AgEc 453 **Agricultural Price Analysis** (3 cr). Analytical tools for explaining and predicting price behavior of agricultural products; application of economics and statistics to price analysis. Prereq: Econ 352 and Stat 251, or perm.

AgEc 467 **Economics of Rural Community Development** (3 cr). Economic theory, analytical methods, and literature relevant to study of development of rural areas. Prereq: Econ 201, 202.

AgEc 477 **Economics of Developing Countries** (3 cr). See Econ 477.

AgEc 481 **Agricultural Market Analysis** (3 cr). Structure, competition, and economic performance of agricultural product and input markets. Prereq: Econ 351, 352, or perm.

AgEc 493 **Agricultural Production Economics** (3 cr). Economic theory related to agricultural production at the enterprise, firm, and industry levels. Prereq: AgEc 278 and Econ 352.

AgEc 499 (s) **Directed Study** (cr arr). Prereq: perm.

AgEc 500 **Master's Research and Thesis** (cr arr).

AgEc 501 (s) **Seminar** (cr arr). Prereq: perm.

AgEc 502 (s) **Directed Study** (cr arr). Prereq: perm.

AgEc 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

AgEc 507 **Research Methodology** (3 cr). Same as Econ, FCS, and Soc 507. Theoretical background of the scientific method applied to social science research; organization, procedures, reporting, and evaluation of research. Prereq: grad standing and perm.

AgEc 508 **Problems in Production Economics Research** (3 cr). Application of mathematical programming to issues in agricultural production. Prereq: AgEc 493 and Stat 401.

AgEc 509 **Advanced Microeconomic Theory I** (3 cr). See Econ 509.

AgEc 510 **Advanced Microeconomic Theory II** (3 cr). See Econ 510.

AgEc 522 **Advanced Aggregate Economics** (3 cr). See Econ 522.

AgEc 524 **Agricultural Trade and Development** (3 cr). Economics of international trade and development, with emphasis on policy and research issues that arise from interaction of economic events in the world food economy. Prereq: Econ 446 or perm.

AgEc 525 **Econometrics** (3 cr). Same as Econ 525. Theory and practice of multiple regression methods; applications to the study of economic and other phenomena; use of computer regression programs. Prereq: 6 cr in statistics.

AgEc 551 **Economics of Natural Resource Development** (3 cr). Allocation of natural resources over time and among uses; environmental policy; welfare economics; project evaluation and benefit cost analysis; valuation of extramarket goods. Prereq: Econ 352 or perm.

AgEc 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

The agricultural economics area has three programs designed to prepare students for professional careers in the agricultural economics profession. The agribusiness major is designed to prepare students for employment as managers, administrators, or for managerial-related positions in agribusiness. The agricultural economics major is designed to provide students with the theory behind decisions concerning agricultural production, marketing, resource use, pricing, and policy. The natural resources and rural development major is designed to provide understanding of the economics of pricing, public policy, and management of natural resources and community and human resources in rural society. Students in this major may elect courses in supporting fields for a focus in natural resource economics or in rural development economics.

CORE COURSES FOR B.S.AG.ECON.

Course	Credits
AgEc 101 Agricultural Economics & Agribusiness	3
AgEc 278 Principles of Farm & Ranch Management	4
AgEc 356 Agricultural Programs & Policies	3
Biol 100 Intro to Biology or 201 Intro to Life Sciences or Bact 250 General Microbiology	4-5
Chem 103 Introduction to Chemistry or 111 Principles of Chemistry	4
CommG 131 Fundamentals of Public Speaking	2
CS 112 Introduction to Problem Solving & Programming	3
Econ 201, 202 Principles of Economics (may not also be used to satisfy the core requirements in regulation J-3-d)	6
Econ 352 Intermediate Microeconomic Analysis	3
Eng 317 Technical & Engineering Report Writing	3
Stat 251 Principles of Statistics	3
Humanities and social sciences (at least 6 cr of each; may not include Econ 201-202)	14

AGRICULTURAL ECONOMICS (B.S.Ag.Econ.)

Required course work includes the university requirements (see regulation J-3), the agricultural economics core, and:

Course	Credits
AgEc 289 Agricultural Markets & Prices	3
AgEc 453 Agricultural Price Analysis	3
AgEc 481 Agricultural Market Analysis	3
AgEc 493 Agricultural Production Economics	3
Acctg 201 Introduction to Financial Accounting	3
Acctg 202 Introduction to Managerial Accounting	3
Econ 351 Intermediate Macroeconomic Analysis	3
Math 180 Analytic Geometry & Calculus I	4
Math, stat, or CS electives above the specific requirements	3-4
Agricultural economics electives	3
Economics electives	6
Technical agriculture electives	12
Electives to total 132 cr for the degree	—

AGRIBUSINESS (B.S.Ag.Econ.)

Required course work includes the university requirements (see regulation J-3), the agricultural economics core, and:

Course	Credits
AgEc 289 Agricultural Markets & Prices	3
AgEc 391 Agribusiness Management	3
AgEc 394 Analytical Techniques in Agribusiness & Economics	3
Two of the following courses	6
AgEc 453 Agricultural Price Analysis	
AgEc 481 Agricultural Market Analysis	
AgEc 493 Agricultural Production Economics	
Acctg 201 Introduction to Financial Accounting	3
Acctg 202 Introduction to Managerial Accounting	3
Acctg 381 Accounting for Managers & Investors	3
BLaw 265 Legal Environment of Business	3
Bus 413 Organizational Behavior	3
Math 160 Survey of Calculus or 180 Analytic Geom & Calc I	4
Math, stat, or CS electives above the specific requirements	3-4
Agricultural economics electives	3
Ag economics, economics, business, or accounting electives	3
Technical agriculture electives	12
Electives to total 132 cr for the degree	—

NATURAL RESOURCES AND RURAL DEVELOPMENT (B.S.Ag.Econ.)

Required course work includes the university requirements (see regulation J-3), the agricultural economics core, and:

Course	Credits
AgEc 451 Land & Natural Resource Economics or 467 Economics of Rural Community Development	3
AgEc 493 Agricultural Production Economics	3
Econ 351 Intermediate Macroeconomic Analysis	3
Econ 430 Regional/Urban Economics	3
Econ 385 Environmental Economics	3
Math 180 Analytic Geometry & Calculus I	4
PolSc 275 American State & Local Government	3
Soc 310 Rural Sociology	3
Agricultural economics electives (select from AgEc 289, 332, 361, 394, 451, and 467)	9
Math, stat, or CS electives above the specific requirements	3-4
Supporting field electives (see list in dept office)	18
Electives to total 132 cr for the degree	—

Academic Minor Requirements

AGRICULTURAL ECONOMICS MINOR

Course	Credits
AgEc 101 Agricultural Economics & Agribusiness	3
AgEc 278 Principles of Farm & Ranch Management	4
AgEc 289 Agricultural Markets & Prices	3
AgEc 332 Econ of Ag Development or 356 Ag Programs & Policies	3
Two of the following courses	6
AgEc 453 Agricultural Price Analysis	
AgEc 481 Agricultural Market Analysis	
AgEc 493 Agricultural Production Economics	

AGRIBUSINESS MINOR

Course	Credits
AgEc 101 Agricultural Economics & Agribusiness	3
AgEc 278 Principles of Farm & Ranch Management	4
AgEc 289 Agricultural Markets & Prices	3
AgEc 394 Analytical Techniques in Agribusiness & Economics or 453 Ag Price Analysis or 481 Ag Market Analysis	3
Two of the following courses	6
AgEc 356 Agricultural Programs & Policies	
AgEc 361 Farm & Natural Resource Appraisal	
AgEc 391 Agribusiness Management	

**NATURAL RESOURCE ECONOMICS AND
COMMUNITY DEVELOPMENT MINOR**

Course	Credits
AgEc 101 Agricultural Economics & Agribusiness	3
AgEc 278 Principles of Farm & Ranch Management	4
AgEc 356 Agricultural Programs & Policies	3
AgEc 451 Land & Natural Resource Economics or 467 Economics of Rural Community Development	3
Two of the following courses	6
AgEc 332 Economics of Agricultural Development	
AgEc 361 Farm & Natural Resource Appraisal	
AgEc 383 Economics for Natural Resource Managers	

Department of Agricultural Engineering

James A. DeShazer, Dept. Head (102 Ag. Engr. Office Bldg.; 208/885-6182). Faculty: Charles E. Brockway, Mark E. Casada, James A. DeShazer, Edwin A. Dowding, James L. Halderon, Behzad Izadi, Bradley A. King, Ian R. McCann, Jack M. McHargue, Myron P. Moldau, W. Howard Neibling, Charles L. Peterson, Robert F. Rynk, Geoffrey J. Shropshire.

Agricultural engineering is the profession that bridges the area between two fields of applied science—engineering and agriculture. It is the engineering discipline oriented to the design of equipment and systems for the production, processing, and transportation of food, feed, natural raw fiber, and forest products and the effective use of natural resources. Agricultural engineers have the education and interests that make them uniquely capable to develop engineering solutions from agricultural and biological systems for the efficient use of natural resources to the production of plants and animals to the final processing of food, feed, and fiber products.

In contrast to agricultural engineering, which emphasizes the design of systems and equipment, agricultural systems management emphasizes the use and management of equipment and systems based on an understanding of their design and operation. Agricultural systems management courses are designed to provide students with competencies in systems technology and analysis of agricultural equipment and machinery applications, feed and food processing, agricultural electrification, soil and water management and fabrication practices for agricultural and natural resource based enterprises.

The agricultural engineering program at UI is designed to prepare students for a variety of interesting and rewarding engineering careers. Many graduates are employed as design or development engineers by equipment manufacturers, irrigation companies, trade associations, consulting engineering firms, and governmental agencies. Others are self-employed in their own consulting firms, farming, farm equipment manufacturing, and other engineering-related enterprises.

The curriculum leading to the B.S.Ag.E. is accredited by the Engineering Accreditation Commission of the Accrediting Board of Engineering and Technology. Students in this program are eligible to take the Engineer-in-Training (EIT) Examination just before they graduate and to become registered professional engineers after graduating and completing an experience requirement.

The undergraduate degree program in agricultural systems management (B.S.A.S.M.) is designed to prepare students to apply biological, physical, mechanical, and business knowledge to the production, service, sales, application and management of the equipment and processes used in agriculture. The curriculum stresses courses in agriculture, agricultural systems management, and basic and applied sciences, and includes a strong background in agricultural economics, accounting, and business. It prepares students for a variety of important and rewarding career opportunities. Many graduates return to farming. Others pursue careers as farm managers or are employed by agriculture and natural resource oriented businesses, banking firms, educational institutions, or governmental agencies. This curriculum is recognized by the American Society of Agricultural Engineers.

The agricultural systems management courses are available to nonmajors interested in obtaining an understanding of the technology used in modern agricultural production systems. A minor in agricultural systems management can be used to support degree programs in other departments.

Graduate study is offered in agricultural engineering with specialization in irrigation and drainage, hydrology, and soil and water conservation; energy sources, use, and conservation; harvesting, handling, and processing agricultural crops; equipment design and development; and environmental systems and animal waste management. The degrees offered are the Master of Science, the Master of Engineering, and the Doctor of Philosophy.

Courses

AGRICULTURAL ENGINEERING

NOTE: All 300-, 400-, and 500-level agricultural engineering courses require a working knowledge of computers including the use of mainframe and microcomputers, structured programming, electronic spreadsheets, and word processing.

AgE 142 Introduction to Agricultural Engineering (2 cr). Intro to engineering principles used to solve agricultural problems, including use of computers. One lec and two labs a wk; two half-day field trips.

AgE 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

AgE 242 Agricultural Engineering Analysis and Design (2 cr). Methods of analyzing and solving engineering problems and intro to elements of design; use of computers in engineering problem solving. Prereq: CS 105 or 112; Math 190.

AgE 299 (s) Directed Study (cr arr). Prereq: perm.

AgE ID351 Hydrology (3 cr). Same as CE 321. WSU Ag E 351. Analysis of precipitation and runoff events; principles of climatology, evaporation, infiltration, and snowmelt. Prereq: one semester of calculus.

AgE 352 Soil and Water Engineering (3 cr). Plant-soil-water relationships, applied hydraulics, soil erosion principles and control, drainage, and legal aspects of water resources. Two lec and one 3-hr lab a wk. Prereq: CE 320 and AgE 351.

AgE ID&WS372 Agricultural Power and Machines (3 cr). WSU Ag E 362. Performance, operation, and testing of agricultural power units and machinery; functional requirements, force analysis, power transmission, safety, and economics. Two lec and three hrs of lab a wk; one 1-day field trip.

AgE WS390 Introduction to Soil and Water Engineering (3 cr). WSU Ag E 390.

AgE 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

AgE WS421 Global Agricultural Engineering (1 cr, max 4). WSU Ag E 421.

AgE ID&WS-J441/ID&WS-J541 Instrumentation and Measurements (3 cr). WSU Ag E 541. Sensing elements, signal conditioning, data output and control. Additional projects/assignments reqd for grad cr. Two lec and one 3-hr lab a wk. Prereq for AgE 541: perm.

AgE ID449 Design of Agricultural Structures (3 cr). WSU Ag E 472. Design of timber, steel, and reinforced concrete members and connections for agricultural structures. Two lec and one 3-hr lab a wk. Prereq: ME 340.

AgE ID451 **Engineering Hydrology** (3 cr). Same as CE 421. WSU Ag E 451. Hydrologic cycle as applied to engineering projects; hydrograph routing; design hydrographs; intro to hydrologic simulation. Prereq: AgE 351 and CE 320.

AgE ID-J454/ID-J554 **Drainage System Design** (2 cr). WSU Ag E 454/554. Theory and design of subsurface drainage systems in agriculture, waste management, and construction; intro to unsaturated flow. Additional projects/assignments reqd for grad cr. Prereq: CE 320; prereq for AgE 554; perm.

AgE ID&WS-J456/ID&WS-J556 **Irrigation System Design** (3 cr). WSU Ag E 491/591. Crop water requirements, irrigation scheduling and water management, selection and design of irrigation systems, pump selection. Additional projects/assignments reqd for grad cr. Two lec and one 3-hr lab a wk; one 1-day field trip. Prereq: AgE 352.

AgE 458 **Open Channel Hydraulics** (3 cr). Same as CE 428. Hydraulics of uniform and varied flow in open channels with fixed and movable beds. Prereq: AgE 352 or CE 322.

AgE ID&WS461 **Agricultural Processing and Environment** (3 cr). WSU Ag E 385. Analysis and design of processing and environmental systems for animal production, crop processing, and storage facilities. Two lec and one 3-hr lab a wk. Prereq: ChE 321.

AgE ID&WS462 **Electric Power and Controls** (3 cr). WSU Ag E 380. Design and on-farm use of elec equipment and systems; design of electronic control systems for agricultural applications. Two lec and one 3-hr lab a wk; one 1-day field trip. Prereq: EE 207.

AgE ID-J474/ID-J574 **Fluid Power and Control Systems** (3 cr). WSU Ag E 474/574. Circuit components; circuit design and testing; sequential and feedback control applications. Two lec and one 3-hr lab a wk. Additional projects/assignments reqd for grad cr. Prereq for AgE 574; perm.

AgE 478 **Agricultural Engineering Design I** (1 cr). Intro to design process, CAD/CAM facility, product liability, and project scheduling; formulation of a design problem.

AgE 479 **Agricultural Engineering Design II** (2 cr). Individual or team design of an agriculture related problem; incl synthesis, analysis, construction, and testing; final report reqd. Two 3-hr labs a wk. Prereq: AgE 478.

AgE WS486 **Engineering Properties of Agricultural Materials** (3 cr). WSU Ag E 386.

AgE WS-J487/WS-J587 **Food Process Engineering** (3 cr). WSU Ag E 487/587.

AgE 491 **Seminar** (1 cr). Professional aspects of the field, employment opportunities and preparation of occupational inventories. Graded P/F. Prereq: sr standing.

AgE WS-J496/WS-J596 **Conservation Engineering** (3 cr). WSU Ag E 496/596.

AgE 499 (s) **Directed Study** (cr arr). Prereq: perm.

AgE 500 **Master's Research and Thesis** (cr arr).

AgE 501 (s) **Seminar** (cr arr). Graded P/F. Prereq: perm.

AgE 502 (s) **Directed Study** (cr arr). Prereq: perm.

AgE 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

AgE ID&WS541 **Instrumentation and Measurements** (3 cr). See AgE J441/J541.

AgE 551 **Advanced Hydrology** (3 cr). Principles of the hydrologic cycle in mountainous areas, including precipitation, snowmelt, and systems simulation.

AgE WS552 **Advanced Theory of Irrigation Water Requirements** (3 cr). WSU Ag E 590. Alt/yrs.

AgE WS553 **Advanced Theory and Design of Irrigation Systems** (3 cr). WSU Ag E 592. Alt/yrs.

AgE ID554 **Drainage System Design** (2 cr). See AgE J454/J554.

AgE ID555 **Natural Channel Flow** (3 cr). WSU C E 555. Same as CE 529. Hydraulics of nonuniform flow in irregular channels, unsteady flow, and flow routing.

AgE 556 **Irrigation System Design** (3 cr). See AgE J456/J556.

AgE ID558 **Fluid Mechanics of Porous Materials** (3 cr). WSU Ag E and C E 558. Statics and dynamics of multiflow systems in porous materials; properties of porous materials; steady and unsteady flow.

AgE WS561 **Advanced Agricultural Engineering Topics** (1-4 cr, max 6). WSU Ag E 551.

AgE ID574 **Fluid Power and Control Systems** (3 cr). See AgE J474/J574.

AgE WS587 **Food Process Engineering** (3 cr). See AgE J487/J587.

AgE 589 **Water Resources Seminar** (1 cr). See Inter 589.

AgE WS593 **Drainage Engineering** (3 cr). WSU Ag E 593.

AgE WS596 **Conservation Engineering** (3 cr). See AgE J496/J596.

AgE 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

AgE 600 **Doctoral Research and Dissertation** (cr arr).

AGRICULTURAL SYSTEMS MANAGEMENT

ASM ID107 **Beginning Welding** (2 cr). WSU AgTM 107. Principles of operation, use, and care of arc and acetylene welding equipment. One lec, one 2-hr lab, and two hrs of individual practice a wk. Enrollment limited to 12 per section.

ASM 112 **Introduction to Agricultural Systems Management** (3 cr). WSU AgTM 112. Application of basic engineering principles to solving problems dealing with farm machinery, buildings, processing, irrigation, and energy use. Prereq: high school algebra.

ASM 115 **Graphical Representation** (2 cr). Drafting procedures, lettering, orthographic projection, pictorial drawings, etching, graphs, and computer drafting. One lec and one 2-hr lab a wk.

ASM 200 (s) **Seminar** (cr arr). Prereq: perm.

ASM ID202 **Agricultural Shop Practices** (2 cr). WSU AgTM 202. Primarily for agricultural mechanization and agricultural education students. Operation, use, and care of shop tools and equipment. One lec and one 3-hr lab a wk.

ASM WS203 **Agricultural Structures** (3 cr). WSU AgTM 203.

ASM 204 (s) **Special Topics** (cr arr). Prereq: perm.

ASM 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

ASM ID210 **Small Engines** (2 cr). WSU AgTM 313. Principles of engine operation, tune-up, and maintenance; repair and overhaul of small engines. One lec, one 2-hr lab, and two hrs of individual practice a wk. Enrollment limited to 12 per section.

ASM 240 **Computer Applications in Biological Systems** (3 cr). Application of computers in production agriculture; microcomputer principles and operation, disk operating systems; word processing; spreadsheets, database management and other application programs; introduction to one program language. Two lec and one 2-hr lab a wk. Prereq: three credits of college math or perm.

ASM 304 **Agricultural Fluid Power Systems** (1 cr). Fundamentals of hydraulic power and control as applied to agricultural machines and processing equipment; component function and sizing; schematic diagrams. One 3-hr lab a wk. Prereq: Math 160, Phys 101 or perm.

ASM ID&WS305 **Agricultural Machinery Systems** (3 cr). WSU AgTM 305. Application, management, adjustment, and care of farm equipment; machinery fabrication, and power transmission. Two lec and one 3-hr lab a wk.

ASM ID306 **Agricultural Structures and Environmental Systems** (3 cr). WSU AgTM 306. Planning farm buildings, construction materials, beam and column design, insulation and ventilation for environmental control. Two lec and one 3-hr lab a wk.

ASM WS312 **Engines and Tractors** (3 cr). WSU AgTM 312.

ASM ID&WS315 **Irrigation Systems and Water Management** (3 cr). WSU AgTM 315. Irrigation methods, irrigation management, water rights, conveyance and measurement, pumps, soil-water-plant relationships, and drainage.

ASM ID&WS331 **Electric Power Systems for Agriculture** (3 cr) (ASM ID&WS312). WSU AgTM 331. Basic circuits; wiring and the code; motors and controls; heating, lighting, and power. Two lec and one 3-hr lab a wk.

ASM WS346 **Turf Irrigation Systems** (1 cr). WSU AgTM 346.

ASM 389 **Internship** (1-6 cr, max 6). Graded P/F. Prereq: perm of dept.

ASM 400 (s) **Seminar** (cr arr). Prereq: perm.

ASM 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

ASM ID409 **Agricultural Tractors and Power Units** (4 cr) (ASM ID312). WSU AgTM 312. Selection, operation, adjustment, service, and testing; fuels and combustion; fuel, lubrication, cooling, and electrical systems; tractor power trains, hitching, traction, and safety. Three 1-hr lec and one 3-hr lab a wk.

ASM WS413 **Human and Machinery Risk Management** (2 cr). WSU AgTM 413.

ASM 414 **Analysis of Agricultural Systems I** (2 cr). Analysis of agricultural systems and equipment associated problems in food and agricultural industries; linear programming, simulation, critical path methods, and other system analysis techniques considering physical, social, and economic constraints; provides students with the knowledge and computer skills to better manage resources for the evolving agricultural industries. One 1-day field trip. Prereq: ASM 240 or equiv, Math 160, and sr standing.

ASM WS416 **Mobile Hydraulics** (3 cr). WSU AgTM 416.

ASM 424 **Analysis of Agricultural Systems II** (2 cr). Management of agricultural systems through team solution of management problems posed by agribusiness managers, farmers, extension specialists, and other industry consultants; application of management principles to give students experience in solving realistic problems faced by agribusiness managers; critical evaluation of results by students, staff, and consultants. Two 2-hr labs a wk; one 1-day field trip. Prereq: ASM 414.

ASM ID&WS433 **Agricultural Processing Systems** (3 cr) (ASM ID&WS405). WSU AgTM and FSHN 433. Same as FST 433. Grain cleaning, mixing, and drying; materials handling, heat transfer, pumps, fans, refrigeration, and instrumentation. Two lec and one 3-hr lab a wk; one 1-day field trip.

ASM WS435 **Instrumentation for Data Acquisition in Agriculture** (3 cr). WSU AgTM 435.

ASM 499 (s) **Directed Study** (cr arr). Prereq: perm.

Curricular Requirements

AGRICULTURAL ENGINEERING (B.S.Ag.E.)

Designed to prepare students for professional careers in agricultural engineering. The curriculum is administered under the College of Engineering and is accredited by the Engineering Accreditation Commission of the Accreditation Board of Engineering and Technology.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
AgE 142 Introduction to Agricultural Engineering.....	2
AgE 242 Agricultural Engineering Analysis & Design	2
AgE 351 Hydrology	3
AgE 352 Soil & Water Engineering	3
AgE 372 Agricultural Power & Machines.....	3
AgE 441 Instrumentation & Measurements.....	3
AgE 449 Design of Agricultural Structures.....	3
AgE 456 Irrigation System Design	3
AgE 461 Agricultural Processing & Environment.....	3
AgE 462 Electric Power & Controls.....	3
AgE 478, 479 Agricultural Engineering Design I, II	3
AgE 491 Seminar	1
ChE 321 Engineering Thermodynamics & Heat Transfer	3
Chem 111 Principles of Chemistry.....	4
Chem 114 General Chemistry or Chem 275, 276 Carbon Compounds & Lab or Chem 277, 278 Organic Chemistry I & Lab	4
CE 210 Engineering Statics	3
CE 211 Engineering Measurements	3
CE 320 Engineering Fluid Mechanics	3
CS 105 FORTRAN Programming for Engineers or CS 112 Introduction to Problem Solving & Programming	2-3
EE 207 Introduction to Electrical Engineering	3
Math 180, 190, 200 Analytic Geometry & Calculus.....	11
Math 310 Ordinary Differential Equations	3
ME 101 Engineering Graphics	2
ME 220 Engineering Dynamics	3
ME 340 Engineering Mechanics of Materials.....	3
Phys 210, 211 Engineering Physics I, II	6
Soils 205 General Soils.....	3
Stat 301 Probability & Statistics	3
Biological science electives.....	3
Communications electives.....	2
Humanities and social sciences electives, incl at least (1) one upper-div course or (2) a course that has another humanities/social sc course as a prereq	16
Technical electives (may incl upper-div biol sc and must incl at least two formal 400-level ag engr courses)	11
Undesignated electives	2

The minimum number of credits for the degree is 128, not counting Eng 103, Math 140, and other courses that might be required to remove deficiencies.

A grade of C or better is required in each of the following courses before registration is permitted in upper-division engineering courses: AgE 242, Chem 111, CS 105 or 112, CE 210, ME 220, Math 200, and Phys 210.

AGRICULTURAL SYSTEMS MANAGEMENT (B.S.A.S.M.)

Designed to prepare students for careers in agriculture and agriculturally related businesses that require a knowledge of engineering methods. Emphasis is placed on the practical application of technology to agriculture. This curriculum is administered by the Department of Agricultural Engineering.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
ASM 112 Introduction to Agricultural Systems Management.....	3
ASM 115 Graphical Representation.....	2
ASM 200 Agricultural Systems Management Seminar	1
ASM 202 Agricultural Shop Practices	2
ASM 240 Computer Applications in Biological Systems	3
ASM 304 Agricultural Fluid Power Systems.....	1
ASM 305 Agricultural Machinery Systems	3
ASM 306 Agricultural Structures & Environmental Systems.....	3
ASM 315 Irrigation Systems & Water Management.....	3
ASM 331 Electric Power Systems for Agriculture	3
ASM 409 Agricultural Tractors & Power Units.....	4
ASM 414 Analysis of Agricultural Systems I	2
ASM 424 Analysis of Agricultural Systems II	2
ASM 433 Agricultural Processing Systems	3
Acctg 201 Introduction to Financial Accounting	3
Acctg 202 Introduction to Managerial Accounting	3
AgEc 278 Principles of Farm & Ranch Management	4
AgEc 391 Agribusiness Management	3
Biol 100 Introduction to Biology.....	4
BLaw 265 Legal Environment of Business.....	3
CE 218 Elementary Surveying	2
Chem 103 Introduction to Chem or 111 Principles of Chem	4
CommG 131 Fundamentals of Public Speaking	2

Econ 201, 202 Principles of Economics	6
Math 160 Survey of Calculus or Math 180 Analytic Geom & Calculus.....	4
Phys 101 Fundamentals of Physics	4
PISc 102 Introduction to Plant Science	3
Soils 205, 206 General Soils & Lab.....	4
Stat 251 Principles of Statistics	3
Advanced writing electives.....	3
Agricultural electives	3
Business electives.....	3
Humanities and social sciences electives	8
Life sciences electives.....	3
Technical electives	11
Electives to total 132 cr for the degree	—

Academic Minor Requirements

AGRICULTURAL SYSTEMS MANAGEMENT

Course	Credits
ASM 202 Agricultural Shop Practices	2
At least four credits from the following skill courses:	
ASM 107 Beginning Welding (2 cr)	2
ASM 115 Graphical Representation (2 cr)	2
ASM 210 Small Engines (2 cr)	2
At least ten credits from the following application courses:	
ASM 304 Agricultural Fluid Power Systems (1 cr)	1
ASM 305 Agricultural Machinery Systems (3 cr)	3
ASM 306 Agricultural Structures & Environmental Systems (3 cr)	3
ASM 315 Irrigation Systems & Water Management (3 cr)	3
ASM 409 Agricultural Tractors & Power Units (4 cr)	4

The minimum number of credits in agricultural systems management courses for the minor is 19.

Program in American Studies

William R. Swagerty, Coordinator (330 Admin. Bldg.; 208/885-6533). Faculty: Katherine G. Aiken, Roy A. Atwood, Anna Banks, David S. Barber, Donald W. Crowley, Jack L. Davis, Mary H. DuPree, Shaikh M. Ghazanfar, H. Lynne Haagensen, Sandra Haarsager, Peter A. Haggart, Walter A. Hesford, Eric L. Jensen, Harley E. Johansen, Andrea Lerner, Alan Lifton, William R. Lund, Barbara R. Meldrum, Sheila O'Brien, Roderick Sprague, William R. Swagerty, Margrit von Braun, Diane B. Walker, Dennis D. West, Gary Williams. **Affiliate Faculty:** Bruce Wollenberg.

American Studies Courses

AmSt 301 Interpreting America (4 cr). Satisfies core requirement J-3-d. Interdisciplinary approach to study of major aspects of American culture from its beginning to the present. Prereq: junior standing or perm.

AmSt 404 (s) Special Topics (cr arr). Prereq: perm.

AmSt 499 (s) Directed Study (cr arr). Prereq: perm.

Curricular Requirements

AMERICAN STUDIES (B.A.)

Required course work includes the university requirements (see regulation J-3), general requirements for the B.A. degree, and:

1. Ten credits in courses offered specifically for students in the American Studies program, including AmSt 301, Interpreting America (normally, one course each semester will be offered—see adviser); and

2. Completion of one of the following major areas of emphasis:

A. LITERATURE EMPHASIS

Course	Credits
Eng 343-344 Survey of American Literature	6
Two courses in English literature	6
Courses selected from the following list.....	15
Eng 427 American Fiction, 1914-1945	3
Eng 439 Modern English & American Drama	3
Eng 441 Intro to the Study of Language	3
Eng 470 American Literature to 1830	3
Eng 471 Poe, Hawthorne, & Melville	3
Eng 472 Emerson, Thoreau & Whitman	3
Eng 473 Literature of the American West	3
Eng 474 American Literature, 1865-1914	3
Eng 480 Ethnic & Minority Literature	3
Eng 483 Black Literature	3
Eng 484 American Indian Literature	3

Courses in history and social science, incl at least 6 cr in each (selected from courses listed under the social sc emphasis and from upper-div courses listed under the history emphasis) 18

B. HISTORY EMPHASIS

Course	Credits
Hist 101-102 History of Civilization.....	6
Hist 111-112 Introduction to U.S. History.....	6
Five courses selected from the following list.....	15
Art 302 History of Art	
CommG 384 History of American Film	
Hist 313 Red, White & Black: The Peopling of Early North America	
Hist 410 Land & the American Imagination	
Hist 411 American Colonial History to 1763	
Hist 412 The American Revolution, 1763-1789	
Hist 413 U.S.: Early National Period	
Hist 415 Civil War & Reconstruction, 1828-1877	
Hist 417 United States, 1900-1945	
Hist 418 Recent America, 1945-Present	
Hist 420 History of Women in American Society	
Hist 423 Idaho & the Pacific Northwest	
Hist 428 History of the American West	
Hist 431 History of Indian-White Relations	
Hist 432 The Canadian & American Western Experiences	
Hist 433-434 Social & Cultural History of the U.S.	
MusH 440 Studies in American Music	
Courses in literature and social science, incl at least 6 cr in each (selected from courses listed under the social sc emphasis and the following lit courses).....	18
Eng 343-344 Survey of American Literature	
Eng 427 American Fiction, 1914-1945	
Eng 470 American Literature to 1830	
Eng 471 Poe, Hawthorne, & Melville	
Eng 472 Emerson, Thoreau, & Whitman	
Eng 473 Literature of the American West	
Eng 474 American Literature, 1865-1914	
Eng 483 Black Literature	
Eng 484 American Indian Literature	

C. SOCIAL SCIENCE EMPHASIS

Course	Credits
Anthr 329 North American Indians or Anthr 325 Indians of Idaho.....	3
Econ 201, 202 Principles of Economics or 272 Foundations of Economic Analysis and 345 American Economic Development.....	6-7
Geog 362 United States & Canada.....	3
PolSc 435 or Soc 410 Research Methods.....	3
Soc 230 Social Problems.....	3
Soc 322 Racial & Ethnic Relations.....	3
Soc 414 Classical Social Theory.....	3
Courses selected from the following list.....	14
Anthr 100 Introduction to Anthropology	
Arch 483 Urban Theory & Issues	
Arch 499 Directed Study: American Architecture	
CommG 384 History of American Film	
CommG 386 American Documentary Film/Television	
Comm 140 Mass Media & Society	
Comm 444 Communication & Public Opinion	
Comm 445 History of Mass Communication	
Econ 410 State & Local Government Finance	
Econ 345 American Economic Development	
Econ 441 Labor Economics	
Geog 165 Human Geography	
Geog 330 Urban Geography	
Geog 360 Population Dynamics & Distribution	
Geog 364 Idaho & Pacific Northwest	
MusH 440 Studies in American Music	
Phil 411 Social & Political Philosophy	
PolSc 275 American State & Local Government	
PolSc 431 American Political Parties & Elections	
PolSc 432 American Congress	
PolSc 433 American Political Culture	
PolSc 438 Conduct of American Foreign Policy	
PolSc 467 Constitutional Law	
Soc 220 Marriage & the Family	
Soc 310 Rural Sociology	
Soc 313 Collective Behavior	
Four courses in literature and history, incl at least 3 cr in each (selected from the following list).....	12
Eng 343-344 Survey of American Literature	
Eng 427 American Fiction, 1914-1945	
Eng 470 American Literature to 1830	
Eng 471 Poe, Hawthorne, & Melville	
Eng 472 Emerson, Thoreau, & Whitman	
Eng 473 Literature of the American West	
Eng 474 American Literature, 1865-1914	
Eng 483 Black Literature	
Eng 484 American Indian Literature	
Hist 313 Red, White, & Black: The Peopling of Early North America	
Hist 417 United States, 1900-1945	
Hist 418 Recent America, 1945-Present	
Hist 431 History of Indian-White Relations	
Hist 433-434 Social & Cultural History of the U.S.	

Academic Minor Requirements

AMERICAN STUDIES MINOR

Course	Credits
AmSt 301 Interpreting America.....	4
Six courses numbered 300 or above, chosen from the emphasis lists under the American Studies major.....	18

Note: No course used toward an American Studies minor may also be used toward any major.

Department of Animal and Veterinary Science

Richard A. Battaglia, Dept. Head (213 Ag. Sc. Bldg.; 208/885-6345). Faculty: Bruce C. Anderson, Richard A. Battaglia, Mark V. Boggess, Ernest L. Brannon, Marie S. Bulgin, Richard C. Bull, James E. Butler, Edward P. Duren, Dean E. Falk, Dennis G. Falk, Edward A. Fiez, Dan D. Hinman, Carl W. Hunt, V. Michael Lane, Stuart D. Lincoln, Thomas B. McFadden, John C. Miller, Richard J. Norell, Ronald P. Richard, Richard A. Roeder, William K. Sanchez, R. Garth Sasser, Gerald T. Schelling, Alton C. S. Ward, Gordon L. Woods, Jerry Zaugg.

Animal agriculture has a major role in the supply of high quality food, not only for the people of the United States, but also for those of other nations. Food and fiber obtained from animals include meat, milk, eggs, wool, and many by-products. Knowledge and skills resulting from a college education in this field will permit the graduate to contribute to improved production and health of the nation's livestock including beef, sheep, dairy, swine, poultry, horses, and companion animals.

In addition to classrooms and laboratories located in the Agricultural Science Building, the department's facilities include centers for dairy, beef, and sheep, as well as a meats laboratory and livestock judging pavilion. Several breeds of animals are maintained for instructional purposes. The academic program is designed to prepare students for a variety of important and rewarding career opportunities. For more specific information, get in touch with the department head (208/885-6345).

To prepare students for the varied types of occupations available in animal agriculture, the Department of Animal and Veterinary Science offers a bachelor of science degree in animal science with three majors: animal science, agribusiness, and range-livestock management, and a bachelor of science degree in veterinary science. Each of these majors, while attempting to provide the students with a sound background in animal biology, has its separate emphasis on complementary academic training. One of the strongest features of these programs is the flexibility provided. Each major permits the student to plan the precise course of study that will best prepare him or her for the area of work that he or she desires to enter. The department also offers a minor in animal science for students desiring a background in animal agriculture to complement their major field of study.

The major in **animal science** is designed for students who desire to pursue a career in livestock production, graduate work in one of the varied disciplines in animal sciences (nutrition, breeding, physiology, growth, endocrinology, meats, etc.), or for employment by companies that require intensive training in animal biology. This major is also excellent training for those interested in Cooperative Extension.

The major in **range-livestock management** attempts to provide, in addition to intensive training in animal biology, a sound background in the relationship between animals and plants. To this end the student receives training in range management, forage crop production, and soils. This major is designed for students who desire to pursue a career in range-livestock production or employment with companies or agencies that deal with the production and management of livestock on western ranges. Opportunities also exist for students to pursue graduate work in the areas of forage utilization and related fields.

The **agribusiness** major is designed for students who desire a career as entry level into management positions in livestock-related industries. This major is oriented toward business, economics, and agricultural economics, in addition to a sound background in production animal agriculture. With appropriate choices of elective courses, students can also prepare themselves for positions with financial institutions involved with the animal agriculture industry.

A **veterinary science** education program is offered by the department in cooperation with the Washington, Oregon, and Idaho (WOI) Regional Program in Veterinary Medical Education, for those students preparing for admission to a college of veterinary medicine. Students with majors other than animal/veterinary science may participate and receive counseling. If, after successful completion of 99 credits, a student majoring in animal/veterinary science is admitted to a recognized college of veterinary medicine (at least 33 credits in approved courses), that will constitute the senior year toward the degree of B.S.Vet.Sc. at UI. Students under this major must complete their junior year (at least 33 credits) in residence on the Moscow campus.

Courses

ANIMAL AND VETERINARY SCIENCE

AVS 101 Animal and Veterinary Orientation (2 cr) (VS 205). Career opportunities discussed to help students develop a strong sense of future direction.

AVS ID109 The Science of Animals that Serve Humanity (3 cr). WSU A S 101. Role of animal agriculture in providing food, work, and pleasure for mankind; intro to animal genetics, physiology, endocrinology, nutrition, and other disciplines essential for an understanding of the contributions of animals in the expanding human population. Coreq for majors in the Animal/Vet Sc Dept: AVS 110.

AVS 110 Animal Science Lab (1 cr). Lab exercises demonstrating the importance of domestic animals to human welfare. One 2-hr lab a wk. Coreq: AVS 109.

AVS WS166 Horse Management Laboratory (1 cr). WSU A S 166. Introductory laboratory designed to familiarize students with approved management practices for horse enterprises. Graded P/F.

AVS ID172 Dairy Cattle Management Laboratory (1 cr). WSU A S 172. Management practices associated with a dairy enterprise. Graded P/F.

AVS ID&WS174 Beef Cow Calf Management Laboratory (1 cr). WSU A S 174. Management practices associated with a beef cow calf enterprise for students without experience. Graded P/F.

AVS ID176 Sheep Management Lab (1 cr). WSU A S 176. Management practices associated with a farm flock sheep enterprise. Graded P/F.

AVS WS178 Swine Management Lab (1 cr). WSU A S 178. Management practices associated with a swine enterprise. Field trip and special clothing required. Graded P/F.

AVS ID203 Live Animal and Carcass Evaluation (3 cr). Evaluation and selection of cattle, sheep, and swine for herd replacements; evaluation of market animals; carcass evaluation and grading, and factors that affect quality and quantity of meat; visual and objective appraisals. One lec and two 3-hr labs a wk; four 1-day and four 1/2-day field trips or equiv time.

AVS ID&WS205 Introduction to Animal Nutrition (3 cr). WSU A S 213. May not be used for major cr by majors in animal science or range-livestock management. Functions, metabolism, and requirements of nutrients with applications to the diets of animals and birds.

AVS 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

AVS ID&WS218 Artificial Insemination and Pregnancy Detection (2 cr) (AVS 454). Anatomy and physiology of pregnant and nonpregnant reproductive systems; artificial insemination; male reproduction; pregnancy detection in domestic livestock. Two 2-hr lec-labs a wk. Enrollment limited to 20 students. Preregistration required; consult dept administrator. Prereq: AVS 222 (may be concurrent) and perm.

AVS 222 Animal Reproduction and Breeding (4 cr). May not be used for major cr by majors in animal science or range-livestock management. Application of principles of genetics and reproductive physiology in domestic animal improvement, fertility, systems of mating, and selection of techniques.

AVS 263 Introduction to Meat Science (3 cr). Duplicate or not allowed in AVS 263 and 264. The meat industry, sanitation, slaughtering, processing, and factors that affect the quality and palatability of meat. Special clothing and equipment reqd. Two lec and one 3-hr lab a wk.

AVS 264 Consumer Meats (3 cr). Duplicate or not allowed in AVS 263 and 264. Meat as a food; meat inspection, pricing, selection, processing, storage, and cookery. Special clothing and equipment reqd. Two lec and one 3-hr lab a wk.

AVS 265 Abattoir Skills (1 cr). Practical experience in meat animal slaughter. Special clothing and equipment reqd. Prereq: AVS 263 or 264.

AVS ID&WS272 Dairy Cattle Traits (2 cr) (AVS ID&WS212). WSU A S 272. Evaluating form and function in dairy cattle; measurement of production and evaluation of type.

AVS 299 (s) Directed Study (1-6 cr). Graded P/F. Prereq: perm of dept.

AVS 304 Advanced Animal Evaluation (3 cr). Emphasis on use of records in selection and use of carcass value in pricing live market animals; factors that affect the economic value of meat animals. Students participate in live animal-carcass evaluation contests. One lec and two 3-hr labs a wk; four 1-day and four 1/2-day field trips in addition to contests or equiv time. Prereq: AVS 203.

AVS ID305 Animal Nutrition (3 cr). WSU A S 314. Proteins, carbohydrates, fats, minerals, and vitamins; physiology of digestion, absorption and metabolism of nutrients, and the relationship of enzymes and hormones in these phenomena. Prereq: Biochem 380.

AVS ID306 Feeds and Ration Formulation (4 cr). WSU A S 313. Application of principles of nutrition to ration formulation for poultry and livestock; evaluating feedstuffs for use in ration formulation. Three lec and one 2-hr lab a wk. Prereq: AVS 205 or 305.

AVS WS330 Genetics of Farm Animals (3 cr) (AVS WS320). Same as Genet 320. WSU A S 330. Genetic principles applied to breeding of farm animals. Prereq: Genet 314, Stat 251, and AVS 222.

AVS WS366 Horses and Horsemanship (3 cr) (AVS WS288). WSU A S 366. Development, functional use, behavior, and management of the horse. Field trip reqd. Prereq: AVS 166 or perm.

AVS 371 Anatomy and Physiology (4 cr) (VS 371). Structure and function of tissues and organ systems of domestic and wild animals. Three lec and one 2-hr lab a wk.

AVS ID&WS372 Meat Science (3 cr) (AVS 472). WSU A S 360. Alt/yrs. Growth and development of meat animals; factors affecting quantity and quality of meat. Prereq: AVS 263 and biochemical.

AVS 389 Internship (cr arr). Cooperative programs with producers, allied industry and food processing industries within the state. Graded P/F. Prereq: perm.

AVS 403 (s) Workshop (cr arr). Normally offered in nutrition, breeding, products, and management. Graded P/F. Prereq: perm.

AVS 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

AVS J407/J507 Selected Topics in Dairy Cattle Nutrition (3 cr). Current literature topics in dairy cattle nutrition. Prereq: AVS 306.

AVS 410 Production and Processing Practices (1 cr, max 2). Livestock, dairy, and poultry production; processing practices and facilities. One 7-day field trip or equiv time. Graded P/F.

AVS J411/J511 Microbiology and Physiology of Ruminant Nutrition (3 cr) (AVS 513). Alt/yrs. Physiology and microbiology aspects of ruminant digestion and their influence on the metabolism of extraruminal tissues; interpretation of nutritive requirements in terms of rumen microbiology activities; evaluation of research techniques. Additional projects/assignments reqd for grad cr. Prereq: perm.

AVS ID&WS413 Physiology of Lactation (3 cr). WSU A S 452. Alt/yrs. Anatomy, physiology, and endocrine control of mammary dev and milk secretory process. Prereq: Biol 202 (VS 371 recommended) or perm.

AVS ID&WS-J415/ID&WS-J515 Lab Methodology (2 cr). WSU A S 415. Research methodology used in experimental nutrition and physiology. Additional projects/assignments reqd for grad cr. One lec and two 2-hr labs a wk. Prereq for AVS 515: grad status and perm.

AVS 421 Population Genetics (3 cr). Same as Genet 421. Gene frequency analysis; effects of natural and artificial selection on the genetic composition of populations; inheritance of quantitative characters; concepts of heritability; effects of inbreeding and outbreeding on populations. Prereq: Genet 314 and Stat 251.

AVS J430/J530 Advanced Topics in Embryo Physiology (3 cr). Alt/yrs. Analysis of biochemical, endocrine, and anatomical events of embryonic development with emphasis on lab and domestic animals; critical analysis of current scientific literature; lab techniques in developmental biology. Outside reading, class presentation, and term paper reqd; additional projects/assignments reqd for grad cr. Two lec and one lab a wk.

AVS 450 Senior Seminar (1 cr). Special topics in animal and veterinary science. Prereq: senior standing.

AVS ID&WS-J451/ID&WS-J551 Endocrine Physiology (3 cr). WSU A S 451/551. Same as Zool J417/J517. Structure and physiology of glands of internal secretion and their hormonal effects on processes of growth, development, metabolism, and production of vertebrates; minor emphasis on invertebrates. Cr earned in AVS 551 by completion of term paper. Prereq: Biol 202 and Biochem 380.

AVS ID&WS452 Physiology of Reproduction (4 cr). Physiology of reproduction; growth, structure, development, endocrinology, and control of reproductive function with emphasis on farm animals. Three lec and one 2-hr lab a wk. Prereq: Biol 202.

AVS WS466 Horse Production (3 cr) (AVS WS388). WSU A S 466. Principles of breeding, feeding, and management of horses. Field trip required. Enrollment limited to 10. Prereq: AVS 205, 222, and perm.

AVS 471 Animal Disease (3 cr) (VS 474). Causes, transmission, susceptibility, symptoms, diagnosis, prevention, and control of major infectious diseases and parasites of domestic animals. Prereq: VS 371, Bact 250.

AVS ID&WS472 Dairy Cattle Management (4 cr) (AVS ID&WS323). WSU A S 472. Establishing a dairy farm, housing and managing large dairy herds, selection of breeding cattle, and marketing quality milk. One 4-day field trip. Prereq: AVS 205 and 222 or equiv.

AVS 473 Herd Health Management (3 cr) (VS 473). Impact of immunity, sanitation, housing, chemotherapy, quarantine, and stress on livestock disease prevention. Prereq: AVS 205 and/or 305 and jr standing.

AVS ID&WS474 Beef Cattle Science (3 cr) (AVS ID&WS321). WSU A S 474. Breeding, feeding, and management; commercial and purebred enterprises; management of beef cattle on ranges, pasture, and in the feedlot. One 1-day field trip. Prereq: AVS 205 and 222 or equiv.

AVS ID&WS475 Advanced Dairy Cattle Management (1 cr). WSU A S 473. Application of concepts of dairy cattle management to practical situations. One lec and 1-2 hrs of lab a wk. Prereq: AVS 472.

AVS ID476 Sheep Science (3 cr) (AVS ID&WS322). WSU A S 476. Application of principles of genetics, reproduction, nutrition, health, and marketing to the management of commercial and purebred sheep; new developments related to sheep industry; production, evaluation, and use of wool. Two lec and one 2-hr lab a wk; one 1-day field trip or equiv time. Prereq: AVS 205 and 222 or equiv.

AVS WS478 Swine Science (3 cr) (AVS 326). Principles of breeding, feeding, management, and marketing of swine. Two 2-hr lec-labs a wk; two 1-day field trips or equivalent time. Prereq: AVS 205 and 222 or equiv.

AVS WS482 Principles of Animal Care (2 cr). WSU A S 482. Use and care of animals in laboratory and production situations.

AVS WS485 Animal Welfare (3 cr). WSU A S 485. Ethical considerations and welfare of animals used as companions, for food, and in scientific research. Prereq: Biol 201.

AVS WS488 Biotechnology (3 cr). WSU A S 488. Theory and application of biotechnology in agriculture, industry, and medicine; methodological, environmental, social, and economic concerns.

AVS 499 (s) Directed Study (1-6 cr, max arr). Prereq: perm of dept.

AVS 500 Master's Research and Thesis (cr arr). Graded P/F.

AVS 501 (s) Seminar (cr arr). Prereq: perm.

AVS 502 (s) Directed Study (cr arr). Graded P/F. Prereq: perm.

AVS 503 (s) Workshop (cr arr). Prereq: perm.

AVS 504 (s) Special Topics (cr arr). Prereq: perm.

AVS 506 (s) Study Abroad (cr arr). Prereq: perm of dept.

AVS 507 Selected Topics in Dairy Cattle Nutrition (3 cr). See AVS J407/J507.

AVS 511 Microbiology and Physiology of Ruminant Nutrition (3 cr). See AVS J411/J511.

AVS WS512 Advanced Nutrient Metabolism (5 cr). WSU A S 507. Alt/yrs.

AVS 513 Protein and Energy Nutrition (3 cr) (AVS 511). Current concepts in protein and energy metabolism and function relating to nutrients reqd for maintenance, growth, and development of animals. Prereq: AVS 305, Biochem 380 or equiv.

AVS 514 Physiology of Nonruminant Nutrition (3 cr). Alt/yrs. Physiology of digestion, absorption, and metabolism of nutrients in monogastric animals and birds; biological evaluation of nutrients and nutritional interrelationships. Prereq: perm.

AVS ID&WS515 Lab Methodology (2 cr). See AVS J415/J515.

AVS ID&WS520 Seminar in Animal Physiology (1 cr, max arr). WSU A S 540. Current topics in animal physiology.

AVS 522 Statistical Genetics (3 cr). Same as Stat and Genet 522. Statistical techniques used in population genetics research; methods of estimating heritability, genetic correlations, and phenotypic correlation, construction of selection indexes; mating systems; genetic homeostasis. Prereq: perm.

AVS WS526 Advanced Reproduction (4 cr). WSU A S 550. Alt/yrs.

AVS 530 Advanced Topics in Embryo Physiology (3 cr). See AVS J430/J530.

AVS WS538 Neuroendocrinology (3 cr). WSU V Ph 538.

AVS ID&WS551 Endocrine Physiology (3 cr). See AVS J451/J551.

AVS 552 Advanced Endocrine Physiology (3 cr). Biochemical and physiological properties of hormones; lab techniques in experimental endocrinology. Two lec and one 2-hr lab a wk. Prereq: AVS J451/J551, Chem J482/J542.

AVS ID&WS560 Domestic Animal Growth and Development (3 cr). WSU A S 560. Development, differentiation, growth, and endocrine regulation of major organ systems in domestic animals. Prereq: AVS 513, Biochem 380, and perm.

AVS WS596 Advanced Topics in Animal Science (1-2 cr, max arr). WSU A S 598.

AVS 597 (s) Practicum (cr arr). Prereq: perm.

AVS 598 (s) Internship (cr arr). Prereq: perm.

AVS 600 Doctoral Research and Dissertation (cr arr). Graded P/F.

VETERINARY SCIENCE

Courses in this subject field that have a WS prefix are open only to students who have veterinary science graduate student status or by permission of the director of the Idaho faculty of the WOI Regional Program in Veterinary Medical Education.

VS WS401 Gross Anatomy (5 cr). WSU V M 401. Grad cr not granted to those who have DVM degree.

VS WS402 Veterinary Anatomy (2 cr). WSU V M 402. Grad cr not granted to those who have DVM degree.

VS WS-J408/WS-J508 (s) WOI Topics (cr arr). Used for WSU courses that have not been cross-listed. Consult the Time Schedule for courses offered.

VS WS413 Advanced Anatomy (3 cr, max 6). WSU V An 413.

VS WS430 Veterinary Immunology (3 cr). WSU V M 430.

VS WS431 Veterinary Virology (3 cr). WSU V M 431.

VS WS432 Veterinary Bacteriology (4 cr). WSU V M 432.

VS WS435 Disease Concepts for Wildlife Biologists (3 cr). WSU V Mic 435. Note: Students on the Idaho campus who need this course enroll in VS 446A.

VS WS436 Diseases of Commercial Fowl (2 cr). WSU V M 436.

VS WS444A Small Animal Pathology (3 cr). WSU V M 444.

VS WS444B Pharmacological Basis of Therapeutics IV (4 cr). WSU PharS 444.

VS WS445 Pathology I (3 cr). WSU V M 445.

VS 446A Diseases of Wild Birds and Mammals (2 cr). See WLF 446.

VS WS446B Pathology II (6 cr). WSU V M 446.

VS WS446C Pharmacological Basis of Therapeutics Lab (1 cr). WSU PharS 446.

VS WS449 Pathology of Large Animal Diseases (3 cr). WSU V M 449.

VS WS451 Veterinary Parasitology (5 cr). WSU V M 451.

VS 452 Diseases and Care of Lab Animals (3 cr). Alt/yrs. Vertebrate animal species commonly employed as lab animals; diseases, sanitation, environmental control, and general care. Two lec and one 2-hr lab a wk.

VS WS454 Special Animal Medicine (3 cr). WSU V M 454.

VS 481 Virology (3 cr). See Bact 481.

VS 483 Virology Lab (1 cr). Same as Bact 483. Familiarization with tissue culture techniques used in virology; infection of cultures with selected viruses; observation and evaluation of infected cultures by different diagnostic techniques. One 3-hr lab a wk. Prereq or coreq: VS 481.

VS 499 (s) Directed Study (cr arr). Prereq: perm.

VS 500 Master's Research and Thesis (cr arr).

VS 501 (s) Seminar (cr arr). Prereq: perm.

VS 502 (s) Directed Study (cr arr). Prereq: perm.

VS 504 (s) Special Topics (cr arr). Prereq: perm.

VS WS508 (s) WOI Topics (cr arr). See VS J408/J508.

VS WS510A Advanced Pharmacokinetics (2 cr). WSU P/T 510. Alt/yrs.

VS WS510B Advanced Food Chemistry (3 cr). WSU FSHN 510. Alt/yrs.

VS WS511 Applied Anatomy of Large Animals (2 cr). WSU V M 511.

VS ID512A Principles of Comparative Pathology (4 cr). WSU P/T 543. Alt/yrs. Gross and micro pathology, histological techniques, neoplasia. Prereq: Zool 324, 427 or equivalent, or perm.

VS WS512B Applied Anatomy of Small Animals (2 cr). WSU V M 512.

VS WS512C Topics in Pharmacology (1-4 cr). WSU P/T 512.

VS WS513 Advanced Neuroanatomy (3 cr). WSU V An 513. Alt/yrs.

VS WS517 Mammalian Neuroscience (3 cr). WSU V M 517.

VS WS518 Veterinary Physiology (5 cr). WSU V M 518.

VS WS520 Techniques in Mammalian Physiology (2 cr). WSU V Ph 520. Alt/yrs.

VS WS521 Cardiorespiratory Systems (3 cr). WSU V Ph 521. Alt/yrs.

VS WS529 Neurochemistry (3 cr). WSU V Ph 529. Alt/yrs.

VS WS531 Advanced Immunology and Immunogenetics (3 cr). WSU V Mic 531. Alt/yrs.

- VS WS532 **Virology** (3 cr). WSU V Mic 532. Alt/yrs.
- VS WS535A **Advanced Readings in Veterinary Microbiology** (1 cr, max arr). WSU V Mic 535.
- VS WS535B **Pathophysiology of Blood** (3 cr). WSU V Ph 535. Alt/yrs.
- VS WS536 **Diagnostic Microbiologic Conference** (1 cr, max arr). WSU V Mic 536.
- VS WS537A **Diagnosis of Viral and Rickettsial Diseases of Domestic Animals** (3 cr). WSU V Mic 537.
- VS WS537B **Physiology and Biochemistry of Neuropeptides** (3 cr). WSU P/T and V Ph 537.
- VS WS542A **Advanced Diagnostic Pathology** (1-4 cr, max 8). WSU V Pa 542.
- VS WS542B **Diseases of Wildlife** (2 cr). WSU V M 542.
- VS WS543 **Lab Animal Pathology** (3 cr, max 6). WSU V Pa 543. Alt/yrs.
- VS WS544 **Immunopathology** (3 cr). WSU V Pa 544. Alt/yrs.
- VS WS545 **Mechanisms of Disease** (5 cr). WSU V Pa 545.
- VS WS546 **Advanced Readings in Veterinary Parasitology** (1 cr, max arr). WSU V Pa 546.
- VS WS548 **Seminar in Experimental Pathology** (1 cr, max arr). WSU V Pa 548.
- VS WS557 **Advanced Mammalian Physiology** (6 cr). WSU V Ph 557.
- VS WS560 **Molecular Genetics** (3 cr). WSU Micro 560.
- VS WS561 **Receptorology** (2 cr). WSU P/T 561. Alt/yrs.
- VS WS563 **General Biochemistry** (3 cr). WSU BC/BP 563. Note: Students on the Idaho campus enroll in Biochem J481/J541 or Chem J481/J541.
- VS WS564 **General Biochemistry** (3 cr). WSU BC/BP 564. Note: Students on the Idaho campus enroll in Biochem J482/J542 or Chem J482/J542.
- VS WS570 **Advanced Immunology** (3 cr). WSU Micro 570.
- VS WS587 **Hospital Rotation** (3 cr, max 6). WSU V MS 587.
- VS WS592 (s) **Seminar** (1 cr, max arr). V An, V Mic, V MS, V Pa, V Ph 592.
- VS 598 (s) **Internship** (cr arr). Prereq: perm.

Curricular Requirements

AGRIBUSINESS (B.S.An.Sc.)

The agribusiness major with its dual emphasis on animal science and business is designed for students who want to enter management positions in livestock-related industries.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
AVS 101 Animal & Veterinary Orientation	2
AVS 109 The Science of Animals that Serve Humanity	3
AVS 222 Animal Reproduction & Breeding	4
AVS 263 Introduction to Meat Science	3
AVS 305 Animal Nutrition	3
AVS 306 Feeds & Ration Formulation	4
AVS 371 Anatomy & Physiology	4
AVS 450 Senior Seminar	1
AVS 452 Physiology of Reproduction	4
Two of the following courses	6-7
AVS 466 Horse Production	3
AVS 472 Dairy Cattle Management	4
AVS 474 Beef Cattle Science	4
AVS 476 Sheep Science	3
AVS 478 Swine Science	3
Acctg 201 Introduction to Financial Accounting	3
Acctg 202 Introduction to Managerial Accounting	3
AgEc 278 Principles of Farm & Ranch Management	4
AgEc 289 Agricultural Markets & Prices	3
AgEc 391 Agribusiness Management or Bus 311 Intro to Management	3
ASM 240 Computer Applications in Biological Systems	3
Biol 201 Introduction to the Life Sciences	4
Chem 111 Principles of Chemistry	4
Chem 275 Carbon Compounds	3
CommG 131 Fundamentals of Public Speaking	2
Econ 201, 202 Principles of Economics	6
Eng 313 Business Writing	3
Math 140 Pre-calculus Algebra & Analytic Geometry	3
Stat 251 Principles of Statistics	3
Agricultural economics or accounting electives	6
Business electives	9
Electives to total 132 cr for the degree	—

ANIMAL SCIENCE (B.S.An.Sc.)

The animal science major prepares students to pursue a career in livestock production, for graduate study in any of the varied disciplines in animal science, or for employment that requires intensive training in animal biology.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
AVS 101 Animal & Veterinary Orientation	2
AVS 109 The Science of Animals that Serve Humanity	3
AVS 222 Animal Reproduction & Breeding	4
AVS 263 Introduction to Meat Science	3
AVS 305 Animal Nutrition	3
AVS 306 Feeds & Ration Formulation	4
AVS 330 Genetics of Farm Animals	3
AVS 371 Anatomy & Physiology	4
AVS 450 Senior Seminar	1
AVS 452 Physiology of Reproduction	4
Two of the following courses	6-7
AVS 466 Horse Production	3
AVS 472 Dairy Cattle Management	4
AVS 474 Beef Cattle Science	4
AVS 476 Sheep Science	3
AVS 478 Swine Science	3
ASM 240 Computer Applications in Biological Systems	3
Biochem 380, 382 Introductory Biochemistry & Lab	4
Biol 201 Introduction to the Life Sciences	4
Chem 111 Principles of Chemistry	4
Chem 275 Carbon Compounds	3
Chem 276 Carbon Compounds Lab	1
CommG 131 Fundamentals of Public Speaking	2
Eng 317 Technical & Engineering Report Writing	3
Genet 314 General Genetics	3
Math 140 Pre-calculus Algebra & Analytic Geometry	3
Stat 251 Principles of Statistics	3
Two of the following courses	6
AVS 411 Microbiology & Physiology of Ruminant Nutrition	3
AVS 413 Physiology of Lactation	3
AVS 430 Advanced Topics in Embryo Physiology	3
AVS 451 Endocrine Physiology	3
AVS 471 Animal Disease	3
AVS 473 Herd Health Management	4
Life science electives	4
Electives to total 132 cr for the degree	—

RANGE-LIVESTOCK MANAGEMENT (B.S.An.Sc.)

The major in range-livestock management provides training in animal science with a sound background in the relationship between animals and plants and is intended for students interested in the management or operation of range and pasture beef cattle or sheep operations.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
AVS 101 Animal & Veterinary Orientation	2
AVS 109 The Science of Animals that Serve Humanity	3
AVS 222 Animal Reproduction & Breeding	4
AVS 263 Introduction to Meat Science	3
AVS 305 Animal Nutrition	3
AVS 306 Feeds & Ration Formulation	4
AVS 330 Genetics of Farm Animals	3
AVS 371 Anatomy & Physiology	4
AVS 450 Senior Seminar	1
AVS 452 Physiology of Reproduction	4
Two of the following courses	6-7
AVS 466 Horse Production	3
AVS 472 Dairy Cattle Management	4
AVS 474 Beef Cattle Science	4
AVS 476 Sheep Science	3
AVS 478 Swine Science	3
ASM 240 Computer Applications in Biological Systems	3
Biochem 380, 382 Introductory Biochemistry & Lab	4
Biol 201 Introduction to the Life Sciences	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Bot 241 Systematic Botany	3
Chem 111 Principles of Chemistry	4
Chem 275 Carbon Compounds	3
CommG 131 Fundamentals of Public Speaking	2
Eng 317 Technical & Engineering Report Writing	3
Genet 314 General Genetics	3
Math 140 Pre-calculus Algebra & Analytic Geometry	3
PISc 308 Forage Crops	3
Range 354 Rangeland Vegetation Management	3
Range 452 Rangeland Communities	3
Range 453 Rangeland Vegetation Inventory & Analysis	3
Range 458 Agroforestry	3
Range 459 Rangeland Ecology	3
Soils 205, 206 General Soils & Lab	4
Stat 251 Principles of Statistics	3
Electives to total 132 cr for the degree	—

VETERINARY SCIENCE (B.S.Vet.Sc.)

Students in the College of Agriculture who successfully completed a minimum of 99 credits with a major in animal science, bacteriology, or wildlife, who completed all major requirements in the specified major, and who are admitted to a recognized college of veterinary medicine will, upon successfully completing the first year at the college of veterinary medicine (at least 33 credits), be awarded the UI baccalaureate degree (B.S.Vet.Sc.). Students who choose this major must be enrolled for their junior year (at least 33 credits) in the major in which they will receive their degree.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
AVS 101 Animal & Veterinary Orientation.....	2
AVS 109 The Science of Animals that Serve Humanity.....	3
AVS 450 Senior Seminar.....	1
ASM 240 Computer Applications in Biological Systems.....	3
Biochem 380, 382 Introductory Biochemistry & Lab.....	4
Biol 201 Introduction to the Life Sciences.....	4
Biol 202 General Zoology.....	4
Chem 111 Principles of Chemistry.....	4
Chem 275, 276 Carbon Compounds & Lab or 277, 278 Organic Chemistry I & Lab.....	4
CommG 131 Fundamentals of Public Speaking.....	2
Genet 314 General Genetics.....	3
Math 140 Pre-calculus Algebra & Analytic Geom or 180 Analytic Geometry & Calculus I.....	3-4
Phys 113, 115 General Physics & Lab.....	4
Advanced writing elective.....	3
Agricultural electives.....	18-20
(recommended electives: AVS 305, 306, 330, 371, 430, 466, 472, 474, 476, 478)	
Approved electives (first year of veterinary medicine).....	33
Electives to total 132 cr for the degree.....	—

Note: It is recommended that Phys 114, 116 and Chem 112 be taken because certain veterinary medical schools require additional courses in physics and chemistry.

Academic Minor Requirements**ANIMAL SCIENCE MINOR**

ANTHROPOLOGY—see Department of Sociology and Anthropology

Department of Architecture

Robert M. Baron, Dept. Chair (207 Art and Arch. South; 208/885-6781). Faculty: Robert M. Baron, Ronald D. Bevans, William B. Bowler, Jr., Eugenia V. Ellis, Bruce T. Haglund, Marcia N. Lehman-Kessler, Wendy R. McClure, M. Joe Numbers, John L. Pulliam, Gifford Pierce, D. Nels Reese, Jonathan Reich, Brian F. Sumption.

The Department of Architecture offers two undergraduate options preparing students for careers in architecture or interior design. The curricula lead to a five-year Bachelor of Architecture degree (B.Arch.) or a four-year Bachelor of Fine Arts in Interior Planning and Design degree (B.F.A.). The B.Arch. degree is accredited by the National Architectural Accreditation Board.

Students in both disciplines devote their first two years to introductory courses and completion of the university core curriculum. These beginning courses include preliminary studies in each discipline, design, media, and technology. At the end of two years of study, academic achievement is reviewed to determine eligibility for the professional programs.

The remaining years present intensive study in each area. Both curricula center on a progressive series of design studios. Design instructors provide individual guidance as students develop project assignments. Studio designs are often set in the immediate area or

cities of the Northwest region. Students may be required to travel to project locations for client meetings, discussions with practicing professionals, and site inspection.

The design studios synthesize the work of preceding and concurrent courses in technology, history, professional practice, and specialized elective areas. The elective program allows students to develop advanced skills in anticipation of a professional career path. Visiting professionals augment course work through classroom teaching and a public lecture series.

The Department of Architecture is housed in four buildings that include an area of 40,000 square feet. These buildings contain facilities for diazo printing, Xerox copying, printmaking, and photographic processing. Both disciplines require study in the department's computer laboratory. A supervised woodworking shop is available to all students. The department's reference collections are housed in the nearby university library.

Two programs are available for graduate study in architecture. The Master of Arts in Architecture (M.A.) curriculum is available to students who have earned previous degrees at the bachelor level or above in other fields. Students electing this option may earn both a B.Arch. degree and an M.A. degree in architecture during their study in the department. The Master of Architecture (M.Arch.) program requires a previous accredited B.Arch. degree. These students pursue an individual study program under the guidance of a graduate faculty mentor. Both master-level degrees require a written and/or design thesis.

All Department of Architecture programs have been developed to provide graduates with the theoretical and practical skills necessary for a professional career. To facilitate the entry of graduates into the profession, the department maintains active relationships with national, regional, and local professional organizations.

Courses

Note: On registering for a studio course offered in this department, the student agrees that the department may retain work completed by the student. The department will make retained work available to the student for photographing.

ARCHITECTURE

Arch 155 Introduction to Architecture (2 cr). Slide lec course introducing architecture and interior architecture; methods of critical analysis; history of modern movement to contemporary design.

Arch 156 Graphic Communication (2 cr). Intro to the process of graphic communication; studio projects to explore graphics through projects, lec, and readings. Two 2-hr studios a wk and assigned work.

Arch 200 (s) Seminar (cr arr). Prereq: perm.

Arch 203 (s) Workshop (cr arr). Prereq: perm.

Arch 204 (s) Special Topics (cr arr). Prereq: perm.

Arch 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

Arch 255 Advanced Architectural Graphics (2 cr). Two- and three-dimensional drawing applying various delineation techniques; preliminary presentation techniques and use of color in graphics. Two 2-hr studios a wk and assigned work. Prereq: Arch 156 or perm.

Arch 256 Basic Architectural Design (3 cr). Intro to design process, space and place relationships, character of design, and form; development of sketch presentation techniques. Two 3-hr studios a wk and assigned work.

Arch 266 Materials and Methods (3 cr). Materials characteristics from manufacture to construction; production information and resource literature investigation.

Arch 299 (s) Directed Study (cr arr). Prereq: perm.

Arch 353-354 Architectural Design I (5 cr). Expansion of student vocabulary of architectural forms and their means of generation; a broad scope and nonrestrictive (though directed) class covering aspects of form generation from human to climatic conservations, influences of history, research, and materials of construction related to architectural design; encouragement of student experimentation and creativity. Three 3-hr studios a wk and assigned work; field trips will be reqd at student expense; some class jury sessions will meet outside of scheduled hours. Prereq: Arch 256, 266.

Arch 365-366 Building Technology I (3 cr). Arch 365: basic structural design including elementary statics and principles and technology of wood structural design. Arch 366:

principles and technology of structural reinforced concrete building design problems by integrating solutions with Architectural Design studio. Prereq: Phys 113, Math 140, Arch 365 for 366, or perm.

Arch 374 Computer Applications in Architecture (3 cr). Principles of current computer technologies in architecture and interior design; emphasis on development of tool using skills applied in preliminary design, design development, and presentation phases of design process.

Arch 383 Architectural Site Design (3 cr). Fundamentals of site analysis, site design, and site planning for architects; principles and theories in technical, functional, social, legal, and perceptual issues related to the building site. Non-credit lab section for discussion and presentation of additional technical issues and site-related design projects; field trips and special sessions may be reqd.

Arch 384 Computer-Aided Design (2 cr). Applications of computer-aided design concepts and methods in architecture and interior design; emphasis on development of tool using skills applied in design development and production phases of the design process. Prereq: Arch 374 or perm.

Arch 385 History of Architecture I: Pre-Modern (3 cr). Development of western tradition in architecture and urbanism, beginning with first traces of prehistoric building and settlements in northern Europe and Near East and ending with culmination of Baroque development in late 17th century.

Arch 386 History of Architecture II: Modern (3 cr). Modern movement in architecture and urbanism from late 18th century in France and Britain; cultural, technological, and territorial issues and conditions that led to development of modern architecture in the 20th century.

Arch 400 (s) Seminar (cr arr). Prereq: perm.

Arch 403 (s) Workshop (cr arr). Prereq: perm.

Arch 404 (s) Special Topics (cr arr). Prereq: perm.

Arch 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

Arch 453-454 Architectural Design II (5 cr). Study directed at specifics of building design synthesizing related course work into a comprehensive problem solution from multiple-building planning to working drawings on a single building. Three 3-hr studios a wk and assigned work; field trips will be reqd at student expense; some class jury sessions will meet outside of scheduled hours. Prereq: Arch 353-354.

Arch 455-456 Architectural Design III (5 cr). Expansion to the urban scale of the student's design awareness and ability; to acquaint the student with the multiplicity of considerations involved as project scope increases beyond a single site; to encourage creative and broad-scope thought and action on the future configuration of our cities. In Arch 456, the student undertakes a self-directed arch design study with faculty consultation. Three 3-hr studios a wk and assigned work; field trips will be reqd at student expense; some class jury sessions will meet outside of scheduled hours. Prereq: Arch 453-454.

Arch 463-464 Environmental Control Systems (4 cr). Principles and design of solar and mechanical heating and cooling systems, natural and artificial lighting, water and waste systems, and acoustics. Three 1-hr lec and one 2-hr lab a wk.

Arch 465-466 Building Technology II (3 cr). Arch 465: structural design with steel in buildings; principles and technology of steel design applied to practical building problems by integrating solutions with Architectural Design studio. Arch 466: structural design of buildings with seismic analysis; principles and technology of masonry design. Prereq: ForPr 365, Arch 366, or perm.

Arch 468 Technical Integration of Buildings (2 cr). Integration of structural, environmental, and spatial systems in buildings through case study methodology. Prereq: Arch 463, 464, 465, and 466, or perm.

Arch 475-476 Professional Practice I-II (3 cr). The architect's duties and responsibilities in practice (construction documents and contracts), project supervision, office administration, and comprehensive services; specification writing, unit costs, and building estimation.

Arch 482 Preservation of the Built Environment (2 cr). See IntPD 482.

Arch 483 Urban Theory and Issues (3 cr). History and theory of city planning and problems associated with urban growth.

Arch 486 American Architecture (2 cr). Selected areas of critical interest in development of American architecture; may include historical styles, key American architects, urban and public issues, and particular building types.

Arch 497 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Arch 499 (s) Directed Study (cr arr). Prereq: perm.

Arch 500 Master's Research and Thesis (cr arr).

Arch 501 (s) Seminar (cr arr). Prereq: perm.

Arch 502 (s) Directed Study (cr arr). Prereq: perm.

Arch 503 (s) Workshop (cr arr). Prereq: perm.

Arch 504 (s) Special Topics (cr arr). Prereq: perm.

Arch 506 (s) Study Abroad (cr arr). Prereq: perm of dept.

Arch 597 (s) Practicum (cr arr). Prereq: perm.

Arch 598 (s) Internship (cr arr). Prereq: perm.

Arch 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

INTERIOR PLANNING AND DESIGN

IntPD 151 Introduction to Interior Design (3 cr). Introduction to residential and commercial design and its relationship to other design disciplines; emphasis areas include basic design theory, vocabulary, and visual awareness of the built environment.

IntPD 200 (s) Seminar (cr arr). Prereq: perm.

IntPD 203 (s) Workshop (cr arr). Prereq: perm.

IntPD 204 (s) Special Topics (cr arr). Prereq: perm.

IntPD 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

IntPD 252 Interior Design I (4 cr). Intro to residential interior design theory and problem solving; emphasis on space planning, materials, and components of interiors; development of presentation techniques. Seven and one-half hrs of studio a wk and assigned work; field trips reqd at student expense; some class jury sessions will meet outside of scheduled hours. Prereq: Arch 255, IntPD 151.

IntPD 281 History of Interior Design: Antiquity to 1900 (3 cr). Historical furnishings, furniture, interior architecture, and decorative arts from antiquity to beginning of the 20th century.

IntPD 282 History of Interior Design: 20th Century (3 cr). International in scope; social and aesthetic theories incl Arts and Crafts Movement, Art Nouveau, De Stijl, Bauhaus, International Style, Scandinavian furniture, modern classics manufactured in America by Knoll and Miller, and recent Italian innovations.

IntPD 299 (s) Directed Study (cr arr). Prereq: perm.

IntPD 351-352 Interior Design II-III (4 cr). Intro to small scale commercial interior design theory and problem solving; emphasis on formation of interior spaces to correspond to function and flow patterns. Six hrs of studio a wk; field trips reqd at student expense; some class jury sessions outside of scheduled hours. Prereq for IntPD 351: Arch 256, IntPD 252 or perm. Prereq for IntPD 352: IntPD 351.

IntPD 368 Materials and Specifications (3 cr). In-depth study of interior finishes, materials, and products; emphasis on performance characteristics, manufacturing methods, testing, codes, specifications, and professional liability. Field trips reqd at student expense. Prereq: FCS 123 or perm.

IntPD 400 (s) Seminar (cr arr). Prereq: perm.

IntPD 403 (s) Workshop (cr arr). Prereq: perm.

IntPD 404 (s) Special Topics (cr arr). Prereq: perm.

IntPD 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

IntPD 451-452 Interior Design IV-V (4 cr). Advanced problems in commercial interior design requiring synthesis of related course work into comprehensive design resolution; projects will seek to refine the design decision making process by requiring development beyond schematic phases, e.g., integration of building systems, lighting design, interdisciplinary investigation, and understanding of cultural/environmental context. Seven and one-half hrs of studio a wk and assigned work; field trips reqd at student expense; some class jury sessions will meet outside of scheduled hours. Prereq for IntPD 451: IntPD 352. Prereq for IntPD 452: IntPD 451.

IntPD 478 Professional Practices for Interior Design (3 cr). Interior designers' duties and responsibilities in professional practice; services, estimating, specifications, billing, and contracts.

IntPD 482 Preservation of the Built Environment (2 cr). Same as Arch 482. Cross-disciplinary examination of historic preservation movement, including survey of preservation history and theory; exploration of current issues concerning curatorial management and revitalization of historic structures and communities through case study. Two hrs of seminar a wk; field trips may be reqd.

IntPD 499 (s) Directed Study (cr arr). Prereq: perm.

Curricular Requirements

ARCHITECTURE (B.Arch.)

This is a five-year curriculum divided into two parts: preprofessional (first two years) and professional (remaining three years). Majors are eligible to apply for the professional program when they have completed 100- and 200-level course requirements in architecture and art; Math 160; Phys 113, 114, 115; 23 credits in the university core curriculum (general education) requirements; or their equivalents and have earned a minimum 2.5 GPA. After completion of the preprofessional program, students are required to submit applications for the 45 places in each fall semester's entering professional program class. Applications should include a transcript of any university work outside UI and a portfolio of art, architectural graphics, and design work in a format not larger than one 8-1/2" x 11" photographic slide sleeve (20 slides). Submittals will be accepted by the department no later than April 15 for the following fall semester. Students accepted to the professional program are required to maintain a 2.5 GPA and to receive a C grade or better in the architectural design courses in the third, fourth, and fifth year. Students who have not been accepted into the professional program may not enroll in 300- or 400-level architecture courses without permission.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits

INTERIOR PLANNING AND DESIGN (B.F.A.)

The four-year curriculum is divided into two parts: preprofessional (first two years) and professional (remaining two years). Due to limited enrollment capacity, admission into the professional program is highly competitive. Students who wish to apply for advancement to the professional program must (1) complete the preprofessional program (see department for a list of courses included in the preprofessional and professional programs), (2) complete 23 credits in the university core curriculum (general education) requirements, (3) hold a minimum GPA of 2.5 with a grade of "C" or better in all required IntPD and Arch courses, and (4) submit a complete application package to be received by the department no later than April 15 for the following fall semester. The application package must include a portfolio of art, architectural graphics, and design work, and a transcript of any university work completed outside UI. Students accepted to the professional program are required to maintain a 2.5 GPA and to receive a "C" grade or better in all required IntPD and Arch courses. Students who have not been accepted into the professional program may not enroll in any professional program courses without permission of the department.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
IntPD 151 Introduction to Interior Design	3
IntPD 252 Interior Design I	4
IntPD 281 History of Interior Design: Antiquity to 1900	3

WOOD CONSTRUCTION AND DESIGN

For information on a major in forest products with an option in wood construction and design, see the Department of Forest Products section.

Department of Art

David F. Giese, Dept. Chair (203 Art and Arch. South; 208/885-6851). Faculty: Frank A. Cronk, Nelson S. Curtis, Jill Dacey, David F. Giese, H. Lynne Haagensen, J. Willard L'Hote, R. Michael Rainey, George T. Wray. Adjunct Faculty: Johanna B. Hays, William P. Woolston, Larry K. Wriggle. Affiliate Faculty: Robert Helm, Marilyn Lysohir.

The art curriculum at UI leads to a B.A., B.S.Art Ed., B.F.A. with a major in art, or B.F.A. with a major in photography degrees. This curriculum provides a broad base from which students may pursue a number of different career options. Students are required to complete a core of courses (the art core) designed to ensure an understanding of the historical and theoretical bases of art and design, while developing general competency in various media.

The B.F.A. degrees are designed for those students who wish to develop professional careers in art. Requirements for the degree are stringent, and include intense involvement in studio work in the senior year, closely monitored by all faculty members, culminating in the development of a portfolio and written statement in support of a professional exhibition. Because the B.F.A. degree is a professional degree, often preparatory to pursuit of a Master of Fine Arts (M.F.A.) degree, students must maintain a minimum 2.5 GPA.

The B.S.Art Ed. degree is designed for those students intending to pursue a career of teaching in the public schools. In addition to the studio course requirements, students take a range of courses in the College of Education that lead to teacher certification. The B.S.Art Ed. is a rigorous degree specializing in studio art.

The B.A. degree with a major in art is designed to ensure a broad, liberal education with an emphasis in art. Students pursuing this degree must meet the B.A. degree requirements listed in the College of Letters and Science section of this catalog.

The Art Department also offers two graduate degrees: the Master of Fine Arts and the Master of Arts in Teaching. Students interesting in graduate programs should contact the Art Department and consult the *Graduate Bulletin*.

Art Courses

Note: On registering for a studio course offered in this department, the student agrees that the department may retain work completed by the student.

Art 101 Visual Art (3 cr). Satisfies core requirement J-3-d. Introductory historical overview of important visual arts to promote an understanding and appreciation of artistic output with primary emphasis on painting, sculpture, and architecture. Two 1-1/2-hr lec and one 1-hr quiz/recitation a wk.

Art 102 Survey of Art (2 cr). Historical overview of artistic production to promote an understanding and appreciation of the various arts with emphasis on painting, sculpture, and architecture.

Art 111-112 Drawing I (2 cr). Freehand drawing; emphasis on expressive use of materials.

Art 121-122 Visual Communication and the Design Process (3 cr). Intro to visual communication and design process; studio problems to familiarize students with basic design process, elements of design and individual design criteria as related to traditional and experimental concepts of visual communication; studio problems explore basic design through the two- and three-dimensional production, experiences, readings, and written analysis. One lec and two 2-hr studios a wk and assigned work; attendance at outside events (lects, symposiums, Prichard and Univ Gallery openings).

Art 200 (s) Seminar (cr arr). Prereq: perm.

Art H201 Art Studio (3 cr). Emphasis on free hand drawing using a wide range of drawing and rendering tech; intro to artistic media and concepts; guest lec and slide presentations by members of art faculty and art grad program; in-class discussion of area gallery shows and college guest lec series. Two 2-hr studios a wk and assigned work. Prereq: perm of director of University Honors Program.

Art 203 (s) Workshop (cr arr). Prereq: perm.

Art 204 (s) Special Topics (cr arr). Prereq: perm.

Art 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

Art 211-212 Drawing II (3 cr). Art 211: life drawing, work with various media to develop an understanding of the human figure. Art 212: figure drawing from the model, nature, and abstract form; emphasis on individual development. Two 2-hr studios a wk and assigned work. Prereq for Art 211: Art 111-112 or perm. Prereq for Art 212: Art 211 or perm.

Art 214 Textile Design I (3 cr). Intro to basic technical and aesthetic concepts in textile design, including dye and color theory, resist and direct application techniques; intro to design industry.

Art 221-222 Graphic Design I (3 cr). Art 221: Creative problem solving with emphasis on 2-D solutions to conceptual problems; translation of concept into form using word, image, and layout; intro to history of graphic design and typography. Art 222: Continuation of translation of concept into form with emphasis on typography, letterforms, and typographic syntax, type specification, and preparation of art for print media. Prereq for Art 221: Art 111-112, 121-122 or perm. Prereq for Art 222: Art 221 or perm.

Art 225 Communication Graphics (2 cr). Intro to graphic communication using elementary techniques emphasizing typography and advertising layout. Two 2-hr studios a wk and assignments. Not for graphics majors. Class limited to 35.

Art 231 Painting I (3 cr). Intro to basic fundamentals of painting; investigating color and techniques. Two 2-hr studios a wk and assigned work. Prereq: Art 111.

Art 241 Sculpture I (3 cr). Studio work in basic spatial design concepts; creation of expressive order in space with attention to form, space, arrangement, movement, proportion, volume, unity, and contrast.

Art 251 Printmaking I (3 cr). Intro to basic printmaking techniques, relief, intaglio, and serigraphy; emphasis on sensitivity to materials and individual development.

Art 261 Ceramics I (3 cr). Intro to clay-forming techniques, wheel-thrown and hand-built forming methods, ceramic design concepts, development and articulation of individual design criteria, glaze experimentation; fundamental types of ceramic ware; kiln and studio procedures. Two 2-hr studios a wk and assigned work.

Art 271 Jewelry I (3 cr). Intro to basic jewelry materials and techniques; basic design concepts as expressed through jewelry. Two 2-hr studios a wk and assigned work.

Art 281 Watercolor I (3 cr). Intro to techniques of watercolor painting by individual instruction and group criticism. Two 2-hr studios a wk and assigned work. Prereq: Art 111.

Art 299 (s) Directed Study (cr arr). Prereq: perm.

Art 301-302 History of Art (3 cr). Art 301: 19th century. Art 302: 20th century.

Art 311-312 Drawing III (3 cr). Emphasis placed on the human figure as a subject for creative drawing and individual development. Two 2-hr studios a wk and assigned work. Prereq: art core or perm.

Art 314-315 Textile Design II (3 cr). Development of conceptual and technical abilities in the textile arts with emphasis on individual expression and designing for industry. Prereq: art core and Art 214 or perm.

Art 321-322 Graphic Design II (3 cr). Art 321: Advanced design problems with emphasis on individual development and exploration of contemporary design issues. Art 322: Graphic problem solving in the community environment; advanced production techniques for the graphic designer. Prereq for Art 321: art core, Art 221 and 251, or perm. Prereq for Art 322: Art 222 and 321, or perm.

Art 331-332 Painting II (3 cr). Intermediate painting in oil or acrylic; emphasis on aesthetic problems concerning composition, color, and conceptual approaches. Two 2-hr studios a wk and assigned work. Prereq: art core and Art 231 or perm.

Art 341-342 Sculpture II (3 cr). Studio investigation of various sculptural concepts, materials, and techniques. Two 2-hr studios a wk and assigned work. Prereq: art core, Art 241 or perm.

Art 351-352 Printmaking II (3 cr). Advanced printmaking; further exploration of printmaking methods and materials; emphasis on individual development in conceptual and technical abilities. Prereq: art core and Art 251 or perm.

Art 361-362 Ceramics II (3 cr). Development and articulation of individual design criteria in ceramics; development of personal conceptual and technical skills in ceramics. Two 2-hr studios a wk and assigned work. Prereq: art core, Art 261 or perm.

Art 371-372 Jewelry II (3 cr). Intermediate jewelry techniques such as casting, metalsmithing, and related processes and materials; emphasis on both techniques and design. Two 2-hr studios a wk and assigned work. Prereq: art core, Art 271 or perm.

Art 391 Collage (3 cr). Understanding form in its context by assembling unrelated found objects; emphasis on pictorial integration strategies; tutorial-based studio, production outside of class. Outside lec and special events may be assigned. Prereq: art core and 9 cr of 200-level art studios or perm.

Art 392 Mixed Media (3 cr). Understanding synthesis of different media in context to a work of art by using two or more techniques; tutorial-based studio, production to occur outside of class. Outside lec and special events may be assigned. Prereq: art core, 9 cr of 200-level art studios, and 6 cr of 300-level art studios or perm.

Art 400 (s) Art Seminar (1-3 cr, max 6). Prereq: perm.

Art 403 (s) Workshop (cr arr). Prereq: perm.

Art 404 (s) Special Topics (cr arr). Prereq: perm.

Art 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

Art 408 Readings in Art (1-3 cr, max 6). Directed readings in various areas of art including, but not limited to, art history, art theory, and art criticism. Prereq: Art 101, 301-302 or equiv, and perm of instructor before registration.

Art 410 Gallery (1 cr, max 4). Descriptive analysis of gallery functions; hands-on student participation installing, packaging art works for shipping, lighting, promotions, advertising, and marketing; speakers series of professionals in the field and in allied areas, e.g., gallery directors, artists as presenters/installers, professional art movers. Prereq: adv standing or perm.

Art 488 Faculty Directed Internship (1-3 cr, max 6). Open only to art majors. Art faculty directed work on a professional project. Prereq: successful completion of one 300-level studio sequence (6 cr), and adviser and directing faculty approval

Art 490 Art Studio (8 cr, max 16). Open only to BFA art majors. Intensive tutorial studio closely monitored by all the faculty, culminating in development of a portfolio and a professional exhibition. Outside lec and special events may be assigned. Two 2-hr studio critiques a wk. Prereq: senior standing and completion of 15 cr in 300-level art studios.

Art 495 BFA Senior Thesis (2 cr, max 4). Open only to art majors. BFA majors take 2 semesters; first semester is graded IP. Preparation of thesis, portfolio, and senior exhibition. Prereq: advanced standing and completion of 9 cr in 300-level art studio, 6 cr of which must be in one sequential 300-level studio area.

Art 497 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Art 498 (s) Internship (1-12 cr, max 12). Graded P/F. Open to art majors only; no more than 6 cr may be counted toward art degree requirements. Work with professional artists. Prereq: One 300-level studio sequence (6 cr) and perm of dept chair.

Art 499 (s) Directed Study (1-3 cr, max 9). Individual study areas selected by the student and approved by the faculty; it is the student's responsibility to select a study area and prepare a semester study program; the student contacts one of the art faculty who agrees to direct the study; it is the student's responsibility to initiate the study program and to maintain regular contact with the faculty member who has agreed to direct the study. Prereq: completion of one 300-level studio sequence (6 cr) and perm.

Art 500 Master's Research and Thesis (cr arr).

Art 505 (s) Special Topics (cr arr). Prereq: perm.

Art 506 (s) Study Abroad (cr arr). Prereq: perm of dept.

Art 507 (s) Art Seminar (3 cr, max 6). Open only to art majors. Seminar in professional art concerns: guest artist programs, University Gallery activities, including field trips. One 2-hr seminar a wk and assigned work.

Art 508 (s) Readings in Art (3 cr, max 6). Open only to art majors. Readings in specific subject or topic areas: art theory, art history; art criticism, and other art subject areas. One hr a wk conference/discussion/seminar and assigned work.

Art 510 Gallery (1-3 cr, max 6). Descriptive analysis of gallery functions; hands-on student participation installing, packaging art works for shipping, lighting, promotions, advertising and marketing; speakers series of professionals in the field or allied areas; e.g., gallery directors, artists as presenters/installers, professional art movers. Prereq: perm of UI Gallery director.

Art 520 (s) Studio Workshops (1-3 cr, max 6). Open only to art majors. Specialized studio experience; offered by art faculty members, faculty groups, and/or guest artists.

Art 521 (s) MFA Individual Critique (3 cr, max 6). Open only to MFA majors. Studio research taken from individual art faculty members; individual instruction and critiques. One hr a wk critique session and 8 hrs a wk of individual studio research.

Art 525 (s) Art Faculty Studio (3 cr, max 6). Open only to art majors. Studio research taken from the entire art faculty; students are required to arrange at least two studio critiques/faculty each semester.

Art 526 (s) MFA Art Studio (3 cr, max 6). Open only to MFA majors. Studio research taken from two or more art faculty members. Prereq: Art 525 (6 cr) and perm.

Art 590 (s) MFA Exhibition and Statement (3-6 cr, max 18). Open only to MFA majors. Studio research directly related to preparation of MFA "Exhibition and Statement." Prereq: Art 525 (6 cr).

Art 597 (s) Practicum (3 cr, max 6). Open only to art majors. Classroom assistance in teaching and preparation of course materials; conducted under faculty supervision. Normally requires 4-6 hrs a wk in class and assigned work. Prereq: perm of individual faculty and art grad coordinator.

Art 598 (s) Internship (1-6 cr, max 6). Open only to art majors. Work with professional artists. Prereq: perm of major professor and dept chair.

**Department of Bacteriology and
 Biochemistry**

Donald C. Robertson, Dept. Head (142 Life Sc. Bldg; 208/885-7966).

Bacteriology Faculty: Carolyn H. Bohach, Gregory A. Bohach, Donald L. Crawford, Ronald L. Crawford, Richard C. Heimsch, Scott T. Kellogg, Al J. Lingg, Scott A. Minnich, Cindy S. Orser. **Donald C. Robertson, Adjunct Faculty:** Philip H. Berger, Guy R. Knudsen. **Affiliate Faculty:** Edward J. Brown, Patrick R. Dugan, Robert W. Ellis, James K. Fredrickson, David R. Quigley, Robert Rychert, Dennis L. Stevens, Marcia Wicklow-Howard.

Biochemistry Faculty: Allan B. Caplan, Nancy A. Federspiel, Daniel J. Guerra, Bruce L. Miller, David J. Oliver, William R. Trumble. **Adjunct Faculty:** Alton G. Campbell, Matthew Morra. **Affiliate Faculty:** Debonny Barsky-Shoaf, Richard A. Callahan, Frederick Leung.

Bacteriology/microbiology is concerned with the study of microscopic forms of life, their distribution, importance, and role in such diverse areas as control and diagnosis of diseases, agricultural biotechnology, environmental and pollution control, and genetic engineering.

Biochemistry is the study of the molecular basis of life, the chemical and physical properties of living things, and their metabolic processes.

The Department of Bacteriology and Biochemistry offers the degree of Bachelor of Science in Bacteriology in both the College of Agriculture and the College of Letters and Science. Students may choose to emphasize general microbiology or molecular biology by appropriate choices of courses. In addition, the department offers the degree of Bachelor of Science in Medical Technology for students who have earned the Bachelor of Science in Bacteriology at UI and have completed medical technology training in an accredited hospital school. Because of the interdisciplinary nature of biochemistry, preparation in both chemistry and biology, in addition to biochemistry, is required. Students interested in biochemistry are advised by members of the biochemistry faculty, but should enroll in the general chemistry (B.S.) or professional chemistry (B.S.) curriculum. In each case, the curriculum emphasizes the need for a broad cultural base and specific training in biology, chemistry, mathematics, and physics, in addition to courses in the specialty area. Well-equipped laboratories are available and advanced students are encouraged to undertake research problems with the faculty. The department also provides courses for students who are majoring in other areas of the university and wish to obtain increased understanding of the sciences. Students are invited to inquire about academic minors in the department.

The department offers the M.S. and Ph.D. degrees in both bacteriology and biochemistry. Excellent facilities are available for graduate studies and research. Research interests of the faculty include immunology and immunoregulation, microbial pathogenesis, membrane biochemistry, microbial ecology, microbial physiology, molecular biology and genetics, nucleic acids (including recombinant DNA), and plant biochemistry. Students should contact the department or individual faculty members and consult the *Graduate Bulletin* for additional details and information concerning graduate assistantships.

Courses

BACTERIOLOGY

Bact 105 Survey of Biotechnology (1 cr). Descriptions and discussions of research and career opportunities in biotechnology; genetic engineering concepts; pharmaceutical, environmental, plant and animal systems.

Bact 154 Principles of Microbiology (3 cr). Cannot be substituted for Bact 250 and carries no cr after Bact 250. Intro to microbiological systems including the role of microorganisms in disease, health, foods, and the environment; current topics in microbiology; focus on basic principles and applications of microbial life processes.

Bact 155 Principles of Microbiology Laboratory (1 cr). Lab to accompany Bact 154. One 3-hr lab a wk. Coreq: Bact 154.

Bact 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

Bact 250 General Microbiology (5 cr). Satisfies core requirement J-3-b. Intro to nature and activity of bacteria and other microorganisms; their importance in all life systems. Three lec and two 3-hr labs a wk. Prereq: Chem 103 or 111.

Bact 389 Internship (1-6 cr, max 6). Graded P/F. Prereq: perm of dept.

Bact 400 (s) Seminar (cr arr). Graded P/F. Prereq: perm.

Bact ID402 Food and Applied Microbiology (4 cr). WSU FSHN 416. Same as FST ID402. Microorganisms important in foods; spoilage; preservation; food-borne disease. Two lec and two 3-hr labs a wk. Prereq: Bact 250.

Bact 404 (s) Special Topics (cr arr). Prereq: perm.

Bact 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

Bact 409 Immunology (3 cr). Theory and mechanisms of the immune response; antibody structure, function, and expression; cell-mediated immunity; complement; hypersensitivity; immunodeficiencies; tumor immunity. Coreq: Biochem 380.

Bact 410 Immunology Laboratory (2 cr). Introduction to methods of immunologist including immunization, antisera analysis, immunoblot, ELISA, and immunodiagnostic techniques. Two 3-hr labs a wk. Prereq or coreq: Bact 409.

Bact 412 Pathogenic Microbiology (3 cr) (Bact 304). Epidemiology, host-parasite relationships, pathology, host response, treatment, prevention, and control of pathogenic microorganisms. Prereq: Bact 250.

Bact 413 Pathogenic Microbiology Laboratory (2 cr) (Bact 305). Cultivation and genetic, biochemical, and serological identification of pathogenic bacteria and their virulence factors. Two 3-hr labs a wk. Prereq: Bact 250.

Bact WS415 General Virology (3 cr). WSU Micro 414.

Bact WS420 Epidemiology (3 cr). WSU Micro 420.

Bact 421 Clinical Diagnosis: Internship (1-32 cr, max 32). Successful completion of a clinical lab program in an accredited hospital or public health lab. Prereq: perm of dept.

Bact 425 Microbial Ecology (4 cr). Same as Soils 425. Biogeochemical activities and relationships of microorganisms in soil, water, plants, and animals. Two lec and two 3-hr labs a wk; two 1-day field trips. Prereq: Stat 251 and Bact 250.

Bact 431 Recombinant DNA Laboratory (2 cr). Introduction to handling nucleic acids and recombinant organisms. Two 3-hr labs a wk. Prereq: Genet 314 and Biochem 380.

Bact 460 Microbial Physiology (5 cr). WSU Soils 436. Concepts of microbial growth, metabolism, regulation, variation, structural-functional relationships. Three lec and two 2-hr labs a wk. Prereq: Bact 250.

Bact J469/J569 Techniques in Microbial Genetics (3 cr). Laboratory and literature based course emphasizing theoretical and practical applications of prokaryotic and phage genetics; laboratory exercises include mutagenesis, nature of suppressors, gene transfer, transposition, and gene fusions. Additional projects/assignments reqd for grad cr. One lec and two 3-hr labs a wk.

Bact 481 Virology (3 cr). Alt/yrs. Same as VS 481. Biochem of replication and structure of animal, plant, and bacterial viruses. Prereq: Biochem 380 or 481 and Genet 314.

Bact 483 Virology Lab (1 cr). See VS 483.

Bact 490 Senior Thesis and Research (2 cr, max 4). Problem solving using a combination of laboratory and/or library skills. Prereq: senior standing.

Bact 498 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Bact 499 (s) Directed Study (cr arr). Prereq: perm.

Bact 500 Master's Research and Thesis (cr arr).

Bact 501 (s) Seminar (cr arr). Graded P/F. Prereq: perm.

Bact 502 (s) Directed Study (cr arr). Areas normally offered are: aquatic, food, genetics, immunology, medical, microbial ecology, molecular biology, physiology, and soils. Prereq: perm.

Bact 560 **Advanced Microbial Physiology** (3 cr) (Bact J403/J503). Use of current literature to study recent advances in research on the physiology of microorganisms. Prereq: Bact 460 or perm.

Bact 562 **Advanced Pathogenic Mechanisms** (3 cr). Detailed analysis of microbial virulence factors and host factors involved in infections and infectious disease. Prereq: perm.

Bact 568 **Microbial Transformation** (3 cr). Biochemical transformations of natural and anthropogenic compounds mediated by microorganisms and enzymes. Prereq: Bact 460.

Bact 569 **Techniques in Microbial Genetics** (3 cr). See Bact J469/J569.

Bact 585 **Molecular Genetics I** (3 cr). Same as Biochem and Genet 585. Molecular basis of genetics in prokaryotes; bacterial genetics; DNA/RNA, protein synthesis; gene regulation. Prereq: Biol 351, Biochem 380.

Bact 587 **Molecular Genetics II** (3 cr). Same as Biochem 587. Molecular basis of genetics of eukaryotes. Prereq: Bact 585; or Biochem 488; or Biochem 380 and Biol 351.

Bact 597 (s) **Practicum** (cr arr). Prereq: perm.

Bact 598 (s) **Internship** (cr arr). Prereq: perm.

Bact 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Bact 600 **Doctoral Research and Dissertation** (cr arr).

BIOCHEMISTRY

Biochem 380 **Introductory Biochemistry** (3 cr). Max 7 cr in any combination of Biochem 380 or J481/J541 and J482/J542. Survey of structure, function, and metabolism of major constituents of living systems. Prereq: Chem 103 and 275.

Biochem 382 **Introductory Biochemistry Laboratory** (1 cr). Lab training in modern methods. One 3-hr lab and one 1-hr recitation a wk. Prereq: Chem 103, 278; prereq or coreq: Biochem 380 or equiv.

Biochem 389 **Internship** (1-6 cr, max 6). Graded P/F. Prereq: perm of dept.

Biochem 400 (s) **Seminar** (cr arr). Graded P/F. Prereq: perm.

Biochem 401 **Undergraduate Research** (1-2 cr, max 4). Individual study. Prereq: sr standing and perm.

Biochem 404 (s) **Special Topics** (cr arr). Prereq: perm.

Biochem 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Biochem 431 **Recombinant DNA Laboratory** (2 cr). Introduction to handling nucleic acids and recombinant organisms. Two 3-hr labs a wk. Prereq: Genet 314 and Biochem 380.

Biochem J469/J569 **Techniques in Microbial Genetics** (3 cr). Laboratory and literature based course emphasizing theoretical and practical applications of prokaryotic and phage genetics; laboratory exercises include mutagenesis, nature of suppressors, gene transfer, transposition, and gene fusions. Additional projects/assignments reqd for grad cr. One lec and two 3-hr labs a wk.

Biochem 480 **Biochemistry and Molecular Biology** (3 cr). Emphasis on metabolism of carbohydrates, lipids, and nucleic acids; regulation and biosynthesis of nucleic acids and proteins. Prereq: Biochem 380.

Biochem 483-484 **Biochemistry Laboratory** (2 cr). Same as Chem 483-484. Biochemical techniques for the study of proteins, lipids, nucleic acids, enzymes, and intermediary metabolism. Two 3-hr labs a wk. For Biochem 483, prereq: Chem 253; coreq: Biochem 481. For Biochem 484, prereq: Biochem 483; coreq: Biochem 482.

Biochem 486 **Plant Biochemistry** (3 cr). Alt/yrs. Same as Chem 486. Composition and metabolism of higher plants with emphasis on secondary plant products. Prereq: Biochem 380.

Biochem 488 **Genetic Engineering** (3 cr). Introduction to applied genetics and genetic engineering of bacteria, fungi, plants, and animals to enhance their use in agriculture, medicine, and industry. Prereq: Genet 314, Biochem 380.

Biochem 490 **Senior Thesis and Research** (2 cr, max 4). Problem solving using a combination of laboratory and/or library skills. Prereq: senior standing.

Biochem 499 (s) **Directed Study** (cr arr). Prereq: perm.

Biochem 500 **Master's Research and Thesis** (cr arr).

Biochem 501 (s) **Seminar** (cr arr). Graded P/F. Prereq: perm.

Biochem 502 (s) **Directed Study** (cr arr). Prereq: perm.

Biochem 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Biochem ID537 **Soil Biochemistry** (3 cr). WSU Soils 537. See Soils 537.

Biochem ID541-ID542 **Biochemistry** (3 cr). Same as Chem J481-J482/J541-J542. WSU BC/BP 364/563-564. Max 7 cr in any combination of Biochem 380, J481/J541, and J482/J542. Intermediate biochemistry; intro to metabolism and the chemical and physical properties of biomolecules. Prereq: Chem 372; coreq: Chem 302 or 306 or perm.

Biochem 564 **Developmental Genetics** (1-4 cr, max 8). Molecular basis of cell differentiation and morphogenesis of three-dimensional structures in bacteria, fungi, plants, and animals. Prereq: Bact/Biochem 585 and 587 or perm.

Biochem WS565-WS566 **Molecular Biology I-II** (3 cr). WSU BC/BP and GenCB 565-566.

Biochem 567 **Signal Transduction** (3 cr). Examination of responses of prokaryotic and eukaryotic organisms to environmental stimuli at molecular genetic and biochemical level. Prereq: Biochem 380 or equiv and Biochem 585 or 488; or perm.

Biochem 569 **Techniques in Microbial Genetics** (3 cr). See Biochem J469/J569.

Biochem WS578 **Molecular Biology Computer Techniques** (3 cr). WSU BC/BP 578.

Biochem 581 **Carbohydrates** (3 cr). Alt/yrs. Same as Chem 581. Structure, function, and metabolism of carbohydrates. Prereq: Biochem 482 or perm.

Biochem 582 **Proteins and Enzymes** (3 cr). Alt/yrs. Same as Chem 582. Protein structure and function; mechanisms of enzyme action. Prereq: Biochem 481.

Biochem 583 **Lipids and Membranes** (3 cr). Alt/yrs. Same as Chem 583. Biosynthesis and metabolism of major classes of complex lipids and sterols; structure, function, and properties of biomembranes and membrane models. Prereq: Biochem 482.

Biochem 584 **Nucleic Acids** (3 cr). Alt/yrs. Same as Chem 584. Structure, function, and metabolism of nucleic acids. Prereq: Biochem 482.

Biochem 585 **Molecular Genetics I** (3 cr). See Bact 585.

Biochem 587 **Molecular Genetics II** (3 cr). See Bact 587.

Biochem 589 **Advanced Topics in Biochemistry** (1-9 cr, max 9). Same as Chem 589. Recent research in enzymes, hormones, complex lipids, vitamins, nucleic acids, antibiotics, viruses, and biochemical genetics. Prereq: perm.

Biochem 600 **Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

BACTERIOLOGY

The undergraduate curricula in bacteriology prepare students for obtaining interesting and challenging careers in biotechnology, public health, medical technology, and a broad spectrum of industry, government, and agricultural research laboratories. The undergraduate degree programs in bacteriology are also excellent curricula for those intending to apply to an array of graduate programs in the biological sciences or professional programs in dentistry, medicine, or veterinary medicine.

BACTERIOLOGY (B.S.Bact.)

This program is offered through the College of Agriculture and is designed for students who desire professional careers in basic and applied aspects of microbiology (terrestrial, aquatic, food, industrial) related to agriculture, including careers in biotechnology and human and veterinary medicine. This curriculum stresses microbial ecology of natural systems, aspects of disease and pollution control, and basic mechanisms of microbial growth, metabolism, and genetics.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Bact 250 General Microbiology	5
Bact 412, 413 Pathogenic Microbiology & Lab	5
Bact 400 Seminar	1
Bact 402 Food & Applied Microbiol or 425 Microbial Ecology	4
Bact 409, 410 Immunology & Lab or 460 Microbial Physiology	5
Biochem 380, 382 Introductory Biochemistry & Lab	4
Biol 201 Introduction to the Life Sciences	4
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 277, 278 Organic Chemistry I & Lab	4
Chem 372 Organic Chemistry II	3
CommG 131 Fundamentals of Public Speaking or 233 Interpersonal Comm	2-3
Eng 313 Business Writing or 317 Tech & Engr Report Writing	3
Math 111, 160 Finite Math & Survey of Calculus or 180 Analytic Geometry & Calculus I	4-8
Phys 113-114-115-116 General Physics & Lab	8
Stat 251 Principles of Statistics	3
Science electives (including at least 3-4 cr in bact)	16
Humanities and social sciences electives	14
Electives to total 128 cr for the degree	—

Strongly recommended science electives:

Bact 425 Microbial Ecology or 402 Food & Applied Microbiol
 Bact 460 Microbial Physiology or 409, 410 Immunology & Lab
 Bact 481, 483 Virology & Lab
 Bact 485 Molecular Genetics
 Bact 499 Directed Study
 AVS 305 Animal Nutrition
 AVS 371 Anatomy & Physiology
 AVS 451 Endocrine Physiology
 AVS 471 Animal Disease
 Biol 202 General Zoology or PISc 102 Intro to Plant Sc
 Biol 331, 332 General Ecology & Methods in Ecology
 Biol 351, 352 General Genetics & Experimental Genetics
 Chem 302 Principles of Physical Chemistry
 Chem 376 Organic Chemistry II Lab

Note: For students who wish to enter a school of veterinary medicine; it is possible to obtain the B.S.Bact. degree by substituting AVS 471 for Bact 402/425. Under this plan AVS 371 is required, Chem 253 is optional, and AnSc 305, 451, 452, and VS/Bact 481 are strongly recommended. This option may not be used in double majors.

BACTERIOLOGY (B.S.)

This program is offered through the College of Letters and Science and is designed for students who desire professional careers or who are preparing for graduate study in areas of microbiology related to public health, medical technology, industrial microbiology, basic microbiology, microbial genetics, immunology, or virology as well as human and veterinary medicine.

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.S. degree, and:

Course	Credits
Bact 250 General Microbiology	5
Bact 412, 413 Pathogenic Microbiology & Lab	5
Bact 400 Seminar	1
Bact 409, 410 Immunology & Lab	5
Bact 460 Microbial Physiology	5
Biochem 380, 382 Introductory Biochemistry & Lab	4
Biol 201 Introduction to the Life Sciences	4
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 277, 278 Organic Chemistry I & Lab	4
Chem 372 Organic Chemistry II	3
CommG 131 Fundamentals of Public Speaking or 233 Interpersonal Comm	2-3
Math 111, 160 Finite Math & Survey of Calculus	4-8
or 180 Analytic Geometry & Calculus I	4-8
Phys 113-114-115-116 General Physics & Lab	8
Science electives (including at last 3 cr in bact)	16
Electives to total 128 cr for the degree	—

Strongly recommended science electives:

- Bact 402 Food & Applied Microbiology
- Bact 425 Microbial Ecology
- Bact 481, 483 Virology & Lab
- Bact 485 Molecular Genetics I
- Bact 499 Directed Study
- Biol 202 General Zoology or 203 General Botany
- Biol 331, 332 General Ecology & Methods in Ecology
- Biol 351, 352 General Genetics & Experimental Genetics
- Chem 302 Principles of Physical Chemistry
- Chem 376 Organic Chemistry II Lab
- Stat 251 Principles of Statistics
- Zool 119 Human Anatomy & Physiology
- Zool 414, 415 Cell Physiology & Lab
- Zool 418 Parasitology

MEDICAL TECHNOLOGY OPTION

The medical technologist performs critical laboratory tests and analytical procedures that aid physicians in the diagnosis and treatment of disease. The curriculum is of interest to students desiring professional careers in hospital and clinical laboratories, public health and research laboratories, and pharmaceutical laboratories.

Students who wish to apply for clinical training in medical technology at an accredited hospital will be required to take Zool 119 and Zool 418. Upon completion of the B.S. degree in bacteriology (medical technology option), those students who successfully complete 32 credits (Bact 421) in a 12-month training course at an accredited hospital school of medical technology with a curriculum including clinical bacteriology, medical mycology, parasitology, clinical chemistry, toxicology, urinalysis, hematology, immunology-serology, immunohematology, and clinical correlations will be awarded the B.S. degree with major in medical technology. This second degree option is open only to students who have earned the B.S. in bacteriology at UI.

BIOCHEMISTRY

Because of the interdisciplinary nature of biochemistry, preparation in both chemistry and biology, in addition to biochemistry, is required. The student may prepare for career opportunities in medical, biological, and agricultural fields, and the curriculum provides an excellent background for those intending to apply to graduate or professional schools. Students interested in majoring in biochemistry are advised by members of the biochemistry faculty, but should enroll in the general chemistry (B.S.) or professional chemistry (B.S.) curriculum in the College of Letters and Science. In addition to courses indicated in the chemistry curriculum, students, in consultation with their advisers, will select courses that may include any of the following:

- Biochem 481-482, 483-484 Biochemistry & Lab
- Biochem 485 Molecular Genetics I
- Biochem 486 Plant Biochemistry
- Biochem 499 Directed Study
- Bact 250 General Microbiology
- Bact 460 Microbial Physiology
- Bact 481 Virology
- Biol 201 Introduction to the Life Sciences
- Biol 202 General Zoology or 203 General Botany
- Biol 351, 352 General & Experimental Genetics
- Zool 414, 415 Cell Physiology & Lab

Academic Minor Requirements

BACTERIOLOGY MINOR

Course	Credits
Bact 250 General Microbiology	5
Bact 412, 413 Pathogenic Microbiology & Lab	5
Bact 409, 410 Immunology & Lab	5
Bact 460 Microbial Physiology	5

BIOCHEMISTRY MINOR

Course	Credits
Biochem 481-482 Biochemistry	6
Courses selected from the following	12
Biochem 382 Intro Biochem Lab or 483-484 Biochem Lab (1 or 4 cr)	
Biochem 400 Seminar (2 cr)	
Biochem 401 Undergrad Research (1-4 cr)	
Biochem 485 Molecular Genetics I (3 cr)	
Biochem 486 Plant Biochemistry (3 cr)	
Chem 302, 303 Principles of Physical Chemistry & Lab (or equiv) (4 cr)	

Department of Biological Sciences

Arthur W. Rourke, Dept. Chair (252 Life Sc. Bldg.; 208/885-6280). Faculty: Doyle E. Anderegg, Steven N. Austad, John A. Byers, Joseph G. Cloud, Mark E. DeSantis, Victor P. Eroschenko, Matthew S. Grober, Douglass M. Henderson, Stephen K. Herbert, Rolf L. Ingermann, Donald R. Johnson, Michael B. Laskowski, Thomas A. McKean, Rodney A. Mead, R. Francis Rosenzweig, Arthur W. Rourke, George G. Spomer, Anne W. Sylvester, Clifford F. Weil, Holly A. Wichman.

The biological sciences deal with the basic biological principles of all living things with major emphasis on both plant and animal forms.

The Department of Biological Sciences offers several undergraduate curricular options in botany, zoology, and biology. Though all curricula involve exposure to concepts fundamental to plants and animals, degrees in zoology and botany allow students to emphasize course work dealing with animals and plants, respectively. All curricula are designed to introduce the undergraduate to modern molecular approaches to the life sciences as well as more classical approaches.

The department offers both B.A. and B.S. degrees in biology, botany, and zoology. Graduates from the department traditionally enter a variety of fields and many continue their education. Recent graduates have entered allied health professions, agribusiness, medical school, veterinary school, graduate school, state and national agencies that deal with biology (e.g., fish and game departments, EPA), as well as a variety of consulting agencies.

Faculty and facilities are available to teach and conduct research in animal and plant ecology, reproductive biology, comparative, cellular, and organ physiology, plant physiology, aquatic biology, evolutionary biology of fishes, birds, and mammals, and mammals, systematic botany, developmental plant anatomy, vertebrate behavior, and genetics.

The department offers a nonthesis graduate degree, the M.Nat.Sc., which is designed to increase the breadth and depth of understanding of biology and is designed primarily for secondary teachers. The M.S. and Ph.D. degrees in botany and zoology are also offered.

Students with any questions should call the department chair at (208) 885-6280.

Courses

Note: Enrollment in lab sections of departmental courses will be limited to the number of stations available in that section.

BIOLOGY

Biol 100 Introduction to Biology (4 cr). Satisfies core requirement J-3-b. Not open to majors or for minor cr. Intro to basic principles of biological systems. Three lec, one recitation, and one 2-hr lab a wk.

Biol 101 Perspectives in Biology (1 cr). Open only to majors. Intro to the disciplines in the fields of biology; current research topics. Graded P/F.

Biol 150 Heredity and Man (2 cr). Same as Genet 106. Not open for cr to majors, minors, or students who have previous cr in genetics. Inheritance with emphasis on man.

Biol 190 Natural History of Pacific Northwest (3 cr). Intro to vegetation, fleshy fungi, and vertebrate faunas of Pacific Northwest, emphasizing their distribution and ecology as influenced by geol and climate. One 1-day field trip.

Biol 201 Introduction to the Life Sciences (4 cr). Satisfies core requirement J-3-b. Biol principles important in understanding animals, plants, and microorganisms; cytology; ecology; evolution; genetics; growth; molecular biology; physiology. Three lec, one 3-hr lab, and one 1-hr recitation a wk. Prereq: one semester college chemistry.

Biol 202 General Zoology (4 cr). Anatomy, embryology, histology, and physiology of vertebrate and invertebrate animals; the animal kingdom. Three lec and two 2-hr labs a wk. Prereq: Biol 201.

Biol 203 General Botany (4 cr). Growth, development, and ecology of angiosperms in relation to heredity and environment; comparisons of angiosperms with other plant-kingdom divisions. Three lec and two 2-hr labs a wk. Prereq: Biol 201.

Biol 207 Introduction to Oceanography (3 cr). Geological, physical, chemical, and biological features of oceans; biology emphasized. Prereq: Biol 100 or 201.

Biol 331 General Ecology (3 cr). Basic ecologic principles and processes affecting the nature and occurrence of populations, communities, and biomes. Prereq: Biol 100 or 201.

Biol 332 Methods in Ecology and Field Biology (2 cr). Intro to basic techniques used in ecology and other biological field investigations. One recitation and one 3-hr lab a wk; two 1-day field trips. Prereq or coreq: Biol 331.

Biol 351 General Genetics (3 cr) (C). Same as Genet 314. Genetic mechanisms in animals, plants, and microorganisms. Prereq: Biol 201.

Biol 352 Experimental Genetics (2). Same as Genet 315. Techniques for genetic analysis at the organismal and molecular levels. Two 3-hr labs a wk. Prereq or coreq: Biol 351 or Genet 314.

Biol 361 Biological Literature (1 cr). Botanical and zoological literature. Prereq: Biol 201 or equiv.

Biol 405 Biological Lab Procedures (1 or 2 cr). Organization, preparation, and assisting in lab experiments or demonstrations under faculty supervision. Graded P/F. Prereq: perm.

Biol 431 Environmental Science and Pollutants (3 cr). Structure and function of ecosystems, sources and characteristics of hazardous materials, mechanisms and pathways of pollutant transport and degradation, mechanisms of pollutant impact on ecosystems and human health. Prereq: Biol 100 or 201 and Chem 103 or 111.

Biol 442 Biological Evolution (3 cr). Genetic, ecological, and paleontological aspects of evolution, including that of man. Prereq: Biol 202 and 351, or perm.

Biol 451 Cytology (3 cr). Structure and function of the nucleus and cytoplasm in animal and plant cells. Two lec and one 3-hr lab a wk. Prereq: Biol 351.

Biol 499 (s) Directed Study (cr arr). Prereq: perm.

Biol 501 (s) Seminar (cr arr). Prereq: perm.

Biol 502 (s) Directed Study (cr arr). Prereq: perm.

Biol 503 (s) Workshop (cr arr). Prereq: perm.

Biol 504 (s) Special Topics (cr arr). Prereq: perm.

Biol 505 Colloquium (1 cr, max 2). Oral presentation reqd for cr. Graded P/F. Prereq: perm.

Biol 555 Physiological and Molecular Genetics (2-3 cr). Same as Genet 537. Prereq: Biol 351 or Genet 314.

BOTANY

Bot 241 Systematic Botany (3 cr). Classification and identification of flowering plants; local flora. Two 1-hr lec and two 2-hr labs a wk; four 1-day field trips. Prereq: Biol 203 or perm.

Bot 311 Plant Physiology (3 cr). Functions of plant growth and development. Prereq: Biol 203 and organic chem.

Bot 312 Plant Physiology Lab (2 cr). Two 3-hr labs a wk. Prereq or coreq: Bot 311.

Bot 325 Morphology of Lower Plants (4 cr). Structures, life history, classification, and phylogeny of fungi and algae. Two lec and two 3-hr labs a wk. Prereq: Biol 203.

Bot 364 Botany Microtechniques (3 cr). Methods of treating plant tissues for microscopic exam or histochemical tests. Two 3-hr labs a wk. Prereq: Biol 203 or perm.

Bot 381 Mushroom Identification (1 cr). Methods of mushroom study; emphasis on the natural history of higher basidiomycetes and ascomycetes of the Northwest. Two 2-hr lec-labs a wk for the first 8 wks; one 1-day field trip. Prereq: Biol 100 or 201 or 203.

Bot 382 Mold Identification (1 cr). Methods and procedures for identifying filamentous fungi (phycomycetes, ascomycetes, fungi imperfecti) commonly found in soil, water, air, and decomposing organic matter. Two 2-hr lec-labs a wk for second 8 wks; two field trips. Prereq: course in biol.

Bot J401/J510 Techniques of Plant Tissue Culture (2 cr). Isolation and culture of higher plant cells, tissues, and organs. Two 3-hr labs a wk. Cr earned in Bot 510 by completion of special project and term paper. Prereq: perm.

Bot J413/J515 Mineral Nutrition (3 cr). Alt/yrs. Uptake and metabolism of mineral elements in higher plants. Two lec and one 2-hr disc a wk. Cr earned in Bot 515 by completion of term paper on mineral metabolism in higher plants. Prereq: Bot 311 and organic chem.

Bot ID-J420/ID-J520 Aquatic Macrophytes (1 cr). WSU Bot 420/520. Classification, structure, and habits of predominant aquatic macrophytes of Pacific NW. Cr earned in Bot 520 by completion of analytical term paper. Accelerated course with six hrs of lab a wk for first 8 wks; one 1-day field trip. Prereq: Biol 203; Bot 241 recommended.

Bot ID-J421/ID-J521 Biology of Fungi (2 cr). WSU PI P 472. Life activity of fungi; structure, life history, and classification. Two lec and two 3-hr labs a wk. Cr earned in Bot 521 by exam of current literature and preparation of term paper. Prereq: Biol 203 or perm.

Bot ID-J422/ID-J522 Fungi in the Lab (1 cr). WSU PI P 473. Culture, experimentation, isolation, and morphology of fungi. Cr earned in Bot 522 by directing open-ended lab experiment.

Bot J425/J525 Developmental Plant Anatomy (3 cr). Origin and development of tissues and organs of vascular plants in relation to heredity, environment, and physiology. Cr earned in Bot 525 by completion of analytical term paper. Two lec and one 3-hr lab a wk. Prereq: Biol 203.

Bot ID-J426/ID-J526 Morphology of the Embryophytes (4 cr). WSU Bot 426/526. Structure, life history, classification, and phylogeny of liverworts, mosses, clubmosses, horsetails, quillworts, ferns, and gymnosperms. Cr earned in Bot 526 by completion of analytical term paper. Eight hrs a wk; one 1-day field trip. Prereq: Biol 203.

Bot J432/J530 Plant Ecology (3 cr). General ecologic concepts and theory applied to plant populations and communities; intro to methods in plant ecology. Cr earned in Bot 530 by preparation of critical review of specific ecologic problem. Two lec and one 3-hr lab a wk; three 1-day field trips. Prereq: Biol 203, 331; Bot 241 recommended.

Bot WS435 Plant Environmental Biophysics (2 cr). WSU Soils 414.

Bot WS436 Plant Environmental Biophysics Lab (1 cr). WSU Soils 415.

Bot J440/J540 Advanced Plant Taxonomy (3 cr). Major classification systems, emphasis on flowering plants of world, their relationships, evolutionary trends, and morphological specializations. Credit earned in Bot 540 by completion of additional projects/assignments. Two 3-hr lec-labs a wk; one weekend field trip. Prereq: Bot 241 or equiv.

Bot 441 Agrotopology (3 cr). Classification, distribution, and structures of grasses. One lec and two 3-hr labs a wk; field labs and two 1-day field trips. Prereq: Biol 203 and Bot 241.

Bot 452 Principles of Plant Molecular Biology (3 cr). Thorough intro to core topics of plant biotechnology and genetic engineering: methods for gene manipulation; organization, structure, and expression of genes in nucleus, chloroplasts and mitochondria of plants; methods and prospects for their engineering. Prereq: one semester of biochemistry and/or genetics.

Bot 474 Phycology (4 cr). Morphology and ecology of fresh water and marine algae; principles of classification, collection, identification, and making of permanent microscopic prep. Prereq: Biol 203.

Bot 499 (s) Directed Study (cr arr). Prereq: perm.

Bot 500 Master's Research and Thesis (cr arr).

Bot 501 (s) Seminar (cr arr). Prereq: perm.

Bot 502 (s) Directed Study (cr arr). Prereq: perm.

Bot 503 (s) Workshop (cr arr). Prereq: perm.

Bot 504 (s) Special Topics (cr arr). Prereq: perm.

Bot 510 Techniques of Plant-Tissue Culture (2 cr). See Bot J401/J510.

Bot 512 Plant Growth Substances (3 cr). Alt/yrs. Hormonal regulation of physiological processes. Two lec and one 2-hr disc a wk. Prereq: Bot 311 and organic chemistry.

Bot 515 Mineral Nutrition (3 cr). See Bot J413/J515.

Bot ID520 Aquatic Macrophytes (1 cr). See Bot J420/J520.

Bot ID521 Biology of Fungi (2 cr). See Bot J421/J521.

Bot ID522 Fungi in the Lab (1 cr). See Bot J422/J522.

Bot 525 Developmental Plant Anatomy (3 cr). See Bot J425/J525.

Bot ID526 Morphology of the Embryophytes (4 cr). See Bot J426/J526.

Bot 530 Plant Ecology (3 cr). See Bot J432/J530.

Bot 535 Plant Geography (3 cr). Alt/yrs. Spatial relations of plants and plant communities as determined by intrinsic factors such as genetics and evolution, and extrinsic factors such as physiography, geology, climate, and climatic change; mechanisms of distribution, discontinuity patterns. One 3-day field trip. Prereq: Bot J432/J530 or perm.

Bot 539 Physiological Ecology (3 cr). Physiological adaptations to various environmental and habitat conditions and their ecologic consequences. Two lec and one 3-hr lab a wk. Prereq: Bot J432/J530, 311 recommended.

Bot 540 Advanced Plant Taxonomy (3 cr). See Bot J440/J540.

Bot **ID&WS556 Advanced Plant Molecular Biology** (3 cr). WSU GenCB 504. Molecular biology of plant organelles: structure of chloroplast and mitochondrial genomes and their replication; transcription, translation, and regulation of organelle genes and their interaction with nuclear genomes; genetic engineering of plant organelles-herbicide resistance, cytoplasmic male sterility. Prereq: one semester of biochemistry and/or genetics.

Bot **WS575 Basidiomycetes** (3 cr). WSU PI P 522.

Bot **WS576 Ascomycetes and Fungi Imperfecti** (2 cr). WSU PI P 523.

Bot **WS577 Lower Fungi** (2 cr). WSU PI P 524.

Bot **600 Doctoral Research and Dissertation** (cr arr).

ZOOLOGY

Zool **119 Human Anatomy and Physiology** (5 cr). Anatomy and physiology of cells, tissues, organs, and systems that make up the human body; lab uses human cadavers. Three lec and two 2-hr recitation-labs a wk.

Zool **184 Bird Identification** (2 cr). Field and lab identification of birds. One 3-hr lec-lab a wk for second 8 wks; six 1-day field trips.

Zool **324 Comparative Vertebrate Anatomy** (4 cr). General vertebrate anatomy and evolutionary changes in organ systems. Two lec and two 3-hr labs a wk. Prereq: Biol 202.

Zool **366 Histological Technique** (2 cr). Methods of fixing, sectioning, staining, and mounting. Two 3-hr labs a wk. Prereq: Biol 202.

Zool **ID-J411/ID-J511 Comparative Vertebrate Reproduction** (3 cr). WSU Zool 451/551. Physiology of major events in reproductive cycles of vertebrates with emphasis on mammals. Cr earned in Zool 511 by completion of additional reading in journals, take-home exam with each hr exam, and term paper. Prereq: Biol 202.

Zool **412 Comparative Vertebrate Reproduction Lab** (2 cr). Lab study of the estrous cycle, pregnancy, and hormonal control of these events in rats. One 3-hr lab a wk. Prereq or coreq: Zool 411 or AnSc 452.

Zool **J414/J514 Cell Physiology** (3 cr). Experimental investigation of cells. Cr earned in Zool 514 by completion of research proposal. Prereq: organic chemistry, Biochem 380, and Biol 201; Biol 202 recommended.

Zool **415 Cell Physiology Lab** (2 cr). Current methodology to investigate a variety of functions in several eukaryotic cell types. Two 3-hr labs a wk.

Zool **416 Mammalian Physiology** (4 cr). Organs and organ systems of vertebrates; emphasis on mammals. Three lec and one 3-hr lab a wk. Prereq: Biol 202 and organic chemistry.

Zool **J417/J517 Endocrine Physiology** (3 cr). See AVS J451/J551.

Zool **WS418 Parasitology** (4 cr). WSU Zool 417.

Zool **J423/J523 Comparative Vertebrate Physiology** (4 cr). Comparative physiology of the major organ systems found in vertebrates. Credit earned in Zool 523 by completion of additional projects/assignments. May involve some evening exams. Prereq: Biol 202 and organic chemistry.

Zool **427 Vertebrate Histology and Organology** (4 cr). Microscopic anatomy of tissues and major mammalian organs. Two lec and two 3-hr labs a wk. Prereq: Zool 119 or Biol 202.

Zool **J432/J532 Raptor Ecology** (2 cr). Identification, population dynamics, migration and food habits, energetics of North American birds of prey. Cr earned in 532 by completion of additional projects/assignments. One 4-day field trip. Prereq: Biol 331.

Zool **435 Limnology** (5 cr). See Fish 415.

Zool **J438/J538 Animal Geography** (2 cr). Dynamics of the distribution of animals in time and space. Cr earned in Zool 538 by completion of analytical term paper. Prereq: perm.

Zool **J472/J572 Developmental Biology** (3 cr). Analysis of developmental and regulatory mechanisms at cellular and molecular level during embryogenesis. Cr earned in Zool 572 by completion of additional reading, take-home exam, and term paper. Prereq: Biol 202.

Zool **473 Comparative Embryology Lab** (1 cr). Descriptive embryology of a number of organisms with emphasis on amphibians, birds, and mammals. One 3-hr lab a wk. Prereq or coreq: Zool J472/J572.

Zool **478 Animal Behavior** (3 cr). Evolution, causation, development, and function of behavior in vertebrates and invertebrates. Prereq: Biol 202.

Zool **481 Ichthyology** (4 cr). Same as Fish 411. Anatomy, taxonomy, physiology, distribution, and ecological relationships of fishes. Three lec and one 3-hr lab a wk; one half-day field trip. Prereq: Biol 202.

Zool **482 Natural History of Birds** (3 cr). Two lec and one 3-hr lab a wk; two 1-day field trips. Prereq: Biol 202.

Zool **483 Natural History of Mammals** (3 cr). Two lec and one 3-hr lab a wk. Prereq: Biol 202.

Zool **J484/J584 Invertebrate Zoology** (4 cr). Morphology of freshwater, marine, and terrestrial invertebrates and phylogeny of major groups. Cr earned in 584 by completion of extra project requiring a report. Two lec and two 2-hr labs a wk; one 6-day or two 2-day field trips. Prereq: Biol 202.

Zool **485 Freshwater Invertebrates** (2 cr). Collection, preserving, identification, slide preparation, and culturing of freshwater invertebrates not to incl insects, protozoans, or parasitic forms. Prereq: Biol 202.

Zool **ID&WS486 Marine Invertebrate Communities** (1 cr). WSU Zool 486. Six-day field trip to coast to study national history of marine invertebrates on rocky coast, mud flats, boat docks, and subtidal areas. Prereq: Biol 202.

Zool **489 Herpetology** (3 cr). Evolution, taxonomy, and biol of amphibians and reptiles. Two lec and one 3-hr lab a wk; one 4-day field trip and field labs. Prereq: Biol 202.

Zool **494 Insect Anatomy and Physiology** (4 cr). See Ent 484.

Zool **497 Practicum in Physical Therapy** (1 cr, max 4). Minimum of two hrs a wk of practical experience in a PT clinic. Graded P/F. Prereq: jr standing in pre-PT or related studies and perm of UI allied health adviser.

Zool **499 (s) Directed Study** (cr arr). Prereq: perm.

Zool **500 Master's Research and Thesis** (cr arr).

Zool **501 (s) Seminar** (cr arr). Prereq: perm.

Zool **502 (s) Directed Study** (cr arr). Prereq: perm.

Zool **503 (s) Workshop** (cr arr). Prereq: perm.

Zool **504 (s) Special Topics** (cr arr). Prereq: perm.

Zool **ID505 Generation, Degeneration, and Regeneration in Nervous System** (2 cr). WSU Zool 505.

Zool **ID511 Comparative Vertebrate Reproduction** (3 cr). See Zool J411/J511.

Zool **512 Environmental Physiology** (3-4 cr). Physiological responses of animals to natural changes or extremes of the physical environment. One 3-hr lab a wk if taken for 4 cr. Prereq: Zool 416.

Zool **513 Comparative Animal Physiology** (3 cr). Alt/yrs. Physiology, morphology, evolution, and ecology of various animal groups. Prereq: Zool 415 or 416.

Zool **514 Cell Physiology** (3 cr). See Zool J414/J514.

Zool **517 Endocrine Physiology** (3 cr). See AVS J417/J517.

Zool **523 Comparative Vertebrate Physiology** (4 cr). See Zool J423/J523.

Zool **532 Raptor Ecology** (2 cr). See Zool J432/J532.

Zool **538 Animal Geography** (2 cr). See Zool J438/J538.

Zool **572 Developmental Biology** (3 cr). See Zool J472/J572.

Zool **584 Invertebrate Zoology** (4 cr). See Zool J484/J584.

Zool **600 Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

BIOLOGY (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and the following (electives to be chosen in consultation with the departmental adviser):

Course	Credits
Biol 101 Perspectives in Biology	1
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Biol 351 General Genetics	3
Biol 352 Experimental Genetics	2
Biol 361 Biological Literature	1
Biol 442 Biological Evolution	3
Bact 250 General Microbiology	5
Bot 311, 312 Plant Physiology & Lab	5
Bot 425 Developmental Plant Anatomy	3
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 275, 276 Carbon Compounds & Lab	4
Math 140 Pre-calculus Algebra & Analytic Geometry	3
Phys 113-114-115-116 General Physics & Lab	8
Zool 324 Comparative Vertebrate Anatomy or 472, 473 Developmental Biology & Lab	4
Zool 414, 415 Cell Physiology & Lab or 423 Comparative Vertebrate Physiology	4-5
Zool 484 Invertebrate Zoology or Ent 211 General Entomology	4

BOTANY (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and the following (electives to be chosen in consultation with the departmental adviser):

Course	Credits
Bot 241 Systematic Botany	3
Bot 311, 312 Plant Physiology & Lab	5
Bot 421 Biology of Fungi	2
Bot 425 Developmental Plant Anatomy	3
Bot 426 Morphology of the Embryophytes	4
Bot 432 Plant Ecology	3
Biol 101 Perspectives in Biology	1
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Biol 351 General Genetics	3
Biol 352 Experimental Genetics	2
Biol 361 Biological Literature	1
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Math 140 Pre-calculus Algebra & Analytic Geometry	3

And completion of one of the two sections below:

A. FOR STUDENTS NOT PLANNING TO ATTEND GRADUATE SCHOOL

Chem 275, 276 Carbon Compounds & Lab	4
And at least one of the following:	
Math 160 Survey of Calculus	
Math 180 Analytic Geometry & Calculus I	
Stat 251 Principles of Statistics	

B. FOR STUDENTS PLANNING TO ENTER GRADUATE SCHOOL

Biochem 380 Introductory Biochemistry	3
Chem 277, 372 Organic Chemistry I, II	6
Chem 278 Organic Chemistry I Lab	1
Math 180 Analytic Geometry & Calculus I or Stat 251 Prin of Statistics	3-4
Phys 113-114-115-116 General Physics & Lab	8

ZOOLOGY (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and the following (electives to be chosen in consultation with the departmental adviser):

Course	Credits
Zool 324 Comparative Vertebrate Anatomy	4
Zool 414, 415 Cell Physiology & Lab or 423 Comparative Vertebrate Physiology	4-5
Zool 481 Ichthyology or 482 Natural History of Birds or 483 Natural History of Mammals or 489 Herpetology	3-4
Zool 484 Invertebrate Zoology or Zool 418 Parasitology or Ent 211 General Entomology	4
Biol 101 Perspectives in Biology	1
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Biol 351 General Genetics	3
Biol 352 Experimental Genetics	2
Biol 361 Biological Literature	1
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 277, 278 Organic Chemistry I & Lab or 275, 276 Carbon Compounds & Lab	4
Chem 372 Organic Chem II or Biochem 380 Introductory Biochem	3
Math 140 Pre-calculus Algebra & Analytic Geometry	3
Math 160 Survey of Calculus or 180 Analytic Geometry & Calculus I	4
Phys 113-114-115-116 General Physics & Lab	8
Stat 251 Principles of Statistics	3
Approved upper-division biology or zoology electives	3-4

PRE-NURSING STUDIES

Admission to a school of nursing involves meeting satisfactorily its entrance requirements, acceptable scholastic records or a satisfactory score on the nursing admission test, and possession of personal qualifications essential for effective nursing. Requirements of the institution to which the student will transfer should be investigated by the student to ensure inclusion of courses that meet those requirements.

The following two-year program is suggested for students who plan to transfer to a school of nursing.

Course	Credits
Bact 250 General Microbiology or 154, 155 Prin of Microbiology & Lab	3-5
Biol 201 Introduction to the Life Sciences	4
Chem 103 Introduction to Chemistry or 111 Principles of Chemistry	4
Chem 114 General Chemistry or 275, 276 Carbon Compounds & Lab	4

FSC 205 Concepts in Human Nutrition	3
Psych 100 Introduction to Psychology	3
Soc 110 Introduction to Sociology	3
Stat 251 Principles of Statistics	3
Zool 119 Human Anatomy & Physiology	5
Humanities and social sciences electives (at least 6 cr in each field)	21
Communications electives (3 cr must be in written communication)	6
Electives	2

Strongly recommended elective:

Math 140 Pre-calculus Algebra & Analytic Geometry	3
---	---

PRE-PHYSICAL THERAPY STUDIES

UI does not have a professional program in physical therapy and does not offer a degree program in pre-physical therapy. Students can, however, take courses that are prerequisites for admission into bachelor's, certificate, or master's degree programs in physical therapy at other institutions. Completion of these prerequisites does not guarantee acceptance into a physical therapy program and these classes are not necessarily a part of a degree program at UI. Consequently, unless a student has already earned a bachelor's degree, students must pursue a B.S. or B.A. degree in an allied area (such as biology, psychology, sports science, and the like) while completing the prerequisites for admission to a physical therapy degree program. The pre-physical therapy adviser in the Department of Biological Sciences advises students interested in preparing to enter into a professional program at another institution. Three basic plans of study at UI can lead to qualification for admission to a professional program in physical therapy: (1) graduation from UI with a bachelor's degree in some allied area and application to a master's degree program at some other institution, (2) graduation with a bachelor's degree in some allied area and application to a certificate program at some other institution, or (3) completion of the physical therapy prerequisites after two to three years of study at UI and subsequent application and transfer to a bachelor's degree program in physical therapy at some other institution. However, competition for all degree programs in physical therapy is very keen and most successful applicants, even to bachelor programs in physical therapy, already have a bachelor's degree in an allied area. Consequently, although we recommend the following classes for completion of the physical therapy prerequisites for most master, certificate, or bachelor programs, students must enroll at UI in a traditional bachelor's degree program in some allied area.

Recommended Preparation

The courses listed below include most of the essential courses for transfer into a typical program.

Course	Credits
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Chem 111 Principles of Chemistry	4
Chem 114 General Chemistry	4
Eng 103, 104 Basic Skills & Essay Writing	6
Math 140 Pre-calculus Algebra & Analytic Geometry	3
Phys 113-114-115-116 General Physics & Lab	8
Psych 100 Introduction to Psychology	3
Psych 305 Developmental Psychology	3
Psych 311 Abnormal Psychology	3
Soc 110 Introduction to Sociology	3
Zool 119 Human Anatomy & Physiology	5
Humanities electives	3
Electives	14

Academic Minor Requirements**BIOLOGY MINOR**

Course	Credits
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Biol 351 General Genetics	3
One of the following	4-5
Bot 311, 312 Plant Physiology & Lab	
Zool 119 Human Anatomy & Physiology	
Zool 414, 415 Cell Physiology & Lab	
Zool 423 Comparative Vertebrate Physiology	

BOTANY MINOR

Course	Credits
Bot 241 Systematic Botany	3
Bot 311, 312 Plant Physiology & Lab	5
Biol 201 Introduction to the Life Sciences	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Biol 351 General Genetics	3

ZOOLOGY MINOR

Course	Credits
Zool 324 Comparative Vertebrate Anatomy	4
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4

Course in animal physiology	3-4
One of the following	3-4
Biol 331 General Ecology	
Zool 481 Ichthyology	
Zool 482 Natural History of Birds	
Zool 483 Natural History of Mammals	
Zool 484 Invertebrate Zoology	
Zool 489 Herpetology	

Department of Business

C. Randall Byers, Dept. Head (338A Admin. Bldg.; 208/885-6295). Faculty: Jeffrey J. Bailey, C. Randall Byers, Raymond Dacey, Byron J. Dangerfield, Joseph J. Geiger, John H. Hallaq, Mark S. Johnson, Bradley D. Lockeman, Lawrence H. Merk, John S. Morris, Linda J. Morris, C. R. Narayanaswamy, Philip D. Olson, William H. Parks, Norman Pendegraft, Kathy L. Pettit-O'Malley, Steven W. Pharr, Mario G. Reyes, Dana L. Stover, Richard A. Toelle, David Van Over.

The five major fields (finance, human resources management, information systems, marketing, and production/operations management) within the department lead to the B.S.Bus. degree. These programs provide a solid foundation in the liberal arts, a broad professional preparation in business, and in-depth course work in a major field. They are designed to prepare the student for a lifetime of continuing liberal and professional education.

The finance major prepares students for careers in commercial lending, security analysis, portfolio management, and corporate finance.

The human resources management major prepares students for opportunities in the areas of personnel administration, labor relations, and general management.

The information systems major prepares students in the areas of systems analysis, data base management, and systems marketing.

The marketing major prepares students for opportunities in a broad range of areas, including management of retail and wholesale distribution, advertising, and market research.

The production/operations management major prepares students for management positions in operations planning and control and in purchasing.

International Business Programs. There are various programs by which a UI student can pursue international business. The following programs are available in connection with a B.S.Bus. degree: a major or minor in a foreign language; a major or minor in international studies; a major or minor in political science. In addition, a student may have a dual major in business and foreign languages or major in foreign languages (B.A.) with a business option. A third option is the international studies program (B.A.), which may be selected by itself or as a dual major with business. Contact the Dean's Office in the College of Business and Economics for further information on international business programs.

Business Courses

Note: Enrollment in 300- and 400-level business courses is restricted to students who have completed at least 58 credits. In addition, CBE students must have earned at least a 2.4 GPA in the CBE predictor courses.

No course (CBE or outside the college) that is required in a CBE student's major may be taken by CBE undergraduates on a P/F basis, with the exception of courses that are taught only on a P/F basis. Only upper-division CBE courses used as free electives may be taken by CBE undergraduates on a P/F basis.

Enrollment in 500-level business courses requires completion of listed prerequisites and permission of the head of the department.

Students who have not completed the prerequisites to a course for which they are otherwise eligible may register for the course with the instructor's approval.

Bus 101 Introduction to Business Enterprises (3 cr). Not open to upper-division majors in the College of Business and Economics. Private enterprise system; marketing, management, finance, production; business-government relationships, organized labor, ethical and social responsibilities of business organizations.

Bus 200 (s) Seminar (cr arr).

Bus 204 (s) Special Topics (cr arr). Prereq: perm.

Bus 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

Bus 250 Microcomputer Software (1 cr). Intro to microcomputers and to software packages useful in business applications such as word processing, data base management, and spreadsheet. Graded P/F. Prereq: CS 100 or 112.

Bus 261 Real Estate (3 cr). Listing, selling, leasing, financing, and brokerage; fundamentals of valuation and listing property management. This course has been certified by the Idaho Real Estate Commission.

Bus 299 (s) Directed Study (cr arr). Prereq: perm.

Bus 301 Financial Management (3 cr). Policies and practices involved in acquisition, control, and allocation of financial resources in business organizations. May involve evening exams. Prereq: Acctg 201, Acctg 202, Stat 251, and Econ 202.

Bus 302 Intermediate Financial Management (3 cr). Advanced course in managerial finance that addresses more complex issues such as risk in capital budgeting, working capital management, mergers, business failure and reorganization, and lease financing. May involve evening exams. Prereq: Bus 301, Acctg 300.

Bus 311 Introduction to Management (3 cr). Organization, planning, leadership, and control; evolution of philosophies of management, decision making, motivation, human relations, and communication; organizational behavior and theory; history and present management practices, showing interrelationships between the needs and expectations of the individual, the organization, and society. May involve evening exams.

Bus 314 World of Corporate Business (3 cr). Current key issues affecting large corporations including personal and professional development, corporate governance and takeovers, the role of profits, corporate culture and politics, ethical issues, human resources, social responsibility, government relations, the role and functions of a chief executive officer, and doing business in the international arena; course features senior corporate executives as weekly presenters. Prereq: jr standing.

Bus 321 Marketing (3 cr) (C). Marketing institutions and relationships with economic, political, legal, and social environment; principles, functions, concepts, and issues of marketing within a firm and the relationship of marketing to other business disciplines. May involve evening exams.

Bus 324 Consumer Behavior (3 cr). Behavioral science theories, concepts, and methods applied to the understanding and prediction of consumer behavior; emphasis on structuring marketing policy to fulfill consumer requirements. May involve evening exams. Prereq: Bus 321.

Bus 325 Retailing (3 cr). Location, capital, and physical requirements; store organization, personnel, merchandise, and pricing; buying and receiving; sales promotion; customer services; retail expense mgt. May involve evening exams. Prereq: Bus 321.

Bus 326 Marketing Channels Management (3 cr) (Bus 426). Analysis of planning, organization, and control issues related to distribution of goods and services; topics include retail and wholesale institutions, channel member behavior patterns, and vertical marketing systems. Prereq: Bus 321.

Bus 327 Services/Nonprofit Marketing (3 cr). Marketing principles applied to marketing of intangibles, societal issues, and to donor markets and publics for profit and nonprofit organizations; includes strategies for designing service layout and process, training of service providers, and other marketing mix elements to enhance customer satisfaction. Prereq: Bus 321.

Bus 332 Quantitative Methods in Business (3 cr). Survey of management science techniques including constrained optimization and simulation; probability review, forecasting tech including time series analysis and decision theory. May involve evening exams. Prereq: Stat 251, Math 160 or 180, CS 100 or 112.

Bus 350 Management Information Systems (3 cr). Data processing applications for business; intro to information systems; data base concepts; analysis, design, and implementation of computer-based information systems and consideration of associated problems. May involve evening exams. Prereq: CS 100 or 112, Acctg 202.

Bus 352 Computer Hardware and Software Concepts (3 cr). Survey of technical topics related to computer systems; emphasis on relationship between hardware architecture, systems software, and application software; includes architecture of processors, storage systems, assemblers, loaders, compilers, and operating systems. Prereq: CS 112.

Bus 353 Introduction to Data Base (3 cr). Intro to physical implementation of a data base under different logical data models; basic data structures, alternative file organizations, storage devices; physical storage of data including addressing techniques, data structures, indexed and direct file organization and secondary structures. Prereq or coreq: Bus 350.

Bus 355 Systems Analysis and Design (3 cr). Intro to principles of systems analysis and design of information systems; emphasis on Systems Development Life Cycle and modern tools of SAD including CASE. Prereq or coreq: Bus 350.

Bus 362 Real Property Appraisal (3 cr). Theories and principles in estimating value of natural resources and any attached improvements. This course has been certified by the Idaho Real Estate Commission. Prereq: Bus 261, Econ 202 or perm.

Bus 364 Insurance (3 cr). Major branches of insurance; principles and practices.

Bus 370 Production/Operations Management (3 cr). Intro to production/operations management, including product design, process design, facility layout, facility location, job design, work measurement, project management, quality control, inventory management, maintenance, and operations scheduling and control. May involve evening exams. Prereq: Bus 332 and either Math 160 or Math 180 (econ majors may substitute Econ 353 or Econ 453 for Bus 332).

Bus 380 International Business (3 cr) (Bus 474). International trade and the nature of exchange among nations; socioeconomic environment of the multinational corporation. May involve evening exams. Prereq: Econ 202.

Bus 399 (s) **Internship** (1-3 cr, max 6). Open only to majors in the Dept of Business. Graded P/F. Prereq: perm.

Bus 400 (s) **Seminar** (cr arr). Prereq: perm.

Bus 401 Investments (3 cr). Functioning of financial markets; types of securities and their suitability to various investment goals. Prereq: Bus 301.

Bus 404 (s) **Special Topics** (cr arr). Prereq: perm.

Bus 405 Portfolio Management (3 cr). Security analysis and portfolio theory; financial futures; risk and return in investments. Prereq: Bus 401.

Bus 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Bus 407 Financial Institutions (3 cr). Management and regulation of commercial and nonmonetary financial institutions including savings and loan institutions. Prereq: Bus 301, Econ 343.

Bus 408 Security Analysis (3 cr). Emphasis on theory and practice of security analysis and investment timing. Prereq: Bus 302, Acctg 301.

Bus 409 Problems in Financial Management (3 cr). Analysis of selected topics in financial management; capital budgeting and valuation; synthesis of financial management skills through case analysis; written and oral reports. May involve evening exams. Prereq: Bus 302.

Bus 412 Human Resource Management (3 cr). Human resource/personnel management functions including recruitment, training, compensation, performance appraisal, health and safety, labor relations, and legal issues. Prereq: BLaw 265, Bus 311.

Bus 413 Organizational Behavior (3 cr). Micro oriented treatment of areas including communication, motivation, group process, conflict, leadership style. Prereq: Bus 311 or AgEc 391.

Bus 414 Entrepreneurship (3 cr). Process of providing solutions to identified consumer needs; characteristics of individuals who succeed; sources of venture ideas; evaluating and developing ideas; business plans; franchising.

Bus 415 Small Business Management (3 cr). Study of problems encountered by small business organizations through case analysis of actual small business operations; topics include location, staffing, financing, marketing, and growth. May involve field trips. Prereq: Bus 301, 311, and 321 or perm.

Bus 416 Staffing and Compensation (3 cr). Specialized human resource management topics including selection, placement, and career development of employees; development and administration of monetary-nonmonetary reward programs, job evaluation systems, and wage incentive plans. Prereq: Bus 412.

Bus 418 Organization Theory (3 cr). Macro organization behavior; study of organization structure and processes; how environment, technology, and size impact structure and processes. Prereq: Bus 332, 413, Acctg 381.

Bus 420 Promotional Strategy (3 cr) (C). Marketing management point of view; objectives, methods, strategies, budgets, and measures of effectiveness; campaign management including advertising, public relations, sales promotion, reseller support, personal selling. May involve evening exams. Prereq: Bus 321; prereq or coreq: Bus 324.

Bus 421 Marketing Research and Analysis (3 cr). Applied research focusing on marketing information needs for managerial decision making; includes research design, data collection methods, statistical analysis, and use of marketing information systems to forecast market and sales potential, measure effectiveness of promotions, and analyze new products and distribution of goods and services. May involve evening exams. Prereq: Bus 321, 332.

Bus 422 Sales Force Management (3 cr). Selecting, training, compensating, stimulating, supervising, and directing the selling efforts of an outside sales force; organization and method. May involve evening exams. Prereq: Bus 311, 321.

Bus 428 Strategic Marketing Management (3 cr). Development, implementation, and control of marketing strategies; topics include role of marketing strategy, opportunity analysis, strategies for different stages of industry/market development, marketing audit. May include evening exams. Prereq: Bus 324, 420, 421.

Bus 436 Economic and Business Forecasting (3 cr). Economic and statistical analysis with forecasting techniques (e.g., economic indicators, decomposition, time series, and regression) for economy, region, industry, and firm; computer applications. Prereq: Econ 201, 202, Stat 251.

Bus 437 Statistics for Business Decisions (3 cr). Same as Stat 437. Decision making under risk; the economic theory of information; behavioral issues in decision theory. Prereq: Stat 251 or 301.

Bus 439 Systems and Simulation (3 cr). Distribution theory, random numbers, modeling concepts and simulation of queuing and inventory systems. Prereq: Bus 332.

Bus 441 Labor Relations (3 cr). Evolution, structure, and procedures of contemporary labor-management relations; unionization, other concerted activity and employment at will. Prereq: Bus 311.

Bus 452 Business Telecommunications Management (3 cr). Survey of telecommunications management issues in a business environment; topics include local and wide area networks, telephony, public networks, and application of telecommunications technology in strategic business management. Prereq or coreq: Bus 352; prereq: Bus 350.

Bus 453 Logical Data Base Design (3 cr). Intro to application program development in a data base environment including group project; logical data analysis and modeling, normalization, data design, data models with emphasis on relational model; data base administration. Prereq: Bus 353, 355.

Bus 454 (s) **Current Issues in Information Systems** (3 cr, max arr). Discussion of major topics of current importance in information systems. Prereq: Bus 350 and perm.

Bus 455 Systems Design (3 cr). Continuation of System Development Life Cycle begun in Bus 355; application of concepts in an analysis and design project. Prereq: Bus 453.

Bus 456 Quality Management (3 cr). Same as Stat 456. Principles of total quality management, with emphasis on problem solving techniques to continually improve processes; customer-driven quality, management and employee participation, statistical process control, product/process design, and process capability. May involve field trips. Prereq: Stat 251 or 301, Math 160 or 180.

Bus 470 Purchasing and Materials Management (3 cr). Overview of materials management function in organizations; includes consideration of purchasing, logistics, and inventory management. Prereq: Bus 370.

Bus 472 Operations Planning and Scheduling (3 cr). In-depth study of planning and scheduling techniques with emphasis on material requirements planning. May involve field trips. Prereq: Bus 370.

Bus 478 Seminar in Operations Management (3 cr). Readings on current issues in operations management and case studies for analyzing situations faced by operations managers. May involve field trips and/or special projects. Prereq: Bus 370, 472, 456; prereq or coreq: Bus 470.

Bus 481 International Finance (3 cr). Study of financial problems facing business engaged in international activities; foreign exchange risk management, international diversification, multinational capital budgeting, country risk analysis, financing foreign investments, international financial markets. Prereq: Bus 301, Bus 380 or Econ 446.

Bus 482 International Marketing (3 cr) (Bus 475). Foreign market operations; economic, cultural, and political aspects of international markets and how they interact with the marketing mix. Prereq: Bus 321, Bus 380 or Econ 446.

Bus 485 Advanced International Business (3 cr). Integrated study of economic and political aspects of environment that influence business strategy; study of major international agreements (European Community, NAFTA, etc.). Prereq: Bus 380 or Econ 446.

Bus 490 Strategic Management (3 cr) (Bus 480). Capstone, integrative course; formulation and implementation of competitive strategies; both written and oral reports and case analysis. May involve evening exams. Prereq: Eng 205 or 313 or 317, and Bus 301, 311, 321, and sr standing.

Bus 499 (s) **Directed Study** (cr arr). Prereq: perm.

Bus 501 (s) **Seminar** (cr arr). Prereq: perm.

Bus 502 (s) **Directed Study** (cr arr). Prereq: perm.

Bus 503 Financial Policy (3 cr). Social and economic implications of the financial process. Prereq: Bus 301 and perm.

Bus 504 (s) **Special Topics** (cr arr). Prereq: perm.

Bus 505 (s) **Workshop** (cr arr). Prereq: perm.

Bus 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Bus 513 Human Behavior in Organizations (3 cr). Worker and supervisor behavior and attitudes, work group behavior, leadership and motivation, communication and decision making. Prereq: Bus 311 and perm.

Bus 521 Marketing Management (3 cr). Production development, pricing, demand creation, physical distribution, and channel selection. Prereq: Bus 321 and perm.

Bus 525 Industrial Management (3 cr). Techniques of and decision making in production management; quantitative approaches of resource allocation to problems of production. Prereq: perm.

Bus 532 Quantitative Techniques (3 cr). Applications of mathematical decision-making techniques to business problems; topics include decision theory, mathematical modeling, linear programming, simulation techniques. Prereq: Stat 251 and perm.

Bus 541 Labor Relations (3 cr). Structure and procedures of contemporary labor-management relations in presence and absence of unions. Prereq: Bus 311 and perm.

Bus 572 Operations Planning and Scheduling (3 cr). See Bus 472 for description.

Bus 580 Business Policy (3 cr). Integration of administrative/management concepts, techniques, and models for both line/staff (cases); organization goals, policies, strategies through case analysis. Prereq: perm.

Bus WS582 International Business (3 cr). WSU I Bus 582. Open only to participants in College of Business and Economics International Exchange Programs.

Bus 597 (s) **Practicum** (cr arr). Prereq: perm.

Bus 598 (s) **Internship** (cr arr). Prereq: perm.

Bus 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

FINANCE (B.S.Bus.)

Required course work includes the university requirements (see regulation J-3), the college requirements, and:

Course	Credits
Acctg 300 Accounting Concepts & Systems	3
Acctg 301 Financial Accounting & Reporting I	3
Bus 302 Intermediate Financial Management.....	3
Bus 401 Investments.....	3
Bus 407 Financial Institutions.....	3
Bus 409 Problems in Financial Management.....	3
Econ 343 Money & Banking (may be used to fulfill college core economics requirements)	3
One course selected from the following	3
Bus 404 Special Topics in Finance	
Bus 405 Portfolio Management	
Bus 408 Security Analysis	
One course selected from the following	3
Bus 421 Marketing Research & Analysis	
Econ 353 Quantitative Methods in Economics	
Econ 453 Econometrics	
Stat 401 Statistical Analysis	
Additional course chosen from the above lists or the following	3
Acctg 302 Financial Accounting & Reporting II	
Acctg 330 Accounting for Public Sector Organizations	
Acctg 385 Cost & Management Accounting	
Acctg 401 Financial Accounting & Reporting III	
Bus 327 Services/Nonprofit Marketing	
Econ 352 Intermediate Microeconomic Analysis	
Econ 409 Public Finance	
Econ 410 State & Local Government Finance	

HUMAN RESOURCES MANAGEMENT (B.S.Bus.)

Required course work includes the university requirements (see regulation J-3), the college requirements, and:

Course	Credits
Acctg 381 Accounting for Managers & Investors	3
Bus 412 Human Resource Management	3
Bus 413 Organizational Behavior	3
Bus 416 Staffing & Compensation	3
Bus 418 Organization Theory.....	3
Bus 441 Labor Relations	3
One course selected from the following	3
Bus 414 Entrepreneurship	
Bus 415 Small Business Management	
Bus 422 Sales Force Management	
Econ 441 Labor Economics (may be used to fulfill college core economics requirements)	
One course selected from the following	3
CommG 331 Conflict Management	
CommG 332 Communication & the Small Group	
CommG 335 Organizational Communication	
Psych 316 Industrial Psychology	
Psych 320 Introduction to Social Psychology	

INFORMATION SYSTEMS (B.S.Bus.)

Required course work includes the university requirements (see regulation J-3), the college requirements (IS majors must take CS 112 rather than 100), and:

Course	Credits
Acctg 300 Accounting Concepts & Systems or Acctg 381 Accounting for Managers & Investors	3
Bus 352 Computer Hardware & Software Concepts	3
Bus 353 Introduction to Data Base.....	3
Bus 355 Systems Analysis & Design	3
Bus 452 Business Telecommunications Management.....	3
Bus 453 Logical Data Base Design.....	3
CS 120 Programming in C	2
Two courses selected from the following	6
Acctg 385 Cost & Management Accounting	
Acctg 493 Principles of Auditing	
Bus 404 Special Topics in IS	
Bus 439 Systems & Simulation	
Bus 454 Current Issues in Information Systems	
Bus 455 Systems Design	
Bus 472 Operations Planning & Scheduling	
CS 334 Advanced COBOL Programming	
CS 471 Expert Systems	
LArch 385 GIS Primer	
ME 409 Human Factors in Engineering Design	

MARKETING (B.S.Bus.)

Required course work includes the university requirements (see regulation J-3), the college requirements, and:

Course	Credits
Bus 324 Consumer Behavior	3
Bus 420 Promotional Strategy	3
Bus 421 Marketing Research & Analysis	3
Bus 422 Sales Force Management	3
Bus 428 Strategic Marketing Management	3
Electives (at least one chosen from the following)	3
Bus 325 Retailing	
Bus 326 Marketing Channels Management	
Bus 327 Services/Nonprofit Marketing	
Bus 475 International Marketing	
Additional course chosen from the above list or the following.....	3
Bus 414 Entrepreneurship	
Bus 415 Small Business Management	
Bus 470 Purchasing & Materials Management	
Comm 352 Principles of Public Relations	
Comm 431 Professional Presentation Techniques	

PRODUCTION/OPERATIONS MANAGEMENT (B.S.Bus.)

Required course work includes the university requirements (see regulation J-3), the college requirements, and:

Course	Credits
Acctg 381 Accounting for Managers & Investors	3
Bus 413 Organizational Behavior	3
Bus 418 Organization Theory.....	3
Bus 441 Labor Relations	3
Bus 456 Quality Management.....	3
Bus 470 Purchasing & Materials Management	3
Bus 472 Operations Planning & Scheduling	3
Bus 478 Seminar in Operations Management	3
ME 253 Materials Processing.....	3

BUSINESS EDUCATION—see Division of Vocational Teacher and Adult Education

BUSINESS LAW—see Department of Accounting

Department of Chemical Engineering

Roger A. Korus, Dept. Chair (312 Buchanan Engr. Lab.; 208/885-6793). Faculty: Wudneh Admassu, Thomas E. Carleson, David C. Drown, Louis L. Edwards, Jr., Roger A. Korus, Jin Y. Park, Jay J. Scheldorf, George M. Simmons, Margrit von Braun.

Chemical engineering combines the science of chemistry with the discipline of engineering in order to solve problems and to increase process efficiency. One of the most attractive aspects of a chemical engineering future is the variety of work available. Chemical engineering is a blend of physics, chemistry, and mathematics; thus, a chemical engineer possesses a versatility that gives him or her many opportunities for employment in fields such as pulp and paper, environmental engineering, food products, nuclear power, petroleum, and petrochemicals, semiconductors, synthetic fuels, radioisotope applications, plastics and polymers, pharmaceuticals, education, biomedical engineering, computer applications, alternate energy sources, steel, and textiles. A chemical engineer can choose work in any of the following areas: research and development, design and construction, operations, management, teaching, or technical sales.

With the ever-increasing need for alternative energy sources and consumer products, coupled with environmental awareness and a decreasing supply of raw materials, the demand for chemical engineers will remain high.

The faculty of the Department of Chemical Engineering is dedicated to excellence in teaching. It is the faculty's goal to provide the students with a strong, well-rounded background for immediate entry into the industrial workforce or for graduate study. This background includes the theoretical aspects of chemical engineering as well as practical work experiences. Thus, most of the equipment that is installed in the Chemical Engineering laboratory is on the scale of pilot plant equipment. Because much of the equipment is made of

glass, students are able to see at a glance what processes occur and where the streams are flowing. The department has a two-story distillation column, a gas absorber, two types of evaporators, a two-stage chemical reactor, and a spray dryer. All of this equipment is used by undergraduate students. Proof that the departmental goals are being achieved is in the job-placement statistics for chemical engineers from UI. Most receive numerous job offers and many graduates now hold high-level technical and management positions in industry, government, and academia.

The department has available a number of fellowships and assistantships for students. Support includes fellowships from the Potlatch Foundation, Weyerhaeuser Company, James River, and Lamb Weston; UI graduate assistantships; and research assistantships.

The graduate program in chemical engineering also includes provisions for study leading to a master's degree in chemical engineering for students who have a B.S. degree in a related field. This program requires that the student enroll for at least one trial semester as an undergraduate student in chemical engineering.

Chemical Engineering Courses

ChE 123 Computations in Chemical Engineering (2 cr). Methods of analyzing and solving problems in chemical engineering using personal computers; spreadsheet applications, data handling, data fitting, and equation solving.

ChE 204 (s) Special Topics (cr arr). Prereq: perm.

ChE 223 Material and Energy Balances (3 cr). Conservation of mass and energy calculations in chemical process systems. Prereq: Chem 114, Math 190.

ChE 299 (s) Directed Study (cr arr). Prereq: perm.

ChE ID&WS321 Engineering Thermodynamics and Heat Transfer (3 cr) (ES321). WSU M E 301. First and second laws of thermodynamics; thermodynamic processes; thermodynamic properties; flow processes; conversion of heat into work; conduction, convection, radiation, and heat exchangers. Prereq: CE 210; coreq: Math 310.

ChE 330 Stagewise Operations (3 cr). Stagewise operations, including distillation, extraction, ion exchange, absorption. Prereq: ChE 223, 321; coreq: Chem 305.

ChE 393 Chemical Engineering Projects (1-3 cr, max 9). Problems of a research or exploratory nature. Prereq: perm of dept.

ChE 404 (s) Special Topics (cr arr). Prereq: perm.

ChE 410 Fundamentals of Polymer Science and Processing (3 cr). Structure and formation of polymers, polymerization and fabrication process and properties. Prereq: perm.

ChE 415 Integrated Circuit Fabrication (3 cr). Growth of semiconductor crystals, micro lithography, and processing methods for integrated circuit fabrication. Prereq: ChE 223.

ChE 423 Reactor Kinetics and Design (3 cr). Chemical reaction equilibria, rates, and kinetics; design of chemical and catalytic reactors. Prereq: ChE 223, Math 310, Chem 305.

ChE 430-431-432 Transport and Rate Processes I-II-III (3 cr; 2 cr; 3 cr). Transport phenomena involving momentum, energy, and mass with applications to process equipment design. Coordinated lec-lab periods. ChE 430-431-432 are to be taken in sequence. Prereq for 430: ChE 223 and 321, CE 320, Math 310.

ChE 433 Chemical Engineering Lab I (1 cr). Lab experiments in chemical engineering. Prereq or coreq: ChE 431.

ChE 434 Chemical Engineering Lab II (1 cr). Lab experiments in chemical engineering.

ChE 435 Energy Conversion Systems (3 cr). Energy sources and their conversion to useful power; includes conversion systems and association economics; nuclear fission, fusion, and radiation; geothermal; thermionic and fossil fuels.

ChE 444 Process Analysis and Control (3 cr). Process modeling, dynamics, and analysis. Prereq: ChE 223, Math 310.

ChE 445 Digital Process Control (3 cr). Same as EE 477. Dynamic simulation of industrial processes and design of digital control systems. Two lec and one 3-hr lab a wk. Prereq: ChE 444 (prereq for EE majors: EE 453).

ChE 453-454 Chemical Process Analysis and Design (3 cr). Estimation of equipment and total plant costs, annual costs, profitability decisions, optimization; design of equipment, alternate process systems and economics, case studies of selected processes. ChE 453 and 454 are to be taken in sequence. Prereq for ChE 453: ChE 330, 430; coreq for 453: ChE 431. Prereq for ChE 454: ChE 453; coreq for 454: ChE 423, 432.

ChE 460 Biochemical Engineering (3 cr). Application of chemical engineering to biological systems including fermentation processes, biochemical reactor design, and biological separation processes.

ChE J470/J570 Hazardous Waste Management (3 cr). Credit not granted for both ChE J470/J570 and ES R470. Principles and practices of management of hazardous and solid wastes with emphasis on CERCLA (Superfund) process for cleanup of uncontrolled hazardous waste sites and RCRA process as it applies to industrial waste treatment, storage, and disposal (TSD) facilities. Additional projects/assignments reqd for grad cr. Prereq: Stat 301, sr or grad standing in science or engineering, and perm.

ChE ID&WS-J475/ID&WS-J575 Air Pollution Control (2-3 cr). WSU C E 508. Analysis and design of physical and chemical methods of air pollution control; particulate and gas emission control methods, standards for sources. Additional projects/assignments reqd for grad cr. Prereq: CE 320 or perm.

ChE J480/J580 Engineering Risk Assessment for Hazardous Waste Evaluations (3 cr). Quantitative and qualitative approaches to assessing risks to public health and environment from chemical contaminants; toxicology, exposure assessment, risk characterization, and environmental modeling; critical reviews of specific toxins and actual waste site studies. Additional projects/assignments reqd for grad cr. Prereq: senior or grad standing in science or engineering; Biol 201 or 100 and Stat 301 or perm; ChE J470/J570 recommended.

ChE 491 Seminar (1 cr). Recent developments and topics. Graded P/F. Prereq: sr standing.

ChE 499 (s) Directed Study (cr arr). Prereq: perm.

ChE 500 Master's Research and Thesis (cr arr).

ChE 501 (s) Seminar (cr arr). Prereq: perm.

ChE 502 (s) Directed Study (cr arr). Prereq: perm.

ChE 504 (s) Special Topics (cr arr). Prereq: perm.

ChE ID&WS515 Transport Phenomena (3 cr). Same as ME 515. WSU Ch E 510. Advanced treatment of momentum, energy, and mass transport processes; solution techniques. Prereq: perm.

ChE WS523 Basic Concepts in Catalysis (2 cr). WSU Ch E 523.

ChE WS524 Polymer Reactor Engineering (3 cr). WSU Ch E 525.

ChE 525 Advanced Heat Transfer (3 cr). Same as ME R525. Application of fundamentals of heat conduction, radiation, and convection; relationships to fluid dynamics and mass transfer; economics and design application. Prereq: perm.

ChE ID&WS527 Advanced Chemical Engineering Thermodynamics (3 cr). WSU Ch E 527. Equilibria in physical and chemical systems; generalized prediction of thermodynamic properties, includes nonideal systems. Prereq: perm.

ChE R528 Advanced Thermodynamics (3 cr). See ME 528.

ChE ID&WS529 Chemical Engineering Kinetics (3 cr). WSU Ch E 529. Interpretation of kinetic data and design of reactors for heterogeneous chemical reaction systems; heterogeneous catalysis, gas-solid reactions, gas-liquid reactions; packed bed reactors, fluidized bed reactors. Prereq: perm.

ChE 537 Advanced Fluid Mechanics (2-3 cr). Same as ME 537. Fluid systems used in industry; non-Newtonian behavior of particle and plastic systems; two-phase situations, including fluidization and film flow. Prereq: perm.

ChE 541 Chemical Engineering Analysis I (3 cr). Same as ME 541. Mathematical analysis of chemical engineering operations and processes; mathematical modeling and computer applications. Prereq: perm.

ChE ID&WS542 Chemical Engineering Analysis II (3 cr). WSU Ch E 542. Numerical and analytical methods in the solution of chemical engineering problems; partial differential equations, application of approximate variational methods and integral transforms. Prereq: perm.

ChE 544 Advanced Process Control (3 cr). Theory of process dynamics and systems engineering. Two lec and one 3-hr lab a wk. Prereq: perm.

ChE ID&WS545-ID&WS546 Mass Transfer Operations I-II (3 cr). WSU Ch E 546. Diffusional and equilibrium operations. Prereq: perm.

ChE WS551 Discrete Digital Control (3 cr). WSU Ch E 551.

ChE ID&WS560 Biochemical Engineering (3 cr). WSU Ch E 560. Application of chemical engineering to biological systems including fermentation processes and biochemical reactor design, transport phenomena in biological systems and biochemical technology.

ChE 570 Hazardous Waste Management (3 cr). See ChE J470/J570.

ChE ID571 Advanced Plant Design (3 cr). WSU Ch E 571. Design of process plants for optimum costs and economic return; scale-up of pilot plants. Prereq: perm.

ChE ID&WS575 Air Pollution Control (2-3 cr). See ChE J475/J575.

ChE 578 Treatment of Hazardous Chemical Waste (3 cr). Design of alternative processes and operations for treatment of hazardous chemicals. Prereq: Math 310 and ChE 432 or CE 331.

ChE 579 Hazardous Waste Site Remediation Design (3 cr). Same as Hydro 579. Characterization of hazardous waste sites; identification of physical, chemical, and biological corrective action programs and site restoration; includes design problems and case studies to illustrate corrective action and site restoration in compliance with regulations. Prereq: Geol 409.

ChE 580 Engineering Risk Assessment for Hazardous Waste Evaluations (3 cr). See ChE J480/J580.

ChE 581 **Hazardous Waste Management Seminar** (1 cr) (ES 506). Environmental engineering and science topics related to hazardous waste characterization, cleanup, and regulations; includes case histories, paper, and oral presentation. Prereq: perm.

ChE 600 **Doctoral Research and Dissertation** (cr arr).

Currucular Requirements

CHEMICAL ENGINEERING (B.S.Ch.E.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
ChE 123 Computations in Chemical Engineering	2
ChE 223 Material & Energy Balances	3
ChE 321 Engineering Thermodynamics & Heat Transfer	3
ChE 330 Stagewise Operations	3
ChE 423 Reactor Kinetics & Design	3
ChE 430-431-432 Transport & Rate Processes I-II-III	8
ChE 433, 434 Chemical Engineering Lab I, II	2
ChE 444 Process Analysis & Control	3
ChE 445 Digital Process Control	3
ChE 453-454 Chemical Process Analysis & Design	6
ChE 491 Seminar	1
Chem 111 Principles of Chemistry	4
Chem 114 General Chemistry	4
Chem 277, 278 Organic Chemistry I & Lab	4
Chem 305, 307 Physical Chemistry & Lab	4
Chem 372, 374 Organic Chemistry II & Lab	4
CE 210 Engineering Statics	3
CE 320 Engineering Fluid Mechanics	3
CS 105 FORTRAN Programming for Engineers	2
Econ 201 Principles of Economics	3
EE 207 Introduction to Electrical Engineering	3
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 310 Ordinary Differential Equations	3
Phys 210, 211 Engineering Physics I-II	6
Chemical engineering electives	3
Chemical/bioscience electives	4
Engineering electives	3
Humanities and social sciences electives incl at least (1) one upper-div course or (2) a course that has another humanities/social sc course as a prereq	13
Communication electives	2
Mathematics electives	3
Technical electives	3
Undesignated electives	3

The minimum number of credits for the degree is 128, not counting Eng 103, Math 140, and other courses that might be required to remove deficiencies.

A grade of C or better is required in each of the following courses before registration is permitted in upper-division engineering courses: Chem 111 and 114, ChE 223 and 321, CE 210, and Math 200 and 310.

Department of Chemistry

Peter R. Griffiths, Dept. Chair (116 Malcolm M. Renfrew Hall; 208/885-6552). Faculty: **Thomas E. Bitterwolf, Leszek Czuchajowski, W. Daniel Edwards, Sherry O. Farwell, T. Rick Fletcher, Steven D. Gammon, Peter R. Griffiths, Sharon J. Hutchison, Henrik D. Juve, Robert L. Kirchmeier, Jeanne L. McHale, Nicholas R. Natale, Pamela J. Shapiro, Jeanne M. Shreeve, Ray von Wandruszka, Chien M. Wai, Richard V. Williams.**

Chemistry is the central science—the foundation on which a variety of applied and nonapplied disciplines build. Chemistry deals with the composition, structure, and properties of substances and the changes they undergo. It is the study of the materials of which the entire universe is composed. Chemistry graduates will find an impressive array of options and exciting opportunities in fields such as basic research, environmental protection, instrumentation, new product and process development, technical marketing, market research, forensic chemistry, teaching at all levels, and information science. Moreover, an education in chemistry is valuable in health sciences such as medicine, pharmacology, clinical chemistry, and industrial hygiene. It can be useful as well in nontechnical areas such as advertising, journalism, patent law, banking, and investment counseling. The options are bounded only by the limits of one's imagination.

