Mutual Responsibility Agreement	60
Student Services	61
General Requirements and Academic Procedures	71
A - Matriculation	72
B - Registration	73
C - Changes in Registration	75
D - Credit and Continuing Education Unit	76
E - Grades	77
F - Grades of Incomplete	79
G - Withdrawal Procedures	80
H - Final Examinations	82
I - Alternative Credit Opportunities	83
J - General Requirements for Baccalaureate Degrees	84
K - Academic Honors	92
L - Academic Standing, Probation, Disqualification, and Reinstatement	93
M - Attendance, Field Trips, and Official Student Travel	96

N - Class Rating	97
O - Miscellaneous	98
Colleges and Related Units	100
College of Agricultural and Life Sciences	101
Agricultural and Extension Education	102
Agricultural Education (B.S.Ag.Ed.)	103
Agricultural Education (M.S.)	104
Agricultural Extension Education Minor	104
Agricultural Science, Communication and Leadership (B.S.Ag.L.S.)	104
Agricultural Communications and Leadership Minor	104
Agricultural Economics and Rural Sociology	105
Agribusiness Minor	105
Agricultural Economics (B.S.Ag.Econ.)	105
Agricultural Economics and Rural Sociology (M.S.)	106
Natural Resource Economics Minor	107
Animal and Veterinary Science	107
Animal and Veterinary Science (B.S.A.V.S.)	108
Animal and Veterinary Science (M.S.)	110
Animal and Veterinary Science (Ph.D.)	110
Animal Science Minor	110
Entomology, Plant Pathology and Nematology	111
Entomology (B.S.Ag.L.S.)	111
Entomology (M.S.)	112
Entomology (Ph.D.)	112
Entomology Minor	112
Plant Protection Minor	112
Family and Consumer Sciences	112
Apparel, Textiles and Design (B.S.F.C.S.)	113
Child, Family, and Consumer Studies (B.S.F.C.S.)	114
Early Childhood Development and Education (B.S.Erly.Chldhd.Dev.Ed.)	116
Family and Consumer Sciences (M.S.)	116
Food and Nutrition (B.S.F.C.S.)	116
Food Science	117
Food Science (B.S.F.S.)	118
Food Science (M.S.)	119
Food Science (Ph.D.)	119
Food Science Minor	120
Plant Sciences	120
Biotechnology and Plant Genomics (B.S.Pl.Sc.)	121
Biotechnology and Plant Genomics Minor	122

Crop Management (B.S.Pl.Sc.)	122	Studio Art and Design (B.F.A.)	144
Crop Management Minor	123	Virtual Technology and Design (B.S.)	145
Crop Science (B.S.Pl.Sc.)	123	Bioregional Planning and Community Design	146
Crop Science Minor	124	Bioregional Planning and Community Design (M.S.)	146
Horticulture and Urban Agriculture (B.S.Pl.Sc.)	124	Bioregional Planning and Community Design Graduate Academic Certificate	146
Horticulture Minor	125	Urban Design Graduate Academic Certificate	147
Plant Science (M.S.)	125	College of Business and Economics	148
Plant Science (Ph.D.)	125	Accounting	149
Soil and Water Systems	125	Accountancy (M.Acct.)	150
Agricultural Systems Management (B.S.S.W.S.)	126	Accounting (B.S.Bus.)	150
Agricultural Systems Management Minor	127	Accounting Minor	151
Environmental Soil Science (B.S.S.W.S.)	127	Business	151
Soil and Land Resources (Ph.D.)	127	Business Analytics Minor	152
Soil Science Minor	127	Business Economics (B.S.Bus.)	152
Soils (M.S.)	128	Business Minor	153
Sustainable Food Systems (B.S.Ag.L.S.)	128	Economics (B.A. or B.S.)	153
Water Science and Management (B.S.S.W.S.)	128	Economics Minor	153
Water Resources	129	Entrepreneurship Undergraduate Academic Certificate	154
Water Resources Concurrent J.D. Degree	130	Finance (B.S.Bus.)	154
Water Resources Engineering and Science Option (M.S.)	130	General Management (M.B.A.)	155
Water Resources Engineering and Science Option (Ph.D.)	131	International Business Minor	155
Water Resources Law, Management and Policy Option (M.S.)	132	Management and Human Resources (B.S.Bus.)	155
Water Resources Law, Management and Policy Option (Ph.D.)	132	Management Information Systems (B.S.Bus.)	157
Water Resources Science and Management Option (M.S.)	133	Marketing (B.S.Bus.)	158
Water Resources Science and Management Option (Ph.D.)	133	Marketing Minor	159
College of Art and Architecture	135	Operations Management (B.S.Bus.)	159
Art and Architecture	135	Trading and Capital Management Undergraduate Academic Certificate	160
Art Core	139	College of Education, Health and Human Sciences	161
Architecture (B.S.Arch.)	139	Curriculum and Instruction	164
Architecture (M.Arch.)	140	Career and Technical Education (B.S.Ed.)	165
Architecture Minor	140	Curriculum and Instruction (Ed.S.)	167
Art (B.A.)	140	Curriculum and Instruction (M.Ed.)	167
Art (M.F.A.)	141	Education (Ed.D.)	168
Art Minor	141	Education (Ph.D.)	168
Integrated Architecture and Design (M.S.)	141	Elementary Education (B.S.Ed.)	168
Interior Design (B.I.D.)	142	Secondary Education (B.S.Ed.)	168
Interior Design Minor	143	Special Education (M.Ed.)	169
Landscape Architecture (B.S.L.A.)	143	Teacher Certification and Professional Development	170
Landscape Architecture (M.L.A.)	144	Teaching Majors and Minors	170
Landscape Architecture Minor	144	Art	170

Basic Mathematics	171	Dance (B.S.Dan.)	185
Biological Sciences	171	Dance Minor	186
Business Education	171	Exercise, Sport, and Health Sciences (B.S.E.S.H.S.)	186
Chemistry	172	Movement and Leisure Sciences (M.S.)	188
Earth Science	172	Movement and Leisure Sciences (Ph.D.)	188
Economics	173	Outdoor Recreation Leadership Minor	188
Engineering and Technology Education	173	Physical Education (M.Ed.)	188
English	173	Recreation, Sport, and Tourism Management (B.S.Rec.)	188
English as a New Language	174	Sustainable Tourism and Leisure Enterprises Minor	189
Exceptional Child Generalist Teaching Major	174	College of Engineering	190
French	175	Biological Engineering	192
Geography	175	Biological Engineering (B.S.)	193
German	175	Biological Engineering (M.Engr.)	193
Health Education	176	Biological Engineering (M.S.)	193
History	176	Biological Engineering (Ph.D.)	193
Library Science	177	Chemical and Materials Engineering	193
Mathematics	177	Advanced Materials Technology Graduate Academic Certificate	195
Music Education	178	Chemical Engineering (B.S.Ch.E.)	196
Online Teaching	178	Chemical Engineering (M.Engr.)	197
Physical Education	178	Chemical Engineering (M.S.)	197
Physical Sciences	178	Chemical Engineering (Ph.D.)	197
Physics	179	Materials Science and Engineering (B.S.M.S.E.)	197
Political Science	179	Materials Science and Engineering (M.S.)	198
Social Science	180	Materials Science and Engineering (Ph.D.)	198
Spanish	180	Materials Science and Engineering Minor	198
Technical Workforce Training Undergraduate Academic Certificate	181	Metallurgical Engineering (M.S.)	198
Leadership and Counseling	181	Metallurgical Engineering Minor	198
Adult Organizational Learning and Leadership (M.S.)	182	Metallurgy (M.S.)	199
Education (Ph.D.)	182	Civil and Environmental Engineering	199
Educational Leadership (M.Ed.)	182	Civil Engineering (B.S.C.E.)	200
Human Resource Development Graduate Academic Certificate	182	Civil Engineering (M.Engr.)	201
Rehabilitation Counseling and Human Services (M.Ed.)	182	Civil Engineering (M.S.)	201
Rehabilitation Counseling and Human Services (M.S.)	182	Civil Engineering (Ph.D.)	201
Rehabilitation Counseling Category R Graduate Academic Certificate	182	Geological Engineering (M.S.)	201
Movement Sciences	183	Geological Engineering Minor	202
Movement Sciences Undergraduate Curricular Requirements	183	Computer Science	202
Athletic Leadership Undergraduate Academic Certificate	184	Computer Science (B.S.C.S.)	203
Athletic Training (D.A.T.)	184	Computer Science (M.S.)	203
Athletic Training (M.S.A.T.)	184	Computer Science (Ph.D.)	204
		Computer Science Minor	205

Secure and Dependable Computing Systems Graduate Academic Certificate	205	Law (LL.M.)	235
Electrical and Computer Engineering	205	Law Emphases	236
Analog Integrated Circuit Design Graduate Academic Certificate	207	Natural Resources and Environmental Law Graduate Certificate	237
Computer Engineering (B.S.Comp.E.)	207	College of Letters, Arts and Social Sciences	238
Computer Engineering (M.Engr.)	208	Aging Studies	239
Computer Engineering (M.S.)	208	Aging Studies Minor	240
Electrical Engineering (B.S.E.E.)	209	American Indian Studies	240
Electrical Engineering (M.Engr.)	211	American Indian Studies Minor	242
Electrical Engineering (M.S.)	212	American Studies	242
Electrical Engineering (Ph.D.)	212	American Studies Minor	243
Power System Protection and Relaying Graduate Academic Certificate	213	English	243
Engineering	213	Creative Writing (M.F.A.)	243
Critical Infrastructure Resilience Graduate Certificate	213	Creative Writing Minor	244
Emergency Planning and Management Graduate Academic Certificate	214	English (B.A.)	244
Fire Safety Undergraduate Academic Certificate	214	English (M.A.)	247
Human Safety Performance Undergraduate Academic Certificate	214	English Minor	247
Industrial Technology (B.S.Tech.)	214	Professional Writing Minor	247
Technology Management (M.S.)	215	Teaching English as a Second Language Minor	248
Engineering Management	215	General Studies	248
Engineering Management (M.Engr.)	215	Bachelor of General Studies Curriculum	248
Mechanical Engineering	216	Global Studies	249
Mechanical Engineering (B.S.M.E.)	217	Modern Languages and Cultures Undergraduate Curricular Requirements	249
Mechanical Engineering (M.Engr.)	218	Modern Languages and Cultures Academic Minor Requirements	250
Mechanical Engineering (M.S.)	219	Asian Studies Minor	250
Mechanical Engineering (Ph.D.)	219	French (B.A.)	250
Mechanical Engineering Minor	219	French Minor	250
Nuclear Engineering	219	German Minor	251
Nuclear Criticality Safety Graduate Academic Certificate	219	International Studies (B.A.)	251
Nuclear Engineering (M.Engr.)	220	International Studies Minor	252
Nuclear Engineering (M.S.)	220	Modern Language Business (B.A.)	252
Nuclear Engineering (Ph.D.)	220	Spanish (B.A.)	252
College of Graduate Studies	221	Spanish Minor	253
Master's Degrees	226	History	253
Education Specialist Degrees	228	History (B.A.)	253
Doctoral Degrees	228	History (B.S.)	255
College of Law	230	History (M.A.)	255
Concurrent Degrees	232	History (Ph.D.)	256
Law (J.D.)	232	History Minor	256
		Interdisciplinary Studies	256
		Interdisciplinary Academic Minors	256

Interdisciplinary Studies (B.A. or B.S.)	256	Political Science (Ph.D.)	274
Interdisciplinary Studies (M.A.)	256	Political Science Minor	274
Journalism and Mass Media	257	Public Administration (M.P.A.)	274
Journalism and Mass Media Undergraduate Curricular Requirements	258	Psychology and Communication Studies	274
Advertising (B.A. OR B.S.)	258	Addictions Minor	275
Advertising Minor	258	Communication Studies Minor	275
Broadcasting and Digital Media (B.A. OR B.S.)	259	Experimental Psychology (Ph.D.)	275
Broadcasting and Digital Media Minor	259	Organizational Dynamics Graduate Academic Certificate	276
Film and Television Studies (B.A. OR B.S.)	259	Psychology (B.A. or B.S.)	276
Journalism (B.A. OR B.S.)	260	Psychology (M.S.)	276
Journalism Minor	260	Psychology Minor	276
Public Relations (B.A. OR B.S.)	260	Religious Studies	277
Public Relations Minor	260	Religious Studies Minor	277
Latin American Studies	261	Sociology and Anthropology	277
Latin American Studies (B.A.)	261	Africana Studies Minor	278
Music	261	Anthropology (B.A. or B.S.)	279
General Requirements for all B.A., B.S., and B.Mus. Degrees	262	Anthropology (M.A.)	279
Jazz Studies Minor	263	Anthropology Minor	280
Music (B.A. or B.S.)	263	Archaeological Technician Undergraduate Academic Certificate	280
Music (M.A.)	264	Diversity and Stratification Undergraduate Academic Certificate	281
Music (M.Mus.)	264	Justice Studies Minor	281
Music Education (B.Mus.)	264	Sociology (B.A. or B.S.)	282
Music Minor	266	Sociology Minor	283
Music: Business (B.Mus.)	266	Theatre Arts	284
Music: Composition (B.Mus.)	267	Theatre Arts (B.A. or B.S.)	285
Music: Performance (B.Mus.)	267	Theatre Arts (B.F.A.)	285
Musical Theatre Minor	269	Theatre Arts (M.F.A.)	285
Vocal-Instrumental Music Education Minor	269	Theatre Design and Technology Minor	286
Organizational Sciences	269	Theatre Performance Minor	286
Organizational Dynamics Undergraduate Academic Certificate	269	Women's, Gender, and Sexuality Studies	286
Organizational Sciences (B.A. or B.S.)	270	Women's, Gender, and Sexuality Studies Minor	286
Politics and Philosophy	271	College of Natural Resources	288
Bioethics Minor	271	Environmental Science	289
Comparative/International Politics Minor	271	Concurrent J.D./M.S. Environmental Science Degrees	290
Philosophy (B.A. or B.S.)	272	Environmental Science (B.S.Env.S.)	290
Philosophy (M.A.)	272	Environmental Science (M.S.)	296
Philosophy Minor	272	Environmental Science (Ph.D.)	296
Political Science (B.A.)	272	Natural Resources and Environmental Science (P.S.M.)	296
Political Science (B.S.)	273	Fish and Wildlife Sciences	298
Political Science (M.A.)	274	Aquaculture Minor	299

Fish and Wildlife Science (M.S.)	299	Biochemistry (B.S.Biochem.)	321
Fishery Resources (B.S.Fish.Res.)	300	Biochemistry Minor	322
Fishery Resources Minor	300	Biology (B.A. or B.S.)	322
Tribal Natural Resources Stewardship Undergraduate Certificate	300	Biology (M.S.)	323
Wildlife Resources (B.S.Wildl.Res.)	301	Biology (Ph.D.)	323
Wildlife Resources Minor	302	Biology Minor	323
Forest, Rangeland, and Fire Sciences	302	Medical Sciences (B.S.)	323
Ecology Minor	304	Microbiology (B.S.Microbiol.)	324
Fire Ecology and Management (B.S.Fire.Ecol.Mgmt.)	304	Microbiology Minor	325
Fire Ecology and Management Minor	305	Molecular Biology and Biochemistry Minor	325
Fire Ecology, Management and Technology Graduate Academic Certificate	306	Molecular Biology and Biotechnology (B.S.M.B.B.)	325
Forest Operations Minor	306	Bioinformatics and Computational Biology	326
Forest Resources Minor	306	Bioinformatics and Computational Biology (M.S.)	327
Forest, Rangeland, and Fire Science (Ph.D.)	306	Bioinformatics and Computational Biology (Ph.D.)	328
Forest, Rangeland, and Fire Sciences (M.S.)	307	Bioinformatics and Computational Biology Graduate Academic Certificate	329
Forestry (B.S.Forestry)	307	Chemistry	329
Rangeland Conservation (B.S.Rangeland.Consv.)	308	Chemistry (B.S.)	330
Rangeland Ecology and Management Minor	309	Chemistry (M.S.)	332
Renewable Materials (B.S.Renew.Mat.)	309	Chemistry (Ph.D.)	332
Renewable Materials Minor	309	Chemistry Minor	332
Restoration Ecology Undergraduate Academic Certificate	310	Geography	333
Natural Resources	310	Climate Change Undergraduate Academic Certificate	333
Ecology and Conservation Biology (B.S.Ecol.Cons.Biol.)	310	Geographic Information Systems Undergraduate Academic Certificate	334
Natural Resources (M.N.R.)	313	Geography (B.S.)	334

HOME

2018-2019 Academic Year

General Catalog Expiration date: Last day of the spring 2025 semester

The University of Idaho is accredited by the Northwest Commission on Colleges and Universities.

Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution's accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution. Individuals may also contact:

Northwest Commission on College and Universities

8060 165th Avenue N.E., Suite 100

Redmond, WA 98052 425-558-4224 www.nwccu.org (<http://www.nwccu.org>)

ACADEMIC CALENDAR

Dates in this calendar are subject to change without notice; dates appearing in admission and registration instructions take precedence over those listed below.

Summer 2018

Date	Event
Monday, May 14	Beginning of Session I
Monday, May 28	Memorial Day - classes DO NOT meet
Monday, June 11	Beginning of Session II
Monday, June 25	Beginning of Session III - 6 weeks
Wednesday, July 4	Independence Day - classes DO NOT meet
Monday, July 9	Beginning of Session III - 4 weeks
Friday, August 3	Close of Summer session
Tuesday, August 7	Final Grades due by 12:00pm

Fall Semester 2018

Date	Event
Thurs-Sat, Aug. 16-18	WWAMI orientation
Monday, Aug. 20	Classes begin
	WWAMI Classes begin
	Cooperatively Offered Courses at Washington State University begin
Monday, Aug. 27	Last day to add course or change course section on-line
Friday, Aug. 31	Last day to drop a course without having a grade of 'W' recorded
	Last day to add a course with instructor permission
Monday, Sept. 3	Labor Day – classes DO NOT meet
Monday, Oct. 15	Beginning of Late 8 week part of term
Friday, Oct. 26	Last day to withdraw from a course or from the university
Mon-Fri, Nov. 19-23	Fall recess
Mon-Fri, Dec. 3-7	No-examination week
Mon-Fri, Dec. 3-14	College of Law finals examinations
Saturday, Dec. 8	Commencement
Mon-Fri, Dec. 10-14	Final examinations
Friday, Dec. 14	Close of Fall semester
Tuesday, Dec. 18	Final Grades due by 12:00pm

Interession 2018-2019

Note: Scheduled breaks for the observance of holidays vary by class.

Date	Event
Saturday, Dec. 15	Classes begin
Tuesday, Jan. 8	Close of Interession
Friday, Jan. 11	Final Grades due by 12:00pm

Spring Semester 2019

Date	Event
Thursday, Jan 3	WWAMI classes begin
Monday, Jan. 7	Law classes begin
	Cooperatively offered courses at Washington State University begin
Wednesday, Jan. 9	Classes begin
Thursday, Jan. 17	Last day to add course or change course section on-line
	Last day to add a course with instructor permission
Monday, Jan. 21	Martin Luther King/Human Rights Day – Classes DO NOT meet
Wednesday Jan. 23	Last day to drop a course without having a grade of 'W' recorded
Monday, Feb. 18	Presidents' Day – UI Closed
Mon-Fri, March 11-15	Spring recess
Monday, March 18	Beginning of Late 8 week classes
Friday, March 29	Last day to withdraw from a course or from the university
Mon-Fri, April 29-May 3	No-examination week
Mon-Fri, April 29-May 10	College of Law final examinations
Mon-Fri, May 6-10	Final examinations
Friday, May 10	Close of Spring semester
Saturday, May 11	Commencement
Tuesday, May 14	Final Grades due by 12:00pm

THE UNIVERSITY

The University of Idaho is the first choice for student success and statewide leadership. We are the premier land-grant research university and the flagship institution in our state. We lead in teaching and engaged student learning in our undergraduate, graduate, and professional programs. We excel at interdisciplinary research, service to businesses and communities, and in advancing diversity, citizenship, and global outreach. Through our growing residential and networked university and strong alumni connections, we develop leaders who will guide Idaho to global economic success, create a sustainable American West, and address our nation's most challenging problems.

As Idaho's land-grant institution, our students, faculty, and staff are engaged in a vast network of powerful partnerships through statewide locations, laboratories, research and extension centers, outreach programs, and a base of loyal alumni worldwide. These resources provide connections to individuals, businesses, and communities that strive to improve the quality of life of all Idaho citizens and secure the economic progress of the world.

We are committed to a student-centered, engaged learning environment. Our unique geography, intimate setting, residential campus, and dedicated faculty provide aspiring leaders with the skills and abilities to challenge themselves and learn by doing.

Our leadership position in research and creative activity presents opportunities to interact and innovate with world-class faculty. Our students gain firsthand experience addressing global challenges, and bring contemporary knowledge and experience into their careers and lives.

Students, faculty, and staff at the University of Idaho are dedicated to advancing a purposeful and just community that respects individuality and provides access and inclusion for all cultures to create a climate that is civil and respectful. Innovative, productive collaborations that foster community and build morale are encouraged.

Over the past five years, the university community has implemented a strategic plan to further the vision and mission of the university. This 2011-2015 Strategic Plan fulfills the promise of a 21st century land-grant institution to lead and inspire Idaho, the nation, and the world. To achieve this, all units will develop strategic actions that advance the overall strategic direction, vision, and values of the institution.

The University of Idaho was created in 1889 by a statute of the 15th territorial legislature. Commonly known as the university charter, that act became part of the state constitution when Idaho was admitted to the Union in 1890.

The university is a publicly supported comprehensive land-grant institution with principal responsibility in Idaho for performing research and granting the Doctor of Philosophy (PhD) degree. The liberal arts and sciences, offered through the College of Letters, Arts and Social Science and the College of Science, are the heart of the university's educational programs. The primary areas of statewide responsibility of the university are agriculture, natural resources, and engineering; as well as medical and veterinary medical education, architecture, and law with programs in liberal arts, sciences, education, business and economics, all of which shape the core curriculum and give meaning to the concept of a flagship university.

To assist with its statewide mission, the university maintains resident instruction centers in Coeur d'Alene, Boise, and Idaho Falls, extension offices in 42 of Idaho's 44 counties, research and extension centers in Aberdeen, Caldwell, Dubois, Idaho Falls, Kimberly, Moscow, Parma, Salmon, Sandpoint, Teton, and Twin Falls, and field stations at McCall, Point Springs, and the Taylor Ranch in central Idaho. Through its international programs, the university extends its services to many other countries.

Nearly 12,000 students from all states and more than 90 foreign countries choose programs from a vast array of disciplines. Strong undergraduate programs are coupled with nationally recognized research and scholarly achievements. The university has granted more than 100,000 degrees since its founding. Student and research success comes through the efforts of more than 920 faculty members in teaching and research, and 2,200 staff and professional personnel who work at more than 70 locations covering more than 10,000 acres.

In addition, the University Library and the Law Library contain over two million items of books, bound periodicals, microforms, and U.S. government publications. These resources, together with the libraries at Washington State University (eight miles to the west), equal those of major metropolitan areas.

The university is proud of its friendly campus atmosphere and sense of community. The feeling of camaraderie that pervades the campus extends to Moscow, the university's "hometown." It is a thriving community of nearly 24,000 located in the northern part of the state about 90 miles southeast of Spokane, Washington.

Moscow is the gateway to a natural wonderland. The surrounding Palouse hills and the mountains and lakes of northern Idaho provide a scenic background for university facilities. Skiing, boating, and other outdoor recreation resources are available within easy driving distance. They include the Sawtooth and Hells Canyon national recreation areas, Frank Church River of No Return Wilderness, and scenic rivers such as the Snake, Clearwater, Salmon, Lochsa, and Selway.

The university is a member of the National Association of State Universities and Land-Grant Colleges and is accredited by the Northwest Commission on Colleges and Universities. Additional approval or accreditation for specific programs has been granted by the following organizations:

- ABET, Inc.
 - Biological Engineering
 - Chemical Engineering
 - Civil Engineering
 - Computer Science
 - Electrical Engineering
 - Materials Science and Engineering
 - Mechanical Engineering
- Accreditation Council for the Education of Nutrition and Dietetics from the Academy of Nutrition and Dietetics (ACEND)
 - Food and Nutrition
- Accrediting Council on Education in Journalism and Mass Communications
 - Advertising
 - Broadcasting and Digital Media

SBOE MISSION STATEMENT - UNIVERSITY OF IDAHO

The University of Idaho will shape the future through innovative thinking, community engagement and transformative education. The University of Idaho is the state's land-grant research university. From this distinctive origin and identity, we will enhance the scientific, economic, social, legal and cultural assets of our state and develop solutions for complex problems facing our society. We will continue to deliver focused excellence in teaching, research, outreach and engagement in a collaborative environment at our residential main campus in Moscow, regional centers, extension offices and research facilities across Idaho. Consistent with the land-grant ideal, we will ensure that our outreach activities serve the state and strengthen our teaching, scholarly and creative capacities statewide.

Our educational offerings will transform the lives of our students through engaged learning and self-reflection.

Our teaching and learning will include undergraduate, graduate, professional and continuing education offered through face-to-face instruction, technology-enabled delivery and hands-on experience.

Our educational programs will strive for excellence and will be enriched by the knowledge, collaboration, diversity and creativity of our faculty, students and staff.

VISION

The University of Idaho will expand the institution's intellectual and economic impact and make higher education relevant and accessible to qualified students of all backgrounds.

Exceptional research universities such as the University of Idaho prepare their students not just with today's knowledge but also with the ability to discover new knowledge, solve novel problems, lead and construct the future. We educate students at the undergraduate, graduate, and professional levels to meet the needs of Idaho and the world. We improve lives by creating knowledge and impact through our research, scholarship and creative activity.

As Idaho's land-grant university, U of I will maintain its current leadership in research and engagement with Idaho communities. Putting new knowledge into action requires persistent growth in creating and executing ideas that matter. We will continue to provide leading graduate and professional education including enhanced production of doctoral, masters and professional degrees. The University of Idaho will become a Carnegie R1 (Highest Research Activity) institution known for excellence in our areas of strength and recognized for interdisciplinary research.

U of I will serve any qualified student by providing access to the unique educational experience that a research university affords. The university will enroll a mix of resident and nonresident (including international) students at the graduate and undergraduate levels. Our resident students will represent a cross-section of Idaho in ethnic, socioeconomic and demographic terms. Education at U of I is not simply the transmission of knowledge, but is also the preparation for students to become problem solvers and lifelong learners. This is why we augment discipline-specific learning with a strong foundation in the liberal arts.

The university will excel in student success as measured by the transformative educational experience and the achievement of student learning outcomes; and by readily quantifiable measures such as high retention and graduation rates, employment/career outcomes for students, other measures of student engagement and learning to include the National Survey of Student Engagement (NSSE) and internal measures. The university will engage and lead across the state in an effort to help Idaho achieve its goal of 60 percent postsecondary education attainment. To achieve this goal, U of I undergraduate enrollment and graduates will increase 50 percent over current levels. The university will be a purpose-driven organization, a vibrant intellectual community that attracts, retains and develops great faculty and staff. We will achieve this outcome by using our existing resources effectively, generating additional resources and improving our physical and professional environment.

PRINCIPLES AND VALUES

Excellence

Individual commitment to excellence is central to the values we promote. We value the purposeful pursuit of knowledge that improves our communities and prepares us for a lifetime of service. We believe in a culture of leadership and promotion of excellence that passionately educates those seeking knowledge and celebrates success when that knowledge is applied to address societal challenges.

Respect

Central to our productivity and morale is a climate that is considerate and respectful. The University of Idaho is an extensive and diverse community of people from varied backgrounds and beliefs. We welcome the viewpoints and contributions of everyone in our community. We believe that an institution is only as strong as its ability to include diverse perspectives that critically contribute to the University of Idaho's mission.

Integrity

We believe that adherence to and a shared understanding of ethical principles is necessary for effective collaboration within an educational community. The University of Idaho is committed to internal congruence as well as openness and transparency in decision-making and leadership.

Perseverance

The University of Idaho is a community that is brave and bold in our pursuit of higher aspirations, always pushing to offer the best opportunities and environment for our students, faculty, staff and community. We are confident in our ability to succeed and have demonstrated long-term discipline to achieve our goals.

Sustainability

We embrace our personal and social obligation to ensure the sustainability of our future. For this community, ensuring a sustainable healthy lifestyle is part of a comprehensive desire to acknowledge stewardship of the natural environment to human interactions and well-being.

REGENTS AND ADMINISTRATION

(June 2018)

Board of Regents

Emma Atchley, *President*, Ashton
 Linda Clark, *Vice-President*, Meridian
 Debbie Critchfield, *Vice President, PPGA Chair*, Oakley
 David Hill, *Secretary*, Boise
 Andrew Scoggin, Boise
 Don Soltman, Twin Lakes
 Richard Westerberg, Preston
 Sherri Ybarra, *State Superintendent of Public Instruction*, Mountain Home

University Administration

Charles A. Staben, Ph.D., *President*
 John M. Wiencek, Ph.D., *Provost and Executive Vice President*
 Yolanda Bisbee, Ed.D., *Chief Diversity Officer & Executive Director of Tribal Relations*
 Brian Foisy, M.Acct., *Vice President for Finance and Administration*
 Mary Kay McFadden, E.M.B.A., *Vice President for University Advancement*
 Dan Ewart, M.P.A., *Vice President for Information Technology/CIO*
 Janet Nelson, Ph.D., *Vice President for Research & Economic Development*
 Dean Kahler, M.A., *Vice Provost of Strategic Enrollment Management*
 Cher Hendricks, Ph.D., *Vice Provost for Academic Initiatives*
 Dale Pietrzak, Ed.D., *Director of Institutional Effectiveness and Accreditation*
 Blaine Eckles, Ph.D., *Dean of Students*
 Jeff Seegmiller, Ed.D., *WWAMI Medical Education Program*
 Michael Satz, J.D., *Executive Officer, Southwest Idaho*
 Marc Skinner, Ph.D., *Executive Officer, Southeast Idaho*
 Charles R. Buck, Ph.D., *Executive Officer, Northern Idaho*
 Lynn N. Baird, Ph.D., *Dean – University Libraries*
 Heather A. Chermak, M.S., *University Registrar*
 Daniel D. Davenport, Ph.D., *Director of Student Financial Aid*

Colleges

Agricultural and Life Sciences – Michael Parrella, Ph.D., *Dean*
 Art and Architecture – Shauna Corry, Ph.D., *Interim Dean*
 Business and Economics – Marc Chopin, Ph.D., *Dean*
 Education – Alison Carr-Chellman, Ph.D., *Dean*
 Engineering – Larry A. Stauffer, Ph.D., *Dean*
 Graduate Studies – Jerry McMurtry, Ph.D., *Dean*
 Law – Mark Adams, J.D., *Dean*
 Letters, Arts, and Social Sciences – Andrew E. Kersten, Ph.D., *Dean*
 Natural Resources – Kurt Pregitzer, Ph.D., *Dean*
 Science – Ginger Carney, Ph.D., *Dean*

STRATEGIC ACTION PLAN

2016-2025

INNOVATE: Scholarly and Creative work with impact

Goal 1: Scholarly and creative products of the highest quality and scope, resulting in significant positive impact for the region and the world

Objective A

Build a culture of collaboration that increases scholarly and creative productivity through interdisciplinary, regional, national and global partnerships.

Indicators

Increases in research expenditures and scholarly/creative works derived from collaborative partnerships.

Objective B

Create, validate and apply knowledge through the coproduction of scholarly and creative works by students, staff, faculty and diverse external partners.

Indicators

Increased number of terminal degrees and non-faculty scholars (e.g. postdoctoral researchers), increased number of undergraduate and graduate students supported on extramural funds, and increased percentage of undergraduates participating in research.

Objective C

Grow reputation by increasing the range, number, type and size of external awards, exhibitions, publications, presentations, performances, contracts, commissions and grants.

Indicators

Increase in above measures as well as invention disclosures

ENGAGE: Outreach that inspires innovation and culture

Goal 2: Suggest and influence change that addresses societal needs and global issues, and advances economic development and culture

Objective A

Inventory and continuously assess engagement programs and select new opportunities and methods that provide solutions for societal or global issues, support economic drivers and/or promote the advancement of culture.

Indicators

Number of University of Idaho Extension direct contacts with communities.

Objective B

Develop community, regional, national and/or international collaborations which promote innovation and use University of Idaho research and creative expertise to address emerging issues.

Indicators

Number of active responses/programs in progress that seek to address the identified societal issues or collaborate with communities on

research, the arts or cultural enhancement as reflected by the percentage of faculty collaboration with communities (reported in HERI survey) as well as total economic impact assessment (EMSI).

Objective C

Engage individuals (alumni, friends, stakeholders and collaborators), businesses, industry, agencies and communities in meaningful and beneficial ways that support the University of Idaho's mission.

Indicators

National Survey on Student Engagement (NSSE) service learning metric, alumni participation rate, and dual credit engagement

TRANSFORM: Educational experiences that improve lives.

Goal 3: Increase our educational impact

Objective A

Provide greater access to educational opportunities to meet the evolving needs of society.

Indicators

Total number of enrolled students and conferred degrees (both undergraduate and graduate).

Objective B

Foster educational excellence via curricular innovation and evolution.

Indicators

Increased retention, numbers of graduates, NSSE High Impact Practices score and reductions in remediation via curricular innovation.

Objective C

Create an inclusive learning environment that encourages students to take an active role in their student experience.

Indicators

Measures educational parity and retention rates (for new and for transfer students).

CULTIVATE: A valued and diverse community

Goal 4: Foster an inclusive, diverse community of students, faculty and staff and improve cohesion and morale

Objective A

Build an inclusive, diverse community that welcomes multicultural and international perspectives.

Indicators

Increased multicultural student enrollment, international student enrollment, percent of multicultural faculty and staff.

Objective B

Enhance the University of Idaho's ability to compete for and retain outstanding scholars and skilled staff.

Indicators

Improved job satisfaction scores and reduced staff turnover rate.

Objective C

Improve efficiency, transparency and communication.

Indicators

Invest resources wisely to enhance end user experiences (e.g. more customer service oriented) and maintain affordability for students (cost per credit hour and SBOE efficiency measure).

STUDENT/PROGRAM ASSESSMENT

The University of Idaho, along with all other public institutions of higher education in Idaho, is required by policy of the State Board of Education to assess student learning in general education and in the academic majors. In late 1991, the Northwest Commission on Colleges and Universities, which provides institution-wide accreditation for the university, issued similar guidelines requiring assessment.

Effective teaching and learning are essential to meeting our long-held goal of producing responsible, well-prepared citizens and leaders in their professions. Our program of student outcomes assessment has been implemented to ensure that we continually improve the teaching and learning process and the programs that support that process.

Information vital to effective assessment includes student performance as well as student opinions on the quality of university academic programs and services. Students are an integral part of course and program assessment and are asked to participate in assessment activities; these include, but are not limited to, examinations, performance assessments, interviews, surveys, focus groups, and follow-up surveys after graduation.

UNIVERSITY LEARNING OUTCOMES

University learning outcomes broadly describe expected and desired consequences of learning through integrated curricular and co-curricular experiences. The outcomes become an expression of the desired attributes of an educated person and guide coherent, integrated and intentional educational experiences. They provide us with a basis for ongoing assessment to continuously improve teaching and learning.

1. Learn and integrate - Through independent learning and collaborative study, attain, use, and develop knowledge in the arts, humanities, sciences, and social sciences, with disciplinary specialization and the ability to integrate information across disciplines.
2. Think and create - Use multiple thinking strategies to examine real-world issues, explore creative avenues of expression, solve problems, and make consequential decisions.
3. Communicate - Acquire, articulate, create and convey intended meaning using verbal and non-verbal methods of communication that demonstrate respect and understanding in a complex society.
4. Clarify purpose and perspective - Explore one's life purpose and meaning through transformational experiences that foster an understanding of self, relationships, and diverse global perspectives.
5. Practice citizenship - Apply principles of ethical leadership, collaborative engagement, socially responsible behavior, respect for diversity in an interdependent world, and a service-oriented commitment to advance and sustain local and global communities.

These learning outcomes are further developed at the program and course level. Learning outcomes for undergraduate and graduate degree and approved certificate programs can be reviewed at www.uidaho.edu/learningoutcomes.

GENERAL HONORARY SOCIETIES

The university has long possessed nationally recognized marks of excellence, including chapters of national honorary and scholarship societies in practically every specialized field and chapters of the following general honorary societies: Phi Beta Kappa (since 1926), Phi Kappa Phi (since 1960), Sigma Xi (since 1922), and Golden Key (since 1990).

Phi Beta Kappa

To qualify for nomination to Phi Beta Kappa, a candidate must have a major in the College of Letters, Arts & Social Sciences or the College of Science. Juniors must have achieved a 3.90 UI cumulative GPA; have completed one full semester of the junior year, and have been in residence at least five semesters. All PBK requirements must be completed prior to the semester in which they are elected. Seniors must have achieved a 3.80 UI cumulative GPA and be in residence at least 4 semesters at graduation or must have achieved a 3.70 UI cumulative GPA and be in residence at least 7 semesters at graduation. Nominees must have fulfilled the following distribution requirements: humanities and social sciences (16 total semester credits of humanities and social sciences, with no fewer than 7 semester credits of humanities and no fewer than 7 semester credits of social sciences); laboratory sciences and/or mathematics (10 semester credits); foreign language (16 credits of a single foreign language through the intermediate level, or 4 full years of high school language). Double majors (CLASS or Science, plus another college) must complete a minimum of 90 liberal arts credits. In addition to these minimum requirements, candidates will be determined by other factors such as citizenship and scholastic rigor.

Phi Kappa Phi

To qualify for nomination by the local chapter of Phi Kappa Phi, a candidate must be

1. registered at UI for at least one year and
2. enrolled in the final period of his or her junior year and rank scholastically in the upper 5 percent of the class or a senior enrolled in a course of study leading to a baccalaureate degree and rank scholastically in the upper 10 percent of his or her class.

Sigma Xi

To qualify for nomination to associate membership in Sigma Xi, a student must have shown marked aptitude for research in some field of pure or applied science. An associate member must have shown noteworthy achievement as an original investigator in some field of pure or applied science to qualify for nomination to full membership.

Golden Key National Honor Society

To qualify for membership in Golden Key, a student must have junior or senior standing and must have a cumulative grade-point average that falls in the top 15 percent of the junior and senior classes. Transfer students who have completed at least 25 semester credits at the University of Idaho and meet the grade-point average requirements also qualify for membership.

LIBRARIES

The University Library and the Law Library hold over two million items. The libraries receive 65,000 serials in over 210 databases, provide access to approximately 11,000 electronic books and reference tools, and add over 20,000 physical items annually to their collections. There are subscriptions to all Idaho newspapers and representative papers from around the U.S. The library is a regional depository for U.S. and Idaho state government documents, serves as the statewide clearinghouse for geospatial data, and is a designated Earth Science Information Center.

The libraries' collections emphasize the land-grant traditions of the basic sciences, agriculture, and the natural resources while maintaining supporting collections in the humanities and social sciences. Special Collections and Archives is rich in collections of Pacific Northwest and Idaho state history, including books, photographs, and historical maps. The archives contain personal papers and records of families, politicians, educators, authors, and business records of lumber companies, mines, and railroads. It is also home to the International Jazz Collections which contains papers, photos, and recordings of jazz musicians and critics. The library has created and is developing digital images of many important resources, providing electronic access to such archives as the International Jazz Collections, the Barnard Stockbridge photographic collection, Idaho Waters Digital Library, historic aerial photographs, and the Kooskia internment camp scrapbook.

The Law Library operates as the laboratory for the College of Law, housing materials that are used to support the academic program of the college and the research interests of law faculty and students. Numbering over 250,000 volumes and volume equivalents, the collection has primary materials, in the form of statutes and court reporters, for the federal system and all 50 states. Secondary materials, consisting of treatises, law reviews, and loose-leaf services, round out the American law collection. There is a working collection of United Kingdom and Canadian primary and secondary materials, and a growing international law collection. The Law Library is also a selective federal documents depository. A variety of electronic legal databases are available for use by the University community and the general public.

The law library's special collections include records and briefs submitted to the Idaho Supreme Court and Court of Appeals, an historical collection of Idaho legislative and administrative legal materials, and the Clagett Collection, which consists of materials collected by Fred and Dorothy Clagett to support their research on the life and times of William H. Clagett, the president of Idaho's Constitutional Convention in 1889.

The library building was expanded and remodeled in 1993, providing structural opportunities to expand collections in the current facility. The library facility is open from 8 a.m. to midnight daily during the school terms, with a 24-hour study area. The library is home to the largest student computing lab on campus, with nearly 200 computers available to students, faculty, and staff. The emphasis on building electronic collections enables the library to offer services to all students and faculty at all times, regardless of location.

There is a reciprocal use agreement between the University of Idaho Libraries and the Washington State University Libraries located in Pullman, eight miles away, giving students immediate access to the equivalent of library resources in many urban areas. Similar agreements exist with the Lewis Clark State College Library, located in Lewiston, North Idaho College Library, located in Coeur d'Alene, Whitworth University Library and Gonzaga University Libraries, located in Spokane. The library

cooperates with institutions throughout the Pacific Northwest and beyond. Electronic delivery services coupled with courier systems ensure rapid delivery of items held throughout the area.

ART GALLERIES

The galleries serve the university, community, state, and region and are the principal facilities emphasizing the visual arts in northern Idaho. The University Gallery occupies the main floor of Ridenbaugh Hall on campus (corner of Blake Street and Campus Drive) and the work of University Undergraduate and Graduate students studying in the disciplines of Art & Design, Architecture, and Landscape Architecture is exhibited here during the academic year. The Prichard Art Gallery is located at 414/416 South Main Street in downtown Moscow; it is open throughout the year. All gallery programs and exhibitions are open to the public and no admission is charged.

Through the galleries' rotation of exhibits, visitors may see examples of the full range of visual arts, including traditional and experimental art media, as well as decorative and applied design. The objectives of these galleries are to provide opportunities for local, regional, and national artists and students to exhibit their work, and a means by which visitors' awareness and appreciation of the arts is heightened. The galleries also serve as an excellent teaching device. Ties between the university and local and regional communities are strengthened by the outreach efforts of the Prichard Art Gallery.

In addition to exhibitions of work by artists of international, national, and regional repute, exhibitions mounted each year at the Prichard Art Gallery traditionally include those by faculty members and graduate students from the College of Letters, Arts & Social Sciences. Public receptions held in connection with some exhibitions, occasional musical performances presented at the galleries, seminars with guest artists and lecturers, and the A.R.T. Gallery Connections Docent Program (K-12), are ways in which the gallery serves the university and the community.

The gallery facilities and programs are administered through the College of Letters, Arts & Social Sciences.

INFORMATION TECHNOLOGY SERVICES

ITS provides the university community with information technologies and support to complement its teaching, learning, research, telecommunications, and outreach activities, as well as serve administrative operations. The ITS main office is located in the Administration Building, Room 140, phone 208-885-6721.

Some services provided by ITS include:

- **Help Desk Services** – provides technical assistance through telephone, e-mail, and walk-in support. The Help Desk can be visited at The Teaching and Learning Center (TLC) room 128 or reached at 208/885- HELP (208-885-4357) or helpdesk@uidaho.edu.
- **Student Computer Labs** – With 18 student computing labs located across the Moscow campus, consisting of 550 Windows/Apple PCs and 26 printers, including computer access for individuals with disabilities. All labs are open during building hours except the two 24 hour labs located in the Administration building. The labs offer specialized software such as, Mathlab, MathCAD, SPSS, ArcGIS, Adobe Creative Suite and other software applications to meet academic needs and are available to all students, faculty and staff at the University of Idaho. A NetID user account is required to login to a student computing labs workstation. Kiosk stations are located throughout campus and can be accessed using the NetID username and password. These light-weight machines provide email, internet access and printing services. For more information and access to VLab see www.uidaho.edu/its/Labs
- **Campus Wireless Network** – available throughout the Moscow, Coeur d'Alene, and Boise campuses, including UI Residences. Faculty, staff and Students are encouraged to use "AirVandalGold". Guests are invited to use "AirVandalGuest"
- **Technology Enhanced Classrooms** – provides support and training for the university's media-enhanced classrooms.
- **Media Center** – provides media presentation equipment to campus and off-campus users.
- **Telephone Services** – provides complete telephony communication service and infrastructure support.
- **Enterprise Applications** – provides database administration and development services for the University's ERP application and web site content management systems; as well as custom development for web-based administrative applications.
- **Network and Systems** – provides network and server-based services including: Internet access; high-speed campus data network; wide-area network connecting university sites across Idaho; server-based personal and shared file space; Virtual Private Network (VPN); print queues.
- **Document Imaging** – provides an infrastructure for the scanning, retention, and management of documents relative to the operations of the university.
- **Vandal Card** – the Vandal Card is the official UI identification card, uses include access to university meal plans, as a commerce card for personal on-campus transactions at enabled locations, as a UI library card, to access the Student Recreation Center, and for building access to some UI facilities.

- **Records Management** – provides physical storage along with guidance, training, and policy regarding the management and disposal of university records.
- **E-Commerce (Marketplace)** – provides managed e-commerce services to the university community, including providing payment capabilities for UI developed web applications and third-party payment integration. E-Commerce also provides banner-integrated on-line stores (UI Marketplace) for use by university colleges and departments for web-based commerce.
- The ITS web page can be found on-line at www.uidaho.edu/its. The web site has a complete service catalog which provides detailed descriptions and contact information for all the services offered by ITS.

UNIVERSITY OF IDAHO NONDISCRIMINATION POLICY

The University of Idaho has a policy of nondiscrimination on the basis of race, color, religion, national origin, sex, age, sexual orientation, gender identity/expression, disability, genetic information, or status as any protected veteran or military status. This policy applies to all programs, services, and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment and advancement.

Such discrimination is prohibited by titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans' Readjustment Assistance Act of 1974, as amended, 38 U.S.C. 4212 and requires affirmative action to employ and advance in employment disabled veterans, the Age Discrimination Act of 1975, the Pregnancy Act of 1978, the Age Discrimination in Employment Act Amendments of 1978, the Americans With Disabilities Act of 1990, the Civil Rights Act of 1991, the Rehabilitation Act Reauthorization of 1992, federal GINA Act of 2008, and other state and federal laws and regulations and university commitments.

Sexual harassment violates state and federal law and policies of the Board of Regents, and is expressly prohibited, see FSH 3220 (<http://www.webpages.uidaho.edu/fsh/3220.html>). The University of Idaho also prohibits discrimination on the basis of sexual orientation and gender identity/expression, see FSH 3215 (<http://www.webpages.uidaho.edu/fsh/3215.html>). The entire *Faculty Staff Handbook* can be accessed online at <http://www.webpages.uidaho.edu/fsh/>.

Questions or concerns about the content and application of these laws, regulations or University policy may be directed to the Director of the Office of Civil Rights & Investigations (208-885-4285); Coordinator of Disability Support Services (208-885-6307); Idaho Commission on Human Rights (208-334-2873); Regional Office for Civil Rights, U.S. Department of Education in Seattle (206-220-7900); Equal Employment Opportunity Commission, Seattle District Office (206-220-6883); or Seattle Regional Office of Federal Contract Compliance Programs, U.S. Department of Labor (206-398-8000).

University of Idaho employees have a responsibility to report cases of discrimination and harassment, see FSH 3170 (<http://www.webpages.uidaho.edu/fsh/3170.html>). Retaliation for bringing forward a complaint is prohibited, see FSH 3810 (<http://www.webpages.uidaho.edu/fsh/3810.html>). All complaints will be investigated impartially and resolved promptly. Complaints about discrimination or harassment should be brought to the attention of the Director of the Office of Civil Rights & Investigations, Erin Agidius (Title IX and 504 Coordinator): 875 Perimeter Dr., MS 3160, Moscow, ID 83844-3160, 208-885-4285, ocri@uidaho.edu or <http://www.uidaho.edu/ocri>.

RESEARCH

Research is a primary function of the University of Idaho and is closely related to teaching for both students and faculty members, especially at the graduate level. Research and teaching are intimately associated and mutually complementary. Hence, most classroom teaching faculty members are also actively engaged in research.

Office of Research and Economic Development

The mission of the Office of Research and Economic Development is to provide academic and administrative leadership to:

1. foster, support and inspire scholarly activity;
2. oversee ethical, managerial and regulatory compliance of scholarly activities; and
3. ensure dissemination and application of scholarly activities. At the University of Idaho, scholarly and creative activity aspires to generate knowledge that strengthens the scientific, economic, cultural, social, and legal foundations of an open, diverse, and democratic society. Our goal is to achieve excellence in scholarship and creative activity through an institutional culture that values and promotes strong academic areas and interdisciplinary collaboration among them.

The Office of Research and Economic Development focuses on promoting research university-wide and on providing assistance in writing multidisciplinary proposals and in obtaining research funds. This is accomplished by organizing and promoting research activities such as special grant programs and research awards; providing to individuals and departments information on grant opportunities from federal agencies, state and private sector groups and foundations; and processing and recording all grant and contract proposals through the Office of Sponsored Programs to ensure that policies and procedures are recognized and followed. The Office strives to increase UI's research competitiveness by offering assistance to faculty, staff, and students.

The Research Council, the faculty's standing committee involved with the development and oversight of research policy, works closely with the vice president for research and economic development to resolve differences in interpretation and implementation of these policies. Additionally, the council acts as the peer review board in the university's internal competitive grants programs.

Idaho Research Foundation

The Idaho Research Foundation, Inc. (IRF) is a private nonprofit corporation organized for the purpose of supporting research at the university. Its principal activity is licensing technologies resulting from academic research to the private sector. The IRF identifies and protects the intellectual property developed at the University of Idaho and transfers it to the private sector through licensing agreements in order to secure support for and further develop the university's academic, research, and service responsibilities. The IRF also disseminates scientific knowledge and technical information and encourages and assists researchers and inventors by providing the means by which their scientific discoveries may be patented, copyrighted, developed, and applied. The transfer of technology generated through UI research turns society's investment into new products and industrial processes, thus increasing Idaho's competitiveness as well as the nations.

Research Units

Research activities are many and varied, and are unique for each department and college. Certain administrative units provide an additional research function and emphasis that are, in many cases, related to the research program of the departments. Some of these units are:

Aquaculture Research Institute

The Aquaculture Research Institute (ARI), University Research Office, conducts, facilitates, supports, directs, and coordinates aquaculture research activities at the University of Idaho, at the Hagerman Fish Culture Experiment Station, and throughout the state. Through the institute, UI scientists from various disciplines conduct research in both commercial and conservation aquaculture sciences and technologies such as fish culture and production efficiency, fish breeding and genetics, fish nutrition and growth physiology, fish diseases and pathology, fish waste management and water quality assessment, aquaculture marketing and economics, and recovery efforts for endangered fish species. The ARI does not offer degrees. Rather, the ARI assists academic departments in the training of graduate-level students by providing resources and opportunities for research.

Caine Veterinary Teaching Center

The Caine Veterinary Teaching Center facility, Department of Animal and Veterinary Science, College of Agricultural and Life Sciences, is located at Caldwell, Idaho, and is staffed with scientists involved with research, extension, service, and instruction in the animal and veterinary science graduate program. It provides clinical training for WI students in veterinary medicine and is also a satellite clinical laboratory specializing in the identification, study, and control of diseases of animals used for human food.

Center for ETHICS¹

The Center for ETHICS¹, Department of Movement Sciences, College of Education, believes in "teaching the tradition of competitive integrity to inspire leaders of character." The goal of the center is to improve moral development and character education through intervention, consultation, and leadership in advancing moral education.

¹ Ethical Theory and Honor in Competition and Sport

Center for Educational Research and Public Service

The Center for Educational Research and Public Service was established to conduct and support research and evaluation, to facilitate research by College of Education faculty members and graduate students, and to be of assistance to local school districts and to other educational institutions. The center publishes a monthly newsletter providing information on grant opportunities.

Center for Forest Nursery and Seedling Research

The Center for Forest Nursery and Seedling Research develops and demonstrates cost and environmentally effective processes for propagation, growth, and subsequent survival of forest seedlings. Processes are tested and demonstrated in a production scale nursery operation, with subsequent transfer of technology to the forest nursery industry of the region.

Center for International Training and Outreach

The Center for International Training and Outreach (CITO) functions as the College of Natural Resource's international outreach center. Its

central long-term goal is the development of a self-sufficient program of worldwide training, technical assistance and research activities focused on three related substantive areas:

1. nature-based tourism,
2. environmental interpretation, and
3. protected area management and sustainable development.

Key within CITO's functions is the cultivation of strategic linkages within organizations that can help facilitate a greater role for the UI and the College of Natural Resources in international training and outreach. Paramount in this vision is the establishment of strategic linkages and institutional partnerships with government, private firms, and international institutions of higher education.

Center for Research on Invasive Species and Small Populations

The Center for Research on Invasive Species and Small Populations (CRISSP) combines advanced techniques in molecular biology with traditional approaches to biological and ecological management, in order to maintain and enhance the integrity of our nation's native plant and animal populations. The goal of the center is to address the challenges and inform policy on invasive species and small or threatened populations. This will be accomplished by taking an integrated approach that coordinates resources and expertise for scientific research on these problems. The Center's mission also incorporates public education and outreach on invasive species and conservation biology issues. The Center contains state-of-the-art instrumentation for molecular biology and a dedicated computer laboratory, to facilitate data acquisition and analysis. Stipends for graduate study and undergraduate internships are available through the Center to students with an interest in invasive species and/or conservation biology issues.

Center for Secure and Dependable Systems

The Center for Secure and Dependable Systems (CSDS) operates as a center in the Microelectronics Research and Communications Institute (MRCI), University Research Office. This board-approved center concentrates on computer-related security education and research. The National Security Agency designated the University of Idaho in 1999 as one of the initial seven Centers of Excellence in Information Assurance Education, partly in recognition of CSDS's efforts in promoting information security education and research. This status was reappraised in 2005. The CSDS faculty conducts research in the areas of system defense, intrusion detection, critical infrastructure protection, secure protocols, network security, evolutionary algorithms, computer forensics, reliability, and fault tolerance.

Electron Microscopy Center

A campus-wide facility, including scanning and transmission electron microscopes and energy-dispersive x-ray microanalysis, is available for use in teaching, research, and service. Located in McClure Hall, this facility is available to students and faculty members. Information concerning use of the EM Center may be secured directly from the facility or through the University Research Office.

Forest, Wildlife and Range Experiment Station

The Forest, Wildlife and Range (FWR) Experiment Station is the research arm of the College of Natural Resources. Its staff includes all members of the college faculty, full-time research associates and technicians, and graduate students. The station staff conducts research on a wide variety of natural resource management problems in the areas of forestry, forest

products, range, wildland recreation, wildlife, and fisheries. Because many of the graduate students enrolled in the college are on assistantships associated with station projects, the programs of the experiment station are closely connected with the college's graduate education mission.

Hagerman Fish Culture Experiment Station

The Hagerman Fish Culture Experiment Station is located in the heart of Idaho's aquaculture industry in the Magic Valley and its focus is on rainbow trout. Most of Idaho's large commercial aquaculture operations are located nearby and the close proximity of the research facility provide opportunities for industry partnerships in aquaculture research.

The Hagerman Station is a field laboratory of the College of Agricultural and Life Sciences, and is a part of the Aquaculture Research Institute. UI scientists from various disciplines conduct research at the station in both commercial and conservation aquaculture sciences and technologies. The Hagerman Station has both exceptional water resources supporting its wet laboratories and outdoor fish culture systems and leading edge analytical resources supporting functional genomics in association with nutrition, immune function, growth, reproduction, and marker-based breeding programs for rainbow trout. The Hagerman Station also hosts USDA Agriculture Research Service scientists who contribute to UI research, educational and extension programs. Idaho Springs, a nearby commercial-scale trout farm, is operated by the Hagerman Station as a research farm where large-scale trials and long-term broodstock holding can be conducted. Scientists at the station are deeply involved in recovery efforts for Idaho's endangered fish species, and in assessment of threatened stocks and species. These efforts are often done in partnership with state and federal agencies, and with the Columbia River Inter-Tribal Fish Commission, and other tribal entities.

The Hagerman Station works closely with Idaho's aquaculture extension educator, who is nearby in Idaho's Magic Valley. Through this collaboration and that with other UI faculty and staff throughout the state, a variety of outreach activities designed to educate the public and support and promote aquaculture are pursued.

Idaho Agricultural Experiment Station

The Idaho Agricultural Experiment Station is the research arm of the College of Agricultural and Life Sciences. Applied and fundamental research programs provide a technological base to assist the agricultural industries and rural development in the state and region. Graduate education at the M.S. and Ph.D. levels is an integral part of most research projects. Research Centers located at Aberdeen, Boise, Caldwell, Dubois, Kimberly, Moscow, Parma, Sandpoint, Salmon/Carmen, Teton, Post Falls, and Twin Falls provide opportunities to conduct locally-relevant applied and basic research. Off-campus research centers represent a significant component of the college's and university's research capacity in terms of personnel, facilities and experimental land resources. Over 40 of the college's research faculty and over 100 research support staff are stationed at these centers. Facilities have an experiment land resource exceeding 4,000 acres. Cooperative research programs involving a number of USDA Agricultural Research Service scientists and Federal laboratory facilities exist at Aberdeen, Dubois, Kimberly, Moscow, and Parma.

Idaho Cooperative Fish and Wildlife Research Unit

The cooperative program involving UI, College of Natural Resources, the U.S. Geological Survey, and the Wildlife Management Institute in Washington, D.C., conducts research to find answers to a broad spectrum of questions relating to the management and viability of fish and wildlife resources. Issues addressed are of local, national, and international

interest. Graduate students are trained at both the master's and doctoral levels. The unit provides in-service training for new and established conservation agency employees and provides technical assistance and information to the public and to federal and state organizations.

Idaho Cooperative Park Studies Unit

The UI Cooperative Park Studies Unit in the College of Natural Resources applies the results of sociological and biological research to the management of parks, preserves, and recreation areas. Because major funding comes from the National Park Service, the unit has a primary responsibility to conduct research related to the mission of the NPS and the management of the national park system. An important responsibility of the unit is technical assistance to park staffs, working directly with resource managers to help solve management problems.

Idaho Forest, Wildlife and Range Policy Analysis Group

The Idaho Forest, Wildlife and Range Policy Analysis Group is a research program of the Idaho Forest, Wildlife and Range Experiment Station, College of Natural Resources, created by the Idaho legislature to provide timely and objective analyses of natural resource issues of importance to the citizens of Idaho. Graduate students are involved in specific short-term tasks to support policy analysis projects.

Idaho Geological Survey

Established in 1919, the Idaho Geological Survey is the state's lead agency for collecting, interpreting, and disseminating all scientific information on the geology and mineral resources of Idaho. As a research unit of the University of Idaho, the Idaho Geological Survey's main office is at the Moscow campus. The Survey also has branch offices in Pocatello at Idaho State University and in Boise at Boise State University and the Idaho Water Center. A staff of geologists conducts applied research with a strong emphasis on producing geologic maps and providing technical and general information to the public.

Cooperative projects between the Survey, state universities, and other academic, state, and federal institutions, including the U.S. Geological Survey, enhance research productivity and educational outreach. The Survey addresses public inquiries through an expert staff, reference collections, comprehensive Web site (www.idahogeology.org (<http://www.idahogeology.org>)), and sales of its books and maps. The Survey directs its activities at the broad interests of the state's citizens, teachers and students of earth science, the mineral industry, land developers, land-use planners, scientific researchers, and city, county, state, and federal agencies.

Idaho Water Resources Research Institute

The Idaho Water Resources Research Institute, University Research Office, was established at UI by the regents on October 24, 1963. The national institute program is administered by the United States Geological Survey of the U.S. Department of the Interior to stimulate, sponsor, coordinate, and supplement research, education, and outreach programs in the field of water resources. The institute serves the state by developing and coordinating water research programs intended to assure the state, region, and nation adequate supplies of high-quality water.

The area of water resources planning, development, and management is a composite of many disciplines. Consequently, the Idaho Water Resources Research Institute believes that professional needs in these areas are best achieved by individuals with strong basic education in a traditional academic department enhanced by programs of study in water resources problems and professional practice. The university has developed procedures that encourage existing schools and

departments to strengthen their programs in light of the special needs for water resources. The Idaho Water Resources Research Institute has coordinated masters and doctoral programs in several disciplines and specializations through various participating divisional programs.

The objectives of the institute are to:

1. promote water resources research and coordinate the efforts of the various university divisions and departments involved in water resources research;
2. strengthen and coordinate water-related undergraduate and graduate programs and course offerings so that the university can supply well-trained professionals and leaders;
3. develop, gather, and disseminate research findings within the state universities and to various federal, state, local, and civic organizations interested in water resources;
4. promote water education for both the youth and adult community within Idaho.

Inland Empire Tree Improvement Cooperative

The Inland Empire Tree Improvement Cooperative in the College of Natural Resources includes all of the major commercial timber holding agencies in the Inland Northwest. The cooperative's main function is genetic improvement of five forest tree species. Substantial research opportunities are available in the delineation of genetic patterns and prediction of genetic gains in the five programs. Results of such research have the potential for immediate application in operation programs.

Institute for Bioinformatics and Evolutionary Studies (IBEST)

The Institute for Bioinformatics and Evolutionary Studies (IBEST) is an interdisciplinary research group at the University of Idaho focused on understanding the patterns and processes of evolution that occur over comparatively short periods of time. The hallmarks of IBEST research are the coupling of empirical and theoretical research, and a strong orientation toward rigorous testing of hypotheses. They place a high value on interdisciplinary collaborations that blend the expertise of biologists, biochemists, ecologists, evolutionary biologists, mathematicians, statisticians, and computer scientists to examine the underpinnings of evolutionary biology.

Intermountain Forest Tree Nutrition Cooperative

The Intermountain Tree Forest Nutrition Cooperative in the College of Natural Resources includes the major state, federal, and private forest management organizations throughout the Inland Northwest. The cooperative's main function is the support of research dealing with the nutritional management of forests. Results of such research have the potential for application in forest management programs.

James A. and Louise McClure Center for Public Policy Research

The Bureau of Public Affairs Research has been renamed the James A. and Louise McClure Center for Public Policy Research. Building on almost fifty years of public policy research and outreach, the McClure Center is dedicated to enhancing public policy development and decision-making through research and analysis, public programming, and leadership training.

Laboratory Animal Research Facility

A centrally located facility for housing and maintaining small animals for use in teaching and research is available to faculty members and

students. Information concerning space availability, use, and services provided is available through the facility itself.

Laboratory of Anthropology

The Alfred W. Bowers Laboratory of Anthropology serves as a research unit within the Department of Sociology & Anthropology, College of Letters, Arts, and Social Sciences. The three primary objectives are research, cultural resource management, and public outreach and education. Research facilities include the Pacific Northwest Anthropological Archives, the Asian American Comparative Collection, and the Crabtree Lithic Collection. As the Archaeological Survey of Idaho, Northern Repository, the Laboratory of Anthropology houses site forms and archaeological collections for the ten northern counties of Idaho. Public education projects include interactive presentations at area schools.

Martin Institute

The Martin Institute is an interdisciplinary teaching, outreach, and research center at the University of Idaho that considers the causes of war, the conditions for peace, and the international system. The Institute's strategic plan for 2011-2015 centers on providing transformational educational experiences for UI undergraduates, both within "traditional" global studies fields and across the curriculum, through administration of the undergraduate major in international studies and partnerships with the Honors Program. Funded research support on projects related to the Institute's mission is awarded annually to teams of undergraduate students and faculty selected to participate in the Martin Scholar program and to students in the Martin Academy. The Institute also publishes *The Journal of the Martin Institute | International Studies* annually, which focuses on excellent undergraduate research related to international problem solving. Funding for faculty and students involved in graduate-level research on themes related to the Institute's mission will roll out in time for the 2016-17 academic year.

National Institute for Advanced Transportation Technology

The mission of the National Institute for Advanced Transportation Technology (NIATT), University Research Office, is to develop engineering solutions (knowledge and technology) to transportation problems for the state of Idaho, the Pacific Northwest, and the United States, and to prepare our students to be leaders in the design, deployment and operation of our nation's complex transportation systems. NIATT is a university-based center of excellence established by US Department of Transportation to advance technology and expertise in the many disciplines comprising transportation through education, research and technology transfer. Three centers currently operate as part of NIATT, each with a unique mission related to transportation. The Center for Clean Vehicle Technology focuses on research to protect the natural and built environment by improving the quality and economic viability of alternative fuels and reducing the environmental impacts and improving the fuel economy and safety of motorized vehicles (including passenger cars, transit vehicles and recreational vehicles). The Center for Traffic Operations and Control conducts research concerning traffic detection, control, surveillance, simulation and optimization with the goal of reducing energy consumption, reducing congestion, and improving safety. Erosion control, bridge construction, and pavement design, as well as planning methods, design practices, and software development fall under the auspices of the Center for Transportation Infrastructure. NIATT provides opportunities for graduate and undergraduate students to participate in research supported by the University Transportation

Centers program, the Idaho Transportation Department, the Federal Highway Administration, and others.

Potato Center of Distinction

The Center encompasses research programs on development of new cultivars in concert with USDA-ARS potato germplasm program; development and refinement of production methods; development on insect, disease, and weed germplasm program; development and refinement of storage methods; and utilization of potato products. The Center's education program includes extension programming focusing on variety choice, crop production, pest management, storage, and processing. The Center also includes utilization and pesticide residue testing, research on genetic manipulation of the potato, and economic research.

Rangelands Center

The Rangelands Center strives to create insight and foster understanding for the stewardship of rangelands. Rangelands cover half of Idaho, half the West, and half the earth's land surface. Therefore, rangelands affect the ecological health and economic livelihood of our state and region. The innovative design of the Rangeland Center promotes active partnerships with individuals, organizations and communities who work and live on the vast landscapes known as rangelands. The Rangeland Center is a group of 23 researchers and outreach specialists with expertise in disciplines that affect rangeland management and conservation including grazing, rangeland ecology, entomology, soil science, economics, rural sociology, fish and wildlife resources, invasive plants, forage production, animal science, wildland fire, restoration and the use of spatial technologies to understand rangelands. Center research and outreach efforts are aimed at creating science and solutions for the range.

Reveley Geospatial Learning Center

The Reveley Geospatial Learning Center, College of Natural Resources, was formed to encourage, facilitate, and coordinate, on an interdisciplinary basis, remote sensing and geographic information system (GIS) research at UI. The unit maintains "state of the art" computing hardware, software, and field equipment for project support. Research funding comes from a variety of sources including NASA, USFS, and commercial forest industries, among others. Most research projects utilize graduate students as essential elements in both data acquisition and interpretation. These projects often form the basis of either a thesis or dissertation.

Rocky Mountain Cooperative Ecosystem Studies Unit

The Rocky Mountain Cooperative Ecosystem Studies Unit, College of Natural Resources, is a university-federal agency partnership involving the University of Idaho, University of Montana, Montana State University, Salish Kootenai College, Utah State University, Washington State University, and federal land management agencies. The mission of this unit is to improve the scientific base for managing ecosystems in the rapidly changing social, cultural, and environmental landscape of the Rocky Mountain Region. The unit provides research, technical assistance, and training programs for federal partners and provides support for faculty and graduate student ecosystem studies programs.

Rocky Mountain Forest Experiment Station

The Rocky Mountain Forest Experiment Station, College of Natural Resources, with facilities on the UI campus, is a research branch of the USDA Forest Service. It conducts research in silviculture, forest health, forest genetics, and watershed management. The station provides

funding to UI faculty and graduate students to pursue forestry and watershed management sciences.

Snake River Conservation Research Center

The Snake River Conservation Research Center at Kimberly, Idaho, has been developed as a cooperative facility between UI and the U.S. Department of Agriculture. USDA scientists specialize in research to improve soil and water management practices and to contribute to a better understanding of basic soil processes. Programs are focused on systems and practices that improve irrigation uniformity, efficiency, and crop yields; decrease costs and energy; and reduce soil erosion. Collaborative research projects between the USDA and UI specialists provide graduate students the opportunity to work closely with experts in both agencies and to utilize expanded facilities. USDA scientists hold affiliate faculty rank and may assist in directing student research projects and serve on graduate committees.

Statistics Consulting Center

The Statistics Consulting Center, College of Science, provides assistance in the design of experiments and sample surveys, advice on statistical analyses, and expertise on recent developments in statistical research. Proper statistical design and analysis play a key role in producing quality research within the university. The optimal time to seek statistical consulting is during the earliest stages of the research project, and certainly before any data collection stage. Faculty members and graduate students from any discipline are welcome. The center is located on the fourth floor of Brink Hall and operates a free walk-in clinic. Faculty are also available by appointment.

DEGREES GRANTED

On completion of specific courses of study and recommendation of the faculty, the degrees listed below are granted by the Regents of the University of Idaho.

Baccalaureate Degrees

- Bachelor of Arts, B.A.
- Bachelor of Fine Arts, B.F.A.
- Bachelor of General Studies, B.G.S.
- Bachelor of Interior Design, B.I.D.
- Bachelor of Music, B.Mus.
- Bachelor of Science, B.S.
- Bachelor of Science in
 - Agricultural and Life Sciences, B.S.Ag.L.S.
 - Agricultural Economics, B.S.Ag.Econ.
 - Agricultural Education, B.S.Ag.Ed.
 - Animal and Veterinary Science, B.S.A.V.S.
 - Architecture, B.S.Arch.
 - Art Education, B.S.Art Ed.
 - Biochemistry, B.S.Biochem.
 - Business, B.S.Bus.
 - Chemical Engineering, B.S.Ch.E.
 - Civil Engineering, B.S.C.E.
 - Computer Engineering, B.S.Comp.E.
 - Computer Science, B.S.C.S.
 - Dance, B.S.Dan.
 - Early Childhood Development and Education
 - B.S.Erly.Chldhd.Dev.Ed.
 - Ecology and Conservation Biology, B.S.Ecol.-Cons.Biol.
 - Education, B.S.Ed.
 - Electrical Engineering, B.S.E.E.
 - Environmental Science, B.S.Env.S.
 - Exercise Science and Health, B.S.E.S.H.
 - Family and Consumer Sciences, B.S.F.C.S.
 - Fire Ecology and Management, B.S.Fire.Ecol.Mgmt.
 - Fishery Resources, B.S.Fish.Res.
 - Food Science, B.S.F.S.
 - Forest Resources, B.S.For.Res.
 - Landscape Architecture, B.S.L.A.
 - Materials Science and Engineering, B.S.M.S.E.
 - Mechanical Engineering, B.S.M.E.
 - Microbiology, B.S.Microbiol.
 - Molecular Biology and Biotechnology, B.S.M.B.B.
 - Natural Resource Conservation, B.S.Nat.Resc.Consv.
 - Plant Science, B.S.Pl.Sc.
 - Rangeland Conservation, B.S.Rangeland.Consv.
 - Recreation, B.S.Rec.
 - Renewable Materials, B.S.Renew.Mat.
 - Soil and Water Systems, B.S.S.W.S.
 - Technology, B.S.Tech.
 - Wildlife Resources, B.S.Wildl.Res.

Master's Degrees

- Master of Accountancy, M.Acct.
- Master of Architecture, M.Arch.
- Master of Arts, M.A.
- Master of Arts in Teaching, M.A.T.
- Master of Business Administration, M.B.A.
- Master of Education, M.Ed.
- Master of Engineering, M.Engr.
- Master of Fine Arts, M.F.A.
- Master of Landscape Architecture, M.L.A.
- Master of Music, M.Mus.
- Master of Natural Resources, M.N.R.
- Master of Public Administration, M.P.A.
- Master of Science, M.S.
- Master of Science in Athletic Training, M.S.A.T.
- Professional Science Master, P.S.M.

Education Specialist Degrees

- Education Specialist, Ed.S.
- Education Specialist in Educational Leadership, Ed.S.Ed.Ldrshp.

Professional Degree in Law

- Juris Doctor, J.D.

Doctoral Degrees

- Doctor of Athletic Training, D.A.T.
- Doctor of Education, Ed.D.
- Doctor of Philosophy, Ph.D.

ACADEMIC OFFERINGS AT THE UNIVERSITY OF IDAHO

Programs offered by the university are shown in the list below. After a student has completed the requirements for a degree, the degree name and, if not already a part of the degree name, the major curriculum as shown in this list are printed on the student's diploma. (Options listed under some curricula are areas of concentration within the major. Options, emphases, academic minors, and academic certificates are recorded only on the student's final transcript.

Program	Bachelor	Master	Education	Doctoral	Academic	Academic	Offered

ADMISSION TO THE UNIVERSITY

- Application and First Year Admission Requirements (p.)
- Transfer Admission (p.)
- Readmission and Petition (p.)
- Dual Credit and Non-degree (p.)
- International Admission (p.)
- Transfer Credit Evaluation (p.)
- General Education Requirements for Transfer Students (p.)
- Graduate Admission (p.)
- Graduate Admission Categories (p.)
- Additional Information for International Students (p.)

Information about the undergraduate admission process and application forms are available from the Office of Admissions or online at www.uidaho.edu/admissions. Applicants for admission to the university must present satisfactory evidence of good character.

Application Procedures

All applicants for admission are required to submit:

1. The appropriate, completed application form (i.e., undergraduate, non-degree, or international). Failure to list all institutions attended or submission of inaccurate transcripts or other supporting documents as specified on the application form is considered fraud and subjects the applicant to immediate cancellation of his or her registration and/or dismissal from the university.
2. Official transcripts from the last high school and all colleges or universities attended. (See sections on first-year, transfer, non-degree, or international admission requirements for further details.)
Transcripts submitted in support of an application must be official and must be sent directly to the Office of Admissions by the issuing institution. Transcripts received become the property of the university and cannot be returned, copied, or forwarded. Official transcripts must be signed by the registrar, superintendent, principal, or other authorized official of the school.
3. Applicants who are still in high school should apply during their senior year and should ask their high school counselor to send a copy of their current transcript and ACT or SAT scores to the Office of Admissions. If qualified, the applicant will be given an early notice of acceptance based on this record. Final acceptance will be granted when the university receives a final transcript mailed directly from the high school verifying that the applicant has graduated from a regionally accredited high school and has satisfied all admission requirements.
4. Scores from the College Board (SAT) or the American College Testing Program (ACT) if applying for admission to the freshman class. This includes transfer applicants with fewer than 14 transferable semester credits. International applicants are not required to submit ACT or SAT scores.
5. A non-refundable application fee of \$60 for domestic applicants, \$70 for international applicants, and \$30 for applicants seeking readmission. Review of the application will be delayed until this fee is received. This fee is not charged to students applying for non-degree admission.

Application Deadlines. To provide time for evaluation and for notice of acceptance to reach the applicant, applications and credentials should be submitted to the Office of Admissions at least three weeks prior to the beginning of classes. International applicants have different deadlines (see "International Admission Requirements").

Notification of Admission. When all of an applicant's credentials have been received and he or she has been found eligible, a letter of acceptance will be sent. Acceptance is granted for a specified semester or summer session. If an applicant does not register for the term for which he or she applied and was accepted, it will be necessary to file a new application if entrance at a later time is desired.

First-Year Admission Requirements

First-year applicants graduating from high school prior to 1995 must meet the requirements in effect for their graduation year. A degree-seeking applicant applying directly from high school or with fewer than 14 semester credits of transferable college work earned after high school graduation must:

1. Submit ACT or SAT scores.
2. Graduate from a regionally accredited high school with a combination of cumulative GPA¹ and test scores² as defined in the following table:

High School GPA	ACT Composite	SAT Verbal + MATH
3.00 - 4.00	Any test score	Any test score
2.60 - 2.99	15 - 36	740 - 1600
2.50 - 2.59	17 - 36	830 - 1600
2.40 - 2.49	19 - 36	910 - 1600
2.30 - 2.39	21 - 36	990 - 1600
2.20 - 2.29	23 - 36	1070 - 1600

¹ Unweighted

² Written sections of the test not required for admission.

3. Complete specified high school courses with a minimum 2.00 GPA as listed below. A credit is defined as a course taken with a minimum of 70 hours of classroom instruction. A high school credit can be counted in only one category.
 - a. **English:** A minimum of 8 credits (4 years), selected from composition and literature courses or courses that integrate composition, language, and literature.
 - b. **Mathematics:** A minimum of 6 credits (3 years) including algebra I or applied math I, geometry or applied math II, and algebra II. An additional 2 credits are strongly recommended. Other courses may include probability, discrete math, analytic geometry, calculus, statistics, and trigonometry. **Four of the required mathematics credits must be taken in the 10th, 11th, and 12th grades.**
 - c. **Social Science:** A minimum of 5 credits (2 ½ years), selected from American government (state and local), geography, U.S. history, world history, psychology, sociology, and economics (consumer economics courses approved by the Idaho State Board of Education may be counted toward this requirement).
 - d. **Natural Science:** A minimum of 6 credits (3 years), selected from anatomy, biology, chemistry, geology, earth science, physical science, physiology, physics, zoology, and applied science courses jointly approved by the State Department of Education (SDOE) and the State Department of Professional-Technical Education (DSPTE) (maximum of two credits in this category). Ecology will count if SDOE approved. At least two credits must

involve laboratory science experience. Note: A laboratory science course is defined as one in which at least one class period each week is devoted to providing students the opportunity to manipulate equipment, materials, or specimens; develop skills in observation and analysis; and discover, demonstrate, illustrate, or test scientific principles or concepts.

- e. **Humanities/Foreign Language:** A minimum of 2 credits (1 year), selected from literature, history, philosophy, foreign language, fine arts, and interdisciplinary humanities (related study of two or more of the traditional humanities disciplines). These courses should emphasize history, appreciation, theory, analysis, and/or critique. History courses beyond those required for state high school graduation may be counted. Foreign language study is strongly recommended. Native American language (five Idaho tribes) may meet this requirement if taught by certified high school faculty.
- f. **Other College Preparation:** A minimum of 3 credits (1 ½ years), of which no more than one credit may be in speech or debate (debate must be taught by a certified teacher). Other courses may include studio/performing arts (art, dance, drama, and music) or foreign language (beyond any foreign language credit applied in the humanities/foreign language category). May include no more than two credits in SDPTE-approved classes in agricultural science and technology, business and office education, health occupations education, family and consumer sciences education, occupational family and consumer science education, trade, industrial, and technical education, and individualized occupational training. Applicants with fewer than 14 semester hours of transfer credit completed after high school graduation must meet both first-year and transfer admission requirements, including submission of the required test scores. (See "First-Year Admission Requirements" above.)

Students who have participated in running start, dual credit or accelerated learning programs who concurrently enroll in college credit courses while still in high school need to meet first-year requirements for admission and submit all of the appropriate high school documentation regardless of the number of transferable credits completed. See First-Year Admission Requirements.

If a first-year applicant does not qualify for regular admission or satisfies one of the criteria below, he or she may apply to the Admissions Committee for consideration (see Applying to the Admissions Committee).

1. Graduates from a non-accredited high school,
2. Is home schooled,
3. Obtains a General Educational Development (GED) certificate,
4. Deserves consideration because of special circumstances (i.e. disadvantaged or minority status, delayed entry, returning veteran, a talented student wishing to enter college early, and/or similar situations).

Transfer Admission Requirements

Applicants who have been enrolled in other colleges or universities accredited by one of the regional accrediting agencies, such as the Northwest Commission on Colleges and Universities, and who have satisfactorily accumulated 14 or more transferable credits after high

school graduation may be admitted with advance standing as transfer students.

In addition to a completed undergraduate admission application form, transfer applicants must submit the following credentials to the Undergraduate Admissions Office:

1. Official transcripts from each college or university previously attended. To be considered official transcripts must be mailed directly to the University of Idaho Undergraduate Admissions Office by the issuing institution. **Transcripts received become the property of the university and cannot be returned, copied or forwarded.**
2. Applicants with fewer than 14 semester hours of transfer credit since high school graduation must meet both first-year and transfer admission requirements, including submission of the required test scores. (See "First-Year Admission Requirements".)
3. Students participating in running start, dual credit or accelerated learning programs who are concurrently enrolled in college credit courses while still attending high school need to meet first-year requirements for admission and submit all the appropriate high school documentation regardless of the number of transferable credits completed. See First-Year Admission Requirements.

Transfer students are selected from those applicants who present a cumulative grade-point average of at least 2.00 (C) for all college-level study attempted in all accredited colleges attended, exclusive of courses for which credits are not allowed. Students transferring from out-of-state schools into the College of Engineering must have a cumulative grade-point average of at least 2.80. Admission of transfer students to the landscape architecture program will be based on GPA (typically limited to 2.5 or above), test scores (ACT/SAT), and a portfolio with a letter of intent submitted to the department.

Students admitted to the University of Idaho from other collegiate educational institutions must have complied with the academic regulations for continuance in the institution(s) that they have attended in addition to the academic regulations that are applied to students enrolled in this institution.

An applicant with previous college work who does not qualify for regular admission may also seek provisional acceptance by applying to the Admissions Committee for consideration (see Applying to the Admissions Committee).

Readmission Requirements

Students returning after two years from last attendance must complete an Application for Readmission and submit a \$30 application fee and official transcripts from all colleges or universities attended since last enrolling at UI. (Also see regulation B-1 (p. 73)) Application forms are available online at www.uidaho.edu/admissions.

Returning students who were not in good academic standing when they left the university need to submit the above materials and follow the appropriate reinstatement procedures as stated in regulation L-4 (p. 93). Contact the Admissions Office for more information (208-885-6326, admissions@uidaho.edu).

Applying to the Admissions Committee

Applicants who do not qualify for admission to the University of Idaho may petition the Admissions Committee. Such applicants must submit to the Undergraduate Admissions Office an application for admission, the appropriate fee, all required official transcripts and test scores, three

signed letters of recommendation, and a signed written statement of the student's objectives. This information should be received in the Undergraduate Admissions Office by August 1 for fall semester and December 1 for spring semester.

Students admitted through the Admissions Committee may be granted regular or provisional admission and will be subject to the regulations on academic probation, disqualification, and reinstatement (see regulation L (p. 93)). The Admissions Committee may assign provisionally admitted students a primary advisor. These students, while on provisional status, will need this advisor's approval before registering and when making any changes to their registration. They may be required to attend pre-academic planning within an office or a program of the University.

Freshmen admitted provisionally may change to regular admission status upon satisfactory completion of 14 credits, 12 of which must be in four different categories of the general education requirements (see regulation J-3 (p. 84)). Regular admission status must be attained within three semesters or the student will be dismissed, subject to the Admissions Committee's appeal procedures.

Transfer students admitted provisionally must enroll on probation, meet all conditions imposed by the committee, and complete the first semester with at least a 2.00 grade-point average or they will be dismissed, subject to the Admissions Committee's appeal procedure.

Dual Credit

Dual credit is a program authorized by the Idaho State Legislature that provides qualified high school students with an opportunity to receive both high school and university credit for classes taken at the University of Idaho. High school students are eligible if they are at least 16 years old before the first day of class in any semester OR they have completed at least half the high school graduation requirements (generally high school juniors and seniors).

To apply for the dual credit program, students must complete the UI "Application and Registration for High School Dual Credit" form, available from the Office of Dual Credit (208-885-6237) or online at <http://dualcredit.uidaho.edu/students/>. The completed application must be signed by the student's parent/guardian and high school principal or counselor. Students under age 16 must also obtain permission from the course instructor. Written notice of acceptance to the dual credit program and confirmation of registration will be provided to the student. Dual credit students are not eligible for federal or state financial aid programs.

Non-degree Admission Requirements

This category is for applicants who wish to enroll in courses pertaining to their personal interest and who do not want to work toward a formal degree at the University of Idaho. Application forms are available on-line at www.uidaho.edu/admissions.

A person admitted as a non-degree student who wants to take undergraduate courses must

1. be a high school graduate or have completed the GED;
2. understand that acceptance in this category does not constitute acceptance to a degree-granting program;
3. have sufficient educational background to qualify for the course or courses in which enrollment is sought;
4. accept personal responsibility for the applicability of credits earned while registered in this category; and

5. understand that students in this non-degree category cannot be considered for federal or state financial aid.

A student who has not yet graduated from high school or obtained a GED may be admitted as a non-degree student based on the dual credit policies of the University of Idaho (see Dual Credit).

A person admitted as a non-degree student who wants to take graduate-level courses must have an undergraduate degree from an accredited institution with a GPA of 3.00 or higher. Strict limitations exist for use of non-degree credits toward a graduate degree. Please refer to the College of Graduate Studies (p. 221) section.

Applicants whose native language is not English must provide proof of English proficiency.

A non-degree student may register for no more than 7 credits each semester and may complete a maximum of 32 semester credits. Students on official UI exchange programs and those in the dual credit program are not limited to 7 credits each semester. International exchange students must take 12 or more credits. Upon completion of 32 semester credits, the student must either be admitted as a degree-seeking student at the University of Idaho or submit a letter of appeal to continue as a non-degree student. Permission of the instructor is required to enroll in courses numbered 500-600. Permission of the dean of the College of Law is required to enroll in courses numbered 800-999.

A non-degree student seeking admission as an undergraduate student or as a graduate student will remain classified as a non-degree student and will not be admitted to a program until all admission requirements have been met. Total credits and the UI GPA will be considered when applying for admission. Credit earned as a non-degree student will be moved to the undergraduate transcript upon admission as an undergraduate student unless the student specifically requests in writing to the Registrar's Office that all credits earned remain on the non-degree transcript.

Any deviations to the admission policy or credit limits will be acted on by the Director of Admissions and/or the Admissions Committee if the student wishes to enroll for undergraduate credit. Any deviations to the admission policy or credit limits will be acted on by the associate dean of the College of Graduate Studies and director of graduate admissions and/or the Graduate Petitions Committee if the student wishes to enroll for graduate credit.

International Admission Requirements

The University of Idaho encourages the application of qualified students from other nations to join its student community. Admission is dependent upon credentials which demonstrate a capacity to succeed academically at the university level. Application forms are available on-line at www.uidaho.edu/admissions.

In some instances, individual departmental requirements may be more rigorous than the general UI admission requirements. In those situations, final admission is based on the department's decision.

All international students who hold nonresident alien visas and who are pursuing a degree (i.e., matriculated) must hold a valid visa status which allows them to study full-time. Some of these visa categories include but are not limited to F-1, J-1, or H-4. The immigration status of international students must comply with the Department of Homeland Security (DHS) regulations. Individuals holding a U.S. tourist visa (VWP, B1, B2) cannot engage in a course of study in the U.S.

Deadlines for international applicants are as follows:

Deadline	Application
May 1	If applying for fall semester
October 1	If applying for spring semester
March 1	If applying for summer term
Application Fee	\$70.00 (non-refundable)

International student applicants must submit:

1. Official transcripts or certified copies of certificate(s), diploma(s), or government examination report(s) received from any educational institution (high school, college, or university). These documents must be translated into English and must be sent by the certifying agency directly to the Undergraduate Admissions Office. Please note: If you are applying after the above deadlines, a professional credential evaluation of your academic transcript(s) is required. Please contact the Admissions Office or visit our website at www.uidaho.edu/admissions for a list of approved credential evaluation agencies.
2. Proof of English language proficiency. UI requires all applicants whose primary language is not English to demonstrate proficiency in the English language. Because most applicants report the test of English as a Foreign Language (TOEFL) score, UI bases its minimum English language proficiency requirements on the TOEFL. UI requires a minimum TOEFL score of 525 (paper test), or 70 (internet test). Equivalent measures of proficiency acceptable to UI include: SAT critical reading with a minimum score of 500; Cambridge International English Language Testing System (IELTS) with a minimum score of 6.0; Cambridge Certificate in Advanced English (CAE) with a pass; Cambridge Certificate of Proficiency in English (CPE) with a pass; Cambridge International "O" Levels with a pass; Michigan English Language Assessment Battery (MELAB) with a minimum score of 74. Exceptions to the minimum TOEFL requirement are made for
 - a. those from official English-speaking countries
 - b. those who have earned a degree from either a U.S. institution or an institution in another official English-speaking country
 - c. those who successfully complete the American Language and Culture Program at the University of Idaho or
 - d. based on the judgment of the Undergraduate Admissions Office, those who have successfully completed English courses at U.S. institutions. If required, the TOEFL score or an approved equivalent must be on file before the application for admission will be processed. UI does not accept scores that are more than two years old. Applicants wishing to take the MELAB on campus should contact the Counseling and Testing Center.
3. A completed "Certificate of Financial Responsibility" and all required supporting documentation as required by the Department of Homeland Security (DHS). International students must present to the Undergraduate Admissions Office satisfactory statements of finances and adequate proof of financial responsibility or sponsorship for all financial obligations while attending the university.
4. If the student is transferring to the University of Idaho from another U.S. college or university, the student must request that their SEVIS record be transferred to the University of Idaho before an I-20 or DS-2019 can be issued.

Undergraduate applicants who have had no previous work at the post-secondary level must have at least a 2.50 grade-point average (on a 4.0 scale) from secondary school and must also meet the criteria for being

admitted to a university level institution in the applicant's home country in order to be considered for admission to the University of Idaho.

Undergraduate applicants who have attended a post-secondary-level institution must have completed at least 14 transferable semester credits at an accredited/recognized institution and must present a minimum grade-point average of 2.00 for all post-secondary work attempted. For admission into the College of Engineering, transfer students must have a cumulative grade-point average of at least 2.80.

Other departments have additional requirements.

Students who have completed fewer than 14 transferable semester credits (post-secondary) must meet the secondary school GPA requirements in addition to the post-secondary transfer requirements.

Applicants who do not meet the minimum university admission requirements may apply to the Admissions Committee. Those applicants must submit an application for admission, the appropriate fee, all required official transcripts and official translations, test scores, three signed letters of recommendation, and a signed written statement of their educational objectives. All materials supporting the applicant's appeal must be submitted in English. This information should be received in the Undergraduate Admissions Office by *May 1* in order to be considered for the fall semester and *October 1* for the spring semester.

International Application Deadlines

To provide time for evaluation, for notice of admission status to reach the applicant, and for DHS requirements to be met for issuance of a student visa, applications and credentials should be received by the Undergraduate Admissions Office no later than the following dates: May 1 for the fall semester, October 1 for the spring semester, and March 1 for the summer session. Please note: If you are applying after the above deadlines, a professional credential evaluation of your academic transcript(s) is required. Please contact the admissions office or visit our website at www.uidaho.edu/admissions for a list of approved credential evaluation agencies.

International Conditional Admission

Conditional admission may be granted to applicants who qualify academically, but have not yet achieved UI's minimum English language proficiency requirement. Students granted conditional admission must enroll in UI's American Language and Culture Program (ALCP) to achieve the University's English language requirement. If the required level of language proficiency is not achieved within a two-year time period, applicants may petition to continue in the ALCP, and will need to submit a new application for admission to the academic department. Those who are granted conditional admission may qualify for concurrent enrollment.

International Student Concurrent Enrollment

Students admitted under conditional status and students enrolled in ALCP Level 5 or Level 6 may, in consultation with the coordinator of ALCP (to determine appropriate courses) and the course instructor, obtain approval to enroll as non-degree students for up to seven credits per semester of academic courses in addition to their ALCP courses. Students whose proficiency levels later prove inadequate for success in the academic courses may be withdrawn at the discretion of the academic course instructor and the ALCP coordinator. Once students achieve the necessary language qualification and pursue full admission to the university, they may apply credits of academic courses completed while in conditional status toward UI degree programs (other university restrictions may apply).

International Student Health and Accident Insurance

Supplemental health and accident insurance is mandatory for international students who hold nonresident alien visas and all accompanying dependents. Students must purchase and maintain the UI Student Health Insurance policy (SHIP) or document coverage of an equivalent policy with the International Programs Office before classes begin. Failure to obtain and maintain the required insurance may subject students to sanctions, up to and including disenrollment. See information on insurance (p. 61) in the Student Services section.

Status

In order to pursue a degree, international students must be authorized in their current visa status. Immigration regulations require that international students holding F-1 (non-sponsored student) or J-1 (exchange visitor, student classification) visas be certified as full-time students during the academic year. Graduate students are thus required to take a minimum of nine credit hours. For all other visa holders, contact the International Programs Office for rules governing taking courses while in the U.S.

International Student Advisors

The international student advisors (ISAs) are involved with an international student's progress at every stage of the educational process. Once a student has been admitted, the ISA's provide general information about cultural adjustment and the educational system, as well as specific details regarding immigration regulations. Interested students may be paired with local host families for cultural activities through the university's International Friendship Association. All matters pertaining to a student's non-immigrant status are handled through the International Programs Office. A mandatory orientation before registration provides new students with assistance on initial questions. After this orientation, students are invited to visit the ISA's at any time with questions or concerns relating to immigration matters, education, finances, and cultural adjustment. The ISA's also serve as official liaisons between students and their consular offices or sponsoring agencies and the Department of Homeland Security.

International Student Fees

The University of Idaho's International Programs Office strives to provide new international students with the greatest assistance possible as they settle into their new homes in Moscow. As such, attendance at the multi-day international student orientation is required for all new students. This orientation will include a complete immigration workshop as well as offer several meals and other activities. There is a one-time cost of \$65 for all new international students which will be added to their student account after they have attended this event. Any student who does not attend this orientation will be charged an additional \$100 and be required to attend a late orientation session, for a total cost of \$165. There will be a \$50 per semester program cost to support international student programming at the university. Please note: These costs do not apply to students on UI exchange programs.

Evaluation of Transfer Credits

Upon admission to the University of Idaho and receipt of all official transcripts, college level courses completed at regionally accredited institutions are evaluated by the Registrar's Office. All credits accepted must be from regionally accredited American institutions or from non-US institutions recognized by the appropriate authorities in their respective countries. The UI degree audit details the applicability of the transfer courses to the student's program of study and general education requirements. The student's major department may further evaluate the

applicability of the transfer courses to the student's selected program of study. Transfer credits are not included in the computation of a student's grade point average at the University of Idaho. Students with courses from educational sources that do not have regional accreditation may request to have the courses reviewed by the UI University Curriculum Committee for possible transfer to UI. Transfer credit from non-U.S. institutions is recorded with grades of pass or fail only. Transcripts from non-U.S. institutions must be evaluated by an academic credential service. Accepted transfer credits are recorded on the student's permanent record after he or she is officially admitted. The UI database of courses transferable from accredited colleges and universities is on the web at <http://www.uidaho.edu/registrar/transfer>.

Credit for Military Service

Credit may be given for military courses according to recommendations in the American Council on Education (ACE) Service Guide. Credit is not awarded for the military occupation specialties or basic training courses.

Credits awarded for military service are recorded with grade of pass or fail only and will appear on UI transcripts after the student is officially admitted. Official documentation is necessary and may include official DD214 papers, official certificates showing completion of courses, and/or an official DD295 Form. Official documents should be sent to the Office of the Registrar, PO Box 444260, Moscow, ID 83844-4260. (See regulation J-5-b (p.62) for credit limitations.)

Credit Based on Test Scores

Credit is granted for specific scores on some of the following tests: ACT, SAT, COMPASS, DSST, AP (College Board Advanced Placement), CLEP (College Level Examination Program), IB (International Baccalaureate) and General Certificate of Education Examinations (A-Level). (See regulation I (p. 83)).

General Education Requirements for Transfer Students

One of the requirements for a University of Idaho (UI) baccalaureate degree is fulfillment of the general education requirements.

Students who earn an Associate of Arts (A.A.) or Associate of Science (A.S.) degree from a regionally accredited institution will be considered as satisfying the general education requirements. Students who have completed the Intersegmental General Education Transfer Curriculum (IGETC) at a regionally-accredited California community college will be considered as satisfying the general education requirements.

Students who have completed the 36-credit general education requirements, as defined in Idaho State Board Policy III.N, without an Associate of Arts or Associate of Science Degree and transfer from a regionally accredited postsecondary institution in Idaho will not be required to complete additional general education requirements at UI.

Students who enter UI without having completed an A.A. or A.S. or are not certified as having completed the equivalent of Idaho's State Board of Education general-education core have two options for fulfilling the general-education requirement.

One option is to satisfy the requirement as outlined in regulation J-3 (p. 84) in this catalog. In this case, transfer credits are evaluated on a course-by-course basis for equivalency to courses specified in J-3, and deficiencies are made up by completing the necessary additional credits in non-duplicating courses listed in J-3.

The second option is to satisfy the general education requirements established by the Idaho State Board of Education as set forth immediately below. In this case, transfer credits are evaluated by subject matter, rather than on a course-by-course basis, and deficiencies are made up by completing the necessary additional credits in non-duplicating courses listed in J-3. Courses that are approved to satisfy a core requirement can be used to satisfy those requirements even if the course is completed prior to being approved as a core course.

Alternative General Education Requirements for Transfer Students

A minimum of 36 credits is required from the following categories. Additional courses may be completed in any of the below categories to complete the required 36 credits.

1. **Written Communication:** 3-6 credits (Depending on initial placement)
2. **Oral Communication:** 2 credits
3. **Mathematical Ways of Knowing:** 3 credits
4. **Scientific Ways of Knowing:** 7 credits (From two different disciplines with at least one laboratory or field experience)
5. **Humanistic and Artistic Ways of Knowing:** 6 credits (From two different disciplines)
6. **Social and Behavioral Ways of Knowing:** 6 credits (From two different disciplines)

Graduate Admission to the University

Graduate programs are offered through one or more of the following locations: Moscow, the UI's Centers in Boise, Coeur d'Alene, or Idaho Falls, as well as Engineering Outreach or other distance learning opportunities. Please see www.uidaho.edu/admissions/graduate to determine where graduate programs are delivered.

More than 600 faculty members participate in teaching and research. In addition to the accreditation of some individual programs, the University is accredited by the Northwest Commission on Colleges and Universities.

Academic Requirements

Students who satisfy all criteria listed below will be considered for graduate admission to the University of Idaho:

1. Have a bachelor's degree from a regionally accredited U.S. college or university or recognized international institution. If the degree is not from a regionally accredited institution, the application may be reviewed by the department and by the College of Graduate Studies. Or
Have completed three years of undergraduate study in an international accredited institution which has a Memorandum of Understanding in place with the University of Idaho for a cooperative 3+2 program leading to a graduate degree. Cooperative 3+2 programs may have higher entrance requirements. (see COGS (<http://www.uidaho.edu/cogs>) website for a list of 3+2 programs).
2. Have an undergraduate cumulative grade-point average of 3.00 or higher or an undergraduate grade-point average of 3.00 or higher for the last 60 semester credits (or 90 quarter credits),
3. Have maintained at least a 3.00 grade-point average in subsequent academic work if any, and
4. Have met any additional requirements set forth by the department or program which may be required. Please, review the graduate

admissions website for specific departmental/program requirements at www.uidaho.edu/admissions/graduate.

5. Have been reviewed and recommended for acceptance by the academic unit administering the program in which the student seeks to enroll. For individual academic unit admission requirements, please refer to individual department sections of this catalog or consult the Graduate Admissions website at www.uidaho.edu/admissions/graduate.

The College of Graduate Studies requires all applicants to provide three letters of recommendation, a one to two-page Statement of Career Objectives, a one to two-page resume/curriculum vitae, and academic records of all colleges/universities attended.

Students planning to apply for work leading to a graduate degree should contact the academic unit in which they wish to major **before** submitting the application for graduate admission. All admission recommendations are made at the academic unit level with final admission decision made by the College of Graduate Studies. Admission is granted **only** to a specific degree and program and initial admission is granted for a specific semester.

English Language Proficiency

UI requires all applicants whose primary language is not English to demonstrate proficiency in the English language. Because most applicants report the Test of English as a Foreign Language (TOEFL) score, UI bases its minimum English language proficiency requirements on the TOEFL. UI College of Graduate Studies requires a minimum TOEFL score of 79. UI does not accept scores that are more than two years old. Official scores must be sent directly from the test administering agency.

Equivalent measures of proficiency acceptable to UI include the MELAB (77), the Cambridge IELTS (6.5), and the PTE Academic (58). It is important to verify the departmental TOEFL score requirement as many departments require a score higher than indicated above. Exceptions to the minimum TOEFL requirement are made for

1. those from official English-speaking countries,
2. those who have earned a bachelor degree or higher from another U.S. institution, or
3. have completed ALCP level 6.

Admission application files will be sent to the academic unit for review once all required documents have been received by the Graduate Admissions Office and the application fee has been paid.

Priority Deadlines and Application Fees

Domestic Applicants	International Applicants
Fall-February 1	Fall-February 1
Spring-September 1	Spring-September 1
Summer-February 1	Summer-February 1
Non-refundable application fee \$60	Non-refundable application fee \$70

By meeting the priority deadline, the student will receive full consideration for College of Graduate Studies tuition waivers. Individual academic units may have earlier admission deadlines especially for applicants seeking financial assistance or assistantships.

The academic unit will determine which terms they will admit students. Check the Graduate Admission Department Requirements website for

applicable admission terms (www.uidaho.edu/admissions/graduate/graduate-programs).

Applications received after the above deadlines but before the official start of the semester for which the applicant is seeking entry will be accepted only if additional students can be accommodated.

Please consult the graduate admissions website at www.uidaho.edu/admissions/graduate for more information regarding academic departments' requirements and deadlines.

The Graduate Admissions Office is not authorized to release application information to anyone other than the applicant without written authorization. Please submit a Student Consent for Release Form (<http://www.uidaho.edu/registrar/forms>) (available on the admissions website) if you want someone specific to be given information regarding your admission status.

Deadline for International Application for Admission

To provide time for evaluation, for notice of admission status to reach the applicant, and for United States Immigration and Customs Enforcement (USICE) requirements to be met for issuance of a student visa, applications and credential should be received by the Graduate Admissions Office no later than the following dates: for Fall semester, May 1; for Spring semester, October 1; for summer session, March 15.

Graduate Record Examination

The Graduate Record Examination (GRE) is not a College of Graduate Studies requirement but is required by some academic units. Official GRE results must come from the Educational Testing Service. In rare cases, if the examination is beyond 5 years old, the Director of Graduate Studies (DGS) may allow students to provide unofficial results of the examination with their admission application to facilitate evaluation and acceptance.

Transcripts and Application for Graduate Admission

Students wishing to enter the College of Graduate Studies must submit a University of Idaho application for admission, three letters of recommendation from professional/academic references, a statement of career objectives, a vitae/resume, and have official transcripts delivered to the Graduate Admissions Office. Transcripts become the property of the university and cannot be copied, returned, or forwarded.

A copy of the official transcript (and English translation for all foreign language documents) for every college and university that the applicant attended is acceptable for the application review process. Applicants may upload copies of official transcripts and translations via the online application. Uploaded transcripts must be legible. Please scan at 600 dpi resolution minimum. Applicants who have already earned a graduate degree from a regionally accredited U.S. institution and are seeking a graduate degree at Idaho will need to submit official transcripts from the graduate degree granting institution and unofficial copies of previous undergraduate work. All transcripts sent to the Graduate Admissions Office as part of the application process become part of the official Graduate Admissions application file and cannot be returned.

Official Academic Credentials

Transcripts, mark sheets, grade reports, or examination results, along with degree certificates from all higher education institutions attended will be required to complete acceptance. Graduate admissions accepts

electronic transcripts from the National Student Clearinghouse, Parchment and eSCRIPT-SAFE. When sending official transcripts from schools located in non-English-speaking countries, each institution must submit both the English translation plus an original language record. Academic Credentials should be sent Express Mail through (FedEx, UPS, or DHL) to the following address: University of Idaho Graduate Admissions Office, 820 Idaho Ave. Morrill Hall 205 Moscow, ID 83844-3019. Transcripts sent through U.S. Mail should be sent to University of Idaho Graduate Admissions Office, 875 Perimeter Drive MS3019, Moscow Idaho, 83844-3019. Transcripts not sent directly from an institution or are hand delivered in a sealed envelope, stamped and or signed by the appropriate authority may be considered official upon evaluation. If transcripts are deemed unofficial, then official transcripts must be received before registration opens for subsequent terms or a registration hold will be placed on the students' registration. Any discrepancies later found between the student-provided /uploaded transcripts and official transcripts will be grounds for immediate dismissal. The College of Graduate Studies reserves the right to request a third-party, course-by-course, evaluation of transcripts at any time. The cost of the evaluation will be the responsibility of the student.

Acceptance to the College of Graduate Studies

When admitted to the College of Graduate Studies, a graduate applicant will be issued a letter of acceptance. Acceptance is granted for a specified term. If an applicant does not register for the term admitted but wishes to enroll in a future term, the applicant may request a deferment.

Graduate Admission Categories

Regular Enrollment

Regular enrollment for graduate study leading toward an advanced degree may be granted to a student who satisfies all of the following criteria:

1. has a bachelor's degree from a college or university accredited by a regionally accrediting association,
2. has an undergraduate cumulative grade-point average of 3.00 or higher or an undergraduate grade-point average of 3.00 or higher for the last 60 semester credits (or 90 quarter credits),
3. has maintained at least a 3.00 grade-point average in subsequent academic work if any, and
4. has been reviewed and recommended for acceptance by the department administering the program in which the student seeks to enroll.

Students who are part of a recognized 3+2 program will be considered to be regularly admitted when they have met the specific admission requirements of COGS and any enhanced requirements outlined by the department which is offering the 3+2 program.

Provisional Enrollment

A student who is not eligible for regular enrollment may be considered for provisional enrollment (on the master's level only) if approved by the DGS and at least two of the following conditions are met:

1. the student's undergraduate GPA shows steady improvement
2. the student has taken post-baccalaureate undergraduate level course work with A and/or B grades
3. the student has achieved the 75th percentile on the relevant GRE or equivalent exam

4. the student has been out of school for five or more years and has been working for at least one year in the field of the proposed graduate major.

The academic unit specifies provisions that the student must fulfill to be advanced to regular enrollment at the time of his or her acceptance and should not be changed. Provisional enrollment is not available to International students who hold nonresident alien visas and students who are to be appointed to assistantships.

A student may not remain in provisional enrollment status for more than 1 Academic year, or after the completion of 9 credits.

1. A student will be advanced from provisional to regular enrollment provided he or she maintains a GPA of at least 3.00 each semester, (a higher GPA may be specified), fulfills the conditions that were specified at the time of initial enrollment, and receives no incompletes.
2. A student who does not meet the stated conditions for advancement cannot continue in the College of Graduate Studies or enroll in 500-level courses and is subject to normal disqualification and reinstatement procedures.
It is the student's responsibility to be in touch with the administrative unit regarding his or her progress toward meeting the conditions for regular admission.

The conditions specified for a student's advancement to regular enrollment are established at the time of his or her acceptance and must not be changed (i.e., either strengthened or relaxed) thereafter.

Academic units need not require a student to make up ALL of his or her academic deficiencies while in provisional enrollment. Performance on a limited selection of them should suffice to demonstrate whether or not the student has the ability to do satisfactory graduate work. Remaining deficiencies, if any, can be made up after the student is in regular enrollment. The academic unit must be sure that any courses the student is required to take while in provisional enrollment will, in fact, be offered during that period.

Deferred Admission

The College of Graduate Studies will, on the recommendation of the department/program Director of Graduate Studies (DGS) allow a student to defer their admission for up to one year or for cohort programs to the start of the next admission cycle.

A previously admitted student seeking deferred admission must contact the Director of Graduate Studies (DGS) for the academic program in which they were admitted requesting in writing the deferment. The Director of Graduate Studies will communicate with department faculty and determine whether to grant the request for deferral. A departmental memo or e-mail must be submitted from the Director of Graduate Studies to the Director of Graduate Admissions, requesting the deferment. After the College of Graduate Studies approves the request, the student will be notified.

To defer admission to the new term, the student must complete the deferred admission application, which is available through the on-line application system. A link to the application will be provided to the student once the deferral has been approved. The student will be charged a \$30 deferment processing fee.

The application for readmission should be submitted as soon as possible after the deferment is approved, no later than one month before the

newly-selected term begins. **Exception: International students are encouraged to complete the readmission application at the same time as the deferral request. The readmission application link is emailed only after the department approval.**

Note: Additional documents may be required to process the deferred admission application.

Conditional Admission

Conditional admission may be granted to applicants who qualify academically but who have not yet met universities' minimum English language proficiency requirement. Conditional admission status is good for two years. Students may enroll in UI's American Language and Culture Program (ALCP) to achieve the academic units' English language requirement. Students must meet the units' English Language proficiency requirement prior to being granted full admission and advancing into their degree program. Please note that not all academic units grant conditional admission. International students in a 3+2 program are not eligible for conditional admission.

Concurrent Enrollment as an Option of Conditional Admission

Students enrolled in ALCP Level 5 or Level 6 may, in consultation with the coordinator of ALCP and the course instructor, obtain approval to enroll as nondegree students for up to 7 credits per semester of academic courses in addition to their fulltime ALCP courses. Students whose proficiency levels later prove inadequate for success in the academic courses may be withdrawn at the discretion of the academic course instructor and the ALCP coordinator. Once students achieve the necessary language qualification and gain full admission to the university, they may apply the credits of academic courses completed while in conditional admission status toward UI degree programs (other university and College of Graduate Studies restrictions may apply).

Unclassified Enrollment

Unclassified enrollment is for students who do not wish to work for a graduate degree and is not to be used as a probationary category. Admission as an unclassified student does not guarantee subsequent transfer to a degree program. This enrollment category is not open to international students who hold nonresident alien visas or to students who are to be appointed to assistantships. Students on Unclassified enrollment are not eligible for Title IV financial aid.

Non-degree Student

Refer to the "Non-Degree Admission Requirements" section above for a full description of this classification. Non-degree students are not admitted to the College of Graduate Studies. They may, however, take graduate courses with permission of the instructor and the Dean of the College of Graduate Studies if they have earned a baccalaureate degree from a regionally accredited institution with an overall 3.00 GPA. Non-degree students are not eligible for Title IV financial aid. If a non-degree student receives a grade of C, D, or F in a 500-level course, he/she loses the privilege of taking more 500-level courses.

Application Requirements for Graduate Academic Certificates

Applicants must complete the online application for a Graduate Level Academic certificate (\$30.00 application fee) and provide evidence of a completed bachelor's degree from a regionally accredited institution (unofficial transcripts will be accepted for graduate certificate applications) in a generally related area with an overall GPA of at

least 3.0. Students who have below a 3.0 cumulative GPA on their undergraduate record and wish to enroll in a graduate certificate program are encouraged to apply and may be admitted based on departmental review. Certificate only students will be classified as certificate seeking at the graduate level and are not eligible for financial aid. International graduate certificate applicants must meet the University of Idaho language requirement. Due to the nature of this program, immigration regulations prohibit students requiring an F-1 or J-1 visa admission to this program. Current graduate degree seeking University of Idaho Students will be required to fill out a Change of Curriculum form adding the graduate certificate as an additional curriculum. Students should obtain the proper signatures from the department and return to the Office of the Registrar for processing. Current Undergraduate students wishing to earn a Graduate Academic Certificate must be eligible to participate in graduate level courses (minimum requirements – senior standing and a 3.0 UI overall GPA). If the course is not being used for the undergraduate degree the student should file a Course Reservation Request form to reserve the course for the GR transcript (maximum of 12 credits may be reserved for the graduate transcript). Once the student earns their bachelor's degree they may apply as a graduate certificate seeking student and complete the certificate program.

Concurrent or Multiple Level Curricula for Graduate Students

A graduate student may simultaneously enroll in an undergraduate, graduate or law program. The "Credit Reservation Form" indicating course use (graduate, undergraduate or law) is available and must be filed each semester or session. Please note that students seeking a degree at more than one level will need to officially apply for admission at the appropriate level. Placing courses from the undergraduate level to the graduate level or graduate level to the undergraduate level, when no degree is sought, does not require admission to the level where the course will be placed. Student fees for the courses are determined by the student's primary level; however, an undergraduate may be charged graduate fees for any courses placed on the graduate transcript.

Seniors in 500-Level Courses

A senior who has a cumulative grade-point average of 3.00 or higher may enroll in 500-level courses. The course(s) may be placed on either the undergraduate or the graduate transcript but will automatically be placed on the undergraduate transcript unless the student completes a "Credit Reservation Form" form indicating the appropriate transcript placement for the course. The placing of courses on a graduate transcript does not admit or guarantee subsequent admission of such students to the Graduate College. The student must submit the "Credit Reservation Form" to the College of Graduate Studies Office before the last day of the semester in which the Bachelor's Degree is earned. Once a student graduates with their undergraduate degree, courses will not be moved to a graduate level transcript. Students may be assessed graduate fees for courses placed on a graduate transcript.

Returning Students

University of Idaho graduate students who have been absent for two or more years or who has completed one degree and wish to enroll in further courses must file an Application for Re-admission. Re-admission must be approved by the department in whose degree program returning graduate students wishes to enroll.

A Returning Graduate Student wishing to return to the same degree/major:

Graduate Admissions will begin the approval process upon receipt of the online Application for Re-admission (see B-1). The application must be completed for the program you were previously enrolled.

A Returning Graduate Student wishing to change to different degree/major:

Students who wish admission in a new degree/major option or want to change to different program must submit a Change of Curriculum form to College of Graduate Studies with all the appropriate departmental approvals. Returning students changing programs must complete an online Application for Re-admission (indicating the new degree or program) with Graduate Admissions in addition to the Change of Curriculum form.

Additional Information for International Students

The College of Graduate Studies welcomes applications from qualified students from other countries. International applicants are expected to have qualifications equivalent to those required of other graduate students.

Prospective international students must have the equivalent of a U.S. Bachelor's Degree from a recognized institution. Usually this is a minimum of four years of study beyond grade 12 or equivalent. The college or university must be recognized as a degree granting higher education institution by the Ministry of Education or its equivalent in the home country.

If the applicant has completed his or her baccalaureate degree in a country that is a signatory of the Bologna Declaration, then: A Bologna compliant baccalaureate degree at a recognized college or university of at least three years duration, may be acceptable if recommended by the academic program.

For other three-year Bachelor's Degree holders: Not all three-year degrees are equivalent to a U.S. Bachelor Degree. A non-Bologna compliant baccalaureate degree of at least three years duration from a recognized university, may be acceptable if recommended by the academic program and if approved by College of Graduate Studies.

Please, visit the graduate admissions website prior to application to determine if your degree is acceptable and/or equivalent of a U.S. Bachelor's Degree.

Copy of Passport or National Identity Card

The applicant should submit a clear and readable copy of their passport, and if currently in the U.S., a copy of the applicant's visa.

Financial Verification

The U.S. Citizenship and Immigration Services regulations require that every student verify the availability of funds to pay for educational and living expenses before an I-20 or DS-2019 form to obtain a visa to enter the U.S. can be issued. Applicants may submit application materials without financial verification. However, if the department is recommending admission into the graduate program, the student will be required to provide, regardless of the source of funding, a completed "Certificate of Financial Responsibility" and all supporting documentation before an I-20 or DS-2019 will be issued.

Please, see www.uidaho.edu/admissions/graduate/graduate-admissions-forms for financial responsibility forms.

Enrollment Requirements

In order to pursue a degree, international students must be authorized in their current visa status. Immigration regulations require that international students holding F-1 or J-1 student visas be certified as full-time students during the academic year. F-1 graduate students are required to be enrolled in 9 credit hours and are allowed to take up to 3 credits of on-line coursework towards this requirement. J-1 visa holders are also required to enroll in 9 credit hours, but are not allowed to take online classes toward the 9-credit requirement. Other visa categories may be eligible to study in the U.S. Students who do not hold an F-1 or J-1 student status should contact the International Programs Office for rules governing enrollment while in the U.S.

Health and Accident Insurance

Supplemental health and accident insurance is mandatory for international students who hold nonresident alien visas and all accompanying dependents. Students must purchase and maintain the UI health insurance (SHIP) policy or document coverage of an equivalent policy with the International Programs Office before they are allowed to register or attend classes. Failure to obtain and maintain the required insurance may subject students to sanctions, up to and including disenrollment. See information on (p. 61)insurance (p. 61) in the Student Services section.

International Student Advisors

The international student advisors (ISAs) are involved with an international student's progress at every stage of the educational process. Once a student has been admitted, the ISA's provide general information about cultural adjustment and the educational system, as well as specific details regarding immigration regulations. Interested students may be paired with local host families for cultural activities through the university's International Friendship Association. All matters pertaining to a student's non-immigrant status are handled through the International Programs Office. A mandatory orientation before registration provides new students with assistance on initial questions. After this orientation, students are invited to visit the ISA's at any time with questions or concerns relating to immigration matters, education, finances, and cultural adjustment. The ISA's also serve as official liaisons between students and their consular offices or sponsoring agencies and the Department of Homeland Security.

International Student Fees

The University of Idaho's International Programs Office strives to provide new international students with the greatest assistance possible as they settle into their new homes in Moscow. As such, attendance at the multi-day international student orientation is required for all new students. This orientation will include a complete immigration workshop as well as offer several meals and other activities. There is a one-time cost of \$65 for all new international students which will be added to their student account after they have attended this event. Any student who does not attend this orientation will be charged an additional \$100 and be required to attend a late orientation session, for a total cost of \$165. There will be a \$50 per semester program cost to support international student programming at the university. Please note: These costs do not apply to students on UI exchange programs.

International Graduate Ambassador Program

The International Ambassador Program assists prospective international graduate students in learning about the University of Idaho community and culture by connecting them with current international graduate students from their home country. Ambassadors may also serve as

a liaison between graduate programs and prospective international students by aiding the communication process associated with recruiting international students. The International Graduate Ambassador Program is housed within the College of Graduate Studies under the direction of the Graduate Recruitment Coordinator. Please, email uigradstudies@uidaho.edu for additional information on the International Graduate Ambassador Program.

FEES AND EXPENSES

The rates and procedures in this section are subject to change without notice.

The Board of Regents of the University of Idaho approves rate changes each April. For the most current rate information, go to www.uidaho.edu/current-students/student-accounts.

Students are encouraged to register early for classes at the University of Idaho. Information about the registration process is available from the Registrar's Office at www.uidaho.edu/registrar or 208-885-6731. Information regarding fees is available from the Student Accounts Office at www.uidaho.edu/current-students/student-accounts or 208-885-7447.

Annual Expenses

Estimated annual expenses include the cost of undergraduate student fees, nonresident tuition (if applicable), graduate/law/architecture fees (if applicable), room and board, books, and miscellaneous costs (clothing, laundry, transportation, incidentals, social/recreational expenses, fraternal affiliations, and personal needs). For an estimated cost of attendance, see the Financial Aid website, www.uidaho.edu/financialaid.

Students can choose to pay fees in installments. Payment information is shown in the "Deferred Payment of Fees" section further on in this catalog section. Personal checks, bank drafts, money orders, travelers checks, Discover, VISA, and MasterCard are accepted by the university.

Full/Part-Time Registration Fees

Architecture Dedicated Fee

The State Board of Education granted approval to charge a professional fee to all College of Art & Architecture students on a semester basis over and above general tuition and fees. The fee is levied in addition to undergraduate student fees and, if applicable, nonresident tuition.

Undergraduate students carrying 10 or more credits or graduate students carrying 9 or more credits pay the full time Professional fee.

Undergraduate students carrying 9 credits or less credits or graduate students carrying 8 or less credits pay the part-time Professional fee. The Professional fee is used to directly support technology and computing for students and faculty, supplement budgets, hire temporary faculty, support the college's visual and design resource centers, cover professional accreditation costs, and partially support student field trips, guest lecturers and student organizations. See the Student Accounts website, www.uidaho.edu/current-students/student-accounts, for current fee rates.

Graduate Tuition Fee

Graduate students pay this fee in addition to the undergraduate fee and, if applicable, nonresident tuition. Students carrying nine or more credits will pay the full-time Graduate Tuition fee; students carrying eight credits or less pay the part-time Graduate Tuition fee. See the Student Accounts website, www.uidaho.edu/current-students/student-accounts, for current fee rates.

Law Fee

Law students pay the graduate fee and the law fee in addition to the undergraduate student fee and, if applicable, nonresident tuition. Students carrying nine or more credits will pay the full-time Law fee; students carrying eight credits or less pay the part-time Law fee. See the

Student Accounts website, www.uidaho.edu/current-students/student-accounts, for current fee rates.

Undergraduate Student Fee

Unless exempted, all undergraduate students carrying 10 or more credits, all graduate students carrying 9 or more credits, and all research/instructional assistants (including faculty-staff spouses) on full appointment pay the full-time undergraduate student fees. Undergraduate students carrying nine credits or less and graduate students carrying 8 or less credits pay the part-time undergraduate student fees. Undergraduate and non-degree students enrolling in graduate courses must also pay the appropriate graduate fee for graduate level courses. In addition, students in certain divisions may need to pay special fees (see "Special Fees" below). See the Student Accounts website, www.uidaho.edu/current-students/student-accounts, for current fee rates.

Payment of full-time fees covers most laboratory and course charges and entitles the student to membership in the Associated Students University of Idaho (ASUI), to a nontransferable student identification card, to the services of the Alumni Office, and to the other services and facilities maintained by the university for the benefit of the students, subject to charges for special services and the payment of the special fees listed below. No reduction in fees can be made for students who may not want to use any part of these services.

WUE Fee

The Western Undergraduate Exchange Program fee is equal to 50 percent of the institution's full-time undergraduate student fee. This fee is in addition to the undergraduate student fees; nonresident tuition is not assessed to WUE students. See the Student Accounts website, www.uidaho.edu/current-students/student-accounts, for current fee rates.

Nonresident Tuition Fee

Students who are classified as nonresidents of the state of Idaho pay this fee in addition to the student tuition and fees. Undergraduate students carrying ten or more credits and graduate students carrying nine or more credits will pay the full-time nonresident tuition. Undergraduate students carrying nine credits or less and graduate students carrying eight credits or less pay the part-time nonresident fee. See the Student Accounts website, www.uidaho.edu/current-students/student-accounts, for current fee rates. For tuition purposes, a student may be classified as an Idaho resident; see the Registrar's Office website, www.uidaho.edu/registrar, for more information. Students currently enrolled at UI may obtain information and interpretation of the residency regulations from the Registrar's Office. Students who have not yet enrolled may contact the Admissions Office.

Special Fees

Drop Fee (\$5)

This fee is charged for each course dropped with a W after the tenth day of the semester, excluding full semester withdrawals.

Admission Application Fee

For information concerning the application fee, see the section headed Application Procedures (p. 41).

Audit Fee

Students who audit a course pay this fee in addition to any special course fee unless the student has already paid the full-time student fees for

that term. This fee is equivalent to the Part-Time Fee. See the Student Accounts website, www.uidaho.edu/current-students/student-accounts, for current fee rates.

Graduation Fee (\$25)

This fee is payable at the time the student applies for each degree to be awarded by the university. An additional late service charge of \$35 is charged for each application filed after the date listed in the registration calendar.

Extramural Credit Application Fee (\$35). Extramural Credit Fee (\$25 per credit granted)

Students seeking extramural credits earned under regulation I-2 must pay the application fee at the time of application. The per-credit fee is charged to the student's account at the time the credit is granted.

Lab and Course Fees

Special fees are charged for certain courses. Examples include the College of Letters, Arts and Social Sciences that charge a general shop fee and the Movement Sciences department that charges special fees for physical education courses. Special Course fees are noted in the Comment section of the course information in the online Class Schedule.

Late Registration / Late Payment Service Charge (\$75)

Students who register after the first day of classes or pay after the first day of classes must pay this fee.

Late Payment Fee (\$100)

Students who register or pay after the tenth day of classes must pay this fee in addition to the Late Registration/Late Payment Service Charge. Students who have not paid by the last day of month in September, October, or November for Fall and February, March, or April for Spring will be charged an additional \$100 late payment fee each month the balance is not paid in full.

Music Special Fees

All students who enroll in individual instruction pay a course fee. Additionally, fees are charged for some required courses within the music major curriculum. For current fees, consult the School of Music (208-885-6231) or see the Class Schedule.

Petition Fee (\$10)

This fee is charged for each petition submitted to the Academic Petitions Committee or Graduate Council.

Publication and Microfilming Fee (\$65)

At the time the application for the degree is filed, every doctoral candidate pays this fee for the publication of the dissertation abstract and for the microfilming of the dissertation.

Registration Fee for Employee Dependents

Under the Employee Dependent Education Tuition & Fee Waiver Program (FSH 3780), enrollment in the University for reduced fees (50% reduction of in-state tuition and fees) is extended to the dependents (as defined by the Federal Income tax code, Sect. 152) of board-appointed UI employees on regular appointment who work at least half-time, including those on official leave. The Employee Dependent Tuition & Fee Waiver Program is a qualified tuition reduction plan under Sect. 117 of the Internal Revenue Code. Under this program, fees waived for enrollment in undergraduate courses are exempt from federal, state and social security taxes. Reduced fees for graduate level courses (500 and above) are subject to

tax; the tax is payable by the employee and deductions are made from the employee's paycheck by semester. Provisions of federal or state law may, however, change at any time. Please consult your personal tax advisor for implications to your individual situation.

Registration Fee for Senior Scholars

Idaho residents 60 years of age and older are permitted to enroll in courses, on a space-available basis. The fee is \$20 plus \$5 per credit. Senior scholars are enrolled after the regular registration days. In addition to this fee, special course fees for specific courses are also assessed (see Lab and Course Fees). Registration under this program entitles the student to instruction and library privileges only, and does not include insurance, student health services, ASUI membership, Recreation Center privileges or free admission to athletic events. Seniors who are graduate or instructional assistants may not use the Senior Scholar waiver.

Registration Fee for Staff

Under the Employee Educational Assistance Program (UI *Faculty-Staff Handbook* Sections 3740 and 3760), salaried UI employees on regular appointment who work at least half time (including those on official leave) may enroll in the university at the reduced rate of \$20 plus \$5 per credit. Special Lab and Course Fees must be paid by employee. Reduced fees are not eligible for refunds. The Educational Fee and Tuition Reduction Program is a qualified tuition reduction plan under Section 117 of the Internal Revenue Code for undergraduate courses. Under this program, waivers for undergraduate fees are exempt from federal and state employment taxes. For graduate courses, the program qualifies as an Educational Assistance Program under Section 127. Under this program, fee waivers for graduate courses, 500 level and above, are exempt from employment taxes up to an annual amount of \$5250.00. The tax is payable by the employee and deductions are made from the employee's paycheck by semester.

Registration Fee for Staff Spouse

Under the Educational Fee and Tuition Reduction Program, enrollment in the University for reduced fees (\$20 registration fee plus \$5 a credit) is extended to the spouses of board-appointed UI employees on regular appointment who work at least half-time (including those on official leave). The Educational Fee and Tuition Reduction Program is a qualified tuition reduction plan under Section 117 of the Internal Revenue Code. Under this program, fees waived for enrollment in undergraduate courses are exempt from federal, state and social security taxes; fees waived for graduate level courses (above 500) are subject to tax; tax is payable by the employee. Provisions of federal or state law may, however, change at any time. Reduced fees are not eligible for refunds.

Student Health Service Fees

Student Health Services provide a broad spectrum of outpatient medical care services. Please visit the Student Health Services website, www.health.uidaho.edu for hours of operation, health insurance plans, scope of services, and fee for services. Student health insurance fees are also available on the Student Accounts website, www.uidaho.edu/current-students/student-accounts.

Thesis/Dissertation Binding Fee (\$25.00)

At the time the application for the degree is filed, every candidate for an advanced degree who is submitting a thesis or dissertation (including such terminal projects as musical compositions) pays this fee to have two copies of the document bound for the library.

Transcript Fee (\$12.50)

Official transcripts may be ordered at a cost of \$12.50 per copy. For instructions on ordering transcripts, see the Registrar's website, www.uidaho.edu/registrar.

WWAMI Fee

First-year students who enroll in the WWAMI Medical Education Program pay this fee in addition to the undergraduate student fee. For the current WWAMI fee, contact the Student Accounts Office (208-885-7447).

Deferred Payment of Fees

The University of Idaho offers payment plans to students. Fees, tuition, on-campus housing, meal plans, and SHIP charges are eligible to be included in a payment plan. Payment plans require an enrollment fee at the time you start the plan. Please contact Student Accounts for additional information at 208-885-7447 or go to www.uidaho.edu/current-students/student-accounts.

Refund of Fees

Regular Withdrawals

Students who withdraw in accordance with the regulations governing withdrawals are entitled to the following refund of tuition and fees. Refunds are calculated on total fees and tuition charged. Refunds are based on the official date of withdrawal, which is considered to be the date the student begins the withdrawal process. Reduced fees paid by individuals using the employee/employee spouse educational benefit, the senior citizen waiver benefit, or the employee dependent waiver benefit are not eligible for refunds. Special lab and course fees are non-refundable after the second week of class unless otherwise specified by the department charging the fee. All requests for refund of fees must be formally initiated in the semester in which the fees (charges) were incurred. Applicable federal Title IV financial aid funds will be returned to the Department of Education based on statutory regulations.

1. When the official date of withdrawal is prior to or on the first day of classes, 100 percent of fee and tuition charges are refunded.
2. When the official date of withdrawal is after the first day of classes but before the close of the second week of classes, 100 percent of fee and tuition charges are refunded.
3. When the official date of withdrawal is after the close of the second week of classes, no refund is given.

Medical Withdrawals

Students who withdraw in accordance with the regulations governing **medical withdrawals** are covered under the Financial Credit Policy for Medical Withdrawals. The University of Idaho does not generally issue refunds after the refund deadline. However, in instances of medical withdrawals, to encourage students to continue pursuing their education, the University issues financial credits based on the chart below, subject to the following terms:

1. Financial credits are calculated based on the total tuition and fees charged.
2. Financial credits are based on the effective date of the medical withdrawal, as determined by the authorized University official or committee. However, the effective date for financial credit cannot be earlier than the date the student requests a medical withdrawal. In instances where the effective date of a medical withdrawal is before the date a student requests a medical withdrawal, financial credits

will be determined as of the date the student requests a medical withdrawal.

3. Financial credits may be used only by the student who was issued such credit. It is not transferable or assignable to others.
4. Reduced fees arrangements, including, but not limited to, any reduced fees paid by individuals using the employee educational benefit, the employee spouse educational benefit, the employee dependent waiver benefit, the senior citizen waiver benefit, or any other institutional waivers are not eligible for financial credits.
5. Special lab and course fees are non-refundable after the second week of the semester, unless otherwise specified by the department charging the fee, and are also not eligible for financial credits.
6. Applicable federal Title IV financial aid funds will be returned to the Department of Education based on statutory regulations. UI policies and protocols regarding scholarships and institutional aid will also apply. Any financial credit received under this policy shall be automatically applied first to pay any debt owed by the student.
 - a. When the results of the return of Title IV financial aid funds create an owing balance on the account, any financial credit will be automatically applied to the owing balance on the account. If there is still an owing balance after the financial credit is applied, the student will be billed and the owing balance will be due within ten (10) days of the billing date.
 - b. When the results of the return of Title IV financial aid funds and scholarships create a credit balance on the account, the student will not be issued a refund, but rather a financial credit will be placed in a holding account to be used by the student to pay tuition and fees in future semesters. Once the student is registered and charged tuition and fees for a future semester, the student is responsible for requesting that Student Accounts apply the financial credit to pay tuition and fees posted on the student's account.
7. Any financial credit received under this policy will be valid for the following six semesters (with the summer counting as one semester). For example, if financial credit is received for the Spring 2013 semester, such financial credit must be used by the Spring 2015 semester.
 - a. Students who are unable, for medical reasons, to use the financial credit before it expires may petition to request an extension of the expiration date, by following the appeal process described below.
8. Student appeals under this policy are limited to
 - a. Mistakes by the University in applying this policy.
 - b. Requests for extension of credit expiration due to medical reasons.
 - c. Requests for a result different from that outlined in this policy due to exceptional circumstances that pose unusual hardships. Appeals must be submitted to Vice President for Finance and Administration or designee ("VPFA"), must indicate which of the three reasons above is the basis for the appeal, and must include supporting documentation.
 - i. In cases where exceptional circumstances pose unusual hardships, the VPFA may determine that a result different from that outlined in this policy is appropriate.
9. Any time before the financial credit expires, a student who received a financial credit under this policy may elect to receive 50% of amount of financial credit in the form of a refund. To do so, students must fill out the Medical Withdrawal Refund Election Form and provide it to Student Accounts before the financial credit expires. This election is final and cannot be reversed.

Medical Withdrawal Fall & Spring Deadlines/Refunds Percentages

Students who withdraw in accordance with the regulations governing medical withdrawals are entitled to the following financial credit of tuition and fees during the Fall and Spring semesters:

1. Any withdrawal during the first ten days of the semester is treated as a regular withdrawal and is subject to the Tuition and Fee Refund Policy.
2. When the effective date falls after the first ten days and within week 3 and week 4 of the semester, 75% of tuition and fees charged is credited.
3. When the effective date falls within week 5 through week 8 of the semester, 50% of tuition and fees charged is credited.
4. When the effective date falls within week 9 through week 12 of the semester, 25% of tuition and fees charged is credited.
5. When the effective date falls within week 13 and week 14 of the semester, 10% of tuition and fees charged is credited.
6. When the effective date falls within week 15 and week 16 of the semester, 0% of tuition and fees charged is credited.

Medical Withdrawal Summer Deadlines/Refund Percentages

Students who withdraw in accordance with the regulations governing medical withdrawals are entitled to the following financial credit of tuition and fees during the Summer semester:

1. Any withdrawal during the first three days of the semester is treated as a regular withdrawal and is subject to the Tuition and Fee Refund Policy.
2. When the effective date falls after the first three days and within a week that corresponds to 25% or less of the term for that course, 75% of tuition and fees charged is credited.
3. When the effective date falls within a week that corresponds to 25.1% to 50% of the term for that course, 50% of tuition and fees charged is credited.
4. When the effective date falls within a week that corresponds to 50.1% to 75% of the term for that course, 25% of tuition and fees charged is credited.
5. When the effective date falls within a week that corresponds to 75.1% to 87.5% of the term for that course, 10% of tuition and fees charged is credited.
6. When the effective date falls within a week that corresponds to 87.51% or more of the term for that course, 0% of tuition and fees charged is credited.

HOUSING & RESIDENCE LIFE

Housing & Residence Life at the University of Idaho offers on-campus residence hall and apartment living options for students at all levels. Please visit the Housing & Residence Life website (<http://www.uidaho.edu/housing>) for more information.

Residence Halls

Housing & Residence Life offers a variety of living communities for first-year through upper-level students. With four residence halls to choose from and over 1,800 students living on campus, students will experience an opportunity of a lifetime. Please visit the Housing & Residence Life website (<http://www.uidaho.edu/housing>) for a complete list of options and instructions on how to apply.

The University of Idaho has a first-year student live on requirement. For information on this policy please visit the Dean of Students website (<https://www.uidaho.edu/student-life/live-on-campus/live-on-requirement>) or contact 208-885-6757.

Living and Learning Communities

The Living and Learning Communities (LLC) are designed for upper division students who want a hybrid of a residence hall and an apartment. The buildings include a full kitchen, community living rooms, dining rooms, dens with a fireplace and study areas, so students can relax or form instant study groups. The suite layout of the rooms houses two to five people per suite. The suite offers a common living area with air conditioning, small kitchenette with sink, refrigerator and microwave, a shared bathroom and single, double, super double or super single rooms. Some unique themed communities in the Residence Halls and the LLC include:

Graduate Student Housing

Housing & Residence Life offers a variety of living communities for graduate students. With three residence halls and three apartment communities to choose from, graduate students can live conveniently on the University of Idaho campus. Please visit the Housing & Residence Life website (<http://www.uidaho.edu/housing>) for a complete list of options and instructions on how to apply.

Apartment Housing

For married students, students with children, graduate students, and students over 25 years old, the university offers affordable housing options that support your academic needs. For more detailed information about living in University Apartments visit the Housing website at www.uidaho.edu/housing.

Elmwood

University Housing offers our Elmwood apartments to full time students who are 19 years of age or older. Please visit the University Housing website at www.uidaho.edu/universityhousing for further information.

Off-Campus Living

Moscow offers a variety of off-campus housing options. Information sources for off-campus housing include:

1. the Off-Campus Housing List, published weekly by ASUI (UI's student government) and available at the Bruce Pitman Center, phone 208-885-6331, and
2. Moscow's daily paper, the Moscow-Pullman Daily News, phone 208-882-5561.

Quality Summer Conferences

The university houses numerous summer camps and conferences, bringing many participants to campus each year. Contact Conferences, Events, and Information Services at 208-885-6662 for more information on conference services.

Sororities

The University of Idaho is home to fourteen sororities on campus. Four chapters are governed by the Multicultural Greek Council (MGC): Gamma Alpha Omega Sorority Inc., Lambda Theta Alpha Latin Sorority Inc., Kappa Delta Chi Sorority Inc., and Sigma Lambda Gamma National Sorority Inc. These organizations are inclusive and accept students regardless of ethnicity or race; you don't need to identify with a specific cultural or racial identity to qualify for membership. MGC Sororities engage in membership intake semiannually by hosting a showcase week where interested members take the step forward and attend informational events to determine if sorority membership is right for them. MGC sorority members may choose to live together, but they do not have a sorority house. For recruitment event information for MGC Sororities, please visit uidaho.edu/greeklife or call 208/885-6757.

There are ten Panhellenic Council (PHC) sorority chapters on the University of Idaho campus. Each chapter owns and operates its own chapter house. Our PHC chapters are: Alpha Gamma Delta, Alpha Phi, Delta Delta Delta, Delta Gamma, Delta Zeta, Gamma Phi Beta, Kappa Alpha Theta, Kappa Delta, Kappa Kappa Gamma, and Pi Beta Phi. The average cost for living in a sorority is \$4,300 a semester, which includes charges for room, board, membership dues, and all activity fees.

Membership in a PHC sorority is done by mutual selection between the potential new member and the sorority through either a summer (formal) recruitment process or continuous-on-bidding which is informal and held outside of formal recruitment periods. PHC also holds an organized, though informal, spring recruitment. Women who are interested in PHC sorority living should call 208/885-6757 or visit our website at uidaho.edu/greeklife. The selection of members in each sorority is made primarily during Formal Panhellenic Sorority Recruitment, which is held in August before the beginning of the fall semester. For more information on Panhellenic Sorority Recruitment, please visit uidaho.edu/greeklife.

Fraternities

The University of Idaho recognizes nineteen fraternities on campus. Among these, three chapters are governed by the Multicultural Greek Council (MGC): Omega Delta Phi Fraternity Inc., Lambda Theta Phi Latin Fraternity Inc., and Sigma Lambda Beta International Fraternity Inc. These organizations are inclusive and accept students regardless of ethnicity or race; you don't need to identify with a specific cultural or racial identity to qualify for membership. Fraternities affiliated with MGC engage in the membership intake process semiannually by hosting a showcase week where interested members take the step forward and attend informational events to determine if fraternity membership is right for them. For recruitment event information for MGC Fraternities, please visit uidaho.edu/greeklife or call 208/885-6757.

Sixteen Interfraternity Council (IFC) fraternities are recognized on the University of Idaho campus. Our IFC fraternities are: Alpha Gamma Rho, Alpha Kappa Lambda, Beta Theta Pi, Delta Sigma Phi, Delta Tau Delta, FarmHouse, Kappa Sigma, Lambda Chi Alpha, Phi Delta Theta, Phi Gamma Delta (Fiji), Pi Kappa Alpha, Phi Kappa Tau, Pi Kappa Phi, Sigma Chi, Sigma Nu, and Theta Chi.

Membership in a fraternity is done by mutual selection, where the fraternities extend invitations to join and potential members either accept or decline these invitations during summer (formal) recruitment. IFC fraternities also engage in an open 365 day bidding process where they can engage members and offer bids to them throughout the year. The average cost for living in a fraternity is \$3,300 a semester, which includes room, board, membership dues, and activity fees. For recruitment event information for IFC Fraternities, please visit uidaho.edu/greeklife or call 208/885-6757.

IFC fraternities may or may not offer housing (this is dependent on each individual chapter and their housing availability. Anyone interested in IFC fraternity membership should call 208/885-6757 or visit our website at www.uidaho.edu/greeklife.

For more information on Fraternity and Sorority Life at the University of Idaho, please visit uidaho.edu/greeklife, stop by the Office of Fraternity and Sorority Life in the Idaho Commons Room 302, call 208/885-6757; or email greek@uidaho.edu.

Multi-Cultural Fraternities and Sororities

The University of Idaho has three multicultural fraternities and three multicultural sororities. These are: Sigma Lambda Beta, Omega Delta Phi, Gamma Alpha Omega, Lambda Theta Alpha, Lambda Theta Phi, and Sigma Lambda Gamma colony. Multicultural fraternities and sororities at the University of Idaho do have chapter houses and are open to all races and cultural backgrounds.

Membership is by invitation and takes place after school begins in the fall. If you are interested in joining you can call 208-885-6757 or e-mail greek@uidaho.edu.

The Multicultural Greek Council is a representative body of the current multicultural Greek organizations. The council coordinates recruitment activities, formulates policies, and provides community service opportunities. For more information visit our website at www.uidaho.edu/greeklife.

INTERNATIONAL PROGRAMS

The International Programs Office (IPO) has campus-wide responsibility for international activities, including international student recruitment, student and faculty exchanges, intensive English language training, long- and short-term study abroad, and serves as a liaison with the community regarding international interests. IPO also acts as a clearinghouse for international education activities, training, development programs, research agreements, for faculty and student Fulbright scholarships, and provides support for international activities in the colleges. IPO is located in the Living and Learning Center at 901 Paradise Creek Street, Building #3, Ground Floor; phone 208-885-8984; fax 208-885-2859; e-mail ipo@uidaho.edu; www.uidaho.edu/international.

International Students

International students are an integral part of the ethnic diversity of the University of Idaho. Representing up to 90 countries from around the world, international students contribute significantly to the rich cultural atmosphere of UI.

International student services are provided by international student advisors (ISA's) in IPO. All matters pertaining to students' status with the Department of Homeland Security and the U.S. Department of State are handled by the ISA's, and they also serve as official liaisons between students and their consular offices or sponsoring agencies. ISA's are involved with the progress of international students at every stage of the educational process, and students are encouraged to visit an ISA regularly to discuss concerns or questions related to immigration matters and educational, financial, or cultural adjustments.

Once a student has been admitted, general information is provided about what to bring to the U.S., the U.S. educational system, and housing. A mandatory orientation before classes begin, answers initial questions and provides new students with information and skills to succeed in their academic programs as well as tips on cultural adjustment. Community contacts are arranged through the International Friendship Association (IFA). The IPO, IFA, and international student groups sponsor additional social, cultural, and educational activities.

Insurance

International students holding nonresident alien status must either purchase the UI's Student Health Insurance Plan (SHIP) for themselves and all accompanying dependents or document coverage of an equivalent insurance with the International Programs Office as part of their obligation to establish proof of financial responsibility for expenses incurred while attending the university. Failure to obtain and maintain the required insurance may subject students to sanctions, up to and including disenrollment. See the insurance (p. 61) section in this catalog for more information.

American Language and Culture Program

The American Language and Culture Program (ALCP) offers full-time courses in intensive English for Academic Preparation. Courses are offered throughout the year, with two eight-week sessions during each of the fall and spring semesters and one six-week session in the summer. The program also offers specialized short-term programs by arrangement.

Students wishing to improve their English or achieve the required level of English language proficiency for admittance to UI can work toward that goal while living on or off the UI campus and attending the American

Language and Culture Program (ALCP). The curriculum emphasizes reading, writing, speaking, listening, and grammar skills from beginning to advanced levels. At the University of Idaho, students who pass Level 5 may use their passing grades as a substitute for the English language proficiency examination for undergraduate admission and passing grades in level 6 for admission into many graduate programs. ALCP students take part in special cultural activities and learn about U.S. culture and U.S. university culture.

For more information and/or applications, contact ALCP through the International Programs Office located at the Living Learning Center at 901 Paradise Creek Street, Building #3, Ground Floor; Phone: 208-885-8984; Email alcp@uidaho.edu; Website: www.uidaho.edu/international/alcp.

Applicants to the University of Idaho, please note:

Deferred admission

Deferred admission may be granted to applicants who qualify academically, but who have not yet met UI's minimum English language proficiency requirement. In deferred status, students enroll in UI's American Language and Culture Program to achieve their department's English language requirement prior to being granted full admission and commencing their degree programs.

Concurrent Enrollment

Concurrent enrollment is available to ALCP students at Levels 5 and 6. With the consent of the ALCP coordinator and the instructor of the course(s), qualified ALCP students may take up to 7 credits of academic course work at the undergraduate and graduate levels while still remaining enrolled full time in ALCP.

Education Abroad

The University of Idaho has the largest education abroad program in the state of Idaho and one of the most extensive programs in the U.S. With access to 350 universities in 65 countries, students in virtually any field can enhance their UI education. For example, students can study wildlife in South Africa, education in Sweden, ecology in Costa Rica, architecture in Italy, or business in China. Students can also study subjects not normally offered at UI. A student pursuing a computer science major might choose to study animation in England, a student interested in microbiology might study genome science in Australia, or a student undertaking a civil engineering major might choose to study ocean engineering in Scotland. Courses in many countries are taught in English so that students without foreign language skills are still able to study abroad. However, those students who are interested in learning a foreign language will find that there are also excellent opportunities for studying Spanish, French, German, Italian, Chinese, Japanese, Arabic, as well as other world languages.

Students participating on UI education abroad programs may also take advantage of exciting opportunities in international service learning, internships, volunteerism, research, and field work. For example, students studying in India might volunteer for a cooperative promoting women's rights, health, and standing in Indian society, students studying in Berlin might participate in an internship with Mercedes-Benz, and students in Peru might participate in a service-learning program caring for llamas and alpacas in an Agricultural Animal Care Center, preserving a historically vital piece of Peruvian culture.

Students who participate in UI education abroad programs do not pay UI tuition/fees (except students participating in UI exchanges or faculty/staff-led programs). Instead, they pay the program cost for

each semester/summer term they are abroad. Program costs vary, but in some cases an education abroad experience costs about the same amount as studying on campus. Students receiving federal or state financial aid and/or scholarships may be able to apply their entire award to UI education abroad programs. Students participating in semester/academic year education abroad programs are required to be full-time students unless special arrangements have been made.

Full-time UI students may also be eligible for an International Experience Grant (IEG) created through the Associated Students of the University of Idaho (ASUI). Approximately 157 of these grants are awarded to UI undergraduate education abroad participants each year. Many other education abroad scholarships are also available to UI students. Some education abroad programs, such as the University Studies Abroad Consortium (USAC), have established scholarship programs for UI, a number of UI departments and colleges also provide education abroad scholarships, and there are also many national education abroad scholarships available to UI students. Learn more about education abroad at <http://www.uidaho.edu/academics/ipo/study-abroad>

Students may receive credit for education abroad or other experience overseas in the following ways:

1. **Residency credit toward baccalaureate degree.** Students are registered under the study abroad course number (SA 999). The "Course Planning Form" form must be completed before departure to ensure proper evaluation when the program is completed. Upon receipt of an official transcript, courses are evaluated and recorded as transfer credit. Credits earned through approved UI education abroad programs are included in the residency requirement for baccalaureate degrees.
2. **Transfer credit.** Students whose needs are not met by UI education abroad programs may petition to participate in a non-UI affiliated education abroad program. If the petition is approved, students must complete all other required Education Abroad forms, including a "Financial Aid Consortium/Contract Agreement" (signed by the education abroad institution and submitted to the International Programs Office before departure) for registration to be processed and financial aid to be disbursed. Students are registered under the non-UI education abroad course number (SA 998). Upon receipt of an official transcript, courses are evaluated and recorded as transfer credit. Credits earned through non-UI education abroad programs are not included in the residency requirement for baccalaureate degrees.
3. **Directed study.** Students may petition to plan their own educational experiences abroad, and arrange *in advance* for credit from any appropriate department. This is for education comparable to that gained in other courses of that department, but it may be as general and inclusive as the department will allow. Students choosing this option must also fill-out all appropriate UI Education Abroad applications and mandatory forms.
4. **Course challenge.** Some courses may be challenged on the basis of knowledge gained abroad. See regulation I-2 (<http://uidaho.smartcatalogiq.com/en/2017-2018/University-of-Idaho-General-Catalog/General-Requirements-and-Academic-Procedures/I-Alternative-Credit-Opportunities>).
5. **Experiential learning.** Credit may be awarded to students for knowledge and/or competence gained in foreign travel. See regulation I-2 (<http://uidaho.smartcatalogiq.com/en/2017-2018/University-of-Idaho-General-Catalog/General-Requirements-and-Academic-Procedures/I-Alternative-Credit-Opportunities>). This option

requires the submission of a portfolio demonstrating knowledge and competence.

UI Education Abroad Program Sites

UI is affiliated to the following programs and uses these grading systems:

Education Abroad Program	Placement Sites	Duration	Grades	Reqd GPA
Accademia Italiana	Italy	Semester, year, summer	P/F	2.5
Al Akhawayn University	Morocco	Semester, year, summer	P/F	2.5
Chulalongkorn University	Thailand	Semester, year, summer	P/F	2.5
EcoLife Expeditions - North-West University	South Africa	Winter, summer	P/F	2.5
Harlaxton College-University of Evansville	England	Semester, year, summer	A-F	3
Helping Hands Health Education (Tribhuvan Univ)	Nepal	Semester, year, summer	A-F	2.5
Semester at Sea (Colorado State Univ)	Various	Semester, year, summer	A-F	2.75
Hochschule für Technik und Wirtschaft Berlin (HTW)	Germany	Semester, year	P/F	2.5

Students who participate in UI education abroad programs do not pay UI tuition/fees (except students participating in UI faculty/staff-led programs). Instead, they pay the program cost for each semester/summer term they are abroad.

Students participating in semester/academic year education abroad programs are required to be full-time students unless special arrangements have been made.

Search Education Abroad programs options here (<http://uidaho-sa.terradotta.com/index.cfm?FuseAction=Programs.SimpleSearch>).

For more information on education abroad (study, intern, work, research, volunteer abroad), call, email, or visit the International Programs Office in LLC Building #3, Ground Floor (tel: 208-885-7870 email: abroad@uidaho.edu).

MUTUAL RESPONSIBILITY AGREEMENT

UI's acceptance of a student for admission and the student's enrollment in the university constitute an agreement of mutual responsibility. The student's part of this agreement is to accept established UI policies and rules, to respect the laws of governmental units, and to act responsibly and in a manner appropriate to these laws, policies, and rules. UI's part is to carry out its commitment to higher education, to fulfill its responsibilities in pursuit of the academic goals and objectives of all members of the university community, and to meet its obligation to provide an atmosphere in which students will have an opportunity to be heard in matters affecting their welfare as students. UI must take appropriate disciplinary action when it has been ascertained that a student's action is contrary to UI regulations and thus that this agreement has been violated.

STUDENT SERVICES

Academic Advising Center

Vandal Success Center, Idaho Commons 306; 208-885-6300; advising@uidaho.edu.

The Advising Services program serves as a clearinghouse for academic advising information and is a point of contact where new and continuing students receive help in finding their way to the appropriate college and department advisors. Advising Services is also a center for delivery of development programs on academic advising for faculty and staff advisors. Advising Services staff can assist students considering a change of major and consult with advisors and students who have questions regarding general education requirements.

Academic Advising

Academic advising is one of the cornerstones to a successful student experience at the University of Idaho. Whether you are a faculty or staff member looking for guidance on how to advise your students, or you are a student looking for academic advising on everything from choosing a major to career goals, our staff in academic advising can help. At the University of Idaho, academic advising is performed at the department- or college-level. Students are assigned an advisor by the college or department for the major(s) a student has declared.

Pre-Health Professions Advising

pre-health@uidaho.edu; 208-885-5809

The Pre-Health Professions Advising Program at the University of Idaho serves as a resource for current students and alumni, from all majors, who are interested in a health professions career.

"Pre-Health" is not a specific major or academic track: it is a personal and professional development path that students pursue alongside completion of their degree requirements. Pre-health advisors assist students with prerequisite course sequencing, advice for building necessary clinical and shadowing experience, preparing to take professional school entrance exams, and guidance with the application and interview process.

Students can connect with our program by signing up for the Pre-Health Advising Contact List (this process also adds a specific pre-health cohort code to your Degree Audit, such as "pre-med" or "pre-PT"), requesting an individual advising appointment, attending workshops, and following us on Facebook.

Academic Support Programs (ASP)

Vandal Success Center, Idaho Commons 306; 208-885-1021; asp@uidaho.edu, <http://www.uidaho.edu/current-students/academic-support/asp>.

The mission of ASAP is to help students achieve their full potential by providing a seamless array of academic and access services in a student-focused, supportive environment.

Tutoring and College Success

tcs@uidaho.edu

Tutoring and College Success (TCS) supports all undergraduate students in their educational goals through Drop-In Tutoring (tutoring for most subjects with no appointment), Supplemental Instruction (study sessions

for difficult courses), and Academic Coaching (success consultations, workshops and presentations, and for-credit success strategies course).

Student Support Services - a TRIO program

ssstrio@uidaho.edu

Student Support Services (SSS), an academic support program, assists 232 participating students each year to

1. identify and pursue their educational goals,
2. establish, maintain, or improve their academic performance, and
3. work through the challenges of university life.

The SSS-Trio program offers participants individualized tutoring in most subject areas, educational planning and goal setting, academic advising, and focused learning and study skill development. SSS also provides personal support. This support is particularly helpful for students with specific needs (e.g., delayed entry or re-entry, nontraditional preparation, disabilities which impact learning, academic probation and reinstatement, or provisional admission).

To be eligible for services, a student must be either a U.S. citizen or permanent legal resident, must have a need for academic services, and must be EITHER

1. low income (according to federal guidelines) OR
2. from a first generation family (neither parent/guardian has earned a baccalaureate degree) OR
3. have a documented disability which impacts learning.

SSS Merit Scholarships (between \$890-\$1,000) will be awarded spring semester to each active program participant with freshman or sophomore standing, who is a PELL Grant recipient with financial need, and who makes satisfactory academic progress fall semester. Students are accepted into the program on a first-come, first-served basis and are encouraged to contact the office as early in the semester as possible.

Student-Athlete Support Services

Student-Athlete Support Services is committed to the education and success of student-athletes at the University of Idaho. SASS collaborates with cross-campus resources to support student-athletes academic progress, maintain NCAA eligibility and develop well-rounded, employable graduates. This is accomplished through nurturing study and social skill sets, encouraging initiative, self-motivation, and accountability and fostering positive, meaningful relationships within the Vandal community and beyond.

Alumni Association

Alumni Center; 208-885-6154; alumni@uidaho.edu; www.uidaho.edu/alumni

The University of Idaho Alumni Association exists to foster and coordinate the support of alumni and friends of the university in strengthening the academic, research, service, and leadership-building programs of the institution. It also provides individual alumni services to its non-dues paying members throughout the world.

All former UI students who earned a UI degree or at least 90 credits at UI, and associate and honorary alumni are members of the association. The director of alumni relations and staff, along with an elected board of directors, guide the many programs, services, and activities for the more than 75,000 members.

The Alumni Association strives to keep alumni informed about their alma mater, encourage university loyalty and material support, and apprise the university community of alumni opinion. Through a variety of awards, the association honors outstanding alumni, students, or other individuals who provide exceptional service to the institution or state of Idaho. Scholarships are given by the association to help both entering and continuing students at the university.

Alumni can maintain close ties with the university through Alumni Association services, such as travel tours, and campus, national, and worldwide gatherings for special UI occasions, including reunions and Silver and Gold Events. The association also provides and organizes support for the university through active organizations, such as the Student Alumni Relations Board and the UI Retirees Association.

Areas of recent emphasis for the association include recruiting and informing prospective students about the university, and increasing volunteer support through the development of alumni chapters and constituency groups. The association is also strengthening and expanding its membership services, through use of Internet and lifetime e-mail service.

Career Services

Idaho Commons 334; (208) 885-6121; careerservices@uidaho.edu; www.uidaho.edu/careerservices

The university is committed to providing students with a comprehensive set of career exploration and professional development services, including assistance in identifying career and major interests, developing skills and experience through academically-relevant work and experiential learning opportunities, preparing professional job/intern application materials, educating students on job search strategies, and preparing students for interviews. In addition to serving UI students and alumni, Career Services also provides assistance to academic departments and employers. Career Services provides University of Idaho students and alumni with services and resources that empower them as they make critical life decisions and pursue career success. We enhance classroom learning by facilitating career exploration, experiential learning opportunities, and access to future employers.

Career Decision-Making and Professional Development Services are available to UI students and alumni of all majors. In today's job market, well-educated job candidates with relevant work experience are highly desired. Career Advising Liaisons help students prepare for employment by providing career education through workshops, career classes, group presentations, and individual advising sessions. The Career Services office serves students at all stages of career development, from making decisions on their major and career interests, to identifying and participating in experiential learning opportunities (internships, jobs, research experiences, and service-learning courses), to applying for professional careers upon graduation. A strong emphasis is placed upon the value of experiential learning. Students are encouraged to participate in a variety of activities to apply classroom theory in a real-life setting, clarify their educational and career goals, gain practical skills and experiences, and learn more about themselves, their community, and their future professions.

In addition to career guidance provided by Career Advising Liaisons, Career Services also sponsors numerous professional events that connect students with potential employers. Some of these events include on-campus interviews, career fairs, etiquette dinners, and networking nights. These events connect students with hundreds of employers seeking candidates for their full-time, internship, and summer

employment opportunities, as well as graduate and professional schools opportunities.

Career Services also promotes civic engagement and hands-on learning through the Service Learning Center. By training faculty on the service-learning pedagogy and providing support for service-learning projects, a growing number of students experience a much deeper level of learning through the participation in service projects within their courses.

Center for Disability Access and Resources

Bruce M. Pitman Center 127; 208-885-6307; cdar@uidaho.edu; www.uidaho.edu/current-students/cdar

The University of Idaho has established services for students with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973, as amended, and with the Americans with Disabilities Act (ADA) of 1990, as amended.

The Mission of Center for Disability Access and Resources (CDAR) is to provide equal and integrated access to students with permanent or temporary disabilities. Students requesting accommodations or services must provide CDAR with appropriate disability documentation to support their request. In order to receive services in a timely manner, students are advised to make requests with adequate advance notice. Services include, but are not limited to: Deaf services, alternative text, notetaking, testing accommodations, assistive technology, transition management, housing accommodations, campus accessibility information, scholarship opportunities, advocacy, and assistance with learning as it relates to disabilities.

Students are asked to contact CDAR as soon as possible to discuss specific disability-related concerns and needs. This voluntary self-identification enables CDAR to determine appropriate and reasonable accommodations to ensure classes, programs, services and activities at the University of Idaho are accessible. Information regarding disabilities will be kept in strict confidence and has no effect on admission to the University. Federal law prohibits the Admissions Office from making preadmissions inquiries about disabilities.

Raven Scholars Program

Idaho Commons Room 330, www.uidaho.edu/current-students/cdar/raven-scholars

The Raven Scholars Program supports college success for students who are on the Autism Spectrum by providing peer mentoring, coordination of campus services, and opportunities to improve academic and life skills.

Child Care Services

UI Children's Center, 421 Sweet Ave; www.students.uidaho.edu/uikids

The UI Children's Center offers childcare, early schooling, and after school programs for children from 6 weeks through 8 years of age. Accredited by the National Academy of Early Childhood Programs, the UI Children's Center offers a safe and nurturing environment as well as programs which promote the physical, social, emotional, and intellectual development of young children. For more information, call 208-885-6414 or visit their website, www.students.uidaho.edu/uikids.

The Margaret Ritchie School of Family and Consumer Sciences Child Development Laboratory provides childcare opportunities for preschool children. Call 208-885-6332 for information.

Conduct & Community Standards

To support the core values and mission of the University of Idaho, the staff within Conduct & Community Standards strives to uphold a balance student accountability with education and growth in regard to the Student Code of Conduct. If you need assistance with the Student Code of Conduct, please contact the Office of the Dean of Students at 208/885-6757.

Counseling and Testing Center

Continuing Education Building, 3rd Floor; 208-885-6716; www.ctc.uidaho.edu

Many students find that it is helpful to discuss their concerns with a professional who takes the time to listen and understand. Counselors at the Counseling & Testing Center (CTC) are available to meet with students to discuss personal, educational, or career concerns. Counseling can help students learn more about themselves and develop new skills to deal more effectively with personal problems such as depression, anxiety, stress, eating disorders, sexual abuse, relationships, academic pressures, and problems with alcohol or other substances. Counseling sessions are confidential. The CTC offers the following services: crisis intervention, individual counseling, group counseling, couples counseling, stress management, biofeedback training, educational presentations, referral, testing, and assessment of learning disabilities. For students who wish to research issues on their own or in conjunction with a counselor, the CTC has a self-help room with information to assist students with solutions to problems such as test anxiety, panic, depression, homesickness, relationship concerns, and a variety of other issues common to college students.

The CTC also offers the following career development and counseling services to help students select a major and a career direction that is right for them:

1. individual counseling for major and career decision making,
2. career interest testing and interpretation, and
3. computerized career exploration system (DISCOVER®).

The CTC offers a variety of testing and assessment services. These include placement tests such as COMPASS which is used to determine initial placement in math and English courses, and advanced placement exams such as CLEP which allow students to earn college credit by passing exams in a variety of subject areas. The CTC also administers many of the national testing programs such as the SAT, ACT, GRE, TOEFL, MELAB, MCAT and PRAXIS and provides a secure testing environment for students who need exams proctored. Assessment services include evaluations for learning disabilities and Attention Deficit/Hyperactivity Disorder. In addition, psychological, diagnostic and career assessments are often used in the context of counseling and are available at the CTC. A fee is charged for most testing and assessment services. For more detailed information go to www.uidaho.edu/CTC/testing.

Counseling services are available without charge to full-time students. A fee is charged for most assessment and proctoring services. The CTC is committed to offering services that are inclusive and respectful of all students, regardless of race and/or ethnicity, sex, color, religion, spirituality, creed, national origin or ancestry, age, marital status, sexual orientation, gender identity, gender expression, disability, or veteran status. For additional information on services provided by the Counseling & Testing Center, visit the web at www.ctc.uidaho.edu.

Dean of Students

TLC 232; 208-885-6757; askjoe@uidaho.edu; www.uidaho.edu/dos

The University of Idaho is comprised of a diverse student population that requires the UI to have a diverse student services program. The Dean of Students Office provides a variety of services that focus on assisting students. Programs and services include advising students in living groups, as well as those off campus, ethnic minority students, and veterans. In addition, the Dean of Students Office coordinates New Student Orientation, Women's Center, Child Care Center, National Student Exchange Program, student leadership activities, fraternity/sorority programs, and student discipline/conduct activities.

This wide range of programs and services includes assisting families and students who may experience crisis situations that disrupt normal academic activities.

Staff members are trained to work with individuals and groups of students, or serve as a liaison between students, departments, and agencies on and off campus.

All of the services and programs are supportive of the academic mission of UI and are an integral part of the student's total education at the university. Services offered by the Dean of Students Office are highlighted below.

Fraternity and Sorority Life

*875 Line Street, 208-885-6757, greek@uidaho.edu
(greek@uidaho.edu), www.uidaho.edu/student-life/greek*

Sororities

The University of Idaho is home to fourteen sororities on campus. Four chapters are governed by the Multicultural Greek Council (MGC): Gamma Alpha Omega Sorority Inc., Lambda Theta Alpha Latin Sorority Inc., Kappa Delta Chi Sorority Inc., and Sigma Lambda Gamma National Sorority Inc. These organizations are inclusive and accept students regardless of ethnicity or race; you don't need to identify with a specific cultural or racial identity to qualify for membership. MGC Sororities engage in membership intake semiannually by hosting a showcase week where interested members take the step forward and attend informational events to determine if sorority membership is right for them. MGC sorority members may choose to live together, but they do not have a sorority house.

There are ten Panhellenic Council (PHC) sorority chapters on the University of Idaho campus. Each chapter owns and operates its own chapter house. Our PHC chapters are: Alpha Gamma Delta, Alpha Phi, Delta Delta Delta, Delta Gamma, Delta Zeta, Gamma Phi Beta, Kappa Alpha Theta, Kappa Delta, Kappa Kappa Gamma, and Pi Beta Phi. The average cost for living in a sorority is \$4,300 a semester, which includes charges for room, board, membership dues, and all activity fees.

Membership in a PHC sorority is done by mutual selection between the potential new member and the sorority through either a summer (formal) recruitment process or continuous-on-bidding which is informal and held outside of formal recruitment periods. PHC also holds an organized, though informal, spring recruitment. The selection of members in each sorority is made primarily during Formal Panhellenic Sorority Recruitment, which is held in August before the beginning of the fall semester.

Fraternities

The University of Idaho recognizes nineteen fraternities on campus. Among these, three chapters are governed by the Multicultural Greek Council (MGC): Omega Delta Phi Fraternity Inc., Lambda Theta Phi Latin Fraternity Inc., and Sigma Lambda Beta International Fraternity Inc. These organizations are inclusive inclusive and accept students regardless of ethnicity or race; you don't need to identify with a specific cultural or racial identity to qualify for membership. Fraternities affiliated with MGC. engage in the membership intake process semiannually by hosting a showcase week where interested members take the step forward and attend informational events to determine if fraternity membership is right for them.

Sixteen Interfraternity Council (IFC) fraternities are recognized on the University of Idaho campus. Our IFC fraternities are: Alpha Gamma Rho, Alpha Kappa Lambda, Beta Theta Pi, Delta Sigma Phi, Delta Tau Delta, FarmHouse, Kappa Sigma, Lambda Chi Alpha, Phi Delta Theta, Phi Gamma Delta (Fiji), Pi Kappa Alpha, Phi Kappa Tau, Pi Kappa Phi, Sigma Chi, Sigma Nu, and Theta Chi.

Membership in a fraternity is done by mutual selection, where the fraternities extend invitations to join and potential members either accept or decline these invitations during summer (formal) recruitment. IFC fraternities also engage in an open 365 day bidding process where they can engage members and offer bids to them throughout the year. The average cost for living in a fraternity is \$3,300 a semester, which includes room, board, membership dues, and activity fees.

IFC fraternities may or may not offer housing (this is dependent on each individual chapter and their housing availability).

National Student Exchange

National Student Exchange (NSE) gives University of Idaho students the opportunity to attend one of 175 colleges or universities throughout the United States for one or two semesters. UI students pay UI fees or the resident fees of their host campus. Students normally need to apply by February for the next academic year. Credits earned on NSE fulfill University of Idaho residence-credit requirements.

To qualify for participation in the NSE, a student should:

1. be a full-time University of Idaho student;
2. be a sophomore, junior, or senior at the time of exchange; and
3. have a UI grade-point average of 2.5 at the time the application is filed.

Information and applications may be obtained from the International Programs Office, LLC Building #3, Ground Floor (208-885-0858).

Violence Prevention Programs and Resource Services

Resource Specialists provide violence prevention and risk reduction programming for students, staff and faculty on campus. Services include crisis intervention and referrals for on-going campus/community resources. Individual students, student leaders, university administrators, and community medical/legal professionals collaborate with Resource Specialists to create and implement positive campus policy. Risk reduction educational programs are available to all students at no cost. For more information call 208-885-2956 or come visit us in the Teaching and Learning Center Room 232.

Veterans' Benefits for Educational Assistance

The Office of Veteran Affairs assists veterans, dependents, reservists, and national guardsmen who are eligible for educational benefits through the Veterans Administration. Students expecting to receive veteran's benefits must apply for benefits and should contact the Office of Veteran Affairs at least six weeks before the beginning of each semester.

To qualify for payments, all veterans must be released under honorable conditions. To receive full benefits, a veteran must be pursuing an approved course of study leading to a degree or other professional objective. To be considered full time, undergraduate students must carry 12 credits or the equivalent, and graduate students must carry 9 credits or the equivalent (see regulation O-1 (p. 98)).

An advisory service is available to veterans and additional information, advice on benefits, or application forms may be obtained by writing to the veterans' advisor in the Office of the Dean of Students, PO Box 442431, Moscow ID 83844-2431, (208-885-7979); or online at www.uidaho.edu/dos.

Women's Center

The Women's Center staff is committed to providing a welcoming environment and a sense of community for all. At the Women's Center, we foster personal and professional growth through a network of support and services including educational programming, gender equity issues, information, referrals, and outreach.

Programs and services at the Women's Center include: brown-bag lunchtime programs (presentations and discussions covering a variety of topics); library (a circulating library of over 1,500 books and journals, primarily comprised of research, information, and literature regarding gender issues; information and referral to other agencies and services); lounge (a place to relax, read, study, get acquainted with others, and exchange ideas); newsletter (a publication announcing current programs and services, and news about women's issues). The center also assists with nontraditional student services and programs. The Women's Center is located in Room 109 of Memorial Gym.

Human Resources, Student and Temporary Hiring

415 W. 6th St; 208-885-3609; employment@uidaho.edu; www.uidaho.edu/human-resources

Human Resources, assists students in gaining employment experience to supplement financial support. Office hours are Monday through Friday from 8:00 a.m. to 5:00 p.m. Hiring departments across campus post available positions through the Human Resources office. All University of Idaho students are eligible to apply for positions listed on the Human Resources website. Job vacancies, applications, and additional information are available online at www.uidaho.edu/human-resources. All employment and payroll forms for students are completed at the Human Resources office.

Off-Campus Employment

Job Location and Development (JLD) works with the local business community to develop off-campus part-time, full-time, and summer jobs for students. The JLD office is located on the first floor of the SUB in the

Student Financial Aid Office. JLD services are available to all students. Phone: 208-885-2778, website: www.uidaho.edu/financialaid.

In addition, the Idaho Department of Labor (<https://labor.idaho.gov/dnn/idl/JobSeekers.aspx>), located at 1350 Troy Highway, behind the Eastside Marketplace in Moscow, is a free service and lists jobs in the community. The classified sections of the Moscow/Pullman Daily News (<http://dnews.com>) and the campus paper, The Argonaut (<http://www.uiargonaut.com>), carry job listings.

Intercollegiate Athletics

Athletics Department; ASUI Kibbie Dome 2302; 208-885-0200; www.GoVandals.com (<http://www.GoVandals.com>)

Idaho has a proud athletic tradition and sponsors 16 intercollegiate sports for men and women. The teams are known as the Vandals and compete as a Division I member of the NCAA and Sun Belt (football), Big Sky (men's and women's basketball, volleyball, soccer, men's and women's indoor track and field, men's and women's tennis, men's and women's golf, and men's and women's cross country) and Western Athletic (swimming and diving) conferences.

The men's program consists of teams in football, basketball, cross country, indoor and outdoor track and field, tennis, and golf. The women's program consists of teams in basketball, volleyball, cross country, indoor and outdoor track and field, tennis, golf, soccer and swimming and diving.

The athletic program enjoys splendid facilities. The Kibbie-ASUI Activity Center, known as the "Kibbie Dome," houses the Athletic Department offices, team locker rooms, weight room, athletic training facilities, and academic support unit. The Kibbie Dome itself is the site for football and men's and women's basketball games played at the Cowan Spectrum within the Kibbie Dome. Historic Memorial Gymnasium is the home for Idaho volleyball. Track and field and tennis make great use of the Kibbie Dome's indoor facilities for practice and competition as well, with the five-lane, 290-meter track and the nine indoor tennis courts. The women's soccer team plays its home matches on Guy Wicks Field. The university's 18-hole championship golf course, numerous outdoor tennis courts, and the UI Swim Center complete the facility picture.

Athletic Department Mission

The University of Idaho Department of Athletics is committed to enhancing the visibility and image of the university by:

- Developing and maintaining competitive, integrity-based athletic programs
- Uniting students, faculty, staff, alumni, and the community
- Educating and graduating student-athletes
- Competing for championships

The core values are: Tradition, pride, commitment to excellence, customer focus, accountability, integrity, diversity and gender equity.

Athletic Program Goals

The goals of the UI athletics program are:

1. Recruit and prepare student-athletes for successful competition academically, athletically, and socially. Contend for Western Athletic Conference Championships and graduate student-athletes at rates above national averages.

2. Establish a national image for the University of Idaho and engage the campus and community. Improve and expand our image through marketing and outreach activities.
3. Promote diversity and gender equity. Conduct an athletics program that incorporates, fosters, and enhances gender equity and diversity.
4. Increase Revenue from Development and Corporate Partner (Learfield) Sponsorship Opportunities. Annually increase revenue toward the average of Western Athletic Department institutions.
5. Enhance Internal and External Relationships. Strengthen our internal and external relationships through timely meetings, increased communications, and by exhibiting high standards of personal conduct at all times.
6. Attain Financial Stability. Develop a user friendly and informative budget process that ensures fiscal accountability and contributes to an athletic reserve fund.
7. Continue Improving Facilities. Complete fund raising for the Kibbie Dome and identify future priorities from feasibility study.
8. Enhance Support Services. Inventory and evaluate support services and processes for efficiency and effectiveness.
9. Recruit, Retain, Recognize and Reward Current and Former Coaches, Staff and Student Athletes. Identify and offer rewards and recognition for current and former student-athletes, coaches and staff.

Multicultural Affairs

Office of Multicultural Affairs; TLC. 230; 208-885-7716; fax: 208-885-9494; oma@uidaho.edu; www.uidaho.edu/oma

UI is committed to establishing and maintaining a campus environment that promotes cultural diversity. This is accomplished through the provision of student services that begin to address specific needs of Asian-American/Pacific Islander, Black or African-American, Chicano/Latino, and Native-American students. While offering targeted services and programs to these populations, OMA is fundamentally a campus wide resource meant to benefit the educational experience of the entire campus community by leading in the creation of an environment that supports multiculturalism and promotes inclusion.

The Office of Multicultural Affairs (OMA) provides assistance to these traditionally underrepresented students in the areas of advocacy, financial aid, and accessing university student support programs. OMA is staffed by a full time director, a program coordinator and an administrative assistant. Staff members are involved in campus wide leadership and state wide organizations to promote diversity. One important resource of these efforts is a group of student mentors selected to help new multicultural students connect with resources and learn from the experiences of more experienced U of I students. This mentor group is called P.A.C.E. (Peer Advising on the College Experience). OMA continuously works with other departments across the university to resolve issues that may hinder recruitment, retention or the success of multicultural students.

Multicultural student organizations serve a vital role in retention and helping to promote and support cultural diversity on the UI campus. Some of the organizations that are currently active are the Asian American/Pacific Islander Association (AAPIA), the Native American Student Association (NASA), The Native-American Graduate Student Association, Gamma Alpha Omega Sorority Inc., Iota Psi Phi Sorority Inc., Lambda Theta Alpha Sorority Inc., the Interested Ladies of Lambda Theta Alpha, the University of Idaho's Black Student Union (UI-BSU), Organizacion de Estudiantes Latino Americanos (OELA), MEChA (Movimiento Estudiantil Chicanos de Aztlán), the Hispanic Business

Association, Sigma Lambda Beta Fraternity Inc., GSA (the Gay Straight Alliance), WOCA (Women of Color Alliance), the Men of Vision, the Hispanic Business Association (HBA), Sabor de la Raza, CAMPOS (the College Assistance Migrant Program Organization of Students), ALI (the Association of Latin-Americans and Iberians), ASA (African Students Association), the Associated Students of African Descent, and UNITY. OMA assists these and other organizations in planning and executing campus activities of special interest to their group's members (e.g., cultural heritage months, student leadership retreat, organizational meetings, and campus educational cultural activities). Many meetings of these student groups are held in the Multicultural Student Center, which is located in Rooms 228 and 229 of the Teaching and Learning Center (TLC). For further information contact the Office of Multicultural Affairs main office in room 230 of the Teaching and Learning Center at 208-885-7716 or e-mail oma@uidaho.edu. To visit our web page visit www.uidaho.edu/oma.

Polya Mathematics Center

Brink/Phinney Hall, 1st floor; 208/885-5717;
polya@uidaho.edu; www.uidaho.edu/sci/math/polya/approach

The Polya Mathematics Center is a resource for students who take mathematics courses. Polya is located on the ground floor of Brink/Phinney Hall in two large rooms. The computer room offers students mathematical software and courseware and is staffed over 80 hours each week. The study and consultation room provides space for individual and group study with readily available assistance by instructors and teaching assistants.

The pre-calculus courses MATH 108, MATH 143 are taught entirely in Polya. The students in these courses attend one focus group each week where they are guided by an instructor who provides the necessary structure and direction. Lectures are delivered at computers by streaming video so that students can view them at their convenience and review them as needed. Those who prefer a live lecture can attend the lecture series offered nine times a week. Students work homework exercises on the computer. The computer-mediated exercises offer assistance and immediate detection of errors. The flexible organization of these courses offers students the option of working at a faster pace than required in order to complete the courses in less than a semester.

The Polya Math Center staff also offers drop-in assistance for students in MATH 160, MATH 170, MATH 175, and MATH 275. The hours and location for calculus assistance varies from semester to semester and are posted on the Polya web-site.

Recreational, Social, Extracurricular, and Co-curricular Activities

Idaho Commons; 208-885-2667 Bruce Pitman Center 208-885-4636;
www.uidaho.edu/studentaffairs/idaho-commons-and-student-union

Many of the programs and activities at the Idaho Commons and Student Union are co-curricular in design, linking students' academic endeavors with out-of-class learning experiences. Students can get involved in numerous functions and activities that meet their personal goals for individual growth and leisure time activity. UI student organizations in the Idaho Commons and Student Union are integral to the planning and implementation of educational, cultural, and recreational activities for the campus.

ASUI Productions is a forum for students to organize almost all entertainment each year including blockbuster film series, small concerts,

coffeehouses, "open mic" nights, comedians, educational speakers, and nationally touring bands. In the process, students gain experience with event planning and marketing. **Idaho Commons and Student Union Programs** feature weekly foreign and alternative films, noontime and summertime concerts, and educational enrichment events. A College Bowl Tournament is also sponsored by ASUI Productions. For more information, contact the Student Activities and Leadership Programs Office in the Idaho Commons Room 302, 208-885-6331.

ASUI - Student Government is dedicated to addressing the needs of undergraduate students and the campus community at large. The Associated Students University of Idaho is an organization that represents the most important element of the university, the students. The ASUI Senate, while acting as a liaison between the undergraduate student population and university administration, plays a very active role in shaping policy. Student senators, who are elected to a two-semester term, are also given the opportunity to work with and learn more about the Idaho State Legislature and the State Board of Education. For those students who have an interest and want to shape policy in a specific area of campus life, the ASUI features many different boards: academics, activities, civic engagement, student issues, Idaho Commons and Union Facilities, ASUI productions, athletics, natural resources and conservation, and Student Recreation Center. Opportunities are also available for student appointment to university-wide committees. ASUI offices are located in the Idaho Commons in the Student Activities and Leadership Programs Office, Room 302, 208-885-6331, www.uidaho.edu/studentaffairs/departments-of-student-involvement/asui.

Civic Education Project and Volunteer Programs. The national community service movement is alive and well at the University of Idaho. Our programs are dedicated to providing students with opportunities to serve the community while developing group leadership skills and a better understanding of citizenship. The program coordinates several one-day service projects with the community including 'Make a Difference Day' and 'Saturday of Service' (Youth Service Day). The program also keeps an on-going catalog of service and volunteer positions available to students and student organizations. Some University classes offer credit for service commitments, and the program assists in connecting these students to community service projects. The program promotes the belief that young people can greatly impact our communities and future through community service and by building a lifelong ethic of civic engagement. In addition, the program offers national community service based scholarship programs such as the Bonner's Service Leaders for students, and administers these programs in the community. For more information on volunteering, contact the Student Activities and Leadership Programs Office, Idaho Commons Room 302, 208-885-6331

The **Enrollment Services**, located in the newly renovated Student Union, is the headquarters for Undergraduate Admissions, Registrar, Student Accounts, and Office of Undergraduate Recruitment. Branch offices of Vandal ID Card, Parking, and Housing are located near the Information Desk. The Financial Aid office and the UI Bookstore are also nearby. Tours of the campus originate from the Office of Undergraduate Recruitment on the main floor. For information on Student Union activities and services, call 208-885-INFO or 208-885-4636.

The **Graduate Student Association (GSA)** supports and promotes graduate student education and graduate student life at the University of Idaho. This includes creating programs and assisting graduate students during their transition from student life to professional life. GSA elections are held annually as a commitment to providing a collective voice for graduate students to the university and to the state. The GSA office is

located in the Idaho Commons, Room 305, just off the Overlook Lounge. GSA can be reached at 208-885-9446 or gsa@uidaho.edu.

The **Idaho Commons** is the center of campus life and provides programs, amenities, and services to enhance the educational experience of UI students, their families, and guests. Located at the heart of campus, the Idaho Commons serves as the crossroads and meeting place for the University of Idaho. Services offered at the Idaho Commons include meeting rooms for nonacademic programs, a variety of student support services, a food court, coffee shop, convenience store, copy service, credit union, ATMs, lounges, and administrative offices. Through various programs and services, the Idaho Commons cultivates and enhances the living and learning experience of students. Our students enjoy the many aspects of the building itself while gathering with friends to study, learn, and socialize with each other in a comfortable atmosphere. Cultural enrichment programs such as art exhibits, music, and speaker presentations are available to students, other members of the university community, and area residents. For information on Commons' activities, call 208-885-CMNS (2667) or 208-885-2233.

Leadership Development starts from the moment students enroll at the University of Idaho. An annual fall leadership retreat promotes student development and growth through campus involvement. Students can stay involved throughout the year through leadership training seminars, student organizations, and meetings between student leaders and university administrators. The **Group Opportunities and Leadership (GOAL)** program stretches both mind and body. Through activities such as ropes courses and team initiatives, students will develop knowledge of leadership styles, conflict resolution, communication skills, and problem solving. For more information about leadership development, contact the Student Activities and Leadership Programs Office, Idaho Commons Room 302, 208-885-6331.

Looking for an adventure experience? **Outdoor Programs** offers classes and informal instruction in some of today's top outdoor activities; kayaking, rafting, rock climbing, mountaineering, skiing, and other winter sports. Take advantage of Outdoor Programs Resource Center and Climbing Center, which includes 6000 square feet of climbing surface and a 55 foot pinnacle. Want to experience the great outdoors, but lack the gear? The **Outdoor Rental Center** has the most extensive inventory of quality outdoor equipment in the Northwest. From rafts, kayaks, and canoes to skis, climbing gear, and camping equipment, the Outdoor Rental Center is ready to serve students and the Moscow community with their outdoor needs. The Outdoor Program, the Outdoor Rental Center, and the Climbing Center are located in the Student Recreation Center (SRC). For information, call the Outdoor Program 208-885-6810, Rental Center 208-885-6170, www.uidaho.edu/studentaffairs/campus-recreation/outdoor-programs.

Recreational facilities located on the Moscow campus include the new Student Recreation Center with approximately 85,000 square feet devoted to student health and recreation. In it are a climbing wall with a 55 ft. high pinnacle (the highest of any university), fitness equipment, indoor jogging track, 2 full-size gyms, a multi-purpose court, 2 multi-purpose/aerobic rooms, locker rooms, and a social lounge. Additional recreation facilities include the ASUI Kibbie Activity Center, the Swim Center, an 18-hole golf course, and indoor and outdoor tennis and handball courts.

Sound, Production, and Lighting Services (SPL) offers training and experiential opportunities for student employees. SPL provides professional sound, lighting, and multimedia production for student-sponsored performance and entertainment events. Employment opportunities exist for technicians to work with sound, lights, and film.

Other employment is also available to students interested in computer and network support. SPL is located on the 3rd floor of the Student Union, 208-885-6947.

In **Student Media**, students utilize real-world technology in the various productions of the student newspaper, yearbook, FM radio, and advertising. *Argonaut*, the twice-weekly student newspaper, gives students the chance to gain real-world experience in media writing, computer graphics, photography, advertising, marketing, and business management. Editors, paginators, reporters, and advertising representatives have the opportunity to work with the newest technological equipment to create a product comparable to many commercial newspapers. The *Gem of the Mountains* yearbook is about much more than putting out an annual; the most important commitment of the GEM staff has been their continued dedication toward preserving the UI legacy for students and alumni. KUOI-89.3 FM, the student-run campus radio station, provides a free-form alternative to other media in the Moscow-Pullman area. Students have the opportunity to serve as on-air announcers, music and programming directors, and station manager. All student media organizations are housed on the 3rd floor of the Bruce Pitman Center, 208-885-7825.

Variety is the spice of life, and there is no better place to find your niche than with the variety of **Student Organizations** available at the University of Idaho. With more than 150 campus-wide organizations, sports clubs, and Greek chapters, students have many choices when it comes to customizing involvement. Catch a glimpse of the options available on campus by attending the Student Involvement Fair and browsing the Student Organization Guide to Involvement. Not only is it easy to find a student organization, it is just as simple to start your own. Through resources in the Student Activities Office, new organizations can gain recognition, build membership, and apply for funding from the ASUI Activities Board. For more information, contact the Student Activities and Leadership Programs Office, Idaho Commons Room 302, 208-885-6331.

The **Student Union**, located at Sixth and Deakin Streets, is home to Enrollment Services; including the Registrar's Office, Admissions, Office of Undergraduate Recruitment, Student Accounts/Cashiers, Student Financial Aid; Off-Campus Student Employment; Student Media; Sound, Production, and Lighting; International Ballroom; Borah Theater; UI Lionel Hampton Jazz Festival office; and several meeting rooms. Services offered at the Student Union include student computer labs, a video center, a cafe, catering services, copy service, ATMs, and lounges. 208-885-4636.

Religious Activities

The university is served by three campus religious centers: Campus Christian Center (corner of University and Elm); LDS Institute of Religion (902 Deakin); and St. Augustine's Roman Catholic Center (corner of Sixth and Deakin). These centers provide opportunities for the study and practice of religion as well as resources in counseling and guidance. In addition, all of Moscow's churches provide opportunities for religious development for University of Idaho students.

Student Accounts and Cashiers

Bruce Pitman Center; 208-885-7447; acctrec@uidaho.edu; www.uidaho.edu/current-students/student-accounts

The Student Accounts Office coordinates charges and billing for student's accounts including tuition and fee charges; room, meals, and family housing charges; student health center, library over dues, parking tickets, and other miscellaneous charges. The office also collects

payments, administers payment plans, distributes financial aid refunds, and assists students who have a third party sponsor.

Billing and Payment Information

Students are email billed in July for fall semester and e-mail billed in January for spring semester. Students are also e-mail billed monthly throughout the semester for unpaid balances. All semester fees and tuition are due on or before the first day of each semester. Charges incurred over the course of the semester are considered due in full with 10 days of the posting date. The University of Idaho does not drop courses for nonpayment. Students are responsible for dropping courses prior to the first day of the term to avoid being billed and graded.

Accounts with balances due greater than \$500 will be blocked from adding/dropping/registration. Transcripts will not be released for students owing the university. Federal loan and grant regulations do not permit using federal financial aid to pay a balance from a prior aid year. Students may access their account information on Vandal Web www.vandalweb.uidaho.edu.

Failure to receive a bill does not relieve students from payment responsibilities.

Credit card payments for fees, tuition, and room and board are not accepted at the cashier's window; these payments need to be made online through Vandal Web. A 2.75% service fee is assessed on credit cards payments of student fees, tuition, and room and board. The fee will not apply to incidental charges, like parking tickets, health center charges, etc. that are paid by credit card at the cashier's window. The University's web check application allows customers to pay online with a checking account and is not subject to the 2.75% service fee.

The Family Educational Rights and Privacy Act of 1974, as amended, also known as the Buckley Amendment, is a Federal law that governs the confidentiality of student records. Generally, the law requires that educational institutions maintain the confidentiality of what are termed "education records," ensures that each student has access to his or her education records, and provides students with a limited opportunity to correct erroneous education records. This means that the University cannot release student records (grades, account information, class schedule, student ID, etc) to anyone other than the student without written consent from the student. A Consent to Release Information form is available for the student to complete and return to the University at <http://www.uidaho.edu/current-students/student-accounts/forms-and-downloads>.

E-mail Usage and On-line Account Access: The UI's official e-mail policy states, "A University assigned student e-mail account shall be the University's official means of e-mail communication with any student required to have a UI e-mail account. Students are responsible for all information sent to them via their University assigned e-mail account." Accordingly, the Student Accounts Office will use the official UI e-mail address to communicate with students. We send interim billing notices and other information using e-mail only, and it is essential that all students regularly check their UI e-mail accounts. Student Account information is available on Vandal Web under the Student Tab, then Student Accounts, then Student Accounts Center. If parents or other individuals need access to student billing information, the student is responsible for granting them access to the information.

Statistics Assistance Center

First Floor of the University Library behind the Reference Desk;
www.uidaho.edu/sci/stat/about/sac

The Statistics Assistance Center (SAC) was developed to give assistance to students taking lower level statistics courses. Statistics graduate students in the SAC provide help for students enrolled in STAT 251, STAT 301, and STAT 431. The staff works to provide a friendly, non-threatening environment where students will feel comfortable to work, ask questions, and learn statistics outside of class.