There are four distinct undergraduate curricula designed to meet a wide range of professional needs. The general chemistry curriculum leading to the B.S. degree provides a suitable foundation in chemistry for aspiring secondary-school teachers or for medicine. Even so, this is a subminimal curriculum for students who wish to become

professional chemists. The professional curriculum (B.S.) is strongly recommended for students who are interested in practicing chemistry as a career, including graduate study for an advanced degree in chemistry or a related field. The degree is certifiable to the American Chemical Society. For those interested in information science, the technical literature curriculum (B.S.) provides adequate preparation. The combination of chemistry with marketing or business can be accomplished via the B.Tech. degree, which gives an excellent foundation for a successful career in sales or business.

Students majoring in chemistry at UI have the very good fortune to interact with an award-winning, distinguished teaching faculty. They have a unique opportunity to participate in undergraduate research in a nurturing environment where they work side by side with graduate students, postdoctoral fellows, and faculty members. Very often the research carried out by undergraduates results in publications in leading chemical journals. As a result of the strong research programs in the department, undergraduates have the opportunity in their courses to have hands-on experience with, or to acquire data from, modern sophisticated instrumentation such as FT nuclear magnetic resonance, gas chromatographs interfaced with mass spectrometers, and laser Raman, infrared and ultraviolet spectrometers, in addition to the more classical techniques. Considerable use of computers is made in laboratory courses and as an aid to instruction. Because our B.S. students receive first-class training, they are in demand by prospective employers and graduate schools.

The Department of Chemistry offers graduate study leading to the degrees of Master of Science (thesis and nonthesis options), Master of Arts in Teaching, and Doctor of Philosophy. Concentrations within the major in chemistry are permitted in analytical, inorganic, organic, and physical chemistry. Students who intend to work for a graduate degree in chemistry should prepare by completing the professional B.S. degree. Courses in mathematics, physics, German or Russian, computer science, and chemistry in addition to those required for that degree are strongly recommended. All students entering any of the graduate programs in chemistry are required to demonstrate proficiency in chemistry by taking a series of examinations in analytical, inorganic, organic, and physical chemistry that have questions at the advanced undergraduate level. Undergraduates are encouraged to discuss graduate school and career opportunities with the chair of the department or with chemistry faculty members early in their residency at UI.

Chemistry Courses

RELATED FIELD: See biochemistry.

ADVANCED PLACEMENT: Courses in this subject field that are vertical in content are: 111-112-253, 111-114; 103-275.

Chem 050 Chemistry Fundamentals (0 cr). Chemical problem solving, SI unit conversion, mole concept, chemical stoichiometry, solution concentration problems, periodic table, chemical formulas and nomenclature, and equation balancing. Graded P/N/F. A special fee is charged for this course.

Chem 101 Chemistry and the Citizen (4 cr). Satisfies core requirement J-3-b. Not acceptable as a substitute where Chem 103, 111, or equiv is specified. Cr may be earned in only one of the following: Chem 101, 103, 111. Nonmathematical descriptive treatment relating key developments of chemistry to modern living. Three lec, dem, and one 2-hr lab a wk.

Chem 103 Introduction to Chemistry (4 cr). Satisfies core requirement J-3-b. Cr may be earned in only one of the following: Chem 101, 103, 111. General treatment of the fundamentals of chemistry. Three lec, one recitation, and one 3-hr lab a wk. Does not satisfy the prereq for Chem 112 or 114. No prerequisite.

Chem 111 Principles of Chemistry (4 cr). Satisfies core requirement J-3-b. Cr may be earned in only one of the following: Chem 101, 103, 111. Intensive treatment of principles and applications of chemistry. Three lec, one recitation, and one 3-hr lab a wk. Prereq: Chem 050 or adequate score on the chemistry fundamentals exam or satisfy departmental requirement.

Chem 112 Inorganic Chemistry and Qualitative Analysis (5 cr). Satisfies core requirement J-3-b. Elem theoretical chemistry and applications to analytical practice; lab work in the qualitative separation of cations and anions by semimicro methods. Max six cr in Chem 112 and 114 combined. Three lec and two 3-hr labs a wk. Prereq: Chem 111 or perm.

Chem 114 General Chemistry (4 cr). Satisfies core requirement J-3-b. Continuation of Chem 111 for students who do not plan to take further professional chemistry courses. Some work in inorganic, organic, and biochemistry, electrochemistry, nuclear chemistry, and in qualitative inorganic analysis. Max six cr in Chem 112 and 114 combined. Three lec, one recitation, and one 3-hr lab a wk. Prereq: Chem 111 or perm.

Chem 121 **Glassblowing** (1 cr). Techniques used in constructing scientific apparatus and artistic objects from glass. Graded P/F. One 3-hr lab a wk.

Chem 200 (s) **Seminar** (cr arr). Prereq: perm.

Chem 204 (s) **Special Topics** (cr arr). Prereq: perm.

Chem 253 **Quantitative Analysis** (5 cr). Fundamental principles and techniques of chemical analysis; intro to sampling, standardization, data evaluation, gravimetric/volumetric methods, and instrumental techniques. Three lec and two 3-hr labs a wk. Prereq: Chem 112 or 114.

Chem 275 **Carbon Compounds** (3 cr). Aspects of organic chemistry important to students in the life sciences. Duplicate or will not be allowed in first-year courses in organic chemistry. Prereq: Chem 103, 111 or perm.

Chem 276 **Carbon Compounds Lab** (1 cr). Lab to accompany Chem 275; for students who need only 1 cr of lab. One 3-hr lab a wk. Prereq or coreq: Chem 275 or 277.

Chem 277 **Organic Chemistry I** (3 cr). Principles and theories of organic chemistry; properties, preparation, and reactions of organic compounds. Duplicate or will not be allowed in first-year courses in organic chemistry. Prereq: Chem 112 or 114.

Chem 278 **Organic Chemistry I: Lab** (1 cr). One 3-hr lab a wk. Prereq or coreq: Chem 277.

Chem 299 (s) **Directed Study** (cr arr). Prereq: perm.

Chem 302 **Principles of Physical Chemistry** (3 cr). Emphasis on topics important to biological and agricultural science. Prereq: Chem 112 or 114, Math 180, Phys 113, or perm.

Chem 303 **Principles of Physical Chemistry Lab** (1 cr). Lab to accompany Chem 302. One 3-hr lab a wk. Prereq or coreq: Chem 302.

Chem 305-306 **Physical Chemistry** (3 cr). Kinetic theory, thermodynamics, quantum mechanics, and spectroscopy. Prereq: Chem 112 or 114, Math 200; prereq or coreq: Phys 211 or 222.

Chem 307-308 **Physical Chemistry Lab** (1 cr). Lab to accompany Chem 305-306. One 3-hr lab a wk. Prereq or coreq: Chem 305-306.

Chem J318/J418 **Environmental Chemistry** (3 cr). Chemistry of atmosphere, soil, and water; pollution monitoring and remediation; treatment of waste in the environment. Registration for Chem 418 requires additional project. Prereq: Chem 253 and 275 or 277 or perm.

Chem 372 **Organic Chemistry II** (3 cr). Continuation of Chem 277. Prereq: Chem 277.

Chem 374 **Organic Chemistry Lab for Engineers** (1 cr). For students in engineering. Lab to accompany Chem 372; includes synthesis, structure determination, and mechanisms. One 3-hr lab a wk. Prereq: Chem 278; prereq or coreq: Chem 372.

Chem 376 **Organic Chemistry II: Lab** (2 cr). Lab to accompany Chem 372, includes qualitative analysis and modern instrumental techniques. Two 3-hr labs a wk. Prereq: Chem 278; prereq or coreq: Chem 372.

Chem 400 (s) **Seminar** (cr arr). Prereq: perm.

Chem 404 (s) **Special Topics** (cr arr). Prereq: perm.

Chem 409 **Proseminar** (1 cr). Current publications in chemistry and chemical engineering with reports on typical scientific papers. Prereq: Chem 372 and sr standing.

Chem R413 **Radiochemistry for Engineers** (2 cr). Primarily for engineers. Properties of nuclear particles, nuclear reactions, techniques of producing reactions, interaction of radiation with matter, and radiochemistry techniques. Prereq: perm.

Chem 416 **Methods in Radiochemistry** (3 cr). Basic theory and practice in use of radionuclides; practical lab experience. Two lec and one 3-hr lab a wk. Enrollment is limited by facilities. Prereq: Chem 306 or perm.

Chem 418 **Environmental Chemistry** (3 cr). See Chem J318/J418.

Chem J435/J535 **Principles of Chemical Instrumentation** (4 cr). Practical theory and application of modern analog/digital electronics and small computers to chemical measurement and control systems. Registration for Chem 535 requires completion of an additional term paper or other assignment. Three hrs of lec and one 3-hr lab a wk. Prereq: Chem 253 or 454, Phys 211, or perm.

Chem 441 **Chemical Literature** (1 cr). Survey of important chemistry reference works and periodicals; use of these sources. Prereq: perm.

Chem 454 **Instrumental Analysis** (4 cr). For students in chemistry and allied fields. Techniques in operating new and specialized instruments for qualitative and quantitative analysis and analytical methods of an advanced nature. Three lec and one 4-hr lab a wk. Prereq: Chem 253, 305; prereq or coreq: Chem 306.

Chem 455 **Survey of Analytical Chemistry** (3 cr). Fundamentals of modern analytical chemistry. Open only to chemistry M.S. and Ph.D. students. Cr is not allowed in both Chem 454 and 455. Prereq: Chem 306 and perm.

Chem J456/J556 **Molecular Spectroscopy** (3 cr). Interpretation of IR, UV, NMR, and mass spectra. Registration for Chem 556 requires completion of additional assignments. Prereq: perm.

Chem 463-J464/J564 **Inorganic Chemistry** (3 cr). Principles, complex ions and coordination compounds, theory of acids and bases, bonding theory, non-aqueous solvents, familiar elements and their relationship to the periodic table. Additional projects/assignments reqd for grad cr. Prereq: Chem 305 and 463 or equiv; prereq or coreq: Chem 306, 466, or perm.

Chem 465 **Inorganic Chemistry Lab** (1 cr). Lab to accompany Chem 463. One 3-hr lab a wk. Coreq: Chem 463.

Chem 466 **Survey of Inorganic Chemistry** (3 cr). Fundamentals of modern inorganic chemistry. Open only to chemistry M.S. and Ph.D. students. Cr is not allowed in both Chem 463 and 466. Prereq: Chem 306 and perm.

Chem 473 **Intermediate Organic Chemistry** (3 cr). Theories and mechanisms of organic chemistry. Prereq: Chem 372; prereq or coreq: Chem 306.

Chem 475 **Organic Synthesis** (3 cr). Strategy of organic synthesis applied to the lab synthesis of reactive organic intermediates. One lec and six hrs of lab a wk. Prereq: Chem 376 or perm.

Chem 476 **Survey of Organic Chemistry** (3 cr). Fundamentals of modern organic chemistry. Open only to chemistry M.S. and Ph.D. students. Cr is not allowed in both Chem 473 and 476. Prereq: Chem 306 and perm.

Chem J481-J482/J541-J542 **Biochemistry** (3 cr). See Biochem J481-J482/J541-J542.

Chem 483-484 **Biochemistry Lab** (2 cr). See Biochem 483-484.

Chem 486 **Plant Biochemistry** (3 cr). See Biochem 486.

Chem 491 (s) **Research** (1-6 cr, max 6). Submission of a report of the research done for placement in the permanent dept files is required. Prereq: perm of dept.

Chem 495 **Thermodynamics and Kinetics** (3 cr). Prereq: Chem 306 or equiv.

Chem 496 **Survey of Physical Chemistry** (3 cr). Fundamentals of modern physical chemistry. Open only to chemistry M.S. and Ph.D. students. Cr is not allowed in both Chem 495 and 496. Prereq: Chem 306 and perm.

Chem 498 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Chem 499 (s) **Directed Study** (cr arr). Prereq: perm.

Chem 500 **Master's Research and Thesis** (cr arr).

Chem 501 (s) **Seminar** (cr arr). Prereq: perm.

Chem 502 (s) **Directed Study** (cr arr). Prereq: perm.

Chem WS503 **Advanced Topics in Inorganic Chemistry** (1-3 cr, max arr). WSU Chem 503. Prereq: perm.

Chem 504 (s) **Workshop** (cr arr). Prereq: perm.

Chem 506 **Introduction to Teaching and Research Skills** (2 cr). Skills required of teaching assistants in laboratory, recitations, office hours, help sessions; skills required for research; use of library; introduction to faculty research. Graded P/F. Prereq: perm.

Chem 507 (s) **Topics in Physical Chemistry** (1-9 cr, max 9). Selected topics in modern physical chemistry such as computational quantum mechanics, statistical mechanics, nonequilibrium thermodynamics, group theory, molecular dynamics, theory of condensed phases, or other topics not covered in regularly scheduled courses. Prereq: Chem 495, 496, or perm.

Chem 509-510 **Advanced Physical Chemistry** (3 cr). Application of quantum theory to chemical bonding, molecular spectroscopy, and molecular structure. Prereq: Chem 306, 495, 496, or perm.

Chem 513 **Nuclear Chemistry** (3 cr). Intro to artificial and natural radioactivity, tracer methods, and atomic energy. Prereq: Chem 306 or Phys 360 or perm.

Chem R516 **Methods in Radiochemistry** (3 cr). Radiochemistry techniques and application of tracers to chemistry; fundamentals of radioactive decay; statistical relationships; interaction of radiation with matter; production of radioactive samples; chemistry of radioactive elements. Prereq: Chem 454, 455, or perm.

Chem WS525 **Selected Topics in Analytical Chemistry** (1-3 cr, max arr). WSU Chem 529. Prereq: perm.

Chem 535 **Principles of Chemical Instrumentation** (4 cr). See Chem J435/J535.

Chem WS537 **Advanced Topics in Physical Chemistry** (1-3 cr, max arr). WSU Chem 537. Prereq: perm.

Chem 541-542 **Biochemistry** (3 cr). See Biochem J481-J482/J541-J542.

Chem WS544 **Advanced Topics in Organic Chemistry** (1-3 cr, max arr). WSU Chem 544. Prereq: perm.

Chem 553 **Separation Theory and Gas Chromatography** (3 cr). Separation theory; modern gas chromatography, identification and quantification; analytical mass spectrometry. Prereq: Chem 306, 454, 455, or perm.

Chem 554 Liquid Chromatography (3 cr). Modern liquid chromatography; ion chromatography; supercritical-fluid chromatography. Prereq: Chem 553 or perm.

Chem 555 Advanced Analytical Chemistry (3 cr). Fundamental principles of analysis; sampling; measurement validation; statistical evaluation; optimization techniques; pattern recognition; information theory. Prereq: Chem 306, 454, 455, or perm.

Chem 556 Molecular Spectroscopy (3 cr). See Chem J456/J556.

Chem 557 (s) Topics in Analytical Chemistry (1-9 cr, max 9). Atomic and molecular analytical spectroscopy; modern electrochemical methods; surface analysis tech. Prereq: Chem 454, 455, or perm.

Chem 561 Advanced Inorganic Chemistry (3 cr). Theoretical approach to the underlying principles of inorganic chemistry; integration of theory and descriptive chemistry. Prereq: Chem 306, 463, 466, or perm.

Chem 564 Inorganic Chemistry (3 cr). See Chem 463-J464/J564.

Chem 565 Topics in Inorganic Chemistry (1-9 cr, max 9). Coordination compounds; halogens; less familiar elements; clathrate, interstitial, nonstoichiometric compounds; chemical bonding; inorganic reaction mechanisms. Prereq: Chem 463, 466, or perm.

Chem 571 (s) Topics in Organic Chemistry (1-9 cr, max 9). Selected topics from the current literature. Prereq: Chem 473, 476, or perm.

Chem 573 Synthetic Organic Chemistry (3 cr). Use of organic reactions in synthesis. Prereq: Chem 473, 476, or perm.

Chem 575 Mechanisms of Organic Reactions (3 cr). Nucleophilic substitution; reactions of carboxylic acids and esters; carbanions; electrophilic and nucleophilic aromatic substitutions; elimination and addition reactors. Prereq: Chem 473, 476, or perm.

Chem 579 Physical Organic Chemistry (3 cr). Physical chemistry methods applied to organic chemistry. Prereq: Chem 473, 476, or perm.

Chem 581 Carbohydrates (3 cr). See Biochem 581.

Chem 582 Proteins and Enzymes (3 cr). See Biochem 582.

Chem 583 Lipids and Membranes (3 cr). See Biochem 583.

Chem 584 Nucleic Acids (3 cr). See Biochem 584.

Chem 589 Advanced Topics in Biochemistry (1-9 cr, max 9). See Biochem 589.

Chem 600 Doctoral Research and Dissertation (cr arr).

Curricular Requirements

CHEMISTRY: GENERAL (B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.S. degree, and:

Course	Credits
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 277, 372 Organic Chemistry I, II	6
Chem 278, 376 Organic Chemistry Lab I, II	3
Chem 305-306 Physical Chemistry	6
Chem 307-308, Physical Chemistry Lab	2
Chem 409 Proseminar	1
CS 112 Introduction to Problem Solving & Programming	3
Math 180, 190, 200 Analytic Geometry & Calculus	11
Phys 210, 211, 222 Engineering Physics I, II, III	9
Phys 212, 213 Engineering Physics Lab	2
Phys 225 Introductory Physics Lab	1

This is a subminimal curriculum for students wishing to enter the profession of chemistry, but it will provide a suitable foundation in chemistry for students who intend to enter secondary-school teaching or medicine.

CHEMISTRY: PROFESSIONAL (B.S.)

Note: Students who complete this curriculum will be certifiable to the American Chemical Society.

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.S. degree, the courses listed in the "Chemistry General" curriculum (above), and:

Course	Credits
Chem 454 Instrumental Analysis	4
Chem 463-464, 465 Inorganic Chemistry & Lab	7
FL/GN 121-122 Elementary German	8

And two additional chemistry courses having Chem 306 as a prerequisite, or an alternate upper-division course in math or physics in combination with one chemistry course having Chem 306 as a prerequisite.

CHEMISTRY: TECHNICAL LITERATURE (B.S.)

Required course work includes the university requirements (see regulation J-3), general requirements for the B.S. degree, and:

Course	Credits
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 277, 372 Organic Chemistry I, II	6
Chem 278, 376 Organic Chemistry Lab	3
Chem 305-306 Physical Chemistry	6
Chem 307-308 Physical Chemistry Lab	2
Chem 409 Proseminar	1
Chem 441 Chemical Literature	1
Chem 463 Inorganic Chemistry	3
CS 112 Introduction to Problem Solving & Programming	3
Eng 317 Technical & Engineering Report Writing	3
FL/FR 101-102 Elementary French	8
FL/GN 121-122 Elementary German	8
FL/GN 221-222 Intermediate German	8
Math 180, 190, 200 Analytic Geometry & Calculus	11
Phys 210, 211, 222, 212, 213, 225 Engineering Physics & Lab	9
or 113-114-115-116 General Physics & Lab	8-12

CHEMISTRY: TECHNOLOGICAL (B.Tech.)

Note: Students who complete this curriculum will be certifiable to the American Chemical Society.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 277, 278 Organic Chemistry I & Lab	4
Chem 305-306 Physical Chemistry	6
Chem 307-308 Physical Chemistry Lab	2
Chem 372, 376 Organic Chemistry II & Lab	5
Chem 409 Proseminar	1
Chem 454 Instrumental Analysis	4
Chem 463-464, 465 Inorganic Chemistry & Lab	7
Acctg 201 Introduction to Financial Accounting	3
BLaw 265 Legal Environment of Business	3
Bus 321 Marketing	3
CommG 131 Fundamentals of Public Speaking	2
CS 112 Introduction to Problem Solving & Programming	3
Econ 100 Contemporary Economics and 272 Foundations of Economic Analysis or 201, 202 Principles of Economics	6-7
Eng 317 Technical & Engineering Report Writing	3
Math 330 Linear Algebra	3
Phys 210, 211, 222 Engineering Physics I, II, III	9
Phys 212, 213 Engineering Physics Lab	2
Phys 225 Introductory Physics Lab	1
Stat 251 Principles of Statistics	3
Two courses in chem that require Chem 306 as a prereq, or one chem course requiring Chem 306 as a prereq and one upper-div course in math or physics	6

It is strongly recommended that students take at least one year of German or Russian and ChE 223 (Material and Energy Balances).

Academic Minor Requirements

CHEMISTRY MINOR

This program is designed to give a non-chemistry major a sufficient background in general chemistry and laboratory techniques to improve his or her employment prospects as a laboratory technician and to improve the technical background of the student interested in science education or communication.

Course	Credits
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 277, 278 Organic Chemistry I & Lab	4
Chem 302, 303 Principles of Physical Chemistry & Lab	4
Chem 372 Organic Chemistry II	3

CHINESE—see Department of Foreign Languages and Literatures

Department of Civil Engineering

Frederick J. Watts, Dept. Chair (104 Buchanan Engr. Lab.; 208/885-6782). Faculty: Fouad M. Bayomy, Charles E. Brockway, John I. Finnie, Donald F. Haber, James H. Hardcastle, Dennis R. Horn, Terry R. Howard, Michael D. Kyte, Chyr Pyng Liou, James H. Milligan, Richard J. Nielsen, Edwin R. Schmeckpeper, Sunil Sharma, Alfred T. Wallace, Frederick J. Watts, Gerald A. Willett, Jr.

Civil engineers are involved in all aspects of engineering projects from planning and design to the construction and, in some cases, the supervision of operation of facilities. Students who enter civil engineering can anticipate a challenging and rewarding career.

In coming decades, population expansion will create unprecedented demands on natural resources. The concept of environmentally sensitive sustainable development is emerging as the tenet for future growth. Civil engineers will have to apply evolving technologies and develop innovation solutions to ensure wise stewardship of our limited natural resources.

Infrastructure—facilities such as highways, bridges, airports, irrigation systems, water supply, distribution systems, and wastewater treatment systems—must be expanded and renewed if our economy is to flourish. This work will provide jobs for tomorrow's civil engineers.

Many civil engineers specialize eventually in one area, such as structural engineering, sanitary and environmental engineering, soil mechanics and geotechnical engineering, highway and airport engineering, hydraulics and water resources engineering, hazardous waste management, and city and land-use planning. Graduates obtain positions in consulting firms, industrial companies, construction firms, or governmental agencies. With proper training, interest, and experience many civil engineers move into management and executive positions.

At UI, the lower-division courses consist of a common core of basic courses in science, mathematics, and engineering required of most College of Engineering students. A required "core" of course work in the junior and senior years provides the student with a broad civil engineering education; fifteen credits of technical electives permit some specialization at the undergraduate level.

The Department of Civil Engineering occupies the first floor of the Buchanan Engineering Laboratory Building with some additional office and laboratory space in the basement and on the second floor of the building. Maintenance and replacement of existing equipment is provided by funds from research projects, from alumni donations, and from state educational funds. Instructional and research equipment include modern computing and data acquisition equipment.

The civil engineering faculty is a strong professional group with a wide variety of academic backgrounds and engineering practice experience. The faculty composition is such that a balance between the theoretical and practical aspects of civil engineering is preserved in the program.

Goals of the Department of Civil Engineering focus on maintaining a quality undergraduate program and a quality master's degree program in most specialty areas of civil engineering with associated research programs to support graduate education. Graduate programs at the Ph.D. level are limited to those areas of specialization where combined resources of this department and other departments at both UI and Washington State University provide a program of adequate depth. Research efforts of greatest interest are those that will provide financial support for the graduate students and that provide solutions to real problems of concern to the people of Idaho and the nation. Other departmental goals focus on providing professional service to state and local agencies and organizations and to individuals by providing continuing education opportunities and by assisting in very special engineering problems.

The department offers three graduate degree programs: (1) Master of Science (30 credits, with thesis), (2) Master of Engineering (33 credits, nonthesis), and (3) Doctor of Philosophy (in limited specialty areas). Course work requirements in each of the degree programs is relatively flexible depending on student interest and course availability. Financial assistance is available on a competitive basis in the form of instructional and graduate research assistantships.

Students interested in graduate studies should specify the specialty area in which they wish to study.

Foreign students must have a TOEFL score of at least 550 for admission to any departmental degree programs.

Civil Engineering Courses

CE 200 (s) **Seminar** (cr arr). Prereq: perm.

CE 203 (s) **Workshop** (cr arr). Prereq: perm.

CE 204 (s) **Special Topics** (cr arr). Prereq: perm.

CE 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

CE **ID&WS210 Engineering Statics** (3 cr) (ES ID&WS210). WSU C E 211. Principles of statics with engineering applications; addition and resolution of forces, vector algebra, moments and couples, resultants and static equilibrium, equivalent force systems, centroids, center of gravity, free body method of analysis, two and three dimensional equilibrium, trusses, frames, and friction. Prereq: Math 180.

CE 211 **Engineering Measurements** (3-4 cr). For engineering and cartography students. Theory and practice; types and distribution of errors; manipulation of instruments; route and land surveying; construction survey; intro to photogrammetry. Two lec and one 3-hr lab a wk; additional 1-hr recitation a wk for 4 cr reqd unless waived by exam. Prereq: Math 140 and ME 101 or equiv.

CE 215 **Introduction to Civil Engineering** (2 cr). Application of modern basic science, mathematics, and fundamental engineering principles to solution of civil engineering problems by analytic and numeric methods; intro to computer methods and software for system and data analysis. Prereq: CS 105, Phys 210, ME 101; coreq: Math 180.

CE 218 **Elementary Surveying** (2 cr). Primarily for nonengineering students. Theory of measurements and manipulation of surveying instruments; application of surveying methods to construction; topographic and land surveys. One lec and one 3-hr lab a wk. Prereq: Math 140.

CE 299 (s) **Directed Study** (cr arr). Prereq: perm.

CE 316 **Advanced and Route Surveys** (3 cr). Alt/yrs. Advanced survey methods including state plan coordinate systems, practical astronomy, and route surveys; field layout to include meridian determination, circular curves, spirals, setting slope and grade stakes, bridge and culvert surveys. Two lec and one 3-hr lab a wk. Prereq: CE 211.

CE 317 **Land Surveying** (2 cr). Alt/yrs. History and development; related laws; preparation and filing of property descriptions and plats; subdivision planning; methods for property surveys. Prereq: CE 211.

CE 319 **Photogrammetry and Photo-Interpretation** (3 cr). Geometry of single and stereoscopic pairs of aerial photographs; stereo-plotters; photo-interpretation applied to problems of engineering importance. Two lec and one 3-hr lab a wk. Prereq: CE 211.

CE **ID&WS320 Engineering Fluid Mechanics** (3 cr) (C) (ES ID&WS320). WSU M E 303. Physical properties of fluids; fluid statics; continuity, energy, momentum relationships; laminar and turbulent flow; boundary layer effects; flow in pipes, open channels, and around objects. Prereq: CE 210, Math 200.

CE 321 **Hydrology** (3 cr). See AgE 351.

CE 322 **Hydraulics** (3 cr). Applied principles of fluid mechanics; open channel flow, pressure conduit flow, intro to hydraulic machinery. Two 1-hr lec and one 1-hr supervised lab a wk; variable number of hrs of unsupervised lab. Prereq: CE 320.

CE 331 **Sanitary Engineering** (4 cr) (CE 431). Application of basic engineering science to treatment of domestic and industrial water supplies; treatment and disposal of domestic sewage and industrial wastes. Three lec and one 3-hr lab a wk. Prereq: CE 320 and 322 or perm.

CE 342 **Theory of Structures** (3 cr). Stresses and strains in statically determinate and indeterminate beam, truss, and rigid frame structures; effects of moving loads; matrix displacement method. Two lec and one 3-hr lab a wk. Prereq: ME 340.

CE 357 **Mechanical Properties of Construction Materials** (3 cr). Analysis of concrete mixtures; characteristics and measurements of stress-strain stiffness and strength properties of construction materials for improvement, selection, and design. Two lec, two hrs of lab, and 1 hr of recitation a wk. Prereq: Stat 301 and ME 340; coreq: Eng 317.

CE 360 **Engineering Properties of Soils** (3 cr). Soil composition, descriptions, and classification systems; permeability and seepage; capillarity and suction; total, effective, and neutral stresses, compression and volume changes; shear strength; compaction. Two lec, 2 hrs of lab, and 1 hr of recitation a wk. Prereq: CE 320 and ME 340.

CE 372 **Fundamentals of Transportation Engineering** (4 cr). Intro to planning, design, and operation of highway and traffic, public transportation, and airport systems. Three lec and one 3-hr lab a wk. Prereq: Stat 301; coreq: Eng 317.

CE **ID&WS386 Engineering Economy** (3 cr). WSU C E 463. Economic analysis and comparison of engineering alternatives. Prereq: jr standing.

CE 400 (s) **Seminar** (cr arr). Prereq: perm.

CE 402 Applied Numerical Methods for Engineers (3 cr) (ES 402). Approximate and numerical methods for solution of systems of linear and nonlinear equations, initial value, boundary value, and partial differential equations with practical applications, analysis of error, improvement of accuracy, and numerical and matrix techniques for computation by digital computer. Prereq: Math 310, a high level programming language.

CE 403 (s) Workshop (cr arr). Prereq: perm.

CE 404 (s) Special Topics (cr arr). Prereq: perm.

CE 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

CE 407 Professional Management for Engineers (3 cr) (Engr 407). Consideration of analytical, quantitative, and human functions in management science; emphasis on socioeconomic synthesis.

CE 411 Engineering Fundamentals (0 cr) (Engr 411). Review of basic engineering and science material covered in Fundamentals of Engineering exam. Graded P/F. Prereq: sr standing or perm.

CE J420/J520 Fluid Dynamics (3 cr). See ME J420/J520.

CE 421 Engineering Hydrology (3 cr). See AgE 451.

CE ID&WS-J422/ID-J522 Hydraulic Design (3 cr). WSU C E 450. Hydraulic design of open channel and closed conduit conveyance structures, control structures, protective structures and systems; project oriented problems. Extra design projects or different design projects for grad cr. One field trip. Prereq: CE 322 or equiv, CE 386, or perm.

CE 428 Open Channel Hydraulics (3 cr). See AgE 458.

CE J432/J533 Water Quality Management Techniques (3 cr). Physical, chemical, and biological techniques for analysis of water quality management problems; development of design criteria for corrective systems. Additional projects/assignments reqd for grad cr. Two lec and one 3-hr lab a wk. Prereq: perm.

CE WS435 Hazardous Waste Engineering (3 cr). WSU C E 446.

CE ID&WS-J436/ID&WS-J536 Wastewater Treatment System Design (3 cr). WSU C E 544. Application of unit operations and processes to design of integrated wastewater treatment systems; critical analysis of existing designs. Additional projects/assignments reqd for grad cr. Prereq: perm.

CE 441 Reinforced Concrete Design (3 cr). Strength design method in accordance with latest ACI code. Two lec and one 2-hr lab a wk. Prereq: CE 342.

CE WS442 Prestressed Concrete Design (3 cr). WSU C E 434/534.

CE WS443 Design of Timber Structures (3 cr). WSU C E 436.

CE 444 Steel Design (3 cr). Structural steel design using latest AISC specifications. Two lec and one 2-hr lab a wk. Prereq: CE 342.

CE ID&WS-J445/ID&WS-J545 Matrix Structural Analysis (3 cr). WSU C E 530. Formulation of the analysis of trusses, beams, and frames using the stiffness method of matrix structural analysis; development of element properties, coordinate transformations, and global analysis theory; special topics such as initial loads, member and joint constraints, modification procedures. Special project demonstrating mature understanding of materials reqd for grad cr. Prereq: CE 342 or perm.

CE 460 Geotechnical Engineering Design (3 cr). Applications of soil mechanics in design of earth retaining structures, shallow and deep foundations, embankments, slopes, and excavations. Prereq: CE 360.

CE WS461 Foundations (3 cr). WSU C E 435.

CE 473 Highway Design (3 cr). Planning, geometrics, location, and design of urban and rural highway systems. Two lec and one 3-hr lab a wk. Prereq: CE 372, CE 360 or perm.

CE ID474 Traffic Systems Design (3 cr). WSU C E 474. Design and analysis of arterial traffic systems; system evaluation using computer simulation; development and testing of alternative system design. Prereq: CE 372 or perm.

CE 475 Pavement Evaluation and Design (3 cr). Selection of conventional and new materials and applications; methods and comparative procedures of structural and other performance capabilities of asphalt and portland cement concrete pavements. Prereq: CE 357; Eng 317, or equiv; coreq: CE 372, 360, or equiv.

CE 482 Project Engineering (1-4 cr, max 4). Four accelerated, 1 cr minicourses offered in one semester. Modern engineering management techniques for design, construction, and operation of typical engineering projects: (1) linear programming applied to project design and operation; (2) project economics and cost estimation; (3) reliability, risk, and decision analysis; (4) scheduling and bidding of projects (CPM, PERT). Four lec a wk for four wks for each minicourse. These minicourses may be taken separately. Prereq: univ sr standing and Stat 251 or 301.

CE ID484 Engineering Law and Contracts (2 cr). WSU C E 462. Development of law, courts, and ethics; laws of contracts, agency, sales, property, and patents; specifications, preparation of contract documents. Prereq: sr standing.

CE 491 Civil Engineering Professional Seminar (1 cr). Employment and technical topics; preparation and presentation of professional paper. Course to be taken in last semester before graduation. Graded P/F.

CE 498 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

CE 499 (s) Directed Study (cr arr). Prereq: perm.

CE 500 Master's Research and Thesis (cr arr).

CE 501 (s) Seminar (cr arr). Conferences and reports on current developments.

CE 502 (s) Directed Study (cr arr). Prereq: perm.

CE 503 (s) Workshop (cr arr). Prereq: perm.

CE 504 (s) Special Topics (cr arr). Prereq: perm.

CE 506 (s) Study Abroad (cr arr). Prereq: perm of dept.

CE ID&WS510 Advanced Mechanics of Materials (3 cr). See ME J439/J539.

CE 519 Fluid Transients (3 cr). Same as ME 519. Alt/yr. Development of concepts and modeling techniques for unsteady flow of liquid and gas in piping systems; extensive computer programming used to develop tools for analysis, design, and control of transients. Prereq: Math 310, CE 320.

CE 520 Fluid Dynamics (3 cr). See ME J420/J520.

CE ID521 Sedimentation Engineering (3 cr). Intro to river morphology and channel responses; fluvial processes of erosion, entrainment, transportation, and deposition of sediment. Prereq: CE 428 or perm.

CE ID522 Hydraulic Design (3 cr). See CE J422/J522.

CE ID523 Water Resources Systems (3 cr). WSU C E 561. Concepts in water development; coordination of development of other natural resources; systems approach and optimization techniques. Prereq: perm.

CE ID524 Water Resources Planning (3 cr). WSU C E 562. Use of water resources; provision for domestic water supply, power, flood control, navigation, irrigation, and recreation; design and feasibility problems; guest lecturers. Prereq: perm.

CE WS525 Intermediate Fluid Mechanics (3 cr). WSU C E 550.

CE WS526 Topics in Fisheries Engineering (1-3 cr, max 6). WSU C E 557.

CE WS527 Advanced Topics in Hydraulic Engineering (1-3 cr, max 6). WSU C E 552.

CE ID&WS528 Stochastic Hydrology (3 cr). WSU C E 559. Analyses and evaluation of hydrologic data and time series; application of stochastic models to data generation and record extension (daily and storm precipitation, monthly and annual streamflows); regression and autoregression analyses; extensive computer applications for data analysis and synthesis. Prereq: CE 321, introductory statistics course.

CE 529 Natural Channel Flow (3 cr). See AgE 555.

CE WS530 Instrumental Analysis of Environmental Contaminants (3 cr). WSU C E 540.

CE ID&WS531 Environmental Engineering Unit Operations (3 cr). WSU C E 541. Analysis and design of physical and chemical operations of water and waste treatment; flow models, sedimentation, flocculation, filtration, and water conditioning. Prereq: perm.

CE ID&WS532 Environmental Engineering Unit Processes (3 cr). WSU C E 542. Analysis and design of chemical and biological processes of water and waste treatment, stream pollution analysis, gas transfer, biological oxidations, aerobic and anaerobic processes, and combustion processes. Prereq: perm.

CE 533 Water Quality Management Techniques (3 cr). See CE J432/J533.

CE WS534 Sanitary Engineering Analysis (2 cr). WSU C E 581.

CE ID&WS536 Wastewater Treatment System Design (3 cr). See CE J436/J536.

CE WS538 Engineering Aspects of Aquatic Biology (2-4 cr). WSU C E 584.

CE WS539A Industrial Waste Problems (3 cr). WSU C E 545.

CE WS539E Air Pollution Measurement Techniques (3 cr). WSU C E 572.

CE WS539F Air Pollution Abatement and Administration (2 cr). WSU C E 573.

CE WS539G Engineering Aspects of Environmental Chemistry (2-4 cr). WSU C E 583.

CE 540 Continuum Mechanics (3 cr). Same as ME 540. Stress and deformation of continua using tensor analysis; relationship between stress, strain, and strain rates in fluids and solids; applications. Prereq: perm.

CE ID&WS541 Structural Reliability and Probabilistic Design (3 cr). WSU C E 531. Fundamentals of structural reliability theory, treatment of uncertainties in structures, Level II and III reliability methods, code calibration, code safety formats, with applications to specific structural members. Prereq: perm.

CE ID542 Advanced Design of Structures (3 cr). WSU C E 537. Composite action, hybrid sections, plate girders, curved girders, fatigue design, splices and connections, loads, load combinations, load distribution, computer modeling and analysis. One 1-day field trip. Prereq: CE 444 or perm.

CE ID&WS543 Dynamics of Structures (3 cr). WSU C E 512. Alt/yr. Behavior of structures under impact, impulse, and seismic loads. Prereq: CE 441, 444, Math 310.

CE ID&WS544 **Buckling in Structures** (3 cr). WSU C E 513. Analysis of elastic and inelastic stability of columns, trusses, rigid frames, plates, and shells; lateral stability of beams. Prereq: CE 444, Math 310.

CE ID&WS545 **Matrix Structural Analysis** (3 cr). See CE J445/J545.

CE ID&WS546 **Finite Element Analysis** (3 cr). Same as ME 549. WSU C E 532. Formulation of theory from basic consideration of mechanics; applications to structural engineering, solid mechanics, soil and rock mechanics; fluid flow. Prereq: perm.

CE WS547 **Advanced Reinforced Concrete Design** (3 cr). WSU C E 533.

CE 548 **Elasticity** (3 cr). Same as ME 548. Mathematical analysis of strain and stress, including vectors, tensors, and coordinate transformations; equations of elasticity; stress problems involving extension, torsion, and flexure; theories of failure. Prereq: perm.

CE WS549 **Advanced Topics in Structural Engineering** (3 cr). WSU C E 537.

CE 556 **Physical Properties of Concrete** (3 cr). Design aspects of portland cement and asphalt concrete mixtures; physical and mechanical properties; effects of aggregate and binder constituents. Two lec and one 3-hr lab a wk. Prereq: CE 357 or perm.

CE 557 **Mechanical Properties of Elastic and Nonelastic Materials** (3 cr). Procedures for determining stress, strain, and modulus of materials used in construction, and for evaluating their performance with changes of time and frequency, temperature, and moisture under various modes of loading.

CE ID561 **Advanced Soil Mechanics** (3 cr). WSU C E 527. Effective and total strength and deformation parameters for soils, lab and field methods of determination, applications in stability analysis and deformation predictions for rigid and flexible walls, anchors, buried structures, excavations, and slopes. Prereq: CE 360 or perm.

CE ID562 **Advanced Foundation Engineering** (3 cr). WSU C E 528. Consolidation theories, stress and strain distribution, bearing capacity and settlements of shallow and deep foundations, pile group behavior, theory of subgrade reaction, mat foundations, laterally loaded piles. Prereq: CE 360 or perm.

CE 563 See page and Earth Dams (3 cr). See GeolE 535.

CE ID565 **Soil Dynamics** (3 cr). WSU C E 529. Theory of foundation response to dynamic loads, design and analysis of machine foundations, foundation isolation, behavior of soils subjected to dynamic loads, field and laboratory methods for evaluation of dynamic properties, liquefaction, wave equation, analysis of piles.

CE ID566 **Earthquake Engineering** (3 cr). Review of geological and seismological factors that influence design; seismic wave propagation; earthquake parameters; probabilistic hazard assessment; dynamic soil properties; response spectra; computer applications; earthquake resistant designs. Prereq: CE 360 or equiv, or perm.

CE WS567 **Soil and Site Improvement** (3 cr). WSU C E 425/525.

CE WS569 **Advanced Topics in Geotechnical Engineering** (2-4 cr). WSU C E 511.

CE ID&WS571 (s) **Advanced Topics in Transportation Engineering** (3 cr, max 12). WSU C E 501. Series of advanced courses in transportation engineering focusing on traffic and highway engineering, public transportation engineering, airport planning and engineering, and transportation planning. Prereq: CE 474 or perm.

CE 589 **Water Resources Seminar** (1 cr). See Inter 589.

CE 597 (s) **Practicum** (cr arr). Prereq: perm.

CE 598 (s) **Internship** (cr arr). Prereq: perm.

CE 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

CE 600 **Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

CIVIL ENGINEERING (B.S.C.E.)

Note: A minimum GPA of 2.00 in UI College of Engineering upper-division courses is required for graduation in this program.

Course	Credits
Required course work includes the university requirements (see regulation J-3) and:	
CE 210 Engineering Statics	3
CE 211 Engineering Measurements	3
CE 215 Introduction to Civil Engineering	2
CE 320 Engineering Fluid Mechanics	3
CE 321 Hydrology	3
CE 322 Hydraulics	3
CE 331 Sanitary Engineering	4
CE 342 Theory of Structures	3
CE 357 Mechanical Properties of Construction Materials	3
CE 360 Engineering Properties of Soils	3
CE 372 Fundamentals of Transportation Engineering	4
CE 386 Engineering Economy	3
CE 441 Reinforced Concrete Design or 444 Steel Design	3
CE 491 Civil Engineering Professional Seminar	1
ChE 321 Engineering Thermodynamics & Heat Transfer	3
Chem 111 Principles of Chemistry	4

Chem 114 General Chemistry	4
CS 105 FORTRAN Programming for Engineers	2
EE 207 Introduction to Electrical Engineering	3
Eng 317 Technical & Engineering Report Writing	3
One of the following	3-5
Geol 101-102 Physical Geology & Lab	
Geol 111 Physical Geology for Science Majors	
Bact 250 General Microbiology	
Biol 201 Introduction to the Life Sciences	
Chem 302 Principles of Physical Chemistry	
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 310 Ordinary Differential Equations	3
ME 101 Engineering Graphics	2
ME 220 Engineering Dynamics	3
ME 340 Engineering Mechanics of Materials	3
Phys 210, 211 Engineering Physics I-II	6
Stat 301 Probability & Statistics	3
Humanities and social sciences electives to include at least	
(1) one upper-division course or (2) a course that has	
another humanities/social science course as a prerequisite	16
Technical electives (incl at least 9 cr from CE 421, 422, 436,	
441, 444, 460, 473, 474, 475)	15

The minimum number of credits for the degree is 129, not counting Eng 103, Math 140, and other courses that might be required to remove deficiencies.

A grade of C or better is required in each of the following courses before registration is permitted in upper-division engineering courses: Chem 111 and 114, CE 210, 211, and 215, ME 220 and 340, Math 180, 190, 200, and 310, and Phys 210 and 211.

School of Communication

Peter A. Haggart, Director, School of Communication (Communication Bldg.; 208/885-6458). Faculty: Roy Alden Atwood, Anna Banks, Stephen P. Banks, Don H. Coombs, Sandra Haarsager, Peter A. Haggart, Patricia Hart, Tom E. Jenness, Alan Lifton, Paul L. Miles, Mark Secrist, William P. Woolston.

Communication is more and more being seen as the discipline that links other disciplines, a discipline that will be vital if people, organizations, and governments are to cope with today's complex world. Students with degrees from the School of Communication find jobs with newspapers, broadcasting stations, public relations firms, advertising agencies, industry, and government.

The School of Communication provides professional preparation in communication fields and also functions as an academic unit of the College of Letters and Science for the purpose of offering courses to students in other fields.

The degree programs in the school are designed to combine theory and practical experience. Students get hands-on experience with equipment in their areas of specialization. There are degree programs or options in advertising, general communication, journalism, organizational communication, public relations, and visual communication. Students in those programs either take a foreign language and obtain a B.A. degree or take 18 credits in a specialized subject matter area outside the school and obtain a B.S. degree.

Courses

GENERAL COMMUNICATION

Note: See School of Communication requirements below for eligibility requirements for registration in upper-division courses.

CommG 131 **Fundamentals of Public Speaking** (2 cr). Satisfies core requirement J-3-a. Skills and techniques of effective speaking.

CommG 132 **Oral Interpretation** (2 cr). Use of voice and body to communicate the intellectual and emotional meaning of literature.

CommG 134 **Nonverbal Communication** (2 cr). Study of body language; proxemics, kinesics, and other nonverbal codes.

CommG 188 **Experiences in Visual Thinking** (3 cr). Expansion and strengthening of creative potential through right brain thinking experiences: seeing, drawing, and imagining; solution of creative problems by applying learned principles and visual thinking strategies.

CommG 200 (s) **Seminar** (cr arr). Prereq: perm.

CommG 203 (s) **Workshop** (cr arr). Prereq: perm.

CommG 204 (s) **Special Topics** (cr arr). Prereq: perm.

CommG 233 Interpersonal Communication (3 cr). Communication concepts and skills applied to relationship management; communication process, listening, self-disclosure, perception, conflict.

CommG 288 Introduction to Film Art (3 cr). Intro to aesthetics of film; considers film as a cultural artifact by surveying fundamental aspects of film form, systems, style, and analysis; no previous knowledge of film or photography reqd. Two lec, one discussion period, and one film showing period a wk.

CommG 331 Conflict Management (3 cr). Principles of effective conflict management in various settings; emphasis on styles of conflict, power, goals, strategies, and intervention techniques.

CommG 332 Communication and the Small Group (3 cr). Problem-solving methods; performing as a group leader or as a group member; small group behavior.

CommG 333 Interviewing (3 cr). Prin of information gathering and problem solving in interviews.

CommG 335 Organizational Communication (3 cr). Philosophy, methods, and designs for studying communication system of a complex organization.

CommG 347 Persuasion (3 cr). Theory and practice of effective persuasive techniques. Prereq: CommG 131.

CommG 382 History of Photography (3 cr). History and development of photography in its various forms; photography as a creative art form and a reflection of society; selected slide lecs. Prereq: Comm 281 or perm.

CommG 384 History of American Film (3 cr). Hist and dev of U.S. film industry; film as an art form; film as a reflection of society; selected genres and directors.

CommG 386 American Documentary Film/Television (3 cr). Open to all students. Development of nonfiction film, TV, photography; documentary style and form; documentary's power to communicate; noted practitioners; issues raised by documentary. Three lec and one lab a wk.

CommG 400 (s) **Seminar** (cr arr). Prereq: perm.

CommG 403 (s) **Workshop** (cr arr). Prereq: perm.

CommG 404 (s) **Special Topics** (cr arr). Prereq: perm.

CommG 430 Perspectives in Film (3 cr). See Eng 430.

CommG 433 Organizational Communication Theory and Research (3 cr). Overview of current theory and research in organizational communication; interpretive and critical perspectives on organizational culture, organizational change, organization and environment relationships, management systems, and power relationships.

CommG 435 Strategies of Organizational Communication (3 cr). Theory and methods of improving communication in organizations, consulting, training, organizational change. Prereq: CommG 335.

CommG ID440 Media and the Canadian Experience (3 cr). WSU Com 403. History, structure, and function of Canada's mass media and cultural industries; comparison of Canadian and American media policies and practices. Two lec and one lab a wk; some films, videos, and slides in evening.

CommG 499 (s) **Directed Study** (cr arr). Prereq: perm.

COMMUNICATION

Note: See School of Communication requirements below for eligibility requirements for registration in upper-division courses.

Comm 121 News Writing (3 cr). Basic principles of writing news. Two 2-hr lec-labs a wk. Prereq: Eng 104 and ability to type.

Comm 140 Mass Media and Society (3 cr). Role of the media; their performance and significance.

Comm 200 (s) **Seminar** (cr arr). Prereq: perm.

Comm 203 (s) **Workshop** (cr arr). May be graded P/F. Prereq: perm.

Comm 204 (s) **Special Topics** (cr arr). Prereq: perm.

Comm 222 Reporting (3 cr). Types and sources of news; gathering and writing news. Two lec and one lab a wk. Prereq: Comm 121.

Comm 265 Advertising and Society (3 cr). Survey of role of advertising in American society including effects on consumers; regulation, media, and advertising as a creative process.

Comm 270 Broadcast Commercial Writing/Production (3 cr). Basic principles of writing and production of commercials in broadcast, with emphasis on radio production/announcing and writing techniques for all electronic media. Prereq: Comm 121.

Comm 271 Basics of Television Production (2 cr). For non-telecommunication majors. Basic camera operation, VCR operation, lighting, editing.

Comm 278 Introduction to Radio/TV Production (3 cr). Audio and video equipment and recording procedures. One 1-day field trip.

Comm 281 Understanding Photography (3 cr). Basic skills of camera operation; emphasis on image design and creative techniques; lec topics include exposure, lenses, composition, filters, and films. 35mm adjustable camera required, plus additional costs for photographic materials. Two lec and one 3-hr recitation a wk.

Comm 299 (s) **Directed Study** (cr arr). Prereq: perm.

Comm 323 Public Affairs Reporting (3 cr). Problems and practice in reporting the courts, government, politics, other public issues. Prereq: Comm 121, 222, or perm.

Comm 325 News Editing (3 cr). News selection, evaluation, editing, and display. Two lec and one lab a wk. Prereq: Comm 121, 222, or perm.

Comm 352 Principles of Public Relations (3 cr). Understanding public relations programs, functions and techniques; projects related to student's interest. Prereq: Comm 121.

Comm 354 Publications Editing (3 cr). Design and production of magazines, periodicals, brochures.

Comm 360 Broadcast Media Advertising (3 cr). Advertising creative process in radio and television, including copywriting, and production processes and techniques. Prereq: Comm 265.

Comm 362 Print Media Advertising (3 cr). Advertising creative process in print media (newspapers, magazines, direct mail, outdoor, etc.), including copywriting, typesetting, layout, design, and production processes and techniques. Prereq: Comm 265.

Comm 364 Advertising Media Planning (3 cr). Advertising media planning for all media, both broadcast and print; includes interpretation of ratings and market data, media strategies and concepts, and specific buying process in each advertising medium. Prereq: Comm 265.

Comm 374 Broadcast Newswriting and Reporting (3 cr). Techniques of gathering, writing, and producing news for radio and television. One lec and one lab a wk. Prereq: Comm 270, 278.

Comm 378 Television Production (3 cr). Basic production theory, lighting, composition, sound; producing and directing; practice in a variety of television production forms. Field trips. Prereq: Comm 265, 278, 374.

Comm 381 Photographic Materials and Techniques (3 cr). Basic to intermediate level black and white lab course; film developing, printing; exploration of various films, developers, toners, and photo techniques; group critiques. Two lec and two 3-hr labs a wk. Prereq: Comm 281 or perm.

Comm 385 Color Photography (3 cr). Entry-level color lab course; discussion and practice in color theory; exploration of all conventional color processes, slides, negatives, and prints. Two lec and two 3-hr labs a wk. Prereq: Comm 281 or perm.

Comm 400 (s) **Seminar** (cr arr). Prereq: perm.

Comm 403 (s) **Workshop** (cr arr). May be graded P/F. Prereq: perm.

Comm 404 (s) **Special Topics** (cr arr). Prereq: perm.

Comm 425 Feature Article Writing (3 cr). Writing human interest stories, editorials, reviews, and columns. Prereq: Comm 121 or perm.

Comm 431 Professional Presentation Techniques (3 cr). Multimedia presentation of proposals, management plans, feasibility reports, instructions, and scientific papers; designed to assist students in professional fields in making presentations to professional and lay audiences.

Comm 441 Ethics in Mass Communication (3 cr). Examination of ethical responsibilities and obligations of people working in the mass media.

Comm 443 Media Management (3 cr). Management principles as they apply to electronic and print media; emphasis on personnel management, budgeting, programming, sales, marketing and promotion, legal constraints, new technologies, and strategic planning.

Comm 444 Communication and Public Opinion (3 cr). Role of communication in the formation of public opinion with special emphasis on mass media.

Comm 445 History of Mass Communication (3 cr). Growth and development of mass media in the U.S.

Comm 448 Law of Mass Communication (3 cr). Freedom of the press, libel, right to know, privacy, contempt in print and broadcast media.

Comm 449 Theory in Communication (3 cr). Interdisciplinary approach to understanding the process of communication.

Comm 450 Quantitative Research Methods (3 cr). Design of experiments and field studies and planning of polls relevant to communication, with special attention to causality, reliability, and validity, and emphasis on interpretation of results.

Comm 451 Qualitative Research Methods (3 cr). Aims and methods of qualitative research; emphasis on philosophical assumptions, research design, data collection, reliability/validity issues, and data analysis within the context of interpretive, critical and naturalistic approaches to communication research and practice.

Comm 452 Public Relations Management (3 cr). Management case studies of public relations and advertising programs; practice in developing and executing campaigns with emphasis on presentation skills and equipment. Prereq: Comm 352.

Comm 458 **Public Relations Case Studies and Issues Management** (3 cr). Examination of actual and created public relations case studies; reasons for their success or failure examined and evaluated. Prereq: Comm 452.

Comm 466 **Advertising Campaign Strategy** (3 cr). Advanced advertising strategies in creative approaches and media usage; current ad campaigns and development of a complete advertising campaign for a client. Prereq: Comm 360, 362, 364, 431, and Art 121 or 225.

Comm 468 **The Advertising Agency** (3 cr). Functioning of an advertising agency, including management, accounting, creative and media buying systems, government regulation, account management, and creative strategies in the marketplace. Field trips. Prereq: Comm 466 or perm.

Comm 476 **Advanced Broadcast News Writing/Production** (3 cr). Advanced techniques in writing and production of news for radio and television. One lec and one lab a wk. Prereq: Comm 374.

Comm 478 **Advanced Television Production** (2 cr). Development, planning, budgeting, and execution of television productions; development of professional techniques. Field trips. Prereq: Comm 374, 378.

Comm 481 **Advanced Black and White Photography** (3 cr). Advanced-level black and white lab course; covers basic lighting, portraits, studio, photojournalism, business; group critiques. Two lec and two 3-hr labs a wk. Prereq: Comm 381 or perm.

Comm 489 **Critical Issues in Visual Communication** (3 cr). Examination of major theoretical approaches to visual media (photography, film, and television); impact of visual images on society; communicative and aesthetic functions of visual images; ethical concerns and visual media.

Comm 490 **International Communication** (3 cr). Analysis of channels and media for international communication; interpersonal interaction and cross-cultural mass media.

Comm 498 **Internship** (0-3 cr, max 3). Supervised experience in professional communication. Graded P/F. Prereq: perm of director, School of Communication.

Comm 499 (s) **Directed Study** (cr arr). Prereq: perm.

Curricular Requirements

Note: Required courses in a student's major cannot be used to satisfy the distributional requirements for the College of Letters and Science.

School of Communication Requirements

All majors in the School of Communication are required to take Comm 121, News Writing (freshman or sophomore year), CommG 131, Fundamentals of Public Speaking, Comm 140, Mass Media and Society, one 3-credit course in computer science, either Stat 150 or Stat 251, and at least one course in the "visual" basic skill area as approved by the School of Communication. Candidates for the B.S. degree are required to complete an academic minor or area of emphasis of at least 18 credits outside the School of Communication. Students must obtain approval from the School of Communication to apply internship credit toward a degree from the school.

Comm 121, CommG 131, and Comm 140 must be completed with a grade of C or better before a communication major may enroll in any upper-division communication courses.

A minimum cumulative university grade-point average of 2.50 is required of students seeking upper-class standing in the school or graduating with any of the majors offered by the school. All students must meet the minimum grade-point average and have completed a minimum of 58 credits to preregister, register, or add any upper-division course (numbered 300 or above) offered by the school. Registration preference in all courses is given to School of Communication majors. In order to remain in good standing in the school, the 2.50 grade-point average must be maintained.

Note: Students using a catalog issued before 1991 must meet a minimum cumulative grade-point average of 2.25 as applied above.

A student who graduates with a major in the School of Communication must complete a minimum of 128 credits of which (1) a maximum of 38 credits may be taken in communication courses having the prefix of Comm (CommG courses are not included), (2) a minimum of 65 credits must be taken in courses offered by the College of Letters and Science and the Departments of Art and Economics, (3) a maximum of 25 credits may be taken in courses offered outside the College of Letters and Science or the Departments of Art and Economics, and (4) a maximum of 6 internship credits may be applied toward a degree, including no more than 3 credits from other academic fields.

COMMUNICATION (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general L & S and School of Communication requirements for either the B.A. or B.S. degree, and:

A. ADVERTISING OPTION

Course	Credits
CommG 233 Interpersonal Communication	3
Comm 265 Advertising & Society	3
Comm 360 Broadcast Media Advertising	3
Comm 362 Print Media Advertising	3
Comm 364 Advertising Media Planning	3
Comm 431 Professional Presentation Techniques	3
Comm 441 Ethics in Mass Communication	3

Comm 445 History of Mass Comm or 448 Law of Mass Comm	3
Comm 466 Advertising Campaign Strategy	3
Art 121 Visual Communication & the Design Process or 225 Communication Graphics	2-3
Bus 321 Marketing	3
Business elective course	3
Courses selected from the following	6
Comm 271 Basics of TV Production	
Comm 281 Understanding Photography	
Comm 352 Principles of Public Relations	
Comm 354 Publications Editing	
Comm 444 Communication & Public Opinion	
Comm 445 History of Mass Communication	
Comm 448 Law of Mass Communication	
Comm 449 Theory in Communication	
Comm 451 Qualitative Research Methods	
Comm 468 The Advertising Agency	

B. PUBLIC RELATIONS OPTION

Course	Credits
CommG 233 Interpersonal Communication	3
CommG 335 Organizational Communication	3
Comm 352 Principles of Public Relations	3
Comm 431 Professional Presentation Techniques	3
Comm 451 Qualitative Research Methods	3
Comm 452 Public Relations Management	3
Comm 458 Public Relations Case Studies & Issues Management	3
Two of the following courses	6
CommG 332 Communication & the Small Group	
CommG 347 Persuasion	
CommG 433 Organizational Comm Theory & Research	
Comm 222 Reporting	
Comm 354 Publications Editing	
Comm 425 Feature Article Writing	
Comm 444 Communication & Public Opinion	
Comm 449 Theory in Communication	
One of the following courses	3
Bus 421 Marketing Research & Analysis	
PolSc 435 Political Research Methods & Approaches	
Soc 410 Introduction to Social Research	

C. GENERAL OPTION

Course	Credits
CommG 233 Interpersonal Communication	3
CommG 332 Communication & the Small Group	3
CommG 335 Organizational Communication	3
Comm 449 Theory in Communication	3
Additional upper-division CommG courses	9
Additional upper-division Comm courses	9

JOURNALISM (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general L & S and School of Communication requirements for either the B.A. or B.S. degree, and:

Course	Credits
Comm 222 Reporting	3
Comm 281 Understanding Photography	3
Comm 323 Public Affairs Reporting	3
Comm 325 News Editing	3
Comm 441 Ethics in Mass Communication	3
Comm 445 History of Mass Communication	3
Comm 448 Law of Mass Communication	3
Three of the following	9
Comm 354 Publications Editing	
Comm 425 Feature Article Writing	
Comm 444 Communication & Public Opinion	
Comm 449 Theory in Communication	
Comm 451 Qualitative Research Methods	
Comm 498 Internship	
Cognate fields (at least 12 cr in upper-division courses; if the student's minor or area of emphasis is in one of these fields, no more than 6 cr of the minor or emphasis area may be counted toward this requirement)	
Economics	6
Political science	6
Additional cr from anthro, econ, geog, hist, pol sc, phil, and psych	18

ORGANIZATIONAL COMMUNICATION (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general L & S and School of Communication requirements for either the B.A. or B.S. degree, and:

Course	Credits
CommG 233 Interpersonal Communication	3
CommG 331 Conflict Management	3
CommG 332 Communication & the Small Group	3
CommG 333 Interviewing	3
CommG 335 Organizational Communication	3
Comm 431 Professional Presentation Techniques	3
Comm 450 Quantitative Research Methods or 451 Qualitative Research Methods	3

Communication electives selected from the following.....	11-12
CommG 134 Nonverbal Communication	
CommG 433 Organization Communication Theory & Research	
Comm 265 Advertising & Society	
Comm 271 Basics of TV Production	
Comm 352 Principles of Public Relations	
Comm 354 Publications Editing	
Comm 441 Ethics in Mass Communication	

and one of the following emphasis areas (constitutes minor) (Stat 251 is recommended for the math core requirement):

HUMAN RESOURCES DEVELOPMENT EMPHASIS

CommG 435 Strategies of Organizational Communication.....	3
Ed 314 Strategies for Teaching.....	3
Psych 316 Industrial Psychology.....	3
Psych 325 Cognitive Psychology.....	3
Electives selected from general emphasis list.....	12

GENERAL EMPHASIS

Electives selected from the following.....	20
Acctg 201 Introduction to Financial Accounting	
Bus 311 Introduction to Management	
Bus 321 Marketing	
Bus 412 Human Resource Management	
Bus 416 Staffing & Compensation	
Bus 441 Labor Relations	
Eng 313 Business Writing	
PolSc 451 Public Administration	
PolSc 454 Public Organization Theory	
Psych 320 Introduction to Social Psychology	
Psych 446 Engineering Psychology	
Rec 260 Leisure & Society	
Soc 312 Sociology of Organizations	

VISUAL COMMUNICATION (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general L & S and School of Communication requirements for either the B.A. or B.S. degree, and:

Course	Credits
CommG 188 Experiences in Visual Thinking.....	3
CommG 288 Introduction to Film Art.....	3
Comm 278 Introduction to Radio/TV Production.....	3
Comm 281 Understanding Photography.....	3
Comm 441 Ethics in Mass Comm or Comm 448 Law of Mass Comm.....	3
Comm 489 Critical Issues in Visual Communication.....	3
Two of the following.....	6
CommG 382 History of Photography	
CommG 384 History of American Film	
CommG 386 American Documentary Film/Television	
Comm 445 History of Mass Communication	
Art graphics/design course.....	2-3
Six additional courses from the fields of photography, film, radio, television, or other visual arts (three courses must be numbered 300 or above).....	17-18

Students seeking careers in broadcasting, photography, film, or other visual arts should select their courses carefully when meeting the "additional courses" required listed above. Advisers have lists of suggested courses.

Academic Minor Requirements

ADVERTISING MINOR

Course	Credits
Comm 140 Mass Media & Society.....	3
Comm 265 Advertising & Society.....	3
Comm 360 Broadcast Media Advertising.....	3
Comm 362 Print Media Advertising.....	3
Comm 431 Professional Presentation Techniques.....	3
At least two of the following.....	6
Comm 352 Principles of Public Relations	
Comm 364 Advertising Media Planning	
Comm 444 Communication & Public Opinion	
Comm 448 Law of Mass Communication	
Comm 468 The Advertising Agency	

INTERPERSONAL COMMUNICATION MINOR

Course	Credits
CommG 131 Fundamentals of Public Speaking.....	2
CommG 233 Interpersonal Communication.....	3
CommG 332 Communication & the Small Group.....	3
Comm 140 Mass Media & Society.....	3
Electives from the following (minimum credit).....	10
CommG 132 Oral Interpretation	
CommG 134 Nonverbal Communication	
CommG 331 Conflict Management	
CommG 333 Interviewing	
CommG 335 Organizational Communication	
CommG 347 Persuasion	
Comm 431 Professional Presentation Techniques	

JOURNALISM MINOR

Course	Credits
Comm 121 News Writing.....	3
Comm 140 Mass Media & Society.....	3
Comm 222 Reporting.....	3
At least four of the following.....	12
Comm 323 Public Affairs Reporting	
Comm 425 Feature Article Writing	
Comm 441 Ethics in Mass Communication	
Comm 444 Communication & Public Opinion	
Comm 445 History of Mass Communication	
Comm 448 Law of Mass Communication	

PUBLIC RELATIONS MINOR

Course	Credits
CommG 433 Organization Communication Theory & Research.....	3
Comm 121 News Writing.....	3
Comm 140 Mass Media & Society.....	3
Comm 352 Principles of Public Relations.....	3
Comm 452 Public Relations Management.....	3

Comm 121 News Writing.....	3
Comm 140 Mass Media & Society.....	3
Comm 271 Basics of TV Production.....	2
Comm 441 Ethics in Mass Comm or Comm 448 Law of Mass Comm.....	3
Comm 445 History of Mass Communication.....	3

COMPUTER ENGINEERING—see Department of Electrical Engineering

Department of Computer Science

John W. Dickinson, Dept. Chair (B40 Janssen Engr. Bldg.; 208/885-6589). Faculty: James Alves-Foss, Michael Barnett, John W. Dickinson, A. Kent Dunnam, James A. Foster, William S. Junk, Jack Kulas, Thomas H. Miller, Charles K. Nelson, Paul W. Oman, Robert C. Probasco, Molly W. Stock, Karen H. Van Houten, Phillip Windley.

Computer science is the systematic study of algorithmic processes that describe and transform information: their theory, analysis, design, efficiency, implementation, and application. It is a broad discipline with an ever growing array of opportunities. Graduates in this field can find employment in a wide spectrum of public and private enterprises.

The field of computer science encompasses many areas of specialization. One may find a personal niche in software development, systems development and hardware selection, studies of compatibility between hardware and software, language development and modification, or perhaps a combination of these and any number of other diverse computer-oriented applications and concepts. Because of this diversity in potential application areas, the computer scientist must be familiar with the language of the physical sciences, mathematics, and English. If the computer is to extend its role as a benefit to mankind, the computer scientist must be broadly educated and conversant with the many implications of the powerful tool that he or she is controlling and developing.

The Department of Computer Science was formed in 1981 and is in the College of Engineering. The Bachelor of Science in Computer Science has been offered at UI since 1977. This program consists of a carefully designed technical core, surrounded by an extensive array of challenging technical elective courses. The technical core consists of courses in algorithms and data structures, programming languages, computer architecture, numerical and symbolic computation, operating systems, software engineering, database, and a senior capstone design sequence. All of these courses have important components of theory, abstraction, and design.

Students in computer science have the unique opportunity to draw from the expertise of an outstanding faculty with extensive experience in industry, teaching, and research. Computers currently available to students include an extensive department network of workstations from Apollo and Hewlett-Packard, several campus personal computer laboratories, and the university's two IBM 4381 computers. All major campus and department computer systems are networked together, providing a state-of-the-art computing environment.

The purpose of the graduate program in computer science is to develop the student's critical professional thinking and intuition. The curriculum involves a balanced mixture of learning experiences to make the graduate capable of sound professional decisions. The study of computer science at the graduate level requires mathematical maturity, skill in the use of high-level and machine-level programming languages, and basic knowledge of computer hardware organization and technology. Students wishing to enter the master's program must demonstrate competence in specific areas equivalent to the material covered in several of the undergraduate courses. The prerequisites for entry into graduate-level courses are knowledge of: a structured high-level language; data structures; second semester calculus; and discrete mathematics. A student who does not have an adequate background in computer science will be required to satisfactorily complete those courses in which he or she is deficient. The deficiencies for graduate studies are compiler design; theory of programming languages; operating systems; files and databases; computer architecture; and any course prerequisites to the graduate core courses. The Graduate Record Examination general test is also required for admission. For a complete description of the master's program in computer science, consult the Graduate Bulletin.

Computer Science Courses

CS 100 Introduction to Computers and Programming (3 cr). Satisfies core requirement J-3-c. Intended for non-computer science majors. Survey of computer systems and applications including overview of hardware, software, industry trends, and societal implications; intro to personal computer application software and programming concepts. Three lec a wk and periodic labs.

CS 103 Introduction to COBOL Programming (3 cr). Intro to COBOL programming, including coverage of files, sorts, and tables. Prereq: CS 100, 105, or 112.

CS 105 FORTRAN Programming for Engineers (2 cr). Basics of computer programming in FORTRAN, emphasizing scientific applications; one- and two-dimensional arrays, functions, subroutines. Coreq: Math 180.

CS 112 Introduction to Problem Solving and Programming (3 cr). Satisfies core requirement J-3-c. Intro to fundamental problem solving techniques using the computer; use of a programming language, structured programming concepts; use of fundamental data types, including arrays and records; basic concepts of computer organization, editing, and program execution; programming lab in which the student solves problems using Pascal. Prereq: high school algebra.

CS 113 Program Design and Algorithms (3 cr). Further problem-solving and design methods used in computer science; problem definition and analysis; preliminary design methods, module analysis and refinement methods, cohesion, coupling, top down design; internal and external program documentation; intro to algorithm analysis, cost and complexity concepts; discussion and comparison of several well-known algorithms for searching, sorting, text, and numeric processing. Lab work reqd. Prereq: CS 112; coreq: Math 176.

CS 120 Programming in C (2 cr). Programming in the C language; primitive data types, control structures, functions, pointers, arrays, and strings. Prereq: CS 112 or equiv.

CS 200 Sophomore Seminar (0 cr). Curriculum options, elective courses, preparation for grad study, and current technical topics. Field trip may be reqd. Graded P/F.

CS 204 (s) Special Topics (cr arr). Prereq: perm.

CS 213 Data Structures (3 cr). Intro to abstract data types, linear lists, linked lists, stacks, queues, graphs, and trees; methods for implementing, and algorithms for manipulating these types; dynamic memory methods; additional searching and sorting algorithms that result from using these data types; intro to files, including sequential, random access, and indexed processing; application of these concepts in the lab to provide further experience in the program design process. Prereq: CS 113 and Math 176.

CS 241 Computer Organization (3 cr). Computer structure, machine language, addressing and programming techniques; use and operation of assemblers, linkage editors, loaders, digital logic, microarchitectures, instruction formats, addressing and memory. Prereq: CS 113 and Math 176.

CS 299 (s) Directed Study (cr arr). Prereq: perm.

CS 307 History of Calculating (3 cr). Open to all students; may not be used as a technical elective for CS majors. Exploration of numerical problems that created demands for better calculating devices, from the abacus to the supercomputer. Prereq: upper-div standing.

CS 310 Computing Languages (3 cr). Major features of good programming languages, with primary emphasis on language features and their role in writing good software; programming language design alternatives; various types of languages, including procedure, data-flow, functional, and object-oriented languages. Prereq: CS 120 and 213.

CS 324 Computer Graphics (3 cr). Use of the computer to define, store, manipulate, and display 2-D and 3-D objects; 2-D curvfitting and 3-D surface development. Prereq: CS 105, or CS 112 and Math 160 or 180 and trig or perm.

CS 334 Advanced COBOL Programming (3 cr). Indexing and use of tables, COBOL sort feature, report writer, subroutines, and access methods. Prereq: CS 103.

CS 341 Computer Operating Systems (4 cr). Analysis and design of methods used by operating systems to perform typical system services; design and implementation of file and directory systems; I/O methods, including programmed, interrupt-driven, and DMA; CPU scheduling; memory management techniques and implementations; concurrent programming; deadlocks; protection mechanisms; distributed systems; lab component focuses on implementation of several designs and algorithms discussed in lec. Three lec and one lab a wk. Prereq: CS 120 and 241.

CS 351 Computer Architecture (3 cr). Evolution and classification of computer structures; ALU, CPU, memory, I/O, and microprogram control; conventional, stack, array, pipeline, and multiple processor architectures; fault-tolerant, data-base, and special purpose architectures; VLSI influence on architecture. Prereq: CS 241, CompE 340.

CS 360 Files and Databases (3 cr). Theory of basic file structure and storage to include direct and indexed files, direct access hash algorithms, B-tree indexing; B+-trees, multikkey processing update anomalies, normalization, relational, hierarchical, and network structural DBMS's. Prereq: CS 213 and 120 or perm.

CS H370 (s) Seminar (2 cr). Computer science issues. Prereq: perm of director of University Honors Program.

CS J381/J581 Software Engineering (3 cr). May not be taken for credit after CS R489. Current topics in development of software systems; software life cycle model, requirements definition, design, validation and verification, and project management techniques. Additional projects/assignments reqd for grad cr. Prereq: perm.

CS 398 Computer Science Cooperative Internship (1-3 cr, max 3). Supervised internship in professional computer science settings, integrating academic study with work experience; requires formal plan of activities before co-op assignment and final written report evaluated by on-campus faculty members. Graded P/F. Prereq: perm.

CS 400 Senior Seminar (0 cr). Technical topics, employment practices, interviewing, and current research topics. Graded P/F. One lec a wk. Prereq: sr standing in CS.

CS 401 Contemporary Issues in Computer Science (1 cr). Ethical, legal, and intellectual property issues; current research topics; and other issues of importance to the professional computer scientist. Graded P/F. Prereq: sr standing in CS.

CS 404 (s) Special Topics (cr arr). Prereq: perm.

CS J420/J520 Data Communication Systems (3 cr). Concept and terminology of data communications, equipment, protocols, architectures; transmission alternatives, regulatory issues, network pricing and management. Additional projects/assignments reqd for grad cr.

CS 430 System Modeling and Simulation I (3 cr). Intro to a discrete simulation language, queueing models, random number generation, design and analysis of systems. Prereq: CS 103, 105, or 112 and Stat 251 or 301 and Math 160 or 180.

CS J435/J535 Foundations of Modern Programming Methods (3 cr). The seminal papers in computer science that form the foundation of today's programming methodology; detail analysis of papers on theory of programming, design techniques, coding considerations, and new methods like visual programming and object-oriented design; major influences on how and why we build programs today. Additional projects/assignments reqd for grad cr. Prereq: junior standing, CS 213, CS 241, knowledge of at least two other programming languages.

CS J436/J536 Formal Methods in VLSI Design (3 cr). Use of logic in specifying and verifying significant hardware devices; development of skills in specification (declarative description); reasoning about formal logic using mechanically assisted proof. Additional projects/assignments reqd for grad cr. Prereq: CS 351 or equiv and perm.

CS J442/J542 Computer Security Concepts (3 cr). Cryptographic systems, coding and decoding of messages; network, database, and operating system security issues, capability and access-control mechanisms; current trends and research in mandatory and discretionary security policies. Additional projects/assignments reqd for grad cr. Prereq: CS 341, Stat 301.

CS 445 Systems Program Design (3 cr). Algorithms used by the following system software: assemblers, macro-processors, interpreters, and compilers; compiler design options and code optimization; all concepts implemented in major programming assignments. Prereq: CS 241, 310.

CS J461/J561 Data Base Management Systems (3 cr). Theory of relational and distributed data base systems, query optimization techniques, and current issues in DBMS development. Additional projects/assignments reqd for grad cr. Prereq: CS 360.

CS J470/J570 Artificial Intelligence (3 cr). Concepts and techniques involved in artificial intelligence, Lisp, goal-directed searching, history trees, inductive and deductive reasoning, natural language processing, and learning. Extra term paper reqd for cr in 570. Prereq: CS 213 or perm.

CS 471 Expert Systems (3 cr). Open to all students; may not be used as a technical elective for CS majors. Theory and practice of knowledge engineering; knowledge acquisition, representation, programming, project development and evaluation; individual project reqd. Prereq: CS 103, 105 or 112 and Stat 251 or 301 and Math 160 or 180.

CS 480 Design—Individual Project (3 cr). May not be taken for credit after CS R488. Formal development techniques applied to definition, design, coding, testing, and documentation of a computer programming project; each student completes an individual project. Two lec a wk; significant lab work reqd. Prereq: Eng 317 and sr standing in CS.

CS 481 Design—Group Project (3 cr). May not be taken for credit after CS R489. Application of formal design techniques to development of a large computer science project performed by students working in teams. Significant lab work reqd. Prereq: CS 480.

CS J484/J584 Software Quality Assurance (3 cr). Actions necessary to provide confidence that a software product conforms to established technical requirements; strategies for implementation and management of SQA, product reviews, test plans and procedures, audits, configuration management, and reliability assessment; concepts of software quality. Additional projects/assignments reqd for grad cr. Prereq: CS J381/J581.

CS J485/J585 Software Process Management (3 cr). Systematic software development from management perspective that centers on constituent tasks and their interrelationships; evaluation of software development process maturity and means to improve process maturity. Additional projects/assignments reqd for grad cr. Prereq: CS 381.

CS J486/J586 Software Specification (3 cr). Formal specification and analysis of software using established specification language, Z, and case studies of designs expressed in Z. Additional projects/assignments reqd for grad cr. Prereq: perm.

CS R488-R489 Software Engineering with Project (3 cr). May not be taken for credit after CS 480-481; may be substituted for CS 480-481. Study and application of systematic techniques and formal documentation applied to definition, design, testing, installation, and support of software systems; each student completes an individual project. Three lec a wk; significant independent lab work reqd. Prereq: Eng 317 and sr standing in CS.

CS 490 Theory of Computation (3 cr). See Math 485.

CS 495 Analysis of Algorithms (3 cr). See Math 405.

CS 499 (s) Directed Study (cr arr). Prereq: perm.

CS 500 Master's Research and Thesis (cr arr). Prereq: perm.

CS 502 (s) Directed Study (cr arr). Prereq: perm.

CS 504 (s) Special Topics (cr arr). Prereq: perm.

CS 510 Theory of Programming Languages (3 cr). Advanced topics in programming language theory including formal syntax, formal semantics, denotational semantics, and type theory; principles of programming language design are stressed; not a comparative language class. Prereq: CS 310 or equiv; coreq: CS 490 or equiv.

CS 520 Data Communication Systems (3 cr). See CS J420/J520.

CS 521 Computer Network Design (3 cr). Design of optimal and near-optimal network topologies; capacity and flow assignment; performance analysis of networks; routing, flow control, and congestion algorithms. Prereq: CS J420/J520.

CS 535 Foundations of Modern Programming Methods (3 cr). See CS J435/J535.

CS 536 Formal Methods in VLSI Design (3 cr). See CS J436/J536.

CS 541 Operating Systems (3 cr). Principles of contemporary operating systems for network and distributed computer systems; sequential processes, scheduling, process synchronization, device management, file systems, memory management, and protection and security.

CS 542 Computer Security Concepts (3 cr). See CS J442/J542.

CS 545 Syntax of Programming Languages (3 cr). Context free and regular languages; parsing by recursive descent and the theory of LL and LR parsing; error repair and recovery. Prereq: CS 445 or perm.

CS 551 Advanced Computer Architecture (3 cr). Principles and alternatives in instruction set design; processor implementation techniques, pipelining, parallel processors, memory hierarchy, and input/output; measurement of performance and cost/performance trade-off. Prereq: CS 351 or equiv and Stat 301 or equiv.

CS 558 Supercomputing (3 cr). See EE 548.

CS 561 Data Base Management Systems (3 cr). See CS J461/J561.

CS 570 Artificial Intelligence (3 cr). See CS J470/J570.

CS 573 Computational Linguistics (3 cr). Analysis and computational representation of syntactic and semantic structures representing meanings of English and other natural languages; comparison with similar structures of formal languages; current natural language processing systems. Prereq: CS 490 or 545, and J470/J570.

CS 580 Graduate Project (1-6 cr, max 6). Application of formal design and documentation techniques to the development of computer programming project; project selected in consultation with student's major professor. Prereq: CS J381/J581, 480 or perm.

CS 581 Software Engineering (3 cr). See CS J381/J581.

CS 584 Software Quality Assurance (3 cr). See CS J484/J584.

CS 585 Software Process Management (3 cr). See CS J485/J585.

CS 586 Software Specification (3 cr). See CS J486/J586.

CS 590 Theory of Computation (3 cr). Various models of computation, such as Turing machines, post machines, recursive functions, and register machines; relative strengths and weaknesses of these models, with particular attention to uncomputability results; computational complexity as a natural outcome of restrictions to these models. Prereq: CS 490.

CS 591 Recursive Function Theory (3 cr). Computability theory; structure of partially solvable and unsolvable problems, with particular attention to recursively enumerable sets and degrees; topics include reductions and the jump operator, the arithmetic hierarchy, finite and infinite injury arguments. Prereq: CS 490 or Math 485.

CS 596 Computational Complexity Theory (3 cr). Development of a theory of complexity to categorize which problems are harder than others, in what sense, and why; an approach that is abstract and mathematical, not algorithmic; topics include models of computation, complexity classes, reductions, and relativizations. Prereq: CS 490 or Math 485.

Curricular Requirements

COMPUTER SCIENCE (B.S.C.S.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
CS 113 Program Design & Algorithms	3
CS 200 Sophomore Seminar	0
CS 213 Data Structures	3
CS 241 Computer Organization	3
CS 310 Computing Languages	3
CS 341 Computer Operating Systems	4
CS 351 Computer Architecture	3
CS 360 Files & Databases	3
CS 400 Senior Seminar	0
CS 401 Contemporary Issues in Computer Science	1
CS 445 Systems Program Design	3
CS 480, 481 Design	6
CS 490 Theory of Computation	3
CS 495 Analysis of Algorithms	3
CommG 131 Fundamentals of Public Speaking	2
CompE 340 Digital Logic	3
CompE 344 Logic Circuit Lab	1
Eng 317 Technical & Engineering Report Writing	3
Math 176 Discrete Mathematics	4
Math 180, 190 Analytic Geometry & Calculus I, II	8
Math 330 Linear Algebra	3
Phys 210, 211, 212, 213 Engineering Physics I-II & Lab	8
Stat 301 Probability & Statistics	3
Technical electives	18
A minimum of 3 cr in upper-division math courses	
A minimum of 9 cr in upper-division CS courses	
The remaining 6 cr may be in upper-division CS, EE, or math courses, or an approved set of courses may be taken to gain an area of emphasis; no more than 3 cr in 499 courses	
Science electives	8
Other electives	19
A minimum of 15 cr in humanities and social sc that satisfy regulation J-3-d	
A minimum of 4 cr from an approved list of courses that include study in humanities, social sciences, arts, and other disciplines that serve to broaden student's background	

The minimum number of credits for the degree is 128, not counting Eng 103, Math 140, and other courses that might be required to remove deficiencies.

A grade of C or better is required in each of the following courses before registration is permitted in upper-division computer science courses: CS 113, 213, and 241, and Math 176, 180, and 190.

Technical and undesignated electives may be chosen to allow students to develop individualized programs to meet personal and career goals. Emphasis areas include, but are not limited to, software engineering, artificial intelligence, information systems, theoretical computer science, and computer graphics. A list of suggested electives for these areas is available from the Computer Science departmental office. Other areas may be developed by the student with the approval of the CS faculty.

Academic Minor Requirements

COMPUTER SCIENCE MINOR

Course	Credits
CS 112 Introduction to Problem Solving & Programming	3
CS 113 Program Design & Algorithms	3

Department of Counseling and Special Education

Jeanne Christiansen, Dept. Chair (Education 111; 208/885-6159).

Counseling Faculty: Thomas N. Fairchild, Thomas E. Hipple, Thomas V. Trotter. **Adjunct Faculty:** William Gibson, W. Harold Godwin, Martha A. Kitzrow, James D. Morris, Charles R. Morrison, Bruce M. Pitman, Joan Pulakos, Gerald L. Tuchscherer, Beth Waddell, Laurie Wilson. **Affiliate Faculty:** James Schmidt, Gary Stanton, Christina Zampich.

Special Education Faculty: Diane M. J. Baumgart, Jeanne Christiansen, Bryce Fifield, N. Dale Gentry, Jennifer J. Olson, A. Lee Parks. **Adjunct Faculty:** Mary T. Bostick, Sally L. Burton, Helen Ingalls, Lawrence Ingalls. **Affiliate Faculty:** Hazel E. Bauman, Joy Byram, James L. Christiansen, Linda K. Cleary, James Heideberger, Thomas D. McFarland, Patrick P. Pickens, Paul Swatsenberg, James E. Topp, Robert C. West, John Zimbelman.

Counseling and special education are fields that prepare professionals to work with children, adolescents, and adults to promote academic, social, emotional, and personal growth. Students are provided with the theoretical knowledge bases as well as practical application of skills in carefully selected field placements. Professionals graduating from the programs are prepared for school, community agency, and private practice situations.

Counseling and Human Services. The counseling program offers course work at the master's level for individuals seeking preparation as counselors in school and community settings. These programs of study may be used to meet state certification requirements (school and vocational counselors) and to secure placement on the national registry (National Certified Counselor).

Specialist-level programs meet Idaho certification requirements in school psychology and advanced school counseling, and licensure as a professional counselor. Doctoral level programs prepare individuals for advanced clinical, administrative, and counselor education positions.

The counseling program offers graduate curricula leading to Master of Science (M.S.) and Master of Education (M.Ed.) degrees in counseling. The Specialist in Counseling degree is available for counselors; the Specialist in School Psychology degree is available for those studying to be school psychologists. Doctoral degrees, Doctor of Philosophy (Ph.D.) and Doctor of Education (Ed.D.), with a counseling major are offered to those seeking advanced graduate preparation beyond the specialist. The Council for Accreditation of Counseling and Related Educational Programs (CACREP), a specialized accrediting body recognized by the Council on Postsecondary Accreditation (COPA), has accredited the following programs in the Counseling and Human Services Program: community counseling (M.Ed., M.S.), school counseling (M.Ed., M.S.), and the counselor education and supervision emphasis in the Ed.D. and Ph.D. programs. These programs are also accredited by the National Council for the Accreditation of Teacher Education (NCATE) and the National Association of State Directors of Teacher Education and Certification (NASDTEC). The school psychology program is accredited by NASDTEC and the National Council for the Accreditation of Teacher Education (NCATE).

Special Education. The special education program offers professional preparation at the undergraduate and graduate levels. The undergraduate program prepares teachers to work with students who have intellectual, emotional and/or behavioral, language, sensory and/or motor impairments. Special education is characterized by the study of learning, motivation, and curriculum principles that, when applied systematically, result in enhanced academic and social competence services. The content focuses on the application of best practices in service delivery, the selection and arrangement of teaching environments for maximum learning, and systematic evaluation of student performance.

At the master's level, the program emphasizes preparation in the areas of severe disabilities, early childhood special education, and consulting teacher specializations. The specialist degree is designed to prepare personnel in the consulting, supervisory, and

administrative competencies needed for leadership roles in public school special education programs. The doctoral program prepares special educators for positions of leadership in schools, state agencies, colleges, and universities. Major emphasis is placed on research, university level teaching, and systems change.

Degrees available in special education include: B.S. in Education, Master of Science (M.S.), Master of Education (M.Ed.), Specialist in Special Education, Doctor of Philosophy (Ph.D.), and Doctor of Education (Ed.D.). The programs are certified by the National Council for the Accreditation of Teacher Education (NCATE) and National Association of State Directors of Teacher Education and Certification (NASDTEC). Endorsements may be obtained in the areas of general special education, severe disabilities, early childhood special education, consulting teacher, and special education director.

Faculty members in the department are available to discuss programs in detail with interested persons. Requests for information or appointment can be made by letter or telephone call (208/885-6159) to the department.

Courses

COUNSELING AND HUMAN SERVICES

Couns 200 (s) **Seminar** (cr arr). Prereq: perm.

Couns 203 (s) **Workshop** (cr arr). Prereq: perm.

Couns 204 (s) **Special Topics** (cr arr). Prereq: perm.

Couns 299 (s) **Directed Study** (cr arr). Prereq: perm.

Couns 400 (s) **Seminar** (cr arr). Prereq: perm.

Couns 403 (s) **Workshop** (cr arr). Prereq: perm.

Couns 404 (s) **Special Topics** (cr arr). Prereq: perm.

Couns J405/J505 (s) **Professional Development** (cr arr). Professional development and enrichment of certificated school personnel. Cr earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/assignments reqd for grad cr.

Couns J407/J507 **Orientation to Counseling** (2 cr) (C). Exploratory course for students considering entering the counseling profession. Focus on counselor's role and function, the counselor as a person, ethical considerations, and other contemporary issues; involves small group work and role playing; assessment of knowledge and skills acquired. Successful completion of course is one of the criteria for final admission in the master's degree program in counseling and human services. Additional projects/assignments reqd for grad cr. Prereq: perm.

Couns 464 **Vocational Guidance** (3 cr). See VocEd 464.

Couns 499 (s) **Directed Study** (cr arr). Prereq: perm.

Couns 500 **Master's Research and Thesis** (cr arr).

Couns 501 (s) **Seminar** (cr arr). Prereq: perm.

Couns 502 (s) **Directed Study** (cr arr). Prereq: perm.

Couns 503 (s) **Workshop** (cr arr). Prereq: perm.

Couns 504 (s) **Special Topics** (cr arr). Prereq: perm.

Couns 505 (s) **Professional Development** (cr arr). See Couns J405/J505.

Couns 507 **Orientation to Counseling** (2 cr). See Couns J407/J507.

Couns 510 **Individual Appraisal I** (3 cr). Analysis of statistical, psychometric, sociometric, and clinical principles essential to successful application of informal and standardized assessment in counseling and human services; current issues, such as cultural, gender, and other individual differences. Prereq: perm.

Couns 511 **Individual Appraisal II** (2 cr). Application of informal and standardized assessment in various professional settings in counseling and human services; case studies on active clients conducted in accordance with prescribed procedures. Prereq: Couns 510 and perm.

Couns 512 **Techniques of Counseling I** (3 cr). Overview of prevailing theories of counseling; study of predominant approaches, with emphasis on person-centered/existential/gestalt and cognitive/behavioral approaches; didactic and experiential activities to model application of techniques. Prereq: perm.

Couns 513 **Techniques of Counseling II** (2 cr). Review of pertinent counseling theories, stages of the developmental helping process, interpersonal skill building, establishing personal approach. Prereq: Couns 512 and perm.

Couns 514 **Career Development and Lifestyle Planning** (3 cr). Same as VocEd 514. Career development theories, occupational and educational information and systems, career and leisure counseling, life-style and career decision-making, and career development program planning, resources, and evaluation. Prereq: perm.

Couns 515 **Counseling in the Schools** (3 cr). Analysis of developmental approach to school counseling through in-depth study of its potential for application in educational settings; procedures to plan, design, implement, and evaluate developmental school programs are emphasized. Prereq: perm.

Couns 516 **Counseling in the Community** (3 cr). General orientation to environment or systems in which community counseling is provided; specific and unique counseling knowledge and skills for use in these settings. Prereq: perm.

Couns 517 **Group Counseling** (2 cr). Principles, ethics, stages, overview of techniques and theories of counseling in groups. Prereq: Couns 512 and perm; coreq: Couns 518.

Couns 518 **Group Counseling Laboratory** (1 cr). Growth in self-selected area and group skills by participation in counseling group as a member. Graded P/F. One 2-hr lab a wk. Prereq: Couns 512 and perm; coreq: Couns 517.

Couns 519 **Social and Cultural Foundations in Counseling** (3 cr). Studies of societal changes and trends, human roles, societal subgroups, cultural mores and social interaction patterns, and differing lifestyles. Prereq: perm.

Couns 550 **Introduction to School Psychology** (3 cr) (Couns 562). History, role and status, and current issues.

Couns 551 **Psychological Assessment in the Schools** (3 cr). Administration scoring, interpreting, and reporting results of intelligence tests commonly used in school settings.

Couns 560 **Theories of Vocational Choice** (3 cr). Same as VocEd 560. Social, psychological, and economic foundation of vocational choice and adjustment. Prereq: perm.

Couns 561 **Organization and Administration of Guidance Services** (3 cr). Simulated planning, implementation, and evaluation strategies primarily for those anticipating responsibility for administration of counseling services in public schools or community agencies. Prereq: perm.

Couns 565 **Theories of Counseling** (3 cr). Consideration and evaluation of contemporary theories. Prereq: Couns 512 and perm.

Couns 568 **Group Counseling Practicum** (cr arr). Involves co-leading groups and debriefing of the group process. Prereq: Couns 512, 517, and perm.

Couns 597 (s) **Practicum in Counseling** (1-3 cr). Minimum of 50 hrs of closely supervised experience as counselor in a professional setting; includes minimum of 20 hrs of direct contact with clientele, 5 hrs of which must be audio/ videotaped by student and critiqued by assigned university faculty and approved supervisors, per credit; weekly supervision by site supervisor plus weekly individual and group supervision by university personnel. Prereq: Couns 510, 512, 514, and perm.

Couns 598 (s) **Internship** (cr arr). For advanced grad students. Currently offered in counselor education, counselor supervision, college counseling, college student personnel services, school special services, school psychology, school counseling, agency counseling, and private counseling practice. Prereq: perm.

Couns 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Couns 600 **Doctoral Research and Dissertation** (cr arr).

SPECIAL EDUCATION

SpEd 190 (s) **Special Education/Field Experience** (1-3 cr, max 3). Supervised observation and/or instruction with students with disabilities; group discussion sessions. Graded P/F.

SpEd 200 (s) **Seminar** (cr arr). Prereq: perm.

SpEd 204 (s) **Special Topics** (cr arr).

SpEd 275 **Education of People with Disabilities** (3 cr) (C). History of provision of services, major movements, and philosophical changes; overview of legal issues and mandates; discussion of disabilities and their relation to learning and instruction. Prereq: soph standing; coreq: SpEd 190 or perm.

SpEd 280 **Classroom Applications of Learning Theories** (3 cr) (SpEd 323) (C). Overview of learning theories, their histories, and applications in instructional settings; emphasis on behavioral principles and their relationship to instructional strategies; completion of a project in an applied setting. Prereq: SpEd 275 or perm.

SpEd 290 (s) **Special Education/Field Experience** (1-3 cr, max 3). See SpEd 190.

SpEd 299 (s) **Directed Study** (cr arr). Prereq: perm.

SpEd 377 **Curriculum Development for Students with Disabilities** (3 cr). Overview of assumptions and current trends, including legal and cultural issues; application of learning principles and strategies for curriculum development; collaborative development of Individual Education Plans and Transition Plans; methods for evaluating student progress and instructional effectiveness. Prereq: SpEd 275 and 280 or perm; coreq: SpEd 290.

SpEd 378 **Provision of Special Education** (3 cr). Orientation to philosophical underpinnings, advantages and disadvantages of curricular approaches; evaluation, selection, adaptation, and use of curricula; effective instructional strategies including cooperative learning; models of collaboration and staffing strategies; legal and cultural issues. Prereq: SpEd 377 or perm; coreq: SpEd 390.

SpEd 390 (s) **Special Education Lab/Field Experience** (1-3 cr, max 3). See SpEd 190.

SpEd 400 (s) **Seminar** (cr arr). Prereq: perm.

SpEd 403 (s) **Workshop** (cr arr). Prereq: perm.

SpEd 404 (s) **Special Topics** (cr arr).

SpEd J405/J505 (s) **Professional Development** (cr arr). Professional development and enrichment of certificated school personnel. Cr earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/assignments reqd for grad cr.

SpEd 410 **Classrooms for Educating All Students** (2 cr). Emphasis on instruction and staffing strategies to enhance interactions, cooperation, attitudes, and learning of all students within age-appropriate regular classrooms. Prereq: Ed 201, SpEd 275, or a methods course.

SpEd 421 **Family and Community Involvement in Education of Exceptional Individuals** (3 cr). Orientation to involvement of parents and families in education of exceptional individuals, as well as to school and community resources; emphasizes parent-teacher conferencing skills, home-school programming, and identification and use of school and community resources; skills in serving as liaison person with other disciplines and professionals serving the exceptional individual. Prereq: SpEd 275, 280 or perm.

SpEd 425 **Evaluation of Children and Youth** (3 cr). Assessment procedures for identifying educational needs of students with various disabilities, including legal issues and trends. Prereq: SpEd 275 and 280 or perm.

SpEd 450 **Students with Behavior Disorders** (3 cr). Trends, issues, and strategies for developing and implementing educational programs for students who have various behavioral problems, including those who are seriously emotionally disturbed; discussion of models of assessment and service; legal and cultural issues. Prereq: SpEd 378 or perm.

SpEd ID477 **Generating Curriculum: Focus on Students with Moderate and Severe Disabilities** (3 cr). WSU Sp Ed 439. Philosophic assumptions for curricular assessment; use of curricular assessment strategies including at least job-skill inventories, ecological inventories, and parent inventory strategies; instructional strategies, classroom management, and staffing procedures; legal issues in special education. Prereq: SpEd 377 or perm.

SpEd WS478 **Instructional Content and Issues: Focus on Students with Moderate and Severe Disabilities** (3 cr). WSU Sp Ed 440.

SpEd 480 **Practicum** (7 or 14 cr). Dual majors enroll for 7 cr; single majors for 14 cr. Supervised classroom experience with students with disabilities. Graded P/F. Prereq: admission to teacher education, 2.5 GPA, and perm of dept. (Submit application to director of clinical experiences in teacher education by December 1 of school year before enrolling.)

SpEd 487 **Language and Communication Theory and Practice** (3 cr). Review of language, communication, and socio/emotional development; use of assessment information for teaching; legal and cultural issues; models for collaboration; strategies for writing and implementing intervention plans with families and school personnel. Prereq: SpEd 280, 377, or perm.

SpEd 497 **Teaching People Who Are Gifted** (3 cr). Discussion of models of instruction, rationale for services, collaboration with families and school personnel, issues related to identification and instruction of students identified as gifted/talented.

SpEd 499 (s) **Directed Study** (cr arr). Prereq: perm.

SpEd 500 **Master's Research and Thesis** (cr arr).

SpEd 501 (s) **Seminar** (cr arr). Prereq: perm.

SpEd 502 (s) **Directed Study** (cr arr). Prereq: perm.

SpEd 503 (s) **Workshop** (cr arr). Prereq: perm.

SpEd 504 (s) **Special Topics** (cr arr). Prereq: perm.

SpEd 505 (s) **Professional Development** (cr arr). See SpEd J405/J505.

SpEd 522 **Advanced Evaluation Techniques** (3 cr). Models and trends in assessment for early childhood, elementary, and adolescent students who have disabilities; legal and cultural issues. Prereq: SpEd 425 or perm.

SpEd 540 **Behavioral Analysis for Children and Youth** (3 cr). Relationship between learning theory and instruction; principles of behavior analysis; procedures for teaching academic, social, and occupational skills; applied research techniques; ethical, legal, and cultural issues. Prereq: SpEd 280 or perm.

SpEd 541 **Special Education Trends and Issues** (3 cr). Current problems and issues in education of exceptional individuals; alternative solutions to those problems; research bearing on problems and solutions; may include broader social issues in addition to education. Prereq: SpEd 275 or perm.

SpEd 542 **Lifespan Issues for Families of Persons with Disabilities** (3 cr). Issues and concerns of individuals with disabilities and their families; specific theories and strategies involving working with families and accessing educational, financial, residential, and vocational services; strategies for developing positive relationships with families.

SpEd 543 **Physical and Medical Issues** (3 cr). Legal and other issues; implications of physical and medical conditions; models for coordination of services provided in instructional settings; includes field component.

SpEd 545 **Community Programs Seminar** (3 cr). Role of the educator on the interdisciplinary team; determining the need for and delivering ancillary support services.

SpEd 546 **Assessment and Intervention with Persons with Learning Disabilities** (3 cr). Assessment and intervention; models for instruction; issues in identification, labeling, and transition planning; legal and cultural issues. Prereq: SpEd 280 or perm.

SpEd 548 **Special Education Curriculum** (3 cr). Theories of curriculum; models of teaching, instructional strategies, evaluation of student progress and service delivery; issues and trends in special education. Prereq: SpEd 378 or perm.

SpEd 549 **Language, Communication, and Social/Emotional Enhancement** (3 cr). Review of theory and research findings, discussion of current issues, intervention programs and strategies, legal mandates and cultural factors; includes a field component. Prereq: SpEd 487 or perm.

SpEd 550 **Alternative and Augmentative Communication Strategies for Persons with Moderate or Severe Disabilities** (3 cr) (C). A process for decision making, models for assessment, assessment strategies, and implementation steps for designing an alternative or augmentative communication system. Prereq: SpEd 487 or perm.

SpEd 551 **Education of People with Behavior Disorders** (3 cr). Definitions and characteristics of behavior disorders; philosophical orientations to assessment, intervention, and evaluation approaches; quality of life assurances; legal and cultural issues related to assessment and intervention; emphasis given to more severe problems. Prereq: SpEd 280 or perm.

SpEd 560 **Curriculum Development in Early Childhood Special Education I** (3 cr). Typical and atypical development from birth to six years in areas of social and self concepts, language development and disorders, and cognitive and psychological development; assessment and curriculum approaches for each area within legal guidelines of Public Law 99-457.

SpEd 561 **Curriculum Development in Early Childhood Special Education II** (3 cr). Typical and atypical development from birth to six years in areas of physical development, self-care, and medical/biological functioning; assessment and curriculum approaches for each area within legal guidelines of Public Law 99-457.

SpEd 562 **Interdisciplinary Coordination in Early Childhood Special Education** (3 cr). Techniques and strategies for working cooperatively with variety of agencies that serve children with handicapping conditions and their families; focus on effective transitioning stages across agencies for children and their families; includes a practicum stressing interdisciplinary services for children with handicapping conditions. Two lec and 2 hrs of lab a wk.

SpEd ID577 **Education for Students with Moderate and Severe Disabilities** (3 cr). WSU Sp Ed 539. Research studies and curriculum strategies, their impact on curriculum, and new trends; students will learn to use curricular assessment strategies (ecological inventories, job skill and parent inventories), differentiate them from diagnostic strategies, use curricular assessments, philosophic assumptions, principles of normalization, legal requirements of special education to write and implement instructional programs. Coreq: SpEd 597 (practicum for students with severe disabilities).

SpEd WS578 **Instructional Content and Issues: Focus on Students with Moderate and Severe Disabilities** (3 cr). WSU Sp Ed 540.

SpEd 580 **Consulting Teacher** (3 cr). Emphasis on models of consultation; role and responsibility of positions; skills necessary to establish productive, collaborative relationships with school personnel; systems change theory.

SpEd 582 **Administration of Special Education** (3 cr). Overview of administration of special education including legal issues, leadership skills, systems change theory, management of personnel, budget, and effective use of human and fiscal resources.

SpEd 597 (s) **Practicum** (cr arr). Prereq: perm.

SpEd 598 (s) **Internship** (cr arr). Supervised field experience in an appropriate public or private agency. Graded P/F. Prereq: perm.

SpEd 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

SpEd 600 **Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

SPECIAL EDUCATION (B.S.Ed.)

Required course work includes the university requirements (see regulation J-3), the general requirements for students preparing to teach at the elementary or secondary level, and the following courses (which will qualify the student for the Exceptional Child Certificate and Generalist endorsement):

Course	Credits
SpEd 190, 290, 390 Special Education/Field Experience (1 cr each)	3
SpEd 275 Education of People with Disabilities	3
SpEd 280 Classroom Applications of Learning Theories	3
SpEd 377 Curriculum Development for Students with Disabilities	3
SpEd 378 Provision of Special Education	3
SpEd 421 Family & Community Involvement	3
SpEd 425 Evaluation of Children & Youth	3
SpEd 450 Students with Behavior Disorders	3
SpEd 480 or SpEd 480 and Ed 430 or SpEd 480 and Ed 431 Practicum	14
SpEd 487 Language & Communication Theory & Practice	3

And the satisfactory completion of one of the following options:

- Completion of all requirements for the B.S.Ed. degree in secondary ed (leads to certification in both secondary ed and special ed); or
- Completion of all requirements for the B.S.Ed. degree in elem ed (leads to certification in both elem ed and special ed); or
- Completion of one subject matter minor and an approved minor in elem ed (leads to certification in special ed but not in elem ed; certification in elem ed requires completion of all requirements specified for elem ed majors).

CRIMINAL JUSTICE—see Department of Sociology and Anthropology

DANCE—see Division of Health, Physical Education, Recreation and Dance

Department of Economics

Jon R. Miller, Dept. Head (342A Admin. Bldg.; 208/885-6294). Faculty: Richard B. Coffman, Michael J. DiNoto, S. M. Ghazanfar, Catherine A. Hofmann, John W. Knudsen, R. Ashley Lyman, Jon R. Miller, John T. Wenders.

Economics deals with how people choose among alternatives and then exchange with others based on these choices. Because many choices are made in the private sector of the economy, economics majors study consumer behavior, business behavior, and the workings of markets. Because many other choices are made in the public sector, economics majors study public finance, government decision-making, and the behavior of bureaucracies. Problems of inflation, unemployment, economic growth and development, regional and labor economics, and international trade are also studied.

However, because choice and exchange are basic to much human activity, the tools of economics are applicable to many areas of human behavior other than those conventionally thought of as economic. Increasingly, economic concepts are being used in other disciplines such as business, law, political science, history, and the social sciences. Thus, in addition to providing an understanding of economic phenomena, economics also provides a discipline of mind and an approach that are widely applicable. For these reasons, economics is often chosen as a major by students who do not intend to become professional economists. Economics has traditionally been attractive as a major to those preparing for careers in business, MBA study, law school, government, and public administration. Many successful business and professional people have majored in economics as undergraduates.

The wide applicability of economic training also means that there are many employment opportunities for professional economists. Careers as a professional economist usually require graduate training. The undergraduate majors provide an opportunity to prepare for successful graduate work. Students intending to attend graduate school in economics are expected to consult with faculty members for specific advice on their undergraduate course selections.

The department offers three undergraduate economics degree programs, one in the College of Business and Economics and two in the College of Letters and Science. The essential difference among these programs is that those in the College of Letters and Science require fewer business courses and allow more electives. The less structured programs in this college are in the liberal arts tradition. A

minor in economics is also offered through the College of Letters and Science.

The Department of Economics also offers an integrated course of graduate study oriented toward policy analysis and applied studies. Two types of master's degrees are offered: (1) a thesis degree, which provides specialized research experience for careers requiring such expertise, and (2) a nonthesis degree, which provides a broader background for careers where research competence may be desirable but is not of primary importance.

Applicants for graduate study in economics are considered on the basis of their prior academic performance and their potential for success in the program. The undergraduate degree need not be in economics, though a minor in economics is desirable. Students with a minimal background in economics will be required to take certain undergraduate courses that may not be included in the graduate study plan.

Economics Courses

Note: Enrollment in 300- and 400-level economics courses is restricted to students who have completed at least 58 credits. In addition, CBE students must have earned at least a 2.4 GPA in the CBE predictor courses.

No course (CBE or outside the college) that is required in a CBE student's major may be taken by CBE undergraduates on a P/F basis, with the exception of courses that are taught only on a P/F basis. Only upper-division CBE courses used as free electives may be taken by CBE undergraduates on a P/F basis.

Students who have not completed the prerequisites to a course for which they are otherwise eligible may register for the course with the instructor's approval.

Econ 100 Contemporary Economics (3 cr). Economic issues and the economic principles involved. One semester survey course for nonmajors; less technical than Econ 201 and 202. Carries no cr after Econ 201 and 202.

Econ 201, 202 Principles of Economics (3 cr) (C) (Econ 151, 152). Satisfies core requirement J-3-d. May be taken in either order. Econ 201: organization and operation of American economy; supply and demand, money and banking, macroeconomic analysis of employment, aggregate output and inflation, public finance, and economic growth. Econ 202: microeconomic principles governing production, price relationships, and income distribution. Econ 201 and 202 carry only two cr each after 100. May involve some evening exams.

Econ 204 (s) Special Topics (cr arr). Prereq: perm.

Econ 272 Foundations of Economic Analysis (4 cr). Satisfies core requirement J-3-d. Not open to students who have taken Econ 201 and 202 or equivalent. Concepts underlying micro- and macroeconomic analysis. Econ 272 carries only three cr after 100. Prereq: Math 111 and 160 or equiv.

Econ 299 (s) Directed Study (cr arr).

Econ 316 Economics of Regulation (3 cr) (Econ 416). Analysis of rationale and effects of governmental regulation of marketplace; alternative theories of regulation; theories of market failure and governmental failure; rent seeking and dissipation; public utilities; selected case studies. Prereq: Econ 202 or 272 or perm.

Econ 343 Money and Banking (3 cr) (C) (Econ 403). Influence of money and banking on economic activity; influence of monetary policies to achieve society's econ goals. May include evening exams. Prereq: Econ 201 and 202 or 272.

Econ 345 American Economic Development (3 cr) (Econ 435). Patterns and causes of change in the American economy from colonial times to the present. Prereq: Econ 100 or 201 and 202 or 272.

Econ 351 Intermediate Macroeconomic Analysis (3 cr) (Econ 372). Theory of the economy as a whole; national income accounting as a tool of analysis; national output and income, employment, price levels, and growth. Prereq: Econ 201 and 202 or perm.

Econ 352 Intermediate Microeconomic Analysis (3 cr) (Econ 321). Theory of the consumer, firm, industry, market, price determination, and allocation of productive resources. Prereq: Econ 201 and 202 or perm.

Econ 353 Quantitative Methods in Economics (3 cr) (Econ 436). Quantitative economic analysis such as basic econometric models, forecasting, and mathematical methods; computer applications. Prereq: Econ 201, 202, and Stat 251.

Econ 385 Environmental Economics (3 cr) (Econ 485). Theory of externalities and public goods, and application of economic principles to environmental issues. Prereq: Econ 202 or 272 or perm.

Econ 390 Comparative Economic Systems (3 cr) (Econ 490). International comparisons of the origin, development, and attributes of the world's economic systems. Prereq: Econ 100 or 201 and 202 or 272.

Econ 399 Economics Internship Program (1-3 cr, max 6). Enrollment restricted to economics majors; may not be used to fulfill upper-division economics requirement in any of the three economics degree programs. Graded P/F. Relevant learning experience in business and government. Prereq: perm.

Econ 400 (s) Seminar (cr arr). Prereq: perm.

Econ 402 (s) Workshop (cr arr). Prereq: perm.

Econ 404 (s) Special Topics (cr arr). Prereq: perm.

Econ 409 Public Finance (3 cr). Role of government in a market economy; public choice and collective decision-making; tax-shifting and incidence; structure and economics of federal taxes; governmental budgeting; public debt; special topics. Prereq: Econ 201 and 202, or 272.

Econ 410 State and Local Government Finance (3 cr). Fiscal federalism and the role of state-local jurisdictions, patterns and determinants of expenditures, structure and economic effects of revenue sources (e.g., sales, income, property taxation), urban fiscal problems, intergovernmental relations, and future trends. Prereq: Econ 201 and 202 or 272.

Econ 415 Market Structure and Governmental Policy (3 cr). Analysis of economic behavior under different market structures, e.g., competition, monopoly, oligopoly, monopsony, oligopsony, bilateral monopoly and cartels; theory of contestable markets; antitrust; regulation; selected case studies. Prereq: Econ 202 or 272 or perm.

Econ ID430 Regional/Urban Economics (3 cr). WSU Econ 475. Location of economic activity, transportation problems, resource and product distribution methods, urban structure and growth, and related policy issues. Prereq: Econ 201 and 202 or 272.

Econ 441 Labor Economics (3 cr). Structure and composition of the labor force, wages and employment, human resources, income-maintenance program, and related policy issues. Prereq: Econ 201 and 202 or 272.

Econ 446 International Economics (3 cr) (Econ 474). Analysis of international trade and financial transactions; trade policy; foreign exchange markets; adjustment processes; and international monetary system. May include evening exams. Prereq: Econ 201 and 202, or 272.

Econ 447 Economics of Developing Countries (3 cr) (Econ 477). Same as AgEc 477. Characteristics of underdevelopment; historical perspective; theories and policies; development problems, e.g., poverty and income distribution, population, urban-rural migration and unemployment, agriculture, trade, aid, investment, debt; future prospects. Prereq: Econ 201 and 202, or 272, or perm.

Econ 453 Econometrics (3 cr) (Econ 433). Same as Stat 433. Use of quantitative techniques to analyze and test economic theories. Prereq: Stat 251 or equiv stat, and Math 160 or 180.

Econ J455/J555 History of Economic Thought (3 cr) (Econ J405/J505). Development of economic thought; special focus on selected schools, including Greeks, Scholastics, Mercantilists, Physiocrats, Classical, and neo-Classical. Additional projects/assignments reqd for grad cr. Prereq: Econ 351, 352, and 353.

Econ 490 Economic Theory and Policy (3 cr). A capstone course for economics majors that integrates the theory, quantitative methods, and policy in the undergraduate economics major. Prereq: Econ 351, 352, 353.

Econ 493-494 Seminar in Urban Studies (2 cr). See Inter 493-494.

Econ 499 (s) Directed Study (cr arr).

Econ 500 Master's Research and Thesis (cr arr).

Econ 501 (s) Seminar (cr arr). Prereq: perm.

Econ 502 (s) Directed Study (cr arr). Prereq: perm.

Econ 504 (s) Special Topics (cr arr). Prereq: perm.

Econ 507 Research Methodology (3 cr). See AgEc 507.

Econ 509 Advanced Microeconomic Theory I (3 cr). Same as AgEc 509. Neoclassical theory of consumption, production, distribution, and capital; development and use of comparative static tools of analysis. Prereq: Econ 352 or perm.

Econ 510 Advanced Microeconomic Theory II (3 cr). Same as AgEc 510. Current development in microeconomic theory and policy. Prereq: Econ 509 or perm.

Econ 522 Advanced Aggregate Economics (3 cr). Same as AgEc 522. Theory of national income determination and stabilization policy in a monetary economy. Prereq: Econ 351 or perm.

Econ 524 Theory of Economic Development (3 cr). Macrodynamc theory as it relates to economic growth; conditions for and process of economic development and its significance to new areas and underdeveloped areas. Prereq: Econ 351 and 352.

Econ 525 Econometrics (3 cr). See AgEc 525.

Econ 526 Economics of Business Decisions (3 cr). Carries no credit after Econ 509 or 510. Applied microeconomics, covering topics such as theory of demand, production, cost, forecasting, capital budgeting. May involve some evening exams. Prereq: perm.

Econ 555 History of Economic Thought (3 cr). See Econ J455/J555.

Econ 597 (s) Practicum (cr arr). Prereq: perm.

Econ 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

ECONOMICS (B.S.Bus.)

This program is offered through the College of Business and Economics.

Students preparing for professional careers as economists in private business, government service, or careers where a broad knowledge of economics is useful should elect this curriculum.

Required course work includes the university requirements (see regulation J-3), the college requirements, and:

Course	Credits
Econ 351 Intermediate Macroeconomic Analysis	3
Econ 352 Intermediate Microeconomic Analysis	3
Econ 353 Quantitative Methods in Economics or Econ 453 Econometrics	3
Econ 455 History of Economic Theory	3
Econ 490 Economic Theory & Policy	3
Additional upper-division cr in economics	6
Upper-division courses in related field areas, with approval of department	9

ECONOMICS (B.A.)

This program is offered through the College of Letters and Science.

Required course work includes the university requirements (see regulation J-3), the general College of L & S requirements for the B.A. degree, and:

Course	Credits
Econ 201, 202 Principles of Economics	6
Econ 351 Intermediate Macroeconomic Analysis	3
Econ 352 Intermediate Microeconomic Analysis	3
Econ 353 Quantitative Methods in Economics or Econ 453 Econometrics	3
Econ 455 History of Economic Thought	3
Econ 490 Economic Theory & Policy	3
Acctg 201 Introduction to Financial Accounting	3
Math 111 Finite Mathematics or Math 140 Pre-calculus Algebra & Analytic Geom and Phil 211 Intro to Symbolic Logic	4-6
Stat 251 Principles of Statistics	3
Additional upper-division credits in economics	9
Upper-division credits in anthro, geog, hist, political sc, psych, or soc (at least 9 credits in one social sc)	15

ECONOMICS (B.S.)

This program is offered through the College of Letters and Science.

Required course work includes the university requirements (see regulation J-3), the general College of L & S requirements for the B.S. degree, and:

Course	Credits
Econ 201, 202 Prin of Econ or 272 Foundations of Econ Analysis	6
Econ 351 Intermediate Macroeconomic Analysis	3
Econ 352 Intermediate Microeconomic Analysis	3
Econ 353 Quantitative Methods in Economics or Econ 453 Econometrics	3
Econ 455 History of Economic Thought	3
Econ 490 Economic Theory & Policy	3
Acctg 201 Introduction to Financial Accounting	3
Math 111 Finite Mathematics	4
Math 160 Survey of Calculus or 180 Analytic Geometry & Calculus I	4
Stat 251 Principles of Statistics	3
Additional upper-division cr in economics	9
Upper-division social sc credits (credits earned in math beyond the stated requirement will be accepted)	15

Academic Minor Requirements

ECONOMICS MINOR

This academic minor is offered through the College of Letters and Science.

Course	Credits
Econ 201, 202 Prin of Econ or 272 Foundations of Econ Analysis	4-6
Econ 351 Intermediate Macroeconomic Analysis	3
Econ 352 Intermediate Microeconomic Analysis	3

And one of the following areas (with the permission of the student's adviser, the student may petition to have one substitute course for one of the following specific courses):

Course	Credits
Econ 343 Money & Banking	3
Econ 353 Quantitative Methods in Economics	3
Econ 453 Econometrics	3

Public Policy

Econ 345 American Econ Dev or 390 Comparative Econ Systems	3
Econ 409 Public Finance or 410 State & Local Govt Finance	3
Econ 415 Market Structure & Govt Policy	3

Development

Econ 430 Regional/Urban Economics	3
Econ 446 International Economics	3
Econ 447 Economics of Developing Countries	3

Economic Resources

Econ 385 Environmental Economics	3
Econ 441 Labor Economics	3
Course approved by student's adviser	3

EDUCATION—see Division of Teacher Education

Department of Educational Administration

Norman N. Hallett, Dept. Chair (510 Educ. Bldg.; 208/885-7536). Faculty: Gary C. Alexander, Jack L. Dawson, Gary Delka, Richard D. Gibb, Norman N. Hallett, Carolyn Keeler, Roger Reynoldson, Michael E. Tomlin.

The Department of Educational Administration provides programs for the preparation of school administrators and for persons interested in teaching or administration in institutions of higher learning. Master's, specialist, and doctoral degrees may be earned in the department.

It is widely acknowledged that leadership is a key ingredient in effective schools. The development of leadership capabilities is enhanced by systematic study of factors that contribute to the human, conceptual, and technical skills required for effective leadership.

The department offers an array of courses that draw on significant research and experience in management and the supervision of instruction. The training program for prospective school principals includes courses in personnel administration, the principalship, research interpretation and use, the organization and administration of schools in America, supervision, school law, curriculum design, and interpersonal relations. Certification as a school principal accompanies successful completion of master's degree requirements in school administration.

At the specialist degree level, the training emphasis is aimed at superintendent certification for students who have master's degrees in administration. Students with master's degrees in related fields may achieve principal certification with a specialist degree.

The specialist degree further expands leadership training in school/community relations, school facilities planning, school finance, curriculum evaluation, and theory in administration. Persons seeking certification in these programs must also enroll as interns for two semesters. All certification and degree programs require comprehensive examinations.

At the doctoral level, the department offers individualized programs of study leading to Ed.D. or Ph.D. degrees. Programs may be directed to administration or teaching in higher education or toward significant leadership positions in public schools and other related agencies.

Persons interested in degree programs or administrative certification programs should contact the dean of the College of Education or members of the departmental faculty.

Educational Administration Courses

EdAd 500 **Master's Research and Thesis** (cr arr).

EdAd 501 (s) **Seminar** (cr arr). Prereq: perm.

EdAd 502 (s) **Directed Study** (cr arr). Prereq: perm.

EdAd 504 (s) **Special Topics** (cr arr). Prereq: perm.

EdAd 505 (s) **Professional Development** (cr arr). Professional development and enrichment of certificated school personnel. Cr earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program.

EdAd 506 **Elementary Educational Administration** (3 cr). Patterns of organization in grades K-6; problems and techniques. Prereq: teaching credential.

EdAd 508 **Secondary Educational Administration** (3 cr). Problems of organization, administration, and supervision of the secondary school; problems of small high schools.

EdAd ID&WS509 Educational Administration (2-3 cr). WSU Ed Ad 580. Principles and problems of organization and administration of American education, including local, regional, and state systems.

EdAd 534 The Principalship (3 cr). Prepare students for assuming the role of elementary or secondary school principal; emphasis on skills reqd for confidence in the role of principal.

EdAd ID&WS535 School Finance (3 cr). WSU Ed Ad 585. Theory and application of financing schools; application to Idaho schools. Prereq: EdAd 509.

EdAd 540 Middle School Curriculum and Program Management (3 cr). Knowledge base about middle level educational programs, organizational patterns, instructional structures and practices; middle school and its essential characteristics; leadership roles of administrators, teachers, and counselors in middle school; future trends in middle level education.

EdAd 586 Advanced School Finance (3 cr). Economic principles to provide insights into practical matters relating to school finance for principals, teachers, business managers, and other school officials; issues of educational productivity, allocation of resources, efficiency, equity, and liberty; review of basic accounting principles and requirements applying to both district and building levels. Prereq: EdAd 535.

EdAd 587 The Superintendency (2 cr). Prepare students for assuming the role of superintendent of schools; emphasis on research-based role expectation and practical guidelines for superintendent behavior.

EdAd 588 Critique of Research (2 cr). Research design and methods applicable to the dissertation; dissertation content, format, and style; primarily for educational administration doctoral students who have completed most of their course work; emphasis on review of educational administration doctoral dissertations and peer-reviewed literature. Prereq: Stat 251 or equiv, Ed 582 or equiv, enrollment in a doctoral preparation program, or perm.

EdAd 591 Administration of Personnel (3 cr). Selection, placement, and evaluation of teachers and administrators; salary schedules; school policies; teacher organizations and related matters.

EdAd 592 School-Community Relations (3 cr). Interpreting the schools to the public, two-way flow of ideas between school and community.

EdAd 593 School Facilities Planning and Maintenance (3 cr). Planning new school facilities; facility maintenance; legal provisions involving financing; preliminary surveys of need; relationships with architects and contractors.

EdAd 594 Theory in Educational Administration (3 cr). Theories from psychology, sociology, and cultural points of view applied to school administration; problem solving/decision making; case study approach. Prereq: EdAd 509.

EdAd 595 Higher Education (3 cr). College and university education in the U.S.; history, objectives, organization, finance, instructional methods, faculty, and student problems.

EdAd 596 Collective Negotiations for Teachers (3 cr). Collective negotiations in public education; recognition of bargaining agent; appropriate unit; unit determination; representation and recognition procedures; scope and process of negotiations; bargaining and impasse procedures; collective agreements; impact of collective negotiations.

EdAd 598 (s) Internship (cr arr). Interns assigned for two semesters to practicing administrators in elementary or secondary schools or in district offices or in appropriate offices in higher education. Graded P/F. Prereq: substantial completion of certification program.

EdAd 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

EdAd 600 Doctoral Research and Dissertation (cr arr).

in Computer Engineering. This program, which includes intensive study of basic courses in electrical engineering and computer science, was created in response to high employer demand for computer engineering graduates.

Graduates in electrical engineering apply technical skills and knowledge to problems in such areas as energy, computers, instrumentation, microprocessors, electrical power, electronics, and communication systems. The range of needs in these areas provide career opportunities in design, production, reliability and quality control, research and development, marketing and sales, education, technical management, and plant operations. Demand for electrical engineering graduates suggests that employment opportunities are strong.

Electrical and computer engineering are extremely rewarding fields; they also are demanding occupations. The high-school student planning to enter an engineering career should prepare for entrance into UI by taking at least three years of mathematics (including advanced algebra and trigonometry) and three years of natural science (including chemistry and physics). Deficiencies in high school can be made up on campus, but at the cost of delaying the regular degree program.

On campus, the freshman year curriculum is similar for all engineering students. It is a busy year of adjustment and foundational study of science and mathematics. It involves graphics and written communication, introductory calculus, chemistry, physics, and computer programming.

During the sophomore and junior years, the EE student continues with his or her academic program. This program is developed by consultation with an academic adviser from the EE departmental faculty. Students study topics in electronics, electrical machines, digital logic and microprocessors, electromagnetic fields, and analysis of signals and dynamic systems after taking introductory circuits and laboratories. These introductory courses allow students to experiment with single circuits and familiarize themselves with laboratory instruments. Additional laboratory classes during this time further develop the student's understanding of concepts presented in lecture classes while introducing some of the practical problems that arise in hardware.

As a senior, the student will take a two-semester sequence in electrical engineering design that involves both individual and team design projects. The senior student selects technical elective courses primarily from the advanced elective courses that are offered in electrical engineering. These include specialized topics in digital logic and design, computer methods in electrical power systems, feedback control systems, advanced electronics, communication theory, analysis and applications of microprocessors, and antennas and microwave devices.

Eighteen credits of technical elective courses are required by the Electrical Engineering Department. Twelve of these eighteen credits must be upper-division electrical engineering courses, including at least nine credits from the following list of courses: EE 411, 421, 435, 440, 452, 470. The remaining six credits of technical electives must be selected from upper-division courses in electrical engineering or appropriate supporting areas. These support areas include mechanical engineering, civil engineering, chemical engineering, engineering science, computer science, physics, mathematics, and statistics.

The eighteen credits of technical electives are separate from, and in addition to, the required three credits of engineering science electives that must be chosen from upper-division courses.

The Department of Electrical Engineering has offices and laboratory rooms in two campus buildings, the Buchanan Engineering Laboratory (BEL) and the Johnson Electrical Laboratory (JEL). The seven laboratories consist of electronics, senior design, digital logic, and computers in BEL, and electrical circuits, microwaves, and electrical machines in JEL. In addition, laboratory space is used for microprocessor system development and testing. The computer laboratory includes a large number of desk-top personal computer systems, a minicomputer system with many terminals,

Department of Electrical Engineering

Joseph J. Feeley, Dept. Chair (214 Buchanan Engr. Lab.; 208/885-6554). Faculty: David H. Atkinson, Howard B. Demuth, Joseph J. Feeley, Calvin L. Finn, James F. Frenzel, Karen Z. Frenzel, Brian K. Johnson, John Law, Joseph D. Law, Harry W. Li, Douglas W. Lynn, Kenneth V. Noren, James N. Peterson, John E. Purviance, Richard W. Wall, Jeffrey L. Young.

The Department of Electrical Engineering provides students the opportunity to receive a solid education in the fundamentals of electrical circuits, electronics, and electrical machines, as well as to explore advanced topics through technical elective courses taken primarily in the senior year. Included in the curriculum is a heavy emphasis on mathematics, along with courses in physics, chemistry, technical writing, humanities, and social sciences. This program, leading to the degree of Bachelor of Science in Electrical Engineering, produces graduates with the technical skills needed for stepping into challenging careers with a wide variety of companies and for continuing their education in new and changing areas.

The Department of Electrical Engineering, in cooperation with the Department of Computer Science, also offers a Bachelor of Science

microprocessor instructional systems, and several specialized computer systems for developing microprocessor software and other dedicated computing.

Note: In addition to college requirements for admission to classes (see "Admission to Classes" under College of Engineering, part four), students majoring in electrical engineering or computer engineering must pass a qualifying examination as prerequisite to any upper-division course in electrical engineering or computer engineering except EE/CompE 340 and EE/CompE 344. Adviser's approval is required for admission to all EE and CompE courses.

Courses

COMPUTER ENGINEERING

CompE 340 **Digital Logic** (3 cr). See EE 340.

CompE 344 **Logic Circuit Lab** (1 cr). See EE 344.

CompE 440 **Digital Systems Engineering** (3 cr). See EE 440.

CompE 441 **Computer Organization** (3 cr). See EE 441.

CompE 480-481 **Computer Systems Design Projects** (3 cr). Application of formal software and hardware design techniques, hardware/software interface considerations, project management, economics, reliability, and patents; projects require a combination of hardware and software system design, working model, and oral and written report. Two lec a wk; significant lab work reqd. Prereq for CompE 480: EE 316, 317; CompE 340, 344; CS 213, 241, 310; or perm. Prereq for CompE 481: EE 350, CompE 441, 480, and CS 341, or perm.

ELECTRICAL ENGINEERING

EE 204 (s) **Special Topics** (cr arr). Prereq: perm.

EE 207 **Introduction to Electrical Engineering** (3 cr). Not open for cr to electrical engineering majors. Power and energy concepts, circuit analysis, transient and steady state behavior, resonant systems, system analysis; elem differential equations will be introduced to solve basic transient problems. Prereq: Math 190, Phys 211.

EE 210 **Electrical Circuits I** (3 cr). Intro to d.c. and transient electrical circuits; mesh and nodal analysis; dependent sources; circuit theorems; transient analysis with differential equations. Three lec and one recitation a wk. Coreq: Math 310, Phys 211.

EE 211 **Electrical Circuits Lab I** (1 cr). Lab to accompany EE 210. Lab experiments and computer simulations. One 3-hr lab a wk. Coreq: EE 210, Phys 213.

EE 212 **Electrical Circuits II** (4 cr). Continuation of EE 210. Intro to sinusoidal steady state circuits; time and frequency domain analysis; Laplace and Fourier transforms and Fourier series; transfer functions, Bode plots, filters, transformers, polyphase circuits. Four lec and one recitation a wk. Prereq: EE 210, Math 310, Phys 211.

EE 213 **Electrical Circuits Lab II** (1 cr). Lab to accompany EE 212. Continuation of EE 211. Lab experiments and computer simulations. One 3-hr lab a wk. Prereq: EE 211, Phys 213; coreq: EE 212.

EE 292 **Sophomore Seminar** (0 cr). Curriculum options, elective courses, preparation for graduate study, and current technical topics. Field trip may be reqd. Graded P/F.

EE 314 **Electronic Systems** (3 cr). Not open for cr to electrical engineering majors. Electronic devices and systems. Three lec a wk. Prereq: EE 210 or 207.

EE 315—see "Background Courses" below.

EE 316 **Electronics I** (3 cr). Intro to application of electronic devices in electrical networks: diodes, rectifiers, power supplies, and thermal management; bipolar junction transistor principles, biasing, modeling and low-frequency, small signal applications; field effect transistor principles, biasing, modeling, and low-frequency, small-signal applications; operational amplifier fundamentals and applications. Prereq: EE 212, 213.

EE 317 **Electronics I Lab** (1 cr). Lab to accompany or follow EE 316. Prereq or coreq: EE 316.

EE 318 **Electronics II** (3 cr). Electronic amplifier frequency response (magnitude and phase); RC coupled amplifiers in cascade; large-signal amplifiers; implications of saturation and cut-off; feed-back amplifiers; intro to analog IC implementation. Prereq: EE 316, 317.

EE 319 **Electronics II Lab** (1 cr). Lab to accompany or follow EE 318. Prereq or coreq: EE 318.

EE 320 **Electric Machinery** (5 cr). Theory and application of electric machinery and transformers. Four lec and one 3-hr lab a wk. Prereq: EE 212, 213, Phys 211.

EE 321—see "Background Courses" below.

EE 324 **Electric Machinery** (3 cr). For nonmajors. Magnetic circuits and electromechanical energy converting systems; theory and characteristics of common AC and DC machinery. Two lec and one 3-hr lab a wk. Prereq: EE 210 or 207.

EE 330 **Electromagnetic Theory** (4 cr). Vector calculus; electrostatics, electrodynamics; electromagnetic waves in isotropic media; Maxwell's equations; boundary value problems. Prereq: Math 200, 310, Phys 211.

EE 331—see "Background Courses" below.

EE 340 **Digital Logic** (3 cr). Same as CompE 340. Number systems, truth tables, logic gates, flip-flops, combinational and synchronous sequential circuits using SSI, MSI, and programmable devices; intro to digital systems and basic microprocessor architecture; certification exam not reqd.

EE 341—see "Background Courses" below.

EE 344 **Logic Circuit Lab** (1 cr). Same as CompE 344. Open lab to accompany EE 340. Design and construction of combinational and synchronous sequential logic circuits; certification exam not reqd. One 1-hr lec a wk.

EE 350 **Signals and Systems Analysis** (4 cr). Continuous and discrete, linear time-invariant systems; Laplace transforms; frequency transforms; Fourier series and transforms, DTFT and DFT; modulation; sampling and reconstruction; Z-transforms and discrete time systems. Prereq: EE 212.

EE 351—see "Background Courses" below.

EE 401 **Advanced Circuit Theory** (3 cr). Passive and active electrical networks; frequency response and complex frequency domain analysis, includes pole-zero considerations, root locus, and sensitivity functions. Prereq: EE 212, 213.

EE 404 (s) **Special Topics** (cr arr). Prereq: perm.

EE J411/J511 **Pulse and Digital Circuits** (3 cr). Electronic switching, timing, and pulse-shaping techniques; logic functions, realization with diodes, transistors, and FETs. Additional projects/assignments reqd for grad cr. Prereq: EE 316, 318, and access to and familiarity with "SPICE" simulation program.

EE J413/J513 **Communication Circuits** (3 cr). Noise calculations and consideration in communication circuits, matching networks and impedance transformations, small signal HF amplifiers, sinewave oscillators, mixers and frequency changers, amplitude modulators and detectors, frequency modulators and discriminators, "linear" power amplifiers, tuned power amplifiers. Additional projects/assignments reqd for grad cr. Prereq: EE 318 and access to and familiarity with "SPICE" simulation program.

EE J414/J514 **Analog Integrated Circuit Analysis and Design** (3 cr). Alt/yrs. Extension of biasing and signal analysis, active current sources and loads, frequency response analysis and compensation techniques and analysis of currently available integrated circuits. Additional projects/assignments reqd for grad cr. Prereq: EE 316.

EE J415/J515 **Advanced Integrated Circuit Analysis and Design** (3 cr). CMOS technology, modeling and subcircuits plus amplifier, comparator and converter analysis and design. Additional projects/assignments reqd for grad cr. Prereq: EE 316.

EE 416 **Linear Integrated Circuit Applications** (3 cr). Alt/yrs. Theory and practical implementation of operational amplifiers, voltage regulators, video amplifiers, and special purpose integrated circuits such as modulators, demodulators, phase locked loops, nonlinear circuits, charge-transfer devices, transducers, and optoelectronic circuits. Prereq: EE 318 or perm.

EE 421 **Introduction to Power Systems** (3 cr). Power and energy relationships in power systems, multiphase generators, lines and transformers; power system representation, network solution, and intro to symmetrical components. Prereq: EE 320.

EE 422 **Power Systems Analysis** (3 cr). Principles of power flow, fault and stability analysis; computer methods; load flow and econ dispatch. Prereq: EE 421.

EE 424 **Power Electronic Circuits** (3 cr). Characteristics, limitations, and application of solid-state power devices; transistors and thyristors as power switching devices, gating techniques, snubbers; switch-mode power supplies, AC phase control, choppers, rectifiers, inverters, resonant converters, and practical aspects of converter design. Prereq: EE 318, EE 320.

EE 425 **Power Electronics Lab** (1 cr). Measurement of operating characteristics of power semiconductors; experiments include testing of typical power converter circuits with emphasis on control, gating, protection requirements, and measurement techniques. Prereq or coreq: EE 424.

EE 432 **Applications of Electromagnetic Theory** (3 cr). Maxwell's Equations; Poynting's vector and Poynting's Theorem; wave equation with solutions (vector and scalar, homogeneous and inhomogeneous), Helmholtz equation; plane waves, reflection and refraction; introduction to classical electrodynamics, radiation from accelerated charges; introduction to antenna theory; transmission lines; waveguides and fiber optics; topics in wave propagation (microwave communication systems, wave propagation through the atmosphere, ionosphere, and magnetosphere, etc.). Prereq: EE 330 or perm.

EE 435 **Microwave Engineering** (3 cr). Intro to transmission line theory, impedance matching, Smith Chart; N-port descriptions, microwave amplifiers, resonators and sources; antennas and their properties; measurement techniques. Two lec and one 3-hr lab a wk. Prereq: EE 330 or perm.

EE 440 **Digital Systems Engineering** (3 cr). Same as CompE 440. Advanced topics in combinational logic design such as iterative logic arrays, hazard free design, and VLSI logic implementations; study of asynchronous and synchronous sequential circuits, combinational and sequential circuit design with PLA's; register transfer language design of digital systems including data path and control structures with TTL including timing analysis. Prereq: EE 340, 344.

- EE 441 Computer Organization** (3 cr). Same as CompE 441. Register transfer language design of micro and mini computer systems; micro and mini architectures including interrupt structures and software control; 8-bit and 16-bit microprocessor design including associated interfacing with RAM, ROM, and I/O. Prereq: EE 340.
- EE 443 Microcontrollers** (3 cr). Computer arch, combinational and synchronous logic design and implementation; basic software considerations and hardware designs for microprocessor-based controllers. Prereq: EE 340.
- EE 445 Introduction to VLSI Design** (3 cr). Principles of design of very large scale integrated circuits; CMOS logic design; transistor sizing and layout methodologies; intro to IC CAD tools. Prereq: EE 316, 340 or perm.
- EE 452 Communication Systems** (3 cr). Linear and exponential modulation, noise, digital communication systems, intro to information theory. Prereq: EE 350.
- EE ID455 Coding and Information Theory** (3 cr). WSU E E 455. Intro to coding: error-detecting codes, error-correcting codes, source codes, modulation codes, applications; intro to information theory; entropy, mutual information, channel capacity. Prereq: EE 350.
- EE 470 Control Systems** (3 cr). Control system design, frequency and time domain methods; performance specifications; computer control and computer-aided design. Prereq: EE 350.
- EE 476 Digital Filtering** (3 cr). Design methods for recursive and non-recursive filters; frequency domain characteristics; computer-aided design; applications. Prereq: EE 350.
- EE 477 Digital Process Control** (3 cr). See ChE 445.
- EE 480-481 Senior Design** (3 cr). Computer-aided techniques, economics, marketing, reliability, and patents; projects require original design, working model, and report. Two lec and one 3-hr lab a wk. Prereq for EE 480: EE 318, 319, 320, 340, 344, or perm. Prereq for EE 481: EE 330, 350, 480, or perm.
- EE WS483 Numerical Solutions to Electromagnetic Problems** (3 cr). WSU E E 483.
- EE 486 Solid-State Electronics** (3 cr). Physical electronics; diode and transistor models; noise mechanics. Prereq: EE 330.
- EE 491 Senior Seminar** (0 cr). Technical topics, employment practice, and interviewing. One lec a wk; one 3-6 day field trip may be required. Graded P/F.
- EE 493 Thesis** (3 cr, max 6). Original investigation or dissertation upon some subject in electrical engineering. Prereq: sr standing and perm.
- EE 499 (s) Directed Study** (cr arr). Prereq: perm.
- EE 500 Master's Research and Thesis** (cr arr).
- EE 501 (s) Seminar** (cr arr). Prereq: perm.
- EE 502 (s) Directed Study** (cr arr). Prereq: perm.
- EE 504 (s) Special Topics** (cr arr). Prereq: perm.
- EE 511 Pulse and Digital Circuits** (3 cr). See EE J411/J511.
- EE 512 Active Network Synthesis** (3 cr). Pole-zero positioning with dependent sources; realization techniques for second order filter functions using active devices; transfer function approximation for higher-order systems; function transformations, intro to switched-capacitor techniques. Prereq: EE 401 and SPICE access, or perm.
- EE 513 Communication Circuits** (3 cr). See EE J413/J513.
- EE 514 Analog Integrated Circuit Analysis and Design** (3 cr). See EE J414/J514.
- EE 515 Advanced Integrated Circuit Analysis and Design** (3 cr). See EE J415/J515.
- EE WS519 Data Conversion** (3 cr). WSU E E 596.
- EE 520 Advanced Electrical Machinery** (3 cr). Synchronous machines and transformers, machine transient and subtransient reactances, excitation and voltage regulation, power curves, transformer connections, impedance, harmonics, and impulse characteristics. Prereq: EE 422.
- EE 521 Power System Planning and Resources** (3 cr). Major decision-making and economic factors in electrical energy systems, planning and resource selection; hydroelectric, nuclear, and fossil fuel plants, steady state and transient stability, reliability, voltage levels, economic choices, and future resource potential. Prereq: perm.
- EE 523 Symmetrical Components** (3 cr). Concepts of symmetrical components, sequence impedances of devices and lines, circuit equivalents for unbalanced faults, management during faults. Prereq: EE 421.
- EE 524 Transients in Power Systems** (3 cr). Voltage transients; overvoltages during faults; recovery voltage characteristics; arc restriking, switching surges, ferroresonance, and nonlinear phenomena. Prereq: EE 422.
- EE ID&WS525 Industrial Power Systems** (3 cr). WSU E E 486. Analysis and design of industrial and commercial power systems; fault and circuit protection, voltage standards and selection, and application problems of large motors; applicable codes and standards. Prereq: EE 421.
- EE ID&WS526 Power System Protection and Relaying** (3 cr). WSU E E 511. Power system faults and applicable relay systems; review of symmetrical components as applied to fault currents and consideration of lightning and voltage surge protection. Prereq: EE 421.
- EE 530 Advanced Electromagnetic Theory I** (3 cr). Field theory, classical electromagnetics, potential theory, boundary value problems, and wave propagation. Prereq: EE 330.
- EE 531 Advanced Electromagnetic Theory II** (3 cr). Guided waves, in homogeneous wave equation, radiation, scattering, and diffraction. Prereq: EE 530.
- EE ID&WS533 Antenna Theory** (3 cr). WSU E E 527. Linear, loop, and special antennas, synthesis and arrays; microwave reflectors and lenses. Prereq: EE 531 or perm.
- EE 535 Microwave Circuits** (3 cr). Waveguide systems and components, solid-state amplifiers, oscillators and detectors; masers, parametric amplifiers, and other related topics. Prereq: EE 531 or perm.
- EE ID&WS540 Switching and Finite Automata Theory** (3 cr). WSU E E 554. Finite-state automata; functional decomposition; threshold logic; synchronous and asynchronous sequential design; sequential circuit decomposition; fault detection and diagnosis in combinational sequential machines. Prereq: EE 440.
- EE 541 Design of Digital Computer Systems** (3 cr). Formal description of computer systems; multiprocessor organization, microprocessor design, self-checking microprocessor design, microprogramming; pipelined processors, distributed processors, systolic arrays in VLSI; CAD tools in implementing digital systems on a chip set, PLA-register stack configurations, pipelined/parallel VLSI architectures, reduced instruction set computers. Prereq: EE 441 or equiv.
- EE 545 VLSI Design** (3 cr). Application of sampled domain techniques to design of MOS switched capacitor circuits, including both filters and non-filtering circuits; advanced digital and analog topics for high performance MOS VLSI circuits. Prereq: EE 318, 350, 445 or perm.
- EE 546 VLSI Design Project** (2 cr). Design project starting from requirement definition and ending with testing of fabricated chip; design review conducted by faculty and other students. Prereq or coreq: EE 545.
- EE R547 Applied Time Series Forecasting** (3 cr). Same as Stat 547. Necessary theory for identification by building stochastic and dynamic models for designing forecasting and control schemes; emphasis on problem solving; examples used to illustrate methods; students participate in solution of specimen problems.
- EE 548 Supercomputing** (3 cr). Same as CS 558. A perspective of supercomputing from von Neumann machines to neural networks; supercomputer architectures, hardware accelerators, computing applications, and research topics in parallel architectures and algorithms by speakers from industry, government, and various universities; students encouraged to perform research in supercomputing field. Prereq: computer architecture course and skills in at least two computer languages (such as Pascal, LISP, or FORTRAN), or perm.
- EE 549 Fault-Tolerant Digital Systems** (3 cr). Fault detection in combinational networks, fault-tolerant design of combinational and sequential circuits, fail-safe circuits, fault-tolerant microprocessor design, testing of iterative array cells. Prereq: EE 440 or equivalent.
- EE 550 Communication Theory I** (3 cr). Hypothesis testing; optimum detection of signals in noise; sequential detection; estimation of signal parameters; space time processing. Prereq: perm.
- EE 554-555 Information Theory I-II** (3 cr). Information and uncertainty measure; source coding; channel capacity; reliable transmission through unreliable channels. Prereq: EE 350 or perm for EE 554; perm for EE 555.
- EE ID&WS570 Random Signals and Systems** (3 cr). WSU E E 507. Probability and random processes as applied to engineering systems, correlation and power spectrum of stationary processes, harmonic analysis, linear systems analysis with stochastic inputs, Wiener-Kolmogoroff Theory, matched filters. Prereq: EE 350 and Stat 301 or 451, or perm.
- EE ID&WS571 Estimation Theory** (3 cr). WSU E E 508. Basic concepts and criteria for estimation; properties of estimators; error analysis and a priori statistics; Kalman-Bucy filter theory; colored noise; smoothing and prediction; nonlinear estimation; application to engineering systems. Prereq: EE 570 or perm.
- EE ID&WS572 Linear System Theory** (3 cr). WSU E E 501. Linear spaces and linear operators; descriptions of dynamic systems; input-output descriptions; state-space concepts; canonical forms; controllability and observability; minimal realizations; application to control and general systems analysis; pole assignment; observers. Prereq: EE 470 or equivalent.
- EE ID&WS574 Optimal Control Theory** (3 cr). WSU E E 502. Intro to optimization, parameter optimization, optimization of dynamic systems, optimization of dynamic systems with path constraints, optimal feedback control and dynamic programming, linear quadratic regulators, second variation methods, singular control problems, differential games. Prereq: EE 572 or perm.
- EE 576 Digital Signal Processing** (3 cr). Digital filter characteristics; advanced digital signal processing algorithms; discrete time Fourier transform and power spectrum analysis; dedicated digital signal processors. Prereq: EE 476 or perm.
- EE 577 Digital Control Systems** (3 cr). Signal sampling and hold; z-transforms and relationship with s-plane, discrete state variable equations; stability; transform and state-space design techniques; optimal control. Prereq: EE 470 or perm.
- EE 599 (s) Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.
- EE 600 Doctoral Research and Dissertation** (cr arr).

BACKGROUND COURSES

These are not introductory-level courses. They are intended for engineers and scientists whose previous degrees are not in electrical engineering from ABET/EAC-accredited programs, who need to remove deficiencies before beginning graduate studies in electrical engineering.

EE 315 Background Study in Electronics (3 cr). Not applicable toward any UI undergrad degree; valid only for removal of electronics (EE 316) deficiency for grad students who do not have BSEE background. See EE 316 for description. Graded P/F based on comprehensive exam at completion of course. Prereq: passing grade on Dept of Electrical Engineering's upper-division qualifying exam.

EE 321 Background Study in Electrical Machines (3 cr). Not applicable toward any UI undergrad degree; valid only for removal of electrical machinery (EE 320) deficiency for grad students who do not have BSEE background. See EE 320 for description. Graded P/F based on comprehensive exam at completion of course. Prereq: passing grade on Dept of Electrical Engineering's upper-division qualifying exam.

EE 331 Background Study in Electromagnetic Theory (3 cr). Not applicable toward any UI undergrad degree; valid only for removal of electromagnetic theory (EE 330) deficiency for grad students who do not have BSEE background. See EE 330 for description. Graded P/F based on comprehensive exam at completion of course. Prereq: passing grade on Dept of Electrical Engineering's upper-division qualifying exam.

EE 341 Background Study in Digital Computer Fundamentals (3 cr). Not applicable toward any UI undergrad degree; valid only for removal of digital computer fundamentals (EE 340) deficiency for grad students who do not have BSEE background. See EE 340 for description. Graded P/F based on comprehensive exam at completion of course.

EE 351 Background Study in Signals and Systems Analysis (3 cr). Not applicable toward any UI undergrad degree; valid only for removal of signals and systems analysis (EE 350) deficiency for grad students who do not have BSEE background. See EE 350 for description. Graded P/F based on comprehensive exam at completion of course. Prereq: passing grade on Dept of Electrical Engineering's upper-division qualifying exam.

Curricular Requirements

COMPUTER ENGINEERING (B.S.Comp.E.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
CompE 340 Digital Logic.....	3
CompE 344 Logic Circuit Lab.....	1
CompE 440 Digital Systems Engineering.....	3
CompE 441 Computer Organization.....	3
CompE 480-481 Computer Systems Design Projects.....	6
Chem 111 Principles of Chemistry.....	4
CS 112 Introduction to Problem Solving & Programming.....	3
CS 113 Program Design & Algorithms.....	3
CS 120 Programming in C.....	2
CS 213 Data Structures.....	3
CS 241 Computer Organization.....	3
CS 310 Computing Languages.....	3
CS 341 Computer Operating Systems.....	4
EE 210, 211 Electrical Circuits I & Lab.....	4
EE 212, 213 Electrical Circuits II & Lab.....	5
EE 316, 317 Electronics I & Lab.....	4
EE 350 Signals & Systems Analysis.....	4
Eng 317 Technical & Engineering Report Writing.....	3
Math 176 Discrete Mathematics.....	4
Math 180, 190 Analytic Geometry & Calculus I-II.....	8
Math 310 Ordinary Differential Equations.....	3
Math 330 Linear Algebra.....	3
Phys 210, 211, 212, 213 Engineering Physics & Lab.....	8
Stat 301 Probability & Statistics.....	3
Humanities and social sciences electives (must satisfy regulation J-3 and incl at least (1) one upper-div course that is the second course completed in that subject, or (2) a course that has another humanities-social sc course as a prereq).....	18
Technical electives (must be upper-div courses, incl at least 9 cr from either EE or CS courses selected from an approved list available from dept).....	15
Engineering science electives.....	3

The minimum number of credits for the degree is 129, not counting Eng 103, Math 140, and other courses that might be required to remove deficiencies.

A grade of C or better is required in each of the following courses before registration is permitted in upper-division computer science or engineering courses: Chem 111, CS 112, 113, 213, and 241, EE 210 and 211, Math 176, 180, 190, 310, and 330, and Phys 210, 211, 212, and 213.

ELECTRICAL ENGINEERING (B.S.E.E.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
EE 210, 211 Electrical Circuits I & Lab.....	4
EE 212, 213 Electrical Circuits II & Lab.....	5
EE 292 Sophomore Seminar.....	0

EE 316, 317 Electronics I & Lab.....	4
EE 318, 319 Electronics II & Lab.....	4
EE 320 Electrical Machinery.....	5
EE 330 Electromagnetic Theory.....	4
EE 340 Digital Logic.....	3
EE 344 Logic Circuit Lab.....	1
EE 350 Signals & Systems Analysis.....	4
EE 480-481 Senior Design.....	6
EE 491 Senior Seminar.....	0
Chem 111 Principles of Chemistry.....	4
CE 210 Engineering Statics.....	3
CE 386 Engineering Economy.....	3
CS 112 Introduction to Problem Solving & Programming.....	3
Eng 317 Technical & Engineering Report Writing.....	3
Math 180, 190, 200 Analytic Geometry & Calculus.....	11
Math 310 Ordinary Differential Equations.....	3
Math 330 Linear Algebra.....	3
ME 101 Engineering Graphics.....	2
ME 220 Engineering Dynamics.....	3
Phys 210, 211, 212, 213 Engineering Physics I-II & Lab.....	8
Stat 301 Probability & Statistics.....	3
Engineering science electives.....	3
In addition to satisfying regulation J-3-d, one or more advanced level courses in humanities or social sciences must be selected from the approved list as specified by the department.....	18
Technical upper-div electives (at least 12 cr from EE courses, including 9 cr from EE 411, 421, 435, 440, 452, 470).....	18

The minimum number of credits for the degree is 131, not counting Eng 103, Math 140, and other courses that might be required to remove deficiencies.

A grade of C or better is required in each of the following courses before registration is permitted in upper-division engineering courses: Chem 111, CS 112, EE 210, 211, 212, and 213, CE 210, ME 101 and 220, Math 180, 190, 200, and 310, and Phys 210, 211, 212, and 213.

Engineering Science

P. Steven Porter, Coordinator (1776 Science Center Dr., Idaho Falls, ID 83401; 208/526-1388)

The engineering science program is one of service to the degree-granting departments; a degree in engineering science is not offered. Courses with the ES designation are offered at the Idaho Falls Center for Higher Education to supplement departmental offerings in several graduate programs with an option in waste management. These classes are taught by faculty members from the degree-granting departments.

Engineering Science Courses

ES R470 Survey of Hazardous Waste Management Problems (3 cr). Cr not granted for both ChE J470/J570 and ES R470. Not applicable toward any engineering degree. Environmental, technical, political, and economic aspects of hazardous waste management. Prereq: sr standing and perm.

ES R471 Waste Treatment Technologies (3 cr). Not applicable toward any engineering degree. Procedures for characterization of hazardous waste sites, identification and application of physical, chemical, biological, and thermal treatment. Prereq: sr standing and perm.

ES R472 Remediation Technologies and Project Implementation (3 cr). Not applicable toward any engineering degree. Waste site remediation and restoration technologies and project development; includes alternative technologies, containment, storage and disposal; emphasis on project development, organization, and practices for dealing with hazardous chemical, radioactive, and mixed wastes and for successful site remediation operations including administrative, legal, economic, and political considerations. Prereq: sr standing and perm.

ES R580 Environmental Law and Regulation (3 cr). Overview of federal, state, and local environmental regulations addressing environmental impact assessment, water pollution control, air pollution control, solid and hazardous waste, resource recovery and reuse, toxic substances, pesticides, occupational safety and health, radiation, facility siting, and environmental auditing and liability; emphasis on evolution of regulations and their impacts on environmental programs relevant to scientists and engineers. Prereq: perm.

Department of English

Gary Williams, Dept. Chair (200 Carol Ryrie Brink Hall; 208/885-6156). Faculty: Douglas Q. Adams, David S. Barber, Terryn L. Berry, Steven R. Chandler, Richard J. Dozier, E. Phil Druker, Richard W. Fehrenbacher, Stephan P. Flores, Tina Foriyes, Candida Gillis, Richard G. Hannaford, Walter A. Hesford, D'Wayne Hodgkin, Edward V. Hughes, Cheryl Johnson, Mary Ann Judge, Andrea Lerner, Carole Lowinger, Lesa Luders, Ronald E. McFarland, Kerry E. McKeever, Barbara R. Meldrum, Jayne Moneysmith, Lance Olsen, Sheila O'Brien, Kurt O. Olsson, Joy Passanante, Richard

Penticoff, Teoman Sipahigil, Charles R. Stratton, Dene Kay Thomas, Gordon P. Thomas, Roger P. Wallins, Gary Williams.

English majors develop skills in writing, textual interpretation, and critical thinking as they study the nature of language and learn how Anglo-American literary traditions develop and relate to world literature. Majors study a wide range of authors, male and female, upper class and working class, white and minority. They learn the formal qualities of texts as well as their historical and cultural contexts. Students write extensively in all courses and gain speaking experience through oral reports and class discussions.

The early phases of the program emphasize literary traditions (Eng 111, 112, 341, 342, 343, 344), reading skills and textual analysis (especially Eng 211 and 212), and the study of Shakespeare (Eng 345). Advanced courses allow students to pursue individual interests in literature, expository and creative writing, literary criticism and theory, and linguistics.

Through requirements, course offerings, and extensive advising, the English Department encourages students to plan their curricula according to personal and career goals. Aspiring poets and novelists emphasize creative writing courses; film scholars take courses in film; future teachers of English as a Second Language (ESL) study linguistics; pre-professionals of all kinds take advanced prose-writing courses. Those heading for graduate school in literature, linguistics, or ESL choose courses that prepare them for graduate study in their area. English majors who intend to teach English in secondary schools plan their program to satisfy state certification requirements (see "Secondary School Teaching Certification for Majors Outside the College of Education" in the College of Education section in part 4).

To enable students to focus on such interests within a coherent program of study, the English Department offers the choice of three emphases within the major: literature, creative writing, and preprofessional.

The Department of English offers three graduate degrees, either thesis or nonthesis, at the master's level: the standard M.A. in literature, the M.A.T., and the M.A. in English as a Second Language. Some graduate course work in creative writing is available and qualified students may do a creative-writing thesis, but the department does not offer a graduate degree in that area. Students planning to work for the M.A. or the M.A.T. should be well prepared through the curriculum outlined below. Those planning to pursue the M.A. in English as a Second Language should take extra course work in linguistics.

English Courses

ADVANCED PLACEMENT: Courses in this subject field that are vertical in context are: Eng 103-104.

PREREQUISITES: Students may enroll for a second-semester course in English without having had the first-semester course, unless it is a stated prerequisite to the second-semester course. Eng 103 and 104 are prerequisite to all upper-division courses. A transfer student who lacks Eng 103 or 104, or both, may take either or both for credit even though he or she has already taken a literature course for which Eng 103 or 104 is prerequisite at UI.

Eng 103 Basic Skills for Writing (3 cr). Basic principles of argumentative essay writing; strategies of prewriting, paragraphing, and sentencng; focus on thesis, audience, and rhetorical situations. Graded P (pass)/N (repeat)/F (fail).

Eng 104 Essay Writing (3 cr). Applied principles of argumentative essay writing, in summaries and critical analyses of texts, and in the research essay; emphasis on clear, concise, and vigorous prose. Graded A (excellent)/B (above average)/P (pass)/N (repeat)/F (fail). Prereq: Eng 103 or equiv.

Eng 111-112 Literature of Western Civilization (3 cr). Satisfies core requirement J-3-d. Masterpieces reflecting development of Western thought and culture. Eng 111: Classical Greece to the Renaissance. Eng 112: 17th century to the present.

Eng 175 Introduction to Literature (3 cr). Basic course in literary genres (novel, drama, poetry) to provide the general student with the terminology and standard techniques of literary explication.

Eng 204 (s) Special Topics (cr arr). Prereq: perm.

Eng 205 (s) Advanced Expository Writing (3 cr). Satisfies core requirement J-3-a. Develops skills in reading and writing across the university curriculum; focuses on requirements of college writing; critical analyses, research, lab, and field reports, and essay exams. Prereq: Eng 104 at UI or demonstrated proficiency by exam (see regulation J-3-a).

Eng 211 Critical Approaches to Literature I (3 cr). Major critical approaches to texts, with emphasis on more traditional approaches; concepts, techniques, terminology for analyzing literature; a writing-intensive course. Prereq: Eng 104 or equivalent.

Eng 212 Critical Approaches to Literature II (3 cr). Major critical approaches to texts, with emphasis on more recent approaches; concepts, techniques, terminology for analyzing literature; a writing-intensive course. Prereq: Eng 104 or equivalent.

Eng 291 Creative Writing: Poetry (3 cr). Intro to techniques of writing poetry. Graded P/F.

Eng 292 Creative Writing: Fiction (3 cr). Intro to techniques of writing fiction. Graded P/F.

Eng 300 ESL Research Writing (3 cr, max arr). Limited to students whose native language is not English. Research methods, scientific writing style, vocabulary grammar forms, reference citation forms, note-taking from lec, and technical lec presentations. Normally scheduled on the basis of three lec per wk; however, additional lec, lab, and/or tutorial sessions may be scheduled and reqd. Prereq: perm of dept.

Eng 301 (s) Special Topics (cr arr). Variable content course covering special topics of contemporary interest. Topics and number of cr will be announced in the Time Schedule.

Eng 309 Advanced Prose Writing (3 cr). Theory and practice in writing prose; many assignments in expression, explanation, and persuasion. Prereq: Eng 104 at UI or demonstrated proficiency by exam (see regulation J-3-a).

Eng 313 Business Writing (3 cr). Principles of clear writing related to business style; correspondence and reports; form, content, and style. Prereq: Eng 104 at UI or demonstrated proficiency by exam (see regulation J-3-a); jr standing or perm.

Eng 317 Technical and Engineering Report Writing (3 cr). Satisfies core requirement J-3-a. Principles of clear writing related to technical style; problems such as technical description, proposals, formal reports, and technical correspondence. Prereq: Eng 104 at UI or demonstrated proficiency by exam (see regulation J-3-a); jr standing or perm.

Eng 321 The Novel for Nonmajors (3 cr) (C). Major novels from the 18th century to the present.

Eng 325 Contemporary Literature for Nonmajors (3 cr). Current poetry, drama, and prose; emphasis on U.S. authors.

Eng 341-342 Survey of British Literature (3 cr). Eng 341: Beowulf to Samuel Johnson. Eng 342: Robert Burns to contemporary writers.

Eng 343-344 Survey of American Literature (3 cr). Eng 343: Colonial beginnings to the Civil War. Eng 344: Post-Civil War to contemporary writers.

Eng 345 Shakespeare (3 cr). Introductory course; background and study of selected plays representative of Shakespeare's achievement.

Eng 375 The Bible as Literature (3 cr). Literary qualities of the Bible.

Eng 400 (s) Seminar (cr arr). Prereq: perm.

Eng 401 Writing Workshop for Teachers (3 cr). Enrollment limited to juniors or seniors majoring or minoring in secondary English education or English (with certification) or to senior elementary education majors; others may enroll with permission of the instructor. Theory and practice of jr/sr high school composition instruction; further development of student's own writing skills. Three lec and one lab a wk. Prereq: Eng 104.

Eng 404 (s) Special Topics (cr arr). Prereq: perm.

Eng 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

Eng 421 Development of the English Novel (3 cr). Major writers from the beginnings to Scott.

Eng 422 The Nineteenth-Century English Novel (3 cr). Dickens to Hardy.

Eng 425 Irish Literary Renaissance (3 cr). Literature of Ireland after 1880, especially Yeats, Joyce, and Synge.

Eng 426 Modern Poetry (3 cr).

Eng 427 American Fiction, 1914-1945 (3 cr). Fiction by writers such as Cather, Dos Passos, Faulkner, Fitzgerald, Hemingway, and Wright.

Eng 428 British Fiction, 1900-1945 (3 cr). Fiction by such writers as Conrad, Forster, Joyce, Lawrence, and Woolf.

Eng 429 Contemporary Fiction (3 cr). Fiction since 1945 by writers such as Barth, Bellow, Fowles, Lessing, Morrison, Nabokov, and Pynchon.

Eng 430 Perspectives in Film (3 cr). Same as CommG 430. Survey of major principles and methods of film criticism as they relate to development of film art from 1890 to the present. Prereq: Inter 126 or CommG 288 or perm.

Eng 433 Chaucer (3 cr). Intro to Chaucer's poetical works.

Eng 434 Middle English Literature (3 cr). Middle English literature to 1500, excluding Chaucer and drama.

Eng 436 Advanced Shakespeare (3 cr). Intensive study of a number of plays grouped according to mode, kind, theme, or the dramatist's dev. Prereq: Eng 345 or perm.

- Eng 437 **English Drama to 1642** (3 cr). Medieval through renaissance drama, emphasis upon Marlowe, Jonson, Webster.
- Eng 438 **English Drama, 1660-1800** (3 cr). Heroic play and tragedy; sentimental drama; comedy of manners.
- Eng 439 **Modern English and American Drama** (3 cr). Plays of the chief 20th-century dramatists.
- Eng 441 **Introduction to the Study of Language** (3 cr). Same as Anthr 441. Surveys of sound patterns, morphological processes and syntactic structures; questions of language acquisition, variation, and history; exercises from a variety of languages, with emphasis on American English.
- Eng 442 **Introduction to English Syntax** (3 cr). Structure and processes of English syntax; syntax as component of style. Prereq or coreq: Eng 441 or perm.
- Eng 443 **Language Variation** (3 cr). Geographic and social dialects (e.g., black English), levels of formality and their linguistic consequences; literary use of language variation (as in Dickens and Hardy, Twain and Faulkner); occupational dialects and jargons. Prereq or coreq: Eng 441 or perm.
- Eng 445 **Literature for Adolescents** (3 cr). Primarily for students working for teacher or library certification. Reading and appraisal of literature appropriate to the needs, interests, and abilities of adolescents.
- Eng 448 **Psycholinguistics** (3 cr). Same as Psych 448. Survey of cognitive processes of language comprehension, language/speech production, and language acquisition. Prereq: Eng or Anthr 441, Psych 100.
- Eng 451 **Sixteenth-Century Poetry and Prose** (3 cr). Major authors of the period with emphasis on Spenser.
- Eng 452 **Milton** (3 cr). Major prose and poetry of Milton.
- Eng 453 **Seventeenth-Century Poetry and Prose** (3 cr). Major authors excluding Milton; emphasis on Bacon, Browne, Burton, Donne, Herbert, Herrick, Marvell.
- Eng 456 **Restoration and Eighteenth Century** (3 cr). Neoclassical poetry and prose from Dryden to Johnson.
- Eng 465 **The Romantic Period** (3 cr). Poetry and prose of the early 19th century; emphasis on Blake, Wordsworth, Coleridge, Shelley, Keats, Byron.
- Eng 466 **The Victorian Period** (3 cr). Poetry and prose; emphasis on Tennyson, Browning, Arnold, Carlyle, Newman, J. S. Mill.
- Eng 470 **American Literature to 1830** (3 cr). Colonial period to the early republic; emphasis on Bradford, Bradstreet, Taylor, Edwards, Franklin, Cooper, Irving.
- Eng 471 **Poe, Hawthorne, and Melville** (3 cr). Major works and their place in the American Renaissance.
- Eng 472 **Emerson, Thoreau, and Whitman** (3 cr). Major works and their place in the American Renaissance.
- Eng 473 **Literature of the American West** (3 cr). Writings that reflect the growth of the western U.S. from frontier days to the present.
- Eng 474 **American Literature, 1865-1914** (3 cr). Writers of realistic and naturalistic fiction such as James, Twain, Wharton, and Dreiser, and poets such as Whitman and Dickinson.
- Eng 480 **Ethnic and Minority Literature** (3 cr). Texts by ethnic and minority writers, primarily but not exclusively American; e.g., Black, Native American, Chicano, Asian American, Black South African.
- Eng 481 **Women's Literature** (3 cr). Literature by women; genres, nationalities, and historical periods may vary from semester to semester.
- Eng 482 (s) **Major Authors** (3 cr, max arr). Comprehensive study of the works of a single author. See the Time Schedule for author.
- Eng 483 **Black Literature** (3 cr). Major works of U.S. Black writers; emphasis on the 20th century.
- Eng 484 **American Indian Literature** (3 cr). Recent poetry and prose written by and about American Indians.
- Eng 491 **Advanced Creative Writing: Poetry** (3 cr, max arr). Continuation of Eng 291. Prereq: Eng 291 or perm.
- Eng 492 **Advanced Creative Writing: Fiction** (3 cr, max arr). Continuation of Eng 292. Prereq: Eng 292 or perm.
- Eng 494 **Methods of Literary Criticism** (3 cr). Intro to major principles and methods of literary analysis; practice in applying critical methods to selected poems, fiction, and drama.
- Eng 495 **Literary Criticism** (3 cr). From Plato to the present.
- Eng 496 **History of the English Language** (3 cr). Evolution of the language from Proto-Germanic to American English. Prereq: Eng 441 or perm.
- Eng J498/J598 **Internship** (1-3 cr). Graded P/F. Supervised experience in professional uses of English. Additional projects/assignments reqd for grad cr. Prereq: perm of director of grad and undergrad studies, Dept of English.
- Eng 499 (s) **Directed Study** (1-3 cr, max 3). Prereq: perm.
- Eng 500 **Master's Research and Thesis** (cr arr). Graded P/F.
- Eng 501 (s) **Seminar** (cr arr). Prereq: perm.
- Eng 502 (s) **Directed Study** (1-3 cr, max 3). Normally offered in English and American literature and in linguistics; may not duplicate course offerings. Graded P/F. Prereq: perm.
- Eng 503 **Problems and Methods of Literary Study** (3 cr).
- Eng 504 (s) **Special Topics** (cr arr). Prereq: perm.
- Eng 505 (s) **Workshop** (cr arr). May be graded P/F. Prereq: perm.
- Eng 506 **Language and Teaching of Writing** (3 cr). Linguistic, rhetorical, stylistic, and pedagogical concepts essential to teaching college-level writing.
- Eng 507 (s) **Studies in the English Language** (3 cr, max 9). Normally offered in Old English, Middle English, and Early and Late Modern English. Prereq: Eng 441, 496, or perm.
- Eng 509 (s) **Creative Writing** (3 cr, max 12). Workshop for advanced writers; analysis of theory, composition, and techniques with applied goal of extending technical skills of the student writer through study of professional writers' work. All applicants must submit typed manuscripts of their work at least 10 days before registration. Prereq: perm.
- Eng ID510 (s) **Studies in Linguistics** (3 cr, max 12). WSU Engl 541. Topics such as phonology, morphology, syntax, linguistic history, or the application of linguistics to the teaching of English literature or composition. Prereq: 6 cr in the following: Eng 441, 442, 443, 496, 506, or perm.
- Eng 511 (s) **Studies in Literary Criticism** (3 cr, max 12). History of criticism; various schools of literary criticism. Prereq: Eng 495 or perm.
- Eng 512 (s) **Studies in Literary Theory** (3 cr, max 12). Various genres (poetry, drama, fiction), forms, and modes (tragedy, comedy, satire).
- Eng ID513 **ESL Methods I: Basic Oral/Aural Skills** (3 cr). WSU Eng 544. Alt/yrs. Survey of most widely used classroom techniques for developing speaking and listening skills in a second language; alternative innovative approaches. Prereq: Eng 441 or perm.
- Eng ID&WS514 **ESL Methods II: Reading, Writing, and Special Purpose English** (3 cr). WSU Eng 544. Alt/yrs. Survey of most widely used classroom techniques for developing reading and writing skills in a second language and teaching techniques to specialized professional programs. Prereq: Eng 441 or perm.
- Eng ID515 **ESL Teaching Practicum** (3 cr). WSU Eng 544. Alt/yrs. Organization and teaching of an ESL course under direction of practicum instructor. Prereq: Eng 514 or perm.
- Eng ID516 **Intercultural Communication** (3 cr). WSU Eng 544. Alt/yrs. In-depth examination of major issues related to communication across cultures: communication theory, linguistic relativity, ethnography of speech, crosscultural rhetoric, and nonverbal communication. Prereq: Eng 441 or perm.
- Eng ID517 **Contrastive Linguistics** (3 cr). WSU Eng 543. Alt/yrs. Theory and practice of comparing and contrasting linguistic systems as basis for preparing instructional materials. Prereq: Eng 441 and one of the following: Eng 442, 443, 496, 510, or perm.
- Eng ID518 **Advanced English Grammar** (3 cr). WSU Eng 543. In-depth linguistic analysis of English grammar, giving special emphasis to morphology and syntax. Prereq: Eng 441 or perm (recommended preparation: Eng 442).
- Eng ID519 **Linguistic Analysis** (3 cr). WSU Eng 543. Advanced work in analysis and description of phonology, morphology, and syntax of languages. Prereq: Eng 441 or perm (recommended preparation: Eng 442).
- Eng 520 (s) **Studies in Medieval Literature** (3 cr, max 12). Normally offered in period survey, genre studies, and major author(s).
- Eng 530 (s) **Studies in Renaissance and 17th-Century British Literature** (3 cr, max 12). Normally offered in period survey, genre studies, and major author(s).
- Eng 540 (s) **Studies in Restoration and 18th Century British Literature** (3 cr, max 12). Normally offered in period survey, genre studies, and major author(s).
- Eng WS543 **Topics in English Linguistics** (3 cr, max 6). WSU Engl 543.
- Eng 550 (s) **Studies in 19th-Century British Literature** (3 cr, max 12). Normally offered in survey of Romantic literature, survey of Victorian literature, genre studies, and major author(s).
- Eng 560 (s) **Studies in American Literature Before 1900** (3 cr, max 12). Normally offered in period survey, genre studies, and major author(s).
- Eng 570 (s) **Studies in 20th-Century British and American Literature** (3 cr, max 12). Normally offered in period survey, genre studies, and major author(s).
- Eng 597 (s) **Practicum** (cr arr). Prereq: perm.
- Eng 598 **Internship** (1-3 cr). See Eng J498/J598.
- Eng 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

ENGLISH (B.A.)

Where specific courses are listed with the area requirements, the department may approve equivalencies.

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and one of the following emphases:

LITERATURE EMPHASIS

Course	Credits
Eng 111-112 Literature of Western Civilization	6
Eng 211-212 Critical Approaches to Literature I-II	6
Eng 341-342 Survey of British Literature	6
Eng 343-344 Survey of American Literature	6
Eng 345 Shakespeare	3
400-level courses in literature before 1800	3
Courses in linguistics	3
English electives selected in consultation with adviser, incl at least 12 cr at the 400 level	18
Related field approved by adviser	20

CREATIVE WRITING EMPHASIS

Course	Credits
Eng 111-112 Literature of Western Civilization	6
Eng 211-212 Critical Approaches to Literature I-II	6
Eng 341-342 Survey of British Literature	6
Eng 343-344 Survey of American Literature	6
Eng 345 Shakespeare	3
400-level English courses in lit, incl one before 1900	6
Elective writing courses chosen from Eng 291, 292, 309 (may not be repeated), 404, 491, 492 (may be repeated)	18
Related field approved by adviser	20

PREPROFESSIONAL EMPHASIS

Course	Credits
Eng 111-112 Literature of Western Civilization	6
Eng 211-212 Critical Approaches to Literature I-II	6
Eng 341 or 342 Survey of British Literature	3
Eng 343 or 344 Survey of American Literature	3
Two writing courses chosen from Eng 205, 309, 313, 317	6
Elective English courses (at least 9 cr at 400 level)	12
Courses outside the English Dept appropriate to student's career goals (at least 9 upper-div cr)	15
Related field OR academic minor appropriate to student's career goals (at least 9 upper-div cr)	20

The preprofessional emphasis is an individualized program for students wishing to stress preparation for professions such as law, writing and editing, government service, and business. All course decisions are to be made in consultation with the student's English adviser and require the adviser's approval.

TEACHING CERTIFICATION

L&S English majors wishing secondary teaching certification must complete the appropriate English and education courses listed in the "Teaching Majors and Minors in the College of Education" section of this catalog. Some of these courses may be included in the student's English-major requirements. Students should plan their programs with their English advisers; they should also see College of Education advisers regarding certification requirements.

Academic Minor Requirements

ENGLISH MINOR

Course	Credits
Eng 211-212 Critical Approaches to Literature I-II	6
Eng 345 Shakespeare	3
Three of the following courses	9
Eng 341-342 Survey of British Literature	
Eng 343-344 Survey of American Literature	
One 400-level English course	3

ENGLISH AS A SECOND LANGUAGE MINOR

Course	Credits
Eng 404 Special Topics: ESL Methods	3
Eng 441 Introduction to the Study of Language	3
Eng 442 Introduction to English Syntax	3
Anthr/Soc 322 Racial & Ethnic Relations	3
Ed 314 Strategies for Teaching	3
Electives in English language and linguistics	6

ENTOMOLOGY—see Department of Plant, Soil, and Entomological Sciences

**Margaret Ritchie School of
Family and Consumer Sciences**

Al J. Lingg, Acting Director (105 Mary Hall Niccolis Home Economics Bldg.; 208/885-6545). Faculty: Laurel J. Branen, Janice W. Fletcher, Rose L. Forbes, Linda K. Fox, Kathe A. Gabel, Virginia W. Junk, Kathleen M. Kearney, Kathryn S. Keim, Rhonda Milam, Ernestine Porter, Laurie A. Stenberg, Marilyn A. Swanson, Ann Vail, Nancy J. Wanamaker, Doris K. Williams.

Family and consumer sciences focus on the relationships, resources, and services contributing to individual and family well being. It is concerned with the aesthetic, economic, biological, physical, social, and psychological needs of people.

The programs developed in the three curricular areas in the School of Family and Consumer Sciences were designed to meet professional and individual goals of students. The three areas are (1) child, family, and consumer studies with three options in child development/family relations, consumer affairs, and family life education; (2) clothing, textiles, and design; and (3) food and nutrition with two options in the coordinated undergraduate dietetic program and consumer foods.

Emphasis choices under the curricular areas are (1) child development and family relations option: human services, education (double major possible), and child life; and (2) clothing, textiles, and design: apparel design and fashion merchandising.

A Master of Science degree in family and consumer sciences is available.

The Ritchie School of Family and Consumer Sciences has an outstanding scholarship program for entering freshmen, continuing undergraduate majors, and graduate students. Most scholarships are awarded on the basis of academic excellence regardless of financial need.

Family and Consumer Sciences Courses

FCS 105 Individual and Family Development (3 cr). Basic principles and sequences in individual and family development; family structure and functions as they support human development.

FCS 123 Textiles (3 cr). Properties of fibers, yarns, and fabric structure, dyes and finishes, labeling, and legislation affecting the consumer.

FCS 124 Clothing Construction Principles (3 cr). Principles of clothing constr and fitting; analysis and comparison related to efficiency, wear, appearance, fabric limitations. One lec and six hrs of lab a wk.

FCS 170 Introductory Foods (3 cr). Fundamental processes underlying food preparation with emphasis on physical and chemical aspects. Two lec and one 3-hr lab a wk. Prereq: 3 cr of Chem 103 or 111.

FCS 200 (s) **Seminar** (cr arr). Prereq: perm.

FCS 203 (s) **Workshop** (cr arr). Prereq: perm.

FCS 204 (s) **Special Topics** (cr arr). Prereq: perm.

FCS 205 Concepts in Human Nutrition (3 cr). Nutrition principles with their application to nutrition in life cycle; nutrition problems and controversies such as weight control and nutrition for athletes; individual computerized study of student's dietary intake.

FCS 206 Color and Design (3 cr). Principles and elements of design as they relate to the near environment; development of awareness of application of design to clothing, housing, textiles, and other home economic areas. Two lec and two labs a wk.

FCS 208 Decision Making for Consumers (3 cr). Decision-making process as it influences effective consumer practices in food, clothing, shelter, and personal finance.

FCS 229 Introduction to Fashion Industry (3 cr). Overview of development, manufacturing, and retailing of fashion, including raw materials of fashion, ready-made apparel evaluation, and terminology used in fashion industry. Field trips.

FCS 234 Infancy and Early Childhood (3 cr). Influences on development before birth through the preschool years; factors that determine physical, emotional, cognitive, social, and creative development.

FCS 235 Principles and Methods of Child Observation (3 cr). Development of skills necessary to observe, record, and interpret child behavior; observations to be arranged. Prereq: FCS 234 or perm.

FCS 240 Intimate Relationships (3 cr). Dynamics of intimate relationships from early adulthood through the adult lifespan.

FCS 270 Intermediate Foods (3 cr). Sensory evaluation, meal planning, consumer issues, cultural influences on food choices. Two lec and one 2-hr lab a wk. Prereq: FCS 170.

FCS 299 (s) Directed Study (cr arr). Prereq: perm.

FCS 305 Nutrition Related to Fitness and Sport (2 cr). Identification of energy, macro/micro nutrient and fluid requirements during exercise; fitness of dietary regimens and ergogenic aids for pre and post competition, weight maintenance, and wellness. Prereq: FCS 205.

FCS 309 Trends and Perspectives in Home Economics (1 cr). Key issues and trends of the past, present, and future for home economics as a profession. Recommended for undergraduate majors.

FCS ID314 Weaving (3 cr). WSU AMT 313. Principles, techniques, and aesthetics of handweaving. One lec and six hrs of lab a wk.

FCS 323 Intermediate Textiles (2 cr). Lab investigation into fiber identification, dye application, fabric structure, care methods, performance standards, and textiles testing methods. One lec and 3 hrs of lab a wk. Prereq: FCS 123, Chem 103 or 111.

FCS 324 Flat Pattern Study (3 cr). Fitting and pattern alteration for individual shell and sloper; flat pattern design; construction related to original patterns. One lec and six hrs of lab a wk. Prereq: FCS 124 or perm.

FCS 327 Tailoring and Experimental Construction (3 cr). Tailoring techniques; experimental construction as applied to special fabrics and/or designs. One lec and 6 hrs of lab a wk. Prereq: FCS 124.

FCS 329 Historic Costume (3 cr). Costume as an expression of the times; includes social and psychological aspects of clothing and historical overview of costume.

FCS 333 Developmental Curriculum for Young Children (3 cr). Principles and practices of a developmentally based curriculum, assessment, intervention, and evaluation. Two lec and two hrs of lab a wk. Prereq: FCS 235 or perm.

FCS 334 Middle Childhood-Adolescence (3 cr). Behavior, development, and guidance of children and youth from entrance in school until they are launched into adulthood; influences of family, school, peer group, and larger community. Prereq: Psych 100, Soc 110, or perm.

FCS 340 Parent-Child Relationships in Family and Community (3 cr). May be taken by nonmajors. Dynamics of parent-child interactions and models for parent education programs in community and school settings. Prereq: FCS 234 or 334.

FCS 346 Personal and Family Finance and Management (4 cr). Principles and procedures of individual and family management and their relationship to human and economic resources; applications of management principles to spending, saving, borrowing, and investing decisions.

FCS 347 Home Management Practicum (3 cr). Decision making and managerial aspects of family living in a residential setting. One lec and 6 hrs of lab a wk. Prereq: FCS 170 and perm; prereq or coreq: FCS 346.

FCS 361 Advanced Nutrition (4 cr). Principles of nutrition; physiology of digestion, absorption and metabolism of nutrients. Three lec and 2 hrs of lab a wk. Prereq: FCS 205, Biochem 380, Zool 119.

FCS 362 Introduction to Clinical Dietetics (4 cr). Dietetics, role of the dietitian; dietary depts in health care facilities. Three lec and 3 hrs of supervised practice a wk. Prereq: jr standing in CPD.

FCS 363 Diet Therapy (4 cr). Diet modification for adult and child needs in disease and convalescence. Clinical experience in Spokane hospitals. Prereq: sr standing in CPD.

FCS 364 Clinical Dietetics I (4 cr). Clinical experience in Spokane hospitals. Prereq: sr standing in CPD.

FCS 384 Quantity Food Production and Equipment (5 cr). Food production in large volume; use and selection of institutional equipment and food; supervised practice in food service. Three hrs of lec, 1 hr of recitation, and 5 hrs of supervised practice a wk. Prereq: FCS 270 or perm.

FCS 400 (s) Seminar (cr arr). Prereq: perm.

FCS 403 (s) Workshop (cr arr). Prereq: perm.

FCS 404 (s) Special Topics (cr arr). Prereq: perm.

FCS 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

FCS ID414 Advanced Weaving (3 cr). WSU AMT 414. Continuation of FCS 314 with concentration on drafting and designing woven structure. One lec and five hrs of lab a wk. Prereq: perm.

FCS ID-J416/J516 Designing for the Loom (3 cr). WSU AMT 416. Alt/yrs. Analysis of design techniques specific to woven fabrics; studio experience designing woven fabrics for functional and decorative end use, culminating in a critical display. Additional projects/assignments reqd for grad cr. One lec and 6 hrs of lab a wk.

FCS WS-J417/WS-J517 Social Psychological Aspects of Apparel (3 cr). WSU AMT 417/517.

FCS WS-J423/WS-J523 Textile Evaluation (3 cr). WSU AMT 415/515.

FCS ID&WS424 Original Apparel Design (4 cr). WSU AMT 412. Development of draping skills; use of draping and flat pattern techniques to create original designs; development and application of computer skills in designing apparel. Two lec and 6 hrs of lab a wk. Prereq: Art 211, FCS 324.

FCS 428 Family Housing (2 cr). Housing and families as affected by consumer issues, public policy, housing history, and social, economic, political, and technical factors.

FCS ID&WS429 Fashion Merchandising (3 cr). WSU AMT 318. Apparel merchandising planning, including merchandise selection, buying, and promotion; emphasis on merchandising mathematics. Prereq: FCS 229, Bus 321 or perm.

FCS 436 Theories of Child and Family Development (3 cr). Identification, interpretation, and evaluation of individual and family developmental theories.

FCS 440 Contemporary Family Relationships (3 cr). Dynamics of the major types of family relationships; marital, parent-child, sibling, and extended-family interaction in contemporary society. Prereq: Psych 100, Soc 110, or perm.

FCS J445/J545 Issues in Work and Family Life (3 cr). Alt/yrs. Study of theories, trends, policies, and issues related to work and family; examination of assessment instruments; development of proposals. Additional projects/assignments reqd for grad cr. Prereq: FCS 105 and 346, or perm.

FCS 448 Consumer Education (3 cr). Consumer economic issues, including consumers in the marketplace, the consumer movement, rights and remedies, advocacy, public policy, decision making, buying, credit, banking, insurance, clothing, health care, food, housing, and investments. Prereq: Econ 201 or 202 or perm.

FCS 450 Curriculum Development in Family Life Education (3 cr). Analysis of curricular models and content; development of curricular units for family life. Prereq: admission to teacher education program.

FCS 451 Professional Development (3 cr). Ethics, public policy, and communication related to family and consumer issues. Prereq: junior or senior standing.

FCS 460 Family as an Ecosystem (3 cr). Survey of the literature and disc of environmental factors affecting contemporary families; analysis of the interrelationship of social change, and family values, structure, roles on the ecological system; determination of the role and potential contribution of family life to ecology.

FCS 470 Trends in Nutrition Research (3 cr) (C). Nutrition research methodology, literature critique, and recent advances in nutrition and dietetics. Prereq: FCS 205.

FCS 471 Student Teaching in Family Life Education (10 cr). Ten weeks of practical experience in secondary family and consumer sciences program; one week of field-based experience at assigned student teaching center before beginning of semester is required. Prereq: admission to teacher education program, FCS 450.

FCS 472 Clinical Dietetics II (6 cr). Continuation of FCS 364. Supervised practice in Washington/Idaho hospitals. Prereq: FCS 364, sr standing in CPD.

FCS 473 Community Nutrition (4 cr). Nutrition program; nutrition problems of special groups. Clinical experience in Spokane school lunch program, public health, etc. Two lec and six hrs of supervised practice a wk. Prereq: sr standing in CPD.

FCS 474 Investigation of Foods (3 cr). Independent problem solving in foods; sensory and objective testing of food; research writing. Two lec and 3 hrs of lab a wk. Prereq: FCS 270, Biochem 380 or perm.

FCS 475 Nutrition Principles for the Classroom Teacher (3 cr). For elementary and secondary school teachers. Teaching food selection and daily diet; variations from the normal diet; malnutrition, overnutrition, food fads, additives, obesity, and nutrition for athletes.

FCS 478 Recent Advances in Foods (2 cr). Food preservation and processing; development of low-calorie foods and commercial mixes; food additives. Prereq: FCS 270 or equiv.

FCS 484 Food Systems Management (4 cr). Institutional organization and management; supervised practice in food service. Three lec, 4 hrs of supervised practice, and 1 hr of recitation a wk. Prereq: FCS 384 or perm.

FCS 485 Computer Applications in Food Administration (2 cr). Nutrient analysis and management of ingredients, recipes, menus, and related functions. One hr of lec and 2 hrs of lab a wk. Prereq: FCS 384 or perm.

FCS 486 Nutrition in the Life Cycle (4 cr). Maternal nutrition and fetal development; lactation; nutritional needs and dietary patterns from infancy through old age. Three lec and 2 hrs of lab a wk. Prereq: sr standing in CPD.

FCS 487 Management Supervised Practice (2 cr). Food service management; program organization, analysis, and evaluation of food service facilities and resources; equipment/purchasing tours; pre-practicum experience. One lec and 3 hrs of supervised practice a wk. Prereq: FCS 484.

FCS 488 Food Service Management Practicum (6 cr). Supervised practice with dietitians and employees in school and hospital food service settings in Idaho or Washington. Prereq: FCS 487.

FCS 496 Internship: Fashion Business (3-9 cr). Supervised experience in fashion business: fashion design, textile/apparel manufacturing, retailing, merchandising; geared to career goals of student. Graded P/F. Prereq: perm.

FCS 497 (s) Home Economics Practicum (cr arr). On- or off-campus supervised applied experience in home economics major areas; child development and family relations; clothing, textiles, and home design; food and nutrition; consumer education; and cooperative extension. Prereq: perm.

FCS 498 (s) Home Economics Internship (3-9 cr). Supervised internship in education institutions, governmental/social agencies, hospitals, business, or industry; geared to the professional goals of students. Prereq: perm.

- FCS 499 (s) **Directed Study** (cr arr). Prereq: perm.
- FCS 500 **Master's Research and Thesis** (cr arr).
- FCS 501 (s) **Seminar** (cr arr). Prereq: perm.
- FCS 502 (s) **Directed Study** (cr arr). Prereq: perm.
- FCS 503 (s) **Workshop** (cr arr). Prereq: perm.
- FCS 504 (s) **Special Topics** (cr arr). Prereq: perm.
- FCS 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.
- FCS 507 **Research Methodology** (3 cr). See AgEc 507.
- FCS 516 **Designing for the Loom** (3 cr). See FCS J416/J516.
- FCS 517 **Social Psychological Aspects of Apparel** (3 cr). See FCS J417/J517.
- FCS WS523 **Textile Evaluation** (3 cr). See FCS J423/J523.
- FCS 540 **Parent-Child Relationships** (2 cr). Open to nonmajors. The developing family; patterns of child rearing. Prereq: FCS 234 or 334, 440, and 6 cr in psychology and/or sociology or equivalent.
- FCS 545 **Issues in Work and Family Life** (3 cr). See FCS J445/J545.
- FCS 551 **Techniques of Supervision** (2 cr).
- FCS 553 **Home Economics Education** (1-4 cr, max 4).
- FCS 554 **Program Development in Child, Family, and Consumer Studies** (3 cr). Analysis and development of program delivery systems, curricula, and evaluation models.
- FCS 560 **Family Resource Management** (3 cr). Management of economic and human resources with focus on family structures in all socioeconomic and age groups. Prereq: FCS 346 or equivalent or perm.
- FCS 570 **Current Concepts in Nutrition** (2 cr). Innovative concepts and techniques in nutrition research; scientific investigations; nutrition problems. Prereq: FCS 470, Zool 119, or equiv.
- FCS 583 **Recent Trends in Institutional Management** (2 cr). Management principles applied to food service institutions.
- FCS 590 **Concepts and Issues in Home Economics Research** (3 cr). Identification and analysis of current issues in home economics research including theory and data analysis and interpretation.
- FCS 597 (s) **Practicum** (cr arr). Prereq: perm.
- FCS 598 (s) **Internship** (cr arr). Supervised internship in educational institutions, governmental/social agencies, hospitals, or industry; geared to the educational and vocational goals of students. Prereq: perm.
- FCS 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

**CHILD, FAMILY, AND CONSUMER STUDIES (B.S.F.C.S.)
(or B.A., Child Development/Family Relations option only)**

This major has an interdisciplinary focus on the child, the family as an institution, and families as consumers.

The minimum credits required for graduation are 132, including at least 36 credits at the 300-level or above. Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
FCS 105 Individual & Family Development.....	3
FCS 346 Personal & Family Finance & Management.....	4
FCS 440 Contemporary Family Relationships.....	3
FCS 451 Professional Development.....	3

And one of the following options:

A. CHILD DEVELOPMENT/FAMILY RELATIONS OPTION

The CDFR option allows students to develop individualized programs to meet personal and career goals. Some suggested career emphasis areas are: (1) human services, (2) education (double major leading to Idaho elementary teaching certification is possible—consult an adviser in the College of Education), and (3) child life. Students are encouraged to complete an internship.

Course	Credits
FCS 205 Concepts in Human Nutrition.....	3
FCS 234 Infancy & Early Childhood.....	3
FCS 235 Principles and Methods of Child Observation.....	3
FCS 240 Intimate Relationships.....	3

FCS 333 Developmental Curriculum for Young Children.....	3
FCS 334 Middle Childhood-Adolescence.....	3
FCS 340 Parent-Child Relationships in Family & Community.....	3
FCS 436 Theories of Child & Family Development.....	3
FCS 497 Home Economics Practicum.....	9
CommG 131 Fundamentals of Public Speaking.....	2
Ed 201 Introduction to Teaching.....	2
H&S 288 First Aid.....	2
Stat 150 Intro to Statistics or 251 Principles of Statistics.....	3
Computer applications elective.....	3

B. CONSUMER AFFAIRS OPTION

The consumer affairs option prepares students to advocate for the consumer and to help consumers improve their well-being. Consumer affairs professionals present the consumer's viewpoint to their employing organization and convey information about the organization's products and services to the consumer. Career options include jobs in business firms, government agencies, and nonprofit organizations.

Course	Credits
FCS 208 Decision Making for Consumers.....	3
FCS 445 Issues in Work & Family Life.....	3
FCS 448 Consumer Education.....	3
FCS 460 Family as an Ecosystem.....	3
FCS 498 Home Economics Internship.....	3-8
AgEc 356 Agricultural Programs & Policies or Econ 316 Economics of Regulation.....	3
ASM 240 Computer Applications in Biological Systems.....	3
Bus 311 Introduction to Management.....	3
Bus 321 Marketing.....	3
Bus 324 Consumer Behavior.....	3
Bus 413 Organizational Behavior.....	3
CommG 131 Fundamentals of Public Speaking.....	2
Comm 121 News Writing.....	3
Comm 265 Advertising & Society.....	3
Comm 352 Principles of Public Relations.....	3
Comm 431 Professional Presentation Techniques.....	3
CS 100 Intro to Computers and Programming or Stat 150 Intro to Statistics or Stat 251 Prin of Statistics.....	3
Econ 201, 202 Principles of Economics.....	6
Additional home economics courses to total at least 45 cr.....	—

C. FAMILY LIFE EDUCATION OPTION

Students seeking certification as secondary teachers must meet College of Education requirements for entry into teacher education. These requirements are prerequisite to enrollment in upper-division courses in the College of Education (see "Admission to the Teacher Education Program"). Completion of this option will qualify students for the Idaho standard secondary teaching certification with a vocational home economics endorsement.

Course	Credits
FCS 123 Textiles.....	3
FCS 124 Clothing Construction Principles.....	3
FCS 170 Introductory Foods.....	3
FCS 205 Concepts in Human Nutrition.....	3
FCS 234 Infancy & Early Childhood.....	3
FCS 270 Intermediate Foods.....	3
FCS WS417 Social Psychological Aspects of Apparel.....	3
FCS 448 Consumer Education.....	3
FCS 450 Curriculum Development in Family Life Education.....	3
FCS 471 Student Teaching in Family Life Education.....	10
Art 101 Visual Art.....	3

CommG 131 Fundamentals of Public Speaking.....	2
Econ 201 Principles of Economics.....	3
Ed 201 Introduction to Teaching.....	2
Ed 312 Educational Psychology.....	2
Ed 313 Educational Measurement.....	1
Ed 314 Strategies for Teaching.....	3
Ed 340 Methods of Teaching Content Reading.....	3
IntPD 151 Introduction to Interior Design.....	3
Psych 100 Introduction to Psychology.....	3
Soc 110 Introduction to Sociology.....	3
VocEd 351 Principles & Philosophy of Vocational Ed.....	3
VocEd 444 Diverse Populations & Individual Differences.....	2
VocEd 445 Proseminar in Vocational Education.....	2
VocEd 464 Vocational Guidance.....	2

CLOTHING, TEXTILES, AND DESIGN (B.S.F.C.S.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Two of the following courses.....	6-7
FCS 105 Individual & Family Development	
FCS 205 Concepts in Human Nutrition	
FCS 346 Personal & Family Finance & Management or 448 Consumer Education	
FCS 123 Textiles.....	3
FCS 124 Clothing Construction Principles.....	3
FCS 229 Introduction to Fashion Industry.....	3
FCS 314 Weaving.....	3
FCS 323 Intermediate Textiles.....	2
FCS 329 Historic Costume.....	3
Art 101 Visual Art.....	3

Art 214 Textile Design.....	3
Art 221 Graphic Design.....	3
Bus 321 Marketing.....	3
Bus 325 Retailing.....	3
Chem 103 Intro to Chemistry or 111 Prin of Chemistry.....	4
CommG 131 Fundamentals of Public Speaking.....	2
Econ 201 or 202 Principles of Economics.....	3
Hist 101 or 102 History of Civilization.....	3
Psych 100 Introduction to Psychology.....	3
Soc 110 Introduction to Sociology.....	3
Anthropology elective.....	3
Art elective or ThA 362, 410, or 463.....	2-3
Computer science elective.....	2-3
Required courses from emphasis area.....	27-32
Electives to total 132 cr for the degree.....	—

Students, in consultation with an adviser, elect courses from a career emphasis area: apparel design or fashion merchandising. Qualified students may elect to spend their sophomore or junior year at the Fashion Institute of Technology (New York City) or at a participating National Student Exchange School that offers an acceptable program. Specific information is available from CTD advisers.

FOOD AND NUTRITION (B.S.F.C.S.)

Required course work includes the university requirements (see regulation J-3) and one of the following options.

Upon acceptance to the professional phase of the CPD (last two years), students must maintain a cumulative grade-point average of at least 2.70 to remain in and graduate from the program. Students must also obtain at least a B (80%) in all CPD courses required for membership in the American Dietetic Association.

A. COORDINATED PROGRAM IN DIETETICS

Course	Credits
Three of the following courses.....	9-10
FCS 105 Individual & Family Development.....	3
FCS 123 Textiles.....	3
FCS 205 Concepts in Human Nutrition.....	3
FCS 346 Personal & Family Finance and Management.....	3
or 448 Consumer Education.....	3
FCS 170 Introductory Foods.....	3
FCS 270 Intermediate Foods.....	3
FCS 305 Nutrition Related to Fitness & Sport.....	2
FCS 361 Advanced Nutrition.....	4
FCS 362 Introduction to Clinical Dietetics.....	4
FCS 363 Diet Therapy.....	4
FCS 364 Clinical Dietetics I.....	4
FCS 384 Quantity Food Production & Equipment.....	5
FCS 470 Trends in Nutrition Research.....	3
FCS 472 Clinical Dietetics II.....	6
FCS 473 Community Nutrition.....	4
FCS 474 Investigation of Foods.....	3
FCS 484 Food Systems Management.....	4
FCS 485 Computer Applications in Food Administration.....	2
FCS 486 Nutrition in the Life Cycle.....	4
FCS 487 Management Supervised Practice.....	2
FCS 488 Food Service Management Practicum.....	6

HYDROLOGY—see Department of Geology and Geological Engineering

INDUSTRIAL TECHNOLOGY EDUCATION—see Division of Vocational Teacher and Adult Education

Department of Fish and Wildlife Resources

George W. Klontz, Dept. Head (105 FWR Bldg.; 208/885-6434).

Fishery Resources Faculty: David H. Bennett, Ted C. Bjornn, Ernest L. Brannon, James L. Congleton, C. Michael Falter, George W. Klontz, Christine M. Moffitt, Dennis L. Scarnechia.

Wildlife Resources Faculty: Ernest D. Ables, Edward O. Garton, Maurice G. Hornocker, Lewis Nelson, Jr., James M. Peek, Kerry P. Reese, John T. Ratti, J. Michael Scott, R. Gerald Wright.

The professions of fish and wildlife conservation deal with the application of principles of biology and ecology to the management of fish or wildlife populations and their habitats. The two professions are nearly identical in their basic approach to resource management and differ mainly in the type of environment, i.e., aquatic or terrestrial, with which they are concerned.

Fishery biologists and scientists conduct research or apply management principles to aquatic ecosystems. They may become involved with biological monitoring, environmental impact studies, area planning and preservation, maintenance of endangered fish, hatchery operation, commercial fish farming, control and prevention of fish diseases, and management of stream or lake ecosystems.

Wildlife biologists, or managers, attempt to maintain adequate populations of game and nongame wildlife species. This involves studying wildlife and its habitat so that management programs can be established on biological facts. The job often involves coordinating wildlife management programs with other natural resource activities such as forest management, range management, and land use planning.

Both professions offer opportunities in law enforcement, communications, and public relations. A common saying, and one with a great deal of truth, is that fish or wildlife management is largely people management.

Bachelor of Science degrees are offered in fishery resources and in wildlife resources. The fishery curriculum offers professional-level courses in three major areas: (1) fishery management, (2) aquatic ecology, and (3) aquaculture and fish health management, and has two curricular options, management and aquaculture. The curriculum in wildlife resources provides a broad background in natural resources and in addition offers the student an opportunity to select a field of interest in one of six options: aquatic, biology, communications, habitat, policy-law-administration, and quantitative. Elective courses in both curricula provide an opportunity to gain additional knowledge in a special area of interest or to broaden into other fields. To ensure that the student gains practical experience, one season of approved work experience or internship before graduation is required.

Fish and wildlife graduates find employment with numerous federal, state, and private agencies. These include the U.S. Fish and Wildlife Service, the Bureau of Land Management, the U.S. Forest Service, the National Marine Fisheries Service, the Army Corps of Engineers, state fish and game or conservation departments, and private organizations such as power companies, commercial fish growers, and consultants. Recent surveys have shown that baccalaureate graduates of UI obtain employment at a rate considerably above the national average.

The university offers Master of Science and Doctor of Philosophy degrees in several specialty areas of fish and wildlife resources. The M.S. (thesis option) and the Ph.D. degrees each require original research.

The research mission of the department is attainment of new knowledge and the understanding of natural resources, their interrelationships and uses. The objectives of the research program are, thus, to attain knowledge of the environment and to develop management alternatives that will assist in the conservation of resources while meeting society's needs. The dissemination of this knowledge through publications, continuing education, and other channels of communication is an essential departmental function.

For additional information, please call the department at (208) 885-6434.

Courses

FISHERY RESOURCES

PREREQUISITE: Courses in this subject field numbered above 299 are not open to any undergraduate student who is on academic probation.

Fish 102 The Fishery Resources Profession (1 cr). Orientation of students to profession of fishery resources; employment opportunities, current research efforts in the Pacific Northwest, etc. Graded P/F.

Fish 200 (s) Seminar (cr arr). Prereq: perm.

Fish 203 (s) Workshop (cr arr). Prereq: perm.

Fish 204 (s) Special Topics (cr arr). Prereq: perm.

Fish 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

Fish 290 Principles of Fish Biology and Management (2 cr). Introduction to history, objectives, and principles of fisheries management; ecological interrelationships of fisheries with other natural resources; current issues in fisheries ecology and management.

Fish 299 (s) Directed Study (cr arr). Prereq: perm.

Fish 301 Wildland Field Ecology I (1 cr). Introduction to field ecology; the rationale for and importance of studying terrestrial, aquatic, and human ecosystems; practical experience with tools and skills used to measure wildland ecosystem processes. One 5-hr lab a wk. Prereq or coreq: For/ResRc/Soc 235 and For/Range/WLF 221.

Fish 302 Wildland Field Ecology II (2 cr). Field studies of ecological and socio-political processes in terrestrial, aquatic, and human ecosystems at individual, population, community, landscape, regional, and global scales; application of ecological principles to integrated natural resource management. Two weeks all-day lec/lab immediately following spring semester; overnight field excursions required. Prereq: For/ForPr/Range/WLF/ResRc/Fish 301.

Fish 397-398 Renewable Natural Resources Internship I-II (cr arr). Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F. Prereq: perm of dept.

Fish 400 (s) Seminar (cr arr). Prereq: perm.

Fish 401 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Fish 403 (s) Workshop (cr arr). Prereq: perm.

Fish 404 (s) Special Topics (cr arr). Prereq: perm.

Fish 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

Fish 411 Ichthyology (4 cr). See Zool 481.

Fish ID413 Fish Ecology (2 cr). WSU Zool 414. Principles regulating density of fishes; interrelationships of fishes; response of fishes to environmental stress.

Fish 415 Limnology (4 cr). Same as Zool 435. Physical, chemical, and biological features of lakes and streams. Two lec and four hrs of lab a wk; two 1-day field trips. Prereq: general ecology.

Fish 417 Aquaculture (3 cr). Concepts and methods of extensive and intensive aquaculture in warmwater, coldwater, and marine systems. One 1-day field trip. Prereq: Fish 411.

Fish 418 Fisheries Management (4 cr). Techniques employed in sampling and application of principles toward managing recreational and commercial aquatic resources.

Fish 420 Fish Diseases (3 cr). Epidemiology, diagnostics, prevention, and treatment of infectious and noninfectious diseases of free-living and confined finfish.

Fish 446 Diseases of Wild Birds and Mammals (2 cr). See WLF 446.

Fish 470 Interdisciplinary Natural Resource Planning (3 cr). Land use planning and decision-making theories, legislation and techniques applied to natural resource case studies from public and private sector, including impact assessment, creation and valuation of alternatives, and public involvement. Two hrs of lec, 3 hrs of lab, and 1 hr of recitation a wk; one 1-day field trip. Prereq: senior standing; For/ResRc/Soc 235; For/Range/WLF 221; For/Range/ForPr/ResRc/WLF/Fish 302, and four of the following: ForPr 250, Range 251, For 270, WLF 290, Fish 290, ResRc 287.

Fish 495 Seminar (1 cr). Disc integrating biological, social, political, economic, and philosophic aspects of problems in managing fishery resources.

Fish 499 (s) Directed Study (cr arr). For the individual student; conferences, library, field, or lab work. Prereq: sr standing, GPA 2.5, and perm.

Fish 500 Master's Research and Thesis (cr arr).

Fish 501 (s) Seminar (cr arr). Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics. Prereq: perm.

Fish 502 (s) Directed Study (cr arr). Prereq: perm.

Fish 503 (s) Workshop (cr arr). Selected topics in the conservation and management of natural resources. Prereq: perm.

Fish 504 (s) Special Topics (cr arr). Prereq: perm.

Fish 506 (s) Study Abroad (cr arr). Prereq: perm of dept.

Fish ID510 Advanced Fishery Management (3 cr). WSU Zool 513. Alt/yrs. Compensation as a phenomenon basic to exploitation; yield in numbers and weight; models of yield; stock-recruitment functions; economic yield; application of theory of physical and economic yield to empirical examples in commercial and sport exploitation. One 5-day field trip.

Fish ID511 Fish Physiology (4 cr). WSU Zool 515. Alt/yrs. Principles and methods used to study vital organs, organ systems, growth, and reproduction of fishes; emphasis on osmoregulation, metabolism, endocrinology, and respiration. Prereq: Fish 411 and perm.

Fish ID512 Aquatic Pollution Ecology (3 cr). Alt/yrs. Principles and working examples of the ecology of polluted aquatic stream and lake habitats. Two 1-day field trips. Prereq: Fish 415 or perm.

Fish 514 Fish Population Ecology (2 cr). Review of abiotic and biotic factors controlling or regulating fish population densities and critical review of relevant literature.

Fish WS519 Fish Genetics (2 cr). WSU GenCB 516.

Fish 589 Water Resources Seminar (1 cr). See Inter 589.

Fish 595 (s) Problems in World Resources (1-3 cr, max 3).

Fish 597 (s) Practicum (cr arr). Prereq: perm.

Fish 598 (s) Internship (cr arr). Prereq: perm.

Fish 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Fish 600 Doctoral Research and Dissertation (cr arr). Prereq: admission to the doctoral program in "forestry, wildlife and range sciences" and perm of dept.

WILDLIFE RESOURCES

PREREQUISITE: Courses in this subject field numbered above 299 are not open to any undergraduate student who is on academic probation.

WLF 102 The Wildlife Profession (1 cr). Survey of management problems and professional opportunities.

WLF 200 (s) Seminar (cr arr). Prereq: perm.

WLF 203 (s) Workshop (cr arr). Prereq: perm.

WLF 204 (s) Special Topics (cr arr). Prereq: perm.

WLF 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

WLF 221 Natural Resources Ecology (3 cr). Principles of plant and animal ecology with emphasis on concepts applied in natural resources; includes interactions between organisms and their physical environment, evolutionary processes, populations, communities, energy flow and ecosystems, and conservation biology. Recommended preparation: Biol 202 and 203. Prereq: Biol 100 or 201, or perm.

WLF 290 Principles of Wildlife Biology (2 cr). Introductory review of wildlife ecology including such topics as basic ecological laws, wildlife biology, and management of wildlife populations.

WLF 299 (s) Directed Study (cr arr). Prereq: perm.

WLF 301 Wildland Field Ecology I (1 cr). Introduction to field ecology; the rationale for and importance of studying terrestrial, aquatic, and human ecosystems at individual, population, community, landscape, regional, and global scales; application of ecological principles to integrated natural resource management. Two weeks all-day lec/lab immediately following spring semester; overnight field excursions required. Prereq: For/ResRc/Soc 235 and For/Range/WLF 221.

WLF 302 Wildland Field Ecology II (2 cr). Field studies of ecological and socio-political processes in terrestrial, aquatic, and human ecosystems at individual, population, community, landscape, regional, and global scales; application of ecological principles to integrated natural resource management. Two weeks all-day lec/lab immediately following spring semester; overnight field excursions required. Prereq: For/ForPr/Range/WLF/ResRc/Fish 301.

WLF 305 Field Research in Wilderness Ecology (3 cr). Same as ResRc 305. Students assist wilderness scientists in current wilderness research conducted from UI Wilderness Field Station, located at Taylor Ranch in the heart of the Frank Church River of No Return Wilderness of central Idaho; field work augmented by lectures and discussions with wilderness scientists and managers, and assigned readings; three-week summer course. Prereq: general ecology or perm.

WLF 314 Wildlife Ecology (3 cr). Application of principles of ecology to conservation and management of wildlife in natural and altered habitats. Two lec and one lab a wk; three days of field trips. Prereq: WLF/For/Range 221 or perm.

WLF 396 Wilderness Research Internship (3 cr). Same as ResRc 396. Nine-week summer internship at UI Wilderness Field Station, located at Taylor Ranch in the heart of the Frank Church River of No Return Wilderness of central Idaho; research honorarium awarded; lodging and transportation to field station provided. Enrollment limited to 2-3 students based on available funding. Prereq: competitive selection by faculty committee based on research proposal, GPA, and resume; junior standing.

WLF 397-398 Renewable Natural Resources Internship I-II (cr arr). Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F. Prereq: perm of dept.

WLF 400 (s) Seminar (cr arr). Prereq: perm.

WLF 401 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

WLF 403 (s) Workshop (cr arr). Prereq: perm.

WLF 404 (s) Special Topics (cr arr). Prereq: perm.

WLF 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

WLF 441 Wildlife Behavioral Ecology and Management (2 cr). Principles, methodology, and concepts of wildlife behavior and social organization applied to the study and management of wildlife populations. One 2-day field trip. Prereq: WLF 314, Zool 478, or perm.

WLF 442 Wildlife Management (3 cr). Review of social and biological context for current practice of wildlife management. Two lec and one lab a wk; three days of field trips. Prereq: WLF 314, 448, Zool 482, and 483 or perm.

WLF WS444 Disease Concepts for Wildlife Biologists (3 cr). WSU V Mic 435.

WLF 445 Nongame Management (2 cr). Review of principles, methodology, and concepts applied to management and conservation of nongame wildlife in relation to current land-use practices. Prereq: Zool 482, 483, or perm.

WLF 446 Diseases of Wild Birds and Mammals (2 cr). Alt/yrs. Same as VS 446A and Fish 446. Epidemiology, pathology, treatment, and control. Prereq: perm.

WLF J447/J547 Predator Ecology and Management (3 cr). Alt/yrs. Ecology of predators and predator-prey systems with emphasis on mammalian species, discussion of predation theory and contributions of field studies to understanding the role of predation in natural and altered communities; human-predator conflicts and resolution. Additional projects/assignments req'd for grad cr. One 3-day field trip.

WLF 448 Fish and Wildlife Population Ecology (4 cr). Attributes, natality, mortality, growth forms, fluctuations, and regulation of fish and wildlife populations. Three lec and one lab a wk. Prereq: Stat 251, course in vertebrate ecology.

WLF WS465 Law of Evidence and Criminal Procedure (3 cr). WSU Crm J 420.

WLF 470 Interdisciplinary Natural Resource Planning (3 cr). Land use planning and decision-making theories, legislation and techniques applied to natural resource case studies from public and private sector, including impact assessment, creation and valuation of alternatives, and public involvement. Two hrs of lec, 3 hrs of lab, and 1 hr of recitation a wk; one 1-day field trip. Prereq: senior standing, For/ResRc/Soc 235, For/Range/WLF 221, For/Range/ForPr/ResRc/WLF/Fish 302; and four of the following: ForPr 250, Range 251, For 270, WLF 290, Fish 290, ResRc 287.

WLF 489 Personalities and Philosophies in Conservation (2 cr). See ResRc 489.

WLF 493 Environmental Law (2 cr). Laws governing resource administration and environmental impacts. Prereq: sr standing.

WLF 495 Wildlife Seminar (1-2 cr). Disc integrating biological, social, political, economic, and philosophic aspects of wildlife problems.

WLF 499 (s) Directed Study (cr arr). For the individual student; conferences, library, field, or lab work. Prereq: sr standing, GPA 2.5, and perm.

WLF 500 Master's Research and Thesis (cr arr).

WLF 501 (s) Seminar (cr arr). Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics. Prereq: perm.

WLF 502 (s) Directed Study (cr arr). Prereq: perm.

WLF 503 (s) Workshop (cr arr). Selected topics in the conservation and management of natural resources. Prereq: perm.

WLF 504 (s) Special Topics (cr arr). Prereq: perm.

WLF 541 Advanced Population Biology (2 cr). Alt/yrs. Readings and disc of current theories of population control, their biological basis, and applications to wildlife populations. Prereq: WLF 448 or perm.

WLF 542 Waterfowl Management (3 cr). Alt/yrs. Ecology and management of species using wetland habitats. Lec-disc periods, field labs; three days of field trips. Prereq: ecology, population dynamics, and aquatic plants.

WLF 543 Fish and Wildlife Population Analysis (3 cr). Alt/yrs. Quantitative analysis of fish and wildlife habitat, diet, harvest, population density, survival, and natality data; development and application of population models in fish and wildlife management. Two lec and 3 hrs of lab a wk. Prereq: WLF 448, Stat 401 and CS 112 or perm.

WLF 544 Big Game Management (3 cr). Readings and disc on large mammal management and ecology. One 3-hr lec a wk; two days of field trips. Prereq: WLF 442 or perm.

WLF 545 Wildlife Habitat Ecology (2 cr). Alt/yrs. Reading and disc on synecological relationships of wildlife habitats. Two days of field trips. Prereq: WLF 442 or perm, animal and plant ecology.

WLF ID546 Upland Game Ecology (2 cr). Alt/yrs. WSU NATRS 546. Ecology and management of forest and rangeland wildlife species. Three days of field trips. Prereq: perm.

WLF 547 Predator Ecology and Management (3 cr). See WLF J447/J547.

WLF WS548 Evolutionary Ecology of Populations (3 cr). WSU Zool 548.

WLF ID555 Statistical Ecology (3 cr) (For 555). Same as Stat 555. WSU Stat 555. Alt/yrs. Stochastic models in ecological work; discrete and continuous statistical distributions, birth-death processes, diffusion processes; applications in population dynamics, population genetics, ecological sampling, spatial analysis, and conservation biology. Prereq: Math 451 or perm.

WLF WS560 Environmental Physiology (4 cr). WSU Zool 560.

WLF WS588 Advanced Topics in Wildlife (1-3 cr, max 10). WSU NATRS 588.

WLF 595 (s) Problems in World Resources (1-3 cr, max 3).

WLF 597 (s) Practicum (cr arr). Prereq: perm.

WLF 598 (s) Internship (cr arr). Prereq: perm.

WLF 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

WLF 600 Doctoral Research and Dissertation (cr arr). Prereq: admission to the doctoral program in "forestry, wildlife and range sciences" and perm of dept.

Curricular Requirements

FISHERY RESOURCES (B.S. Fish Res.)

Students pursuing a B.S. degree in fishery resources (management or aquaculture options) must have received a grade of C or better in each of the following five indicator courses to register for upper-division courses in fishery resources and to graduate with a B.S. Fish. Res.: Biol 201 and 202, Stat 251, WLF/For/Range 221, and Fish 290.

Students must achieve a grade of C or better in each upper-division course listed in the requirements for the B.S. degree in fishery resources (management or aquaculture options).

Required course work includes the university requirements (see regulation J-3) and one of the following options:

A. AQUACULTURE OPTION

First and Second Years	Credits
Fish 102 The Fishery Resources Profession	1
Fish 290 Principles of Fish Biology & Management	2
Fish/WLF/For/ForPr/Range/ResRc 301 Wildland Field Ecology I	1
Acctg 201 Introduction to Financial Accounting	3
ASM 240 Computer Applications in Biological Systems	3
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Chem 103 Introduction to Chemistry	4
Chem 275 Carbon Compounds	3
CommG 131 Fundamentals of Public Speaking	2
FWR 101 Forestry Orientation	1
Math 160 Survey of Calculus	4

Phys 101 Fundamentals of Physics	4
WLF/For/Range 221 Natural Resources Ecology	3
WLF 290 Principles of Wildlife Biology	2
Two of the following courses (taken before enrolling in	
Fish/WLF/For/ForPr/Range/ResRc 302)	4
For 270 Principles of Forest Ecosystems Management	
ResRc 287 Principles of Resource Recreation & Tourism Management	
Range 251 Principles of Range Resource Management	
ForPr 250 Principles of Forest Products	

Summer Session

Fish/WLF/For/ForPr/Range/ResRc 302 Wildland Field Ecology II	2
--	---

Third and Fourth Years

Fish 411 Ichthyology	4
Fish 413 Fish Ecology	2
Fish 415 Limnology	4
Fish 417 Aquaculture	3
Fish 418 Fisheries Management Techniques	4
Fish 420 Fish Diseases	3
Fish/WLF/For/ForPr/Range/ResRc 470 Interdisciplinary Natural Resource Planning	3
Fish 495 Seminar	1
AgEc 391 Agribusiness Management	3
AVS 305 Animal Nutrition	3
AVS 371 Anatomy & Physiology or Zool 423 Comparative Vertebrate Physiology	4
Bact 250 General Microbiology	5

WILDLIFE RESOURCES (B.S.Wildl.Res.)

Students pursuing a B.S. in wildlife resources must have at least a 2.5 GPA in five indicator courses listed below to register in upper-division courses in wildlife resources and to graduate with a B.S. in wildlife resources: Biol 202 and 203, Stat 251, WLF 221 and 290.

A student must receive a grade of C or better in each upper-division course listed in the requirements for the B.S. in wildlife resources.

Required course work includes the university requirements (see regulation J-3) and:

First and Second Years

Credits

WLF/For/Range 221 Natural Resources Ecology	3
WLF 290 Principles of Wildlife Biology	2
WLF/For/Range/ResRc 301 Wildland Field Ecology I	1
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Bot 241 Systematic Botany	3
Chem 103 Introduction to Chemistry	4
Chem 275 Carbon Compounds	3
CommG 131 Fundamentals of Public Speaking	2
Fish 290 Principles of Fish Biology & Management	2
For/ResRc/Soc 235 Society & Natural Resources	3
FWR 101 Forestry Orientation	1
Geol 101, 102 Physical Geol & Lab or Soils 205, 206 General Soils & Lab	4
Math 160 Survey of Calculus or 180 Analytic Geometry & Calculus I	4
Phys 101 Fundamentals of Physics	4
Two of the following courses (taken before enrolling in WLF 302)	4
For 270 Principles of Forest Ecosystems Management	
ResRc 287 Principles of Resource Recreation & Tourism Management	
Range 251 Principles of Range Resource Management	
ForPr 250 Principles of Forest Products	

Summer Session

WLF/For/Range/ResRc 302 Wildland Field Ecology II	2
---	---

Third and Fourth Years

WLF 314 Wildlife Ecology	3
WLF 400 Seminar in Public Relations Problems in Wildlife	2
WLF 442 Wildlife Management	3
WLF 448 Fish & Wildlife Population Ecology	4
WLF/For 470 Interdisciplinary Natural Resource Planning	3
WLF 495 Wildlife Seminar	1
AVS 371 Anatomy & Physiology or Zool 324 Comparative Vertebrate Anatomy	4
Biol 351 General Genetics	3
Econ 202 Principles of Economics	3
Eng 205 Adv Expository Writing or 317 Technical & Engr Report Writing	3
For 294 Quantitative Resource Analysis or ASM 240	
Computer Applications in Biological Systems	3
For 383 Economics for Natural Resource Managers	3
ResRc 488 Interpretive Methods Lab or Comm 431 Professional Presentation Tech	3
Stat 251 Principles of Statistics	3
Zool 482 Natural History of Birds	3
Zool 483 Natural History of Mammals	3
Approved electives from one of the following areas: quantitative;	
habitat; aquatic; communication; policy-administration; biology	9
Electives to total 128 credits for the degree	—

Department of Food Science and Toxicology

Jerry H. Exon, Dept. Head (22 Glen C. Holm Bldg.; 208/885-7081). Faculty: A. Larry Branan, P. Michael Davidson, Jerry H. Exon, John E. Montoure, Paul Muneta, Elizabeth South, Patricia A. Talcott, John H. Thorngate III. Adjunct Faculty: Kimberly A. Anderson, Gregory Moller, Griffin H. Walker.

Food science is the study of the science and technology related to the safety, quality, procurement, processing, preservation, and distribution of foods and food products.

Toxicology is the scientific study related to poisonous substances, their biologic effects, physical properties, and antidotes, and the recognition and treatment of diseases caused by such substances. These substances may be naturally occurring or manufactured.

The Department of Food Science and Toxicology offers the B.S.F.S. and M.S. degrees in food science. Through a combination of specific program requirements, course offerings, and student advising, the Department of Food Science and Toxicology prepares students for careers in private industry, government, and academia. The professions of food science and toxicology deal with the relationship of the basic sciences to the well being of all people.

Food Science and Toxicology Courses

FST 101 Introduction to Food Science (3 cr). World food problems; concepts of nutritional adequacy; processing, microbiology, preservation, and packaging of foods; food additives and regulations.

FST ID&WS201 Food Quality Assurance (3 cr). WSU FSHN 200. Regulations that govern safety and wholesomeness of processed food products; microbiological and chemical hazards and physical factors that influence food quality; methods for analyzing microbiological, chemical, physical, and sensory qualities of food products and packaging; design of programs, problem management associated with food quality assurance.

FST 204 (s) **Special Topics** (cr arr). Prereq: perm.

FST 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FST **WS301 Dairy Products** (3 cr). WSU FSHN 301. Specialized techniques and practices of dairy product manufacturing and marketing. Prereq: Bact 250, Chem 275, 276.

FST **WS302 Meat and Poultry Products** (3 cr). WSU FSHN 302. Specialized techniques and practices of meat, poultry, and egg processing and marketing. Prereq: Bact 250, Chem 275, 276.

FST **WS303 Food Processing** (3 cr). WSU FSHN 303. Specialized techniques and practices of food processing and marketing. Prereq: Bact 250, Chem 275, 276.

FST **WS304 Cereal Products** (2 cr). WSU FSHN 304. Technical principles related to production and commercial processing of legume and cereal foods. Field trip reqd. Prereq: Chem 275, 276.

FST 400 (s) **Seminar** (cr arr). Prereq: perm.

FST **ID402 Food and Applied Microbiology** (4 cr). See Bact 402.

FST 404 (s) **Special Topics** (cr arr). Prereq: perm.

FST 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FST **ID423 Sensory Analysis** (3 cr). WSU FSHN 422. Principles and methods of sensory evaluation of foods. Prereq: Stat 251.

FST **J427/J527 Transmission Electron Microscopy** (3 cr). Discussion and application of basic skills reqd in use of transmission electron microscope, including simple specimen preparation techniques and photographic darkroom skills. Additional projects/assignments reqd for grad cr.

FST **ID&WS433 Agricultural Processing** (3 cr). See ASM 433.

FST **WS434 Food Engineering Laboratory** (1 cr). WSU FSHN 434. Experiments in heat transfer, fluid flow, and dehydration.

FST **J440/J540 Biological Electron Microscopy** (4 cr). Application of biological specimen techniques in EM, including ultramicrotomy and use of specific stains. Registration for FST 540 requires completion of a written report. Prereq: FST J427/J527.

FST **J441A/J541 Scanning Electron Microscopy** (3 cr). Theory and principles of scanning electron microscopy as investigative tool; includes operation and maintenance of electron microscope, specimen preparation, and photographic darkroom procedure. Students registering for FST 541 are reqd to complete an additional research paper.

FST **WS441B Pharmacological Basis of Therapeutics I** (3 cr). WSU PharS 441.

FST **WS442 Pharmacological Basis of Therapeutics II** (3 cr). WSU PharS 442.

FST **WS443 Pharmacological Basis of Therapeutics III** (4 cr). WSU PharS 443.

FST **WS-J450/WS-J550 Food Fermentations** (3 cr). WSU FSHN 450/550. Alt/yr. Cr not granted for both FST 450 and 550. Principles and procedures of fermentation of fruits and vegetables, meat products, and dairy products. Additional projects/assignments reqd for grad cr. Prereq: Bact 250, Chem 275, 276.

FST **ID&WS460 Food Chemistry** (3 cr). WSU FSHN 460. Fundamentals of food chemistry; composition of foods and the changes that occur during processing. Prereq: Chem 275, 276, Biochem 280.

FST **ID&WS461 Food Chemistry Lab** (1 cr). WSU FSHN 461. Experiments related to properties, reactions, and interactions of chemical components of foods.

FST **WS462 Food Analysis** (4 cr). WSU FSHN 462. Introductory food analysis; methods common to many food commodities. Prereq: Chem 275, 276, Bact 250.

FST **WS-J470/WS-J570 Advanced Food Technology** (3 cr). WSU FSHN 470/570. Cr not granted for both FST 470 and 570. Physical principles of food preservation and recent advances in food technology. Additional projects/assignments reqd for grad cr. Prereq: FST 402, 433 or perm.

FST 499 (s) **Directed Study** (cr arr). Prereq: perm.

FST 500 **Master's Research and Thesis** (cr arr).

FST 501 (s) **Seminar** (cr arr). Prereq: perm.

FST 502 (s) **Directed Study** (cr arr). Prereq: perm.

FST 503 (s) **Workshop** (cr arr). Prereq: perm.

FST 504 (s) **Special Topics** (cr arr). Prereq: perm.

FST **WS505 Principles of Toxicology** (3 cr). WSU P/T 505.

FST **WS506 Principles of Pharmacology I** (3 cr). WSU P/T 506.

FST **WS507 Principles of Pharmacology II** (3 cr). WSU P/T 507.

FST **WS508 Philosophy of Pharmacology and Toxicology** (1 cr) (FST WS501). WSU P/T 501.

FST **WS510 Advanced Food Chemistry** (3 cr). WSU FSHN 510. Alt/yr. Chemical, physical, and toxicological properties of water, vitamins, pigments, synthetic colors, minerals, miscellaneous food additives, and natural toxicants. Prereq: Biochem 380.

FST **WS511 Topics in Toxicology** (1-4 cr). WSU P/T 511.

FST **WS512 Food Carbohydrates, Lipids, and Proteins** (3 cr). WSU FSHN 511. Alt/yr. Occurrence, structure, properties and functions of carbohydrates, lipids and proteins in foods. Prereq: Biochem 380.

FST **WS525 Instrumental Methods in Pharmacology/Toxicology** (3 cr). WSU P/T 525. Alt/yr.

FST 527 **Transmission Electron Microscopy** (3 cr). See FST J427/J527.

FST **WS532 Metabolism of Drugs and Toxins** (2 cr). WSU P/T 532. Alt/yr.

FST **WS533 Pharmacology and Toxicology II** (4 cr). WSU V M 533.

FST 540 **Biological Electron Microscopy** (4 cr). See FST J440/J540.

FST 541 **Scanning Electron Microscopy** (3 cr). See FST J441A/J541.

FST **WS545 Toxicology of Pesticides** (3 cr). WSU Entom 545. Alt/yr.

FST **WS550 Food Fermentations** (3 cr). See FST J450/J550.

FST **WS565 Teratogenesis, Carcinogenesis, and Mutagenesis** (2 cr). WSU P/T 565. Alt/yr.

FST **WS566 Target Organ Toxicity** (2 cr). WSU P/T 566. Alt/yr.

FST **WS567 Risk Assessment Methodologies** (1-2 cr). WSU P/T 567. Alt/yr.

FST **WS570 Advanced Food Technology** (3 cr). See FST J470/J570.

FST **WS587 Food Process Engineering** (3 cr). WSU FSHN 587. Fundamentals for design of food processing systems; food properties; thermal and physical processes. Prereq: FST 433.

FST **WS597 Pharmacology and Toxicology Seminar** (1 cr, max 4). WSU P/T 597. Graded P/F.

Curricular Requirements

FOOD SCIENCE (B.S.F.S.)

Emphasis in this program is placed on providing a sound background to prepare students for positions in food processing and related industries, governmental agencies, and research laboratories, and to prepare students who wish to pursue an advanced degree in food science. Faculty from both UI and Washington State University teach courses in the food science program. Some classes are taught on the UI campus and some on the WSU campus.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
FST 101 Introduction to Food Science	3
FST 201 Food Quality Assurance	3
FST 303 Food Processing	3
FST 400 Seminar	1
FST 402 Food & Applied Microbiology	4
FST 423 Sensory Analysis	3
FST 433 Agricultural Processing	3
FST 434 Food Engineering Laboratory	1
FST 450 Food Fermentations	3
FST 460, 461 Food Chemistry & Lab	4
FST 462 Food Analysis	4
FST 470 Advanced Food Technology	3
FST commodity electives (FST 301, 302, or 304)	5-6
Bact 250 General Microbiology	5
Biochem 380 Introductory Biochemistry	3
Biol 100 Introduction to Biology	4
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 275, 276 Carbon Compounds & Lab	4
CommG 131 Fundamentals of Public Speaking	2
CS 100 Introduction to Computers & Programming	3
Econ 202 Principles of Economics	3
Eng 317 Technical & Engineering Report Writing	3
FCS 170 Introductory Foods	3
FCS 205 Concepts of Human Nutrition	3
Math 160 Survey of Calculus	4
Phys 113, 115 General Physics & Lab	4
Stat 251 Principles of Statistics	3
Electives to total 129-131 credits for the degree	—

Department of Foreign Languages and Literatures

James R. Reece, Dept. Chair (314 Admin. Bldg.; 208/885-6179). Faculty: George Bridges (German), Alfred W. Jensen (Spanish), Irina A. Kappler-Crookston (Spanish), Richard M. Keenan (Spanish), Shirley Koenen (French), Elisabeth Lapeyre (French), Cecelia E. Luschig (Classics), Michael W. Moody (Spanish), Louis A. Perraud (Classics), James R. Reece (German), Alan Rose (French), Galen O. Rowe (Classics), Gerd Steckel (German), Robert L. Surles (Spanish), Dennis D. West (Spanish), Joan M. West (French).

The study of a foreign language and literature is a way of expanding one's horizons while developing specific linguistic skills that will enhance career, academic, and travel opportunities. One of the many benefits derived from foreign-language study is the ability to transcend linguistic and cultural parochialism. To understand the uniqueness of one's own language and civilization, knowledge of another culture is essential. Language study is the key that unlocks the mysteries surrounding a foreign people. Through language, one is able to explore their literature, art, history, and philosophy—in short, their way of life. In preparing to meet the challenges of a rapidly changing and interdependent world, foreign language expertise plays an increasingly important role. In many areas (business, education, communications, social work, technical and engineering positions, science, law, medicine, etc.), knowledge of a second language is not only desirable but necessary.

The Department of Foreign Languages and Literatures offers major programs of study in three modern languages (Spanish, French, and German) as well as in classical studies and Latin. In addition, a cooperative course agreement with Washington State University in nearby Pullman now makes it possible for UI students to complete basic course work in Chinese, Japanese, and Russian.

The department's business and computer science options offer students the opportunity to combine a foreign language major with pre-professional course work in these career areas. The newly inaugurated international studies major combines foreign language study with a specific issue and area focus.

Language instruction at UI is proficiency-oriented in approach and encourages active student involvement from the outset. Language classes are small enough to allow for instructor-student interaction and to ensure that each student receives individual attention. Classroom instruction is supported by a fully equipped language learning laboratory with facilities for audiocassette, synchronized slide/sound, and videocassette instruction.

The department actively encourages its students to pursue opportunities to work and/or study in foreign countries as part of their study program. Foreign language faculty advisers and the staff of the UI International Programs Office will gladly assist students in planning a semester's or year's study abroad.

If a student has already studied a foreign language in high school, he or she may be eligible to receive advanced placement credits simply by enrolling in a more advanced course at UI.

The department offers graduate work in French, German, and Spanish leading to the M.A.T. degree. The purpose of graduate programs in languages, cultures, and literatures is to offer advanced scholarly preparation for careers in teaching.

For further information, please consult the department chair (208/885-6179).

Courses

ADVANCED PLACEMENT: Courses in this subject field that are vertical in content are: FL/CH WS101-WS102; FL/FR 101-102-201-202; FL/GN 121-122-221-222; FL/GK 341-342-441-442; FL/JP WS101-WS102-WS203-WS304; FL/LA 161-162; FL/RU WS101-WS102-WS203-WS304; FL/SP 181-182-281-282. In appropriate cases, with the approval of the chair of the Department of Foreign Languages and Literatures, any one of the following courses may be considered the terminal course in the vertical sequence for advanced placement: FL/FR 301-302; FL/GN 321-322; FL/SP 381-382. Any upper-division Latin literature course may be used to receive advanced placement credit for FL/LA 161-162.

PREREQUISITE: Prerequisite for upper-division language courses, except those in Greek, is the appropriate intermediate course or equivalent.

COURSES OFFERED IN ENGLISH

No knowledge of foreign language required. May be used to fulfill the L & S humanities requirement.

FL/EN 200 (s) **Seminar** (cr arr). Prereq: perm.

FL/EN 204 (s) **Special Topics** (cr arr). Prereq: perm.

FL/EN 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/EN 209 **Learning Lab** (1 cr, max arr). Autotutorial instruction using audiovisual materials. Graded P/F. Prereq: perm.

FL/EN 211 **Classical Mythology (Gods)** (2 cr). Intro to classical myths and legends and their survival in western literature and art.

FL/EN 212 **Classical Mythology (Heroes)** (2 cr). Intro to classical myths and legends and their survival in western literature and art.

FL/EN 243 **English Word Origins** (2 cr). Fundamental Latin and Greek words used in the humanities and natural science; emphasis on terminology of fields in which students are interested; knowledge of Greek or Latin is not required.

FL/EN 299 (s) **Directed Study** (cr arr). Prereq: perm.

FL/EN 313-314 **Modern French Literature in Translation** (3 cr). A maximum of 3 cr of FL/EN 313-314 may be counted toward a major in French. Major modern French authors in English translation; knowledge of French is not required.

FL/EN 323-324 **German Literature in Translation** (3 cr). A maximum of 3 cr in FL/EN 323-324 may be counted toward a major in German. Major German-language authors in English translation; knowledge of German is not required.

FL/EN ID363-ID364 **Literature of Ancient Greece and Rome** (3 cr). WSU Clas 363/364. FL/EN 363: Greece. FL/EN 364: Rome. Ancient culture primarily through writings of Greek and Roman poets, playwrights, thinkers, and historians in English translation; may take the form of a survey or center on a theme or genre; lec, disc, and writing.

FL/EN 391 **Hispanic Film** (3 cr). Open to all students. Genre, structure, and style of representative fiction and nonfiction films of Spain and Latin America. May not be taken concurrently with FL/SP 391.

FL/EN 393 **Spanish Literature in Translation** (3 cr). A maximum of 3 cr in FL/EN 393 and 394 may be counted toward a major in Spanish. Major Spanish-language authors in English translation; knowledge of Spanish is not required.

FL/EN 394 **Latin American Literature in Translation** (3 cr). A maximum of 3 cr in FL/EN 393 and 394 may be counted toward a major in Spanish. Major Spanish-language authors in English translation; knowledge of Spanish is not required.

FL/EN 400 (s) **Seminar** (cr arr). Prereq: perm.

FL/EN 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/EN 441 **Ancient Greek Civilization** (3 cr). Survey of development of Greek civilization, BC 2000-BC 300.

FL/EN 442 **Civilization of Ancient Rome** (3 cr). Survey of development of Roman civilization, BC 800-AD 500.

FL/EN 449 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.

FL/EN 498 (s) **Proseminar** (1-3 cr, max 12). May be graded P/F when grading system is uniform for all students in the class. Prereq: perm.

FL/EN 499 (s) **Directed Study** (cr arr). Prereq: perm.

CHINESE

FL/CH WS101 **Chinese First Semester** (4 cr). WSU Chin 101. Satisfies core requirement J-3-a. Open only to students with a declared major or minor in international studies.

FL/CH WS102 **Chinese Second Semester** (4 cr). WSU Chin 102. Open only to students with a declared major or minor in international studies.

FRENCH

FL/FR 101-102 **Elementary French** (4 cr) (C, 101 only). FL/FR 101 satisfies core requirement J-3-a. Pronunciation, vocab, reading, spoken French, and functional grammar.

FL/FR 103 (s) **French Language Lab** (1 cr, max 4). Practice in listening comprehension, pronunciation, and grammatical structures. Graded P/F. Coreq: elementary or intermediate French (FL/FR 101-102, 201-202).

FL/FR 200 (s) **Seminar** (cr arr). Prereq: perm.

FL/FR 201-202 **Intermediate French** (4 cr). Reading, grammar review, speaking, and writing. Prereq: FL/FR 102.

FL/FR 204 (s) **Special Topics** (cr arr). Prereq: perm.

FL/FR 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/FR 299 (s) **Directed Study** (cr arr). Prereq: perm.

FL/FR 301 **Advanced French Grammar** (3 cr).

FL/FR 302 **Advanced French Writing Skills** (3 cr). Recommended for students who wish to continue in upper-division French courses.

FL/FR 303 **French Civilization: Institutions** (3 cr).

FL/FR 304 **French Culture** (3 cr).

FL/FR 305 **Survey of French Fiction and Drama** (3 cr). Middle Ages to the present.

FL/FR 306 **Survey of French Essay and Poetry** (3 cr). Middle Ages to the present.

FL/FR 309 **French Language Lab** (1 cr, max arr). Advanced conversational skills. Graded P/F. Prereq: perm.

FL/FR 400 (s) **Seminar** (cr arr). Prereq: perm.

FL/FR 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/FR 407 (s) **French Literary Themes** (3 cr).

FL/FR 409 **French Phonetics** (1-3 cr, max 6). Phonetic description and phonemic analysis; stress, its nature and place; intonation patterns in conversation; reading of prose and poetry.

FL/FR 411 **French Conversation** (3 cr).

FL/FR 415 (s) **Special Topics** (cr arr).

FL/FR 416 **French Business** (3 cr).

FL/FR 449 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.

FL/FR 498 (s) **Proseminar** (1-3 cr, max 12). May be graded P/F when grading system is uniform for all students in the class. Prereq: perm.

FL/FR 499 (s) **Directed Study** (cr arr). Prereq: perm.

FL/FR 501 (s) **Seminar** (cr arr). Prereq: perm.

FL/FR 502 (s) **Directed Study** (cr arr). Prereq: perm.

FL/FR 504 (s) **Special Topics** (cr arr). Prereq: perm.

GERMAN

FL/GN 121-122 **Elementary German** (4 cr). FL/GN 121 satisfies core requirement J-3-a. Pronunciation, vocabulary, reading, spoken German, and functional grammar.

FL/GN 123 (s) **German Language Lab** (1 cr, max 4). Practice in listening comprehension and conversational skills. Graded P/F. Coreq: elementary or intermediate German (FL/GN 121-122, 221-222).

FL/GN 200 (s) **Seminar** (cr arr). Prereq: perm.

FL/GN 204 (s) **Special Topics** (cr arr). Prereq: perm.

FL/GN 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/GN 221-222 **Intermediate German** (4 cr). Review and practice of basic language skills; increased emphasis on reading and free discussion. Appropriate starting point for students with two or three yrs of high school German. Prereq: FL/GN 122 or equiv.

FL/GN 225 **German for Reading Knowledge** (3 cr). Emphasis on descriptive grammar and rapid acquisition of reading fluency in German; preparation for grad reading exam. May not be counted toward fulfillment of language requirement for B.A. degree.

FL/GN 299 (s) **Directed Study** (cr arr). Prereq: perm.

FL/GN 321 **German Conversation** (3 cr). Emphasis on developing proficiency in speaking and writing; discussion on topics of cultural interest. Prereq: FL/GN 222.

FL/GN 322 **German Grammar and Composition** (3 cr). Emphasis on writing skills and various kinds of writing; selective review of German grammar and usage. Prereq: FL/GN 222.

FL/GN 325-326 **German Culture and Institutions** (3 cr). May be taken in either order; survey of German cultural heritage from the earliest times to the present. FL/GN 325: development in the arts, philosophy, science, political and social thought through end of 19th century; history and political development of German nation. FL/GN 326: German society and political culture in 20th century; contemporary social and political institutions. Prereq or coreq: FL/GN 222.

FL/GN 327-328 **Survey of German Literature** (3 cr). May be taken in either order; intro course in study of German literature. FL/GN 327: chronological survey of literature from earliest times to beginning of 19th century. FL/GN 328: representative works of modern literature from 19th and 20th centuries. Prereq: FL/GN 222.

FL/GN 329 (s) **German Language Lab** (1 cr, max 2). Advanced aural comprehension; everyday conversational situations, radio and TV programming. Graded P/F. Prereq: perm.

FL/GN 400 (s) **Seminar** (cr arr). Prereq: perm.

FL/GN 404 (s) **Special Topics** (cr arr). Prereq: perm.

FL/GN 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/GN 420 (s) **Readings in German Literature** (3 cr). For advanced students; focus on literary period, theme, genre, or work of a single author. Prereq: FL/GN 327 or 328, or perm.

FL/GN 430 **German Phonetics** (2 cr). Phonetic description and phonemic analysis; stress, its nature and place; intonation patterns in conversation; reading of prose and poetry.

FL/GN 431-432 **Topics in German Language and Culture** (3 cr). Cultural, political, and linguistic topics of contemporary interest.

FL/GN 449 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.

FL/GN 498 (s) **Proseminar** (1-3 cr, max 12). May be graded P/F when grading system is uniform for all students in the class. Prereq: perm.

FL/GN 499 (s) **Directed Study** (cr arr). Prereq: perm.

FL/GN 501 (s) **Seminar** (cr arr). Prereq: perm.

FL/GN 502 (s) **Directed Study** (cr arr). Prereq: perm.

FL/GN 504 (s) **Special Topics** (cr arr). Prereq: perm.

ANCIENT GREEK

FL/GK 200 (s) **Seminar** (cr arr). Prereq: perm.

FL/GK 204 (s) **Special Topics** (cr arr). Prereq: perm.

FL/GK 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/GK 299 (s) **Directed Study** (cr arr). Prereq: perm.

FL/GK ID341-ID342 **Elementary Greek** (4 cr). WSU Clas 341-342. FL/GK 341 satisfies core requirement J-3-a. Pronunciation, vocab, reading, and functional grammar.

FL/GK ID349 (s) **Greek Language Lab** (1 cr, max arr). WSU Clas 349. A maximum of two credits may be earned in basic skills. Graded P/F. Prereq: perm.

FL/GK 400 (s) **Seminar** (cr arr). Prereq: perm.

FL/GK 404 (s) **Special Topics** (cr arr). Prereq: perm.

FL/GK 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/GK ID441-ID442 (s) **Intermediate Greek** (4 cr, max arr). WSU Clas 441-442. Readings in classical Greek prose and poetry.

FL/GK 449 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.

FL/GK 498 (s) **Proseminar** (1-3 cr, max 12). May be graded P/F when grading system is uniform for all students in the class. Prereq: perm.

FL/GK 499 (s) **Directed Study** (cr arr). Prereq: perm.

JAPANESE

FL/JP WS101 **Japanese First Semester** (4 cr). WSU Japn 101. Satisfies core requirement J-3-a. Open only to students with a declared major or minor in international studies.

FL/JP WS102 **Japanese Second Semester** (4 cr). WSU Japn 102. Open only to students with a declared major or minor in international studies.

FL/JP WS203 **Japanese Third Semester** (4 cr). WSU Japn 203. Open only to students with a declared major or minor in international studies.

FL/JP WS304 **Japanese Fourth Semester** (4 cr) (FL/JP WS300). WSU FL 300. Open only to students with a declared major or minor in international studies.

LATIN

FL/LA 161-162 **Elementary Latin** (4 cr). FL/LA 161 satisfies core requirement J-3-a. Pronunciation, vocabulary, reading, composition, and functional grammar.

FL/LA 163 **Latin Language Lab** (1 cr, max arr). Elementary- and intermediate-level skills. Graded P/F. Prereq: perm.

FL/LA 200 (s) **Seminar** (cr arr). Prereq: perm.

FL/LA 204 (s) **Special Topics** (cr arr). Prereq: perm.

FL/LA 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

FL/LA 261-262 **Intensive Latin** (4 cr). Grammar, reading, composition. Prereq: perm.

FL/LA 299 (s) **Directed Study** (cr arr). Prereq: perm.

FL/LA ID365-ID366 **Survey of Latin Literature** (3 cr). WSU Clas 365-366. From early Latin to the Middle Ages.

FL/LA ID369 (s) **Latin Language Lab** (1 cr, max arr). WSU Clas 369. Advanced-level expressive skills. Graded P/F. Prereq: perm.

- FL/LA 400 (s) **Seminar** (cr arr). Prereq: perm.
- FL/LA 404 (s) **Special Topics** (cr arr). Prereq: perm.
- FL/LA 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.
- FL/LA 449 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.
- FL/LA ID461-ID462 **Latin Literature of the Augustan Age** (3 cr). WSU Clas 461-462.
- FL/LA ID463-ID464 **Latin Literature of the Republic** (3 cr). WSU Clas 463-464.
- FL/LA ID465-ID466 **Latin Literature of the Silver Age** (3 cr). WSU Clas 465-466.
- FL/LA 498 (s) **Proseminar** (1-3 cr, max 12). May be graded P/F when grading system is uniform for all students in the class. Prereq: perm.
- FL/LA 499 (s) **Directed Study** (cr arr). Prereq: perm.

RUSSIAN

- FL/RU WS101 **First Semester Russian** (4 cr). WSU Rus 101. Satisfies core requirement J-3-a.
- FL/RU WS102 **Second Semester Russian** (4 cr). WSU Rus 102.
- FL/RU WS203 **Third Semester Russian** (4 cr). WSU Rus 203.
- FL/RU WS304 **Intermediate Russian** (4 cr). WSU Rus 304.
- FL/RU WS305 **Russian Conversation** (1 cr). WSU Rus 305.

SPANISH

- FL/SP 181-182 **Elementary Spanish** (4 cr). FL/SP 181 satisfies core requirement J-3-a. Pronunciation, vocabulary, reading, spoken Spanish, and functional grammar.
- FL/SP 183 (s) **Spanish Language Lab** (1 cr, max 4). Practice in listening comprehension and conversational skills. Graded P/F. Coreq: elementary or intermediate Spanish (FL/SP 181-182 or 281-282).
- FL/SP 200 (s) **Seminar** (cr arr). Prereq: perm.
- FL/SP 204 (s) **Special Topics** (cr arr). Prereq: perm.
- FL/SP 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.
- FL/SP 281-282 **Intermediate Spanish** (4 cr). Reading, grammar review, speaking, and writing. Prereq: FL/SP 182.
- FL/SP 299 (s) **Directed Study** (cr arr). Prereq: perm.
- FL/SP 381-382 **Advanced Spanish Grammar and Composition** (3 cr). Recommended for prospective teachers of Spanish.
- FL/SP 383-384 **Hispanic Culture and Institutions** (3 cr). Topics in Spanish and Latin American civilizations. Prereq: FL/SP 381 or 382, or perm.
- FL/SP 385-386 **Survey of Spanish Literature** (3 cr). Prereq: FL/SP 381 or 382, or perm.
- FL/SP 387-388 **Survey of Spanish-American Literature** (3 cr). Prereq: FL/SP 381 or 382, or perm.
- FL/SP 389 **Spanish Language Lab** (1 cr, max arr). Advanced conversational skills. Graded P/F. Prereq: perm.
- FL/SP 391 **Hispanic Film** (3 cr). Genre, structure, and style of representative fiction and nonfiction films of Spain and Latin America. May be taken concurrently with FL/SP 282 with perm of instructor; may not be taken concurrently with FL/EN 391.
- FL/SP 400 (s) **Seminar** (cr arr). Prereq: FL/SP 381 or 382, or perm.
- FL/SP 404 (s) **Special Topics** (cr arr). Prereq: FL/SP 381 or 382, or perm.
- FL/SP 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.
- FL/SP 449 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.
- FL/SP 485-486 **Contemporary Spanish Literature** (3 cr). Prereq: FL/SP 381 or 382, or perm.
- FL/SP 487-488 **Contemporary Spanish-American Literature** (3 cr). Prereq: FL/SP 381 or 382, or perm.
- FL/SP 493 **Spanish for Teachers** (2 cr). Language and culture; pronunciation and diction.
- FL/SP 498 (s) **Proseminar** (1-3 cr, max 12). May be graded P/F when grading system is uniform for all students in the class. Prereq: perm.
- FL/SP 499 (s) **Directed Study** (cr arr). Prereq: perm.
- FL/SP 501 (s) **Seminar** (cr arr). Prereq: perm.
- FL/SP 502 (s) **Directed Study** (cr arr). Prereq: perm.
- FL/SP 504 (s) **Special Topics** (cr arr). Prereq: perm.

GENERAL COURSES

- FL 200 (s) **Seminar** (cr arr). Prereq: perm.
- FL 204 (s) **Special Topics** (cr arr). Prereq: perm.
- FL 299 (s) **Directed Study** (cr arr). Prereq: perm.
- FL 400 (s) **Seminar** (cr arr). Prereq: perm.
- FL 404 (s) **Special Topics** (cr arr). Prereq: perm.
- FL 499 (s) **Directed Study** (cr arr). Prereq: perm.

Curricular Requirements

A maximum of 15 transfer credits and/or credits earned through study abroad may be applied toward the upper-division requirements for the B.A. degree in French, German, Latin, and classical studies. A maximum of 18 such credits may be applied toward the upper-division requirements for the B.A. degree in Spanish.

CLASSICAL STUDIES (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and:

Course	Credits
FL/EN 211 Classical Mythology (Gods)	2
FL/EN 212 Classical Mythology (Heroes)	2
FL/EN 363-364 Literature of Ancient Greece & Rome	6
FL/GK 341-342 Elementary Greek (or equivalent)	8
FL/LA 161-162 Elem Latin or 261-262 Intensive Latin (or equiv)	8
Additional Latin and/or Greek courses numbered above FL/LA 262 and FL/GK 342 (may incl up to 3 cr of adv lab courses in each language—FL/LA 369; FL/GK 349 other than basic skills)	18
At least eight credits chosen from the following	8
Additional upper-div Latin and Greek courses (recommended for those seeking admission to graduate school)	
FL/EN 243 English Word Origins	
FL/EN 441 Ancient Greek Civilization	
FL/EN 442 Civilization of Ancient Rome	
Anthr 230 World Prehistory	
Arch 385 History of Architecture I: Pre-Modern	
Eng 441 Introduction to the Study of Language	
Phil 309 History of Ancient Philosophy	

Related fields or minor as approved by major adviser

FRENCH (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and:

Course	Credits
FL/FR 101-102 Elementary French or equivalent	8
FL/FR 201-202 Intermediate French or equivalent	8
FL/FR 301 Advanced French Grammar	3
Courses selected from the following	9
FL/FR 302 Advanced French Writing Skills	
FL/FR 303 French Civilization: Institutions	
FL/FR 304 French Culture	
FL/FR 305 Survey of French Fiction & Drama	
FL/FR 306 Survey of French Essay & Poetry	
Upper-division French courses	9
A second foreign language (elem & intern or equiv)	16
Courses in related fields approved by chair or approved academic minor in a related field	20

GERMAN (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and:

Course	Credits
FL/GN 121-122 Elementary German or equivalent	8
FL/GN 221-222 Intermediate German or equivalent	8
Upper-division courses in German language, lit, and culture incl minimum of 12 cr from the following (at least one course from each grouping) and a minimum of 3 cr in 400-level German language & lit	21
FL/GN 321 German Conversation & FL/GN 322 German Grammar & Composition	
FL/GN 325-326 German Culture & Institutions	
FL/GN 327-328 Survey of German Literature	
A second foreign language (elem & intern or equiv)	16
Courses in related fields approved by chair or approved academic minor in a related area	20

LATIN (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and:

Course	Credits
FL/LA 161-162 Elementary Latin (or equivalent).....	8
FL/EN 243 English Word Origins	2
FL/EN 364 Literature of Rome	3
FL/EN 442 Civilization of Ancient Rome	3
Upper-division courses in Latin	20
A second foreign language (elem and interm, or equivalent).....	16
Related fields or academic minor (as approved by chair)	20

SPANISH (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and:

Course	Credits
FL/SP 181-182 Elementary Spanish (or equivalent)	8
FL/SP 281-282 Intermediate Spanish (or equivalent)	8
FL/SP 381-382 Advanced Spanish Grammar & Composition	6
FL/SP 383-384 Hispanic Culture & Institutions	6
FL/SP 385-386 Survey of Spanish Literature	6
FL/SP 388 Survey of Spanish-American Literature	3
Upper-division courses in Spanish language	3
A second foreign language (elem and interm, or equivalent).....	16
Related fields (as approved by chair)	16

FOREIGN LANGUAGES (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and:

Course	Credits
One foreign language, elementary and intermediate	16
Third-year language course (FL/FR 301-302, FL/GN 321-322, FL/LA 365-366, FL/SP 381-382)	3

And one of the following options:

A. BUSINESS OPTION

Designed to provide the student majoring in foreign languages with a liberal arts background and a component of business courses that will form a good beginning for entering a program leading to the degree of Master of Business Administration.

Course	Credits
Approved upper-division foreign language courses	15
Foreign language business course or approved alternative	3
Acctg 395 Fundamentals of Accounting or 201-202 Intro to Financial Accounting & Intro to Managerial Accounting	4-6
Bus 301 Financial Management	3
Bus 311 Introduction to Management	3
Bus 321 Marketing	3
Bus 350 Management Information Systems	3
Bus 474 International Business or Bus 475 International Marketing or Econ 446 International Economics or Econ 447 Economics of Developing Countries	3
CS 112 Introduction to Problem Solving & Programming	3
Econ 272 Foundations of Econ Analysis or 201, 202 Prin of Economics	4-6
Stat 251 Principles of Statistics	3
Electives (as approved by chair) to total 128 cr for the degree	—

B. COMPUTER SCIENCE OPTION

Designed to provide a student majoring in foreign languages with a liberal arts background and a component of computer science courses to prepare for admission to either the M.A.T. program in foreign languages or the M.S. program in computer science. This type of curriculum, involving competence in a foreign language as well as mathematical maturity, skill in the use of at least one programming language, and a basic knowledge of computer hardware, should also prove to be a fine background for developing interesting careers and/or graduate study in various fields, e.g., library science, international business, communications media, instructional media, and education.

Course	Credits
Approved upper-division foreign language courses in one foreign language or the following	18
FL/EN 243 English Word Origins	2
FL/GK 341-342 Elementary Greek	3
FL/LA 161-162 Elementary Latin	8
Upper-division Latin and/or Greek courses (18 cr)	18
CS 112 Introduction to Problem Solving & Programming	3
CS 113 Program Design & Algorithms	3
CS 213 Data Structures	3
EE 340 Digital Logic	3
Math 176 Discrete Mathematics	4
Math 180, 190 Analytic Geometry & Calculus	8
Math 330 Linear Algebra	3
Stat 251 Principles of Statistics	3
Electives to total 128 cr for the degree (including at least 3 cr at the upper-division level)	—

Academic Minor Requirements

A maximum of 6 transfer credits and/or credits earned through study abroad may be applied toward the upper-division course requirements for a minor in French, German, Spanish, Latin, and Greek.

CLASSICAL STUDIES MINOR

Course	Credits
FL/EN 211 Classical Mythology (Gods)	2
FL/EN 212 Classical Mythology (Heroes)	2
FL/EN 243 English Word Origins	2

And one of the following emphasis areas:

Language Emphasis

FL/GK 341-342 Elementary Greek	8
FL/LA 161-162 Elementary Latin	8
Courses chosen from the following	3
Upper-division Latin or Greek	
FL/EN 363 Literature of Ancient Greece	
FL/EN 364 Literature of Rome	

Ancient World Emphasis

FL/EN 363 Literature of Ancient Greece	3
FL/EN 364 Literature of Rome	3
FL/EN 441 Ancient Greek Civilization	3
FL/EN 442 Civilization of Ancient Rome	3
FL/GK 341 Elementary Greek or FL/LA 161 Elementary Latin	4
Phil 309 History of Ancient Philosophy or Arch 385 History of Architecture I: Pre-Modern	3

FRENCH MINOR

Course	Credits
FL/FR 101-102 Elementary French	8
FL/FR 201-202 Intermediate French	8
FL/FR 301 Adv French Grammar or 302 Adv French Writing Skills	3
Upper-div courses in French (not incl lab-based and lit in translation courses)	6

GERMAN MINOR

Course	Credits
FL/GN 121-122 Elementary German	8
FL/GN 221-222 Intermediate German	8
FL/GN 321 German Conversation or 322 German Grammar & Composition	3
Upper-div courses in German (not incl lab-based and lit in translation courses)	6

GREEK MINOR

Course	Credits
FL/GK 341-342 Elementary Greek	8
FL/GK 349 Advanced Greek lab (other than basic skills)	1-3
FL/EN 211 and/or 212 Classical Mythology	2-4
FL/EN 363 Literature of Greece	3
Advanced Greek readings (400-level)	6-8
Courses to total 25 credits for the minor chosen from the following	—
Additional upper-division Greek courses	
FL/EN 243 English Word Origins	
FL/EN 364 Literature of Rome	
FL/EN 441 Ancient Greek Civilization	
Phil 309 Ancient Philosophy	

LATIN MINOR

Course	Credits
FL/LA 161-162 or 261-262 Elementary or Intensive Latin	8
FL/LA 369 Advanced Latin Lab	1-3
FL/EN 243 English Word Origins	2
FL/EN 364 Literature of Ancient Rome	3
Advanced Latin readings (300- or 400-level)	6
Courses to total 25 credits for the minor chosen from the following	—
Additional Latin reading courses at 300- or 400-level (especially recommended for prospective teachers of Latin)	
FL/EN 211 Classical Mythology (Gods)	
FL/EN 212 Classical Mythology (Heroes)	
FL/EN 363 Literature of Ancient Greece	
FL/EN 442 Civilization of Ancient Rome	

SPANISH MINOR

Course	Credits
FL/SP 181-182 Elementary Spanish	8
FL/SP 281-282 Intermediate Spanish	8
FL/SP 381 or 382 Adv Spanish Grammar & Composition	3
Upper-div courses in Spanish (not incl lab-based and lit in translation courses)	6

Department of Forest Products

Leonard R. Johnson, Dept. Head (102D FWR Bldg.; 208/885-6126). Faculty: Alton G. Campbell, Richard L. Folk, Thomas M. Gorman, Leonard R. Johnson, Harry W. Lee, Ali A. Moslemi, H. Peter Steinhagen. Adjunct Faculty: Louis L. Edwards, John S. Morris, Jay O'Laughlin, George M. Simmons. Affiliate Faculty: Keith A. Blatner, Manuel R. Jelvez, Peter Koch, George E. Smith.

Wood is a constant part of the lives of the people in this country and throughout the world. Nearly 80 percent of the material going into the construction of a home is wood based. It is also in the paper we use as newspapers, money, books, and packaging. Over three-fourths of the food packages in the average supermarket are made with wood fiber. In the U.S., every man, woman, and child consumes over 2,000 pounds of wood per year in the form of various products. The forest products industries rely on a renewable resource—trees—to produce over 5,000 different products for shelter, communications, packaging, and chemicals. Wood not only forms the raw material for the product, it also supplies a large portion of the energy needed by these industries. Many wood-using industries generate more than 50 percent of their energy requirements from wood residues. The industry utilizes almost all the wood fiber that is delivered to the mills and the innovation and modernization now taking place will assure a higher degree of efficiency and a greater level of utilization of the wood fiber.

The programs of the Forest Products Department are designed to prepare students for rewarding careers in an array of forest-products industries. Outstanding careers range from work with light-frame construction, logging engineering, log transport systems, pulp and paper manufacture, wood and fiber processing, and the business and marketing aspects of forest industries. In addition to jobs in industry, our graduates also obtain positions in a variety of governmental agencies and multinational corporations.

The Department of Forest Products cooperates with the wood technology program at Washington State University, the pulp and paper program at the University of Minnesota, the Department of Architecture, and the region's forest products industries in carrying out its program responsibilities. The forest products industry actively supports our programs through scholarships for undergraduate students.

The department offers four options within the B.S.For.Prod. degree. These include timber harvesting, wood construction and design (in cooperation with the Department of Architecture), forest products business management and marketing, and pulp and paper technology.

The pulp and paper option is a cooperative program with the University of Minnesota. The student in this option spends the first three years at UI. The senior year is spent at the University of Minnesota, but the degree is awarded by the University of Idaho. This program permits access to the professional courses at both universities.

Facilities available to the department include a University Experimental Forest for use in the field work of the timber harvesting option, an experimental forest student logging crew where students can receive hands on experience with timber harvesting and forest management, and forest products laboratory equipment such as a computerized hot press, testing machine, wood flaker, blender, dry kiln, composition lab, and microcomputer lab. This equipment allows students hands on experience with the manufacture and testing of a variety of forest products.

The department offers bachelor's, master's, and doctoral programs. The undergraduate programs are structured, but still allow the student to follow specific interests through course selection from restricted and unrestricted electives. A graduate student's program can be tailor-made to the student's career goals and aspirations. A variety of industrial organizations and public agencies provide funds and facilities for carrying out research and this allows the department to offer assistantships and fellowships.

While graduate work is often undertaken by students who desire to enter careers in teaching and research, the program is also recommended for students who plan to enter production management and marketing careers. Work at the master's level is

designed to enhance the student's professional background and is often pursued by those with backgrounds in forestry, business management, engineering, and other fields. For some students who plan to strengthen their background and enter the industrial and production fields, a nonthesis option at the master's level is available. Current research in the department involves topics on solid wood products, new wood products, fiber products and those made of particulates, timber harvesting systems, wood energy, wood chemistry, and wood construction.

Forest Products Courses

PREREQUISITE: Courses in this subject field above 299 are not open to any undergraduate student who is on academic probation.

Note: Courses numbered ForPr 460-472 (except 470) are taught at the University of Minnesota. UM is on the quarter system; however, credits are listed in this catalog in equivalent semester hours.

ForPr 203 (s) **Workshop** (cr arr). Prereq: perm.

ForPr 204 (s) **Special Topics** (cr arr). Prereq: perm.

ForPr 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

ForPr 230 **Forest Land Measurements** (1-3 cr). Three 5-week, 1-credit modules; students may take the first (1 cr), first and second (2 cr), or first, second, and third (3 cr) modules. Module one includes distance measurements by pacing and chaining, hand-compass, traverse, closure and area calculation, contour mapping, triangulation, and public land survey; module two includes field book, taping, staff compass, allowable error, computer software, differential leveling, theodolite, and transit; module three includes advanced use of instruments in stadia, vertical and horizontal curves, and plan and profile views. Two lec and 3 hrs of lab a wk. Prereq: Math 140.

ForPr 250 **Principles of Forest Products** (2 cr). Wood in our society, effect of silviculture on wood properties, harvesting and transportation, wood manufacturing technologies, wood products and applications, and future directions in the wood industry. One or two optional half-day field trips.

ForPr ID277 **Wood Structure and Identification** (3 cr) (ForPr ID331). WSU NATRS 321. Anatomy and chemical composition of commercial wood species; gross and minute structural characteristics of wood leading to identification.

ForPr 299 (s) **Directed Study** (cr arr). Prereq: perm.

ForPr 301 **Wildland Field Ecology I** (1 cr). Introduction to field ecology; the rationale for and importance of studying terrestrial, aquatic, and human ecosystems; practical experience with tools and skills used to measure wildland ecosystem processes. One 5-hr lab a wk. Prereq or coreq: For/ResRc/Soc 235 and For/Range/WLF 221.

ForPr 302 **Wildland Field Ecology II** (2 cr). Field studies of ecological and socio-political processes in terrestrial, aquatic, and human ecosystems at individual, population, community, landscape, regional, and global scales; application of ecological principles to integrated natural resource management. Two weeks all-day lec/lab immediately following spring semester; overnight field excursions required. Prereq: For/ForPr/Range/WLF/ResRc/Fish 301.

ForPr 336 **Introduction to the Pulp and Paper Industry** (1 cr). Chip supply, quality, and handling; pulping and bleaching; pollution abatement; papermaking; and paper characteristics and utilization.

ForPr 337 **Physical and Mechanical Properties of Wood** (3 cr). Properties of wood as they relate to physical behavior and product application; other related topics include biodeterioration, machining and adhesive technology, and strength considerations. Prereq: ForPr 277 or perm.

ForPr 365 **Wood Building Technology** (3 cr). Basic structural design including elementary statics and principles and technology of wood structural design. Prereq: Phys 113 or perm.

ForPr 397-398 **Renewable Natural Resources Internship I-II** (cr arr). Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F. Prereq: perm of dept.

ForPr 400 (s) **Seminar** (cr arr). Prereq: perm.

ForPr 401 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

ForPr 403 (s) **Workshop** (cr arr). Prereq: perm.

ForPr 404 (s) **Special Topics** (cr arr). Prereq: perm.

ForPr 405 (s) **Professional Development** (cr arr). Cr earned in this course will not be accepted toward grad degree programs. Prereq: perm.

ForPr 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

ForPr 420 **Pulp and Paper Technology** (3 cr). Technological overview of chemical and physical processes involved in conversion of wood into paper. Two or three optional half-day field trips. Prereq: organic chemistry or perm.

ForPr **ID&WS430 Forest Engineering and Harvesting** (3 cr). WSU NATRS 320. Survey of logging equipment capabilities; intro to cable logging systems, road layout, and design; cost analysis of logging systems; development of road and logging plans. Three days of field trips. Prereq: ForPr 230 or perm; CS 105 or equiv.

ForPr **431 Production and Cost Control in Forest Industry** (3 cr). Alt/yrs. Intro to production planning and cost control for timber harvesting and forest products processing operations; development and application of machine rates and system production rates; breakeven analysis; machine replacement; cash flow in investment decisions; use of microcomputers in analysis. Prereq: ForPr 250 or equivalent or perm.

ForPr **ID432 Low Volume Forest Roads** (3 cr). WSU NATRS 432. Road classification; design of forest roads; construction techniques; costing, environmental considerations, design project. Three days of field trips. Coreq: ForPr 430.

ForPr **ID433 Forest Tractor System Analysis** (3 cr). WSU NATRS 433. Planning, layout, and cost analysis of forest tractor systems, production estimating, machine capabilities, and options; layout project. Three days of field trips. Prereq: ForPr 430 or equiv.

ForPr **ID434 Cable Systems Analysis** (3 cr). WSU NATRS 434. Alt/yrs. Layout, planning, and design for cable logging systems; analysis of forces involved in cable logging; crew and terrain requirements; layout and design project; cost and equipment analysis. Three 1-day field trips. Prereq: ForPr 430 or equiv.

ForPr **435 Wood-Moisture Relationships and Drying** (3 cr). Alt/yrs. Wood moisture content, shrinking and swelling, dimensional stabilization; theory and practice of drying lumber, veneer, particles, and fibers. Prereq: ForPr 277, 337 or perm.

ForPr **436 Wood Composites** (3 cr). Alt/yrs. Raw material, processes, properties, and markets for a number of wood composites made of particles and fibers. One full-day field trip. Prereq: ForPr 277.

ForPr **437 Wood as a Structural Material** (3 cr). Applications of mechanical behavior to wood and wood composites; structural consideration of wood materials, including engineered products, panels, trusses; computer analysis and cost estimating. Prereq: ForPr 337 or 365.

ForPr **438 Wood Chemistry** (3 cr). Alt/yrs. Aspects of wood chemistry in relation to its application, including utilization of wood, wood residues, and pulping by-products; pulping chemistry, pulp bleaching, and cellulose derivatives. One or two optional half-day field trips. Prereq: organic chemistry.

ForPr **440 Energy from Wood** (2 cr). Alt/yrs. Status and potential of wood as renewable energy resource; wood energy generating technologies used in the forest products industry and the residential home; environmental aspects of wood utilization for energy.

ForPr **444 Lumber Manufacturing** (3 cr). Raw materials, production methods, and product specifications for sawn wood products; machinery, plant layout, quality control, process control, lumber drying, and systems analysis; sawmill tours. Two lec and 5 hrs of lab a wk; one-two days of field trips.

ForPr **450 Topics in Wood Technology** (1-3 cr). Alt/yrs. Course consists of three modules: (1) wood anatomy and wood species identification; (2) wood biodeterioration, preservation, adhesion, finishing, coating; and (3) energy from wood. Each module carries 1 cr. Students may sign up for one to three modules. Modules 1 is offered during the first third of the semester; module 2 during the second third; and module 3 during the last third. Two lec and two hrs of lab a wk; one optional full-day field trip. Prereq: ForPr 277 or perm.

ForPr **460 Wood Industry Tours** (1.3 cr; see headnote). Visits to a number of firms involved with various facets of forest products industry.

ForPr **461 Wood Fluid Relationships** (2 cr; see headnote). Moisture in wood and its relationship to density and specific gravity, shrinking and swelling, electrical properties, strength properties, thermoconductivity, sorption isotherms, dimensional stabilization, permeability and diffusion.

ForPr **462 Manufacturing Processes** (2 cr; see headnote). Manufacture of wood-based products from systems point of view; input requirements, machinery selection, methods of economic comparison; technology related to lumber manufacture.

ForPr **463 Pulp and Paper Process Lab** (2 cr; see headnote). Chemical and mechanical pulping, pulp preparation, secondary fiber, de-inking, wet end additives; lab problems and exercises supplemented by lec. One lec and one hr of lab a wk.

ForPr **464 Pulp and Paper Process Calculations** (2.7 cr; see headnote). Chemical and physical process calculations; steady and unsteady state material and energy balances applied to pulping and papermaking processes.

ForPr **465 Pulp and Paper Process Operations** (3.3 cr; see headnote). Application of principles of momentum, heat, and mass transfer to unit operations in pulp and paper industry; fluid transport; filtration; sheet forming, sedimentation, heat exchange, evaporation, gas absorption and stripping; distillation, leaching extraction, crystallization, humidification, and drying.

ForPr **466 Paper Engineering Lab** (1.3 cr; see headnote). Experiments designed to illustrate principles of momentum, heat, and mass transfer using the pilot-plant paper machine and coater.

ForPr **467 Coated Product Development** (1.3 cr; see headnote). Coating process and products (primarily paper); theory, techniques, and procedures for formulating and applying coatings; properties and uses of coated products.

ForPr **468 Senior Seminar** (1.3 cr; see headnote). Current developments in forest products.

ForPr **469 Surface and Colloid Chemistry of Papermaking** (2 cr; see headnote). Principles of surface and colloid chemistry applied to basic problems in pulp and paper manufacturing operations and products uses.

ForPr **470 Interdisciplinary Natural Resource Planning** (3 cr). Land use planning and decision-making theories, legislation and techniques applied to natural resource case studies from public and private sector, including impact assessment, creation and valuation of alternatives, and public involvement. Two hrs of lec, 3 hrs of lab, and 1 hr of recitation a wk; one 1-day field trip. Prereq: senior standing; For/ResRc/Soc 235; For/Range/WLF 221; For/Range/ForPr/ResRc/WLF/Fish 302; and four of the following: ForPr 250, Range 251, For 270, WLF 290, Fish 290, ResRc 287.

ForPr **471 Automatic Control Instrumentation** (2.7 cr; see headnote). Control of machines and processes; linear feedback control; linking of physical and biological control systems; instrumentation for control systems and industrial development studies.

ForPr **472 Adhesion and Adhesives** (2 cr; see headnote) (ForPr 470). Intro to adhesion; physicochemical interactions at adhesive-adherend interface; polymer absorption; polymer structure and adhesive utility; wood as adherend; adhesive-wood interface; shelf-life of resins; curing; adhesive cohesion and performance; adhesives from renewable resources.

ForPr **477 Forest Products Business Management** (3 cr). Alt/yrs. Business plans for primary and secondary wood products processing businesses; preliminary investment analysis using spreadsheets; quality management theory and practice; measurement techniques and diagnostic software related to statistical process control; market development and marketing for primary and secondary manufacturing, commercial aspects, principles and terminology of the timber trade. One 2-day field project. Prereq: ForPr 277, 444 or perm; prereq or coreq: Bus 370 or equiv.

ForPr **494 Models for Resource Decisions** (4 cr). See For 494.

ForPr **496 Forest Products Seminar** (1 cr). Contemporary problems relevant to the manufacture of wood products.

ForPr **498 International Wildland Management** (1-3 cr, max 3). World approaches and problems. Prereq: sr standing and perm.

ForPr **499 (s) Directed Study** (cr arr). For the individual student; conferences, library, field, or lab work. Prereq: sr standing, GPA 2.5, or perm.

ForPr **500 Master's Research and Thesis** (cr arr).

ForPr **501 (s) Seminar** (cr arr). Major philosophy, management, and research problems of forest products industries; presentation of individual studies on assigned topics. Prereq: perm.

ForPr **502 (s) Directed Study** (cr arr). Prereq: perm.

ForPr **503 (s) Workshop** (cr arr). Selected topics in the conservation and management of natural resources. Prereq: perm.

ForPr **504 (s) Special Topics** (cr arr). Prereq: perm.

ForPr **505 (s) Professional Development** (cr arr). Cr earned in this course will not be accepted toward grad degree programs. Prereq: perm.

ForPr **522 Advanced Forest Roads** (3 cr). Alt/yrs. Field layout of L-line in a forest setting; curves; slope staking and clearing limits; lab analysis of soil for subgrade; lab analysis of gravel for surfacing; stability analysis; costing of alternatives. Prereq: ForPr 430.

ForPr **531 (s) Advanced Topics in Wood Technology** (1-3 cr). Cr not allowed in both ForPr 450 and 531. Three distinct sections that each carry 1 cr: (1) wood anatomy and wood species identification (first third of semester); (2) wood biodeterioration, preservation, adhesion, finishing, coating (second third of semester); and (3) energy from wood (last third of semester). Students may register for one, two, or three sections. Students assume project leader role and conduct independent lab work (one lab report per section). Two lec and two hrs of lab a wk; one full-day field trip. Prereq: ForPr 277, 336.

ForPr **WS532 Basic Principles of Adhesion** (3 cr). WSU MSE 547.

ForPr **WS533 Reinforced Polymer and Wood-Based Composites** (3 cr). WSU MSE 548.

ForPr **534 Advanced Techniques of Timber Harvesting Analysis** (3 cr). Alt/yrs. Layout, planning, and cost analysis of timber harvesting systems using available computer analysis techniques and program; analysis of road cost and stability problems; cost control of logging operations. Two lec and one 3-hr lab a wk; three 1-day field trips. Prereq: ForPr 430 or equivalent or perm.

ForPr **WS535 Nondestructive Testing of Wood-Base Materials** (3 cr). WSU C E 536.

ForPr **WS537 Parameters for Synthesis of Wood Composition Materials** (3 cr). WSU MSE 550.

ForPr **538 Advanced Wood Chemistry** (3 cr). Chemistry of woody tissues, including lignin, cellulose, hemicelluloses, and other polysaccharides. One or two optional half-day field trips. Prereq: organic chemistry or perm.

ForPr **577 Advanced Topics in Forest Industries Management** (1-3 cr, max 6). Alt/yrs. Application of advanced techniques in computer simulation and modeling for forest products manufacturing; serve as team leader in student projects involving computer simulation modeling of lumber manufacturing; serve as team leader in studies involving management assistance to firms in forest industry. May be repeated once for cr with perm; different projects must be undertaken the second time. One to ten optional 1-day field trips. Prereq: ForPr 477, Bus 301 or CE 482 or equivalent, and perm.

ForPr **595 (s) Problems in World Resources** (1-3 cr, max 3). Prereq: ForPr 498 or equivalent.

ForPr 597 (s) **Practicum** (cr arr). Prereq: perm.

ForPr 598 (s) **Internship** (cr arr). Prereq: perm.

ForPr 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

ForPr 600 **Doctoral Research and Dissertation** (cr arr). Prereq: admission to the doctoral program in "forestry, wildlife and range sciences" and perm of dept.

Curricular Requirements

FOREST PRODUCTS (B.S.For.Prod.)

Required course work includes the university requirements (see regulation J-3) and one of the following options.

No more than 25 percent of the course work used for the forest products degree may be taken in business courses (excluding Econ 201 and 202). Specifically, of the 128 credits required, at most 32 credits taken in business courses may be counted toward the degree.

A. WOOD CONSTRUCTION AND DESIGN OPTION

This option is designed for students interested in residential and light commercial construction or design management positions that emphasize effective use of wood as a structural material. Students may focus in one of two emphasis areas. In the architectural technology emphasis area, the student will develop design skills in addition to a background in business and wood technology for positions in non-licensed design, specification writing, design-build construction, and architectural and construction liaison. Students selecting the wood construction business emphasis area will be prepared for careers that include both supervisory and managerial positions in residential and light commercial building and building materials, sales and marketing of wood products, estimating, banking, insurance, and government agencies that deal with housing. The wood construction and design option can also provide an educational foundation for those wishing to become entrepreneurs in the area of wood construction.

Course	Credits
ForPr 250 Principles of Forest Products	2
ForPr 277 Wood Structure & Identification	3
ForPr 337 Physical & Mechanical Properties of Wood	3
ForPr 365 Wood Building Technology	3
ForPr 437 Wood as a Structural Material	3
ForPr 499_DS: Wood Construct/Design (design project)	2

ForPr 444 Lumber Manufacturing	

B. TIMBER HARVESTING OPTION

This program area prepares students to work as managers and designers of logging operations in small timber harvesting firms, larger forest products companies, forest engineering consulting organizations, and government agencies. The program provides background in development and design of harvesting plans and timber sales, supervision of logging crews, design and layout of roads, management of logging operations, and wood procurement. Other positions can be found in the areas of equipment development and marketing and as technical representatives for equipment companies. Beyond the courses required in the basic sciences and timber harvesting, students may choose course work that will also emphasize technology and engineering, natural resources management, or business.

Electives to total 128 cr for the degree	—

C. FOREST PRODUCTS BUSINESS MANAGEMENT OPTION

This program is designed for students who plan careers in the staff or line management of firms in the forest products industry. Graduates are prepared for positions in production management, marketing and distribution of wood products, and in the technical service and support areas of the forest products industry. Students focus on the production, distribution, and marketing of wood products from a combined technical and managerial perspective. The degree also provides a foundation for pursuing a graduate degree in business, for example, the M.B.A. or M.S.

Course	Credits
ForPr 230 Forest Land Measurements	2

D. PULP AND PAPER TECHNOLOGY OPTION

This innovative cooperative program allows the student to take advantage of courses at both UI and the University of Minnesota. Senior year courses are taken at the University of Minnesota through an exchange program. Students receive their degree from UI. Graduates are prepared for employment in the pulp and paper industry as process engineers and this entry position can lead to careers in pulp and paper mills in areas such as production engineering, plant supervision, and quality control. Demand for graduates is high and salaries are similar to those of engineering graduates with the pulp and paper industry projecting good growth over the next two decades.

Course	Credits

Academic Minor Requirements

FOREST PRODUCTS MINOR

For students in business, engineering, forestry, or vocational education who wish to gain specific background and knowledge related to the forest products industry.

Course	Credits
ForPr 250 Principles of Forest Products	2
ForPr 277 Wood Structure & Identification	3
ForPr 336 Introduction to the Pulp & Paper Industry	1
ForPr 337 Physical & Mechanical Properties of Wood	3
ForPr 430 Forest Engineering & Harvesting	3
ForPr 431 Production & Cost Control in Forest Industry or ForPr 477 Forest Products Business Management	3
ForPr 444 Lumber Manufacturing	3

Department of Forest Resources

Joseph J. Ulliman, Dept. Head (204 FWR Bldg.; 208/885-7952). Faculty: David L. Adams, George H. Belt, Jr., Steven J. Brunfeld, Lauren Fins, Jo Ellen Force, Charles R. Hatch, John C. Hendee, Gary E. Machlis, Ronald L. Mahoney, John D. Marshall, Charles W. McKetta, E. Lee Medema, James A. Moore, Penelope Morgan, Leon F. Neunschwander, Harold L. Osborne, Arthur D. Partridge, Charles T. Stiff, Molly W. Stock, Karel J. Stoszek, Joseph J. Ulliman, David L. Verbyla, David L. Wenny. Adjunct Faculty: James E. Lotan, Robert L. Mahler, Jay O'Laughlin, M. Henry Robison, Christopher C. Schnepf.

Forestry is "managing and using for human benefit the forest lands and natural resources that occur on and in association with forest lands." These benefits may include values, services, or products such as aesthetics, biodiversity, recreational opportunities, clean water and air, soil protection, forage, fish and wildlife, medicinal and ornamental items, wood products, and many others.

One-third of the nation's land area and 40 percent of Idaho's land area are forested. It is imperative that the managers of these lands and of the valuable resources thereon be properly prepared for the task of providing on a continuing basis the many values, services, and goods desired and demanded by the population. With an ever increasingly restricted forest land base and an increasing demand for forest benefits, the practice of forestry is rapidly becoming more complex. Present-day forest management, thus, requires professionals highly trained in an interdisciplinary approach that adapts to scientific developments and sociological and economic constraints for managing a sustainable forest ecosystem.

The instructional goal of the Department of Forest Resources is to provide both undergraduate and graduate students of all nationalities with a high-quality general education and the professional knowledge of significant concepts, multiple use principles, social factors, and technical details of forest resources biology, measurements, management, and social science to effectively manage forest resources.

To attain this goal, the departmental faculty and administration will: emphasize the dynamic nature of the sciences and technologies by teaching new concepts and methods and revising the curriculum as necessary; stress understanding rather than rote learning of facts, principles rather than routines; provide challenging programs to develop individual talents and interests; maintain class sizes in laboratory and field-oriented courses at a level commensurate with instructional effectiveness; maintain student-faculty ratios that allow for more personalized instruction and advising; expand and improve instructional facilities; develop more efficient and effective instructional techniques; expand field-oriented programs, especially at the Experimental Forest and the Forest Nursery, at Moscow and other field stations; encourage and assist students in finding seasonal professional employment and opportunities for involvement in student clubs and professional organizations; develop continuing education programs for professionals in the field; and encourage development and research programs for faculty to increase their abilities in order to pass their knowledge on to others.

The forest resources curriculum not only provides students with an interdisciplinary education, but also the opportunity to emphasize

areas of individual interest, such as ecology, forest ecosystem processes, forest social sciences, computer applications in forestry, aerial-photo interpretation (remote sensing), silviculture, forest genetics and tree improvement, protection against insects, disease, and fire, tree nursery management, forest soils, and other specialties by selective use of elective credits.

The college's well-equipped building in Moscow, along with the nearby experimental forest, nursery/greenhouse, and field campuses at McCall and Clark Fork, are among the excellent facilities available for instructional and research use.

The department offers programs leading to the degrees of Bachelor of Science in Forest Resources, with options in administration, ecosystem management, production, and science; Master of Science (thesis and nonthesis options); and the Doctor of Philosophy with a major in forestry, wildlife, and range sciences (administered at the college level for all departments).

The four specialty options in the forest resources undergraduate curriculum provide each student with an opportunity to select a course of study suited to his or her primary career goal. The administration option combines basic forest biological skills with the business management and administrative skills necessary for such positions in both public and private forestry. The forest ecosystem management option involves the study and maintenance of sustainable ecosystems for a wide variety of resource values. The production option provides a sound basis for forest management emphasizing production of renewable commodities, especially timber. The science option provides flexibility of curricular programming for the student who has specific curricular objectives not readily obtainable under the other options. It is particularly attractive for the student who anticipates going on to graduate study. Entry into the science option requires a 2.8 grade-point average, at least one semester in residence in the department, and petition to the Forest Science committee. The program for each student is individually designed by the student in consultation with and approval of the committee and appropriate advisers. A library orientation session and a department orientation session during the first semester on campus and a two-week summer session immediately following the sophomore year are required for all options.

Further information can be obtained from the department head (208/885-7952).

Forest Resources Courses

PREREQUISITE: Courses in this subject field numbered above 299 are not open to any undergraduate student who is on academic probation.

For 102 Introduction to Forest Management (1 cr). Intro to forestry, current management issues, timber and non-timber resources, educational and professional opportunities.

For 205 Wildland Resource Conservation (3 cr). Not open to majors in the dept. Concepts of forest and rangeland ecology; major resources of wildlands, principles of conservation and management application to wildlands.

For 206 Wildland Resource Conservation Lab (1 cr). Descriptive survey of renewable natural resources; emphasis on Idaho's flora and fauna. Two hrs of lab a wk; three days of field trips. Coreq: For 205.

For 208 Community and Urban Forestry (2 cr). Community or urban environment as affected by its included forest; forest components, benefits, liabilities, values, ordinances, and issues; management by selection, design, planting, care, and maintenance.

For 221 Natural Resources Ecology (3 cr). Principles of plant and animal ecology with emphasis on concepts applied in natural resources, including interactions between organisms and their physical environment, evolutionary processes, populations, communities, energy flow and ecosystems, and conservation biology. Recommended preparation: Biol 202 and 203. Prereq: Biol 100 or 201, or perm.

For 235 Society and Natural Resources (3 cr). Same as ResRc and Soc 235. The social sciences applied to natural resources management; relationship between natural resources and human socioeconomic systems; analysis of resource issues.

For 270 Principles of Forest Ecosystem Management (2 cr) (For 370). Forest resources, regions, and management objectives; silvicultural principles and practices employed in management of forest ecosystems; interrelations between uses of forest land. Two 1-day field trips.

For 274 Forest Measurement Techniques (1-2 cr, max 2). Practical techniques in mapping and measuring forest land and in measuring and inventorying forest resources. Two hrs of lec and one 3-hr lab a wk for last 10 wks of semester. Prereq: course in trigonometry and college algebra.

For 275 Aerial Photo Interpretation of Renewable Natural Resources (2 cr). Quantitative and qualitative evaluation of aerial photos for planning and decision making in renewable natural resource management. One lec and one lab a wk. Prereq: college algebra.

For 294 Quantitative Resource Analysis (3 cr). Application of mathematical and statistical concepts using PC-based computer skills of DOS, spreadsheets, and a linear programming package to resource management questions. Two lec and one 2-hr lab a wk. Prereq: Math 160; prereq or coreq: Stat 251.

For 299 (s) Directed Study (cr arr). Prereq: perm.

For 301 Wildland Field Ecology I (1 cr). Introduction to field ecology; rationale for and importance of studying terrestrial, aquatic, and human ecosystems; practical experience with tools and skills used to measure wildland ecosystem processes. One 5-hr lab a wk. Prereq or coreq: For/ResRc/Soc 235 and For/Range/WLF 221.

For 302 Wildland Field Ecology II (2 cr). Field studies of ecological and socio-political processes in terrestrial, aquatic, and human ecosystems at individual, population, community, landscape, regional, and global scales; application of ecological principles to integrated natural resource management. Two weeks of all-day lec/lab immediately following spring semester; overnight field excursions required. Prereq: For/ForPr/Range/WLF/ResRc/Fish 301.

For 303 Forest Resources Conservation (2 cr). Ecosystem approach to resource management on forest and range lands; management practices integrating timber, range forage, wildlife, fish, water, and recreation resources, stressing principles that lead to their conservation. Two wks of all-day summer camp. Prereq: course in a biological science.

For 305 Farm Forestry (2 cr). The farm woodlot; growing wood products; seasoning, preservation, use, and marketing of farm forest products; windbreak and shelterbelt planting; forestry in the economics of agriculture. Prereq: jr standing in agriculture.

For 320 Dendrology (3 cr). Identification, classification, distribution, and associations of the important tree species of the U.S.; important regional shrubs. Two lec and two 2-hr labs a wk; two 1-day field trips. Prereq: general botany.

For 361 Farm and Natural Resource Appraisal (3 cr). See AgEc 361.

For ID374 Forest Mensuration (3 cr). WSU NATRS 313. Theory of log, tree, and stand measurements; elementary forest sampling, variable probability sampling, growth studies. Three hrs of lec and one 1-hr recitation a wk. Prereq: For 274, Stat 251, CS 105, and Math 160 or 180.

For 383 Economics for Natural Resource Managers (3 cr). Same as AgEc 383. Role of economic forces in resource analysis and conservation; planning of forest resource use by the firm and society. Prereq: Econ 202.

For 397 Renewable Natural Resources Internship (cr arr). Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F. Prereq: perm of dept.

For 400 (s) Seminar (cr arr). Prereq: perm.

For 401 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

For 403 (s) Workshop (cr arr). Prereq: perm.

For 404 (s) Special Topics (cr arr). Prereq: perm.

For 405 (s) Professional Development (cr arr). Professional education and enrichment of forestry personnel. Credit earned in this course will not be accepted toward graduate degree programs but may be used for undergraduate programs. Prereq: perm.

For 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

For J412/J512 Artificial Regeneration (2 cr). Methods of cone collection, seed extraction, and storage; seedling procurement contracts; seedling handling and storage; planting contracts; regeneration surveys; plantation failure diagnosis. Cr earned in For 512 by preparation of paper on approved regeneration topic. One lec and one 3-hr lab a wk. Prereq: perm.

For ID-J413/ID-J513 Forest Nursery Management (2 cr). WSU NATRS 413/513. Forest nursery design considerations; seed processing and quality; nursery equipment and cultural practices; seedling quality. Cr earned in For 513 by preparation of paper on nursery design and growing regimes for assigned species. Two 1-day field trips.

For WS415 Remote Sensing Applied to Terrain Evaluation (3 cr). WSU Soils 474.

For J420/J520 Tropical Dendrology/Ecology (3 cr). Distribution, physiognomy, and climate of world tropical and subtropical vegetation types; identification, ecology, and uses of major pantropical trees and associated vegetation. Cr earned in For 520 by preparation of paper on a specific genus or species. Two lec and 4 hrs of lab a wk. Prereq: perm.

For 424 Silviculture (1-3 cr) (For 324). Three accelerated, 1-credit minicourses offered in one semester. Modern methods and techniques for manipulation of forest ecosystems to meet management objectives: (1) artificial and natural regeneration; (2) silviculture and the gene pool, intermediate stand tending; (3) forest health, landscape silviculture, and prescription writing. Two lec and one 3-hr lab a wk; two or three 1-day field trips. Prereq: For 270, senior standing.

For **426 Wildland Fire Management and Ecology** (3 cr). Integrated fire-related biological, ecological, physical, and economic information for land managers; autecology and synecology of plant and animal species in wildlands; natural role of fire; fire as a management tool; application to current issues. Two days of field trips. Prereq: For/Range/WLF 221.

For **427 Prescribed Burning Lab** (2 cr). Alt/yrs. Fire use planning with emphasis on preparation, execution, and evaluation. Eight days of field trips. Prereq: For 367, sr standing, and perm.

For **ID-J428/ID-J528 Forest Genetics and Tree Improvement** (3 cr). Same as Genet J428/J528. WSU NATRS and GenCB 427/527. Application of genetic principles to management and improvement of forest trees: heritability and genetic gain, genetic implications of silvicultural practices, development of applied programs, clonal forestry, and economic considerations. Cr earned in For 528 by seminar preparation and presentation. Three-four days of field trips. Prereq: For 270 or perm.

For **430 Forest Ecosystem Processes** (3 cr). Chemical, physical, and physiological processes that determine how trees and forests function; emphasis on carbon budgets, productivity, consequences of forest management, and global climate change. One field trip. Prereq: Soils 205 or perm.

For **432 Tree Physiology** (3 cr). Fundamental physiological processes with emphasis on those unique to woody perennial plants. Prereq: Bot 311 or perm.

For **J458/J558 Agroforestry** (2-3 cr). See Range J458/J558.

For **J462/J562 Watershed Management** (2 cr). Influence of land management practices on streamflow, water quality, and riparian habitat. Additional projects/assignments reqd for grad cr. Two days of field trips. Prereq: For/Range/WLF 221 or perm.

For **464 Forest Pathology** (3 cr). Alt/yrs. Pathology, symptomatology, and identification of causes of diseases and decays; disease control and prevention by means of silviculture, management, and use. One lec and two 3-hr labs a wk; occasional lab trip. Prereq: For 301 or perm.

For **465 Forest Protection** (2 cr). Key abiotic and biotic disturbance factors; causal relationships, forest dynamics interactions, effects on product or amenity value yields; management considerations; hazard predictions, silvicultural preventions and controls. Two days of field trips. Prereq: For 424 or perm.

For **466 Forest Disease and Insect Problems** (3 cr). Diagnosis of major diseases and insect problems in forests; emphasis on evaluations of their impacts and practical methods of alleviation; presented in context of ecosystem interactions and dynamics. Two lec and 6 hrs of lab a wk; occasional field lab.

For **467 Applied Forest Entomology** (3 cr). Alt/yrs. Influence of insects on forestry practices and on the forest ecosystem; identification, ecology, survey, and control of major forest insect pests. Two lec and one 3-hr lab a wk.

For **470 Interdisciplinary Natural Resource Planning** (3 cr). Land use planning and decision making theories, legislation and techniques applied to natural resource case studies from the public and private sector, including impact assessment, creation and valuation of alternatives, and public involvement. Two hrs of lec, 3 hrs of lab, and 1 hr of recitation a wk; one 1-day field trip. Prereq: senior standing; For/ResRc/Soc 235; For/Range/WLF 221; For/Range/ForPr/ResRc/WLF/Fish 302; and four of the following: ForPr 250, Range 251, For 270, WLF 290, Fish 290, ResRc 287.

For **ID472 Remote Sensing of Environment** (3 cr). WSU Soils 472. Current systems, data acquisition on ground and from remote locations, instrumentation, imagery interpretation and analysis, applications for natural resources.

For **474 Forest Resource Inventories** (2 cr). Log scaling; defect determination in standing timber; fixed plot, variable plot, and 3-P sampling; cruise design and implementation; timber appraisal, regeneration, soil, downed woody fuel, watershed, and range surveys. Two 1-day field trips. Prereq: For 275 and 374.

For **476 Forestry Project Evaluation** (3 cr). Applied financial and economic analyses of site-level integrated resources decisions in forested ecosystems; commodity and intangible resource valuation; optimal management regimes of timber and non-commodity resources; joint production feasibility; links to forest planning and international development; forest taxation. Three hrs of lec and 1 hr of application lab a wk. Prereq: For 270, 383, or perm.

For **477 Integrated Forest Management Models** (3 cr). Applied mathematical programming techniques for simultaneous multiple product, intertemporal and interspatial decisions in forest planning; procedures to coordinate site projects, area analysis, strategic forest plans, and regional forest resource policies. Three hrs of lec and 1 hr of applications lab a wk. Prereq: For 270, 294, 383 or perm.

For **478 Western Forestry Practices** (1 cr). Field tour of coastal and transition forests; comparative analysis of differing forest management strategies and practices. One 8-day field trip. Prereq: sr standing or perm.

For **479 Forest Contracting** (2 cr). Basic principles and practical application of contracts for a range of natural resource management activities including timber sales, site preparation, and tree planting; on-site contract inspection, bonding, and insurance. Two 1-1/2 hr lec/lab a wk; three 1/2-day field trips. Prereq: senior standing.

For **484 Forest Policy and Administration** (2 cr). Evaluation of land and forest problems and policies in the U.S.; analysis of current conditions and policies; historical development of governmental and private agencies concerned with the administration of forest conservation program.

For **494 Models for Resource Decisions** (4 cr). Same as ForPr 494. Use of mathematical models of resource systems to explore management strategy; problem analysis; systems concepts and optimization of resource allocation. Prereq: Math 160 or 180 and CS 105. Prereq or coreq: Stat 251 or equivalent.

For **J495/J595 International Wildland Management** (1-3 cr, max 3). World approaches and problems. Additional projects/assignments reqd for grad cr. Prereq: sr or grad standing and perm.

For **J496/J596 Field Studies in Tropical Ecology and Dendrology** (3 cr). Extensive three-wk field course in the tropics; emphasis on primary and secondary vegetation types, land-use problems, utilization of pantropical trees. Graded P/F. Additional projects/assignments reqd for grad cr. Prereq: For J420/J520 and perm.

For **499 (s) Directed Study** (cr arr). For the individual student; conferences, library, field, or lab work. Prereq: sr standing, GPA 2.5, and perm.

For **500 Master's Research and Thesis** (cr arr).

For **501 (s) Seminar** (cr arr). Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics. Prereq: perm.

For **502 (s) Directed Study** (cr arr). Prereq: perm.

For **503 (s) Workshop** (cr arr). Selected topics in the conservation and management of natural resources. Prereq: perm.

For **504 (s) Special Topics** (cr arr). Prereq: perm.

For **510 Fundamentals of Research** (2 cr). Objectives and techniques of research; the scientific method; use of scientific literature; creativity in research; communication skills; preparation of work plans and grant proposals.

For **WS511 Introduction to Population Genetics** (2 cr). WSU GenCB 511.

For **512 Artificial Regeneration** (2 cr). See For J412/J512.

For **ID513 Forest Nursery Management** (2 cr). See For J413/J513.

For **520 Tropical Dendrology/Ecology** (3 cr). See For J420/J520.

For **521 Advanced Forest Soils** (3 cr). Alt/yrs. Wildland soils, relation to vegetation; emphasis may be varied according to the specific interests of students. Two lec and one lab a wk; one or two 1-day field trips. Prereq: perm.

For **523 Forest Community Classification** (2 cr). Field course in structure and identification of undisturbed and disturbed forest communities; practice in habitat type delineation as applied in western U.S. Accelerated first nine wks; one lec and one 8-hr field lab a wk. Prereq: perm.

For **524 Quantitative Silviculture** (2 cr). Quantifying site quality, measures of stand density, predicting forest growth and yield, simulation models, and use of simulation models in silvicultural prescriptions.

For **525 Advanced Silviculture** (3 cr). Silvicultural systems and cultural practices; design of silvicultural prescriptions. Term project, field labs, and two days of field trips. Prereq: For 424 and/or perm.

For **526 Fire Ecology** (3 cr). Fire-related ecology of plant and animal species in wildlands; effects of fire occurrence and suppression on physical environment, landscapes, and processes in both natural and managed ecosystems. Two days of field trips. Prereq: general ecology course.

For **527 Landscape Ecology of Forests and Rangelands** (2-3 cr). Ecological relationships of biotic communities in heterogeneous environments, spatial and temporal patterns, importance of landscapes in maintenance of ecosystem diversity and function. Independent study project and instructor perm required for 3 cr. One 2-hr discussion a week based on extensive reading of current literature. Prereq: upper-division plant or animal ecology.

For **ID528 Forest Genetics and Tree Improvement** (3 cr). See For J428/J528.

For **WS536 Modeling and Simulation of Ecological Systems** (3 cr). WSU Cpt S 536.

For **WS540 Cytogenetics** (3 cr). Alt/yrs. WSU GenCB 540.

For **549 Tropical Soils** (3 cr). See Soils 549.

For **558 Agroforestry** (2 cr). See Range J458/J558.

For **562 Watershed Management** (2 cr). See For J462/J562.

For **564 Advanced Forest Pathology** (2-4 cr). Alt/yrs. Field methods, lab techniques, and original literature used in study of tree diseases and rots, organisms that cause them, and deterioration of wood products; seminar in selected problems in forest pathology and their relations to forest practices. Prereq: For 464.

For **569 Advanced Forest Entomology** (3 cr). Alt/yrs. Methods and applications of biological and economic evaluation and control strategies of forest insect populations in relation to pest management programs. One 2-hr seminar and one 2-hr lab a wk; two 1-day field trips. Prereq: For 467 or perm.

For **ID&WS572 Digital Remote Sensing** (3 cr). WSU Soils 574 and ES/RP 576. Alt/yrs. Digital image processing systems applied to satellite and other remote sensing systems. Two lec and four hrs of lab a wk; four days of field trips. Prereq: For 275 or 472, CS 100 or perm.

For **573 Advanced Aerial Photo Interpretation** (2-3 cr). Alt/yrs. Project planning; interpretation of vegetation, landforms, land use, disease and insect infestation, pollution, sequential changes, high-altitude-satellite imagery; mapping, photo-mensurational techniques; multistage sampling, and special problems. One lec and one 2- or 4-hr lab a wk; two 1-day field trips. Prereq: For 275 or equivalent, or perm.

For **574 Advanced Forest Mensuration** (2 cr). Alt/yrs. Mathematical and statistical principles and techniques in determination of volume and growth of trees and stands; application of sampling theory and correlation analysis. Prereq: For 374 or equivalent and course in statistical methods, preferably beyond the elementary course.

For **575 Advanced Forest Management** (2 cr). Alt/yrs. Forest regulation; recent development in applied forest management and important contributions in forest management.

For **576 Evaluating Forestry Development Projects** (2 cr). International applications of cost-benefit analyses for natural resource development projects by financial and societal criteria; market and cultural resource valuation; finding optimal timber, agroforestry, and non-commodity regimes; sustainability and development issues, coordinating multiple natural resource projects; case studies. Two lec and 1 hr of lab a wk. Prereq: For 476 or perm.

For **577 Macro-forestry Management Analysis** (2 cr). Procedures, models, and cases integrating natural resource project decisions with area analyses, strategic forest plans, and forest sector policy. Two lec and 1 hr of lab a wk. Prereq: For 476, 477 or perm.

For **ID581-582 Advanced Forest Economics** (2 cr). WSU NATRS 511. For 582 alt/yrs. Economic principles, legislation, and policies affecting forestry, particularly those bearing on the character and intensity of land use.

For **586 Social Ecology of Natural Resources** (3 cr). See ResRc 586.

For **589 Water Resources Seminar** (1 cr). See Inter 589.

For **595 International Wildland Management** (1-3 cr, max 3). See For J495/J595.

For **596 Field Studies in Tropical Ecology and Dendrology** (3 cr). See For J496/J596.

For **597 (s) Practicum** (cr arr). Prereq: perm.

For **598 (s) Internship** (cr arr). Prereq: perm.

For **599 (s) Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

For **600 Doctoral Research and Dissertation** (cr arr). Prereq: admission to the doctoral program in "forestry, wildlife and range sciences" and perm of dept.

Curricular Requirements

FOREST RESOURCES (B.S.For.Res.)

Deficiency courses include Math 140 or three years of high school algebra, Math 179 or high school trigonometry, and Phys 101 or 113 or high school physics. Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
For/Range/WLF 221 Natural Resources Ecology	3
For/ResRc/Soc 235 Society & Natural Resources	3
For 270 Principles of Forest Ecosystem Management	2
For 274 Forest Measurement Techniques	2
For 294 Quantitative Resource Analysis	3
For/Range/ResRc/WLF/ForPr/Fish 301, 302 Wildland Field Ecology I, II	3
For 320 Dendrology	3
For 383 Economics for Natural Resource Managers	3
For 424 Silviculture	3
For 462 Watershed Management	2
For/Range/ResRc/WLF/ForPr/Fish 470 Interdisciplinary Natural Resource Planning	3
Three of the following courses	6
Fish 290 Principles of Fish Biology & Management	
ForPr 250 Principles of Forest Products	
Range 251 Principles of Range Resource Management	
ResRc 287 Principles of Resource Recreation & Tourism Management	
WLF 290 Principles of Wildlife Biology	
Biol 201 Introduction to the Life Sciences	4
Biol 203 General Botany	4
Chem 103 Introduction to Chem or 111 Principles of Chem	4
CommG 131 Fundamentals of Public Speaking	2
Econ 202 Principles of Economics	3
Eng 317 Technical & Engr Report Writing or Eng 313 Business Writing	3
ForPr 230 Forest Land Measurements	1
Geol 101, 102 Physical Geology & Lab	4
Math 111 Finite Mathematics	4
Math 160 Survey of Calculus or Math 180 Analytic Geom & Calculus	4
Soil 205 General Soils	3
Stat 251 Principles of Statistics	3
Humanities and social science courses	11

And one of the following options:

A. ADMINISTRATION OPTION

Course	Credits
For 374 Forest Mensuration	3
For 476 Forestry Project Evaluation	3
For 477 Integrated Forest Management Models	3
Operating environment restrictive electives—choose one of the following	2-3
For 484 Forest Policy & Administration	
BLaw 265 Legal Environment of Business	
Bus 311 Introduction to Management	
ForPr 477 Forest Products Business Management	

Business skills restrictive elective—choose one of the following	3
For 362 Farm & Natural Resource Appraisal	
Acctg 202 Introduction to Managerial Accounting	
AgEc 451 Land & Natural Resources Economics	
Bus 321 Marketing	
Bus 332 Quantitative Methods in Business	
Bus 350 Management Information Systems	
Bus 412 Human Resource Management	
One additional upper-division course from either of the above restrictive elective groups	2-3
Acctg 201 Introduction to Financial Accounting	3
Electives to total 128 credits for the degree	—

B. ECOSYSTEM MANAGEMENT OPTION

Course	Credits
For 426 Wildland Fire Management & Ecology	3
For 430 Forest Ecosystem Processes	3
For 466 Forest Disease & Insect Problems	3
Ecology restrictive elective—choose one of the following	3-4
Fish 413 Fish Ecology	
Fish 415 Limnology	
Range 459 Rangeland Ecology	
WLF 314 Wildlife Ecology	
Quantitative management restrictive elective—choose one of the following	3
For 374 Forest Mensuration	
For 476 Forestry Project Evaluation	
For 477 Integrated Forest Management Models	
For 494 Models for Resource Decisions	
Social/political environment restrictive elective—choose two of the following	4-6
For 484 Forest Policy & Administration	
For 495 International Wildland Management	
PolSc 464 Politics of the Environment	
ResRc 486 Public Involvement in Natural Resource Management	
A course in conflict resolution	
Electives to total 128 credits for the degree	—

C. PRODUCTION OPTION

Course	Credits
For 374 Forest Mensuration	3
For 430 Forest Ecosystem Processes	3
For 476 Forestry Project Evaluation	3
ForPr 277 Wood Structure & Identification	3
ForPr 430 Forest Engineering & Harvesting	3
Forest protection restrictive elective—choose one of the following	3
For 426 Wildland Fire Management & Ecology	
For 466 Forest Disease & Insect Problems	
Reforestation restrictive elective—choose one of the following	2-3
For 412 Artificial Regeneration	
For 413 Nursery Management	
For 428 Forest Genetics & Tree Improvement	
Electives to total 128 credits for the degree	—

D. SCIENCE OPTION

This option is designed for students who have specific curricular objectives not readily obtainable under the other options. Entry requires at least a 2.8 grade-point average and a petition.

Course	Credits
Quantitative science courses	3
Forest resources professional courses	6
Natural or social science courses (other than UI core)	12
Electives to total 128 credits for the degree	—

Forestry, Wildlife and Range Sciences (General)

John C. Hendee, Dean (202C FWR Bldg.; 208/885-6441); Ernest D. Ables, Associate Dean for Academics; Leon F. Neuenschwander, Associate Dean for Research.

Forestry, Wildlife and Range Sciences (General) Courses

PREREQUISITE: Courses in this subject field numbered above 299 are not open to any student who is on academic probation.

FWR 101 Forestry Orientation (1 cr). Intro to forestry and related wildland management professions.

FWR 200; 400 (s) Seminar (cr arr). Prereq: perm.

FWR 203; 403 (s) Workshop (cr arr). Prereq: perm.

FWR 204; 404 (s) Special Topics (cr arr). Prereq: perm.

FWR 299; 502 (s) Directed Study (cr arr). Prereq: perm.

FWR 401 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

FWR 499 (s) **Directed Study** (cr arr). For the individual student; conferences, library, field, or lab work. Prereq: sr standing in the College of FWR, GPA 2.5, and perm.

FWR 501 (s) **Seminar** (cr arr). Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics. Prereq: perm.

FWR 503 (s) **Workshop** (cr arr). Selected topics in the conservation and management of natural resources. Prereq: perm.

FWR 504 (s) **Special Topics** (cr arr). Prereq: perm.

FWR 597 (s) **Practicum** (cr arr). Prereq: perm.

FWR 598 (s) **Internship** (cr arr). Prereq: perm.

FWR 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

FWR 600 **Doctoral Research and Dissertation** (cr arr). Prereq: admission to the doctoral program in "forestry, wildlife and range sciences" and perm of dept.

Academic Minor Requirements

FORESTRY, WILDLIFE AND RANGE SCIENCES MINOR

Note: Not open to students pursuing a major in the College of Forestry, Wildlife and Range Sciences.

Course	Credits
For 205, 206 Wildland Resource Conservation & Lab	4
At least two of the following	4-6
Fish 290 Principles of Fish Biology & Management	
ForPr 250 Principles of Forest Products	
For 270 Principles of Forest Ecosystem Management	
Range 251 Principles of Range Resources Management	
ResRc 287 Principles of Resource Recreation & Tourism Management	
WLF 290 Principles of Wildlife Biology	
At least two of the following	5-6
For 383 Economics for Natural Resource Managers	
For 470 Interdisciplinary Natural Resource Planning	
For/ResRc 235 Society & Natural Resources	
ResRc 386 Resource Recreation & Tourism Planning	
At least one of the following	2-6
Fish 413 Fish Ecology	
For 208 Community & Urban Forestry	
For 221 Natural Resources Ecology	
ForPr 444 Lumber Manufacturing	
Range 453 Rangeland Vegetation Inventory & Analysis	
ResRc 385 Resource Recreation & Tourism Management	
ResRc 387 Environmental Interpretative Methods	
WLF 445 Nongame Management	

The minimum number of credits for the minor is 18.

FRENCH—see Department of Foreign Languages and Literatures

Genetics

Faculty: Lauren Fins, Holly A. Wichman, Raymond J. Hoff, GERAL I. McDonald, Gerald E. Rehfeldt.

Though there is no genetics degree per se at the University of Idaho, many degrees emphasize genetics. Information about research programs, specifics of courses, and academic advising is available from any member of the genetics faculty.

Genetics Courses

Genet 106 **Heredity and Man** (2 cr). See Biol 150.

Genet 200 (s) **Seminar** (cr arr). Prereq: perm.

Genet 299 (s) **Directed Study** (cr arr). Prereq: perm.

Genet 314 **General Genetics** (3 cr). See Biol 351.

Genet 315 **Experimental Genetics** (2 cr). See Biol 352.

Genet 320 **Genetics of Farm Animals** (3 cr). See AVS 320.

Genet 400 (s) **Seminar** (cr arr). Prereq: perm.

Genet 421 **Population Genetics** (3 cr). See AVS 421.

Genet J428/J528 **Forest Genetics and Tree Improvement** (3 cr). See For J428/J528.

Genet J485/J585 **Molecular Genetics I** (3 cr). See Bact J485/J585.

Genet 499 (s) **Directed Study** (cr arr). Prereq: perm.

Genet 501 (s) **Seminar** (cr arr). Prereq: perm.

Genet 502 (s) **Directed Study** (cr arr). Prereq: perm.

Genet WS505 **Introduction to Population Genetics** (2 cr). WSU GenCB 511.

Genet 522 **Statistical Genetics** (3 cr). See AVS 522.

Genet 528 **Forest Genetics and Tree Improvement** (3 cr). See For J428/J528.

Genet 537 **Physiological and Molecular Genetics** (2-3 cr). See Biol 555.

Genet WS540 **Cytogenetics** (3 cr). Alt/ys. WSU GenCB 540.

Genet WS550 **Advanced Cell Biology** (3 cr). WSU GenCB 550.

Genet WS570 **Plant Molecular Genetics** (3 cr). WSU GenCB 570.

Genet 585 **Molecular Genetics I** (3 cr). See Bact J485/J585.

Genet WS592 **Advanced Topics in Cell Biology** (1-3 cr, max 7). WSU GenCB 592.

Department of Geography

Harley E. Johansen, Dept. Head (210 Mines Bldg.; 208/885-6216). Faculty: Kang-Tsung Chang, Piotr Jankowski, Harley E. Johansen, Allan Jokisaari, Scott E. Morris, Gundars Rudzitis, Sam M. W. Spreter, Curtis N. Thomson.

Geography explores the distribution and interaction of natural and human systems on global, regional, and local scales. Environmental issues involving natural resources, population, political, and economic systems are the subject of much geographic inquiry, along with practical issues in planning and resource management. Selecting locations, or designing optimal development or delivery systems are geographic problems common to business and government around the world. Geographic training in spatial analysis, cartography, geographic information systems (GIS), and remote sensing, along with knowledge of patterns and processes inherent in natural and human social systems provides the background necessary to work in an increasing field of research and planning opportunities in applied geography and cartography.

To prepare students for many rewarding and important career opportunities, the Department of Geography, in the College of Mines and Earth Resources, offers the following undergraduate degree programs: B.S. Geography with options in physical environment and earth resources, mineral property and land management, applied economic geography, and generalist; and B.S. Cartography with options in cartography and GIS. The department also offers the major in geography (leading to the B.A. or B.S. degree) through the College of Letters and Science. Students benefit from close contact with their instructors and hands-on experience in their course work and through internships with industries and agencies involved in geographic and cartographic activities.

Graduate Programs. M.S. and Ph.D. degrees in geography are offered. Emphasis is on natural resources, regional development, cartography, spatial decision support systems, and physical topics, using locational analysis and other analytical techniques. Additional information is available from the department on these programs.

Career Opportunities. Geographers work in a variety of fields where knowledge of both natural and human characteristics of places is required. This includes planning and development careers in both public and private agencies as well as careers in environmental impact and assessment. Geographers also work in industry using their skills in research, locational analysis, site selection, mapping, and management of geographical information, with the aid of computers. Industrial jobs for geographers range from research, planning, and data management in primary resources to deciding where to locate a new supermarket or shopping mall. Many jobs for geographers involve computer mapping or GIS. Cartographers from our program are employed in a variety of positions working with map design, graphics, and production cartography. We have recently

designed a program leading to GIS analyst positions, available under the B.S. Cartography. The department arranges student internships with industries and agencies to provide on-the-job training and maintains a close relationship with the UI Career Services Center to aid students in their search for employment.

Faculty members in the department will answer questions about specific programs and courses. Prospective majors in geography or cartography should contact the department head (telephone 208/885-6216).

Geography Courses

Geog 100 Physical Geography (3 cr). Satisfies core requirement J-3-b. Natural environment; nature, distribution, and relationships of climate, landforms, oceans, vegetation, hydrography, and soils.

Geog 101 Physical Geography Lab (1 cr). Satisfies core requirement J-3-b. Lab study relevant to Geog 100. One 2-hr lab a wk. Prereq or coreq: Geog 100 or perm.

Geog 165 Human Geography (3 cr). Intro to geographical dimension in human behavior and how this is evident in population distribution, rural and urban land use, and social, economic, and political attributes of societies.

Geog 180-181-182 Spatial Graphics I, II, III (1 cr). Nontechnical; language of maps, aerial photography, and remote sensory imagery; understanding graphic symbol systems. Geog 180: earth as a sphere, globes and models, history of maps and map-making, the round earth on flat paper. Geog 181: sources of primary (base) map data; basic topographic maps, geologic maps and block diagrams. Geog 182: thematic special-purpose maps, space-age maps, and graphics, atlases, map intelligence. Two lec and one 1-hr lab a wk for five wks. These courses may be taken in any order.

Geog 200 (s) Seminar (cr arr). Prereq: perm.

Geog 203 (s) Workshop (cr arr). Prereq: perm.

Geog 204 (s) Special Topics (cr arr). Prereq: perm.

Geog 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

Geog 240 Economic Geography (3 cr). Reciprocal relations between people and the earth environment within an economic framework; resource distribution, developmental alternatives, movement, processing and industrialization, local to global perspective, theories and case studies.

Geog 250 World Regional Geography (3 cr). Satisfies core requirement J-3-d. Countries, regions, and peoples of the world; interrelationships between humans and their physical and cultural environments.

Geog 299 (s) Directed Study (cr arr). Prereq: perm.

Geog 315 Geomorphology (3 cr). See Geol 335.

Geog 316 Processes in Glacial and Periglacial Environments (3-6 cr). See Geol 336.

Geog ID325 Quantitative Geomorphology (3 cr). WSU Geol 325. Process-oriented approach to geomorphic systems and quantitative analysis of force and resistance relationships that govern these processes. Prereq: Geog 100 or Geol 101 or perm.

Geog 330 Urban Geography (3 cr). Theory and models of the functions, origin, development, structure, and distribution of cities; land-use classification; geographic aspects of city planning. One 1-day field trip. Prereq: Geog 250 or perm.

Geog 340 Business Location Decisions (3 cr). Locational decision making in primary, secondary, and tertiary industries; resulting patterns of industrial location; importance of location and impact of industries on other characteristics of communities as demonstrated by examples from each sector. One 1-day field trip. Prereq: Geog 250 or perm.

Geog 346 Transportation (3 cr). Structure of transportation systems and the role of these in spatial interactions; comparative advantages of air, water, highway, rail, and pipeline transport, and current development in each mode. One and one-half days of field trips. Prereq: Geog 250 or perm.

Geog 350 Geography of Development (3 cr). Geographic appraisal of resource problems and development potentials of the Third World. Prereq: Geog 250.

Geog 360 Population Dynamics and Distribution (3 cr). Same as Soc 360. Effects of fertility, mortality, and migration on population size and distribution; demographic trends in U.S. and other societies and how these relate to economic, political, environmental, and other factors. Prereq: Geog 250 or perm.

Geog ID362 U.S. and Canada (3 cr). WSU Hist 314. Regional and systematic geography; emphasis on contemporary problems. Two 1-day field trips.

Geog 364 Idaho and the Pacific Northwest (3 cr). Regional and systematic geography of the Northwest; emphasis on Idaho and contemporary problems. One 2-day field trip.

Geog 365 Political Geography (3 cr). Conceptual approach to manifestations of political activity at every organizational level; intro to basic ideas of politics, territory, and geographic environment. Prereq: Geog 250 or perm.

Geog 370 Spatial Analysis (3 cr). Methodological need for analyses of spatial data; spatial statistics; measurement of aggregation and concentration, description of areal distributions and gradients; regionalization techniques; intro to computer applications for spatial data. Prereq: intro courses in physical science and social science and Stat 251 or equivalent.

Geog 380 Cartography and Graphic Communication (3 cr). For the map-using professions (e.g., agriculture, engineering, forestry, geosciences, planning). Map design and construction; maps as graphic communication devices, design and drafting processes for map creation and production. Two lec and 6 hrs of lab a wk.

Geog 385 GIS Primer (3 cr). Intro to basic concepts and applications of geographic information systems (GIS), lab exercises on PC-based GIS package, and guest lecturers from industry and governmental agencies. Three hrs of lec-lab a wk. Prereq: CS 112 or perm.

Geog 400 (s) Seminar (cr arr). Prereq: perm.

Geog 401 Atmospheric Environment (3 cr). Weather, air masses, storms and associated phenomena, meteorological instruments, weather maps, forecasting; world's weather and climate types with emphasis on their effects on man. One 1-day field trip. Prereq: Geog 100-101 or Geol 101-102, or perm.

Geog 403 (s) Workshop (cr arr). Prereq: perm.

Geog 404 (s) Special Topics (cr arr). Prereq: perm.

Geog 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

Geog ID420 Land and Resource Regulation (3 cr). WSU ES/RP 588. Legal aspects of land-use control and resource management; methods of research in law libraries for planners and resource managers not trained as attorneys. Prereq: Geog 250 or perm.

Geog 425 Mineral Land Management (3 cr). Same as Min 425. Acquisition of mineral rights on federal, state, and private land; emphasis on laws and regulations affecting mineral development. Prereq: Geog 250 or perm.

Geog 427 Decision-Making in Resource Management (3 cr). Theory and applications of evaluation and optimization techniques used for planning and management of natural resource systems; focus on operational knowledge of tech, potential applicability, and limitations. Prereq: Geog 250, Math 160 or Stat 251 or Geog 370 or perm.

Geog WS444 Environmental Impact Statement Assessment (3 cr). WSU ES/RP 444/544.

Geog 447 Recreation and Tourism (3-4 cr). Changing relationship of recreation to travel and tourism, domestic and international behavioral dynamics, trends, fads, spatial significance, economic and environmental impacts, measurement and planning techniques. Registration for 4 cr requires an additional approved semester project.

Geog 470 Computer Mapping (3 cr). Design, generation, and analysis of thematic and topographic maps using digital mapping software on various microcomputer platforms and output devices; emphasis on cartographic communication and spatial analysis of computer-generated maps. Prereq: Geog 380 or perm.

Geog 471 Advanced Computer Mapping (3 cr). Continuation of Geog 470. Specialized displays of data geared to in-depth treatment of mapping programs in conjunction with statistical packages, and cartographic projection capabilities; lab exercises. Prereq: Geog 470.

Geog ID475 Geographic Information Systems (3 cr). WSU ES/RP 575. Spatial analysis in raster- and vector-based systems; concepts, techniques, and applications of GIS technology using microcomputer and workstation platforms. Prereq: Geog 385 or perm.

Geog 478 Interactive Cartographics (3 cr). Interactive production of colored maps and geostatistical graphics on CRT screens via microcomputer systems; capabilities for color, type sizes, and styles; line, point, and area symbols; geocoding; program writing. Two hrs lec and 75 minutes of lab a wk. Prereq: CS 112.

Geog 480 Advanced Cartography and Remote Sensing (3 cr). Problems in compilation, design, and production of complex thematic maps using state-of-the-art techniques and materials; scribing, process photography, computer cartography, remotely sensed imagery, and printing and reproduction methods to produce a printed map. One lec and six hrs of lab a wk; one 2-day field trip. Prereq: Geog 380 or perm.

Geog 482 Remote Sensing in the Geosciences (3 cr). Applications of remote sensor data for environmental problem solving in geosciences; integration of spectral and spatial data, image restoration and enhancement, and integration of field data and map verification techniques to applied problems. Two lec and 2 hrs of lab a wk. Prereq: For 472 or equiv.

Geog 483 Remote Sensing/GIS Integration (3 cr). Ideas and advanced applications on the use of remotely sensed data and its integration with GIS; topics include examination of various types of imagery, preparing that imagery for incorporation into a GIS, and how to transform that imagery so it is compatible with a GIS. Two lec and 1 hr of lab a wk. Prereq: For 472.

Geog 485 Cartographic Production Techniques (4 cr). Theory and practice of process (copy) camera for cartographic reproduction; line and half-tone photo, tray method film processing, pin registration, contact printing including screening and color proofing, offset platemaking. One lec and 3 hrs of lab a wk. Prereq: Geog 380 or perm.

Geog 490 Trends in Geography (3 cr). Alt/yrs. Current themes; geography as a professional field; employment as a geographer; nature of research; research proposal preparation. Prereq: advanced study in geography.

Geog 491 (s) **Field Techniques** (1-3 cr, max 6). Acquisition of data in the field, analysis, interpretation, and presentation of results of field investigations. May also be taken in conjunction with other geography courses. Prereq: perm.

Geog 492 **Mineral Industry Case Studies** (3 cr). See Min 472.

Geog 497 (s) **Practicum** (1-6 cr, max 6). Practical on-the-job experience in applied geography and cartography; oral and written reports are presented in which the student reviews and constructively criticizes the experience gained. Prereq: perm.

Geog 498 (s) **Internship** (cr arr).

Geog 499 (s) **Directed Study** (cr arr). Prereq: perm.

Geog 500 **Master's Research and Thesis** (cr arr).

Geog 501 (s) **Seminar** (cr arr). Prereq: perm.

Geog 502 (s) **Directed Study** (cr arr). Prereq: perm.

Geog 503 (s) **Workshop** (cr arr). Prereq: perm.

Geog 504 (s) **Special Topics** (cr arr). Prereq: perm.

Geog 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Geog 510 **Seminar in Physical Geography** (3 cr). Current research trends in physical geography; development of theory and methodology; process and theoretical geomorphology, physical climatology, and geographic hydrology; resource-related applications of this research.

Geog 511 **Applied Climatology** (3 cr). Climatic classifications, microclimatic investigations, instrumentation; impact of climate on agricultural, vegetation, and economic activities.

Geog 516 **Advanced Field Glaciology** (6 cr). See Geol 536.

Geog 520 **Land and Resource Regulation Seminar** (3-6 cr, max 6). Current legal issues in land use control and mineral resource management. Prereq: Geog 420 or 425 or perm.

Geog 527 **Seminar in Resource Geography** (3 cr). Examination of spatial ramifications of resource issues; emphasis on fuel and non-fuel minerals and development of spatial models used in evaluation process.

Geog 529 **Regional Land-Use Planning** (3 cr). Alternative regional goals, plans, structures, laws, spatial options; comparison of various domestic and foreign approaches and experiences; construction of models and scenarios of alternative proposals. One 2-day field trip.

Geog 530 **Urban Systems and Structure** (3 cr). Demographic, economic, settlement, and locational characteristics of communities; emphasis on small cities and towns. Prereq: Geog 330, 360, or perm.

Geog WS541 **Planning in Rural Environments** (3 cr). WSU ES/RP 541.

Geog WS544 **Environmental Impact Statement Assessment** (3 cr). WSU ES/RP 544.

Geog WS550 **Methods and Processes in Regional Planning** (3 cr). WSU ES/RP 550.

Geog 570 **Techniques of Regional and Urban Analysis** (3 cr). Theory and techniques for studying regional and urban phenomena from the spatial perspective; spatial structure; data and relationships among variables; projections and forecasts; models of economic activity, population, land use and transportation. Prereq: Geog 370 or Stat 251 or Math 451-452.

Geog 580 **Cartography Seminar** (3 cr, max 6). Survey of cartography as a discipline and its major areas of specialization; literature of cartography; areas of applied and theoretical research; philosophy of maps. Prereq: Geog 380 or perm.

Geog 585 **Cartography for Planners** (3 cr). Role of maps in the planning process; problems of the small planning agency with limited cartographic resources; principles and techniques of large-scale map compilation from various source materials, including aerial photographs; coordinate systems, multiple-use cartographic drafting, map duplication and reproduction processes, agency use of commercial firms for part or all of the map-making process. Two lec and one 3-hr lab a wk; one 1-day field trip.

Geog WS590 **Special Topics in Regional Planning** (1-3 cr). WSU ES/RP 590.

Geog 591 **History and Philosophy of Geography** (3 cr). Evolution of geography as a discipline, focusing on post-scientific revolution developments and identification of major themes in contemporary geographic thought.

Geog 595 **Public Planning Participation** (1 cr, max 2). Attendance at public-planning meetings followed by written and classroom critiques. Travel to nearby communities reqd for some meetings.

Geog 597 (s) **Practicum** (cr arr). Prereq: perm.

Geog 598 (s) **Internship** (cr arr). Practical, on-the-job experience with governmental agencies or commercial establishments; oral and written reports are presented in which the student reviews and constructively criticizes the experience gained; salary may be received for services performed. Prereq: perm.

Geog 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Geog 600 **Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

GEOGRAPHY (B.S.Geog.)

This program is offered through the College of Mines and Earth Resources. Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Geog 100, 101 Physical Geography & Lab	4
Geog 165 Human Geography	3
Geog 180-181-182 Spatial Graphics	3
Geog 240 Economic Geography	3
Geog 250 World Regional Geography or 362 U.S. & Canada or 364 Idaho & the Pacific Northwest	3
Geog 370 Spatial Analysis	3
Geog 380 Cartography & Graphic Communication	3
Stat 251 Principles of Statistics	3

And completion of one of the following options (a list of recommended electives may be obtained from the departmental office; students interested in pursuing graduate studies are advised to emphasize analytical techniques in their choice of electives):

A. PHYSICAL ENVIRONMENT AND EARTH RESOURCES OPTION

This option emphasizes the interaction between natural environmental systems and human activities. Students gain a knowledge of major issues in the utilization and management of earth resources as they relate to the natural environment. They also acquire the skills necessary to solve practical problems related to resource development.

Course	Credits
Geog 315 Geomorphology or 325 Quantitative Geomorphology	3
Geog 401 Atmospheric Environment	3
Geog 491 Field Techniques	3
Courses chosen from the following	21
Geog 385 GIS Primer	
Geog 470 Computer Mapping	
Geog 478 Interactive Cartographics	
Chem 103 Intro to Chem or 111 Principles of Chem	
CE 218 Elementary Surveying	
CS 112 Intro to Problem Solving & Programming	
Eng 317 Technical & Engineering Report Writing	
For 275 Aerial Photo Interpretation	
Math 140 Pre-calculus Algebra & Analytic Geometry	
Math 160 Survey of Calculus	
Phys 113 General Physics	
Courses chosen from the following	6
Geog 316 Processes in Glacial/Periglacial Environments	
AgE 351 Hydrology	
For 462 Watershed Management	
Geol 101, 102 Physical Geology & Lab	
Geol 409 Ground Water	
Geol 425 Sedimentology	
Soils 205 General Soils	
Electives to total 128 cr for the degree (geography cr must total at least 44).....	—

B. APPLIED ECONOMIC GEOGRAPHY OPTION

This option is designed to prepare students for employment opportunities in business and industry and also in the field of planning at the regional or community scale. It emphasizes the locational aspects of economic activity and economic decision making. Students will gain an understanding of geographical patterns of markets, transactions and trade, transportation, production and consumption, industrial processing, and other aspects of the spatial economy. With this option, most students can go on to complete master's degrees in business administration or geography within one year or move directly into a growing area of employment for the business-oriented geographer.

Course	Credits
Geog 330 Urban Geography	3
Geog 340 Business Location Decisions	3
Geog 346 Transportation	3
Geog 385 GIS Primer	3
Geog 427 Decision Making in Resource Management	3
Bus 321 Marketing	3
Econ 201, 202 Principles of Economics	6
Econ 430 Regional/Urban Economics	3
Eng 313 Business Writing or 317 Tech & Engr Report Writing	3
Courses chosen from the following	9
Geog 470 Computer Mapping	
Geog 471 Advanced Computer Mapping	
Geog 478 Interactive Cartographics	
Geog 497 Practicum (internship with a company or agency)	
Bus 421 Marketing Research & Analysis	
Econ 352 Intermediate Microeconomic Analysis	
LArch 490 Computer-Aided Regional Landscape Planning	
Math 180 Analytic Geometry & Calculus I	
Math 326 Linear Programming	
Courses chosen from the following	9
Geog 360 Population Dynamics & Distribution	
Geog 365 Political Geography	
Geog 447 Recreation & Tourism	
AgEc 332 Economics of Agricultural Development	
AgEc 451 Land & Natural Resource Economics	
Bus 325 Retailing	
Econ 385 Environmental Economics	

Econ 415 Market Structure & Governmental Policy
Econ 446 International Economics
Electives to total 128 cr for the degree

C. MINERAL PROPERTY AND LAND MANAGEMENT OPTION

This option is designed to provide a background in land-use decision making and land management. Emphasis is on mineral properties, but the techniques also apply to other resources. Courses include locational, socioeconomic, environmental, and legal aspects of land management to prepare the student for either employment or advanced study in this growing profession.

Course	Credits
Geog 315 Geomorphology or 401 Atmospheric Environment.....	3
Geog 330 Urban Geography or Geog 360 Population Dynamics.....	3
Geog 420 Land & Resource Regulation or 425 Mineral Land Mgt.....	3
Geog 470 Computer Mapping or 385 GIS Primer or 478 Interactive Cartographics.....	3
Geog 492 Mineral Industry Case Studies.....	3
AgEc 451 Land & Natural Resource Economics or Econ 430 Regional/ Urban Economics or Econ 385 Environmental Economics.....	3
Bus 362 Real Property Appraisal.....	3
CE 218 Elementary Surveying.....	2
CS 112 Introduction to Problem Solving & Programming.....	3
Econ 201, 202 Principles of Economics.....	6
Eng 313 Business Writing or 317 Technical & Engr Report Writing.....	3
Math 140 Pre-calculus Algebra & Analytic Geometry.....	3
PolSc 451 Public Administration or 452 Administrative Law.....	3
Approved geography electives.....	6
Electives to total 128 cr for the degree	—

D. GENERAL OPTION

For students interested in geography but not in one of the specialty options, this option allows them to design their own curricula with the approval of a geography faculty adviser.

Course	Credits
Math 140 Pre-calculus Algebra & Analytic Geometry.....	3
Approved electives in geography (not incl Geog 480, 485).....	27
Approved electives to total 128 cr for the degree	—

GEOGRAPHY (B.A. or B.S.)

This program is offered through the College of Letters and Science. Required course work includes the university requirements (see regulation J-3), the general College of L & S requirements for either the B.A. or B.S. degree, and:

Course	Credits
Geog 100, 101 Physical Geography & Lab.....	4
Geog 165 Human Geography.....	3
Geog 240 Economic Geography.....	3
Geog 250 World Regional Geography.....	3
Geog 380 Cartography & Graphic Communication.....	3
Geog 490 Trends in Geography.....	3
Geol 101, 102 Physical Geology & Lab.....	4
Geography electives (upper-division).....	18
Related fields approved by the Dept of Geography.....	20

CARTOGRAPHY (B.S.Cart.)

This program is offered through the College of Mines and Earth Resources. Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Geog 100, 101 Physical Geography & Lab.....	4
Geog 165 Human Geography.....	3
Geog 180-181-182 Spatial Graphics.....	3
Geog 370 Spatial Analysis.....	3
Geog 380 Cartography & Graphic Communication.....	3
Geog 385 GIS Primer.....	3
Geog 470 Computer Mapping.....	3
Geog 475 Geographic Information Systems.....	3
Geog 478 Interactive Cartographics.....	3
Geog 480 Advanced Cartography & Remote Sensing.....	3
Geog 485 Cartographic Production Techniques.....	3
CE 211 Engineering Measurements.....	4
CE 319 Photogrammetry & Photo Interpretation.....	3
CS 112 Intro to Problem Solving & Programming.....	3
Eng 313 Business Writing or 317 Technical & Engr Report Writing.....	3
For 275 Aerial Photo Interp or 472 Remote Sensing of Environment.....	2-3
Math 140 Pre-calculus Algebra & Analytic Geometry.....	3
Math 160 Survey of Calculus or 180 Analytic Geometry & Calculus I.....	4
ME 101 Engineering Graphics.....	2
Stat 251 Principles of Statistics.....	3

And one of the following options:

A. CARTOGRAPHY OPTION

This option emphasizes graphic design and communication and both computerized and conventional techniques of production cartography. It provides extensive applied professional cartographic training and exposure to theoretical-research oriented aspects of the field. Students who complete this option should be capable of eventually occupying

supervisory positions in graphic sections or organizations producing maps and allied graphic products. To provide these students with a realistic education, the department has developed a modern, fully equipped graphic arts laboratory (Cart-O-Graphics) that has the capacity to execute all necessary map-making functions from original drafting or scribing to press-ready printing plates. The laboratory provides talented and interested students with the opportunity to solve real cartographic problems, gaining professional experience, academic credit, and income.

Course	Credits
Geog 250 World Regional Geography or 362 U.S. & Canada or 364 Idaho & Pacific Northwest.....	3
Geog 315 Geomorphology.....	3
Geog 497 Practicum.....	3-6
Psych 218 Introduction to Research in the Behavioral Sciences.....	4
Adviser-approved electives.....	5

B. GIS OPTION

This option focuses on teaching theoretical fundamentals, techniques, and practical applications of modern geoprocessing using spatial analysis and information systems technology. It is intended to educate specialists in GIS and Spatial Analysis who have a solid grasp of cartographic principles, computational technology, and the knowledge of substantive issues involved in geoprocessing applications.

Course	Credits
Geog 250 World Regional Geography.....	3
Geog 497 Practicum or 498 Internship.....	3
CS 113 Program Design & Algorithms.....	3
CS 213 Data Structures.....	3
CS 241 Computer Organization.....	3
CS 360 Files & Databases.....	3
Math 176 Discrete Mathematics.....	4

**Department of Geology
and Geological Engineering**

Rolland R. Reid, Dept. Head (211 Mines Bldg.; 208/885-6192). Faculty: John H. Bush, Jr., Valerie E. Chamberlain, Dennis J. Geist, Mickey E. Gunter, James H. Hardcastle, Terry R. Howard, Peter E. Isaacson, Maynard M. Miller, Stanley M. Miller, James Osiensky, Beth A. Palmer, Dale R. Ralston, Rolland R. Reid, Peter L. Siems, Kenneth F. Sprenke, Roy E. Williams, Scott A. Wood. **Adjunct Faculty:** Earl H. Bennett II, Bill Bonnichsen, Roy M. Breckenridge, Charles R. Knowles, Kurt L. Othberg, Roger C. Stewart.

Geology is the study of the origin and evolution of the earth, utilizing the principles of chemistry, physics, and biology and the unifying concepts of geologic time and uniformitarianism. The applied aspects of geology include the search for ores, industrial minerals, petroleum, coal, water, and other useful geologic materials. Geological engineering is the application of engineering principles to geologic problems. Hydrology is concerned with water: surface water, underground water, and water in the atmosphere. Generally involved are geologic aspects of mined land reclamation, waste disposal, and pollution abatement. Geophysics is the scientific study of the earth using the methods of physics.

Bachelor's degrees are offered in geology and in geological engineering. Both programs emphasize field and applied aspects along with theoretical considerations. Both programs require effective use of English in written and oral reports. It is the goal of the department that our graduates not only be ready for immediate employment, but also that they have the broad education that will help them to grow professionally and advance through positions of greater responsibility during their careers.

The geology program provides the student with the necessary background courses in basic sciences and mathematics plus a spectrum of courses in the subdisciplines of geology, including mineralogy, petrology, paleontology, stratigraphy, structural geology, geomorphology, geochemistry, and geophysics. A well-rounded education is obtained through additional courses in the humanities and social sciences. Specialized elective courses can be chosen to prepare for various careers such as exploration for minerals or for petroleum; or in dealing with geological problems related to engineering; or in the search for, and management of, ground water; or for preparation for advanced studies in graduate school.

The geological engineering program provides a broad background in the engineering sciences plus specialized courses that integrate engineering concepts and applications with the principles of geology.

Humanities and social science courses provide a background in the liberal arts. Groups of elective courses may be taken to prepare for specialization in geotechnical engineering, geophysical engineering, or mineral exploration.

A minor in geology is offered for students in allied fields who have an interest in geology. The minor curriculum can be tailored to meet the needs of individual students.

Laboratories are maintained for work in all of the basic courses, with large study collections of fossils, rocks, minerals, crystal models, ore suites, thin sections, polished sections, and topographic and geologic maps.

Equipment used in advanced courses includes rock sawing and polishing facilities, binocular microscopes, reflection and polarizing microscopes, photomicrographic apparatus, x-ray diffraction and fluorescence equipment, and an atomic absorption spectrophotometer. The electron microprobe of the Idaho Geological Survey is available to advanced students. Also available are several computers, resistivity survey equipment, seismographs, magnetometer, soil drilling and sampling kits, water-level recorders, and various types of soil and rock strength-testing equipment.

Research laboratories are equipped for work in applied geochemistry, geophysics, petrology, economic geology, paleontology, photogeologic analysis, remote sensing, engineering geology, and geomechanics. Facilities for research in hydrology are also available in other divisions of the university.

Through the Glaciological and Arctic Sciences Institute, cooperative facilities for field training and research in British Columbia and Alaska are available in the disciplines of mining and exploration geology, geophysics, terrestrial photogrammetry, geomorphology, and glaciology.

The department offers Master of Science degrees in geology, geophysics, hydrology, and geological engineering. These are required in the first two programs (i.e., geology and geophysics), whereas a thesis/nonthesis option is available in the latter two programs (i.e., geological engineering and hydrology). A nonthesis program is also available in the Master of Arts in Teaching (major in earth science). The Doctor of Philosophy is offered in geology.

The undergraduate preparation expected of the entering candidates depends upon the degree sought. Candidates who do not have adequate preparation are admitted with the requirement that deficiencies be made up. Some of our most promising graduate students have come to us with bachelor's degrees in the humanities or social sciences. Deficiencies for master's candidates are determined by the major professor. The master's degrees in hydrology and geophysics are interdisciplinary, and candidates are accepted from various fields of science and engineering; mathematics through Math 310 is required, and other deficiencies will be determined by the major professor. No special requirements exist as to deficiencies of candidates for the Master of Arts in Teaching. Candidates for the Doctor of Philosophy in geology are expected to have earned a master's degree in geology.

BSU-ISU Cooperative Programs. The department participates in cooperative programs with the Earth Science Departments at Boise State University and at Idaho State University. Students interested in pursuing bachelor's degrees in geology or geophysics at those institutions may take transferable preparatory courses at UI. The master's degree in geophysics at UI is fully cooperative and students may take courses or perform research at any of the three institutions.

Courses

GEOLOGICAL ENGINEERING

- GeolE 203 (s) **Workshop** (cr arr). Prereq: perm.
- GeolE 204 (s) **Special Topics** (cr arr). Prereq: perm.
- GeolE 299 (s) **Directed Study** (cr arr). Prereq: perm.
- GeolE 301 **Field Geology and Report Writing** (6 cr). See Geol 301.
- GeolE 400 (s) **Seminar** (cr arr). Prereq: perm.
- GeolE 403 (s) **Workshop** (cr arr). Prereq: perm.
- GeolE 404 (s) **Special Topics** (cr arr). Prereq: perm.
- GeolE 407 **Rock Mechanics** (3 cr). See Min 401.
- GeolE 409 **Ground Water** (3 cr). See Geol 409.
- GeolE 410 **Techniques of Ground Water Study** (3 cr). Same as Geol 410. Collection and analysis of field data for reconnaissance ground water studies.
- GeolE ID428 **Geostatistics** (3 cr). Same as Stat and Min 428. WSU Geol and Stat 428. Applications of random variables and probability in geologic and engineering studies; regression, regionalized variables, spatial correlation, variograms, kriging, and simulation. Prereq: Stat 301 or equivalent.
- GeolE 430 **Site Testing and Evaluation** (3 cr). Geotechnical site investigation methods; data acquisition, analysis, and interpretation of geologic conditions; application of expert systems and decision analysis to site evaluation; design considerations. One 1-day field trip. Prereq: Geol 101, ME 340.
- GeolE ID&WS435 **Geological Engineering Principles** (3 cr). WSU C E 426/526. Application of geology to solution of engineering problems; emphasis on selection of rock and soil parameters for use in design analysis. Two lec and one 2-hr lab a wk. Prereq: Geol 101-102 and Phys 113.
- GeolE 436 **Geological Engineering Design** (3 cr). Application of engineering and geological principles to analysis and design in construction industries. One 1-day field trip. Prereq: GeolE 435.
- GeolE 475 **Mineral Deposits** (4 cr). Occurrence, classification, and origin of metallic and nonmetallic economic mineral deposits. Three lec and one 3-hr lab a wk; one 3-day field trip. Prereq: Geol 249, 345; recommended prep: Geol 386.
- GeolE 476 **Design of Exploration Programs** (3 cr). Same as Geol 476. Design of geological surveys and mineral exploration programs; integration and evaluation of geological, geochemical, and geophysical exploration techniques. Prereq or coreq: GeolE 475.
- GeolE 485 **Geochemical Exploration** (3 cr). See Geol 485.
- GeolE 490 **Mineral Resource Wastes and Mine Hydrology** (3 cr). See Geol 490.
- GeolE 491 **Waste Management** (3 cr). See Geol 491.
- GeolE 498 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.
- GeolE 499 (s) **Directed Study** (cr arr). Prereq: perm.
- GeolE 500 **Master's Research and Thesis** (cr arr).
- GeolE 501 (s) **Seminar** (cr arr). Prereq: perm.
- GeolE 502 (s) **Directed Study** (cr arr). Prereq: perm.
- GeolE 503 (s) **Workshop** (cr arr). Prereq: perm.
- GeolE 507 **Rock Mechanics II** (3 cr). See Min 504.
- GeolE WS524 **Geophysical Engineering** (4 cr). WSU Geol 405/505.
- GeolE 528 **Advanced Geostatistics** (3 cr). Same as Min 528. Advanced geostatistical methods with emphasis on multivariate kriging, conditional kriging, and spatial simulations. Prereq: GeolE 428.
- GeolE ID535 **Seepage and Earth Dams** (3 cr). Same as CE 563. WSU C E 507. Principles of earth-dam design, failures, practical considerations in construction; principles governing the flow of water through soils. Prereq: perm.
- GeolE ID536 **Slope Stability Analysis** (3 cr). Theory of stability analysis of slopes, landslides, and embankments for soil and rock masses; problem solutions using hand calculations and the latest computer codes; problems explore practical applications in the geotechnical engineering field.
- GeolE 537 **Advanced Topics in Geotechnical Engineering** (3 cr). Alt/yrs. Selected topics in geotechnical engineering; emphasis on recent developments. Prereq: perm.
- GeolE 540 **Stochastic Geotechnology** (3 cr). Probabilistic methods applied to geotechnology with emphasis on engineering, environmental geology, and hydrogeology. Prereq: GeolE J428/J528 or Stat 451.
- GeolE 563 **Hydrogeology** (3 cr). See Hydro 563.
- GeolE 589 **Water Resources Seminar** (1 cr). See Inter 589.
- GeolE 597 (s) **Practicum** (cr arr). Prereq: perm.
- GeolE 598 (s) **Internship** (cr arr). Prereq: perm.
- GeolE 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

GEOLOGY

Geol 101 Physical Geology (3 cr). Satisfies core requirement J-3-b. The earth, its composition, structure, and natural processes. Concurrent enrollment in Geol 102 recommended. One 1-day field trip.

Geol 102 Physical Geology Lab (1 cr). Satisfies core requirement J-3-b. Lab study relevant to Geol 101. Coreq: Geol 101.

Geol 106 Historical Geology (3 cr). Satisfies core requirement J-3-b. Evolution of the physical earth, plants, and animals; techniques used in interpretation of geologic history. Concurrent enrollment in Geol 107 recommended. One 1-day field trip.

Geol 107 Historical Geology Lab (1 cr). Satisfies core requirement J-3-b. Lab study relevant to Geol 106. Coreq: Geol 106.

Geol 111 Physical Geology for Science Majors (4 cr). Introductory course in earth science for geology and other science majors. Three lec and one 2-hr lab a wk; two 1-day field trips.

Geol 203 (s) Workshop (cr arr). Prereq: perm.

Geol 204 (s) Special Topics (cr arr). Prereq: perm.

Geol 212 Principles of Paleontology (4 cr). Studies of morphology, classification of fossil groups, and utility of fossils in interpreting depositional environments and ages of sedimentary rocks. Three lec and one 2-hr lab a wk; one 1- to 2-day field trip. Prereq: Geol 106.

Geol 249 Mineralogy and Optical Mineralogy (5 cr). Principles of crystallography, crystal chemistry, and crystal structure; mineral identification; principles of optical mineralogy and use of the petrographic microscope. Three lec and two 2-hr labs a wk; two 1-day field trips. Prereq: Geol 111 (or Geol 101) and Chem 111.

Geol 260 Survey of Minerals (2 cr). Not open to geology majors. Survey of classification, crystallography, and uses of minerals. One lec and one 2-hr lab a wk; one 1-day field trip.

Geol 261 Survey of Rocks (2 cr). Survey of origin, classification, and uses of rocks. One lec and one 2-hr lab a wk; two 1-day field trips. Prereq: Geol 101, 102 or 111.

Geol 299 (s) Directed Study (cr arr). Prereq: perm.

Geol 301 Field Geology and Report Writing (6 cr). Same as GeolE 301. Field problems and methods; use of instruments; interpretation of field data; preparation of reports based on field observations and interpretations. Three field trips. Accident and health insurance reqd. Prereq: Geol 261, 345 or perm.

Geol 323 Geology of Idaho and the Pacific Northwest (3 cr). Development of geologic structures and present-day distribution of rocks and mineral deposits in Idaho and the Pacific Northwest. Two 1-day field trips. Prereq: Geol 101 or Geog 100.

Geol 335 Geomorphology (3 cr). Same as Geog 315. Classification, recognition, origin, and significance of land forms; land form analysis in interpretation of geologic structure and history. One 2-day field trip. Prereq: Geol 101-102 or 111 or 106-107 or Geog 100-101 or perm.

Geol 336 Processes in Glacial and Periglacial Environments (3-6 cr). Same as Geog 316. Quantitative treatment using examples from regions of existing glaciers and permafrost. Two lec and one 3-hr lab a wk or (for 6 cr) 6-wk intensive field session in Alaska and Canada.

Geol 344 Geologic Spatial Methods (1 cr). Analysis of plan sections and cross sections in geologic problems.

Geol 345 Structural Geology (3 cr). Deformed rocks; mechanics of failure, recognition, description, classification, and genesis of folded and fractured rocks. Two lec and one 2-hr lab a wk; one 2-day field trip. Prereq: one semester high-school trigonometry or Math 179, Geol 101-102 or 111, and 344.

Geol 360 Geologic Hazards (3 cr). Survey of natural geologic hazards, their controlling factors, recognition of hazard potential; emphasis on flash floods, earthquakes, landslides, volcanic hazards, subsidence. Three 1-day field trips. Prereq: Geol 101-102 or 111.