The SAC is generally open for statistics tutoring Monday through Friday. Statistics tutoring hours vary each semester so please check with the Department of Statistical Science Office (Brink 415A; 208-885-2929) for scheduled times or see the statistics web page www.uidaho.edu/sci/stat/about/sac. Students can visit the SAC on a drop-in basis during scheduled times for help with homework problems. There is a Student Computing Lab that has a number of computers that provide supporting software for statistics courses at the Library.

Student Financial Aid Services

Bruce Pitman Center; 208-885-6312; finaid@uidaho.edu; www.uidaho.edu/financialaid

The office of Student Financial Aid Services assists students and their parents with applying for financial assistance in the form of scholarships, grants, loans, and part-time work to help pay the cost of attending college. These programs may include scholarships, Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (FSEOG), Federal or Idaho State Work Study Programs (FWS or IWS), Federal Perkins Loans, William D. Ford Federal Direct Loans, William D. Ford Federal Direct Graduate PLUS, and William D. Ford Federal Direct Parent Loans to Undergraduate Students (PLUS). Financial aid is expected to supplement student and family resources. The office also assists students in finding part-time jobs off campus.

Application Process

Priority Dates

Because funds are limited, to receive priority consideration for all funds student applicants must submit the Free Application for Federal Student Aid (FAFSA) so it is received by the federal processor by the priority date each year. The priority date for 2016-2017 is February 15. This priority date applies to students attending both fall and spring semesters. It is recommended students file an electronic FAFSA form; the website link can be found on the Financial Aid homepage, www.uidaho.edu/financialaid. In addition to the FAFSA, all students who are new to the university must also have a complete application for admission on file by the February 15 priority date. Students who meet both of these priority dates will receive first consideration for funds for which they qualify. Students who do not meet both of these priority dates will still be considered for Federal Pell Grants and William D. Ford Federal Direct Loans which are available throughout the year.

Enrollment

Financial aid during the academic year is usually awarded in expectation of full-time enrollment: 12 credits per semester for undergraduate students, 10 credits per semester for law students, and 9 credits per semester for graduate students. If a student is receiving aid as a full-time student, he or she must be registered as a full-time student to receive the aid on the first day of class. Students are required to enroll full-time to receive scholarships, unless the donor specifies special circumstances

allowing part-time enrollment. All students must enroll at least half-time (6 credits per semester for undergraduate students or 5 credits per semester for graduate and law students) to be considered for Direct Loans. Students must continue to be enrolled in the required number of credits through the 10th day of classes (census date) of the semester to continue receiving financial aid and scholarships for the semester.

For federal loan eligibility calculation the following enrollment classifications will be used. Undergraduate enrollment will be 6-8 credits for half-time, 9-11 credits for three quarter time, and 12 or more credits for full time. Graduate enrollment will be 5-6 credits for half time, 7-8 credits for three quarter time, and 9 or more credits for full time. Law enrollment will be 5-6 credits for half time, 7-9 credits for three quarter time, and 10 or more credits for full time.

Scholarships

Students who wish to apply ONLY for scholarships not based on financial need and no other types of financial aid must do one of the following in order to receive consideration:

1. Students who are attending the university for the first time need to have a complete application for admission, including all transcripts and required test scores (freshmen), on file by the February 15 priority date;
2. Students who are enrolled at the university during the prior spring semester in at least 9 credits for undergraduate students, 10 credits for law students, or 6 credits for graduate students will be considered automatically (without completing any additional forms) for scholarships not based on financial need;
3. Students who are enrolled at the university for the prior spring semester but in less than 9 credits for undergraduate students, 10 credits for law students, or 6 credits for graduate students will need to notify the Associate Director for Scholarships in Student Financial Aid Services by February 15 of their interest in scholarships not based on financial need; and
4. Students who previously attended the university, but were not enrolled during the prior spring semester, must notify the Associate Director for Scholarships in the Office of Student Financial Aid Services of their intent to enroll by the February 15 priority date.

Work Study

Students who are awarded Federal Work Study or Idaho State Work Study will be offered part-time employment in order to earn their award amount. Students must indicate their interest in the Work Study program on the FAFSA. Awards based on financial need and available funds are made to students who meet the priority dates.

Stafford Direct Loans

The University of Idaho participates in the William D. Ford Federal Direct Loan Program. Loan funds will be provided to the student directly from the U.S. Department of Education through the University of Idaho rather than funds coming from a bank or lender. Students will be awarded these loans and asked to sign a Master Promissory Note (MPN) and complete Entrance Counseling. Students only need to sign a MPN and complete Entrance Counseling once every 10 years. Once the signed MPN and Entrance Counseling are received, the funds will be credited to the student's account.

Eligible Programs

Students who have one or more bachelor's degrees, who are working toward an additional undergraduate degree or a teaching certificate and who are not yet admitted to graduate school, are considered to be second degree-seeking undergraduates and are not eligible

for federal grant programs (Pell and SEOG). They are restricted to undergraduate borrowing limits for loan programs. Graduate Students and students in the College of Law are eligible to apply for all financial aid programs except Federal Pell and Federal Supplemental Educational Opportunity Grants. Non-degree-seeking students (those not enrolled in a degree program) may not be considered for any type of financial aid. Correspondence classes may not be funded by any type of federal financial aid.

Satisfactory Academic Progress

Students at the University of Idaho must maintain Satisfactory Academic Progress (SAP) to receive federal student financial aid. To meet SAP requirements, a student must maintain a minimum cumulative GPA, complete a certain percentage of attempted credits, and complete his or her degree program within a certain number of attempted credits.

The requirements to maintain Satisfactory Academic Progress differ based on whether the student is in an undergraduate, graduate, or law degree program. The requirements can be found at <http://www.uidaho.edu/financialaid/applyingforaid/keepingyourfinancialaid/keepingyouraid>.

At a minimum, SAP will be reviewed at the end of each spring semester. Students not meeting the minimum requirements of SAP as stated below are no longer eligible to receive assistance under Title IV HEA programs. For purposes of evaluating satisfactory academic progress, the academic year is defined as summer, fall, and spring. Therefore, the summer performance prior to the fall and spring will be included in the review. Students receiving financial aid for the first time will be considered in good academic standing until they reach the defined annual evaluation time for SAP. It should be noted that the eligibility criteria for financial aid differ from those for academic eligibility contained in regulation L-6 (p. 93).

Students wishing to appeal their suspension of financial aid should complete a Petition for Financial Aid Reinstatement Form and contact the Dean's Office in the college in which they are enrolled. Graduate students should complete a Petition for Reinstatement before they contact the College of Graduate Studies, while law students should contact the College of Law. Any special circumstances concerning the student's academic progress for student financial aid will be reviewed on an individual basis. The Director of Student Financial Aid Services may reinstate a student based on special circumstances unique to that student.

Upon receiving a completed Petition for Financial Aid Reinstatement Form from the student, the student's academic dean (or designee) may recommend a waiver of all satisfactory academic progress criteria due to special circumstances detailed in the petition form. If the petition is denied, the director will review the recommendation and make the final determination of whether to waive the suspension for the student. The decision of the academic college and the Director of Student Financial Aid Services may be appealed to the Student Financial Aid Committee, and their decision may be appealed to the Administrative Hearing Board.

If the petition is granted, the suspension will be waived and all federal financial aid/eligibility will be reinstated for one term unless otherwise stated in the Academic Plan section of the Petition for Financial Aid Reinstatement form.

Athletic Scholarship Appeal

Students who have had their athletic scholarship aid reduced or eliminated may appeal the loss of funds by submitting an appeal in writing to the chair of the Student Financial Aid Committee.

Financial aid policies and procedures are subject to change without notice to assure compliance with federal, state and university regulations. The Office of Student Financial Aid Services may be contacted for current information (208-885-6312). Additional information is available at the Financial Aid website, www.uidaho.edu/financialaid.

weekday, evening, and weekend hours. Students may stop by, telephone, or visit the website for further information and a current schedule.

Student Health Insurance Program

Student Health Building; 208-885-2210;
health@uidaho.edu; www.health.uidaho.edu/ship

The University of Idaho requires all full-time, fee-paying, degree-seeking undergraduate students enrolled in 12 or more credits; graduate/Law students enrolled in 9 or more credits; and all international students to submit proof of valid health insurance as a condition of enrollment. Students subject to the requirement may choose to rely on personal health insurance or enroll in UI's Student Health Insurance Program.

Student Health Services

Student Health Services; 208-885-6693; www.uidaho.edu/studenthealth

Student Health Services, in partnership with Moscow Family Medicine, provides a broad spectrum of outpatient medical care services. The medical staff includes Board-certified physicians, physician assistants, and nurse practitioners. Services include lab and X-ray, nutrition counseling, and psychiatry. Additional counseling services are available in cooperation with the Counseling and Testing Center.

Health education classes and wellness programs are available to students. These programs range from fitness and nutrition classes to substance abuse and smoking cessation courses. A list of programs and additional information is available at the Student Health Services web site, www.uidaho.edu/studenthealth (<https://catalog.uidaho.edu/student-services/student-services/www.uidaho.edu/studenthealth>).

The hours of operation, scope of services, and fee-for-service charge schedule are subject to change during the academic year. Please look for changes notices at the Student Health Services web site.

Student Rights, Conduct, and Records

The "Statement of Student Rights," "Student Code of Conduct," and "Student Records Policy" are published in the *Faculty-Staff Handbook* and in the booklet entitled "Policies and Information of Interest to Students." The booklet is available from the Office of the Dean of Students (TLC 232), the Office of Academic Affairs (Admin 104), and other locations around the campus. Members of the university community are urged to familiarize themselves with these basic documents.

Writing Center

Idaho Commons 323; 208-855-6644; www.uidaho.edu/class/english/writingcenter

Located on the third floor of the Idaho Commons, the English department's Writing Center offers peer tutoring assistance to all UI students. Writing Center tutors assist students with analyzing writing strengths and weaknesses; developing ideas; and improving focus, organization, grammar, and punctuation. The Writing Center offers

GENERAL REQUIREMENTS AND ACADEMIC PROCEDURES

The following procedures and regulations have been adopted to help students, faculty members, and administrators carry out UI's overall academic program successfully. Students have the ultimate responsibility for meeting university, college, and departmental graduation requirements and academic procedures. Students, with the help of faculty advisors, should check their records each time they prepare to register to ensure that they are correctly and systematically fulfilling their degree requirements. It is the responsibility of advisors, major professors, and deans to assist students in understanding and complying with these requirements and procedures. The registrar assists by checking students' records for compliance with the regulations in this section of the catalog. Requests to waive curricular requirements, academic provisions, or academic standards should be presented to the appropriate department and/or college.

Rights Reserved to the University

Catalogs, bulletins, and course or fee schedules shall not be considered as binding contracts between the University of Idaho (UI) and students. The UI reserves the right at any time, without advance notice, to:

1. withdraw or cancel classes, courses, and programs;
2. change fee schedules;
3. change the academic calendar;
4. change admission and registration requirements;
5. change the regulations and requirements governing instruction in and graduation from the UI and its various divisions; and
6. change any other regulations affecting students.

Changes go into force whenever the proper authorities so determine and shall apply not only to prospective students but also to those who are matriculated at the time in the UI. When economic and other conditions permit, the UI tries to provide advance notice of such changes. In particular, when an instructional program is to be withdrawn, the UI will make every reasonable effort to ensure that students who are within two (2) years of completing graduation requirements, and who are making normal progress toward completion of those requirements, will have the opportunity to complete the program which is to be withdrawn.

The UI also reserves the right, when a student has failed to discharge any obligation to the UI, to deny that student the privilege of re-registering or to withhold the student's records or information based on the records. Students may verify the status of their accounts and be informed of any financial obligation to the UI by inquiring at the cashier's window in the Bruce Pitman Center.

Academic Appeals Process

Students may petition the appropriate committee for exceptions to the administrative and academic regulations of the University of Idaho. Petitions are submitted to one of the following committees depending on the nature of the petition.

Academic Petitions Committee

This committee hears student appeals for exceptions to the regulations in this catalog section including, but not limited to, such matters as

1. registration for courses after the deadline,
2. reinstatement from 3rd disqualification,
3. withdrawing from a course after the deadline, and
4. expunging a grade of W from an academic record. Should be presented to the Academic Petitions Committee on forms available in college offices. www.webpages.uidaho.edu/fsh/1640.html#1640.04

Appeals for reinstatement after second disqualification are directed to the college. If the college committee denies the appeal, the student may appeal to the provost or provost's designee.

Academic Hearing Board

This committee hears student appeals from decisions made by college authorities concerning, but not limited to, such matters as

1. eligibility for advanced placement or credit by examination,
2. objectivity or fairness in making, administering, and evaluating class assignments,
3. maintenance of standards for conscientious performance of teaching duties, and
4. scheduling of classes, field trips, and examinations.

The board does not hear appeals concerning requirements or regulations of the College of Graduate Studies or the College of Law. www.webpages.uidaho.edu/fsh/1640.html#1640.02

Administrative Hearing Board

Students submit appeals to the Administrative Hearing Board on administrative decisions in such matters as residence status for tuition purposes, granting of student financial aid, and assessment of fees or charges (except in connection with parking regulations), and disputes involving interpretation and application of policies concerning such matters as student records, smoking, and treatment of disabled persons. www.webpages.uidaho.edu/fsh/1640.html#1640.06

Appeals from decisions of the Academic Petitions Committee and the Academic Hearing Board are submitted to the provost. If the provost concurs with the body whose decisions was appealed, the appellant then may appeal to the president and regents if the president and regents consent to hear the appeal.

Decisions of the Administrative Hearing Board may be appealed to the president and regents when they consent to hear such appeals.

A - MATRICULATION

Applicants for enrollment in any course offered by UI for college credit, except correspondence study, submit personal data and credentials covering all previous academic work. (See "Undergraduate Admission to the University (p. 41)" or "Graduate Admission to the University (p. 41)") After UI has received these credentials and approved the application, registration access is given to the applicant and the applicant's first registration at UI concludes the matriculation process.

B - REGISTRATION

B-1. Registration Access

Registration access is given to new students as described above. It is also given to students who were previously enrolled within two years of the term in which they wish to register. Former students who have not been enrolled at UI within those two years must be re-admitted by the Undergraduate or Graduate Admissions Office at least one month prior to the term in which they wish to register. Such students will be required to submit transcripts from any institutions attended since their last registration at UI, and they may also be required to complete a residence questionnaire. Failure to meet the deadline may cause a delay in registration. Undergraduate students are required to meet with their academic advisor prior to registration,

B-2. Admission to Classes

Instructors do not admit anyone to class whose name does not appear on the class roster. UI instructors are given the authority to grant or deny access to classes by visitors.

B-3. Auditing Classes

Auditing a course consists of attendance without participation or credit. Audited courses will be recorded on a student's permanent record. The permission of the instructor is required before a student may audit a course. Seating preference in a course will be given to students who are completing the course for credit. (See C-2 and C-3 (p. 75) for deadlines).

B-4. Independent Study Courses

A student enrolled in the regular program is permitted to carry independent study courses for college credit only with the prior written approval of his or her academic dean. Credit for correspondence-study courses will not be accepted without such approval.

B-5. Registration for Courses Without Completion of Prerequisites

Students who have not completed the prerequisites to a course for which they are otherwise eligible may register for the course with the instructor's approval.

B-6. Registration of Lower-Division Students in Upper-Division Courses

All academic programs give priority in the first two years to meeting the general requirements for the appropriate degree and acquiring the foundation for advanced study; therefore, freshman students may not take upper-division courses. Exceptions may be made for students who have fulfilled the prerequisites and who are well prepared in their field of study. In such cases, the instructor may, with the concurrence of the student's advisor, authorize the exception.

B-7. Registration of Undergraduate and Non-degree Students in Graduate Courses

Undergraduate and non-degree students may register in graduate courses under the conditions outlined in the College of Graduate Studies

section with the prior written approval of the instructor of the course, the student's advisor, and the Dean of the College of Graduate Studies.

B-8. Registration of Students with Baccalaureate Degrees as Undergraduates

To register as undergraduates, students with baccalaureate degrees must secure the permission of the dean of his or her undergraduate college and file a statement with the registrar indicating that they understand that the work will not be classified as graduate work and cannot be used toward a graduate degree at a later date. (See J-7-b and c (p. 84).)

B-9. Registration for Full Semester Courses

Students may register for full semester courses through the sixth day of the semester. A student may register for a course with instructor approval through the tenth day of the semester.

B-10. Registration for Accelerated and Other Short Courses

Students may register for accelerated and other short courses at any time up to and including the starting date of the course without petition.

B-11. Pass-Fail Option

B-11-a. Undergraduate Students

1. After consultation with their advisors, undergraduates who have a cumulative grade-point average of 2.00 or higher are permitted to enroll in one course a semester under this P/F option. (The grade-point requirement is not applicable to students who are taking university-level courses for the first time.) This procedure is separate from taking courses that are regularly graded P/F. Within the limitations specified above, an undergraduate may enroll under the pass-fail option in any course EXCEPT:
 - a. courses listed by number and title in the student's major curriculum as printed in the individual department section;
 - b. courses taken to meet the distributional requirements of the college or curriculum, unless allowed for P/F enrollment by the college in which the student is majoring;
 - c. courses used to satisfy the general education requirements;
 - d. courses in the major subject field; and
 - e. courses in closely related fields that are excluded from this option by the student's department. (See B-11-d for "Reporting of Grades.")
2. Students in officer education programs (OEP) may enroll under this regulation in courses required because of their affiliation with the OEP ONLY with the permission of the administrator of the OEP department concerned.
3. A maximum of 12 credits earned in courses under this regulation may be counted toward a baccalaureate degree.

B-11-b. Graduate Students

1. With the approval of the major professor concerned (or advisor in the case of an unclassified student) and the dean of the College of Graduate Studies, graduate students may enroll in a limited number of courses under this P/F option. This procedure is separate from taking courses that are regularly graded P/F.

2. Courses that may be taken by graduate students under this regulation are:
 - a. any course not in the student's designated major and
 - b. any course required to remove a deficiency or to provide background for the student's program, unless the major department stipulates that such deficiency courses must be taken on a regular-grade basis and completed with an A or B.
3. Of the minimum number of credits required for a degree, no more than three credits in a master's or specialist program or nine in a doctoral program may be taken under this P/F option.
4. To have P recorded for courses taken under this regulation, a graduate student must earn a C or above. A grade of D will be converted to an F on the student's records.
5. An unclassified student may enroll for courses under this option with the approval of his or her advisor (if assigned) and the dean of the College of Graduate Studies. If, however, at a later date an unclassified student is admitted to a degree program, the above regulations apply and no changes to regular letter grades will be permitted.

B-11-c. Adds, Drops, and Changes

Students may add or drop a P/F option course in the same manner as a regular course, and they may change from P/F to regular-grade classification, or vice versa, if they do so no later than the deadlines stated in regulation C and the academic calendar. Students may make these changes by securing the signatures of the advisor or major professor and dean concerned.

B-11-d. Reporting of Grades

Instructors are not notified as to which students are enrolled in courses under this P/F option. Grades are reported in the same manner as grades in courses taken on a regular-grade basis. The registrar is responsible for converting Cs or above to Ps on students' records and, for graduates, Ds to Fs. Grades of D reported for undergraduates are recorded on students' records and are not converted.

B-12. Registration in Joint-Listed Courses

A student who enrolls in a joint-listed course may only earn credit at the level the student initially completes the course. A student who enrolls in the same joint-listed course at a different level will not receive credit on his or her transcript.

C - CHANGES IN REGISTRATION

C-1. Adding a Course

A student may add a full semester course online through the sixth day of the semester. A student may add a course with instructor approval through the tenth day of the semester. These periods are prorated for accelerated or short courses.

C-2. Dropping a Course

A student may drop a full semester course through the tenth day of the semester without a grade of W. This period is prorated for accelerated or short courses. Students may not drop a course by simply staying out of class.

C-3. Withdrawing from a Course

Beginning with the eleventh day of the semester and ending with the tenth week of the semester a student may withdraw from a course. During this period a grade of W will be recorded on the student's record and will count against their 21 credit withdrawal limit (see regulation C-4). This period is prorated for accelerated or short courses.

C-4. Credit Withdrawal Limitation

The number of credits that a student may withdraw from during his or her undergraduate career at UI is limited to 21 credits. If a student attempts to drop a course(s) that would bring the total credits he or she will have withdrawn from above 21, the student will not be allowed to do so. When a student withdraws from the university the credits in the courses for the semester do not count against the withdrawal credit limitation (see regulation G (p. 80)).

D - CREDIT AND CONTINUING EDUCATION UNIT

D-1. Unit of Credit Defined

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out-of class student work each week for approximately fifteen weeks for one semester or the equivalent amount of work over a different amount of time; or
2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities, including laboratory work, internships, practica, studio work, short courses, workshops and other academic work leading to the award of credit hours.

D-2. Credit-Load Limitations

(Also see J-5 (p. 84).)

D-2-a. Fall and Spring Semesters, and Summer Session

1. During the Fall and Spring, an undergraduate student may register for no more than 20 credits in a semester. This number may be increased to 22 with specific written approval by his or her academic dean. Registration for more than 22 credits (except for students enrolled in the WWAMI Medical Education Program) is permitted only on approval of a petition to the Academic Petitions Committee (petition forms are available in deans' offices). During the Summer Session, an undergraduate student may register for no more than 18 credits. A law student may register for no more than 18 credits in a semester without approval of the Associate Dean in the College of Law. See the College of Graduate Studies section for the credit limitation for a graduate student.
2. Registration for courses with conflicting or overlapping meeting times is allowed only with the approval of the instructor of each affected course.

D-2-b. Full-Time Employees

A full-time UI employee may register for no more than six credits in a semester or three credits during the Summer Session. Written approval by the employee's departmental administrator and dean or director must accompany the registration form.

D-2-c. Non-degree Students

A non-degree students may register for no more than 7 credits each semester and may complete a maximum of 32 semester credits. Students on official UI exchange programs are not limited to 7 credits each semester. International exchange students must take 12 or more credits. Upon completion of 32 semester credits, the student must either be admitted as a degree-seeking student at UI or submit a letter of appeal to continue as a non-degree student.

D-2-d. Dual Credit Students

Under Idaho State law, eligible high school students are given the opportunity to enroll in University of Idaho undergraduate courses and receive both college credit and credit towards high school graduation while still enrolled in high school. The number of credits for which a dual

credit student may register in a given semester is determined by the high school counselor who must sign the enrollment form. However, the credit load limitations that apply to undergraduate students also apply to dual credit students.

D-3. Transfer Credit

Credit is accepted for work completed in accredited institutions of higher education as provided in the regulations covering the admission of transfer students. (See "Transfer Admission Requirements (p. 41)"; also see E-4 (p. 77) and J-5 (p. 84).)

D-4. Review and Prerequisite Courses

Students will not receive credit for courses taken in review or for courses that are prerequisites of courses they have already completed in the same subject area. Exceptions:

1. As stated in I-1,
2. Students who transfer in a course for which the UI requires BIOL 114 or BIOL 115 (but who have not yet taken BIOL 114 or BIOL 115), may take BIOL 114 and BIOL 115 for credit.

D-5. Continuing Education Unit

Short learning activities may also be evaluated by a system of uniform continuing education units. Such units are granted in accordance with the following guidelines, which are set forth by the (national) Task Force on the Continuing Unit: A continuing education unit is expected to require 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instructors. Continuing education, as used in this definition, includes all instructional and organizational learning experiences in organized formats that impart noncredit education to post-secondary-level learners. These properties of continuing education may be applied equally under the system regardless of the teaching-learning format, program duration, source of sponsorship, subject matter, level, audience, or purpose. The number of units to be awarded is determined by considering the number of contact hours of instruction, or the equivalent, included in the educational activity. Reasonable allowance may be made for activities such as required reports, lab assignments, field trips, and supervised study. A student may not receive academic credit and continuing education units for the same learning activity.

E - GRADES

E-1. Grading System

E-1-a

For purposes of reporting and record, academic work is graded as follows: A-superior; B-above average; C-average; D-below average; F-failure; I-incomplete work of passing quality (see regulation F); W-withdrawal; WA-withdrawal to audit; WU-withdrawal from the university; P-pass (see below); IP-in progress (see E-2); N-unsatisfactory and must be repeated (used only in ENGL 101 and ENGL 102); S-satisfactory (used only in CEU courses); CR-Credit, and NC-No Credit (may be used only in professional development courses).

E-1-b

Grades of P may be reported at the option of the department on a course-by-course basis in noncompetitive courses such as practicum, internship, seminar, and directed study. Grades of P are also reported in courses carrying the statement, "Graded P/F," in the course description. In courses in which Ps are to be used, the method of grading will be made known to the students at the beginning of the semester, and the grading system will be uniform for all students in the courses. Grades under the pass-fail option are not affected by this regulation because the conversion of the regular letter grade is made by the registrar after instructors turn in the class rosters.

E-1-c

Midsemester grades in undergraduate courses must also conform to the above regulations. It is permissible to report Ps at midsemester ONLY in courses that have been approved for grading on this basis.

E-2. In-Progress (IP) Grades.

E-2-a. Grades in Undergraduate Senior Thesis or Senior Project

The grade of IP (in progress) may be used to indicate at least minimally satisfactory progress in undergraduate courses such as senior thesis or senior project that have the statement "May be graded IP" in the course description. When the thesis or project is accepted, the IP grades are to be removed (see E-2-c). Grades of IP in undergraduate courses are considered to represent grades of at least C or P. If, in any given semester, the instructor considers the student's progress unsatisfactory, an appropriate letter grade (D or F) should be assigned for that semester.

E-2-b. Grades in Graduate Research Courses

The grade of IP (in progress) may be used in courses 500 (Master's Research and Thesis), 599 (Non-thesis Master's Research), and 600 (Doctoral Research and Dissertation). When the thesis, dissertation, or other research document is accepted, or when a student ceases to work under the faculty member who is supervising his or her research, the IP grades are to be removed (see below). Grades of IP in graduate courses are considered to represent at least grades of B or P. If, in any given semester, the faculty member supervising the student's research considers the student's progress unsatisfactory, a regular letter grade (C, D, or F) should be assigned.

E-2-c. Removal of IP Grades

Departments may use on a department-wide basis either the P/F grading system, or regular letter grades, as well as P, when removing the previously assigned IP grades (e.g., a student who enrolled for six credits in course 500 one semester, four credits another semester, and five credits an additional semester could have 15 credits of IP grades removed with different grades for each of the blocks of credit registered for each semester, such as six credits of A, four credits of B, and five credits of P).

E-3. Grades in Law Courses

For additional provisions applicable to grades in law courses, see the College of Law (p. 230) section.

E-4. Computing Grade-Point Averages

Grades are converted by assigning the following number of points per credit for each grade: A-4, B-3, C-2, D-1, F-0. In computing the grade-point average, neither credits attempted nor grade points earned are considered for the following: courses graded I, IP, P, S, W, WU, N, CR, NC, correspondence courses, continuing education units, credits earned under regulation I, or courses taken at another institution. Credit earned at non-U.S. institutions is recorded as pass (P) or fail (F), except for some courses taken through an approved study abroad program.

[The UI considers only the *Institutional* grade-point average official. Although both institutional and overall grade-point averages are printed on transcripts, the overall grade-point average (which includes transfer courses) is informational only. To calculate a grade-point average divide the *Quality Points* (course credits times the points assigned for the grade earned) by the *GPA Hours* (course credits attempted *not* including grades of I, IP, P, W, WU, or N). *Earned Hours* indicate the total number of semester credits successfully completed (course grades of A, B, C, D, or P earned). Grades of P are included in *Earned Hours* but do not earn any quality points; grades of F are included in *GPA Hours*, but not in *Earned Hours*.]

E-5. Replacing Grades

E-5-a

Some courses are listed in this catalog as "repeatable" (i.e., the credits listed for the courses show a maximum number of credits that may be earned or show "cr arr" or "max arr" indicating that the courses may be repeated for credit without restriction as to maximum). Other courses show one credit entry for the course (e.g., "1 cr," "2 cr," etc.) and may be taken only once for credit (see procedure for repeating to replace a grade below). [See the section entitled "Credit Designations (p. 368)" for more information.]

E-5-b. Replacing a Grade by Repeating a Course

A student who has received a D or F in a course at UI may repeat the course at the UI provided credit has not been earned in a more advanced vertically related course in the same subject area. Although all grades remain on the record, the first repeat will replace the grade and credit earned initially in the course. The second and subsequent repeats of the same course will be averaged in the student's institutional GPA. See the College of Law (p. 230) section for the exception to this regulation applicable to students in that college.

E-6. Reports of Grades and Grade Corrections

Grades are reported to the registrar for all courses at the end of each academic session and at mid semester for undergraduate courses (see deadlines in the academic calendar (p. 10)). The assignment of grades and corrections of grades are the sole prerogative of the instructor and are reported by the instructor directly to the Registrar's Office via the UI Faculty Web. All grades except I and IP (see regulation F (p. 79) and E-2) are considered final when assigned by an instructor at the end of a term. An instructor may request a grade correction when a computational or procedural error occurred in the original assignment of a grade. No final grade may be revised as a result of re-examination or the submission of additional work after the close of the semester. Grade corrections must be processed within one year of the end of the term for which the original grade was assigned. In the event the instructor leaves the university, the departmental administrator may assign the final grade.

F - GRADES OF INCOMPLETE

F-1

A grade of "Incomplete" is assigned only when the student has been in attendance and has done passing work up to a time within three weeks of the close of the semester, or within one week of the close of the summer session. It may be assigned only upon agreement of the student and course instructor when extenuating circumstances make it impossible for the student to complete course requirements on time (Extenuating circumstances include serious illness, car accidents, death of a family member, etc. It does not include lateness due to procrastination, the student's desire to do extra work to raise his/her grade, allowing a student to retake the course, etc.). Graduate students on probation, see College of Graduate Studies section on Probation, Disqualification, and Reinstatement. If a grade of "Incomplete" is submitted, the instructor will assign a reversion grade in the event the missing work is not completed. The instructor must also specify to the student the conditions and requirements for completing the deficient work.

F-2. Completion of "Incomplete" Grades

Final grades for incompletes received in the Fall semester or Intersession, must be assigned by the last day of the following Summer semester. Final grades for incompletes received in the Spring semester or Summer Session, must be assigned by the last day of the following Fall semester. When a student has completed the deficient work, the instructor will assign a final grade. An incomplete that is not completed within the time limit specified above would automatically be changed to the reversion grade assigned by the instructor at the time the incomplete was submitted. Instructors may assign a final grade anytime within the time period specified above. In the event the instructor leaves the university, the departmental administrator may assign the final grade. An incomplete remains on the student's permanent record and is accompanied by the final grade (i.e. I/A, I/B, I/C).

F-3. "Incomplete" Grades on Record at End of Final Term

A student cannot graduate with a grade of "Incomplete" on his or her record. At the end of the term in which the student will graduate, a grade of "Incomplete" in any UI course on that degree level (undergraduate, graduate, law, etc.) reverts to the grade that the instructor had specified on the on-line grade roster (see F-1). Reverted grades are included in the computation of the student's cumulative grade-point average at graduation.

G - WITHDRAWAL PROCEDURES

G-1. Standard Withdrawal Procedures

G-1-a

A student may withdraw from the semester before the end of the second week following midterms. See regulation G-1-b for withdrawal from the semester after the end of the second week following midterms.

G-1-b

A student is permitted to withdraw from the semester after the end of the second week following midterms for compelling reasons only and after approval by the Academic Petitions Committee *or* after completing a medical withdrawal as explained in G-2. Examples of compelling reasons are: serious illness or injury of the student or death or serious illness or injury in the student's immediate family. Petitions for permission to withdraw after the end of the second week following midterms are forwarded *via the student's academic dean* to the Academic Petitions Committee on forms available in department and college offices. If the student's petition is approved, the Academic Petitions Committee will determine the effective date of the withdrawal. (See "Refund of Fees (p. 51)")

G-2. Medical Withdrawal Procedures

G-2-a

The medical director of the Student Health Service, University Psychiatrist, the director of the Counseling and Testing Center, or the Dean of Students is authorized to grant or require a student's withdrawal from the semester for medical reasons.

G-2-b. Voluntary Medical Withdrawal

Students desiring to withdraw from the semester for medical reasons will consult the medical director of the Student Health Service, University Psychiatrist, the director of the Counseling and Testing Center, or the Dean of Students who will evaluate the request. If granted, the dean of students will be notified in writing to process the medical withdrawal.

G-2-c. Emergency Transfer to Institutional Care

The medical director of the Student Health Service or University Psychiatrist is authorized to act as the representative of the president in emergencies that, under Idaho laws, require the transfer of a student to a community or state health facility. The student may be granted a medical withdrawal from the semester at the discretion of either director.

G-2-d. Mandatory Medical Withdrawal

It is the responsibility of the Dean of Students to order a medical examination of a student if the dean has reason to believe that the student has a serious medical or psychiatric condition that substantially threatens or interferes with the welfare of the student, other members of the university community, or the educational processes of the university. The dean notifies the student and the director of the Student Health Service that such an evaluation is to be conducted. This process may be started by the director of the Student Health Service, University Psychiatrist or the director of the

Counseling and Testing Center for patients under care or counseling by notifying the student and the dean of students in writing.

1. **Request for Evaluation.** On notification from the dean of students, the medical director of the Student Health Service requests the student to undergo immediate professional evaluation by the medical director or the medical director's designee, or, at the student's request and expense, by a private physician or psychiatrist deemed appropriate by the medical director. A report of this evaluation is presented to the medical director with a specific recommendation as to whether a medical withdrawal is warranted.
2. **Evaluation Conference.** The medical director of the Student Health Service provides the student written notice of a time and place at which the medical director and student will confer on the final determination as to mandatory withdrawal. The student may have the assistance of a representative at this conference. The medical director refers to reports, recommendations, and evaluations pertinent to the case and is empowered to request additional relevant medical or psychiatric examinations of the student.
3. **Determination of Director.** Based on the evaluation and the conference, the medical director of the Student Health Service may determine:
 - a. that mandatory withdrawal is warranted by the student's medical or psychiatric condition;
 - b. that mandatory withdrawal is not warranted by the student's medical or psychiatric condition; or
 - c. that the student may remain enrolled subject to conditions specified by the medical director.
 The medical director transmits this decision in writing to the student and the dean of students. If withdrawal is ordered, the dean will process it.
4. **Finality of Determination.** Decisions made by the medical director of the Student Health Service pursuant to these procedures are final.
5. **Refusal of Evaluation.** If, after a request by the medical director of the Student Health Service, the student refuses to consult with a physician or psychiatrist, the director will, if practicable, seek the help of the student's family in persuading the student to seek appropriate professional assistance. Should these efforts not result in the student taking the desired action, the director summarizes the steps taken to secure needed information and the reasons for the withdrawal and instruct the dean of students to process the withdrawal. A copy of this order for withdrawal is sent to the student. The dean will process the withdrawal as mandatory, but involuntary.
6. **Appeal.** A student may appeal to the Vice Provost for Academic Initiatives either
 - a. to revoke the order of the dean of students for a medical examination or
 - b. in case a procedural error is alleged, to order the determination of the medical director of the Student Health Service reopened.

G-2-e

Any student placed on medical withdrawal may, if appropriate, be informed, in writing, by the medical director of the Student Health Service, University Psychiatrist or the director of the Counseling and Testing Center that he or she is eligible to return to UI at a later date on the favorable recommendation of one of the above. When applying for readmission, the student is responsible for providing one of the above with evidence of satisfactory treatment of the condition that necessitated medical withdrawal.

G-3. Grades for Students Who Withdraw

A student who withdraws from, or leaves, UI without official approval will receive Fs in all courses in which he or she is registered and for which the grade has not already been assigned.

H - FINAL EXAMINATIONS

H-1

The last five days of each semester are scheduled as a final exam week (two-hour exams) in all divisions except the College of Law. The following provisions apply:

H-1-a

No quizzes or exams may be given in lecture-recitation periods during the week before finals week. Exams in lab periods and in physical education activity classes, final in-class essays in English composition classes, and final oral presentations in speech classes are permitted.

H-1-b

Final exams or final class sessions are to be held in accordance with the schedule approved by the Faculty Council. Instructors may deviate from the schedule only on the recommendation of the college dean and prior approval by the provost or provost's designee.

H-1-c

The final exam time will be scheduled based on the lecture portion of a course. The final exam time is based on the meeting schedule of the course section, as it exists in the class schedule for that semester. If a class meets Monday, Wednesday, and Friday, for example, the final exam time will be based on the time the class is scheduled to meet on these days. If the meeting day(s) and/or time of the lecture portion of a course change during the semester the final exam time will be scheduled based on the first meeting time.

H-1-d

Where exams common to more than one course or section are required, they must be scheduled through the Registrar's Office and are regularly held in the evening.

H-1-e

Students with more than two finals in one day may have the excess final(s) rescheduled. A student must make arrangements with the department and the instructor of the course to schedule the final exam in one of the conflict exam periods.

H-1-f

Athletic contests are not to be scheduled during finals week.

H-2

Students who miss final exams without valid reason receive Fs in the exams. Students who are unavoidably absent from final exams are required to present evidence in writing to the instructor to prove that the absence is/was unavoidable.

H-3

Instructors, with the concurrence of their departments, may excuse individual students from final exams when such students have a grade average in the course that will not be affected by the outcome of the final exam. In such instances, the grade earned before the final exam is to be assigned as the final grade.

H-4

Early final exams are permitted for students, on an individual basis, who clearly demonstrate in writing that the reasons for early final exams are compelling. Such requests require approval by the department and instructor of the course.

I - ALTERNATIVE CREDIT OPPORTUNITIES

I - Alternative Credit Opportunities

Students have the opportunity to earn undergraduate academic credit through Advanced Placement Examinations (AP), College Level Examination Program (CLEP), International Baccalaureate (IB), General Certificate of Education Examinations (A-Level), Global Assessment Certificate Examinations (GAC); DANTES Subject Standardized Tests (DSST); credit by examination, portfolio, technical competence, vertical course credit; and military courses. (See regulation J-5-a for credit limitations.)

Minimum scores needed to earn credit for AP, CLEP, IB, A-Level, or GAC examinations are available on the Registrar's website, www.uidaho.edu/registrar

I-2. Credit opportunities while an undergraduate degree-seeking student at UI

I-2-a. Challenged Courses (Credit by Examination)

Students may challenge UI lecture and associated laboratory courses (earn credit by examination) as follows:

1. Students must receive permission from the course instructor, from the administrator of the department in which the course is offered, and from his/her academic dean to challenge a course. Applications to challenge a course are available on the Registrar's Website. The application must be signed and the application fee paid to the Student Accounts/Cashiers Office (see Special Fees (p. 51) for extramural credits). The form is then returned to the Registrar's Office. The registrar checks the student's record to confirm if the student is eligible to challenge the course and notifies the instructor or student accordingly.
2. Students must score C or higher to pass and obtain credit. A passing grade is entered as P and is not included in grade-point computations. The student's account will be charged the appropriate per-credit fee at the time the credits are recorded on the student's transcript (see Special Fees (p. 51) for extramural credits). If a student does not meet these standards, no entry is made on their record and no per-credit fee is charged to their account.
3. Results of the challenged courses must be forwarded to the registrar no later than the beginning of the last week of the semester.
4. No examinations under this regulation may be conducted during the last two weeks of any academic session.
5. Students are not permitted to challenge a prerequisite course after having completed the advanced course.

I-2-b. Experiential Learning Portfolio

With the approval of an ad hoc committee consisting of representatives from the colleges and departments involved, an undergraduate may be awarded credit in a specific undergraduate-level course in recognition of university-level knowledge or competence acquired from work experiences, community and

volunteer extension courses, and participation in informal courses and in-service training sponsored by associations, business, government, and industry. Requests for such credit must be approved by the student's departmental administrator and academic dean, and must be supported by such evidence as is needed to provide a sound basis for evaluating the student's achievements. Credits granted under this regulation are assigned a grade of P. Credit will be awarded at the undergraduate level based on demonstrated learning outcomes within the subject, course, or programs offered by the University. Forms for experiential learning portfolio credit are available on the Registrar's website, www.uidaho.edu/registrar.

I-2-c. Technical Competency Credit

Technical competency credits may be gained from experience in areas of concentration related to bachelor's degrees in professional-technical education or industrial technology. Grades of P for the successful completion of IndT 407, are normally recorded on a student's transcript during their last semester or upon completion of all degree requirements. A maximum of 30 credits may be earned in IndT 407. Applications and instructions for technical competency credits are available at the Department of Curriculum and Instruction. See Special Fees (p. 51) for extramural credits.

I-2-d. Vertically Related Course Credit

Undergraduate degree-seeking students may bypass an elementary course and enroll in a higher vertically related course. Students with a C or better in the advanced course are eligible to receive credit and a grade of P for the lower vertically related courses in the same subject matter. Vertically related courses are listed at the beginning of each subject in the course descriptions section. Applications to receive credit for vertically related courses are available on the Registrar's website, www.uidaho.edu/registrar. See Special Fees (p. 51) for extramural credits. *Advisors should make sure that students are aware of this opportunity for obtaining credit.*

I-2-e. Military Courses

Student who have served in the armed forces may receive credit based upon completed military courses recorded on their official Joint Services Transcript (JST). Evaluations for the granting of credit for military courses are based on the recommendations in the American Council of Education (ACE) guide.

I-3

Students who have completed courses at other institutions after bypassing lower vertically related courses, but have not been awarded credit for those bypassed courses, may receive credit for vertically related course(s) by following I-2-d.

J - GENERAL REQUIREMENTS FOR BACCALAUREATE DEGREES

Candidates for baccalaureate degrees must fulfill the following requirements. (See the College of Graduate Studies (p. 221) section for the requirements for graduate degrees. See the College of Law (p. 230) section for the requirements for the degree of Juris Doctor.)

J-1. Credit Requirements

J-1-a

Students must have earned a minimum of 120 credits to be granted a baccalaureate degree from the University of Idaho. Some programs require a higher minimum. For the minimum number of credits required in each degree program, see the major curricula of the various degree-granting units in the individual departmental section.

J-1-b

A minimum of 40 credits in upper-division courses (numbered 300 or above) is required for a baccalaureate degree.

J-2. Residency Requirements

A student must earn a minimum of 30 upper-division credits in UI courses. No credits awarded for alternative credit opportunities (see regulation I (p. 83)) or independent study can be counted among these 30 UI credits. Study abroad and student exchange credits may be counted toward this requirement with prior approval by the student's academic department and dean.

J-3. General Education Curriculum and Learning Outcomes

First-year students (see Admissions Status) are to complete the University of Idaho General Education curriculum. A university education is a preparation both for living and for making a living. It offers an opportunity not only to lay the foundations of a career, but also to develop the mind to its highest potential, to cultivate the imagination as well as the power to reason, and to gain the intellectual curiosity that makes education a life-long enterprise. See the University Learning Outcomes (p. 21) for more information.

A student working toward a baccalaureate degree must complete the necessary course work in the seven categories described below (J-3-a through J-3-g). This requirement is to be satisfied by earning a total of 36 credits and meeting the minimum number of credits specified for each category. Within the J-3-e, J-3-f, J-3-g categories, students must complete a total of 18 credits. (Transfer students have two options for fulfilling this requirement; these are described under "General Education Requirements for Transfer Students (p. 41)" in the Undergraduate Admission section of this catalog). University of Idaho general education courses accepted as transferable as general education courses to other Idaho state-funded institutions are listed as General Education Matriculated - (GEM) courses in the General Catalog. Courses that fulfill requirements in each category are reviewed each year and the list is updated in the Spring. Students and advisors are encouraged to check the list when it is published in the Spring to be aware of any additional courses that have been added to meet specific requirements. Courses that are approved to satisfy a

general education requirement can be used to satisfy those requirements even if the course is completed prior to being approved as a general education course.

Note: Remedial courses may not be used to satisfy any of this requirement. Degree-seeking students must be enrolled in ENGL 109, ENGL 101, or ENGL 102 in their first semester in residence and in each subsequent semester until they have passed ENGL 102. They must also be enrolled in MATH 108 or in a course that meets the general education requirement in mathematics, statistics, or computer science in their first year in residence and in each subsequent semester until the general education requirement in mathematics, statistics, or computer science has been satisfied.

J-3-a. Written Communication (3-6 cr, depending on placement)

The purpose of this requirement is to develop the ability to organize one's thoughts, to express them simply and clearly through oral, written and visual means, to observe the standards and conventions of language usage, and to suit tone to audience. The requirement is proficiency in written English equal to that needed for the completion of ENGL 102.

To fulfill this requirement, students must complete ENGL 101 and ENGL 102 or attain satisfactory scores for both courses. The following specific provisions apply to the English composition component:

1. Based on placement, a student may be required to take up to 6 credits to satisfy this requirement. Students are provisionally placed in a required English composition course based on their SAT Verbal and/or ACT English scores. The University of Idaho offers an additional placement tool, the Write Class UIdaho: www.writeclassuidaho.com (<http://www.writeclassuidaho.com>)
2. Students who attain a satisfactory score on the College Board English Achievement or Scholastic Aptitude (Verbal) Test or the American College Testing (ACT) English Test will be awarded credit and grades of P for ENGL 101 and ENGL 102. Also, students who attain a score of 4 on the Advanced Placement Test in English will be awarded credit and a grade of P for ENGL 101 and students who attain a score of 5 on the Advanced Placement Test in English will be awarded credit and grades of P for ENGL 101 and ENGL 102.
3. UI accepts credits earned in comparable writing courses taken at other accredited institutions. (See credit limitation in J-5-d.)

J-3-b. Oral Communication (2-3 cr)

Students who receive a passing grade in one of the following four courses are expected to meet the proficiencies for Oral Communication courses contained in Section III-N of the Idaho State Board of Education Governing Policies and Procedures. Students should be able to demonstrate basic competency in

1. organization and preparation,
2. oral language use and presentation, and
3. addressing audience needs and interests.

Code	Title	Hours

PHIL 102	Reason and Rhetoric	2

J-3-c. Scientific Ways of Knowing (8 cr , from two different disciplines, which include two accompanying labs OR 7 cr which includes a Core Science (CORS) course and one course with lab)

The purpose of this requirement is to develop a better understanding of the physical and biological world by learning some of the principles that explain the natural phenomena of the universe, the experimental method used to derive those principles, and their applications.

Study in this area is undertaken as part of the general education requirements in order to promote scientific literacy, that is, the ability to read and understand the science issues being debated in society. Scientific literacy is essential if citizens are to make informed judgments on the wide range of issues that affect their everyday lives. Students receiving passing grades in the natural and applied science courses of the general education curriculum will demonstrate competency in the following areas:

1. knowledge of scientific principles;
2. the ability to write clearly and concisely using the style appropriate to the sciences;
3. the ability to interpret scientific data;
4. the ability to analyze experimental design critically; and
5. the development of laboratory skills.

J-3-d. Mathematical Ways of Knowing (3 cr)

These courses develop analytical, quantitative, and problem solving skills by involving students in doing mathematics, statistics, or computer science and by focusing on understanding the concepts of these disciplines.

Students receiving passing grades in mathematics, statistics, or computer science will have the ability to recognize, analyze, and solve problems.

Code	Title	Hours

J-3-e. Humanistic and Artistic Ways of Knowing (6 cr, from two different disciplines) and Social and Behavioral Ways of Knowing (6 cr, from two different disciplines)

The purpose of these liberal arts courses is to provide students with critical tools for understanding the human experience and providing the means for students to respond to the world around them.

Humanistic and Artistic Ways of Knowing courses enable students to reflect upon their lives and ask fundamental questions of value, purpose, and meaning in a rigorous and systematic interpretative manner, with the goal of fostering understanding of culture and inspiring a citizenry that is more literate, respectful of diverse viewpoints, and intellectually inquisitive.

Social and Behavioral Ways of Knowing courses enable students to apply rigorous analytic skills for the purpose of explaining the dynamic interaction among history, institutions, society and ideas that shape the behaviors of individuals, communities and societies. With these skills students can critically address the social issues of our contemporary world.

Courses on the humanities and social science lists that are also listed as satisfying the American diversity or international requirement are indicated by a D or I designation.

Within the J-3-e, J-3-f, J-3-g categories, students must complete a total of 18 credits.

J-3-f. American Diversity (One course) and International (One course or an approved study abroad experience)

As we live in an increasingly diverse and multicultural world, the purpose of these courses is to prepare students to understand, communicate and

collaborate with those from diverse communities within the United States and throughout the world.

The American diversity courses seek to increase awareness of contemporary and historical issues surrounding the social and cultural diversity in the U.S. Students engage in critical thinking and inquiry into the issues, complexities, and implications of diversity, and how social, economic, and/or political forces have shaped American communities. Diversity includes such characteristics as ability, age, ethnicity, gender, race, religion, sexual orientation, and socioeconomic status.

One course chosen from the approved American diversity courses listed below. If a student takes a General Education course in another category that also appears on the list of approved American diversity courses, then this requirement is considered to be completed.

The international courses seek to develop an understanding of international values, belief systems and social issues that have contributed to current balances of power and cultural relations. Students develop an understanding of the roles that the United States and other countries have played in global relations and the ways cultures have interacted and influenced each other.

One course chosen from the approved international courses listed below. If a student takes a General Education course in another category that also appears on the list of approved International courses, then this requirement is considered to be completed. The international requirement may be waived if a student successfully completes an approved Summer, Fall, or Spring term abroad through the International Programs Office.

Within the J-3-e, J-3-f, J-3-g categories, students must complete a total of 18 credits.

J-3-g. Integrated Studies - ISEM 101 (3 cr), ISEM 301 Great Issues Seminar(1 cr), and Senior Experience

The purpose of these courses is to provide students with the tools of integrative thinking, which are critical for problem solving, creativity and innovation, and communication and collaboration. Integrated learning is the competency to attain, use, and develop knowledge from a variety of disciplines and perspectives, such as the arts, humanities, sciences, and social sciences, with disciplinary specialization (to think divergently, distinguishing different perspectives), and to incorporate information across disciplines and perspectives (to think convergently, re-connecting diverse perspectives in novel ways). It is a cumulative learning competency, initiated as a first-year student and culminating as reflected in a graduating senior.

One course from ISEM 101 (open to first-year students only). One credit of ISEM 301. One course chosen from the approved Senior Experience courses listed below.

Approved Senior Experience Courses:

Code	Title	Hours
AGEC 478	Advanced Agribusiness Management	3
AGED 471	Senior Capstone in Agricultural Education	1
AGED 498	Internship (Max 10 credits)	1-10
ARCH 454	Architectural Design: Vertical Studio	6
ART 410	Professional Practices	2
ART 490	BFA Art/Design Studio	6
ART 491	Information Design	3
ART 495	BFA Senior Thesis	2

ME 426	Mechanical Systems Design II	3			
MUSA 490	Half Recital	0			

J-6. Assignment of Curricular Requirements (Catalog Issue)

In addition to fulfilling the general university requirements for degrees, candidates for baccalaureate degrees must satisfy the particular requirements specified for their curricula. The pertinent requirements are those contained in the most recent UI catalog issue that was in effect at the time of, or subsequent to, the candidate's initial enrollment as a degree-seeking student at UI. The earliest catalog issue available to students re-admitted as a degree-seeking student at the UI, is the most recent catalog at the time of re-enrollment. A catalog issue is valid for a maximum of seven years from its effective date. The effective date of a catalog issue is the first Monday following spring graduation.

J-7. Concurrent and Subsequent Baccalaureate Degrees.

J-7-a. Concurrent Degrees.

A student may concurrently pursue degrees in one or more colleges. For exceptions to this rule, see general studies in part 4. In addition to the university requirements students must fulfill the departmental and college requirements for all degrees.

J-7-b. Subsequent Degrees.

Students who have earned a baccalaureate degree and who wish to complete the requirements for a subsequent degree must earn at least 15 credits as an undergraduate student after completion of the previous baccalaureate degree. And fulfill the university, departmental and college requirements for the second degree. For exceptions to this regulation, see general studies in part 4.

J-8. Degree with Double Major.

Students may complete two different majors (curricula) offered under a particular baccalaureate degree and have both majors shown on their academic records and diplomas, e.g., Bachelor of Arts with majors in history and political science. In addition to the university requirements students must fulfill the departmental and college requirements for all majors. Each of the majors must lead to the same degree. When majors leading to different degrees are involved, see the requirements applicable to the awarding of a concurrent baccalaureate degree (J-7-a).

J-9. Academic Minors

J-9-a

An academic minor is a prescribed course of study consisting of 18 or more credits which supplements an undergraduate major at the University of Idaho. For descriptions of minor curricula, see the programs of the degree-granting units in the individual departmental section. In the following paragraphs of J-9, "minor" denotes "academic minor," which is to be distinguished from "teaching minor"; for information on the latter, see the Department of Curriculum and Instruction (p. 164) section.

J-9-b

A student may pursue one or more minors in addition to a major by filing with the registrar a declaration of intention to do so. Completion of a minor is required only if specified by the degree-granting unit, but any minor completed is recorded on the student's academic record.

J-9-c

Transfer credits may be applied to a minor, however, at least 9 credits of those completing the minor's requirements must be in UI courses. Similar to the residency requirements for a baccalaureate degree in J-2, no credits awarded for independent study, bypassed courses (see I-2-d (p. 83)), credit by examination (see I-1-a, I-1-c, or I-2-a (p. 83)), College Level Examination Program (CLEP – see I-2-b (p. 83)), or experiential learning (see I-2-b (p. 83)) can be counted among these 9 UI credits. Study abroad and student exchange credits may be counted toward this requirement with prior approval by the student's academic department and dean.

J-9-d

A student may complete an undergraduate minor even though he or she has already earned a baccalaureate degree at the University of Idaho. If the sole objective is to complete an undergraduate minor, the student should declare a "Minor-Only" curriculum in the department offering the minor. Students who declare a minor-only curriculum are not eligible for financial aid funds (see the Student Financial Aid Services (p. 40) section).

K - ACADEMIC HONORS

K-1. Graduation with Honors

Candidates for baccalaureate degrees are graduated with honors if they satisfy ONE of the following conditions. Note: Graduation with honors is determined at the point in time when the degree is posted to the student's academic record based upon the student's grade point average at that time. Grade corrections subsequent to the posting of the degree will be processed by the Registrar's Office but will not impact the honors designation for the student.

1. Their cumulative UI grade-point averages are as specified in K-1-a, K-1-b, or K-1-c and they have earned at least 56 credits in UI courses OR
2. Both their cumulative UI grade-point averages AND their grade-point average from all sources (the overall GPA on Banner) are as specified in K-1-a, K-1-b, or K-1-c, and they have earned at least 32 credits in UI courses.

No credits earned through correspondence study, bypassed courses, credit by examination, College Level Examination Program, experiential learning, or technical competence may be counted among these 56 or 32 credits. Candidates for the degree of Juris Doctor are graduated with honors under the same conditions, except the grade-point average considered is based exclusively on the student's record in the College of Law. Honors are not awarded with degrees earned through the College of Graduate Studies.

K-1-a

Candidates whose grade-point averages would place them within the top 3 percent of graduates from their respective colleges over the preceding five years are graduated **summa cum laude** (with highest distinction).

K-1-b

Candidates whose grade-point averages would place them within the top 6 percent (but below the top 3 percent) of graduates from their respective colleges over the preceding five years are graduated **magna cum laude** (with great distinction).

K-1-c

Candidates whose grade-point averages would place them within the top 10 percent (but below the top 6 percent) of graduates from their respective colleges over the preceding five years are graduated **cum laude** (with distinction).

K-2. Dean's List

Undergraduate students who are registered for at least 12 credits (10 in the College of Law) and attain a grade-point average of 3.50 (3.00 in the College of Law) for a given semester are placed on lists prepared for the college deans. [Note: The 3.50 GPA is based on 12 graded credit hours (GPA hours) and does not include courses graded pass/fail.] These lists are publicized within UI and are distributed to news agencies.

L - ACADEMIC STANDING, PROBATION, DISQUALIFICATION, AND REINSTATEMENT

L-1. Academic Standing for Undergraduate Students

Students are considered to be in good academic standing when they have a semester and a UI cumulative grade-point average of 2.00 or higher.

L-2. Academic Probation for Undergraduates

L-2-a

At the end of a semester, undergraduate students who do not attain a UI cumulative grade-point average of 2.00 are placed on academic probation for the next semester of enrollment and are referred to the appropriate academic dean for advising. The effect of this probationary status is to serve notice that if a student's cumulative record at the end of the next semester in residence is unsatisfactory he or she will be disqualified and ineligible to continue at UI. Students in their first semester of college who achieve less than a 1.0 grade point average at the end of the semester will be placed on first academic disqualification rather than probation (see L-4-a).

L-2-b

Students on academic probation who attain a UI cumulative grade-point average of 2.00 or higher are automatically removed from probation.

L-2-c.

Students on academic probation who attain a semester grade-point average of 2.00 or higher during the next or subsequent semester after being placed on probation, but whose cumulative grade-point average is still below 2.00 remain on academic probation.

L-2-d

Because final grades for a probationary term may not be available until after a student has registered for an ensuing term, such registration must be considered tentative until the student's academic standing may be determined. If the student is disqualified at the end of the probationary term, the registration for the ensuing term is invalid and will be cancelled unless the student is reinstated (see L-4).

L-3. Academic Disqualification for Undergraduates

L-3-a

Students in their first semester of college who achieve less than a 1.0 grade point average at the end of the semester will be placed on first academic disqualification.

L-3-b

Students on academic probation with less than 33 cumulative net credits will be disqualified if their semester grade-point average falls below a 2.00 and their UI cumulative grade-point average falls below a 1.80. Students in this group with a semester grade-point average below a 2.00 and a UI cumulative GPA between 1.80 and 1.99 will remain on probation.

L-3-c

Students on academic probation with 33 or more cumulative net credits will be disqualified at the end of a probationary semester if both their UI cumulative grade-point average and their semester grade-point average are below 2.00.

L-3-d

To reregister after being academically disqualified, students must be reinstated. (Students must contact their respective college, prior to the beginning of the semester, for the deadline to petition for reinstatement.)

L-3-e

Because final grades for a probationary term may not be available until after a student has registered for an ensuing term, such registration must be considered tentative until the student's academic standing may be determined. If the student is disqualified at the end of the probationary term, the registration for the ensuing term is invalid and will be cancelled unless the student is reinstated (see L-4).

L-4. Academic Reinstatement for Undergraduates

L-4-a

After a first academic disqualification, students may be reinstated (i.e., have their eligibility to continue restored) by petition to and favorable action by the college in which they are enrolled OR by remaining out of UI for at least one semester. Summer does not qualify as a one semester absence.

L-4-b

After a second academic disqualification, students may be reinstated at any time only by petition to and favorable action by the college in which they are enrolled.

L-4-c

Students academically disqualified for a third time may be reinstated only after successful petition to the college in which they are enrolled and the Academic Petitions Committee.

L-4-d

Students who have been reinstated may continue to register on probation so long as they attain a 2.00 or better grade-point average for each semester following a disqualification.

L-4-e

Students who are academically disqualified and reinstated are reinstated on academic probation.

L-5. Academic Warning for Undergraduates

Students not on probation who attain a grade-point average below 2.00 during a given semester without dropping below a UI cumulative grade-point average of 2.00 receive an academic warning. Although this does not affect their academic standing or their eligibility to register, the students are referred to the appropriate academic dean for advising.

L-6. Summer Session

Academic disqualification at the end of a spring semester does not affect a student's eligibility to continue in the immediately ensuing summer, but to register in any subsequent term the student must be reinstated. Academic standing is not computed at the end of summer session.

L-7. Fresh Start

Qualified undergraduate students who wish to reenter the university in a specific degree program after a period of absence will be allowed a "Fresh Start" as described below.

L-7-a

To qualify for a Fresh Start, students

1. must not have been enrolled in any college or university as a full-time matriculated student for at least the five years immediately before applying for the program,
2. must have a UI cumulative GPA of less than 2.00, and
3. must be approved for the program by the college dean that administers the academic program they wish to pursue.

L-7-b

Once the student has completed an additional 24 credits of course work with a Fresh Start cumulative GPA of at least 2.00 and has been in the program at least two semesters, the cumulative GPA will be reset to 0.00 as of the time of admission to the Fresh Start Program.

L-7-c

Students in the Fresh Start Program will be allowed a maximum of six credits of "W" during the first two semesters after admission to the program. If the Fresh Start is successfully completed, the count for the 21-credit limit on withdrawals (see C-2 (p. 75)) will be reset to 0 as of the time of admission to the Fresh Start Program.

L-7-d

University probation and disqualification regulations apply throughout the Fresh Start process.

L-7-e

To graduate with honors, a student in the Fresh Start Program must have at least 56 credits in UI courses after the Fresh Start (see K-1 (p. 92)). Fresh Start Program participants are eligible for the dean's list (see K-2 (p. 92)) on a semester-by-semester basis.

L-7-f

Application forms and explanatory materials are available at the Registrar's Office.

L-8. Academic Standing for Graduate Students

Graduate students are considered to be in good standing when they have a semester and cumulative grade-point average of 3.00 or higher.

L-9. Academic Probation for Graduate Students

L-9-a

A graduate student is placed on academic probation after any semester or summer session in which a GPA of less than 3.00 is earned in courses placed on the graduate transcript, regardless of the student's cumulative GPA.

L-9-b

Graduate students on academic probation who attain a semester and cumulative grade-point average of 3.0 or higher are automatically removed from academic probation.

L-9-c

Graduate students on academic probation who attain a semester GPA of 3.00 or higher during the next or subsequent semester or summer session after being placed on probation, but whose cumulative GPA is still below a 3.00, will remain on academic probation.

L-10. Academic Disqualification for Graduate Students

A graduate student will be disqualified if a semester GPA of less than 3.00 (regardless of cumulative GPA) is earned on courses placed on the graduate transcript during the second, consecutive semester or summer session

L-11 Academic Reinstatement for Graduate Students

L-11-a

A graduate student may be reinstated after disqualification under the following conditions: the student may not enroll as a graduate student for at least one semester (fall or spring), must get the positive recommendation of his or her program's administrator, and must gain approval from the College of Graduate Studies.

L-11-b

Reinstatement is granted for a specific semester only and the student must enroll in that semester.

L-11-c

The student must receive a term GPA of at least 3.0 the first semester back in the College of Graduate Studies.

L-11-d

A reinstated student will be placed on probation if their cumulative GPA is below a 3.00.

L-11-e

A reinstated student will be disqualified after the second consecutive term where a 3.0 GPA was not achieved (see L-10).

L-12

Regulation L does not apply to law students. See the College of Law (p. 230) Announcement for information for law students.

M - ATTENDANCE, FIELD TRIPS, AND OFFICIAL STUDENT TRAVEL

M-1. Attendance

Instructors will make clear at the beginning of each course the extent to which grades are dependent on attendance and in-class participation. Students are responsible for class attendance. Students are accountable for communicating with the instructor and making up missed work in the event of any absence. Instructors shall provide reasonable opportunity for students to make up work when the student's absence from class resulted from:

1. participation in official university activities and programs,
2. personal illness,
3. family illness and care, or
4. other compelling circumstances.

M-2. Field Trips and Official Student Travel

"Field trip" is defined as any required, course-related student travel that exceeds 25 air miles from the campus or conflicts with other classes that the students involved are taking. (A trip taken within 25 air miles during the class scheduled for the particular class or at a time that does not conflict with other classes the students involved are taking is a "local trip," not a "field trip.")

M-2-a. Missed Class Work

Students participating in field trips, as defined above, or other official UI activities are responsible for conferring in advance with the instructors of any classes that will be missed in order to be eligible for making up missed class work. (See M-1.)

M-2-b. Approval of Course-Related Field Trips

Administrative approval for course-related field trips will be obtained by the person in charge of the trip as follows:

1. Each field trip as identified in the catalog course description requires prior approval by the department in accordance with divisional procedures (application for approval should be made at least one week before the expected departure).
2. Each field trip NOT identified in the catalog course description requires prior approval by the departmental administrator, and the dean of the college (application for approval should be made at least two weeks before the expected departure).

M-2-c. Approval of Other Official Student Travel

Administrative approval for official student travel that is NOT course related is obtained from the vice president for student affairs (application for approval should be made at least two weeks before the expected departure).

M-2-d. Costs

When a college can cover all or part of the cost of a course-related field trip from allocated funds, the college should do so. If the college cannot cover the cost, or a portion thereof, the cost (or remaining portion) must be borne in proportionate share by the students in the course. Students missing required field trips identified in the catalog course description must pay their proportionate shares.

M-2-e. Field-Trip Completion Deadline

All field trips and other UI-approved student travel must be completed before 7:30 a.m. on the fifth day of classes before the start of final examinations. Part3 Pg. 4 of 6

M-2-f. Vehicle Information

Information concerning privately owned vehicles (registration, insurance, driver's license, etc.) to be used for field trips or other official student travel must be filed in the Risk Management Office (Rm. 209, Admin. Bldg.). Administrators of departments and divisions are responsible for ensuring that the required information is filed before the initial use of each privately owned vehicle in a given academic year.

M-3. Accommodation of Religious Observances in the Administration of Examinations

When tests or examinations fall on days objectionable to a student because of religious beliefs, the student should contact the instructor as soon as possible. The instructor may require the student to submit a concise, written statement of the reasons for the request. If the request appears to be made in good faith, the instructor should make alternative arrangements for the administration of the examination or test. If the instructor believes the request not to be in good faith, or if the instructor and the student are unable to agree on arrangements, the student or the instructor should seek the assistance of the departmental administrator, dean, or provost, in that order.

M-4. Drop for Non-attendance

Students are responsible for notifying their instructors through the Registrar when extenuating circumstances not covered as an official absence as defined in M-1 prevent their attendance during the first week of the semester. Instructors may notify the Registrar to drop students who have not attended class or laboratory meetings nor notified the instructor through the Registrar by the end of the sixth business day following the start of the class. Valid reasons for missing classes do not relieve the student of making up the work missed.

N - CLASS RATING

Class ratings of undergraduates are determined as follows:

Sophomore - 26 credits

Junior - 58 credits

Senior - 90 credits

O - MISCELLANEOUS

O-1. Credit Requirements for Full-Time Students

O-1-a

For purposes other than fees, UI students in all divisions except the College of Graduate Studies and the College of Law must carry 12 credits each semester or summer session to be classified as full time.

O-1-b

For fee and tuition purposes only, students carrying ten or more credits (or equivalent in audits and zero-credit registrations) and all teaching/research assistants on full appointment, regardless of the number of credits they register for, are classified as full-time students.

O-1-c

Students in the College of Graduate Studies are considered full time:

1. when registered for nine credits (or equivalent) of course and/or thesis work; or
2. when on full-time appointments as teaching assistants or research assistants.

O-1-d

Veterans and war orphans attending UI on the G.I. Bill must carry certain minimum credit loads to be considered by the Veterans' Administration for benefits as indicated in the table accompanying this regulation. (Audits do not count; repeats and reviews may be included when the student's advisor certifies that the course is required in the student's curriculum or is needed to remove a deficiency or to provide essential background for the student's program; file a copy of the program with the veterans' clerk at the Office of Dean of Students.)

Benefits	Academic year Undergraduate	Academic Year Graduate	Summer Session Undergrad & Grad
Full	12 or more	9 or more	Must be Arranged
Three-fourths	9-11	6-8	
Half	6-8	3-5	
Fees and tuition only	Fewer than 6	Fewer than 3	

O-1-e

Students in the College of Law are considered full time when registered for 10 credits (or equivalent) of course work.

O-1-f

The president, vice president, and senators of the Associated Students University of Idaho are considered full time when carrying at least the following credit loads: president, three credits; vice president and senators, six credits. The editor and associate editor of the *Argonaut* are considered full time when paying full-time student fees and carrying at least the following credit loads: editor, three credits; associate editor, six credits.

O-2. Academic Performance

Instructors and students are responsible for maintaining academic standards and integrity in their classes. Consequences for academic dishonesty may be imposed by the course instructor. Such academic consequences may include but cannot exceed a grade of "F" in the course. If the student deems the grade unfair, he or she may appeal through the appropriate departmental administrator and college dean, and finally to the Academic Hearing Board.

In addition to the academic consequences, disciplinary penalties for academic dishonesty may include suspension or expulsion and must be handled by the Student Judicial System, which is described in the Student Code of Conduct section of the *"Policies & Information of Interest to Students"* booklet and the *Faculty-Staff Handbook*.

O-3. Application for Graduation

Degree candidates must submit an Application for Graduation to their college. Students should submit applications no later than the semester in which they will be completing their degree requirements. If two degrees are to be received concurrently, separate applications must be filed with the dean(s) of the college(s) concerned. The graduation, binding, and microfilming fees will be posted on the student's account once the graduation application has been fully processed. (See "Fees and Expenses (<http://uidaho.smartcatalogiq.com/2017-2018/University-of-Idaho-General-Catalog/Student-Services/Fees-and-Expenses>)"). The deadline for filing Applications for Graduation without a late service charge is the 10th day of the semester in which the student will be graduating.

O-4. Commencement

Formal commencement exercises are held at the close of the fall and spring semesters; however, diplomas are also issued at the close of the summer session to such candidates as have completed their graduation requirements at that time. All students who graduate in the summer, fall, or spring are entitled to participate in the commencement exercises. Students must indicate on their application for degree whether they intend to participate in the formal commencement exercises so that appropriate arrangements can be made. Reservations for caps, gowns, and hoods must be made by the date specified by the registrar. Diplomas are ready about six weeks after the end of the academic session in which graduation requirements are completed.

O-5. Limitations on Class Size

O-5-a

Limitations on class size must have prior approval by the dean of the college in which the course is offered. If it becomes necessary to limit the size of a class on a continuing basis (more than two semesters), the limitations must be approved through faculty channels—University Curriculum Committee and university faculty—and be made part of the catalog description of the course.

O-5-b

Preference for enrollment in courses with limitations on class size is given to students enrolling in them for the first time. At the option of the department, students repeating courses for any reason may be placed on standby status. Students in that status are allowed to register for the course, if there is available space, by permission of the department offering the course. In no case may a student

be held in standby status for any one course for more than two consecutive semesters.

O-5-c

Any student denied admission to a class may appeal in writing to the provost for a review of the circumstances involved.

O-6. Students' Right to Change Course Sections

Students have the right to change from one section of a course for which they are qualified to another section of the same course during the first two weeks of classes so long as the section into which they wish to transfer has not reached the maximum number of students that may be accommodated. (See appeal procedure in O-5.)

O-7. Availability of Instructors' Names

As a matter of principle, students and their academic advisors and deans have the right to know the names of the instructors who will teach course sections to be offered during the immediately ensuing semester or summer session. Departments are required to submit the names of instructors for all course sections for publication in the Class Schedule. Where it is impossible to determine the teaching assignments of individual members of the instructional staff before the deadline for the Class Schedule, departments are responsible for making information concerning adjustments in teaching assignments generally available to students, advisors, and deans at such time as they occur.

O-8. Confidentiality of Academic and Counseling Records

See the student records policy in the booklet entitled "Policies and Information of Interest to Students," available from the Office of the Dean of Students or the Office of the Vice Provost for Student Affairs (TLC 232), and other locations around the campus.

O-9. Deviations from Established Class Schedules

O-9-a

The provost periodically reminds deans and departmental administrators of their responsibility to ensure that classes meet in conformity with the course descriptions and *Class Schedule*. (It is the responsibility of the University Curriculum Committee to see that the time requirements stated in new or revised course descriptions satisfy general regulation D-1 (p. 76), "Credit Defined"; it is the responsibility of the registrar to see that listings in the Class Schedule conform to the respective course descriptions.)

O-9-b

The cancellation of a particular class session or sessions on an occasional basis, normally due to unusual circumstances affecting the instructor or the students in the class, is a matter for the instructor's discretion. Nonetheless, instructors should keep such cancellations to a minimum, be satisfied that the grounds for cancellation are defensible, give as much advance notice of the cancellation as is possible, and, if time permits, obtain the concurrence of the departmental administrator in advance. Frequent failure of an instructor to meet classes, except for reasons

clearly recognizable as adequate, may be grounds for disciplinary action.

O-9-c

The scheduling of required class meetings at times other than those specified in the Class Schedule or authorized in the course descriptions (e.g., field trips) requires approval by the provost. In addition to securing the provost's approval, the instructor must give the students at least two weeks' notice, provide alternative means of completing class requirements for students who have irreconcilable conflicts with the irregular meetings, and, normally, cancel regularly scheduled class meetings equivalent to the irregular meetings. (If it is proposed that such irregular meetings be made a continuing practice, they are to be incorporated in the course description and the revised description submitted to the University Curriculum Committee for routine faculty approval.)

O-9-d

Authorized class meetings at times other than those shown in the Class Schedule is one of the topics that instructors are to discuss at the first or second class session.

O-10. Academic Certificates

The University of Idaho offers Academic Certificates in various academic disciplines. An academic certificate is defined as a coherent body of work designed to reflect specialized expertise. The curricular requirements of an academic certificate can be found in the relevant department in the catalog.

O-10-a. Undergraduate Academic Certificates

1. An undergraduate academic certificate must include at least 12 credits of coursework.
2. All required coursework must be completed with a grade of "C" or better unless the certificate specifies a higher grade requirements.
3. A maximum of six credits of coursework which is either transferred from another regionally accredited institution or is more than five years old at the time of graduation may be used towards completion of an academic certificate.

O-10-b. Graduate Academic Certificates

1. A graduate academic certificate must include at least 12 credits of coursework. At least half of the credits completed towards a graduate academic certificate must be in graduate level coursework.
2. All required coursework must be completed with a grade of "B" or better unless the certificate specifies a higher grade requirement.
3. A maximum of six credits of coursework which is either transferred from another regionally accredited institution or is more than five years old at the time of graduation may be used towards completion of an academic certificate.

COLLEGE OF AGRICULTURAL AND LIFE SCIENCES

Michael Parrella, Dean (53 Iddings Wing, Ag. Sc. Bldg.; 208-885-6681)

The College of Agricultural and Life Sciences provides quality programs in agricultural, food, family and consumer sciences, and related areas to all of Idaho. In addition to academic programs, the college also advances knowledge in these areas by research conducted through the Idaho Agricultural Experiment Station and provides information transfer and application of new knowledge to the state and the nation through the Cooperative Extension System. The college also actively participates in international development and student and faculty exchange programs around the world. The College of Agriculture was established in 1901 and was renamed the College of Agricultural and Life Sciences in 2001. The Margaret Ritchie School of Family and Consumer Sciences became part of the college in 1983.

Advantages

The College of Agricultural and Life Sciences offers a quality education in a professional and friendly atmosphere. Each student has an academic advisor who is readily available to assist in academic and career planning. There is also a Peer Mentor program to help first-time students become acquainted with the college and the university. Undergraduate students often have the opportunity to experience their major by working on research projects and internships directed by faculty members. The college also offers leadership opportunities through a variety of departmental and college student organizations.

Faculty

The faculty are the key to quality education. In the College of Agricultural and Life Sciences, there is a low student/teacher ratio and most classes are taught by faculty members. They bring to their students a strong commitment to teaching and a richness of depth, experience, and research.

Units

The College of Agricultural and Life Sciences offers 24 programs through 6 academic units. The units are Agricultural Economics and Rural Sociology; Agricultural and Extension Education; Animal and Veterinary Science; Margaret Ritchie School of Family and Consumer Sciences; Bi-State School of Food Science; and Plant, Soil and Entomological Sciences.

Facilities of the College

The College of Agricultural and Life Sciences is housed in five buildings on campus and in many other facilities around the state. Some of the unique facilities include a child development laboratory, a state-of-the-art biotechnology research laboratory, an agricultural engineering laboratory, a food science and toxicology research center, and research farms of more than 2,500 acres for beef, dairy, sheep, plant science, and other programs. In addition to facilities at Moscow, there are offices in 42 counties and research and extension centers at 10 locations throughout Idaho.

Agricultural Experiment Station

The Idaho Agricultural Experiment Station was established in 1892 to support the research function of the College of Agricultural and

Life Sciences, and has the responsibility to conduct applied and basic research leading to problem solving and new knowledge for agricultural industries, rural communities, and family living. The Idaho Agricultural Experiment Station is coordinated with and provides research for teaching and extension to more effectively meet the needs of Idaho citizens.

The Idaho Agricultural Experiment Station is integrated into all departments of the college. Thus, most of the college's teaching faculty also have partial research appointments in the experiment station. Other faculty members have combined extension and research appointments and some are assigned to full-time research.

The Idaho agricultural research program is statewide. Research is conducted in a number of areas related to agriculture and on all major agricultural commodities. The administrative center for the research program is located on the Moscow campus. There are 10 research and extension centers in strategic agricultural areas around the state where resident research and extension personnel are located.

The Idaho Agricultural Experiment Station shares the responsibility of developing and educating future scientists through undergraduate research and graduate assistantship programs. Currently, there are approximately 130 graduate students enrolled in the College of Agricultural and Life Sciences, most are on assistantships or stipends. These appointments are generally for two years at the Master of Science level and for three years in Ph.D. programs, during which time the students conduct research as a part of their graduate education.

University of Idaho Extension

The Cooperative Extension System was established by the Smith-Lever Act, signed May 8, 1914, to help extend research to the people of the United States in order to improve their farms, families, and communities. The Idaho legislature approved the Cooperative Extension concept in 1915. In 1917, additional state legislation brought the county boards of commissioners into the cooperative three-way federal, state, and county partnership.

The Extension System is an integral part of the University of Idaho and the College of Agricultural and Life Sciences and is administratively coordinated with the teaching and research functions of the college. The extension function is organized to extend the knowledge created through research to the people of the state of Idaho so that they can apply the findings to their particular situations, thereby solving their problems and improving their quality of life.

The headquarters of the University of Idaho Extension is in Moscow. District offices are located at Caldwell, Coeur d'Alene, and Idaho Falls. The state is the campus for University of Idaho Extension.

Educators live and work in the areas to which they are assigned by mutual agreement of the university and the counties involved. Agricultural, family and consumer sciences, and youth educators are located in 42 of Idaho's 44 counties and are also involved in multi-county programming.

Supporting the county faculty are state Extension specialists located at Idaho Falls, Parma, Caldwell, Aberdeen, Coeur d'Alene, Boise, Twin Falls, Moscow, and Kimberly. These specialists keep up to date by conducting relevant research and through cooperation with research scientists of the College of Agricultural and Life Sciences and the U.S. Department of Agriculture.

Extension educational programs are conducted in five broad areas. These are:

1. Food, food production, and food systems;
2. Health and wellness;
3. Natural resources and the environment;
4. Community development; and
5. Family well-being and 4-H youth development.

Programs are both disciplinary and interdisciplinary and are designed to address the issues facing Idahoans. Major programming issues include water quality, youth at risk, waste management, food security, obesity, community vitality, agricultural sustainability, and STEM (science, technology, engineering, math).

The University of Idaho Extension helps people improve the social, economic, and environmental qualities of their lives through research-based education and leadership development focused on issues and needs. To accomplish this mission, University of Idaho Extension works under the basic philosophy that programs planned with people will achieve greater success than programs planned for them. Extension takes the resources and research of the land-grant university out into the state so that Idaho's citizens can benefit from their university.

General College Requirements for Graduation

University Requirements

See regulation J (p. 84) for requirements that all students in the university must meet.

College Requirements

See the individual department section for degree requirements within each department.

Major Curricula

The specific requirements for the undergraduate majors are listed in the individual department section. Each student is assigned an advisor who assists in the planning of his or her program; however, the student has the final responsibility for the completion of all university, college, and departmental requirements.

Degrees and Curricula Offered

Students in the College of Agricultural and Life Sciences are encouraged to pursue a broad education. In each curriculum, minimum requirements are specified in agriculture, life or family and consumer sciences disciplines; in the biological, physical, and social sciences; and in humanities to qualify the graduate to enter professional fields in agriculture, life and family and consumer sciences. Each curriculum also permits students to choose elective courses that will assist in personal and professional growth, development of communication skills, and a better understanding of the world in which we live.

Undergraduate

Baccalaureate degrees and major curricula offered by the College of Agricultural and Life Sciences include Bachelor of Science degrees in Agricultural and Life Sciences (with majors in Agricultural Science, Communication and Leadership; Agricultural Systems Management; and Sustainable Crop and Landscape Systems with 5 emphasis areas); Agricultural Education; Agricultural Economics (with emphases in

Agribusiness or Applied Economics); Animal and Veterinary Science (with options in production, business, dairy science, and science/preveterinary); Family and Consumer Sciences with degrees in Early Childhood Development and Education, and Family and Consumer Sciences (with majors in: child, family, and consumer studies – 3 options; apparel, textiles, and design; and food and nutrition with options in dietetics and nutrition); and Food Science (with options in dairy foods management and food science). Baccalaureate degrees in Agricultural Engineering and Biological Systems Engineering are offered through the College of Engineering. See the departmental sections below for the programs of study leading to these degrees.

Graduate

Graduate study leading to the degree of Master of Science is offered in Applied Economics; Agricultural Education; Animal Science; Entomology; Family and Consumer Sciences; Food Science; Plant Science; and Soil and Land Resources. Graduate study leading to the degree of Doctor of Philosophy is offered in Animal Physiology; Entomology; Food Science, Plant Science; and Soil and Land Resources. Both M.S. and Ph.D. programs in Biological and Agricultural Engineering are offered through the College of Engineering. Students must fulfill the requirements of the College of Graduate Studies and the units in which they study.

Department of Agricultural and Extension Education

The mission of the Department of Agricultural and Extension Education includes teaching, research, and service. The specific objectives of the department are:

1. to prepare educators for employment in teaching agriculture and extension programs
2. to provide service and direction to FFA in Idaho
3. to prepare for careers in general learning/ranching or entry level positions in agricultural industry and agribusiness
4. to provide an opportunity for graduate study in the areas of agricultural and extension education
5. to assist in providing in-service education for agricultural educators in Idaho
6. to provide service to related agencies and organizations for the support of education and the development of human resources
7. to conduct quality research in agricultural and extension education
8. to assist in maintaining viable agricultural education programs; and
9. to assist in the development of information and instructional materials for the support of agricultural educators and extension personnel.

Courses in animal science, agricultural economics, agricultural mechanics, entomological science, plant science, horticulture, and soil science will prepare graduates to teach these areas as secondary agriculture instructors or develop educational programs as county extension faculty. The agricultural education curriculum is approved by the State Board for Professional-Technical Education. Graduates who have completed a minimum of 28 credits in agricultural education and who meet the state certification requirements for a standard secondary teaching certificate are qualified to teach secondary agriculture. Government and agribusiness agencies that seek persons with training in agriculture and education provide employment opportunities for graduates of this curriculum. Courses provide students an opportunity to

develop employment opportunities in teaching agriculture, cooperative extension, and agribusiness occupations.

The department provides opportunities for professional growth and development to agricultural educators through a planned program of graduate study. The pursuit of an M.S. degree allows for the development of problem-solving skills through scientific investigation of appropriate research topics. Graduate work in agricultural and extension education is offered with the opportunity for students to elect options in agricultural sciences, extension education, professional-technical teacher education, international agricultural education, or other areas that parallel their career goals. Because of the diversity of research efforts by departmental faculty members, a graduate student has a wide variety of specializations from which to choose a thesis topic. Students with this degree are well prepared to move into a job market or to pursue a Ph.D. program at another institution.

Admission to a graduate program requires an undergraduate degree with a major in agricultural education or a closely related field. The department may require the Graduate Record Examination if there is insufficient information available to indicate that the student will be successful in graduate work.

The department welcomes inquiries about its programs and suggests that anyone interested in possible pursuit of a degree in agricultural and extension education should contact the department (telephone 208-885-6358).

Majors

- Agricultural Education (B.S.Ag.Ed.) (p. 103)
- Agricultural Science, Communication and Leadership (B.S.Ag.L.S.) (p. 104)
- Agricultural and Life Sciences Core (<https://catalog.uidaho.edu/colleges-related-units/agricultural-life-sciences/curricular-requirements>)

Minors

- Agricultural Extension Education Minor (p. 104)
- Agricultural Communications and Leadership Minor (p. 104)

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Agricultural and Extension Education. See the College of Graduate Studies (p. 221) section for the general requirements applicable to the M.S. degree.

- Agricultural Education M.S. (p. 104)

Agricultural Education (B.S.Ag.Ed.)

This major is approved by the State Board of Professional-Technical Education for the preparation of high school agriculture instructors. Graduates who have completed at least 28 credits in agricultural education, and who meet the state certification requirements for a Standard Secondary Teaching Certificate, are eligible to teach secondary agricultural science and technology in Idaho. Students must be admitted to the Teacher Education Program, which requires a grade-point average of at least 2.75, before being allowed to enroll in upper-division teacher education courses and participate in student teaching. The Idaho teaching certificate transfers to most states in the US. In addition,

government and business agencies and the Cooperative Extension System that seek persons with education in both agriculture and education provide employment opportunities for graduates of this curriculum.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and the following:

Code	Title	Hours
AGED 180	Introduction to Agricultural Education	1
AGED 258	Experiential Learning and SAE Programs	1

Horticulture Elective	3
Soils Elective	4
Total Hours	104-105

Courses to total 128 credits for this degree

Agricultural Education (M.S.)

Master of Science. Major in Agricultural Education.

Both thesis and non-thesis options are offered. The M.S. (non-thesis) is a terminal program designed to provide a broader preparation than the M.S. with thesis. Of the minimum of 30 credits required under the non-thesis option, at least 18 must be in courses at the 500s level and the remainder may include 400s level courses in the majors and 300s and 400s level courses in supporting areas. A professional paper is optional at the discretion of the candidate's supervisory committee. A comprehensive examination is required which may be written and/or oral.

Total Hours		18-29

Courses to total 20 credits for this minor

Department of Agricultural Economics and Rural Sociology

Agricultural economics is an applied branch of economics. It is a social science that deals with economic problems in agriculture, the food industry, rural communities, and the use and conservation of our natural resources. Economic principles and theories are used to determine maximum economic efficiency in the production and marketing of agricultural commodities and in the use of natural resources.

The Bachelor of Science program in Agricultural Economics prepares students to address problems faced by farmers and ranchers, agricultural marketing and supply companies, natural resource agencies, and rural communities. The department offers the B.S. degree in Agricultural Economics with two emphasis areas: Agribusiness and Applied Economics. Areas of study within the emphases include agricultural finance, agricultural policy, agricultural commodity risk management, marketing, farm and ranch management, rural community development, international trade and development, economic use of natural resources, and management of agribusiness firms. The department also offers two minors: Agribusiness and Natural Resource Economics.

The Agribusiness emphasis prepares students in the management functions of farms, ranches, and businesses involved with the production and marketing of farm commodities and farm production inputs. The Applied Economics emphasis prepares students to become professional economists for commercial agricultural firms and governmental agencies or to pursue advanced degrees in this field before entering the profession.

The M.S. in Applied Economics encompasses agribusiness, natural resources, and rural development economics. Agricultural development and international trade are also emphasized.

Students initiating graduate work in applied economics should have a background in economics and quantitative methods. The following specific course areas are recommended: economic principles, six credits; intermediate microeconomics, three credits; statistics, three credits; mathematics, through introductory calculus; applied economics and/or agricultural economics, nine credits. Individual graduate programs are tailored to allow students to take courses and develop thesis proposals in line with their professional interests.

The department welcomes inquiries about its program and suggests that anyone interested in possible pursuit of a degree in agricultural economics should contact the department (telephone 208-885-6264) or visit the website at www.uidaho.edu/cals/aers.

Majors

- Agricultural Economics (B.S.Ag.Econ.) (p. 105)

Minors

- Agribusiness Minor (p. 105)
- Natural Resource Economics Minor (p. 107)

Agricultural Economics and Rural Sociology Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Agricultural Economics and Rural Sociology. See the College of Graduate Studies (p. 221) section for the applicable general requirements.

- Agricultural Economics and Rural Sociology (M.S.) (p. 106)

or AGECE 302	Managerial Economics: Consumption & Markets	
Select 7 credits of Upper-Division Agricultural Economics Electives		7
Total Hours		20

Courses to total 20 credits for this minor

Agricultural Economics (B.S.Ag.Econ.)

The agricultural economics area has two programs designed to prepare students for careers in the agricultural economics profession. The agribusiness major provides students with training related to management, finance, and marketing in the agribusiness sector. The agricultural economics major provides students with the theory behind decisions concerning agricultural production, marketing, resource use, pricing, and policy. Both of these majors prepare students to pursue advanced degrees if they choose.

Required course work includes the university requirements (see regulation J-3 (p.)) and:

Agricultural Economics and Rural Sociology (M.S.)

Master of Science. Major in Applied Economics.

The M.S. program in applied economics is designed to prepare students for management, research, and policy positions in the public and private sectors of the economy, and for further graduate study.

The M.S. thesis option is offered as a 32 credit stand-alone degree or as a 32 credit thesis degree with optional emphasis area(s). The minimum of 32 required credits can be satisfied by taking a combination of 500 and 400 level courses, with at least 18 credits at 500 level, plus no more than 3 credits of 300 level courses in supporting areas.

An emphasis may be selected in any of the following three areas: Agricultural Economics; Natural Resources; Agribusiness. Both thesis options include six letter graded thesis credits (AGEC 500) and 26 credits of course work including the following:

Code	Title	Hours
AGEC 506	Faculty Seminar Series	0
AGEC 525	Master's Econometrics	3
AGEC 526	Master's Microeconomics Analysis	3
AGEC 527	Mathematics for Economists	3
AGEC 529	Research Methods (Max 2 credits)	1-2
AGEC Electives		15
Total Hours		25-26

A student has the option to not pursue an emphasis in which case the student must complete as part of the 15 credits of AGECElectives, 9 credits chosen from the following courses:

Code	Title	Hours
AGEC 532	Natural Resource Economics and Policy	3
AGEC 533	International Trade and Policy	3
AGEC 534	Production Economics	3
AGEC 535	Applied Industrial Organization	3
AGEC 586	Regional Economic Development Theory	3

dairy products and processing, physiology of lactation, herd health management, agriculture power and machines, and farm management. Students are eligible to participate in the cooperative of university dairy students (CUDS) program.

The option in production (B.S.A.V.S.) is designed for students who desire to pursue a career in livestock production, graduate work in one of the varied disciplines in animal sciences (nutrition, breeding, physiology, growth, endocrinology, meats, etc.), or for employment by companies that require intensive training in animal biology. This option is also excellent training for those interested in Cooperative Extension.

The science/pre-veterinary option (B.S.A.V.S.) is offered for students interested in veterinary school or a graduate program involving any of the disciplines of animal biology. It is typically a 4-yr program of study, but for a few students the 3+1 program will be of interest. If, after successful completion of 99 credits of required courses (first 3 years of the 4-yr program, the student is admitted to a recognized college of veterinary medicine and completes the first year of veterinary school (equivalent of at least 32 credits), that first year will constitute the senior year at UI and the student will be awarded a B.S. A.V.S. at UI.

The department offers a graduate program leading to the Master of Science degree with a major in animal science and a Doctor of Philosophy degree with a major in animal physiology. The department offers areas of specialization in nutrition, reproductive physiology, embryo physiology, animal growth and development, meat science, and animal diseases with orientation towards beef cattle, dairy cattle, horses, sheep, and fish. The department also participates in university interdisciplinary programs in reproductive biology, and molecular and agricultural genetic engineering.

Graduate work in the department is designed to prepare the student for work in research, extension, teaching, and industry. Thesis projects are diverse in scope and range in design from studying very fundamental biological questions to application of scientific knowledge to animal production and management. Facilities available for graduate student research include herds and flocks of major livestock breeds, ruminant nutrition and physiology laboratories, biomedical research laboratories, a university-operated dairy, meat science laboratory, and a 500-head experimental feedlot. Active cooperation is maintained with federal research agencies located on and off campus.

Graduate student assistantships are available on a competitive basis each year. Inquiries should be directed to the department's graduate program coordinator.

Majors

- Animal Veterinary Science (B.S.A.V.S.) (p. 108)

Minors

- Animal Science Minor (p. 110)

Animal and Veterinary Science Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Animal and Veterinary Science. See the College of Graduate Studies (p. 221) section for the general requirements applicable to all degrees.

- Animal and Veterinary Science (M.S.) (p. 110)
- Animal and Veterinary Science (Ph.D.) (p. 110)

Animal and Veterinary Science (B.S.A.V.S.)

Required course work includes the university requirements (see regulation J-3 (p. 84)) and completion of one of the following four options:

Code	Title	Hours
AVS 109	The Science of Animals that Serve Humanity	4
AVS 110	Science of Animal Husbandry	3
AVS 110L	Science of Animal Husbandry Lab	1
AVS 305	Animal Nutrition	4
AVS 371 & AVS 373	Anatomy and Physiology and Anatomy and Physiology Lab	4
BIOL 115	Cells & the Evolution of Life	3
BIOL 115L	Cells and the Evolution of Life Laboratory	1
COMM 101	Fundamentals of Public Speaking	2
STAT 251	Statistical Methods	3
ENGL 313 or ENGL 317	Business Writing Technical Writing	3
Select one of the following:		3-4
MATH 143	Pre-calculus Algebra and Analytic Geometry	27-65
MATH 160	Survey of Calculus	
MATH 170	Analytic Geometry and Calculus I	
Select one of the following options:		27-65
Business (p. 108)		
Dairy Science (p. 109)		
Production (p. 109)		
Science/Preveterinary (p. 109)		
Total Hours		58-97

A. Business Option

Code	Title	Hours
Select 6 credits of Business Electives:		6
ACCT 201	Introduction to Financial Accounting	
ACCT 202	Introduction to Managerial Accounting	
AGEC 278	Farm and Agribusiness Management	
AGEC 289	Agricultural Markets and Prices

CHEM 112L	Principles of Chemistry II Laboratory	1
CHEM 277	Organic Chemistry I	3
CHEM 278	Organic Chemistry I: Lab	1
PHYS 111	General Physics I	3
PHYS 111L	General Physics I Lab	1
PHYS 112	General Physics II	3
PHYS 112L	General Physics II Lab	1
Select one of the following:		3-4
BIOL 310	Genetics	
& BIOL 315	and Genetics Lab	
GENE 314	General Genetics	

BIOL 154 or BIOL 250	Introductory Microbiology General Microbiology	3
BIOL 155 or BIOL 255	Introductory Microbiology Laboratory General Microbiology Lab	1-2
BIOL 300 or BIOL 380	Survey of Biochemistry Biochemistry I	3-4
First Year in Veterinary School (32 credits) or the following courses		
AVS 306	Feeds and Ration Formulation	4
AVS 330	Genetics of Livestock Improvement	3
AVS 450	Issues in Animal Agriculture	2
AVS 471	Animal Disease Management	3
Select one of the following:		3
AVS 411	Ruminant Nutrition	
AVS 463	Growth and Lactation	
AVS 475	Advanced Dairy Management	
BIOL 432	Immunology	
BIOL 447	Virology	
BIOL 474	Principles of Developmental Biology	
BIOL 483	Mammalogy	
CHEM 372	Organic Chemistry II	
AVS 472 or AVS 474	Dairy Cattle Management Beef Cattle Science	3
Select one of the following:		3
AVS 466	Equine Science and Management	
AVS 472	Dairy Cattle Management	
AVS 474	Beef Cattle Science	
AVS 476	Sheep Science	
Total Hours		60-63

Courses to total 120 credits for this degree

Animal and Veterinary Science (M.S)

Master of Science. Major in Animal Science

The M.S. degree may be earned in animal science. To qualify for full admission, candidates must fulfill the requirements of the Graduate College and have an overall grade-point average of 3.0 or better (4.0 scale) for their undergraduate study. Acceptance of students not having this minimum grade-point average is possible, subject to recommendation by the department's Graduate Committee. Applicants must submit scores received on the Graduate Record Examination general (aptitude) test.

The M.S. degree requires a minimum of 30 credits, at least 18 of which must be in courses numbered 500 and above. No more than 10 of the 500-level credits may be from research and thesis. Courses at the 300 level in supporting fields may be used as part of the M.S. degree program. All graduate students are required to complete the departmental graduate seminar twice during the degree program. Students are also required to assist with teaching during their graduate training.

Applicants for the M.S. degree program in animal science who have completed their undergraduate program in fields that are not closely related to animal science will be required to complete deficiency courses as determined by the candidate's committee and approved by

the department's Graduate Committee. The following are considered essential in an applicant's undergraduate program: chemistry and biochemistry (minimum of 12 credits); calculus; animal nutrition; animal breeding; physiology and/or endocrinology; one products course; and one animal production and management course. Specific animal production courses may be required as determined on an individual candidate basis.

Animal and Veterinary Science (Ph.D.)

Doctor of Philosophy. Major in Animal Physiology

To qualify for admission, candidates must fulfill the requirements of the Graduate College and have an overall grade-point average of 3.25 or better (on a 4.00 scale) for their undergraduate and graduate work. Applicants must submit scores received in the Graduate Record Examination (aptitude test).

Applicants who have completed their previous degrees in fields not closely related to animal and veterinary science may be required to complete deficiencies as determined by the candidate's committee and approved by the department's Graduate Committee.

The Ph.D. degree in animal physiology requires a minimum of 78 credits beyond the B.S. or professional degree, at least 52 credits of which must be in courses numbered 500 and above. Thirty-nine credits of the 78 must be in courses other than AVS 600. Courses at the 300 level may not be used as part of the Ph.D. degree program. Doctoral students are required to complete the departmental graduate seminar each semester it is offered during the degree program. Students are also required to assist with teaching during their graduate training. Doctoral students must demonstrate competence in experimental design and data analysis prior to completion of the degree.

Animal Science Minor

Code	Title	Hours
AVS 109	The Science of Animals that Serve Humanity	4
AVS 110	Science of Animal Husbandry	3
AVS 110L	Science of Animal Husbandry Lab	1
AVS 222 or AVS 452	Animal Reproduction and Breeding Physiology of Reproduction	3-4
Select 6 credits from the following:		6

Courses to total 20-21 credits for this minor

Department of Entomology, Plant Pathology and Nematology

The **Department of Entomology, Plant Pathology and Nematology (EPPN)** supports the Land Grant mission of the University of Idaho through our statewide programs of teaching, research and extension about insects and their relatives, plant pathogens and diseases, and nematodes. EPPN faculty include two of the fourteen University Distinguished Professors, an honorific rank reserved for those Professors whose internationally recognized excellence has brought greatest distinction to the University of Idaho.

Our **undergraduate teaching program** leads to a Bachelor of Science in Agricultural and Life Sciences with a **Major in Entomology**. We are unique among all universities in the Pacific Northwest and Intermountain West in offering a B.S. degree with a Major in Entomology. Our curriculum prepares students for immediate professional careers that preserve environmental quality and that protect food, people, animals and property. Faculty offer Directed Study, Special Topics and Seminar classes that allow for career specialization and for future advanced education at the graduate level. Students can gain research experience outside the classroom by working with EPPN faculty located on campus in Moscow and off-campus at University of Idaho Research and Extension Centers located at Aberdeen, Kimberly and Parma, Idaho. Opportunities include internships at the William F. Barr Entomological Museum, one of the most significant scholarly resources for insect species diversity in the Pacific Northwest with its collection of more than one million insect specimens. For a personal tour of the Museum, contact Dr. Luc Leblanc, Curator, lleblanc@uidaho.edu. We anticipate offering during 2019 an interdisciplinary undergraduate Major in Global Disease Ecology.

We offer **graduate programs** leading to a **Master of Science** and **Doctor of Philosophy** with a **Major in Entomology**. Entomology faculty expertise is especially strong in interdisciplinary research approaches to arthropod-borne infectious agents, biological control, climate change and agriculture, host-plant resistance, insect behavior, insect chemical ecology, integrated pest management, and parasitology. Our graduates go on to research, teaching, extension and consulting careers in academia, industry and small business. For more information, contact Professor Mark Schwarzländer, Director of EPPN Graduate Studies, markschw@uidaho.edu. Beginning with Fall 2018, we will offer **graduate programs** leading to a **Master of Science** and **Doctor of Philosophy** with a **Major in Plant Pathology**. For more information, contact Professor Brenda Schroeder, bschroeder@uidaho.edu.

EPPN multidisciplinary **research programs** advance the fundamental science of our disciplines while contributing to the solution of real-world problems about food systems, environmental quality and human health. Faculty research last year was funded by more than \$12.3 million in new and continuing competitively awarded grants by national and state agencies. Our statewide **Extension outreach programs** improve the lives of Idahoans and advance the public good by extending research-based knowledge for practical implementation around the home and farm. Approximately 9,100 people learned about insects, plant pathogens and nematodes at 200 on-site workshops, field days, seminars and other outreach events delivered across Idaho by EPPN faculty last year; our printed and online Extension publications reached 10,000's homeowners and their families as well as commercial producers of agronomic field crops, horticultural food crops and landscape plants.

Majors

Entomology (M.S)

Master of Science. Major in Entomology. (Thesis Option)

Admission to graduate programs in entomology requires an undergraduate degree, usually in some field of biology. Specific requirements for each degree are determined by the student's graduate committee. Candidates for the M.S. with zoology or entomology course deficiencies in their undergraduate program may be required to list those courses as deficiencies on their M.S. program.

Master of Science. Major in Entomology. (Non-thesis Option)

Admission to graduate programs in entomology requires an undergraduate degree, usually in some field of biology. Specific requirements for each degree are determined by the student's graduate committee. Candidates for the M.S. with zoology or entomology course deficiencies in their undergraduate program may be required to list those courses as deficiencies on their M.S. program.

Entomology (Ph.D.)

Doctor of Philosophy. Major in Entomology.

University Ph.D. requirements apply. Additional specific requirements are determined by the student's graduate committee.

Margaret Ritchie School of Family and Consumer Sciences

Family and consumer sciences focuses on the relationships, resources, and services contributing to individual and family well-being. The discipline analyzes the needs of individuals and families using social, psychological, physical, biological, economic, and aesthetic theories and concepts.

Three majors leading to the degree of Bachelor of Science in Family and Consumer Sciences (B.S.F.C.S.) are offered by the School of Family and Consumer Sciences and are designed to meet professional and individual goals of students. These are:

1. Child, Family, and Consumer Studies,
2. Food and Nutrition, and
3. Apparel, Textiles and Design.

Students may choose one of three program options in the child, family, and consumer studies major. Child and Youth Development relations focuses on the normal, healthy development of children and families. Family Life offers a general preparation in Family and Consumer Sciences that provides a foundation for further specialization.

The Food and Nutrition major offers the Dietetics and Nutrition options. The Coordinated Program in Dietetics includes a senior year experience in Spokane where students complete a supervised practicum in community and medical center settings. This program is accredited by the Commission on Accreditation for Dietetics Education (CADE) of the American Dietetic Association, 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606, 312-899-0040, ext. 5400. After successful completion of the program, students can take the national registration exam to become Registered Dietitians. The nutrition option prepares students for careers with government agencies, commodity groups, health and fitness agencies and businesses, and some components of the food industry. In addition, the course work would provide excellent background for those wishing to pursue advanced degrees in medicine or nutrition. The first two years of courses are very similar in these two options. Students apply for acceptance into the Coordinated Program in Dietetics at the end of the sophomore year.

The Apparel, Textiles and Design major offers both apparel design and fashion merchandising emphases. Combining courses from art or business with the clothing, textile, and design courses offered in the school prepares students for careers in retail and wholesale sectors of the apparel and textile industries. Designers, product development specialists, retail buyers and managers, and merchandise managers are some of the career titles held by UI graduates.

Apparel, Textiles and Design Program Outcomes

Foundations

- Understand the global nature and scope of the industry and related sectors, including but not limited to design, production, buying and merchandising, and distribution.
- Focus on fibers and textile materials and specifications relative to serviceability, quality, performance, and cost.
- Understand and apply knowledge about key concepts such as target market, product development, the consumer, and the roles and functions of various contexts in which products are developed and consumed.

Product Development

- Identify and interpret needs and wants of consumers and how industry processes are applied to plan, develop, produce, communicate, and sell profitable product lines.
- Relate the elements and principles of design to product development, use, and evaluation and use the design process to create products that meet marketplace needs.
- Demonstrate critical and creative thinking skills, and creative problem-solving skills, including the ability to critically evaluate and compare diverse perspectives.
- Communicate ideas in written, verbal, and visual forms using appropriate technology.
- Evaluate product quality, serviceability, and regulatory standards.

Understanding the Consumer

- Understand, communicate and apply knowledge and research regarding appearance and human behavior, and about the complex nature of consumer behavior as it relates to aesthetic preferences, economic and purchasing decisions, and social, historical, and cultural factors.
- Understand the concept of dress (as all of the supplements and modifications to the body) and its role as it reflects and shapes intra and inter-cultural and social interactions.
- Apply knowledge about the interrelationships among historic and socio-cultural factors of dress and their impact on human behavior, including the effects of life stages, change across time, and culture.

Career Development and Professional Skills

- Identify and evaluate issues of social responsibility, professional behavior, sustainability and ethics related to the impact of individual, organizational, and corporate decision-making.
- Demonstrate the necessary skills for industry careers, including creativity, teamwork, attitude, ethics, goal setting, and career development.
- Function as team members and leaders within professional and culturally diverse environments.
- Apply concepts and integrate knowledge through practical learning experiences in meaningful workplace settings and various industry contexts.

The Bachelor of Science in Early Childhood Development and Education (p. 164) is offered jointly between the College of Education (p. 161) and the School of Family and Consumer Sciences. Coursework will prepare students to be recommended for Idaho Early Childhood Education/Early Childhood Special Education (ECE/ECSE) Blended

Teacher Certification. Students will be certified to teach children birth through grade three.

The Margaret Ritchie School of Family and Consumer Sciences offers graduate course work and research opportunities concerning individuals and families across their life spans. An integrated approach prepares students for the complexities of our global society through the analysis and application of relevant theories, practices, and research. Issues important to individuals and families, such as human development, consumption, resource management, education, aesthetics, and public policy, are studied in the context of cultural and physical environments.

Graduate students apply communication, analytical, evaluation, and synthesis skills to the study of families and consumers through classroom, practica, and research experiences. The school's Child Development Laboratory provides a special resource for both teaching and research activities. Internships in community agencies and business, practica in teaching and supervision, and graduate teaching and research assistantships also provide valuable graduate student experiences. Graduate student research is closely aligned with faculty interests that currently include work and family, quality child care, feeding young children, at-risk youth, financial management through the life span, sports nutrition, family and consumer sciences education, international textile trade patterns, and cultural aspects of dress. The program prepares students to be teachers in the public schools and community colleges; child or human development specialists in public and private organizations such as nonprofit and social services agencies, hospitals, child care centers, and the extension system; and for the future pursuit of the Ph.D. degree in family and consumer sciences, social work, education, or related fields.

The Margaret Ritchie School of Family and Consumer Sciences has an outstanding scholarship program for entering first-year students, continuing undergraduate majors, and graduate students. Most scholarships are awarded on the basis of academic excellence regardless of financial need.

Majors

- Apparel, Textiles and Design (B.S.F.C.S.) (p. 113)
- Child, Family, and Consumer Studies (B.S.F.C.S.) (p. 114)
- Early Childhood Development and Education (B.S.Early.Chldhd.Dev.Ed.) (p. 116)
- Food and Nutrition (B.S.F.C.S.) (p. 116)

Family and Consumer Sciences Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the School of Family and Consumer Sciences. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Family and Consumer Sciences (M.S.) (p. 116)

Apparel, Textiles and Design (B.S.F.C.S.)

This major considers apparel, textiles and design as basic human needs, consumer products, historical and cultural artifacts, and communication

tools. Students who wish to graduate in Apparel, Textiles and Design (ATD) must earn a grade of "C" or higher in all required ATD coursework.

Students are required to complete an advisor-approved focus area of 18 credits. Students select their focus area at the end of their Sophomore year. Standard program focus areas are Design, Marketing/Merchandising, and Product Development. Students may choose a related focus area by submitting a proposal to ATD Faculty clearly showing the relationship between Apparel, Textiles and Design and their proposed area of focus relative to the industry, career goals, and emerging opportunities. Other focus areas may include Costume Design, Advertising, Business, or International Studies. Upon approval a double major or minor could also be used instead as long as the other content area is relative to Apparel, Textiles and Design.

Apparel, Textiles and Design Program Outcomes

Foundations

- Understand the global nature and scope of the industry and related sectors, including but not limited to design, production, buying and merchandising, and distribution.
- Focus on fibers and textile materials and specification relative to serviceability, quality, performance, and cost.
- Understand and apply knowledge about key concepts such as target market, product development, the consumer, and the roles and functions of various contexts in which products are developed and consumed.

Product Development

- Identify and interpret needs and wants of consumers and how industry processes are applied to plan, develop, produce, communicate, and sell profitable product lines.
- Relate the elements and principles of design to product development, use, and evaluation and use the design process to create products that meet marketplace needs.
- Demonstrate critical and creative thinking skills, and creative problem-solving skills, including the ability to critically evaluate and compare diverse perspectives.
- Communicate ideas in written, verbal, and visual forms using appropriate technology.
- Evaluate product quality, serviceability, and regulatory standards.

Understanding the Consumer

- Understand, communicate and apply knowledge and research regarding appearance and human behavior, and about the complex nature of consumer behavior as it relates to aesthetic preferences, economic and purchasing decisions, and social, historical, and cultural factors.
- Understand the concept of dress (as all of the supplements and modifications to the body) and its role as it reflects and shapes intra- and inter-cultural and social interactions.
- Apply knowledge about the interrelationships among historic and socio-cultural factors of dress and their impact on human behavior, including the effects of life stages, change across time, and culture.

Career Development and Professional Skills

- Identify and evaluate issues of social responsibility, professional behavior, sustainability and ethics related to the impact of individual, organizational, and corporate decision-making.
- Demonstrate the necessary skills for industry careers, including creativity, teamwork, attitude, ethics, goal setting, and career development.

- Function as team members and leaders within professional and culturally diverse environments.
- Apply concepts and integrate knowledge through practical learning experiences in meaningful workplace settings and various industry contexts.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Child, Family, and Consumer Studies (B.S.F.C.S.)

Family and Consumer Sciences Undergraduate Curricular Requirements

This major has an interdisciplinary focus on the individual and family development, the family as an institution, and individuals and families as consumers in the market place.

The minimum credits required for graduation are 128, including at least 36 credits at the 300-level or above. Required course work includes the university requirements (see regulation J-3 (<http://uidaho.smartcatalogiq.com/en/2017-2018/University-of-Idaho-General-Catalog/General-Requirements-and-Academic-Procedures/J-General-Requirements-for-Baccalaureate-Degrees>)), completion of the C.F.C.S. core courses and one of the designated emphasis areas below. Students who wish to graduate in Child, Family, and Consumer Sciences (CFCS) must earn a grade of "C" or higher in all required CFCS coursework.

Students are encouraged to declare a minor (i.e. Aging Studies, Women's, Gender, and Sexuality Studies, Psychology, Communications, Foreign Language, Business) or may choose to complete a secondary CFCS emphasis.

SOC 417	Social Data Analysis	3
One of the following emphases:		21-30
Child Development and Family Relations (p.)		
Family Development Across the Lifespan (p.)		
Personal and Family Finance (p.)		
Total Hours		85-94

The minimum credits required for graduation are 128, including at least 36 credits at the 300-level or above.

A. Child Development and Family Relations Emphasis

The Child Development and Family Relations emphasis prepares students with a comprehensive understanding of child and youth development and family dynamics, based on theory and supported by research and professional practices. Careers include opportunities to provide direct

services to children, youth and families such as teaching in early learning environments, working in diverse programs that offer support and teach skills to youth, serving as advocates for children and families, and providing parent education. The CDPR Emphasis allows students to develop individualized programs to meet personal and career goals.

Code	Title	Hours
EDSP 300	Educating for Exceptionalities	3
FCS 235	Principles and Methods of Child Observation	3
FCS 333	Developmental Curriculum for Young Children	4
FCS 435	Feeding Young Children in Group Settings	1
FCS 497	Internship Preschool ¹	1-16
H&S 288	First Aid: Emergency Response	2
Total Hours		14-29

Courses to total 128 credits for this degree.

¹ Nine credits of FCS 497 required

B. Family Development across the Lifespan Emphasis

The Family Development across the Lifespan emphasis provides comprehensive preparation in family science. To equip students with dynamic, applied skills in working with and advocating for individuals, couples, and families, FDL coursework emphasizes strong foundational knowledge in and critical analysis of human development, family dynamics, and the factors that influence and contribute to healthy relationships and social interactions across the lifespan. Students may pursue course preparation for the Certified Family Life Educator certification through the National Council on Family Relations. In addition to offering an excellent springboard toward the pursuit of a graduate degree this Emphasis offers career preparation for jobs in human service organizations, government agencies, nonprofit organizations, and business firms.

Code	Title	Hours
FCS 123	Textiles	3
FCS 360	Sexuality Across the Lifespan	3
FCS 428	Housing America's Families	3
FCS 431	Certified Family Life Educator Methodology	3
FCS 434	Adulthood and Aging within the Context of Family	3
FCS 486	Nutrition in the Life Cycle	3
FCS 498	Internship	3-9
ID 443	Universal Design	3
Total Hours		24-30

Courses to total 128 credits for this degree

C. Personal and Family Finance Emphasis

The Personal and Family Finance emphasis provides specialized preparation in personal finance and real estate. Upon completion of coursework, students are prepared to take the Accredited Financial Counselor exam and the Certified Housing Counselor exam. Career opportunities include jobs in military installations, the financial industry, real estate companies, nonprofit organizations, government agencies, and business firms.

Code	Title	Hours
FCS 146	Adulting: Life, Love & Money	3

Family and Consumer Sciences (M.S.)

Master of Science. Major in Family and Consumer Sciences.

A letter of intent, which includes a statement of goals, objectives, and academic interests, and three letters of recommendation are required for admission. Information may be obtained at the school.

1. Thesis Option: Thirty credits of course work including a 13-credit emphasis area in family and consumer sciences and related areas, two graduate seminars, courses in theory and research methods and analysis, and at least 6 credits of thesis research.
2. Non-thesis Option: Thirty-four credits of course work including a 17-19 credit emphasis area in family and consumer sciences and related areas, two graduate seminars, courses in theory and research methods and analysis, and a master's project.

Food and Nutrition (B.S.F.C.S.)

Family and Consumer Sciences Undergraduate Curricular Requirements

Required course work includes the university requirements (see regulation J-3 (p. 84)) and one of the following options.

This major prepares students for careers with government agencies, commodity groups, health and fitness agencies and businesses, and some components of the food industry. In addition, the course work provides excellent background for those wishing to pursue advanced degrees in medicine or nutrition or dietetics. Students wishing to become a Registered Dietitian Nutritionist will be prepared to apply to an accredited master's program in nutrition and dietetics..

UI/WSU Bistate School of Food Science

The School of Food Science (SFS), jointly administered by the University of Idaho and Washington State University, offers courses of study in the undergraduate major field of food science. Students complete a prescribed course of study leading to the Bachelor of Science in Food Science with options in Food Science and Dairy Foods Management, and Fermentation Science. Graduate degrees are also offered leading to Masters and Doctor of Philosophy in Food Science. A minor in food science is also offered.

Food Science is the scientific discipline that supports the food and beverage manufacturing industry. Food Science is a multidisciplinary science that applies biology, chemistry, physics, engineering, nutrition, and other sciences to improve the safety and quality of food products; create healthy food products; and design new, safer, and more sustainable food preservation methods. Food scientists strive to improve the quality and nutrition of foods through traditional and emerging preservation technologies. Food scientists conduct research to mitigate chemical and microbial risk factors in foods and to understand the causes of food deterioration and spoilage. Food scientists are employed around the world by large and small food processing companies, food ingredient suppliers, food quality assurance and testing labs, federal and state governmental agencies, and academia. Food scientists also work

with existing and emerging companies preparing organic, natural, kosher, and halal food products.

Gaining a food science education provides students with a challenging career not only in the Pacific Northwest, but also nationally and internationally. Food science graduates begin careers in food plant operations, food quality assurance, food safety microbiology, technical sales, food product development, regulatory affairs, or research in the food/allied industries or federal/state regulatory agencies. Food science students learn to convert raw agricultural commodities into high quality, safe and nutritious food products- the complete farm-to-table process. As part of the B.S. degree, students receive training and learn skills relative to the preservation, safety, risk management, nutrition, chemistry and sensory evaluation of foods. The food processing industry is continually challenged to improve food quality, as well as enhance the sustainable development of new foods to better meet consumer demands and the nutritional needs of the world. In the first two years of college, students enroll in science courses and complete most general university requirements. (Many of the general university requirements and introductory science and math courses can be completed at community colleges.)

In the junior and senior years, the curriculum emphasizes courses in food processing, food chemistry and analysis, food microbiology, sensory evaluation, and other specialized areas such as the processing of cereal, dairy, wine, fruit, and vegetable products. Students with specific interests can gain additional education by taking elective courses, participating in internships with food companies, joining student clubs or competitions, or conducting a research project with a faculty member. Contact the Food Science advisor for more information.

A student graduating with a B.S. in Food Science should be able to: 1. Demonstrate a level of comprehension of Food Science concepts and analyses equivalent to or greater than that required by the Institute of Food Technologists Core Competencies Guidelines. 2. Critically evaluate and summarize a food science issue or problem. 3. Apply critical thinking and problem-solving skills to address current challenges in the food industry. 4. Communicate effectively in both written and oral format with an audience possessing varying degrees of food science knowledge.

Students planning to transfer to the School of Food Science should coordinate their programs of study with an advisor to select courses applicable to the degree requirements. Many of the general university course requirements and introductory chemistry, biology, and physics courses can be completed at community colleges. We especially recommend students take the appropriate science and mathematics courses required in our first two years of study, so students are on track when transferring to the University of Idaho. Students who identify an interest in graduate work are encouraged to contact their advisor no later than the end of the junior year so a course of study can be planned which schedules appropriate prerequisites to graduate courses and an introduction to research projects. Students from other science majors who wish to obtain an advanced degree in food science are encouraged to apply as they may be well prepared for graduate studies. Students are required to take certain core courses required of food science undergraduates in addition to those needed for their graduate program. For more complete information on research opportunities, please see faculty profiles on the SFS website.

Admission to the graduate program is based on ability to complete graduate-level work as evidenced by undergraduate transcripts; the compatibility of the student's objectives with faculty expertise and program objectives; and availability of graduate faculty to act as major

advisor for the applicant. The School of Food Science requires GRE and TOEFL scores, in addition to admission materials required by the UI College of Graduate Studies.

The School of Food Science welcomes inquiries about our program. Potential students can contact the School via phone (208-885-0707), email (foodscience@uidaho.edu) or visit the School of Food Science main office in the E. J. Iddings Ag Science Building Rm 111, or review <https://www.uidaho.edu/cals/school-of-food-science>, or SFS website (www.uidaho.edu/cals/school-of-food-science).

Food Science (M.S.)

Master of Science. Major in Food Science.

Thesis and non-thesis options are offered.

1. *Thesis option* : University M.S. degree requirements apply along with specific department requirements for the M.S. in food science as described on the department webpage (www.sfs.wsu.edu/graduate-program/ui-graduate-students (<http://www.sfs.wsu.edu/graduate-program/ui-graduate-students>)). The degree will prepare students for a variety of careers in the food and related industries, as well as for further academic studies. Each student will design a study plan in consultation with an advisor and thesis committee and present a thesis proposal to their committee. The degree program emphasizes research and a thesis is required for graduation. An oral examination covering graduate course work and thesis research is required during the student's final semester.
2. *Non-thesis option* : The non-thesis degree is designed to provide students with a broad perspective in food science. The student should have career goals that do not include a research emphasis. University M.S. degree requirement apply plus additional requirements described on the department webpage (www.sfs.wsu.edu/graduate-program/ui-graduate-students (<http://www.sfs.wsu.edu/graduate-program/ui-graduate-students>)). The non-thesis option requires a minimum of 33 credits, the appointment of a graduate committee and a final oral examination. Along with specific course requirements, the student is required to complete a substantial project, paper or presentation to demonstrate ability for independent work and critical thinking. Students are not eligible for the non-thesis option if they have been supported on a graduate assistantship.

Food Science (Ph.D.)

Doctor of Philosophy. Major in Food Science.

University Ph.D. requirements apply, along with specific departmental requirements described on the department webpage (www.sfs.wsu.edu/graduate-program/ui-graduate-students/phd-req-ui (<http://www.sfs.wsu.edu/graduate-program/ui-graduate-students/phd-req-ui>)) for a Ph.D. in food science. Admission to the doctoral program is based on compatibility of the student's research interests with those

of the major professor, on availability of research support, and the student's academic record and potential. An oral preliminary exam and written dissertation proposal are required prior to admission to final candidacy for the degree. All candidates prepare a dissertation based on independent laboratory research and defend it as part of the final oral exam. Publication of data from the dissertation in a peer-reviewed scientific journal is expected. Participation in research seminars and in department teaching programs is designed to prepare students for professional opportunities.

Food Science Minor

A minor in food science will provide undergraduates with an introduction to the discipline of food science and technology. The minor is designed to supplement technical or business skills obtained in other majors. The minor will allow a student to broaden his or her educational background and enhance employment options in the food industry.

Code	Title	Hours

Department of Plant Sciences

The Department of Plant Sciences is housed within the College of Agricultural and Life Sciences. We offer a B.S. degree in Plant Science within which students may focus on majors tailored to the needs of their educational and career goals in agriculture and plant sciences. The four majors include Biotechnology and Plant Genomics, Crop Management, Crop Science, and Horticulture and Urban Agriculture. At the graduate level, we offer M.S. and Ph.D. degrees in Plant Science.

Our faculty and staff are committed to help students develop skills needed for professional careers in theoretical and applied sciences necessary to increase future crop production and agricultural

sustainability. In addition, we offer courses and laboratory experiences in the use of biotechnology and modern plant breeding to improve and protect the major crops in the Pacific Northwest.

Undergraduate Degree Program

B.S. Degree in Plant Science

The degree offers students broad-based preparation in crop science and management, horticulture, plant biotechnology, plant breeding and genetics, and weed science. The four majors in this degree program are:

Biotechnology and Plant Genomics

Students in this major will gain experience with the latest molecular genetic techniques to address food and energy needs of the United States and world in the 21st century. Students will learn how scientists investigate and manipulate genetic information at the molecular level in order to create and select crop plants with improved yield, nutritional value, insect and disease resistance, and temperature tolerance to address the needs of today's farmers and the challenges brought on by the ever-growing world population, competing demands for water, and threats brought on by climate change. Our students are offered numerous opportunities to participate in research projects in our plant biotechnology laboratories. This major prepares students for graduate education or for professional careers in industries that routinely employ genomics, genetic engineering, marker-assisted plant breeding, plant genetics, molecular biology, tissue culture, and molecular virology.

Crop Management

This major is new and has been prompted by a high demand for graduates that are qualified to work in applied field agronomy, production agriculture and production management, and to make business decisions that arise in local and nationwide agriculture. Future expanding food and energy needs will require crop production managers and farm managers to ensure high volume and high quality of agricultural products. Students who have an interest in management of crops should enroll in this major rather than crops sciences, which requires more science courses. In addition, students majoring in Crop Management will be educated in applied crop production and management, combined with courses in agricultural economics and farming systems. This major will be particularly attractive to students who wish to be employed in applied production agriculture. This major will provide well-rounded students who will be prepared to manage family or large corporate agrobusinesses, and work as field agronomists, crop production managers, and farm managers.

Crop Science

Students in this major receive a science-based education in a wide range of disciplines aimed at solving theoretical and applied challenges relating to increasing agricultural productivity and developing systems that advance agriculture sciences into the future. Demand for increased food production is ever present and to compete, agriculture needs to develop new crop genetics and agronomic practices that maximize output while reducing crop inputs and reducing the agricultural footprint on the environment. This major combines physical and biological sciences and related subjects to develop innovative solutions to a wide range of problems that will be met by future agriculture. Courses emphasize environmental concerns, ecological relationships, and sustainability of agricultural systems. This major will prepare students for graduate education or professional careers in field agronomy, agricultural research, plant protection, agricultural consulting, plant breeding and genetics, seed production and certification, and weed science.

Horticulture and Urban Agriculture

This major is designed to provide students with a background in production of various horticultural crops in rural and urban locations or experience with care of managed landscapes including parks and sports turf. Students can tailor horticulture course selection to specialize in a particular horticulture career. Management of horticultural crops that are economically significant to Idaho and the nation are emphasized in various courses. Many facets of horticulture, including horticultural crop production, can be studied, particularly since food security and sustainable production practices are needed if graduates are to meet the challenges posed by increased urbanization and more costly resources needed for plant production. This major prepares students for graduate studies or professional careers in management and operation of commercial greenhouses, nurseries, orchards, vineyards or vegetable farms. Students also have the opportunity to focus on managing and maintaining the various components of urban landscapes including trees, shrubs, herbaceous plantings and turfgrass, or urban food production.

Our degree offerings are designed to prepare students – upon graduation – to enter into rewarding careers in public or private enterprises or for entrance into graduate or professional programs. We offer students the opportunity to work closely with faculty in classroom, laboratory and field situations. Our faculty members care about our students' individual needs and interests and offer additional specialization through directed study, special topics, seminars and other courses as needed. An internship program is available to provide students with practical job experience and to open doors for future careers. In addition, we coordinate closely with the Departments Soil and Water Systems, Entomology, Plant Pathology and Nematology, Animal and Veterinary Science, and Agricultural Economics and Rural Sociology to broaden education offerings for our students.

Our students have access to the Lambert-Erickson Weed Herbarium that houses one of the nation's outstanding weed collections with all life stages of weeds represented. We have a state-of-the-art biotechnology facility with specially-equipped laboratories for histology, anatomy, and physiology, as well as greenhouse laboratory units with controlled temperature and light-programmed rooms and growth chambers. All these facilities can become part of each student's educational experiences. The University has 1,145 acres located close to campus for field crops, orchards and livestock. Excellent field and laboratory facilities are also available at our research and extension centers at Aberdeen, Parma and Twin Falls.

We welcome questions regarding our Plant Sciences programs. Prospective students may contact us by email at plantsciences@uidaho.edu, or by telephone at 208-885-2122.

Majors

- Biotechnology and Plant Genomics (B.S.Pl.Sc.) (p. 121)
- Crop Management (B.S.Pl.Sc.) (p. 122)
- Crop Science (B.S.Pl.Sc.) (p. 123)
- Horticulture and Urban Agriculture (B.S.Pl.Sc.) (p. 124)

Minors

- Biotechnology and Plant Genomics Minor (p. 122)
- Crop Management Minor (p. 123)
- Crop Science Minor (p. 124)
- Horticulture Minor (p. 125)

Plant Sciences Graduate Programs

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Plant, Soil, and Entomological Sciences. See the College of Graduate Studies (p. 221) section for general requirements applicable to each degree.

Master and Doctoral students will choose a major professor with the concurrence of the faculty member involved. This choice is based upon the availability of the faculty member and the compatibility of the student's research interests with those of the professor.

- Plant Science (M.S.) (p. 125)
- Plant Science (Ph.D.) (p. 125)

Biotechnology and Plant Genomics (B.S.Pl.Sc.)

Required course work includes the university requirements (see regulation J-3 (p.)) and:

Code	Title	Hours
AGED 406	Exploring International Agriculture	3

Plant Science (M.S.)

Master of Science. Major in Plant Science. (Thesis Option)

General M.S. requirements apply. These requirements include a formal program of at least 30 semester hours to be chosen in consultation with the major professor and approved by the student's supervisory committee. Candidates for this degree must complete an independent research project and submit an acceptable thesis as well as pass a final oral examination.

Master of Science. Major in Plant Science. (Non-thesis Option)

General M.S. non-thesis requirements apply.

Plant Science (Ph.D.)

Doctor of Philosophy. Major in Plant Science.

University Ph.D. requirements apply. Additional specific requirements are determined by the student's graduate committee.

Department of Soil and Water Systems

The Department of Soil and Water Systems (SWS) addresses resource issues related to soil, water quality and quantity, and sustainable food, energy, agricultural and waste systems. The unit combines faculty with expertise in soil science, hydrology, sediment transport, water resources, irrigation engineering, bioenergy, precision agriculture, nutrient cycling, waste management, agronomy, and agricultural systems management to study complex problems and inform the management, use and sustainability of agro-ecosystems. SWS faculty fulfill this commitment through focused excellence in research, teaching and extension. With faculty located at four research centers throughout the state, SWS has statewide responsibility and impact. The department's teaching program includes a Bachelor of Science in Soil and Water Systems (B.S.S.W.S.) with majors in Environmental Soil Science, Water Science and Management and Agricultural Systems Management. A college-wide major in Sustainable Food Systems is also administered through SWS. Graduate programs (MS and PhD) are available in Soil and Land Resources. Graduate degrees in water are offered through an interdisciplinary program in Water Resources.

The Agricultural Systems Management major prepares students to apply biological, physical, mechanical, and business knowledge to the production, service, sales, application, and management of the equipment and processes used in agriculture. The curriculum stresses courses in agricultural systems management, and basic and applied sciences. It also includes a strong background in agricultural economics, accounting, and business. It prepares students for a variety of important and rewarding career opportunities across the entire spectrum of the food and fiber sector. Many graduates return to farming, while others pursue careers as farm managers or are employed in agricultural and natural resource-oriented businesses, banking firms, educational institutions, or governmental agencies.

The Environmental Soil Science major prepares students to work in a variety of fields related to natural resource management. The curriculum stresses in-depth understanding of the field through interdisciplinary training in pedology, soil chemistry, soil physics, soil ecology and fertility. Graduates are employed as soil scientists, conservationists, agronomists, laboratory managers, and consultants. Students gain hands-on experience by working in laboratories and conducting undergraduate research. Students work towards becoming certified soil scientists prior to graduating.

The Water Science and Management major produces graduates that understand the critical importance of using science to better manage water resources. Graduates fill critical roles in the agricultural

industry, research facilities and state and federal agencies. The breadth of the major offered in this curriculum allows students to develop strong expertise in managing water in complex ecosystems including agriculture, forestry, and rangeland. The degree includes additional math and GIS-based mapping requirements to ensure that graduates have the ability to be successful in job roles such as quantitative hydrologist, and irrigation, precision agriculture, and watershed management technicians.

The Sustainable Food Systems major takes an interdisciplinary, farm-to-plate approach to understanding of food, farming and human health. The degree is designed to provide a science-based understanding of the many facets of food- from sustainable production, food chemistry and safety, to policy and human nutrition. Students tie everything together in sophomore and senior level courses that explore local, regional and global food systems. Many laboratory-based courses offer hands-on experience. Students may specialize in specific areas of the food system. Students gain hands-on experience through required practicum courses and internships and can put concepts taught in courses to work while operating the campus organic farm.

Degree offerings within SWS are designed to prepare students for graduate school and a variety of rewarding career opportunities. All of our programs are based on curricula designed to prepare students for present and future employment. We offer students the opportunity to work closely with faculty in classroom and field situations. Our faculty members offer additional specialization through directed study, special topics, seminars and other courses as needed. Internships are available to provide students with practical job experience and to open doors for career opportunities. Students are encouraged to participate in international exchanges offered through the College of Agricultural and Life Sciences.

We offer many opportunities to conduct advanced, in-depth studies with our important scientific collections and cutting-edge facilities. The Maynard A. Fosberg Monolith collection is one of the largest in the world with 232 soil monoliths. We have a state-of-the-art analytical laboratory facility to accommodate faculty, staff and students. We also offer a greenhouse facility with controlled temperature and light-programmed rooms and growth chambers. The University has 1,145 acres located close to campus for field crops, orchards and livestock. Excellent field and laboratory facilities are also available at our research and extension centers at Aberdeen, Parma, Kimberly, and Twin Falls

Majors

- Sustainable Food Systems (B.S.Ag.L.S.) (p. 128)
- Agricultural and Life Sciences Core (<https://catalog.uidaho.edu/colleges-related-units/agricultural-life-sciences/curricular-requirements>)
- Agricultural Systems Management (B.S.S.W.S.) (p. 126)
- Environmental Soil Science (B.S.S.W.S.) (p. 127)
- Water Science and Management (B.S.S.W.S.) (p. 128)

Minors

- Agricultural Systems Management Minor (p. 127)
- Soil Science Minor (p. 127)

Soil and Water Systems Graduate Programs

- Soil and Land Resources (Ph.D.) (p. 127)
- Soils (M.S.) (p. 128)

Agricultural Systems Management (B.S.S.W.S.)

Required course work includes the university requirements (see regulation J-3 (p.)) and:

Code	Title	Hours
Soil and Water Systems Core

Select at least 4 credits from the following skill courses:		4
ASM 107	Beginning Welding	
ASM 112	Introduction to Agricultural Systems Management	
ASM 210	Small Engines	
CTE 267	Computer Aided Drafting/Design ¹	
ENGR 105	Engineering Graphics ¹	
Total Hours		18

Courses to total 18 credits for this minor

¹ Either CTE 267 Computer Aided Drafting/Design or ENGR 105 Engineering Graphics may be used to complete this minor, but not both.

Environmental Soil Science (B.S.S.W.S.)

Required course work includes the university requirements (see regulation J-3 (p.)) and:

Code	Title	Hours
Soil and Water Systems Core		
ASM 315	Irrigation Systems and Water Management	3
AGED 406	Exploring International Agriculture	3
or SOC 350	Food, Culture, and Society	
COMM 101	Fundamentals of Public Speaking	2
ENGL 313	Business Writing	3
or ENGL 317	Technical Writing	
GEOG 385	GIS Primer	3

MATH 143	Pre-calculus Algebra and Analytic Geometry	3
PLSC 102	The Science of Plants in Agriculture	3
or REM 221	Principles of Ecology	
SOIL 205	The Soil Ecosystem	3
SOIL 206	The Soil Ecosystem Lab	1
SOIL 438	Pesticides in the Environment	3
STAT 251	Statistical Methods	3

Environmental Soil Science Courses

BIOL 115	Cells & the Evolution of Life	3
BIOL 115L	Cells and the Evolution of Life Laboratory	1
BIOL 213	Principles of Biological Structure and Function	4
or PLSC 205	General Botany	
BIOL 250	General Microbiology	3
BIOL 255	General Microbiology Lab	2
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
CHEM 112	Principles of Chemistry II	4
CHEM 112L	Principles of Chemistry II Laboratory	1
CHEM 275	Carbon Compounds	3
or CHEM 277	Organic Chemistry I	
GEOL 111	Physical Geology for Science Majors	3
GEOL 101L	Physical Geology Lab	1
or GEOL 111L	Physical Geology for Science Majors Lab	
MATH 160	Survey of Calculus	4
or MATH 170	Analytic Geometry and Calculus I	
PHYS 111	General Physics I	3
PHYS 111L	General Physics I Lab	1
PHYS 112	General Physics II	3
PHYS 112L	General Physics II Lab	1
SOIL 400	Seminar	1
SOIL 415	Soil and Environmental Physics	3
SOIL 422	Environmental Soil Chemistry	3
SOIL 425	Microbial Ecology	3
SOIL 446	Soil Fertility	1-3
SOIL 454	Pedology	3
SOIL 499	Directed Study	1
Total Hours		86-88

Courses to total 128 credits for this degree

Soil and Land Resources (Ph.D.)

Doctor of Philosophy. Major in Soil and Land Resources.

University Ph.D. requirements apply. Additional specific requirements are determined by the student's graduate committee.

Soil Science Minor

Code	Title	Hours
SOIL 205	The Soil Ecosystem	3
SOIL 206	The Soil Ecosystem Lab	1
SOIL 415	Soil and Environmental Physics	3

SOIL 422	Environmental Soil Chemistry	3
SOIL 438	Pesticides in the Environment	3
SOIL 446	Soil Fertility	1-3
SOIL 454	Pedology	3
Select courses from the following to total at least 20 credits for this minor:		
SOIL 417	Market Garden Practicum	
SOIL 425	Microbial Ecology	
Total Hours		17-19

Courses to total 20 credits for this minor

Soils (M.S.)

Master of Science. Major in Soils. (Thesis Option)

General M.S. requirements apply. These requirements include a formal program of at least 30 semester hours to be chosen in consultation with the major professor and approved by the student's supervisory committee. Candidates for this degree must complete an independent research project and submit an acceptable thesis as well as pass a final oral examination.

Master of Science. Major in Soils. (Non-thesis Option)

General M.S. non-thesis requirements apply.

Sustainable Food Systems (B.S.Ag.L.S.)

Required course work includes the university requirements (see regulation J-3 (p.)) and:

Code	Title	Hours
Agricultural and Life Sciences Core (https://catalog.uidaho.edu/colleges-related-units/agricultural-life-sciences/curricular-requirements)		
Sustainable Food Systems Courses		
AGEC 486	Regional Economic Development Theory	3
AGED 448	Foundations of Extension Education	2
ASM 315	Irrigation Systems and Water Management	3
AVS 109	The Science of Animals that Serve Humanity	4
CHEM 275	Carbon Compounds	3
or CHEM 277	Organic Chemistry I	
ENT 322	General and Applied Entomology	4
FCS 205	Concepts in Human Nutrition	3
FOR 221	Principles of Ecology	3
FS 110	Introduction to Food Science	3
FS 220	Food Safety and Quality	3
FS 436	Principles of Sustainability	3
PLSC 102	The Science of Plants in Agriculture	3
PLSC 338	Weed Control	4
PLSC 451	Vegetable Crops	3
POLS 364	Politics of the Environment	3

SOC 101	Introduction to Sociology	3
SOC 350	Food, Culture, and Society	3
SOIL 210	Food Systems and Healthy Lifestyles	3
SOIL 398	Internship	3
SOIL 400	Seminar	1-16
SOIL 417	Market Garden Practicum ¹	3-6
SOIL 427	Sustainable Food Systems	3
SOIL 446	Soil Fertility ¹	3
Select one of the following:		3-5
BIOL 154	Introductory Microbiology	
& BIOL 155	and Introductory Microbiology Laboratory	
BIOL 250	General Microbiology	
& BIOL 255	and General Microbiology Lab	
BIOL 300	Survey of Biochemistry	
Total Hours		105-126

¹ Students must complete at least 3 credits in both SOIL 417 and SOIL 446.

Courses to total 128 credits for this degree

Water Science and Management (B.S.S.W.S.)

Required course work includes the university requirements (see regulation J-3 (p.)) and:

Code	Title	Hours
Soil and Water Systems Core		
ASM 315	Irrigation Systems and Water Management	3
AGED 406	Exploring International Agriculture	3
or SOC 350	Food, Culture, and Society	
COMM 101	Fundamentals of Public Speaking	2
ENGL 313	Business Writing	3
or ENGL 317	Technical Writing

SOIL 422	Environmental Soil Chemistry	3
SOIL 446	Soil Fertility	1-3
Select one of the following:		3
HYDR 409	Quantitative Hydrogeology	
HYDR 412	Environmental Hydrogeology	
HYDR 414	Ground Water-Surface Water Interactions	
Select one of the following:		3
FOR 472	Remote Sensing of the Environment	
GEOG 424	Hydrologic Applications of GIS and Remote Sensing	
GEOG 475	Intermediate GIS	
Total Hours		91-93

Courses to total 128 credits for this degree

Program in Water Resources

The interdisciplinary program in Water resources is administered by the College of Agricultural and Life Sciences.

The Water Resources Program offers M.S. and Ph.D. degrees in Water Resources with the ability to complete a concurrent M.S./J.D. in 4 years and a Ph.D./J.D. in 6 years. The three program option areas are Water Resources Engineering & Science, Water Resources Science & Management, and Water Resources Law, Management & Policy. The program trains students to address complex water resources issues by building disciplinary depth in concert with multidisciplinary breadth to understand focused problems and communicate across disciplines.

The Water Resources Program enjoys university-wide participation and forms a coordinated effort that provides interdisciplinary study options in water resources. Participants are drawn from the Colleges of Agriculture and Life Sciences (CALS), Business and Economics (CBE), Engineering (ENG), Law, (LAW), Science (COS), Letters, Arts, and Social Sciences (CLASS), and Natural Resources (CNR). The Program includes faculty from the Moscow campus, and Boise, Idaho Falls, Twin Falls and Coeur d'Alene/Post Falls Centers. Water Resources faculty collaborate with the Idaho Water Resources Research Institute and faculty at the Boise State University, Idaho State University and Washington State University.

Graduate Degree Programs

Students in the Water Resources Program must meet the general requirements set forth by the College of Graduate Studies (see Part Four) for the M.S. or Ph.D. degrees with the following exceptions. The degree of M.S. in Water Resources requires 29 credits of course work and completion of a thesis, equivalent to a minimum of 6 credits of Research

and Thesis, for a total of 35 credits (note for transfers: an M.S. student must complete at least 18 of the total 35 required credits at the University of Idaho while matriculated in the College of Graduate Studies). The degree of Ph.D. in Water Resources requires a minimum of 39 credits of course work beyond the bachelor's degree and completion of a dissertation, for a total of 78 credits (note for transfers: A Ph.D. student must complete at least 39 of the 78 required credits at the University of Idaho while matriculated in the College of Graduate Studies). Both M.S. and Ph.D. degrees have higher credit requirements for course work than those of the College of Graduate Studies to allow students to develop depth in a water resources subject area while accommodating breadth in the interdisciplinary areas. Students in the Water Resources concurrent J.D. track must meet the general requirements set forth by the College of Graduate Studies and Water Resources Program for the M.S. or Ph.D. degrees and the College of Law for the J.D. The following sections summarize specific requirements for the three option areas as well as for the joint M.S./ J.D. and Ph.D./ J.D.

Thesis/Dissertation Requirements

Each thesis/dissertation shall reflect integration beyond a single discipline. Integration can be achieved throughout the thesis/dissertation, or through a separate interdisciplinary chapter (possibly co-authored) that specifically integrates methods and/or information from at least two distinct disciplines to advance the argument(s) in the thesis/dissertation. All chapters shall be integrated into a coherent whole. Each student shall evaluate the interdisciplinarity of their thesis/dissertation, at the proposal stage by completing the Interdisciplinary Thesis/Dissertation Proposal Approval form, and prior to the final defense by completing the Interdisciplinary Thesis/Dissertation Approval Form.

Committee Requirements

Each committee shall be composed of members from more than one discipline. For the M.S. a minimum of three members is required; for the Ph.D. a minimum of four members is required. All committee members must approve a) the student's study plan, b) the interdisciplinary component(s) of the thesis/dissertation proposal by signing the Interdisciplinary Thesis/Dissertation Proposal Approval Form, and c.) the interdisciplinary component(s) of the thesis/dissertation at the time of the final defense by signing the Interdisciplinary Thesis/Dissertation Approval Form.

Admission Requirements and Procedures

Admission to this program is highly competitive and recruitment is international in scope. Even exceptional applicants are admitted only when there is an opening with one of the participating faculty. As required by the College of Graduate Studies, all applicants must provide: official transcripts from all colleges and/or universities previously attended, a resume or curriculum vitae, a statement of research interests that clearly identifies the research he or she would like to pursue at the University of Idaho, a statement of academic and career goals, and three letters of reference that speak to the applicant's aptitude for graduate research in water resources. For applicants for whom English is a second language, a TOEFL score of at least 600 (CBT 250) is required. Students can apply to the concurrent degree program only after application and admission to the UI College of Law and to the Water Resources Program.

To apply: Please go to the University of Idaho Graduate Admissions webpage at www.uidaho.edu/admissions/graduate or contact the Graduate Admissions Office, University of Idaho, P.O. Box 444266, Moscow, ID 83844-4266.

Water Resources Graduate Degree Programs

- Water Resources Engineering and Science Option (M.S.) (p. 130)
- Water Resources Engineering and Science Option (Ph.D.) (p. 131)
- Water Resources Science and Management Option (M.S.) (p. 133)
- Water Resources Science and Management Option (Ph.D.) (p. 133)
- Water Resources Law, Management and Policy Option (M.S.) (p. 132)
- Water Resources Law, Management and Policy Option (Ph.D.) (p. 132)
- Water Resources Concurrent J.D. Degree (p. 130)

Water Resources Concurrent J.D. Degree

Entry Requirements

Completion of requirements for admission to both the College of Law and the specific Water Resources option area is required for (M.S. and Ph.D.) admission to earn the Water Resources Concurrent J.D. Degree. Students are required to apply separately to the College of Law and to the Water Resources Program in the College of Graduate Studies, and on acceptance to each college, must apply to the concurrent degree program. Acceptance to both colleges does not have to occur simultaneously. A Steering Committee consisting of the Director of the Water Resources Program, the Associate Dean for Administration and Students of the College of Law, one non-law member of the Water Resources faculty, and one member of the Law faculty makes admission decisions to the concurrent degree program.

Common/Core Courses

All students seeking to earn the Water Resources concurrent J.D. degree are required to complete coursework as specified for the particular Water Resources Option Area for the M.S. or Ph.D., as well as coursework required by the Law School for a J.D.

Elective Courses

The student and faculty committee will select courses appropriate to satisfy the requirements of the Water Resources Program in the College of Graduate Studies and the J.D. in the College of Law.

Concurrent Degree Details

Students in the Water Resources concurrent J.D. track must meet all graduation requirements set forth by the College of Graduate Studies for the M.S. or Ph.D. degrees and the College of Law for the J.D. Each student shall have a "graduate committee." The student's graduate committee must meet the requirements of the College of Graduate Studies and must have at least one member from the faculty of the College of Law.

A total of 18 credits may be double counted for a J.D./M.S. concurrent degree, and a total of 21 credits may be double counted for a J.D./Ph.D. concurrent degree under the following guidelines:

- No more than 12 credits of M.S. and Ph.D. graduate school credit are allowed toward the J.D. degree. The courses must be approved by the student's advisor in the College of Law with the following guidelines: Courses approved for credit toward a J.D. must be complementary to an emphasis in water law, must enhance the candidates ability to

serve clients and the legal profession in the area of water law, and must not be the equivalent substantive coverage to a course offered in the College of Law and available to the student.

- No more than 6 credits from Law are allowed toward the M.S. degree in Engineering & Science and Science & Management option areas, no more than 12 credits towards the M.S. degree in Law, Management & Policy option area, and no more than 9 credits toward the Ph.D. degree from the following list:

Code	Title	Hours
LAW 906	Natural Resource Law Seminar	3
LAW 907	Administrative Law	3
LAW 934	Land-Use Law and Planning	3
LAW 937	Wildlife Law and Policy	3
LAW 938	International Environmental and Water Law	3
LAW 939	Law, Science, and the Environment	2
LAW 942	Water Law I	1-2
LAW 946	Water and Energy Policy Seminar	2
LAW 947	Environmental Law	3
LAW 948	Public Lands and Resources Law	3
LAW 949	Native American Law	3
LAW 951	Environmental Policy	3
LAW 969	Water Law II	2
LAW 979	Native American Natural Resource Law	3

Satisfactory completion of both degrees is required to qualify for the exchange credit, the degrees are granted concurrently. The first year of study for concurrent M.S. or Ph.D. students must be exclusively in the College of Law. M.S. students are required to write a thesis. Ph.D. students are required to write a dissertation. If the student fails to complete the M.S. or Ph.D. in Water Resources, only 6 credits from the Water Resources Program are allowed toward the J.D. degree. If a student fails to complete the J.D. degree, the student must satisfy all requirements for the particular option area in the Water Resources Program to receive the M.S. or Ph.D. degree.

Questions regarding the concurrent degree program should be addressed to the Water Resources Program Coordinator (208-885-6113) or to the College of Law (208-885-6423).

Water Resources Engineering and Science Option (M.S.)

Master of Science. Major in Water Resources - Engineering and Science Option.

Common Courses

Students in both M.S. and Ph.D. degree programs are required to fulfill a set of common courses, applicable to all three Water Resources Option Areas. The common courses are:

Code	Title	Hours
WR 501	Seminar	1-16
WR 506	Interdisciplinary Methods in Water Resources	3
WR 507	Integrated Water Resources Projects	3
500- Level Elective Course		

Select one 500-Level Elective Course ¹	3
Total Hours	10-25

¹ (Or 900- level in LAW) In an option area outside the main option area (3 cr for Ph.D. only).

Entry Requirements

Coursework in the following is required for M.S. and Ph.D. admission to the Water Resources Engineering & Science Option Area. Provisional admission for M.S. students may be granted to those who have completed the majority of this coursework, provided the remaining coursework is completed as deficiency requirements.

- Calculus (minimum of 9 credits)
- Differential Equations (3 credits)
- Statistics for Scientists/Engineers (3 credits)
- Chemistry (minimum of 4 credits)
- Physics (minimum of 4 credits)
- Engineering Fluid Mechanics (minimum of 3 credits)

Core Courses

M.S. students are required to take 6 credits, and Ph.D. students are required to take 9 credits from the following (6 or 9 cr):

Code	Title	Hours
BE 552	Environmental Water Quality	3
BE 558	Fluid Mechanics of Porous Materials	3
CE 421	Engineering Hydrology	3
CE 526	Aquatic Habitat Modeling ¹	3
CE 535	Fluvial Geomorphology and River Mechanics ¹	3
HYDR 509	Quantitative Hydrogeology	3
HYDR 576	Fundamentals of Modeling Hydrogeologic Systems	3
SOIL 515	Soil and Environmental Physics	3

¹ Either CE 526 or CE 535 may be used to satisfy this requirement, but not both.

Elective Courses

As noted under Common Courses for Ph.D. only, an elective course *must* be in either the Science & Management or Law, Management & Policy Option Areas. A core course may be considered an elective course once the core requirements are satisfied. A detailed list of elective courses for this option area is provided on the Water Resources Program web site.

Water Resources Engineering and Science Option (Ph.D.)

Doctor of Philosophy. Major in Water Resources - Engineering and Science Option

Common Courses

Students in both M.S. and Ph.D. degree programs are required to fulfill a set of common courses, applicable to all three Water Resources Option Areas. The common courses are:

Code	Title	Hours
WR 501	Seminar	1-16
WR 506	Interdisciplinary Methods in Water Resources	3
WR 507	Integrated Water Resources Projects	3
Select one 500-level Elective course: ¹		3

¹ (Or 900- level in LAW) In an option area outside the main option area (3 cr for Ph.D. only).

Entry Requirements

Coursework in the following is required for M.S. and Ph.D. admission to the Water Resources Engineering & Science Option Area. Provisional admission for M.S. students may be granted to those who have completed the majority of this coursework, provided the remaining coursework is completed as deficiency requirements.

- Calculus (minimum of 9 credits)
- Differential Equations (3 credits)
- Statistics for Scientists/Engineers (3 credits)
- Chemistry (minimum of 4 credits)
- Physics (minimum of 4 credits)
- Engineering Fluid Mechanics (minimum of 3 credits)

Core Courses

M.S. students are required to take 6 credits, and Ph.D. students are required to take 9 credits from the following (6 or 9 cr):

Code	Title	Hours
BE 552	Environmental Water Quality	3
BE 558	Fluid Mechanics of Porous Materials	3
CE 421	Engineering Hydrology	3
CE 526	Aquatic Habitat Modeling ¹	3
CE 535	Fluvial Geomorphology and River Mechanics ¹	3
HYDR 509	Quantitative Hydrogeology	3
HYDR 576	Fundamentals of Modeling Hydrogeologic Systems	3
SOIL 515	Soil and Environmental Physics	3

¹ Either CE 526 or CE 535 may be used to satisfy this requirement, but not both.

Elective Courses

As noted under Common Courses for Ph.D. only, an elective course *must* be in either the Science & Management or Law, Management & Policy Option Areas. A core course may be considered an elective course once the core requirements are satisfied. A detailed list of elective courses for this option area is provided on the Water Resources Program web site.

Water Resources Law, Management and Policy Option (M.S.)

Master of Science. Major in Water Resources - Law, Management and Policy Option.

Common Courses

Students in both M.S. and Ph.D. degree programs are required to fulfill a set of common courses, applicable to all three Water Resources Option Areas.

Code	Title	Hours
WR 501	Seminar	1-16
WR 506	Interdisciplinary Methods in Water Resources	3
WR 507	Integrated Water Resources Projects	3
Select one 500-level Elective course: ¹		3

¹ (Or 900- level in LAW) in an option area outside the main option area (3 credits for Ph.D. only).

Entry Requirements

A background in government, public policy, or management is required for M.S. and Ph.D. admission to the Law, Management, and Policy Option Area. Students without an undergraduate degree in Political Science, Public Policy, Government, or entering the concurrent J.D. program, or related field may be granted provisional admission, but they are required to complete coursework (in addition to standard program and option area requirements) that demonstrates a minimum level of competency. This should include:

- American Government (6 credits at the 400 level)
- Public Policy (6 credits at the 400 level) **or**

Both requirements above may be met by taking equivalent law courses including:

- Constitutional Law and Civil Procedure (12 credits at the 900 level, as approved by major advisor)
- Subject to approval of the Water Resources Program curriculum committee, other relevant completed courses (or professional experience) may be substituted to meet these requirements.

Core Courses

All students in the Water Resources Law, Management & Policy Option Area are required to complete:

Research or Analytical Methods (3 cr determined in consultation with committee)

The student and committee select the appropriate mix of Law, Management and Policy courses from the following list. Law students are encouraged to take non-law courses. Non-law students are encouraged to take courses from at least two disciplines. M.S. students are required to take 6 credits, and Ph.D. students 9 credits from the following (6 or 9 cr):

Code	Title	Hours
AGEC 577	Law, Ethics and the Environment	3
NRS 573	Planning & Decision Making for Watershed Management	3

LAW 942	Water Law I (Max 2credits)	1-2
LAW 946	Water and Energy Policy Seminar	2
LAW 947	Environmental Law	3
LAW 951	Environmental Policy	3

Elective Courses

As noted under Common Courses for Ph.D. only, an elective course *must* be in either Engineering & Science or Science & Management Option Areas. A core course may be considered an elective course once the core requirements are satisfied. A detailed list of elective courses for this option area is provided on the Water Resources Program web site.

Water Resources Law, Management and Policy Option (Ph.D.)

Doctor of Philosophy. Major in Water Resources - Law, Management and Policy Option.

Common Courses

Students in both M.S. and Ph.D. degree programs are required to fulfill a set of common courses, applicable to all three Water Resources Option Areas.

Code	Title	Hours
WR 501	Seminar	1-16
WR 506	Interdisciplinary Methods in Water Resources	3
WR 507	Integrated Water Resources Projects	3
Select one 500-level Elective course: ¹		3

¹ (Or 900- level in LAW) in an option area outside the main option area (3 credits for Ph.D. only).

Entry Requirements

A background in government, public policy, or management is required for M.S. and Ph.D. admission to the Law, Management, and Policy Option Area. Students without an undergraduate degree in Political Science, Public Policy, Government, or entering the concurrent J.D. program, or related field may be granted provisional admission, but they are required to complete coursework (in addition to standard program and option area requirements) that demonstrates a minimum level of competency. This should include:

- American Government (6 credits at the 400 level)
- Public Policy (6 credits at the 400 level) **or**

Both requirements above may be met by taking equivalent law courses including:

- Constitutional Law and Civil Procedure (12 credits at the 900 level, as approved by major advisor)
- Subject to approval of the Water Resources Program curriculum committee, other relevant completed courses (or professional experience) may be substituted to meet these requirements.

Core Courses

All students in the Water Resources Law, Management & Policy Option Area are required to complete:

- Research or Analytical Methods (3 cr determined in consultation with committee)

The student and committee select the appropriate mix of Law, Management and Policy courses from the following list. Law students are encouraged to take non-law courses. Non-law students are encouraged to take courses from at least two disciplines. M.S. students are required to take 6 credits, and Ph.D. students 9 credits from the following (6 or 9 cr):

Code	Title	Hours
AGEC 577	Law, Ethics and the Environment	3
NRS 573	Planning & Decision Making for Watershed Management	3
LAW 942	Water Law I (Max 2 credits)	1-2
LAW 946	Water and Energy Policy Seminar	2
LAW 947	Environmental Law	3
LAW 951	Environmental Policy	3

Elective Courses

As noted under Common Courses for Ph.D. only, an elective course *must* be in either Engineering & Science or Science & Management Option Areas. A core course may be considered an elective course once the core requirements are satisfied. A detailed list of elective courses for this option area is provided on the Water Resources Program web site.

Water Resources Science and Management Option (M.S.)

Master of Science. Major in Water Resources - Science and Management Option.

Common Courses

Students in both M.S. and Ph.D. degree programs are required to fulfill a set of common courses, applicable to all three Water Resources Option Areas. The common courses are:

Code	Title	Hours
WR 501	Seminar	1-16
WR 506	Interdisciplinary Methods in Water Resources	3

Entry Requirements

Coursework in the following is required for (M.S. and Ph.D.) admission to the Water Resources Science & Management Option Area. Provisional admission for M.S. students may be granted to those who have completed the majority of this coursework, provided the remaining coursework is completed as deficiency requirements.

- Calculus (6 credits)
- Statistics (3 credits)
- Chemistry or Physics or Biology/Ecology (6 credits total)

Core Courses

M.S. students are required to take 6 credits, and Ph.D. students are required to take 9 credits from the following (6 or 9 cr):

Code	Title	Hours
Aquatic Ecology		
FISH 503	Workshop	1-16
FISH 530	Stream Ecology	3
Fluvial Geomorphology and Aquatic Habitat		
CE 526	Aquatic Habitat Modeling (Max 6 credits)	3
CE 535	Fluvial Geomorphology and River Mechanics	3
Physical Hydrogeology		
BE 450	Environmental Hydrology ¹	3
FISH 515	Large River Fisheries ¹	2
Statistics		
ENVS 541	Sampling and Analysis of Environmental Contaminants	3
STAT 431	Statistical Analysis	3
Subsurface Hydrology		
HYDR 509	Quantitative Hydrogeology ²	3
SOIL 515	Soil and Environmental Physics ²	3
Water Quality		
BE 552	Environmental Water Quality	3

¹ Either BE 450 or FISH 515 may be used to satisfy this requirement, but not both.

² Either HYDR 509 or SOIL 515 may be used to satisfy this requirement, but not both.

Elective Courses

As noted under Common Courses for Ph.D. only, an elective course *must* be in either the Engineering & Science or Law, Management & Policy Option Areas. A core course may be considered an elective course once the core requirements are satisfied. A detailed list of elective courses for this option area is provided on the Water Resources Program web site.

Water Resources Science and Management Option (Ph.D.)

Doctor of Philosophy. Major in Water Resources - Science and Management Option.

Common Courses

Students in both M.S. and Ph.D. degree programs are required to fulfill a set of common courses, applicable to all three Water Resources Option Areas.

Code	Title	Hours

¹ (Or 900- level in LAW) in an option area outside the main option area (3 cr for Ph.D. only).

Entry Requirements

Coursework in the following is required for (M.S. and Ph.D.) admission to the Water Resources Science & Management Option Area. Provisional admission for M.S. students may be granted to those who have completed the majority of this coursework, provided the remaining coursework is completed as deficiency requirements.

- Calculus (6 credits)
- Statistics (3 credits)
- Chemistry or Physics or Biology/Ecology (6 credits total)

Core Courses

M.S. students are required to take 6 credits, and Ph.D. students are required to take 9 credits from the following (6 or 9 cr):

Code	Title	Hours
Aquatic Ecology		
FISH 503	Workshop	1-16
FISH 530	Stream Ecology	3
Fluvial Geomorphology and Aquatic Habitat		
CE 526	Aquatic Habitat Modeling (Max 6 credits)	3
CE 535	Fluvial Geomorphology and River Mechanics	3
Physical Hydrogeology		
BE 450	Environmental Hydrology ¹	3
FISH 515	Large River Fisheries ¹	2
Statistics		
ENVS 541	Sampling and Analysis of Environmental Contaminants	3
STAT 431	Statistical Analysis	3
Subsurface Hydrology		
HYDR 509	Quantitative Hydrogeology ²	3
SOIL 515	Soil and Environmental Physics ²	3
Water Quality		
BE 552	Environmental Water Quality	3

¹ Either BE 450 or FISH 515 may be used to satisfy this requirement, but not both.

² Either HYDR 509 or SOIL 515 may be used to satisfy this requirement, but not both.

Elective Courses

As noted under Common Courses for Ph.D. only, an elective course *must* be in either the Engineering & Science or Law, Management & Policy Option Areas. A core course may be considered an elective course once the core requirements are satisfied. A detailed list of elective courses for this option area is provided on the Water Resources Program web site.

COLLEGE OF ART AND ARCHITECTURE

Shauna Corry, Dean (AA 202 83844-2461; 208-885-5423).

The College of Art and Architecture was re-established in October 2005, by mandate of the State Board of Education, to bring together the accredited programs in art and design, architecture, landscape architecture, interior design, and virtual technology and design. All majors will be engaged in professionally accredited, studio-based programs through inspired teaching and individual attention, developing in each student their unique qualities and qualifications for success. The students will also be connected with communities and other "clients" to gain immediate experience addressing real-world problems, and the rewards of making a difference, and inspired to thrive in a world of change by being Creative, Collaborative Leaders, within and outside their disciplines.

This combination of strong, accredited programs increases the resources available to students, and brings together a community of scholars with a common dedication to a sustainable, high quality physical environment. Additionally, this relationship promotes opportunities for integration, and prepares students for the interdisciplinary nature of contemporary practice. The quality of these programs has earned the college an excellent and widespread reputation.

Aptitudes

Students likely to succeed in the design and visual arts are those with a serious purpose and willingness to work hard. Equally important is the ability to visualize in three dimensions. Students need to be creative, inquisitive, and be able to effectively communicate both visually and verbally. Students should also value cultural and social diversity and be willing to learn in an interdisciplinary and cooperative manner. Some of the programs also require an ability and interest in the natural sciences and math.

Faculty

Faculty are the key to the quality of the educational experience obtained through the college programs. Combining the energies of a well recognized, scholarly and creative faculty with the innovative talents of experienced architects, artists, designers, and landscape architects, the college develops the skills of future professionals by preserving the balance between the theoretical and practical aspects in each of the programs represented. Within the design professions focus is placed on the application of contemporary design issues with an emphasis on environmental responsibility and the role of history and culture in meeting the diverse needs of a global society.

Facilities

The College of Art and Architecture is housed in several buildings located in the very center of the university campus. These buildings are in close proximity to university classroom buildings, library, administrative offices, and recreational facilities. The Ridenbaugh Hall Gallery on campus and the Prichard Gallery in downtown Moscow are administered by the college and provide support to all college disciplines. There are also two facilities located in Boise: The Idaho Urban Research and Design Center (IURDC) and the Integrated Design Lab (IDL).

Fees

The State Board of Education has granted approval to charge a professional fee to all College of Art and Architecture students on a semester basis over and above general tuition and fees. This fee is used to directly support technology and computing for students and faculty, supplement operating budgets, hire temporary faculty, support the college's visual and design resource centers, cover professional accreditation costs, and partially support student field trips, clubs, and guest lecturers. See "Fees and Expenses (p. 51)" of this catalog.

Preparation and Admission

A statement of undergraduate and graduate admission requirements is included in this catalog. Students who contemplate entering the College of Art and Architecture with advanced standing from a junior college or other institution should complete as many of the first year and sophomore requirements listed in the curricula as possible. Certain courses are prerequisites to many advanced courses, and their omission will delay graduation. Certain grade-point averages and other conditions are required for entering into particular programs in the college. See the preface to each curriculum.

Scholarships and Awards

Scholarships and awards are available to students and prospective students.

See Student Financial Aid Services (<http://www.uidaho.edu/financialaid>). Also, visit the College of Art and Architecture (<http://www.uidaho.edu/caa>) website or contact specific program administrators.

University Requirements . See Regulation J (p. 84) for the all-university requirements for graduation.

College Requirements . See specific degree requirements within each program.

Upon registering for any course offered in this college, the student agrees that the program offering the course may retain work completed by the student. The program will make retained work available to the student for photographing.

Programs

There are six programs within the College of Art and Architecture:

- Architecture,
- Interior Design,
- Art and Design,
- Landscape Architecture,
- Virtual Technology and Design and
- Bioregional Planning and Community Design.

Each program represents unique disciplines that are integrated throughout their curriculum, research and service mission.

Graduate Programs

Please refer to the specific programs.

Art and Architecture

There are six programs within the College of Art and Architecture: Architecture, Bioregional Planning and Community Design, Interior

Design, Art and Design, Landscape Architecture, and Virtual Technology and Design. Each program represents unique disciplines that are integrated throughout their curriculum, research and service mission. All undergraduate students majoring in any of the programs in art and architecture (architecture, interior design, art and design landscape architecture and virtual technology and design) are required to take the three classes that comprise the College Foundation Program.

Fees & Expenses

The State Board of Education has granted approval to charge a professional fee to all College of Art and Architecture students on a semester basis over and above general tuition and fees. This fee is used to directly support technology and computing for students and faculty, supplement operating budgets, hire temporary faculty, support the college's visual and design resource centers, cover professional accreditation costs, and partially support student field trips, clubs, and guest lecturers. See "Fees and Expenses (p. 51)" in this catalog.

Computer Technology

Students in architecture, interior design, art and design, landscape architecture and virtual technology and design are required to have their own computer and appropriate software for use in their studies. Specific technology requirements as well as guidelines and recommendations are posted on each program's web site.

UDC

The Urban Design Center (UDC) is an educational and outreach function for the Programs of Architecture and Landscape Architecture, Bioregional Planning, and the College of Art and Architecture. Graduate students in architecture, landscape architecture, bioregional planning and art and design are able to live and study in Boise for one or two years while completing graduate programs. In addition to course work in architecture, landscape architecture, sustainable urban landscapes, and urban design, students collaborate with architects, landscape architects and other design professionals, developers, urban planners and community and business leaders on projects and research that help shape Boise's cultural and metropolitan identity. Project partners include governmental agencies, arts and cultural organizations, businesses, nonprofits and residential communities.

IDL

The Integrated Design Lab, located in Boise, is dedicated to the development of high-performance, energy-efficient buildings in Idaho and eastern Oregon. Faculty, staff and student employees have opportunities there to work together on significant outreach and research projects and collaborate closely with faculty and students at the IURDC.

The Architecture and Interior Design Curriculum leads to a B.S. in Architecture (B.S.Arch.), Master of Architecture (M.Arch.), Bachelor of Interior Design (BID) and the MS Architecture.

Architecture

The University of Idaho Architecture Program offers the following NAAB-accredited professional degree program: Master of Architecture (M.Arch.), which builds off of the undergraduate B.S. Architecture via the seamless professional degree path. The architecture program's next accreditation visit is in 2024.

The Bachelor of Science in Architecture (B.S.Arch.), when combined with the Master of Architecture (M.Arch.) prepares students for a career as

a licensed architect, as well as for careers in architecture, community design, urban design, consulting in energy and lighting, sustainable development and related fields. Students first earn the B.S.Arch., which qualifies them to seek non-professional positions, or to move seamlessly into the accredited two-year Master of Architecture program.

For undergraduate students, the pre-professional program (B.S. Arch.) begins with foundation courses in art and architecture as well as university core requirements, and then transitions to focus on architectural design, history and theory of architecture, environmental controls, structures, construction, and urban theory. The accredited M. Arch. Includes courses on technical systems integration and professional practice, and provides students the opportunity to pursue course work germane to their own interests in architecture, culminating in a self-defined graduate project.

Undergraduate students from other colleges or universities may transfer into the program at various points in the curriculum – depending on course work completed elsewhere, and students holding an undergraduate degree may apply directly to the graduate program. Qualified students from other B.S. Arch. degrees are also encouraged to apply to the accredited M.Arch. degree at Idaho.

(In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 8-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards. Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.)

Interior Design

The Bachelor of Interior Design (B.I.D.) is a professional degree, nationally accredited by the Council for Interior Design Accreditation (CIDA). It prepares students for a successful career as an interior designer including valuable interdisciplinary skills and knowledge in the closely related field of architecture as well as environmentally and socially responsible design. Due to the unique configuration and relationship between Architecture and Interior Design, students in the interior design program graduate with a major in interior design and a minor in architecture. Students can also minor in other disciplines of their choice. Students have the option of majoring in interior design and architecture over a period of seven years, thus graduating with a B.I.D. and an M.Arch.

After the first year of study, academic achievement is reviewed to determine eligibility for continued study in interior design. Another review is conducted at the end of the second year of study.

Art and Design

The art and design curriculum at the University of Idaho leads to a Bachelor of Fine Arts, (B.F.A.) in Studio Art, a Bachelor of Arts (B.A.) in Art, and a Master of Fine Arts (M.F.A.) in art. This curriculum provides a broad base from which students may pursue a number of different career options. Students are required to complete a core of courses (the art core) designed to ensure an understanding of the historical and theoretical basis of art and design, while developing general competency

in various media. They become strong visual thinkers equipped with both the creative and intellectual skills to succeed in a variety of careers in the global art and design communities. Students of art and design experience an integrated curriculum that fosters theoretical and professional growth, while promoting a profound understanding of the potential of visual work in its many contexts.

The B.F.A. degree is designed for those students who wish to develop professional careers in studio art and design. Requirements for the degree are stringent, and include intense involvement in studio work in the senior year, closely mentored by all faculty members, culminating in the development of a portfolio and written statement in support of a professional exhibition. Because the B.F.A. degree is a professional degree, often preparatory to pursuit of a Master of Fine Arts (M.F.A.) degree, students must maintain a minimum 2.75 GPA.

The B.A. degree with a major in art is designed to ensure a broad, liberal education with an emphasis in art. Students pursuing this degree must meet the B.A. degree requirements listed in the College of Letters, Arts, and Social Sciences section of this catalog, including a foreign language. Emphasis areas include ceramics, drawing, graphic design, communication design, painting, printmaking and sculpture.

The M.F.A. degree is the terminal degree for studio artists and designers who want to deepen their current professional practice or teach at the college or university level. Graduate students are assigned studio space in the program's Graduate Art Studio (GAS House), as space and individual requirements permit. Priority is given to full-time graduate students. Admission requirements for the M.F.A. include a minimum grade-point average of 3.0 and an undergraduate degree in a studio area, or its equivalent as determined by the Art and Design program graduate faculty. Fewer than 60 credits in studio courses, and 12 in art history (or criticism, theory, or history in a related field) at the undergraduate level is considered a deficiency. Applicants with these deficiencies who are admitted to the M.F.A. program may be required to include deficiency course work as part of their graduate program. Deficiency courses are required but do not count towards satisfying degree requirements.

All applicants to the graduate program apply using the Graduate Admissions online application process. Applicants are required to submit a comprehensive portfolio of work, a written statement of career goals, three letters of recommendation and official transcripts from all previously attended colleges/universities. Portfolios may be in digital or CD form and should include 20 clearly labeled images and image list in a PDF file.

The Art and Design program is accredited by the National Association of Schools of Art and Design (NASAD).

Landscape Architecture

The practice of Landscape architecture is diverse with career opportunities in the traditional landscape architecture firm, interdisciplinary planning, engineering or architecture firms, urban, regional and national public agencies as well non-governmental organizations such as land and watershed trusts. Landscape architectural education at the University of Idaho is enhanced by the ecology of the Inland Northwest landscape, opportunities for integrated professional education in the College of Art and Architecture and the overall academic diversity of a land grant institution.

To achieve the professional M.L.A. degree a first year student must complete a five and one-half year seamless program that includes the Bachelor of Science, Landscape Architecture (B.S.L.A.) degree and the

first professional Master of Landscape Architecture (M.L.A.) degree. After the second year of study, academic achievement is reviewed to determine eligibility for continued study in the program. Students are required to submit a portfolio of their work at this time.

Upon achieving senior standing, students apply for admission to the graduate professional M.L.A. In accordance with College of Graduate Studies requirements, these students must have a 3.0 GPA to be considered for admission. Once admitted to the M.L.A. program, students work toward completion of both the B.S.L.A. & M.L.A., receiving both degrees upon completion of the five and one-half year curriculum.

Transfer students with baccalaureate degrees in a program other than landscape architecture may be admitted, based on their transcripts, directly into the M.L.A. professional program. The three-year program requires a minimum of 36 graduate level credits and 90 credits overall. Transfer students without an undergraduate degree are admitted to the B.S.L.A. program before being considered for the M.L.A. program.

Bioregional Planning and Community Design

The Master of Science in Bioregional Planning and Community Design (BIOP) is an interdisciplinary, professional degree designed to prepare future leaders for roles in planning within both the public and private sectors and from local to international organizations. The BIOP program is distinguished from other planning programs around North America in three ways:

1. it represents a university-wide, interdisciplinary approach to planning involving eight UI colleges and nine academic departments;
2. it fully integrates education and research with community outreach; and
3. it supports, promotes and advances bioregional approach to planning that focuses on sustainable development, sustainable efficient conservation planning and management, and sustainable human quality-of-life within and across bioregions.

Students have a unique opportunity to integrate sustainable approaches to planning in a rapidly developing region of the Intermountain West.

The curriculum includes a common core of required courses that link knowledge with practice, and fundamental theories with skills. Restricted elective requirements build on this core knowledge and skill while providing flexibility for the students to focus on their interest areas. Students also select one of several areas of specialization:

1. Regional Planning and Multi-jurisdictional Governance,
2. Community Design,
3. Community and Economic Development,
4. Transportation and Sustainable Infrastructure,
5. GIS and Spatial Analysis,
6. Natural Hazards and Climate Change Mitigation and Adaptation or,
7. Student designed option.

These specializations provide connections between the BIOP program and the disciplines within the participating colleges and departments.

A 15-credit professional certificate is also available in the BIOP program. The certificate is designed for graduate students enrolled in various professional disciplines (e.g., transportation engineering, environmental and natural resource management, architecture, landscape

architecture, public administration) who want some expertise in planning. Students earning the certificate will gain knowledge, skills, and values in bioregional planning and be able to effectively employ planning concepts and principles within their discipline.

Questions regarding the BIOP M.S. programs should be directed to bioregionalplanning@uidaho.edu.

The Bioregional Planning and Community Design M.S. degree requires the completion of 44 credits of coursework. Specific requirements are: core requirements (20 cr); additional competency via restricted elective requirements (12 cr); area of specialization (9 cr); and final project or thesis. The final project can take the form of a professional report or a client report. See the BIOP Student Handbook for specific course requirements.

Admission to the graduate program is based on: ability to complete graduate-level work evidenced by undergraduate transcripts; the applicant's statement of research and career objectives; the compatibility of the student's objectives with program mission; and availability of graduate faculty to act as major advisor for the applicant. The GRE, applicant's statement of objectives, and three letters of recommendation and resume are required.

International Study

All students in the program are normally required to participate in a landscape architecture, international study abroad program. (Students are encouraged to work closely with their faculty advisor in planning for these programs as there are several options.) International study abroad is subject to national and international conditions that may impact the college's ability to offer or facilitate a program.

Program options and opportunities

Graduate students in landscape architecture have the opportunity to study at the University of Idaho, Moscow campus or at the College of Art and Architecture Urban Design Center in Boise. Students in Boise work together with their peers in architecture in a year-long integrated design studio focusing on sustainable urban design and urban systems. Students at the Moscow campus have the opportunity to participate in an interdisciplinary studio focusing on community and rural design with graduate students in Art and Design, Architecture and Interior Design and Bioregional Planning and Community Design. Individual faculty-directed off campus community internships in cooperation with a practitioner mentor are also available.

Elective Tracks

All landscape architecture students in both the B.S.L.A. and the M.L.A. program will work with their advisor to select an elective track that supports their specific interest in one of the project scales of the profession of landscape architecture. These normally include the site scale, neighborhood and community scale and the urban or bioregional scale. Electives may be chosen from the natural and social sciences as well as the humanities and the arts and will assist in gaining skills and knowledge that support the graduate studio or thesis.

Field Trips

All B.S.L.A. landscape architecture majors are required to take part in one field trip in the third or fourth year of the program. All M.L.A. majors are required to take part in one field trip in the first or second year of the program. These three to five day trips are usually to Northwest cities such as Portland, Seattle and San Francisco. Often one of these trips is

a visit to the American Society of Landscape Architects (ASLA) national conference when the meeting is held in the western region of the country.

The Virtual Technology and Design

(VTD) program offers a B.S. degree, which emphasizes an interdisciplinary education, through a curriculum that integrates emerging technologies with the process of design. VTD is accredited through the National Association of Schools of Art and Design.

VTD recognizes the demand for design professionals who have the interdisciplinary knowledge and skills necessary to conceive and construct electronically mediated solutions for an array of issues that give form and substance to our daily activities. As electronic media increasingly intersects with human interaction, the quality of access to information, services and the opportunity to participate fully in our emerging communities hinge in part on the kinds of solutions imagined and environments planned by these virtual designers. The virtual designer serves both defined and yet to be defined industries. They bring a unique combination of experiential, spatial, critical thinking and technical skills to problems that range from the need to interactively visualize complex information systems to the multi-dimensional modeling requirements of virtual environments for commercial, entertainment, educational or social applications.

The VTD student is a person excited by the possibilities of combining design with emerging technologies. Like other design students, VTD students are intrigued with inquiry, discovery and the development of creative solutions that responds to human needs. However, they are further intrigued by the possibility of designing in a virtual or augmented reality rather than exclusively with bricks and mortar or more traditional media.

Graduates of the program will be prepared with the intellectual and management tools, as well as the technical and design skills, required of professionals who wish to contribute as leaders in the digital realm and design communities. Their understanding of the implications of electronically mediated information, communication and virtual environments on human activities will enable them to significantly influence the quality of everyday life. A VTD graduate is a designer who utilizes emerging technologies and theories.

Computer Technology

All Virtual Technology and Design majors are required to provide their own laptop computer and appropriate software available for use in all VTD classes. Specific technology requirements as well as guidelines and recommendations are posted on the VTD web site at www.uidaho.edu/caa/vtd.

Majors

- Architecture (B.S.Arch.) (p. 139)
- Interior Design (B.I.D.) (p. 142)
- Studio Art and Design (B.F.A.) (p. 144)
- Art (B.A.) (p. 140)
- Landscape Architecture (B.S.L.A.) (p. 143)
- Virtual Technology and Design (B.S.) (p. 145)

Minors

- Architecture Minor (p. 140)
- Art Minor (p. 141)

- Interior Design Minor (p. 143)
- Landscape Architecture Minor (p. 144)

Architecture and Interior Design Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies (p. 221) and the Architecture and Interior Design program.

- Architecture (M.Arch.) (p. 140)
- Integrated Architecture and Design (M.S.) (p. 141)

Interior Design (B.I.D)

Seamless B.I.D. Interior Design and M.Arch. Program

Students who fulfill the requirements for the B.I.D. in interior design, and have already been admitted into the third year undergraduate architecture program, may apply for admission to the Master of Architecture program. Several architecture course requirements may be waived in lieu of interior design course work. This degree track may be completed in no less than seven years. Details are available from the Architecture program.

Art and Design Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and the Art and Design program. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Art (M.F.A.) (p. 141)

Landscape Architecture Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Landscape Architecture program. See the College of Graduate Studies (p. 221) section for the general requirements applicable to the degree.

- Landscape Architecture (M.L.A.) (p. 144)

Art Core

Architecture (B.S.Arch.)

Architecture Undergraduate Curricular Requirements

The four-year curriculum leading to a B.S.Arch. degree provides the undergraduate, pre-professional coursework that qualifies students for

entry level architectural work and prepares them to pursue the NAAB accredited, professional M. Arch degree via the seamless degree path.

Admission to the B.S. Arch program is competitive. Students apply to the program after the first year of study, where academic achievement is reviewed to determine eligibility for continued study in architecture. Another application occurs at the end of the second year of study. Here, applicants to the third year are required to submit a portfolio containing examples of graphic work in art and architecture. The deadline for both second and third year applications is mid-May, with the results of the evaluation being made known to applicants by the first week of July.

Students accepted into the years three and four of the curriculum are required to maintain a minimum 3.0 GPA and to receive a grade of "C" or higher in architectural design studios. Students who do not meet these criteria are ineligible for acceptance to the M.Arch. degree program and the College of Graduate Studies. (Provisional admittance to the M. Arch. program can be granted, with permission, for students with GPAs of 2.8 cumulatively, or 3.0 over the last 60 credit hours. See below for M.Arch. degree requirements.)

Note: Program permission is required for admittance into architecture design studios (ARCH 253, ARCH 254, ARCH 353, ARCH 354, and ARCH 454) and students must achieve a minimum grade of C in the previous studio course to enroll in the next sequential studio course.

Note: Students who have not been accepted into the third year curriculum may not enroll in architectural design courses. Students who have left the program may only re-enter the curriculum by application to the college admissions committee.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
ARCH 151	Introduction to the Built Environment	3
ARCH 154	Introduction to Architectural Graphics	3
ARCH 243	Media in Architecture	3
ARCH 253	Architectural Design I	4

MATH 170	Analytic Geometry and Calculus I	
MATH 175	Analytic Geometry and Calculus II	
PHIL 202	Introduction to Symbolic Logic	
STAT 251	Statistical Methods	
Total Hours		89-90

Courses to total 124 credits for this degree (including at least 3 cr of 200-level or above courses taken outside the disciplines of architecture; landscape architecture; art and design; interior design; and virtual technology and design; and 3 cr of 200-level or above courses taken within the disciplines; and at least 3 credits of 200-level or above courses taken in any discipline. Credits earned in completion of an academic minor may be substituted).

Architecture (M.Arch.)

Master of Architecture. Major in Architecture

Candidates must fulfill the requirements of the College of Graduate Studies (p. 221) and the Architecture program. Twenty-four of the 45 credits required for this degree must be at the 500 level, including the following courses: ARCH 510 (2 cr), ARCH 553 (6 cr), ARCH 554 (6 cr), and ARCH 556 (6 cr). The remaining courses required to complete credits for this degree may be 400- or 500-level architecture courses or 300- or 400-level courses in supporting areas.

Required courses include:

Code	Title	Hours
ARCH 510	Graduate Project Seminar	3
ARCH 553	Integrated Architectural Design	6
ARCH 554	Architectural Design: Vertical Studio	6
ARCH 556	Graduate Project	6
ARCH 568	Technical Integration in Design	3
ARCH 575	Professional Practice	3
Select Graduate Architecture Electives from the following:		6
ARCH 502	Directed Study	
ARCH 504	Special Topics	
ARCH 511	Native American Architecture	
ARCH 512	Identity and Place in Global Space	
ARCH 520	Architectural Research Methods	
ARCH 521	China Program Preparation Seminar	
ARCH 522	China's Urbanization Seminar	
ARCH 523	Cultural & Ethical Issues in Global Architectural Practice	
ARCH 552	Alternate Graduate Design Experience	
ARCH 570	Natural Lighting	
ARCH 571	Building Performance Evaluation	

ARCH 572	Integrated Design Seminar	
ARCH 573	Daylight Design and Simulation	
ARCH 574	Building Performance Simulation for Integrated Design	
ARCH 580	British Green Architecture	
ARCH 585	Urban Design Seminar	
ARCH 599	Non-thesis Master's Research	
Total Hours		33

Equivalents must be approved by the graduate program coordinator. Graduate students without an undergraduate architecture degree may also earn an accredited M.Arch. degree. Those students are placed in the program according to their academic qualifications, and depending on the background of the applicant, up to six years of study may be required to complete the degree requirements. Candidates must fulfill the requirements of the College of Graduate Studies (p. 221) and the Architecture (p. 139) program. Master of Architecture degree requirements are listed above.

Architecture Minor

Code	Title	Hours
ARCH 151	Introduction to the Built Environment	3

ART 380	Digital Imaging	
ART 390	Mixed Media (Max 12 credits)	
ART 411	Advanced Studio Practice (Max 6 credits)	
ART 491	Information Design	
Total Hours		44-47

Courses to total 120 credits for this degree

¹ Students pursuing a studio emphasis in graphic design must include ART 222 Introduction to Typography; and interaction design majors must include ART 272 Experiential Design I.

² At least 6 credits must be taken in one studio area, i.e., ART 330 Intermediate/Advanced Painting; no more than 6 credits in one studio area may be counted toward this requirement.

Art (M.F.A)

Master of Fine Arts. Major in Art.

The Master of Fine Arts degree is a 60-credit degree designed for students wishing to prepare themselves for a career as a professional artist or art teacher at the college or university level.

The M.F.A. is the terminal degree in studio art and requires a thesis. The major portion of the student's thesis consists of a one-person exhibition of professional quality work supported by a written statement on the nature of the work. The statement includes an explanation of the evolution of the conceptual or theoretical basis for the work (including historical and contemporary examples and influences), and a discussion of the experiments, processes, and technical experiments that were used in the evolution of the work.

Areas of concentration are: painting, drawing, sculpture, ceramics, graphic design, printmaking, and interface design, or a direction may be developed that combines two or more of these areas. Students wishing to work in an area other than those listed above must clearly state their intention in their statement of goals or intent upon application for admission to the M.F.A. program.

A final oral examination is required (and may be supplemented with a written examination at the discretion of the graduate committee).

Art Minor

Code	Title	Hours

Total Hours		20

Courses to total 20 credits for this minor

Art courses used to meet the Art Minor cannot be taken under the pass/fail option.

Integrated Architecture and Design (M.S.)

Master of Science. Major in Integrated Architecture and Design.

The Master of Science offers a research program open to candidates who hold a non-professional degree in any design discipline and/or a professional degree in architecture or landscape architecture, or other degree holders who desire to embark on a career in consulting, research, and/or scholarship. The program is designed for independent study within one or more of the following areas of specialization: Visualization, Environment and Behavior, Urban Design, Community Design and Planning, Universal Design, Landscape Design, Media Design, and Sustainable Architecture and Planning. Graduate students work closely with their major professor and graduate committee to develop a detailed program of study that borrows from three disciplines within the

College of Art and Architecture as well as studies with other programs throughout the university. Acceptance into the program is contingent on the Graduate Committee's review of the candidate's statement of intent describing the area of specialization in which the candidate will focus, three letters of recommendation, and a portfolio. The Graduate School requires a completed application, university transcripts, a resume, and an official TOEFL score, when appropriate. Prospective students are encouraged to first correspond with the Chair of the MSIAD Committee about their interests. The chair will then direct the applicant to further sources if needed. The M.S. degree with a major in Integrated Architecture and Design requires the completion of 30 credits of course work in either a thesis or non-thesis (project-based) option.

Thesis option:

Code	Title	Hours
ARCH 500	Master's Research and Thesis	1
ARCH 520	Architectural Research Methods	3
Select 12 credits in Graduate Seminars in three disciplines ¹		12
Select 5-7 credits of electives		5-7
Total Hours		21-23

¹ Students must have at least 1 seminar in the CAA and at least one seminar from outside the college.

Non-thesis option:

Code	Title	Hours
Select 12 credits of graduate design research as approved by major professor		12
Select 12 credits in Graduate Seminars in three disciplines ¹		12
Select 6 credits of electives		6
Total Hours		30

¹ Students must have at least 1 seminar in the CAA and at least one seminar from outside the college.

Interior Design (B.I.D.)

The Interior Design program is a four-year professional program that leads to a Bachelor of Interior Design. Our mission is to serve as Idaho's only public, accredited, professional interior design program by providing a strong interdisciplinary design experience through a curriculum accredited by the Council for Interior Design Accreditation (CIDA), allied research, and outreach opportunities. We prepare our graduates to serve society through their professional and community work.

Due to the unique configuration and relationship between Architecture and Interior Design, students in the interior design program graduate with a major in interior design and a minor in architecture. Students can also minor in other disciplines of their choice. Students have the option of completing seamless degrees in interior design and architecture over the period of seven years, thus graduating with a B.I.D. in interior design and an M.Arch. in architecture. Students must hold a minimum GPA of 2.50. A portfolio and transcript review will be conducted in the spring of the sophomore year. The portfolio, of no more than 10 pages, should be submitted in an 11" x 17" format. Results of the evaluation are made known to applicants in July.

Program(s) permission is required for admittance into Architecture and Interior Design studio courses:

Code	Title	Hours
ARCH 253	Architectural Design I	4

Landscape Architecture (B.S.L.A.)

Students are typically accepted into the landscape architecture B.S.L.A. major as freshman or as transfer students. All new students whether freshman or transfer will be required to submit a portfolio of creative work at the end of their first year in the program. (Students are encouraged to include work from landscape architecture courses and any art or architecture courses they may have taken.) A committee of faculty will review this portfolio along with each student's cumulative GPA to determine their eligibility to continue in the program. Portfolios are due no later than the Monday of No Examination Week. All students will be notified of their eligibility for the coming fall semester no later than three weeks after the last day of classes of spring semester.

All majors in the program must maintain at least a 2.5 cumulative GPA in landscape architecture major courses. Failure to do so will require the student to meet with their advisor and repeat the landscape architecture major courses that impact this overall GPA before advancing in the program.

On registering for a course offered by the program, the student agrees that the college may retain work completed by the student for display, instruction, and accreditation purposes.

Computer Equipment: Beginning with the first year of the program, all landscape architecture students are required to have their own laptop computer and appropriate software for use in their courses.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Landscape Architecture (M.L.A.)

Master of Landscape Architecture. Major in Landscape Architecture.

Candidates must fulfill the requirements of the College of Graduate Studies and of the Landscape Architecture program including a 3.0 minimum GPA in order to be considered for admission to the Master of Landscape Architecture first professional degree program. See the College of Graduate Studies (p. 221) section for the general requirements applicable to the degree.

Eighteen of the 36 credits required for the MLA degree must be at the 500 level, including the following courses: LARC 554, LARC 556, LARC 558. The remaining courses required to complete credits for this degree may be 300, 400 or 500-level electives from programs across the university. (300 level electives from Landscape Architecture cannot be used as graduate electives.) (More required courses are listed below under both thesis and nonthesis options)

Students without an undergraduate degree in Landscape Architecture are required to pursue the Non-Thesis or Final Project Option:

Non-Thesis Option Requirements

Requirements include:

Code	Title	Hours
LARC 554	Landscape Architecture Graduate Studio 1	6
LARC 556	Landscape Architecture Graduate Studio 2	6
LARC 558	Landscape Architecture Graduate Studio 3	6
Research Methods

Studio Art and Design (B.F.A.)

The B.F.A. is a four-year degree divided into two parts: the preprofessional program (freshman and sophomore years) and the professional program (junior and senior years). Majors are eligible to apply for the professional program when they have completed the art core, in the process of completing the 200-level art course requirements, and have earned a minimum 2.75 GPA. Applications for the professional BFA program will be requested each semester; students must be admitted to the professional BFA through the review process *before being admitted to ART 490 and ART 495*. Transcripts and a portfolio of the student's art work must accompany the application. Students accepted into the professional program must complete 15 credits of 300-level studio courses with at least 6 of the 15 credits in one sequential studio area and 12 credits of art history before enrolling in ART 490 and ART 495. Students must maintain a minimum GPA of 2.75 and receive a grade of C or better in the 300- and 400-level art courses. Students may reapply for entry into the professional program any semester after their sophomore year.

Computer Equipment: Beginning with the first year of the program, all art and design students are required to have their own laptop computer and appropriate software for use in their courses. Please refer to the College of Art and Architecture's (<http://www.uidaho.edu/caa>) website for specifics.

Required course work includes the university requirements (see regulation J-3 (p.)), the art core, and a studio emphasis (all the 200-level and 300-level courses in a specific studio area) in one of the following areas: graphic design, interaction design, painting, sculpture, printmaking, or photography/digital imaging and:

Code	Title	Hours

ART 390	Mixed Media	
ART 491	Information Design	
Total Hours		60

Courses to total 120 credits for this degree

¹ At least 6 credits must be taken in one studio area, i.e., ART 330; no more than 6 credits in one studio area may be counted toward this requirement.

No more than a combined total of 9 credits of the following courses may be applied toward a B.F.A. degree: ART 404, ART 488, ART 497, ART 498, and ART 499.

Virtual Technology and Design (B.S.)

This is a four-year curriculum leading to a B.S. in Virtual Technology and Design. After the first year of study, academic achievement is reviewed to determine eligibility for continued study in VTD. Only students with a 2.5 or higher grade-point average are eligible to continue in the studio sequence. Another review is conducted at the end of the second year of study. Applicants to the second and third year are required to submit an electronic media based portfolio containing examples of their art and design work. Applicants should contact the program coordinator regarding acceptable media formats. The submission should also contain a transcript of any college work outside the UI. The deadline for third year applications is the close of the spring semester. Results of the evaluation will be made known to applicants by the end of June. Students accepted into the third and fourth years of the curriculum are required to maintain a minimum GPA of 3.0 and to receive a grade of 'C' or higher in all required VTD courses.

Note: Students who have not been accepted into the second year of the curriculum may not enroll in VTD 200 level design courses. Students who have not been accepted into the third year of the curriculum may not enroll in VTD 300 level design courses. Students who have left the program or fail a design studio course may only re-enter the curriculum by application to the program admissions committee.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

History or Theory Courses

Advisor-Approved History or Theory courses.¹ 12

Directed Electives

Select three Directed Elective Courses ²	8-9
Total Hours	83-99

Courses to total 120 credits for this degree

- ¹ Courses must be associated with the disciplines of architecture, art, film, media, music or theatre, with approval of the VTD program. Students must select at least one (3 cr) 400-level course.
- ² Elective Courses that allow a student to develop an emphasis area or breadth in a supporting discipline, with approval of VTD program.

Program in Bioregional Planning and Community Design

The interdisciplinary program in Bioregional Planning and Community Design is administered by the College of Art and Architecture (p. 135).

The Master of Science in Bioregional Planning and Community Design (BIOP) is an interdisciplinary, professional degree designed to prepare future leaders for roles in planning within both the public and private sectors and from local to international organizations. The BIOP program is distinguished from other planning programs around North America in three ways:

1. it represents a university-wide, interdisciplinary approach to planning involving eight UI colleges and nine academic departments;
2. it fully integrates education and research with community outreach; and
3. it supports, promotes and advances bioregional approach to planning that focuses on sustainable development, sustainable efficient conservation planning and management, and sustainable human quality-of-life within and across bioregions.

Students have a unique opportunity to integrate sustainable approaches to planning in a rapidly developing region of the Intermountain West.

The curriculum includes a common core of required courses that link knowledge with practice, and fundamental theories with skills. Restricted elective requirements build on this core knowledge and skill while providing flexibility for the students to focus on their interest areas. Students also select one of several areas of specialization:

1. Regional Planning and Multi-jurisdictional Governance,
2. Community Design,
3. Community and Economic Development,
4. Transportation and Sustainable Infrastructure,
5. GIS and Spatial Analysis,
6. Natural Hazards and Climate Change Mitigation and Adaptation or,
7. Student designed option.

These specializations provide connections between the BIOP program and the disciplines within the participating colleges and departments.

A 15-credit professional certificate is also available in the BIOP program. The certificate is designed for graduate students enrolled in various professional disciplines (e.g., transportation engineering, environmental and natural resource management, architecture, landscape architecture, public administration) who want some expertise in planning. Students earning the certificate will gain knowledge, skills, and values in

bioregional planning and be able to effectively employ planning concepts and principles within their discipline.

Questions regarding the BIOP M.S. programs should be directed to bioregionalplanning@uidaho.edu.

Admission

Admission to the graduate program is based on: ability to complete graduate-level work evidenced by undergraduate transcripts; the applicant's statement of research and career objectives; the compatibility of the student's objectives with program mission; and availability of graduate faculty to act as major advisor for the applicant. The GRE, applicant's statement of objectives, and three letters of recommendation and resume are required.

Bioregional Planning and Community Design Graduate Program

- Bioregional Planning and Community Design Graduate Academic Certificate (p. 146)
- Urban Design Graduate Academic Certificate (p. 147)
- Bioregional Planning and Community Design (M.S.) (p. 146)

Bioregional Planning and Community Design (M.S.)

Master of Science. Major in Bioregional Planning and Community Design.

The Bioregional Planning and Community Design M.S. degree requires the completion of 44 units of course work. Specific requirements are: core requirement (20 cr); additional competency via restricted and free elective requirements (12 cr); area of specialization (9 cr); and final project or thesis. The final project can take the form of a professional report or a client report. See the BIOP student handbook for actual specific course requirements.

Bioregional Planning and Community Design Graduate Academic Certificate

The Bioregional Planning and Community Design Program offers a 16 credit Graduate Certificate in Bioregional Planning and Community Design that can be completed by students in other graduate programs who have an interest in planning as well as by professionals who are interested in planning issues but do not want to pursue the 44 credit M.S. degree.

Students earning the certificate will gain the basic knowledge, skills, and values in bioregional planning and be able to effectively employ planning concepts and principles within their discipline or within their community.

COLLEGE OF BUSINESS AND ECONOMICS

Marc C. Chopin, Dean (301A J. A. Albertson Bldg.; 208-885-6071); Darryl Wolley, Associate Dean.

The college was established as a professional division of the university in 1925. Long known as the College of Business Administration, it became the College of Business and Economics (CBE) in 1969. Its vision is to be a leader in integrated business education and provide a sound background in basic business principles that prepare graduates for positions of responsibility in firms and organizations including entrepreneurial ventures. As part of a state-supported land grant university, the CBE also aims to give its students an appreciation of the social importance and responsibilities of businessmen and businesswomen, and both the values and the knowledge to discharge those responsibilities.

The college's mission is to provide a collaborative learning environment that prepares students to be responsible leaders, managers, entrepreneurs and professionals. Students are prepared to succeed personally and professionally and to practice exemplary principles of citizenship. We accomplish this mission by:

- Delivering a high quality and team-based undergraduate curriculum that integrates accounting, economics, and business disciplines.
- Delivering and supporting focused graduate and outreach programs that build on our competencies within the college and meet the needs of our stakeholders.
- Providing experiential learning opportunities for our students.
- Engaging in research that makes meaningful contributions to management practice and business education.
- Sharing our business expertise in support of our state, our professions and the academic community.

The college has adopted a set of learning goals that mirrors this mission. These goals are:

1. Business Knowledge and Environment - CBE students will acquire an integrated understanding of business, accounting, and economic principles;
2. Critical Thinking and Ethical Problem-Solving - CBE students will be able to use appropriate tools of analysis to identify and address problems or opportunities;
3. Communication - CBE students will develop the ability to effectively obtain, organize, and communicate information;
4. Clarify purpose and perspective – CBE students will develop a better understanding of self and their place in the world;
5. Teamwork and Collaboration – CBE students will acquire the ability to interact effectively and professionally with people of varied backgrounds, abilities, and values.

International Business Programs

There are various programs by which a UI student can pursue international business. The following programs are available in connection with a business degree (B.S.Bus.): a major or minor in a foreign language; a major or minor in international studies; a major or minor in political science. For students seeking a business degree (B.S.Bus.), a minor is offered in international business (see Department of Business below). In addition, a student may have a dual major in

business and foreign languages or major in foreign languages (B.A.) with a business option. A third option is the international studies program (B.A.), which may be selected by itself or as a dual major with business. Contact the Dean's Office in the College of Business and Economics for further information on international business programs.

Undeclared Status

A student may enter CBE as a freshman in an undeclared status. Because the first two years are nearly equivalent programs in all CBE majors, he or she may remain in the undeclared status until reaching junior level (completion of 58 credits). At that time, a major in the college should be selected. The undeclared status allows a student time to become acquainted with the majors within the college and to solidify career objectives before choosing a major.

General College Requirements for Graduation

University Requirements

See regulation J-3 (p. 84) for requirements that all students in the university must meet.

College Requirements

Before proceeding to upper-division work, students majoring in the College of Business and Economics (CBE) must have good academic standing.

Undergraduate students enrolled as majors in the College of Business and Economics may not take any course required for the major on a pass/fail basis, with the exception of those courses offered only on a P/F basis.

Courses completed at a two-year college for transfer into the CBE core or major must be validated before they will be accepted for upper-division course requirements. Validation procedures are established by the faculty members of the CBE department offering these courses. Validation techniques include a proficiency examination, CLEP testing, or successful completion of an additional advanced course in the given field.

Candidates for the B.S.Bus. degree must be accepted officially as majors in the College of Business and Economics for at least their last two semesters before graduation, excluding summer sessions, and complete at least the last 24 credit hours applicable toward their degree during this period.

At least 27 upper division College of Business and Economics credits applied to a B.S. Bus. Degree must be earned in residence on the University of Idaho campus. In addition, at least 12 upper division credit hours of the course requirement in the major must be earned on the UI campus.

All majors require the completion of at least 120 credit hours with the exception of the PGA Golf Management options under Economics, Finance, Management and Human Resources, Management Information Systems, Marketing and Operations Management majors, which require completion of at least 128 credit hours. The required program of study includes:

1. 54-57 credit hours in the CBE Common Requirements, and
2. the major-specific required credit hours in the selected CBE major field. Additional undesignated electives are included in the 120

required credit hours (or 128 required credit hours in the case of the PGA Golf Management option).

A. CBE Common Requirements:

Code	Title	Hours
Communication		
COMM 101	Fundamentals of Public Speaking	2
Select one of the following:		3
ENGL 207	Persuasive Writing

BUS 490	Strategic Management	3
Total Hours		54-57

B. Requirements in Major (major-specific required credits)

Curricula and Degrees Offered

Undergraduate

The degree of Bachelor of Science in Business is offered with seven majors through two departments, as follows: Department of Accounting (accounting) and the Department of Business (business economics,

finance, management information systems, management and human resources, marketing, and operations management).

Specific requirements for each major are described in the individual department section. The program of study includes three principal components: the general university requirements, the business and economics core, and the requirements for the selected CBE major field. Detailed statements of college requirements are under "General Requirements for Graduation."

Graduate

The CBE, through the College of Graduate Studies (p. 221), offers the degrees of Master of Accountancy (p. 150) (M.Acct.) in accounting and the Master of Business Administration (p. 155) (M.B.A.). The M.Acct. degree qualifies students to enter the public accounting profession in auditing, tax, or other positions ultimately requiring a Certified Public Accountant (CPA) license. The M.B.A. degree is designed to teach management concepts and an integrated view of business decision making to professionals who have been targeted in succession plans to take on greater managerial responsibility and leadership roles in an organization.

Graduate students must fulfill the requirements of the College of Graduate Studies (p. 221) and the department in which they study.

Accreditation

The University of Idaho is one of 187 schools in the world accredited by AACSB (Association to Advance Collegiate Schools of Business) for both the College of Business and Economics and the Department of Accounting.

Department of Accounting

The goal of the accounting program is to prepare graduates to enter the accounting profession in public accounting, industry, or the public sector. The department offers two degrees: a Bachelor of Science in business, major in accounting; and a master of accountancy. The accounting program is fully accredited by AACSB International.

The department's mission is to provide an engaging learning environment that prepares our undergraduate accounting and Master of Accountancy students to be successful accounting professionals who exhibit high ethical standards. As a land grant university, we have a primary responsibility to serve the citizens of Idaho and the region through scholarly and outreach activities.

We accomplish this mission by:

- Delivering a high quality program of accounting studies that encompasses the relevant features of a dynamic accounting and business environment.
 - For undergraduate students, deliver general preparation in accounting to provide a foundation for future study or employment.
 - For graduate students, build upon the foundation to prepare for an accounting career.
- Providing experiential learning opportunities for our students.
- Engaging in research that makes meaningful contributions to accounting practice and accounting education.
- Delivering and supporting outreach programs that build on our competencies within the college and meet the needs of our stakeholders.

- Sharing our accounting expertise in support of our state, our professions and the academic community.
- The department has adopted the CBE Learning Goals for the undergraduate accounting majors (See College of Business and Economics (p. 148) Part IV of this catalog). Undergraduate accounting majors will also acquire specific knowledge in financial reporting, cost and managerial accounting, taxation, and auditing.
- The Master of Accountancy (MACCT) Learning Goals mirror the College of Business and Economics learning goals. These goals are:

1. Professional Accounting Knowledge - The MACCT students will acquire advanced accounting knowledge to prepare them for the accounting profession or further graduate work;
2. a) Critical Thinking and Ethical Problem Solving. MACCT students will demonstrate critical thinking skills necessary for identifying and addressing complex situations in accounting-related areas including ethical dilemmas;
b) Research Skills. MACCT students will be able to locate appropriate information, apply the rules or standards to a set of facts, and make an appropriate recommendation regarding a course of action;
3. Communication – MACCT students will enhance their ability to effectively communicate through oral presentations and professional writing assignments;
4. Clarify purpose and perspective – MACCT students will have opportunities for experiential learning, relationship development and appreciation of global perspectives;
5. Teamwork and Collaboration –MACCT students will have opportunities to enhance their ability to interact in teams.

The M.Acct. degree program has primary emphasis areas that include auditing and financial accounting, corporate accounting management and controllership, government and not-for-profit fiscal management, international accounting, accounting information systems analysis and design, and taxation. Other emphasis areas or tracks are permitted, subject to approval by the departmental graduate committee.

Admission to the M.Acct. degree requires

1. a B.S., B.A., or B.B.A. degree from an accredited college or university,
2. an undergraduate grade-point average of at least 3.00, and
3. a minimum TOEFL score of 550 (if applicable).

The department, in conjunction with the College of Law, offers a concurrent J.D./M.Acct. degree. See the College of Graduate Studies (p. 221) and the College of Law (p. 230) sections for additional information on graduate/law concurrent degrees.

Majors

- Accounting (B.S.Bus.) (p. 150)

Minors

- Accounting Minor (p. 151)

Accounting Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and the Department of Accounting. See the College of Graduate Studies (p. 221) section for the general requirements applicable to the

M.S. degree. See Concurrent Degrees (p. 232) for information about the concurrent J.D./M.Acct degree.

- Accountancy (M.Acct.) (p. 150)

Accountancy (M.Acct.)

The Master of Accountancy degree requires 30 semester credits beyond the bachelor's degree, and is designed to meet the 150-credit requirement for taking the CPA examination in Idaho. Completion of this degree qualifies students to enter the public accounting profession in auditing, tax, or other positions ultimately requiring a CPA license.

Students seeking the M.Acct. degree will develop a degree plan in consultation with their advisors, complete at least 30 credits of course work, and successfully complete a comprehensive paper and portfolio.

If a student has earned a BS in Accounting (or equivalent), the required courses include:

Code	Title	Hours
ACCT 586	Contemporary Management Accounting Issues	3
ACCT 590	Advanced Auditing Seminar	3
ACCT 592	Financial Accounting and Reporting Seminar	3
Select two courses from the following:		6
ACCT 515	Advanced Financial Accounting & Reporting	
ACCT 530	Accounting for Public Sector Entities	
ACCT 584	Federal Taxation of Entities	
ACCT 585	Estate and Elder Planning	
ACCT 598	Internship (Max 3 credits)	
ACCT 599	Non-thesis Master's Research (Max 6 credits)	
Total Hours		15

In addition students must have taken at least one US tax class, and at least one Business Law class at the upper-division undergraduate level or at the graduate level. An additional 15 credits are chosen from approved options. Those electing the thesis option include 6 credits of ACCT 500 in the additional 15 credits (must still complete comprehensive paper and portfolio).

If a student has not earned a BS in Business (or equivalent), in addition to the above mentioned courses, the student must take or have taken at least 24 credits of business, economics, statistics, and business law courses at the undergraduate level or at the graduate level. These courses must include at least two business disciplines (e.g. management, marketing, and finance).

Accounting (B.S.Bus.)

Required course work includes the university requirements (see regulation J-3 (p. 84)) the general requirements for graduation from the College of Business and Economics (p. 148), and:

Code	Title	Hours
ACCT 305	Accounting Information Systems	3
ACCT 315	Intermediate Financial Accounting I	3
ACCT 325	Intermediate Financial Accounting II	3
ACCT 385	Cost and Management Accounting	3
ACCT 483	Fundamentals of Federal Taxation	3
ACCT 492	Auditing and Controls	3

Select Accounting Electives from the following:	6
ACCT 415 Advanced Financial Accounting & Reporting	
ACCT 421 Accounting Data Analytics	
ACCT 440 Fraud Examination	
ACCT 484 Federal Taxation of Entities	
ACCT 530 Accounting for Public Sector Entities	
ACCT 585 Estate and Elder Planning	
BLAW 420 Commercial Law	
BLAW 425 Law of Business Entities	
Select on additional course in Communication or Writing beyond the UI general Education requirements:	3
COMM 332 Communication and the Small Group	
COMM 335 Intercultural Communication	
COMM 347 Persuasion	
COMM 410 Conflict Management	
COMM 431 Applied Business and Professional Communication	
ENGL 207 Persuasive Writing	
ENGL 313 Business Writing	
ENGL 316 Environmental Writing	
ENGL 317 Technical Writing	
PHIL 201 Critical Thinking	
Total Hours	27

Courses to total 120 credits for this degree

Accounting Minor

Code	Title	Hours
ACCT 201	Introduction to Financial Accounting	3

ACCT 585	Estate and Elder Planning	
BLAW 420	Commercial Law	
BLAW 425	Law of Business Entities	
Total Hours		18

Courses to total 18 credits for this minor

Department of Business

The six major fields (business economics, finance, management information systems, management and human resources, marketing, and operations management) within the department lead to the B.S.

Bus. degree. These programs provide a solid foundation in the liberal arts, a broad professional preparation in business, and in-depth course work in a major field. They are designed to prepare the student to excel in a competitive market environment. The department offers minors in business, business analytics, marketing, and in international business. In addition, the department offers a certificate in entrepreneurship. The business economics major prepares students for careers as economic forecasters, bankers, stockbrokers, labor or marketing analysts, lobbyists, or regional development specialists. The department offers three undergraduate economics degree programs, one in the College of Business and Economics (CBE) and two in the College of Letters, Arts, and Social Sciences (CLASS). The essential difference among these programs is that those in the College of Letters, Arts, and Social Sciences require fewer business courses and allow more electives. The less structured programs in this college are in the liberal arts tradition. A minor in economics is also offered through CLASS. Another minor in international policy economy is offered jointly through CLASS and CBE.

The PGA golf management option prepares students for a successful career in the golf industry. Accredited by the Professional Golfers Association (PGA), it is the only PGA accredited golf management program in the northwest and one of only 18 in the country. PGA Golf Management is an option for any business major. The finance major prepares students for careers in commercial lending, security analysis, trading, portfolio management, and corporate finance. The management information systems major prepares students in the areas of systems analysis and development, data base management, networking, app-development, and data communications.

The management and human resources major prepares students for opportunities in the areas of management and personnel administration. The management emphasis has a macro focus oriented toward a more general managerial focus. The human resources management emphasis is directed toward those individuals preparing for careers in personnel administration, recruitment and selection, training, compensation and benefits, and labor relations. The Entrepreneurship and Small-Business Management Emphasis focuses on how to successfully operate a small business.

The marketing major prepares students for opportunities in a broad range of areas including management of retail and wholesale distribution, advertising, market research, services marketing and product management. Marketing has four emphases: General Marketing, Marketing Analytics, Entrepreneurship, and PGA Golf Management.

The operations management major prepares students for management positions in operations planning and control, process management, project management, quality management and purchasing.

The business minor is designed for students outside of the CBE who desire an exposure to the field of business. The minor covers the primary fields in business, provides a background in business as a basis for further graduate work, and complements the student's academic major and future professional career.

The international business minor, open only to students with a major in the College of Business and Economics, complements each of the majors in the college, and prepares students to extend their disciplinary mastery to the global economy.

The Business Analytics minor prepares students to explore the large datasets all organizations now have to help create effective business decisions.

Majors

- Business Economics (B.S.Bus.) (p. 152)
- Economics (B.A. or B.S.) (p. 153)
- Finance (B.S.Bus.) (p. 154)
- Management Information Systems (B.S.Bus.) (p. 157)
- Management and Human Resources (B.S.Bus.) (p. 155)
- Marketing (B.S.Bus.) (p. 158)
- Operations Management (B.S.Bus.) (p. 159)

Minors

- Business Minor (p. 153)
- Business Analytics Minor (p. 152)
- Economics Minor (p. 153)
- International Business Minor (p. 155)
- Marketing Minor (p. 159)

Certificates

- Entrepreneurship Undergraduate Academic Certificate (p. 154)
- Trading and Capital Management Undergraduate Academic Certificate (p. 160)

Business Graduate Program

- General Management (M.B.A.) (p. 155)

Total Hours		20-24

¹ PGA 385, PGA 386, or PGA 398 can be used to cover the two supporting electives (6 cr).

Courses to total 130 credits for this degree

Students must have a 12.0 handicap or better to enter this program. International students can complete the degree requirements, but membership to the PGA of America requires US Citizenship or Resident Alien status

General Management (M.B.A.)

Master of Business Administration. Major in General Management.

The University of Idaho Executive MBA is ideal for working managers and professionals on an executive track who want to enhance their leadership skills with a quality business degree without interrupting their careers. The two-year program combines the rigor and depth of a traditional MBA with integrated learning and a flexible, work and family friendly format of an executive program.

The Idaho Executive MBA program integrates the learning experience to prepare managers to respond to the challenges and opportunities of real-world management. Using their award-winning, integrated approach to teaching and learning, faculty examine the relevant themes of leadership, sustainability, risk, innovation, and relationship management to build a bridge between academic theory and workplace practice. The integrated program themes create a context for participants as they master the traditional functional areas of accounting, finance, management, marketing, information systems, and operations management.

Typical Idaho Executive MBA Student Profile

- 62% male, 38% female
- 39 years old
- 15 years of work experience
- 9 years of management experience

Idaho Executive MBA at a Glance

Full-time, 22-months and AACSB accredited.

Program Focus

Integrative management with an emphasis on managing and leading organizations.

Cohort Model

Students enter as a group and learn together.

Faculty

College of Business and Economics faculty and other university experts.

Class Location

Coeur d' Alene once a month for three days (Thursday–Saturday)

Program Start

August

Fees

Contact Executive Education in the College of Business for current fee information

MKTG 482	International Marketing	3
POLS 237	Introduction to International Politics	3
Select one of the following courses or another elective approved by the International Business Minor Advisor:		3
ECON 447	International Development Economics	
FLEN 307	Institutions of the European Union	
MHR 418	Managing Organization Design and Leading Changes	
POLS 440	International Organizations & International Law	
Total Hours		18

Foreign language mastery is required equivalent to completion of the introductory and intermediate courses, and an upper-division course in a language. A semester of study and/or internship in another country is recommended. CBE students currently have direct access to academic programs at Växjö University (Sweden), Ecole Supérieure de Commerce de Chambéry (France), Pontifica Universidad Católica del Ecuador, Griffith University (Australia), Fachhochschule fur Technik und Wirtschaft Berlin (Germany), University of Zaragoza (Spain), Haagse Hogeschool (The Netherlands), the Southern Denmark Business School, and the University of Newcastle upon Tyne (United Kingdom). CBE students also have access to programs in Australia, Chile, France, Italy, and Spain through the University Studies Abroad Consortium, and to numerous schools in various countries through the International Student Exchange Program. Internships are developed on an ad hoc basis.

Courses to total 18 credits for this minor

Management and Human Resources (B.S.Bus.)

Required course work includes the university requirements (see regulation J-3 (p. 84)), the college requirements, and:

Code	Title	Hours
College of Business Requirements (p. 148)		54-57
Major Requirements		21-47
Total Hours		75-104

Major Requirements

Code	Title	Hours
MHR 411	Acquiring Human Capital	3
MHR 417	Deploying and Developing Human Capital	3

Courses to total 12 credits for this certificate

COLLEGE OF EDUCATION, HEALTH AND HUMAN SCIENCES

Alison Carr-Chellman, Dean; Allen Kitchel, Associate Dean, (215 Commons Bldg.; 208-885-6772).

Organized as the College of Education in 1920 and renamed in 2017, the College of Education, Health and Human Sciences contains the departments of Curriculum and Instruction, Leadership and Counseling, and Movement Sciences. As represented in the College's name, several programs serving Idaho and beyond are offered at the undergraduate, master, specialist and doctoral levels in teaching and non-teaching fields of study.

Programs leading to degrees in teaching fields are offered in career and technical education, elementary education, physical education, secondary education, and special education. Programs leading to non-teaching degrees include athletic training; adult, organizational learning and leadership; dance; exercise science and health; physical education; recreation, sport, and tourism management; rehabilitation counseling and human services; and recreation. The College also offers certificate programs in Human Resource Development and Technical Workforce Training.

Additionally, the College is home to the TRIO Pre-College programs and the Center on Disabilities and Human Development (CDHD). The education of professional personnel for the public schools constitutes a critical service to the state, its people and to the education profession. The College screens for admission to programs leading to educational service to assure that applicants are qualified by preparation and personal attributes for this important work. Once admitted, the student completes a program in which competence in a broad general education, the professional functions of the teacher, and the subjects and/or skills to be taught are demonstrated and applied in P-12 schools. The College provides educational leadership for the people of Idaho, to the state's education system, and to the teaching profession through consultation, participation in organizational activities, and research. Preparation is provided in all of the major areas of professional education.

Admission Requirements

Admission to the University

For a statement of general undergraduate and graduate admission requirements, see admissions (p. 41) portion of this catalog.

Transfer Students

Students who have attended college, whether at another institution or in another division of the university, before matriculation in the College of Education, Health and Human Sciences must have a grade-point average of 2.00 (C) or better.

Teacher Education Programs

At the University of Idaho, the preparation of teachers is a cooperative enterprise between the College of Education, Health and Human Sciences and other colleges. Coordination is achieved through the Teacher Education Coordinating Committee. The screening of all applicants for admission to Teacher Education Programs is the responsibility of the

College of Education, Health and Human Sciences and the dean of the College of Education is the recommending authority for certification.

Students preparing for a career in secondary teaching have the option of completing their bachelor's degrees in the College of Education, Health and Human Sciences (except for agricultural education, family life education, and music education) or in the department of their subject major.

Secondary education students have an advisor from the College of Education, Health and Human Sciences who is the primary advisor on teacher education requirements. Students should contact their content area for advising on content classes. When a student identifies teacher education as his or her objective (this could be as early as the freshman year and certainly no later than admission to Teacher Education Programs), the education advisor is designated.

Admission to, Continuation in, and Exit from Teacher Education Programs

Prospective teacher education candidates work closely with academic advisors to assure that they meet the criteria for each step in the admission and continuation process.

Admission to Teacher Education Programs

All students who plan to enter degree seeking or certification only teacher education programs must make application for admission to the program. Criteria for admission to teacher education programs include:

1. Initial interview with academic advisor;
2. cumulative grade point average of 2.75 or better;
3. have completed, with a minimum of a C in the following courses: ENGL 102, University of Idaho General Education Mathematics Course, COMM 101 and EDCI 201 (including 20 hours of service-learning or FCS 210 for ECDE students);
4. letter of application;
5. recommendations;
6. completion of background check; and
7. (when enrollment projections exceed departmental resources) a competitive interview.

Continuation in Teacher Education Program

Students seeking to continue in teacher education programs shall not have received more than two negative indicators ("red flags") on all education-coursework Standards and Dispositions evaluations.

Eligibility for Internship Experience

Prospective teachers seeking to enter the internship year must meet the following criteria:

1. cumulative grade-point average of 2.75 or higher;
2. completion of background check,
3. completion of and successfully passing program-area content assessment (e.g. Praxis II),
4. for Elementary Education and Early Childhood Development and Education students only, completion of at least parts I and II of the Idaho Comprehensive Literacy Assessment with passing scores; and
5. recommendation of advisor.

The College of Education, Health and Human Sciences does not permit students enrolled in any student teaching or internship course to concurrently function as head coach in any school sponsored sport

at any grade level, whether paid or voluntary. Students who desire to function as assistant coaches must have written approval of the department chair and the director of clinical experiences (adopted 1996).

Graduate Practicum and Internship in School Positions

Admission

Admission to practicum and internship courses is conditioned upon acceptance in a graduate program and approval of the student's major professor and/or committee.

The Program

Graduate students are provided clinical experience in the study of teaching and learning and in the performance of other school positions through graduate practica and internships (see courses 597 and 598 in the various subject fields in the college).

Teacher Certification

Students who complete a teacher education program at the University of Idaho are eligible to receive the Idaho Standard Instructional Certificate, the Exceptional Child Certificate, or the Career and Technical Certificate.

Students completing a master's degree, education specialist degree, or doctorate in educational administration may qualify for an administrator's certificate. The College of Education, Health and Human Sciences reserves recommendations for initial teacher certification to students who have completed the approved teacher preparation program and hold a bachelor's degree. To initiate the state certification process, contact the Certification Officer.

Certification-Only for Elementary, Secondary, and Special Education

Elementary Education Certification

Students who are seeking certification as an elementary teacher satisfy the requirements for the Idaho Standard Instructional Certificate, endorsed grades K-8, by meeting the general education requirements outlined by the state, completing the professional education core, and by completing the elementary major and internship year.

Secondary Education Certification

Students who are seeking certification while enrolled in an academic major or after completion of a degree normally satisfy the requirements for the Idaho Standard Instructional Certificate by including PSYC 101 or PSYC 305, and the professional education core as electives in their program for the baccalaureate degree, and by completing either:

1. one 45-credit teaching major; or
2. one 30-credit teaching major and one 20-credit teaching minor, as well as the internship experience.

Special Education Certification

Students who are seeking certification as a special education teacher satisfy the requirements for the Idaho Exceptional Child Certificate, endorsed grades K-12, by meeting the general education requirements outlined by the state, completing the professional education core, completing the special education major, and by meeting the requirements for the elementary or secondary education major, and the internship experience.

Certification Checklists

Checklists for the elementary, secondary, and special education certification programs are available through the Department of Curriculum and Instruction; and the Department of Movement Sciences. See the Academic Majors list in this section to locate the appropriate division.

Application for Certification

See procedures listed under Teacher Certification in this section.

Centers and Institutes

Centers and institutes affiliated with the College of Education, Health and Human Sciences support the mission of the College and extend services to the state, region, and nation. Programs offered through the College are enriched and extended as a result of these affiliations. The College of Education, Health and Human Sciences established the Center for Educational Research and Public Service (CERPS) to conduct research, to facilitate research by College of Education, Health and Human Sciences faculty members and graduate students, and to be of assistance to local school districts and other educational units. More recently, additional centers and institutes have been established. They are listed below; additional information about them can be accessed at the college website:

Center for Disabilities and Human Development
Center for Dance
Center for ETHICS
Institute for Mathematics, Instructional Technology, and Science Education
TRIO Programs

General College Requirements for Graduation

University Requirements

See regulation J (p. 84) for requirements that all students in the university must meet. When appropriate, courses listed in J-3 may satisfy both the University requirements and the College requirements.

College Requirements

All candidates for a baccalaureate degree in the College of Education, Health and Human Sciences must complete 120 semester credits, of which at least 36 must be in upper-division courses.

Degrees and Programs Offered

Undergraduate

Baccalaureate degrees offered in the College of Education, Health and Human Sciences are the Bachelor of Science in Education, Bachelor of Science in Dance, Bachelor of Science in Exercise, Sport, and Health Sciences, Bachelor of Science in Recreation, and Bachelor of Science in Technology. See the departmental section for the programs of studies leading to these degrees.

Graduate

The College of Graduate Studies offers work toward advanced degrees in several disciplines of the College of Education, Health and Human Sciences. Students must fulfill the requirements of the College of Graduate Studies and of the division in which they intend to study.

Consult the College of Graduate Studies (p. 221) section for further information.

Upon the completion of the appropriate programs of study, the following degrees are conferred: Master of Education, Master of Science, Doctor of Athletic Training, Education Specialist in Educational Leadership, Education Specialist, Doctor of Education, and Doctor of Philosophy.

Programs at the master's level are offered in adult/organizational learning and leadership; athletic training, career and technical education; curriculum and instruction; educational leadership; movement and leisure science; physical education; recreation; rehabilitation counseling and human services, curriculum and instruction, educational leadership, physical education, recreation, special education, and professional-technical and technology education.

Doctoral candidates majoring in education may concentrate in the following programs through the departments in the College: adult/organizational learning and leadership, career and technical education, counseling and human services, education, educational leadership, exercise science, healthy active lifestyles, higher education, curriculum and instruction, or special education. Students interested in pursuing a doctoral program must meet both the admission requirements from the College of Graduate Studies and the doctoral admission requirement from the College of Education, Health and Human Sciences. See the College of Graduate Studies (<http://www.uidaho.edu/cogs>) and College of Education, Health and Human Sciences (<http://www.uidaho.edu/ed>) web pages for specific requirements and timelines.

Major Curricula

Students in the College of Education, Health and Human Sciences must complete a major curriculum that leads to a degree granted by the College. These major curricula (with the degree goal identified) are listed in the individual department sections of this Catalog (see Departments of Curriculum and Instruction, Leadership and Counseling, and Movement Sciences).

Careful distinction should be made between a student's "academic major" and any additional "teaching majors" or "teaching minors" leading to certification.

Academic Majors Leading to Teacher Certification

Ag Education (B.S.Ag.Ed.) – Department of Agricultural and Extension Education (p. 102)

Elementary Education (B.S.Ed.) – Department of Curriculum and Instruction (p. 164)

Exercise, Sport, and Health Sciences (B.S.E.S.H.S.) – Department of Movement Sciences (p. 183)

- Physical Education Teacher Certification Track

Music Education (B.Mus.) – Lionel Hampton School of Music (p. 261)

Career and Technical Education (B.S.Ed.) - Department of Curriculum and Instruction (p. 164)

- Business and Marketing Education Option
- Occupational Education Option
- Engineering & Technology Education Option

Secondary Education (B.S.Ed.) – Department of Curriculum and Instruction (p. 164) (see list below)

Teaching Majors and Minors

Accreditation and Program Approval

The College of Education, Health and Human Sciences is accredited by several national organizations including the National Council for the Accreditation of Teacher Education (NCATE/CAEP) for educator preparation, Commission on Accreditation of Athletic Training Education (CAATE) for Athletic Training, Council on Accreditation of Parks, Recreation, Tourism and Related Professions (COAPRT) for Recreation, the Council for Accreditation of Counseling and Related Educational Programs (CACREP) for Rehabilitation Counseling, and the Idaho Professional Standards Commission for our ability to offer endorsement recommendations for Idaho teachers. In addition, the College is also active in supporting the University's accreditation by the Northwest Commission on Colleges and Universities.

Department of Curriculum and Instruction

The Department of Curriculum and Instruction includes teacher preparation programs for elementary education, secondary education, special education and graduate programs in curriculum and instruction and special education.

The professional degree majors in curriculum and instruction provide knowledge, skills, and experiences to enable teachers to work effectively with K-12 students and schools. Students benefit from collaborative relationships and experience with partner schools and agencies.

Pre-service teaching degree majors are offered in elementary education, and secondary education (B.S.Ed.). A fifth-year program is offered in Special Education. Students should consult an advisor concerning requirements for degree and/or certification.

Master's degrees are offered in curriculum and instruction and special education (M.Ed.). The doctorate is available in education (Ed.D., Ph.D.) with specializations in curriculum and instruction or special education with emphases in autism and developmental disabilities.

Elementary and Secondary Teacher Education

These programs include the university core curriculum, professional education core curriculum and program content courses. Secondary students select teaching majors and minors from subjects currently taught in secondary schools such as English, social studies, sciences, mathematics, art, and foreign languages. Elementary students receive a B.S.Ed. degree; secondary students may earn a B.S.Ed. degree through the College of Education, Health and Human Sciences, Health and Human Sciences or a B.A. or B.S. degree through the department and college administering the academic major.

Early and continuous field experiences are a hallmark of the teacher preparation program, which culminates in a semester-long professional experience. Program goals include

1. recruitment and retention of high quality students through rigorous admission, continuation, and exit criteria,
2. preparation of teachers in a standards driven, integrated, and field-based program,
3. completion of the Internship semester, and

4. engagement in continuing professional development for students, teachers, and university faculty to improve K-12 student performance.

Special Education Teacher Education

The 5th Year Special Education Program offers a unique program culminating in an undergraduate degree and recommendation for certification in either elementary or secondary education plus a Master's Degree and recommendation for K-12 certification in special education. It is designed for students who want to become teachers in Special Education and general education.

Graduate Education/Curriculum and Instruction

The program provides advanced professional and foundational courses that support graduate study in the College of Education, Health and Human Sciences. Graduate programs in curriculum and instruction with an emphasis in teacher education include

1. Master of Education in curriculum and instruction; and
2. doctoral degree programs (either Doctor of Education or Doctor of Philosophy) with emphases in curriculum and instruction.

Graduate Education/Special Education

The program provides advanced professional and foundational courses that support graduate study in the College of Education, Health and Human Sciences. Graduate programs in special education include

1. Master of Education in special education; and
2. doctoral degree programs (either Doctor of Education or Doctor of Philosophy) with emphases in special education.

Persons interested in doctoral work in the College of Education, Health and Human Sciences should apply to the program through the College of Graduate Studies. Admission requirements for the doctoral program include:

1. a minimum grade-point average of 3.0 in undergraduate preparation,
2. a minimum grade-point average of 3.50 at the master's degree level or its equivalent,
3. the completion of the Graduate Record Examinations (GRE), and
4. letters of recommendation. Exceptions to the criteria may be made when documented by the Graduate Review Committee.

The professional degree majors in Career and Technical Education provide the opportunity and relevant skills, knowledge, and dispositions to enable teachers, administrators, and business and industry personnel to work effectively with today's organizations, youth, and adults. Learners benefit from the realistic relationships between course experiences and work required by educational institutions, business, industry, agriculture, and family life.

Preservice teaching degree majors are offered in: Career and Technical Education (CTE) with options in Business and Marketing Education, Engineering & Technology Education, and Occupational Education in the College of Education, Health and Human Sciences. (See Admission to Teacher Education Programs (p. 161).)

For all undergraduate teaching degrees listed below the student should consult an advisor concerning state requirements for the career-technical education certificate.

Business and Marketing Education

The business and marketing education option is for students interested in teaching business, marketing and business technology subjects at the high school or post-secondary level. Completers of this option qualify for an Idaho secondary teaching certificate (6-12) in business technology education, marketing technology education, and usually economics (based on selected electives).

Career-technical Education

Career-technical education option is designed primarily for teachers in area career-technical schools and secondary trade and industry programs who do not hold degrees. It does not qualify one for teaching in a public K-12 system unless a person also holds a secondary endorsement or an occupational specialist certificate.

Career-technical Certification

In collaboration with the Idaho State Division of career-technical Education, sequential inservice undergraduate career-technical education degree courses, as well as selected graduate career-technical courses, are offered each semester at area professional/technical schools located at Coeur d'Alene, Lewiston, Boise, and Twin Falls.

Technology Education

The Technology Education option is designed for students interested in teaching technical subjects related to construction technology, communications technology, electronics, engineering, manufacturing, production and other technology related subjects. It is a 2+2 program, meaning graduates from technical and community colleges with an associates degree in a technical/science area can be admitted and complete the program in two full years. Graduates of this option qualify for an Idaho secondary teaching certificate in technology education (grades 6-12).

Majors

- Early Childhood Development and Education (B.S.Early.Chldhd.Dev.Ed.) Coursework will prepare students to be recommended for Idaho Early Childhood Education/Early Childhood Special Education (ECE/ECSE) Blended Teacher Certification. Students will be certified to teach children birth through grade three.

For information on an undergraduate major in Early Childhood Development and Education, see the School of Family and Consumer Sciences (p. 112) section.

- Elementary Education (B.S.Ed.) (p. 168)
- Secondary Education (B.S.Ed.) (p. 168)
- Career and Technical Education (B.S.Ed.) (p. 165)

Curriculum and Instruction Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Curriculum and Instruction. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Curriculum and Instruction (M.Ed.) (p. 167)
- Special Education (M.Ed.) (p. 169)

- Curriculum and Instruction (Ed.S.) (p. 167)
- Education (Ed.D.) (p. 168)
- Education (Ph.D.) (p. 168)
- Teacher Certification and Professional Development (p. 170)

Career and Technical Education (B.S.Ed.)

Required course work includes the university requirements (see regulation J-3 (p.)) and the following:

Code	Title	Hours
General Professional-Technical and Technology Education Requirements		
CTE 351	Principles and Philosophy of Career and Technical Education	3
CTE 430	Leadership and Student Organizations	2
CTE 431	Supervising CTE Career and Technical Student Organizations	1-3
CTE 464	Career Guidance and Transitioning to Work	3
Options		
Select one of the following options:		
Business and Marketing Education (p. 165)		
Workforce Training and Development (p. 166)		
Engineering and Technology Education (p. 166)		
Total Hours		9-11

A. Business and Marketing Education Option

The Business and Marketing Education option is for students interested in teaching business, marketing, and business technology subjects at the high school or post-secondary level. Completers of this option may apply for Idaho secondary teacher certification with endorsements in business technology, marketing technology, and usually economics (based on selected electives).

Requirements include the General Career and Technical Education Requirements, the satisfactory completion of the PRAXIS II Content Area Exam, and the following:

Code	Title	Hours
ACCT 201	Introduction to Financial Accounting	3
ACCT 202	Introduction to Managerial Accounting	3
BLAW 265	Legal Environment of Business	3
BUS 190	Integrated Business and Value Creation	3
COMM 101	Fundamentals of Public Speaking	2
CTE 413	Retail Merchandising for Marketing Education	3
CTE 415	Microcomputer Applications	3
or CTE 419	Database Applications and Information Management	
CTE 416	Website Design and Development	3
or CTE 460	Desktop Publishing	
CTE 418	Teaching Economics and Personal Finance	3
CTE 484	Internship in Career and Technical Education Teaching	10
CTE 492	Business and Marketing Education Methods	3

CTE 495	Administrative Technology Management and Procedures	3
ECON 201	Principles of Macroeconomics	3
ECON 202	Principles of Microeconomics	3
EDCI 201	Contexts of Education	3
EDCI 301	Lrng, Dvlpmnt, & Assessment	3
EDCI 401	Internship Seminar	1
EDCI 410	Technology, Teaching and Learning	2
EDCI 463	Literacy Methods for Content Learning	3
EDSP 300	Educating for Exceptionalities	3
ENGL 313	Business Writing	3
FCS 448	Consumer Economic Issues	3
MATH 143	Pre-calculus Algebra and Analytic Geometry ¹	3
or STAT 251	Statistical Methods	
MHR 310	Leading Organizations and People ¹	3
or MHR 311	Introduction to Management	
MKTG 321	Marketing	3
PSYC 101	Introduction to Psychology	3
or PSYC 305	Developmental Psychology	
Select 6 credits of Accounting, Business, Economics or CTE electives		6
Total Hours		87

¹ This mathematics elective is in addition to the General Education Mathematics requirements. Students must complete a total of 6 credits.

Courses to total 128 credits for this degree

Note: Students interesting in obtaining a teaching endorsement in Economics need to ensure that 3 credits of the designated elective credits are in economics, finance or accounting, see an advisor for details.

B. Workforce Training and Development Option

This option is designed for those teachers in secondary trade and industrial programs who wish to teach in post-secondary professional-technical programs. Requirements include the General Career and Technical Education Requirements and the following:

Code	Title	Hours
CTE 420	Assessment in Contextual Learning Environments	3
CTE 426	Occupational Analysis and Curriculum Development	3
CTE 447	Diverse Populations and Individual Differences (Max 3 credits)	2-3
CTE 472	Teaching and Learning in Organizations	3
Select one approved course in computer literacy		3
Professional-technical electives approved by advisor to total 128		
CTE 200	Seminar	
CTE 203	Workshop	
CTE 204	Special Topics	
CTE 299	Directed Study	
CTE 400	Seminar	
CTE 403	Workshop	
CTE 404	Special Topics	
CTE 418	Teaching Economics and Personal Finance	

CTE 499	Directed Study	
Additional requirements for Secondary Teaching Certificate include the following: ¹		
COMM 101	Fundamentals of Public Speaking	2
EDCI 201	Contexts of Education	3
EDCI 301	Lrng, Dvlpmnt, & Assessment	3
EDCI 302	Teaching Culturally Diverse Learners	4
EDCI 401	Internship Seminar	1
EDCI 463	Literacy Methods for Content Learning	3
EDSP 300	Educating for Exceptionalities	3
EDCI 485	Secondary Internship	10-15
or CTE 484	Internship in Career and Technical Education Teaching	
PSYC 101	Introduction to Psychology	3
or PSYC 305	Developmental Psychology	
Total Hours		46-52

¹ Additional requirements for CTE Occupational Education students seeking an Idaho Secondary Teaching Certificate include the satisfactory completion of the PRAXIS II Content Area Test, and COMM 101.

Courses to total 128 credits for this degree

C. Engineering and Technology Education Option

Requirements include the General Career and Technical Education Requirements, the satisfactory completion of the PRAXIS II Content Area Exam, and the following:

Code	Title	Hours
ASM 107	Beginning Welding	2
ASM 202	Agricultural Shop Practices	2
COMM 101	Fundamentals of Public Speaking	2
CTE 130	Introduction to Electricity and Electronics	3
CTE 267	Computer Aided Drafting/Design	3
CTE 310	Lab Safety, Mgnt, & Liability	3
CTE 353	Manufacturing Systems	3
CTE 354	Construction Technology	3
CTE 370	Transportation & Engineering Technologies	3
CTE 410	Technology & Society	3

CTE 472	Teaching and Learning in Organizations	
FCS 461	Methods & Strategies in FCS Education	
Total Hours		46-52

Courses to total 120 credits for this degree

Curriculum and Instruction (Ed.S.) Education Specialist. Major in Curriculum and Instruction.

General Ed.S. requirements apply. A Career and Technical Education emphasis is available by completing the following requirements:

Code	Title	Hours
CTE 430	Leadership and Student Organizations	2
CTE 431	Supervising CTE Career and Technical Student Organizations (Max 3 credits)	1-3
CTE 464	Career Guidance and Transitioning to Work	3
CTE 551	Principles and Philosophy of Career and Technical Education	3
Select one of the following:		3
AOLL 573	Adult Learners: Foundations and Characteristics	
AOLL 574	Adult and Transformational Learning	
AOLL 575	Strategies for Facilitating Adult Learning	
CTE electives to total 24 credits		10-12
Total Hours		22-26

Note: There are additional requirements for obtaining a CTE teaching credential at the secondary and post-secondary levels in the state of Idaho. See a CTE advisor for details.

Courses to total 24 credits

Curriculum and Instruction (M.Ed.) Master of Education. Major in Curriculum and Instruction.

Students completing a master's degree in Curriculum & Instruction must satisfy a minimum of 30 credit hours. Programs of study are customized for each student, and usually include the following EDCI core courses¹ (15 credit hours), and must include the required variable credit Non-Thesis Master's Research project:

Code	Title	Hours
EDCI 511	Planning and Administering the Curriculum	3
EDCI 513	History of Educational Thought	3
EDCI 524	Models of Teaching	3
EDCI 570	Introduction to Research in Curriculum and Instruction	3
EDCI 572	Measurement and Evaluation	3
EDCI 599	Non-thesis Master's Research	2-5
Total Hours		17-20

Note: The core courses are offered at least once during the Fall or Spring semester. All core courses are offered in the summer.

Career and Technical Education Emphasis

General M.Ed. requirements apply. A Career and Technical Education emphasis is available by completing the following requirements:

Code	Title	Hours
CTE 430	Leadership and Student Organizations	2
CTE 431	Supervising CTE Career and Technical Student Organizations	1-3
CTE 464	Career Guidance and Transitioning to Work	3
CTE 551	Principles and Philosophy of Career and Technical Education	3
Select one of the following:		3
AOLL 573	Adult Learners: Foundations and Characteristics	
AOLL 574	Adult and Transformational Learning	

AOLL 575	Strategies for Facilitating Adult Learning
CTE 447	Diverse Populations and Individual Differences
Total Hours	12-14

Note: There are additional requirements for obtaining a CTE teaching credential at the secondary and post-secondary levels in the state of Idaho. See a CTE advisor for details.

Teacher Certification Emphasis

An emphasis leading to secondary teacher certification is available following demonstration of mastery of a secondary school content area and the following:

Code	Title	Hours
EDSP 300	Educating for Exceptionalities	3
EDCI 401	Internship Seminar	1
EDCI 511	Planning and Administering the Curriculum	3
EDCI 513	History of Educational Thought	3
EDCI 524	Models of Teaching	3
EDCI 563	Literacy Methods for Content Learning	3
EDCI 570	Introduction to Research in Curriculum and Instruction	3
EDCI 572	Measurement and Evaluation	3
EDCI 598	Internship	1-16
Content-Specific Methods Course		3
Content-Specific Methods Practicum		1
Total Hours		27-42

Note: There are additional requirements for obtaining a CTE teaching credential at the secondary and post-secondary levels in the state of Idaho. See a CTE advisor for details.

Education (Ed.D.)

Doctor of Education. Major in Education.

The Ed.D. degrees in this field is offered through the College of Education (p. 161).

Education (Ph.D.)

Doctor of Philosophy. Major in Education.

The Ph.D. degrees in this field is offered through the College of Education (p. 161).

Elementary Education (B.S.Ed.)

Required course work includes the university requirements (see regulation J-3 (p.)), successful completion of Praxis II test, the Idaho Comprehensive Literacy Assessment parts 1 and 2 prior to the internship, and completion of requirements for a subject area endorsement as outlined by the Idaho State Board of Education requirements for a Standard Secondary Certificate. Maintain at least a grade of C in the following course requirements:

Code	Title	Hours
COMM 101	Fundamentals of Public Speaking	2
EDCI 201	Contexts of Education	3
EDCI 301	Lrng, Dvlpmnt, & Assessment	3

	Total Hours	49

Courses to total 128 credits for this degree

Special Education (M.Ed.) Master of Education. Major in Special Education.

Special Education is a unique program culminating in an undergraduate B.S.Ed. degree and recommendation for certification in either elementary or secondary education plus an Master of Education (M.Ed.) Degree and recommendation for the Standard Exceptional Child Certificate with a Generalist K-12 Endorsement. It is designed for students who want to become teachers in Special Education and general education.

Students must complete all requirements for a B.S.Ed in elementary or secondary education, and successfully complete with a "C" or better these prerequisites:

Code	Title	Hours
EDSP 300	Educating for Exceptionalities	3
EDSP 325	Classroom Applications of Learning Theories	2
EDSP 350	Language and Communication Development and Disorders	3
MTHE 235	Mathematics for Elementary Teachers I	3
	Total Hours	11

Students must be admitted to the Special Education Masters Program through the College of Graduate Studies.

Students must also pass all three tests on the Idaho Comprehensive Literacy Assessment (ICLA) and the Praxis II Assessment in Special Education (10542 and 20353) and Elementary Education (10014) prior to beginning their special education internship.

Students will qualify for a Master of Education with a major in Special Education and an institutional recommendation for special education certification which will qualify the graduate for the Exceptional Child Certificate and Generalist K-12 Endorsement when they successfully complete the following coursework:

Code	Title	Hours
EDCI 570	Introduction to Research in Curriculum and Instruction	3
EDSP 423	Collaboration	3
EDSP 425	Evaluation of Children and Youth	3
EDSP 426	Developing Instructional Programs	3
EDSP 522	Advanced Evaluation Techniques	2
EDSP 540	Behavioral Analysis for Children and Youth	3
EDSP 548	Special Education Curriculum	3
EDSP 549	Language, Communication, and Social/Emotional Enhancement	3
EDSP 597	Practicum	1-16
EDSP 599	Non-thesis Master's Research	1-16

Additional Reading Requirement

EDCI 463	Literacy Methods for Content Learning (For students with B.S.Ed. Elementary Education)
EDCI 320	Teaching Reading and Literacy (For students with B.S.Ed. Secondary Education)
Total Hours	25-55

Teacher Certification and Professional Development

A person who holds a bachelor's degree and wishes to earn an early childhood development and education, elementary education, secondary education teaching certificate should talk to the chair of the Department of Curriculum and Instruction about entry into the certification and/or degree programs.

Teaching Majors and Minors

One option required from the following:

- One 45-credit teaching major
- One 30-credit teaching major and one 20-credit teaching minor

The various teaching majors and teaching minors required to accompany several of the curricula are outlined below. Because the College of Education reserves the right to approve or disapprove the content of all proposed majors and minors, students should confer closely with their college advisors and with advisors in the academic department concerned in the selection of these courses.

- Art (p. 170)
- Basic Mathematics (p. 171)
- Biological Sciences (p. 171)
- Business Education (p. 171)
- Chemistry (p. 172)
- Earth Science (p. 172)
- Economics (p. 173)
- Engineering and Technology Education (p. 173)
- English (p. 173)
- English as a New Language (p. 174)
- Exceptional Child Generalist Teaching Major (p. 174)
- French (p. 175)
- Geography (p. 175)
- German (p. 175)
- Health Education (p. 176)
- History (p. 176)
- Library Science (p. 177)
- Mathematics (p. 177)
- Music Education (p. 178)
- Online Teaching (p. 178)
- Physical Education (p. 178)
- Physical Sciences (p. 178)
- Physics (p. 179)
- Political Science (p. 179)
- Social Science (p. 180)
- Spanish (p. 180)
- Technical Workforce Training Undergraduate Academic Certificate (p. 181)

Art

An academic major in Art Education is also offered in the major curriculum leading to the degree of B.S.Art Ed. (see Art and Architecture (p. 135) in the departmental section of this catalog).

A. 45-Credit Art Teaching Major

Code	Title	Hours
ART 100	World Art and Culture	3
ART 110	Integrated Art and Design Communication	2
ART 111	Drawing I	2
ART 112	Drawing as Integrated Design Thinking	2
ART 121	Integrated Design Process	2
ART 122	Art & Design Process	3
Select 18 credits from the following:		18
ART 211	Life Drawing	
ART 221	Introduction to Graphic Design	
ART 231	Painting I	
ART 241	Sculpture I	
ART 251	Printmaking I	
ART 261	Ceramics I	
ART 271	Interaction Design I	
ART 280	Understanding Photography	
Select two art studio courses from the following:		6
ART 321	Graphic Design: Concepts	
ART 330	Intermediate/Advanced Painting	
ART 340	Intermediate/Advanced Sculpture	
ART 350	Intermediate/Advanced Printmaking	
ART 370	Intermediate/Advanced Interaction + Experiential Design	
ART 390	Mixed Media	
Select two courses in Art History, any period		6
The following special methods sequence is also required:		
EDCI 436	Secondary Art Methods	3
EDCI 446	Secondary Art Methods Practicum	1
Total Hours		48

B. 20-Credit Art Teaching Minor

Code	Title	Hours
ART 100	World Art and Culture	3
ART 110	Integrated Art and Design Communication	2
ART 111	Drawing I	2
ART 112	Drawing as Integrated Design Thinking	2
ART 121	Integrated Design Process	2
ART 122	Art & Design Process	3
Select courses from the following:		6
ART 221	Introduction to Graphic Design	
ART 231	Painting I	
ART 241	Sculpture I	
ART 251	Printmaking I	
ART 261	Ceramics I	
ART 271	Interaction Design I	
ART 280	Understanding Photography	

or ART 321	Graphic Design: Concepts	
ART 330	Intermediate/Advanced Painting (Max 12 credits)	
ART 340	Intermediate/Advanced Sculpture (Max 9 credits)	
ART 350	Intermediate/Advanced Printmaking (Max 12 credits)	
ART 370	Intermediate/Advanced Interaction + Experiential Design (Max 9 credits)	
ART 390	Mixed Media (Max 12 credits)	
Secondary candidates only:		
EDCI 325	Elementary Art Education	
Candidates must also complete the following methods courses:		
EDCI 325	Elementary Art Education	3
EDCI 436	Secondary Art Methods	3
EDCI 446	Secondary Art Methods Practicum	1
Total Hours		27

Basic Mathematics

Basic Mathematics Teaching Minor (21 cr)

Code	Title	Hours
EDCI 411	Geometry, Measurement, and Trigonometry	3
EDCI 413	Data Analysis and Probability	3
EDCI 416	Proportional and Algebraic Reasoning	3
MTHE 409	Algebraic and Functional Reasoning	3
MTHE 410	Proof and Viable Argumentation	3
Select one of the following two options:		6
Elementary Teacher Candidates:		
MTHE 235	Mathematics for Elementary Teachers I	
MTHE 236	Mathematics for Elementary Teachers II	
Secondary Teacher Candidates:		
Advisor approved electives		
Total Hours		21

Biological Sciences

Note: MATH 143 is a prerequisite to required physics courses. To graduate in this program, students must earn a minimum grade of C in BIOL 114 and BIOL 115 and must have a minimum gpa of 2.40 in BIOL 114, BIOL 115, BIOL 213, BIOL 310, and BIOL 312.

A. 45-Credit Composite Teaching Major

Code	Title	Hours
Special Methods Sequence:		
EDCI 433	Secondary Science Methods	3
EDCI 443	Secondary Science Methods Practicum	1
BIOL 114	Organisms and Environments	4
BIOL 115 & 115L	Cells & the Evolution of Life and Cells and the Evolution of Life Laboratory	4
BIOL 213	Principles of Biological Structure and Function	4
BIOL 310 & BIOL 315	Genetics and Genetics Lab	4
BIOL 312	Molecular and Cellular Biology	3
BIOL 313	Molecular and Cellular Laboratory	1
BIOL 314	Ecology and Population Biology	4

BIOL 421	Advanced Evolution/Population Dynamics	3
CHEM 101	Introduction to Chemistry	3
or CHEM 111	Principles of Chemistry I	
CHEM 101L	Introduction to Chemistry Laboratory	1
or CHEM 111L	Principles of Chemistry I Laboratory	
CHEM 275	Carbon Compounds	3
or CHEM 277	Organic Chemistry I	
PHYS 111 & 111L	General Physics I and General Physics I Lab	4
PHYS 112 & 112L	General Physics II and General Physics II Lab	4
Select 3-4 credits of electives ¹		3-4
Total Hours		49-50

¹ See list of electives for the Biology major (p. 321) in the Department of Biological Sciences (p. 321).

B. 24-Credit Composite Teaching Minor

Code	Title	Hours
BIOL 114	Organisms and Environments	4
BIOL 115 & 115L	Cells & the Evolution of Life and Cells and the Evolution of Life Laboratory	4
BIOL 213	Principles of Biological Structure and Function	4
BIOL 310 & BIOL 315	Genetics and Genetics Lab	4
BIOL 312	Molecular and Cellular Biology	3
BIOL 313	Molecular and Cellular Laboratory	1
BIOL 314	Ecology and Population Biology	4
Total Hours		24

Business Education

24 to 27-Credit Business Education Teaching Minor

Code	Title	Hours
ACCT 201	Introduction to Financial Accounting	3
or ACCT 202	Introduction to Managerial Accounting	
CTE 415	Microcomputer Applications	3
CTE 430	Leadership and Student Organizations	2
CTE 431	Supervising CTE Career and Technical Student Organizations	1-3
CTE 492	Business and Marketing Education Methods	3
CTE 495	Administrative Technology Management and Procedures	3
FCS 448	Consumer Economic Issues	3
MHR 311	Introduction to Management	3
or MKTG 321	Marketing	
Select one of the following:		3-4
ECON 201	Principles of Macroeconomics	
ECON 202	Principles of Microeconomics	
ECON 272	Foundations of Economic Analysis	
Total Hours		24-27

Note: This minor will not meet professional-technical certification requirements, but will enable the student to apply for a provisional professional-technical certificate.

Other required courses for professional-technical certification include:

Code	Title	Hours
CTE 351	Principles and Philosophy of Career and Technical Education	3
CTE 464	Career Guidance and Transitioning to Work	3

Chemistry

Note: See the physics and mathematics prerequisites for the chemistry courses listed below.

A. 45-Credit Chemistry Teaching Major

Code	Title	Hours
BIOL 114	Organisms and Environments	4
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
CHEM 112	Principles of Chemistry II	4
CHEM 112L	Principles of Chemistry II Laboratory	1
CHEM 253	Quantitative Analysis	3
CHEM 254	Quantitative Analysis: Lab	2
CHEM 302	Principles of Physical Chemistry	3
CHEM 303	Principles of Physical Chemistry Lab	1
MATH 170	Analytic Geometry and Calculus I	4
PHYS 111	General Physics I	3
PHYS 111L	General Physics I Lab	1
PHYS 112	General Physics II	3
PHYS 112L	General Physics II Lab	1
Select one Chemistry Elective		3
Select one of the following groups:		8-10
Group A:		
BIOL 380 & BIOL 382	Biochemistry I and Biochemistry I Laboratory	
CHEM 275 & CHEM 276	Carbon Compounds and Carbon Compounds Lab	
Group B:		
CHEM 277 & CHEM 278	Organic Chemistry I and Organic Chemistry I: Lab	
CHEM 372 & CHEM 374	Organic Chemistry II and Organic Chemistry II: Lab	
In addition to the above, the following special methods sequence is also required:		
EDCI 433	Secondary Science Methods	3
EDCI 443	Secondary Science Methods Practicum	1
Total Hours		49-51

B. 21-Credit Chemistry Teaching Minor

Code	Title	Hours
BIOL 380	Biochemistry I	4
CHEM 111	Principles of Chemistry I	3

CHEM 111L	Principles of Chemistry I Laboratory	1
CHEM 112	Principles of Chemistry II	4
CHEM 112L	Principles of Chemistry II Laboratory	1
CHEM 275	Carbon Compounds	3
CHEM 276	Carbon Compounds Lab	1
CHEM 302	Principles of Physical Chemistry	3
CHEM 303	Principles of Physical Chemistry Lab	1
Total Hours		21

Earth Science

Due to extensive course overlap, earth science majors may NOT select geology as a teaching minor.

45-Earth Science Teaching Major

Completion of the Earth Science Teaching Major involves completion of the following required courses and three or more advisor-approved elective courses to total 45 credits.

Code	Title	Hours
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
GEOG 301	Meteorology	3
GEOG 313	Global Climate Change	3
GEOL 102	Historical Geology	3
GEOL 102L	Historical Geology Lab	1
GEOL 309	Ground Water Hydrology	3
GEOL 324	Principles of Stratigraphy and Sedimentation	4
GEOL 335	Geomorphology	3
PHYS 103	General Astronomy	3
PHYS 104	Astronomy Lab	1
PHYS 111	General Physics I	3
PHYS 111L	General Physics I Lab	1
Select one of the following:		4
GEOL 101 & 101L	Physical Geology and Physical Geology Lab	
GEOL 111 & 111L	Physical Geology for Science Majors and Physical Geology for Science Majors Lab	
Select 9 credits of Advisor Approved Science electives:		9
GEOL 212	Principles of Paleontology	
GEOL 249	Mineralogy and Optical Mineralogy	
GEOL 290	Field Geology Methods	
GEOL 326	Igneous and Metamorphic Petrology	
GEOL 344	Earthquakes and Seismic Hazards	
GEOL 345	Structural Geology	
GEOL 361	Geology and the Environment	
GEOL 410	Techniques of Groundwater Study	
GEOL 423	Principles of Geochemistry	
Total Hours		45

21-22-Credit Earth Science Teaching Minor

Code	Title	Hours
GEOG 301	Meteorology	3
GEOL 102	Historical Geology	3
GEOL 102L	Historical Geology Lab	1
GEOL 335	Geomorphology	3
PHYS 103	General Astronomy	3
PHYS 104	Astronomy Lab	1
Select one of the following:		4
GEOL 101 & 101L	Physical Geology and Physical Geology Lab	
GEOL 111 & 111L	Physical Geology for Science Majors and Physical Geology for Science Majors Lab	
Select one of the following:		3-4
GEOL 212	Principles of Paleontology	
GEOL 249	Mineralogy and Optical Mineralogy	
GEOL 290	Field Geology Methods	
GEOL 324	Principles of Stratigraphy and Sedimentation	
GEOL 326	Igneous and Metamorphic Petrology	
GEOL 344	Earthquakes and Seismic Hazards	
GEOL 345	Structural Geology	
GEOL 361	Geology and the Environment	
GEOL 410	Techniques of Groundwater Study	
GEOL 422	Principles of Geophysics	
GEOL 423	Principles of Geochemistry	
Total Hours		21-22

Economics

A teaching major in economics is not offered.

20-Credit Economics Teaching Minor

Code	Title	Hours
ECON 201	Principles of Macroeconomics	3
ECON 202	Principles of Microeconomics	3
CTE 418	Teaching Economics and Personal Finance	3
FCS 448	Consumer Economic Issues	3
Select Additional upper-division credits in Economics in one of the following areas:		8
Agriculture Science and Technology		
Accounting		
Business Education		
Economics		
Family and Consumer Science		
Finance		
Marketing Education		
Total Hours		20

Engineering and Technology Education

31-Credit Engineering and Technology Education Teaching Minor

For certification to teach technology education, a teaching minor must contain at least 20 credits distributed among and including each of the areas of communication technology; manufacturing technology; computer applications; power, energy & transportation; construction technology; principles of technology; and electronics technology.

Code	Title	Hours
CTE 130	Introduction to Electricity and Electronics	3
CTE 267	Computer Aided Drafting/Design	3
CTE 352	Manufacturing: Metallic Materials and Processes	3
CTE 354	Construction Technology	3
CTE 370	Transportation & Engineering Technologies	3
CTE 462	Communication Technology	3
Other required courses for professional-technical certification include:		
CTE 351	Principles and Philosophy of Career and Technical Education	3
CTE 447	Diverse Populations and Individual Differences	2-3
CTE 464	Career Guidance and Transitioning to Work	3
CTE Electives to total 31 credits		4-5
Total Hours		30-32

English

A. 46-Credit English Teaching Major

Code	Title	Hours
ENGL 175	Introduction to Literary Genres	3
or ENGL 215	Introduction to English Studies	
ENGL 201	English Grammar: Key Concepts and Terms	1
ENGL 241	Intro to the Study of Language	3
ENGL 309	Rhetorical Style	3
ENGL 341	Survey of British Literature	3
or ENGL 342	Survey of British Literature	
ENGL 343	Survey of American Literature	3
ENGL 344	Survey of American Literature	3
ENGL 345	Shakespeare	3
ENGL 401	Writing Workshop for Teachers	3
ENGL 445	Literature for Adolescents (or one 400-Level English Literature Course)	3
ENGL 442	Introduction to Morphology and Syntax	3
ENGL 496	History of the English Language	3
Select two 400-level English area courses		6
Select one of the following:		3
ENGL 208	Personal & Exploratory Writing	
ENGL 291	Beginning Poetry Writing	
ENGL 292	Beginning Fiction Writing	
ENGL 293	Beginning Nonfiction Writing	
Select one literature course focusing on multicultural literature:		3

ENGL 380	Introduction to U.S. Ethnic Literatures	
ENGL 481	Women's Literature	
ENGL 482	Major Authors	
ENGL 483	African American Literature	
ENGL 484	American Indian Literature	
ENGL 485	Global Literatures in English	
In addition, the following special methods sequence is also required		
EDCI 431	Secondary English Methods	3
EDCI 441	Secondary English Practicum	1
Total Hours		50

B. 34-Credit English Teaching Major

Code	Title	Hours
ENGL 175	Introduction to Literary Genres	3
or ENGL 215	Introduction to English Studies	
ENGL 201	English Grammar: Key Concepts and Terms	1
ENGL 241	Intro to the Study of Language	3
ENGL 309	Rhetorical Style	3
ENGL 341	Survey of British Literature	3
or ENGL 342	Survey of British Literature	
ENGL 343	Survey of American Literature	3
ENGL 344	Survey of American Literature	3
ENGL 345	Shakespeare	3
ENGL 401	Writing Workshop for Teachers	3
ENGL 442	Introduction to Morphology and Syntax	3
or ENGL 496	History of the English Language	
ENGL 445	Literature for Adolescents (or one 400-level English Literature course)	3
Select one literature course focusing on multicultural literature:		3
ENGL 380	Introduction to U.S. Ethnic Literatures	
ENGL 481	Women's Literature	
ENGL 482	Major Authors	
ENGL 483	African American Literature	
ENGL 484	American Indian Literature (Max 6 credits)	
or ENGL 485	Global Literatures in English	
In addition, the following special methods sequence is also required:		
EDCI 431	Secondary English Methods	3
EDCI 441	Secondary English Practicum	1
Total Hours		38

C. 22-Credit English Teaching Minor

Code	Title	Hours
ENGL 175	Introduction to Literary Genres	3
or ENGL 215	Introduction to English Studies	
ENGL 201	English Grammar: Key Concepts and Terms	1
ENGL 241	Intro to the Study of Language	3
ENGL 309	Rhetorical Style	3
ENGL 401	Writing Workshop for Teachers	3
ENGL 343	Survey of American Literature ¹	3
or ENGL 344	Survey of American Literature	
ENGL 341	Survey of British Literature ¹	3
or ENGL 342	Survey of British Literature	

Select one literature course focusing on multicultural literature:		3
ENGL 380	Introduction to U.S. Ethnic Literatures	
ENGL 481	Women's Literature	
ENGL 482	Major Authors	
ENGL 483	African American Literature	
ENGL 484	American Indian Literature	
or ENGL 485 Global Literatures in English		
Total Hours		22

English as a New Language

A teaching major in English as a second language is not offered.

21-Credit English as a New Language Teaching Minor

Code	Title	Hours
EDCI 302	Teaching Culturally Diverse Learners	4
EDCI 448	Introduction to ENL	3
or EDCI 548	Introduction to ENL	
EDCI 449	ENL Methods	3
or EDCI 549	ENL Methods	
EDCI 466	Literacy Assessment and Intervention	3
Select one English Language/Linguistics Course ¹		3
Practicum or Field Experience in ENL ²		1
Select 4 credits of Modern language other than English from the following subjects:		4
Chinese		
French		
German		
Japanese		
Nez Perce		
Spanish		
Total Hours		21

¹ e.g. ENGL 241 Intro to the Study of Language, ANTH 241 Introduction to the Study of Language, ENGL 413 ESL Meth I: Basic Oral/Aural Skills.

² e.g. EDCI 402 Practicum, EDCI 597 Practicum

Courses to total 21 credits

Exceptional Child Generalist Teaching Major

A. 31 Credit Exceptional Child Generalist Teaching Major

Code	Title	Hours
EDCI 463	Literacy Methods for Content Learning	3
EDSP 300	Educating for Exceptionalities	3
EDSP 325	Classroom Applications of Learning Theories	2
EDSP 350	Language and Communication Development and Disorders	3
EDSP 423	Collaboration	3

EDSP 425	Evaluation of Children and Youth	3
EDSP 426	Developing Instructional Programs	3
EDSP 430	Assistive Technology and Universal Design for Learning for PreK-12	2
EDSP 448	Special Education Curriculum	3
EDSP 484	Special Education Internship II	1-15

Secondary Ed Majors Must also take:

Code	Title	Hours
EDCI 320	Teaching Reading and Literacy	3
MTHE 235	Mathematics for Elementary Teachers I	3
MTHE 236	Mathematics for Elementary Teachers II	3

French

Basic language courses taken in high school or elsewhere may be evaluated for college equivalencies as part of this teaching major and minor. Consult the Department of Modern Languages & Cultures (p. 249) for policies on earning credit for vertically-related courses.

A. 45-Credit French Teaching Major

Code	Title	Hours
FREN 101	Elementary French I	4
FREN 102	Elementary French II	4
FREN 201	Intermediate French I	4
FREN 202	Intermediate French II	4
FREN 301	Advanced French Grammar	3
FREN 302	Advanced French Writing Skills	3
FREN 304	Connecting French Language and Culture	3
FREN 408	French and Francophone Culture and Institutions	3
FREN 449	Practicum in Tutoring	1
Select electives from the following:		7-10
ENGL 241	Intro to the Study of Language	
FLEN 243	English Word Origins	
Approved Upper-Division Course in Literature		
Approved Upper-Division French Electives		
Approved upper division French Electives to total 45 credits		6-9
In addition, the following special methods sequence is also required:		
EDCI 437	Secondary Foreign Language Methods	3
EDCI 447	Secondary Foreign Language Methods Practicum	1
Total Hours		46-52

Approved upper division French electives to total 45 credits in the teaching major.

B. 23-Credit French Teaching Minor

Code	Title	Hours
FREN 101	Elementary French I	4
FREN 102	Elementary French II	4
FREN 201	Intermediate French I	4
FREN 202	Intermediate French II	4
EDCI 437	Secondary Foreign Language Methods	3
EDCI 447	Secondary Foreign Language Methods Practicum	1
FREN 301	Advanced French Grammar	3

or FREN 302	Advanced French Writing Skills	
Total Hours		23

Geography

A. 28-Credit Geography Teaching Major

Code	Title	Hours
GEOG 100	Physical Geography	3
GEOG 100L	Physical Geography Lab	1
GEOG 165	Human Geography	3
GEOG 200	World Regional Geography	3
GEOG 385	GIS Primer	3
Select five courses from the following:		15
GEOG 330	Urban Geography	
GEOG 345	Global Economic Geography	
GEOG 360	Population Dynamics and Distribution (Max 4 credits)	
GEOG 365	Political Geography	
GEOG 390	Cartographic Design & Geovisualization	
GEOG 401	Climatology	
Total Hours		28

B. 24-Credit Geography Teaching Minor

Code	Title	Hours
GEOG 100	Physical Geography	3
GEOG 100L	Physical Geography Lab	1
GEOG 165	Human Geography	3
GEOG 200	World Regional Geography	3
GEOG 345	Global Economic Geography	3
GEOG 385	GIS Primer	3
Select 4 credits of additional Geography courses ¹		4
Candidates must also complete the following methods sequence:		
EDCI 432	Secondary Social Studies Methods	3
EDCI 442	Secondary Social Studies Methods Practicum	1
Total Hours		24

¹ Geography courses to total 20 credits.

German

Basic language courses taken in high school or elsewhere may be evaluated for college equivalencies as part of this teaching major and minor. Consult the Department of Modern Languages & Cultures (p. 249) for policies on earning credit for vertically-related courses.

A. 45-Credit German Teaching Major

Code	Title	Hours
ENGL 241	Intro to the Study of Language	3
FLEN 324	Topics in German Literature in Translation	3
GERM 101	Elementary German I	4
GERM 102	Elementary German II	4
GERM 201	Intermediate German I	4
GERM 202	Intermediate German II	4

GERM 301	German Reading and Writing	3
GERM 302	German Listening and Speaking	3
Select approved Upper Division German Electives ¹		17
In addition, the following special methods sequence is also required:		
EDCI 437	Secondary Foreign Language Methods	3
EDCI 447	Secondary Foreign Language Methods Practicum	1
Total Hours		49

¹ German electives should include at least one 400-level course, to total 45 credits in the teaching major.

B. 23-Credit German Teaching Minor

Code	Title	Hours
GERM 101	Elementary German I	4
GERM 102	Elementary German II	4
GERM 201	Intermediate German I	4
GERM 202	Intermediate German II	4
EDCI 437	Secondary Foreign Language Methods	3
EDCI 447	Secondary Foreign Language Methods Practicum	1
GERM 301	German Reading and Writing	3
or GERM 302	German Listening and Speaking	
Total Hours		23

Health Education

24-25-Credit Health Education Teaching Minor

A current advanced first aid and emergency care card is required upon graduation.

Code	Title	Hours
FCS 205	Concepts in Human Nutrition	3
FCS 240	Intimate Relationships	3
or PSYC 330	Human Sexuality	
H&S 150	Wellness Lifestyles	3
or MVSC 201	Physical Activity, Wellness & Behavior Change for Healthy Active Lifestyles	
H&S 288	First Aid: Emergency Response	2
H&S 423/523	School Health Education Methods and Administration	3
H&S 450	Critical Health Issues	3
Select one of the following groups:		3-4
Group A:		
H&S 289	Drugs in Society	
H&S 350	Stress Management and Mental Health	
Group B:		
H&S 451	Psychosocial Determinants of Health	
Select one of the following sequences:		4
BIOL 102 & 102L	Biology and Society and Biology and Society Lab	
BIOL 115 & 115L	Cells & the Evolution of Life and Cells and the Evolution of Life Laboratory	
BIOL 120	Human Anatomy	

BIOL 154	Introductory Microbiology	
& BIOL 155	and Introductory Microbiology Laboratory	
Total Hours		24-25

History

A. 45-Credit History Teaching Major

Code	Title	Hours
HIST 101	History of Civilization 1	3
HIST 102	History of Civilization 2	3
HIST 111	Introduction to U.S. History	3
HIST 112	Introduction to U.S. History	3
HIST 290	The Historian's Craft	3
Upper-Division History Courses		
Select 3 credits of Non-Regional U.S. History courses		3
Select 3 credits of Latin American History courses		3
Select 3 credits of Asian or African History courses		3
Select 3 credits of Pre-1750 History from Any Region courses		3
Select 3 credits of American Non-European Ethnic History courses		3
Select 3 credits of Modern European History courses		3
Additional Upper-Division History Courses ¹		9
<i>In addition, the following special methods sequence is also required:</i>		
EDCI 432	Secondary Social Studies Methods	3
EDCI 442	Secondary Social Studies Methods Practicum	1
Total Hours		46

¹ Approved Upper Division History Electives to total 45 credits in the teaching major. *Note: A single course may satisfy more than one of the upper-division requirements.*

B. 33-Credit History Teaching Major

Code	Title	Hours
HIST 101	History of Civilization 1	3
HIST 102	History of Civilization 2	3
HIST 111	Introduction to U.S. History	3
HIST 112	Introduction to U.S. History	3
HIST 290	The Historian's Craft	3
Upper-Division History Courses ²		
Select 3 credits of Non-Regional U.S. History courses		3
Select 3 credits of Latin American History courses		3
Select 3 credits of Asian or African History courses		3
Select 3 credits of Pre-1750 History from Any Region courses		3
Select 3 credits of Modern European History courses		3
<i>In addition, the following special methods sequence is also required:</i>		
EDCI 432	Secondary Social Studies Methods	3
EDCI 442	Secondary Social Studies Methods Practicum	1
Total Hours		34

² Approved Upper Division History Electives to total 33 credits in the teaching major. *Note: A single course may satisfy more than one of the upper-division requirements.*

C. 21-Credit History Teaching Minor

Code	Title	Hours
HIST 101	History of Civilization 1	3
HIST 102	History of Civilization 2	3
HIST 111	Introduction to U.S. History	3
HIST 112	Introduction to U.S. History	3
POLS 101	Introduction to Political Science and American Government	3
or POLS 275	American State and Local Government	
Select at least 3 credits of US, Latin American, or African History upper-division courses		3
Select at least 3 credits of Ancient, European, or Asian History upper-division courses		3
Candidates must also complete the following methods sequence:		
EDCI 432	Secondary Social Studies Methods	3
EDCI 442	Secondary Social Studies Methods Practicum	1
Total Hours		25

Library Science

A teaching major in library science is not offered.

27-Credit Library Science Teaching Minor

The teaching minor in library science must total 27 credits in the areas of collection development/materials selection; literature for children and/or young adults; organization of information (cataloging and classification); school library administration/management; library information technologies; information literacy; and reference and information services. This teaching minor will qualify the student for the Idaho K-12 Teacher Librarian Endorsement. Because library science is not a teaching field, the teacher librarian must also qualify for a standard Idaho elementary or secondary teacher's certificate.

Code	Title	Hours
LIBS 410	Libraries and their Collection: Materials Selection	3
LIBS 413	Computer Applications in Libraries	3
LIBS 414	Reference and Information Services	3
LIBS 418	Classification and Cataloging	3
LIBS 425	School Library Administration, Leadership, and Management	3
LIBS 427	Library and Media Center Practicum	3
LIBS 430	Children's Literature for Teacher Librarian	3
LIBS 431	Adolescent Literature for Teacher Librarians	3
LIBS 433	Information Literacy for the Teacher Librarian	3
Total Hours		27

Mathematics

MATH 143 and MATH 144 may be necessary prerequisites for students with weak backgrounds.

A. 47-Credit Mathematics Teaching Major

Code	Title	Hours
CS 112	Computational Thinking and Problem Solving	3
MATH 170	Analytic Geometry and Calculus I	4

MATH 175	Analytic Geometry and Calculus II	4
MATH 176	Discrete Mathematics	3
MATH 215	Proof via Number Theory	3

PEP 421	Secondary Methods in Physical Activity Pedagogy	3
PEP 424	Inclusive Physical Education and Recreation	3
First Aid and CPR Certificate		
Total Hours		31

Physical Sciences

45-Credit Composite Teaching Major

This is a 40-credit composite teaching major consisting of courses in chemistry, geology, and physics. A teaching minor in mathematics is recommended to accompany this teaching major.

Code	Title	Hours
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
CHEM 112	Principles of Chemistry II	4
CHEM 112L	Principles of Chemistry II Laboratory	1
CHEM 275	Carbon Compounds	3
GEOL 101 & 101L	Physical Geology and Physical Geology Lab	4
PHYS 103	General Astronomy	3
PHYS 211 & 211L	Engineering Physics I and Laboratory Physics I	4
PHYS 212 & 212L	Engineering Physics II and Laboratory Physics II	4
PHYS 213	Engineering Physics III	3
PHYS 411	Advanced Physics Lab	4
Select one of the following:		3-4

BIOL 102 & 102L	Biology and Society and Biology and Society Lab	
BIOL 114	Organisms and Environments	
GEOG 100 & 100L	Physical Geography and Physical Geography Lab	
GEOG 401	Climatology	
Select Additional Electives in Chemistry Geology or Physics to total 45 credits ¹		2-3
In addition, the following special methods sequence is also required:		
EDCI 433	Secondary Science Methods	3
EDCI 443	Secondary Science Methods Practicum	1
Total Hours		43-45

¹ Recommended Elective courses include BIOL 380 Biochemistry I & CHEM 302 Principles of Physical Chemistry (2-3 cr).

Physics

A. 45-Credit Physics Teaching Major

Code	Title	Hours
BIOL 114	Organisms and Environments	4
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
MATH 275	Analytic Geometry and Calculus III	3
PHYS 103	General Astronomy	3
PHYS 211	Engineering Physics I	3
PHYS 211L	Laboratory Physics I	1
PHYS 212	Engineering Physics II	3
PHYS 212L	Laboratory Physics II	1
PHYS 213	Engineering Physics III	3
PHYS 305	Modern Physics	3
PHYS 411	Advanced Physics Lab	4
Select one of the following:		4
CHEM 101 & 101L	Introduction to Chemistry and Introduction to Chemistry Laboratory	
CHEM 111 & 111L	Principles of Chemistry I and Principles of Chemistry I Laboratory	
Select approved upper division Physics electives to total 45 credits in the teaching major		5
In addition, the following special methods sequence is also required:		
EDCI 433	Secondary Science Methods	3
EDCI 443	Secondary Science Methods Practicum	1
Total Hours		49

B. 20-Credit Physics Teaching Minor

Code	Title	Hours
PHYS 211	Engineering Physics I	3
PHYS 211L	Laboratory Physics I	1
PHYS 212	Engineering Physics II	3
PHYS 212L	Laboratory Physics II	1
PHYS 213	Engineering Physics III	3
PHYS 305	Modern Physics	3

Select Physics electives approved by advisor in Dept of Physics, including at least 2 credits of lab work.	6
Total Hours	20

Political Science

A. 30-Credit Political Science Teaching Major

A minimum of 30 credits in political science courses is required with an additional 6 credits in US history necessary for certification. Courses listed in more than one field may be counted in only one of those fields. Substitutions in specific courses may be made with the consent of the advisor.

Code	Title	Hours
POLS 101	Introduction to Political Science and American Government	3
Select 6 credits of U.S. History electives		6
Select 9-12 credits from the following:		9-12
POLS 275	American State and Local Government	
POLS 437	American Presidency	
PHIL 469	The Judicial Process	
Select at least 3 credits of Comparative Government and Politics courses from the following:		3
POLS 381	European Politics	
POLS 480	Politics of Development	
POLS 487	Political Violence and Revolution	
Select at least 3 credits of International Relations courses from the following:		3
POLS 237	Introduction to International Politics	
POLS 440	International Organizations & International Law	
POLS 449	World Politics and War	
Select at least 3 credits of Public Administration and Public Law courses from the following:		3
POLS 451	Public Administration	
POLS 454	Public Organization Theory	
POLS 467	Constitutional Law	
POLS 468	Civil Liberties	
Select at least 3 credits of Political Thought courses from the following:		3
POLS 425	History of Political Philosophy I	
POLS 426	History of Political Philosophy II	
POLS 428	American Political Thought	
POLS 429	Contemporary Political Ethics	
In addition, the following special methods sequence is also required:		
EDCI 432	Secondary Social Studies Methods	3
EDCI 442	Secondary Social Studies Methods Practicum	1
Total Hours		34-37

B. 20 Credit American Government and Political Science Teaching Minor

A minimum of 20 credits in political science courses is required with an additional 6 credits in US history necessary for certification.

Code	Title	Hours
POLS 101	Introduction to Political Science and American Government	3
Select 3 credits of U.S. Government courses from the teaching major above		3
Select 3 credits of Comparative Government courses from the teaching major above		3
Select 12 credits of other Political Science electives from courses listed in the teaching major		11
Select 6 credits of US History electives		6
Total Hours		26

Social Science

A. 56-Credit Composite Teaching Major

The basic objective of this teaching major is to provide the undergraduate student with the preparation that leads to teaching social studies in the public schools. To obtain a social studies endorsement in the state of Idaho, a student must pass the Praxis II exam in both social studies content knowledge and in one of the other areas listed below (Economics, Geography, History, or Political Science) where they have a minimum of 20 credits of coursework. This will result in a student being endorsed to teach in any of the subject areas included in the composite major.

Idaho's federal representatives have approved the Social Studies endorsement as meeting "Highly Qualified" status for all four of the related core content areas; history, geography, economics, and government.

It is important to note that the converse is not true. If a teacher has an endorsement in one or more of the core social studies areas, but does NOT hold the full Social Studies endorsement, they cannot be considered "Highly Qualified" to teach in any area other than those for which they hold the specific endorsement.

Students need to choose one area (History, Economics, Geography, or Political Science) for an endorsement which includes 20 credit hours, and complete 12 credits in each of the other remaining content areas (History, Economics, Geography, or Political Science).

Code	Title	Hours
<i>History</i>		
HIST 101	History of Civilization 1	3
HIST 102	History of Civilization 2	3
HIST 111	Introduction to U.S. History	3

POLS 101	Introduction to Political Science and American Government	3
Select one of the following:		3
POLS 275	American State and Local Government	
POLS 331	American Political Parties and Elections	
POLS 332	American Congress	
POLS 333	American Political Culture	
POLS 338	American Foreign Policy	
Select 6 credits of Political Science electives from the following:		6
POLS 205	Introduction to Comparative Politics	
POLS 237	Introduction to International Politics	
POLS 381	European Politics	
POLS 440	International Organizations & International Law	
POLS 449	World Politics and War	
POLS Elective numbered 100-499		
In addition, the following special methods sequence is also required:		
EDCI 432	Secondary Social Studies Methods	3
EDCI 442	Secondary Social Studies Methods Practicum	1
Total Hours		58

B. 45- OR 60-Credit Teaching Major Through American Studies

American studies majors follow the credit distributions and recommended courses as stated above for economics, geography, history, political science, and sociology/anthropology.

Spanish

Basic language courses taken in high school or elsewhere may be evaluated for college equivalencies as part of this teaching major and minor. Consult the Department of Modern Languages & Cultures (p. 249) for policies on credit for vertically-related courses.

A. 45-Credit Spanish Teaching Major

Code	Title	Hours
SPAN 101	Elementary Spanish I	4
SPAN 102	Elementary Spanish II	4
SPAN 201	Intermediate Spanish I	4
SPAN 202	Intermediate Spanish II	4
SPAN 301	Advanced Grammar	3
SPAN 302	Advanced Composition	3
SPAN 305	Culture and Institutions of Spain	3
SPAN 306	Culture and Institutions of Latin America	3
Select 17 credits of Upper-division Spanish language courses ¹		17
In addition, the following special methods sequence is also required:		
EDCI 437	Secondary Foreign Language Methods	3
EDCI 447	Secondary Foreign Language Methods Practicum	1
Total Hours		49

¹ 9 credits must be at 400 level to total 45 credits in the teaching major. A maximum of 3 credits in FLEN 391 Hispanic Film or FLEN 394 Latin American Literature in Translation may be counted toward a teaching major in Spanish.

B. 22-Credit Spanish Teaching Minor

Code	Title	Hours
SPAN 101	Elementary Spanish I	4
SPAN 102	Elementary Spanish II	4
SPAN 201	Intermediate Spanish I	4
SPAN 202	Intermediate Spanish II	4
Select 6 credits of approved Upper-Division Spanish Electives ¹		6
In addition, the following special methods course is also required:		
EDCI 437	Secondary Foreign Language Methods	3
Total Hours		25

¹ Spanish Electives: Either SPAN 301 or SPAN 302 required; lab-based and lit in translation courses are not acceptable.

Department of Leadership and Counseling

Adult, Organizational Learning and Leadership

Adult, Organizational Learning and Leadership program prepares leaders in a wide range of careers including higher education, business, government agencies and nonprofit organizations. It offers a master's degree and also delivers a professional certificate in Human Resource Development. A doctorate (Ph.D. or Ed. D) with an Adult Organizational Learning and Leadership specialization is available as well.

Educational Leadership

The state and CAEP (Council for the Accreditation of Educator Preparation) accredited Educational Leadership program offers Masters (M.Ed.) and Specialist (Ed.S.) degrees for individuals seeking leadership roles in K-12 education. Principal, Superintendent, and Director of Special Education Certificates may be earned by completing an approved program of study. Courses are offered online with some live classes in designated locations. A doctorate (Ph.D. or Ed.D.) with an Educational Leadership specialization is available as well.

Rehabilitation Counseling and Human Services

Rehabilitation Counseling and Human Services is a Master's degree (M.Ed. or M.S.) 60 credit counseling program. This program is nationally accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP), the accrediting body for master's degree programs in counseling and its specialties. Students attending the program full time are able to complete it in two years and are accepted into the program at two locations Coeur d' Alene and Boise. Courses are offered during fall, spring and summer semesters. Course delivery is usually a combination of face-to-face, hybrid, and online/distance administration. Rehabilitation counseling is a specialty area of practice within the counseling profession assisting people with disabilities (physical, mental, developmental, cognitive and emotional) achieve their personal, career and independent living goals.

Leadership and Counseling Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Leadership and Counseling. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Educational Leadership (M.Ed.) (p. 182)
- Adult Organizational Learning and Leadership (M.S.) (p. 182)
- Rehabilitation Counseling and Human Services (M.Ed.) (p. 182)
- Rehabilitation Counseling and Human Services (M.S.) (p. 182)
- Education (Ph.D.) (p. 182)
- Human Resource Development Graduate Academic Certificate (p. 182)
- Rehabilitation Counseling Category R Graduate Academic Certificate (p. 182)

Adult Organizational Learning and Leadership (M.S.)

Master of Science. Major in Adult/ Organizational Learning and Leadership.

General M.S. Requirements apply.

Education (Ph.D.)

Doctor of Philosophy. Major in Education. Specialization in Higher Education.

The Ph.D. degrees in this field is offered through the College of Education (p. 161).

Program of Study

Prerequisite(s) Master's Degree (Up to **28** credits from the Master's degree may be applied to the **84** required).

Total Hours		56

Courses to total 84 credits for this degree.

¹ This course is designed to meet a residency requirement by attending two, week-long sessions in the summers of 2016 and 2017. The 2016 session will be held on the Moscow campus. The 2017 session will be held on the Coeur d'Alene campus. During Spring semester of 2018, students must attend a three-day session on the Boise campus.

Educational Leadership (M.Ed.)

Applicants for M.Ed. degree are expected to meet the requirements for the teaching certificate and one year of teaching experience.

Master of Education. Major in Educational Leadership.

Educational leadership provides programs for the preparation of school administrators and for persons interested in teaching or administration in institutions of higher learning. Master of Education and Education Specialist degrees with an emphasis in educational leadership and options for a certificate as a principal and/or superintendent may be earned in the department. Ph.D. and Ed.D. with an emphasis in educational leadership and options for a certificate as a principal and/or superintendent may be earned through the college of Education.

Department of Movement Sciences

The Department of Movement Sciences is one of three departments in the College of Education, Health and Human Sciences. Graduate Programs include the Doctor of Athletic Training (D.A.T.) and participates in the Ph.D. in Education, with tracks in Healthy Active Lifestyles and Exercise Science; the department offers master's degrees in Athletic Training (M.S.A.T.), Movement & Leisure Sciences (M.S.), and Physical Education (M.Ed.), and participates in the M.S. in Bioregional Planning and Community Design; the department also offers baccalaureate degrees in Dance, Exercise Science and Health, Physical Education, and Recreation, Sport, and Tourism Management; several minors and options; and basic instruction in numerous recreational fitness, dance, aquatic, and sport activity areas.

The activity portion of the program is supported by outstanding facilities, which include three gymnasias, two dance studios, two pools, eight outdoor tennis courts, six racquetball courts, indoor and outdoor tracks, weight rooms, climbing wall, and expansive field and play areas. In addition, activity classes are taught in the Student Recreation Center.

The baccalaureate degree in Dance is designed to create a positive, student-focused learning environment that promotes the intellectual, social, emotional, cultural, and moral development of students to prepare for careers in dance and/or other related fields on a competitive and professional level. The Festival Dance and Performing Arts Association maintains a residency program with the department.

The baccalaureate degree in Exercise Science and Health provides graduates with knowledge of strategies, leadership skills, and the technical abilities to plan, implement, and evaluate health and exercise programs. It also prepares students for post-baccalaureate study in numerous clinical health professions, including athletic training, physical therapy, occupational therapy, public health, nursing, pharmacy, and medicine.

The baccalaureate degree in Physical Education leads to K-12 teaching certification and provides a foundation for athletic coaching. The degree is designed to prepare teachers to inspire students in 1-12 schools to lead healthy, active lifestyles through a structured and engaging program of physical education.

The baccalaureate degree in Recreation, Sport, and Tourism Management provides the student with an understanding of leisure and recreation and its role in society as a necessary factor for an individual to obtain a quality, healthy life and to function in our society. Further, the degree prepares a broadly educated professional to assist and lead individuals, organizations and communities in the supervision and facilitation of recreation programs and resource management. Students graduating from this program are immediately eligible to sit for the national-level examination to become a Certified Leisure Professional.

Academic and teaching minors offered by the department include: health education, dance, outdoor recreation leadership, sustainable tourism and leisure enterprises, and physical education.

Majors

- Movement Sciences Undergraduate Curricular Requirements (p. 183)
- Dance (B.S.Dan.) (p. 185)
- Exercise, Sport, and Health Sciences (B.S.E.S.H.S.) (p. 186) with emphases in Physical Education Teaching; Fitness, Health and Human Performance; Pre-Athletic Training; Pre-Physical Therapy; and Community Health Education and Promotion
- Recreation, Sport, and Tourism Management (B.S.Rec.) (p. 188)

Minors

- Dance Minor (p. 186)
- Outdoor Recreation Leadership Minor (p. 188)
- Sustainable Tourism and Leisure Enterprises Minor (p. 189)
- Health Education Teaching Minor (p. 176)

Certificates

- Athletic Leadership Undergraduate Academic Certificate (p. 184)

Movement Sciences Graduate Program

The Graduate Record Examination is not required for admission to the master's programs. However, candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Movement Sciences. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Physical Education (M.Ed.) (p. 188)
- Athletic Training (M.S.A.T.) (p. 184)
- Movement and Leisure Sciences (M.S.) (p. 188)
- Movement and Leisure Sciences (Ph.D.) (p. 188)
- Athletic Training (D.A.T.) (p. 184)

AT 634	Introduction to Quantitative Data Analysis and Interpretation in Patient Care	2
AT 635	Intermediate Quantitative Data Analysis and Interpretation in Patient Care	2
AT 640	Clinical Residency and Analysis of Patient Care I	6
AT 641	Clinical Residency and Analysis of Patient Care II	6
AT 642	Clinical Residency and Analysis of Patient Care III	6
AT 643	Clinical Residency and Analysis of Patient Care IV	6
Total Hours		63

The department also participates in the interdisciplinary M.S. and Ph.D. in Neuroscience and the M.S. in Bioregional Planning and Community Development. Persons interested in doctoral study should visit the College of Education and departmental web page for more information about admission requirements and application procedures.

Athletic Training (M.S.A.T.)

Master of Science in Athletic Training. Major in Athletic Training.

The M.S.A.T. is an entry level program designed to prepare students to become a certified athletic trainer. After successful completion of this program students will be eligible for the athletic training national Board of Certification Exam.

M.S.A.T. Admission Requirements.

Students are eligible to apply for admission to the MSAT program via two distinct routes:

Students who have obtained a bachelor's degree (3.0 or >3.0) and the required prerequisite coursework (4 credit hours of human anatomy or equivalent & 4 credit hours of human physiology or equivalent) are eligible for consideration of admission to the MSAT.

OR

Students who are enrolled in an academic institution with whom the University of Idaho and the MSAT have a 3+2 transitional program articulation¹ agreement may apply to the MSAT during their junior year of study for entrance in early summer with Tentative Admittance². Students must be approved for application to the 3+2 program from their specified undergraduate program director (and have met the criteria within the articulation agreement) before they apply to the MSAT.³

- ¹ The University of Idaho's 3+2 program leading to the application to the MSAT is the Bachelor of Science in Physical Education with a major in Exercise Science and Health (3+2 track). Please contact the Division of Athletic Training for information regarding other Universities with approved MSAT 3+2 articulation agreements.
- ² Students may be admitted to the MSAT "Tentatively", without first having had completed a Bachelor's degree. These students will apply the first two semesters of the MSAT curriculum to their undergraduate degree in order to satisfy their Bachelor's degree requirements. Students will apply for graduation during the Fall of their first year in the MSAT program and will have the "Tentative Admittance" removed upon fulfilling all requirements of their Bachelor's degree program.
- ³ The 3+2 program will meet all other admission standards set forth by the College of Graduate Studies and the Masters of Science in Athletic Training Program.

The M.S.A.T. in Athletic Training requires the following courses:

Code	Title	Hours
AT 506	Clinical Anatomy I	3
AT 507	Care and Prevention of Injuries and Illnesses	3
AT 508	Evaluation and Diagnosis of Injuries and Illnesses I	4
AT 509	Principles of Rehabilitation	3
AT 510	Therapeutic Modalities	2
AT 511	Ethics and Administration in Athletic Training	3
AT 512	Research Methods & Statistics I	3
AT 513	General Medicine for Athletic Trainers	3
AT 514	Psychology of Injury and Referral	3
AT 520	Clinical Education I	2
AT 521	Clinical Experience I	4
AT 522	Clinical Education II	2
AT 523	Clinical Experience II	4
AT 531	Clinical Anatomy II	3
AT 532	Evaluation and Diagnosis of Injuries and Illnesses II	4
AT 533	Applied Rehabilitation Techniques	3
AT 534	Therapeutic Modalities II	2
AT 535	Seminar in Athletic Training	1
AT 536	Research Methods & Statistics II	3
AT 540	Pharmacology for Athletic Trainers	3
AT 541	Seminar in Athletic Training II	2
AT 542	Scientific Inquiry and Research Presentation	3
AT 543	Neuroscience for Athletic Trainers	3
AT 547	Critical Issues in Athletic Training Clinical Practice	3
AT 550	Clinical Education III	2
AT 551	Clinical Experience III	4
AT 552	Clinical Education IV	2
AT 553	Clinical Experience IV	4
AT 587	Prevention and Health Promotion in Athletic Training	3
Total Hours		84

The department also participates in the interdisciplinary M.S. and Ph.D. in Neuroscience and the M.S. in Bioregional Planning and Community Development. Persons interested in doctoral study should visit the

College of Education and departmental web page for more information about admission requirements and application procedures.

Dance (B.S.Dan.)

A successful audition is required for admission to the degree program. To graduate in this program, a minimum grade of 'C' must be earned in all required courses. To participate in departmental productions, a student must maintain a minimum GPA of 2.50. Please contact the Department of Movement Sciences at 208-885-7921 for audition information. Required coursework includes the university requirements (see regulation J-3 (p. 84)), the Department of Movement Sciences core course MVSC 201 and the following course work:

Code	Title	Hours
Movement Sciences Undergraduate Curricular Requirements (p. 183)		6
Major Requirements		67-68
Total Hours		73-74

Major Requirements

Code	Title	Hours
BIOL 120	Human Anatomy	4
DAN 101	Dance Seminar	1

Movement and Leisure Sciences (M.S.)

Master of Science. Major in Movement and Leisure Sciences.

This program provides students the skills, tools, and philosophy necessary to be servant leaders in organizations related to physical activity, sport and recreation.

The department also participates in the interdisciplinary M.S. and Ph.D. in Neuroscience and the M.S. in Bioregional Planning and Community Development. Persons interested in doctoral study should visit the College of Education and departmental web page for more information about admission requirements and application procedures.

Movement and Leisure Sciences (Ph.D.)

Doctor of Philosophy. Major in Education.

The department participates in the Ph.D. program in the College of Education, Health and Human Sciences with concentrations in sport pedagogy & character education or exercise science. Sport pedagogy & character education develops individuals who lead, serve, and research learning and teaching as applied to character and value laden issues in physical education and recreation. Exercise science prepares students to teach, conduct research, and provide services related to Exercise Science disciplines in higher education (exercise physiology, sport psychology, motor control, and biomechanics) and other exercise-related institutions.

The department also participates in the interdisciplinary M.S. and Ph.D. in Neuroscience and the M.S. in Bioregional Planning and Community Development. Persons interested in doctoral study should visit the College of Education and departmental web page for more information about admission requirements and application procedures.

Outdoor Recreation Leadership Minor

Code	Title	Hours

REC 216	River Recreation and Water Craft Safety	
REC 218	Rock Climbing & Mountaineering	

REC 228	Avalanche Fundamentals	
REC 229	Swiftwater Rescue Training	
REC 240	Recreation and Sport Activities, Programming, and Marketing	
REC 254	Camp Leadership in Recreation and Sport	
REC 280	Practicum in Recreation, Sport, and Tourism	
REC 408	Experiential Education and Adventure Recreation	
Select 4 credits from the following:		4
PEB 106	Individual & Dual Sports ¹	
PEB 108	Water-Based Sports & Fit Act	
REC 204	Special Topics	
REC 222	Cross Country Skiing	
REC 224	Whitewater Rafting	
REC 225	Kayaking	
REC 227	Mountain Biking	
An approved technical competency ²		
Total Hours		23

¹ Wall Climbing, Advanced Wall Climbing, Fly Tying, Fly Fishing, Intro Archery/Hunting, Archery, Adventure Racing, Scuba, Mountain Biking.

² Contact the Movement Sciences departments; practical exam administered by REC faculty. (max 4 cr)

Courses to total 23 credits for this minor

Physical Education (M.Ed.)

Master of Education. Major in Physical Education.

This program has two tracks available. The first track is designed to provide post-baccalaureate certification in teaching K-12 physical education. The second track is designed for certified teachers who are interested in improving their teaching practice in physical education.

The department also participates in the interdisciplinary M.S. and Ph.D. in Neuroscience and the M.S. in Bioregional Planning and Community Development. Persons interested in doctoral study should visit the College of Education and departmental web page for more information about admission requirements and application procedures.

Recreation, Sport, and Tourism Management (B.S.Rec.)

A minimum cumulative university GPA of 2.25 is required of all recreation majors who seek to take upper-division courses. Recreation majors must also achieve a minimum cumulative university GPA of 2.25 to graduate with a B.S.Rec. degree.

Required course work includes the university requirements (see regulation J-3 (p. 84)), an academic minor or 20 credits in an approved cognate area of study, the Department of Movement Sciences MVSC 201 core course and the following coursework:

Code	Title	Hours
	Movement Sciences Undergraduate Curricular Requirements (p. 183)	3

Major Requirements	49-66

COLLEGE OF ENGINEERING

Larry A. Stauffer, Dean (125 Janssen Engr. Bldg.; 208-885-6470); Joseph Law, Associate Dean Undergraduates; Barry Willis, Associate Dean Outreach; Vivek Utgikar Associate Dean Research

The mission of the College of Engineering is to prepare students for global professional practice, for admission to advanced degree programs, for leadership in their public and private lives, and for life-long learning in their chosen professions. We promote discovery, development, and dissemination of knowledge through excellence in research, and provide quality academic courses and continuing education to enhance the capability of practicing professionals. Through our scholarly activity, we have the responsibility to be a major contributor to our state, region, and nation's economic and technology base, while contributing to the body of knowledge for an array of research topics.

Our vision is to be an engine of innovation that integrates student-centered academics, relevant research, and meaningful outreach that advances Idaho and beyond.

The Engineering Profession

Members of the engineering profession use their knowledge of mathematics and the sciences to create useful and economic devices, structures, and systems for the benefit of the earth and its inhabitants. The engineer's talents are used in many ways: design, construction, and operation of public works and utilities systems; planning, construction, and operation of industrial processes and equipment; application of technical products; and creation of devices and systems needed for the support of all human activity, such as food production, transportation, communication, and enhancement of the environment. Many engineers hold responsible managerial positions; others are key members of the interdisciplinary teams that solve the complex technical, economic, and social problems of the world.

The engineering profession recognizes that social, economic, political, and cultural, as well as technical considerations are involved in most of the works in which the modern engineer is engaged. A part of an engineer's education is devoted to the humanities and the social sciences to help relate the technical preparation received to the world today, and to enhance the engineer's role as an educated, responsible citizen.

To qualify as an engineer, one usually undertakes a four-year college program leading to a Bachelor of Science (B.S.) degree in one of the major branches of engineering practice. Bachelor of Science graduates may either go directly into engineering employment or proceed to graduate study to pursue a given area of interest in depth. As the technology of engineering includes a wide range of subject matter that can be explored only to a limited extent in undergraduate programs, more and more students undertake graduate study for better preparation in a specific field before seeking employment as practicing engineers.

All states require that engineers engaged in work affecting public health and welfare be licensed or registered. This requires a qualifying examination in the fundamentals of engineering, usually taken during the last year of undergraduate study, and a period of practical experience followed by a second qualifying examination in the practice of engineering. Many industries, while not legally required to use registered engineers, encourage registration as evidence of professional stature of their engineering employees.

The Computer Science Profession

Computer science is a discipline that involves the understanding and design of computers and computational processes. In its most general form it is concerned with the understanding of information transfer and transformation. Computer science is evolving rapidly and includes theoretical studies, experimental methods, and engineering design all in one discipline. In computer science there is an inherent intermingling of the theoretical concepts of computability and algorithmic efficiency with the modern practical advancements in electronics that continue to stimulate advances in the discipline. It is this close interaction of the theoretical and design aspects of the field that binds them together into a single discipline.

Because of the rapid evolution it is difficult to provide a complete list of computer science areas. Yet it is clear that some of the crucial areas are theory, algorithms and data structures, programming methodology and languages, and computer elements and architecture. Other areas include software engineering, artificial intelligence, computer networking and communication, database systems, parallel computation, distributed computation, computer-human interaction, computer graphics, operating systems, numerical and symbolic computation, and computer security.

A professional computer scientist must have a firm foundation in the crucial areas of the field and will most likely have an in-depth knowledge in one or more of the other areas of the discipline, depending on the person's particular area of practice. Thus, a well-educated computer scientist should be able to apply the fundamental concepts and techniques of computation, algorithms, and computer design to a specific design problem. The work includes detailing of specifications, analysis of the problem, and providing a design that functions as desired, is reliable and maintainable, and meets desired cost criteria. Clearly, the computer scientist must not only have sufficient training in the computer science areas to be able to accomplish such tasks, but must also have a firm understanding in areas of mathematics and science, as well as a broad education in liberal studies to provide a basis for understanding the societal implications of the work being performed.

Equal Opportunity

The degree programs of the college and the professions they represent actively seek out women and under-represented minorities. Opportunities are unlimited and an increasing number are entering the professions.

Preparation and Admission

A statement of undergraduate and graduate admission requirements is included in the admissions portion of this catalog. A student may be admitted with less than the requirements listed, but the deficiency must be made up before he or she can progress very far in a college engineering course of study.

Students who contemplate entering the College of Engineering with advanced standing from other institutions should complete as many of the freshman and sophomore requirements listed in the curricula as possible. Calculus, chemistry and physics and the various introductory engineering courses are prerequisites to many advanced courses, and their omission may delay graduation.

Students from out-of-state institutions who wish to transfer to a degree program offered by the College of Engineering are invited to apply. Those who's cumulative GPA is below 2.8 for all previous college-level courses,

including any courses taken at UI, may be admitted on approval of the College of Engineering Admissions Committee.

Admission to Classes

As a prerequisite to any upper-division course normally taken in the junior or senior year and offered by the College of Engineering, students in the College of Engineering must have completed selected courses from the required courses in chemistry, computer science, engineering, mathematics, and physics that are normally to be taken by them during their first two years, and must have attained a grade of C or better in each of those courses.

Scholarships and Awards

Many scholarships and awards are available to College of Engineering students and prospective students. See "Student Financial Aid Services (p. 61)" in the student service section.

Faculty

The faculty is the key to the quality of the engineering program. All faculty members in this college hold advanced engineering degrees and all but four hold the Ph.D. degree. Recognition in such publications as *Who's Who in America*, *Who's Who in the West*, *Who's Who in Engineering*, and *American Men and Women of Science* is common.

A distinguishing feature of the faculty is a blend of academic and practical experience. Many faculty members have extensive experience in practice that they bring into the classroom, preserving a balance between theoretical and practical aspects of engineering.

Facilities

The facilities of the College of Engineering are among the finest in the country. Work is centered in the two-block-square engineering complex, which includes the Allen S. Janssen Engineering Classroom Building, the J. E. Buchanan Laboratory, the Gauss-Johnson Engineering Laboratory, McClure Hall, and the Engineering/Physics Building. These facilities are supplemented by biological engineering laboratories at other locations on the campus. In total, more than 250,000 square feet of floor space is used by the College of Engineering. Laboratories include modern equipment for teaching and research in all areas of instruction with recent additions for computerized drafting, CAD/CAM, computerized VLSI design, and robotics. Some of the equipment is of advanced design found in only a few institutional laboratories. Students also have access to over 20 general purpose open-access computer laboratories across the campus, with over 600 computers. There are over 100 software applications available, as well as the web, email, and other network services. An assortment of desk-top minicomputers and engineering work stations are available within the engineering complex. Wireless access is available in all of the engineering buildings.

Standing and Advantages

With a tradition of excellence dating from the founding of the University of Idaho, the College of Engineering has developed and maintained engineering degree programs on the Moscow campus that are noted for quality. For over 40 years, graduate programs in several disciplines have been available at off-campus sites as well. Since 1896, when it granted its first degrees, graduates of the college have spread throughout the world. The large number of firms and agencies throughout the country that send interviewers to the campus each year seeking to hire

Idaho engineering graduates attest to the reputation of the university's engineering program.

The size of the college is near the median of engineering colleges in the country. While it is not so large that the importance of the student as an individual is lost, it is large enough to support the faculty and facilities needed for top quality education.

Attention is given to both undergraduate and graduate programs. New concepts and knowledge resulting from the graduate program feed into the undergraduate program to keep it up to date. Undergraduate students have an opportunity to observe and/or contribute effort to graduate research projects to help them determine their interest in graduate work.

Engineering Experiment Station

The function of the Engineering Experiment Station is to encourage and coordinate the College of Engineering's research and extension programs that are integral parts of the college's academic and service efforts.

The research program in engineering is conducted by the faculty, staff, and students of the college. There is neither a separate research facility nor a separate research staff. The College of Engineering requires that any research it undertakes have academic significance. A large part of the college's research program deals with developing new knowledge that is applicable to Idaho's economy or devising new methods or applications for using existing knowledge to the benefit of the state of Idaho. Most of the funds in support of research come from sources other than legislative appropriations. These funds are the result of research contracts and grants with various local, state, and federal agencies and private industry. Information regarding research capabilities is available upon request.

Believing that education is a never-ending need of mankind, the College of Engineering, through the means of short courses, workshops, seminars and forums, and pertinent publications, attempts to ascertain and meet the specific continuing education needs of Idaho's graduate engineers, computer scientists, and the technical community. Staff members also endeavor to provide information to the entire population of Idaho that may contribute to the successful solving of societal problems.

Off-Campus Programs

To fulfill its charge to provide engineering education to the people of Idaho, the College of Engineering provides several degree programs off campus. Graduate degrees in most disciplines are available through the Resident Instructional Centers at Boise, Idaho Falls, and Coeur d'Alene, using a combination of resident faculty, real-time video, and web-supported DVD courses. The Engineering Outreach program uses a variety of technologies to provide graduate and advanced undergraduate course work, including some complete master's degrees, at any location. For more information, see "Resident Instructional Centers."

General College Requirements for Graduation

University Requirements. See regulation J (p. 84) for requirements that all students in the university must meet.

College Requirements. The minimum credit requirement for university curricula is 120 credits for an undergraduate degree. Some engineering curricula require a greater number of credits.

Note: In calculating the credit total for each degree, the College of Engineering does not include credits that a student may have been required to earn in ENGL 101, MATH 143, and any courses taken to remove deficiencies.

Courses of Study and Degrees

The College of Engineering includes the degree-granting Departments of Biological Engineering, Chemical and Materials Engineering, Civil and Environmental Engineering, Electrical and Computer Engineering, Mechanical Engineering, and the Department of Computer Science. Careful attention is given to curriculum content and educational philosophy to keep all programs attuned to rapidly changing technology.

Programs in the college lead to the Bachelor of Science in the following disciplines: Biological Engineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Material Science and Engineering, Mechanical Engineering, Computer Science, and Industrial Technology.

Most of the courses taken by freshmen and sophomores are the same in all curricula. The student may postpone a final decision on a branch of study for a year or more with little, if any, consequence, thus allowing ample opportunity for professional orientation. The junior and senior years are devoted to application of basic principles and design in the various fields of practice.

Courses of study leading to the degrees of Master of Science (M.S.), Master of Engineering (M.Engr.), and Doctor of Philosophy (Ph.D.) are offered in biological, chemical, civil, electrical, geological, and mechanical engineering. The M.S. and M.Engr. degrees are available in computer engineering and environmental engineering, and the M.S. and Ph.D. degrees are available in computer science. Master of Science degrees are available in geological engineering, material science and engineering, and technology management. The PhD degree is also available in Material Science and Engineering. The Master of Engineering in engineering management is also available. The M.S., M.Engr., and Ph.D. degrees in nuclear engineering are available at the Idaho Falls Center.

Major Curricula

The curriculum for each major is listed in the individual department section. Each curriculum provides for electives to be arranged in consultation with the student's advisor in accordance with the student's interest and consistent with current department and college policies. The electives are intended to provide flexibility in the student's program. Undesignated electives will usually be taken outside of the student's major field of study.

The following undergraduate programs in the College of Engineering are currently accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET), 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 - telephone: (410) 347-7700.: Biological Engineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Material Science and Engineering, and Mechanical Engineering. The computer science program is accredited by the Computing Accreditation Commission of ABET. Minors are offered in several programs but we do not pursue accreditation of minors.

Department of Biological Engineering

Biological engineers integrate engineering principles with biological systems to develop new technologies and solutions to address societal needs. For example, biological engineers improve environmental quality,

engineer bacteria to produce value-added products, develop equipment to harvest and process food, and design/manufacture medical devices. Given the diversity of the biological engineering discipline, biological engineers find themselves working in a variety of fields including bioprocessing, bioenergy, environmental, food production, agricultural, pharmaceutical, and biomedical. This diverse expertise makes biological engineers exceptionally valuable in today's challenging world.

The **departmental mission** is teaching, research, and extension to produce sustainable solutions for engineering problems in agriculture, energy, environment, and medicine through application and integration of the biological, chemical and physical sciences. The educational objectives for the B.S. degree in Biological Engineering are:

1. **Learn and Integrate:** Graduates will be proficient engineering problem solvers capable of identifying, formulating, and solving engineering problems by applying their knowledge of mathematics, engineering, and appropriate bioprocessing, biomedical, biochemical, environmental, and agricultural topics.
2. **Think and create:** Graduates will be effective engineers who can apply their skills to design systems, components, and processes to solve engineering problems for an ever-changing world.
3. **Communicate:** Graduates will be effective written and verbal communicators, and productive team members.
4. **Clarify purpose and perspective:** Graduates will have a strong professional identity with a keen awareness of their professional and ethical responsibility, and practice lifelong learning.
5. **Practice Citizenship:** Graduates will design for advancement and sustainability of their local, national and global communities protecting human health and safety, and practicing environmental stewardship.

Courses in biology, chemistry, mathematics, and physics prepare students for more advanced courses in transport processes, bio-based products, bioenergy, biomedical engineering, bioprocessing, and sustainability. Much of our students' education takes place in labs: explore water flow and quality and use in the water resources lab and the field, make discoveries about renewable energy in the advanced biofuel lab, design controls and instruments in the power lab, analyze medical images in the neurophysiology lab, and operate bioreactors in cell and tissue engineering lab.

The Biological Engineering curriculum is accredited by the Engineering Accreditation Commission of ABET 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, ph. 410-347-7700. Students in this program are eligible to take the Fundamentals of Engineering (FE) Examination prior to graduation and to become registered professional engineers after graduating and completing an experience requirement. Assessment of departmental objectives is accomplished by monitoring performance of students on the FE examination and by student interviews. All graduates are interviewed at the time of graduation by the department to evaluate concerns, opportunities, and effectiveness of its educational programs. The assessment statistics can be obtained from the departmental office.

The **graduate program** is offered in Biological Engineering with specialization in bio-based products, biofuels, biomaterials, bioprocessing, biotechnology, cell/tissue engineering, climate modeling, environmental impact assessment, gene/drug delivery, liquid plasma technology, nanotechnology, neural imaging, precision agriculture, waste water treatment, and water management. The graduate degrees offered in Biological Engineering are Master of Science (thesis), Master of

Engineering (non-thesis) and Ph.D. Prospective students should have the equivalent of a B.S. degree in engineering and science.

Select 9 credits of Engineering electives from any 300 or 400 level engineering courses		9
Select 9 credits of Technical electives from any 300 or 400 level engineering or sciences courses		9
Total Hours		109

Courses to total 128 credits for this degree

- ¹ A grade of C or better is required in each of the following courses before registration is permitted in upper-division engineering courses: BE 242, CHEM 111, ENGR 210, MATH 275, and PHYS 211.
- ² To graduate in this program, a grade of C or better is required in each of the following courses: BE 242, CHEM 111, ENGR 210, MATH 275, and PHYS 211.

Students are required to submit a course plan and a statement of how the humanistic and social course requirements complement the technical content of the curriculum and are consistent with the program and institution objectives.

Biological Engineering (M.Engr.)

Master of Engineering. Major in Biological Engineering.

General M.Engr. requirements apply.

Biological Engineering (M.S.)

Master of Science. Major in Biological Engineering.

General M.S. requirements apply.

Biological Engineering (Ph.D.)

Doctor of Philosophy. Major in Biological Engineering.

Admission to this program is based on the student's interest being compatible with faculty interest, funds, and facilities. Admission is given only after a thorough review of the student's academic background, research interests, and potential. Individual programs normally consist of three years' work beyond the bachelor's degree. The department does not have a mandatory foreign language requirement. Students are required, however, to broaden their education in an area outside the normal engineering and science curricula. This can be done by taking courses in the humanities and social sciences, demonstrating an in-depth proficiency in a foreign language, or participating in an equivalent broadening educational experience.

Department of Chemical and Materials Engineering

Chemical Engineering Program

The Chemical Engineering Program is an ABET accredited program that combines the science of chemistry with the discipline of engineering in order to solve problems and to increase process efficiency. One of the

most attractive aspects of a chemical engineering future is the variety of work available. The Chemical Engineering Program is a blend of physics, chemistry, and mathematics; thus, a chemical engineer possesses a versatility that gives him or her many opportunities for employment in fields such as energy systems, pulp and paper, environmental engineering, food products, nuclear power, petroleum and petrochemicals, semiconductors, synthetic fuels, radioisotope applications, plastics and polymers, pharmaceuticals, education, biomedical engineering, computer applications, alternate energy sources, steel, nano-technology and textiles. A chemical engineer can choose work in: research and development, design and construction, operations, management, teaching, or technical sales.

The mission of the Chemical Engineering Program is to provide quality educational programs firmly based in fundamental concepts and to perform and publish outstanding chemical engineering research. The goals of the Chemical Engineering Program are

1. to prepare students with a broad-based education grounded in chemical engineering fundamentals,
2. to maintain an environment that promotes effective student/faculty involvement in teaching, research, and mentoring,
3. to promote an active interaction with regional industries, and
4. to graduate students capable of independent life-long learning.

In addition, the educational objective of the Department of Chemical and Materials Engineering is to prepare students who

1. are well grounded in the fundamentals of chemical engineering,
2. can understand, analyze, and design efficient processes,
3. are proficient in the oral and written communication of their work and ideas,
4. are able to work in multidisciplinary teams in conjunction with their design, formulation of problems, and conducting of experiments,
5. understand the safety and environmental consequences of their work, and
6. are instilled with a sense of social responsibility, ethics, and a commitment to life-long learning.

Progress towards these goals and objectives is assessed by student performance on the nationally administered Fundamentals in Engineering Examination, performance at international design competitions, exit interviews with graduating students, and surveys of graduated students and their employers.

The faculty of the Chemical Engineering Program is dedicated to excellence in teaching. It is the faculty's goal to provide the students with a strong, well-rounded background for immediate entry into the industrial workforce or for graduate study. This background includes the theoretical aspects of chemical engineering as well as practical work experiences. Thus, much of the equipment that is installed in Chemical Engineering laboratories is on the scale of pilot plant equipment. Because much of the equipment is made of glass, students are able to see at a glance what processes occur and where the streams are flowing. The department has a two-story distillation column, a gas absorber, two-stage evaporator, two types of chemical reactors, a catalytic reactor, liquid extraction equipment, membrane-based gas separation, three scanning probe microscopes, three vibrational spectroscopy instruments, multiple gas chromatographs, process control labs, and supporting analytical equipment all used by undergraduate students. Proof that the program's goals are being achieved is in the job-placement statistics for chemical engineers from UI. Most receive job offers before graduation and many

graduates now hold high-level technical and management positions in industry, government, and academia.

Students entering the graduate program in Chemical Engineering can work towards an M.S., M. Engr., or Ph.D. degree. The department has available a number of fellowships and assistantships for students, from industry and alumni, UI graduate assistantships, and externally-funded research assistantships. Entering graduate students must normally hold a B.S. in Chemical Engineering. The graduate program also includes provisions for study leading to an M.S. in Chemical Engineering for students who have a B.S. degree in a related field. Students will be required to register as undergraduates for as many semesters as needed to meet prerequisites to courses required for the M.S. (Ch.E.) degree.

Graduate studies in this program are highly diversified in order to accommodate the needs of most students who have a good basic background in the physical sciences, mathematics, and engineering. Areas of expertise include chemical reaction engineering, simulation, optimization and process design especially for energy systems, pulp and paper, food applications, hazardous waste characterization and bioremediation, membranes, nanoscience, fluid mechanics, biochemical engineering, and mass transfer. The graduate program in chemical engineering requires the GRE with scores of: Analytical >4.5, Quantitative >157 and Verbal >153, as well as a TOEFL score of at least 550 (paper based) or 79 (computer based).

Materials Science and Engineering Program

The educational objectives of the Materials Science and Engineering Program are to educate graduates who will

1. use their mathematics and science background to formulate and solve engineering problems,
2. remain current in modern technology and in tools of engineering practice,
3. demonstrate an understanding of current economic and societal issues associated with engineering projects and their impacts,
4. be able to communicate effectively with engineers and non-engineers while working independently or on teams to develop engineering solutions,
5. demonstrate an understanding of their professional and ethical responsibilities as engineers and uphold their responsibility to the public and occupational health and safety,
6. demonstrate the importance of life-long learning and continued professional growth.

Our Materials Science and Engineering Program is an ABET accredited program with an educational mission to produce graduates equipped to begin competitive and productive careers in their engineering professions; they define and solve materials science and engineering problems to meet desired needs and produce societal benefits; while understanding the importance of working responsibly, acting ethically and pursuing professional growth.

Although the program emphasizes economics and technology, engineering training also includes environmental, ethical, and safety concerns. As technological and engineering fields, these professional disciplines offer tremendous opportunities for the person who wishes to become involved in the application of materials science and engineering, often in sophisticated designs, to the preservation and enhancement

of our society. The program provides technical training to prepare our graduates for productive and rewarding engineering careers.

Laboratory facilities for Materials Science and Engineering include: state-of-the-art magnetic, thin-film, electrical and optical materials characterization, semiconductor processes including thin-film sputtering and deposition, inductively-coupled plasma processing, electron cyclotron resonance plasma dry etching, mechanical alloying, vacuum arc furnaces, combustion synthesis, clean room, electron beam lithography, ion beam technology, electro-chemistry, computer chip and bio-chip design, micro-electromechanical systems (MEMS), nanomaterials, nano-devices and other modern technologies including optical, electron and atomic force microscopies, x-ray diffraction, differential scanning calorimetry and thermogravimetric analysis, etc. These laboratories provide an understanding of nanoscale technology, magnetic, electronic, bio-active, ceramic, polymeric, metallic and intermetallic materials.

Our faculty has proven their qualifications by their credentials in national and international professional societies. They are well known by their publications, research, and contract work. Most students find employment in the summer or on a cooperative basis, so that they can become more intimately involved in the disciplines that they are studying. Exposure to the department faculty members provides students with a one-to-one interaction and an expertise that enables them to be truly competitive when they enter the real world.

The program is designed to take advantage of the other excellent facilities of the university and other engineering disciplines. The program of study also includes involvement with practical aspects of professional practice by exposure to regional industries and research groups through field trips, guest speakers, study problems, and work time during the summer.

A minor in Materials Science and Engineering is offered that integrates with majors in chemical or mechanical engineering along with other engineering and science disciplines. This minor allows the graduate to combine expertise in materials with another technical discipline.

A minor in Metallurgical Engineering is offered that integrates with majors in either chemical or materials engineering, and allows the graduate to specialize in the minerals processing area of metal materials, fabrication, and research.

The program offers the Master of Science (M.S.) and the Doctor of Philosophy (Ph.D.) degrees in Materials Science and Engineering. These programs include a mix of theoretical and practical study most appropriate to each student. Studies include topics on nanotechnology, electronic materials, alternative energy materials (nuclear, solar, etc.), and advanced materials processing techniques, as well as traditional areas, such as corrosion, welding, powder metallurgy, etc. Some students prefer to work on applied problems presented by regional industry or research establishments, generally with funding from outside sources. Studies can be tailored to individual interests. The graduate program in MSE requires a TOEFL score of at least 550 (paper based) or 79 (computer based).

These advanced studies are financed by research grants, industry sponsors, or departmental funding. They are designed to train the individual in research methods and investigative procedures that will later enhance his or her ability in industrial or research environments or in teaching. The master's program involves both class work and research, the latter being designed to familiarize the student with research methods. In the doctoral program, the student is expected to break new ground and advance the field scientifically and to maintain the competitive technological lead enjoyed in the U.S. for so many years.

The master's program generally requires 12 to 24 months beyond the B.S. degree and the doctoral program entails at least three years beyond the B.S. degree.

Most students find employment in the summer or on a cooperative basis, so that they can become more intimately involved in the processes that they are studying. The total program enables the person to leave the university with confidence, either as a baccalaureate student or at the master's or doctoral level, with the capability of a truly competent professional. Materials and metallurgical engineers have a wide variety of career options. They range all the way from primary metals/ceramics/polymer production through advanced materials industries. There are opportunities in technological areas with names and processes not even dreamed of just a few decades ago: plasma extractive processing, ceramic powder synthesis, bio-corrosion, magnetic recording media, and electron microscopy. The materials produced are transformed into the products we use in our daily lives, such as our cars, home appliances, farm equipment, and electrical and electronic equipment. Everything we touch, with the exception of agricultural or forestry products, has had its origin as a mineral in the earth. Materials engineers and scientists develop new products to fit specific demands, such as materials to withstand high stress, high temperature environments, or the extreme cold, radiation and vacuum of outer space. Some of our graduates are also employed as engineering consultants or by government agencies.

Majors

- Chemical Engineering (B.S.Ch.E.) (p. 196)
- Materials Science and Engineering (B.S.M.S.E.) (p. 197)

Minors

- Materials Science and Engineering Minor (p. 198)
- Metallurgical Engineering Minor (p. 198)

Chemical and Materials Engineering Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Chemical and Materials Engineering. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Chemical Engineering (M.S.) (p. 197)
- Chemical Engineering (M.Engr.) (p. 197)
- Chemical Engineering (Ph.D.) (p. 197)
- Materials Science and Engineering (M.S.) (p. 198)
- Materials Science and Engineering (Ph.D.) (p. 198)
- Metallurgical Engineering (M.S.) (p. 198)
- Metallurgy (M.S.) (p. 199)
- Advanced Materials Technology Graduate Academic Certificate (p. 195)

Advanced Materials Technology Graduate Academic Certificate

Note: A grade of 'B' or higher is required in all course work for this academic certificate.

Select one Chemical or Material Science Engineering Technical Elective course numbered 390 or greater	3
Select one Chemical/Bioscience course	3
Select one Chemical/Bioscience lab course	1
Select one Computer Science Elective in a programming language	3
Select one Economics Elective	3
Select three Humanities and Social Science Elective courses:	9
Select one Communications Elective course	2
Select one Mathematics Elective numbered 300 or greater ¹	3
Select 6 credits of Technical Electives in Math, Science, or Engineering numbered 300 or greater ²	6
Total Hours	125

¹ Must be numbered 300 or greater, excluding any 398, 498, or 598 Internship.

² Technical Electives in Math, Science, or Engineering: must be numbered 300 or greater.

Courses to total 128 credits for this degree, not counting ENGL 101 , any 398 (Internship), any 498 (Internship), any 598 (Internship), or mathematics courses numbered lower than MATH 170 , and other courses that might be required to remove deficiencies.

To be enrolled in upper-division CHE courses, a student majoring in chemical engineering must earn a grade of C or better in each of the following courses:

Code	Title	Hours
CHEM 111 & 111L	Principles of Chemistry I and Principles of Chemistry I Laboratory	4
CHEM 112 & 112L	Principles of Chemistry II and Principles of Chemistry II Laboratory	5
CHE 223	Material and Energy Balances	3
ENGR 210	Engineering Statics	3
ENGR 320	Engineering Thermodynamics and Heat Transfer	3
ENGR 335	Engineering Fluid Mechanics	3
MATH 275	Analytic Geometry and Calculus III	3
MATH 310	Ordinary Differential Equations	3
Total Hours		27

Students transferring CHE 223 or its equivalent from a university without an ABET accredited chemical engineering program must pass a test on the subject matter of this course before enrolling in upper-division CHE courses.

In addition, a passing grade is required in each of the following courses before enrolling in upper-division CHE courses:

Code	Title	Hours
CHE 123	Computations in Chemical Engineering	2
Computer Science Elective		3
ENGL 102	College Writing and Rhetoric	3
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
PHYS 211	Engineering Physics I	3
PHYS 212	Engineering Physics II	3
Total Hours		22

A student majoring in chemical engineering may not register for upper-division CHE courses after accumulating more than four grades of D or F in UI mathematics, science, or engineering courses. Included in this number are multiple repeats in a single class or single repeats in multiple classes. A warning will be issued in writing to students who have accumulated two grades of D or F used to satisfy curricular requirements.

A GPA in CHE designated courses of at least 2.0 is required to graduate

Courses to total 128 credits for this degree.

Chemical Engineering (M.Engr.)

Master of Engineering. Chemical Engineering major.

General M.Engr. requirements apply. All students entering the chemical engineering program must complete:

Code	Title	Hours
CHE 515	Transport Phenomena	3
CHE 529	Chemical Engineering Kinetics	3
CHE 541	Chemical Engineering Analysis I	3
Total Hours		9

Chemical Engineering (M.S.)

Master of Science. Major in Chemical Engineering.

Thesis only. General M.S. requirements apply. All students entering the Chemical Engineering program must complete:

Code	Title	Hours
CHE 515	Transport Phenomena	3
CHE 529	Chemical Engineering Kinetics	3
CHE 541	Chemical Engineering Analysis I	3
Total Hours		9

Chemical Engineering (Ph.D.)

Doctor of Philosophy. Major in Chemical Engineering.

While most students entering the graduate program possessing only the bachelor's degree will first earn the M.S., it is possible to bypass the M.S. and work directly toward the Ph.D. Students electing this option will be expected to critically analyze a current research area as part of their degree requirements. This will constitute their Ph.D. qualifying examination. For others, the oral M.S. thesis examination serves as the Ph.D. qualifying examination. A written research proposal modeled after those submitted to such agencies as the National Science Foundation is required as part of the requirements for the Ph.D.

Materials Science and Engineering (B.S.M.S.E.)

Required course work includes the university requirements (see regulation J-3 (p. 84)) and the following:

Code	Title	Hours
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1

Select one Chemical/Analysis Elective:		3
CHE 223	Material and Energy Balances	
CHEM 275	Carbon Compounds	
CHEM 277	Organic Chemistry I	
CHEM 306	Physical Chemistry II	
ENGR 428	Numerical Methods	
Select one Economics Elective		3
Select two Humanities and Social Science Electives		6
Select one MSE or CHE Technical Elective number 300 or greater		3
Select one Upper-Division Technical Elective in math, science or engineering		3
Total Hours		123

¹ Must be numbered 300 or greater, excluding any 398, 498, or 598 Internship.

Courses to total 127 credits for this degree, not counting ENGL 101, any 398 (Internship), any 498 (Internship), any 598 (Internship), or mathematics courses numbered lower than MATH 170, and other courses that might be required to remove deficiencies.

To be enrolled in upper-division MSE courses, a student majoring in chemical engineering must earn a grade of C or better in each of the following courses:

Code	Title	Hours
CHEM 111 & 111L	Principles of Chemistry I and Principles of Chemistry I Laboratory	4
CHEM 112 & 112L	Principles of Chemistry II and Principles of Chemistry II Laboratory	5
ENGR 210	Engineering Statics	3
ENGR 335	Engineering Fluid Mechanics	3
MATH 275	Analytic Geometry and Calculus III	3
MATH 310	Ordinary Differential Equations	3
MSE 201	Elements of Materials Science	3
PHYS 211	Engineering Physics I	3
PHYS 212	Engineering Physics II	3

In addition, a passing grade is required in each of the following courses before enrolling in upper-division MSE courses:

Code	Title	Hours
ENGL 102	College Writing and Rhetoric	3
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
MSE 101	Introduction to Metallurgy and Materials Science	2

A student majoring in materials science and engineering may not register for upper-division MSE courses after accumulating more than four grades of D or F in UI mathematics, science, or engineering courses. Included in this number are multiple repeats in a single class or single repeats in multiple classes. A warning will be issued in writing to students who have accumulated two grades of D or F used to satisfy curricular requirements.

A GPA in MSE designated courses of at least 2.0 is required to graduate.

Materials Science and Engineering (M.S.)

Master of Science. Major in Materials Science and Engineering.

Thesis and Non-thesis options are available. General M.S. requirements apply.

Materials Science and Engineering (Ph.D.)

Doctor of Philosophy. Major in Materials Science and Engineering.

While most students entering the graduate program possessing only the bachelor's degree will first earn the M.S., it is possible to bypass the M.S. and work directly toward the Ph.D. Students electing this option will be expected to critically analyze a current research area as part of their degree requirements. This will constitute their Ph.D. qualifying examination. For others, the oral M.S. thesis examination serves as the Ph.D. qualifying examination. A written research proposal modeled after those submitted to such agencies as the National Science Foundation is required as part of the requirements for the Ph.D.

Materials Science and Engineering Minor

Note: If completing both the Materials Science and Engineering major or minor and the Metallurgical Engineering minor, students must have 6 unique credits towards each minor.

Code	Title	Hours
MSE 201	Elements of Materials Science	3
Select 17 credits from the following courses:		17
ENGR 350	Engineering Mechanics of Materials	
MSE 313	Physical Metallurgy	
MSE 340	Transport and Rate Processes I	
MSE 412	Mechanical Behavior of Materials	
MSE 423	Corrosion	
MSE 427	Ceramics Materials	
MSE 432	Fundamentals of Thin Film Fabrication	
MSE 434	Fundamentals of Polymeric Materials	
MSE 438	Fundamentals of Nuclear Materials	
MSE 456	Metallic Materials	
MSE 464	Materials Physics and Engineering	
PHYS 212	Engineering Physics II	
PHYS 212L	Laboratory Physics II	
Total Hours		20

Courses to total 20 credits for this minor

Metallurgical Engineering (M.S.)

Master of Science. Major in Metallurgical Engineering.

Thesis and non-thesis options are available. General M.S. requirements apply.

Metallurgical Engineering Minor

Code	Title	Hours
MSE 201	Elements of Materials Science	3
MSE 313	Physical Metallurgy	3

MSE 456	Metallic Materials	3
Select 6 credits from the following:		6
ENGR 350	Engineering Mechanics of Materials	
MSE 308	Thermodynamics of Materials	
MSE 340	Transport and Rate Processes I	
MSE 341	Particulate Materials Processing	
MSE 423	Corrosion	
MSE 438	Fundamentals of Nuclear Materials	
PHYS 212	Engineering Physics II	
MSE Electives to total 22 credits		7
Total Hours		22

Courses to total 22 credits for this minor

Metallurgy (M.S.)

Master of Science. Major in Metallurgy.

Thesis Only. General M.S. requirements apply.

Department of Civil and Environmental Engineering

Civil and Environmental Engineering consists of the application of scientific principles to the design of public and private works that constitute the infrastructure for human populations. From a historical aspect, the pyramids of Egypt, the water resources systems that supported the agricultural society of ancient Babylonia and Assyria, the public buildings of Greece and Rome, the roads that linked the Roman Empire, and the railroads and barge canals of the early United States were all civil engineering projects that served the people of their times. Today's civil engineers are still involved in building and maintaining the infrastructure necessary for modern society to function. A civil engineer may be involved in the design and construction of highways, bridges, buildings, water conveyance systems, water and wastewater treatment plants, dams, airports, and other constructed projects. Civil engineers may also be involved in planning for traffic controls, flood plain management, remediation of contaminated soils or groundwater, and water and air quality management. The graduates of civil engineering programs may work with consulting engineering firms, governmental agencies, construction contractors, or manufacturing industries.

In the foreseeable future, population growth and relocation should create a steady demand for infrastructure growth. The concept of environmentally sensitive and resource sustainable development is emerging as the tenet for future growth. Civil engineers will have to apply evolving technologies and develop innovative solutions to ensure wise stewardship of our limited natural resources. Students who enter civil engineering can anticipate a challenging and rewarding career.

Lower-division courses in civil engineering consist of a common core of basic courses in science, mathematics, and engineering required of most students within the college. Required course work in the junior and senior years provides the student with a broad background in civil engineering subjects while technical electives permit some specialization at the undergraduate level. For civil engineering students interested in geology, there is an option to complete a minor in Geological Engineering.

The Department of Civil and Environmental Engineering occupies the first floor of the Buchanan Engineering Laboratory Building with some

additional office and laboratory spaces in the basement and on the second floor of the building.

The Department offers three graduate degree programs in civil engineering:

1. Master of Science (30 credits, with thesis),
2. Master of Engineering (33 credits, non-thesis), and
3. Doctor of Philosophy.

It also offers the Master of Science in Geological Engineering (both thesis and non-thesis options). Course work requirements in each of the degree programs are relatively flexible depending on student interest and course availability. Financial assistance is available on a competitive basis in the form of teaching and research assistantships. Students interested in graduate studies should select a specialty area in which they wish to study. Foreign students must have a TOEFL score of at least 550 for admission to any departmental graduate degree program. We do not currently require the GRE.

Graduate study is offered with specialization in environmental engineering, structures and structural mechanics, highway and pavement materials, geotechnical engineering, transportation, hydraulics, ecohydrology and water resources, and geological engineering. Interdisciplinary programs of study are encouraged for interested students. As examples, students specializing in environmental engineering may do considerable work in chemical engineering or microbiology, while specialization in geotechnical engineering may involve study in geology.

The mission of the Department of Civil and Environmental Engineering is to provide a high quality education at both the undergraduate and graduate level, emphasizing the needs of Idaho and the region. Upon completion of the University of Idaho's bachelor's degree in civil engineering, we expect our graduates to be:

1. competent in the fundamentals of engineering,
2. capable of designing and describing civil engineering systems and processes
3. aware of the social, economic and environmental implications of engineered projects, and
4. responsible, ethical, and committed to life-long learning.

Additionally, the department is committed to:

1. maintaining experienced, professional instructors (all are licensed professional engineers), modern facilities, and close interaction between the department and the professional engineering community in Idaho,
2. extending the knowledge base in civil engineering through research, continuing education, technology transfer, and professional practice

The Bachelor of Science (B.S.) degree program in civil engineering at the University of Idaho is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

Majors

- Civil Engineering (B.S.C.E.) (p. 200)

Minors

- Geological Engineering Minor (p. 202)

Civil and Environmental Engineering Graduate Program

Graduate study is offered with specialization in the following subdisciplines of civil engineering: hydraulics and water resources engineering, ecohydrology (in Boise only), environmental engineering, structural engineering, geotechnical engineering, materials and transportation engineering.

- Civil Engineering (M.S.) (p. 201)
- Civil Engineering (M.Engr.) (p. 201)
- Civil Engineering (Ph.D.) (p. 201)
- Geological Engineering (M.S.) (p. 201)

Civil Engineering (B.S.C.E.)

To graduate in this program, a minimum grade of C must be earned in all engineering, mathematics, and science courses used to satisfy the curriculum.

Any student majoring in civil engineering may accumulate no more than 14 credits of D or F in mathematics, science, technical elective or engineering courses that are used to satisfy graduation requirements. Included in this number are multiple repeats of a single class or single repeats in multiple classes and courses transferred from other institutions. A warning will be issued in writing to students who have accumulated 7 credits of D or F in mathematics, science, technical elective, or engineering classes used to satisfy curricular requirements.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
CE 115	Introduction to Civil Engineering	1
CE 211	Engineering Surveying	3
CE 215	Civil Engineering Analysis and Design	3
CE 322	Hydraulics	4
CE 325	Fundamentals of Hydrologic Engineering	3
CE 330	Fundamentals of Environmental Engineering	3
CE 342	Theory of Structures	3
CE 357	Properties of Construction Materials	4
CE 360	Fundamentals of Geotechnical Engineering	4
CE 372	Fundamentals of Transportation Engineering	4
CE 491	Civil Engineering Professional Seminar	1
CE 494	Senior Design Project	3
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
ENGL 317	Technical Writing	3
ENGR 105	Engineering Graphics	2
ENGR 210	Engineering Statics	3
ENGR 220	Engineering Dynamics	3
ENGR 240	Introduction to Electrical Circuits	3
or ENGR 320	Engineering Thermodynamics and Heat Transfer	
ENGR 335	Engineering Fluid Mechanics	3
ENGR 350	Engineering Mechanics of Materials	3
ENGR 360	Engineering Economy	2
GEOL 111	Physical Geology for Science Majors	3

GEOL 111L	Physical Geology for Science Majors Lab	1
or GEOL 101L	Physical Geology Lab	
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
MATH 275	Analytic Geometry and Calculus III	3
MATH 310	Ordinary Differential Equations	3
PHIL 103	Ethics	3
or AMST 301	Studies in American Culture	
PHYS 211	Engineering Physics I	3
STAT 301	Probability and Statistics	3
Select one of the following:		3-4
ECON 201	Principles of Macroeconomics	
ECON 202	Principles of Microeconomics	
ECON 272	Foundations of Economic Analysis	
Select one of the following:		4-5
BIOL 115	Cells & the Evolution of Life	
& 115L	and Cells and the Evolution of Life Laboratory	
BIOL 154	Introductory Microbiology	
& BIOL 155	and Introductory Microbiology Laboratory	
CHEM 112	Principles of Chemistry II	
& 112L	and Principles of Chemistry II Laboratory	
PHYS 212	Engineering Physics II	
& 212L	and Laboratory Physics II	

Technical Electives

Select 21 credits from the following with at least 15 credits from at least three of the following five groups:¹ 21

Environmental:

CE 431	Design of Water and Wastewater Systems I
CE 432	Design of Water and Wastewater Systems II
CE 433	Water Quality Management

Geotechnical:

CE 460	Geotechnical Engineering Design
GEOE 436	Geological Engineering Analysis and Design

Hyd/Water Resources:

CE 421	Engineering Hydrology
CE 422	Hydraulic Structures Analysis and Design
CE 428	Open Channel Hydraulics

Structures:

CE 441	Reinforced Concrete Design
CE 444	Steel Design
CE 445	Matrix Structural Analysis

Transportation:

CE 474	Traffic Systems Design
CE 475	Pavement Design and Evaluation

Total Hours 117-119

¹ Other CE 400 Seminar level classes (except CE 411 Engineering Fundamentals), or approved alternatives, may be used to complete the required 21 cr of tech electives.

Courses to total 129 credits for this degree, not counting Math below 170, English below 102, and any classes needed to remove deficiencies.

Civil Engineering (M.Engr.) Master of Engineering. Major in Civil Engineering.

A thesis is not required for the Master of Engineering degree.

Course requirements in the M.Engr. degree program are relatively flexible depending on student interest and course availability. This degree may be completed on a part-time basis and entirely online. Students in this degree program are not eligible to receive graduate assistantships.

Graduate study is offered with specialization in structures, highway and pavement materials, soil mechanics, transportation, hydraulics and water resources, geological engineering and environmental engineering.

All admission requirements for the College of Graduate Studies apply. Applicants for admission generally will have a B.S. degree in civil engineering; however, those with B.S. degrees in other areas (e.g., other areas of engineering, mathematics, physics) are also eligible for admission.

Graduate degree applicants not holding B.S. degrees in civil engineering are required to show evidence of completing the following undergraduate coursework: mathematics through differential equations, and one semester each of chemistry, calculus-based physics and engineering statics. Once admitted, additional preparatory coursework will be determined by the student's advisory committee and/or as prerequisites to courses listed in the student's study plan.

Candidates for graduate study must fulfill the requirements of the College of Graduate Studies and of the Department of Civil & Environmental Engineering. A minimum of 33 credits is required for the Master of Engineering degree. A thesis is not required, but M.Engr. degree candidates are required to demonstrate the ability to write a technical paper or report.

Civil Engineering (M.S.) Master of Science. Major in Civil Engineering.

An approved thesis is required for Master of Science degree.

Course requirements in this degree program are relatively flexible depending on student interest and course availability. Financial assistance is available on a competitive basis in the form of instructional or graduate research assistantships. Areas of specialty include the following:

- Environmental Engineering
- Geotechnical Engineering
- Hydraulics and Water Resources Engineering
- Ecohydraulics (in Boise only)
- Structural Engineering
- Transportation Engineering
- Highway and Pavement Materials

All admission requirements for the College of Graduate Studies apply. Applicants for admission generally will have a B.S. degree in civil engineering; however, those with B.S. degrees in other areas (e.g.,

other areas of engineering, mathematics, physics) are also eligible for admission.

Graduate degree applicants not holding B.S. degrees in civil engineering are required to show evidence of completing the following undergraduate coursework: mathematics through differential equations, and one semester each of chemistry, calculus-based physics and engineering statics. Once admitted, additional preparatory coursework will be determined by the student's advisory committee and/or as prerequisites to courses listed in the student's study plan. An approved thesis is required for Master of Science degree.

Civil Engineering (Ph.D) Doctor of Philosophy. Major in Civil Engineering.

Persons interested in pursuing a doctoral degree should contact faculty members with whom they wish to work before admission to the College of Graduate Studies. We accept only those students for the Ph.D. degree to whom we can offer financial support. Programs are offered with specialization in the following general areas:

- Environmental Engineering
- Geotechnical Engineering
- Structural Engineering
- Transportation and Materials Engineering
- Water Resources, Hydrology and Hydraulics
- Ecohydraulics (in Boise)

All admission requirements for the College of Graduate Studies apply. Applicants for admission generally will have B.S. and/or M.S. degrees in civil engineering or a closely related field.

The qualifying examination is written and/or oral, and the preliminary examination is written and oral. Candidates must fulfill both the requirements of the College of Graduate Studies and of the Department of Civil & Environmental Engineering. See the College of Graduate Studies (p. 221) section of the U of I Catalog for the General Requirements applicable to each degree.

Course work requirements are relatively flexible depending on student interest, previous training and course availability. Financial assistance is available on a competitive basis in the form of graduate research assistantships. Students interested in graduate studies should select a specialty area in which they wish to study. Entrance requirements for the College of Graduate Studies apply. Foreign students must have a TOEFL score of at least 550 for admission to any departmental graduate degree program. We do not require the GRE. Conditional admission for Ph.D. applicants is not recommended.

For more information about civil and environmental engineering graduate studies, send requests to cee@uidaho.edu.

Geological Engineering (M.S.) Master of Science. Major in Geological Engineering.

Geological Engineering is the professional discipline that relies on the use of geologic conditions and implications for:

1. the design and construction of civil and mining projects,

2. the evaluation and mitigation of natural and human-caused geologic hazards, and
3. the exploration and development of mineral and energy resources.

All admission requirements for the College of Graduate Studies apply. Applicants for admission generally will have a B.S. degree in civil engineering or geology; however, those with B.S. degrees in other areas (e.g., other areas of engineering, mathematics, physics) are also eligible for admission.

Graduate students enrolled in this program take a combination of courses in such areas as geological engineering, civil engineering (soil mechanics), hydrogeology, and site characterization. The degree requires a minimum of 30 semester credits beyond the baccalaureate degree. Of those 30 credits, at least 18 must be from 500-level graduate courses. The degree program is available with a thesis option and a non-thesis option. The thesis option requires 6 credits of thesis work approved by faculty who serve on the student's graduate committee. The non-thesis option is available to students who have at least two years of professional experience; this program requires a 3-credit directed study research paper and a final oral examination.

The following courses are considered to be the minimum preparation necessary for admission to the Geological Engineering Master of Science degree program. Students who do not have an adequate background in these subject areas will be required to satisfactorily complete those in which they are deficient. The actual course content of the program will depend on the student's background and career objectives. Each program is tailored to the individual student.

Required Deficiency Courses:

- Engr 210 Engineering Statics
- Engr 220 Engineering Dynamics
- Engr 335 Engineering Fluid Mechanics
- Engr 350 Engineering Mechanics of Materials
- Geol 345 Structural Geology
- Mathematics through Differential Equations

For additional information regarding the graduate program in Geological Engineering, contact the GeoE Program Director.

Geological Engineering Minor

Courses to total 31 credits for this minor

Department of Computer Science

Computer science is the systematic study of algorithmic processes that describe and transform information: their theory, analysis, design, efficiency, implementation, and application. It is a broad discipline with an ever-growing array of opportunities. Graduates in this field can find employment in a wide spectrum of public and private enterprises.

The field of computer science encompasses many areas of specialization. One may find a personal niche in software development, systems development and hardware selection, studies of compatibility between hardware and software, programming language development and modification, information assurance, bioinformatics or perhaps a combination of these and any number of other diverse computer-oriented applications and concepts. Because of this diversity in potential application areas, the computer scientist must be familiar with the language of the physical or biological sciences, mathematics, and English. If the computer is to extend its role as a benefit to mankind, the computer scientist must be broadly educated and conversant with the many implications of the powerful tool that he or she is controlling and developing.

The Department of Computer Science was formed in 1981 and is in the College of Engineering (p. 190). The Bachelor of Science in Computer Science has been offered at UI since 1977. This program consists of a carefully designed computer science core, surrounded by an extensive array of challenging technical elective courses. The core consists of courses in algorithms and data structures, programming languages, computer architecture, operating systems, software engineering, theory of computation, and a senior capstone design experience. All of these courses have important components of theory, abstraction, and design.

The Bachelor of Science program in computer science is accredited by the Computing Accreditation Commission (CAC) of the Accreditation Board for Engineering and Technology (ABET) 111 Market Place, Suite 1050, Baltimore, MD 21202-4012 – telephone: 410-347-7700.. The department has made substantial contributions to achieving the University's designation by the US Department of Homeland Security, as a National Center of Excellence in Information Assurance Education.

The department offers graduate programs leading to the degrees, Master of Science and Doctor of Philosophy. These programs combine a core of advanced work with a complement of elective courses selected to provide a focused plan of study.

Students in computer science have the unique opportunity to draw from the expertise of an outstanding faculty with extensive experience in industry, teaching, and research. Computers currently available to students include an extensive department network of UNIX, Linux, and Windows-based workstations and several campus personal computer laboratories for research focus. All major campus and department computer systems are networked together with Internet connections, providing a state-of-the-art computing environment. The department was instrumental in establishing the Center for Secure and Dependable Systems (CSDS) and the Initiative for Bioinformatics and Evolutionary Studies (IBEST). The importance of these labs can be seen from the range of private and government funding which supports the department's research in computer security, computer reliability, bioinformatics, evolutionary computation and high performance computing.

Majors

- Computer Science (B.S.C.S.) (p. 203)

Minors

- Computer Science Minor (p. 205)

Computer Science Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and the Department of Computer Science. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Secure and Dependable Computer Systems Graduate Academic Certificate (p. 205)
- Computer Science (M.S.) (p. 203)
- Computer Science (Ph.D.) (p. 204)

Computer Science (B.S.C.S.)

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
COMM 101	Fundamentals of Public Speaking	2
ENGL 317	Technical Writing	3
CS 120	Computer Science I	4
CS 121	Computer Science II	3
CS 150	Computer Organization and Architecture	3
CS 210	Programming Languages	3
CS 240	Computer Operating Systems	3

GEOG 100	Physical Geography	
GEOG 301	Meteorology	
GEOG 401	Climatology	
All Geology courses		
All Microbiology, Molecular Biology and Biochemistry courses		
All Physics courses PHYS 100, PHYS 200, PHYS 400, and PHYS 403		
Total Hours		85-86

¹ except MATH 400, MATH 404, MATH 499, and MTHE 513-MTHE 516.

Courses to total 120 credits for this degree, not counting ENGL 101, MATH 143, and other courses that might be required to remove deficiencies. A minimum grade of 'C' is required in the following courses in order to graduate:

Code	Title	Hours
CS 120	Computer Science I	4
CS 121	Computer Science II	3
CS 150	Computer Organization and Architecture	3
CS 210	Programming Languages	3
CS 240	Computer Operating Systems	3
CS 270	System Software	3
MATH 170	Analytic Geometry and Calculus I	4
MATH 176	Discrete Mathematics	3
MATH 175	Analytic Geometry and Calculus II	4

Students majoring in computer science must earn a grade of C or better in CS 120, CS 121, and CS 150 and a C or better in MATH 176 before registration is permitted in 200 level CS courses. Students majoring in computer science must earn a grade of C or better in CS 210, CS 240, CS 270, and MATH 170 and MATH 175 before registration is permitted in upper-division CS courses.

Students must consult with their advisors when selecting electives within the curriculum to insure that their career objectives are met.

Computer Science (M.S.)

Candidates must fulfill the requirements of the College of Graduate Studies and the Department of Computer Science. See the College of Graduate Studies section for the general requirements applicable to each degree. No 300-level course that is required in the B.S.C.S. curriculum may be used to satisfy the requirements of the graduate degree.

A graduate degree in computer science from UI prepares a student for a lifetime of discovery. It enables the graduate to advance the state of the art in computing, not merely to keep up with it. The graduate program develops the student's critical thinking, investigatory, and expository

skills. The student will learn the foundations of computer science theory and application, and the interaction between the two. By understanding the extent and limitation of current knowledge in computer science, the graduate will learn to understand what issues are important and why. He or she will acquire the methodological skills to resolve important open problems and tackle challenging new projects. The student will learn to present problems and solutions, both orally and in writing. For examples of active research areas please visit the department's website www.cs.uidaho.edu.

The study of computer science at the graduate level requires mathematical maturity, skill in the use of high-level and machine-level programming languages, and basic knowledge of computer hardware. Admission to this program is highly competitive. An undergraduate degree in Computer Science is not a requirement. Students with a bachelor's degree from other closely allied undergraduate programs will be considered. Students who wish to enter the graduate program must ultimately demonstrate competence in specific areas equivalent to the material covered in several of the undergraduate computer science core courses. We expect at least a 3.0 undergraduate GPA, but take into account other student achievements. International students for whom English is a second language must have a TOEFL score of 550 or higher for the written test, 213 or higher for the computer based test, or 79 or higher for the internet-based test.

As a prerequisite to graduate program admission, competence in the following areas must be demonstrated: knowledge of a structured, high-level language; algorithms and data structures; and a full year of calculus.

If prerequisite requirements are met, a student who does not have an adequate coursework background in computer science may be admitted with deficiencies. He or she must then demonstrate knowledge of this material early on in their graduate studies by either taking the GRE Computer Science Subject Test and receiving a score in the 60th percentile or higher or by completing those courses in which he or she is deficient. Deficiency areas for graduate work in computer science are: computer organization and architecture; computer languages; computer operating systems; software engineering; analysis of algorithms; and theory of computation. Credit for deficiency courses cannot be counted toward the total credits required for the graduate degree.

Master of Science. Major in Computer Science.

The following are requirements for receiving an M.S. degree in computer science from UI. There is both a thesis and a non-thesis option, though in both options the student must complete courses in the graduate CS core and in a focused plan of study. In both options, the student must successfully complete at least 18 credit hours of 500-level courses and at least 18 credit hours of CS courses.

A graduate degree represents mastery of the theory underlying one's discipline, a graduate breadth requirement. This is the foundation on which further study should be based.

The student must acquire depth in at least one major area by developing a focused plan of study in consultation with the major advisor. This should be a program that investigates some aspect of computer science in depth, consistent with the goals of the graduate program in computer science.

The thesis option requires at least 30 credit hours of study. Specific requirements are: graduate breadth requirement; at least one semester of CS Graduate Seminar, CS 501 (1 cr); and Master's Research and Thesis, CS 500 (at least 6 cr). The thesis must be in the approved format and must represent significant scholarly achievement. The thesis must be presented at a public colloquium.

The non-thesis option requires at least 30 credit hours of study, up to 6 credits of which can be CS 580. Specific requirements are: graduate breadth requirement and at least one semester of CS Graduate Seminar, CS 501 (1 cr). At the end of the program, non-thesis students must pass a comprehensive examination that covers their graduate studies.

Computer Science (Ph.D.)

Candidates must fulfill the requirements of the College of Graduate Studies and the Department of Computer Science. See the College of Graduate Studies section for the general requirements applicable to each degree. No 300-level course that is required in the B.S.C.S. curriculum may be used to satisfy the requirements of the graduate degree.

A graduate degree in computer science from UI prepares a student for a lifetime of discovery. It enables the graduate to advance the state of the art in computing, not merely to keep up with it. The graduate program develops the student's critical thinking, investigatory, and expository skills. The student will learn the foundations of computer science theory and application, and the interaction between the two. By understanding the extent and limitation of current knowledge in computer science, the graduate will learn to understand what issues are important and why. He or she will acquire the methodological skills to resolve important open problems and tackle challenging new projects. The student will learn to present problems and solutions, both orally and in writing. For examples of active research areas please visit the department's website www.cs.uidaho.edu.

The study of computer science at the graduate level requires mathematical maturity, skill in the use of high-level and machine-level programming languages, and basic knowledge of computer hardware. Admission to this program is highly competitive. An undergraduate degree in Computer Science is not a requirement. Students with a bachelor's degree from other closely allied undergraduate programs will be considered. Students who wish to enter the graduate program must ultimately demonstrate competence in specific areas equivalent to the material covered in several of the undergraduate computer science core courses. We expect at least a 3.0 undergraduate GPA, but take into account other student achievements. International students for whom English is a second language must have a TOEFL score of 550 or higher for the written test, 213 or higher for the computer based test, or 79 or higher for the internet-based test.

As a prerequisite to graduate program admission, competence in the following areas must be demonstrated: knowledge of a structured, high-level language; algorithms and data structures; and a full year of calculus.

If prerequisite requirements are met, a student who does not have an adequate coursework background in computer science may be admitted with deficiencies. He or she must then demonstrate knowledge of this material early on in their graduate studies by either taking the GRE Computer Science Subject Test and receiving a score in the 60th percentile or higher or by completing those courses in which he or she is deficient. Deficiency areas for graduate work in computer science are: computer organization and architecture; computer languages;

computer operating systems; software engineering; analysis of algorithms; and theory of computation. Credit for deficiency courses cannot be counted toward the total credits required for the graduate degree.

Doctor of Philosophy. Major in Computer Science.

The PhD degree represents a continuation in the mastery of the theory underlying computer science. A doctoral student develops a graduate program of at least 78 semester hours in consultation with his or her major professor and supervisory committee. The PhD graduate candidate must successfully complete the CS graduate breadth requirement. As a part of the program the student is required to include at least two semesters of CS 501 (graduate seminar). The student must have at least one full semester of teaching experience, with the teaching assignment determined by the student's supervisory committee. There is no foreign language requirement. The student must satisfy the residency requirement by spending at least two terms at the Moscow campus or a UI Residence Center. The purpose of the residency requirement is to provide the student with access to facilities, faculty, and colleagues.

The qualifying examination is a written and/or oral examination, administered by the student's graduate committee, which covers fundamental areas of computer science. The preliminary examination is an examination of a student's proposed dissertation research, including both a written proposal and an oral public presentation covering related research, preliminary results, and a research plan. The student must produce a dissertation, presenting an original, significant contribution to computer science. The dissertation should be publishable, in whole or in part, and should demonstrate the ability of the candidate to successfully initiate and pursue a significant, original research project. A public presentation and defense of the final dissertation is required. It is expected that all PhD students will publish the results of their research before completion of their degree.

Department of Electrical and Computer Engineering

The Department of Electrical and Computer Engineering offers degree programs in the closely related fields of electrical engineering and computer engineering. The electrical engineering program spans the subdisciplines of analog electronics, electric power, electromagnetics, computers, and communication and control systems. The computer engineering program focuses on the architecture, programming, and application of digital computers. Bachelor of Science, Master of Science, and Master of Engineering degrees are offered in both electrical engineering and computer engineering. The Doctor of Philosophy degree is offered in electrical engineering and encompasses research in both electrical and computer engineering.

Mission and Vision

The mission of the department is to educate students for the professional practice of electrical and computer engineering by offering undergraduate and graduate programs that encourage lifelong learning, foster teamwork and leadership, and promote creative discovery. The department is committed to maintaining the highest possible standards in teaching, scholarship, advising, and service. The vision of the department is to continue to expand its role in the state and region as a provider of outstanding undergraduate and graduate education programs in electrical and computer engineering.

Continuous Improvement

The department uses a continuous improvement process to attain the program educational objectives set forth below. Each of the broad objectives is associated with a number of specific student outcomes that are measured by a variety of assessment tools. Programs are assessed annually to identify problems and initiate changes to ensure that program objectives are being met. Additional information about the assessment and continuous improvement process is available under the department web page.

The department is proud of its over 100-year history and its more than 2,500 alumni. Our graduates have become productive engineers and industrial and community leaders all over the nation and the world, and are actively recruited by major employers of electrical and computer engineers. Both the Electrical and Computer Engineering programs are accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, ph. 410-347-7700. Graduates of our program consistently score higher than the national

average on the Fundamentals of Engineering examination administered by the National Council of Examiners for Engineering and Surveying.

The department offices and laboratories are located in the Buchanan Engineering Laboratory and the Gauss-Johnson Laboratory on the Moscow campus. Courses are also offered through branch campuses located in Boise, Idaho Falls, and Coeur d'Alene, and through the Engineering Outreach program.

Electrical Engineering Undergraduate Program

Electrical engineering involves the application of electrical phenomena for the benefit of society. Electrical engineers design and use circuits and systems for computers, instruments, communications devices, and power conversion equipment.

Program Educational Objectives

The program educational objectives of the electrical engineering program are to produce graduates who:

1. **Learn and Integrate.** Graduates of the program will demonstrate proficiency in identifying, formulating, and solving engineering problems by applying their knowledge and understanding of mathematics, science, and engineering.
2. **Think and Create.** Graduates of the program will demonstrate proficiency in designing analog and digital circuits and systems, power systems, control systems, or computing systems. They will demonstrate the capabilities of analyzing, designing, implementing, and verifying circuits, devices, and systems to meet specified requirements while considering real-world constraints.
3. **Communicate.** Graduates of the program will demonstrate an ability to communicate effectively through oral and written media to interdisciplinary groups, including team members, constituents, and the public.
4. **Clarify Purpose and Perspective.** They will engage in lifelong learning activities to further develop their technical and professional capabilities and skills.
5. **Practice Citizenship.** Graduates of the program demonstrate knowledge of professional and ethical responsibility. They will consider the societal impact of their work, and/or add value to the profession and to society through active engagement in professional societies, community services, and outreach to future generations of engineers.

Students in the electrical engineering program are assigned an advisor upon entry into the program. The advisor helps the student prepare appropriate class schedules each semester and provides guidance on other academic and professional issues. Students can take an electrical engineering course in their freshman year that introduces them to the field and helps prepare them for further study. Required courses in the freshman year help develop a solid foundation in physics, chemistry, mathematics, and writing. Foundation courses in science, mathematics, and engineering are continued in the sophomore year, including the first two courses in electrical circuits. The junior year exposes the student to a wide variety of electrical engineering courses to develop breadth in electrical engineering knowledge and skills. In the senior year, students specialize in specific areas of electrical engineering through the choice of technical electives. Students also take a two-semester sequence of design courses where students learn to design, test, and build an electrical engineering circuit or system. Additional courses in the humanities, social sciences, and English help prepare the graduate to become a well-rounded and productive member of society.

Computer Engineering Undergraduate Program

Computer engineering involves the application of the principles of electrical engineering and computer science for the benefit of society. Computer engineers design and use digital computers for instrumentation, control, communication, and power conversion systems.

Program Educational Objectives

The program educational objectives of the computer engineering program are to produce graduates who:

1. **Learn and Integrate.** Graduates of the program will demonstrate proficiency in identifying, formulating, and solving engineering problems by applying their knowledge and understanding of mathematics, science, and engineering.
2. **Think and Create.** Graduates of the program will demonstrate proficiency in analysis and design of hardware and software-based systems using modern methods and tools to meet specified requirements while considering real-world constraints.
3. **Communicate.** Graduates of the program will demonstrate an ability to communicate effectively through oral and written media to interdisciplinary groups, including team members, constituents, and the public.
4. **Clarify Purpose and Perspective.** They will engage in lifelong learning activities to further develop their technical and professional capabilities and skills.
5. **Practice Citizenship.** Graduates of the program demonstrate knowledge of professional and ethical responsibility. They will consider the societal impact of their work, and/or add value to the profession and to society through active engagement in professional societies, community services, and outreach to future generations of engineers.

Students in the computer engineering program are assigned an advisor upon entry into the program. The advisor helps the student prepare appropriate class schedules each semester and provides guidance on other academic and professional issues. In the freshman year, students take introductory courses in physics, mathematics, and computer science to help develop a solid foundation based on these fundamental areas. The sophomore year continues with more physics and mathematics, but also introduces the students to more advanced courses in computer science, computer engineering, and electrical circuits. The junior year provides breadth in several areas of electrical and computer engineering and computer science including electronics, signals and systems, microcontrollers, programming languages, and operating systems. The senior year allows the student to develop some depth of knowledge in selected areas through a variety of technical elective courses. In addition, the student takes a two-semester sequence of design courses where students learn to design, test, and build a computer engineering system. Additional courses in the humanities, social sciences, English, and public speaking help prepare the graduate to become a well-rounded and productive member of society.

Note: In addition to college requirements for admission to classes (see "Admission to Classes" (p. 190) under the College of Engineering (p. 190) section), students majoring in electrical engineering or computer engineering must earn a grade of C or better in certain lower division courses and a passing grade in ECE 292 as prerequisite to any upper-division course in electrical engineering or computer engineering. Advisor's approval is required for admission to all ECE courses.

Majors

- Computer Engineering (B.S.Comp.E.) (p. 207)
- Electrical Engineering (B.S.E.E.) (p. 209)

Electrical and Computer Engineering Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Electrical and Computer Engineering. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Analog Integrated Circuit Design Graduate Academic Certificate (p. 207)
- Power System Protection and Relaying Graduate Academic Certificate (p. 213)
- Computer Engineering (M.S.) (p. 208)
- Computer Engineering (M.Engr.) (p. 208)
- Electrical Engineering (M.Engr.) (p. 211)
- Electrical Engineering (M.S.) (p. 212)
- Electrical Engineering (Ph.D.) (p. 212)

Analog Integrated Circuit Design Graduate Academic Certificate

Note: A grade of 'B' or higher is required in all coursework for this academic certificate.

Code	Title	Hours
ECE 515	Analog Integrated Circuit Design	3
ECE 517	Mixed Signal IC Design	3
ECE 565	Introduction to Microelectronics Fabrication	3
Select 3 credits from the following Electives:		3
ECE 410	Microelectronics II	
ECE 430	Microwave and Millimeter Wave Circuits

Select one of the following:		3-4
ECON 201	Principles of Macroeconomics	
ECON 202	Principles of Microeconomics	
ECON 272	Foundations of Economic Analysis	

Technical Electives

Select from upper-division computer engineering, electrical engineering, and computer science courses:

Total Hours 112-113

Courses to total 128 credits for this degree, not counting ENGL 101, MATH 143, and other courses that might be required to remove deficiencies.

Students majoring in computer engineering must earn a grade of P in ECE 292 and a grade of C or better in each of the following courses for graduation, and before registration is permitted in upper-division engineering courses:

Code	Title	Hours
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
CS 120	Computer Science I	4
ECE 210	Electrical Circuits I	3
ECE 211	Electrical Circuits Lab I	1
ECE 212	Electrical Circuits II	3
ECE 213	Electrical Circuits II Lab	1
ECE 240	Digital Logic	3
ECE 241	Logic Circuit Lab	1
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
MATH 310	Ordinary Differential Equations	3
PHYS 211	Engineering Physics I	3
PHYS 211L	Laboratory Physics I	1
PHYS 212	Engineering Physics II	3
PHYS 212L	Laboratory Physics II	1

Students majoring in computer engineering must earn a grade of C or better in each of the following courses for graduation, and before registration is permitted in 200-level CS courses:

Code	Title	Hours
CS 120	Computer Science I	4
CS 121	Computer Science II	3
CS 150	Computer Organization and Architecture	3
MATH 176	Discrete Mathematics	3

Students majoring in computer engineering must earn a grade of C or better in each of the following courses for graduation, and before registration is permitted in upper-division CS courses:

Code	Title	Hours
CS 210	Programming Languages	3
CS 240	Computer Operating Systems	3
CS 270	System Software	3
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
MATH 176	Discrete Mathematics	3

Students majoring in computer engineering must meet the college requirements for admission to classes (see "Admission to Classes (p. 190)" under college of Engineering, part four).

Any student majoring in computer engineering may accumulate no more than five (5) letter grades of D's and F's in mathematics, science, or engineering courses that are used to satisfy graduation requirements. Included in this number are multiple repeats of a single class or single repeats in multiple classes and courses transferred from other institutions. Specifically excluded are D or F grades from laboratory sections associated with courses.

Computer Engineering (M.Engr.)

The Computer Engineering Program offers both Master of Science and Master of Engineering degrees. Both degrees may be earned through the Engineering Outreach off campus program. These advanced degrees offer engineering students an opportunity to strengthen their knowledge

of computer engineering by taking graduate courses that focus on advanced subject matter and by participating in research.

Qualifications for Admittance

Candidates must have a bachelor's degree in computer engineering, with an undergraduate GPA of 3.00 or higher. International students who are required to take the TOEFL examination by the College of Graduate Studies must have a TOEFL score of at least 79 for the Internet-based Test (iBT) version or 550 for the paper version. All candidates must submit scores from the general portion of the Graduate Record Examination.

Candidates who do not have a bachelor's degree in computer engineering may be admitted to the graduate program if they meet the following minimum requirements in addition to the Electrical and Computer Engineering department and College of Graduate Studies admissions requirements.

1. A bachelor's degree in electrical engineering, computer science, or another engineering discipline or in a science such as mathematics or physics.
2. Demonstrated proficiency in the fundamentals of computer engineering emphasized in the undergraduate curriculum. Proficiency is demonstrated by successful completion of the following fundamental courses or their equivalents¹:

Code	Title	Hours
CS 240	Computer Operating Systems	3
ECE 240	Digital Logic	3
ECE 310	Microelectronics I	3
ECE 340	Microcontrollers	3
ECE 350	Signals and Systems I	3
ECE 440	Digital Systems Engineering	3
MATH 310	Ordinary Differential Equations	3
MATH 330	Linear Algebra (does not count for the graduate credit)	3

¹ Does not count for graduate credit.

Students may petition the graduate committee for exceptions to the required background list if their advisor or interim advisor approves.

Master of Engineering. Major in Computer Engineering.

To be approved, programs must satisfy both the university requirements governing the M.S. degree and must be enrolled in ECE 591, during each semester of on-campus enrollment.

Computer Engineering (M.S.)

The Computer Engineering Program offers both Master of Science and Master of Engineering degrees. Both degrees may be earned through the Engineering Outreach off campus program. These advanced degrees offer engineering students an opportunity to strengthen their knowledge of computer engineering by taking graduate courses that focus on advanced subject matter and by participating in research.

Qualifications for Admittance

Candidates must have a bachelor's degree in computer engineering, with an undergraduate GPA of 3.00 or higher. International students who are required to take the TOEFL examination by the College of Graduate Studies must have a TOEFL score of at least 79 for the Internet-based Test (iBT) version or 550 for the paper version. All candidates must submit scores from the general portion of the Graduate Record Examination.

Candidates who do not have a bachelor's degree in computer engineering may be admitted to the graduate program if they meet the following minimum requirements in addition to the Electrical and Computer Engineering department and College of Graduate Studies admissions requirements.

1. A bachelor's degree in electrical engineering, computer science, or another engineering discipline or in a science such as mathematics or physics.
2. Demonstrated proficiency in the fundamentals of computer engineering emphasized in the undergraduate curriculum. Proficiency is demonstrated by successful completion of the following fundamental courses or their equivalents¹:

Code	Title	Hours

ECE 212	Electrical Circuits II	3
ECE 213	Electrical Circuits II Lab	1
ECE 240 & ECE 241	Digital Logic and Logic Circuit Lab	4
ENGR 210	Engineering Statics	3
PHYS 211	Engineering Physics I	3
PHYS 212	Engineering Physics II	3

Students majoring in electrical engineering or computer engineering must meet the college requirements for admission to classes (see "Admission to Classes (p. 190)" under College of Engineering (p. 190), part four).

Any student majoring in electrical engineering may accumulate no more than five (5) letter grades of D's and F's in mathematics, science, or engineering courses that are used to satisfy graduation requirements. Included in this number are multiple repeats of a single class or single repeats in multiple classes and courses transferred from other institutions. Specifically excluded are D or F grades from laboratory sections associated with courses.

Within the constraints on choice of technical electives noted above, students may choose sets of electives to develop proficiencies in certain areas of emphasis. Three such areas are currently available, one in communications, one in integrated circuit design, and one in power. The course requirements for each of these areas are described below.

Communications Emphasis

This emphasis prepares students for a variety of careers in the communications industry. Students should take a total of 18 credits from the following:

Code	Title	Hours
Core Courses		
Select 9 credits from the following:		9
ECE 410	Microelectronics II	
ECE 430	Microwave and Millimeter Wave Circuits	
ECE 450	Signals and Systems II	
Technical Electives		9
Select 9 credits from the following:		9
ECE 413	Radio-Frequency IC Design	
ECE 432	Propagation of Wireless Signals	
ECE 445	Introduction to VLSI Design	
ECE 452	Communication Systems	
ECE 455	Information and Coding Theory	
Total Hours		27

Microelectronics Emphasis

This emphasis prepares students for variety careers in the semiconductor industry. It includes courses in analog/RF and mixed-signal integrated circuit (IC) design, semiconductors, and IC packaging. Students should take a total of 18 credits from the following:

Code	Title	Hours
Required credits:		
ECE 410	Microelectronics II	3
ECE 460	Semiconductor Devices	3
Select 3 core credits from the following:		3
ECE 413	Radio-Frequency IC Design	
ECE 415	Analog Integrated Circuit Design	
ECE 418	Introduction to Electronic Packaging	
Select 3 credits from the following:		3
ECE 440	Digital Systems Engineering	
ECE 430	Microwave and Millimeter Wave Circuits	
ECE 450	Signals and Systems II	
ECE 465	Introduction to Microelectronics Fabrication	
Select 6 additional credits of technical electives from the following:		6
ECE 413	Radio-Frequency IC Design	
ECE 415	Analog Integrated Circuit Design	
ECE 417	Mixed Signal IC Design	
ECE 418	Introduction to Electronic Packaging	
ECE 419	Image Sensors and Systems	
ECE 445	Introduction to VLSI Design	
ECE 462	Semiconductor Theory	
ECE 465	Introduction to Microelectronics Fabrication	
Total Hours		18

Power Emphasis

This emphasis prepares students for a variety of careers with electric utilities, consulting firms, and with manufacturing and design firms. Students should take a total of 18 credits from the following:

Code	Title	Hours
ECE 420	Energy Systems II	3
ECE 422	Power Systems Analysis	3
ECE 427	Power Electronics	3
ECE 450	Signals and Systems II	3
Select 3 credits from the following:		3
ECE 410	Microelectronics II	
ECE 430	Microwave and Millimeter Wave Circuits	
ECE 440	Digital Systems Engineering	
Select 3 additional credits of technical electives:		3
Total Hours		18

Electrical Engineering (M.Engr.)

The Electrical Engineering Program offers Master of Science, Master of Engineering, and Ph.D. degrees. The Master of Science and Master of Engineering degrees may be earned through the Engineering Outreach off campus program. These advanced degrees offer engineering students an opportunity to strengthen their knowledge of electrical engineering by taking graduate courses that focus on advanced subject matter and by participating in research.

Qualifications for Admittance

Candidates must have a bachelor's degree in electrical engineering, with an undergraduate GPA of 3.00 or higher. International students who are required to take the TOEFL examination by the College of Graduate Studies must have a TOEFL score of at least 79 for the Internet-based Test (IBT) version, or 550 for the paper-based version. All candidates must submit scores from the general portion of the Graduate Record Examination.

Candidates who do not have a bachelor's degree in electrical engineering may be admitted to the graduate program if they meet the following minimum requirements in addition to the Electrical and Computer Engineering department and College of Graduate Studies admissions requirements.

1. A bachelor's degree in computer engineering, computer science, or another engineering discipline or in science such as mathematics or physics.
2. Demonstrated proficiency in the fundamentals of electrical engineering emphasized in the undergraduate curriculum. For each area of emphasis in electrical engineering, proficiency is demonstrated by successful completion of the following fundamental courses or their equivalents.¹

Code	Title	Hours
Power Area ¹		
ECE 212	Electrical Circuits II	3
ECE 320	Energy Systems I	3
ECE 329	Background Study in Electrical Machines	3
ECE 350	Signals and Systems I	3
ECE 359	Background Study in Signals and Systems Analysis	3

¹ Does not count for graduate credit.

Students may petition the graduate committee for exceptions to the required background list if their advisor or interim advisor approves.

Master of Engineering. Major in Electrical Engineering.

General M.Engr. requirements apply, except that the department requires at least 30 credits of course work. Students, with the assistance of their major professor, prepare their own program as soon as possible during their first semester, and submit it to the faculty for approval. To be approved, programs must satisfy both the university requirements governing the M.Engr. degree and the following department requirements:

1. At least 18 credits in electrical engineering courses numbered 500 or above.
2. At least three electrical engineering courses in a given area for depth, two of which must be numbered 500 or above.
3. At least one course in each of two areas (outside the areas selected under item 2) to provide breadth.
4. Enrollment in ECE 591, Electrical Engineering Research Colloquium, during each semester of on-campus enrollment.

Electrical Engineering (M.S.)

The Electrical Engineering Program offers Master of Science, Master of Engineering, and Ph.D. degrees. The Master of Science and Master of Engineering degrees may be earned through the Engineering Outreach off campus program. These advanced degrees offer engineering students an opportunity to strengthen their knowledge of electrical engineering by taking graduate courses that focus on advanced subject matter and by participating in research.

Qualifications for Admittance

Candidates must have a bachelor's degree in electrical engineering, with an undergraduate GPA of 3.00 or higher. International students who are required to take the TOEFL examination by the College of Graduate Studies must have a TOEFL score of at least 79 for the Internet-based Test (iBT) version, or 550 for the paper-based version. All candidates must submit scores from the general portion of the Graduate Record Examination.

Candidates who do not have a bachelor's degree in electrical engineering may be admitted to the graduate program if they meet the following minimum requirements in addition to the Electrical and Computer Engineering department and College of Graduate Studies admissions requirements.

1. A bachelor's degree in computer engineering, computer science, or another engineering discipline or in science such as mathematics or physics.
2. Demonstrated proficiency in the fundamentals of electrical engineering emphasized in the undergraduate curriculum. For each area of emphasis in electrical engineering, proficiency is demonstrated by successful completion of the following fundamental courses or their equivalents.

¹ Does not count for graduate credit.

Students may petition the graduate committee for exceptions to the required background list if their advisor or interim advisor approves.

Master of Science. Major in Electrical Engineering.

General M.S. requirements apply, except that the department requires at least 24 credits of course work in addition to a thesis. The master's program may provide advanced preparation for professional practice, or it may serve as the first step in graduate study leading to the Ph.D. degree. Specific courses to be taken for the program are not prescribed by the faculty. Students, with the assistance of their major professor, prepare their own program as soon as possible during their first semester, and submit it to the faculty for approval.

1. At least 18 credits in electrical engineering courses numbered 500 or above.
2. Two or more electrical engineering courses numbered above 500 in a given area for depth.
3. At least one course in each of two areas (outside the areas selected under item 2) to provide breadth.
4. Enrollment in ECE 591, during each semester of on-campus enrollment.

Electrical Engineering (Ph.D.)

The Electrical Engineering Program offers Master of Science, Master of Engineering, and Ph.D. degrees. The Master of Science and Master of Engineering degrees may be earned through the Engineering Outreach off campus program. These advanced degrees offer engineering students an opportunity to strengthen their knowledge of electrical engineering by taking graduate courses that focus on advanced subject matter and by participating in research.

Qualifications for Admittance

Candidates must have a bachelor's degree in electrical engineering, with an undergraduate GPA of 3.00 or higher. International students who are required to take the TOEFL examination by the College of Graduate Studies must have a TOEFL score of at least 79 for the Internet-based Test (iBT) version, or 550 for the paper-based version. All candidates

must submit scores from the general portion of the Graduate Record Examination.

Candidates who do not have a bachelor's degree in electrical engineering may be admitted to the graduate program if they meet the following minimum requirements in addition to the Electrical and Computer Engineering department and College of Graduate Studies admissions requirements.

1. A bachelor's degree in computer engineering, computer science, or another engineering discipline or in science such as mathematics or physics.

- Technology Management (M.S.) (p. 215)

Critical Infrastructure Resilience Graduate Certificate

With the growing need for a highly skilled and well versed cyber security workforce, especially in sectors of our nation's critical infrastructure, there is a need for guidance and recognition of accomplishment in graduate studies in this area, from multiple disciplines. The Critical Infrastructure Graduate Certificate is offered in the Technology

Management program. Masters students in TM, Computer Science, Electrical and Computer Engineering, or Nuclear Engineering, as well as non-degree-seeking professionals, will be eligible to earn this interdisciplinary certificate.

The first course listed is required. The remaining are electives that meet specific objectives. Group 1 of electives covers fundamentals of security and risk management. Students choose two of these courses. Group 2 of electives provides domain-specific engineering fundamentals of cyber-physical systems. Group 3 of electives provides computer security concepts and skills.

Code	Title	Hours
TM 517	Critical Infrastructure Security and Resilience Fundamentals	3
Select 6 credits of electives from the following:		6
CS 536	Advanced Information Assurance Concepts	
ECE 469	Resilient Control of Critical Infrastructure	
INDT 470	Homeland Security	
INDT 472	National Incident Management Systems	
TM 529	Risk Assessment	
TM 516	Nuclear Rules and Regulations	
Select 3 credits of electives from the following:		3
CHE 445	Digital Process Control	
CS 452	Real-Time Operating Systems	
ECE 340	Microcontrollers	
ECE 443	Distributed Processing and Control Networks	
ECE 444	Supervisory Control and Critical Infrastructure Systems

Courses to total 12 credits for this certificate

Industrial Technology (B.S.Tech.)

The Industrial Technology Bachelor of Science degree program is designed to provide students with the opportunity to develop in-depth knowledge and hands-on experience in basic and advanced industrial processes, procedures, planning, and management.

The degree program requires 122 credits and includes the university requirements (regulation J-3 (p. 84)). There are 99 credits of required courses and 24 credits of electives. Of the 24 elective credits 13 are technical electives and 11 free electives. The required courses for this program are:

Code	Title	Hours
MHR 311	Introduction to Management	3
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
ECON 202	Principles of Microeconomics	3
ENGL 317	Technical Writing	3
ENGR 105	Engineering Graphics	2
INDT 310	Introduction to Industrial Technology	3
INDT 311	Problems in Industrial Technology	1
INDT 332	Introduction to Analog and Digital Electronics	4

INDT 333	Industrial Electronics and Control Systems	3
INDT 350	Introduction to Materials Science	3
INDT 353	Manufacturing Systems	3
INDT 362	Behavior Based Safety	3
INDT 415	Impact of Technology on Society	3
INDT 434	Power Generation and Distribution	3
INDT 435	Network Administration	3
INDT 442	Systems Integration	3
INDT 443	Government Contract Law	3
INDT 444	Quality Assurance Organization and Management	3
INDT 446	Labor Law	3
INDT 453	Computer Integrated and Robotics Manufacturing Technology	3
INDT 462	Industrial Safety	3
INDT 484	Industrial Technology Capstone I	3
INDT 485	Industrial Technology Capstone II	3
MATH 160	Survey of Calculus	4
or MATH 170	Analytic Geometry and Calculus I	
PHYS 111	General Physics I	3
PHYS 111L	General Physics I Lab	1
PHYS 112	General Physics II	3
PHYS 112L	General Physics II Lab	1
PSYC 101	Introduction to Psychology	3
STAT 251	Statistical Methods	3
or STAT 301	Probability and Statistics	
Select Technical Electives (not limited to the following): ¹		13
INDT 448	Project and Program Management	
INDT 457	Lean to Green Sustainable Technology	
INDT 463	Industrial Transportation Safety	
INDT 464	Human Performance Fundamentals	
INDT 465	Construction Safety	
INDT 466	Human Performance Field Investigation	
INDT 470	Homeland Security	
INDT 472	National Incident Management Systems	
Total Hours		99

¹ This degree is currently only available at the Idaho Falls Center

² Elective credit can also be obtained through Technical Competency. Up to 24 credits can be obtained in this manner. Consult with your advisor for information on this process.