Geol 361 Geology and the Environment (3 cr). Environmental consequences of development of geologic resources; geochemistry of pollution due to geologic resource use; geology and geochemistry of waste disposal sites. Prereq: Geol 101-102 or 111.

Geol 375 Geology of National Parks (2 cr). Primarily for non-geology majors who want to acquire a better knowledge of geologic concepts and processes through study of geology of national parks. Recommended preparation: Geol 101 or 106 or 111 or Geog 100.

Geol 386 Principles of Geochemistry (3 cr). Physicochemical principles applied to geologic processes; phase equilibria in rock systems. Two lec and one 2-hr lab a wk. Prereq: Geol 249 or perm and Chem 111.

Geol 400 (s) Seminar (cr arr). Prereq: perm.

Geol 405 Earth Sciences (4 cr). Integration of, and current issues in, the earth sciences (astronomy, geology, meteorology, oceanography) as applied to earth science education. Three lec and one 2-hr lab a wk; two 1-day field trips. Prereq: Geog 100-101 and Geol 101-102 or 111; recommended: Geog 401, Phys 103-104.

Geol 408 Field Methods in the Earth Sciences (2 cr). Observation and collection of data in the field and using the data for practical application of the earth sciences; course may be accelerated. Three lec and one 2-hr lab a wk; 6-10 days of field trips. Prereq: Geol 101-102 or 111 and 335.

Geol 409 Ground Water (3 cr). Same as GeolE 409. Occurrence, movement, and properties of subsurface water; intro to ground-water geology and hydrology. One 1-day field trip. Prereq: Geol 101-102 or 111, and Math 111 or 140.

Geol 410 Techniques of Ground Water Study (3 cr). See GeolE 410.

Geol J412/J512 Computer Geology (2 cr). Computer applications in geology; use of BASIC programs, computer graphics, spreadsheets, and data bases to help solve geological problems. Term project reqd for grad cr. One lec and one 2-hr lab a wk. Prereq: CS 100 or equivalent.

Geol ID-J415/ID-J515 Paleocology (3 cr). WSU Geol 515. Ecological dynamics as applied to the paleontologic record; preservation constraints; animal-sediment interactions; organisms' role in the relative time scale. Different term paper reqd for grad cr. Two lec and one seminar-style meeting a wk; one 5-day field trip to Oregon Coast.

Geol 417 Advanced Paleontology (3 cr). Fossil assemblage analyses and report writing; marine faunal assemblage 1st half semester; nonmarine floral assemblage 2nd half semester. Three 2-hr labs a wk; one 1-day field trip. Prereq: Geol 212 or perm.

Geol 423 Stratigraphy and Sedimentary Petrography (3 cr). Description of sedimentary rocks in thin sections and hand specimens; organization and correlation of layered rocks at all scales; factors controlling vertical and lateral distribution of rock units. One lec and two 2-hr labs a wk; one 4-day field trip.

Geol 425 Sedimentology (3 cr). Environments and processes responsible for separation of clastic and nonclastic sedimentary rock materials; roles of transportation, deposition, including situation and lithification. Two lec and one 2-hr lab a wk; one 2-day field trip. Prereq: Geol 249 or 260.

Geol ID-J432/J532 Geologic Development of North America (3 cr). WSU Geol 529. Tectonic, magmatic, and sedimentary sequence studies of North American continent through time; concepts of metal and petroleum enrichment related to time and geological processes. Additional questions on two exams and written report of field trip reqd for grad cr. One 7-day field trip.

Geol 449 Geology of Industrial Rocks and Minerals (2 cr). Classification, occurrence, origin, preparation, extraction, use, and economics of chiefly nonmetallic rocks and minerals of major importance to industry. Prereq: Geol 249.

Geol 451 Practicum in X-ray Diffraction (1 cr). Use of x-ray diffraction in identification of minerals; x-ray safety training reqd. Accelerated course; enrollment limited to 8. Graded P/F. Minimum of 20 hrs of practical experience. Prereq: Geol 249 and perm.

Geol J455/J555 Thermochemistry of Geological Processes (3 cr). Alt/yrs. Thermodynamic principles applied to geological problems; specific topics include real gases at high P and T, estimation and measurement of thermodynamic data, solid solution modelling, geobarometry, geothermometry, thermodynamics of magmas. Additional projects/assignments reqd for grad cr. Prereq: Chem 302 or perm.

Geol J456/J556 Geological Reaction Rates and Diffusion (3 cr). Alt/yrs. Chemical kinetics applied to geological sciences; diffusion in crystals, melts and fluids; crystal growth and nucleation; geospeedometry; dissolution and precipitation kinetics; weathering rates; crystal defects. Additional projects/assignments reqd for grad cr. Prereq: Chem 302 and Geol 555, or perm.

Geol J457/J557 High-Temperature Aqueous Geochemistry I (3 cr). Alt/yrs. Application of solution chemistry to hydrothermal solutions; Eh-pH, log f(O₂) - pH, activity - activity diagrams; estimation techniques; water structure; metal complexation; solubility, transport and deposition; equilibrium speciation; geothermal fields; experimental methods; activity coefficients. Additional projects/assignments reqd for grad cr. Two lec and three hrs of lab a wk. Prereq: Chem 302 and Geol 555 or perm.

Geol J458/J558 High-Temperature Aqueous Geochemistry II (3 cr). Alt/yrs. Expands on topics covered in Geol 557 through seminar format. Selected readings from primary literature followed by presentations and discussions in class. Additional projects/assignments reqd for grad cr. Prereq: Chem 302, Geol 555 and 557, or perm.

Geol 466 Igneous and Metamorphic Rocks (4 cr). Petrology plus megascopic and microscopic petrography of igneous and metamorphic rocks. Two lec and two 2-hr labs a wk; two 1-day or one 2-day field trips. Prereq: Geol 249 and Geol 386 or Chem 112 or Chem 114.

Geol J467/J567 Volcanic Geology (3 cr) (Geol 566). Eruption mechanisms, volcanic processes and landforms, and volcanic deposits. Additional projects/assignments reqd for grad cr. Two lec and one 2-hr lab a wk; one 5-day and one 1-day field trips.

Geol 472 Mineral Industry Case Studies (3 cr). See Min 472.

Geol 476 Design of Exploration Programs (3 cr). See GeolE 476.

Geol J478/J578 Low Temperature Aqueous Geochemistry (3 cr). Basic principles of aqueous geochemistry as applied to low temperature waters such as groundwaters, and ocean, lake, and river waters; thermodynamics, kinetics, aqueous speciation, solubility phenomena, adsorption phenomena, calculation and interpretation of Eh-pH diagrams, organic geochemistry of waters, acid mine drainage; accompanying lab will stress familiarity with analytical techniques including those that can be adapted to field use. Two lec and 3 hrs of lab a wk.

Geol J484/J584 Advanced Geochemistry (3 cr). Alt/yrs. Major and trace elements geochemistry of igneous, metamorphic, and sedimentary rocks. Cr earned in Geol 584 by completion of term project. Two lec and one 3-hr lab a wk. Prereq: Geol 386, 466.

Geol 485 Geochemical Exploration (3 cr). Same as GeolE 485. Principles of geochemical techniques in prospecting for mineral deposits; design, execution, and interpretation of geochemical surveys. Two lec and one 3-hr lab a wk; two 1-day field trips. Prereq: Geol 386, Chem 112.

Geol J488/ID-J588 **Isotope Geology** (4 cr). Alt/yrs. Geologically useful radioactive isotopes; geochronology and isotopes as tracers. Cr earned in Geol 588 by completion of term project. Three lec and one 2-hr lab a wk. Prereq: perm.

Geol 490 **Mineral Resource Wastes and Mine Hydrology** (3 cr). Same as GeolE 490. Treatment of mineral resource waste production and management; interaction of wastes and water after disposal in the environment under existing legal constraints.

Geol 491 **Waste Management** (3 cr). Same as GeolE and Hydro 491. Technological aspects of implementing regulations that govern the disposal of earth resource wastes under federal and state laws.

Geol 498 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.

Geol 499 (s) **Directed Study** (cr arr). Prereq: perm.

Geol 500 **Master's Research and Thesis** (cr arr).

Geol 501 (s) **Seminar** (cr arr). Prereq: perm.

Geol 502 (s) **Directed Study** (cr arr). Prereq: perm.

Geol 503 (s) **Workshop** (cr arr). Prereq: perm.

Geol WS511 **Advanced Topics in Paleontology** (3 cr). WSU Geol 511.

Geol 512 **Computer Geology** (2 cr). See Geol J412/J512.

Geol ID515 **Paleoecology** (3 cr). See Geol J415/J515.

Geol WS520 **Advanced Topics in Sedimentary Rocks** (3 cr). WSU Geol 520. Alt/yrs. Prereq: Geol 425.

Geol WS523 **Advanced Topics in Stratigraphy** (3 cr). WSU Geol 523.

Geol 525A **Stratigraphic Paleobotany** (3 cr). Alt/yrs. Fossil floras and floral successions, taxonomic problems; geologic ranges and past distributions of plant taxa; paleoecological interpretation; methods and correlation and dating by fossil plants. One 1-day and one 2-day field trips.

Geol WS525B **Carbonate Depositional Systems** (3 cr). WSU Geol 525.

Geol ID526 **Petrology of Carbonate Rocks** (3 cr). WSU Geol 528. Origin, classification, distribution, depositional environments, and diagenesis of modern and ancient carbonates; emphasis on petrographic analysis. Two lec and one 3-hr lab a wk; one 3-day field trip.

Geol ID527 **Petrology of Clastic Rocks** (3 cr). WSU Geol 527. Origin, classification, and diagenesis of terrigenous rocks; emphasis on petrographic analysis. Two lec and one 3-hr lab a wk; one 3-day field trip.

Geol WS528 **Clastic Depositional Systems** (3 cr). WSU Geol 521.

Geol 532 **Geologic Development of North America** (3 cr). See Geol J432/J532.

Geol 536 **Advanced Field Glaciology** (6 cr). Same as Geog 516. Advanced quantitative treatment of glaciological problems carried out on selected glaciers of the Juneau Icefield, Alaska, or an alternative area in the Rocky Mountains or Cascades. Intensive 7-wk summer field session.

Geol WS541 **Structural Analysis** (3 cr). WSU Geol 541. Alt/yrs.

Geol WS548 **Tectonics** (3 cr). WSU Geol 540. Alt/yrs.

Geol WS550 **Advanced Mineralogy** (3 cr). WSU Geol 550. Alt/yrs.

Geol WS551 **Ore Microscopy and Fluid Inclusion Analysis** (3 cr). WSU Geol 551. Alt/yrs.

Geol WS552 **X-ray Analysis in Geology** (3 cr). WSU Geol 552.

Geol 553 **Chemical Petrology** (3 cr). Use of major and trace element and geochemistry in elucidating the genesis and evolution of igneous rocks, especially in relation to their tectonic setting.

Geol 554 **Physical Petrology** (3 cr). Applications of continuum mechanics and fluid dynamics to generation, rise, storage, and eruption of magmas.

Geol 555 **Thermochemistry of Geological Processes** (3 cr). See Geol J455/J555.

Geol 556 **Geological Reaction Rates and Diffusion** (3 cr). See Geol J456/J556.

Geol 557 **High-Temperature Aqueous Geochemistry I** (3 cr). See Geol J457/J557.

Geol 558 **High-Temperature Aqueous Geochemistry II** (3 cr). See Geol J458/J558.

Geol WS560 **Advanced Igneous Petrology** (3 cr). WSU Geol 560.

Geol WS563 **Igneous Petrogenesis** (3 cr). WSU Geol 563.

Geol ID565 **Metamorphism** (3 cr). WSU Geol 565. Metamorphic minerals, rocks, processes, and facies; polymetamorphic rocks; recent developments in structural geometry. Two lec and one 3-hr lab a wk; one 2-day field trip.

Geol 567 **Volcanic Geology** (3 cr). See Geol J467/J567.

Geol WS571 **Geochemistry of Hydrothermal Ore Deposits** (3 cr). WSU Geol 571.

Geol WS573 **Advanced Topics in Economic Geology** (2 cr). WSU Geol 573. Alt/yrs.

Geol ID575 **Advanced Mineral Deposits I** (3 cr). WSU Geol 561. Ore mineralogy and fabric; sulfide phase equilibria.

Geol 576 **Advanced Mineral Deposits I Lab** (1 cr). Identification of ore minerals; their textures, association, and paragenesis. One 3-hr lab a wk.

Geol 577 **Advanced Mineral Deposits II** (3 cr). Modern concepts of the origin and geochemistry of metallic mineral deposits. Two lec and one 3-hr lab a wk; one 3-day field trip.

Geol 578 **Low Temperature Aqueous Geochemistry** (3 cr). See Geol J478/J578.

Geol WS581 **Petrologic Geochemistry** (2 cr). WSU Geol 581.

Geol WS583 **Introductory Geochemistry** (3 cr). WSU Geol 480. Alt/yrs.

Geol 584 **Advanced Geochemistry** (3 cr). See Geol J484/J584.

Geol 586 **Advanced Geochemical Exploration** (3 cr). Theory and use of colorimetric and instrumental analytical methods in mineral exploration; primary and secondary dispersion patterns; endogenous and exogenous behavior of individual elements. Two lec and one 3-hr lab a wk. Prereq: Geol 485.

Geol 587 **Instrumental Techniques in Geochemistry** (3 cr). Modern instrumentation, including x-ray fluorescence, gas chromatography, electron microprobe, atomic absorption, infrared and Mossbauer spectrometry applied to geochemical problems. Two lec and one 3-hr lab a wk. Prereq: perm.

Geol ID588 **Isotope Geology** (4 cr). See Geol J488/J588.

Geol 589 **Water Resources Seminar** (1 cr). See Inter 589.

Geol WS592 **Interdisciplinary Research Topics in Geology** (1-4 cr, max 6). WSU Geol 592.

Geol 596 **Advanced Photogeology** (3 cr). New research techniques; use of special photographic and remote sensor imagery, such as color, infrared color, and multispectral scanner imagery, including satellite photos. One lec and two 3-hr labs a wk. Prereq: perm.

Geol 597 (s) **Practicum** (cr arr). Prereq: perm.

Geol 598 (s) **Internship** (cr arr). Prereq: perm.

Geol 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Geol 600 **Doctoral Research and Dissertation** (cr arr).

GEOPHYSICS

Geoph J420/J520 **Exploration Geophysics** (3 cr). Design and interpretation of geophysical surveys for exploration of metallic and nonmetallic mineral deposits; use of geophysics to solve exploration problems. Additional projects/assignments reqd for grad cr. Prereq: perm.

Geoph 421 **Engineering Geophysics** (3 cr). See Min 421.

Geoph 422 **Principles of General Geophysics** (3 cr). Same as Min 422. Outline of geophysical methods used to investigate earth's interior. One 1-day field trip. Prereq: perm.

Geoph J423/J523 **Seismic Stratigraphy** (3 cr). Intro to seismic exploration with emphasis on stratigraphic interpretation; solution of geologic problems using seismic techniques; design of seismic surveys. Additional projects/assignments reqd for grad cr. Prereq: perm.

Geoph 499 (s) **Directed Study** (cr arr). Prereq: perm.

Geoph 500 **Master's Research and Thesis** (cr arr).

Geoph 501 (s) **Seminar** (cr arr). Prereq: perm.

Geoph 502 (s) **Directed Study** (cr arr). Prereq: perm.

Geoph 520 **Exploration Geophysics** (3 cr). See Geoph J420/J520.

Geoph 521 **Mining Geophysics** (3 cr). See Min 520.

Geoph 523 **Seismic Stratigraphy** (3 cr). See Geoph J423/J523.

HYDROLOGY

Hydro 491 **Waste Management** (3 cr). See Geol 491.

Hydro 500 **Master's Research and Thesis** (cr arr).

Hydro 501 (s) **Seminar** (cr arr). Graded P/F. Prereq: perm.

Hydro 502 (s) **Directed Study** (cr arr). Prereq: perm.

Hydro 503 (s) **Workshop** (cr arr). Prereq: perm.

Hydro 563 **Hydrogeology** (3 cr). Same as GeolE 563. Equations governing single fluid flow through saturated porous media under various geologic conditions; models, general relations between flow systems and water quality, and between surface and ground water. Prereq: Geol 409, Math 200, or perm.

Hydro ID&WS566 **Geochemistry of Ground Water** (3 cr). WSU C E and Geol 579. Nature and origin of dissolved constituents in ground water; modification of ground water quality through mineral processes and by human activities. Two lec and one 2-hr lab a wk. Prereq: Geol 409 or perm.

Hydro 568 **Advanced Hydrogeology** (3 cr). Analysis of problems that have confronted the geohydrologist since the inception of quantitative methods. Prereq: Hydro 563.

Hydro 569 **Contaminant Hydrogeology** (3 cr). Characteristics of contaminant migration in ground water systems including analysis of field problems. Prereq: Hydro 566.

Hydro ID572 **Ground Water Management** (3 cr). WSU C E 578. Hydrologic, economic, and legal factors controlling development and management of ground water resources.

Hydro ID575 **Design and Construction of Water Wells** (3 cr). WSU C E 506. Analysis of geologic and engineering factors important in design, construction, operations, and maintenance of water wells.

Hydro 577 **Computer Applications in Geohydrology** (3 cr). Numerical modeling of groundwater systems with particular emphasis on finite difference methods. Prereq: Geol 409, CS 105, or perm.

Hydro 579 **Hazardous Waste Site Remediation Design** (3 cr). See ChE 579.

Hydro 597 (s) **Practicum** (cr arr). Prereq: perm.

Hydro 598 (s) **Internship** (cr arr). Prereq: perm.

Hydro 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

GEOLOGY (B.S.Geol.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Geol 106, 107 Historical Geology & Lab	4
Geol 111 Physical Geology for Science Majors	4
Geol 212 Principles of Paleontology	4
Geol 249 Mineralogy & Optical Mineralogy	5
Geol 261 Survey of Rocks	2
Geol 301 Field Geology & Report Writing	6
Geol 335 Geomorphology	3
Geol 344 Geologic Spatial Methods	1
Geol 345 Structural Geology	3
Geol 386 Principles of Geochemistry	3
Geol 423 Stratigraphy & Sedimentary Petrography	3
Geol 425 Sedimentology	3
Geol 466 Igneous & Metamorphic Rocks	4
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Eng 313 Business Writing or 317 Technical & Engineering Report Writing	3
Geoph 420 Exploration Geophysics or Geoph 422 Prin of General Geophysics	3
Math 160 Survey of Calculus	4
One course chosen from Math 176, 180, 190, 215, 326, 330, or Stat 251	3-4
Phys 113-114 and 115-116 General Physics & Lab (or 210, 211, and 212-213)	8

And the completion of one course in computer programming, one of the areas of emphasis A, B, C, or D below, and electives approved by adviser to total 128 credits for the degree.

A. GENERAL GEOLOGY EMPHASIS

Twenty-five additional credits with adviser's approval beyond the required courses are to be selected from engineering, biology, chemistry, math, physics, or upper-division College of Mines and Earth Resources courses.

B. ACADEMIC MINOR EMPHASIS

Complete the requirements of any approved academic minor, plus electives approved by adviser to a total of 27 credits. A list of approved minors may be obtained from the departmental office.

C. ENVIRONMENTAL GEOLOGY EMPHASIS

Course	Credits
Geol 360 Geologic Hazards or GeolE 435 Geol Engr Principles	3
Geol 361 Geology & the Environment	3
Geol 409 Ground Water	3
Geol 410 Techniques of Ground Water Study	3
Geol 490 Mineral Resource Wastes & Mine Hydrology	3
or 491 Waste Management	3

D. MINERAL EXPLORATION GEOLOGY EMPHASIS

Course	Credits
Geol 476 Design of Exploration Programs	3
Geol 485 Geochemical Exploration	3
GeolE 475 Mineral Deposits	4
Min 350 Mineral Economics	3

GEOLOGICAL ENGINEERING (B.S.Geol.E.)

As part of a cooperative program with Oregon State University, Oregon resident students may enroll in this program and will not be charged out-of-state tuition by UI.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
GeolE 301 Field Geology & Report Writing	6
GeolE 407 Rock Mechanics	3
GeolE 409 Ground Water	3
GeolE 428 Geostatistics	3
GeolE 430 Site Testing & Evaluation or GeolE 485 Geochemical Exploration	3
GeolE 435 Geological Engineering Principles	3
GeolE 436 Geological Engineering Design or GeolE 476 Design of Exploration Programs	3
GeolE 475 Mineral Deposits or CE 360 Engineering Properties of Soils	3-4
Geol 111 Physical Geology for Science Majors	4
Geol 260 Survey of Minerals	2
Geol 261 Survey of Rocks	2
Geol 335 Geomorphology	3
Geol 345 Structural Geology	3
Geol 425 Sedimentology	3
ChE 321 Engineering Thermodynamics & Heat Transfer	3
Chem 111, 114 Principles of Chem & General Chem	8
CE 210 Engineering Statics	3
CE 211 Engineering Measurements	3
CE 320 Engineering Fluid Mechanics	3
CS 105 FORTRAN Programming for Engineers	2
Eng 317 Technical & Engineering Report Writing	3
Geoph 421 Engineering Geophysics or Geoph 420 Exploration Geophysics	3
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 310 Ordinary Differential Equations	3
ME 220 Engineering Dynamics	3
ME 340 Engineering Mechanics of Materials	3
Min 352 Project Investment Analysis & Management	3
Phys 210-211-212-213 Engineering Physics & Lab	8
Stat 301 Probability & Statistics	3
Humanities and social sciences electives	16
Technical electives from a list approved by dept.	12

The minimum number of credits for the degree is 134.

Academic Minor Requirements

GEOLOGY MINOR

Course	Credits
Geol 101, 102 Physical Geology & Lab	4
Geol 106, 107 Historical Geology & Lab	4
Geol 200 Seminar	1
Electives in geology, geophysics, or geological engineering	12

GEOPHYSICS—see Department of Geology and Geological Engineering

GERMAN—see Department of Foreign Languages and Literatures

GREEK—see Department of Foreign Languages and Literatures

Division of Health, Physical Education, Recreation and Dance

Calvin W. Lathen, Div. Director and Coordinator of Recreation (101 Phys. Ed. Bldg.; 208/885-7921). Faculty: Damon D. Burton, Jess D. Caudillo, Dennis Dolny (Coordinator, Sport Science), Charles H. Hammersley, Bonnie J. Hultstrand (Coordinator, Physical Education), Glenn Kastrinos, Calvin W. Lathen, Dwaine J. Marten (Coordinator, Health and Safety), Karyn R. Nelson, Randy M. Page, Sharon K. Stoll, Charles J. Thompson (Coordinator, Basic Instruction), Diane B. Walker (Director, Center for Dance).

The Division of Health, Physical Education, Recreation and Dance is one of three divisions and two departments in the College of Education. The division offers a Ph.D. in education with tracks in sport pedagogy and in physical education; master's degrees in recreation and physical education; baccalaureate degrees in dance, physical education, recreation, and sport science; several minors and options; basic instruction in numerous activities, and leisure activities through Campus Recreation.

The activity portion of the program is supported by outstanding facilities, which include three gymnasias, two dance studios, two pools, eight indoor tennis courts, ten racquetball courts, indoor and outdoor tracks, weight rooms, fitness trail, climbing wall and rope course, and expansive field and play areas.

The baccalaureate degree in dance is designed to give the student professional training in teaching, performing, choreography, and concert production. The Festival Dance and Performing Arts Association maintains a residency program with the division.

The baccalaureate degree in physical education leads to elementary and secondary teaching certification and provides a foundation for athletic coaching. Physical education is concerned primarily with the art and science of human movement, principles and concepts relating to skill acquisition and analysis, the effects of exercise on the body, and concepts relating to total fitness.

The baccalaureate degree in recreation prepares the student for recreation leadership roles in municipalities, agencies, institutions, and private industry. Students enrolled in this program complete a summer recreation internship. Recreation students specialize by completing a university-approved academic minor.

The baccalaureate degree in sport science prepares students to work in the general areas of sport, and corporate, clinical, or private wellness programming. It is for students interested in professional opportunities that do not require teacher certification. A summer internship at a corporate, clinical, or sport facility is included.

Academic and teaching minors offered by the division include: health education, health and driver education, dance, recreation, therapeutic recreation, outdoor recreation leadership, tourism and leisure enterprises, elementary physical education, secondary physical education, fitness/wellness, coaching, and athletic training.

Master's degree tracks include sport or dance pedagogy, sport science, and sport psychology in physical education and sport and recreation management in recreation. A 2.8 undergraduate grade-point average is required for admission. Doctoral admission requirements can be obtained from the College of Education.

Courses

DANCE

Dan 105 (s) **Dance** (1 cr, max arr). Same as PE 105. Modern, folk, ballet, jazz, square, and social dancing. Two hrs a wk. Graded P/F.

Dan 112 **Recreational Dance Forms** (2 cr). Folk, square, social dance skills, cultural influences; basic teaching methods; dance in education and recreation.

Dan 113 **Problems in Dance Composition** (1 cr, max 4). Various styles, choreography, movement quality, music, costuming, and staging. Two hrs a wk. Prereq: Dan 105 or perm.

Dan 200 (s) **Seminar** (cr arr). Prereq: perm.

Dan 203 (s) **Workshop** (cr arr). Prereq: perm.

Dan 204 (s) **Special Topics** (cr arr). Prereq: perm.

Dan 210 **Dance Theatre** (1-2 cr, max 8). Open to all students. Stagecraft; dance styles including modern, jazz, ballet, tap. Two hrs of company class a wk plus additional rehearsals leading to performance. Prereq: dance experience.

Dan 220 **Children's Dance** (2 cr). Alt/yrs. Methods and resource material for teaching recreational and creative dance to elementary school child and integrating dance into elementary school curriculum.

Dan 299 (s) **Directed Study** (cr arr). Prereq: perm.

Dan 320 **Labanotation** (3 cr). Alt/yrs. Intro to methods of notating movement; notating and reading basic elements of motif writing and Labanotation.

Dan 321 **Dance Pedagogy** (3 cr). ^{Alt/yrs} Learning styles, teaching styles, and behaviors as they affect teaching and learning in dance; science of dance training.

Dan 325 **Dance Production** (3 cr). Alt/yrs. Organization and production of dance concerts; program planning, marketing, management, costume design, staging the production.

Dan 383 **Dance Composition** (1-2 cr, max 6). Improvisation and choreography using basic composition elements; advanced exploration of choreographic procedures and performance. Prereq: Dan 105 (modern I) and perm.

Dan 400 (s) **Seminar** (cr arr). Prereq: perm.

Dan 403 (s) **Workshop** (cr arr). Prereq: perm.

Dan 404 (s) **Special Topics** (cr arr). Prereq: perm.

Dan 410 **Pre-professional Dance Theatre** (1-2 cr, max 8). Advanced work in choreography and performance. Two hrs of company class a wk plus additional rehearsals leading to performance. Prereq: Dan 210, 325, 383.

Dan 420 **Dance Accompaniment** (3 cr). Recorded music, percussion, and electronic accompaniments used for contemporary dance. Prereq: ~~perm. music 100, music 145~~

Dan 421 **Dance History** (3 cr). Development of theatrical, social, and educational dance from primitive to contemporary styles. Prereq: perm.

Dan 433 **Practicum: Dance Teaching** (7 or 14 cr). Supervised teaching in grades 1-12; two-thirds of experience in secondary schools. Graded P/F. Prereq: Ed 314, special methods in subject area, cumulative GPA of 2.50, and perm of dept. (Submit application via director of Center for Dance to director of clinical experiences in teacher education by December 1 of school yr before enrolling.)

Dan 498 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Dan 499 (s) **Directed Study** (cr arr). Prereq: perm.

HEALTH & SAFETY

H&S 150 **Wellness Lifestyles** (3 cr). Health concepts and strategies that affect one's wellness; emphasis on personal responsibility and life-style choices.

H&S 200 (s) **Seminar** (cr arr). Prereq: perm.

H&S 203 (s) **Workshop** (cr arr). Prereq: perm.

H&S 204 (s) **Special Topics** (cr arr). Prereq: perm.

H&S 245 **Introduction to Athletic Injuries** (3 cr). Special fee course. Athletic training; recognition, evaluation, general care of athletic injuries; adhesive strapping. Two lec and one lab a wk.

H&S 288 **First Aid** (2 cr). Emergency care of injuries resulting from accidents or illness; advanced Red Cross first aid card given.

H&S 289 **Drugs in Society** (2 cr). Legal implications, values, and physical, social, and emotional factors involved in the use and abuse of drugs in society.

H&S 299 (s) **Directed Study** (cr arr). Prereq: perm.

H&S 316 **School and Community Health Services** (2 cr). Alt/yrs. Health services as they apply to the school, community health environment, and culture variables, with emphasis on public and volunteer organizations. Prereq: H&S 150.

H&S 323 **Health Education Methods and Administration** (3 cr). Curriculum design, organization, strategies, and resource materials for teaching health in a multi-culture setting. Prereq: H&S 150.

H&S ID349 **Advanced Athletic Injuries** (3 cr). Special fee course. Etiologic symptoms of sports-related injuries; diagnostic emphasis given to specific injuries of the extremities. Two lec and one lab a wk. Prereq: H&S 245 or perm.

H&S 350 **Stress Management and Mental Health** (2 cr). Application of behavioral stress management techniques that have the potential to relieve mental and physical stress; emphasis on development of skills related to mental and physical health.

H&S 355 **Accident Control, Prevention, and Human Ecology** (2 cr). Alt/yrs. The study of accidents, accident prevention, and injury control in variety of settings within society; emphasis on human resources impact.

H&S 400 (s) **Seminar** (cr arr). Prereq: perm.

H&S 403 (s) **Workshop** (cr arr). Prereq: perm.

H&S 404 (s) **Special Topics** (cr arr). Prereq: perm.

H&S 410 **Athletic Rehabilitation and Administration** (2 cr). Rehabilitation techniques for reconditioning following specific injuries and surgeries; administrative topics include facilities, budgeting, and legalities.

H&S J436/J536 **Health and Wellness Promotion** (3 cr). Theoretical and programmatic aspects of health promotion/wellness programs in workplace and community; investigation of marketing, mass media, and health behavior change approaches; review of research on smoking cessation, weight control, nutrition, fitness, hypertension, and stress management programs. Additional projects reqd for grad cr. Prereq: H&S 150.

H&S 440 Driver Education I (3 cr). Methods, organization, and administrative techniques; development of habits, attitudes, knowledge, and skills. Prereq: valid driver's license and perm.

H&S 449 Driver Education II (3 cr). Special fee course. Continuation of H&S 440. Advanced preparation in principles and practice of driver and traffic safety education for teachers, supervisors, and administrators; emphasis on new and broader teaching competencies in traffic safety. Lab work and safety projects reqd. In addition to lec, 6-10 hrs of practicum reqd during semester. Prereq: H&S 440, valid driver's license, satisfactory driving record, and perm.

H&S J450/J550 Contemporary Issues in Health (2 cr). Current trends and issues affecting individual's and society's decisions regarding personal and environmental health. Term project reqd for grad cr.

H&S WS465 Medical Aspects of Athletic Injuries (2 cr).

H&S WS466 Athletic Training: Evaluation (2 cr).

H&S WS467 Athletic Training: Rehabilitation (2 cr).

H&S WS468 Athletic Training: Modalities (2 cr).

H&S WS469 Athletic Training: Trends and Issues (2 cr).

H&S 495 Internship in Health/Safety (cr arr). Supervised field work. Graded P/F. Prereq: Rec 445 and sr standing.

H&S 498 Practicum in Tutoring (1 cr, max arr). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

H&S 499 (s) **Directed Study** (cr arr). Prereq: perm.

H&S 501 (s) **Seminar** (cr arr). Prereq: perm.

H&S 502 (s) **Directed Study** (cr arr). Prereq: perm.

H&S 503 (s) **Workshop** (cr arr). Prereq: perm.

H&S 504 (s) **Special Topics** (cr arr). Prereq: perm.

H&S 505 (s) **Professional Development** (cr arr). Cr earned in this course will not be accepted toward grad degree programs. Prereq: perm.

H&S 536 Health and Wellness Promotion (3 cr). See H&S J436/J536.

H&S 550 Contemporary Issues in Health (2 cr). See H&S J450/J550.

H&S 592 The School Health Program (3 cr). For teachers and administrators. Well-balanced health program; organization and administration; health services, healthful school living, and health instruction.

PHYSICAL EDUCATION

ACTIVITY COURSES

Note: PE 105, 106, 107, and 108 may be repeated for cr if the student engages in a different activity or level of the same activity. Practical tests may be given at the beginning of the semester to determine the student's level of ability.

PE 105 (s) **Dance** (1 cr, max arr). See Dan 105.

PE 106 (s) **Individual and Dual Sports** (1 cr, max arr). Bowling, racket sports, fencing, golf, gymnastics, conditioning, backpacking, cycling, cross-country skiing, etc. Two days of field trips may be a part of the course requirements for such activities as backpacking, cycling, etc. Two hrs a wk. Graded P/F.

PE 107 (s) **Team Sports** (1 cr, max arr). Field sports, volleyball, basketball, and softball. Two hrs a wk. Graded P/F.

PE 108 (s) **Swimming** (1 cr, max arr). All levels of proficiency, including WSI, lifeguarding, diving, and scuba. Two hrs a wk. Graded P/F.

PROFESSIONAL COURSES

PE 112 Skill and Analysis: Archery and Bowling (1 cr). Skill development and knowledge of teaching progressions, techniques, and analysis of skills and common errors in archery and bowling. Two lec-labs a wk.

PE 113 Skill and Analysis: Badminton/Racquet Sports (1 cr). Skill development and knowledge of teaching progressions, techniques, and analysis of skills and common errors in badminton; units on other racquet sports. Two lec-labs a wk.

PE 114 Skill and Analysis: Basketball (1 cr). Skill development and knowledge of teaching progressions, techniques, and analysis of offensive and defensive skills and strategy in basketball. Two lec-labs a wk.

PE 115 Skill and Analysis: Golf (1 cr). Skill development and knowledge of teaching progressions, techniques, and analysis of correction of the golf stroke and game. Two lec-labs a wk.

PE 116 Skill and Analysis: Soccer and Speedball (1 cr). Skill development and knowledge of teaching progressions, techniques, and analysis of offensive and defensive skills and strategy in soccer and speedball. Two lec-labs a wk.

PE 117 Skill and Analysis: Tennis (1 cr). Skill development and knowledge of teaching progressions, techniques, and analysis of skills and common errors in tennis. Two lec-labs a wk.

PE 118 Skill and Analysis: Track and Field (1 cr). Skill development and knowledge of teaching progressions, techniques, analysis, and correction of skills in track and field. Two lec-labs a wk.

PE 119 Skill and Analysis: Volleyball (1 cr). Skill development and knowledge of teaching progressions, techniques, and analysis of skills and strategy in volleyball. Two lec-labs a wk.

PE 120 Skill and Analysis: Wrestling (1 cr). Skill analysis, skill development, and teaching techniques in wrestling. Two lec-labs a wk.

PE 122 Skill and Analysis: Softball (1 cr). Skill development and knowledge of teaching progressions, techniques, and common errors in softball. One lec and 1 hr of lab a wk.

PE 123 Survey of Field Sports (1 cr). Intro to variety of field sports and activities found in various school curricula. One lec and 1 hr of lab a wk.

PE 124 Survey of Outdoor Pursuits (1 cr). Intro to fundamentals of outdoor activities, including how to incorporate them into a school curriculum. One lec and 1 hr of lab a wk.

PE 160 Foundations of Physical Education and Education (3 cr). Education and physical education, sport, and fitness aims, objectives, overview of principles, historical development, including current trends and issues.

PE 200 (s) **Seminar** (cr arr). Prereq: perm.

PE 201 Fitness Activities and Concepts (2 cr). Topics related to individual fitness development; focus on development of personal skills in presenting and teaching fitness activities for public and private sector programs. Two lec and 1 hr of lab a wk.

PE 202 Skill and Analysis: Tumbling and Gymnastics (2 cr). Skill analysis, skill development, spotting, and teaching techniques in tumbling and gymnastics. Four lec-labs a wk.

PE 203 (s) **Workshop** (cr arr). Prereq: perm.

PE 204 (s) **Special Topics** (cr arr). Prereq: perm.

PE 220 Coaching Youth Sports (1 cr). Practical, hands-on introduction to basics of youth sports coaching; basics of developing appropriate coaching philosophy; how such sports sciences as sport psychology, sport pedagogy, sport physiology, sport medicine, sport law, and sport management help to effectively implement athlete-centered approach to coaching; students participate in six-week practicum and receive feedback on how to improve their coaching. Two lec a wk.

PE 240 Elementary School Physical Education (3 cr). Current theory in curriculum and teaching methods with practical applications in lab and field experience. Four hrs of lec-lab a wk. Prereq: Dan 112.

PE 243 Recreation Activities (2 cr). See Rec 243.

PE 244 Lifeguarding (2 cr). Trains individuals to lifeguard at swimming pools and nonsurf, open water beaches; Standard First Aid and CPR Certification reqd to receive Red Cross Lifeguarding Certification. One field trip. Prereq: intermediate swimming or perm.

PE 250 Elementary Physical and Health Education (3 cr). Content, methods, and materials in elementary school physical education and health for classroom teachers. Four hrs of lec-lab a wk.

PE 260 Motor Learning (3 cr). Various physical, psychological, and neurological factors as they influence the acquisition of motor skills. Four hrs of lec-lab a wk. Prereq: Zool 119 or perm.

PE WS261 Human Anatomy (3 cr). WSU PEP 262.

PE 266 Aquatic Instructor's Course (2 cr). Methods. Students passing Red Cross standards will receive instructor's certificate. Prereq: certificate in lifeguarding or emergency water safety and pass swimming skills pre-test.

PE 271 Interpretation of Physical Education, Health, and Recreation (3 cr). Importance of these related fields to general education from the Greeks to the present day.

PE J275/J475 Moral Reasoning in Sport (2 cr). Current ethical issues in sport, such as performance-enhancing drugs, mechanization, cheating, eligibility; challenges students to creatively examine their beliefs. Additional projects/assignments reqd for cr in PE 475.

PE WS290 Sport Program (3 cr). WSU SpMgt 290.

PE 299 (s) **Directed Study** (cr arr). Prereq: perm.

PE 300 Human Kinesiology (2 cr). Anatomical and mech analysis of human movement in sport and exercise. Three hrs of lec-lab a wk. Prereq: Zool 119.

PE 305 Applied Sports Psychology (3 cr). Overview of key psychological issues in physical education and sport including competition, personality, anxiety, motivation, self-confidence, imagery, and stress management; practical applications of psychological concepts of youth sports and development of key psychological skills for competition.

PE 310 Cultural and Philosophical Aspects of Sport (2 cr). Analysis of philosophical and sociological phenomenon in sport.

PE 320 Methods and Materials in Physical Education (3 cr). Study and application of teaching methods and teaching behavior; structuring learning outcomes through performance objectives; lesson and unit planning. Prereq: PE 240, 260; coreq: PE 321.

PE 321 Physical Education Teaching Lab (1 cr). Application of teaching styles and analysis of teaching behavior. Graded P/F.

PE 322 Teaching Individual Sports (2 cr). Methods for majors and minors.

PE 323 Teaching Team Sports (2 cr). Methods for majors and minors. Prereq: PE 322.

PE 380 Measurement and Evaluation (3 cr). Evaluation and interpretation of tests used for physical performance evaluation; application of basic statistical procedures. Three hrs of lec-lab a wk.

PE 400 (s) Seminar (cr arr). Prereq: perm.

PE 403 (s) Workshop (cr arr). Prereq: perm.

PE 404 (s) Special Topics (cr arr). Prereq: perm.

PE J405/J505 Professional Development (cr arr). Cr earned may not be applied toward grad degree programs but may be accepted for fifth-yr certification. Professional development in physical education and sport professional personnel. Additional projects/assignments reqd for grad cr.

PE 418 Physiology of Exercise (3 cr). Effects of physical activity on the circulatory, respiratory, and other systems. Two lec and one 2-hr lab a wk. Prereq: Zool 119.

PE 424 Physical Education for Special Populations (3 cr). Adapting physical education programs to meet individual needs. Lec and lab. Prereq: Basic Water Safety or Emergency Water Safety and Ed 314.

PE 431 Practicum: Elementary and Secondary Student Teaching (7 or 14 cr). Cr earned in this course may not be applied to total cr needed for a PE teaching major. Supervised student teaching at elementary and secondary levels. Double majors select the 7-cr option; all other students select 14 cr divided between elementary and secondary level. Graded P/F. Prereq: admission to teacher education, PE 240, 320, 321, Ed 312, 314, cumulative GPA of 2.5, and perm of dept. (Submit application to director of clinical experiences in the College of Education by December 1 of school year before enrolling.)

PE 440 Physical Education and Sport Management (3 cr). Curriculum, programming, organization, and administration of school physical education and intramurals; field experience.

PE 450 Coaching Clinic (1-2 cr, max 2). Alternate summers. Procedures and techniques in coaching high school and college sports. Consult the summer bulletin for information.

PE 460 Competition and Social Values (3 cr). Competition as it is presently perceived in America today; what it should be and could be in the ethical domain.

PE WS466 Athletic Training Evaluation (2 cr). WSU PEP 466.

PE J467/J567 Therapeutic Recreation for People with Developmental Disabilities (3 cr). See Rec 467.

PE 470 Sport and Athletic Business Ethics (3 cr). Study of ethics, values, and capitalism as it focuses on global question of sport and athletics in America.

PE 475 Moral Reasoning in Sport (2 cr). See PE J275/J475.

PE WS-J477/WS-J577 School Law and Athletics (3 cr). WSU PEP 477/577.

PE 480 Seminar in Sportsmanship: Moral Development (3 cr). Philosophic and psychological study of moral development and resultant effect on moral value education in sport.

PE J493/ID-J593 Fitness Assessment and Prescription (3 cr). WSU PEP 568. Development of skills in exercise testing, data interpretation, and prescription for health related fitness. Cr earned in PE 593 by completion of additional projects/assignments. Two lec and 2 hrs of lab a wk. Prereq: PE 418 or perm.

PE 495 Internship in Physical Education (9 cr). Supervised field work. Graded P/F. Prereq: jr standing and Rec 445.

PE 497 Athletic Program Management (3 cr). Scheduling, facilities, equipment, maintenance, budgeting, and public relations in the school.

PE 498 Practicum in Tutoring (1 cr, max arr). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

PE 499 (s) Directed Study (cr arr). Prereq: perm.

PE 500 Master's Research and Thesis (cr arr).

PE 501 (s) Seminar (cr arr). Prereq: perm.

PE 502 (s) Directed Study (cr arr). Prereq: perm.

PE 503 (s) Workshop (cr arr). Prereq: perm.

PE 504 (s) Special Topics (cr arr). Prereq: perm.

PE 505 Professional Development (cr arr). See PE J405/J505.

PE 506 Foundations of Motor Skills (3 cr). Application of psychological, kinesiological, and mechanical principles for an understanding of motor activity.

PE 508 Motor Development (3 cr). Study of changes in human movement associated with aging with emphasis on changes in children from 4 to 18 years of age. Two lec and 2 hrs of lab a wk.

PE 518 Advanced Physiology of Exercise (3 cr). Principles and methods essential to the experimental approach to physiological performance problems. Two lec and one lab a wk.

PE 519 Biomechanics of Sport (3 cr). Quantitative study of human movement examining internal and external forces acting on the body and the resultant limitations to motor behavior.

PE 520 History of Physical Education and Sport (3 cr). Cultural, philosophical, and comparative study of physical education and sport throughout civilization; emphasis on background influences on U.S. program.

PE 522 Pedagogy Applied to Physical Education (3 cr). Study and analysis of teaching strategies and behaviors as they affect teaching and learning in physical education.

PE 544 Program Development (3 cr). Developing physical education and sport program; emphasis on new methods and curriculum content. Two days of field trips may be reqd.

PE 550 Sport in Society (3 cr). Sociological aspects of sport with emphasis on cultural impact of sport on society and vice versa; economics and politics of sports as they apply in American society.

PE 560 Sport Psychology (3 cr). Individual differences as they apply to sport performance; emphasis on aggression, affiliation, motivation, and personality traits of sport participant.

PE 561 Motivation in Sport and Recreation (3 cr). Practical, hands-on course designed to teach basics of motivation to physical educators, coaches, and recreation professionals; major achievement motivation theories and primary antecedents and consequences of motivated behavior; five major motivational enhancement strategies including goal setting, personal science, competition, feedback, and reinforcement; guidelines for maximizing effectiveness; analysis of applied motivation questions such as dropouts/burnouts, peak performance, exercise adherence, injury rehabilitation, increasing enjoyment, designing reward systems, and positive parental involvement.

PE WS564 Mechanical Analysis of Motor Activity (3 cr). WSU PEP 564.

PE WS566 Biomechanics (3 cr). WSU PEP 566.

PE 567 Therapeutic Recreation for People with Developmental Disabilities (3 cr). See Rec J467/J567.

PE 570 Ethics in Physical Education and Sport (3 cr). Problem solving approach to current ethical problems in leisure, physical education, and sport.

PE 571 Motor Evaluation of Handicapped (3 cr). Evaluation of motor ability of handicapped children using various test devices; scoring of tests, interpreting results, and planning remedial programs.

PE 572 Program Application in Physical Education and Recreation for the Handicapped (3 cr). Development of appropriate programs in physical education for handicapped people; emphasis on planning for all children with use of individualized education program.

PE WS577 School Law and Athletics (3 cr). See PE J477/J577.

PE 581 Research in Physical Activity, Theory, and Design (1-6 cr, max 6). Principles of scientific inquiry; application to the study of physical activity; individual research projects.

PE 583 Qualitative Research Methods (3 cr). Qualitative research methods including the way data are collected, methods for assuring quality of data, techniques for organizing results, conclusions and interpretations. Two lec and 2 hrs of lab a wk.

PE WS584 Teaching Strategies (3 cr). WSU PEP 583.

PE 591 Philosophical Influences in Sport (3 cr). Use of the philosophical process in analyzing problems and issues in leisure and sport.

PE WS592 Motor Learning (3 cr). WSU PEP 591.

PE ID593 Fitness Assessment and Prescription (3 cr). See PE J493/J593.

PE 597 (s) Practicum (cr arr). Application of theories and techniques. Graded P/F. Prereq: perm.

PE 598 (s) Internship (cr arr). Supervised field experience in an appropriate public or private agency. Graded P/F. Prereq: perm.

PE 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

PE 600 Doctoral Research and Dissertation (cr arr).

RECREATION

Rec 102 Introduction to Recreation Professions (1 cr). Intro to recreation and its related management problems, resources, and professional opportunities. Graded P/F.

Rec ID110 Recreation for Special Populations (3 cr). WSU RLS 110. Overview of recreation for special populations with emphasis on history, etiology, characteristics, services, resources, professional competencies and opportunities, and recreation programs. Two 1-day field trips may be reqd.

Rec 125 Outdoor Leisure Pursuits (2 cr). Focus on wide range of outdoor leisure pursuits available in America, the public and private entities that administer them, and changes that increasing demand will necessitate in the future. Field trips reqd.

Rec WS181 Introduction to Hospitality Services Industries (3 cr). WSU H A 181.

Rec 200 (s) Seminar (cr arr). Prereq: perm.

Rec 203 (s) Workshop (cr arr). Prereq: perm.

Rec 204 (s) Special Topics (cr arr). Prereq: perm.

Rec 220 Rock Climbing (1 cr). Alt/yrs. Intro to fundamentals of basic rock climbing including: equipment, climbing techniques, knots, belaying, and rappelling; emphasis on skill development, risk management, and leadership. Three off-campus field sessions.

Rec 221 Mountaineering (2 cr). Alt/yrs. Intro to fundamentals of mountaineering including: equipment; fundamentals; rock, snow, and ice techniques; climbing equipment; navigation; expedition planning and safety; emphasis on skill development and safety. One 3-day field trip. Prereq: Rec 220 or perm of instructor.

Rec 222 Cross Country Skiing (1 cr). Alt/yrs. Intro to skills of cross country skiing including: equipment, waxing, climbing techniques, turns, downhill, and diagonal glides. One 1-day field trip.

Rec 223 Winter Camping (2 cr). Alt/yrs. Intro to fundamental skills reqd to successfully travel in winter environment, including: equipment, trip planning, avalanche awareness, snow shelters, travel techniques, and safety including psychological and physiological aspects of cold/winter weather. One 1-day and one 2-day field trips. Prereq: Rec 222 or perm of instructor.

Rec 224 Whitewater Rafting (1 cr). Alt/yrs. Intro to skills of whitewater rafting including: equipment, trip planning, permits, safety, river hazards and accidents, river reading and water situations, techniques, self rescue, and river impact. One or two field trips.

Rec 225 Kayaking (1 cr). Alt/yrs. Intro to skills of whitewater kayaking including: equipment, eskimo rolls, eddy turns, ferrying, rapid maneuvering, river hazards, and safety/rescue. One 2-day field trip.

Rec ID230 Principles of Therapeutic Recreation (3 cr). WSU RLS 230. Philosophy, design, and development of recreation programs for persons with disabling conditions, as well as theory and rationale of therapeutic recreation. Field experience reqd. Prereq: Rec 110.

Rec WS235 Principles of Tourism (3 cr). WSU H A 235.

Rec 243 Recreation Activities (2 cr). Same as PE 243. Experience in planning, organizing, leading, and evaluating a broad range of games, social recreation, music, drama, arts and crafts, and special events activities.

Rec 254 Camp Leadership (2-3 cr, max 3). Objectives, program, and philosophy of private, organizational, and school camp programs. One 3-4 day field trip.

Rec 255 Backpacking and Camping Skills (2 cr). Lec, disc, dem, and practical applications in backpacking and camping skills. Field trips reqd. Prereq: perm.

Rec 256 Camp Counseling Practicum (2-3 cr, max 3). For camp counselors who are employed by or assigned to approved camps. Cr granted on the basis of one cr for each two wks of camping. Student contracts with instructor for written work. Prereq: perm.

Rec 258 Survival Skills (2 cr). Instruction, analysis, and practice of short- and long-term survival skills; developing student awareness of needs and values of survival training.

Rec 260 Leisure and Society (3 cr). Expanding role of leisure in U.S. life; emphasis on factors influencing leisure; analysis of leisure values as related to the individual and society.

Rec 270 Big Game Hunting Techniques and Safety (2 cr). Intro to safety, equipment, techniques, and ethics of big game hunting.

Rec 275 Computer Applications in Leisure Services (2 cr). Intro to specific computer programs currently used in leisure profession; emphasis on using computer to schedule leagues, facilities, registration, and professional management needs. One lec and 1 hr of lab a wk.

Rec 280 Recreation Practicum (1 cr, max 2). Practical experience in agency recreation and leisure services. Forty clock hrs reqd a cr. Graded P/F. Prereq: perm of adviser.

Rec 299 (s) Directed Study (cr arr). Prereq: perm.

Rec 300 Swimming Pool Management (2 cr). Professional pool and spa operator training that will yield certification through the National Swimming Pool and Spa Foundation. Pool and spa chemistry; plant maintenance and operation; chemical safety; energy considerations; health and safety codes; mechanical aspects of pools and spas. Two 1-day field trips.

Rec 320 Outdoor Recreation Leadership (3 cr). Alt/yrs. Theory and practice of outdoor leadership techniques necessary for successful outdoor leaders. One 2-day field trip. Prereq: Rec 255 and one outdoor recreation skill course or perm.

Rec 321 Wilderness Medicine and Evacuation (1 cr). Alt/yrs. Fundamentals of handling wilderness emergencies; instruction including prevention, recognition, evaluation, treatment, and evacuation of injured people in remote situations. One 2-day field trip.

Rec 329 Leadership in Recreation (3 cr). Intro to theories, methods, and styles of effective leadership; includes motivation, group dynamics, leadership skills, and abilities in the recreation and leisure setting.

Rec ID330 Therapeutic Recreation Programming for People with Disabilities (3 cr). WSU RLS 330. Alt/yrs. Prevalent disabling conditions (including etiology, symptomatology, and characteristics) and their implications for programming intervention in clinical settings. Field trips reqd.

Rec 340 Leisure and Tourism Enterprises (3 cr). Intro to resort and commercial leisure enterprises including history, types of services, trends, careers, and relationship between business and leisure programs, services, and products. Field trips reqd.

Rec 341 Assessment and Evaluation in Therapeutic Recreation (2 cr). Alt/yrs. Standardized assessment and evaluation tools currently used in therapeutic recreation services; integration of assessment practices into therapeutic recreation programs and how to choose standardized tools appropriate to both client and professional setting; practical assessment situations.

Rec 342 Therapeutic Recreation in Psychiatric Settings (3 cr). Alt/yrs. Therapeutic recreation delivery in psychiatric settings, including long-term settings such as state hospitals, acute inpatient psychiatric settings, and community mental health centers; major psychiatric disorders, how to work as a part of an interdisciplinary team, and the viable role of recreation in the treatment process. Ten hrs of outside experience reqd.

Rec 349 Municipal Park Administration and Maintenance (2 cr). Alt/yrs. Prin, practices, and problems involved in public park management; emphasis on maintenance, finances, and administration. Two 1-day field trips may be reqd.

Rec ID365 Leisure and the Aging Process (3 cr). WSU RLS 365. Alt/yrs. Recreation programming for the elderly based on aging process, cultural influences, and psychological and sociological aspects; visitation and field experience reqd.

Rec WS382 Hospitality Management and Organization (3 cr). WSU H A 381.

Rec 400 (s) Seminar (cr arr). Prereq: perm.

Rec 403 (s) Workshop (cr arr). Prereq: perm.

Rec 404 (s) Special Topics (cr arr). Prereq: perm.

Rec J405/J505 Professional Development (cr arr). Cr earned may not be applied toward grad degree program. Professional development and enrichment of recreational professionals. Additional projects/assignments reqd for grad cr.

Rec 410 Trends and Issues in Leisure Services (3 cr). Current trends and issues in recreation and parks field; group discussion; background and experience in solving recreation problems through selected topics of current importance in recreation/parks field.

Rec 420 Experiential Education (2 cr). Philosophy and administration of adventure activities, initiative games, ropes courses, and their application to individual and group development; program development and staff development. Field trips reqd.

Rec 425 Leisure Education (3 cr). Historical and philosophical basis of leisure education and leisure counseling; emphasis on identification of individual interests and attitudes in relationship to recreation and leisure needs; review of existing programs, description of methods, techniques, instruments utilized; methods for developing individual leisure profiles.

Rec ID-J431/J531 Medical Terminology (1 cr). WSU RLS 431. Intro to basic concepts of medical terminology and symbols related to working with people with disabilities. Additional projects/assignments reqd for grad cr.

Rec ID-J435/ID-J535 Clinical Aspects of Therapeutic Recreation (3 cr) (Rec ID-J430/ID-J530). WSU RLS 430. Alt/yrs. Orientation to the practice of therapeutic recreation as a clinical modality; conceptual framework for understanding importance of using activities in the helping process used by TR profession in clinical settings. Cr earned in Rec 530 by completion of additional projects/assignments. Field trip reqd. Coreq: Rec 280.

Rec 445 Professional Seminar (1 cr). Orientation to rec internship, professionalism, and employment techniques including development of a vita and interviewing skills. Graded P/F.

Rec 460 History and Philosophy of Recreation and Leisure (3 cr). Development of recreation movement and its cultural, social, and economic background; philosophies of significant leaders in the field; students develop a personal philosophy of recreation.

Rec ID-J467/ID-J567 Therapeutic Recreation for People with Developmental Disabilities (3 cr). Same as PE J467/J567. WSU RLS 467. Alt/yrs. Programming models for people with developmental disabilities; TR intervention from developmental sequencing to community reintegration; assessment and treatment planning incorporated into lab experience. Cr earned in Rec 567 by completion of additional projects/assignments. Field trip reqd.

Rec J486/J586 Recreation Program Planning and Marketing (3 cr). Planning and development of recreation programs and implementation of marketing techniques. Cr earned in Rec 586 by completion of additional projects/assignments.

Rec J493/J593 Management of Leisure Services (3 cr). Alt/yrs. Planning and development; leadership, facilities, finances, services, and public relations. Cr earned in Rec 593 by completion of additional projects/assignments.

Rec 495 Internship in Recreation (cr arr). Supervised field work with a professional recreation agency. Prereq: Rec 280, 445, and sr standing.

Rec 498 Practicum in Tutoring (1 cr, max arr). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Rec 499 (s) Directed Study (cr arr). Prereq: perm.

Rec 505 Professional Development (cr arr). See Rec J405/J505.

- Rec **531 Medical Terminology** (1 cr). See Rec J431/J531.
- Rec **WS532 Urban Outdoor Recreation** (3 cr). WSU RLS 530.
- Rec **ID535 Clinical Aspects of Therapeutic Recreation** (3 cr). See Rec J435/J535.
- Rec **ID567 Therapeutic Recreation for People with Developmental Disabilities** (3 cr). See Rec J467/J567.
- Rec **586 Recreation Program Planning and Marketing** (3 cr). See Rec J486/J586.
- Rec **593 Management of Leisure Services** (3 cr). See Rec J493/J593.
- Rec **ID594 Sport and Recreation Budget and Finance** (3 cr). WSU RLS 594. Policies and practices involved in acquisition, control, and financial management in sport and recreation agencies. Prereq: Acctg 201 or 395.
- Rec **595 Sport and Recreation Facility Management** (3 cr). Management techniques and philosophies applied to recreation and sport facilities; includes operation, marketing, legislation and legal issues, personnel and technical design and planning. Field trips. Prereq: Bus 311.
- Rec **596 Recreation and Sport Management Behavior** (3 cr). Management behavior and strategies related to recreation and sport agencies, including leadership, supervision, and a variety of administrative issues.
- Rec **597 Computer Applications in Recreation and Leisure Studies** (3 cr). Identifying different computer applications in recreation and leisure fields; acquiring specific computer skills in use of specialized software packages for registration, scheduling, budgeting, and league operations; production of schedules and registration forms.
- Rec **598 (s) Internship** (cr arr). Supervised field experience in an appropriate leisure agency. Graded P/F. Prereq: perm.
- Rec **599 (s) Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

DANCE (B.Dan.)

The curriculum leading to the degree of Bachelor of Dance is designed to give the student professional training in teaching, performing, choreography, and concert production.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Dan 105 Dance (incl modern, ballet, jazz, adv tech)	24-32
Dan 112 Recreational Dance Forms	2
Dan 113 Problems in Dance Composition	2
Dan 210 Dance Theatre	4
Dan 220 Children's Dance	2
Dan 320 Labanotation	3
Dan 321 Dance Pedagogy	3
Dan 325 Dance Production	3
Dan 383 Dance Composition	4
Dan 410 Pre-professional Dance Theatre	4
Dan 420 Dance Accompaniment	3
Dan 421 Dance History	3
Art 101 Visual Art	3
MusC 120 Fundamentals of Music (or 2 semester of piano class)	2
MusH 100 Survey of Music	3
PE 300 Human Kinesiology	2
PE 418 Physiology of Exercise	3
Psych 305 or Ed 312 Developmental or Educational Psychology	2-3
ThA 103 Theatre Technology I	3
ThA 105-106 Basics of Performance	4
ThA 373 Stage Lighting	3
Two of the following courses	6
Eng 111-112 Literature of Western Civilization	
Eng 321 The Novel for Nonmajors	
Eng 325 Contemporary Literature for Nonmajors	
Two of the following courses	2
MusA 114 Individual Instruction (voice or piano)	
MusA 145-146 Piano Class	
MusA 147-148 Voice Class	
MusA 149-150 Voice for Actors	

Recommended electives:

Dance majors planning to qualify for the Standard Secondary-School Teaching Certificate must include college requirements and the following courses among the electives to complete the 128 credits for the degree and should elect Ed 312, Ed Psych, above:

Dan 433 Practicum: Dance Teaching	14
Ed 201 Introduction to Teaching	2
Ed 314 Strategies for Teaching	2-3
Ed 328 Audiovisual Aids	1
Ed 340 Methods of Teaching Content Reading	3
Ed 445 Proseminar in Teaching	3
Ed 468 Historical & Philosophical Foundations of Education	3

PHYSICAL EDUCATION (B.S.Ed.)

The major in physical education leads to certification in grades 1-12. This requires 14 credits of student teaching. Current advanced Red Cross first aid and basic water safety or emergency water safety (or advanced certification) certifications are required on graduation. Students who want K-12 certification must also take Ed 422.

Required course work includes the university requirements (see regulation J-3), general College of Education requirements, and:

Course	Credits
PE 160 Foundations of Physical Education & Education	3
PE 201 Fitness Activities & Concepts	2
PE 202 Skill & Analysis: Tumbling & Gymnastics	2
PE 240 Elementary School Physical Education	3
PE 260 Motor Learning	3
PE 300 Human Kinesiology	2
PE 305 Applied Sports Psych or PE 310 Cultural & Phil Aspects of Sport	2-3
PE 320 Methods & Materials in Physical Education	3
PE 321 Physical Education Teaching Lab	1
PE 380 Measurement & Evaluation	3
PE 418 Physiology of Exercise	3
PE 424 Physical Education for Special Populations	3
PE 440 Physical Education & Sport Management	3
Dan 105 Dance (incl social swing, modern, tap, ballet, jazz, or square)	1
Dan 112 Recreational Dance Forms	2
H&S 150 Wellness Lifestyles	3
H&S 323 Health Education Methods & Administration	3
Zool 119 Human Anatomy & Physiology	5
Skill & Analysis courses: select 6 courses from PE 112, 113, 114, 115, 116, 117, 118, 119, 122	6
Survey courses: select 2 courses from PE 123, 124, 243	2-3

And the satisfactory completion of an approved teaching minor.

NOTE: Students who complete a teaching major in a second field may have the above list of requirements reduced to 30 credits with the approval of the division.

A single-subject 60-credit major in physical education includes the above courses and an approved physical education concentration. See the division office for information on concentrations.

RECREATION (B.S.Rec.)

This curriculum is primarily for students interested in careers in leadership, supervision, or management of recreation agencies.

A minimum cumulative university GPA of 2.25 is required of all recreation majors who seek to take upper-division courses (numbered 300 or above) offered by the Recreation Program Unit. Recreation majors must also achieve a minimum cumulative university GPA of 2.25 to graduate with a B.S.Rec. degree.

Required course work includes the recreation major, the university requirements (see regulation J-3), division requirements, and completion of an academic minor or 20 credits in an approved cognate area of study. Note: Students should contact adviser before registering for courses to satisfy regulation J-3.

Course	Credits
Acctg 201 Introduction to Financial Accounting	3
Bus 250 Microcomputer Software or BusEd 415 Microcomputer Applications	1-3
BLaw 265 Legal Environment of Business	3
Eng 205 Advanced Expository Writing or 313 Business Writing or 317 Technical & Engineering Report Writing	3
Psych 305 Developmental Psychology	3
Four courses selected from PE 105, 106, 107, 112, 113, 114, 115, 116, 117, 118, 119, 201, or 202	4-5
Aquatic course (Lifeguarding/WSI recommended)	1
Current certification in adv first aid and emergency care	
Electives to total 128 cr for the degree	—

Recreation Core:

Rec 102 Introduction to Recreation Professions	1
Rec 110 Recreation for Special Populations	3
Rec 125 Outdoor Leisure Pursuits	2
Rec 260 Leisure & Society	3
Rec 275 Computer Applications in Leisure Services	2
Rec 329 Leadership in Recreation	3
Rec 349 Municipal Park Admin & Maintenance or Rec 340 Leisure & Tourism Enterprises or Rec 330 Therapeutic Recreation Programming for People with Disabilities	3
Rec 365 Leisure & the Aging Process	3
Rec 410 Trends & Issues in Leisure Services	3
Rec 425 Leisure Education	3
Rec 445 Professional Seminar	1
Rec 460 History & Philosophy of Recreation & Leisure	3
Rec 486 Recreation Program Planning & Marketing	3
Rec 493 Management of Leisure Services	3
Rec 495 Internship in Recreation	9
ResRc 310 Leisure Services Research & Evaluation	3
Additional courses selected from the following	5
Rec 243 Recreation Activities	
Rec 254 Camp Leadership	
Rec 300 Swimming Pool Management	
Rec 340 Leisure & Tourism Enterprises (if not chosen above)	
Rec 349 Municipal Park Admin & Maintenance (if not chosen above)	
Rec 420 Experiential Education	

SPORT SCIENCE (B.S.P.E.)

This curriculum is for students interested in professional opportunities that do not require teaching certification. Graduates will be prepared to work in the general areas of sport, corporate, clinical, or private wellness programs, or enter graduate studies.

Required course work includes the university requirements (see regulation J-3), an approved 20-credit cognate area of study, 19-20 credits of other requirements of the Division of Health, Physical Education, Recreation and Dance that support the sport science major (see the division director for necessary courses in the university requirements, cognate area of study, and other division requirements), and the following.

Note: See the division director for information on which students should select courses listed as "or."

Course	Credits
FCS 205 Concepts in Human Nutrition	3
H&S 150 Wellness Lifestyles	3
H&S 289 Drugs in Society	2
H&S 350 Stress Management & Mental Health	2
H&S 436 Health & Wellness Promotion	3
PE 160 Foundations of Physical Education & Education	3
PE 201 Fitness Activities & Concepts	2
PE 260 Motor Learning	3
PE 300 Human Kinesiology	2
PE 305 Applied Sports Psych or PE 310 Cultural & Phil Aspects of Sport	2-3
PE 380 Measurement & Evaluation	3
PE 418 Physiology of Exercise	3
PE 493 Fitness Assessment & Prescription or PE 305/310 (not taken above)	2-3
PE 495 Internship in Physical Education (summer preferred)	9
PE 498 Practicum in Tutoring	2
Rec 330 Therapeutic Rec Programming for People with Disabilities	3
Rec 445 Professional Seminar	1
PE activity/skill classes (see division dir for selection)	5
Electives to total 128 cr for the degree	—

Sport science options/studies are available in the following areas: athletic training, communication, business, exercise specialist, fitness/wellness, prephysical therapy, research, sport psychology, and wellness. Consult the director of the Division of Health, Physical Education, Recreation, and Dance for specific course requirements.

Academic Minor Requirements

ATHLETIC TRAINING MINOR

Note: Chem 103 is required for students who select this minor and Zool 119 is a prerequisite to H&S 245. Only students enrolled in the UI Athletic Training Room clinical experience (approved NATA students) may enroll in H&S 465, 466, 467, 468, or 469. NATA students are not required to take H&S 349.

Course	Credits
H&S 245 Introduction to Athletic Injuries	3
H&S 289 Drugs in Society	2
H&S 349 Advanced Athletic Injuries	3
H&S 498 Practicum in Tutoring	2
FCS 205 Concepts in Human Nutrition	3
FCS 305 Nutrition Related to Fitness & Sport	2
PE 300 Human Kinesiology	2
PE 418 Physiology of Exercise	3
Rec 431 Medical Terminology	1

NATA certification students must complete the following additional courses:

- H&S 465 Medical Aspects of Athletic Injuries
- H&S 466 Athletic Training: Evaluation
- H&S 467 Athletic Training: Rehabilitation
- H&S 468 Athletic Training: Modalities

Elective: H&S 469 Athletic Training: Trends & Issues

COACHING MINOR

Note: Zool 119 is required to students who select this minor.

Course	Credits
H&S 245 Introduction to Athletic Injuries	3
H&S 289 Drugs in Society	2
H&S 349 Advanced Athletic Injuries	3
FCS 305 Nutrition Related to Fitness & Sport	2
PE 204 Special Topics: Coaching	4
PE 300 Human Kinesiology or PE 418 Physiology of Exercise	2-3
PE 305 Applied Sports Psych or PE 310 Cultural & Phil Aspects of Sport	2-3
PE 497 Athletic Program Management or PE 440 Phys Ed & Sport Management	3
PE 498 Practicum in Tutoring	1

DANCE MINOR

Course	Credits
Dan 320 Labanotation	3
Dan 325 Dance Production	3
Dan 383 Dance Composition	2
Dan 420 Dance Accompaniment	3
Dan 421 Dance History	3
Electives in theatrical dance tech (selected from ballet, jazz, modern)	7

OUTDOOR RECREATION LEADERSHIP MINOR

Course	Credits
Rec 125 Outdoor Leisure Pursuits	2
Rec 280 Recreation Practicum or ResRc 397 Resource Recreation & Tourism Internship	1-3
Rec 320 Outdoor Recreation Leadership	3
Rec 321 Wilderness Medicine & Evacuation	1
Rec 420 Experiential Education or ResRc 487 Intro to Field Environmental Education	2
ResRc 287 Principles of Resource Recreation & Tourism Management or ResRc 490 Wilderness Management	2-3
ResRc 387 Environmental Interpretive Methods	3
Courses selected from the following	7
Rec 220 Rock Climbing	1
Rec 221 Mountaineering	1
Rec 222 Cross Country Skiing	1
Rec 223 Winter Camping	1
Rec 224 Whitewater Rafting	1
Rec 225 Kayaking	1
Rec 255 Backpacking & Camping Skills	1
Rec 270 Big Game Hunting Techniques & Safety	1
One of the following courses	1-2
Rec 498 Practicum in Tutoring (1 cr)	1
ResRc 401 Practicum in Tutoring (1-2 cr)	2

RECREATION MINOR

Course	Credits
Rec 102 Introduction to Recreation Professions	1
Rec 260 Leisure & Society	3
Rec 280 Recreation Practicum	1
Rec 329 Leadership in Recreation	3
Rec 460 History & Philosophy of Recreation & Leisure	3
Rec 486 Recreation Program Planning & Marketing	3
Rec 493 Management of Leisure Services	3
Recreation electives	4

SPORT SCIENCE MINOR

Note: Zool 119 is a prerequisite for this minor.

Course	Credits
H&S 150 Wellness Lifestyles	3
H&S 245 Introduction to Athletic Injuries or 288 First Aid	2-3
H&S 350 Stress Management & Mental Health	2
FCS 205 Concepts in Human Nutrition	3
FCS 305 Nutrition Related to Fitness & Sport	2
PE 201 Fitness Activities & Concepts	2
PE 418 Physiology of Exercise	3
PE 498 Practicum in Tutoring (40 hrs minimum)	1
Courses selected from the following	4-6
H&S 289 Drugs in Society (2 cr)	2
H&S 436 Health & Wellness Promotion (3 cr)	3
FCS 470 Trends in Nutrition Research (3 cr)	3
PE 105 Dance Aerobics or Jazzercise (1 cr)	1
PE 106 Weight Training & Conditioning (1 cr)	1
PE 108 Aqua Fitness or Water Aerobics (1 cr)	1
PE 305 Applied Sports Psychology (3 cr)	3
PE 310 Cultural & Philosophical Aspects of Sport (2 cr)	2
PE 493 Fitness Assessment & Prescription (3 cr)	3

THERAPEUTIC RECREATION MINOR

Course	Credits
Psych 311 Abnormal Psychology	3
Rec 230 Principles of Therapeutic Recreation	3
Rec 280 Recreation Practicum	2
Rec 341 Assessment & Evaluation in Therapeutic Recreation	2
Rec 342 Therapeutic Recreation in Psychiatric Settings	3
Rec 431 Medical Terminology	1
Rec 435 Clinical Aspects of Therapeutic Recreation	3
Rec 467 Therapeutic Recreation for People with Dev Disabilities	3
Approved electives	2-3

TOURISM AND LEISURE ENTERPRISES MINOR

Course	Credits
Bus 321 Marketing	3
Rec/ResRc 181 Introduction to Hospitality Services Industries	3
Rec 340 Leisure & Tourism Enterprises	3
Rec 382/ResRc 381 Hospitality Management & Organization	3
ResRc 494 Resource Recreation & Tourism Marketing	3
One course selected from the following	3
Rec 204/Rec 280 Special Topics/Practicum	3
Rec 235/ResRc 236 Principles of Tourism	3
Rec 486 Recreation Program Planning & Marketing	3
ResRc 386 Resource Recreation & Tourism Planning	3
ResRc 397 Resource Recreation & Tourism Internship	3

Department of History

Wm. Kent Hackmann, Dept. Chair (315 Admin. Bldg.; 208/885-6253). Faculty: Katherine G. Aiken, Dale T. Graden, Wm. Kent Hackmann, Rebecca K. McCoy, Carlos A. Schwantes, Richard E. Spence, William R. Swagerty. Affiliate Faculty: Jacqueline Peterson-Swagerty, Merle W. Wells.

The study of history provides a broad, general view of human development from the beginning of recorded time to the present. Emphasis is on intellectual and cultural values and activities in political, social, economic, and religious institutions. Each course provides rigorous training of the mind to think, to evaluate problems, and to reach sound conclusions through the examination of general or specific chronological periods in several geographic settings. Special attention is given to written work in the form of quizzes, examinations, and review or research essays.

A major in history can be used in government service, the new specialty of public history, several areas of business and industry, and many other fields. It can also be used in preparation for study of the law, the ministry, and archival work and librarianship. Double majors combining history with other fields are easily arranged.

The history curricula provide, through lectures, seminars, and directed studies, a survey of mankind's experience. The department offers courses of study leading to the B.A. or the B.S. degree and has a staff of eight full-time professors who hold the Ph.D. degree. The historian's laboratory is the library, where one finds the record of the past as preserved in primary sources and interpreted by authorities in general works, monographs, and maps. The department has a good collection of maps, slides, and microform readers.

Graduate study is offered in American, English, European (medieval through modern), Latin American, and ancient history. The degree programs include Master of Arts, Master of Arts in Teaching, and Doctor of Philosophy, for which dissertation topics are limited to the fields of the American West, and Europe since 1760. Undergraduates considering graduate study should master at least one modern foreign language through the intermediate level.

History Courses

PREREQUISITE: Two-semester courses in this field may be taken in either order. Students may enroll in second-semester courses without having had the first. Ordinarily six lower-division credits in history are advised for registration in upper-division courses.

Note: In jointly numbered courses, additional projects/assignments are required for graduate credit.

Hist 101-102 History of Civilization (3 cr; 4 cr for honors sections) (C). Satisfies core requirement J-3-d. Contributions to the modern world. Hist 101: to 1650. Hist 102: 1650 to present.

Hist 111-112 Introduction to U.S. History (3 cr) (C). Political, diplomatic, economic, social, and cultural history; earliest times to the present. Hist 111: to 1877. Hist 112: 1877 to present.

Hist 180 Introduction to East Asian History (3 cr). Survey of traditional and modern Chinese and Japanese hist.

Hist 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

Hist 210 Introduction to Modern Latin American History (3 cr). Survey of economic, political, social, and cultural developments in selected Latin American countries, each of which represents a large region, from independence to the present; emphasis on cultural uniqueness, economic development, pressures for social change, and mass political movements.

Hist 290 The Historian's Craft (2 cr). Introduction to the discipline of history, basic skills for course work and research, and major schools of historical writing.

Hist 313 Red, White, and Black: The Peopling of Early North America (3 cr). Survey: Native American, Euroamerican, and Afro-American heritage in North America, 1400-1790.

Hist 345 European Christianity, 500-1700 (3 cr). Early development of official, scholarly, monastic, heretical, and popular religious movements, including those of Gregory the Great, St. Benedict, Francis of Assisi, Catherine of Siena, Master Eckhart, the Waldensians, Albigensians, Flagellants, Teresa of Avila, Luther, or Cornelius Jansen.

Hist 350 European Popular Culture, 1500-1800 (3 cr). History of ordinary people in early modern Europe, with attention to social and economic life, material culture, popular pastimes, and especially thought or "mentalities."

Hist 366 Intellectual and Cultural History of Modern Europe (3 cr). Evolution of attitudes and values of European societies during 19th and 20th centuries; influence of key events and ideas, including those of Marx, Darwin, Freud, Einstein, and Sartre.

Hist 371-372 History of England (3 cr) (C). Political, social, economic, and religious development of the British Isles. Hist 371: to 1688. Hist 372: 1688 to present.

Hist J401/J501 (s) Seminar (cr arr). Research papers in U.S., Latin American, ancient, English, or European history. Prereq: perm of dept.

Hist 404 (s) Special Topics (cr arr). Prereq: perm.

Hist 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

Hist J407/J507 Colloquium in European History (3 cr). Reading and analyzing historical literature in European history.

Hist J408/J508 Colloquium in Latin American History (3 cr). Reading and analyzing historical literature in Latin American history.

Hist J409/J509 Colloquium in American History (3 cr) (Hist J406/J506). Reading and analyzing historical literature in American history.

Hist J410/J510 Land and the American Imagination (3 cr). History, literary, and artistic images, perceptions, and experiences of Europeans and Euroamericans in North America, 1500 to present.

Hist J411/J511 American Colonial History to 1763 (3 cr). International rivalries; British colonial foundations.

Hist J412/J512 The American Revolution, 1763-1789 (3 cr). U.S. independence through the adoption of the Constitution.

Hist J413/J513 U.S.: Early National Period (3 cr). Economic, political, constitutional, and social problems; 1789 to 1828.

Hist J415/J515 Civil War and Reconstruction, 1828-1877 (3 cr). Sectionalism, westward expansion, slavery, the Civil War and Reconstruction.

Hist J416/J516 Rise of Modern America, 1877-1900 (3 cr). Industrial and economic development, political reform, populism.

Hist J417/J517 United States, 1900-1945 (3 cr). Populism, Progressivism, World War I, the Twenties, the Depression, the New Deal, and World War II.

Hist J418/J518 Recent America, 1945-Present (3 cr). America since 1945.

Hist J419/J519 Twentieth-Century American West (3 cr). History of the 11 Rocky Mountain and Pacific states from 1900 to the present.

Hist J420/J520 History of Women in American Society (3 cr). Examination of the roles of women—social, economic, and political—in U.S. history from colonial times to the present.

Hist J423/J523 Idaho and the Pacific Northwest (3 cr) (C, 423 only). Political, economic, social development; earliest times to the present.

Hist WS-J427/WS-J527 Public History (3 cr). WSU Hist 427/527.

Hist J428/J528 History of the American West (3 cr). Spanish beginnings, Anglo-French expansion, the American occupancy, 1540 to present.

Hist J429-J430/J529-J530 U.S. Diplomatic History (3 cr). Hist J429/J529: from independence to world power, 1763-1898. Hist J430/J530: world power through war and the quest for peace, 1898 to present.

Hist J431/J531 History of Indian-White Relations (3 cr). Same as Soc J433/J533. Survey 1400 to present; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S.

Hist ID-J432/J532 The Canadian and American Western Experiences (3 cr). WSU Hist 424. Comparative framework for analysis of major issues and events in history of the Canadian West; a balance of Canadian and American western history.

Hist J433-J434/J533-J534 Social and Cultural History of the U.S. (3 cr). U.S. customs, traditions, and intellectual habits. Hist J433/J533: to 1865. Hist J434/J534: 1865 to 1950.

Hist J435/J535 Latin America: The Colonial Era (3 cr). Indian civilization, European colonization, Spanish Imperial System, wars of independence.

Hist ID-J436/J536 Introduction to Canadian History (3 cr). WSU Hist 425. First European contact with natives; political and socio-economic development to 1873.

Hist ID-J437/J537 Modern Canada (3 cr). WSU Hist 426. Survey and analysis of political, economic, social, and cultural aspects from Confederation (1867) to the present; emphasis on economic development, Canadian-U.S. relations, Quebec nationalism, Western Regionalism, and modern Canadian polity.

Hist J438/J538 Modern Mexico (3 cr). Survey and analysis of political, economic, social, and cultural aspects from independence to present; emphasis on Iberian and Amerindian legacies, economic development, relations with U.S., and social revolution of 1910-1920.

Hist J439/J539 Modern Latin America (3 cr). Political, economic, social, and cultural development; search for stability; growth of nationalism.

Hist J440/J540 **Social Revolution in Latin America** (3 cr). Analysis and comparison of 20th-century social revolution in selected Latin American countries: Cuba and two others; emphasis on origins of movements for social change, economic development issues, impact of the revolutions, and relations between new governments and the U.S.

Hist J441/J541 **Comparative Slavery** (3 cr). Analysis of the way in which African slavery became the predominant labor force in the Americas.

Hist J446/J546 **Medieval Europe** (3 cr). Transition from classical Mediterranean civilization to medieval civilization, 400 to 1350 A.D.

Hist J447/J547 **Renaissance Europe** (3 cr). Nature and significance of Italian Renaissance and its early influence on northern Europe; 1300-1550.

Hist J449/J549 **Reformation Europe** (3 cr). Protestant and Catholic Reformations, from the time of Luther through the climactic Wars of Religion; 1500-1650.

Hist J451/J551 **Age of the French Revolution** (3 cr). Nature of the Old Regime; relationship between the Enlightenment and the French Revolution; aims, progress, and consequences of the revolution itself; Europe, 1650-1815.

Hist J452/J552 **19th Century Europe** (3 cr). Nationalism and nation-building; Imperialism and the Great Powers; Capitalism and Socialism; tensions and rivalries leading to WWI.

Hist J455/ID-J555 **20th Century Europe** (3 cr). WSU Hist 569. World Wars, revolutions, and totalitarianism; decline and fall of the European empires; rise of a New Europe.

Hist J457/J557 **History of the Middle East** (3 cr). Survey of the Middle East from the beginning of the Islamic period to the present.

Hist ID-J458/ID-J558 **Military History** (3 cr). Survey of military history from ancient times to present; emphasis on interrelationship of war, society, and technology.

Hist J466/J566 **Eastern Europe Since 1774** (3 cr). Nationality, nation-building, and dissolution, the Baltic states to the Balkan states.

Hist J467/J567 **Russia to 1894** (3 cr). Russia from medieval origins to 1894; development of Tsarist autocracy and serfdom; reaction, reform, and rise of the revolutionary movements.

Hist J468/J568 **Russia and Soviet Union Since 1894** (3 cr). The last years of Tsarism; revolutions of 1905 and 1917; development of the Soviet Union under Lenin, Stalin, and their successors.

Hist J469/J569 **Modern France** (3 cr). French nation from 1815 through the De Gaulle era.

Hist J470/J570 **Germany and Central Europe Since 1815** (3 cr). Development of Germany from pre-Bismarck era to present; parallel developments in the Habsburg monarchy and the "successor" states (Poland, Czechoslovakia, Austria, and Hungary).

Hist J473/J573 **Tudor England** (3 cr). Revolution in church and state; social and economic change; exploration.

Hist J474/J574 **Stuart England** (3 cr). Conflict between King and Parliament, Catholic and Puritan; wars and colonization; economic changes.

Hist J482/J582 **Japan, 1600 to Present** (3 cr). Western impact on the political, cultural, and economic fabric of Japanese society.

Hist J483/J583 **Traditional Chinese Civilization** (3 cr). Survey from prehistoric beginnings through 1840s.

Hist J484/J584 **Modern China, 1840s to Present** (3 cr). Last century of Qing dynasty, 1911 Revolution and Republican experiment, Revolution of 1949, and People's Republic of China.

Hist 490 **Senior Research Seminar** (3 cr). Techniques in compiling a bibliography, assembling material, composition, interpretation, and historic criticism. Prereq: six hrs of upper-div hist and perm.

Hist 499 (s) **Directed Study** (cr arr). Prereq: perm.

Hist 500 **Master's Research and Thesis** (cr arr).

Hist 501 (s) **Seminar** (cr arr). See Hist J401/J501.

Hist 502 (s) **Directed Study** (cr arr). Prereq: perm.

Hist 504 (s) **Special Topics** (cr arr). Prereq: perm.

Hist 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Hist 591-592 **Historiography** (3 cr). Nature of history; major historians; ideas in history; philosophy of history; bibliography. Hist 591: U.S. historians. Hist 592: European and British historians.

Hist 597 **Practicum: Teaching College History** (1 cr, max 4). Required for graduate students assigned to survey course sections. Does not satisfy 78-cr requirement for doctorate. Prereq: perm of dept chair.

Hist 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Hist 600 **Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

HISTORY (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and:

Course	Credits
Lower-division courses selected from the following	9
Hist 101-102 History of Civilization	
Hist 111-112 Introduction to U.S. History	
Hist 290 The Historian's Craft	2
Upper-division history courses, including a seminar in senior year.....	27
Related fields.....	20

HISTORY (B.S.)

Note: Students expecting to study for an M.A. or Ph.D. degree in history should take the B.A. rather than the B.S. degree.

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.S. degree, and:

Course	Credits
Lower-division courses selected from the following	9
Hist 101-102 History of Civilization	
Hist 111-112 Introduction to U.S. History	
Hist 290 The Historian's Craft	2
Upper-division history courses, including a seminar in senior year.....	27
Related fields.....	20
Any combination of the following.....	12
Any foreign language (high-school foreign language may be substituted at the rate of 4 cr per year)	
Eng 111-112 Literature of Western Civilization	
FL/EN 313-314 Modern French Literature in Translation	
FL/EN 323-324 German Literature in Translation	
FL/EN 363-364 Literature of Ancient Greece & Rome	
FL/EN 393 Spanish Literature in Translation	
FL/EN 394 Latin American Literature in Translation	

Academic Minor Requirements

HISTORY MINOR

Course	Credits
History courses chosen from the following*	9
Hist 101-102 History of Civilization	
Hist 111-112 Introduction to U.S. History	
History courses at the 300- or 400-level (at least 3 cr in U.S. or Latin American hist and at least 3 cr in Ancient or European hist)	9
History elective (may be course not taken above)	3

*For demonstrable cause, department chair or minor adviser may allow substitution of courses numbered above 100-level.

Program in Interdisciplinary Studies

Dene K. Thomas, Coordinator, Undergraduate Courses (112 Admin. Bldg.; 208/885-6426). Jean'ne M. Shreeve, Coordinator, Graduate Courses (114 Morrill Hall; 208/885-6243).

Interdisciplinary Studies Courses

Inter 101 **Freshman Transition Seminar** (2 cr). Open to freshmen; open to other students with permission. Cr not given for both Inter 101 and 102. Development of strategies for setting academic goals and coping with course work; includes study strategies, university orientation, learning styles, purpose of college, career options.

Inter 102 (s) **Freshman Interest Group** (2 cr). Open to freshmen; open to other students with permission. Cr not given for both Inter 101 and 102. Each seminar is organized around a topic of mutual interest; students study the seminar topic as well as a variety of transition topics such as college study skills and campus resources; students are assigned a reading list and complete written assignments on the seminar topic; they also have a common reading assignment (assigned by the seminar teacher) to be completed before the class begins.

Inter 126 **Film and International Culture** (3 cr). Satisfies core requirement J-3-d. Interdisciplinary approach to diversity of modern culture as reflected in film art; comparative study of U.S. and foreign cultures; intro to film history, techniques, and criticism.

Inter 200 (s) **Seminar** (cr arr). Prereq: perm.

Inter 204 (s) **Special Topics** (cr arr). Prereq: perm.

Inter 299 (s) **Directed Study** (cr arr). Prereq: perm.

Inter 300 (s) **Seminar** (cr arr). Prereq: perm.

Inter 394 **Technology and Societal Decisions** (3 cr). Engineering approach to decision making in society, including evaluation of alternatives based upon economic, social, and human values.

Inter 399 (s) **Independent Study** (cr arr). Prereq: perm.

Inter 400 (s) **Seminar** (cr arr). Prereq: perm.

Inter 404 (s) **Special Topics** (cr arr). Prereq: perm.

Inter 411 **Principles of Environmental Studies I** (3 cr). Historical aspects of environmental attitudes, perspectives, and action including the environmental awakening of the 1960s, environmental legislation of the 1970s, and environmental actions of the 1980s.

Inter 438 **Pesticides in the Environment** (3 cr). See Soils 438.

Inter 490 **Technology and Human Values** (2-3 cr). Ideological and value implications of technology for the future of humans and their environment.

Inter 493-494 **Seminar in Urban Studies** (2 cr). Same as Econ 493-494. Interdisciplinary inquiry into problems of communities, physical factors, transportation, communication, housing, planning business and industrial districts, zoning, aesthetics, sociocultural and psychological factors, neighborhoods, local government and finance, urban renewal, regional planning, government program, and dynamics of development; disc led by faculty members and consultants.

Inter 499 (s) **Directed Study** (cr arr). Prereq: perm.

Inter 500 **Master's Research and Thesis** (cr arr).

Inter 501 (s) **Seminar** (cr arr). Prereq: perm.

Inter 502 (s) **Directed Study** (cr arr). Prereq: perm.

Inter 503 (s) **Workshop** (cr arr). Prereq: perm.

Inter 504 (s) **Special Topics** (cr arr). Prereq: perm.

Inter 511 **Principles of Environmental Studies II** (3 cr). Documents required in environmental studies, mechanics of preparing, use, and meaning of each for environmental action and/or application. Prereq: Inter 411.

Inter 521 **Permitting Philosophy and Application** (3 cr). History of permitting and licensing related to environmental policy act both public and private, regulatory agencies, and permit applications for environmental programs. Prereq: Inter 511.

Inter 541 **Sampling and Analysis of Environmental Contaminants** (3 cr). Monitoring systems, sampling procedures, RCRA/CERCLA sampling, quality assurance.

Inter 551 **Environmental Toxicology** (3 cr). General principles in environmental toxicology; pollutants and transport-toxic impacts assessed.

Inter 589 **Water Resources Seminar** (1 cr). Same as AgE, CE, Fish, For, Geol, or GeolE 589. Reports by faculty members and grad students on current problems and projects; reports are organized to give maximum interchange of ideas between divisions.

Inter 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

INTERDISCIPLINARY STUDIES (B.A. or B.S.)

A student may present a curriculum not included among the ones listed elsewhere in this catalog provided the program is focused toward meeting the student's particular educational goal by combining the offerings of two or more major departments. The program normally is developed and presented during the sophomore year. It must be presented before the end of the second semester of the junior year or at the time when at least 30 credits of the proposed program remain to be taken. It must be approved by: (a) at least one faculty member from each of the participating departments of the university, one of which must be in L & S, (b) the chair of one of the L & S departments involved, and (c) the L & S Committee on Interdisciplinary Studies. University requirements (see regulation J-3) and L & S requirements for either the B.A. or B.S. degree apply. This program requires a minimum of 128 credits, of which at least 50 credits must be in courses numbered 200 or above, including a minimum of 36 credits in courses numbered 300 or above. It is recommended, however, that majors in interdisciplinary studies complete at least 50 credits in upper-division courses.

Interested students should consult the L & S dean's office for referral to the Interdisciplinary Studies Committee for further information about this program.

INTERDISCIPLINARY ACADEMIC MINORS

A student may present a minor curriculum not included among the ones listed elsewhere in this catalog. The program must include at least 24 credits and be approved by: (a) at least one faculty member from each of the participating departments of the university, (b) the chair of one of the departments involved, and (c) in the case of minors that involve a department in the College of Letters and Science, the L & S Committee on Interdisciplinary Studies.

INTERIOR PLANNING AND DESIGN—see Department of Architecture

Program in International Studies

Shaikh M. Ghazanfar, Coordinator (329 Admin. Bldg.; 208/885-7144). Faculty: Ernest D. Ables, Roy A. Atwood, Steven R. Chandler, John H. Ehrenreich, Shaikh M. Ghazanfar, John H. Hallaq, James R. Jones, Michael W. Moody, Alwyn R. Rouyer, Richard B. Spence, Roderick Sprague, Curtis N. Thomson, Maurice V. Wiese.

International Studies Courses

- IS 200; 400 (s) **Seminar** (cr arr). Prereq: perm.
- IS 203; 403 (s) **Workshop** (cr arr). Prereq: perm.
- IS 204; 404 (s) **Special Topics** (cr arr). Prereq: perm.
- IS 206; 406 (s) **Study Abroad** (cr arr). Prereq: perm of program coordinator.
- IS 299; 499 (s) **Directed Study** (cr arr). Prereq: perm.

Curricular Requirements

INTERNATIONAL STUDIES (B.A.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Courses to include the following (no more than 15 cr at the lower-div level and no more than 12 cr from any single discipline)	39
Anthr 220 Peoples of the World	
Econ 447 Economics of Developing Countries	
Geog 250 World Regional Geography	
IS 400 Seminar: International Issues	
PolSc 237 International Politics	
At least 9 cr from one of the following issue designations: internatl relations, internatl econ and business, global resources and dev (see courses below)	
At least 12 cr from one of the following regional designations: Latin America, Europe, Asia-Africa, or Canada (see courses below)	
Demonstrated proficiency in a modern foreign language equiv to that gained from six semesters of university study	0-22

In addition, international experience is required for all students in this major. The experience must extend consecutively for at least 10-12 weeks and include an academic project or assignment and immersion in the culture of the country. All costs associated with the international experience are the responsibility of the student. The requirement of international experience may be satisfied by:

- a. Academic Experience. Fulfilled by completing a registered credit program such as study abroad, student exchange, student teaching, or internship. In general, credits are registered on the UI campus; course work and field experience are taken abroad.
- b. Work Abroad. Fulfilled by completing a noncredit work experience that places the student abroad for a contracted length of time. In general, the work assignment is taken during the degree program.
- c. Past Work Abroad. A student who has had previous contracted experience abroad (e.g., Peace Corps), petitions for acceptance. A panel of three faculty members assesses the merits of the experience based on, but not limited to, the following criteria: verification, length, nature, recentness, and relevancy of experience.

Issue Emphases in International Studies

A. INTERNATIONAL RELATIONS

- Geog 365 Political Geography (3 cr)

Academic Minor Requirements

INTERNATIONAL STUDIES MINOR

In consultation with the International Studies Committee (ISC), students electing this academic minor subject an individual study plan emphasizing (a) international relations, (b) international economics and business, or (c) global resources and development.

1. **Basic Credit Requirements.** At least 18 credits selected from the list of courses approved by the ISC—including at least nine credits from one of the emphasis areas cited above; six credits from the courses listed in one or more of the other areas or from a list of approved electives from the regional emphasis areas and comparative world societies and cultures; and a three-credit, 400-level seminar in international studies to be taken after fulfilling the other basic requirements (a student normally takes the seminar during the junior or senior year).

2. **Limitations.** Of the minimum of 18 credits required, (a) not more than six may be at the lower-division level, (b) no more than nine may be in any single discipline, and (c) no more than six may be in the student's major field. No course to be counted toward the minor may be taken by directed study without prior approval by the ISC.

3. **Language Proficiency.** Demonstrated proficiency (equivalent to that required for the B.A. degree) in a modern foreign language. Students who cannot demonstrate proficiency must complete at least four credits in a modern foreign language, but these credits do not count toward the basic 18-credit requirement.

JAPANESE—see Department of Foreign Languages and Literatures

Department of Landscape Architecture

Katherine A. Grinde, Dept. Chair (204 Art and Arch. Annex; 208/885-7448). Faculty: Gary Austin, Katherine A. Grinde, James J. Kuska, Toru Otawa. Adjunct Faculty: Craig Rindlsbacher. Affiliate Faculty: Don Brigham.

Landscape architecture is an environmental design and planning profession. It is the art and science of integrating human activities with the natural and urban environment. The profession's objective is to minimize the impact of humans on the natural processes while providing for their physical and psychological needs through design.

As a profession, landscape architecture encompasses certain design skills that enable it to resolve conflicts that arise in the complex interrelationships of physical, economic, political, and social activities of people and their use of the environment. This requires an understanding of the natural systems and visual pattern of the land, necessitating courses in the natural sciences, such as biology, geology, and soils. In order to understand the nature of the physical, psychological, and social characteristics of mankind, studies in the behavioral and social sciences are extremely important in adapting development to the land. Technical knowledge about site modification is gained through courses in civil engineering and site engineering (landscape construction). This knowledge is balanced with studies in the visual arts to address the needs of people for an aesthetic environment.

The landscape architect's unique expertise lies in the development of a systematic and analytical approach to solving land-use problems. The foundation of the Landscape Architecture Department has been a strong emphasis on this "design process" as a methodology for solving various planning and design problems. The types of projects encountered within the program simulate those in professional practice: residential developments; resource planning; environmental impact assessment; community and historic preservation planning; industrial, institutional, and commercial planning; transportation and utility planning; landscape restoration and reclamation; aesthetic and visual resource management; river and shoreline planning; parks and recreation planning; site energy planning; and computer land planning.

The faculty members and students in the program have access to powerful geographic information systems, visual simulation and CADD computer programs, and an interactive video system that makes this one of the leading departments in landscape architecture in terms of computing capabilities. The faculty members have agreed to use the computer in some way in each landscape architecture course they teach, assuring that students will be computer literate upon graduation.

Landscape architecture students are required to take part in two major field trips at their own expense as partial fulfillment of the program requirements. In addition, one-day or overnight trips are a common occurrence as part of individual classes.

The Department of Landscape Architecture is housed with the interrelated professions of art, architecture, and interior design in the College of Art and Architecture. The department offers a professional four-year program leading to the degree of Bachelor of Landscape Architecture. The department's program is fully accredited by the American Society of Landscape Architects.

Landscape Architecture Courses

LArch 100 Computer Applications in Landscape Architecture (2 cr). Open to landscape architecture majors; others may enroll on a space-available basis. Exploration of hardware and software tools that are used by landscape architects via microcomputers; areas include MS-DOS and Macintosh formats, desktop publishing, paint programs, construction programs, visual imaging, computer-aided design (CADD and LandCADD), and geographical information systems. Prereq: LA major or perm.

LArch 200 (s) **Seminar** (cr arr). Prereq: perm.

LArch 203 (s) **Workshop** (cr arr). Prereq: perm.

LArch 204 (s) **Special Topics** (cr arr). Prereq: perm.

LArch 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

LArch 247 Landscape Graphics (3 cr). Development of techniques and skills in various media used in preparation of landscape architecture graphic presentations both in plan and perspective renderings. Selected field trips at student expense. Prereq: LArch major or perm.

LArch 259 Landscape Architecture I (6 cr). Intro to landscape architecture planning and design methods and processes (research, analysis, synthesis) applied to small scale pedestrian spaces such as parks, plazas, and courtyards; presentation techniques (graphic and verbal) and three-dimensional models are emphasized. Selected field trips at student expense. Prereq: Art 121-122 or perm.

LArch 260 Landscape Architecture I (6 cr). Integration and application of principles acquired in plant materials, grading, and drainage, and in LArch 259 to small scale planning and design projects. Selected field trips at student expense. Prereq: LArch 259.

LArch 270 Landscape Construction I (4 cr). Grading and drainage, earthwork planimeter computations, cut and fill, and road layout (horizontal/vertical curves). Selected field trips at student expense. Prereq: LArch major or perm.

LArch 288 Plant Materials (3 cr). Plant identification and selection; use of plant materials in relation to soils, topography, and climate; analysis of design principles in relation to plant compositions. Selected field trips at student expense.

LArch ID&WS289 History of Landscape Architecture (3 cr). WSU L A 260. Overview of man and the landscape from the pre-Egyptian civilization through Ancient Greece and Rome, the Middle Ages, the Renaissance, the Oriental, and including contemporary styles and trends.

LArch 299 (s) **Directed Study** (cr arr). Prereq: perm.

LArch ID&WS358 Professional Office Practice in Landscape Architecture (2 cr). WSU L A 480. Office organization, fees, contracts, bonding, bidding specifications, insurance, and relationships with subcontractors.

LArch 359 Landscape Architecture II (6 cr). Intermediate scale planning and design problems that emphasize the analysis, development, and presentation of solutions for urban, rural, and regional housing and recreation projects; introduction of senior critique project due in LArch 460; common project done with Dept of Architecture. Selected field trips at student expense. Prereq: LArch 260, LArch 270 or perm.

LArch 360 Landscape Architecture II (6 cr). Intermediate scale land planning and urban design projects that emphasize the various aspects of the urban environment such as central business districts, malls, housing development, and circulation systems with application of visual analysis techniques; problem solving incorporating use of plant materials is stressed. Common project done with Dept of Art. Selected field trips at student expense. Prereq: LArch 359.

LArch 371 Landscape Construction II (4 cr). Study of landscape construction methods and materials as applied in the development and design of site elements such as lighting, stormwater management, retaining walls, paving, and decks; construction details and specifications. Selected field trips at student expense. Prereq: LArch major or perm.

LArch 385 GIS Primer (3 cr). Intro to basic concepts and applications of geographic information systems (GIS), lab exercises on PC-based GIS package, and guest lecturers from industry and governmental agencies. Three hrs of lec-lab a wk.

LArch 387 Park and Recreation Planning (3 cr). Landscape architecture approach to recreation planning for national, regional, state, city, and neighborhood park systems; application of design principles to provide the experiences desired by the users in such areas.

LArch 388 Plant Materials (4 cr). Continuation of LArch 288 with emphasis on plant design projects as they relate to small or large scale public and private use areas. Common project done with program in interior design. Selected field trips at student expense. Prereq: LArch 288.

- LArch 400 (s) **Seminar** (cr arr). Prereq: perm.
- LArch 403 (s) **Workshop** (cr arr). Prereq: perm.
- LArch 404 (s) **Special Topics** (cr arr). Prereq: perm.
- LArch 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

LArch 459 **Landscape Architecture III** (6 cr). Various scale design projects, including preparation of contract documents. Selected field trips at student expense. Prereq: LArch 360, LArch 371 or perm.

LArch 460 **Landscape Architecture III** (6 cr). Student critique of a professional landscape architecture office project; completion of terminal project(s) comprehensive in scope, demonstrating mastery in areas of land planning and/or design, plant materials, construction, and graphics. Selected field trips at student expense. Prereq: LArch 459.

LArch 490 **Computer-Aided Regional Landscape Planning** (3 cr). Open to all majors. Study of techniques and methods for regional-scale landscape planning using ARC/INFO, a state-of-the-art geographic information system (GIS); application of ecological principles and land use analysis; emphasis on use of GIS as tool for landscape planning and management. Prereq: LArch 385 or Geog 385 or perm.

LArch 499 (s) **Directed Study** (cr arr). Prereq: perm.

Curricular Requirements

LANDSCAPE ARCHITECTURE (B.L.Arch.)

A place in the program (sophomore and above) may be restricted due to Landscape Architecture Accreditation Board guidelines (faculty-student ratios) and studio space availability. Decisions will be made according to GPA, test scores (ACT/SAT), and a portfolio.

On registering for a course offered in the department, the student agrees that the department may retain work completed by the student.

Note: A 2.00 average must be maintained in all landscape architecture courses in order to remain in good standing in the department.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
LArch 100 Computer Applications in Landscape Architecture	2
LArch 247 Landscape Graphics	3
LArch 259-260 Landscape Architecture I	12
LArch 270, 371 Landscape Construction I-II	8
LArch 288, 388 Plant Materials	7
LArch 289 History of Landscape Architecture	3
LArch 358 Professional Office Practice, LA	2
LArch 359-360 Landscape Architecture II	12
LArch 385 GIS Primer	3
LArch 459-460 Landscape Architecture III	12
Arch 483 Urban Theory & Issues	3
Art 101 Visual Art	3
Art 111-112 Drawing I	4
Art 121-122 Visual Communication & the Design Process	6
Biol 100 Introduction to Biology	4
Biol 331 General Ecology	3
CE 218 Elementary Surveying	2
Geol 101, 102 Physical Geology & Lab	4
Math 140 Pre-calculus Algebra & Analytic Geometry	3
Soils 205 General Soils	3
Electives to total 133 cr for the degree, of which at least 6 cr must be from psychology and/or sociology	—
Recommended elective:	
Geol 335 Geomorphology	
LArch 299 DS: Irrigation	
LArch 490 Computer-Aided Regional Landscape Planning	

LATIN—See Department of Foreign Languages and Literatures

Program in Latin American Studies

Judith L. Sweeney (305-A Admin. Bldg.; 208/885-8956) and Dennis D. West (332-A Admin. Bldg.; 208/885-7746), Coordinators. Faculty: Alfred W. Jensen, Richard M. Keenan, Michael W. Moody, Judith L. Sweeney, Dennis D. West, Daniel G. Zirker.

The program in Latin American studies is a multidisciplinary major leading to the B.A. degree. The appeal of this field of study has greatly increased over the last decade, due to the region's growing economic and political importance. A degree in the major is appropriate for employment in many fields, among which are the diplomatic service and overseas business as well as graduate study in various disciplines. Students electing the major will also broaden their awareness of non-Western cultures and history.

Curricular Requirements

LATIN-AMERICAN STUDIES (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, including Spanish for the foreign language requirement, and:

Course	Credits
FL/SP 384 Hispanic Culture & Institutions	3
FL/SP 387-388 Survey of Spanish-American Literature or 487-488 Contemporary Spanish-American Literature	6
Hist 435 Latin America: The Colonial Era	3
Hist 438 Modern Mexico or 439 Modern Latin America	3
And at least seven of the following courses (or the optional courses listed above)	21
*Econ 447 Economics of Developing Countries	
FL/EN or FL/SP 391 Hispanic Film	
FL/EN 394 Latin American Literature in Translation	
FL/SP 386 Survey of Spanish Literature	
FL/SP 404 Special Topics (with prior approval of program coordinator)	
Hist 210 Introduction to Modern Latin American History	
Hist 440 Social Revolution in Latin America	
*PolSc 482 Latin American Politics	

*Students are strongly urged to elect those courses marked with an asterisk and to take Hist 101-102 (History of Civilization) in their freshman year.

College of Law

Sheldon A. Vincenti, Dean (101 Law Bldg.; 208/885-6422); **Arthur D. Smith, Jr., Associate Dean.** Faculty: **Mark D. Anderson, D. Benjamin Beard, Elizabeth B. Brandt, Dennis C. Colson, Neil E. Franklin, Kenneth S. Gallant, Dale D. Goble, Douglas L. Grant, Joann P. Henderson, D. Craig Lewis, Monique C. Lillard, James S. Macdonald, John A. Miller, Myron A. Schreck, Leinaala R. Seeger, Arthur D. Smith, Jr., Sheldon A. Vincenti.**

For additional information on the College of Law, see part 4 and the announcement of the College of Law.

Law Courses

For complete descriptions of the courses in this section (other than Law 511), see the annual announcement of the College of Law. Registration by non-law students in any course offered by the College of Law requires permission in advance by the associate dean and the instructor of the course.

Law ID511 Legal Process (3 cr). WSU ES/RP 511. Not open to J.D. candidates for cr toward the degree; will ordinarily be confined to grad students and srs with superior academic records. Designed to acquaint non-law student with legal process in general and role of the judiciary in natural resource management in particular; provide non-law grad students with sufficient legal research, writing, and reasoning skills to enroll in regular law courses.

Law 805 Introduction to Law and Procedure (3 cr).

Law 806 Procedure II (3 cr).

Law 807-808 Property I-II (3 cr).

Law 809-810 Torts I-II (3 cr; 2 cr).

Law 811 Constitutional Law I: Fundamentals (2 cr).

Law 812 Criminal Law (3 cr).

Law 813-814 Contracts I-II (3 cr).

Law 815 Legal Research and Writing (3 cr).

Law 901 (s) Seminar (cr arr).

Law 904 Federal Courts (3 cr).

Law 905 Constitutional Law II: Individual Rights (4 cr).

Law 906 Seminar, Natural Resources Law and Policy (3 cr).

Law 907 Administrative Law (3 cr).

Law 908 Introduction to the Law of the Workplace (4 cr).

Law 909 Energy Law (3 cr).

Law 910 Antitrust and Trade Regulation (3 cr).

Law 911 Principles of Suretyship (1 cr).

Law 915 International Business Transactions (3 cr).

Law 916 Public International Law (2 cr).

- Law 917 **Negotiation and Alternative Dispute Resolution** (2 cr).
- Law 919 **Business Associations I** (4 cr).
- Law 920 **Business Associations II** (3 cr).
- Law 921 **Basic Legal Acctg** (1 cr).
- Law 922 **Unfair Competition** (2 cr).
- Law 923 **Negotiable Instruments, Bank Collections and Deposits, and Other Payment Systems** (3 cr).
- Law 924 **Sales** (3 cr).
- Law 925 **Creditors' Rights and Secured Transactions** (3 cr).
- Law 926 **Bankruptcy** (3 cr).
- Law 927 **Pass Through Entity Taxation** (3 cr).
- Law 930 **Taxation** (4 cr).
- Law 931 **Corporate Taxation** (3 cr).
- Law 932 **Estate Planning** (3 cr).
- Law 935 **Idaho Constitutional Law** (1 cr).
- Law 936 **American Legal History** (2 cr).
- Law 941 **Wills, Estates, and Trusts** (3 cr).
- Law 942 **Water Law** (3 cr).
- Law 943 **Real Estate Finance** (3 cr).
- Law 944 **Local Government and Land Use Law** (3 cr).
- Law 945 **Community Property** (2 cr).
- Law 947 **Seminar, Environmental Law** (3 cr).
- Law 948 **Seminar, Public Land Resources Law** (3 cr).
- Law 949 **Indian Law** (3 cr).
- Law 950 **Evidence** (3 cr).
- Law 952 **Remedies** (3 cr).
- Law 953 **Criminal Procedure** (3 cr).
- Law 954 **Practice Court** (3 cr).
- Law 956 **Appellate (Moot) Court** (1-2 cr).
- Law 960 **Conflict of Laws** (2 cr).
- Law 961 **Seminar, Jurisprudence** (2 cr).
- Law 962 **Professional Responsibility** (2 cr).
- Law 963 **Family Law** (3 cr).
- Law 971 **Lawyering Process Seminar** (2 cr).
- Law 972 **Legal Externship** (1 cr).
- Law 973 **Public Agency Externship** (10 cr).
- Law 974 **Legal Aid Internship** (5 cr; 3 cr).
- Law 982 **Law Review** (1-4 cr, max 4).
- Law 983 **Legal Research** (1-2 cr, max 4).

LIBRARY SCIENCE—see Division of Teacher Education

MANUFACTURING ENGINEERING—see Department of Mechanical Engineering

Martin Institute for Peace Studies and Conflict Resolution

Joel R. Hamilton, Interim Director (1 Cont. Educ. Bldg.; 208/885-6527).

The Martin Institute for Peace Studies and Conflict Resolution is a multidisciplinary center at the University of Idaho, founded in the belief that war and violence are neither necessary nor inevitable. Its purposes are to encourage education and research to advance

peace at all levels and also to resolve local and regional conflicts with alternatives to confrontation and litigation. Institute scholars seek to understand the major causes of disputes and violence and to provide information, training, and assistance for the resolution of conflicts. The institute brings together scholars, students, and present and future leaders to develop the knowledge needed for the on-going and new challenges of establishing peace as a basis for long-range social and economic progress.

Martin Institute Courses

Mrtn 490 **The Causes of War** (3 cr). Scientific analysis of the causes of the major wars since World War I. Cr not granted for both Mrtn 490 and PolSc 449.

Mrtn 491 **Political, Social, and Economic Conflict Resulting in Violence** (3 cr). Nature and dynamics of social and econ forces resulting in political conflict strategies; threats and bargaining; resort to violence and conflict resolution. Cr not granted for both Mrtn 491 and PolSc 487.

Mrtn 492 **Terrorism: Threat, Reality, and Response** (3 cr). The terrorist arsenal, national disruption terrorism, countermeasure technology, incident mgt, prep for emergencies, potential targets, and patterns for negotiation.

Mrtn 495 **Technical Aspects of Modern Warfare** (3 cr). Intro to nuclear arms, radiation effects, lasers, missiles, weapons in space, biol and chem weapons, telemetry and comm; use of strategic nuclear arms; disarmament strategies, verification of arms control; relation to energy resources and peaceful uses of technology.

Mrtn 496 **International Organizations and International Law** (3 cr). See PolSc 440.

Mrtn WS523 **International Organization and Administration** (3 cr). WSU Pol S 423/523.

Mrtn 596 **Seminar in Political Violence** (3 cr). Comparative analysis of causes of revolutionary upheaval and other forms of violent civil conflict; methods and approaches to study of political violence.

Department of Mathematics and Statistics

Clarence J. Potratz, Dept. Chair (300 Carol Rylie Brink Hall; 208/885-6742).

Mathematics Faculty: Gail H. Adele, Erol Barbut, Arie Bialostocki, Larry E. Bobisud, Willy Brandal, James E. Calvert, Jr., Charles O. Christenson, John I. Cobb, Paul F. Dierker, Roy H. Goetschel, Jr., Paul Joyce, Mark J. Nielsen, Ralph J. Neuhaus, Cynthia M. Piez, Clarence J. Potratz, William D. Royalty, Mary H. Voxman, William L. Voxman.

Statistics Faculty: C. Randall Byers, Brian C. Dennis, Dale O. Everson, Philip D. Olson, Clarence J. Potratz, R. Kirk Steinhorst, Christopher J. Williams. **Adjunct Faculty:** Raymond Dacey, Edward O. Garton, Donald F. Haber, Joel R. Hamilton.

The Department of Mathematics and Statistics offers a wide variety of majors and minors. In addition to the degree programs described below, many students pursue joint majors in mathematics and other disciplines that utilize mathematics. The most popular of these are mathematics/computer science and mathematics/physics. A joint major is obtained by completing the degree requirements for both majors. Minor programs are described below under "Curricular Requirements." At the graduate level, the department offers the M.S., M.A.T., and Ph.D. in mathematics and the M.S. in statistics. Detailed information on these programs is published in the *Graduate Bulletin*.

The need for persons with quantitative skills is increasing dramatically as the world grows more complex. Mathematicians and statisticians have employment opportunities in business, industry, government, and teaching. Persons planning careers in almost any field will find their opportunities enhanced by the study of mathematics and statistics. The programs are intended to provide students just such enhancement. It is generally the case that the person who develops his or her quantitative skills has increased ability to attack many of the complex problems of society. Advances in science, technology, the social sciences, business, industry, and government become more and more dependent on precise analysis and the extraction of information from large quantities of data. Environmental problems, for example, require careful analysis by persons (or teams of persons) with skills in mathematics, statistics, and computer science as well as in biology, geology, physics, and many other fields.

The demand for teachers of mathematics is greater now than ever before. Nearly every school district in the nation has a shortage of teachers trained in mathematics. UI offers a broadly based program leading to teacher certification, through enrollment either in the Department of Mathematics and Statistics or in the College of Education and completion of a major or minor in mathematics.

Mathematics. The body of mathematical knowledge that has grown over the past 2,000 years is a magnificent human achievement, and it is growing more rapidly than ever before. The habits of systematic and creative thought developed in the study of mathematics are recognized as invaluable in most areas of human endeavor. UI's B.A. and B.S. programs in mathematics are designed to introduce the student to the excitement of mathematical ideas; they allow the maximum possible freedom to explore those areas of mathematics that the student finds most interesting.

The department has a sound program in mathematics with a proven record of preparing students for successful graduate study at the very best universities in the nation. There are sequences of courses in calculus, advanced calculus, linear algebra, differential equations, number theory, abstract algebra, topology, geometry, statistics, complex analysis, and mathematical analysis. Students of mathematics who do not go to graduate school are well prepared for industrial, governmental, or teaching jobs if they have some additional exposure to computer science, education, or one of the natural, social, or applied sciences.

Applied Mathematics. Many of the greatest achievements in mathematics were inspired by problems in the natural sciences; today mathematics has wide application in both the natural and social sciences. Applied mathematics provides a broad arena for intellectual and creative impulses of people. The B.S. in applied mathematics allows a choice of the computation, statistics, scientific, or actuarial science options. Many students interested in applications of mathematics pursue a joint major in some other department.

Actuarial Science. An actuary applies mathematics and statistics to forecasting problems. Actuaries are employed by financial institutions, government, insurance companies, and international corporations. They address problems as diverse as economic fluctuations, population demographics, resource consumption, medical insurance rates, and retirement needs. Actuaries are in great demand and have many interesting career opportunities leading often to high management positions. Admission to the actuarial profession is governed by a series of examinations administered by the actuarial societies. The first two or three examinations can be taken by undergraduates, and the rest are usually taken while working in the industry. The first three examinations are given locally. Our actuarial science option, review seminars, and summer internship program with actuarial companies prepare students for these tests.

Statistics. Statistics encompasses course work in designing and analyzing experiments, planning and interpreting surveys, and exploring relationships among variables observed on social, physical, and biological phenomena. The applied nature of the program allows the student to develop data analysis tools for such diverse areas as business and economics, crop and animal production, biological sciences, human behavior, education, engineering, and natural resource management. The statistics program thus serves to support major programs in other disciplines. Within the department, a statistics option is available under applied mathematics leading to a baccalaureate degree, and an M.S. degree in statistics is offered at the graduate level.

Faculty members in the Department of Mathematics and Statistics will be happy to answer questions about specific programs and courses. Such questions can also be addressed to the department chair (Brink 300; telephone 208/885-6742).

Courses

MATHEMATICS

ADVANCED PLACEMENT: Courses in this subject field that are vertical in content are: Math 180-190-200-471-472.

CREDIT LIMITATIONS: Math 120 and 140 carry no credit after 160 or 180; Math 180 carries 2 credits after 160; Math 160 carries no credit after 180.

Also see regulation J-5-e.

Math 050 Pre-college Algebra (0 cr). Review of algebra including factoring, rational expressions, exponents, radicals, quadratic equations, equations of lines. Three lec a wk. A special fee is charged for this course.

Math 101 The Spirit of Mathematics (3 cr). Satisfies core requirement J-3-c. For students who are curious about what mathematics is and what mathematicians do but who do not plan to use mathematics as a tool in their careers; discussion of some aspects of mathematics through study of problems of "applied" and of "pure" type, taken from areas such as number theory, geometry, topology, probability, and combinatorics; discussion of the historical development.

Math 111 Finite Mathematics (4 cr). Satisfies core requirement J-3-c. Systems of linear equations and inequalities, matrices, linear programming, and probability. Prereq: 1 yr high school algebra, 1 yr plane geometry, and sufficient score on SAT, ACT, or Math Placement Test.

Math 120 Intermediate Algebra (3 cr). May be taken for cr after Math 111. Review of elementary algebra, quadratic equations, systems of linear equations, graphing, functions, and logarithms. Prereq: 1 yr high school algebra, 1 yr high school plane geometry, and sufficiently high score on SAT, ACT, or Math Placement Test; or Math 050.

Math 135 Mathematics for Elementary Teachers I (3 cr) (C). Mathematical development of arithmetic and problem solving consonant with the way these subjects are currently taught in elementary schools. Prereq: 2 yrs high school algebra (or Math 140), 1 yr plane geometry, passing Arithmetic Skills Test; recommended preparation: general education requirement in mathematics (Math 111, 140, 160, or 180).

Math 136 Mathematics for Elementary Teachers II (3 cr) (C). Mathematical development of informal geometry, problem solving, and probability and statistics consonant with the way these subjects are currently taught in elementary schools. Prereq: Math 135.

Math 140 Pre-calculus Algebra and Analytic Geometry (3 cr) (C). Satisfies core requirement J-3-c. Carries no credit after Math 180. Algebraic, exponential, logarithmic functions; graphs of conics; zeros of polynomials; systems of equations, induction. Prereq: 1-1/2 yrs high school algebra, 1 yr high school plane geometry, and sufficiently high score on SAT, ACT, or Math Placement Test; or Math 120.

Math 160 Survey of Calculus (4 cr). Satisfies core requirement J-3-c. Carries no credit after Math 180. Functions, graphing, derivative, integral, exponential and logarithmic functions, functions of several variables. Prereq: One yr of high school geometry and one of the following: (1) 1-1/2 yrs high school algebra and sufficiently high score on SAT, ACT, or Math Placement Test or (2) Math 120 or (3) Math 140.

Math 176 Discrete Mathematics (4 cr). Induction and logic, set theory, graph theory, and selected topics from number systems, Boolean algebra, difference equations, and algorithms and their analysis. Prereq: two yrs high school algebra and sufficiently high score on SAT, ACT, or Math Placement Test; or Math 140.

Math 179 Analytic Trigonometry (2 cr) (C). Not open for cr to students who have previous high school or college cr in trigonometry. Trigonometric functions, inverse functions, applications. Prereq: 2 yrs high school algebra (or Math 120 or 140) and 1 yr plane geometry, and perm of dept. Concurrent enrollment in Math 120, 140, or 180 permitted.

Math 180 Analytic Geometry and Calculus I (4 cr) (C). Satisfies core requirement J-3-c. Carries 2 credits after Math 160. Functions, limits, continuity, differentiation, integration, applications, differentiation and integration of transcendental functions. Prereq: 2 yrs high school algebra (or Math 140), 1 yr plane geometry, 1/2 yr analytic trigonometry, and sufficiently high score on SAT, ACT, or Math Placement Test.

Math R181 Analytic Geometry and Calculus I (3 cr). Functions, rate of change, limits, continuity, differentiation of algebraic functions, applications, and integration. Prereq: perm.

Math 190 Analytic Geometry and Calculus II (4 cr). Differentiation and integration of transcendental functions, integration techniques, general mean value theorem, numerical techniques, and series. Prereq: Math 180.

Math R191 Analytic Geometry and Calculus II (3 cr). Application of the definite integral, differentiation and integration of transcendental functions, methods of integration, and determinants and linear equations. Prereq: perm.

Math 200 Analytic Geometry and Calculus III (3 cr). Vectors, functions of several variables, and multiple integration. Prereq: Math 190.

Math R201 Analytic Geometry and Calculus III (3 cr). Two- and three-dimensional analytic geometry, vectors, hyperbolic functions, parametric equations, and polar coordinates. Prereq: perm.

Math 202 (s) Seminar (cr arr). Prereq: perm.

Math 204 (s) Special Topics (cr arr). Prereq: perm.

Math R211 Analytic Geometry and Calculus IV (3 cr). Partial derivatives, infinite series, and complex numbers and functions. Prereq: perm.

Math 215 Seminar in Topology of the Plane (3 cr). Carries no credit after Math 411 or 471. Primary goal is to teach students to prove theorems; open and closed sets, connectedness, compactness, continuity, etc. Class size limited to 15. Prereq: Math 180, 190, and perm.

Math 255 Applied Actuarial Science I (0 cr). Review of calculus and linear algebra in preparation for actuarial exam 1. Prereq: Math 200, 330.

Math 286 Theory of Numbers (3 cr). Elementary number theory, including divisibility properties, congruences, and Diophantine equations. Prereq: Math 140 or perm.

Math 299 (s) **Directed Study** (cr arr). Prereq: perm.

Math 310 Ordinary Differential Equations (3 cr). Classification, initial and boundary value problems of one variable, exact equations, methods of solving higher-order linear equations, second-order equations with constant coefficient, series solutions, systems of linear equations, Laplace transforms, and existence theorems. Prereq: Math 190 (200 recommended).

Math H315 Topics in Pure Mathematics (3 cr). Carries no credit after Math 215. A topic selected each yr that develops skill and appreciation for theoretical nature of mathematics. Prereq: Math 160 or 180 and perm of director of University Honors Program.

Math H316 Topics in Applied Mathematics (3 cr). Topics selected each yr that develop skill in and appreciation for application of mathematics. Prereq: Math 200 and perm of director of University Honors Program.

Math 326 Linear Programming (3 cr). Geometric solutions, simplex method, duality and revised simplex method, sensitivity, integer programming, appl. Prereq: Math 160 or 180.

Math 330 Linear Algebra (3 cr). Linear equations, matrices, linear transformations, eigenvalues, diagonalization; applications. Prereq: Math 160 or 180.

Math 346 Applied Combinatorics (3 cr). Elementary counting methods, generating functions, recurrence relations, Polya's enumeration, enumeration of graphs, trees, searching, combinatorial algorithms. Prereq: Math 190; recommended prereq: Math 176 or 376 or 405.

Math 371 Mathematical Physics (3 cr). See Phys 371.

Math 376 Discrete Mathematics II (3 cr). Selected topics from discrete mathematics such as graph theory, modeling, and optimization. Prereq: Math 176 or perm.

Math 390 Postulational Geometry (3 cr). Postulates of Hilbert and Euclid; non-Euclidean geometries; the Erlanger program; projective geometry. Prereq: Math 180 or 160.

Math 400 (s) **Seminar** (cr arr). Prereq: perm.

Math 404 (s) **Special Topics** (cr arr). Prereq: perm.

Math 405 Analysis of Algorithms (3 cr). Same as CS 495. Measures of efficiency; standard methods and examples in the design and analysis of algorithms. Prereq: CS 213 and Math 190.

Math 411 Elementary Topology (3 cr). Alt/yrs. Metric spaces; topological spaces; compactness; connectedness, continuity. Prereq: Math 200 or perm.

Math 420 Complex Variables (3 cr). Alt/yrs. Complex numbers, elementary functions, derivatives, the residue theorem, conformal mappings, contour integration, infinite series, applications. Prereq: Math 200.

Math 426 Optimization (3 cr). Classical optimization, convexity, one-dimensional searches, nonlinear programming, numerical considerations. Prereq: Math 200, 330, 326, and knowledge of a computer language.

Math 432 Numerical Linear Algebra (3 cr). Analysis of efficiency and accuracy of large linear algebra problems; special emphasis on solving linear equations and finding eigenvalues. Prereq: Math 200, 330, and knowledge of a computer language.

Math 433 Numerical Analysis (3 cr). Analysis of numerical methods useful in solving applied problems; solution of nonlinear equations, interpolation, numerical differentiation and integration, numerical solution of differential equations. Prereq: Math 200, 330, and knowledge of a computer language.

Math 440 Linear Algebra (3 cr). Vector spaces, linear transformations and matrices, quadratic forms, characteristic vectors and roots.

Math ID&WS451-ID&WS452 Probability Theory and Mathematical Statistics (3 cr). Same as Stat 451-452. WSU Stat 443-444. Random variables, limit theorems, distribution of sample statistics, estimation, testing hypotheses. Prereq: Math 200.

Math ID&WS-J453-ID&WS-J544 Stochastic Models (3 cr). Same as Stat J453/J544. WSU Stat 544. Alt/yrs. Markov chains, stochastic processes, and other stochastic models; applications. Additional projects/assignments reqd for grad cr. Prereq: Math 451 or perm.

Math 461-462 Abstract Algebra (3 cr). Groups, rings, and fields. Recommended prereq for Math 461: at least one of the following: Math 215, 286, 330, 390.

Math WS464 Operations Research and Game Theory (3 cr). WSU Math 464.

Math 471-472 Advanced Calculus (3 cr). Topology of Euclidean n-space, limit and continuity, differentiation, integration. Prereq: Math 200 and 215, or perm.

Math 480 Partial Differential Equations (3 cr). Alt/yrs. Intro to Fourier analysis, application to solution of partial differential equations; classical partial differential equations of engineering and physics. Prereq: Math 310.

Math 482 Advanced Applied Mathematics (3 cr). Selected topics. Prereq: Math 310.

Math 485 Theory of Computation (3 cr). Same as CS 490. Mathematical models of computation, including finite automata and Turing machines. Prereq: perm.

Math 490 Introduction to Set Theory (3 cr). Alt/yrs. Set operations, functions, binary operations and relations, cardinal and ordinal numbers, axiom of choice, partially ordered sets, and Zorn's lemma. Prereq: Math 200.

Math 498 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.

Math 499 (s) **Directed Study** (cr arr). Prereq: perm.

Math 500 Master's Research and Thesis (cr arr).

Math 501 (s) **Seminar** (cr arr). Prereq: perm.

Math 502 (s) **Directed Study** (cr arr). Prereq: perm.

Math 503 Seminar on College Teaching of Mathematics (1 cr). Development of skills in the teaching of college mathematics; includes structure of class time, test construction, and various methods of teaching mathematics; supervision of instructional assistants in their beginning teaching assignments. Graded P/F. Prereq: perm.

Math 504 (s) **Special Topics** (cr arr). Prereq: perm.

Math 505 (s) **Professional Development** (cr arr). Cr earned in this course will not be accepted toward grad degree programs. Prereq: perm.

Math WS507 Advanced Theory of Numbers (3 cr, max 6). WSU Math 507.

Math WS508 Topics in Applied Analysis (3 cr). WSU Math 508.

Math WS509 Foundations of Mathematics (3 cr). WSU Math 509. Alt/yrs.

Math ID&WS511-ID&WS512 Topology (3 cr). WSU Math 525-526. Alt/yrs. Basic concepts of point set and algebraic topology.

Math 521 (s) **Seminar in Topology** (1-3 cr, max arr). Current literature.

Math ID523-ID524 Algebraic Topology (3 cr). WSU Math 527-528. Alt/yrs. Basic homotopy theory, covering spaces, homology theory, and applications.

Math 526 (s) **Topics in Topology** (1-3 cr, max 12).

Math 528 Differentiable Manifolds (3 cr). Fundamentals of smooth manifolds, tangent spaces, vector fields, Lie groups, integration on manifolds, and applications. Prereq: Math 411 or 511, and 471.

Math ID&WS531-532 Complex Variables (3 cr). WSU Math 503. Alt/yrs. Theory of functions of a complex variable.

Math 535 Real Variables (3 cr). Alt/yrs. Measure and integration theory for functions of one or several variables.

Math 536 Probability Theory (3 cr). Alt/yrs. Random variables, characteristic functions, convergence theorems, central limit theorem, conditional probability, and stochastic processes as developed from a measure theoretic basis. Prereq: Math 535 or perm.

Math ID&WS539 Theory of Ordinary Differential Equations (3 cr). WSU Math 512. Alt/yrs. Existence, uniqueness, and stability of solutions of first-order systems; other topics.

Math WS540 Partial Differential Equations I (3 cr). WSU Math 540.

Math ID&WS541A (s) **Seminar in Analysis** (1-3 cr, max arr). WSU Math 581. Current lit.

Math WS541B Partial Differential Equations II (3 cr). WSU Math 541.

Math ID&WS544 Stochastic Models (3 cr). See Math J453/J544.

Math WS545 Numerical Analysis of Evolution Equations (3 cr). WSU Math 545.

Math 546 (s) **Topics in Analysis** (1-3 cr, max arr).

Math ID550A Linear Algebra (3 cr). WSU Math 554. Alt/yrs. Vector spaces, direct sums, quotient spaces, similarity, Jordan forms, inner products, eigenvalues, eigenvectors, spectral theory.

Math WS550B Advanced Topics in Geometry (3 cr). WSU Math 550. Alt/yrs.

Math ID551 Ring Theory (3 cr). WSU Math 553. Alt/yrs. Ideals, quotient rings, modules, radicals, semisimple Artinian rings, Noetherian rings.

Math ID552 Galois Theory (3 cr). WSU Math 552. Alt/yrs. Field extensions, automorphisms, normality, splitting fields, radical extensions, finite fields, separability. (A knowledge of group theory is presumed.)

Math 553 Group Theory (3 cr). Alt/yrs. Permutation groups, isomorphisms, direct products, Sylow theory, normal series, abelian groups.

Math ID&WS561 (s) **Seminar in Algebra** (1-3 cr, max arr). WSU Math 582. Current literature.

Math WS564 Topics in Optimization (3 cr, max arr). WSU Math 564.

Math 566 (s) **Topics in Algebra** (1-3 cr, max arr).

Math WS570 Mathematical Foundations of Continuum Mechanics I (3 cr). WSU Math 570.

Math ID&WS571A-ID&WS572 Functional Analysis (3 cr). WSU Math 504-506. Alt/yrs. Linear topological spaces and linear operators. Prereq: Math 536.

Math WS571B Mathematical Foundations of Continuum Mechanics II (3 cr). WSU Math 571.

- Math 574 **Topics in Applied Mathematics** (3 cr). Integral and differential equations.
- Math R577-R578 **Advanced Mathematical Statistics** (3 cr). Development and application of mathematical statistics to problems in the engineering sciences. Prereq: perm.
- Math R580 **Numerical Solutions of Partial Differential Equations** (3 cr). Finite difference methods for elliptic, parabolic, and hyperbolic equations; solution methods suitable for digital computers; iterative methods for large scale linear systems. Prereq: perm.
- Math 581 (s) **Seminar in Combinatorics** (1-3 cr, max arr).
- Math 582 (s) **Topics in Combinatorics** (1-3 cr, max arr).
- Math WS583 **Seminar in Applied Mathematics** (3 cr, max arr). WSU Math 583.
- Math WS584 **Seminar in Topology and Geometry** (3 cr, max arr). WSU Math 584.
- Math 585A-586A **Recent Developments in Mathematics** (3 cr). For students with extensive background in specific areas of mathematics.
- Math WS585B **Seminar in Number Theory** (3 cr, max arr). WSU Math 585. Alt/yr.
- Math WS586B **Topics in Mathematical Modeling in Natural Sciences** (3 cr, max 12). WSU Math 586.
- Math 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.
- Math 600 **Doctoral Research and Dissertation** (cr arr).

STATISTICS

CREDIT LIMITATIONS: Credit is not given for both Stat 251 and 301.

- Stat 150 **Introduction to Statistics** (3 cr). Satisfies core requirement J-3-c. Intro to statistical reasoning with emphasis on examples and case studies; topics include design of experiments, descriptive statistics, measurement error, correlation and regression, probability, expectation, normal approximation, sample surveys, tests of significance.
- Stat 251 **Principles of Statistics** (3 cr). Satisfies core requirement J-3-c. Cr not given for both Stat 251 and 301. Intro to statistical methods including descriptive statistics, probability, confidence intervals, hypothesis testing, chi-square, analysis of variance, regression, and correlation. Prereq: Math 111 or 140 or 2 yrs of high school algebra.
- Stat ID&WS301 **Probability and Statistics** (3 cr). WSU Stat 360. Intended for engineers, mathematicians, and physical scientists. Cr not given for both Stat 251 and 301. Intro to sample spaces, random variables, statistical distributions, hypothesis testing, basic experimental design, regression, and correlation. Prereq: Math 190.
- Stat ID401 **Statistical Analysis** (3 cr). WSU Stat 401. Concepts and methods of statistical research including multiple regression, contingency tables and chi-square, experimental design, analysis of variance, multiple comparisons, and analysis of covariance. Prereq: Stat 251 or 301.
- Stat WS412 **Biometry** (3 cr). WSU Stat 412.
- Stat WS-J420/WS-J520 **Statistical Analysis of Qualitative Data** (3 cr). WSU Stat 420/520.
- Stat ID&WS422 **Sampling Methods** (2 cr). WSU Stat 422. Simple and stratified random sampling, systematic sampling, cluster sampling, double sampling, area sampling, and estimation of sample size. Prereq: Stat 251 or 301.
- Stat ID428 **Geostatistics** (3 cr). See GeolE 428.
- Stat 433 **Econometrics** (3 cr). See Econ 453.
- Stat 437 **Statistics for Business Decisions** (3 cr). See Bus 437.
- Stat ID&WS451-ID&WS452 **Probability Theory and Mathematical Statistics** (3 cr). See Math 451-452.
- Stat ID&WS-J453/ID&WS-J544 **Stochastic Models** (3 cr). See Math J453/J544.
- Stat 455 **Applied Actuarial Science II** (0 cr). Review of mathematical and applied statistics in preparation for actuarial exam 2. Prereq: Stat 301 and Math 451-452.
- Stat 456 **Quality Management** (3 cr). See Bus 456.
- Stat 457 **Nonparametric Statistics** (2 cr). Methods of nonparametrical statistical tests. Prereq: Stat 251 or 301.
- Stat 499 (s) **Directed Study** (cr arr). Prereq: perm.
- Stat 500 **Master's Research and Thesis** (cr arr).
- Stat 502 (s) **Directed Study** (cr arr). Prereq: perm.
- Stat 503 (s) **Workshop** (cr arr). Prereq: perm.
- Stat 504 (s) **Special Topics** (cr arr). Prereq: perm.
- Stat R505 **Engineering Statistics** (1-3 cr). See ES R505.

- Stat 507 **Experimental Design** (3 cr). Methods of constructing and analyzing designs for experimental investigations; analysis of designs with unequal subclass numbers; concepts of blocking randomization and replication; confounding in factorial experiments; incomplete block designs; response surface methodology. Prereq: Stat 401.
- Stat ID&WS510 **Regression** (3 cr). WSU Stat 535. Simple multiple and polynomial regression in matrix format; estimation, testing, and prediction; stepwise and other numerical methods, examination of residuals, weighted least squares and nonlinear models. Prereq: Stat 301, 401, and Math 330.
- Stat ID514 **Nonparametrics** (3 cr). WSU Stat 514. Conceptual development of nonparametric methods including one, two, and k-sample tests for location and scale, randomized complete blocks, rank correlation, and runs test; power, sample size, efficiency, and ARE. Prereq: Stat 401.
- Stat WS520 **Statistical Analysis of Qualitative Data** (3 cr). See Stat J420/J520.
- Stat ID&WS521 **Multivariate Analysis** (3 cr). WSU Stat 519. The multivariate normal, Hotelling's T², multivariate general linear model, discriminant analysis, covariance matrix tests, canonical correlation, and principle component analysis. Prereq: Stat 401.
- Stat 522 **Statistical Genetics** (3 cr). See AnSc 522.
- Stat WS531 **Econometrics** (3 cr). WSU Stat 531.
- Stat ID&WS533 **Theory of Linear Models** (3 cr). WSU Stat 533. Theory of least squares analysis of variance models and the general linear hypothesis; small sample distribution theory for regression, fixed effects models, variance components models, and mixed models. Prereq: Math 451.
- Stat WS539 **Time Series** (3 cr). WSU Stat 516.
- Stat ID&WS544 **Stochastic Models** (3 cr). See Math J453/J544.
- Stat R547 **Applied Time Series Forecasting** (3 cr). See EE R547.
- Stat WS548-WS549 **Statistical Theory I-II** (3 cr). WSU Stat 548-549.
- Stat ID555 **Statistical Ecology** (3 cr). See WLF 555.
- Stat ID&WS571 **Reliability Theory** (3 cr). WSU Stat 571. Alt/yr. Statistical concepts; stochastic material strengths and lifetimes; strength versus safety analysis; reliability of coherent systems; maintenance models; complex systems. Prereq: Math 451.
- Stat WS572 **Data Analysis** (3 cr). WSU Stat 572.
- Stat 597 (s) **Practicum** (cr arr). Prereq: perm.
- Stat 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

MATHEMATICS (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and:

Course	Credits
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 215 Seminar in Topology of the Plane	3
Math 330 or 440 Linear Algebra	3
Math 461 Abstract Algebra	3
Math 462 Abstract Algebra or 472 Advanced Calculus	3
Math 471 Advanced Calculus	3
Math electives in courses numbered above 300, at least 6 cr of which are in courses numbered above 401	12
Phys 210, 211 Engr Physics I, II, and either Phys 222 or an upper-division physics course with a Math 180 prereq (to acquaint the student with an area in which math is systematically applied; upon approval of the dept, substitution of other courses to meet this requirement may be allowed)	9

MATHEMATICS: APPLIED (B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.S. degree, and:

Course	Credits
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 330 Linear Algebra	3
CS 112 Introduction to Problem Solving & Programming	3

And one of the following options:

A. STATISTICS OPTION

Course	Credits
Math 451-452 Probability Theory & Math Statistics	6
Math 453 Stochastic Models	3
Stat 301 Probability & Statistics	3
At least two courses from the following	6
Math 405 Analysis of Algorithms	

Math 426 Optimization	
Math 432 Numerical Linear Algebra	
Math 433 Numerical Analysis	
Math 440 Linear Algebra	
Math 471-472 Advanced Calculus	
CS 213 Data Structures	
At least two courses from the following	5-6
Stat 401 Statistical Analysis	
Stat 422 Sampling Methods	
Stat 507 Experimental Design	
Stat 510 Regression	
Stat 514 Nonparametrics	
Stat 521 Multivariate Analysis	
Approved electives in fields where statistics is applied (not to be in stat courses)	6

B. COMPUTATION OPTION

Course	Credits
Math 405 Analysis of Algorithms	3
Math 432 Numerical Linear Algebra	3
Math 433 Numerical Analysis	3
CS 213 Data Structures	3
At least three courses from the following, including at least one course numbered 346 or above	9
Math 310 Ordinary Differential Equations	
Math 326 Linear Programming	
Math 346 Applied Combinatorics	
Math 376 Discrete Mathematics II	
Math 426 Optimization	
Math 485 Theory of Computation	
Stat 301 Probability & Statistics	
Two additional math courses numbered 400 or above	6

C. SCIENTIFIC OPTION

Course	Credits
Math 310 Ordinary Differential Equations	3
Math 480 Partial Differential Equations	3
Stat 301 Probability & Stat or Math 451 Probability Theory & Math Stat	3
At least two courses from the following	5-6
Math 202 Seminar	
Math 420 Complex Variables	
Math 432 Numerical Linear Algebra	
Math 433 Numerical Analysis	
Five additional math courses selected from 326, 346, or courses numbered 400 or above	15

D. ACTUARIAL SCIENCE OPTION

Course	Credits
Math 326 Linear Programming	3
Math 433 Numerical Analysis	3
Math 451-452 Probability Theory & Math Stat	6
Three courses selected from the following	8-9
Math 405 Analysis of Algorithms	
Math 432 Numerical Linear Algebra	
Math 453 Stochastic Models	
Math 471 Advanced Calculus	
Math 472 Advanced Calculus	
Stat 422 Sampling Methods	
Stat 510 Regression	
Stat 521 Multivariate Analysis	
Acctg 201-202 Intro to Accounting or 395 Fundamentals of Accounting	4-6
Bus 301 Financial Management	3
Bus 364 Insurance	3
Econ 201, 202 Prin of Economics or 272 Foundations of Economic Analysis	4-6
Stat 301 Probability & Statistics	3
Stat 401 Statistical Analysis	3
At least one course selected from the following	3
Bus 401 Investments	
Bus 405 Portfolio Management	
Econ 352 Intermediate Microeconomic Analysis	
Econ 353 Quantitative Methods in Economics	
Econ 453 Econometrics	

Academic Minor Requirements

MATHEMATICS MINOR

Course	Credits
Math 180, 190 Analytic Geometry & Calculus	8
Six math courses chosen from Math 200, Stat 301, and math courses numbered 300 or above	18

STATISTICS MINOR

Course	Credits
Stat 251 Prin of Statistics or 301 Probability & Statistics	3
Stat 401 Statistical Analysis	3
Stat 422 Sampling Methods	2

Math 160 Survey of Calculus or 180 Analytic Geometry & Calculus	4
Math 330 Linear Algebra	3
Two of the following courses	5-6
Stat 433 Econometrics	
Stat 437 Statistics for Business Decisions	
Stat 456 Quality Management	
Stat 457 Nonparametric Statistics or 514 Nonparametrics	
Math 451 Probability Theory & Math Statistics	

Department of Mechanical Engineering

E. Clark Lemmon, Dept. Chair (202 Gauss Lab. Bldg.; 208/885-6579). Faculty: Michael J. Anderson, Jasper R. Avery, Steven W. Beyerlein, Donald M. Blackketter, Ralph S. Budwig, Paul J. Dawson, Karen R. DenBraven, Dean B. Edwards, Donald F. Elger, Martha Ford, Richard T. Gill, Richard T. Jacobsen, Timothy W. Lancey, E. Clark Lemmon, Edwin M. Odom, Steven G. Penoncello, T. Alan Place, Larry A. Stauffer, Robert R. Stephens, Blaine W. Tew, Weldon R. Tovey, David M. Woodall.

Mechanical engineering is concerned with the application of the principles of science and technology in the creation of products and systems to benefit mankind in several areas including: (1) the conversion of energy from natural sources to provide power, light, heating and cooling, and transportation; (2) the design and development of machines to extend and to increase the efficiency of human effort; (3) the design, development, and operation of systems for utilizing energy and other resources; and (4) the production of manufactured goods.

Mechanical engineering is broad in scope and provides a wide range of careers for trained professionals in industry, business, government, and universities. Positions are available in design, testing, manufacturing, research, development, operations, system analysis, marketing, and administration. Mechanical engineers are often involved as professional team members in economic and social-humanistic matters and are responsible for the interaction of technical advances with social and environmental concerns.

The mechanical engineering program at UI is designed to prepare students for entry into professional practice and for continuing education at the master's and doctoral levels. The engineering sciences, physical sciences, mathematics, communications, humanities, and social sciences form the basis for the curriculum. The program also includes specialized courses in thermal sciences and applied mechanics. Development of creative ability in design and synthesis of machines and systems is an important part of the departmental curriculum. Computer applications are emphasized in course work. Students are encouraged to develop individual interests through the selection of technical elective courses.

The department has a variety of equipment for instruction and research applications. Among the facilities available are an industrial robot, large electrohydraulic universal testing machines, standard metallographic facilities, vibration testing equipment, solar collector systems, engine testing equipment, wind tunnels, specialized computing equipment, and data acquisition and measurement systems. Research and laboratory equipment in other departments is also used by mechanical engineering students.

Research projects conducted by faculty members provide both experience and financial support for undergraduate and graduate students in mechanical engineering. Faculty members also perform consulting services in addition to their academic responsibilities.

Faculty members are available to discuss details of the program in their specialty areas with interested students. General questions regarding the undergraduate program should be addressed to the undergraduate adviser, Jasper R. Avery, or the department chair (telephone 208/885-6579).

A degree in manufacturing engineering may be available as a cooperative effort with Boise State University and will be offered only in Boise when resources become available. Contact the department for more information.

The following graduate degrees are available in mechanical engineering: Ph.D., M.S., and M.Engr. (nonthesis degree). The department may offer M.S. and M.Engr. degrees in manufacturing

engineering in Boise in cooperation with Boise State University. In addition, the Ph.D., M.S., and M.Engr. in nuclear engineering are offered at the UI/Idaho Falls Center for Higher Education. Minimum preparation for graduate study in mechanical engineering is a B.S. degree in a curriculum in mechanical engineering that is accredited by the Accreditation Board for Engineering and Technology (A.B.E.T.). Students entering the program with an engineering or physical science baccalaureate degree in a major other than mechanical engineering must demonstrate proficiency in the subjects required in the B.S.M.E. program. Individual student qualifications are assessed by the departmental graduate committee, which also determines undergraduate deficiencies. The graduate adviser is E. Clark Lemmon, 202 Gauss (208/885-6579).

Mechanical Engineering Courses

Note: Preadvising is required for all mechanical engineering courses; consult the mechanical engineering adviser or departmental administrator.

ME 101 Engineering Graphics (2 cr) (Engr 101). Freehand and computer aided drawing in pictorial and orthographic projection; section and auxiliary views; descriptive geometry; graphical presentation of data; scales, dimensioning, and measurements. Two lec and one 2-hr lab a wk.

ME 103 Introduction to Engineering (2 cr) (Engr 103). Summer short course for JETS Program. Intro to engineering career opportunities through analysis of engineering design problems; includes computer graphics, programming languages, economics, and statistics.

ME ID&WS220 Engineering Dynamics (3 cr) (ES ID&WS220). WSU C E 212. Particle and rigid body kinematics and kinetics; rectilinear, curvilinear, and relative motion, equations of motion, work and energy, impulse and momentum, systems of particles, rotation, rotating axes, rigid body analysis, angular momentum, vibration, and time response. Prereq: CE 210.

ME 223 Mechanical Design Analysis (2 cr). Fundamentals of engineering design, graphic representation and computer-aided design (CAD) of engineering systems. Two lec a wk. Prereq: ME 101, CS 105, or perm.

ME 253 Materials Processing (3 cr). Theory and practice of machining, casting, forming, and shaping materials; intro to numerical control (N/C) and computer-aided manufacturing (CAM) tech.

ME 261 Engineering Materials (3 cr). Fundamental factors in influencing properties and selection of materials. Prereq: Chem 111.

ME 262 Engineering Materials Lab (1 cr). Crystallography, mechanical testing, phase transformations, heat treatment and corrosion of polymers, metals, and ceramics. One 2-hr lab a wk. Coreq: ME 261 or Met 201.

ME 304 Materials Selection for Mechanical Design (2 cr). Selection of engineering materials related to service conditions. Prereq: ME 261.

ME 322 Applied Thermodynamics (3 cr). First and second laws; property relations; mixtures applications; irreversibility and availability; cycles; selected topics in applied thermodynamics. Prereq: ChE 321; coreq: Math 310.

ME ID&WS324 Dynamic Analysis in Machine Design (3 cr). WSU M E 312. Kinematic, static, and dynamic principles and application to analysis and synthesis of machines with emphasis on computer-aided design (CAD) tech. Two lec and one 3-hr lab a wk; one 1-day field trip. Prereq: ME 220, Math 310; coreq: ME 223.

ME 330 Experimental Methods for Engineers (3 cr). Measurement systems and their application to engineering problems; topics include generalized performance of measurement systems, measuring and control devices, data acquisition and analysis, and report writing. Two lec and one 2-hr lab a wk. Coreq: EE 207, CE 320, ChE 321, ME 340.

ME ID&WS340 Engineering Mechanics of Materials (3 cr) (C) (ES ID&WS340). WSU C E 215. Elasticity, strength, and modes of failure of engineering materials; theory of stresses and strains for ties, shafts, beams, and columns. Prereq: CE 210, Math 200; coreq: Math 310.

ME 345 Heat Transfer (3 cr). Transmission by conduction of heat in steady and unsteady states, by free and forced convection, and by radiation; combined effects of conduction, convection, and radiation. Prereq: ChE 321, Math 310.

ME 361 Applied Engineering Materials (3 cr). Strengthening and surface treatment of materials; joining of metals; properties of nonmetallurgics; composite materials; photomicrography; failure investigation of mech engineering systems. Two lec and one 2-hr lab a wk. Prereq: ME 261.

ME ID&WS380 Modeling of Engineering Systems I (3 cr). WSU M E 313. Application of mathematical and basic engineering principles in solution of engineering problems and mathematical modeling of engineering systems; solution of problems by analytic and numerical methods; intro of computer program for dynamic systems analysis and for data analysis. Prereq: Math 310.

ME 381 Modeling of Engineering Systems II (3 cr). Continuation of ME 380, including transfer functions, state variable techniques, simulation diagrams, and complex systems modeling; computer applications including root-finding, numerical differential integration, and applications to systems. Prereq: ME 380.

ME WS402 Polymeric Materials (3 cr). WSU MSE 402.

ME 404 (s) Special Topics (cr arr). Prereq: perm.

ME 409 Human Factors in Engineering Design (3 cr). Application of psychological principles to engineering and design; psychological models and principles from areas of perception, cognition, and information processing; the design process; display and control design; work station layout and system integration; environmental factors; safety; mental workload; human-computer interaction; and current research topics. Prereq: upper-div standing in engineering.

ME 410 Production Engineering (3 cr). Planning, analysis, and control of engineering design processes, decision models, CPS, PERT, data collection, linear programming, materials management, quality control, computer techniques.

ME 412 Gas Dynamics (3 cr). Compressible flow in ducts and nozzles, shock waves and expansion waves, and adiabatic two-dimensional compressible flow. Prereq: Math 310, CE 320, and ChE 321.

ME J413/J513 Acoustics (3 cr). Fundamentals of acoustics including wave theory, acoustic transmission phenomena, acoustic transmission lines, acoustics of enclosed spaces, sound generation, and sound attenuation. Additional projects/assignments reqd for grad cr. Prereq: CE 320, ChE 321, ME 380.

ME J420/J520 Fluid Dynamics (3 cr). Same as CE J420/J520. Cr not granted for both ME 420 and ME 520. A second fluid dynamics course emphasizing theoretical perspective appropriate for either research or grad school preparation; topics include fluid properties, tensor analysis, kinematics, Navier-Stokes equation, energy equation, and vortex dynamics; study of current literature. Additional projects/assignments reqd for grad cr. Prereq: CE 320, Math 310, or perm.

ME 422 Analytical Thermodynamics (3 cr). Thermodynamic properties of real fluids; computer modeling and analysis of thermodynamic systems. Prereq: ME 322 or perm.

ME ID&WS425 Mechanical Design (4 cr). WSU ME 414. Stress and strain, material failure, combined stresses, variable and impact loading, machine elements, lubrication theory, bearing design, and computer-aided design (CAD) principles. Prereq: ME 223, 340.

ME 426 Mechanical Design (5 cr). Capstone design instruction and project, including economic analysis, cost estimation, decision making, optimization, value analysis, product reliability, CAD, and other design techniques; students work in teams to solve industrial design projects. Three lec, two 2-hr labs, and four hrs of independent work a wk; one 1-day field trip. Prereq: ME 324, 425; coreq: Eng 317.

ME 427 Computer Aided Design (3 cr). CAD techniques including finite element and optimum design, applications to mechanical systems elements with practical design constraints. Coreq: ME 425 or perm.

ME 430 Senior Lab (3 cr). Detailed lab investigation of engineering problem; statistical design of experiments; application of engineering principles to analyze experimental data; technical report writing; oral communication skills. One lec and four hrs of lab a wk. Prereq: ME 330; coreq: Eng 317.

ME 433 Combustion Engine Systems (3 cr). Theory and characteristics of combustion engines; combustion process analysis; fuels, exhaust emissions and controls; system analysis and modeling. Prereq: ME 322; coreq: ME 345.

ME 435 Thermal Systems and Design: Energy Systems (3 cr). Design and applications of alternative energy systems, including solar energy, wind power, photovoltaic, geothermal, and others. Prereq: ME 322, 345.

ME J439/ID&WS-J539 Advanced Mechanics of Materials (3 cr). Same as CE 510. WSU C E 514. Limitations of results of ES 340, more complex situations of loading and structural geometry, applications to design of machines and structures. Additional projects/assignments reqd for grad cr. Prereq: ME 340, Math 310.

ME 444 Air Conditioning Engineering (3 cr). Requirements for air conditioned spaces for human comfort; thermodynamic properties of air-water vapor mixtures; heating and cooling loads; design of systems for heating, cooling, and ventilation. Prereq: ME 322, 345.

ME J445/ID&WS-J545 Numerical Conduction Heat Transfer (3 cr). WSU M E 513. Cr not granted for both ME 445 and ME 545. Steady-state and transient conduction of heat; analytical and numerical methods including finite differences, finite elements, and boundary elements. Additional projects/assignments reqd for grad cr. Prereq: ME 345, 380, or perm.

ME J451/J551 Experimental Methods in Fluid Dynamics and Heat Transfer (3 cr). Cr not granted for both ME 451 and ME 551. Theory and applications of transducers and instrumentation to measure velocity, temperature, and related quantities; flow visualization, pressure measurements, thermal anemometry, laser Doppler velocimetry, temperature and concentration measurement, and heat flux measurement. Additional projects/assignments reqd for grad cr. One 1-1/2 hr lec and one 3-hr lab a wk. Prereq: ME 330; coreq: Eng 317, ME 345, or perm.

ME 461 Fracture Mechanics (3 cr). Fracture mechanics approach to structural integrity, fracture control, transition temperature, microstructural and environmental effects, fatigue and failure analysis. Prereq: ME 261, 340.

ME WS470 Kinematic Synthesis (3 cr). WSU M E 470. Cr not granted for both ME 470 and 570.

ME ID&WS-J472/ID&WS-J572 Mechanical Vibrations (3 cr). WSU M E 449. Cr not granted for both ME 472 and ME 572. Free and forced vibration of single degree of freedom, multiple degree of freedom, and continuous systems; response of mechanical systems to inputs of varying complexity, ranging from single frequency to pseudo-random; applications to mechanical design and vibration control. Additional projects/assignments reqd for grad cr. Prereq: ME 380, ME 381 or equivalent.

ME 473 Experimental Stress and Vibration Analysis (3 cr). Measurement of static and dynamic displacements, strains and stresses on deformable bodies; use of a universal test frame, extensometers, and strain gauges for quantitative static measurements, photoelasticity and brittle coating tech for qualitative static measurements; use of accelerometers, strain gauges, eddy current sensors, and impact hammers for dynamic measurements; emphasis on digital data acquisition and analysis. Coreq: ME 472, ME 439 or perm.

ME J476/J576 Automation, Robotics, and Computer Integrated Manufacturing (3 cr). Cr not granted for both ME 476 and ME 576. Comprehensive technical survey of important topics in production automation and related systems; flow line production, industrial robotics, material handling, group technology, flexible manufacturing systems, process control, and computer integrated manufacturing (CIM). Additional projects/assignments reqd for grad cr. Prereq: ME 381.

ME ID&WS-J481/J581 Control Systems (3 cr). WSU M E 481. Cr not granted for both ME 481 and ME 581. Analysis and design of feedback control systems utilizing frequency and time domain methods. Additional projects/assignments reqd for grad cr. Prereq: ME 381.

ME J485/J585 Systematic Methods and AI in Engineering Design (3 cr). Development of two new topics in engineering design—systematic methods and artificial intelligence (AI); systematic methods, originated in West Germany, give the engineer a structured approach to design, requiring task clarification and functional development; AI is an area of cognitive science that can be applied to design through expert systems, logic programming, knowledge representation, etc. Additional projects/assignments reqd for grad cr. Prereq: sr or grad standing in engineering.

ME 491 Seminar (0 cr). Graded P/F. Professional practice and technical topics, professional registration, presentations by practicing engineers. One 3-6 day field trip may be reqd. Prereq: sr standing.

ME 499 (s) Directed Study (cr arr). Selected topics. Detailed report reqd. Prereq: sr standing and perm.

ME 500 Master's Research and Thesis (cr arr).

ME 502 (s) Directed Study (cr arr). Supervised study, including critical reading of current literature. Prereq: perm.

ME 503 (s) Workshop (cr arr). Prereq: perm.

ME 504 (s) Special Topics (cr arr). Prereq: perm.

ME ID&WS505 Dynamics (3 cr). WSU M E 540. Dynamic specs of solid bodies; rectangular, angular, and plane motion; three-dimension dynamics; beams. Prereq: Math 310, or perm.

ME 507 Machine Design (3 cr). Advanced mechanical design to meet needs and interests of students; special projects. Prereq: ME 425 or perm.

ME 508 Advanced Stress Analysis (3 cr). Evaluation of stress and strain by analytical and experimental methods; use of digital computer; applications to design of mechanical components. Prereq: ME 473, 340.

ME 513 Acoustics (3 cr). See ME J413/J513.

ME 515 Transport Phenomena (3-4 cr). See ChE 515.

ME 519 Fluid Transients (3 cr). See CE 519.

ME 520 Fluid Dynamics (3 cr). See ME J420/J520.

ME WS521 Fundamentals of Fluid Mechanics (4 cr). WSU M E 521.

ME ID&WS522 Statistical Thermodynamics (2-3 cr). WSU M E 511. Probability theory and quantum mechanics, statistical mechanics, thermodynamic probability, molecular interpretation of first and second laws; kinetic theories. Prereq: ChE 321.

ME 524 Thermodynamics (2-3 cr). Thermodynamic laws for design and optimization of thermodynamic systems, equations of state, properties of ideal and real fluids; recent development in experimental and theoretical thermodynamics. Prereq: ME 322 or perm.

ME R525 Advanced Heat Transfer (2-3 cr). See ChE 525.

ME R528 Advanced Thermodynamics (3 cr). Same as ChE 528. Laws of thermodynamics and statistical thermodynamics; equations of state; thermodynamic properties of ideal and real fluids; pure components and mixtures; physical and chemical equilibrium; design and optimization of thermodynamic systems. Prereq: perm.

ME WS530A Reinforced Polymer and Wood Based Composites (3 cr). WSU MSE 548.

ME WS530B Solid Mechanics (3 cr). WSU M E 530.

ME WS531 Deformation and Fracture of Solids (3 cr). WSU M E 531.

ME WS533 Experimental Methods in Materials and Manufacturing Process (3 cr). WSU M E 533.

ME ID534 Mechanics of Composite Materials (3 cr). WSU M E 534. Analysis of micromechanical and macromechanical behavior of composite materials with emphasis on fiber-reinforced composite; prediction of properties; stiffness and strength theories; laminated beams and plates; dynamic behavior; environmental effects. Prereq: ME 340, Math 310.

ME 535 Failure of Structural Materials (3 cr). See Met 535.

ME R537 Advanced Fluid Mechanics (2-3 cr). See ChE 537.

ME ID&WS539 Advanced Mechanics of Materials (3 cr). See ME J439/J539.

ME 540 Continuum Mechanics (3 cr). See CE 540.

ME 541 Mechanical Engineering Analysis I (2-3 cr). See ChE 541.

ME WS542 Optimal Control of Dynamic Systems (3 cr). WSU M E 542.

ME WS543 Natural and Synthetic Polymeric Materials (3 cr). WSU MSE 543.

ME WS544 Basic Principles of Adhesion (3 cr). WSU MSE 547.

ME ID&WS545 Numerical Conduction Heat Transfer (3 cr). See ME J445/J545.

ME ID&WS546 Convective Heat Transfer (3 cr). WSU M E 515. Energy conservation equations; laminar and turbulent forced convective heat transfer; internal and external flow; free convection. Prereq: ME 345 or perm.

ME ID&WS547 Thermal Radiation Processes (2-3 cr). WSU M E 514. Thermal radiation; radiation interchange among surfaces; radiation in absorbing-emitting gases; combined modes of heat transfer. Prereq: ME 345 or perm.

ME 548 Elasticity (3 cr). See CE 548.

ME 549 Finite Element Analysis (3 cr). See CE 546.

ME ID&WS550 Advanced Vibration Analysis (3 cr). WSU M E 541. Analysis of discrete and continuous vibrating systems, finite difference and transfer matrix methods, frequency analysis, random vibrations. Prereq: ME J472/572 or perm.

ME 551 Experimental Methods in Fluid Dynamics and Heat Transfer (3 cr). See ME J451/J551.

ME WS552 Experimental Methods in Thermal-Fluid Science (3 cr). WSU M E 552.

ME WS553 Two-Phase Flow (1-3 cr, max 3). WSU M E 553.

ME WS556 Numerical Modeling in Fluid Mechanics (3 cr). WSU M E 556.

ME 557 Advanced Fluid Dynamics (3 cr). Potential flow and boundary layer theory, plus one or more advanced topics. Prereq: ME J420/J520 or 540 or perm.

ME WS561 Combustion (3 cr). WSU M E 561.

ME WS570 Kinematic Synthesis (3 cr). WSU M E 570. Cr not granted for both ME 470 and 570.

ME 572 Mechanical Vibrations (3 cr). See ME J472/J572.

ME 576 Automation, Robotics, and Computer Integrated Manufacturing (3 cr). See ME J476/J576.

ME WS578 Advances in Manufacturing Science (3 cr). WSU M E 574.

ME 581 Control Systems (3 cr). See ME J481/J581.

ME 585 Systematic Methods and AI in Engineering Design (3 cr). See ME J485/J585.

ME 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

ME 600 Doctoral Research and Dissertation (cr arr).

Curricular Requirements

MANUFACTURING ENGINEERING (B.S.Mfg.E.)

This curriculum may be available as a cooperative effort with Boise State University and will be offered only in Boise when resources become available. Contact the department for more information.

Required course work includes the university requirements (see regulation J-3), and the following:

Course	Credits
ChE 321 Engineering Thermodynamics & Heat Transfer	3
Chem 111 Principles of Chemistry	4
Chem 114 General Chemistry	4
CE 210 Engineering Statics	3
CS 105 FORTRAN Programming for Engineers	2
EE 207 Introduction to Electrical Engineering	3
EE 314 Electronic Systems or EE 324 Electric Machinery	3
Eng 317 Technical & Engineering Report Writing	3
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 310 Ordinary Differential Equations	3

ME 101 Engineering Graphics	2
ME 220 Engineering Dynamics	3
ME 223 Mechanical Design Analysis	2
ME 253 Materials Processing	3
ME 261, 262 Engineering Materials & Lab	4
ME 320 Engineering Fluid Mechanics	3
ME 324 Dynamic Analysis in Machine Design	3
ME 330 Experimental Methods for Engineers	3
ME 340 Engineering Mechanics of Materials	3
ME 380, 381 Modeling of Engineering Systems I, II	6
ME 409 Human Factors in Engineering Design	3
ME 410 Production Engineering	3
ME 411 Engineering Fundamentals	0
ME 425, 426 Mechanical Design	9
ME 427 Computer Aided Design	3
ME 430 Senior Laboratory	3
ME 476 Automation, Robotics, & Computer Integrated Manufacturing	3
ME 481 Control Systems	3
ME 491 Seminar	0
Phys 210, 211, 212, 213 Engineering Physics & Lab	8
Stat 301 Probability & Statistics	3
Humanities and social sciences electives (incl at least (1) one upper-div course or (2) a course that has another humanities-social sc course as a prereq)	16
Approved technical electives	3

The minimum number of credits for the degree is 130, not counting Eng 103, Math 140, and other courses that might be required to remove deficiencies.

A grade of C or better is required in each of the following courses before registration is permitted in upper-division engineering courses: Chem 111, CE 210, Math 180, 190, and 200, ME 101, and Phys 210.

MECHANICAL ENGINEERING (B.S.M.E.)

Note: To graduate in this program, a minimum grade of C must be earned in all engineering, mathematics, and science courses used to satisfy the curriculum.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
ME 223 Mechanical Design Analysis	2
ME 253 Materials Processing	3
ME 261 Engineering Materials or Met 201 Elements of Materials Science	3
ME 262 Engineering Materials Lab	1
ME 322 Applied Thermodynamics	3
ME 324 Dynamic Analysis in Machine Design	3
ME 330 Experimental Methods for Engineers	3
ME 345 Heat Transfer	3
ME 380, 381 Modeling of Engineering Systems I-II	6
ME 425, 426 Mechanical Design	9
ME 430 Senior Laboratory	3
ME 491 Seminar	0
ChE 321 Engineering Thermodynamics & Heat Transfer	3
Chem 111 Principles of Chemistry	4
Chem 114 General Chemistry	4
CE 210 Engineering Statics	3
CE 320 Engineering Fluid Dynamics	3
CS 105 FORTRAN Programming for Engineers	2
EE 207 Introduction to Electrical Engineering	3
EE 314 Electronic Systems or 324 Electric Machinery	3
Eng 317 Technical & Engineering Report Writing	3
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 310 Ordinary Differential Equations	3
ME 101 Engineering Graphics	2
ME 220 Engineering Dynamics	3
ME 340 Engineering Mechanics of Materials	3
ME 411 Engineering Fundamentals	0
Phys 210, 211, 212, 213 Engineering Physics & Lab	8
Humanities and social sciences electives (incl at least (1) one upper-div course or (2) a course that has another humanities-social sc course as a prereq)	16
Technical electives	15

The minimum number of credits for the degree is 131, not counting Eng 103, Math 140, and other courses that might be required to remove deficiencies.

A grade of C or better is required in each specified lower-division course before registration is permitted in upper-division engineering courses. These courses include: Chem 111 and 114, CS 105, EE 207, CE 210 and 220, Math 180, 190, and 200, ME 101, 223, 253, 261, and 262, and Phys 210, 211, 212, and 213. In addition, a grade higher than C must be earned in at least one-third of these courses.

NOTE: The 15 cr in technical electives must be selected subject to the following guidelines: (1) electives must be upper-division courses (300-level or above); (2) a minimum of 8 cr must be taken from ME courses; (3) at least 2 cr must be taken from each of the two broad categories of mech engr: (a) thermal sciences and (b) applied mechanics and materials; (4) a coherent package of technical electives must be developed in consultation with an adviser; and (5) elective courses must be chosen so a minimum of three design units is achieved as follows: (a) one design unit: ME 412, 413, 433, 435; (b) two design units: ME 304, 361, 409, 444, 451, 461, 472, 473, 476, 481; and (c) three or more design units: ME 410, 427, 485.

Medical Education Program

Michael B. Laskowski, Director, WAMI (Washington, Alaska, Montana, Idaho) Medical Education Program (304 Student Health Services Bldg.; 208/885-6696). Faculty: Gregory A. Bohach, Nancy Carter, Mark E. DeSantis, Victor P. Eroschenko, Dale O. Everson, Bruce Ham, David E. Magaret, Thomas A. McKean, Dona Merrell, Philip J. Mohan, Ruth Nice, Mary P. Presol, William Trumble.

The following medical doctors serve as affiliate clinical professors (preceptors) of medical science: Betty K. Adams, Richard M. Alford, Eugene M. Baldeck, Randall L. Bivens, Thomas M. Bowen, Patricia Brady, Gregory J. Burrato, Donald Chin, Harry Chinchinian, Robert A. Closson, Robert C. Colburn, Steven J. Cox, Stacey R. Dean, Andrew J. Devlin, Richard B. Donati, Colin Doyle, Ronald J. Dupont, Richard J. Eggleston, Richard A. Emtman, H. Graeme French, Alvin L. Frostad, Susan K. Gelletly, Catherine M. Gorchels, Bruce L. Ham, Cameron D. Hinman, Bonnie L. Houff, John R. Huberty, Martha K. Hunt, Jay A. Hunter, Richard A. Jacobs, Bradley L. Johnson, Carl T. Koenen, Jerome P. Lang, Wenzel A. Leff, Spencer M. Long, David E. Magaret, William C. Mannschreck, Fredy E. Martinez, Carl M. Melina, Homa S. Memon, C. Michael Murphy, Robert L. Olson, Lloyd E. Perino, Dennis L. Peterson, Michael T. Rooney, Wayne Ruby, David Rych, David D. Shupe, Dennis Simpson, Francis K. Spain, David A. Spencer, David N. Spencer, John R. Stoianoff, Robert W. Tulin, Robert V. Wiggins, Malcolm Winter, David P. Young.

WAMI is a cooperative medical education program designed to enhance the training capability of the University of Washington School of Medicine (UWSM) by utilizing the facilities of Washington State University (WSU), University of Alaska, Montana State University, and the University of Idaho (UI). The WAMI program utilizes the physicians' expertise in the states by providing clinical clerkships in the four-state area via a network of 23 community training units for third- and fourth-year medical students. The WAMI program at UI offers first-year medical students an ideal opportunity to study basic medical courses. Because of the small class size, there is a splendid opportunity to interact closely with the faculty.

The WAMI program allows access to medical education for Idaho residents by providing positions at UWSM. These 60 positions, 15 for each of the four years, are reserved exclusively for Idaho residents.

The WAMI program was developed in Idaho to train Idaho residents in medical studies, to address the need for more primary care physicians practicing in rural areas, to extend the resources and facilities of an excellent medical school into Idaho, to improve the quality of patient care, and to minimize the cost of medical education by the use of existing facilities.

Eligibility for consideration as a WAMI medical student requires certification as an Idaho resident. UI's Admissions Office is responsible for residency certification.

Students interested in WAMI apply directly to UWSM. Idaho residents (15) take their first year of medical studies at UI. First-year courses are offered conjointly by UI and WSU in parallel with courses at UWSM. All participating faculty at UI and WSU are subject to the approval of UWSM and are eminently qualified scientists and scholars.

Many of the physicians in the Moscow-Lewiston area are involved in the preceptorship program in which the students work with local physicians and observe their practice in the office and at the hospital.

Since 1972, community clinical units in Boise and Pocatello have been training upper-division medical students in the areas of obstetrics and gynecology, pediatrics, and family medicine. A UWSM clerkship in internal medicine is also offered through the V.A. Hospital in Boise.

Special facilities are maintained for the medical students, including individual study carrels, videotapes, films, and other resource materials in a Curriculum Support Center.

Participants in the WAMI program are matriculated students of the University of Washington Medical School. Upon completion of their studies, they receive the M.D. degree. Following graduation, a postgraduate (internship/residency) training period of three to five years is considered the normal pathway to private practice. Medical students may also be approved for graduate studies at UWSM leading to the M.S. or Ph.D. degree. The M.D.-Ph.D. curriculum usually requires a minimum of six years of study.

Medical Science Courses

Note: Ordinarily, only students enrolled at the University of Washington School of Medicine register to take medical science courses. Matriculated graduate and senior undergraduate students may register for credit in certain medical science courses under appropriate circumstances. In such cases prior approval must be obtained from the faculty member chairing the course and the WAMI director. Permission to register will usually depend on the student also having approval from his or her academic adviser (senior undergraduate students must also obtain approval from the vice provost for research and graduate studies) and be limited to not more than two medical science courses per semester. MedSc 505 (Preceptorship) and MedSc 513, 522, and 535 (Introduction to Clinical Medicine I, II, and III) are closed to all but WAMI medical students.

MedSc 501 (s) **Seminar** (cr arr).

MedSc 502 (s) **Directed Study** (cr arr). Areas normally offered are directed dissection of the extremities, trunk, head, neck, abdomen, and pelvis; endocrinology, physiology, and other medically related studies.

MedSc 504 (s) **Special Topics** (cr arr).

MedSc 505 **Preceptorship** (cr arr). To provide opportunity for first-year medical students to gain personal experience with and insight into medical practice situations; the student will be stationed with physicians in their offices in accordance with the student's preference of discipline at the WAMI sites.

MedSc ID&WS510 **Histology** (3 cr). WSU Med S 510. Microscopy of cells; tissues and organs of the human body; emphasis on function. Three lec and one 3-hr lab a wk.

MedSc ID&WS511 **Anatomy of the Trunk** (5 cr). WSU Med S 511. Regional study of anatomy of human thorax, abdomen, pelvis, and perineum in correlation with clinical cases. Two lec and one 3-hr lab a wk.

MedSc ID&WS512 **Basic Mechanisms in Cellular Physiology** (4 cr). WSU Med S 512. Basic physiological mechanisms, primarily at the cellular level.

MedSc ID&WS513 **Introduction to Clinical Medicine I** (1 cr). WSU Med S 513. Communication skills and interview techniques to form the basis for the eventual doctor-patient relationship.

MedSc ID&WS514 **Molecular and Cellular Biology I** (3 cr). WSU Med S 514. Classical molecular and cellular biochemistry, cellular physiology, and molecular genetics.

MedSc ID&WS516 **Systems of Human Behavior** (2 cr). WSU Med S 516. Conceptual systems and models of behavior, normality and abnormality, environment and social learning, conditioning, learning in the autonomic nervous systems, catecholamines and behavior, illness behavior, feelings, emotion and cognition, physician-patient interaction, diseases and tech of behavior change; human development from birth to senescence emphasizing disorders that occur during various life phases.

MedSc ID&WS520 **Cell and Tissue Response to Injury** (3 cr). WSU Med S 520. Cell and tissue injury, inflammation, and neoplasia.

MedSc ID&WS521 **Natural History of Infectious Diseases and Chemotherapy** (5 cr). WSU Med S 521. Pathogenesis, resistance, epidemiology, clinical manifestations and control of bacterial, fungal, parasitic, and viral infectious diseases, principles of chemotherapy and asepsis; sterilization; nosocomial and iatrogenic infections and prevention.

MedSc ID&WS522 **Introduction to Clinical Medicine II** (2 cr). WSU Med S 522. Continuation of communication skills especially as related to and dealing with effective material.

MedSc ID&WS523 **Medical Immunology** (2 cr). WSU Med S 523. Principles of immunology and their relationship to human medicine.

MedSc ID&WS524 **Molecular and Cellular Biology II** (2 cr). WSU Med S 524. Continuation of MedSc 514.

MedSc ID&WS526 **Systems of Human Behavior** (2 cr). WSU Med S 526. See MedSc ID&WS516 for description.

MedSc ID&WS530 **Epidemiology** (2 cr). WSU Med S 530. Intro to biostatistical inference; interaction of agent, host, and environment in disease causation and transmission.