Courses to total 122 credits for this degree

Technology Management (M.S.) Master of Science. Major in Technology Management.

Master's degree candidates must fulfill the requirements of the College of Graduate Studies and of the College of Engineering. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

Engineering Management

The Engineering Management Program at University of Idaho is designed for engineering professionals moving into technical management roles. The Program is multidisciplinary, supported by faculty in the colleges of engineering, business, and science. Students will explore the analytical, technical, and human resource aspects of managing in a technical environment. Students will have the opportunity to expand their knowledge in their chosen field of expertise. Since the vast majority of engineers assume management roles sometime during their career, this degree program is typically pursued on a part-time basis by working engineers. Classes are offered by resident and adjunct faculty in Idaho Falls, Boise, and Moscow. All courses required for the program are available for distance learners through the College of Engineering's Engineering Outreach Program eo.uidaho.edu/.

The College of Engineering offers a M.Engr. (non-thesis) degree in Engineering Management. Admission to the program is based on: ability to complete graduate-level work evidenced by undergraduate transcripts; a B.S. in Engineering from an ABET/EAC accredited program, TOEFL score higher than 550 for International students, at least 2 years of engineering work experience beyond B.S. degree or currently employed as an engineer, and three letters of recommendation. One of the three letters of recommendation must be from a current or former employer.

Engineering Management Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the College of Engineering. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Engineering Management (M.Engr.) (p. 215)

Engineering Management (M.Engr.) Master of Engineering. Major in Engineering Management.

General M.Engr. requirements apply. The Engineering Management degree requires 30 credits; a minimum of 15 credits must be engineering courses. The degree program includes 12 credits of required courses (see below) and the rest are electives based on particular program requirements. Each student will design a study plan in consultation with the Engineering Management Student Advisor which is then approved by the Director. Nearly all of the Engineering Management students do not live in Moscow and are allowed to take classes from other universities, especially elective classes, as appropriate and following University of Idaho policy for transfer courses.

Department of Mechanical Engineering

Mechanical engineering applies the principles of science and technology to create products and systems which benefit mankind in several areas, including:

1. the conversion of energy from natural sources to provide power, light, heating and cooling, and transportation;
2. the design and production of machines to improve and lighten the burden of human work;
3. the creative planning, design, development, and operation of systems for utilizing energy, machines, and other resources;
4. the production of manufactured goods; and
5. the interface between technology and society.

Mechanical engineering is broad in scope and provides a wide range of careers for trained professionals in industry, business, government, and universities. Positions are available in design, testing, manufacturing, research, development, operations, system analysis, marketing, and administration. Mechanical engineers are often involved as professional team members in economic and social-humanistic matters and are responsible for the interaction of technical advances with social and environmental concerns.

Mission Statement

Our mission is to prepare students for entry into professional engineering practice and advanced study through our regionally-recognized program of high-quality instruction, integrated design and laboratory experience, and scholarship.

Program Educational Objectives

1. Learn and integrate. Graduates of the program will be proficient engineering problem solvers capable of identifying, formulating, and solving engineering problems by applying their knowledge of mathematics, science, and engineering.
2. Think and create. Graduates of the program will be effective mechanical engineering designers capable of modeling, designing, and experimentally verifying a thermal system, a mechanical system, a component, or a process to meet specified engineering requirements while considering real-world constraints and the impact their solution may have on society.
3. Communicate. Graduates of the program will be effective verbal and written communicators, and be team members capable of clearly developing and explaining their engineering solutions to diverse groups using appropriate tools and technology.
4. Clarify purpose and perspective. Graduates of the program will display a keen awareness of their professional and ethical responsibility, and practice lifelong learning.
5. Practice citizenship. Graduates of the program will practice environmental stewardship as they consider the impact that their designs have in a global context. Graduates will also add value to organizations, communities and society at large through involvement in professional societies, public presentations, civic engagement and outreach to the next generation.
6. (Changes subsequent to this may be viewed at www.uidaho.edu/engr/ME/)

Undergraduate Program

Successful completion of the approved curriculum results in the award of the Bachelor of Science in Mechanical Engineering (B.S.M.E.) degree. Our program educational objectives are based on the needs of our constituencies. We focus on the professional and personal development of our students and continuously assess and improve our undergraduate curriculum. Our department is a college and university leader in the use of innovative teaching methods, in vertical curriculum integration, and in the use of applied design projects. Students interact frequently and personally with the faculty and are mentored and advised by them. The strengths of our program are a solid engineering science foundation as demonstrated by the outstanding performance of our graduates on the nationwide Fundamentals of Engineering Exam, a required precursor to becoming a licensed Professional Engineer; a strong design experience featuring the design and construction of several projects; a strong laboratory experience featuring hands-on skills, state-of-the-art instrumentation, broad exposure to instrumentation and principles, and a senior project; multiple teamwork experiences, including the opportunity to lead and to serve in team roles; substantial use of appropriate engineering tools, including the best available software; and multiple communication experiences including written and oral presentations.

The Mechanical Engineering undergraduate program is accredited by the Engineering Accreditation Commission of ABET, www.abet.org (<http://www.abet.org>).

General questions regarding the undergraduate program should be addressed to the advising coordinator at 208-885-5024, or by email, medept@uidaho.edu. Faculty members are available to discuss details of their specialty areas with interested students.

An academic minor in mechanical engineering is available. Contact the department for more information.

Graduate Program

The following graduate degrees are available in mechanical engineering: Master of Science (thesis), Master of Engineering (non-thesis) and the Ph.D. The department also offers a program in nuclear engineering. Please see the appropriate section in this catalog. Minimum preparation for graduate study in mechanical engineering is a B.S. degree in a mechanical engineering program that is accredited by ABET, Inc. Students entering the program with an engineering or physical science baccalaureate degree in a major other than mechanical engineering must demonstrate proficiency in the subjects required in the B.S.M.E. program. Individual student qualifications are assessed by the departmental graduate committee, which also determines undergraduate deficiencies.

The programs of study are designed to extend the student's understanding of the fundamental engineering sciences and their application to engineering systems design and analysis. Research programs are offered with specialization in many general topics; please see the departmental website for faculty research areas. We maintain and continuously improve a graduate curriculum. Graduate students receive quality mentoring and advising.

Graduate students will develop a plan of study in consultation with their academic advisor that provides for a reasonable concentration in a particular field of interest and a selection of related courses, some of which may be taught outside of the department. For M.S.M.E. and Ph.D. students, the thesis topic will generally be selected from research topics being pursued by members of the departmental faculty. Candidates for

the M.E.M.E. degree have the option of an oral exam or presentation of a final project, which is normally given in the final semester of study.

We support education throughout the state of Idaho and beyond by providing quality distance education through the University of Idaho's Engineering Outreach program, and supporting, collaborating and including our faculty at the Boise and Idaho Falls campuses of the University.

Service

We provide engineering services (teaching, consulting, outreach, testing and research) to support industry and national laboratories. In addition, we provide service to professional societies, the college and university, and the region. We encourage our graduates to support the improvement of our program in formal and informal ways. These include student referrals, periodic evaluation, and donations of time, equipment and money.

Majors

- Mechanical Engineering (B.S.M.E.) (p. 217)

Minors

- Mechanical Engineering Minor (p. 219)

Mechanical Engineering Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Mechanical Engineering. Applicants for admission generally will have a B.S. degree in mechanical engineering. Those students admitted with degrees in other engineering fields will be expected to complete any undergraduate deficiencies. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Mechanical Engineering (M.Engr.) (p. 218)
- Mechanical Engineering (M.S.) (p. 219)
- Mechanical Engineering (Ph.D.) (p. 219)

Mechanical Engineering (B.S.M.E.)

This program is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012-telephone: 410-347-7700.

Note: Pre-advising is required to register in any ME course.

Required course work includes the university requirements (see regulation J-3 (p. 84)), completion of the Fundamentals of Engineering (FE) examination and:

A maximum of 6 credits of the following may be selected:	
ME 307	Group Mentoring I
ME 308	Group Mentoring II
ME 401	Engineering Team Projects

ME 407	Group Mentoring III
Total Hours	113-114

¹ Fifteen credits of technical electives are required from the list. The breakdown of credits will be as follows: six credits must be an ME upper division course, three credits must be an upper division Math, Statistics or Physics course, the remaining six credits may be any course listed.

Courses to total 128 credits for this degree, not counting ENGL 101 , MATH 143 , and other courses that might be required to remove deficiencies.

To advance to upper-division courses, a student majoring in mechanical engineering must earn certification: the student may accumulate no more than three grades of D or F in the mathematics, science or engineering courses used to satisfy certification requirements. Included in this number are courses transferred from other institutions, multiple repeats of a single course, and single repeats in multiple courses.

In addition, students must also earn at least five grades of 'B' or better in these mathematics, science or engineering courses:

Code	Title	Hours
CHEM 111	Principles of Chemistry I	3
COMM 101	Fundamentals of Public Speaking	2
ENGL 102	College Writing and Rhetoric	3
ENGR 210	Engineering Statics	3
ENGR 220	Engineering Dynamics	3
ENGR 240	Introduction to Electrical Circuits	3
ENGR 350	Engineering Mechanics of Materials	3
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
MATH 275	Analytic Geometry and Calculus III	3
MATH 310	Ordinary Differential Equations	3
ME 123	Introduction to Mechanical Design	3
ME 223	Mechanical Design Analysis	3
ME 301	Computer Aided Design Methods	3
MSE 201	Elements of Materials Science	3
PHYS 211	Engineering Physics I	3
PHYS 212	Engineering Physics II	3

A grade of P (pass) in any of these courses is considered as a C grade in satisfying this certification requirement.

To graduate in this program, a student may accumulate no more than five grades of D or F in the mathematics, science, or engineering courses used to satisfy graduation requirements. Included in this number are multiple repeats of a single course or single repeats in multiple courses and courses transferred from other institutions.

Mechanical Engineering (M.Engr.)

Master of Engineering. Major in Mechanical Engineering.

General M.Engr. requirements apply, along with departmental requirements as listed in the departmental graduate handbook.

Mechanical Engineering (M.S.) Master of Science. Major in Mechanical Engineering.

General M.S. requirements apply, along with departmental requirements as listed in the departmental graduate handbook.

Mechanical Engineering (Ph.D.) Doctor of Philosophy. Major in Mechanical Engineering.

General Ph.D. requirements apply, along with departmental requirements as listed in the departmental graduate handbook. Preliminary screening of candidates and program planning for those admitted are essential features of the Ph.D. program. Early in the program, the student must complete a qualifying examination that will be oral and possibly written. The preliminary examination is taken after most of the course work is completed. This examination also includes a presentation of the dissertation progress or proposal. No foreign language is required; however, the department does require a satisfactory level of achievement in mathematics and numerical analyses and in computer programming.

Mechanical Engineering Minor

Code	Title	Hours
ENGR 210	Engineering Statics	3

ENGR 335	Engineering Fluid Mechanics	
ENGR 350	Engineering Mechanics of Materials	
ME 301	Computer Aided Design Methods	
ME 313	Dynamic Modeling of Engineering Systems	
ME 330	Experimental Methods for Engineers	
ME 410	Principles of Lean Manufacturing	
MSE 201	Elements of Materials Science	
Other technical electives as approved by the department chair		
Total Hours		24

Courses to total 24 credits for this minor

Program in Nuclear Engineering

The world's growing need for energy requires a diversity of energy sources, including nuclear energy. Approximately 20% of the electricity used in the U.S. stems from nuclear power. As power plants continue to age there is a need to develop next-generation nuclear reactors and to educate future generations of nuclear scientists and engineers. The demand for nuclear engineers is projected to significantly outpace supply during the next decade. For more information please see our web page at www.uidaho.edu/idahofalls/nuclearengineering/.

Admissions Requirements and Procedures

The minimum requirements to enter any of the graduate programs in nuclear engineering are: an undergraduate degree in engineering or closely related field from an ABET accredited U.S. program, does not include technical degrees; and a cumulative GPA of 3.0 or better on a 4.0 scale. GRE General Exam is recommended but not required for students with an undergraduate degree from a U.S. ABET accredited program. The GRE General Exam is required for all other applicants. TOEFL (minimum score: computer based 83, paper based, 560) is required for all students whose primary language is not English. All applicants are required to submit 3 letters of recommendation, a 1-2 page Statement of Career Objectives and a 1-2 page Curriculum Vitae/Resume. Applicants to the graduate programs are reviewed on a case-by-case basis by the program's Graduate Committee. Some applicants who have a baccalaureate degree in a field other than engineering may be required to complete certain undergraduate deficiency courses before they will be allowed to take graduate level courses.

Nuclear Engineering Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Nuclear Engineering Program. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree. These degrees are offered only through the graduate program at the University of Idaho Center, Idaho Falls. Consult the Nuclear Engineering Handbook specific details.

- Nuclear Criticality Safety Graduate Academic Certificate (p. 219)
- Nuclear Engineering (M.S.) (p. 220)
- Nuclear Engineering (M.Engr.) (p. 220)
- Nuclear Engineering (Ph.D.) (p. 220)

Nuclear Criticality Safety Graduate Academic Certificate

Students who wish to earn an academic certificate in Nuclear Criticality Safety have two possible tracks that can be used to complete this certificate. Students who are majoring within the Program in Nuclear Engineering are encouraged to complete the first track and students who are majoring within the College of Education are encouraged to complete the second track. Students interested in this academic certificate should contact the Program Director of Nuclear Engineering.

Track 1

Code	Title	Hours
NE 450	Principles of Nuclear Engineering	3
NE 535	Nuclear Criticality Safety	3
NE 555	Nuclear Criticality Safety II	3
Select one of the following:		3
NE 554	Radiation Detection and Shielding	
Upper-Division or Graduate level Mathematics course		
Total Hours		12

¹ A grade of 'B' or higher is required in all coursework for this academic certificate.

Courses to total 12 credits for this certificate

Track 2

TM 513	Nuclear Criticality Safety	3
TM 514	Nuclear Safety	3
TM 516	Nuclear Rules and Regulations	3
NE 450	Principles of Nuclear Engineering	3
Total Hours		12

Courses to total 12 credits for this certificate

Nuclear Engineering (M.Engr.)

Master of Engineering. Major in Nuclear Engineering.

General M.Engr. requirements apply.

Nuclear Engineering (M.S.)

Master of Science. Major in Nuclear Engineering.

General M.S. requirements apply.

Nuclear Engineering (Ph.D.)

Doctor of Philosophy. Major in Nuclear Engineering.

General Ph.D. requirements apply. Preliminary screening of candidates and program planning for those admitted are essential features of the Ph.D. program. Early in the program, the student must complete a qualifying examination, which will be oral and possibly written. The preliminary examination is taken after most of the course work is completed. This examination is generally limited to the areas of emphasis indicated by the student's dissertation topic and includes a presentation of the dissertation proposal; it will be written and oral. No foreign language is required; however, the program does require a satisfactory level of achievement in mathematics and numerical analyses and in computer programming.

COLLEGE OF GRADUATE STUDIES

Jerry R. McMurtry, Dean (104 Morrill Hall; 208-885-6243).

The College of Graduate Studies was formally organized in 1925 (then designated as the Graduate School) but the university has awarded advanced degrees since 1897. The College of Graduate Studies encompasses all graduate programs of the university but does not supervise programs in the College of Law. This coverage of all regular disciplines and professional fields provides a wide variety of academic programs. Enrollments are large enough to make possible the vital interchange of ideas among students and between students and faculty that is necessary for graduate programs and yet enrollments are sufficiently small to permit close faculty-student relationships. Interdepartmental cooperation is an important factor on the Idaho campuses. The University is the chief research center for the state and as such operates active graduate programs in most areas providing a broad research base upon which graduate programs have been built.

Graduate Council

The Graduate Council is the representative body of and is empowered to act for the Graduate Faculty. It is responsible to and reports to the Graduate Faculty, which retains the authority to review actions of the council. Its function is to promote graduate instruction and research, to formulate policies and long-range plans for the graduate programs, and to review and act on student appeals and petitions that involve exceptions to accepted regulations and procedures of the College of Graduate Studies.

The Graduate Council is constituted of one member elected by and from the constituent graduate faculty of each of the colleges that offer programs leading to graduate degrees (except the J.D. degree), four members of the Graduate Faculty appointed by the president of the university, two graduate students, the dean of the College of Graduate Studies, who serves as chair, and the assistant or associate dean of the College of Graduate Studies, who serves as vice chair.

Undergraduate Enrollment in the College of Graduate Studies

A senior (90 or more credits) who has a cumulative grade-point average of 3.00 or higher may register for courses at the 500-level. Graduate courses taken as an undergraduate student will automatically be recorded on the undergraduate transcript. Students desiring to have graduate level courses taken as an undergraduate placed on a graduate transcript must follow the policies on reserving courses for the graduate transcript. If the credit reservation form is approved, a separate graduate transcript will be created for the student. Capable students who are in their senior year can thus begin limited graduate work at an earlier date than would otherwise be possible.

Reserving Undergraduate Courses for the Graduate Transcript

Students desiring to move courses from their undergraduate transcript to a graduate transcript may do so by filing the Credit Reservation Form with the College of Graduate Studies. Courses from the undergraduate record may be moved to a graduate transcript if they meet the following criteria 1) the student has a cumulative GPA of 3.00 or greater; 2) the

course is at the 400 level or higher; 3) the grade in the course is A or B; 4) the course was not used to meet the requirements for the undergraduate degree. No more than 12 credits of undergraduate work can be moved to the graduate transcript under this policy.

Students are responsible to initiate the course reservation process as soon as they know they wish to move a course to the graduate level and prior to receiving their baccalaureate degree. No courses will be moved to the graduate transcript once the baccalaureate degree has been conferred. Undergraduate courses completed at another institution are not eligible to be reserved. Courses will not be reserved until final grades for the term have been posted. Students who have courses placed on a graduate transcript and later wish to be admitted to the College of Graduate Studies for work toward an advanced degree must apply for admission to the College of Graduate Studies following the usual procedures. All courses placed on the graduate transcript, regardless of course level, will be assessed graduate fees.

General Graduate Regulations

The regulations described in this section are the minimum standards established by the faculty of the College of Graduate Studies. Graduate programs may establish additional regulations, including additional residence requirements, above the minimums set by the College of Graduate Studies.

Student Responsibilities

The student is responsible for complying with all rules, procedures, and time limits as established by the graduate faculty.

Appointment of Major Professor and Committee for All Degree Seeking Graduate Students

All major professors must be member of the UI Graduate Faculty and have an appointment in the program in which the student is enrolled. It is the students' responsibility to identify and select their major professor.

Co-major Professors are allowed in certain circumstances and must have earned a degree equal to or higher than the degree being sought by the student. Co-major professors must be approved by the dean of the College of Graduate Studies. Circumstances where a co-major professor is appropriate are as follows:

- Senior faculty member mentoring a junior or new faculty member
- Non-teaching research faculty with recognized research or creative activities necessary for the completion of the students' dissertation or thesis
- UI faculty employed via a cooperative agreement with state or federal agencies
- Emeritus faculty with expertise in the students' field of study
- When interdisciplinary research is being conducted

All master's degree seeking graduate students are required to formally appoint a major professor by using the Appointment of Major Professor form within the first year following enrollment in the program. (For the M.F.A. program, within three semesters of registration, the student and the departmental administrator or graduate coordinator nominates the major professor.) For non-thesis master's and specialist students are strongly encouraged to select or be assigned a major professor no later than the end of the first semester and it is required by the end of the first year. It is important to note that the Interdisciplinary Studies master's degree requires at least four members on a student's committee, whether the student is thesis or non-thesis. A committee will consist of at least one member from each of the two principal disciplines involved in the

student's program, one from a supporting discipline, and one member recommended to or appointed by the College of Graduate Studies.

Doctoral students are required to select a major professor no later than the end of the third semester in the program.

The committee, if required, is recommended by the major professor and the student and approved by the graduate program's administrator and the dean of the College of Graduate Studies. At least one-half of the members of the committee must be members of the UI Graduate Faculty. A faculty member may not serve on a committee for a student who is seeking a degree higher than the faculty member has attained. (For the M.F.A. program, the committee consists at least of the major professor, a second faculty member from the major field and a member from a discipline outside the major department's discipline(s).)

Periodically, a qualified person with a particular expertise is requested to serve on a student's committee on a one-time appointment. The person must have written approval from the dean of the College of Graduate Studies in advance of the individual's committee participation. Should the person be recommended for multiple committees, he/she would need to be approved as an adjunct or affiliate faculty member and, therefore, would then be considered an associated faculty member of the program. It is the intent of the Graduate Council that this privilege be used sparingly and only when the situation indicates its necessity.

Removal of Faculty from a Committee

A faculty member can be removed as a major professor or a committee member if it is determined that continued membership is not in the best interest of the graduate program's or the student's. Such a request would be initiated by the student and advanced only if the remaining committee supports such request. The determination of action will be made through deliberation between the program's dean and the dean of the College of Graduate Studies. This policy is not designed to question or remove a faculty's inherent right to minority opinion regarding research or academic standards.

A faculty member who has separated from the university, other than those with emeriti status, must be replaced as the major professor or a committee member on all of his or her student committees.

Exceptions to the above policy must be approved in advance of committee participation and in writing by the dean of the College of Graduate Studies. Reasons for considering an exception could include, but are not limited to: the anticipated completion date of the student; if the student is better served without committee disruption; if the separated faculty member becomes adjunct faculty; or if there are intellectual property issues to be considered.

Qualifying Examination

If such an examination is required, it is conducted according to the program's procedures and is a prerequisite to the preparation of a study plan. A report of this examination is not submitted to the College of Graduate Studies.

Graduate Reviews for the M.F.A

Graduate reviews are conducted by department graduate faculty members. The initial graduate review is conducted in the first semester of registration and serves to assess the background of the student in both major and supporting fields and to provide in part the basis for the preparation of the student's study plan. The remaining reviews are used to assess growth and the ability to complete the program.

Preparation and Submission of Study Plan

Early in the student's academic career, the student prepares in conference with the major professor (and committee, if required by department) a study plan outlining all course work to be completed to fulfill the requirements for the degree. Normally, the study plan will include some work to be taken outside of the major department. The study plan is submitted for the approval by the student's major professor, the program administrator, and the dean of the College of Graduate Studies. Any subsequent changes in the study plan must receive the same approvals.

All degree seeking graduate students must have a study plan on file with the College of Graduate Studies. Study plans cannot be processed without an assigned major professor. All masters and specialist degree seeking students are required to file a study plan with the College of Graduate Studies by the end of the first year of attendance. (For the M.F.A. program, students must prepare a study plan within two semesters of registration (or two summer sessions for those attending in the summer only.) Doctoral degree seeking students are required to file a study plan with the College of Graduate Studies by the end of the third semester in the program.

Research Approval

Prior to beginning any research projects, approval must be granted by one or more of the following groups, if it applies to the research that is being conducted: the Institutional Review Board (IRB) for research involving human subjects; the Institutional Animal Care and Use Committee (IACUC) for research using vertebrate animals; the Institutional Biosafety Committee (IBC) for research using any biological agents or recombinant DNA; the Idaho Research Foundation for research that has the possibility of patent or license outputs; the University Research Office for research involving agents or federal controls on the development, use and distribution of technology; or the Office of Sponsored Programs for activities funded through external grants and contracts. Should the research methodology or source of funding change, the appropriate group must be notified.

Petitions

Students and major professors are advised that the right of petition exists to waive or modify some university regulations. University academic petitions (see Academic Appeals Process (p. 71)) request waiver or modification of university regulations. College of Graduate Studies petitions request waiver or modification of regulations in this section. Favorable action can be expected only when circumstances and the presentation clearly justify an exception. Precedents are not set by previous actions and may not form the basis of a petition; rather the situation concerning the student involved is given consideration on an individual basis. An appeal of the decision made by the College of Graduate Studies petitions committee can be requested through Graduate Council. Further appeals may be made to the Provost's Office.

Once a College of Graduate Studies petition is submitted, the Dean or Associate Dean may act on or, in certain cases, will appoint a committee to hear the petition. The committee will consist of current Graduate Council members, when possible. The committee will review materials specifically related to the petition from both the student and College of Graduate Studies. The student's presence is not required and additional information may be requested by the committee. The committee's recommendation of action is then forwarded to the Graduate Council for review. Graduate Council will decide to support or reject the committee's recommendation and render a decision on the petition. Graduate Council may request a hearing to review all of the information related to the

petition. The final decision of the Graduate Council may be appealed to the Provost. (See Faculty Staff Handbook 2500)

A fee is charged for each petition submitted to the Academic Petitions Committee or College of Graduate Studies.

Registration and Enrollment Requirements

Graduate students engaged in **ANY** activity requiring faculty or staff time and consultation, or the use of any UI facilities must register for the number of credits appropriate to the degree of activity involved during the semester of activity. Such activity includes, but is not limited to: writing, defending, or submitting a thesis or dissertation; research; working on or completion of a non-thesis requirement; or taking a preliminary examination. A student who was appropriately registered during a previous term and did not complete all the requirements by the end of that term but does so before the official opening date of the new term, is awarded the degree at the end of the following term without further registration.

Annual Enrollment Policy

Annual enrollment is required for all degree seeking graduate students. Annual enrollment is defined as registering for at least one credit at the 500 or higher level every 12 months. Professional development courses do not satisfy the annual enrollment requirement.

If annual enrollment is not maintained and the absence has been five or fewer terms, a request for reenrollment in the program is required prior to any future registration by completing the Request for Reenrollment form available on the College of Graduate Studies website. The reenrollment decision is made at the program level with final approval through the College of Graduate Studies and should be requested well in advance of the requested semester of return.

If annual enrollment is not maintained and the absence has been for more than five terms, a request for readmission to the program is processed through the Graduate Admissions Office as well as reenrollment through the College of Graduate Studies. The **readmission** decision is made at the program level and forwarded to the Graduate Admissions Office. The **reenrollment** decision is made at the program level and forwarded to the College of Graduate Studies.

A student may request approval of a planned leave if the anticipated absence will be longer than one year but for no more than five terms. Approval must be given in advance of the time of absence by completing the Approval of Planned Leave form with signatures from the major professor, program administrator, and the dean of the College of Graduate Studies.

A reenrollment fee is charged each time a reenrollment application or readmission form is processed. Any appeals to this policy are to be made to the dean of the College of Graduate Studies.

Change of Program

A student is admitted for work in a specified program and may not change without approval of the new program's administrator. Such procedure is formalized by a Change of Curriculum form signed by the chair of the program the student is leaving and the chair of the program in which the student wishes to enroll. The form must be approved by the dean of the College of Graduate Studies before it is forwarded to the Registrar's Office.

Credit Requirements for Full Time Students

A student is considered full time academically when registered for 9 or more credits. See also specific credit guidelines under "Student Financial Aid Services (p. 61)."

Regular Semester or Summer Session

The credit limit for a graduate student is 16 credits per semester or summer session (excluding courses taken for audit). With approval from the Associate Dean and a Change of Registration form, a student may enroll in up to 22 credits in the fall and spring semesters and 18 credits in the summer session.

Correspondence Courses

Credits earned in University of Idaho correspondence courses are applied to a graduate program only with the prior written approval of the dean of the College of Graduate Studies. Subject to approval by the appropriate program's administrator, correspondence credits from other institutions that are accepted for graduate credit by that institution may be accepted toward degree requirements. Grades earned in correspondence courses are not calculated into the student's GPA.

Probation, Disqualification, and Reinstatement

Graduate students remain in good standing if the semester GPA and the cumulative GPA are 3.00 or higher. A graduate student is placed on academic probation after any semester or summer session in which a GPA of less than 3.00 is earned in courses placed on the graduate transcript, regardless of the student's cumulative GPA. Students on academic probation who attain a semester GPA of 3.00 or higher during the next or subsequent semester or summer session after being placed on probation, but whose cumulative GPA is still below a 3.00, will remain on academic probation until the cumulative GPA is a 3.00 or higher.

The student will be disqualified if a semester GPA of less than 3.00 (regardless of cumulative GPA) is earned on courses placed on the graduate transcript during the second, consecutive semester or summer session in which regular grades of A, B, C, D, or F are received.

If a graduate student who is on probation receives an Incomplete during a semester, the revert grade listed for the Incomplete will be used to calculate the GPA for that semester. If the calculated semester GPA is 3.00 or higher, the student will be allowed to register for a current or future semester. If the calculated semester GPA is less than a 3.00 GPA, the student will be disqualified and will not be allowed to register for current or future semesters or sessions. If the student has registered pending receipt of the revert grade, the student will be disenrolled. Once the work is completed and a final grade is given, the GPA will be automatically recalculated.

A graduate student may be reinstated after disqualification under the following conditions: the student may not enroll as a graduate student for at least one semester (fall or spring), must get the positive recommendation of his or her program's administrator, and must get College of Graduate Studies permission. Reinstatement is granted for a specific semester only. The student must receive at least a 3.00 GPA the first semester back in the College of Graduate Studies. If a student does not register for that semester, he or she must again seek College of Graduate Studies permission for reinstatement. A student will remain on probation as long as the cumulative GPA is below a 3.00.

Grade Requirements

In order to be eligible for graduation, a candidate for an advanced degree must have a cumulative GPA, based on all grades on his or her graduate

transcript, of at least 3.00 (A = 4.00) and at least a 3.0 overall GPA across all courses listed on the approved study plan. The relevant GPA is calculated as stated in regulation E. Courses in which grades of D or F are received may not be counted toward the satisfaction of degree requirements; however, those grades are included in the GPA.

Deficiencies

Courses that are needed to provide background for the student's program may be taken for audit or under the pass/fail option, unless the program advises otherwise. See rules for the pass/fail option under regulation B-11. When deficiency courses are taken for regular credit the resulting grade will be included in the computation of the GPA.

Foreign Language

There is no College of Graduate Studies foreign language requirement for a graduate degree; however some programs require a language examination or special course work.

Catalog Issue

The pertinent requirements for graduate degrees are those contained in the most recent UI catalog issue that was in effect at the time of, or subsequent to, the candidate's admission into a specific graduate program as a degree seeking student. A catalog issue is valid for a maximum of seven years from its effective date. The effective date of a catalog issue is the first Monday following spring graduation.

Application for Advanced Degree

The Application for Advanced Degree is submitted electronically by the student to the College of Graduate Studies, via VandalWeb, according to the deadline outlined in the academic calendar. In order for a student to apply for an advanced degree, a study plan must be posted by the Registrar's Office. Graduation applications are term specific. To change a graduation semester the current application must be canceled and the student must reapply for a subsequent term by the deadline.

Non-thesis Requirement (Non-thesis Master's and Specialist Degrees)

This exit requirement (an examination, presentation, portfolio, recital, project, or any requirement other than a thesis) is completed by non-thesis master's and specialist students after the completion of most or all of the degree requirements. The program establishes the format and time frame and reports the results of the non-thesis requirement to the College of Graduate Studies using the Non-Thesis Report form. The exit requirement, if failed, may with the program's approval be repeated once. The interval before the second attempt may not be less than three months or longer than one year. No more than 2 credits may be used for completing the exit requirement may be used toward the degree. If a student fails the exit requirement twice, or the program does not allow the student to repeat the exit requirement after the first failure, or the student does not retake the exit requirement within a year, the student is automatically moved to unclassified enrollment status and is no longer in the degree program.

Final Defense (Master's thesis, Ph.D., Ed.D., and D.A.T. Degrees)

The final defense must be completed three weeks prior to the last day of the term in which the student plans to graduate. Before the final defense, the "Request to Proceed with Final Defense" form (see www.uidaho.edu/cogs/forms) must be submitted to the College of Graduate Studies. Ph.D., Ed.D., and D.A.T. students are required to submit the form at least 10 working days prior to the defense. Thesis students must have the

form submitted at least one day prior to the defense. The defense is usually oral but part may be written. The candidate is required to defend his or her work and show a satisfactory knowledge of the program and supporting fields. A majority vote of the committee is necessary for a candidate to pass this defense. The defense, if failed, may with the programs approval be repeated once. The interval before the second attempt may not be less than three months or longer than one year.

Following a successful defense of his or her thesis, the candidate must submit the final electronic version into ETD/Proquest and the final signed bond paper copy to the College of Graduate Studies within six months; otherwise, the candidate must defend the thesis again and may be required to revise it or write an entirely new one. If a student fails the final defense twice, or the program does not allow the student to repeat the defense after the first failure, or the student does not repeat the defense within a year, the student is automatically moved to unclassified enrollment status and is no longer in the degree program.

Theses and Dissertations

Definition of a Dissertation

A dissertation documents a student's original research which significantly advances knowledge in a discipline. A dissertation provides evidence of leadership in scholarship and demonstrates a student's ability to think critically and independently. A dissertation is publicly defended by the student, and is evaluated by the dissertation committee. A dissertation is made publicly accessible per the College of Graduate Studies guidelines.

Independent Work and Collaboration in Dissertation

A dissertation can be the outcome of independent or collaborative research. If submitting collaborative work through multi-authored articles in the dissertation, the student must demonstrate primary responsibility and authorship of the dissertation, and include a clear statement of the student's specific contribution to the collaborative work. This contribution statement must be approved by the dissertation committee and included in the front matter of the final product. The contribution statement should clearly and specifically articulate the attributions of any co-authors included in the dissertation articles.

The expectation is that the student played a significant role in most, if not all aspects of the dissertation, demonstrating contributions to critical components of the project as appropriate for their field of study (e.g. project design, data generation and collection, analysis, etc.)

Defense of Dissertation

To be awarded a Ph.D. or an Ed.D. a student must have a public presentation and defense of their work, and they must pass the defense. The specifics of the defense process will be determined by their home department(s).

Thesis and Non-Thesis Statements

University of Idaho students pursuing a Master's degree will follow a Thesis or Non-Thesis Track that parallels expectations in their specific field. In this pursuit for further knowledge and experience, students should be independently driven in their research focus while still working with the committee to frame their professional approach. This may be done through research proposals, project outlines, competency exam, presentations, performances or other suitable projects determined by the student with approval by the committee

It is the student's responsibility to form strong interconnections between their research focus and their final presentation(s) of this work in order to fulfill degree requirements within each degree program.

Definition of a Thesis

A thesis communicates a student's original research results and is a published record of their research. The thesis is prepared and publicly defended by the student to be evaluated by the major professor and committee. The thesis demonstrates a student's ability to think critically and independently about a topic approved by their major professor.

Independent Work and Collaboration in Thesis

Please see discussion of Independent Work and Collaboration in Dissertation (see above). As stated for a dissertation, thesis students must also provide a contribution statement that clarifies the significant role and contribution in the research process.

Defense of Thesis

To be awarded an MFA (terminal), MS or MA, a student must complete a public presentation and defense of their work, and they must pass the defense. The specifics of the defense process are established by the major professor and committee within the guidelines of COGS.

Definition of a Non-Thesis

To be awarded an MFA (terminal), MS or MA and for specific specialist and professional degrees, a final examination, portfolio, recital, performance, project, and/or presentation significant to a program's requirements is completed by non-thesis master's students. Each degree program has established expectations for fulfillment of the degree.

Satisfactory Academic Progress and Performance

Enrollment in the College of Graduate Studies allows students to continue graduate study and research through the University of Idaho only as long as they maintain satisfactory academic standing and are maintaining satisfactory progress and performance toward completion of their graduate degree program. See section L (p. 93) – Academic Standing, Probation, Disqualification, and Reinstatement

Satisfactory academic standing is defined under the rules of probation and disqualification and provisional admission and may or may not have an effect on the use of this policy.

Programs are encouraged to have a written policy distributed to all students that states the standards for satisfactory progress and performance. Examples of the program's requirements that may be used to measure progress or performance toward the degree are, but not limited to, the timely completion of: required course work, filing of appropriate paperwork, failure to complete the annual review process, the program's qualifying, preliminary or other examinations; attendance at seminars or other professional activities; or using acceptable safety or security standards in performance of duties.

Annual Review

The annual review process is initiated by the student and completed by the major professor using the Annual Evaluation and Performance Report <http://www.uidaho.edu/cogs/forms> provided by the College of Graduate Studies. If a major professor has not been appointed, the program's administrator will conduct the review. When completed, the reviewer will recommend that the student continue in the program, receive a warning, or be dismissed from the program.

- **Warning.** Should a warning be given, the student must be informed in writing of the concern, the current program policy, the length of the warning period, and expectations that must be met to be removed from a warning status. The Associate Dean of the College of Graduate Studies is notified of this action. An appeal of a recommendation for a warning may be made to the Dean of the College of Graduate Studies.
- **Dismissal.** If Dismissal is recommended it may or may not be preceded by a warning period. If dismissal is recommended, the program's administrator forwards the recommendation and documentation to the Associate Dean of the College of Graduate Studies. The Dean of the College of Graduate Studies will review the recommendation for dismissal and, if appropriate, will convene a committee of graduate faculty to review the dismissal recommendation. The student, the major professor, and the program's administrator will be allowed to appear before the committee. The committee will make a recommendation for action to the Dean of the College of Graduate Studies who will make the final decision. Dismissal is from the student's degree, program and from the College of Graduate Studies.
- **Appeals.** Students may appeal the Dean's decision directly to the Graduate Council. No action will appear on the transcript unless recommended by Graduate Council.

Assistantships are open to domestic and international students who are regularly enrolled students in the College of Graduate Studies.

Students in the provisional enrollment category or in the unclassified enrollment category are NOT eligible to receive assistantships.

An inquiry for a position or award should be addressed to the administrator of the graduate program in which the applicant plans to enroll for graduate study. Appointments include a work requirement of up to 20 clock hours per week. Assistants are considered students. Assistants who provide primary teaching responsibilities, grading assignments, assisting with the delivery of instruction through technology, and providing other assistance related to instruction under the active supervision of a member of the university faculty are teaching assistants. Assistants who provide support of research, scholarship, or creative activity are research assistants. (See FSH 1565 H-2 for full definitions.) Those appointed to assistantships supported by the university are advised that the appointments are tenable only in the program of the major field of study, except where prior written exceptions are made. Annual leave, sick leave, and health insurance benefits are not available for graduate assistants.

Continuation of any assistantship after the first semester is contingent upon satisfactory academic performance, satisfactory teaching and/or laboratory performance, progress toward your degree, and abiding by the program and University's policies and procedures. UI policies are available online in the Faculty-Staff Handbook.

Assistants are required to sign a Terms of Employment form and a Patent and Copyright Agreement for University of Idaho Employees. All assistants are required to have personal health insurance coverage or enrollment in the Student Health Insurance Program. Salaries for assistantships vary depending upon the graduate program, length of graduate service and whether they are for an academic year or for 12 months. Contact program for current salary levels.

All new teaching and/or research assistants are required to attend the TA/RA Institute prior to the beginning of the semester in which they are first offered an assistantship. New TA/RA's are also required to complete

a course through BbLearn. All new international TA's are required to register for INTR 508.

In addition, nonresident tuition will be waived for persons holding full appointments and a pro rata portion of nonresident tuition will be waived for persons holding partial appointments. However, **each person who holds a full appointment as an assistant is required to pay the uniform student fees and tuition charged to registered full time students, regardless of the number of credits for which the student is registered.** Persons accepting part-time assistantships will be required to pay the uniform student fees and tuition based on the number of credit hours for which the person is registered.

Students on an assistantship cannot use a staff or staff spouse fee waiver or senior scholar waiver.

Research fellowships are awarded by various colleges. Research conducted on fellowships may or may not be used for dissertation purposes. Credit enrollment and stipends vary according to the particular fellowship. Fees and tuition are charged, but in some cases may be remitted, depending on the type of fellowship and the availability of funds. Inquiries should be addressed to the program administrator in which the applicant plans to enroll.

Master's Degrees Credits

All master's degree programs require a minimum of 30 credits. Some master's degree programs may require more. Additional work may be stipulated in individual cases to meet particular objectives or need for additional background. Courses used toward an undergraduate degree, professional development courses or courses on a professional development transcript are not available to be used toward a graduate degree.

No more than three credits of workshop or workshop equivalent courses may be used toward the graduate degree.

Credit in course 500 (Master's Research and Thesis) cannot be counted toward a non-thesis master's degree. Although no limit is imposed on the number of credits that may be earned in course 500 for degrees with thesis, only a maximum of 10 credits in course 500 in the major of the degree can be used to fulfill master's degree requirements (a lower limit may be set by the program). Up to five credits of course 599 (Non-thesis Research) are allowed to count towards a non-thesis master's degree; however, if a thesis option exists for the program, no more credits of course 599 are allowed toward the non-thesis master's degree than half the number of credits allowed for course 500 toward the program's master's degree.

Transfer, Correspondence Study, Non-degree Credit, and Over-aged Credit Limitation

The combined total of transfer credits, correspondence credits, non-degree credits, credits moved from an undergraduate transcript that were not used toward an undergraduate degree, and approved credits more than eight years old at the time the degree is awarded shall not exceed 12 credits for master's programs designated as requiring 36 or fewer credits, and shall not exceed one-third of the total credits in designated programs requiring more than 36 credits. The student's program may set a lower limitation. Credits can be transferred to UI, with the consent

of the student's committee and the dean of the College of Graduate Studies, only if the institution from which the course credits are being transferred has a graduate program in the course's discipline or, should there be no graduate program in the course's discipline, if an exception has been granted by the Dean of the College of Graduate Studies. All credits used toward graduate degrees must be from regionally accredited American institutions or from non-US institutions recognized by the appropriate authorities in their respective countries. Transfer credits are subject to all other Graduate College rules and regulations. See additional information on accreditation: www.uidaho.edu/registrar/transfer/evaluation/accreditation.

Second Master's Degrees

A student who has a master's degree or is working on a master's degree may obtain a second master's degree only in a different major, subject to the approval of the dean of the College of Graduate Studies. Up to six credits of course work used to satisfy the requirements for the first degree may be applied to the second; all other catalog requirements and credit requirements in UI courses must be fulfilled. If the courses are transfer courses, they are counted as a part of the credits that are allowed for transfer, correspondence, non-degree, over-aged credits and credits moved from an undergraduate transcript.

With department approval, a student in the M.F.A. Theater Arts program may use up to 30 credits from a M.A. Theater Arts program toward the M.F.A. A student who is enrolled in a doctoral program or who has a doctorate may obtain a master's degree in a different field and use up to 6 common credits or more if approved by Graduate Council. A student who has a doctorate may not subsequently obtain a master's degree in the same field.

Concurrent Graduate/Law Degrees

UI law courses used toward an approved UI concurrent graduate degree must be approved by the College of Graduate Studies and included on the graduate student's approved study plan. Courses with grades and credits earned in these approved law courses will be posted to the student's graduate academic transcript as a pass (P) upon receipt of the Course Level Adjustment form in the UI Registrar's Office. See the Accounting (p. 149), Environmental Science (p. 289) and Water Resources (p. 129) sections in the individual department section for additional information on concurrent degrees.

Awarding M.F.A. Degrees to Members of the Faculty

A UI faculty member with rank of senior instructor or above may not be awarded an M.F.A. degree through the department or corresponding program in which he or she is employed, unless that faculty member had been admitted to that degree program before attaining such academic rank.

Master of Accountancy

The M.Acct. degree is 30 credits. At least 18 must be in courses at the 500 level and the remainder may include one 400 level course in the major and 300 and 400 level courses in supporting areas, to be approved by the major professor. A non-thesis requirement must be met. Students enrolled in the concurrent M.Acct./J.D. may use 15 credits of law courses toward the M.Acct. degree only if the law degree is completed.

Master of Architecture

The M.Arch. degree requires a design project. Refer to the Art and Architecture section of this catalog for a definition of specific admission and degree requirements. Of the minimum 45 credits required for the degree, 24 must be at the 500 level; the remainder may include 400 level courses in the major and 300 or 400 level courses in supporting areas. All credits toward the degree must be earned in residence at UI or during internship and study abroad. A final design project must be accepted.

Master of Arts

In some fields, all candidates for the M.A. degree are required to present a thesis; in others the thesis is optional or not required. Consult the departmental section for specific descriptions. Of the minimum 30 credits required for the degree, at least 18 credits must be at the 500 level; the remainder may include 400 level courses in the major and 300 or 400 level courses in supporting areas. For the thesis student, a thesis is required. For the non-thesis student, a non-thesis requirement must be met.

Master of Arts in Teaching

The M.A.T. is primarily for certified teachers who wish to strengthen their subject-matter preparation. Enrollment in this program of study requires the consent of the chair of the subject-matter department. The major professor is from the subject-matter department; the co-advisor is from the College of Education. The general requirements of the College of Graduation Studies apply except that, of the minimum 30 credits required, only six must be in courses at the 500 level, at least six must be in courses offered by the College of Education at the 400/500 level, excluding workshops, and at least 20 must be in courses in the subject field. These courses may be at the 300 or 400 level, including 300 level courses in the major field if they are a part of the logical sequence of study. A non-thesis requirement in the subject field must be met.

Master of Business Administration

The M.B.A. is a professional fee program that is delivered in an executive format in northern Idaho. This non-thesis program consists of 42 credits at the 500 level. Consult the College of Business (p. 148) for specific details.

Master of Education

To complete the M.Ed., a non-thesis degree program, the student must fulfill the program's non-thesis requirement. Of the minimum 30 credits required, at least 18 must be in courses at the 500 level; the remainder may include 400 level courses in the major and 300 or 400 level courses in supporting areas.

Master of Engineering

The M.Engr. is a non-thesis degree. A minimum of 30 credits is required; at least 18 must be in courses at the 500 level and the remainder may include 400 level courses in the major and 300 or 400 level courses in supporting areas. A non-thesis requirement must be met. Majors are offered in agricultural, chemical, civil, computer, electrical, mechanical, and (at the University of Idaho Center, Idaho Falls only) nuclear engineering. The prospective student should consult the specific department for special entrance requirements.

Master of Fine Arts

The M.F.A. is the professionally recognized terminal degree in fine arts including art, creative writing, and theatre arts. See the specific department for credit requirements.

Master of Music

The M.Mus. degree, depending on the concentration selected, requires a thesis, public graduate recitals, or a final project. No credit is granted for the final project in a non-thesis degree plan and the project is subject to approval of the supervisory committee. Both written and oral non-thesis requirements must be met in all degree options. Of the minimum 30 credits required for the degree, at least 18 must be in courses in the School of Music at the 500 level; the remainder may include 400 level courses in the School of Music and 300 or 400 level courses in other areas.

Master of Natural Resources

The M.N.R. program provides broad-based, advanced training in natural resource management and administration. The M.N.R. degree requires 30 semester credits beyond the bachelor's degree. Only courses at the 400 or 500 level counts toward the degree. At least 18 of the 30 credits must be at the 500 level. A comprehensive non-thesis requirement must be met.

Master of Public Administration

The M.P.A. program includes thesis and non-thesis options. Of the minimum 36 credits required for the degree, at least 18 must be in courses selected from prescribed core areas and 12 in designated optional areas of emphasis as described in the Department of Political Science section of this catalog; at least 18 of the 36 credits must be in courses at the 500 level. A public service internship is required of students with no appropriate work experience. For the thesis student, a thesis is required. For the non-thesis student, a non-thesis requirement must be met.

Master of Science

In some fields, all candidates for the M.S. degree are required to present a thesis; in others the thesis is optional or not required. Consult the departmental section for specific descriptions. Of the minimum 30 credits required for the degree, at least 18 credits must be at the 500 level; the remainder may include 400 level courses in the major, and 300 or 400 level courses in supporting areas. For the thesis student, a thesis is required. For the non-thesis student, a non-thesis requirement must be met.

Master of Science in Athletic Training

The M.S.A.T. is a non-thesis degree with a minimum of 88 credits at the 500-level required. Students may be admitted to the program through two methods: either by admission after completion of a bachelor's degree from a regionally accredited institution or by early admission after the completion of the junior year in the UI Athletic Training track in Exercise Science and Health (B.S.P.E.) or by completion of the junior year in an approved program at an institution with an articulated agreement with UI.

Students offered early admission to the graduate program must meet all admissions and prerequisite course work requirements for the Master of Science in Athletic Training degree, as well as all undergraduate requirements excluding the first 30 credits of the graduate program. Upon successful completion of the first 30 graduate credits, students may use these credits in transfer towards their undergraduate degree

requirements. There is a professional fee for the M.S.A.T. program; consult the program coordinator for details.

Professional Science Master

Contact the Director of the Program in Environmental Science (p. 289) for information regarding this degree. Of the minimum 35 credits required for the degree, at least 26 credits must be at the 500 level; the remainder may include 400 level courses. This is a non-thesis program.

Education Specialist Degrees

The University of Idaho awards the degree of Education Specialist to students who want an organized program of graduate studies beyond the master's degree but who may not wish to pursue a doctoral program. The Education Specialist degree is delivered only by the College of Education.

Requirements for Education Specialist Degree

Credit Requirements

An acceptable program of at least 60 upper-division and graduate level semester credits beyond the bachelor's degree is required. Additional credits may be required for those who have master's degrees in other areas of emphasis or who have deficiencies. Credits listed on an undergraduate transcript, professional development courses, or courses on a professional degree transcript are not available to be used toward a specialist degree. No more than three credits of workshop or workshop-related courses may be used toward a specialist degree. Thesis or dissertation credits cannot be used towards a specialist degree. Each student, following advising, will submit the study plan for approval to the major professor, the appropriate program administrator, and the dean of the College of Graduate Studies for approval.

Transfer, Correspondence Study, and Non-degree Credit Limitation

No more than 12 of the last 30 credits may be taken as transfer courses, correspondence courses (with prior written approval of the dean of the College of Graduate Studies), or non-degree courses. Transfer credits must be from institutions offering graduate programs in the discipline(s) of the course(s) being transferred. All credits used toward graduate degrees must be from regionally accredited American institutions or from non-US institutions recognized by the appropriate authorities in their respective countries.

Time Limit

The last 30 credits must have been taken in the eight years preceding the semester in which the degree is awarded.

Procedures for Education Specialist Degree

See the General Graduate Regulations section regarding appointment of major professor, study plans, application for advanced degree, final semester registration, and non-thesis requirement.

Doctoral Degrees

The University of Idaho awards the degree of Doctor of Philosophy in recognition of high achievement in scholarly and research activity. The degree of Doctor of Education is granted for high scholarly attainment and in recognition of the completion of academic preparation for

professional practice. See Procedures for Doctor of Philosophy and Doctor of Education Degrees for more details. The Doctor of Athletic Training is offered through the College of Education and the Department of Movement Sciences. See Procedures and Requirements Specific to the Doctor of Athletic Training for more details.

The major professor and program offering a particular doctoral program indicate the general philosophy of the degree program, the objectives of courses and seminars, the research specialties available, and requirements unique to the department. Admission to the doctoral program is granted only to those who have a recognized potential for completing the degree.

Requirements for Doctoral Degrees

Credit Requirements

For the Ph.D. and Ed.D., a minimum of 78 credits beyond the bachelor's degree is required; of these, at least 52 credits must be at the 500 level or above and at least 33 of the 78 credits must be in courses other than 600 (Doctoral Research and Dissertation). A maximum of 45 credits in dissertation and 5 credits of 599 (Non-thesis Research) may be used toward the degree. For the D.A.T., a minimum of 66 credits are required (including all dissertation work). Courses numbered below 300 may not be used to fulfill the requirements for a doctoral degree; courses numbered 300-399 may be used only in supporting areas. Individual programs may require additional course work. Applicants having a doctoral degree may obtain a second doctoral degree subject to the approval of the Graduate Council. The Graduate Council will establish the requirements for the second degree.

Credit Limitations for Transfer, Correspondence Study, and Non-degree

For the Ph.D. and Ed.D. degrees, a student must complete at least 39 of the 78 required credits at UI while matriculated in the College of Graduate Studies. Credits can be transferred to UI, with the consent of the student's major professor, the committee (if required by the program), the program's administrator, and the dean of the College of Graduate Studies. Credits can be transferred only if the institution from which the credits are being transferred has a graduate program in the course's discipline. All credits used toward graduate degrees must be from regionally accredited American institutions or from non-US institutions recognized by the appropriate authorities in their respective countries. Transfer credits are subject to all other College of Graduate Studies rules and regulations. Correspondence study courses may be applied to the degree only with the prior written approval of the College of Graduate Studies. Courses used toward an undergraduate degree, professional development courses, and courses on a professional development transcript are not available to be used toward a doctoral degree.

Time Limits

Of the credits submitted to satisfy the requirements for a Ph.D. or Ed.D. degree, a maximum of 30 may be more than eight years old when the degree is conferred, provided the student's committee and program administrator determine that the student has kept current in the subjects concerned. Graduation must occur no later than five years after the date on which the candidate passed his or her preliminary or general examination. These time limitations can be extended only on recommendation of the committee and approval by the Graduate Council.

Awarding Doctoral Degrees to Members of the Faculty

Regulations are outlined in Section 4920 of the Faculty-Staff Handbook.

Particular Requirements for the Ed.D. Degree

A period of professional practice is required for the Doctor of Education degree; the period involved is determined by the student's supervisory committee. While the Ed.D. is a College of Education degree, you should consult with the departments in the College of Education to learn of specific emphasis requirements.

Procedures for Doctor of Philosophy and Doctor of Education Degrees

Appointment of Major Professor and Committee

Refer to the "Appointment of Major Professor and Committee for All Degree Seeking Graduate Students" in the preceding General Graduate Regulations section. In addition, a doctoral supervisory committee consists at least of four people: the major professor as chair and at least one additional UI faculty member from the program, the balance of the committee may be made up of faculty members from a minor or supporting area, and faculty members from a discipline outside the major. If the committee has a co-chair the minimum number of committee members is five.

Qualifying Examination

The qualifying examination is a program option and serves to assess the background of the student in both the major and supporting fields and to provide partially the basis for preparation of the student's study program. A particular program may or may not require a master's degree as a prerequisite for the qualifying evaluation. As soon as the program's qualifications are met, a supervisory committee is appointed.

Preparation of Study Plan

Refer to the "Preparation and Submission of Study Plan (p. 221)" in the preceding General Graduate Regulations section.

Preliminary Examination for Ph.D. Degree

The preliminary examination should be scheduled only after the student has completed the majority of the courses on his or her study plan. The student is required to be registered during the semester the preliminary examination is taken. The student's committee certifies to the College of Graduate Studies the results of the preliminary examination and if passed, the student is advanced to candidacy. Graduation must occur no later than five years after the date on which the candidate passed his or her examination. If the preliminary examination is failed, it may be repeated only once; the repeat examination must be taken within a period of not less than three months or more than one year following the first attempt. If a student fails the preliminary examination a second time, or the program does not allow the student to repeat the examination after the first failure or the student does not retake the examination within one year, the student is automatically moved to unclassified enrollment status and is no longer in the degree program.

General Examination for Ed.D. Degree

When the student approaches the end of his or her course work, has completed the professional experience requirement and has outlined the dissertation subject in detail, the supervisory committee approves the holding of the general examination. The student is required to be registered during the semester the general examination is taken. The examination is both written and oral and is intended to assess progress toward degree objectives. The student's committee certifies to the College of Graduate Studies the results of the general examination and if passed, the student is advanced to candidacy. Graduation must occur no later than five years after the date on which the candidate passed

his or her examination. If the general examination is failed, it may be repeated only once; the repeat examination must be taken within a period of not less than three months or more than one year following the first attempt. If a student fails the general examination a second time, or the program does not allow the student to repeat the examination after the first failure or the student does not retake the examination within one year, the student is automatically moved to unclassified status and is no longer in the degree program.

See the General Graduate Regulations (p. 221) section regarding application for advanced degree, registration requirements, final defense and dissertation requirements.

Procedures for Doctor of Athletic Training The Culminating Clinical Project

Students enrolled in the Doctor of Athletic Training (D.A.T.) will engage in research projects during the curricular phase of the program. These project(s) will lead to at least two publication ready manuscripts and all students must meet professional authorship requirements (regardless of order). See Department of Movement Sciences and Doctor of Athletic Training webpages for more information.

The Team (Committee)

All D.A.T. project team committees will have at least four committee members: two members of the athletic training faculty (all with graduate faculty status), the student's Attending Clinician (who is the student's on-site mentor during the student's residency), and an expert in the student's chosen area of clinical research. The AT faculty members will always chair the CCP, provide research guidance, and serve as the experts in the development of advanced practice in Athletic Training. A situation may arise in which one or both of the members of the committee that are outside of the AT program faculty may have a degree less than that of which the student is seeking, however, the intent of the third and fourth D.A.T. committee membership is to provide outside validation of the student's progress toward advanced practice and clinical utility of action research studies.

Culminating Clinical Project Hours

These dissertation hours may be used in instances when the CCP has not been successfully completed and the curricular phase of program has been completed.

COLLEGE OF LAW

Mark L. Adams, Dean; Jerrold A. Long, Associate Dean for Faculty Affairs; Jeffrey A. Dodge, Associate Dean for Students, Academic Affairs and Administration; Lee B. Dillion, Associate Dean for Faculty Development (101 Law Bldg.; 208/885-4977).

The College of Law was organized in 1909 and is the only accredited law school in the state of Idaho. The College is a member of the Association of American Law Schools and is fully accredited by the American Bar Association.

Purpose of the College

The role of the College of Law is to educate students for the legal profession with its many facets and its involvement in the whole range of society and to prepare students to engage in law-related endeavors in business, government and non-governmental organizations. The curriculum is designed to provide instruction over three academic years in principles generally applicable in the United States and international courts. The responsibilities assumed by professionals are emphasized, as are solutions to ethical problems. The study of law is also an asset to those who wish to hold positions of leadership in government, business or non-profit organizations.

Methods of instruction are adapted to the development of each student's highest potential and vary with the professor and the course. Teaching and learning approaches that encourage individual initiative and develop perception and communication abilities are emphasized. Practical Skills education is emphasized throughout the curriculum. Students are also required to participate in volunteer, law-related service as a condition of graduation. Because law changes rapidly, mere accumulation of information is subordinated to the more important ends of individual development and training in critical habits of thought.

Admission to the Bar

The College of Law is fully accredited by the American Bar Association and is a member of the Association of American Law Schools, and its degree is accepted by all state bar associations. Educational prerequisites vary among states, and the secretary of the bar examiners in the state in which the applicant intends to practice should be contacted to determine the existence of special requirements.

Suggestions for Pre-legal Study

The subject matter of pre-legal education is less important than the quality of work performed. Although the most common pre-law majors are English, social sciences, or business, law students are drawn from a broad range of undergraduate programs from agriculture and engineering to English and philosophy. The study of law requires logical analysis and effective written and oral communication. Any rigorous course of study that develops these skills is good preparation for law school. Beyond this, a well-rounded education is best. American government and western political philosophy are important in public law; economic and accounting concepts are basic to much business and commercial law; history, literature, philosophy, and psychology all provide useful insights into cultural tradition and human motivation that are important to the interpretation and application of law.

Most universities have a pre-law advisor, often through the Political Science Department, to advise students in selecting appropriate pre-law courses. At Idaho, a pre-law advisor is available through the Political

Science Department to guide students in selecting courses within the particular college or university that will meet these objectives. The Admissions Office at the College of Law is also available for general consultation in program planning.

3+3 Program

The American Bar Association's accreditation standards permit law schools to enroll students still in the process of completing their baccalaureate degrees so long as it will be completed by the end of the first year in the Juris Doctor degree. As a result of this standard, many law schools have 3+3 programs that allow undergraduate students, with the permission of their major advisor, to count up to 30 credits of the first year law curriculum toward the completion of the baccalaureate degree. A qualified student would complete three years of the baccalaureate degree and finish the remaining credits through the courses in the first year curriculum of the law degree. The law degree takes three years to complete, thus the 3+3 program title. The combined curriculum takes a year off a of student's schooling.

The conditions that must be met for a 3+3 degree student to receive serious consideration from the College of Law Admissions Committee are:

1. demonstration of outstanding ability by a cumulative grade point average at the most recently entered class median or higher, currently a 3.24 GPA;
2. demonstration of excellent aptitude for law study by a score on the LSAT at the most recently entered class median or higher, currently a 152; and
3. submission of a letter from the undergraduate major department attesting to the fact that the applicant will receive the baccalaureate degree after the successful completion of up to 30 credits of law study.

Application for Admission

Admission Requirements

Applicants for admission must have a bachelor's degree from an accredited four-year college or university by the date of enrollment at the College of Law. In special cases, it may be possible to be admitted after three years of undergraduate study: contact the College of Law for more information. Applicants must also arrange for a complete Law School Data Assembly Service (LSDAS) report, which consists of a Law School Admission Test (LSAT) score, copies of transcripts, and other relevant information.

Arrangements for taking the LSAT must be made by the individual applicant directly with the Law School Admission Council (LSAC) well in advance of the dates set for the LSAT. The dates and places for the test, application forms, and a bulletin of information about the test may be obtained by writing directly to LSAC, 662 Penn St., Newtown, PA 18940, by calling LSAC at 215-968-1001, or on their web site at www.lsac.org (<http://www.lsac.org>). This information may also be obtained from the pre-law advisor of most colleges and universities.

Commercial materials on the LSAT are available at most bookstores, and LSAT preparation courses may be found in many locations. Applicants are advised to study for the test ahead of time. Old LSAT scores are acceptable as long as an LSDAS Report can be assembled by the testing service.

Registration with the LSDAS is required of all applicants. Instructions on registration for the LSDAS report and an application form for the purpose are contained in the same bulletin that describes the LSAT. Applicants should accomplish this registration at the same time they register for the LSAT. **It is the applicant's responsibility to assure that LSDAS has all required information and that the applicant's LSDAS Report is complete for release to the College of Law.** Be advised that it may take up to six weeks for an LSDAS Report to reach the College of Law.

Application Deadline

While the College of Law considers applications upon completion, all required admission credentials listed below should be postmarked no later than **February 15** to be assured timely consideration for admission in the fall. The College of Law will request an LSDAS Report from LSAC on receipt of an application and application fee. The college is unable to consider the application until an LSDAS Report has been received. This requires applicants to take the LSAT no later than the preceding December. However, in order to assure timely application, the October LSAT, almost a year before admission, is recommended. The college cannot be responsible for delays in the mail or at the LSDAS.

Decision on Admission

Admissions decisions are made by a faculty committee. The college receives many more applications than it can accept. Consequently, the Admissions Committee must deny admission to many who are qualified to study law. In general, offers of admission are extended to those judged to present the greatest promise for success in law school. Matters relating to character are also considered in the admissions process.

Although undergraduate grade point average and LSAT scores are the most important factors used to arrive at this judgment, the committee will consider any additional information that an applicant believes is important in assessing his or her ability to perform law school work. A personal statement often provides insight into an applicant's motivation for attending law school, as well as functioning as a sample of writing ability, and is probably the most helpful additional item for most applicants. Graduate work and/or work experience may provide evidence of achievement and capabilities inadequately addressed by standard credentials. Letters of recommendation and prior written work may also help in assessing an applicant's relative promise. Letters of recommendation should be limited to three, and should address the applicant's ability to engage in critical analysis and to communicate orally and/or in writing. The cultural and socioeconomic background of applicants is also considered to ensure the College of Law remains open to all students, as well as provides an environment in which diverse viewpoints are represented.

As a state-supported institution, the College of Law extends a preference to timely applicants who are Idaho residents. It is possible to establish Idaho residency for tuition purposes either prior to or after enrolling at the College of Law. Residency determinations are made by the University of Idaho Registrar's Office; inquiries about residency should accordingly be directed to that office at 208-885-6731.

Admission to the College of Law is very competitive. The median undergraduate grade point average for enrolled students is typically around 3.40, and the median LSAT score was 152 for the Class of 2016. Statistics for the current year can be found at www.uidaho.edu/law/admissions.

Every effort is made to notify timely applicants of a decision by early April. A small percentage of applicants may be placed in the "standby

pool" and may not receive a final decision until late summer, subject to space available in the incoming class.

Upon acceptance, a \$500 deposit is required to secure a place in the fall entering class. This deposit will be applied to student fees upon registration. In cases of special need, the deposit may be waived.

Transfers from Other Schools

Space in each law school class is limited. Therefore, only a few transfers into the second year class can be accommodated. Special standards apply, and within these standards, a degree of preference is extended to residents of Idaho. Students transferring into our program are expected to complete at least three semesters at Idaho. Students desiring to study here for a lesser period should arrange to have credits at Idaho accepted toward a degree from the law college in which they are currently enrolled. Before a transfer applicant is considered, we must have a final transcript of all work that will have been undertaken at other law schools on file by the time of transfer. We also require a letter from the dean or associate dean following the completion of all such work that states that the applicant remains in good standing, is eligible to continue without any condition or qualification, and ranks in the top 50 percent of his or her law school class. Consequently, for an applicant currently enrolled in a law school, no decision on transfer will be possible until June or later, when all grades from current work are available. If an applicant attends a summer session of a school of law, it will not be possible to process a final acceptance until the close of the summer session. If an applicant needs some guidance before results of his or her spring semester's work become available, a tentative opinion about probable admissibility may be given.

Non-degree Candidates

Students who are not degree candidates in the College of Law but are enrolled elsewhere at the University of Idaho are permitted to register for law courses if they receive permission from both the course instructor and the Associate Dean of Students and Administration. Such courses cannot be credited toward a law degree even if the student is later admitted to the College of Law.

Fees

See the section on "Fees and Expenses (p. 51)".

Grading System

Grades for courses taken in the College of Law shall be awarded on the basis of A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F; provided, however, that by resolution the law faculty may designate any course, or courses, to be graded on a pass-fail or pass-no pass basis. Any approved course work taken at any other law school will be recorded on the transcript as a "P" if the student earned a "C" or better in that course. No credit will be awarded for work done at another law school if the student earned less than a grade of "C." Up to 6 credit hours of UI graduate level courses may be taken with special permission of the associate dean. Credits will be recorded as "P" for course work in which the student earns a "B" or better. Grades of "P" are not included in calculating a student's grade-point average or class ranking in the College of Law. Exceptions to the above may be made for UI graduate level courses used in the approved UI law/graduate concurrent degree programs.

Grade-point averages of students in the College of Law shall be computed by assigning the following numerical point values per semester hours: A = 4.00; A- = 3.67; B+ = 3.33; B = 3.00; B- = 2.67; C+ = 2.33; C = 2.00; C- =

1.67; D+ = 1.33; D = 1.00; D- = 0.67; F (or "fail" under the pass-fail basis) = 0.00. The cumulative grade-point average is the quotient of total points assigned, divided by total hours undertaken. Courses in which marks of I, W, P (pass) or NP (no pass) have been given shall be disregarded in the computation. All course grades shall be included on the transcript and (except for marks of I, W, P or NP) in the calculation of the grade-point average, even if courses have been repeated. (For further information about repeating courses, see below.)

This grading system applies in determining:

- 1. eligibility for continuing study in the College of Law;
- 2. compliance with requirements for the Juris Doctor degree; and
- 3. class ranking within the College of Law.

Grades in most courses offered by the College of Law are awarded on the basis of performance in a single written examination conducted at the end of the semester. In courses where it is so announced, grades on written projects or classroom participation may be included.

Unless arranged in advance by the professor, students receiving an "incomplete" grade for a course must remove that grade within six weeks after the first day of classes of the following fall or spring semester. Incompletes not made up before that date automatically revert to the grade indicated by the professor as the "permanent" grade, usually an "F." The grade ultimately given will be computed in the GPA for the semester in which the class was begun.

Repeating Courses for Credit

A student who has completed a law school course in which s/he has received a grade of C-, D+, D, or D- may repeat that law school course once (the "repeated course"), subject to the following conditions:

- 1. The credit hours earned by the student upon completion of the repeated course shall appear on the law school transcript, but shall not be applied toward the total number of required credit hours for award of the Juris Doctor degree by the College of Law.
- 2. The grade earned by the student upon completion of the repeated course shall appear on the student's law school transcript, but shall not be calculated as part of the student's law school grade point average.

Repeating Failed Courses

- 1. A student who has completed a law school course in which s/he has received a grade of F (the "failed course") shall receive no credit hours for application toward the total number of required credit hours for award of the Juris Doctor degree by the College of Law, but the grade shall be calculated as part of the student's law school grade point average.
- 2. If the failed course is a course required for graduation the student must repeat the course and receive a grade above an F, in order to satisfy the graduation requirements. If the failed course is not required for graduation, the student may repeat the course one time only. If a student repeats a failed course and passes the course, the credit hours and grade received in the repeated course shall be treated as follows:
 - a. The credit hours earned by the student upon completion of the repeated course shall appear on the law school transcript and shall be applied toward the total number of required credit hours for award of the Juris Doctor degree by the College of Law.
 - b. The grade earned by the student upon completion of the repeated course shall appear on the student's law school transcript, but

shall not be calculated as part of the student's law school grade point average.

Concurrent Degrees
Concurrent Degrees (M.Acct./M.S./P.S.M./Ph.D.) and other Graduate-Level Courses

Graduate-level courses used toward an approved concurrent law degree must be approved by the College of Law. Grades and credits earned in these approved graduate courses will not be calculated in the student's institutional College of Law GPA or College of Law class ranking.

The University of Idaho currently offers the following concurrent programs:

- J.D./M.Acct. - Accounting
- J.D./M.S. - Bioregional Planning and Community Design
- J.D./M.S. - Environmental Science
- J.D./M.S. - Water Resources
- J.D./Ph.D. - Water Resources
- J.D./P.S.M. - Natural Resources and Environmental Science

For information on the concurrent J.D./M.Acct. see the Accounting (p. 149) section. For information on the concurrent J.D./M.S., J.D./P.S.M., and J.D./Ph.D. degrees, see the Program in Environmental Science (p. 289) section, Program in Bioregional Planning and Community Design (p. 146) section, or the Program in Water Resources (p. 129) section. UI graduate-level courses will be recorded on the law student's academic record as a comment only.

For the concurrent J.D./M.Acct., J.D./M.S., and J.D./Ph.D. degrees, a student will be required to complete both degrees for the College of Law to count twelve credits towards the J.D. degree. If a student fails to receive the M.Acct., M.S. or Ph.D. degree a maximum of six semester credits earned in the M.Acct., M.S., or Ph.D. program may count towards the J.D. degree with the approval of the College of Law associate dean. Information on the JD/MBA Concurrent degree program offered in cooperation with Washington State University, please contact the College of Law.

Additional Information

For detailed information about the College of Law, see the College of Law Catalog or visit their website, www.uidaho.edu/law.

Law (J.D.)

Required course work includes the College of Law requirements and the following:

Code	Title	Hours
LAW 805	Civil Procedure & Intro to Law	2
LAW 806	Civil Procedure II	3
LAW 807	Property	4
LAW 809	Torts	4
LAW 812	Criminal Law	3
LAW 813	Contracts	2
LAW 814	Contracts II	3
LAW 815	Legal Writing and Analysis	0-5
LAW 816	Constitutional Law I	3

LAW 821	Legal Research	1
LAW 905	Constitutional Law II	3
LAW 907	Administrative Law	3
LAW 919	Business Associations	4
LAW 950	Evidence	3
LAW 962	Professional Responsibility	3
Select 6 credits from the following experiential learning courses:		6
LAW 855	Water Law Practicum	
LAW 917	Negotiation and Appropriate Dispute Resolution	
LAW 932	Estate Planning	
LAW 958	Trial Advocacy	
LAW 971	Lawyering Process Seminar	
LAW 974	Legal Aid Clinic	
LAW 975	Classroom Credit Public Service Externship	
LAW 978	Entrepreneurship Law Clinic	
LAW 986	Judicial Clerkship Seminar	
LAW 991	Skill Practicum	
LAW 994	Economic Development Clinic	
LAW 995	Main Street Law Clinic	
LAW 996	Immigration Law Clinic	
LAW 997	Mediation Clinic	
LAW 998	Tax Clinic	
Satisfaction of the Upper-Division Writing Requirement through Law Review, or a Directed Study, or particular designated courses each year		
50 Hours of uncompensated law related pro bono service		
Total Hours		47-52

Courses to total 90 credits for this degree.

Students may choose to complete one of the following four emphases. To complete a J.D. with any of the listed emphases a student must complete the above general J.D. requirements and the requirements of one of the emphases.

A. Business Law and Entrepreneurship Emphasis

Students pursuing this emphasis must earn a minimum grade of 'C' in each course taken to satisfy Business Law & Entrepreneurship emphasis requirements, plus a cumulative 2.50 grade point average over all courses used to satisfy Business Law & Entrepreneurship emphasis requirements.

Code	Title	Hours
LAW 919	Business Associations	4
LAW 925	Property Security	3
LAW 930	Taxation	3-4
Select one paper class from the following:		4
LAW 981	Critical Legal Studies Journal	
LAW 982	Law Review	
LAW 983	Directed Study	
Select one skills class from the following:		2-3
LAW 912	Civil Mediation	
LAW 917	Negotiation and Appropriate Dispute Resolution	
LAW 932	Estate Planning	
LAW 978	Entrepreneurship Law Clinic	
LAW 994	Economic Development Clinic	

LAW 998	Tax Clinic	
Select one of the following groups of courses:		12

Group A, Commercial Law Track

LAW 923	Negotiable Instruments, Bank Collections and Deposits, and Other Payment Systems	
LAW 924	Sales	
Select 6 credits from the following:		
LAW 854	Corporate Taxation	
LAW 907	Administrative Law	
LAW 911	Suretyship and Guaranty	
LAW 926	Bankruptcy	
LAW 927	Partnership and LLC Taxation	
LAW 984	Real Estate Transactions	

Group B, Enterprise Organization Track

Select 12 credit from the following:		
LAW 851	Advanced Torts	
LAW 854	Corporate Taxation	
LAW 903	Introduction to Intellectual Property	
LAW 907	Administrative Law	
LAW 908	Workplace Law	
LAW 910	Antitrust	
LAW 920	Securities Regulation	
LAW 921	Accounting for Lawyers	
LAW 922	Trademarks and Trade Dress	
LAW 924	Sales	
LAW 927	Partnership and LLC Taxation	
LAW 984	Real Estate Transactions	
LAW 992	White Collar Crime	

Group C, Intellectual Property and Technology Law Track

LAW 903	Introduction to Intellectual Property	
Select two from the following:		
LAW 922	Trademarks and Trade Dress	
LAW 931	Patents	
LAW 980	Copyrights	
Select 5 credits from the following:		
LAW 907	Administrative Law	
LAW 910	Antitrust	
LAW 918	Internet Law	
LAW 922	Trademarks and Trade Dress	
LAW 931	Patents	
LAW 980	Copyrights	
LAW 989	Mass Media Law	

Total Hours	28-30

Courses to total 90 credits for this degree

B. Litigation and Alternative Dispute Resolution Emphasis

Students pursuing this emphasis must earn a minimum grade of 'C' in each course taken to satisfy Litigation & Alternative Dispute Resolution emphasis requirements, plus a cumulative 2.50 grade point average over all courses used to satisfy Litigation & Alternative Dispute Resolution emphasis requirements.

Code	Title	Hours
LAW 917	Negotiation and Appropriate Dispute Resolution	3
LAW 950	Evidence	3
Select one trial skills course from the following:		2-3
LAW 954	Trial Skills	
LAW 958	Trial Advocacy	
Select one mediation course from the following:		2
LAW 912	Civil Mediation	
LAW 913	Family Mediation	
Select one skills course from the following:		1-5
LAW 956	Moot Court	
LAW 957	Mock Trial	
LAW 973	Non-Classroom Credit Public Service Externship	
LAW 974	Legal Aid Clinic	
LAW 975	Classroom Credit Public Service Externship	
LAW 976	Semester in Practice	
LAW 995	Main Street Law Clinic	
LAW 996	Immigration Law Clinic	
LAW 997	Mediation Clinic	
LAW 998	Tax Clinic	
Select 10 credits from the following: ^{1, 2}		10
LAW 904	Federal Courts	
LAW 907	Administrative Law	
LAW 914	Dispute Resolution	
LAW 916	Public International Law	
LAW 940	International Human Rights	
LAW 952	Remedies	
LAW 953	Criminal Procedure: Investigations	
LAW 955	Appellate Advocacy Program	
LAW 960	Conflict of Laws	
LAW 966	Legal Drafting	
LAW 967	Advanced Legal Writing	
LAW 970	Advanced Legal Research	
LAW 971	Lawyering Process Seminar	
LAW 974	Legal Aid Clinic	
LAW 975	Classroom Credit Public Service Externship	
LAW 976	Semester in Practice	
LAW 977	Clinical Lab	
LAW 985	Immigration Law and Policy	
LAW 995	Main Street Law Clinic	
LAW 996	Immigration Law Clinic	
LAW 997	Mediation Clinic	
LAW 998	Tax Clinic	
Total Hours		21-26

¹ A minimum of one doctrinal course in LAW 904, LAW 907, LAW 916, LAW 940, LAW 952, LAW 953, LAW 960, or LAW 985 is required.

² A minimum of one practice course in LAW 914, LAW 955, LAW 966, LAW 967, LAW 970, LAW 971, LAW 974, LAW 975, LAW 976, LAW 977, LAW 995, LAW 996, LAW 997, or LAW 998 is required.

Courses to total 90 credits for this degree

C. Native American Law Emphasis

Students pursuing this emphasis must earn a minimum grade of 'C' in each course taken to satisfy Native American Law emphasis requirements, plus a cumulative 2.50 grade point average over all courses used to satisfy Native American Law emphasis requirements.

Code	Title	Hours
LAW 949	Native American Law	3
LAW 928	Tribal Nation Economics and Law	3
or LAW 979	Native American Natural Resource Law	
Select one of the following Tracks:		6
Economics Development Track ¹		
Select 6 credits from the following:		
LAW 903	Introduction to Intellectual Property	
LAW 907	Administrative Law	
LAW 908	Workplace Law	
LAW 910	Antitrust	
LAW 919	Business Associations	
LAW 921	Accounting for Lawyers	
LAW 923	Negotiable Instruments, Bank Collections and Deposits, and Other Payment Systems	
LAW 925	Property Security	
LAW 926	Bankruptcy	
LAW 927	Partnership and LLC Taxation	
LAW 930	Taxation	
LAW 931	Patents	
LAW 932	Estate Planning	
LAW 945	Community Property	
LAW 984	Real Estate Transactions (Max 3 credits)	
Family Law Track ¹		
Select 6 credits from the the following:		
LAW 913	Family Mediation

LAW 959	Critical Legal Studies	
LAW 960	Conflict of Laws	
Natural Resource Management Track ¹		
Select 6 credits from the following:		
LAW 906	Natural Resource Law Seminar	
LAW 934	Land-Use Law and Planning	

LAW 937	Wildlife Law and Policy
LAW 938	International Environmental and Water Law
LAW 939	Law, Science, and the Environment
LAW 942	Water Law I
LAW 946	Water and Energy Policy Seminar
LAW 947	Environmental Law
LAW 948	Public Lands and Resources Law
LAW 951	Environmental Policy
LAW 969	Water Law II

Self Directed Track ¹

Six credits in courses pre-approved by the Native American Law Advisor emphasis advisor

Total Hours 12

Courses to total 90 credits for this degree

¹ Students must complete one of these tracks. Substitution from UI and WSU graduate courses allowed for one course in each track with pre-approval of Native American Law Emphasis Advisor.

D. Natural Resources and Environmental Law Emphasis

Students pursuing this emphasis must earn a minimum grade of 'C' in each course taken to satisfy Natural Resources and Environmental Law emphasis requirements, plus a cumulative 2.50 grade point average over all courses used to satisfy Natural Resources and Environmental Law emphasis requirements.

Code	Title	Hours
LAW 907	Administrative Law	3
LAW 971	Lawyering Process Seminar	2
Select 10 credits from the following:		10
LAW 852	Natural Resource and Environmental Law Field Course	
LAW 855	Water Law Practicum	
LAW 906	Natural Resource Law Seminar	
LAW 934	Land-Use Law and Planning	
LAW 937	Wildlife Law and Policy	
LAW 938	International Environmental and Water Law	
LAW 939	Law, Science, and the Environment	
LAW 942	Water Law I	
LAW 946	Water and Energy Policy Seminar	
LAW 947	Environmental Law	
LAW 948	Public Lands and Resources Law	
LAW 951	Environmental Policy	
LAW 969	Water Law II	
LAW 979	Native American Natural Resource Law	
LAW 994	Economic Development Clinic	
WR 506	Interdisciplinary Methods in Water Resources	
Total Hours		15

Courses to total 90 credits for this degree**Law (LL.M.)**

Required course work includes the College of Law requirements and one of the following emphases:

Total Hours	15

Students are required to compete in either the mediation or negotiation intermural competition held annually.

Courses to total 24 credits for this requirement

¹ LAW 901 *Topics: Advanced Criminal Procedure (3 cr) or Advanced Topics in Criminal Procedure (3 cr)*

² LAW 949 *Native American Law (3 cr) can satisfy requirements for the LL.M. degree, but cannot be counted by students seeking to sit for a bar exam.*

Law Emphases

Students majoring in Law have the option to pursue an emphasis in the following areas:

- Business Law and Entrepreneurship (p. 233)
- Litigation and Alternative Dispute Resolution (p. 233)
- Native American Law (p. 234)
- Natural Resources and Environmental Law (p. 235)

Additional Information

For detailed information about the College of Law, see the College of Law Catalog / Law Student Handbook at www.uidaho.edu/law/students or visit the College of Law website, www.uidaho.edu/law.

Natural Resources and Environmental Law Graduate Certificate

The 12-credit graduate certificate in Natural Resources and Environmental Law is intended primarily for non-law graduate students.

This certificate introduces professionals with limited to no prior legal training to the legal regimes in their day-to-day compliance activities. This certificate better prepares professionals to work as resource managers, agency scientists, ranchers, foresters, or other professions that extract, allocate, manage, or conserve natural resources.

Code	Title	Hours
LAW 907	Administrative Law	3
LAW 942	Water Law I	1-2
LAW 947	Environmental Law	3
LAW 948	Public Lands and Resources Law	3
LAW 969	Water Law II	2

Courses to total 12 credits for this certificate

COLLEGE OF LETTERS, ARTS AND SOCIAL SCIENCES

Andrew E. Kersten, Dean; Diane Kelly-Riley, Associate Dean of Research; Torrey Lawrence, Associate Dean of Undergraduate Studies and Faculty Affairs; Mark Warner, Associate Dean of Graduate Studies (112 Admin. Bldg.; 208-885-6426).

The largest division of the university, the College of Letters, Arts, and Social Sciences (CLASS) has four goals:

1. to prepare individuals for an array of careers and professions;
2. to foster scholarly inquiry, creative activity, and the generation of knowledge;
3. to serve the public, and
4. to provide the cultural and contextual foundation on which other academic and professional colleges depend.

The College through its 10 departments and schools; and several interdisciplinary programs prepares broadly educated individuals capable of open inquiry, critical thinking, and effective communication, who understand and are responsive to the needs of individuals and society. The College values the integration of learning and discovery in its efforts to develop and support distinctive programs that enhance the land grant mission of the university within the context of the arts, humanities, and social sciences. Students are prepared to become knowledgeable, contributing citizens in a world of diverse cultures and contexts. Beyond learning how to discover, analyze, and integrate knowledge across disciplines, graduates come to value lifelong learning as the basis for excellence in any endeavor.

Admission to the College

Students who expect to enter CLASS should plan their high school electives carefully, both to lay the foundation for their general education, which will be continued in the university, and to ensure that they are adequately prepared to begin their study at the college level. Students should select subjects in English, foreign language, social sciences, natural sciences, mathematics, and fine arts that will provide a well-rounded preparation for further study. For a statement of general undergraduate and graduate admission requirements, see the admissions (p. 41) portion of the catalog.

Regular Enrollment in a Program of Studies

Students in CLASS must enroll in regular programs unless they are admitted as a non-degree seeking student. A regular program is one that leads to a degree that the College offers.

Teacher Education Program

Students in CLASS who are preparing for secondary-school teaching should consult the section on the College of Education, Health and Human Sciences (p. 161).

Laboratory of Anthropology

The Alfred W. Bowers Laboratory of Anthropology, established in 1968, is an archaeological curatorial and research facility in the Department of Sociology & Anthropology in the College of Letters, Arts and Social Sciences. In this role, the Laboratory serves as the Archaeological survey

of Idaho, Northern Repository (ASINR). The ASINR houses archaeological materials and associated documents from the ten northern counties in the state. Additionally, the Laboratory holds the Asian American Comparative Collection, Don E. Crabtree Lithic Collection, Historic Artifact Collection, Faunal Comparative Collection, and the Pacific Northwest Anthropological Archive.

General College Requirements for Graduation

The College requirements applicable to the B.A. and B.S. degrees are listed in the relevant college section. The requirements for the various professional degrees (i.e., B.F.A. and B.Mus.) are listed by academic unit. The College B.A. and B.S. requirements do not apply to these professional degrees.

College Requirements for the B.A. and B.S. Degrees

Objectives. The College requirements for the B.A. and B.S. degrees are designed to ensure a broad, liberal education through the attainment of the following objectives:

1. proficiency in written and spoken English;
2. appreciation of great literature, music, and art;
3. knowledge of human development, the growth of social and economic institutions, and an understanding of the rights and responsibilities of the individual citizen;
4. perspective of American culture in the world at large;
5. sense of historical perspective;
6. acquaintance with moral, ethical, and aesthetic values;
7. familiarity with scientific thought and method;
8. ability to use and interpret basic mathematical concepts;
9. understanding of ecology; and
10. a continuing attitude of intellectual curiosity.

Requirements for the B.A. Degree Humanities

6 credits (two courses) in addition to the minimum university-wide general education requirement in humanities/social sciences.

Social Sciences

3 credits (one course) in addition to the minimum university-wide general education requirement in humanities/social sciences.

Foreign/Second Language

0-16 credits (zero-four courses), i.e., competence in one foreign/second language equivalent to that gained by the completion of four semesters of college courses (through the intermediate level). This requirement may be satisfied by the completion of either of the following options:

1. 16 credits or four high-school units in one foreign/second language, or
2. 12 credits in one foreign/second language, and one three-credit course in literature translated from the same language. The 12 credits may be satisfied by three high-school units in one foreign/second language. A student may use coursework in American Sign Language offered at other institutions to fulfill this requirement. The coursework must be equivalent to that required at UI to fulfill this requirement.

Requirements for the B.S. Degree

Humanities

3 credits (one course) in addition to the minimum university-wide general education requirement in humanities/social sciences.

Social Sciences

3 credits (one course) in addition to the minimum university-wide general education requirement in humanities/social sciences.

Natural Sciences, Mathematics, and Statistics

6 credits (two courses) in addition to the minimum university-wide general education requirement in natural sciences/math.

For the B.S. degree, the student may substitute the successful completion of an academic minor or area of emphasis of at least 18 credits approved by the department in which the student is majoring.

Progress in Satisfying These Requirements

Students who wish to graduate by the end of four years of college work should take a program that results in substantial progress toward the fulfillment of the preceding requirements by the end of the sophomore year. In particular, students seeking the B.A. degree should take courses in fulfillment of the foreign-language requirement as early as possible. If they cannot do this during the first semester, they should immediately take a course that can be used in partial fulfillment of the science-mathematics requirement.

Departments and Programs of Instruction

At both the undergraduate and graduate level, the curricula of CLASS emphasize the aesthetic, historical, ethical, and social dimensions and interpretations of human existence. Included within CLASS are the Departments of English, History, Modern Languages & Cultures, Politics and Philosophy; Psychology and Communication Studies, Sociology and Anthropology; and Theatre Arts. The College is home to the School of Journalism and Mass Media, the Lionel Hampton School of Music, and the Martin School of Global Studies. Other programs offering degrees through CLASS include General Studies, Interdisciplinary Studies, Latin American Studies, and Organizational Sciences. The departments and schools in CLASS provide dozens of curricula and curricular options leading to certificates, minors, and baccalaureate degrees as well as programs of graduate study leading to master's and doctoral degrees.

Undergraduate

See departmental sections.

Graduate

The College of Graduate Studies offers work toward advanced degrees in many disciplines in CLASS. Work leading to a master's degree is currently available in the fields of anthropology, creative writing, English, history, music, philosophy, political science, psychology, public administration, and theatre arts. The degree of Doctor of Philosophy is available in history, philosophy, political science, and psychology. For specific degrees available, see the list of programs compiled in the General Catalog.

General Studies

The College also serves those students who have not decided upon a particular program of study by providing a course of study and degree that allow students to complete their general education requirements and explore a broad-based university curriculum without specialization. For details, see the program in general studies.

Non-degree

A non-degree program is offered in which each student's course of study is worked out to meet his or her special needs. The program is intended primarily for students who:

1. do not plan to obtain degrees at the University of Idaho,
2. plan to transfer to other institutions, or
3. have objectives that are not provided for by any of the established curricula in the College.

Interdisciplinary Studies

Students who have educational goals that necessitate work in several disciplines or departments may present an interdisciplinary curriculum for the B.A. or B.S. degree. For details, see the program in interdisciplinary studies.

Online Programs

For information regarding this programs please see our website: www.uidaho.edu/class/online.

Major Curricula

Selection of a Major

Each student should select a major curriculum no later than the beginning of the junior year. Lower-division students who have not decided on a major may pursue the Bachelor of General Studies.

Major Requirements

The departmental requirements are stated under the respective curricula.

Program in Aging Studies

The Aging Studies Minor connects different knowledge bases across many disciplines. The program offers an interdisciplinary approach that uses the concept of development in later life to examine such cultural variables as class, ethnicity, nationality, gender, and developmental processes and such behavioral concerns as relationship dynamics, health and lifestyle maintenance, work-retirement transitions and changes in family structures. The courses encourage students to develop critical thinking skills that will empower them as active learners and that will lead them to better understanding of what it means to grow old in a new age. Field and applied experiences enable students to demonstrate new knowledge and to refine their competence in working with real life community and family problems. Fields such as communication, recreation, criminology, economics, health services, social work, law, psychology, education, and family and consumer studies are increasingly offering special career opportunities to students with a background in aging studies.

Academic units that cooperate to offer this minor include the School of Family and Consumer Sciences (p. 112), the Department of Movement Sciences (p. 183), and the Departments of Art and Architecture (p. 135), Psychology and Communication Studies (p. 274), and Sociology and Anthropology (p. 277).

Program in American Indian Studies

The University of Idaho's American Indian Studies program engages with Indigenous knowledge(s) and cultures(s) as dynamic, vibrant, diverse, place-based, and resilient. The AIS program seeks to educate, contemplate and study the deep continuities of Indigenous knowledge(s) rooted in place and sophisticated problem solving engaged across time and space, past and the present. By privileging the voices and experiences of Indigenous peoples themselves, AIS offers:

1. a place on the University of Idaho campus for critical Indigenous thought, pedagogies, and scholarship;
2. the dissemination of Indigenous knowledge to better inform global engagement conducted at the University of Idaho and the region; and
3. intellectual engagement on historical and contemporary legal, political, academic, scientific, and other issues across the Indigenous curriculum.

Central to the vision of the American Indian Studies program are programmatic and intellectual pursuits led by AIS value co-constructed, sustained and engaged relationships with Indigenous communities.

The American Indian Studies Program is based on the following objectives:

1. **Recruitment and retention** – enhance the recruitment and retention of Indian students, as well as other students of ethnic heritage, attending and graduating from UI.

2. **Intercultural communication** – provide an opportunity for face-to-face Indian/non-Indian exchange of ideas, perceptions, and misperceptions about Indian and Euro-American culture, including a meaningful context for intercultural communications and understanding, and solution of problems of bias and stereotyping.
3. **Cultural appreciation** – foster a better understanding of and appreciation for the vitality, breadth, depth, and rich diversity of components of contemporary Indian cultures (e.g., arts, economics, literature, government, and social and religious life), as well as their histories.
4. **Rigorous curriculum with an interdisciplinary approach** – enable students to acquire the knowledge, critical methods, and research skills of the academic fields that comprise the minor, including but not limited to anthropology, English, history, sociology, and teacher education.
5. **Application** – provide an Indian pedagogy and knowledge base, i.e., an Indian perspective, that would complement and be integrated with students' other academic fields of study (e.g., business, education, engineering, forestry and natural resources, health care, humanities, or social sciences), better preparing students with the skills and expertise to address and successfully meet the various issues and challenges faced in Indian communities.
6. **Collaboration** – build partnership relationships between UI and regional tribes (Idaho and adjacent western states), especially the Coeur d'Alene and Nez Perce Tribes, improving communications, educational delivery, the sharing of expertise, and ability to address common concerns and problems.
7. **Institutional growth** – advance the concerns and issues faced in Indian communities, as well as an Indian pedagogical and knowledge perspective within the university and academic communities.
8. **Inclusivity** – serve both Indian and non-Indian students and communities alike. Through the offered curriculum and sponsored activities, the overarching objective of the American Indians Studies Program is to provide a transformational educational experience for students.

Acknowledging the vital role native languages continue to play in American Indian communities and the need for their preservation, a curriculum in Nez Perce language is offered and upon completion of two years of study can be used to satisfy the Bachelor of Arts language requirement at the University of Idaho.

Students enrolled in the academic minor in American Indian Studies will be required to complete an academic service learning internship in collaboration with an area tribe. This internship helps fulfill the program's vision and objectives of application and collaboration through the American Indian/Indigenous value of reciprocity.

Minors

- American Indian Studies Minor (p. 242)

AIST 110 Community Building 3 credits

This course is aimed towards first generation college students from indigenous communities. This course helps students build community support through existing programs at the university and facilitates students' connections with their tribal cultures. It also helps students develop good study habits and build study skills.

AIST 111 Intro to Success

1 credit

This course assists each student's academic, cultural, and social adjustment to the University. The course is also designed to provide supportive tools and resources to each student to ensure they are maximizing their ability. The course will focus on a few of the topic areas: time management, organization skills, tribal issues and tribal governmental structures, importance of diversity, learning styles, budgeting, and test taking.

AIST 204 (s) Special Topics

Credit arranged.

AIST 210 Native Identities

3 credits

This course is intended to develop a dynamic modern understanding of indigenous communities and self. The class will focus on such themes as family, history, blood & kinship, colonization, treaty rights and sovereignty, land and linguistics.

AIST 244 (s) Tribal Elders Series

3 credits, max 9

This course is intended to share information from the neighboring tribes surrounding the University of Idaho. Elders from these communities will share a tribal epistemology that each tribe considers to be essential to an education of an adult. Such educational perspective may often be missing/misrepresented or misunderstood in current university pedagogy. This class will place an emphasis on contemporary indigenous voices. This course will have a subtopic heading to incorporate the possibility of having many neighboring tribes participate.

AIST 314 Tribal Sovereignty and Federal Policy

3 credits

The Tribal Sovereignty and Federal Policy course is designed to provide an in-depth understanding of how colonial and Federal Indian Policies have impacted the lives of Tribes and their surrounding communities. Through a survey of the changing eras of policy (conquest, pre-Revolutionary approaches, the Marshall Trilogy, the Treaty Era, Allotment and Termination, and Self-Determination), students will learn about the forces that have shaped tribal communities, and a deeper appreciation for tribes' efforts to restore and exercise their sovereignty. Tribal Sovereignty as it applies to land management, natural resources and community development will be a focal area.

AIST 320 Native American & Indigenous Film

3 credits

Gen Ed: American Diversity

Examines the representation of American Indians in film from early-mid 20th century Hollywood westerns to self representations of late 20th and early 21st century films made by Native Americans. Traces changes in the cinematic depictions of Native peoples and historical and cultural reasons for those changes. Emphasizes Native-made film as extension of oral tradition, indigenous aesthetics, and sovereignty. May include international Indigenous films.

AIST 344 Indigenous Ways of Knowing

3 credits

The course is intended as an introduction to issues of cultural, racial, ethnic and linguistic diversity that arise in American school and society. In particular we will be looking at indigenous epistemological comparison with Western educational models. The central question for the course will be: Why is educational attainment different for different groups in society, and how does that difference relate to social stratification characteristics of the larger society? We will also try to answer other questions: What is the impact of cultural and linguistic diversity on the various institutions of society, including family, schools, and the economic system? What policies and programs have been developed in the US and other societies to deal with cultural diversities? These and other questions will be the basis for our reading and discussions.

AIST 400 (s) Seminar

Credit arranged.

AIST 401 Contemporary American Indian Issues

3 credits

Gen Ed: American Diversity

Identifies and addresses key cultural, economic, educational, legal, resource, and sovereignty issues facing Indian communities today; an essential component involves presentations by representatives from the Indian communities. (Spring only)

AIST 403 (s) Workshop

Credit arranged.

AIST 404 (s) Special Topics

Credit arranged.

AIST 411 Native American Architecture

3 credits

Gen Ed: American Diversity

Cross-listed with ARCH 411

An exploration of Native American architecture in North America, including ancient, historic, and contemporary buildings and settlements within their diverse social, cultural, and physical contexts. Additional assignments required for graduate credit. (Spring only)

AIST 412 Tribal Governance

3 credits

This course is intended to impart an understanding of the vitality and rich diversity of contemporary American Indian societies, their histories, and their literatures, e.g., in the arts and expressive culture, governmental affairs both indigenous and external, economics, ecological relations and natural resources, health care, and family, social and religious life, oral traditions, world views and cultural values. This understanding is inclusive of both indigenous cultural and contact-historical expressions. An understanding of Tribal sovereignty and its varied meanings is key to this outcome.

Prereq: AIST 210 .

AIST 420 Native American Law

3 credits

Cross-listed with LAW 949

Study of Tribal Sovereignty and interaction with the U.S. government at various levels with an emphasis on treaty rights, jurisdictional issues, the trust relationship, protection of lands, the eras of U.S. Indian policy, and the continued assertion of tribal rights and interests. LAW 949 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 420 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course.

AIST 421 Native American Natural Resource Law**3 credits**

Cross-listed with LAW 979

Study of the natural resources over which Tribal Nations assert stewardship or seek to influence others regarding protection of resources including sacred sites, land use and environmental protection, natural resource development, taxation, water rights, rights associated with hunting, fishing and gathering, and international approaches to indigenous lands and resources. Recommended Preparation: LAW 949. LAW 979 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 421 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course.

AIST 422 Plateau Indians**3 credits**

Gen Ed: American Diversity

Cross-listed with ANTH 422 and RELS 422

An overview of historic and contemporary Indian cultures of the Plateau; oral traditions, ceremonial life, social organization, and subsistence activities; history of contact with Euro-American society. Two 1 to 2-day field trips reqd. Additional projects/assignments reqd for grad cr. ANTH 422 is a cooperative course available to WSU degree-seeking students.

AIST 426 Red Earth White Lies: American Indian History 1840-Present**3 credits**

Gen Ed: American Diversity

Cross-listed with HIST 426.

Survey 1840 to present; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S. Additional work required for graduate credit.

AIST 431 Stolen Continents, The Indian Story: Indian History to 1840**3 credits**

Gen Ed: American Diversity

Cross-listed with HIST 431

Survey 1400 to 1840; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S. Additional work required for graduate credit.

AIST 478 Tribal Nation Economics and Law**3 credits**

Cross-listed with LAW 928

Survey of economic development strategies by various Tribal Nations, including an overview of federal incentive programs and disincentives for the growth of strong tribal economies. Tribal legal codes, commercial projects, and federal Indian law parameters will be discussed. Topics will include: the tribal government-owned corporate model, gaming enterprises, economic diversification, the federal 8(a) program, limitations on tribal tax-exempt bond offerings, and value-added on-reservation products. LAW 928 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 478 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course. (Spring, alt/yrs)

AIST 484 American Indian Literature**3 credits**

Gen Ed: American Diversity

Cross-listed with ENGL 484

Major themes and traditions in American Indian texts.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258 .

AIST 498 (s) Internship**Credit arranged**

Supervised internship in an Indian community setting, integrating academic study with work experience; requires formal plan of activities to be approved by the on site supervisor and assigned faculty member; a final written report will be evaluated by the assigned faculty member.

Prereq: Permission.

AIST 499 (s) Directed Study**Credit arranged.**

Program in American Studies

The American Studies Minor at the University of Idaho helps students gain an understanding of U.S. history, society, and cultures, past and present. It centers on courses that promote a multiethnic perspective on the U.S.; students may also examine U.S. experience within the broader context of Canadian and Latin American experience and from

an international perspective. With its choice of emphases in history, social science, or American literature, the American Studies Minor gives students the flexibility to explore a variety of academic fields to widen their knowledge and prepare them for professional life or graduate study.

Department of English

English majors develop skills in writing, textual interpretation, and critical thinking as they study the nature of language and rhetoric and learn how English and American literary traditions develop and relate to world literature. They learn the formal qualities of texts as well as their historical and cultural contexts. Advanced courses allow students to pursue interests in literature, expository and creative writing, cultural studies, literary criticism and theory, linguistics, and English pedagogy. Students write extensively in all courses and gain speaking experience through oral reports and class discussions. (For this reason, international students must have a TOEFL score of 560 or above.)

The Department of English encourages students to plan their curricula according to personal and career goals. Aspiring writers emphasize creative writing courses; future teachers of English as a Second Language (ESL) study linguistics; pre-professionals take advanced writing and career-related courses. Those heading for graduate school in literature, linguistics, or ESL choose courses that prepare them for graduate study in their area. English majors who intend to teach English in secondary schools plan their program to satisfy state certification requirements (see "Secondary School Teaching Certification for Majors Outside the College of Education (p. 161)" in the College of Education (p. 161) section).

To enable students to focus on such interests within a coherent program of study, the English Department offers the choice of four emphases within the major: literature, creative writing, professional, and teaching.

The Department of English offers four graduate degrees at the master's level: the M.F.A., the M.A., the M.A.T., the M.A. in Teaching English as a Second Language. Through course selection and choice of thesis topic, and with the approval of appropriate faculty members, students pursuing the M.A. may emphasize literary studies or studies in composition/rhetoric. Through course selection and choice of thesis topic, and with the approval of appropriate faculty members, those pursuing the M.F.A. may emphasize fiction, poetry, or creative nonfiction. Students planning to work for the M.F.A., M.A. or M.A.T. should be well prepared through the curriculum outlined below. The MFA also offers students the tools to work and teach as literary writers. Those planning to pursue the M.A. in

Teaching English as a Second Language should take extra course work in linguistics.

The purposes of the graduate program in English are to enable students to acquire a broad background in English and American language and literature and to develop specialized skills in independent, scholarly research and in mature, original criticism of literary works, to hone their skills as creative writers, or to deal with the theoretical and practical issues pertaining to English as a second language. The graduate program in English serves those who plan to teach English at junior or community colleges, those who plan to teach English at the secondary level, those who plan to seek employment in business, commerce, industry, or government, and those who plan to pursue the Ph.D.

For admission to the graduate program in English, the student must have a bachelor's degree with a major in English or equivalent preparation and should have an overall grade-point average of 3.00 (on a 4.00 scale) to be granted full admission. Non-native speakers of English must score at least 560 on the TOEFL exam.

Majors

- English (B.A.) (p. 244)

Minors

- English Minor (p. 247)
- Teaching English as a Second Language Minor (p. 248)
- Professional Writing Minor (p. 247)
- Creative Writing Minor (p. 244)

English Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of English. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- English (M.A.) (p. 247)
- Creative Writing (M.F.A.) (p. 243)

Creative Writing (M.F.A.)

Master of Fine Arts. Major in Creative Writing.

The M.F.A. is the terminal degree for those wishing to teach creative writing at the college or university level; it is also among the credentials expected of those seeking employment in arts administration, editing, and related fields. The curriculum provides theoretical and practical training in fiction, poetry, creative nonfiction, and editing and publishing.

The program's principle aim is to teach aspiring writers their craft and at the highest possible level. We gladly speak to students about publishing their work, or about teaching or editing, but our first concern is teaching and learning the craft of writing. While we encourage applicants to *apply only in one genre*, once they are admitted, we encourage them to "cross-pollinate": we like to see poets working at narrative pacing in a fiction or nonfiction class, and we like to see the prose writers attentive to individual syllables in poetry. We encourage students to experiment and to push themselves in new directions. We also insist that they know where they fit in the continuum of writers, and that they understand and

can speak with conviction of where they might place themselves in any of several literary traditions.

Of the minimum 54 credits required for the degree, at least 15 are to be taken in graduate-level literature (which may include ENGL 506); 15 in graduate-level creative writing courses; 2 in workshops taught by Distinguished Visiting Writers; 1 credit in Internship: FUGUE, (ENGL 598); 3 in a Techniques course (ENGL 581, ENGL 582, or ENGL 583); 9 elective credits; and 9 in thesis. A minimum of four semesters in residence is required.

The thesis will take the form of a collection of poetry, short stories, creative nonfiction, or novel, and will be prefaced by an introduction. Upon completion of the thesis in acceptable form, each student will take an oral examination designed to test the student’s ability to discuss articulately his or her creative process, intellectual and creative influences, chosen genre, aesthetic perspective, design, and intent.

Students who enter the program with advanced work in creative writing at the undergraduate level will ordinarily take only 500-level courses in English. Those who have not completed an advanced undergraduate course in one of the three major genres (fiction, poetry, creative nonfiction) will in addition to the above ordinarily take advanced undergraduate courses, as advised by the director of creative writing

Teacher Certification

CLASS English majors wishing secondary teaching certification must complete the appropriate English and education courses listed in the "Teaching Majors and Minors (p. 170)" in the Department of Curriculum and Instruction (p. 164) section of this catalog. Students should plan their programs with their English advisor; they should also see a College of Education (p. 161) advisor regarding certification requirements.

English (M.A.)

Master of Arts. Major in English.

Of the minimum of 33 credits required for the degree, at least 24 credits must be earned in the Department of English at the University of Idaho; included in the total credits required, 3 credits are to be taken in a theory course (which may include ENGL 506, ENGL 511, or a theory course approved by the department's director of M.A. English) and 3 credits in pre-1900 literature. Course work for the M.A. in English is normally at the 500s level; however, up to six credits of work at the 400s level may be included, but only with the approval of the student's major professor and the department's director of graduate studies. Students are allowed to take 3 credits maximum in practica applying toward the degree.

Thesis and Non-Thesis Options:

The thesis option requires 27 credits of coursework and 6 thesis credits, leading to the submission of an acceptable thesis of 60 pages or more. See the College of Graduate Studies (p. 221) "Graduate Handbook for Theses and Dissertations."

The non-thesis option requires 30 credits of coursework and 3 research credits (ENGL 599). The student works with a faculty member to produce a revised seminar paper suitable to be submitted for publication, an abstract for the paper, a concise explanation of initial and additional research and revisions (3-5 pages), and a substantial annotated bibliography of work in the field.

For both the thesis and non-thesis options, each student will take an oral M.A. examination following completion of work submitted in acceptable form, as confirmed by the major professor. The oral examination will be designed to test the student's ability to defend his or her work articulately with respect to research methodology, critical perspective, and applicability to related work in the area.

Students and their major professors and committees will design their programs.

Theses or papers may address topics in literature and literary theory and criticism or composition and rhetorical theory.

Master of Arts. Major in Teaching English as a Second Language.

The M.A. in TESL is intended for students who are interested in learning to teach English as a second language at the post-secondary level. The students take courses in linguistics and in language teaching pedagogy. This curriculum provides them with theoretical background and practical training in the areas of second language acquisition.

Of the minimum of 33 credits required for the degree, at least 24 must be earned while enrolled in residence at UI, and at least 21 credits must be

earned in courses numbered 500 and above. The 33 credits are to include the following courses (18 credits):

Code	Title	Hours
ENGL 513	ESL Methods I: Basic Oral/Aural Skills	3
ENGL 515	ESL Teaching Practicum	3
ENGL 517	Introduction to Applied Linguistics	3
ENGL 524	Descriptive Linguistics	3
ENGL 544	Sociolinguistics	3
ENGL 551	Theories of Second/Additional Language Acquisition	3
Total Hours		18

The remaining 15 credits are to be taken in approved electives in the Department of English, which may include thesis credits.

The M.A. in TESL offers a thesis option. Students who choose to complete the thesis option will write a thesis which may be up to 6 credits of their required 33 credits. Students who do not elect to write a thesis must complete their non-thesis option in the form of a comprehensive examination.

Native speakers of English in the TESL program must complete or have completed two years of college work (or its equivalent) in a modern foreign language. They must have studied a foreign language for at least one semester (or equivalent) within the preceding five years. Non-native speakers of English are excused from this requirement.

English Minor

Code	Title	Hours
ENGL 215	Introduction to English Studies	3
ENGL 341	Survey of British Literature	3
or ENGL 342	Survey of British Literature

Total Hours		21

Courses to total 21 credits for this minor

General Studies

The Bachelor of General Studies (BGS) program serves students in two ways: first, it serves entering students who wish to examine multiple academic areas before selecting a major; second, it serves students who intend to pursue the BGS degree, having developed a coherent program of study with the assistance of their advisor. These students will be able to learn and integrate complex ideas across disciplinary lines and communicate these ideas in written and verbal forms. Students who have declared a major in General Studies are strongly encouraged to utilize programs and services offered by the Career Center and the Counseling and Testing Center to assist them in identifying possible career paths and interests. Within their first year as a BGS major, students are advised to take a career exploration course. Particular attention is paid to identifying critical prerequisite courses so that students are able to enter a major on track for graduation.

Admission to the Program

New students wishing to enroll in the General Studies program may indicate their choice on the application form for admission to the university. Current students may transfer into the BGS major by submitting a change of curriculum form to the Registrar's Office.

General Regulations

Students participating in General Studies while exploring their choice of majors are strongly advised to complete courses that meet requirements as described in Regulation J of the General Catalog. At the same time, these students are strongly advised to select exploratory elective courses

that will provide exposure to various academic programs at the UI. Students may transfer from General Studies to a new major at any time if they satisfy the prerequisites and grade-point requirements of that major. Students must have at least a 2.00 grade-point average to transfer into many of the university's colleges.

Majors

- Bachelor of General Studies Curriculum (p. 248)

Bachelor of General Studies Curriculum

The curriculum leading to the degree of Bachelor of General Studies is designed to provide maximum flexibility for undergraduates while planning their program of studies. Since the only specific subject requirements are the general university requirements, students can plan their programs to the best advantage of their particular educational objectives. This means that students must bear the major responsibility for their choice of courses. Those who plan wisely have the opportunity to obtain an excellent education. The key admonition is: plan your program carefully.

The major thrust of the B.G.S. degree program is nonspecialized education. Although a student could take his or her work in a limited number of departments, the intent of this program is to permit great latitude in the choice of subjects so that students may satisfy their particular objectives. No student may become a candidate for the B.G.S. degree who has already earned a baccalaureate degree or who is a candidate for another degree offered by the university.

Major

No major other than "general studies" will be certified on the student's diploma or official transcript. Students who wish to have a designated major should pursue a departmental baccalaureate degree (B.A., B.S., etc.).

Minor

Students graduating with a Bachelor of General Studies may satisfy requirements for one or more minors. In these cases their transcript will reflect these minors.

Degree Requirements

In addition to the general university requirements for the baccalaureate degree (see regulation J-3 (p. 84)), sufficient electives must be taken to total 120 credits. A minimum of 45 credits must be earned in courses numbered 300 and above. Not more than 36 credits in any one discipline may be counted in the 120 credits.

Suggestions to Students

Students are advised not to make a firm decision with respect to the B.G.S. degree before the end of the freshman year. During the freshman year, and probably during the sophomore year, students should consider following one of the curricula leading to a departmental baccalaureate degree, deviating from the departmental requirements only where it appears educationally advisable to do so.

It is very important that the student working toward the B.G.S. "look ahead" to see in which departments he or she wishes to accumulate the required 45 credits in upper-division courses (those numbered 300 and

above). Many upper-division courses have prerequisites that must be completed during the early semesters of the student's undergraduate career. If planning is delayed, it may be that some courses will be "unavailable" because the student has not taken the prerequisites.

Global Studies, Martin School of

The Martin School of Global Studies provides students with several interrelated disciplines in which they can pursue B.A./B.S. degrees or minors. These programs are situated in two primary domains one focused on language and culture and one focused on international studies. The Modern Languages and Cultures department offers programs in Modern Language Business, French, Latin American Studies, and Spanish, with minors available in Asian Studies, French, German, and Spanish. The International Studies program offers a bachelor's degree and a minor in International Studies.

International Studies

The Program in International Studies offers a unique, interdisciplinary approach to studying global issues. Students take a core of common courses in a Global Theme during the freshman and sophomore years, and then select an issue emphasis and a regional emphasis which shape the courses taken during the junior and senior years. The regional emphasis is supplemented by language study and an international experience of at least ten weeks' duration. Such international experience can take the form of studying abroad, completing an internship abroad, or participating in service learning or other volunteer experience abroad.

Program staff and faculty emphasize experiential learning, undergraduate research opportunities, and excellence in teaching for all students in the program.

Modern Languages and Cultures

Students who take modern language literature and culture courses to complete a MLC major or minor will:

- Gain a deeper understanding of a variety of cultures, including their own;
- Become highly competitive in the international and domestic workforce;
- Increase their critical thinking and communication skills;
- Understand and make connections within the interdependent world
- And become engaged world citizens.

As a leading center for the study of languages and cultures in Idaho, the Department of MODERN LANGUAGES AND CULTURES (MLC) helps students gain a deeper understanding of a variety of cultures, including their own and become engaged world citizens. MLC faculty members, who are from the U.S, Mexico, France, Japan, China, Germany and Spain including the Basque and Cataluña regions, prepare their students for professions in which proficiency in a second or third language is useful or required, including business, government, healthcare, law, media and education. This is reflected in the growing number of double/triple majors and academic minors who choose to combine the formal study of a language with another field related to the student's other career or professional interests enabling them to become highly competitive in the international and domestic workforce.

In addition to the MLC course work, language majors are required to fulfill an international experience (eight week minimum) by completing a MLC approved study abroad program or international internship or

faculty-led experience or a combination of all. This experience should take place after the student has finished language study through the intermediate (200) level. The study abroad program, internship or faculty-led experience must receive prior approval from the student's MLC advisor and/or MLC Validation Committee appointed by the chair. Shorter international experiences exceptions can be considered by MLC Validation Committee in case of extraordinary financial or family circumstances.

If a student has already studied a language in high school, he or she may be eligible to receive vertically-related course credits simply by completing a more advanced course at UI.

International Studies

Majors

- International Studies (B.A.) (p. 251)

Minors

- International Studies Minor (p. 252)

Modern Languages and Cultures

Majors

- French (B.A.) (p. 250)
- Latin-American Studies (B.A.) - For information on an undergraduate major in Latin American Studies, please refer to the Program in Latin American Studies (p. 261).
- Modern Language Business (B.A.) (p. 252)
- Spanish (B.A.) (p. 252)

Minors

- Asian Studies (p. 250)
- French (p. 250)
- German (p. 251)
- Spanish (p. 253)

Modern Languages and Cultures Undergraduate Curricular Requirements

A maximum of 15 transfer credits and/or credits earned through study abroad may be applied toward the upper-division requirements for the B.A. degree in Foreign Language, French, and Spanish.

Students who receive a C or D in their first upper-division language class are required to pass an oral and written proficiency exam to meet minimum departmental proficiency standards before being allowed to register in other upper-division language classes.

A student must receive a C or better in an upper-division course in the appropriate target language to count towards the major.

Before going on a study abroad program, students must have the approval of their major advisor to ensure that their proposed program meets with departmental approval. Upon returning to UI, the Department of Modern Languages & Cultures will evaluate the students' oral and written proficiency and determine which classes studied abroad may count towards the major. Study abroad credits with the number 404 and University of Idaho credits with the number 449, 498, or 499 will not

automatically count toward the Foreign Languages, French, or Spanish majors; they will be evaluated by a Modern Languages and Cultures advisor and may be used to complete the major only upon approval.

Modern Languages and Cultures Academic Minor Requirements

Students must complete 20 credits for the Asian Studies, French, German, or Spanish minor, of which at least 9 must be upper-division, and take Avant's STAMP (STAndards-based Measurement of Proficiency) exit exam. At least 9 of the 20 credits must be UI courses taken in residence. Credits earned through study abroad may be applied toward completion of the minor requirements.

Vertical credits may be acquired per Regulation I for the 101, 102, 201, and 202 courses as part of the 20 credits, but vertical credits may not be acquired per Regulation I for 300/400-level courses. It is not possible to challenge any upper-division courses for the minor.

Transfer credits may be applied toward a minor with the approval of the department offering the minor; however, the last nine credits applied to completion of the minor must be earned in

1. UI courses,
2. through UI study abroad, or
3. through student exchange programs, and may not include credits earned through correspondence study.

A student must receive a C or better in any course to count for the Asian Studies, French, German, or Spanish minor.

Asian Studies Minor

Code	Title	Hours
Select 12 credits of one Asian language or one semester of Approved Study Abroad in Asia		12

¹ No more than 9 credits in one discipline and no more than 6 credits in student's major. Of the 21 credits, nine (9) credits of upper division coursework required. Students must complete 6 of these 9 credits of upper-division coursework at the University of Idaho to complete the Asian Studies minor.

Courses to total 21 credits for this minor

French (B.A.)

Required course work includes the university requirements (see regulation J-3 (p.)), the general requirements for the B.A. degree, and:

An international experience (eight week minimum) and the course work listed below are required of students. This international experience requirement will be fulfilled by completing a MLC approved study abroad program or international internship or faculty-led experience or a combination of all. This experience (completed in French) should take place after the student has finished language study through the intermediate (200) level. The study abroad program or the internship must receive prior approval from the student's MLC advisor and/or MLC Validation Committee appointed by MLC chair. Shorter international experiences exceptions can be considered by MLC Validation Committee in case of extraordinary financial or family circumstances.

The French Major consists of a minimum of 36 upper-division credits which must include the following:

- At least 9 FREN (p. 518) credits must be at the 400-level (9 cr)
- At least 9 credits must be completed on campus
- A maximum of 9 FLEN (p. 510) credits out of the 36 may be applied towards the major; the remaining credits must be in FREN (p. 518)
- A second foreign language (elem & intern or equivalent) (16 cr) or a minor in International Studies (p. 252) (18 cr).¹

Additionally, all majors must complete a 1-credit MLC capstone course based on their international experience and take the Avant's STAMP (STAndards-based Measurement of Proficiency) exit exam before applying for graduation.

¹ This requirement is waived for students with a double major (French plus another major)

French Minor

Courses to total 25 credits for this minor

International Studies (B.A.)

Required course work includes the university requirements (see regulation J-3 (p. 84)), the general requirements for the B.A. degree, and:

Code	Title	Hours
IS 310	The United Nations	3
IS 410	NGOs in the International System	3
IS 495	International Studies Senior Seminar	3
STAT 251	Statistical Methods	3
Select one of the following groups of courses:		4-6
ECON 201 & ECON 202	Principles of Macroeconomics and Principles of Microeconomics	
ECON 272	Foundations of Economic Analysis	
Select one of the following:		3
GEOG 260	Introduction to Geopolitics	
POLS 205	Introduction to Comparative Politics	
POLS 237	Introduction to International Politics	
Select 6 credits from the following:		6
ANTH 220	Peoples of the World	
ENGL 485	Global Literatures in English (Max 6 credits)	
ENVS 225	International Environmental Issues Seminar	
GEOG 200	World Regional Geography	
IS 195	International Studies Freshman Seminar	
JAMM 490	Global Media	
SOC 350	Food, Culture, and Society	
Select at least 12 credits from one of the following issue emphases: ¹		12
International Relations (p. 251)		
International Economics and Business (p. 251)		
Global Resources and Development (p. 252)		
Select at least 12 credits from one of the following regional emphases: ²		12
Africa		
Asia		
Europe		
Latin America and the Caribbean		
North America		
Modern Foreign Language Proficiency ³		0-22
Select 12 credits of International Experience		12

International Experience (p. 251)	
Total Hours	61-85

- ¹ This requirement may be waived by completion of a relevant second major with approval from the program director.
- ² Courses must be approved by the student's departmental advisor.
- ³ Demonstrated proficiency in a modern foreign language correlating with the region of emphasis and equivalent to that gained from six semesters of university study. Primary instruction in any class counting towards this requirement must be in the target language.

International Experience

In addition, international experience in the student's region of emphasis is required for all students in this major. The experience must extend consecutively for at least 8 weeks, be qualified for at least 12 credits, and include an academic project or assignment and immersion in the culture of the country. All costs associated with the international experience are the responsibility of the student.

The requirement of international experience will normally be fulfilled by completing a registered credit program such as study abroad, student exchange, student teaching, internship, or a Faculty-Staff Led International Trip for 8 weeks minimum. In general, credits are registered on the UI campus; course work and field experience are taken abroad. In some cases, permission may be granted to complete noncredit work experience that places the student abroad for a contracted length of time. Normally this work assignment will be completed during the degree program. In some instances, prior work experience may be accepted based on the following criteria: verification, length, nature, recentness, and relevancy of experience.

Issue Emphases in International Studies

Recommended courses for completion of requirement (special topic courses may be used when approved by the director).

Total Hours		15-21

Courses to total 18 credits for this minor.

Modern Language Business (B.A.)

Designed to provide the student of modern languages with a liberal arts education and a core of business courses that will open doors to a career in international business.

Required course work includes the university requirements (see regulation J-3 (p.)), the general requirements for the B.A. degree, and:

An international experience (eight week minimum). This international experience requirement will be fulfilled by completing an MLC approved study abroad program or international internship or faculty-led experience or a combination of all. This experience should take place after the student has finished language study through the intermediate (200) level. The study abroad program or the internship must receive prior approval

from the student's MLC advisor and/or MLC Validation Committee appointed by MLC chair. Shorter international experiences exceptions can be considered by MLC Validation Committee in case of extraordinary financial or family circumstances.

Code	Title	Hours
ACCT 201	Introduction to Financial Accounting	3
FLEN 307	Institutions of the European Union	3
or FLEN 308	European Immigration and Integration	
Select one of the following:		3-4
ECON 201	Principles of Macroeconomics	
ECON 202	Principles of Microeconomics	
ECON 272	Foundations of Economic Analysis	
Select three or more courses from the following:		9
ENTR 414	Entrepreneurship	
FIN 301	Financial Resources Management	
MHR 311	Introduction to Management	
MKTG 321	Marketing

OM 370	Process Management	
OM 378	Project Management	
Select 6 credits of Business electives from the following:		6
Upper-Division Business Electives		
BUS 190	Integrated Business and Value Creation (AND Upper-Division Business Elective)	
Select one modern language; elementary and intermediate:		16
Chinese		
French		
German		
Japanese		
Spanish		
Select 21 credits of approved upper-division courses in the same language (including one business course or approved alternative in the target language)		21
Total Hours		61-62

Courses to total 120 credits for this degree

Spanish (B.A.)

Required course work includes the university requirements (see regulation J-3 (p.)), the general requirements for the B.A. degree, and:

An international experience (eight week minimum) and the course work listed below are required of students. This international experience requirement will be fulfilled by completing a MLC approved study abroad program or international internship or faculty-led experience or a combination of all. This experience (completed in Spanish) should take place after the student has finished language study through the intermediate (200) level. The study abroad program or the internship must receive prior approval from the student's MLC advisor and/or MLC Validation Committee appointed by MLC chair. Shorter international experiences exceptions can be considered by MLC Validation Committee in case of extraordinary financial or family circumstances.

The Spanish major consists of a minimum of 36 upper-division credits, which must include the following:

- SPAN 301, SPAN 302, SPAN 305, and SPAN 306
- At least 9 SPAN (p. 674) credits must be at the 400-level (9 cr)
- At least 9 credits must be completed on campus
- A maximum of 9 FLEN (p. 510) credits out of the 36 may be applied towards the major; the remaining must be in SPAN (p. 674)

A second foreign language (elem & interm or equivalent) (16 cr) or a minor in International Studies (p. 252) (18 cr).¹

Additionally, all majors must complete a 1-credit MLC capstone course based on their international experience and take the Avant's STAMP (STAndards-based Measurement of Proficiency) exit exam before applying for graduation.

¹ This requirement is waived for students with a double major (Spanish plus another major)

Spanish Minor

Code	Title	Hours
SPAN 101	Elementary Spanish I	4
SPAN 102	Elementary Spanish II	4
SPAN 201	Intermediate Spanish I	4
SPAN 202	Intermediate Spanish II	4
Upper-Division Spanish Courses		
Select 9 credits of upper-division Spanish courses: ¹		9
Total Hours		25

¹ Nine credits of upper-division Spanish courses may include SPAN 301 and SPAN 302, but may not include lab-based or FLEN courses.
Students must complete 6 of these 9 credits of upper-division coursework at the University of Idaho to complete the Spanish minor.

Courses to total 25 credits for this minor

Department of History

History studies human experience in all its diverse aspects. To interpret the present, one must understand the past- and there is no better predictor of the future than past behavior. History is by nature interdisciplinary and international in its scope. History courses train students to think analytically, to evaluate source materials, and to interpret human behavior by careful use of evidence. Through writing and independent research, students hone their analytical and communication skills, learning to conduct in-depth data retrieval and analysis. They also acquire greater cultural and international awareness as they come to understand the sociocultural setting that shapes human consciousness and action.

A degree in history offers excellent preparation for students to pursue careers in international business, international relations, management, government and military service, law, education, library science, communications and media, tourism and recreation, museum studies and curatorships, and working with public documents and government records.

The department offers courses of study leading to the B.A. or B.S. degree and holds a faculty of nine full-time professors, all who hold doctoral

degrees in history. Currently the program has over 130 undergraduate history majors, and there are 12 M.A. students working in history graduate studies. In addition, we offer a Ph.D. in history with a focus in historical archaeology in coordination with the Department of Sociology and Anthropology (p. 277).

The undergraduate curriculum focuses on the United States (colonial times to the present); Europe (Antiquity to the current EU); Latin America (modern); Asia (modern); and History of Science, Health & Environment.

History faculty members also offer coursework for students in Environmental Science, International Studies, Interdisciplinary Studies, and Latin American Studies, as well as for minors in Religious Studies, Women and Gender Studies, and American Indian Studies.

Graduate study is offered in the history of America, Europe (medieval through modern), Latin America, and History of Science, Health, and Environment. The degree programs include Master of Arts and Doctor of Philosophy, for which dissertation topics are limited to the fields of the North American West, U.S. since 1877, historical archaeology, and Europe since 1750. Dissertations in historical archaeology are undertaken with the collaboration of anthropology faculty specializing in this field.

Students applying for admission to graduate study in history must be approved by the majority of the history faculty. Students seeking graduate degrees in history must present recent GRE scores, an undergraduate transcript with at least a 3.00 average in all history courses and a 2.80 overall average that shows at least 12 credits earned in a foreign language.

Majors

Total Hours		71

Courses to total 120 credits for this degree

¹ High-school foreign language may be substituted at the rate of 4 credits per year.

History (M.A.)

Master of Arts. Major in History.

General M.A. requirements apply. This thesis and non-thesis degree is offered in all fields of history for which faculty is currently available. The work toward an M.A. degree stresses preparation for research as well as a balanced course program.

History (Ph.D.)

Doctor of Philosophy. Major in History.

The Ph.D. program is primarily oriented to research and writing to prepare the candidate for entry in a career in higher education. Among the requirements for the degree are the successful passage of comprehensive examinations, the demonstration of a reading knowledge of one foreign language, and the completion of a dissertation showing original research. Dissertation topics are limited to the field of Historical Archaeology and are undertaken with the collaboration of anthropology faculty specializing in this field.

Program in Interdisciplinary Studies

Majors

- Interdisciplinary Studies (B.A. or B.S.) (p. 256)

Minors

- Interdisciplinary Academic Minors (p. 256)

Interdisciplinary Studies Graduate Program

- Interdisciplinary Studies (M.A.) (p. 256)

Interdisciplinary Academic Minors

A student may present a minor curriculum not included among the ones listed elsewhere in this catalog. The program must include at least 24 credits and be approved by:

1. at least one faculty member from each of the participating departments,
2. the chair of one of the departments involved, and
3. in the case of minors that involve a department in the College of Letters, Arts, and Social Sciences, the Dean or Associate Dean of CLASS.

In some cases, the Dean or Associate Dean of CLASS may approve participation by departments from other colleges and universities. Participation of such departments may be permitted as long as one of the participating departments in the program is a CLASS department, and other University of Idaho and CLASS requirements are met.

Interdisciplinary Studies (B.A. or B.S.)

Interdisciplinary Studies students create a curriculum that is not listed elsewhere in this catalog. The curriculum will be focused on meeting the student's particular educational and career goals and learning objectives by combining courses in two or more departments.

The program is normally developed and presented before the end of the junior year or at the time when at least 30 credits of the proposed program remain to be taken. Permission for allowing (a) presentation later in the student's academic career or (b) with fewer than 30 credits yet to be taken may be granted by the CLASS Director of Student Services. The program must be approved by (a) at least one faculty member from each of the participating departments, one of which must be in CLASS, (b) the chair of one of the CLASS departments involved, and (c) the CLASS Director of Student Services. The major requires a minimum of 50 credits of courses numbered 200 or above, including a minimum of 36 credits in courses numbered 300 or above. It is recommended, however, that majors in interdisciplinary studies complete at least 50 credits in upper-division courses. University requirements (see regulation J-3 (p. 84)) and CLASS requirements for either the B.A. or B.S. degree apply. In some cases, the Dean or Associate Dean of CLASS may approve participation by departments from other colleges and universities. Participation of such departments may be permitted as long as one of the participating departments in the program is a CLASS department, and other University of Idaho and CLASS requirements are met.

Interested students should consult the CLASS dean's office in Moscow or Coeur d'Alene for further information about this program.

Interdisciplinary Studies (M.A.)

Master of Arts/Science. Major in Interdisciplinary Studies.

Admission for graduate study leading toward an M.A. or M.S. in Interdisciplinary Studies may be granted to a student who

1. has received a bachelor's degree from a regionally accredited college or university, and
2. has an undergraduate cumulative grade point average of 3.0 or higher.

The GRE General Test is required. As the application requirements are significantly different for the interdisciplinary graduate program, a student wishing to apply to an interdisciplinary degree program should contact the College of Graduate Studies to discuss his or her proposed course of study prior to applying.

With the application for admission the student must submit the following:

1. a written statement specifically describing the interdisciplinary proposal and outlining his or her rationale for undertaking an interdisciplinary program,

2. the name of a faculty member with graduate faculty status from one of the disciplines named in the proposal who has agreed to counsel the student in the proposed program and serve as major professor,
3. a proposed study plan, and
4. a program committee.

The program committee must have at least four members: at least one member from each of the principal departments or disciplines involved in the student's program and one member appointed by the dean of the College of Graduate Studies. At least one half of the program committee must be members of the Graduate Faculty.

The objective of the graduate interdisciplinary studies degree is to provide a student with the opportunity to design a specific program of study when the student's needs or desires do not fall within an established graduate program. The M.A. or M.S. degree in interdisciplinary studies is a rigorous program that integrates existing graduate level coursework from two or more graduate programs. Students may choose between the Master of Arts and the Master of Science degree options and either option can be non-thesis or thesis. A student choosing the thesis option may use up to six credits of INTR 500 toward the degree. Of the minimum 30 credits required, at least 18 must be at the 500-level. The remainder may be at the 400-level. In addition to graduate courses drawn from two or more departments, some of the courses from the Interdisciplinary Studies "Courses" section of the Catalog may be useful. Students majoring in Interdisciplinary Studies should register for INTR 500 for their thesis research, INTR 502 for directed study, INTR 599 for research not directly related to a thesis, and INTR 501 Seminar for seminar. Your major professor or department administrative assistant will contact the College of Graduate Studies to enter these courses on the class schedule. No more than ten credits in total of directed study, special topics, or seminar will be allowed.

There is no typical study plan for an interdisciplinary studies degree program. Each student seeking the master degree in interdisciplinary studies must, with the counsel of a major professor, develop a study plan which blends the two graduate programs and supports the students interdisciplinary proposal.

The proposed study plan must be unanimously approved by the student's program committee and the dean of graduate studies.

The program is administered by the department of which the student's major professor is a member. For both the thesis and non-thesis options, there must be a comprehensive examination that evaluates the student's ability to integrate all disciplines included in the program and to respond logically to related questions of a general nature. The general university credit requirements for the M.A. and M.S. degrees apply to the interdisciplinary studies degree as well; see the College of Graduate Studies (p. 221) section for the requirements applicable to all M.A. and M.S. degrees.

Procedural details for developing, receiving approval for, and carrying out an interdisciplinary degree program are available from the College of Graduate Studies.

School of Journalism and Mass Media

The University of Idaho School of Journalism and Mass Media is Idaho's only accredited program for the study of journalism, mass

communication and related fields. The school offers bachelor's degrees in five fields: advertising, broadcasting and digital media, film and television studies, journalism, and public relations.

Students with degrees from the school pursue careers with advertising agencies, radio and television stations and networks, film and video production companies, cable and satellite operations, newspapers and magazines, other print and online media, and public relations firms. They also work as public information specialists for non-profit agencies, private corporations and within the government. Many graduates seek advanced degrees in law, public administration, strategic communication, and the humanities and social sciences.

The school's curriculum is based on a premise that journalists, broadcasters, film and television producers, public relations professionals and advertising executives should be broadly educated. Accordingly, students must take at least 75 of the 120 credits needed for graduation outside the school. As a unit of the College of Letters, Arts and Social Sciences (p. 238), the school also provides conceptual courses to students in other fields of study as well as university General Education core courses related to the role of media in a global society.

Students seeking the B.A. degree are required to demonstrate proficiency in a foreign language; those seeking the B.S. degree must complete an 18-credit minor or area of emphasis in a subject area outside those taught by the School of Journalism and Mass Media. Students may not pursue two degrees in the school simultaneously.

Many students in the School of Journalism and Mass Media supplement their academic experience by working for the independent student media outlets on campus, including the Argonaut newspaper, the Blot magazine, and KUOI-FM. Students are also strongly encouraged to pursue internships at professional media organizations throughout the region.

The school has been accredited since 2014 by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC), the agency responsible for the evaluation of professional journalism and mass communications programs in colleges and universities. The council found the UI's School of Journalism and Mass Media in full compliance with nine standards dealing with governance, faculty qualifications, diversity, curriculum, facilities and student services. For more information about the benefits of accreditation, please see: www2.ku.edu/~acejmc/PROGRAM/ACCREDBASICS.SHTML (<http://www2.ku.edu/~acejmc/PROGRAM/ACCREDBASICS.SHTML>)

Journalism and Mass Media Undergraduate Curricular Requirements

A minimum cumulative university grade-point average of 2.50 is required of students in order to graduate with a degree from the School of Journalism and Mass Media.

A student who graduates with a major in the School of Journalism and Mass Media must complete a minimum of 120 credits of which a maximum of 12 credits can come from experiential courses (JAMM 497, JAMM 498, JAMM 499). Students can receive no more than 6 credit hours for JAMM 498 experience; students can repeat JAMM 498 one time. Students must obtain approval from the School of Journalism and Mass Media to apply internship credit toward a degree from the school.

Majors cannot apply more than 48 hours of courses in Journalism and Mass Media toward the 120-credit degree requirement and are required to take no fewer than 60 hours in the liberal arts and sciences. Majors may count no more than 8 hours of courses in Physical Education activity courses (PEB 106, PEB 107 and PEB 108) toward the 120 credits required for the degree.

Candidates for the B.S. degree are required to complete a second major, an academic minor or area of emphasis of at least 18 credits outside the School of Journalism and Mass Media. The emphasis area must be approved by the student's academic advisor.

JAMM 100, JAMM 121 and JAMM 122 must be completed with a grade of C or better before a major may enroll in any other Journalism and Mass Media courses. All students must complete a minimum of 58 credits before enrolling in any upper-division course (numbered 300 or above) offered by the school.

No more than 18 credits of journalism and mass media courses from other institutions may be applied to a degree from the School of Journalism and Mass Media.

A student may not double major in the School of Journalism and Mass Media.

Courses required in all majors in the School of Journalism and Mass Media:

Code	Title	Hours
COMM 101	Fundamentals of Public Speaking	2
JAMM 100	Media and Society	3
JAMM 121	Media Writing	3
JAMM 122	Multimedia Storytelling	1

Film and Television Studies (B.A. OR B.S.)

Note: Students must have a 2.5 GPA to major and must attain a 2.5 GPA to graduate with the Film and Television Studies degree.

Prerequisite: ENGL 230 must be completed with a 'C' or above before enrolling in other courses in the sequence.

Film and Television Studies is an interdisciplinary degree taught on the film school model, whereby students will learn how to think critically and historically about film and culture while learning the fundamentals of film writing and film making. This degree prepares students to meet the growing demand for digitally fluent and professionally trained multimedia storytelling across the media industries, as well as in public institutions, government, and business.

Required course work includes the university requirements (see regulation J-3 (p.)) and the following:

Code	Title	Hours
School of Journalism and Mass Media Core (p. 258)		27

Program in Latin American Studies

The program in Latin American studies is a multidisciplinary major leading to the B.A. degree. The appeal of this field of study has greatly increased over the last decade, due to the region's growing economic and political importance. A degree in the major is appropriate for employment in many fields, among which are the diplomatic service and overseas business as well as graduate study in various disciplines. Students electing the major will also broaden their awareness of non-Western cultures and history.

Majors

- Latin American Studies (B.A.) (p. 261)

Latin American Studies (B.A.)

Required course work includes the university requirements (see regulation J-3 (p. 84)), the general requirements for the B.A. degree, including Spanish for the foreign language requirement, and:

Code	Title	Hours
LAS 306	Culture and Institutions of Latin America	3
FLEN 391	Hispanic Film	3
or FLEN 394	Latin American Literature in Translation

SPAN 422	Mexican Culture through Cinema	
SPAN 424	Human Rights and Hispanic Cinema	
Total Hours		36

Courses to total 120 credits for this degree

- ¹ Students may also take the optional courses listed above, at least six of which must be Spanish credits.
- ² Students who elect to take ECON 447 International Development Economics/LAS 447 International Development Economics are strongly urged to take HIST 101 History of Civilization 1-HIST 102 History of Civilization 2 (History of Civilization) in their freshman year.

Lionel Hampton School of Music

The Lionel Hampton School of Music, so designated in 1987 in honor of the eminent American jazz musician, is an accredited institutional member of the National Association of Schools of Music. Established as a department in 1893, it was elevated to school status in 1969.

The courses and curricula in music seek to prepare elementary, secondary, and college teachers of music; to train professional musicians; to enrich the cultural environment for students and provide liberal-arts instruction; and to engage in research in music performance and teaching for the general benefit of the public and the discipline of music.

Students in this school learn by performing, listening, analyzing, and creating music. Emphasis is on the understanding of musical styles and techniques of all eras, including contemporary music. Musical studies balance the aesthetic and the practical, with ample opportunity for exploration and self-reliance.

The formal undergraduate curricula of the School of Music consist of degree programs in the following areas:

Bachelor of Music in Performance

- Specialization in voice, piano, guitar, or any orchestral instrument.

Bachelor of Music in Composition

Bachelor of Music in Music Education

- Specialization in vocal music education or instrumental music education, with the option of adding a supplemental minor in vocal and instrumental music education.

Bachelor of Music in Music Business

- Core studies in music combined with studies in accounting, economics, statistics, management, and marketing, with emphases in Arts Administration, Entrepreneurship, or General Business.

Bachelor of Arts in Music

- Emphasis in music theory, music history, or applied music. Applied music study can be in any of the areas of specialty listed under the Bachelor of Music in Performance.

Bachelor of Science in Music

- Emphasis in music theory, music history, or applied music. Applied music study can be in any of the areas of specialty listed under the Bachelor of Music in Performance.

The B.Mus. degree is professionally oriented and is the normal preparation for graduate study in music or for teacher education. The B.A.

and B.S. degrees emphasize a broad liberal-arts education. Acceptance to the B.Mus., B.A., or B.S. degree programs requires an audition. The School of Music also offers minors in music, jazz studies, vocal and instrumental music education (as a supplement for music education majors), and musical theatre. The ensembles and performing groups sponsored by the School of Music are open to all students, regardless of major.

The Music Building houses faculty studios, ensemble rehearsal areas, classrooms, an electronic music lab, a music education materials center, and a recital hall. Individual practice rooms are available in nearby Ridenbaugh Hall. Additional faculty offices are located in Blake House. Recording, radio-television, language listening lab, and computer facilities of the campus are also used by music students. In addition to organ, harpsichord, and piano practice instruments, the school maintains two performance pipe organs, three concert grand pianos, and a concert harpsichord.

The School of Music offers degrees at the master's level; Master of Music degrees are available in music education, performance, composition, choral conducting, collaborative piano, and piano pedagogy and performance studies. The Master of Arts option is in music history. Acceptance into the M.Mus. degree programs requires an audition, except in music education, which requires a supplementary information packet.

The school offers prospective graduate students a wide range of individual and group instruction opportunities as preparation for professional careers in music either as performers, composers, scholars, or music educators. Study is enriched through participation in recitals in addition to participation in both small and large vocal and instrumental ensembles.

Admission to the Master of Music program varies by area of concentration. Please see the Lionel Hampton School of Music website (www.uidaho.edu/class/music/graduate) for the requisite application materials listed by concentration. Admission to the M.A. or M.Mus. program in this school normally requires a baccalaureate degree in music from an accredited institution. During the first semester of enrollment, a supervisory committee and a chair of that committee will be appointed. Students are encouraged, and in some cases required, to participate in one organized ensemble each academic session in residence.

Majors

- Music (B.A. or B.S.) (p. 263)
- Music Education (B.Mus.) (p. 264)
- Music: Composition (B.Mus.) (p. 267)
- Music: Business (B.Mus.) (p. 266)
- Music: Performance (B.Mus.) (p. 267)

Minors

- Jazz Studies Minor (p. 263)
- Music Minor (p. 266)
- Musical Theatre Minor (p. 269)
- Vocal-Instrumental Music Education Minor (p. 269)

Music Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the School of Music. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Music (M.A.) (p. 264)
- Music (M.Mus.) (p. 264)

General Requirements for all B.A., B.S., and B.Mus. Degrees

Minimum Grade Requirement

A music student, either major or minor, must achieve a minimum grade of C in each music course, either resident or transfer, which is applicable to a degree program in music before the student will be eligible for graduation.

Ensemble Participation

An undergraduate music major must:

1. earn a minimum of eight credits in ensemble participation to be eligible for graduation and
2. enroll in an ensemble during each semester of full-time study.

Various requirements are contained in the specific curricula. For curricular purposes, "major ensemble" is defined to mean:

Code	Title	Hours
MUSA 116/316	Concert Choir–Vandaleers	1
MUSA 117/317	University Choir	1
MUSA 119/319	Marching Band	1-3
MUSA 120/320	Wind Ensemble	1
MUSA 121/321	Concert Band	1
MUSA 122/322	Orchestra	1
Other ensembles consist of: (Listed in some curricula under "Chamber Music")		
MUSA 118/318	Jazz Choir	1
MUSA 315	Collaborative Piano	1
MUSA 323	Jazz Ensemble	1
MUSA 365	Chamber Ensemble	1
MUSA 380	Opera/Musical Theatre Studio	1-3

For students in the B.A. or B.S. in Applied Music, the following minimum requirements apply depending on the primary applied area of the student:

- **Orchestral Instrument:** six credits in instrumental major ensemble and two additional credits in any instrumental ensemble.
- **Voice:** six credits in vocal major ensemble and two additional credits in any vocal ensemble.
- **Keyboard:** two credits in any major ensemble, four credits in MUSA 315 Accompanying, and two credits in MUSA 365 Chamber Ensemble.
- **Guitar:** four credits in any major ensemble and four credits in MUSA 365-02 Chamber Ensemble: Guitar Ensemble.

For students in the B.Mus. in Music: Business, the following minimum requirements apply depending on the primary applied area of the student:

- **Orchestral Instrument:** four credits in instrumental major ensemble and four additional credits in any instrumental ensemble.
- **Voice:** four credits in vocal major ensemble and four additional credits in any vocal ensemble.
- **Keyboard:** two credits in any major ensemble, two credits in MUSA 315 Accompanying, and four credits in any ensemble.
- **Guitar:** four credits in any major ensemble and four credits in MUSA 365-02 Chamber Ensemble: Guitar Ensemble.

Transfer students must have a minimum of four semesters of ensemble participation at UI, at least two of which must be in a major ensemble.

Convocation-Recital Attendance

Because listening experiences constitute an area of major importance in the study of music, all music majors and music minors are required to register for MUSX 140; music majors must attend 10 recitals per semester for seven semesters and music minors must attend 10 recitals per semester for two semesters. Students must attend a full concert or program in order for it to be counted toward convocation-recital requirements. Recital credit will not be granted for those performances in which a student participates. In addition, music majors must attend the weekly convocation series (studio class, area recital, and convocation). Transfer students are expected to enroll in MUSX 140 during their first registration, and to receive a passing grade in a specific number of semesters (to be determined when the student's program is set up). Transfer students must have a minimum of two semesters of convocation at UI.

Upper-Division Standing (UDS)

For a B.Mus., B.A. and B.S. music major to enroll in MUSA 324, MUSA 334, or MUSC 425, the student must have been granted upper-division standing (UDS). Students applying for UDS must:

1. have completed with a "C" or better, or be currently enrolled in one semester of MUSA 115 and three semesters of MUSA 124 or MUSA 134 depending on the student's degree program, MUSC 242, MUSH 111 and the courses listed in one of the following scenarios:
 - a. MUSA 246 and MUSC 240;
 - b. MUSA 146 and MUSC 240; or
 - c. MUSA 246 and MUSC 140
2. have passed a special jury examination demonstrating mastery of the fundamentals of the student's major area of performance/ composition and the potential to continue improving in a manner that will lead to the successful completion of performance/composition requirements of the degree and major emphasis (the jury examination requirement must be met, regardless of double majors, before a student can enroll in MUSA 324 or MUSA 334).

Transfer students with at least two years of college study as a music major and double majors with one major outside of music may apply for UDS if they have at least one year of music theory, aural skills and piano, one semester of music history, four semesters of studio instruction at the music major level and the approval of the studio instructor or area coordinator in the case of voice and keyboard. An Upper Division Standing jury examination presented after the second week will not count towards the semester in which it was presented. Students who fail to pass the UDS requirements within two tries are ineligible to continue to pursue a music major.

In order to register for upper-division music education courses (not including instrumental techniques courses), an undergraduate music education major must:

Diagnostic Exam in Theory and Aural Skills

The goal of these exams, required for all transfer students whose major is music, is to place transfer students in the appropriate level of music theory, aural skills, and piano according to their abilities regardless of their prior training; this exam is not available to first-year students. Study guides are available on the web. The exams are given during the first week of classes each semester, as needed. The exam will not be used for "advanced placement" or "credit by examination," as the regulations regarding these procedures are covered in regulation D-4 (p. 76). Written evaluation of each student's achievement will be placed in his or her advising file, and students will be admitted to required courses at their ability level.

Transfer Credits

Transfer credits will be accepted at the upper-division level only if taken at the upper-division level from the original institution (i.e., a 100- or 200-level course will not transfer as a 300- or 400-level course requirement). The applicability of these credits to the student's program of study is determined by the Lionel Hampton School of Music. If a transfer student has taken a 100-level survey of music course, the student may use this course in lieu of MUSH 111, if he/she can demonstrate knowledge of world music. In order for a student to meet world music competency, he/she may:

1. Participate in an ensemble such as MUSA 365
2. Take MUSH 420

Jazz Studies Minor

Code	Title	Hours

Select MusA Ensembles in eight different semesters: ¹		8
Total Hours		24

Courses to total 120 credits for this degree and include at least 66 cr in non-music courses

¹ *Keyboard majors: of these eight, two semesters must be MUSA 315 Collaborative Piano.*
Guitar majors: of these eight, two semesters must be MUSA 365 Chamber Ensemble.

Music (M.A.)

Master of Arts. Major in Music.

General M.A. requirements apply. Applicants for the M.A. degree may concentrate in music history. A reading competency in one foreign language is required. Admission to the program is by permission of the music history faculty.

Music (M.Mus.)

Master of Music. Major in Music.

Applicants for the M.Mus. degree may concentrate in music education; performance (with degree patterns in brass, choral conducting, keyboard, percussion, strings, voice and woodwinds); composition; piano pedagogy and performance studies; or collaborative piano. Admission to the Master of Music program varies by the area of concentration. Please see the Lionel Hampton School of Music website (<http://www.uidaho.edu/class/music/graduate/applicationprocedures>) for the requisite application materials listed by concentration. Except for students enrolled in the Master of Music in Music Education degree, all graduate music students must complete at least 18 semester hours of credit towards the Master of Music degree in residence on the University of Idaho Moscow campus.

Music Education (B.Mus.)

Required course work includes the university requirements (see regulation J-3 (p.)) and:

Code	Title	Hours

MUST 465	Jazz Band Rehearsal Techniques	2

MUST 466	Marching Band Techniques	1
Select 6 credits of Major Ensembles ¹		6
Select two different semesters of other ensembles chosen from: ²		2
MUSA 119	Marching Band	
MUSA 121	Concert Band	
MUSA 122	Orchestra	
MUSA 319	Marching Band	
MUSA 321	Concert Band	
MUSA 322	Orchestra	
MUSA 320	Wind Ensemble	
MUSA 323	Jazz Ensemble	
MUSA 365	Chamber Ensemble	
Total Hours		21

Courses to total 131 credits for this degree

- ¹ The major ensemble requirement must be completed in six different semesters;
- **wind and percussion majors** must register for three different semesters of MUSA 119/MUSA 319 Marching Band and three different semesters of MUSA 121/MUSA 321 Concert Band, or MUSA 320 Wind Ensemble.
 - **Wind and percussion majors** may, by audition, substitute two semesters of MUSA 122/MUSA 322 Orchestra for MUSA 121/MUSA 321 Concert Band, or MUSA 320 Wind Ensemble.
 - **String majors** must register for six different semesters of MUSA 122/MUSA 322 Orchestra and one semester of MUSA 119/MUSA 319 Marching Band.
 - **Keyboard and guitar majors** must enroll in one semester of MUSA 119/MUSA 319 Marching Band.
 - **Keyboard and guitar majors** may substitute one semester of MUSA 323 Jazz Band or MUSA 365 Jazz combo, a prerequisite for MUST 465 for one semester of major ensemble. They may enroll in large vocal ensembles to satisfy the remaining major ensemble requirements.
 - **Wind, percussion, keyboard, and string majors** must have a total of four semesters of major ensemble participation (as defined above) at UI.
- ² Students whose major applied medium is keyboard must select MUSA 315 to satisfy this requirement.

B. Vocal Emphasis

Code	Title	Hours
MUSA 114	Studio Instruction ¹	1
MUSA 245	Piano Class for Music Majors/Minors	1
MUSA 380	Opera/Musical Theatre Studio	1-3

Courses to total 18 credits for this minor

Program in Organizational Sciences

The purpose of this program is to provide leadership training for students interested in a variety of purpose-driven organizations.

Organizational settings, including for-profit businesses, political organizations (e.g., legislative bodies, political parties, PACs), not-for-profit organizations (e.g., health care companies, charities, volunteer agencies), and public and private boards (e.g., boards of education, homeowners associations, church boards), are dynamic entities that rely on skilled leaders to function efficiently and to ensure positive workplace culture and climate. The interdisciplinary program in Organizational Sciences draws from business, industrial/organizational psychology, public administration, industrial sociology, educational leadership and other disciplines to provide students with an understanding of interpersonal workplace dynamics and fundamentals of leadership.

It has become increasingly evident over the last century that many problems in the workplace are the result of relationship failures. Examples of such failures include conflict between managers and employees, conflict between employees and other employees, conflict between groups within organizations, poor communication between organizations and the communities they serve, lack of proper coordination of efforts, lack of proper understanding of worker capabilities and training needs, lack of concern for both employee and manager professional development, and the inability of both managers and employees to understand that organizational success depends on leaders and workers keeping the natural tension between them from becoming destructive.

Majors

- Organizational Sciences (B.A. or B.S.) (p. 270)

Minors

- Organizational Dynamics Undergraduate Academic Certificate (p. 269)

Organizational Dynamics Undergraduate Academic Certificate

A second major, an academic minor, an academic certificate, or a CLASS approved emphasis²

Total Hours 21

¹ A maximum of 3 credits of ORGS 404 Special Topics may be used towards the completion of this major.

² If a second major or an academic minor is used to satisfy this requirement, the area of emphasis or academic minor required for the CLASS general B.S. requirements is also considered satisfied.

Courses to total 120 credits for this degree

Department of Politics and Philosophy

Philosophy examines the grounds of knowledge, the nature of reality, and the nature of value, justice, and morality. It asks fundamental questions about how we reason and how we ought to reason. Its subject matter encompasses all other academic disciplines, indeed all areas of human experience, e.g., society, values, mind, language, art, and science.

The main value of philosophy lies in its contribution to a liberal education. As a central discipline of the humanities, philosophy encourages those who study it to gain insight into themselves and others, which proves helpful in setting high standards and working in productive collaboration with one's associates. In addition, philosophy is an excellent means of learning to reason and write clearly which are skills useful in every conceivable human enterprise. Some philosophy majors pursue careers in academia; others, however, make rewarding careers for themselves in business, government, journalism, law, and human services.

Political Science

Political science is the study of politics and power from domestic, international, and comparative perspectives. It includes scholarship in administration, behavior, diplomacy, ideology, institutions, interest groups, law, policy, strategy, theory, and war. The undergraduate program in political science is designed to provide students with a comprehensive introduction to the discipline, viewed as a specific set of strategies for understanding political life. Though conceptual, historical, structural, institutional, and behavioral knowledge are delivered throughout the curriculum, the stress of the program is on giving students the theoretical insights and methodological skills needed to ask and answer political questions. The emphasis is less on learning the facts of politics than on being able to recognize, evaluate, and use the intellectual tools of the discipline.

Students will leave the program with an understanding of the basic modes in inquiry in political science: normative, empirical, and comparative analysis. The core curriculum is designed to give students a broad theoretical framework in political science and an introduction to research methods. Upper division courses give students the opportunity to build specialized knowledge in political science through two of five concentration areas: American politics and political behavior, international relations and comparative politics, public administration and policy, public law, and political theory.

Political science provides a foundation for career development in law, politics, public service, non-profit and non-governmental organizations, business, academics, and other fields. Students in the program are also

encouraged to take advantage of a variety of internship and service learning opportunities.

Majors

- Philosophy (B.A. or B.S.) (p. 272)
- Political Science (B.A.) (p. 272)
- Political Science (B.S.) (p. 273)

Minors

- Bioethics Minor (p. 271)
- Philosophy Minor (p. 272)
- Comparative/International Politics Minor (p. 271)
- Political Science Minor (p. 274)
- Religious Studies Minor - See the Religious Studies (p. 277) section for details on this minor.

Philosophy Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Politics and Philosophy. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Philosophy (M.A.) (p. 272)

Political Science Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Politics and Philosophy. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Political Science (M.A.) (p. 274)
- Public Administration (M.P.A.) (p. 274)
- Political Science (Ph.D.) (p. 274)

Philosophy (B.A. or B.S.)

Note: Students who intend to do graduate work are advised to take the Bachelor of Arts degree.

Required course work includes the university requirements (see regulation J-3 (p.)), the general requirements for either the B.A. or B.S. degree, and:

Code	Title	Hours
PHIL 103	Ethics	3
PHIL 201	Critical Thinking	3
or PHIL 202	Introduction to Symbolic Logic	
PHIL 240	Belief and Reality	3
PHIL 320	History of Ancient and Medieval Philosophy	3
PHIL 321	History of Modern Philosophy	3
PHIL 490	Senior Seminar	3
Select 12 credits of Upper-Division Philosophy electives including at least one course in non-Western thought		12
Select 20 credits in related fields ¹		20
Total Hours		50

Courses to total 120 credits for this degree

¹ *Related Fields include Humanities, Social Sciences and Sciences. The electives in Philosophy and Related Fields are to be selected with the approval of the Chair of Philosophy.*

Philosophy (M.A.)

The M.A. program in Philosophy is a cooperative one, offered jointly by the University of Idaho and Washington State University, so that University of Idaho students may have the benefit of additional faculty and classes available at Washington State.

Master of Arts. Major in Philosophy.

All students earning the M.A. degree in Philosophy will be required to complete 30 credit hours, including twelve hours of core courses, twelve hours of elective courses, and six hours of Master's Thesis research. Up to six hours of course work may be completed at the 400-level. Students may pursue a traditional Philosophy M.A. or choose one of two options for emphasis: Environmental Philosophy or Ethics.

Environmental Philosophy. For students choosing the Environmental Philosophy option, administered by the Department of Philosophy at the

University of Idaho: the thesis must be in Environmental Philosophy and at least 15 of the letter-graded credit hours must be in environmental courses, some of which may be offered through other departments. Relevant courses approved by the student's thesis advisor.

Ethics. For students choosing the Ethics option, administered by the Department of Philosophy at Washington State University: the thesis must be in Ethics and at least 15 of the letter-graded credit hours must be in ethics or other normative theory courses approved by the student's thesis advisor.

Public Administration (M.P.A.)
Master of Public Administration. Major in Public Administration.

The Department of Politics and Philosophy at the University of Idaho offers the Master of Public Administration (MPA) degree for students interested in careers in the governance and management of local governments and communities. Students can expect to leave the program with intellectual and analytical skills, and the practical experience needed to enhance their ability to serve local governments and communities. The program is public service oriented, and is delivered in partnership with communities in Idaho and Washington.

Practitioner involvement in this program provides students with a more relevant and practical education than that found in more traditional programs. Academic faculty members work closely with

local government professionals to deliver courses and professional development opportunities.

The program requires 36 hours of coursework, which includes and 15-hour core:

Code	Title	Hours
POLS 555	Public Administration Theory	3
POLS 557	Governmental Budgeting	3
POLS 565	Local Government Law	3
POLS 572	Local Government Politics and Administration	3
POLS 558	Research Methods for Local Government and Community Administration	3
Total Hours		15

Students will then develop their specific interests in local government by choosing 15 to 18 hours of elective courses in consultation with and approval of their advisor. These courses may be chosen in alignment with the bioregional planning and community design graduate program, or other UI graduate programs. Students must also complete a final comprehensive examination.

Students with little or no public administration experience are required to complete a 3 to 6-hour internship to gain hands-on experience in the governance of local governments and communities. In-service students must complete 3 hours of POLS 559 Field Based Research in lieu of the internship.

The MPA program is available in both the traditional on-campus and on-line formats. Though no specific undergraduate preparation is required for the MPA, applicants must have a 3.0 undergraduate GPA, and three letters of recommendation.

Department of Psychology and Communication Studies

Psychology is the scientific study of thinking, emotion, and behavior. It is a diverse field, and can be applied to almost all aspects of everyday life: interpersonal relationships, school and lifelong learning, family, and the work environment. Psychology uses scientific research methods to develop and test theories, and to explain or predict behavior. Undergraduate study in psychology provides a broad coverage of the field; whereas graduate study focuses more narrowly on a particular discipline, preparing students for professional work as researchers and/or practitioners.

Communication Studies is a social science discipline that considers how people verbally and nonverbally communicate at the individual, societal, and cultural levels. It can be seen as the discipline that links other disciplines, a discipline that is vital if people, organizations, and governments are to cope with today's complex world. Students with degrees in Communication Studies pursue careers as communication specialists in the fields of communication education, business, government and politics, high technology industries, health, and social and human services. Graduates may also pursue advanced degrees in communication and other fields.

The Department of Psychology and Communication Studies offers a B.S. or B.A. in Psychology and a minor in Communication Studies. The psychology degree requires students to take a wide variety of courses in areas such as developmental processes, social psychology, learning and memory, personality, clinical psychology, biological processes, and

sensation/perception. Depending on their interests, students also select from more specialized subjects such as human factors, industrial/organizational psychology, aging, and the psychology of emotion. The Communication Studies minor requires students to take courses in the fields of speech, interpersonal and organizational communication. Students choose additional coursework from the areas of conflict management, intercultural communication, persuasion, gender, and aging.

Currently, graduate training in the department is available only in Psychology. The department offers an M.S. in psychology with an emphasis in human factors psychology. The master's degree in psychology prepares students for careers in government and industry, teaching at the junior college level, or for continued study at the doctoral level. The Ph.D. in experimental psychology prepares students for a research career that may involve applied research in industry or an academic position. An applicant to the graduate program must possess an undergraduate degree in psychology or a related field, such as engineering, computer science, or business. In addition, applicants should have completed a course in introductory statistics, a course in experimental psychology or research methods, and a course in computer programming. Additional coursework in cognitive psychology and sensation/perception is recommended. All applicants will be considered even if recommended coursework has not been taken.

PSYC 497	Practicum in Instruction
PSYC 498	Internship
PSYC 499	Directed Study

Total Hours 41

Courses to total 120 credits for this degree

Psychology (M.S.)

Master of Science. Major in Psychology.

In addition to the admission requirements of the Graduate College, the department requires Graduate Record Examination scores, letters of recommendation, and a brief essay regarding plans for graduate study and professional career. The undergraduate degree need not be in psychology, although at least a minor in psychology is desirable. In the event the student has a minimal background in psychology, this deficiency may be remedied by enrolling in certain undergraduate courses that would not necessarily be included in the graduate study plan.

The study program for each student is prepared with his or her future plans as a point of departure. Some students seek the master's degree as a terminal degree and assume positions in community mental health organizations, school systems, or industry, while others continue in doctoral studies.

Research opportunities in the department are many. Students are encouraged to begin research early in their graduate study under the direction of a major professor of mutual choice.

Students admitted to this program must fulfill the requirements of the College of Graduate Studies and of the Department of Psychology and Communication Studies. See the College of Graduate Studies (p. 221) section for the general requirements applicable to all M.S. degrees.

Psychology Minor

Note: All courses required for the psychology minor must be completed with a grade of 'C' or better.

Religious Studies

The academic study of religion has deep roots in Western intellectual history. One cannot adequately grasp the full dynamics of world culture without attending to the role of religion. In the last hundred years scholars in the West have paid increasing attention to non-Western religions and to the category of "religion" itself as a dimension of human experience.

Religious studies courses do not encourage or discourage religious belief; rather, they engage in the academic study of religion as a crucial element of human culture. Religious studies employs a variety of methods including anthropological, sociological, historical, philosophical, phenomenological, literary, and linguistic approaches. The principal goal of religious studies is submitting sacred texts and traditions to descriptive, analytical, critical, and empathetic scrutiny.

In terms of employment potential, a religious studies minor primarily serves a student in the same way that history or philosophy might. It increases a student's understanding of persons and cultures. Key liberal arts skills in close reading, analysis, research, and oral and written communication are central to religious studies. Some students will use religious studies to enhance their chances of acceptance in graduate programs in areas such as anthropology, sociology, social work, international relations, history, or various area studies. Others may use the minor as a broadly based stepping stone for professional training in theological seminaries or rabbinical schools.

Foreign languages appropriate to the minor are strongly recommended. For example, Chinese, Japanese, or Nez Perce are recommended for concentration in Asian, Pacific, and Indigenous traditions; Arabic, or Latin for those focusing on Western traditions.

Department of Sociology and Anthropology

The department provides students with two interrelated disciplines in which they can pursue a B.A. or B.S. degree: Anthropology and Sociology. Within sociology, students can select an emphasis in Criminology or General Sociology. Students can also pursue a minor in either of these

fields, or a minor in Justice Studies. In addition, we offer an academic certificate in Diversity & Stratification, and an Archaeological Technician Certificate. Our department is an ideal academic home for students interested in developing their understanding of people and society, small and large-scale cultures, culture history, cultural and social diversity, intercultural and global relations, and issues of justice, crime, and society. These programs give students the tools and perspectives necessary to understanding themselves and others in social and cultural contexts. The educational experience in sociology or anthropology – including ample opportunity for interactions with faculty – provides a foundation from which students can better appreciate the challenges they face in their professional and personal lives.

Sociology is the scientific study of human behavior, with an emphasis on understanding social interaction, groups, and organizations. It is an ideal major for students who are curious about themselves and the world they live in; the goal of sociology is to help students develop a "sociological imagination," the ability to understand how individual experiences, behaviors, and opportunities are influenced by the historical moment and social forces beyond the immediate control of any one person. In the criminology emphasis, students study the causes, consequences, and social responses to crime. The sociology program's strengths include, U.S. and global diversity, globalization, social inequalities, criminology, deviance, policing, and applied research. The program provides students opportunities to gain practical work experience through internships and service learning. Students leave prepared for careers in social services, human resources, criminal justice, non-profit positions, community organizing, and applied research and provides a foundation for graduate education in sociology, criminology, social work, and law.

Anthropology is the comprehensive study of the human condition, from humanity's evolutionary past to its biological diversity, from the prehistoric and historic past to modern cultural and linguistic diversity, from rural societies to urban societies. While the program at the University of Idaho considers the breadth of these topics and issues, its primary focus is on Indigenous peoples and international development, contemporary U.S. culture, historical archaeology, archaeological conservation and stabilization, and the archaeology and ethnography of the Indian Tribes of the North American Plateau. Graduates of the program are able to apply the anthropological skills and knowledge with an eye toward making a difference. Graduates go on to experience successful careers or pursue advanced programs of graduate study.

The department offers the academic certificate in Diversity & Stratification (p. 281). The purpose of the certificate in Diversity & Stratification is to provide students with specific training in intercultural skills. It requires 12 credits of diversity study and applied experience. The certificate recognizes competency in understanding a broad range of diversity issues (race, physical ability, gender, sexual orientation, age, religion, social class, etc.) and their relevance in social life and the workplace. The certificate provides students with a focused and work-related credential so they may be more competitive and effective in the job market.

The Archaeological Technician Program is designed to offer students a solid understanding of the practical and theoretical knowledge necessary to be qualified for an entry level position in government or cultural resource management (CRM). Participants must complete the entire training program with emphases in field survey, excavation, and laboratory methods. All three areas of the Certificate program include practical experience in the field and lab with academic and/

or professional evaluations that include appropriate readings and examinations.

Graduate study in anthropology is offered in areas such as American Indian studies, prehistoric and historical archaeology, sociocultural anthropology, and physical anthropology. The program offers both a thesis and a non-thesis MA. Both programs include class work, seminars, directed studies, independent research, and a thesis (with public defense) or final project. The curriculum provides sound training in general anthropology, archaeology, physical anthropology, and ethnology. Departmental research specialties include historical archaeology, prehistoric Plateau archaeology, Plateau Indian ethnography, contemporary American culture, human evolution, and indigenous peoples of South America. Anthropologists in the department also regularly collaborate with the university's history department in support of a joint Ph.D. degree in history with an emphasis on historical archaeology. Graduates of the MA program have successfully gone on to pursue additional graduate work and professional careers in anthropology. Interested students should contact the department for the application procedures.

Questions concerning the department and its programs should be addressed to the department chair (208-885-6751).

Anthropology (B.A. or B.S.)

Required course work includes the university requirements (see regulation J-3 (p.)), the general requirements for either the B.A. or B.S. degree, and:

Code	Title	Hours
ANTH 100	Introduction to Anthropology	3
ANTH 220	Peoples of the World	3
ANTH 230	World Prehistory	3
ANTH 231	Introduction to Archaeology	3
ANTH 241	Introduction to the Study of Language	3
or ANTH 261	Language and Culture	
ANTH 251	Introduction to Physical Anthropology	3

ANTH 416	Qualitative Social Science Methods	3
ANTH 417	Social Data Analysis	3
or STAT 251	Statistical Methods	
ANTH 420	Anthropological History and Theory	3
ANTH 428	Social and Political Organization	3
SOC 101	Introduction to Sociology	3
Select 15 credits of Upper-Division Anthropology electives		15
Select 20 credits of courses in related fields		20
Total Hours		68

Courses to total 120 credits for this degree

Anthropology (M.A.)

Master of Arts. Major in Anthropology.

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Sociology & Anthropology. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each M.A. degree.

Thesis Option.

Course work will include either 30 credits plus a foreign language proficiency examination or 36 credits and no foreign language requirement. Students who as undergraduates did not take at least one course in each of the four subfields of anthropology and a course in statistics will be asked to do so (in consultation with an advisor) at the beginning of their graduate programs. No graduate credit will be awarded for courses taken to satisfy such deficiencies. Graduate students must demonstrate competence in each of the four subfields of anthropology. The thesis option M.A. core along with the expected undergraduate preparation (or courses taken as deficiencies as a graduate student) are designed for this purpose. Thesis students complete the core courses, supporting fields electives, the anthropology electives, and the thesis credits.

Code	Title	Hours
ANTH 420	Anthropological History and Theory	3
ANTH 500	Master's Research and Thesis	6-10
ANTH 511	Human Evolution	3
ANTH 521	Contemporary Issues in Anthropological Theory	3
ANTH 530	Introduction to Archaeological Method and Theory	3
ANTH 516	Qualitative Social Science Methods	3
or ANTH 517	Social Data Analysis	
Select up to 6 credits of electives in supporting fields		0-6
Total Hours		21-31

Both the 30- and 36-credit M.A. program must include at least 6 but no more than 10 thesis credits, although more than 10 credits of ANTH 500 may be taken. A minimum of 18 credits must be at the 500 level. Anthropology courses must be at the 400 or 500 level (cross-listed 400-level/500-level courses must be taken at the 500-level), while supporting courses can include 300 level. No more than 12 credits can be transferred from other institutions and an official copy of the student's transcripts from each institution must be on file in the Registrar's Office. Such institutions must have a graduate program and the work taken for graduate credit.

Note: Students who have already received credit for any core course or an equivalent will not need to retak it, but will substitute appropriate courses with approval from their advisor.

Non-thesis option.

Course work will include either 30 credits plus a foreign language (or language other than the student’s native language) proficiency examination or 36 credits and no foreign language requirement. Students who as undergraduates did not take at least one course in cultural anthropology, archaeology, and physical anthropology and a course in statistics will be required to do so in consultation with an advisor at the beginning of their graduate programs. In general, no graduate credit will be awarded for courses taken to satisfy such deficiencies. Non-thesis students complete the core courses, a field school or internship, supporting fields electives, anthropology electives, non-thesis credits, and select one subfield emphasis.

Code	Title	Hours
ANTH 420	Anthropological History and Theory	3
ANTH 521	Contemporary Issues in Anthropological Theory	3
ANTH 599	Non-thesis Master’s Research	1-5
Select up to 6 credits of electives in supporting fields		0-6
ANTH 516	Qualitative Social Science Methods	3
or ANTH 517	Social Data Analysis	
Select up to 6 credits in Field School or Internship:		0-6
ANTH 509	Anthropological Field Methods	
ANTH 598	Internship	
Non-Thesis Subfield		
Select one non-thesis Subfield:		6
<i>Physical Anthropology</i>		
ANTH 511	Human Evolution	
ANTH 512	Human Races	
<i>Archaeology</i>		
ANTH 530	Introduction to Archaeological Method and Theory

Department of Theatre Arts

Theatre is a liberal art as well as a fine art. The programs offered by the Department of Theatre Arts are designed to encourage the development of the whole person, which is a hallmark of a liberal arts education.

We offer a supportive environment where individuals may achieve their full potential as independent creative artists and compassionate people. Our programs promote knowledge, critical thinking and creative problem solving. As students explore diverse theatre traditions, they gain a deeper understanding of themselves and their role in society. As they participate in the creative process of theatre production, they develop the teamwork and communication skills they will need as effective and successful members of society.

Career prospects for theatre students are vast and varied. Theatre Arts degree graduates find employment in professional theatre, film, television, virtual technology, education, arts management, art therapy, marketing and other fields. The department's program of study also offers a solid foundation for competitive placement in distinguished graduate programs.

The B.A. and B.S. degrees are available for students interested in the study of theatre within a liberal arts background, or as part of a teacher education program. The B.F.A. is a rigorous, competitive program of study for students interested in pursuing careers in professional theatre. An audition or portfolio review and faculty approval are required for acceptance into the B.F.A. program. The progress of B.F.A. candidates is monitored closely each semester, utilizing performance juries and portfolio reviews. A core of theatre work is required of all theatre majors. Specialization is available in performance or design at the undergraduate level, and students enjoy flexibility in shaping their studies according to particular goals or interests. Minors are available in theatre for those students wishing to expand the focus of their degree program.

All Theatre Arts students are expected to maintain a cumulative GPA of 3.0 or above to participate in productions as an actor, stage manager, designer or assistant.

Students must also earn a C or above in all theatre classes to participate in productions the following semester.

Productions help students foster a close working relationship with faculty, and enable the kind of growth that comes through working with professional artists. Class projects and studio work are fully integrated with the department's season to create a balance between theory and skill development.

M.F.A. in Theatre

The department also offers Idaho's only Master of Fine Arts degree in theatre. The program is a rigorous 60-72 credit hour degree designed for students wishing to prepare for a career in the professional theatre. The M.F.A. is also the terminal degree expected for individuals teaching at the university or college level. Graduate students may select an area of emphasis in acting, directing, design and/or technology, dramatic writing or theatre pedagogy. Numerous opportunities exist to design, perform and direct productions, which are considered an integral part of graduate training. Student progress is monitored by portfolio review or performance jury each semester. Exit procedures for the program include a creative project and comprehensive exam.

Admission requires a minimum of 3.0 GPA, a statement of goals or intent, three letters of recommendation, and a portfolio of design work or a 4-6 minute audition tape. A limited number of graduate assistantships are available for qualified candidates.

M.F.A. in Theatre: Distance-Delivery Format

The department also offers the curriculum for our M.F.A. program via our unique distance-delivered format. This format is designed for place-bound graduate students who are working professionals and unable to relocate to continue their graduate study toward their terminal degree. We offer the distance-ed option in the following areas of emphasis: design, technology and management (DTM), directing, dramatic writing and theatre pedagogy.

Theatre Facilities

The department has two theatre venues as well as a performance studio that is used for productions, rehearsals and classroom. The elegant 417-seat Hartung Theatre features a semi-thrust proscenium stage, new digital lighting and fully-equipped shops for scenery and costume construction. The Forge Theatre is an intimate 100-seat performance studio, equipped for flexible staging, including theatre-in-the-round. The 50-seat Arena, which is used for both productions and as a class laboratory.

For more information on the department, its programs of study and theatre productions, visit our web site at www.uitheatre.com (<http://www.uitheatre.com>), or call 208-885-6465.

Majors

- Theatre Arts (B.A. or B.S.) (p. 285)
- Theatre Arts (B.F.A.) (p. 285)

Minors

- Theatre Design and Technology Minor (p. 286)
- Theatre Performance Minor (p. 286)

Theatre Arts Graduate Program

- Theatre Arts (M.F.A.) (p. 285)

Theatre Arts (B.A. or B.S.)

To be eligible for graduation, theatre arts students taking B.A./B.S. options in theatre must achieve a minimum grade of C in all theatre courses required by their major. To participate in departmental productions, a student must maintain a minimum 2.50 overall GPA. Required course work for students pursuing the B.A. in theatre arts includes

1. the university requirements (see regulation J-3 (p.)),
2. the general CLASS core requirements, and
3. the theatre arts core courses listed below.

Required course work for students pursuing the B.S. in theatre arts includes

1. the university requirements (see regulation J-3 (p.)),
2. the general CLASS core, an established minor, or courses in a related field approved by the Theatre Arts Department (20 cr), and the theatre arts core courses listed below.

Theatre Arts (B.F.A.)

The Bachelor of Fine Arts degree is a rigorous training program for students wishing to pursue a career in the professional theatre. The program offers two areas of emphasis: Performance (acting) and DTM (design, theatre technology, and management). Individual courses are selected in consultation with an advisor, so the degree is tailored as closely as possible to a student's specific needs and interests. Students are encouraged to seek out internships with professional theatre companies as part of their program of study.

Admittance to the B.F.A. program in theatre requires an audition or portfolio review and faculty approval. Student progress is closely

monitored through performance juries and portfolio reviews each semester.

To be eligible for admittance, continued candidacy, and graduation, the B.F.A. candidate must achieve a minimum grade of C in each theatre course required for the major. To participate in departmental productions, a student pursuing the B.F.A. must maintain a minimum 3.00 overall GPA each semester.

Required course work includes:

1. the university requirements (see regulation J-3 (p.)),
2. the Theatre Arts core courses listed below, and
3. a 30-credit area in either DTM or Performance of departmental-approved coursework.

Theatre Arts Core

Code	Title	Hours
THE 101	Introduction to the Theatre	3
THE 102	Introduction to Design	3
THE 103	Theatre Technology I	3
THE 104	Theatre Technology II	3
THE 105	Basics of Performance I	3
THE 106	Basics of Performance II	3
THE 371	Play Analysis	3
THE 390	Theatre Practice II (Four Credits Required)	4
THE 468	Theatre History	3
THE 483	Senior Capstone Project	1
Select two of the following courses:		6
THE 201	Scene Design I	
THE 202	Costume Design I	
THE 205	Lighting Design I	
THE 320	Theatre Management	
Total Hours		35

Courses to total 120 credits for this degree

Theatre Arts (M.F.A.)

Master of Fine Arts. Major in Theatre Arts.

The Master of Fine Arts degree at the University of Idaho is a rigorous three-year, 60-72 hour degree designed for talented students wishing to prepare themselves for a career in the professional theatre. Degree tracks in areas of design, directing, performance and technical production are built around specific curriculum categories and individual courses are selected by the candidate in consultation with his or her major professor. Student progress is monitored by portfolio review or performance jury each semester. Exit procedures from the program include a creative project and comprehensive exam.

Candidates must fulfill the general requirements of the Graduate College and a minimum of 60 credits from the course groupings listed below:

Studio Area (12-16 cr)

A minimum of 12 credits are taken in course work directly related to an area of specialization. The studio area of study is individualized to the candidate's specific needs and areas of weakness. Candidates will enroll in M.F.A. Studio each semester of residence excluding summers.

Related Studio Area (9-12 cr)

A minimum of 9 credits are taken in a related studio area which generally pertains directly to the candidate's area of specialization.

Craft Area (8-12 cr)

A minimum of 8 credits are taken in courses to develop specific skills associated with the studio area.

History/Literature/Criticism (9-12 cr)

A minimum of 9 credits are taken in history or literature courses which relate directly to the studio area. Courses taken to fulfill this requirement might include dramatic literature, social history, art history, architectural history, and theatre history.

Internship (12 cr)

A maximum of 12 credits of THE 598, are taken to augment course work with professional experiences with professional regional theatres in the area.

M.F.A. Jury/Portfolio Review (5 cr)

A minimum of 5 credits of THE 515, must be completed with a grade of B or better before the awarding of the degree. A maximum of 1 credit of THE 515 may be taken each semester.

M.F.A. Exit Procedures (3 cr)

Exit procedures vary with the area of specialization. In each case the exit procedure revolves around a thesis project or exam completed sometime in the last two semesters of residence. Projects are designed in consultation with the candidate's graduate committee. Candidates must enroll in THE 596, during the semester the project is undertaken.

Theatre Design and Technology Minor

Code	Title	Hours
THE 103	Theatre Technology I	3
THE 104	Theatre Technology II	3
Select two courses from the following:		6
THE 201	Scene Design I	
THE 202	Costume Design I	
THE 205	Lighting Design I	
Select 6 credits of electives from upper-division Technical Theatre course work		6
Total Hours		18

Courses to total 18 credits for this minor

Theatre Performance Minor

Code	Title	Hours
THE 105	Basics of Performance I	3
THE 106	Basics of Performance II	3
THE 305	Intermediate Acting I	3
THE 306	Intermediate Acting II	3

Select one upper-division Elective		3
Total Hours		18

Courses to total 18 credits for this minor

Program in Women's, Gender, and Sexuality Studies

Women's and Gender Studies is an interdisciplinary academic field devoted to the study of topics concerning women and men, gender and sexuality, feminist theory and research, social history, public health, and women's and men's participation in the arts and popular culture. The Women's and Gender Studies minor offers an interdisciplinary program that allows students to develop critical thinking skills in relation to the scholarly pursuit of knowledge about women, men, the history of feminism, and the social construction of cultural variables, such as gender, sexual identity, age, and race and ethnicity. The Women's and Gender Studies minor is an asset in the job market for women and men in both the public and private sectors as women increasingly pursue diverse vocations and careers and find it necessary to examine and to validate their positions as the number of women as supervisors, co-workers, and clients continues to grow. As rigid gender roles become more fluid, men also seek to understand the meaning of these changes for their academic work and lives.

Minors

- Women's, Gender, and Sexuality Studies Minor (p. 286)

Women's, Gender, and Sexuality Studies Minor

Code	Title	Hours
WGSS 201	Introduction to Women's, Gender, and Sexuality Studies	3
Select a minimum of three different subject prefixes from the following:		15
ANTH 428	Social and Political Organization	
COMM 432	Gender and Communication	
ENGL 382	Queer Literature	
ENGL 481	Women's Literature (May be retaken once to total 6 credits.)	
FCS 240	Intimate Relationships	
FCS 340	Parent-Child Relationships in Family and Community	
FCS 346	Personal and Family Finance and Management	
FCS 436	Theories of Child and Family Development	
FCS 440	Contemporary Family Relationships	
FCS 445	Issues in Work and Family Life	
FCS 462	Eating Disorders	
HIST 357	Women in Pre-Modern European History	
HIST 420	History of Women in American Society	
JAMM 340	Cultural Diversity and the Media	
POLS 423	Politics, Policy and Gender	
JAMM 446	Women in the Media	
PHIL 405	Feminism & Philosophy	
PSYC 315	Psychology of Women	
PSYC 320	Introduction to Social Psychology	
SOC 241	Global Sociology: Gender, Race, and Class Around the World	

SOC 301	Introduction to Diversity and Stratification
SOC 325	Family, Violence, and Society
SOC 327	Sociology of the Family
SOC 342	Gender and Science
SOC 421	Gender and Crime
SOC 424	Sociology of Gender
SOC 427	Racial and Ethnic Relations
WGSS 367	Topics in Women's, Gender, and Sexuality Studies
WGSS 404	Special Topics
WGSS 410	Feminist Theory and Action
WGSS 498	Internship in Women's, Gender, and Sexuality Studies
WGSS 499	Directed Study
Total Hours	18

Courses to total 18 credits for this minor

With prior approval of the Women's and Gender Studies committee, a student may also include credit from survey courses, special topics courses, or seminars meeting the guidelines for inclusion of courses in a Women's and Gender Studies minor. No more than 3 credits may count toward both the student's major and minor.

COLLEGE OF NATURAL RESOURCES

Dennis Becker, Interim Dean; Steven R. Shook, Associate Dean; (202 College of Natural Resources Bldg.; 208-885-6442).

Professional education leading to a degree in forestry began at the University of Idaho in 1909. To the initial curriculum in forest resources have been added those in renewable materials (formerly forest products) (1914), rangeland ecology and management (formerly range resources) (1917), wildlife resources (1942), fishery resources (1951), natural resource conservation (formerly resource recreation and tourism (1974), ecology and conservation biology (formerly natural resource ecology and conservation biology) (1999), and fire ecology and management (2007).

The academic objective of the college is to provide its students with opportunities to become better prepared for lives of responsibility and fulfillment and to acquire competence for entry into professional careers in natural resource science and management. Each of the curricula offered by the college acquaints the student with the physical, biological, and social sciences and with the humanities, thus establishing a basis of general education and preparing the student for the scientific-professional courses addressing the use of forest and range lands and related resources. In addition to the most modern technical and academic classroom instruction, the college prides itself in "hands-on" training, taking advantage of its outstanding field facilities and its emphasis on communications and student activities to enhance leadership potential.

Advantages of Location

The university is ideally located for preparing students for the renewable natural resources professions. Forest and range lands comprise 90 percent of the state's area. Forested areas include many types from the ponderosa pine in southern Idaho to the mixed coniferous and famous white pine of northern Idaho. Range lands vary from spring-fall and winter ranges in the sagebrush-grass and bunchgrass zones to summer ranges in several of the forested zones. Within the forest and range lands are hundreds of lakes and streams and extensive wilderness areas that provide habitat for fish and wildlife and opportunities for wildland recreation.

The values derived from these resources include wood products of all types; cattle and sheep in great numbers; abundant wildlife of many species; world renowned game fish; water for domestic use, power, and irrigation; and recreational activities. These natural study areas and resources enhance students' professional preparation.

Facilities

A modern three-story, 90,000-square-foot building, the Natural Resources Building incorporates classrooms, laboratories, scientific equipment, plant and animal collections, computer access, and other support functions into an ideal environment for natural resources education and research.

A university experimental forest includes over 8,000 acres of forest land located about 25 miles from the campus and is managed by the college as a working forest for demonstration, research, and education. The forest properties include a 200-acre recreation area, two smaller tracts closer to Moscow that serve as outdoor classrooms, and approximately 1,650 acres of forest land near McCall. The Frank Pitkin Forest Nursery

site includes 40 acres and three greenhouses that produce 700,000 seedlings annually for student training and research purposes. On the university campus, the Shattuck Arboretum, with over 60 species of trees, provides an outdoor classroom for studies in dendrology. Other field facilities include the McCall Field Campus located on Payette Lake in the mountains of west-central Idaho, the Taylor Wilderness Research Station in the heart of the Frank Church River-of-No-Return Wilderness, and the Lee A. Sharp Range Experimental Area in southern Idaho. In addition, Idaho's 37 million acres of public forest and range lands constitute a vast natural laboratory for students in all of the college's curricula.

To take advantage of these facilities and implement "hands-on" training, the college employs student logging, surveying, planting, and controlled burning crews.

Standing of the College

To assure high professional standards, several curricula in the college are periodically evaluated and rated as accredited or not accredited. Forest resources curricula at UI have been accredited since the Society of American Foresters first began accreditation in 1935. Similarly, in 1985 the rangeland ecology and management curriculum became one of the first in the nation to be accredited by the Society for Range Management. The curriculum in renewable materials is accredited by the Society of Wood Science and Technology.

Departments

The college has four departments/programs: Environmental Science; Fish and Wildlife Sciences; Forest, Rangeland and Fire Sciences; and Natural Resources and Society. Although these departments are separate administrative entities, they share a common philosophy, integrated resource management. Many college faculty hold joint appointments in more than one department; degree programs include courses from multiple departments; and the teaching, research, and service missions of all the departments are integrated and coordinated at the college level. This integration is enhanced by the Forest, Wildlife and Range Experiment Station, described below.

Admission Requirements

General

For a statement of undergraduate and graduate admission requirements, see the admissions (p. 41) portion of the catalog.

Transfer Students

Students who propose to complete a portion of their undergraduate studies at a junior college or elsewhere, before entering UI, should follow as closely as possible one of the curricula for the first two years set forth in the individual department section. A student whose program does not closely approximate one of these will not be able to graduate in four years. Transfer to UI before the end of the sophomore year is usually to the student's advantage. Correspondence with the dean of the college should be initiated at least three months before the date on which the student plans to enroll.

Undergraduate Program

The undergraduate curricula are designed to provide both a general and a professional education. The objective in the first two years is to provide students with a good foundation in the biological, physical, and social sciences and in writing and speaking skills. The basic philosophy of the college is to educate according to the principles of integrated natural resource management while providing specialization in the student's

major area of interest. Because of the emphasis placed on the integrated approach, all curricula in the college, except one option in forest products, have incorporated a common 13-credit set of core courses as follows: Exploring Natural Resources, Ecology, Society and Natural Resources, Introduction to Spatial Analysis for Natural Resource Management, and Natural Resource and Ecosystem Service Economics.

The curricula and options in each program offer as many courses in common with those in other programs as possible, while ensuring that specific professional education requirements are met. Flexibility and individuality in each student's program are provided by curriculum choice, by options within curricula, and by elective credits. Provision is also made for advanced training leading to a military commission.

A variety of scholarships are available to undergraduate students based on need and merit.

Graduate Program

Programs leading to advanced degrees are offered in each of the fields represented by the undergraduate curricula of the college and in natural resources. Both the master's and the doctor's degree, with emphasis on conducting a research project and preparing a thesis or dissertation, are available. A non-thesis master's degree may be obtained in each department. The UI offers a Professional Science Master's degree in Natural Resources and Environmental Sciences. It is an innovative, interdisciplinary degree preparing graduates for science careers in business, government, or nonprofit sectors, focusing on sustainability science as it applies to natural resources and the environment. An interdisciplinary Master of Natural Resources degree focused on management and administration is also available.

Excellent facilities and opportunities are available for graduate study and research in the subject-matter areas. Research in the college is organized through the Idaho Forest, Wildlife and Range Experiment Station. Research is also supported by the Idaho Cooperative Fish and Wildlife Research Unit, the Cooperative Park Studies Unit, and by various state, federal, and private organizations.

Assistantships and fellowships are available to assist highly qualified students in their graduate programs. More information on graduate studies may be obtained by writing the dean of the College of Graduate Studies. Information on available specializations and current projects may be obtained by writing the College of Natural Resources.

Idaho Forest, Wildlife and Range Experiment Station

All members of the college faculty are on the staff of the experiment station. Other members of the station staff include full-time research associates and technicians, as well as graduate student appointees.

The program of the experiment station is closely connected with the graduate training program of the college. Many of the graduate students enrolled in the college are on assistantships associated with station projects.

The station staff conducts research on a wide variety of renewable natural resource management problems in the areas of forestry, forest products, range, resource-based recreation, resource-based tourism, wildlife, and fisheries. Several projects are interdisciplinary. Funds for the station are provided by the university, by some departments of the State of Idaho, and by grants from federal, other state, and private sources. Currently a majority of these funds comes from non-university sources.

More information on station activities may be obtained by writing to the associate director, Idaho Forest, Wildlife and Range Experiment Station, College of Natural Resources.

Internship, and Employment Requirements

Students in Fishery Resources, Ecology and Conservation Biology, and Wildlife Resources complete a senior thesis, senior project, or relevant summer employment as part of their degree requirements. Specific information is contained in the respective departmental sections.

Requirements College for Graduation University Requirements

See regulation J (p. 84) for general university requirements for degrees.

College Requirements

The minimum credit requirement for a university baccalaureate degree is 120 credits. A minimum cumulative grade-point average of 2.00 in all courses taken in this college is required for graduation. Courses in the college numbered above 299 are not open to any undergraduate student who is on academic probation.

The college may permit substitutions or grant waivers of specified requirements. Thus, for a student with special aptitudes or interests, a program can be devised that will provide a foundation for advanced study or research or meet other acceptable and well-defined career objectives.

Degrees

Curricula leading to the following degrees are offered by the college: Bachelor of Science in Ecology and Conservation Biology (B.S.Ecol.Cons.Biol.) with options in natural resources ecology and conservation biology; Bachelor of Science in Fire Ecology and Management (B.S.Fire.Ecol.Mgmt.); Bachelor of Science in Fishery Resources (B.S.Fish.Res.); Bachelor of Science in Forest Resources (B.S.For.Res.); Bachelor of Science in Natural Resource Conservation (B.S.Nat.Resc.Consv.); Bachelor of Science in Rangeland Ecology and Management (B.S.Rangeland Ecol.-Mgt.); Bachelor of Science in Renewable Materials (B.S.Renew.Mat.); and Bachelor of Science in Wildlife Resources (B.S.Wildl.Res.); Master of Science (thesis and non-thesis options); Master of Natural Resources; Professional Science Master in Natural Resources and Environmental Science; and Doctor of Philosophy in Natural Resources, with dissertation topics in any of the college programs. Academic minors offered include conservation social sciences, forest operations, forest resources; fire ecology and management; fishery resources, wildlife resources, natural resource communication; natural resources; outdoor recreation leadership; parks, protected areas, and wilderness conservation; rangeland ecology and management; renewable materials, and sustainable tourism and leisure enterprises.

Program in Environmental Science

The interdisciplinary program in Environmental Science is administered by the College of Natural Resources (p. 288).

The Environmental Science Program offers B.S., M.S., P.S.M., and Ph.D. degrees that emphasize the importance of an interdisciplinary approach for students committed to studying and solving environmental issues. The diverse multi-disciplinary faculty represents all colleges at the university and includes soil scientists, engineers, geographers, biologists,

ecologists, political scientists, sociologists, chemists, philosophers, and hydrologists, as examples.

Career opportunities in the environmental sciences are diverse and numerous. Graduates are employed in the private and public sectors in areas such as natural resource management, pollution prevention, air and water quality monitoring, hazardous waste management, environmental and land use planning, rangeland health, environmental policy, environmental remediation, and environmental regulation and compliance.

The curriculum leading to the B.S. degree in environmental science offers students the opportunity to combine studies in several disciplines and professional fields in order to gain an understanding of the complex nature of environmental problems. In addition to understanding relationships among traditional disciplines, the program creates an integrated and coherent approach to environmental problem solving.

The curriculum includes the university core (general education) requirements, a common set of required courses and breadth electives for all environmental science majors, as well as the student's choice of one of three option areas. The required courses and electives for all majors are designed to build a strong base of knowledge in biological, physical, and social sciences, supplemented by a set of electives, in consultation with an environmental science advisor participating in the program. All students complete a senior project as part of their course of study.

Three option areas are offered: biological science, physical science, and social science.

Professional Certificates: Twelve-credit professional certificates in water science and environmental contamination assessment are also available through the Environmental Science Program. The certificates can be completed on the Moscow campus or through distance education. Procedural details are available in the program office.

Graduate training in the Environmental Science Program provides students with the opportunity to specialize in one of eight emphasis areas: ecology/biological science, waste management, earth science/hydrology, natural resource management, physical science, policy and law, environmental health/toxicology, and water science.

Admission to the graduate program is based on: ability to complete graduate-level work evidenced by undergraduate transcripts; the applicant's statement of research and career objectives; the compatibility of the student's objectives with faculty expertise and program objectives; and availability of graduate faculty to act as major advisor for the applicant. The GRE, applicant's statement of objectives, and three letters of recommendation and resume are required. Students without backgrounds in environmental science may be admitted after certain undergraduate deficiencies are completed.

Questions regarding the B.S. in Environmental Science should be directed to the Student Services Undergraduate Advisor, Chelsea Pugh (208/885-7132, chelseap@uidaho.edu). Questions for the M.S., P.S.M., or Ph.D. programs should be directed to the Graduate Program Coordinator, Dr. Lubia Cajas Cano de Gliniewicz (208/885-6113, lubia@uidaho.edu).

Majors

- Environmental Science (B.S.Env.S.) (p. 290)

Environmental Science Graduate Program

- Environmental Science (M.S.) (p. 296)
- Natural Resources and Environmental Science (P.S.M.) (p. 296)
- Environmental Science (Ph.D.) (p. 296)
- Concurrent J.D./M.S. Environmental Science Degrees (p. 290)

Concurrent J.D./M.S. Environmental Science Degrees

The concurrent J.D./M.S. degree program offers students an opportunity to combine the study of scientific, social, philosophical, and legal aspects of environmental issues. This program equips students for jobs in which the technical knowledge offered through the Environmental Science Program and the professional expertise provided by the College of Law would be beneficial.

Students must apply separately to and be admitted by the College of Graduate Studies/Environmental Science Program, the College of Law, and the Concurrent J.D./M.S. Degree Program. Admission into the concurrent degree program is dependent on a demonstrated ability to excel in an intense, interdisciplinary educational environment.

Students must complete the requirements set out above for an M.S. degree in environmental science and the requirements for a J.D. (see the College of Law (p. 230) section), subject to the following conditions. The first year of study will be exclusively in the College of Law. Because the concurrent degree program requires an M.S. thesis, the fourth year of the program will be primarily in the Environmental Science Program. Up to 12 hours of M.S. graduate credit will be allowed toward the J.D. degree and up to 6 hours of law credit will be allowed toward the M.S. degree from pre-approved lists of classes. This will permit a student to complete the concurrent degree program in as little as four years. If a student fails to complete the master's degree program, no more than 6 credits will be allowed toward the J.D. degree; if a student fails to complete the law program, the student will be required to satisfy all requirements of the Environmental Science Program before receiving the M.S. degree. See the College of Graduate Studies and the College of Law sections for additional information on the graduate/law concurrent degrees.

Questions regarding the concurrent degree program should be addressed to the Environmental Science Program coordinator (208-885-6113) or to the College of Law (208-885-6423).

Environmental Science (B.S.Env.S.)

Required course work includes the university requirements (see regulation J-3 (p. 84)), the general requirements for the B.S. degree, and:

Code	Title	Hours
BIOL 115	Cells & the Evolution of Life	3
BIOL 115L	Cells and the Evolution of Life Laboratory	1
CHEM 111	Principles of Chemistry I ¹	3

Total Hours	64-66

Courses to total 120 credits for this degree.

Environmental Science (M.S.)

Master of Science. Major in Environmental Science.

Each student will design a study plan in consultation with an advisor. The study plan is subject to approval by the director and the Graduate College.

There are five requirements for the M.S. degree in environmental science:

1. Depth requirement: the graduate program is structured around three option areas, biological science, physical science, or social science. A student must complete a minimum of 12 credits (thesis degree) or 15 credits (non-thesis degree) in one of the three option areas;
2. Breadth requirement: A student must complete a minimum of 3 credits at the MS level in each of the other two option areas;
3. A student must complete one course (3 cr) in appropriate research methods or statistics at the 500 level;
4. ENVS 501 (2 cr);
5. ENVS 500 (6 cr., thesis degree) or ENVS 599 (3 cr., non-thesis degree).

These requirements may be augmented to compensate for undergraduate deficiencies.

The thesis degree consists of at least 30 graduate credits, including at least 6 credits and a maximum of 10 credits of thesis and a minimum of 24 credits of course work. For the thesis option, at least 21 credits in the option and supporting area must be at the 500 level, including a minimum of 6 hours of research and thesis (ENVS 500). The non-thesis degree program requires at least 30 graduate credits, including a minimum of 3 credits of ENVS 599 (Non-thesis Master's Research) and 27 credits of course work. For the non-thesis option, at least 21 credits in the option and supporting area must be at the 500 level. For both thesis and non-thesis options, a student can take up to 9 credits at the 400 level in the option and supporting area (one class can be at

the 300 level in a supporting area with committee approval). The thesis or non-thesis research part of the program for each student consists of a substantial project in which the student demonstrates ability to do rigorous independent work.

Environmental Science (Ph.D.)

Doctor of Philosophy. Major in Environmental Science.

Admission to the doctoral program is based on the compatibility of the student's research interests with those of the major professor, the availability of research support, and the student's academic record and potential. Applicants are expected to have the prerequisites as specified for the M.S. degree. The student develops a graduate program of at least 78 semester hours in consultation with his or her major professor and supervisory committee. The student is expected to actively participate in one or more seminar presentations during the course of his or her graduate career. Teaching experience is required and is obtained through participation in the program's course offerings. Qualifying examinations are required for those students entering the Ph.D. program without a master's degree. Preliminary examinations are required prior to admission to final candidacy for the degree. All candidates prepare a formal dissertation reflecting original thought and independent investigation and defend it during an oral presentation as a final step toward their degree. Publication in the peer-reviewed, scientific literature is expected. Contact the program office for specific program requirements and procedures.

Natural Resources and Environmental Science (P.S.M.)

Professional Science Master. Major in Natural Resources and Environmental Science.

The Professional Science Master (P.S.M.) degree is a partner ship of the University of Idaho and regional employers, where graduates are immersed in enhanced learning and are faced with real-world learning scenarios. The P.S.M. is a national program with over 165 partner institutions participating in coordination with the National Professional Science Masters Association (NPSMA).

There are 3 requirements for the P.S.M. degree in Natural Resources and Environmental Science: (1) 12 credits of professional skills courses, (2) 15 credits in the student's Emphasis Area, and (3) 3 credits of elective skills courses.

Code	Title	Hours
Professional Skills Courses (12 cr)		
At least three of the four skills courses must be taken at the 500 level. Joint-listed courses must be taken at the graduate level. At least two of the skills courses must be designated PSM core courses, which include BUS 551, BUS 551 and ENGL 522.		12
Scientific Communication		
AOLL 528	Program Planning, Development, and Evaluation	
ENGL 522	Communication for Science Professionals

STAT 555	Statistical Ecology

Elective Science Skills (3 cr)

The elective Skills Course should complement the student's Emphasis Area, but does not have to be from within that Emphasis Area.

3

Total Hours

30

Courses to total 30 credits for this degree

Department of Fish and Wildlife Sciences

Fish and wildlife science professionals apply the principles of biology and ecology to understand how fish and wildlife populations interact with each other and with their environment. We help students develop a solid foundation in fish and wildlife biology and ecology, a strong scientific and quantitative background, appropriate technical expertise, and an appreciation for fish and wildlife as a public trust resource. Our degrees emphasize critical thinking through coursework and hands-on field and laboratory experiences, and our graduates are equipped to be successful natural resource managers and scientists in a rapidly changing world. There are four areas of emphasis within the department: **aquaculture, fisheries ecology and management, wildlife ecology and management, and conservation biology.**

Fishery professionals conduct research or apply management principles to aquatic ecosystems. They may become involved with managing recreationally and commercially important fish populations, biological monitoring, environmental impact assessment, conservation of endangered fish, hatchery operation, commercial fish farming, control and prevention of fish diseases, or management of stream or lake ecosystems.

Wildlife professionals, are involved in the conservation and management of game and nongame wildlife species. This includes studying wildlife and their habitat to provide a biological basis for management programs. Wildlife professionals often coordinate wildlife management programs with other natural resource activities such as forest management, range management, and land use planning.

Professionals within Ecology and Conservation Biology use the tools and basic principles of ecology (such as population dynamics and genetics) in combination with social science principles to solve critical issues related to conserving species and ecosystems. They write species recovery plans, manage parks and protected areas, and advise policy makers and land-use planners.

Professions in Fish and Wildlife Sciences and Ecology and Conservation Biology also include opportunities in law enforcement, environmental education, and public relations.

Bachelor of Science degrees are offered in Fishery Resources, Wildlife Resources, and Ecology and Conservation biology. In the Fishery Resources degree, students may design a program that emphasizes fisheries management, fisheries ecology, aquatic ecology, or aquaculture. In the Wildlife Resources degree, the program emphasizes the principles of wildlife ecology, population dynamics, and management. Students in the Ecology and Conservation Biology major choose an Ecology or Conservation Biology option. Elective courses in all programs provide an opportunity to gain additional knowledge in a special area of interest or to broaden into other fields. To ensure that students gains practical experience, Fisheries Resources and Wildlife Resources students are required to complete an internship, whereas Ecology and Conservation Biology students are required to complete a senior thesis or project. For more information on the Ecology and Conservation Biology program (p. 288), see the section on "Natural Resources (p. 288)."

Our graduates find employment with numerous federal and state agencies, educational institutions, and in the private sector. These include the U.S. Fish and Wildlife Service, the Bureau of Land Management, the U.S. Forest Service, the National Marine Fisheries Service, the U.S. Army Corps of Engineers, Department of Environmental Quality, state fish and game or conservation departments, tribal agencies, and private organizations such as power companies, commercial fish growers, consulting agencies, and non-profit organizations. Recent surveys have shown that baccalaureate graduates from the department obtain employment at a rate considerably above the national average.

The graduate program is offered to meet the needs of students who are interested in either specialized or generalized advanced study. Because specific requirements for each degree are determined by the student's supervisory committee, individual study plans allow for differences in preparation while providing all students with a comparable background by the time the graduate program is completed.

In addition to the admission requirements of the College of Graduate Studies, the prospective student should have maintained a cumulative grade-point average of at least 3.00 (on a 4.00 scale) during the undergraduate program. Acceptance of students who do not have this minimum grade-point average or other stated requirements is possible, subject to recommendation by the department head and approval of the College of Graduate Studies. The Graduate Record Examination is required for admission. At least one summer's experience with a natural resource agency or research group is strongly recommended.

The graduate program in **fishery resources** is oriented toward the applied and basic aspects of fishery management, aquatic ecology, and fish

health management. The fishery management area includes a focus on fish population dynamics and analysis, management systems, and environmental stresses; the aquatic ecology area includes limnology and habitat management; and the fish health management area includes finfish culture (coldwater and warmwater), fish disease diagnostics and epidemiology, and fish physiology. The USGS Cooperative Fish and Wildlife Research Unit and the Aquaculture Research Institute also provide important opportunities for graduate studies in fishery resources and aquaculture.

Students planning to begin graduate studies in fishery resources should have a broad background in the life sciences with specific emphasis on courses in the fishery sciences. They should also have a background in quantitative data processing and professional communication, both oral and written.

Admission to the graduate program in **wildlife resources** requires an undergraduate degree with a major in wildlife resources or a closely related field emphasizing the principles of wildlife ecology, population dynamics, and management. Students with differing backgrounds are also admitted if they have substantial preparation in the biological and physical sciences. Candidates must fulfill entrance requirements of the Graduate College and of the Department of Fish and Wildlife Sciences.

Graduate work in wildlife resources offers students the opportunity to do research in one of several areas including wildlife ecology and behavior, predator ecology, population dynamics, wildlife habitat relationships, conservation biology, conservation genetics as well as management of game and nongame species. Students are encouraged to select topics that will benefit wildlife conservation and management at the state, national or international level. Graduate projects in wildlife resources may be developed in cooperation with the USGS Cooperative Fish and Wildlife Research Unit, an active participant in the department and research program of the college.

In addition to the requirements listed above, graduate admission is based on the compatibility of the student's research interests with the areas of concentration in the department and the availability of research faculty.

Our research mission is to conduct novel research that helps our partners manage fish and wildlife populations and their ecosystems in complex and continually changing biological, social, economic and political landscapes. We support economic enhancement through research and development of methods and approaches for improved and sustainable resource use. We provide natural resource professionals and the general public with current scientific information relevant to policy and management.

For additional information, please call the department at 208-885-6434 or visit the web at <http://www.uidaho.edu/cnr/departments/fish-and-wildlife-sciences>.

Majors

- Fishery Resources (B.S.Fish.Res.) (p. 300)
- Ecology and Conservation Biology (B.S.Ecol.Cons.Biol.) - See the section on "Natural Resources (p. 310)."
- Wildlife Resources (B.S.Wildl.Res.) (p. 301)

Minors

- Aquaculture Minor (p. 299)
- Fishery Resources Minor (p. 300)
- Wildlife Resources Minor (p. 302)

Certificates

- Tribal Natural Resources Stewardship Undergraduate Certificate (p. 300)

Fish and Wildlife Sciences Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Fish and Wildlife Sciences. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Fish and Wildlife Science (M.S.) (p. 299)

Aquaculture Minor

Code	Title	Hours
BIOL 250	General Microbiology	3
BIOL 255	General Microbiology Lab	2
FISH 422	Concepts in Aquaculture	4
FISH 424	Fish Health Management	4
FISH 481	Ichthyology	4
Select two courses from the following:		6
ASM 107	Beginning Welding	
AVS 305	Animal Nutrition	
ENTR 414	Entrepreneurship	
FISH 498	Internship	
MKTG 321	Marketing	
Total Hours		23

Courses to total 23 credits for this minor

Fish and Wildlife Science (M.S.) Master of Science. Major in Natural Resources.

The M.S. degree with major study in either fishery resources or wildlife resources is awarded when a student has met the requirements listed below. A formal graduate program of at least 30 semester hours is chosen in consultation with the major professor and the student's supervisory committee. At least 18 credits must be courses numbered 500 and above. For the thesis option, no more than 10 of the 500-level credits of Research and Thesis may be applied toward the degree.

1. Thesis option: General M.S. requirements apply except that the thesis requirement may be fulfilled by one or more journal publications at the discretion of the candidate's supervisory committee.
2. Non-thesis option: General M.S. requirements apply. A professional paper is required.

The Ph.D. degree is available with a major in natural resources. General Ph.D. requirements apply; see the section on "Natural Resources (p. 288)" for details.

Fishery Resources (B.S.Fish.Res.)

Students pursuing a B.S. degree in fishery resources (management or aquaculture emphasis) must have received a grade of C or better in each of the following four indicator courses to register for fish- and wildlife-prefixed upper-division courses and to graduate with a B.S.Fish.Res.: BIOL 114 and BIOL 213, STAT 251, and FOR 221.

To graduate, students must achieve a grade of C or better in FISH 481, and each fish- and wildlife-prefixed upper-division course listed in the requirements for the B.S. degree in fishery resources.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
First and Second Years		
BIOL 114	Organisms and Environments	4
BIOL 115	Cells & the Evolution of Life	3
BIOL 115L	Cells and the Evolution of Life Laboratory	1
BIOL 213	Principles of Biological Structure and Function	4
COMM 101	Fundamentals of Public Speaking	2
CHEM 275	Carbon Compounds	3
or CHEM 277	Organic Chemistry I	
ECON 202	Principles of Microeconomics	3
FISH 102	The Fish and Wildlife Professions	1
FISH 202	Fish & Wildlife Applications II	1
FOR 221	Principles of Ecology	3
FOR 235	Society and Natural Resources	3
FOR 375	Introduction to Spatial Analysis for Natural Resource Management	3
MATH 160	Survey of Calculus	4
or MATH 170	Analytic Geometry and Calculus I	
NR 101	Exploring Natural Resources	2
STAT 251	Statistical Methods	3
WLF 201	Fish and Wildlife Applications I	1
WLF 370	Management and Communication of Scientific Data	2

Select one of the following:

CHEM 101 & 101L	Introduction to Chemistry and Introduction to Chemistry Laboratory
CHEM 111 & 111L	Principles of Chemistry I and Principles of Chemistry I Laboratory

Select one of the following:
 4

GEOG 100 & 100L	Physical Geography and Physical Geography Lab
GEOL 101 & 101L	Physical Geology and Physical Geology Lab
PHYS 100 & 100L	Fundamentals of Physics and Fundamentals of Physics Lab
PHYS 111 & 111L	General Physics I and General Physics I Lab

Third and Fourth Years

BIOL 250	General Microbiology	3
BIOL 255	General Microbiology Lab	2
BIOL 310	Genetics	3
or GENE 314	General Genetics	
FISH 314	Fish Ecology	3
FISH 315	Fish Ecology Lab	1
FISH 398	Renewable Natural Resources Internship	2
or WLF 398	Renewable Natural Resources Internship	
FISH 415	Limnology	4
FISH 418	Fisheries Management	4
FISH 422	Concepts in Aquaculture	4
or FISH 424	Fish Health Management	
FISH 481	Ichthyology	4
FISH 495	Fisheries Seminar	1
NRS 383	Natural Resource and Ecosystem Service Economics	3
WLF 371	Physiological Ecology of Fish and Wildlife	3
WLF 448	Fish and Wildlife Population Ecology	4
Total Hours		88

Courses to total 120 credits for this degree

Fishery Resources Minor

Code	Title	Hours
BIOL 314	Ecology and Population Biology	3-4
or FOR 221	Principles of Ecology	
FISH 314	Fish Ecology	3
FISH 315	Fish Ecology Lab	1
FISH 495	Fisheries Seminar	1
Select three courses from the following:		11-12
FISH 415	Limnology	
FISH 418	Fisheries Management	
FISH 422	Concepts in Aquaculture	
FISH 424	Fish Health Management	
FISH 430	Riparian Ecology and Management	
FISH 481	Ichthyology	
Total Hours		19-21

Courses to total 19 credits for this minor

Tribal Natural Resources Stewardship Undergraduate Certificate

Code	Title	Hours
AIST 314	Tribal Sovereignty and Federal Policy	3
AIST 498	Internship	1-16

FOR 310	Indigenous Culture and Ecology	3
FOR 375	Introduction to Spatial Analysis for Natural Resource Management	3
or GEOG 385	GIS Primer	
REM 221	Principles of Ecology	3
REM 280	Introduction to Wildland Restoration	2

SOIL 205	The Soil Ecosystem	3
Select one of the following:		3-4
BE 433	Bioremediation	
BE 450	Environmental Hydrology	
FISH 314	Fish Ecology	
FISH 415	Limnology	
FISH 430	Riparian Ecology and Management	
FOR 326	Fire Ecology and Management	
FOR 462	Watershed Science and Management	
GEOG 424	Hydrologic Applications of GIS and Remote Sensing	
LARC 480	The Resilient Landscape	
REM 440	Wildland Restoration Ecology	
REM 459	Rangeland Ecology	
WLF 314	Ecology of Terrestrial Vertebrates	
WLF 440	Conservation Biology	
Select one of the following:		3-4
FISH 481	Ichthyology	
FOR 320	Dendrology	
PLSC 205	General Botany	
REM 252	Wildland Plant Identification	
REM 253	Wildland Plant Identification Field Studies	
REM 341	Systematic Botany	
Total Hours		25-42

Courses to total 26 credits for this certificate

Wildlife Resources (B.S.Wildl.Res.)

Students pursuing a B.S. in wildlife resources must have received a grade of C or better in each of the following four indicator courses to register in fish- and wildlife-prefixed upper-division courses and to graduate with a B.S. in wildlife resources: BIOL 114 and BIOL 213, STAT 251, and FOR 221.

To graduate, a student must receive a grade of C or better in each fish- and wildlife-prefixed upper-division course listed in the requirements for the B.S. in wildlife resources.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
First and Second Years		
BIOL 114	Organisms and Environments	4
BIOL 115	Cells & the Evolution of Life	3
BIOL 115L	Cells and the Evolution of Life Laboratory	1
BIOL 213	Principles of Biological Structure and Function	4
CHEM 101	Introduction to Chemistry	3
CHEM 101L	Introduction to Chemistry Laboratory	1
CHEM 275	Carbon Compounds	3
or CHEM 277	Organic Chemistry I	
COMM 101	Fundamentals of Public Speaking	2
ECON 202	Principles of Microeconomics	3
FISH 202	Fish & Wildlife Applications II	1
FOR 221	Principles of Ecology	3

FOR 235	Society and Natural Resources	3
MATH 160	Survey of Calculus	4
or MATH 170	Analytic Geometry and Calculus I	
NR 101	Exploring Natural Resources	2
STAT 251	Statistical Methods	3
WLF 102	The Fish and Wildlife Professions	1
WLF 201	Fish and Wildlife Applications I	1
WLF 370	Management and Communication of Scientific Data	2
Select one of the following:		3-4
FOR 320	Dendrology	
REM 341	Systematic Botany	
REM 252	Wildland Plant Identification	
& REM 253	and Wildland Plant Identification Field Studies	
Select one of the following:		4
GEOL 101	Physical Geology	
& 101L	and Physical Geology Lab	
PHYS 100	Fundamentals of Physics	
& 100L	and Fundamentals of Physics Lab	
PHYS 111	General Physics I	
& 111L	and General Physics I Lab	
SOIL 205	The Soil Ecosystem	
& SOIL 206	and The Soil Ecosystem Lab	

Third and Fourth Years

BIOL 310	Genetics	3
or GENE 314	General Genetics	
FISH 398	Renewable Natural Resources Internship	2
or WLF 398	Renewable Natural Resources Internship	
FOR 375	Introduction to Spatial Analysis for Natural Resource Management	3
NRS 383	Natural Resource and Ecosystem Service Economics	3
REM 411	Ecological Monitoring and Analysis	2
WLF 314	Ecology of Terrestrial Vertebrates	3
WLF 315	Techniques Laboratory	2
WLF 371	Physiological Ecology of Fish and Wildlife	3
WLF 440	Conservation Biology	3
WLF 448	Fish and Wildlife Population Ecology	4
WLF 492	Wildlife Management	4
Select one of the following:		2-3
COMM 410	Conflict Management	
FOR 484	Forest Policy and Administration	
NRS 250	Environmental Problem Solving	
NRS 387	Environmental Communication Skills	
NRS 462	Natural Resource Policy	
NRS 311	Public Involvement in Natural Resource Management	
WLF 205	Wildlife Law Enforcement	
Select two Restricted elective courses from the following (must receive a grade of C or better):		7-8
BIOL 483	Mammalogy	
BIOL 489	Herpetology	
FISH 481	Ichthyology	

WLF 482	Ornithology
Total Hours	92-95

Courses to total 120 credits for this degree

Wildlife Resources Minor

Code	Title	Hours
BIOL 314	Ecology and Population Biology	4
or FOR 221	Principles of Ecology	
WLF 314	Ecology of Terrestrial Vertebrates	3
WLF 315	Techniques Laboratory	2

WLF 492	Wildlife Management	
Total Hours		18-21

Courses to total 18 credits for this minor

Department of Forest, Rangeland, and Fire Sciences

The Department of Forest, Rangeland, and Fire Sciences (FRFS, www.uidaho.edu/frfs) offers four undergraduate degrees: Bachelor of Science in Forest Resources; Bachelor of Science in Fire Ecology and Management; Bachelor of Science in Rangeland Ecology and Management; and Bachelor of Science in Renewable Materials. While graduate degrees are administered through the College of Natural Resources, students can select a specialization within FRFS that would lead to either a Master of Science in Natural Resources (thesis and non-thesis options); or a Doctor of Philosophy in Natural Resources (see Forest, Rangeland, and Fire Sciences Graduate Degree Programs for more information). Students seeking an advanced degree of the professional nature should explore the Master of Natural Resources program, for which faculty in FRFS serve as mentors.

Undergraduate and graduate students in the Department of Forest, Rangeland, and Fire Sciences are provided with an opportunity to learn from globally-recognized faculty. Using a mix of teaching methods, students are exposed to both the scientific background and hands-on practice needed to become leaders in their chosen field. Extensive opportunities exist for students to develop as practitioners and scientists through partnership with our Experimental Forest, Pitkin Forest Nursery, numerous laboratories (Fire, Forest Operations, Paleoecology, Rangeland Ecology, Renewable Materials, Seedling Quality) and regional cooperative units.

Department faculty and administration strive to provide graduates with diverse opportunities for personal growth while maintaining curricula that ensure competency upon entering the workforce or continuing into advanced study. Students are provided with courses that expand critical thinking skills and understanding of concepts rather than rote learning of facts and principles. Class sizes are manager to appropriate student to faculty ratios for the subject matter to be taught effectively.

Courses emphasize the dynamic nature of forest, rangeland, and fire sciences and technologies by teaching new concepts and methods and incorporating new knowledge as it emerges. Field and lab-based study is also an integral part of all curricula. The faculty and staff of the college encourage and assist students in finding seasonal professional employment and opportunities for involvement in student clubs and professional organizations. Faculty members seek to provide research opportunities for students that advance science in the broad fields of study in which they have expertise.

Bachelor of Science in Fire Ecology and Management

The College of Natural Resources has provided over 35 years of leadership in fire education. We offer more courses focused on fire than any other natural resources school in the country. Our courses and degree programs are developed to help students understand fundamental concepts, the science behind issues, and the skills to become leaders in fire and natural resource management. Our fire research program attracts top graduate students and collaborates both with the leading fire scientists and innovative effective fire managers. Our research and outreach efforts provide useful, timely and sound science to address fire ecology and management issues across the state, region and nation.

We provide a range of educational opportunities for wildland fire managers and others interested in a career in wildland fire research with a focus on solving real world problems through an interdisciplinary approach that focuses on educating current and future fire professional leaders. The BS in Fire Ecology and Management has recently been recognized by the national Association for Fire Ecology as a leading program in the US.

A fire ecology and management academic minor, and academic certificates in fire ecology, management, and technology are also available.

Bachelor of Science in Forestry

Forestry is "managing and using for human benefit the forest lands and natural resources that occur on and in association with forest lands." These benefits may include values, services, or products such as stable human communities, aesthetics, biodiversity, recreational opportunities, clean water and air, soil protection, forage, fish and wildlife, medicinal and ornamental items, wood products, and many others. One-third of the nation's land area and 40 percent of Idaho's land area are forested. Present-day forest management requires professionals highly trained in an interdisciplinary approach that adapts to scientific developments and sociological and economic constraints while sustaining healthy forest ecosystems.

The B.S. Forestry is accredited by the Society of American Foresters, the specialized accrediting body recognized by the Commission on Recognition of Post-secondary Accreditation as the accrediting agency for forestry in the United States.

The B.S. Forestry curriculum provides students with an interdisciplinary education founded on the principles of science-based stewardship. Students are given an opportunity to strengthen their understanding of ecology, forest ecosystem processes, social sciences, remote sensing and geographic information systems, silviculture, pest management, forest operations, and other specialties by selective use of elective credits. Graduates with a professional forestry degree are employed by a wide range of federal and state forestry and natural resource

agencies; private forestland companies, such as Potlatch, Forest Capital, Weyerhaeuser; consulting companies that work with private non-industrial forest landowners and others that do environmental assessments and monitoring of forest lands; and non-governmental agencies that manage and/or are interested in forest ecosystem land management.

Specific learning outcomes associated with the B.S. Forestry include developing the ability to:

- Communicate effectively by listening actively, formulating, articulating, and explaining ideas clearly using oral and written techniques
- Demonstrate critical thinking and problem-solving skills
- Demonstrate skills in working with teams of people, including effective leadership of groups working toward a common goal
- Develop and apply scientific knowledge (i.e. ecological, social, and economic) to evaluate and justify forest management decisions
- Access, evaluate and appropriately use scientific literature, technologies, and expert advice when considering critical resource issues and management alternatives
- Forecast potential outcomes of forestry decisions in time and space, while considering risks and uncertainty
- Assess forest, site, and socioeconomic conditions across temporal and spatial scales using appropriate metrics

Bachelor of Science in Rangeland Conservation

The term RANGELAND was invented in the United States to describe the extensive, unforested lands dominating the western half of the continent. Rangelands around the world are known by many names including prairie, plains, grassland, shrubland, savanna, steppe, desert, semi-desert, sward, tundra, and alpine. These lands form about half of the earth's land surface. Idaho is 48% rangeland. Limited precipitation, generally sparse vegetation, sharp climatic extremes, highly variable soils, frequent salinity, and diverse topography characterize the kind of land called RANGELAND. Rangelands produce a wide variety of goods and services desired by society, including livestock forage, wildlife habitat, water, mineral resources, wood products, wild-land recreation, open space, and natural beauty. The geographic extent and many important resources of rangelands make their proper use and management vitally important to people everywhere.

Rangeland managers enjoy careers with a variety of private organizations and government agencies. State and federal land management agencies, such as the US Forest Service, Bureau of Land Management, and State Department of Lands, hire rangeland professionals to oversee the management of public rangelands. Wildlife management agencies also hire range managers to maintain and improve wildlife habitat. Private land owners employ range consultants and managers to oversee livestock operations, enhance hunting programs, maintain forage resources and control weeds. Biological assessment companies require the careful measurement and assessment of vegetation resources; therefore they often hire rangeland professionals. A growing number of rangeland professionals work as natural resource facilitators to bring rangeland stakeholders together to craft plans for environmental stewardship. Internships are also available. Over 85% of the graduates of the B.S. Rangeland Conservation program at the University of Idaho in the last 10 years have secured careers in natural resource management or advanced to graduate school.

Bachelor of Science in Renewable Materials

Renewable materials are those that can be replaced by biological means, such as sustainably-managed forests or residues from agricultural food crops, and offer environmental benefits as well as useful products for society. Renewable and biodegradable materials typically consume less energy in their preparation, and can be reused, recycled or composted at the end of their useful life. Wood is a primary renewable, recyclable and biodegradable material in the U.S. and the world and is used to produce over 5,000 different products for shelter, packaging, and chemicals. Renewable, bio-based energy sources reduce greenhouse gas emissions and contribute to energy self-reliance.

The B.S. Renewable Materials curriculum prepares students for a wide range of careers in the manufacture, marketing, and utilization of sustainable, renewable materials. Interdisciplinary coursework and project-based learning opportunities lead to a choice of several career tracks including procurement of timber and other renewable materials; production management, marketing and distribution of bio-based products; green building materials selection, construction and design; and bio-based energy production systems. This degree program is accredited by the Society of Wood Science and Technology. The undergraduate curriculum is structured, but still allows students to follow specific interests through course selection from restricted and unrestricted electives in the areas of architecture, business, entrepreneurship, forest operations, and agriculture.

Fire Ecology, Management and Technology Academic Certificate

This 15-credit certificate program is designed for traditional and non-traditional students who would like to receive more depth in the concepts, science and tools currently used in fire ecology and management, or for those seeking educational requirements required for federal employment. After completing this certificate program students will be able to apply sound science to solving complex issues facing fire management. Many of our students combine this certificate with other degrees.

Students who wish to complete the certificate program may register for courses online. We strongly recommend that you contact us at fire@uidaho.edu to talk to an advisor who will help you develop an individualized program of study to help meet your educational needs. Note that there is an additional fee for all online courses and for some campus-based courses and that there is no additional fee for part-time non-resident students who are taking online courses.

University of Idaho Academic Certificate Requirements: Course work must not be more than five years old unless it is being used in conjunction with the completion of a graduate degree; Up to six of the required credits may consist of course work completed at another regionally accredited institution. For more information please contact us or visit the following website: www.uidaho.edu/cnr/frfs.

Graduate Programs

Graduate programs are offered in many specialization areas across five general topic areas in which FRFS faculty are conducting research:

1. Ecology and Biogeosciences of Forest and Rangeland Ecosystems: ecosystem processes/modeling, biometrics, biogeochemistry, hydrology and ecohydrology, remote sensing and geospatial ecology, landscape ecology, community ecology, population ecology,

ecosystem ecology, disturbance ecology, paleoecology, restoration ecology, ecophysiology, global environmental change, conservation biology/genetics, and molecular plant systematic;

2. Forest Sciences and Management: forest mensuration, forest egeneration, forest ecosystem management, tree physiology, forest pathology, forest policy, forest operations, silviculture, forest ecology, and forest genetics;
3. Renewable Materials: procurement of timber and other renewable materials; production management, marketing and distribution of bio-based products; green building materials selection, construction and design; and bio-based energy production systems;
4. Fire Sciences and Management: fire effects and recovery, fire behavior, fuels management, biophysical controls of fire and fire regimes, air quality and smoke management, fire history, and fire ecology; and
5. Rangeland Sciences and Management: grazing behavior and management, invasive plant management, livestock-wildlife relations, rangeland and habitat management, rangeland riparian management, and rangeland ecology.

Admission to the graduate program is based on: evidence of ability to complete graduate-level work as discerned from undergraduate transcripts, the applicant's statement of career objectives, and letters of recommendation; the compatibility of the student's educational and career objectives with faculty expertise and departmental objectives; and availability of graduate faculty to act as major advisor for an applicant. The GRE is required. An undergraduate degree related to our programs is also recommended but an applicant may be accepted with the understanding that certain course deficiencies may be required by the student's advisory committee.

Students can transfer up to 12 approved credits taken as a non-degree seeking student into a MS or PhD program in the College of Natural Resources with permission of the departmental graduate committee. Students who are considering transferring non-degree credits into a CNR graduate program should request early advising from the appropriate department.

Further information can be obtained from the department head (208-885-7952).

Majors

- Forestry (B.S.Forestry) (p. 307)
- Fire Ecology and Management (B.S.Fire.Ecol.Mgmt.) (p. 304)
- Rangeland Conservation (B.S.Rangeland.Consv.) (p. 308)
- Renewable Materials (B.S.Renew.Mat.) (p. 309)
- Ecology and Conservation Biology (B.S.Ecol.Cons.Biol.) - For information on an undergraduate major in ecology and conservation biology, see the Natural Resources (p. 288) section.

Total Hours		18

Courses to total 18 credits for this minor

Forest, Rangeland, and Fire Science (Ph.D.)

Candidates must fulfill the requirements of the College of Graduate Studies and of the College of Natural Resources. Graduate programs are offered in many forest and rangeland specialization areas including Ecology and Biogeosciences of Forest and Rangeland Ecosystems: ecosystem processes/modeling, biometrics, biogeochemistry, hydrology and ecohydrology, remote sensing and geospatial ecology, landscape ecology, community ecology, population ecology, ecosystem ecology, disturbance ecology, paleoecology, restoration ecology, ecophysiology, global environmental change, conservation biology/genetics, and molecular plant systematic; Forest Sciences and Management: forest mensuration, forest regeneration, forest ecosystem management, tree physiology, forest pathology, forest policy, forest operations, silviculture, forest ecology, and forest genetics; Fire Sciences and Management: fire effects and recovery, fire behavior, fuels management, biophysical controls of fire and fire regimes, air quality and smoke management, fire history, and fire ecology; Rangeland Sciences and Management: grazing behavior and management, invasive plant management, livestock-wildlife relations, rangeland and habitat management, rangeland riparian management, and rangeland ecology.

Admission to the graduate program is based on: evidence of ability to complete graduate-level work as discerned from undergraduate transcripts, the applicant's statement of career objectives, and letters of recommendation; the compatibility of the student's educational and career objectives with faculty expertise and departmental objectives; and availability of graduate faculty to act as major advisor for an applicant. The GRE is required. An undergraduate degree related to our programs is also recommended but an applicant may be accepted with the understanding that certain course deficiencies may be required by the student's advisory committee.

Students can transfer up to 12 approved credits taken as a non-degree seeking student into a MS or PhD program in the College of Natural Resources with permission of the departmental graduate committee. Students who are considering transferring non-degree credits into a CNR graduate program should request early advising from the appropriate department.

Doctor of Philosophy. Major in Natural Resources.

The Ph.D. degree is available with a major in natural resources. General Ph.D. requirements apply; see the NR (p. 310) section for details.

Forest, Rangeland, and Fire Sciences (M.S.)

Candidates must fulfill the requirements of the College of Graduate Studies and of the College of Natural Resources. Graduate programs are offered in many forest and rangeland specialization areas including Ecology and Biogeosciences of Forest and Rangeland Ecosystems: ecosystem processes/modeling, biometrics, biogeochemistry, hydrology and ecohydrology, remote sensing and geospatial ecology, landscape ecology, community ecology, population ecology, ecosystem ecology, disturbance ecology, paleoecology, restoration ecology, ecophysiology, global environmental change, conservation biology/genetics, and molecular plant systematic; Forest Sciences and Management: forest mensuration, forest regeneration, forest ecosystem management, tree physiology, forest pathology, forest policy, forest operations, silviculture, forest ecology, and forest genetics; Fire Sciences and Management: fire effects and recovery, fire behavior, fuels management, biophysical controls of fire and fire regimes, air quality and smoke management, fire history, and fire ecology; Rangeland Sciences and Management: grazing behavior and management, invasive plant management, livestock-wildlife relations, rangeland and habitat management, rangeland riparian management, and rangeland ecology.

Admission to the graduate program is based on: evidence of ability to complete graduate-level work as discerned from undergraduate transcripts, the applicant's statement of career objectives, and letters of recommendation; the compatibility of the student's educational and career objectives with faculty expertise and departmental objectives; and availability of graduate faculty to act as major advisor for an applicant. The GRE is required. An undergraduate degree related to our programs is also recommended but an applicant may be accepted with the understanding that certain course deficiencies may be required by the student's advisory committee.

Students can transfer up to 12 approved credits taken as a non-degree seeking student into a MS or PhD program in the College of Natural Resources with permission of the departmental graduate committee. Students who are considering transferring non-degree credits into a CNR graduate program should request early advising from the appropriate department.

Master of Science. Major in Natural Resources.

The M.S. degree is available with a major in natural resources. Thesis and non-thesis options are offered.

1. Thesis option: General M.S. requirements apply. However, the thesis may be comprised of a manuscript(s) in a form acceptable for publication in a refereed journal, while otherwise fulfilling format requirements of the Graduate College.
2. Non-thesis option: General M.S. requirements apply. A written and/or oral examination that covers graduate course work must be taken during the final semester in residence. At least one professional

paper is required and will be evaluated by the candidate's supervisory committee.

Forestry (B.S.Forestry)

Students must have a minimum cumulative grade-point average of 2.00 in forestry (FOR) courses to qualify for the B.S. degree in forestry.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
BIOL 114	Organisms and Environments	4
ECON 202	Principles of Microeconomics	3
ENT 469	Introduction to Forest Insects	2

CHEM 111 & 111L	Principles of Chemistry I and Principles of Chemistry I Laboratory	

Advisor Approved Electives or Minor

Select 13 credits of advisor approved Electives OR one of the following minors: 13-22

Business (p. 153)

Ecology (p. 304)

Environmental Communication (p. 316)

Fire Ecology and Management (p. 305)

Fishery Resources (p. 300)

Forest Operations (p. 306)	
Horticulture (p. 125)	
Natural Resource Conservation (p. 318)	
Natural Resources Economics (p. 107)	
Renewable Materials (p. 309)	
Rangeland Ecology and Management (p. 309)	
Soil Science (p. 127)	
Wildlife Resources (p. 302)	
Total Hours	92-101

Courses to total 120 credits for this degree

¹ A SAT math score of 610 or above, or ACT math score of 27 or above can be used to satisfy the MATH 143 and MATH 144 requirements.

Rangeland Conservation (B.S.Rangeland.Consv.)

This major prepares students to conserve, restore, and manage the vast landscapes known as rangelands. These ecosystems include deserts, prairies, shrublands, and woodlands. The degree program focuses on the scientific study of rangelands and introduces principles for managing and restoring rangelands for maximum benefit and ecosystem sustainability.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

REM 440	Wildland Restoration Ecology	
Career Tracks with Advisor Input and Approval		15
Total Hours		91-94

Students must also complete 15 credits of advisors approved electives contributing to a specific career track that may include:

RESTORATION ECOLOGY - Millions of acres of rangeland and forests have been disturbed by fire, invasive plants, and overgrazing. Academic advisors in rangeland conservation have developed a set of electives for students interested in a career in wildland restoration. Completing these career track electives will fulfill requirements for the Restoration Ecology Undergraduate Academic Certificate. Careful selection of courses can also highlight expertise in botany and plant materials to qualify for professions as a botanist.

WILDLIFE HABITAT - Many species of wildlife live on rangelands and the management of wildlife habitat is an important and sought after skill. With help from their Academic Advisor, rangeland students can complete a career track that will show expertise in wildlife habitat management and fulfill the requirements for a Minor in Wildlife Resources.

LAND AND LIVESTOCK - This career track is for students interested in "hands-on" management of rangelands. Academic Advisors work with students to select courses that provide the knowledge and skills needed to manage rangelands with grazing and fire to enhance livestock production while sustaining communities of native plants and animals. Completion of these courses can also satisfy the requirements for a Minor in Animal Science or Soil Science.

WILDLAND FIRE - Wildfire is one of the major forces causing change on rangeland ecosystems. Completing a specific set of advisor approved electives, will enable students to show knowledge of land management related to wildland fire and fulfill the requirements for a Minor in Fire Ecology and Management.

INDIVIDUAL INTEREST – Students can work with their advisor to select specific courses to show expertise in a career track of specific interest that may include Watershed or Riparian Ecologist, Natural Resource GIS Specialist, Environmental Consultant, Tribal Land Manager, Resource Economist, or many other interests related to rangelands.

Courses to total 122 credits for this degree

Rangeland Ecology and Management Minor

Renewable Materials (B.S.Renew.Mat.)

The Renewable Materials degree program is designed to fill the growing demand for professionals in the manufacture, marketing, and utilization of sustainable natural materials. Interdisciplinary coursework and project-based learning opportunities lead to a variety of career directions, including procurement of timber and other renewable materials; production management, marketing and distribution of bio-based products; green building materials selection, construction and design; and bio-based energy production systems.

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours

Courses to total 16 credits for this certificate

Department of Natural Resources

With approximately 90 percent of its area in forest and range lands, together with its wealth of water resources, Idaho offers excellent opportunities for undergraduate and graduate study in all the disciplines related to management of renewable resources of wildlands. The college has its own research organization, the Forest, Wildlife and Range Experiment Station, including the Idaho Cooperative Fish and Wildlife Research Unit and the Cooperative Park Studies Unit. All faculty members have teaching responsibilities in the college as well as research responsibilities in the experiment station. Additional facilities include the Taylor Wilderness Research Station, in the Frank Church River of No Return Wilderness Area, the Experimental Forest near Moscow, the Lee A. Sharp Experimental Area near Burley, Idaho, the McCall Field Campus in central Idaho, and the USDA Rocky Mountain Research Station, Forestry Sciences Laboratory, in Moscow.

Admission for graduate study normally requires completion of course work equivalent to that required in one of the undergraduate curricula offered by the college. Students with differing backgrounds but substantial preparation in the sciences may also be admitted. The study plans developed will allow for differences in preparation while providing all students with comparable backgrounds by the time the graduate program is completed.

Majors

- Ecology and Conservation Biology (B.S.Ecol.Cons.Biol.) (p. 310)

Minors

- Natural Resources Minor (p. 315)

Natural Resources Graduate Program

Candidate must fulfill the requirements of the College of Graduate Studies and of the College of Natural Resources. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Natural Resources (M.S.) (p. 314)
- Natural Resources (M.N.R.) (p. 313)
- Natural Resources (Ph.D.) (p. 315)

Ecology and Conservation Biology (B.S.Ecol.Cons.Biol.)

Improving global environmental conditions requires researchers and other citizens who can understand ecological principles, who can analyze and interpret ecological conditions, and who can predict the consequences of alternative natural resource management decisions. Understanding the importance of social values and policy for ecology and management of rare, threatened, and endangered species and their habitat is necessary to reverse the order of their decline. In the ecology and conservation biology program, students learn to apply biological, ecological, social, and political understanding to solve problems related to long-term conservation of biological diversity and to sustainable management of ecosystems.

This degree combines the biological, ecological, and social sciences to provide

- an interdisciplinary understanding of the composition, structure, and processes of ecosystems, and
- the skills necessary to provide long-term planning for the conservation and sustainable management of populations, species, and ecosystems.

Students will examine topics from molecular to landscape scales and integrate the social and biophysical worlds. Graduates will be equipped to address the issues and problems of sustainable resource use, conservation of rare, threatened, or endangered biota, management of ecosystems, and long-term conservation of biological diversity. This program is flexible enough to adapt to the interests of individual students, while remaining firmly grounded in ecological principles applicable to species, populations, communities, landscapes, and ecosystems. It is distinctly different from the emphasis on management in the other forestry, wildlife, fisheries, range, and conservation social sciences programs, or the more general environmental science programs. Graduates of the program often continue advanced studies at national and international universities. This natural resources "liberal science" degree can also serve as pre-professional training for law school, or for professional positions in federal, state, and private environmental organizations including local and regional planning groups and consulting firms.

The program requires 120 credits, and students must choose either the natural resources ecology or conservation biology option. Students pursuing a B.S. in Ecology & Conservation Biology must receive a grade of 'C' or better in each of the following 4 indicator courses to register in upper division courses in NRS/FISH/FOR/REM/WLF and to graduate

with a B.S. in either option: BIOL 114, BIOL 213, STAT 251, FOR 221 or REM 221. Before students are allowed to begin their senior thesis or project (485 or 497), they must attend two evening thesis / project sessions and one senior poster presentation.

Required course work includes the university requirements (see regulation J-3 (p.)) and:

Code	Title	Hours
BIOL 114	Organisms and Environments	4
BIOL 115	Cells & the Evolution of Life	3
BIOL 115L	Cells and the Evolution of Life Laboratory	1

Natural Resources Ecology (p. 311)

Conservation Biology (p. 312)

Total Hours

54-72

A. Natural Resources Ecology Option

The natural resources ecology option combines ecological theory, field experience, and quantitative tools to gain an interdisciplinary understanding of the structure and function of ecosystems. This field covers ecological topics from local, regional, and landscape scales while integrating the social and biophysical worlds.

To graduate in this option, students must achieve a "C" or better in the following six core courses: NR 200, FOR 330, REM 429, SOIL 205/SOIL 206, and WLF 448.

Code	Title	Hours
FOR 330	Forest Soil and Canopy Processes	4
REM 429	Landscape Ecology	3
SOIL 205	The Soil Ecosystem	3
SOIL 206	The Soil Ecosystem Lab	1
WLF 448	Fish and Wildlife Population Ecology	4

PLSC 410	Invasive Plant Biology	
REM 440	Wildland Restoration Ecology	
REM 459	Rangeland Ecology	
REM 460	Integrating GIS and Field Studies in Rangelands	
WLF 314	Ecology of Terrestrial Vertebrates	
WLF 315	Techniques Laboratory	
WLF 440	Conservation Biology	
Select one Social/Political Restricted elective from the following:		2-3
COMM 410	Conflict Management	
FOR 484	Forest Policy and Administration	
GEOG 420	Land, Resources, and Environment	
HIST 424	American Environmental History	
NRS 387	Environmental Communication Skills	
NRS 462	Natural Resource Policy	
NRS 311	Public Involvement in Natural Resource Management	
NRS 493	International Land Preservation and Conservation Systems	
PHIL 452	Environmental Philosophy	
POLS 364	Politics of the Environment	
Total Hours		35-39

Courses to total 120 credits for this degree

¹ Both REM 410 and REM 411 must be completed to satisfy Quantitative Resource Analysis Restricted Elective requirement.

² At least 2 credits from FISH 315, FISH 415, FISH 430, REM 460, and/or WLF 315

B. Conservation Biology Option

The conservation biology option is centered around a multidisciplinary curriculum that provides students with training to work in jobs aimed at conserving the earth's biodiversity. This option provides a broad-based education that covers biological diversity from the genetic level to the landscape level, and provides additional training in social sciences and management. In the words of Hunter (1996), "Conservation biology is cross-disciplinary, reaching far beyond biology into subjects such as philosophy, economics, and sociology; disciplines that are concerned with the social environment in which we practice conservation—as well as into subjects such as law and education that determine the ways we implement conservation."

To graduate in this option, students must achieve a "C" or better in the following seven core courses: BIOL 421, NR 200, REM 429, PHIL 452, WLF 440, and WLF 448.

Code	Title	Hours
BIOL 310	Genetics	3
or GENE 314	General Genetics	
BIOL 421	Advanced Evolution/Population Dynamics	3
NRS 493	International Land Preservation and Conservation Systems	3

NRS 462	Natural Resource Policy	

NRS 311	Public Involvement in Natural Resource Management
POLS 364	Politics of the Environment
Total Hours	38-43

¹ Both REM 410 and REM 411 must be completed to satisfy Quantitative Resource Analysis Restricted Elective requirement.

² At least 2 credits from FISH 315, FISH 415, FISH 430, REM 460, and/or WLF 315

Courses to total 120 credits for this degree

Natural Resources (M.N.R.)

Master of Natural Resources. Major in Natural Resources. Integrated Natural Resources Option.

The Master of Natural Resources (MNR) is an interdisciplinary course-based graduate program designed for current and aspiring professionals who wish to enhance their educational credentials for a career in natural resources. The fundamental objective of the MNR graduate program is to integrate and scale various perspectives – ecology; planning, policy and society; and tools and technology – into a systems view of natural resources. This unique professional degree is accessible to students of diverse academic backgrounds and will help graduates develop credentials and skills for the effective management of natural resources. The degree program can be completed entirely online or through a combination of online and on-campus courses. The MNR program can be combined with the certificate program specializing in fire ecology, management, and technology.

The Integrated Natural Resources Option of MNR covers a breadth of natural resource science and management subjects. The program provides knowledge and skills to support holistic, integrated approaches to careers in natural resources. The Integrated Natural Resources Option of the MNR consists of 30 semester credits (at least 7 credits from each of three MNR program categories - Ecology and Management; Policy, Planning, and Society; and Tools and Technology - plus 7 elective courses and 2 credits for a final project). Up to 12 semester credits can be transferred into the program from other institutions. Coursework must include a minimum of 18 credits numbered 500 or above.

Admission to the College of Graduate Studies requires a minimum grade point average (GPA) of 3.0, three letters of reference, and a statement of purpose.

Complete admission and degree information is available online at: <http://www.uidaho.edu/cnr/grad-programs/online-degrees/master-of-natural-resources>.

Code	Title	Hours
Select a minimum of 7 credits from each of the four categories below:		21
<i>Ecology and Management:</i>		
BE 450	Environmental Hydrology	
FISH 515	Large River Fisheries	
FISH 525	Aquaculture in Relation to Wild Fish Populations	
FISH 540	Wetland Restoration	
FOR 526	Fire Ecology	

REM 440	Wildland Restoration Ecology
REM 456	Integrated Rangeland Management
REM 459	Rangeland Ecology
REM 507	Landscape and Habitat Dynamics ¹
REM 560	Ecophysiology
WLF 440	Conservation Biology
<i>Policy, Planning, and Society:</i>	
NRS 572	Human Dimensions of Restoration Ecology
ENVS 536	Principles of Sustainability
ENVS 552	Environmental Philosophy

Courses for this option to total 32 credits

Master of Natural Resources. Major in Natural Resources. Fire Ecology and Management Option.

The Master of Natural Resources (MNR) is an interdisciplinary course-based graduate program designed for current and aspiring professionals who wish to enhance their educational credentials for a career in natural resources. The fundamental objective of the MNR graduate program is to integrate and scale various perspectives – ecology; planning, policy and society; and tools and technology – into a systems view of natural resources. This unique professional degree is accessible to students of diverse academic backgrounds and will help graduates develop credentials and skills for the effective management of natural resources. The degree program can be completed entirely online or through a combination of online and on-campus courses. The MNR program can be combined with the certificate program specializing in fire science.

The Fire Ecology and Management Option provides depth to address wildfire management challenges facing society. Completing this option will help students advance their professional careers in wildland fire management, fuels management, and restoration by advancing knowledge of fire science, ecology, fire-related policy and social issues, and the latest tools and technology. The Option also reinforces fundamentals in applied ecology, natural resources management, communications, and other career-advancing knowledge and skills.

The Fire Ecology and Management Option of MNR consists of 30 semester credits (14 credits of Core Courses; 2-3 credits of Ecology; 4 credits of Tools and Technology; 6 credits of Policy, Planning, and Society; with 2 credits of non-thesis research for a final project). Up to 12 semester credits can be transferred into the program from other institutions. Admission to the College of Graduate Studies requires a minimum grade point average (GPA) of 3.0, three letters of reference, and a statement of purpose. Coursework must include a minimum of 18 credits numbered 500 or above.

Complete admissions and degree information is available online at: <http://www.uidaho.edu/cnr/grad-programs/online-degrees/master-of-natural-resources>.

Total Hours		30-31

Courses to total 30 credits for this degree

¹ REM 507 Landscape and Habitat Dynamics can be used for either the Ecology and Management requirement -OR- the Tools and Technology requirement (but not both).

² FOR 554 Air Quality, Pollution, and Smoke can be used to contribute to either the Policy, Planning and Society requirement -OR- the Tools and Technology requirement (but not both).

Natural Resources (M.S.)

Master of Science. Major in Natural Resources.

Thesis and non-thesis options are offered with a major in natural resources. See the respective departmental sections for details.

Natural Resources (Ph.D.)

Doctor of Philosophy. Major in Natural Resources.

General Ph.D. requirements apply. Doctoral candidates are required to have an understanding of the principles of resource management in areas other than that chosen as a specialization. There is no general college requirement of proficiency in a foreign language for the doctorate, but one may be required by an individual student's committee where this seems desirable.

There is only one major for the Ph.D. degree, "natural resources". However, dissertation topics are selected from disciplinary areas within each department. The single designation for the major is in keeping with the college's philosophy of integrated resource management.

Natural Resources Minor

Code	Title	Hours
FOR 235	Society and Natural Resources	3
FOR 221	Principles of Ecology	3
Select at least three courses from the following subjects, including at least 3 credits at the 300 level or above:		12
Fishery Resources (FISH) (p. 501)		
Forest Resources (FOR) (p. 512)		
Natural Resources (NR) (p. 612)		
Natural Resources and Society (NRS) (p. 614)		
Rangeland Ecology and Management (REM) (p. 655)		
Renewable Materials (RMAT) (p. 665)		
Wildlife Resources (WLF) (p. 689)		
Total Hours		18

Note: Not open to students pursuing a major in the College of Natural Resources.

Courses to total 18 credits for this minor

Department of Natural Resources and Society

Undergraduate programs in the Department of Natural Resources and Society involve the study of how individuals, private, non-profit and governmental institutions determine how land and natural resources are allocated and managed. The Department prepares professionals and helps build the capacity of organizations that protect and conserve the environment. The undergraduate program prepares conservation professionals who:

1. Possess core skills relating to organizational management and leadership;
2. Are aware of social science theories, approaches, and technological applications;
3. Can apply both social theory and practice to current conservation issues;
4. Can work across disciplinary and sector boundaries with diverse stakeholders;
5. Understand and apply key concepts related to the planning and management of protected areas and working landscapes; and

6. Develop and incorporate a personal land ethic into their daily actions and relationships.

Students receive a solid educational foundation by studying natural resources and their management. These experiences are coupled with courses in the human dimensions of resource use, including a strong emphasis in sociology, psychology, geospatial sciences, political science, economics, and communication.

The Natural Resource Conservation B.S. undergraduate degree has two tracks: Conservation Science, and Conservation Planning and Management. These prepare students for employment or graduate education in the social dimensions of natural resource and environmental management. Graduates are prepared for a wide spectrum of career opportunities related to the human dimensions of conservation. Careers, however, usually begin in one of three general areas: environmental communication/education; parks, protected areas, and wilderness conservation; or land management policy and planning. Graduates find employment in private businesses; county, state, and national parks and protected areas; educational institutions; environmental non-profit organizations; and a variety of resource-management agencies such as the U.S. Forest Service, Bureau of Land Management, National Park Service, and others. Some students also pursue a second degree in ecology, environmental science, forestry, wildlife and fisheries, or range management to broaden their employability. Still others select foreign language coursework to prepare for careers in international conservation.

The department also offers thesis and non-thesis graduate programs (M.S. with a major in Natural Resources), as well as a Ph.D. These are multidisciplinary and provide students with the opportunity to combine interests in natural resource management and the social and/or biophysical sciences. In cooperation with an advisory committee, each student develops a program of studies that supports his or her educational and professional interests. Graduate courses are available in this department and in supporting areas such as forest resources, landscape ecology, anthropology, geography, education, statistics, political science, sociology, and psychology. In addition, the department is the home of the award-winning McCall Outdoor Science School (MOSS) graduate program (<http://www.uidaho.edu/cnr/moss>). This innovative program is housed at the UI McCall Field Campus and prepares students to become leaders in teaching and science communication to a broad array of audiences.

Admission to graduate study normally requires completion of undergraduate course work in the natural and social sciences. Applicants who have completed their undergraduate degrees in fields not closely related may be required to make up deficiencies as determined by their advisory committees. In addition to the university's application requirements, the Graduate Record Examination (or other accepted graduate examination such as GMAT or LSAT) is required for consideration of all candidates from English-speaking countries for entry into an M.S. or Ph.D. degree track (not required of students applying to the MOSS program). Admission is based on undergraduate grades, evidence of ability to complete graduate-level work, letters of recommendation, examination scores, the compatibility of the student's educational and career objectives with areas of concentration in the department, and the availability of departmental graduate faculty.

For additional information, please consult the department head (208-885-7911) or visit the department website: www.uidaho.edu/cnr/departments/nrs.

Majors

- Natural Resource Conservation (B.S.Nat.Resc.Consv.) (p. 316)

Minors

- Environmental Communication Minor (p. 316)
- Natural Resource Conservation Minor (p. 318)
- Parks, Protected Areas, and Wilderness Conservation Minor (p. 319)

Certificates

- Remote Sensing of the Environment Undergraduate Academic Certificate (p. 319)

Natural Resources and Society Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the College of Natural Resources. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Environmental Education and Science Communication Academic Graduate Certificate (p. 316)
- Natural Resources and Society (M.S.) (p. 318)
- Natural Resources and Society (Ph.D.) (p. 319)

FOR 435	Remote Sensing of Fire	
NRS/REM 440	Wildland Restoration Ecology	
Select one of the following:		3-4
BIOL 314	Ecology and Population Biology	
FOR 326	Fire Ecology and Management	
NRS 450	Global Environmental Change	
REM 429	Landscape Ecology	
REM 340	Ethnobotany	
REM 459 & REM 460	Rangeland Ecology and Integrating GIS and Field Studies in Rangelands	
WLF 440	Conservation Biology	
Contract Courses ¹		12-18
Total Hours		63-73

Courses to total 120 credits for this degree

¹ Students must submit a contract for a minimum of 12 credits, completed through prior consultation and approval from the faculty advisor. Courses taken to fulfill major requirements above cannot be double counted for contract courses. All contract courses must be upper division (University of Idaho 3xx, 4xx, or 5xx level courses). Students may fulfill their contract requirement by completing a University approved minor, certificate, or approved study abroad experience. Students are encouraged to make choices that strengthen their expertise and demonstrate proficiency in an area of professional interest. See the University of Idaho General Catalog for a list of approved minors and certificates.
(<http://www.uidaho.edu/registrar/classes/catalogs>)

B. Conservation Science Emphasis.

To graduate a student must earn an average GPA of 2.00 or higher in all courses taught in the College of Natural Resources (p. 288) and complete an approved professional work experience in natural resources.

Code	Title	Hours
NRS 364 or NRS 462	Politics of the Environment Natural Resource Policy	3
Select one writing course:		3
ENGL 207	Persuasive Writing	
ENGL 208	Personal & Exploratory Writing	
ENGL 313	Business Writing	
ENGL 316	Environmental Writing	
ENGL 317	Technical Writing	
Select one of the following:		3-4
NRS 411	Environmental Project Management and Decision Making	

NRS 475	Conservation Planning and Management	
NRS 490	Wilderness and Protected Area Management	
Select one of the following:		4
CHEM 101 & 101L	Introduction to Chemistry and Introduction to Chemistry Laboratory	
CHEM 111 & 111L	Principles of Chemistry I and Principles of Chemistry I Laboratory	
Select one of the following:		4
BIOL 114	Organisms and Environments	
BIOL 115 & 115L	Cells & the Evolution of Life and Cells and the Evolution of Life Laboratory	
Natural Resource Science Restricted Electives		33
Select 33 credits of Natural Resource Science Restricted electives from the following (at least 15 credits must be at the 400-level):		
<i>Fishery Science</i>		
Select at least 6 credits from the following:		
FISH 314	Fish Ecology	
FISH 315	Fish Ecology Lab	
FISH 415	Limnology	
FISH 418	Fisheries Management	
FISH 422	Concepts in Aquaculture	
FISH 424	Fish Health Management	
FISH 430	Riparian Ecology and Management	
<i>Fire Ecology and Management</i>		
Select at least 2 credits from the following:		
FOR 326	Fire Ecology and Management	
FOR 433	Fire and Fuel Modeling	
FOR 450	Fire Behavior	
FOR 454	Air Quality, Pollution, and Smoke	
<i>Forestry and Renewable Materials</i>		
Select at least 9 credits from the following:		
FOR 275	Forestry Resource Sampling	
FOR 320	Dendrology	
FOR 324	Forest Regeneration	
FOR 330	Forest Soil and Canopy Processes	
FOR 424	Silviculture Principles and Practices	
FOR 430	Forest Operations

RMAT 491	Biomaterial Product and Process Development Lab	
RMAT/MKTG 495	Product Development and Brand Management	
<i>Rangeland Ecology and Management</i>		
Select at least 6 credits from the following:		
REM 341	Systematic Botany	

REM 410	Principles of Vegetation Monitoring and Measurement	
REM 411	Ecological Monitoring and Analysis	
REM 440	Wildland Restoration Ecology	
REM 452	Western Wildland Landscapes	
REM 456	Integrated Rangeland Management	
REM 459	Rangeland Ecology	
REM 460	Integrating GIS and Field Studies in Rangelands	
<i>Wildlife Science</i>		
Select at least 6 credits from the following:		
WLF 314	Ecology of Terrestrial Vertebrates	
WLF 315	Techniques Laboratory	
WLF 440	Conservation Biology	
WLF 448	Fish and Wildlife Population Ecology	
WLF 482	Ornithology	
WLF 492	Wildlife Management	
Total Hours		50-51

Courses to total 120 credits for this degree

Natural Resource Conservation Minor

Note: This minor may not be earned by students in an existing degree program in the Department of Natural Resources and Society.

Code	Title	Hours
NRS 125	Introduction to Conservation and Natural Resources	3
or NRS 235	Society and Natural Resources	
NRS 364	Politics of the Environment	3
or NRS 462	Natural Resource Policy	
Select 12 credits of electives from the following:		12
NRS 383	Natural Resource and Ecosystem Service Economics	
NRS 386	Social-Ecological Systems	
NRS 387	Environmental Communication Skills	
NRS 475	Conservation Planning and Management	
NRS 311	Public Involvement in Natural Resource Management	
Total Hours		18

Courses to total 18 credits for this minor

Natural Resources and Society (M.S.) Master of Science. Major in Natural Resources.

Thesis, non-thesis, and course-based options are offered.

1. Thesis programs are specifically research oriented and the student is required to conduct independent research and present the results as a thesis, which must be approved by the candidate's supervisory committee.
2. Non-thesis programs are concentrated more on course work. Though research may be conducted, the candidate is not required to present the results in a formal thesis. A final report, professional

paper(s), or other terminal project agreed on in advance by the advisory committee is a normal requirement under this plan. This program lends itself to projects such as recreation master plans, regional plans, area management plans, historical reviews, and the development of professional interpretive media.

3. The course-based program is designed for practitioners with a focus on coursework that will prepare professionals for leadership careers in conservation.

For both the thesis and non-thesis options, after a research or other scholarly project is selected, the student must prepare for his or her committee a formal work plan and make an oral public presentation of the proposed project. The purpose of this requirement is to:

1. help structure and sharpen the student's thinking and approach to the project,
2. obtain the views of various knowledgeable persons that may lead to constructive modifications in the work plan,
3. gain experience in making professional presentations, and
4. increase communication within the academic community.

Natural Resources and Society (Ph.D.)

Doctor of Philosophy. Major in Natural Resources.

The Ph.D. degree is available with a major in natural resources. General Ph.D. requirements apply; see the NR (p. 315) section for details.

Parks, Protected Areas, and Wilderness Conservation Minor

NRS 490	Wilderness and Protected Area Management	
NRS 493	International Land Preservation and Conservation Systems	
NRS 496	Monitoring Impacts in Protected Areas and Wilderness	
PHIL 452	Environmental Philosophy	
Total Hours		21

Courses to total 21 credits for this minor

Remote Sensing of the Environment Undergraduate Academic Certificate

Code	Title	Hours
Requirement A		
FOR 375	Introduction to Spatial Analysis for Natural Resource Management	3
or GEOG 483	Remote Sensing/GIS Integration	
Requirement B		
FOR 435	Remote Sensing of Fire	3
FOR 472	Remote Sensing of the Environment	4
Requirement C		
Select one of the following:		2-3
GEOG 424	Hydrologic Applications of GIS and Remote Sensing	
LARC 395	GIS Applications in Land Planning 1	
REM 407	GIS Application in Fire Ecology and Management	
REM 429	Landscape Ecology	
REM 460	Integrating GIS and Field Studies in Rangelands	
Total Hours		12-13

Courses to total 12 credits for this certificate

COLLEGE OF SCIENCE

Mark J. Nielsen, Associate Dean (321 Mines Bldg; 208-885-6195, www.uidaho.edu/sci; science@uidaho.edu)

The College of Science was established in 2002. The mission of the college is to provide a superior education in the sciences, to advance knowledge through research and scholarship, and to serve the university, state and nation.

Faculty and Staff

The college has some 140 faculty and staff supporting its academic and research programs. Approximately 700 undergraduate students and 215 graduate students are enrolled in programs offered by the College of Science.

Admission to the College

Students who would like to attend the College of Science should plan their high school electives carefully to ensure that they are adequately prepared to begin their study at the college level. Students should select subjects in science and mathematics that will provide a well-rounded preparation for further study. For a statement of general undergraduate and graduate admission requirements, see the admissions (p. 41) portion of the catalog.

Facilities and Equipment

The college is housed in several buildings across campus with most of the disciplines housed in their own facility. These facilities contain teaching and research laboratories, classrooms, and faculty and administrative offices. An extensive array of analytical and other scientific equipment ensures state-of-the-art hands-on training in all aspects of the sciences.

Scholarship and Loan Funds

Students interested in scholarships should refer to the "Student Financial Aid Services (p. 61)". Individual scholarships (totaling approximately half a million dollars) are awarded each year by the College of Science. In general, there is no application process for these awards – all students majoring in the college will be considered for merit-based scholarships for which they are eligible. To be considered for need-based scholarships, students must have completed the Free Application for Federal Student Aid (FAFSA (<https://fafsa.ed.gov>)). The deadline for priority consideration for scholarships is February 15. Details on specific awards can be obtained by writing to: Associate Dean, College of Science, PO Box 443025, University of Idaho, Moscow, ID 83844-3025 or by sending e-mail to science@uidaho.edu.

Departments and Programs of Instruction

The college includes the departments of Biological Sciences, Chemistry, Geography, Geological Sciences, Mathematics, Physics, and Statistics. Cooperating units from other administrative divisions include the Department of Microbiology, Molecular Biology and Biochemistry in the College of Agricultural and Life Sciences, and the Department of Psychology and Communication Studies in the College of Letters, Arts and Social Sciences. Faculty from the College of Science participate in the interdisciplinary programs of Environmental Science, Neuroscience, Bioinformatics and Computational Biology, and Bioregional Planning

and Community Design. The college also has affiliation with the Idaho Geological Survey.

Undergraduate Research Opportunities

The college prides itself in providing opportunities for undergraduate students to work with our faculty on research projects. We believe the best way to experience the excitement of science is through hands-on research, and that these opportunities characterize an education at a research-active university. Each year the College of Science offers fellowships to support undergraduate research projects and hosts a student research exposition at which graduate and undergraduate students display their work.

General College Requirements for Graduation

Each student working toward a baccalaureate degree from the college must satisfactorily complete 120 semester credits (unless a higher number is specified in the particular curriculum), including at least 36 credits in courses numbered 300 and above, the Core requirements (see regulation J-3 (p. 84)), and the departmental requirements for the degree sought. The departmental requirements applicable to the B.A. and B.S. degrees are listed in each department's section.

Undergraduate Programs

The College of Science offers bachelor's degrees in biology, chemistry, geography, geology, mathematics and physics. While there is not a bachelor's degree offered by the Department of Statistical Science, there is a statistics option to the mathematics bachelor's degree. See departmental sections for details.

Graduate programs

The College of Graduate Studies offers advanced degrees in many disciplines in the College of Science. A master's degree is available in bioinformatics and computational biology ;biology; chemistry; geography; geology; mathematics, physics; and statistics. The degree of Doctor of Philosophy is available in bioinformatics and computational biology; biology; chemistry; geography; geology; mathematics; and physics. Please see the list of programs offered for details.

Certificate Programs

Certificate programs are offered in Reproductive Biology (through the Department of Biological Sciences); Geographic Information Systems (through the Department of Geography); Process & Performance Excellence, and Statistics (both through the Department of Statistical Science).

Preparatory Programs in Medicine and Dentistry

Students interested in preparing for postgraduate education in health professions may, with proper advising and preparation, choose an undergraduate major in almost any field. Students are encouraged to select a major in an area that reflects their interests and aptitudes, and then simultaneously complete prerequisite coursework for admission to their graduate programs of choice. Comprehensive pre-health professions advising (<http://www.uidaho.edu/sci/pre-health>) and a pre-health professions studies minor (p. 344) are available to all interested students, regardless of their undergraduate major.

Teacher Education Program

Students preparing for secondary-school teaching in science can do so by completing one of the degree options in the College of Education

(see the College of Education (p. 161) section of this catalog) or also through pursuing a major within the College of Science plus additional coursework to meet certification requirements. Students interested in this second option should consult with an advisor in their chosen discipline to plan the appropriate course selections.

Major Curricula

Major Requirements. The departmental requirements are stated under the respective curricula.

Department of Biological Sciences

The Department of Biological Sciences offers B.S. degrees in Biochemistry, Biology (B.A. & B.S.), Medical Sciences, Microbiology, and Molecular Biology and Biotechnology. The core curriculum, used for every major, involves exposure to concepts fundamental to all living things at several levels of organization and emphasizes a broad cultural base and specific training in biology, chemistry, mathematics, and physics. A diverse range of upper division electives are available that support each of the majors. Courses offered by the Department of Biological Sciences are available to students majoring in other disciplines, who wish to increase their knowledge of science, or who wish to obtain an academic minor.

Well-equipped laboratories are available and students are encouraged to undertake research projects with the faculty. A wide variety of ongoing projects have produced a stimulating environment for graduate and undergraduate research. These projects include areas such as: pathophysiology of diseases that affect gastrointestinal functions; gene regulation changes in response to selection and the evolution of disordered proteins; behavioral development, play, sexual selection and female mate choice; intraflagellar transport; the diversity and distribution of prokaryotes; mechanisms behind morbidity and mortality in infants congenitally infected with human cytomegalovirus; characterizing evolutionarily permissible ecological structures in microbial ecosystems and on developing bioinformatics for very large sequence datasets; molecular cues that promote development of the nervous system; patterns of species diversification across the tree of life; prokaryote motility system; the genomic architecture of evolving populations; protein structure and function; neuromuscular biomechanics of vertebrate organisms; models of adaptive evolution and experimental evolution in viruses; regulation of the immune response to coronavirus infection in the lung; effect of environmental factors on fish reproductive biology; cellular and molecular mechanisms of vertebrate retinal development and regeneration; phylogenetic methodology and comparative phylogeography; the ecology and evolution of prokaryotic organisms; adaptive evolution and mammalian genome evolution.

For more complete information on research concentrations, please see faculty profiles on the departmental web site at www.uidaho.edu/sci/biology/.

Graduates from the department enter a variety of fields and many continue their education toward an advanced degree. Recent graduates have entered health-related professions, primary and secondary teaching, agribusiness, veterinary school, graduate school, law school, state and national agencies that deal with biology (e.g., Idaho Department of Fish and Game, Environmental Protection Agency, United States Forest Service), as well as a variety of environmental consulting agencies and biotechnology companies.

Prospective students, or students desiring more information, may write, call (208-885-6280) or email the department (biosci@uidaho.edu).

Majors

- Biochemistry (B.S.Biochem) (p. 321)
- Biology (B.A. or B.S.) (p. 322)
- Medical Sciences (B.S.) (p. 323)
- Microbiology (B.S.Microbiol.) (p. 324)
- Molecular Biology and Biotechnology (B.S.M.B.B.) (p. 325)

Minors

- Bioethics Minor (See Department of Politics and Philosophy (p. 271))
- Biology Minor (p. 323)
- Biochemistry Minor (p. 322)
- Microbiology Minor (p. 325)
- Molecular Biology and Biochemistry Minor (p. 325)

Biological Sciences Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Biological Sciences. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree and the Department of Biological Sciences Graduate Student Handbook for required courses and procedures.

- Biology (M.S.) (p. 323)
- Biology (Ph.D.) (p. 323)
- Microbiology, Molecular Biology, and Biochemistry (Ph.D.)
- Neuroscience (Ph.D.)

Biochemistry (B.S.Biochem.)

To graduate in this program, students must earn a minimum grade of "C" in BIOL 114 and BIOL 115. Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
BIOL 114	Organisms and Environments	4
BIOL 115	Cells & the Evolution of Life	3
BIOL 115L	Cells and the Evolution of Life Laboratory	1
BIOL 310	Genetics	3
BIOL 315	Genetics Lab	1
BIOL 312	Molecular and Cellular Biology	3

PHYS 211 & 211L	Engineering Physics I and Laboratory Physics I	
Select one of the following:		4
PHYS 112 & 112L	General Physics II and General Physics II Lab	

PHYS 212 & 212L	Engineering Physics II and Laboratory Physics II	
Select 14 credits of approved electives.		14
Select two courses in the humanities in addition to the minimum university-wide general education requirement of 6 credits in the humanities ¹		6
Select one course in the Social Sciences in addition to the minimum university-wide general education requirement ¹		3
Select 0-16 credits in a foreign language ²		0-16
Total Hours		87-119

¹ Courses satisfying the humanities requirement are those dealing with the arts, literature, and philosophy. Courses satisfying the social science requirement are those courses dealing with a person's social condition including social relations, institutions, history, and participation in an organized community. Refer to online degree audit system through Web registration system or your academic advisor for a listing of appropriate courses.

² Foreign Languages 0-16 credits (zero-four courses) competence in one foreign language equivalent to that gained by the completion of four semesters of college courses through the intermediate level. This requirement may be satisfied by the completion of either of the following options

- 16 credits or four high-school units in one foreign language, or
- 12 credits in one foreign language, and one three-credit course in literature translated from the same language. The 12 credits may be satisfied by three high-school units in one foreign language.

Courses to total 120 credits for this degree

Biology (M.S.)

Master of Science. Majors in Biology and Neuroscience.

The M.S. program emphasizes research including, but not limited to the departmental and multidisciplinary areas described above. Admission is based upon the compatibility of the student's research interests with the areas of concentration offered by the department and the availability of a faculty member to be the student's mentor. An incoming student arranges a formal graduate program of at least 30 semester hours in consultation with his or her major professor and graduate committee. A laboratory research based thesis is required.

Biology (Ph.D.)

Doctor of Philosophy. Majors in Biology; Microbiology, Molecular Biology, and Biochemistry (MMBB); and Neuroscience.

The Ph.D. program emphasizes research including, but not limited to the departmental and multidisciplinary area described above. Admission is based upon the compatibility of the student's research interests with the areas of concentration offered by the department, and the availability of a faculty member to be the student's mentor. A doctoral student develops a graduate program of at least 78 semester hours in consultation with his or her major professor and graduate committee. A laboratory research based thesis is required.

Biology Minor

² Either BIOL 485 or BIOL 487 may be used as an elective if not taken above as a required course.

Program in Bioinformatics and Computational Biology

The interdisciplinary program in Bioinformatics and Computational Biology is administered by the College of Science (p. 320). (<http://www.uidaho.edu/sci>)

Technological advances in the last two decades have created an avalanche of biological data, and this challenge will only grow in the immediate future. Modern tools and knowledge to analyze and interpret large, complex datasets are thus increasingly central to much of biology. They are required to improve human health, natural and agricultural resource management, and to simply understand the natural world better. Moreover, industries and agencies in the areas of health, agriculture, and conservation require workers who master these new tools and knowledge. It has become increasingly clear that success in science requires an integrative approach that unites experimental design, data collection, analysis and interpretation in a common framework. To meet this need, the University of Idaho launched the interdisciplinary Bioinformatics and Computational Biology (BCB) graduate program in 2003. This program includes faculty with expertise in the Biological Sciences, Mathematics, Statistics, and Computer science.

The University of Idaho offers M.S. and Ph.D. degrees in Bioinformatics and Computational Biology (BCB) as well as a graduate certificate in BCB. The BCB program is offered on-campus in Moscow at the University of Idaho, and is administered by the College of Science.

A degree in BCB will require coursework and practical experience in biology, mathematics, statistics, and computer science. The focus of the degree will be on learning to develop and use computational and mathematical tools to analyze biological data. BCB is a highly interdisciplinary program. It requires students and faculty to bridge these disciplines. BCB faculty members are drawn from twelve departments from the Colleges of Agricultural and Life Sciences, Engineering, Letters, Arts and Social Sciences, Natural Resources and Science. These faculty members are available to serve on BCB graduate student committees.

The M.S. and Ph.D. degrees prepare students for a lifetime of discovery. They enable the graduate to advance the state of the art, not merely to keep up with it. The graduate program develops the student's critical thinking, investigatory, and expository skills. He/she will acquire the methodological skills to resolve important open problems and tackle challenging new projects. The student will learn to present problems and solutions, both orally and in writing.

Bioinformatics and Computational Biology Graduate Program

- Bioinformatics and Computational Biology Graduate Academic Certificate (p. 329)
- Bioinformatics and Computational Biology (M.S.) (p. 327)
- Bioinformatics and Computational Biology (Ph.D.) (p. 328)

Bioinformatics and Computational Biology (M.S.)

Master of Science. Major in Bioinformatics and Computational Biology.

Admission to this program is highly competitive; meeting admission requirements is not a guarantee of admission. Students who wish to enter the master's or doctoral degree program must demonstrate mathematical maturity, skill in the use of high-level programming language and a basic knowledge of molecular biology. However, students lacking one of these may be admitted with the requirement that they make up the deficiency. At least a 3.0 undergraduate GPA if the student graduated within the last five years and a total Graduate Record Examination score of at least 1300+4 are the minimum admission requirements, though exceptions to GPA and GRE requirements may be made in exceptional circumstances. Students for whom English is a second language must have a TOEFL score of 600 (250 computer-based or 100 IBT) or higher. Applicants must provide at least three letters of reference, speaking to the applicant's aptitude for graduate research, and a statement of research interests that clearly identifies the research he or she would like to pursue and why they want to pursue it at the University of Idaho.

Both the M.S. and Ph.D. degrees require a thesis. Students will take research and thesis credits BCB 500 or research and dissertation credits BCB 600. The M.S. degree will require at least nine credits of thesis research and the Ph.D. degree will require at least thirty credits. M.S. theses for a BCB degree will demonstrate a high level of scholarly achievement, and doctoral dissertations will represent a significant, original contribution to the field. In addition to the thesis and dissertation, students will publish their work in appropriate peer-reviewed venues. Students will present their thesis and dissertations publicly at their final defense.

Each student's graduate committee will consist of at least four faculty members. This committee will represent the three BCB disciplines (biological sciences, computer sciences, and mathematical sciences) and will include at least three participating BCB faculty members. Co-advising by major professors in different disciplines will be particularly attractive for BCB degrees, and is possible at the discretion of the student and his or her committee. There is no explicit requirement for an "external" committee member, since each committee will already includes faculty from at least three different disciplines.

There will be no qualifying examination. The Ph.D. will require a preliminary examination, which will be taken no later than the end of the fifth semester. The preliminary examination will have three components. First, it will include a written thesis proposal prepared in the format of a federal research grant, and submitted to the committee at least four weeks prior to the oral examination. Second, there will be a public, oral presentation of the research proposal. Third, the committee will conduct a non-public oral examination in which committee members will ask questions about the proposed research, and about background and core coursework.

Incoming students admitted with background deficiencies will take background courses. For example, biology majors with little formal introduction to computation will take background courses in computer science. The specific required background courses will be determined

by the students' graduate committees with the approval of the program director. Note that credits from courses numbered 300 and below do not count toward the BCB degree requirements, though they may be required to fulfill deficiencies.

The core courses form a central, shared educational experience for all BCB students. These courses will enable them to share a common language, and to discuss problems from multiple disciplinary points of view. This shared experience will also give BCB students a sense of identity and community, which will encourage them to help each other overcome cultural and terminological differences that usually make such interdisciplinary interactions challenging. When possible and appropriate, core courses will include group projects using team members with backgrounds in different disciplines.

The *depth* courses provide more detailed knowledge of bioinformatics and computational biology, and provide the springboard for graduate research. The list of courses will evolve with the research interests of the BCB faculty participants, and more will be added as new faculty members join the program. See the program webpage at www.uidaho.edu/cogs/bcb for the latest information.

Other courses may be required as determined by the student's committee.

To explicitly make it easier to bridge the traditional gap between disciplines, the BCB program includes four bridging activities:

Seminars and workshops

Seminar series are available, and BCB students are required to participate. Seminars are an opportunity for students to interact with experts in a variety of fields. Workshops will provide practical experience with tools and techniques.

- **Lab rotations:** In order to expose doctoral students to the research perspectives of another discipline, we will require them to spend at least one semester in a lab outside the discipline of their major professor. The lab will be the research lab of one of the participating BCB faculty outside the discipline of the student's major professor. The student's committee will determine, in conjunction with participating faculty members, with whom the student will meet this requirement. There is no lab rotation requirement for M.S. students.
- **One Credit Supplements:** General courses in computer science, mathematics and statistics sometimes lack material specific to bioinformatics and computational biology. Participating faculty will offer one-credit supplements to current courses in order to provide this connection without duplicating courses in the current catalogue. These will be required of BCB students as determined by their graduate committees.
- **Teaching experience:** Each doctoral candidate will be required to have at least one semester of teaching experience relevant to the BCB program with the details of this requirement determined by his or her committee. This requirement may be satisfied, for example, by teaching a course, running a workshop, offering a supplement, or working as a teaching assistant.

The MS requires a minimum 30 credits and the Ph.D. requires a minimum 78 credits. The BCB program assumes the usual graduate full time load of at least 9 credits per semester. Note that the Ph.D. requires at least 18 credits of "other", supplemental, or workshop courses at the 400 level or above, since there are a total of 60 minimum required core, depth, thesis, seminar, and laboratory credits, and the student must have at least 78 credits to graduate. No more than 3 credits of workshop may apply to the

degree, and credits for courses numbered below 400 cannot apply toward the degree. (These are general UI requirements.)

M.S. Degree

Requirements	Credits
Background	As determined on admission
Core courses	9 credits
Depth courses	9 credits: 6 in one area and 3 in the other area
Seminar	2 credits
Lab rotation	None
Supplemental	As determined by thesis committee
Thesis	10 credits, minimum
Other	As determined by thesis committee
Total (min)	30 Credits

Bioinformatics and Computational Biology (Ph.D.)

Doctor of Philosophy. Major in Bioinformatics and Computational Biology.

Admission to this program is highly competitive; meeting admission requirements is not a guarantee of admission. Students who wish to enter the master's or doctoral degree program must demonstrate mathematical maturity, skill in the use of high-level programming language and a basic knowledge of molecular biology. However, students lacking one of these may be admitted with the requirement that they make up the deficiency. At least a 3.0 undergraduate GPA if the student graduated within the last five years and a total Graduate Record Examination score of at least 1300+4 are the minimum admission requirements, though exceptions to GPA and GRE requirements may be made in exceptional circumstances. Students for whom English is a second language must have a TOEFL score of 600 (250 computer-based or 100 IBT) or higher. Applicants must provide at least three letters of reference, speaking to the applicant's aptitude for graduate research, and a statement of research interests that clearly identifies the research he or she would like to pursue and why they want to pursue it at the University of Idaho.

Both the M.S. and Ph.D. degrees require a thesis. Students will take research and thesis credits (BCB 500) or research and dissertation credits (BCB 600). The M.S. degree will require at least nine credits of thesis research and the Ph.D. degree will require at least thirty credits. M.S. theses for a BCB degree will demonstrate a high level of scholarly achievement, and doctoral dissertations will represent a significant, original contribution to the field. In addition to the thesis and dissertation, students will publish their work in appropriate peer-reviewed venues. Students will present their thesis and dissertations publicly at their final defense.

Each student's graduate committee will consist of at least four faculty members. This committee will represent the three BCB disciplines (biological sciences, computer sciences, and mathematical sciences) and will include at least three participating BCB faculty members. Co-advising by major professors in different disciplines will be particularly attractive for BCB degrees, and is possible at the discretion of the student and

his or her committee. There is no explicit requirement for an "external" committee member, since each committee will already includes faculty from at least three different disciplines.

There will be no qualifying examination. The Ph.D. will require a preliminary examination, which will be taken no later than the end of the fifth semester. The preliminary examination will have three components. First, it will include a written thesis proposal prepared in the format of a federal research grant, and submitted to the committee at least four weeks prior to the oral examination. Second, there will be a public, oral presentation of the research proposal. Third, the committee will conduct a non-public oral examination in which committee members will ask questions about the proposed research, and about background and core coursework.

Incoming students admitted with background deficiencies will take background courses. For example, biology majors with little formal introduction to computation will take background courses in computer science. The specific required background courses will be determined by the students' graduate committees with the approval of the program director. The core courses form a central, shared educational experience for all BCB students. These courses will enable them to share a common language, and to discuss problems from multiple disciplinary points of view. This shared experience will also give BCB students a sense of identity and community, which will encourage them to help each other overcome cultural and terminological differences that usually make such interdisciplinary interactions challenging. When possible and appropriate, core courses will include group projects using team members with backgrounds in different disciplines.

The *depth* courses provide more detailed knowledge of bioinformatics and computational biology, and provide the springboard for graduate research. The list of courses will evolve with the research interests of the BCB faculty participants, and more will be added as new faculty members join the program. See the program webpage at www.uidaho.edu/cogs/bcb for the latest information.

Other courses may be required as determined by the student's committee.

To explicitly make it easier to bridge the traditional gap between disciplines, the BCB program includes four bridging activities:

Seminars and workshops

Seminar series are available, and BCB students are required to participate. Seminars are an opportunity for students to interact with experts in a variety of fields. Workshops will provide practical experience with tools and techniques.

- **Lab rotations:** In order to expose doctoral students to the research perspectives of another discipline, we will require them to spend at least one semester in a lab outside the discipline of their major professor. The lab will be the research lab of one of the participating BCB faculty outside the discipline of the student's major professor. The student's committee will determine, in conjunction with participating faculty members, with whom the student will meet this requirement. There is no lab rotation requirement for M.S. students.
- **One Credit Supplements:** General courses in computer science, mathematics and statistics sometimes lack material specific to bioinformatics and computational biology. Participating faculty

will offer one-credit supplements to current courses in order to provide this connection without duplicating courses in the current catalog. These will be required of BCB students as determined by their graduate committees.

- **Teaching experience:** Each doctoral candidate will be required to have at least one semester of teaching experience relevant to the BCB program with the details of this requirement determined by his or her committee. This requirement may be satisfied, for example, by teaching a course, running a workshop, offering a supplement, or working as a teaching assistant.

The MS requires a minimum 32 credits and the Ph.D. requires a minimum 78 credits. The BCB program assumes the usual graduate full time load of at least 9 credits per semester. Note that the Ph.D. requires at least 18 credits of "other", supplemental, or workshop courses at the 400 level or above, since there are a total of 60 minimum required core, depth, thesis, seminar, and laboratory credits, and the student must have at least 78 credits to graduate. No more than 3 credits of workshop may apply to the degree, and credits for courses numbered below 400 cannot apply toward the degree. (These are general UI requirements.)

Ph.D. Degree

Requirements	Credits
Background	As determined on admission
Core courses	9 credits
Depth courses	15 credits: 3 in each of the other two areas and 12 in additional depth courses
Seminar	3 credits
Lab rotation	3 credits, not in discipline of major professor
Supplemental	As determined by thesis committee
Dissertation	30 credits, minimum
Teaching requirement	3 credits
Other	As determined by committee
Total (min)	78 (see text)

Bioinformatics and Computational Biology Graduate Academic Certificate

There is a large and growing demand for graduates with training in bioinformatics and computational biology. These areas are vital to the biotechnology industry, the medical sciences, and conservation biology. This certificate will provide graduate students who are pursuing graduate degrees in other areas with recognition for taking multiple courses of the BCB curriculum, and thus building a strong foundation in bioinformatics and computational biology. For more information please email bcb@uidaho.edu or visit the BCB Program office in Life Sciences South room 441D.

Department of Chemistry

Chemistry is the central science; the foundation on which a variety of applied and nonapplied disciplines build. Chemistry deals with the composition, structure, and properties of substances and the changes they undergo. It is the study of the materials of which the entire universe is composed. Chemistry graduates will find an impressive array of options and exciting opportunities in fields such as basic research, environmental protection, instrumentation, the search for and synthesis of new therapeutic drugs, new product and process development, technical marketing, market research, forensic chemistry, teaching at all levels, and information science. Moreover, an education in chemistry is valuable in health sciences such as medicine, pharmacology, clinical chemistry, and industrial hygiene. It can be useful as well in nontechnical areas such as advertising, journalism, patent law, banking, and investment counseling. The options are bounded only by the limits of one's imagination.

There are four distinct undergraduate curricula designed to meet a wide range of professional needs. The professional option is the curriculum of choice for students who are interested in practicing chemistry as a career, including graduate study for an advanced degree in chemistry or a related field. The degree is certifiable to the American Chemical Society. The general chemistry option provides a suitable foundation for those students needing a strong background in chemistry, but not necessarily aspiring to become professional chemists, such as those in Education or Chemical Engineering. The pre-medical option has been designed to serve the needs of those students interested in careers in medicine,

pharmacy, dentistry, or other health related fields. The forensics option is a full-fledged chemistry degree that prepares students for a career in forensic science.

Students majoring in chemistry at UI have the very good fortune to interact with an award-winning, distinguished teaching faculty. They have a unique opportunity to participate in undergraduate research in a nurturing environment where they work side by side with graduate students, postdoctoral fellows, and faculty members. Very often the research carried out by undergraduates results in publications in leading chemical journals. As a result of the strong research programs in the department, undergraduates have the opportunity in their courses to have hands-on experience with, or to acquire data from, modern sophisticated instrumentation such as FT nuclear magnetic resonance spectrometers, gas chromatographs interfaced with mass spectrometers, and laser Raman, infrared and ultraviolet spectrometers, in addition to the more classical techniques. Considerable use of computers is made in laboratory courses and as an aid to instruction. Because our students receive a first-class education, they are in demand by prospective employers and graduate schools.

The Chemistry Department trains its B.S. graduates to attain a high level of familiarity with:

- basic chemical concepts and fundamental chemical processes;
- organic synthesis and characterization;
- analytical and environmental approaches and problem solving;
- inorganic, material, and nuclear chemical concepts and applications;
- physical chemical aspects of natural systems and theoretical modeling thereof.

In the course of their studies, students will acquire:

- strong lab techniques and synthetic skills;
- familiarity with the chemical literature and relevant search techniques;
- an awareness of safety issues;
- communication skills;
- problem solving skills;
- basic research skills;
- a sense of professionalism and competence.

M.S. and Ph.D. degrees are offered in chemistry with concentrations in analytical, inorganic, organic, and physical chemistry.

Entering graduate students (master's and doctoral candidates) are expected to demonstrate proficiency in chemistry by taking a series of four examinations in the areas of analytical (qualitative, quantitative, and instrumental), inorganic, organic (including qualitative organic analysis), and physical chemistry. These must be taken at the first offering after the student's arrival. These examinations are offered immediately before registration week of the fall and spring semesters. Questions are at an advanced undergraduate level.

Students who score at greater than the 50th percentile (established nationally) on a qualifying examination may begin with a 500-level course in that area in their first semester and are given credit for the relevant 400-level course (CHEM 455, CHEM 466, CHEM 476, and/or CHEM 496). Students who score below the 50th percentile on an examination will begin course work in the respective area: analytical, CHEM 454 (the lab in this course may be bypassed by petition if the student can present

evidence of adequate exposure; previous course at B level); CHEM 495; CHEM 463, CHEM 473.

All candidates for the M.S. or Ph.D. degree in chemistry are required to have teaching experience, here or elsewhere, as part of their training and will complete CHEM 506 (Introduction to Teaching and Research Skills) at their first opportunity on entering the program.

Chemistry graduate students will acquire advanced perspectives in analytical, inorganic, organic, and physical chemistry. They will gain a detailed understanding of the problems, challenges, and opportunities in their chosen subdiscipline, and an in-depth familiarity with the theoretical underpinnings and methodologies in their specific research area. Graduate students will also acquire skills in teaching, directing, and mentoring others.

Majors

- Chemistry (B.S.) (p. 330)

Minors

- Chemistry Minor (p. 332)

Graduate Programs

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Chemistry. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree.

- Chemistry (M.S.) (p. 332)
- Chemistry (Ph.D.) (p. 332)

Chemistry (B.S.)

Required course work includes the university requirements (see regulation J-3 (p. 84)) and completion of one of the following options.

A. General Option

This degree provides the basic elements needed for a career in chemistry. It is especially suited for students who wish to enter other professions that require a background in science; including high school teaching, patent law, and technology management.

Code	Title	Hours
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
CHEM 112	Principles of Chemistry II	4
CHEM 112L	Principles of Chemistry II Laboratory	1
CHEM 253	Quantitative Analysis	3
CHEM 254	Quantitative Analysis: Lab	2

Courses to total 120 credits for this degree

Chemistry (M.S.)

Master of Science. Major in Chemistry.

1. Thesis option: General M.S. requirements apply. At least one credit must be earned in CHEM 501 Seminar.
2. Non-thesis option: A minimum of 30 credits in course work is required and must be divided among the following:
 - a. 20 credits in chemistry courses numbered 500 or above (including one credit in CHEM 501 Seminar);
 - b. 10 credits in chemistry courses numbered 400 or above, or related courses numbered 300 or above. A written and/or oral examination that covers graduate course work must be taken during the final semester in residence.

Chemistry (Ph.D.)

Doctor of Philosophy. Major in Chemistry.

The student will enroll for at least 33 credit hours in courses. All students will take CHEM 509 and obtain two credits in CHEM 501. In addition, sufficient credit hours of research will be completed to meet a total minimum registration requirement of 78 credits.

The student is encouraged to take courses in related fields, e.g., mathematics, physics, chemical engineering, geochemistry, computer science, electronics, or biochemistry. This work can be designated as the minor or supporting field on the study program.

All Ph.D. candidates are required to participate in seminar (CHEM 501) while in residence, even though not formally registered for credit in this course. Registration may be for zero credit.

Cumulative examinations are general examinations in the student's field of specialization to judge the breadth of knowledge gained by the student from courses, lectures, and the literature, as well as the ability to use this knowledge in the solution of a variety of problems. Once started, a student must continue to take these examinations each time they are offered whenever the student is in residence and is eligible. If a given examination is not taken, a failing grade is received. Examinations are approximately three hours in length and are given four times each semester and, in exceptional cases, during the summer session. Normally, students will take examinations only in the chosen area of concentration, but they may elect to take them in other areas of chemistry. The student must obtain an average grade of 50% in eight examinations to continue in the Ph.D. program.

Shortly after completing the final cumulative examination, Ph.D. students are required to submit a written proposal on their doctoral research project and defend it at an oral examination by their graduate committee (CHEM 590). The proposal will be limited to a maximum of 5,000 words, excluding the bibliography, and will consist of a statement of the proposed doctoral research problem, an in-depth discussion of the relevant literature, a listing of the major research objectives, a summary of the proposed experimental work plan, and an appropriate bibliography.

Chemistry Minor

This program is designed to give a non-chemistry major a sufficient background in general chemistry and laboratory techniques to improve his or her employment prospects as a laboratory technician and to improve the technical background of the student interested in science education or communication.

Code	Title	Hours
CHEM 111	Principles of Chemistry I	3
CHEM 111L	Principles of Chemistry I Laboratory	1
CHEM 112	Principles of Chemistry II	4
CHEM 112L	Principles of Chemistry II Laboratory	1
CHEM 253	Quantitative Analysis	3
CHEM 254	Quantitative Analysis: Lab	2
CHEM 277	Organic Chemistry I	3
CHEM 278	Organic Chemistry I: Lab	1
CHEM 302	Principles of Physical Chemistry	3
CHEM 303	Principles of Physical Chemistry Lab	1

CHEM 372	Organic Chemistry II	3
Total Hours		25

Courses to total 25 credits for this minor

Department of Geography

Geography explores the distribution and interaction of natural and human systems on global, regional, and local scales. Environmental issues involving natural resources, population, political, and economic systems are the subjects of, geography, along with practical issues in planning and resource management. Selecting locations, or designing optimal development or delivery systems are geographic problems common to business and government around the world. Geographic training in geographic information systems (GIS), remote sensing, spatial analysis, and cartography, along with knowledge of patterns and processes inherent in natural and human social systems provides the background necessary to work in the expanding fields of GIS applications and scientific or applied geography.

To prepare students for many rewarding and important career opportunities, the Department of Geography, in the College of Science, offers the B.S. Geography with options in physical science and environment, global and regional studies and geographic information systems (GIS).

Recent shifts in personnel have strengthened the department's programs in GIS, climatology, remote sensing and economic geography.

The department has over 50 undergraduate and 30 graduate majors. Students benefit from close contact with their instructors and hands-on experience within their course work and through internships with industries and agencies involved in geographic and cartographic applications.

Graduate Programs

M.S. and Ph.D. degrees in geography are offered. Geography graduate programs provide training in research methods and applications of theory and spatial modeling to problems in regional development, cartography, and the physical environment. Students learn problem definition, research design, and data analysis using a variety of techniques including GIS, remote sensing, spatial analysis, and computer assisted cartography. Students without an undergraduate degree in geography are usually required to complete some undergraduate courses in the department to provide adequate background.

Certificate Program in GIS

A certificate program in geographic information systems is available in addition to our degree programs. Requirements for this program are listed in the website www.uidaho.edu/sci/geography.

Career Opportunities

Geography and GIS applications continue to be one of the fast-growing job markets world-wide. Most jobs today involve the use and adaptation of geographic information systems in both the public and private sectors. Geographers also work in industry using their skills in research, locational analysis, site selection, mapping, and management of geographical information, with the aid of computers. Industrial jobs for geographers range from research, planning, and data management in primary resources to deciding where to locate a new supermarket or shopping mall. Many jobs for geographers involve computer mapping

or GIS. Cartographers from our program are employed in a variety of positions working with map design, graphics, and production cartography, international employment with government agencies and NGOs, are increasing opportunities for geographers with the area studies and global systems option. Geographers are also employed in the public and private sector for jobs, which involve monitoring of air and water quality, management of natural resources and other environmental, and land management issues. The department arranges student internships with industries and agencies to provide on-the-job training and maintains a close relationship with the UI Career Services Center to aid students in their search for employment.

Faculty members in the department will answer questions about specific programs and courses. Prospective majors in geography or cartography should contact the department office (phone 208-885-6216), or visit the department's website, www.uidaho.edu/sci/geography.

Majors

- Geography (B.S.) (p. 334)

Certificates

- Climate Change Undergraduate Academic Certificate (p. 333)
- Geographic Information Systems Undergraduate Academic Certificate (p. 334)

Geography Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Geography for all degree programs. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree. Scores on the Graduate Record Examination (aptitude section) are required for admission to all programs. Examples of the specialty areas in which the department can provide suitable depth and mentoring for graduate study include: Geographic Information Science, spatial analysis and modeling, remote sensing, polar atmospheres, glaciology, climate change mitigation and adaptation, global environmental change, business geography, rural and regional development, transportation systems.

- Geography (M.S.) (p. 334)
- Geography (Ph.D.) (p. 334)

Climate Change Undergraduate Academic Certificate

GEOG 385	GIS Primer	3
GEOG 475	Intermediate GIS	3
Select 9 credits of electives from the following:		9
GEOG 390	Cartographic Design & Geovisualization	
GEOG 407/507	Spatial Statistics and Modeling	
GEOG 424/524	Hydrologic Applications of GIS and Remote Sensing	
GEOG 483/583	Remote Sensing/GIS Integration	
GEOG 486/586	Transportation, GIS & Planning	
GEOG 479	GIS Programming	
GEOG 587	Advanced Topics in Remote Sensing	

Note: A grade of 'C' or higher is required in all coursework for this academic certificate.

Courses to total 15 credits for this certificate

Geography (B.S.)

This program is offered through the College of Science (p. 320). Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Note: Students must earn a grade of "C" or better in all Geography courses.

Code	Title	Hours
ENGL 313 or ENGL 317	Business Writing Technical Writing	3
GEOG 100	Physical Geography	3
GEOG 100L	Physical Geography Lab	1
GEOG 165	Human Geography	3
GEOG 200	World Regional Geography	3
GEOG 313	Global Climate Change	3
GEOG 385	GIS Primer	3
GEOG 390	Cartographic Design & Geovisualization	3
GEOG 489	Capstone Preparation	1
GEOG 493	Senior Capstone in Geography	3
STAT 251	Statistical Methods	3
Select one of the following:		3-4
MATH 143	Pre-calculus Algebra and Analytic Geometry	
MATH 160	Survey of Calculus	
MATH 170	Analytic Geometry and Calculus I	
MATH 175	Analytic Geometry and Calculus II	
Select 3 credits from the following in human geography:		3
GEOG 330	Urban Geography	
GEOG 340	Business Location Decisions	
GEOG 345	Global Economic Geography	
GEOG 350	Geography of Development	
GEOG 360	Population Dynamics and Distribution	
GEOG 365	Political Geography	
GEOG 409	Rural Development	

Select 3 credits from the following in physical geography: 3

GEOG 301	Meteorology	
GEOG 401	Climatology	
GEOG 410	Biogeography	
GEOG 430	Climate Change Ecology	
Select one course from the following in human-environment interactions:		3
GEOG 411	Natural Hazards and Society	
GEOG 420	Land, Resources, and Environment	
GEOG 435	Climate Change Mitigation	
GEOG 455	Societal Resilience and Adaptation to Climate Change	
GEOG 491	Field Techniques	

Select 6 additional credits in Geography courses, for a total minimum number of 36 credits in Geography 6

Total Hours 47-48

Courses to total 120 credits for this degree

Students interested in obtaining more depth in any of the departmental focus areas (Geographic Information Science (GIS), spatial analysis, physical science and the environment, regional/global development) are encouraged to discuss with their advisor recommended courses in Geography and other departments appropriate to those depth areas.

Geography (M.S.)

Master of Science. Major in Geography.

Thesis Option

Each student's training and research plan is developed by the student and the major professor with the advisory committee's approval. Admission is based on the compatibility of the student's research interests with the areas of concentration offered by the department and the availability of a faculty member to serve as the student's mentor. A written thesis is required, but the thesis may be comprised of a manuscript in a form acceptable for publication in a refereed journal, while otherwise fulfilling the requirements of the Graduate College.

Master of Science. Major in Geography.

Non-thesis Professional Option

This program is designed for individuals who wish to place less emphasis upon research in their plan of study, but want to gain experience in applying their knowledge to a substantial project of an applied nature. Projects may be aligned with internships or other work experiences. The student's advisory committee will consist of two faculty members from the Department of Geography. Projects must be documented and presented according to guidelines in the department handbook and approved by the student's committee.

Geography (Ph.D.)

Doctor of Philosophy. Major in Geography.

All general Ph.D. requirements apply. An M.S. degree is required. Admission is by faculty approval based on evaluation of the applicant's potential to carry out original research. Each student's training and research plan is developed by the student and the major professor with the advisory committee's approval. The advisory committee

typically consists of three faculty members in the department and one faculty member from another department. Students are not allowed to register for dissertation credits (GEOG 600) until they have advanced to candidacy via successful completion of their preliminary examination. The dissertation must be of an original research nature and be in a topic spanned by the research interests and expertise of the major professor and committee members.

Department of Geological Sciences

Geology is the study of the origin and evolution of the earth, emphasizing the concepts of geologic time and plate tectonics. The applied aspects of geology include the search for hydrocarbons, ores, and water; the assessment of geologic hazards associated with earthquakes, volcanoes, and landslides; and the study of the global environment. Also included in these studies are geologic aspects of waste disposal and pollution abatement.

The bachelor's degrees offered in geology is one that emphasizes practical and field science along with theory. It is the goal of the department that our graduates not only be ready for immediate employment, but also that they have the broad education that will help them to grow professionally, be successful in graduate school, and advance through positions of greater responsibility during their careers.

The geology program provides the student with the necessary background courses in cognate sciences and mathematics plus a spectrum of courses in the sub-disciplines of geology. Specialized elective courses can be chosen to prepare for various careers such as exploration for minerals or petroleum, the search for and management of ground water, environmental geology, and earth science education.

A minor in geology is offered for students in allied fields who have an interest in geology. The minor curriculum can be tailored to meet the needs of individual students.

Research laboratories are equipped for work in applied economic geology, geochemistry, geochronology, geomechanics, geophysics, hydrogeology, mineralogy, paleontology, petrology, structural analysis, tectonics and volcanology. Laboratories are maintained for work in all of the basic courses, with large study collections of fossils, rocks, minerals, crystal models, ore suites, thin sections, polished sections, and topographic and geologic maps. Equipment used in advanced courses includes several sets of microscopes, photomicrographic apparatus, x-ray diffraction equipment, and a variety of instruments for geochemical analysis. Also available are computers, resistivity survey equipment, gravity meters, GPS receivers, seismographs, magnetometer, soil drilling and sampling kits, and water-level recorders.

The department offers Master of Science degrees in geology and hydrology. A thesis is required in the geology program, whereas a non-thesis option is available in hydrology. The Doctor of Philosophy is offered in geology.

The undergraduate preparation expected of the entering graduate candidates depends upon the degree sought. Some of our most promising graduate students have come to us with bachelor's degrees in other subjects. Deficiencies for master's candidates are determined by the major professor.

BSU-ISU Cooperative Programs

The department participates in cooperative programs with the Earth Science Departments at Boise State University and at Idaho State

University. Students interested in pursuing bachelor's degrees in geology at those institutions may take transferable preparatory courses at UI.

Majors

- Geological Sciences (B.S.) (p. 335)

Minors

- Geology Minor (p. 337)

Geological Sciences Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Geological Sciences. See the College of Graduate Studies (p. 221) section for the general requirements applicable to each degree. All graduate students in this department are expected to attend the appropriate departmental seminar each semester.

- Geology (M.S.) (p. 337)
- Geology (Ph.D.) (p. 337)

Geological Sciences (B.S.)

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Courses to total 120 credits for this degree

Geology (M.S.)

Master of Science. Major in Geology.

General M.S. requirements apply. Majors offered under the M.S. degree are geology and hydrology. Prerequisites are the equivalent of an undergraduate major in the area of specialization. A written thesis is required for which ten credits (of the minimum of 30 credits for the degree) are permitted. A non-thesis option is available under special conditions in hydrology.

Geology (Ph.D.)

Doctor of Philosophy. Major in Geology.

General Ph.D. requirements apply. Admission to the doctoral program is based on the compatibility of the student's research interests with those of the major professor, upon the availability of research support, and the student's academic record and potential. Applicants are expected to have the prerequisites as specified for the M.S. degree with a major in geology. Each research program is developed by the student and the major professor with the advisory committee's approval. Up to 45 credits are permitted in research and dissertation.

Geology Minor

Code	Title	Hours
Select one of the following sequences:		4
GEOL 101 & 101L	Physical Geology and Physical Geology Lab

GEOL 102L	Historical Geology Lab	1
Select 12 credits of electives in Geology:		12
Total Hours		20

Courses to total 20 credits for this minor

Department of Mathematics

The Department of Mathematics offers a wide variety of majors and minors. In addition to the degree programs described below, many students pursue joint majors in mathematics and other disciplines that utilize mathematics. The most popular of these are mathematics/computer science and mathematics/physics. A joint major is obtained by completing the degree requirements for both majors. Minor programs are described below under "Undergraduate Curricular Requirements."

At the graduate level, the department offers the M.S., M.A.T., and Ph.D. degrees in mathematics. Graduate training in mathematics prepares students for careers in teaching or research and development. Employment opportunities include universities, colleges, industries, and government agencies. The Ph.D. is generally required for teaching and research at the university level. The M.S. qualifies students to teach at junior colleges, some four-year colleges, and for many positions in industry. The M.A.T. prepares students for secondary teaching and for some junior college positions. A baccalaureate degree in mathematics is generally required for admission to the graduate program; however, many students of science and technology can be admitted to the program with few undergraduate deficiencies.

The need for persons with quantitative skills is increasing dramatically as the world grows more complex. Mathematicians and statisticians have employment opportunities in business, industry, government, and teaching. Training in mathematics, with its emphasis on problem solving, analysis, and critical thinking, is excellent preparation for graduate programs in engineering, science, business, or law. In fact, persons planning careers in almost any field will find their opportunities enhanced by the study of mathematics and statistics. The programs are intended to provide students just such enhancement. It is generally the case that the person who develops his or her quantitative skills has increased ability to attack many of the complex problems of society. Advances in science, technology, the social sciences, business, industry, and government become more and more dependent on precise analysis and the extraction of information from large quantities of data. Environmental problems, for example, require careful analysis by persons (or teams of persons) with skills in mathematics, statistics, and computer science as well as in biology, geology, physics, and many other fields.

The demand for teachers of mathematics is greater now than ever before. Nearly every school district in the nation has a shortage of teachers trained in mathematics. UI offers a broadly based program leading to teacher certification, through enrollment either in the Department of

Mathematics or in the College of Education and completion of a major or minor in mathematics.

Mathematics

The body of mathematical knowledge that has grown over the past 2,000 years is a magnificent human achievement, and it is growing more rapidly than ever before. The habits of systematic and creative thought developed in the study of mathematics are recognized as invaluable in most areas of human endeavor. University of Idaho's B.S. options in mathematics are designed to introduce the student to the excitement of mathematical ideas; they allow the maximum possible freedom to explore those areas of mathematics that the student finds most interesting.

The department has a sound program in mathematics with a proven record of preparing students for successful graduate study at the very best universities in the nation. There are sequences of courses in calculus, advanced calculus, linear algebra, differential equations, number theory, abstract algebra, topology, geometry, statistics, complex analysis, combinatorics, and mathematical analysis. Students of mathematics who do not go to graduate school are well prepared for industrial, governmental, or teaching jobs if they have some additional exposure to computer science, education, or one of the natural, social, or applied sciences.

Applied Mathematics

Many of the greatest achievements in mathematics were inspired by problems in the natural sciences; today mathematics has wide application in both the natural and social sciences. Applied mathematics provides a broad arena for intellectual and creative impulses of people. The applied options in the mathematics B.S. degree allows a choice of the computation, operations research, or scientific modeling, options. Each of these is discussed briefly below. Many students interested in applications of mathematics pursue a joint major in some other department.

Applied - Computation Option

The advent of computers has changed nearly every aspect of society. As computation has become both more important and more feasible, it has inspired the development of several fields of study within mathematics. The computation option of the applied mathematics degree provides training in the mathematics applicable to computer science and technology. Many students pursue this option jointly with a computer science major.

Applied - Mathematical Biology Option

Biology is undergoing an information revolution. Recent technological advances have created an avalanche of biological data and a quantification of biology that has transformed the subject. The manipulation, analysis and interpretation of large, complex datasets is now central to much of biology. Moreover, mathematical models of the dynamics of biological systems can now be put in contact with empirical work in a way that allows a true synthesis of theory and data. This option will provide the needed cross training required for success in careers in mathematical biology.

Applied - Scientific Modeling Option

The role of modeling is essential in modern interdisciplinary research involving mathematics and the sciences. This option gives students an opportunity to learn about mathematical modeling with particular emphasis on the life sciences and the physical sciences. It provides an

opportunity for students to create a very strong double major program and provides ideal preparation for future graduate training in the sciences.

Faculty members in the Department of Mathematics will be happy to answer questions about specific programs and courses. Such questions can also be addressed to the department chair (Brink 300; phone 208/885-6742).

Majors

- Mathematics (B.S.) (p. 338)

Minors

- Mathematics Minor (p. 340)

Mathematics Graduate Program

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Mathematics. See the College of Graduate Studies (p. 221) section for the general university requirements applicable to each degree.

- Mathematics (M.S.) (p. 340)
- Mathematics (M.A.T.) (p. 340)
- Mathematics (Ph.D.) (p. 340)

Mathematics (B.S.)

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
MATH 275	Analytic Geometry and Calculus III	3
MATH 330	Linear Algebra	3
Options		
Select one of the following options:		36-54
General (p. 338)		
Applied - Computation (p. 339)		
Applied - Quantitative Modeling (p. 339)		
Applied - Mathematical Biology (p. 339)		
Total Hours		50-68

A. General Option

This is the traditional curriculum in Mathematics. It is more mathematically rigorous than the other options. It is especially good for secondary education majors and students intending to go to graduate school in Mathematics or other sciences.

Code	Title	Hours
Math Courses		
MATH 176	Discrete Mathematics	3
MATH 215	Proof via Number Theory	3
MATH 310	Ordinary Differential Equations	3
MATH 461	Abstract Algebra I	3

MATH 471	Introduction to Analysis I	3
Select one of the following:		3
MATH 430	Advanced Linear Algebra	
MATH 452	Mathematical Statistics	
MATH 453	Stochastic Models	
MATH 462	Abstract Algebra II	
MATH 472	Introduction to Analysis II	
MATH 476	Combinatorics	
Select four math courses above 310		12
Supporting Courses		
STAT 301	Probability and Statistics	3
CS 112	Computational Thinking and Problem Solving	3
or CS 120	Computer Science I	
Total Hours		36

Courses to total 120 credits for this degree

B. Applied - Computation Option

The emphasis is on the mathematics related to computer science and technology. With a major or minor in computer sciences this is a good preparation for work in the computer industry.

Code	Title	Hours
Math Courses		
MATH 176	Discrete Mathematics	3

C. Applied – Quantitative Modeling Option

The emphasis is on the mathematics used to model phenomena in engineering, science, business and economics. With a second major

in one of these disciplines, this provides ideal preparation for graduate school.

Code	Title	Hours

Mathematics (M.A.T.)

Master of Arts in Teaching. Major in Mathematics.

General M.A.T. requirements apply. Under advisement of the major professor and committee, a broadly based study plan is designed taking into consideration the candidate's interests and teaching needs. The plan should include mathematics courses from several pure mathematics areas, for example, algebra, topology, analysis, geometry, and number theory. A three-hour written examination is given over the courses in the study plan. Students entering the M.A.T. program will be considered deficient if they have not completed a standard sequence in calculus (equivalent to MATH 170-MATH 175-MATH 275).

The M.A.T. degree in mathematics may also be obtained via distance learning. This distance learning program is designed to meet the needs of in-service teachers. The requirements outlined above apply, but here the study plan is designed using courses that are available by video or in summer programs on-campus or at off-campus sites.

Mathematics (M.S.)

Master of Science. Major in Mathematics.

An undergraduate major in mathematics or its equivalent is a prerequisite. There is both a thesis and a non-thesis option. Both options have the same credit requirements. Of the minimum of 30 credits required for this degree, at least 18 credits must be in mathematics at the 500 level (excluding MATH 500, MATH 599, seminars, and directed study); the remaining 12 credits may include 400 and 500 level courses in mathematics, and 300 or 400 level courses in supporting areas. Mathematics Education (MTHE) credits may not be counted. For the non-thesis option a three-hour comprehensive written examination covering 6 mathematics courses chosen by the student (with at least 5 at the 500 level) is required. For the thesis option, the student writes a thesis (which may be expository in nature) under the guidance of a thesis committee. A final examination in the form of an oral defense of the thesis is required.

Mathematics (Ph.D.)

Doctor of Philosophy. Major in Mathematics.

In addition to the general university requirements for the Ph.D., the department requires that 36 credits of graduate-level mathematics (excluding MATH 500, MATH 510, MATH 599, MATH 600, seminars, and directed study) be completed or transferred (with at least 18 credits completed at UI).

The preliminary examination must be passed no later than the end of the student's fourth year of graduate study and before the dissertation is started. The preliminary examination is composed of three parts covering the areas algebra, analysis, and one of topology, combinatorics, or differential equations. These are given all in a one-week period and are graded by a departmental committee that may recommend additional testing in one or more of the specific areas if satisfactory results are not obtained. The committee may also recommend an oral examination in certain areas by the supervisory committee.

The dissertation must be of an original research nature and be in an area spanned by the research interests of the major professor. A final examination that amounts to a defense of the dissertation is required. Acceptability of the dissertation is to be determined by the student's major professor and graduate committee.

Department of Physics

Physics is the scientific study of the nature and behavior of matter and energy. On the basis of quantitative observations, physicists develop theories to describe the observed behavior. Further experiments and observations are used to verify or refine the theories. The scientific method demands logical and mathematical rigor. The wealth of applications of physics to technology appeals to pragmatic persons, yet physics has much greater similarity to the arts and humanities than is commonly realized, because of the intellectual curiosity and creativity on which it is built.

The physics program at UI introduces students in technical and non-technical curricula alike to the scientific method and to physical laws. The B.A. and B.S. curricula in physics emphasize a broad liberal-arts education and the core subjects in physics. Many B.A. and B.S. recipients go on to graduate study in physics or related disciplines.

Training in the theory, history, and philosophy of physics is provided by the required core courses and electives in most of the major areas of specialization. Formal laboratory courses and directed

research familiarize students with experimental techniques, modern instrumentation, and computers. Equipment in the department's research laboratories includes low-temperature, strong magnetic field, high-vacuum, and vapor deposition facilities, electron and atomic beam apparatus, plasma devices, various lasers, spectrometers, optical telescopes, and nuclear radiation detectors. All offices, laboratories, and classrooms have computer network connections. The program is supported by a machine shop and a computer services shop. Collaborations with other universities and research institutes provide access to an even wider range of facilities.

The department offers graduate curricula leading to the M.S. and Ph.D. degrees. A bachelor's degree in physics is normally required as preparation for graduate study. Students with a bachelor's degree in another physical science, engineering, or mathematics will generally qualify after removal of a few upper-division-level deficiencies.

Research in the Department of Physics emphasizes the areas of condensed matter physics, nuclear physics, atomic physics, astrophysics, and biophysics. In addition, there is an interest in research on physics teaching.

The M.S. is not a prerequisite for the Ph.D., but beginning doctoral students may earn the M.S. if they wish. General departmental course requirements exist for the M.S. and Ph.D. degrees, in addition to the general requirements of the Graduate College. Other course requirements are specified in the student's study plan, developed by the student and his or her advisor and approved by the student's supervisory committee. All graduate students are encouraged to gain some teaching experience during the course of their graduate studies.

Physics Department Statement of Objectives

Undergraduate Program

Our goal is to provide students with a qualitative and quantitative understanding of the core topics in theoretical physics: classical mechanics, electricity and magnetism, modern physics, quantum mechanics, thermal physics, and mathematical methods, as well as a familiarity with the experimental techniques on which advances in physics are based. In addition, it is expected that each student will develop a more detailed knowledge of several special areas in physics such as atomic and molecular physics, nuclear and particle physics, classical optics and quantum optics, solid state physics, astronomy, relativity and computational physics.

In the process of developing specific knowledge of areas in physics, students will learn to analyze physical phenomena using basic physical principles and acquire skills in: basic logic and reasoning, mathematics and computation, problem solving, experimental technique, and oral and written communication.

Students completing the undergraduate program should be well prepared for further study at the graduate level or to apply their skills successfully in other professional settings. They will be able to communicate effectively orally and in writing either with co-workers in a team effort, or with non-scientists in public discussions of scientific issues

Graduate Program

In the graduate program we aim to deepen a student's basic knowledge and understanding of theoretical and experimental physics, as well as to guide him or her to achieving expert status in a particular area of contemporary interest to the physics community. By carrying out

a research project in collaboration with a major-professor acting as mentor, the student will develop the skills required to initiate, and carry to completion, an independent research program upon obtaining an advanced degree.

Faculty members in the department will be happy to discuss programs in detail with interested persons. Requests for information or a tour of the facilities can be made by a letter, e-mail, or telephone call (208-885-6380) to the department.

¹ At least 21 credits from upper-division courses and at least 9 credits must be 400-level

Physics (M.S.)
Master of Science. Major in Physics.
(Non-thesis Option)

General M.S. non-thesis requirements apply.
The requirement is a minimum of 30 credits in coursework and the credits must be distributed as follows:

Code	Title	Hours
Physics Courses Numbered 500 and higher ¹		20
Courses Numbered 400 and higher ²		10
Required Courses ³		
PHYS 521	Advanced Mechanics	
PHYS 533	Statistical Mechanics	
PHYS 541	Electromagnetic Theory I	
PHYS 542	Electromagnetic TheoryII	
PHYS 550	Quantum Mechanics I	
Total Hours		30

Courses to total 30 credits for this degree

¹ (including 2 cr for PHYS 501 Seminar and no more than three credits from PHYS 599 Research)

² These may be non-physics courses upon the approval of the physics department Academic Standards Committee.

³ Included in the 30 minimum credits

Students must pass a comprehensive examination, which must be taken at the first offering after the student has completed the core courses required for the M.S. degree. Full-time students may not delay the completion of their core course requirements by avoiding the taking of a core course when offered except with the prior written consent of the Academic Standards Committee and the student's major professor. The examination is written and covers all of general graduate-level physics as defined by the required courses for the M.S. degree. Typically, it will be administered on two different days, with a time limit of approximately three hours for each day. The results of the examination will be evaluated by the physics faculty. If the comprehensive examination is failed, it may be repeated only once; the repeat examination must be taken within a period of not less than three nor more than 14 months following the first attempt.

Master of Science. Major in Physics. (Thesis Option)

General M.S. requirements for a degree with thesis apply. The student must complete a total of at least 30 credits at 400 level or higher, 20 of which must be at the graduate level, including a maximum of 10 credits in research and thesis, with no more than three of these credits from PHYS 599. Specific departmental graduate course requirements are 2 credits in PHYS 501 and PHYS 521, PHYS 541, PHYS 542 and PHYS 550. If a student's undergraduate preparation is considered deficient (e.g., if it lacks laboratory experience at the upper-division level), then certain undergraduate courses will be required in the study plan. Such remedial credits are not to be counted towards the total required for the degree. No departmental comprehensive exam is required.

A final defense of the M.S. thesis is scheduled upon completion of the thesis. The candidate is required to defend his or her work and show a satisfactory knowledge of the field in which the thesis research has been performed. The defense is oral and would typically last for one hour. The exam has to be announced to the physics faculty at least one week in advance. All members of the physics faculty are permitted to attend and ask questions. A recommendation of a majority of the student's graduate committee is necessary to pass the defense. If the defense is failed, it may be repeated only once; the repeat defense must be taken within a period of not less than three months nor more than one year following the first attempt.

A typical study plan would include 40 to 50 credits of course work at the 500 level in physics and about 30 credits in research and thesis. The study plan also would include at least six units of upper-division or graduate course work outside of physics. The nature and number of these additional units will depend upon the professional goals of the individual student. In planning a program, the student should consult with the departmental Academic Standards Committee for approval of any particular choice of nonphysics course work. The Ph.D. degree in physics is primarily a recognition of ability and accomplishment in research. The purpose of the course work is to provide the factual and theoretical background for research. Successful completion of course work is not in itself considered as completion of the major requirement for the degree.

All Ph.D. graduate students are required to enroll in Seminar each semester while in residence.

No formal foreign language requirement exists for Ph.D. candidates; however, in individual cases, depending on the research topic, a reading knowledge in one foreign language may be required by the thesis advisor.

A two-Part preliminary examination is required. Part I is taken after the student has completed the courses required for the Ph.D. degree. Full-time students must take this exam no later than 2 years after entering the Ph.D. program. Students who have earned a masters degree in physics or wish to transfer credits to satisfy any of the departmental requirements (PHYS 521, PHYS 533, PHYS 541, PHYS 542, PHYS 550, PHYS 551, PHYS 571) may be required by the Academic Standards Committee to take the exam earlier. The examination is written and covers all of general graduate-level physics as defined by the required courses for a Ph.D. degree. Typically, it will be administered on two different days, with a time limit of approximately five hours for each day. The results of the examination will be evaluated by the physics faculty. If the preliminary examination, Part I, is failed, it may be repeated only once; the repeat examination must be taken within a period of not less than three months nor more than 14 months following the first attempt.

Part II of the preliminary examination is set by the major professor of the Ph.D. student for a date within the second semester after Part I has been passed. The student is required to explain the goals of his or her planned Ph.D. research to the thesis committee and show general familiarity with the fields relevant for the research. Part II is oral and would typically last for one hour. The exam is to be announced to the physics faculty at least one week in advance. All members of the physics faculty are permitted to attend and ask questions. The student's committee certifies to the Graduate College the results of the preliminary examinations. Upon passing, the student is advanced to candidacy for the Ph.D. degree. If Part II is failed, it may be repeated only once; the repeat examination must be taken within a period of not less than three months nor more than one year following the first attempt.

A final defense of the Ph.D. thesis is scheduled upon completion of the dissertation. The candidate is required to defend his or her work and show a superior knowledge of the field in which the thesis research has been performed. The defense is oral and would typically last for one hour. The exam is to be announced to the physics faculty at least one week in advance. All members of the physics faculty are permitted to attend and ask questions. A recommendation of a majority of the student's graduate committee is necessary to pass the defense. If the defense is failed, it may be repeated only once; the repeat defense must be taken within a period of not less than three months nor more than one year following the first attempt.

Physics (Ph.D.)

Doctor of Philosophy. Major in Physics.

General Ph.D. requirements apply. Correspondence concerning the student's specific goals is encouraged in the preliminary planning of the Ph.D. program.

Specific departmental course requirements are:

Code	Title	Hours
PHYS 501	Seminar	2
PHYS 521	Advanced Mechanics	3
PHYS 533	Statistical Mechanics	3

PHYS 541	Electromagnetic Theory I	3
PHYS 542	Electromagnetic TheoryII	3
PHYS 550	Quantum Mechanics I	3
PHYS 551	Quantum Mechanics II	3
PHYS 571	Mathematical Methods of Physics	3
At least nine additional semester-hours of Physics courses at the 500 level ¹		9
Total Hours		32

¹ At Least Nine Additional Semester-Hours of Physics Courses at the 500 Level. Can include at most three credits of PHYS 599 Research.

A typical study plan would include 40 to 50 credits of course work at the 500 level in physics and about 30 credits in research and thesis.

The study plan also would include at least six units of upper-division or graduate course work outside of physics. The nature and number of these additional units will depend upon the professional goals of the individual student. In planning a program, the student should consult with the departmental Academic Standards Committee for approval of any particular choice of nonphysics course work. The Ph.D. degree in physics is primarily a recognition of ability and accomplishment in research. the purpose of the course work is to provide the factual and theoretical background for research. Successful completion of course work is not in itself considered as completion of the major requirement for the degree.

All Ph.D. graduate students are required to enroll in PHYS 501 each semester while in residence.

No formal foreign language requirement exists for Ph.D. candidates; however in individual cases, depending on the research topic, a reading knowledge in one foreign language may be required by the thesis advisor.

A two-Part preliminary examination is required. Part I is taken after the student has completed the courses required for the Ph.D. degree. Full-time students must take this exam no later than 2 years after entering the Ph.D. program. Students who have earned a masters degree in physics or wish to transfer credits to satisfy any of the departmental requirements (PHYS 521, PHYS 533, PHYS 541, PHYS 542, PHYS 550 Quantum Mechanics I, PHYS 551, or MATH 571 Mathematical Methods of Physics) may be required by the Academic Standards Committee to take the exam earlier. The examination is written and covers all of general graduate-level physics as defined by the required courses for a Ph.D. degree. Typically, it will be administered on two different days, with a time limit of approximately five hours for each day. The results of the examination will be evaluated by the physics faculty. If the preliminary examination, Part I, is failed, it may be repeated only once; the repeat examination must be taken within a period of not less than three months nor more than 14 months following the first attempt.

Part II of the preliminary examination is set by the major professor of the Ph.D. student for a date within the second semester after Part I has been passed. The student is required to explain the goals of his or her planned Ph.D. research to the thesis committee and show a general familiarity with the fields relevant for the research. Part II is oral and would typically last for one hour. The exam is to be announced to the physics faculty at least one week in advance. All members of the physics faculty are permitted to attend and ask questions. The student's committee certifies to the Graduate College the results of the preliminary examinations. Upon passing, the student is advanced to candidacy for the Ph.D. degree. If Part II is failed, it may be repeated only once; the repeat examination

must be taken within a period of not less than three months nor more than one year following the first attempt.

A final defense of the Ph.D. thesis is scheduled upon completion of the dissertation. The candidate is required to defend his or her work and show a superior knowledge of the field in which the thesis research has been performed. The defense is oral and would typically last for one hour.

The exam is to be announced to the physics faculty at least one week in advance. All members of the physics faculty are permitted to attend and ask questions. A recommendation of a majority of the student's graduate committee is necessary to pass the defense. If the defense is failed, it may be repeated only once; the repeat defense must be taken within a period of not less than three months nor more than one year following the first attempt.

Pre-Health Professions Studies

The minor in Pre-Health Professions Studies is administered by the College of Science (p. 320).

Minors

- Pre-Health Professions Studies Minor (p. 344)

Pre-Health Professions Studies Minor

Most health professions schools do not require a specific degree for admission. Instead, students are encouraged to select a major in an area that reflects their interests and aptitude, and then simultaneously complete prerequisite coursework for admission to their school(s) of choice. The Pre-Health Professions minor includes coursework that most health professions schools will expect applicants to have completed prior to admission. Requirements do vary between programs; therefore, students should be certain to check specific requirements at their schools of most interest.

Department of Statistical Science

Statistics is the science of developing and implementing methods for collecting, analyzing, interpreting, and presenting empirical data. Statisticians are in demand in virtually every field to understand information, from both large and small data sets. Societal benefits accrue from the proper collection and accurate reporting of data, and being able to clearly report information to citizens and stakeholders.

Bachelor of Science Program

The Department of Statistical Science offers the B.S. degree in Statistics with a General option and an option in Actuarial Science and Finance.

General Option

The General option includes course work in designing and analyzing experiments, planning and interpreting surveys, and exploring relationships among variables. The field of Statistics is a major part of the emerging area of Data Science, and the General Option includes coursework in computing that is another major aspect of this area. This option includes flexibility to allow the student to emphasize different aspects of Statistics such as statistical theory, computing, or application to specialized fields such as the sciences, engineering, agriculture, natural resources, or business.

Actuarial Science and Finance Option

An actuary applies mathematics and statistics to forecasting problems. Actuaries are employed by financial institutions, government, insurance companies, and international corporations. They address problems as diverse as economic fluctuations, population demographics, resource consumption, medical insurance rates, and retirement needs. Actuaries are in great demand and have many interesting career opportunities

often leading to high-level management positions. Admission to the actuarial profession is governed by a series of examinations administered by the actuarial societies. The first two examinations can be taken by undergraduates and are given locally, while the remaining exams are usually taken while working in the industry. Our Actuarial Science and Finance Option, review seminars, and summer internship program with actuarial companies prepare students for these exams.

Statistics Minor

A minor in Statistics is offered for students who have an interest in the field. The minor consists of 22 credits of coursework in Statistics, Mathematics, and related fields.

Graduate Programs

The department offers the Master of Science degree in Statistics. Graduate study in statistics is designed for two types of students. Students whose undergraduate degrees are in subject matter disciplines will prepare for a career involving the application of statistical methods to their particular area of interest. Students with degrees in mathematics, computer science, or similar areas will prepare for a career in data analysis, statistical computing, teaching of introductory-level statistics, or to pursue the PhD degree.

Certificate Programs.

Graduate certificate programs are available both in Statistics and also Data Analytics. Information about these programs are listed on our website <http://www.uidaho.edu/sci/stat/academics>.

Faculty members in the Department of Statistical Science will be happy to answer questions about specific programs and courses. Such questions can also be addressed to the department chair (Brink 415A; phone 208/885-2929; email stat@uidaho.edu).

Majors

- Statistics (B.S.) (p. 346)

Minors

- Statistics Minor (p. 347)

Statistical Science Graduate Program

- Statistics Science (M.S.) (p. 346)
- Data Analytics Graduate Academic Certificate (p. 345)
- Process and Performance Excellence Graduate Academic Certificate (p. 346)
- Statistics Academic Graduate Certificate (p. 347)

Data Analytics Graduate Academic Certificate

Code	Title	Hours
Select one of the following:		
CS 472	Evolutionary Computation	3
CS 475	Machine Learning	
BCB 510	Computational Science for Biologists	
BCB 511	Applied Bioinformatics	
OM 439	Systems and Simulation	
OM 456	Quality Management	

MKTG 431	Marketing Analytics	
STAT 507	Experimental Design	
STAT 519	Multivariate Analysis	
STAT 565	Computer Intensive Statistics	
CS 479	Data Science	3
MIS 455	Data Management for Big Data	3
STAT 517	Statistical Learning and Predictive Modeling	3
Total Hours		12

Courses to total 12 credits for this certificate.

Note: at least half of the credits must be at the graduate level.

Process and Performance Excellence Graduate Academic Certificate

Code	Title	Hours
OM 439	Systems and Simulation	4
OM 456	Quality Management	3

STAT 507	Experimental Design	3
STAT 519	Multivariate Analysis	3
Total Hours		16

Courses to total 16 credits for this certificate

Statistical Science (M.S.) Master of Science. Major in Statistical Science.

Students seeking admission to the MS program in Statistical Science should have completed at least two semesters in college calculus comparable to MATH 170 and MATH 175, and two classes in applied statistics including STAT 431 or a comparable course. Familiarity with programming is expected, and familiarity with numerical or statistical computing environments is desirable. Students are not required to have an undergraduate degree in statistics.

Candidates must fulfill the requirements of the College of Graduate Studies and of the Department of Statistical Science. See the College of Graduate Studies (p. 221) section for the applicable general requirements for M.S. degree.

An individual graduate program is tailored for the student, but all students must complete a basic core requirement of 24 credits and either

1. thesis (STAT 500¹),
2. an internship report (STAT 598), or
3. a consulting option or course (6 credits of STAT 597). Credits from STAT 431 will not count toward the degree.

Code	Title	Hours
Core Requirements		
STAT 422	Sample Survey Methods	3
STAT 451	Probability Theory	3
STAT 452	Mathematical Statistics	3
STAT 501	Seminar	1

STAT 507	Experimental Design	3
STAT 519	Multivariate Analysis	3
STAT 550	Regression	3
STAT 565	Computer Intensive Statistics	3
STAT 597	Consulting Practicum	2
Total Hours		24

¹ A maximum of 6 credits of STAT 500 Master's Research and Thesis may be counted toward the thesis degree option.

Statistics (B.S.)

Required course work includes the university requirements (see regulation J-3 (p. 84)) and:

Code	Title	Hours
MATH 170	Analytic Geometry and Calculus I	4
MATH 175	Analytic Geometry and Calculus II	4
MATH 275	Analytic Geometry and Calculus III	3
MATH 330	Linear Algebra	3
Select one of the following options:		39-55
General (p. 346)		
Actuarial Science and Finance (p. 347)		
Total Hours		53-69

A. General Option

Total Hours		22

Courses to total 22 credits for this minor

CONTINUING EDUCATION

The University of Idaho offers a variety of courses for individuals to continue their education whether in Moscow or not. Continuing education courses fall into three categories:

1. conferences, courses, seminars, or workshops offered by academic departments;
2. credit and non-credit courses offered by the Engineering Outreach Program; and
3. Independent Study in Idaho courses. All are explained below.

Courses Offered by Academic Departments

Several academic departments offer conferences, courses, seminars, and workshops throughout the region where students can earn UI credit or Continuing Education Units (CEU) (see regulation D-5 for information on CEU's). These conferences, courses, seminars, or workshops are taught by UI faculty members or by qualified local instructors who are approved by the respective college in which the course is offered.

Students earning UI credit for these conferences, courses, seminars, and workshops must be admitted by the UI Admissions Office; students earning CEU's do not. In most cases, registration and payment is done at the initial class session of the conference, course, seminar, or workshop. In some cases, advance registration is necessary.

Each college and department is responsible for developing and administering these courses as well as registering students. Those interested in taking such courses should contact the respective college for courses available in their geographic area.

COOPERATIVE PROGRAMS

The university participates in a number of cooperative arrangements in the state and region to extend resources and take advantage of special facilities.

Associated Western Universities Program

The university is a member of Associated Western Universities, which is a cooperative venture of certain institutions to make use of national laboratories located in the west. Financial support is available from the U.S. Department of Energy for graduate students and faculty to spend periods of time, up to one year, pursuing research projects at a number of these laboratories.

Cooperative Programs with Other Universities

Located only eight miles apart, the University of Idaho and **Washington State University**, in order to take advantage of unique strengths of each institution, have for some time operated a cooperative graduate and undergraduate course program. Courses available on either campus are identified in departmental listings, and offerings are listed in the *Class Schedule*. In addition, the two schools cooperate in programs in medicine, veterinary medicine, and food science and technology.

In 2002, the University of Idaho, in cooperation with **Lewis Clark State College** located in Lewiston, Idaho, began offering cooperative courses in Nez Perce language. Courses available on either campus are identified in departmental listings, and offerings are listed in the *Class Schedule*.

ENGINEERING OUTREACH PROGRAM

Barry Willis, Associate Dean for Outreach, College of Engineering (875 Perimeter Dr MS 1014, Moscow ID 83844-1014; phone 208-885-6373; eo.uidaho.edu; outreach@uidaho.edu).

The Engineering Outreach (EO) program began in 1975 to meet the educational needs of Idaho's just-developing high-tech industry. EO's first courses were delivered on videotape to regional corporations and educational centers.

Today, EO delivers courses online in engineering and various academic disciplines to students worldwide each semester. In-class sessions are recorded in high definition and encoded in a high-resolution MP4 format. Sessions are viewed online by students through a secure web portal. Engineering Outreach study options include master's degrees, academic certificates, and non-degree coursework for transfer credit, background study, and professional education. Engineering Outreach also delivers a variety of undergraduate courses; however, students cannot earn an entire undergraduate degree at a distance through the program.

Master's Degree Programs

Engineering Outreach delivers courses for the master's degrees listed below. All required coursework may be completed at a distance, although most students visit the campus near the end of their program to take a comprehensive exam or defend a thesis.

- Civil Engineering (M.Engr.)
- Computer Engineering (M.S., M.Engr.)
- Computer Science (M.S.)
- Electrical Engineering (M.S., M.Engr.)
- Engineering Management (M.Engr.)
- Geological Engineering (M.S.)
- Mathematics (M.A.T.)
- Mechanical Engineering (M.Engr.)
- Statistical Science (M.S.)
- Technology Management (M.S.)

Academic Certificates

Academic certificates provide opportunities for professional advancement and build a strong foundation for future graduate study. EO course delivery is available for the following certificates:

- Analog Integrated Circuit Design
- Power System Protection and Relaying
- Process & Performance Excellence
- Secure and Dependable Computing Systems
- Statistics

Academic regulations included in this catalog are applicable to all courses delivered by EO. For more information about Engineering Outreach, see *How EO Works* (eo.uidaho.edu/how-eo-works).

GLOBAL STUDENT SUCCESS PROGRAM

Andrew Brewick, Executive Director; www.uidahoglobal.com (<http://www.uidahoglobal.com>)

Established in 2017, the University of Idaho Global Student Success Program is designed for international students who need additional academic and/or English language support to gain entry to a bachelor's or master's degree program. Students in the GSSP complete academic coursework alongside American students while accessing additional student support to help them adjust to life in the United States.

Upon successful completion of the program, undergraduate students will move directly into the second year of their undergraduate degree program and graduate students will have accumulated 12 academic credits toward their master's degree program at the University of Idaho.

Undergraduate students focus their studies in the following academic colleges:

- Agricultural and Life Sciences
- Business and Economics
- Engineering
- Letters, Arts, and Social Sciences
- Education, Health, and Human Sciences
- Art and Architecture
- Science
- Natural Resources

Graduate GSSP subject areas include:

- Accountancy
- Applied Economics
- Architecture
- Computer Science
- Engineering
- Law
- Natural Resources

Application Process

Students interested in the GSSP should apply directly to the GSSP program: www.uidahoglobal.com/apply (<http://www.uidahoglobal.com/apply>). Undergraduate applicants must have a minimum 2.0 GPA or equivalent (visit www.uidahoglobal.com/admission-requirements (<http://www.uidahoglobal.com/admission-requirements>) for country by country scales) and an IELTS score of 5.0 or higher; graduate applicants must have a minimum 2.5 GPA or equivalent and an IELTS score of 6.0 or higher. English language courses are also offered to students who require additional English language skills training before entering academic study.

Progression Requirements

Students in the Undergraduate GSSP must achieve an overall GPA of 2.0 or higher with no grade below C- and must complete a minimum of 31 credits in order to automatically progress to the second year of their undergraduate degree program. Students in the Graduate GSSP must achieve an overall GPA of 3.0 or higher, complete a minimum of 12 credits

and complete all other necessary requirements in order to progress to the next semester of their graduate degree program. Graduate GSSP students interested in Architecture must submit a full portfolio and reapply for entry into the master's degree program. Graduate GSSP students interested in the J.D. program must complete the LSAT for progression.

INDEPENDENT STUDY IN IDAHO

Sherrie Metlen, ISI Program Manager: phone 208-885-9258
ISI office: 875 Perimeter Drive MS 3081, Moscow, ID 83844-3081; phone 208-885-6641 or 877-464-3246; fax 208-885-5738; www.uidaho.edu/isi, indepst@uidaho.edu

Independent Study in Idaho (ISI) was created in 1973 by the Idaho State Board of Education as a cooperative of four accredited Idaho institutions led by the University of Idaho (UI). Other cooperating members include Lewis-Clark State College (LCSC), Idaho State University (ISU), and Boise State University (BSU). The ISI office is located in Moscow, Idaho, on the UI campus.

Each member-institution of the ISI cooperative is accredited by the Northwest Commission on Colleges and Universities (NWCCU), the region's accrediting agency. Although ISI does not offer degrees, credits earned upon course completion transfer to most colleges and universities.

ISI courses, sponsored by the cooperating institutions, are delivered online. Idaho residency is not required. A complete list of ISI courses, course syllabi and ISI policies and procedures are available on the ISI website (<http://www.uidaho.edu/academic-affairs/independent-study>).

Students take ISI courses to begin college programs early, graduate on time, resolve on-campus scheduling conflicts, satisfy prerequisites, or to pursue professional development and personal enrichment. Courses are not on a semester or quarter calendar so students can begin anytime, work from anywhere and take up to one calendar year to complete a course. Students can work at their own pace within limits set by the course instructor on the number of assignments that can be submitted per week. Plan on a minimum of three months to complete a course.

Independent Study in Idaho courses are designed for students who work well independently with limited interaction with instructors.

Mission

Provide greater access to educational opportunities that engage a cross-section of ethnic, socioeconomic, traditional, and non-traditional learners by offering flexible enrollment in quality courses with online delivery.

Focus Areas

ISI offers a greater number of courses in specific subject areas.

- Modern Languages and Cultures
- Psychology
- Library Science
- Courses for Education Professionals (K-12)

Idaho Teacher Librarian Endorsement (K-12)

The UI-sponsored library science courses are only available through ISI. Coursework leading toward competency as defined by Idaho Standards for Teacher Librarians for the Idaho Teacher Librarian (K-12) endorsement includes collection development/materials selection, literature for children or young adults; organization of information (cataloging and classification); school library administration/management; library

information technologies; information literacy; and reference and information services, and a qualifying score on the Idaho Praxis II test number 5311. Coursework for endorsement through ISI requires 21-semester credits, in addition to a three-credit practicum.

When the coursework, practicum, and the Praxis II Test 5311 are completed, and if the student is completing an endorsement for Idaho, he/she must contact the Certification Officer at Undergraduate Programs and Certification, College of Education, University of Idaho, 875 Perimeter Drive MS 3084, Moscow, ID 83844-3084 for institutional recommendation signature approval for completion of requirements.

These courses may be approved for endorsement in other states. Teachers outside the state of Idaho should check with their state's Department of Education to determine requirements and to obtain written confirmation that ISI credits are acceptable for their state's endorsement.

University of Idaho Library Science Teaching Minor

ISI's library science courses also meet the requirements for a 24 semester-hour credit teaching minor in library science from the UI. For more information on obtaining a minor, contact the UI College of Education (<https://www.uidaho.edu/ed>).

Because library science is not a teaching field, the teacher librarian must also qualify for a standard Idaho elementary or secondary teacher's certificate.

Education Professionals (K-12)

Independent Study in Idaho courses may be used toward renewing teaching credentials and for certification. Contact your state Department of Education to determine if ISI courses are applicable.

Course Delivery and Services

Online Course Delivery

ISI students receive a Registration Confirmation Email which includes the student's Vandal number and information on how to activate Vandal Accounts to access ISI courses online. ISI courses are delivered online through BbLearn (Blackboard Learn) learning management system.

VandalMail

A VandalMail email account will be assigned upon registration. All ISI students are required to activate and use their VandalMail email account for ISI course-related correspondence or set up email forwarding from VandalMail to another email.

Exams and Proctors

Most ISI courses require completion of a specific number of proctored exams which are delivered in hard copy format. Students are responsible for finding an acceptable proctor. View complete information concerning proctors and submit a Proctor Information Form (<http://www.uidaho.edu/academic-affairs/independent-study/forms>).

Disability Support Services

To request disability-related services, visit the course sponsoring institution's website. Refer to Cooperating Institutions (<http://www.uidaho.edu/academics/dee/independent-study/cooperating-institutions>).

Library Services

University of Idaho library resources are available to ISI students, including electronic journal databases and eBook collections. ISI

students who are Idaho residents and non-residents who live within a 50 mile radius of the UI may visit the library to obtain a guest card. All ISI students may contact their local library for information about borrowing materials through interlibrary loan. For more information see Library Resources (<http://www.uidaho.edu/academic-affairs/independent-study/students/library-resources>).

Registration and Fees

Registration

Students can register for ISI courses anytime without applying for admission to any of the cooperating schools. Admission to any of these institutions is not granted upon registering for an ISI course. ISI does not offer degrees; however, credits earned transfer to most colleges and universities. Most colleges and universities have transfer credit limitations. University of Idaho students working toward a degree are required to obtain written approval from their advisor to register for an ISI course and to ensure that ISI course credits are applicable toward their degree. It is recommended that students at other institutions obtain signature confirmation that ISI credits will be accepted. The University of Idaho DOES NOT calculate ISI course credits or transfer credits into the institutional GPA. Students at other universities may want to contact their registrar to find out if ISI course grades will be calculated into the GPAs.

Fees

Non-residents pay the same fee as residents. Fees include registration and online course access, but do not include textbooks and other course materials. Refer to the ISI website for current fee information (<http://www.uidaho.edu/academic-affairs/independent-study/registration-and-fees/course-fees>).

Purchasing Course Materials

A list of required course materials is provided on the VandalStore website (<http://www.vandalstore.com>) and in the syllabus for a course on the ISI website (<http://www.uidaho.edu/academic-affairs/independent-study/courses/find-a-course>).

Financial Aid

ISI does not offer financial aid. Federal and state agencies, businesses, student financial aid services, and veterans' organizations may offer financial assistance to fund ISI course fees. ISI accepts most tuition assistance payments, such as Advanced Opportunities through Idaho public high schools. Students are advised to check with their financial aid office to determine if anything is available for ISI courses. Courses taken through ISI do not count toward a student's credit hour load and cannot be used to establish full-time or part-time student status to determine eligibility for financial aid or loan deferment.

Military Benefits

The Veterans Assistance Office at the UI can help students apply for education benefits. Contact the UI Veterans Assistance office (<http://www.uidaho.edu/current-students/veterans-assistance>) before enrolling.

Drops and Refunds

To drop an ISI course, submit the Drop Course Form (<http://www.uidaho.edu/academic-affairs/independent-study/forms>). A dropped course without a final grade will not appear on your academic record or transcript.

Refund Schedule

Courses dropped within 45 days of registration may qualify for a refund. See ISI Refund Schedule (<http://www.uidaho.edu/academic-affairs/independent-study/registration-and-fees/refund-schedule>) for details.

Exchanging Courses

A course may be exchanged for another within 45 days of registration. For details see Course Exchange (<http://www.uidaho.edu/academic-affairs/independent-study/registration-and-fees/exchanging-a-course>).

Course Extensions

A one-time four-month course extension may be purchased for most courses. See Course Extensions (<http://www.uidaho.edu/academic-affairs/independent-study/registration-and-fees/course-extensions>) for details.

Grades and Transcripts

ISI does not issue transcripts. Official transcripts can be purchased from the credit-granting institution (<http://www.uidaho.edu/academic-affairs/independent-study/cooperating-institutions>). To determine the credit-granting institution, refer to your course or note the abbreviation listed in the course syllabus on the ISI website.

INTERUNIVERSITY PROGRAM IN PUBLIC ADMINISTRATION

**Brian Ellison, Chair, Department of Political Science (205 Admin Bldg;
208-885-6328)**

The University of Idaho, with Idaho State University and Boise State University, offers a cooperative graduate program leading to the M.P.A. degree to provide present and prospective public administrators with a professional education and to prepare them to understand and adjust to a changing and challenging environment. Courses in core areas and in optional areas of emphasis, such as general public administration, natural resources administration, public works administration, and public finance, management, and budgeting, may be taken at any of the participating institutions without restriction. For further information, consult the Department of Political Science and Public Affairs Research.

MEDICAL EDUCATION (WWAMI PROGRAM)

Dr. Jeff Seegmiller, Director, WWAMI (Washington, Wyoming, Alaska, Montana, Idaho) Medical Education Program (PEB 204, 83844-4207; phone 208-885-0355; e-mail: jeffreys@uidaho.edu).

WWAMI is a cooperative medical education program between the University of Washington School of Medicine and the five-state WWAMI region (Washington, Wyoming, Alaska, Montana, Idaho). WWAMI has the mission and goal of increasing the training and education of medical students in their home states or neighboring northwest states, with the intent of exposing them to the unique needs and opportunities for medical careers in the region. In Idaho, students can complete three of their four years of medical school in Idaho, at the University of Idaho for the first year, and in Boise and regional communities for the required third year clerkships and the required and elective fourth year courses. With small class sizes and individual clinical placements, Idaho WWAMI students have the opportunity to interact closely with the faculty and area physicians.

The WWAMI program allows access to medical education for Idaho residents by contract between Idaho and the UWSOM. Currently, 25 first-year students are admitted annually. The WWAMI program was developed in Idaho to train Idaho residents in medical studies, to address the need for more primary care physicians practicing in rural areas, to extend the resources and facilities of an excellent medical school into Idaho, to improve the quality of patient care, and to minimize the cost of medical education by the use of existing facilities. Eligibility for consideration as a WWAMI medical student requires certification as an Idaho resident. UI's Undergraduate Admissions Office is responsible for residency certification.

Students interested in WWAMI apply directly to UWSOM. Idaho residents take their first year of medical studies at UI. First-year courses are offered conjointly by UI and WSU in parallel with courses at UWSOM. All participating WWAMI faculty at UI and WSU hold adjunct faculty appointments at UWSOM and are eminently qualified scientists and teachers.

Many of the physicians in the Moscow-Pullman-Lewiston area are involved in the preceptorship program in which the students work a half a day each week with local physicians and observe/participate in their practice, either in the office or at the hospital.

Participants in the WWAMI program are matriculated students of the University of Washington Medical School. Upon completion of their studies, they receive the M.D. degree. Following graduation, a postgraduate (internship/residency) training period of three to five years is required for medical practice. Medical students may also be approved for graduate studies at the University of Idaho or UWSOM leading to the M.S. or Ph.D. degree. The UWSOM M.D.-Ph.D. program usually requires a minimum of six years of study.

Veterinary Medical Education (WIMU)

The University of Idaho cooperates with Washington State University in a program of veterinary medical education, research, and service. When accepted in the WI program, students from Idaho take the first three years and most of their fourth year of professional training in veterinary medicine at Washington State University. In the fourth year of the program, students also receive part of their training at the UI Caine

Veterinary Teaching Center at Caldwell, Idaho, where they can specialize in food animal production medicine. Cooperative graduate programs leading to M.S. and Ph.D. degrees are also available. Idaho students seeking to enter the professional program must complete a Washington State University Uniform Undergraduate Application Form as well as a WI Program application. Both may be obtained from and returned to the Office of Student Services, College of Veterinary Medicine, Washington State University, Pullman, Washington 99164-7012. In addition, Idaho applicants must secure certification of Idaho residency status by completing and submitting the appropriate residency certification forms available through the University of Idaho Undergraduate Admissions Office.

ROTC

- Aerospace Studies (p. 356)
- Department of Military Science (p. 357)
- Department of Naval Science (p. 357)

Aerospace Studies

The Air Force Reserve Officer Training Corps (AFROTC) offers eligible students education and training that leads to a commission as a second lieutenant in the U.S. Air Force. Air Force ROTC students may major in any degree program offered at UI; they supplement their major curricula with the specialized aerospace studies courses to prepare for active commissioned service.

Four-Year Program (General Military Course and Professional Officer Course)

A formal application is not required for students entering the four-year program. They may register for the program at the same time and in the same manner as they enroll in their other college courses. During their freshman and sophomore years, students enroll in the General Military Course (GMC), and there is NO MILITARY OBLIGATION. They then may compete for entry into the Professional Officer Course (POC), which is normally taken during the last two years of college. Selection into the POC is highly competitive and is based on qualification on an Air Force medical examination, a physical fitness test, scores achieved on the Air Force Officer Qualifying Test (AFOQT), successful completion of a paid four-week field training course at an Air Force base, and the recommendation of the professor of aerospace studies.

Air Force ROTC also offers financial assistance to selected students in the form of scholarships and subsistence allowances. The students compete for the scholarships through a national screening process. The Air Force offers 1- to 4-year scholarships that cover tuition, fees, and a book allowance, and also provide a stipend allowance (\$300-\$500 per month, depending on their level in the program) for each school year a student is on scholarship. Students interested in applying for scholarships should get in touch with this department. Nonscholarship students receive a stipend allowance (\$450-\$500 per month) while in the POC.

Air Force places a strong emphasis on physical fitness, and all ROTC cadets are required to participate at least three times a week in an organized, early morning fitness program with other cadets as part of the Leadership Laboratory requirements.

Field Training

Air Force ROTC field training is offered during the summer months at Maxwell Air Force Base, Alabama. Students in the four-year program participate in four weeks of field training, usually between their sophomore and junior years. Field Training is a mandatory program for all individuals qualified to pursue an Air Force commission through AFROTC. The program is designed to evaluate military leadership and discipline, determine potential for entry into the POC, and stratify among peers.

Leadership Laboratory

Leadership Laboratory is taken an average of two hours a week throughout the student's enrollment in Air Force ROTC. Instruction is conducted within the framework of an organized cadet wing with

a progression of experiences designed to develop each student's leadership potential. Leadership Laboratory involves a study of Air Force customs and courtesies, drill and ceremonies, career opportunities in the Air Force, and the life and work of an Air Force junior officer. Students develop their leadership potential in a practical, supervised laboratory, which typically includes field trips to Air Force installations throughout the U.S. In addition, students are required to participate at least three times a week in an organized, early morning fitness program with other cadets.

¹ At least 12 credits must be in courses numbered 300 and above.

Courses to total 20 credits for this minor

Aerospace Studies Programs

The following programs are designed to provide students with a good military and leadership foundation so students completing them can serve as effective Air Force officers. They are not designed to be academic majors and thus no bachelor's degree is offered.

For a student to receive an Air Force commission, he or she must have completed either the Four-Year Program or the Two-Year Program. Students may enter the program at points other than the two and four year points, however this requires a specialized academic program and department head approval. Contact the department head for more information. Prior-service students should consult the department to find out what course of study will be required for them.

Four-Year Program

Code	Title	Hours
AERO 101	Foundations of the U.S. Air Force	1
AERO 102	Foundations of the U.S. Air Force	1
AERO 103	Leadership Laboratory I	2
AERO 201	Evolution of U.S. Air Force Air and Space Power	1

AERO 202	Evolution of U.S. Air Force Air and Space Power	1
AERO 205	Leadership Laboratory II	2
AERO 311	Air Force Leadership and Management	3
AERO 312	Air Force Leadership and Management	3
AERO 313	Leadership Laboratory III	2
AERO 411	National Security Affairs/Preparation for Active Duty	3
AERO 412	National Security Affairs/Preparation for Active Duty	3
AERO 413	Leadership Laboratory IV	2
Total Hours		24

Department of Military Science

Military Science (Army ROTC) lecture classes are open to all students, including those not interested in pursuing a commission as an Army officer. Students who are interested in exploring a potential commission are strongly encouraged to participate in labs and the organized physical training sessions.

The primary objective of the program is to develop leadership and management skills in students. Supplementary objectives include enhancement of the student's abilities in speaking and writing, situational assessment, goal setting, and problem solving. The Department cultivates within its students a strong sense of personal integrity, self-discipline, and responsibility.

For those interested in or actually pursuing an Army commission, all levels of course work combine classroom instruction with practical exercises. The two-year basic course (100 and 200 level classes) consists of a one-credit lecture course each freshman semester and a two-credit lecture course each sophomore semester. For most students, these classes are taken simultaneously with no-credit lab courses. The curriculum covers confidence building exercises, map reading, leadership, management principles, first aid, and other life skills with broad applications beyond the military. Students in labs participate in several activities, including drill and ceremonies, rappelling and rifle marksmanship.

Other than scholarship students, no military commitment is required of students in the first two years of the program. These students survey Army opportunities and decide whether to continue in the program as advanced course students who will commission as Army officers. Students who have made a contractual commitment to seek a commission receive monthly stipends ranging from \$300 to \$500 depending on status. Scholarships from two to four years are available to some students.

The advanced course consists of three-credit lecture and no-credit lab courses normally taken each semester during the last two years of university study. The program also includes a four-week advanced camp at Fort Knox, Kentucky (normally after the junior year). Study centers on leadership styles and techniques with special emphasis placed on small unit leadership.

Army ROTC is the major source of commissioned officers for the U.S. Army. After successfully completing the program and baccalaureate degree requirements in almost any field, the student receives a commission as a second lieutenant. Active duty is not a requirement but is something for which students compete. Graduates also choose from among 26 different Army branches or specialties. Those not choosing

active duty serve with the Army Reserves or Army National Guard on a part-time basis.

Prior to commissioning, all cadets must demonstrate proficiency in communications and military history. This may be achieved through taking UI course offerings in those subject areas. See your Army ROTC class advisor for a list of approved courses.

Departmental members will answer questions about specific programs and courses. Contact the department by going to the west end of Memorial Gymnasium or by calling 208-885-6528 or 1-88-88-UIDAHO, or by e-mail at armyrotc@uidaho.edu. Further information is available on the web at www.armyrotc.uidaho.edu.

Courses to total 18 credits for this minor

- ¹ Selected in consultation with the Professor of Military Science, this course should develop the student's awareness of the relationship of the military establishment to society, particularly in the United States, and develop their interest in the evolution of war and the progression of military professionalism.

Department of Naval Science

The Navy-Marine Corps Officer Education Program is administered and taught by the Naval Science Department Staff on the University of Idaho, Moscow campus. The Program's objective is to provide instruction and training to students in preparation for being commissioned as officers in the United States Navy or Marine Corps through the Naval Reserve Officers Training Corps (NROTC). Students are designated as midshipmen and receive extensive academic, physical, and leadership training while pursuing a degree. The Program is open to men and women and offers scholarships leading to active duty commissions. Normally, students enter the program at the beginning of their freshman year; however, selected students may enter up to the beginning of their sophomore year and in very limited cases the beginning of their junior year. Students take up to 25 hours of professional development courses taught by the NROTC Unit and must participate in NS 103 Introduction to Naval Science Laboratory each semester. All Naval Science courses and the lab are conducted at the University of Idaho. Students attending Washington State University are able to participate in the Program and can register for these courses via the UI/WSU Cooperative Courses program. In addition to the required Naval Science courses, all NROTC students must complete additional academic requirements as stipulated in their contract. For Navy Option students, Service Assignment is completed during their senior year and students may be assigned to duty on nuclear

submarines, surface ships, naval aviation or special warfare. Service assignment for Marine Option students occurs following completion of The Basic School after graduation.

Scholarship Program

NROTC scholarship students’ benefits include tuition, fees, a book allowance, and a monthly stipend. Room and board are not covered by the scholarship.

Application for this Program is normally made during the spring of the junior year or early fall of the student’s senior year of high school. Initial selections for these National Four-Year Scholarships are completed by a Naval Service Training Command-sponsored board and are based on college entrance examination scores (SAT or ACT) and high school academic performance.

A student on scholarship will complete three summer training cruises of four to six weeks duration. During the first cruise, students are introduced to the submarine, amphibious warfare (Marine Week), surface warfare, and aviation communities. For Navy option students, the second and third cruises can be aboard nuclear submarines, surface ships, or with aviation units of the Pacific or Atlantic fleets and may include overseas travel. Marine Option students attend Officer Candidate School in Quantico, VA for their final summer training evolution. During summer training events, the students receive one-half of the pay of an Ensign/ Second Lieutenant, plus room and board.

Graduates of this program are commissioned as officers in the Navy or Marine Corps.

College Program

College Program students receive uniforms and Naval Science textbooks at no cost but receive no other financial benefits.

Application for this program is normally made during the spring of the student’s senior year of high school and in limited cases the end of their freshman year of college. Applications can be obtained from the Unit’s website and should be sent directly to the Naval Science Department Head of the University of Idaho. Selections are based on college entrance examination scores (SAT or ACT) and high school/university academic performance. Students can apply to either the Navy or Marine option programs.

College Program students may be nominated by the Professor of Naval Science for a three-year scholarship during their freshman year or a two-year scholarship or Advanced Standing during their sophomore year if their grades and military aptitude marks are sufficient to warrant such nomination. Students who are not selected for a scholarship or Advanced Standing by the end of their sophomore year are not allowed to continue in the Program. Students who are selected for a scholarship or Advanced Standing will conduct, at a minimum, one summer training evolution following their junior year. It is an afloat cruise (Navy Option) or attendance at Officer Candidate School (Marine Option) of the same type and with the same pay as described for the Scholarship Program. Graduates of this program are commissioned as officers in the Navy or Marine Corps.

UI Room and Board Scholarship

The University of Idaho established a \$5,000 room and board scholarship for all new incoming NROTC students selected for a 4-year national NROTC scholarship and those accepted as College Programmers. The scholarship can be renewed for up to 4 years per student, as long

as the student is an active Midshipman, a full-time degree seeking undergraduate, and living in a University of Idaho residence hall. The award can be combined with other scholarships but cannot exceed the cost of attendance established by the Financial Aid Office and may be adjusted each year if scholarships or grants exceed the established cost of attendance. Funds cannot be used for tuition or book expenses. Work closely with your Financial Aid adviser to fully understand what your scholarship covers and any adjustments that may be made to your scholarships.

Field Trips

Field trips to Navy and Marine Corps facilities are arranged periodically in order to allow the Navy-Marine Corps Officer Education Program members the opportunity to learn more about the naval service.

SUMMER SESSION

Summer Session is an integral part of the year-round instructional program at the University of Idaho. A fourteen-week summer session begins about the third week of May. The flexible summer schedule includes a session that begins the Monday following Commencement, a second session that starts in mid-June, and a late session that starts mid-July. Summer session ends the Friday prior to the start of fall semester. The summer schedule of classes is designed to provide students with the opportunity to complete their academic programs in a timely manner. Special and innovative programs are offered to meet the needs of in-service professionals and other clientele throughout the state and nation.

Academic regulations included in this catalog are applicable during the summer session. For more information, call 208-885-4074 or visit the web, www.uidaho.edu/summer.

UNIVERSITY HONORS PROGRAM

Sandra Reineke, Director (315 Idaho Commons; phone 208-885-0154; www.uidaho.edu/honors); Kendra Buell, Administrative Coordinator.

Established in 1983, the University Honors Program (UHP) fosters academic excellence in undergraduate education by offering a stimulating course of study and the advantages of an enriched learning community for students from all colleges and majors.

The program's diverse curriculum serves a variety of student needs and interests. Through honors core courses in general education and innovative seminars, honors faculty work to enhance each student's knowledge, initiative, and creativity. Most honors classes are small, so that honors students benefit from close intellectual contact and discussion with their instructors and fellow students. As part of a dynamic, broad-based education, members are encouraged to participate in domestic or international exchange programs; appropriate credit is determined within the honors curriculum for academic work completed while on exchange so that students may apply three or four credits per semester (maximum of seven credits total over two semesters) toward the Honors Certificate requirements. Students also are encouraged to take advantage of opportunities to engage in laboratory or field-based research programs as well as internships and other forms of cooperative education. The program director, associate director, and program advisor act as supplemental academic advisors to all students who qualify for honors study.

Beyond the classroom, the program's extracurricular opportunities include concerts, plays, films, lectures, and other excursions that support cultural enrichment, friendship, and learning. The great majority of the approximately 500 students active in the program are able to participate without adding to the total number of credits needed for graduation.

Admission Process

Admission to the University Honors Program is selective. Initial application criteria for prospective freshmen are based on a correlation between the student's high school GPA and an ACT composite score or the SAT Reasoning scores for Critical Reading and Math. For example, students who have received a 28 ACT composite score, or a 1260 SAT combined Critical Reading and Math score, and a 3.77 high school GPA meet the initial minimum criteria. The correlation is based on a sliding scale: students with test scores higher than those noted may have GPAs below 3.77 and still meet the minimum criteria; students with higher GPAs may have test scores lower than the examples offered above. Students applying from high school also submit a two-page essay as part of the application.

Students who do not meet the initial admission criteria, including those who may not be able to provide a GPA from an accredited high school, those who are home schooled, or those who do not have SAT or ACT scores, are encouraged to write to the honors director to express their interest in seeking admission to the program. Two former teachers also must send letters of recommendation to the director; students may then be asked to proceed with writing the admission essay. Current students who achieve a minimum 3.5 GPA at the University of Idaho (UI) also may apply for admission. Transfer students with a 3.5 GPA are considered for admission on a case-by-case basis. Students in good standing in an honors program at their previous school are considered for admission

based on a review of their previous honors course work. Their transcripts are evaluated and appropriate credit given toward courses in the honors curriculum.

Participation Requirements

A member in good standing of the University Honors Program must be registered at the UI, maintain a 3.3 cumulative GPA, and complete a minimum of six graded honors credits by the end of the second semester; thereafter, students must complete, on average, one honors course every second semester. Students in the program who have averaged at least one graded honors course each semester and have a cumulative institutional GPA of 3.3 (credits earned at the UI) are allowed to register with the first group of seniors.

Students may use Honors sections of UI General Core Studies (GCS) courses to count toward satisfying university core requirements in general education. Depending on which courses students select, as many as 26 honors credits satisfy university core requirements in the humanities, social sciences, and natural and applied sciences. At present, honors seminars do not carry designated GCS Humanities or Social Science credits.

Honors Core Award Requirements

Students must complete 19 total honors credits. Up to three approved academic or experiential "points" may be substituted for honors credits.

Up to nine Honors Course Contract credits, including Honors Research, may be applied toward the Core Award. Students must earn a 3.0 GPA or above in honors coursework and earn a UI cumulative GPA of 3.3 or above.

Honors Scholar Award Requirements

Students must complete 27 total honors credits. Up to six approved academic or experiential "points" may be substituted for honors credits.

Up to twelve Honors Course Contract credits, including Honors Research credits, may be applied toward the Scholar Award. At least six of the honors course credits must be earned at the 300- or 400-level. Students must earn a GPA of 3.0 or above in honors coursework and earn a UI cumulative GPA of 3.3 or above.

Honors Scholar with Distinction Award Requirements

Students must complete 27 total honors credits including an honors thesis. Up to six approved additional academic or experiential "points" may be substituted for honors credits. Up to twelve Honors Course Contract credits, including Honors Research credits, may be applied toward the Scholar with Distinction Award. At least six of the honors course credits must be earned at the 300- or 400-level. Students must earn a GPA of 3.0 or above in honors coursework and a UI cumulative GPA of 3.3 or above.

Scholarship Availability

Each year scholarships are offered to a select number of students in the program- these awards are applied to resident fees. No additional application form is required. Likewise, a select number of UHP out-of-state tuition waivers are offered to non-Idaho residents. The awards are renewable, contingent on satisfactory progress toward and completion of specified course and credit requirements while maintaining an overall institutional GPA of 3.3. In addition, members of the University Honors

Program have been successful in taking advantage of mentorship and advice regarding prestigious national scholarship opportunities.

Learning Outcomes

University Honors Program expectations for learning outcomes are aligned with the following University-Level Learning Outcomes affirmed by Faculty Council October 3, 2006. University level learning outcomes broadly describe expected and desired consequences of learning through integrated curricular and co-curricular experiences. The outcomes become an expression of the desired attributes of an educated person and guide coherent, integrated and intentional educational experiences. They provide the university with a basis for ongoing assessment to continuously improve teaching and learning.

1. Learn and integrate - Through independent learning and collaborative study, attain, use and develop knowledge in the arts, humanities, sciences, and social sciences, with disciplinary specialization and the ability to integrate information across disciplines.
2. Think and create - Use multiple thinking strategies to examine real-world issues, explore creative avenues of expression, solve problems, and make consequential decisions.
3. Communicate - Acquire, articulate, create and convey intended meaning using verbal and non-verbal methods of communication that demonstrate respect and understanding in a complex society.
4. Clarify purpose and perspective - Explore one's life purpose and meaning through transformational experiences that foster an understanding of self, relationships, and diverse global perspectives.
5. Practice citizenship - Apply principles of ethical leadership, collaborative engagement, socially responsible behavior, respect for diversity in an interdependent world, and a service-oriented commitment to advance and sustain local and global communities.

UNIVERSITY OF IDAHO CENTERS

University of Idaho, Boise

Michael Satz, Associate Vice President and Executive Officer
University of Idaho Boise and Southwest Region. 322 East Front
Street, Suite 190, Boise, Idaho 83702; 208-334-2999; www.uidaho.edu/boise, boise@uidaho.edu

Strategic Focus

As the state's only land-grant institution, the University of Idaho is responsible for engaging citizens, businesses and institutions throughout the state.

The University of Idaho Boise (<http://www.uidaho.edu/boise>) provides access to all University of Idaho resources to southwest Idaho. UI Boise is focused on community impact, regional economic development and supporting university growth, as well as having an engaged university campus with a climate of inclusion for employees throughout its regions of responsibility.

Strategically located in Boise, the economic and governmental center of Idaho and home of more than 55 percent of the state's population and business entities, UI Boise supports teaching, learning, research and outreach. We distinguish ourselves through:

- Quality programs that accommodate working professionals and full-time students with a focus on professional and workforce development.
- Outreach to southwest Idaho's communities to foster their sustainability, growth and educational access.
- Proactive research for domestic and global solution.
- Collaborative and interdisciplinary work with the public and private sectors, including other institutions of higher education.
- Enduring relationships with alumni and friends to carry forward the proud history and traditions of the University of Idaho.

Location

The University of Idaho established a presence in Boise with the Ada County Extension program in 1910. Today, the primary home of the University of Idaho Boise is at the intersection of Front Street and Broadway Avenue in the Idaho Water Center building, with other locations throughout the downtown, such as the College of Law at the Idaho Law and Learning Center on Jefferson St.; the Integrated Design Lab on Front St.; and the Ada County Extension offices located on Glenwood Street.

UI Boise also has leadership and administrative responsibility for University of Idaho activity in south central Idaho, including the Magic Valley and Wood River Valley.

Academic Programs in the Boise Area

Consistent with the role and mission assigned by the State Board of Regents and the University of Idaho's land-grant designation, the University offers select Master's, Specialist's and Doctorate degrees programs in Boise. Additional professional programs, certificates and courses are offered in response to needs of the community. Programs and courses are offered in many formats including traditional classroom,

hybrid, and online. Students participate in degree and certificate programs in the following disciplines:

Agricultural & Life Sciences

- Agricultural Education: M.S.
- Food and Nutrition: Dietetics B.S. (Students will spend the junior year in the Moscow campus, senior year is based at UI Boise or UI Coeur d'Alene)
- Agricultural Science, Communication and Leadership: B.S. (2+2 at College of Western Idaho)

Art & Architecture ¹

- Architecture: M.Arch.
- Landscape Architecture: M.L.A
- Bioregional Planning and Community Design: M.S
- Bioregional Planning and Community Design: M.S / J.D
- Bioregional Planning and Community Design: Certificate
- Integrated Architecture and Design: M.S

¹ The College of Art and Architecture also offers coursework that satisfies the first 2 years of UI's Architecture, Landscape Architecture and Interior Design degree programs in Boise.

Education

- Adult & Organizational Learning and Leadership: M.S.
- Career and Technical Education: Certification
- Business & Marketing Education - Secondary
- Occupational Education - Secondary
- Curriculum & Instruction: M.Ed. & Ed.S. (Emphasis available in: Career & Technical Education)
- Education: Ed.D., Ph.D
- Educational Leadership: M.Ed., Ed.S.Ed.Ldrshp.
- Human Resource Development: Certificate
- Technical Workforce Training: Certificate
- Rehabilitation Counseling and Human Services: M.Ed.
- Special Education: M.Ed. and K-12 Certification Recommendation, Elementary or Secondary (Prereq: Certification in General Education)

Engineering

- Biological Engineering: M.S., M.Engr., Ph.D.
- Civil Engineering: M.S., M.Engr., Ph.D.
- Engineering Management: M.Engr.
- Mechanical Engineering: M.Engr., M.S., Ph.D.
- Technology Management: M.S.

Interdisciplinary Degrees

- Environmental Science: M.S.
- Natural Resources and Environmental Science: P.S.M.
- Water Resources: M.S., Ph.D.

Law

College of Law students have the option of completing their 2nd and 3rd year at the College of Law Boise.

- Juris Doctor
- Concurrent degree J.D./M.S. in Accountancy, Taxation (offered in conjunction with the Boise State University College of Business and Economics)

- Concurrent degree J.D./M.B.A. (Master of Business Administration) (offered in conjunction with the Boise State University College of Business and Economics)

The 3rd year program in Boise also offers clinical experiences with the Small Business Legal Clinic, the Low Income Taxpayer Clinic, and the Economic Development Clinic. Students in clinics, under the direction of their licensed supervisor, represent clients in addressing their legal needs.

Letters, Arts and Social Sciences

CLASS offers a psychology undergraduate program in southwest Idaho in partnership with College of Western Idaho and College of Southern Idaho (see 2+2 Programs sections below). In addition, CLASS offers the following online programs:

- Criminology B.A, B.S
- General Studies, B.A, B.S
- History, B.A, B.S
- Psychology, B.S
- Psychology, M.S in Human Factors
- Public Administration, M.S.
- Organizational Science, B.A, B.S

Medicine

In partnership with the University of Washington School of Medicine, the Idaho WWAMI Clinical Education offices in Boise offer all required and elective clinical clerkships for 3rd and 4th year medical students throughout the State of Idaho.

Natural Resources

- Natural Resources: M.N.R.
- Fire Ecology and Management: M.N.R
- Fire Ecology, Management & Technology: graduate certificate
- Restoration Ecology: graduate certificate

2+2 Programs at CSI and CWI

Academic Programs in Twin Falls

The University of Idaho and College of Southern Idaho partnership allows students to complete UI courses at the UI Twin Falls Research & Extension Center on the CSI campus. Other degrees and programs are available through the University of Idaho's online programs.

- Agriculture Science, Communication & Leadership: B.S.Ag.L.S. (upper division offered in conjunction with CSI)
- Career and Technical Education: Certification
- Criminology B.A., B.S. (upper division offered in conjunction with CSI)
- Education (offered in conjunction with CSI)
- Emphasis in Engineering & Technology Education - Secondary
- Psychology (upper division offered in conjunction with CSI)

Academic Programs at the College of Western Idaho

With the 2+2 program you can earn a University of Idaho degree at College of Western Idaho without leaving the Treasure Valley. This program is designed for working professionals or individuals who are place-bound.

- B.S. in Agricultural Science, Communication and Leadership (upper division offered in conjunction with CWI)
- Criminology B.A., B.S. (upper division offered in conjunction with CWI)
- B.S. in Psychology (upper division offered in conjunction with CWI)

Online and Distance Education Degrees

There are several undergraduate and graduate degree programs that can be completed via online or distance education:

- Criminology B.A, B.S
- General Studies, B.A, B.S
- History, B.A, B.S
- Psychology, B.S
- Organizational Science, B.A, B.S
- Graduate degrees: Learn more about graduate degrees at the College of Graduate Studies (p. 221).

Research and Community Services in the Southern Region

The University of Idaho Boise increases access to continuing education for the local population and extends outreach programs statewide.

Additionally, as the state's land-grant institution, the University of Idaho has a statewide footprint. Extension educators are based in 42 of Idaho's 44 counties. Research and Extension centers are located throughout the state in service of Idaho's agricultural economy.

The University of Idaho Boise supports southwest Idaho researchers, educators and Extension specialists in the disciplines of aquaculture; family economics; science education; early childhood education and family literacy; nutrition education; food safety and processing; and educational communications.

Research, Outreach, and Extension at UI Boise includes

- 4-H Outreach to Military Kids
- 4-H Extension Robotics
- Center for Ecohydraulics Research
- Center on Disabilities and Human Development
- Confucius Institute
- Family & Consumer Sciences
- Food Technology Center
- Idaho Geological Survey
- Idaho Water Resources Research Institute (IWRRI)
- Integrated Design Lab
- James A. & Louise McClure Center for Public Policy Research
- Pesticide Safety Management
- Small Business Legal Clinic
- TechHelp
- TRiO
- Urban Design Center

Research, Outreach, and Extension in Southwest Idaho includes

- Aquaculture Research Institute - Hagerman
- Kimberly Research and Extension Center
- McCall MOSS
- Parma - Southwest Idaho Research and Extension Center
- Twin Falls Research and Extension Center

University of Idaho, Coeur d'Alene

Charles Buck, Associate Vice-President and CEO of University of Idaho Northern Idaho (1031 N. Academic Way, Suite 242, Coeur d'Alene, ID

83814-2277. Phone: 208-667-2588, Fax 208-664-1272; www.uidaho.edu/cda, cdactr@uidaho.edu).

The University of Idaho Coeur d'Alene was established to bring U-Idaho programs to the people of northern Idaho, eastern Washington and western Montana. Cooperative relationships with other Idaho institutions, as well as those in eastern Washington, allow our students to finish various degrees without leaving the area. Undergraduate, graduate and certificate programs are offered in Coeur d'Alene. Courses are taught on-site by resident and adjunct faculty or offered via videoconferencing and on-line. Many Coeur d'Alene programs are designed for working professionals seeking a college education or advanced degree.

Undergraduate degrees offered at U-Idaho Coeur d'Alene or through on-line course work include the following:

- Career and Technology Education
- Child, Family, and Consumer Studies: Child and Youth Development
- Computer Science
- Early Childhood Development and Education
- Elementary Education with K-8 credential. Certification in Elementary Education is available for those students who hold a bachelor's degree and seek a teaching certificate.
- English: Literature Emphasis
- English: Professional Writing Emphasis
- Environmental Science: Physical Science Option 2
- Food & Nutrition: Nutrition Option
- General Studies
- Interdisciplinary Studies
- Organizational Sciences
- Psychology with Addictions

Several Academic minors are available through live or on-line coursework.

Graduate degrees offered at U-Idaho Coeur d'Alene or through on-line course work include the following:

- Adult and Organizational Learning and Leadership
- Curriculum and Instruction
- Educational Leadership
- Environmental Science – Water Science Emphasis
- Executive Master of Business Administration
- Master of Natural Resources
- Professional Science Master's in Natural Resources and Environmental Science
- Rehabilitation Counseling and Human Services
- Special Education
- Additional graduate coursework and degrees available through Engineering Outreach

Certificate programs offered at U-Idaho Coeur d'Alene or through on-line course work include the following:

- Environmental Contamination Assessment
- Environmental Water Science
- Fire Ecology
- Geographical Information Systems (GIS)

- Organizational Dynamics
- Restoration Ecology

Engagement with local citizens, businesses and agencies in northern Idaho is a primary goal of the university. The role of the Center is to make university resources, expertise and facilities available throughout the region. In addition to academic program offerings, the Center promotes business development with corporate research, programs in support of business start-ups, and continuing education opportunities for area professionals. A major Center initiative, Dign'IT, aims to develop cultural awareness of the importance of software engineering and computer science. This industry-driven initiative provides services and promotes training in these areas for people of all ages. The Center hosts local and regional research projects in water quality and environmental science via its Community Water Resource Center that also serves as an outreach center for local tribes, agencies and advocacy groups. Laboratory facilities in the Center support diverse research activities.

The University of Idaho Coeur d'Alene has a strong history of serving the needs of local school districts through professional development programs and non-credit program offerings to support local public school administrators, teachers and students. A current emphasis is to promote computer science training in public schools.

Scholarly and creative activity and research are components of all faculty programs in northern Idaho. University of Idaho Coeur d'Alene faculty have established research programs in key areas including nutrition, child development, literacy, science education, educational leadership and addiction studies.

The University of Idaho Coeur d'Alene houses the North Idaho Regional Special Education Office in cooperation with the Idaho State Department of Education. The Regional Special Education Consultant provides local communities with technical assistance, in-service education, and monitoring support. The Office also includes the North Idaho Regional Special Education Library, a collection of materials designed to be a resource and support for Special Education Teachers, directors, parents, and other professionals. The Center also houses the regional Assistive Technology Lending Library providing technologies for citizens in the region that are in need.

The Extension Northern District Office is located at U-Idaho Coeur d'Alene and provides support for ten northern Idaho counties. Extension non-credit programs are offered at the local level in competitive agriculture, community development, nutrition and food safety, family and youth, and natural resources.

University of Idaho, Idaho Falls

Mark Skinner, Associate Vice President and Center Executive Officer, (1776 Science Ctr. Dr., Suite 306, Idaho Falls, Idaho 83402; 208-282-2900 www.uidaho.edu/idahofalls).

The University of Idaho, in partnership with Idaho State University, operates the Center for Higher Education at University Place in Idaho Falls. University Place serves over 3,000 undergraduate and graduate students in eastern Idaho. The center is ideally located on the banks of the Snake River and adjacent to the Idaho National Laboratory (INL). Yellowstone and Teton National Parks, scenic forests, pristine wilderness areas, and world-class recreational activities are located nearby.

Academics

Consistent with the role and mission assigned by the State Board of Regents and the University of Idaho's land-grant designation, the

university offers select Undergraduate, Master's, Specialist's and Doctorate degree programs in Idaho Falls. Additional professional programs, certificates and courses are offered in response to needs of the community. Over 150 University of Idaho courses are offered at the center each semester. Courses are taught on-site by resident and adjunct faculty and are offered via interactive video, electronic media, and the Internet.

Undergraduate degrees are available in the following disciplines:

- Environmental science
- General studies
- Industrial Technology.

Graduate degrees are available in the following disciplines:

- Biological and Agricultural Engineering
- Chemical Engineering
- Chemistry
- Civil Engineering
- Computer Science
- Computer Engineering
- Electrical Engineering
- Engineering Management
- Environmental Science
- Hydrology
- Industrial Safety
- Interdisciplinary Studies
- Materials Science & Engineering
- Mechanical Engineering
- Metallurgy
- Nuclear Engineering
- Technology Management

Research

The center is strategically located next to the Idaho National Laboratory (INL) and The Center for Advanced Energy Studies (CAES). This location is ideal for research collaboration opportunities. The Idaho Falls Center is focusing on delivering advanced education and research programs addressing state and national energy and security needs in partnership with the INL, industry, and university partners. The Idaho Falls Center houses the eastern Idaho branch of the Idaho Water Resources Research Institute (IWRRI).

Idaho National Laboratory

In operation since 1949, the INL is a science-based, applied engineering national laboratory dedicated to supporting the U.S. Department of Energy's missions in nuclear and energy research, science, and national defense. The laboratory works with national and international governments, universities and industry partners to discover new science and develop technologies that underpin the nation's nuclear and renewable energy, national security and environmental missions.

The Center for Advanced Energy Studies

CAES is focused on creating a unique and collaborative environment for our energy future, including cross-organizational and peer-to-peer technical collaboration. It will address science, engineering and technology development critical to U.S. and global energy needs. CAES research will focus on energy affordability, environmental safety, and

technology research in nuclear, hydrogen, fossil fuels (coal, oil and gas), plus the full spectrum of renewable energy sources. CAES' research agenda will foster collaborations and interdisciplinary studies and make its research and development facilities, and those of INL, available to a network of universities.