MedSc ID&WS531 **Head, Neck, Ear, Nose, and Throat** (5 cr). WSU Med S 531. Gross anatomy, including skull, pharynx, and larynx; audition and balance.

MedSc ID&WS532 **Nervous System** (5 cr). WSU Med S 532. Normal structure and function of the nervous system, including the eye.

MedSc ID&WS535 **Introduction to Clinical Medicine III** (2 cr). WSU Med S 535. Screening physical exam.

Department of Metallurgical and Mining Engineering

Gene E. Bobeck, Dept. Head (217 Mines Bldg.; 208/885-6376).

Metallurgy Faculty: Robert W. Bartlett, Sarit Bhaduri, Gene E. Bobeck, Francis H. Froes, Batric Pesic, Keith A. Prsbrey, Patrick R. Taylor, T. Alan Place. **Affiliate Faculty:** Bill E. McKee.

Mining Engineering Faculty: Robert Hautala, S. J. Jung, Martin L. Smith, Kenneth F. Spreнке. **Adjunct Faculty:** Patricia L. Hautala, Stanley A. Miller, Jeffrey K. Whyatt.

Every country in the world has mineral resources that could be of benefit to its citizens. It is only upon the addition of the technological

capability to convert these resources to mineral reserves, and finally into products useful to mankind, that the resources have value. Second only to agricultural resources are the mineral resources. Our modern world is a result of the technological utilization of these mineral resources. The advancement, or even continuation, of our present standard of living is dependent upon this technology.

Mining engineering includes a wide variety of mining technologies and engineering sciences devoted to the extraction or separation of the various mineral products—fuels, metals, and nonmetals. Separation of these minerals from the ground requires knowledge of the adaptation of equipment, manpower, and economics and the application of reclamation, environmental control, legal, social, and administrative talents. Mining engineering is the coordination of all engineering fields and the administrative talents employed in extracting these materials from the earth and making them available economically.

Metallurgical engineering is the technology devoted to removing the metals, nonmetals, or fuel elements from rock and even water and putting them in a form useful to mankind. This requires enhancement of the materials, separation of the minerals, and finally separation of the metals and elements from the minerals and rock into pure or semi-pure form economically. Metallurgical engineering involves the use of all the sciences and academic information from other fields to provide these metals for the everyday products we use in our industries and homes. It is the technology behind the materials that makes communication, transportation, recreation, daily living, and a healthful environment possible. More recently, a worldwide effort to develop nontraditional materials that combine metallics and nonmetallics has been met by additional study and faculty in the materials and processing area. Coordination with other university departments provides broader training.

As technological and engineering fields, both metallurgical engineering and mining engineering offer a tremendous opportunity for the person who wishes to become involved in the application of our natural mineral resources to the preservation and enhancement of man. The department provides the technical training for the beginning of this understanding through both the mining engineering and metallurgical engineering fields.

The objectives of the department are to provide adequate training, based upon high school preparation in mathematics and science, so that the student may understand, first of all, the fields of engineering, and, secondly, how these apply to the adaptation of mineral resources to mankind. It is the goal of the department to provide first-class training so that the engineer graduating from the department will be competitive with all other engineers with equivalent degrees in the world, will be current in the technology, will have a practical orientation, and will be a broad and understanding member of the society.

History shows that the graduates from the program have been very competent citizens able to contribute to the development of the mineral resource engineering fields, have become excellent and leading members of society, and live useful and fulfilling lives.

Laboratories for the technologies of rock mechanics, surveying, ventilation, computer applications, and planning facilities are available in mining engineering. The facilities for mineral processing include comminution and pilot plant, extraction processes, hydrometallurgy (including pressure leaching), electrometallurgy, chemical metallurgy, and physical metallurgy laboratories for learning about the basic building blocks of material, as well as metallography, x-ray diffraction and fluorescence, heat treating, and other laboratories that provide understanding of converting the minerals into useful metals and products.

The staff members in both disciplines have proved their qualifications by their credentials in national and international professional societies. They are well known by their publications, research, and contract work. Exposure to these faculty members provides the students with a one-to-one interaction and an expertise that makes them truly competitive.

The program is designed to take advantage of the other excellent facilities of the university and other engineering disciplines. The program of study also includes involvement with practical aspects of day-to-day mining and metallurgy by exposure to the regional

industries and research groups through field trips, guest speakers, study problems, and work time during the summer or cooperative efforts as desired. Mining and metallurgical operations in the Northwest are plentiful and modern.

In normal times, most students find employment in the summer or on a cooperative basis, so that they can become more intimately involved in the processes that they are studying. The total program enables the person to leave the university with confidence, either as a baccalaureate student or on the master's or doctoral level, with the capability of a truly competent professional.

The department offers both the Master of Science degree and the doctoral degree in both of the disciplines. These programs include a mix of theoretical and practical study most appropriate to each student. Many studies include mathematical, statistical, and computer applications to specific processes or investigations. Some students prefer to work on applied problems that are presented by industry or research establishments in the area, often with funding from outside sources. Studies may be as varied as individual effort and interests.

These studies may be financed at times by research grants, an industry sponsor, or on rare occasions by departmental funding. They are designed to train the individual in research methods and investigative procedures that will enhance his or her ability in industrial or research applications or in teaching at a later date. The doctoral program is directed toward breaking new ground and advancing the field to maintain the competitive technological lead enjoyed in the U.S. for so many years. The master's program generally requires 12 to 18 months beyond the baccalaureate degree and the doctoral program usually entails at least three years beyond the baccalaureate degree.

Courses

METALLURGICAL ENGINEERING

Met 101 Introduction to Metallurgy and Materials Science (1 cr). Earth resources, metallurgy, materials science, and manufacturing.

Met 200 (s) Seminar (cr arr). Prereq: perm.

Met 201 Elements of Materials Science (3 cr). Principles relating properties of metals, ceramics, polymers, and composites to their structures. Prereq: Chem 103 or 111 or 114.

Met 202 Microstructural Evaluation (2 cr). Techniques for preparing materials for observation and evaluation of microstructure by optical and scanning and transmission electron microscopy. One 2-hr and one 3-hr lab a wk. Coreq: ME 261.

Met 204 (s) Special Topics (cr arr). Prereq: perm.

Met 205 Introduction to Metallurgy (3 cr). Mineral processing, hydrometallurgy, pyrometallurgy, and electrometallurgy; principles of materials science; structures, properties, and processes; phase diagrams and welding. Two lec and 1 hr of lab demonstration a wk; extra lab time reqd as assigned. Prereq: Math 190, Chem 112 or 114, CS 105 or 112 or equiv; coreq: CE 210.

Met 211 Metallurgical Mass and Energy Balance (3 cr). Dimensions, units, and conversion factors; stoichiometry; sampling and measurements; thermochemistry; calculations of material and energy balances applied to particular processes in ferrous and nonferrous metallurgy.

Met 299 (s) Directed Study (cr arr). Prereq: perm.

Met 305 Structure of Solids (3 cr). Crystallography, crystal properties and chemical bonding, defects, amorphous solids, polymorphism and crystal growth. Prereq: Chem 103 or 111 or 114, and Phys 211.

Met 308 Metallurgical Thermodynamics (3 cr). Intro; first, second, and third law; auxiliary functions; behavior of solutions; free energy composition and phase diagrams of binary systems; reaction equilibria in systems containing components in condensed solutions; ternary diagrams; thermodynamics of alloys and ceramic materials. Prereq: Chem 112 or 114, Math 310.

Met 309 Metallurgical Transport Phenomena (3 cr). Intro to principles of metallurgical transport phenomena including heat, mass, and momentum transfer. Coreq: Math 310.

Met 310 Metallurgical Reactor Design (3 cr). Fundamental principles. Prereq: Math 310.

Met 313 Physical Metallurgy I (4 cr). Theory, structure, and properties of materials. Prereq: ME 261.

Met 316 Physical Metallurgy II (3 cr). Continuation of Met 313, with emphasis on transformations in materials. Prereq: Met 313.

Met 341 Particulate Materials Processing (4 cr). Engineering science of particulates; powder production, powder properties, separation; design of systems applied to metals, ores, and concentrates. Three lec and one hr of lab a wk; two 1-day field trips. Prereq: Chem 112 or 114, CE 210, CS 105 or 112, Met 211, ME 261; coreq: Math 310.

Met 344 Hydroprocessing of Materials (4 cr). Intro to hydroprocessing; dissolution of metals, minerals, and materials; recovery of metals from solutions: solvent extraction, ion exchange, precipitation; electrometallurgy; bioprocessing; design of agitators, mixer-settlers, electrolytic cells; flowsheet design and analysis. Three lec and one 3-hr lab a wk. Prereq: Met 308, 211, 309.

Met 400 (s) Seminar (cr arr). Review of current literature. One 3-day field trip. Prereq: perm.

Met 404 (s) Special Topics (cr arr). Prereq: perm.

Met 405 Design of Unit Operations and Flowsheets (3 cr). Comminution, flotation, leaching, electrowinning, smelting, heat pumps and energy conservation; flowsheet analysis and design. One-week field trip reqd during spring break or at beginning of semester in Christmas recess. Prereq: ME 340, Met 308, 310, 341, 344.

Met 407 Materials Fabrication (3 cr). Fundamentals of casting, solidification, metal working, and joining of metallic materials; emphasis on interaction between processing, properties, and structure; final problem that covers design of procedure for fabrication of industrial application. One 1-day field trip.

Met J409/J509 Solution Mining (3 cr). Same as Min J409/J509. Alt/yrs. Metal extraction from rubblized rock: chem, biol, transport, leaching kinetics, solution flow, aeration, rock permeability and alteration, leaching simulation, environmental containment, safety, metal recovery from solutions; well and reservoir technology; brine evaporation and extraction. Term paper or other additional assignments/projects reqd for grad cr. Prereq: Chem 111.

Met 412 Mechanical Metallurgy (3 cr). Mechanical properties of solids, testing, brittle and ductile fracture, plasticity, mechanical processes in metallurgy. One 1-day field trip. Prereq: Met 201 or ME 261.

Met 414 Process Design (3 cr). Problem definition, flowsheet synthesis, equipment design, economic analysis, optimization and reporting; heuristic and open-ended design problems based on prior minerals, materials, and extractive process courses, economics, and basic and engineering science. Prereq: Min 352, Met 442 and 405.

Met 415 Materials Selection and Design (3 cr). Selection of materials for use in structural applications; consideration of environment, stress conditions, cost, and performance as guide to properties; optimization of choice of materials and fabrication methods; open-ended problems of real applications in various industries. Prereq: Met 316, 407.

Met 417 X-ray Diffraction (2-3 cr). Diffraction of x-rays by crystals; applications to study of polycrystalline materials. Two lec and one 3-hr lab a wk. Prereq: Phys 114 or 211.

Met WS418 Polymeric Materials (3 cr). Alt/yrs. WSU MSE 402.

Met WS420 Fracture in Polymers and Composites (3 cr). WSU MSE 533.

Met 421 Light Metals (3 cr). Alt/yrs. Fundamental design of the light metals aluminum, magnesium, and titanium alloys; applications of these materials.

Met J423/J523 High Temperature Corrosion (3 cr). Alt/yrs. Oxidation of metals, semiconductors and ceramics, protective oxide scales and coatings, defect structures and diffusion oxides, kinetics and thermal fatigue, transport properties. Additional projects/assignments reqd for grad cr. Prereq: perm.

Met 424 Phase Transformations (3 cr). Thermodynamics and phase diagrams, diffusion, solidification, diffusional transformation, diffusionless transformations.

Met J427/J527 Advanced Ceramics (3 cr). Crystallography, ceramic crystal structures, phase diagrams, phase transformation; mechanical properties, thermal properties, electrical properties, magnetic properties and optical properties. Additional projects/assignments reqd for grad cr. Prereq: perm.

Met 429 Powder Metallurgy (3 cr). Alt/yrs. Fundamentals of both conventional press-and-sinter powder metallurgy (PM) and more advanced techniques such as rapid solidification and mechanical alloying; commercial applications of PM parts in both low cost and demanding users.

Met 442 Pyroprocessing of Materials (4 cr). History of pyroprocessing; hydroprocessing versus pyroprocessing; thermodynamic prin; roasting; sintering; smelting of non-ferrous materials; smelting of ferrous materials; furnaces; flowsheet design and analysis; pyroprocessing of ceramic materials. Three lec and one 3-hr lab a wk. Prereq: Met 211, 308, 309.

Met 443 Mineral Processing Examples (3 cr). Advanced and new technology examined in depth.

Met 451 Electrometallurgy (3 cr). Theoretical electrochem, technical electrochem, electrolytics, metal deposition, electrorefining, electrowinning, electrolysis of alkali halides and sulfates, electrothermics.

Met 461 Metallurgical Control and Optimization (3 cr). Basics of process control and optimization applied to metallurgical engineering.

Met 480 Transmission Electron Microscopy of Materials (3 cr). Basic principles and applications of transmission electron microscopy as applied to materials; topics include formation and interpretation of electron diffraction patterns and images; kinematic and dynamical theories of contrast; interpretation of electron micrographs from crystals containing point defects, dislocations, stacking faults and precipitates; high-resolution and high-voltage electron microscopy techniques.

Met 499 (s) Directed Study (cr arr). Prereq: perm.

Met 500 Master's Research and Thesis (cr arr).

Met 501 (s) Seminar (cr arr). Prereq: perm.

Met 502 (s) Directed Study (cr arr). Prereq: perm.

Met 503 Advanced Extractive Metallurgy (3 cr). Topics in the extraction and refining of metals. Prereq: Met 442 or perm.

Met 504 (s) Special Topics (cr arr). Prereq: perm.

Met 505 Advanced Rate Phenomena in Metallurgical Engineering (3 cr). Principles of rate phenomena in metallurgical engineering. Prereq: perm.

Met 506 Advanced Ore Dressing (3 cr). Theories of comminution; flotation and related surface phenomena; electrical and magnetic concentration; process control. Prereq: Met 341 or perm.

Met 508 Control of Metallurgical Processes (3 cr). Control variables of metallurgical processes. Prereq: perm.

Met 509 Solution Mining (3 cr). See Met J409/J509.

Met 511 Advanced Physical Metallurgy (3 cr). Alt/yrs. Theory of metals and alloys; application to problems of structure; properties of engineering metals. Prereq: perm.

Met 512 Metallurgical Thermodynamics (3 cr). Alt/yrs. Aspects of thermodynamics most used in metallurgy; application to problems. Prereq: perm.

Met 514 Phase Rule and Phase Relations (3 cr). Alt/yrs. Phase rule construction and interpretation of phase diagrams; metastable and unstable phase relations. Prereq: perm.

Met 515 Unit Operations of Multiphase Separation Processes (3 cr). Mechanical phase separation froth flotation chemical separations at room temperature, high temperature separations, solid/liquid separations.

Met 517 Kinetics of Metallurgical Reactions (3 cr). Alt/yrs. Application of absolute rate theory; time and temperature dependence; kinetics of gas-solid reactions; corrosion, diffusion, and recrystallization. Prereq: perm.

Met 518 Advanced Mechanical Metallurgy (3 cr). Alt/yrs. Micro- and macroscopic theories of deformation; materials-forming processes; mechanical tests. Prereq: perm.

Met 522 Surface Reactions of Metals (3 cr). Alt/yrs. Surface chemistry and physics; illustrative examples from metallurgy. Prereq: perm.

Met 523 High Temperature Corrosion (3 cr). See Met J423/J523.

Met 527 Advanced Ceramics (3 cr). See Met J427/J527.

Met 528 Advanced Engineering Ceramics (3 cr). Advanced materials: zirconia, alumina, silicon carbide, silicon nitride, glass ceramics, ceramic matrix composites, other miscellaneous non-oxides; advanced processing techniques: injection molding, combustion synthesis, hot isostatic pressing, superplastic forming, shock synthesis, plasma processing. Prereq: Met 527 or perm.

Met R531 Behavior of Engineering Materials (3 cr). Static and dynamic properties; relation of mechanical properties to physical properties and crystal imperfections. Prereq: perm.

Met 533 Advanced X-ray Diffraction (3 cr). Principles and applications to advanced problems. Prereq: perm.

Met R534 Radiation Effects in Materials (3 cr). Interactions between radiation and solids. Prereq: perm.

Met R535 Failure of Structural Materials (3 cr). Same as ME 535. Mechanisms by which failure can occur in structural materials. Prereq: ME 261 or Met 201, ES 340.

Met R536 Theoretical Structural Metallurgy (3 cr). Structure of metals and alloys; free electron theory; zone theory; equilibrium; order-disorder; kinetics of phase changes and shear processes. Prereq: perm.

Met R538 Corrosion in Metallurgy (3 cr). Corrosion by aqueous media, gases, liquid metals, and fused salts. Prereq: physical chemistry, incl electrochemistry, or perm.

Met R539 Electron Metallography (3 cr). Alt/yrs. Operation and application in metallurgy of the electron microscope, microprobe, and other instruments applying charged particle optics. Prereq: perm.

Met WS544 Advanced Topics in Materials Science (2-3 cr, max 6). WSU MSE 501.

Met 555 Advanced Hydrometallurgical Kinetics (3 cr). Review of development of chemical kinetics; reaction order determination; classical definition of reaction rates; absolute reaction rate theory; random walk equation; kinetic models, linear, diffusion, mixed kinetics, nucleation; electrochemical kinetics as applied on metal sulfides.

Met 597 (s) Practicum (cr arr). Prereq: perm.

Met 598 (s) Internship (cr arr). Prereq: perm.

Met 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

MINING ENGINEERING

Min 100 Nonrenewable Resources (2 cr). Intro to basic concepts of historical, present, and future world energy and mineral needs, land use, and methods of exploitation, conservation of nonrenewable resources, and environmental impact and control.

Min 103 Elements of Mining (3 cr). Open to nonmajors. Terminology and mining's role in national economics and way of life; includes mineral economics, management, prospecting, discovery, development, exploitation, processing, marketing.

Min 118 Miner Safety Training (1 cr). A program to provide knowledge and training under Public Law CFR 30, Part 48, Health and Safety Training and Retraining of Miners.

Min 130 Computer Applications in Mining I (1 cr). Introduction of PC as used in mining; MS-DOS, spreadsheet calculations in mining, commercial packages, and mining data bases. Two hrs of lab a wk.

Min 200 (s) Seminar (cr arr). Prereq: perm.

Min 204 (s) Special Topics (cr arr). Prereq: perm.

Min 230 Computer Applications in Mining II (2 cr). FORTRAN programming to solve mining problems; survey of other common computer languages used in mining including BASIC, PASCAL, and C. One lec and 2 hrs of lab a wk. Prereq: Min 103, 130.

Min 290 Mine Development (2 cr). Ore deposits, exploration techniques, reserve estimating, and preliminary mine dev studies.

Min 304 Explosives (2 cr). Drilling and blasting equipment, detonation; use of commercial explosives and detonators; design of blasting rounds (surface and underground). One 1-day field trip. Prereq: jr standing or perm.

Min 350 Mineral Economics (3 cr). Minerals as resources and commodities; importance of minerals, characteristics of their occurrence and production systems, and nature of mineral resources reserves; factors affecting supply and demand, pricing and marketing of mineral materials.

Min J351/J561 Optimization of Engineering Systems (3 cr). Applications of operations research theory and practice in the minerals industry; deterministic methods: linear, integer, and dynamic programming approaches to optimizing complex systems. Topics in stochastic processes and term project reqd for grad cr. Two lec and two hrs of lab a wk. Prereq: Math 190 or perm.

Min 352 Project Investment Analysis and Management (3 cr). Project organization and management, economic and financial decisions, capital and production cost estimating, equipment selection techniques, operation design optimization, and project selection.

Min 370 Mine Services (2 cr). Principles and design problems in compressed air power, hoisting, conveying, rail haulage, and material transfer. One field trip. Prereq: Min 103, CE 210, or perm.

Min 372 Mine Ventilation (3 cr). Gases, dust, and airflow through mines; circuit analysis and use of computer program to solve air network problems; fan selection and placement; health and safety regulations in the design of mine ventilation systems.

Min 380 Coal Mining Methods (2 cr). Surface and underground coal mining methods, systems and design. Prereq: Min 103 or perm.

Min 400 (s) Seminar (cr arr). Prereq: perm.

Min 401 Rock Mechanics (3 cr). Same as GeolE 407. Basic mechanical properties of rocks and rock masses; lab and in-situ tech to obtain strength, stress distribution, and deformation behavior in rock masses; application of analytical techniques such as the finite element method to design stable mine structures and supporting systems; basic mechanism and new tech of rock fragmentation relating to drilling, blasting, and crushing. Prereq: ME 340.

Min 402 Rock Mechanics Lab (2 cr). Measuring rock sample strengths; photo elastic and finite element modeling.

Min 404 (s) Special Topics (cr arr). Prereq: perm.

Min J409/J509 Solution Mining (3 cr). See Met J409/J509.

Min J410/J510 Simulation of Engineering Systems (3 cr). Use of the GPSS simulation language for simulation of mine engineering systems; topics in inventory control, scheduling, and optimization; animation of simulation results. Additional projects/assignments reqd for grad cr. Prereq: Min 351 or perm.

Min 420 Mineral Resources Management and the Environment (3 cr). Factors that must be considered in the management, development, or exploitation of nonrenewable natural resources. One 2-day field trip. Prereq: jr standing.

Min 421 Engineering Geophysics (3 cr). Same as Geoph 421. Quantitative treatment of surface and borehole geophysics with emphasis on engineering problems. Three 1-day field trips.

Min 422 Principles of General Geophysics (3 cr). See Geoph 422.

Min 425 Mineral Land Management (3 cr). See Geog 425.

Min 428 Geostatistics (3 cr). See GeolE 428.

Min 450 Surface Mine Design (3 cr). Introduction to surface mine design, equipment selection and costing; laboratory assignments include application of geologic data base management and reserve estimating of mineral or coal deposits. Two lec and 2 hrs of lab a wk. Prereq: Min 103, 351, 352, or perm.

Min 451 Underground Mine Design (3 cr). Evaluation and selection of underground mining methods and engineering systems; mine costing and modeling. Six hrs of lab a wk. Prereq: Min 103, 351, 352 or perm.

Min 453 Mine Drainage and Pumping (2 cr). Design of drainage and pumping system, including construction drawings and equipment specification. Six hrs of lab a wk.

Min 454 Advanced Geologic and Mine Modeling (3 cr). Use of geologic, geostatistical, and mine modeling software for detailed ore body modeling, deposit evaluation, and mine design. Six hrs of lab a wk. Prereq: senior standing and perm.

Min 472 Mineral Industry Case Studies (3 cr). Same as Geog 492 and Geol 472. Laws, environment, and social issues through definition, evaluation, exploitation, and production of the resource to final sales, transportation economics, and reclamation; specific cases examined by multidisciplinary groups producing a final decision. Prereq: sr standing and perm.

Min 491 Senior Mining Project (2 cr). Capstone mine design project integrating previous skills: senior project using actual mineral project data for mine design, costing and economic evaluation terminating in a final technical report. Two hrs of lab a wk. Prereq: sr standing and perm; coreq: Min 454.

Min 499 (s) Directed Study (cr arr). Prereq: perm.

Min 500 Master's Research and Thesis (cr arr).

Min 501 (s) Seminar (cr arr). Prereq: perm.

Min 502 (s) Directed Study (cr arr). Prereq: perm.

Min 503 Mine Stress Analysis (3 cr). Application of techniques in experimental stress analysis for structural design in all phases of the engineering system; photoelastic modeling and coating; strain gauge techniques; stress patterns in frameworks, rock masses, and foundations. One lec and two 3-hr labs a wk. Prereq: ME 340.

Min 504 Rock Mechanics II (3 cr). Same as GeolE 507. Theories of rupture of elastic and inelastic, brittle materials; mechanisms of fracture propagation and effects in engineering structures and rock fragmentation; effects of nuclear blasting, earthquakes and other dynamic stress waves. Prereq: Min 401 or perm.

Min 505 Design of Mine Structures (4 cr). Application of experimental stress analysis and the principles of engineering similitude in the design of stable mine structures. One lec and three 3-hr labs a wk. Prereq: Min 401, and 503 or 504.

Min 506 (s) Special Topics (cr arr). Prereq: perm.

Min 509 Solution Mining (3 cr). See Met J409/J509.

Min 510 Simulation of Engineering Systems (3 cr). See Min J410/J510.

Min 513 Advanced Mine Ventilation I (3-5 cr). Thermodynamic and motive column analyses of mine airflow. Students who have taken Min 371 and 372 register for 3 cr.

Min 514 Advanced Mine Ventilation II (3-5 cr). Thermodynamic network analysis; individual projects. Prereq: Min 513.

Min 520 Mining Geophysics (3 cr). Same as Geoph 521. Alt/yr. Theory and application of magnetic, electric, electromagnetic, and radioactive methods of geophysical prospecting for metallic and nonmetallic mineral deposits. Two lec and one 3-hr lab a wk; one 3-day field trip. Prereq: perm.

Min 528 Advanced Geostatistics (3 cr). See GeolE 528.

Min 530 Mining Exploration Techniques (3 cr). Alt/yr. Underground exploration for mining engineers; application of geological, geochemical, geophysical, and statistical methods in exploration; reduction, correlation, and overall interpretation of data; computer applications. Two lec and one 3-hr lab a wk; one 3-day field trip. Prereq: perm.

Min 540 Mine Valuation (3 cr). Mine examination and valuation; sampling methods and calculations; determining present value of a deposit.

Min 560 Mine Management (3 cr). Financing, management labor relations, operations, and government regulations. Prereq: perm.

Min 561 Optimization of Engineering Systems (3 cr). See Min J351/J561.

Min 570 Mine Systems Design (3-6 cr). Alt/yr. Integration and synthesis of equipment, methods, and design; use of latest operation research tools to provide a complete mine plan of operation. Prereq: perm.

Min 573 Haulage Systems Design (3 cr). Alt/yr. Design criteria in the specification of all pertinent aspects involved in transportation of lump ore on surface or underground. Two lec and one 3-hr lab a wk. Prereq: perm.

Min 597 (s) Practicum (cr arr). Prereq: perm.

Min 598 (s) Internship (cr arr). Prereq: perm.

Min 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

MINING ENGINEERING-METALLURGY

MinMt 200 (s) Seminar (0 cr). Appropriate speakers and unscheduled activities relating to the mineral field. Graded P/F.

MinMt 400 (s) Seminar (0 cr). Appropriate speakers and unscheduled activities relating to the mineral field. Graded P/F.

MinMt 600 Doctoral Research and Dissertation (cr arr). Prereq: enrollment in the composite doctoral program in mining engineering-metallurgy.

Curricular Requirements

METALLURGICAL ENGINEERING (B.S.Met.E.)

As part of a cooperative program with Oregon State University, Oregon resident students may enroll in this program and will NOT be charged out-of-state tuition by UI.

Required course work includes the university requirements (see regulation J-3) and the following:

Note: All students are encouraged to take the eight-hour EIT examination the last semester of their senior year, leading to a Professional Engineering license.

Course	Credits
Met 101 Intro to Metallurgy & Materials Science	1
Met 202 Microstructural Evaluation	2
Met 211 Metallurgical Mass & Energy Balance	3
Met 308 Metallurgical Thermodynamics	3
Met 309 Metallurgical Transport Phenomena	3
Met 310 Metallurgical Reactor Design	3
Met 313, 316 Physical Metallurgy I, II	7
Met 341 Particulate Materials Processing	4
Met 344 Hydroprocessing of Materials	4
Met 405 Design of Unit Operations & Flowsheets	3
Met 407 Materials Fabrication	3
Met 414 Process Design	3
Met 415 Materials Selection & Design	3
Met 442 Pyroprocessing of Materials	4
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chem & Qual Analysis or 114 General Chem	4-5
Chem 305 Physical Chemistry	3
CE 210 Engineering Statics	3
CE 402 Applied Numerical Methods for Engineers	3
CS 112 Introduction to Problem Solving & Programming	3
or 105 FORTRAN Programming for Engineers	2-3
EE 207 Introduction to Electrical Engineering	3
Eng 317 Technical & Engineering Report Writing	3
Geol 260 Survey of Minerals	2
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 310 Ordinary Differential Equations	3
ME 101 Engineering Graphics	2
ME 261 Engineering Materials	3
ME 340 Engineering Mechanics of Materials	3
Min 352 Project Investment Analysis & Management	3
Phys 210, 211, 212, 213 Engineering Physics I, II & Lab	8
Stat 301 Probability & Stat or CE 402 Applied Numerical Methods for Engineers	3
Humanities and social sc electives to meet the core and ABET requirements	18
Technical electives	3
Science electives	3

The minimum number of credits for the degree is 133.

MINING ENGINEERING (B.S.Min.E.)

As part of a cooperative program with Oregon State University, Oregon resident students may enroll in this program and will NOT be charged out-of-state tuition by UI.

Required course work includes the university requirements (see regulation J-3) and the following:

Note: Approved field experience, appropriate summer employment, or an applied course in mine surveying and geologic mapping is required before graduation. All students are encouraged to take the eight-hour EIT examination the last semester of their senior year, leading to a Professional Engineer license.

Course	Credits
Min 103 Elements of Mining	3
Min 118 Miner Safety Training	1
Min 130 Computer Applications in Mining I	1
Min 290 Mine Development	2
Min 351 Optimization of Engineering Systems	3
Min 352 Project Investment Analysis & Management	3
Min 370 Mine Services	2
Min 372 Mine Ventilation	3
Min 401, 402 Rock Mechanics & Lab	5
Min 450 Surface Mine Design	3
Min 451 Underground Mine Design	3
Min 491 Senior Mining Project	2
Chem 111 Principles of Chemistry	4
Chem 114 General Chemistry	4
CE 210 Engineering Statics	3
CE 211 Engineering Measurements	4
CE 320 Engineering Fluid Mechanics	3
EE 207 Introduction to Electrical Engineering	3
EE 324 Electric Machinery	3
Eng 317 Technical & Engineering Report Writing	3
Geol 101, 102 Physical Geology & Lab	4
Geol 260 Survey of Minerals	2
Geol 345 Structural Geology	3
Math 180, 190, 200 Analytic Geometry & Calculus	11
Math 310 Ordinary Differential Equations	3
ME 101 Engineering Graphics	2
ME 220 Engineering Dynamics	3

ME 340 Engineering Mechanics of Materials	3
Met 205 Introduction to Metallurgy	3
Phys 210, 211 Engineering Physics I, II	6
Stat 301 Probability & Statistics	3
Humanities and social sciences electives	16
Design electives chosen from the following	4
Min 410 Simulation of Engineering Systems	
Min 453 Mine Drainage & Pumping	
Min 454 Advanced Geologic & Mine Modeling	
Min 472 Mineral Industry Case Studies	
GeolE 428 Geostatistics	
GeolE 435 Geological Engineering Principles	
GeolE 436 Geological Engineering Design	
Technical electives (approved by dept)	4

The minimum number of credits for the degree is 136.

Academic Minor Requirements

METALLURGICAL ENGINEERING MINOR

Course	Credits
Met 309 Metallurgical Transport Phenomena	3
Met 310 Metallurgical Reactor Design	3
CE 210 Engineering Statics	3
Math 310 Ordinary Differential Equations	3
ME 261 Engineering Materials	3
And one of the following sets of courses:	
Met 202 Microstructural Evaluation	2
Met 313, 316 Physical Metallurgy I & II	7
Phys 211 Engineering Physics II	3
or	
Met 211 Metallurgical Mass & Energy Balance	3
Met 341 Particulate Materials Processing	4
Met 344 Hydroprocessing of Materials	4
Chem 112 Inorganic Chem & Qual Analysis or 114 General Chem	4-5

MINING ENGINEERING MINOR

Course	Credits
Min 103 Elements of Mining	3
Min 118 Miner Safety Training	1
Min 401 Rock Mechanics	3
Min 450 Surface Mine Design	3
Courses selected from the following	8
Min 304 Explosives	
Min 352 Project Investment Analysis & Management	
Min 370 Mine Services	
Min 372 Mine Ventilation	
Min 451 Underground Mine Design	
Min 472 Mineral Industry Case Studies	
Min 491 Senior Mining Project	

Department of Military Science

Lloyd M. Scott, Dept. Head (West End, Mem. Gym.; 208/885-6528). Faculty: Bruce K. Baker, Dale A. Hedman, Doug W. Krehbiel, Lloyd M. Scott, Robert A. Strope.

Army ROTC, as represented at UI by the Department of Military Science, is the major source of commissioned officers for the U.S. Army. After successfully completing the program and baccalaureate degree requirements in almost any field, the student receives a commission as a second lieutenant. At this time active duty is not a requirement but is something for which students compete. Graduates also choose from among 26 different branches or specialties. Those not choosing active duty serve with the Army Reserves or Army National Guard on a part-time basis. Two-, three-, and four-year scholarships are available.

All levels of course work combine classroom instruction with practical exercises in the field or on the drill floor. The basic course, consisting of a one-credit course each freshman semester and a two-credit course each sophomore semester, is designed to provide men and women with information on what it would be like to be an officer in the Army on active duty or in the National Guard or Army Reserve. The two-year basic curriculum covers Army career opportunities, military history, map reading, leadership, first aid, and small unit operations. Students may voluntarily participate in one of several adventure activities. Basic-course students, other than scholarship students, do not make a military commitment during this period. These students survey Army opportunities and decide whether to continue in the program as advanced-course students.

The advanced course consists of a three-credit course normally taken each semester during the last two years of university study and includes a six-week advanced camp at Fort Lewis, Washington. Students in the advanced course receive monthly stipends of \$100 during the school year. Study centers on leadership styles and techniques with special emphasis placed on small-unit leadership.

The primary objective of the Army ROTC program is to develop leadership and management skills in students. Supplementary objectives include enhancement of the student's abilities in speaking and writing, goal seeking, and problem solving. Key to the program is the development of personal attributes essential to military science. Those attributes include sound situational assessment, decision making, and the ability to know, understand, and lead people. Additionally, the department hopes to cultivate within its students a strong sense of personal integrity, self-discipline, and responsibility.

Prior to commissioning all cadets must demonstrate proficiency in written communications, human behavior, military history, computer literacy, and math reasoning. This may be achieved through taking UI course offerings in those subject areas. See your Army ROTC class adviser for a list of approved courses.

Departmental members will answer questions about specific programs and courses. Contact the department by going to the west end of Memorial Gymnasium or by calling 208/885-6528 (collect if out of state).

Military Science Courses

MS 101 Introduction to Military Science (1 cr). Provides background in role of an Army officer as a career choice in either the Active Army or the National Guard/Reserves; lec, conference, and activities dealing with military subjects; option of participating in challenging outdoor activities such as whitewater rafting, mountaineering, and weapons familiarization; no military obligation; texts and lab fees provided by dept; no mandatory uniform wear; students also learn about available two- and three-year scholarships and other financial programs for which they may be eligible.

MS 102 Fundamentals of Leadership and Management (1 cr). Continuation of MS 101. Development of greater understanding of roles and responsibilities of Army officers; lec, conference, and activities dealing with military subjects; participation in challenging outdoor activities such as orienteering, mountaineering, and weapons qualification; occasional uniform wear reqd; no military obligation; texts, uniforms, and lab fees provided by dept. Prereq: MS 101 or perm of professor of military sc.

MS 201 Applied Leadership and Management (2 cr). Application of leadership and management skills to various case studies; organization and structure of Army units; basic first aid; practical field training in variety of outdoor skills (mountaineering, rafting, rifle marksmanship); uniform wear reqd; no military obligation; texts, uniforms, and lab fees provided by dept. Prereq: MS 102 or perm of dept.

MS 202 Applied Leadership and Management (2 cr). Troop leading procedures and application of procedures to planning and conducting small unit operations; individual soldier skills, such as military communication, radio procedures, basic map reading, and survival skills; practical field training in variety of outdoor skills (mountaineering, rafting, rifle marksmanship); uniform wear reqd; no military obligation; texts, uniforms, and lab fees provided by dept. Prereq: MS 201 or perm of dept.

MS 204 (s) Special Topics (cr arr). Prereq: perm.

MS 205 Fundamentals and Applied Leadership and Management (Compressed) (4 cr). Compression of MS 101-102, 201-202. Leadership training, command experience, organization and employment of basic military units, map reading, and unit leadership problems. Three lec and one 2-hr lab a wk. May not be taken for cr after 101, 102, 201, or 202. Prereq: 2nd-sem soph or 1st-sem jr standing and perm of dept.

MS 280 Raider Operations (1 cr, max 4). The Chrisman Raider Team is an elite group of individuals who compete on intercollegiate level in military skills of marksmanship, physical fitness, navigation, weapons, rope bridging, and long distance marching; rigorous physical training and practicing technical skills in preparation for two-day competition among schools throughout western U.S. Coreq: another MS course.

MS 289 Basic Encampment (3 cr). Comprehensive course in basic soldiering skills in conjunction with leadership evaluation and development; six wks in Fort Knox, Kentucky; commercial air, room, and board provided plus \$700; no obligation incurred before or after completion—students may withdraw at any time; graduates are eligible for advanced military sc. Prereq: 26 cr hrs, 2.0 GPA, good physical condition, meet medical and ethical criteria, and perm of dept head.

MS 299 (s) Directed Study (cr arr). Prereq: perm.

MS 301-302 Advanced Leadership and Management (3 cr). Practical leadership skills in light infantry environment; leadership techniques practiced while learning patrolling and offensive and defensive tactics at squad and platoon level; prepares cadets for six-wk Advanced Camp at Fort Lewis, Washington. Three hrs of lec, 2 hrs of lab, and 3 hrs of physical training a wk, plus field training exercises. Prereq: either ROTC Basic Course, Camp Challenge, or Basic Training for active Army, National Guard, or Reserves.

MS WS385 **History of Modern Warfare** (3 cr). WSU Hist and Mil S 385.

MS 401-402 **Seminar in Leadership and Management** (3 cr). Practical application of leadership and management skills, military justice system, administrative and logistical procedures; prep for active duty. Prereq: MS 301-302.

MS 471-472 **Command and Staff Functions** (2 cr). Hands-on practical applications of functions of U.S. Army officers assigned to command and staff positions; planning, coordinating, and implementing operations, training and logistic support for cadet battalion activities; practical exercises in interrelationships between commander, staff, higher headquarters, and subordinate units. Coreq: MS 401-402.

MS 489 **Advanced Encampment** (cr arr). Intensive six-wk summer encampment at Ft. Lewis, Washington. Graded P/F. Prereq: MS 301-302 and perm of dept.

MS 499 (s) **Directed Study** (cr arr). Prereq: perm.

MINING ENGINEERING—see Department of Metallurgical and Mining Engineering

MINING ENGINEERING-METALLURGY—see Department of Metallurgical and Mining Engineering

Lionel Hampton School of Music

Richard R. Hahn, Acting Director (205 Music Bldg.; 208/885-6231). Faculty: Carol Padgham Albrecht, Dorothy T. Barnes, Robert S. Billups, Lois Blackburn, Daniel J. Bukvich, J. Roger Cole, Robert Dickow, Mary H. DuPree, Alan J. Gemberling, Richard R. Hahn, Tim King, Ronald J. Klimko, G. Jay Mauchley, Sandra Mauchley, Robert T. McCurdy, Robert W. Miller, Richard S. Neher, James E. Reid, Lynn J. Skinner, Robert J. Spevacek, Charles W. Walton, William C. Wharton.

The Lionel Hampton School of Music, so designated in 1987 in honor of the eminent American composer, conductor, and performer, is a full member of the National Association of Schools of Music. Established as a department in 1893, it was elevated to school status in 1969.

The courses and curricula in music seek to prepare elementary, secondary, and college teachers of music; to train professional musicians; to enrich the cultural environment for students and provide liberal-arts instruction; and to engage in research in music performance and teaching for the general benefit of the public and the discipline of music.

Students in this school learn by performing, listening, analyzing, and creating music. Emphasis is on the understanding of musical styles and techniques of all eras, including contemporary music. Musical studies balance the aesthetic and the practical, with ample opportunity for exploration and self-reliance.

The formal undergraduate curricula of the School of Music consist of degree programs in the following areas:

Bachelor of Music in Performance

Students in this degree program can specialize in voice, piano, guitar, or any orchestral instrument.

Bachelor of Music in Composition

Bachelor of Music in Music Education

Students in this degree program can specialize in elementary music education, vocal music education, instrumental music education, or a combined program in vocal and instrumental music education.

Bachelor of Arts in Music

Students in this degree program can emphasize music theory, music history, or applied music. Applied music study can be in any of the areas of specialty listed under the Bachelor of Music in Performance.

The B.Mus. degree is professionally oriented, and is the normal preparation for graduate study in music or for teacher education. The B.A. degree emphasizes a broad liberal-arts education. The School of Music also offers a minor in music and participates in the university core curriculum by offering the course "Survey of Music." The ensembles and performing groups sponsored by the School of Music are open to all students, regardless of major.

The Music Building houses the Agnes Crawford Schuldt Music Library, faculty studios, ensemble rehearsal areas, classrooms, a

music education materials center, a record and tape listening center, and a recital hall. Individual practice rooms are available in nearby Ridenbaugh Hall. Recording, radio-television, language listening lab, and computer facilities of the campus are also used by music students. In addition to organ, harpsichord, harp, and piano practice instruments, the school maintains two performance pipe organs, three concert grand pianos, and a concert harpsichord.

The Hampton School offers degrees at the master's level; Master of music degrees are available in performance (vocal and instrumental), composition, music education, accompanying, and piano pedagogy and performance studies. The Master of Arts option is in music history.

Courses

APPLIED PERFORMANCE STUDIES

MusA 114 (s) **Individual Instruction** (1 cr, max arr). For secondary or minor instrument, nonmajors, and undeclared majors; may not be taken for audit. One-half hour of private instruction a wk. Instruction offered in piano, organ, harpsichord, voice, flute, oboe, clarinet, saxophone, bassoon, trumpet, horn, euphonium, trombone, tuba, percussion, violin, viola, cello, contrabass, or guitar. Prereq: audition by committee.

MusA 124 (s) **Individual Instruction** (2 cr, max arr). For music majors in music degree programs other than performance; may not be taken for audit. One hour of private instruction a wk plus convocation/area recital/studio class; final exam conducted by jury. See MusA 114 for instruction areas. Prereq: placement audition by committee.

MusA 134 (s) **Individual Instruction** (3 cr, max arr). For applied music majors in the B.Mus. performance degree; may not be taken for audit. One hour of private instruction a wk plus convocation/area recital/studio class; final exam conducted by jury. See MusA 114 for instruction areas. Prereq: placement audition by committee.

MusA 145-146/245-246 **Piano Class** (1 cr). May not be taken for audit. Four-semester beginning piano sequence. Two lec-labs a wk. Prereq: perm of dept.

MusA 147-148 **Voice Class** (1 cr). May not be taken for audit. Two-semester sequence for beginning singers. Two lec-labs a wk. Prereq: MusA 147 (for 148) or perm of dept.

MusA J149-J150/J349-J350 **Voice for Actors** (1 cr, max arr). Group voice instruction based on theatre and musical theatre materials. Prereq: audition and perm of dept.

MusA 151-152 **Guitar Class** (1 cr). Two lec-labs a wk. May not be taken for audit. Prereq: perm of dept.

MusA 153 **Guitar Class for Nonmajors** (2 cr). Group instruction in guitar and basic musicianship. May not be taken for audit.

MusA 200 (s) **Seminar** (cr arr). Prereq: perm.

MusA 203 (s) **Workshop** (cr arr). Prereq: perm.

MusA 204 (s) **Special Topics** (cr arr). Prereq: perm.

MusA 245-246 **Piano Class** (1 cr). See MusA 145-146/245-246.

MusA 299 (s) **Directed Study** (cr arr). Prereq: perm.

MusA 314 (s) **Individual Instruction** (1 cr, max arr). See MusA 114 for description.

MusA J315/J515 **Accompanying** (1 cr, max arr). Principles of accompanying with use of keyboard instruments; lab assignments under supervision. Two lec-labs a wk. Prereq: audition and completion of semester of MusA 124 or 134.

MusA J316/J516 **Concert Choir—Vandaleers** (1 cr, max arr). Open to all students. Four rehearsals a wk. Prereq: audition and perm.

MusA J317/J517 (s) **University Choir** (1 cr, max arr). Open to all students. One 2-1/2 hr night rehearsal a wk. Prereq: perm.

MusA J318/J518 (s) **Jazz Choir** (1 cr, max arr). Open to all students. Three rehearsals a wk. Prereq: audition and perm.

MusA J319/J519 (s) **Marching Band** (1 cr, max arr). Open to all students. Performance at home football games and other events and travel to selected away football games; separate sections for marching band and Vandal Brass. Prereq: audition and perm.

MusA J320/J520 (s) **Wind Ensemble** (1 cr, max arr). Open to all students. Four rehearsals a wk. Prereq: audition and perm.

MusA J321/J521 (s) **Concert Band** (1 cr, max arr). Open to all students. Three rehearsals a wk. Prereq: audition and perm.

MusA J322/J522 (s) **Orchestra** (1 cr, max arr). Open to all students. Four rehearsals a wk. Prereq: audition and perm.

MusA J323/J523 (s) **Jazz Ensemble** (1 cr, max arr). Open to all students. Three rehearsals a wk. Prereq: audition and perm.

MusA 324 (s) **Individual Instruction** (2 cr, max arr). See MusA 124 for description; see "Upper-Division Standing" below for prerequisites.

MusA 334 (s) **Individual Instruction** (3 cr, max arr). See MusA 134 for description; see "Upper-Division Standing" below for prerequisites.

MusA 349-350 **Voice for Actors** (1 cr, max arr). See MusA J149-J150/J349-J350.

MusA J365/J565 (s) **Chamber Ensemble** (1 cr, max arr). Open to all students. Performance opportunities in chamber ensembles: string, brass, woodwind, percussion, keyboard, vocal, and mixed including Chamber Singers, Collegium Musicum, brass choir, percussion ensemble, and others. Prereq: audition and perm.

MusA J380/J580 (s) **Opera Workshop** (1-3 cr, max arr). Analysis, rehearsal, and performance of operatic literature. Prereq: audition and perm.

MusA 387 **Conducting I** (2 cr). Conducting techniques, score reading, and interpretation of scores for large choral and instrumental ensembles. Prereq: MusC 141.

MusA 400 (s) **Seminar** (cr arr). Prereq: perm.

MusA 403 (s) **Workshop** (cr arr). Prereq: perm.

MusA 404 (s) **Special Topics** (cr arr). Prereq: perm.

MusA J454/J554 **Performance Practices** (2 cr). Performance practices of music from Renaissance to present. Prereq: perm.

MusA 487 **Conducting II** (2 cr). Prereq: MusA 387 or perm.

MusA 490 **Recital** (0 cr). For students required to have one-half recital. Graded P/F. Prereq: perm of dept; coreq: MusA 324 or 334.

MusA 491 **Recital** (0 cr). For students required to have a full recital. Graded P/F. Prereq: perm of dept; coreq: MusA 334.

MusA 498 **Proseminar** (2 cr). Prereq: perm.

MusA 499 (s) **Directed Study** (cr arr). Prereq: perm.

MusA 500 **Master's Research and Thesis** (cr arr).

MusA 501 (s) **Seminar** (cr arr). Prereq: perm.

MusA 502 (s) **Directed Study** (cr arr). Prereq: perm.

MusA 503 (s) **Workshop** (cr arr). Prereq: perm.

MusA 504 (s) **Special Topics** (cr arr). Prereq: perm.

MusA 514 (s) **Individual Instruction** (1 cr, max arr). See MusA 114 for description.

MusA 515 **Accompanying** (1 cr, max arr). See MusA J315/J515.

MusA 516 **Concert Choir—Vandaleers** (1 cr, max arr). See MusA J316/J516.

MusA 517 (s) **University Choir** (1 cr, max arr). See MusA J317/J517.

MusA 518 (s) **Jazz Choir** (1 cr, max arr). See MusA J318/J518.

MusA 519 (s) **Marching Band** (1 cr, max arr). See MusA J319/J519.

MusA 520 (s) **Wind Ensemble** (1 cr, max arr). See MusA J320/J520.

MusA 521 (s) **Concert Band** (1 cr, max arr). See MusA J321/J521.

MusA 522 (s) **Orchestra** (1 cr, max arr). See MusA J322/J522.

MusA 523 (s) **Jazz Ensemble** (1 cr, max arr). See MusA J323/J523.

MusA 524 (s) **Individual Instruction** (2-3 cr, max arr). See MusA 124 for description.

MusA 534 (s) **Individual Instruction** (3-6 cr, max arr). See MusA 134 for description.

MusA 554 **Performance Practices** (2 cr). See MusA J454/J554.

MusA 565 (s) **Chamber Ensemble** (1 cr, max arr). See MusA J365/J565.

MusA 580 (s) **Opera Workshop** (1-3 cr, max arr). See MusA J380/J580.

MusA 587 **Advanced Conducting** (3 cr). Advanced techniques of conducting including baton techniques and score reading analysis. Prereq: MusA 387 or equivalent.

MusA 590 (s) **Master's Recital** (0 cr). For students whose emphasis is other than performance. May be repeated. Graded P/F. Prereq: audition and perm of committee; coreq: MusA 524.

MusA 591 (s) **Master's Recital** (0 cr). For students whose emphasis is in performance. May be repeated. Graded P/F. Prereq: audition and perm of committee; coreq: MusA 534.

MusA 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

THEORY AND COMPOSITION

MusC 120 **Fundamentals of Music** (2 cr). For students in fields other than music. Not open to students who have taken MusC 141.

MusC 139-140 **Aural Skills I-II** (1 cr). Exercises and drill in sight-singing and ear training. Recommended coreq: MusA 145-146.

MusC 141 **Theory of Music I** (3 cr). For majors and minors. Melodic and harmonic materials, part-writing skills, and analysis. Prereq: perm of dept.

MusC 142 **Theory of Music II** (3 cr). For majors and minors. Harmonic materials, part-writing skills, and analysis. Prereq: MusC 141.

MusC 200 (s) **Seminar** (cr arr). Prereq: perm.

MusC 203 (s) **Workshop** (cr arr). Prereq: perm.

MusC 204 (s) **Special Topics** (cr arr). Prereq: perm.

MusC 239-240 **Aural Skills III-IV** (1 cr). Continuation of MusC 140.

MusC 241 **Theory of Music III** (3 cr). For majors and minors. Prereq: MusC 142.

MusC 242 **Theory of Music IV** (3 cr). For majors and minors. Prereq: MusC 241.

MusC 299 (s) **Directed Study** (cr arr). Prereq: perm.

MusC 324 **Composition for Noncomposition Majors** (2 cr, max 4). Study of techniques of composition; phrase and period structure, melodic composition and accompaniment, composition of small forms. Prereq: MusC 242.

MusC 325 **Composition** (2 cr, max arr). Creative writing. Prereq: MusC 240, 242.

MusC 327 **Orchestration** (3 cr). Alt/yrs. Principles of instrumentation and transcription with emphasis on idiomatic instrumental writing leading to projects in scoring for chamber groups, orchestra, and band. Prereq: MusC 242 or perm.

MusC 329 **Theoretical Basis of Jazz** (2 cr). Alt/yrs. Harmonic, melodic, rhythmic, and stylistic analysis of principal trends. Prereq: perm.

MusC 331 **Counterpoint** (3 cr). Style and technique of polyphonic 16th century vocal music through 18th century instrumental music, with emphasis on two- to three-part writing; motet, canon, invention, and fugue. Prereq: MusC 242 or perm.

MusC 400 (s) **Seminar** (cr arr). Prereq: perm.

MusC 403 (s) **Workshop** (cr arr). Prereq: perm.

MusC 404 (s) **Special Topics** (cr arr). Prereq: perm.

MusC 425 **Advanced Composition** (2 cr, max arr). Continuation of MusC 325. Increasing emphasis on varied media and larger forms, but with value being placed on creativity and originality. Prereq: MusC 325.

MusC 426 **Electronic Music** (2 cr). Alt/yrs. Techniques of musical composition using electronic media. Prereq: MusC 242 or perm.

MusC 428 **Choral Arranging** (2 cr). Alt/yrs. Techniques and devices used in arranging for vocal ensembles. Prereq: MusC 242 or perm.

MusC J432/J532 **Advanced Counterpoint** (2 cr). Advanced contrapuntal writing, including canon and fugue. Additional projects/assignments reqd for grad cr. Prereq: MusC 331.

MusC 441 **20th-Century Techniques** (2 cr). Compositional techniques of 20th century; composition and analytical project. Prereq: MusC 242.

MusC 442 **Musical Analysis** (2 cr). Study of traditional forms and analytical techniques. Prereq: MusC 242.

MusC 461 **Band Arranging** (2-4 cr, max 4). Alt/yrs. Scoring for wind and percussion instruments; range, transposition, and tone color. Prereq: MusC 242 or perm.

MusC 490 **Senior Recital** (0 cr). For students in composition required to have a full recital. Prereq: perm of dept; coreq: MusC 425.

MusC 498 **Proseminar** (2 cr). Prereq: perm.

MusC 499 (s) **Directed Study** (cr arr). Prereq: perm.

MusC 500 **Master's Research and Thesis** (cr arr).

MusC 501 (s) **Seminar** (cr arr). Prereq: perm.

MusC 502 (s) **Directed Study** (cr arr). Prereq: perm.

MusC 503 (s) **Workshop** (cr arr). Prereq: perm.

MusC 504 (s) **Special Topics** (cr arr). Prereq: perm.

MusC 507 **Individual Instruction: Composition** (cr arr). Prereq: MusC 525 or perm.

MusC 521 **Musical Analysis** (3 cr). Analysis of selected musical compositions. Prereq: perm.

MusC 525 **Composition** (2 cr, max arr). Creative writing.

MusC 527 **Advanced Orchestration** (2 cr, max arr). Orchestral scoring; recent trends. Prereq: MusC 327 or perm.

MusC 532 **Advanced Counterpoint** (2 cr). See MusC J432/J532.

MusC 590 (s) **Master's Recital** (0 cr). For students whose degree requires a composition recital as part of the degree requirements. Graded P/F. Prereq: audition and perm of committee; coreq: MusC 507 or 525.

MusC 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

HISTORY AND LITERATURE

- MusH 100 (s) **Survey of Music** (2-3 cr). Satisfies core requirement J-3-d. Not open for cr to majors or to those who have taken MusC 141. Intro to the art and nature of music; emphasis on aural skills, historical styles, musical forms, and the literature of music.
- MusH 101 **Introduction to Music** (2 cr). Intro to art and nature of music; representative world musical cultures and overview of Western vernacular and cultivated traditions.
- MusH 200 (s) **Seminar** (cr arr). Prereq: perm.
- MusH 203 (s) **Workshop** (cr arr). Prereq: perm.
- MusH 204 (s) **Special Topics** (cr arr). Prereq: perm.
- MusH 299 (s) **Directed Study** (cr arr). Prereq: perm.
- MusH 304 **Special Topics in Music History** (2-3 cr). Primarily for nonmajors. Music in context of general cultural history; studies of genres or style periods.
- MusH 321 **Music in Western Civilization I** (3 cr). Musical culture, styles, and genres from the Middle Ages through 1750. Prereq: MusH 100, 101, or perm.
- MusH 322 **Music in Western Civilization II** (3 cr). European and American musical culture, styles, and genres from 1750 to World War I. Prereq: MusH 100, 101, or perm.
- MusH 323 **Music in Western Civilization III** (3 cr). European and American musical cultures, styles, and genres, including jazz, from World War I to the present. Prereq: MusH 100, 101, or perm.
- MusH 400 (s) **Seminar** (cr arr). Prereq: perm.
- MusH 403 (s) **Workshop** (cr arr). Prereq: perm.
- MusH 404 (s) **Special Topics** (cr arr). Prereq: perm.
- MusH J410/J510 (s) **Studies in Jazz History** (3 cr). Alt/yrs. Selected topics in jazz. Additional projects/assignments reqd for grad cr. Prereq: MusH 321-323 or perm.
- MusH J416/J516 (s) **Studies in Renaissance Music** (3 cr). Alt/yrs. Selected topics in Renaissance music. Additional projects/assignments reqd for grad cr. Prereq: MusH 321-323 or perm.
- MusH J417/J517 (s) **Studies in Baroque Music** (3 cr). Alt/yrs. Selected topics in Baroque music. Additional projects/assignments reqd for grad cr. Prereq: MusH 321-323 or perm.
- MusH J418/J518 (s) **Studies in Classic/Romantic Music** (3 cr). Alt/yrs. Selected topics in Classic/Romantic music. Additional projects/assignments reqd for grad cr. Prereq: MusH 321-323 or perm.
- MusH J419/J519 (s) **Studies in 20th-Century Music** (3 cr). Alt/yrs. Selected topics in 20th-century music. Additional projects/assignments reqd for grad cr. Prereq: MusH 321-323 or perm.
- MusH J440/J540 (s) **Studies in American Music** (3 cr). Alt/yrs. Selected topics in American music. Additional projects/assignments reqd for grad cr. Prereq: MusH 321-323 or perm.
- MusH J451/J551 (s) **Repertoire** (2 cr, max arr). May be repeated for cr as content changes. Historical and analytical survey of literature available in all performing media. Additional projects/assignments reqd for grad cr. Prereq: jr standing and perm.
- MusH J459/J559 (s) **Studies in Opera Literature** (3 cr). Alt/yrs. Open to all students. Selected masterworks of opera literature. Additional projects/assignments reqd for grad cr. Prereq: perm.
- MusH 498 **Proseminar** (2 cr). Prereq: perm.
- MusH 499 (s) **Directed Study** (cr arr). Prereq: perm.
- MusH 500 **Master's Research and Thesis** (cr arr).
- MusH 501 (s) **Seminar** (cr arr). Prereq: perm.
- MusH 502 (s) **Directed Study** (cr arr). Prereq: perm.
- MusH 503 (s) **Workshop** (cr arr). Prereq: perm.
- MusH 504 (s) **Special Topics** (cr arr). Prereq: perm.
- MusH 510 (s) **Studies in Jazz History** (3 cr). See MusH J410/J510.
- MusH 516 (s) **Studies in Renaissance Music** (3 cr). See MusH J416/J516.
- MusH 517 (s) **Studies in Baroque Music** (3 cr). See MusH J417/J517.
- MusH 518 (s) **Studies in Classic/Romantic Music** (3 cr). See MusH J418/J518.
- MusH 519 (s) **Studies in 20th-Century Music** (3 cr). See MusH J419/J519.
- MusH 540 (s) **Studies in American Music** (3 cr). See MusH J440/J540.
- MusH 551 (s) **Repertoire** (2 cr, max arr). See MusH J451/J551.
- MusH 559 (s) **Studies in Opera Literature** (3 cr). See MusH J459/J559.
- MusH 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

MUSIC TEACHING

- MusT 200 (s) **Seminar** (cr arr). Prereq: perm.
- MusT 201 **Introduction to Music Teaching** (1 cr). Presentation of field experiences in primary and secondary music education.
- MusT 203 (s) **Workshop** (cr arr). Prereq: perm.
- MusT 204 (s) **Special Topics** (cr arr). Prereq: perm.
- MusT 251 **String Instrument Techniques** (1 cr). Group instruction. Problems of playing and teaching stringed instruments in elementary and secondary schools. Prereq: perm.
- MusT 252 **Clarinet Techniques** (1 cr). Group instruction. Problems of playing and teaching clarinet in elementary and secondary schools. Prereq: perm.
- MusT 253 **Brass Instrument Techniques** (1 cr). Group instruction. Problems of playing and teaching brass instruments in elementary and secondary schools. Prereq: perm.
- MusT 254 **Percussion Techniques** (1 cr). Group instruction. Problems of playing and teaching percussion instruments in elementary and secondary schools. Prereq: perm.
- MusT 299 (s) **Directed Study** (cr arr). Prereq: perm.
- MusT 351 **Advanced String Techniques** (1 cr). Group instruction. Prereq: MusT 251 or perm.
- MusT 352 **Double Reed Techniques** (1 cr). Group instruction. Prereq: MusT 252 or perm.
- MusT 353 **Advanced Brass Techniques** (1 cr). Group instruction. Prereq: MusT 253 or perm.
- MusT 354 **Flute and Saxophone Techniques** (1 cr). Group instruction. Prereq: MusT 252 or perm.
- MusT 381 **Elementary School Music Methods I** (3 cr). Same as Ed 381. Curriculum, organization, and instructional materials for teaching general classroom music. Two lec and one lab a wk. Must be taken before enrolling in MusT 432. Prereq: perm.
- MusT 383 **Principles of Music Teaching** (3 cr). Students in the School of Music take this course in lieu of Ed 468. Philosophy, principles, curriculum, and organization of the school music program. Must be taken before enrolling in MusT 432. Prereq: MusC 142.
- MusT 385 **Choral Music in the Secondary School** (2 cr). Methods, instructional materials, and techniques for teaching choral music in grades 7-12. Two lec and one lab a wk. Must be taken before enrolling in MusT 432. Prereq: 2 cr in MusA 316 or 317, MusC 142; prereq or coreq: MusT 383, MusA 387, or perm.
- MusT 386 **Instrumental Music in the Secondary School** (2 cr). Methods, instructional materials, and techniques for teaching instrumental music in grades 7-12. Two lec and one lab a wk. Must be taken before enrolling in MusT 432. Prereq: MusC 142; prereq or coreq: MusT 383, MusA 387, or perm.
- MusT 387 **Orff Schulwerk** (2 cr). Philosophies and music teaching techniques attributed to Carl Orff with emphasis on creative movement, singing, improvisation, and percussion instruments. Prereq: perm.
- MusT 388 **Kodaly Method** (2 cr). Philosophies and teaching sequence (based on the development of the child) of Zoltan Kodaly with emphasis on solfege singing, folk songs, child development lesson planning, and development of personal musicianship. Prereq: perm.
- MusT 400 (s) **Seminar** (cr arr). Prereq: perm.
- MusT 403 (s) **Workshop** (cr arr). Prereq: perm.
- MusT 404 (s) **Special Topics** (cr arr). Prereq: perm.
- MusT 432 (s) **Practicum: Music Teaching** (7 or 14 cr). Supervised music teaching in public schools. Graded P/F. Prereq: Ed 312, 314, MusT 445, cumulative GPA of 2.50, and perm of School of Music. (Submit application via coordinator of music education to the director of clinical experiences in teacher education by December 1 of school yr before enrolling).
- MusT J435/J535 (s) **Pedagogy and Materials** (2 cr, max arr). Methods and materials of performance techniques for each performance field. Additional projects/assignments reqd for grad cr. Prereq: jr standing and perm.
- MusT 438 (s) **Practicum** (cr arr). Studio and classroom teaching of secondary music majors, minors, or electives. Prereq: perm.
- MusT 445 **Proseminar in Music Teaching** (2 cr). Orientation to practicum.
- MusT 465 **Jazz Band Rehearsal Techniques** (1 cr). Methods, materials, and literature for jazz bands in public schools. Coreq: MusT 466, 467.
- MusT 466 **Marching Band Techniques** (1 cr). Techniques of drilling; materials for field and street maneuvers; preparation of shows. Prereq: MusC 242; coreq: MusT 465, 467.
- MusT 467 **Instrumental Literature for Public Schools** (1 cr). Music and materials suitable for instrumental ensembles in schools. Coreq: MusT 465, 466.
- MusT 468 **Literature for Vocal Ensembles** (2 cr). Chamber music materials suitable for use in schools.

MusT 481 **Elementary School Music Methods II** (3 cr). Prereq: MusT 381 or perm.

MusT 485 **Choral Ensemble Rehearsal Techniques** (1 cr, max arr). Various techniques of rehearsing singers in an ensemble. Coreq: MusT 385.

MusT 486 **Instrumental Ensemble Rehearsal Techniques** (1 cr, max arr). Various techniques of rehearsing string, wind, and percussion players in an ensemble. Coreq: MusT 386.

MusT 498 **Proseminar** (2 cr). Prereq: perm.

MusT 499 (s) **Directed Study** (cr arr). Prereq: perm.

MusT 500 **Master's Research and Thesis** (cr arr).

MusT 501 (s) **Seminar** (cr arr). Prereq: perm.

MusT 502 (s) **Directed Study** (cr arr). Prereq: perm.

MusT 503 (s) **Workshop** (cr arr). Prereq: perm.

MusT 504 (s) **Special Topics** (cr arr). Prereq: perm.

MusT 505 **Curriculum Development** (3 cr). Scope and sequence of musical experience in public schools through curriculum development.

MusT 506 **Teaching Systems** (3 cr). For experienced teachers. Survey of Orff, Kodaly, Gordon, and Manhattanville and their relationship to teaching music at all levels. Prereq: one yr teaching experience or perm.

MusT 507 **Evaluation in Music** (3 cr). Study and development of evaluation instruments for use in teaching music.

MusT 535 (s) **Pedagogy and Materials** (2 cr, max arr). See MusT J435/J535.

MusT 538 (s) **Practicum** (cr arr). Studio and classroom teaching of secondary music majors, minors, or electives. Prereq: perm.

MusT 562 **Choral Literature and Techniques** (2 cr). Prereq: MusT 385, MusA 387, or perm.

MusT 563 **Orchestral Literature and Techniques** (2 cr). Prereq: MusT 386, MusA 387, or perm.

MusT 564 **Band Literature and Techniques** (2 cr). Prereq: MusT 386, MusA 387, or perm.

MusT 581 (s) **College Music Teaching** (1 cr, max 3). Contemporary teaching techniques in one or more of the following fields: theory, music literature, music education, piano, voice, woodwinds, strings, brass, and percussion. Prereq: perm.

MusT 583 **School Music Administration** (2 cr). Principles underlying sound policies in the supervision and administration of school music. Prereq: one yr of teaching experience or perm.

MusT 597 (s) **Practicum** (cr arr). Prereq: perm.

MusT 598 (s) **Internship** (cr arr). Prereq: perm.

MusT 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

GENERAL

MusX 140 **Convocation** (0 cr). Required of all music majors for seven semesters and music minors for two semesters (minimum of 10 recitals a semester). Graded P/F.

MusX 200 (s) **Seminar** (cr arr). Prereq: perm.

MusX 203 (s) **Workshop** (cr arr). Prereq: perm.

MusX 204 (s) **Special Topics** (cr arr). Prereq: perm.

MusX 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

MusX 283-284 (s) **Diction for Singers** (2 cr). Alt/ys. Two-semester sequence (English/Italian and German/French) in study of language sounds as represented by the International Phonetic Assoc.

MusX 299 (s) **Directed Study** (cr arr). Prereq: perm.

MusX 400 (s) **Seminar** (cr arr). Prereq: perm.

MusX 403 (s) **Workshop** (cr arr). Prereq: perm.

MusX 404 (s) **Special Topics** (cr arr). Prereq: perm.

MusX 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

MusX 469 **Research Techniques in Music** (2 cr). Principles of research design and techniques. Prereq: perm.

MusX 498 **Proseminar** (2 cr). Prereq: perm.

MusX 499 (s) **Directed Study** (cr arr). Prereq: perm.

MusX 500 **Master's Research and Thesis** (cr arr).

MusX 501 (s) **Seminar** (cr arr). Prereq: perm.

MusX 502 (s) **Directed Study** (cr arr). Prereq: perm.

MusX 503 (s) **Workshop** (cr arr). Prereq: perm.

MusX 504 (s) **Special Topics** (cr arr). Prereq: perm.

MusX 511 **Bibliography and Research** (3 cr). Orientation to grad study; bibliography and research procedures.

MusX 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

General Requirements for All B.A. and B.Mus. Degrees

Minimum Grade Requirement. A music student, either major or minor, must achieve a minimum grade of C in each music course, either resident or transfer, which is applicable to a degree program in music before the student will be eligible for graduation.

Ensemble Participation. An undergraduate major in the School of Music is required to enroll in an ensemble during each semester. Various requirements are contained in the specific curricula, depending on the performance specialty. Consult a School of Music adviser for further details.

Keyboard Proficiency. Minimum keyboard proficiency for all B.Mus. majors is met by satisfactory completion of MusA 145-146, 245-246, Piano Class, or by passing a keyboard proficiency examination or for B.A. majors by satisfactory completion of MusA 145 or by passing a keyboard proficiency test.

Upper-Division Standing (UDS). For an undergraduate music education or music performance major to enroll in MusA 324 or 334 respectively, or for a composition major to enroll in MusC 325, the student must have passed the requirements of the major area; this involves a special jury examination and demonstration of mastery of the fundamentals of the student's major area of performance/composition and the potential to continue improving in a manner that will lead to the successful completion of performance/composition requirements of the degree and major emphasis.

Convocation-Recital Attendance. Because listening experiences constitute an area of major importance in the study of music, all music majors and music minors are required to register for MusX 140, Convocation; music majors must attend 10 recitals a semester for seven semesters and music minors must attend 10 recitals a semester for two semesters. Recital credit will not be granted for those performances in which a student participates. In addition, music majors must attend the weekly convocation series (studio class, area recital, and convocation). Transfer students are expected to enroll in MusX 140 during their first registration, and to receive a passing grade in a specific number of semesters (to be determined when the student's program is set up). Students must attend a full concert or program in order for it to be counted toward convocation-recital requirements.

MUSIC: APPLIED MUSIC (B.A.)

Required course work includes the university requirements (see regulation J-3), the L & S requirements for the B.A. degree, and:

Course	Credits
MusA 124 Individual Instruction	8
MusA 145 Piano Class	1
MusA 324 Individual Instruction	8
MusA 490 Recital (half)	0
MusC 139-140, 239-240 Aural Skills	4
MusC 141-142, 241-242 Theory of Music	12
MusH 101 Introduction to Music	2
MusH 321, 322, 323 Music in Western Civilization	9
MusX 140 Convocation (seven semesters)	0
Music history or theory elective (upper-division)	2-3
Electives to complete 50 cr in music	3-4
Electives to total 128 cr for the degree (incl at least 78 cr in nonmusic courses)	—

MUSIC: HISTORY AND LITERATURE (B.A.)

Required course work includes the university requirements (see regulation J-3), the L & S requirements for the B.A. degree, and:

Cours ^e	Credits
MusA 114 Individual Instruction	4
MusA 145 Piano Class	1
MusA 314 Individual Instruction	4
MusC 139-140, 239-240 Aural Skills	4
MusC 141-142, 241-242 Theory of Music	12
MusH 101 Introduction to Music	2
MusH 321, 322, 323 Music in Western Civilization	9
MusX 140 Convocation (seven semesters)	0
Music history electives (upper-division)	4-6
Music theory electives (upper-division)	4
Electives to complete 50 cr in music	4-6
Electives to total 128 cr for the degree (incl at least 78 cr in nonmusic courses)	—

MUSIC: THEORY (B.A.)

Required course work includes the university requirements (see regulation J-3), the L & S requirements for the B.A. degree, and:

Course	Credits
MusA 114 Individual Instruction	4
MusA 145 Piano Class	1
MusA 314 Individual Instruction	4
MusC 139-140, 239-240 Aural Skills	4
MusC 141-142, 241-242 Theory of Music	12
MusH 101 Introduction to Music	2
MusH 321, 322, 323 Music in Western Civilization	9
MusX 140 Convocation (seven semesters)	0
Music theory electives (upper-division)	10
Electives to complete 50 cr in music	4
Electives to total 128 cr for the degree (incl at least 78 cr in nonmusic courses)	—

MUSIC: INSTRUMENTAL PERFORMANCE (B.Mus.)

Required course work includes the university requirements (see regulation J-3) and the specific requirements in one of the two sections below. It is strongly recommended that instrumentalists elect literature or pedagogy courses appropriate to their major fields.

A. KEYBOARD

Note: Keyboard majors must pass the class piano proficiency exam or register for the appropriate level of class piano until the proficiency exam is passed.

Course	Credits
MusA 134 Individual Instruction	12
MusA 334 Individual Instruction	12
MusA 315 Accompanying	4
MusA 365 Chamber Ensemble	2
MusA 387 Conducting I	2
MusA 454 Performance Practices	2
MusA 490 Recital (half)	0
MusA 491 Recital (full)	0
MusC 139-140, 239-240 Aural Skills	4
MusC 141-142, 241-242 Theory of Music	12
MusC 331 Counterpoint	3
MusC 442 Musical Analysis	2
MusH 101 Introduction to Music	2
MusH 321, 322, 323 Music in Western Civilization	9
MusH 451 Repertoire	4
MusT 435 Pedagogy & Materials	4
MusX 140 Convocation (seven semesters)	0
Music history electives	3
Large ensemble (two different semesters chosen from MusA 316, 317, 318, 319, 320, 321, 322)	2
Music electives to complete 84 cr in music	5
Electives to total 128 cr for the degree	—

B. ORCHESTRAL INSTRUMENTS OR GUITAR

Course	Credits
MusA 134 Individual Instruction	12
MusA 145-146, 245-246 Piano Class	4
MusA 334 Individual Instruction	12
MusA 387 Conducting I	2
MusA 454 Performance Practices	2
MusA 490 Recital (half)	0
MusA 491 Recital (full)	0
MusC 139-140, 239-240 Aural Skills	4
MusC 141-142, 241-242 Theory of Music	12
MusC 331 Counterpoint	3
MusC 442 Musical Analysis	2
MusH 101 Introduction to Music	2
MusH 321, 322, 323 Music in Western Civilization	9
MusH 451 Repertoire	2
MusT 435 Guitar Pedagogy & Materials (guitar majors only)	2
MusX 140 Convocation (seven semesters)	0
Music history elective	3
Large ensemble (eight different semesters chosen from MusA 320, 321, 322) (4 cr in four different semesters reqd for guitar majors, which may also be chosen from MusA 316, 317, 319)	8
Chamber music (two different semesters chosen from MusA 323, 365) (4 cr in four different semesters of MusA 365, Guitar Ensemble, reqd for guitar majors)	2
Music electives to complete 84 cr in music	5
Electives to total 128 cr for the degree	—

MUSIC: VOCAL PERFORMANCE (B.Mus.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
MusA 134 Individual Instruction	12
MusA 145-146, 245-246 Piano Class	4
MusA 334 Individual Instruction	12

MusA 380 Opera Workshop	2
MusA 387 Conducting I	2
MusA 454 Performance Practices	2
MusA 490 Recital (half)	0
MusA 491 Recital (full)	0
MusC 139-140, 239-240 Aural Skills	4
MusC 141-142, 241-242 Theory of Music	12
MusC 331 Counterpoint	3
MusC 442 Musical Analysis	2
MusH 101 Introduction to Music	2
MusH 321, 322, 323 Music in Western Civilization	9
MusH 451 Repertoire	2
MusT 435 Pedagogy & Materials	2
MusX 140 Convocation (seven semesters)	0
Foreign language (two years of one language or one year each of two languages)	16
Music history electives	3
Large ensemble (six different semesters chosen from MusA 316, 317)	6
Chamber music (two different semesters chosen from MusA 318, 365)	2
Music electives to complete 84 cr in music	3
Electives to total 128 cr for the degree	—

MUSIC: COMPOSITION (B.Mus.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
MusA 114 Individual Instruction (if major performing medium is other than piano, piano is suggested for the minor area)	2
MusA 124 Individual Instruction	8
MusA 145-146, 245-246 Piano Class	4
MusA 324 Individual Instruction	4
MusA 387 Conducting I	2
MusC 139-140, 239-240 Aural Skills	4
MusC 141-142, 241-242 Theory of Music	12
MusC 325 Composition	4
MusC 327 Orchestration	3
MusC 331 Counterpoint	3
MusC 425 Advanced Composition	4
MusC 426 Electronic Music	2
MusC 428 Choral Arranging	2
MusC 442 Musical Analysis	2
MusC 490 Recital	0
MusH 101 Introduction to Music	2
MusH 321, 322, 323 Music in Western Civilization	9
MusX 140 Convocation (seven semesters)	0
Music history elective	3
Large ensemble (eight different semesters chosen from MusA 316, 317, 319, 320, 321, 322)	8
Chamber music (two different semesters chosen from MusA 318, 323, 365) (one semester of MusA 315, Accompanying, is reqd of students whose major applied medium is keyboard)	2
Music electives to complete 84 cr in music	4
Electives to total 128 cr for the degree	—

MUSIC EDUCATION: VOCAL (B.Mus.)

The professional education courses required in partial fulfillment of this degree are in the process of change. Contact the Hampton School of Music for specific course and requirement information.

NOTE: For registration in upper-division courses in education, students must have been admitted to the teacher education program and maintain a GPA of 2.5. For admission criteria, refer to "Admission to the Teacher Education Program" in the College of Education section of part four of this catalog.

Required course work includes the university requirements (see regulation J-3) and completion of one of the two sections below:

A. PREPARATION FOR JR.-SR. HIGH SCHOOL MUSIC TEACHING

Course	Credits
MusA 114 Individual Instruction (voice for piano majors; piano for voice majors)*	4
MusA 314 Individual Instruction (voice for piano majors; piano for voice majors)*	2
MusA 124 Individual Instruction	8
MusA 151 or 152 Guitar Class	1
MusA 324 Individual Instruction	6
MusA 380 Opera Workshop	1
MusA 387, 487 Conducting I, II	4
MusA 490 Recital (half)	0
MusC 139-140, 239-240 Aural Skills	4
MusC 141-142, 241-242 Theory of Music	12
MusC 428 Choral Arranging	2
MusH 101 Introduction to Music	2
MusH 321, 322, 323 Music in Western Civilization	9
MusT 381 Elementary School Music Methods	3
MusT 383 Principles of Music Teaching	3
MusT 385 Choral Music in the Secondary School	2
MusT 432 Practicum: Music Teaching	14
MusT 435 Pedagogy & Materials	2
MusT 445 Proseminar in Music Teaching	2
MusT 485 Choral Ensemble Rehearsal Techniques	1

MusX 140 Convocation (seven semesters).....	0
MusX 283-284 Diction for Singers.....	4

Department of Naval Science

Garnett Y. Clark, Dept. Head (101 Navy Bldg.; 208/885-6333). Faculty: Garnett Y. Clark, Nan B. Dupuy, John M. Butterworth, Paul M. Kwiatkowski, Anthony Scherschel, Jason D. Wong.

The Navy-Marine Corps Officer Education Program (NOEP) provides instruction and training for young men and women in preparation for being commissioned as officers in the United States Navy or Marine Corps through the Naval Reserve Officer Training Corps (NROTC). Students are designated as midshipmen and receive extensive academic, physical, and leadership training while pursuing a degree in a field of their choice from the university. Emphasizing sustained strong academic performance along with leadership and physical fitness training, the goal of NROTC is to develop each midshipman to his or her highest mental, moral, and physical capability in preparation for assuming a position of high trust and responsibility as a commissioned officer in the United States Naval Service.

Both scholarship and nonscholarship (or "college") programs are offered in four-, three-, and two-year options. Application is normally made for four-year programs during the senior year in high school, however, students may apply directly to the professor of naval science for the college program at the beginning of their freshman year. Application for the three- or two-year programs may be made during the student's freshman or sophomore year. Information concerning any of these programs may be obtained from the professor of naval science.

The Naval Science Program consists of 20 semester hours of professional naval courses covering subjects such as engineering, navigation, military organization, and leadership. In addition, midshipmen are required to enroll in NS 100, where they receive instruction in military drill, courtesies, and other basic military skills during which they gain leadership experience. All uniforms and naval science textbooks are provided.

Upon graduation, the midshipmen are commissioned as officers in the U.S. Navy or U.S. Marine Corps. All new officers receive orders to active duty and are assigned to a broad spectrum of communities such as aviation, surface warfare, submarines, Marine ground forces, or other specialized fields. In all assignments the new officer takes a position that uses his or her specialized leadership, managerial, and educational training.

Scholarship Program. Scholarship benefits include tuition, fees, books, and \$100 per month stipend. Initial selections are based on college entrance examination scores (SAT or ACT) and high school academic performance.

A student on scholarship participates in three summer training cruises of four to six weeks' duration. During the first cruise, students are introduced to the submarine, amphibious warfare, surface warfare, and aviation communities. The second and third cruises are aboard ships of the Pacific or Atlantic fleet and often include travel to Europe or the Far East. During summer cruises, the students receive one-half the pay of newly commissioned officers, room, and board. Graduates of this program are commissioned as regular officers in the Navy or Marine Corps.

College Program. Application for this program is made directly to the head of the Department of Naval Science. Students receive their

uniforms and naval science textbooks at no cost and begin receiving a monthly \$100 stipend at the beginning of their junior year. This program requires one training cruise during the summer following the junior year aboard a ship of the Pacific or Atlantic fleet. During the cruise, students receive one-half the pay of newly commissioned officers, room, and board. College Program graduates are commissioned as active duty reserve officers. Also, certain outstanding College Program students may be nominated by the professor of naval science to receive a scholarship.

Marine Corps Option. Both male and female Scholarship and College Program students who desire a Marine Corps commission may apply for the Marine Corps Option during their first two years in college. Students taking this option enroll in specialized courses on Marine Corps subjects during their junior and senior years and participate in summer training at the Marine Corps Development and Education Center, Quantico, Virginia, during the summer following their junior year.

Naval Science Institute. Navy-Marine Corps Scholarship and College Program applicants entering the program after completion of their sophomore year will be required to attend the Naval Science Institute (NSI) during the summer between their sophomore and junior years. At the NSI they will study the material taken by the four-year candidates during their freshman and sophomore years. On completion of the NSI, candidates return to the university and complete their junior and senior years of the naval science curriculum with their peers. Candidates in the two-year program will participate in one afloat cruise between their junior and senior years. Applications must be submitted early in the second semester of the sophomore year. The top NSI graduates are awarded scholarships for their last two years of college. The remaining graduates enter the College Program and receive those benefits.

Field Trips. Field trips to Navy and Marine Corps facilities are arranged periodically in order to allow the Navy-Marine Corps Officer Education Program members the opportunity to learn more about the naval service.

Naval Science Courses

NS ID100 Drill/Lab (0 cr). WSU N S 100. Req'd of all Navy-Marine Corps OEP students. Two 1-hr labs a wk.

NS ID101 Introduction to Naval Science (2 cr). WSU N S 101. Intro to the Navy: customs, structure, career paths, ship and aircraft of the U.S. Fleet.

NS ID102 Ships Systems I (3 cr). WSU N S 102. Intro to Naval shipboard engineering systems; propulsion systems; nuclear, gas turbine, and conventional; auxiliary systems and shipboard damage control; basic concepts in ship design.

NS ID110 Basic Sail Training (0 cr). WSU N S 110. Intro to small sailboat handling and safety, principles of sailing, basic procedures and terminology; includes limited on-water practice when boats are available. Graded P/F. Four classroom sessions, 1 session in UI pool, and 2-5 sailing sessions (Saturdays). Prereq: perm.

NS 200 (s) **Seminar** (cr arr). Prereq: perm.

NS ID201 Ships Systems II (3 cr). WSU N S 201. Naval weapons systems; theory and process of detection (radar and sonar), evaluation; weapons; delivery, guidance, and explosives; integration of weapons systems with command, control, and communications systems.

NS ID202 Seapower and Maritime Affairs (2 cr). WSU N S 202. Survey of U.S. Naval history; seapower and maritime affairs emphasizing present-day concerns; comparisons of U.S. and foreign Naval strategies.

NS 299 (s) **Directed Study** (cr arr). Prereq: perm.

NS ID301 Navigation (3 cr). WSU N S 301. Theory, principles, and procedures of terrestrial, celestial, and electronic navigation.

NS ID302 Naval Operations (3 cr). WSU N S 302. Naval operations and tactics, relative motion, and "rules of the nautical road." Prereq: enrolled in NOEP.

NS ID311 Evolution of Warfare (3 cr). WSU N S 311. Evolution of war through tactics; strategy from Sun Tzu to J.F.C. Fuller.

NS ID401 Naval Organization and Management (2 cr). WSU N S 401. Theories of management and management resources, motivational theories, and leadership.

NS ID402 Naval Leadership (2 cr). WSU N S 402. Naval administration, emphasizing the U.C.M.J., human resource management, material management, and supply systems.

NS ID412 **Amphibious Operations** (3 cr). WSU N S 412. Amphibious doctrine from Gallipoli to the Mayaguez.

NS ID451 **Navy Flight Indoctrination** (2 cr). WSU N S 451. Intro to Naval aviation emphasizing navigation, aerodynamics, engineering, weather, flight safety, and duties of naval aviators and flight officers.

NS 499 (s) **Directed Study** (cr arr). Prereq: perm.

Curricular Requirements

NAVAL SCIENCE (B.N.S.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
NS 101 Introduction to Naval Science.....	2
NS 102 Ships Systems I.....	3
NS 201 Ships Systems II.....	3
NS 202 Seapower & Maritime Affairs.....	2
NS 301 Navigation.....	3
NS 302 Naval Operations.....	3
NS 401 Naval Organization & Management.....	2
NS 402 Naval Leadership.....	2
CS 112 Introduction to Problem Solving & Programming.....	3
Hist 455 20th Century Europe.....	3
Math 180, 190 Analytic Geometry & Calculus I, II.....	8
Phys 113-114 General Physics.....	6
Phys 115 or 116 General Physics Lab.....	1

A student applying for the bachelor's degree in naval science must have completed at least 80 percent of the requirements toward another university degree, as approved by the dean of the college concerned.

A student in naval science who concurrently qualifies for both the B.N.S. degree and another university degree will be awarded only the other university degree.

The awarding of the B.N.S. degree is administered through the College of Letters and Science; however, the academic records of the student concerned remain with the college in which he or she is registered for the regular baccalaureate degree.

Academic Minor Requirements

NAVAL SCIENCE MINOR

Course	Credits
NS 101 Introduction to Naval Science.....	2
NS 102, 201 Ships Systems I, II.....	6
NS 202 Seapower & Maritime Affairs.....	2
Four to six courses from the following.....	10
NS 301 Navigation	
NS 302 Naval Operations	
NS 311 Evolution of Warfare	
NS 401 Naval Organization & Management	
NS 402 Naval Leadership	
NS 412 Amphibious Operations	
NS 451 Navy Flight Indoctrination	

Nuclear Engineering

David M. Woodall, Program Director (125 Janssen Engr. Bldg.; 208/885-6479). Faculty: Jasper R. Avery, Thomas E. Carleson, Donald F. Elger, Joseph J. Feeley, E. Clark Lemmon, Alan G. Stephens.

RELATED FIELDS: For other courses offered in the nuclear field, see Chem 416, Chem 513, Phys 465, and Phys 566.

Nuclear Engineering Courses

NE R120 **Fundamental Concepts of Nuclear Engineering** (3 cr). Basic concepts; intro to atomic structure, nuclear reactions, fission process, nuclear reactor fundamentals and types.

NE R220 **Analysis of Nuclear Engineering Systems I** (3 cr). Primarily for technologists. Elementary quantitative analysis, with emphasis on the qualitative aspects of nuclear engineering systems; ore processing, fuel element fabrication, materials selection, shielding, and control. Prereq: NE 120 or perm.

NE R221 **Analysis of Nuclear Engineering Systems II** (3 cr). Primarily for technologists. Continuation of NE R220. Heat removal, reactor design, fuel recycle, and waste disposal. Prereq: NE 220 or perm.

NE 360 **Nuclear Engineering** (3 cr). Atomic and nuclear physics; reactor system physics and heat transfer. Prereq: CE 320, Math 310.

NE 404 (s) **Special Topics** (cr arr). Prereq: perm.

NE 460 **Nuclear Reactor Engineering** (3 cr). Nuclear reactor design problems in thermodynamics, fluid flow, heat transfer, fuel preparation, waste disposal, and materials selection; disc of reactor types. Prereq: NE 360 or perm.

NE R462 **Nuclear Reactor Codes and Standards** (3 cr). Same as ITED 464. ASME nuclear codes and standards; their contribution to nuclear power plant design and operation. (Cr in this course may not be counted toward a degree.)

NE R470 **Nuclear Reactor Safety** (3 cr). Light water reactor safety: evaluation methods, system disturbances, safety criteria, containment, NRC licensing process, and computer codes for nuclear safety analysis; intro to liquid metal safety. Prereq: perm.

NE R500 **Master's Research and Thesis** (cr arr).

NE R501 (s) **Seminar** (cr arr). Prereq: perm.

NE 502 (s) **Directed Study** (cr arr). Prereq: perm.

NE R530 **Two-Phase Flow** (3 cr). Treatment of fluid mechanics and heat transfer in conjunction with nuclear reactors where two-phase flow problems are found.

NE R540 **Fusion Energy** (3 cr). Basic concepts and experimental approaches to fusion, elementary plasma theory, plasma oscillations, heating; fusion reactor technology development and long range prospects.

NE R550 **Topics in Advanced Nuclear Engineering** (3 cr). Prereq: perm.

NE R565 **Reactor Engineering** (3 cr). Radiation shielding, materials, instrumentation and controls, separation of stable isotopes, chemical separation and processing, special techniques. Prereq: Phys 566 or perm.

NE R580 **Waste Management and Nuclear Fuel Reprocessing** (3 cr). Head-end processing, solvent extraction processes, ion exchange processes, precipitation processes, and effluent disposal.

NE 581 **Treatment of Radioactive Waste** (3 cr). Alternative processes and operations for treatment of radioactive wastes before long-term storage. Prereq: Math 310, NE 360 or Phys 587.

Department of Philosophy

Marvin C. Henberg, Dept. Chair (408 Morrill Hall; 208/885-7107). Faculty: Janice C. Anderson, Kathryn P. George, Nicholas F. Gier, Barbara E. Hannan, Marvin C. Henberg, Douglas Lind. Adjunct Faculty: Raymond Dacey, Jack Kulas.

Philosophy examines the grounds of knowledge, the nature of reality, and the nature of value, justice, and morality. It asks fundamental questions about how we reason and how we ought to reason. Its subject matter encompasses all the other academic disciplines, indeed all areas of human experience—society, values, mind, language, art, and science.

The main value of philosophy lies in its contribution to a liberal education. As a central discipline of the humanities, philosophy encourages those who study it to gain insight into themselves and others—insight that proves helpful in setting high standards and working in productive collaboration with one's associates. In addition, philosophy is an excellent means of learning to reason and write clearly—skills useful in every conceivable human enterprise, now or in the future. Some philosophy majors pursue careers in academia; others, however, make rewarding careers for themselves in business, government, journalism, law, and human services.

Philosophy Courses

Phil 101 **Ethics** (3 cr) (C). Satisfies core requirement J-3-d. Introduction to philosophical reasoning through historical study of Western moral thought.

Phil 201 **Belief and Reality** (3 cr). Introduction to epistemology (examination of grounds and limits of knowledge) and metaphysics (inquiry into nature of reality) through historical and contemporary readings.

Phil 204 (s) **Special Topics** (cr arr). Prereq: perm.

Phil 207 **Biomedical Ethics** (3 cr). Ethical questions in the health professions and medical research, with emphasis on current dilemmas faced by physicians, nurses, medical technologists, and dentists; case analysis in context of modern ethical theory.

Phil 210 **Critical Thinking** (3 cr). Acquiring and improving important skills of thinking, reading, and writing critically; emphasis on avoiding fallacies and mastering forms of valid argument in ordinary language.

Phil 211 Introduction to Symbolic Logic (3 cr). Development of systematic techniques for assessing validity of arguments; includes categorical logic, propositional logic, and elementary qualification logic.

Phil 300 Existentialism (3 cr). Analysis of the writings of such figures as Kierkegaard, Nietzsche, Dostoyevsky, Hesse, Kafka, Buber, Camus, and Sartre.

Phil 305 Philosophy of Religion (3 cr). Philosophical investigation of such issues as the existence and attributes of God, problems of free will and evil, afterlife, miracles, and creation.

Phil 306 Hindu Thought (3 cr). Analysis of the Vedas, the Upanishads, the Bhagavad-gita, Jainism, and later Hindu thought.

Phil 307 Buddhism (3 cr). Philosophy and religion of Gautama Buddha as it developed in India, Tibet, China, and Japan.

Phil 308 Confucianism and Taoism (3 cr). Analysis of writings of Lao-tzu, Confucius, Mencius, Chuang-tzu, and medieval Confucianism.

Phil ID&WS309 History of Ancient Philosophy (3 cr) (C). WSU Phil 300. Philosophical thought from the early Greeks through the Middle Ages; concentration on metaphysics and theory of knowledge.

Phil ID&WS310 History of Modern Philosophy (3 cr) (C). WSU Phil 305. Critical evaluation of the thought of major figures in early modern philosophy, such as Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, and Kant; emphasis on metaphysics and epistemology.

Phil 311 Metaphysics (3 cr). Classical and contemporary readings on such items as realism versus nominalism, free will and determinism, the nature of causality, the existence of God, personal identity, modality.

Phil 314 Contemporary Moral Problems (3 cr). Philosophical case analysis in areas of current concern such as racism and sexism, sexual morality, professional responsibility, abortion, welfare of animals, and right to die.

Phil 401 Philosophy of the Arts (3 cr). Chief conceptions of the nature of the arts and their interpretation.

Phil WS402 Seminar in Symbolic Logic (3 cr). WSU Phil 401. Alt/yrs.

Phil 404 (s) Special Topics (cr arr). Prereq: perm.

Phil 405 Feminism and Philosophy (3 cr). Analysis of schools of feminist theory and impact of feminism on philosophy and other disciplines.

Phil 407 Environmental Ethics (3 cr). Survey of philosophical issues and methodological assumptions employed in developing field of environmental ethics.

Phil ID410 Philosophy of Law (3 cr). WSU Phil 470. Analysis of fundamental philosophical issues in law and legal systems, including the nature of law, relation of law to morality, judicial method, and nature and ascription of rights.

Phil ID&WS411 Social and Political Philosophy (3 cr). WSU Phil 445. Examination of basic issues of social justice and political organization, including theory of the state, liberty, equality, justification of rights, justice theory, and distributive justice.

Phil ID&WS412 Philosophy of Science (3 cr). WSU Phil 425. Philosophical examination of the methods and presuppositions of empirical science.

Phil ID&WS414 Ethical Theory (3 cr). WSU Phil 460. Critical analysis of classical consequentialist and deontic views as well as one or more recent theories such as emotivism and prescriptivism, feminist ethics, communitarianism, or virtue ethics. Prereq: Phil 101.

Phil 415 Phenomenology (3 cr). Survey of philosophy of Husserl, Heidegger, Merleau-Ponty, Sartre, and others in the phenomenological tradition.

Phil 416 Twentieth Century Analytic Philosophy (3 cr). Examination of the thought of major figures in 20th century analytic philosophy, such as Moore, Russell, Frege, Wittgenstein, and Quine; evaluation of major movements such as logical positivism and "ordinary language" philosophy.

Phil 418 Philosophy of Biology (3 cr). Classical and current conceptual issues in the foundations and aims of biology, and the role of values and social concerns as they affect and interact with biological science, research, and technology. Recommended prereq: one college course in biological science.

Phil 422 Philosophical Ideas in Literature (3 cr). Study of metaphysical, epistemological, and moral precepts of selected authors of imaginative literature.

Phil 425 American Philosophy (3 cr). Focuses on development of pragmatism in the writings of Pierce, James, and Dewey and on selected other figures in American philosophy, e.g., Edwards, Santayana, Whitehead, and Quine.

Phil ID&WS431 Theory of Knowledge (3 cr). WSU Phil 335. Analysis of the nature of knowledge; survey of various philosophical positions on the sources and extent of what we know.

Phil ID&WS442 Philosophy of Mind (3 cr). WSU Phil 450. Survey of current philosophical theories of nature of minds and mental states, including forms of dualism, reductive physicalism, functionalism, and eliminative materialism.

Phil 443 Philosophy of Language (3 cr). Philosophical thinking about meaning, reference, and truth.

Phil 461 Philosophy of War and Peace (3 cr). Philosophical analysis of violent and nonviolent methods of political conflict resolution; may include just war theory, limited war theory, terrorism, institutionalized procedures for resolving political conflict, and pacifism.

Phil 498 Senior Seminar (3 cr). Required of all philosophy majors; capstone course devoted to mastery of the philosophical essay; topics will vary. Prereq: senior standing or completion of 24 credits in philosophy.

Phil 499 (s) Directed Study (cr arr). Prereq: perm.

Curricular Requirements

PHILOSOPHY (B.A. or B.S.)

Note: Students who intend to do graduate work are advised to take the Bachelor of Arts degree.

The electives in philosophy and related fields are to be selected with the approval of the chair of philosophy.

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and:

Course	Credits
Phil 101 Ethics.....	3
Phil 201 Belief & Reality.....	3
Phil 210 Critical Thinking or Phil 211 Intro to Symbolic Logic.....	3
Phil 309 History of Ancient Philosophy.....	3
Phil 310 History of Modern Philosophy.....	3
Phil 498 Senior Seminar.....	3
Philosophy electives (upper-division; must include at least one course in non-Western thought).....	12
Related fields (humanities, social sc, and sc).....	20

Academic Minor Requirements

PHILOSOPHY MINOR

Course	Credits
Phil 101 Ethics or 210 Critical Thinking or 211 Intro to Symbolic Logic or 201 Belief & Reality.....	3
Phil 309 History of Ancient Philosophy.....	3
Phil 310 History of Modern Philosophy.....	3
Three upper-division philosophy courses.....	9

PHYSICAL EDUCATION—see Division of Health, Physical Education, Recreation and Dance

Department of Physics

Henry Willmes, Dept. Chair (13 Malcolm M. Renfrew Hall; 208/885-6380). Faculty: R. Paul Bickerstaff, Michael E. Browne, Philip A. Deutchman, Robert J. Kearney, James F. Kelly, Ruprecht Machleidt, George Patsakos, Bernhard J. Stumpf, Henry Willmes, Wei Jiang Yeh.

Physics is the scientific study of the nature and behavior of matter and energy. On the basis of quantitative observations, physicists develop theories to describe the observed behavior. Further experiments and observations are used to verify or refine the theories. The scientific method demands logical and mathematical rigor. The wealth of applications of physics to technology appeals to pragmatic persons, yet physics has much greater similarity to the arts and humanities than is commonly realized, because of the intellectual curiosity and creativity on which it is built.

The physics program at UI introduces students in technical and nontechnical curricula alike to the scientific method and to physical laws. Majors in physics can choose between traditional B.A. and B.S. curricula and the B.Appl.Phys. curriculum. The former emphasize a broad liberal-arts education and the core subjects in physics. Many B.A. and B.S. recipients go on to graduate study in physics or related disciplines. The B.Appl.Phys. curriculum includes a larger number of specialized courses, and more experience in electronics, computing, and research. It is intended primarily as preparation for a career in a physics-related applied discipline.

Training in the theory, history, and philosophy of physics is provided by the required core courses and electives in most of the major areas

of specialization. Formal laboratory courses and directed research familiarize students with experimental techniques, modern instrumentation, and computers. Facilities include a number of lasers, spectrometers, optical telescopes, nuclear radiation detectors, and microprocessors. The program is supported by a machine shop and an electronics shop. Collaborations with other universities and research institutes provide access to an even wider range of facilities.

The department offers graduate curricula leading to the M.S., M.A.T., and Ph.D. degrees. These programs are described in detail in the Graduate Bulletin. A bachelor's degree in physics is normally required as preparation for graduate study. Students with a bachelor's degree in another physical science, engineering, or mathematics will generally qualify after removal of a few upper-division-level deficiencies. A major in secondary education with specialization in physical science and mathematics is suitable preparation for the M.A.T. curriculum.

Faculty members in the department will be happy to discuss programs in detail with interested persons. Requests for information or a tour of the facilities can be made by a letter or telephone call (208/885-6380) to the department.

Physics Courses

CREDIT LIMITATIONS: Phys 113 carries no credit after 210; 114 carries no credit after 211; 115 carries no credit after 212; 116 carries no credit after 213.

Phys 101 Fundamentals of Physics (4 cr). For students in nontechnical fields. Satisfies core requirement J-3-b. Conceptual study of laws of nature and their application, including mechanics, heat, electricity and magnetism, light, and modern physics. Three lec and one 2-hr lab a wk.

Phys 103 General Astronomy (3 cr). Nonmathematical descriptive and physical astronomy; development of astronomical thought; properties and evolution of the solar system, stars, galaxies, and the universe.

Phys 104 Astronomy Lab (1 cr). Naked eye, telescopic, and photographic observations of constellations, stars, and planets. One 2-hr lab a wk; some evening meetings. Prereq or coreq: Phys 103.

Phys 113-114 General Physics (3 cr) (C). Satisfies core requirement J-3-b. Phys 113: mechanics, sound, and heat. Phys 114: electricity, magnetism, light, and modern physics. Three lec and one recitation a wk. Prereq: Math 140; Phys 113 for 114.

Phys 115-116 General Physics Lab (1 cr). Satisfies core requirement J-3-b. Lab to accompany Phys 113-114. One 2-hr lab a wk.

Phys 210 Engineering Physics I (3 cr). Satisfies core requirement J-3-b. Kinematics and dynamics, work and energy, Newton's laws, oscillations, sound, geometric optics, physical optics, optical instruments. Three lec and one recitation a wk. Prereq or coreq: Math 180.

Phys 211 Engineering Physics II (3 cr). Satisfies core requirement J-3-b. Electricity, magnetism, electromagnetic waves, intro to atoms and nuclei. Three lec and one recitation a wk. Prereq: Phys 210; coreq: Math 190.

Phys 212-213 Engineering Physics Lab (1 cr). Satisfies core requirement J-3-b. Lab to accompany Phys 210-211. One 2-hr lab a wk.

Phys 222 Engineering Physics III (3 cr). Waves in elastic media, sound waves, temperature, heat and thermodynamics, kinetic theory, Newton's laws as applied to rotation dynamics, gravity and central forces, conservation laws of energy, linear and angular momentum, collisions. Three lec and one recitation a wk. Prereq: Phys 210, 211 or perm; prereq or coreq: Math 190.

Phys 225 Introductory Physics Lab (1 cr). Lab to accompany Phys 222. One 2-hr lab a wk.

Phys 301-302 Junior Physics Lab (1 cr). Experimental techniques in modern physics, including optics, atomic, nuclear, and solid state physics; computer uses, error analysis, literature searches. One 3-hr lab a wk. Prereq: Phys 225 or perm.

Phys R309 Fundamentals of Radiation Biophysics (3 cr). Nuclear physics, interaction of radiation with matter, detection of radiation, radiation dose limits, theory of ionization, dosimetry, dosimetry techniques, biological and medical effects of radiation, radiation shielding, radiation protection standards, counting statistics, and related topics. Prereq: perm.

Phys R311 Health Physics in Industry Safety (3 cr). Basic concepts of physics, biology, and radiation control as related to personnel protection from ionizing radiation.

Phys 321-322 Analytical Mechanics (3 cr). Statics; kinematics and dynamics of a particle; systems of particles; rigid continuous media; intro to Lagrange's equations. Prereq: Phys 114 or 211 or 222, and Math 200.

Phys 341-342 Electromagnetic Fields I-II (3 cr). Theory using vector calculus; electrostatics; magnetostatics, electromagnetism, analysis of AC and DC circuits; Maxwell's equations; radiation and propagation of electromagnetic waves. Prereq: Phys 114 or 211 or 222, and Math 200.

Phys 351 Elementary Quantum Mechanics (3 cr). Methods; one-dimensional harmonic oscillator, free particle, rectangular potential barrier, hydrogen atom, and perturbation theory. Prereq: Phys 360; coreq: Phys 321.

Phys 360 Introduction to Modern Physics (3 cr). Fundamentals of qualitative and quantitative description of atomic and nuclear physics, quantum theory, radioactivity, relativity, fusion and fission, spectra, x-rays, neutron physics, elementary particles, and solid state. Prereq: Phys 114 or coreq: Phys 211 or 222.

Phys 371 Mathematical Physics (3 cr). Same as Math 371. Mathematical techniques needed in upper-division physics courses, including vector analysis, matrices, Sturm-Liouville problems, special functions, partial differential equations, complex variables. Prereq: Phys 211, Math 200.

Phys 400 (s) Seminar (cr arr). Prereq: perm.

Phys 401-402 Senior Physics Lab (1 cr). Advanced experimental techniques in modern physics, including optics, atomic, nuclear, and solid state physics; computer uses, error analysis; literature searches. One 3-hr lab a wk. Prereq: Phys 301 or perm.

Phys 403 (s) Workshop (cr arr). Prereq: perm.

Phys 404 (s) Special Topics (cr arr). Prereq: perm.

Phys 411-412 Physical Instrumentation I-II (3 cr). Methods and instruments used in experimental physics; electronic techniques; design problems in electronic measurement of physical quantities encountered in research. Two lec and one 3-hr lab a wk. Prereq: Phys 211 or 222 and Math 200 for Phys 411; Phys 411 for 412.

Phys 431-432 Thermodynamics and Kinetic Theory (3 cr). Laws of thermodynamics, kinetic theory, and their application to topics in physics. Coreq: Phys 360.

Phys 443 Optics (3 cr). Geometrical optics and photometry, interference, diffraction, double refraction, and polarization; application to modern optical instruments. Prereq: Phys 211 or 222, Math 190, and sr standing or perm.

Phys 444 Quantum Optics (3 cr). Theory and application of lasers, optical spectrum analyzers, electro-optic modulators, and detectors; modern optical concepts and techniques; Gaussian beams and optical resonators, interaction of radiation and quantized matter, nonlinear optical effects, and laser spectroscopy. Prereq: Phys 211 or 222, Math 190, and sr standing or perm.

Phys 463 Introduction to Solid State (3 cr). Physics of bulk matter; structure and types of solids, elastic and thermal properties of solids, electric and magnetic properties of solids, theory of conduction in metals and semiconductors. Prereq: Phys 321, 360.

Phys ID&WS465 Nuclear and Particle Physics (3 cr). WSU Phys 465. Structure of elementary particles, quark models; nuclear liquid drop, Fermi gas, shell and collective models; symmetries and cons laws; E and M, weak and strong interactions; accelerators and detectors. Prereq: Phys 360.

Phys R471 Introduction to Theoretical Physics (3 cr). Vector and tensor methods in conjunction with Newtonian and Lagrangian methods in solving problems in mechanical systems. Prereq: general physics, differential equations, and perm.

Phys ID&WS485 Astrophysics (3 cr). WSU Astr 435. Structure and evolution of stars and star systems; celestial mechanics; special and general relativity; cosmology. Prereq: Phys 103, 360, Math 200, or perm.

Phys 491 Proseminar (1 cr). Recent development. Prereq: sr standing in physics.

Phys 497 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Phys 498 Research (1-6 cr, max 6). Undergrad thesis. Prereq: jr standing in physics and perm of dept.

Phys 499 (s) Directed Study (cr arr). Prereq: perm.

Phys 500 Master's Research and Thesis (cr arr).

Phys 501 (s) Seminar (cr arr). Graded P/F. Prereq: perm.

Phys 502 (s) Directed Study (cr arr). Prereq: perm.

Phys 503 (s) Workshop (cr arr). Prereq: perm.

Phys 504 (s) Special Topics (cr arr). Prereq: perm.

Phys 511-512 Techniques of Experimental Physics (3 cr). Development of experimental techniques and skills in active research fields; foundation for any field of physics. Nine hrs of lab a wk.

Phys R518 Radiation Biology (3 cr). Mechanisms and patterns of energy deposition by ionizing radiation in biological systems.

Phys R519 Radiation Physiology (3 cr). Selected topics from human physiology and methods of internal dosimetry. Prereq: radiation biology and calculus.

Phys ID&WS521 Advanced Mechanics (3 cr). WSU Phys 521. Classical mechanics; Lagrange's and Hamilton's principles, two-body problem, rigid body motion, special relativity, canonical transformation, Hamilton-Jacobi theory, small oscillations, and Lagrangian and Hamiltonian formulations for continuous systems and fields. Prereq: Phys 322.

Phys ID&WS531 Statistical Mechanics (3 cr). WSU Phys 534. Classical statistical mechanics of Maxwell, Boltzmann, and Gibbs; Maxwell-Boltzmann distribution law; Boltzmann's H-theorem, quantum statistical mechanics; Bose-Einstein and Fermi-Dirac statistics; application to problems in thermodynamics. Prereq: Phys 431, 551, or perm.

Phys **ID&WS541-ID&WS542 Electromagnetic Theory** (3 cr). WSU Phys 541-542. Includes Maxwell's equations, electrostatics, magnetostatics, currents and their interactions, general theory of emission, propagation and absorption of electromagnetic waves, boundary value problems, relativistic formulation of electrodynamics. Prereq: Phys 322, 342.

Phys **ID&WS551-ID&WS552; ID&WS553 Quantum Mechanics** (3 cr). WSU Phys 550, 551, 552. Phys 551-552: physical basis; Schroedinger wave formulation, Heisenberg matrix formulation, transformation theory, approximation methods, radiation theory, theory of scattering; application to atomic systems. Phys 553: relativistic quantum mechanics, second quantization field theory and application. Prereq: Phys 322, 360 for 551-552; 552 for 553.

Phys **554 Quantum Field Theory** (3 cr). Intro to formalism and applications of relativistic quantum field theory. Prereq: Phys 553 and perm.

Phys **555 Quantum Many-body Theory** (3 cr). Many-body techniques in nuclear and condensed matter physics. Prereq: Phys 551, 552 and perm.

Phys **ID&WS561 Atomic Spectra and Atomic Structure** (3 cr). WSU Phys 561. Experimental methods for the production and investigation of spectra, interpretation of special series, stationary states, spinning electrons and fine-line structure, and vector models; Zeeman and Stark effects; intensity of spectral lines. Prereq: Phys 351 or 551.

Phys **562 Molecular Spectra** (3 cr). Molecular spectra and their relations to molecular structure; emphasis on diatomic and triatomic molecules. Prereq: Phys 561 or perm.

Phys **ID&WS563-564 Solid State Physics** (3 cr). WSU Phys 563. Modern theory of metals, semiconductors, and insulators; crystal structure, thermal, electric, and magnetic properties of solids, band theory of solids, crystal imperfections, semiconductors, superconductivity, and photoconductivity. Prereq: Phys 342; prereq or coreq: Phys 551.

Phys **ID&WS566 Nuclear Physics** (3 cr). WSU Phys 565. Nuclei and nuclear interactions from a theoretical and experimental viewpoint, properties of nuclei, two-body problems, complex nuclei, nuclear spectroscopy, nuclear reactions, interaction of nuclei with radiation, nuclear models, theory of nuclear forces; topics in high energy physics; nucleus-nucleus collisions. Prereq: Phys 465, and 351 or 551.

Phys **ID&WS571-572 Mathematical Methods of Physics** (3 cr). WSU Phys 571. Methods and problems. Prereq: Phys 322 or perm.

Phys **ID573 Group Theory and Its Applications in Physics** (3 cr). WSU Phys 573. Intro to group theory with application to atoms, molecules, solids, elementary particles and nuclei. Prereq: Phys 551 or perm.

Phys **ID&WS581 (s) Topics in Advanced Physics** (1-9 cr, max 9). WSU Phys 581. Topics of interest to students and staff.

Phys **R585-R586 Fundamental Reactor Kinetics** (3 cr). Complex plane transformations, transfer functions for various systems, derivation of reactor kinetics equations; analysis of nuclear feedback systems; statistical control theory applied to nuclear systems. Prereq: perm.

Phys **R587 Reactor Physics for Engineers** (3 cr). Review of nuclear physics, nuclear fission, chain reaction, and reactor theory. Prereq: Math 310 or equivalent.

Phys **R588 Experimental Nuclear Physics** (3 cr). Experimental methods of interpretation of experimental measurements to determine the static and dynamic properties of nuclei. Prereq: Phys 360 and perm.

Phys **600 Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

PHYSICS (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and:

Course	Credits
Phys 210, 211, 222 Engineering Physics I, II, III.....	9
Phys 212, 213 Engineering Physics Lab.....	2
Phys 225 Introductory Physics Lab.....	1
Phys 321-322 Analytical Mechanics.....	6
Phys 341-342 Electromagnetic Fields I-II.....	6
Phys 351 Elementary Quantum Mechanics.....	3
Phys 360 Introduction to Modern Physics.....	3
Phys 371 Mathematical Physics.....	3
Chem 111 Principles of Chemistry.....	4
Chem 112 Inorganic Chem & Qual Analysis or 114 General Chem.....	4-5
Math 180, 190, 200 Analytic Geometry & Calculus.....	11
Mathematics (upper-division).....	6

And, for the B.A. only:

Upper-division physics courses (incl at least 4 cr of lab).....9

And, for the B.S. only:

Upper-division physics courses (incl at least 4 cr of lab).....15

PHYSICS (B.Appl.Phys.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Phys 210, 211, 222 Engineering Physics I, II, III.....	9
Phys 212, 213 Engineering Physics Lab.....	2
Phys 225 Introductory Physics Lab.....	1
Phys 321 Analytical Mechanics.....	3
Phys 341-342 Electromagnetic Fields I-II.....	6
Phys 351 Elementary Quantum Mechanics.....	3
Phys 360 Introduction to Modern Physics.....	3
Phys 411-412 Physical Instrumentation I-II.....	6
Phys 443 Optics.....	3
Phys 444 Quantum Optics.....	3
Phys 498 Research.....	6
Chem 111 Principles of Chemistry.....	4
Chem 112 Inorganic Chem & Qual Analysis or 114 General Chem.....	4-5
CS 105 FORTRAN Programming for Engr or 112 Introduction to Problem Solving & Programming.....	2-3
Math 180, 190, 200 Analytic Geometry & Calculus.....	11
Math 310 Ordinary Differential Equations.....	3
Physics, applied math, or computer science courses (upper-division), incl at least 3 cr of lab.....	9
Applied science or engineering courses.....	6
Recommended courses: Phys 463 Introduction to Solid State Eng 317 Technical & Engineering Report Writing	

Note: Required theses (Phys 498) will generally be in the subject area of applied optics and optoelectronics. The decision as to the suitability of a proposed thesis topic must be made by the department's Applied Physics Committee no later than 1-1/2 semesters before graduation. Because of this requirement, students who wish to finish the requirements for this degree within four years are advised to begin discussion concerning possible topics with appropriate professors during the second semester of their junior year.

Academic Minor Requirements

PHYSICS MINOR

Course	Credits
Phys 210, 211, 212-213 Engineering Physics & Lab.....	8
Phys 222 Engineering Physics or CE 210 Engineering Statics.....	3
Physics courses numbered 300 or above (usual prerequisites are Math 180, 190, and 200).....	12

Physiology

Faculty: Danny L. Barney, Richard C. Bull, James E. Butler, Joseph G. Cloud, Donald L. Crawford, Mark DeSantis, Dennis G. Dolny, Robert B. Dwelle, Victor P. Eroschenko, Esmaeil Fallahi, John K. Fellman, Thomas C. Griggs, Stephen K. Herbert, Carl W. Hunt, Rolf L. Ingermann, Gale E. Kleinkopf, Marc J. Klowden, Michael B. Laskowski, Robert L. Mahler, Thomas B. McFadden, Thomas A. McKean, Rodney A. Mead, Glen A. Murray, Richard A. Roeder, Arthur W. Rourke, R. Garth Sasser, Gerald T. Schelling, Elizabeth South, Jeffrey C. Stark, Anne W. Sylvester, Donald C. Thill, Anthony Trent, Robert R. Tripepi, Dale O. Wilson, Jr., Gordon L. Woods.

Teaching and research programs in physiology are available in several colleges and departments of the university. Master's and doctoral programs with concentration in animal or plant physiology are available through the Departments of Animal Science, Biological Sciences, and Plant, Soil, and Entomological Sciences.

The following courses are available for those students interested in animal and plant physiology and related areas. Full course descriptions are found under the designated departmental/program sections.

ANIMAL PHYSIOLOGY

AVS 218 Artificial Insemination and Pregnancy Detection (2 cr).

AVS J411/J511 Microbiology and Physiology of Ruminant Nutrition (3 cr).

AVS WS413 Physiology of Lactation (3 cr).

AVS J430/J530 Advanced Topics in Embryo Physiology (3 cr).

AVS J451/J551 Endocrine Physiology (3 cr).

AVS 452 Physiology of Reproduction (4 cr).

AVS 514 Physiology of Nonruminant Nutrition (3 cr).

- AVS ID&WS520 Seminar in Animal Physiology (1 cr, max arr).
- AVS WS526 Advanced Reproduction (4 cr).
- AVS 552 Advanced Endocrine Physiology (3 cr).
- AVS ID&WS560 Domestic Animal Growth and Development (3 cr).
- Bact 460 Microbial Physiology (5 cr).
- Bact 560 Advanced Microbial Physiology (3 cr).
- Ent J484/J584 Insect Anatomy and Physiology (4 cr).
- MedSc ID&WS512 Basic Mechanisms in Cellular Physiology (4 cr).
- MedSc ID&WS532 Nervous System (5 cr).
- PE 418 Physiology of Exercise (3 cr).
- PE J493/J593 Fitness Assessment and Prescription (3 cr).
- PE 518 Advanced Physiology of Exercise (3 cr).
- Psych 372 Physiological Psychology (3 cr).
- VS 371 Anatomy and Physiology (4 cr).
- VS WS517 Mammalian Neuroscience (3 cr).
- VS WS518 Veterinary Physiology (5 cr).
- VS WS520 Techniques in Mammalian Physiology (2 cr).
- VS WS529 Neurochemistry (3 cr).
- Zool 119 Human Anatomy and Physiology (5 cr).
- Zool 324 Comparative Vertebrate Anatomy (4 cr).
- Zool ID-J411/ID-J511 Comparative Vertebrate Reproduction (3 cr).
- Zool 412 Comparative Vertebrate Reproduction Lab (2 cr).
- Zool J414/J514 Cell Physiology (3 cr).
- Zool 415 Cell Physiology Lab (2 cr).
- Zool J417/J517 Endocrine Physiology (3 cr).
- Zool J423/J523 Comparative Vertebrate Physiology (4 cr).
- Zool 427 Vertebrate Histology and Organology (4 cr).
- Zool J472/J572 Developmental Biology (3 cr).
- Zool 473 Comparative Embryology Lab (1 cr).
- Zool WS505 Generation, Degeneration, and Regeneration in Nervous System (2 cr).

PLANT PHYSIOLOGY

- Biochem 486 Plant Biochemistry (3 cr).
- Bot 311 Plant Physiology (3 cr).
- Bot 312 Plant Physiology Lab (2 cr).
- Bot J401/J510 Techniques of Plant-Tissue Culture (2 cr).
- Bot J413/J515 Mineral Nutrition (3 cr).
- Bot 512 Plant Growth Substances (3 cr).
- PISc 401 Crop Physiology (3 cr).
- PISc ID-J410/ID-J510 Biology of Weeds (3 cr).
- PISc 461 Tree Fruit Production Techniques (3 cr).
- PISc ID475 Postharvest Pathology (3 cr).
- PISc WS535 Molecular Genetics of Plant and Pathogen Interactions (2 cr).
- PISc ID&WS539 Herbicide Fate and Mode of Action (4 cr).
- PISc ID569 Applied Seed Physiology (2 cr).
- Soils 446 Soil Fertility (3 cr).
- Soils WS541 Soil-Plant Relationships in Mineral Nutrition (3 cr).

PLANT PATHOLOGY—see Department of Plant, Soil, and Entomological Sciences

Department of Plant, Soil, and Entomological Sciences

Lawrence E. O'Keefe, Dept. Head (242 Iddings Wing, Ag. Sc. Bldg.; 208/885-6276).

Entomology Division: Sharron S. Quisenberry, Division Chair; Craig R. Baird, Edward J. Bechinski, Merlyn A. Brusven, Gene P. Carpenter, Malcolm M. Furniss, Hugh W. Homan, James B. Johnson, Leslie P. Kish, Marc J. Klowden, Joseph P. McCaffrey, Thomas M. Mowry, Lawrence E. O'Keefe, Sharron S. Quisenberry, Larry E. Sandvol, Robert L. Stoltz.

Plant Pathology Division: Maurice V. Wiese, Division Chair; Philip H. Berger, Wesley Chun, James R. Davis, Robert L. Forster, John J. Gallian, Saad L. Hafez, Guy R. Knudsen, S. Krishna Mohan, Phillip Nolte, Maurice V. Wiese.

Plant Science Division: Robert B. Dwelle, Division Chair; Danny L. Barney, Jack Brown, Robert H. Callihan, W. Michael Colt, Robert B. Dwelle, Charlotte Eberlein, Esmaeil Fallahi, John K. Fellman, Jeffrey D. Griffin, Thomas C. Griggs, Harold R. Guenther, Stephen O. Guy, Gale E. Kleinkopf, Gary A. Lee, C. T. Liu, Stephen L. Love, Don W. Morishita, Glen A. Murray, James R. Myers, John C. Ojala, Larry D. Robertson, R. Robert Romanko, Kiran K. Shetty, Edward J. Souza, Jeffrey C. Stark, Donald C. Thill, Michael K. Thornton, Robert R. Tripepi, Dale O. Wilson, Jr., Robert S. Zemtra.

Soil Science Division: Denny V. Naylor, Division Chair; Bradford D. Brown, Scott E. Fendorf, John E. Hammel, Robert L. Mahler, Paul A. McDaniel, Matthew J. Morra, Denny V. Naylor, Terry A. Tindall, Anthony Trent.

The challenge for today is to provide the world with food and fiber while protecting the environment. In addition to careers in production, processing, marketing, and international trade, we train scientists in biotechnology, biological control of insects, weeds and diseases, and preservation of soil, water, and air quality. Career opportunities are challenging, exciting, and unlimited.

The Department of Plant, Soil, and Entomological Sciences, within the College of Agriculture, offers B.S. degrees in entomology, plant protection, plant science, and soil science.

The entomology major emphasizes both basic and applied aspects of the study of insects and how they influence human activities. The program provides a broad entomological education with opportunities to specialize in such areas as agricultural and aquatic entomology, biological control, insect ecology, pathology and physiology, and insect-plant relations. The curriculum is designed for students pursuing professional careers in the basic and applied fields of entomology, or for those interested in continuing their education at the graduate level.

The plant protection curriculum offers students an education in the broad area of plant pest protection and in the related field of entomology. Students take a diverse array of applied natural-science courses including plant pathology, entomology, weed science, crop production, and botanical sciences.

Under the plant science degree, students can major in crop management, crop science, horticultural science, or landscape horticulture. The crop management major is for students who are interested in field crop management. The curriculum includes courses in basic sciences with emphasis on the production and management of crops that are economically significant to Idaho and the nation. Courses in plant science, soils, agricultural mechanization, and agricultural economics provide the general knowledge necessary for positions in the chemical, fertilizer, and seed industries or as farm managers, farm operators, and cooperative extension agents, and can lead to advanced degree studies.

The crop science and horticultural science majors are designed for students who are interested in professional careers in the sciences of plant physiology, pathology, breeding, weed control, and crop production. These majors are recommended for students interested in further study in plant sciences at the graduate level or interested in laboratory work. Students interested in professional careers in postharvest physiology and related industries can tailor their horticultural science curriculum to meet individual needs and interests.

The landscape horticulture major is designed for students interested in professional careers in the management and operation of commercial nurseries, greenhouses, landscapes, recreational parks, and related industries. Students interested in fruit and vegetable production are also included in this major.

The soil science degree program is offered for students who are interested in careers in the businesses and industries associated with soils and farm chemicals, as a professional soil scientist working with the formation, classification, chemistry, physics, and fertility of the valuable soil resources, or as an environmental scientist improving soil and water quality. Courses in geology, botany, chemistry, and physics, in addition to soils, are stressed to prepare students for professional careers.

The degree offerings are designed to prepare students for a variety of rewarding career opportunities. Each of these degree programs is based on a curriculum designed to provide students with fundamental training necessary for present and future employment. The department offers students the opportunity to work closely with faculty in classroom and field situations. The faculty members provide considerable breadth in educational experiences for students who major in this department. Formal courses are offered as needed to serve the students in the various degree programs, and additional specialization may be obtained by enrolling in directed study, special topics, seminar, and other courses of similar nature, with faculty members who have expertise in a particular area. Students are also encouraged to participate in the Student Internship Program. Internships provide students with practical job experience and they often open doors for career opportunities.

Faculty members are concerned with the needs and interests of individual students. Questions regarding specific programs or arrangements to tour facilities are most welcome. Prospective majors in entomology, plant protection, plant science, or soil science can consult the department head in Room 242, Agricultural Science Building, or telephone 208/885-6276.

Courses

ENTOMOLOGY

Ent 211 **General Entomology** (4 cr). Satisfies core requirement J-3-b. Structure, development, classification, habits, and ecology of insects. Three lec and one 3-hr lab a wk.

Ent 217 **Introduction to Integrated Pest Management** (2 cr). Principles, theory, and methodology of regulating populations of organisms detrimental to agriculture; emphasis on environmental issues in pest control.

Ent 322 **Economic Entomology** (3 cr). Identification, biology, and importance of insects and related arthropods to humans and agriculture; basic principles of arthropod pest management. Two lec and one 3-hr lab a wk. Prereq: Ent 211 or perm.

Ent 389 **Internship** (1-6 cr, max 6). Graded P/F. Prereq: perm of dept.

Ent 400 (s) **Seminar** (cr arr). Prereq: perm.

Ent 404 (s) **Special Topics** (cr arr). Prereq: perm.

Ent 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Ent 438 **Pesticides in the Environment** (3 cr). See Soils 438.

Ent J440/J540 **Insect Identification** (4 cr). Survey of approximately 200 major families; collecting and preservation techniques. For grad cr, an additional 50 families and selected subfamilies and genera will be covered and a term paper is reqd. Two lec and two 2-hr labs a wk; two 1-day field trips. Prereq: Ent 211 or perm.

Ent J442/J532 **Immature Insects** (3 cr). Alt/yrs. Structure, behavior, and identification of immature insects. For grad cr, taxonomy of selected families at generic and species levels will be studied. One lec and two 2-hr labs a wk; one 1-day field trip. Prereq: Ent 211.

Ent WS443 **Insect Ecology** (3 cr). WSU Entom 443. Alt/yrs.

Ent WS444 **Insect Morphology** (4 cr). WSU Entom 444. Alt/yrs.

Ent J446/ID-J546 **Plant Resistance to Arthropods** (2 cr). WSU Entom 546. Alt/yrs. Use of plant resistance; environmental manipulation, and cultural practices for suppression of important insect pests; mechanisms of plant resistance and insect-plant associations. Requirements for grad cr include comprehensive term paper on plant-insect relationships or related topic. Prereq: Ent 217, or perm.

Ent J447/ID-J547 **Biological Control of Arthropod Pests and Weeds** (4 cr). WSU Entom 547. Alt/yrs. Intro to history and development of biological control and biological and ecological factors involved; emphasis on entomophagous and phytophagous insects. For grad cr, a "grant proposal" for presentation and critique and a semester project reqd. Prereq: Ent 211 and general ecology or perm.

Ent WS448 **Medical Entomology** (4 cr). WSU Entom 448. Alt/yrs.

Ent H450 **Insect-Borne Diseases: Epidemiology and Implications** (2 cr). Socioeconomic impact of pathogens transmitted to humans and animals by insects; political and economic considerations for the control of insect-borne disease. Prereq: perm of director of University Honors Program.

Ent ID472 **Aquatic Entomology** (1 cr). WSU Entom 472. Identification and biology of insects associated with aquatic and subaquatic environments. Prereq: perm.

Ent ID474 **Aquatic Entomology Lab** (2 cr). WSU Entom 474. Lab to accompany Ent 472. Two 3-hr labs a wk; two 1-day field trips. Coreq: Ent 472.

Ent J484/J584 **Insect Anatomy and Physiology** (4 cr). Same as Zool 494. Alt/yrs. Organ systems of insects and their functions. A comprehensive term paper and research project reqd for grad cr. Three lec and one 3-hr lab a wk. Prereq: Ent 211.

Ent J491/J591 **Principles of Integrated Pest Management** (3 cr). Alt/yrs. Ecological, biological, economic, and sociological considerations involved in pest management decisions. For grad cr, written grant proposal related to research/extension and oral defense of proposal reqd. Prereq: sr standing.

Ent 499 (s) **Directed Study** (cr arr). Prereq: perm.

Ent 500 **Master's Research and Thesis** (cr arr).

Ent 501 (s) **Seminar** (cr arr). Prereq: perm.

Ent 502 (s) **Directed Study** (cr arr). Prereq: perm.

Ent 504 (s) **Special Topics** (cr arr). Prereq: perm.

Ent 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Ent 532 **Immature Insects** (3 cr). See Ent J442/J532.

Ent 540 **Insect Identification** (4 cr). See Ent J440/J540.

Ent ID541 **Advanced Insect Ecology** (3 cr). WSU Entom 541. Alt/yrs. Population and community dynamics set in a systems framework; theory and applications in natural and altered systems. Two lec and one 3-hr lab a wk; two 1-day field trips. Prereq: Ent 211 and general ecology or perm.

Ent WS542 **Insect Behavior** (4 cr). WSU Entom 542. Alt/yrs.

Ent WS543 **Predator-Prey Interactions** (2 cr). WSU Entom 543. Alt/yrs.

Ent 544 **Systematic Entomology** (3 cr). Alt/yrs. Principles and concepts of insect classification; taxonomic procedures, rules of zoological nomenclature, and intro to evolution, speciation, and biogeography.

Ent WS545 **Toxicology of Pesticides** (3 cr). WSU Entom 545. Alt/yrs.

Ent ID546 **Plant Resistance to Arthropods** (2 cr). See Ent J446/J546.

Ent ID547 **Biological Control of Arthropod Pests and Weeds** (4 cr). See Ent J447/J547.

Ent WS550 **Insect Physiology** (4 cr). WSU Entom 550. Alt/yrs.

Ent WS560 **Photography for Entomologists** (2 cr). WSU Entom 560. Alt/yrs.

Ent WS568 **Systems Analysis in Integrated Pest Management** (3 cr). WSU Entom 562. Alt/yrs.

Ent 584 **Insect Anatomy and Physiology** (4 cr). See Ent J484/J584.

Ent 591 **Principles of Integrated Pest Management** (3 cr). See Ent J491/J591.

Ent 597 (s) **Practicum** (cr arr). Prereq: perm.

Ent 598 (s) **Internship** (cr arr). Prereq: perm.

Ent 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Ent 600 **Doctoral Research and Dissertation** (cr arr).

Ent 600 **Doctoral Research and Dissertation** (cr arr).

PLANT SCIENCE

PISc 102 **Introduction to Plant Science** (3 cr). Principles of structure, biology, and management of agronomic and horticultural crops; interaction of crop plants and cropping systems with environment; current issues related to crop science. Two lec and one 2-hr lab a wk.

PISc 202 **Plant Propagation** (3 cr). Alt/yrs. Sexual and asexual propagation techniques of herbaceous and woody ornamental plants; propagation methods covered including seed, cuttings, layering, and cloning/tissue culture. Two lec and one 3-hr lab a wk. Prereq: PISc 102 or Biol 201, or perm.

PISc WS234 **Controlled Environments for Horticultural Production** (3 cr). WSU Hort 234.

PISc WS301 **Turfgrass Culture** (3 cr). WSU CropS 301.

PISc 308 **Forage Crops** (3 cr). Production, management, and use of forage plants for livestock feed as pasture, hay, silage, and greenchop, and for soil and water conservation. Two lec and one 2-hr lab a wk.

PISc WS320 **Commercial Vegetable Crops** (3 cr). WSU Hort 320.

PISc WS321 **Commercial Vegetable Crops Lab** (1 cr). WSU Hort 321.

PISc 338 **Weed Control** (3 cr). Nature and scope of weed problems, identification and biology of weeds, principles, theory, and practice of mechanical, chemical, and biological control of weeds; legal considerations; integration of methods into functional management systems. Two lec and one 2-hr lab a wk. Prereq: PISc 102 or equivalent, or perm.

PISc ID340 **Nursery Management** (3 cr). WSU Hort 340. Alt/yrs. Management of commercial nurseries from plant propagation through sale of the plants. Two lec and one 2-hr lab a wk; one 1-day field trip.

PISc 389 **Internship** (1-6 cr, max 6). Graded P/F. Prereq: perm of dept.

PISc 399 (s) **Directed Study** (1-2 cr, max 2). Prereq: perm.

PISc 400 (s) **Seminar** (1 cr). Prereq: perm.

PISc 401 **Crop Physiology** (3 cr). Alt/yrs. Application of physiology to crop management. Prereq: Bot 311.

PISc 404 **Plant Disease Recognition and Control** (3 cr). Characteristics and control of representative plant diseases; symptomatology stressed via extensive visual aids. Two 2-hr meetings a wk. Prereq: PISc 405 or equiv.

PISc 405 **Plant Pathology** (4 cr) (PISc 305). Biology of diseases and disorders of crop, forest, and ornamental plants, with emphasis on plant-microbe interactions. Three 1-hr lec and one 2-hr lab a wk. Prereq: PISc 102 or Biol 203, and Bact 250 (or perm).

PISc 406 (s) **Special Topics** (cr arr). Prereq: perm.

PISc 407 **Field Crop Production** (3 cr). Management and use of crops in Idaho and the Northwest.

PISc ID-J410/ID-J510 **Biology of Weeds** (3 cr). WSU CropS 413/513. Alt/yrs. Biology, ecology, and physiology of weeds with emphasis on crop and weed interactions. Requirements for grad cr include comprehensive term paper and class presentation on weed-crop interaction. Two lec and one 3-hr lab a wk. Prereq: Bot 311 or perm.

PISc WS411 **Seed Science and Technology** (3 cr). WSU CropS 410. Alt/yrs.

PISc WS418 **Post-Harvest Biology and Technology** (3 cr). WSU Hort 418.

PISc WS-J420/WS-J570 **Potato Physiology and Production Technology** (2 cr). WSU Hort 420/520. Alt/yrs.

PISc WS421 **General Mycology** (4 cr). WSU PI P 421. Alt/yrs.

PISc WS430 **Ornamental Plant Production I** (3 cr). WSU Hort 438.

PISc WS431 **Ornamental Plant Production II** (3 cr). WSU Hort 439.

PISc 438 **Pesticides in the Environment** (3 cr). See Soils 438.

PISc ID440 **Economic Nematology** (3 cr). WSU PI P 440. Alt/yrs. Techniques of isolation, identification, crop loss assessment, and control of plant parasitic nematodes. Five hrs lec/lab a wk. Prereq: PISc 405.

PISc J446/J546 **Plant Breeding** (3 cr). Alt/yrs. Application of genetic principles to improvement of crop plants. Grad students reqd to complete additional term paper. Prereq: Genet 314 or equiv.

PISc 461 **Tree Fruit Production Techniques** (3 cr). Alt/yrs. Relationships between physiological processes in fruit trees and management decisions necessary for successful commercial production. One 2-day field trip.

PISc 464 **Landscape Maintenance** (3 cr). Alt/yrs. Use and culture of landscape plants to enhance man's environment. Two lec and one 2-hr lab a wk; one 1-day field trip. Prereq: PISc 102, LArch 288, Soils 205.

PISc WS469 **Seed Production** (3 cr). WSU CropS/Hort 469. Alt/yrs. Crops indigenous to the Northwest; seedhouse operations and seed regulation. Prereq: perm.

PISc ID475 **Postharvest Pathology** (3 cr). WSU PI P 475. Alt/yrs. Survey of pathological conditions responsible for postharvest losses of horticultural food crops; visual aids and fresh specimen material emphasized; environmental and chemical control methods studied for each class example. Prereq: PISc 405.

PISc 480 **Field Trip** (1 cr). Five-day field trip to production areas. Prereq: perm.

PISc ID-J490/J590 **Potato Science** (3 cr). WSU Hort 470. Alt/yrs. History, botanical characteristics, seed physiology and production, plant population, physiology of growth, and pest management; factors influencing maturation, harvest, yield, grade, bruise control, storage, and quality maintenance; economics of production and research on a global basis. Requirements for grad cr incl comprehensive term paper and class presentation on selected topic.

PISc 500 **Master's Research and Thesis** (cr arr).

PISc 501 (s) **Seminar** (cr arr). Prereq: perm.

PISc 502 (s) **Directed Study** (cr arr). Prereq: perm.

PISc 504 (s) **Special Topics** (cr arr). Prereq: perm.

PISc WS505 **Advanced Plant Breeding** (4 cr). WSU CropS 504. Alt/yrs.

PISc WS506 **Diseases of Plants** (4 cr). WSU PI P 501.

PISc WS508 **Seed Physiology** (3 cr). WSU CropS 508. Alt/yrs.

PISc WS509 **Physiology in Plant Breeding** (3 cr). WSU CropS 509. Alt/yrs.

PISc ID510 **Biology of Weeds** (3 cr). See PISc J410/J510.

PISc WS511 **Viruses and Virus Diseases of Plants** (4 cr). WSU PI P 511.

PISc WS512 **Methods in Plant Virus Research** (2 cr). WSU PI P 512. Alt/yrs.

PISc WS514 **Phylobacteriology** (4 cr). WSU PI P 514.

PISc WS515 **Improvement of Crop Quality** (3 cr). WSU CropS 505. Alt/yrs.

PISc ID516 **Advanced Plant Virology and Molecular Biology** (3 cr). WSU PI P 516. Alt/yrs. Molecular biology of plant viruses incl replication and translation mechanisms; formal and informal discussions, literature review, and lab demonstrations and experiments involving selected plant viruses.

PISc ID517 **Plant Disease Epidemiology** (3 cr). WSU PI P 517. Alt/yrs. Theory and practical implications of disease processes, incidence, and severity in plant populations; lec, discussions, outside reading, and hands-on exercises. Prereq: PISc 405, upper-division or grad standing.

PISc ID520 **Plant Cytogenetic Techniques** (3 cr). WSU CropS 520. Alt/yrs. Techniques to study plant genes and chromosomes. Two lec and 4 hrs of lab a wk. Prereq: Genet 314 or equivalent.

PISc WS527 **Experimental Methods in Weed Science** (2 cr). WSU CropS 527. Alt/yrs.

PISc WS535 **Molecular Genetics of Plant and Pathogen Interactions** (2 cr). WSU PI P 535. Alt/yrs.

PISc ID&WS539 **Herbicide Fate and Mode of Action** (4 cr). WSU CropS 539. Alt/yrs. Fate of herbicides in plants, soil, and water; physiological and biochemical mode of herbicide action; mechanisms of herbicide resistance. Prereq: PISc 338, Bot 311, and Biochem 380 or perm.

PISc 540 **Seed Pathology** (3 cr). Alt/yrs. Seed-borne pathogens, including fungi, bacteria, and viruses; influence on disease spread.

PISc ID541 **Analytical Methods for Phytopathological Research** (3 cr). WSU PI P 541. Alt/yrs. Survey of various techniques used in current research in plant pathology; historical background, principles, and current applications. Two 1-hr lec and one 3-hr lab a wk. Prereq: PISc 405, Bact 250 or equiv, or perm.

PISc 546 **Plant Breeding** (3 cr). See PISc J446/J546.

PISc WS550 **Advanced Cell Biology** (3 cr). WSU GenCB 550. Alt/yrs.

PISc ID569 **Applied Seed Physiology** (2 cr). WSU CropS 569. Alt/yrs. Environmental factors and physiological seed characteristics that influence seedling establishment; priming and other preconditioning treatments for enhanced establishment. Prereq: Bot 311 or equivalent.

PISc WS570 **Potato Physiology and Production Technology** (2 cr). See PISc J420/J570.

PISc WS571 **Plant Molecular Genetics** (3 cr). WSU GenCB 570. Alt/yrs.

PISc 590 **Potato Science** (3 cr). See PISc J490/J590.

PISc WS592 **Advanced Topics in Cell Biology** (1-3 cr, max 7). WSU GenCB 592.

PISc 597 (s) **Practicum** (cr arr). Prereq: perm.

PISc 598 (s) **Internship** (cr arr). Prereq: perm.

PISc 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

PISc 600 **Doctoral Research and Dissertation** (cr arr).

SOILS

Soils 205 **General Soils** (3 cr). Intro to chemical, physical, and biological nature of soils. Prereq: Chem 111 or equiv.

Soils 206 **General Soils Lab** (1 cr). Lab study relevant to Soils 205. Experiments and demonstrations on basic and applied aspects of soil science. One 3-hr lab a wk. Coreq: Soils 205.

Soils 354 **Soil Resources and Land Use Planning** (2 cr). Soil surveys, guides and methods in making soil interpretation; use of soils data and interpretation in land use and environmental decisions.

Soils 365 **Soil Conservation and Management** (3 cr). Alt/yrs. Relationships of soil type, slope, climate, and erosion to land capability; conservation and management practices for erosion control. Two 1-day field trips. Prereq: Soils 205.

Soils 389 **Internship** (1-6 cr, max 6). Graded P/F. Prereq: perm of dept.

Soils 401 **Undergraduate Research** (1-2 cr, max 4). Individual study. Prereq: sr standing and perm.

Soils 404 (s) **Special Topics** (cr arr). Prereq: perm.

Soils **415 Soil Physics** (3 cr). Alt/yrs. Physical properties of soils and their relationships to moisture, aeration, and temperature; cultural practices and erosion problems. Two lec and one 3-hr lab a wk. Prereq: Soils 205, 206, and Phys 113.

Soils **417 Soil Clay Mineralogy** (2 cr). Alt/yrs. Structure, chemistry, and physical properties of clay minerals found in soils. Prereq: Chem 112 or 114.

Soils **422 Soil Chemistry** (3 cr). Alt/yrs. Chemical processes in soil environment. Prereq: Soils 205, 206, and Chem 112 or 114.

Soils **J423/J523 Soil-Plant Analysis** (2 cr). Alt/yrs. Quantitative inorganic chemical analysis of soil-water-plant system. Special project reqd for grad cr. One lec and one 3-hr lab a wk. Prereq: Soils 205, 206, and Chem 112 or perm.

Soils **425 Microbial Ecology** (4 cr). See Bact 425.

Soils **438 Pesticides in the Environment** (3 cr). Same as Ent, Inter, and PISc 438. Principles of pesticide fate in soil, water, and air; pesticide metabolism in plants, pesticide toxicology, and pesticide mode-mechanism of action; pest resistance to pesticides; biotechnology in pest control; regulations and liability; equipment application technology; pesticide transport, storage, and disposal; and social and ethical considerations. Prereq: Chem 275.

Soils **446 Soil Fertility** (3 cr). Alt/yrs. Principles of soil fertility management; availability of plant nutrients and their relationship to plant growth and fertilization practices. Prereq: Soils 205, 206.

Soils **J447/ID-J547 Soil Fertility Management** (3 cr). WSU Soils 547. Alt/yrs. Philosophy of fertilizer recommendations based on soil and plant tissue testing; principles of fertilizer manufacture, placement, and use for improving plant growth. Project reqd for grad cr. Prereq: Soils 446.

Soils **454 Soil Development and Classification** (3 cr). Relationship of soil development to soil properties; soil profile descriptions and classification. Two lec and one 2-hr lab a wk; two 1-day or one 2-day field trips. Prereq: Soils 205, 206.

Soils **490 Proseminar** (1 cr, max 2). Prereq: jr standing or perm.

Soils **499 (s) Directed Study** (cr arr). Prereq: perm.

Soils **500 Master's Research and Thesis** (cr arr).

Soils **501 (s) Seminar** (cr arr). Prereq: perm.

Soils **502 (s) Directed Study** (cr arr). Prereq: perm.

Soils **504 (s) Special Topics** (cr arr). Prereq: perm.

Soils **WS513 Models for Vadose Zone Transport** (2 cr). WSU Soils 513. Alt/yrs.

Soils **WS521 Chemistry of Soil Constituents** (3 cr). WSU Soils 521. Alt/yrs. Chemical properties of soil colloidal systems. Prereq: Soils 422, Chem 253, or perm.

Soils **523 Soil-Plant Analysis** (2 cr). See Soils J423/J523.

Soils **WS524 Soil Mineralogy** (3 cr). WSU Soils 524. Alt/yrs.

Soils **527 Soil Humus Chemistry** (2 cr). Alt/yrs. Formation, chemical properties, and significance of the soil organic fraction. Prereq: Soils 422, Bact 425, and course in organic chemistry, or perm.

Soils **WS531 Advanced Soil Biochemistry and Microbiology** (2 cr, max 4). WSU Soils 531.

Soils **ID537 Soil Biochemistry** (3 cr). WSU Soils 537. Alt/yrs. Same as Biochem 537. Origin, chemical structure, and significance of soil biochemical compounds. Prereq: Soils 422, Biochem 380, Bact 250 or perm.

Soils **WS541 Soil-Plant Relationships in Mineral Nutrition** (3 cr). WSU Soils 541. Alt/yrs.

Soils **ID547 Soil Fertility Management** (3 cr). See Soils J447/J547.

Soils **549 Tropical Soils** (3 cr). Same as For 549. Alt/yrs. Management of tropical soils in relation with nitrogen, acidity, liming, phosphorus, and other nutrients; effects of cropping/forestry systems on soil productivity; survey of types and potential uses of soils in the tropics. Prereq: Soils 205 or perm.

Soils **WS551 Advanced Soil Genesis** (3 cr). WSU Soils 551. Alt/yrs.

Soils **ID557 Advanced Soil Genesis and Classification** (3 cr). WSU Soils 557. Alt/yrs. Processes of soil genesis as influenced by environmental factors; rationale and development of soil taxonomy; field study of pedological problems. Two lec and one 2-hr lab a wk; 1/2-day and 1-day field trips reqd. Prereq: Soils 454 or perm.

Soils **597 (s) Practicum** (cr arr). Prereq: perm.

Soils **598 (s) Internship** (cr arr). Graded P/F. Prereq: perm.

Soils **599 (s) Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Soils **600 Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

ENTOMOLOGY (B.S.Ent.)

Designed for students who desire professional careers in the basic and applied fields of entomology (insect taxonomy, ecology, physiology, and agriculture, aquatic, and forest entomology).

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Ent 211 General Entomology	4
Ent 322 Economic Entomology	3
Ent 440 Insect Identification	4
Ent 484 Insect Anatomy & Physiology	4
Bact 250 General Microbiology	5
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Biol 351 General Genetics	3
Biol 352 Experimental Genetics	2
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 275 Carbon Compounds	3
CommG 131 Fundamentals of Public Speaking	2
Eng 313 Business Writing or 317 Tech & Engr Report Writing	3
PISc 405 Plant Pathology	4
Stat 251 Principles of Statistics	3
Entomology electives	5
Life sciences electives	11
Mathematics electives	4
Physics electives	3
Humanities and social sciences electives	14
Electives to total 132 cr for the degree	—

Courses strongly recommended:

Ent 217 Introduction to Integrated Pest Management	2
Ent 491 Principles of Integrated Pest Management	3
Biochem 380 Introductory Biochemistry	3
Bot 241 Systematic Botany	3
CS 100 Introduction to Computers & Programming	3
Math 180 Analytic Geometry & Calculus I	4
Zool 484 Invertebrate Zoology	4

Plant Sciences

The plant science area offers four programs designed to prepare students for a wide variety of professional careers in agriculture, which may include either crop production, processing, merchandising, research, or extension. The crop science major emphasizes a strong scientific background for careers involving agronomic food and forage crops. The horticultural science major provides a strong science background for careers involving horticultural food and ornamental crops. The crop management major is designed to prepare students for more applied careers with agronomic crops. The landscape horticulture major is designed for careers in management of commercial nurseries, greenhouses, landscapes, recreational parks, and related businesses. Students who wish to prepare for graduate study are encouraged to major in either crop science or horticultural science; however, the other degrees do not preclude graduate training.

CORE COURSES FOR B.S.PL.SC.

Course	Credits
PISc 102 Introduction to Plant Science	3
PISc 338 Weed Control	3
PISc 400 Seminar	1
PISc 405 Plant Pathology	4
ASM 315 Irrigation Systems & Water Management	3
Biol 201 Introduction to the Life Sciences	4
Biol 203 General Botany	4
Bot 241 Systematic Botany	3
Chem 103 Intro to Chemistry or 111 Prin of Chemistry	4
Chem 275 Carbon Compounds	3
CommG 131 Fundamentals of Public Speaking	2
Eng 313 Business Writing or 317 Tech & Engr Report Writing	3
Genet 314 General Genetics	3
Math 111 Finite Math or Math 140 Pre-calculus Algebra & Analytic Geometry or Stat 251 Principles of Statistics	3-4
Soils 205, 206 General Soils & Lab	4
Humanities and social sciences electives	14

CROP MANAGEMENT (B.S.PI.Sc.)

Required course work includes the university requirements (see regulation J-3), the plant science core, and:

Course	Credits
Acctg 201 Introduction to Financial Accounting	3
AgEc 278 Principles of Farm & Ranch Management	4
AgEc 289 Agricultural Markets & Prices	3
ASM 112 Introduction to Agricultural Systems Management	3
AVS 109 Science of Animals that Serve Humanity or 205 Introduction to Animal Nutrition	3

Econ 202 Principles of Economics	3
Ent 211 General Entomology or 322 Economic Entomology	3-4
Soils 446 Soil Fertility	3
Plant science approved electives	13-14
Electives to total 132 cr for the degree	—

CROP SCIENCE (B.S.PI.Sc.)

Required course work includes the university requirements (see regulation J-3), the plant science core, and:

Course	Credits
Bact 250 General Microbiology	5
Bot 311 Plant Physiology	3
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 276 Carbon Compounds Lab	1
Ent 211 General Entomology or 322 Economic Entomology	3-4
Phys 113-114 General Physics	6
Soils 446 Soil Fertility	3
Ag economics or economics electives	3
Plant science approved electives	13-15
Electives to total 132 cr for the degree	—

HORTICULTURAL SCIENCE (B.S.PI.Sc.)

Required course work includes the university requirements (see regulation J-3), the plant science core, and:

Course	Credits
Bact 250 General Microbiology	5
Biochem 380 Introductory Biochemistry	3
Bot 311 Plant Physiology	3
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 253 Quantitative Analysis	5
Chem 276 Carbon Compounds Lab	1
Ent 211 General Entomology or Ent 322 Economic Entomology	3-4
Phys 113-114 General Physics	6
Soils 446 Soil Fertility	3
Plant science approved electives	17-22
Electives to total 132 cr for the degree	—

LANDSCAPE HORTICULTURE (B.S.PI.Sc.)

Required course work includes the university requirements (see regulation J-3), the plant science core, and:

Course	Credits
ASM 112 Introduction to Agricultural Systems Management	3
ASM 115 Graphical Representation	2
Art 111-112 Drawing I	4
Bot 311 Plant Physiology	3
Ent 211 Economic Entomology or Ent 322 Economic Entomology	3-4
LArch 288, 388 Plant Materials	7
Business and accounting electives	6
Plant science approved electives	11-13
Electives to total 132 cr for the degree	—

PLANT PROTECTION (B.S.PI.Prot.)

Designed to prepare students for professional careers in the broad field of plant protection. This program integrates the fields of entomology, plant pathology, and weed science to provide students with a broad understanding of our agricultural, food, and environmental problems. Students so trained should have wide choices in selecting careers.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
ASM 112 Introduction to Agricultural Systems Management	3
Bact 250 General Microbiology	5
Biochem 380, 382 Introductory Biochemistry & Lab	4
Biol 201 Introduction to the Life Sciences	4
Biol 202 General Zoology	4
Biol 203 General Botany	4
Biol 331 General Ecology	3
Bot 241 Systematic Botany	3
Bot 311 Plant Physiology	3
Chem 103 Introduction to Chemistry	4
Chem 275, 276 Carbon Compounds & Lab	4
CommG 131 Fundamentals of Public Speaking	2
Eng 313 Business Writing or 317 Tech & Engr Report Writing	3
Ent 211 General Entomology	4
Ent 217 Introduction to Integrated Pest Management	2
Ent 322 Economic Entomology	3
Math 111 Finite Math or 140 Pre-calculus Algebra & Analytic Geom	3-4
PISc 338 Weed Control	3
PISc 405 Plant Pathology	4
PISc 410 Biology of Weeds	3
PISc 440 Economic Nematology	3
PISc/Ent 438 Pesticides in the Environment	3
Soils 205 General Soils	3
Agricultural economics electives	3
Plant protection approved electives	13-14
Electives to total 136 cr for the degree	—

SOIL SCIENCE (B.S.Soil Sc.)

This degree prepares students for a variety of professional careers such as industry field representative, soil classifier, soil conservationist, for technical positions in public and private organizations, or for graduate studies. Completion of either option satisfies the minimum requirements for certification as a soil scientist, soil specialist, or soil classifier and the technology option satisfies requirements for certification as an agronomist by the American Registry of Certified Professionals in Agronomy, Crops, and Soils (ARCPACS).

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
Soils 205, 206 General Soils & Lab	4
Soils 415 Soil Physics	3
Soils 422 Soil Chemistry	3
Soils 446 Soil Fertility	3
Soils 454 Soil Development & Classification	3
Biol 201 Introduction to the Life Sciences	4
Biol 203 General Botany	4
Bot 311 Plant Physiology	3
Chem 111 Principles of Chemistry	4
Chem 112 Inorganic Chemistry & Qualitative Analysis	5
Chem 275 Carbon Compounds or 277 Organic Chemistry I	3
CommG 131 Fundamentals of Public Speaking	2
Eng 313 Business Writing or 317 Tech & Engr Report Writing	3
Geol 101 Physical Geology	3
Phys 113 General Physics	3
PISc 102 Introduction to Plant Science	3
PISc 407 Field Crop Production	3
Stat 251 Principles of Statistics	3
Computer science electives	2-3
Engineering electives	3
Economics or agricultural economics electives	3

And one of the following options:

A. SCIENCE OPTION

Course	Credits
Soils 423 Soil-Plant Analysis	2
Bact 250 General Microbiology	5
Chem 253 Quantitative Analysis	5
Geol 102 Physical Geology Lab	1
Phys 114 General Physics	3
One of the following	7-8
Math 111 Finite Math and 160 Survey of Calculus	
Math 180 Analytic Geometry & Calculus I and math elective	
Electives to total 128 cr for the degree	—

B. TECHNOLOGY OPTION

Course	Credits
Soils 447 Soil Fertility Management	3
Bot 241 Systematic Botany	3
Ent 211 General Entomology	4
Genet 314 General Genetics	3
PISc 338 Weed Control	3
PISc 405 Plant Pathology	4
Economics or agricultural economics electives	3
Math electives	7
Electives to total 128 cr for the degree	—

Academic Minor Requirements

CROP SCIENCE MINOR

Course	Credits
Ent 211 General Entomology	4
PISc 102 Introduction to Plant Science	3
PISc 405 Plant Pathology	4
PISc 407 Field Crop Production	3
Soils 205, 206 General Soils & Lab	4
Courses selected from the following	3
Ent 217 Introduction to Integrated Pest Management	
PISc 308 Forage Crops	
PISc 401 Crop Physiology	
PISc 446 Plant Breeding	
PISc 469 Seed Production	
PISc 490 Potato Science	

ENTOMOLOGY MINOR

Course	Credits
Ent 211 General Entomology	4
Ent 322 Economic Entomology	3
Ent 440 Insect Identification	4
Ent 484 Insect Anatomy & Physiology	4
Courses selected from the following	3
Ent 442 Immature Insects	
Ent 443 Insect Ecology	
Ent 444 Insect Morphology	
Ent 446 Plant Resistance to Arthropods	

- Ent 447 Biological Control of Arthropod Pests & Weeds
- Ent 448 Medical Entomology
- Ent 472 Aquatic Entomology
- Ent 474 Aquatic Entomology Lab
- Ent 491 Principles of Integrated Pest Management

HORTICULTURE MINOR

Course	Credits
PISc 102 Introduction to Plant Science	3
PISc 202 Plant Propagation	3
Three of the following courses	9
PISc WS320 Commercial Vegetable Crops	
PISc 340 Nursery Management	
PISc 461 Tree Fruit Production Techniques	
PISc 464 Landscape Maintenance	
Two of the following courses	5-8
PISc WS234 Controlled Environments for Horticultural Production	
PISc 405 Plant Pathology	
Ent 217 Introduction to Integrated Pest Management	
Genet 314 General Genetics	
LArch 288 Plant Materials	
Soils 205, 206 General Soils & Lab	

PLANT PROTECTION MINOR

Course	Credits
Ent 211 General Entomology	4
Ent 217 Introduction to Integrated Pest Management	2
Ent 491 Principles of Integrated Pest Management	3
PISc 338 Weed Control	3
PISc 405 Plant Pathology	4
PISc 440 Economic Nematology	3
One of the following courses	2-3
Ent 322 Economic Entomology	
Ent 447 Biological Control of Arthropod Pests & Weeds	
PISc 410 Biology of Weeds	
PISc 475 Postharvest Pathology	

SOIL SCIENCE MINOR

Course	Credits
Soils 205, 206 General Soils & Lab	4
Soils 415 Soil Physics	3
Soils 422 Soil Chemistry	3
Soils 446 Soil Fertility	3
Soils 454 Soil Development & Classification	3
Courses selected from the following to total at least 18 cr for the minor	0-2
Soils 354 Soil Resources & Land Use Planning	
Soils 365 Soil Conservation & Management	
Soils 417 Soil Clay Mineralogy	
Soils 447 Soil Fertility Management	
Bot 413 Mineral Nutrition	

Department of Political Science

Donald W. Crowley, Acting Chair, Dept. of Political Science and Public Affairs Research (205 Admin. Bldg.; 208/885-6328). Faculty: Donald W. Crowley, Landon Curry, Florence A. Heffron, William R. Lund, Alwyn R. Rouyer, Daniel G. Zirker.

Most decisions in modern society depend to some extent on the workings of the political process. Debate over the role of government vis-a-vis the individual has continued since the time of Plato and Aristotle. Political science as a discipline encompasses a broad range of subfields that attempt to describe and explain the political process, politics, and the relationships among governments. The general areas of study in political science include American government and politics, political theory, public administration, public law, comparative politics, and international relations.

The political science program at UI is designed to provide students with a comprehensive selection of introductory and advanced courses in the above areas in order to give them the background necessary to pursue a variety of potential career objectives. Students have a choice of either a Bachelor of Arts or a Bachelor of Science degree. The B.S. degree places emphasis on computer science and statistics; the B.A. provides a more traditional liberal-arts track. All students are required to take a course in political theory and one in research methods. Students are also expected to take at least three courses in both the domestic (American) politics area and the foreign politics area. Beyond this, the student normally will specialize in one or two of the general subfields depending on his or her career plans. For instance, a prelaw major would take a heavier

load in public law courses while a student interested in the foreign service would take more courses in international relations and foreign policy.

The department encourages students to gain practical experience in government by awarding up to six credits for internships. Here the student works either in the legislature, the executive branch, or on a political campaign. In the past, students have interned in most of the state executive agencies, including the governor's office, with congressmen and senators in Washington, D.C., and on political campaigns from the local to the national level.

The department places emphasis both on solid classroom preparation for a variety of career objectives and practical research and internship experience. Students benefit from close contact with instructors both in and out of the classroom and are given individual attention in designing programs of study to best fit their interests. The department encourages innovative teaching techniques among its faculty and in-class participation of its students. Recent examples include a Model United Nations program, and a variety of games and simulations designed to educate the student in decision making.

The Bureau of Public Affairs Research is an integral part of the department. Since its founding, the bureau has completed many research projects concerned with a broad spectrum of state and local government activities, policies, and politics. In addition to its research function, the bureau offers training services for both state and local governmental officials. The bureau also provides consulting services to state and local agencies.

Three graduate degrees are offered by the department: Master of Arts, Master of Public Administration, and Doctor of Philosophy. More information about these programs may be found in the Graduate Bulletin.

Political Science Courses

PREREQUISITES: Two-semester courses in this field may be taken in either order. Students may enroll in second-semester courses without having had the first.

PolSc 101 Introduction to American Politics (3 cr) (C). Satisfies core requirement J-3-d. Basic concepts, processes, and major structural elements of the national government.

PolSc C102 U.S. Government: Policies and Issues (3 cr). Survey of major policies and issues conflicts in the U.S.

PolSc 105 Introduction to Political Science (3 cr). Satisfies core requirement J-3-d. Principles of political science and nature of the discipline; comparative processes in political systems; ideas and theories of politics; problems of governments; international politics.

PolSc C152 Politics and Pollution (1 cr) (C). Political, government, and administrative aspects of overcoming air, water, and other types of pollution of our environment.

PolSc 200 (s) **Seminar** (cr arr). Prereq: perm.

PolSc 203 (s) **Workshop** (cr arr). Prereq: perm.

PolSc 204 (s) **Special Topics** (cr arr). Prereq: perm.

PolSc 237 International Politics (3 cr). Survey of major issues and approaches to international politics by major powers; evaluation of concepts such as power politics, internationalism, and communism; intro to other courses in the area.

PolSc 275 American State and Local Government (3 cr) (C). State and local politics, parties, interest groups, constitutions, legislative, executive, and judicial branches, intergovernmental relations; key issues in state and local policies.

PolSc 299 (s) **Directed Study** (cr arr). Graded P/F. Prereq: perm.

PolSc ID380 Canadian Political System (3 cr). WSU Pol S 380. General exam of Canadian cultural identity, constitutional prin, federalism, govt structure, political process, and electoral behavior.

PolSc 381 Politics of Western Europe (3 cr). Comparison of political systems of Britain and selected European nations; evaluation of European Community; their relation to new governments of Eastern Europe.

PolSc 382 Post-Communist Politics (3 cr). Politics and foreign policies of former communist states; the break-up of the Soviet Union and formation of independent states including Commonwealth of Independent States (CIS) as well as the break-up of the Eastern Bloc and formation of new states including Yugoslavia and the secession of Slovenia and Croatia.

PolSc 400 (s) **Seminar** (cr arr). Prereq: perm.

PolSc 403 (s) **Workshop** (cr arr). Prereq: perm.

PolSc 404 (s) **Special Topics** (cr arr). Prereq: perm.

PolSc ID&WS405 **Israel/Palestine Program** (3 cr). WSU Pol S 421. Cooperative program between UI and WSU in Jerusalem; offered during summer session; various topics related to Israel and Middle Eastern politics and society. Orientation at UI or WSU and 15-21 days of study and travel in Israel and the Occupied Territories.

PolSc 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

PolSc WS-J412/WS-J512 **Government of the U.S.S.R.** (3 cr). WSU Pol S 412/512.

PolSc WS422 **Public Administration and Program Management in Developing Countries** (3 cr). WSU Pol S 422.

PolSc J425/J525 **History of Political Philosophy I** (3 cr). Perennial problems of politics examined through study of seminal authors of classical antiquity (Plato, Aristotle, Cicero); medieval confrontation of theology with classical political philosophy (Augustine, Aquinas, Marsilius). Additional projects/assignments reqd for grad cr.

PolSc J426/J526 **History of Political Philosophy II** (3 cr). Foundations of modern liberalism in severing of the problem of political order from that of the order of the soul, collectivist attack on liberalism as based on radicalization of that same project; study of authors including Machiavelli, Hobbes, Locke, Rousseau, and Marx. Additional projects/assignments reqd for grad cr.

PolSc J428/J528 **American Political Thought** (3 cr). Representative democracy as understood by the Founders, Lincoln, the Progressives, New Deal writers, the New Left, and contemporary liberalism and conservatism. Additional projects/assignments reqd for grad cr.

PolSc J429/J529 **Contemporary Political Ethics** (3 cr). Current controversies concerning status and substance of ethical claims about deception, violence, coercion, and economic justice on politics and public actors. Additional projects/assignments reqd for grad cr.

PolSc 430 **Political Participant Internship** (1-9 cr, max 9). Directed student internship as a participant-observer in the political process, work during a campaign with a candidate, party, or interest group. Graded P/F. Prereq: perm.

PolSc 431 **American Political Parties and Elections** (3 cr). Development and present character of American political parties and of electoral system, functions of parties in periods of relative consensus and of critical choice regarding fundamental principles, party reform, and future prospects for party system.

PolSc 432 **American Congress** (3 cr). Theories of representation, recruitment of legislators, legislative organization and behavior, structure of power, relationship to the executive, lobbying, and role in the political system.

PolSc 433 **American Political Culture** (3 cr). Relation of public opinion and political action and affiliation to broad economic, social, religious, and intellectual developments.

PolSc 435 **Political Research Methods and Approaches** (3 cr). Development of research designs; methods of data collection; measurement of political phenomena; data analysis and the use of statistics; data processing techniques. Prereq: Stat 251.

PolSc J437/J537 **American Presidency** (3 cr). Roles, power, and functions of the presidency; relationships with other structures and institutions in the U.S. political system. Additional projects/assignments reqd for grad cr.

PolSc 438 **Conduct of American Foreign Policy** (3 cr). Foreign policy, including roles of Dept of State and its missions, the President, National Security Council, Congress, military, public opinion and interest groups.

PolSc J439/J539 **Public Policy** (3 cr). Processes by which domestic policies are formulated and administered; analysis of intentional and unintentional impact of these policies on society. Additional projects/assignments reqd for grad cr.

PolSc J440/J540 **International Organizations and International Law** (3 cr). Same as Mrtn 496. League of Nations, United Nations, and role of international law in international relations; the UN's contribution to international security and economic and social development. Additional projects/assignments reqd for grad cr.

PolSc WS-J445/WS-J545 **Public Personnel Administration** (3 cr). WSU Pol S 445/545.

PolSc 447 **Political Systems of East Asia** (3 cr). Chinese and Southeast Asian govts.

PolSc J449/J549 **World Politics and War** (3 cr). Problems of war since 1914; arms limitation attempts, including international nuclear force (INF) agreement. Additional projects/assignments reqd for grad cr. Cr not granted for both PolSc 449 and Mrtn 490.

PolSc 451 **Public Administration** (3 cr) (C). Environment of public administration, politics of organizations, public decision-making, public relations, leadership, personnel administration, financial administration, administration morality; related topics.

PolSc J452/J552 **Administrative Law and Regulation** (3 cr). Rule-making, adjudication, and other modes of regulation of administrative agencies; judicial review and Congressional oversight of administrative acts. Additional projects/assignments reqd for grad cr.

PolSc J453/J553 **Public Management Techniques** (3 cr). Staff tech important to persons entering many types of administrative work in government and other agencies; personnel, management, surveys, data processing, budgeting, purchasing, and public relations. Additional projects/assignments reqd for grad cr.

PolSc J454/J554 **Public Organization Theory** (3 cr). Organization theory and behavior in public and nonprofit sector, organization structure and environment, individual behavior in organizations. Additional projects/assignments reqd for grad cr.

PolSc 458 **Management Internship** (1-9 cr, max 9). Directed internship in an agency of federal, state, or local government or special projects involving federal, state, or local government. One cr for each week of internship work. Graded P/F. Prereq: perm.

PolSc 459 **Legislative Internship** (1-9 cr, max 9). Directed internship in a national, state, municipal, or corporate legislative body. Supervised work experience. Report required. Graded P/F. Prereq: perm.

PolSc 460 **Law and Society** (3 cr). Overview of legal reasoning and functions of law in society; emphasis on capacity of law to affect social change as well as ways in which law responds to social change.

PolSc J464/J564 **Politics of the Environment** (3 cr). Political factors that influence formation, implementation, and impact of public policies aimed at protecting the environment. Additional projects/assignments reqd for grad cr.

PolSc 465 **Politics and the Economy** (3 cr). Analysis of factors that influence political institutions in making economic policy.

PolSc J467/J567 **Constitutional Law** (3 cr). The Supreme Court as a constitutional policymaker; federal jurisdiction; constitutional principles concerning judicial review, federalism, implied powers, separation of powers, and due process. Additional projects/assignments reqd for grad cr.

PolSc J468/J568 **Civil Liberties** (3 cr). The Supreme Court and its role in protecting civil liberties; freedom of speech, press, and religion; due process, the Bill of Rights, and its application to the states; criminal justice. Additional projects/assignments reqd for grad cr.

PolSc J469/J569 **The Judicial Process** (3 cr). Judicial and legal processes, court structure, procedures; judicial behavior and decision-making; selection of judges. Additional projects/assignments reqd for grad cr.

PolSc J471/J571 **Intergovernmental Relations** (3 cr). Relationships among federal, state, and local units of government; legal and fiscal relationships, grant administration, forms of cooperation, the council-of-government movement, transfers of power, and policy making. Additional projects/assignments reqd for grad cr.

PolSc J480/J580 **Politics of Development** (3 cr). Role of the state in development, political economy of change, transition to democracy in the Third World, problems of ethnic conflict, overpopulation, and poverty. Additional projects/assignments reqd for grad cr.

PolSc J482/J582 **Latin American Politics** (3 cr). Comparative description and analysis of distinctive Latin American political institutions and processes; cultural influences; basic institutions; dependency and development; authoritarianism and democratization; international dimensions. Additional projects/assignments reqd for grad cr.

PolSc J483/J583 **Middle Eastern Politics** (3 cr). Comparative analyses of political processes in Middle East and North Africa, Islam and politics, role of the military, and Arab-Israeli conflict. Additional projects/assignments reqd for grad cr.

PolSc ID-J484/J584 **Politics of India and the Subcontinent** (3 cr). WSU Asia 484. Comparative analysis of the political process in India, Pakistan, Bangladesh, Sri Lanka, and Nepal; historical development; cultural and social influences on politics; political institutions and behavior. Additional projects/assignments reqd for grad cr.

PolSc J485/J585 **African Politics** (3 cr). Comparative description and analysis of politics of Africa south of the Sahara, colonialism, nationalism, and economic problems; politics of selected African countries examined including South Africa and apartheid. Additional projects/assignments reqd for grad cr.

PolSc 487 **Political Violence and Revolution** (3 cr). Comparative analyses of causes of revolutions and other forms of violent civil conflict; examination of nature of guerilla warfare, terrorism, and military intervention in politics with special emphasis on the Third World. Cr not granted for both PolSc 487 and Mrtn 491.

PolSc 499 (s) **Directed Study** (cr arr). Prereq: perm.

PolSc 500 **Master's Research and Thesis** (cr arr). Graded P/F.

PolSc 501 (s) **Seminar** (cr arr). Areas normally offered incl U.S. politics, U.S. foreign policy, African and Asian politics, community power and politics, U.S. political thought, public law, public administration, and political development. One 2-day field trip is authorized for the seminar in public administration. Prereq: perm.

PolSc 502 (s) **Directed Study** (cr arr). Prereq: perm.

PolSc 503 (s) **Workshop** (cr arr). Prereq: perm.

PolSc 504 (s) **Special Topics** (cr arr). Prereq: perm.

PolSc WS512 **Government of the U.S.S.R.** (3 cr). See PolSc J412/J512.

PolSc 525 **History of Political Philosophy I** (3 cr). See PolSc J425/J525.

PolSc 526 **History of Political Philosophy II** (3 cr). See PolSc J426/J526.

PolSc 528 **American Political Thought** (3 cr). See PolSc J428/J528.

PolSc 529 **Contemporary Political Ethics** (3 cr). See PolSc J429/J529.

PolSc WS530 **Scope of Political Science** (3 cr). WSU Pol S 530.

PolSc WS531 **Research Methods in Political Science** (3 cr). WSU Pol S 531.

PolSc 537 **American Presidency** (3 cr). See PolSc J437/J537.

- PolSc 539 **Public Policy** (3 cr). See PolSc J439/J539.
- PolSc 540 **International Organizations and International Law** (3 cr). See PolSc J440/J540.
- PolSc WS545 **Public Personnel Administration** (3 cr). See PolSc J445/J545.
- PolSc 549 **World Politics and War** (3 cr). See PolSc J449/J549.
- PolSc 551 **Seminar in Public Administration** (3 cr). Review of significant issues and methodological problems in the field.
- PolSc 552 **Administrative Law and Regulation** (3 cr). See PolSc J452/J552.
- PplSc 553 **Public Management Techniques** (3 cr). See PolSc J453/J553.
- PolSc 554 **Public Organization Theory** (3 cr). See PolSc J454/J554.
- PolSc ID555 **Seminar in Administrative Theory** (3 cr). WSU Pol S 552. Alt/yrs. Major writers in political theory and concepts such as leadership, supervision, authority, decision-making, and human relations.
- PolSc ID556 **Governmental Policy and Program Analysis** (3 cr). WSU Pol S 556. Techniques used to analyze policy alternatives and to evaluate program; developing program objectives, management by objectives, productivity analysis, program evaluation, and policy analysis.
- PolSc 557 **Governmental Budgeting** (3 cr). Theory and techniques of governmental budget preparation and analysis; line item budgeting, performance budgets, PPB, and zero base budgeting; automation applications in the budget process.
- PolSc WS561 **Seminar in U.S. National Security Policy** (3 cr). WSU Pol S 561. U.S. defense and arms control policies; current strategies and weapons issues.
- PolSc 564 **Politics of the Environment** (3 cr). See PolSc J464/J564.
- PolSc 567 **Constitutional Law** (3 cr). See PolSc J467/J567.
- PolSc 568 **Civil Liberties** (3 cr). See PolSc J468/J568.
- PolSc 569 **The Judicial Process** (3 cr). See PolSc J469/J569.
- PolSc 571 **Intergovernmental Relations** (3 cr). See PolSc J471/J571.
- PolSc 575 **Public Personnel Administration** (3 cr). Personnel administration in public agencies; history of the personnel and merit systems; recruitment, selection, training, and evaluation of administrators; collective bargaining and political activity in public service; personnel administration and democracy.
- PolSc 580 **Politics of Development** (3 cr). See PolSc J480/J580.
- PolSc 582 **Latin American Politics** (3 cr). See PolSc J482/J582.
- PolSc 583 **Middle Eastern Politics** (3 cr). See PolSc J483/J583.
- PolSc 584 **Politics of India and the Subcontinent** (3 cr). See PolSc J484/J584.
- PolSc 585 **African Politics** (3 cr). See PolSc J485/J585.

- PolSc WS589 **Seminar: International Politics** (3 cr). WSU Pol S 589.
- PolSc 590 **Seminar in U.S. Foreign Policy** (3 cr). Methodology, decision-making institutions and processes, principal instruments.
- PolSc ID&WS591 **Seminar in Public Policy Formation** (3 cr). WSU Pol S 591.
- PolSc ID&WS592 **Topics in Public Administration** (3 cr). WSU Pol S 592.
- PolSc ID&WS593 **Seminar in Public Law** (3 cr). WSU Pol S 593. Emphasis on substantive law or judicial process.
- PolSc ID&WS594 **Seminar in Political Theory** (3 cr). WSU Pol S 594.
- PolSc ID&WS595 **Seminar in Comparative Politics** (3 cr). WSU Pol S 595.
- PolSc 598 (s) **Internship** (cr arr). Prereq: perm.
- PolSc 600 **Doctoral Research and Dissertation** (cr arr). Graded P/F.

Curricular Requirements

POLITICAL SCIENCE (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and:

Course	Credits
PolSc 101 Intro to American Politics or 105 Intro to Political Science.....	3
Stat 251 Principles of Statistics.....	3
Introductory courses in other social sciences.....	6
Additional political sc courses numbered 150 or above (minimum of 23 cr reqd in upper-div courses; total to incl PolSc 435, at least 3 cr in PolSc 425 or 426, and at least two courses in American govt area and two in foreign politics area—one in international relations and one in comparative politics).....	29
Upper-division related field courses.....	20

Note: A maximum of 6 credits of political science internship and/or directed study courses may be counted toward meeting the political science credit requirements. The choice of specific electives must be approved by the department.

POLITICAL SCIENCE (B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.S. degree, and:

Course	Credits
PolSc 105 Intro to Political Science or 101 Intro to American Politics.....	3
Math 111 Finite Math or 140 Pre-calculus Algebra & Analytic Geom or 180 Analytic Geom & Calculus I.....	3-4
Stat 251 Principles of Statistics.....	3
Introductory courses in other social sciences.....	6
Additional political sc courses numbered 150 or above (minimum of 23 cr reqd in upper-div courses; total to incl PolSc 435 and at least 3 cr in PolSc 425 or 426).....	29
Research methods in the behavioral sc, stat, data processing, or computer programming (may be counted as related field cr if upper-division).....	6
Upper-division related field courses.....	20

Note: A maximum of 6 credits of political science internship and/or directed study courses may be counted toward meeting the political science credit requirements. The choice of specific electives must be approved by the department.

Academic Minor Requirements

AMERICAN GOVERNMENT/PUBLIC LAW MINOR

Note: Approved political science seminars may be substituted in this minor.

Course	Credits
PolSc 101 Intro to American Politics or 105 Intro to Political Science.....	3
Two courses from the following (American Institutions).....	6
PolSc 275 American State & Local Govt	
PolSc 428 American Political Thought	
PolSc 431 American Political Parties & Elections	
PolSc 432 American Congress	
PolSc 433 American Political Culture	
PolSc 437 American Presidency	
PolSc 439 Public Policy	
PolSc 464 Politics of the Environment	
PolSc 471 Intergovernmental Relations	
Two courses from the following (Public Law).....	6
PolSc 429 Contemporary Political Ethics	
PolSc 452 Administrative Law & Regulation	
PolSc 460 Law & Society	
PolSc 467 Constitutional Law	
PolSc 468 Civil Liberties	
PolSc 469 The Judicial Process	
Additional courses from American Institutions or Public Law listed above.....	6

FOREIGN AND INTERNATIONAL POLITICS MINOR

Note: Approved political science seminars may be substituted in this minor. Either Econ 446 or 447 may be used for credit in this minor.

Course	Credits
PolSc 105 Introduction to Political Science.....	3
PolSc 237 International Politics.....	3
Courses in the following two areas (at least 3 cr in each area).....	15
International Relations	
PolSc 438 Conduct of American Foreign Policy	
PolSc 440 International Organizations & International Law	
PolSc 449 World Politics & War	
PolSc 487 Political Violence & Revolution	

Comparative Politics

- PolSc 380 Canadian Political System
- PolSc 381 Politics of Western Europe
- PolSc 382 Post-Communist Politics
- PolSc 447 Political Systems of East Asia
- PolSc 480 Politics of Development
- PolSc 482 Latin American Politics
- PolSc 483 Middle Eastern Politics
- PolSc 484 Politics of India & Subcontinent
- PolSc 485 African Politics

POLITICAL SCIENCE MINOR

Note: Approved political science seminars may be substituted in this minor.

Course	Credits
PolSc 101 Intro to American Politics or 105 Intro to Political Science.....	3
PolSc 425 History of Political Philosophy I or 426 History of Political Philosophy II or 428 American Political Thought.....	3
Three courses in American government/policy (only one course may be numbered below 300).....	9
Two courses in international relations/comparative government (only one course may be numbered below 300).....	6

PUBLIC ADMINISTRATION MINOR

Note: Approved political science seminars may be substituted in this minor.

Course	Credits
PolSc 101 Intro to American Politics or 105 Intro to Political Science.....	3
PolSc 275 American State & Local Govt.....	3
PolSc 451 Public Administration	3
Four courses from the following	12
PolSc 439 Public Policy	
PolSc 452 Administrative Law & Regulation	
PolSc 453 Public Management Techniques	
PolSc 454 Public Organization Theory	
PolSc 464 Politics of the Environment	
PolSc 471 Intergovernmental Relations	
PolSc 556 Governmental Policy & Program Analysis	
PolSc 557 Governmental Budgeting	

Department of Psychology

Robert J. Gregory, Dept. Chair (103 Psych. Bldg.; 208/885-6324). Faculty: James E. Crandall, David E. Christian, Douglas J. Gillan, Sallie E. Gordon, Robert J. Gregory, Steven E. Meier, Philip J. Mohan, Valerie J. Steffen, Mark F. Yama.

Psychology involves the study of thinking, feeling, and behavior. These broad categories include such things as how we perceive and process information from the environment, principles of learning and higher thought processes, emotion and motivation, physiological factors, social behavior, personality, adjustment and abnormality, and developmental processes. The focus is on understanding the varieties of behavior and experience and how they come about. Knowledge of methods of investigation and current research findings are important to this understanding.

A basic understanding of the factors influencing human behavior and experience is highly desirable for effective functioning in our increasingly complex and sometimes puzzling society. The major in psychology (leading to either a B.A. or a B.S. degree) is designed to provide a worthwhile focus for a liberal-arts education. The major can also provide a valuable background for a variety of careers in business, industry, government, or the helping professions. It is also designed to prepare interested students for graduate training that can lead to a professional degree in psychology. The focus of the department is on human psychology. Laboratory equipment includes a variety of devices for studying perception and learning, several microcomputers, and apparatus for physiological recording and biofeedback training. Several research spaces and interviewing or therapy rooms are available.

The department offers an M.S. in clinical psychology and in human factors. The B.S. or B.A. degree in psychology is the recommended preparation for study, though related study or experience in the field will also be recognized. Each of the graduate specialties normally requires two years for completion of the degree. The first year is devoted to extensive preparatory course work; the second year emphasizes practicum and thesis work.

Psychology Courses

PREREQUISITE: Unless otherwise stated, Psych 100 is a prerequisite to all other courses in this field. Unless a prerequisite is specifically stated, the prerequisite to all graduate courses is permission of department and instructor.

Psych 100 Introduction to Psychology (3 cr) (C). Satisfies core requirement J-3-d. Intro to psychology topics, including sensation and perception, learning and thinking, motivation, personality and adjustment, social processes, psychological testing; emphasis on fundamental principles.

Psych 200 (s) Seminar (cr arr). Prereq: perm.

Psych 203 (s) Workshop (cr arr). Prereq: perm.

Psych 204 (s) Special Topics (cr arr). Prereq: perm.

Psych 218 Introduction to Research in the Behavioral Sciences (4 cr). Primarily for majors in psychology. Logic and method of empirical research in the behavioral sciences; design, execution, and reporting of psychological experimentation and research. Three lec and one 2-hr lab a wk. Prereq: Math 111 or 140, or equiv.

Psych 299 (s) Directed Study (cr arr). Prereq: perm.

Psych 305 Developmental Psychology (3 cr) (C). Conception to preadolescence; genetics, anatomy, physiology, biological changes during development, learning, socialization, cognition, and personality.

Psych 309 Personality and Social Development in Children (3 cr) (C). Personality and social development from birth to adolescence, including areas of attachment, aggression, impulse control, sex differences, development of a sense of self, conscience development, and effects of parental childrearing styles upon child. Prereq: Psych 218, 305.

Psych 310 Psychology of Personality (3 cr) (C). Theories of personality, basic concepts, techniques of measurement, and experimental methods; the normal personality.

Psych 311 Abnormal Psychology (3 cr) (C). Nature, causes, treatment, and prevention of patterns of emotional disturbances and personality disorders, including neuroses and psychoses.

Psych 316 Industrial Psychology (3 cr). Contributions of experimental, social, counseling, and clinical psychology to the everyday problems of organization; emphasis on industrial organizations.

Psych 320 Introduction to Social Psychology (3 cr) (C). Theories, concepts, and research on the social bases of behavior and social interaction; topics of personal and social relevance, aggression, prejudice, altruism and helping behavior, interpersonal attraction, behavior in groups, conformity, attitudes, authoritarianism, and obedience to authority. Prereq: Psych 218.

Psych J325/J525 Cognitive Psychology (3 cr). Survey and analysis of major topics in field; emphasis on contemporary research and theory; related topics in perception, memory, and information processing and transformation. Additional projects/assignments reqd for grad cr. Prereq: Psych 218 or perm.

Psych 330 Human Sexuality (3 cr) (C). Intro to the fundamentals of human sexuality; emphasis on current trends and research. No prereq.

Psych 340 Parapsychology (3 cr). Critical examination of methods of inquiry and evidence relating to such topics as extrasensory perception, psychokinesis, precognition, and survival of death.

Psych 372 Physiological Psychology (3 cr). Physiological bases of animal and normal human behavior. Prereq: Biol 201-202, Zool 119, or perm.

Psych 390 Psychology of Learning (3 cr). Experimental literature of the nature and conditions of classical and operant conditioning, verbal learning, and cognition. Prereq: Psych 218.

Psych 400 (s) Seminar (cr arr). Prereq: perm.

Psych 403 (s) Workshop (cr arr). Prereq: perm.

Psych 404 (s) Special Topics (cr arr). Prereq: perm.

Psych 409 Cognitive Development (3 cr). Intellectual development of child from birth to maturity, mechanisms of intellectual growth, relationship between language and cognitive development. Prereq: Psych 218, 305.

Psych 411 Psychotherapy: Theory and Practice (4 cr). Critical examination of what components make psychotherapy effective; evaluation of current theories of therapy and historical influences; additional emphasis on requisite skills necessary for psychotherapist. Three lec and one 2-hr lab a wk.

Psych 419 Psychology of Aging (3 cr). Analysis of intellectual and memory changes with aging; diagnosis of senile dementia and pseudodementia; study of psychological problems of aging, plasticity of functioning, and ingredients of successful aging.

Psych ID422 Aggression (3 cr). WSU Psych 352. Theories, concepts, and research on aggression at individual and group levels; origin of aggression; murder; effects of mass media; deindividuation; sex differences; social, cognitive, learning, and environmental influences.

Psych 444 Sensation and Perception (3 cr). Fundamental processes and variables in sensory, perceptual, and cognitive experiences of humans. Prereq: Psych 218.

Psych 446 Engineering Psychology (3 cr). Application of principles of experimental psychology to analysis of interaction of the human operator with machine systems and work environments; emphasis on psychological aspects of human performance.

Psych 448 Psycholinguistics (3 cr). See Eng 448.

Psych 455 Psychology of Motivation (3 cr). Biological and social variables influencing the activation, direction, and self-maintenance of behavior. Prereq: 6 cr in psychology.

Psych J495/J595 Professional Issues and Ethics in Psychology (3 cr). In-depth analysis of professional and ethical issues faced by psychologists in their roles as practitioners, researchers, consultants, teachers, etc.; exploration of controversies, political and logistic problems facing psychologists, and the helping professions in general. Two hrs of "Case Review Board" a month reqd for graduate credit.

Psych 496 Applied Behavior Analysis (3 cr). Analysis and assessment of behavior in real-life settings, e.g., home, business, industry, and institutions such as prisons and psychiatric hospitals; structured programs of intervention and assessment of behavior change; special emphasis on self-management of behavior. Prereq: Psych 218 and 390.

Psych 498 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

- Psych 499 (s) **Directed Study** (cr arr). Prereq: perm.
- Psych 500 **Master's Research and Thesis** (cr arr).
- Psych 501 (s) **Seminar** (cr arr). Prereq: perm.
- Psych 502 (s) **Directed Study** (cr arr). Prereq: perm.
- Psych 503 (s) **Workshop** (cr arr). Prereq: perm.
- Psych 504 (s) **Special Topics** (cr arr). Prereq: perm.
- Psych 505 **Current Topics in Developmental Psychology** (3 cr). Recent research in selected area. Prereq: perm.
- Psych 511 **Intellectual Assessment** (3 cr). Assessment of intellectual ability and brain impairment in the individual; relevant history, concepts, and supervised practice in test administration; interpretation and report writing. Prereq: perm.
- Psych 513 **Community Psychology** (3 cr). Theory, research, and issues, including strategies and intervention for the mental health professional.
- Psych **WS520 Advanced Social Psychology** (3 cr). WSU Psych 550.
- Psych 525 **Cognitive Psychology** (3 cr). See Psych J325/J525.
- Psych 528 **Descriptive Psychopathology** (3 cr). Assessment, description, and classification of adult psychopathology; supervised practice in administration and interpretation of objective tests of psychological disturbance.
- Psych 530 **Introduction to Clinical Psychology** (3 cr). Practical, theoretical, social-professional, and ethical aspects of psychotherapy.
- Psych 540 **Personality Assessment** (3 cr). Issues and supervised practice in administration, scoring, and interpretation of the most frequently used devices. Prereq: Psych 511, 528, 530, and perm of dept.
- Psych 545 **Advanced Clinical Psychology** (3 cr). Theory, research, and techniques of psychotherapy. Prereq: Psych 530 and perm.
- Psych 550 **Training and Skill Acquisition** (3 cr). Application of learning theory to real-world training problems; review of current research and techniques for training and skill acquisition.
- Psych 552 **Ergonomics and Biomechanics** (3 cr). Principles of anthropometry, biomechanics, and work physiology applied to workplace.
- Psych 555 **Safety Analysis** (3 cr). Effect of environmental, job, and personal stressors on work performance; systems analysis; safety analysis and accident prevention.
- Psych 561 **Human Factors Design I** (3 cr). Visual and auditory display design, evaluation, and selection; physiological and psychological aspects of human-computer interaction. Prereq: Psych 325, Psych 444, ME 409, or perm.
- Psych 562 **Human Factors Design II** (3 cr). Manual Control Theory and applications; design and evaluation techniques for complex human/system interfaces. Prereq: Psych 446, ME 409, or perm.
- Psych 563 **Human Factors Design Lab** (3 cr). Application of design and evaluation principles and techniques to real world problems. Prereq: Psych 561, 562.
- Psych **WS570 Psychology of Visual Perception** (3 cr). WSU Psych 585.
- Psych 585 **Research Methods** (3 cr). Philosophy of research, types of design, data analysis, research report. Prereq: Stat 401 or equivalent.
- Psych 590 **Child Clinical Psychology** (3 cr). Etiology and description of psychopathology and behavior disorders in children; treatment philosophies and techniques; disc of case studies, research, and adolescence. Prereq: perm.
- Psych 595 **Professional Issues and Ethics in Psychology** (3 cr). See Psych J495/J595.
- Psych 597 (s) **Practicum** (cr arr). Prereq: perm.
- Psych 598 (s) **Internship** (cr arr). Prereq: perm.
- Psych 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Course	Credits
Psych 100 Introduction to Psychology	3
Psych 218 Introduction to Research in the Behavioral Sciences	4
Biol 100 Intro to Biology or Biol 201 Intro to the Life Sciences.....	4
CS 100 Intro to Computers & Programming or CS 112 Intro to Problem Solving & Programming.....	3
Stat 251 Principles of Statistics	3
A grade of C or above in at least three courses from each of the following two groups	18

- Personal/Social Bases of Behavior
- Psych 305 Developmental Psychology
 - Psych 310 Psychology of Personality
 - Psych 311 Abnormal Psychology
 - Psych 320 Introduction to Social Psychology

- Biological/Experimental Bases of Behavior
- Psych 325 Cognitive Psychology
 - Psych 372 Physiological Psychology
 - Psych 390 Psychology of Learning
 - Psych 444 Sensation & Perception

And a grade of C or above in at least 4 additional upper-division psychology courses (not including Psych 400, 403, 498, or 499).

Academic Minor Requirements

PSYCHOLOGY MINOR

Note: Psych 100 and Psych 218 must be completed with a grade of C or better.

Course	Credits
Psych 100 Introduction to Psychology	3
Psych 218 Introduction to Research in the Behavioral Sciences	4
A grade of C or above in at least two courses from each of the following groups.....	12

- Personal/Social Bases of Behavior
- Psych 305 Developmental Psychology
 - Psych 310 Psychology of Personality
 - Psych 311 Abnormal Psychology
 - Psych 320 Introduction to Social Psychology

- Biological/Experimental Bases of Behavior
- Psych 325 Cognitive Psychology
 - Psych 372 Physiological Psychology
 - Psych 390 Psychology of Learning
 - Psych 444 Sensation & Perception

And a grade of C or better in at least one additional upper-division psychology course (not including Psych 400, 403, 498, or 499).

Department of Range Resources

Kendall L. Johnson, Dept. Head (205B FWR Bldg.; 208/885-6536). Faculty: Stephen C. Bunting, John H. Ehrenreich, Kendall L. Johnson, James L. Kingery, Jeffrey C. Mosley, Ronald Robberecht, Kenneth D. Sanders.

Rangelands are those lands that have vegetation that is predominantly grasses, grass-like plants, forbs, or shrubs suitable for grazing or browsing use by domestic and wild animals. Such lands occupy about 47 percent of the global land area. The proportion of rangeland in the U.S. is approximately the same as for the world as a whole. Idaho's rangelands, however, comprise nearly 70 percent of the total land area of the state, thus emphasizing the geographic and economic importance of these lands to the citizens of Idaho.

Rangelands provide habitat for many species of plants and animals, contain minerals for a variety of uses necessary to maintain and enhance the nation's productive capacity and quality of life, produce forage for domestic livestock and wildlife species, yield water for domestic, agricultural, and industrial uses, and provide open space for a broad spectrum of outdoor recreational activities.

Sound management of rangelands based on ecological principles is required if society is to gain the full measure of products, benefits, and values that these resources offer. The range resources curriculum at UI prepares students for the scientific management of rangelands within a variety of career opportunities. The Department of Range Resources in the College of Forestry, Wildlife and Range Sciences offers a program leading to the degree of Bachelor of Science in Range Resources. In addition, the range program provides ample opportunity for students to broaden their knowledge and skills in other areas of natural resource management, such as fish and wildlife, forestry, watershed, recreation, soils, agricultural

Curricular Requirements

PSYCHOLOGY (B.A. or B.S.)

Note: Psych 100 and Psych 218 must be completed with a grade of C or better and a minimum cumulative GPA of 2.50 must be attained for students seeking upper-division standing in the department. In order to graduate with a degree in psychology, 2.50 GPA must be attained.

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and:

economics, and animal science. Field study and evaluation of plant and animal communities are integral parts of the curriculum in range resources. Internships with public land management agencies and private livestock enterprises add to the educational opportunities in the program. On-campus computer terminal availability and modern library facilities also enhance the teaching and learning processes available to students.

The degree of Master of Science in Range Resources is offered in the department and the Doctor of Philosophy degree is offered in the college with a major in forestry, wildlife, and range sciences. Graduate applicants should normally have completed an undergraduate major in range resources management with training in the biological, physical, and social sciences equivalent to that required for the B.S. Range Res. at UI. Applicants lacking this preparation will be required to make up deficiencies as needed.

A library orientation session during the first semester on campus is required for all undergraduates.

Prospective students in range resources are urged to contact the departmental office for further information (208/885-6536).

Range Resources Courses

PREREQUISITE: Courses in this subject field numbered above 299 are not open to any undergraduate student who is on academic probation.

Range 200 (s) **Seminar** (cr arr). Prereq: perm.

Range 203 (s) **Workshop** (cr arr). Prereq: perm.

Range 204 (s) **Special Topics** (cr arr). Prereq: perm.

Range 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Range 221 **Natural Resources Ecology** (3 cr). Principles of plant and animal ecology with emphasis on concepts applied in natural resources; includes interactions between organisms and their physical environment, evolutionary processes, populations, communities, energy flow and ecosystems, and conservation biology. Recommended preparation: Biol 202 and 203. Prereq: Biol 100 or 201, or perm.

Range 251 **Principles of Range Resources Management** (2 cr). Development of range use and range resource management, rangeland vegetation types, current management issues, relationship of grazing use with other land uses and values.

Range 299 (s) **Directed Study** (cr arr). Prereq: perm.

Range 301 **Wildland Field Ecology I** (1 cr). Introduction to field ecology; the rationale for and importance of studying terrestrial, aquatic, and human ecosystems; practical experience with tools and skills used to measure wildland ecosystem processes. One 5-hr lab a wk. Prereq or coreq: For/ResRc/Soc 235 and For/Range/WLF 221.

Range 302 **Wildland Field Ecology II** (2 cr). Field studies of ecological and socio-political processes in terrestrial, aquatic, and human ecosystems at individual, population, community, landscape, regional, and global scales; application of ecological principles to integrated natural resource management. Two weeks all-day lec/lab immediately following spring semester; overnight field excursions required. Prereq: For/ForPr/Range/WLF/ResRc/Fish 301.

Range 354 **Rangeland Vegetation Management** (3 cr) (Range 454). Objectives, methods, benefits, and environmental impact of rangeland vegetation management; role of vegetation management in multiple-use rangeland management. One 1-wk field trip. Prereq: Range 251 and Range/For/WLF 221 or perm.

Range 358 **Natural Resources of the World** (3 cr). Forest, range, wildlife, fisheries, recreation, soil, water, and mineral resources of the world: their occurrence and nature as well as current and future use and demands including international trade, tourism, and conservation.

Range 397-398 **Renewable Natural Resources Internship I-II** (cr arr). Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F. Prereq: perm of dept.

Range 400 (s) **Seminar** (cr arr). Prereq: perm.

Range 401 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Range 403 (s) **Workshop** (cr arr). Prereq: perm.

Range 404 (s) **Special Topics** (cr arr). Prereq: perm.

Range 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Range 452 **Rangeland Communities** (3 cr). Survey of rangeland plant communities of western U.S., focusing on physical, climatic, and biological characteristics, anthropogenic influences, management characteristics, successional trends, and important plant species. Two days of field trips. Prereq: Biol 203 and Range 251.

Range 453 **Rangeland Vegetation Inventory and Analysis** (3 cr). Inventory and monitoring techniques for measuring rangeland vegetation; interpretation of data with respect to range condition and trend, watershed protection, value for livestock and wildlife habitat. Two lec and one field trip/lab a wk. Prereq: Range 251 and Stat 251.

Range 456 **Integrated Rangeland Resource Management and Planning** (4 cr). Vegetation-soil-herbivore interactions influencing multiple-use management of forest and rangeland ecosystems; nutritional relationships between plants and free-ranging ungulates; management planning and strategies for integrating wildlife, livestock, water, timber, and recreation values on forests and rangelands. One 1-week field trip. Prereq: Range 251.

Range 457 **Classification and Identification of Range Plants** (3 cr). Classification, description, and identification of the most important plants found on rangelands in North America. Prereq: Bot 241 or perm.

Range J458/ID-J558 **Agroforestry** (3 cr). Same as For J458/J558. WSU NATRS 504. Interdisciplinary approach to sustainable land management that involves ecological, social, and economic integration of forest and woodland production with grazing and/or agriculture crops. Particularly suited to students from less-developed countries. Additional projects/assignments req'd for grad cr.

Range 459 **Rangeland Ecology** (3 cr). Application of ecological principles in rangeland management; stressing response and behavior of range ecosystems to various kinds and intensity of disturbance and management practice. Two 1-day field trips. Prereq: a course in general ecology or perm.

Range 470 **Interdisciplinary Natural Resource Planning** (3 cr). Land use planning and decision-making theories, legislation and techniques applied to natural resource case studies from public and private sector, including impact assessment, creation and valuation of alternatives, and public involvement. Two hrs of lec, 3 hrs of lab, and 1 hr of recitation a wk; one 1-day field trip. Prereq: senior standing; For/ResRc/Soc 235; For/Range/WLF 221; For/Range/ForPr/ResRc/WLF/Fish 302; and four of the following: ForPr 250, Range 251, For 270, WLF 290, Fish 290, ResRc 287.

Range 498 **International Wildland Management** (1-3 cr, max 3). World approaches and problems. Prereq: sr standing and perm.

Range 499 (s) **Directed Study** (cr arr). For the individual student; conferences, library, field, or lab work. Prereq: sr standing, GPA 2.5, and perm.

Range 500 **Master's Research and Thesis** (cr arr).

Range 501 (s) **Seminar** (cr arr). Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics. Prereq: perm.

Range 502 (s) **Directed Study** (cr arr). Prereq: perm.

Range 503 (s) **Workshop** (cr arr). Selected topics in the conservation and management of natural resources. Prereq: perm.

Range 504 (s) **Special Topics** (cr arr). Prereq: perm.

Range 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Range WS525 **Experimental Plant Ecology** (3 cr). WSU NATRS 525.

Range 526 **Fire Ecology** (3 cr). See For 526.

Range 527 **Landscape Ecology of Forests and Rangelands** (2-3 cr). Ecological relationships of biotic communities in heterogeneous environments, spatial and temporal patterns, importance of landscapes in maintenance of ecosystem diversity and function. One 2-hr discussion a week based on extensive reading of current literature. Independent study project and instructor perm req'd for 3 cr. Prereq: upper-division plant or animal ecology.

Range ID551 **Rangeland Vegetation Ecology** (3 cr). WSU NATRS 551. Alt/yrs. Ecological concepts of the nature, dynamics, and distribution of plant communities; secondary successional processes, soil-vegetation relations, and development of vegetation-classification schemes for better land management. Prereq: plant ecology and perm.

Range 552 **Restoration Ecology** (2 cr). Restoration of disturbed or damaged ecosystems; fundamental principles from stress physiology and community ecology and review of case studies in restoration ecology used to examine how damaged ecosystems can be restored. Prereq: Range 459 or equivalent course in plant ecology, or perm.

Range 553 **Foraging Behavior of Rangeland Herbivores** (2 cr). Behavioral processes of rangeland herbivore foraging, including domestic livestock and wild ungulates; techniques for researching rangeland herbivore foraging behavior; application of theoretical concepts to grazing management.

Range WS554 **International Range Management** (3 cr). WSU NATRS 555.

Range 555 **Current Issues in Rangeland Resource Management** (2 cr). Alt/yrs. Investigation and disc of current issues in range resources and closely related fields. Prereq: perm.

Range ID558 **Agroforestry** (3 cr). See Range J458/J558.

Range ID560 **Plant Autecology** (3 cr). WSU NATRS 524. Adaptations of individual species in rangeland and forest communities; emphasizing morphological and physiological mechanisms that influence plant establishment, below- and above-ground productivity, plant competition, and grazing sensitivity. Two days of field trips. Prereq: Range 221, Bot 311 or perm.

Range 595 (s) **Problems in World Resources** (1-3 cr, max 3). Prereq: Range 498 or equivalent.

Range 597 (s) **Practicum** (cr arr). Prereq: perm.

Range 598 (s) **Internship** (cr arr). Prereq: perm.

Range 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Range 600 **Doctoral Research and Dissertation** (cr arr). Prereq: admission to the doctoral program in "forestry, wildlife and range sciences" and perm of dept.

Curricular Requirements

RANGE RESOURCES (B.S.Range Res.)

Required course work includes the university requirements (see regulation J-3) and:

First and Second Years	Credits
Range/WLF/For 221 Natural Resources Ecology	3
Range 251 Principles of Range Resources Management	3
ASM 240 Computer Applications in Biological Systems or CS 100 Intro to Computers & Programming or CS 112 Intro to Problem Solving & Programming	3
AVS 205 Introduction to Animal Nutrition	3
Biol 201 Introduction to the Life Sciences	4
Biol 203 General Botany	4
Bot 241 Systematic Botany	3
Chem 103 Introduction to Chemistry	4
Chem 275 Carbon Compounds	2
CommG 131 Fundamentals of Public Speaking	2
Econ 201, 202 Principles of Economics	6
For/ResRc/WLF 235 Society & Natural Resources	3
For/Range/WLF/ResRc/Fish/ForPr 301 Wildland Field Ecology I	1
FWR 101 Forestry Orientation	1
Math 180 Analytic Geometry & Calculus I or 160 Survey of Calculus	4
Soils 205 General Soils	3
Stat 251 Principles of Statistics	3
Three of the following	6
Fish 290 Principles of Fish Biology	
For 270 Principles of Forest Ecosystem Management	
ForPr 250 Principles of Forest Products	
ResRc 287 Principles of Resource Recreation & Tourism Management	
WLF 290 Principles of Wildlife Biology	

Summer Session

For/Range/WLF/ResRc/Fish/ForPr 302 Wildland Field Ecology II

Third and Fourth Years Years	Credits
Range 354 Rangeland Vegetation Management	3
Range 452 Rangeland Communities	3
Range 453 Rangeland Vegetation Inventory & Analysis	3
Range 456 Integrated Rangeland Resource Management & Planning	4
Range 457 Classification & Identification of Range Plants	3
Range 459 Rangeland Ecology	3
AVS 474 Beef Cattle Science or AVS 476 Sheep Science	3
Bot 311 Plant Physiology	3
Eng 317 Tech & Engr Report Writing or 313 Business Writing	3
For 383 Economics for Natural Resource Managers or AgEc 451 Land & Natural Resource Economics	3
For 462 Watershed Management	3
For/Range/WLF/Fish/ResRc/ForPr 470 Interdisciplinary Natural Resource Planning	3
Soils 454 Soil Development & Classification	3
One of the following	2-3
Bot 441 Agrostology	
For 275 Aerial Photo Interpretation	
ForPr 230 Forest Land Measurement & For 274 Forest Measurement Techniques	
Approved electives from approved ecology or management areas	9
Electives to total 128 credits	—

RECREATION—see the Division of Health, Physical Education, Recreation, and Dance

Religious Studies

Nicholas F. Gier, Coordinator (405 Morrill Hall; 208/885-6284).

The following nonsectarian courses are offered by two privately sponsored institutes adjacent to the campus: the Campus Christian Center, and the L.D.S. Institute of Religion. While these teaching centers are not part of the university, they secure the university's approval of courses and instructors.

Religious Studies Courses

RelSt 101 **Introduction to Religious Studies** (3 cr). Intro to academic study of religion by analyzing history and development of Judaism, Christianity, and Islam.

RelSt 104 **Biblical History and Thought: Old Testament** (3 cr). History and development of religious thought and practices of the Hebrew, Israelite, and Jewish people as reflected in the writings of the Hebrew Scriptures.

RelSt 105 **Biblical History and Thought: New Testament** (3 cr). Development of religious and theological thought of the Christian Scriptures as manifested in the writings of the New Testament.

RelSt 133 **Religion and Family** (2 cr). Overview of influence of religion on dating, courtship, marriage, and family life.

RelSt 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

RelSt 321 **Twentieth Century Theology** (3 cr). Recent developments in theology, with emphasis on American experience; includes evangelical, process, narrative, liberation, and feminist theologies.

RelSt 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Course List

Admission to a school of theology involves meeting satisfactorily its entrance requirements, acceptable scholastic records, and possession of personal qualifications essential for effective leadership. The Association of Theological Schools recommends a broad liberal arts background as the primary preparation for theological studies, along with such appropriate courses in religious studies as may be available at the student's undergraduate institution.

UI does not offer a major in religious studies. The following courses are suggested for students who (1) plan to transfer into a religious studies major at another institution, (2) plan to go to a seminary or theological school, or (3) wish to be introduced to the field of religious studies. The list is divided between "core" courses and "collateral" courses, and is not intended to be exhaustive.

Core Courses	Credits
RelSt 101 Introduction to Religious Studies	3
RelSt 104 Biblical History & Thought: Old Testament	3
RelSt 105 Biblical History & Thought: New Testament	3
RelSt 321 Twentieth Century Theology	3
RelSt 404 Special Topics	3
Anthr 327 Belief Systems	3
Eng 375 The Bible as Literature	3
Phil 305 Philosophy of Religion	3
Phil 306 Hindu Thought	3
Phil 307 Buddhism	3
Phil 308 Confucianism & Taoism	3

Collateral Courses	Credits
RelSt 133 Religion & Family	2
Art 101 Visual Art	3
Art 102 Survey of Art	2
FL/EN 211 Classical Mythology (Gods)	2
FL/EN 212 Classical Mythology (Heroes)	2
FL/EN 441 Ancient Greek Civilization	3
FL/EN 442 Civilization of Ancient Rome	3
FL/GK 341-342 Elementary Greek	8
FL/GK 404 Special Topics: Koine Greek	1-3
Hist 101-102 History of Civilization	6
Hist 446 Medieval Europe	3
Hist 457 History of the Middle East	3
Phil 101 Ethics	3
Psych 320 Introduction to Social Psychology	3
Soc 321 The Community	3

Department of Resource Recreation and Tourism

John D. Hunt, Dept. Head (19 FWR Bldg.; 208/885-7911). Faculty: James R. Fazio, Sam H. Ham, Charles C. Harris, John C. Hendee, John D. Hunt, Edwin E. Krumpe, William J. McLaughlin, Nick Sanyal. Adjunct Faculty: Gary E. Machlis, Lewis Nelson, Jr., George H. Savage. Affiliate Faculty: Stewart Allen, James R. Barborak, David N. Cole, LuVerne D. Grussing, Kenneth W. Kendall, Craig G. MacFarland, Richard A. Meganck, John H. Schomaker, Paul D. Weingart.

Programs in the Department of Resource Recreation and Tourism involve the study of land and its natural resources, the people who use resources for recreational purposes, and the private and governmental institutions that determine how land will be managed. This discipline is an outgrowth of increasing public interest in outdoor recreation and nature tourism that ranges from wilderness backpacking and river floating to hang-gliding, cruising, and enjoying

the comforts of a resort. The ever-increasing variety of demands and conflicts, and the growing numbers of tourists in all age and cultural groups, has created unprecedented pressures on recreation resources. At the same time outstanding opportunities are being created for the tourism industry. Modern recreation and tourism management attempts to reconcile conflicts and ensure high-quality opportunities of all kinds while at the same time protecting natural, social, and cultural resources for the future.

The educational objective of this curriculum is to provide men and women with the knowledge, skills, and confidence needed to handle a wide array of professional opportunities now available in resource-based recreation and tourism. Students receive a solid educational foundation by studying natural resources and their management. This is coupled with courses in the human dimensions of resource use, including a strong emphasis in communication and business. In addition, experiencing outdoor recreation and tourism is emphasized, as well as learning firsthand about its management.

Graduates find employment in private business, in county, state, and national parks, in educational institutions, and in a variety of resource-management agencies such as the U.S. Forest Service, Bureau of Land Management, National Park Service, and others. Some students combine their education in resource recreation and tourism with a second degree in forest, wildlife, or range management to broaden their employability even further. Still others select a foreign language to prepare for work at the international level.

It is department philosophy that graduates should be prepared for the entire spectrum of resource recreation and tourism career opportunities. Careers, however, usually begin in one of five general areas: recreation resource management, natural resource communication, wilderness and nature conservation, tourism and leisure enterprises, or outdoor recreation leadership. Students must select one of the four departmental minors, any other university minor, or develop a block of 12 credits of approved electives to provide depth in an area related to recreation resource and management.

Faculty members in the department have been chosen to ensure that students can receive instruction and counsel in the entire spectrum of resource recreation and tourism. Advisers are matched, accordingly, with students' career interests.

The B.S. in resource recreation and tourism prepares qualified students for advanced degrees in most recreation resource, park and recreation, or tourism graduate programs. The department offers the M.S. and Ph.D. degrees, with concentrations in the same areas as the undergraduate options, with the addition of international studies and other highly interdisciplinary areas of research and education related to resource recreation and tourism.

For additional information, consult the department head (telephone 208/885-7911).

Resource Recreation and Tourism Courses

PREREQUISITE: Courses in this subject field numbered above 299 are not open to any undergraduate student who is on academic probation.

ResRc 102 Introduction to Recreation Professions (1 cr). Same as Rec 102. Introduction to recreation and its related management problems, resources, and professional opportunities. Graded P/F.

ResRc WS181 Introduction to Hospitality Services Industries (3 cr). WSU H A 181.

ResRc 200 (s) Seminar (cr arr). Prereq: perm.

ResRc 203 (s) Workshop (cr arr). Prereq: perm.

ResRc 204 (s) Special Topics (cr arr). Prereq: perm.

ResRc 235 Society and Natural Resources (3 cr). See For 235.

ResRc WS236 Principles of Tourism (3 cr). WSU H A 235.

ResRc 287 Principles of Resource Recreation and Tourism Management (2 cr). Overview of development of wildland recreation and tourism resources in contemporary society; integration of political, economic, and behavioral issues and concepts into an overall land use management framework.

ResRc 299 (s) Directed Study (cr arr). Prereq: perm.

ResRc 301 Wildland Field Ecology I (1 cr). Introduction to field ecology; the rationale for and importance of studying terrestrial, aquatic, and human ecosystems; practical experience with tools and skills used to measure wildland ecosystem processes. One 5-hr lab a wk. Prereq or coreq: For/ResRc/Soc 235 and For/Range/WLF 221.

ResRc 302 Wildland Field Ecology II (2 cr). Field studies of ecological and socio-political processes in terrestrial, aquatic, and human ecosystems at individual, population, community, landscape, regional, and global scales; application of ecological principles to integrated natural resource management. Two weeks all-day lec/lab immediately following spring semester; overnight field excursions reqd. Prereq: For/ForPr/Range/WLF/ResRc/Fish 301.

ResRc 303 Resource Recreation and Tourism Field Studies (3 cr) (ResRc 302). Field site evaluation of resource recreation and tourism planning, development, marketing, and management cases. Two-week field trip during summer session; preparation meetings reqd before field trip.

ResRc 305 Field Research in Wilderness Ecology (3 cr). See WLF 305.

ResRc 310 Leisure Services Research and Evaluation (3 cr). Empirical research methods used in leisure service delivery programs; how to choose and apply selective research methods and software packages; design, collection, and analysis of information; program evaluation; reporting results; interpreting research literature. Prereq: basic computer skills and Stat 150 or 251 or 301, or perm.

ResRc 311 Leisure Services Research and Evaluation Lab (1 cr). Lab exercises for experience in designing research; collecting data; using computer technology to collect, analyze, and present information; various research methods. Two hrs of lab a wk. Coreq: ResRc 310.

ResRc WS381 Hospitality Management and Organization (3 cr). WSU H A 381.

ResRc 385 Resource Recreation and Tourism Management (3 cr). Alt/yrs. Comprehensive intro to theory, processes, and techniques for managing natural resources recreation and tourism systems; tourist, resource/attraction, and program management strategies demonstrating budgeting, contracting, and human resource management stressed. Prereq: ResRc 287, 310, 311 or perm.

ResRc 386 Resource Recreation and Tourism Planning (3 cr). Alt/yrs. Integration of regional area aspects of land use planning relevant to provision of natural resource recreation and tourism opportunities; applied case studies in private and public sector used to demonstrate styles of planning, planning frameworks, and analysis techniques. Prereq: ResRc 287, 310, 311 or perm.

ResRc 387 Environmental Interpretive Methods (3 cr). Alt/yrs. Introduction to environmental interpretation; communication psychology and media applied to noncaptive audiences in leisure and natural resource settings. Prereq: ResRc 287 or perm.

ResRc 396 Wilderness Research Internship (3 cr). See WLF 396.

ResRc 397-398 Resource Recreation and Tourism Internship I-II (cr arr). Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F. Prereq: perm of dept.

ResRc 400 (s) Seminar (cr arr). Prereq: perm.

ResRc 401 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

ResRc 403 (s) Workshop (cr arr). Prereq: perm.

ResRc 404 (s) Special Topics (cr arr). Prereq: perm.

ResRc 406 (s) Study Abroad (cr arr). Prereq: perm of dept.

ResRc 470 Interdisciplinary Natural Resource Planning (3 cr). Land-use planning and decision-making theories, legislation and techniques applied to natural resource case studies from public and private sector, including impact assessment, creation and valuation of alternatives, and public involvement. Two hrs of lec, 3 hrs of lab, and 1 hr of recitation a wk; one 1-day field trip. Prereq: senior standing, For/ResRc/Soc 235, For/Range/WLF 221, For/Range/ForPr/ResRc/WLF/Fish 302; and four of the following: ForPr 250, Range 251, For 270, WLF 290, Fish 290, ResRc 287.

ResRc 484 Resource Recreation and Tourism Policy (2 cr). Study of recreation and tourism policies used in U.S. and throughout the world; underlying philosophies, methods of evaluating them, and resulting economic, social, cultural, and environmental impacts.

ResRc 486 Public Involvement in Natural Resource Management (3 cr). Alt/yrs. Theoretical and applied concepts of public involvement in both public and private sectors of natural resource management; historical and legal mandates, government agency responsibilities, applied methods and techniques, case studies, and practical experience. Three lec and three hrs of lab a wk; field trip may be reqd.

ResRc 487 Introduction to Field Environmental Education (2 cr). Alt/yrs. Concept and techniques of environmental education with emphasis on application at camps, parks, and similar recreation and tourism informal settings.

ResRc 488 Interpretive Methods Lab (3 cr). Development and application of interpretive materials and techniques; concentration on equipment and methods commonly used by natural resource agencies for communicating management programs and interpreting natural environments to visitors. One 3-day field trip. Prereq: ResRc 387 or perm.

ResRc 489 Personalities and Philosophies in Conservation (2 cr). Same as WLF 489. Lives and thinking of people who have significantly influenced conservation practice or issues surrounding it.

ResRc 490 Wilderness Management (3 cr). Alt/yrs. Historical and legal aspects of the wilderness concept; conceptual and applied approaches, considering both ecological and sociological elements; recent research.

ResRc 492 International Land Preservation Systems (3 cr). Alt/yrs. Growth and scope of international land preservation systems from early to recent times; worldwide application of concepts of national parks, nature reserves, wilderness reserves, nature sanctuaries, biosphere reserves, refuges, and other protective designations.

ResRc 494 Resource Recreation and Tourism Marketing (3 cr). Product and services marketing as applied to resource recreation and tourism; focus on identifying, segmenting, and positioning products and services for travel and recreation audiences.

ResRc 496 Monitoring Human Impacts in Wilderness (3 cr). Alt/yrs. Theoretical and applied concepts of identifying, measuring, and monitoring changes in wilderness ecosystems caused by human influences, including recreation use, management practices, and both on-site and off-site development. Field trips may be reqd.

ResRc 498 International Issues in Nature Conservation (3 cr). Examination of international conservation issues and their impact on human societies; analysis of social, cultural, economic, and political constraints to environmental problem solving.

ResRc 499 (s) Directed Study (cr arr). For the individual student; conferences, library, field, or lab work. Prereq: sr standing, GPA 2.5, and perm.

ResRc 500 Master's Research and Thesis (cr arr).

ResRc 501 (s) Seminar (cr arr). Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics. Prereq: perm.

ResRc 502 (s) Directed Study (cr arr). Prereq: perm.

ResRc 503 (s) Workshop (cr arr). Selected topics in the conservation and management of natural resources. Prereq: perm.

ResRc 504 (s) Special Topics (cr arr). Prereq: perm.

ResRc 506 Fundamentals of Research (3 cr). Research approaches, designs, and methods as applied in natural resources, leisure, and tourism professions. Prereq: basic statistics.

ResRc 583 Natural Resource Tourism (3 cr). Alt/yrs. Current methods and approaches to natural resource tourism and its social, economic, and resource impacts, organizations involved, and management styles used by travel and tourism industry.

ResRc 586 Social Ecology of Natural Resources (3 cr). Same as For 586. Social theory and methods relevant to resource management; interdisciplinary examination of specific natural resource issues such as fire management, wilderness, fisheries disputes, energy policy; emphasis on understanding social aspects of natural resources within an ecological perspective.

ResRc 587 Research Literature in Resource Recreation and Tourism (3 cr). Readings in research literature pertinent to problems, practices, and theories of recreation and tourism; evolution of literature and critical evaluation of scientific methods used.

ResRc 591 Theories of Recreation and Tourism Behavior (3 cr). Same as Soc 591. Application of social science perspectives to the analysis of recreation and tourism behavior; pertinent social science frameworks.

ResRc 595 (s) Advanced Topics in International Conservation (1-3 cr, max 3). Focused analysis of selected international nature conservation issues.

ResRc 597 (s) Practicum (cr arr). Prereq: perm.

ResRc 598 (s) Internship (cr arr). Prereq: perm.

ResRc 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

ResRc 600 Doctoral Research and Dissertation (cr arr). Prereq: admission to the doctoral program in "forestry, wildlife and range sciences" and perm of dept.

Curricular Requirements

RESOURCE RECREATION AND TOURISM (B.S.Res.Rc.)

A total of 132 credits is required for the degree. This includes the university requirements (see regulation J-3), and the course work listed below. Students must select any academic minor (including those in the Department of Resource Recreation and Tourism) or a list of at least 12 credits of electives approved in advance by the adviser to complete credit requirements. Students are also required to do an adviser-approved internship.

First and Second Years	Credits
ResRc 287 Principles of Resource Recreation & Tourism	2
ResRc 303 Wildland Recreation Field Studies	3
ResRc 310, 311 Leisure Services Research & Evaluation & Lab	4
Biol 201 Introduction to the Life Sciences	4
Biol 203 General Botany	4
Chem 103 Introduction to Chem or Chem 111 Principles of Chem	4
CommG 131 Fundamentals of Public Speaking	2
CS 100 Introduction to Computers & Programming or CS 112 Introduction to Problem Solving & Programming	3

For/Range/WLF 221 Natural Resources Ecology	3
For/ResRc/Soc 235 Society & Natural Resources	3
For 275 Aerial Photo Interpretation or LArch 385 GIS Primer or Geog 385 GIS Primer	2-3
For/Range/WLF/ResRc/Fish/ForPr 301, 302 Wildland Field Ecology I, II	3
Geol 101, 102 Physical Geology & Lab	4
Math 111 or 140 or 160 or 180	3-4
Psych 100 Introduction to Psychology	3
Rec 260 Leisure & Society	3
Soc 110 Introduction to Sociology	3
Stat 251 Principles of Statistics or 301 Probability & Statistics	3
Three of the following	6
Fish 290 Principles of Fish Biology	
For 270 Principles of Forest Ecosystem Management	
ForPr 250 Principles of Forest Products	
Range 251 Principles of Range Resource Management	
WLF 290 Principles of Wildlife Biology	
Electives or courses in minor	6

Third and Fourth Years

ResRc 385 Resource Recreation & Tourism Management	3
ResRc 386 Resource Recreation & Tourism Planning	3
ResRc 387 Environmental Interpretive Methods	3
ResRc 397 Resource Recreation & Tourism Internship	1-3
ResRc 484 Resource Recreation & Tourism Policy	2
ResRc 489 Personalities & Philosophies in Conservation	2
ResRc 494 Resource Recreation & Tourism Marketing	3
Bot 241 Systematic Botany	3
Econ 201, 202 Principles of Economics	6
Eng 313 Business Writing or Eng 317 Technical & Engr Report Writing	3
For/Range/WLF/Fish/ResRc/ForPr 470 Interdisciplinary Natural Resource Planning	3
Any course numbered 300 or above in sociology or psychology or one of the following	3
Bus 311 Introduction to Management	
Bus 321 Marketing	
Bus 324 Consumer Behavior	
Bus 327 Services/Nonprofit Marketing	
FCS 436 Theories of Child & Family Development	
FCS 440 Contemporary Family Relationships	
FCS 445 Issues in Work & Family Life	
FCS 448 Consumer Education	
FCS 460 Family as an Ecosystem	
Electives to total 132 cr for the degree	

Academic Minor Requirements

NATURAL RESOURCE COMMUNICATION MINOR

Course	Credits
Comm 121 News Writing	3
ResRc 387 Environmental Interpretive Methods	3
ResRc 486 Public Involvement in Natural Resource Management	3

OUTDOOR RECREATION LEADERSHIP MINOR

Course	Credits
ResRc 287 Principles of Resource Recreation & Tourism Management or ResRc 490 Wilderness Management	2-3
ResRc 387 Environmental Interpretive Methods	3
ResRc 397 Resource Recreation & Tourism Internship or Rec 280 Recreation Practicum	1-3
ResRc 487 Intro to Field Environmental Education or Rec 420 Experiential Education	2
Rec 125 Outdoor Leisure Pursuits	2
Rec 320 Outdoor Recreation Leadership	3
Rec 321 Wilderness Medicine & Evacuation	1
Courses selected from the following	7
Rec 220 Rock Climbing	
Rec 221 Mountaineering	
Rec 222 Cross Country Skiing	
Rec 223 Winter Camping	
Rec 224 Whitewater Rafting	
Rec 225 Kayaking	
Rec 255 Backpacking & Camping Skills	
Rec 270 Big Game Hunting Techniques & Safety	
One of the following courses	1-2
Rec 498 Practicum in Tutoring (1 cr)	
ResRc 401 Practicum in Tutoring (1-2 cr)	

TOURISM AND LEISURE ENTERPRISES MINOR

Course	Credits
Bus 321 Marketing	3
ResRc/Rec 181 Introduction to Hospitality Services Industries	3
ResRc 381/Rec 382 Hospitality Management & Organization	3
ResRc 494 Resource Recreation & Tourism Marketing	3
Rec 340 Leisure & Tourism Enterprises	3
One course selected from the following	3
ResRc 386 Resource Recreation & Tourism Planning	
ResRc 236/Rec 235 Principles of Tourism	
ResRc 397 Resource Recreation & Tourism Internship	
Rec 204/Rec 280 Special Topics/Practicum	
Rec 486 Recreation Program Planning & Marketing	

WILDERNESS AND NATURE CONSERVATION MINOR

Course	Credits
For 205, 206 Wildland Resource Conservation & Lab or (for majors) 301, 302 Wildland Ecology I, II	3-4
ResRc 489 Personalities & Philosophies in Conservation	2
ResRc 490 Wilderness Management	3
ResRc 492 International Land Preservation Systems	3
ResRc 496 Monitoring Human Impacts in Wilderness	3
ResRc 498 International Issues in Nature Conservation	3

RUSSIAN—see Department of Foreign Languages and Literatures

SOCIAL WORK—see Department of Sociology/Anthropology

Department of Sociology and Anthropology

Donald E. Tyler, Acting Dept. Head (101 Phinney Hall; 208/885-6751).

Anthropology Faculty: Roderick Sprague, Donald E. Tyler.

Criminal Justice Faculty: Donald E. Tyler.

Sociology Faculty: Eric L. Jensen, Marie L. Lassey, Robert G. Martin, Hilary N. Weaver. Adjunct Faculty: John E. Carlson, Gary E. Machlis.

Sociology and anthropology are the two social sciences that seek to understand and explain the shared behavior of people in organized groups or societies. Sociology is largely concerned with the study of western civilization as a system, particularly as regards a description of American society and how it operates today. Social work courses in the department deal with the application of social and behavioral sciences. Anthropology is concerned with the study of humanity as a part of the natural world, and of culture that developed to cope with that world. Anthropologists have dealt largely with prehistoric and primitive or simple societies and cultures in an effort to arrive at an understanding of universal cultural laws. Increasingly, anthropologists are applying basic concepts to the study of modern, complex societies.

Majors in this department take courses in both fields and are encouraged to take courses in the other social sciences (economics, cultural geography, political science, and psychology) and in the humanities (history, philosophy, and the arts) as well.

The department offers the B.A. and B.S. degrees in anthropology, criminal justice, and sociology. Sociology majors may choose a social work emphasis. Artifact collections, laboratories, and other facilities are conveniently available to anthropology majors. Graduates of the department can consider a wide range of employment possibilities, about which information can be obtained from the faculty.

While intending to embrace the fields of sociology and anthropology in their entirety, the department has major strengths in particular areas. Students are encouraged to seek these out in consultation with the faculty. This is especially important for graduate students wishing to pursue the M.A. degree, about which more information will be found in the Graduate Bulletin. Questions concerning courses and degree programs should be addressed to the department head, Archie Phinney Hall, Room 101 (208/885-6751).

Courses**ANTHROPOLOGY**

PREREQUISITE: Ordinarily three credits in lower-division courses in anthropology are required for registration in upper-division courses in this field; other exceptions by permission.

Anthr 100 Introduction to Anthropology (3 cr). Satisfies core requirement J-3-d. Basic theories, methods, and findings of human paleontology, prehistory, and culture.

Anthr 105 Study of Man (3 cr) (C) (Anthr 301). Not open for cr to majors in the Dept of Soc/Anthro or to students who have taken Anthr 100 or equiv. Nontechnical intro to anthropology. Three 1-day field trips.

Anthr 130 Introduction to Archaeology (3 cr) (C). Archaeological techniques for interpreting past lifeways from material remains; includes both prehistoric and historical archaeology.

Anthr 200 (s) **Seminar** (cr arr). Prereq: perm.

Anthr 203 (s) **Workshop** (cr arr). Prereq: perm.

Anthr 204 (s) **Special Topics** (cr arr). Prereq: perm.

Anthr 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Anthr 213 Introductory Social Theory (3 cr). See Soc 213.

Anthr 220 Peoples of the World (3 cr). Societies of Eurasia, Africa, Americas, Australia, and islands of the Pacific.

Anthr 230 World Prehistory (3 cr) (C). Prehistoric cultures of Old and New Worlds; techniques of excavation; methods of archaeological analysis.

Anthr 251 Introduction to Physical Anthropology (3 cr). Evidence for primate and human evolution; processes of racial diversification; techniques of physical anthropology; human population biology.

Anthr 261 Language and Culture (3 cr). Language as an aspect of culture; the relation of habitual thought and behavior to language. Additional projects/assignments reqd for grad cr.

Anthr 299 (s) **Directed Study** (cr arr). Prereq: perm.

Anthr 322 Racial and Ethnic Relations (3 cr). See Soc 322.

Anthr 323 Introduction to Museology (3 cr) (C). Theory and practice of science, history, and art museums. One 1-day and two 1/2-day field trips.

Anthr 324 Comparative Family Systems (3 cr). See Soc 324.

Anthr 325 Indians of Idaho (3 cr). Aboriginal American Indian societies of northwestern North America; emphasis on Idaho.

Anthr 326 Anthropology of China (3 cr). Overview of physical anthropology, archaeology, and linguistics of China with special emphasis on social anthropology of both pre- and post-liberation China.

Anthr 327 Belief Systems (3 cr) (C). Method and theory of comparative anthropological study of religion.

Anthr ID&WS329 North American Indians (3 cr) (C). WSU Anth 331. Origins, physical types, languages, and cultures of North American Indians.

Anthr 332 Ancient Civilization (3 cr). Literature, philosophy, science, and society in ancient Mesopotamia and ancient Egypt.

Anthr 400 (s) **Seminar** (cr arr). Prereq: perm.

Anthr 403 (s) **Workshop** (cr arr). Prereq: perm.

Anthr 404 (s) **Special Topics** (cr arr). Prereq: perm.

Anthr 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Anthr 409 Anthropological Field Methods (1-8 cr, max 8). Field training in archaeology and/or social anthropology.

Anthr ID&WS-J411/ID&WS-J511 Human Evolution (3 cr). Human origins in light of the fossil record and evolutionary theory. Additional projects/assignments reqd for grad cr. Prereq: Anthr 100 or perm.

Anthr ID&WS-J412/ID&WS-J512 Human Races (3 cr). Human population biology, dynamics of evolution, human ecology, and their relationship to problem of human racial variation. Additional projects/assignments reqd for grad cr. Prereq: Anthr 100 or perm.

Anthr J414/J514 Classical Social Theory (3 cr). See Soc J414/J514.

Anthr C419 Museum Administration (3 cr). Administration of the total museum program. Prereq: Anthr 323.

Anthr J420/J520 Ethnological Issues (3 cr, max 9). Theoretical debates as presented in the classical anthropological literature. Additional projects/assignments reqd for grad cr. Prereq: upper-division standing.

Anthr **ID&WS-J422/ID&WS-J522 Northwest Ethnography** (3 cr). WSU Anth 428/528. Readings in standing ethnographic literature of native peoples of Pacific Northwest. Additional projects/assignments reqd for grad cr.

Anthr **ID&WS425 Contemporary North American Indian** (3 cr). WSU Anth 320. Current state of American Indian societies.

Anthr **J428/J528 Social and Political Organization** (3 cr). Bases of social and political organization; kin based units; non-kin units; political units through primitive states. Additional projects/assignments reqd for grad cr. Prereq: upper-div standing.

Anthr **J430/J530 Introduction to Archaeological Method and Theory** (3 cr). Archaeological theory in anthropological perspective; current trends in method and theory of American archaeology. Additional projects/assignments reqd for grad cr.

Anthr **J431/ID-J531 Historical Archaeology** (3 cr). WSU Anth and Hist 545. Excavation and analysis of historic archaeological sites. Additional projects/assignments reqd for grad cr. Three 1-day field trips. Prereq: perm.

Anthr **WS435 Cultural Resource Management** (3 cr). WSU Anth 435.

Anthr **J436/J536 North American Prehistory** (3 cr). Theories, methods, and findings of prehistoric North American archaeology. Additional projects/assignments reqd for grad cr.

Anthr **441 Introduction to the Study of Language** (3 cr). Same as Eng 441.

Anthr **J443/J543 Plateau Prehistory** (3 cr). Prehistoric cultures, chronologies, and interrelationships within the interior Northwest. Additional projects/assignments reqd for grad cr.

Anthr **J449/J549 Lithic Technology** (3 cr). Manufacture and analysis of stone implements, theory of rock fracture, nonhuman productions of pseudo-artifacts. Additional projects/assignments reqd for grad cr.

Anthr **WS-J450/WS-J550 Descriptive Linguistics** (3 cr). WSU Anth 450/550.

Anthr **J451/J551 Forensic Anthropology** (3 cr). Observations and measurements of the human skeleton; variations based on age, sex, and race, and pathologies; identification of human skeletal material and other mammals. Additional projects/assignments reqd for grad cr. Three lec/lab sessions a wk. Prereq: Anthr 251.

Anthr **J462/J562 Human Issues in International Development** (3 cr). Interdisciplinary analysis of complex interaction between tradition and modernity in Third World society, and its attendant human predicament. Additional projects/assignments reqd for grad cr.

Anthr **497 (s) Practicum** (cr arr).

Anthr **498 Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Anthr **499 (s) Directed Study** (cr arr). Prereq: perm.

Anthr **500 Master's Research and Thesis** (cr arr).

Anthr **501 (s) Seminar** (cr arr). Prereq: perm.

Anthr **502 (s) Directed Study** (cr arr). Prereq: perm.

Anthr **503 (s) Workshop** (cr arr). Prereq: perm.

Anthr **504 (s) Special Topics** (cr arr). Prereq: perm.

Anthr **506 (s) Study Abroad** (cr arr). Prereq: perm of dept.

Anthr **509 Anthropological Field Methods** (1-8 cr, max 8). Individual field work in approved areas. Prereq: perm.

Anthr **ID&WS511 Human Evolution** (3 cr). See Anthr J411/J511.

Anthr **ID&WS512 Human Races** (3 cr). See Anthr J412/J512.

Anthr **514 Classical Social Theory** (3 cr). See Soc J414/J514.

Anthr **520 Ethnological Issues** (3 cr, max 9). See Anthr J420/J520.

Anthr **522 Northwest Ethnography** (3 cr). See Anthr J422/J522.

Anthr **528 Social and Political Organization** (3 cr). See Anthr J428/J528.

Anthr **WS529 Seminar in Public History** (3 cr). WSU Hist 528.

Anthr **530 Introduction to Archaeological Method and Theory** (3 cr). See Anthr J430/J530.

Anthr **ID531 Historical Archaeology** (3 cr). See Anthr J431/ID-J531.

Anthr **536 North American Prehistory** (3 cr). See Anthr J436/J536.

Anthr **543 Plateau Prehistory** (3 cr). See Anthr J443/J543.

Anthr **549 Lithic Technology** (3 cr). See Anthr J449/J549.

Anthr **WS550 Descriptive Linguistics** (3 cr). See Anthr WS-J450/WS-J550.

Anthr **551 Forensic Anthropology** (3 cr). See Anthr J451/J551.

Anthr **562 Human Issues in International Development** (3 cr). See Anthr J462/J562.

Anthr **WS573 Identification of Faunal Remains** (4 cr). WSU Anth 573.

Anthr **597 (s) Practicum** (cr arr). Prereq: perm.

Anthr **598 (s) Internship** (cr arr). Prereq: perm.

Anthr **599 (s) Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

CRIMINAL JUSTICE

CJ **ID&WS101 Introduction to Criminal Justice** (3 cr). WSU Crm J 101. Survey of criminal justice organizations and procedures including history and function of law enforcement, probation, and parole agencies.

CJ **200 (s) Seminar** (cr arr). Prereq: perm.

CJ **204 (s) Special Topics** (cr arr). Prereq: perm.

CJ **206 (s) Study Abroad** (cr arr). Prereq: perm of dept.

CJ **ID210 Criminal Investigation** (3 cr). WSU Crm J 210.

CJ **299 (s) Directed Study** (cr arr). Prereq: perm.

CJ **320 Police Community Relations** (3 cr). Prereq: CJ 101, 210.

CJ **ID&WS325 Criminal Law** (3 cr). WSU Crm J 320. Sources and purpose of criminal law, meaning of criminal responsibility, and elements of crime; taught by College of Law faculty members.

CJ **332 Corrections** (3 cr). See Soc 332.

CJ **WS330 Strategies of Crime Control** (3 cr). WSU Crm J 330.

CJ **400 (s) Seminar** (cr arr). Prereq: perm.

CJ **ID401 Administration of the Criminal Justice System** (3 cr). WSU Crm J 400. Criminal justice issues and their processes in the context of social, political, and economic environments.

CJ **402 Philosophers' and Humanists' Impact on the Criminal Justice System** (3 cr). Criminal justice theory from Plato to modern thinkers. Prereq: CJ 320.

CJ **404 (s) Special Topics** (cr arr). Prereq: perm.

CJ **WS-J405/WS-J505 Comparative Criminal Justice Systems** (3 cr). WSU Crm J 405/505.

CJ **WS420 Law of Evidence and Criminal Procedure** (3 cr). WSU Crm J 420.

CJ **WS465 Juvenile Justice and Corrections** (3 cr). WSU Crm J 465.

CJ **WS470 The Police and Society** (3 cr). WSU Crm J 470.

CJ **495 Criminal Justice Practicum** (3-6 cr, max 6). Open only to criminal justice majors and minors. Supervised field experience in local or regional professional criminal justice agencies. Graded P/F, except that 3 cr may be assigned letter grades if approved by the program director.

CJ **498 Internship in Criminal Justice** (1-6 cr, max 6). Directed internship in designated criminal justice agency or institution. Graded P/F. Prereq: perm.

CJ **499 (s) Directed Study** (cr arr). Prereq: perm.

CJ **WS505 Comparative Criminal Justice Systems** (3 cr). See CJ J405/J505.

CJ **WS530 Criminal Justice: Process and Institutions** (3 cr). WSU Crm J 530.

CJ **WS535 Planned Change in Criminal Justice** (3 cr). WSU Crm J 550.

CJ **WS540 Seminar in Criminal Justice Research Evaluation** (3 cr). WSU Crm J 540.

CJ **WS570 The Police and Society** (3 cr). WSU Crm J 570.

CJ **WS591 Seminar in Administration of Criminal Justice** (3 cr). WSU Crm J 591.

SOCIAL WORK

SW **ID&WS140 Introduction to Social Services** (3 cr) (C). WSU S W 190. Survey of the field of social welfare, contemporary social services, and the social work profession. One field trip.

SW **201 Rural Social Work** (3 cr). Exploration of special issues in human services and problems confronted by social work practitioners in a rural environment.

SW **204 (s) Special Topics** (cr arr). Prereq: perm.

SW **209 Alternatives to Violence (ATV) Training** (1-2 cr). Techniques for working with clients who have experienced domestic violence or sexual assault, including theories of learned helplessness and the cycle of violence; students registered for 2 cr will answer crisis calls and serve as advocates for clients. Graded P/F.

SW 320 Social Work with Substance Abuse and Alcoholism (3 cr). Examination of substance abuse and alcoholism including current theories, diagnosis, and social work intervention with chemically dependent people.

SW ID&WS330 Geriatric Social Work (3 cr). WSU S W 396. Overview of social work services and policies affecting older people.

SW ID340 Social Welfare Policy (3 cr). WSU S W 340. Historical analysis of social issues and policies that have led to current social welfare practices. Prereq: SW 140, Soc 110 and 230.

SW ID&WS342 Child Welfare (3 cr). WSU S W 395. Analysis of social policies affecting children; laws, programs, and services in child welfare. One field trip. Prereq: SW 140 or 340 and Psych 305 or FCS 234.

SW 345 Human Behavior in the Social Environment (3 cr). Analysis of the social systems model and how it applies to social work practice with individuals, families, groups, organizations, and communities.

SW ID355 Cross-Cultural Factors in Social Work (3 cr). WSU S W 354. Exploration of social work intervention as it applies to various cultural and ethnic groups.

SW 365 Group Social Work (3 cr). Social work processes for working with groups and dynamics of group behavior. Prereq: SW 440 or perm.

SW WS393 Community Organization (3 cr). WSU S W 393.

SW 409 Field Practicum in Social Work (6-15 cr, max 15). Supervised field training in social work methods. Prereq: perm.

SW 440 Methods of Social Work (3 cr). The profession of social work; basic knowledge, values, and skills necessary for working with individuals, families, groups, and communities. Prereq: SW 140 or perm.

SW WS495 Social Work in Corrections (3 cr). WSU S W 495.

SOCIOLOGY

PREREQUISITE: Ordinarily three credits in lower-division courses in sociology are required for registration in upper-division courses in this field; exceptions by permission.

Soc 110 Introduction to Sociology (3 cr) (C). Satisfies core requirement J-3-d. Basic theories, concepts, and processes involved in scientific study of society; includes socialization process, social inequality, the family, religion, deviance, population, the environment, and social change.

Soc 200 (s) **Seminar** (cr arr). Prereq: perm.

Soc 203 (s) **Workshop** (cr arr). Prereq: perm.

Soc 204 (s) **Special Topics** (cr arr). Prereq: perm.

Soc 206 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Soc 213 Introductory Social Theory (3 cr). Same as Anthr 213. Elements of scientific explanation and structure of theory in social science; theoretical schools in sociology and anthropology; use of midrange theory in practical research.

Soc 220 Marriage and the Family (3 cr). Intro to basic components and principles of marriage and the family including status of these institutions in American life.

Soc 230 Social Problems (3 cr) (C). Contemporary social issues and personal deviations; crime and delinquency, poverty and wealth, drugs, sexual variations, racism, sexism, and the environment.

Soc 235 Society and Natural Resources (3 cr). See For 235.

Soc 250 Personal Identity and Social Interaction (3 cr). Interpersonal influence in the development of personal identity; analysis of the process by which individuals acquire a coherent sense of membership in primary and secondary groups and a sense of purpose and direction in life.

Soc 299 (s) **Directed Study** (cr arr). Prereq: perm.

Soc 310 Rural Sociology (3 cr) (C). Exploration of contemporary issues and trends as they relate to rural America; includes interaction of sociological, economic, and demographic factors with environmental issues. Two 1-day field trips.

Soc 311 Urban Sociology (3 cr). Population, spatial, social patterns characteristic of urban communities. One 1-day field trip.

Soc 312 Sociology of Organizations (3 cr). Analysis of positions, roles, norms, and authority structures in organizations.

Soc 313 Collective Behavior (3 cr) (C). Analysis of such episodes of behavior as riots, demonstrations, panics, hysteria, as well as interaction of sociological, political, and communication processes involved in public acceptance of fashion, fads, and ideology in a mass society.

Soc 320 Sociology of Substance Abuse (3 cr). Sociological-psychological analysis of etiology, epidemiology, prevention, and treatment of substance abuse in U.S.; major focus on family issues (including marital relationships, co-dependency) and lifestyle changes; dynamics of social change, subcultures, and symbolic functions attached to drug abuse; issues related to gender, occupational functioning, AIDS, and other topics.

Soc 321 The Community (3 cr). Origins, types, patterns, and processes of the community. Two 1-day field trips.

Soc 322 Racial and Ethnic Relations (3 cr). Same as Anthr 322. Theories of race relations, historical and contemporary experiences of minority groups in U.S.

Soc 323 Social Stratification (3 cr). Major dimensions of status and power in modern society with emphasis on the American social class structure.

Soc 324 Comparative Family Systems (3 cr). Same as Anthr 324. Cultural and evolutionary basis of family institutions utilizing current comparative research and theory.

Soc 330 Juvenile Delinquency (3 cr) (C). Extent, causes, and control of juvenile delinquent behavior.

Soc 331 Criminology (3 cr). Extent, criminal patterns, causes, correctional institutions, alternatives to incarceration. One 1-day field trip.

Soc 332 Corrections (3 cr). Same as CJ 332. History, facilities, processes, and strategies for correction and punishment of offenders; analysis of concepts of prevention and control of crime.

Soc 360 Population Dynamics and Distribution (3 cr). See Geog 360.

Soc 400 (s) **Seminar** (cr arr). Prereq: perm.

Soc 403 (s) **Workshop** (cr arr). Prereq: perm.

Soc 404 (s) **Special Topics** (cr arr). Prereq: perm.

Soc 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

Soc 409 Field Methods in Sociology (3-15 cr, max 15). Supervised field training in sociological research methods. Prereq: perm.

Soc 410 Introduction to Social Research (3 cr). Principal methods of data collection, analysis, and interpretation. Prereq: Stat 251 or comparable introductory statistics.

Soc 412 Society and Personality (3 cr). Development of self concept from social interaction; how perception, learning, thinking, motivation, and attitude formation relate to social structure. Prereq: upper-division status and Soc 110 or equivalent.

Soc J414/J514 Classical Social Theory (3 cr). Same as Anthr J414/J514. Modern sociological and anthropological theory primarily from a conceptual and systemic perspective; includes functionalism, symbolic interactionism, structuralism, exchange conflict, and sociobiological theories. Additional projects/assignments reqd for grad cr.

Soc J430/J530 Deviance (3 cr). Analysis and critique of theories of deviant behavior as applied to delinquency, prostitution, chemical dependencies, mental disorders, etc. Additional projects/assignments reqd for grad cr. Prereq: Soc 330 or 331 or perm.

Soc 431 Personal and Social Issues in Aging (3 cr). Social, psychological, and physical impacts of aging on the individual and on society.

Soc 432 Juvenile Corrections (3 cr). Seminar dealing with issues in juvenile corrections, incl deinstitutionalization, diversion, and community based programs. Two field trips. Prereq: Soc 330 or 331 and/or perm.

Soc J433/J533 History of Indian-White Relations (3 cr). See Hist J431/J531.

Soc 434 Family Violence (3 cr). Explanations, patterns, and treatment of spouse abuse, child abuse, sexual exploitation of family members, and elder abuse.

Soc 443 Medical Sociology (3 cr). Social and organizational characteristics and dynamics of health care system; social roles, social status, and interpersonal relationships of patients and various health care professionals incl physicians and nurses.

Soc 453 Sociology of Mental Health (3 cr). Analysis of social psychological and cultural factors related to mental health and mental disorders; patterns of response by individuals and groups to mental illness.

Soc 463 Issues in International Health Care (3 cr). An international comparison of health care systems in western industrialized countries including Canada, United Kingdom, Germany, France, Sweden, and Japan; interdisciplinary analysis of health care systems in each country focusing on basic similarities and differences including physician roles, organizational structure, cost and utilization of medical services.

Soc J491/J591 Theories of Recreation Behavior (2-3 cr). Same as ResRc 591. Application of social science perspectives to the analysis of recreation behavior in wildland environments; pertinent social and social-psychological frameworks. Additional projects/assignments reqd for grad cr.

Soc 495 Internship (1-6 cr, max 6). Supervised professional field experience in human service organizations. Graded P/F. Prereq: perm.

Soc 498 Practicum in Tutoring (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

Soc 499 (s) **Directed Study** (cr arr). Intended to accommodate a wide variety of sociological topics. Prereq: perm.

Soc 501 (s) **Seminar** (cr arr). Subjects normally offered: sociological research, social problems, and social theory. Prereq: perm.

Soc 502 (s) **Directed Study** (cr arr). Subjects normally offered: sociological theory, human ecology, and race relations. Prereq: perm.

- Soc 504 (s) **Special Topics** (cr arr). Prereq: perm.
- Soc 507 (s) **Research Methodology** (3 cr). See AgEc 507.
- Soc 512 **Sociology of Organizations** (3 cr, max 9). Sociological analysis of bureaucracies and other organizations; topics include authority, communication, informal networks, leadership, legitimacy, medical, and rural.
- Soc 514 **Classical Social Theory** (3 cr). See Soc J414/J514.
- Soc 530 **Deviance** (3 cr). See Soc J430/J530.
- Soc 531 **Aging and Retirement** (3 cr). Analysis of social-psychological theories of aging, retirement, and leisure.
- Soc 533 **History of Indian-White Relations** (3 cr). See Hist J431/J531.
- Soc 591 **Theories of Recreation Behavior** (2-3 cr). See Soc J491/J591.

Curricular Requirements

ANTHROPOLOGY (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and:

Course	Credits
Anthr 100 Introduction to Anthropology	3
Anthr 213 Introductory Social Theory	3
Anthr 220 Peoples of the World	3
Anthr 230 World Prehistory	3
Anthr 251 Introduction to Physical Anthropology	3
Anthr 414 Classical Social Theory	3
Anthr 420 Ethnological Issues	3
Anthr 428 Social & Political Organization	3
Anthr 441 Introduction to Study of Language	3
Soc 110 Introduction to Sociology	3
Soc 410 Introduction to Social Research	3
Stat 251 Principles of Statistics	3
Anthropology electives (upper-division)	9
Related fields as approved by the department	15

CRIMINAL JUSTICE (B.S.)

Note: Criminal justice majors must obtain a minimum GPA of 2.50 before they are allowed to take upper-division CJ courses.

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.S. degree, and:

Course	Credits
CJ 101 Introduction to Criminal Justice	3
CJ 210 Criminal Investigation	3
CJ 320 Police Community Relations or 470 Police & Society	3
CJ 325 Criminal Law	3
CJ 332 Corrections	3
CJ 401 Administration of the Criminal Justice System	3
CJ 402 Philosophers' & Humanists' Impact on CJ System	3
CJ 495 Criminal Justice Practicum	3-6
Eng 205 Advanced Expository Writing	3
PolSc 101 Introduction to American Politics	3

Soc 434 Family Violence	
SW 140 Introduction to Social Services	

SOCIOLOGY (B.A.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.A. degree, and the following courses (electives must be approved by the student's adviser):

Course	Credits
Soc 110 Introduction to Sociology	3
Soc 213 Introductory Social Theory	3
Soc 230 Social Problems	3
Soc 410 Introduction to Social Research	3
Soc 412 Society & Personality	3
Soc 414 Classical Social Theory	3
Anthr 100 Introduction to Anthropology	3
Stat 251 Prin of Statistics or 150 Intro to Statistics	3
Sociology electives (upper-division)	21
Related fields (the more common areas incl anthro, econ, geog, hist, political sc, and psych)	18

SOCIAL WORK EMPHASIS

UI offers an emphasis (not a degree) in social work. Sociology majors with an interest in social work may choose this emphasis, which is designed to prepare students for either a career in social services at the B.A./B.S. entry level or for graduate professional schools of social work. This emphasis meets the course requirements of the Idaho State Board of Social Work Examiners for licensing application. Nonmajors may also take social work courses after prerequisites have been met.

Course	Credits
SW 140 Introduction to Social Services	3
SW 340 Social Welfare Policy	3
SW 345 Human Behavior in the Social Environment	3
SW 409 Field Practicum in Social Work	6-15
SW 440 Methods of Social Work	3
Anthr 100 Introduction to Anthropology	3
Psych 305 Developmental Psychology	3
Psych 310 Psychology of Personality	3
Psych 311 Abnormal Psychology	3
Soc 110 Introduction to Sociology	3
Soc 230 Social Problems	3
Soc 410 Introduction to Social Research	3
Soc 414 Classical Social Theory	3
Stat 251 Prin of Statistics or 150 Intro to Statistics	3
Social work and sociology electives	15
Related fields	6

SOCIOLOGY (B.S.)

Required course work includes the university requirements (see regulation J-3), the general requirements for the B.S. degree, and the following courses (electives must be approved by the student's adviser):

Course	Credits
All requirements listed for the B.A. in sociology or social work emphasis	60-72
Math electives (excluding Math 135-136)	3-4
Two courses from the following	6
Bact 154 Principles of Microbiology	
Biol 100 Introduction to Biology	
Biol 150 Heredity & Man	
Biol 201 Introduction to the Life Sciences	
Biol 351 General Genetics	
CS 100 Introduction to Computers & Programming	
Phil 412 Philosophy of Science	
Stat 401 Statistical Analysis (or advanced statistics course)	
Zool 119 Human Anatomy & Physiology	

Academic Minor Requirements

ANTHROPOLOGY MINOR

Course	Credits
Anthr 100 Introduction to Anthropology	3
Two courses from the following	6
Anthr 220 Peoples of the World	
Anthr 230 World Prehistory	
Anthr 251 Introduction to Physical Anthropology	
Three upper-division anthro courses, incl at least one 400-level course	9

CRIMINAL JUSTICE MINOR

Course	Credits
CJ 101 Introduction to Criminal Justice	3
CJ 210 Criminal Investigation	3
CJ 320 Police Community Relations	3
CJ 325 Criminal Law	3
Soc 330 Juvenile Delinquency or 331 Criminology	3
One or more of the following to total at least 18 cr for the minor:	
CJ 401 Administration of the Criminal Justice System	
CJ 402 Philosophers' & Humanists' Impact on CJ System	
PolSc 468 Civil Liberties	
PolSc 469 Judicial Process	
Soc 313 Collective Behavior	
Soc/ResRc 235 Society & Natural Resources	

SOCIOLOGY MINOR

Course	Credits
Soc 110 Introduction to Sociology	3
Soc 230 Social Problems or SW 140 Intro to Social Services	3
Soc 410 Introduction to Social Research or research methods course acceptable to student's major field	3
Sociology electives (9 cr must be in upper-division courses)	12

SOCIAL WORK MINOR

This minor is designed to fulfill the minimum requirements in social work courses (21 credits) to qualify for application for social work licensure in the state of Idaho. Other related courses in human behavior and the social environment are also required for licensure.

Course	Credits
SW 140 Introduction to Social Services	3
SW 340 Social Welfare Policy	3
SW 345 Human Behavior in the Social Environment	3
SW 409 Field Practicum in Social Work	6
SW 440 Methods of Social Work	3
Soc 110 Introduction to Sociology or 230 Social Problems	3
Soc 410 Introduction to Social Research (or equivalent)	3
Social work and soc electives to total at least 21 cr for the degree	—

Division of Teacher Education

Ricardo L. Garcia, Div. Director (404-B Educ. Bldg.; 208/885-6586). Faculty: Terry R. Armstrong, Thomas O. Bell, George F. Canney, Jack L. Dawson, Judith Doerrann, Sid Eder, Ricardo L. Garcia, Karen P. Guilfoyle, Georgia Johnson, Gwendolyn N. Kelly, Joseph T. Kelly, Elinor L. Michel, Jack K. Nelson, Melvin J. Pedras, Richard Pollard, Elizabeth Popiel, Florence A. White.

The Division of Teacher Education offers programs in elementary and secondary education and library science at the undergraduate level.

Effective schools require teachers at the elementary and secondary levels who are reflective practitioners who can adapt instruction to the educational and cultural background, motivation and individual capabilities and needs of students. The preparation of a teacher involves substantial knowledge of instructional content and general instructional strategies, as well as special methods for teaching specific content or students with special needs.

The division provides the professional and foundational courses that meet the general requirements for initial certification in elementary and secondary teaching. Specialized course work and field experience leading to certification in elementary education and secondary education are also provided.

The undergraduate program in elementary education prepares teachers for elementary schools by providing theory and practice in instructional strategies and the acquisition of teaching competencies in reading and language arts, mathematics, science, social studies, art, and music. Professional preparation also emphasizes the study of the child and an understanding of historical, philosophical, and psychological foundations of teaching and learning. Specializations in early childhood education and special education are available within the B.S.Ed. degree program in elementary education.

The undergraduate program in secondary education prepares teachers for secondary schools by providing theory and practice in instructional strategies and the acquisition of teaching competencies in the following subjects as currently taught in secondary schools: English, social studies, sciences, mathematics, art, and foreign languages. Students also complete teaching majors or minors in the subject area(s) in which teaching certification is desired. A student in

secondary education may earn either a B.S.Ed. degree through the College of Education or, alternatively, a B.A. or B.S. degree through the department and college administering the academic major.

Professional education course work is conducted in the Education Building and in the public schools. The Education Building houses preschool and kindergarten classrooms; specialized facilities for microteaching; laboratories for special methods courses in mathematics, art, social science, and natural sciences; and the Instructional Materials Center, which contains a comprehensive curriculum library as well as children's literature and special education materials.

The division provides advanced professional and foundational courses that support graduate programs in the College of Education. Advanced programs in the Division of Teacher Education are (a) the Advanced Certification (planned fifth year) programs; (b) master's degree programs (either Master of Education or Master of Science) in elementary education and secondary education, which result in an Advanced Elementary or Secondary Certificate; (c) specialist degree programs in education, with emphases in elementary education, secondary education, and supervision and instructional leadership; and (d) doctoral degree programs (either Doctor of Education or Doctor of Philosophy) with emphases in elementary education, secondary education, and supervision and instructional leadership.

Courses

RELATED AREAS: For other offerings in the field of education, see: agricultural education, art, business education, counseling, educational administration, family and consumer sciences, music, physical education, special education, and vocational teacher education.

EDUCATION

PREREQUISITE: For registration in upper-division courses in education, students must have been admitted to the teacher-education program and have a GPA of 2.50, unless a higher average is stated as a prerequisite in the course description.

Ed 200 (s) **Seminar** (cr arr). Prereq: perm.

Ed 201 **Introduction to Teaching** (2 cr). Interpersonal communication, human relations including multicultural concerns, discipline, classroom evaluation techniques, and use of technology. A 30-hr off-campus clinical experience in a K-12 classroom is required. Prereq: sophomore standing.

Ed 202 **Introduction to Teaching Laboratory** (1 cr). Intro to the "world of teaching" through classroom observation and participation. Graded P/F. Two hrs of lab a wk. Prereq: sophomore standing; prereq or coreq: Ed 201.

Ed 203 (s) **Workshop** (cr arr). Prereq: perm.

Ed 204 (s) **Special Topics** (cr arr). Prereq: perm.

Ed 273 **International Education Scene** (1-9 cr, max 9). Also offered as Ed 473. Study-tour conducted by a UI faculty member to observe selected education systems and procedures in foreign countries. One cr a wk.

Ed 299 (s) **Directed Study** (cr arr). Graded P/F. Prereq: perm.

Ed C302 **The Child and Society** (3 cr). Child in the social milieu; family, social group, community, school; social pressures and conditioning upon the child and the education process.

Ed 312 **Educational Psychology** (2 cr). Processes of human growth, development, and learning, and the practical application of this knowledge to teaching. Prereq: Psych 100.

Ed 313 **Educational Measurement** (1 cr). Application of standardized testing, measures of central tendency, variability and correlation in educational research. Three lec a wk. Coreq: Ed 312 or perm.

Ed 314 **Strategies for Teaching** (2-3 cr). Problems and methods of teaching common to all subject and grade levels. Two lec and two hrs of microteaching lab a wk.

Ed 326 **Elementary School Mathematics Education** (3 cr). Specific methods, research, curricula, and media in teaching elementary-school mathematics. Prereq: Math 135 and 136.

Ed 328 (s) **Audiovisual Aids** (1-3 cr, max 3). Prin and methods of AV instruction. Areas of instruction include equipment operation, display techniques, television, photography, and microcomputers for the teacher.

Ed 334 **Children's Literature** (3 cr) (C). For each grade level; story plays, dramatizations, effective reading and telling children's stories, and their place in elementary school.

Ed 336 **Introduction to Reading** (3 cr). Basic principles and techniques for teaching reading in the elementary school; emphasis on content, methods, and materials.

Ed **J340/J563 Methods of Teaching Content Reading** (3 cr). Strategies to extend reading skills in content-area textbooks and to extend writing skills related to paragraphing and essay tests in content classes. Additional projects/assignments reqd for grad cr. Prereq: Ed 314 (or dept equiv) or perm.

Ed **375 Elementary School Art Methods** (3 cr). Techniques, materials, and processes used in teaching elementary art; relationship of art to the elementary curricula.

Ed **381 Elementary School Music Methods I** (3 cr). See MusT 381.

Ed **400** (s) **Seminar** (cr arr). Prereq: perm.

Ed **402 Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm of dept.

Ed **403** (s) **Workshop** (cr arr). Prereq: perm.

Ed **404** (s) **Special Topics** (cr arr). Prereq: perm.

Ed **J405/J505** (s) **Professional Development** (cr arr). Professional development and enrichment of certificated school personnel. Cr earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/assignments reqd for grad cr.

Ed **406 Elementary School Team Teaching** (3 cr). Philosophy; organization; trends in building construction for team teaching; curriculum materials; role of teacher, pupils, and auxiliary personnel.

Ed **411 The Junior High School** (3 cr). Principles, organization, administration, and methods of instruction.

Ed **J416/J516** (s) **College Teaching** (1-2 cr, max 2). Techniques for effective teaching at college level. Additional projects/assignments reqd for grad cr.

Ed **418 Identifying and Correcting Mathematics Deficiencies** (3 cr). Study of teaching arithmetic including appropriate diagnostic-prescriptive strategies for correcting arithmetic deficiencies; microcomputers and calculators as instructional tools; consumer mathematics as an area of application.

Ed **419 Microcomputers in Mathematics Teaching** (1-2 cr). Review of software appropriate for teaching mathematics. Prereq: perm; coreq: mathematics methods course (unless offered independently to cover specific topics or programs).

Ed **420 Elementary School Language Arts Methods** (3 cr). Strategies for teaching oral language, listening, and composition; all topics dealing with language except reading and literature; includes clinical experience in K-6 classroom. Prereq: Ed 314, 334, 336 or perm.

Ed **421 Elementary School Social Studies Methods** (2-3 cr). Specific methods, research, curricula, and media in teaching elementary-school social studies.

Ed **J422/J522 Early Childhood and Kindergarten Education** (3 cr). Historical development, theoretical and practical applications in early childhood and kindergarten education. Additional projects/assignments reqd for grad cr. Two lec and 3-6 hrs of lab a wk.

Ed **426 Organization and Administration of School Media Centers** (3 cr). Standards for media program, physical facilities, staffing, budget, media services, and in-service program.

Ed **430 Practicum: Elementary School Teaching** (7 or 14 cr). Only double program participants enroll for 7 cr. Supervised teaching in elementary schools. Graded P/F. Prereq: Ed 312, 313, 314, 326, 334, 336, 420, admission to teacher education, cumulative GPA of 2.50, and perm of dept; coreq: Ed 445. (Submit application to director of clinical experiences in teacher education by December 1 of school yr before enrolling.)

Ed **431 Practicum: Secondary School Teaching** (7 or 14 cr). Only double program participants enroll for 7 cr. Supervised teaching in secondary schools. Graded P/F. Prereq: Ed 312, 313, 314, 340, admission to teacher education, cumulative GPA of 2.50, and perm of dept; coreq: Ed 445. (Submit application to director of clinical experiences in teacher education by December 1 of school yr before enrolling.)

Ed **435 Practicum: Elementary School Teaching (Special)** (3 cr). For secondary education students majoring in art or physical education who wish to qualify for Idaho endorsement to teach these subjects at the elementary level. Graded P/F. Prereq: special methods in the subject area and cumulative GPA of 2.50. (Submit application to director of clinical experiences in teacher education by December 1 of school yr before enrolling.)

Ed **436 Reading: Alternatives to Basals** (3 cr). Introduction to socio-psycholinguistic view of reading; social context of literacy development; organizing, implementing, and evaluating classroom practices that support literate communities; accommodating diversity in literacy learning; includes clinical experience in K-6 classrooms. Prereq: Ed 334 and 336.

Ed **438 Elementary School Mathematics Lab** (3 cr). Construction and solution of problems based on experiments that may be easily performed in elementary schools.

Ed **439 Comparative Education** (3 cr). Education systems in relation to the cultural backgrounds that give rise to them.

Ed **443 Teaching of Geography** (3 cr). Trends, methods, AV materials, planning the program, specialized skills and forces contributing to change in geographic education.

Ed **444 Elementary School Science Methods** (2-3 cr). Specific methods, research, curricula and media in teaching elementary-school science.

Ed **445 Proseminar in Teaching** (3 cr). Orientation to practicum, career placement, and entry-level teaching. Coreq: enrollment in senior practicum.

Ed **448 Production and Use of Media in Education** (3 cr). Production, use, and organization of media in the student's field of interest. Prereq: experience in teaching.

Ed **468 Historical and Philosophical Foundations of Education** (3 cr). Events, leaders, ideas, and movements underlying development of education.

Ed **473 International Education Scene** (1-9 cr, max 9). See Ed 273.

Ed **474 Secondary School Foreign Language Methods** (2 cr). Alt/ysr. Specific methods, research, curricula, and media in teaching secondary school foreign language. Prereq: Ed 312, 313, 314, 340, or perm.

Ed **475 Secondary School English Methods** (3 cr). Specific methods, research, curricula, and media in teaching secondary school English. Enrollment limited to 18 per section. Prereq: Ed 312, 313, 314, 340, Eng 401, 441.

Ed **476 Secondary School Social Studies Methods** (2 cr). Specific methods, research, curricula, and media in teaching secondary school social studies. Prereq: Ed 312, 313, 314, 340, or perm.

Ed **477 Secondary School Science Methods** (2 cr). Specific methods, research, curricula, and media in teaching secondary school science. Prereq: Ed 312, 313, 314, 340, or perm.

Ed **478 Secondary School Mathematics Methods** (2 cr). Specific methods, research, curricula, and media in teaching secondary school mathematics. Prereq: Ed 312, 313, 314, 340, or perm.

Ed **479 Secondary School Art Methods** (2 cr). Alt/ysr. Specific methods, research, curricula, and media in teaching secondary-school art. Prereq: Ed 340 or perm.

Ed **499** (s) **Directed Study** (cr arr). Graded P/F. Prereq: perm.

Ed **500 Master's Research and Thesis** (cr arr).

Ed **501** (s) **Seminar** (cr arr). Prereq: perm.

Ed **502** (s) **Directed Study** (cr arr). Prereq: perm.

Ed **503** (s) **Workshop** (cr arr). Prereq: perm.

Ed **504** (s) **Special Topics** (cr arr). Prereq: perm.

Ed **505** (s) **Professional Development** (cr arr). See Ed J405/J505.

Ed **507 Supervision of Instruction** (3 cr). Preparation of supervisors to aid teachers in the improvement of instruction.

Ed **510 Philosophy of Education** (3 cr). Analysis of educational objectives, concepts, and theories.

Ed **511 Planning and Administering the Curriculum** (3 cr). Processes of systematic curriculum development, decision-making roles, processes in curriculum planning, supporting administrative patterns and instructional arrangements; trends, issues, strategies in subject-matter fields.

Ed **512 Program Development and Evaluation** (3 cr). Types of instructional systems, systematic educational program development; evaluation methods, issues in measurement and evaluation design.

Ed **513 History of Educational Thought** (3 cr). Writings that have influenced educational theory and practice.

Ed **514 The Logic of Teaching** (3 cr). Different kinds of statements (e.g., synthetic, analytic, and value) and different logical operations (e.g., defining, describing, evaluating, and justifying, comparing and contrasting, conditional inferring and explaining), particularly as these occur in classroom situations in a teaching context.

Ed **515 Logic of New Media** (3 cr). Technological development in education; advanced forms that influence learning, teaching, and curriculum content and organization.

Ed **516** (s) **College Teaching** (1-2 cr, max 2). See Ed J416/J516.

Ed **517 Advanced Elementary School Mathematics Education** (3 cr). Recently developed methods and materials in elementary school mathematics. Prereq: qualified for a standard elementary certificate.

Ed **520 Elementary School Science and Social Studies** (3 cr). Methods and techniques; foundations of the unit as a means of instruction. Prereq: qualified for a standard elementary certificate.

Ed **521 Advanced Language Arts** (3 cr). Current research in instruction of the language arts, the reading/writing/listening/speaking connection, and teaching/learning; integrated language arts curriculum; assessment/evaluation strategies. Prereq: Ed 420 or equiv or perm.

Ed **522 Early Childhood and Kindergarten Education** (3 cr). See Ed J422/J522.

Ed **523 Creative Arts and Creative Teaching** (3 cr). Creativity in children; art, music, socio-drama-creative writing. Prereq: qualified for a standard elementary certificate.

Ed **524 Models of Teaching** (3 cr). Examination of information processing, social interaction, personal, and behavioral models of teaching; emphasis on practical implementation of these models in teaching situations.

Ed 525 **Problems in Secondary Social Studies** (3 cr). Recent research and interpretation in social studies content, methods, and materials.

Ed 526 **Advanced Educational Psychology** (3 cr). Selected psychological theories and their application to instruction, classroom management, reading, testing, and related educational research.

Ed 527 **Instructional Theory into Practice** (3 cr). Applications of instructional theory to the areas: teaching to an objective; diagnostic and prescriptive teaching; teaching to enhance motivation; reinforcement, transfer, retention, and rate and degree of learning; enhancement of pupil self-concept; and critical decisions underlying such techniques.

Ed 530 **Educational Law** (3 cr). Statutory and case materials; principles applied to all states.

Ed 531 **Elementary School Mathematics Education Research** (3 cr). Classic and contemporary research; experimental studies; rationale for position of specialist; objectives; coordination of services. Prereq: perm.

Ed 538 **Student Teaching Supervision** (3 cr). Nature and scope of student teaching; role of cooperating agencies; role of participants; techniques; planning; evaluation.

Ed 551 **Children's Literature and the Curriculum** (3 cr). How all phases of literature fit into and become a part of the curriculum; developing various areas of the curriculum based on literature; evaluation of literature, authors, and illustrators.

Ed ID&WS558 **Writing Institute: NW Inland Writing Project** (6 cr). Theory, research, and practice of kindergarten through college writing instruction including prewriting, drafting, revising, editing, publishing, grammar, mechanics, writing across the curriculum, error analysis, writing to learn; focus on writing for a variety of audiences and purposes (transactional, poetic, expressive); develops participant's own writing ability and ability to present in-service workshops for school districts. Four lec and four hrs of lab a wk. Prereq: Eng 401 or Ed 420 or equiv or perm.

Ed 561 **Issues in Literacy** (3 cr). Current issues in literacy and their impact on classroom instructional practice.

Ed 562 **Advanced Reading Techniques** (3 cr). Consideration of the research basis for current instructional practices in reading and development of more effective techniques for teaching reading. Prereq: Ed 336 or perm.

Ed 563 **Methods of Teaching Content Reading** (3 cr). See Ed J340/J563.

Ed 564 **Advanced Children's Literature** (3 cr). Contemporary issues in children's literature; theoretical and research bases for current practice; reading children's literature; advanced study of genres, resources, and strategies for using children's books to better understand our multi-cultural society. Prereq: Ed 334 or equiv, or perm.

Ed 565 **Psycholinguistics and Reading** (3 cr). Examining reading as a socio-psycholinguistic process; analyzing this process using miscue analysis; exploring ways to relate theory to practice. Prereq: Ed 336, 436 or equiv or perm.

Ed 566 **Corrective Reading** (3 cr). Nature, causes, and diagnosis of moderate reading difficulties; translation of diagnostic information into instructional practice. Prereq: Ed 336, 562, or equivalent.

Ed 567 **Clinical Practicum in Reading** (3 cr). Exercise of diagnostic procedures and individual instructional techniques with small groups of children who have moderate reading difficulties. Prereq: Ed 566.

Ed 568 **Seminar: Research in Reading** (3 cr). Examination of significant research problems in reading and the procedures used to study such problems. Prereq: doctoral standing or perm.

Ed 569 **Teaching of Reading Methods** (3 cr). Examination of content, instructional methodologies, and evaluation techniques employed in teacher education in reading. Prereq: doctoral standing or perm.

Ed 572 **Measurement and Evaluation** (3 cr). Improvement of testing, examination, and evaluation in schools; practice in making, giving, scoring, and interpreting tests; use of results in counseling.

Ed 581 **Systematic and Objective Analysis of Instruction** (4 cr). Supervision as a change process and analysis of supervisory cycle; application of supervisory cycle in K-12 classroom situations; designed to improve individual skill in analysis of instruction and to relate theory to practice. Graded P/F. Preregistration reqd; enrollment limited to 14 per section.

Ed 582 **Introduction to Research Methods** (3 cr) (Ed 560). Overview of research techniques including experimental, descriptive, analytical, single subject, and qualitative research; special emphasis on reading and understanding, interpreting and critically evaluating research articles; basic principles in planning, analyzing, and writing quantitative research studies. Prereq: graduate standing.

Ed 585 **Computer Systems for Educational Research** (3 cr). Educational applications of microcomputer and mainframe data analysis. Two lec and 2 hrs of lab a wk.

Ed 586 **Advanced Planning and Design of Quantitative Educational Research** (3 cr). Planning, analyzing, writing, and evaluating research studies appropriate for the dissertation; formulation of conceptual framework relative to analytical process; research designs and control of variables, and interpretation of data; preparation of research presentations and writing for publication. Prereq: Ed 582, Ed 585, Stat 401, or equiv.

Ed 590 **History of Education** (3 cr). Development and influence of educational ideals and practices.

Ed 597 (s) **Practicum** (cr arr). Graded P/F. Prereq: perm.

Ed 598 (s) **Internship** (cr arr). Currently offered in public school teaching and college teaching. Graded P/F. Prereq: perm.

Ed 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Ed 600 **Doctoral Research and Dissertation** (cr arr).

LIBRARY SCIENCE

LibSc 299 (s) **Directed Study** (cr arr). Prereq: perm.

LibSc 400 (s) **Seminar** (cr arr). Prereq: perm.

LibSc 404 (s) **Special Topics** (cr arr). Prereq: perm.

LibSc C419 **Computer Applications in Libraries** (3 cr). Trends and developments in library automation; practical applications of microcomputers to library work and administration. Note: This is an academic course intended to teach fundamental terms and concepts. It is not a course on automating a library.

LibSc C420 **Classification and Cataloging** (4 cr). Organization of library materials, principles of cataloging, subject analysis, classification, bibliographic methods, Dewey decimal system.

LibSc C421 **Acquisitions and Collection Development in Libraries** (3 cr). Evaluation and selection of books and other materials for libraries; analysis of community library needs and interests.

LibSc C422 **Use of the School Library** (2 cr). Methods of interesting students in the library and using it to best advantage.

LibSc C423 **Introduction to Reference Work** (3 cr). Reference books in school and public libraries; selecting reference collections.

LibSc C425 **Organization and Management of Small Libraries** (4 cr). Organization and management of school libraries.

LibSc C427 **Library and Media Center Practicum** (1-3 cr). Experience in a library or other information center under professional supervision. Ninety hours of supervised experience per credit. Prereq: 6 cr in library and information science and perm.

LibSc 499 (s) **Directed Study** (cr arr). Prereq: perm.

Curricular Requirements

ELEMENTARY EDUCATION (B.S.Ed.)

Required course work includes the university requirements (see regulation J-3), the general requirements for students preparing to teach at the elementary level (see College of Education section in part 4), and:

Course	Credits
Ed 326 Elementary School Mathematics Ed.....	3
Ed 334 Children's Literature.....	3
Ed 336 Introduction to Reading.....	3
Ed 375 Elementary School Art Methods.....	3
Ed 420 Elementary School Language Arts Methods.....	3
Ed 421 Elementary School Social Studies Methods.....	2
Ed 436 Reading: Alternatives to Basals.....	3
Ed 444 Elementary School Science Methods.....	2
Dan 220 Children's Dance or ThA 381 Drama in Education.....	2-3
MusT 381 (Ed 381) Elementary School Music Methods I.....	3
PE 250 Elementary Physical & Health Education.....	3

And completion of one of the following options:

- One 20-credit, single-subject or composite area of concentration and one 15-credit, single-subject area of concentration.
- One 30-credit, single-subject area of concentration. Grade point average of 2.5 required in the area.
- One 40-credit composite area of concentration. Grade point average of 2.5 required in the area.

SECONDARY EDUCATION (B.S.Ed.)

Required course work includes the university requirements (see regulation J-3), the general requirements for students preparing to teach at the secondary level (see College of Education section in part 4), one course in special methods applicable to secondary schools (Ed 474, 475, 476, 477, 478, 479, H&S 323, or another approved special methods course), Methods of Teaching Content Reading (Ed 340), and the satisfactory completion of one of the following options selected from the list headed "Teaching Majors and Minors" in the College of Education section, part 4:

- Two 30-credit teaching majors.
- One 40-credit teaching major and one 20-credit teaching minor.
- One 30-credit teaching major and two 20-credit teaching minors.
- One 60-credit teaching major.

Department of Theatre Arts

Bruce C. Brockman, Dept. Chair (U-Hut 102; 208/885-6465). Faculty: Bruce C. Brockman, Frederick L. Chapman, Patricia Martin, Dean F. Panttaja, Forrest E. Sears, Linda Van Polen.

The study of theatre encourages the development of the whole person. Through performance, students gain a deeper understanding of themselves and human behavior; through design, students learn how to manipulate space, lighting, color, and texture; through the study of drama as an educational tool, students learn how to use the elements of theatre as performance, as well as drama as process. Because theatre encompasses so many disciplines, it is an excellent way of enhancing a general education, encouraging artistic sensitivity, and teaching students to work in collaboration with fellow artists.

The theatre curriculum at UI leads to a B.A., B.S., or B.F.A. degree and provides a broad base from which students may pursue a number of different career options. All students are required to complete a core of courses ensuring general competency in all areas of theatre. Those wishing to specialize in a particular aspect of theatre are able to do so through the use of electives. The Bachelor of Fine Arts degree is offered to those students who wish to embark on professional careers in theatre. Requirements are stringent and include constant monitoring of the student's progress. The student is an integral part of the department production process, fostering a close relationship with the theatre faculty and enabling the student to experience the kind of growth that comes through working with professional artists.

In the Hartung Theatre, UI has one of the finest theatre facilities in the Northwest. The 419-seat, semitrust theatre is complemented by one of the best equipped shops, costume inventories, and lighting and sound systems in the region. Additionally, the Jean Collette Theatre, with 89 seats, is fully equipped and is a laboratory space in which student actors, directors, and technicians may experiment and develop their skills.

Graduate study at UI emphasizes acting, directing, design, and technical theatre. The department's size permits graduate students to take an active part in the process of theatre production. If qualified, students may be asked to assist the instructors in the teaching of basic skills to undergraduate students. The department emphasizes the creative thesis for the degree and graduate students have designed and directed major productions at the university.

Students interested in pursuing a degree in theatre and who have further questions about the program should feel free to consult the department chair (telephone 208/885-6465).

Theatre Arts Courses

ADVANCED PLACEMENT: Courses in this subject field that are vertical in content are: ThA 105-106-272-273-305-306-407-408; ThA 103-104-301-302.

ThA 100 Theatre Process and Production (3 cr). Open only to majors. Intro to theatre with emphasis on creative processes, organizational structures, and collaborative systems inherent in production and performance of theatre events.

ThA 101 Introduction to the Theatre (3 cr). Satisfies core requirement J-3-d. For nonmajors. Building an appreciation for theatre as an art form through understanding the creative process of the playwright, the director, the designer, and the actor. Three lec and 2 hrs of recitation a wk.

ThA 102 Theatrical Make-up (2 cr). Creation of the make-up mask through sculpting with paint. Limited to 20 students. Prereq: perm.

ThA 103 Theatre Technology I (3 cr). Intro to theatre production spaces, shop tools, construction materials, and stage equipment; theories and methods used in the construction of scenery and props. Coreq: ThA 190.

ThA 104 Theatre Technology II (3 cr). Methods of costume construction techniques; exploration of pattern drafting, fitting, alteration, and materials; overview of costume history as it relates to silhouette and construction. Coreq: ThA 190.

ThA 105-106 Basics of Performance (2 cr). Intro to performance; techniques of relaxation, observation, and justification; work in improvisation, sensory exploration, image-making, and beginning textual analysis; initial monologue and scene performance. Two labs a wk.

ThA 110 Convocation (0 cr). One 1-hr weekly seminar.

ThA 125 Summer Theatre I (2-4 cr, max 4). Theatre production, including public presentation of several plays. Max 10 cr in ThA 125 and 395 combined. Prereq: perm of dept.

ThA 150 Performance Lab (1 cr, max arr). Intro to fundamentals of production and use of the human voice; intro to Berry and Linklater; intro to the Alexander technique, T'ai Chi Ch'uan, and Aikido. Two labs a wk.

ThA 190 Theatre Practice I (1 cr, max 4). Open to nonmajors. Practical experience in all aspects.

ThA 200 (s) Seminar (cr arr). Prereq: perm.

ThA 203 (s) Workshop (cr arr). Prereq: perm.

ThA 204 (s) Special Topics (cr arr). Prereq: perm.

ThA 220 Theatre Management (2 cr). Exploration of standard management practices relating to theatre production and business, funding, and public relations.

ThA 265 Children's Theatre (3 cr). Alt/ys. Selection, preparation, and presentation of theatre for children; story telling; recreation and special occasion programs.

ThA 271 Play Analysis (3 cr). Critical intro to plays as drama and theatre; an approach to tragic and comic genres; major dramatists of the 20th century culminating in an analysis of contemporary theatre styles.

ThA 272 Intermediate Acting (3 cr). Exploration of Stanislavsky System focused in work on sense and emotional memory, inner monologue, and imagery techniques; emphasis on group improvisation and theatre games; work in action and scene study; performances of selected scenes and monodramas. Prereq: ThA 105-106.

ThA 273 Intermediate Acting (3-4 cr). Studies in American method acting as exemplified by its leading practitioners (Strasberg, Hagen, and Meisner), as well as post-modernist practices; textual analysis and individual acting problems; continuing emphasis in scene preparation. Includes one lab a wk when taken for 4 cr.

ThA 299 (s) Directed Study (cr arr). Prereq: perm.

ThA 301-302 Visual Theatre and Design (3 cr). Development of basic skills in visualization, period research, theatrical graphics techniques, and script interpretation with emphasis in areas of costumes, scenery, and lighting design. Three lec and 1 hr of lab a wk. Prereq for ThA 302: 301.

ThA 305 Methods in Characterization (3-4 cr). Alt/ys. Developing a character through work in centers, physicalization, and emotional exploration as well as character essences based on studies in animals, paintings, costumes, music, and props. Includes one lab a wk when taken for 4 cr.

ThA 306 Advanced Acting (3-4 cr). Alt/ys. Theory and practice of comedy playing; exercises, improvisations, and performances in comic genres, farce through comedy of manners; intro to period comedy. Includes one lab a wk when taken for 4 cr.

ThA 350 Performance Lab (1 cr, max arr). Further work on fundamentals of production and use of the human voice; continued exploration of Berry and the Alexander Technique; intro to basics of stage combat. Two labs a wk.

ThA 361 Technical Production (3 cr). Technical direction and planning for single and multiple set theatre productions; includes shop and personnel management techniques, drafting, budgets, scheduling, and organization.

ThA 362 Costume Design I (3 cr). Historical overview of costume from Greek to the 19th century; costume design and rendering emphasized.

ThA 373 Stage Lighting (3 cr). Basic equipment and lighting methods for theatrical production; basic drafting and design of a realistic production.

ThA 381-382 Drama in Education (3 cr). Rationalization and clarification of the means and purposes of drama as an educational tool in the teaching/learning process. ThA 381: theory and techniques through film, lec, and dem. ThA 382: analogy, role, mantle of the expert, simulation, movement, planning, supervised fieldwork.

ThA 390 Theatre Practice II (1 cr, max 4). Open to nonmajors. Continuation of ThA 190. Set construction, costumes, lights, and properties.

ThA 395 Summer Theatre II (2-8 cr, max 8). Continuation of ThA 125. Max 10 cr in ThA 125 and 395 combined. Prereq: perm of dept.

ThA 400 (s) Seminar (cr arr). Prereq: perm.

ThA 403 (s) Workshop (cr arr). Prereq: perm.

ThA 404 (s) Special Topics (cr arr). Prereq: perm.

ThA 405 Individual Instruction in Performance (cr arr). Individualized coaching in performance. One hr of lab a wk per cr. Prereq: perm of dept.

ThA 406 Individual Instruction in Production (cr arr). Individualized and research study in technical production and design. One hr of lab a wk per cr. Prereq: perm of dept.

ThA J407/J507 Acting Shakespeare (3-4 cr). Alt/ys. Shakespearean texts; emphasis on interpreting and performing conventions of his prose and verse plays, as well as a study of the world view of Elizabethan England. Additional projects/assignments reqd for grad cr. Includes one lab a wk when taken for 4 cr.

ThA J408/J508 **Styles of Acting** (3-4 cr). Alt/yrs. Study and performance of acting styles based on cultural backgrounds, manners, and customs of a period; selected historical and 20th century styles; continued work in acting Shakespeare. Additional projects/assignments reqd for grad cr. Includes one lab a wk when taken for 4 cr.

ThA J410/J510 **Costume Design II** (3 cr, max 12). Emphasis on developing characterization, stylization, and fabric choice; explore advanced rendering techniques; continuation of portfolio development. Additional projects/assignments reqd for grad cr. Prereq: ThA 362 or perm.

ThA 463 **Costume Construction** (3 cr) (ThA 363). Development of two-dimensional rendering into a three-dimensional realized costume; emphasis on advanced construction techniques, fabric selection, and costume crafts. Prereq: ThA 104 or perm.

ThA 464 **Scenographic Techniques** (3 cr). Practical survey of graphics used in design and execution of scenery for the stage, including drafting, perspective, front and rear elevations, painters elevations, and properties design and drafting. Four hrs of lab a wk. Prereq: ThA 302.

ThA 465 **Advanced Scene Design** (3 cr) (ThA 464). Development of a conceptual approach to design through assorted design projects. Prereq: ThA 463.

ThA J467-J468/J567-J568 **The Theatre** (3 cr). Alt/yrs. Survey of European and American theatres, dramatists, and actors from the Greeks to Ibsen. Additional projects/assignments reqd for grad cr.

ThA J469/J569 **Modern Theatre** (3 cr). History of the movements, personalities, and representative plays of the modern theatre from Ibsen, Strindberg, and Chekhov through Pirandello to 1930. Additional projects/assignments reqd for grad cr.

ThA J470/J570 **Modern Theatre** (3 cr). Alt/yrs. Epic theatre, theatre of the absurd, theatre of cruelty, contemporary trends in drama, directing, and design; seminar approach. Additional projects/assignments reqd for grad cr.

ThA J471-J472/J571-J572 **Directing** (3 cr). ThA J471/J571: preparation of a play from casting to performance. ThA J472/J572: staging and interpretation of a play; developing a production concept; coaching actors. Additional projects/assignments reqd for grad cr. Prereq: ThA 271 or perm of dept.

ThA 480 **Drama in Education Practicum** (3-9 cr, max 9). Directed process work on selected levels in local classrooms with all age groups, performance planned in conjunction with inservice teachers.

ThA J484/J584 **Advanced Stage Lighting** (3 cr). Advanced lighting design theories and practice through design of assorted productions in realistic drama, dance, arena, thrust, and mystical theatre. Additional projects/assignments reqd for grad cr. Prereq: ThA 373 or perm.

ThA 498 (s) **Internship** (cr arr). Prereq: perm.

ThA 499 (s) **Directed Study** (cr arr). Prereq: perm.

ThA 500 **Master's Research and Thesis** (cr arr).

ThA 501 (s) **Seminar** (cr arr). Prereq: perm.

ThA 502 (s) **Directed Study** (cr arr). Prereq: perm.

ThA 503 (s) **Workshop** (cr arr). Prereq: perm.

ThA 504 (s) **Special Topics** (cr arr). Prereq: perm.

ThA 507 **Acting Shakespeare** (3-4 cr). See ThA J407/J507.

ThA 508 **Styles of Acting** (3-4 cr). See ThA J408/J508.

ThA 509 **Summer Theatre III** (2-8 cr, max 8). Theatre production, including public presentation of several plays; emphasis on responsibilities of the grad student including assisting the director, serving as crewhead, and acting. Prereq: 20 cr in the theatre arts and perm of dept.

ThA 510 **Costume Design II** (3 cr, max 12). See ThA J410/J510.

ThA 511 (s) **MFA Acting Studio** (2 cr, max 18). Advanced individual study in performance.

ThA 512 (s) **MFA Directing Studio** (2 cr, max 18). Advanced individual study in directing, including work in staging, styles, and interpretation.

ThA 513 (s) **MFA Design Studio** (2 cr, max 18). Advanced individual study in all areas of theatrical design with emphasis on portfolio development. One lec and 2 hrs of lab a wk.

ThA 514 (s) **MFA Production Studio** (2 cr, max 18). Advanced individual study in all areas of technical theatre production and management with emphasis on portfolio development. One lec and 2 hrs of lab a wk.

ThA 515 **MFA Jury/Portfolio Review** (1 cr). Preparation and evaluation of performance monologues and design portfolios. Coreq: MFA studio courses.

ThA 520 **Advanced Directing** (3 cr). Techniques and styles of major 20th-century directors; work in directing genres of tragedy, drama, melodrama, comedy, and the absurd.

ThA 522 **Directing the Period Play** (3 cr). Interpretation and staging of classical texts in major dramatic periods; social and cultural view of each period.

ThA 530 **Graduate Design: Theatrical Architecture and Decor** (3 cr, max 12). Advanced design problems emphasizing research and design in various historical styles of decorative art, architecture, and furniture; continuation of portfolio development. Prereq: ThA 464 or perm.

ThA 535 **Production Design** (3 cr, max 12). Design responsibility for a mainstage production. Prereq: perm of dept.

ThA 567-568 **The Theatre** (3 cr). See ThA J467-J468/J567-J568.

ThA 569 **Modern Theatre** (3 cr). See ThA J469/J569.

ThA 570 **Modern Theatre** (3 cr). See ThA J470/J570.

ThA 571-572 **Directing** (3 cr). See ThA J471-J472/J571-J572.

ThA 584 **Advanced Stage Lighting** (3 cr). See ThA J484/J584.

ThA 596 **MFA Exit Project** (3 cr). Culminating creative project for MFA candidates. Prereq: perm of dept.

ThA 597 (s) **Practicum** (cr arr). Prereq: perm.

ThA 598 (s) **Internship** (cr arr). Prereq: perm.

ThA 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

Curricular Requirements

THEATRE ARTS (B.A. or B.S.)

Students taking B.A./B.S. or B.F.A. options in theatre arts must achieve a minimum grade of C in each theatre course taken to fulfill a requirement in the major before the student will be eligible for graduation. Students must maintain a minimum 2.00 overall GPA to be eligible to participate in departmental productions.

Required course work includes the university requirements (see regulation J-3), the general requirements for either the B.A. or B.S. degree, and:

Course	Credits
ThA 100 Theatre Process & Production.....	3
ThA 102 Theatrical Make-up.....	2
ThA 103, 104 Theatre Technology I, II.....	6
ThA 105-106 Basics of Performance.....	4
ThA 190 Theatre Practice I.....	2
ThA 220 Theatre Management.....	2
ThA 271 Play Analysis.....	3
ThA 301-302 Visual Theatre & Design.....	6
ThA 467-468 The Theatre.....	6
ThA 469 Modern Theatre.....	3
ThA 471 Directing.....	3
Electives in acting/directing.....	6
Electives in design/production.....	6
Courses in a related field approved by dept chair or established minor.....	20

THEATRE ARTS (B.F.A.)

The Bachelor of Fine Arts degree is an intense training program for students wishing to pursue a career in the professional theatre. It is divided into four specific areas of study within an area of concentration. Areas of concentration include but are not limited to: acting, technical production, and scenery, lighting, or costume design. Individual courses are chosen by the student and his or her adviser within those categories, allowing the degree to be tailored to the student's specific needs. Student progress is monitored each semester through performance juries and portfolio reviews. Students in the B.F.A. program are encouraged to take internships with professional theatre companies in the region as part of their program of study.

Students taking B.A./B.S. or B.F.A. options in theatre arts must achieve a minimum grade of C in each theatre course taken to fulfill a requirement in the major before the student will be eligible for graduation. Students must maintain a minimum 2.00 overall GPA to be eligible to participate in departmental productions.

Required course work includes the university requirements (see regulation J-3) and the departmental requirements for the B.S. or B.A., except that an approved related field or established minor is not required for the B.F.A. degree. Additional requirements include:

STUDIO AREA - 12-20 credits

A minimum of 12 credits is taken in course work directly related to the area of specialization. Students with a performance specialization are required to take an additional 8 credits.

RELATED STUDIO - 4-9 credits

A minimum of 4-9 credits is taken in a related studio area that generally pertains directly to the student's area of specialization.

CRAFT AREA - 11 credits

A minimum of 11 credits is taken in courses to develop specific craft skills associated with the studio area.

HISTORY/LITERATURE/CRITICISM - 3 credits

A minimum of 3 credits is taken in history of literature courses that relate directly to the studio area. Courses used to fulfill university and department core requirements may not be used to satisfy this requirement.

Academic Minor Requirements

TECHNICAL THEATRE MINOR

Course	Credits
ThA 103, 104 Theatre Technology I, II.....	6
ThA 301-302 Visual Theatre & Design.....	6
ThA 373 Stage Lighting.....	3
ThA 390 Theatre Practice II.....	2

THEATRE ARTS MINOR

Course	Credits
ThA 102 Theatrical Make-up.....	2
ThA 103, 104 Theatre Technology I, II.....	6
ThA 272 Intermediate Acting.....	3
ThA 301-302 Visual Theatre & Design.....	6
ThA 471 Directing.....	3

THEATRE ARTS PERFORMANCE MINOR

Course	Credits
ThA 272-273 Intermediate Acting.....	6
Courses chosen from the following.....	12
ThA 150 Performance Lab (max 3)	
ThA 271 Play Analysis	
ThA 305 Methods in Characterization	
ThA 306 Advanced Acting	
ThA 407 Acting Shakespeare	
ThA 408 Styles of Acting	
ThA 471 Directing	

VETERINARY SCIENCE—see Department of Animal and Veterinary Science

**Division of Vocational Teacher
and Adult Education**

Jerry L. Tuchscherer, Div. Director (210 Educ. Bldg.; 208/885-6556).

Business Education Faculty: John P. Holup, Linda Miller, Martha C. Yopp.

Industrial Technology Education Faculty: James M. Cassetto, John A. Ristow.

Vocational Teacher and Adult Education Faculty: James A. Bikkie, Ernest Biller, James M. Cassetto, Glenn A. Edmison, John P. Holup, Jack J. Kaufman, Linda Miller, John Mundt, Douglas A. Pals, Lou E. Riesenber, John A. Ristow, Laurie A. Stenberg, G. Cleve Taylor, Jerry L. Tuchscherer, Ann Vail, M. Susie Whittington, Martha C. Yopp.

The professional degree majors in vocational education provide both the opportunity and skills to enable vocational teachers to work effectively with today's youth and adults. Students benefit from the realistic relationship between course work and occupational competencies prospective teachers have acquired, or are acquiring, in business, industry, farming, or the home.

Preservice teaching degree majors are offered in: business education (B.S.Bus.Ed.), marketing education (B.S.Bus.Ed.), office occupations education (B.S.Bus.Ed.), industrial technology education (B.S.Ed.), and trade and industrial/technical education (B.S.Ed.) in the College of Education; and agricultural education (B.S.Ag.Ed.), and home economics education (B.S.H.Ec.) in the College of Agriculture. (See Admission to Teacher Education Program.)

A nonteaching major is available in office administration (B.S.O.Ad.) through the College of Education for students who wish to capitalize on their secretarial and office skills.

The undergraduate program in industrial technology education includes two degree programs. One is the Bachelor of Technology degree in industrial technology, which prepares students for technical and professional careers in industry or business. The B.S.Ed. degree, with a major in industrial technology education, provides opportunities for students to develop skills in several technical areas and also prepares them for certification as industrial education or technical education teachers in the secondary schools.

Sequential inservice undergraduate trade and industrial/technical education degree courses, as well as selected graduate vocational courses, are offered each semester at area vocational/technical schools located at Coeur d'Alene, Lewiston, Boise, and Twin Falls.

The graduate program is designed with flexibility to permit each student to pursue an individualized concentration in vocational education. Certification regulations permit permanent certification for certain occupational subjects taught at the undergraduate level. The graduate program offers these teachers an opportunity to prepare for other staff responsibilities. Among the various career objectives a graduate student may choose are positions as curriculum coordinator, cooperative education coordinator, supervisor of instruction, and administrator of vocational programs. In addition to seeking these local staff opportunities, many graduates of the vocational education program prepare for master-teacher assignments at the secondary level or as postsecondary (two-year college) instructors.

The graduate degrees of Master of Science, Master of Education, and Specialist in Vocational Education (sixth year) are offered through the division. Doctoral programs in the division are offered under the major in "education."

A student with a baccalaureate degree from an approved college or university with a major in one of the following related areas may apply for graduate study in vocational education: adult education, agriculture, business occupations, guidance and counseling, health occupations, home economics, industrial technology, marketing education, technology (engineering), trade and industrial/technical education, or vocational special needs.

A student with a baccalaureate degree with a major in a nonrelated area must have work experience appropriate to a related area in order to apply for graduate study in vocational education and/or (1) certification by the State Division of Vocational Education as a vocational teacher in Idaho, (2) baccalaureate degree in a recognized vocational field, (3) a baccalaureate degree, occupational experience, and current employment as a vocational teacher, or (4) a baccalaureate degree, occupational experience, and current work towards employment as a vocational teacher—with approval of the division's graduate committee.

Of special interest at the graduate level is the opportunity to concentrate studies in adult education, guidance and counseling, and vocational special needs.

Courses

ADULT EDUCATION

AdEd J418/J518 **Learning Styles** (3 cr). See VocEd J418/J518.

AdEd J473/J573 **Foundations of Adult Education** (3 cr). Philosophical, economic, sociological, and psychological bases of adult education; roles, limitations, and coordination of adult education, domestic and international programs—public and private sector. Additional projects/assignments reqd for grad cr.

AdEd 474 **Psychology of Adult Learners** (3 cr) (C). Psychological, social, and physiological characteristics of adult learners; relationships to family, friends, and fellow citizens.

AdEd 475 **Program Development in Adult Education** (3 cr). Adult education program development, organization, and instructional program; problems and trends.

AdEd J476/J576 **Communication Skills for Teachers of Adults** (3 cr). Development of communication skills for use with culturally diverse adults; verbal and nonverbal techniques for improving communication skills. Additional projects/assignments reqd for grad cr.

AdEd 518 **Learning Styles** (3 cr). See VocEd 518.

AdEd 570 **Principles and Concepts of Research** (3 cr). See VocEd 570.

AdEd 571 **Accessing, Organizing, and Synthesizing Data** (3 cr). See VocEd 571.

AdEd 573 **Foundations of Adult Education** (3 cr). See AdEd J473/J573.

AdEd 574 **Psychology of Adult Learners** (3 cr). Psychological, social, and physiological characteristics of adult learners; relationships to family, friends, and fellow citizens.

AdEd 575 **Strategies for Teaching Adults** (3 cr). Design and application of teaching strategies for learning domains and learning styles appropriate for adult learners.

AdEd 576 **Communication Skills for Teachers of Adults** (3 cr). See AdEd J476/J576.

BUSINESS EDUCATION

BusEd 101-102 **Typewriting I-II** (2 cr). BusEd 101: development of skill sufficient for personal use. BusEd 102: speed and control to occupational competence levels.

BusEd 104 **Keyboarding** (1 cr). Microcomputer keyboarding skills development. Accelerated 9-wk course. Two lec and 2 hrs of lab a wk.

BusEd 185 **Machine Calculation** (2 cr). Operation of commonly used office adding-calculation machines for the solution of business mathematics problems.

BusEd 200 (s) **Seminar** (cr arr). Prereq: perm.

BusEd 203 (s) **Workshop** (cr arr). Prereq: perm.

BusEd 204 (s) **Special Topics** (cr arr). Prereq: perm.

BusEd J210/J410 **Alphabetic Shorthand I** (1 or 2 cr). Alphabetic shorthand theory, practice, dictation, and transcription (1 cr, 1/2 sem); comparative analysis of alphabetic shorthand systems and methods of teaching alpha shorthand (1 cr, 1/2 sem). Additional projects/assignments reqd for upper-div cr. Two lec and 2 hrs of lab a wk.

BusEd 299 (s) **Directed Study** (cr arr). Prereq: perm.

BusEd 311 **Alphabetic Shorthand II** (2 cr). Speed and transcription skill development including machine transcription and methods of teaching alphabetic shorthand for vocational preparation and note taking.

BusEd C312 **Local Government Records Management** (2 cr) (C). Primarily for city clerks and other city officials. Records management, microfilming, filing, and filing equipment useful in city government record-keeping functions; legal requirements of destruction and disposal of city records in Idaho; practice of a number of city officials in Idaho in indexing city council meetings and maintaining city council files.

BusEd 395 **Administrative Office Procedures** (3 cr). Administrative office procedures, components, and responsibilities.

BusEd 396 **Information Processing** (3 cr). Information processing concepts and applications.

BusEd 400 (s) **Seminar** (cr arr). Prereq: perm.

BusEd 403 (s) **Workshop** (cr arr). Prereq: perm.

BusEd 404 (s) **Special Topics** (cr arr). Prereq: perm.

BusEd 410 **Alphabetic Shorthand** (1 or 2 cr). See BusEd J210/J410.

BusEd 413 **Administrative Office Management** (3 cr). Prepares students to assume management role in supervision of people, procedures, and equipment.

BusEd J415/J515 **Microcomputer Applications** (2-3 cr) (415, C). Same as ITED J415/J515. Computer applications course designed primarily for office administration and business teacher education students; includes hands-on experience using word processing, spreadsheet, and database management software packages; includes some methodology, curriculum development, and classroom management techniques. If taken for 2 cr involves learning and applying the software; if taken for 3 cr includes sizable curriculum development project. Grad students do an advanced project. Three lec and 2 hrs of lab a wk.

BusEd 418 **Teaching Consumer Economics** (2 cr). Methods and materials for teaching consumer economics. Prereq: Econ 201 or 100 or equiv.

BusEd J419/J519 **Word Processing** (3 cr). Same as ITED J419/J519. Word processing concepts and applications for non-office occupation majors. Additional projects/assignments reqd for grad cr. Three lec and 3 hrs of lab a wk.

BusEd 430 **Supervising Business Professionals of America** (2 cr). Planning, implementation, and supervision of the Business Professionals of America vocational student organization; includes attendance at competitive events. Two lec and 2 hrs of lab a wk; attendance at regional and state leadership conference.

BusEd 460 **Desktop Publishing** (3 cr). Same as ITED 460. Intro to desktop publishing through use of computer technology. Prereq: ITED 428 or BusEd 419 or BusEd 415 or perm.

BusEd 490 **Records Management** (3 cr). ARMA filing rules, organization and maintenance of paper files, using database management software.

BusEd 491-492 **Teaching Business Education I-II** (2-3 cr). Methods and materials. BusEd 491: basic business subjects. BusEd 492: office occupations. Prereq: perm.

BusEd 493 **Teaching Marketing Education** (3 cr). Same as VocEd 493. Selection, organization, and presentation of subject matter pertaining to preparatory marketing education programs at the secondary-school level; emphasis on teaching methods and techniques.

BusEd 494 **Marketing Education Materials** (2 cr). Same as VocEd 494. Examination, development, and application of instructional materials in marketing education.

BusEd 495 **Supervising DECA Programs** (2 cr). Same as VocEd 495. Role of DECA in marketing education; organization and implementation of youth activities.

BusEd 496 **Directed Work Experience** (1-3 cr, max 9). Same as VocEd 496. Job analysis and descriptions; weekly work-experience reports and analysis coordinated with problems related to the student's employment in an approved work station. Prereq: perm.

BusEd 497 **Coordination Techniques** (3 cr). Same as VocEd 497. Problems of coordinator in cooperative part-time program; guidance and selection; placing students in work stations; assisting job adjustment; developing training program.

BusEd 498 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

BusEd 499 (s) **Directed Study** (cr arr). Prereq: perm.

BusEd 500 **Master's Research and Thesis** (cr arr).

BusEd 501 (s) **Seminar** (cr arr). Prereq: perm.

BusEd 502 (s) **Directed Study** (cr arr). Prereq: perm.

BusEd 503 (s) **Workshop** (cr arr). Prereq: perm.

BusEd 504 (s) **Special Topics** (cr arr). Prereq: perm.

BusEd 515 **Microcomputer Applications** (2-3 cr). See BusEd J415/J515.

BusEd 519 **Word Processing** (3 cr). See BusEd J419/J519.

BusEd 520 **Office Occupations Subjects** (3 cr). Methods and materials; achievement standards; review of literature and research. Prereq: perm.

BusEd 521 **Basic Business Subjects** (3 cr). Methods and materials; achievement standards; review of literature and research. Prereq: perm.

BusEd 522 **Issues in Business Education** (3 cr). Philosophies, objectives, trends, and organization patterns of business education in secondary schools. Prereq: perm.

BusEd 523 **Adult Marketing Education** (3 cr). Establishing and developing adult programs in marketing education. Prereq: perm.

BusEd 524 **Issues in Marketing Education** (3 cr). Same as VocEd 524. Philosophies, objectives, trends, and organization patterns of marketing education in secondary schools. Prereq: perm.

BusEd 597 (s) **Practicum** (cr arr). Prereq: perm.

BusEd 598 (s) **Internship** (cr arr). Prereq: perm.

BusEd 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

INDUSTRIAL TECHNOLOGY EDUCATION

ITED 110 **Introduction to Technology** (2 cr). Intro to modern technology including communication, manufacturing, construction, and transportation. Two lec and 2 hrs of lab a wk.

ITED R115 **Operational Safety** (3 cr). Fundamentals of industrial safety; fire protection, industrial hygiene, radiological safety, safety regulations.

ITED 120 **Principles of Technology I** (3 cr). Application of physical science in industrial situations; emphasizes principles rather than specifics of technology; illustrates application of mathematics associated with these principles. Three lec and 2 hrs of lab a wk. Enrollment per section limited to lab stations available.

ITED 121 **Principles of Technology II** (3 cr). Continuation of ITED 120. Advanced units of applied physics with focus on major systems of mechanical, fluid, thermal, and electrical. Three lec and 2 hrs of lab a wk. Prereq: ITED 120.

ITED 130 **Basic Electronics I** (3 cr). For beginning students with no experience in electricity; properties of resistors, capacitors, and inductors in electrical circuit; basics of power distribution system and house wiring; use of meters and oscilloscopes in lab. Three 1-hr lec and one 2-hr lab a wk. Enrollment per section limited to lab stations available. Knowledge of algebra recommended.

ITED 131 **Electronics II** (3 cr). Continuation of ITED 130. Fundamentals of diodes, power supplies, transistor amplifiers, oscillators, and communication devices. Three 1-hr lec and one 2-hr lab a wk. Enrollment per section limited to lab stations available. Prereq: ITED 130 or equiv; knowledge of algebra recommended.

ITED R132 **General Electricity/Electronics** (3 cr). Discussion of basic electrical circuits; designed for beginning students with no knowledge or experience in electricity.

ITED R135 **Electrical Systems** (3 cr). Fundamentals of AC/DC circuits and components, motors, transformers, and switchgear, national electrical code wiring requirements.

ITED 140 **Wood Technics** (3 cr). Basic fabricating skills in machine and tool processing of wood material and products; technical information on a wide range of wood and allied products; selection and fabrication of wood products. Two lec and 3 hrs of lab a wk. Enrollment per section limited to lab stations available.

ITED 170 Wood Product Design and Fabrication (3 cr). Principles of design applied to a wide variety of wood products and fabrication processes; furniture, cabinetwork, laminated products, molding, wood turning, silicon rubber mold production. Two lec and 3 hrs of lab a wk. Enrollment per section limited to lab stations available. Prereq: ITED 140.

ITED 200 (s) **Seminar** (cr arr). Prereq: perm.

ITED 203 (s) **Workshop** (cr arr). Prereq: perm.

ITED 204 (s) **Special Topics** (cr arr). Prereq: perm.

ITED R210 Introduction to Industrial Efficiency (3 cr). Industrial engineering techniques and approaches for supervisors.

ITED R211 Introduction to Quality Assurance (3 cr). Overview; emphasis on nuclear industry; planning, managing, conducting, and evaluating quality assurance program.

ITED 213 Technical Sketching (2 cr). Sketching techniques applied to industrial drawing; emphasis on sketching or mechanical drawings, pictorials, and architectural forms. One lec and 1 hr of lab a wk.

ITED R215 Electronic Components (3 cr). Physical and electrical characteristics of electronic devices; emphasis on solid state devices; includes discrete and integrated circuit components.

ITED R217 Principles of Dimensional Inspection (3 cr). Concepts, prin, classification, and control in dimensional inspection for quality assurance.

ITED 218 Power, Energy, and Transportation (3 cr). Internal-external combustion engines; solar, wind, water, biomass, and nuclear energy; lab experience in generating, transporting, and converting energy forms. Enrollment per section limited to lab stations available. Three lec and 2 hrs of lab a wk.

ITED 222 Mechanical Drawing (2 cr). Theory and practice in multi-view drawing section and auxiliary drawing, shape and size description, dimensioning, descriptive geometry concepts, and technical illustration. One lec and 2 hrs of lab a wk.

ITED 235 Communication Electronics (3 cr). Application of electronic circuits to communication equipment; radio receivers and transmitters; technical radio and TV for avocational use. Prereq: ITED 130, 131.

ITED 236 Industrial Electronics (3 cr). Continuation of ITED 235. Theory and test procedures common to industrial control and automatic processing; computer electronics. Prereq: ITED 235.

ITED 237 Integrated Circuits and Semiconductor Devices (3 cr). Basic theory and application of field effects transistors, integrated circuits, op-amps, optoelectronic devices, and miscellaneous semiconductor devices. Enrollment per section limited to lab stations available. Prereq: ITED 130, 131, or equiv.

ITED 238 Digital Electronics (3 cr). Basic logic circuits used in digital devices; included AND/OR gates, NAND, NOR, Exclusive-or gates, and application of the gates to construct flip-flops, counters, adders, and converters; includes characteristics of logic families and memory devices. Enrollment per section limited to lab stations available. Prereq: ITED 237 or equiv.

ITED R240 Electronics and Control Systems (3 cr). Complex frequency domain; application of electronic devices and systems; intro to control theory.

ITED R245 Minicomputer Fundamentals (3 cr). Machine language programming, use of minicomputer software, assembler programming, real-time programming, interrupt facilities, system allocation.

ITED 250 Introduction to Metals Manufacturing (3 cr). Intro to manufacturing theory, applications, and processes including research and development, starting and organizing manufacturing companies, and product production and marketing. Three lec and 3 hrs of lab a wk.

ITED 251 Plastic (2 cr). Materials and industrial methods of fabrication; vacuum, blow, and pressure forming; laminating; extrusion; plastisol and injection molding.

ITED 253 Advanced Metals Manufacturing (3 cr) Advanced industrial manufacturing theory, applications, and processes including specialized access of production, design, research, and development of manufactured products. Three lec and 3 hrs of lab a wk. Prereq: ITED 250.

ITED R260 Statics and Dynamics (3 cr). Study of forces on structures at rest or moving at uniform or non-uniform velocity; basic concepts of stress analysis, machine design, hydraulics, and structure design.

ITED R261 Strength of Materials for Mechanical Technology (3 cr). Relationship between loads applied to non-rigid bodies and the resultant internal forces and induced deformations. Note: Will not substitute for engineering degree requirement.

ITED R262 Piping Design (3 cr). Piping schedules, pressure ratings, specifications, pipe stress calculations, and hanger selection; system component selection and specification. Prereq: ITED 261, 336.

ITED R263 Structures and Concrete Design (3 cr). Column and beams design and selection, use of steel construction handbook joint design; simple concrete slab and wall design. Note: Will not substitute for engineering degree requirement.

ITED 265 Computer Aided Drafting/Design (2 cr). Application of fundamental principles of computer aided drafting and design; theory of and skill development in file creation, digitizing, plotting, and computer assisted design. One lec and 2 hrs of lab a wk.

ITED 270 Technical Competence (1-10 cr, max 10). Cr awarded for technical competence gained from experience in area of concentration for degree being sought. ITED 270, 370, and 470 are graded P/F and are credited to the student's program as follows: 1/3 with soph-level standing and completion of 15 cr of formal course work in the program; 1/3 upon completion of the jr yr; and 1/3 upon completion of all other degree requirements. Max 36 cr in any combination of ITED 270, 370, 470, 490, 491, and 492.

ITED 280 Building Construction Technology (3 cr). Systems approach to building construction technology, including footings, foundations, floor, wall, ceiling and roof systems; building materials and their use in construction. Two lec and 3 hrs of lab a wk. Enrollment per section limited to lab stations available. Prereq: ITED 140, 170.

ITED 299 (s) **Directed Study** (cr arr). Prereq: perm.

ITED 300 Finishing Materials and Methods (2 cr). Alt/hrs. Methods and materials for finishing wood, metal, composition board, plastics, and other industrial products. Enrollment per section limited to lab stations available.

ITED 303 Advanced Machining Technology (2-3 cr). Practice in fabrication of metals beyond that covered in ITED 253; extra cr for individual project. Charge for materials payable at Controller's Office. One lec and one 3-hr lab a wk. Enrollment per section limited to lab stations available. Prereq: perm.

ITED R320 Electronic Drafting (3 cr). Drafting philosophy as related to instrumentation and control circuits; design, layout, and fabrication of printed circuit boards; drafting as related to circuit fabrication.

ITED R330 Industrial Instrumentation I (3 cr). Use of electronic circuits and devices for process parameter measurements.

ITED R331 Industrial Instrumentation II (3 cr). Methods of process control from digital and analog signals; investigation of computer control concepts.

ITED R332 Selection and Design of Machine Elements (3 cr). Principles and characteristics of machine elements in mechanical design; bearings, gears, bolted joints, linkages.

ITED R333 Computer Electronics (3 cr). Logic of circuits, basic circuits used in computers, and interfacing hardware for computer peripherals.

ITED R334 Energy Analysis of Machines (3 cr). Thermodynamics and heat transfer, properties of substances, steady flow, cycles and their application to equipment, simple heat exchangers.

ITED R335 Materials Application (3 cr). Materials application in design, material properties, material selection as related to service conditions.

ITED R336 Fluid Systems Design (3 cr). Fluid flow in pipes, including pressure losses, seals, series and parallel flow, measurements and control, selection of equipment.

ITED R337 Tool Design (3 cr). Design of jigs, fixtures, gauges; tools are designed by the student to solve manufacturing problems.

ITED R340 Nondestructive Examination Techniques and Methods (3 cr). Intro to nondestructive testing, liquid penetrant exam, magnetic particle exam, and radiography in modern industry.

ITED 350 Alternative Energy Technology (3 cr). Survey course for both nonmajors and majors in industrial education who wish to explore sources and industrial and commercial applications of alternate forms of energy. Enrollment per section limited to lab stations available.

ITED 360 Graphic Communication (3 cr). Study of information and skills relative to graphic reproduction; using tools, materials, and processes pertaining to the printing-graphic arts industry. Enrollment per section limited to lab stations available. Two lec and 3 hrs of lab a wk.

ITED R362 Environmental Health (3 cr). Types, mechanisms, and magnitudes of toxicity and their relation to the human system as an industrial environmental problem; all types of metals, compounds, and reagents and their influence on human productivity; sampling and analysis of contaminants.

ITED R363 Fire Protection Safety (3 cr). Basic industrial safety practices as applied to fire protection services.

ITED R364 Hazardous Materials (1 cr). Handling, transportation, and storage of hazardous materials; how to protect and suppress fires that occur in hazardous materials.

ITED 365 Industrial Supervision (2-3 cr). Alt/hrs. Principles and practices; duties and responsibilities of plant supervisors; use of rating scales and other employee evaluation devices; supervisory methods used in on-the-job and in-plant training program; methods of conducting job analysis; preparation and use of job descriptions.

ITED R366 Fire Department Organization and Management (3 cr). Theory of fire dept organization for full-time, part-time, and volunteer depts; management philosophies, dealing with the public, assessing and defining goals, budgeting, codes and standards.

ITED R368 Fire Investigation (3 cr). Investigation techniques in determining the source and contributing factors in fire losses; analysis of history as it relates to present-day codes and standards. Prereq: perm.

ITED 370 Technical Competence (1-10 cr, max 10). See ITED 270.

ITED 375 Heat Treatment of Metals (2 cr). Properties of metals, annealing and normalizing, hardening, tempering, surface hardening, stress relief of welds; equipment and methods. One lec and one 3-hr lab a wk. Enrollment per section limited to lab stations available. Prereq: perm.

ITED 380 Computer Numerical Control Technology (3 cr). Overview; advanced computer aided drafting, computer aided manufacturing, computer numerical control, and robotics, with lab applications. Enrollment per section limited to lab stations available. Three lec and 3 hrs of lab a wk. Prereq: ITED 428 or equiv.

ITED 400 (s) Seminar (cr arr). Prereq: perm.

ITED R401 Principles of Quality Assurance (3 cr). Preparation for Quality Engineering Certificate Exam offered by American Society for Quality Control.

ITED R402 Principles of Reliability Assurance (3 cr). Development of principles and methods of analyzing, testing, and predicting probability of successful performance of parts, components, and systems.

ITED 403 (s) Workshop (cr arr). Prereq: perm.

ITED 404 (s) Special Topics (cr arr). Prereq: perm.

ITED 410 Metalworking Design and Manufacturing (3 cr). Materials, tools, and processes of metal technology; students may specialize in one or several areas. Enrollment per section limited to lab stations available. Prereq: ITED 250, 253, 303, or perm.

ITED J415/J515 Microcomputer Applications (2-3 cr). See BusEd J415/J515.

ITED J419/J519 Word Processing (3 cr). See BusEd J419/J519.

ITED 420 Curriculum Development and Evaluation in Industrial Technology (3 cr). Methods and techniques; curriculum development, use, and application in industrial arts education; evaluation methods, technical use of objective and subjective testing for education and industry.

ITED R424 Computer Hardware Organization and Control (3 cr). Arithmetic and related hardware; timing and control of computers; description of computer hardware/software interface.

ITED 425 Advanced Electricity-Electronics (3 cr). Independent readings, research, and lab experimentation. Enrollment per section limited to lab stations available. Prereq: ITED 235, 236, or perm.

ITED 428 Computer Applications for Industrial Technology (2-3 cr). BASIC programming and industrial education software; applications including computer numerical control, computer aided drafting, computer aided manufacturing, and robotics. Enrollment per section limited to computer stations available.

ITED 429 Student Organizations (1 cr, max 4). Intro to industrial technology student organizations, including organization, planning, implementation, and evaluation of student activities for industrial technology student organizations. One-half hr lec and 2-1/2 hrs of lab a wk.

ITED R430 Systems Safety Analysis (3 cr). Principles of system safety; analytical trees; hazard and risk analyses; accident investigation.

ITED R431-R432 Reactor and Nuclear Instruments (3 cr). Nuclear electronics, including detection, application of instruments for reactor control and for experimental data acquisition.

ITED R433 Quality Auditing (3 cr). Industrial value of audit as a management tool; audit methods and techniques; present practical examples related to real-life applications and benefits.

ITED R434 Quality Assurance Organization and Management (3 cr). Industrial management principles applied to effective economic control of quality assurance activities.

ITED R435 Industrial Transportation Safety (3 cr). Principles of safety in all aspects of industrial transportation; roads, railroads, air, water, pipeline.

ITED R436 Quality Assurance Application (3 cr). Principles of quality assurance applied in a morphological manner to industrial operations.

ITED R445 Digital Process Control (3 cr). Application of digital computers for process control; use of digital control circuits and comparison of digital and analog signals; multiple computer control.

ITED 450 Industrial Safety (3 cr). See VocEd 450.

ITED 451 School Lab Planning and Administration (3 cr). See VocEd 451.

ITED R452 Fire Protection System Design (3 cr). Methods and practical design of fire protection systems (water, gas, chemicals); testing and maintenance of systems. Prereq: perm.

ITED R454 Environmental Health II (3 cr). Intro of human system response and susceptibility to problems of occupation originating from air conditioning, air cleaning, ventilation, respiratory devices, air pressure, noise, lighting, temperature, and radiation; identification, documentation, and reporting of problems and results.

ITED 460 Desktop Publishing (3 cr). See BusEd 460.

ITED R464 Nuclear Reactor Codes and Standards (3 cr). See NE 462.

ITED 470 Technical Competence (1-12 cr, max 12). See ITED 270.

ITED 472 Industrial Technology Teaching Methods (3 cr). Dem, lec, and problem solving; preparation and use of instructional aids, individual instruction sheets, and programmed instructional materials.

ITED 480 History and Philosophy of Industrial Education (3 cr). Development of vocational and general education phases of industrial education; comparative and conflicting philosophies; leaders and their contributions.

ITED 490-491-492 Advanced Technical Competence (1-10 cr, max 30). Supervised practicum or on-the-job experience designed to enable the student to gain further depth in technical competence as well as in current industrial technology. Graded P/F. Max 30 cr in any combination of ITED 270, 370, 470, 490, 491, and 492.

ITED 499 (s) Directed Study (cr arr). Prereq: perm.

ITED 500 Master's Research and Thesis (cr arr).

ITED 501 (s) Seminar (cr arr). Prereq: perm.

ITED 502 (s) Directed Study (cr arr). Prereq: perm.

ITED 503 (s) Workshop (cr arr). Prereq: perm.

ITED 504 (s) Special Topics (cr arr). Prereq: perm.

ITED 510 (s) Professional Problems (1-3 cr, max 6). Prereq: perm.

ITED 511 (s) Technical Problems (1-3 cr, max 6). Prereq: perm.

ITED 515 Microcomputer Applications (2-3 cr). See BusEd J415/J515.

ITED R518 Industrial Liability (3 cr). Workman's compensation, second injury, insurance and self-insurance; third party responsibilities; product liability, personal liability; plant damage.

ITED 519 Word Processing (3 cr). See BusEd J419/J519.

ITED R520 Occupational Health Hazards (3 cr). Field of industrial hygiene practice; focus on recognition, evaluation, and control of occupational health hazards.

ITED R521 Advanced System Safety (3 cr). System safety concepts, principles, and methods; development of skills in accident investigation, audit and appraisal, operational readiness, and system safety analysis and review. Prereq: ITED 430.

ITED R522 Risk Assessment (3 cr). Risk analysis methods relative to safety problems and alterations.

ITED R523 Industrial Safety Applications (3 cr). Application of engineering science to safety problems; static and dynamic forces on structures, pressure systems; effects of temperature, chemicals, fatigue, and other agencies on strength of materials; use of vectors in engineering analysis.

ITED 530 Administration and Supervision of Industrial Education Programs (3 cr). Principles and practices; secondary-school and post-high-school levels; federal and state legislation concerning industrial education programs.

ITED 540 Instructional Media for Industrial Education (3 cr). Preparation and use of new industrial media and systems for industrial-technical arts and vocational-technical subjects.

ITED 599 (s) Research (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

VOCATIONAL TEACHER EDUCATION

MAJORS: Trade and industrial/technical education, and vocational-technical education majors fulfill their major requirements from the courses listed in this section.

RELATED FIELDS: For those course offerings in vocational teacher education, see agricultural education, guidance and counseling, and home economics.

VocEd 200 (s) Seminar (cr arr). Prereq: perm.

VocEd 203 (s) Workshop (cr arr). Prereq: perm.

VocEd 204 (s) Special Topics (cr arr). Prereq: perm.

VocEd 206 (s) Study Abroad (cr arr). Prereq: perm of dept.

VocEd 270 Technical Competence I (1-10 cr, max 10). Cr may be awarded to students who are recommended by the State Dept of Vocational Education, in cooperation with UI, as qualified to teach in the technical phase of a vocational subject matter. Grades for successful completion of VocEd 270, 370, and 470 will be entered as P (pass). Prereq: 9 cr in residence in vocational teacher education.

VocEd 299 (s) Directed Study (cr arr). Prereq: perm.

VocEd 306 Preservice for New Vocational Teachers (3 cr). Fundamental skills necessary for new vocational teachers in secondary and postsecondary schools to be successful in meeting students.

VocEd 307 Inservice for New Vocational Teachers (3 cr). Resolution of common problems faced by new teachers through seminars and observations/evaluations/perceptions by UI preceptor; course meets state certification requirements for 30 hrs of inservice for vocational specialist certification. Prereq: perm.

VocEd J351/J551 Principles and Philosophy of Vocational Education (3 cr). VocEd 351 same as AgEd 351. Overview and interpretation of history, aims, and purposes of public education and vocational education; issues and programs comprising vocational education in Idaho and the U.S. Students who take course at grad level are reqd to complete additional assignments, papers, and/or presentations.

VocEd 370 **Technical Competence II** (1-10 cr, max 10). See VocEd 270. Prereq: completion of jr yr in vocational teacher education.

VocEd 400 (s) **Seminar** (cr arr). Prereq: perm.

VocEd 403 (s) **Workshop** (cr arr). Graded P/F. Prereq: perm.

VocEd 404 (s) **Special Topics** (cr arr). Prereq: perm.

VocEd J405/J505 **Professional Development** (cr arr). Cr earned in this course will not be accepted toward grad degree programs. Professional development and enrichment. Additional projects/assignments reqd for grad cr.

VocEd 406 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

VocEd J418/J518 **Learning Styles** (3 cr). Same as AdEd J418/J518. Identify and provide experience in administration, interpretation, and elements of theoretical bases for contemporary learning styles instruments. Additional projects/assignments reqd for grad cr.

VocEd 420 **Evaluation in Vocational Education** (3 cr). Methods and techniques; construction and use of objective tests, performance tests, rating scales, check lists.

VocEd 426 **Analysis and Curriculum Development in Vocational Education** (3 cr). Principles of occupational analysis and course construction; competency-based; course and curriculum development, trends, and concepts.

VocEd 430 **Advisory Committees and Vocational Student Organizations** (3 cr). Organizing and maintaining effective advisory committees; development of leadership skills; techniques and procedures for establishing a vocational student organization.

VocEd 443 **Introduction to Special-Needs Education** (1 cr). History, background, and concept of special needs.

VocEd 444 **Diverse Populations and Individual Differences** (2-3 cr). Examines the impact of individual differences on teaching and learning. Prereq or coreq: VocEd 443.

VocEd 445 **Proseminar in Vocational Education** (1 cr, max 2). Professional issues in education; orientation to practicum, career placement, and entry level teaching. Coreq: enrollment in senior practicum.

VocEd 450 **Industrial Safety** (3 cr). Same as ITED 450. Organization and administration of safety programs in industry and vocational-technical education laboratories; materials, research literature, methods, and techniques for industrial safety education.

VocEd 451 **School Lab Planning and Administration** (3 cr). Same as ITED 451. For those in or entering occupational education who seek a competency-based approach to planning, organizing, and managing a school teaching lab/shop.

VocEd 453 **Task Analysis** (1 cr). Intro to task analysis methods, tech, and procedures.

VocEd 464 **Vocational Guidance** (3 cr). Same as Couns 464. Identification of individuals who can profit from vocational-technical education program; information for realistic vocational and educational planning; adjustments in vocational-educational program; occupational placement and adjustment; follow-up procedures.

VocEd 470 **Technical Competence III** (1-12 cr, max 12). See VocEd 270. Prereq: enrollment in the final semester of the degree program in vocational teacher education.

VocEd 471 **Practicum: Vocational Education Teaching** (3-10 cr, max 10). Secondary majors are reqd to enroll for 10 cr. Supervised teaching in approved vocational programs at secondary schools or area vocational-technical schools. Graded P/F. Prereq: Ed 314, or VocEd 426, 472, GPA of 2.50, and perm of dept. (Submit application via director of vocational teacher and adult education to director of clinical experiences in teacher education.)

VocEd 472 **Vocational Education Methods** (3 cr). Selection and application of appropriate teaching methods; emphasis on demonstration, lecture, problem solving methods, learning activity packages, and instructional media and technology.

VocEd 480 **Advanced Technical Competence** (1-6 cr, max 6). Experiences to enable the individual to gain depth in technical competency beyond the basic certification requirements, and to maintain skills in harmony with current industrial practice. Prereq: perm.

VocEd 493 **Teaching Marketing Education** (3 cr). See BusEd 493.

VocEd 494 **Marketing Education Materials** (2 cr). See BusEd 494.

VocEd 495 **Supervising DECA Programs** (2 cr). See BusEd 495.

VocEd 496 **Directed Work Experience** (1-3 cr, max 9). See BusEd 496.

VocEd 497 **Coordination Techniques** (3 cr). See BusEd 497.

VocEd 498 **Practicum in Tutoring** (1 cr, max 2). Tutorial services performed by advanced students under faculty supervision. Graded P/F. Prereq: perm.

VocEd 499 (s) **Directed Study** (cr arr). Prereq: perm.

VocEd 500 **Master's Research and Thesis** (cr arr).

VocEd 501 (s) **Seminar** (cr arr). Prereq: perm.

VocEd 502 (s) **Directed Study** (cr arr). Prereq: perm.

VocEd 503 (s) **Workshop** (cr arr). Prereq: perm.

VocEd 504 (s) **Special Topics** (cr arr). Prereq: perm.

VocEd 505 **Professional Development** (cr arr). See VocEd J405/J505.

VocEd 506 (s) **Study Abroad** (cr arr). Prereq: perm of dept.

VocEd 507 **Issues in Vocational and Adult Education** (3 cr). Philosophies, objectives, trends, research, organizational patterns, and governmental relationships for vocational and adult education programs.

VocEd 512 **Classroom Management and Student Motivation** (2 cr). Techniques and strategies to motivate student interest and encourage learning.

VocEd 514 **Career Development and Lifestyle Planning** (3 cr). See Couns 514.

VocEd 515 **Instructional Strategies** (3 cr). Principles, concepts, aims and applications of program and teaching strategies.

VocEd 518 **Learning Styles** (3 cr). See VocEd J418/J518.

VocEd 524 **Issues in Marketing Education** (3 cr). See BusEd 524.

VocEd 526 **Analysis and Curriculum Development in Vocational and Adult Education** (3 cr). Teaching of occupational analysis; development of competency-based curriculum; selection and organization of instructional materials.

VocEd 543 **Administration and Supervision in Vocational Education** (3 cr). Theory and practice of administering and supervising vocational education programs at all levels.

VocEd 544 **Modifying Vocational Program for Students with Special Needs** (3 cr). Product oriented course aimed at skills of vocational education teachers in developing courses for students with vocational special needs. Prereq: VocEd 443, 444.

VocEd 545 **Facility Planning** (3 cr). Principles and procedures in planning secondary and postsecondary vocational facilities.

VocEd 551 **Principles and Philosophy of Vocational Education** (3 cr). See VocEd J351/J551.

VocEd 555 **Program Evaluation in Vocational Education** (3 cr). Principles and procedures used in the evaluation of vocational programs.

VocEd 560 **Theories of Vocational Choice** (3 cr). See Couns 560.

VocEd 564 **Special Needs Communication Skills** (3 cr). Development of communication skills for use in mainstreaming handicapped and disadvantaged vocational students; makes use of simulations.

VocEd 566 **Classroom Counseling Techniques and Strategies** (3 cr). Provides teachers with basic knowledge of counseling techniques for use in classroom and in individual meetings with students; required class for those seeking special needs certificate.

VocEd 570 **Principles and Concepts of Research** (3 cr). Same as AdEd 570. Reasons and rationale for quantitative analyses; assumptions needed for selecting an analytical strategy.

VocEd 571 **Accessing, Organizing, and Synthesizing Data** (3 cr). Same as AdEd 571. Uses of computer-based statistics packages, document retrieval services, and text-editing systems in research. Prereq: Stat 251 or perm.

VocEd 581 **Leadership Behavior for Vocational Personnel** (3 cr). Management of human resource development study for educational and vocational personnel employed as teachers and/or departmental administrators; primarily directed at area vocational/technical schools.

VocEd 582 **Peer Coaching and Supervision for Educators** (2 cr). Observation techniques, conferencing, and feedback skills; structuring peer coaching programs.

VocEd 597 (s) **Practicum** (cr arr). Application of theories and techniques; supervised field experiences in selected settings. Graded P/F. Prereq: perm.

VocEd 598 (s) **Internship** (cr arr). Supervised experience in teacher education, administration, supervision, or ancillary services in vocational education. Graded P/F. Prereq: perm.

VocEd 599 (s) **Research** (cr arr). Research not directly related to a thesis or dissertation. Prereq: perm.

VocEd 600 **Doctoral Research and Dissertation** (cr arr).

Curricular Requirements

BUSINESS EDUCATION (B.S.Bus.Ed.)

This major is for students whose primary interest is in teaching basic business subjects and economics. Required course work includes the university requirements (see regulation J-3), the general requirements for students preparing to teach at the secondary level, and:

Course	Credits
BusEd 102 Typewriting II	2
BusEd 185 Machine Calculation	2
BusEd 415 Microcomputer Applications.....	3
BusEd 418 Teaching Consumer Economics.....	2

BusEd 419 Word Processing	3
BusEd 491-492 Teaching Business Education I-II	6
Acctg 201 Introduction to Financial Accounting	3
Acctg 202 Introduction to Managerial Accounting	3
BLaw 265 Legal Environment of Business	3
Econ 201, 202 Principles of Economics	6
Eng 313 Business Writing	3
FCS 448 Consumer Education	3
One of the following sequences	6
Acctg 301-302 Financial Accounting & Reporting I-II	
Bus 407 Financial Institutions and 401 Investments	
Bus 418 Organization Theory and 412 Human Resource Management	
Econ 351 Intern Macroanalysis and 352 Intern Microanalysis	
Accounting, business, or economics electives	3-9

Note: Business education majors are urged to check with their advisers for vocational endorsement information.

INDUSTRIAL TECHNOLOGY (B.Tech.)

Designed to prepare students for both technical and professional careers in industry and business, particularly for supervisory and other mid-management level positions.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
BLaw 265 Legal Environment of Business	3
Bus 311 Introduction to Management	3
Bus 332 Quantitative Methods in Business	3
Bus 370 Production/Operations Management	3
Bus 441 Labor Relations	3
Bus 456 Quality Management	3
BusEd/ITED 415 Microcomputer Applications	3
BusEd/ITED 419 Word Processing	3
BusEd/ITED 460 Desktop Publishing	3
Eng 317 Technical & Engineering Report Writing	3
ITED 265 Computer Aided Drafting/Design	2
ITED 270, 370, 470 Technical Competence and/or ITED 490, 491, 492	
Adv Technical Competence and/or approved technical electives	29
ITED 365 Industrial Supervision	3
ITED 428 Computer Applications for Industrial Technology	3
ITED 450 Industrial Safety	3
Math 140 Pre-calculus Algebra & Analytic Geometry	3
ME 101 Engineering Graphics	2
Psych 100 Introduction to Psychology	3
Stat 251 Principles of Statistics or 301 Probability & Statistics	3

And 30 credits in one of the following technical specialization blocks: (1) material processing—woods, (2) material processing—metals, (3) electronics applications, (4) graphic arts management, (5) computer management, or (6) industrial generalist. For a listing of the specific courses required in each of these blocks, consult the chair of the department.

The minimum number of credits for the degree is 134.

INDUSTRIAL TECHNOLOGY EDUCATION (B.S.Ed.)

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
ITED 120 Principles of Technology I	3
ITED 130 Basic Electronics I	3
ITED 131 Electronics II	3
ITED 218 Power, Energy, & Transportation	3
ITED 250 Intro to Metals Manufacturing	3
ITED 253 Advanced Metals Manufacturing	3
ITED 265 Computer Aided Drafting/Design	2
ITED 280 Building Construction Technology	3
ITED 360 Graphic Communication	3
ITED 380 Computer Numerical Control Technology	3
ITED 420 Curr Dev & Eval in Industrial Technology	3
ITED 428 Computer Applications for Industrial Technology	3
ITED 429 Student Organizations	1-4
ITED 450 Industrial Safety	3
ITED 451 School Laboratory Planning & Administration	3
ITED 472 Industrial Technology Teaching Methods	3
ASM 107 Beginning Welding	2
ME 101 Engineering Graphics	2

Student planning to teach must take the following courses:

Ed 201 Introduction to Teaching	2
Ed 312 Educational Psychology	2
Ed 314 Strategies for Teaching	3
Ed 340 Methods of Teaching Content Reading	3
VocEd 351 Principles & Philosophy of Vocational Ed	3
VocEd 444 Diverse Populations & Individual Differences	2
VocEd 445 Proseminar in Vocational Education	2
VocEd 464 Vocational Guidance	2
VocEd 471 Practicum: Vocational Ed Teaching	10

And one of the following options:

A. GENERAL INDUSTRIAL TECHNOLOGY OPTION: 12 credits in approved ITED courses distributed throughout several technology areas.

B. INDUSTRIAL TECHNOLOGY SPECIALIZATION OPTION: 12 additional credits in a specialized area of technology. Students may specialize in one of the following technology areas: electronics, manufacturing, graphic comm, construction technology, general technology, or computer technology.

C. TEACHING MINOR OPTION: 20-credit teaching minor to be selected from the list of "teaching majors and minors" in the College of Education section.

MARKETING EDUCATION (B.S.Bus.Ed.)

The marketing education major is for students who are interested in teaching marketing, merchandising, and management at the high-school or postsecondary level. Students electing this major should consult the marketing education adviser concerning state requirements for the vocational education certificate.

Required course work includes the university requirements (see regulation J-3), the general requirements for the student preparing to teach at the secondary level, and:

Course	Credits
Acctg 201 Introduction to Financial Accounting	3
Bus 321 Marketing	3
Bus 325 Retailing	3
Bus 420 Promotional Strategy	3
Bus 422 Sales Force Management	3
BusEd 493 Teaching Marketing Education	3
BusEd 497 Coordination Techniques	3
Econ 201 Principles of Economics	3
VocEd 351 Principles & Philosophy of Vocational Education	3
VocEd 444 Diverse Populations & Individual Differences	2
VocEd 453 Task Analysis	1
VocEd 464 Vocational Guidance	2
VocEd 494 Marketing Education Materials	2

And the completion of a 20-credit teaching minor or the following:

Additional requirements for a 60-credit concentration:

Econ 202 Principles of Economics	3
Eng 313 Business Writing	3
VocEd 200 Seminar or 499 Directed Study	3
Electives (approved by marketing ed teacher educator)	7

OFFICE ADMINISTRATION (B.S.O.Ad.)

This degree is for students whose primary interest is in secretarial administration and related office and business positions. Required course work includes the university requirements (see regulation J-3) and the following, including at least 52 credits in courses in Bus, Econ, Acctg, and BusEd and at least 52 credits in courses outside those areas:

Course	Credits
BusEd 102 Typewriting II	2
BusEd 185 Machine Calculation	2
BusEd J210/J410 Alphabetic Shorthand I	2
BusEd 311 Alphabetic Shorthand II	2
BusEd 395 Administrative Office Procedures	3
BusEd 396 Information Processing	3
BusEd 413 Administrative Office Management	3
BusEd 490 Records Management	3
BusEd 496 Directed Work Experience	3
Acctg 201-202 Intro to Financial Acctg & Managerial Acctg	6
BLaw 265 Legal Environment of Business	3
Bus 311 Introduction to Management	3
Bus 321 Marketing	3
Bus 412 Human Resource Management	3
Bus 418 Organization Theory	3
CommG 131 Fundamentals of Public Speaking	2
Econ 201, 202 Principles of Economics	6
Eng 313 Business Writing or 317 Tech & Engr Report Writing	3
One mathematics course	3
One statistics course	3
Upper-division business or economics electives	3
Electives to complete 128 cr for the degree	—

OFFICE OCCUPATIONS EDUCATION (B.S.Bus.Ed.)

Students whose primary interest is in teaching secretarial and clerical subjects and who wish to qualify for vocational certification elect this major. Consult the office occupations education adviser concerning state requirements for the vocational education certificate.

Required course work includes the university requirements (see regulation J-3), the general requirements for students preparing to teach at the secondary level (see College of Education section in part 4), and:

Course	Credits
BusEd 102 Typewriting II	2
BusEd 185 Machine Calculation	2
BusEd J210/J410 Alphabetic Shorthand I	2
BusEd 311 Alphabetic Shorthand II	2

BusEd 395 Administrative Office Procedures	3
BusEd 396 Information Processing	3
BusEd 413 Administrative Office Management	3
BusEd 415 Microcomputer Applications	3
BusEd 418 Teaching Consumer Economics	2
BusEd 490 Records Management	3
BusEd 491-492 Teaching Business Education I-II	6
Acctg 201-202 Intro to Financial Acctg & Managerial Acctg	6
BLaw 265 Legal Environment of Business	3
Econ 201, 202 Principles of Economics	6
Eng 313 Business Writing	3
FCS 448 Consumer Education	3
VocEd 351 Principles & Philosophy of Vocational Education	3
VocEd 444 Diverse Populations & Individual Differences	2
VocEd 464 Vocational Guidance	2
Business or economics electives	6

TRADE AND INDUSTRIAL/TECHNICAL EDUCATION (B.S.Ed.)

While serving preservice teachers in trade and industrial education, this degree is designed primarily for those teachers in area vocational schools and in secondary trade and industrial programs who do not hold degrees. Admission to the program is limited to those who can meet initial certification requirements for an Idaho type "A" vocational specialist certificate.

Required course work includes the university requirements (see regulation J-3) and:

Course	Credits
VocEd 270, 370, 470 Technical Competence	32
VocEd 351 Principles & Philosophy of Vocational Education	3
VocEd 420 Evaluation in Vocational Education	3
VocEd 426 Analysis & Curriculum Dev in Voc Ed	3
VocEd 450 Industrial Safety	3
VocEd 453 Task Analysis	1
VocEd 464 Vocational Guidance	2-3
VocEd 471 Practicum in Voc Ed Teaching or Ed 431 Secondary School Teaching*	3-10
VocEd 472 Vocational Education Methods	3
VocEd 497 Coordination Techniques	3
CommG 131 Fundamentals of Public Speaking or 132 Oral Interpretation	2
Hist 111 or 112 Intro to U.S. History or PolSc 101 Intro to American Politics	3

Psych 100 Introduction to Psychology	3
English or literature electives	6
Science-mathematics electives	12
Social science electives	6
Electives in general studies (to be selected from humanities, social sciences, and natural sciences)	4
VocEd electives	16-19
AdEd 473 Foundations of Adult Education	
VocEd 200, 400 Seminar (3-6 cr)	
VocEd 203, 403 Workshop (1-6 cr)	
VocEd 204, 404 Special Topics (3-6 cr)	
VocEd 299, 499 Directed Study (3-9 cr)	
VocEd 306 Preservice for New Vocational Teachers	
VocEd 307 Inservice for New Vocational Teachers	
VocEd 418 Learning Styles	
VocEd 443 Introduction to Special-Needs Education	
VocEd 444 Diverse Populations & Individual Differences	
Approved course in computer literacy (3 cr)	
Electives approved by vocational teacher educator	11

*If the student wishes to receive a standard secondary certificate, the requirement is Ed 431 or VocEd 471 and the following courses:

Ed 201 Intro to Teaching (if the student has no teaching experience)	2
Ed 312 Educational Psychology	2
Ed 313 Educational Measurement	1
Ed 314 Strategies for Teaching	3
Ed 340 Methods of Teaching Content Reading	3
Ed 445 Proseminar in Teaching	3
Ed 468 Historical & Philosophical Foundations of Ed (same as VocEd 351)	3

WILDLAND RECREATION MANAGEMENT—see Department of Resource Recreation and Tourism

WILDLIFE RESOURCES—see Department of Fish and Wildlife Resources

ZOOLOGY—see Department of Biological Sciences

Faculty

Elisabeth A. Zinser, President; Thomas O. Bell, Provost; Molly W. Stock, Chair of the Faculty Council (1992-93); Douglas Q. Adams, Secretary of the Faculty.

This list was compiled December 1992. Off-campus personnel are identified with an asterisk (*). The date following a name indicates the beginning of service at the university. When two dates are given, the second, in parentheses, is the date of promotion to the rank shown.

*M. AUDREY AARON, 1971 (1976), Professor Emerita of Foreign Languages and Literatures (Spanish); A.B., 1934, Mount St. Scholastica; A.M., 1950, Ph.D., 1952, Johns Hopkins. Emerita since 1979 (now residing in Oklahoma City, Okla.).

*RICHARD D. ABBOTT, 1991, Affiliate Assistant Professor of Chemical Engineering, Moscow; B.S., 1972, Montana State; M.S., 1974, Ph.D., 1983, Idaho.

ERNEST D. ABLES, 1973, Professor of Wildlife Resources; Associate Dean for Academics and Continuing Education, College of Forestry, Wildlife and Range Sciences, 1974-82, 1990- (Head, Department of Fish and Wildlife Resources, 1982-84, 1985-89; Acting Dean, 1984-85); B.S., 1961, Oklahoma State; M.S., 1964, Ph.D., 1968, Wisconsin.

*BARBARA B. ABO, 1976 (1984), Associate Extension Professor of Home Economics; Ada County Extension Home Economist, Boise; B.S., 1972, Wisconsin; M.S., 1975, Iowa State.

TERRY P. ABRAHAM, 1984 (1991), Head, Special Collections and Archives, University Library, with rank of Professor; B.A., 1965, Washington; M.F.A., 1968, Washington State; M.L.S., 1970, Oregon.

*BETTY K. ADAMS, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; B.S., Washington State; M.D., Washington (Seattle).

DAVID L. ADAMS, 1971 (1975), Professor of Forest Resources (Head, Department of Forest Resources, 1979-87); B.S., 1959, Oklahoma State; M.F., 1961, Idaho; Ph.D., 1969, Colorado State.

*DONALD F. ADAMS, 1978, Affiliate Professor of Chemistry, Pullman, Wash.; B.S., 1941, M.S., 1943, Washington State.

DOUGLAS Q. ADAMS, 1972 (1981), Professor of English; Secretary of the Faculty, 1992-; A.B., 1968, A.M., 1971, Ph.D., 1972, Chicago.

GAIL H. ADELE, 1974 (1985), Professor of Mathematics; A.B., 1962, M.A., 1963, Indiana; Ph.D., 1968, Michigan State.

WUDNEH ADMASSU, 1992, Assistant Professor of Chemical Engineering; B.S., 1979, Oregon State; M.S., 1980, Ph.D., 1984, Idaho.

*STEPHEN B. AFFLECK, 1988, Affiliate Associate Professor of Chemical Engineering, Boise; B.S., 1960, Utah; M.S., 1973, Ph.D., 1980, Iowa State.

KATHERINE G. AIKEN, 1984, Assistant Professor of History; B.A., 1972, Idaho; M.A., 1974, Oregon; Ph.D., 1980, Washington State.

*RICHARD K. ALBANO, 1991, Affiliate Assistant Professor of Physics, Idaho Falls; B.S., 1976, Idaho State; M.S., 1980, Alaska; Ph.D., 1989, California (Los Angeles).

CAROL PADGHAM ALBRECHT, 1989, Assistant Professor of Music (oboe, music history); B.A., 1974, M.Mus., 1980, North Texas State.

GARY C. ALEXANDER, 1992, Assistant Professor of Educational Administration; B.S., 1974, M.S., 1975, M.S., 1977, Bemidji State; Ph.D., 1991, Minnesota (Minneapolis).

*RICHARD M. ALFORD, 1975, Affiliate Clinical Professor of Medical Science, Lewiston; B.S., 1945, Ursinus; M.D., 1949, Michigan.

*ROBERT E. ALLAN, 1976, Affiliate Professor of Plant Science, Pullman, Wash.; B.S., 1952, Iowa State; M.S., 1956, Ph.D., 1958, Kansas State.

*ROBERT C. ALLDAFFER, 1955 (1983), Extension Professor Emeritus; B.S.Ag., 1950, Idaho. Emeritus since 1983 (now residing in Soda Springs).

*CHARLES A. ALLEN, 1986, Affiliate Professor of Chemistry, Idaho Falls; B.S., 1962, Ottawa (Kansas); Ph.D., 1969, Oregon State.

*STEWART D. ALLEN, 1987, Affiliate Assistant Professor of Resource Recreation and Tourism, Bend, Oreg.; B.A., 1976, Utah; M.A., 1978, Claremont Graduate School; Ph.D., 1980, Montana.

*ALVIN R. ALLER, 1959 (1972), Professor Emeritus of Botany; B.S., 1931, Bethany; M.S., 1932, Kansas State; Ph.D., 1949, Oregon State. Emeritus since 1972 (now residing in Nampa).

*FLORENCE D. ALLER, 1962 (1971), Professor of Home Economics and Department Head Emerita (Head, Department of Home Economics, 1971-74); B.A., 1930, Bethany-Peniel; M.S., 1947, Oregon State; Ed.D., 1962, Idaho. Emerita since 1974 (now residing in Nampa).

JAMES ALVES-FOSS, 1991, Assistant Professor of Computer Science; B.S., 1987; M.S., 1989, Ph.D., 1991, California (Davis).

DON A. AMOS, 1963, Business and Real Estate Manager Emeritus; B.S.Bus., 1952, Idaho. Emeritus since 1991 (now residing in Moscow).

JAMES K. AMPOFO, 1992, Affiliate Associate Professor of Entomology, Tanzania; B.Sc., 1972, Ghana; Ph.D., 1981, Queensland, Australia.

DOYLE E. ANDEREGG, 1967, Professor of Biology; Associate Dean, College of Letters and Science, 1989-; Management Information Specialist (Assistant Dean, College of Letters and Science, 1981-89; Head, Department of Biological Sciences, 1967-75); B.Sc., 1952, M.S., 1957, Ph.D., 1959, Ohio State.

*BRUCE C. ANDERSON, 1978 (1984), Professor of Pathology, Caldwell; B.S., 1965, D.V.M., 1965, Ph.D., 1977, California (Davis).

CLIFTON E. ANDERSON, 1972 (1977), Associate Extension Professor of Agricultural Information; Associate Agricultural Editor; B.S., 1947, Wisconsin; M.A., 1954, California (Berkeley).

ERIK T. ANDERSON, 1987 (1990), Assistant Extension Professor of Agricultural Information; Associate Agricultural Editor; B.S., 1983, Idaho; M.A., 1985, Wisconsin (Madison).

*GUY R. ANDERSON, 1946 (1968), Professor of Bacteriology and Director of the WAMI Medical Education Program Emeritus; B.S.Ag., 1942, M.S.Ag., 1947, Idaho; Ph.D., 1956, Washington State. Emeritus since 1984 (now residing in Moscow).

*JAMES H. ANDERSON, 1989, Affiliate Professor of Geology, Fairbanks, Alaska; B.S., 1964, Washington (Seattle); Ph.D., 1970, Michigan State.