Idaho Water Resources Research Institute

IWRRI supports and directs water research for the State of Idaho and the region. IWRRI research results routinely lead to cutting-edge discoveries in such vital topics as water quality, water supply and water management. More importantly, these discoveries regularly lead to a greater understanding of our surroundings, offering sensible solutions toward maintaining a healthy balance between the economy and the environment.

Community and Statewide Services

The College of Agriculture District IV Research and Extension Office at the Idaho Falls Center provides extension programming and agriculture related activities.

DEPARTMENTS OF INSTRUCTION

- Department of Accounting (p. 149)
- Aerospace Studies (p. 356)
- Program in Aging Studies (p. 239)
- Department of Agricultural and Extension Education (p. 102)
- Department of Agricultural Economics and Rural Sociology (p. 105)
- Program in American Indian Studies (p. 240)
- Program in American Studies (p. 242)
- Department of Animal and Veterinary Science (p. 107)
- Art and Architecture (p. 135)
- Department of Biological Engineering (p. 192)
- Department of Biological Sciences (p. 321)
- Program in Bioregional Planning and Community Design (p. 146)
- Department of Business (p. 151)
- Department of Chemical and Materials Engineering (p. 193)
- Department of Chemistry (p. 329)
- Department of Civil and Environmental Engineering (p. 199)
- Department of Computer Science (p. 202)
- Department of Curriculum and Instruction (p. 164)
- Department of Electrical and Computer Engineering (p. 205)
- Engineering (p. 213)
- Engineering Management (p. 215)
- Department of English (p. 243)
- Department of Entomology, Plant Pathology and Nematology (p. 111)
- Program in Environmental Science (p. 289)
- Margaret Ritchie School of Family and Consumer Sciences (p. 112)
- Department of Fish and Wildlife Sciences (p. 298)
- UI/WSU Bistate School of Food Science (p. 117)
- Department of Forest, Rangeland, and Fire Sciences (p. 302)
- General Studies (p. 248)
- Department of Geography (p. 333)
- Department of Geological Sciences (p. 335)
- Global Studies, Martin School of (p. 249)
- Department of History (p. 253)
- Program in Interdisciplinary Studies (p. 256)
- School of Journalism and Mass Media (p. 257)
- Program in Latin American Studies (p. 261)
- Department of Leadership and Counseling (p. 181)
- Department of Mathematics (p. 337)
- Department of Mechanical Engineering (p. 216)
- Department of Military Science (p. 357)
- Department of Movement Sciences (p. 183)
- Lionel Hampton School of Music (p. 261)
- Department of Natural Resources (p. 310)
- Department of Natural Resources and Society (p. 315)
- Department of Naval Science (p. 357)
- Program in Nuclear Engineering (p. 219)
- Program in Organizational Sciences (p. 269)
- Department of Physics (p. 340)

- Department of Plant Sciences (p. 120)
- Department of Politics and Philosophy (p. 271)
- Pre-Health Professions Studies (p. 344)
- Department of Psychology and Communication Studies (p. 274)
- Religious Studies (p. 277)
- Department of Sociology and Anthropology (p. 277)
- Department of Soil and Water Systems (p. 125)
- Department of Statistical Science (p. 345)
- Department of Theatre Arts (p. 284)
- Program in Water Resources (p. 129)
- Program in Women's and Gender Studies (p. 286)

COURSE INFORMATION

Course Numbering System and Key to Abbreviations and Symbols

Numbering System

Courses numbered 001 are continuing education unit (CEU) courses; those numbered 010-099 are remedial-level courses carrying no credit; those numbered 100-299 are lower-division courses primarily for undergraduates; 300-499 are upper-division courses primarily for advanced undergraduates, fifth-year students, and graduates; courses numbered 500-599 are intended for and are restricted to students enrolled in the College of Graduate Studies (see regulation B-7 (p. 73) for the exception to this rule); courses numbered 600-699 are intended for and are restricted to students enrolled in a doctoral program; courses numbered 800-999 are intended for and are restricted to students enrolled in the College of Law.

University of Idaho General Education Categories and Idaho GEM Categories

University of Idaho Category	Idaho GEM Category
Communication	Oral Communication
English	Written Communication
Mathematics	Mathematical Ways of Knowing
Natural and Applied Sciences	Scientific Ways of Knowing
Humanities	Humanistic and Artistic Ways of Knowing
Social Science	Social and Behavioral Ways of Knowing
American Diversity	Institutionally Designated Competency Area
International	Institutionally Designated Competency Area
Integrated Studies	Institutionally Designated Competency Area
Senior Experience	Institutionally Designated Competency Area

Letter Designations with Numbers

Certain course numbers also include letters preceding the number (i.e. R101, C100):

C - offered by correspondence study only.

H - offered only in University Honors Program.

J - courses conducted jointly, e.g., MUSA J365/J565 (Chamber Ensemble), in which students' assignments and expected levels of performance reflect the levels for which they are enrolled.

R - offered only at the University of Idaho at Idaho Falls.

Subtitled Courses

An "s" in parentheses between the number and title of a course indicates that the course may be offered under the main title and/or with an appended subtitle, e.g., "Seminar" and/or "Seminar in the History of the Pacific Northwest." The specific area normally will be listed in the Class Schedule as a separate section of the main course.

Credit Designations

Immediately following each course title, the number of credits authorized is shown in parentheses. Typical designations are:

(3 credits) - three semester credits (for courses with more than one number, e.g., 101-102-103, the three credits apply to each number).

(1-3 credits) - one to three semester credits.

(3 credits; 2 credits) - three credits fall semester; two credits spring semester.

(1-3 credits, max 3) - one to three credits during any academic session and the course may be repeated until the maximum of three credits has been earned.

(3 credits, max 12) - three credits during any academic session and the course may be repeated until the maximum of twelve credits has been earned (for a course with more than one number, e.g., 301-302, the maximum is overall and applies to the combined numbers).

(Credit arranged) - credits to be arranged from 1 to 16 credits (may be repeated for credit without restriction as to maximum).

(1-3 credits, max arranged) - one to three credits during any academic session, and the course may be repeated.

Standard Course Numbers

University-wide numbers have been established for certain categories of courses. These courses need not be listed in a subject-field section in the catalog unless they are to be offered regularly; they may be offered and listed in the Class Schedule whenever they are needed. The following course numbers and titles are authorized: 200, 400, 501, 601 Seminar; 203, 403, 503, 603 Workshop; 204, 404, 504, 604 Special Topics; 405, 505, 605 Professional Development; 298, 398, 498, 598, 698 Internship; 299, 499, 502, 602 Directed Study; 500 Master's Research and Thesis; 597 Graduate Practicum; 599 Non-thesis Master's Research; 600 Doctoral Research and Dissertation.

Other Abbreviations

alt/yr - offered in alternate years

alt/sem - offered in alternate semesters

coreq - corequisite

cr - credit

dem - demonstration

dept - department

disc - discussion

div - division

exam - examination

GPA - grade-point average

grad - graduate

hr - hour

intro - introduction(-tory)

Jr - junior

lab(s) - laboratory(-ies)

lec - lecture(-s)

perm - permission of instructor

perm of dept - permission of department or subject-field chair

P/F - graded on the basis of pass or fail

prereq - prerequisite

reqd - required

Soph - sophomore

Sr - senior

undergrad - undergraduate

COURSES

A

- Accounting (ACCT) (p. 372)
- Adult, Org Learnng and Ldrshp (AOLL) (p. 375)
- Aerospace Studies (AERO) (p. 377)
- Africana Studies (AFST) (p. 378)
- Agricultural and Life Sciences (AGLS) (p. 379)
- Agricultural Economics (AGEC) (p. 380)
- Agricultural Education (AGED) (p. 384)
- Agricultural Systems Mgt (ASM) (p. 387)

- Women's, Gender, and Sexuality Studies (WGSS) (p. 692)

ACCOUNTING (ACCT)

ACCT 200 (s) Seminar
Credit arranged.

ACCT 201 Introduction to Financial Accounting
3 credits

Overview of the nature and purpose of general purpose financial statements provided to external decision makers; emphasis on use of financial statement information. May involve evening exams.

ACCT 202 Introduction to Managerial Accounting
3 credits

Intro to cost behavior and managerial use of accounting information for planning, control, and performance evaluation. May involve evening exams.

Prereq: ACCT 201.

ACCT 203 (s) Workshop
Credit arranged.

ACCT 204 (s) Special Topics
Credit arranged.

ACCT 299 (s) Directed Study
Credit arranged

Individual sections may be graded P/F.

Prereq: Permission.

ACCT 305 Accounting Information Systems
3 credits

Role of accounting information systems in effective control of organizations. Topics include: the description and analysis of the accounting cycles and internal controls including the implementation and evaluation of internal control effectiveness; the role of internal controls in the detection and prevention of fraud; the conceptual design and documentation as well as the practical use of accounting information systems. May include evening exams.

Prereq: ACCT 201 and ACCT 202.

ACCT 315 Intermediate Financial Accounting I
3 credits

Preparation of general purpose financial statements for external users based on U.S. generally accepted accounting principles. Emphasis on transactions relating to financing and investing activities. Conceptual framework based instruction includes comparison with alternative treatments used in other countries and under U.S. tax code. May include evening exams.

Prereq: ACCT 201 and ACCT 202.

ACCT 325 Intermediate Financial Accounting II
3 credits

Continuation of ACCT 315. Covers more advanced topics in the preparation of general purpose financial statements for external users according to US GAAP. Includes accounting database research. May include evening exams.

Prereq: ACCT 315.

ACCT 385 Cost and Management Accounting
3 credits

Design and use of cost management systems to support decision making and influence behavior; includes tracing costs to processes, activities, products, and customers; budgeting and responsibility accounting. May require evening exams.

Prereq: ACCT 201 and ACCT 202.

ACCT 400 (s) Seminar
Credit arranged.

ACCT 403 (s) Workshop
Credit arranged.

ACCT 404 (s) Special Topics
Credit arranged.

ACCT 405 (s) Professional Development
Credit arranged

Joint-listed with ACCT 505

Credit earned in these courses will not be accepted toward graduate degree programs.

Prereq: permission.

ACCT 415 Advanced Financial Accounting & Reporting
3 credits

Joint-listed with ACCT 515

Accounting and financial reporting for business combinations (including consolidated financial statements), international accounting issues, foreign currency translation, and accounting for partnerships. The course emphasizes the conceptual understanding of accounting for mergers and acquisitions as well as the technical requirements. May include evening exams. Additional class meetings, projects, and/or assignments required for graduate credit.

Prereq: ACCT 325 or Graduate Standing.

ACCT 421 Accounting Data Analytics
3 credits

Joint-listed with ACCT 521

Role of accounting data analytics in the detection and assessment of fraud in an organizational setting. Topics include: definitions and detection of fraud; the application of data analytic and statistical techniques to detect different types of frauds; and the use of data analytics techniques in the audit function

Prereq: ACCT 315.

ACCT 440 Fraud Examination
3 credits

Joint-listed with ACCT 550

Fraud prevention, detection, investigation, and resolution. May include evening exams. Additional class meetings, projects, and/or assignments required for graduate credit.

Prereq: ACCT 201.

ACCT 482 Enterprise Accounting
3 credits

Joint-listed with ACCT 582

Carries no credit toward master's degree in accounting. Both business and non-business students will learn the critical role played by financial statements as entrepreneurs try to launch a new business. The trade-offs of various funding sources and their impacts on financial statements are also explored. Content will be presented in an integrated manner, rather than concept by concept, to emphasize the interrelatedness of forecasts and assumptions regarding revenues, costs, and financing on financial statements and thus, the resulting business model. Additional projects and/or assignments required for graduate credit. May involve evening exams.

ACCT 483 Fundamentals of Federal Taxation

3 credits

Income determination, deductions, accounting methods, sales of property, deferral of tax, taxation of the individual, tax research, with primary emphasis on tax planning; the case method is used. May include evening exams.

Prereq: ACCT 201 and ACCT 202 .

ACCT 484 Federal Taxation of Entities

3 credits

Joint-listed with ACCT 584

Taxation of corporations and partnerships with emphasis on tax planning, tax research; the case method is used. Additional class meetings, projects, and/or assignments required for graduate credit. May include evening exams.

Prereq: ACCT 483 .

ACCT 492 Auditing and Controls

3 credits

Value of the audit, concepts of attestation and relevant reporting, theories of evidence, development of risk analysis approach to auditing, with emphasis on internal and performance auditing; documentation and understanding of internal control structure, environment, system design, procedures and testing. May include evening exams.

Prereq: ACCT 305 and ACCT 315.

ACCT 498 Accounting Internship Program

1-3 credits, max 3

Formalized learning experience in an actual work setting. Students work within an accounting related field (accounting, auditing, and taxation) and commit to a minimum of 50 hours of direct supervised work for each semester credit. May include evening exams. This course does not count as an undergraduate accounting elective. Graded P/F.

Prereq: Senior status.

ACCT 499 (s) Directed Study

Credit arranged

Individual sections may be graded P/F.

Prereq: Permission.

ACCT 500 Master's Research and Thesis

1-6 credits, max 6.

ACCT 501 (s) Seminar

Credit arranged.

ACCT 502 (s) Directed Study

Credit arranged

Individual sections may be graded P/F.

Prereq: Permission.

ACCT 503 (s) Workshop

Credit arranged.

ACCT 504 (s) Special Topics

Credit arranged.

ACCT 505 (s) Professional Development

Credit arranged

Joint-listed with ACCT 405

Credit earned in these courses will not be accepted toward graduate degree programs.

Prereq: permission.

ACCT 515 Advanced Financial Accounting & Reporting

3 credits

Joint-listed with ACCT 415

Accounting and financial reporting for business combinations (including consolidated financial statements), international accounting issues, foreign currency translation, and accounting for partnerships. The course emphasizes the conceptual understanding of accounting for mergers and acquisitions as well as the technical requirements. May include evening exams. Additional class meetings, projects, and/or assignments required for graduate credit.

Prereq: ACCT 325 or Graduate Standing.

ACCT 521 Accounting Data Analytics

3 credits

Joint-listed with ACCT 421

Role of accounting data analytics in the detection and assessment of fraud in an organizational setting. Topics include: definitions and detection of fraud; the application of data analytic and statistical techniques to detect different types of frauds; and the use of data analytics techniques in the audit function

Prereq: ACCT 315 .

ACCT 530 Accounting for Public Sector Entities

3 credits

Conceptual and procedural issues involving accounting, reporting, and auditing public sector organizations; topics include state and local governmental accounting principles, GASB/FASB jurisdiction over not-for-profit organizations, federal financial and performance auditing standards, and relevant current issues. May include evening exams.

Prereq: ACCT 315.

ACCT 540 Financial Statement and CSR Reporting Analysis

3 credits

Seminar on understanding and analyzing financial statements and corporate social responsibility (CSR) reports, including use of techniques to conduct financial statement analysis, understanding how to assess the quality of reporting information and modify that information to improve its quality, and constructing a valuation for a company.

Prereq: ACCT 315 .

ACCT 550 Fraud Examination

3 credits

Joint-listed with ACCT 440.

Fraud prevention, detection, investigation, and resolution. May include evening exams. Additional class meetings, projects, and/or assignments required for graduate credit.

Prereq: ACCT 201.

ACCT 561 Comparative Accounting Theory

3 credits

Seminar on the theory and practice of corporate financial reporting and highlights the development of generally accepted accounting principles. The students will research and communicate recommendations regarding financial accounting reporting issues, using the authoritative accounting literature that underlies the financial accounting choices. May include evening exams. (Fall only)

Prereq: ACCT 415 or **Prereq or Coreq:** ACCT 515.

ACCT 582 Enterprise Accounting**3 credits**

Joint-listed with ACCT 482

Carries no credit toward master's degree in accounting. Both business and non-business students will learn the critical role played by financial statements as entrepreneurs try to launch a new business. The trade-offs of various funding sources and their impacts on financial statements are also explored. Content will be presented in an integrated manner, rather than concept by concept, to emphasize the interrelatedness of forecasts and assumptions regarding revenues, costs, and financing on financial statements and thus, the resulting business model. Additional projects and/or assignments required for graduate credit. May involve evening exams.

ACCT 584 Federal Taxation of Entities**3 credits**

Joint-listed with ACCT 484

Taxation of corporations and partnerships with emphasis on tax planning, tax research; the case method is used. Additional class meetings, projects, and/or assignments required for graduate credit. May include evening exams.

Prereq: ACCT 483 .

ACCT 585 Estate and Elder Planning**3 credits**

Gift and estate tax consequences on property transfer during life and at death, tax research, and estate planning, elder planning and personal financial planning. Recommended preparation ACCT 484/ACCT 584. (Spring only)

Prereq: ACCT 483.

ACCT 586 Contemporary Management Accounting Issues**3 credits**

Role of managerial accounting skills in supporting effective analysis and decisions in an organization. Synthesis of these managerial accounting skills through case analysis, as well as written and oral reports. Topics include the Balanced Scorecard; determining and assigning costs using activity based costing, budgeting and financial control; enterprise accounting system design and control. May include evening exams.

ACCT 590 Advanced Auditing Seminar**3 credits**

Independent auditor's role, legal responsibilities, and code of conduct; concepts, standards, and methods in audit judgment formulation. (Spring only)

Prereq: ACCT 492.

ACCT 592 Financial Accounting and Reporting Seminar**3 credits**

Seminar course designed to strengthen a student's ability to interpret financial statements and their related footnote disclosures through the examination of financial reporting issues from a user's perspective. Discussions also include managers' incentives and ability to exert discretion over reported earnings and the interplay between a company's corporate strategy and its financial reporting policies and practices. May include evening exams. (Spring only)

Prereq: ACCT 415 or **Prereq** or **Coreq:** ACCT 515 .

ACCT 595 Practicum in Tutoring**1 credit**

Tutorial services performed by advanced students under faculty supervision. A paper discussing the tutoring experience is required.

Prereq: Permission .

ACCT 598 (s) Internship**1-3 credits, max 3**

Career relevant learning experience in actual work setting with professional-level responsibilities. Students work within an accounting related field (accounting, auditing, and taxation) and commit to a minimum of 50 hours of direct supervised work for each semester credit. A paper documenting relevance of work experience and a presentation to undergraduate accounting students may be required.

ACCT 599 (s) Non-thesis Master's Research**1-6 credits, max 6**

May count only 3 cr toward degree. Student works with individual professor to design a research study, collect and analyze data, and prepare written report.

Prereq: At least one course in research methodology and permission.

ADULT, ORG LEARNNG AND LDRSH (AOLL)

AOLL 203 (s) Workshop
Credit arranged.

AOLL 299 (s) Directed Study
Credit arranged.

AOLL 400 (s) Seminar
Credit arranged.

AOLL 403 (s) Workshop
Credit arranged.

AOLL 404 (s) Special Topics
Credit arranged.

AOLL 405 (s) Professional Development
Credit arranged.

AOLL 499 (s) Directed Study
Credit arranged.

AOLL 500 Master's Research & Thesis
Credit arranged.

AOLL 501 (s) Seminar
Credit arranged.

AOLL 502 (s) Directed Study
Credit arranged.

AOLL 503 (s) Workshop
Credit arranged
Graded P/F.

Prereq: Permission.

AOLL 504 (s) Special Topics
Credit arranged.

AOLL 505 (s) Professional Development
Credit arranged

Professional development and enrichment of certificated school personnel. Credit earned will not be accepted toward grad degree program, but may be used in a fifth-year program. Additional projects/ assignments reqd for grad cr.

AOLL 507 Future of Education and Work
3 credits

Study and application of secondary and postsecondary curriculum and instruction focusing on sustainability as it relates to technical education, workforce and organizational development, "green" technologies and Science, Technology, Engineering and Mathematics (STEM).

AOLL 510 Foundations of Human Resource Development
3 credits

Advanced study of the foundations and basis for workforce and human resource education programs. (Alt/yrs)

AOLL 526 Instructional Design and Curriculum
3 credits

An in-depth examination and implementation of instructional design systems and curriculum development as a systematic method of designing, carrying out, and evaluating the total process of teaching and learning; based on research in human learning and communication, employing a combination of human and non-human resources to bring about effective instruction. Focused on corporate training as related to HRD in Adult Ed.

AOLL 528 Program Planning, Development, and Evaluation
3 credits

Program planning and development strategies for learning enterprise workers.

AOLL 560 Career Development in Organizations
3 credits

Builds upon the foundation of personality psychology, genetic research, and modern neuroscience in understanding the complex process of career decision-making.

AOLL 570 Introduction to Research in Adult/Organizational Learning and Leadership
3 credits

The first emphasis of this course is to help workforce education students find, interpret and evaluate scholarly research. The second emphasis is to prepare students to conceptualize, design, and conduct various forms of action research.

AOLL 573 Adult Learners: Foundations and Characteristics
3 credits

Philosophical, psychological, social and economic foundations of adult education and characteristics of adult learners.

AOLL 574 Adult and Transformational Learning
3 credits

Transformative learning theory is an essential part of this course. The best practices for reflecting upon existing personal, organizational, environmental, and social sustainability mental models and questioning norms are explored and practiced. Cognitive, humanistic, social learning, behavioral, constructivist, and developmental learning theories for adults are foundational elements of the course.

AOLL 575 Strategies for Facilitating Adult Learning
3 credits

Strategies for planning and facilitating adult learning courses and programs including face-to-face, hybrid and on-line delivery.

AOLL 577 Organization Development
3 credits

Planned change strategies for human resources in organizations; motivation, training/re-training, assessing, and crafting the corporate culture through educational efforts; assessing the knowledge skill gaps in the human resources.

AOLL 581 Theory & Practices & Challenges of Leadership
3 credits

Analysis and study of leadership of the human resource in organizations; theories, styles, and methods of leadership developed from past leaders blended with current models of leadership.

AOLL 583 Organizational Leadership
3 credits

Development of an understanding of groups, group behavior, development and socialization of groups, and nature of power, conflict, and leadership in groups; intended for adults who spend time with other adults in groups, committees, teams, or other relationship configurations; emphasis on leadership aspects of group behavior and participation.

AOLL 597 (s) Practicum
Credit arranged

Supervised field experience in an appropriate public or private agency. Graded P/F.

Prereq: Permission.

AOLL 598 (s) Internship

Credit arranged

Supervised experience in teacher education, administration, supervision, or ancillary services in adult education. Graded P/F.

Prereq: Permission.

AOLL 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

AOLL 600 Doctoral Research & Thesis

Credit arranged.

AEROSPACE STUDIES (AERO)

AERO 101 Foundations of the U.S. Air Force

1 credit

Survey course that introduces students to the United States Air Force and the Air Force Reserve Officer Training Corps (AFROTC). The course primarily focuses on the mission and organization of the Air Force, Air Force dress and appearance standards, military customs and courtesies, Air Force heritage and introduction to communication skills. Weekly lab consisting of Air Force customs and courtesies, health and physical fitness, and drill ceremonies is mandatory for cadets. (Fall only)

AERO 102 Foundations of the U.S. Air Force

1 credit

Survey course that introduces students to the United States Air Force and the Air Force Reserve Officer Training Corps (AFROTC). The course primarily focuses on the mission and organization of the Air Force, Air Force dress and appearance standards, military customs and courtesies, Air Force heritage and introduction to communication skills. Weekly lab consisting of Air Force customs and courtesies, health and physical fitness, and drill ceremonies is mandatory for cadets. (Spring only)

AERO 103 Leadership Laboratory I

2 credits, max 4

Introduces students to leadership principles, military experience, and management practice; 2 hours of laboratory and 2 hours of required physical training. Graded Pass/Fail.

Coreq: AERO 101 or AERO 102.

AERO 201 Evolution of U.S. Air Force Air and Space Power

1 credit

Survey course that presents an overview of the history of the Air Force and key airpower concepts, development of the U.S. Air Force and its guiding principles, the employment of airpower from the advent of manned flight through the post-World War II period to current air and space operations and continued application of communication skills. Weekly lab of applied leadership exercises is required for cadets. (Fall only)

AERO 202 Evolution of U.S. Air Force Air and Space Power

1 credit

Survey course that presents an overview of the history of the Air Force and key airpower concepts, development of the U.S. Air Force and its guiding principles, the employment of airpower from the advent of manned flight through the post-World War II period to current air and space operations and continued application of communication skills. Weekly lab of applied leadership exercises is required for cadets. (Spring only)

AERO 205 Leadership Laboratory II

2 credits, max 4

Introduces students to leadership principles, military experience, and management practice; 2 hours of laboratory and 2 hours of required physical training. Graded Pass/Fail.

Coreq: AERO 201 or AERO 202.

AERO 299 (s) Directed Study

Credit arranged.

AERO 311 Air Force Leadership and Management

3 credits

Leadership and quality management fundamentals, professional knowledge, leadership ethics, and communicative skills required of an Air Force officer; case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied; a weekly lab provides advanced leadership experience in officer-type activities, giving students the opportunity to apply leadership and management principles of this course (the lab is mandatory for cadets). (Fall only)

AERO 312 Air Force Leadership and Management

3 credits

Leadership and quality management fundamentals, professional knowledge, leadership ethics, and communicative skills required of an Air Force officer; case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied; a weekly lab provides advanced leadership experience in officer-type activities, giving students the opportunity to apply leadership and management principles of this course (the lab is mandatory for cadets). (Spring only)

AERO 313 Leadership Laboratory III

2 credits, max 4

Introduces students to leadership principles, military experience, and management practice; 2 hours of laboratory and 2 hours of required physical training. Graded Pass/Fail.

Coreq: AERO 311 or AERO 312.

AERO 391 Private Pilot Ground School

2 credits

All aspects of preparation for the FAA Private Pilot Written Test. Additional fees will be required. Cooperative: open to WSU degree-seeking students.

AERO 404 (s) Special Topics

Credit arranged.

AERO 411 National Security Affairs/Preparation for Active Duty

3 credits

An examination of the national security process, regional studies, advanced leadership ethics, and Air Force doctrine; focus of the military profession, officership, military justice, civilian control of the military, preparation for active duty, and refinement of communication skills; a lab consisting of advanced leadership experiences is mandatory for cadets. (Fall only)

AERO 412 National Security Affairs/Preparation for Active Duty

3 credits

An examination of the national security process, regional studies, advanced leadership ethics, and Air Force doctrine; focus of the military profession, officership, military justice, civilian control of the military, preparation for active duty, and refinement of communication skills; a lab consisting of advanced leadership experiences is mandatory for cadets. (Spring only)

AERO 413 Leadership Laboratory IV

2 credits, max 4

Introduces students to leadership principles, military experience, and management practice; 2 hours of laboratory and 2 hours of required physical training. Graded Pass/Fail.

Coreq: AERO 411 or AERO 412.

AERO 499 (s) Directed Study

Credit arranged.

AFRICANA STUDIES (AFST)

AFST 101 Introduction to Africana Studies

3 credits

This course provides an introduction to Africana Studies. Specifically, it will examine aspects of African History, Contemporary African politics, the creation of the diaspora, contemporary race relations, Africana literature, and Africana music. It will incorporate theories on African development, globalization, and racial formation as it explores these topics. This course will be cotaught by affiliated faculty in the program, each presenting on their area of expertise.

AGRICULTURAL AND LIFE SCIENCES (AGLS)

AGLS 200 (s) Seminar**Credit arranged****Prereq:** Permission.**AGLS 204 (s) Special Topics****Credit arranged.****AGLS 298 (s) Internship****Credit arranged.****AGLS 299 (s) Directed Study****Credit arranged****Prereq:** Departmental Permission.**AGLS 398 (s) Internship****1-6 credits, max 6**

Graded P/F.

Prereq: Permission.**AGLS 400 (s) Seminar****Credit arranged****Prereq:** Departmental Permission.**AGLS 403 (s) Workshop****Credit arranged.****AGLS 404 (s) Special Topics****Credit arranged****Prereq:** Departmental Permission.**AGLS 405 (s) Professional Development****Credit arranged.****AGLS 494 CALS Peer Leaders****1 credit, max 6**

The CALS Peer Leaders provide students the opportunity to further develop leadership and mentoring skills through a variety of activities involving student mentoring. The objective is to integrate students into college life; create awareness of the academic programs; and be available to guide students by fostering department and college engagement.

Graded A/Pass/Fail.

Prereq: Departmental Permission.**AGLS 495 (s) CALS Ambassadors****Credit arranged**

Student ambassadors are selected through an application and interview process to represent CALS to future students at recruiting activities and functions. Students will learn skills in leadership, communication, networking, public speaking, and time management. Students will be responsible for visiting high schools, attending college and career fairs, recruiting events on campus.

Prereq: Departmental Permission.**AGLS 498 (s) Internship****Credit arranged.****AGLS 499 (s) Directed Study****Credit arranged****Prereq:** Departmental Permission.**AGLS 504 (s) Special Topics****Credit arranged.****AGLS 505 (s) Professional Development****Credit arranged.**

AGRICULTURAL ECONOMICS (AGEC)

AGEC 101 The Business of Agriculture

1 credit

This course is intended for first-year students majoring in Agribusiness or Agricultural Economics. An examination of current issues in agriculture and how economic and business principles can be used to analyze issues, and career opportunities in the discipline.

AGEC 105 Survey of Agribusiness

1-3 credits, max 3

Introduction to agribusiness management and consumer economics in the free enterprise system. Incorporates a study of economic principles, budgeting, record keeping, finance, decision making, risk management, business law, marketing, and careers in agribusiness, and allows the student to develop and practice agribusiness sales competencies. Course will be offered for 1 credit in the Fall and 2 in the Spring.

AGEC 204 (s) Special Topics

Credit arranged.

AGEC 278 Farm and Agribusiness Management

4 credits

Decision making and profit maximization using economic principles, records, enterprise analysis, and comparison of alternative farming practices. Three lec and one 2-hr lab a wk. Recommended Preparation: ECON 202.

AGEC 289 Agricultural Markets and Prices

3 credits

Economics of agricultural markets and pricing institutions; analysis of supply, demand, elasticity, futures markets; institutional arrangements in food marketing. Recommended Preparation: ECON 202.

AGEC 299 (s) Directed Study

Credit arranged.

AGEC 301 Managerial Economics: Production

3 credits

Microeconomic principles applied to agricultural production and the management of agribusiness firms with an introduction to spreadsheet based statistical, mathematical and optimization techniques for analyzing and solving real world management problems.

Prereq: ECON 202 or ECON 272; and MATH 143 with a grade of 'C' or better .

AGEC 302 Managerial Economics: Consumption & Markets

3 credits

Microeconomic principles applied to agricultural markets and consumer demand, with an introduction to spreadsheet based statistical and forecasting tools for analyzing associated real world pricing and consumer demand concerns facing managers of agribusiness firms.

Prereq: ECON 202 or ECON 272; and MATH 143 .

AGEC 303 Principles of Agricultural Economics

1 credit

Review, discussion and application of basic economic, agribusiness, and natural resource principle as applied to the agricultural economics profession. The principles are reviewed in a game show format. Students will have an opportunity to attend the American Agricultural Economics Association annual meetings and test their knowledge of these principles with students from other universities. Recommended preparation:

AGEC 301 and AGECE 302. (Spring only)

Prereq: AGECE 101 and AGECE 278; and ECON 272 or ECON 201 and ECON 202 .

AGEC 333 Introduction to Sales

3 credits

Introduction to the economic and consumer behavior theory of the sales industry. Fundamentals of professional business-to-business selling, business-to-consumer selling, sales ethics, and career assessment. (Spring only)

AGEC 356 Agricultural and Rural Policy

3 credits

Goals, methods, results of economic programs and policies in agriculture, including role of governmental and farm organizations. Recommended Preparation: ECON 201 and 202.

AGEC 385 Environmental Economics

3 credits

Cross-listed with ECON 385

Theory of externalities and public goods, and application of economic principles to environmental issues.

Prereq: ECON 202 or ECON 272 or Permission .

AGEC 398 (s) Internship

1-6 credits, max 6

Graded P/F.

Prereq: Permission.

AGEC 404 (s) Special Topics

Credit arranged.

AGEC 405 (s) Professional Development

Credit arranged.

AGEC 410 Experiencing the Idaho Public Policy Making Process

1 credit

Assessment of policy topics currently facing the agricultural industry. Students will travel to Boise while the legislature is in session to become familiar with the policy making process and to discuss current policy issues with industry and legislative officials. Three, three hour evening classes. (Spring Only)

Prereq: AGECE 356 or permission.

AGEC 411 The World of International Agribusiness

1 credit

Draws on the experience and wisdom of practitioners of international businesses engaged in various fields of agriculture. Examination of current trade practices and issues. (Fall only)

Prereq: Junior standing.

AGEC 413 Management of Human Resources in Agribusiness Firms

1 credit

Processes involved in the management of the human resources of organizations and the study of the personal attributes and behaviors associated with successful managers. Five week course. Three hours of lec per week. (Fall Only)

Prereq: Junior standing.

AGEC 414 Financial Analysis of Agricultural Firms

3 credits

Applying cost analysis and three financial statements analysis to the management of an agricultural business. Evaluating relative performance of agricultural firms by using financial ratios, ride-on investment evaluation (by employing Net Present Value and Internal Rate of Return), leasing vs. buying, and financial modelling (proforma statement) for agricultural firms. Examination of cost and accrual based income statement for tax and management decisions. Create a cash flow statement for agricultural firms based on the income and balance sheet statements. Three hours of lec per week. (Fall Only)

Prereq: ACCT 201 and AGECE 278, or permission.

AGEC 415 Entrepreneurial Skills in Agribusiness Management

1 credit

An examination of fundamental entrepreneurial responsibilities of managers in agricultural and natural resource based firms. Identification and development of business goals, tactical and strategic plans, environmental assessment, and decision-making. Five week course. Three hours of lec per week. (Fall Only)

Prereq: AGECE 278 or permission.

AGEC 417 Risk Management in Agriculture

1 credit

Identification of risks facing agricultural based firms. Assessment of risk management tools and strategies (e.g. agriculture insurance programs and enterprise diversification) as applied to decision making. Five week course. Three hours of lec per week. (Spring Only)

Prereq: AGECE 278, and AGECE 301 or AGECE 302.

AGEC 418 Developing Negotiation Skills in Agribusiness

1 credit

Understanding the art and science of securing agreements between two or more independent parties by managing interdependence, engaging in mutual adjustment, creating or claiming value, and managing conflict. (Spring only)

Prereq: Junior or Senior standing .

AGEC 419 Development and Analysis of Enterprise Budgets

1 credit

Examination of accounting and economic costs and their importance in enterprise cost analysis. Identification and allocation of operating and ownership costs to enterprises. Introduction to software packages used in the development of cost and return estimates. (Spring only)

Prereq: AGECE 278 or Permission .

AGEC 433 Advanced Sales

3 credits

Building on principles of professional sales and sales management, students will learn additional processes, procedures and practices of sales professionals. Students will apply the old and new concepts when selling a product to be determined to actual customers.

Prereq: AGECE 333 and MKTG 422 .

AGEC 447 International Development Economics

3 credits

Gen Ed: International

Cross-listed with ECON 447 and LAS 447.

Characteristics of development; historical perspective; macroeconomic theories and policies: models of growth, poverty, inequality, trade, aid and debt; microeconomic theories and policy: health, nutrition and education, agriculture, rural markets for land, labor and credit, and corruption

Prereq: ECON 201 and ECON 202; or ECON 272; or Permission .

AGEC 451 Applied Environmental and Natural Resource Economics

3 credits

Economic analysis of current issues pertaining to environmental and natural resources. Economic tools will be applied in the contexts of climate change, valuation of the environment, sustainable development, energy, water, environmental risk, etc. Specific cases used to describe economic theories and tools used by experts working in the field.

Prereq: AGECE 301 or AGECE 302, or ECON 351 or ECON 352, or by Permission.

AGEC 468 Risk Management: Commodity Merchandising

1 credit

Fundamental functions of a commodity merchandiser within the agricultural food supply chain, including risk management through basis trading and margin management of a hedged marketing position, are learned through utilizing actual cash grain ownership and exchange-traded futures. One credit lab also engages students directly with regional grain trade, commodity brokers and allied industries.

AGEC 477 Law, Ethics and the Environment

3 credits

Joint-listed with AGECE 577

Examines the laws and related ethical questions pertaining to agricultural and natural resource issues. Graduate credit includes special projects and additional discussion meetings. Recommended Preparation: BLAW 265.

Prereq for 477: Junior standing

Prereq for 577: Graduate standing and FOR 235 or POLS 364; or Permission .

AGEC 478 Advanced Agribusiness Management

3 credits

Gen Ed: Senior Experience

The capstone class for Agribusiness and Agricultural Economic students. Economics and agribusiness theory is put into practice through decision cases. Team building, written, and oral presentation skills are stressed. The course includes a one-hour lab to facilitate group work and instructor-group interaction. (Spring Only)

Prereq: AGECE 301, AGECE 302, ACCT 201, ACCT 202, and Senior standing; or permission.

AGEC 481 Agricultural Markets in a Global Economy

3 credits

Gen Ed: International

Analysis of agricultural market competition and performance in a global economy; economics of global food and commodity markets and trade; economic principles applied to interaction of economic events in the world food economy.

Prereq: AGECE 301 or ECON 352 or permission.

AGEC 486 Regional Economic Development Theory

3 credits

Joint-listed with AGECE 586.

Theory course in the explanation and causes of regional economic growth and community development. Topics include land economics, transportation models, central place theory, location theory, agglomeration, economic base theory, and economic growth theory. Additional projects/assignments required for graduate credit.

Recommended Preparation: Introductory Microeconomics and Macroeconomics or Introduction to Bioregional Planning. (Spring only)

AGEC 489 Understanding and Using Futures and Options Markets**3 credits**

How futures and options markets work, types of futures and options markets, a practical understanding of their role as investment and risk management tools, and individual student management of a simulated futures and options trading account.

Prereq: MATH 143 or higher, and ECON 202 or ECON 272.

AGEC 489L Applied Commodity Market Analysis Lab**1 credit**

The lab builds upon agricultural marketing risk-management concepts introduced in AGECE 489 – “Understanding and Using Futures and Options Markets”. Students will develop spreadsheets containing historical supply and demand data along with actual cash and futures price series on chosen commodity sectors. Appropriate tools and methodologies will then be applied to analyze historical patterns, parameters, basis, seasonality and charting techniques. Lab material coverage will coincide with homework assigned in AGECE 489. Dataset, analytical tools, and actual futures trading platform will then be utilized to develop an applied risk-management hedging program.

Coreq: AGECE 489 .

AGEC 497 Teaching Ag Econ/Agribusiness**1-3 credits**

Supervised class observation and course preparation, and an opportunity to present one or several lectures in specific agribusiness and agricultural economics areas. Incorporates learning and teaching methods applied in professional settings; may include advanced practices for competitions, field or lab activities, and client interactions. Max enrollment 5. Recommended preparation: senior standing.

Prereq: Permission .

AGEC 498 (s) Internship

Credit arranged.

AGEC 499 (s) Directed Study

Credit arranged.

AGEC 500 Master's Research and Thesis

Credit arranged.

AGEC 501 (s) Seminar

Credit arranged.

AGEC 502 (s) Directed Study

Credit arranged.

AGEC 504 (s) Special Topics

Credit arranged.

AGEC 505 (s) Professional Development

Credit arranged.

AGEC 506 Faculty Seminar Series**0 credits**

Focus on current issues impacting agriculture, natural resources, and community development through seminars introducing research occurring in the department.

AGEC 525 Master's Econometrics**3 credits**

Cross-listed with STAT 525.

Multivariate linear regression and analysis of variance with economic applications. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 431 or equivalent; or Permission of Instructor .

AGEC 526 Master's Microeconomics Analysis**3 credits**

Master-level, calculus-based producer and consumer theory with selected managerial economics topics. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: Permission .

AGEC 527 Mathematics for Economists**3 credits**

Mathematical methods applicable to economic analysis and research.

Cooperative course available to WSU degree-seeking students. (Fall only)

Prereq: ECON 352 and MATH 160 or MATH 170 .

AGEC 529 Research Methods**1-2 credits**

Social science Master's thesis as a research journey toward craftsmanship including elements of imagination, modeling, mindfulness, guidelines, and mentor experiences. Cooperative: open to WSU degree-seeking students.

Prereq: Graduate standing and Permission .

AGEC 532 Natural Resource Economics and Policy**3 credits**

Economic principles and models applied to natural resource problems, issues, and policies. Cooperative: open to WSU degree-seeking students. (Spring Only)

Prereq: ECON 352 or Permission .

AGEC 533 International Trade and Policy**3 credits**

International trade theories and policies and research issues related to world trade, with emphasis on agricultural commodity markets. Cooperative: open to WSU degree-seeking students. (Spring Only)

Prereq: ECON 446, AGECE 481, or Permission.

AGEC 534 Production Economics**3 credits**

Production economics theory and methods applied to problems of production response, economic optimization, technology, policy, risk and dynamics. Cooperative: open to WSU degree-seeking students.

Prereq: AGECE 526 or Permission .

AGEC 535 Applied Industrial Organization**3 credits**

Economic and strategic management theories and their relevance to agribusiness decision-making, including empirical applications. Cooperative: open to WSU degree-seeking students. (Fall only)

AGEC 577 Law, Ethics and the Environment**3 credits**

Joint-listed with AGECE 477, Cross-listed with ENVS 577

Examines the laws and related ethical questions pertaining to agricultural and natural resource issues. Graduate credit includes special projects and additional discussion meetings. Recommended Preparation: BLAW 265.

Prereq for ENVS 577: Graduate standing and FOR 235 or POLS 364; or Permission.

AGEC 586 Regional Economic Development Theory

3 credits

Joint-listed with AGECE 486

Theory course in the explanation and causes of regional economic growth and community development. Topics include land economics, transportation models, central place theory, location theory, agglomeration, economic base theory, and economic growth theory. Additional projects/assignments required for graduate credit.

Recommended Preparation: Introductory Microeconomics and Macroeconomics or Introduction to Bioregional Planning. (Spring only)

AGEC 587 Regional Economic Development Methods

3 credits

Methods course in the tools of regional economics and community development. Topics include Community Economic Profiling, Input-Output Analysis, Social Accounting, General Equilibrium Analysis, Social Benefit-Cost Analysis, and Non-Market Valuation. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: AGECE 586 or Permission .

AGEC 597 Applied Economics Teaching Practicum

1-3 credits

Graded Pass/Fail. The teaching practicum is an opportunity for students to improve teaching methods and techniques, and expand professional skills under the guidance of mentors from the AERS faculty. The teaching practicum may include classroom lectures, demonstrations, grading assistance, or other related activities.

AGEC 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: permission.

AGRICULTURAL EDUCATION (AGED)

AGED 140 Introduction to Organizational and Personal Leadership Development

1 credit

This course is designed to introduce the student to important concepts in organizational and personal leadership development. Topics will include organizational leadership, citizenship, and cooperation, personal development, employee/employer relations, and group and individual interpersonal communications skills.

AGED 158 Introduction to Supervised Agricultural Experience Programs

1 credit

This course is designed to introduce the student to important concepts in conducting and organizing supervised agricultural experience projects related to secondary agricultural education classroom and local FFA chapter. Topics will include project planning, goal setting, budgeting, record keeping, basic technical writing, project/program evaluation, employability skills, citizenship, employee/employer relations, and group and individual interpersonal communication skills. (Spring only)

AGED 159 Introduction to the FFA Organization

1-2 credits

This course is designed to introduce the student to important concepts in conducting, organizing, and competing in activities inherent in the Idaho and National FFA Organizations as an outgrowth of the secondary agricultural education classroom instruction and coupled with a successful supervised agricultural experience program. Topics will include parliamentary procedure, FFA History and activities, public speaking and communications, project planning, goal setting, budgeting, record keeping, basic technical writing, project/program evaluation, employability skills, citizenship, employee/employer relations, and group and individual interpersonal communication skills. (Spring only)

AGED 160 Survey of the Expectations and Responsibilities of Teaching High School Agriculture

1 credit, max 2

This course is designed for high school students interested in pursuing a career in agricultural education and will serve as a bridge class between high school and collegiate level teacher education courses. The course will include an exploration of the professional qualities and expectations of the teacher/educator. Roles, responsibilities and challenges in the field of education, leadership, and communication will be examined.

AGED 180 Introduction to Agricultural Education

1 credit

Overview of the goals, mission, and purpose agricultural education programs in High Schools. Course content will include topics related to career opportunities in Agricultural Education, key issues facing agricultural education programs in high schools at the local, state, and national levels; the importance of agricultural education to society; and the role of the agricultural educator in schools and communities. (Fall only)

AGED 200 (s) Seminar

Credit arranged

Prereq: Permission.

AGED 204 (s) Special Topics

Credit arranged.

AGED 251 Principles of Agricultural Communications and Leadership

3 credits

This course prepares individuals to serve in leadership and communication roles in agriculture. Course topics will include an examination of the journalistic, communication and broadcasting principles to develop and disseminate agricultural information, along with leadership principles related to leadership theory and personal leadership development.

AGED 258 Experiential Learning and SAE Programs

1 credit

This course addresses the role of experiential learning in Agricultural Education programs. A sound understanding and application of these programs is essential to the success of the local program. The emphasis of the course will be to provide students with supervised experience in agriculture. Record keeping skills will be developed to assist the student in planning, decision-making, and reporting.

AGED 299 (s) Directed Study

Credit arranged.

AGED 301 (s) Undergraduate Research

1-3 credits, max 3

Undergraduate research for students in agricultural education.

Prereq: Instructor Permission .

AGED 350 Leadership Event Coordination

1 credit

This course introduces students to the planning and implementation of leadership activities for the FFA - Career & Technical Student Organization. Students will use leadership, communications, and teambuilding skills to plan leadership and career development events (CDE/LDE), awards ceremonies, educational workshops, and stakeholder activities as part of the Idaho FFA State Leadership Conference (travel required). Students will collaborate with stakeholder groups including the Idaho FFA Association, Idaho FFA Alumni, Idaho FFA Foundation, Idaho Agriculture Teachers Association (IATA), and the Idaho Division of Career and Technical Education.

AGED 351 Career and Technical Education

3 credits

Overview and interpretation of history, aims, and purposes of public education and career and technical education, issues and programs comprising education in Idaho and the U.S.

AGED 358 Supervising FFA and SAE Programs

3 credits

Role of secondary agriculture instructors in supervising FFA and Supervised Agricultural Experience programs. One lecture and one 2-hr lab a week. (Fall only)

Prereq: Agricultural Education major, and Permission

Prereq or Coreq: AGED 180 .

AGED 359 Developing 4-H Youth Programs

AgEd 359 Developing 4-H Youth Programs (2 cr)

Planning, development, and leadership principles of 4-H/youth program; role of 4-H/youth educator and volunteer leader. Web-based course.

AGED 398 (s) Internship

AGED 400 (s) Seminar

Credit arranged.

AGED 403 (s) Workshop

Credit arranged.

AGED 404 (s) Special Topics

Credit arranged.

AGED 405 (s) Professional Development
Credit arranged.

AGED 406 Exploring International Agriculture
3 credits

Gen Ed: International

General overview of agriculture around the world and the opportunity to develop an in-depth knowledge of agriculture in a country or region of student's choice. (Spring only)

Prereq: Junior or Senior standing; and AGED 180, ASM 112, or SOIL 205; or Permission .

AGED 407 Global Agricultural & Life Sciences Systems
3 credits, max 9

This course will introduce students to the history, culture, economy and agricultural systems of a selected foreign country emphasized through a planned short-term international field experience. Through study and travel to the select country, students will be exposed to the history of the country, important cultural sites, production agriculture field operations, agricultural business enterprises, and international agricultural markets. Students will participate in educational and pre-trip informational sessions along with post-trip debriefing, class discussions, completing reports and developing presentations for other CALS classes and clubs about their experience.

AGED 448 Foundations of Extension Education
2 credits

Joint-listed with AGED 548.

Philosophy and principles, social and economic significance of extension education in agricultural and life sciences and the examination of behavioral science concepts in organization, development, and management of extension programs. Credit earned in AGED 548 by completion of in-depth paper or project on some aspect of extension programming. (Fall, alt/yrs)

AGED 450 Developing Leaders
3 credits

Joint-listed with AGED 550.

An action-oriented, participatory examination of aspects of "leadership." Designed to stir students' excitement about becoming leaders in school, home, and community; help students develop enthusiasm and interest in focusing on their vision for the future; individual and group activities allow students to identify their leadership philosophy, enhance their strengths, and improve on their weaknesses. Additional projects/ assignments reqd for grad cr. (Alt/yrs, Spring only)

AGED 451 Communicating in Agriculture
3 credits

Principles and practices of disseminating knowledge and information related to agricultural sciences, environment, and natural resources to clients and the general public; communications concepts, technology, and presentation skills that will help agricultural and natural resource professionals communicate effectively within their chosen profession.

AGED 452 Methods of Teaching Agriculture
4 credits

Procedures of identifying and selecting instructional methods and materials, planning, and student evaluation criteria to effectively teach agriculture. (Fall only)

Prereq: AGED 180, Agricultural Education major, and Permission

Prereq or Coreq: AGED 358.

AGED 453 Program Planning in Secondary Agricultural Education
3 credits

Planning, organizing, and implementing secondary programs in agriculture. This course is to be taken during the student teaching semester. (Spring only)

Prereq: AGED 452, Agricultural Education major, and Permission.

AGED 454 Facilities Organization and Management
A2 credits

Applications of efficient planning, organizing, and teaching skills reqd in management of lab and shop facilities.

Prereq: AGED 180, Agricultural Education major, and Permission

Prereq or Coreq: AGED 358 .

AGED 460 Practicum: Secondary School Teaching in Agriculture
10 credits

Fifteen (15) wks of practical experience student teaching in secondary agriculture program. (Spring only)

Prereq: Admission to the Teacher Education Program, and perm of dept.

AGED 461 Student Teaching Portfolio
2 credits

Summary of the 15-week practicum experience; a notebook portfolio to include unit lesson plans, daily teaching plans, video example of teaching, report of early field experience, daily journal, summary of 10 positive and 10 challenging teaching experiences, supervisory assessments of teaching by cooperating instructor and university supervisor, and cooperating teacher's final evaluation. (Spring only)

AGED 470 Proseminar in Agricultural Education
1 credit

Professional issues in agricultural education. Fall semester includes additional 8-hour Saturday session for CPR and first aid training.

Prereq: Admission to Teacher Education Program, or Permission of department.

AGED 471 Senior Capstone in Agricultural Education
1 credit

Gen Ed: Senior Experience

This course serves as the senior capstone course for the Bachelors of Science degree in Agricultural Education. The course meetings will include a meeting during the Idaho FFA State Leadership Conference in April, a final presentation, and a senior capstone debriefing meeting at the end of the student-teaching field-experience.

Prereq: AGED 470

Coreq: AGED 460 and AGED 461 .

AGED 498 (s) Internship
1-10 credits, max 10

Gen Ed: Senior Experience

Formalized learning experience in an actual work setting. Students work in an agriculturally related organization or agency and commit to a minimum of 40 hours of supervised work per semester credit. Requires completion of a formal proposal.

Prereq: Junior or Senior standing; GPA of 2.75 and Permission.

AGED 499 (s) Directed Study
Credit arranged.

AGED 500 Master's Res & Thesis
Credit arranged.

AGED 501 (s) Seminar
Credit arranged.

AGED 502 (s) Directed Study
Credit arranged.

AGED 503 (s) Workshop**Credit arranged.****AGED 504 (s) Special Topics****Credit arranged.****AGED 505 (s) Professional Development****Credit arranged.****AGED 548 Foundations of Extension Education****2 credits**

Joint-listed with AGED 448.

Philosophy and principles, social and economic significance of extension education in agricultural and life sciences and the examination of behavioral science concepts in organization, development, and management of extension programs. Credit earned in AGED 548 by completion of in-depth paper or project on some aspect of extension programming. (Fall, alt/yrs)

AGED 550 Developing Leaders**3 credits**

Joint-listed with AGED 450.

An action-oriented, participatory examination of aspects of "leadership." Designed to stir students' excitement about becoming leaders in school, home, and community; help students develop enthusiasm and interest in focusing on their vision for the future; individual and group activities allow students to identify their leadership philosophy, enhance their strengths, and improve on their weaknesses. Additional projects/assignments reqd for grad cr. (Alt/yrs, Spring only)

AGED 560 Beginning Teacher Induction in Agricultural Education I**1 credit, max 2**

This course is designed to develop an understanding and application of teaching agriculture using the three-circle model. The course is taught using on-site clinical supervision, technical assistance, leadership, follow-up and support to beginning teachers of secondary agricultural education program. (Fall only)

AGED 561 Beginning Teacher Induction in Agricultural Education II**1 credit**

This course is designed to develop an understanding and application of teaching agriculture using the three-circle model. The course is taught using on-site clinical supervision, technical assistance, leadership, follow-up and support to beginning teachers of secondary agricultural education program. (Spring only)

AGED 562 Instructional Methods in Agricultural Education**3 credits**

Innovations and advanced principles in teaching methods and materials.

AGED 563 History and Philosophy of Agricultural and Extension Education**3 credits**

This course will review the development and growth of land-grant universities, agricultural experiment stations, the cooperative extension system, secondary and post-secondary agricultural programs, and the 4-H and FFA youth development organizations. Participants will conduct historical research and prepare a historical research manuscript for publication.

AGED 564 Curriculum Development in Agricultural Education**3 credits**

Design and development of data based curriculum and curriculum evaluation procedures in agricultural and extension education. Critique of curriculum development models, contemporary trends and issues, curriculum resources and accountability tools. Analysis of the use of national and state standards as well as local community needs in curriculum development .

AGED 565 Program Planning and Evaluation in Agricultural Education**3 credits**

This course is designed to develop an understanding of Program Planning and Evaluation relevant to secondary agricultural education. Theories of program planning, evaluation principles, models, and procedures used in developing and analyzing agricultural education programs, conducting needs assessments, and the marketing of outcomes to major stake-holders .

AGED 566 Advanced Philosophies of Teaching & Learning in Agricultural Education**3 credits**

Foundations and theories of teaching and learning with emphasis on applications in the secondary agricultural education classroom. Emphasis will be placed upon behavioral, social cognitive, cognitive, information processing, brain-based, constructivist, developmental, motivational, and transformational theories as they apply in contemporary agricultural education settings. Advanced teaching methods and pedagogies based on researched best-practices.

AGED 598 (s) Internship**Credit arranged.****AGED 599 (s) Non-thesis Master's Research****Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.

AGRICULTURAL SYSTEMS MGT (ASM)

ASM 105 Survey of Agricultural Mechanics

1-3 credits, max 3

This course is designed to introduce the student to the principles of technology in agriculture. It includes the development of knowledge and skills pertaining to agricultural mechanics, welding, power technology, electricity, and structures. It will provide introductory learning experiences for students in the areas of agricultural systems management.

ASM 107 Beginning Welding

2 credits

Principles of operation, use, and care of arc and acetylene welding equipment. One lec, one 2-hr lab, and two hrs of individual practice a wk. Enrollment limited to 12 per section. Cooperative: open to WSU degree-seeking students.

ASM 112 Introduction to Agricultural Systems Management

3 credits

Application of basic engineering principles to solving problems dealing with farm machinery, buildings, processing, irrigation, and energy use. Recommended Preparation: high school algebra.

ASM 200 (s) Seminar

Credit arranged.

ASM 202 Agricultural Shop Practices

2 credits

Primarily for agricultural mechanization and agricultural education students. Operation, use, and care of shop tools and equipment. One lecture and one 3-hour lab a week.

ASM 204 (s) Special Topics

Credit arranged.

ASM 210 Small Engines

2 credits

Principles of engine operation, tune-up, and maintenance; repair and overhaul of small engines. One lecture, one 2-hour lab, and two hours of individual practice a week. Enrollment limited to 12 per section.

ASM 299 (s) Directed Study

Credit arranged.

ASM 305 GPS and Precision Agriculture

3 credits

This course will cover the fundamentals of global positioning, yield monitors, and variable rate applications. Instrumentation used in agriculture, environmental science, and industry will be discussed. Two lectures and one 3-hour lab a week. Cooperative: open to WSU degree-seeking students.

ASM 315 Irrigation Systems and Water Management

3 credits

Irrigation methods, irrigation management, water rights, conveyance and measurement, pumps, soil-water-plant relationships, and drainage. Two lectures and one 3-hour lab a week. Cooperative: open to WSU degree-seeking students.

Prereq: SOIL 205, MATH 108, MATH 143, MATH 160 or MATH 170 or Permission.

ASM 331 Electric Power Systems for Agriculture

3 credits

Basic circuits; wiring and the code; motors and controls; heating, lighting, and power. Two lectures and one 3-hour lab a week. Cooperative: open to WSU degree-seeking students.

ASM 398 (s) Internship

1-6 credits, max 6

Graded P/F.

Prereq: Permission.

ASM 400 (s) Seminar

Credit arranged.

ASM 403 (s) Workshop

Credit arranged.

ASM 404 (s) Special Topics

Credit arranged.

ASM 407 Advanced Welding

1 credit

This course provides the student an opportunity to learn various advanced welding theories, practices and applications for ferrous and non-ferrous metals, which include Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), Gas Tungsten Arc Welding (GTAW) and Plasma Arc Cutting (PAC). These are only introduced in ASM 107, Beginning Welding, and will be covered in depth in this course. This course will also provide the student with a technical understanding of calculating material and use of proper procedures for the completion of project manufactured in the lab. Student presentations and demonstrations are required. This course will introduce emerging technologies in welding and fabrication industries.

Prereq: ASM 107 and Permission .

ASM 409 Agricultural Tractors, Power Units and Machinery Management

4 credits

This course focuses on the selection, operation, adjustment, and servicing of farm tractors and power units. Fuels, lubrication, cooling, and electrical systems will also be covered. Machinery operation, power transmission systems, hitching, traction, and safety are also discussed. The course will conclude with discussions on depreciation and machinery replacement. Three 1-hour lectures and one 3-hour lab a week.

ASM 412 Agricultural Safety and Health

2 credits

Covers a broad variety of items related to agricultural safety and health: identification of safety and health hazards, maximizing capabilities of farmers and ranchers with disabilities, grain and livestock handling, chemical and gases handling, and fire safety; corrective measures to eliminate hazards and application of information learned to student's own situation. (Alt/yrs)

ASM 433 Agricultural Processing Systems

3 credits

Grain cleaning, mixing, and drying; materials handling, heat transfer, pumps, fans, refrigeration, and instrumentation. Two lectures and one 3-hour lab a week; one 1-day field trip. Recommended Preparation: MATH 160.

ASM 498 (s) Internship

1-6 credits, max 6

Graded P/F.

Prereq: Permission.

ASM 499 (s) Directed Study

Credit arranged.

AMERICAN INDIAN STUDIES (AIST)

AIST 110 Community Building

3 credits

This course is aimed towards first generation college students from indigenous communities. This course helps students build community support through existing programs at the university and facilitates students' connections with their tribal cultures. It also helps students develop good study habits and build study skills.

AIST 111 Intro to Success

1 credit

This course assists each student's academic, cultural, and social adjustment to the University. The course is also designed to provide supportive tools and resources to each student to ensure they are maximizing their ability. The course will focus on a few of the topic areas: time management, organization skills, tribal issues and tribal governmental structures, importance of diversity, learning styles, budgeting, and test taking.

AIST 204 (s) Special Topics

Credit arranged.

AIST 210 Native Identities

3 credits

This course is intended to develop a dynamic modern understanding of indigenous communities and self. The class will focus on such themes as family, history, blood & kinship, colonization, treaty rights and sovereignty, land and linguistics.

AIST 244 (s) Tribal Elders Series

3 credits, max 9

This course is intended to share information from the neighboring tribes surrounding the University of Idaho. Elders from these communities will share a tribal epistemology that each tribe considers to be essential to an education of an adult. Such educational perspective may often be missing/misrepresented or misunderstood in current university pedagogy. This class will place an emphasis on contemporary indigenous voices. This course will have a subtopic heading to incorporate the possibility of having many neighboring tribes participate.

AIST 314 Tribal Sovereignty and Federal Policy

3 credits

The Tribal Sovereignty and Federal Policy course is designed to provide an in-depth understanding of how colonial and Federal Indian Policies have impacted the lives of Tribes and their surrounding communities. Through a survey of the changing eras of policy (conquest, pre-Revolutionary approaches, the Marshall Trilogy, the Treaty Era, Allotment and Termination, and Self-Determination), students will learn about the forces that have shaped tribal communities, and a deeper appreciation for tribes' efforts to restore and exercise their sovereignty. Tribal Sovereignty as it applies to land management, natural resources and community development will be a focal area.

AIST 320 Native American & Indigenous Film

3 credits

Gen Ed: American Diversity

Examines the representation of American Indians in film from early-mid 20th century Hollywood westerns to self representations of late 20th and early 21st century films made by Native Americans. Traces changes in the cinematic depictions of Native peoples and historical and cultural reasons for those changes. Emphasizes Native-made film as extension of oral tradition, indigenous aesthetics, and sovereignty. May include international Indigenous films.

AIST 344 Indigenous Ways of Knowing

3 credits

The course is intended as an introduction to issues of cultural, racial, ethnic and linguistic diversity that arise in American school and society. In particular we will be looking at indigenous epistemological comparison with Western educational models. The central question for the course will be: Why is educational attainment different for different groups in society, and how does that difference relate to social stratification characteristics of the larger society? We will also try to answer other questions: What is the impact of cultural and linguistic diversity on the various institutions of society, including family, schools, and the economic system? What policies and programs have been developed in the US and other societies to deal with cultural diversities? These and other questions will be the basis for our reading and discussions.

AIST 400 (s) Seminar

Credit arranged.

AIST 401 Contemporary American Indian Issues

3 credits

Gen Ed: American Diversity

Identifies and addresses key cultural, economic, educational, legal, resource, and sovereignty issues facing Indian communities today; an essential component involves presentations by representatives from the Indian communities. (Spring only)

AIST 403 (s) Workshop

Credit arranged.

AIST 404 (s) Special Topics

Credit arranged.

AIST 411 Native American Architecture

3 credits

Gen Ed: American Diversity

Cross-listed with ARCH 411

An exploration of Native American architecture in North America, including ancient, historic, and contemporary buildings and settlements within their diverse social, cultural, and physical contexts. Additional assignments required for graduate credit. (Spring only)

AIST 412 Tribal Governance

3 credits

This course is intended to impart an understanding of the vitality and rich diversity of contemporary American Indian societies, their histories, and their literatures, e.g., in the arts and expressive culture, governmental affairs both indigenous and external, economics, ecological relations and natural resources, health care, and family, social and religious life, oral traditions, world views and cultural values. This understanding is inclusive of both indigenous cultural and contact-historical expressions. An understanding of Tribal sovereignty and its varied meanings is key to this outcome.

Prereq: AIST 210 .

AIST 420 Native American Law

3 credits

Cross-listed with LAW 949

Study of Tribal Sovereignty and interaction with the U.S. government at various levels with an emphasis on treaty rights, jurisdictional issues, the trust relationship, protection of lands, the eras of U.S. Indian policy, and the continued assertion of tribal rights and interests. LAW 949 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 420 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course.

AIST 421 Native American Natural Resource Law

3 credits

Cross-listed with LAW 979

Study of the natural resources over which Tribal Nations assert stewardship or seek to influence others regarding protection of resources including sacred sites, land use and environmental protection, natural resource development, taxation, water rights, rights associated with hunting, fishing and gathering, and international approaches to indigenous lands and resources. Recommended Preparation: LAW 949. LAW 979 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 421 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course.

AIST 422 Plateau Indians

3 credits

Gen Ed: American Diversity

Cross-listed with ANTH 422 and RELS 422

An overview of historic and contemporary Indian cultures of the Plateau; oral traditions, ceremonial life, social organization, and subsistence activities; history of contact with Euro-American society. Two 1 to 2-day field trips reqd. Additional projects/assignments reqd for grad cr. ANTH 422 is a cooperative course available to WSU degree-seeking students.

AIST 426 Red Earth White Lies: American Indian History 1840-Present

3 credits

Gen Ed: American Diversity

Cross-listed with HIST 426.

Survey 1840 to present; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S. Additional work required for graduate credit.

AIST 431 Stolen Continents, The Indian Story: Indian History to 1840

3 credits

Gen Ed: American Diversity

Cross-listed with HIST 431

Survey 1400 to 1840; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S. Additional work required for graduate credit.

AIST 478 Tribal Nation Economics and Law

3 credits

Cross-listed with LAW 928

Survey of economic development strategies by various Tribal Nations, including an overview of federal incentive programs and disincentives for the growth of strong tribal economies. Tribal legal codes, commercial projects, and federal Indian law parameters will be discussed. Topics will include: the tribal government-owned corporate model, gaming enterprises, economic diversification, the federal 8(a) program, limitations on tribal tax-exempt bond offerings, and value-added on-reservation products. LAW 928 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 478 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course. (Spring, alt/yrs)

AIST 484 American Indian Literature

3 credits

Gen Ed: American Diversity

Cross-listed with ENGL 484

Major themes and traditions in American Indian texts.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258 .

AIST 498 (s) Internship

Credit arranged

Supervised internship in an Indian community setting, integrating academic study with work experience; requires formal plan of activities to be approved by the on site supervisor and assigned faculty member; a final written report will be evaluated by the assigned faculty member.

Prereq: Permission.

AIST 499 (s) Directed Study

Credit arranged.

AMERICAN STUDIES (AMST)

AMST 200 (s) Seminar

Credit arranged.

AMST 203 (s) Workshop

Credit arranged.

AMST 204 (s) Special Topics

Credit arranged.

AMST 299 (s) Directed Study

Credit arranged.

AMST 301 Studies in American Culture

3 credits

Gen Ed: Humanities, American Diversity

In-depth exploration of a significant theme or issue in American society from a variety of disciplinary perspectives; specific focus may vary, but includes consistent incorporation of a historical dimension, attention to inequalities and diversity, and analysis of aspects of contemporary American culture including a global context.

Prereq: ENGL 102; Jr standing or Permission.

AMST 400 (s) Seminar

Credit arranged.

AMST 403 (s) Workshop

Credit arranged.

AMST 404 (s) Special Topics

Credit arranged.

AMST 499 (s) Directed Study

Credit arranged.

ANIMAL AND VETERINARY SCIENCE (AVS)

AVS 105 Survey of the Science of Livestock Production and Management 1-3 credits, max 3

This course is designed to introduce the student to the principles of animal production and management through knowledge and skills pertaining to nutrition, reproduction, diseases, breeding, genetics, anatomy, and physiology in livestock. Course will be offered for 1 credit in the Fall and 2 in the Spring.

AVS 109 The Science of Animals that Serve Humanity 4 credits

Role of animal agriculture in providing food, work, and pleasure for mankind; intro to animal genetics, physiology, endocrinology, nutrition, and other disciplines essential for an understanding of the contributions of animals in the expanding human population.

AVS 110 Science of Animal Husbandry 3 credits

Fundamental concepts of animal husbandry and its foundation in the science of animal production; introduction to the technical subject matter of animal production.

Prereq: AVS 109.

AVS 110L Science of Animal Husbandry Lab 1 credit

Laboratory to support teaching in AVS 110; introductory applications of fundamentals of animal science to domestic animal management and production. One 2-hr lab a week.

Prereq: AVS 109

Coreq: AVS 110 .

AVS 172 Principles and Practices of Dairy Science 2 credits

An overview of the dairy industry and the science of producing milk and reproduction, udder health and mastitis, milk marketing, and dairy product quality and safety; approved management practices for dairy enterprise.

AVS 204 (s) Special Topics Credit arranged.

AVS 222 Animal Reproduction and Breeding 3 credits

Provides fundamental information about reproduction, lactation, and breeding of domestic animals; topics include functional anatomy, basic physiology, and endocrinology relating to reproduction and lactation; animal breeding involves the mathematical and conceptual framework of genetic evaluation.

AVS 263 Live Animal and Carcass Evaluation 3 credits

Evaluation and selection of cattle, sheep, and swine for herd replacement; evaluation of market animals; carcass evaluation and grading, slaughter procedures, and factors that affect quality and quantity of meat; visual and objective appraisals. One lecture and two 3-hour lab a week; four 1-day and four 1/2-day field trips or equivalent time. Cooperative: open to WSU degree-seeking students.

AVS 268 Companion Animal Diseases 2 credits

Principles of disease resistance, transmission, and prevention; clinical signs, pathogenesis, and control of major diseases in companion animals. Recommended preparation: AVS 222 or equivalent.

Prereq: AVS 109 .

AVS 274 Beef Feedlot Systems 2 credits

Overview of feeding management, feed milling and batching, animal health, and economics of the commercial cattle feeding business.

Prereq: AVS 109

Coreq: AVS 110 .

AVS 298 (s) Internship Credit arranged.

AVS 299 (s) Directed Study 1-6 credits, max 6

Graded P/F.

Prereq: Permission of department.

AVS 305 Animal Nutrition 4 credits

Introduction of the concepts and principles of animal nutrition; fundamentals of nutrients and their digestion and metabolism; various biochemical pathways and processes for nutrient utilization; nutrition fundamentals for a range of monogastric and ruminant animals.

Recommended Preparation: BIOL 115, BIOL 115L and CHEM 111, CHEM 111L. Cooperative: open to WSU degree-seeking students.

Prereq: AVS 109.

AVS 306 Feeds and Ration Formulation 4 credits

Application of principles of nutrition to ration formulation for poultry and livestock; evaluating feedstuffs for use in ration formulation. Three lec and one 2-hr lab a wk. Recommended Preparation: AVS 305. Cooperative: open to WSU degree-seeking students.

AVS 317 Artificial Insemination and Pregnancy Detection 3 credits

Anatomy and physiology of pregnant and non-pregnant reproductive systems; artificial insemination; male reproduction; pregnancy detection in domestic livestock.

Prereq: AVS 109; and AVS 222 or AVS 452, Junior/Senior Standing OR instructor permission.

AVS 318 Beef Calving Management 1 credit

Increase student's knowledge and experience of the biology, physiology and management of cows and calves before, during and after the birthing process.

Prereq: AVS 109 and AVS 110 .

AVS 330 Genetics of Livestock Improvement 3 credits

Genetic principles applied to breeding of farm animals. This is a cooperative course available to WSU degree-seeking students.

Prereq: AVS 109.

AVS 363 Animal Products for Human Consumption**4 credits**

Cross-listed with FS 363

The meat, dairy, and egg industries, including product produced, processed, safety (HACCP), nutrition, distribution, quality, quantity, palatability, health, cooking, home storage, and consumer concerns. Special clothing and equipment required. Three lecture credits and one 3-hour lab per week. Recommended Preparation: BIOL 115, BIOL 115L. Cooperative: open to WSU degree-seeking students.

AVS 371 Anatomy and Physiology**3 credits**

Structure and function of tissues and organ systems of domestic and wild animals.

Prereq: BIOL 115, BIOL 115L.

AVS 373 Anatomy and Physiology Lab**1 credit**

Students will perform dissections and examine the relationship between the organization of tissues and their distinct function within the animal. Field trips may be incorporated should teaching opportunities arise though most instruction will be confined to the Physiology and Anatomy laboratory and classroom. (Fall only)

Prereq: AVS 109, BIOL 115, BIOL 115L and Animal and Veterinary Science major

Coreq: AVS 371.

AVS 398 (s) Internship**Credit arranged**

Cooperative programs with producers, allied industry and food processing industries within the state. Graded P/F.

Prereq: Permission.

AVS 404 (s) Special Topics**Credit arranged.****AVS 405 (s) Professional Development****Credit arranged.****AVS 411 Ruminant Nutrition****3 credits**

Joint-listed with AVS 511

Intro to anatomy of digestive tract of ruminant; focus on ruminal and postruminal carbohydrate, protein, and lipid metabolism; ruminal bacteria, protozoa and fungi, microbe-microbe interactions and their role in nutrients utilization; compartmentation of the rumen and microbial protein synthesis; practical aspects of ruminant nutrition and intro to current feeding systems; research techniques in studying ruminal degradation and digesta kinetics. Additional projects/assignments required for grad cr. (Alt/yrs)

Prereq: Permission.

AVS 450 Issues in Animal Agriculture**2 credits**

Gen Ed: Senior Experience

The capstone experience for seniors in AVS; students will present information on selected topics and propose solution to current problems; emphasis on problem solving using integration of information across disciplines.

Prereq: Senior standing.

AVS 452 Physiology of Reproduction**4 credits**

Physiology of reproduction; growth, structure, development, endocrinology, and control of reproductive function with emphasis on farm animals. Three lecture and one 2-hour lab a week. Cooperative: open to WSU degree-seeking students.

Prereq: AVS 109 and BIOL 115 and BIOL 115L or equivalent.

AVS 463 Growth and Lactation**3 credits**

Joint-listed with AVS 563

Principles of animal growth and lactation. Hormonal, nutritional, and metabolic control of bone, muscle, adipose, and mammary tissue development; regulation of lactation.

Prereq: AVS 109 and BIOL 115, BIOL 115L

Coreq: AVS 305 .

AVS 466 Equine Science and Management**3 credits**

Study of the industry as well as basic principles of equine science and management, including conformation and selection, anatomy, form to function, nutrition and feeding, behavior, health, reproduction, marketing, facilities and business management. Two lecture, and one 2-hour lab a week. Cooperative: open to WSU degree-seeking students.

Prereq: Junior standing and AVS 222, AVS 371 and AVS 305 or Permission .

AVS 471 Animal Disease Management**3 credits**

Principles of immunity and disease resistance, transmission, and prevention; clinical signs, pathogenesis, and control of major diseases of economic importance in domestic animals.

Prereq: Junior standing.

AVS 472 Dairy Cattle Management**3 credits**

Establishing a dairy farm, housing and managing large dairy herds, selection of breeding cattle, and marketing quality milk. One 4-day field trip. Recommended Preparation: AVS 222 or equivalent. Cooperative: open to WSU degree-seeking students.

Prereq: AVS 109

Coreq: AVS 305 .

AVS 474 Beef Cattle Science**3 credits**

Breeding, feeding, and management; commercial and purebred enterprises; management of beef cattle on ranges, pasture, and in the feedlot. One 1-day field trip. Recommended Preparation: AVS 222 or equivalent. Cooperative: open to WSU degree-seeking students.

Prereq: AVS 109

Coreq: AVS 305.

AVS 475 Advanced Dairy Management**3 credits**

Application of concepts of dairy cattle management to practical situations. One lecture and 1-2 hours of lab a week. Recommended Preparation: AVS 472. Cooperative: open to WSU degree-seeking students.

Prereq: AVS 305

Coreq: AVS 306 or AVS 411 .

AVS 476 Sheep Science

3 credits

Application of principles of genetics, reproduction, nutrition, health, and marketing to the management of commercial and purebred sheep; new developments related to sheep industry; production, evaluation, and use of wool. Two lectures and one 2-hour lab a week; one 1-day field trip or equiv time. Recommended Preparation: AVS 222 or equivalent.

Prereq: AVS 109.

AVS 498 (s) Internship

Credit arranged.

AVS 499 (s) Directed Study

1-6 credits, max arranged.

AVS 500 Master's Research and Thesis

Credit arranged.

AVS 501 (s) Seminar

Credit arranged .

AVS 502 (s) Directed Study

Credit arranged

Graded P/F.

Prereq: Permission.

AVS 503 (s) Workshop

Credit arranged.

AVS 504 (s) Special Topics

Credit arranged.

AVS 505 (s) Professional Development

Credit arranged.

AVS 509 Growth Physiology Inquisition

2 credits, max arranged

This course will develop skills in critical review of literature in Growth Physiology. Students will study set journal articles describing original research and present their review to the study group in a team participation format. Active participation of the study group, led by the primary reviewer is an essential component of the course. Graduate students are encouraged to take the course multiple times (e.g., each semester). Student performance is evaluated using a six criterion Rubric. For undergraduate credit, students are evaluated across 2-3 achievement levels per criterion. For graduate credit, students are evaluated across 4 achievement levels per criterion as shown in the Course Outline.

AVS 511 Ruminant Nutrition

3 credits

Joint-listed with AVS 411

Intro to anatomy of digestive tract of ruminant; focus on ruminal and post-ruminal carbohydrate, protein, and lipid metabolism; ruminal bacteria, protozoa and fungi, microbe-microbe interactions and their role in nutrients utilization; compartmentation of the rumen and microbial protein synthesis; practical aspects of ruminant nutrition and intro to current feeding systems; research techniques in studying ruminal degradation and digesta kinetics. Additional projects/assignments required for grad cr. (Alt/yrs)

Prereq: Permission.

AVS 517 Macronutrient Metabolism

3 credits

Upon completion of this class students will be familiarized with many aspects of digestion, absorption and metabolism of macronutrients in a detailed level. The emphasis will be on interrelationship and regulation of macronutrients utilization at cellular and organ levels. It is assumed that graduate students have a good knowledge of physiology and biochemistry. Pertinent research manuscripts will be discussed in a round-table fashion.

Prereq: AVS 305, or AVS 411, or similar course .

AVS 531 Practical Methods in Analyzing Animal Science Experiments

3 credits

Upon completion of this class students will be able to manage and analyze data obtained from animal experimentations. This is a "hands-on" type of training, specifically designed for AVS graduate students and intends to provide our graduate students with a better understanding of designs commonly used in animal science experiments, advantages and potential pitfalls associated with each design, data processing and analysis, data tabulation, and graphic illustration, and data interpretation.

Prereq: 400 level statistics course .

AVS 563 Growth and Lactation

3 credits

Joint-listed with AVS 463

Principles of animal growth and lactation. Hormonal, nutritional, and metabolic control of bone, muscle, adipose, and mammary tissue development; regulation of lactation.

Prereq: AVS 109 and BIOL 115, BIOL 115L

Coreq: AVS 305 .

AVS 567 Advanced Physiology

4 credits

An advanced review of physiology designed to emphasize the interaction between structure and function of specialized cells, tissues, organs and systems. The systems to be covered will include but are not limited to, the mammalian cell, hematology neurophysiology, muscle physiology, cardiovascular physiology, pulmonary physiology, renal physiology and whole animal metabolism. Recommended preparation: undergraduate physiology, biology, cell biology, and/or biochemistry. (Spring, alt/odd yrs)

AVS 598 (s) Internship

Credit arranged.

AVS 599 (s) Non-thesis Master's Research

Credit arranged.

AVS 600 Doctoral Research and Dissertation

Credit arranged.

ANTHROPOLOGY (ANTH)

ANTH 100 Introduction to Anthropology

3 credits

Gen Ed: Social Science

Basic theories, methods, and findings of human paleontology, prehistory, and culture.

ANTH 200 (s) Seminar

Credit arranged.

ANTH 203 (s) Workshop

Credit arranged.

ANTH 204 (s) Special Topics

Credit arranged.

ANTH 220 Peoples of the World

3 credits

Gen Ed: Social Science, International

Societies of Eurasia, Africa, Americas, Australia, and islands of the Pacific.

ANTH 230 World Prehistory

3 credits

Prehistoric cultures of Old and New Worlds; techniques of excavation; methods of archaeological analysis.

ANTH 231 Introduction to Archaeology

3 credits

Archaeological techniques for interpreting past lifeways from material remains; includes both prehistoric and historical archaeology.

ANTH 241 Introduction to the Study of Language

3 credits

Cross-listed with ENGL 241.

Surveys of sound patterns, morphological processes and syntactic structures; questions of language acquisition, variation, and history; exercises from a variety of languages, with emphasis on American English.

ANTH 251 Introduction to Physical Anthropology

3 credits

Evidence for primate and human evolution; processes of racial diversification; techniques of physical anthropology; human population biology.

ANTH 261 Language and Culture

3 credits

Gen Ed: Social Science, International

Language as an aspect of culture; the relation of habitual thought and behavior to language.

ANTH 299 (s) Directed Study

Credit arranged.

ANTH 301 Introduction to Diversity and Stratification

3 credits

Gen Ed: Social Science, American Diversity

Cross-listed with SOC 301

An interdisciplinary and historical study of diversity and stratification in a cross-cultural global context. The course examines multiple forms of diversity and stratification including, but not limited to, culture, class, race/ethnic, gender/sexuality, religious diversity, and political ideology in an effort to raise students' ability to interact with and understand others in our increasingly multicultural world. May include service learning.

Prereq: SOC 101.

ANTH 323 Introduction to Museology

3 credits

Theory and practice of science, history, and art museums. One 1-day and two 1/2-day field trips.

ANTH 327 Belief Systems

3 credits

Cross-listed with RELS 327

Method and theory of comparative anthropological study of religion.

ANTH 329 North American Indians

3 credits

Gen Ed: Social Science, American Diversity

Origins, physical types, languages, and cultures of North American Indians.

ANTH 350 Food, Culture, and Society

3 credits

Gen Ed: Social Science, American Diversity

Cross-listed with SOC 350

Examines the structural and cultural implications of eating and producing food in a global world. Utilizing a social scientific framework, it explores the history of particular foods and examines how food systems are racialized, classed and gendered. Primary foci include the social history of food holidays and taboos, the relationships between food and identity, the impact of agricultural production practices on food systems and food security, and forms of resistance to these impacts. Recommended Preparation: ANTH 220 or a 200-level sociology course. May include field trips.

Prereq: SOC 101.

ANTH 400 (s) Seminar

Credit arranged.

ANTH 403 (s) Workshop

Credit arranged.

ANTH 404 (s) Special Topics

Credit arranged.

ANTH 409 Anthropological Field Methods

1-8 credits, max 8

Field training in archaeology and/or social anthropology.

ANTH 411 Human Evolution

3 credits

Joint-listed with ANTH 511

Human origins in light of the fossil record and evolutionary theory. Additional projects/assignments reqd for grad cr. Recommended Preparation: ANTH 100. Cooperative: open to WSU degree-seeking students.

ANTH 412 Human Races

3 credits

Joint-listed with ANTH 512

Human population biology, dynamics of evolution, human ecology, and their relationship to problem of human racial variation. Additional projects/assignments reqd for grad cr. Recommended Preparation: ANTH 100.

ANTH 416 Qualitative Social Science Methods

3 credits

Gen Ed: Senior Experience

Joint-listed with ANTH 516, Cross-listed with SOC 416

This course introduces students to social science research methods that collect qualitative data. It will discuss research design and ethics, data collection processes, and data analysis. Additional work required for graduate credit.

Prereq: SOC 101.

ANTH 417 Social Data Analysis

3 credits

Joint-listed with ANTH 517, Cross-listed with SOC 417

This course introduces students to social science research methods that collect quantitative data. It will discuss research design and ethics, data collection processes, and data analysis. Additional work required for graduate credit.

Prereq: STAT 251 and SOC 101.

ANTH 418 Anthropology of Tourism

3 credits

Joint-listed with ANTH 518

Across the globe, tourism has been touted as a route to economic sustainability and both national and local prosperity. As one of the largest and fastest growing industries in the modern world, tourism can supply wealth and growth opportunities to poverty stricken communities - but at what cost? In this course, we will examine both the advantages and disadvantages to a variety of forms of tourism: sex tourism, "primitive" tourism, heritage tourism, ecotourism, and nature tourism, to name a few. Additional work required for graduate credit.

ANTH 420 Anthropological History and Theory

3 credits, max 9

Historical development of anthropology along with theoretical debates as presented in the anthropological literature.

Prereq: Upper-Division standing.

ANTH 422 Plateau Indians

3 credits

Gen Ed: American Diversity

Cross-listed with AIST 422 and RELS 422

An overview of historic and contemporary Indian cultures of the Plateau; oral traditions, ceremonial life, social organization, and subsistence activities; history of contact with Euro-American society. Two 1 to 2-day field trips reqd. Additional projects/assignments reqd for grad cr. ANTH 422 is a cooperative course available to WSU degree-seeking students.

ANTH 425 Society and Popular Culture

3 credits

Cross-listed with SOC 425

An advanced interdisciplinary survey of the contemporary study of popular culture and its forms. Reviews contemporary theoretical approaches, empirical studies, and representative examples of critical issues and various forms including texts, cultural practices, and material culture. Focus on critical analysis and understanding the significance of popular culture to society and students' everyday lives.

Prereq: SOC 101.

ANTH 427 Racial and Ethnic Relations

3 credits

Gen Ed: Social Science, American Diversity

Cross-listed with SOC 427

Examination of the social construction of racial categories and meanings; theories of race relations; historical and contemporary experiences of racial/ethnic groups in the U.S.; contemporary issues and debates.

Prereq: SOC 101 and a 3 cr lower-division SOC course, or SOC 301/ ANTH 301.

ANTH 428 Social and Political Organization

3 credits

Joint-listed with ANTH 528

Bases of social and political organization; kin based units; non-kin units; political units through primitive states. Additional projects/assignments reqd for grad cr.

Prereq: Upper-Division standing.

ANTH 430 Introduction to Archaeological Method and Theory

3 credits

Joint-listed with ANTH 530

Archaeological theory in anthropological perspective; current trends in method and theory of American archaeology. Additional projects/ assignments reqd for grad cr.

Prereq: ANTH 231 or Permission.

ANTH 431 Historical Archaeology

3 credits

Joint-listed with ANTH 531

Investigation of the techniques of historical archaeology as well as an introduction to historic material culture and the theories that inform historical archaeology research. Additional projects/assignments reqd for grad cr. ANTH 531 is a cooperative course available to WSU degree-seeking students.

Prereq: ANTH 100.

ANTH 432 Historical Artifact Analysis

3 credits

Joint-listed with ANTH 532

An overview and detailed study of the major classes of material culture commonly recovered on historical sites. Course emphasizes the identification of historical materials and introduction of a variety of analytical tools used in historical archaeology.

Prereq: ANTH 230 or ANTH 431 or Permission.

ANTH 433 Applied Cultural Resource Management

3 credits

Joint-listed with ANTH 533

Introduction to the practice of archaeology in the field of Cultural Resource Management. This course emphasizes and exposes students to skills needed in today's world of CRM. Additional projects/assignments reqd for grad cr.

ANTH 436 North American Prehistory

3 credits

Joint-listed with ANTH 536

Theories, methods, and findings of prehistoric North American archaeology. Additional projects/assignments reqd for grad cr.

Prereq: ANTH 231.

ANTH 443 Plateau Prehistory

3 credits

Joint-listed with ANTH 543

Prehistoric cultures, chronologies, and interrelationships within the interior Northwest. Additional projects/assignments reqd for grad cr.

Prereq: ANTH 231 or Permission.

ANTH 449 Lithic Technology**3 credits**

Joint-listed with ANTH 549

Manufacture and analysis of stone implements, theory of rock fracture, nonhuman productions of pseudo-artifacts. Additional projects/assignments reqd for grad cr.

Prereq: ANTH 231 or Permission.

ANTH 451 Forensic Anthropology**3 credits**

Joint-listed with ANTH 551

Observations and measurements of the human skeleton; variations based on age, sex, and race, and pathologies; identification of human skeletal material and other mammals. Additional projects/assignments reqd for grad cr. Three lec/lab sessions a wk. Recommended Preparation: ANTH 251.

ANTH 453 Archaeological Lab Techniques**3 credits**

This class is designed to offer students a complete range of archaeological laboratory techniques from analysis to final curation. All students will be involved in either curating a small archaeological collection, or processing artifacts for analytical purposes using basic laboratory skills. In addition, students will be expected to become knowledgeable about contemporary and/or ethical issues in conservation, e.g., whether or not to clean lithics and metal, deaccessioning collections, and NAGPRA, among other issues. Lastly, students will be encouraged to determine their role within the archaeological/anthropological community and develop a long term plan for how they will impact their respective fields in the future. Two lectures and 1 hour of lab a week. Recommended Preparation: ANTH 231, ANTH 431, ANTH 432 and ANTH 449. (Alt/hrs)

ANTH 462 Human Issues in International Development**3 credits**

Gen Ed: Social Science, International

Joint-listed with ANTH 562, Cross-listed with LAS 462

Course content includes the historical and political contexts that shape development, development theories and approaches, along with the global challenges of poverty, social inequalities, and environment. Culture as an important consideration in development is emphasized. Additional projects/assignments reqd for grad cr. (Alt/hrs)

ANTH 465 Environment, Policy, and Justice**3 credits**

Joint-listed with ANTH 565, Cross-listed with SOC 465

The "environment" in modern times has been treated as something separate from human communities, yet our experiences and common understandings of progress and prosperity are integrally tied to our daily interactions with the environment. Environmental and human disasters in recent years have further reminded us of the importance of seeing our dependence on environmental health. This course surveys different perspectives surrounding environmental issues and society's connection to them. Courses will slightly differ in emphasis depending on the instructor, allowing opportunities to explore more deeply how social philosophies, policies, and criminological dimensions can be linked to studying environment. Additional work required for graduate credit.

ANTH 496 (s) Practicum in Tutoring**1 credit, max 2**

Tutorial services performed by advanced students under faculty supervision. Graded P/F.

Prereq: Permission.

ANTH 498 (s) Internship

Credit arranged.

ANTH 499 (s) Directed Study

Credit arranged.

ANTH 500 Master's Research and Thesis

Credit arranged.

ANTH 501 (s) Seminar

Credit arranged.

ANTH 502 (s) Directed Study

Credit arranged.

ANTH 503 (s) Workshop

Credit arranged.

ANTH 504 (s) Special Topics

Credit arranged.

ANTH 505 (s) Professional Development

Credit arranged.

ANTH 509 Anthropological Field Methods**1-8 credits, max 8**

Individual field work in approved areas.

Prereq: Permission.

ANTH 511 Human Evolution**3 credits**

Joint-listed with ANTH 411

Human origins in light of the fossil record and evolutionary theory. Additional projects/assignments reqd for grad cr. Recommended Preparation: ANTH 100. Cooperative: open to WSU degree-seeking students.

ANTH 512 Human Races**3 credits**

Joint-listed with ANTH 412

Human population biology, dynamics of evolution, human ecology, and their relationship to problem of human racial variation. Additional projects/assignments reqd for grad cr. Recommended Preparation: ANTH 100.

ANTH 516 Qualitative Social Science Methods**3 credits**

Joint-listed with ANTH 416

This course introduces students to social science research methods that collect qualitative data. It will discuss research design and ethics, data collection processes, and data analysis. Additional work required for graduate credit.

Prereq: SOC 101.

ANTH 517 Social Data Analysis**3 credits**

Joint-listed with ANTH 417

This course introduces students to social science research methods that collect quantitative data. It will discuss research design and ethics, data collection processes, and data analysis. Additional work required for graduate credit.

Prereq: STAT 251 and SOC 101 .

ANTH 518 Anthropology of Tourism

3 credits

Joint-listed with ANTH 418

Across the globe, tourism has been touted as a route to economic sustainability and both national and local prosperity. As one of the largest and fastest growing industries in the modern world, tourism can supply wealth and growth opportunities to poverty stricken communities - but at what cost? In this course, we will examine both the advantages and disadvantages to a variety of forms of tourism: sex tourism, "primitive" tourism, heritage tourism, ecotourism, and nature tourism, to name a few. Additional work required for graduate credit.

ANTH 521 Contemporary Issues in Anthropological Theory

3 credits

In-depth exploration of contemporary theoretical issues within anthropology.

Prereq: ANTH 420 or equiv, or Permission.

ANTH 522 Plateau Indians

3 credits

Joint-listed with ANTH 422.

ANTH 528 Social and Political Organization

3 credits

Joint-listed with ANTH 428

Examination of the social construction of racial categories and meanings; theories of race relations; historical and contemporary experiences of racial/ethnic groups in the U.S.; contemporary issues and debates.

Prereq: SOC 101 and a 3 cr lower-division SOC course, or SOC 301/ ANTH 301.

ANTH 530 Introduction to Archaeological Method and Theory

3 credits

Joint-listed with ANTH 430

Archaeological theory in anthropological perspective; current trends in method and theory of American archaeology. Additional projects/ assignments reqd for grad cr.

Prereq: ANTH 231 or Permission.

ANTH 531 Historical Archaeology

3 credits

Joint-listed with ANTH 431

Investigation of the techniques of historical archaeology as well as an introduction to historic material culture and the theories that inform historical archaeology research. Additional projects/assignments reqd for grad cr. ANTH 531 is a cooperative course available to WSU degree-seeking students.

Prereq: ANTH 100.

ANTH 532 Historical Artifact Analysis

3 credits

Joint-listed with ANTH 432

An overview and detailed study of the major classes of material culture commonly recovered on historical sites. Course emphasizes the identification of historical materials and introduction of a variety of analytical tools used in historical archaeology.

Prereq: ANTH 230 or ANTH 431 or Permission.

ANTH 533 Applied Cultural Resource Management

3 credits

Joint-listed with ANTH 433

Introduction to the practice of archaeology in the field of Cultural Resource Management. This course emphasizes and exposes students to skills needed in today's world of CRM. Additional projects/assignments reqd for grad cr.

ANTH 536 North American Prehistory

3 credits

Joint-listed with ANTH 436

Theories, methods, and findings of prehistoric North American archaeology. Additional projects/assignments reqd for grad cr.

Prereq: ANTH 231.

ANTH 543 Plateau Prehistory

3 credits

Joint-listed ANTH 443.

ANTH 549 Lithic Technology

3 credits

Joint-listed with ANTH 449

Manufacture and analysis of stone implements, theory of rock fracture, nonhuman productions of pseudo-artifacts. Additional projects/ assignments reqd for grad cr.

Prereq: ANTH 231 or Permission.

ANTH 551 Forensic Anthropology

3 credits

Joint-listed with ANTH 451

Observations and measurements of the human skeleton; variations based on age, sex, and race, and pathologies; identification of human skeletal material and other mammals. Additional projects/assignments reqd for grad cr. Three lec/lab sessions a wk. Recommended Preparation: ANTH 251.

ANTH 562 Human Issues in International Development

3 credits

Joint-listed with ANTH 462

Course content includes the historical and political contexts that shape development, development theories and approaches, along with the global challenges of poverty, social inequalities, and environment. Culture as an important consideration in development is emphasized. Additional projects/assignments reqd for grad cr. (Alt/yr)

ANTH 565 Environment, Policy, and Justice

3 credits

Joint-listed with ANTH 465

The "environment" in modern times has been treated as something separate from human communities, yet our experiences and common understandings of progress and prosperity are integrally tied to our daily interactions with the environment. Environmental and human disasters in recent years have further reminded us of the importance of seeing our dependence on environmental health. This course surveys different perspectives surrounding environmental issues and society's connection to them. Courses will slightly differ in emphasis depending on the instructor, allowing opportunities to explore more deeply how social philosophies, policies, and criminological dimensions can be linked to studying environment. Additional work required for graduate credit.

ANTH 598 (s) Internship

Credit arranged.

ANTH 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ARCHITECTURE (ARCH)

ARCH 151 Introduction to the Built Environment

3 credits

Gen Ed: Humanities

May not be taken for credit after LARC 151. Introduction to the complexities and wonders of the built environment, and the role of the humanities in successful designs. From the regional landscapes to urban design and architecture, to the intimacy of interiors and dwellings, to place making and space making, student perspectives are broadened on how the built environment is shaped by and contributes to an evolving human story. The built environment is also examined as a product of a multitude of forces that include: place, climate, conservation, culture, economics, beliefs, and aspirations for well-being.

ARCH 154 Introduction to Architectural Graphics

3 credits

Introduction to architectural graphics; two 1-hour lecture sessions per week, plus two 1-hour studio sessions per week; weekly assigned drawing projects, readings, and sketchbook projects; periodic quizzes. Cooperative: open to WSU degree-seeking students.

ARCH 200 (s) Seminar

Credit arranged.

ARCH 203 (s) Workshop

Credit arranged.

ARCH 204 (s) Special Topics

Credit arranged.

ARCH 217 Ancient & Pre-Modern Art

3 credits

A survey of ancient to early modern art, covering the period from classical antiquity through neoclassicism and the industrial revolution. Particular care will be taken to situate the art, architecture, and design of each period in its cultural, political, and religious contexts. Basic methods and approaches of art history will be also be covered. Classes will be mostly lectures, with discussion of primary sources. No prior experience with art or history is required.

ARCH 243 Media in Architecture

3 credits

Introduction to techniques for hybridizing manual & digital design tools for workflows relative to the architectural design process; includes virtual modeling, CNC fabrication, 2D/3D printing, manual drafting, manual modeling, various software. Two 75 minute sessions per week; in class lectures & workshops; tools, techniques, & exercises integrated with ARCH 253

Coreq: ARCH 254.

ARCH 244 Computer Aided Drafting and Modeling

2 credits

Cross-listed with ID 244

Introduction to computer-aided drafting and modeling techniques and applications.

Prereq: ARCH 154 .

ARCH 253 Architectural Design I

4 credits

Introduction to Architectural Design Fundamentals including formal principles, ordering systems, conceptualization, experimentation, design making, & design communication for the resolution of given architectural design problems. Two 3-hr studio sessions per wk; course includes lectures, workshops, project development, presentations, readings.

ARCH 254 Architectural Design II

4 credits

Cross-listed with ID 254.

Basic integration of principles and concepts for architectural design, both interior & exterior. Two 3-hr studios a wk and assigned work.

Prereq: ARCH 253 or Permission

Coreq: ARCH 243.

ARCH 257 Architectural Design Bootcamp

10 credits

Intensive introduction to various design processes from concept to schematic to design development. Acquisition of a beginning level of both graphic and architectural design literacy, design thinking strategies, aesthetic awareness. Development of basic design communication skills and introduction and application of construction technologies through component resolution.

Prereq: Architecture Permission .

ARCH 266 Materials and Methods

3 credits

Introduce physical and performance characteristics of materials, and concepts, conventions and processes of construction methods. Provide a foundation for subsequent courses in architectural technology and design.

ARCH 299 (s) Directed Study

Credit arranged.

ARCH 353 Architectural Design III

6 credits

Development of architectural design process and projects that cultivate an understanding of structures, properties of materials and building tectonics. Emphasis is also placed on precedent analysis, basic code and site related issues. Three 3-hr studios a wk and assigned work; field trips reqd at student expense outside scheduled hours; some class critique sessions may meet outside of scheduled hours.

Prereq: ARCH 254 or equivalent. Application Required.

ARCH 354 Architectural Design IV

6 credits

Continued development of architectural projects and design process that cultivate understanding of the properties of materials and building tectonics. Three 3-hr studios a wk and assigned work; field trips will be reqd at student expense outside scheduled hours; some class critique sessions will meet outside of scheduled hours.

Prereq: ARCH 353 .

ARCH 361 Structural Systems I

3 credits

Project based introduction to the physical principles that govern statics and strength of materials. Graphical and numerical methods for designing and analyzing structures are used.

Prereq: PHYS 111, PHYS 111L, MATH 143, ARCH 266 .

ARCH 362 Structural Systems II

3 credits

Project based course with focus on the overall building behavior of framing systems. Graphical and numerical methods for designing and analyzing structures are used.

Prereq: ARCH 361 .

ARCH 385 Global History of Architecture

3 credits

A global survey of architecture and urban design from its beginnings through the seventeenth century, considered within the social, cultural, religious, and political contexts that shape it. Recommended Preparation: ARCH 151.

ARCH 386 Global History of Architecture II

3 credits

A global survey of architecture and urban design from the Enlightenment to the present, considered within the social, cultural, political and technological contexts that shape it.

ARCH 388 Architectural Theory

3 credits

This course is aimed at familiarizing students with key movements, thinkers, and developments in architectural theory's continued evolution, so that they are prepared to go into the world and produce thoughtful work and well-crafted thought.

Prereq: ARCH 151 .

ARCH 400 (s) Seminar

Credit arranged.

ARCH 403 (s) Workshop

Credit arranged.

ARCH 404 (s) Special Topics

Credit arranged.

ARCH 410 Sketching for Architecture

3 credits

Instruction in intermediate through advanced architectural sketching, painting, and place-recording techniques. A variety of media techniques will be employed, including graphite, charcoal, colored pencil, pen & ink, and watercolor. The majority of work will be completed in class, with additional homework assignments outside class and on field trips. Recommended Preparation: Basic sketching abilities, as developed in ARCH 154 and subsequent architectural design studios.

ARCH 411 Native American Architecture

3 credits

Gen Ed: American Diversity

Joint-listed with ARCH 511, Cross-listed with AIST 411

An exploration of Native American architecture in North America, including ancient, historic, and contemporary buildings and settlements within their diverse social, cultural, and physical contexts. Additional assignments required for graduate credit. (Spring only)

ARCH 415 Instructional Assistant

1-3 credits, max 6

Assist instructors in delivering courses including classroom and teaching technology set up, taking roll, and other administrative or logistical tasks. Assistants may also (at instructor direction) work with students on design studio critiques, discussion or other related activities. Instructional assistants cannot award or enter grades.

Prereq:Fourth year standing in architecture programs.

ARCH 416 Social Sustainability in Contemporary Cities

3 credits

Joint-listed with ARCH 516

Seminar provides an overview of the social dimension of sustainability and its related issues in contemporary cities in the world. Exploration of concepts and strategies of social urban sustainability through case studies to critically evaluate urban governance and policies in both developed and developing countries, and assessment of struggles for social justice and equality. Additional projects/assignments required for graduate credit.

ARCH 421 China Program Preparation Seminar

2 credits

Joint-listed with ARCH 521

Seminar course preparing students for summer study abroad program in China. This course will introduce travelling, money management, safety, visa application, and some basic cultural introductions. Also, this class will introduce the academic courses to be undertaken in China and prepare research data collection. Required for all students enrolled in the China program. Cooperative: open to WSU degree-seeking students. (Spring only)

Prereq: ARCH 353 or LARC 353 .

ARCH 422 China's Urbanization Seminar

2 credits

Joint-listed with ARCH 522

Seminar course conducted in China, focusing on understanding the complicated challenges of China's urbanization and design strategies for urban development.

Prereq: ARCH 354 or LARC 365 .

ARCH 423 Cultural & Ethical Issues in Global Architectural Practice

2 credits

Joint-listed with ARCH 523

Study of the phenomenon of architectural practice under the impact of globalization using the market of China as an example. Focus on the development of model architectural practice in China as well as the associated social and cultural issues of global architectural practice.

Prereq: ARCH 354 or LARC 365 .

ARCH 430 Rome Preparatory Seminar

2 credits

Seminar preparing students for summer study abroad in Rome, Italy. Introduces academic courses to be taken in Rome, and begins research and information-gathering tasks for Design Studio and Rome Design History courses. Also includes practical matters such as travel planning, money, safety, and basic language skills. Cooperative: open to WSU degree-seeking students. (Spring only)

ARCH 431 Rome Design History

3 credits

Lecture course conducted in Rome, Italy, focused on the essential eras of Roman history related to design (art, architecture, urban planning, etc.): Republican & Imperial Rome; Early Christian Rome; Renaissance & Baroque Rome; the "Third Rome" of the Risorgimento and Mussolini; Contemporary Rome of the late-20th and early-21st Centuries.

Prereq: ARCH 430 .

ARCH 432 Advanced Analog Graphics**3 credits**

Joint-listed with ARCH 532

Advanced sketchbook and large-format drawing development focused on the built environment. Analog (i.e. physical) media, including graphite, ink and watercolor. Additional projects/assignments required for graduate credit.

Prereq: ARCH 154 and ARCH 254; or Permission .

ARCH 454 Architectural Design: Vertical Studio**6 credits, max 12**

Gen Ed: Senior Experience

Architectural and/or urban design projects are developed to explore and integrate urban theory sustainable design, construction & environmental control systems technology, experimental design approaches, human and cultural factors, and construction assemblies. Design projects completed individually or in team/collaborative settings encouraged. Three 3-hr studios per week and assigned work. Field trips at student expense are required and meet outside scheduled hours; some class critique sessions meet outside of scheduled hours. Additional projects/assignments required for graduate credit.

Prereq: ARCH 353 and ARCH 354; or Permission .

ARCH 461 Building Assemblies**3 credits**

Advanced building construction with focus on building enclosure systems and assemblies.

Prereq: ARCH 362, ARCH 463, or instructor permission .

ARCH 463 Environmental Control Systems I**3 credits**

Principles and design of sustainable passive energy systems, mechanical heating and cooling systems, air quality, fire suppression and vertical transport. Three 1-hr lec a wk.

Coreq: ARCH 463L .

ARCH 463L Environmental Control System I Lab**1 credit**

Laboratory to accompany the ARCH 463 lecture. One 2-hour lab a week.

Coreq: ARCH 463 .

ARCH 464 Environmental Control Systems II**3 credits**

Principles and design of integrated natural and electrical lighting systems, water use and conservation systems, storm and waste water treatment and management, and acoustic systems as well as principles for and evaluation of sustainable architecture. Three 1-hr lec a wk.

Coreq: ARCH 464L .

ARCH 464L Environmental Control System II Lab**1 credit**

Laboratory to accompany the ARCH 464 lecture. One 2 hour lab a week.

Coreq: ARCH 464 .

ARCH 475 Professional Practice**3 credits**

Joint-listed with ARCH 575

Overview of professional standards and practices in the architecture and interior design professions. Including duties and responsibilities in practice (construction documents and contracts, code analysis, ethics, and professional organizations and alliances), project management, office administration, and comprehensive services; specification writing, unit costs, and building estimation. Additional assignments/projects required for graduate credit.

ARCH 483 Urban Theory and Issues**3 credits**

History and theory of city planning and problems associated with urban growth.

ARCH 498 (s) Internship

Credit arranged.

ARCH 499 (s) Directed Study

Credit arranged.

ARCH 500 Master's Research and Thesis

Credit arranged.

ARCH 501 (s) Seminar

Credit arranged.

ARCH 502 (s) Directed Study

Credit arranged.

ARCH 503 (s) Workshop

Credit arranged.

ARCH 504 (s) Special Topics

Credit arranged.

ARCH 505 Architectural Research Methods**3 credits**

Quantitative and qualitative research designs, procedures, instruments, and techniques for use in architectural research, programming and design.

Prereq: Grad standing in M.Arch./M.A. program.

ARCH 510 Graduate Project Seminar**3 credits**

Specialized research and program writing in preparation for ARCH 556 as well as schematic design proposals.

Prereq or Coreq: ARCH 553 .

ARCH 511 Native American Architecture**3 credits**

Joint-listed with ARCH 411, Cross-listed with AIST 411

An exploration of Native American architecture in North America, including ancient, historic, and contemporary buildings and settlements within their diverse social, cultural, and physical contexts. Additional assignments required for graduate credit. (Spring only)

ARCH 512 Identity and Place in Global Space**3 credits**

A seminar focused on contemporary issues related to architecture in an increasingly globalized world. Themes, theories, and issues may include symbolic architecture and identity, colonization/postcolonialism/neocolonialism, modernity and tradition, space and power, themed spaces/simulacra, ethnoburbs and globurbs, and transnational planning processes. Recommended Preparation: ARCH 386.

ARCH 516 Social Sustainability in Contemporary Cities**3 credits**

Joint-listed with ARCH 416

Seminar provides an overview of the social dimension of sustainability and its related issues in contemporary cities in the world. Exploration of concepts and strategies of social urban sustainability through case studies to critically evaluate urban governance and policies in both developed and developing countries, and assessment of struggles for social justice and equality. Additional projects/assignments required for graduate credit.

ARCH 517 Graduate Instructional Assistant

1-3 credits, max 6

Assist instructors in delivering undergraduate courses including classroom and teaching technology set up, taking roll, and other administrative or logistical tasks. Assistants may also (at instructor direction) work with students on design studio critiques, discussions or other related activities. Graduate Instructional assistants may also contribute to the evaluation and grading process, but final grade is the responsibility of the instructor of record.

Prereq: Graduate standing in architecture program.

ARCH 520 Architectural Research Methods

3 credits

Philosophy of research in architecture, research design, data gathering and interpretation, and thesis preparation.

ARCH 521 China Program Preparation Seminar

2 credits

Joint-listed with ARCH 421

Seminar course preparing students for summer study abroad program in China. This course will introduce travelling, money management, safety, visa application, and some basic cultural introductions. Also, this class will introduce the academic courses to be undertaken in China and prepare research data collection. Required for all students enrolled in the China program. Cooperative: open to WSU degree-seeking students. (Spring only)

Prereq: ARCH 353 or LARC 353 .

ARCH 522 China's Urbanization Seminar

2 credits

Joint-listed with ARCH 422

Seminar course conducted in China, focusing on understanding the complicated challenges of China's urbanization and design strategies for urban development.

Prereq: ARCH 354 or LARC 365.

ARCH 523 Cultural & Ethical Issues in Global Architectural Practice

2 credits

Joint-listed with ARCH 423

Study of the phenomenon of architectural practice under the impact of globalization using the market of China as an example. Focus on the development of model architectural practice in China as well as the associated social and cultural issues of global architectural practice.

Prereq: ARCH 354 or LARC 365 .

ARCH 532 Advanced Analog Graphics

3 credits

Joint-listed with ARCH 432

Advanced sketchbook and large-format drawing development focused on the built environment. Analog (i.e. physical) media, including graphite, Ink and watercolor. Additional projects/assignments required for graduate credit.

Prereq: ARCH 154 and ARCH 254; or Permission.

ARCH 552 Alternate Graduate Design Experience

6 credits

Independent exploration of specific issues in architecture and/or urban design, including off-site, national or international education or professional experiences, for qualified students. An application, including Independent study plans and credits must be approved by the Department during the semester before the proposed study. May be substituted for ARCH 554.

Prereq: B.S. Architecture.

ARCH 553 Integrated Architectural Design

6 credits

Integrative design of an architectural project including all phases of the design process with particular emphasis on schematic design and design development. Demonstration of ability to develop spatial details and construction systems concepts in support of design goals. Three 3-hr studios per week and assigned work; field trips reqd at student expense outside of scheduled hours; some class critique sessions will meet outside of scheduled hours.

Coreq: ARCH 568 .

ARCH 554 Architectural Design: Vertical Studio

6 credits, max 12

Joint-listed with ARCH 454

Architectural and/or urban design projects are developed to explore and integrate urban theory sustainable design, construction & environmental control systems technology, experimental design approaches, human and cultural factors, and construction assemblies. Design projects completed individually or in team/collaborative settings encouraged. Three 3-hr studios per week and assigned work. Field trips at student expense are required and meet outside scheduled hours; some class critique sessions meet outside of scheduled hours. Additional projects/assignments required for graduate credit.

Prereq: ARCH 353 and ARCH 354; or Permission .

ARCH 556 Graduate Project

6 credits

Graduate terminal project - a self-directed architectural design study with faculty consultation within a studio context. Students demonstrate their capacity to apply appropriate programming and research methods in pursuit of a focused design topic. The project culminates with a project book prepared by the student.

Prereq: ARCH 510, ARCH 553, and ARCH 554 .

ARCH 558 Urban Design and Planning Studio

3 credits

Urban Design and Planning studio serves as a fundamental urban design studio, providing appropriate skills in design-led planning for students in the Urban Design Certificate program that are not in the professional M.Arch. or MLA programs. This class is place-based studio, emphasizing the understanding of urban design as a place-making process and product within the dynamic of change to the urban environment. Students do not need a background in design to participate in this studio. This course may meet with ARCH 554.

ARCH 568 Technical Integration in Design

3 credits

Strategies for integrating structure, enclosure, services, site and interior systems in the design and development of an architectural concept.

Prereq: ARCH 461, ARCH 463, ARCH 464, or equivalent .

ARCH 570 Natural Lighting

3 credits

Natural lighting seminar/workshop including hands-on experience with physical and digital modeling techniques. The course includes a term-long investigation of the nature of Palouse light, and a redesign problem of a real space on-campus or nearby, which will be measured, modeled, redesigned, predicted, redesigned, and evaluated.

ARCH 571 Building Performance Evaluation

3 credits

This case-study based course focuses on evaluation methods for occupied buildings. A full-range of physical measurement and user surveying techniques are presented and employed on local buildings.

ARCH 572 Integrated Design Seminar

1 credit, max 4

This course is modified each semester by hosting outside expert lecturers in topics related to integrated energy design in buildings and inviting professionals and students together for an interactive learning experience. Every other week, the instructor hosts a discussion session with students based upon the presented content from the previous week.

ARCH 573 Daylight Design and Simulation

3 credits

This course teaches the fundamental principles for daylighting design in buildings through building tours, case studies, geometric approaches, as well as physical modeling and digital simulation methods. Students will understand implications of design decisions on visual comfort, thermal comfort and performance, energy efficiency and will have the skills to scientifically assess these factors during design stages.

ARCH 574 Building Performance Simulation for Integrated Design

3 credit

Cross-listed with ME 571

This course focuses on design decisions that impact energy, thermal, visual and acoustic comfort with a strong emphasis on building simulation tools. This course provides students with the understanding of the nature of building thermal comfort, building envelope behavior, ventilation requirements, indoor air quality, passive cooling systems, energy conservation, and the importance of iterative building simulation in achieving high performance buildings.

ARCH 575 Professional Practice

3 credits

Joint-listed with ARCH 475

Overview of professional standards and practices in the architecture and interior design professions. Including duties and responsibilities in practice (construction documents and contracts, code analysis, ethics, and professional organizations and alliances), project management, office administration, and comprehensive services; specification writing, unit costs, and building estimation. Additional assignments/projects required for graduate credit.

ARCH 580 British Green Architecture

2 credits

Preparation for students who will participate in the summer studies abroad program in London, including basic research on green building in the UK, helping plan the itinerary. All logistical preparations for studies abroad will be discussed and students are familiarized with both green approaches to design and British culture. Cooperative: open to WSU degree-seeking students. (Spring only)

ARCH 585 Urban Design Seminar

3 credits

On-line course, covering a broad view of Urban Design as an academic discipline and a field of practice in planning and design of the built environment.

ARCH 598 (s) Internship

1-3 credits, max 6

Work in an architectural office under the supervision of a licensed architect.

Prereq: Permission.

ARCH 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ART (ART)

Note: On registering for a studio course offered in this department, the student agrees that the department may retain work completed by the student.

Vertically-related courses in this subject field are:

- ART 111–ART 112–ART 211–ART 390
- ART 221–ART 222–ART 321–ART 322
- ART 231–ART 330
- ART 241–ART 340
- ART 251–ART 350
- ART 271–ART 272–ART 370

ART 100 World Art and Culture

3 credits

Gen Ed: Humanities, International

An introductory historical survey of art and culture in Western and non-Western contexts. Major cultural sites, monuments, image traditions and technologies will be examined alongside the historical, religious, political, economic, and aesthetic contexts which produced them. Cultures studied include China, Islam, Pre-Columbian civilizations in North and South America, Africa, India, Japan, Oceania, the ancient Near-East, Greece and Rome, Western Medieval, the European Renaissance, and Western and non-Western Modernism. A theoretically comparative approach will be followed, towards an understanding of both similarities and differences between Western and non-Western cultural production. 2 hours of lecture with one 2-hour lab/recitation.

ART 110 Integrated Art and Design Communication

2 credits

Introduction to the history, theory, language, principles and processes of art and design. Lectures, readings and writing assignments are connected to the studio experiences in ART 121.

ART 111 Drawing I

2 credits

Freehand drawing; emphasis on expressive use of materials. Two 2-hour studios a wk.

ART 112 Drawing as Integrated Design Thinking

2 credits

Emphasis on drawing as a form of thinking and communication in art and design disciplines; studio problems to familiarize students with strategies using drawing for analogy, translation, imagination and abstraction. Two 2-hour studios a week.

ART 121 Integrated Design Process

2 credits

Introduction to design process as it relates to art and design disciplines; studio problems to familiarize students with basic design process, principles and elements of design. Studio experiences, readings, and written analysis challenge students to explore basic two- and three-dimensional design and color. Two 2-hour studios a week and assigned work; attendance at outside events (lectures, symposiums, Prichard and University Gallery openings).

Prereq or Coreq: ART 110 .

ART 122 Art & Design Process

3 credits

Continuation of study of design process; studio problems challenge students to apply elements and principles of design to studio problems that include traditional and experimental concepts of design. Studio experiences, readings, and written analysis allow for further exploration of two- and three-dimensional design as well more complex concepts such as context, time, and light. Two 3-hr studios a wk and assigned work; attendance at outside events (lects, symposiums, Prichard and Univ Gallery openings).

ART 200 (s) Seminar

Credit arranged.

ART 203 (s) Workshop

Credit arranged

Prereq: Permission.

ART 204 (s) Special Topics

Credit arranged.

ART 205 Visual Culture

3 credits

Gen Ed: Humanities

An introduction to the interdisciplinary approaches in art history, visual studies, film and media studies, sociology, and the general field of cultural studies that constitute the field of visual culture. Visual Culture addresses the societal, cultural, economic, aesthetic, and political dimensions and provocations of images and the visual in our contemporary world. This course offers a broad introduction to the most important critical and theoretical methods for the analysis, critique, and evaluation of visual culture.

ART 211 Life Drawing

3 credits

Life drawing, work with various media to develop an understanding of the human figure. Two 3-hr studios a wk and assigned work.

Prereq: ART 111 and ART 112, or Permission.

ART 213 History and Theory of Modern Design

3 credits

Gen Ed: Humanities, International

This course explores the historical and theoretical components of design from the Industrial Revolution to WWII. Products, furniture, textiles, packaging, advertising, industrial design, and graphic design will be studied in terms of their historical development, theoretical components, and their translation and application within contemporary concepts of design in various professional fields. Throughout the course we will critically examine and address the theoretical and critical vocabulary of contemporary design. Topics considered include industrialization and modernism; design and propaganda; design and the modernist avant-garde; design and nationalism; design, multinational corporations, and global economics; design, promotion, profession, and management; the politics and economics of design, and design and advertising.

ART 216 Digital Tools

3 credits

Introduction to professional design, development, and production workflows related to various aspects of digital design. Demos and lectures cover various industry standard design software. Two 2-hr studios a week and assigned work.

Prereq: ART 110 and ART 121; or Permission .

ART 217 Ancient & Pre-Modern Art**3 credits**

A survey of ancient to early modern art, covering the period from classical antiquity through neoclassicism and the industrial revolution. Particular care will be taken to situate the art, architecture, and design of each period in its cultural, political, and religious contexts. Basic methods and approaches of art history will be also be covered. Classes will be mostly lectures, with discussion of primary sources. No prior experience with art or history is required.

ART 221 Introduction to Graphic Design**3 credits**

Creative problem solving with emphasis on two dimensional solutions to formal and conceptual design problems; fundamental design principles are reiterated and developed into visual communication using word and image. Design process, prototyping and industry standard software will be used. Recommended Preparation: Working knowledge of digital design software or ART 216 (strongly recommended). Two 3-hour studios a week and assigned work.

ART 222 Introduction to Typography**3 credits**

Visual communication design with emphasis on typography, letterforms, and typographic syntax. Ideas are developed into thoughtful visual communication through the exploration of typographic conventions and the use of type as image. Introduction to history and theory of typography. Working knowledge of digital design software or ART 216 (strongly recommended). Two 3-hour studios a week and assigned work.

ART 231 Painting I**3 credits**

Intro to basic fundamentals of painting; investigating color and techniques. Two 3-hour studios a week and assigned work.

Prereq: ART 111 or Permission.

ART 241 Sculpture I**3 credits**

Introductory studio environment with emphasis on basic design principles and techniques, tool safety, material exploration, and the development of unique personal expressions in three dimensions. Two 3-hour studios a week and assigned work.

ART 251 Printmaking I**3 credits**

Intro to basic printmaking techniques, relief, intaglio, and monotype; emphasis on sensitivity to materials and individual development.

ART 261 Ceramics I**3 credits**

Introductory studio environment with emphasis on basic design principles and techniques, hand-built forming methods, development and articulation of individual design criteria, and glaze and surface experimentation. Two 3-hour studios a week and assigned work.

ART 271 Interaction Design I**3 credits**

Introduction to User Experience (UX) and User Interaction (UI) design practices, including usability strategies and user testing, with emphasis on design and development for mobile devices. Exercises and projects assigned will address production project workflows including: project proposal, product identity, design personas, user personas, development of user interfaces, documentation of product user flows, and live prototyping using industry standard software. Two 3-hour studios a week and assigned work. Recommended Preparation: Working knowledge of digital design software or ART 216 (strongly recommended).

ART 272 Experiential Design I**3 credits**

Introduction to Experiential Design. Immersive storytelling, place making, and theming. Exercises and projects explore a variety of scenarios, including retail and dining, entertainment, and cultural and educational venues. Two 3-hour studios a week and assigned work. Recommended Preparation: Working knowledge of digital design software or ART 216 (strongly recommended).

ART 280 Understanding Photography**3 credits**

Basic skills of camera operation; emphasis on image design and creative techniques; lec topics include exposure, lenses, composition, filters, and films. 35mm adjustable camera required, plus additional costs for photographic materials. Two lecture and one 3-hour recitation a week.

ART 299 (s) Directed Study

Credit arranged.

ART 302 Modern Art and Theory**3 credits**

Gen Ed: Humanities, International

A study of the principal artistic movements and theories in modern art from c. 1880 to World War II. Beginning with late-nineteenth-century modernism, the course closely examines the historical, societal, cultural, philosophical, and theoretical frameworks from which modern art and theory emerged. Modernist movements to be considered include, Neoimpressionism, Symbolism, Fauvism, German Expressionism, Futurism, Cubism, Dada, and Surrealism, among others.

ART 303 Contemporary Art and Theory**3 credits**

Gen Ed: International

A survey of the principal artists, movements, theories, and artistic strategies since World War II in Europe and America. Important movements examined include the New York School, Neo-dada, Post-Painterly Abstraction, British and American Pop, Minimalism, Conceptual art, Earthworks and Environments, Performance Art, Neoexpressionism, and the various approaches within contemporary art.

Prereq: One 200-level or 300-level art history elective, or Permission.

ART 313 History and Theory of Modern Design**3 credits**

Gen Ed: International

Study, analysis, and critique of design history and theory from 1945 to the present. Historical and theoretical analysis of the emergence of the industrial, product, graphic, and information design professions in America and Europe, and the relationship between design, corporations, and global products. Other topics under consideration include Swiss design, the New York School and the American poster movement; the emergence of Japanese design; semiotics and design; postmodernism and design; and design and new media.

Prereq: ART 213.

ART 321 Graphic Design: Concepts**3 credits, max 6**

Advanced design problems that center on individual development and the exploration of contemporary design issues. The conceptual potential of words and images is emphasized. Individual and group work. Two 3-hour studios a week and assigned work.

Prereq: ART 221 and ART 222, or Permission.

ART 322 Graphic Design: Studio

3 credits, max 6

Visual communication design and problem solving in the community environment; strategies for client interaction, project presentation and production preparation are practiced. Two 3-hour studios a week and assigned work.

Prereq: ART 221 and ART 222, or Permission.

ART 323 History of Typography

3 credits

History and Theory of Typography: Historical and theoretical survey of typography and graphic technologies from the invention of writing to the present. The course begins with the study of writing before the printing press and continues detailing the origin of European typography and design for printing through the Industrial Revolution and the invention of photography. The study of typography in the modernist era follows, including close examination of Bauhaus and Neue Typographie, the Swiss Neue Graphik and subsequent developments in America and abroad. A detailed study of the practical, historical, and theoretical implications of digital typography will conclude the course.

ART 330 Intermediate/Advanced Painting

3 credits, max 9

Intermediate painting in oil or acrylic; emphasis on color assignments and aesthetic problems. Advanced students emphasize individual conceptual approaches. Two 3-hour studios a week and assigned work.

Prereq: Art Core and ART 231 or Permission.

ART 340 Intermediate/Advanced Sculpture

3 credits, max 9

Intermediate level studio environment with emphasis on promoting tool safety, material exploration, creative autonomy, portfolio development, and comprehension of historical and contemporary issues relevant to studio projects and sculpture discourse. Two 3-hour studios a week and assigned work.

Prereq: Art Core, ART 241 or Permission.

ART 350 Intermediate/Advanced Printmaking

3 credits, max 9

Advanced printmaking; further exploration of printmaking methods and materials; emphasis on individual development in conceptual and technical abilities. Two 3-hour studios a week and assigned work.

Prereq: Art Core and ART 251 or permission.

ART 360 Intermediate/Advanced Ceramics

3 credits, max 9

Intermediate and Advanced level studio environment with further exploration of ceramic methods including wheel-thrown building techniques, kiln and studio procedures, creative autonomy, portfolio development, and comprehension of historical and contemporary issues relevant to studio projects and ceramics discourse. Two 3-hour studios a week and assigned work.

Prereq: Art Core and ART 261; or Permission.

ART 370 Intermediate/Advanced Interaction + Experiential Design

3 credits, max 9

Building on the coursework of ART 271 and ART 272, intermediate/advanced combination of both the built environment and virtual experiences as expressed in the development of individual, term-length projects. Two 3-hr studios a week and assigned work.

Prereq: Art core, ART 216, ART 271 and ART 272; or Permission .

ART 380 Digital Imaging

3 credits

Computer imaging with emphasis on visual problem solving and design; development of professional techniques with industry standard software.

Prereq: ART 216.

ART 382 History of Photography

3 credits

Gen Ed: Humanities, International

History and development of photography in its various forms; photography as a creative art form and a reflection of society; selected slide lectures.

ART 390 Mixed Media

3 credits, max 9

Understanding synthesis of different media in context to a work of art by using two or more techniques; tutorial-based studio, production to occur outside of class. Outside lecture and special events may be assigned.

Prereq: Art Core, 9 cr of 200-level art studios, or Permission.

ART 400 (s) Art Seminar

1-3 credits, max 6.

ART 403 (s) Workshop

Credit arranged

Prereq: Permission.

ART 404 (s) Special Topics

Credit arranged.

ART 405 (s) Professional Development

Credit arranged.

ART 407 New Media

3 credits

Gen Ed: Humanities

Study, analysis, and critique of the cultural, technological, and aesthetic dimensions and practices of new media. The course entails a detailed examination of the genealogy, historical and cultural ramifications of the computer as an expressive medium. We will study the history of the computer and the digital, from its pre-conception in literature and science, to its various manifestations today in information, political, aesthetic, technological, and cultural contexts. Throughout the course students will analyze and evaluate the constantly changing provocations of new media in terms of communication, language, art, design, architecture, and the general ontological issues of time and space.

ART 409 Visual Studies

3 credits

Examination, evaluation, and critique of the expanding interdisciplinary field of visual studies. Visual practices, technologies, communicative, and epistemological models and structures are studied in terms of their implications for art, design, architecture, and cultural and scientific practices and production in general. The historical, theoretical, and aesthetic provocations of visualization in such varied fields as biology, medicine, law, forensics, genetics, and information technologies is addressed as well as the cultural dimensions of the social ubiquitousness of the visual in general. Recommended preparation:

ART 205.

Prereq: 12 credits of Art History/Visual Culture courses.

ART 410 Professional Practices**2 credits***Gen Ed: Senior Experience*

Professional issues for studio artists and designers including obligations, duties, and responsibilities in practice, self-promotion, and career planning. Includes analysis of gallery operations.

Prereq: Advanced standing or Permission.

ART 411 Advanced Studio Practice**3 credits, max 6**

Faculty directed advanced studio practices in a variety of media. Two 3-hour studios a week and assigned work. Additional requirements will be assigned for graduate students.

Prereq: Art Core and by Permission .

ART 488 Faculty Directed Internship**1-3 credits, max 6**

Open only to art majors. Art faculty directed work on a professional project.

Prereq: successful completion of one 300-level studio sequence (6 cr), and advisor and directing faculty approval.

ART 490 BFA Art/Design Studio**6 credits, max 12***Gen Ed: Senior Experience*

Open only to BFA studio art majors. Intensive tutorial studio closely monitored by all the faculty, culminating in development of a portfolio and a professional exhibition. Outside lec and special events may be assigned. Twelve formal hrs of studio a wk plus outside work to equal 18 hours of involvement a week; field trips and guest lectures may be required.

Prereq: Senior standing and completion of 15 cr in 300-level art courses with a minimum grade of C and a minimum GPA of 2.75 .

ART 491 Information Design**3 credits, max 9***Gen Ed: Senior Experience*

Project-based course in theory and practice of the design of information and information visualization for use in research, teaching, and outreach. Interdisciplinary teams of students, faculty and staff will develop and produce systems that communicate complex ideas with clarity, precision, and efficiency, using the most appropriate presentation tools.

Prereq: Junior standing.

ART 495 BFA Senior Thesis**2 credits, max 4***Gen Ed: Senior Experience*

Open only to B.F.A. Art and Design majors who have been admitted to the professional program through the BFA Art and Design Review. BFA majors take 2 semesters. Preparation of thesis, portfolio, and senior exhibition.

Prereq: Senior standing and completion of 15 cr in 300-level art courses with a minimum grade of C and a minimum GPA of 2.75.

ART 497 (s) Practicum In Instruction**1-3 credits, max 6**

Tutorial and/or instructional services performed by advanced students under faculty supervision.

Prereq: Permission.

ART 498 (s) Internship**1-12 credits, max 12**

Graded P/F. Open to art majors only; no more than 6 cr may be counted toward art degree requirements. Work with professional artists.

Prereq: One 300-level studio sequence (6 cr) and permission of department chair.

ART 499 (s) Directed Study**1-3 credits, max 9**

Individual study areas selected by the student and approved by the faculty; it is the student's responsibility to select a study area and prepare a semester study program; the student contacts one of the art faculty who agrees to direct the study; it is the student's responsibility to initiate the study program and to maintain regular contact with the faculty member who has agreed to direct the study.

Prereq: Completion of one 300-level studio sequence (6 cr) and Permission.

ART 500 Master's Research and Thesis**Credit arranged.****ART 501 (s) Seminar****Credit arranged.****ART 502 (s) Directed Study****Credit arranged.****ART 503 (s) Workshop****Credit arranged.****ART 504 (s) Special Topics****Credit arranged.****ART 505 (s) Professional Development****Credit arranged**

Professional development and enrichment of certificated school personnel. Credit earned will not be accepted toward grad degree program, but may be used in a fifth-year program. Additional projects/ assignments required for grad cr.

ART 507 (s) Art Seminar**3 credits, max 6**

Open only to art majors. Seminar in professional art concerns: guest artist programs, University Gallery activities, including field trips. One 2-hour seminar a week and assigned work.

ART 508 (s) Readings in Art and Design**3 credits**

Exploration and analysis of issues surrounding contemporary and historical practices of artistic production. Open to all graduate students. Seniors with a sufficient GPA or higher may enroll per UI catalog and College of Graduate Studies requirements with instructor permission.

ART 515 (s) Art Faculty Studio**3-6 credits, max 12**

Open only to art majors. Studio research taken with support of art & design faculty group; at least three intensive studio critique presentations required each semester.

ART 516 (s) MFA Art Studio**3-6 credits, max 9**

Open only to MFA art majors. Studio research taken from two or more art faculty members.

ART 520 (s) Studio Workshops**1-3 credits, max 6**

Open only to art majors. Specialized studio experience; offered by art faculty members, faculty groups, and/or guest artists.

ART 521 (s) MFA Individual Critique**3 credits, max 9**

Open only to MFA art majors. Studio research taken from individual art faculty members; individual instruction and critiques. One hour a week critique session and 8 hours a week of individual studio research.

ART 570 Internet Portfolio Development**3 credits**

Preparation of an online portfolio suitable for critiques and reviews.
Limited to students admitted to a graduate Art & Design degree program.

ART 590 (s) MFA Thesis Exhibition**4-8 credits, max 20**

Open only to MFA majors. Studio research directly related to preparation of MFA "Exhibition and Statement."

ART 597 (s) Practicum**3 credits, max 6**

Hands-on experience in classroom teaching and gallery practice conducted under supervision of faculty or gallery director. Normally requires 4-6 hours a week in class and assigned work.

Prereq: Major in the College of Art and Architecture or permission of individual faculty and art graduate coordinator.

ART 598 (s) Internship**1-6 credits, max 6**

Open only to art majors. Work with professional artists.

Prereq: Permission of major professor and department chair.

ART 599 (s) Non-thesis Master's Research

Credits arranged.

ATHLETIC TRAINING (AT)

AT 502 (s) Directed Study
Credit arranged.

AT 504 (s) Special Topics
Credit arranged.

AT 506 Clinical Anatomy I
3 credits

Theory and practice of clinical anatomy as it pertains to the lower extremity through the thoracic spine. 2 hours lecture and 2 hours lab.

AT 507 Care and Prevention of Injuries and Illnesses
3 credits

Theory and practice of recognition, treatment, and prevention of injuries and illnesses. 2 hours lecture and 2 hours lab.

AT 508 Evaluation and Diagnosis of Injuries and Illnesses I
4 credits

Theory and practice of musculoskeletal evaluation and diagnosis as it pertains in the lower extremity through the thoracic spine. 3 hours lecture and 3 hours lab.

AT 509 Principles of Rehabilitation
3 credits

Theory and practice of the scientific foundations of musculoskeletal rehabilitation. 2 hours lecture and 2 hours lab.

AT 510 Therapeutic Modalities
2 credits

Theory and practice of therapeutic modalities including thermotherapy, cryotherapy, and mechanical modalities. 2 hours lecture and 2 hours lab.

AT 511 Ethics and Administration in Athletic Training
3 credits

Theory and practice of ethics and administration in athletic training.
Prereq: Permission .

AT 512 Research Methods & Statistics I
3 credits

Theory and application of research methods for the health professions including basic statistical analysis. 3 hours lecture.

AT 513 General Medicine for Athletic Trainers
3 credits

Theory and practice of general medical conditions related to athletic training. 3 hours lecture.

AT 514 Psychology of Injury and Referral
3 credits

Theory and practice of the psychology of injury and referral in Athletic Training.

AT 520 Clinical Education I
2 credits

Practice of athletic training clinical skills under the direct supervision of a Preceptor with emphasis on the Level I clinical educational competencies. 4 hours lab.

AT 521 Clinical Experience I
4 credits

Clinical practice in athletic training under the direct supervision of a Preceptor with emphasis on patient care and the safe and appropriate use of skills and techniques.

AT 522 Clinical Education II
2 credits

Practice of athletic training clinical skills under the direct supervision of a Preceptor with emphasis on the Level I clinical educational competencies. 4 hours lab.

AT 523 Clinical Experience II
4 credits

Clinical practice in athletic training under the direct supervision of a Preceptor with emphasis on patient care and the safe and appropriate use of skills and techniques.

AT 531 Clinical Anatomy II
3 credits

Theory and practice of clinical anatomy as it pertains to the head, neck and upper extremity through the thoracic spine. 2 hours lecture and 2 hours lab.

AT 532 Evaluation and Diagnosis of Injuries and Illnesses II
4 credits

Theory and practice of musculoskeletal evaluation and diagnosis as it pertains in the lower extremity through the thoracic spine. 3 hours lecture and 3 hours lab.

AT 533 Applied Rehabilitation Techniques
3 credits

Theory and practice of rehabilitation techniques as applied to individual physical pathologies. 2 hours lecture and 2 hours lab.

AT 534 Therapeutic Modalities II
2 credits

Theory and practice of therapeutic modalities including electrotherapy. 2 hours lecture and 2 hours lab.

AT 535 Seminar in Athletic Training
1 credit

Seminar addresses a year one comprehensive exam process. All topics learned in the first year of the program are eligible for testing.

AT 536 Research Methods & Statistics II
3 credits

Advanced research methods and statistics will be discussed.

AT 540 Pharmacology for Athletic Trainers
3 credits

Clinical pharmacology for athletic trainers as it relates to athletic training educational competencies. 3 hours lecture.

AT 541 Seminar in Athletic Training II
2 credits

Seminar addresses a year two comprehensive exam process. All topics learned in both years of the program are eligible for testing.

AT 542 Scientific Inquiry and Research Presentation
3 credits

This course will provide students with the foundational knowledge to evaluate scholarship and prepare works for scholarly dissemination. MSAT students will present their research findings to the group of faculty and students. All presentations will be graded by the faculty and be accepted or rejected.

AT 543 Neuroscience for Athletic Trainers

3 credits

This course will provide students foundational knowledge of neuroscience and how its application for common neuromuscular conditions (e.g. acute and chronic pain, somatic dysfunction, and motor neuron disorders) can be utilized in the clinical practice of athletic training to improve therapeutic outcomes. Students will examine and synthesize current research and case studies based on neuroscience principles and applications to ascertain the most appropriate therapeutic interventions to be utilized to improve patient healing and satisfaction.

AT 547 Critical Issues in Athletic Training Clinical Practice

3 credits

This course prepares students to recognize challenges and develop strategies for solving issues common in AT clinical practice.

Prereq: Permission .

AT 550 Clinical Education III

2 credits

Practice of athletic training clinical skills under the direct supervision of a Preceptor with emphasis on the Level II clinical educational competencies. 4 hours lab.

AT 551 Clinical Experience III

4 credits

Clinical practice in athletic training under the direct supervision of a Preceptor with emphasis on patient care and the safe and appropriate use of skills and techniques.

AT 552 Clinical Education IV

2 credits

Practice of athletic training clinical skills under the direct supervision of a Preceptor with emphasis on the Level II clinical educational competencies. 4 hours lab.

AT 553 Clinical Experience IV

4 credits

Clinical practice in athletic training under the direct supervision of an Preceptor with emphasis on patient care and the safe and appropriate use of skills and techniques.

AT 587 Prevention and Health Promotion in Athletic Training

3 credits

This course prepares AT students to develop and implement strategies to prevent the incidence and/or severity of injuries and illnesses and optimize patients overall health quality of life.

Prereq: Permission .

AT 600 Doctoral Research and Dissertation

1-45 credits.

AT 604 (s) Special Topics

Credit arranged.

AT 606 Professional and Post-Professional Education in Athletic Training
3 credits

This course is designed to introduce historical background of professional and post-professional education for health care professions. Theoretical foundations and models of health care education will be compared and contrasted. The impact of educational models to health care will be explored. Development of criteria to govern the practicing professional in their chosen residency will be accomplished.

Prereq: Permission .

AT 607 Leadership & Mentoring in AT Clinical Practice

3 credits

This course has been designed to initiate leadership and mentoring in AT clinical practice. Topics relating to leadership and mentoring will be discussed.

AT 610 Advances in Manual Therapy

3 credits

Selected readings from peer reviewed articles will be examined and discussed. Translation of research findings to current clinical practice will be emphasized.

Prereq: Permission .

AT 611 Integrative Manual Therapy

3 credits

Translation of research findings to current clinical practice will be emphasized. Novel intervention theories, techniques, strategies, will be presented, discussed, practiced as related to patient care and practice based evidence.

Prereq: Permission .

AT 620 Research Methods and Evidence Based Practice in Patient Care
3 credits

This course introduces common research performed in patient care.

Development of in-depth understanding in areas and types of research underlying quantitative research design will be explored. Introduction to critiquing literature for the purpose of developing a theoretical framework will be included.

Prereq: Permission .

AT 621 Action Research in Patient Care

2 credits

This course sets the foundation for action research in clinical practice. Development of a research question and justification with literature review will be employed. Purpose and methods of institutional review will be evaluated. Further discussion will elucidate the importance of becoming a scholarly practitioner.

Prereq: Permission .

AT 622 Designing and Conducting Applied Research in Patient Care
2 credits

This continues the process of applied research in clinical practice. Development of methods to test a chosen hypothesis will be created. Exploration of statistical methods to test the clinician's hypothesis will be compared. Dissertation proposal will developed.

Prereq: AT 620 and AT 621 .

AT 623 Introduction to Survey and Qualitative Research Design in Patient Care

3 credits

This course introduces common qualitative methodologies and survey research design in patient care.

Prereq: AT 620, AT 621, and AT 622 .

AT 624 Advanced Quantitative Data Analysis and Interpretation in Patient Care

3 credits

This course provides an in-depth analysis of quantitative research design and data analysis for health care professionals. The goal is to prepare health care students to apply quantitative research design and data analysis skills in patient care. Students will develop sound understanding of research design and be able to utilize regression, factor analysis, and multivariate data analysis skills to answer important research questions in patient care. Students will learn to interpret and disseminate their findings to other health care professionals.

Prereq: AT 620, AT 621, AT 622, and AT 623 .

AT 625 Scientific Writing for Publication in Patient Care
3 credits

This course is a continuation of clinical research in healthcare and the completion of the Culminating Clinical Project (CCP).

Prereq: AT 620, AT 621, AT 622, AT 623, and AT 624 .

AT 630 Holistic Foundations of Pain in Patient Care
2 credits

This course explores current topics in clinical practice, related to the foundations of pain in the human body that influence quality care and methods of measurement and evaluation for quality assessment. Exploration to common instrumentation utilized by clinicians will be discussed and compared to literature utilizing the instruments for research purposes.

Prereq: Permission .

AT 631 Theory and Application of Current and Novel Paradigms in Patient Care
2 credits

Building on foundation of AT 630, this course illustrates the implications of holistic theories of pain by exploring and integrating appropriate novel interventions within efficacious patient care.

Prereq: Permission .

AT 632 Integrative Patient Care for the Spine and Pelvic Girdle
3 credits

This course explores current topics and causes of musculoskeletal injuries to the spine and pelvis. An in-depth look at epidemiology, biomechanics and other topics related to musculoskeletal injuries of the lumbar spine and pelvis will be emphasized.

Prereq: Permission .

AT 633 Application of Advanced Practice Skills: A Practice-Based Approach
3 credits

This course explores current topics of interest areas of practicing professionals. An in-depth look at theory, research, and art of the chosen interest area will be explored. Focus will be in critically analyzing areas such as; anatomy, pathophysiology, biomechanics, theoretical framework or ethical principles to explain the students chosen topic.

Prereq: Permission .

AT 634 Introduction to Quantitative Data Analysis and Interpretation in Patient Care
2 credits

This course introduces quantitative research design, methods of measurement, and introductory data analysis skills for health care professionals. The goals are for students to develop an introductory understanding of quantitative design, develop skills to perform basic data analysis procedures, and begin to develop the skills to interpret findings from quantitative data analysis research projects.

Prereq: Permission .

AT 635 Intermediate Quantitative Data Analysis and Interpretation in Patient Care
2 credits

This course provides an in-depth analysis of quantitative research design and data analysis for health care professionals. The goal is to prepare health care students to apply quantitative research design and data analysis skills in patient care. The goals are for students to develop sound understand of research design and be able to utilize correlational, reliability, and univariate data analysis skills to answer important research questions in patient care. Students will learn to interpret and disseminate their findings to other health care professionals.

Prereq: Permission .

AT 640 Clinical Residency and Analysis of Patient Care I
6 credits

This course is designed to critically assess clinical skills and improve patient care of the practicing healthcare professional in a mentor guided model. Improvement in selected areas of clinical practice will be measured via formative and summative assessment that employs quantitative measures. Impact of the skill improvement to the organization and profession will be demonstrated.

Prereq: Permission .

AT 641 Clinical Residency and Analysis of Patient Care II
6 credits

This course is designed to critically assess clinical skills and improve patient care of the practicing healthcare professional in a mentor guided model. Improvement in selected areas of clinical practice will be measured via formative and summative assessment that employs quantitative measures. Impact of the skill improvement to the organization and profession will be demonstrated.

Prereq: Permission .

AT 642 Clinical Residency and Analysis of Patient Care III
6 credits

This course is designed to critically assess clinical skills and improve patient care of the practicing healthcare professional in a mentor guided model. Improvement in selected areas of clinical practice will be measured via formative and summative assessment that employs quantitative measures. Impact of the skill improvement to the organization and profession will be demonstrated.

Prereq: Permission .

AT 643 Clinical Residency and Analysis of Patient Care IV
6 credits

This course is designed to critically assess clinical skills and improve patient care of the practicing healthcare professional in a mentor guided model. Improvement in selected areas of clinical practice will be measured via formative and summative assessment that employs quantitative measures do demonstrate improved patient care. Impact of the skill improvement to the organization and profession will be demonstrated. Summary of all impact of clinical residencies will be presented to the participant's organization

Prereq: Permission .

BIOINFORMATICS/ COMPUTATNL BIOL (BCB)

BCB 404 (s) Special Topics
Max arranged.

BCB 500 Master's Research and Thesis
Credit arranged.

BCB 501 (s) Seminar
Credit arranged

Students are required to attend all of the invited speaker presentations in the IBEST/CMCI/BCB seminar series for the semester they are enrolled. Students who miss one or more presentations are expected to attend an alternative seminar approved by the instructor. Additional meetings may be required by the instructor.

BCB 502 (s) Directed Study
Credit arranged.

BCB 503 (s) Workshop
Credit arranged.

BCB 504 (s) Special Topics
Credit arranged.

BCB 506 Laboratory Experience in the Biological Sciences
Credit arranged

Hands-on activities in an active research laboratory whose central research interests are in the biological or biochemical sciences.

Prereq: Admission to BCB program.

BCB 507 Laboratory Experience in the Computational Sciences
Credit arranged

Hands-on activities in an active research laboratory whose central research interests are in the computational sciences.

Prereq: Admission to BCB program.

BCB 508 Laboratory Experience in Mathematics or Statistics
Credit arranged

Hands-on activities in an active research laboratory whose central research interests are in the mathematics or statistics.

Prereq: Admission to BCB program.

BCB 509 Evolutionary Biology for non-Life Scientists
3 credits

This course is offered by Michigan State University as part of the National Science Foundation BEACON Science and Technology Center on 'evolution in action'. Life-scientists in general, and evolutionary biologists in particular, have a particular way of looking at the world that may seem unfamiliar or unusual to non-biologists. In this class, students learn to 'think' like an evolutionary biologist. This course builds a working understanding of biological evolution, enabling effective collaboration with evolutionary biologists. (Fall only)

Prereq: Graduate Standing .

BCB 510 Computational Science for Biologists
3 credits

This course is offered by Michigan State University as part of the National Science Foundation BEACON Science and Technology Center on 'evolution in action'. This course develops computational skills and quantitative reasoning abilities, computational thinking, and exposure to computational research in evolutionary and molecular biology. We introduce the Python programming language, scripting and pipelining, simulations, and data analysis. We also introduce the Avida artificial life program as a platform for in silico evolution experimentations. (Fall only)
Prereq: BIOL 421 or Instructor Permission .

BCB 511 Applied Bioinformatics
3 credits

A data driven approach to the computational and statistical understanding required to solve bioinformatics problems encountered in genome scale research. Recommended Preparation: CS 120, STAT 301, or BIOL 456. (Spring, alt/yr)

BCB 512 Multidisciplinary Approaches to the Study of Evolution
3 credits

This course is offered by Michigan State University as part of the National Science Foundation BEACON Science and Technology Center on 'evolution in action'. This project-based course prepares students for team-based, multi-disciplinary and multi-institutional research into the evolutionary dynamics of biological and computational systems. The course objective is to recognize and overcome challenges such as discipline-specific languages, customs and world views. Students will also learn fundamentals of experimental design and statistical analysis. (Spring only)

Prereq: Graduate Standing .

BCB 597 (s) Practicum
Credit arranged.

BCB 598 (s) Internship
Credit arranged.

BCB 599 (s) Non-thesis Master's Research
Credit arranged.

BCB 600 Doctoral Research and Dissertation
Credit arranged.

BIOLOGICAL ENGINEERING (BE)

BE 142 Introduction to Biological Engineering

2 credits

An introduction to biological engineering and the engineering principles used to solve biological engineering problems. Fields of study within biological engineering will be discussed including agricultural, bioenergy, biomedical, bioprocess, ecohydrological and environmental engineering. Students will work on a team-based engineering project. One lecture and one 3-hour lab a week.

BE 204 (s) Special Topics

Credit arranged.

BE 242 Engineering Analysis and Design

2 credits

Methods of analyzing and solving engineering problems and introduction to elements of design; use of computers in engineering problem solving. Recommended Preparation: computer science elective in a programming language.

Prereq: MATH 170

Coreq: MATH 175.

BE 299 (s) Directed Study

Credit arranged.

BE 355 Fundamentals of Hydrologic Engineering

3 credits

Cross-listed CE 325

Principles of hydrologic science and their application to the solution of hydraulic, hydrologic, environmental, and water resources engineering problems.

Prereq: MATH 310, STAT 301, and ENGR 335. A minimum grade of 'C' or better is required for all pre/coreqs.

BE 361 Transport Processes in Biological Systems

3 credits

The course will familiarize students with transport phenomena processes involved in bio-related fields spanning from agricultural to environmental and medical to pharmaceutical.

Prereq: ENGR 320 and ENGR 335 .

BE 398 (s) Engineering Cooperative Internship

Credit arranged

Supervised internship in professional engineering settings, integrating academic study with work experience; details of the co-op to be arranged with supervising professor before the start of the co-op; requires written report. Graded P/F. Cannot be used for technical elective.

Prereq: Permission.

BE 404 (s) Special Topics

Credit arranged.

BE 411 (s) Industrial Energy Efficiency

1 credit, max 6

This course will provide students an understanding of major industrial energy consuming equipment, diagnostics of energy inefficiencies, and instrumentation for baselining energy efficiency. Students will learn energy auditing and report writing with improvement recommendations including cost analysis. Each semester will cover a specific topic such as "process heating and refrigeration" or "motors and air compressors". As topics change by semester, prerequisites may be only a subset of those listed. Contact instructor for details.

Prereq: ((ENGR 320 or ME 322) and ENGR 240) or permission .

BE 421 Image Processing and Computer Vision

3 credits

Joint-listed with BE 521

Fundamentals of digital image processing, analysis, feature recognition, and computer vision applied to areas of Biological Engineering including agricultural, environmental and biomedical applications. This course covers camera model, digital image processing and image analysis techniques for computer vision. Additional project components required for graduate credit.

Prereq: (BE 242 and MATH 275) or permission .

BE 425 Introduction to Biomedical Engineering

3 credits

Principles of biomedical engineering, including biomechanics, biomaterials, nano-osseointegration, tissue engineering, cardiovascular systems and artificial hearts, medical imaging, and a brief survey of biosensors and bio-signaling.

Prereq: Junior or Senior standing in the College of Engineering or the College of Science; or Permission of instructor.

BE 433 Bioremediation

3 credits

Joint-listed with BE 533

Theory and practice of bioremediation as applied to toxic and hazardous wastes, including reaction kinetics, reaction stoichiometry, microbiology, and design of ex- and in-situ processes. Graduate credit requires additional design project. One-two field trips.

Prereq: BIOL 115, BIOL 115L, and MATH 170, or Permission.

BE 441 Instrumentation and Measurements

3 credits

Joint-listed with BE 541

Sensing elements, signal conditioning, data output and control.

Additional projects/assignments reqd for grad cr. Two lectures and one 3-hour lab a week. Cooperative: open to WSU degree-seeking students.

Prereq: ENGR 240

Coreq: STAT 301.

BE 450 Environmental Hydrology

3 credits

Carries no credit after BE 355 or CE 325. The objective of this course is to provide a comprehensive understanding of the hydrologic processes associated with the environmental processes. Includes components of the hydrologic cycle, analysis of precipitation and run off, evapotranspiration, routing, peak flow, infiltration, soil and water relationships, snowmelt, and frequency analysis. (Spring only)

Prereq: MATH 170.

BE 452 Environmental Water Quality**3 credits**

Joint-listed with BE 552

Engineering design to monitor, evaluate, and minimize non-point pollution from agriculture, environmentally acceptable disposal of wastes, bioremediation. Graduate credit requires an additional project and report. Two lectures and one 3-hour lab a week.

Prereq: BE 355 and CHEM 112, CHEM 112L; and SOIL 205 or BIOL 250.**BE 453 Northwest Climate and Water Resources Change****3 credits**

Joint-listed with BE 553

Examines the relationship between climate and water resources in the Northwest, including historical and potential changes, and comparisons with other US regions. Scientific literature is read and discussed.

Quantitative tools are developed for modeling the process physics and conducting statistical analyses. Historical data are analyzed. Additional project components required for graduate credit.

Prereq: STAT 301 or permission .**BE 459 Irrigation System Design****3 credits**

Crop water requirements, irrigation scheduling and water management, selection and design of irrigation systems, pump selection. Two lectures and one 3-hour lab a week; one 1-day field trip.

Prereq: ENGR 335.**BE 461 Bioprocess Engineering****3 credits**

Carries 2 credits after ME 345. Processing principles and transport processes applied to the analysis and design of handling, processing, and producing of biomaterials and bioprocesses. Course includes advanced biological sciences applications. Two lectures and one 3-hour lab a week. (Spring only)

Prereq: MATH 310 and ENGR 320 and ENGR 335; or Permission.**BE 462 Electric Power and Controls****3 credits**

Design, selection, and use of electrical equipment and electric power systems for application to biological systems; design and use of electrical, electronic, and other feedback control systems for use with biological systems. Course includes advanced biological sciences applications. Two lectures and one 3-hour lab a week.

Prereq: ENGR 240**Coreq:** MATH 310.**BE 478 Engineering Design I****3 credits***Gen Ed: Senior Experience*

The capstone design sequence for biological and agricultural engineering majors. Course topics include research, design, experimental methods, specifications, prototyping, and verification; report writing, documentation and oral presentations. Topics, from industrial sponsorship, are considered in the context of a major design project involving a team of students. Projects incorporate realistic engineering constraints including environmental concerns, sustainability, ethical, safety, manufacturability, social and political considerations.

Prereq: BE 242, ENGR 320, ENGR 335, and ENGR 350 .**BE 479 Engineering Design II****3 credits***Gen Ed: Senior Experience*

Continuation of the capstone design sequence for biological and agricultural engineering majors. Course topics include research, design, experimental methods, specifications, prototyping, and verification; report writing, documentation and oral presentations. Topics, from industrial sponsorship, are considered in the context of a major design project involving a team of students. Projects incorporate realistic engineering constraints including environmental concerns, sustainability, ethical, safety, manufacturability, social and political considerations

Prereq: BE 478.**BE 485 Fundamentals of Bioenergy and Bioproducts****3 credits**

Joint-listed with BE 585

Review of current technology for producing energy and products from biological materials. Discussion of economic, social, and political aspects and future prospects for petroleum displacement. Additional projects/ assignments required for graduate credit. Recommended Preparation: Organic Chemistry.

Prereq: CHEM 111, CHEM 111L**Coreq:** ENGR 320 or Permission .**BE 491 Senior Seminar****1 credit***Gen Ed: Senior Experience*

Professional aspects of the field, employment opportunities and preparation of occupational inventories. Graded P/F.

Prereq: Senior standing.**BE 492 Biofuels****3 credits**

Joint-listed with BE 592

Basic principles for the production and utilization of biobased fuels; processing techniques and chemistry; fuel properties and utilization. Additional projects/assignments required for graduate credit.

Recommended Preparation: Organic Chemistry.

Prereq: CHEM 111, CHEM 111L**Coreq:** ENGR 320 or Permission.**BE 494 Thermochemical Technologies for Biomass Conversion****3 credits**

Joint-listed with BE 594

Introduce the fundamentals of biomass conversion technologies for biofuels and bioenergy. Specific topics include biomass preparation/ pretreatment, pyrolysis, gasification, direct liquefaction, and economic factors in thermochemical conversion of biomass. Advances of the technologies will be brought to current through literature reviews. A semester long course project is required if taken as a graduate level course. Recommended Preparation: Organic Chemistry, Chemical Reaction Engineering, Engineering Thermodynamics.

Prereq: CHEM 277 and CHEM 278**Coreq:** ENGR 320 or Permission.**BE 499 (s) Directed Study****Credit arranged.****BE 500 Master's Research and Thesis****Credit arranged.****BE 501 (s) Seminar****Credit arranged**

Graded P/F.

Prereq: Permission.

BE 502 (s) Directed Study**Credit arranged.****BE 504 (s) Special Topics****Credit arranged.****BE 521 Image Processing and Computer Vision****3 credits**

Joint-listed with BE 421

Fundamentals of digital image processing, analysis, feature recognition, and computer vision applied to areas of Biological Engineering including agricultural, environmental and biomedical applications. This course covers camera model, digital image processing and image analysis techniques for computer vision. Additional project components required for graduate credit.

Prereq: (BE 242 and MATH 275) or permission .**BE 533 Bioremediation****3 credits**

Joint-listed with BE 433

Theory and practice of bioremediation as applied to toxic and hazardous wastes, including reaction kinetics, reaction stoichiometry, microbiology, and design of ex- and in-situ processes. Graduate credit requires additional design project. One-two field trips.

Prereq: BIOL 115, BIOL 115L and MATH 170, or Permission.**BE 541 Instrumentation and Measurements****3 credits**

Joint-listed with BE 441

Sensing elements, signal conditioning, data output and control. Additional projects/assignments reqd for grad cr. Two lectures and one 3-hour lab a week. Cooperative: open to WSU degree-seeking students.

Prereq: ENGR 240**Coreq:** STAT 301.**BE 551 Advanced Hydrology****3 credits**

Principles of the hydrologic cycle including precipitation, lower atmosphere, evaporation, fluid mechanics of free surface flow, overland flow, stream flow routing, water transport in porous media, infiltration, groundwater outflow and base flow, stream flow generation, and elements of frequency analysis in hydrology.

Prereq: BE 355; or BE 450 and MATH 310; or Permission.**BE 552 Environmental Water Quality****3 credits**

Joint-listed with BE 452

Engineering design to monitor, evaluate, and minimize non-point pollution from agriculture, environmentally acceptable disposal of wastes, bioremediation. Graduate credit requires an additional project and report. Two lectures and one 3-hour lab a week.

Prereq: BE 355 and CHEM 112, CHEM 112L; and SOIL 205 or BIOL 250.**BE 553 Northwest Climate and Water Resources Change****3 credits**

Joint-listed with BE 453

Examines the relationship between climate and water resources in the Northwest, including historical and potential changes, and comparisons with other US regions. Scientific literature is read and discussed.

Quantitative tools are developed for modeling the process physics and conducting statistical analyses. Historical data are analyzed. Additional project components required for graduate credit.

Prereq: STAT 301 or permission .**BE 558 Fluid Mechanics of Porous Materials****3 credits**

Statics and dynamics of multiflow systems in porous materials; properties of porous materials; steady and unsteady flow. Cooperative: open to WSU degree-seeking students.

BE 585 Fundamentals of Bioenergy and Bioproducts**3 credits**

Joint-listed with BE 485

Review of current technology for producing energy and products from biological materials. Discussion of economic, social, and political aspects and future prospects for petroleum displacement. Additional projects/assignments required for graduate credit. Recommended Preparation: Organic Chemistry.

Prereq: CHEM 111, CHEM 111L**Coreq:** ENGR 320 or Permission.**BE 592 Biofuels****3 credits**

Joint-listed with BE 492

Basic principles for the production and utilization of biobased fuels; processing techniques and chemistry; fuel properties and utilization. Additional projects/assignments required for graduate credit.

Recommended Preparation: Organic Chemistry.

Prereq: CHEM 111, CHEM 111L**Coreq:** ENGR 320 or Permission.**BE 594 Thermochemical Technologies for Biomass Conversion****3 credits**

Joint-listed with BE 494

Introduce the fundamentals of biomass conversion technologies for biofuels and bioenergy. Specific topics include biomass preparation/pretreatment, pyrolysis, gasification, direct liquefaction, and economic factors in thermochemical conversion of biomass. Advances of the technologies will be brought to current through literature reviews. A semester long course project is required if taken as a graduate level course. Recommended Preparation: Organic Chemistry, Chemical Reaction Engineering, Engineering Thermodynamics.

Prereq: CHEM 277 and CHEM 278**Coreq:** ENGR 320 or Permission.**BE 598 (s) Internship****Credit arranged.****BE 599 (s) Non-thesis Master's Research****Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.**BE 600 Doctoral Research and Dissertation****Credit arranged.**

BIOLOGY (BIOL)

BIOL 101 Perspectives in Biology

1 credit

Open only to majors. Intro to the disciplines in the fields of biology; current research topics.

BIOL 102 Biology and Society

3 credits

Gen Ed: Natural and Applied Sciences

Not open to majors or for minor cr. Principles of biology and their relationship to social issues. Three lecture and one 3-hour lab a week.

BIOL 102L Biology and Society Lab

1 credit

Gen Ed: Natural and Applied Sciences

Not open to Biology majors or for minor credit. Principles of biology and their relationship to social issues. Three lectures and one 3-hour lab a week.

BIOL 114 Organisms and Environments

4 credits

Gen Ed: Natural and Applied Sciences

The evolution of diversity, the biology of plants and animals, and their environments. Three lectures and one 3-hour lab a week.

BIOL 115 Cells & the Evolution of Life

3 credits

Gen Ed: Natural and Applied Sciences

The cell, heredity and evolutionary processes.

Prereq or Coreq: CHEM 101 and CHEM 101L or CHEM 111 and CHEM 111L.

BIOL 115L Cells and the Evolution of Life Laboratory

1 credit

Gen Ed: Natural and Applied Sciences

Laboratory for introductory biology; experiments are designed to teach problem solving, scientific methods and the aspects of biology related to the cell.

Coreq or Prereq: BIOL 115 .

BIOL 120 Human Anatomy

4 credits

Study of the anatomy of the major organ systems of the human body; lab consists of studying human gross anatomy models and prosected cadavers. Three lec and one 3-hr lab a wk. (Fall only)

BIOL 121 Human Physiology

4 credits

Study of the physiology of the major organ systems of the human body. Three lectures and one 3-hour lab a week. (Spring only)

Prereq: BIOL 120.

BIOL 154 Introductory Microbiology

3 credits

Gen Ed: Natural and Applied Sciences

Carries no credit after BIOL 250. May be taken by microbiology majors, but carries no credit after BIOL 250. Introduction to microorganisms and their role in disease, health, foods, and the environment; current topics in microbiology. (Spring only)

BIOL 155 Introductory Microbiology Laboratory

1 credits

Gen Ed: Natural and Applied Sciences

May be taken by microbiology majors but carries no credit after BIOL 255. Introductory laboratory training in basic microbiology; includes sterile technique, bacterial enumeration methods, culturing techniques, yogurt preparation and analysis, recombinant DNA techniques. Three hrs lab a wk. (Spring only)

Coreq: BIOL 154 .

BIOL 204 (s) Special Topics

Credit arranged.

BIOL 213 Principles of Biological Structure and Function

4 credits

Principles of physiology in plants and animals (homeostasis, hormonal and neural control systems, organismal physiology). Three lectures and one 3-hour lab a week. (Spring only)

Prereq: BIOL 115, BIOL 115L.

BIOL 250 General Microbiology

3 credits

Gen Ed: Natural and Applied Sciences

Introduction to nature and activity of bacteria and other microorganisms; their importance in all life systems. Three hours of lecture per week. (Fall only)

Prereq: BIOL 115, BIOL 115L and either CHEM 101 and CHEM 101L or CHEM 111 and CHEM 111L.

BIOL 255 General Microbiology Lab

2 credits

Gen Ed: Natural and Applied Sciences

Training in the handling of microscopes, basic lab equipment, and manipulation of microbes. Two 2-hour labs per week.

Prereq or Coreq: BIOL 250 .

BIOL 299 (s) Directed Study

Credit arranged.

BIOL 300 Survey of Biochemistry

3 credits

Carries no credit after BIOL 380. Survey of biochemical principles and the molecular structure and function that describe the chemical basis of life. (Fall only)

Prereq: CHEM 101 and CHEM 101L or CHEM 111 and CHEM 111L

Coreq: CHEM 275 or CHEM 277 .

BIOL 301 Undergraduate Research

1-4 credits, max 8

Undergraduate research for students without senior standing.

Pereq: Permission.

BIOL 310 Genetics

3 credits

Genetic mechanisms in animals, plants, and microorganisms. Three hours of lec per. (Fall only)

Prereq: BIOL 115 and BIOL 115L or BIOL 250 .

BIOL 312 Molecular and Cellular Biology

3 credits

Current theory and experimental basis of the structure/function of eukaryotic cells. Topics include plasma membrane, organelles, cytoskeleton and cell mobility, the nature of genes, gene expression, DNA replication and cellular reproduction, and signal transduction. Three lectures and one 1-hour recitation a wee. (Spring only)

Prereq: BIOL 115, BIOL 115L .

BIOL 313 Molecular and Cellular Laboratory**1 credit**

Laboratory experiments and techniques related to molecular and cellular biology. One 3-hour lab per week. (Spring only)

Coreq: BIOL 312 .**BIOL 314 Ecology and Population Biology****4 credits**

Population genetics, population ecology, species interactions, community ecology, biodiversity, and data analysis. Three lectures and one 3-hour lab per week. (Spring only)

Prereq: BIOL 114 and BIOL 115, BIOL 115L; STAT 251 or STAT 301; and MATH 160 or MATH 170.**BIOL 315 Genetics Lab****1 credit**

Laboratory on genetic mechanisms in animals, plants, and microorganisms. One three hour lab per week. (Fall only)

Prereq: BIOL 115 or BIOL 250**Coreq:** BIOL 310 .**BIOL 324 Comparative Vertebrate Anatomy****4 credits**

Evolution of vertebrates and their organ systems with an emphasis on structure – function relationships. Two lectures and two 3-hour labs a week. (Spring only, alt/yrs)

Prereq: BIOL 114 and BIOL 115, BIOL 115L and BIOL 213; or Permission .**BIOL 380 Biochemistry I****4 credits**

Carries one credit after Biol 300. Introduction to the structure and function of major molecular constituents of living systems. Emphasis on proteins, enzyme kinetics and catalysis, carbohydrate metabolism. Three hrs lecture and one hr with interactive problem solving. (Fall only)

Prereq: CHEM 112, CHEM 112L and CHEM 277 .**BIOL 382 Biochemistry I Laboratory****2 credits**

Lab training in modern methods. One 3-hour lab and one 1-hour recitation a week. (Fall only)

Coreq: BIOL 380 or equivalent .**BIOL 398 (s) Internship****1-3 credits, max 3**

Supervised internship in professional biological, non-university settings, integrating academic study with work experience; requires formal written plan of activities to be approved by academic advisor and department chair before engaging in the work; a final written report will be evaluated by on-campus faculty. Graded P/F.

Prereq: Permission.**BIOL 400 (s) Seminar****1 credit, max arranged**

May be used as a science elective after 1 required credit, up to a maximum of 4 credits. Graded P/F.

BIOL 401 Undergraduate Research**1-4 credits, max 8***Gen Ed: Senior Experience*

Undergraduate research at the senior level.

Prereq: Senior Standing and Permission of Instructor .**BIOL 403 (s) Workshop****Credit arranged.****BIOL 404 (s) Special Topics****Credit arranged.****BIOL 405 Practicum in Anatomy Laboratory Teaching****2-4 credits, max 8***Gen Ed: Senior Experience*

Organization, preparation, and teaching of anatomy laboratory objectives under faculty supervision. (Fall only)

Prereq: Permission.**BIOL 407 Practicum in Biology Laboratory Teaching****2-6 credits, max 12***Gen Ed: Senior Experience*

Organization, preparation, and teaching of lab experiments or demonstrations under faculty supervision.

Prereq: Any four of the following courses: BIOL 114, BIOL 115, BIOL 213, BIOL 310, BIOL 312, or BIOL 314; and Permission .**BIOL 408 Practicum in Human Physiology Laboratory Teaching****2-4 credits, max 8***Gen Ed: Senior Experience*

Organization, preparation, and teaching of human physiology laboratory objectives under faculty supervision. (Spring only)

Prereq: BIOL 121 and Permission .**BIOL 411 Senior Capstone****2 credits***Gen Ed: Senior Experience*

Application of biological principles and information to the analysis of societal and philosophical issues. (Spring only)

Prereq: BIOL 213, BIOL 310, BIOL 312, BIOL 314, and Senior standing.**BIOL 416 Plant Diversity and Evolution****4 credits**

Origin, evolution, and diversity of major land plant groups; emphasis on systematics, anatomy, morphology, ecological diversity, and macroevolution. Two lectures and one 3-hour lab a week; one field trip. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: BIOL 114 and BIOL 115, BIOL 115L.**BIOL 421 Advanced Evolution/Population Dynamics****3 credits**

Macro and Micro evolutionary patterns and processes examined from molecular, ecological, and paleontological perspectives. (Spring only)

Prereq: BIOL 314, FOR 221 or REM 221 .**BIOL 425 Special Topics: Experimental Field Ecology****3 credits**

Intensive course on diverse aspects of field ecology to be held off-campus. Various global locations (i.e. Costa Rica, Oregon coast, Hawaii) are possible. The course will be scheduled during an 8-10 day period preceding/following the Spring Term (i.e. January or May). Will involve travel and lodging costs at student expense.

Prereq: BIOL 114, BIOL 115, BIOL 213, BIOL 310, BIOL 312, and BIOL 314.**BIOL 426 Systems Biology****3 credits**

Joint-listed with BIOL 526

Two lectures per week. Systems Biology will use quantitative approaches including theory and computation to understand the complex function that emerges from physiological systems. Topics will include transcriptional networks and their common motifs, robustness in chemotaxis and development, noise and variability, evolution of modularity, and optimality in metabolism. Cooperative: open to WSU degree-seeking students. (Fall only, alt/yrs).

Prereq: BIOL 115, BIOL 115L and MATH 170 or permission of instructor .

BIOL 428 Microscopic Anatomy

4 credits

Basic principles of histology and advanced microscopic anatomy of vertebrate tissues and organs. (Fall, alt/even yrs)

Prereq: BIOL 213 or BIOL 312 .

BIOL 432 Immunology

3 credits

Theory and mechanisms of the cellular basis of immune response; antibody structure, function, and synthesis; cell-mediated immunity; complement; hypersensitivity; immunologic diseases; transplantation; tumor immunity. Extra oral and/or written assignments required for graduate credit. (Spring only)

Prereq: BIOL 300 or BIOL 380 .

BIOL 433 Pathogenic Microbiology

3 credits

Epidemiology, host-parasite relationships, pathology, host response; treatment, prevention, and control of pathogenic microorganisms. Extra oral and/or written assignments required for graduate credit. (Fall, alt/odd years)

Prereq: BIOL 250 .

BIOL 444 Genomics

3 credits

Structural, functional, and comparative genomics of animals, plants, fungi, and microbes. Case studies illustrating a genomic approach to questions of fundamental biological and societal relevance will be drawn from diverse fields such as human medicine, evolutionary biology, agriculture, and bioterrorism. (Spring, alt/yrs)

Prereq: BIOL 114 and BIOL 310; or BIOL 250.

BIOL 447 Virology

3 credits

Joint-listed with BIOL 547

A survey of virology, with special emphasis on the molecular basis of replication, host-pathogen interactions and diseases associated with animal viruses. Extra oral and/or written assignments required for grad credit. Recommended preparation: BIOL 250. (Fall, alt/yrs)

Prereq: BIOL 312 or Permission .

BIOL 454 Biochemistry II

3 credits

Joint-listed with BIOL 554

Intermediate biochemistry; areas of emphasis include molecular biology, nitrogen and lipid metabolism. Extra oral and/or written assignments required for grad credit. (Spring only)

Prereq: CHEM 372; BIOL 380 or CHEM 302 or 306; or Permission.

BIOL 456 Computer Skills for Biologists

3 credits

Joint-listed with BIOL 549

Management and analysis of complicated datasets such as those in molecular evolution, systematics, and genomics. Demonstrations, exercises, and student projects to teach advanced Unix skills, programming (e.g. Perl and R), and data management. Cooperative: open to WSU degree-seeking students. (Fall, alt/even yrs)

Prereq: BIOL 310 and STAT 251 or STAT 301; or Permission .

BIOL 460 Advanced Field Botany

3 credits

Joint-listed with BIOL 560

Hands-on training in field botany as applied to evolutionary, ecological, and floristic studies; two-week field course in the Inland Northwest. Additional projects/assignments required for grad credit. (Summer only)

Prereq: Instructor Permission.

BIOL 461 Neurobiology

3 credits

Joint-listed with BIOL 565

Study of the nervous system, with an emphasis on mechanisms of neuronal signaling, the function of sensory and motor systems, and neural development. Recommended: PHYS 111, PHYS 112, and CHEM 275 or CHEM 277. Cooperative: open to WSU degree-seeking students. (Fall, Alt/yrs)

Prereq: BIOL 213, BIOL 310, BIOL 312, GENE 314, BIOL 300, or BIOL 380 .

BIOL 474 Principles of Developmental Biology

3 credits

Joint-listed with BIOL 573

Analysis of mechanisms at cellular and molecular level during metazoan development. (Spring, Alt/yrs)

Prereq: BIOL 114 and BIOL 115, BIOL 115L; or BIOL 312.

BIOL 478 Animal Behavior

3 credits

Evolution, causation, development, and function of behavior in vertebrates and invertebrates. (Spring only)

Prereq: BIOL 114 and BIOL 115, BIOL 115L.

BIOL 482 Protein Structure and Function

3 credits

Joint-listed with BIOL 582

Detailed analysis of protein structure and function including enzyme activity, binding, folding and stability, and techniques for structure determination. Additional projects/assignments required for graduate credit. (Fall, alt/yrs)

Prereq: for 482: BIOL 380 .

BIOL 483 Mammalogy

3 credits

Evolution, systematics, distribution, and biology of mammals. Two lectures and one 3-hour lab a week; one field trip. (Fall only)

Prereq: BIOL 114 and BIOL 115, BIOL 115L.

BIOL 484 Invertebrate Zoology

4 credits

Morphology of freshwater, marine, and terrestrial invertebrates and phylogeny of major groups. Three lectures and one 3-hour lab a wk. One required, weekend field trip. (Fall only)

Prereq: BIOL 114 and BIOL 115, BIOL 115L.

BIOL 485 Prokaryotic Molecular Biology

3 credits

Joint-listed with BIOL 585

Current theory and experimental basis for prokaryotic DNA, RNA, and protein synthesis, gene regulation and cell wall metabolism. Extra oral and/or written assignments required for graduate credit. (Spring only)

Prereq: BIOL 250 and BIOL 380 .

BIOL 487 Eukaryotic Molecular Genetics

3 credits

Joint-listed with BIOL 587

Molecular basis of genetics in eukaryotes. Extra oral and/or written assignments required for graduate credit. Recommended preparation: BIOL J485/J585 and PLSC J488/J588. (Fall only)

Prereq: BIOL 380; and BIOL 310 or GENE 314 .

BIOL 489 Herpetology

4 credits

Evolution, systematics, physiology, and ecology of reptiles and amphibians. Three lectures and one 3-hr lab a wk; field trip. (Fall only)

Prereq: BIOL 114 and BIOL 115, BIOL 115L .

BIOL 491 Practicum in Teaching**2 credits***Gen Ed: Senior Experience*

Teaching by advanced students under faculty supervision.

Prereq: Permission .**BIOL 499 (s) Directed Study****Credit arranged.****BIOL 500 Master's Research and Thesis****Credit arranged.****BIOL 501 (s) Seminar****Credit arranged.****BIOL 502 (s) Directed Study****Credit arranged.****BIOL 503 (s) Workshop****Credit arranged.****BIOL 504 (s) Special Topics****Credit arranged.****BIOL 505 Colloquium****1 credit**

Oral presentation required for credi. Graded P/F.

Prereq: Permission.**BIOL 508 Topics in Neuroscience****1 credit, max arranged**

Seminars and discussion of current topics in neuroscience.

Prereq: Graduate standing.**BIOL 521 Graduate Teaching Practicum****3 credits**

Organization, preparation, and teaching of lab experiments or demonstrations under faculty supervision. Graded pass/fail.

Prereq: Graduate standing and Permission.**BIOL 522 Molecular Evolution****3 credits**

Understanding evolutionary processes and patterns at the molecular level, techniques for using genetic and genomic data understand evolutionary history of organisms, 3 lectures per week. Cooperative: open to WSU degree-seeking students. (Fall, alt/yrs)

Prereq: Undergraduates require permission of instructor .**BIOL 524 Research & Curriculum Progress****1 credit, max arranged**

Required of all graduate students one semester per year. The grade is based on preparation of an oral and written presentation of research goals and coursework for the completion of the degree. A letter grade is assigned by committee members at the time of the student's graduate committee meeting. Recommended preparation: Undergraduate degree in Microbiology, Biochemistry, or related topic.

Prereq: Permission .**BIOL 526 Systems Biology****3 credits**

Joint-listed with BIOL 426

Two lectures per week. Systems Biology will use quantitative approaches including theory and computation to understand the complex function that emerges from physiological systems. Topics will include transcriptional networks and their common motifs, robustness in chemotaxis and development, noise and variability, evolution of modularity, and optimality in metabolism. Cooperative: open to WSU degree-seeking students. (Fall only, alt/yrs).

Prereq: BIOL 115, BIOL 115L and MATH 170 or permission of instructor.**BIOL 536 Phylogenetics Reading Group****1 credit, max arranged**

Review recent articles in phylogenetics and systematics journals.

Students choose, critically review, and discuss the articles to develop critical-thinking skills and confidence in their knowledge of the literature. Graded P/F. Cooperative: open to WSU degree-seeking students.

BIOL 545 Principles of Systematic Biology**3 credit**

The inference of evolutionary trees (phylogeny) and the processes that generate biodiversity from analyses of morphological, molecular, and behavioral data; uses of phylogenies in testing evolutionary and other hypotheses at both inter and intraspecific levels. Two hours of lecture and one 3-hour lab a week. Cooperative: open to WSU degree-seeking students. (Spring, Alt/yrs)

Prereq: PLSC 205 or BIOL 213 and BIOL 310 .**BIOL 547 Virology****3 credits**

Joint-listed with BIOL 447

A survey of virology, with special emphasis on the molecular basis of replication, host-pathogen interactions and diseases associated with animal viruses. Extra oral and/or written assignments required for grad credit. Recommended preparation: BIOL 250. (Fall, alt/yrs)

Prereq: BIOL 312 or Permission .**BIOL 548 Evolutionary Ecology****3 credits**

This course develops the theoretical underpinnings for the field of evolutionary ecology and illustrates how this conceptual basis is used to address major questions of social and economic importance such as the spread of invasive species and the evolution of infectious disease. This is a cooperative course available to WSU degree-seeking students. (Spring, alt/yrs)

BIOL 549 Computer Skills for Biologists**3 credits**

Joint-listed with BIOL 456

Management and analysis of complicated datasets such as those in molecular evolution, systematics, and genomics. Demonstrations, exercises, and student projects to teach advanced Unix skills, programming (e.g. Perl and R), and data management. Cooperative: open to WSU degree-seeking students. (Fall, alt/even yrs)

Prereq: BIOL 310 and STAT 251 or STAT 301; or Permission .**BIOL 551 Seminar on Reproductive Biology****1 credit, max 5**

Current topics in reproductive biology. Cooperative: open to WSU degree-seeking students. (Spring only)

Prereq: Graduate standing .**BIOL 552 Professional Development for Biologists****3 credits**

Oral and written presentation skills for communicating scientific information, including grant writing and data presentation for manuscripts and seminars.

Prereq: Graduate standing .**BIOL 553 Ethical Issues in Biological Research****1 credit**

Practical ethical issues for biologists.

Prereq: Graduate standing .

BIOL 554 Biochemistry II

3 credits

Joint-listed with BIOL 454

Intermediate biochemistry; areas of emphasis include molecular biology, nitrogen and lipid metabolism. Extra oral and/or written assignments required for grad credit. (Spring only)

Prereq: CHEM 372; BIOL 380 or CHEM 302 or CHEM 306; or Permission.

BIOL 560 Advanced Field Botany

3 credits

Joint-listed with BIOL 460

Hands-on training in field botany as applied to evolutionary, ecological, and floristic studies; two-week field course in the Inland Northwest. Additional projects/assignments required for grad credit. (Summer only)

Prereq: Instructor Permission.

BIOL 563 Mathematical Genetics

3 credits

Cross-listed with MATH 563 Investigation of aspects of evolutionary biology with an emphasis on stochastic models and statistical methods; topics include: diffusion methods in molecular evolution, gene genealogies and the coalescent, inferring coalescent times from DNA sequences, population subdivision and F statistics, likelihood methods for phylogenetic inference, statistical hypothesis testing, the parametric bootstrap. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 160 or MATH 170 and STAT 251 or STAT 301 .

BIOL 565 Neurobiology

3 credits

Joint-listed with BIOL 461

Study of the nervous system, with an emphasis on mechanisms of neuronal signaling, the function of sensory and motor systems, and neural development. Recommended: PHYS 111, PHYS 112, and CHEM 275 or CHEM 277. Cooperative: open to WSU degree-seeking students. (Fall, Alt/ yrs)

Prereq: BIOL 213, BIOL 310, BIOL 312, GENE 314, BIOL 300, or BIOL 380 .

BIOL 573 Principles of Developmental Biology

3 credits

Joint-listed with BIOL 474.

Analysis of mechanisms at cellular and molecular level during metazoan development. (Spring, Alt/yrs)

Prereq: BIOL 114 and BIOL 115, BIOL 115L; or BIOL 312 .

BIOL 582 Protein Structure and Function

3 credits

Joint-listed with BIOL 482

Detailed analysis of protein structure and function including enzyme activity, binding, folding and stability, and techniques for structure determination. Additional projects/assignments required for graduate credit. (Fall, alt/yrs)

Prereq for 482: BIOL 380 .

BIOL 585 Prokaryotic Molecular Biology

3 credits

Joint-listed with BIOL 485

Current theory and experimental basis for prokaryotic DNA, RNA, and protein synthesis, gene regulation and cell wall metabolism. Extra oral and/or written assignments required for graduate credit. (Spring only)

Prereq: BIOL 250 and BIOL 380.

BIOL 587 Eukaryotic Molecular Genetics

3 credits

Joint-listed with BIOL 487

Molecular basis of genetics in eukaryotes. Extra oral and/or written assignments required for graduate credit. Recommended preparation: BIOL 485/BIOL 585 and PLSC 488/PLSC 588. (Fall only)

Prereq: BIOL 380; and BIOL 310 or GENE 314 .

BIOL 598 (s) Internship

Credit arranged.

BIOL 599 (s) Non-thesis Master's Research

Credit arranged.

BIOL 600 Doctoral Research and Dissertation

Credit arranged.

BIOREGIONAL PLAN & COMM DESIGN (BIOP)

BIOP 404 (s) Special Topics

Credit arranged.

BIOP 423 Planning Sustainable Places

3 credits

Joint-listed with BIOP 523

This course discusses the concept of sustainable development and its promises and pitfalls as a leading concept for the planning and design of communities. The course provides an overview of the different interpretations of sustainability and discusses the usefulness of these interpretations for planning in the context of the communities in which we live. Additional work required for graduate credit.

BIOP 500 Master's Research and Thesis

Credit arranged.

BIOP 501 (s) Seminar

Credit arranged.

BIOP 502 (s) Directed Study

Credit arranged.

BIOP 503 (s) Workshop

Credit arranged.

BIOP 504 (s) Special Topics

Credit arranged.

BIOP 520 Introduction to Bioregional Planning

3 credits

This class introduces first semester Bioregional Planning and Community Design students to bioregional planning concepts and current implementation practices.

BIOP 521 Local and Regional Comprehensive Planning

3 credits

Provides an overview of the processes and methods for preparing comprehensive plans for local and county governments in the context of federal and state lands and regional growth management: Integrates land-use with economic development, housing, historic preservation, agricultural viability. Includes lectures by practitioners and interdisciplinary faculty, and a service-learning project. (Fall only)

BIOP 522 Bioregional Planning Methods

3 credits

This is an overview course of the methods used in making evidence based decisions in regional planning. This course will focus on the scientific method, statistics, hypothesis testing, regression analysis, spatial analysis, qualitative analysis, and design methods; giving students a feel for power and limitations of each.

BIOP 523 Planning Sustainable Places

3 credits

Joint-listed with BIOP 423

This course discusses the concept of sustainable development and its promises and pitfalls as a leading concept for the planning and design of communities. The course provides an overview of the different interpretations of sustainability and discusses the usefulness of these interpretations for planning in the context of the communities in which we live. Additional work required for graduate credit.

BIOP 530 Public Planning Theory and Process

2 to 3 credits

Seminar provides a historical and theoretical basis to address the application of knowledge to public and political decisions and the ethics of professional practice within public and non-governmental settings. Readings, discussions, and essays will focus on underlying traditions and assumptions, cultural contexts, social justice and "planner" roles. Non-majors may choose to take the course for two credits, which will not include a professional ethics segment.

BIOP 560 Bioregional Planning Studio I

4 credits

Students will work on one or more projects that target the needs of an Idaho community or regional agency. The projects will involve the application of various tools including GIS, comprehensive planning, physical design, economic development, transportation systems or other relevant methods in the creation of products or proposals. In this course, students will learn a variety of skills related to facilitation, negotiation, community politics, conflict management and assessment tools such as social impact or environmental impact assessments. (Spring only)

BIOP 561 Bioregional Planning Studio II

4 credits

This course is intended to allow students to integrate a number of skill sets by choosing a project that builds on their program specialization. Students work with faculty advisors to develop and complete final projects. Students will also have the opportunity to interact with first year students in BIOP 560 at regular intervals throughout the semester to discuss common readings, provide mutual assistance on projects and peer-to-peer evaluation of completed work. (Spring only)

Prereq: BIOP 560 .

BIOP 598 (s) Internship

Credit arranged.

BIOP 599 (s) Non-thesis Master's Research

Credit arranged.

BUSINESS (BUS)

BUS 100 The World of Business

1 credits

Open only to freshmen and sophomores (less than 58 credits). Examines types of businesses, the management of businesses, and the creation of new businesses. Special focus is placed on the role of the entrepreneur. Introduces the impact of global and domestic economic forces. Considers legal and ethical issues. May involve field trips.

BUS 101 Introduction to Business Enterprises

3 credits

May not be taken for credit after MHR 311. General overview of business enterprise, including key concepts and issues in production, human resources, management, marketing, information systems, finance, and accounting, as well as economic environment and ethical/social responsibilities. May involve evening exams.

BUS 190 Integrated Business and Value Creation

3 credits

Explores the environment of business and the management of business systems to understand how an organization turns opportunity into value. This course uses an integrated, cross-disciplinary perspective including working in teams. Includes international and ethical issues. May involve evening exams.

BUS 200 (s) Seminar

Credit arranged.

BUS 204 (s) Special Topics

Credit arranged.

BUS 252 Introduction to Business Analytics

3 credits

Introduction to business analytics including modeling and sensitivity analysis. Topics include psychology of problem solving, optimization, decision theory, simulation, regression, and related issues. May involve evening exams.

Prereq: STAT 251 or STAT 301; and MATH 143 or MATH 160 or MATH 170 or MATH 175 or MATH 275 .

BUS 262 Real Estate Finance

3 credits

Analysis of sources and methods used in the financing of real estate property construction, development, and purchase. This course has been certified by the Idaho Real Estate Commission. Recommended Preparation: a course in essentials of real estate.

BUS 263 Real Estate Law

3 credits

Study of Idaho real estate law. This course has been certified by the Idaho Real Estate Commission. Recommended Preparation: a course in essentials of real estate; BLAW 265.

BUS 298 (s) Internship

1 to 3 credits, max6

Student shall complete internship contract in consultation with area internship coordinator prior to enrolling for internship credit. Graded P/F.

Prereq: Major in the Department of Business and Permission.

BUS 299 (s) Directed Study

Credit arranged.

BUS 339 Spreadsheet Modeling

1 credit

The course is focused on developing students' detailed understanding of modeling and managing data in a business environment. Hands-on material is presented in this course making use of spreadsheets to model and manage data.

Coreq: ECON 340 .

BUS 390 (s) Integrated Topics in Business

3 credits, max 6

Each section of the course will offer an in depth study of an integrating topic spanning the business functions. International and ethical issues related to the topic will be explored. May be repeated once with a different topic for credit. See the current course schedule for specific section titles.

Prereq: BLAW 265 and FIN 301 and MKTG 321 and MIS 350 and OM 370 and; ECON 201 or ECON 272.

BUS 398 (s) Internship

1 to 3 credits, max 6

Student shall complete internship contract in consultation with area internship coordinator prior to enrolling for internship credit. Graded P/F.

Prereq: Major in the Department of Business and Permission.

BUS 400 (s) Seminar

Credit arranged.

BUS 404 (s) Special Topics

Credit arranged.

BUS 429 Vandal Solutions

1 to 6 credits, max 6

In this class students learn business by doing business. Students will run a business that provides, for a fee, market research products to clients (both external and internal to the UI). Students will apply concepts learned in the business curriculum such as the selling process, the market research process, integrated marketing communications, marketing and business plans, human resource management, financial management, and cross-functional collaboration. Members of Vandal Solutions decide how profits generated are dispersed with the general guideline being that funds should be used to support student activities such as club activities, field trips, career planning, and scholarships.

Recommended Preparation: Junior standing.

Prereq: Permission.

BUS 490 Strategic Management

3 credits

Gen Ed: Senior Experience

Capstone, integrative senior experience course focusing on the formulation and implementation of competitive strategy in both domestic and international contexts. Emphasizes approaches that executives take to provide ethical and strategic leadership to an organization as well as approaches used to achieve alignment of strategy with action across the various functional areas of the business. Application of strategy concepts in practice will be stressed. May involve evening exams.

Prereq: MHR 310, FIN 301, MKTG 321, MIS 350, OM 370; and ENGL 207 or ENGL 208 or ENGL 313 or ENGL 317 or PHIL 201; and senior standing.

BUS 498 (s) Internship

Credit arranged.

BUS 499 (s) Directed Study

Credit arranged.

BUS 502 (s) Directed Study

Credit arranged.

BUS 504 (s) Special Topics

Credit arranged.

BUS 505 (s) Workshop

Credit arranged.

BUS 551 Managing Scientific Projects

3 credits

Study of business principles needed to manage scientific projects with emphasis on accounting, financial, and scheduling concepts. Course topics include revenue and cost analysis, analysis of financial return, assessing project impact on financial statements, budgeting, project scheduling and capacity planning, risk management, and project control.

Prereq: Graduate student in science or engineering discipline .

BUS 552 Management of Scientific Innovation

3 credits

Study of business and economic principles needed to manage scientific innovation with emphasis on strategy, organizational leadership, and marketing concepts. Course topics include the role of innovation in strategy, the development of systems and processes that support innovation, the management of technical teams, the commercialization and regulation of scientific innovation, and the protection of intellectual property.

Prereq: Graduate student in science or engineering discipline .

BUS 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: **Permission.**

BUSINESS LAW (BLAW)

BLAW 265 Legal Environment of Business**3 credits**

Law and its relationship to society; legal framework of business enterprises; court organization and operation; private property and contracts as basic concepts in a free enterprise system. May involve evening exams.

BLAW 404 (s) Special Topics

Credit arranged.

BLAW 420 Commercial Law**3 credits**

Uniform commercial code and law of agency, partnerships, and corporations. May include evening exams.

Prereq: BLAW 265.

BLAW 425 Law of Business Entities**3 credits**

Business law related to corporations, partnerships, and limited liability companies with emphasis on applying the law to various business entities and how it might be used in business and personal planning. The case method is used. May include evening exams. (Fall only)

BLAW 504 (s) Special Topics

Credit arranged.

CAREER AND TECHNICAL EDUCATION (CTE)

CTE 130 Introduction to Electricity and Electronics

3 credits

This introduction to electricity and electronics includes properties of resistors, capacitors, and inductors in electrical circuits; basics of power distribution systems and house wiring; and the use of meters and oscilloscopes in lab. Three 1-hr lec and one 2-hr lab a wk.

CTE 200 (s) Seminar

Credit arranged.

CTE 203 (s) Workshop

Credit arranged.

CTE 204 (s) Special Topics

Credit arranged.

CTE 267 Computer Aided Drafting/Design

3 credits

This course has been designed to give students an introductory experience in manual drafting and sketching, drafting theory and 2D and 3D computer aided drafting. Students may have to spend time in the CAD lab outside of class time to complete the required work.

CTE 298 (s) Internship

Credit arranged.

CTE 299 (s) Directed Study

Credit arranged.

CTE 310 Lab Safety, Mgmt, & Liability

3 credits

Overview of operations, use, and maintenance of laboratory tools and equipment, laboratory management and liability concerns.

CTE 351 Principles and Philosophy of Career and Technical Education

3 credits

Joint-listed with CTE 551

Overview and interpretation of history, aims, and purposes of public education and professional-technical education; issues and programs comprising professional-technical education in Idaho and in the nation. Additional projects/assignments required for graduate credit.

CTE 352 Manufacturing: Metallic Materials and Processes

3 credits

This course introduces and reinforces knowledge in the area of manufacturing and manufacturing processes of metallic materials (ferrous and nonferrous). The materials themselves, primary processing, and the systems of secondary processing will be studied in-depth.

Recommended Preparation: Work Experience.

CTE 353 Manufacturing Systems

3 credits

In-depth examination and implementation of manufacturing theory and processes including research and development, product planning and controlling. Topics, such as Lean Manufacturing, Kanban, relating to manufacturing facilities and management of manufacturing processes will be discussed, studied and implemented in the manufacture of a designed product in quantity.

Prereq: CTE 267 and CTE 310 .

CTE 354 Construction Technology

3 credits Teaching techniques and methods of instruction for a systems approach to construction technology including residential, commercial, and civil. Recommended Preparation: CTE 310.

CTE 370 Transportation & Engineering Technologies

4 credits

Students will explore various forms of renewable energy and transportation systems. They will also work in teams to propose solutions to power, energy and transportation issues. Students will research, design, build and evaluate their potential solutions in a hands-on laboratory environment. Recommended Preparation: MATH 143 and PHYS 111.

CTE 398 (s) Internship

Credit arranged.

CTE 400 (s) Seminar

Credit arranged.

CTE 403 (s) Workshop

Credit arranged

Graded P/F.

Prereq: Permission.

CTE 404 (s) Special Topics

Credit arranged.

CTE 405 (s) Professional Development

Credit arranged

Joint-listed with CTE 505

Credits earned in this course will not be accepted toward grad degree programs. Professional development and enrichment. Additional projects/assignments required for graduate credit.

CTE 410 Technology & Society

Credit arranged

In-depth examination and implementation of the relationship between technology and social change; previous course work in technology is not essential.

CTE 413 Retail Merchandising for Marketing Education

3 credits

Designed for marketing teacher preparation. Contemporary information and activities that address retail merchandising, including standards and curriculum resources for secondary and two-year technical college courses. Curriculum standards, educational resources, careers, the role of retail, and the operation of a retail business that includes market analysis, store layout, and merchandising. Recommended Preparation: MKTG 321.

CTE 415 Microcomputer Applications

3 credits

Advanced computer applications course designed primarily for business teacher education students; includes extensive hands-on experience using word processing, spreadsheet, and database programs used in both industry and business education programs; addresses methodology, curriculum development, and classroom management techniques.

CTE 416 Website Design and Development

3 credits

Basics of html, advanced use of web development applications for purposes of creating effective websites that incorporate accepted design principles, taught in the context of Professional-Technical Education.

CTE 417 Teaching & Learning through STEM Integration

3 credits

Students examine a variety of approaches to teaching and assessment methods for technology educators at the secondary level. Instructional strategies best suited to learning technical skills, related academics, problem solving, and hands-on activities will be explored through the lens of Science, Technology, Engineering, and Mathematics (STEM) integration.

Prereq: EDCI 201 , EDCI 301, and CTE 310 .

CTE 418 Teaching Economics and Personal Finance

3 credits

In-depth examination and implementation of methods and materials for teaching economics and personal finance.

Prereq: ECON 201 or Equivalent.

CTE 419 Database Applications and Information Management

3 credits

Teaching and training strategies for database applications. Includes database management principles and methods of information retrieval, processing, storage and distribution. Advanced project reqd for graduate credit.

CTE 420 Assessment in Contextual Learning Environments

3 credits

Methods of assessing in contextual and hands on learning environments. Includes authentic assessment of project based learning.

CTE 426 Occupational Analysis and Curriculum Development

3 credits

Instructional design systems and curriculum development as a systematic method of designing, carrying out, and evaluating the total process of teaching and learning; based on research in human learning and communication, employing a combination of human and non-human resources to bring about effective instruction. Focus on secondary and post-secondary professional/technical education.

CTE 430 Leadership and Student Organizations

2 credits

Development of leadership skills; instruction in planning, implementation and supervision of professional-technical student organizations; and participation in regional leadership conferences.

CTE 431 Supervising CTE Career and Technical Student Organizations

1-3 credits, max 3

Supervising CTE CTSOs involves active participation in career and technical student organization (CTSOs). Students assist in the administration and supervision of secondary regional and/or state CTSO conferences, and involve themselves with content area post-secondary CTSO competitive events program. Students are responsible for arranging and financing travel to appropriate CTSO events.

CTE 439 Robotics Technologies for K-12 Environments

3 credits

Cross-listed with CTE 539

In-depth examination of a variety of programming languages and methods, hardware and software for robotics technologies. Teaching and learning of robotics theory, programming and applications through Career-Technical student organizations will be emphasized. Students will participate in leadership roles in K-12 robotics events. Additional projects required for graduate credit.

CTE 447 Diverse Populations and Individual Differences

2-3 credits

Examines the impact of individual differences on teaching and learning.

CTE 460 Desktop Publishing

3 credits

Advanced desktop publication techniques, concepts, and applications through use of computer technology; planning, layout, and design of publications are highlighted. Recommended Preparation: CTE 415.

CTE 462 Communication Technology

3 credits

Investigation and laboratory activities associated with of a variety of communication technologies, including interpersonal, human to machine and machine to machine, through contemporary devices and materials. Recommended Preparation: CTE 415.

CTE 464 Career Guidance and Transitioning to Work

3 credits

Designed for career development counselors and facilitators; establishment of the three pillars of career guidance and how to implement the steps for developing a comprehensive individualized career plan.

CTE 470 Technical Competence

1-32 credits, max 32

Technical competence is gained from occupational credentials or passing of competency exams related to the bachelor of science degree in PTE education or technology. Grades for successful completion of CTE 470 will be transcribed as P (pass) normally during the student's last semester and completion of all degree requirements.

CTE 472 Teaching and Learning in Organizations

3 credits

Students examine research-based approaches to facilitate learning outcomes for occupational educators in post-secondary, secondary and private sector contexts; Instructional strategies and materials will be considered and developed to facilitate learning in technical skills, related applied academics, and workplace readiness knowledge and dispositions.

CTE 481 Computer-Integrated and Robotics Manufacturing Technologies

3 credits

In-depth examination and implementation of advanced computer aided drafting, 3D solids modeling, computer numerical control, basic and advanced toolpath generation, virtual machining environments, and robotics applications. Enrollment per section limited to lab stations available.

Prereq: CTE 267 or ENGR 105; and CTE 310, CTE 352, and ASM 202 .

CTE 484 (s) Internship in Career and Technical Education Teaching

3-14 credits, max 28

Guided observation, supervised instruction, and comprehensive team and independent teaching in school settings.

Prereq: Admission to teacher education program

Coreq: EDCI 401 .

CTE 492 Business and Marketing Education Methods

3 credits

Teaching pedagogy, instructional materials and student evaluation strategies in Business and Marketing Education.

Prereq: Permission.

CTE 494 Senior Project

3 credits

In the last year of study, students select an individual design project related to their area of specialization within technology education. Some students may have the option of joining a Senior Design Team in the College of Engineering. Project must be approved by instructor.

CTE 495 Administrative Technology Management and Procedures
3 credits

Administrative office procedures and management techniques, advanced business document preparation, intermediate/advanced keyboarding skills, and ARMA filing rules. Recommended Preparation: CTE 415 and keyboarding proficiency.

CTE 498 (s) Internship

Credit arranged.

CTE 499 (s) Directed Study

Credit arranged.

CTE 500 Master's Res & Thesis

Credit arranged.

CTE 501 (s) Seminar

Credit arranged.

CTE 502 (s) Directed Study

Credit arranged.

CTE 503 (s) Workshop

Credit arranged.

CTE 504 (s) Special Topics

Credit arranged.

CTE 505 (s) Professional Development

Credit arranged

Joint-listed with CTE 405

Credits earned in this course will not be accepted toward grad degree programs. Professional development and enrichment. Additional projects/assignments required for graduate credit.

CTE 539 Robotics Technologies for K-12 Environments

3 credits

Cross-listed with CTE 439.

In-depth examination of a variety of programming languages and methods, hardware and software for robotics technologies. Teaching and learning of robotics theory, programming and applications through Career-Technical student organizations will be emphasized. Students will participate in leadership roles in K-12 robotics events. Additional projects required for graduate credit.

CTE 544 Idaho Leadership Institute

1-12 credits, max 12

Institute for the preparation of the next generation of Idaho's leaders in professional-technical education.

Prereq: Accepted into the Idaho Leadership Institute.

CTE 551 Principles and Philosophy of Career and Technical Education

3 credits

Joint-listed with CTE 351

Overview and interpretation of history, aims, and purposes of public education and professional-technical education; issues and programs comprising professional-technical education in Idaho and in the nation. Additional projects/assignments required for graduate credit.

CTE 597 (s) Practicum

Credit arranged

Application of theories and techniques; supervised field experiences in selected settings. Graded P/F.

Prereq: Permission.

CTE 598 (s) Internship

Credit arranged

Supervised experience in teacher education, administration, supervision, or ancillary services in professional-technical education. Graded P/F.

Prereq: Permission.

CTE 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

CTE 600 Doctoral Research & Dissertation

Credit arranged.

CHEMICAL ENGINEERING (CHE)

CHE 110 Introduction to Chemical Engineering

1 credit

Introduction to chemical engineering career opportunities and process principles including problem solving and documentation skills. Graded P/F.

CHE 123 Computations in Chemical Engineering

2 credits

Methods of analyzing and solving problems in chemical engineering using personal computers; spreadsheet applications, data handling, data fitting, material balances, experimental measurements, separations, and equation solving. Coordinated lec-lab periods.

Prereq: Min 520 SAT math or min 22 ACT math or 49 COMPASS Algebra or MATH 143 or MATH 170; or Permission

Coreq: MATH 143, MATH 170, or higher .

CHE 204 (s) Special Topics

Credit arranged.

CHE 210 Integrated Chemical Engineering Fundamentals

1 credit

Recitation support for fundamental STEM courses and process principles including problem solving and documentation skills. Twice a week, 2 hour recitation sessions. Graded P/F.

Prereq: CHE 110 and CHE 123 .

CHE 223 Material and Energy Balances

3 credits

Conservation of mass and energy calculations in chemical process systems.

Prereq: CHEM 112, CHEM 112L, MATH 175.

CHE 299 (s) Directed Study

Credit arranged.

CHE 307 Group Mentoring

1 credit, max 3

Mentoring of student groups in engineering classes where a process education environment is used; students taking this course will improve their engineering skill in the area they are mentoring as well as improving their team, communication, and leadership skills. Students must attend all classes or labs where group activities in the process education environment are done (a minimum of 2 mentoring sessions per week).

Prereq: Permission .

CHE 326 Chemical Engineering Thermodynamics

3 credits

Behavior and property estimation for nonideal fluids; phase and reaction equilibria; applications to industrial chemical processes.

Prereq: CHE 223, ENGR 320 and ENGR 335, MATH 310

Coreq: CHEM 305.

CHE 330 Separation Processes I

3 credits

Equilibrium stagewise operations, including distillation, extraction, absorption.

Prereq: CHE 326, CHEM 305.

CHE 340 Transport and Rate Processes I

4 credits

Cross-listed with MSE 340

Transport phenomena involving momentum, energy, and mass with applications to process equipment design. Coordinated lec-lab periods.

Prereq: ENGR 335, MATH 310, and CHE 223 or MSE 201 .

CHE 341 Transport and Rate Processes II

4 credits

Transport phenomena involving momentum, energy, and mass with applications to process equipment design. Coordinated lec-lab periods.

Prereq: CHE 340.

CHE 393 Chemical Engineering Projects

1-3 credits, max 9

Problems of a research or exploratory nature.

Prereq: Permission of department.

CHE 398 (s) Engineering Cooperative Internship

3 credits

Supervised internship in professional engineering settings, integrating academic study with work experience; requires written report; positions are assigned according to student's ability and interest. Graded P/F.

Prereq: Permission.

CHE 400 (s) Seminar

Credit arranged.

CHE 404 (s) Special Topics

Credit arranged

Prereq: Permission.

CHE 423 Reactor Kinetics and Design

3 credits

Chemical reaction equilibria, rates, and kinetics; design of chemical and catalytic reactors.

Prereq: CHE 223, MATH 310, CHEM 305.

CHE 433 Chemical Engineering Lab I

1 credit

Senior lab experiments in chemical engineering.

Prereq: CHE 330, CHE 341, CHE 423.

CHE 434 Chemical Engineering Lab II

1 credit

Senior lab experiments in chemical engineering.

Prereq: CHE 330, CHE 341, CHE 423.

CHE 440 Applied Mathematics in Chemical Engineering

3 credits

Mathematical approaches to modeling chemical behavior in transport, separation, reactor, and process systems.

Prereq: CHE 341 or permission .

CHE 444 Process Analysis and Control

3 credits

Process modeling, dynamics, and analysis. Coordinated lecture-lab periods. Recommended Preparation: CHE 223, MATH 310.

CHE 445 Digital Process Control

3 credits

Cross-listed with ECE 477

Dynamic simulation of industrial processes and design of digital control systems. Coordinated lecture-lab periods. Recommended Preparation:

CHE 444 (Recommended Preparation for EE majors: ECE 350).

CHE 451 Environmental Management and Design**Credit arranged**

Waste management application projects; projects require original design, working model, and report. May involve week-long trip to national competition. One lec and 3 hrs of lab a wk; weekly team status report meetings plus weekly task reviews with advisor.

Prereq: Permission (by invitation only).

CHE 452 Environmental Management and Design**Credit arranged**

Gen Ed: Senior Experience

Waste management application projects; projects require original design, working model, and report. May involve week-long trip to national competition. One lec and 3 hrs of lab a wk; weekly team status report meetings plus weekly task reviews with advisor.

Prereq: Permission (by invitation only)

CHE 453 Process Analysis & Design I**3 credits**

Cross-listed with MSE 453

Estimation of equipment and total plant costs, annual costs, profitability decisions, optimization; design of equipment, alternate process systems and economics, case studies of selected processes. CHE 453 and CHE 454/MSE 453 and MSE 454 are to be taken in sequence. (Fall only)

Prereq: CHE 330, CHE 341, and CHE 423; or MSE 201, MSE 308, MSE 313, MSE 340, and MSE 412 .

CHE 454 Process Analysis and Design II**3 credits**

Gen Ed: Senior Experience

Cross-listed with MSE 454

Estimation of equipment and total plant costs, annual costs, profitability decisions, optimization; design of equipment, alternate process systems and economics, case studies of selected processes. CHE 453 and CHE 454 are to be taken in sequence. (Spring only)

Prereq: CHE 453 or MSE 453 .

CHE 455 SurfaceS and Colloids**3 credits**

Chemical and physical phenomena near material interfaces and behaviors of colloidal particles in dispersing media.

Prereq: CHE 326 or CHEM 305 or permission .

CHE 491 (s) Seminar**1 credit**

Recent developments and topics. Graded P/F

Prereq: Senior standing.

CHE 498 (s) Internship

Credit arranged.

CHE 499 (s) Directed Study

Credit arranged.

CHE 500 Master's Research and Thesis

Credit arranged.

CHE 501 (s) Seminar

Credit arranged.

CHE 502 (s) Directed Study

Credit arranged.

CHE 504 (s) Special Topics

Credit arranged.

CHE 505 (s) Professional Development

Credit arranged.

CHE 515 Transport Phenomena**3 credits**

Advanced treatment of momentum, energy, and mass transport processes; solution techniques. Cooperative: open to WSU degree-seeking students.

Prereq: B.S.Ch.E. and Equivalent of CHE 340, CHE 341 or Permission.

CHE 527 Thermodynamics**3 credits**

Thermodynamic laws for design and optimization of thermodynamic systems, equations of state, properties of ideal and real fluids and fluid mixtures, stability, phase equilibrium, chemical equilibrium, applications of thermodynamic principles. Cooperative: open to WSU degree-seeking students.

Prereq: B.S.Ch.E. and Equivalent of CHE 326 or Permission.

CHE 529 Chemical Engineering Kinetics**3 credits**

Interpretation of kinetic data and design of reactors for heterogeneous chemical reaction systems; heterogeneous catalysis, gas-solid reactions, gas-liquid reactions; packed bed reactors, fluidized bed reactors.

Cooperative: open to WSU degree-seeking students.

Prereq: B.S.Ch.E. and Equivalent of CHE 423 or Permission.

CHE 536 Electrochemical Engineering**3 credits**

Application of chemical engineering principles to electrochemical systems; thermodynamics, kinetics, and mass transport in electrochemical systems; electrochemical process design.

Recommended preparation: graduate engineering standing.

CHE 541 Chemical Engineering Analysis I**3 credits**

Mathematical analysis of chemical engineering operations and processes; mathematical modeling and computer applications.

Cooperative: open to WSU degree-seeking students.

Prereq: B.S.Ch.E. and Equivalent of CHE 444 or Permission.

CHE 545 Mass Transfer Operations I**3 credits**

Diffusional and equilibrium operations.

Prereq: B.S.Ch.E. and equivalent of CHE 341 or Permission .

CHE 599 (s) Non-thesis Master's Research

Credit arranged.

CHE 600 Doctoral Research and Dissertation

Credit arranged.

CHEMISTRY (CHEM)

Vertically-related courses in this subject field are:

- CHEM 111 – CHEM 112 – CHEM 253
- CHEM 101 – CHEM 275

CHEM 101 Introduction to Chemistry

3 credits

Gen Ed: Natural and Applied Sciences

Full credit may be earned in only one of the following: CHEM 101 or CHEM 111. General treatment of the fundamentals of chemistry. Does not satisfy the prereq for CHEM 112.

CHEM 101L Introduction to Chemistry Laboratory

1 credit

Gen Ed: Natural and Applied Sciences

This is the companion laboratory course to CHEM 101 and provides an introduction to Chemistry lab practices. It does not satisfy the lab requirement for CHEM 111 or CHEM 112. One 3-hour lab a week.

Prereq or Coreq: CHEM 101 .

CHEM 111 Principles of Chemistry I

3 credits

Gen Ed: Natural and Applied Sciences

Full credit may be earned in only one of the following: CHEM 101, or CHEM 111. Note that grades in CHEM 111 will supersede any grades earned in CHEM 101. Intensive treatment of principles and applications of chemistry. Recommended Preparation: A grade of 'B' or better in a high school chemistry course.

Prereq: min 580 SAT math or min 25 ACT math , or min 46 ALEKS; or a grade of 'C' or better in CHEM 101, MATH 143, MATH 160, or MATH 170; or Permission .

CHEM 111L Principles of Chemistry I Laboratory

1 credit

Gen Ed: Natural and Applied Sciences

This is the companion laboratory course to CHEM 111 and provides an intensive treatment of Chemistry lab practices. One 3-hour lab a week.

Prereq or Coreq: CHEM 111 .

CHEM 112 Principles of Chemistry II

4 credits

Gen Ed: Natural and Applied Sciences

Continuation of CHEM 111. Some work in inorganic chemistry, kinetics, equilibrium, liquids, solids, acid-base, electrochemistry, nuclear chemistry, thermodynamics, and qualitative inorganic analysis. Three lecture and one recitation.

Prereq: CHEM 111 and CHEM 111L or Permission.

CHEM 112L Principles of Chemistry II Laboratory

1 credit

Gen Ed: Natural and Applied Sciences

This is the companion laboratory course to CHEM 112 and teaches Chemistry lab practices in inorganic chemistry, kinetics, equilibrium, acid-base, electrochemistry, thermodynamics, and qualitative analysis. One 3-hour lab a week.

Prereq or Coreq: CHEM 112 .

CHEM 121 Glassblowing

1 credit

Techniques used in constructing scientific apparatus from glass. Graded P/F. One 3-hr lab a wk.\

Prereq: Permission of department.

CHEM 200 (s) Seminar

Credit arranged.

CHEM 204 (s) Special Topics

Credit arranged.

CHEM 253 Quantitative Analysis

3 credits

Fundamental principles and techniques of chemical analysis; intro to sampling, standardization, data evaluation, gravimetric/volumetric methods, and instrumental techniques. (Fall only)

Prereq: CHEM 112, CHEM 112L.

CHEM 254 Quantitative Analysis: Lab

2 credits

Laboratory portion of Quantitative Analysis (Chem 253).

Prereq or Coreq: CHEM 253 .

CHEM 275 Carbon Compounds

3 credits

Aspects of organic chemistry important to students in the life sciences.

Prereq: CHEM 101 and CHEM 101L or CHEM 111 and CHEM 111L or Permission.

CHEM 276 Carbon Compounds Lab

1 credit

Lab to accompany CHEM 275; for students who need only 1 cr of lab. One 3-hr lab a wk.

Prereq or Coreq: CHEM 275 or CHEM 277.

CHEM 277 Organic Chemistry I

3 credits

Principles and theories of organic chemistry; properties, preparation, and reactions of organic compounds.

Prereq: CHEM 112, CHEM 112L.

CHEM 278 Organic Chemistry I: Lab

1 credit

One 3-hr lab a wk.

Prereq or Coreq: CHEM 277.

CHEM 299 (s) Directed Study

Credit arranged.

CHEM 302 Principles of Physical Chemistry

3 credits

Emphasis on topics important to biological and agricultural science. (Fall only)

Prereq: CHEM 112, CHEM 112L, MATH 160 or MATH 170 or MATH 175, and PHYS 111, PHYS 111L, or Permission.

CHEM 303 Principles of Physical Chemistry Lab

1 credit

Lab to accompany CHEM 302. One 3-hr lab a wk. (Fall only)

Prereq or Coreq: CHEM 302.

CHEM 305 Physical Chemistry

3 credits

Kinetic theory, thermodynamics (work, heat and energy); state functions, thermochemistry, the second law of thermodynamics; free energy and mixtures; electrolyte solutions and phase equilibrium; chemical and electrochemical equilibrium. (Fall only)

Prereq: CHEM 112 and CHEM 112L, and MATH 275

Coreq: PHYS 212 or PHYS 213.

CHEM 306 Physical Chemistry II**3 credits**

Kinetic theory, atomic and molecular structure, quantum mechanics, statistical mechanics. (Spring only)

Prereq: CHEM 305 .

CHEM 307 Physical Chemistry Lab**1 credit**

Lab to accompany CHEM 305, CHEM 306. One 3-hr lab a wk. (Fall only)

Prereq or Coreq: CHEM 305.

CHEM 308 Physical Chemistry Lab**1 credit**

Lab to accompany CHEM 305, CHEM 306. One 3-hr lab a wk. (Spring only)

Prereq or Coreq: CHEM 306.

CHEM 372 Organic Chemistry II**3 credits**

Continuation of CHEM 277. (Spring only)

Prereq: CHEM 277.

CHEM 374 Organic Chemistry II: Lab**1 credit**

Lab to accompany CHEM 372; includes synthesis, structure determination, and mechanisms. One 3-hr lab a wk. (Spring only)

Prereq: CHEM 278

Prereq or Coreq: CHEM 372.

CHEM 400 (s) Seminar

Credit arranged.

CHEM 404 (s) Special Topics

Credit arranged.

CHEM 409 Proseminar**1 credit**

Gen Ed: Senior Experience

Current publications in chemistry and chemical engineering with reports on typical scientific papers. Preparation of application materials for graduate work and/or careers in chemistry.

Prereq: CHEM 372 and junior standing.

CHEM 418 Environmental Chemistry**3 credits**

Joint-listed with CHEM 518.

Chemistry of atmosphere, soil, and water; pollution monitoring and remediation; treatment of waste in the environment. Additional projects/assignments reqd for grad cr. (Spring only)

Prereq: CHEM 253, CHEM 254, and CHEM 275 or CHEM 277, or Permission.

CHEM 436 Electronics for Scientists**2-4 credits, max 4)**

Joint-listed with CHEM 535.

Theory and application of analog and digital electronics used in scientific instrumentation. Registration for CHEM 535 requires completion of an additional term paper or other assignment (Fall, alt/yr).

Prereq: *Permission.*

CHEM 454 Instrumental Analysis**3-4 credits**

For students in chemistry and allied fields. Techniques in operating new and specialized instruments for qualitative and quantitative analysis and analytical methods of an advanced nature. Three lec and one 4-hr lab a wk. Permission required to register for 3 credits (Spring only)

Prereq: CHEM 253, CHEM 254, and CHEM 305

Prereq or Coreq: CHEM 306 .

CHEM 455 Survey of Analytical Chemistry**3 credits**

Fundamentals of modern analytical chemistry. Open only to chemistry M.S. and Ph.D. students. Cr is not allowed in both CHEM 454 and CHEM 455.

Prereq: Permission.

CHEM 463 Inorganic Chemistry**3 credits**

Principles, complex ions and coordination compounds, theory of acids and bases, bonding theory, non-aqueous solvents, familiar elements and their relationship to the periodic table. (Fall only)

Prereq: CHEM 305 or Permission.

CHEM 464 Inorganic Chemistry**3 credits**

Principles, complex ions and coordination compounds, theory of acids and bases, bonding theory, non-aqueous solvents, familiar elements and their relationship to the periodic table. Additional projects/assignments reqd for grad cr. (Spring only)

Prereq or Coreq: CHEM 463, or CHEM 466, or Permission.

CHEM 465 Inorganic Chemistry Laboratory**1 credit**

Lab to accompany CHEM 464. One 3-hr lab a wk. (Spring only)

Coreq: CHEM 464.

CHEM 466 Survey of Inorganic Chemistry**3 credits**

Fundamentals of modern inorganic chemistry. Open only to chemistry M.S. and Ph.D. students. Cr is not allowed in both CHEM 463 and CHEM 466.

Prereq: CHEM 306 and Permission.

CHEM 472 Medicinal Chemistry**3 credits**

Joint-listed with CHEM 572

Synthetic chemistry necessary for design and preparation of medicinal agents, and mechanistic chemistry germane to action of pharmaceuticals. Graduate students are required to write an original research proposal on a topic related to drug discovery. (Alt/yr)

Prereq or Coreq: CHEM 473, CHEM 476 or Permission.

CHEM 473 Intermediate Organic Chemistry**3 credits**

Theories and mechanisms of organic chemistry. (Fall only)

Prereq: CHEM 372

Prereq or Coreq: CHEM 306.

CHEM 476 Survey of Organic Chemistry**3 credits**

Fundamentals of modern organic chemistry. Open only to chemistry M.S. and Ph.D. students. Cr is not allowed in both CHEM 473 and CHEM 476.

Prereq: Permission.

CHEM 491 (s) Research**1-6 credits, max 12)**

Submission of a report of the research done for placement in the permanent dept files is required.

Prereq: Permission of department.

CHEM 495 Statistical Thermodynamics

3 credits

Cross-listed with PHYS 333

Classical thermodynamics, entropy, thermodynamic potentials, kinetic theory, classical and quantum statistical mechanics, ensembles, partition functions, introduction to phase transitions.

Prereq: CHEM 306 or PHYS 305 or equivalent.

CHEM 496 Survey of Physical Chemistry

3 credits

Fundamentals of modern physical chemistry. Open only to chemistry M.S. and Ph.D. students. Cr is not allowed in both CHEM 495 and CHEM 496.

Prereq: Permission.

CHEM 498 (s) Internship

Credit arranged.

CHEM 499 (s) Directed Study

Credit arranged.

CHEM 500 Master's Research and Thesis

Credit arranged.

CHEM 501 (s) Seminar

1 credit, max 2).

CHEM 502 (s) Directed Study

Credit arranged.

CHEM 503 (s) Workshop

Credit arranged.

CHEM 504 (s) Special Topics

Credit arranged.

CHEM 505 (s) Professional Development

Credit arranged.

CHEM 506 Introduction to Teaching and Research Skills

2 credits

Skills required of teaching assistants in laboratory, recitations, office hours, help sessions; skills required for research; use of library; introduction to faculty research. Graded P/F. (Fall only)

Prereq: Permission.

CHEM 509 Advanced Physical Chemistry

3 credits

Application of quantum theory to chemical bonding, molecular spectroscopy, and molecular structure. (Spring only)

Prereq: CHEM 306, CHEM 495, CHEM 496, or Permission.

CHEM 511 Seminar

0 credits.

CHEM 518 Environmental Chemistry

3 credits

Joint-listed with CHEM 418.

Chemistry of atmosphere, soil, and water; pollution monitoring and remediation; treatment of waste in the environment. Additional projects/ assignments reqd for grad cr. (Spring only)

Prereq: CHEM 253, CHEM 254, and CHEM 275 or CHEM 277, or Permission.

CHEM 535 Electronics for Scientists

2-4 credits, max 4)

Theory and application of analog and digital electronics used in scientific instrumentation. Registration for CHEM 535 requires completion of an additional term paper or other assignment (Fall, alt/yrs).

Prereq: Permission.

CHEM 542 Biochemistry and Molecular Biology

3 credits

Cross-listed with BIOL 554.

Intermediate biochemistry; areas of emphasis include molecular biology, nitrogen and lipid metabolism. Extra oral and/or written assignments required for grad credit. (Spring only)

Prereq: CHEM 372; BIOL 380 or CHEM 302 or CHEM 306; or Permission.

CHEM 550 Radioanalytical Chemistry

2 credits

Fundamental concepts of radiochemistry, including the principles of radioactive decay processes and counting techniques; in-depth treatment of radioanalytical techniques, especially neutron activation and isotope dilution methods; decay processes as sources of x-rays; the use of synchrotron radiation in analytical chemistry. (Alt/yrs)

Prereq: CHEM 454, or CHEM 455, or Permission.

CHEM 551 Electronic Spectrometry

2-3 credits, max 3

A brief review of fundamental concepts, including electronic transitions, optical properties of materials, and laws of radiation absorption; detailed coverage of instrumentation used for ultraviolet and visible absorption spectroscopy, with regard to optical components, overall design strategy, and signal processing; analytical performance related to these aspects and presented from both theoretical and practical standpoints; in-depth coverage of luminescence spectroscopy, including phosphorimetry and fluorimetry; atomic spectroscopy (both flame and plasma-based versions), including principles of operation, instrumental requirements, and analytical application; survey of x-ray absorption and fluorescence spectroscopy. (Alt/yrs)

Prereq: CHEM 454, CHEM 455 or Permission.

CHEM 553 Separation Theory and Chromatography

2-3 credits, max 3)

Gas and liquid chromatography and related fields. Students enrolled in CHEM 553 are required to complete additional written assignments. (Alt/yrs)

Prereq: CHEM 306 .

CHEM 556 Molecular Spectroscopy

3 credits

Interpretation of IR, UV, NMR, and mass spectra. Registration for CHEM 556 requires completion of additional assignments.

Prereq: CHEM 306 or Permission .

CHEM 558 Electrochemistry

2-3 credits, max 3)

Fundamental concepts of electrochemistry, including the principles of redox processes; in-depth treatment of electroanalytical techniques, especially voltammetric and potentiometric methods; advanced treatment of selected topics, including ultramicro and in vivo electrochemical techniques. (Alt/yrs)

Prereq: CHEM 454, or CHEM 455, or Permission.

CHEM 571 (s) Topics In Organic Chem

1-9 credits, max 9)

Selected topics from the current literature.

Prereq: CHEM 473, CHEM 476, or Permission.

CHEM 572 Medicinal Chemistry

3 credits

Joint-listed with CHEM 472

Synthetic chemistry necessary for design and preparation of medicinal agents, and mechanistic chemistry germane to action of pharmaceuticals. Graduate students are required to write an original research proposal on a topic related to drug discovery. (Alt/yr)

Prereq or **Coreq**: CHEM 473, CHEM 476 or Permission.

CHEM 590 Doctoral Research Proposal

1 credit

Taken no later than one semester after completion of cumulative exams; required for advancement to Ph.D. candidacy. Includes review of relevant literature and original research proposal describing the student's intended research project.

CHEM 598 (s) Internship

Credit arranged.

CHEM 599 (s) Non-thesis Master's Research

Credit arranged.

CHEM 600 Doctoral Research and Dissertation

Credit arranged.

CHINESE (CHIN)

Vertically-related courses in this subject field are:

- CHIN 110 - CHIN 112 - CHIN 210 - CHIN 212

A maximum of 16 credits may be earned for vertical credit in any language in the Department of Modern Languages & Cultures.

CHIN 107 Beginning Chinese Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the beginning Chinese level. Graded P/F.

CHIN 110 Elementary Chinese I

4 credits

Gen Ed: International

Writing system, pronunciation, vocabulary, and functional grammar. Students with Chinese experience who place higher than 110 on the placement exam may not enroll in CHIN 110, but may earn credit for CHIN 110 by successfully completing a higher vertically-related course.

CHIN 112 Elementary Chinese II

4 credits

Gen Ed: International

Writing system, pronunciation, vocabulary, and functional grammar.

Prereq: CHIN 110 or placement exam.

CHIN 204 (s) Special Topics

Credit arranged.

CHIN 207 Intermediate Chinese Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the intermediate Chinese level. Graded P/F.

CHIN 210 Intermediate Chinese I

4 credits

Gen Ed: International

Review and practice of basic language skills; increased emphasis on reading, writing, and free discussion.

Prereq: CHIN 112 or placement exam.

CHIN 212 Intermediate Chinese II

4 credits

Gen Ed: International

Review and practice of basic language skills; increased emphasis on reading, writing, and free discussion.

Prereq: CHIN 210 or placement exam.

CHIN 299 (s) Directed Study

Credit arranged.

CHIN 310 Advanced Chinese 1: Oral Communication

3 credits

This course will focus on improving oral expression to develop greater fluency, accuracy, and confidence in spoken Chinese. Conversational topics are based on contemporary issues in Chinese-speaking regions. This course will enhance students' advanced conversational skills through descriptions, summaries of texts, active participation in discussions, debates and oral presentations in class.

Prereq: CHIN 212 or equivalent.

CHIN 312 Advanced Chinese 2: Reading & Translation

3 credits

This course will focus on improving students' competency in reading and translating written Chinese. In this course students will enhance their reading fluency and will learn to translate from Chinese to English and English to Chinese. The selection of texts will be limited to modern literature, documents, and news items on Chinese culture and international affairs. In their translations students will learn to focus on accuracy as well as stylistic appropriateness.

Prereq: CHIN 212 or equivalent.

CHIN 314 Advanced Chinese 3: Writing & Grammar

3 credits

This course will focus on improving students' competency in written Chinese and grammar. This course will increase students' linguistic competence by focusing on introducing advanced Chinese grammar and rhetoric; standards of composition and written communication; and comprehensive training in Chinese writing.

Prereq: CHIN 212 or equivalent.

CHIN 316 Business Chinese

3 credits

This course is an advanced Chinese language course designed for students who are interested in doing business in Chinese-speaking communities (including China, Taiwan, Hong Kong, and Singapore). Students learn specialized business and economic vocabulary and conventions of business interaction and correspondence. Practical business-focused reading, writing, discussion, and presentation will prepare students to participate in various business activities and to deal with different business documents.

Prereq: CHIN 212 or equivalent.

CHIN 398 (s) Internship

1-3 credits, max arranged).

CHIN 404 (s) Special Topics

Credit arranged.

CHIN 410 Introduction to Teaching Chinese as a Foreign Language

3 credits

This course introduces students to the basic theoretical foundations, pedagogical models, and practical skills necessary to teach Chinese as a foreign language. This class will provide students with a solid foundation to pursue further study and training in teaching Chinese language to learners of all ages.

Prereq: CHIN 310 or equivalent.

CHIN 412 Advanced Readings in Chinese

3 credits

This course is an advanced Chinese language course that surveys a wide variety of 20th- and 21st-century written materials, including texts from literature, the social sciences, religion, and cultural history. This class specifically focuses on content and style with extensive discussion and frequent written assignments in Chinese.

Prereq: CHIN 312 or equivalent.

CHIN 414 Advanced Chinese Composition

3 credits

This course is an advanced Chinese language course to enhance student development of written proficiency in Chinese based on readings, translations, and frequent compositions around selected contemporary themes and topics.

Prereq: CHIN 314 or equivalent.

CHIN 498 (s) Internship

Credit arranged.

434 Chinese (CHIN)

CHIN 499 (s) Directed Study
Credit arranged.

CIVIL ENGINEERING (CE)

CE 115 Introduction to Civil Engineering

1 credit

Introduction to civil engineering problem solving skills, development of software use skills, graphical analysis, data analysis, and oral and written communication skills. One weekly two hour laboratory with up to 3 out-of-class activities.

Prereq: Major in civil engineering .

CE 200 (s) Seminar

Credit arranged.

CE 203 (s) Workshop

3 credits.

CE 204 (s) Special Topics

Credit arranged.

CE 211 Engineering Surveying

3 credits

Theory of measurements, basic equations for survey computations, types of distribution of errors, topographical and land surveying introduction to geographic information systems and global positioning systems, coordinate geometry and coordinate transformations, site engineering projects using land development software, application of surveying methods to construction; site engineering, and civil engineering projects surveying instruments. Two lecture and one 3-hour lab a week; periodic field data collection and one or two field trips.

Prereq: MATH 143 or MATH 170 or MATH 175, and ENGR 105. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 215 Civil Engineering Analysis and Design

3 credits

Application of basic science, mathematics, and fundamental engineering principles to solution of civil engineering design problems; use of structured programming concepts in design; develop oral and written communication skills.

Prereq: CE 115, ENGR 105, and MATH 170. A minimum grade of 'C' or better is required for all pre/coreqs.

Coreq: PHYS 211/PHYS 211L. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 298 (s) Internship

Credit arranged.

CE 299 (s) Directed Study

Credit arranged.

CE 322 Hydraulics

4 credits

Applied principles of fluid mechanics; closed conduit flow, hydraulic machinery, open channel flow; design of hydraulic systems. Laboratory exercises on closed conduit flow, hydraulic machinery, open channel flow and mixing process. Three lec a week and 4-6 labs a semester.

Prereq: CE 215, MATH 310, PHYS 211, ENGR 220 and ENGR 335. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 325 Fundamentals of Hydrologic Engineering

3 credits

Cross-listed with BE 355

Principles of hydrologic science and their application to the solution of hydraulic, hydrologic, environmental, and water resources engineering problems.

Prereq: MATH 310, STAT 301, and ENGR 335. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 330 Fundamentals of Environmental Engineering

3 credits

Principles of engineered environmental systems, including physical, chemical, and microbiological processes; types and effects of pollutants; regulations; treatment of water, wastewater, sludges, and solid waste; control of air and agricultural pollution. Two lectures and one 3-hour lab a week.

Prereq: ENGR 335, CHEM 111, CE 215 and MATH 310. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 342 Theory of Structures

3 credits

Stresses and strains in statically determinate and indeterminate beam, truss, and rigid frame structures; effects of moving loads; matrix displacement method. Two lec and one 3-hr lab a wk.

Prereq: ENGR 350, MATH 275, MATH 310, and PHYS 211/PHYS 211L. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 357 Properties of Construction Materials

4 credits

Principles of construction materials, composition, physical and mechanical properties, test methods, data analysis and interpretations, and report writing; materials covered are aggregates, cements, concretes, metals, wood, and composites. Three lec and two hrs of lab.

Prereq: CE 215, ENGR 350, MATH 310. A minimum grade of 'C' or better is required for all pre/coreqs.

Coreq: STAT 301. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 360 Fundamentals of Geotechnical Engineering

4 credits

Soil composition, descriptions, and classification systems; permeability and seepage; capillarity and suction; total, effective, and neutral stresses, compression and volume changes; shear strength; compaction. Three lectures, and 2 hours of lab a week.

Prereq: CE 215, ENGR 335, ENGR 350, and MATH 310. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 372 Fundamentals of Transportation Engineering

4 credits

Intro to planning, design, and operation of highway and traffic, public transportation, and airport systems. Three lectures and one 3-hour lab a week; periodic field data collection and one or two field trips.

Prereq: STAT 301 and CE 211. A minimum grade of 'C' or better is required for all pre/coreqs.

Coreq: ENGL 317. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 398 (s) Internship

Credit arranged.

CE 400 (s) Seminar

Credit arranged.

CE 403 (s) Workshop

Credit arranged.

CE 404 (s) Special Topics

Credit arranged.

CE 411 Engineering Fundamentals

1 credit

Review of basic engineering and science material covered in Fundamentals of Engineering exam. Offered for the nine to ten week period prior to the exam date. Graded P/F.

Prereq: Senior standing or Permission.

CE 413 Bridge Design**3 credits**

Joint-listed with CE 513.

Structural systems for bridges, loading analysis by influence lines, slab and girder bridges, composite design, pre-stressed concrete, rating of existing bridges, specifications and economic factors.

Prereq: CE 441 or CE 444 .

CE 421 Engineering Hydrology**3 credits**

Hydrologic design including: statistical methods, rainfall analysis and design storm development, frequency analysis, peak discharge estimation, hydrograph analysis and synthesis, flow routing, and risk analysis.

Prereq: CE 325 or BE 355. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 422 Hydraulic Structures Analysis and Design**3 credits**

Hydraulic design and stability analysis of hydraulic structures, such as dams, weirs, spillways, stilling basins, culverts, levees, fish ladders etc. Project oriented problems. Extra design projects or different design projects for grad cr. One field trip. CE 422 is a cooperative course available to WSU degree-seeking students.

Prereq: CE 322 or Equivalent, ENGR 360, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 428 Open Channel Hydraulics**3 credits**

Hydraulics of uniform and varied flow in open channels with fixed and movable beds. Recommended Preparation: CE 322. Cooperative: open to WSU degree-seeking students.

CE 431 Design of Water and Wastewater Systems I**3 credits**

Joint-listed with CE 511

Application of fundamental engineering science to the design of systems for the treatment of domestic and industrial water supplies; treatment and re-use of domestic sewage and industrial wastes. Additional projects/assignments required for graduate credit.

Prereq: CE 322, CE 330, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 432 Design of Water and Wastewater Systems II**3 credits**

Joint-listed with CE 532

Application of unit operations and processes to design of integrated wastewater treatment systems; critical analysis of existing designs. Additional projects/assignments required for grad credit. CE 532 is a cooperative course available to WSU degree-seeking students.

Prereq: CE 431. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 433 Water Quality Management**3 credits**

Joint-listed with CE 533

Physical, chemical, and biological techniques for analysis of water quality management problems; development of design criteria for corrective systems. Additional projects/assignments required for grad credit.

Prereq: Permission .

CE 441 Reinforced Concrete Design**3 credits**

Strength design method in accordance with latest ACI code. Two lectures and one 2-hour lab a week.

Prereq: CE 342. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 444 Steel Design**3 credits**

Structural steel design using latest AISC specifications. Two lectures and one 2-hour lab a week.

Prereq: CE 342. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 445 Matrix Structural Analysis**3 credits**

Joint-listed with CE 545

Formulation of the analysis of trusses, beams, and frames using the stiffness method of matrix structural analysis; development of element properties, coordinate transformations, and global analysis theory; special topics such as initial loads, member and joint constraints, and nonlinear analysis. Special project demonstrating mature understanding of materials reqd for grad cr.

Prereq: CE 342 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 460 Geotechnical Engineering Design**3credits**

Applications of soil mechanics in design of shallow and deep foundations, earth retaining structures, excavations, and soil exploration.

Prereq: CE 360 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 473 Highway Design**3 credits**

Theory and practice in highway design, highway functional classification concepts, design controls and criteria, geometric design of highways and streets, cross section and roadside design, and highway safety manual applications.

Prereq: CE 211. A minimum grade of 'C' or better is required for all pre/coreqs.

Coreq: CE 372. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 474 Traffic Systems Design**3 credits**

Analysis and design of network traffic systems; system evaluation using computer optimization and simulation; development and testing of alternative system design. Two lec and one 3-hr lab a wk; field data collection and field site visits. Cooperative: open to WSU degree-seeking students.

Prereq: CE 372 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 475 Pavement Design and Evaluation**3 credits**

Pavement design processes; stress-strain analysis in multi-layer elastic system; materials selection and characterization methods; traffic loads, design methods for flexible and rigid pavements; performance evaluation of existing pavements; condition survey and ratings; introduction to pavement maintenance and rehabilitation techniques.

Prereq: CE 357 or Equivalent, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 484 Engineering Law and Contracts

3 credits

Project engineering techniques for planning, scheduling, and controlling typical engineering and construction projects. Contract law and application to engineering services agreements and construction contracts; preparing technical specifications, torts, professional liability, and alternate dispute resolution.

Prereq: Senior standing in engineering.

CE 491 Civil Engineering Professional Seminar

1 credit

Employment and technical topics; preparation and presentation of professional paper. Course to be taken in last semester before graduation. Graded P/F.

Prereq: Senior standing in Civil Engineering.

CE 494 Senior Design Project

3 credits)

Gen Ed: Senior Experience

Comprehensive civil engineering design project. Requires integration of skills acquired in civil engineering elective courses, written reports, and oral presentations.

Prereq: Senior standing in Civil Engineering and Permission.

CE 498 (s) Internship

CE 499 (s) Directed Study

Credit arranged.

CE 500 Master's Research and Thesis

Credits arranged.

CE 501 (s) Seminar

Credit arranged

Conferences and reports on current developments.

CE 502 (s) Directed Studies

Credits arranged.

CE 503 (s) Workshop

Credit arranged.

CE 504 (s) Special Topics

Credit arranged.

CE 505 (s) Professional Development

CE 507 River Restoration

3 credits

This course focuses on the principles and practices used in river restoration. The potential assumptions and errors with common restoration methodologies and possible ways to improve such channel designs are discussed. A number of case studies are used to evaluate the success of various restoration techniques. The course includes homework sets and individual projects and has a mandatory field trip to a local restored site. Recommended classes to take prior to this include at least one of the following: CE 535, CE 322, CE 428, or CE 520.

Prereq: ENGR 335 or Instructor Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 510 Advanced Mechanics of Materials

3 credits

Cross-listed with ME 539.

Limitations of results of elementary mechanics of materials, complex situations of loading and structural geometry, applications to design of machines and structure, introduction to elasticity. Cooperative: open to WSU degree-seeking students.

Prereq: ME 341 or CE 342 .

CE 511 Design of Water and Wastewater Systems I

3 credits

Joint-listed with CE 431

Application of fundamental engineering science to the design of systems for the treatment of domestic and industrial water supplies; treatment and re-use of domestic sewage and industrial wastes. Additional projects/assignments required for graduate credit.

Prereq: CE 322, CE 330, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 512 Advanced Topics in Waste Management and Treatment

3 credits

Modeling, analysis, and design of advanced and emerging engineering technologies and processes for waste management/treatment and resource recovery.

Prereq: Instructor Permission .

CE 513 Bridge Design

3 credits

Joint-listed with CE 413.

Structural systems for bridges, loading analysis by influence lines, slab and girder bridges, composite design, pre-stressed concrete, rating of existing bridges, specifications and economic factors.

Prereq: CE 441 or CE 444 .

CE 519 Fluid Transients

3 credits

Cross-listed with ME 519.

Development of concepts and modeling techniques for unsteady flow of liquid and gas in piping systems; extensive computer programming used to develop tools for analysis, design, and control of transients. (Alt/yrs)

Prereq: MATH 310 and ENGR 335. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 520 Fluid Dynamics

3 credits

Cross-listed with ME 520.

Credit not granted for both ME 420 and ME 520. A second fluid dynamics course featuring vector calculus and integral and differential forms of the conservation laws. Topics include fluid properties, fluid statistics, inviscid flow; conservation of mass, momentum, and energy; and turbulence.

Other topics may be covered. Additional projects/assignments reqd for grad cr.

Prereq: ENGR 335, MATH 310, or Permission.

CE 521 Sedimentation Engineering

3 credits

Intro to river morphology and channel responses; fluvial processes of erosion, entrainment, transportation, and deposition of sediment. Cooperative: open to WSU degree-seeking students.

Prereq: CE 428 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 522 Hydraulic Structures Analysis and Design

3 credits

Hydraulic design and stability analysis of hydraulic structures, such as dams, weirs, spillways, stilling basins, culverts, levees, fish ladders etc. Project oriented problems. Extra design projects or different design projects for grad cr. One field trip. CE 422 is a cooperative course available to WSU degree-seeking students.

Prereq: CE 322 or Equivalent, ENGR 360, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 526 Aquatic Habitat Modeling**3 credits**

The course objective is to learn the underlying principles of all components required for aquatic habitat modeling, to be able to perform such projects in riverine ecosystems including project design, data collection, data analysis and interpretation of the results and to learn the use of computational aquatic habitat models. Students will be working on their own modeling projects using the simulation model CASiMiR.

Prereq: CE 322 and CE 325 or BE 355; or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 531 Environmental Engineering Unit Operations**3 credits**

Analysis and design of physical and chemical operations of water and waste treatment; flow models, sedimentation, flocculation, filtration, and water conditioning. Cooperative: open to WSU degree-seeking students.

Prereq: Permission .

CE 532 Design of Water and Wastewater Systems II**3 credits**

Joint-listed with CE 432

Application of unit operations and processes to design of integrated wastewater treatment systems; critical analysis of existing designs. Additional projects/assignments required for grad credit. CE 532 is a cooperative course available to WSU degree-seeking students.

Prereq: CE 431. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 533 Water Quality Management**3 credits**

Joint-listed with CE 433

Physical, chemical, and biological techniques for analysis of water quality management problems; development of design criteria for corrective systems. Additional projects/assignments required for graduate credit.

Prereq: Permission .

CE 534 Environmental Engineering Unit Processes**3 credits**

Aeration system design, biological oxidations, growth kinetics, process design of suspended growth and fixed film aerobic and anaerobic systems, biological nutrient removal, land treatment systems.

Cooperative: open to WSU degree-seeking students.

Prereq: CE 431 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 535 Fluvial Geomorphology and River Mechanics**3 credits**

Hydraulic and morphologic processes of rivers. Drainage network development, channel hydraulics and shear stress partitioning via boundary layer theory, hydraulic geometry and cross-sectional form, sediment transport and bed material sampling, reach-scale morphologies and processes from headwater streams to lowland rivers, physical processes of forest rivers, sediment budgets, and river valley evolution. Field exercises emphasize quantitative analysis of fluvial processes and channel form, acquisition of field skills (measuring hydraulic and geomorphic variables, topographic surveying), and scientific writing. (Alt/ yrs)

Prereq: CE 428 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 541 Reliability of Engineering Systems**3 credits**

Fundamentals of reliability theory, system reliability analysis including common-mode failures and fault tree and event tree analysis, time-dependent reliability including testing and maintenance, propagation of uncertainty, human reliability analysis, practical applications in component and system design throughout the semester. Cooperative: open to WSU degree-seeking students.

Prereq: Permission.

CE 542 Advanced Design of Steel Structures**3 credits**

Plate girder design; local and global buckling; plastic collapse analysis; shear and moment-resisting connections; eccentrically-loaded connections. Cooperative: open to WSU degree-seeking students.

Prereq: CE 444 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 543 Dynamics of Structures**3 credits**

Equations of motion, free vibration, damping mechanisms, harmonic, impulse, and seismic loading; shock and seismic response spectra, time and frequency domain analysis, modal analysis, structural dynamics in building codes. Cooperative: open to WSU degree-seeking students.

CE 545 Matrix Structural Analysis**3 credits**

Joint-listed with CE 445

Formulation of the analysis of trusses, beams, and frames using the stiffness method of matrix structural analysis; development of element properties, coordinate transformations, and global analysis theory; special topics such as initial loads, member and joint constraints, and nonlinear analysis. Special project demonstrating mature understanding of materials reqd for grad cr.

Prereq: CE 342 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 546 Finite Element Analysis**3 credits**

Cross-listed with ME 549.

Formulation of theory from basic consideration of mechanics; applications to structural engineering, solid mechanics, soil and rock mechanics; fluid flow. Cooperative: open to WSU degree-seeking students.

Prereq: ME 341 or CE 342. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 547 Advanced Reinforced Concrete**3 credits**

Composite design; slab design; limit state design; footings; retaining walls; deep beams; brackets and corbels; torsion; seismic design; shear walls. Cooperative: open to WSU degree-seeking students.

Prereq: CE 441. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 550 Experimental Methods in Fluid Dynamics

3 credits

Cross-listed with ME 551.

The objective of this course is to develop the knowledge and skills to be able to design and perform fluid dynamics experiments (and experiments in related areas) and to interpret and report the results. Learn the words, the concepts, and experimental skills in areas including dimensional analysis and scaling of experiments, flow visualization, velocity and flow rate measurements, turbulence measurements, and sediment sizing and transport measurements. Additional projects/assignments reqd for grad cr. One 1-1/2 hr lec and one 3-hr lab a wk. Recommended Preparation: ENGL 317 and ENGR 335.

CE 554 Environmental Hydrodynamics

3 credits

The course analyzes solute transport and mixing in rivers. It provides the derivation and analysis of the equations governing solute mixing and transport and shows the connection between mixing and flow field. It presents molecular and turbulent diffusion, dispersion, vertical, lateral, and longitudinal mixing, and the effects of river irregularities and curved channels. The course includes individual projects.

Prereq: CE 428 or permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 556 Properties of Highway Pavement Materials

3 credits

Physical and mechanical properties of asphalt and Portland cement concrete materials; design of asphalt concrete mixes; introduction to viscoelastic theory; characterization methods, emphasizing fatigue, rutting and thermal cracking; modification and upgrading techniques. Three 1-hr lec a wk and variable number of lab hrs for demonstration. Cooperative: open to WSU degree-seeking students.

Prereq: CE 357 or Equivalent, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 561 Engineering Properties of Soils

3 credits

Physical properties, compressibility and consolidation, shear strength, compaction, saturated and unsaturated soils, laboratory and field methods of measurement, relations of physical and engineering properties, introduction to critical-state soil mechanics. Cooperative: open to WSU degree-seeking students.

Prereq: CE 360. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 562 Advanced Foundation Engineering

3 credits

Interpretation of in-situ tests for foundation design parameters, bearing capacity and settlement of axially loaded piles, pile groups, and drilled shafts, pile dynamics, laterally loaded deep foundations, downdrag and uplift of deep foundations, foundation load and integrity testing methods and data interpretation, mat foundations. Cooperative: open to WSU degree-seeking students.

Prereq: CE 360 or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 563 Seepage and Slope Stability

3 credits

Cross-listed with GEOE 535.

Principles governing the flow of water through soils; mechanics of stability analysis of slopes, landslides, and embankments for soil and rock masses; probabilistic analyses; stabilization methods. Cooperative: open to WSU degree-seeking students. (Alt/even yrs, Spring only)

Prereq: CE 360 or GEOE 436; or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 566 Geotechnical Earthquake Engineering

3 credits

Faulting and seismicity; site response analysis; probabilistic seismic hazard assessment; dynamic soil properties; influence of soil on ground shaking; response spectra; soil liquefaction; seismic earth pressures; seismic slope stability; earthquake resistant design. Cooperative: open to WSU degree-seeking students.

Prereq: CE 360 or Equivalent, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 571 Traffic Flow Theory

3 credits

Introduction to elements of traffic flow theory including principles of traffic stream characteristics, capacity, queuing theory, and shock waves; application of traffic flow theory to freeway and arterial traffic flow problems. Cooperative: open to WSU degree-seeking students. (Alt/hrs)

Prereq: Permission.

CE 572 Intersection Traffic Operations

3 credits

Application of traffic simulation models to the design and operations of traffic facilities, including intersection, arterials; assessment and design of traffic signal timing strategies. Cooperative: open to WSU degree-seeking students. (Alt/hrs)

Prereq: Permission.

CE 573 Transportation Planning

3 credits

Concepts and methods of transportation planning, including network modeling, travel demand forecasting, and systems evaluation of multi-modal transportation systems. This is a cooperative course available to WSU degree-seeking students. (Alt/hrs)

Prereq: Permission.

CE 574 Public Transportation

3 credits

Concepts and principles of planning and operations of public transportation systems, including bus transit, rail transit, and paratransit modes. Cooperative: open to WSU degree-seeking students. (Alt/hrs)

Prereq: Permission.

CE 575 Advanced Pavement Design and Analysis

3 credits

Design of new and rehabilitated asphalt and Portland cement concrete pavements; mechanistic-empirical design procedures; performance models; deflection-based structural analysis, overlay design, environmental effects; long-term pavement performance (LTPP), and introduction to research topics in pavement engineering. Cooperative: open to WSU degree-seeking students.

Prereq: CE 475 or Equivalent, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 576 Highway Design and Traffic Safety

3 credits

Geometric design of highways as related to operation and safety. Analysis of highway design alternatives and control strategies with respect to accident probabilities. Statistical models for safety analysis. Accident countermeasure selection and evaluation methodology. Risk management.

Prereq: Permission.

CE 577 Pavement Preservation and Management**3 credits**

This course addresses several aspects of pavement evaluation, preservation, rehabilitation, and management. The primary objective of this course is to provide the civil engineering graduate students with state-of-the-art knowledge needed to maintain our roadways in serviceable condition. The course covers different methods used to evaluate the performance of pavements, distresses in flexible and rigid pavements, project and network level pavement management, various preservation and rehabilitation techniques and selection of the appropriate approaches for preservation and rehabilitation.

Prereq: CE 475 or Equivalent, or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

CE 578 Highway Traffic Operations**3 credits**

Theory of two-lane highway and freeway operations, application of traffic simulation models for the design and operations of highway, development and assessment of freeway management and control strategies including Intelligent Transportation Systems applications, field data collection and analysis. (Alt/yrs)

Prereq: Permission.

CE 579 Simulation of Transportation Systems**3 credits**

This course introduces students to the simulation of transportation systems, including the algorithms that constitute most traffic simulation models and how the models are applied to the study of real transportation problems. The course considers the fundamental issues that the transportation engineer must consider when developing and applying simulation models, the core algorithms that constitute transportation simulation models, how to build and test a simulation network, the process for validating and calibrating a simulation model, how model results should be analyzed and presented, and the process for using and the value of hardware-in-the-loop simulation.

Prereq: *Permission* .

CE 598 (s) Internship

Credit arranged.

CE 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

CE 600 Doctoral Research and Dissertation

Credit arranged.

COLLEGE OF ART & ARCHITECTURE (CAA)

CAA 105 CAA Summer Design Week**1 credit**

Intensive one week experience that offers prospective students a chance to experience the world of design. Students gain a broad view of design disciplines in the College while developing graphic and design skills and building portfolios. (Summer only)

CAA 321 CAA Ambassador**1 credit, max 2**

Represent academic program and college at recruiting and other public events, developing skills in professional relations, leadership, communication, networking, and public speaking. Attending university and college recruiting events, visiting, high schools or community colleges, and communicating with prospective students is required.

COMMUNICATION (COMM)

COMM 101 Fundamentals of Public Speaking

2 credits

Gen Ed: Communication

Skills and techniques of effective speaking.

COMM 111 Introduction to Communication Studies

3 credits

Introduction to historical and intellectual development of the primary subfields within communication; perspectives on interrelationships among the subfields of interpersonal, small group, visual, and organizational communication; exploration of institutional character and cultural implications of each subfield; build competence as critical consumers of communication content.

COMM 150 Online Oral Communication

3 credits

This course provides the skills, techniques, and knowledge needed to engage in effective oral communication in online contexts.

COMM 200 (s) Seminar

Credit arranged.

COMM 203 (s) Workshop

Credit arranged

May be graded P/F.

Prereq: Permission.

COMM 204 (s) Special Topics

Credit arranged.

COMM 233 Interpersonal Communication

3 credits

Gen Ed: Social Science

Communication concepts and skills applied to relationship management; communication process, listening, self-disclosure, perception, conflict.

COMM 299 (s) Directed Study

Cr arr).

COMM 332 Communication and the Small Group

3 credits

Problem-solving methods; performing as a group leader or as a group member; small group behavior.

COMM 335 Intercultural Communication

3 credits

Gen Ed: Social Science, International

Survey of current theories and research on intercultural communication; development of critical thinking skills in regard to intercultural interaction and communication styles.

COMM 340 Family Communication

3 credits

This course provides an overview of family communication theories and applications by examining functional and dysfunctional family communication patterns and relationships, diverse family systems, roles and rules in the family, and power dynamics.

COMM 347 Persuasion

3 credits

Theory and practice of effective persuasive techniques. Recommended Preparation: COMM 101.

COMM 355 Organizational Communication

3 credits

Overview of current theory and research in organizational communication; examining organizational structure, organizational culture, leadership, organizational change, management systems and power relationships.

COMM 400 (s) Seminar

Credit arranged.

COMM 403 (s) Workshop

Credit arranged

May be graded P/F.

Prereq: Permission.

COMM 404 (s) Special Topics

Credit arranged.

COMM 410 Conflict Management

3 credits

Gen Ed: Social Science

Principles of effective conflict management in various settings; emphasis on styles of conflict, power, goals, strategies and intervention techniques as well as negotiation in the conflict process. Recommended Preparation: COMM 233.

COMM 431 Applied Business and Professional Communication

3 credits

Principles, skills development, and practical applications of public communication within business and other organizational contexts; emphasis on using media for creating business presentations and on the role of effective communication in career management and civic and community development. Recommended Preparation: COMM 101 and COMM 235.

COMM 432 Gender and Communication

3 credits

Gen Ed: American Diversity

The nature of interpersonal communication and gender; identification, interpretation, and analyses of theories that offer explanations of gender and culture in interpersonal interactions. (Alt/yrs)

COMM 453 Communication Theory

3 credits

A survey of established theories and theoretical traditions in the Communication discipline, with an emphasis on understanding how theory is developed and applied to solve real world problems.

Prereq: Communication major, Junior standing .

COMM 456 Nonprofit Fundraising

3 credits

Cross-listed with JAMM 456

Explores theory and practice of fundraising for nonprofit groups. Surveys public campaigns and communication strategies, fundraising methods, ethics of fundraising, and fundraising leadership/management. Students will develop methods of evaluation for fundraising, and do so by case studies and preparation for fundraising campaigns.

COMM 491 Communication and Aging

3 credits

Gen Ed: American Diversity

A communication perspective is adopted to examine the aging process and the ability of individuals to successfully adapt to aging; issues addressed are theory, research and factors associated with communication and aging.

COMM 492 Dark Side of Communication**3 credits**

Interdisciplinary study of how individuals cope with difficult, problematic, distressing, and disruptive social interaction. Topics included are the "hidden and forbidden" aspects of personal relationships that are often neglected by social scientists. Recommended Preparation: COMM 233.

COMM 494 (s) Research Experience**Credit arranged**

Supervised experience in conducting communication studies research. Available topics vary depending on current faculty research interests.

Prereq: Permission .

COMM 497 Practicum in Instruction**1-3 credits, max 6**

Tutoring and/or instructional services performed by advanced students under faculty supervision.

Prereq: Permission .

COMM 498 (s) Internship**1-3 credits, max arranged**

Graded P (pass)/ F (fail).

Prereq: Permission .

COMM 499 (s) Directed Study

Credit arranged.

COMPUTER SCIENCE (CS)

Vertically-related courses in this subject field are:

- CS 120 – CS 121.

CS 112 Computational Thinking and Problem Solving

3 credits

Gen Ed: Mathematics

CS 112 carries no credit after CS 120. Introduction to computational thinking and problem solving, including elementary computing concepts such as variables, loops, functions, lists, conditionals, concurrency, data types, simple object oriented concepts, I/O, events, syntax, structured programming, basic concepts of computer organization, editing and the influence of computers in modern society.

Prereq: MATH 108 with a grade of 'C' or better; or sufficiently high ACT, SAT, or Math Placement Test score to qualify for MATH 143 .

CS 120 Computer Science I

4 credits

Fundamental programming constructs, algorithms and problem-solving, fundamental data structures, overview of programming languages, virtual machines, introduction to language translation, declarations and types, abstraction mechanisms, object-oriented programming. This course includes a lab.

Prereq: MATH 143 with a grade of 'C' or higher or CS 112 with a grade of 'C' or higher; or sufficiently high ACT, SAT, or Math Placement Test score to qualify for MATH 170.

CS 121 Computer Science II

3 credits

Abstract data types and data structures: linked lists, stacks, queues, trees, and graphs. Methods to implement and algorithms to manipulate these structures. Dynamic memory methods, sequential file processing, additional searching and sorting algorithms, recursion, and object-oriented programming.

Prereq: CS 120 with a grade of 'C' or higher

Coreq: MATH 176 .

CS 150 Computer Organization and Architecture

3 credits

Digital logic and digital systems, Machine level representation of data, Assembly level machine organization, Memory system organization and architecture, Interfacing and communication, Functional organization, Multiprocessing and alternative architectures.

Prereq: CS 120.

CS 204 (s) Special Topics

Credit arranged.

CS 210 Programming Languages

3 credits

Major features of good programming languages, with primary emphasis on language features and their role in writing good software; programming language design alternatives; various types of languages, including procedure, data-flow, functional, and object-oriented languages.

Prereq: CS 121.

CS 240 Computer Operating Systems

3 credits

Overview of operating systems, Operating system principles, Concurrency, Scheduling and dispatch, Memory management, Introduction to net-centric computing, OS security. Process management. Concurrent programming using threads.

Prereq: CS 121 and CS 150

Coreq: CS 270.

CS 270 System Software

3 credits

Programming productivity tools such as make. Debugging tools. Linking and loading. Shell programming and scripting languages. Process management and interprocess communication. Exception handling. Network concepts and network programming.

Prereq: CS 121.

CS 298 (s) Internship

Credit arranged.

CS 299 (s) Directed Study

Credit arranged.

CS 324 Computer Graphics

3 credits

Use of the computer to define, store, manipulate, and display 2-D and 3-D objects; 2-D curvefitting and 3-D surface development. Cooperative: open to WSU degree-seeking students.

Prereq: CS 121 and MATH 330.

CS 328 Introduction to Computer Game Development

3 credits

An introduction to data structures, algorithms, and programming techniques useful in the development of computer games. Topics including 2D graphics, sound programming, user interfaces, game genres, computerization of classic board games and simulation games.

Prereq: CS 210 and CS 240 .

CS 336 Introduction to Information Assurance

3 credits

Introduces the confidentiality, availability and integrity goals of information systems; resistance, recognition and response categories of assurance. Focus on computer security and survivability, including cryptography, network security, general purpose operating system security and dependability and special purpose systems for high assurance security and dependability.

Prereq: CS 240.

CS 360 Database Systems

3 credits

Study of database design and implementation; comparison of basic models (entity-relationship, hierarchical, network, relational); study of query languages; discussion of issues of integrity, security, dependencies, and normal forms.

Prereq: CS 240 and CS 270 .

CS 383 Software Engineering

3 credits

Current topics in development of software systems; software life cycle model, requirements definition, requirements analysis, software specification, software architectural design, engineering discipline in software development, software measurement, user interface design, legal and ethical issues in software product development. Projects are developed to demonstrate application of concepts.

Prereq: CS 210, CS 240 and CS 270 or Permission.

CS 385 Theory of Computation

3 credits

Cross-listed with MATH 385.

Mathematical models of computation, including finite automata and Turing machines. (Fall only)

Prereq: Permission.

CS 395 Analysis of Algorithms

3 credits

Cross-listed with MATH 395.

Measures of efficiency; standard methods and examples in the design, implementation, and analysis of algorithms. (Spring only)

Prereq: MATH 175 and CS 121.

CS 398 (s) Computer Science Cooperative Internship

1-3 credits, max 3

Supervised internship in professional computer science settings, integrating academic study with work experience; requires formal plan of activities before co-op assignment and final written report evaluated by on-campus faculty members. Graded P/F.

Prereq: Permission.

CS 400 (s) Seminar

0 credits

Technical topics, employment practices, interviewing, and current research topics. Graded P/F. One lec a wk.

Prereq: sr standing in CS.

CS 401 Contemporary Issues in Computer Science

1 credit

Ethical, legal, social, and intellectual property issues; current research topics; and other issues of importance to the professional computer scientist. Graded P/F.

Prereq: Senior standing in CS.

CS 404 (s) Special Topics

Credit arranged.

CS 411 Parallel Programming

3 credits

Joint-listed with CS 511

Analysis, mapping, and the application of parallel programming software to high-performance systems; the principles of spatial- and temporal-locality of data memory hierarchies in performance tuning; architectural considerations in the design and implementation of a parallel program; the tradeoff between threaded (shared memory) and message-passing (distributed memory) programming styles and performance. Additional projects/assignments required for graduate credit. Recommended Preparation: Proficiency in programming using a modern language such as C or C++.

Prereq: CS 395.

CS 415 Computational Biology: Sequence Analysis

3 credits

Joint-listed with CS 515

Design and analyze algorithms that address the computational problems posed by biological sequence data, such as DNA or protein sequences. Topics may include: comparing sequences (from genes to genomes), database searching, multiple sequence alignment, phylogenetic inferencing, gene discovery and annotation, and genome assembly. Additional class presentation and/or paper required for graduate credit.

Prereq: Knowledge of high level programming language, basic probability theory, basic molecular biology, or Permission.

CS 420 Data Communication Systems

3 credits

Joint-listed with CS 520.

Concept and terminology of data communications, equipment, protocols (including ISO/OSI and TCP/IP), architectures; transmission alternatives, regulatory issues and network management. Additional projects/assignments reqd for grad cr.

Prereq: CS 150 and CS 240 .

CS 424 Advanced Computer Graphics

3 credits

Joint-listed with CS 524.

Graphical user interfaces; rendering for realism including shading, shadows and textures; fractals; raster displays, pixmaps, and antialiasing; 3D curves and surfaces; color theory; hidden surfaces; ray tracing; games. Additional work required for graduate credit. (Spring only)

Prereq: CS 324, MATH 175 .

CS 428 Multi-User Games and Virtual Environments

3 credits

Joint-listed with CS 528.

Software design and programming issues involved in constructing multi-user computer games and virtual environments, incorporating networking and 3D graphics. Additional projects and assignments are required for graduate credit.

Prereq: CS 210, CS 324, and CS 328 .

CS 431 (s) SFS Professional Development

1 credit

Joint-listed with CS 531.

CS 438 Network Security

3 credits

Joint-listed with CS 538.

Practical topics in network security; policy and mechanism, malicious code; intrusion detection, prevention, response; cryptographic techniques for privacy and integrity; emphasis on tradeoffs between risk of misuse, cost of prevention, and societal issues; concepts implemented in programming assignments. Additional projects/assignments reqd for grad cr. Recommended Preparation: Knowledge of C or C++. CS 438 is a cooperative course available to WSU degree-seeking students.

Prereq: CS 336.

CS 439 Applied Security Concepts

3 credits

Joint-listed with CS 539.

Hands-on approach to computer security with emphasis on developing practical knowledge of how cyber attacks work and how to defend against them. Detailed exploration of attacks such as buffer overruns, string attacks, worms, trojan horses, and denial-of-service attacks, and development of defenses against them. Additional work reqd for grad cr. Recommended preparation: Good knowledge of C, operating system concepts and Unix.

Prereq: CS 336 or Permission.

CS 444 Supervisory Control and Critical Infrastructure Systems

1 credit

Joint-listed with CS 544. Cross-listed with ECE 444, ECE 544.

Principles of network-based distributed real-time control and critical infrastructure systems. Integration of dedicated control protocols with wide area networks (e.g. the Internet). Issues of reliability, cost, and security. Application to selected industries, such as electric power distribution and waste and water management. Recommended preparation: ECE 340, CS 240, ME 313, CE 330, or CE 372. (Spring, alt/yr.)

Prereq: Senior or Graduate standing in the College of Engineering .

CS 445 Compiler Design**4 credits**

Algorithms used by the following system software: assemblers, macro-processors, interpreters, and compilers; compiler design options and code optimization; all concepts implemented in major programming assignments.

Prereq: CS 210 and CS 385 .

CS 447 Computer and Network Forensics**3 credits**

Joint-listed with CS 547

Competence in using established forensic methods in the handling of electronic evidence; rigorous audit/logging and data archival practices; prevention, detection, apprehension, and prosecution of security violators and cyber criminals; identifying and correcting computer vulnerabilities in a way that is smart, prudent, and responsible. Additional work required for graduate credit.

Prereq: CS 336 and Permission.

CS 448 Survivable Systems and Networks**3 credits**

Joint-listed with CS 548

Computers and networks under malicious threat or attack. Attributes of survivability, trustworthiness, dependability and assurance. Threats to survivability, security, reliability and performance. Models and analytical methods to assess survivability, vulnerability, interdependence and risk. Systemic inadequacies and approaches for overcoming deficiencies. Literature review and case studies. Additional projects/assignments required for graduate credit. Recommended Preparation: CS 449, CS 549 or CS 438.

CS 449 Fault-Tolerant Systems**3 credits**

Joint-listed with CS 549. Cross-listed with ECE 449.

Design, modeling, analysis and integration of hardware and software to achieve dependable computing systems employing on-line fault tolerance; theory and fundamental concepts of designing reliable systems; analytical evaluation techniques, faults and advances in ultra-reliable distributed systems, fault-tolerant software systems; case studies include the space Shuttle, Airbus, and Boeing fly-by-wire primary flight computers as well as systems in reliable data bases and financial markets. Additional projects and assignments reqd for grad cr.

Prereq: CS 240 or Permission.

CS 451 Advanced Computer Architecture**3 credits**

Joint-listed with CS 551. Cross-listed with ECE 441, ECE 541.

Principles and alternatives in instruction set design; processor implementation techniques, pipelining, parallel processors, memory hierarchy, and input/output; measurement of performance and cost/performance trade-off. Additional work required for graduate credit.

Prereq: CS 150, STAT 301 or Permission.

CS 452 Real-Time Operating Systems**3 credits**

Joint-listed with CS 552

Topics of interest in the implementation of Real-Time Operating Systems, especially as applicable to embedded systems, including a relevant hardware review, interrupts and interrupt handling, real-time scheduling principles and implementation, latency, task management, shared data and synchronization, timers, message passing, tradeoffs between memory space and speed. Students will build a simple but relatively complete real-time operating system over the course of the semester. Additional projects and assignments are required for graduate credit. (Spring only)

Prereq: CS 240 .

CS 460 Database Management Systems Design**3 credits**

Joint-listed with CS 560

Theory, analysis and implementation of database architecture, security, performance, query optimization, recovery and concurrency control, reliability, integrity, commit protocols, distributed processing, deadlock detection and management. Additional projects/assignments required for graduate credits.

Prereq: CS 360 .

CS 470 Artificial Intelligence**3 credits**

Joint-listed with CS 570.

Concepts and techniques involved in artificial intelligence, Lisp, goal-directed searching, history trees, inductive and deductive reasoning, natural language processing, and learning. Extra term paper reqd for cr in CS 570.

Prereq: CS 210 .

CS 472 Evolutionary Computation**3 credits**

Joint-listed with CS 572

Solving computation problems by "growing" solutions; simulates natural evolution using analogues of mutation, crossover, and other generic transformations on representations of potential solutions; standard EC techniques such as genetic algorithms and evolutionary programming, mathematical explanations of why they work, and a survey of some applications; the focus is on solving real-world problems using projects. Graduate-level research and possible paper or presentation required for grad cr.

Prereq: CS 210 .

CS 475 Machine Learning**3 credits**

Joint-listed with CS 575.

Analysis and implementation of classic machine learning algorithms including neural networks, deep learning networks, principle component analysis, decision trees, support vector machines, clustering, reinforcement learning, ensemble learning, K-means, self-organizing maps and probabilistic learning such as Markov Chain Monte Carlo and Expectation Maximization algorithms. Techniques of preprocessing data, training, testing, and validating will be discussed along with statistical measures commonly used and pitfalls commonly encountered. Additional work required for graduate credit.

Prereq: CS 210 .

CS 479 Data Science

3 credits

Joint-listed with CS 579

Data science is advancing the conduct of science in individual and collaborative works. Data science combines aspects of data management, library science, computer science, and physical science using supporting cyberinfrastructure and information technology. Key methodologies in application areas based on real research experience are taught to build a skill-set that enables students to handle each stage in a data lifecycle, from data collection, analysis, archiving, to data discovery, access and reuse. Additional work required for graduate credit.

Prereq: MATH 330 or permission .

CS 480 CS Senior Capstone Design I

3 credits

Capstone design sequence for computer science majors. Formal development techniques applied to definition, design, coding, testing, and documentation of a large software project. Projects are customer-specified, includes real-world design constraints, and usually encompasses two semesters. Students work in teams. Significant lab work required.

Prereq: CS 383, ENGL 317, and Senior standing .

CS 481 CS Senior Capstone Design II

3 credits

Gen Ed: Senior Experience

Continuation of CS 480. Application of formal design techniques to development of a large computer science project performed by students working in teams. Significant lab work required.

Prereq: CS 480 .

CS 499 (s) Directed Study

Credit arranged.

CS 500 Master's Research and Thesis

Credit arranged.

CS 501 (s) Seminar

Credit arranged.

CS 502 (s) Directed Study

Credit arranged.

CS 504 (s) Special Topics

Credit arranged.

CS 505 (s) Professional Development

Credit arranged.

CS 510 Programming Language Theory

3 credits

Advanced topics in programming language theory including formal syntax, formal semantics, denotational semantics, and type theory; principles of programming language design are stressed; not a comparative language class. Cooperative: open to WSU degree-seeking students.

Coreq: CS 385 or Equivalent.

CS 511 Parallel Programming

3 credits

Joint-listed with CS 411

Analysis, mapping, and the application of parallel programming software to high-performance systems; the principles of spatial- and temporal-locality of data memory hierarchies in performance tuning; architectural considerations in the design and implementation of a parallel program; the tradeoff between threaded (shared memory) and message-passing (distributed memory) programming styles and performance. Additional projects/assignments required for graduate credit. Recommended Preparation: Proficiency in programming using a modern language such as C or C++.

Prereq: CS 395.

CS 512 Parallel Algorithms

3 credits

Parallel algorithm design; formal analysis of parallel algorithmic complexity; measures of parallel efficiency; relationship between algorithmic structure and parallel mapping strategies; the consequences of spatial- and temporal-locality. Additional projects/assignments required for graduate credit.

Prereq: CS 395.

CS 515 Computational Biology: Sequence Analysis

3 credits

Joint-listed with CS 415

Design and analyze algorithms that address the computational problems posed by biological sequence data, such as DNA or protein sequences. Topics may include: comparing sequences (from genes to genomes), database searching, multiple sequence alignment, phylogenetic inferencing, gene discovery and annotation, and genome assembly. Additional class presentation and/or paper required for graduate credit.

Prereq: Knowledge of high level programming language, basic probability theory, basic molecular biology, or Permission.

CS 520 Data Communication Systems

3 credits

Joint-listed with CS 420.

Concept and terminology of data communications, equipment, protocols (including ISO/OSI and TCP/IP), architectures; transmission alternatives, regulatory issues and network management. Additional projects/ assignments reqd for grad cr.

Prereq: CS 150 and CS 240 .

CS 524 Advanced Computer Graphics

3 credits

Joint-listed with CS 424.

Graphical user interfaces; rendering for realism including shading, shadows and textures; fractals; raster displays, pixmaps, and antialiasing; 3D curves and surfaces; color theory; hidden surfaces; ray tracing; games. Additional work required for graduate credit. (Spring only)

Prereq: CS 324, MATH 175 .

CS 528 Multi-User Games and Virtual Environments

3 credits

Joint-listed with CS 428.

Software design and programming issues involved in constructing multi-user computer games and virtual environments, incorporating networking and 3D graphics. Additional projects and assignments are required for graduate credit.

Prereq: CS 210, CS 324, and CS 328 .

CS 531 (s) SFS Professional Development

1 credit

Joint-listed with CS 431.

CS 536 Advanced Information Assurance Concepts**3 credits**

Advanced topics in design and analysis of network, database, and operating system security; current trends and research in mandatory and discretionary security policies. Recommended preparation: CS 336.

CS 538 Network Security**3 credits**

Joint-listed with CS 438.

Practical topics in network security; policy and mechanism, malicious code; intrusion detection, prevention, response; cryptographic techniques for privacy and integrity; emphasis on tradeoffs between risk of misuse, cost of prevention, and societal issues; concepts implemented in programming assignments. Additional projects/assignments reqd for grad cr. Recommended Preparation: Knowledge of C or C++. CS 438 is a cooperative course available to WSU degree-seeking students.

Prereq: CS 336.

CS 539 Applied Security Concepts**3 credits**

Joint-listed with CS 539.

Hands-on approach to computer security with emphasis on developing practical knowledge of how cyber attacks work and how to defend against them. Detailed exploration of attacks such as buffer overruns, string attacks, worms, trojan horses, and denial-of-service attacks, and development of defenses against them. Additional work reqd for grad cr. Recommended preparation: Good knowledge of C, operating system concepts and Unix.

Prereq: CS 336 or Permission.

CS 541 Advanced Operating Systems**3 credits**

Principles of contemporary operating systems for network and distributed computer systems; sequential processes, scheduling, process synchronization, device management, file systems, memory management, and protection and security. Additional work required for graduate credit.

Prereq: CS 240.

CS 543 Embedded Systems**3 credits**

Joint-listed with CS 543

Interfacing to an embedded system processor. Development of the processor's hardware-software interface. Application software development. Use of C and assembly language in device driver design, monitor-debugger, and real-time kernel. Regular laboratory assignments. (Fall only)

Prereq: CS 383 .

CS 544 Control and Crit Infra Systems**1 credit**

Joint-listed with CS 444. Cross-listed with ECE 444, ECE 544.

Principles of network-based distributed real-time control and critical infrastructure systems. Integration of dedicated control protocols with wide area networks (e.g. the Internet). Issues of reliability, cost, and security. Application to selected industries, such as electric power distribution and waste and water management. Recommended preparation: ECE 340, CS 240, ME 313, CE 330, or CE 372. (Spring, alt/yr.)

Prereq: Senior or Graduate standing in the College of Engineering .

CS 547 Computer and Network Forensics**3 credits**

Joint-listed with CS 447

Competence in using established forensic methods in the handling of electronic evidence; rigorous audit/logging and date archival practices; prevention, detection, apprehension, and prosecution of security violators and cyber criminals; identifying and correcting computer vulnerabilities in a way that is smart, prudent, and responsible. Additional work required for graduate credit.

Prereq: CS 336 and Permission.

CS 548 Survivable Systems and Networks**3 credits**

Joint-listed with CS 448

Computers and networks under malicious threat or attack. Attributes of survivability, trustworthiness, dependability and assurance. Threats to survivability, security, reliability and performance. Models and analytical methods to assess survivability, vulnerability, interdependence and risk. Systemic inadequacies and approaches for overcoming deficiencies. Literature review and case studies. Additional projects/assignments required for graduate credit. Recommended Preparation: CS 449, CS 549 or CS 438.

CS 549 Fault/Tolerant Systems**3 credits**

Joint-listed with CS 449. Cross-listed with ECE 449.

Design, modeling, analysis and integration of hardware and software to achieve dependable computing systems employing on-line fault tolerance; theory and fundamental concepts of designing reliable systems; analytical evaluation techniques, faults and advances in ultra-reliable distributed systems, fault-tolerant software systems; case studies include the space Shuttle, Airbus, and Boeing fly-by-wire primary flight computers as well as systems in reliable data bases and financial markets. Additional projects and assignments reqd for grad cr.

Prereq: CS 240 or Permission.

CS 551 Advanced Computer Architecture**3 credits**

Joint-listed with CS 551. Cross-listed with ECE 441, ECE 541.

Principles and alternatives in instruction set design; processor implementation techniques, pipelining, parallel processors, memory hierarchy, and input/output; measurement of performance and cost/performance trade-off. Additional work required for graduate credit.

Prereq: CS 150, STAT 301 or Permission.

CS 552 Real Time Operating Systems**3 credits**

Joint-listed with CS 452

Topics of interest in the implementation of Real-Time Operating Systems, especially as applicable to embedded systems, including a relevant hardware review, interrupts and interrupt handling, real-time scheduling principles and implementation, latency, task management, shared data and synchronization, timers, message passing, tradeoffs between memory space and speed. Students will build a simple but relatively complete real-time operating system over the course of the semester. Additional projects and assignments are required for graduate credit. (Spring only)

Prereq: CS 240 .

CS 560 Database Management Systems Design

3 credits

Joint-listed with CS 460

Theory, analysis and implementation of database architecture, security, performance, query optimization, recovery and concurrency control, reliability, integrity, commit protocols, distributed processing, deadlock detection and management. Additional projects/assignments required for graduate credits.

Prereq: CS 360 .

CS 570 Artificial Intelligence

3 credits

Joint-listed with CS 470.

Concepts and techniques involved in artificial intelligence, Lisp, goal-directed searching, history trees, inductive and deductive reasoning, natural language processing, and learning. Extra term paper reqd for cr in CS 570.

Prereq: CS 210 .

CS 572 Evolutionary Computation

3 credits

Joint-listed with CS 472

Solving computation problems by "growing" solutions; simulates natural evolution using analogues of mutation, crossover, and other generic transformations on representations of potential solutions; standard EC techniques such as genetic algorithms and evolutionary programming, mathematical explanations of why they work, and a survey of some applications; the focus is on solving real-world problems using projects. Graduate-level research and possible paper or presentation required for grad cr.

Prereq: CS 210 .

CS 575 Machine Learning

3 credits

Joint-listed with CS 475.

Analysis and implementation of classic machine learning algorithms including neural networks, deep learning networks, principle component analysis, decision trees, support vector machines, clustering, reinforcement learning, ensemble learning, K-means, self-organizing maps and probabilistic learning such as Markov Chain Monte Carlo and Expectation Maximization algorithms. Techniques of preprocessing data, training, testing, and validating will be discussed along with statistical measures commonly used and pitfalls commonly encountered. Additional work required for graduate credit.

Prereq: CS 210 .

CS 578 Neural Network Design

3 credits

Cross-listed with ECE 578 and ME 578.

Introduction to neural networks and problems that can be solved by their application; introduction of basic neural network architectures; learning rules are developed for training these architectures to perform useful functions; various training techniques employing the learning rules discussed and applied; neural networks used to solve pattern recognition and control system problems.

Prereq: Permission.

CS 579 Data Science

3 credits

Joint-listed with CS 479

Data science is advancing the conduct of science in individual and collaborative works. Data science combines aspects of data management, library science, computer science, and physical science using supporting cyberinfrastructure and information technology. Key methodologies in application areas based on real research experience are taught to build a skill-set that enables students to handle each stage in a data lifecycle, from data collection, analysis, archiving, to data discovery, access and reuse. Additional work required for graduate credit.

Prereq: MATH 330 or permission .

CS 580 Graduate Project

1-6 credits, max 6)

Application of formal design and documentation techniques to the development of computer programming project; project selected in consultation with student's major professor.

Prereq: CS 383, CS 480 or Permission.

CS 598 (s) Internship

Credit arranged.

CS 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation. (There is a limit on the number of credits in 599 that can be included on a study plan.)

Prereq: Permission.

CS 600 Doctoral Research and Dissertation

Credit arranged.

CORE SCIENCE (CORS)

CORS 205-297 Integrated Science

Credit arranged

Gen Ed: Natural and Applied Sciences

An interdisciplinary, thematically based course intended to provide the student with the skills to analyze and evaluate scientific claims and to make intelligent scientific and social decisions; among the topics addressed are the impact of science on society and the ethical dilemmas and moral consequences of scientific research; all themes/sections emphasize discussion, collaborative work, and the conduct of science, though not necessarily in a formal lab setting. See www.uidaho.edu/class/general-education for specific course titles and descriptions.

DANCE (DAN)

DAN 100 Dance in Society

3 credits

Gen Ed: Humanities

Introduction to dance as an art form, as entertainment, and as a lifelong activity; emphasis on appreciation and understanding of movement as an expression of human values, genres and historical styles, factors affecting change, current issues.

DAN 101 Dance Seminar

1 credit

Introductory seminar course supports student transitions to dance at the university level. (Fall Only)

Prereq: Major or minor in Dance .

DAN 105 (s) Dance

1 credit, max arranged

Dance activity classes for all university students (modern, ballet, hip hop, jazz, tap, and a variety of social dance: ballroom, Latin dance, swing, country western, etc.). Courses above a beginning level may require placement session or assessment by instructor to determine the correct course level. Two-three hours per week. Pass/Fail. Cooperative: open to WSU degree-seeking students.

DAN 116 (s) Technique

1 credit, max arranged)

Joint-listed with DAN 216, DAN 416 and DAN 516

Theory and techniques in ballet, modern, jazz, and other idioms. DAN 216 (intermediate) or 416 (advanced) courses are designed for dance majors and minors. DAN 116 courses are for non-majors/minors, often meeting jointly with 216 or 416 courses. Additional requirements for 216/416 students include higher expectations for growth, performance, and attendance. Additional project/assignment required for graduate credit (DAN 516). For entrance into intermediate and advanced courses (116, 216, 416, and 516) students must participate in placement session (required for majors/minors) to determine correct level. Cooperative: open to WSU degree-seeking students. Additional work required for graduate credit.

DAN 200 (s) Seminar

Credit arranged.

DAN 203 (s) Workshop

Credit arranged.

DAN 204 (s) Special Topics

Credit arranged.

DAN 210 Dance Performance

1-2 credits, max 12

Open to all students by audition. Performance in advanced student choreography in formal performance; Choreography Lab (fall alt.) and Dancers, Drummers, Dreamers (spring). Dance styles may include modern, jazz, ballet, tap. Company class plus additional weekly rehearsals and production tasks lead to performance. Variable credit dependent on number of choreographic work commitments, maximum of 2 works (1 cr per work). See class schedule for audition dates. Recommended Preparation: dance experience.

Coreq: DAN 105 or DAN 216 or DAN 416 .

DAN 211 Dance Conditioning

1 credit

Learn and apply current conditioning and cross-training tools and practices designed to support the training of the 21st century dancer. Students can expect to learn more about the dancing body with anatomical references, individuals needs to support a long and healthy dance career, general fitness components, and current trends in dance conditioning.

DAN 216 (s) Technique

1 credit, max arranged

Joint-listed with DAN 116, DAN 416 and DAN 516

Theory and techniques in ballet, modern, jazz, and other idioms. DAN 216 (intermediate) or 416 (advanced) courses are designed for dance majors and minors. DAN 116 courses are for non-majors/minors, often meeting jointly with 216 or 416 courses. Additional requirements for 216/416 students include higher expectations for growth, performance, and attendance. Additional project/assignment required for graduate credit (DAN 516). For entrance into intermediate and advanced courses (116, 216, 416, and 516) students must participate in placement session (required for majors/minors) to determine correct level. Cooperative: open to WSU degree-seeking students. Additional work required for graduate credit.

DAN 284 Dance Improvisation

1 credit

Exploration of movement potential through creative play and spontaneous problem solving. Course designed to enhance self-awareness and ability to react and make choices. Emphasizes improvisation as a mode of performance and as a tool for dance movement creation. Open to all students.

DAN 299 (s) Directed Study

Credit arranged.

DAN 321 Dance Pedagogy

3 credits

Learning styles, teaching styles, and behaviors as they affect teaching and learning in dance; science of dance training.(Alt/yrs)

DAN 324 Integrated Movement Practices

3 credits

Joint-listed with DAN 524

This course aims to enhance anatomical knowledge and experiential understanding of the body with specific applications to dance and other movement practices. Anatomical terminology will be studied and applied to movement explorations in the dance studio laboratory setting, frequently utilizing methodologies found in somatic practices. Students will be expected to engage deeply and personally with course material. Those taking the course for graduate credit will be expected to complete an additional specialized research paper and presentation. (Alt/yrs)

DAN 360 Teaching Creative Dance for Children

1 credit

Basic principles and techniques rooted in developmental movement patterns for teaching dance in early childhood through middle school age children and integrating creative movement and dance into the curriculum and other course subjects; emphasis on content, methods, and resource material. As a service learning based course, students will complete a practicum project in the local school district. Lecture and lab are integrated in class, once a week.

Prereq: EDCI 301 or MVSC 201 or permission

Coreq: EDCI 320 and EDCI 322 and EDCI 325 and EDCI 409; or permission .

DAN 384 Dance Composition I**3 credits**

Study of fundamental elements of dance composition and application of improvisation skills to movement creation. Additional movement research projects/assignments for graduate students will be individually directed and determined with instructor guidance. Majors and minors have priority, non-majors/minors may take the course by instructor permission. (Spring only)

Prereq: DAN 284.

DAN 385 Dance Composition II**3 credits**

Intermediate to advanced exploration of choreographic procedures and performance. (Fall, Alt/yr)

Prereq: DAN 284 and DAN 384 .

DAN 400 (s) Seminar

Credits arranged.

DAN 403 (s) Workshop

Credit arranged.

DAN 404 (s) Special Topics

Credit arranged.

DAN 410 Pre-professional Dance Performance**1-3 credits, max 12**

All students may audition for faculty choreographed and formally produced work; casting priority given to majors and minors. Focus is placed on involvement in the rehearsal and choreographic process. Regular weekly rehearsals required in addition to involvement in company production needs and technical rehearsals. Variable credit dependent on number of choreographic work commitments, maximum of 3 works (1 credit per work). See class schedule for audition dates.

Prereq: Two semesters of DAN 210; or Permission

Coreq: Minimum of two DAN 216 or DAN 416 courses .

DAN 412 Choreography Lab**2 credits, max 6**

Independent work on advanced levels of choreography leading to formally produced concerts. Develop and refine practical skills as well as personal approaches to choreographic process. Practice leadership in rehearsal direction and production management (Every Spring; Fall Alt/yr)

Prereq: DAN 284, DAN 384 and DAN 385 .

DAN 416 (s) Technique**1 credit, max arranged)**

Joint-listed with DAN 116, DAN 216 and DAN 516

Theory and techniques in ballet, modern, jazz, and other idioms. DAN 216 (intermediate) or 416 (advanced) courses are designed for dance majors and minors. DAN 116 courses are for non-majors/minors, often meeting jointly with 216 or 416 courses. Additional requirements for 216/416 students include higher expectations for growth, performance, and attendance. Additional project/assignment required for graduate credit (DAN 516). For entrance into intermediate and advanced courses (116, 216, 416, and 516) students must participate in placement session (required for majors/minors) to determine correct level. Cooperative: open to WSU degree-seeking students. Additional work required for graduate credit.

DAN 421 Dance History and Contemporary Views**3 credits**

Development of dance as a performing art from lineage-based to contemporary styles building upon course topics covered in Dance in Society, Dan 100. Emphasis will be placed on 20th and 21st century developments in dance with a focus on ballet and modern. Students registering for graduate credit are required to complete additional research paper make two substantial presentations synthesizing overriding concepts within a historical concept. (Alt/yr)

Prereq: DAN 100 .

DAN 422 Labanalysis**3 credits**

Joint-listed with DAN 522

An exploration of movement concepts based on Rudolf Laban's principles of Efforts, Shape, and Space. Additional projects/assignments will be included for graduate students. (Spring, Alt/yr)

DAN 490 Senior Project**2 credits**

Open-ended projects representing the capstone of the student's work, consistent with the chosen emphasis within the dance degree (e.g., concerts of original work, a major choreographic work, major performance, teaching or research projects).

Prereq: Senior standing and Major in Dance .

DAN 495 (s) Practicum In Tutoring**1 credit, max 2**

Tutorial services performed by advanced students under faculty supervision. Graded P/F.

Prereq: Permission.

DAN 499 (s) Directed Study

Credit arranged.

DAN 502 (s) Directed Study

Credit arranged.

DAN 503 (s) Workshop

Credit arranged.

DAN 504 (s) Special Topics

Credit arranged.

DAN 505 (s) Professional Development

Credit arranged.

DAN 516 (s) Technique**1 credit, max arranged)**

Joint-listed with DAN 116, DAN 216 and DAN 416

Theory and techniques in ballet, modern, jazz, and other idioms. DAN 216 (intermediate) or 416 (advanced) courses are designed for dance majors and minors. DAN 116 courses are for non-majors/minors, often meeting jointly with 216 or 416 courses. Additional requirements for 216/416 students include higher expectations for growth, performance, and attendance. Additional project/assignment required for graduate credit (DAN 516). For entrance into intermediate and advanced courses (116, 216, 416, and 516) students must participate in placement session (required for majors/minors) to determine correct level. Cooperative: open to WSU degree-seeking students. Additional work required for graduate credit.

DAN 522 Labanalysis**3 credits**

Joint-listed with DAN 422

An exploration of movement concepts based on Rudolf Laban's principles of Efforts, Shape, and Space. Additional projects/assignments will be included for graduate students. (Spring, Alt/yr)

DAN 524 Integrated Movement Practices

3 credits

Joint-listed with DAN 324

This course aims to enhance anatomical knowledge and experiential understanding of the body with specific applications to dance and other movement practices. Anatomical terminology will be studied and applied to movement explorations in the dance studio laboratory setting, frequently utilizing methodologies found in somatic practices. Students will be expected to engage deeply and personally with course material. Those taking the course for graduate credit will be expected to complete an additional specialized research paper and presentation. (Alt/yrs)

ECONOMICS (ECON)

Notes: No course (CBE or outside the college) that is required in a CBE student's curriculum may be taken by CBE undergraduates on a P/F basis, with the exception of courses that are taught only on a P/F basis.

Only upper-division CBE courses used as free electives may be taken by CBE undergraduates on a P/F basis.

The combination of credits for ECON 201, ECON 202, and ECON 272 may not exceed 6 credits.

Prerequisite: Enrollment in 300- and 400-level economics courses is restricted to students who have completed at least 58 credits. In addition, CBE students must have earned at least a 2.4 GPA in the CBE predictor courses. Students who have not completed the prerequisites to a course for which they are otherwise eligible may register for the course with the instructor's approval.

ECON 201 Principles of Macroeconomics

3 credits

Gen Ed: Social Science

ECON 201 and ECON 202 may be taken in either order. Organization and operation of American economy; supply and demand, money and banking, macroeconomic analysis of employment, aggregate output and inflation, public finance, and economic growth. ECON 201 or ECON 202 carry only two credits after ECON 272. May involve some evening exams.

ECON 202 Principles of Microeconomics

3 credits

Gen Ed: Social Science

ECON 201 and ECON 202 may be taken in either order. Microeconomic principles governing production, price relationships, and income distribution. ECON 201 or ECON 202 carry only two credits after ECON 272. May involve some evening exams.

ECON 204 (s) Special Topics

Credits arranged).

ECON 272 Foundations of Economic Analysis

4 credits

Gen Ed: Social Science

One-semester introductory course on the principles of economics, covering both micro- and macro- concepts, theory, analysis, and applications. May involve evening exams. Carries no credit after ECON 201 and ECON 202; carries 3 credits after either ECON 201 or ECON 202. Students who have successfully completed this course, have not completed ECON 340, and later decide to major in economics are required, in consultation with the advisor, to take either ECON 201 or ECON 202 for 2 credits.

ECON 298 (s) Internship

Credits arranged.

ECON 299 (s) Directed Study

Credits arranged.

ECON 340 Managerial Economics

3 credits

May only be repeated once. Student may petition to repeat a second time in consultation with the Dean and course faculty team. This course covers the fundamental economic principles in applied business decisions from both micro and macroeconomic perspectives.

Prereq: ECON 201 and ECON 202, or ECON 272 .

ECON 343 Money and Banking

3 credits

Influence of money and banking on economic activity; influence of monetary policies to achieve society's economic goals. May include evening exams.

Prereq: ECON 201 and ECON 202, or ECON 272.

ECON 351 Intermediate Macroeconomic Analysis

3 credits

Theory of the economy as a whole; national income accounting as a tool of analysis; national output and income, employment, price levels, and growth. May include evening exams.

Prereq: ECON 201 and ECON 202, or ECON 272, or Permission.

ECON 352 Intermediate Microeconomic Analysis

3 credits

Theory of the consumer, firm, industry, market, price determination, and allocation of productive resources.

Prereq: ECON 201 and ECON 202, or ECON 272 or Permission .

ECON 385 Environmental Economics

3 credits

Cross-listed with AGECE 385

Theory of externalities and public goods, and application of economic principles to environmental issues.

Prereq: ECON 202 or ECON 272 or Permission .

ECON 398 (s) Economics Internship Program

1-3 credits, max 6)

Enrollment restricted to economics majors; may not be used to fulfill upper-division economics requirement in any of the three economics degree programs. Graded P/F. Relevant learning experience in business and government.

Prereq: Permission.

ECON 400 (s) Seminar

Credit arranged.

ECON 404 (s) Special Topics

Credit arranged.

ECON 407 Public Finance

3 credits

Role of government in a market economy; public choice and collective decision-making; tax-shifting and incidence; structure and economics of federal taxes; governmental budgeting; public debt; special topics.

Prereq: ECON 201 and ECON 202, or ECON 272 .

ECON 415 Market Structure and Governmental Policy

3 credits

Analysis of economic behavior under different market structures, e.g., competition, monopoly, oligopoly, monopsony, oligopsony, bilateral monopoly and cartels; theory of contestable markets; antitrust; regulation; selected case studies.

Prereq: ECON 202 or ECON 272 or Permission.

ECON 441 Labor Economics

3 credits

Structure and composition of the labor force, wages and employment, human resources, income-maintenance program, and related policy issues.

Prereq: ECON 201 and ECON 202, or ECON 272.

ECON 446 International Economics

3 credits

Gen Ed: International

Analysis of international trade and financial transactions; trade policy; foreign exchange markets; adjustment processes; and international monetary system. May include evening exams.

Prereq: ECON 201 and ECON 202, or ECON 272 .

ECON 447 International Development Economics

3 credits

Gen Ed: International

Same as AGE 447 and LAS 447. Characteristics of development; historical perspective; macroeconomic theories and policies: models of growth, poverty, inequality, trade, aid and debt; microeconomic theories and policy: health, nutrition and education, agriculture, rural markets for land, labor and credit, and corruption

Prereq: ECON 201 and ECON 202, or ECON 272, or Permission .

ECON 453 Econometrics

3 Credits

Cross-listed with STAT 433

Application of statistical methods to economics and business studies; emphasis on regression analysis methods.

Prereq: STAT 251 or STAT 301.

ECON 490 Economic Theory and Policy

3 credits

Gen Ed: Senior Experience

A capstone course for economics majors. Integrates theory, quantitative methods, and policy in the economics major; will involve independent research projects.

Prereq: ECON 351, ECON 352, and ECON 453 .

ECON 499 (s) Directed Study

Credit arranged.

ECON 500 Master's Research and Thesis

Credit arranged.

ECON 501 (s) Seminar

Credit arranged.

ECON 502 (s) Directed Study

Credit arranged.

ECON 504 (s) Special Topics

Credit arranged.

ECON 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ED-CURRICULUM & INSTRUCTION (EDCI)

EDCI 200 (s) Seminar
Credit arranged.

EDCI 201 Contexts of Education
3 credits

Introduction to the philosophical, social, cultural, historical, legal and political contexts of schooling. Develops an understanding of the sources of curriculum, standards, and assessments. Explores what it means to become a successful teacher committed to student success through the development of observation and analysis skills. Requires additional 20 hours of service learning.

EDCI 203 (s) Workshop
Credit arranged.

EDCI 204 (s) Special Topics
Credit arranged.

EDCI 298 (s) Internship
Credit arranged.

EDCI 299 (s) Directed Study
Credit arranged
Graded P/F.
Prereq: Permission.

EDCI 301 Lrng, Dvlpmnt, & Assessment
3 credits

Gen Ed: Social Science

Exploration of theories of learning and human development and the use of this knowledge to support student success in classroom settings. Provides a practical understanding of motivation as a classroom management tool. Develops a fundamental understanding of assessment terminology; the uses of assessment and its relationship to student success.

EDCI 302 Teaching Culturally Diverse Learners
4 credits

Gen Ed: American Diversity

An examination of cultural and linguistic diversity in classrooms. Explores strategies for creating the culturally inclusive classroom that values diversity and supports student success. Examines the use of instructional planning as a tool for motivation and classroom management. Includes 45 hours of practicum in K-12 classrooms.
Prereq: EDCI 301 or FCS 234; and admission to teacher education program .

EDCI 320 Teaching Reading and Literacy
3 credits

Foundations of literacy and the methods and strategies involved in the teaching of reading. Topics include: phonological awareness, phonemic awareness, and phonics; vocabulary; fluency; comprehension.
Prereq: EDCI 302 or Permission
Coreq: EDCI 322, EDCI 325, EDCI 409 and DAN 360; or Permission .

EDCI 321 Literature for Children
3 credits

Specific methods, research, curricula, and technology in teaching Children's Literature for diverse populations. Facilitating of understanding content, curriculum, methods and assessment in an integrated setting.
Prereq: EDCI 302 or Permission .

EDCI 322 Teaching Writing/Language Arts
3 credits

Teaching communication, including listening and speaking, and the teaching and evaluation of writing. Topics include principles, problems, methods, and strategies for promoting the ability to communicate with an emphasis on the development of the writer. Other topics include vocabulary; spelling; grammar; fluency.
Prereq: EDCI 302 or Permission
Coreq: EDCI 320, EDCI 325, EDCI 409, and DAN 360; or Permission .

EDCI 325 Elementary Art Education
3 credits

Specific methods, research, curricula, and technology in teaching elementary art for diverse populations. Facilitation of understanding content, curriculum, methods and assessment in an integrated setting.
Prereq: EDCI 302 or Permission
Coreq: EDCI 320, EDCI 322, EDCI 409, and DAN 360; or Permission .

EDCI 327 Elementary Math Education
3 credits

Specific methods, research, curricula, and technology in teaching elementary mathematics for diverse populations. Facilitation of understanding content, curriculum, methods and assessment in an integrated setting.
Prereq: EDCI 302 and MTHE 235 and MATH 236 or MTHE 301; or Permission
Coreq: EDCI 328, EDCI 329, EDCI 408 and EDCI 410; or Permission.

EDCI 328 Elementary Social Studies Educ
3 credits

Specific methods, research, curricula, and technology in teaching elementary social studies for diverse populations. Facilitation of understanding content, curriculum, methods and assessment in an integrated setting.
Prereq: EDCI 302 or Permission
Coreq: EDCI 327, EDCI 329, EDCI 408 and EDCI 410; or Permission .

EDCI 329 Elementary Science Educatn
3 credits

Specific methods, research, curricula, and technology in teaching elementary science for diverse populations. Facilitation of understanding content, curriculum, methods and assessment in an integrated setting.
Prereq: EDCI 302 or Permission
Coreq: EDCI 327, EDCI 328, EDCI 408 and EDCI 410; or Permission .

EDCI 400 (s) Seminar
Credit arranged.

EDCI 401 Internship Seminar
1 credit

Gen Ed: Senior Experience

A review of the professional commitments and responsibilities and the interactions and partnerships that support student learning and well-being.
Coreq: EDCI 483, EDCI 484, EDCI 485, CTE 484, AGED 460, MUST 432, or PEP 484; or Permission .

EDCI 402 Practicum
Credit arranged.

EDCI 403 (s) Workshop
Credit arranged.

EDCI 404 (s) Special Topics
Credit arranged.

EDCI 405 (s) Professional Development

Credit arranged

Joint-listed with EDCI 505

Professional development and enrichment of certificated school personnel. Cr earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/assignments reqd for grad cr.

EDCI 408 Integrated Methods Practicum I

1 credit

Implementation of mathematics/science/social studies methods, research, curricula, and technology in elementary classrooms. Course will include 30 hours in K-8 classrooms and 15 hours of associated scheduled activities.

Prereq: EDCI 302 or Permission

Coreq: EDCI 327, EDCI 328, EDCI 329 and EDCI 410; or Permission .

EDCI 409 Integrated Methods Practicum II

1 credit

Implementation of literacy and arts methods, research, curricula, and technology in elementary classrooms. Course will include 30 hours in K-8 classrooms and 15 hours of associated scheduled activities.

Prereq: EDCI 302 or Permission

Coreq: EDCI 320, EDCI 322, EDCI 325, and DAN 360; or Permission .

EDCI 410 Technology, Teaching and Learning

2 credits

Specific methods, research, and strategies providing proficiency in relevant technology skills and practices to enhance classroom management and instruction. Recommended coreq in Elementary Education Program only EDCI 327, EDCI 328, EDCI 329 and EDCI 408.

Prereq or Coreq: EDCI 302 or Permission .

EDCI 411 Geometry, Measurement, and Trigonometry

3 credits

Examines topics in measurement, geometry, and trigonometry and the way that grade 5-10 students develop an understanding of these ideas. Emphasis will be placed on recent and seminal research on learning and teaching geometry to develop mathematical practice as described in CCSS-M, especially for topics such as symmetry, congruence and similarity, right triangle trigonometry, transformations, unit, and partitioning of space. Particular emphasis will be placed on extended tasks that expose learners to investigation, conjecture, argumentation, and incorporating dynamic software. Does not count toward mathematics MAT or MS graduate programs.

Preq: MTHE 236 and admission to Teacher Education; or instructor permission.

EDCI 413 Data Analysis and Probability

3 credits

Examines the understandings that are foundational to probability and data analysis, and how grade 5-10 students develop these ideas. Topics include experimental and theoretical probability, sample space, independent and dependent events, measures of central tendency and spread, and data representations. Emphasis will be on proof and argumentation and modeling with mathematics to draw conclusions, on the specialized mathematics knowledge for teaching, and how engagement in this content exemplifies the mathematical practices expressed in CCSS-M.

EDCI 416 Proportional and Algebraic Reasoning

3 credits

This course examines topics related to the development and application of reasoning with proportional quantities, and how students develop an understanding of these, application of rational number and operations, and how grade 5-10 students develop algebraic reasoning from arithmetic thinking, by abstracting from computation and working with generalized numbers. Topics include comparison, ratio, proportion, rate, equality and relational thinking, generalizing, patterns, and modeling. Emphasis will be on modeling with mathematics to analyze problems, reasoning abstractly and quantitatively, looking for and making sense of structure, proof and argumentation, the specialized mathematics knowledge needed for teaching these topics, and on how engagement in this content exemplifies the mathematical practices expressed in CCSS-M.

EDCI 431 Secondary English Methods

3 credits

Specific methods, research, curricula, and media in teaching Secondary English Methods. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 441 .

EDCI 432 Secondary Social Studies Methods

3 credits

Specific methods, research, curricula, and media in teaching Secondary Social Studies Methods. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 442 .

EDCI 433 Secondary Science Methods

3 credits

Specific methods, research, curricula, and media in teaching Secondary Science Methods. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 443 .

EDCI 434 Secondary Mathematics Methods

3 credits

Specific methods, research, curricula, and media in teaching Secondary Mathematics Methods. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 454 .

EDCI 436 Secondary Art Methods

3 credits

Specific methods, research, curricula, and media in teaching Secondary Art Methods. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 446 .

EDCI 437 Secondary Foreign Language Methods

3 credits

Specific methods, research, curricula, and media in teaching Secondary Foreign Language.

Prereq: EDCI 302 or Permission

Coreq: EDCI 447 .

EDCI 441 Secondary English Practicum

1 credit

Implementation of Secondary English methods, research, curricula and technology in secondary classrooms. Course will include 30 hours in grade 6-12 classrooms and 15 hours of associated scheduled activities. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 431 .

EDCI 442 Secondary Social Studies Methods Practicum**1 credit**

Implementation of secondary social studies methods, research, curricula and technology in secondary classrooms. Course will include 30 hours in grade 6-12 classrooms and 15 hours of associated scheduled activities. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 432 .

EDCI 443 Secondary Science Methods Practicum**1 credit**

Implementation of secondary science language methods, research, curricula and technology in secondary classrooms. Course will include 30 hours in grade 6-12 classrooms and 15 hours of associated scheduled activities. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 433 .

EDCI 446 Secondary Art Methods Practicum**1 credit**

Implementation of secondary art methods, research, curricula and technology in secondary classrooms. Course will include 30 hours in grade 6-12 classrooms and 15 hours of associated scheduled activities. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 436 .

EDCI 447 Secondary Foreign Language Methods Practicum**1 credit**

Implementation of secondary foreign language methods, research, curricula and technology in secondary classrooms. Course will include 30 hours in grade 6-12 classrooms and 15 hours of associated scheduled activities. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 437 .

EDCI 448 Introduction to ENL**3 credits**

Joint-listed with EDCI 548

In this course, students will be introduced to the evolution, research, and current federal and state legal mandates of ENL education, the processes of language acquisition and development, and the role that culture plays in students' educational experiences. The students will begin to apply Language Acquisition Theory to their lesson planning, aligning their instruction to ELD and CCSSl.

EDCI 449 ENL Methods**3 credits**

Joint-listed with EDCI 549

In this course, students will learn how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards. Students will learn how to measure the level of English Language Proficiency, become familiar with the state English Language Proficiency assessment, and learn how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students' families, and to colleagues.

Prereq for EDCI 449: EDCI 448

Prereq for EDCI 549: EDCI 548 .

EDCI 453 Phonics, Phonological Awareness, Fluency, and Assessment**1 credit**

Specific methods, research, and strategies providing competency in phonological awareness, phonics, fluency, and assessments and intervention strategies.

Prereq or Coreq: EDCI 302 or MUST 383; or Permission .

EDCI 454 Secondary Mathematics Methods Practicum**1 credit**

Implementation of secondary mathematics methods, research, curricula and technology in secondary classrooms. Course will include 30 hours in grade 6-12 classrooms and 15 hours of associated scheduled activities. (Fall only)

Prereq: EDCI 302 or Permission

Coreq: EDCI 434 .

EDCI 463 Literacy Methods for Content Learning**3 credits**

Joint-listed with EDCI 563

Theory of and practical strategies for extending and reinforcing student learning of subject matter through reading and writing. Additional projects/assignments reqd for grad cr.

Prereq or Coreq: EDCI 302 or MUST 383.

EDCI 466 Literacy Assessment and Intervention**3 credits**

Various assessment issues and procedures appropriate for monitoring student progress in reading and writing in the classroom; instructional methods for assisting readers at-risk. Recommended Preparation: EDCI 320 or EDCI 463.

EDCI 483 Elementary Internship I**7-14 credits**

Guided observation, supervised instruction and comprehensive team and independent teaching in school settings with a discipline-specific and integrated pedagogical focus. Graded P/F.

EDCI 484 (s) Elementary Internship II**15 credits**

Guided observation, supervised instruction, and comprehensive team and independent teaching in school settings.

Prereq: Permission of division and EDCI 483.

EDCI 485 (s) Secondary Internship**15 credits**

Gen Ed: Senior Experience

Guided observation, supervised instruction, and comprehensive team and independent teaching in school settings. Graded P/F. Recommended Preparation: integrated course work.

Coreq: EDCI 401 and Permission of Department .

EDCI 498 (s) Internship

Credit arranged.

EDCI 499 (s) Directed Study

Credit arranged.

EDCI 500 Master's Res & Thesis

Credit arranged.

EDCI 501 (s) Seminar

Credit arranged.

EDCI 502 (s) Directed Study

EDCI 503 (s) Workshop

Credit arranged.

EDCI 504 (s) Special Topics

Credit arranged.

EDCI 505 (s) Professional Development

Credit arranged

Joint-listed with EDCI 405

Professional development and enrichment of certificated school personnel. Cr earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/assignments reqd for grad cr.

EDCI 509 Math Education Seminar

1 credit, max 6)

This weekly seminar will examine current research and theory in mathematics education. Participants will read, analyze, and discuss current research and theory articles. Participants will take an active role in discussions, including leadership of seminar discussions. Pass/Fail grading only.

EDCI 510 Ed Persp:Theory/Policies/Pract

3 credits

Overview of educational issues historically grounded and currently relevant to policies and practices in school settings; examination of how beliefs and practices are constructed and challenged from various philosophical frameworks applied to knowledge bases, administrative models, and developmental theories of learning.

EDCI 511 Planning and Administering the Curriculum

3 credits

Management skills, concepts, and information needed to administer a district-wide curriculum; audits and other evaluations as part of the curriculum or program development cycle; duties and responsibilities of curriculum developers from a standpoint of several possible roles and assignments; criteria and basic concepts for an audit, including essential curriculum management components, alignment, quality control, standards, and data sources.

EDCI 513 History of Educational Thought

3 credits

Writings that have influenced educational theory and practice.

EDCI 514 Creativity and Critical Thinking Skills for Gifted and Talented Students

3 credits

This course is designed to develop the knowledge of critical thinking and creativity; awareness of cognitive and affective characteristics of creativity and critical thinking skills and how to foster and assess those skills within the Gifted/Talented population.

EDCI 515 Social and Emotional Needs of Gifted/Talented Students

3 credits

This course is designed to examine the social-emotional characteristics of G/T students and to explore the relationship between the intellect and emotions of this special population.

EDCI 516 (s) College Teaching

1-2 credits, max 2

Techniques for effective teaching at college level.

EDCI 517 Curriculum and Instruction for Gifted and Talented Education

3 credits

This course is designed to develop knowledge of Instructional Management Strategies for Differentiation of Instruction, Assessment, Curriculum Design including models and technologies, talent areas and connection with Administrative (Curriculum) Plans in the field of G/T Education.

EDCI 519 Foundations of Gifted/Talented Education

3 credits

This course is designed to develop knowledge of the philosophy, rationale, and historical perspectives of Gifted and Talented education.

EDCI 520 Critical Issues in Education

3 credits

This course helps students understand contemporary policy trends and research that are helping to shape the American educational landscape and encourages them to reflect on the meaning of education and schooling in a diverse society and to examine the moral and ethical responsibilities of teaching in a democracy.

EDCI 521 Teachers as Leaders

3 credits

Specific methods, research, and strategies providing proficiency in relevant technology skills and practices to enhance classroom management and instruction.

EDCI 524 Models of Teaching

3 credits

Examination of information processing, social interaction, personal, and behavioral models of teaching; emphasis on practical implementation of these models in teaching situations.

EDCI 526 Advanced Educational Psychology

3 credits

Examination of selected psychological theories as applied to classroom management, values education, instructional and motivational strategies, learning and cognitive styles, gender differences, and related educational research.

Prereq: EDCI 301 or Permission .

EDCI 531 Mathematics Education

3 credits

Students will examine relevant research and practical knowledge shared by the mathematics education community. Includes the examination of history, theoretical perspectives, student learning, and pedagogy. (Summer Only)

EDCI 533 Educational Policy and Strategic Planning

3 credits

This course is designed to introduce students to educational policy, the intergovernmental system of education in the US and some of the major issues and challenges confronting US policymakers. This seminar will increase students' understanding of the complexities of educational policy and to assist them in becoming effective leaders and practitioners who inform, shape, and implement education policy. This course has a particular focus federal and state policy in education. We will begin by examining standards-based, market-driven and professionally led models of reform, looking at their underlying theories of change, implementation challenges and the critiques leveled against these approaches.

EDCI 534 Schools as Organizations

3 credits

The purpose of this course is to examine the evolution of the "public school" in American society and culture, and then to examine the global competitive forces that are reshaping and driving the evolution of schools in America. We try to understand the role of the school; how schools and educational systems have changed over time; how comparative systems of education have defined their schools/school systems; and finally, we investigate how we can better organize educational systems, schools, and classrooms to address issues of justice, equity, and humanity.

EDCI 535 NBPTS Certification I**1-3 credits, max arranged**

An overview of the National Board for Professional Teaching Standards (NBPTS) certification process and a framework for completion of requirements for National Board certification; gaining an understanding of the purpose of NBPTS certification by reviewing the history of the NBPTS certification process; students examine NBPTS standards and portfolio guidelines for their area of certification and receive guidance and consultation in gathering, organizing, and writing documentation required for the NBPTS portfolio.

EDCI 536 NBPTS Certification II**1-3 credits, max arranged**

Continuation of EDCI 535. Students will complete the requirements for National Board certification, submit a complete portfolio, and prepare to take the assessment center exercises.

Prereq: EDCI 535 .

EDCI 548 Introduction to ENL**3 credits**

Joint-listed with EDCI 448

In this course, students will be introduced to the evolution, research, and current federal and state legal mandates of ENL education, the processes of language acquisition and development, and the role that culture plays in students' educational experiences. The students will begin to apply Language Acquisition Theory to their lesson planning, aligning their instruction to ELD and CCSSl.

EDCI 549 ENL Methods**3 credits**

Joint-listed with EDCI 449

In this course, students will learn how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards. Students will learn how to measure the level of English Language Proficiency, become familiar with the state English Language Proficiency assessment, and learn how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students' families, and to colleagues.

Prereq for EDCI 449: EDCI 448

Prereq for EDCI 549: EDCI 548.

EDCI 563 Literacy Methods for Content Learning**3 credits**

Joint-listed with EDCI 463

Theory of and practical strategies for extending and reinforcing student learning of subject matter through reading and writing. Additional projects/assignments reqd for grad cr.

Prereq or Coreq: EDCI 302 or MUST 383.

EDCI 565 Linguistics, Literacy, and Brain Function**3 credits**

Course examines the psycholinguistic processes of literacy acquisition and learning in conjunction with recent physiological brain research.

Prereq: EDCI 320 and EDCI 466; or Permission.

EDCI 570 Introduction to Research in Curriculum and Instruction**3 credits**

Explorations of research foundations focused on developing skills in consuming, synthesizing and conduction research from contemporary and diverse perspectives.

EDCI 572 Measurement and Evaluation**3 credits**

Improvement of testing, examination, and evaluation in schools; practice in making, giving, scoring, and interpreting tests; use of results in counseling.

EDCI 581 Theoretical Foundations of Online Learning**3 credits**

This course provides an overview of theoretical issues surrounding online learning, including considerations of new technologies, socio-cultural diversity, learning theories, pedagogical approaches, and emerging trends.

Prereq: Senior-status in teacher preparation program with sufficient GPA or Graduate-status in an education-related field .

EDCI 582 Online Course Design**3 credits**

This course teaches students the course design process and provides them with opportunities to design, develop, and evaluate online course modules.

Prereq: EDCI 581; and Senior-status in teacher preparation program with sufficient GPA or Graduate-status in an education-related field .

EDCI 583 Open Education**3 credits**

This course addresses ethical, legal, and behavioral issues related to online learning, including social participation, copyright, internet safety, and etiquette and provides students with opportunities to apply their knowledge to practice.

Prereq: EDCI 581; and Senior-status in teacher preparation program with sufficient GPA or Graduate-status in an education-related field .

EDCI 595 Practicum in Online Learning**3 credits**

This practicum is taught in conjunction with Idaho Distance Learning Academy (IDLA) and provides students with opportunities to teach and assess K12 students in an authentic online setting.

Prereq: EDCI 582 and EDCI 583; and Senior-status in teacher preparation program with sufficient GPA or Graduate-status in an education-related field .

EDCI 597 (s) Practicum**Credit arranged**

Graded P/F.

Prereq: Permission.

EDCI 598 (s) Internship**Credit arranged**

Currently offered in public school teaching and college teaching. Graded P/F.

Prereq: Permission.

EDCI 599 (s) Non-thesis Master's Research**Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.

EDCI 600 Doctoral Res & Disser**Credit arranged.****EDCI 601 (s) Seminar****Credit arranged.****EDCI 602 (s) Directed Study****Credit arranged.****EDCI 604 (s) Special Topics****Credit arranged.**

ED-SPECIAL EDUCATION (EDSP)

EDSP 200 (s) Seminar
Credit arranged.

EDSP 204 (s) Special Topics
Credit arranged.

EDSP 299 (s) Directed Study
Credit arranged.

EDSP 300 Educating for Exceptionalities
3 credits

Introduction to exceptionalities and strategies for addressing individual differences to ensure student success in the classroom.

EDSP 325 Classroom Applications of Learning Theories
2 credits

Emphasis on behavioral principles and their relationship to instructional strategies; completion of a project in an applied setting. Recommended Preparation: EDCI 201. (Summer only)

EDSP 350 Language and Communication Development and Disorders
3 credits

Overview of language, communication, and socio/emotional development and their interaction with cognitive and learning disabilities; legal and cultural issues; informal assessments and teaching strategies; models for collaboration with speech and language professionals. (Summer only)

Prereq: EDCI 201 or FCS 210 .

EDSP 390 (s) Special Education Field Experience
1-3 credits, max 3

Supervised observation and/or instruction with students with disabilities; group discussion sessions. Graded P/F.

EDSP 400 (s) Seminar
Credit arranged.

EDSP 403 (s) Workshop
Credit arranged.

EDSP 404 (s) Special Topics
Credit arranged.

EDSP 405 (s) Professional Development
Credit arranged

Joint-listed with EDSP 505

Professional development and enrichment of certificated school personnel. Cr earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/assignments reqd for grad cr.

EDSP 411 Beginning Sign Language I
1 credit

This course will enable students to begin to use and understand the language used by D/deaf people in the United States, including common phrases, idioms, expressions, sentences and questions used in daily conversation. (Fall only)

EDSP 412 Beginning Sign Language II
1 credit

This course will expand the vocabulary and understanding of the language used by D/deaf people in the United States. Students' will become more comfortable in using body language and facial expression to communicate in sign language, begin to become more fluent in the basic vocabulary of signs, and begin to dialogue with others. (Spring only)

Prereq: EDSP 411 or Experience with ASL .

EDSP 423 Collaboration
3 credits

Strategies for developing and facilitating collaboration with schools, families and community partners including methods to increase successful collaboration and inclusion, interpersonal and intrapersonal dynamics that facilitate the collaboration process, problem solving teams, and effective models of collaboration. (Spring only)

Prereq: EDSP 300, EDSP 325, and EDSP 350 .

EDSP 425 Evaluation of Children and Youth
3 credits

Assessment procedures for determining eligibility and identifying educational needs of students with disabilities, legal issues including Response to Intervention and Alternative Assessment, and current trends. (Spring only)

Prereq: EDSP 300, EDSP 325, and EDSP 350 .

EDSP 426 Developing Instructional Programs
3 credits

Overview of assumptions, current trends, legal and cultural issues; application of learning principles and strategies for curriculum development; collaborative development of Individual Education, Instruction, and Transition Plans; methods for evaluating student progress and instructional effectiveness. (Spring only)

Prereq: EDSP 300, EDSP 325, and EDSP 350 .

EDSP 430 Assistive Technology and Universal Design for Learning for PreK-12
2 credits

Joint-listed with EDSP 530

This course is designed to introduce students to assistive technology (AT), instructional technology, and universal design for learning (UDL). Together, they provide a foundational environment in which all students, including those with disabilities, can survive and thrive in the general education setting. This course will increase participants' understanding of the relationship between instructional design and technology and prepare for successful implementation. The course will move from individualized consideration of assistive technology to a naturally supported least restrictive environment.

Prereq for 430: EDSP 300, EDSP 325, and EDSP 350 .

EDSP 448 Special Education Curriculum
3 credits

Joint-listed with EDSP 548

This course is designed to enable professional educators to assume leadership roles in the development and implementation of instructional programs and services for students with disabilities. Attention will be given to theoretical models, curriculum approaches, practices in developing curricula, the use of technology and assistive technology in instruction, techniques for delivering instruction in a variety of educational settings, and trends and issues in special education instruction.

Prereq for 448: EDSP 300, EDSP 325, and EDSP 350 .

EDSP 484 (s) Special Education Internship II**1-15 credits**

Guided observation, supervised instruction, and comprehensive team and independent teaching in school settings.

Prereq: Permission of division

Coreq: Integrated course work and EDCI 401.

EDSP 498 (s) Internship

Credit arranged.

EDSP 499 (s) Directed Study

Credit arranged.

EDSP 500 Master's Research and Thesis

Credit arranged.

EDSP 501 (s) Seminar

Credit arranged.

EDSP 502 (s) Directed Study

Credit arranged.

EDSP 503 (s) Workshop

Credit arranged.

EDSP 504 (s) Special Topics

Credit arranged.

EDSP 505 (s) Professional Development

Credit arranged

Joint-listed with EDSP 405

Professional development and enrichment of certificated school personnel. Cr earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/assignments reqd for grad cr.

EDSP 520 Education of People with Disabilities**3 credits**

Introduction to the education of people with disabilities, primarily in the school setting. History and foundation of special education, areas of exceptionality, instructional practices, issues and trends and law and legislation as it applies to persons with disabilities. (Fall and Summer only)

EDSP 522 Advanced Evaluation Techniques**2 credits**

Implementation of evaluation tools, practices, and processes that extend beyond eligibility decisions to alternative assessments for early childhood, elementary, and secondary students with disabilities; integration of assessment and curriculum; legal, cultural, and ethical issues. (Summer only)

Prereq: EDSP 425.

EDSP 530 Assistive Technology and Universal Design for Learning for Pre-K12**2 credits**

Joint-listed with EDSP 430

This course is designed to introduce students to assistive technology (AT), instructional technology, and universal design for learning (UDL). Together, they provide a foundational environment in which all students, including those with disabilities, can survive and thrive in the general education setting. This course will increase participants' understanding of the relationship between instructional design and technology and prepare for successful implementation. The course will move from individualized consideration of assistive technology to a naturally supported least restrictive environment.

Prereq for 430: EDSP 300, EDSP 325, and EDSP 350 .

EDSP 531 Single Subject Design Research**3 credits**

Prepares graduate students with knowledge and experience using single subject designs. Single subject designs are quantitative approaches that use specific design features to demonstrate experimental control and internal validity of observable and quantifiable behavior most often displayed and interpreted through line graphs and charts. External validity is demonstrated through replication.

Prereq: EDSP 540 or equivalent .

EDSP 540 Behavioral Analysis for Children and Youth**3 credits**

Application of learning theory to instruction; principles of behavior analysis with application to teaching; applied research techniques, ethical, legal, and cultural issues. Completion of field work in applied setting required. (Fall only)

EDSP 548 Special Education Curriculum**3 credits**

Joint-listed with EDSP 448

This course is designed to enable professional educators to assume leadership roles in the development and implementation of instructional programs and services for students with disabilities. Attention will be given to theoretical models, curriculum approaches, practices in developing curricula, the use of technology and assistive technology in instruction, techniques for delivering instruction in a variety of educational settings, and trends and issues in special education instruction.

Prereq for 448: EDSP 300, EDSP 325, and EDSP 350 .

EDSP 549 Language, Communication, and Social/Emotional Enhancement**3 credits**

Overview of theory and research findings; discussion of current issues, rationale, and intervention programs and strategies with an emphasis on social relations and interactions, legal mandates, and cultural issues. Includes a field component and project. (Spring only)

EDSP 552 Principles of Leadership in Neurodevelopmental Disorders**3 credits**

Students are trained to move beyond discipline boundaries to provide optimal services to child and adolescents with special health care needs. Enhance skills in evidence based practice via evaluating the validity of published research, understanding the role of outcomes-based information in decision making, and conduct meaningful, scientifically grounded research to improve systems of care to children with special healthcare needs.

EDSP 553 Principles of Leadership in Neurodevelopmental Disorders 2**3 credits**

Students are trained to move beyond discipline boundaries to provide optimal services to child and adolescents with special health care needs. Enhance skills in evidence based practice via evaluating the validity of published research, understanding the role of outcomes-based information in decision making, and conduct meaningful, scientifically grounded research to improve systems of care to children with special healthcare needs.

**EDSP 554 Principles of Leadership in Neurodevelopmental Disorders
Autism Enhanced 1**

2 credits

This course is part of the proposed doctoral course work in Special Education. This course is offered with the assistance/support of the Utah Regional Leadership in Neurodevelopmental Disabilities program (URLND) and the University of Utah Medical School who offer some of the trainings / clinics that students enrolled in this course participate in. This course is taught in-load by faculty at the Center on Disabilities and Human Development and does not burden the college or department.

**EDSP 555 Principles of Leadership in Neurodevelopmental Disorders
Autism Enhanced 2**

2 credits

Students are trained to move beyond discipline boundaries to provide optimal services to children and adolescents with special autism spectrum disorders. Students will increase their knowledge of issues related to the definition, epidemiology, and prognosis of ASD, enhance their knowledge of screening and diagnostic measures for ASD, enhance their knowledge of interventions for ASD, engage in research related to ASD, enhance their leadership skills in the area of ASD.

EDSP 597 (s) Practicum

Credit arranged

Graded P/F.

Prereq: Permission.

EDSP 598 (s) Internship

Credit arranged

Supervised field experience in an appropriate public or private agency.

Graded P/F.

Prereq: Permission.

EDSP 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

EDSP 600 Doctoral Research and Dissertation

Credit arranged.

EDUCATION (ED)

ED 101 Orientation to the Teaching Profession

1 credit

A dual credit course open to high school students. Provides prospective teachers with experiences in the K-12 educational environment and an examination of current trends, school-based practices, and professional responsibilities of school personnel. Fulfills the 100 hr. College of Education public service requirement.

ED 204 (s) Special Topics

Credit arranged.

ED 250 CoEd Student Ambassador

1 credit, max 2

The College of Education Ambassadors are a select group of students representing all departments within our college and assist the college in recruitment and retention of highly qualified students, and promotional activities.

ED 505 (s) Professional Development

Credit arranged.

ED 571 Introduction to Quantitative Research

3 credits

Overview of research techniques, emphasizing experimental, quasi-experimental, descriptive, analytical, single subject designs. Special emphasis on interpreting and critically evaluating research articles; planning, analyzing, and writing quantitative research studies.

Prereq: Graduate standing.

ED 573 Action Research

3 credits

Introduction to action research as a form of systematic applied inquiry conducted by professionals to gain insight, develop reflective perspective, effect change, enhance environment, and improve practice, pedagogy, learner/participant outcomes, policies/procedures. Goals of course include: understanding the theoretical foundations of practical and critical action research, self-study, and teacher research; examining the impact of action research on professional knowledge/actions/environment; exploring processes for identifying area of focus, generating data, analyzing and interpreting data, and developing an action plan for change.

ED 574 Survey of Qualitative Research

3 credits

This course reviews the foundations of qualitative design, investigating the history, philosophy, key concepts and terms, and nature of qualitative research. Examples of different types of qualitative research and assessment issues will be discussed, specifically focusing on the main qualitative traditions (case study, phenomenology, ethnography, narrative, historical, and action research). Topics will include: conceptualizing research questions, reviewing the literature, selection of appropriate design and methods of data collection, positionality, logic and coherency of research procedures/methods; interpretation of findings, establishing quality and rigor; research writing and reading, Institutional Review Board policies with respect to human subjects; and ethical issues. Students will read and evaluate qualitative research, conduct components of qualitative research, and identify methodological elements and issues.

Prereq: Permission .

ED 584 Univariate Quantitative Research in Education

3 credits

The overall goal of the course is to prepare students to apply quantitative research methodology in education. Topics include understanding applied experimental, quasi-experimental and behavioral designs, survey design, measurement and instrumentation, sampling, item analysis, reliability analysis, and validity assessment.

Prereq: ED 571.

ED 587 Advanced Quantitative Analysis in Education

3 credits

Advanced analysis of quantitative research methods in education and social sciences. The goal of the course is to expose students to multivariate statistics and quantitative research approaches. Topics include multiple correlation/regression, discriminate analysis, exploratory and confirmatory factor analysis, multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), canonical correlation analysis, cluster analysis, log linear model, path analysis and structural equation modeling.

Prereq: ED 584 or Permission.

ED 589 Theoretical Applications and Designs of Qualitative Research

3 credits

This course builds and expands on ED 574 Survey of Qualitative Research and examines qualitative research designs and the use of theory in qualitative research. The course will introduce ethnography, phenomenology, case study, narrative, historical and action research designs. Each design will be explored through four overarching theoretical lenses (organizational, economic, critical, and learning), allowing students to understand the role of theory in guiding and informing research design and methods. The aim of the course is to give students the tools to conceptualize their thesis or dissertation work.

Prereq: ED 574 or Permission .

ED 590 Data Analysis and Interpretation of Qualitative Research **3 credits**

This course builds and expands on ED 589 Theoretical Applications and Design of Qualitative Research and is designed for graduate students who intend to conduct qualitative research. This course is an advanced seminar to assist in developing skills in data analysis and the presentation of qualitative research findings. It will focus on contemporary discourse among qualitative researchers concerning the analysis of qualitative data. Theoretical foundations learned in ED 574 and ED 589 will be revisited as participants examine the ways in which theory informs and guides analysis and interpretation. Assignments are designed to facilitate the interaction between data, analysis, writing, and the literature.

Prereq: ED 574 and ED 589 .

ED 591 Indigenous and Decolonizing Research Methods **3 credits**

In this course, students will explore the historic and current discourse in Indigenous and Decolonizing Research. From an interdisciplinary perspective, students will analyze knowledge production through histories of Indigenous persistence and resistance to colonial power. Course content will expose students to methodologies grounded in the lived experiences and histories of individuals and communities marginalized by the colonial legacy, and will seek to engage students in research which invigorates connections, struggles, and knowledges to reflect reciprocal benefit to communities beyond the academy.

ED 595 Survey Design for Social Science Research **3 credits**

This course focuses on the design and development of the survey instrument. Topics include how to word questions, validation, development of appropriate scales, traditional and alternative modes of survey administration; impacts of non-response; the effect of question structure, wording and context of instrument items; and post-survey follow-up and data processing. Recommended Preparation: Foundations of research course at graduate level.

ED 598 (s) Internship **Credit arranged.**

ED 599 (s) Non-thesis Master's Research **Credit arranged.**

ED 600 Doctoral Research & Dissertation **Credit arranged.**

ED 602 (s) Directed Study **Credit arranged.**

ED 604 (s) Special Topics **Credit arranged.**

ED 611 Doctoral Seminar I **1 credit**

This seminar is intended to help facilitate a community among doctoral students and build an understanding of the processes and strategies necessary for success in the doctoral program. (Fall only)

Prereq: Enrollment to a doctoral program .

ED 612 Doctoral Seminar II **1 credit**

The seminar is intended for those doctoral students who have completed all or most of their course work. The seminar will focus on preparation for the preliminary examination and advancement to candidacy. Preparation of the dissertation proposal will also be covered. (Spring only)

Prereq: Enrollment to a doctoral program .

ED 620 Grant Writing **3 credits**

The reality in today's context is that organizations are resource challenged. Increasingly organizations are dependent on garnering external resources to be able to successfully accomplish their missions. In this course students are guided from developing ideas and identifying potential funding sources to the submission of proposals as well as follow up techniques.

ED 628 Program Evaluation **3 credits**

Schools, organizations, and community agencies are being increasingly held accountable for their respective programs. This course addresses how action research can be a powerful tool for empirically evaluating all aspects of a given program.

Prereq: ED 573 .

ED 668 Writing for Publication **3 credits**

Development of knowledge, skills, and potential of researchers and other writers desiring to prepare and publish manuscripts in education or other professional and trade journals; technical and theoretical aspects of writing for publication and the process of manuscript preparation, submission, and editing.

Prereq: Enrollment in a doctoral program in Education.

ED 680 Philosophical Foundations of Educational Research **3 credits**

This doctoral level course involves learners in an examination of the philosophical foundations, epistemological assumptions, and methodological frameworks of educational and social science research. Given the current acknowledgement of the importance of perspective and point of view in inquiry, readings in gender, class, and ethnic identity will be included.

Prereq: Enrollment to a doctoral program .

EDUCATIONAL ADMINISTRATION (EDAD)

EDAD 403 (s) Workshop
Credit arranged.

Credit arranged.

EDAD 504 (s) Special Topics
Credit arranged.

EDAD 505 (s) Professional Development
Credit arranged

Professional development and enrichment of certificated school personnel. Credit earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program.

EDAD 509 Educational Policy and Politics for Educational Leaders
2-3 credits

Principles and problems of organization and administration of American education, including local, regional, and state systems.

EDAD 513 Administration of Special Education Law
3 credits

Explore in-depth the legal issues related to the delivery of special education and pupil services. The course examines legal frameworks used to address issues in this area.

EDAD 524 History and Philosophy of Higher Education in the U.S.
3 credits

Exploration of history and philosophy of higher education from its origins to the present day; emphasis on trends and issues that have impacted higher education and contributed to its evolution.

EDAD 528 Leading Standards Driven Instruction
3 credits

This course explores the management skills, concepts, and information needed to administer a district-wide standards-based instructional and assessment program, with emphasis at the school principal level. This also includes the role of the administrator in supervising for change through the creation of an inclusive learning environment. The administrator's responsibility in the auditing of content standards and corrective procedures based on assessment results will be covered in depth. The course will also include the various forms of standards-based assessment, both formative and summative, and how to lead organizations to align instruction with state assessments. Both the content and context of instruction and its effect on assessment results will be covered. The formal as well as the informal content of the instructional process and the leader's responsibility to supervise for both is a critical component of creating inclusive learning environments. The effect of technology, articulation, and the role of the administrator in monitoring what is taught will be investigated as a means toward quality control. (Fall only)

Prereq: Bachelor's Degree in Education.

EDAD 530 Ethical Leadership and Law in Education
3 credits

Ethical and legal principles undergirding schools in the U.S.; statutory and case laws focusing on Idaho and surrounding states.

EDAD 533 Multicultural Diversity and Educational Leadership
3 credits

An introductory graduate-level course in educational administration with an emphasis on the diverse student population that we serve. Its aim is to examine what it means to lead educational organizations in a changing society. Specifically the course focuses on policy, theory and practice, as they relate to diverse school populations. Issues related to multicultural diversity will be drawn from readings as well as personal experiences. The goal of the class is to assist students in developing their own understanding and skills in becoming more effective leaders in organizations that affirm diversity.

EDAD 534 The Principalship
3 credits

Prepare students for assuming the role of elementary or secondary school principal; emphasis on skills reqd for confidence in the role of principal.

EDAD 535 School Finance
3 credits

Theory and application of financing schools; application to Idaho schools. Cooperative: open to WSU degree-seeking students.

Prereq: EDAD 509.

EDAD 570 Methods of Educational Research
3 credits

This course examines philosophical and theoretical frameworks, methodologies, strategies, techniques, and designs of educational research. The primary themes: (1) the integration of research with educational practices, (2) the role of diversity in the social/political context of research, and (3) the design and use of research in education.

EDAD 571 Educational Leadership in the Global Society

3 credits

This course is designed to empower superintendents to become leaders who are culturally knowledgeable and can function well and initiate change in multicultural and international settings. This need is driven by rapid changes in the educational marketplace, competition in technical and financial resources, and the emergence of a global economy. Students gain an understanding of culture and pluralism as it relates to present organizations and trans-organizations with a global framework. The course emphasizes organizations that are global within as well as outside the United States, multinational organizations, transnational organizations, as well as global, social-change issues. Issues covered include adapting organization development strategies to the cultural blinders, understanding cultural diversity and the effect of cultural values on the organization change process, and applying strategy to dramatically changing environments.

Prereq: Bachelor's Degree in Education.

EDAD 580 Special Education Director Administration

3 credits

This course is designed to prepare students for assuming the role of Special Education Director. Content includes supervision of personnel, legal and financial issues in special education, promoting school climate, collaborative leadership, and instructional leadership.

EDAD 584 Bargaining/Mediation/Arbitration

3 credits

For superintendent candidates. This course examines a bargaining model endorsed by state organizations and prepares the superintendent for collective bargaining and other dispute resolution models.

EDAD 586 Advanced School Finance

3 credits

Economic principles to provide insights into practical matters relating to school finance for principals, teachers, business managers, and other school officials; issues of educational productivity, allocation of resources, efficiency, equity, and liberty; review of basic accounting principles and requirements applying to both district and building levels.

Prereq: EDAD 535.

EDAD 587 The Superintendency

3 credits

Prepare students for assuming the role of superintendent of schools; emphasis on research-based role expectation and practical guidelines for superintendent behavior.

EDAD 592 School-Community Relations

3 credits

Interpreting the schools to the public, two-way flow of ideas between school and community.

EDAD 593 School Facilities Planning and Maintenance

3 credits

Planning new school facilities; facility maintenance; legal provisions involving financing; preliminary surveys of need; relationships with architects and contractors.

EDAD 594 Theory in Educational Administration

3 credits

Theories from psychology, sociology, and cultural points of view applied to school administration; problem solving/decision making; case study approach.

Prereq: EDAD 509.

EDAD 595 Administration and Supervision of Personnel

3 credits

School-level personnel issues - certified and classified - including supervision and evaluation models, resource allocation, professional development, recruitment, contract law, tort law, selection, placement, evaluation and collective bargaining. Case studies in each area are presented, using local district materials, internet searches and text readings. While the principal's role is the main focus, the course also examines district level issues such as personnel organization and school board policies.

EDAD 597 (s) Practicum

Credit arranged.

EDAD 598 (s) Internship

Credit arranged

Interns assigned for two semesters to practicing administrators in elementary or secondary schools or in district offices or in appropriate offices in higher education. Graded P/F.

Prereq: Approval of major professor and substantial completion of certification program.

EDAD 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission of major professor.

EDAD 600 Doctoral Res & Disser

Credit arranged .

EDAD 604 (s) Special Topics

Credit arranged .

EDAD 698 (s) Internship

Credit arranged .

ELECTRICAL & COMPUTER ENGR (ECE)

ECE 101 Foundations of Electrical and Computer Engineering 2 credits

Introductory course for incoming students with little or no fundamental electrical/computer engineering knowledge. Includes coverage of basic analog and digital circuits. Lab assignments also included.

Coreq: MATH 143 or MATH 170.

ECE 204 (s) Special Topics Credit arranged.

ECE 210 Electrical Circuits I 3 credits

Intro to d.c. and transient electrical circuits; mesh and nodal analysis; dependent sources; circuit theorems; transient analysis with differential equations. Three lec and one recitation a wk.

Prereq: MATH 175 with a grade of 'C' or better

Coreq: ECE 211, MATH 310 and PHYS 212 and PHYS 212L.

ECE 211 Electrical Circuits Lab I 1 credit

Lab to accompany ECE 210. Lab experiments and computer simulations. One 3-hr lab a wk.

Coreq: ECE 210 and PHYS 212 and PHYS 212L.

ECE 212 Electrical Circuits II 3 credits

Continuation of ECE 210. Intro to sinusoidal steady state circuits; time and frequency domain analysis; Laplace transforms; Fourier series; transfer functions; Bode plots, filters. Three lec and one recitation a wk.

Prereq: ECE 210, MATH 310, and PHYS 212 and PHYS 212L; a grade of 'C' or better is required for all prerequisite courses

Coreq: ECE 213.

ECE 213 Electrical Circuits II Lab 1 credit

Lab to accompany ECE 212. Continuation of ECE 211. Lab experiments and computer simulations. One 3-hr lab a wk.

Prereq: ECE 211 and PHYS 212 and PHYS 212L

Coreq: ECE 212.

ECE 240 Digital Logic 3 credits

Number systems, truth tables, logic gates, flip-flops, combinational and synchronous sequential circuits; intro to digital systems and basic microprocessor architecture; certification exam not reqd.

Prereq: PHYS 212 and PHYS 212L

Coreq: ECE 241.

ECE 241 Logic Circuit Lab 1 credit

Open lab to accompany ECE 240. Design and construction of combinational and synchronous sequential logic circuits; certification exam not reqd.

Prereq: PHYS 212 and PHYS 212L

Coreq: ECE 240.

ECE 292 Sophomore Seminar 0 credits

Curriculum options, elective courses, preparation for graduate study, professional ethics, and current technical topics. Field trip may be reqd. Graded P/F.

ECE 299 (s) Directed Study Credit arranged.

ECE 310 Microelectronics I 3 credits

Operational amplifier fundamentals and applications, introduction to electronic devices such as diodes, bipolar junction transistor (BJT) and metal oxide semiconductor field effect transistors (MOSFET), large and small-signal modeling of non-linear electronic devices, DC and small-signal analysis of circuits with non-linear electronic devices, biasing of electronic circuits using passive and active elements such as current mirrors, frequency response of electronic circuits,, introduction to the analysis, design, and applications of electronic circuits such as rectifiers, power supplies, and low-frequency single-stage amplifiers. Practical limitations of amplifiers of electronic circuits.

Prereq: ECE 212 and ECE 213

Coreq: ECE 311.

ECE 311 Microelectronics I Lab 1 credit

Lab to accompany ECE 310.

Coreq: ECE 310.

ECE 319 Background Study in Electronics 3 credits

Not applicable toward any UI undergrad degree; valid only for removal of electronics (ECE 310) deficiency for grad students who do not have BSEE background. See ECE 310 for description. Graded P/F based on comprehensive exam at completion of course.

Prereq: Permission .

ECE 320 Energy Systems I 3 credits

Single-phase AC measurements, transformer parameters, transformer performance, rotating DC machines, DC-DC PE converters. Three lec a wk.

Prereq: ECE 212 and PHYS 212 and PHYS 212L

Coreq: ECE 321.

ECE 321 Energy Systems I Laboratory 1 credit

Lab to accompany ECE 320. Lab experiments and computer simulations. One 3-hr lab a wk.

Prereq: ECE 213, PHYS 212, PHYS 212L, MATH 310

Coreq: ECE 320.

ECE 329 Background Study in Electrical Machines 3 credits

Not applicable toward any UI undergrad degree; valid only for removal of electrical machinery (ECE 320) deficiency for grad students who do not have BSEE background. See ECE 320 for description. Graded P/F based on comprehensive exam at completion of course.

Prereq: Permission .

ECE 330 Electromagnetic Theory 3 credits

Vector mathematics; charge and current; fields as forces; work, potential and electro-motive force; Faraday's law of induction; Gauss's and Ampere's laws; material modeling; waves in isotropic media.

Prereq: MATH 275, MATH 310, and PHYS 212 and PHYS 212L

Coreq: ECE 331.

ECE 331 Electromagnetics Laboratory

1 credit

Lab to accompany ECE 330. Lab experiments and computer simulations. One 3-hr lab a wk.

Prereq: MATH 275, MATH 310; PHYS 212 and PHYS 212L

Coreq: ECE 330.

ECE 339 Background Study in Electromagnetic Theory

3 credits

Not applicable toward any UI undergrad degree; valid only for removal of electromagnetic theory (ECE 330) deficiency for grad students who do not have BSEE background. See ECE 330 for description. Graded P/F based on comprehensive exam at completion of course.

Prereq: Permission .

ECE 340 Microcontrollers

3 credits

Introduction to use of embedded microcontrollers and microprocessors; processor architecture; assembly language programming; use of development systems and/or emulators for system testing and debugging; software and hardware considerations of processor interfacing for I/O and memory expansion; programmed and interrupt driven I/O techniques. Three lec a wk.

Prereq: ECE 212, ECE 213, ECE 240, ECE 241, and CS 112 or CS 120

Coreq: ECE 341.

ECE 341 Microcontrollers Lab

1 credit

Lab to accompany ECE 340.

Coreq: ECE 340.

ECE 349 Background Study Digital Logic

3 credits

Not applicable toward any UI undergraduate degree; valid only for removal of digital computer fundamentals (ECE 240) deficiency for graduate students. See ECE 240 for description. Graded P/F.

ECE 350 Signals and Systems I

3 credits

Continuous and discrete, linear time invariant systems. Continuous and discrete linear time invariant systems. Differential and difference equations. Convolution integrals and sums. Fourier and Laplace transforms. Discrete time Fourier transforms and Z transforms. Emphasis on practical applications to engineering systems.

Prereq: ECE 212 and MATH 310

Coreq: ECE 351.

ECE 351 Signals and Systems I Lab

1 credit

Laboratory to accompany ECE 350. Software and hardware laboratories. Introduction to Matlab.

Coreq: ECE 350.

ECE 359 Background Study in Signals and Systems Analysis

3 credits

Not applicable toward any UI undergrad degree; valid only for removal of signals and systems analysis (ECE 350) deficiency for grad students who do not have BSEE background. See ECE 350 for description. Graded P/F based on comprehensive exam at completion of course.

Prereq: Permission .

ECE 398 Electrical Engineering Cooperative Internship

1-3 cr, max arranged

Supervised internship in industry in professional engineering settings, integrating academic study with work experience; requires weekly progress reports, a final written report, and a talk/presentation and additional details to be worked out with the faculty supervisor. Cannot be counted as a technical elective toward the B.S.E.E. or B.S.Comp.E. Graded P/F.

Prereq: Permission.

ECE 404 (s) Special Topics

Credit arranged.

ECE 410 Microelectronics II

3 credits

Introduction to analog integrated circuit (IC) implementation and design, differential and common-mode signal concepts, differential amplifiers, multistage amplifiers, operational amplifier design, frequency response of electronic circuits, feedback in electronic circuits, large-signal/power amplifiers, advanced current sources and mirrors, and fundamentals of analog filters.

Prereq: ECE 310 and ECE 311; or Permission.

ECE 411 Advanced Electronics Laboratory

1 credit

Lab to accompany or follow ECE 410.

Prereq or Coreq: ECE 410.

ECE 412 Analog Filter Design

3 credits

Joint-listed with ECE 512

Second order, Butterworth, Chebychev, Elliptic and Bessel filter functions and active realizations for highpass, lowpass, bandpass, notch and all-pass filters; frequency and impedance scaling; frequency transformations; phase and group delay; filter sensitivity to passive and active elements; introduction to switched capacitor filters. Additional projects/assignments reqd for grad cr. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 310 or Permission.

ECE 413 Radio-Frequency IC Design

3 credits

Joint-listed with ECE 513.

Radio frequency (RF) communications concepts, integrated circuit (IC) transceiver architectures, low-noise amplifier, mixers, passive devices and matching networks, oscillators, power amplifiers, phase-locked loops, and frequency synthesizers. Additional projects/assignments are required for graduate students. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 410 or Permission.

ECE 415 Analog Integrated Circuit Design

3 credits

Joint-listed with ECE 515

Analog integrated circuit (IC) analysis, design, simulation, and layout, advanced biasing techniques, voltage references and regulators, operational amplifiers, frequency compensation techniques, noise analysis in analog circuits, and continuous-time integrated circuit filter design. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 410 or Permission.

ECE 416 Applications of Linear Integrated Circuits**3 credits**

Theory and practical implementation of operational amplifiers, comparators, voltage regulators, and selected integrated circuits. Non-ideal characteristics of op-amps and comparators and circuit considerations, stability and compensation, active filters, non-linear circuits.

Prereq: ECE 310 or Permission.

ECE 417 Mixed Signal IC Design**3 credits**

Joint-listed with ECE 517

Sample and hold (S/H) circuits, comparators, data-converter fundamentals, Nyquist-rate digital-to-analog converters (DAC) and analog-to-digital converters (ADC), over-sampling data converters, and phase-locked loops. Additional projects/assignments are required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 410 or Permission.

ECE 418 Introduction to Electronic Packaging**3 credits**

Joint-listed with ECE 518

This course serves as an introduction to electronic packaging and "back-end" microelectronic processes. Topics include substrate design & fabrication, SMT & first level assembly, clean room protocol, thermal design, simulation, and process considerations. Additional project work will be required for students enrolled in 518. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 310 .

ECE 419 Image Sensors and Systems**3 credits**

Joint-listed ECE 516

This course introduces various concepts and fundamentals related to semiconductor image sensors. Topics cover light production and detection, video image formats, image sensor characteristics and performance metrics, basic and advanced operation principals and types of semiconductor image sensors (CCD and CMOS), noise in imagers, image and color processing, and issues related to camera system design, integration and signal processing. Additional projects/assignments are required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 310 .

ECE 420 Energy Systems II**3 credits**

Three-phases, three-phase transformers, winding theory, rotating waves, steady state operation of three-phase synchronous and steady state operation of single and three-phase induction machines, and AC drives. Labs: three-phase measurements, three-phase transformers, synchronous machines, induction machines. ECE 420 cannot be counted as a graduate depth area course.

Prereq: ECE 320 and ECE 321 .

ECE 421 Introduction to Power Systems**3 credits**

One line diagrams, regulating transformers, calculation of transmission line parameters, line models, Ybus, power flow, power flow studies using commercial software, contingency studies, and power system control. (Fall only)

Prereq: ECE 420 .

ECE 422 Power Systems Analysis**3 credits**

Balanced and unbalanced faults, Zbus methods, transient generator models, stability analysis, fault analysis using commercial software, and introduction to power system protection. (Spring only)

Prereq: ECE 421 .

ECE 427 Power Electronics**3 credits**

Characteristics, limitations, and application of solid state power devices; practical aspects of power electronic converters, including rectifiers and inverters; choppers, AC phase control, and device gating techniques.

Cooperative: open to WSU degree-seeking students.

Coreq: ECE 420 .

ECE 430 Microwave and Millimeter Wave Circuits**3 credits**

Telegrapher's and wave equations; characteristic impedance, wave velocity and wave number; physical transmission lines, including coax, microstrip and stripline; circuit analysis techniques, reflection coefficient and power flow; impedance analysis, impedance matching techniques and Smith Chart; S-parameters; Wilkinson power dividers, circulators and hybrid couplers; transformers and filters.

Prereq: ECE 330 or Permission.

ECE 432 Propagation of Wireless Signals**3 credits**

Maxwell's Equations, including Poynting's vector and Poynting's theorem; Wave equation with solutions, Helmholtz equation, plane waves; Reflection and refraction; Theory of guided waves, ray theory and mode theory; Atmospheric and ionospheric effects on wave propagation; Multipath effects and fading; Ground waves and surface waves. Course will be offered every third semester.

Prereq: ECE 330 or Permission.

ECE 434 Antenna Principles and Design**3 credits**

Maxwell's equations, vector potential theory, radiation patterns, antenna efficiency and bandwidth, polarization, dipole and loop antennas, line sources, patch antennas, lineal arrays, antenna systems, radar equation.

Prereq: ECE 330 or Permission .

ECE 440 Digital Systems Engineering**3 credits**

Design of digital systems using a hardware description language and field-programmable gate arrays; projects emphasize a top-down design process using software tools; topics include datapath optimization, pipelining, static and dynamic memory, technology issues, intra-system communication, and design for testability.

Prereq: ECE 240, ECE 241, or Permission.

ECE 441 Advanced Computer Architecture**3 credits**

Joint-listed with ECE 541. Cross-listed with CS 451, CS 551.

Principles and alternatives in instruction set design; processor implementation techniques, pipelining, parallel processors, memory hierarchy, and input/output; measurement of performance and cost/performance trade-off. Additional work required for graduate credit.

Prereq: CS 150, STAT 301, ECE 240, or Permission .

ECE 443 Distributed Processing and Control Networks

3 credits

This course has three major parts: real-time computing, distributed processing, and control networks. Analysis of hardware and software performance with respect to speed, accuracy, and reliability. Investigation of ways of maximizing the three essential processor resources: memory, CPU time, and input/output. Methods for writing error free programs and designing fault tolerant computing systems.

Prereq: ECE 340, ECE 341, ECE 350, and ECE 351.

ECE 444 Supervisory Control and Critical Infrastructure Systems

3 credits

Joint-listed with ECE 544. Cross-listed with CS 444, CS 544.

Principles of network-based distributed real-time control and critical infrastructure systems. Integration of dedicated control protocols with wide area networks (e.g. the Internet). Issues of reliability, cost, and security. Application to selected industries, such as electric power distribution and waste and water management. Recommended preparation: ECE 340, CS 240, ME 313, CE 330, or CE 372. (Spring, alt/yrs.)

Prereq: Senior or Graduate standing in the College of Engineering .

ECE 445 Introduction to VLSI Design

3 credits Principles of design of very large scale integrated circuits; CMOS logic design; transistor sizing and layout methodologies; intro to IC CAD tools.

Prereq: ECE 310, ECE 240 or permission.

ECE 449 Fault-Tolerant Systems

3 credits

Joint-listed with CS 449. Cross-listed with ECE 449.

Design, modeling, analysis and integration of hardware and software to achieve dependable computing systems employing on-line fault tolerance; theory and fundamental concepts of designing reliable systems; analytical evaluation techniques, faults and advances in ultra-reliable distributed systems, fault-tolerant software systems; case studies include the space Shuttle, Airbus, and Boeing fly-by-wire primary flight computers as well as systems in reliable data bases and financial markets. Additional projects and assignments reqd for grad cr.

Prereq: CS 240, ECE 441, or Permission .

ECE 450 Signals and Systems II

3 credits

Continuation of ECE 350. Two-sided Laplace transform. Relationships among Fourier series, Fourier transform, and Laplace transform. Feedback, modulation, filtering, sampling, state space analysis, and modeling of systems. Emphasis on practical applications of theory to solve engineering problems.

Prereq: ECE 350 and MATH 330.

ECE 451 Electroacoustic Sensors and Systems

3 credits

Joint-listed with ECE 551

Review linear systems. Derive and solve wave equation for strings, membranes, plates, acoustic waveguides. Radiation, reflection, transmission of sound. Analogies among electrical, magnetic, mechanical, acoustical systems. Strong emphasis on 2-port networks. Modeling transducers: loudspeakers, microphones, hydrophones. Sound perception and models of human hearing. Applications to voice communication systems, medical imaging, sonar, spatial listening, seismology, hearing protectors and hearing aids, materials inspection, room acoustics, etc. Additional projects/assignments required for grad credit. (Fall only)

Prereq: ECE 350 or ME 313 or Permission.

ECE 452 Communication Systems

3 credits

Introduction to modern communication systems; baseband pulse and data communication systems; communication channels and signal impairments; filtering and waveform shaping in the time and frequency domain; carrier-modulation for AM and FM transmission; bandpass digital and analog communication systems; comparison of system performance. Cooperative: open to WSU degree-seeking students. (Alt/yrs)

Prereq: ECE 450 and (STAT 301 or MATH 451)

ECE 455 Information and Coding Theory

3 credits

Introduction to information theory; information content of messages; entropy and source coding; data compression; channel capacity data translation codes; fundamentals of error correcting codes; linear block and convolutional codes; introduction to trellis-coded modulation.

Prereq: MATH 330 and STAT 301.

ECE 460 Semiconductor Devices

3 credits

Introduction to semiconductor physics and basic semiconductor devices; intro to electro-optical devices.

Prereq: ECE 350.

ECE 462 Semiconductor Theory

3 credits

Joint-listed with ECE 562

Fundamental theory and behavior of modern semiconductor devices.

Additional projects/assignments reqd for grad cr.

Prereq: ECE 460 or Permission.

ECE 465 Introduction to Microelectronics Fabrication

3 credits

Joint-listed with ECE 565

This course serves as an introduction to the fabrication of microelectronic devices. Topics include the basics of IC structures, clean room protocol, photolithography, film growth and deposition, as well as IC interconnect technologies. Additional projects/assignments required for graduate credit.

Prereq: ECE 310 .

ECE 469 Resilient Control of Critical Infrastructure

3 credits

Joint-listed with ECE 569

This course establishes a perspective on the unique challenges of automation in our society and provides insight on how an industrial control system works and how it can fail due to threats from cyber security, human error, and complex interdependencies. It also introduces concepts from the resilient controls community that attempt to make industrial control systems more resilient to these threats. Furthermore, it provides background to the vocabulary and fundamental concepts related to the variety of disciplines required for the effective management, control, and protection of critical infrastructure. Additional work required for graduate credit. Cooperative: open to WSU degree-seeking students.

ECE 470 Control Systems**3 credits**

Cross-listed with ME 481.

Analysis and design of feedback control systems using frequency and time domain methods, and computer-aided design tools. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 330

Prereq for Electrical Engineering and Computer Engineering majors: ECE 350

Prereq for Mechanical Engineering majors: ME 313.

ECE 476 Digital Filtering**3 credits**

Design methods for recursive and non-recursive filters; frequency domain characteristics; computer-aided design; applications.

Prereq: ECE 450 .

ECE 477 Digital Process Control**3 credits**

Cross-listed with CHE 445

Dynamic simulation of industrial processes and design of digital control systems. Coordinated lecture-lab periods. Recommended Preparation: CHE 444 (Recommended Preparation for EE majors: ECE 350).

ECE 480 EE Senior Design I**3 credits**

The capstone design sequence for electrical engineering majors. Course topics include design, research, simulation, and experimental methods; specifications, prototyping, troubleshooting and verification; report writing, documentation and oral presentations. Topics are considered in the context of a major design project involving a team of students. Projects incorporate realistic engineering constraints; i.e. environmental, sustainability, manufacturability, ethical, safety, social and political considerations.

Prereq: ECE 240, ECE 241, ECE 310, ECE 311, ECE 320, ECE 321, ECE 330, ECE 331, ECE 340, ECE 341, ECE 350, ECE 351; or Permission

Coreq: STAT 301.

ECE 481 EE Senior Design II**3 credits**

Gen Ed: Senior Experience

The capstone design sequence for electrical engineering majors. Course topics include design, research, simulation, and experimental methods; specifications, prototyping, troubleshooting and verification; report writing, documentation and oral presentations. Topics are considered in the context of a major design project involving a team of students. Projects incorporate realistic engineering constraints; i.e. environmental, sustainability, manufacturability, ethical, safety, social and political considerations.

Prereq: ECE 480 and STAT 301 or Permission.

ECE 482 Computer Engineering Senior Design I**3 credits**

The capstone design sequence for computer engineering majors. Application of formal software and hardware design techniques, hardware/software interface considerations, project management; specifications, prototyping, troubleshooting and verification; report writing, documentation and oral presentations. Topics are considered in the context of a major design project involving a team of students. Projects incorporate realistic engineering constraints; i.e. environmental, sustainability, manufacturability, ethical, safety, social and political considerations.

Prereq: CS 240, CS 270, ECE 240, ECE 241, ECE 310, ECE 311, ECE 340, ECE 341, ECE 350, and ECE 351, or Permission

Coreq: ECE 440 and STAT 301.

ECE 483 Computer Engineering Senior Design II**3 credits**

Gen Ed: Senior Experience

The capstone design sequence for computer engineering majors. Application of formal software and hardware design techniques, hardware/software interface considerations, project management; specifications, prototyping, troubleshooting and verification; report writing, documentation and oral presentations. Topics are considered in the context of a major design project involving a team of students. Projects incorporate realistic engineering constraints; i.e. environmental, sustainability, manufacturability, ethical, safety, social and political considerations.

Prereq: ECE 440 and ECE 482 and STAT 301; or Permission.

ECE 490 Near Space Engineering Leadership**1 credit, max 6**

This course is for students in the Near Space Engineering program who are in the position of Flight Director, Assistant Flight Director, Project Systems Engineer, Launch and Recovery Manager, or leading one of the four flight engineering teams. The course emphasizes important leadership skills, including communication, planning and scheduling, and delegation. Students are expected to make oral technical presentations of goals, activities, progress, and accomplishments at technical meetings and conferences, work closely with research engineers and scientists in industry and NASA, and work with other high altitude scientific ballooning and near space engineering programs throughout the State. Recommended preparation: Prior experience and concurrent enrollment in University of Idaho Near Space Engineering Program.

Prereq: Permission .

ECE 491 Senior Seminar**0 credits**

Technical topics, professional ethics, employment practice, and interviewing. One lec a wk; one 3-6 day field trip may be required. Graded P/F.

ECE 498 (s) Internship

Credit arranged.

ECE 499 (s) Directed Study

Credit arranged.

ECE 500 Master's Research and Thesis

Credit arranged.

ECE 501 (s) Seminar

Credit arranged.

ECE 502 (s) Directed Study

Credit arranged.

ECE 503 (s) Workshop

Credit arranged.

ECE 504 (s) Special Topics

Credit arranged.

ECE 505 (s) Professional Development

Credit arranged.

ECE 512 Analog Filter Design

3 credits

Joint-listed with ECE 412

Second order, Butterworth, Chebychev, Elliptic and Bessel filter functions and active realizations for highpass, lowpass, bandpass, notch and all-pass filters; frequency and impedance scaling; frequency transformations; phase and group delay; filter sensitivity to passive and active elements; introduction to switched capacitor filters. Additional projects/assignments reqd for grad cr. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 310 or Permission.

ECE 513 Radio-Frequency IC Design

3 credits

Joint-listed with ECE 413.

Radio frequency (RF) communications concepts, integrated circuit (IC) transceiver architectures, low-noise amplifier, mixers, passive devices and matching networks, oscillators, power amplifiers, phase-locked loops, and frequency synthesizers. Additional projects/assignments are required for graduate students. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 410 or Permission.

ECE 515 Analog Integrated Circuit Design

3 credits

Joint-listed with ECE 415

Analog integrated circuit (IC) analysis, design, simulation, and layout, advanced biasing techniques, voltage references and regulators, operational amplifiers, frequency compensation techniques, noise analysis in analog circuits, and continuous-time integrated circuit filter design. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 410 or Permission.

ECE 516 Image Sensors and Systems

3 credits

Joint-listed ECE 419

This course introduces various concepts and fundamentals related to semiconductor image sensors. Topics cover light production and detection, video image formats, image sensor characteristics and performance metrics, basic and advanced operation principals and types of semiconductor image sensors (CCD and CMOS), noise in imagers, image and color processing, and issues related to camera system design, integration and signal processing. Additional projects/assignments are required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 310 .

ECE 517 Mixed Signal IC Design

3 credits

Joint-listed with ECE 517

Sample and hold (S/H) circuits, comparators, data-converter fundamentals, Nyquist-rate digital-to-analog converters (DAC) and analog-to-digital converters (ADC), over-sampling data converters, and phase-locked loops. Additional projects/assignments are required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 410 or Permission.

ECE 518 Introduction to Electronic Packaging

3 credits

Joint-listed with ECE 418

This course serves as an introduction to electronic packaging and "back-end" microelectronic processes. Topics include substrate design & fabrication, SMT & first level assembly, clean room protocol, thermal design, simulation, and process considerations. Additional project work will be required for students enrolled in 518. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 310.

ECE 520 Advanced Electrical Machinery

3 credits

Synchronous machines and transformers, machine transient and subtransient reactances, excitation and voltage regulation, power curves, transformer connections, impedance, harmonics, and impulse characteristics. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 422.

ECE 521 Power System Stability

3 credits

Understanding, modeling, and analysis of power system transient and voltage stability; techniques for improving power system stability; use of computer tools. Cooperative: open to WSU degree-seeking students. (Alt/ yrs)

Prereq: ECE 520 or Permission.

ECE 522 Induction Machines

3 credits

Winding theory, reference frame theory, induction machine models, complex vector methods, small signal analysis, induction machine capability, simulation, introduction to variable speed drives. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 350, ECE 422, or Permission.

ECE 523 Symmetrical Components

3 credits

Concepts of symmetrical components, sequence impedances of devices and lines, circuit equivalents for unbalanced faults, management during faults. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 422.

ECE 524 Transients in Power Systems

3 credits

Analysis and simulation of electromagnetic transients on electric power systems; switching transients; lightning transients; mitigation of transient overvoltages; surge protection; modeling power systems apparatus for transient studies. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 421 .

ECE 525 Power System Protection and Relaying

3 credits

Power systems protection fundamentals; dynamic response of current voltage measurement devices; numerical relay fundamentals; review of symmetrical components; application of overcurrent elements, distance elements and differential elements for the real time protection and monitoring of transmission, distribution and generation apparatus. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 422 or Permission .

ECE 526 Protection of Power Systems II**3 credits**

Protection of electrical equipment as related to electric power systems with emphasis on digital algorithms. Cooperative: open to WSU degree-seeking students. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 525 or Permission .

ECE 527 Dynamics and Control of AC Drives**3 credits**

Review of machine modeling techniques and simulation methods, principles of power converters for motor drive applications; analytical modeling and dynamic behavior of machine-drive systems; modulation, regulation, and control techniques; simulation of drive systems; case studies.

Prereq: ECE 320 and ECE 470, or Permission.

ECE 528 Understanding Power Quality**3 credits**

Electrical fundamentals in the context of power quality; origins and characterization of power quality problems on distribution systems; applications of standards; advanced ground techniques; case study approach to common situations.

ECE 529 Utility Applications of Power Electronics**3 credits**

HVdc transmission, static VAR compensators, FACTS devices, Custom Power devices, electrical energy storage systems, power quality, harmonic compensation, and alternative energy supply interfacing.

Prereq: ECE 422.

ECE 530 Advanced Electromagnetic Theory I**3 credits**

Maxwell's equations, potential theory, wave propagation and scattering, canonical problems, guided wave theory, antenna concepts, boundary value problems. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 432 or Permission.

ECE 531 Advanced Electromagnetic Theory II**3 credits**

Boundary value problems in non-Cartesian systems, diffraction, perturbation techniques, variational techniques, wave transformations.

Prereq: ECE 530 or Permission .

ECE 533 Antenna Theory**3 credits**

Maxwell's equations, reciprocity, equivalence theorems; wire antennas, antenna arrays, aperture antennas; analysis and design techniques; hardware considerations. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 432 or Permission.

ECE 538 EM Simulation**3 credits**

Computer simulation of electromagnetics using the finite-difference time-domain (FDTD) method; theory of finite-difference simulation, techniques for modeling EM propagation in lossy and dispersive media, boundary conditions for time-domain simulation.

Prereq: Permission.

ECE 539 Advanced Topics in Electromagnetics**3 credits**

Topics include computational and analytical methods, remote sensing, nonlinear optics, guided wave theory, antenna theory.

Prereq: ECE 530 or Permission.

ECE 541 Advanced Computer Architecture**3 credits**

Joint-listed with ECE 441. Cross-listed with CS 451, CS 551.

Principles and alternatives in instruction set design; processor implementation techniques, pipelining, parallel processors, memory hierarchy, and input/output; measurement of performance and cost/performance trade-off. Additional work required for graduate credit.

Prereq: CS 150, STAT 301, ECE 240, or Permission .

ECE 544 Supervisory Control and Critical Infrastructure Systems**3 credits**

Joint-listed with ECE 444. Cross-listed with CS 444, CS 544.

Principles of network-based distributed real-time control and critical infrastructure systems. Integration of dedicated control protocols with wide area networks (e.g. the Internet). Issues of reliability, cost, and security. Application to selected industries, such as electric power distribution and waste and water management. Recommended preparation: ECE 340, CS 240, ME 313, CE 330, or CE 372. (Spring, alt/yr.)

Prereq: Senior or Graduate standing in the College of Engineering.

ECE 545 Advanced VLSI Design**3 credits**

CMOS circuit techniques, analysis, modeling, performance, processing, and scaling; design of CMOS logic, gate arrays, data and signal processors, and memory.

Prereq: ECE 445 .

ECE 551 Electroacoustic Sensors and Systems**3 credits**

Joint-listed with ECE 451

Review linear systems. Derive and solve wave equation for strings, membranes, plates, acoustic waveguides. Radiation, reflection, transmission of sound. Analogies among electrical, magnetic, mechanical, acoustical systems. Strong emphasis on 2-port networks. Modeling transducers: loudspeakers, microphones, hydrophones. Sound perception and models of human hearing. Applications to voice communication systems, medical imaging, sonar, spatial listening, seismology, hearing protectors and hearing aids, materials inspection, room acoustics, etc. Additional projects/assignments required for grad credit. (Fall only)

Prereq: ECE 350 or ME 313 or Permission.

ECE 555 Information Theory**3 credits**

Introduction to Shannon Theory; entropy, relative entropy, and mutual information; asymptotic equipartition; entropy rates of stochastic processes; data compression; channel capacity, differential entropy; the Gaussian channel, Lempel-Ziv coding, rate distortion theory.

Prereq: ECE 455 or Permission.

ECE 556 Adaptive Signal Processing**3 credits**

Theory and applications of adaptive signal processing; adaptive linear combiner; performance surfaces; adaptive optimization of performance by gradient search; learning curve behavior, adaptation rates, and misadjustment; applications to filtering, prediction, estimation, control, and neural networks.

Prereq: ECE 350, MATH 330, and ECE 450 or ECE 452 or ECE 476 or ECE 477, or Permission.

ECE 557 Biological Signal Processing

3 credits

Introduction to computational neuroscience. Neurons and neuron models, basic signaling mechanisms of neurons, networks of neurons, learning models, learning model algorithms, weight-based memory models. The Hodgkin-Huxley model. A principal emphasis in this course is the development of quantitative models and analysis of neural systems. A term project is required. Recommended preparation: introductory course in linear algebra. Familiarity with at least one programming language. (Spring, alt/yrs)

Prereq: MATH 160 or MATH 170 and Permission.

ECE 562 Semiconductor Theory

3 credits

Joint-listed with ECE 462

Fundamental theory and behavior of modern semiconductor devices. Additional projects/assignments reqd for grad cr.

Prereq: ECE 460 or Permission.

ECE 565 Introduction to Microelectronics Fabrication

3 credits

Joint-listed with ECE 465

This course serves as an introduction to the fabrication of microelectronic devices. Topics include the basics of IC structures, clean room protocol, photolithography, film growth and deposition, as well as IC interconnect technologies. Additional projects/assignments required for graduate credit.

Prereq: ECE 310 .

ECE 569 Resilient Control of Critical Infrastructure

3 credits

Joint-listed with ECE 469

This course establishes a perspective on the unique challenges of automation in our society and provides insight on how an industrial control system works and how it can fail due to threats from cyber security, human error, and complex interdependencies. It also introduces concepts from the resilient controls community that attempt to make industrial control systems more resilient to these threats. Furthermore, it provides background to the vocabulary and fundamental concepts related to the variety of disciplines required for the effective management, control, and protection of critical infrastructure. Additional work required for graduate credit. Cooperative: open to WSU degree-seeking students.

ECE 570 Random Signals

3 credits

Probability, random variables, and random signals in engineering systems; stochastic calculus, stationarity, ergodicity, correlation, and power spectra; propagation of random signals through linear systems; Kalman filter theory and applications. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 350, and STAT 301 or STAT 451, or Permission.

ECE 571 Estimation Theory for Signal Processing, Communications, and Control

3 credits

Identification of dynamic system models from test data; methods to be considered include least-squares, prediction error, maximum likelihood, instrumental variables, correlation, and extended Kalman filter; practical applications and computer-based exercises emphasized within a mathematically rigorous framework. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 570 or Permission .

ECE 572 Linear System Theory

3 credits

Cross-listed with ME 580.

Linear spaces and linear operators; descriptions of dynamic systems; input-output descriptions; state-space concepts; canonical forms; controllability and observability; minimal realizations; application to control and general systems analysis; pole assignment; observers. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 470 or Equivalent.

ECE 574 Optimal Control Theory

3 credits

Intro to optimization, parameter optimization, optimization of dynamic systems, optimization of dynamic systems with path constraints, optimal feedback control and dynamic programming, linear quadratic regulators, second variation methods, singular control problems, differential games. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 572 or Permission .

ECE 578 Neural Network Design

3 credits

Cross-listed with CS 578.

Introduction to neural networks and problems that can be solved by their application; introduction of basic neural network architectures; learning rules are developed for training these architectures to perform useful functions; various training techniques employing the learning rules discussed and applied; neural networks used to solve pattern recognition and control system problems.

Prereq: Permission.

ECE 579 Engineering Acoustics

3 credits

Cross-listed with ME 513.

Fundamentals of acoustics including wave theory; transmission through layers, generation and reception; low frequency models; application to sound measurement, transducers, loudspeaker cabinet design, and nondestructive testing; acoustic design project reqd. Additional projects/ assignments reqd for grad cr. ME 513 is a cooperative course available to WSU degree-seeking students.

Prereq: ENGR 240 or ECE 212, and MATH 310, or ME 313.

ECE 591 Electrical Engineering Research Colloquium

0 credits

Graded P/F. Weekly colloquia on topics of general interest in electrical engineering and related fields; speakers will be from UI Electrical Engineering Department, other departments on campus, WSU, the local community, and outside agencies and universities.

ECE 598 (s) Cooperative Internship

Credit arranged

Supervised internship in industry in professional engineering settings, integrating academic study with work experience; requires a final written report and possible additional requirements to be worked out with the faculty supervisor. Graded P/F.

Prereq: Permission .

ECE 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ECE 600 Doctoral Research and Dissertation

Credit arranged.

ENGINEERING MANAGEMENT (EM)

EM 404 (s) Special Topics
Credit arranged.

EM 502 (s) Directed Study
Credit arranged.

EM 504 (s) Special Topics
Credit arranged).

EM 510 Engineering and Technology Management Fundamentals
3 credits

Cross-listed with TM 510.

Fundamental principles of engineering management addressing management theory applied to the engineering environment; management processes and techniques; attitudes that facilitate the leadership role of the engineering manager in an engineering organization; team-taught by business and engineering faculty.

Prereq: Permission.

EM 550 Process Improvement Methods
3 credits

This course will examine a framework for delivering dramatic and sustained continuous improvement results through the integration of improvement methodologies such as Lean Six Sigma and Design for Lean Six Sigma (DFLSS).

EM 560 Project Risk Management
3 credits

Application of project risk assessment tools and techniques that help increase the probability of project success. Discover different approaches used by commercial and federal agencies to identify, assess, and quantify risks and their impacts on projects.

Prereq: Instructor Permission .

EM 570 Global Product Development
3 credits

Discussion of topics related to enabling effective global product development spanning the entire product development cycle from strategy development, through project execution, and ultimately post release product support. Rather than presenting a fixed methodology, this course will provide a framework for global development that can be adapted to specific environments.

EM 580 Technical Project Management
3 credits

Traditional project management approaches are typically structured around the five PMBOK (Project Management Book of Knowledge) process groups. This course will introduce the PMBOK process groups but then discuss five different project management life cycle (PMLC) models to manage a project. The topics discussed are appropriate for new project managers but also for experienced project managers who are looking to increase their awareness and improve their skills in differing PMLC models.

EM 582 Advanced Topics in Project Management
3 credits

Discussion and application of advanced project management topics beyond those prescribed by traditional project management approaches. Example topics include project portfolio management, multi-project management, use of Theory of Constraints (TOC) and Critical Chain approaches to drive improved results, and application of Agile practices. These approaches should be applicable to a wide variety of industries and functions.

Prereq: EM 580 or Instructor Permission.

EM 596 Capstone Integration
1 credit

Capstone integration of degree material in Engineering Management and comprehensive final exam.

Prereq: Permission .

EM 599 (s) Non-thesis Master's Research
Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ENGINEERING-GENERAL (ENGR)

ENGR 105 Engineering Graphics

2 credits

Freehand and computer aided drawing in pictorial and orthographic projection; section and auxiliary views; descriptive geometry; graphical presentation of data; scales, dimensioning, and measurements. Two lec and one 2-hr lab a wk.

ENGR 204 (s) Special Topics

Credit arranged .

ENGR 205 Near Space Engineering

1 credits, max 6)

Idaho RISE (Research Involving Student Engineers and Educators) is the NASA Idaho Space Grant Consortium student high-altitude scientific balloon program at the University of Idaho. RISE is a multidisciplinary program involving students from all departments in the College of Engineering, as well as Physics, Chemistry, Life Sciences, Education, and many other departments. Students in ENGR 205 will participate in the design, development, testing, flight and flight operations, recovery, and data analysis of balloon-borne science and engineering instrumentation flown to altitudes of 100,000 feet and higher. Recommended Preparation: Interest in space, aerospace science and engineering.

ENGR 206 Near Space Engineering II

1 credits, max 6

Idaho RISE (Research Involving Student Engineers and Educators) is the NASA Idaho Space Grant Consortium student high-altitude scientific balloon program at the University of Idaho. RISE is a multidisciplinary program involving students from all departments in the College of Engineering, as well as Physics, Chemistry, Life Sciences, Education, and many other departments. Students in ENGR 206 will participate in the design, development, testing, flight and flight operations, recovery, and data analysis of balloon-borne science and engineering instrumentation flown to altitudes of 100,000 feet and higher. Recommended Preparation: Interest in engineering, space, and aerospace sciences. (Spring only)

ENGR 210 Engineering Statics

3 credits

Principles of statics with engineering applications; addition and resolution of forces, vector algebra, moments and couples, resultants and static equilibrium, equivalent force systems, centroids, center of gravity, free body method of analysis, two and three dimensional equilibrium, trusses, frames, and friction. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 170.

ENGR 220 Engineering Dynamics

3 credits

Particle and rigid body kinematics and kinetics; rectilinear, curvilinear, and relative motion, equations of motion, work and energy, impulse and momentum, systems of particles, rotation, rotating axes, rigid body analysis, angular momentum, vibration, and time response. Cooperative: open to WSU degree-seeking students.

Prereq: ENGR 210.

ENGR 240 Introduction to Electrical Circuits

3 credits

Not open for credit to electrical engineering majors. Circuit analysis, transient and steady state behavior, resonant systems, system analysis, and power and energy concepts; elementary differential equations will be introduced to solve basic transient problems.

Prereq: MATH 175 and PHYS 211/PHYS 211L.

ENGR 320 Engineering Thermodynamics and Heat Transfer

3 credits

First and second laws of thermodynamics; thermodynamic processes; thermodynamic properties; flow processes; conversion of heat into work; conduction, convection, radiation, and heat exchangers. Recommended Preparation: ENGR 210 and MATH 310. Cooperative: open to WSU degree-seeking students.

ENGR 335 Engineering Fluid Mechanics

3 credits

Physical properties of fluids; fluid statics; continuity, energy, momentum relationships; laminar and turbulent flow; boundary layer effects; flow in pipes, open channels, and around objects. Cooperative: open to WSU degree-seeking students.

Prereq: ENGR 210, MATH 275.

ENGR 350 Engineering Mechanics of Materials

3 credits

Elasticity, strength, and modes of failure of engineering materials; theory of stresses and strains for ties, shafts, beams, and columns. Cooperative: open to WSU degree-seeking students.

Prereq: ENGR 210, MATH 175

Coreq: MATH 310.

ENGR 360 Engineering Economy

2 credits

Economic analysis and comparison of engineering alternatives. This class meets for 3 lectures per week for the first 10 weeks of the semester. This is a class that meets for 3 lectures per week for the first 10 weeks of the semester.

Prereq: Junior standing .

ENGR 398 (s) Internship

Credit arranged .

ENGR 404 (s) Special Topics

Credit arranged.

ENGR 428 Numerical Methods

3 credits

Cross-listed with MATH 428, PHYS 428

Systems of equations, root finding, error analysis, numerical solution to differential equations, interpolation and data fitting, numerical integration, related topics and applications.

Prereq: MATH 310.

ENGR 499 (s) Directed Study

Credit arranged.

ENGR 504 (s) Special Topics

Credit arranged.

ENGLISH (ENGL)

Vertically-related courses in this subject field are: ENGL 101-ENGL 102. In addition, for English majors ENGL 215 or permission of instructor also is a prerequisite or co-requisite to literature courses numbered 300 and above.

ENGL 101 Introduction to College Writing

3 credits

Gen Ed: English

Workshop on strategies for generating ideas for writing, for planning and organizing material, and for revising and editing; intended to prepare students for the demands of college writing, focusing on reading critically and incorporating source material. Graded P (pass)/N (repeat)/F (fail).

Coreq: Students with ACT scores 1-17, SAT reading scores 10-24, COMPASS scores 1-67, or no standardized test scores must concurrently enroll in ENGL 109.

ENGL 102 College Writing and Rhetoric

3 credits

Gen Ed: English

Applied principles of expository and argumentative essay writing, including summaries, critiques, and syntheses of texts, and the research essay; emphasis on clear, concise, and vigorous prose. Graded A/B/C/N (repeat)/F.

Prereq: ENGL 101 or Equivalent.

ENGL 109 Writing Studio

1 cr

Student-centered group tutorial focusing on writing improvement connected to the English 101 course. Graded Pass/Fail.

Coreq: ENGL 101 .