JANICE C. ANDERSON, 1985 (1991), Assistant Professor of Philosophy; B.A., 1974, Macalester; M.A., 1975, Ph.D., 1985, Chicago.

KIMBERLY A. ANDERSON, 1992, Adjunct Assistant Professor of Food Science and Toxicology; Inorganic Group Leader, UI Analytical Laboratory; B.S., 1981, Oregon; M.S., 1985, Boise State; Ph.D., 1989, Washington State.

MARK D. ANDERSON, 1982 (1990), Professor of Law; B.A., 1973, Macalester; J.D., 1977, Chicago.

MICHAEL J. ANDERSON, 1989, Assistant Professor of Mechanical Engineering; B.S.M.E., 1983, Oregon State; M.S.M.E., 1987, Ph.D., 1989, Washington State.

*MOSELLE W. ANDERSON, 1967 (1977), Extension Professor Emerita; B.A., 1967, Idaho State. Emerita since 1977 (now residing in Pocatello).

*GRAHAM ANDREWS, 1987, Affiliate Assistant Professor of Chemical Engineering, Idaho Falls; B.S., 1969, Imperial College (London); M.S., 1975, Ph.D., 1979, Syracuse.

*CHARLES A. AQUILINA, 1986, Affiliate Professor of Computer Science, Idaho Falls; B.S., 1971, Colorado State; M.B.A., 1976, Xavier.

AHMED A. ARAJI, 1968 (1977), Professor of Agricultural Economics (production economics); Agricultural Economist; B.Sc., 1962, M.Sc., 1964, Nebraska; Ph.D., 1968, Missouri.

*ELDON D. ARCHAMBAULT, 1971, Professor Emeritus of Education; B.A., 1945, Northern Iowa; M.A., 1948, Ph.D., 1967, Iowa. Emeritus since 1983 (now residing in Port Angeles, Wash.).

*WILLIAM B. ARDREY, 1939 (1945), Professor of Veterinary Science and Veterinary Microbiologist Emeritus; B.S., 1934, Monmouth; M.S., 1936, Ph.D., 1939, Michigan State. Emeritus since 1974 (now residing in Bandon, Oreg.).

*JILL E. ARMSTRONG, 1989, Affiliate Assistant Professor of Home Economics, Pullman, Wash.; B.S., 1978, M.S., 1981, North Carolina State; Ph.D., 1985, Rhode Island.

TERRY R. ARMSTRONG, 1969 (1975), Professor of Education (Coordinator of Student Services and Executive Assistant to the President, 1978-89); B.S., 1958, Southern Mississippi; M.Nat.Sc., 1964, Ed.D., 1969, Idaho.

*ROGER O. ASHLEY, 1990, Associate Extension Professor of Agriculture; Bonneville County Extension Agricultural Agent, Idaho Falls; B.S., 1975, Michigan State; M.S., 1989, Arizona.

*JORGE R. ASIN, 1992, Affiliate Associate Professor of Forest Products, Washington, D.C.; B.A., Federal City College (Washington, D.C.); M.A., Georgetown.

DAVID H. ATKINSON, 1989, Assistant Professor of Electrical Engineering; B.A., 1977, Whitman; B.S.E.E., 1980, Washington State; M.S., 1981, Stanford; Ph.D., 1989, Washington State.

*NANCY I. ATKINSON, 1943 (1972), Catalog Librarian Emerita with rank of Professor (Head, Catalog Department, 1943-72); A.B., 1935, A.B.L.S., 1936, Michigan. Emerita since 1972 (now residing in Moscow).

ROY ALDEN ATWOOD, 1984 (1987), Associate Professor of Communication; B.A., 1975, Dordt; M.A., 1977, Westminster Theological Seminary; Ph.D., 1984, Iowa.

*JORG A. L. AUGUSTIN, 1968 (1978), Research Professor Emeritus of Food Science and Biochemistry; Diplomierter Ingenieur Agronom, 1955, Eidgenossische Technische Hochschule, Zurich; M.S., 1957, Illinois; Ph.D., 1964, Michigan State. Emeritus since 1991 (now residing in Moscow).

STEVEN N. AUSTAD, 1993, Associate Professor of Zoology; B.A., 1969, California (Los Angeles); B.A., 1976, California State (Northridge); Ph.D., 1981, Purdue.

- GARY AUSTIN, 1991, Assistant Professor of Landscape Architecture; B.A., 1977, California State (Fullerton); M.L.A., 1981, California State Polytechnic.
- JASPER R. AVERY, 1959 (1962), Assistant Professor of Mechanical Engineering; B.S.M.E., 1957, Idaho; P.E.
- J. FRANKLIN BAILEY, 1984 (1985), Adjunct Instructor in Veterinary Science; Supervisor, Electron Microscopy Center; B.S., 1968, M.S., 1971, Texas A & M.
- *JAMES W. BAILEY, 1953 (1972), Professor Emeritus of Veterinary Science; B.Ed., 1935, Western Illinois State Teachers; D.V.M., 1943, Texas A & M. Emeritus since 1972 (now residing in Caldwell).
- JEFFREY J. BAILEY, 1991, Assistant Professor of Business; B.S., 1987, Colorado State; M.A., 1990, Ph.D., 1991, Akron.
- *EVERETT M. BAILY, 1978, Affiliate Professor of Electrical Engineering, Hewlett-Packard Co., Boise; B.S.E.E., 1961, M.S.E.E., 1964, Idaho; Ph.D., 1968, Stanford.
- *CRAIG R. BAIRD, 1974 (1984), Extension Professor of Entomology, Parma; B.S., 1967, M.S., 1970, Utah State; Ph.D., 1973, Washington State.
- DENNIS W. BAIRD, 1974 (1988), Social Science Librarian with rank of Professor; B.A., 1966, Hawaii; M.A., 1970, Michigan State; M.L.S., 1970, Michigan.
- LYNN N. BAIRD, 1974 (1991), Head, Serials Department, University Library, with rank of Professor; B.A., 1972, Pacific (Stockton, Calif.); M.L.S., 1974, Oregon; M.P.A., 1979, Idaho.
- BRUCE K. BAKER, 1990, Assistant Professor of Military Science; B.S., 1980, SUNY (Albany); M.S., 1984, Boston.
- *EUGENE M. BALDECK, 1981, Affiliate Clinical Professor of Medical Science, Lewiston; B.S., 1955, Idaho; M.D., 1959, Washington.
- *DONALD C. BALDRIDGE, 1969 (1987), Professor Emeritus of History; B.A., 1960, Idaho; Ph.D., 1971, Arizona. Emeritus since 1987 (now residing in Moscow).
- *JO A. BALDRIDGE, 1972 (1974), Associate Registrar Emerita; B.A., 1968, Southern State (Arkansas); M.A., 1971, Idaho. Emerita since 1991 (now residing in Moscow).
- *RONALD J. BALDUS, 1981, Affiliate Professor of Chemical Engineering, Camas, Wash.; B.S., 1974, M.S., 1975, Ph.D., 1979, Idaho.
- ANNA BANKS, 1989, Assistant Professor of Communication; B.A., 1983, Nottingham (England); M.A., 1986, California (Santa Barbara); Ph.D., 1989, Southern California (Los Angeles).
- STEPHEN P. BANKS, 1989, Assistant Professor of Communication; B.A., 1970, Washington (Seattle); M.A., 1983, Ph.D., 1987, Southern California (Los Angeles).
- *DAVID BARBER, 1988, Affiliate Assistant Professor of Computer Science, Idaho Falls; B.S., 1964, Henderson State; M.S., 1970, Florida Institute of Technology; Ph.D., 1980, Southern Methodist.
- DAVID S. BARBER, 1968 (1974), Associate Professor of English; A.B., 1962, Hamilton; M.A., 1963, Ph.D., 1968, Michigan.
- *JAMES R. BARBORAK, 1991, Affiliate Assistant Professor of Resource Recreation and Tourism, Heredic, Costa Rica; B.S., 1975, M.S., 1976, Ohio State.
- EROL BARBUT, 1967 (1987), Professor of Mathematics; B.A., 1963, California (Berkeley); M.A., 1965, Ph.D., 1967, California (Riverside).
- *MARY BARKSWORTH, 1987, Affiliate Associate Professor of Biology, Logan, Utah; B.S., 1961, British Columbia; M.Ed., 1970, Western Washington; Ph.D., 1975, Washington State.
- DOROTHY T. BARNES, 1969 (1982), Professor of Music (voice); B.Mus., 1948, M.Mus., 1964, Idaho.
- *WILLARD BARNES, 1965 (1985), Professor Emeritus of History; B.S.Ed., 1949, M.S.Ed., 1950, Idaho; Ph.D., 1968, Washington State. Emeritus since 1985 (now residing in Moscow).
- *WILLIAM P. BARNES, 1957 (1963), Professor Emeritus of Mechanical Engineering (Department Chair, 1974-80); B.S.M.E., 1947, Idaho; M.M.E., 1949, Yale; Ph.D., 1973, Illinois; P.E. Emeritus since 1987 (now residing in Moscow).
- MICHAEL BARNETT, 1992, Assistant Professor of Computer Science; B.A., 1985, Brooklyn College; Ph.D., 1992, Texas (Austin).
- *DANNY L. BARNEY, 1988, Assistant Extension Professor of Horticulture; Superintendent of the Sandpoint Research and Extension Center, Sandpoint; B.S., 1975, United States Coast Guard Academy; M.S., 1984, Brigham Young; Ph.D., 1987, Cornell.
- ROBERT M. BARON, 1974 (1984), Professor of Architecture; Department Chair, 1990-; B.Arch., 1972, Oregon; M.Arch., 1973, Washington (Seattle); M.S., 1990, Pennsylvania; R.A.
- *WILLIAM F. BARR, 1947 (1958), Professor of Entomology and Department Head Emeritus (Head, Department of Entomology, 1978-82); M.S., 1947, Ph.D., 1950, California (Berkeley). Emeritus since 1982 (now residing in Moscow).
- *DEBONNY L. BARSKY-SHOAF, 1988, Affiliate Assistant Professor of Biochemistry, Idaho Falls; B.S., 1973, Pennsylvania State; Ph.D., 1981, Pittsburg School of Medicine.
- *WYLLA D. BARSNESS, 1990, Affiliate Professor of Vocational Teacher and Adult Education, Boise; A.B., 1949, William Jewell College; M.S., 1959, Montana State; Ph.D., 1969, Minnesota.
- *BEN B. BARSTOW, 1988, Assistant Extension Professor of Agriculture; Lewis County Extension Agricultural Agent, Nezperce; B.S., 1980, Idaho; M.S., 1983, Purdue.
- *CHARLES G. BARTELL, 1950 (1968), Professor Emeritus of Architecture; B.Arch., 1949, Washington (Seattle); M.S.Arch., 1950, Columbia. Emeritus since 1973 (now residing in Moscow).
- ROBERT W. BARTLETT, 1987, Professor of Metallurgy; Dean, College of Mines and Earth Resources, 1987-; Director, Idaho Geological Survey; B.S., 1953, Ph.D., 1961, Utah.
- *DAVID L. BARTON, 1992, Assistant Extension Professor; Jerome County Extension Agricultural Agent, Jerome; B.S., 1988, M.S., 1991, Idaho.
- *ELBERT M. BARTON, 1960 (1981), Professor of Naval Science and Director of Personnel Services Emeritus; B.S., 1942, Oklahoma State; M.S., 1963, Idaho. Emeritus since 1981 (now residing in Moscow).
- *JAMES A. BATDORF, 1989, Affiliate Assistant Professor of Chemical Engineering, Idaho Falls; B.S., 1979, M.S., 1982, Ph.D., 1988, Idaho.
- RICHARD A. BATTAGLIA, 1991, Professor of Animal Science; Head, Department of Animal and Veterinary Science, 1991-; B.S., 1966, Southern Illinois; M.S., 1968, Ph.D., 1969, Virginia Polytechnic Institute.
- *LeROY O. BAUER, 1956 (1961), Professor Emeritus of Music; B.S.Mus.Ed., 1941, Wisconsin (Milwaukee); M.Mus., 1946, Northwestern. Emeritus since 1982 (now residing in Moscow).
- *LAWRENCE F. BAUM, 1983 (1986), Affiliate Assistant Professor of Geology, Moscow; B.S., 1963, Stanford; M.S., 1968, Washington (Seattle); Ph.D., 1975, Idaho.
- *HAZEL E. BAUMAN, 1986, Affiliate Instructor in Special Education, Hayden Lake; B.A., 1976, M.Ed., 1979, Eastern Washington.
- DIANE M. BAUMGART, 1981 (1988), Associate Professor of Special Education; B.S., 1970, Wisconsin (Stevens Point); M.S., 1978, Ph.D., 1981, Wisconsin (Madison).
- *RICHARD H. BAUSCHER, 1990, Affiliate Assistant Professor of Educational Administration, Kimberly; B.A., 1975, M.Ed., 1977, College of Idaho; Ed.D., 1984, Washington State.
- *JOHN C. BAXTER, 1989, Adjunct Assistant Professor of Soil Science; Irrigation Agronomist; B.S., 1969, M.S., 1973, Maryland; Ph.D., 1981, Colorado State.
- FOUAD M. BAYOMY, 1991, Associate Professor of Civil Engineering; B.S.C.E., 1973, Cairo (Egypt); M.S.C.E., 1977, Ph.D., 1982, Ohio State.
- *RANDY R. BEAN, 1978, Affiliate Professor of Veterinary Medicine, Homedale; D.V.M., 1972, Washington State.
- D. BENJAMIN BEARD, 1987, Associate Professor of Law; B.A. 1977, Cincinnati; J.D., 1982, Case Western Reserve.
- *MABEL R. BEATTIE, 1925 (1965), Professor Emerita of Foreign Languages; B.A., 1923, Idaho; M.A., 1925, Radcliffe. Emerita since 1967 (now residing in Moscow).
- EDWARD J. BECHINSKI, 1982-86, 1989 (1992), Associate Extension Professor of Entomology; B.S., 1977, Purdue; M.S., 1980, Ph.D., 1982, Iowa State.
- *GERALD L. BECK, 1988, Affiliate Assistant Professor of Vocational Teacher Education, Twin Falls; B.S.Ed., 1980, M.Ed., 1982, Ed.D., 1987, Idaho.
- *RICHARD J. BECK, 1957 (1971), Associate Dean Emeritus of Library Services with rank of Professor; B.A., 1949, St. Thomas; B.S.L.S., 1950, M.A., 1955, Minnesota. Emeritus since 1988 (now residing in Moscow).
- *SIDNEY M. BECK, 1951 (1972), Professor Emeritus of Bacteriology; A.B., 1941, M.A., 1948, Brigham Young; Ph.D., 1951, Pennsylvania State. Emeritus since 1983 (now residing in Moscow).
- *JOHN J. BEECHAM, JR., 1984, Affiliate Professor of Wildlife Resources, Boise; B.S., 1968, Texas Tech; M.S., 1970, Idaho; Ph.D., 1980, Montana.
- RICHARD W. BEESON, 1972 (1991), Associate Professor of Sociology (Head, Department of Sociology/Anthropology, 1981-91); B.A., 1962, M.A., 1964, Ph.D., 1971, New Mexico.
- MICHAEL E. BEISER, 1983 (1984), Adjunct Instructor in Recreation; Assistant Coordinator, Outdoor Programs; B.A., 1983, Washington State.
- *GEORGE A. BEITEL, 1991, Affiliate Associate Professor of Physics, Idaho Falls; B.S., 1962, Portland; M.S., 1964, Ph.D., 1969, Wisconsin (Madison).
- *GEORGE M. BELL, 1949 (1955), Professor Emeritus of Law; B.S., 1935, Utah State; J.D., 1940, George Washington. Emeritus since 1979 (now residing in Spokane).
- *ROY A. BELL, 1950 (1972), Professor Emeritus of Photography; B.A., 1938, M.A., 1954, Idaho. Emeritus since 1972 (now residing in Monroe, Wash.).
- *SUSAN M. BELL, 1984 (1989), Associate Extension Professor of Agriculture; Ada County Extension Agricultural Agent, Boise; B.A., 1972, Quincy; M.S., 1978, Southern Illinois; M.A., 1985, Oregon State.

*T. DONALD BELL, 1957, Professor of Animal Science and Department Head Emeritus (Department Head, 1957-70); B.S. Ag., 1932, M.S. Ag., 1936, Idaho; Ph.D., 1939, Wisconsin. Emeritus since 1975 (now residing in Mesa, Ariz.).

THOMAS O. BELL, 1966-70, 1971 (1971), Professor of Education; Provost, 1991- (Vice President for Academic Affairs and Research, 1984-91; Dean, College of Education, 1981-84; Associate Dean, College of Education, 1974-81; Director, Division of Teacher Education, 1971-81); B.S., 1953, M.S., 1957, Idaho State; Ed.D., 1966, Utah State.

*GLADYS I. BELLINGER, 1960, Professor Emerita of Home Economics (Department Head, 1960-67); B.S., 1933, Kansas State (Emporia); M.S., 1948, Ph.D., 1950, Cornell. Emerita since 1979 (now residing in Moscow).

GEORGE H. BELT, JR., 1965 (1978), Professor of Forest Resources (watershed management) (Associate Dean for Research, College of Forestry, Wildlife and Range Sciences, 1983-86); Chair, Faculty Council, 1972-73; B.F., 1960, North Carolina State; M.F., 1962, Yale; D.F., 1968, Duke.

*CAROL A. BENESH, 1991, Assistant Extension Professor of Home Economics; Boundary County Extension Home Economist, Bonners Ferry; B.S., 1973, Central Washington; M.S., 1985, Eastern Washington.

DAVID H. BENNETT, 1975 (1984), Professor of Fishery Resources; B.S., 1964, M.S., 1968, Connecticut; Ph.D., 1975, Virginia Polytechnic.

EARL H. BENNETT II, 1977, Adjunct Professor of Geology; Associate Director, Idaho Geological Survey; B.A., 1968, Delaware; M.S., 1970, North Carolina State (Raleigh); Ph.D., 1973, Idaho.

PHILIP H. BERGER, 1988, Assistant Professor of Plant Pathology; Adjunct Assistant Professor of Bacteriology and Biochemistry; B.A., 1977, M.S., 1980, Minnesota; Ph.D., 1983, Texas A & M.

*HERBERT A. BERMAN, 1952 (1957), Professor Emeritus of Law; A.B., 1924, J.D., 1927, Harvard. Emeritus since 1967 (now residing in Moscow).

*RAY A. BERRY, 1981, Affiliate Professor of Mechanical Engineering, Idaho Falls; B.S., 1975, M.E., 1976, Brigham Young; Ph.D., 1992, Idaho.

TERRY L. BERRY, 1987 (1989), Lecturer in English; B.S., 1980, Washington State; M.A., 1989, Idaho.

*EDITH BETTS, 1951 (1968), Professor Emerita of Physical Education (Chair, Physical Education for Women, 1969-78); B.S., 1943, Wisconsin; M.S. Ed., 1951, Smith; Ph.D., 1968, Oregon. Emerita since 1983 (now residing in Salem, Oregon).

*ALICE I. BEVANS, 1990, Affiliate Assistant Professor of Teacher Education, Moscow; B.G.S., 1976, M.Ed., 1977, Idaho; M.S., 1988, Portland; Ph.D., 1989, Idaho.

RONALD D. BEVANS, 1970 (1977), Professor of Architecture (Acting Dean, College of Art and Architecture, 1989-90; Associate Dean, 1981-89; Acting Department Chair, 1986-7; Department Chair, 1981-84); B.Arch., 1964, Nebraska; M.Arch., 1965, Washington (Seattle); R.A.

STEVEN W. BEYERLEIN, 1987, Assistant Professor of Mechanical Engineering; B.S., 1979, Massachusetts; M.S., 1981, Dartmouth; Ph.D., 1987, Washington State.

SARIT B. BHADURI, 1990, Assistant Professor of Metallurgy; B.S., 1974, M.S., 1976, Indian Institute of Technology; Ph.D., 1981, SUNY (Stony Brook).

ARIE BIALOSTOCKI, 1984 (1992), Professor of Mathematics; B.Sc., 1973, M.Sc., 1979, Ph.D., 1984, Tel Aviv.

R. PAUL BICKERSTAFF, 1989, Associate Professor of Physics; B.Sc. (Hons.), 1976, M.Sc., 1978, Ph.D., 1981, Canterbury (New Zealand).

*WILLIAM R. BIGGAM, 1959 (1966), Professor and Chair of Industrial Education Emeritus (Chair, Industrial Education, 1959-84); B.S., 1947, Minnesota (Duluth); M.A., 1948, Minnesota (Minneapolis); Ed.D., 1958, Bradley. Emeritus since 1984 (now residing in Moscow).

JAMES A. BIKKIE, 1973 (1976), Professor of Vocational Teacher Education (Director, Division of Vocational Teacher and Adult Education, 1973-88); B.S., 1956, St. Cloud State; M.A., 1957, Ph.D., 1973, Minnesota (Minneapolis).

ERNEST BILLER, 1991, Associate Professor of Vocational Teacher and Adult Education; B.S., 1971, M.S., 1979, Ph.D., 1982, Southern Illinois (Carbondale).

*WILLIAM A. BILLINGSLEY, 1954 (1967), Professor Emeritus of Music (Director, School of Music, 1977-78); B.Mus. Ed., 1952, M.Mus., 1953, Drake. Emeritus since 1984 (now residing in Moscow).

ROBERT B. BILLUPS, 1988, Associate Professor of Music; B.Mus. Ed., 1968, West Virginia State; M.M., 1971, Cincinnati; D.M.A., 1985, Arizona.

RICHARD T. BINGHAM, 1959, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.S., 1940, M.S., 1942, Idaho.

*DONALD J. BIRAK, 1989, Affiliate Assistant Professor of Geology, Elko, Nevada; B.S., 1975, M.S., 1978, Bowling Green State.

*GUY W. BISHOP, 1957 (1970), Professor Emeritus of Entomology; B.S., 1951, M.S., 1953, Oregon State; Ph.D., 1958, Washington State. Emeritus since 1987 (now residing in Ashland, Oregon).

THOMAS E. BITTERWOLF, 1988 (1992), Professor of Chemistry; Director of Teaching Enhancement, 1992-; B.S., 1968, Centenary College of Louisiana; Ph.D., 1976, West Virginia.

*RANDALL L. BIVENS, 1992, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1978, Loma Linda.

*ELWOOD G. BIZEAU, 1967 (1977), Professor Emeritus of Wildlife Resources; B.S., 1948, Oregon State; M.S. For., 1951, Idaho. Emeritus since 1985 (now residing in Moscow).

THEODORE C. BJORN, 1966 (1972), Professor of Fish and Wildlife Resources; Assistant Leader, Idaho Cooperative Fishery Research Unit; B.S., 1956, Utah State; M.S., 1957, Idaho; Ph.D., 1966, Utah State.

*JAMES L. BLACK, 1966 (1983), Professor Emeritus of Adult Education; B.A., 1949, M.S., 1953, Idaho; Ed.D., 1969, Washington State. Emeritus since 1984 (now residing in Kendrick).

LOIS BLACKBURN, 1992, Associate Professor of Music (music education); B.S., 1953, Purdue; M.Mus., 1970, Catholic University of America; D.M.A., 1985, Arizona.

*WILBERT H. BLACKBURN, 1987, Affiliate Professor of Range Resources, Boise; B.S., 1965, Brigham Young; M.S., 1967, Ph.D., 1973, Nevada (Reno).

DONALD M. BLACKKETTER, 1989, Assistant Professor of Mechanical Engineering; B.S., 1985, M.S., 1986, Ph.D., 1989, Wyoming.

*WILSON BLAKE, 1983, Affiliate Professor of Mining Engineering, Hayden Lake; B.A., 1957, M.S., 1962, University of California (Berkeley); Ph.D., 1971, Colorado School of Mines.

*PAUL L. BLANTON, 1958 (1972), Professor of Architecture and Dean Emeritus (Dean, College of Art and Architecture, 1981-89; Head, Department of Art and Architecture, 1971-81); B.S., 1957, Idaho; M.Arch., 1963, California (Berkeley); R.A. Emeritus since 1990 (now residing in Spokane).

*KEITH A. BLATNER, 1986, Affiliate Assistant Professor of Forest Products, Pullman, Wash.; B.S., 1975, Ohio State; M.S., 1977, Mississippi State; Ph.D., 1983, Virginia Polytechnic.

*GEORGE L. BLOOMSBURG, 1961 (1969), Professor Emeritus of Agricultural Engineering (Director, Idaho Water Resources Research Institute, 1984-89); B.S. Ag. E., 1957, M.S. Ag. E., 1958, Idaho; Ph.D., 1964, Colorado State; P.E./L.S. Emeritus since 1992 (now residing in Moscow).

GENE E. BOBECK, 1967 (1972), Associate Professor of Metallurgy; Head, Department of Metallurgical and Mining Engineering, 1989-; B.A., 1952, Knox; M.S., 1956, Iowa State; Ph.D., 1970, Denver.

LARRY E. BOBISUD, 1967 (1974), Professor of Mathematics (Department Chair, 1978-82); B.S., 1961, College of Idaho; M.S., 1963, Ph.D., 1966, New Mexico.

*HAROLD E. BOCKELMAN, 1987, Affiliate Assistant Professor of Plant Science, Aberdeen; B.S., 1970, Purdue; Ph.D., 1974, California (Davis).

*GLENN L. BODILY, 1946 (1976), Extension Professor Emeritus; B.S. Ag., 1939, M.S. Ag., 1939, Idaho. Emeritus since 1978 (now residing in Caldwell).

MARY ANN R. BOEHMKE, 1991, Assistant Humanities Librarian with rank of Assistant Professor; B.S., 1972, Michigan State; M.L.S., 1985, Washington (Seattle).

*MARK V. BOGGESE, 1990, Assistant Extension Professor of Animal Science; Extension Animal Scientist, Twin Falls; B.S., 1983, Iowa State; M.S., 1986, Cornell; Ph.D., 1989, Iowa State.

CAROLYN H. BOHACH, 1990, Assistant Professor of Bacteriology; B.S., 1975, Illinois; M.T. (A.S.C.P.), 1976, Swedish Hospital Medical Center; Ph.D., 1985, Minnesota.

GREGORY A. BOHACH, 1988, Assistant Professor of Bacteriology; B.S., 1975, Pittsburgh (Johnstown); M.S., 1982, Ph.D., 1985, West Virginia.

*WILLIAM BOHL, 1990, Assistant Extension Professor of Agriculture; Bingham County Extension Agricultural Agent, Blackfoot; B.S., 1973, Montana State; M.S., 1975, South Dakota State; Ph.D., 1981, Iowa State.

*WILLIAM BOHL, 1990, Assistant Extension Professor of Agriculture; Bingham County Extension Agricultural Agent, Blackfoot; B.S., 1973, Montana State; M.S., 1975, South Dakota State; Ph.D., 1981, Iowa State.

MARY K. BOLIN, 1986 (1991), Head, Cataloging Department, University Library, with rank of Associate Professor; B.A., 1976, Nebraska; M.L.S., 1981, Kentucky.

ROBERT L. BOLIN, 1986 (1989), Social Science Reference Librarian with rank of Assistant Professor; B.A., 1970, Texas; M.L.S., 1981, Kentucky; M.P.A., 1983, Georgia.

*DARRELL G. BOLZ, 1971 (1981), Extension Professor of Agriculture; Canyon County Extension Agricultural Agent, Caldwell; B.S. Ag., 1966, M.S., 1970, Idaho.

ISABEL E. BOND, 1971 (1974), Instructor in Secondary Education; Director, Upward Bound Program; B.S., 1954, Idaho.

BILL BONNICHSEN, 1977, Adjunct Professor of Geology; Supervisory Geologist, Idaho Geological Survey; B.S., 1960, Idaho; Ph.D., 1968, Minnesota.

*BERNARD C. BORNING, 1949 (1962), Professor Emeritus of Political Science; B.A., 1936, Ph.D., 1951, Minnesota. Emeritus since 1978 (now residing in Moscow).

MARY T. BOSTICK, 1991, Adjunct Assistant Professor of Special Education; Regional Special Education Consultant, College of Education; B.A., 1973, Colorado; M.Ed., 1980, Ph.D., 1991, Idaho.

*THOMAS M. BOWEN, 1989, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1976, Loma Linda.

*JAN S. BOWERS, 1992, Affiliate Assistant Professor of Home Economics, Boise; B.A., 1973, M.S., 1975, Central Washington; Ph.D., 1982, Kansas State.

WILLIAM B. BOWLER, JR., 1978 (1985), Associate Professor of Architecture; B.Arch., 1966, Idaho; M.Arch., 1984, California (Berkeley).

RAYMOND J. BOYD, JR., 1963, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.S., 1949, M.F., 1950, Colorado State.

*THOMAS BOYLE, 1982, Affiliate Professor of Chemical Engineering, Seattle, Wash.; B.S., 1957, Sc.D., 1963, Massachusetts Institute of Technology.

*FRED W. BRACKEBUSCH, 1985, Affiliate Assistant Professor of Mining Engineering, Coeur d'Alene; B.S., 1966, M.S., 1969, Idaho.

*PATRICIA A. BRADY, 1983, Affiliate Clinical Professor of Medical Science, Lewiston; B.A., 1973, Denver; M.D., 1976, Ohio State.

*KEITH A. BRAMWELL, 1979 (1990), Associate Extension Professor of Agriculture; Bingham County Extension Agricultural Agent, Blackfoot; B.S., 1971, Utah State; M.S., 1986, Idaho.

WILLY BRANDAL, 1980 (1988), Professor of Mathematics; B.S., 1964, M.A., 1967, Washington (Seattle); Ph.D., 1972, Northwestern.

ELIZABETH B. BRANDT, 1988, Associate Professor of Law; B.A., 1979, College of Wooster; J.D., 1982, Case Western Reserve.

A. LARRY BRANEN, 1983, Professor of Food Science; Dean, College of Agriculture, 1986- (Associate Vice President for Academic Affairs and Research, 1990-91; Associate Dean and Director of Resident Instruction, College of Agriculture, 1983-86); B.S., 1967, Idaho; Ph.D., 1970, Purdue.

LAUREL J. BRANEN, 1990, Assistant Professor of Home Economics; B.S., 1971, Wisconsin (Madison); M.S., 1979, Washington State; Ph.D., 1989, Idaho.

ERNEST L. BRANNON, 1988, Professor of Fishery Resources and of Animal Science; Director, Aquaculture Program; B.S., Ph.D., Washington (Seattle).

*R. BRUCE BRAY, 1961 (1974), Professor of Music and Secretary of the Faculty Emeritus (Secretary of the Faculty, 1968-88); B.A., 1949, M.Mus., 1955, Oregon. Emeritus since 1989 (now residing in Spokane, Wash.).

ROY M. BRECKENRIDGE, 1978, Adjunct Professor of Geology; Supervisory Geologist, Idaho Geological Survey; B.S., 1967, Washington State; M.S., 1969, Ph.D., 1974, Wyoming.

*PHILLIP BREGITZER, 1990, Affiliate Assistant Professor of Plant Science, Aberdeen; B.S., 1983, Iowa State; M.S., 1985, Ph.D., 1989, Minnesota.

GEORGE BRIDGES, 1985 (1992), Associate Professor of Foreign Languages and Literatures (German); A.B., 1961; M.A., 1968, Indiana; Ph.D., 1983, Illinois.

BRUCE C. BROCKMAN, 1980 (1988), Associate Professor of Theatre Arts; Department Chair, 1985-88, 1989-; B.F.A., 1975, Emporia Kansas State; M.S., 1976, M.F.A., 1979, Illinois State.

*CHARLES E. BROCKWAY, 1965 (1978), Research Professor of Agricultural Engineering and Civil Engineering (water resources), Kimberly; B.S.C.E., 1959, Idaho; M.S.C.E., 1960, California Institute of Technology; Ph.D., 1977, Utah State; P.E./L.S.

*BLAINE W. BROWN, 1988, Affiliate Assistant Professor of Chemical Engineering, Idaho Falls; B.S., 1981, Utah; Ph.D., 1985, Brigham Young.

*BRADFORD D. BROWN, 1975 (1989), Associate Extension Professor of Soil Science and Crop Management, Parma; B.A., 1970, Fresno State College; B.S., 1973, California (Riverside); M.S., 1975, California (Davis); Ph.D., 1985, Utah State.

*EDWARD J. BROWN, 1991, Affiliate Professor of Microbiology, University of Alaska, Fairbanks; B.S., 1970, Minnesota; M.S., 1973, Ph.D., 1975, Wisconsin.

JACK BROWN, 1992, Assistant Professor of Plant Breeding and Genetics; M.S., 1985, Ph.D., 1988, St. Andrews.

*MELVIN J. BROWN, 1973, Affiliate Professor of Soil Science, Soil and Water Management Research Unit, USDA, Kimberly; B.S., 1960, Utah State; M.S., 1963, California (Riverside).

MICHAEL E. BROWNE, 1967, Professor of Physics (Department Chair, 1967-75); B.S., 1952, Ph.D., 1955, California (Berkeley).

*PATTI A. BRUNNER, 1992, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Boise; B.A., 1965, M.Ed., 1969, Montana; Ed.D., 1990, Idaho.

*JAMES E. BRUNO, 1992, Affiliate Professor of Educational Administration, Los Angeles, Calif.; Ph.D., 1968, California (Los Angeles).

*DALE A. BRUNS, 1991, Affiliate Associate Professor of Zoology, Idaho Falls; B.S., 1973, Xavier; M.S., 1977, Arizona State; Ph.D., 1981, Idaho State.

STEVEN J. BRUNSFELD, 1976 (1990), Assistant Professor of Forest Resources; B.S., 1976, M.S., 1981, Idaho; Ph.D., 1990, Washington State.

MERLYN A. BRUSVEN, 1965 (1975), Professor of Entomology; B.S., 1959, M.S., 1961, North Dakota State; Ph.D., 1965, Kansas State.

*ROSEMARY J. V. BUDEN, 1991, Affiliate Professor of Geology, Idaho Falls; B.A., 1952, Oberlin; Ph.D., 1968, Yale.

RALPH S. BUDWIG, 1985 (1991), Associate Professor of Mechanical Engineering; B.S., 1977, Colorado; Ph.D., 1985, Johns Hopkins.

DANIEL J. BUKVICH, 1978 (1988), Professor of Music (percussion, marching band); B.A., 1976, Montana State; M.Mus., 1978, Idaho.

*MARIE S. BULGIN, 1977 (1989), Professor of Veterinary Medicine; Clinical Pathologist, Caldwell; B.A., 1960, California (Berkeley); D.V.M., 1967, California (Davis); Diplomate ACVM, 1981.

RICHARD C. BULL, 1967 (1972), Associate Professor of Animal Science; Associate Animal Nutritionist; B.S., 1957, M.S., 1960, Colorado State; Ph.D., 1966, Oregon State.

*RICHARD E. BULLINGTON, 1992, Affiliate Professor of Vocational Teacher and Adult Education, Boise; B.S., 1942, Rutgers; M.S., 1951, Ed.D., 1953, Alabama.

*MARLENE M. BUNDERSON, 1957-67, 1970 (1977), Extension Professor Emerita of Home Economics; B.S., 1955, Ricks; M.S., 1957, Utah State. Emerita since 1990 (now residing in St. Charles).

STEPHEN C. BUNTING, 1978 (1988), Professor of Range Resources; B.S., 1971, Colorado State; M.S., 1974, Ph.D., 1978, Texas Tech.

*G. ELLIS BURCAW, 1966 (1978), Professor Emeritus of Anthropology (Director, University Museum, 1966-82); B.A., 1943, Maryville (Tenn.); M.A., 1973, Idaho. Emeritus since 1988 (now residing in Tucson, Ariz.).

*LARRY A. BURCHFIELD, 1988, Affiliate Assistant Professor of Chemistry, Idaho Falls; B.S., 1979, John Brown; Ph.D., 1982, Arizona.

*VERNON H. BURLISON, 1946 (1971), Extension Professor and Extension Forester Emeritus; B.S.For., 1943, M.S.For., 1949, Idaho. Emeritus since 1978 (now residing in Moscow).

*GREGORY J. BURRATO, 1977, Affiliate Clinical Professor of Medical Science, Lewiston; B.S., 1962, Gonzaga; M.D., 1966, Creighton.

DAMON D. BURTON, 1983 (1989), Associate Professor of Physical Education; B.S., 1972, Kansas State; M.S., 1975, Wisconsin; Ph.D., 1983, Illinois.

*L. DEVERE BURTON, 1987, Affiliate Assistant Professor of Agricultural Education, Boise; B.S., 1967, Utah State; M.S., 1972, Brigham Young; Ph.D., 1987, Iowa State.

SALLY L. BURTON, 1983-87, 1991 (1991), Adjunct Assistant Professor of Special Education; Coordinator of Interdisciplinary Training, College of Education; B.A., 1976, Avila; M.S., 1980, Kansas (Kansas City); Ed.D., 1988, Idaho.

JOHN H. BUSH, JR., 1974 (1980), Associate Professor of Geology (Head, Department of Geology and Geological Engineering, 1983-86, 1987-90); B.S., 1965, Bowling Green State; M.S., 1967, Montana State; Ph.D., 1973, Washington State.

JAMES E. BUTLER, 1987, Assistant Professor of Animal Science; Embryo Physiologist; B.S., 1978, California (Davis); M.S., 1980, Idaho; Ph.D., 1985, California (Davis).

JOHN M. BUTTERWORTH, 1992, Assistant Professor of Naval Science; B.S., 1984, Washington State.

C. RANDALL BYERS, 1973 (1977), Associate Professor of Statistics and Management; Head, Department of Business, 1977-85, 1990-; B.S., 1968, Idaho; M.S., 1969, Wyoming; Ph.D., 1973, Minnesota.

JOHN A. BYERS, 1980 (1986), Associate Professor of Zoology; B.A., 1970, Swarthmore; M.S., 1975, West Virginia; Ph.D., 1980, Colorado.

*ROLAND O. BYERS, 1954 (1962), Professor of General Engineering and Chair Emeritus; B.S., 1946, M.S., 1949, Ohio. Emeritus since 1981 (now residing in Moscow).

*JOY BYRAM, 1988, Affiliate Instructor in Special Education, Moscow; B.S., 1975, Western Oregon State.

*DONALD H. CADWELL, 1980, Affiliate Professor of Geology, Albany, N.Y.; B.S., 1963, SUNY (New Paltz); M.S., 1969, Franklin and Marshall; Ph.D., 1973, SUNY (Binghamton).

*RICHARD A. CALLAHAN, 1986, Affiliate Professor of Biological Science and Biochemistry, Moscow; B.S., 1963, College of the Holy Cross; M.S., 1966, Ph.D., 1970, Massachusetts.

ROBERT H. CALLIHAN, 1967 (1991), Extension Professor of Agronomy (weed science); B.S.Ag., 1957, Idaho; M.S., 1961, Ph.D., 1972, Oregon State.

*MARK B. CALNON, 1945 (1973), Extension Professor Emeritus; B.S.Ag., 1940, Idaho. Emeritus since 1973 (now residing in Meridian).

JAMES E. CALVERT, JR., 1967 (1976), Professor of Mathematics (Chair, Department of Mathematics and Statistics, 1982-90); A.B., 1963, California (Berkeley); M.A., 1964, Ph.D., 1966, California (Davis).

KELLY CAMERON, 1989, Adjunct Assistant Professor of Electrical Engineering; Software Engineer; B.S.E.E., 1980, Ph.D., 1989, Idaho.

- *STACEY D. CAMP, 1987, Assistant Extension Professor of Agriculture; Extension Agricultural Agent for the Water Quality Project, Burley; B.S., 1984, M.S., 1986, Brigham Young.
- ALTON G. CAMPBELL, 1983 (1988), Associate Professor of Forest Products; Adjunct Associate Professor of Biochemistry; B.S., 1971, North Carolina (Chapel Hill); M.A., 1977, Duke; Ph.D., 1983, North Carolina (Raleigh).
- *HOWARD E. CAMPBELL, 1963, Professor Emeritus of Mathematics (Department Chair, 1963-78); B.S., 1946, M.S., 1947, Ph.D., 1949, Wisconsin. Emeritus since 1981 (now residing in San Luis Obispo, Calif.).
- *ELMER R. CANFIELD, 1975 (1980), Professor Emeritus of Forest Resources; B.S., 1964, Ph.D., 1969, Idaho. Emeritus since 1980 (now residing in Nampa).
- GEORGE F. CANNEY, 1978 (1986), Professor of Education; B.A., 1965, California (Berkeley); M.A., 1968, San Jose State; M.Ed., 1971, Ph.D., 1974, Minnesota.
- ALLAN B. CAPLAN, 1992, Associate Professor of Biochemistry; B.S., 1970, Rutgers; Ph.D., 1980, Iowa.
- THOMAS E. CARLESON, 1982 (1992), Professor of Chemical Engineering; B.S., 1966, Oregon State; M.S., 1977, Idaho; Ph.D., 1982, Washington; P.E.
- JOHN E. CARLSON, 1970 (1979), Research Professor of Rural Sociology; Adjunct Professor of Sociology; B.S., 1964, M.A., 1969, Ph.D., 1972, Washington State.
- *RONALD D. CARLSON, 1986, Affiliate Professor of Agricultural Engineering, Idaho Falls; B.S., 1971, M.S., 1974, Idaho.
- GENE P. CARPENTER, 1966 (1979), Associate Research and Extension Professor of Entomology; Extension Pest Management Coordinator; B.Sc., 1955, Oklahoma State; M.S., 1961, Ph.D., 1963, Oregon State.
- *DAVID L. CARTER, 1969, Affiliate Professor of Soil Science, Soil and Water Management Research Unit, USDA, Kimberly; B.S., 1955, M.S., 1956, Utah State; Ph.D., 1960, Oregon State.
- *CHARLES E. CARTMILL, 1985, Affiliate Professor of Engineering Science, Idaho Falls; B.E.S., 1962, M.S., 1963, Brigham Young; Ph.D., 1970, Arizona.
- ROBERT D. CARVER, 1991, Extension Professor of Agricultural Economics; District Director, Moscow; B.S., 1964, M.S., 1969, Montana State; Ph.D., 1972, Nebraska.
- MARK E. CASADA, 1990, Assistant Professor of Agricultural Engineering; B.S., 1981, M.S., 1985, Kentucky; Ph.D., 1990, North Carolina State.
- JAMES M. CASSETTO, 1976, Assistant Professor of Industrial Technology Education; B.S.Ed., 1972, M.S.Ed., 1973, Idaho.
- JESS D. CAUDILLO, 1978 (1983), Associate Professor of Recreation; B.S., 1963, M.A., 1970, Wyoming; Ph.D., 1978, New Mexico.
- *WILLIAM S. CEGNAR, 1978, Affiliate Professor of Veterinary Medicine, Homedale; D.V.M., 1972, Washington State; M.S., 1975, Idaho.
- VALERIE E. CHAMBERLAIN, 1986 (1989), Associate Professor of Geochemistry; B.S., M.Sc., Oxford; Ph.D., 1983, Alberta.
- *SAMUEL S. M. CHAN, 1963 (1978), Professor Emeritus of Mining Engineering; B.S.Min.E., 1957, Cheng Kung; M.S.Min.E., 1960, M.S.Geol., 1962, Missouri School of Mines and Metallurgy; Ph.D., 1966, Idaho. Emeritus since 1989 (now residing in Davis, Calif.).
- STEVEN R. CHANDLER, 1981, Assistant Professor of English; B.A., 1969, M.A., 1972, Kansas State; Ph.D., 1979, Texas (Austin).
- KANG-TSUNG (KARL) CHANG, 1986, Professor of Geography and Cartography; B.S., 1965, National Taiwan; M.A., 1969, Ph.D., 1971, Clark.
- *ZAYE CHAPIN, 1968 (1987), Professor Emerita of Sociology; B.A., 1948, UCLA; M.S.W., 1964, Southern California. Emerita since 1987 (now residing in Tucson, Ariz.).
- FREDERICK L. CHAPMAN, 1977, Professor of Theatre Arts (Department Chair, 1977-80); B.A., 1949, Berea; M.F.A., 1964, Ph.D., 1971, Tulane.
- *EDMUND M. CHAVEZ, 1951 (1972), Professor Emeritus of Communication and Manager Emeritus of W. H. Kibbie/ASUI Activity Center (Head, Department of Theatre Arts, 1968-77); B.A., 1949, Southwest Texas State; M.F.A., 1951, Texas. Emeritus since 1987 (now residing in Moscow).
- *WILLIAM P. CHEEVERS, 1987, Affiliate Associate Professor of Veterinary Medicine, Pullman, Wash.; B.A., 1963, Colorado; Ph.D., 1968, Mississippi (Jackson).
- *KATHLEEN C. CHELDELIN, 1982 (1991), Associate Extension Professor of Agriculture; Canyon County Extension Agricultural Agent, Caldwell; B.S., 1964, California State (Fresno); M.Ed., 1989, Idaho.
- *THOMAS J. CHESTER, 1939 (1971), Extension Professor Emeritus; B.S.Ag., 1938, Idaho. Emeritus since 1979 (now residing in Pocatello).
- *CHARLES C. CHEYNEY, 1985 (1991), Associate Extension Professor of Agriculture; Butte County Extension Agricultural Agent, Arco; B.S., 1972, M.S., 1978, California (Davis).
- *DON CHICK, 1992, Affiliate Assistant Professor of Electrical Engineering, Idaho Falls; B.S.E.E., 1956, Illinois; M.S.E.E., 1962, Ph.D., 1970, Texas.
- DONALD K. CHIN, 1978, Affiliate Clinical Professor of Medical Science, Moscow; University Physician and Director, Student Health Service; B.S., 1969, M.D., 1973, Nebraska.
- *HARRY CHINCHINIAN, 1975, Affiliate Clinical Professor of Medical Science, Lewiston; B.A., 1952, Colorado; M.D., 1959, Marquette.
- *NATHAN A. CHIPMAN, 1985, Affiliate Professor of Chemical Engineering, Idaho Falls; B.S., 1971, M.S., 1973, Idaho.
- CHARLES O. CHRISTENSON, 1964 (1980), Professor of Mathematics; B.A., 1958, M.A., 1960, Kansas; Ph.D., 1964, New Mexico State.
- *CHRIS L. CHRISTIAN, 1978, Affiliate Professor of Veterinary Medicine, Nampa; B.S., 1967, D.V.M., 1969, Colorado State.
- DAVID E. CHRISTIAN, 1992, Assistant Professor of Psychology; B.S., 1983, Utah; M.S., 1989, Ph.D., 1992, Utah State.
- *ROSS E. CHRISTIAN, 1956 (1967), Professor of Animal Science and Department Head Emeritus (Department Head, 1964-87); B.S., 1947, Pennsylvania State; M.S., 1949, Ph.D., 1951, Wisconsin. Emeritus since 1987 (now residing in Moscow).
- *JAMES L. CHRISTIANSEN, 1988, Affiliate Assistant Professor of Special Education, Moscow; B.S., 1969, M.S., 1970, Utah; Ed.D., 1975, Utah State.
- JEANNE S. CHRISTIANSEN, 1985, Assistant Professor of Special Education; Chair, Department of Counseling and Special Education, 1990-; B.A., 1971, Central Washington; M.S., 1975, Ph.D., 1976, Utah State.
- *OSCAR O. CHRISTIANSON, 1949 (1970), Professor Emeritus of Bacteriology; A.B., 1928, St. Olaf; M.D., 1932, Rush. Emeritus since 1970 (now residing in Spokane, Wash.).
- *RUSSELL L. CHRYSLER, 1959, Professor of Marketing and Department Chair Emeritus (Chair, Department of Business, 1969-74); B.B.A., 1932, M.A., 1937, Minnesota; Ph.D., 1953, Northwestern. Emeritus since 1974 (now residing in Moscow).
- WESLEY CHUN, 1991, Assistant Professor of Plant Science; Plant Bacteriologist; B.A., 1977, M.S., 1982, Hawaii; Ph.D., 1988, California (Riverside).
- *JAMES A. CHURCH, 1987 (1992), Associate Extension Professor of Agriculture; Idaho County Extension Agricultural Agent, Grangeville; B.S., 1981, M.S., 1982, Idaho.
- GARNETT Y. CLARK III, 1991, Professor of Naval Science; Department Head, 1991-; B.S., 1970, Massachusetts.
- *WILLIAM H. CLARK, 1989, Affiliate Assistant Professor of Entomology, Boise; B.S., 1967, College of Idaho; M.S., 1972, Nevada-Reno.
- *RICHARD G. CLARKE, 1989, Affiliate Assistant Professor of Plant, Soil, and Entomological Sciences, Idaho Falls; B.S., 1967, Portland State; M.S., 1969, Kansas State; Ph.D., 1974, Michigan State.
- *STEVEN E. CLAY, 1985, Affiliate Assistant Professor of Metallurgical and Mining Engineering, Moscow; B.S., 1977, Colorado School of Mines; M.S., 1979, Ph.D., 1981, Idaho.
- *LINDA K. CLEARY, 1986, Affiliate Instructor in Special Education, Coeur d'Alene; B.A., 1970, Central Washington; M.Ed., 1978, Idaho.
- *STEPHEN L. CLEMENT, 1986, Affiliate Professor of Entomology, Pullman, Wash.; B.S., 1967, M.S., 1972, Ph.D., 1976, California (Davis).
- *GREGORY A. CLEVINGER, 1985, Affiliate Assistant Professor of Fishery and Wildlife Resources, Ketchikan, Alaska; B.S., 1973, California Polytechnic State; M.S., 1977, Utah State.
- *DONALD F. CLIFTON, 1957 (1968), Professor Emeritus of Metallurgy; B.S.Met.Engr., 1940, Michigan College of Mining and Technology; Ph.D., 1957, Utah. Emeritus since 1982 (now residing in Moscow).
- *ROBERT A. CLOSSON, 1989, Affiliate Clinical Professor of Medical Science, Colfax; B.S., 1978, Washington State; M.D., 1981, Univ. of Washington School of Medicine.
- JOSEPH G. CLOUD, 1977 (1990), Professor of Zoology; B.S., 1966, West Virginia; M.S., 1968, Ph.D., 1974, Wisconsin (Madison).
- *MICHAEL E. COAN, 1981, Affiliate Professor of Veterinary Medicine, Caldwell; B.S. 1980, Maryland.
- JOHN I. COBB, 1969, Associate Professor of Mathematics; B.A., 1960, Florida State; M.A., 1961, Ph.D., 1966, Wisconsin.
- *DONALD E. COBERLY, 1987, Affiliate Assistant Professor of Education, Boise; B.S.Ed., 1978, Idaho; M.A., 1982, Boise State; Ph.D., 1985, Idaho.
- RICHARD B. COFFMAN, 1978-79, 1980, Associate Professor of Economics; B.A., 1964, Washington (Seattle); M.A., 1965, California (Berkeley); Ph.D., 1972, Washington (Seattle).
- *ROBERT C. COLBURN, 1975, Affiliate Clinical Professor of Medical Science, Lewiston; B.A., 1948, Minnesota; M.D., 1952, Washington.
- *DAVID N. COLE, 1980, Affiliate Professor of Resource Recreation and Tourism, Missoula, Montana; B.A., 1972, California (Berkeley); Ph.D., 1977, Oregon.
- J. ROGER COLE, 1976 (1992), Professor of Music (clarinet, saxophone, theory); B.A., 1973, Central Washington; M.Mus., 1975, M.Mus.A., 1976, D.M.A., 1982, Yale.

- *J. WAYNE COLE, 1957 (1990), Extension Professor Emeritus of Agriculture; B.S.Ag., 1950, Idaho. Emeritus since 1990 (now residing in Preston).
- *JERALD COLE, 1988, Affiliate Professor of Physics, Idaho Falls; B.S., 1968, Baylor; M.S., 1976, Vanderbilt; Ph.D., 1979, Delft (The Netherlands).
- *WILLMA C. COLEMAN, 1950 (1974), Extension Professor Emerita; B.A., 1937, Northern Colorado; M.H.Ec., 1958, Oregon State. Emerita since 1974 (now residing in Woodburn, Ore.).
- DENNIS C. COLSON, 1975 (1978), Professor of Law; B.A., 1968, Northern Colorado; J.D., 1970, Denver.
- *W. MICHAEL COLT, 1979 (1985), Associate Extension Professor of Horticulture, Parma; B.S., 1962, M.S., 1965, California (Davis); Ph.D., 1974, California (Riverside).
- PAUL C. CONDITT, 1961 (1975), Gifts Librarian with rank of Associate Professor; B.A., 1956, Trinity (San Antonio); M.S., 1958, Columbia.
- JAMES L. CONGLETON, 1980, Associate Professor of Fishery Resources; Assistant Leader of Cooperative Fisheries Unit; B.S., 1964, Kentucky; Ph.D., 1970, California (San Diego).
- *JOHN W. CONNELLY, 1987, Affiliate Associate Professor of Fish and Wildlife Resources, Pocatello; B.S., 1974, Idaho; M.S., 1977, Ph.D., 1982, Washington State.
- *DENNIS CONNERS, 1989, Affiliate Assistant Professor of Educational Administration, Coeur d'Alene; B.A., 1971, Dayton; M.Ed., 1977, Ed.D., 1980, Houston.
- *WILBUR F. COOK, 1980 (1987), Associate Extension Professor of Agriculture; Gem County Extension Agricultural Agent, Emmett; B.S., 1966, California State (Fresno); M.S., 1988, Idaho.
- STEPHEN C. COOKE, 1986, Assistant Professor of Agricultural Economics; B.A., 1970, M.Ed., 1972, Vermont; M.A., 1978, Ph.D., 1985, Michigan State.
- *JAMES H. COOLEY, 1957 (1968), Professor Emeritus of Chemistry; B.S., 1952, M.S., 1954, Middlebury; Ph.D. 1958, Minnesota. Emeritus since 1992 (now residing in Troy).
- DON H. COOMBS, 1973, Professor of Communication (Director, School of Communication, 1973-86); B.A., 1953, M.A., 1957, Iowa; Ph.D., 1968, Stanford.
- *ROBERT W. COONROD, 1969, Professor of History and Vice President Emeritus (Vice President for Academic Affairs, 1969-78); B.S., 1942, Southwest Missouri State; M.A., 1947, Ph.D., 1950, Stanford. Emeritus since 1991 (now residing in Sarasota, Fla.).
- *GORDON J. COOPER, 1978, Affiliate Professor of Veterinary Medicine, Caldwell; B.S., 1964, Idaho; M.S., 1966, Oregon State; D.V.M., 1970, Washington State.
- *RONALD A. CORDES, 1981, Affiliate Professor of Chemical Engineering, Idaho Falls; B.S., 1965, Washington (Seattle); M.S., 1967, Ph.D., 1973, J.D., 1976, California (Berkeley).
- *GILBERT L. COREY, 1949-54, 1957-74, 1985 (1961), Professor Emeritus of Agricultural Engineering (Department Chair, 1966-72); B.S., 1948, M.S., 1949, Ph.D., 1965, Colorado State; P.E. Emeritus since 1990 (now residing in Moscow).
- *DENNIS L. CORSINI, 1977, Affiliate Professor of Plant Pathology, USDA, Aberdeen; B.A., 1965, California (Los Angeles); Ph.D., 1971, Idaho.
- *STEVEN J. COX, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., Ph.D., Oregon.
- JAMES E. CRANDALL, 1967 (1971), Professor of Psychology (Department Chair, 1983-90); B.A., 1955, M.P.S., 1956, Colorado; Ph.D., 1963, Oregon.
- DONALD L. CRAWFORD, 1976 (1984), Professor of Bacteriology; Bacteriologist; B.A., 1970, Oklahoma City; M.S., 1972, Ph.D., 1973, Wisconsin (Madison).
- RONALD L. CRAWFORD, 1987, Professor of Bacteriology; Director, Institute for Molecular and Agricultural Genetic Engineering, 1990- (Head, Department of Bacteriology and Biochemistry, 1987-90); B.A., 1970, Oklahoma City; M.S., 1972, Ph.D., 1973, Wisconsin (Madison).
- *ALAN B. CROCKETT, 1991, Affiliate Assistant Professor of Vocational Education, Idaho Falls; B.S., 1966, Maine; M.S., 1972, Maryland.
- FRANK A. CRONK, 1972 (1983), Professor of Art (Department Chair, 1983-92); B.Arch., 1965, M.A., 1967, Idaho; M.F.A., 1972, Idaho.
- NICHOLAS L. CROOKSTON, 1978 (1985), Affiliate Professor of Forest Resources, Moscow; B.S., 1973, Weber State; M.S., 1977, Idaho.
- *GERALD CROSBY, 1979, Affiliate Professor of Chemical Engineering, Tacoma, Wash.; B.S., 1967, Ph.D., 1973, Washington (Seattle).
- *BERT C. CROSS, 1962 (1972), Professor of Journalism and Department Chair Emeritus (Department Chair, 1962-74); B.A., 1947, Washington (Seattle); M.S., 1951, Oregon. Emeritus since 1985 (now residing in Moscow).
- *HERBERT J. CROSS, 1984, Affiliate Professor of Psychology, Pullman, Wash.; Ph.D., 1965, Syracuse.
- *VIRGIL S. CROSS, 1940 (1967), Extension Professor Emeritus; B.S.Ag., 1930, Idaho. Emeritus since 1967 (now residing in Sequim, Wash.).
- DONALD W. CROWLEY, 1983 (1988), Associate Professor of Political Science; Acting Chair, Department of Political Science and Public Affairs Research, 1992-; B.A., 1970, California (Irvine); M.A., 1972, Ph.D., 1979, California (Riverside).
- *H. WARD CROWLEY, 1956 (1969), Professor Emeritus of Mathematics (Director, Computer Services, 1962-73); B.A., 1931, M.A., 1932, Washington State; Sc.M., 1937, Brown; Ph.D., 1965, Washington State. Emeritus since 1973 (now residing in Deer Park, Wash.).
- BLAIR A. CSUTI, 1989, Adjunct Associate Professor of Fish and Wildlife Resources; Research Scientist; B.A., 1967, M.S., 1969, California State (Northridge); Ph.D., 1977, California (Berkeley).
- *PAOLO CULICCHI, 1990, Affiliate Professor of Chemical Engineering, Porcari (Lucca), Italy; M.S., 1962, Western Michigan; Ph.D., 1957, Genoa.
- LONDON CURRY, 1992, Associate Professor of Political Science; B.A., 1976, Texas (Austin); M.A., 1977, Ph.D., 1984, California (Berkeley).
- NELSON S. CURTIS, 1969 (1978), Professor of Art (Department Chair, 1981-83); B.F.A., 1963, Memphis Academy of Arts; M.F.A., 1969, Idaho.
- LESZEK CZUCHAJOWSKI, 1986, Professor of Chemistry; M.S., 1950, Silesian Technical, Gliwice, Poland; Ph.D., 1954, D.Sc., 1961, Technical University of AGH, Krakow, Poland.
- JILL DACEY, 1984 (1992), Associate Professor of Art; B.S., 1967, M.S., 1970, Purdue; M.F.A., 1982, Oklahoma.
- RAYMOND DACEY, 1984, Professor of Business; Adjunct Professor of Statistics and Philosophy (Dean, College of Business and Economics, 1984-90); B.S., 1965, Pennsylvania State; M.S., 1967, Ph.D., 1970, Purdue.
- *GERALDINE F. DACRES, 1959 (1989), Professor Emerita of Office Administration; B.S.Bus.Ed., 1945, M.S.Bus.Ed., 1962, Idaho. Emerita since 1989 (now residing in Moscow).
- *BECKY L. DAHL, 1971 (1989), Extension Professor of Home Economics; Bannock County Extension Home Economist, Pocatello; B.A., 1971, M.Ed., 1987, Idaho State.
- *JEROME J. DAHMEN, 1947 (1968), Professor Emeritus of Animal Science; B.S.Ag., 1947, Idaho; M.S., 1952, Ph.D., 1966, Oregon State. Emeritus since 1985 (now residing in Moscow).
- *GORDON H. DAILEY, 1946 (1981), Extension Professor Emeritus; B.S.Ag., 1943, Idaho. Emeritus since 1981 (now residing in Moscow).
- *CLARENCE E. DALLIMORE, 1955 (1978), Extension Professor Emeritus; B.S., 1940, Utah State; M.S., 1943, Nebraska. Emeritus since 1983 (now residing in Idaho Falls).
- BYRON J. DANGERFIELD, 1981 (1987), Associate Professor of Management Information Systems; Dean, College of Business and Economics, 1990- (Head, Department of Business, 1989-90); B.S., 1968, M.B.A., 1973, Utah; Ph.D., 1985, Washington.
- *HARRY E. DAVEY, JR., 1950-52, 1961, Professor of Naval Science and Director of Student Financial Aid Emeritus; B.S., 1939, U.S. Naval Academy; M.Ed., 1964, Idaho. Emeritus since 1983 (now residing in Moscow).
- P. MICHAEL DAVIDSON, 1991, Professor of Food Microbiology; B.S., 1973, Idaho; M.S., 1977, Minnesota; Ph.D., 1979, Washington State.
- *EDWARD DAVIS, 1987, Affiliate Assistant Professor of Education, Boise; B.S.Ed., 1969, M.Ed., 1972, Ph.D., 1983, Idaho.
- *JACK L. DAVIS, 1967 (1979), Professor Emeritus of English; B.A., 1957, M.A., 1959, Washington State; Ph.D., 1967, New Mexico. Emeritus since 1992 (now residing in Moscow).
- *JAMES R. DAVIS, 1968 (1976), Research Professor of Plant Pathology, Aberdeen; A.B., 1956, California (Riverside); M.S., 1961, Ph.D., 1967, California (Davis).
- *JESSE W. DAVIS, 1992, Affiliate Assistant Professor of Aerospace Studies, Pullman, Wash.; B.S., 1983, Oregon State; M.A., 1991, Gonzaga.
- *KAREN R. DAVIS, 1969 (1987), Research Professor Emerita of Home Economics Research; B.S., 1963, M.S., 1969, Wyoming. Emerita since 1987 (now residing in Moscow).
- *RAYNOLD D. DAVIS, 1961 (1990), Extension Professor Emeritus of Agriculture; B.S.Ag., 1951, M.S., 1981, Idaho. Emeritus since 1989 (now residing in Sandpoint).
- RICHARD C. DAVIS, 1987 (1990), Manuscripts-Archives Librarian with rank of Assistant Professor; B.A., 1963, M.A., 1965, Ph.D., 1973, California (Riverside); M.L.S., 1979, Kentucky.
- *JACK L. DAWSON, 1982 (1988), Associate Professor of Education; Director, University of Idaho Coeur d'Alene Center; B.S., 1964, Colorado State; M.A., 1967, University of Northern Colorado; Ph.D., 1982, Idaho.
- *PAUL J. DAWSON, 1989, Assistant Professor of Mechanical Engineering, Boise; B.S., 1968, M.S., 1970, Catholic University of America; Ph.D., 1987, Washington State.
- *E. WAYNE DAY, 1992, Affiliate Clinical Professor of Medical Science, Lewiston; M.D., 1975, Oklahoma.
- *RICHARD L. DAY, 1961 (1983), Professor Emeritus of Geography; A.B., 1948, M.A., 1950, Clark; Ph.D., 1959, Illinois. Emeritus since 1983 (now residing in Moscow).

*LESLIE L. DEAN, 1950 (1968), Research Professor Emeritus of Plant Science; B.S.Ag., 1942, M.S.Ag., 1947, Idaho; Ph.D., 1951, Purdue. Emeritus since 1975 (now residing in Twin Falls).

*STACEY R. DEAN, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; B.A., 1971, M.D., 1975, Colorado.

*JOHN A. DEARIEN, JR., 1992, Affiliate Professor of Civil Engineering, Idaho Falls; B.S.C.E., 1962, M.S.C.E., 1963, Arkansas; Ph.D., 1968, Missouri.

*CHARLES O. DECKER, 1946, Dean of Students Emeritus (Dean of Students, 1960-71; Director of Student Financial Aid, 1971-74); B.A., 1940, Antioch; M.A., 1942, Northwestern. Emeritus since 1975 (now residing in Moscow).

*DONALD DEL MAR, 1971 (1977), Professor Emeritus of Production/Operations Management; B.S., 1960, Maryland; M.A., 1967, D.B.A., 1970, Oklahoma. Emeritus since 1990 (now residing in Wise River, Mont.).

GARY DELKA, 1990, Associate Professor of Educational Administration; B.A., 1967, M.S., 1970, Kearney State; Ed.D., 1982, Colorado.

HOWARD B. DEMUTH, 1985, Professor of Electrical Engineering; B.S.E.E., 1949, Colorado; M.S.E.E., 1954, Ph.D., 1957, Stanford.

KAREN R. DenBRAVEN, 1987, Assistant Professor of Mechanical Engineering; B.S., 1977, North Carolina State; M.S., 1980, California (Berkeley); Ph.D., 1986, Colorado State.

BRIAN C. DENNIS, 1981 (1987), Associate Professor of Forest Resources and Statistics; B.A., 1973, Roger Williams; M.A., 1980, Ph.D., 1982, Pennsylvania State (University Park).

*DEHRYL DENNIS, 1987, Affiliate Assistant Professor of Education, Boise; B.A., 1963, Graceland; M.A., 1969, Inter American (Puerto Rico); Ed.Sp., 1975, Western Illinois; Ed.D., 1983, Idaho.

*PAUL N. DEPUTY, 1989, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Pocatello; B.A., 1971, M.A., 1972, California State (Fullerton); Ph.D., 1978, Michigan State.

*ROBERT E. DERKEY, 1988, Affiliate Assistant Professor of Geology, Butte, Mont.; B.A., 1965, Minnesota (Duluth); M.S., 1973, Montana; Ph.D., 1982, Idaho.

MARK E. DeSANTIS, 1978 (1984), Professor of Zoology (Interim Director, WAMI Medical Education Program, 1984-87); B.S., 1963, Villanova; M.S., 1966, Creighton; Ph.D., 1970, California (Los Angeles).

JAMES DeSHAZER, 1991, Professor of Agricultural Engineering; Department Head, 1991-; B.S., 1960, B.S., 1961, Maryland; M.S., 1963, Rutgers; Ph.D., 1967, North Carolina State.

PHILIP A. DEUTCHMAN, 1968 (1980), Professor of Physics; B.S., 1959, M.S., 1961, New Mexico; Ph.D., 1967, Oregon.

S. DEVADOSS, 1992, Assistant Professor of Agricultural Economics; B.S., 1978, Tamil Nadu Agricultural University (India); M.S., 1980, Indian Agricultural Research Institute; Ph.D., 1985, Iowa State.

*ANDREW J. DEVLIN, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.

*KENNETH A. DICK, 1931 (1947), Professor of Accounting and Vice President Emeritus (Vice President for Financial Affairs, 1961-67); B.S.Bus., 1931, M.S.Bus., 1938, Idaho; M.B.A., 1951, Stanford; C.P.A. Emeritus since 1967 (now residing in Moscow).

JOHN W. DICKINSON, 1973 (1978), Associate Professor of Computer Science; Department Chair, 1982-; B.S.E.E., 1966, California (Berkeley); M.S.E.E., 1967, Ph.D., 1970, Denver.

ROBERT H. DICKOW, 1984 (1986), Associate Professor of Music; A.B., 1971, M.A., 1973, Ph.D., 1979, California (Berkeley).

PAUL F. DIERKER, 1966 (1976), Professor of Mathematics; B.S., 1960, Dayton; M.S., 1963, Ph.D., 1966, Michigan State.

*LOWELL V. DILLER, 1990, Affiliate Associate Professor of Fish and Wildlife Resources, Frostburg, Maryland; B.S., 1969, M.S., 1974, Oregon State; Ph.D., 1981, Idaho.

THOMAS A. DINGUS, 1986 (1992), Associate Professor of Psychology; B.S., 1979, Wright State; M.S., 1985, Ph.D., 1987, Virginia Polytechnic.

MICHAEL J. DINOTO, 1970 (1985), Professor of Economics; Chair, Faculty Council, 1989-90; B.S., 1967, M.A., 1969, Ph.D., 1973, SUNY (Buffalo).

*JOHN E. DIXON, 1954 (1979), Professor Emeritus of Agricultural Engineering; B.S.Ag.E., 1951, B.S.Ag.Mech., 1951, Oregon State; M.S.Ag.E., 1957, Idaho; Ph.D., 1979, Michigan State; P.E./L.S. Emeritus since 1990 (now residing in Moscow).

*CLIFFORD I. DOBLER, 1941 (1968), Professor Emeritus of Business Law; B.S., 1938, J.D., 1941, M.A., 1950, Idaho. Emeritus since 1977 (now residing in Moscow).

JUDITH DOERANN, 1975 (1980), Professor of Educational Administration; Director, UI Outcomes Assessment, 1990- (Assistant to the Vice President for Academic Affairs and Research, 1990; Director, Division of Teacher Education, 1981-90); B.S., 1964, Mundelein; Ph.D., 1974, Minnesota.

*PAUL S. DOESCHER, 1991, Affiliate Associate Professor of Range Resources and of Forest Resources, Corvallis, Ore.; B.S., 1975, Illinois; M.S., 1977, Montana; Ph.D., 1983, Oregon State.

DENNIS G. DOLNY, 1984 (1990), Associate Professor of Physical Education; B.S., 1978, M.A., 1979, Wake Forest; Ph.D., 1985, Kent State.

*RICHARD B. DONATI, 1989, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1974, SUNY (Downstate Medical Center).

LaRAE M. DONNELLAN, 1991, Extension Professor of Agricultural Communications; Head, Agricultural Communications Center, 1991-; B.A., 1969, M.S., 1975, Minnesota; Ph.D., 1986, Rensselaer Polytechnic.

*PATRICIA M. DORMAN, 1989, Affiliate Professor of Educational Administration, Boise; M.S., 1961, Ph.D., 1971, Utah.

*KEITH W. DORSCHNER, 1986 (1991), Assistant Professor of Entomology, Parma; B.S., 1978, Virginia Polytechnic; M.S., 1982, Ph.D., 1986, Oklahoma State.

EDWIN A. DOWDING, 1975 (1980), Associate Professor of Agricultural Engineering; Associate Agricultural Engineer; B.S.A.E., 1962, South Dakota State; M.S.M.E., 1967, Wyoming; P.E./L.S.

*WILLIAM F. DOWNS, 1984, Affiliate Professor of Geology, Idaho Falls; B.A., 1965, M.S., 1974, Colorado; Ph.D., 1977, Pennsylvania State.

*COLIN DOYLE, 1983, Affiliate Clinical Professor of Medical Science, Lewiston; B.A., 1964, Knox; M.D., 1968, Illinois.

RICHARD J. DOZIER, 1971 (1978), Associate Professor of English; A.B., 1960, Harvard; M.A., 1964, Duke; Ph.D., 1973, North Carolina.

*ROBERT C. DREWES, 1989, Affiliate Associate Professor of Zoology, San Francisco, Calif.; B.A., 1969, San Francisco State; Ph.D., 1981, California (Los Angeles).

DAVID C. DROWN, 1980 (1986), Associate Professor of Chemical Engineering; B.S., 1967, San Jose State; M.S., 1969, Ph.D., 1975, Idaho; P.E.

E. PHIL DRUKER, 1982 (1990), Lecturer in English; B.A., 1969, St. Thomas (Minn.); M.A., 1983, Idaho.

*PATRICK DUGAN, 1989, Affiliate Professor of Bacteriology, Idaho Falls; B.S., 1956, M.S., 1959, Ph.D., 1964, Syracuse.

*H. SYDNEY DUNCOMBE, 1962 (1969), Professor of Political Science and Department Chair Emeritus (Chair, Department of Political Science and Public Affairs Research, 1972-77); B.A., 1948, Yale; M.P.A., 1955, Syracuse; Ph.D., 1963, Washington (Seattle); D.Admin.Sc., 1992, Idaho. Emeritus since 1989 (now residing in Veneta, Oreg.).

*CHARLES S. DUNHAM, 1959 (1980), Extension Professor Emeritus of Agriculture; B.S.Ag., 1957, Idaho; M.S., 1967, Colorado State. Emeritus since 1989 (now residing in Pocatello).

*ALFRED C. DUNN, 1941 (1955), Professor Emeritus of Art; B.S., 1936, Idaho; M.F.A., 1950, California College of Arts and Crafts. Emeritus since 1974 (now residing in Moscow).

ANTHONY K. DUNNAM, 1979, Assistant Professor of Computer Science; B.S., 1959, West Texas State; M.B.A., 1969, Indiana.

*RONALD J. DuPONT, 1989, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1964, Wisconsin (Milwaukee).

MARY H. DuPREE, 1971 (1990), Professor of Music (history and literature, musicology); B.A., 1966, Hollins; M.A., 1971, North Carolina (Chapel Hill); Ph.D., 1980, Colorado.

NAN B. DUPUY, 1993, Associate Professor of Naval Science; B.A., 1975, George Mason; M.S., 1985, Naval Postgraduate School.

*EDWARD P. DUREN, 1960 (1974), Extension Professor of Animal Science; Extension Animal Scientist, Soda Springs; B.S.Ag., 1957, Kansas State; M.S.Ag., 1959, Idaho.

ROBERT B. DWELLE, 1976 (1986), Research Professor of Plant Physiology; Chair of Plant Science, 1987-; B.A., 1970, Carleton; Ph.D., 1974, Montana.

*RUTH G. DYER, 1964 (1982), Extension Professor Emerita; B.S., 1950, Minnesota. Emerita since 1982 (now residing in Pocatello).

*LESTER E. EBERHARDT, 1987, Affiliate Assistant Professor of Statistics, Richland, Wash.; B.S., 1970, Washington State; M.S., 1974, Minnesota; Ph.D., 1987, Oregon State.

*CHARLOTTE E. EBERLEIN, 1989, Associate Professor of Weed Science, Aberdeen; B.S., 1975, Washington State; M.S., 1978, Oregon State; Ph.D., 1981, Minnesota.

GAIL Z. ECKWRIGHT, 1978 (1990), Humanities Librarian with rank of Associate Professor; B.A., 1973, Wisconsin (Eau Claire); M.L.S., 1976, Wisconsin (Madison).

SID EDER, 1984, Associate Professor of Education; Director of Summer Programs and Extended Learning; B.A., 1957, California (Los Angeles); M.Ed., 1961, Arizona; Ph.D., 1971, Arizona State.

*GLEN A. EDMISON, 1984 (1986), Associate Professor of Trade and Industrial/Technical Education, Boise Center; B.S., 1952, M.A., 1957, Central Washington; Ed.D., 1973, Arizona State.

*FRED L. EDMISTON, 1967 (1989), Extension Professor of Agriculture; Washington County Extension Agricultural Agent, Weiser; B.S.Ag., 1964, M.S., 1988, Idaho.

*ELTON H. EDMUNDSON, JR., 1990, Affiliate Professor of Fish and Wildlife Resources, Boise; B.S., 1965, M.S., 1967, Idaho; Ph.D., 1971, Washington State.

DEAN B. EDWARDS, 1986, Associate Professor of Mechanical Engineering; B.S., 1972, Illinois Institute of Technology; M.S., 1973, Ph.D., 1977, California Institute of Technology.

*HERBERT M. EDWARDS, 1947 (1977), Extension Professor Emeritus; B.S.Ag., 1947, Idaho. Emeritus since 1977 (now residing in Mountain Home).

LOUIS L. EDWARDS, JR., 1961 (1971), Professor of Chemical Engineering; Adjunct Professor of Forest Products; B.S.Ch.E., 1958, Rensselaer Polytechnic; M.S.Ch.E., 1960, Delaware; Ph.D., 1966, Idaho.

W. DANIEL EDWARDS, 1987 (1992), Associate Professor of Chemistry; B.S., 1970, Ph.D., 1976, Missouri (Rolla).

*RICHARD J. EGGLESTON, 1992, Affiliate Clinical Professor of Medical Science, Lewiston; M.D., 1967, Kansas (Kansas City).

JOHN H. EHRENREICH, 1971, Professor of International Forest and Range Resources (Dean, College of Forestry, Wildlife and Range Sciences, 1971-84); B.S., 1951, M.S., 1954, Colorado State; Ph.D., 1956, Iowa State.

*EL HASSAN EL MAZZOUDI, 1992, Affiliate Assistant Professor of Forest Resources, Morocco; B.S., 1972, Morocco; M.S., 1976, Belgium; Ph.D., 1985, Idaho.

*H. BRADLEY ELDREDGE, 1992, Assistant Professor of Chemical Engineering, Idaho Falls; B.S., 1981, M.S., 1982, Brigham Young; Ph.D., 1991, Idaho.

DONALD F. ELGER, 1987, Assistant Professor of Mechanical Engineering; B.S., 1977, M.S., 1983, Ph.D., 1986, Oregon State; P.E.

EUGENIA V. ELLIS, 1992, Assistant Professor of Architecture; B.Arch., 1980, Illinois; M.S., 1992, Pennsylvania.

*ROBERT W. ELLIS, 1987, Affiliate Professor of Bacteriology, Boise; B.S., 1963, College of Idaho; M.S., 1966, Ph.D., 1970, Oregon State.

*RICHARD A. EMTMAN, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., 1981, Washington.

*MAXWELL ENGELHARDT, 1992, Affiliate Professor of Statistics, Idaho Falls; B.S., 1963, Missouri (Kansas City); M.S., 1966, Ph.D., 1969, Missouri (Columbia).

*SCHUYLER R. ENOCHS, 1978, Affiliate Professor of Veterinary Medicine, Caldwell; D.V.M., 1957, Washington State.

*RONALD D. ENSIGN, 1952, Professor Emeritus of Agronomy (Associate Director, Agricultural Experiment Station, 1955-72); B.S., 1947, Northwest Missouri State; M.S., 1949, Colorado State; Ph.D., 1952, Cornell. Emeritus since 1987 (now residing in East Wenatchee, Wash.).

*JONATHAN S. EPSTEIN, 1986, Affiliate Professor of Mechanical Engineering, Idaho Falls; B.S., 1980, Colorado State; Ph.D., 1983, Virginia Polytechnic.

*S. KEITH ERCANBRACK, 1957, Affiliate Professor of Animal Science, U.S. Sheep Experiment Station, Dubois; B.A., 1943, Brigham Young; M.S., 1948, Utah State; Ph.D., 1952, Iowa State.

*PAUL ERDOS, 1992, Affiliate Professor of Mathematics, Budapest; Ph.D., 1934, Budapest.

*MICHAEL G. ERICKSON, 1990, Affiliate Assistant Professor of Vocational Education, Caldwell; B.A., 1977, Whitman College; M.A., 1981, Ph.D., 1987, California (Davis).

VICTOR P. EROSCHENKO, 1973 (1984), Professor of Zoology and Veterinary Medicine; A.A., 1959, Sacramento City; B.A., 1961, M.S., 1970, Ph.D., 1973, California (Davis).

*DONALD ESHELBY, 1986, Affiliate Associate Professor of Vocational Teacher Education, Boise; B.S., 1968, M.S., 1969, Ed.D., 1972, North Dakota.

*DENNIS R. EVANS, 1980, Affiliate Professor of Chemical Engineering, Idaho Falls; B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

DALE O. EVERSON, 1962 (1967), Professor of Statistics; Statistician; B.S.Ag., 1952, M.S.Ag., 1955, Idaho; Ph.D., 1960, Iowa State.

JERRY H. EXON, 1984 (1990), Associate Professor of Food Science and Toxicology; Department Head, 1990-; Director of Food Quality Assurance Program, 1989-; B.S., 1971, M.S., 1978, Oregon State; Ph.D., 1984, Idaho.

THOMAS N. FAIRCHILD, 1974 (1982), Professor of Counseling and School Psychology; Coordinator, School Psychology Program (Chair, Department of Counseling and Special Education, 1989-90); B.S., 1969, M.Ed., 1971, Specialist, 1972, Idaho; Ph.D., 1974, Iowa.

*DEAN E. FALK, 1974 (1988), Extension Professor of Dairy Science; Extension Dairy Specialist, Twin Falls; B.S., 1970, M.S., 1972, Idaho.

DENNIS G. FALK, 1974 (1984), Senior Instructor in Animal Science; B.S., 1970, M.S., 1981, Idaho.

*ESMAEIL FALLAHI, 1990, Assistant Professor of Plant Science, Parma; B.S., 1976, Jundishapur Ahvas, Iran; M.S., 1979, Washington State; Ph.D., 1983, Oregon State.

C. MICHAEL FALTER, 1969 (1977), Professor of Fishery Resources (Head, Department of Fish and Wildlife Resources, 1989-92); B.S., 1964, Kansas State; M.S., 1966, Pittsburgh; Ph.D., 1969, Idaho.

*FARAH M. FARAH, 1990, Affiliate Assistant Professor of Chemistry, Moscow; B.S.C., 1969, Ain Fhams (Egypt); Ph.D., 1982, Ohio.

JOHN L. FARBO, 1980 (1991), Adjunct Assistant Professor of Accounting; Director, Auditing Services; B.S., 1969, New Orleans; M.B.A., 1973, Montana; M.P.A., 1978, Puget Sound; Ph.D., 1985, Idaho.

*MELVIN W. FARLEY, 1953 (1966), Professor of Education and Director of Clinical Experiences in Teacher Education Emeritus; A.B., 1940, Westmar; A.M., 1948, South Dakota; Ph.D., 1953, Nebraska. Emeritus since 1980 (now residing in Spokane, Wash.).

SHERRY O. FARWELL, 1977 (1985), Professor of Chemistry; B.S., 1966, M.S., 1969, South Dakota School of Mines and Technology; Ph.D., 1973, Montana State.

*ROSARIO P. FASOLINO, 1977 (1979), Professor of Architecture and Department Chair Emeritus (Department Chair, 1984-86); B.Arch., 1953, M.S., 1959, Kansas State; R.A., AICP. Emeritus since 1986 (now residing in Moscow).

JAMES R. FAZIO, 1974 (1982), Professor of Resource Recreation and Tourism (Department Head, 1975-83, 1989-90; Associate Dean for Academics, College of Forestry, Wildlife and Range Sciences, 1983-89); B.S., 1964, West Virginia; M.P.S., 1971, Cornell; Ph.D., 1974, Colorado State.

*MARION FEATHERSTONE, 1931-46, 1948 (1967), Professor Emerita of Home Economics; B.S.Ed., 1925, Idaho; M.A.Ed., 1931, Southern California. Emerita since 1967 (now residing in Moscow).

NANCY A. FEDERSPIEL, 1989, Assistant Professor of Biochemistry; B.S., 1973, Dayton; Ph.D., 1978, Minnesota.

JOSEPH J. FEELEY, 1983, Associate Professor of Electrical Engineering; Department Chair, 1988-; B.S., 1965, New Jersey Institute of Technology; M.S., 1974, Ph.D., 1980, Idaho.

RICHARD W. FEHRENBACHER, 1992, Assistant Professor of English; B.A., 1984, Southern Mississippi; M.A., 1986, Tennessee (Knoxville); Ph.D., 1992, Duke.

JOHN K. FELLMAN, 1977 (1988), Assistant Professor of Plant Science; Fruit Physiologist; B.S., 1974, Clemson; Ph.D., 1982, Idaho.

SCOTT FENDORF, 1993, Assistant Professor of Environmental Soil Chemistry; B.S., 1988, California Polytechnic; M.S., 1990, California (Davis); Ph.D., 1992, Delaware.

DENNIS E. FERGUSON, 1980, Affiliate Professor of Forest Resources, Moscow; B.S., 1969, M.S., 1978, Idaho.

*EDWARD A. FIEZ, 1970 (1978), Extension Professor of Animal Science and Off-Campus Coordinator; Extension Dairy Specialist, Caldwell; B.S., 1963, Fresno State; M.S., 1970, Idaho.

M. BRYCE FIFIELD, 1991, Assistant Professor of Special Education; Associate Director, Idaho Center on Developmental Disabilities, 1991-; B.S., 1980, M.S., 1982, Utah State; Ph.D., 1988, Oregon.

*EVAN E. FILBY, 1986, Affiliate Professor of Chemistry, Idaho Falls; B.S., 1966, San Jose State; Ph.D., 1971, New Mexico State.

*JAMES R. FINCKE, 1991, Affiliate Assistant Professor of Mechanical Engineering, Idaho Falls; B.S.M.E., 1974, M.E., 1976, New Mexico; Ph.D., 1983, Idaho.

*ARTHUR M. FINLEY, 1950 (1955), Professor Emeritus of Plant Science (Head, Department of Plant Sciences, 1955-71); B.S., 1942, M.A., 1948, Ph.D., 1950, Missouri. Emeritus since 1981 (now residing in Moscow).

CALVIN L. FINN, 1980, Associate Professor of Electrical Engineering; B.S.E.E., 1960, M.S.E.E., 1964, Colorado State.

JOHN I. FINNIE, 1987, Assistant Professor of Civil Engineering; B.S., 1975, California State Polytechnic (Pomona); M.S., 1985, Ph.D., 1987, Utah State; P.E.

*BRIAN F. FINNIGAN, 1980 (1986), Associate Extension Professor of Agriculture; Bingham County Extension Agricultural Agent, Blackfoot; B.S., 1961, M.S., 1968, Washington State.

LAUREN FINS, 1979 (1991), Professor of Forest Genetics; Director of the Inland Empire Tree Improvement Cooperative; B.A., 1965, New York; M.S., 1973, Colorado State; Ph.D., 1979, California (Berkeley).

*JAMES E. FISHER, 1992, Affiliate Assistant Professor of Educational Administration, Rupert; B.A., 1961, Utah State; M.Nat.Sc., 1966, Ed.Sp., 1987, Ed.D., 1989, Idaho.

*JOHN C. FISKE, 1970 (1975), Professor Emeritus of Foreign Languages and Literatures; A.B., 1930, Harvard; A.M., 1940, Columbia; Ph.D., 1954, Harvard. Emeritus since 1975 (now residing in Moscow).

*JAMES A. FITZGERALD, 1984, Affiliate Professor of Animal Science, Dubois; B.A., 1975, Slippery Rock State; M.S., 1978, Ph.D., 1980, Cornell.

*DELBERT W. FITZSIMMONS, 1959 (1971), Professor of Agricultural Engineering and Department Chair Emeritus (Department Chair, 1972-86, 1990-91); B.S.Ag.E., 1959, M.S.Ag.E., 1962, Idaho; Ph.D., 1970, Washington State; P.E. Emeritus since 1991 (now residing in Moscow).

*NORMAN D. FITZSIMMONS, 1955 (1979), Extension Professor Emeritus; B.S.Ag., 1952, M.S.Ag., 1968, Idaho. Emeritus since 1986 (now residing in Orofino).

*GERALD N. FLERCHINGER, 1990, Affiliate Assistant Professor of Agricultural Engineering, Boise; B.S., 1982, M.S., 1984, Idaho; Ph.D., 1987, Washington State.

JANICE W. FLETCHER, 1979, Assistant Professor of Home Economics; B.S., 1967, Appalachian State; M.Ed., 1972, Ed.S., 1973, Ed.D., 1978, Auburn.

*MAX E. FLETCHER, 1958 (1965), Professor of Economics and Department Head Emeritus (Department Head, 1968-72, 1973-79); B.A., 1946, Washington (Seattle); M.S., 1949, Idaho; Ph.D., 1957, Wisconsin. Emeritus since 1984 (now residing in Viola).

T. RICK FLETCHER, 1989, Assistant Professor of Chemistry; B.S., 1981, Washington State; Ph.D., 1986, California (Davis).

*JOHN E. FLINN, 1988, Affiliate Professor of Metallurgy, Idaho Falls; B.S., 1962, Washington State; M.S., 1967, Northwestern; Ph.D., 1972, Washington State.

STEPHAN P. FLORES, 1987, Assistant Professor of English; B.A., 1979, Oregon; M.A., 1981, Ph.D., 1988, Michigan.

RICHARD L. FOLK, 1985 (1992), Assistant Research Professor of Forest Products; B.S., 1969, North Carolina State; M.S., 1985, SUNY (Syracuse); Ph.D., 1991, Idaho.

JOHN C. FOLTZ, 1991, Assistant Professor of Agricultural Economics and Rural Sociology; B.S., 1979, M.S., 1981, Ohio; Ph.D., 1991, Purdue.

*WILLIAM E. FOLZ, 1935 (1945), Professor of Agricultural Economics and Department Head Emeritus (Head, Department of Agricultural Economics, 1950-71); B.S., 1927, Evansville; M.S., 1933, Ph.D., 1935, Illinois. Emeritus since 1972 (now residing in Moscow).

*ROY FOOTE, 1978, Affiliate Professor of Electrical Engineering, Hewlett-Packard Co., Boise; B.S.E.E., 1971, College of Idaho; M.S.E.E., 1976, Idaho.

*JANE FORAKER-THOMPSON, 1988, Affiliate Assistant Professor of Vocational Teacher Education, Boise; B.A., 1959, M.A., 1965, California (Berkeley); Ph.D., 1985, Stanford.

*O. CLIFFORD FORBES, 1957 (1989), Professor Emeritus of Zoology; A.B., 1950, Humboldt State; M.A., 1952, Ph.D., 1958, California (Berkeley). Emeritus since 1989 (now residing in Moscow).

ROSE L. FORBES, 1965, Assistant Professor of Home Economics (foods); B.S., 1962, M.S., 1964, Pennsylvania State.

JO ELLEN FORCE, 1979 (1992), Professor of Forest Resources; B.S., 1965, Iowa State; M.S., 1973, Ph.D., 1978, Ohio State.

RONALD W. FORCE, 1982 (1990), Dean of Library Services with rank of Associate Professor; B.S., 1963, Iowa State; M.A., 1968, Minnesota; M.S., 1975, Ohio State.

MARTHA FORD, 1990 (1992), Instructor in Mechanical Engineering; B.A., 1974, B.S., 1983, Iowa.

*WILLIAM J. FOREYT, 1978, Affiliate Professor of Veterinary Medicine, Pullman, Wash.; B.S., 1967, Wisconsin (Stevens Point); M.S., 1969, Ph.D., 1975, Wisconsin (Madison).

TINA FORIYES, 1967 (1975), Associate Professor of English; B.S., 1965, Wisconsin (La Crosse); M.F.A., 1967, Iowa.

*GARY C. G. FORNSHELL, 1992, Assistant Extension Professor of Agriculture and Multi-county Extension Aquaculture Agent, Twin Falls; B.S., 1980, Colorado State; M.S., 1986, Auburn.

*ROBERT L. FORSTER, 1975 (1987), Extension Professor of Plant Pathology, Kimberly; B.S., 1969, Rutgers; M.S., 1972, Ph.D., 1976, North Carolina State.

*MAYNARD A. FOSBERG, 1949 (1972), Professor Emeritus of Soil Science and Soil Morphology; B.S., 1948, M.S., 1949, Ph.D., 1963, Wisconsin. Emeritus since 1989 (now residing in Moscow).

JAMES A. FOSTER, 1990, Assistant Professor of Computer Science; A.B., 1981, Chicago; M.S., 1987, Ph.D., 1990, Illinois Institute of Technology.

*RICHARD FOSTER, 1989, Affiliate Professor of Educational Administration, Pocatello; B.A., 1968, Chico State; M.A., 1970, McMaster; M.S., 1972, Ph.D., 1974, Oklahoma.

*ZEPH H. FOSTER, 1963 (1972), Professor Emeritus of Education; B.A., 1951, Walla Walla; M.S.Ed., 1956, Ed.D., 1963, Idaho. Emeritus since 1989 (now residing in Boise).

LINDA K. FOX, 1981 (1988), Associate Extension Professor and Family Economics and Management Specialist; B.S., 1977, M.S., 1981, Oregon State.

*CLYDE W. FRANK, 1986, Affiliate Professor of Chemistry, Idaho Falls; B.S., 1962, Northeast Missouri State; Ph.D., 1966, Kansas State.

*FLOYD W. FRANK, 1955 (1965), Professor of Veterinary Science, Department Head, and Dean of the Idaho Faculty of the WOI Program in Veterinary Medical Education Emeritus (Department Head, 1967-84; Dean, 1979-84); B.S., 1951, D.V.M., 1951, Ph.D., 1963, Washington State. Emeritus since 1986 (now residing in Moscow).

*DELANCE F. FRANKLIN, 1942, Research Professor Emeritus of Horticulture; B.S.Ag., 1942, M.S., 1955, Idaho. Emeritus since 1974 (now residing in Parma).

NEIL E. FRANKLIN, 1978 (1983), Professor of Law; Chair, Faculty Council, 1991-92; B.S., 1966, Oregon; J.D., 1974, Golden Gate.

*BRUCE E. FRAZIER, 1992, Affiliate Associate Professor of Forest Resources, Pullman, Wash.; B.S., 1966, M.S., 1969, Ph.D., 1975, Wisconsin (Madison).

*HILDA FREDERICK, 1935 (1966), Extension Professor Emerita; B.S., 1929, Utah State; M.A., 1934, California. Emerita since 1966 (now residing in Salt Lake City, Utah).

*KENNETH R. FREDERIKSEN, 1951 (1973), Professor Emeritus of Animal Science; B.S.Ag., 1950, Idaho; M.S.Ag., 1961, Colorado State. Emeritus since 1984 (now residing in Shelley).

*JAMES K. FREDRICKSON, 1988, Affiliate Assistant Professor of Bacteriology, Richland, Wash.; B.S., 1978, Wisconsin; M.S., 1982, Ph.D., 1984, Washington State.

*JOHN FREEMUTH, 1992, Affiliate Professor of Forest Resources, Boise; B.A., 1972, Pomona College; M.A., 1975, Claremont Graduate School; Ph.D., 1985, Colorado State.

MARK L. FREER, 1969 (1984), Extension Professor of Education; Director, Clinical Experiences in Teacher Education; A.B., 1959, Miami; M.Ed., 1968, Ed.D., 1972, Idaho.

*H. GRAEME FRENCH, 1992, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., 1985, Tulane.

JAMES F. FRENZEL, 1990, Assistant Professor of Electrical Engineering; B.S., 1981, Bucknell; M.S., 1983, Ph.D., 1989, Duke.

KAREN Z. FRENZEL, 1990, Assistant Professor of Electrical Engineering; B.S., 1981, Bucknell; M.S., 1983, Ph.D., 1986, Duke.

*MICHAEL L. FRIEND, 1992, Affiliate Assistant Professor of Educational Administration, Boise; B.A., 1970, Huron; M.Ed., 1975, College of Idaho; Spec.Ed.Admin., 1983, Idaho; Ed.D., 1985, Southern Mississippi.

ROSS L. FRIESEN, 1992, Assistant Professor of Physical Education; B.S., 1976, Bethel; M.Ed., 1980, Missouri (Columbia); Ed.D., 1992, Kansas.

*STEVE FRITTS, 1992, Affiliate Associate Professor of Fish and Wildlife Resources, Helena, Mont.; B.A., 1970, M.S., 1973, Arkansas; Ph.D., 1979, Minnesota.

*MARLENE A. FRITZ, 1980 (1986), Associate Extension Professor of Agriculture; Associate Agricultural Editor, Boise Center; A.B., 1974, Washington (Saint Louis); M.S., 1977, Illinois.

FRANCIS H. FROES, 1989, Professor of Metallurgical Engineering; Adjunct Professor of Mechanical Engineering; Director, Institute for Materials and Advanced Processing; B.S., 1962, Liverpool; M.S., 1963, Ph.D., 1967, Sheffield.

*JOHN A. FROSETH, 1977, Affiliate Professor of Animal Science, Pullman, Wash.; B.S., 1964, Wisconsin State; M.S., 1966, Ph.D., 1970, Purdue.

*ALVIN L. FROSTAD, 1989, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1965, Washington (Seattle).

*MARIAN I. FRYKMAN, 1947 (1969), Professor Emerita of Music; B.S.Mus.Ed., 1938, M.A., 1950, Minnesota. Emerita since 1978 (now residing in Moscow).

RUTH PATTERSON FUNABIKI, 1977-78, 1983 (1988), Associate Law Librarian for Technical Services with rank of Associate Professor; B.S., 1972, Indiana (Pennsylvania); M.L.S., 1973, Kent State.

*MALCOLM M. FURNISS, 1982, Affiliate Professor of Entomology, Moscow; B.S., 1950, California (Berkeley); M.S., 1966, Idaho.

*HOMER I. FUTTER, 1949-50, 1954 (1974), Extension Professor Emeritus; B.S.Ag., 1948, Idaho. Emeritus since 1974 (now residing in Moscow).

KATHE A. GABEL, 1989, Assistant Professor of Home Economics; CCPD Co-director; B.S., 1973, Montana State; M.S., 1980, Colorado State; Ph.D., 1987, Utah State; R.D.

KENNETH S. GALLANT, 1986 (1991), Professor of Law; Director, Clinical Programs; A.B., 1973, Harvard; J.D., 1977, Pennsylvania.

*JOHN J. GALLIAN, 1979 (1985), Associate Research Professor of Crop Management and Sugar Beet Specialist, Twin Falls; B.S., 1969, M.S., 1972, Nevada; Ph.D., 1983, Oregon State.

STEVEN D. GAMMON, 1991, Assistant Professor of Chemistry; B.A., 1982, Bowdoin; Ph.D., 1989, Illinois (Urbana).

RICARDO L. GARCIA, 1991, Professor of Education; Director, Division of Teacher Education, 1991-; B.A., 1963, New Mexico Highland; M.A., 1971, Ed.D., 1973, Denver.

*GEORGE F. GARDNER, 1965 (1980), Extension Professor of Agriculture; Bannock County Extension Agricultural Agent, Pocatello; B.S.Ag., 1953, M.S.Ag., 1957, Idaho.

*MAX A. GARDNER, 1961 (1978), Extension Professor of Agriculture; Payette County Extension Agricultural Agent, Payette; B.S.Ag.Ed., 1960, M.S.Ag.Ed., 1961, Idaho.

*JAY G. GARNER, 1946 (1973), Extension Professor Emeritus; B.S.Ag., 1943, Idaho. Emeritus since 1980 (now residing in Blackfoot).

*OAKLEY W. GARNETT, 1992, Affiliate Assistant Professor of Communication, Pullman, Wash.; B.A., 1972, M.A., 1976, Alabama.

*RICHARD M. GARRARD, 1979 (1987), Associate Extension Professor of Agriculture; Cassia County Extension Agricultural Agent, Burley; B.S., 1966, Utah State; M.S., 1985, Idaho.

*VERL G. GARRARD, 1946 (1986), Professor Emeritus of Chemistry; B.S.Ch.E., 1945, M.S., 1953, Idaho; Ph.D., 1967, Utah. Emeritus since 1986 (now residing in Provo, Utah).

EDWARD O. GARTON, 1977 (1986), Professor of Wildlife Resources; Adjunct Professor of Statistics; B.A., 1968, Stanford; M.S., 1973, Ph.D., 1976, California (Davis).

*NORMAN L. GATES, 1975, Affiliate Professor of Veterinary Medicine, Pullman, Wash.; D.V.M., 1961, Texas A & M; M.P.H., 1965, Tulane.

*CLIVE GAY, 1984, Affiliate Professor of Veterinary Medicine, Auckland, New Zealand; D.V.M., 1960, M.S., 1962, Ontario Veterinary; M.S., 1970, Melbourne.

JOSEPH J. GEIGER, 1988, Professor of Business (Financial Vice President/Bursar, 1988-90); B.S., 1964, M.S., 1968, Ed.D., 1977, Colorado (Boulder).

*ROBERT L. GEIMER, 1991, Affiliate Professor of Forest Products, Madison, Wisc.; B.S., 1953, Wisconsin State; B.S., 1958, M.S., 1963, Washington (Seattle).

DENNIS J. GEIST, 1990, Assistant Professor of Geology; A.B., 1980, Dartmouth; Ph.D., 1985, Oregon.

SUSAN K. GELLETTY, 1990, Affiliate Clinical Professor of Medical Science; University Physician, Student Health Service; B.A., 1968, Swarthmore College; M.A., 1979, Columbia; M.D., 1984, Case Western Reserve.

ALAN J. GEMBERLING, 1986 (1990), Assistant Professor of Music (low brass, marching band); B.Mus., 1978, M.Mus., 1988, Idaho.

N. DALE GENTRY, 1977 (1982), Professor of Special Education; Dean, College of Education, 1984-; B.S., 1963, M.S., 1968, Idaho; Ph.D., 1974, Washington (Seattle).

KATHRYN P. GEORGE, 1989 (1992), Associate Professor of Philosophy; B.A., 1980, M.A., 1982, Ph.D., 1985, Washington State.

*FLOYD C. GEPHART, 1958 (1977), Associate Extension Professor of Agriculture; Benewah County Extension Agricultural Agent, St. Maries; B.S.Ag., 1952, M.S.Ag., 1965, Idaho.

SHAIKH M. GHAZANFAR, 1968 (1977), Professor of Economics (Department Head, 1979-80); B.A., 1962, M.A., 1964, Ph.D., 1969, Washington State.

RICHARD D. GIBB, 1977, Distinguished Professor of Higher Education and Adjunct Professor of Agricultural Economics; President Emeritus (Thirteenth President of the University, 1977-89; Director of the Center for Economics Education, 1991); B.S., 1951, M.Ed., 1955, Illinois; Ph.D., 1958, Michigan State.

*RAPHAEL S. GIBBS, 1934-36, 1946 (1953), Professor Emeritus of Journalism (Director of Information and University Editor, 1949-70); B.A., 1934, Idaho. Emeritus since 1970 (now residing in Cape Canaveral, Fla.).

*CHAD C. GIBSON, 1968 (1982), Extension Professor of Agriculture; Owyhee County Extension Agricultural Agent, Marsing; B.S.An.Sci., 1965, Idaho; M.S.An.Sci., 1967, Nevada.

*GENE W. GIBSON, 1966-79, 1982 (1989), Extension Professor of Agriculture; Gooding County Extension Agricultural Agent, Gooding; B.S.Ag., 1965, M.S., 1969, Idaho.

WILLIAM GIBSON, 1990, Psychologist, Student Counseling Center, with rank of Assistant Professor; Adjunct Assistant Professor of Counseling and Special Education; B.S., 1977, M.B.A., 1978, Idaho; B.S., 1986, M.S., 1987, Idaho State; Ph.D., 1990, Wyoming.

NICHOLAS F. GIER, 1972 (1982), Professor of Philosophy; B.A., 1966, Oregon State; M.A., 1969, Ph.D., 1973, Claremont.

DAVID F. GIESE, 1977 (1987), Professor of Art; Department Chair, 1992-; B.S., 1965, B.A., 1965, Mankato State; M.F.A., 1972, Arizona.

RICHARD T. GILL, 1984 (1989), Associate Professor of Mechanical Engineering; Adjunct Associate Professor of Psychology (Assistant Dean, College of Engineering, 1989-90); B.S., 1972, M.S., 1978, Wright State; Ph.D., 1981, Illinois.

DOUGLAS J. GILLAN, 1990, Assistant Professor of Psychology; B.A., 1974, Macalester; Ph.D., 1978, Texas.

*VIRGINIA GILLERMAN, 1989, Adjunct Professor of Geology; Supervisory Research Geologist, Boise; B.A., 1970, Carleton; Ph.D., 1982, California (Berkeley).

CANDIDA GILLIS, 1987 (1992), Professor of English; B.A., 1965, M.A., 1967, Ph.D., 1975, Stanford.

*CAMPBELL M. GILMOUR, 1970, Professor of Bacteriology and Department Head Emeritus (Head, Department of Bacteriology and Biochemistry, 1970-81); B.S.A., 1942, M.S.A., 1945, British Columbia; Ph.D., 1949, Wisconsin. Emeritus since 1981 (now residing in Lewiston).

*ARTHUR R. GITTINS, 1955 (1969), Professor of Entomology, Associate Vice President, and Dean Emeritus (Associate Vice President for Research, 1985-88; Dean, Graduate Studies, 1978-87; Director, University Research Office, 1980-87; Head, Department of Entomology, 1968-78; Managing Director, Idaho Research Foundation, 1978-86); B.S., 1952, Alberta; M.S., 1955, Idaho; Ph.D., 1962, Montana State. Emeritus since 1988 (now residing in Moscow).

DALE D. GOBLE, 1982 (1988), Professor of Law; A.B., 1975, Columbia (New York); J.D., 1978, Oregon.

W. HAROLD GODWIN, 1975 (1987), Licensed Psychologist, Student Counseling Center, with rank of Professor; Adjunct Professor of Counseling and Special Education and of Psychology; Vice President for Student Affairs, 1989- (Centennial Coordinator, 1988-89); B.A., 1970, California State (Sonoma); M.S., 1972, Ph.D., 1975, Washington State.

ROY H. GOETSCHEL, JR., 1969 (1976), Associate Professor of Mathematics; B.S., 1954, Northwestern; M.S., 1958, De Paul; Ph.D., 1966, Wisconsin.

*WILLARD L. GOFF, 1981, Affiliate Professor of Veterinary Medicine, Pullman, Wash.; B.S., 1970, Bowling Green State; M.S., 1978, Ph.D., 1981, Texas A & M.

*EUGENE F. GOLIS, 1963 (1990), Professor Emeritus of Management; B.A., 1955, Vermont; M.B.A., 1961, Denver. Emeritus since 1990 (now residing in Moscow).

*CATHERINE M. GORCHELS, 1989, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1974, Oregon.

SALLIE E. GORDON, 1984 (1989), Associate Professor of Psychology; B.A., 1976, M.A., 1978, California State (Fullerton); Ph.D., 1982, Illinois.

TERESA P. GORDON, 1986 (1992), Associate Professor of Accounting; B.A., 1976, M.B.A., 1981, Houston Baptist; Ph.D., 1986, Houston.

*JOHN R. GORHAM, 1987, Affiliate Professor of Veterinary Medicine, Pullman, Wash.; D.V.M., 1946, M.S., 1948, Washington State; Ph.D., 1953, Wisconsin.

THOMAS M. GORMAN, 1987, Assistant Professor of Forest Products; B.S., 1980, Massachusetts (Amherst); M.S., 1984, Ph.D., 1987, SUNY (Syracuse).

*STANLEY R. GORTSEMA, 1976 (1989), Extension Professor of Agriculture; Power County Extension Agricultural Agent, American Falls; B.S., 1971, M.S., 1973, Idaho.

TANIA GOTTSCHALK, 1990, Reference Librarian with rank of Assistant Professor; B.A., 1984, Alberta (Edmonton); M.S., 1987, Illinois (Urbana-Champaign).

DALE T. GRADEN, 1992, Assistant Professor of History; B.A., 1974, Tufts; M.A.L.S., 1980, Wesleyan (Conn.); Ph.D., 1991, Connecticut (Storrs).

RUSSELL T. GRAHAM, 1979, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.S., 1972, Montana; M.S., 1976, Ph.D., 1981, Idaho.

*EDGAR H. GRAHN, 1941-43, 1946 (1962), Professor of Chemistry and Dean Emeritus (Dean, Graduate School, 1975-77); B.S., 1941, Puget Sound; M.S., 1948, Idaho; Ph.D., 1955, Illinois. Emeritus since 1977 (now residing in Moscow).

*ELNA H. GRAHN, 1947 (1969), Professor Emerita of Mathematics; B.S., 1935, M.S., 1941, Wisconsin. Emerita since 1969 (now residing in Moscow).

DOUGLAS L. GRANT, 1968 (1971), Professor of Law; B.A., 1962, Iowa; J.D., 1967, Colorado.

*ERWIN GRAUE, 1928 (1935), Professor Emeritus of Economics; B.S., 1923, Ph.D., 1928, Cornell. Emeritus since 1965 (now residing in Valleyford, Wash.).

*PAUL J. GRAVELLE, 1992, Affiliate Assistant Professor of Forest Resources, Potlatch Corporation, Lewiston; B.S., 1966, M.F., 1973, Idaho.

*JAMES L. GRAVES, 1949 (1971), Extension Professor Emeritus (Director, Cooperative Extension Service, 1969-81; Associate Dean, College of Agriculture, 1972-81); B.S.Ag., 1949, Idaho; M.S., 1962, Wisconsin. Emeritus since 1981 (now residing in Moscow).

*C. LUCILE GRAY, 1946-48, 1958 (1976), Extension Professor Emerita; B.S.H.Ec., 1945, Idaho; M.A., 1975, Northern Colorado. Emerita since 1982 (now residing in Lewiston).

*C. WILSON GRAY, 1980 (1986), Associate Extension Professor of Agricultural Economics; Extension Agricultural Economist, Twin Falls; B.S., 1974, M.S., 1976, California (Davis).

*EARL E. GRAY, 1962 (1979), Professor Emeritus of Electrical Engineering; B.S.E.E., 1955, M.E.E., 1960, Colorado State. Emeritus since 1992 (now residing in Moscow).

*LEON G. GREEN, 1940 (1952), Professor of Physical Education and Division Director Emeritus (Director, Division of Health, Physical Education and Recreation, 1951-78; Director of Athletics, 1973-78); B.S.Ed., 1937, M.S.Ed., 1939, Idaho; Ed.D., 1953, New York. Emeritus since 1978 (now residing in McCammon).

*WILLIAM R. GREENWOOD, 1978, Affiliate Professor of Geology, Denver, Colo.; B.S., 1961, M.S., 1966, Ph.D., 1968, Idaho.

BARBARA C. GREEVER, 1988, Catalog Librarian with rank of Assistant Professor; B.A., 1978, Whitman College; M.F.A., 1983, Rochester Institute of Technology; M.Lib.Sc., 1985, Indiana.

*WILLIAM S. GREEVER, 1949 (1958), Professor of History and Department Head Emeritus (Head, Department of History, 1956-82); B.A., 1938, Pomona; M.A., 1940, Ph.D., 1949, Harvard. Emeritus since 1982 (now residing in Moscow).

*BAYARD O. GREGORY, 1988, Affiliate Instructor in Vocational Teacher Education, Boise; B.A., 1965, M.A., 1967, California State (Long Beach).

*CEDRIC E. GREGORY, 1968, Professor Emeritus of Mining Engineering; B.E., 1931, B.A., 1944, Adelaide; B.Econ., 1960, M.E., 1960, Ph.D., 1966, Queensland; P.E. Emeritus since 1974 (now residing in Alicante, Spain).

ROBERT J. GREGORY, 1972 (1982), Professor of Psychology; Department Chair, 1990-; B.S., 1966, Washington; Ph.D., 1972, Minnesota.

*MERLAND W. GRIEB, 1956 (1983), Professor Emeritus of Chemistry; B.S., 1942, M.S., 1949, Idaho; Ph.D., 1953, Illinois. Emeritus since 1984 (now residing in Seattle, Wash.).

JEFFREY D. GRIFFIN, 1990 (1992), Assistant Professor of Plant Molecular Physiology; B.S., 1978, M.S., 1982, Michigan State; Ph.D., 1986, Iowa State.

PETER R. GRIFFITHS, 1989, Professor of Chemistry; Department Chair, 1989-; B.A., 1964, D.Phil., 1967, Oxford.

THOMAS C. GRIGGS, 1991, Assistant Professor of Forage Physiology and Forage Physiologist; B.A., 1976, Hampshire; M.S., 1983, Pennsylvania; Ph.D., 1988, Texas Tech.

KATHERINE A. GRINDE, 1987, Assistant Professor of Landscape Architecture; Department Chair, 1992-; B.A., 1978, Wisconsin; M.L.A., 1987, Michigan.

MATTHEW S. GROBER, 1992, Assistant Professor of Zoology; B.S., 1981, California State (Long Beach); Ph.D., 1988, California (Los Angeles).

*LIVERNE D. GRUSSING, 1986, Affiliate Assistant Professor of Resource Recreation and Tourism, Cottonwood; B.A., 1971, M.Ed., 1976, Minnesota.

*JOE C. GUARINO, 1992, Affiliate Assistant Professor of Mechanical Engineering, Boise; B.S., 1977, Boise State; M.S., 1982, Idaho; B.S., 1983, Boise State; Ph.D., 1990, Idaho.

*HAROLD R. GUENTHNER, 1976 (1977), Extension Professor of Agronomy; District Director, Twin Falls (Associate Dean, College of Agriculture, 1981-88); B.S., 1959, M.S., 1965, Montana State; Ph.D., 1970, Washington State.

JOSEPH F. GUENTHNER, 1980 (1988), Associate Extension Professor of Agricultural Economics (Interim District 1 Extension Director, Moscow, 1989-90; Assistant Director, Cooperative Extension Service, 1983-88); B.S., 1974, Wisconsin; M.S., 1976, Montana State; Ph.D., 1987, Washington State.

DANIEL J. GUERRA, 1990, Assistant Professor of Biochemistry; B.S., 1978, Illinois; M.S., 1981, Arkansas; Ph.D., 1984, Utah State.

KAREN P. GUILFOYLE, 1989, Assistant Professor of Education; B.A., 1968, M.Ed., 1975, Eastern Washington; Ph.D., 1988, Arizona.

MICKEY E. GUNTER, 1989, Assistant Professor of Geology; B.S., 1979, Southern Illinois; M.S., 1982, Ph.D., 1987, Virginia Polytechnic Institute.

*YONG GUO, 1989, Affiliate Assistant Professor of Chemical Engineering, Guangzhou, China; B.S., 1966, South China University of Technology.

*DONALD A. GUSTAFSON, 1944 (1965), Professor Emeritus of Chemistry; B.S., 1937, Ph.D., 1944, Washington (Seattle). Emeritus since 1977 (now residing in Moscow).

*JAMES W. GUTHRIE, 1952 (1969), Professor Emeritus of Plant Science; B.S., 1949, M.S., 1950, Utah State; Ph.D., 1952, Wisconsin. Emeritus since 1982 (now residing in Moscow).

STEPHEN O. GUY, 1990, Assistant Extension Professor and Crop Management Specialist; B.S., 1973, M.S., 1975, Colorado State; Ph.D., 1988, Wisconsin (Madison).

H. LYNNE HAAGENSEN, 1976 (1983), Associate Professor of Art; B.A., 1970, Hollins; M.A., 1973, North Carolina (Chapel Hill); M.F.A., 1975, Ohio State.

SANDRA HAARSAGER, 1979-83, 1988 (1989), Assistant Professor of Communication; B.A., 1968, College of Idaho; M.P.A., 1982, Boise State; Ph.D., 1990, Washington State.

DONALD F. HABER, 1969 (1974), Professor of Civil Engineering (systems); Adjunct Professor of Statistics; B.S.E., 1956, M.S.E., 1960, Missouri; Ph.D., 1966, Oklahoma State; P.E.

*MILDRED HABERLY, 1941, Extension Professor Emerita; B.S., 1928, Oregon State; M.S., 1941, Washington (Seattle). Emerita since 1966 (now residing in Moscow).

*WILLIAM R. HACKETT, 1991, Affiliate Associate Professor of Geology, Idaho Falls; B.A., 1974, Franklin and Marshall; M.S., 1977, Case Western Reserve; Ph.D., 1985, Victoria.

WM. KENT HACKMANN, 1967 (1977), Professor of History (English history); Department Chair, 1984-; B.A., 1959, Yale; M.A., 1962, Ph.D., 1969, Michigan.

*SAAD L. HAFEZ, 1984, Assistant Professor of Nematology and Director, Nematology Lab, Parma; B.S., 1968, M.S., 1972, Cairo; Ph.D., 1980, California (Davis).

*DONALD J. HAGEDORN, 1991, Affiliate Professor of Plant Pathology, Madison, Wisc.; B.S., 1941, Idaho; M.S., 1943, Ph.D., 1948, Wisconsin (Madison).

*JACK I. HAGEN, 1965 (1980), Professor Emeritus of Electrical Engineering; B.S., 1948, M.S., 1949, Oregon State. Emeritus since 1980 (now residing in Viola).

PETER A. HAGGART, 1963 (1978), Professor of Communication; Director, School of Communication, 1988- (Chair, Department of Radio-Television, 1970-77; General Manager, KUID-TV/FM, 1971-76); Chair, Faculty Council, 1982-83 and 1988-89; B.A., 1959, South Dakota; M.A., 1963, Kansas.

BRUCE T. HAGLUND, 1982 (1988), Associate Professor of Architecture; B.S., 1968, Illinois Institute of Technology; M.Arch., 1982, Oregon.

*DONALD L. HAGRMAN, 1988, Affiliate Professor of Physics, Idaho Falls; B.S., 1963, Nebraska; Ph.D., 1970, Utah.

RICHARD R. HAHN, 1967 (1978), Professor of Music (flute); Acting Director, Hampton School of Music, 1991-; B.A., 1964, B.M., 1964, Washington State; M.Mus., 1966, Wisconsin.

*JAMES L. HALDERSON, 1977, Associate Research Professor of Agricultural Engineering, Aberdeen; B.S., 1962, M.S., 1963, Wisconsin; Ph.D., 1971, Purdue; P.E.

*CHRISTOPHER J. HALL, 1971, Professor Emeritus of Mining Engineering; B.Sc., 1949, Ph.D., 1951, London. Emeritus since 1991 (now residing in Pullman, Wash.).

*CRAIG D. HALL, 1989, Affiliate Assistant Professor of Geology, Moscow; B.S., 1977, M.S., 1980, Brigham Young; Ph.D., 1989, Idaho.

*FORREST H. HALL, 1946 (1960), Professor Emeritus of Civil Engineering; B.S., 1939, Colorado State; M.S.C.E., 1940, California Institute of Technology. Emeritus since 1978 (now residing in Viola).

*GRANT B. HALL, 1950 (1971), Extension Professor Emeritus; B.S.Ag., 1950, M.Ag., 1960, Idaho. Emeritus since 1981 (now residing in Boise).

*WILLIAM B. HALL, 1965 (1969), Professor Emeritus of Geology; A.B., 1950, Princeton; M.S., 1951, Cincinnati; Ph.D., 1961, Wyoming. Emeritus since 1991 (now residing in Moscow).

*LEONARD HALLAND, 1921 (1960), Professor Emeritus of Physics; B.S.M.E., 1919, M.S.M.E., 1928, Idaho. Emeritus since 1960 (now residing in Great Falls, Mont.).

JOHN H. HALLAQ, 1970 (1979), Professor of Business; B.S., 1963, M.B.A., 1964, California (Los Angeles); Ph.D., 1972, Washington (Seattle).

NORMAN N. HALLETT, 1985 (1992), Associate Professor of Higher Education/School Administration; Chair, Department of Educational Administration, 1992-; B.S.Ed., 1962, Idaho; M.Ed., 1968, Oregon; Ed.D., 1982, Idaho.

*BRUCE L. HAM, 1987, Affiliate Clinical Professor of Medical Science, Moscow; B.A., 1971, Walla Walla; M.D., 1974, Loma Linda.

SAM H. HAM, 1978 (1991), Professor of Resource Recreation and Tourism; B.S., 1974, M.S., 1978, Washington State; Ph.D., 1982, Idaho.

DAVID A. HAMILTON, JR., 1970, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.S., 1965, Ph.D., 1970, Iowa State.

*GEORGE HAMILTON, 1968 (1977), Associate Extension Professor of Agriculture; Jefferson County Extension Agricultural Agent, Rigby; B.S.Ag., 1966, Idaho.

JOEL R. HAMILTON, 1970 (1982), Professor of Agricultural Economics; Adjunct Professor of Statistics; Agricultural Economist; Interim Director, Martin Institute for Peace Studies and Conflict Resolution, 1991-; B.S., 1966, Wisconsin; Ph.D., 1971, California (Berkeley).

*LEE W. HAMILTON, 1952 (1979), Extension Professor Emeritus; B.S.Ag., 1952, Idaho; M.A., 1961, Colorado State. Emeritus since 1979 (now residing in Pocatello).

JOHN E. HAMMEL, 1982 (1986), Associate Professor of Soil Science and Soil Physics; B.S., 1973, Oregon State; M.S., 1977, Ph.D., 1979, Washington State.

CHARLES H. HAMMERSLEY, 1989, Assistant Professor of Recreation; B.S., 1978, Florida; M.Ed., 1984, Georgia State; Ph.D., 1988, New Mexico.

*AN HANG, 1990, Affiliate Assistant Professor of Plant Science, Aberdeen; B.S., 1967, Saigon; M.S., 1976, Ph.D., 1981, Colorado.

*WENDEL J. HANN, 1988, Affiliate Assistant Professor of Range Resources, Missoula, Mont.; B.S., 1977, M.S., 1979, Washington State; Ph.D., 1982, Idaho.

RICHARD G. HANNAFORD, 1970 (1977), Associate Professor of English; B.A., 1963, Puget Sound; M.A., 1966, Ph.D., 1970, Indiana.

BARBARA E. HANNAN, 1989, Assistant Professor of Philosophy; B.A., 1979, Randolph-Macon Women's College; J.D., 1982, M.A., 1987, Ph.D., 1989, Arizona.

*IVY L. HANSEN, 1946 (1970), Extension Professor Emerita; B.S., 1929, Utah State. Emerita since 1970 (now residing in Preston).

*CLAYTON L. HANSON, 1977, Affiliate Professor of Civil Engineering, Northwest Watershed Research Center, USDA, SEA-FR, Boise; B.S.C.E., 1959, North Dakota; M.S.C.E., 1963, Idaho; Ph.D., 1967, Utah State.

*D. JAY HANSON, 1968 (1977), Associate Extension Professor of Agriculture; Teton County Extension Agricultural Agent, Driggs; B.S.Ag., 1968, Idaho.

DONNA M. HANSON, 1981 (1985), Science Librarian with rank of Associate Professor; B.A., 1970, Western Washington State; M.L.S., 1971, Washington; M.A., 1988, Idaho.

*JERRY L. HARBOUR, 1991, Affiliate Assistant Professor of Psychology, Idaho Falls; B.A., 1972, Western Washington; M.S., 1975, Eastern Washington; Ph.D., 1988, Oklahoma State.

JAMES H. HARDCASTLE, 1975 (1983), Professor of Civil Engineering and Geological Engineering; B.S., 1963, M.S., 1966, Ph.D., 1972, California (Berkeley); P.E.

*ROGER W. HARDER, 1947 (1977), Professor Emeritus of Soil Science; B.A., 1942, M.S., 1947, Wisconsin. Emeritus since 1982 (now residing in Moscow).

*RODERICK R. HARDIES, 1965 (1981), Science/Technology Librarian Emeritus with rank of Professor; B.A., 1940, Washington (Seattle); M.A., 1952, Columbia; M.L.S., 1955, Washington (Seattle). Emeritus since 1981 (now residing in Moscow).

*GALE W. HARDING, 1974 (1989), Associate Extension Professor of Agriculture; Madison County Extension Agricultural Agent, Rexburg; B.S., 1973, M.S., 1992, Idaho.

JEFFREY L. HARKINS, 1983, Associate Professor of Accounting (Department Head, 1984-92); B.B.A., 1969, M.P.A., 1973, Texas (Arlington); Ph.D., 1980, Washington; C.P.A.

AARON J. HARP, 1992, Assistant Extension Professor of Rural Sociology; B.A., 1984, California (Sacramento); M.S., 1987, Ph.D., 1991, Pennsylvania.

*BRENT G. HARRIS, 1982, Affiliate Instructor in Civil Engineering, Idaho Falls; B.S., 1971, Brigham Young; M.Engr., 1982, Idaho.

CHARLES C. HARRIS, JR., 1984 (1989), Associate Professor of Resource Recreation and Tourism; B.A., 1973, Oberlin; M.S., 1978, Colorado State; Ph.D., 1983, Michigan.

*LYNN C. HARRIS, 1991, Assistant Extension Professor of Home Economics; Franklin County Extension Home Economist, Preston; B.S., 1981, Baylor; M.A., 1989, Northern Colorado (Greeley).

*ROBERT D. HARRIS, 1959 (1974), Professor Emeritus of History; B.A., 1951, Whitman; M.A., 1953, Ph.D., 1959, California (Berkeley). Emeritus since 1986 (now residing in Moscow).

*STEVEN HARRISON, 1990, Assistant Extension Professor of Agriculture; Caribou County Extension Agricultural Agent, Soda Springs; B.S., 1988, M.S., 1989, Brigham Young.

*WILLIAM E. HARRISON, 1991, Affiliate Professor of Geology, Idaho Falls; B.S., 1966, Lamar Tech; M.S., 1968, Oklahoma; Ph.D., 1976, Louisiana State.

PATRICIA HART, 1976-80, 1982 (1982), Lecturer in Communication; B.A., 1976, Nebraska.

DONALD A. HARTER, 1974, Extension Professor of Agriculture; Extension Specialist (Director, Personnel Services, 1981-87); B.S., 1956, Pennsylvania State; M.Ed., 1965, Massachusetts; Ph.D., 1968, Wisconsin.

*ERNEST W. HARTUNG, 1965, President Emeritus of the University with rank of Professor and Director Emeritus of the University of Idaho Foundation (Twelfth President of the University, 1965-77; Director of Development and Executive Director of the University of Idaho Foundation, 1977-81); A.B., 1938, Dartmouth; A.M., 1940, Ph.D., 1942, Harvard; LL.D., 1965, Rhode Island; LL.D., 1966, College of Idaho; Adm.Sc.D., 1982, Idaho. Emeritus since 1981 (now residing in East Greenwich, Rhode Island).

ALAN E. HARVEY, 1980, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.S., 1960, College of Idaho; M.S., 1962, Idaho; Ph.D., 1968, Washington State.

CHARLES R. HATCH, 1973 (1977), Professor of Forest Resources (Department Head, 1987-89); B.S., 1964, Montana; M.F., 1966, Oregon State; Ph.D., 1971, Minnesota.

*PATRICK G. HATFIELD, 1991, Affiliate Assistant Professor of Animal Science, Dubois; B.S., 1983, Montana State; M.S., 1985, New Mexico State; Ph.D., 1988, Nebraska (Lincoln).

*CECIL W. HATHAWAY, 1955-56, 1960 (1972), Professor of Civil Engineering and Director of Engineering Outreach Emeritus; B.S.C.E., 1955, Idaho; M.E., 1958, California (Berkeley); Ph.D., 1972, Washington (Seattle); P.E. Emeritus since 1991 (now residing in Moscow).

*WAYNE G. HATHAWAY, 1986, Affiliate Assistant Professor of Industrial Technology Education, Idaho Falls; B.S., 1960, M.S., 1962, Utah State.

*HUBERT E. HATTRUP, 1941 (1953), Professor of Electrical Engineering and Department Head Emeritus (Head, Department of Electrical Engineering, 1953-66); B.S.E.E., 1930, E.E., 1946, Idaho; P.E. Emeritus since 1971 (now residing in Moscow).

ROBERT HAUTALA, 1983 (1985), Assistant Professor of Mining Engineering; Associate Dean, College of Mines and Earth Resources, 1988-; B.S., 1978, Minnesota; M.B.A., 1985, Idaho.

*JAMES N. HAWKINS, 1970 (1985), Extension Professor of Agriculture; Custer County Extension Agricultural Agent, Challis; B.S.An.Sci., 1969, M.S., 1979, Idaho.

*JOHN C. HAYGARTH, 1992, Affiliate Professor of Metallurgy, Albany, Ore.; B.Sc., 1962, Ph.D., 1965, Leeds.

*JAMES B. HAYNES, 1989, Affiliate Assistant Professor of Chemical Engineering, Moscow; B.S., 1975, M.S., 1985, Ph.D., 1989, Idaho.

*ROBERT C. HAYNES, 1955 (1974), Professor Emeritus of Agricultural Education and Agricultural Engineering; B.S.Ag., 1938, M.S., 1957, Idaho. Emeritus since 1979 (now residing in Moscow).

JOHANNA B. HAYS, 1985 (1986), Adjunct Instructor in Art; Director of Galleries; B.S., 1967, Columbia.

*WILLIAM F. HAZEN, 1970 (1979), Associate Extension Professor of Agriculture; Lincoln County Extension Agricultural Agent, Shoshone; B.S.Ag., 1969, M.S., 1985, Idaho.

*BEVERLY A. HEALY, 1969 (1984), Extension Professor of Home Economics; Owyhee County Extension Home Economist, Marsing; B.A., 1969, Idaho State; M.Ed., 1983, Northwest Nazarene College.

DALE A. HEDMAN, 1990, Assistant Professor of Military Science; B.S., 1980, Eastern Oregon State.

FLORENCE A. HEFFRON, 1974 (1978), Associate Professor of Political Science; B.A., 1964, SUNY (Albany); M.A., 1968, New York; Ph.D., 1971, Colorado.

*JAMES HEIDELBERGER, 1988, Affiliate Instructor in Special Education, Bonners Ferry; B.S., 1976, M.S., 1979, Ed.Spec., 1981, Idaho.

RICHARD C. HEIMSCH, 1972 (1983), Professor of Bacteriology; Bacteriologist; Associate Director, Agricultural Experiment Station; Interim Head, Department of Bacteriology and Biochemistry, 1990-; Chair, Faculty Council, 1981-82; B.A., 1965, Miami (Ohio); M.S., 1971, Ph.D., 1973, Wisconsin (Madison).

*AUDUS W. HELTON, 1951 (1963), Professor Emeritus of Plant Science; B.A., 1947, M.S., 1948, Ohio Wesleyan; Ph.D., 1951, Oregon State. Emeritus since 1986 (now residing in Moscow).

*MORRIS L. HEMSTROM, 1959 (1981), Professor Emeritus of Animal Science; B.S., 1950, Colorado State; M.S., 1957, Nebraska. Emeritus since 1981 (now residing in Moscow).

MARVIN C. HENBERG, 1976 (1986), Professor of Philosophy; Department Chair, 1988-; Director, Honors Program, 1982-; B.A., 1970, Washington and Lee; B.A., 1973, Oxford; Ph.D., 1976, Texas; M.A., 1977, Oxford.

JOHN C. HENDEE, 1985, Professor of Forest Resources and Resource Recreation and Tourism; Dean, College of Forestry, Wildlife and Range Sciences, 1985-; B.S., 1960, Michigan State; M.S., 1962, Oregon State; Ph.D., 1967, Washington (Seattle).

DOUGLASS M. HENDERSON, 1972 (1978), Associate Professor of Botany; B.A., 1965, Fresno State; Ph.D., 1972, University of Washington.

JOANN P. HENDERSON, 1975 (1978), Professor of Law; B.A., 1971, J.D., 1973, Idaho.

PATRICIA A. HENDRICKS, 1991, Associate Extension Professor and Extension 4-H Youth Development Specialist; B.S., 1958, M.S., 1981, Ph.D., 1990, Nebraska (Lincoln).

*ELEANOR K. HENNINGHAM, 1966 (1975), Professor Emerita of English; A.B., 1931, Mount Holyoke; M.A., 1932, Ph.D., 1937, New York Univ. Emerita since 1975 (now residing in Staunton, Va.).

*JOHN A. HENRY, 1963 (1978), Extension Professor of Agriculture; Canyon County Extension Agricultural Agent, Caldwell; B.S.Ag., 1954, M.S.Ag., 1962, Idaho.

STEPHEN K. HERBERT, 1991, Assistant Professor of Botany; B.S., 1980, Seattle Pacific; M.S., 1984, Ph.D., 1988, Washington.

WALTER A. HESFORD, 1979 (1985), Associate Professor of English; B.A., 1968, Trinity; M.A., 1972, Ph.D., 1975, Harvard.

*GEORGE G. HESPELT, 1957 (1991), Professor Emeritus of Electrical Engineering; B.S.E.E., 1953, Idaho; M.S.E.E., 1957, Oregon State. Emeritus since 1991 (now residing in Moscow).

*ROBERT E. HIGGINS, 1946 (1974), Extension Professor and Extension Agronomist Emeritus; B.S.Ag., 1941, M.S., 1959, Idaho. Emeritus since 1979 (now residing in Boise).

*HERMAN G. HILFIKER, 1936 (1969), Extension Professor Emeritus; B.S.Ag., 1933, Idaho. Emeritus since 1969 (now residing in Boise).

*SUSAN G. HILL, 1992, Affiliate Assistant Professor of Psychology, Idaho Falls; B.A., 1977, William and Mary; Ph.D., 1988, Virginia Polytechnic.

*RUSSELL G. HILLMAN, 1950 (1981), Extension Professor Emeritus; B.S.Ag., 1950, Idaho. Emeritus since 1981 (now residing in St. Anthony).

*CAMERON D. HINMAN, 1982, Affiliate Clinical Professor of Medical Science, Lewiston; B.A., 1962, Oregon; M.D., 1966, California (San Francisco).

*DAN D. HINMAN, 1974 (1985), Professor of Animal Nutrition, Ruminant Nutritionist, Caldwell; B.S., 1969, Montana State; M.S., 1971, Ph.D., 1973, Oklahoma State.

THOMAS E. HIPPLE, 1969 (1976), Professor of Counseling and Human Services; B.S., 1954, Northern Illinois; M.S., 1959, Wisconsin; Professional Certificate, 1964, Missouri; Ph.D., 1970, Kent State.

*MINORU HIRONAKA, 1954 (1972), Professor Emeritus of Range Resources; B.S., 1952, Utah State; M.S.For., 1954, Idaho; Ph.D., 1963, Wisconsin. Emeritus since 1992 (now residing in Moscow).

*KENNETH HOAG, 1935 (1948), Professor Emeritus of English; B.A., 1924, M.A., 1926, Michigan. Emeritus since 1967 (now residing in Tucson, Ariz.).

A. D'WAYNE HODGIN, 1980 (1983), Lecturer in English; B.A., 1975, Southeastern Louisiana; M.A., 1982, Idaho.

*CHARLES W. HODGSON, 1945 (1974), Professor Emeritus of Animal Science; B.S.Ag., 1934, Idaho; M.S., 1936, Arizona; Ph.D., 1924, Michigan State. Emeritus since 1974 (now residing in Clarkston, Wash.).

*CARL HOERGER, 1990, Affiliate Professor of Mechanical Engineering, Boise; B.S., 1978, Michigan Technological; M.S., 1981, Ph.D., 1983, Utah State.

RAYMOND J. HOFF, 1962, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.A., 1957, Western Washington State; Ph.D., 1968, Washington State.

*DAVID L. HOFFMAN, 1987, Affiliate Assistant Professor of Plant Science, Aberdeen; B.S., 1977, Idaho; M.S., 1979, New Mexico State; Ph.D., 1985, Washington State.

*DWIGHT S. HOFFMAN, 1938 (1958), Professor of Chemical Engineering and Department Chair Emeritus (Department Chair, 1974-76); B.S.Ch.E., 1938, M.S., 1947, Idaho; P.E. Emeritus since 1976 (now residing in Moscow).

CATHERINE A. HOFMANN, 1974 (1978), Associate Professor of Economics; B.A., 1957, Washington State; M.A., 1964, Ph.D., 1969, Washington (Seattle).

*ARLAND D. HOFSTRAND, 1959 (1980), Professor Emeritus of Forest Products (Assistant Dean for Academics, College of Forestry, Wildlife and Range Sciences, 1983-84); B.S.For., 1950, M.S.For., 1952, Idaho. Emeritus since 1986 (now residing in Moscow).

*GEORGE W. HOGG, 1986, Affiliate Assistant Professor of Chemical Engineering, Idaho Falls; B.S., 1958, Iowa State; M.S., 1965, Ph.D., 1968, Idaho.

*DOROTHY S. HOLE, 1957 (1976), Extension Professor Emerita; B.S., 1936, Oregon; M.Ed., 1967, Colorado State. Emerita since 1979 (now residing in Moscow).

JOHN P. HOLUP, JR., 1971 (1983), Professor of Marketing Education; B.S., 1966, M.Ed., 1969, Bowling Green State; Ph.D., 1980, Washington State.

HUGH W. HOMAN, 1965 (1977), Extension Professor of Entomology; B.S.Ed., 1957, M.S., 1959, Idaho.

ROBERT D. HOOK, 1968 (1980), Head, Access Services, University Library, with rank of Professor; B.A., 1964, Chico State; M.A.L.S., 1968, San Jose State; M.P.A., 1976, Ph.D., 1980, Southern California.

*IVAN C. HOPKINS, 1959 (1972), Associate Extension Professor of Agriculture; Minidoka County Extension Agricultural Agent, Rupert; B.S.Ag., 1956, Idaho.

*WILLIAM E. HOPKINS, 1991, Affiliate Professor of Forest Resources, Bend, Oregon; B.A., 1965, M.A., 1968, Southern Illinois (Carbondale); Ph.D., 1971, Miami.

*ANTON S. HORN, 1946 (1974), Extension Professor and Extension Horticulturist Emeritus; B.S.Ag., 1937, Kansas State; M.S., 1941, Illinois. Emeritus since 1978 (now residing in Boise).

DENNIS R. HORN, 1984 (1988), Associate Professor of Civil Engineering; B.S., 1964, Princeton; Ph.D., 1974, Johns Hopkins; P.E.

MAURICE G. HORNOCKER, 1968 (1972), Professor of Fish and Wildlife Resources; Director, Wildlife Research Institute; B.S., 1960, M.S., 1962, Montana; Ph.D., 1967, British Columbia.

*ABRAHAM D. HOROWITZ, 1992, Affiliate Assistant Professor of Psychology, Detroit, Mich.; B.Sc., 1969, Hebrew Univ. (Jerusalem); M.A., 1971, Ph.D., 1973, North Carolina (Chapel Hill).

*ROBERT E. HOSACK, 1943 (1953), Professor of Political Science and Department Chair Emeritus (Chair, Department of Political Science, 1947-55 and 1969-72; Head, Department of Social Sciences, 1955-69); A.B., 1932, Wooster; A.M., 1934, Chicago; Ph.D., 1951, Duke. Emeritus since 1974 (now residing in Moscow).

*JOHN R. HOSKINS, 1967, Professor of Mining Engineering and Department Head Emeritus (Head, Department of Metallurgical and Mining Engineering, 1968-89); B.S.Min.E., 1947, Idaho; Ph.D., 1962, Utah. Emeritus since 1989 (now residing in Pullman, Wash.).

*DONALD L. HOSTETTER, 1989, Affiliate Associate Professor of Entomology, Kimberly; B.S., 1962, M.S., 1964, South Dakota State.

*BONNIE L. HOUFF, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., Miami.

*BETTE A. HOVEY, 1968 (1983), Extension Professor of Home Economics; Power County Extension Home Economist, American Falls; B.S., 1968, Idaho State; M.A., 1978, Northern Colorado.

TERRY R. HOWARD, 1973 (1982), Professor of Geological Engineering and Civil Engineering; B.S.Geol.E., 1963, M.S.Geol.E., 1967, Idaho; Ph.D., 1973, California (Berkeley); P.E.

*JOHN P. HOWE, 1956 (1968), Professor Emeritus of Forest Products; B.A., 1935, Amherst; M.S., 1955, Yale; Ph.D., 1966, Michigan; M.Div., 1982, Andover Newton Theological School. Emeritus since 1979 (now residing in Spokane, Wash.).

*JOHN R. HUBERTY, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; B.S., 1960, St. John's; M.D., 1961, Minnesota.

EDWARD V. HUGHES, JR., 1981 (1983), Lecturer in English; A.B., 1974, California (Berkeley); M.A., 1983, Idaho.

*MELISSA HULSE, 1990, Affiliate Assistant Professor of Psychology, Moscow; B.A., 1985, Goucher College; M.S., 1988, Virginia Polytechnic.

BONNIE J. HULTSTRAND, 1975 (1988), Associate Professor of Physical Education; B.S., 1960, St. Cloud State; M.S., 1965, Washington State.

*ALLAN S. HUMPHREYS, 1969, Affiliate Professor of Agricultural Engineering, Soil and Water Management Research Unit, USDA, Kimberly; B.S., 1954, M.S., 1957, Utah State.

*KENNETH E. HUNGERFORD, 1942-45, 1946 (1959), Professor Emeritus of Wildlife Resources; B.S.For., 1938, Idaho; M.S., 1940, Connecticut; Ph.D., 1952, Michigan. Emeritus since 1978 (now residing in Moscow).

CARL W. HUNT, 1985 (1991), Associate Professor of Animal Science; B.A., 1975, Luther College; M.S., 1978, Southern Illinois (Carbondale); Ph.D., 1984, Missouri.

JOHN D. HUNT, 1991, Professor of Resource Recreation and Tourism; Department Head, 1991-; B.S., 1959, M.F., 1961, Idaho; Ph.D., 1971, Colorado.

*MARTHA K. HUNT, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., Southern Illinois.

*DAVID L. HUNTER, 1992, Affiliate Associate Professor of Animal and Veterinary Science, Eagle; B.S., 1974, D.V.M., 1976, Washington State.

*JAY A. HUNTER, 1980, Affiliate Clinical Professor of Medical Science, Lewiston; B.S., 1973, Idaho; M.D., 1977, Washington (Seattle).

LARRY O. HUNTER, 1975, Director of Management Information Services and Manager of Administrative Data Processing; B.S., 1959, M.S., 1962, Kansas State Teachers; M.Ed., 1965, Harvard; Ph.D., 1983, Idaho.

SHARON J. HUTCHISON, 1984 (1992), Senior Instructor in Chemistry; B.S., 1975, Alma; Ph.D., 1983, Idaho.

*BRET A. HYDE, 1989, Affiliate Assistant Professor of Aerospace Studies, Pullman, Wash.; B.S., 1981, U.S. Air Force Academy; M.S., 1986, Air Force Institute of Technology.

*LIONEL C. ICKES, 1978, Affiliate Professor of Veterinary Medicine, Nampa; B.S., 1960, D.V.M., 1960, Colorado State.

HELEN H. INGALLS, 1991, Adjunct Assistant Professor of Special Education; Outreach Trainer, College of Education; B.S., 1977, B.S.Ed., 1977, Idaho; M.A., 1982, Northern Colorado; Ph.D., 1988, New Mexico.

LAWRENCE INGALLS, 1991, Adjunct Assistant Professor of Special Education; Outreach Trainer, College of Education; B.S., 1977, B.S.Ed., 1977, Idaho; M.A., 1982, Northern Colorado; Ph.D., 1988, New Mexico.

ROLF L. INGERMANN, 1986 (1992), Associate Professor of Zoology; B.A., 1972, California (Los Angeles); M.S., 1974, Ph.D., 1980, Oregon.

*SUSAN K. INOUE, 1974-82, 1987 (1978), Assistant Extension Professor of Home Economics; Washington County Extension Home Economist, Weiser; B.S., 1973; M.S., 1981, Idaho.

PETER E. ISAACSON, 1978 (1989), Professor of Geology; B.A., 1968, Colorado (Boulder); Ph.D., 1974, Oregon State.

BEHZAD IZADI, 1988, Assistant Professor of Agricultural Engineering; B.S., 1980, Washington (Seattle); M.S., 1984, California (Davis); Ph.D., 1988, Colorado State.

*MELBOURNE L. JACKSON, 1953, Research Professor of Chemical Engineering and Dean Emeritus (Dean, Graduate School, 1965-70; Dean, College of Engineering, 1978-80); B.S., 1941, Montana State; Ph.D., 1948, Minnesota; D.Engr., 1980, Montana State. Emeritus since 1980 (now residing in Moscow).

*FRANK H. JACOBS, 1954 (1971), Extension Professor Emeritus; B.S.Ag., 1948, Idaho. Emeritus since 1981 (now residing in Rexburg).

*RICHARD A. JACOBS, 1981, Affiliate Clinical Professor of Medical Science, Moscow; B.S., 1966, Northern Illinois; M.D., 1972, Illinois (Medical Center).

RICHARD T. JACOBSEN, 1963 (1977), Professor of Mechanical Engineering; Dean, College of Engineering, 1990- (Associate Dean, 1985-90; Department Chair, 1980-85); B.S.M.E., 1963, M.S.M.E., 1965, Idaho; Ph.D., 1972, Washington State; P.E.

*ROBERT L. JAMES, 1988, Affiliate Professor of Forest Resources, Coeur d'Alene; B.S., 1967, Utah State; M.S., 1975, Ph.D., 1977, California (Berkeley).

MARIA A. JANKOWSKA, 1989, Catalog Librarian with rank of Assistant Professor; M.A., 1975, Ph.D., 1983, Poznan School of Economics (Poland); M.L.I.S., 1989, California (Berkeley).

PIOTR JANKOWSKI, 1989, Assistant Professor of Geography; M.S., 1979, Poznan (Poland); Ph.D., 1989, Washington (Seattle).

*MANUEL R. JELVEZ, 1990, Affiliate Assistant Professor of Forest Products, Concepcion, Chile; B.S., 1976, Universidad Austral de Chile; M.S., 1983, Ph.D., 1990, Idaho.

TOM E. JENNESS, 1969 (1987), Professor of Communication; B.S., 1962, M.A., 1969, Brigham Young; Ph.D., 1981, Idaho.

ALFRED W. JENSEN, 1968 (1971), Assistant Professor of Foreign Languages and Literatures (Spanish); B.A., 1963, Utah State; M.A., 1965, Ph.D., 1974, Wisconsin.

ERIC L. JENSEN, 1976 (1984), Associate Professor of Sociology; B.A., 1968, M.A., 1973, Ph.D., 1978, Washington State.

*ERLING J. JOHANNESSEN, 1945 (1981), Extension Professor Emeritus; B.S.Ag., 1945, Idaho. Emeritus since 1981 (now residing in Emmett).

HARLEY E. JOHANSEN, 1981, Professor of Geography; Department Head, 1981-; B.A., 1967, Wisconsin (River Falls); M.S., 1969, Ph.D., 1974, Wisconsin (Madison).

*BRADLEY L. JOHNSON, 1989, Affiliate Clinical Professor of Medical Science, Lewiston.

BRIAN K. JOHNSON, 1992, Assistant Professor of Electrical Engineering; B.S., 1987, M.S., 1989, Ph.D., 1992, Wisconsin (Madison).

CHERYL JOHNSON, 1988 (1989), Lecturer in English; B.A., 1970, Denver; M.A., 1990, Idaho.

DONALD R. JOHNSON, 1968 (1975), Professor of Zoology; B.S., 1953, M.S., 1958, Idaho; Ph.D., 1962, Colorado State.

*E. G. JOHNSON, 1978, Affiliate Professor of Veterinary Medicine, Parma; D.V.M., 1966, Washington State.

*FREDERIC D. JOHNSON, 1952 (1972), Professor Emeritus of Forest Ecology; B.S., 1950, Oregon State; M.S.For., 1952, Idaho. Emeritus since 1990 (now residing in Moscow).

GEORGIA JOHNSON, 1992, Assistant Professor of Education; B.A., 1974, M.F.A., 1987, Montana; Ph.D., 1992, Utah.

JAMES B. JOHNSON, 1981 (1987), Associate Professor of Entomology; B.S., 1973, Michigan; Ph.D., 1982, California (Berkeley).

KENDALL L. JOHNSON, 1988, Professor of Range Resources; Department Head, 1988-; B.S., 1955, Wyoming; M.S., 1957, Idaho; Ph.D., 1966, Colorado State.

*LaMAR J. JOHNSON, 1980, Affiliate Instructor in Physics, Idaho Falls; B.S., 1959, Utah State; M.S., 1963, Kansas; Ph.D., 1969, Colorado State.

LEONARD R. JOHNSON, 1974 (1984), Professor of Forest Products; Department Head, 1990- (Associate Dean for Academics and Continuing Education, College of Forestry, Wildlife and Range Sciences, 1989-90); B.S., 1968, M.S., 1970, Montana State; Ph.D., 1984, West Virginia.

*LYNN F. JOHNSON, 1976, Affiliate Professor of Agricultural Engineering, Aberdeen; B.S.Ag.E., 1953, M.S.Ag.E., 1958, Idaho.

MARK S. JOHNSON, 1987, Assistant Professor of Finance; B.S., 1979, Minnesota (Minneapolis); M.S., 1981, Minnesota (St. Paul); Ph.D., 1987, Washington State.

MAURICE E. JOHNSON, 1958 (1977), Extension Professor of Agriculture; Extension Education Specialist; Adjunct Professor of Home Economics; B.S.Ag., 1956, M.S.Ag., 1957, Idaho; Ph.D., 1976, Wisconsin (Madison).

*LAWRENCE H. JOHNSTON, 1967, Professor Emeritus of Physics; A.B., 1940, Ph.D., 1950, California (Berkeley). Emeritus since 1988 (now residing in Moscow).

ALLAN JOKISAARI, 1984 (1991), Senior Instructor in Cartography; Manager, Cart-O-Graphics Lab; B.A., 1968, Pacific (Stockton); M.S., 1982, Idaho.

MELVIN G. JOLLY, 1975-77, 1985 (1975), Assistant Professor of Accounting; B.A., 1965, Seattle Pacific; M.B.A., 1967, The Wharton School; Ph.D., 1992, Idaho.

*ARLENE T. JONAS, 1971 (1987), Professor Emerita of Home Economics; B.S.H.Ec., 1953, M.S.H.Ec., 1971, Idaho. Emerita since 1987 (now residing in Moscow).

*HAROLD L. JONES, 1969 (1981), Professor Emeritus of Accounting (Department Head, 1978-80); B.S., 1948, Indiana; M.B.A., 1964, Harvard; C.P.A. Emeritus since 1987 (now residing in Douglas, Alaska).

JAMES R. JONES, 1975 (1985), Professor of Agricultural Economics; Agricultural Economist; B.A., 1964, Southwest Missouri State; M.S., 1967, Oklahoma State; Ph.D., 1976, Arkansas.

*ROBERT W. JONES, 1958 (1990), Professor Emeritus of Geology; B.S., 1950, M.S., 1957, Ph.D., 1959, Washington (Seattle). Emeritus since 1990 (now residing in Moscow).

PAUL JOYCE, 1991, Assistant Professor of Mathematics; B.S., 1980, M.S., 1982, Montana State; Ph.D., 1988, Utah.

MARY ANN JUDGE, 1988 (1990), B.A., 1985, M.A., 1990, Idaho.

S. J. JUNG, 1990, Assistant Professor of Mining Engineering; B.S., 1981, Cheong Ju (Korea); M.S., 1984, Ph.D., 1989, West Virginia.

VIRGINIA W. JUNK, 1986 (1992), Associate Professor of Home Economics; B.S., 1967, M.S., 1983, Ph.D., 1986, Idaho.

WILLIAM S. JUNK, 1980, Assistant Professor of Computer Science; B.S.E.E., 1968, Idaho; M.S.E.E., 1971, Houston.

*MARTIN F. JURGENSEN, 1991, Affiliate Professor of Forest Resources, Houghton, Mich.; B.S., 1961, M.S., 1965, SUNY College of Forestry; Ph.D., 1967, North Carolina State.

*ANN JUST, 1991, Assistant Extension Professor of Home Economics; Jefferson County Extension Home Economist, Rigby; B.S., 1975, M.S., 1986, Idaho.

*RICHARD E. KAISER, 1985, Affiliate Professor of Nuclear Engineering, Idaho Falls; B.S., 1959, Northwestern; M.S., 1961, Ph.D., 1967, Kansas State.

*R. LOREN KAMBITSCH, 1946 (1971), Extension Professor Emeritus; B.S.Ag., 1943, Idaho. Emeritus since 1979 (now residing in Lewiston).

IRINA KAPPLER-CROOKSTON, 1985, Lecturer in Foreign Languages; B.A., 1978, M.A., 1989, Washington State.

THOMAS J. KARSKY, 1977 (1986), Associate Extension Professor of Agricultural Engineering; Extension Farm Safety Specialist, Moscow; B.S., 1972, M.S., 1974, North Dakota State.

GLENN KASTRINOS, 1990, Instructor in Therapeutic Recreation; B.S., 1975, Utah State; M.Ed., 1986, Temple.

ANGEL KATEN, 1985, Lecturer in Communication; B.S., 1983, Chadron State; M.F.A., 1989, Idaho.

*JACK J. KAUFMAN, 1976 (1984), Extension Professor of Vocational Teacher and Adult Education, Boise Center; B.S.Ed., 1970, Southwest Missouri State; M.S.Ed., 1972, Drury; Ed.D., 1976, Auburn.

JOHN D. KAWULA, 1979 (1988), Reference Librarian with rank of Assistant Professor; B.A., 1974, Trent; M.Ln., 1975, Emory.

KATHLEEN M. KEARNEY, 1981, Assistant Professor of Home Economics; B.S., 1959, Oregon State; M.S., 1961, Iowa State; Ph.D., 1986, Idaho.

ROBERT J. KEARNEY, 1964 (1973), Professor of Physics (Department Chair, 1983-89); B.S., 1957, M.S., 1959, New Hampshire; Ph.D., 1965, Iowa State.

*CAROLYN M. KEELER, 1990, Assistant Professor of Educational Administration, Boise; B.A., 1969, California (Los Angeles); M.A., 1974, Arizona State; Ed.Sp., 1986, Ph.D., 1990, Idaho.

RICHARD M. KEENAN, 1980 (1990), Associate Professor of Foreign Languages and Literatures (Spanish); B.A., 1966, Marist; M.A., 1970, Middlebury; Ph.D., 1980, Missouri.

*DONALD J. KEES, 1954 (1972), Counseling Psychologist Emeritus with rank of Professor and Director Emeritus of the Student Counseling Center (Director, 1965-87); B.S., 1951, M.S., 1952, Idaho; Ed.D., 1967, Washington State. Emeritus since 1987 (now residing in Moscow).

*GORDON C. KEETCH, 1985, Assistant Extension Professor of Agriculture; Adams County Extension Agricultural Agent, Council; B.S., 1967, M.S., 1969, Utah State.

*KATHRYN S. KEIM, 1991, Assistant Extension Professor; Extension Human Nutrition Specialist, Boise; B.S., 1973, Minnesota; M.S., 1977, Nebraska (Lincoln); Ph.D., 1983, Texas Tech.

SCOTT T. KELLOGG, 1989, Assistant Professor of Bacteriology; B.S., 1970, California State (Hayward); M.S., 1974, San Diego State; Ph.D., 1979, Hawaii.

*EDWARD L. KELLY, 1962 (1969), Professor Emeritus of Education; B.S.Ed., 1953, Pennsylvania State (Lock Haven); M.Ed., 1954, Pennsylvania State (University Park); Ed.D., 1962, Illinois. Emeritus since 1990 (now residing in Pullman, Wash.).

GWENDOLYN N. KELLY, 1972 (1989), Professor of Education; B.A., 1961, Denver; M.S., 1972, Idaho; Ph.D., 1979, Washington State.

JAMES F. KELLY, 1986 (1992), Associate Professor of Physics; B.S., 1977, Rensselaer Polytechnic; M.S., 1979, Ph.D., 1984, Chicago.

JOSEPH T. KELLY, 1970 (1988), Professor of Education; B.S.Ed., 1958, Nebraska; M.A., 1965, Denver; Ed.D., 1970, California (Berkeley).

*KENNETH W. KENDALL, 1988, Affiliate Associate Professor of Resource Recreation and Tourism, Pullman, Wash.; A.B., 1965, Occidental; M.B.A., 1967, California (San Francisco); Ph.D., 1977, Iowa.

*ELIZABETH M. KESSEL, 1965 (1987), Professor Emerita of Home Economics (Acting Director, School of Home Economics, 1981-83); B.S., 1948, Wisconsin (Stevens Point); M.S.H.Ec., 1964, Idaho; Ed.D., 1981, Washington State. Emerita since 1987 (now residing in Las Vegas, Nev.).

*ROBERT M. KESSEL, 1957-59, 1960 (1966), Professor Emeritus of Business Education (Coordinator, Business Education, 1960-76); B.S., 1946, Wisconsin State (Whitewater); M.S., 1951, Ph.D., 1956, Wisconsin (Madison). Emeritus since 1986 (now residing in Las Vegas, Nev.).

*SHIRLEY O. KIEHN, 1968 (1986), Professor Emerita of Home Economics; B.A.H.Ec., 1943, B.Ed., 1949, M.A.T.H.Ec., 1967, Washington State. Emerita since 1986 (now residing in Pullman, Wash.).

*THOR KIILSGAARD, 1985, Affiliate Professor of Geological Engineering, Spokane, Wash.; B.S., 1942, Idaho; M.S., 1949, California (Berkeley).

*DENNIS C. KINCAID, 1981, Affiliate Professor of Agricultural Engineering, Soil and Water Management Research Unit, USDA, Kimberly; B.S., 1966, Washington State; M.S., 1968, Ph.D., 1970, Colorado State.

*RONALD L. KINCAID, 1984, Affiliate Professor of Animal Science, Pullman, Wash.; B.S., 1971, M.S., 1973, Missouri; Ph.D., 1976, Georgia.

*DWIGHT L. KINDSCHY, 1947 (1961), Professor of Agricultural Education and Department Head Emeritus (Department Head, 1961-77); B.S.Ag., 1939, Montana State; M.S., 1948, Iowa State; Ed.D., 1960, Washington State. Emeritus since 1977 (now residing in Moscow).

*ROBERT R. KINDSCHY, JR., 1981, Affiliate Professor of Range Resources, Vale, Oregon; B.S., 1958, Idaho.

*BRADLEY A. KING, 1983 (1992), Assistant Research Professor of Agricultural Engineering, Aberdeen; B.S., 1980, Idaho; M.S., 1984, Washington State; Ph.D., 1990, Idaho.

JOHN G. KING, 1972 (1979), Affiliate Professor of Forest Resources, Moscow; B.S., 1969, M.S., 1972, Minnesota; Ph.D., 1978, Idaho.

TIM KING, 1989 (1990), Associate Professor of Music (choral activities); B.Mus., 1974, M.Mus., 1979, Texas Tech.

JAMES L. KINGERY, 1977 (1981), Assistant Professor of Range Resources; B.S., 1974, M.S., 1977, Wyoming; Ph.D., 1985, Idaho.

ROBERT L. KIRCHMEIER, 1987 (1992), Associate Research Professor of Chemistry; B.S., 1968, Montana; Ph.D., 1975, Idaho.

*ERIC B. KIRKLAND, 1947 (1966), Professor Emeritus of Physical Education; B.S., 1937, M.Ed., 1946, Washington (Seattle). Emeritus since 1978 (now residing in Moscow).

*MARY B. KIRKWOOD, 1930 (1954), Professor Emerita of Art; B.A., 1926, Montana; M.F.A., 1930, Oregon. Emerita since 1970 (now residing in Moscow).

LESLIE P. KISH, 1978 (1986), Professor of Entomology; B.S., 1970, M.S., 1971, Ph.D., 1975, Florida.

MARTHA A. KITZROW, 1989, Licensed Psychologist, Student Counseling Center, with rank of Assistant Professor; Adjunct Assistant Professor of Counseling and Special Education; B.A., 1975, M.A., 1982, Oregon; Ph.D., 1990, Oregon State.

*GALE E. KLEINKOPF, 1975 (1982), Research Professor of Plant Physiology, Kimberly; B.S., 1963, Idaho; Ph.D., 1970, California (Davis).

*ELIZABETH L. KLEPPER, 1989, Affiliate Professor of Plant, Soil, and Entomological Sciences, Pendleton, Oreg.; B.A., 1958, Vanderbilt; M.A., 1963, Ph.D., 1966, Duke.

RONALD J. KLIMKO, 1968 (1976), Professor of Music (bassoon, theory and composition); B.Mus.Ed., 1959, Milton; M.Mus., 1963, Ph.D., 1968, Wisconsin (Madison).

GEORGE W. KLONTZ, 1972, Professor of Fishery Resources; Head, Department of Fish and Wildlife Resources, 1979-82, 1992-; B.S., 1955, M.S., 1959, Washington; D.V.M., 1963, Washington State.

MARC J. KLOWDEN, 1981 (1988), Professor of Entomology; B.S., 1970, M.S., 1973, Ph.D., 1976, Illinois.

*STEVEN T. KNICK, 1992, Affiliate Professor of Fish and Wildlife Resources, Boise; B.S., Minnesota (St. Paul); M.S., Washington State; Ph.D., Montana.

CHARLES R. KNOWLES, 1970 (1976), Adjunct Professor of Geology; Supervisory Geologist, Idaho Geological Survey; M.S., 1965, Chicago.

GUY R. KNUDSEN, 1987, Assistant Professor of Plant Pathology; Adjunct Assistant Professor of Bacteriology; B.S., 1978, New Hampshire; M.S., 1981, Ph.D., 1984, Cornell.

JOHN W. KNUDSEN, 1972 (1976), Associate Professor of Economics (Department Head, 1980-83); Chair, Faculty Council, 1980-81; B.A., 1962, St. Olaf; Ph.D., 1970, Minnesota.

*BARBARA S. KNUDSON-FIELDS, 1988, Affiliate Instructor in Vocational Teacher Education, Boise; B.A., 1976, College of Idaho; M.A., 1977, Denver; Ph.D., 1988, Idaho.

*CARROLL F. KNOTSON, 1991, Affiliate Professor of Geology, Idaho Falls; B.S., 1950, M.S., 1951, Stanford; Ph.D., 1959, California (Los Angeles).

*PETER KOCH, 1982, Affiliate Professor of Forest Products, Pineville, La.; B.S., 1942, Montana State; Ph.D., 1954, Washington (Seattle).

*WALTER J. KOCHAN, 1955 (1970), Professor Emeritus of Plant Physiology/Horticulture; B.S., 1950, M.S., 1952, Utah State; Ph.D., 1955, Rutgers. Emeritus since 1987 (now residing in Moscow).

*CARL T. KOENEN, 1975, Affiliate Clinical Professor of Medical Science, Lewiston; A.B., 1954, Kalamazoo College; M.D., 1958, Marquette.

SHIRLEY KOENEN, 1983, Lecturer in Foreign Languages and Literatures (French); B.A., 1954, Kalamazoo; M.A., 1958, Michigan.

*EDWARD F. KOESTER, 1950 (1971), Extension Professor Emeritus; B.S.Ag., 1947, M.S., 1968, Idaho. Emeritus since 1983 (now residing in Gooding).

*FRED E. KOHL, 1950 (1971), Extension Professor Emeritus; B.S.An.Hus., 1950, Idaho; M.S., 1966, Ph.D., 1968, Wisconsin (Madison). Emeritus since 1983 (now residing in Moscow).

*JOHN J. KOLAR, 1956 (1977), Research Professor Emeritus of Agronomy; B.S., 1950, M.S., 1952, Montana State; Ph.D., 1955, Iowa State. Emeritus since 1986 (now residing in Twin Falls).

ROGER A. KORUS, 1978 (1986), Professor of Chemical Engineering; Department Chair, 1985-; B.S., 1965, Washington (Seattle); M.S., 1967, Stanford; Ph.D., 1974, Waterloo.

*JOHN M. KRAFT, 1986, Affiliate Professor of Plant Breeding and Genetics, Prosser, Wash.; B.S., 1960, Arizona State; M.S., 1962, Minnesota; Ph.D., 1966, California (Riverside).

*MARIA KRASNEC, 1980 (1992), Affiliate Associate Professor of Psychology, Moscow; B.A., 1971, Comenius (Czechoslovakia); M.S., 1972, Oklahoma; Ph.D., 1980, Washington State.

*JAMES E. KRAUS, 1941 (1946), Professor of Plant Science and Dean Emeritus (Dean and Director, College of Agriculture, Agricultural Experiment Station, and Cooperative Extension Service, 1955-72); B.S., 1932, Colorado State; M.S., 1934, Wisconsin; Ph.D., 1940, Cornell. Emeritus since 1972 (now residing in Moscow).

DOUG W. KREHBIEL, 1989, Assistant Professor of Military Science; B.A., 1981, Montana.

EDWIN E. KRUMPE, 1979 (1984), Associate Professor of Resource Recreation and Tourism; Director, Wilderness Research Center; B.S., 1969, West Virginia; M.S., 1972, Indiana; Ph.D., 1979, Colorado State.

JACK KULAS, 1987, Assistant Professor of Computer Science; Adjunct Assistant Professor of Philosophy; B.A., 1973, South Florida; M.S., 1985, Wright State; Ph.D., 1982, Florida State.

*GLENN R. KUNKEL, 1956 (1973), Extension Professor Emeritus; B.S.Ag., 1935, Idaho. Emeritus since 1973 (now residing in Twin Falls).

JAMES J. KUSKA, 1973 (1978), Professor of Landscape Architecture (Department Chair, 1983-92); B.S., 1963, Michigan State; M.L.Arch., 1966, M.S., 1966, Illinois.

PAUL M. KWIATKOWSKI, 1992, Assistant Professor of Naval Science; B.S., 1988, Idaho.

MICHAEL D. KYTE, 1986 (1991), Associate Professor of Civil Engineering; B.S., 1970, California (Los Angeles); M.S., 1972, California (Berkeley); Ph.D., 1986, Iowa; P.E.

*DAVID LACHIONDO, 1987, Affiliate Assistant Professor of Education, Boise; B.A., 1969, Saint Mary's College of California; M.Ed., 1973, Idaho State; Ph.D., 1985, Idaho.

*TIMOTHY W. LANCEY, 1992, Professor of Nuclear Engineering; Director of Engineering Education, Idaho Falls; B.S., 1964, California State (Los Angeles); B.S.M.E., 1968, Ph.D., 1974, Southern California.

*BRYAN C. LANE, 1991, Affiliate Associate Professor of Resource Recreation and Tourism, Vermilion, Alberta; B.S., 1968, University College of North Wales, Bangor; M.S., 1981, Ph.D., 1988, Florida State.

*V. MICHAEL LANE, 1981 (1986), Associate Professor of Veterinary Medicine; Food Animal Clinician, Caldwell; B.S., 1968, M.S., 1974, Pennsylvania State; D.V.M., 1980, Florida.

*JEROME P. LANG, 1991, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., 1982, Case Western Reserve.

ELISABETH LAPEYRE, 1975 (1981), Associate Professor of Foreign Languages and Literatures (French); Licence d'Anglais, 1959, Rennes (France); M.A., 1962, Ph.D., 1971, Northwestern.

*RITA LAROM, 1988, Affiliate Instructor in Vocational Teacher Education, Twin Falls; B.S., 1977, Eastern Oregon State; M.S., 1980, Idaho State.

*DORRELL C. LARSEN, 1956 (1985), Extension Professor Emeritus of Agriculture; B.S.Ag.E., 1952, Idaho; M.S., 1984, Utah State; P.E./L.S. Emeritus since 1990 (now residing in Boise).

*HOWARD A. LARSON, 1986, Affiliate Professor of Nuclear Engineering, Idaho Falls; B.S., 1960, M.S., 1962, South Dakota; Ph.D., 1970, Washington.

MICHAEL B. LASKOWSKI, 1988, Professor of Physiology; Director, WAMI Medical Education Program, 1988-; B.S., 1966, Loyola (Chicago); Ph.D., 1970, Oklahoma School of Medicine.

*GORDON D. LASSAHN, 1992, Affiliate Associate Professor of Physics, Idaho Falls; B.S., 1964, Ph.D., 1970, Iowa State.

MARIE L. LASSEY, 1975 (1979), Associate Professor of Sociology; B.A., 1967, M.S., 1968, Ph.D., 1971, Utah.

CALVIN W. LATHEN, 1967 (1983), Professor of Recreation; Director, Division of Health, Physical Education, Recreation and Dance, 1987-; B.A., 1963, M.P.E., 1967, Idaho State; Ed.D., 1973, Idaho.

*KEVIN LAUGHLIN, 1990, Associate Extension Professor of Agriculture; Bonner County Extension Agricultural Agent, Sandpoint; B.S., 1979, Washington State; M.S., 1989, North Dakota State.

KENNETH A. LAURENCE, 1976-83, 1985 (1976), Professor of Zoology; Research Development Coordinator, 1985- (Head, Department of Biological Sciences, 1976-79); B.S., 1951, Marietta; M.S., 1953, Ph.D., 1956, Iowa.

JOHN LAW, 1975 (1979), Professor of Electrical Engineering; B.S.E.E., 1957, Case-Western Reserve; M.S.E.E., 1960, Ph.D., 1962, Wisconsin (Madison); P.E.

JOSEPH D. LAW, 1989, Assistant Professor of Electrical Engineering; B.S., 1981, Idaho; M.S., 1985, Ph.D., 1991, Wisconsin (Madison).

*MARY A. LAWROSKI, 1965-73, 1976 (1978), Extension Professor of Home Economics; Bonneville County Extension Home Economist, Idaho Falls; B.S., 1955, Arkansas; M.S., 1959, Pennsylvania State.

*MARSHALL J. LeBARON, 1947 (1971), Professor Emeritus of Crop Management; B.S.Ag., 1947, M.S.Ag., 1950, Idaho. Emeritus since 1982 (now residing in Twin Falls).

*RICHARD L. LEDINGTON, 1989, Affiliate Assistant Professor of Agricultural and Extension Education, Pocatello; B.S., 1978, M.S., 1985, Ph.D., 1988, Idaho.

GARY A. LEE, 1975, Professor of Weed Science; Associate Dean, College of Agriculture, 1986-; Director, Agricultural Experiment Station, 1986- (Head, Department of Plant, Soil, and Entomological Sciences, 1980-86); B.S., 1963, M.S., 1965, Ph.D., 1971, Wyoming.

HARRY W. LEE, 1980 (1983), Assistant Professor of Forest Engineering; B.S.C.E., 1972, M.S.C.E., 1977, Ph.D., 1983, Idaho.

*JOHN C. LEE, 1979, Affiliate Professor of Veterinary Medicine, Meridian; B.S., 1957, D.V.M., 1959, Colorado State.

*ANTONE L. LeFEVRE, 1991, Affiliate Assistant Professor of Aerospace Studies, Pullman, Wash.; B.A., 1986, Central Washington; M.S., 1989, Embry Riddle Aeronautical University.

*WENZEL A. LEFF, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., 1957, South Dakota.

MARCIA N. LEHMAN-KESSLER, 1990, Assistant Professor of Interior Planning and Design; B.F.A., 1976, Idaho; M.A., 1985, Washington State.

*GARY A. LEHRSCHE, 1989, Affiliate Professor of Soil Science, Kimberly; B.S., 1976, M.S., 1981, Pennsylvania State; Ph.D., 1985, Mississippi State.

*WAYNE K. LEHTO, 1986, Affiliate Professor of Nuclear Engineering, Idaho Falls; B.S., 1960, M.S., 1961, Michigan Technical; Ph.D., 1967, Michigan.

E. CLARK LEMMON, 1985 (1986), Professor of Mechanical Engineering; Department Chair, 1986-; B.S., 1967, M.S., 1968, Ph.D., 1973, Brigham Young.

*ROBERT R. LEONARD, 1966, University Physician and Director of the Student Health Service Emeritus (Director, 1976-89); M.D., 1948, Indiana. Emeritus since 1990 (now residing in Moscow).

ANDREA LERNER, 1993, Assistant Professor of English; B.A., 1977, Reed; M.A., 1981, Stanford; Ph.D., 1991, Arizona.

*DUANE J. LeTOURNEAU, 1953 (1963), Professor of Biochemistry and Chemistry and Secretary of the Faculty Emeritus (Secretary of the Faculty, 1990-91); B.S., 1948, M.S., 1951, Ph.D., 1954, Minnesota. Emeritus since 1991 (now residing in Moscow).

*FREDERICK LEUNG, 1989, Affiliate Associate Professor of Biochemistry, Richland, Wash.; B.A., 1974, Ph.D., 1978, California (Berkeley).

D. CRAIG LEWIS, 1975 (1978), Professor of Law; B.S., 1966, Northwestern; J.D., 1969, Yale.

*GLENN C. LEWIS, 1947 (1967), Professor Emeritus of Soil Science; B.S. Soils, 1946, M.S. Agr., 1948, Idaho; Ph.D., 1962, Purdue. Emeritus since 1985 (now residing in Moscow).

*LEROY C. LEWIS, 1982, Affiliate Instructor in Chemistry, Idaho Falls; B.S., 1962, College of Idaho; Ph.D., 1968, Oregon State.

J. WILLARD L'HOTE, 1977 (1990), Associate Professor of Art; B.F.A., 1970, Michigan; M.F.A., 1979, Idaho.

HARRY W. LI, 1992, Assistant Professor of Electrical Engineering; B.S., 1984, Tennessee (Knoxville); M.S., 1985, Ph.D., 1992, Georgia Institute of Technology.

*AUDREY C. LIDDILL, 1988, Assistant Extension Professor of Home Economics; EFNEP Area Home Economist, Pocatello; B.A., 1970, Idaho State; M.S., 1987, Utah State.

ALAN LIFTON, 1985 (1989), Associate Professor of Communication; B.S., 1971, Southern Illinois; M.A., 1974, Oregon State.

MONIQUE C. LILLARD, 1987, Associate Professor of Law; B.A., 1979, Stanford; J.D., 1983, California (Los Angeles).

*STUART D. LINCOLN, 1976 (1981), Professor of Veterinary Science, Caldwell; B.S., 1958, D.V.M., 1960, Ph.D., 1968, Colorado State.

DOUGLAS LIND, 1991, Assistant Professor of Philosophy; B.A., 1978, Minnesota; J.D., 1981, Washington University; Ph.D., 1991, Pennsylvania.

*KARL H. LINDEBORG, 1959 (1969), Professor Emeritus of Agricultural Economics; B.S., 1947, Royal Veterinary & Agricultural University (Copenhagen); M.S., 1957, Utah State; Ph.D., 1959, Oregon State. Emeritus since 1985 (now residing in Moscow).

*BLAINE LINFORD, 1961 (1974), Extension Professor Emeritus; B.S., 1942, Wyoming; M.Ed., 1973, Colorado State. Emeritus since 1985 (now residing in Twin Falls).

AL J. LINGG, 1969 (1977), Professor of Bacteriology; Bacteriologist; Associate Dean and Director of Academic and International Programs, College of Agriculture, 1987-; Director of the School of Family and Consumer Sciences, 1992-; B.S., 1964, M.S., 1966, Ph.D., 1969, Kansas State.

CHYR PYNG LIOU, 1986 (1992), Associate Professor of Civil Engineering; B.S., 1969, National Taiwan; M.S., 1972, Idaho; Ph.D., 1976, Michigan; P.E.

CHIA-TSANG LIU, 1976 (1984), Associate Extension Professor of Crop Science; Coordinator, Foundation Seed Program; B.S., 1956, National Taiwan University; Ph.D., 1974, Idaho.

*HUAN-BIN LIU, 1986, Affiliate Associate Professor of Chemical Engineering, China; Diploma, 1965, South China Institute of Technology.

*MABEL LOCKE, 1930-36, 1947 (1957), Professor Emerita of Physical Education (Head, Department of Physical Education for Women, 1947-53; Chair, Physical Education for Women, 1953-69); B.S., 1929, Northwestern; M.S., 1936, Wisconsin. Emerita since 1971 (now residing in Carmel, Calif.).

BRADLEY D. LOCKEMAN, 1977, Associate Professor of Marketing; B.B.A., 1964, M.B.A., 1965, Ph.D., 1973, Michigan.

*GLEN R. LOCKERY, 1947 (1955), Professor Emeritus of Music; B.A., 1940, B.Mus., 1942, Lawrence; M.A., 1947, Columbia. Emeritus since 1981 (now residing in Moscow).

*HOWARD LOEWENSTEIN, 1958 (1968), Professor Emeritus of Forest Resources; B.S., 1952, Colorado A & M; Ph.D., 1955, Wisconsin. Emeritus since 1987 (now residing in Moscow).

*NORMAN R. LOGAN, 1947 (1968), Professor Emeritus of Music; B.S., 1947, M.S. Mus. Ed., 1947, Idaho; M.Mus., 1963, Southern California. Emeritus since 1977 (now residing in Moscow).

*WALLACE G. LONERGAN, 1992, Affiliate Assistant Professor of Educational Administration, Caldwell; B.A., 1950, College of Idaho; M.B.A., 1955, Ph.D., 1960, Chicago.

*ELAINE M. LONG, 1992, Affiliate Associate Professor of Home Economics, Boise; B.S., 1970, California Polytechnic State (San Luis Obispo); M.S., 1974, Iowa State; Ph.D., 1991, Idaho.

*ROBERT J. LONG, 1989, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Boise; B.S., 1971, Wyoming; M.P.H., 1977, D.P.H., 1983, Texas Health Science Center (Houston).

ROGER B. LONG, 1966 (1973), Professor of Agricultural Economics; Agricultural Economist; B.S., 1955, M.F., 1959, Ph.D., 1963, Minnesota.

*SPENCER M. LONG, 1977, Affiliate Clinical Professor of Medical Science, Moscow; B.S., 1962, Whitman; M.D., 1967, Washington (Seattle).

JAMES E. LOTAN, 1987, Adjunct Professor of Forest Resources; Research Scientist; B.S.F., 1959, Louisiana State; M.F., 1961, Ph.D., 1970, Michigan.

*ROBERT P. LOTTMAN, 1966 (1971), Professor Emeritus of Civil Engineering; B.S.C.E., 1954, Polytechnic Institute of Brooklyn; M.S.C.E., 1956, Purdue; Ph.D., 1965, Ohio State. Emeritus since 1991 (now residing in Spokane, Wash.).

*ROBERT R. LOUCKS, 1967 (1981), Extension Professor of Agriculture; Lemhi County Extension Agricultural Agent, Salmon; B.S. Ag., 1965, M.S., 1977, Idaho.

*STEPHEN L. LOVE, 1985, Assistant Professor of Potato Plant Breeding, Aberdeen; B.S., 1980, Brigham Young; Ph.D., 1984, Clemson.

*DANIEL E. LUCAS, 1987 (1992), Assistant Extension Professor of Agriculture; Clark County Extension Agricultural Agent, Dubois; B.S., 1983, Humboldt State; M.S., 1990, Washington State.

LESA LUDERS, 1990, Lecturer in English; B.A., 1980, M.F.A., 1982, Eastern Washington.

LeROY D. LUFT, 1989, Professor of Agricultural Economics; Associate Dean, College of Agriculture, 1989-; Director, Cooperative Extension System; B.S., 1959, M.S., 1966, Montana State; Ph.D., 1971, Nebraska.

WILLIAM R. LUND, 1988, Assistant Professor of Political Science; B.A., 1970, Lewis and Clark; M.A., 1975, Ph.D., 1983, Washington (Seattle).

CECELIA E. LUSCHNIG, 1975 (1982), Professor of Foreign Languages and Literatures (classics); B.A., 1962, City College of New York; M.A., 1963, Ph.D., 1972, Cincinnati.

CORINNE M. LYLE, 1973 (1989), Extension Professor of Rural Sociology; Associate Director, Cooperative Extension System, 1990-; B.A., 1960, Washington State; M.Ed., 1973, Idaho; Ph.D., 1984, Washington State.

R. ASHLEY LYMAN, 1976 (1978), Associate Professor of Economics; B.A., 1967, Idaho State; M.A., 1968, Ph.D., 1972, Northwestern.

DOUGLAS W. LYNN, 1989, Assistant Professor of Electrical Engineering; B.S., 1982, M.S., 1985, Ph.D., 1988, Brigham Young.

*L. JACK LYON, 1986, Affiliate Professor of Wildlife Resources, Missoula, Mont.; B.S., 1951, M.S., 1953, Colorado State; Ph.D., 1960, Michigan.

MARILYN LYSOHIR, 1991, Affiliate Assistant Professor of Art, Moscow; B.A., 1972, Ohio Northern; M.F.A., 1979, Washington State.

*EUGENE V. MAAS, 1992, Affiliate Professor of Plant Physiology, Riverside, Calif.; B.S., 1958, Jamestown; M.S., 1961, Arizona; Ph.D., 1966, Oregon State.

JAMES S. MACDONALD, 1975 (1979), Professor of Law; B.A., 1966, Pomona; J.D., 1969, California (Berkeley).

*CRAIG G. MacFARLAND, 1987, Affiliate Professor of Resource Recreation and Tourism, Moscow; B.A., 1965, Austin College; M.A., 1969, Wisconsin.

RUPRECHT MACHLEIDT, 1988 (1991), Professor of Physics; M.S., 1969, Ph.D., 1973, Bonn (Federal Republic of Germany).

GARY E. MACHLIS, 1979 (1990), Professor of Forest Resources; Adjunct Professor of Resource Recreation and Tourism and of Sociology; Unit Leader, National Park Service Cooperative Park Studies Unit; B.A., 1973, M.S., 1975, Washington; M.Phil., 1978, Ph.D., 1979, Yale.

*CRAIG MacPHEE, 1957 (1966), Professor Emeritus of Fishery Resources; B.A., 1947, M.A., 1949, British Columbia; Ph.D., 1954, Washington (Seattle). Emeritus since 1981 (now residing in Coeur d'Alene).

JOHN MADDEN, 1986 (1989), Assistant Law Librarian with rank of Assistant Professor; B.A., 1983, Fort Lewis College; M.L.I.S., 1985, California (Berkeley).

*DAVID E. MAGARET, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; B.S., 1965, M.D., 1969, Nebraska.

ROBERT L. MAHLER, 1980 (1991), Professor of Soil Fertility; Adjunct Professor of Forest Resources; B.S., 1976, M.S., 1978, Washington State; Ph.D., 1980, North Carolina State.

RONALD L. MAHONEY, 1983 (1989), Associate Extension Professor of Forestry; Extension Forester; B.S., 1975, M.S., 1977, Ph.D., 1981, Idaho.

*DAVID J. MAKINGS, 1988, Affiliate Instructor in Vocational Teacher Education, Twin Falls; B.S., 1971, Colorado State; M.A., 1974, Northern Colorado.

LARRY D. MAKUS, 1986, Associate Professor of Agricultural Economics; B.A., 1974, Washington State; M.S., 1976, New Mexico State; Ph.D., 1983, Texas A & M.

*HAROLD E. MALDE, 1987, Affiliate Instructor in Geology, Golden, Colo.; A.B., 1947, Willamette.

*TERRY S. MALEY, 1989, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Boise; B.S., 1964, M.S., 1965, Oregon State; Ph.D., 1974, Idaho.

*J. D. MANKIN, 1971 (1980), Extension Professor Emeritus of Animal Science; B.S., 1941, New Mexico A & M; M.S., 1950, Colorado A & M. Emeritus since 1988 (now residing in Caldwell).

*PAUL MANN, 1948 (1959), Professor Emeritus of Electrical Engineering; B.S.E.E., 1938, M.S.E.E., 1951, Idaho; P.E. Emeritus since 1981 (now residing in Moscow).

*WILLIAM C. MANNSCHRECK, 1975, Affiliate Clinical Professor of Medical Science, Lewiston; B.S., 1949, M.D., 1951, Nebraska.

*O. DOYLE MARKHAM, 1981, Affiliate Professor of Entomology, Idaho Falls; B.S., 1966, M.S., 1968, Ph.D., 1971, Colorado State.

GERALD E. MAROUSEK, 1962 (1971), Professor of Agricultural Economics; Agricultural Economist; B.S., 1951, M.S., 1954, South Dakota State; Ph.D., 1960, Oklahoma State.

*ALAN G. MARSHALL, 1978, Affiliate Professor of Anthropology, Lewis-Clark State College, Lewiston; B.A., 1957, Minnesota; M.A., 1971, Ph.D., 1976, Washington State.

*DON A. MARSHALL, 1950 (1953), Professor Emeritus of Agricultural Economics (Associate Dean and Director of Resident Instruction, College of Agriculture, 1953-76); B.S., 1937, M.S., 1938, Oklahoma State; Ph.D., 1947, Cornell. Emeritus since 1976 (now residing in Poteau, Okla.).

JOHN D. MARSHALL, 1990, Assistant Professor of Forest Resources; B.S., 1978, M.S., 1980, Michigan State; Ph.D., 1985, Oregon State.

*NELDON H. MARSHALL, 1986, Affiliate Professor of Computer Science, Idaho Falls; B.S., 1958, Brigham Young; M.S., 1966, Idaho.

DWAINE J. MARTEN, 1964 (1977), Professor of Physical Education (health education); B.S., 1958, Bemidji State; M.S., 1959, Southern Illinois; H.S.D., 1973, Indiana.

*BOYD A. MARTIN, 1938 (1948), Borah Distinguished Professor of Political Science and Dean Emeritus (Dean, College of Letters and Science, 1955-70; Head, Department of Social Sciences, 1947-55; Director, Bureau of Public Affairs Research, 1959-73); Director, Boyd and Grace Martin Institute of Human Behavior, 1970-; B.A., 1936, Idaho; M.A., 1937, Ph.D., 1943, Stanford. Emeritus since 1973 (now residing in Moscow).

*JAMES W. MARTIN, 1946, Professor of Agricultural Engineering and Department Head Emeritus (Department Head, 1946-66); B.S.E.E., 1933, B.S.Ag.E., 1937, Kansas State; M.S., 1938, Iowa State; P.E. Emeritus since 1973 (now residing in Moscow).

PATRICIA J. MARTIN, 1990, Assistant Professor of Theatre Arts; B.A., 1982, Rollins; M.F.A., 1985, Purdue.

ROBERT G. MARTIN, 1990, Senior Instructor in Sociology; B.A., 1966, M.A., 1972, Mississippi; M.S.W., 1969, Southern Baptist Theological Seminary.

*FREDY E. MARTINEZ, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., National Institute of El Salvador.

*PETE MARTINEZ, 1988, Affiliate Assistant Professor of Vocational Teacher Education, Wallace; B.S., 1964, M.Ed., 1967, Colorado State; Ph.D., 1970, Maryland.

*KIM G. MATTSO, 1988, Assistant Professor of Forest Resources, Corvallis; B.S., 1978, Minnesota; Ph.D., 1986, Georgia.

G. JAY MAUCHLEY, 1978 (1988), Professor of Music (piano); B.A., 1973, Utah State; M.M., 1975, D.Mus., 1982, Indiana (Bloomington).

SANDRA L. MAUCHLEY, 1970 (1989), Professor of Music (piano); B.A., 1962, Washington State; M.Mus., 1964, Wisconsin.

*HENRY F. MAYLAND, 1969, Affiliate Professor of Soil Science, Soil and Water Management Research Unit, USDA, Kimberly; B.S., 1960, M.S., 1961, Wyoming; Ph.D., 1964, Arizona.

*THOMAS R. McCABE, 1990, Affiliate Assistant Professor of Fish and Wildlife Resources, Fairbanks, Alaska; B.S., 1973, Wisconsin (Madison); M.S., 1976, Oregon State; Ph.D., 1982, Utah State.

JOSEPH P. McCAFFREY, 1981 (1987), Associate Professor of Entomology; B.A., 1974, Rhode Island; M.S., 1978, Ph.D., 1981, Virginia Polytechnic Institute.

*CAROL M. McCANDLESS, 1955 (1990), Extension Professor Emerita of Home Economics; B.S., 1955, Utah State. Emerita since 1990 (now residing in Rigby).

*IAN R. McCANN, 1985, Assistant Professor of Agricultural Engineering, Aberdeen; B.S., 1976, East Anglia (England); Ph.D., 1985, Texas A & M.

*JOHN A. McCCLURE, 1991, Affiliate Associate Professor of Physics, Idaho Falls; B.S., 1956, Geneva; M.S., 1957, Rochester; Ph.D., Virginia Polytechnic.

WENDY R. McCCLURE, 1987, Assistant Professor of Architecture; B.A., 1974, Pennsylvania; M.Arch., 1977, Washington (Seattle); R.A.

*DONALD K. McCOOL, 1974, Affiliate Professor of Agricultural Engineering, Palouse Conservation Field Station, USDA, Pullman, Wash.; B.S.Ag., 1960, B.S.Ag.E., 1960, M.S., 1961, Missouri; Ph.D., 1965, Oklahoma State.

REBECCA K. McCOY, 1991, Assistant Professor of History; A.B., 1975, Mount Holyoke; M.A., 1979, Ph.D., 1991, North Carolina (Chapel Hill).

WILLIAM B. McCROSKEY, 1964-66, 1971 (1977), Professor Emeritus of Architecture (Associate Dean, College of Letters and Science, 1978-89); Chair, Faculty Council, 1976-77; B.Arch., 1960, Montana State; M.Arch., 1973, Idaho; R.A. Emeritus since 1992 (now residing in Boise).

ROBERT T. McCURDY, 1982 (1992), Associate Professor of Music; B.A., 1973, M.Mus., 1982, Wisconsin.

PAUL A. McDANIEL, 1990, Assistant Professor of Soil Genesis/Morphology; B.S., 1975, Kentucky; M.S., 1983, Montana State; Ph.D., 1988, North Carolina.

*ROBERT E. McDOLE, 1969 (1980), Extension Professor Emeritus of Soils (Chair of Soil Science, 1987-90); B.S., 1952, Oregon State; M.S., 1968, Ph.D., 1969, Idaho. Emeritus since 1990 (now residing in Port Townsend, Wash.).

GERALD I. McDONALD, 1966, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.S., 1963, Ph.D., 1969, Washington State.

*GEORGE G. McDUFF, 1991, Affiliate Assistant Professor of Physics, Idaho Falls; B.S., 1979, Texas Tech; Ph.D., 1988, St. Andrews.

THOMAS B. McFADDEN, 1988, Assistant Professor of Animal Science; B.S., 1982, Michigan State; M.S., 1985, Ph.D., 1987, Virginia Polytechnic.

RONALD E. McFARLAND, 1970 (1979), Professor of English; B.A., 1963, M.A., 1965, Florida State; Ph.D., 1970, Illinois.

*THOMAS D. McFARLAND, 1988, Affiliate Assistant Professor of Special Education, Lewiston; B.S., 1967, M.A., 1972, Minnesota; Ph.D., 1979, Iowa.

JEANNE L. McHALE, 1980 (1992), Professor of Chemistry; B.S., 1975, Wright State; Ph.D., 1979, Utah.

JACK M. McHARGUE, 1977 (1982), Senior Instructor in Agricultural Mechanization; B.S., 1968, M.S., 1977, Idaho.

*HUGH C. McKAY, 1951 (1967), Research Professor Emeritus of Plant Science (Superintendent, Tetonia Research and Extension Center, 1951-77); B.S.Ag., 1935, M.S., 1940, Idaho. Emeritus since 1977 (now residing in Moscow).

THOMAS A. McKEAN, 1974 (1982), Professor of Zoology (Acting Director, WAMI Medical Education Program, 1977-78, 1987-88); A.B., 1963, Whitman; Ph.D., 1968, Oregon Medical School.

KERRY E. McKEEVER, 1989, Assistant Professor of English; Director of Graduate/Undergraduate Studies, 1992-; B.A., 1972, Western Connecticut State; M.A., 1979, Rhode Island; Ph.D., 1989, California (Irvine).

*JAY D. McKENDRICK, 1976, Affiliate Professor of Range Resources, College, Alaska; B.S., 1963, M.S., 1966, Idaho; Ph.D., 1971, Kansas State.

CHARLES W. McKETTA, 1977 (1985), Associate Research Professor of Forest Resources; Station Economist; B.S., 1966, M.F., 1969, Michigan; Ph.D., 1984, Washington (Seattle).

*MARYANN E. McKIE, 1956 (1987), Professor Emerita of English; B.S., 1950, Southern Idaho; M.A., 1957, Idaho. Emerita since 1987 (now residing in Troy).

*MICHAEL J. McLATCHY, 1981, Affiliate Professor of Civil Engineering, Idaho Falls; B.S.C.E., 1968, Utah; Ph.D., 1975, Utah State.

WILLIAM J. McLAUGHLIN, 1977 (1989), Professor of Resource Recreation and Tourism (Head, Department of Wildland Recreation Management, 1983-89); B.A., 1971, Colorado; Ph.D., 1977, Colorado State.

*WALTER H. McLEOD, 1972 (1976), Professor of Law and Director of the Law Library Emeritus; B.S., 1941, New York; J.D., 1962, Wm. Mitchell College of Law; M.L.L., 1972, Washington (Seattle). Emeritus since 1983 (now residing in Moscow).

*GALEN M. McMASTER, 1955 (1972), Research Professor of Agricultural Engineering and Superintendent of the Aberdeen Research and Extension Center Emeritus; B.S., 1950, M.S., 1964, Idaho; P.E. Emeritus since 1987 (now residing in American Falls).

*JOHN L. McMULLEN, 1951 (1978), Professor Emeritus of Botany (Associate Dean, College of Letters and Science, 1967-78); B.Ed., 1934, Eastern Illinois State; M.S., 1948, Ph.D., 1966, Washington State. Emeritus since 1978 (now residing in Hayden Lake).

RODNEY A. MEAD, 1968 (1976), Professor of Zoology; A.A., 1958, Sierra; A.B., 1960, M.A., 1962, California (Davis); Ph.D., 1966, Montana.

E. LEE MEDEMA, 1977 (1981), Associate Professor of Forest Resources; B.S., 1970, M.S., 1973, Ph.D., 1977, Washington (Seattle).

SHIRLEY R. MEDSKER, 1967 (1976), Associate Professor of Home Economics (textiles-weaving); B.S.H.Ec., 1958, M.A.H.Ec., 1964, Wayne State (Detroit).

*WALTER F. MEGAHAN, 1972, Affiliate Professor of Agricultural Engineering, Entomology, and Forest Resources, U.S. Forest Service, Boise; B.S., 1957, M.S., 1960, Syracuse; Ph.D., 1968, Colorado State.

*RICHARD A. MEGANCK, 1989, Affiliate Professor of Resource Recreation and Tourism, Corvallis, Oreg.; B.S., 1968, M.S., 1971, Michigan State; Ph.D., 1975, Oregon State.

STEVEN E. MEIER, 1987 (1992), Assistant Professor of Psychology; B.S., 1980, M.S., 1983, Ph.D., 1991, Washington State.

- BARBARA R. MELDRUM, 1965 (1973), Professor of English; B.A., 1956, Westmont; M.A., 1957, Ph.D., 1964, Claremont; B.A., 1989, Idaho.
- *CARL M. MELINA, 1979, Affiliate Clinical Professor of Medical Science, Moscow; B.S., 1974, Toledo; M.D., 1976, Ohio State.
- *HOMA S. MEMON, 1992, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., 1982, Martyr Beheshti National Univ., Tehran.
- *ALBERT R. MENARD, JR., 1967, Professor of Law and Dean Emeritus (Dean, College of Law, 1967-78); A.B., 1938, Georgia; J.D., 1941, Columbia. Emeritus since 1984 (now residing in Moscow).
- *HARRY A. MENSER, 1980 (1987), Research Professor of Horticulture Emeritus and Superintendent of the Sandpoint Research and Extension Center Emeritus; B.S., 1954, Delaware; M.S., 1959, Ph.D., 1963, Maryland. Emeritus since 1987 (now residing in Sandpoint).
- LAWRENCE H. MERK, 1967-73, 1976 (1979), Assistant Professor of Business; Director, Center for Business Development and Research; B.S., 1961, Oregon State; M.A., 1963, Washington (Seattle).
- *LEROY MEYER, 1992, Affiliate Assistant Professor of Electrical Engineering, Idaho Falls; B.S.E.E., 1957, M.S.E.E., 1960, North Dakota State; Ph.D., 1965, New Mexico.
- NEIL L. MEYER, 1975 (1986), Extension Professor of Agricultural Economics; Extension Public Policy and Rural Economic Development Specialist; B.S., 1964, Minnesota; M.S., 1969, Florida; Ph.D., 1974, Wisconsin.
- EDGAR L. MICHALSON, 1969 (1974), Professor of Agricultural Economics; Resource Economist; B.S., 1956, Oregon State; M.S., 1958, Ph.D., 1963, Pennsylvania State.
- ELINOR L. MICHEL, 1967-70, 1971 (1978), Assistant Professor of Education; B.S., 1963, Washington State; M.A., 1966, Arkansas.
- DORA H. MIH, 1972 (1977), Reference Librarian with rank of Associate Professor; B.A., 1957, National Taiwan; M.L.S., 1959, California (Berkeley).
- *RHONDA S. MILAM, 1992, Instructor in Home Economics and Clinical Dietitian, Spokane; B.S., 1980, Marshall; M.S., 1984, Virginia Polytechnic.
- PAUL L. MILES, 1965 (1980), Professor of Communication; B.S., 1962, Brigham Young; M.A., 1964, Arizona; Ed.D., 1971, Idaho.
- BRUCE L. MILLER, 1986 (1992), Associate Professor of Biochemistry; B.S., 1972, Ohio State; Ph.D., 1981, California (Davis).
- *CLAYTON S. MILLER, 1985, Affiliate Professor of Mechanical Engineering, Idaho Falls; B.S., 1960, Washington (Seattle); M.S., 1965, Idaho; Ph.D., 1972, Utah State.
- JOHN A. MILLER, 1988, Associate Professor of Law; B.A., 1972, J.D., 1976, Kentucky; L.L.M., 1987, Florida.
- JOHN C. MILLER, 1970 (1977), Professor of Animal Science; B.S., 1962, Texas Technological; M.S., 1964, Missouri; Ph.D., 1968, Pennsylvania State.
- *JOHN J. MILLER, 1952, Professor and Chair of Physics Emeritus; B.A., 1924, M.A., 1927, Ph.D., 1936, Texas. Emeritus since 1967 (now residing in Burnet, Tex.).
- JON R. MILLER, 1989, Professor of Economics; Department Head, 1989-; B.A., 1970, Pacific Lutheran; A.M., 1971, Ph.D., 1974, Washington (Saint Louis).
- *LAURA J. MILLER, 1970 (1990), Professor Emerita of Home Economics; B.A., 1950, Washington State; M.A.T.H.Ec., 1972, Idaho. Emerita since 1990 (now residing in Moscow).
- MAYNARD M. MILLER, 1975, Professor of Geology; Director, Glaciological and Environmental Sciences Institute (Dean, College of Mines and Earth Resources, and Director, Idaho Geological Survey; 1975-87); B.S., 1943, Harvard; M.A., 1948, Columbia; Ph.D., 1956, Cambridge.
- *REID C. MILLER, 1992, Affiliate Professor of Chemical Engineering, Pullman, Wash.; B.S.Ch.E., 1962, Tulsa; M.S.Ch.E., 1964, Ph.D., 1968, California (Berkeley).
- *RICHARD L. MILLER, 1986, Affiliate Professor of Metallurgical and Mining Engineering, Idaho Falls; B.A., 1957, M.S., 1960, Arizona State; Ph.D., 1968, Utah.
- ROBERT W. MILLER, 1986, Professor of Music (Director, Hampton School of Music, 1986-91); B.A., 1962, M.A., 1965, Arizona State; Ph.D., 1979, Michigan State.
- STANLEY M. MILLER, 1985 (1988), Associate Professor of Geological Engineering; B.S., 1976, M.S., 1979, Arizona; Ph.D., 1982, Wyoming; P.E.
- THOMAS H. MILLER, 1983, Assistant Professor of Computer Science (Director of Engineering Outreach, 1991-92); B.S., 1956, Westminster; M.S., 1958, Utah; Ph.D., 1989, Idaho.
- *TIMOTHY W. MILLER, 1986 (1988), Assistant Extension Professor of Agriculture; Latah County Extension Agricultural Agent, Moscow; B.S., 1981, M.S., 1987, Idaho.
- JAMES H. MILLIGAN, 1972 (1981), Professor of Civil Engineering; Associate Director, Idaho Falls Engineering Program, 1990-; Associate Dean, College of Engineering, 1990- (Department Chair, 1981-90); B.S., 1963, Ph.D., 1969, Utah State; P.E.
- *EDWARD F. MINK, 1957 (1983), Extension Professor Emeritus; B.S.Ag., 1956, Idaho. Emeritus since 1983 (now residing in Grangeville).
- LELAND L. MINK, 1978 (1989), Professor of Geology; Director, Idaho Water Resources Research Institute, 1989-; B.S., 1965, Idaho State; M.S., 1970, Ph.D., 1972, Idaho.
- SCOTT A. MINNICH, 1989, Assistant Professor of Bacteriology; B.S., 1975, Washington State; M.S., 1978, Idaho; Ph.D., 1981, Iowa State.
- *KENNETH J. MITCHELL, 1981, Affiliate Professor of Forest Resources, Ministry of Forestry, Research Branch, Victoria, B.C.; B.S.F., 1961, British Columbia; M.F., 1964, Ph.D., 1967, Yale.
- *WALTER L. MODEN, JR., 1957 (1975), Professor Emeritus of Agricultural Engineering; B.S.Ag.E., 1957, Kansas State; M.S.Ag.E., 1961, Idaho; P.E./L.S. Emeritus since 1989 (now residing in Genesee).
- CHRISTINE M. MOFFITT, 1981 (1985), Associate Professor of Fish and Wildlife Resources; B.A., 1969, California (Santa Cruz); M.A., 1973, Smith College; Ph.D., 1979, Massachusetts (Amherst).
- PHILIP J. MOHAN, 1971 (1978), Professor of Psychology; B.A., 1957, Redlands; M.A., 1961, Los Angeles State; Ph.D., 1967, Claremont.
- *S. KRISHNA MOHAN, 1985 (1987), Associate Extension Professor of Plant Pathology, Parma; B.S. 1964, Andhra (India); M.S., 1966, Ph.D., 1971, Indian Agricultural Research Institute (India).
- GREGORY MOLLER, 1990, Adjunct Assistant Professor of Food Science and Toxicology; Technical Director of Analytical Laboratory; B.S., 1977, Wichita State; Ph.D., 1985, California (Davis).
- MYRON P. MOLNAU, 1969 (1977), Professor of Agricultural Engineering; Agricultural Engineer; B.Ag.E., 1961, M.S., 1963, Minnesota; Ph.D., 1969, Iowa State; P.E.
- *BRUCE F. MOLNIA, 1989, Affiliate Professor of Geology, Reston, Virginia; B.S., 1967, SUNY; M.S., 1969, Duke; Ph.D., 1972, South Carolina.
- *PATRICK A. MOMONT, 1990, Assistant Extension Professor of Animal Science; Extension Animal Scientist, Caldwell; B.S., 1981, Michigan Technological; B.S., 1981, Michigan State; M.S., 1987, Ph.D., 1990, South Dakota State.
- JAYNE MONEYSMITH, 1988, Lecturer in English; B.A., 1977, M.A., 1979, Ohio State.
- ROBERT A. MONSERUD, 1977, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.A., 1968, Iowa; M.S., 1973, Ph.D., 1975, Wisconsin (Madison).
- *BEVERLY A. MONTGOMERY, 1969 (1977), Associate Extension Professor of Home Economics; Canyon County Extension Home Economist, Caldwell; B.S.H.Ec., 1964, Idaho; M.Ed., 1989, College of Idaho.
- *VICTOR E. MONTGOMERY, 1963 (1966), Professor of Psychology and Department Chair Emeritus (Chair, Department of Psychology, 1965-75); A.B., 1948, Duke; M.S., 1949, Washington State; Ph.D., 1952, Northwestern. Emeritus since 1985 (now residing in Moscow).
- JOHN E. MONTOURE, 1961 (1987), Extension Professor of Food Science; Extension Food Technologist (Head, Department of Food Science, 1971-73); B.S., 1954, M.S., 1955, Wisconsin; Ph.D., 1961, Washington State.
- MICHAEL W. MOODY, 1972 (1980), Professor of Foreign Languages and Literatures (Spanish) (Department Chair, 1980-91); B.A., 1962, M.A., 1966, Ph.D., 1969, Washington (Seattle).
- JAMES A. MOORE, 1974 (1987), Professor of Forest Resources; B.S., 1967, West Virginia; M.S., 1972, Southern Illinois; Ph.D., 1979, Idaho.
- *BARBARA A. MORALES, 1983 (1990), Assistant Extension Professor of Home Economics; Jerome County Extension Home Economist, Jerome; B.S., 1973, Chadron State; M.S., 1989, Idaho.
- *FELIX F. MORAN, 1991, Affiliate Professor of Aerospace Studies; Department Head, Pullman, Wash.; B.S., 1966, Washington State; M.A., 1973, California State (Sacramento).
- PENELOPE MORGAN, 1986 (1991), Associate Professor of Fire Ecology and Forest Ecology; B.S., 1977, M.S., 1979, Utah State; Ph.D., 1984, Idaho.
- *BERNICE M. MORIN, 1944, Director of Food Services and Adjunct Professor of Home Economics Emerita; B.A., 1941, Montana. Emerita since 1983 (now residing in Moscow).
- *DON W. MORISHITA, 1990, Assistant Extension Professor of Weed Science, Twin Falls; B.S., 1976, Utah State; M.S., 1982, Ph.D., 1986, Idaho.
- MATTHEW J. MORRA, 1986 (1992), Associate Professor of Soil Science (soil biochemistry); Adjunct Assistant Professor of Biochemistry; B.A., 1981, College of Wooster; M.S., 1982, Duke; Ph.D., 1986, Ohio State.
- JAMES D. MORRIS, 1965 (1977), Licensed Psychologist with rank of Professor; Director, Student Counseling Center, 1987-; Adjunct Professor of Counseling and Special Education and of Psychology; B.S.Ed., 1962, M.S.Ed., 1964, Idaho; Ed.D., 1971, Indiana.
- JOHN S. MORRIS, 1973 (1989), Associate Professor of Management; Adjunct Associate Professor of Forest Products; B.S., 1970, M.B.A., 1971, Rochester; Ph.D., 1988, Oklahoma.
- LINDA J. MORRIS, 1973 (1988), Associate Professor of Marketing; B.S., 1971, M.A., 1973, Oklahoma; M.B.A., 1983, Central State; Ph.D., 1985, Idaho.
- SCOTT E. MORRIS, 1983 (1987), Associate Professor of Geography; B.S., 1977, M.S., 1979, Iowa; Ph.D., 1983, Colorado.

CHARLES R. MORRISON, 1987, Licensed Psychologist, Student Counseling Center, with rank of Assistant Professor; Adjunct Assistant Professor of Counseling and Special Education and of Psychology; B.A., 1977, California (San Diego); M.S., 1979, California State (Fresno); Ph.D., 1987, Wisconsin (Madison).

*D. KEITH MORTON, 1982, Affiliate Instructor in Mechanical Engineering, Idaho Falls; B.S., 1975, California Polytechnic; M.E., 1979, Idaho.

ALI A. MOSLEMI, 1975, Professor of Forest Products; Director of Graduate Programs, College of Forestry, Wildlife and Range Sciences, 1975- (Head, Department of Forest Products, 1981-90); B.S., 1957, Tehran; M.S., 1960, Ph.D., 1964, Michigan State.

JEFFREY C. MOSLEY, 1989, Assistant Professor of Range Resources; B.S., 1981, Montana State; M.S., 1983, Idaho; Ph.D., 1987, Texas Tech.

*DARLENE P. MOSS, 1991, Associate Extension Professor of Home Economics; Caribou County Extension Home Economist, Soda Springs; B.S., 1967, Utah State; M.Ed., 1977, Idaho; Ph.D., 1985, Kansas State.

*RALPH J. MOSS, JR., 1954 (1971), Extension Professor Emeritus; B.S., 1950, Utah State. Emeritus since 1983 (now residing in Idaho Falls).

*MOHSEN MOUSSAVI, 1985, Affiliate Professor of Chemical Engineering, Iran; B.S., 1959, Tehran; M.A., 1964, Shiraz; M.S., 1969, Ph.D., 1974, Southern California.

*THOMAS M. MOWRY, 1989, Assistant Professor of Entomology, Parma; B.S., 1979, California State Polytechnic; M.S., 1982, Ph.D., 1986, Michigan State.

*FREDERICK J. MUEHLBAUER, 1976, Affiliate Professor of Plant Breeding and Genetics, Pullman, Wash.; B.S., 1963, Georgia; M.S., 1965, Ph.D., 1969, Pennsylvania State.

*JOHN P. MUNDT, 1985, Assistant Professor of Agricultural Education, Boise Center; B.S., 1967, M.S., 1973, Ph.D., 1989, Idaho.

JOANN MUNETA, 1991, Adjunct Associate Professor of Dance; Executive Director, Festival Dance and Performing Arts Association; B.S., 1956, M.S., 1959, Cornell.

PAUL MUNETA, 1959 (1968), Associate Professor of Food Science; Associate Food Scientist; B.S., 1953, Montana State; Ph.D., 1959, Cornell.

*C. MICHAEL MURPHY, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; M.D., 1968, Kentucky.

GLEN A. MURRAY, 1967 (1976), Professor of Agronomy and Crop Physiology; B.S., 1962, M.S., 1964, Montana State; Ph.D., 1967, Arizona.

*JAMES R. MYERS, 1987, Assistant Professor of Plant Breeding and Genetics, Kimberly; B.S., 1978, Kansas State; M.S., 1981, Ph.D., 1984, Wisconsin.

MARLA A. MYERS, 1991, Assistant Professor of Accounting; B.A., 1977, California State; M.B.A., 1987, South Alabama; Ph.D., 1991, Arizona.

*WARREN L. NANCE, 1987, Affiliate Associate Professor of Forest Resources, Gulf Port, Miss.; B.S., 1966, Mississippi State; M.S., 1969, Michigan.

C. R. NARAYANASWAMY, 1990, Associate Professor of Finance; B.E., 1970, Madras (India); M.B.A., 1976, Indian Institute of Management (Bangalore); M.S., 1983, Ph.D., 1984, Temple.

RICHARD J. NASKALI, 1967 (1987), Arboretum Director with rank of Associate Professor, 1987-; B.S., 1957, M.S., 1961, Ph.D., 1969, Ohio State.

NICHOLAS R. NATALE, 1981 (1987), Associate Professor of Chemistry; B.S., 1976, Ph.D., 1979, Drexel.

ARLINDA K. NAUMAN, 1988, Extension Professor and Director of State 4-H Programs; Adjunct Professor of Home Economics; B.S., 1971, Southwestern State; M.S., 1972, Ed.D., 1977, Oklahoma State.

DENNY V. NAYLOR, 1966 (1978), Professor of Soil Science (soil chemistry); Chair of Soil Science, 1991-; B.S., 1959, M.S., 1961, Idaho; Ph.D., 1966, California (Berkeley).

*MARJORIE M. NEELY, 1957, Dean of Women Emerita (Dean of Women, 1957-71); B.A., 1948, Eastern Washington; M.S., 1950, Ohio. Emerita since 1971 (now residing in Beaverton, Oregon).

RICHARD S. NEHER, 1974 (1987), Professor of Music (piano); B.Mus., 1954, Northwestern; M.Mus., 1961, D.Mus., 1975, Indiana.

*W. HOWARD NEIBLING, 1992, Assistant Extension Professor of Agricultural Engineering; Extension Water Management Specialist, Twin Falls; B.S., 1974, M.S., 1976, Kansas State; Ph.D., 1984, Purdue.

*JAMES M. NEIL, 1986, Affiliate Associate Professor of Vocational Teacher Adult Education, Boise; B.S., 1949, U.S. Military Academy; M.E., 1955, Ph.D., 1978, Texas A & M.

*KENNETH E. NEIMAN, JR., 1986, Affiliate Assistant Professor of Forest Resources, Moscow; B.S., 1975, M.S., 1977, Washington State; Ph.D., 1986, Idaho.

*ALVIN J. NELSON, 1987, Affiliate Assistant Professor of Mathematics, Idaho Falls; B.S., 1959, Brigham Young; M.S., 1964, Stanford.

CAROL J. NELSON, 1987 (1991), Affiliate Assistant Professor of Education, Moscow; B.A., 1969, Washington State; M.Ed., 1987, Ed.D., 1990, Idaho.

CHARLES K. NELSON, 1969 (1980), Professor of Computer Science; B.S., 1965, M.Ed., 1968, Idaho.

JACK K. NELSON, 1990, Professor of Education; B.A., 1954, M.A., 1958, Montana; Ed.D., 1962, Oregon.

JAMES R. NELSON, 1974-75, 1990, Professor of Rural Development and Natural Resource Economics; Head, Department of Agricultural Economics and Rural Sociology, 1990-; B.S., 1966, M.S., 1968, Texas Technological; Ph.D., 1974, Oklahoma State.

KARYN R. NELSON, 1988, Assistant Professor of Physical Education; B.S., 1978, Auburn; M.S., 1983, Ph.D., 1988, Louisiana State.

LEWIS NELSON, JR., 1978 (1983), Extension Professor of Wildlife Resources; Adjunct Professor of Resource Recreation and Tourism; B.S., 1965, Colorado State; M.S., 1970, Ph.D., 1973, Utah State.

*JUDITH M. NEST, 1978 (1987), Associate Extension Professor of Home Economics; Latah County Extension Home Economist, Moscow; B.S., 1975, M.S., 1978, Wisconsin.

LEON F. NEUENSCHWANDER, 1976 (1985), Professor of Forest Resources; Associate Dean for Research, College of Forestry, Wildlife and Range Sciences, 1986-; B.S., 1970, M.A., 1972, California State (Los Angeles); Ph.D., 1976, Texas Tech.

RALPH J. NEUHAUS, 1967 (1976), Associate Professor of Mathematics; B.A., 1961, St. Ambrose; M.S., 1963, Ph.D., 1967, Iowa.

*JAMES D. NEWBERRY, 1986, Affiliate Assistant Professor of Forest Resources, Lewiston; B.S., 1975, M.S., 1978, Georgia; M.S., 1983, Ph.D., 1984, Virginia Polytechnic.

*SHIRLEY A. NEWCOMB, 1949 (1972), Professor Emerita of Home Economics; B.S.H.Ec., 1944, Nebraska; M.S., 1951, Idaho. Emerita since 1988 (now residing in Moscow).

*GARTH D. NEWTON, 1986, Affiliate Professor of Agricultural Engineering, Boise; B.S., 1974, Colorado; M.S., 1978, Idaho.

*JEROME J. NEY, 1968 (1981), Extension Professor of Agriculture; Nez Perce County Extension Agricultural Agent, Lewiston; B.S.An.Sci., 1965, M.S.An.Sci., 1966, Idaho.

*JAMES A. NICHOLSON, 1988, Affiliate Assistant Professor of Vocational Teacher Education, Boise; B.S., 1958, Iowa; M.A., 1970, Ph.D., 1974, Missouri.

MARK J. NIELSEN, 1990, Assistant Professor of Mathematics; B.S., 1984, M.S., 1985, Brigham Young; Ph.D., 1990, Washington.

RALPH NIELSEN, 1964 (1975), Special Projects Librarian with rank of Associate Professor; B.A., 1954, Alberta; B.L.S., 1958, Toronto.

RICHARD J. NIELSEN, 1986, Assistant Professor of Civil Engineering; B.S., 1980, Brigham Young; M.S., 1981, Engr., 1982, Ph.D., 1986, Stanford; P.E.

MARCIA S. NILES, 1991, Assistant Professor of Accounting; B.A., 1961, Minnesota; M.B.A., 1976, Montana; Ph.D., 1984, Washington.

*DOUGLAS C. NILSON, JR., 1992, Affiliate Assistant Professor of Educational Administration, Pocatello; B.A., 1966, Washington (Seattle); M.A., 1971, Ph.D., 1976, Wisconsin (Madison).

*TAKASHI NISHIMURA, 1992, Affiliate Professor of Metallurgy, Hyogo, Japan; B.Met., 1963, D.Engr., 1980, Kyoto.

*PHILLIP NOLTE, 1991, Assistant Extension Professor of Agriculture; Seed Potato Specialist, Idaho Falls; B.S., 1974, Moorhead State; M.S., 1983, Ph.D., 1991, North Dakota State.

*MARY N. NORDLUND, 1955 (1971), Extension Professor Emerita; B.S., 1942, Brigham Young. Emerita since 1978 (now residing in Blackfoot).

*RICHARD J. NORELL, 1982 (1988), Associate Extension Professor of Dairy Science; Extension Dairy Specialist, Idaho Falls; B.S., 1976, M.S., 1979, Ph.D., 1983, Minnesota.

KENNETH V. NOREN, 1992, Assistant Professor of Electrical Engineering; B.S., 1987, M.S., 1989, Ph.D., 1992, Michigan State.

*J. TED NORGORD, 1948 (1981), Professor Emeritus of Mechanical Engineering; B.S.M.E., 1948, Washington (Seattle); M.S.E., 1951, Michigan; P.E. Emeritus since 1981 (now residing in Moscow).

ROGER A. NORRIS, 1977 (1985), Assistant Professor of Education; B.S., 1969, Indiana; M.S., 1975, Ph.D., 1977, Idaho.

M. JOE NUMBERS, 1985 (1987), Assistant Professor of Architecture; B.Arch., 1977, M.Arch., 1987, Idaho.

*ESTHER A. NYSTROM, 1944 (1969), Extension Professor Emerita; B.A.H.Ec., 1930, Washington State. Emerita since 1969 (now residing in Boise).

SHEILA O'BRIEN, 1987, Assistant Professor of English; B.A., 1975, Reed College; M.A., 1981, California (Santa Barbara); Ph.D., 1987, Indiana.

EDWIN M. ODOM, 1991, Assistant Professor of Mechanical Engineering; B.S.M.E., 1974, M.S.M.E., 1982, Ph.D., 1991, Wyoming.

*ALEX G. OGG, JR., 1976, Affiliate Professor of Plant Physiology, Pullman, Wash.; B.S., 1963, Wyoming; M.S., 1966, Ph.D., 1970, Oregon State.

*SANDRA A. OGLE, 1988, Affiliate Instructor in Vocational Teacher Education, Boise; B.S., 1971, Idaho; M.A., 1979, Northern Colorado.

- *CHANG H. OH, 1990, Affiliate Assistant Professor of Chemical Engineering, Idaho Falls; B.S., 1969, Yonsei (Korea); M.S., 1979, Florida; Ph.D., 1985, Washington State.
- *ROBERT M. OHLENSEHLEN, 1978 (1989), Extension Professor of Agriculture; Twin Falls County Extension Agricultural Agent, Twin Falls; B.S., 1971, M.S., 1986, Idaho.
- *RICHARD E. OHMS, 1957 (1973), Extension Professor Emeritus; B.S.Ag., 1950, M.S.Ag., 1952, Idaho; Ph.D., 1955, Illinois. Emeritus since 1983 (now residing in Lewiston).
- *JOHN C. OJALA, 1982 (1988), Associate Extension Professor of Crop Management, Idaho Falls; B.S., 1976, Oregon State; Ph.D., 1981, California (Riverside).
- LAWRENCE E. O'KEEFFE, 1965 (1981), Professor of Entomology; Head, Department of Plant, Soil, and Entomological Sciences, 1986-; Chair, Faculty Council, 1978-79; B.S., 1956, M.S., 1958, North Dakota State; Ph.D., 1965, Iowa State.
- *GANIYU T. OLADUNJOYE, 1990, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Moscow; B.B.A., 1977, M.A., 1978, Western Michigan; Ph.D., 1981, Bowling Green State.
- JAY O'LAUGHLIN, 1990, Adjunct Professor of Forest Products and of Forest Resources; Director, Policy Analysis Group, Idaho Forest, Wildlife and Range Experiment Station; B.S.B.A., 1971, Denver; M.S., 1977, Ph.D., 1980, Minnesota.
- *LEILA S. OLD, 1967 (1975), Professor Emerita of Home Economics; Ed.B., 1937, California (Los Angeles); B.S., 1941, Oregon State; M.A., 1942, Southern California; Ed.D., 1964, Washington State. Emerita since 1981 (now residing in Albion, Wash.).
- RICHARD OLD, 1990 (1991), Adjunct Assistant Professor of Forest Resources; Research Associate in Plant Science; B.S., 1977, M.S., 1981, Washington State; Ph.D., 1991, Idaho.
- *J. DAVID OLIVAS, 1991, Affiliate Professor of Metallurgical and Mining Engineering, Los Alamos, New Mexico; B.S., 1977, M.S., 1982, Texas (El Paso); Ph.D., 1989, Colorado School of Mines.
- DAVID J. OLIVER, 1979 (1989), Professor of Biochemistry; Biochemist; B.S., 1971, M.S., 1973, SUNY (Syracuse); Ph.D., 1975, Cornell.
- LANCE OLSEN, 1990, Associate Professor of English; B.A., 1978, Wisconsin; M.F.A., 1980, Iowa; M.A., 1982, Ph.D., 1985, Virginia.
- JENNIFER J. OLSON, 1982 (1991), Associate Professor of Special Education; B.A., 1970, Oregon; M.S., 1973, Calgary; Ph.D., 1981, Idaho.
- *JOHN R. OLSON, 1982, Affiliate Professor of Forest Resources, Lewiston; B.S., 1974, Ph.D., 1980, Washington (Seattle).
- *NORMAN C. OLSON, 1971, Professor of Management, Department Head, and Dean Emeritus (Dean, College of Business and Economics, 1971-76; Head, Department of Business, 1985-89); B.S., 1947, M.S., 1949, Ph.D., 1959, Wisconsin. Emeritus since 1989 (now residing in Juliaetta).
- PHILIP D. OLSON, 1973 (1986), Professor of Business and Statistics; B.A., 1965, Concordia (Minn.); M.B.A., 1967, Montana; Ph.D., 1972, Oregon.
- *ROBERT L. OLSON, 1975, Affiliate Clinical Professor of Medical Science, Lewiston; B.S., 1952, Bethany College; M.D., 1956, Kansas.
- KURT O. OLSSON, 1974 (1982), Professor of English; Dean, College of Letters and Science, 1989- (Department Chair, 1980-86); B.A., 1962, North Park; M.A., 1963, Columbia; Ph.D., 1968, Chicago.
- PAUL W. OMAN, JR., 1984 (1991), Associate Professor of Computer Science; B.S., 1975, M.S., 1979, Ph.D., 1989, Oregon State.
- CINDY S. ORSER, 1987, Assistant Professor of Bacteriology; Adjunct Assistant Professor of Plant Pathology; B.S., 1978, M.S., 1980, Montana State; Ph.D., 1985, California (Berkeley).
- HAROLD L. OSBORNE, 1972 (1989), Associate Extension Professor of Forest Resources and Forest Manager; B.S., 1971, M.F., 1974, Idaho.
- *JAMES OSIENSKY, 1986 (1987), Associate Professor of Hydrogeology, Boise; B.A., 1975, Bridgewater State; M.S., 1979, Ph.D., 1983, Idaho.
- TORU OTAWA, 1985 (1989), Associate Professor of Landscape Architecture; B.S., 1975, Tokyo Univ. of Agr.; M.L.Arch., 1978, Massachusetts (Amherst).
- KURT L. OTHBERG, 1980, Adjunct Assistant Professor of Geology; Senior Geologist, Idaho Geological Survey; B.A., 1967, Western Washington; B.S., 1971, Washington; M.S., 1973, Western Washington.
- *MARK D. OTIS, 1991, Affiliate Assistant Professor of Vocational Education, Idaho Falls; B.S., 1972, Colorado; M.S., 1973, Ph.D., 1983, Colorado State.
- *H. ROBERT OTNESS, 1950 (1959), Professor Emeritus of Psychology; B.S., 1931, M.S.Ed., 1932, Idaho; Ph.D., 1939, New York. Emeritus since 1971 (now residing in Moscow).
- *ERIC H. OTTEWITTE, 1988, Affiliate Assistant Professor of Nuclear Engineering, Idaho Falls; B.S., 1962, Cincinnati; M.S., 1963, Michigan; Ph.D., 1973, California (Los Angeles).
- *GLENN B. OWEN, 1964, Director of Institutional Services Emeritus; B.S., 1936, Idaho; M.B.A., 1954, Pennsylvania (Wharton School of Finance and Commerce). Emeritus since 1977 (now residing in Moscow).
- *WARREN S. OWENS, 1968 (1969), Dean Emeritus of Library Services with rank of Professor (Dean, 1970-87); B.A., 1943, Kalamazoo; M.A., 1949, Chicago; A.M.L.S., 1953, Michigan. Emeritus since 1987 (now residing in Moscow).
- *LOIS W. PACE, 1972 (1981), Extension Professor Emerita; B.S., 1950, Missouri; M.Ed., 1966, Colorado State. Emerita since 1981 (now residing in Spokane).
- *JOEL H. PACKHAM, 1988 (1990), Assistant Extension Professor of Agriculture; Bear Lake County Extension Agricultural Agent, Paris; B.S., 1982, Brigham Young; M.S., 1990, Idaho.
- RANDY M. PAGE, 1987 (1990), Associate Professor of Health and Physical Education; B.S., 1979, M.H.Ed., 1980, Brigham Young; Ph.D., 1982, Southern Illinois.
- *DEBRA PAGE-DUMROESE, 1988, Affiliate Assistant Professor of Forest Resources and Soil Science, Moscow; B.S., 1982, Grand Valley State; M.S., 1985, Michigan Technological; Ph.D., 1988, Idaho.
- *CHARLES G. PAINTER, 1954 (1975), Extension Professor Emeritus; B.S., 1947, Colorado State; M.S., 1948, Michigan State. Emeritus since 1980 (now residing in Brush, Colo.).
- BETH A. PALMER, 1990, Assistant Professor of Geology; B.S., 1981, Idaho; M.S., 1984, Ph.D., 1987, Kansas.
- DOUGLAS A. PALS, 1977 (1989), Professor of Agricultural Education (Head, Department of Agricultural and Extension Education, 1978-84); B.S., 1968, M.S., 1975, Ph.D., 1977, Iowa State.
- *RAUHN R. PANTING, 1978 (1990), Associate Extension Professor of Agriculture; Oneida County Extension Agricultural Agent, Malad; B.S., 1977, M.S., 1978, Utah State.
- DEAN F. PANTTAJA, 1986 (1992), Associate Professor of Theatre Arts; B.A., 1980, M.F.A., 1983, Humboldt State.
- *WILLIAM R. PARISH, 1947 (1964), Professor Emeritus of Electrical Engineering (Chair, Faculty Council, 1970-72); B.S.E.E., 1944, Iowa State; M.S.E.E., 1952, Idaho. Emeritus since 1983 (now residing in Moscow).
- JIN Y. PARK, 1979 (1986), Professor of Chemical Engineering; B.S., 1967, Seoul; M.S., 1972, Idaho; Ph.D., 1976, Oregon State.
- *R. O. PARKER, 1989, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Twin Falls; B.S., 1972, Brigham Young; Ph.D., 1977, Iowa State.
- *VICKIE J. PARKER-CLARK, 1983 (1989), Associate Extension Professor of Agriculture; Kootenai County Extension Agricultural Agent, Coeur d'Alene; B.S., 1980, M.S., 1983, Montana State.
- *STUART C. PARKINSON, 1991, Assistant Extension Professor of Agriculture; Franklin County Extension Agricultural Agent, Preston; B.S., 1979, M.S., 1989, Utah State.
- A. LEE PARKS, 1975 (1981), Professor of Special Education; B.A., 1964, M.Ed., 1966, Central Washington; Ph.D., 1972, Kansas.
- *DONALD J. PARKS, 1991, Affiliate Assistant Professor of Mechanical Engineering, Boise; B.S., 1966, Colorado State; M.S., 1968, Ph.D., 1973, Minnesota.
- WILLIAM H. PARKS, 1972 (1977), Professor of Business; B.A., 1957, M.A., 1960, Ph.D., 1967, Michigan State.
- *JOAN K. PARR, 1971 (1985), Extension Professor of Home Economics; Cassia County Extension Home Economist, Burley; B.S.H.Ec., 1968, California State Polytechnic; M.S., 1975, Idaho.
- *ROBERT R. PARTON, 1967, Director of Housing and Food Service Emeritus (Director, 1967-88); B.A., 1951, Denver. Emeritus since 1988 (now residing in Moscow).
- ARTHUR D. PARTRIDGE, 1960 (1969), Professor of Forest Resources; B.S., 1953, Maine; M.S., 1956, Ph.D., 1957, New Hampshire.
- JOY PASSANANTE, 1977 (1991), Lecturer in English; A.B., 1969, Washington Univ. (Missouri); M.A.T., 1971, Cornell.
- GEORGE PATSAKOS, 1970 (1976), Associate Professor of Physics; A.B., 1962, Columbia; Ph.D., 1969, Stanford.
- *PAUL E. PATTERSON, 1981 (1990), Associate Extension Professor of Agricultural Economics; Extension Agricultural Economist, Idaho Falls; B.S., 1977, M.S., 1981, Idaho.
- *JOSEPH J. PAVEK, 1965, Affiliate Professor of Agronomy, USDA, Aberdeen; B.S., 1955, M.S., 1960, Minnesota; Ph.D., 1965, Wisconsin.
- *ANNE PAYNE, 1992, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Boise; B.S.N., 1968, Arkansas; M.S.N., 1972, Washington (Seattle); Ed.D., 1982, Tulsa.
- *EDSON R. PECK, 1962, Professor Emeritus of Physics; B.A., 1936, M.S., 1937, Northwestern; Ph.D., 1945, Chicago. Emeritus since 1978 (now residing in Edmonds, Wash.).
- MELVIN J. PEDRAS, 1985, Associate Professor of Education; B.A., 1968, M.A., 1972, California State (Fresno); Ed.D., 1982, Nevada.
- *STEPHEN L. PEEBLES, 1960 (1974), Associate Extension Professor of Agriculture; Fremont County Extension Agricultural Agent, St. Anthony; B.S.An.Hus., 1955, Idaho.
- JAMES M. PEEK, 1973 (1977), Professor of Wildlife Resources; B.S., 1958, M.S., 1961, Montana State; Ph.D., 1971, Minnesota.

NORMAN PENDEGRAFT, 1983, Associate Professor of Management Information Systems; B.S., 1972, California Institute of Technology; M.S., 1974, Ph.D., 1978, California (Los Angeles).

STEVEN G. PENONCELLO, 1986 (1990), Associate Professor of Mechanical Engineering (Assistant Dean, College of Engineering, 1990-92); B.S., 1978, M.S., 1980, North Dakota; Ph.D., 1986, Idaho.

RICHARD PENTICOFF, 1992, Assistant Professor of English; B.A., 1978, Pomona; B.A., 1982, Washington (Seattle); M.A., 1988, Ph.D., 1992, Texas (Austin).

*LLOYD E. PERINO, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; B.S., 1977, Colorado; M.D., 1981, Chicago.

LOUIS A. PERRAUD, 1982 (1988), Associate Professor of Foreign Languages and Literatures (classics); B.A., 1968, Seton Hall; S.T.B., 1970, Pontifical Gregorian University (Rome); Ph.D., 1980, Indiana.

BATRIC PESIC, 1983 (1992), Professor of Metallurgical Engineering; B.S., 1971, Belgrade; M.S., 1979, Ph.D., 1981, Utah.

*CHARLIE F. PETERSEN, 1943 (1957), Professor of Animal Sciences and Department Head Emeritus (Head, Department of Poultry Science, 1961-70; Department of Animal Sciences, 1980-82); B.S. Ag., 1940, M.S. Ag., 1946, Sc.D., 1986, Idaho. Emeritus since 1982 (now residing in Moscow).

CHARLES L. PETERSON, 1973 (1978), Professor of Agricultural Engineering; Agricultural Engineer; B.S. Ag. E., 1961, M.S. Ag. E., 1966, Idaho; Ph.D., 1973, Washington State; P.E./L.S.

*CLARENCE J. PETERSON, 1976, Affiliate Professor of Agronomy, Pullman, Wash.; B.S., 1956, M.S., 1959, Idaho; Ph.D., 1970, Oregon State.

*DENNIS L. PETERSON, 1983, Affiliate Clinical Professor of Medical Science and Affiliate Professor of Physical Education, Moscow; B.S., 1975, Nebraska Wesleyan; M.D., 1978, Nebraska.

*DORAN A. PETERSON, 1959 (1982), Extension Professor Emeritus; B.S. Ag., 1940, Idaho. Emeritus since 1982 (now residing in Meridian).

*ERIC S. PETERSON, 1991, Affiliate Assistant Professor of Chemistry, Idaho Falls; B.A., 1979, B.S., 1979, Concordia; Ph.D., 1987, Montana State.

*FLOYD H. PETERSON, 1969, Professor of Music and Director Emeritus (Director, School of Music, 1969-77); B.Mus., 1952, M.Mus., 1953, Northwestern; D.Mus.Ed., 1963, Indiana. Emeritus since 1989 (now residing in Moscow).

HARRY L. PETERSON, 1990, Vice President for University Relations and Development, 1990-; B.A., 1963, San Diego State; M.S.W., 1966, California (Berkeley); Ph.D., 1977, Wisconsin (Madison).

*HAZEL C. PETERSON, 1971 (1977), Professor Emerita of Physical Education; B.S., 1949, M.S., 1955, Oregon; Ph.D., 1968, Ohio State. Emerita since 1987 (now residing in Salem, Oreg.).

JAMES N. PETERSON, 1975 (1985), Professor of Electrical Engineering (Department Chair, 1981-86); B.S., 1965, M.S., 1967, Idaho; Ph.D., 1980, Iowa State; P.E.

*PHILIP E. PETERSON, 1952 (1961), Professor Emeritus of Law (Dean, College of Law, 1962-66); B.S., 1950, J.D., 1952, Illinois; LL.M., 1958, Harvard. Emeritus since 1988 (now residing in Lewiston).

*JACQUELINE PETERSON-SWAGERTY, 1984, Affiliate Associate Professor of History, Pullman, Wash.; B.A., 1971, M.A., 1973, Ph.D., 1981, Illinois (Chicago).

*KATHY L. PETTIT-O'MALLEY, 1981, 1986 (1986), Associate Professor of Marketing; B.A., 1972, M.B.A., 1977, Idaho; Ph.D., 1981, Washington (Seattle).

*WILLIAM W. PFEIFFER, 1988, Affiliate Assistant Professor of Educational Administration, Coeur d'Alene; B.A., 1968, M.Ed., 1973, Ph.D., 1980, Idaho.

STEVEN PHARR, 1990, Associate Professor of Marketing; B.A., 1987, Huron; M.B.A., 1978, South Dakota; Ph.D., 1987, Nebraska (Lincoln).

*ROSWELL W. PHILLIPS, 1976, Affiliate Professor of Electrical Engineering, Spokane, Wash.; B.A., 1941, Amherst; M.D., 1944, Columbia.

*PATRICK P. PICKENS, 1986, Affiliate Instructor in Special Education, Coeur d'Alene; B.S., 1972, Iowa; M.S.Ed., 1974, Idaho State.

GIFFORD PIERCE, 1987, Professor of Architecture (Department Chair, 1987-90); B.A., 1959, M.Arch., 1964, Yale.

CYNTHIA M. PIEZ, 1991, Senior Instructor in Mathematics; Director, Mathematics/Statistics Assistance Center, 1991-; B.A., 1986, Prescott; M.S., 1990, Northern Arizona.

BRUCE M. PITMAN, 1973, Dean for Student Advisory Services, 1981-; Adjunct Instructor in Counseling and Human Services; B.A., 1971, Purdue; M.Ed., 1974, Ph.D., 1989, Idaho.

T. ALAN PLACE, 1970 (1975), Professor of Mechanical Engineering; B.Sc., 1961, Nottingham (England); M.Eng., 1966, McMaster (Ontario); Ph.D., 1969, British Columbia.

*LEE PLANSKY, 1992, Affiliate Assistant Professor of Metallurgy, Idaho Falls; B.A., 1965, California (Los Angeles); M.S., 1977, Southern California; Ph.D., 1992, Idaho.

*WILLIAM S. PLATTS, 1980, Affiliate Professor of Fisheries and Entomology, Boise; B.S., 1955, Idaho State; M.S., 1957, Ph.D., 1972, Utah State.

*PEGGY J. PLETCHER, 1968 (1980), Extension Professor of Home Economics; District Director, Boise (Director, School of Home Economics, 1986-92); B.S., 1953, Baylor; M.Ed., 1974, College of Idaho; Ph.D., 1979, Idaho.

RICHARD R. POLLARD, 1990, Assistant Professor of Educational Administration, Boise; B.S., 1973, M.S., 1975, Wyoming; Ph.D., 1990, Nebraska (Lincoln).

MICHAEL POLLASTRO, 1990, Head of Reference Services, University Library, with rank of Assistant Professor; B.A., 1971, SUNY (Albany); M.L.S., 1978, Catholic University of America.

*WALLACE K. POND, 1990, Affiliate Professor of Vocational Teacher and Adult Education, Boise; B.S., 1961, M.S., 1963, Utah; Ph.D., 1973, Maryland.

*WARREN K. POPE, 1947 (1962), Research Professor Emeritus of Agronomy; B.S., 1940, Ph.D., 1948, California (Berkeley). Emeritus since 1981 (now residing in Moscow).

ELIZABETH POPIEL, 1990, Assistant Professor of Teacher Education; B.A., 1977, Trenton State; Ed.M., 1982, Ed.D., 1990, Rutgers.

ERNESTINE PORTER, 1980 (1986), Associate Extension Professor of Home Economics; Extension Textiles and Clothing Specialist; B.S., 1971, Utah State; M.S., 1976, Florida State; Ph.D., 1987, Idaho.

*P. STEVEN PORTER, 1992, Assistant Professor of Civil Engineering, Idaho Falls; B.S., 1976, M.S., 1980, Illinois (Urbana); Ph.D., 1986, Colorado State.

*ROLAND W. PORTMAN, 1949 (1971), Extension Professor and Extension Entomologist Emeritus; B.S., 1937, Colorado State; M.S., 1940, Kansas State. Emeritus since 1975 (now residing in Spokane, Wash.).

CLARENCE J. POTRATZ, 1966 (1980), Professor of Mathematics and Statistics; Department Chair, 1990-; B.A., 1957, Pacific Lutheran; M.S., 1959, Idaho; Ph.D., 1966, Washington State.

*GRETCHEN L. POTTER, 1966 (1976), Professor Emerita of Home Economics; B.S.H.Ed., 1939, Idaho; M.A.T., 1966, Washington State. Emerita since 1976 (now residing in Moscow).

*KURT S. PREGITZER, 1981 (1983), Affiliate Professor of Forest Resources, East Lansing, Mich.; B.S.F., 1975, M.F., 1978, Ph.D., 1981, Michigan.

*MARY C. PRESOL, 1982, Affiliate Clinical Professor of Medical Science, Moscow; R.N., 1964, Sacred Heart Hospital School of Nursing (Allentown, Penn.); B.S.N.Ed., 1966, College Misericordia (Dallas, Penn.); M.Ed., 1974, Idaho.

*WILMER G. PRIEST, 1946 (1974), Extension Professor Emeritus; B.S. Ag., 1946, Idaho. Emeritus since 1974 (now residing in Jerome).

*G. RAYMOND PRIGGE, 1975 (1977), Extension Professor of Agriculture; District Director, Idaho Falls; B.S., 1962, M.S., 1964, Kentucky; Ph.D., 1970, Ohio State.

KEITH A. PRISBREY, 1976 (1985), Professor of Metallurgy; B.S., 1969, Utah; M.S., 1971, Stanford; Ph.D., 1975, Utah; P.E.

JANE PRITCHETT, 1981, 1984-87, 1988 (1992), Lecturer in Communication; B.A., 1967, Arizona.

ROBERT C. PROBASCIO, 1968 (1975), Associate Professor of Computer Science; B.Mus., 1966, Michigan; M.Mus., 1968, Nebraska.

DIANE M. PRORAK, 1989, Science Reference Librarian with rank of Assistant Professor; B.A., 1979, Illinois (Urbana-Champaign); M.L.S., 1986, Wisconsin (Madison).

JOAN PULAKOS, 1983 (1989), Licensed Psychologist, Student Counseling Center, with rank of Associate Professor; Adjunct Associate Professor of Counseling and Special Education and of Psychology; B.S., 1978, New Mexico; M.S., 1980, Ph.D., 1983, Washington State.

JOHN L. PULLIAM, 1979, Assistant Professor of Architecture; B.Arch., 1962, M.B.A., 1987, Idaho.

JOHN E. PURVIANCE, 1978-79, 1980 (1990), Professor of Electrical Engineering; B.S.E.E., 1972, Idaho; M.S.E.E., 1973, Northwestern; Engr.E.E., 1977, Southern California (Los Angeles); Ph.D., 1980, Idaho.

JAN M. PYLE, 1972 (1977), Catalog Librarian with rank of Associate Professor; B.S., 1956, Lewis and Clark; M.L.S., 1966, Washington (Seattle).

*DAVID R. QUIGLEY, 1988, Affiliate Assistant Professor of Bacteriology, Idaho Falls; B.S., 1976, Florida Atlantic; M.S., 1979, Ph.D., 1982, Missouri (Rolla).

SHARRON S. QUISENBERRY, 1991, Professor of Entomology; Chair of Entomology, 1991-; B.S., 1966, Northeast Missouri State; M.S., 1977, Ph.D., 1980, Missouri (Columbia).

*FRED W. RABE, 1965 (1992), Professor Emeritus of Zoology; B.S., 1950, M.S., 1955, Colorado State; Ph.D., 1963, Utah. Emeritus since 1992 (now residing in Moscow).

R. MICHAEL RAINEY, 1987, Assistant Professor of Art; B.A., 1969, Idaho; M.A., 1980, M.F.A., 1989, New Mexico.

DALE R. RALSTON, 1970 (1981), Professor of Hydrology; B.S.C.E., 1964, Oregon State; M.S. Hydrology, 1967, Arizona; Ph.D., 1974, Idaho.

*S. RAMAGOPAL, 1990, Affiliate Assistant Professor of Plant Science, Aberdeen; B.S., Madras; M.S., Utah State; Ph.D., California (Davis).

- *JEFFREY J. RAST, 1988 (1991), Assistant Extension Professor of Agriculture; Camas County Extension Agricultural Agent, Fairfield; B.S., 1979, M.S., 1991, Idaho.
- JOHN T. RATTI, 1986, Adjunct Professor of Wildlife Resources; Research Scientist; B.S., 1969, Indiana State; M.S., 1973, Ph.D., 1977, Utah State.
- *ELMER K. RAUNIO, 1949 (1961), Professor of Chemistry and Dean Emeritus (Dean, College of Letters and Science, 1970-81); B.A., 1940, Wyoming; M.S., 1942, North Dakota State; Ph.D., 1950, Michigan. Emeritus since 1981 (now residing in Moscow).
- JAMES R. REECE, 1970 (1987), Associate Professor of Foreign Languages and Literatures (German); Department Chair, 1991-; B.A., 1966, Pacific Lutheran; M.A., 1968, Ph.D., 1975, Oregon.
- D. NELS REESE, 1979 (1987), Assistant Professor of Architecture; B.Arch., 1962, Idaho.
- KERRY P. REESE, 1984 (1989), Associate Professor of Wildlife Resources; B.S., 1973, Indiana (Pennsylvania); M.S., 1976, Clemson; Ph.D., 1982, Utah State.
- GERALD E. REHFELDT, 1967, Affiliate Professor of Forest Genetics, U.S. Forest Service, Moscow; B.S., 1963, Utah State; M.S., 1965, Ph.D., 1967, Wisconsin.
- *CHARLES W. REICH, 1986, Affiliate Professor of Physics, Idaho Falls; B.S., 1952, Oklahoma; M.A., 1954, Ph.D., 1956, Rice.
- JONATHAN REICH, 1992, Assistant Professor of Architecture; B.A., 1979, B.A.Ed., 1979, Washington (Seattle); M.Arch., 1983, California (Berkeley).
- JAMES E. REID, 1978 (1985), Associate Professor of Music; B.Mus., 1976, San Francisco Conservatory of Music; M.Mus., 1978, Hartt College of Music.
- ROLLAND R. REID, 1955 (1965), Professor of Geology; Head, Department of Geology and Geological Engineering, 1990- (Dean, College of Mines, 1965-74); B.S., 1951, M.S., 1953, Ph.D., 1959, Washington (Seattle).
- *JOHN F. RELYEA, 1983, Affiliate Professor of Chemical Engineering, Richland, Wash.; B.S., 1969, M.S., 1971, Ph.D., 1978, Arkansas.
- *MALCOLM M. RENFREW, 1959, Professor of Chemistry and Department Head Emeritus (Head, Department of Physical Science, 1959-67; Department of Chemistry, 1967-73); B.S., 1932, M.S., 1934, Idaho; Ph.D., 1938, Minnesota. Emeritus since 1976 (now residing in Moscow).
- JAMES L. RENNIE, 1973 (1984), Adjunct Instructor in Recreation; University Program Coordinator; B.G.S., 1982, M.S., 1991, Idaho.
- *VILLA R. REXFORD, 1962-64, 1965 (1986), Extension Professor of Home Economics; Gem County Extension Home Economist, Emmett; B.S., 1962, M.S., 1968, Oregon State.
- MARIO G. REYES, 1985, Assistant Professor of Business; B.S., 1976, De La Salle (Philippines); M.B.A., 1982, New Orleans; Ph.D., 1987, Arkansas (Fayetteville).
- GERALD R. REYNOLDS, 1971, Assistant Vice President/Controller; B.S., 1961, Idaho; C.P.A.
- *ROGER L. REYNOLDS, 1985 (1987), Professor of Educational Administration; Director, University of Idaho Boise Center; B.A., 1956, M.Ed., 1962, College of Idaho; Ed.Sp., 1965, Ed.D., 1970, Utah State.
- RONALD P. RICHARD, 1985 (1987), Instructor in Animal Science; B.S., 1983, Idaho; M.S., 1985, Washington State.
- LOU E. RIESENBERG, 1979 (1986), Associate Professor of Agricultural and Extension Education, Agricultural Engineering, and Vocational Teacher and Adult Education; Head, Department of Agricultural and Extension Education, 1986-; B.S., 1971, Iowa State; M.A., 1976, Ph.D., 1980, Minnesota.
- *NEIL R. RIMBEY, 1976 (1990), Extension Professor of Agricultural Economics; Adjunct Professor of Range Resources; Extension Range Economist, Caldwell; B.A., 1974, California State (Chico); M.S., 1976, Nevada (Reno); Ph.D., 1989, Idaho.
- CRAIG J. RINDLISBACHER, 1991, Adjunct Assistant Professor of Landscape Architecture; GIS Planner, Facility Planning; B.L.Arch., 1987, Idaho.
- *ROBERT E. RINKER, 1975 (1981), Associate Professor of Computer Science; Director of Engineering Education, Boise, 1989-; B.S., 1974, M.S., 1976, Idaho.
- JOHN A. RISTOW, 1978, Assistant Professor of Industrial Technology Education; B.S.Ed., 1964, Wisconsin State; M.A., 1978, Ph.D., 1987, Minnesota.
- *SANDRA S. RISTOW, 1987, Affiliate Assistant Professor of Fish and Wildlife Resources, Pullman, Wash.; B.S., 1963, Wisconsin State; Ph.D., 1972, Minnesota.
- *ROBERT C. RITTER, 1974 (1984), Affiliate Professor of Veterinary Medicine, Pullman; B.S., 1967, Valparaiso; V.M.D., 1971, Ph.D., 1974, Pennsylvania.
- *SUE W. RITTER, 1975, Affiliate Professor of Veterinary Medicine, Pullman, Wash.; B.A., 1968, Valparaiso; M.A., 1971, Ph.D., 1973, Bryn Mawr.
- RONALD ROBBERECHT, 1983 (1989), Associate Professor of Range Resources; B.S., 1974, San Diego State; M.S., 1977, Ph.D., 1981, Utah State.
- *CHARLES W. ROBBINS, 1973, Affiliate Professor of Soil Science, Soil and Water Management Research Unit, USDA, Kimberly; B.S., 1966, Brigham Young; M.S., 1971, Ph.D., 1979, Utah State.
- *JoANN ROBBINS, 1991, Assistant Extension Professor of Agriculture; Blaine County Extension Agricultural Agent, Hailey; B.S., 1968, M.S., 1969, California (Davis); Ph.D., 1987, Washington State.
- FLORENCE ROBERTS, 1976 (1977), Lecturer in English; B.A., 1948, Central Arkansas; M.A., 1973, Idaho.
- *GEORGE H. ROBERTS, 1957 (1969), Professor Emeritus of Art; B.S., 1954, M.S., 1955, Wisconsin. Emeritus since 1992 (now residing in Moscow).
- *J. DANIEL ROBERTS, 1943 (1971), Extension Professor Emeritus; B.S.Ag., 1939, Idaho. Emeritus since 1975 (now residing in Preston).
- *JEFF ROBERTS, 1990, Affiliate Assistant Professor of Mechanical Engineering, Boise; B.S., 1982, Emporia State; M.S.M.E., 1988, Kansas State.
- *LORIN W. ROBERTS, 1957 (1967), Professor Emeritus of Botany; B.A., 1948, M.A., 1950, Ph.D., 1952, Missouri. Emeritus since 1991 (now residing in Moscow).
- *ALAN C. ROBERTSON, 1973, Affiliate Professor of Civil Engineering, Idaho Water Resource Board, Boise; B.S.Ag.E., 1958, M.S.Ag.E., 1960, Idaho.
- DONALD C. ROBERTSON, 1992, Professor of Microbiology; Head, Department of Bacteriology and Biochemistry; B.S., 1962, Dubuque; Ph.D., 1967, Iowa State.
- *LARRY D. ROBERTSON, 1986, Professor of Plant Genetics, Aberdeen; B.S., 1963, West Texas State; M.S., 1965, Ph.D., 1966, Colorado State.
- M. HENRY ROBISON, 1987, Assistant Extension Professor of Agricultural Economics; Adjunct Assistant Professor of Forest Resources; B.S., 1972, Utah; M.S., 1975, San Francisco State; Ph.D., 1986, Utah.
- *RON B. ROCK, 1992, Affiliate Assistant Professor of Educational Administration, Boise; B.A., 1962, J.D., 1965, Idaho.
- RICHARD A. ROEDER, 1984 (1990), Associate Professor of Animal Science and Growth Physiology; B.A., 1973, Glassboro State; M.S., 1979, Ph.D., 1982, Texas A & M.
- *R. ROBERT ROMANKO, 1957 (1984), Extension Professor of Agronomy, Parma; B.S., 1953, New Hampshire; M.S., 1955, Delaware; Ph.D., 1957, Louisiana State.
- MICHAEL T. ROONEY, 1989, Affiliate Clinical Professor of Medical Science, Lewiston; M.D., 1979, Indiana.
- ALAN ROSE, 1969 (1985), Associate Professor of Foreign Languages and Literatures (French); Adjunct Associate Professor of Business; B.A., 1968, University of the South; Ph.D., 1975, Lancaster; M.B.A., 1988, Idaho.
- R. FRANCIS ROSENZWEIG, 1992, Assistant Professor of Biology; B.A., 1978, B.A., 1983, Tennessee; Ph.D., 1991, Pennsylvania.
- *RICHARD H. ROSS, 1947 (1953), Professor of Animal Science and Extension Dairy Specialist Emeritus (Head, Department of Dairy Science, 1960-70); B.S., 1938, Pennsylvania State; M.S., 1940, West Virginia; Ph.D., 1947, Pennsylvania State. Emeritus since 1979 (now residing in Moscow).
- ARTHUR W. ROURKE, 1972 (1983), Professor of Zoology; Chair, Department of Biological Sciences, 1979-; B.A., 1964, Lafayette; Ph.D., 1970, Connecticut.
- ALWYN R. ROUYER, 1970 (1975), Associate Professor of Political Science (Head, Department of Political Science and Public Affairs Research, 1983-91); B.A., 1963, Southwestern Louisiana; M.A., 1966, Georgetown; Ph.D., 1971, Tulane.
- *CRAIG ROWAN, 1978, Affiliate Professor of Veterinary Medicine, Weiser; B.A., 1945, Middlebury; V.M.D., 1948, Pennsylvania.
- GALEN O. ROWE, 1971 (1976), Professor of Foreign Languages and Literatures (classics) (Dean, College of Letters and Science, 1981-89; Assistant Vice President for Academic Affairs and Research, 1979-81; Chair, Department of Foreign Languages and Literatures, 1973-79); B.A., 1959, David Lipscomb; Ph.D., 1963, Vanderbilt.
- WILLIAM D. ROYALTY, 1969 (1976), Associate Professor of Mathematics; B.A., 1959, M.S., 1964, Ph.D., 1969, Iowa.
- *MARY LOU RUBY, 1960-69, 1977 (1982), Extension Professor of Home Economics; Bingham County Extension Home Economist, Blackfoot; B.S.H.Ec., 1960, M.S., 1974, Idaho.
- *WAYNE L. RUBY, 1987, Affiliate Clinical Professor of Medical Science, Moscow; B.S., 1976, M.D., 1982, Colorado.
- GUNDARS RUDZITIS, 1983 (1986), Associate Professor of Geography; B.S., 1965, M.B.A., 1967, Adelphi; M.A., 1973, Ph.D., 1977, Chicago.
- *ROY E. RUMMLER, 1990, Affiliate Assistant Professor of Educational Administration, Boise; B.S., 1960, Brigham Young; M.M.E., 1969, New Mexico; Ed.D., 1976, Wyoming.
- *MICHAEL G. RUSH, 1986, Affiliate Assistant Professor of Agricultural Education, Boise; B.S., 1977, M.S., 1982, Idaho; Ed.D., 1984, Virginia Polytechnic.
- *GEORGE R. RUSSELL, 1947 (1966), Professor of Civil Engineering and Associate Dean of Engineering Emeritus (Associate Dean, 1967-85); B.S.C.E., 1943, C.E., 1960, Idaho; P.E. Emeritus since 1985 (now residing in Moscow).
- *G. DAVID RYCH, 1987, Affiliate Clinical Professor of Medical Science, Moscow; B.S., 1976, Bowling Green State; M.D., 1979, Medical College of Ohio at Toledo.

- *ROBERT C. RYCHERT, 1987, Affiliate Professor of Bacteriology, Boise; B.S., 1965, Cornell; M.A., 1968, San Francisco State; Ph.D., 1975, Utah State.
- *JOHN M. RYSKAMP, 1991, Affiliate Professor of Nuclear Engineering, Idaho Falls; B.S., 1976, M.E., 1976, Ph.D., 1979, Rensselaer Polytechnic.
- *JEFFREY A. SADLER, 1990, Affiliate Professor of Vocational Teacher and Adult Education, Meridian; A.B., 1966, California (Los Angeles); M.A., 1967, California State (Long Beach); Ph.D., 1973, Wisconsin (Madison).
- *EVERETT V. SAMUELSON, 1963, Distinguished Professor of Educational Administration and Dean Emeritus (Dean of the College of Education, 1963-81); B.A., 1948, Southwestern (Kansas); M.S., 1951, Kansas State; Ed.D., 1958, Kansas. Emeritus since 1989 (now residing in Moscow).
- WILLIAM K. SANCHEZ, 1992, Assistant Professor of Dairy Nutrition; B.S., 1982, M.S., 1984, Oregon; Ph.D., 1991, Florida.
- *KENNETH D. SANDERS, 1975 (1984), Professor of Range Resources; Extension Range Specialist, Twin Falls; B.S., 1963, New Mexico State; M.S., 1965, Oregon State; Ph.D., 1975, Texas Tech.
- *LARRY E. SANDVOL, 1972 (1988), Extension Professor of Entomology and Dean Emeritus, Research and Extension Center, Aberdeen; A.S., 1962, North Dakota State; B.A., 1966, Bemidji; M.S., 1968, North Dakota State; Ph.D., 1979, Idaho.
- NICK SANYAL, 1984 (1992), Assistant Research Professor of Resource Recreation and Tourism; B.S., 1970, Gauhati (India); M.S., 1975, Texas A & M; M.S., 1984, Ph.D., 1991, Idaho.
- LEWIS H. SARETT, 1983, Affiliate Professor of Chemistry; Member, Board of Directors, Idaho Research Foundation; B.S., 1938, Northwestern; Ph.D., 1942, Princeton.
- R. GARTH SASSER, 1967 (1987), Professor of Animal Science and On-Campus Coordinator; Reproductive Physiologist; B.S.Ag., 1961, M.S., 1963, Idaho; Ph.D., 1967, California (Davis).
- *PAUL R. SAUNDERS, 1985, Affiliate Associate Professor of Resource Recreation and Tourism, Pullman, Wash.; B.S., 1972, M.S., 1972, Purdue; Ph.D., 1979, Duke.
- GEORGE H. SAVAGE, 1976, Adjunct Associate Professor of Resource Recreation and Tourism; Director of Information Services and Managing Editor, Forestry, Wildlife and Range Experiment Station; B.S., 1967, Northern Montana; M.A., 1968, Kansas State; Ph.D., 1974, Tulsa.
- *KEITH E. SAXTON, 1977, Affiliate Professor of Agricultural Engineering, Palouse Conservation Field Station, USDA, Pullman, Wash.; B.S.Ag.E., 1961, Nebraska; M.S.C.E., 1965, Wisconsin; Ph.D., 1972, Iowa State.
- DENNIS L. SCARNECCHIA, 1990, Associate Professor of Fish and Wildlife Resources; B.S., 1976, Arizona; M.S., 1979, Oregon State; Ph.D., 1983, Colorado State.
- *BEVERLY SCHAAD, 1982, Affiliate Assistant Professor of Home Economics, Cheney, Wash.; B.S., 1966, Oregon State; M.S., 1974, Iowa State; R.D.
- *MARTIN W. SCHEFFER, 1986, Affiliate Associate Professor of Vocational Teacher and Adult Education, Boise; B.S., 1961, M.S., 1973, Oregon; Ph.D., 1971, Utah.
- JAY J. SCHELDORF, 1966 (1974), Professor of Chemical Engineering; B.S.Ch.E., 1953, Illinois; M.S.Ch.E., 1954, Kansas State; Ph.D., 1958, Colorado.
- *JAY J. SCHELDORF, JR., 1992, Affiliate Assistant Professor of Chemical Engineering, Moscow; B.S., 1977, M.S., 1978, Ph.D., 1992, Idaho.
- *STEWART C. SCHELL, 1949 (1963), Professor and Chair of Zoology Emeritus; B.S., 1939, Kansas State; M.S., 1941, North Carolina State; Ph.D., 1950, Illinois. Emeritus since 1977 (now residing in Moscow).
- GERALD T. SCHELLING, 1988, Professor of Animal Science (Department Head, 1988-90); B.S., 1963, M.S., 1964, Ph.D., 1968, Illinois.
- *JOHN A. SCHENK, 1961 (1971), Professor Emeritus of Forest Resources; B.S.F., 1950, Michigan; M.S., 1956, Ph.D., 1961, Wisconsin (Madison). Emeritus since 1988 (now residing in Rathdrum).
- *RICHARD W. SCHERMERHORN, 1971, Professor of Agricultural Economics and Department Head Emeritus (Department Head, 1971-83, 1987-89); Chair, Faculty Council, 1975-76; B.S.Ag., 1958, M.S., 1959, Georgia; Ph.D., 1962, Oregon State. Emeritus since 1989 (now residing in Bethlehem, Georgia).
- ANTHONY J. SCHERSCHEL, 1992, Assistant Professor of Naval Science; B.S., 1986, Nevada.
- *WILLIAM SCHLOSSER, 1992, Assistant Extension Professor; Clearwater County Extension Agricultural Agent, Orofino; B.S., 1989, M.S., 1990, Washington State.
- EDWIN R. SCHMECKPEPER, 1992, Assistant Professor of Civil Engineering; B.S., 1978, Valparaiso (Indiana); M.S., 1986, Ph.D., 1992, New Hampshire.
- *DIANE SCHMERBAUCH, 1991, Associate Extension Professor of Home Economics; Minidoka County Extension Home Economist, Rupert; B.S., 1971, Arizona State; M.S., 1991, Illinois (Urbana).
- *DAN J. SCHMIDT, 1992, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1986, Washington (Seattle).
- *JIM L. SCHMIDT, 1988, Affiliate Assistant Professor of Counseling and of Vocational Teacher Education, Boise; B.A., 1973, Boise State; M.Ed., 1976, Ed.D., 1986, Idaho State.
- *MARY K. SCHMIDT, 1983 (1990), Assistant Extension Professor of Home Economics; Idaho County Extension Home Economist, Grangeville; B.S., 1982, M.S., 1989, Idaho.
- *CHRISTOPHER C. SCHNEPF, 1988, Assistant Extension Professor of Agricultural Extension and North Idaho Extension Forester, Coeur d'Alene; Adjunct Assistant Professor of Forest Resources; B.S., 1982, Iowa State; M.S., 1987, M.A., 1989, Washington State.
- *JOHN H. SCHOMAKER, 1978, Affiliate Professor of Resource Recreation and Tourism, U.S.F.W.S., St. Paul, Minn.; B.A., 1965, Carleton; M.S., 1973, Utah State; Ph.D., 1975, Colorado State.
- *STERLING W. SCHOW, 1944 (1971), Extension Professor Emeritus; B.S.Ag., 1939, Utah State. Emeritus since 1983 (now residing in American Falls).
- MYRON A. SCHRECK, 1984 (1992), Professor of Law; B.S., 1970, Northwestern; M.A., 1971, San Francisco State; J.D., 1979, Illinois.
- *AGNES CRAWFORD SCHULDT, 1927-30, 1946 (1965), Professor Emerita of Music; B.Mus., 1924, M.Mus., 1927, Syracuse. Emerita since 1967 (now residing in Moscow).
- *DONALD L. SCHURMAN, 1991, Affiliate Assistant Professor of Psychology, Idaho Falls; B.A., 1965, Texas; M.A., 1967, Ph.D., 1970, Illinois.
- *WILLIAM C. SCHUTTE, 1989, Affiliate Assistant Professor of Chemistry, Idaho Falls; B.A.E., 1962, Wayne State College; M.N.S., 1967, Ph.D., 1972, South Dakota.
- *JOHN W. SCHWANDT, 1986, Affiliate Assistant Professor of Forest Resources, Coeur d'Alene; B.S., 1969, New York State; M.S., 1970, Minnesota; Ph.D., 1979, Idaho.
- CARLOS A. SCHWANTES, 1984 (1987), Professor of History; Director, Institute for Pacific Northwest Studies, 1985-; B.A., 1967, Andrews; M.A., 1968, Ph.D., 1976, Michigan.
- *DONALD R. SCOTT, 1956 (1979), Professor Emeritus of Entomology; B.S., 1948, M.S., 1950, Nebraska. Emeritus since 1984 (now residing in Moscow).
- J. MICHAEL SCOTT, 1986, Professor of Fish and Wildlife Resources; Leader, Idaho Cooperative Fish and Wildlife Research Unit; B.S., 1966, M.A., 1970, San Diego State; Ph.D., 1973, Oregon State.
- LLOYD M. SCOTT, 1992, Professor of Military Science; Department Head, 1992-; B.S., 1974, U.S. Military Academy; M.B.A., 1985, Oklahoma City.
- SAM M. W. SCRIPTER, 1971, Professor of Geography (Associate Academic Officer, State Board of Education/Regents of the University of Idaho, 1988-89; Associate Dean, College of Mines and Earth Resources, 1980-88; Department Head, 1971-80); B.S., 1962, Southern Oregon; M.S., 1964, Ph.D., 1967, Wisconsin.
- *ROBERT H. SEALE, 1949-50, 1951 (1966), Professor Emeritus of Forestry (Associate Dean, College of Forestry, Wildlife and Range Sciences, 1965-72); B.S., 1940, California (Berkeley); M.S.For., 1942, Idaho; Ph.D., 1965, SUNY (Syracuse). Emeritus since 1975 (now residing in Moscow).
- *FRANCIS SEAMAN, 1949 (1970), Professor of Philosophy and Department Chair Emeritus (Chair, Department of Philosophy, 1964-88; Director, General Studies Program, 1969-88); B.S., 1943, M.A., 1947, Ph.D., 1951, Michigan. Emeritus since 1989 (now residing in Moscow).
- FORREST E. SEARS, 1966 (1979), Professor of Theatre Arts; B.A., 1955, Redlands; M.F.A., 1958, Yale Drama School.
- MARK SECRIST, 1982, Assistant Professor of Communication; B.A., 1970, Brigham Young; M.B.A., 1972, Utah.
- LEINAALA R. SEEGER, 1989, Associate Professor of Law; Director, Law Library, 1989-; B.A., 1966, Washington (Seattle); J.D., 1977, Puget Sound; M.Law Lib., 1979, Washington (Seattle).
- *CLARENCE I. SEELY, 1947 (1955), Professor Emeritus of Agronomy; B.S., 1933, M.S., 1935, Washington State. Emeritus since 1976 (now residing in Moscow).
- *LARRY SELAND, 1986, Affiliate Associate Professor of Vocational Teacher Education, Boise; B.S., 1960, North Dakota State; M.S., 1968, Maryland; Ph.D., 1977, Colorado State.
- *MIR-MOHAMMED SEYEDBAGHERI, 1984 (1990), Associate Extension Professor of Agriculture; Elmore County Extension Agricultural Agent, Mountain Home; B.S., 1980, M.S., 1984, Utah State.
- *MARK S. SEYFRIED, 1990, Affiliate Assistant Professor of Forest Resources, Boise; B.S., 1977, California (Berkeley); M.S., 1983, Ph.D., 1986, Florida.
- BAHMAN SHAFII, 1986 (1990), Adjunct Assistant Professor of Plant Science; Director, Statistics Programs/IAES Statistician; B.S., 1977, Rezqeyeh (Iran); M.S., 1980, M.S., 1982, Ph.D., 1988, Idaho.
- *VIKRAM N. SHAH, 1986, Affiliate Professor of Civil Engineering, Idaho Falls; B.S., 1963, Gujarat; M.S., 1965, Ph.D., 1974, Wisconsin (Madison).
- WILLIAM H. SHANE, 1969 (1975), Associate Extension Professor of Agriculture; 4-H Specialist; B.S.Ed., 1959, M.Ed., 1962, Ed.Spec., 1964, Idaho; Ed.D., 1981, Washington State.

- PAMELA J. SHAPIRO, 1991, Assistant Professor of Chemistry; B.S., 1985, Massachusetts Institute of Technology; Ph.D., 1991, California Institute of Technology.
- SUNIL SHARMA, 1986, Assistant Professor of Civil Engineering; B.S., 1975, Leeds; M.S., 1980, Ph.D., 1986, Purdue; P.E.
- *D. WAYNE SHARP, 1963 (1976), Associate Extension Professor of Agriculture; Bannock County Extension Agricultural Agent, Pocatello; B.S.Ag., 1963, Idaho.
- *LEE A. SHARP, 1949 (1967), Professor Emeritus of Range Resources (Department Head, 1972-82); B.S., 1948, M.S., 1949, Utah State; Ph.D., 1966, Oregon State. Emeritus since 1988 (now residing in Moscow).
- *STANLEY A. SHEPARD, 1951-54, 1961 (1971), Head Emeritus, Department of Special Collections and Archives in the University Library, with rank of Professor; B.A., 1947, B.S., 1948, Rutgers; M.S.L.S., 1951, Columbia. Emeritus since 1984 (now residing in Moscow).
- *KIRAN K. SHETTY, 1984 (1992), Assistant Extension Professor of Plant Science and Extension Potato Specialist, Twin Falls; B.S., 1981, M.S., 1984, University of Agricultural Science (India); M.S., 1986, Ph.D., 1990, Idaho.
- *RICHARD L. SHEW, 1985, Affiliate Associate Professor of Resource Recreation and Tourism, Pullman, Wash.; B.S., 1963, M.S., 1965, Ph.D., 1970, Ohio State.
- *MARILYN C. SHINN, 1980 (1986), Associate Extension Professor of Home Economics; Ada County Extension Home Economist, Boise; B.S., 1968, Drexel.
- *MARILYN S. SHIPLEY, 1988, Assistant Extension Professor of Home Economics; Blaine County Extension Home Economist, Hailey; B.S., 1980, M.S., 1987, Nevada (Reno).
- *JEAN C. SHOWELL, 1980 (1986), Associate Extension Professor of Home Economics; Oneida County Extension Home Economist, Malad; B.S., 1953, M.S., 1988, Utah State.
- JEAN'NE M. SHREEVE, 1961 (1967), Professor of Chemistry; Vice Provost for Research and Graduate Studies, 1991- (Associate Vice President for Research, Dean of the College of Graduate Studies, and Director of the University Research Office, 1987-91; Head, Department of Chemistry, 1973-87); B.A., 1953, Montana; M.S., 1956, Minnesota; Ph.D., 1961, Washington (Seattle).
- GEOFFREY J. SHROPSHIRE, 1990, Assistant Professor of Agricultural Engineering; Assistant Agricultural Engineer; B.S., 1979, Delaware; M.S., 1981, Illinois; Ph.D., 1989, Nebraska (Lincoln).
- *JOHN S. SHUMWAY, 1989, Affiliate Assistant Professor of Forest Resources, Olympia, Wash.; B.S., 1967, B.S., 1970, Washington State; M.S., 1972, Idaho.
- *DAVID D. SHUPE, 1981, Affiliate Clinical Professor of Medical Science, Moscow; B.S., 1969, Utah; M.D., 1976, George Washington.
- *WINIFRED B. SIDLE, 1976 (1985), Affiliate Associate Professor of Fishery and Wildlife Resources, Juneau, Alaska; B.A., 1972, M.S., 1973, California (Berkeley); Ph.D., 1978, Texas A & M.
- *EVERETT F. SIECKMANN, 1962 (1967), Professor Emeritus of Physics; B.A., 1950, Doane; M.S., 1952, Florida State; Ph.D., 1960, Cornell. Emeritus since 1988 (now residing in Moscow).
- *D. DUANE SIEMER, 1986, Affiliate Professor of Chemistry, Idaho Falls; B.S., 1967, M.S., 1969, Ph.D., 1974, Montana State.
- PETER L. SIEMS, 1965 (1972), Professor of Geology; B.Sc., 1957, London; D.Sc., 1967, Colorado School of Mines.
- *HENRY W. SILHA, 1941 (1975), Professor Emeritus of Mechanical Engineering; B.S.M.E., 1940, Montana State; M.S.M.E., 1950, Idaho. Emeritus since 1980 (now residing in Moscow).
- GEORGE M. SIMMONS, 1975 (1983), Professor of Chemical Engineering; Adjunct Professor of Forest Products; Vice Provost for Teaching and Undergraduate Studies, 1991- (Dean, College of Art and Architecture, 1990-92; Associate Vice President for Academic Affairs, 1990-91; Assistant Vice President, 1985-90; Chair, Department of Chemical Engineering, 1981-85); B.S.Ch.E., 1965, M.S.Ch.E., 1966, Idaho; Ph.D., 1970, Stanford.
- *DENNIS SIMPSON, 1989, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1976, Kansas.
- *WILLIAM T. SIMPSON, 1991, Affiliate Professor of Forest Products, Madison, Wisc.; B.S., 1960, M.S., 1966, Ph.D., 1969, SUNY.
- *CARA Z. NEWMAN SINGLETON, 1948-53, 1954-56, 1967-70, 1976 (1984), Extension Professor Emerita; B.A., 1942, Utah State. Emerita since 1984 (now residing in St. Anthony).
- TEOMAN SIPAHIGIL, 1970 (1975), Associate Professor of English; B.A., 1961, Earlham; M.A., 1963, Miami (Ohio); Ph.D., 1970, California (Los Angeles).
- *DENNIS E. SKINNER, 1991, Affiliate Assistant Professor of Industrial Technology Education, Idaho Falls; B.S., 1958, Utah State; M.S., 1984, Idaho.
- LYNN J. SKINNER, 1971 (1983), Professor of Music (music education) and Director of the University of Idaho Jazz Festival; B.S., 1962, M.Mus., 1967, Ed.D., 1971, Utah State.
- *CHARLES SKORO, 1988, Affiliate Assistant Professor of Vocational Teacher Education, Boise; B.A., 1969, M.A., 1972, Ph.D., 1977, Columbia.
- *H. EUGENE SLADE, 1942, Business Manager Emeritus; B.S.Bus., 1943, Idaho. Emeritus since 1974 (now residing in Moscow).
- *CALVIN E. SLATER, 1985, Affiliate Professor of Chemical Engineering, Idaho Falls; B.S., 1963, M.S., 1965, Ph.D., 1968, Oklahoma State.
- *WILLIAM P. SLOAN, 1955 (1969), Professor Emeritus of Architecture; B.Arch., 1948, Rensselaer; M.C.P., 1961, Yale; R.A. Emeritus since 1986 (now residing in Moscow).
- *HERSCHEL B. SMARTT, 1986, Affiliate Associate Professor of Metallurgical and Mining Engineering, Idaho Falls; B.S., 1970, M.S., 1971, Ph.D., 1974, Texas (Austin).
- *CHARLES J. SMILEY, 1962 (1967), Professor Emeritus of Geology (Associate Dean, College of Mines and Earth Resources, 1976-80); B.A., 1951, Western Washington State; M.A., 1954, Ph.D., 1960, California (Berkeley). Emeritus since 1990 (now residing in Moscow).
- ARTHUR D. SMITH, JR., 1973 (1977), Professor of Law; Associate Dean, College of Law, 1981-; B.S., 1965, Utah State; J.D., 1968, George Washington.
- *GEORGE E. SMITH, 1990, Affiliate Professor of Forest Products, Portland, Oregon; B.S., 1963, Washington (Seattle); M.S., 1976, Cornell.
- *HOWARD W. SMITH, 1954 (1980), Professor Emeritus of Entomology; B.S., 1937, M.S., 1938, New Hampshire; Ph.D., 1950, Ohio State. Emeritus since 1980 (now residing in Moscow).
- *LaMONT SMITH, 1955 (1979), Extension Professor Emeritus; B.S., 1951, M.A., 1968, Idaho. Emeritus since 1983 (now residing in Heyburn).
- *LARRY J. SMITH, 1980 (1990), Extension Professor of Agriculture; Nez Perce County Extension Agricultural Agent, Lewiston; B.S., 1972, Arkansas; M.S., 1976, Oklahoma State.
- *LEWIS B. SMITH, 1967 (1975), Professor Emeritus of Education; B.S., 1952, Hiram; M.Ed., 1957, Kent State; Ph.D., 1967, Wisconsin. Emeritus since 1992 (now residing in Moscow).
- MARTIN L. SMITH, 1989, Assistant Professor of Mining Engineering; B.S., 1980, M.S., 1984, Michigan Technological; Ph.D., 1988, Virginia Polytechnic Institute.
- *RICHARD P. SMITH, 1991, Affiliate Associate Professor of Geology, Idaho Falls; B.S., 1965, Marshall; M.S., 1968, Ph.D., 1975, Colorado.
- *ROBERT W. SMITH, 1991, Affiliate Assistant Professor of Geology, Idaho Falls; M.S., 1975, Ph.D., 1984, New Mexico Institute of Mining and Technology.
- *ROSA L. SMITH, 1961 (1988), Extension Professor of Home Economics; Payette County Extension Home Economist, Payette; B.S.H.Ec., 1956, Kansas State; M.S., 1982, Idaho.
- *VANCE T. SMITH, 1941-44, 1945 (1971), Extension Professor Emeritus; B.S.Ag., 1939, Idaho; M.S., 1941, Washington State. Emeritus since 1980 (now residing in Brigham City, Utah).
- *HERVON L. SNIDER, 1949 (1953), Professor Emeritus of Education (Head, Department of Education, 1961-70; Associate Dean, College of Education, 1970-74); B.S.Ed., 1941, M.A., 1947, Ph.D., 1949, Nebraska. Emeritus since 1974 (now residing in Moscow).
- *WILLIAM H. SNYDER, 1956 (1972), Professor of Landscape Architecture and Department Chair Emeritus; Adjunct Professor Emeritus of Art (Department Chair, 1981-83); B.S., 1948, South Dakota State; M.S., 1950, Illinois; M.L.A., 1970, California (Berkeley); M.F.A., 1972, Idaho. Emeritus since 1985 (now residing in Moscow).
- *ROBERT E. SOJKA, 1987, Affiliate Professor of Soil Science, Kimberly; B.A., 1969, Ph.D., 1974, California (Riverside).
- *AJAY K. SOOD, 1976, Affiliate Professor of Electrical Engineering, Boise; B.S.E.E., 1965, S.V.R. College of Engineering (Surat); M.S.Technology, 1967, Indian Institute of Technology (Bombay); M.S.E.E., 1971, Ph.D., 1975, Washington State.
- *PETER J. SOUTH, 1976 (1990), Professor Emeritus of Veterinary Science; D.V.M., 1943, Toronto. Emeritus since 1990 (now residing in Troy).
- *EDWARD J. SOUZA, 1988, Assistant Professor of Plant Breeding and Genetics, Aberdeen; B.S., 1981, California (Davis); M.S., 1987, Ph.D., 1988, Cornell.
- *FRANCIS K. SPAIN, 1979, Affiliate Clinical Professor of Medical Science, Moscow; B.S., 1972, Idaho; M.D., 1976, Washington (Seattle).
- *WALTER C. SPARKS, 1947 (1968), Research Professor Emeritus of Horticulture; B.S., 1941, M.S., 1943, Colorado State. Emeritus since 1981 (now residing in Aberdeen).
- RICHARD B. SPENCE, 1986 (1991), Associate Professor of History; B.A., 1973, California State (Bakersfield); M.A., 1976, Ph.D., 1981, California (Santa Barbara).
- *DAVID A. SPENCER, 1975, Affiliate Clinical Professor of Medical Science, Lewiston; B.S., 1961, M.D., 1964, Oklahoma.
- *DAVID N. SPENCER, 1989, Affiliate Clinical Professor of Medical Science, Pullman, Wash.; B.S., 1966, Washington State; M.D., 1970, Washington.
- ROBERT J. SPEVACEK, 1968 (1980), Professor of Music (low brass, bands); B.Mus., 1959, M.Mus., 1964, Wisconsin.
- *RUTH W. SPIDAHL, 1971, Extension Professor Emerita; B.S., 1947, Minnesota; M.S., 1965, North Dakota State. Emerita since 1981 (now residing in Battle Lake, Minn.).
- *SAUL M. SPIRO, 1984, Affiliate Professor of Psychology, Pullman, Wash.; M.D., 1966, Vermont.
- GEORGE G. SPOMER, 1972, Associate Professor of Botany (physiological ecology); B.S., 1959, M.S., 1961, Ph.D., 1962, Colorado State.

RODERICK SPRAGUE, 1967 (1972), Professor of Anthropology; Director, Alfred W. Bowers Laboratory of Anthropology (Head, Department of Sociology/Anthropology, 1968-81); B.A., 1955, M.A., 1959, Washington State; Ph.D., 1967, Arizona.

KENNETH F. SPRENKE, 1982 (1987), Associate Professor of Geophysics; B.S., 1968, St. Louis; M.Sc., 1972, Ph.D., 1982, Alberta.

ALBERT R. STAGE, 1977, Affiliate Professor of Forest Resources, Forest Sciences Laboratory, Moscow; B.S., 1951, M.F., 1952, M.S., 1961, Ph.D., 1966, Michigan.

*BEATRICE STALKER, 1959 (1973), Extension Professor Emerita; B.S.H.Ec., 1930, Idaho. Emerita since 1973 (now residing in Boise).

*GARY STANTON, 1987, Affiliate Instructor in Counseling, Coeur d'Alene; B.S., 1977, M.S., 1979, Eastern Washington.

*JEFFREY C. STARK, 1981 (1987), Associate Research Professor of Soil Science, Aberdeen; B.S., 1977, Brigham Young; Ph.D., 1981, California (Riverside).

*RONALD W. STARK, 1970, Professor of Forest Entomology and Dean Emeritus (Dean, Graduate School, 1970-75); B.Sc., 1948, M.A., 1951, Toronto; Ph.D., 1958, British Columbia. Emeritus since 1984 (now residing in Sandpoint).

LARRY A. STAUFFER, 1987 (1992), Associate Professor of Mechanical Engineering; B.S.M.E., 1978, M.S.A.E., 1979, Virginia Polytechnic Institute; Ph.D., 1987, Oregon State.

GERD STECKEL, 1987, Assistant Professor of Foreign Languages and Literatures (German); M.A., 1983, Minnesota.

*ROBERT W. STEELE, 1975, Affiliate Professor of Forest Resources, Boise Research Center, Boise; B.S., 1969, M.S., 1971, Idaho.

VALERIE J. STEFFEN, 1990, Assistant Professor of Psychology; B.A., 1977, Manchester; M.S., 1982, Ph.D., 1985, Purdue.

MONTE L. STEIGER, 1982, Library Associate Dean with rank of Associate Professor; B.A., 1968, Central Washington; M.L.S. 1969, Washington.

H. PETER STEINHAGEN, 1981, Associate Professor of Forest Products; M.S., 1962, Hamburg (Germany); Ph.D., 1978, Wisconsin (Madison).

R. KIRK STEINHORST, 1977 (1983), Professor of Statistics; B.S., 1966, Southwestern Louisiana; M.S., 1969, Ph.D., 1971, Colorado State.

*JOHN N. STELLFLUG, 1978, Affiliate Professor of Animal Science, Idaho Falls; B.S., 1969, M.S., 1972, Montana State; Ph.D., 1976, Michigan State.

*M. WILLIAM STELLMON, 1964 (1978), Professor Emeritus of Agricultural Information (Head, Agricultural Communications Center, 1989-91); B.A., 1951, Montana; M.Ed., 1971, Idaho. Emeritus since 1992 (now residing in Moscow).

LAURIE A. STENBERG, 1988, Assistant Professor of Home Economics (teacher education); B.S., 1979, South Dakota State; M.S., 1984, Colorado State; Ph.D., 1988, Ohio State.

*ALAN G. STEPHENS, 1990, Professor and Director of Nuclear Engineering, Idaho Falls; B.S., 1957, Lafayette; M.S., 1962, Rensselaer Polytechnic Institute; Ph.D., 1975, Pennsylvania State.

*ANN STEPHENS, 1985, Affiliate Assistant Professor of Home Economics, Boise; B.S., 1965, Ashland; M.S., 1967, Miami (Ohio).

*DOROTHY N. STEPHENS, 1939 (1966), Extension Professor and State Home Economics Leader Emerita; B.S.H.Ec., 1930, Idaho; M.S., 1932, New York. Emerita since 1969 (now residing in Boise).

LEONARD R. STEPHENS, 1974 (1988), Adjunct Instructor in Physical Education; Manager, ASUI/Student Union Recreation/Computer Facilities.

ROBERT R. STEPHENS, 1992, Assistant Professor of Mechanical Engineering; B.S., 1985, Iowa; M.S., 1987, Ph.D., 1990, Utah.

*DENNIS L. STEVENS, 1984, Affiliate Assistant Professor of Bacteriology, Boise; B.A., 1964, Montana; Ph.D., 1967, Montana State; M.D., 1971, Utah.

*RICHARD B. STEWART, 1969, Professor Emeritus of Mechanical Engineering and Director Emeritus of the Center for Applied Thermodynamic Studies (Department Chair, 1969-74 and 1985-86); B.S.M.E., 1946, M.S., 1948, Iowa; M.E., 1959, Colorado; Ph.D., 1966, Iowa. Emeritus since 1987 (now residing in Moscow).

ROGER C. STEWART, 1978, Adjunct Associate Professor of Geology; Editor, Idaho Geological Survey; B.A., 1967, M.A., 1973, Utah.

*TIMOTHY D. STIEBER, 1991, Assistant Extension Professor of Agriculture; Multi-county Extension Agricultural Agent for the Water Quality Project, Payette; B.S., 1984, M.S., 1990, Wisconsin (Madison).

CHARLES T. STIFF, 1981, Assistant Professor of Forest Resources; B.S., 1970, M.S., 1974, Wisconsin (Madison); Ph.D., 1979, Virginia Polytechnic.

*DAVID STILLER, 1981, Affiliate Professor of Veterinary Medicine and Entomology, Moscow; B.S., 1953, M.S., 1957, Whittier College; Ph.D., 1973, California (Berkeley).

*JANICE K. STIMPSON, 1971 (1985), Extension Professor of Home Economics; Fremont County Extension Home Economist, St. Anthony; B.S., 1970, Wyoming; M.S., 1981, Idaho.

MOLLY W. STOCK, 1974 (1984), Professor of Forest Resources and Computer Science; Chair, Faculty Council, 1992-93; B.A., 1964, M.S., 1965, Connecticut; Ph.D., 1972, Oregon State.

*JOHN R. STOIANOFF, 1989, Affiliate Clinical Professor of Medical Science, Lewiston; M.D., 1971, Oregon.

SHARON K. STOLL, 1980 (1990), Professor of Physical Education; B.S., 1968, Ozarks; M.Ed., 1970, Ph.D., 1980, Kent State.

*ROBERT L. STOLTZ, 1975 (1985), Extension Professor of Entomology, Twin Falls; B.S., 1967, California (Davis); Ph.D., 1973, California (Riverside).

*LEO F. STORM, 1969, Professor Emeritus of English (Department Chair, 1969-73); B.A., 1949, Washington (Seattle); M.A., 1950, Edinburgh; Ph.D., 1958, Washington (Seattle). Emeritus since 1986 (now residing in Lake Havasu City, Ariz.).

KAREL J. STOSZEK, 1975 (1979), Professor of Forest Resources; Diplom Forest Ingenieur, 1959, Agricultural University (Brno, Czechoslovakia); Ph.D., 1973, Oregon State.

DANA L. STOVER, 1990, Assistant Professor of Human Resources Management; B.A., 1983, M.A., 1985, Ph.D., 1991, Washington State.

*CLYDE H. STRANAHAN, 1943 (1971), Extension Professor Emeritus; B.S.Ag., 1940, Idaho. Emeritus since 1974 (now residing in Coeur d'Alene).

*WILLIAM STRAND, 1989, Affiliate Assistant Professor of Chemical Engineering, Moscow; B.S., 1981, Washington State; M.S., 1983, Ph.D., 1989, Idaho.

CHARLES R. STRATTON, 1971 (1985), Professor of English; B.S., 1960, Carroll (Wisc.); M.S., 1968, Rensselaer; Ph.D., 1971, Wisconsin (Madison).

*LARRY L. STREEBY, 1980, Affiliate Professor of Forest Resources, Lewiston; B.S., 1965, Iowa State; Ph.D., 1973, Wisconsin.

*GARY L. STRINE, 1990, Affiliate Professor of Vocational Education, Caldwell; B.A., 1959, Iowa; M.S., 1964, Denver; Ph.D., 1978, Idaho.

ROBERT A. STROPE, 1991, Assistant Professor of Military Science; B.B.A., 1988, Boise State.

BERNHARD J. STUMPF, 1988, Associate Professor of Physics; B.S., 1975, Ph.D., 1981, Saarland (Federal Republic of Germany).

JOHN R. STURGUL, 1992, Professor of Mining Engineering; B.S., 1961, Michigan Technological; M.S., 1963, Arizona; Ph.D., 1967, Illinois (Urbana).

*JOHN H. SULLIVAN, 1966 (1986), Professor Emeritus of Foreign Languages and Literatures; B.A., 1949, Oregon; M.A., 1951, Johns Hopkins; Ph.D., 1966, California (Berkeley). Emeritus since 1986 (now residing in Moscow).

BRIAN F. SUMPTION, 1985, Associate Professor of Architecture; B.Arch., 1969, M.Arch., 1971, Virginia Polytechnic.

*PING-TSOONG SUN, 1957 (1978), Professor Emeritus of Engineering Science; B.S.M.E., 1937, Chiao-Tung; M.S.M.E., 1950, Tennessee; P.E. Emeritus since 1978 (now residing in Moscow).

*DONALD W. SUNDERMAN, 1969 (1986), Professor Emeritus of Agronomy; B.S., 1950, M.S., 1951, Ph.D., 1960, Minnesota. Emeritus since 1988 (now residing in Aberdeen).

ROBERT L. SURLLES, 1972 (1987), Professor of Foreign Languages and Literatures (Spanish); B.A., 1967, M.A., 1969, San Diego State; Ph.D., 1974, Southern California.

*CHARLES SUTTON, 1992, Affiliate Assistant Professor of Educational Administration, Moscow; B.S.Ed., 1958, M.Nat.Sc., 1963, Ed.D., 1972, Idaho.

WILLIAM R. SWAGERTY, 1982 (1988), Associate Professor of History; B.A., 1973, Colorado College; Ph.D., 1981, California (Santa Barbara).

MARILYN A. SWANSON, 1979 (1986), Associate Extension Professor of Home Economics; Extension Food Safety Specialist; B.S., 1967, Delaware; M.S., 1969, Wisconsin; Ph.D., 1987, Washington State.

*DOUGLAS N. SWANSTON, 1989, Affiliate Professor of Geology, Juneau, Alaska; B.S., 1960, Michigan; M.A., 1962, Bowling Green State; Ph.D., 1967, Michigan State.

*PAUL SWATSENBARG, 1988, Affiliate Assistant Professor of Special Education, Boise; B.A., 1967, Idaho State; M.Ed., 1969, Utah; Ph.D., 1978, Utah State.

DAN SWENSON, 1992, Assistant Professor of Accounting; B.A., 1978, Memphis State; M.B.A., 1980, Arizona State.

ANNE W. SYLVESTER, 1991, Assistant Professor of Botany; B.S., 1980, M.S., 1982, Ph.D., 1987, Washington.

*JULIE TAMMIVAARA, 1988, Affiliate Associate Professor of Educational Administration, Spokane, Wash.; B.A., 1966, Northwest (Illinois); M.A., 1970, Ph.D., 1975, Stanford.

*DAVID S. TAYLOR, 1989, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Boise; B.S.Ed., 1959, Northern Illinois; M.S., 1961, Southern Illinois; Ph.D., 1969, Michigan State.

*G. CLEVE TAYLOR, 1978 (1987), Professor of Vocational Teacher and Adult Education, Boise Center; B.S., 1974, M.Ed., 1974, Ed.D., 1977, Auburn.

PATRICK R. TAYLOR, 1977 (1985), Professor of Metallurgical Engineering; B.S., 1974, Ph.D., 1977, Colorado School of Mines; P.E.

*ROBERT S. TAYLOR, 1989, Affiliate Associate Professor of Geology, Reno, Nevada; B.S., 1974, Royal School of Mines (London); Ph.D., 1981, Durham (England).

*ROY E. TAYLOR, 1968 (1977), Extension Professor Emeritus of Agricultural Engineering; B.S.Ag.E., 1948, Idaho; M.T.P.S., 1965, Idaho State. Emeritus since 1992 (now residing in Potlatch).

MATT E. TELIN, 1968, Registrar, 1970- (Director of Admissions, 1977-91); B.S.Ed., 1958, Western Montana; M.Ed., 1972, Idaho.

*GEORGE W. TERESA, 1968 (1973), Professor Emeritus of Bacteriology; B.S., 1952, Arkansas (Monticello); M.S., 1955, Arkansas (Fayetteville); Ph.D., 1959, Kansas State. Emeritus since 1990 (now residing in Moscow).

BLAINE W. TEW, 1992, Assistant Professor of Mechanical Engineering; B.S., 1984, Utah State; M.S., 1986, Ph.D., 1988, Brigham Young.

DONALD C. THILL, 1980 (1990), Professor of Weed Science; B.S., 1972, M.S., 1976, Washington State; Ph.D., 1979, Oregon State.

*CHARLES M. THOMAS, 1959 (1979), Extension Professor Emeritus of Agriculture; B.S.Ag., 1959, Idaho; M.Ex., 1971, Washington State. Emeritus since 1990 (now residing in Moscow).

DENE K. THOMAS, 1984 (1990), Associate Professor of English; Associate Dean, College of Letters and Science, 1990-; Director, General Studies Program, 1990-; B.A., 1978, Southwest State; Ph.D., 1984, Minnesota.

GORDON P. THOMAS, 1984 (1991), Associate Professor of English; B.A., 1974, Emory; M.A., 1984, Ph.D., 1985, Minnesota.

*IVAN R. THOMAS, 1989, Affiliate Assistant Professor of Mathematics, Idaho Falls; B.S., 1971, Brigham Young; M.S., 1976, Utah State; Ph.D., 1980, Wyoming.

*LINDA S. THOMASHOW, 1986, Affiliate Professor of Plant Pathology, Pullman, Wash.; B.S., 1968, Massachusetts; Ph.D., 1979, California (Los Angeles).

CHARLES J. THOMPSON, 1965 (1968), Assistant Professor of Physical Education; B.S.P.E., 1962, Wisconsin State (La Crosse); M.S.P.E., 1965, Indiana.

CURTIS N. THOMSON, 1991, Assistant Professor of Geography; B.A., 1980, M.A., 1984, B.S., 1987, Ph.D., 1990, Utah.

*GARY H. THORGAARD, 1983, Affiliate Professor of Fishery Resources, Pullman, Wash.; B.S., 1973, Oregon State; Ph.D., 1977, Washington.

JOHN H. THORNGATE III, 1993, Assistant Professor of Food Sensory Evaluation; B.S., 1981, Centre College of Kentucky; Ph.D., 1992, California (Davis).

*MICHAEL K. THORNTON, 1987 (1990), Assistant Extension Professor of Plant Science, Parma; B.S., 1981, Washington State; M.S., 1983, Colorado State; Ph.D., 1990, Idaho.

*TERRY A. TINDALL, 1989, Assistant Extension Professor of Soils, Twin Falls; B.S., 1977, Brigham Young; M.S., 1979, Ph.D., 1983, Oklahoma State.

*FRED H. TINGEY, 1979, Professor of Engineering Science; Director of the UI/Idaho Falls Center for Higher Education, 1979-; B.S., 1947, Utah State; M.S., 1949, Ph.D., 1951, Washington (Seattle).

*EDWIN W. TISDALE, 1947 (1953), Professor Emeritus of Range Resources (Associate Director, Forest, Wildlife and Range Experiment Station, 1953-74); B.S., 1930, Manitoba; M.S., 1945, Ph.D., 1948, Minnesota. Emeritus since 1975 (now residing in Moscow).

*ANDREW E. TOELLE, 1992, Assistant Extension Professor of Agriculture; Bonneville County Extension Agricultural Agent, Idaho Falls; B.A., 1989, M.S., 1991, Auburn.

RICHARD A. TOELLE, 1986, Assistant Professor of Production Management; B.A., 1971, Arizona; M.B.A., 1981, Ph.D., 1988, Oklahoma.

*MICHAEL E. TOMLIN, 1992, Associate Professor of Educational Administration, Boise; B.S., 1976, Southern Nazarene; M.Ed., 1979, Central Oklahoma State; Ed.D., 1988, Wyoming.

JONALEA R. TONN, 1980, Affiliate Professor of Forest Resources, Moscow; B.S., 1974, M.F., 1976, Idaho.

*JAMES E. TOPP, 1986, Affiliate Assistant Professor of Special Education, Coeur d'Alene; B.S., 1968, Xavier (Ohio); M.S., 1971, Ph.D., 1975, Ohio.

*ARPAD E. TORMA, 1990, Affiliate Professor of Chemical Engineering, Idaho Falls; Dipl., 1960, Swiss Federal Institute of Technology; M.S., 1962, Laval (Quebec); Ph.D., 1970, British Columbia.

*DeVERE TOVEY, 1938-41, 1941-43, 1959 (1978), Extension Professor Emeritus; B.S.Ag., 1937, Idaho. Emeritus since 1978 (now residing in Preston).

WELDON R. TOVEY, 1962-64, 1965 (1976), Professor of Engineering Science; Associate Dean, College of Engineering, 1971-; B.S.M.E., 1961, M.Ed., 1964, Idaho; Ed.D., 1971, Brigham Young.

*DALE E. TOWEILL, 1990, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Boise; B.S., 1973, Oregon State; M.S., 1976, Texas A & M; Ph.D., 1987, Oregon State.

ANTHONY TRENT, 1988, Assistant Professor of Agronomy; Crop Management Expert Support Systems Analyst; B.S., 1956, U.S. Naval Academy; M.S., 1980, Ph.D., 1984, Mississippi State.

ROBERT R. TRIPEPI, 1984 (1991), Associate Research Professor of Physiology and Horticulture; B.S., 1977, Ohio State; M.S., 1980, Pennsylvania State; Ph.D., 1984, Purdue.

THOMAS TROTTER, 1990, Associate Professor of Counseling; B.A., 1969, M.Ed., 1975, Washington; Ed.S., 1980, Ph.D., 1981, Idaho.

*THOMAS J. TROUT, 1982, Affiliate Professor of Agricultural Engineering, Soil and Water Management Research Unit, USDA, Kimberly; B.S., 1972, M.S., 1975, Ph.D., 1979, Colorado State.

WILLIAM R. TRUMBLE, 1987, Assistant Professor of Biochemistry; B.S., 1976, Washington State; Ph.D., 1981, Texas (Dallas).

JERRY L. TUCHSCHERER, 1982, Associate Professor of Vocational Teacher and Adult Education; Division Director, 1988-; Adjunct Associate Professor of Counseling; B.S., 1969, Minot State; M.S., 1971, North Dakota State; Ph.D., 1978, Colorado State.

*ROBERT W. TULIN, 1989, Affiliate Clinical Professor of Medical Science, Colfax, Wash.; M.D., 1965, Washington (Seattle).

*MASON TUNG, 1962 (1970), Professor Emeritus of English; A.B., 1951, Taiwan; M.A., 1958, Baylor; Ph.D., 1962, Stanford. Emeritus since 1990 (now residing in Moscow).

*BLOSSOM TURK, 1992, Affiliate Assistant Professor of Vocational Teacher and Adult Education, Boise; B.S.Ed., 1956, City University of New York; M.A., 1968, San Francisco State; Ed.D., 1978, Idaho.

*BETTY J. TURNER, 1975 (1978), Extension Professor Emerita of Home Economics; B.S., 1951, Lindenwood; M.S., 1969, Ed.D., 1976, Idaho. Emerita since 1988 (now residing in Boise).

*ROBERT L. TURNER, 1957 (1990), Professor Emeritus of Mechanical Engineering; B.S.Ed., 1958, M.Ed., 1960, Idaho. Emeritus since 1990 (now residing in Boise).

DONALD E. TYLER, 1988, Assistant Professor of Anthropology; Acting Head, Department of Sociology and Anthropology, 1991-; B.A., 1976, M.A., 1983, Ph.D., 1987, Washington State.

*FENTON H. TYLER, 1986, Affiliate Professor of Computer Science, Idaho Falls; B.S., 1962, Brigham Young; M.S., 1972, Idaho.

*EDMUND E. TYLUTKI, 1956 (1991), Professor Emeritus of Botany; B.S., 1951, M.S., 1952, Illinois; Ph.D., 1955, Michigan State. Emeritus since 1991 (now residing in Moscow).

JOSEPH J. ULLIMAN, 1974 (1979), Professor of Forest Resources; Department Head, 1989-; B.A., 1958, Dayton; M.F., 1968, Ph.D., 1971, Minnesota.

*PHILIP C. ULMER, 1978, Affiliate Professor of Veterinary Medicine, Weiser; D.V.M., 1970, Oklahoma State.

GLEN G. UTZMAN, 1974 (1979), Associate Professor of Accounting (Department Head, 1982-84); B.A., 1961, Washington State; J.D., 1964, Idaho; C.P.A.

ANN VAIL, 1991, Assistant Professor of Home Economics; B.S., 1981, Colorado; M.S., 1988, Ph.D., 1991, Ohio.

*VICTOR VAN BALLEMBERGHE, 1984, Affiliate Professor of Wildlife Resources, Fairbanks, Alaska; B.S., 1966, SUNY (Oneonta); M.S., 1970, Ph.D., 1972, Minnesota.

KAREN J. VAN HOUTEN, 1969 (1980), Assistant Professor of Computer Science; Chair, Faculty Council, 1990-91; B.S., 1967, M.S., 1970, Ph.D., 1980, Idaho.

DAVID VAN OVER, 1991, Assistant Professor of Information Systems; B.A., 1975, M.A., 1976, M.B.A., 1977, Ph.D., 1988, Houston.

LINDA VAN POLEN, 1991, Assistant Professor of Theatre Arts; B.A., 1980, San Jose State; M.F.A., 1985, Illinois (Urbana).

*RUTH E. VAN SLYKE, 1974 (1990), Extension Professor of Home Economics; Nez Perce County Extension Home Economist, Lewiston; B.S., 1968, Idaho; M.S., 1988, Oregon State.

*V. VENKATESH, 1984, Affiliate Professor of Chemical Engineering, Dayton, Ohio; B.Tech., 1971, Indian Institute of Technology (New Delhi); M.S., 1974, Ph.D., 1976, Idaho.

*HERBERT J. VENT, 1960 (1965), Professor Emeritus of Education; B.S., 1941, M.S. Geog., 1942, Oregon; Ed.D., 1949, Stanford. Emeritus since 1980 (now residing in Peoria, Ariz.).

DAVID L. VERBYLA, 1990, Assistant Professor of Forest Resources; B.S., 1979, Rutgers; M.S., 1982, Michigan State; Ph.D., 1988, Utah State.

DEAN L. VETTRUS, 1961, General Manager, ASUI and Student Union; B.S., 1961, B.A., 1961, Denver.

*ROGER J. VESETH, 1984-90, 1991 (1991), Affiliate Assistant Professor of Conservation Tillage, Moscow; B.S., 1975, M.S., 1981, Montana State.

SHELDON A. VINCENTI, 1973 (1977), Professor of Law; Dean, College of Law, 1983-; A.B., 1960, J.D., 1963, Harvard.

*ROBERT V. VODRASKA, 1987, Associate Extension Professor of Agriculture; Twin Falls County Extension Agricultural Agent, Twin Falls; B.S., 1965, M.S., 1966, Kansas State.

MARGRIT von BRAUN, 1980 (1981), Assistant Professor of Chemical Engineering; B.S., 1974, Georgia Institute of Technology; M.Engr., 1980, Idaho; Ph.D., 1989, Washington State; P.E.

*IAN H. von LINDERN, 1981, Affiliate Professor of Chemical Engineering, Moscow; B.S., 1971, Carnegie Mellon; M.S., 1973, M.Ph., 1979, Ph.D., 1980, Yale.

RAY von WANDRUSZKA, 1987 (1992), Associate Professor of Chemistry; B.Sc., 1972, B.Sc.Honours, 1973, Witwatersrand (Johannesburg); Ph.D., 1977, Wyoming.

*JACK R. VOORHEES, 1969, Professor of Naval Science and Department Head Emeritus (Department Head, 1969-75); B.A., 1958, Washington (Seattle); M.A., 1964, George Washington. Emeritus since 1975 (now residing in Oak Harbor, Wash.).

MARY H. VOXMAN, 1982 (1985), Senior Instructor in Mathematics; B.A., 1963, M.S., 1966, Iowa.

WILLIAM L. VOXMAN, 1970 (1977), Professor of Mathematics; B.A., 1960, M.S., 1964, Ph.D., 1968, Iowa.

FRANCIS G. WAGNER, 1992, Professor of Forest Products; B.S., 1972, Minnesota; M.S., 1974, Ph.D., 1982, Mississippi State.

CHIEN M. WAI, 1969 (1978), Professor of Chemistry; B.S., 1960, Taiwan; Ph.D., 1967, California (Irvine).

LILY C. WAI, 1970 (1980), Documents Librarian with rank of Associate Professor; B.A., 1960, Tunghai (Taiwan); M.L.S., 1965, Illinois; M.A., 1979, Idaho.

*DONALD G. WALDHALM, 1960 (1982), Research Professor Emeritus of Veterinary Science; B.A., 1948, M.S., 1950, Minnesota; Ph.D., 1953, Illinois. Emeritus since 1982 (now residing in Caldwell).

*THOMAS R. WALENTA, 1947 (1953), Professor Emeritus of Law; Chair, Faculty Council, 1966-67; B.S., 1926, Idaho; LL.B., 1933, Minnesota; LL.M., 1953, J.S.D., 1960, Illinois. Emeritus since 1967 (now residing in Grangeville).

DAVID J. WALKER, 1977 (1987), Professor of Agricultural Economics; Agricultural Economist; Faculty Ombudsman, 1992-; Chair, Faculty Council, 1985-86; B.A., 1965, Ohio Wesleyan; M.A., 1966, Columbia; Ph.D., 1977, Iowa State.

*DELBERT J. WALKER, 1950 (1978), Professor Emeritus of Mathematics; A.B., 1935, Nebraska State; M.A., 1947, Nebraska. Emeritus since 1978 (now residing in Grangeville).

*DEWARD E. WALKER, JR., 1967-69, 1971, Affiliate Professor of Anthropology, Boulder, Colo.; B.A., 1961, Ph.D., 1964, Oregon.

DIANE B. WALKER, 1968 (1984), Professor of Dance; Director, Center for Dance; B.F.A., 1960, Boston Conservatory; M.Ed., 1968, Colorado State.

GRIFFIN H. WALKER, 1991, Adjunct Assistant Professor of Food Science and Toxicology; Organic Group Leader, UI Analytical Laboratory; B.S., 1976, Ph.D., 1982, Wayne State (Detroit).

*JACK R. WALKER, 1978, Affiliate Professor of Veterinary Medicine, Weiser; B.S., 1971, Idaho; D.V.M., 1974, Colorado State.

*JOHN W. WALKER, 1992, Affiliate Assistant Professor of Range Resources, Dubois; B.S., 1976, Texas A&M; M.S., 1981, Colorado State; Ph.D., 1988, Texas A&M.

*NORMAN L. WALKER, 1969 (1988), Extension Professor of Agriculture; Ada County Extension Agricultural Agent, Boise; B.S.An.Hus., 1955, Idaho; M.A., 1975, Northern Colorado.

*RICHARD W. WALL, 1990, Assistant Professor of Electrical Engineering, Boise; B.S., 1968, Pennsylvania State; M.Engr., 1980, Ph.D., 1989, Idaho.

ALFRED T. WALLACE, 1967 (1971), Professor of Civil Engineering (sanitary engineering); B.S., 1959, Rutgers; M.S., 1960, Ph.D., 1965, Wisconsin; P.E., Diplomate AAEE.

*GEORGE N. WALLACE, 1991, Affiliate Associate Professor of Resource Recreation and Tourism, Fort Collins, Colo.; B.A., 1967, Colorado State; M.A., 1971, New Mexico; Ph.D., 1987, Colorado State.

JERRY N. WALLACE, 1974, Financial Vice President/Bursar, 1990-; B.S., 1971, B.S., 1974, M.B.A., 1984, Idaho.

*RICHARD L. WALLACE, 1967 (1984), Professor Emeritus of Zoology; B.S., 1956, Washington State; M.S., 1961, Ph.D., 1969, Oregon State. Emeritus since 1991 (now residing in Moscow).

*KATHERINE M. WALLENHAUPT, 1973 (1983), Extension Professor of Home Economics; Kootenai County Extension Home Economist, Coeur d'Alene; B.A., 1962, Northwest Nazarene; M.A.T.H.Ed., 1968, Idaho.

ROGER P. WALLINS, 1970 (1984), Professor of English; Associate Dean, College of Graduate Studies, 1988- (Assistant Dean, 1983-88); Chair, Faculty Council, 1979-80; A.B., 1962, City College of New York; M.A., 1964, Ph.D., 1972, Ohio State.

CHARLES W. WALTON, 1961 (1974), Professor of Music (voice, opera workshop, history); B.Mus.Ed., 1956, B.M., 1960, M.M., 1961, Michigan.

NANCY J. WANAMAKER, 1976 (1987), Associate Professor of Home Economics; B.A., 1964, Michigan; M.A., 1974, Washington State; Ph.D., 1986, Virginia Polytechnic Institute.

*YA-YEN WANG, 1960 (1992), Professor Emerita of Computer Science; B.S., 1956, Villa Maria; M.S., 1958, Florida; Ph.D., 1965, Idaho. Emerita since 1992 (now residing in Moscow).

*ALTON C. S. WARD, 1965 (1984), Associate Professor of Veterinary Medicine, Caldwell; B.S., 1966, College of Idaho; M.S., 1972, Idaho; Ph.D., 1980, Iowa State.

*THOMAS WARD, 1988, Affiliate Assistant Professor of Bacteriology, Idaho Falls; B.A., 1968, California (Berkeley); M.A., 1969, Ph.D., 1976, Harvard.

*MALCOLM WARD-CLOSE, 1992, Affiliate Professor of Metallurgy, Farnborough, England; B.Sc., 1974, Ph.D., 1977, Birmingham.

*RICHARD E. WARNER, 1966, Professor Emeritus of Mechanical Engineering (Associate Director, Engineering Experiment Station, 1966-74); A.B., 1942, Miami (Ohio); M.Sc.Ch.E., 1948, Ph.D., 1951, Ohio State; P.E. Emeritus since 1986 (now residing in Moscow).

*CALVIN C. WARNICK, 1947 (1957), Professor Emeritus of Civil Engineering; B.S.C.E., 1943, Utah State; M.S.C.E., 1947, Wisconsin; Diploma, 1970, International Inst. of Hyd. Engr. (Delft); P.E. Emeritus since 1983 (now residing in Moscow).

*NORMAN D. WATERS, 1957 (1981), Research Professor Emeritus of Entomology; B.S., 1949, Ph.D., 1955, California (Berkeley). Emeritus since 1981 (now residing in Parma).

*LAWRENCE WATSON, 1990, Affiliate Assistant Professor of Educational Administration, Twin Falls; B.S., 1965, M.S., 1967, Idaho State; Ph.D., 1990, Idaho.

*ROSCOE D. WATSON, 1945 (1971), Professor Emeritus of Plant Science; B.S., 1935, M.S., 1937, Utah State; Ph.D., 1942, Cornell. Emeritus since 1977 (now residing in Moscow).

*DAVID W. WATTENBARGER, 1969 (1992), Extension Professor of Agriculture; Boundary County Extension Agricultural Agent, Bonners Ferry; B.S., 1964, Tennessee Technological; M.S., 1966, Tennessee.

FREDERICK J. WATTS, 1968 (1973), Professor of Civil Engineering (hydraulics, fluids, river mechanics); Department Chair, 1975-81, 1990-; B.S.C.E., 1954, Iowa State; M.S.C.E., 1964, Ph.D., 1968, Colorado State; P.E./L.S.

HILARY N. WEAVER, 1988 (1989), Senior Instructor in Social Work; B.A., 1984, Antioch; M.S., 1986, Columbia.

*LINDA I. WEBB, 1980 (1989), Associate Extension Professor of Home Economics; Valley County Extension Home Economist, Donnelly; B.S., 1971, Idaho; M.Ed., 1988, College of Idaho.

*CHARLES A. WEBBERT, 1948 (1981), Head Emeritus, Department of Special Collections and Archives in the University Library, with rank of Professor; B.A., 1937, Washington (Seattle); B.S.L.S., 1940, George Peabody; M.S.L.S., 1947, Illinois. Emeritus since 1981 (now residing in Southbury, Conn.).

*FRED R. WEBER, 1982, Affiliate Professor of International Forestry, Boise; M.S., 1950, Federal Institute of Technology, Zurich.

*GARY A. WEDEMEYER, 1985, Affiliate Professor of Fishery and Wildlife Resources, Seattle; B.S., 1957, M.S., 1963, Ph.D., 1965, Washington.

JERRY L. WEGMAN, 1977 (1983), Associate Professor of Business Law; B.A., 1966, Cornell; Postgraduate Diploma, 1967, London School of Economics and Political Science; J.D., 1970, Columbia.

CLIFFORD F. WEIL, 1992, Assistant Professor of Botany; B.S., 1978, California (Davis); Ph.D., 1984, Cornell.

*PAUL D. WEINGART, 1989, Affiliate Associate Professor of Resource Recreation and Tourism, Bozeman, Mont.; B.S., 1957, Montana State.

*JOHN A. WELHAN, 1990, Adjunct Professor of Geology; Hydrogeologist/Environmental Geologist, Pocatello; B.Sc., 1972, Manitoba; M.Sc., 1974, Waterloo; Ph.D., 1981, California (San Diego).

CHARLES A. WELLNER, 1977, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.S., 1933, Idaho; M.F., 1938, Yale.

*MERLE W. WELLS, 1985-87, 1990, Affiliate Professor of History, Boise; A.B., 1941, College of Idaho; M.A., 1947, Ph.D., 1950, California (Berkeley).

*RICHARD B. WELLS, 1981, Affiliate Professor of Electrical Engineering, Boise; B.S.E.E., 1975, Iowa State; M.S.E.E., 1978, Stanford; Ph.D., 1985, Idaho.

*J. FREDERICK WELTZIN, 1944, Professor of Education and Dean Emeritus (Dean, College of Education, 1944-63); B.A., 1925, M.S.Ed., 1927, Ph.D., 1929, Hum.D., 1958, North Dakota. Emeritus since 1967 (now residing in Spokane, Wash.).

JOHN T. WENDERS, 1981, Professor of Economics; A.B., 1958, Amherst; M.A., 1960, Hawaii; M.A., 1964, Ph.D., 1967, Northwestern.

DAVID L. WENNY, 1979 (1991), Extension Professor of Forest Regeneration; Forest Nursery Manager; B.S.M.E., 1963, Northrop; B.S., 1975, M.S., 1975, Humboldt State; Ph.D., 1981, Idaho.

*RICHARD B. WESCOTT, 1978, Affiliate Professor of Veterinary Medicine, Pullman, Wash.; B.S., 1954, Wisconsin; D.V.M., 1958, Minnesota; M.S., 1964, Ph.D., 1965, Wisconsin.

*DARRELL WESENBURG, 1969, Affiliate Professor of Agronomy, USDA, Aberdeen; B.S., 1962, M.S., 1965, Ph.D., 1968, Wisconsin.

- DENNIS D. WEST, 1979 (1981), Associate Professor of Foreign Languages and Literatures (Spanish); B.A., 1964, Ohio; A.M., 1966, Ph.D., 1971, Illinois.
- JOAN M. WEST, 1981 (1987), Associate Professor of Foreign Languages and Literatures (French); B.A., 1964, Kalamazoo College; M.A., 1966, Illinois; M.A., 1972, Ph.D., 1981, Indiana.
- ROBERT C. WEST, 1991, Affiliate Assistant Professor of Special Education, Moscow; B.S., 1963, M.S., 1969, Utah; Ph.D., 1988, Idaho.
- *ARNOLD S. WESTERLUND, 1948 (1970), Professor Emeritus of Art; B.A., 1938, M.A., 1939, Idaho. Emeritus since 1976 (now residing in Moscow).
- *DALE T. WESTERMANN, 1970, Affiliate Professor of Soil Science, Snake River Conservation Research Center, USDA, Kimberly; B.S., 1963, Colorado State; M.S., 1965, Ph.D., 1968, Oregon State.
- *MILTON B. WESTON, 1944 (1974), Extension Professor Emeritus; B.S., 1932, Utah State. Emeritus since 1974 (now residing in Blackfoot).
- WILLIAM C. WHARTON, 1975 (1983), Professor of Music (cello, bass, chamber music, theory); B.S., 1960, Tulane; B.M., 1962, Ohio State; M.Mus., 1965, Oklahoma; D.M.A., 1970, Arizona.
- *LEE WHEELER, 1983, Affiliate Professor of Chemical Engineering, Portland, Oregon; B.S., 1970, Idaho.
- *STERLING R. WHITAKER, 1985 (1992), Affiliate Associate Professor of Electrical Engineering, Albuquerque, New Mex.; B.S.E.E., 1977, Brigham Young; M.S., 1983, Ph.D., 1988, Idaho.
- *DONALD R. WHITE, 1968 (1990), Extension Professor Emeritus of Forest Resources; A.B., 1953, Colby; B.S., 1958, Oregon State. Emeritus since 1991 (now residing in Coeur d'Alene).
- FLORENCE A. WHITE, 1978 (1988), Associate Professor of Education; B.S.Ed., 1962, Langston; M.S.Ed., 1975, Portland State; Ed.D., 1978, Idaho.
- M. SUSIE WHITTINGTON, 1991, Assistant Professor of Agricultural and Extension Education and of Vocational Teacher and Adult Education; B.S., 1982, M.S., 1988, Ph.D., 1991, Ohio State.
- *JEFFERY K. WHYATT, 1989, Affiliate Assistant Professor of Mining Engineering, Spokane, Wash.; B.S., 1982, M.S., 1986, Idaho.
- HOLLY A. WICHMAN, 1988, Assistant Professor of Zoology; B.Sci., 1978, Eastern Montana; Ph.D., 1983, Wesleyan.
- *MARCIA WICKLOW-HOWARD, 1987, Affiliate Professor of Bacteriology and Biology, Boise; B.A., 1965, M.A., 1967, San Francisco State; Ph.D., 1971, Oregon State.
- *G. BRUCE WIERSMA, 1987, Affiliate Professor of Forest Resources, Idaho Falls; B.S., 1964, Maine; M.F., 1965, Yale; Ph.D., 1968, SUNY (Syracuse).
- *ALVIN C. WIESE, 1946, Professor Emeritus of Biochemistry (Head, Department of Agricultural Biochemistry and Soils, 1946-72); B.S., 1935, M.S., 1937, Ph.D., 1940, Wisconsin. Emeritus since 1978 (now residing in Moscow).
- MAURICE V. WIESE, 1978, Research Professor of Plant Pathology; Chair of Plant Pathology, 1987-; B.S., 1963, M.S., 1965, Nebraska; Ph.D., 1969, California (Davis).
- *ROBERT V. WIGGINS, 1991, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1975, New Mexico.
- *J. ROSS WIGHT, 1984, Affiliate Professor of Range Resources, Boise; B.S., 1953, M.S., 1956, Utah State; Ph.D., 1966, Wyoming.
- *BRADFORD P. WILCOX, 1990, Affiliate Associate Professor of Range Resources, Boise; B.S., 1978, M.S., 1982, Texas Tech; Ph.D., 1986, New Mexico State.
- GERALD A. WILLETT, JR., 1977 (1978), Associate Professor of Civil Engineering; B.S.C.E., 1959, M.S.C.E., 1967, Montana State; P.E./L.S.
- CHRISTOPHER J. WILLIAMS, 1992, Assistant Professor of Statistics; B.S., 1980, Alaska; M.S., 1983, Rutgers; Ph.D., 1988, Georgia.
- DORIS K. WILLIAMS, 1983, Professor of Home Economics; Gerontology Specialist (Director, School of Home Economics, 1983-86); B.S., 1948, M.A., 1965, Ohio; Ph.D., 1971, Ohio State.
- *GEORGE A. WILLIAMS, 1957 (1965), Professor of Geological Engineering and Department Head Emeritus (Head, Department of Geology, 1965-83; Director, Idaho Mining and Mineral Resources Research Institute, 1983-88); Chair, Faculty Council, 1986-87; B.S., 1943, Texas (El Paso); Ph.D., 1951, Arizona. Emeritus since 1988 (now residing in Oak View, Calif.).
- J. GARY WILLIAMS, 1973 (1988), Professor of English; Department Chair, 1986-; A.B., 1969, Washington (St. Louis); M.A., 1972, Ph.D., 1973, Cornell.
- *LARRY G. WILLIAMS, 1956-73, 1975 (1980), Professor Emeritus of Agricultural Engineering; B.S.Ag.E., 1956, M.S.Ag.E., 1959, Idaho; P.E./L.S. Emeritus since 1990 (now residing in Post Falls).
- *LEWIS M. WILLIAMS, 1934, Extension Professor Emeritus; B.S., 1925, Idaho. Emeritus since 1967 (now residing in Boise).
- RICHARD V. WILLIAMS, 1989, Associate Professor of Chemistry; B.Sc.(Hons.), 1975, Leeds (England); Ph.D., 1978, Cambridge (England).
- ROY E. WILLIAMS, 1966 (1970), Professor of Hydrogeology; Hydrogeologist; B.S., 1961, M.A., 1963, Indiana; Ph.D., 1966, Illinois.
- HENRY WILLMES, 1969 (1980), Professor of Physics; Department Chair, 1975-83, 1989-; B.S., 1961, M.A., 1962, Ph.D., 1966, California (Los Angeles).
- *DALE O. WILSON, JR., 1986, Assistant Professor of Seed Physiology, Parma; B.S., 1977, Wisconsin; M.S., 1983, Ph.D., 1986, Ohio State.
- *ESTHER H. WILSON, 1963 (1976), Extension Professor Emerita; B.S., 1936, Framingham State; M.S., 1949, Washington State. Emerita since 1979 (now residing in Moscow).
- *JAMES B. WILSON, 1984 (1991), Associate Extension Professor of Agriculture; Kootenai County Extension Agricultural Agent, Coeur d'Alene; B.S., 1980, M.S., 1982, Nebraska (Lincoln).
- LAURIE J. WILSON, 1991, Psychologist, Student Counseling Center, with rank of Assistant Professor; Adjunct Assistant Professor of Counseling; B.A., 1984, Montana; M.S., 1989, Ph.D., 1991, Washington State.
- *LUCIA L. WILSON, 1950 (1972), Extension Professor Emerita; B.S.H.Ec., 1936, Idaho. Emerita since 1972 (now residing in Boise).
- *ROBERT E. WILSON, 1988, Affiliate Assistant Professor of Mechanical Engineering, Idaho Falls; B.S., 1963, M.S., 1966, California (Los Angeles); Ph.D., 1974, Washington.
- PAUL G. WINDLEY, 1992, Professor of Architecture; Dean, College of Art and Architecture, 1992-; B.S.Arch., 1967, Idaho State; B.Arch., 1969, Colorado; M.Arch., 1970, D.Arch., 1972, Michigan.
- PHILLIP J. WINDLEY, 1990, Assistant Professor of Computer Science; B.S., 1982, Idaho; M.S., 1988, Ph.D., 1990, California (Davis).
- *ROBERT A. WINFREE, 1991, Affiliate Associate Professor of Animal Science, Hagerman; B.S., 1975, Iowa State; M.S., 1979, Ph.D., 1983, Texas A & M.
- *FRED H. WINKLER, 1955 (1969), Professor Emeritus of History and Political Science; A.B., 1947, M.A., 1948, Florida; Ph.D., 1957, Northwestern. Emeritus since 1983 (now residing in Moscow).
- *HERBERT A. WINNER, 1939 (1946), Professor of Agricultural Education and Department Head Emeritus (Head, Department of Agricultural Education, 1945-68; Assistant Dean, College of Agriculture, 1947-54); B.S., 1927, Montana State; M.S., 1939, Iowa State. Emeritus since 1968 (now residing in Tucson, Ariz.).
- *MALCOLM WINTER, 1992, Affiliate Clinical Professor of Medical Science, Lewiston; M.D., 1981, Washington School of Medicine.
- *JAMES R. WINTON, 1989, Affiliate Associate Professor of Fish and Wildlife Resources, Seattle, Wash.; B.S., 1964, Oregon; B.A., 1967, Colorado; Ph.D., 1981, Oregon State.
- *ALMA H. WINWARD, 1982, Affiliate Professor of Range Resources, Ogden, Utah; B.S., 1966, Utah State; Ph.D., 1970, Idaho.
- *ELIZABETH E. STEVENSON WISE, 1966 (1977), Professor Emerita of Foreign Languages and Literatures (Associate Dean, College of Letters and Science, 1971-78; Assistant Coordinator of Research, 1973-78; Chair, Faculty Council, 1977-78); B.A., 1935, Vassar; Ph.D., 1939, Yale; M.A., 1969, Trinity. Emerita since 1979 (now residing in Hanover, New Hamp.).
- RUSSELL V. WITHERS, 1961 (1972), Professor of Agricultural Economics; Agricultural Economist; B.S., 1957, M.S., 1958, Utah State; Ph.D., 1962, Cornell.
- *SHARLENE WOFFINDEN, 1984 (1988), Assistant Extension Professor of Home Economics; Bear Lake County Extension Home Economist, Paris; B.S., 1980, Brigham Young; M.S., 1983, Utah State.
- *MARY L. WOLF, 1984 (1990), Associate Extension Professor of Home Economics; Madison County Extension Home Economist, Rexburg; B.S., 1960, Utah State; M.A.T., 1973, Washington State.
- *VIRGINIA WOLF, 1964 (1982), Professor Emerita of Physical Education; B.A., 1946, Earlham; M.S., 1950, Colorado. Emerita since 1982 (now residing in Port Townsend, Wash.).
- BRUCE G. WOLLENBERG, 1989, Affiliate Professor of Religious Studies, Idaho School of Religion, Moscow; B.A., 1965, Concordia Senior College; M.A., 1975, Indiana; M.Div., 1969, Concordia Seminary; Ph.D., 1986, California (Santa Barbara).
- JASON D. WONG, 1992, Assistant Professor of Naval Science; B.S., 1987, U.S. Naval Academy.
- *MARY LEE WOOD, 1964 (1986), Extension Professor of Home Economics; Extension 4-H Youth Specialist, Caldwell; B.S.Ag., 1953, California State (Fresno); M.Ed., 1975, College of Idaho.
- SCOTT A. WOOD, 1992, Associate Professor of Geochemistry; B.A., 1980, Hamilton; M.A., 1982, Ph.D., 1985, Princeton.
- DAVID M. WOODALL, 1992, Professor of Nuclear Engineering; Associate Dean, College of Engineering, 1992-; B.A., 1967, Hendrix; M.S., 1968, Columbia; Ph.D., 1976, Cornell.
- *CARL R. WOODBURN, JR., 1985, Affiliate Professor of Veterinary Medicine, Caldwell; B.S., 1977, D.V.M., 1981, Washington State.

*GEORGE W. WOODBURY, 1935-43, 1948 (1949), Professor Emeritus of Horticulture; B.S., 1927, M.S., 1931, Michigan State; Ph.D., 1943, Cornell. Emeritus since 1969 (now residing in Moscow).

*KATHRYN S. WOODBURY, 1953 (1968), Professor Emerita of Foreign Languages; B.A., 1924, Elmira; M.S., 1930, Maine. Emerita since 1968 (now residing in Moscow).

GORDON L. WOODS, 1987 (1988), Professor of Veterinary Science (Department Head and Director, WOI Regional Program in Veterinary Medical Education, 1988-90); B.S., 1974, Idaho; D.V.M., 1978, Colorado State; M.S., 1982, Ph.D., 1983, Wisconsin.

WILLIAM P. WOOLSTON, 1973 (1983), Professor of Photography; Adjunct Professor of Art; A.B., 1967, Princeton; M.F.A., 1973, School of the Art Institute (Chicago).

*EDWARD C. WOOLUMS, 1962 (1980), Professor Emeritus of Education; B.A., 1953, Ed.M., 1955, Ed.D., 1966, Colorado. Emeritus since 1991 (now residing in Moscow).

GEORGE T. WRAY, 1969 (1979), Professor of Art; B.S., 1963, Moorhead State; M.F.A., 1969, California College of Arts and Crafts.

LARRY K. WRIGGLE, 1965 (1976), Professor of Education; Adjunct Professor of Art; B.A., 1954, M.Ed., 1960, Eastern Washington State; Ed.D., 1964, Washington State; M.F.A., 1971, Idaho.

*JAMES L. WRIGHT, 1969, Affiliate Professor of Soil Science, Snake River Conservation Research Center, USDA, Kimberly; B.S., 1959, M.S., 1961, Utah State; Ph.D., 1964, Cornell.

R. GERALD WRIGHT, JR., 1980 (1989), Professor of Wildlife and Range Resources; B.S., 1965, Davis and Elkins; M.S., 1969, Ph.D., 1972, Colorado State.

*RANDY WRIGHT, 1988, Affiliate Associate Professor of Physics, Idaho Falls; B.S., 1969, Ph.D., 1973, Utah.

*STEPHEN D. WYATT, 1990, Affiliate Associate Professor of Plant Pathology, Pullman, Wash.; B.S., 1968, California (Davis); Ph.D., 1973, Kentucky.

WILLIAM R. WYKOFF, 1977, Affiliate Professor of Forest Resources, U.S. Forest Service, Moscow; B.S., 1970, Minnesota; M.S., 1975, Washington State.

MARK F. YAMA, 1987, Assistant Professor of Psychology; B.A., 1975, Oberlin; Ph.D., 1979, Indiana.

WEI JIANG YEH, 1990, Associate Professor of Physics; B.S., 1967, University of Science and Technology of China; M.A., 1981, Ph.D., 1984, SUNY (Stony Brook).

JEFFREY J. YEO, 1989, Adjunct Assistant Professor of Fish and Wildlife Resources; Research Associate; B.S., 1977, M.S., 1981, Idaho; Ph.D., 1988, Wyoming.

*AMOS YODER, 1974, Borah Distinguished Professor Emeritus of Political Science; B.A., 1942, Ohio Wesleyan; Ph.D., 1949, Chicago. Emeritus since 1991 (now residing in Moscow).

MARTHA C. YOPP, 1986, Associate Professor of Business Education; B.S., 1965, Oregon State; M.S.T., 1971, Portland State; Ed.D., 1982, George Washington.

*DAVID P. YOUNG, 1992, Affiliate Clinical Professor of Medical Science, Moscow; M.D., 1978, Wisconsin.

*FRANK YOUNG, 1947 (1977), Professor of Physical Education and Director of Admissions Emeritus (Director of Admissions, 1960-77); B.S., 1937, Jamestown; M.S., 1947, Oregon. Emeritus since 1977 (now residing in Moscow).

*HAROLD W. YOUNG, 1985, Affiliate Professor of Agricultural Engineering, Boise; B.A., 1967, Fresno State.

JEFFREY L. YOUNG, 1991, Assistant Professor of Electrical Engineering; B.S., 1981, Ohio Northern; M.S., 1984, Ph.D., 1989, Arizona.

*CAROL O. YOUNGSTROM, 1929 (1949), Extension Professor and Associate Director Emeritus, Cooperative Extension Service; B.S.Ag., 1928, Oregon State; M.S.Ag., 1930, Kansas State. Emeritus since 1970 (now residing in Boise).

*DONALD F. YOUTZ, 1953 (1977), Extension Professor Emeritus; B.S., 1937, Wyoming. Emeritus since 1977 (now residing in Twin Falls).

*NEIL R. ZACK, 1986, Affiliate Professor of Chemistry, Idaho Falls; B.S., 1969, Rensselaer Polytechnic; M.S., 1970, Marshall; Ph.D., 1974, Idaho.

*MARY V. ZAEHRINGER, 1953, Research Professor of Home Economics Research and Department Head Emerita (Head, Department of Home Economics Research, 1953-72); B.S., 1946, Temple; M.S., 1948, Ph.D., 1953, Cornell. Emerita since 1976 (now residing in Moscow).

*PETER ZAGER, 1984, Affiliate Professor of Wildlife Resources, Coeur d'Alene; B.S., 1973, M.A., 1976, Western Michigan; Ph.D., 1980, Montana.

*ARTHUR ZALTZMAN, 1989, Affiliate Professor of Agricultural Engineering, Pocatello; B.S., 1960, M.S., 1960, Byelorussian Polytechnical Institute (Minsk, USSR); D.Sc., 1967, Byelorussian Academy of Science (Minsk, USSR).

*CHRISTINA ZAMPICH, 1991, Affiliate Assistant Professor of Counseling, Coeur d'Alene; B.A., 1974, Michigan State; M.A., 1977, Ph.D., 1980, Rosemead.

*JERRY ZAUGG, 1987, Associate Professor of Veterinary Medicine, Caldwell; B.S., 1967, Weber State; M.S., 1971, Ph.D., 1978, Arizona; D.V.M., 1980, Colorado State.

ROBERT S. ZEMETRA, 1984 (1991), Associate Professor of Plant Breeding and Genetics; B.S., 1976, California (Davis); M.S., 1979, Ph.D., 1983, Colorado State.

*FANG ZHANREN, 1988, Affiliate Professor of Geology, Moscow; M.A., 1981, Ph.D., 1985, Chang Chun College of Geology (China).

*JOHN ZIMBELMAN, 1988, Affiliate Instructor in Special Education, Moscow; B.A., 1970, Kearney State; M.A., 1974, Northern Colorado.

*MARTIN J. ZIMMER, 1990, Affiliate Associate Professor of Range Management, Boise; B.S., 1961, Iowa State; M.Ed., 1988, Idaho.

ELISABETH A. ZINSER, 1989, Professor of Psychology; Fourteenth President of the University, 1989-; B.S., 1964, Stanford; M.S., 1966, California (San Francisco); Ph.D., 1972, California (Berkeley); M.S., 1982, Massachusetts Institute of Technology.

DANIEL G. ZIRKER, 1985 (1990), Associate Professor of Political Science; Associate Director, Honors Program, 1992-; B.A., 1974, M.A., 1976, Montana; Ph.D., 1983, Alberta.

Index

- Abbreviations and symbols, 65
- Absence: from final examination, 32; general regulations covering, 36
- Abstract publication fee, 19
- Academic: advising, 20; calendars, 2-3; confidential records, 37; disqualification, 35; Hearing Board, 27; honors, 35; minors, 11, 34; performance, 37; Petitions Committee, 27, 35; probation, 35; procedures, 27; records, 37; regulations, 27; reinstatement, 35; standards and integrity, 37
- Academic credits, high school: required for admission, 13, 14
- Accelerated courses: registration for, 28
- Accident insurance, 16, 18, 22, 36
- Accounting: courses in, 66; curriculum in, 66; degree offered in, 10
- Accreditation, 7
- ACT, 13, 14, 33
- Actuarial science: curricular option in, 158
- Adding courses: fee for, 18; regulation on, 29
- Adjunct faculty members, 208
- Administration: forest resources curricular option in, 133; officers of, 3
- Administrative Hearing Board, 27
- Admission: after disqualification, 35; general regulations and procedures covering, 13; of international students, 16; of lower-division students to upper-division courses, 27; of non-high-school graduates, 13; of students with baccalaureate degrees as undergraduates, 28; of undergraduates to graduate courses, 27, 62; provisional, 14; to accelerated courses, 28; to classes, 27; to College of Art and Architecture, 41; to College of Education, 43; to College of Engineering, 52; to College of Forestry, Wildlife and Range Sciences, 55; to College of Law, 56; to College of Letters and Science, 57; to General Studies Program, 39; to teacher education program, 44; to short courses, 28
- Adult education: courses in, 201
- Advanced placement, 14, 32, 34
- Advanced standing: admission to College of Law with, 56; admission with, 15; fee for, 18
- Advertising: academic minor in, 101; curricular option, 100
- Advising, 20
- Aerospace studies: courses in, 67; programs in, 67
- Affiliate faculty members, 208
- Agribusiness: academic minor in, 71; curricula in, 70, 77; degrees offered in, 10
- Agricultural economics: academic minor in, 71; courses in, 69; curriculum in, 70; degrees offered in, 10
- Agricultural education: courses in, 68; curriculum in, 69; degrees offered in, 10
- Agricultural engineering: courses in, 71; curriculum in, 73; degrees offered in, 10
- Agricultural Experiment Station, 40
- Agricultural extension education: academic minor in, 69
- Agricultural systems management: academic minor in, 73; courses in, 72; curriculum in, 73; degree offered in, 10
- Agriculture: degree offered in, 10; general courses in, 68; general curriculum in, 69

- Course: numbering system, 65; requirements, 33; section changes, 29, 37
- Creative writing emphasis, 115
- Credit(s): by examination, 18, 30, 33, 34; definition of, 28; designations, 65; for graduation, 33; for standing in various classes, 36; limitations, 34; load limitations, 28; reduce number of, 29; registration for fewer than authorized, 28; requirements for full-time students, 36; requirements in UI courses, 33, 34; transfer of, 15, 30; withdrawal limitations, 28; zero, 27
- Criminal justice: academic minor in, 195; courses in, 193; curriculum in, 195; degree offered in, 10

- Crop management: curriculum in, 181; degree offered in, 10
- Crop science: academic minor in, 182; curriculum in, 182; degree offered in, 10
- Cum laude*, 35
- Curricular requirements, 34
- Curriculum: change in, 29
- Dance: academic minor in, 147; courses in, 142; curriculum in, 146; degree offered in, 10; teaching minor in, 47
- "Dead week," 32
- Dean's: list, 35; referral, 35
- Deferred payment of fees, 19
- Deficiencies: admission with, 14
- Degree applications, 37
- Degree requirements: catalog applicable for, 34; for baccalaureate degrees, 33
- Degrees granted, 9
- Departmental special fees, 18
- Dietetics: coordinated program in, 118
- Diploma fee, 18
- Disabilities: services for students with, 21
- Disqualification: academic, 35
- Dissertation: binding fee, 19; publication and microfilming fee, 19
- Doctoral degrees granted, 9
- Dormitories, 19
- Double major, 34
- Dropping courses: fee for, 18; regulation on, 29
- Earth science: degree offered in, 10; teaching major in, 47
- Economics: academic minor in, 108; courses in, 107; curricula in, 108; degrees offered in, 10; teaching minor in, 47; see also agricultural economics
- Ecosystem management: curricular option in, 133
- Education: courses in, 196; curricula in, 198; degrees offered in, 10-11
- Education, College of: admission to, 14, 43; degrees and curricula in, 9-11, 43-44
- Education: State Board of, 3
- Educational administration: courses in, 108; degrees offered in, 10
- Educational Research and Service: Center for, 43
- Elderhostel, 63
- Electrical engineering: courses in, 110; curriculum in, 112; degrees offered in, 10
- Electron Microscopy Center, 9
- Elementary education: curriculum in, 198; degrees offered in, 10
- Eligibility: for financial aid, 22; to reregister, 31, 35, 37
- Employees: credit load limitation for, 29
- Engineering, College of: admission to, 14, 52; degrees and curricula in, 9-11, 53; information on, 52
- Engineering Experiment Station, 53
- Engineering in Boise, 64
- Engineering management: degree offered in, 10
- Engineering science: courses in, 112
- English: academic minor in, 115; core composition requirements in, 15, 33; courses in, 113; curriculum in, 115; degrees offered in, 10; high school units required in, 13; limitation on, 34; proficiency for international students, 16; recommended high school preparation in, 14; teaching majors and minor in, 47
- English as a second language: academic minor in, 115; degree offered in, 10; teaching minor in, 48
- Enrichment Program, 62
- Entomology: academic minor in, 182; courses in, 179; curriculum in, 181; degrees offered in, 10
- Environmental sciences, 57
- Examination(s): absence from final, 32; accommodation of religious observances in administration of, 36; final, 32; for credit by examination, 30; special final, 32
- Expenses, 17
- External study/experience: credits, 25, 32; fee for, 18; credit limitations, 33, 34
- Extramural credit fee, 18
- Faculty members, 208
- Family and consumer sciences: courses in, 115; degree offered in, 10
- Family housing, 20
- Family life education: curricular option in, 117
- Fees: application, 13; deferred payment of, 19; regular student, 17; refund of, 19; room and board, 17; special, 17-19
- Field trips, 36
- Film: see visual communication
- Final examinations, 32
- Finance: curriculum in, 91; degree offered in, 10
- Financial aid, 22
- Fine arts: core requirements for transfer students, 15
- Fishery resources: courses in, 119; curriculum in, 120; degrees offered in, 10
- Food and nutrition: curriculum in, 118; degree offered in, 10
- Food science: curriculum in, 122; degree offered in, 10
- Food science and toxicology: courses in, 121
- Foreign and international politics: academic minor in, 185
- Foreign languages: core requirements for transfer students, 15; curriculum in, 126; degree offered in, 10; high school credits required in, 13; recommended high school preparation in, 14
- Foreign languages and literatures: courses in, 123; see also Chinese, French, German, Greek, Japanese, Latin, Russian, Spanish
- Foreign students: admission of, 16
- Foreign study and travel, 25
- Forest products: academic minor in, 130; courses in, 127; curriculum in, 129; degrees offered in, 10
- Forest resources: courses in, 131; curriculum in, 133; degrees offered in, 10
- Forest, Wildlife and Range Experiment Station, 55
- Forestry, wildlife and range sciences: academic minor in, 134; courses in, 133; degree offered in, 10
- Forestry, Wildlife and Range Sciences, College of: admission to, 14, 54; degrees and curricula in, 9-11, 55; information on, 54
- Fraternities, 20
- French: academic minor in, 126; courses in, 123; curriculum in, 125; degrees offered in, 10; teaching major and minor in, 48
- Fresh Start Program, 35
- Full-time student: credit requirement for, 36
- Galleries, 8
- General-education requirements, 15, 33
- General regulations and procedures, 27
- General requirements for baccalaureate degrees, 15, 33
- General studies: degree offered in, 10; program in, 39
- Genetics: courses in, 134
- Geography: courses in, 135; curricula in, 136-137; degrees offered in, 10; teaching major and minor in, 48
- Geological engineering courses in: 138; curriculum in, 141; degrees offered in, 10
- Geological Survey: Idaho, 59
- Geology: academic minor in, 141; courses in, 139; curriculum in, 141; degrees offered in, 10; teaching minor in, 48
- Geophysics: courses in, 140; degrees offered in, 10
- German: academic minor in, 126; courses in, 124; curriculum in, 125; degrees offered in, 10; teaching major and minor in, 48
- Glaciological and Arctic Sciences Institute, 60
- Grade(s): changes, 31; disqualification because of, 35; explanation of, 30; for graduation, 34; in law courses, 57; raising of, 31; reporting of, 30, 31, 32; requirements for baccalaureate degree, 34
- Grade-point average, 15, 30, 34
- Graduate courses: undergraduate and nonmatriculated enrollment in, 27
- Graduate student: appointee credit-load limitation, 29; housing, 20
- Graduate Studies, College of: admission to, 16, 62; credit load limitation in, 29; degrees granted by, 9; fee, 18; information on, 62; partial enrollment in, 62; programs offered in, 10-11; requirements for full-time registration, 36
- Graduation requirements, 33
- Greek: academic minor in, 126; courses in, 124
- Health and accident insurance, 16, 22
- Health and driver education: teaching minor in, 48
- Health and safety: courses in, 142
- Health education: teaching minor in, 48
- Health service, 18, 22
- History: academic minor in, 150; courses in, 148; curricula in, 149-150; degrees offered in, 10; teaching major and minors in, 48
- Home economics: see family and consumer sciences
- Honorary societies, 7
- Honors: academic, 35; certificate, 61; program, 60
- Horticultural science: curriculum in, 182; degree offered in, 10
- Horticulture: academic minor in, 183
- Housing, 19
- Human resources development: curricular emphasis in, 101
- Human resources management: curriculum in, 91; degree offered in, 10
- Humanities: core requirements in, 15, 34; high school credits required in, 13; recommended high school preparation in, 14
- Hydrology: courses in, 140; degree offered in, 10; see also agricultural engineering courses
- Idaho: Falls Center for Higher Education, 63; Forest, Wildlife and Range Experiment Station, 55; Geological Survey, 59; Mining and Mineral Resource Research Institute, 60; Press, 8; Research Foundation, 9; Water Resources Research Institute, 8
- "In Progress" grades, 30
- Incompletes, 31, 35
- Industrial technology: curriculum in, 206; degree offered in, 10

- Industrial technology education: courses in, 202; curriculum in, 206; degrees offered in, 10; teaching minor in, 49
- Information science: see statistics courses and computer science courses
- Information systems: curriculum in, 91; degree offered in, 10
- Instructors' names: availability of, 37
- Insurance, 16, 18, 22, 36
- Intercollegiate athletics, 24
- Interdisciplinary studies: academic minor in, 150; courses in, 150; curricula in, 150; degrees offered in, 10
- Interior planning and design: courses in, 79; curriculum in, 80; degree offered in, 10
- International programs, 25
- International student: admission of, 16; adviser, 25
- International studies: academic minor in, 152; courses in, 151; curriculum in, 151; degree offered in, 10
- Interpersonal communication: academic minor in, 101
- Japanese: courses in, 124
- Journalism: academic minor in, 101; curricula in, 100; degrees offered in, 10; teaching minor in, 49
- Junior colleges: transfer from, 15, 34
- Junior standing, 36
- Laboratory Animal Research Facility, 9
- Laboratory of Anthropology: Alfred W. Bowers, 58
- Landscape architecture: courses in, 152; curriculum in, 153; degree offered in, 10
- Landscape horticulture: curriculum in, 182; degree offered in, 10
- Late registration fee, 18, 29
- Latin: academic minor in, 126; courses in, 124; curriculum in, 126; degree offered in, 10; teaching major and minor in, 49
- Latin-American studies: curriculum in, 153; degree offered in, 10
- Law: courses in, 155; degree offered in, 10
- Law, College of: admission to, 56; combined degree program, 56; fee, 18; grades in, 30, 57; information on, 56
- Learning disabled students, 21
- Letter designations with course numbers, 65
- Letters and Science, College of: admission to, 14, 57; degrees and curricula in, 9-11; information on, 57; requirements for B.A. and B.S. degrees, 58
- Libraries, 7
- Library science: courses in, 198; teaching minor in, 49
- Limitation: on class size, 37; on credit, 27, 34
- Literature emphasis, 115
- Lower-division students in upper-division courses, 27
- Magna cum laude*, 35
- Major(s): change in, 29; double, 34; offered by the university, 9-11; teaching, 46
- Management: fishery resources curricular option in, 121
- Manufacturing engineering: curriculum in, 160; degrees offered in, 10
- Map, 5
- Marine Corps option, 173
- Marketing: curriculum in, 91; degree offered in, 10
- Marketing education: curriculum in, 206; degree offered in, 10
- Married student housing, 20
- Martin Institute for Peace Studies and Conflict Resolution: courses in, 154
- Master's degrees granted, 9
- Materials and Advanced Processes: Institute for, 8
- Mathematics: academic minor in, 158; core requirements in, 15, 34; courses in, 155; curricula in, 157; degrees offered in, 10; high school units required in, 13; recommended high school preparation in, 14; teaching majors and minors in, 49-50
- Matriculation, 27
- Mechanical engineering: courses in, 159; curriculum in, 161; degrees offered in, 10
- Medical education, 61, 161
- Medical science: courses in, 162
- Medical technology: curricular option in, 85; degree offered in, 10
- Medical withdrawal, 31
- Metallurgical engineering: academic minor in, 166; courses in, 163; curriculum in, 165; degrees offered in, 10; see also metallurgy
- Metallurgy: degree offered in, 10
- Microfilming of dissertation: fee for, 19
- Midsemester grades, 30, 31
- Military science: courses in, 166; information on, 166
- Mineral property and land management: curricular option in, 137
- Mines and Earth Resources, College of: admission to, 14; degrees and curricula in, 9-11; information on, 58
- Mining and Mineral Resources Research Institute: Idaho, 60
- Mining engineering: academic minor in, 166; courses in, 164; curriculum in, 165; degrees offered in, 10
- Mining engineering-metallurgy: courses in, 165; degree offered in, 10
- Minority student programs, 21
- Minors: academic, 11, 34; teaching, 46
- Music: academic minor in, 173; courses in, 167; curricula in, 170; degrees offered in, 10; refund of fees in, 19; special fees in, 18; teaching minor in, 50
- Mutual responsibility agreement, 17
- National Student Exchange, 21
- Natural resource communication: academic minor in, 191
- Natural resource economics and community development: academic minor in, 71
- Natural resources and rural development: curriculum in, 70; degree offered in, 10
- Natural science: core requirements in, 15, 33; high school credits required in, 13; recommended high school preparation in, 14
- Naval science: academic minor in, 174; courses in, 173; curriculum in, 174; degree offered in, 10; information on, 173
- New Student Services: Office of, 24
- Non-high-school graduates: admission of, 13
- Noncredit classes, 62
- Nonmatriculated status: admission to, 16; credit load limitation in, 29
- Nonmatriculated students in graduate courses, 27
- Nonresident courses: maximum credit in, 33
- Nonresident tuition, 17
- Nuclear engineering: courses in, 174; degrees offered in, 10
- Numbering system of courses, 65
- Office administration: curriculum in, 206; degree offered in, 10
- Office occupations education: curriculum in, 206; degree offered in, 10; teaching minor in, 50
- Officer education: teaching minor in, 50
- Officers: administrative, 3
- Organizational communication: curriculum in, 100; degree offered in, 10
- Organizations: student, 24
- Outdoor recreation leadership: academic minor in, 147, 191
- Parentetical course numbers, 65
- Parking fee, 19
- Partial enrollment in graduate studies, 62
- Part-time fee, 18
- Pass-fail: grading, 30; option, 28, 29, 34
- Peace Studies and Conflict Resolution Institute, 154
- Petitions: fee for, 18; student, 27
- Phi Beta Kappa, 7
- Phi Kappa Phi, 7
- Philosophy: academic minor in, 175; courses in, 174; curricula in, 175; degrees offered in, 10
- Photography: degree offered in, 10; curriculum in, 82; see also visual communication
- Physical education: courses in, 143; curricula in, 146; degrees offered in, 10; teaching minors in, 50
- Physical environment and earth resources: curricular option in, 136
- Physical sciences: teaching major in, 50
- Physical science/life science: teaching major in, 50
- Physics: academic minor in, 176; courses in, 176; curricula in, 176; degrees offered in, 10; teaching major and minor in, 50
- Physiology: courses in, 177
- Plant physiology: courses in, 178
- Plant protection: academic minor in, 183; curriculum in, 182; degree offered in, 11
- Plant science: courses in, 179; degrees offered in, 11; undergraduate core in, 181
- Political science: academic minor in, 185; courses in, 183; curricula in, 185; degrees offered in, 11; teaching major and minor in, 51
- Pre-law: preprofessional program in English, 115
- Pre-nursing: program in, 88
- Pre-physical therapy: undergraduate preparation in, 88
- Preprofessional emphasis in English, 115
- Prerequisites: policies on, 27, 30
- Press: University of Idaho, 8
- Prichard Gallery, 8
- Probation: academic, 35
- Production: forest resources curricular option in, 133
- Production/operations management: curriculum in, 91; degree offered in, 11
- Professional fee, 18
- Programs offered, 10-11
- Provisional admission, 14
- Psychology: academic minor in, 187; courses in, 186; curricula in, 187; degrees offered in, 11; teaching major and minor in, 51
- Public administration: academic minor in, 186; degree offered in, 11; interuniversity program in, 61

- Public Affairs Research: Bureau of, 183
- Public relations: academic minor in, 101; curricular option in, 100
- Publication of dissertation abstract: fee for, 19
- Pulp and paper technology: curricular option in, 130
- Radio-television: see visual communication
- Range resources: courses in, 188; curriculum in, 189; degrees offered in, 11
- Range-livestock management: curriculum in, 77; degree offered in, 11
- Records: confidentiality of, 37
- Recreation: academic minor in, 147; activities, 23; courses in, 144; curriculum in, 146; degrees offered in, 11; see also resource recreation and tourism
- Recreational, social, and extracurricular activities, 23
- Refund of fees, 19
- Regents: Board of, 3