ENGL 175 Introduction to Literary Genres

3 credits

Gen Ed: Humanities

Introduction to the terminology, techniques, and formal characteristics of literary genres. Intended to provide the general student and the beginning English major with basic experience in literary analysis.

ENGL 201 English Grammar: Key Concepts and Terms

1 credit

Study of grammar and grammatical concepts; terms and concepts drawn from traditional and transformational grammar; includes practice in sentence diagramming with connections drawn to other grammatical systems. Not an ESL course and not remedial. (Spring only).

ENGL 202 Intro to Professional Writing

3 credit

Introduction to the theory and practice of professional writing and its functions in workplace settings. In this rhetorically-based course, students will study and apply conventions to meet the needs of professional writing situations and begin to establish a professional identity by creating and learning how to maintain an electronic portfolio.

Prereq: ENGL 102 or equivalent.

ENGL 204 (s) Special Topics

credit arranged.

ENGL 207 (s) Persuasive Writing

Engl 207 (s) Persuasive Writing (3 cr)

Intermediate course in the practices of writing to persuade with special emphasis on current issues and audience awareness; includes research-based writing.

Prereq: ENGL 102 or Equivalent.

ENGL 208 (s) Personal & Exploratory Writing

3 credits

Intermediate course in the practices of personal and exploratory writing; may include personal narrative and observation, autobiography, or extended reflection; special attention to prose style and voice; includes research-based writing.

Prereq: ENGL 102 or Equivalent.

ENGL 215 Introduction to English Studies

3 credits

The gateway course for all English majors, focusing on goals of and opportunities opened by the various branches of English studies, the practice of close reading, critical terminology and issues central to English studies, and basic research and writing practices necessary for literary study.

Prereq or Coreq: ENGL 102 .

ENGL 221 History of Film 1895-1945

3 credits

Gen Ed: Humanities, International

Introduction to film history; a comprehensive survey of the major film movements from the birth of the cinema to the mid 20th Century.

Recommended preparation: ENGL 102.

ENGL 222 History of Film 1945-Present

3 credits

Gen Ed: Humanities, International

Introduction to modern film history; a comprehensive survey of the major film movements from the mid 20th Century to the contemporary cinematic scene. Recommended preparation: ENGL 102.

ENGL 230 Introduction to Film Studies

3 credits

Introduction to the study of film; survey of film aesthetics, form, theory, style, and analysis. Recommended Preparation: ENGL 102.

ENGL 231 Introduction to Screenwriting

3 credits

Cross-listed with JAMM 231

Introduction to the elements of screenwriting; students explore narrative techniques through the study of the short film form, using genre, developing characters, and advancing a story by effectively using cinematic language. Recommended Preparation: ENGL 230 .

ENGL 241 Intro to the Study of Language

3 credits

Cross-listed with ANTH 241.

Surveys of sound patterns, morphological processes and syntactic structures; questions of language acquisition, variation, and history; exercises from a variety of languages, with emphasis on American English.

ENGL 257 Literature of Western Civilization

3 credits

Gen Ed: Humanities

Masterpieces reflecting development of Western thought and culture, Classical Greece to the Renaissance.

ENGL 258 Literature of Western Civilization

3 credits

Gen Ed: Humanities

Masterpieces reflecting development of Western thought and culture, 17th century to the present.

ENGL 290 Introduction to Creative Writing

3 credits

Introduction to Creative Writing gives students practice closely reading and writing their own short samples of three genres of creative writing: poetry, fiction, and nonfiction. Emphasis is on the craft of writing these genres, explored through a range of sample readings and writing exercises, in both a lecture class and weekly small-group sessions. This class prepares students for any intermediate-level creative writing course.

ENGL 291 Beginning Poetry Writing

3 credits

Intro to techniques of writing poetry.

ENGL 292 Beginning Fiction Writing

3 credits

Intro to techniques of writing fiction.

ENGL 293 Beginning Nonfiction Writing

3 credits

Intro to techniques of writing creative nonfiction.

ENGL 299 (s) Directed Study

Credit arranged.

ENGL 309 Rhetorical Style

3 credits

Analyze how style varies according to rhetorical genre and purpose; practice composing in multiple genres and styles.

Prereq: ENGL 102 and Sophomore Standing .

ENGL 310 Literary Theory

3 credits

Current trends and issues in literary theory, with practice in the application of theory to literary texts.

Prereq: ENGL 102 and ENGL 215; and ENGL 175, ENGL 257, or ENGL 258 .

ENGL 313 Business Writing

3 credits

Gen Ed: Communication

Principles and practice of effective business communication. Projects teach conventions of tone and style appropriate to the specific discourse situation in a variety of formats, including oral, written, visual, and multimedia genres.

Prereq: ENGL 102 or Equivalent; Sophomore standing.

ENGL 316 Environmental Writing

3credits

Principles and practice in writing related to communicating information about scientific and environmental issues to public audiences through proposals, correspondence, and essays or reports.

Prereq: ENGL 102 or Equivalent; Junior standing or Permission.

ENGL 317 Technical Writing

3credits

Gen Ed: Communication

Principles and practice of effective technical communication. Projects teach conventions of tone and style appropriate to the specific discourse situation in a variety of formats, including oral, written, visual, and multimedia genres.

Prereq: ENGL 102 or Equivalent; Junior standing or Permission.

ENGL 318 Science Writing

3 credits

Cross-listed with JAMM 328

Principles and practices of making scientific concepts and work accessible to general audiences through multiple forms of media; also examines the ways in which media coverage of scientific issues shapes public opinion and policy.

Prereq: ENGL 102 and Sophomore Standing .

ENGL 322 Environmental Literature and Culture

3credits

Gen Ed: Humanities

Introduction to environmentally-oriented literature and other cultural texts, such as visual art, music, and film. Focus on British and American traditions of nonfiction nature writing, nature poetry, and environmental fiction, but may include work from other countries and regions.

Prereq: ENGL 102.

ENGL 341 Survey of British Literature

3 credits

Gen Ed: Humanities

Medieval, Renaissance, 17th Century, Restoration, and 18th Century Literature.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258 .

ENGL 342 Survey of British Literature

3 credits

Gen Ed: Humanities

Romantic, Victorian, Modern, and Contemporary literature.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 343 Survey of American Literature

3 credits

Gen Ed: Humanities

Indigenous beginnings to the American Civil War.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258 .

ENGL 344 Survey of American Literature

3 credits

Gen Ed: Humanities

Post-Civil War to contemporary writers.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 345 Shakespeare

3 credits

Gen Ed: Humanities

Introductory course; background and study of selected plays representative of Shakespeare's achievement.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 375 The Bible as Literature

3 credits

Gen Ed: Humanities

Cross-listed with RELS 375

Literary qualities of the Bible.

Prereq: ENGL 102.

Prereq or Coreq: ENGL 175 or EGNL 257 or ENGL 258.

ENGL 380 Introduction to U.S. Ethnic Literatures**3 credits***Gen Ed: American Diversity*

Emphasis on U.S. minority writers and reading across cultures; selections will vary from semester to semester.

Prereq: ENGL 102**Prereq or Coreq:** ENGL 175 or ENGL 257 or ENGL 258 .**ENGL 382 Queer Literature****3 credits**

Comparative study of significant LGBTQ+ texts, topics, and writers, with emphasis on understanding the queer experience inherent in landmark works of fiction, poetry, nonfiction, and drama.

Prereq: ENGL 102 .**ENGL 391 Intermediate Poetry Writing****3 credits**

Intermediate poetry writing workshop; emphasis on workshop approach, development of portfolio, continued reading in poetry.

Prereq: ENGL 102 and ENGL 291; or Permission.**ENGL 392 Intermediate Fiction Writing****3 credits**

Intermediate fiction writing workshop; emphasis on workshop approach, development of portfolio, continued reading in fiction.

Prereq: ENGL 102 and ENGL 292; or Permission.**ENGL 393 Intermediate Nonfiction Writing****3 credits**

Intermediate creative nonfiction; emphasis on workshop approach.

Prereq: ENGL 102 and ENGL 293; or Permission.**ENGL 400 (s) Seminar****Credit arranged****Prereq:** ENGL 102.**ENGL 401 Writing Workshop for Teachers****3 credits**

Enrollment limited to juniors or seniors majoring or minoring in English or in secondary or elementary education programs. Develops students' writing abilities in a workshop setting adaptable to K-12 classrooms and includes theory and practice of teaching writing in elementary and secondary schools.

Prereq: ENGL 102.**ENGL 402 Internship in Tutoring Writing****3 credits**

Theoretical and practical issues involved in tutoring writing; directed experience tutoring students across the disciplines. Graded P/F.

Prereq: ENGL 102 or Equivalent and Permission.**ENGL 404 (s) Special Topics****Credit arranged****Prereq:** ENGL 102.**ENGL 407 Phonetics and Phonology****3 credits**

Joint-listed with ENGL 507

This course explores issues in both first and second language acquisition focusing on language structure, use and development by monolingual and bilingual children. Graduate work will be assessed in accordance with graduate-level standards.

Prereq for ENGL 407: ENGL 241 .**ENGL 408 Language Acquisition and Development****3 credits**

This course explores issues in both first and second language acquisition focusing on language structure, use and development by monolingual and bilingual children.

Prereq: ENGL 241 .**ENGL 413 ESL Meth I:Basic Oral/Aural Skills****3 credits**

Joint-listed with ENGL 513

Survey of most widely used classroom techniques for developing speaking and listening skills in a second language; alternative innovative approaches. Additional projects/assignments reqd for grad cr. (Fall, Alt/ yrs)

Prereq: ENGL 241 or Permission.**ENGL 414 ESL Methods II:Reading, Writing, and Special Purpose English****3 credits**

Joint-listed with ENGL 514

Survey of most widely used classroom techniques for developing- reading and writing skills in a second language and teaching techniques to specialized professional programs. Additional projects/assignments reqd for grad cr. (Spring, Alt/yrs)

Prereq: ENGL 241 or Permission.**ENGL 419 Writing for the Web****3 credits**

Written and multimodal composition in various digital media, potentially including but not limited to blogs, microblogs, and websites.

Prereq: At least one of the following courses: ENGL 202, ENGL 207, ENGL 208, ENGL 309, ENGL 313, ENGL 316, ENGL 317, ENGL 318, or ENGL 440. Courses in JAMM or COMM may also be accepted as pre- or co-reqs with instructor approval.

ENGL 420 (s) Literature and Film**3 credits, max 6**

Study of both literature and film in considering a time period, theme, culture, or genre. Recommended Preparation: ENGL 230.

Prereq: ENGL 102**Prereq or Coreq:** ENGL 175 or ENGL 257 or ENGL 258 .**ENGL 426 Modern Poetry****3 credits****Prereq:** ENGL 102**Prereq or Coreq:** ENGL 175 or ENGL 257 or ENGL 258.**ENGL 427 Modern Fiction, 1900-1945****3 credits**

Offered with emphasis on British and/or American writers.

Prereq: ENGL 102**Prereq or Coreq:** ENGL 175 or ENGL 257 or ENGL 258.**ENGL 429 Contemporary Fiction****3 credits**

Fiction since 1945; offered with emphasis on British and/or American writers.

Prereq: ENGL 102**Prereq or Coreq:** ENGL 175 or ENGL 257 or ENGL 258.**ENGL 431 Contemporary Poetry****3 credits**

Important poets from the latter part of the 20th century to the present. The instructor may survey the works of numerous poets, or may focus on as few as six.

Prereq: ENGL 102**Prereq or Coreq:** ENGL 175 or ENGL 257 or ENGL 258.

ENGL 432 Film Theory and Criticism

3 credits

Survey of major principles and methods of film theory and criticism as they relate to development of film art from 1890 to the present.

Recommended Preparation: ENGL 230 or ENGL 310.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 433 Chaucer

3 credits

Intro to Chaucer's poetical works.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 440 (s) Client-Based Writing

3 credits

Gen Ed: Senior Experience

A capstone course in which students work with clients to practice writing in professional genres. Required of students in the professional writing emphasis and writing minor. (Spring only)

Prereq: ENGL 102; and Senior standing or 24 credits of English courses .

ENGL 442 Introduction to Morphology and Syntax

3 credits

Structure and processes of English syntax; syntax as component of style.

Prereq: ENGL 241.

ENGL 444 Sociolinguistics

3 credits

Joint-listed with ENGL 544

Introduces the study of the relationship among language, society and culture. Specific topics include (1) native and nonnative variation of English, (2) language attitudes and ideology, (3) multilingualism, and (4) social class and gender. Provides practice in the methods for collecting and analyzing sociolinguistic data. Examines educational and political implications. Additional projects required for graduate credit. (Spring, alt/years)

Prereq: ENGL 241 or Permission .

ENGL 445 Literature for Adolescents

3 credits

Theory and practice of literature study in secondary schools, and appraisal of literature appropriate to the needs, interests, and abilities of adolescents.

Prereq: ENGL 102; and Enrollment in a program leading to certification in secondary English or Elementary Education (Elementary Education majors must have completed 6 cr of literature and EDCI 321; students in Secondary Education programs must have completed 9 cr of literature); or Permission.

ENGL 447 Screenwriting

3 credits

Cross-listed with JAMM 447 and THE 447. Joint-listed with ENGL 547.

Introduction to Study of the fundamental elements of feature film screenwriting; techniques of developing story lines and advancing a narrative in a visual way using the industry standard of a tightly structured long-form feature film. Additional projects/assignments required for graduate credit.

Prereq: ENGL 231 or JAMM 231; Permission.

ENGL 448 Psycholinguistics

3 credits

Cross-listed with PSYC 448

Survey of cognitive processes of language comprehension, language/speech production, and language acquisition. Recommended Preparation: ENGL 241 or ANTH 241, PSYC 101.

Prereq: ENGL 102.

ENGL 451 Renaissance and 17th Century Literature

3 credits

Normally offered in period survey, themes, or major authors.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 456 Restoration and Eighteenth Century

3 credits

Offered in period survey, themes, or major authors.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 466 The Victorian Period

3 credits

Offered in themes, genre studies, or major authors.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258 .

ENGL 473 (s) American Regional Literature

3 credits

Studies in the distinctive qualities of literature from various U.S. regions, such as the West, the Northwest, the South, the Midwest, and New England.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 475 (s) Studies in Literary Genres

3 credits

Specific focus on developments within poetry, fiction, non-fiction, drama and film.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258 .

ENGL 477 Documentary Film

3 credits

Cross-listed with ENGL 477.

An examination of the historical development of nonfiction film and television. Study of documentary style and form, a consideration of social issues raised by documentary and a survey of significant practitioners and theorists of documentary film and television. Recommended preparation: ENGL 230.

Prereq:ENGL 102 and sophomore standing.

ENGL 481 (s) Women's Literature

3 credits, max 6

Literature by women; genres, nationalities, and historical periods may vary from semester to semester. (Alt/ysr).

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 482 (s) Major Authors

3 credits, max arranged

Comprehensive study of the works of a single author. See the Time Schedule for author.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 483 African American Literature

3 credits

Major themes and traditions in African American texts.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258 .

ENGL 484 American Indian Literature

3 credits

Gen Ed: American Diversity

Cross-listed with AIST 484

Major themes and traditions in American Indian texts.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

ENGL 485 (s) Global Literatures in English

3 credits, max 6

Recent developments in international literature, with emphasis on literature from postcolonial Anglophone cultures and diasporic communities. Recommended preparation: ENGL 215 and ENGL 258.

Prereq: ENGL 102

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258 .

ENGL 490 Senior Seminar

3 credits

Gen Ed: Senior Experience

A capstone course in which students use the skills learned in the major to explore a common topic, produce a substantial writing project and situate themselves and their work within literary, interdisciplinary and non-academic contexts. Required of English majors in literature and creative writing emphases.

Prereq: ENGL 102; and Senior standing or 24 credits of English courses.

ENGL 491 Advanced Poetry Writing

3 credits, max arranged)

Continuation of ENGL 391.

Prereq: ENGL 102 and ENGL 391 or Permission.

ENGL 492 Advanced Fiction Writing

3 credits, max arranged

Continuation of ENGL 392.

Prereq: ENGL 102 and ENGL 392 or Permission.

ENGL 493 Advanced Nonfiction Writing

3 credits, max arranged

Advanced creative nonfiction; emphasis on workshop approach.

Prereq: ENGL 102 and ENGL 393 or Permission.

ENGL 496 History of the English Language

3 credits

Evolution of the language from Proto-Germanic to American English.

Recommended Preparation: ENGL 241. (Fall only)

Prereq: ENGL 102 .

ENGL 497 Practicum

1-3 credits, max 6)

Supervised experience in assisting in the teaching of an English course.

Graded P/F.

Prereq: ENGL 102; and Upper-class standing and permission of instructor and director of undergraduate studies.

ENGL 498 (s) Internship

1-3 credits, max 6

Joint-listed with ENGL 598

Graded P/F. Supervised experience in professional uses of English.

Additional projects/assignments reqd for grad cr. With advisor's approval, up to 3 credits of ENGL 498 may be counted toward the undergraduate English major.

Prereq: Permission of director of Graduate Studies or Director of Undergrad Studies, Department of English.

ENGL 499 (s) Directed Study

1-3 credits, max 3

Prereq: ENGL 102.

ENGL 500 Master's Research and Thesis

Credit arranged

Graded P/F.

ENGL 501 (s) Seminar

Credit arranged.

ENGL 502 (s) Directed Study

1-3 credits, max 3

Normally offered in English and American literature and in linguistics; may not duplicate course offerings. Graded P/F.

Prereq: Permission.

ENGL 503 (s) Workshop in Creative Writing

Credit arranged

Workshop for advanced writers; analysis of theory, composition, and techniques with the goal of extending technical skills of the student writer through study of professional writers' work. All applicants must submit typed manuscripts of their work at least 10 days before registration.

Prereq: Permission .

ENGL 504 (s) Special Topics

Credit arranged.

ENGL 505 (s) English Studies Professional Development

1-3 credits, max 6

Graded P/F. Coursework designed to enhance pedagogical skills in teaching writing and literature.

Prereq: Permission.

ENGL 506 Composition Theory

3 credits

Critical examination of theory, pedagogy, and research in composition studies.

ENGL 507 Phonetics and Phonology

3 credits

Joint-listed with ENGL 407

This course explores issues in both first and second language acquisition focusing on language structure, use and development by monolingual and bilingual children. Graduate work will be assessed in accordance with graduate-level standards.

Prereq for ENGL 407: ENGL 241 .

ENGL 508 MAT Project

3 credits

Graded P/F.

ENGL 510 (s) Studies in Linguistics

3 credits, max 12

Topics such as phonology, computer assisted language learning, material development, corpus linguistics, or the application of linguistics to the teaching of English literature or composition.

Prereq: Permission.

ENGL 511 (s) Studies in Critical Theory

3 credits, max 12

Various schools of critical theory, normally offered in historical survey or by theoretical perspective. (Alt/yrs)

Prereq: Permission.

ENGL 513 ESL Methods I: Basic Oral/Aural Skills

3 credits

Joint-listed with ENGL 413

Survey of most widely used classroom techniques for developing speaking and listening skills in a second language; alternative innovative approaches. Additional projects/assignments reqd for grad cr. (Fall, Alt/yrs)

Prereq: ENGL 241 or Permission.

ENGL 514 ESL Methods II: Reading, Writing, and Special Purpose English
3 credits

Joint-listed with ENGL 414

Survey of most widely used classroom techniques for developing- reading and writing skills in a second language and teaching techniques to specialized professional programs. Additional projects/assignments reqd for grad cr. (Spring, Alt/yrs)

Prereq: ENGL 241 or Permission.

ENGL 515 ESL Teaching Practicum

3 credits

Organization and teaching of an ESL course under direction of practicum instructor. (Spring only)

Prereq: Permission.

ENGL 516 Intercultural Communication

3 credits

In-depth examination of major issues related to communication across cultures: communication theory, linguistic relativity, ethnography of speech, crosscultural rhetoric, and nonverbal communication. (Alt/yrs)

Prereq: ENGL 241 or Permission.

ENGL 517 Introduction to Applied Linguistics

3 credits

Theory and practice of comparing and contrasting linguistic systems as basis for preparing instructional materials. (Alt/yrs)

Prereq: ENGL 241 or Permission .

ENGL 518 Advanced English Grammar

3 credits

In-depth linguistic analysis of English grammar, giving special emphasis to morphology and syntax. (Alt/yrs)

Prereq: ENGL 517 or Permission .

ENGL 521 MA-TESL Comprehensive Exam

1 credits, max 2

Registration for this course admits the student to weekly review sessions in preparation for the MA-TESL comprehensive exam and culminates with the two-part exam (linguistics and language pedagogy) given late in the semester. Graded P (pass)/F (fail). Recommended preparation: ENGL 507, ENGL 510, ENGL 513, ENGL 517, and ENGL 518.

ENGL 522 Communication for Science Professionals

3 credits

Development of professional skills in oral and written communication about science, policy, and technology. A core course for Professional Science Masters students; open to other graduate students and advanced undergraduates.

ENGL 523 Composition Pedagogy: Theory and Practice

3 credits

Introduction to pedagogical theory, scholarship and practices essential to teaching college-level writing.

ENGL 524 Descriptive Linguistics

3 credits

Examines the methods linguists use to describe human languages and focuses on the study of phonetics, phonology, morphology, syntax, semantics, and pragmatics.

ENGL 531 Traditions - Fiction

3 credits

An in-depth study of the short story as a literary genre, offering fiction writers a deeper historical context in which to position their own work, as well as intensive practice in the critical analysis of fiction writing craft.

Prereq: Graduate standing in the Department of English; or permission .

ENGL 532 Traditions - Nonfiction

3 credits

An in-depth study of the essay as a literary genre, offering nonfiction writers a deeper historical context in which to position their own work, as well as intensive practice in critical analysis of essay writing craft.

Prereq: Graduate standing in the Department of English; or permission .

ENGL 533 Traditions – Prosody & Forms

3 credits

An in-depth study of historical and traditional prosodies and poetic forms in English, offering poets and students of poetry a better understanding of the mechanical workings of poetry, and intensive practice in critical analysis of poetic forms.

Prereq: Graduate standing in the Department of English; or permission .

ENGL 544 Sociolinguistics

3 credits

Joint-listed with ENGL 444

Introduces the study of the relationship among language, society and culture. Specific topics include (1) native and nonnative variation of English, (2) language attitudes and ideology, (3) multilingualism, and (4) social class and gender. Provides practice in the methods for collecting and analyzing sociolinguistic data. Examines educational and political implications. Additional projects required for graduate credit. (Spring, alt/years)

Prereq: ENGL 241 or Permission .

ENGL 545 Discourse Analysis

3 credits

Introduces students to the major concepts and methods of discourse analysis, including the ethnography of communication, pragmatics, conversational analysis, and speech act theory.

ENGL 547 Screenwriting

3 credits

Joint-listed with ENGL 447.

Introduction to Study of the fundamental elements of feature film screenwriting; techniques of developing story lines and advancing a narrative in a visual way using the industry standard of a tightly structured long-form feature film. Additional projects/assignments required for graduate credit.

Prereq: ENGL 231 or JAMM 231; Permission.

ENGL 550 (s) Studies-19th Cent British Lit

3 credits, max 12)

Normally offered in survey of Romantic literature, survey of Victorian literature, genre studies, and major author(s).

ENGL 551 Theories of Second/Additional Language Acquisition

3 credits

Examines how languages are learned by young adults in naturalistic and instructional settings.

ENGL 560 (s) Studies in American Literature Before 1900

3 credits, max 12

Normally offered in period survey, genre studies, and major author(s). (Alt/yrs)

ENGL 570 (s) Studies in 20th-21st Centuries British & American Literature

3 credits, max 12

Normally offered in period survey, genre studies, and major author(s).

ENGL 581 Techniques of Poetry

3 credits, max arranged

A substantial and highly analytical examination of the art and craft of poetry, from a writerly perspective.

Prereq: Admission to the MFA in Creative Writing program or instructor permission.

ENGL 582 Techniques of Fiction

3 credits, max arranged

A substantial and highly analytical examination of the art and craft of fiction, from a writerly perspective.

Prereq: Admission to the MFA in Creative Writing program or instructor permission.

ENGL 583 Techniques of Nonfiction

3 credits, max arranged

A substantial and highly analytical examination of the art and craft of nonfiction, from a writerly perspective.

Prereq: Admission to the MFA in Creative Writing program or instructor permission.

ENGL 591 MFA Poetry Workshop

3 credits, max arranged

Advanced poetry writing workshop.

Prereq: Admission to the MFA in Creative Writing program or instructor permission.

ENGL 592 MFA Fiction Workshop

3 credits, max arranged

Advanced fiction writing workshop.

Prereq: Admission to the MFA in Creative Writing program or instructor permission.

ENGL 593 MFA Nonfiction Workshop

3 credits, max arranged

Seminar on the evolving genre of "literary non-fiction": using modes of fiction, drama, and poetry for nonfictive aims, such as memoirs or autobiography, travel narrative, and character sketch; workshop on participants' writing in the genre.

Prereq: Admission to the MFA in Creative Writing program or instructor permission.

ENGL 595 MFA Novel Workshop

3 credits, max 6

A two-semester intensive seminar/workshop on the craft of novel writing, which includes directed writing, individual conferencing, critical analysis of exemplary novels, as well as critical response to peer work. Students will make substantial progress toward the completion of a novel of publishable quality.

Prereq: Admission to the MFA in Creative Writing program or instructor permission .

ENGL 596 MFA Long Form Nonfiction Workshop

3 credits, max 6

A two-semester intensive seminar/workshop on the craft of book-length nonfiction writing, which includes directed writing, individual conferencing, critical analysis of exemplary texts, as well as critical response to peer work. Students will make substantial progress toward the completion of a book of publishable quality.

Prereq: Graduate standing and a major in Creative Writing; or permission of the instructor .

ENGL 597 (s) Practicum

1-3 credits, max 3.

ENGL 598 (s) Internship

1-3 credits, max 6

Joint-listed with ENGL 498

Graded P/F. Supervised experience in professional uses of English.

Additional projects/assignments reqd for grad cr. With advisor's approval, up to 3 credits of ENGL 498 may be counted toward the undergraduate English major.

Prereq: Permission of director of Graduate Studies or Director of Undergrad Studies, Department of English.

ENGL 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ENTOMOLOGY (ENT)

ENT 204 (s) Special Topics
Credit arranged.

ENT 299 (s) Directed Study
Credit arranged.

ENT 322 General and Applied Entomology
4 credits

Identification, biology, and importance of insects and related arthropods to humans and agriculture; basic principles of arthropod pest management. Three lec and one 3-hr lab a wk.

ENT 398 (s) Internship
1-6 credits, max 6

Graded P/F.

Prereq: ENT 322 or Permission .

ENT 400 (s) Seminar
Credit arranged.

ENT 404 (s) Special Topics
Credit arranged.

ENT 438 Pesticides in the Environment
3 credits

Gen Ed: Senior Experience

Cross-listed with PLSC 438 and SOIL 438

Principles of pesticide fate in soil, water, and air; pesticide metabolism in plants, pesticide toxicology, and pesticide mode-mechanism of action; pest resistance to pesticides; biotechnology in pest control; regulations and liability; equipment application technology; pesticide transport, storage, and disposal; and social and ethical considerations. Recommended Preparation: CHEM 275.

ENT 440 Insect Identification
4 credits

Joint-listed with ENT 540

Survey of approximately 200 major families; collecting and preservation techniques. For graduate credit, an additional 50 families and selected subfamilies and genera will be covered and a term paper is required. Two lectures and two 2-hr labs a week; two 1-day field trips. Cooperative: open to WSU degree-seeking students. (Alt/hrs)

Prereq: ENT 322 or Permission .

ENT 441 Insect Ecology
3 credits

Joint-listed with ENT 541

Population and community dynamics set in a systems framework; theory and applications in natural and altered systems. Requirements for graduate credit include a longer (10 vs. 5 pages), more synthetic term paper, and each 500-level student will lead a web-based or in-class discussion on a research paper of their choice. Two 1-day field trips. Recommended Preparation: General ecology. Cooperative: open to WSU degree-seeking students.

Prereq: ENT 322 or Permission .

ENT 469 Introduction to Forest Insects
2 credits

Roles and impacts of insects within forest ecosystems. Current management techniques of arthropod pests (insects and mites) in natural and managed forest systems. Interactions of arthropods with other agents of forest disturbance (fire and fungi). Identification of some common arthropod pests of Rocky Mountain forests.

Prereq: FOR 221 or REM 221 .

ENT 499 (s) Directed Study
Credit arranged.

ENT 500 Master's Research and Thesis
Credit arranged.

ENT 501 (s) Seminar
Credit arranged.

ENT 502 (s) Directed Study
Credit arranged.

ENT 504 (s) Special Topics
Credit arranged.

ENT 540 Insect Identification
4 credits

Joint-listed with ENT 440

Survey of approximately 200 major families; collecting and preservation techniques. For graduate credit, an additional 50 families and selected subfamilies and genera will be covered and a term paper is required. Two lectures and two 2-hr labs a week; two 1-day field trips. Cooperative: open to WSU degree-seeking students. (Alt/hrs)

ENT 541 Advanced Insect Ecology
3 credits

Joint-listed with ENT 441

Population and community dynamics set in a systems framework; theory and applications in natural and altered systems. Requirements for graduate credit include a longer (10 vs. 5 pages), more synthetic term paper, and each 500-level student will lead a web-based or in-class discussion on a research paper of their choice. Two 1-day field trips. Recommended Preparation: General ecology. Cooperative: open to WSU degree-seeking students.

Prereq: ENT 322 or Permission .

ENT 549 Insect-Plant Interactions
3 credits

Ecology, evolution, and mechanisms of the interactions between insects and plants. Requirements for graduate credit include formal report of field study, term paper. Cooperative: open to WSU degree-seeking students. (Alt/hrs)

Prereq: ENT 322 .

ENT 569 Advanced Forest Entomology
3 credits

Methods and applications of biological and economic evaluation and control strategies of forest insect populations in relation to pest management programs. Recommended preparation: ENT 469. (Fall, alt/hrs)

ENT 597 (s) Practicum
Credit arranged.

ENT 598 (s) Internship
Credit arranged

Prereq: ENT 322 or Permission .

ENT 599 (s) Non-thesis Master's Research
Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ENT 600 Doctoral Research and Dissertation
Credit arranged.

ENTREPRENEURSHIP (ENTR)

ENTR 204 (s) Special Topics

Credit arranged.

ENTR 298 (s) Internship

1-3 credits, max 6.

ENTR 299 (s) Directed Study

Credit arranged.

ENTR 398 (s) Internship

1-3 credits, max 6.

ENTR 404 (s) Special Topics

Credit arranged.

ENTR 414 Entrepreneurship

3 credits

This course is intended to provide an overview of the entrepreneurship phenomenon and the process of identifying and commercializing an opportunity. Primary emphasis will be placed on recognizing and creating an opportunity, feasibility analysis, elements of the business plan, and sources of start-up funds. As such, this class will provide the foundation for developing a business plan for a real entrepreneurial venture in subsequent semesters.

ENTR 415 New Venture Creation

3 credits

The primary purposes of this course are to help diverse teams of students create business plans detailing the operational and financial aspects of a proposed product innovation, and where appropriate, prepare teams to compete in the VIEW-sponsored Business Plan Competition. In order to accomplish this, students will learn how to research and effectively communicate all aspects of a typical business plan, including, but not necessarily limited to: industry analysis, competitor analysis, target marketing, sales strategy, risk assessment, legal considerations, operational plan, management and staffing plan, financial plan and executive summary. The intention is to have the class be a practical-based "laboratory" much of the time, with occasional lectures, demonstrations, guest speakers, relevant videos, and student presentations throughout the term.

Prereq: Senior standing or Permission.

ENTR 499 (s) Directed Study

Credit arranged.

ENVIRONMENTAL ENGINEERING (ENVE)

ENVE 404 (s) Special Topics

Credit arranged.

ENVE 500 Master's Research and Thesis

Credit arranged.

ENVE 501 (s) Seminar

Credit arranged.

ENVE 502 (s) Directed Study

Credit arranged.

ENVE 504 (s) Special Topics

Credit arranged.

ENVE 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ENVIRONMENTAL SCIENCE (ENVS)

ENVS 101 Introduction to Environmental Science 3 credits

Gen Ed: Natural and Applied Sciences

Introduction to basic principles in the biological, physical, and social science areas of environmental science.

ENVS 102 Field Activities in Environmental Sciences 1 credit

Gen Ed: Natural and Applied Sciences

Field studies for ENVS 101. Field demonstrations on waste management, water, air pollution, and the ecosystem. Field trips required.

Prereq or Coreq: ENVS 101.

ENVS 200 (s) Seminar Credit arranged.

ENVS 225 (s) International Environmental Issues Seminar 3 credits

Gen Ed: International

Cross-listed with IS 225.

Designed for individuals who have an interest in understanding environmental issues from a global perspective. The course focuses on various social and physical issues related to the environment and natural resources using human population dynamics as a backdrop. EnvS 101 recommended. (Spring only)

ENVS 299 (s) Directed Study Credit arranged.

ENVS 400 (s) Seminar Credit arranged

Prereq: Junior standing.

ENVS 404 (s) Special Topics Credit arranged.

ENVS 405 (s) Professional Development Credit arranged.

ENVS 409 Principles of Environmental Toxicology 3 credits

Cross-listed with FS 409. Joint-listed with ENVS 509.

Fundamental toxicological concepts including dose-response relationships, absorption of toxicants, distribution and storage of toxicants, biotransformation and elimination of toxicants, target organ toxicity and teratogenesis, mutagenesis, and carcinogenesis; chemodynamics of environmental contaminants including transport, fate, and receptors; chemicals of environmental interest and how they are tested and regulated; risk assessment fundamentals. Students registering for FS 509 are required to prepare an additional in-depth report. Recommended Preparation: BIOL 102 or BIOL 115, CHEM 111, CHEM 112, CHEM 275, and STAT 251.

ENVS 415 Environmental Lifecycle Assessment 3 credits

Joint-listed with ENVS 515.

Environmental life cycle assessment is the study of the environmental impacts resulting from the human production of goods and services from raw material acquisition through ultimate disposition. The class covers the basic concepts of life cycle assessment including definition of system boundaries, inventory of energy and material inputs and resultant emissions, assessment of impacts on human health and the environment, and interpretation of results. Recommended preparation: basic physical and biological sciences and familiarity with spreadsheet programs such as Excel. Additional assignment/projects required for graduate credit.

ENVS 428 Pollution Prevention 3 credits

Basic concepts of pollution prevention and waste minimization; pollution prevention strategies and case studies for solid waste, hazardous waste, water and energy use, and air pollution. (Fall only)

ENVS 429 Environmental Audit 3 credits

Details on a variety of equipment and processes used by business in order to decrease generation of solid and hazardous waste. (Fall only)

ENVS 436 Principles of Sustainability 3 credits

Cross-listed with FS 436. Joint-listed with ENVS 536.

Presented as online doculectures, covering topics such as: Origins of Sustainability, Standards of Sustainability, Culture of Waste, Built Environment, Industrial Sustainability, Energy Sustainability, Water Resources, Measuring Sustainability, Sustainable Impact Assessment, and Our Sustainable Future. Readings and homework are assigned with each topic. Learning assessment will be from homework, exams and written papers. Additional work is required for graduate credit. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: Junior or higher standing .

ENVS 446 Drinking Water and Human Health 3 credits

Joint-listed with ENVS 546

Understand the characterization, testing, and treatment of chemical, microbial and hazardous compounds and their impact on human health. Be familiar with drinking water standards, regulatory aspects and protection of municipal, community, and private well systems. (Spring, Alt/yr)

ENVS 450 Environmental Hydrology 3 credits

Cross-listed with SOIL 450

Carries no credit after BE 355 or CE 325. Comprehensive understanding of the hydrologic processes associated with the environmental processes. Includes components of the hydrologic cycle, analysis of precipitation and run off, evapotranspiration, routing, peak flow, infiltration, soil and water relationships, snowmelt, and frequency analysis. (Spring only)

Prereq: MATH 170 .

ENVS 479 Introduction to Environmental Regulations

3 credits

Joint-listed with ENVS 579

Interpretation and implementation of local, state, and federal environmental rules; introduction to environmental regulatory process; topics include regulatory aspects of environmental impact assessment, water pollution control, air pollution control, solid and hazardous waste, resource recovery and reuse, toxic substances, pesticides, occupational safety and health, radiation, facility siting, environmental auditing and liability. Additional projects/assignments reqd for grad cr. (Fall only)

ENVS 482 Natural Resource Policy and Law

3 credits

Joint-listed with ENVS 582

Course offered only at the University of Idaho at Idaho Falls.

Examination of U.S. natural resource policy and law including historical contexts and current policies and laws. Additional projects/assignments reqd for grad cr. Recommended Preparation: an undergraduate course in political science. (Spring, Alt/yrs)

ENVS 484 History of Energy

3 credits

Covers the history of humanity's relationship to energy. Takes a historical approach beginning with ancient sources of energy, the discovery and exploitation of coal and the industrial revolution, the critical importance of oil and its derivatives, natural gas, nuclear and renewables. Finishes with a look to possible future energy sources.

ENVS 485 Energy Efficiency and Conservation

3 credits

Includes aspects of science, policy, and economics of energy use and efficiency measures. Considers use trends and existing and potential efficiencies primarily on a national scale with some consideration of both global and local situations. Focuses on residential and transportation energy with some coverage of commercial and industrial energy use.

ENVS 497 (s) Senior Research

2-4 credits, max 4)

Gen Ed: Senior Experience

Open only to majors in environmental science. Preparation of proposal, poster, formal presentation and written thesis or report based on research or project conducted with a faculty member. Research addresses an environmental problem using laboratory, field, or library techniques.

Prereq: Senior standing

Prereq or Coreq: ENGL 316 or ENGL 317 .

ENVS 498 (s) Internship

Credit arranged.

ENVS 499 (s) Directed Study

Credit arranged.

ENVS 500 Master's Research and Thesis

Credit arranged.

ENVS 501 (s) Seminar

Credit arranged.

ENVS 502 (s) Directed Study

Credit arranged.

ENVS 504 (s) Special Topics

Credit arranged.

ENVS 505 (s) Professional Development

Credit arranged.

ENVS 509 Principles of Environmental Toxicology

3 credits

Cross-listed with FS 509. Joint-listed with ENVS 409.

Fundamental toxicological concepts including dose-response relationships, absorption of toxicants, distribution and storage of toxicants, biotransformation and elimination of toxicants, target organ toxicity and teratogenesis, mutagenesis, and carcinogenesis; chemodynamics of environmental contaminants including transport, fate, and receptors; chemicals of environmental interest and how they are tested and regulated; risk assessment fundamentals. Students registering for FS 509 are required to prepare an additional in-depth report. Recommended Preparation: BIOL 102 or BIOL 115, CHEM 111, CHEM 112, CHEM 275, and STAT 251.

ENVS 515 Environmental Lifecycle Assessment

3 credits

Joint-listed with ENVS 415.

Environmental life cycle assessment is the study of the environmental impacts resulting from the human production of goods and services from raw material acquisition through ultimate disposition. The class covers the basic concepts of life cycle assessment including definition of system boundaries, inventory of energy and material inputs and resultant emissions, assessment of impacts on human health and the environment, and interpretation of results. Recommended preparation: basic physical and biological sciences and familiarity with spreadsheet programs such as Excel. Additional assignment/projects required for graduate credit.

ENVS 536 Principles of Sustainability

3 credits

Cross-listed with FS 536. Joint-listed with ENVS 436.

Presented as online doculectures, covering topics such as: Origins of Sustainability, Standards of Sustainability, Culture of Waste, Built Environment, Industrial Sustainability, Energy Sustainability, Water Resources, Measuring Sustainability, Sustainable Impact Assessment, and Our Sustainable Future. Readings and homework are assigned with each topic. Learning assessment will be from homework, exams and written papers. Additional work is required for graduate credit.

Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: Junior or higher standing .

ENVS 541 Sampling and Analysis of Environmental Contaminants

3 credits

Covers the sampling and analysis of environmental contaminants from a statistical perspective. Includes designing sampling plans for environmental studies, statistically analyzing environmental data, and touches on more advanced techniques such as time series analysis and censored data. (Fall only)

Prereq: STAT 251 .

ENVS 546 Drinking Water and Human Health

3 credits

Joint-listed with ENVS 446

Understand the characterization, testing, and treatment of chemical, microbial and hazardous compounds and their impact on human health. Be familiar with drinking water standards, regulatory aspects and protection of municipal, community, and private well systems. (Spring, Alt/yrs)

ENVS 552 Environmental Philosophy

3 credits

Cross-listed with PHIL 552

Philosophical examination of various ethical, metaphysical, and legal issues concerning humans, nature, and the environment; issues covered may include biodiversity and species protection, animal rights, radical ecology, environmental racism, wilderness theory, population control, and property rights. Additional projects/assignments required for graduate credit.

ENVS 577 Law, Ethics and the Environment

3 credits

Cross-listed with AGECE 577

Examines the laws and related ethical questions pertaining to agricultural and natural resource issues. Graduate credit includes special projects and additional discussion meetings. Recommended Preparation: BLAW 265.

Prereq for ENVS 577: Graduate standing and FOR 235 or POLS 364; or Permission.

ENVS 579 Introduction to Environmental Regulations

3 credits

Joint-listed with ENVS 579

Interpretation and implementation of local, state, and federal environmental rules; introduction to environmental regulatory process; topics include regulatory aspects of environmental impact assessment, water pollution control, air pollution control, solid and hazardous waste, resource recovery and reuse, toxic substances, pesticides, occupational safety and health, radiation, facility siting, environmental auditing and liability. Additional projects/assignments reqd for grad cr. (Fall only)

ENVS 582 Natural Resource Policy and Law

3 credits

Joint-listed with ENVS 482

Offered only at the University of Idaho at Idaho Falls.

Examination of U.S. natural resource policy and law including historical contexts and current policies and laws. Additional projects/assignments reqd for grad cr. Recommended Preparation: an undergraduate course in political science. (Spring, Alt/yrs)

ENVS 598 (s) Internship

Credit arranged.

ENVS 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ENVS 600 Doctoral Research and Dissertation

Credit arranged.

ENVS 604 (s) Special Topics

Credit arranged

Prereq: Enrollment in a Doctoral Program and Permission.

EXEC MASTER IN BUSINESS ADMIN (EMBA)

EMBA 501 (s) Seminar credit arranged

Seminar.

EMBA 502 (s) Directed Study credit arranged

Directed Study.

EMBA 509 Team Building & Group Dynamics

1 credit

Design and development of work groups and teams; influences, issues, and problems affecting team productivity.

EMBA 510 Summer Integrative Experience

3 credits

Participation in an integrative project of the students own design in consultation with faculty. Possible topics include international study and exchange, social marketing, community outreach, and research writing for publication.

EMBA 512 The External Context of Business

3 credits

This course examines the economic, social, technological, legal, and competitive environments in which organizations operate, with emphasis on the interfaces between business, society, and the natural environment. Frameworks and tools for analyzing this complex organizational context will be introduced, with special attention given to how this context creates opportunities and risks for today's organizations.

EMBA 514 Financial Reporting and Financial Management

3 credits

Introduction to financial accounting, financial statement analysis, and capital budgeting. Employs the tools of accounting and finance to help managers make short-term and long-term decisions. Topics include the role of financial reporting, analysis and auditing in the capital markets, long-term financing through capital structure management, and working capital management.

EMBA 516 Strategic Business Communication

1 credit

The ability to communicate well is an essential component of effective leadership. This course develops the student's ability to communicate important organizational messages effectively to both internal and external audiences with the goal of becoming a better leader.

EMBA 517 Ethical Leadership

1 credit

Examines the foundations of business ethics, and the challenges of ethical decision making and leadership in an environment of globalization and change.

EMBA 521 Strategy Formulation and Execution

2 credits

This course explores concepts, tools and frameworks that the student can use to develop and implement effective business level strategies. The course examines what strategy is and considers in detail how an organization builds a sustainable competitive advantage. The course also examines the keys to successfully implementing strategy in an integrated fashion across the entire organization.

Prereq: EMBA 512 .

EMBA 522 Marketing Management and Innovation

2 credits

Explores the market orientation framework that needs to be created in order to promote innovation, including aspects of marketing and innovation capabilities, marketing strategy and processes, as well as specific marketing programs and decisions.

EMBA 524 Strategic Cost and Process Management

3credits

This course examines the concepts and tools needed for systematically designing, evaluating, and improving business processes to better achieve organizational objectives and for understanding and managing the costs associated with these processes and the products and services resulting from them.

EMBA 525 Managing Relationships to Influence Behavior

2 credits

Principles of developing and maintaining exchange relationships. Application of the principles to the practice of managing relationships between the organization and two key stakeholder groups: employees and customers.

EMBA 531 Crisis Communication

1 credit

Crises are a part of organizational life that require effective communication to internal and external stakeholders. This course addresses the elements of crisis communication planning and management as well as developing communication tactics for a range of audiences.

Prereq: EMBA 516 .

EMBA 533 Lean Startup & Product Launch

2credits

Provides insight into the key tools and steps needed to build a successful startup. The key idea in this course is learning how to rapidly develop and test ideas by gathering customer and marketplace feedback.

Prereq: EMBA 522 .

EMBA 534 Managing and Leading Change

1credit

This course prepares the student to lead change within his or her organization by examining both the processes needed to bring about effective change as well as the individual leadership abilities needed to lead these change efforts. The course also examines how to build adaptable and agile organizations that are predisposed to embrace (rather than resist) change.

EMBA 535 Decision Analytics

3 credits

Managers need to make timely and effective decisions, and data drives decisions. This course examines the behavioral and strategic aspects of decision making under uncertainty and risk, and under conditions of small and large data flows. Students will develop a multi-disciplinary toolkit that will help to manage the risk in decision making, improve an organization's effectiveness, and gain competitive advantage.

EMBA 542 Negotiation and Conflict Management

2 credits

This course examines the concepts and theories that underpin effective negotiation and conflict resolution. It emphasizes practical application of theory through selected readings and a series of simulations. The course will develop students' negotiation and conflict resolution skills so that they can more effectively negotiate positive outcomes for themselves and their organizations.

Prereq: EMBA 535 .

EMBA 543 Assessing to Improve Firm Performance

3 credits

Evaluation of organizational performance from multiple perspectives using quantitative and qualitative methods.

EMBA 544 Risk Management

3credits

Introduction to the tools, models, and strategic aspects of risk management.

Prereq: EMBA 514.

EMBA 545 Capstone Integrative Analysis

1-3 credits, max 3

Students, working in consultation with a faculty mentor, design and complete a customized project that applies and integrates concepts from across multiple EMBA courses to achieve advanced learning in an area of particular interest or need of the student. Projects can be related to the student's organizational responsibilities, but do not have to be.

Prereq: EMBA 509, EMBA 512, EMBA 514, EMBA 516, EMBA 517, EMBA 521, EMBA 524, EMBA 525, and EMBA 522 .

EMBA 546 Managing for Your Future

1 credit

A personal perspective on the lessons learned in the EMBA program and a plan on utilizing those lessons in the student's professional career.

EMBA 599 (s) Non-thesis Master's Research

1-3 credits, max 6

Research not directly related to a thesis or dissertation.

Prereq: Permission .

FAMILY AND CONSUMER SCIENCES (FCS)

FCS 105 Individual and Family Development

3 credits

Basic principles and sequences in individual and family development; family structure and functions as they support human development. (Fall only)

FCS 119 Introduction to Fashion and the Apparel Industry

3 credits

Introduction to the sewn product manufacturing and merchandising industry; overview of socio-cultural, historic, aesthetic, design, business, and economic factors; emphasis on careers in the sewn products industry. Students must complete this course with a grade of 'C' or higher as a prerequisite to future Apparel, Textiles and Design courses. (Fall only)

FCS 123 Textiles

3 credits

Fiber, yarn, and fabric properties, color and finishes as they relate to performance, care, and consumer satisfaction. Students must complete this course with a grade of 'C' or higher as a prerequisite to future Apparel, Textiles and Design courses. (Fall only)

Prereq: Apparel, Textiles, and Design; or Child, Family, and Consumer Studies major; or Permission.

FCS 146 Adulting: Life, Love & Money

3 credits

This introductory course offers a practical approach to learning necessary life skills such as money management, navigating personal relationships, and planning for the unexpected things in life. Using an interdisciplinary approach, this course explores how emotions affect the use of money, and how that affects relationships throughout the lifespan. Students will learn smart decision making skills to help them succeed in college and post-college.

FCS 200 (s) Seminar

Credit arranged.

FCS 203 (s) Workshop

Credit arranged.

FCS 204 (s) Special Topics

Credit arranged.

FCS 205 Concepts in Human Nutrition

3 credits

Nutrition principles with their application to nutrition in life cycle; nutrition problems and controversies such as weight control and nutrition for athletes; individual computerized study of student's dietary intake.

FCS 210 Introduction to Early Childhood Education

2 credits

Provides an overview of the complexity of working with young children, including children with disabilities, and their families. The course includes introduction to history of early childhood education, supportive agencies, roles of professionals, contexts of typical and atypical child and family development, and curricular models. (Fall only)

FCS 224 Apparel Construction and Assembly Processes

3 credits

Design conception, fabric characteristics, garment construction and assembly, principles of fitting, quality control for the apparel industry. Two 3-hour studios a week and assigned work. Students must complete this course with a grade of 'C' or higher as a prerequisite to future Clothing, Textiles and Design courses. (Spring only)

Prereq: Apparel, Textiles, and Design major; or Permission .

FCS 234 Infancy and Early Childhood

3 credits

Influences on development before birth through the preschool years; factors that determine physical, emotional, cognitive, social, and creative development. (Spring only)

FCS 235 Principles and Methods of Child Observation

3 credits

Development of skills necessary to observe, record, and interpret child behavior; observations to be arranged. (Fall only)

Prereq: FCS 234 with a grade of 'C' or better.

FCS 236 Directed Early Childhood Laboratory Experience

3 credits

Directed practical experience in early childhood settings to develop an understanding of early care and learning, and gain experience in developmentally appropriate practices and strategies to support the individual development and learning of young children.

Prereq: "C" or above in FCS 234 .

FCS 240 Intimate Relationships

3 credits

Dynamics of intimate relationships from early adulthood through the adult lifespan. (Spring only)

FCS 251 Survey of FCS Professions

1 credit

Web delivered, survey course for students considering a career in Family and Consumer Sciences, particularly teaching. Televised interviews with professionals in a variety of FCS careers, and an in-depth look at teaching as a career. An advising meeting with the FCS Teacher Educator is required to explain the requirements of the program.

FCS 270 Scientific Principles of Food Preparation

3 credits

Exploration of the scientific principles and techniques of food preparation; applied sensory evaluation of food. (Fall only)

Prereq: Major in the Department of Family and Consumer Sciences or Permission .

FCS 275 Experimental Foods

2 credits

Exploration of food preparation and application of underlying scientific principles through laboratory experiments. On-line modules focus on food safety, menu planning, food cost control, and cultural and religious influences on food choices. Hybrid course with one 3-hr lab and one web module a week. (Spring only)

Prereq: FCS 270 and a major in the Department of Family and Consumer Sciences; or Permission .

FCS 295 Career Development in Apparel & Textiles

1 credit, max 2

Preparation for professional internship and job search experiences, including identifying goals, skills, opportunities and strategies, fine-tuning resumes, the application processes, preparing for interviews, analyzing the internship, and introductory portfolio preparation. (Fall only)

Prereq: ATD major or permission .

FCS 299 (s) Directed Study**Credit arranged.****FCS 301 Professional Skills in Dietetics I****1 credit**

Development of professional skills for CPD students including leadership skills, communication techniques, involvement in professional organizations, and promotion of foods and nutrition. Students will create a professional development portfolio. (Fall only)

Prereq: FCS 270 and Junior standing in the Food and Nutrition Coordinated Program in Dietetics Option.

FCS 302 Professional Skills in Dietetics II**1 credit**

Development of professional skills for CPD students through career planning, portfolio development, involvement in professional organizations, participation in public policy development, promoting food and nutrition during National Nutrition Month and practice of communication techniques. (Spring only)

Prereq: FCS 301 and Junior standing in the Food and Nutrition Coordinated Program in Dietetics Option.

FCS 305 Nutrition Related to Fitness and Sport**2 credits**

Identification of energy, macro/micro nutrient and fluid requirements during exercise; evaluation of dietary regimens and ergogenic aids for pre and post competition, weight maintenance, and wellness. (Fall only)

Prereq: FCS 205; and Family and Consumer Sciences major or Movement Sciences major or Permission .

FCS 319 Digital Illustration for the Apparel Industry**3 credits**

Introduction to digital illustration software including apparel illustration tools, editing and coloring, working in the digital environment, and digital board building. Students follow an industry-typical concept and design process for a target customer, including corresponding design boards, line of garments, line presentation, and creation of an online portfolio site.

Prereq: FCS 119, FCS 123, and FCS 224 .

FCS 323 Apparel Product Development**3 credits**

Analysis of textile and apparel products and processes relative to design, development, and production methods, including evaluation of consumer value. Students must complete this course with a grade of 'C' or higher as a prerequisite to future Apparel, Textiles and Design courses.

Prereq: FCS 123 with a grade of 'C' or better and FCS 224 with a grade of 'C' or better; or Permission .

FCS 324 Patternmaking**4 credits**

Methods and principles of flat pattern and draping design; use of pattern making skills and advanced construction skills in apparel product development; developing specifications for apparel production. Two 3-hour studios a week and assigned work. Students must complete this course with a grade of 'C' or higher as a prerequisite to future Apparel, Textiles and Design courses.

Prereq: FCS 224 with a grade of 'C' or better and Apparel, Textiles, and Design major; or Permission .

FCS 329 History of Western Dress**3 credits**

Historic overview of western dress from ancient Mesopotamia and Egypt to Western Europe through the 20th century; focus on dress and human appearance as a reflection of the socio-cultural factors of the times. (Spring only)

Prereq: Junior standing; and FCS 123 and ART 100; or Permission.

FCS 333 Developmental Curriculum for Young Children**4 credits**

Principles and practices of a developmentally based curriculum, assessment, intervention, and evaluation. Three hrs of lec and two hrs of lab a wk. (Spring only)

Prereq: FCS 235 with a grade of 'C' or better or Permission.

FCS 334 Middle Childhood-Adolescence**3 credits**

Behavior, development, and guidance of children and youth from entrance in school until they are launched into adulthood; influences of family, school, peer group, and larger community. (Fall only)

Prereq: FCS 105, PSYC 101, or SOC 101; or Permission.

FCS 340 Parent-Child Relationships in Family and Community**3 credits**

May be taken by nonmajors. Dynamics of parent-child interactions and models for parent education programs in community and school settings. (Fall only)

Prereq: FCS 234 or FCS 334.

FCS 346 Personal and Family Finance and Management**4 credits**

Principles and procedures of individual and family management and their relationship to human and economic resources; applications of management principles to spending, saving, borrowing, and investing decisions. (Spring only)

FCS 351 Administration of FCCLA Organizations**2 credits**

This course will prepare FCS education students to become successful advisors of co-curricular FCCLA chapters. Attendance at the state FCCLA convention required. (Spring only)

Prereq: Admission to teacher education.

FCS 360 Sexuality Across the Lifespan**3 credits**

Sexuality lies at the core of our identities as human beings. This course explores critical perspectives on the development of sexuality across the lifespan, from childhood and adolescence to adulthood and later life, within the contexts of intimate relationships, family systems, and society. Participants are introduced to theory and research that prepare them to engage in sophisticated and thoughtful analyses of the complexity of identity and diverse sexualities, sexual behavior and feelings, cultural traditions and moral beliefs related to sex and identity, and academic approaches to the study of sex and sexual development.

Prereq: FCS 105 and FCS 240 .

FCS 361 Advanced Nutrition**3 credits**

Principles of nutrition; physiology of digestion, absorption and metabolism of nutrients. (Fall only)

Prereq: FCS 205, BIOL 300, BIOL 120 and BIOL 121.

FCS 362 Introduction to Clinical Dietetics**3 credits**

Nutritional assessment; review and application of the American Dietetic Association's Nutrition Care Process; introduction of nutrition therapies for disease. (Spring only)

Prereq: FCS 361 .

FCS 363 Medical Nutrition Therapy**4 credits**

Diet modification for adult and child needs in disease and convalescence. Clinical experience in Spokane hospitals. (Fall only)

Prereq: Senior standing in CPD .

FCS 364 Clinical Dietetics I

4 credits

Clinical experience and simulations preparing students for entry into hospital rotations in Idaho/Washington hospitals.. (Fall only)

Prereq: Senior standing in CPD .

FCS 365 Advanced Nutrition Lab

1 credit

Lab to accompany FCS 361 for students accepted into CPD program only. One 2-hour lab per week. (Fall only)

Prereq: CPD major, FCS 205, BIOL 300, BIOL 120 and BIOL 121.

FCS 384 Quantity Food Production and Equipment

3 credits

Principles and practices of food production in large volume; foodservice systems; use and selection of institutional foodservice equipment. Three hours of lecture a week. (Fall only)

Prereq: FCS 275 or Permission.

FCS 385 Quantity Food Production and Equipment Lab

2 credits

Quantity food production lab and supervised practice experience including equipment training, recipe development and testing, theme meal production, and foodservice facility rotations. (Fall only)

Prereq: FCS 270 and FCS 275

Coreq: FCS 384.

FCS 387 Food Systems Management

3 credits

Institutional organization and management; supervised practice in food service. Three lec a wk. (Spring only)

Prereq: FCS 384 or Permission.

FCS 388 Intro Dietetics Supervised Practice II

1 credit

CPD supervised practice experience including introductory clinical, community, and food service management activities and facility rotations. One 3-hour lab per wk. (Spring only)

Prereq: FCS 384

Coreq: FCS 387.

FCS 389 Intro Clinical Nutrition Lab

1 credit

Application of clinical nutrition principles. Three hrs. of lab per week (Spring only)

Prereq: FCS 361; Foods and Nutrition Majors or permission

Coreq: FCS 362 .

FCS 400 (s) Seminar

Credit arranged.

FCS 401 Professional Ethics and Practice in CFCS

1 credit

Establishing a professional identity and transitioning to a career in human development and family services. Emphasis on professional presentation and ethical conduct. Explores ethical and philosophical issues; professional development and leadership; and career goals, opportunities, and challenges as they relate to human development and family sciences.

Prereq: Major in Child, Family, and Consumer Studies .

FCS 403 (s) Workshop

Credit arranged.

FCS 404 (s) Special Topics

Credit arranged.

FCS 405 (s) Professional Development

Credit arranged.

FCS 410 Growing Old in a New Age

3 credits

Overview of issues related to aging; life-span development, how environments affect older persons, seeking an optimal quality of life, cross-cultural considerations, how aging is studied, and how to access resources.

FCS 411 Global Nutrition

3 credits

Gen Ed: International

The history of food, hunger, and the global nature of food systems. Food & culture, environmental impact of food decisions, agricultural production, world populations relative to food supply, hunger, biotechnology, safety of our food supply, sustainability, effects of urbanization, and problems of under- and over-nutrition will be examined. (Spring only)

FCS 415 Computer-Aided Pattern Drafting

3 credits

This course builds on existing patternmaking skills by applying methods and techniques for developing patterns using computer-aided pattern drafting software and includes grading, markers, and graded spec sheets.

Prereq: FCS 324 .

FCS 419 Dress and Culture

3 credits

Gen Ed: International

Dress and culture examined from an interdisciplinary and cross-cultural perspective with emphasis on diversity within a global scale society; the relationship of dress to physical environments, social and economic systems, aesthetic expression, individual identity, and cultural ideals and values. Field trip. (Spring only)

Prereq: Humanities and Social Science General Education completed, Junior standing, or Permission .

FCS 423 Sewn Product Industry Tour

1 credit, max 3

Field site tours of apparel industry firms representing design, manufacturing, merchandising, sourcing, retailing, and other aspects of the industry. Forty-five hours of instruction, field experience, and follow-up project work (3 hours prep, 32 hours tours/company visits, 10 hours project). Variable field trip fee depending on actual cost.

Prereq: Apparel, Textiles and Design major and junior standing; or Permission .

FCS 424 Apparel Product Line Development: Senior Capstone

4 credits

Gen Ed: Senior Experience

Advanced patternmaking, draping, and construction skills, combined with aesthetic principles of design, prepare students to create apparel lines. A senior capstone to design and product development studies. Two 3-hour studios a week and assigned work.

Prereq: FCS 119, FCS 319, FCS 323, FCS 324, or Permission .

FCS 425 Historic Dress Collections Management

3 credits

Introduction to managing a historic collection of garments including accession and deaccession policies and procedures, conservation and storage practices, disaster management, and research for and mounting of exhibitions.

Prereq: FCS Major .

FCS 428 Housing America's Families**3 credits**

Housing, furnishings, and equipment as they influence family well-being, and families' housing choices as affected by social, psychological, economic, technological, and political factors. Four-five 2-hr field trips. (Spring only)

FCS 431 Certified Family Life Educator Methodology**3 credits**

This course surveys the models and methods for strengthening family relationships utilizing primary prevention strategies. Students will learn diverse techniques for teaching content related to the three cornerstones of family life education: interpersonal relationships, sexuality, and parenting.

Prereq: FCS 240, FCS 340, or FCS 440 .

FCS 432 Apparel Promotion and Merchandising**3 credits**

Gen Ed: Senior Experience

Promotion in Merchandising is designed to cover the principles of fashion, consumer behavior as it relates to promotion activities, and non-personal selling techniques. The non-personal selling techniques to be covered include (but are not limited to) store image, advertising, display, publicity/public relations, fashion shows, and special events. Students will be involved in actual hands-on experience with many of the techniques.

Prereq: FCS 119, FCS 319, and FCS 323 .

FCS 434 Adulthood and Aging within the Context of Family**3 credits**

Joint-listed with FCS 534

Analysis of development from young adulthood to old age. Includes factors that influence changes as well as continuity in physical, emotional, social, cognitive, and creative development. Overview of theories of human development and current issues in aging, including dementia, family and lifestyle choices, relationships, retirement, and grandparenting. Requirements for graduate credit include conducting a review of literature in a chosen topic and presenting it to the class. (Alt/ yrs, spring only)

Prereq: FCS 105, Junior standing.

FCS 435 Feeding Young Children in Group Settings**1 credit**

This course increases awareness concerning the best practices in feeding young children. Practical, hands-on activities and assignments are included in the course through videotapes and the course website, www.aee.uidaho.edu/feeding.

FCS 436 Theories of Child and Family Development**3 credits**

Identification, interpretation, and evaluation of individual and family developmental theories. (Fall only)

Prereq: Family and Consumer Sciences major or Permission.

FCS 440 Contemporary Family Relationships**3 credits**

Dynamics of the major types of family relationships; marital, parent-child, sibling, and extended-family interaction in contemporary society. (Spring only)

Prereq: PSYC 101, SOC 101, or Permission.

FCS 445 Issues in Work and Family Life**3 credits**

Joint-listed with FCS 545

Study of theories, trends, policies, and issues related to work and family; examination of assessment instruments; development of proposals. Additional projects/assignments reqd for grad cr. (Spring only)

Prereq: FCS 105 and FCS 346; and Family and Consumer Sciences major.

FCS 446 Financial Counseling and Debt Management**3 credits**

Course content includes an examination of financial counseling and debt management with individuals and families. Topics include principles of financial counseling, budgets, financial statements, credit, debt, collection policies and practices, mortgages, foreclosures, and bankruptcy. After completion, students are eligible to take a national exam towards becoming an Accredited Financial Counselor. Recommended Preparation: FCS 346. (Fall only)

FCS 448 Consumer Economic Issues**3 credits**

Consumer economic issues, including consumers in the marketplace, the consumer movement, rights and remedies, advocacy, public policy, decision making, buying, credit, banking, insurance, clothing, health care, food, housing, and investments. (Fall only)

Prereq: ECON 201, ECON 202, ECON 272 or FCS 105; or Permission.

FCS 461 Methods & Strategies in FCS Education**3 credits**

Changing family and societal conditions and enhancing teaching and learning processes are addressed in this course. A focus is integration of professional-technical concepts and the development of classroom presentation skills.

FCS 462 Eating Disorders**2 credits**

Joint-listed with FCS 562

Examination of anorexia nervosa, bulimia nervosa, compulsive eating, obesity, and weight preoccupation; discussion of cultural and nutritional factors, family issues, and psychological consequences, as well as preventative and therapeutic interventions. Additional projects/ assignments required for graduate credit.

Prereq: Family and Consumer Sciences major or Permission .

FCS 463 Helping Skills in Dietetics**2 credits**

Application and integration of the Skilled Helper and nutritional counseling models in dietetics. Development of communication skills essential for effective helping. This course requires role-playing. Students are assessed on the knowledge and skills they have acquired. (Fall only)

Prereq: FCS 362.

FCS 468 Real Estate Management**3 credits**

This course is organized around the sequence of the real estate transaction for the new real estate professional. Other aspects of real estate will include diversified properties that require management and the duties and obligation of the property manager.

Prereq: FCS 346 .

FCS 472 Clinical Dietetics II**8 credits**

Continuation of FCS 364. Supervised practice in Washington/Idaho hospitals. (Spring only)

Prereq: FCS 364, Senior standing in CPD.

FCS 473 Community Nutrition

3 credits

Identification of current public health nutrition problems; influence of socioeconomic, cultural and psychological factors on food and nutrition behavior; available community programs; program development and marketing; and the implications of public policy legislation; teaching/ counseling methods for the nutrition education of small groups and individual clients/patients. (Fall only)

Prereq: FCS 270 .

FCS 475 Food Preservation

1 credit

Online course explores foodborne illness, food safety and food science behind high quality, shelf-stable home preserved foods; topics include water bath canning, pressure canning, pickling, freezing and drying. Real-time chat Thursdays at 1:00 PDT.

FCS 476 Textile Structures

1-3 credits, max 3

This studio course gives students the opportunity to experiment with fiber-based fabrications. These may include woven, knitted, felted, laced, and knotted fabrications dependent on current industry trends. May include embellishment and surface design depending on the fabrication and industry trends. Service learning completes the final project.

Prereq: FCS 123 or Permission .

FCS 477 Surface Design

1-3 credits, max 3

This studio course gives students the opportunity to experiment with the texture and appearance of textile fabrications. Techniques may include dyeing and resist methods, subtraction, and embellishment, among others depending on industry trends.

Prereq: FCS 123 or Permission .

FCS 478 Experimental Construction

1-3 credits, max 3

This studio course gives students the opportunity to experiment with transforming two-dimensional textiles into three-dimensional apparel products. Techniques may include tailoring, upcycling, use of non-traditional textiles, and use of fabrics students have produced in other courses, among others dependent on current industry trends.

Prereq: FCS 224 or Permission .

FCS 480 Assessment: Early Childhood/SPED

3 credits

The assessment process, link between assessment, curriculum planning, and IEP/IFSP development, cultural responsiveness in assessment, legal issues and family partnerships. Practical experience using strategies and tools for screening and assessing development of infants and children birth through age 8, including typical and atypical development. Recommended Preparation: FCS 234 and FCS 333

Prereq: "C" or better in FCS 234, FCS 235, & EDSP 300 .

FCS 481 Early Childhood SPED Curriculum

3 credits

Overview of typical and atypical infant and child development; instructional strategies for working with infants, toddlers and young children through third grade, linking assessment, curriculum and IEP and IFSP development, designing instructional programming for natural settings and formal settings; involving families, collaboration among professionals, working with volunteers and paraprofessionals. Recommended Preparation: FCS 234 and FCS 333.

Prereq: "C" or better in FCS 234, EDSP 300, & EDCI 302 .

FCS 484 Vegetarian Food and Nutrition

3 credits

Vegetarian food and nutrition principles with their application to health benefits and life cycles stages. (online only)

Prereq: FCS 205.

FCS 486 Nutrition in the Life Cycle

3 credits

Gen Ed: Senior Experience

Maternal nutrition and fetal development; lactation; nutritional needs and dietary patterns from conception to end of life. (Fall only)

Prereq: FCS 205; and Food and Nutrition major; or Permission .

FCS 487 Community Nutrition Supervised Practice

4 credits

Community nutrition supervised practice experience in WIC, Child Nutrition, wellness facilities, public health, etc.

Prereq: FCS 486 and Senior standing in CPD

Coreq: FCS 473 and FCS 486 .

FCS 488 Management Supervised Practice II

8 credits

Supervised practice with dietitians and employees in school and hospital food service settings in Idaho or Washington.

Prereq: FCS 387 and Senior Standing in CPD .

FCS 490 Infant & Toddler SPED Internship

1-7 credits

Direct practical experience in settings serving typically and atypically developing infants: ages birth to 35months. Demonstration of screening, assessment, development of IFSP, programming in natural environments, working closely with parents to increase their roles as partners and collaboration among service providers.

Prereq: FCS 480 and FCS 481 .

FCS 491 Research Methods in Food Nutrition

3 credits

Research methodology currently used in food and nutrition; critical review of the literature; use of electronic surveys; research proposal and presentations. (Spring only)

Prereq: FCS 205 and STAT 251 .

FCS 492 Nutrition Education in the Life Cycle

3 credits

Principles and theories of learning, curriculum development, evaluation methods, and applied food and nutrition education throughout the life cycle. Practice in delivering nutrition education through food demonstrations. (Spring only)

Prereq: FCS 205 and FCS 275 and FCS 486 .

FCS 493 Design and Development for a Client

3 credits

Student teams develop a line of apparel for a client from concept to finished prototype; design, patternmaking, construction, tech pack building and presentation skills are all used throughout the course.

Prereq: FCS 323 and FCS 324 .

FCS 494 Portfolio Development

3 credits

Preparation of a professional portfolio, in both digital and hard copy formats, for design, merchandising, and other FCS career development applications.

Prereq: FCS 319 and FCS 324; or Permission .

FCS 496 Internship: Fashion Business

2-8 credits, max 8

Supervised experience in fashion business: fashion design, textile/apparel manufacturing, retailing, merchandising; geared to career goals of student. Graded P/F.

Prereq: Apparel, Textiles and Design major.

FCS 497 Internship Preschool

Credit arranged

Gen Ed: Senior Experience

Supervised applied experience in child development and family relations. The field experience offers opportunity for students to learn about working in settings for children and families.

Prereq: FCS 234 with a grade of 'C' or better, FCS 235 with a grade of 'C' or better, FCS 333 with a grade of 'C' or better, and permission.

FCS 498 (s) Internship

3-9 credits, max 9

Supervised internship in education institutions, governmental/social agencies, hospitals, business, or industry; geared to the professional goals of students.

Prereq: Permission.

FCS 499 (s) Directed Study

Credit arranged.

FCS 500 Master's Research and Thesis

Credit arranged.

FCS 501 (s) Seminar

Credit arranged.

FCS 502 (s) Directed Study

Credit arranged.

FCS 503 (s) Workshop

Credit arranged.

FCS 504 (s) Special Topics

Credit arranged.

FCS 505 (s) Professional Development

Credit arranged.

FCS 508 Helping Skills in Family and Consumer Sciences

3 credits

Using the Skilled Helper Model, students apply the model in working with families and clientele in FCS occupations. (Spring only)

FCS 534 Adulthood and Aging within the Context of Family

3 credits

Joint-listed with FCS 434

Analysis of development from young adulthood to old age. Includes factors that influence changes as well as continuity in physical, emotional, social, cognitive, and creative development. Overview of theories of human development and current issues in aging, including dementia, family and lifestyle choices, relationships, retirement, and grandparenting. Requirements for graduate credit include conducting a review of literature in a chosen topic and presenting it to the class. (Alt/ yrs, spring only)

FCS 540 Parent-Child Relationships

3 credits

Open to nonmajors. The developing family; patterns of child rearing.

Prereq: FCS 234 or FCS 334, FCS 440, and 6 credits in Psychology and/or Sociology or Equivalent.

FCS 545 Issues in Work and Family Life

3 credits

Joint-listed with FCS 445

Study of theories, trends, policies, and issues related to work and family; examination of assessment instruments; development of proposals. Additional projects/assignments reqd for grad cr. (Spring only)

FCS 562 Eating Disorders

2 credits

Joint-listed with FCS 462

Examination of anorexia nervosa, bulimia nervosa, compulsive eating, obesity, and weight preoccupation; discussion of cultural and nutritional factors, family issues, and psychological consequences, as well as preventative and therapeutic interventions. Additional projects/ assignments required for graduate credit.

FCS 590 Intellectual Foundations in Family and Consumer Sciences

3 credits

Overview of historical perspectives of family and consumer sciences profession; explanation and application of alternative modes of inquiry in family and consumer sciences research.

FCS 598 (s) Internship

Credit arranged

Supervised internship in educational institutions, governmental/social agencies, hospitals, or industry; geared to the educational and vocational goals of students.

Prereq: Permission.

FCS 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

FINANCE (FIN)

FIN 204 (s) Special Topics

Credit arranged.

FIN 260 Student Investment Fund Mgmt

1 credit, max arranged

Open only to freshman and sophomore students participating in the A.D. and J.E. Davis Student Investment Program. "Hands on" experience in investment management; students manage a funded portfolio in terms of establishing objectives, security selection, asset allocation, and portfolio performance. Graded P/F.

Prereq: Permission.

FIN 298 (s) Internship

1-3 credits, max 6.

FIN 299 (s) Directed Study

Credit arranged.

FIN 301 Financial Resources Management

3 credits

This course examines the policies and practices involved in the allocation of financial resources in business organizations; develops the tools needed to use financial data for analysis and financial decision making. May involve evening exams.

Prereq: ACCT 201; ECON 202 or ECON 272 .

FIN 302 Intermediate Financial Management

3 credits

An intermediate-level course in managerial finance that addresses more complex issues such as risk in capital budgeting, working capital management, mergers, business failure and reorganization, and lease financing. May involve evening exams.

Prereq: FIN 301; ACCT 202; BUS 252; ECON 201 or ECON 272; MATH 160 or MATH 170.

FIN 381 International Finance

3 credits

Study of financial problems facing business engaged in international activities; foreign exchange risk management, international diversification, multinational capital budgeting, country risk analysis, financing foreign investments, international financial markets.

Prereq: ECON 201 or ECON 272; and instructor permission.

FIN 398 (s) Internship

1-3 credits, max 6 .

FIN 404 (s) Special Topics

Credit arranged.

FIN 407 Financial Institutions

3 credits

Examines management and regulation of financial institutions, including structure of global financial markets and the measurement and management of risk for these institutions.

Prereq: FIN 302 .

FIN 408 Security Analysis

3 credits

Emphasis on theory and practice of security analysis and other techniques of financial analyses; may involve management of actual portfolios. (Fall only)

Prereq: FIN 302.

FIN 409 Problems Financial Mgmt

3 credits

Analysis of selected topics in financial management; asset allocation; capital budgeting and valuation; synthesis of financial management skills through case analysis; written and oral reports and computer simulations. May involve evening exams. (Spring only)

Prereq: FIN 302.

FIN 460 Advanced Student Investment Fund Management

1 credit, max arranged

Open only to students participating in the A.D. and J.E. Davis Student Investment Program. "Hands on" experience in investment management; students manage a funded portfolio in terms of establishing objectives, security selection, asset allocation, and portfolio performance. May meet concurrently with FIN 260. Graded P/F.

Prereq: Permission.

FIN 463 Portfolio Management

3 credits

Application of security selection, portfolio theory and construction; financial futures; risk and return in investments; may involve management of actual portfolios. (Spring only)

Coreq: FIN 302.

FIN 464 Derivatives and Risk Management

3 credits

This course will cover methods used to establish the fair price of derivative securities and the creation of synthetic securities, demonstrate the practical uses of derivatives in speculation, hedging and arbitrage, and examine the process of measurement and management of financial risk. (Spring only)

Prereq: FIN 302 .

FIN 465 Introduction to Market Trading

3 credits

Provides students practical experiences in the analysis of financial conditions and markets with the objective of developing trading and risk management strategies. Professional trading analysis software is used. The major topics covered include financial instruments, fundamental and technical analysis of markets, inter-market analysis, and risk management. (Fall only)

Coreq: FIN 302 or Permission .

FIN 466 Market Trading Strategies

3 credits

Provides students practical experiences in the analysis of financial conditions and markets with the objective of developing trading and risk management strategies. Professional trading analysis software is used. Students in this class will develop strategies that can be submitted for funding by the Barker Trading Program. (Spring only)

Prereq: FIN 465 and Permission .

FIN 467 Barker Capital Management Group

1 credit, max 6

Graded P/F. The course is a 1-credit hour extra-curricular course taken on a Pass-Fail basis. Students in this course will function as a member of the Barker Capital Management Group (BCMG) and will work individually and in teams to manage a portion of the Barker Endowment Fund. The class will identify and research investment opportunities for the fund, develop and implement risk management strategies for the portfolio, monitor the results and make adjustments to the portfolio as required.

Prereq: Permission.

FIN 468 Market Trading Lab

1 credit, max 6)

Graded Pass/Fail. This course is a lab to complement FIN 465

Introduction to Market Trading and FIN 466 Market Trading Strategies.

Students who take this course will either trade a portfolio funded by the Barker Capital Markets and Trading Program endowment, or be actively working towards qualifying for a funded portfolio. Students will receive mentoring from the instructor and other faculty participating in the Barker Program. The students will also interact with other funded traders and, on occasion, provide mentoring to students in earlier stages of the program.

Recommended Preparation: STAT 251 or equivalent, ECON 201 and ECON 202, or ECON 272 or equivalent.

Prereq: FIN 465, FIN 466 and Permission.

FIN 469 Risk and Insurance

3 credits

Examines risk and insurance, covering risk identification and measurement, risk reduction and hedging, and insurance pricing. (Fall only)

Prereq: FIN 302 .

FIN 483 Topics in Financial Analysis

3 credits

This course examines various topics relevant to the CFA Institute's Common Body of Knowledge. Topics will vary based on current issues in the financial analysis industry.

Prereq: FIN 302.

FIN 499 (s) Directed Study

Credit arranged.

FISHERY RESOURCES (FISH)

FISH 102 The Fish and Wildlife Professions

1 credit

Cross-listed with WLF 102.

Orientation of students to the profession of fishery resources and wildlife resources: introduction to fish and wildlife faculty, review of fish and wildlife curriculum, awareness of career opportunities, employment procedures, associated job duties/responsibilities, job preparation, educational preparation, and management challenges in the Pacific Northwest. (Fall only)

FISH 200 (s) Seminar

Credit arranged.

FISH 202 Fish & Wildlife Applications II

1 credit

This two semester sequence (WLF 201, FISH 202) of courses will introduce students to research questions and methods in fish and wildlife sciences, the culture and organization of potential state, federal and tribal employers and management challenges for fish and wildlife. The course will include an experiential learning field trip.

Prereq: NR 101 or Permission.

FISH 203 (s) Workshop

Credit arranged.

FISH 204 (s) Special Topics

Credit arranged.

FISH 299 (s) Directed Study

Credit arranged.

FISH 314 Fish Ecology

3 credits

Examination of physical, chemical, and biological factors that affect fish populations and communities, with emphasis on environmental stressors. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: FOR 221, REM 221, or BIOL 314 .

FISH 315 Fish Ecology Lab

1 credit

Laboratory and field experience in fish ecology with emphasis on field techniques, laboratory experimentation, and habitat assessment. One weekend field trip and several day trips required. (Fall only)

Prereq: FOR 221, REM 221, or BIOL 314

Coreq: FISH 314 .

FISH 398 (s) Renewable Natural Resources Internship

Credit arranged

Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F.

Prereq: Permission of department .

FISH 400 (s) Seminar

Credit arranged.

FISH 403 (s) Workshop

Credit arranged.

FISH 404 (s) Special Topics

Credit arranged.

FISH 415 Limnology

4 credits

Physical, chemical, and biological features of lakes and streams. Four 1-day field trips. (Fall only)

Prereq: STAT 251 and FOR 221, REM 221, or BIOL 314.

FISH 418 Fisheries Management

4 credits

Gen Ed: Senior Experience

Techniques employed in sampling and application of principles toward managing recreational and commercial aquatic resources. Three lec and one 3-hr lab a wk; two weekend field trips. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: FISH 314 and FISH 481 and STAT 251.

FISH 422 Concepts in Aquaculture

4 credits

Concepts and methods of extensive and intensive aquaculture in warm water and cold water systems. Two field trips req'd (a 1-day and a 3-day field trip). Cooperative: open to WSU degree-seeking students. (Spring only)

Prereq or Coreq: FISH 481.

FISH 424 Fish Health Management

4 credits

Epidemiology, prevention, diagnostics, and treatment of infections and non-infectious diseases of free-living and confined finfish and shellfish.

Two field trips req'd (a 1-day and a 3-day field trip). Recommended Preparation: FISH 422. This is a cooperative course available to WSU degree-seeking students. (Spring only)

Prereq: BIOL 250.

FISH 430 Riparian Ecology and Management

3 credits

Structure, function, and management of riparian ecosystems; interrelationships of terrestrial and aquatic components of riparian areas. 3 field trips. Special fee required. (Spring only)

Prereq: FOR 221, REM 221, or BIOL 314.

FISH 473 ECB Senior Presentation

1 credit

Gen Ed: Senior Experience

Cross-listed with FOR 473, NRS 473, REM 473, RMAT 473, and WLF 473 Reporting and presenting the senior project (thesis or internship); taken after or concurrently with FISH 485 or FISH 497. Serves as the senior capstone course for Ecology and Conservation Biology (ECB).

Prereq: Instructor Permission.

FISH 481 Ichthyology

4 credits

Anatomy, taxonomy, physiology, genetics and zoogeography of fishes. Three lectures and one 3-hr lab per week. (Spring only).

Prereq: BIOL 114 and BIOL 115, and BIOL 213 or instructor permission .

FISH 483 Senior Project Presentation

1 credit

Cross-listed with FOR 483, NRS 483, REM 483, and WLF 483

Reporting and presenting the senior project (thesis or internship); taken after or concurrently with FISH 485 or FISH 497.

FISH 485 Ecology and Conservation Biology Senior Project

1-3 credits, max 3

Cross-Listed with FOR 485, NRS 485, and WLF 485

Scholarly work; learning objectives include development and formal proposal of a specific project and conducting the project or research with the guidance of a faculty mentor.

FISH 495 (s) Fisheries Seminar**1 credit***Gen Ed: Senior Experience*

Discuss integrating biological, social, political, economic, and philosophic aspects of problems in managing fishery resources. (Spring only)

Prereq: Senior standing.

FISH 496 Intro to Aquatic Restoration**1 credit**

Fundamental theoretical and practical concepts in aquatic restoration spanning from in-water to the top of the watershed. Major topics include water quality, sources of pollution, restoration techniques (in-water and terrestrial) to restore aquatic ecosystems, and the role of using an adaptive systems approach. Lecture material are delivered online, while a 1-2 day face-to-face hands-on practicum will be based out of UI's Lakes Social Ecological Systems (LaSES) lab at the Harbor Center in Coeur D'Alene or UI's McCall Outdoor Science School (MOSS) in McCall.

Prereq: FOR 221/REM 221/WLF 220 .

FISH 497 Senior Thesis**1-3 credits, max 6**

Preparation of thesis, exhibition, video, computer program, multimedia program, or other creative presentation based on research conducted under the guidance of a faculty mentor.

Prereq: Cumulative GPA of at least 3.2 in all college courses, completion of at least 90 credits, and permission of a faculty mentor.

FISH 498 (s) Internship**Credit arranged**

The internship serves to provide hands on experience for students interested in fisheries and aquaculture.

Prereq: Instructor permission .

FISH 499 (s) Directed Study**Credit arranged**

For the individual student; conferences, library, field, or lab work.

Prereq: Senior standing, GPA 2.5, and Permission.

FISH 500 Master's Research and Thesis**Credit arranged.****FISH 501 (s) Seminar****Credit arranged**

Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics. Graded P (pass)/F (fail).

Prereq: Permission.

FISH 502 (s) Directed Study**Credit arranged.****FISH 503 (s) Workshop****Credit arranged**

Selected topics in the conservation and management of natural resources.

Prereq: Permission.

FISH 504 (s) Special Topics**Credit arranged.****FISH 510 Advanced Fishery Management****3 credits**

Contemporary management of marine and freshwater fish and shellfish populations of the world. Approaches, factors, and models used to manage commercial, recreational and subsistence fisheries; and the policy interface of biological systems with governmental and social institutions. Cooperative: open to WSU degree-seeking students. (Spring, Alt/yrs)

FISH 511 Fish Physiology**2 credits**

Principles and methods used to study vital organs, organ systems, growth, and reproduction of fishes; emphasis on osmoregulation, metabolism, endocrinology, and respiration. Cooperative: open to WSU degree-seeking students. (Fall, Alt/yrs)

Prereq: Permission.

FISH 515 Large River Fisheries**2 credits**

Management issues and problems in large river fisheries in North America and globally; importance of flood plains; ecological bases for management actions in large rivers; river fisheries in the context of multiple use of large rivers. Cooperative: open to WSU degree-seeking students. (Fall, Alt/yrs)

FISH 516 Animal Movement, Dispersal and Migration**3 credits**

Key theories and approaches for studying animal movement and dispersal in aquatic, marine and terrestrial environments, with critical analysis of empirical examples. Students are expected to develop an independent research project.

FISH 521 Community Ecology**3 credits**

Introduction to literature and contemporary research into processes structuring ecological communities. Topics will encompass community ecology in a range of ecological systems and across trophic levels, including community impacts on ecosystem processes. (Fall/Alt/yrs)

Prereq: FOR 221 or REM 221 .

FISH 525 Aquaculture in Relation to Wild Fish Populations**2 credits**

Historical and current relationships between wildness and domestication as it relates to fisheries management and aquaculture in mitigation and industry. Interactions between wild and hatchery-reared fishes, including salmon. Cooperative: open to WSU degree-seeking students. (Fall, alt/yrs)

FISH 530 Stream Ecology**3 credits**

Structure and function of running water ecosystems; principles of population, community, and ecosystem ecology in streams and rivers. Three 1-day field trips reqd. (Fall, Alt/years)

FISH 540 Wetland Restoration**3 credits**

This web-based course contains modules covering wetland science, restoration ecology, freshwater restoration, coastal restoration, and monitoring/maintenance. The emphasis is on the science of wetland ecosystems and the applied ecology/practice of restoration, with additional consideration of cultural and socio-political contexts.

Extensive readings, an assignment, and a study guide are required for each module. Students apply their learning in and contribute relevant professional experience to weekly online discussions. Students are also responsible for obtaining documentation of at least one wetland restoration site in their region and conducting a site visit in order to evaluate the success of the restoration project. A final exam (re-design of a failed restoration project) is administered online, with partial credit earned through discussion with an interdisciplinary team of classmates and the remaining credit earned through individual analysis and synthesis. (Fall only)

Prereq: BIOL 114 and BIOL 115; and FOR 221 or BIOL 314 or Permission.

FISH 598 (s) Internship**Credit arranged.**

FISH 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

FISH 600 Doctoral Research and Dissertation

Credit arranged.

FOOD SCIENCE (FS)

FS 110 Introduction to Food Science

3 credits

Chemistry, microbiology, and processing of food and food products; concepts of food preservation, packaging and marketing of foods; food additives and regulations; world food problems. Field trip may be required. Cooperative: open to WSU degree-seeking students.

FS 113 Introduction to Vines and Wines

3 credits

The importance of viticulture (grape growing) including world wine regions and enology (winemaking). Cooperative: open to WSU degree-seeking students.

FS 201 Science on Your Plate

3 credits

Cross-listed with CORS 232.

Applications of science, scientific literacy, and critical thinking as related to the development and manufacture of modern food products and their use in modern civilizations. Cooperative: open to WSU degree-seeking students.

FS 204 (s) Special Topics

Credit arranged

This is a cooperative course available to WSU degree-seeking students.

FS 220 Food Safety and Quality

3 credits

Regulation, safety, and wholesomeness of food products; microbiological, chemical, and physical risks associated with food; hazard analysis as related to food safety, processing and quality; sanitation and pest management principles; methods for analyzing the sensory qualities of food products; problem management associated with food quality assurance. Cooperative: open to WSU degree-seeking students.

FS 299 (s) Directed Study

Credit arranged.

FS 301 Food Mycology

3 credits

Survey of the fungi important in food production, storage, and spoilage. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 250 or BIOL 255 .

FS 302 Food Processing Lab

1 credit

Application of specialized techniques, concepts and practices of food processing. Field Trip required. Cooperative: open to WSU degree-seeking students.

Prereq: FS 110 or FS 220; and MATH 160 or MATH 170; and STAT 251 .

FS 303 Food Processing

3 credits

Specialized techniques, concepts and practices of food processing. Cooperative: open to WSU degree-seeking students.

Prereq: AVS 172 or FS 110; and FS 220; and MATH 160 or MATH 170; and STAT 251

Coreq: FS 302.

FS 304 Cereal Chemistry and Processing

3 credits

This course has been designed to provide students with a breadth of knowledge in the field of cereal grain science. This course will cover cereal and legume structure, chemistry, and function as it relates to processing and utilization. Cooperative: open to WSU degree-seeking students.

Prereq: CHEM 275 and CHEM 277.

FS 329 Dairy Foods Composition and Quality

4 credits

Introduction to the dairy processing industry. Chemistry of milk components. Standards of identity of dairy products. Quality control tests of fluid milk. Microbiology of fluid milk. Organoleptic properties of fluid milk and changes during storage. Federal, state and international regulations applied to dairy foods. Cleaning and sanitation in dairy manufacturing plants. Dairy effluents and waste management. Three lec and one 2-hr lab a week; two 1-day field trips required. Cooperative: open to WSU degree-seeking students.

Prereq: AVS 172 or FS 110; and Chem 275 and Chem 276 .

FS 363 Animal Products for Human Consumption

4 credits

Cross-listed with AVS 363

The meat, dairy, and egg industries, including product produced, processed, safety (HACCP), nutrition, distribution, quality, quantity, palatability, health, cooking, home storage, and consumer concerns. Special clothing and equipment required. Three lecture credits and one 3-hour lab per week. Recommended Preparation: BIOL 115. Cooperative: open to WSU degree-seeking students.

FS 398 (s) Internship

Credit arranged

Supervised professional internship in the food industry; requires formal written plan of activities approved by academic advisor and department head. Final written report and presentation required. Cooperative: open to WSU degree-seeking students.

Prereq: Permission of department.

FS 400 (s) Seminar

Credit arranged.

FS 401 Industrial Fermentations

3 credits

Science and technology associated with industrial-scale food fermentations. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 250 and BIOL 300 .

FS 402 Ciders and Other Fermented Foods

3 credits

Chemistry, microbiology, and technology associated with the production of cider, beer, and other food fermentations. Two half-day field trips required. Cooperative: open to WSU degree-seeking students.

Prereq: FS 304; FS 465 .

FS 403 (s) Workshop

Credit arranged

Workshops focusing on Food Science. Cooperative: open to WSU degree-seeking students.

FS 404 (s) Special Topics

Credit arranged

Special topics related to Food Science. Cooperative: open to WSU degree-seeking students.

FS 405 (s) Professional Development

Credit arranged.

FS 406 Evaluation of Dairy Products

2 credits

Identifying defects in dairy products and relating these defects to their probable cause; remedies. Recommended Preparation: FS 329, FS 429, and FS 433. Cooperative: open to WSU degree-seeking students. (Spring only)

FS 407 Evaluation of Dairy Products Lab

1 credit Identifying defects in dairy products and intense training for Collegiate Dairy Products Evaluation Competition. Cooperative course available to WSU degree-seeking students.

Prereq: FS 406 .

FS 409 Principles of Environmental Toxicology

3 credits

Cross-listed with EnvS 409. Joint-listed with FS 509
Fundamental toxicological concepts including dose-response relationships, absorption of toxicants, distribution and storage of toxicants, biotransformation and elimination of toxicants, target organ toxicity and teratogenesis, mutagenesis, and carcinogenesis; chemodynamics of environmental contaminants including transport, fate, and receptors; chemicals of environmental interest and how they are tested and regulated; risk assessment fundamentals. Students registering for FS 509 are required to prepare an additional in-depth report. Recommended Preparation: BIOL 102 or BIOL 115, CHEM 111, CHEM 112, CHEM 275, and STAT 251. Cooperative: open to WSU degree-seeking students.

FS 416 Food Microbiology

3 credits

Purpose for enumeration, detection, and identification of microorganisms in food products; physical, chemical, and environmental factors influencing growth and survival of foodborne microorganisms; pathogenic and spoilage microorganisms in food and their control. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 250 and BIOL 255 .

FS 417 Food Microbiology Laboratory

2 credits

Methods for enumeration, detection, and identification of spoilage and pathogenic microorganisms in foods. Two 3-hr labs a wk. Cooperative: open to WSU degree-seeking students.

Prereq or Coreq: FS 416.

FS 418 Oral Seminar in Food Science

1 credit

Development of skills and communication tools and techniques for oral presentations of current food science research. Cooperative: open to WSU degree-seeking students.

Prereq: FS 110 or FS 220; and junior standing; and major in Food Science.

FS 422 Sensory Evaluation of Food and Wine

3credits

Joint-listed with FS 522.

Theory, principles and application of sensory evaluation techniques to evaluate appearance, aroma, flavor and texture of foods and wine. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: FS 110 or FS 113; and STAT 251.

FS 423 Sensory Evaluation of Food and Wine Laboratory

1 credit

This course will provide a practical application of FS 422, including the theory, principles and applications of sensory evaluation techniques for the evaluation of appearance, aroma, flavor and texture of foods and wine. Recommended for ages 21 or older. Cooperative: open to WSU degree-seeking students.

Coreq: FS 422 .

FS 429 Dairy Products

3 credits

Joint-listed with FS 529.

Dairy chemistry, microbiology, sanitation, product development and processing from cow to consumer. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 250, BIOL 300, and FS 303.

FS 430 Dairy Products Lab

1 credit

Joint-listed with FS 530.

Students gain hands-on skills formulating, processing, evaluating and analyzing dairy products. Communication and critical thinking skills are also developed in this laboratory course. Additional projects/ assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

FS 432 Food Engineering

3 credits

Fundamentals of food engineering for improving the efficiency of food processing operations and the quality of processed food. Principles of heat transfer, steam, air-vapor mixtures, refrigeration and fluid flow as applied to food processing and storage. Recommended preparation: PHYS 111. Cooperative: open to WSU degree-seeking students.

Prereq: FS 302 and FS 303

Coreq:FS 433.

FS 433 Food Engineering Lab

1 credit

To enhance the learning experience of the students taking FS 432 through laboratories, problem sessions and group discussions. Field Trip Required. Cooperative: open to WSU degree-seeking students.

Prereq or Coreq: FS 432 .

FS 436 Principles of Sustainability

3 credits

Presented as online doculectures, covering topics such as: Origins of Sustainability, Standards of Sustainability, Culture of Waste, Built Environment, Industrial Sustainability, Energy Sustainability, Water Resources, Measuring Sustainability, Sustainable Impact Assessment, and Our Sustainable Future. Readings and homework are assigned with each topic. Learning assessment will be from homework, exams and written papers. Additional work is required for graduate credit. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: Junior or higher standing .

FS 460 Food Chemistry

3 credits

Fundamentals of food chemistry; composition of foods and the changes that occur during processing. Cooperative: open to WSU degree-seeking students.

Prereq: CHEM 275 and CHEM 276; or CHEM 277 and CHEM 278, and BIOL 300 or BIOL 380 .

FS 461 Food Chemistry Lab**1 credit**

Experiments related to properties, reactions, and interactions of chemical components of foods. Cooperative: open to WSU degree-seeking students.

Coreq: FS 460 .

FS 462 Food Analysis**3 credits**

Introductory food analysis; methods common to many food commodities. Recommended Preparation: FS 460 and FS 461. This is a cooperative course available to WSU degree-seeking students.

Prereq: FS 302 and FS 303; and CHEM 275/CHEM 276 or CHEM 277/CHEM 278; and Senior Standing .

FS 464 Food Toxicology**3credits**

Joint-listed with FS 564.

General principles of toxicologic evaluation of chemicals, which intentionally or unintentionally enter the food chain. Toxicology of food additives, colors, preservatives, drugs, pesticides and natural toxins in foods and risk characterization. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 300 or BIOL 380.

FS 465 Wine Microbiology and Processing**3 credits**

Joint-listed with FS 565.

Technical principles related to the processing and fermentation of wines with an emphasis on microbiology. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 250 and BIOL 300.

FS 466 Wine Microbiology and Processing Lab**1 credit**

Hands-on winemaking; application of chemical microbiological methods for wine analysis. Field trip required. Cooperative: open to WSU degree-seeking students.

Prereq or Coreq: FS 465 .

FS 470 Advanced Food Technology**3 credits**

Joint-listed with FS 570.

Physical principles of food preservation and recent advances in food technology including process control and control systems. Recommended Preparation: FS 432 and FS 460. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: FS 302 or FS 303 .

FS 475 Quality Management Tools for Food Products**3 credits**

Describe fundamental concepts for quality management and improvement of biomanufactured goods. Apply principles of statistical process control in a variety of situations and systems. Cooperative: open to WSU degree-seeking students.

Coreq: FS 302 and FS 303; STAT 251 or permission from instructor.

FS 489 Food Product Development**3 credits**

Gen Ed: Senior Experience

Course serves as a capstone experience for food science seniors, and will require the application of food chemistry, food processing/engineering, and microbiology course knowledge in formulating a new food product. Cooperative: open to WSU degree-seeking students.

Prereq: FS 302, FS 303, FS 416, and FS 460; and senior standing.

FS 498 (s) Internship**Credit arranged**

Supervised professional internship in the food industry; requires formal written plan of activities approved by academic advisor and department head. Final written report and presentation required. Cooperative: open to WSU degree-seeking students.

Prereq: Permission of department.

FS 499 (s) Directed Study**Credit arranged**

Cooperative: open to WSU degree-seeking students.

FS 500 Master's Res & Thesis**Credit arranged.****FS 501 (s) Seminar****Credit arranged.****FS 502 (s) Directed Study****Credit arranged.****FS 503 (s) Workshop****Credit arranged**

Workshops focusing on Food Science. Cooperative: open to WSU degree-seeking students.

FS 504 (s) Special Topics**Credit arranged**

Topics in Food Science. Cooperative: open to WSU degree-seeking students.

FS 509 Principles of Environmental Toxicology**3 credits**

Cross-listed with ENVS 509. Joint-listed with FS 409.

Fundamental toxicological concepts including dose-response relationships, absorption of toxicants, distribution and storage of toxicants, biotransformation and elimination of toxicants, target organ toxicity and teratogenesis, mutagenesis, and carcinogenesis; chemodynamics of environmental contaminants including transport, fate, and receptors; chemicals of environmental interest and how they are tested and regulated; risk assessment fundamentals. Students registering for FS 509 are required to prepare an additional in-depth report. Recommended Preparation: BIOL 102 or BIOL 115, CHEM 111, CHEM 112, CHEM 275, and STAT 251.

FS 510 Functional Foods and Health**3 credits**

Functional foods are foods that provide health benefits beyond basic nutrition. This course will deal with the actions of bioactive compounds in functional foods and nutraceuticals as they relate to disease prevention and health promotion. In addition, this course will cover (1) the chemistry and mechanism of action of the various bioactive compounds, and (2) the safety, efficacy, stability and regulatory aspects of functional foods and nutraceuticals. The course is intended for graduate students in food science, nutrition, or related biological science fields. Cooperative: open to WSU degree-seeking students.

FS 511 Foods Lipids

3 credits

To gain an understanding of the functionality fats in our foods and the beneficial and detrimental health related aspects of fats in our diets. Emphasis will be placed on relationships among fat and oil chemistry and the physiological results of eating foods containing specific triacylglycerols, fatty acids, and other lipids. Recent research and popular literature will supplement the discussions. Cooperative: open to WSU degree-seeking students.

FS 512 Protein Structure and Function

2 credits

Chemistry/biochemistry of proteins/enzymes applied to food research and industry; protein functionality/enzyme technology application to food industry. Cooperative: open to WSU degree-seeking students.

FS 513 Food Carbohydrates

3 credits

This course will provide insight into structure-function relationships of polysaccharides within food systems as a function of their respective molecular structures and physical characteristics. Cooperative: open to WSU degree-seeking students.

FS 514 Starch Chemistry

3 credits

The course will provide insight into structure-function relationship of starch through case study-teaching in a student-centered classroom. Cooperative: open to WSU degree-seeking students.

Prereq: CHEM 275/CHEM 276 or Chem 277/CHEM 278, BIOL 380 or BIOL 300, or permission from instructor.

FS 516 Food Laws

2 credits

Become familiar with government statutes and regulations that contribute to a safe, nutritious, and wholesome food supply. Understand more about the law and the US legal system relevant to the regulation of the manufacture and sale of food and supplements, including jurisdictional issues, administrative law, and tort, contract, corporate, environmental, labor and criminal law issues. Senior or Graduate student standing recommended. Cooperative: open to WSU degree-seeking students.

FS 517 Scientific Writing

2 credits, max 4

Planning, writing, reporting, reviewing and evaluating current food-related research. Cooperative: open to WSU degree-seeking students. Open to Food Science Graduate Students Only.

FS 518 Oral Seminar

1 credit

Development of skills and communication tools and techniques for oral presentations of current food science research. Additional projects/ assignments required for graduate credit. Cooperative: open to WSU degree-seeking students. Open to Food Science Graduate Students Only.

FS 520 Instrumental Analysis

2 credits

Theory and techniques involved in the use of various instruments in modern biological laboratories; topics include chromatography, spectrometry, sterilization, sample preparation, radioisotope techniques, electrophoresis, centrifugation, and fermentation. (Spring only) Cooperative: open to WSU degree-seeking students.

Prereq: Permission.

FS 521 Food Rheology

3 credits

Rheology is the study of flow, deformation and friction. This course, will cover the fundamentals of rheology, including stress, strain, flow behaviors, pipe flow, viscoelasticity, and tribology. In the lab component, we will learn how to correctly set up and run tests. Both the lecture and the lab will focus on sound application of rheological principles for interpretation of rheological data. Cooperative: open to WSU degree-seeking students.

FS 522 Sensory Evaluation of Food and Wine

3credits

Joint-listed with FS 422.

Theory, principles and application of sensory evaluation techniques to evaluate appearance, aroma, flavor and texture of foods and wine. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: FS 110 or FS 113; and STAT 251.

FS 525 Engineering Principles for Foods

3 credits

Engineering principles of mass and energy balances, fluid flow, heat transfer, mass transfer, psychrometrics, refrigeration, and drying are applied to processing of food products. The engineering problem-solving method is emphasized in determining solutions to application problems. Cooperative: open to WSU degree-seeking students.

Prereq: FS 303, PHYS 111, and MATH 160 or MATH 170 .

FS 529 Dairy Products

3 credits

Joint-listed with FS 429.

Dairy chemistry, microbiology, sanitation, product development and processing from cow to consumer. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 250, BIOL 300, and FS 303.

FS 530 Dairy Products Lab

1 credit

Joint-listed with FS 430.

Students gain hands-on skills formulating, processing, evaluating and analyzing dairy products. Communication and critical thinking skills are also developed in this laboratory course. Additional projects/ assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

FS 532 Advanced Food Microbiology

3 credits

Discuss current topics in foodborne pathogen including novel detection, method, virulence, and pathogenesis, and their interaction with environment and host. Recommended Preparation: BIOL 115, BIOL 250, and FS 416. Cooperative: open to WSU degree-seeking students.

FS 536 Principles of Sustainability

3 credits

Cross-listed with ENVS 536. Joint-listed with FS 436.

Presented as online doculectures, covering topics such as: Origins of Sustainability, Standards of Sustainability, Culture of Waste, Built Environment, Industrial Sustainability, Energy Sustainability, Water Resources, Measuring Sustainability, Sustainable Impact Assessment, and Our Sustainable Future. Readings and homework are assigned with each topic. Learning assessment will be from homework, exams and written papers. Additional work is required for graduate credit. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: Junior or higher standing .

FS 538 Introduction to Physical Properties of Food

2 credits

Thermophysical behavior of foods and biopolymers, including water transport/activity, rheological, thermal, dielectric and barrier properties. Newtonian and non-Newtonian flow; Viscous, viscoelastic, and Hookean behavior. Relationship between rheology of food biopolymers and structure, composition, temperature, and plasticizer content. Recommended preparation one undergraduate course in calculus. Cooperative: open to WSU degree-seeking students.

Prereq: FS 432, FS 460, MATH 310, or Permission .

FS 564 Food Toxicology

3credits

Joint-listed with FS 464.

General principles of toxicologic evaluation of chemicals, which intentionally or unintentionally enter the food chain. Toxicology of food additives, colors, preservatives, drugs, pesticides and natural toxins in foods and risk characterization. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 300 or BIOL 380.

FS 565 Wine Microbiology and Processing

3 credits

Joint-listed with FS 465.

Technical principles related to the processing and fermentation of wines with an emphasis on microbiology. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: BIOL 250 and BIOL 300.

FS 570 Advanced Food Technology

3 credits

Joint-listed with FS 470.

Physical principles of food preservation and recent advances in food technology including process control and control systems. Recommended Preparation: FS 432 and FS 460. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: FS 302 or FS 303.

FS 575 Food Quality Management

3 credits

Discuss the principles and practices of commonly used quality management systems used to maintain and improve the quality of their products and services. Use statistical tools to monitor and assess quality. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 251, FS 302 and FS 303 .

FS 583 Advances in Cereal Chemistry and Technology

3 credits

This course provides in-depth information on wheat chemistry and technology as well as chemistry and uses of other cereal grains and legumes. Emphasis will be given to composition and functionality of wheat as related to processing and product quality, along with reviews of recent advances in cereal chemistry and technology. Cooperative: open to WSU degree-seeking students.

FS 588 Food Science Teaching Practicum

1-3 credits

Supervised teaching in a university setting. Cooperative: open to WSU degree seeking students.

Prereq: Admission to graduate program and Permission.

FS 598 (s) Internship

Credit arranged .

FS 599 Non-thesis Master's Research

Credit arranged.

FS 600 Doctoral Research & Thesis

FL 401 MLC International Experience

1 credit

Gen Ed: Senior Experience

This course is designed to align with the international experience component required of every French, Spanish, and Modern Language Business major within the Department of Modern Languages and Cultures. An international experience includes an 8-to-15 week pre-approved event. Each student participating in the international experience will be required to complete a final project that will showcase their cultural awareness through analytical and critical processes. In addition, every student participating in this course will be required to take the STAMP (STAndards-based Measurement of Proficiency) exam to evaluate communicative proficiency.

FOREIGN LANGUAGE-- ENGLISH (FLEN)

FLEN 200 (s) Seminar
Credit arranged.

FLEN 204 (s) Special Topics
Credit arranged.

FLEN 205 Uncommon Traveler
1 credit

This seminar is a meditation on the art of travel. It will examine questions such as, "How do we experience travel and get the most out of a journey?" and use a variety of materials to explore how travel becomes a meaningful experience.

FLEN 210 Introduction to Classic Mythology
3 credits

Gen Ed: Humanities

Introduction to classical myths and legends, focusing on the classical stories of creation, gods, and heroes.

FLEN 243 English Word Origins
3 credits

Fundamental Latin and Greek roots of words used in the humanities, social and natural science; emphasis on terminology of fields in which students are interested; introduction to the history of the English Language and its relationship with other languages; knowledge of Greek or Latin is not required.

FLEN 270 Introduction to Greek and Roman Civilization
3 credits

Gen Ed: Social Science

Cross-listed with HIST 270.

Survey of the development of Greek and Roman Civilization, 2000 BC-500 AD.

FLEN 298 (s) Internship
Credit arranged.

FLEN 299 (s) Directed Study
Credit arranged.

FLEN 307 Institutions of the European Union
3 credits

Gen Ed: Social Science, International

Cross-listed with POLS 307

A cross-cultural examination of the European Union, its history, evolution, and current functioning; social, cultural, and political differences among union partners; economic structure and demographics; business culture.

FLEN 308 European Immigration and Integration
3 credits

Gen Ed: Social Science, International

An examination of immigration and integration into Europe since the formation of the European Union; national and international debates; accomplishment and failures; hopes and fears; anti-foreign sentiments and the recurrence of nationalisms.

FLEN 313 French/Francophone Literature in Translation
3 credits

Gen Ed: Humanities, International

Major modern French and Francophone authors in English translation; knowledge of French is not required. (Spring, alt/yr)

FLEN 315 French/Francophone Cinema in Translation
3 credits

Gen Ed: International

Representative works of French and Francophone cinema studied and discussed in English translation; knowledge of French is not required. (Spring, alt/yr.)

FLEN 322 German Culture through Film
3 credits

Representative works of German cinema studied and discussed in English translation; knowledge of German is not required.

FLEN 324 Topics in German Literature in Translation
3 credits, max 6

Gen Ed: Humanities, International

Major German-language authors in English translation; knowledge of German is not required.

FLEN 325 Contemporary Chinese Culture and Customs
1-3 credits, max 3

This course focuses on contemporary trends in Chinese culture and customs in daily life, education, business, and foreign relations. Providing students with a basic understanding of Chinese geography, history, philosophy, and etiquette, this course is taught in English.

FLEN 326 Chinese Cinema in Translation
3 credits

This course introduces students to China and Chinese culture through the lens of Chinese cinema. This class covers the major landmarks in Chinese film history and will help familiarize students with representative movements, directors, actors and actresses in the Chinese film industry. Students will also be introduced to basic Chinese phrases and concepts that will help further their appreciation of Chinese culture and artistic traditions. This course is taught in English.

FLEN 327 Chinese Literature in Translation
3 credits

This course introduces students to important works of Chinese literature that have been translated into English. The intent of this course is to make these works more accessible to a Western, non-Chinese speaking audience. Students will study classical works to more contemporary writing by Chinese expatriates and Chinese American authors. This course is taught in English.

FLEN 331 Japanese Anime
3 credits

Gen Ed: Humanities, International

Selected Japanese animated films are studied as cultural products; each film is situated in its socioeconomic, political, cultural, and/or historical contexts. Japanese language proficiency not required.

FLEN 390 Representation and Reality in Spanish Cinema
3 credits

Examines how Spanish film represents contemporary issues such as immigration and identity for domestic and international audiences.

FLEN 391 Hispanic Film
3 credits

Gen Ed: Humanities, International

Cross-listed with LAS 391

Open to all students. A maximum of 3 cr in FLEN 391 and FLEN 394 may be counted toward a major in Spanish. Genre, structure, and style of representative fiction and nonfiction films of Spain and Latin America.

FLEN 394 Latin American Literature in Translation**3 credits**

Gen Ed: Humanities, International

Cross-listed with LAS 394

A maximum of 3 cr in FLEN 391 and FLEN 394 may be counted toward a major in Spanish. Major Spanish-language authors in English translation; knowledge of Spanish is not required. (Alt/yrs)

FLEN 396 Ecuador/Amazon/Galapagos**3 credits**

Analysis of Ecuadorian and Andean culture through classes, service-learning projects in Quito, living with a host family, and studying biodiversity and ecotourism in the Amazon Rainforest and on the Galápagos Islands.

FOREST RESOURCES (FOR)

FOR 102 Introduction to Forest Management

1 credit

Intro to forestry, current management issues, timber and non-timber resources, educational and professional opportunities. Includes regional field trips ranging in length from one afternoon to one weekend.

FOR 200 (s) Seminar

Credit arranged.

FOR 203 (s) Workshop

Credit arranged.

FOR 204 (s) Special Topics

Credit arranged.

FOR 210 Winter Harvesting

1 credit

This is an introduction to chainsaw safety and operation, precision timber falling, and winter harvesting methods taught as an intermediate-level forestry field practicum during the final week of winter break. All day classes take place on the University of Idaho Experimental Forest. Safety instruction covers methods taught in state and federal land agencies and other popular faller safety programs.

Prereq: Instructor Permission .

FOR 221 Principles of Ecology

3 credits

Cross-listed with REM 221 and WLF 220.

Principles of ecology and their relevance to management of natural resources. Major topics include plant and wildlife population, community, ecosystem, and landscape level processes and how these processes interact with the environment. Exploration of how ecosystems are affected by humans and global change. Introduction to the types of questions asked by ecologists, the principal concepts and theories that guide ecological inquiry, and the methods that are used to answer ecological questions. Both terrestrial and aquatic systems are considered.

Prereq: BIOL 102/BIOL 102L or BIOL 114 or BIOL 115 or PLSC 205; or Permission.

FOR 235 Society and Natural Resources

3 credits

Gen Ed: Social Science

Cross-listed with NRS 235.

An exploration of how people use, value, manage, impact, and are affected by natural resources; course emphasizes social and economic realities and political and legal processes in a context of current and historical natural resource issues. Two lectures and one 1-hr small discussion group meeting a week.

FOR 255 Nursery Irrigation and Fertilization

1 credit

An introduction to nursery irrigation and fertilization practices commonly found in forest tree seedling and native plant nurseries. This course aims to provide some of the important theory behind the practices used every day in successful crop production. The course will be taught by faculty and staff at the UI Pitkin Forest Nursery and managed as part of the annual Position Description process. The course is developed and is presently offered online.

FOR 274 Forest Measurement and Inventory

3 credits

Practical techniques for the design and execution of vegetation measurements for the inventory of forests, shrublands, and fire-fuels.

Three one-hour lectures and one three-hour lab per week. (Fall only)

Prereq: MATH 143; or SAT math score of 610 or above, or ACT math score of 27 or above.

Prereq or Coreq: MATH 144 .

FOR 275 Forestry Resource Sampling

2 credits

Principles and practice of natural resource inventory, forest sampling and data analysis techniques, LIDAR, forest growth, and quantitative decision support. Lab analysis examples and use of Excel and statistical packages are integrated into lectures

Coreq: FOR 274 and STAT 251 .

FOR 299 (s) Directed Study

Credit arranged.

FOR 310 Indigenous Culture and Ecology

3 credits, max 9

This course is designed to explore the challenge for Indigenous and mainstream science of balancing traditional and modern world cultures at odds with one another through an understanding of multiple ways of knowing with respect to natural resources and ecological understanding. The course covers a range of themes including decolonizing methodologies, Indigenous research methodologies, and Indigenous statistics. Case-studies, collaborations with local tribes, and field trips are used to explore course themes.

Prereq: REM 221/FOR 221/ WLF 220 and FOR 235/NRS 235 .

FOR 320 Dendrology

4 credits

Phylogenetic approach to understanding the systematics, morphology, geography, and ecology of the major species of North American woody plants. Includes identification and classification of important tree species of North American and other important woody plants of the Pacific Northwest and northern Rocky Mountains. Three lectures and two 1.5-hour labs a week; two 1-day field trips.

Prereq or Coreq: BIOL 114 or PLSC 205 .

FOR 324 Forest Regeneration

3 credits

Natural and artificial regeneration of forest ecosystems; reproduction methods; selection of seed source and stock type; nursery cultural practices; tree improvement; site preparation methods to establish regeneration. One lecture and one 2-hr lab a week. Two all day field trips. A semester-long project requires time spent weekly in a nursery to regularly monitor plant development under varied environmental conditions (approximately 45 hours over the 18-week spring semester in addition to lectures, labs and out-of-class studying). Cooperative: open to WSU degree-seeking students.

Prereq: FOR 274, SOIL 205 and SOIL 206

Coreq: FOR 330 .

FOR 326 Fire Ecology and Management

3 credits

Credit may only be earned in FOR 326 or FOR 426, but not both. The study of wildfire as a biophysical and ecological process, including controls of wildfires, ecological effects of wildfires, fire history, and fire in the context of global environmental change. Current issues in fire management in the Western US and globally, including readings and discussions of recent scientific literature. One-day field trip with data collection and formal lab write up. (Fall only).

Prereq: FOR 221 or REM 221 .

FOR 330 Forest Soil and Canopy Processes

4 credits

Above- and below-ground biophysical processes that determine how forest ecosystems function. Emphasis is on interactions affecting forest productivity including soil nutrient cycles, light energy, water and nutrient acquisition. Process modeling is used to illustrate effects of complex interactions on carbon budgets. Applications include effects of environmental stress and disturbance such as forest management, fire, pests and global climate change. Builds from general ecology (FOR 221/ REM 221) by exploring processes controlling forest production, and establishes a foundation to address forest management questions in FOR 324 and FOR 424. Two lec and one 4-hr lab a week, including several field trips.

Prereq: SOIL 205; and MATH 143 or MATH 160; and PHYS 100/ PHYS 100L or PHYS 111/PHYS 111L; and FOR 221 or REM 221 .

FOR 375 Introduction to Spatial Analysis for Natural Resource Management

3 credits

Cross-listed with NRS 375.

Methods and techniques for obtaining quantitative and qualitative geospatial information from aerial and satellite images, maps, and the Global Positioning System for input into geographic information systems. Analysis of geospatial data for mapping, monitoring and planning associated with all aspects of natural resource management. Two lec and one 2-hr lab a wk.

Prereq: College Algebra.

FOR 398 (s) Renewable Natural Resources Internship

Credit arranged

Supervised field experience with an appropriate public or private agency.

Reqd for cooperative education students. Graded P/F.

Prereq: Permission of department .

FOR 400 (s) Seminar

Credit arranged.

FOR 403 (s) Workshop

Credit arranged.

FOR 404 (s) Special Topics

Credit arranged.

FOR 405 (s) Professional Development

Credit arranged

Professional education and enrichment of forestry personnel. Credit earned in this course will not be accepted toward graduate degree programs but may be used for undergraduate programs.

Prereq: permission.

FOR 424 Silviculture Principles and Practices

4 credits

Gen Ed: Senior Experience

Theory underlying silvicultural practices to control forest composition and growth, including forest stand dynamics, tree growth and quality, and growth-density relationships. Study of intermediate stand treatments and reproduction methods. Final project required involving field data collection and forest modeling to develop and mark silvicultural prescriptions. 3-hrs of lecture and 2-hrs of lab per week.

Prereq: Senior standing and FOR 274, FOR 320 or other plant identification course, FOR 330, or instructor permission .

FOR 426 Global Fire Ecology and Management

3 credits

Credit may only be earned in FOR 326 or FOR 426, but not both. This course is only available to distance education students. Integrated fire-related ecological effects of fire on vegetation, soils, and air quality; natural and changing role of fire in forests, woodlands, shrublands and rangelands; influence of global change including climate and invasive species; fire as a management tool; application to current issues. (Fall only)

Prereq: FOR 221 or REM 221; and Instructor Permission .

FOR 427 Prescribed Burning Lab

3 credits

Gen Ed: Senior Experience

Planning, conducting and evaluating prescribed burns designed to accomplish natural resource management objectives. Sampling, models and analysis used in writing required fire use plan. 5 days of field trips; some on Saturdays. (Fall only)

Prereq: REM 144, and Senior standing; and Permission

Prereq or Coreq: FOR 326 .

FOR 429 Landscape Ecology

3 credits

Cross-listed with FOR 429

Ecological relationships and conservation issues for biotic communities across the landscape, including spatial and temporal dynamics and patterns, and importance of landscapes in maintenance of ecosystem diversity and function. One or more field trips; one 2-3 hour lab period per week. Recommended Preparation: Familiarity with spreadsheet programs and problem solving using computers. (Spring only)

Prereq: FOR 221 or REM 221.

FOR 430 Forest Operations

3 credits

Overview of the primary equipment and harvesting systems used in modern forest operations, including field design, layout, and administration of timber sales, logging production and cost estimation, laws, and certification. A brief introduction to quantitative forest planning methods is also provided. There are 2-3 early morning trips and one Saturday field lab (Fall only)

Prereq:PHYS 100/PHYS 100L or PHYS 111/PHYS 111L

Prereq or Coreq: MATH 144.

FOR 431 Low Volume Forest Roads

2 credits

Design and field layout of access roads for forest management, through a combination of field labs and use of modern, GIS-based forest road engineering software. Field study includes design of at least one current industry or agency forest road design project. There are 2-3 early morning trips and one Saturday field lab. (Fall, Alt/yrs)

Prereq or Coreq: MATH 144

Coreq: FOR 430 or Permission .

FOR 433 Fire and Fuel Modeling**2 credits**

Learn to use and critically evaluate spatial fire behavior prediction systems, with attention to assumptions, uncertainty, sensitivity, and probability analysis. Topics include fuels classification systems, scale considerations, thematic mapping, and GIS overlay analysis, and how to access on-line geospatial data and decision-support tools. Read and discuss primarily literature on quantitative spatial analysis in fire science, engage in hands-on laboratory exercises, and prepare written reports comparing management alternatives with regards to fire behavior, fire effects, and ecological departure.

Prereq: FOR 375, GEOG 385, or Permission

Coreq: FOR 450 .

FOR 435 Remote Sensing of Fire**3 credits**

Joint-listed with FOR 535

The course describes the state of the art algorithms and methods used for mapping and characterizing fire from satellite observations. The course will link the physical aspects of fire on the ground with the quantities that can be observed from remote sensing, and present an overview of the different aspects of environmental fire monitoring. The course will be accompanied by weekly lab sessions focused on the processing of satellite data from sensors used operationally for fire monitoring. This course assumes that you are familiar with the fundamental concepts of mathematics and physics, understand basic remote sensing techniques, and can use maps and GIS data layers. For graduate credit, additional literature review and a class project including evaluation of new, advanced technologies is required. (Spring)

Prereq: FOR 375 or Permission .

FOR 436 Cable Systems**2 credits**

Overview of the major cable logging systems. Trigonometry and physical mechanics of cable systems, including analysis of forces, tensions, and payload capacity. Field layout and analysis of cable corridors using small yarders on the UI Experimental Forest using integrated field planning and GIS-based cable system design software. There are 2-3 early morning trips and one Saturday field lab. (Fall, Alt/yrs)

Prereq or Coreq: MATH 144

Coreq: FOR 430 or Permission .

FOR 444 Prescribed Fire For Ecologically-Based Management**2-3 credits**

Learn about prescribed burning in support of ecologically-based management through reading, discussion and participating in hands-on service learning, planning, conducting and monitoring prescribed burns, reading and discussing local ecology and management, working collaboratively, and developing skills in fire management. Course requires travel as well as pre, during and post-travel writing, discussion and presentations.

Prereq: REM 144 and Junior Standing; or Instructor Permission.

FOR 447 Woody Plant Physiology**3 credits**

Joint-listed with FOR 547

Examine woody plant interactions with their environment and tolerance or avoidance of stress. This course covers quantitative analysis of environmental biophysics, gas exchange, water relations and nutrition in woody plants. Students will also learn to use all of the major methods/equipment used in woody plant physiology research. Includes two weekly 1-hour lectures and one weekly 3-hour lab. Students registered for 500-level credit must complete a research project and presentation in addition to the requirements for the 400-level credit.

FOR 450 Fire Behavior**2 credits**

Understand the physical and chemical processes controlling combustion and fire behavior. Gain in-depth knowledge of commonly-used, point-scale fire behavior models and tools, including key assumptions and limitations. Critically review and discuss scientific literature, current topics, and case studies. Lab sessions include designing and undertaking small-scale fire behavior experiments, developing simple quantitative models, and a field trip.

Prereq: FOR 326; and PHYS 100/PHYS 100L or PHYS 111/PHYS 111L

Coreq: FOR 433 .

FOR 451 Fuels Inventory and Management**2 credits**

Tools, quantitative analysis, and approaches for inventory and management of fuels for wildland fires over large, diverse areas in forests, woodlands, shrubland, and grasslands. Critically review and synthesize relevant scientific literature.

Prereq: FOR 375, REM 144 and FOR 274 or REM 411 .

FOR 454 Air Quality, Pollution, and Smoke**3 credits**

Joint-listed with FOR 554

Assessment of the controls and drivers of emission processes and impacts on air quality from fires, industry, and other natural sources. Overview of the combustion and emission process, how these emissions impact the 'quality of air', and what models exist to monitor the emission. Other topics to include: recent EPA and other guidelines for smoke management planning, attainment issues, atmospheric transport and deposition processes. Additional work required for graduate credit.

FOR 462 Watershed Science and Management**3 credits**

Influence of land management practices on hydrologic processes, water quality, and riparian habitat w/emphasis on wildland watersheds. One day field trip.

Prereq: MATH 143; and PHYS 100/PHYS 100L or PHYS 111/PHYS 111L, or high school equivalent.

FOR 468 Forest and Plant Pathology**2 credits**

A survey of plant diseases. Emphasis on forest trees and other woody plants. Organisms that cause diseases. Strategies to minimize negative effects. Symbiotic roles of microbes in plants. Two hours of lecture, and two hours of lab per week, in addition to multiple field trips (as weather allows) to observe diseases and their effects. (Spring only)

Prereq: FOR 320 and FOR 330 .

FOR 472 Remote Sensing of the Environment**3-4 credits**

Cross-listed with NRS 472 and REM 472

Current airborne and satellite systems, data acquisition on ground and from remote locations, instrumentation, imagery interpretation and digital analysis, applications for natural resource science and management. Two 75-minute lectures and one two-hour lab per week. Recommended Preparation: MATH 143. Cooperative: open to WSU degree-seeking students.

FOR 473 ECB Senior Presentation

1 credit

Gen Ed: Senior Experience

Cross-listed with FISH 473, NRS 473, REM 473, RMA 473, and WLF 473 Reporting and presenting the senior project (thesis or internship); taken after or concurrently with FOR 485 or FOR 497. Serves as the senior capstone course for Ecology and Conservation Biology (ECB).

Prereq: Instructor Permission.

FOR 483 Senior Project Presentation

1 credit

Cross-listed with FISH 483, NRS 483, REM 483, and WLF 483 Reporting and presenting the senior project (thesis or internship); taken after or concurrently with FOR 485 or FOR 497.

FOR 484 Forest Policy and Administration

2 credits

Cross-listed with NRS 484

Evaluation of land and forest problems and policies in the U.S.; analysis of current conditions and policies; historical development of governmental and private agencies concerned with the administration of forest conservation program. Recommended Preparation: FOR 235.

Prereq: Junior standing.

FOR 485 Ecology and Conservation Biology Senior Project

1-3 credits, max 3

Cross-Listed with FISH 485, NRS 485, and WLF 485

Scholarly work; learning objectives include development and formal proposal of a specific project and conducting the project or research with the guidance of a faculty mentor.

FOR 490 The Resilient Landscape

3 credits

Gen Ed: Senior Experience

Cross-listed with LARC 480.

A capstone course addressing the concept of trade-offs in coupled social ecological technological systems, where landscapes and the communities they support are adaptive and evolving but the ideal is rarely attainable. This is a reading, critical thinking and discussion course with assessment based on class participation in a term project, problem solving, verbal and written communication, collegiality and collaboration (Spring only).

Prereq: ENGL 102 and Junior standing .

FOR 497 (s) Senior Thesis

1-4 credits

Independently plan and conduct a thesis project; write and defend the thesis under supervision of an advisor.

Prereq: Senior standing and minimum 3.20 GPA or Permission.

FOR 498 (s) Renewable Natural Resources Internship

Credit arranged

Supervised field experience with an appropriate public or private agency. Required for cooperative education students.

Prereq: Permission of department.

FOR 499 (s) Directed Study

Credit arranged

For the individual student; conferences, library, field, or lab work.

Prereq: Senior standing, GPA 2.5, and Permission.

FOR 500 Master's Research and Thesis

Credit arranged.

FOR 501 (s) Seminar

Credit arranged

Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics.

Prereq: Permission.

FOR 502 (s) Directed Study

Credit arranged.

FOR 503 (s) Workshop

Credit arranged

Selected topics in the conservation and management of natural resources.

Prereq: Permission.

FOR 504 (s) Special Topics

Credit arranged.

FOR 505 (s) Professional Development

Credit arranged.

FOR 515 Physical Hydrology

3 credits

A quantitative treatment of the physical processes that control water fluxes in the environment. Specific emphasis on evaporation, transpiration, snow processes and soil water flow. (Fall only, Alt/yrs)

FOR 516 Current Literature in the Hydrologic Effects of Forest Management

1 credit

Evaluation and discussion of how management activities affect hydrologic processes and flow regimes in forested watersheds. Seminar based on primary literature. May take only once. (Spring only, Alt/yrs)

FOR 522 Belowground Processes

3 credits

Belowground Processes considers current advancements in understanding of root growth and development, water and nutrient acquisition, rhizosphere functions, soil microbial community composition and functions, organic matter decomposition, and symbiotic associations between plants and microbes. Examples focus mainly on forest and wildland terrestrial ecosystems. Students learn various techniques for studying belowground processes and apply them in self-directed, hypothesis-driven projects. Offered every other year during fall semester.

Prereq: Graduate standing or instructor permission .

FOR 526 Fire Ecology

3 credits

Fire-related ecology of plant and animal species in wildlands; effects of fire occurrence and suppression on physical environment, landscapes, and processes in both natural and managed ecosystems. Two days of field trips. (Alt/yrs)

Prereq: general ecology course.

FOR 529 Ecosystem Analysis and Modeling

3 credits

Terrestrial ecosystem processes, analysis, and modeling from the leaf to the landscape scale; techniques for measuring and modeling ecosystem attributes; integration with land management and climate change impacts. Field trip required. (Fall only)

FOR 531 Invasion Biology**3 credits**

An introduction to the biology of invasive species, covering plants, animals, and microbial invasives. The course will review relevant readings from the primary literature, especially those dealing with the current state of our knowledge of invasives, their ecology, control, and implications for public policy. (Spring only)

Prereq: Basic introductory genetics class and ecology.

FOR 535 Remote Sensing of Fire**3 credits**

Joint-listed with FOR 435

The course describes the state of the art algorithms and methods used for mapping and characterizing fire from satellite observations. The course will link the physical aspects of fire on the ground with the quantities that can be observed from remote sensing, and present an overview of the different aspects of environmental fire monitoring. The course will be accompanied by weekly lab sessions focused on the processing of satellite data from sensors used operationally for fire monitoring. This course assumes that you are familiar with the fundamental concepts of mathematics and physics, understand basic remote sensing techniques, and can use maps and GIS data layers. For graduate credit, additional literature review and a class project including evaluation of new, advanced technologies is required. (Spring)

Prereq: FOR 375 or Permission.

FOR 546 Science Synthesis and Communication**3 credits**

This course is an online course only. Critically review science literature and write both brief and in-depth syntheses to address applied questions in science and management. Learn best practices for summarizing and communicating science effectively. Discuss challenges for application of science in management. Examples will focus on wildland fire science and management.

FOR 547 Woody Plant Physiology**3 credits**

Joint-listed with FOR 447

Examine woody plant interactions with their environment and tolerance or avoidance of stress. This course covers quantitative analysis of environmental biophysics, gas exchange, water relations and nutrition in woody plants. Students will also learn to use all of the major methods/equipment used in woody plant physiology research. Includes two weekly 1-hour lectures and one weekly 3-hour lab. Students registered for 500-level credit must complete a research project and presentation in addition to the requirements for the 400-level credit.

FOR 551 Current Literature in Forest Ecology/Tree Physiology**1 credit, max arranged**

Review recent articles in Forest Ecology and Physiology journals. Students choose, critically review, and discuss the articles to develop critical-thinking skills and confidence in their knowledge of the literature. Graded P/F.

FOR 552 Current Literature in Environmental Remote Sensing**1 credit, max arranged**

Cross-listed with NRS 552

Review, present, and discuss recent articles related to remote sensing of the environment. Students choose, critically review, and discuss the articles to develop critical-thinking skills, remote sensing research strategies, and confidence in their knowledge of the literature. Graded P/F.

FOR 554 Air Quality, Pollution, and Smoke**3 credits**

Joint-listed with FOR 454

Assessment of the controls and drivers of emission processes and impacts on air quality from fires, industry, and other natural sources. Overview of the combustion and emission process, how these emissions impact the 'quality of air', and what models exist to monitor the emission. Other topics to include: recent EPA and other guidelines for smoke management planning, attainment issues, atmospheric transport and deposition processes. Additional work required for graduate credit.

FOR 555 Current Topics: Regeneration/Restoration**1 credit, max arranged**

Review recent articles pertaining to natural and artificial regeneration of native plants, including nursery production, restoration practices, and post-disturbance treatments. Students choose, critically review, and discuss the articles to develop critical-thinking skills and confidence in their knowledge of the literature. Graded P/F. Recommended Preparation: FOR 324, FOR 424, and FOR 551.

FOR 557 Advanced Fire Behavior**3 credits**

Credit may be earned in only one of the following: FOR 450 or FOR 557. This course is an online course only. Understand the processes that control fire behavior in forest and rangelands, including combustion, emissions and heat release, and related fire effects. Use theory and advanced knowledge with scientific literature and case studies to critically assess the assumptions and limitations of limitations of surface and crown fire models, including the varying influences of fuels, terrain, and environmental conditions.

FOR 584 Natural Resource Policy Development**3 credits**

This course is an online course only. The development of natural resource policy with emphasis on the policy process at the federal level in the U.S.; the role of and interrelationships between staff, committees, agencies and elected officials; the relationship of science and scientists with policy and politicians in the development of natural resource policy, including preparation of testimony related to natural resource science and policy issues; implementation of policy within the natural resource agencies and judicial interpretation of major natural resource policies in the U.S. Recommended Preparation: An upper-division course in natural resource and/or environmental policy (Spring only)

FOR 587 Wildland Fire Policy**2 credits**

This course is an online course only. Relationships between fire science and management and the federal laws and regulations that affect fire management in wildland ecosystems; the politics of wildland fire; and the effects of wildland fire on wildland-urban interface (WUI) communities. Recommended preparation is an upper division course in natural resource, environmental policy, or FOR 584. (Fall only)

FOR 597 (s) Practicum

Credit arranged.

FOR 598 (s) Internship

Credit arranged.

FOR 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

FOR 600 Doctoral Research and Dissertation

Credit arranged

Prereq: admission to the doctoral program in "natural resources" and
Permission of department.

FOR 601 (s) Seminar

Credit arranged.

FRENCH (FREN)

Vertically-related courses in this subject field are: FREN 101 - FREN 102 - FREN 201 - FREN 202. Any one of the following courses may be considered the terminal course for the related vertical sequence above:

FREN 301 or FREN 302. A maximum of 16 credits may be earned for vertical credit in any language in the Department of Modern Languages & Cultures.

FREN 101 Elementary French I

4 credits

Gen Ed: International

Pronunciation, vocabulary, reading, spoken French, and functional grammar. Students with French experience who place higher than FREN 101 on the placement exam may not enroll in FREN 101, but may earn credit for FREN 101 by successfully completing a higher vertically-related course.

FREN 102 Elementary French II

4 credits

Gen Ed: International

Pronunciation, vocabulary, reading, spoken French, and functional grammar.

Prereq: FREN 101 or placement exam.

FREN 105 Beginning French Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the beginning French level. Graded P/F.

FREN 200 (s) Seminar

Credit arranged.

FREN 201 Intermediate French I

4 credits

Gen Ed: International

Reading, grammar review, speaking, and writing.

Prereq: FREN 102 or placement exam.

FREN 202 Intermediate French II

4 credits

Gen Ed: International

Reading, grammar review, speaking, and writing.

Prereq: FREN 201 or placement exam.

FREN 204 (s) Special Topics

Credit arranged.

FREN 205 Intermediate French Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the intermediate French level. Graded P/F.

FREN 299 (s) Directed Study

Credit arranged.

FREN 301 Advanced French Grammar

3 credits

Gen Ed: International

Comprehensive review of French grammar. Recommended for students who wish to continue in upper-division French courses and for prospective teachers of French. (Fall, alt/yrs.)

Prereq: FREN 202 or placement exam.

FREN 302 Advanced French Writing Skills

3 credits

Gen Ed: International

Further development of writing skills in various kinds of writing.

Recommended for students who wish to continue in upper-division

French courses and for prospective teachers of French. Recommended

Preparation: FREN 202. (Fall, alt/yrs.)

FREN 304 Connecting French Language and Culture

3 credits

Gen Ed: International

Practice of linguistic proficiencies within simulated cultural frames.

Recommended Preparation: FREN 202. (Spring, alt/yrs.)

FREN 307 French Phonetics

3 credits

Gen Ed: International

Contrastive analysis; acquisition and corrective practice of sounds

and intonation patterns; phonetic description and transcription.

Recommended Preparation: FREN 202. (Spring, alt/yrs.)

FREN 308 Advanced French Conversation

3 credits

Gen Ed: International

Further development of speaking skills; discussion on topics of cultural

interest and current events. Recommended Preparation: FREN 202. (Fall,

alt/yrs.)

FREN 316 French-English Translation Skills

3 credits

Theory and practice of translation, French-English and English-French,

using a variety of types of text. Recommended Preparation: FREN 202.

(Fall, alt/yrs.)

FREN 398 (s) Internship

Credit arranged.

FREN 400 (s) Seminar

Credit arranged

Prereq: Permission.

FREN 404 (s) Special Topics

Credit arranged.

FREN 407 (s) French & Francophone Literatures

3 credits, max 9

Gen Ed: International

For advanced students; representative works from various genres of

French and Francophone literature. Recommended Preparation: Two 300-

level French courses. Cooperative: open to WSU degree-seeking students.

(Spring, every three years)

FREN 408 (s) French and Francophone Culture and Institutions

3 credits, max 9

Gen Ed: International

For advanced students; contemporary social and political institutions in

France and the Francophone world, with discussion on topics of current

interest. Recommended Preparation: Two 300-level French courses.

(Spring, every three years)

FREN 410 French and Francophone Arts

3 credits

Gen Ed: International

For advanced students; representative works, styles, and movements in

visual arts, architecture, and music of France and the Francophone world.

Recommended Preparation: Two 300-level French courses. Cooperative:

open to WSU degree-seeking students.

FREN 419 French & Francophone Cinema

3 credits

For advanced students; representative works from French and Francophone cinema. Recommended Preparation: Two 300-level French courses. (Spring, every 3 years)

FREN 449 (s) Practicum in Tutoring

1 credit, max 2

Tutorial services performed by advanced students under faculty supervision. Graded P/F.

Prereq: Permission of department.

FREN 496 (s) Proseminar

1-3 credits, max 12

May be graded P/F when grading system is uniform for all students in the class.

Prereq: Permission.

FREN 498 (s) Internship

Credit arranged .

FREN 499 (s) Directed Study

Credit arranged .

GENETICS (GENE)

GENE 200 (s) Seminar

Credit arranged.

GENE 207 Introduction to Biotechnology

3 credits

Cross-listed with PLSC 207

Offers an overview of modern biotechnology, focusing on basic concepts and applications of biotechnology with regards to plants, animals, environment and microorganisms, and medicine. Recommended preparation: CHEM 101 or CHEM 111. (Fall, alt even/ys)

GENE 299 (s) Directed Study

Credit arranged.

GENE 314 General Genetics

3 credits

Principles of molecular genetics, microbial genetics, cytogenetics, qualitative genetics, quantitative genetics, and population genetics. (Spring only)

Prereq: BIOL 115 or BIOL 154 or Permission.

GENE 400 (s) Seminar

Credit arranged.

GENE 440 Advanced Laboratory Techniques

4 credits

Cross-listed with PLSC 440

Intensive hypothesis-driven laboratory course that will prepare the student for research in molecular biology; emphasis on areas of microbial physiology, microbial genetics, immunology, and pathogenic microbiology. (Spring only)

Prereq: BIOL 250.

GENE 488 Genetic Engineering

3 credits

Joint-listed with GENE 588, Cross-listed with PLSC 488

Techniques and theory underlying practical genetic modifications of plants, microbes, and animals. Extra oral and/or written assignments required for graduate credit. Recommended Preparation: BIOL 380. (Fall only)

Prereq: GENE 314 or BIOL 310.

GENE 499 (s) Directed Study

Credit arranged.

GENE 501 (s) Seminar

Credit arranged.

GENE 502 (s) Directed Study

Credit arranged.

GENE 588 Genetic Engineering

3 credits

Joint-listed with GENE 488, Cross-listed with PLSC 588

Techniques and theory underlying practical genetic modifications of plants, microbes, and animals. Extra oral and/or written assignments required for graduate credit. Recommended Preparation: BIOL 380. (Fall only)

Prereq: GENE 314 or BIOL 310.

GEOGRAPHY (GEOG)

GEOG 100 Physical Geography

3 credits

Gen Ed: Natural and Applied Sciences

Natural environment; nature, distribution, and relationships of climate, landforms, oceans, vegetation, hydrography, and soils. Three lec and one 2-hr lab a wk; may involve evening classes.

GEOG 100L Physical Geography Lab

1 credit

Gen Ed: Natural and Applied Sciences

Natural environment; nature, distribution, and relationships of climate, landforms, oceans, vegetation, hydrography, and soils. Three lec and one 2-hr lab a wk; may involve evening classes.

GEOG 165 Human Geography

3 credits

Gen Ed: Social Science, International

Intro to geographical dimension in human behavior and how this is evident in population distribution, rural and urban land use, and social, economic, and political attributes of societies.

GEOG 200 World Regional Geography

3 credits

Gen Ed: Social Science, International

Countries, regions, and peoples of the world; interrelationships between humans and their physical and cultural environments.

GEOG 203 (s) Workshop

Credit arranged.

GEOG 204 (s) Special Topics

Credit arranged.

GEOG 260 Introduction to Geopolitics

3 credits

The course introduces students to contemporary approaches to geopolitics through the exploration of key geographic concepts and the ideas of structure and agency. Topics include terrorism, nationalism, militarism, borders, and environmental geopolitics. Current events are discussed to exemplify the concepts.

GEOG 299 (s) Directed Study

Credit arranged.

GEOG 301 Meteorology

3 credits

Atmospheric processes that produce weather; temperature; moisture, clouds, and precipitation; synoptic-scale weather; severe storms; weather instrumentation, weather maps, and forecasting; influences of weather on humans and impacts of humans on weather. (Fall only)

Prereq: MATH 143 or equivalent .

GEOG 313 Global Climate Change

3 credits

Joint-listed with GEOG 513.

Scientific basis of the climate system and global climate changes; process-based understanding of past, present and future climate change; natural and anthropogenic influences; interactions between climate, society and ecosystems; scientific review and politicization; climate change solutions and opportunities. Students in GEOG 513 will be required to solve additional quantitative problem sets and synthesize journal articles. (Fall only)

GEOG 330 Urban Geography

3 credits

Joint-listed with GEOG 531.

Theory and models of the functions, origin, development, structure, and distribution of cities; land-use and housing, globalization and cities, neighborhood transition, urban economic development, and geographic aspects of city planning. Also considers urban social differences, inequality, and conflicts over the uses and meanings of city space. Graduate students are required to synthesize journal articles and complete an additional independent research paper.

GEOG 340 Business Location Decisions

3 credits

Locational decision making in primary, secondary, and tertiary industries; resulting patterns of industrial location; importance of location and impact of industries on other characteristics of communities as demonstrated by examples from each sector. One 1-day field trip. Additional assignments and exams reqd for grad cr.

GEOG 345 Global Economic Geography

3 credits

Joint-listed with GEOG 545.

An overview of major developments and contemporary debates in the economic geography literature; economic globalization, the spatial dimensions of resource use, agriculture, industry, and post-industry landscapes, economic aspects of land-use change, location theory and case studies. Additional projects required for graduate credit.

GEOG 350 Geography of Development

3-4 credits

Gen Ed: International

Joint-listed with GEOG 550.

Geographic appraisal of resource problems and development potentials of the Third World. One hour additional meeting per week or project for fourth credit. Additional assignments and exams required for graduate credit.

GEOG 360 Population Dynamics and Distribution

3-4 credits

Gen Ed: International

Effects of fertility, mortality, and migration on population size and distribution; demographic trends in U.S. and other societies and how these relate to economic, political, environmental, and other factors. One hour additional meeting per week or project for fourth credit. Additional assignments and exams required for graduate credit. (Spring only)

GEOG 365 Political Geography

3 credits

Gen Ed: Social Science, International

Joint-listed with GEOG 565

Surveys the geographic distribution of political processes, actions, and outcomes at variety of spatial scales - international, national, and local. Topics include origins of the modern territorial state, conflicts over access to and use of space, access to natural resources, nationalism, elections, democratization, globalization, terrorism, and the politics of identity. Graduate students are required to complete an additional independent research paper.

GEOG 385 GIS Primer

3 credits

Intro to basic concepts and applications of geographic information systems (GIS), lab exercises on PC-based GIS packages. Two lec and 2 hrs of lab a wk. Prereq: basic knowledge of PC-based operating system.

GEOG 390 Cartographic Design & Geovisualization**3 credits**

Map projections, map generalization, cartographic design, map symbology, and typography; statistical, isarithmic and multivariate mapping; static versus dynamic mapping; interactive and internet mapping; cartographic animation; 2 hrs of lab/wk. (Spring only)

Prereq: GEOG 385 .

GEOG 400 (s) Seminar

Credit arranged.

GEOG 401 Climatology**3 credits**

Joint-listed with GEOG 512.

Physical basis for climatic processes and patterns; mechanics of global atmospheric circulation; radiation balance and heat budget of the earth; models of weather patterns and climate. Additional assignments and quantitative exercises required for graduate credit. (Spring, alt/yr)

GEOG 402 GIS Skills Development**1 credit, max 6**

Hands-on skills development in GIS and related technologies. Primary topics vary by semester, but may include topics such as GPS/GIS integration, server GIS and cartographic design. May be taken for credit multiple times.

GEOG 403 (s) Workshop

Credit arranged.

GEOG 404 (s) Special Topics

Credit arranged.

GEOG 405 Climate and Water Resources Change**3 credits**

Joint-listed with GEOG 505.

Physical processes that determine the climate of Earth and its past and future changes: greenhouse effect, radiative and heat feedback processes, orbital parameter theory. Climate and Environmental Periods. Atmospheric and water resources change within the instrumental period of records. Future climate and water resources: Paleo-perspectives on "greenhouse warming". Review of paleoclimate techniques: dendro-climatology, marine and lake sediments, polar and mountain ice core paleo-climatic records, paleo-climatic and historic data analysis. Additional assignments and exams reqd for grad cr.

Prereq: GEOG 401 and STAT 251, or Permission.

GEOG 407 Spatial Statistics and Modeling**3 credits**

Joint-listed with GEOG 507.

Introduces the basic theories and methods of spatial analysis used for statistical modeling and problem solving in human and physical geography. The special nature of spatial data (point, continuous, and lattice) in the social and physical sciences is emphasized. Topics include point pattern analysis, spatial autocorrelation analysis, spatial multivariate regression, local indicators of spatial association, and geographically weighted regression. Extra oral and/or written assignments required for grad credit. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 431 or permission .

GEOG 409 Rural Development**3 credits**

Joint-listed with GEOG 508.

Readings and discussion seminar course on rural societies in various countries. Rural trends and development prospects. Reading and discussion of literature in rural development. Extra projects and literature required for graduate credit. (Fall only)

GEOG 410 Biogeography**3 credits**

Geographic distributions of plant and animal species, and causes of patterns, including climate, geology, speciation, extinction, and migration.

Prereq: GEOG 100/GEOG 100L or FOR 221/REM 221 .

GEOG 411 Natural Hazards and Society**3 credits**

Overview of the geophysical conditions associated with the development of natural hazards including social science principles and methodologies for addressing critical questions relating to managing the vulnerability and risks associated with various natural hazards.

GEOG 420 Land, Resources, and Environment**3 credits**

Social, legal, cultural, political, and economic aspects of land-use control both in the United States and worldwide. Contrasts are made between indigenous and contemporary cultures within a sustainable geography-of-limits and political ecology framework. (Spring only)

GEOG 424 Hydrologic Applications of GIS and Remote Sensing**3 credit**

Joint-listed with GEOG 524.

Concepts of area-based hydrologic modeling and assessment and the various types of spatially distributed information commonly used in these activities, such as topographic data, vegetation cover, soils and meteorologic data. Hands-on experience in manipulating these types of data sets for hydrologic applications. Recommended Preparation: FOR 462, BE 355, or CE 325; or Equivalent.

Prereq: GEOG 385 or equivalent work experience .

GEOG 430 Climate Change Ecology**3 credits**

Climate change impacts on ecosystems, plants, and animals; feedbacks to climate change; climate change mitigation related to ecosystems and species.

Prereq: BIOL 114 or ENVS 101 or GEOG 100 or FOR 221 or REM 221 or Permission of Instructor .

GEOG 435 Climate Change Mitigation**3 credits**

Joint-listed with GEOG 535.

Overview of the sources and magnitude of greenhouse gas (GHG) emissions at various scales from international to local; barriers to and options for reducing GHG emissions via new energy sources, increased efficiency, capture of wasted energy and land management practices. For graduate credit, a major independent project is required as well as additional assignments.

GEOG 453 Water and Energy Systems

3 credits

The class covers the basic science of water and energy and the applied interrelationships of those two resources in today's society. The broad spectrum coverage of the topic includes the energy linkage to both the supply and demand of water and also the water linkage to the supply of and demand for energy. The class includes development of systems dynamics models for describing the resource interactions. Recommended Preparation: Basic Physical Sciences.

Prereq: MATH 143 .

GEOG 455 Societal Resilience and Adaptation to Climate Change

3 credits

Consequences of human causes, mitigation and adaptations, community resilience strategies, and policy implications to human impacts of global climate change. Concentration on social science issues including opportunities and constraints for resilience and adaptation to global climate change. Recommended Preparation: GEOG 411 .

GEOG 475 Intermediate GIS

3 credits

Course covers in-depth geographic information systems models and applications. Topics include network analysis, watershed analysis, spatial interpolation, terrain mapping and analysis, 3D visualization, and GIS modeling. Students develop spatial analysis and modeling skills to solve real-world problems.

Prereq: GEOG 385

Coreq: STAT 251 .

GEOG 479 GIS Programming

3 credits

An introduction to the use of programming languages, such as Python with standard ArcGIS concepts.

Prereq: GEOG 475 or GEOG 390.

GEOG 483 Remote Sensing/GIS Integration

3 credits

Joint-listed with GEOG 583.

Concepts and tools for the processing, analysis, and interpretation of digital images from satellite and aircraft-based sensors. The integration of remotely sensed data and the other spatial data types within Geographic Information Systems. Additional assignments and exams reqd for grad cr. Two lecture and 2 hours of lab a week.

Coreq: GEOG 385 or Equivalent.

GEOG 486 Transportation, GIS & Planning

3 credits

Interdisciplinary study of transportation and planning from a geographical perspective. Principles and methods of analysis in transportation geography, including accessibility and mobility, spatial interaction, network analysis, and GIS applications for sustainable transportation and land use planning; study of the cutting-edge approach to travel behavior analysis and modeling at various geographic scales (i.e., individual/household/community); activity-based field data collection and related survey design issues are discussed. Graduate students will have additional requirements. Two lec and one lab a wk. (Fall only)

Prereq: GEOG 385 or Permission .

GEOG 489 Capstone Preparation

1 credit

Planning and preparation for senior project to be carried out in subsequent semester. Students learn expectations for the senior project, plan their project, gather data and other resources and develop an agreement with their faculty mentor.

GEOG 491 (s) Field Techniques

3 credits, 6 max

Acquisition of data in the field, analysis, interpretation, and presentation of results of field investigations. May also be taken in conjunction with other geography courses.

Prereq: Permission.

GEOG 493 Senior Capstone in Geography

3 credits

Gen Ed: Senior Experience

A capstone course in which students integrate their knowledge of human and physical geography, as well as geographic techniques, to propose solutions to real-world problems. Students gain experience in working in small groups and in written and oral presentation of project results, and will be evaluated with respect to the skills acquired in their degree program. Topics may include, but are not limited to, issues such as sustainable development in rural communities, global and regional food and energy distribution, quantifying and analyzing global or regional indicators of environmental and/or societal trends. Open to senior geography majors or to non-majors with instructor's permission.

Prereq: GEOG 489, Department of Geography Majors or Permission .

GEOG 498 (s) Internship

Credit arranged

Graded pass/fail.

GEOG 499 (s) Directed Study

Credit arranged.

GEOG 500 Master's Research and Thesis

Credit arranged.

GEOG 501 (s) Seminar

Credit arranged.

GEOG 502 (s) Directed Study

Credit arranged.

GEOG 503 (s) Workshop

Credit arranged.

GEOG 504 (s) Special Topics

Credit arranged.

GEOG 505 Climate and Water Resources Change

3 credits

Joint-listed with GEOG 405.

Physical processes that determine the climate of Earth and its past and future changes: greenhouse effect, radiative and heat feedback processes, orbital parameter theory. Climate and Environmental Periods. Atmospheric and water resources change within the instrumental period of records. Future climate and water resources: Paleo-perspectives on "greenhouse warming". Review of paleoclimate techniques: dendro-climatology, marine and lake sediments, polar and mountain ice core paleo-climatic records, paleo-climatic and historic data analysis.

Additional assignments and exams reqd for grad cr.

Prereq: GEOG 401 and STAT 251, or Permission.

GEOG 507 Spatial Statistics and Modeling**3 credits**

Joint-listed with GEOG 407.

Introduces the basic theories and methods of spatial analysis used for statistical modeling and problem solving in human and physical geography. The special nature of spatial data (point, continuous, and lattice) in the social and physical sciences is emphasized. Topics include point pattern analysis, spatial autocorrelation analysis, spatial multivariate regression, local indicators of spatial association, and geographically weighted regression. Extra oral and/or written assignments required for grad credit. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 431 or permission .

GEOG 508 Rural Development**3 credits**

Joint-listed with GEOG 409.

Readings and discussion seminar course on rural societies in various countries. Rural trends and development prospects. Reading and discussion of literature in rural development. Extra projects and literature required for graduate credit. (Fall only)

GEOG 512 Climatology**3 credits**

Joint-listed with GEOG 401.

Physical basis for climatic processes and patterns; mechanics of global atmospheric circulation; radiation balance and heat budget of the earth; models of weather patterns and climate. Additional assignments and quantitative exercises required for graduate credit. (Spring, alt/yr)

GEOG 513 Global Climate Change**3 credits**

Joint-listed with GEOG 313.

Scientific basis of the climate system and global climate changes; process-based understanding of past, present and future climate change; natural and anthropogenic influences; interactions between climate, society and ecosystems; scientific review and politicization; climate change solutions and opportunities. Students in GEOG 513 will be required to solve additional quantitative problem sets and synthesize journal articles. (Fall only)

GEOG 524 Hydrologic Applications of GIS and Remote Sensing**3 credit**

Joint-listed with GEOG 424.

Concepts of area-based hydrologic modeling and assessment and the various types of spatially distributed information commonly used in these activities, such as topographic data, vegetation cover, soils and meteorologic data. Hands-on experience in manipulating these types of data sets for hydrologic applications. Recommended Preparation: FOR 462, BE 355, or CE 325; or Equivalent.

Prereq: GEOG 385 or equivalent work experience .

GEOG 531 Urban Geography**3 credits**

Joint-listed with GEOG 330.

Theory and models of the functions, origin, development, structure, and distribution of cities; land-use and housing, globalization and cities, neighborhood transition, urban economic development, and geographic aspects of city planning. Also considers urban social differences, inequality, and conflicts over the uses and meanings of city space. Graduate students are required to synthesize journal articles and complete an additional independent research paper.

GEOG 535 Climate Change Mitigation**3 credits**

Joint-listed with GEOG 435.

Overview of the sources and magnitude of greenhouse gas (GHG) emissions at various scales from international to local; barriers to and options for reducing GHG emissions via new energy sources, increased efficiency, capture of wasted energy and land management practices. For graduate credit, a major independent project is required as well as additional assignments.

GEOG 540 Business Location Decisions**3 credits**

Locational decision making in primary, secondary, and tertiary industries; resulting patterns of industrial location; importance of location and impact of industries on other characteristics of communities as demonstrated by examples from each sector. One 1-day field trip. Additional assignments and exams reqd for grad cr.

GEOG 542 Spatial Statistics**3 credits**

The course extends the range of spatial analysis from GEOG 507. Topics include spatial covariance structures, methods of spatial model estimation, (e.g., iterated LS, GLS, MLE, penalized estimation), spatial interpolation and surface estimation, geostatistics/kriging and gravity model estimation and local parametric estimation procedures. Categorical spatial data analysis, Poisson and logistic regression, mixed models, contingency tables, models of discrete temporal and landscape change and graph-theoretic analogues, log-linear models. Additional topics, time permitting: introduction to hierarchical modeling and Bayesian spatial techniques and MCMC estimation, Markov random fields, stochastic space-time analysis and diffusion, time series of stationary series and vector autoregression with Granger causality, space-time covariance heterogeneity issues. Recommended: An additional course in multivariate statistics, probability theory or mathematical statistics.

Prereq: GEOG 507 and STAT 431.

GEOG 545 Global Economic Geography**3 credits**

Joint-listed with GEOG 345.

An overview of major developments and contemporary debates in the economic geography literature; economic globalization, the spatial dimensions of resource use, agriculture, industry, and post-industry landscapes, economic aspects of land-use change, location theory and case studies. Additional projects required for graduate credit.

GEOG 550 Geography of Development**3-4 credits**

Joint-listed with GEOG 350.

Geographic appraisal of resource problems and development potentials of the Third World. One hour additional meeting per week or project for fourth credit. Additional assignments and exams required for graduate credit.

GEOG 560 Population Dynamics and Distribution**3-4 credits**

Effects of fertility, mortality, and migration on population size and distribution; demographic trends in U.S. and other societies and how these relate to economic, political, environmental, and other factors. One hour additional meeting per week or project for fourth credit. Additional assignments and exams required for graduate credit. (Spring only)

GEOG 565 Political Geography**3 credits**

Joint-listed with GEOG 365

Surveys the geographic distribution of political processes, actions, and outcomes at variety of spatial scales - international, national, and local. Topics include origins of the modern territorial state, conflicts over access to and use of space, access to natural resources, nationalism, elections, democratization, globalization, terrorism, and the politics of identity. Graduate students are required to complete an additional independent research paper.

GEOG 583 Remote Sensing/GIS Integration**3 credits**

Joint-listed with GEOG 483.

Concepts and tools for the processing, analysis, and interpretation of digital images from satellite and aircraft-based sensors. The integration of remotely sensed data and the other spatial data types within Geographic Information Systems. Additional assignments and exams reqd for grad cr. Two lecture and 2 hours of lab a week.

Coreq: GEOG 385 or Equivalent.

GEOG 586 Transportation, GIS & Planning**3credits**

Interdisciplinary study of transportation and planning from a geographical perspective. Principles and methods of analysis in transportation geography, including accessibility and mobility, spatial interaction, network analysis, and GIS applications for sustainable transportation and land use planning; study of the cutting-edge approach to travel behavior analysis and modeling at various geographic scales (i.e., individual/household/community); activity-based field data collection and related survey design issues are discussed. Graduate students will have additional requirements. Two lec and one lab a wk. (Fall only)

Prereq: GEOG 385 or Permission .

GEOG 587 Advanced Topics in Remote Sensing**3 credit**

Current topics and applications in remote sensing literature including radar, thermal and hyperspectral remote sensing, sensor advances, airborne platforms, advanced classification and segregation techniques, large area pattern analysis, time series and trends, and advances in both terrestrial and non-terrestrial approaches, models and applications.

GEOG 591 History and Philosophy of Geography**3 credits**

Evolution of geography as a discipline, focusing on post-scientific revolution developments and identification of major themes in contemporary geographic thought.

GEOG 596 Geography Department Seminar**1 credit**

Weekly or bi-weekly department seminar with talks given by visiting and local speakers on topics relevant to geography.

GEOG 598 (s) Internship**Credit arranged**

Practical, on-the-job experience with governmental agencies or commercial establishments; oral and written reports are presented in which the student reviews and constructively criticizes the experience gained; salary may be received for services performed. Graded pass/fail.

Prereq: Permission .

GEOG 599 (s) Research**Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.

GEOG 600 Doctoral Research and Dissertation**Credit arranged.**

GEOLOGICAL ENGINEERING (GEOE)

GEOE 200 (s) Seminar

GEOE 398 (s) Internship

GEOE 403 (s) Workshop

Credit arranged.

GEOE 404 (s) Special Topics

Credit arranged.

GEOE 407 Rock Mechanics

3 credit

Mechanical properties of rocks and rock masses; lab and insitu techniques to estimate strength, stress distribution, and deformation behavior in rock masses; application of analytical tools such as the finite element method to design stable excavations and support systems in rock.

Prereq: ENGR 350.

GEOE 428 Geostatistics

3 credits

Cross-listed with GEOL 428.

Applications of random variables and probability in geologic and engineering studies; regression, regionalized variables, spatial correlation, variograms, kriging, and simulation. Recommended Preparation: STAT 301. Cooperative: open to WSU degree-seeking students.

GEOE 436 Geological Engineering Analysis and Design

3 credits

Geological engineering analysis and design methods, including data collection, stability analysis, and ground reinforcement techniques; individual and teamwork approaches to formulation and solving geological engineering problems. One 1-day field trip.

Prereq: CE 360 or graduate standing.

GEOE 465 Excavation and Materials Handling

3 credits

Principles of excavation design and handling of earth materials related to construction projects, quarries, and mines; blasting, excavation planning and scheduling, equipment selection and replacement, cost estimating, geographic information and management information systems. Computerized design using Gemcom and/or other appropriate software.

Prereq: CE 211 or Permission.

GEOE 499 (s) Directed Study

Credit arranged).

GEOE 500 Master's Research and Thesis

Credit arranged.

GEOE 501 (s) Seminar

Credit arranged.

GEOE 502 (s) Directed Study

Credit arranged.

GEOE 503 (s) Workshop

Credit arranged.

GEOE 504 (s) Special Topics

GEOE 517 Tunnel Design and Construction

3 credits

Geotechnical considerations for tunneling, drilling and blasting, TBM, ground support, haulage, ventilation, water handling, and trenchless technology. Application of analytical techniques such as the finite element method to design stable underground structures and support systems.

Prereq: GEOE 407 or Permission.

GEOE 535 Seepage and Slope Stability

3 credits

Cross-listed with CE 563.

Principles governing the flow of water through soils; mechanics of stability analysis of slopes, landslides, and embankments for soil and rock masses; probabilistic analyses; stabilization methods. Cooperative: open to WSU degree-seeking students. (Alt/even yrs, Spring only)

Prereq: CE 360 or GEOE 436; or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

GEOE 598 (s) Internship

Credit arranged.

GEOE 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

GEOLOGY (GEOL)

GEOL 101 Physical Geology

3 credits

Gen Ed: Natural and Applied Sciences

The earth, its composition, structure, and natural processes. Three lec and 2 hrs of lab a wk; one 1-day field trip.

GEOL 101L Physical Geology Lab

1 credit

Gen Ed: Natural and Applied Sciences

The earth, its composition, structure, and natural processes. Three lec and 2 hrs of lab a wk; one 1-day field trip.

GEOL 102 Historical Geology

3 credits

Gen Ed: Natural and Applied Sciences

Evolution of the physical earth, plants, and animals; techniques used in interpretation of geologic history. Three lec and 2 hrs of lab a wk; one 1-day field trip.

GEOL 102L Historical Geology Lab

1 credit

Gen Ed: Natural and Applied Sciences

Evolution of the physical earth, plants, and animals; techniques used in interpretation of geologic history. Three lec and 2 hrs of lab a wk; one 1-day field trip.

GEOL 111 Physical Geology for Science Majors

4 credits

Introductory course in earth science for geology and other science majors. Three lec and one 2-hr lab a wk; two 1-day field trips.

GEOL 111L Physical Geology for Science Majors Lab

1 credit

GEOL 200 (s) Seminar

Credit arranged.

GEOL 203 (s) Workshop

Credit arranged.

GEOL 204 (s) Special Topics

Credit arranged.

GEOL 212 Principles of Paleontology

4 credits

Studies of morphology, classification of fossil groups, and utility of fossils in interpreting depositional environments and ages of sedimentary rocks. Three lec and one 2-hr lab a wk; one 1- to 2-day field trip. Recommended Preparation: GEOL 102.

GEOL 249 Mineralogy and Optical Mineralogy

4 credits

Principles of crystallography, crystal chemistry, and crystal structure; mineral identification; principles of optical mineralogy and use of the polarized light microscope. Three lec and one 2-hr lab a wk; two 1-day field trips.

Prereq: GEOL 111/GEOL 111L or GEOL 101/GEOL 101L, and CHEM 111/ CHEM 111L.

GEOL 290 Field Geology Methods

3 credits

Introduction to field mapping and field techniques; introduction to measuring and interpreting sedimentary sequences and tectonic structures; preparation of reports based on field data collection, background reading, and analysis of multiple datasets. Accident and health insurance required. One 4-hr course meeting per week; two 1-day field trips; one 5-day field trip. (Spring only)

Prereq: GEOL 101/GEOL 101L or GEOL 111/GEOL 111L, or GEOL 102/ GEOL 102L.

GEOL 299 (s) Directed Study

Credit arranged.

GEOL 309 Ground Water Hydrology

3 credits

Occurrence, movement, and properties of subsurface water; intro to ground water geology and hydrology.

Prereq: GEOL 101/GEOL 101L or GEOL 111, and MATH 130 or MATH 143 with a grade of 'C' or better.

GEOL 324 Principles of Stratigraphy and Sedimentation

4 credits

Interrelationship of sedimentation and stratigraphy and processes and factors influencing genesis of sedimentary rocks. Topics include weathering, fluid flows, sediment mechanics, depositional environments, stratigraphic logging and field data collection, sedimentary lithofacies, provenance, and application of principles of interpretation of stratigraphic record. Two lec and one 4-hr lab per week; two 1-day field trips; One 5-day field trip.

Prereq: GEOL 102/GEOL 102L and MATH 143 with a grade of 'C' or better.

GEOL 326 Igneous and Metamorphic Petrology

4 credits

Hard rock petrology plus megascopic and microscopic petrography of igneous and metamorphic rocks. Two lec and two 2-hr labs a wk; two 1-day or one 2-day field trips.

Prereq: GEOL 249 and MATH 143 with a grade of 'C' or better.

GEOL 335 Geomorphology

3 credits

Classification, recognition, origin, and significance of land forms; land form analysis in interpretation of geologic structure and history. One 2-day field trip.

Prereq: GEOL 101/GEOL 101L or GEOL 102/GEOL 102L or GEOL 111/ GEOL 111L, or GEOG 100/GEOG 100L; and MATH 143 with a grade of 'C' or better; or Permission .

GEOL 344 Earthquakes and Seismic Hazards

3 credits

The geology of earthquakes including the cause of fault rupture, seismic waves, focal mechanisms, and earthquakes associated with all fault types in a variety of tectonic settings; methods of identifying paleo-earthquakes in the geologic record, and the assessment of seismic hazard and risk in active fault environments. One 3-day field trip.

Prereq: GEOL 101/GEOL 101L or GEOL 111/GEOL 111L; and MATH 143 with a grade of 'C' or better.

GEOL 345 Structural Geology**4 credits**

Investigation of deformed rocks; mechanics of brittle and continuum failure, stress and strain relations, characterization, description, classification of folded and fractured rocks. Three hours of lecture and one 2-hr 45-min lab a wk; one week-long mandatory field trip. (Spring only)

Prereq: MATH 143 with a grade of 'C' or better; and one semester high-school trigonometry or MATH 144; and GEOL 101/GEOL 101L or GEOL 111/GEOL 111L; and PHYS 111/PHYS 111L or PHYS 211/PHYS 211L.

GEOL 361 Geology and the Environment**3 credits**

Environmental consequences of development of geologic resources; including issues of waste disposal, pollution and human health; natural hazards and their impact on humans and the environment. Two 1-day field trips.

Prereq: GEOL 101/GEOL 101L or GEOL 111/GEOL 111L; and MATH 143 with a grade of 'C' or better .

GEOL 375 Geology of National Parks**2 credits**

Primarily for non-geology majors who want to acquire a better knowledge of geologic concepts and processes through study of geology of national parks. One 6-day field trip.

Prereq: GEOL 101/GEOL 101L, GEOL 102/GEOL 102L, GEOL 111/GEOL 111L, or GEOG 100/GEOG 100L; and MATH 143 with a grade of 'C' or better.

GEOL 398 (s) Internship

Credit arranged.

GEOL 400 (s) Seminar**1 credit, max arranged**

Participation in departmental colloquium.

Prereq: MATH 143 with a grade of 'C' or better.

GEOL 403 (s) Workshop

Credit arranged.

GEOL 404 (s) Special Topics

Credit arranged.

GEOL 405 (s) Professional Development

Credit arranged.

GEOL 407 Basin Analysis**3 credits**

Joint-listed with GEOL 507

Formation mechanisms and characteristics of sedimentary basins. Modern concepts of tectonics and sedimentary basin analysis, including tectonics of subsidence, detrital mineral provenance, thermal histories, and facies models. Lithofacies distributions and structural styles in a variety of basin types with specific examples from around the world. For 500-level credit an additional paper is required. One 2-day and one 5-day field trip. Cooperative: open to WSU degree-seeking students. (Spring only)

Prereq: GEOL 324 and MATH 143 with a grade of C or better .

GEOL 410 Techniques of Groundwater Study**3 credits**

Collection and analysis of field data for reconnaissance ground water studies. Two weekend field trips.

Prereq: MATH 143 with a grade of 'C' or better

Prereq or Coreq: GEOL 309 .

GEOL 417 Advanced Paleontology**3 credits**

Fossil assemblage analyses and report writing; marine faunal assemblage 1st half semester; nonmarine floral assemblage 2nd half semester. Three 2-hr labs a wk; one 1-day field trip.

Prereq: MATH 143 with a grade of 'C' or better and GEOL 212; or Permission.

GEOL 422 Principles of Geophysics**4 credits**

Outline of geophysical methods for geological investigations. One 1-day field trip. Course includes 3 hours of lecture and one 2 hour lab per week.

Prereq: MATH 143 with a grade of 'C' or better.

GEOL 423 Principles of Geochemistry**3 credits**

Physiochemical principles applied to geologic processes. Topics covered include atmospheric geochemistry, environmental geochemistry, aqueous geochemistry, crystal chemistry, radiogenic and stable isotopes. Two lec and one 2-hr lab a wk.

Prereq: GEOL 249.

GEOL 424 (s) Advanced Topics in Sedimentary Rocks**3 credits**

Joint-listed with GEOL 520

Modern concepts of tectonic sedimentology, depositional environments, facies models, and application of analytical techniques to stratigraphic sequences. GEOL 520 students will have an additional research project. One 5-day field trip.

Prereq: GEOL 324 .

GEOL 426 Principles of Forensic Mineralogy and Geology**3 credits**

Introduction to the use of geological and mineralogical materials and techniques within the criminal/civil justice system. Topics will include the origin and description of minerals, rocks, soils and sands, fossils, industrial materials, and pollen, the history of forensic science, instrumental & forensic laboratory techniques, and the legal aspects of scientific evidence. Two lec and one 2-hr labs a wk; one 1-day field trip.

Prereq: GEOL 101/GEOL 101L or GEOL 111/GEOL 111L; and CHEM 111/CHEM 111L; and MATH 143 with a grade of 'C' or better; or Permission .

GEOL 428 Geostatistics**3 credits**

Cross-listed with GEOE 428. Joint-listed with GEOL 534.

Applications of random variables and probability in geologic and engineering studies; regression, regionalized variables, spatial correlation, variograms, kriging, and simulation. Recommended Preparation: STAT 301. Cooperative: open to WSU degree-seeking students.

GEOL 431 Chemical Hydrology**3 credits**

Joint-listed with GEOL 531.

An exploration of low temperature, aqueous geochemistry principles through examination of atmospheric, geologic, and biologic influences on water chemistry in surface and near-surface hydrologic environments. For graduate credit, students are required to complete an additional independent research paper or presentation. Recommended preparation: GEOL 423.

Prereq: CHEM 111/CHEM 111L .

GEOL 432 Geologic Development of North America

3 credits

Joint-listed with GEOL 532.

Tectonic, magmatic, and sedimentary sequence studies of North American continent through time; concepts of metal and petroleum enrichment related to time and geological processes. Additional questions on two exams and written report of field trip reqd for grad cr. One 7-day field trip. GEOL 532 is a cooperative course available to WSU degree-seeking students.

Prereq: MATH 143 with a grade of 'C' or better.

GEOL 433 Geodynamics

4 credits

Joint-listed with GEOL 533.

This class focuses on the processes and mechanisms that cause motions within and on the surface of the Earth and other planets. Topics to be covered include plate boundary deformation, plate flexure, planetary heat transfer, convection in the mantle and core, melting and melt transport, magma dynamics, and large-scale lithospheric deformation. For graduate credit students will be expected to complete a research project and report. Course includes 3 hours of lecture and one 3 hour lab per week. Offered fall semester. Recommended Preparation: Math 175 or equivalent. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 143 with a grade of 'C' or better; and MATH 170 or equivalent .

GEOL 435 Glaciology and the Dynamic Frozen Earth

3 credits

Joint-listed with GEOL 535.

This course examines the physical processes that govern the frozen components of the Earth system. Idaho's changing snowpack, thinning Arctic sea ice, and accelerating glaciers are all evidence of the Earth's dynamic and rapidly changing frozen surface. These landscapes play critical roles in the climate system. Thinning and retreat of glaciers and ice sheets is on track to raise global sea level by up to a meter within student lifetimes. This course covers the mechanics and energy budgets of the frozen earth. Upon completion of this course, students will be able to describe the ways by which glaciers increase or decrease their flow, the controls on the growth and loss of sea ice, the importance of permafrost environments to the climate and landscape evolution, and how ice preserves a record of past global temperatures. Additional work required for 500-level credit. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 160 or MATH 170 .

GEOL 467 Volcanology

3 credits

Joint-listed with GEOL 567.

Eruption mechanisms, volcanic processes and landforms, and volcanic deposits. Additional projects/assignments reqd for grad cr. Two lec and one 2-hr lab a wk; seven days of field trips. GEOL 567 is a cooperative course available to WSU degree-seeking students.

Prereq: MATH 143 with a grade of 'C' or better.

GEOL 471 Ore Deposits and Exploration

3 credits

The geologic origin of metallic ore deposits, and the methods used to search for them. Taught in alternating years. 3-hr lec per week. One one-day and one three-day field trips.

Prereq: GEOL 249 and MATH 143 with a grade of 'C' or better .

GEOL 490 Geology Field Camp

3 credits

Gen Ed: Senior Experience

Advanced field problems and methods; interpretation of field data, preparation of reports based on field observations and interpretations. Accident and health insurance required. Three week, off-campus.

Cooperative: open to WSU degree-seeking students. (Summer only)

Prereq: GEOL 290 and GEOL 345; and MATH 143 with a grade of 'C' or better.

GEOL 497 (s) Practicum In Tutoring

1 credit, max 2

Tutorial services performed by advanced students under faculty supervision. Graded P/F.

Prereq: MATH 143 with a grade of 'C' or better and Permission of department.

GEOL 498 Senior Thesis

1-4 credits, max 4

Completion of original research and report. Course is taken over two semesters; first semester is graded IP until completion of second semester.

Prereq: MATH 143 with a grade of 'C' or better and Senior standing and Permission.

GEOL 499 (s) Directed Study

Credit arranged

Prereq: MATH 143 with a grade of 'C' or better.

GEOL 500 Master's Research and Thesis

Credit arranged.

GEOL 501 (s) Seminar

1 credit, max arranged

Participation in departmental colloquium.

GEOL 502 (s) Directed Study

Credit arranged.

GEOL 503 (s) Workshop

Credit arranged.

GEOL 504 (s) Special Topics

Credit arranged.

GEOL 505 (s) Professional Development

Credit arranged.

GEOL 507 Basin Analysis

3 credits

Joint-listed with GEOL 407

Formation mechanisms and characteristics of sedimentary basins. Modern concepts of tectonics and sedimentary basin analysis, including tectonics of subsidence, detrital mineral provenance, thermal histories, and facies models. Lithofacies distributions and structural styles in a variety of basin types with specific examples from around the world. For 500-level credit an additional paper is required. One 2-day and one 5-day field trip. Cooperative: open to WSU degree-seeking students. (Spring only)

Prereq: GEOL 324 and MATH 143 with a grade of C or better .

GEOL 510 (s) Geosystems

3 credits, max 6

Interdisciplinary core graduate course in earth sciences. Course will involve multiple instructors and modules framed around a common theme. Specific focus may vary from year to year. Cooperative: open to WSU degree-seeking students.

GEOL 520 (s) Advanced Topics in Sedimentary Rocks**3 credits**

Joint-listed with GEOL 424

Modern concepts of tectonic sedimentology, depositional environments, facies models, and application of analytical techniques to stratigraphic sequences. GEOL 520 students will have an additional research project. One 5-day field trip.

Prereq: GEOL 324 .

GEOL 531 Chemical Hydrology**3 credits**

Joint-listed with GEOL 431.

An exploration of low temperature, aqueous geochemistry principles through examination of atmospheric, geologic, and biologic influences on water chemistry in surface and near-surface hydrologic environments. For graduate credit, students are required to complete an additional independent research paper or presentation. Recommended preparation: GEOL 423.

Prereq: CHEM 111/CHEM 111L .

GEOL 532 Geologic Development of North America**3 credits**

Joint-listed with GEOL 432.

Tectonic, magmatic, and sedimentary sequence studies of North American continent through time; concepts of metal and petroleum enrichment related to time and geological processes. Additional questions on two exams and written report of field trip reqd for grad cr. One 7-day field trip. GEOL 532 is a cooperative course available to WSU degree-seeking students.

Prereq: MATH 143 with a grade of 'C' or better.

GEOL 533 Geodynamics**4 credits**

Joint-listed with GEOL 433.

This class focuses on the processes and mechanisms that cause motions within and on the surface of the Earth and other planets. Topics to be covered include plate boundary deformation, plate flexure, planetary heat transfer, convection in the mantle and core, melting and melt transport, magma dynamics, and large-scale lithospheric deformation. For graduate credit students will be expected to complete a research project and report. Course includes 3 hours of lecture and one 3 hour lab per week. Offered fall semester. Recommended Preparation: Math 175 or equivalent. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 143 with a grade of 'C' or better; and MATH 170 or equivalent .

GEOL 534 Geostatistics**3 credits**

Joint-listed with GEOL 428.

Applications of random variables and probability in geologic and engineering studies; regression, regionalized variables, spatial correlation, variograms, kriging, and simulation. Recommended Preparation: STAT 301. Cooperative: open to WSU degree-seeking students.

GEOL 535 Glaciology and the Dynamic Frozen Earth**3 credits**

Joint-listed with GEOL 435.

This course examines the physical processes that govern the frozen components of the Earth system. Idaho's changing snowpack, thinning Arctic sea ice, and accelerating glaciers are all evidence of the Earth's dynamic and rapidly changing frozen surface. These landscapes play critical roles in the climate system. Thinning and retreat of glaciers and ice sheets is on track to raise global sea level by up to a meter within student lifetimes. This course covers the mechanics and energy budgets of the frozen earth. Upon completion of this course, students will be able to describe the ways by which glaciers increase or decrease their flow, the controls on the growth and loss of sea ice, the importance of permafrost environments to the climate and landscape evolution, and how ice preserves a record of past global temperatures. Additional work required for 500-level credit. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 160 or MATH 170 .

GEOL 542 Advanced Structural Geology**3 credits**

Concepts of linear elastic fracture mechanics as applied to the classification, origin and evolution of all types of rock fractures; continuum theory in rock mechanics; rock strength and failure criteria; stress tensors; elastic theory. Two 1-day field trips. Cooperative: open to WSU degree-seeking students.

Prereq: GEOL 345.

GEOL 549 Principles of Electron Microscopy**3 credits**

Theory and principles of scanning and transmission electron microscopy as an investigative tool; includes physical principles of electron microscopy, operation and maintenance of the electron microscope, specimen preparation, and digital image capture. Lab section involves hands-on use of SEM and TEM. Students registering are required to complete a research project. One 1.5-hr lec and one 2-hr lab a week. (Fall only)

GEOL 567 Volcanology**3 credits**

Joint-listed with GEOL 467.

Eruption mechanisms, volcanic processes and landforms, and volcanic deposits. Additional projects/assignments reqd for grad cr. Two lec and one 2-hr lab a wk; seven days of field trips. GEOL 567 is a cooperative course available to WSU degree-seeking students.

Prereq: MATH 143 with a grade of 'C' or better.

GEOL 598 (s) Internship**Credit arranged.****GEOL 599 (s) Research****Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.

GEOL 600 Doctoral Research and Dissertation**Credit arranged.**

GERMAN (GERM)

Vertically-related courses in this subject field are: GERM 101 - GERM 102 - GERM 201 - GERM 202. Any one of the following courses may be considered the terminal course for the related vertical sequence above: GERM 301 or GERM 302. A maximum of 16 credits may be earned for vertical credit in any language in the Department of Modern Languages & Cultures.

GERM 101 Elementary German I

4 credits

Gen Ed: International

Pronunciation, vocabulary, reading, spoken German, and functional grammar. Students with German experience who place higher than GERM 101 on the placement exam may not enroll in GERM 101, but may earn credit for GERM 101 by successfully completing a higher vertically-related course.

GERM 102 Elementary German II

4 credits

Gen Ed: International

Pronunciation, vocabulary, reading, spoken German, and functional grammar.

Prereq: GERM 101 or placement exam .

GERM 107 Beginning German Conversation Lab

1 credit, 2 max

Practice in listening comprehension and conversational skills at the beginning German level. Graded P/F.

GERM 200 (s) Seminar

Credit arranged.

GERM 201 Intermediate German I

4 credits

Gen Ed: International

Review and practice of basic language skills; increased emphasis on reading and free discussion.

Prereq: GERM 102 or placement exam.

GERM 202 Intermediate German II

4 credits

Gen Ed: International

Review and practice of basic language skills; increased emphasis on reading and free discussion.

Prereq: GERM 201 or placement exam.

GERM 204 (s) Special Topics

4 credits.

GERM 207 Intermediate German Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the intermediate German level. Graded P/F.

GERM 298 (s) Internship

GERM 299 (s) Directed Study

Credit arranged.

GERM 301 German Reading and Writing

3 credits

Gen Ed: International

Emphasis on developing writing and reading; exploration of cultural topics. (Fall, Alt/yrs) (Fall, Alt/yrs)

Prereq: GERM 202 or placement exam.

GERM 302 German Listening and Speaking

3 credits

Gen Ed: International

Emphasis on listening and speaking skills; discussion on topics of cultural interest.

Prereq: GERM 202 or placement exam.

GERM 304 German Culture and Society

3 credits

German society, political culture, and the arts.

Prereq: Germ 202 or placement exam .

GERM 305 Germany in the New Europe

3 credits

Contemporary social and political institutions in German-speaking Europe; reading and discussion on topics of current interest in Germany and the European Union.

Prereq: GERM 202 .

GERM 307 German Film

3 credits

Study of representative German films to gain an understanding of cinematic traditions and the portrayal of cultural, political and social issues.

Prereq: GERM 202 or placement exam .

GERM 398 (s) Internship

GERM 400 (s) Seminar

Credit arranged.

GERM 402 Advanced Speaking and Writing

3 credits

Development of advanced proficiency in speaking and writing.

Prereq: Two 300-level German courses, placement exam, or instructor permission.

GERM 404 (s) Special Topics

Credit arranged.

GERM 410 German for the Professions

3 credits

Language and intercultural skills necessary for effective oral and written communication in professional settings in German-speaking countries.

Prereq: Two 300-level German courses, placement exam, or instructor permission.

GERM 420 (s) Topics in German Culture & Literature - Themes

3 credits, max 6

Gen Ed: International

For advanced students; important themes in German cultural/literary studies. Cooperative: open to WSU degree-seeking students. (Spring Alt/yrs)

Prereq: GERM 301 or GERM 302.

GERM 440 German Media

3 credits

Gen Ed: International

Reading and discussion from contemporary German-language media; focus on topics of current cultural, political, and/or social interest.

Prereq: Two 300-level German courses, placement exam, or instructor permission .

GERM 499 (s) Directed Study

Credit arranged.

HEALTH AND SAFETY (H&S)

H&S 150 Wellness Lifestyles

3 credits

Health concepts and strategies that affect one's wellness; emphasis on personal responsibility and life-style choices.

H&S 200 (s) Seminar

Credig arranged.

H&S 203 (s) Workshop

Credit arranged.

H&S 204 (s) Special Topics

Credit arranged.

H&S 232 Medical Terminology

2 credits

Intro to basic concepts of medical terminology and symbols related to medical and allied health professionals.

H&S 245 Introduction to Athletic Injuries

3 credits

Special fee course. Athletic training; recognition, evaluation, general care of athletic injuries; adhesive strapping. Two lec and one lab a wk.

H&S 288 First Aid: Emergency Response

2 credits

Emergency care of injuries from accidents or illness; patient assessment and First Aid Treatment. Basics of human anatomy, chronic and environmental diseases. Qualified students may earn a CPR/AED and First Aid certification. Lab fee required. One lecture and 1:15 lab per week.

H&S 289 Drugs in Society

2 credits

Legal implications, values, and physical, social, and emotional factors involved in the use and abuse of drugs in society.

H&S 299 (s) Directed Study

Credit arranged.

H&S 301 Peer Health Education

2 credits

This course prepares students to inform, educate, intervene and assist their campus peers to make healthy lifestyle choices. Upon completion of the course and Certified Peer Health Educator (CPE) test, students become a CPE with the Bacchus Network. Students meet once a week for 2 hours in class.

H&S 328 Community Health: Theory, Systems, and Practice

3 credits

This course examines concepts of community and public health history, philosophy, theory, science, and practice. Community health is presented as an interdisciplinary and interactive system organized to promote and protect health, prevent disease, and eliminate health disparities. It also addresses professional competencies, standards, and the important role of community health in the health care system.

Prereq: MVSC 201 .

H&S 350 Stress Management and Mental Health

2 credits

Application of behavioral stress management techniques that have the potential to relieve mental and physical stress; emphasis on development of skills related to mental and physical health.

H&S 390 Athletic Training High School Clinical Experience

1 credit

Guided observation, supervised instruction, and comprehensive team and independent teaching in high school athletic training setting. Emphasis is on supervised clinical orthopedic/general medical conditions and disabilities, injuries and illnesses. Students receive supervised clinical experience in Athletic Training under the supervision of NATA Certified Athletic Trainers.

Prereq: Permission.

H&S 391 Athletic Training Sports Medicine Clinical Experience

1 credit

Guided observation, supervised instruction, and comprehensive team and independent teaching in a sports medicine clinical setting. Emphasis is on evaluation and rehabilitation of clinical orthopedic conditions (injuries and disabilities). Students receive supervised clinical experience in Athletic Training under the supervision of NATA Certified Athletic Trainers, Physical Therapists and Exercise Physiologists.

Prereq: Permission.

H&S 392 Athletic Training General Medical & Orthopedic Clinical Experience

1 credit

Guided observation, supervised instruction, and comprehensive team and independent teaching in a medical practice setting. Emphasis is on supervised clinical orthopedic/general medical conditions and disabilities, injuries and illnesses. Students receive supervised clinical experience in Athletic Training under the supervision of NATA Certified Athletic Trainers, Physicians, Physician Assistants, and Nurses.

Prereq: Permission.

H&S 400 (s) Seminar

Credit arranged.

H&S 403 (s) Workshop

Credit arranged.

H&S 404 (s) Special Topics

Credit arranged.

H&S 423 School Health Education Methods and Administration

3 credits

Joint-listed with H&S 523

Curriculum design, organization and administration, methods and strategies, and resource materials for teaching health in school health settings. Team leadership project and activity required for graduate credit. (Fall only)

Prereq: H&S 150 or MVSC 201 .

H&S 450 Critical Health Issues

3 credits

Provides a sampling of information that represents the current and projected trends in health; students will gain an understanding of broad public health issues and what strategies would be useful to address these problems.

Prereq: BIOL 120 and BIOL 121; or MVSC 201 .

H&S 451 Psychosocial Determinants of Health

3 credits

Investigates the social, emotional, intellectual, social, and spiritual factors influencing health behaviors. Emphasis is placed on understanding and evaluating the biopsychosocial model and the interrelation between one's physical, psychological, and social well being.

Prereq: MVSC 201 .

H&S 455 Design & Analysis of Research in Movement Sciences
3 credits

Cross-listed with PEP 455 and REC 455

This course is designed to survey the basic types of research methods often found in exercise science and health; and recreation. A variety of research designs and computerized statistical analyses are studied to help students understand the systematic nature of problem solving. Various research problems as they relate to exercise science and health; and recreation are discussed for the purpose of identifying the broad and diverse nature of research in the movement, leisure, and health professions. (Spring only)

Prereq: Junior or Senior standing.

H&S 463 Pharmacology for Physically Active Individuals
1 credit

This course covers the knowledge, skills, and ethical basis that entry-level certified athletic trainers must possess in pharmacological applications, including awareness of the indications, contraindications, precautions and interactions of medications and the governing of the regulations relevant to the treatment of injuries to and illnesses of physically active individuals.

H&S 470 Seminar in Athletic Training
2 credits

Capstone course designed to prepare students for entry into Athletic Training profession. Additional items include preparation for NATABOC national examination, career development, portfolio and resume completion, professionalism and other ethics, and various professional topics. (Spring, Alt/yrs)

Prereq: Admission to the clinical portion of ATEP; or Permission .

H&S 490 Health Promotion
3 credits

Examines the philosophical, ethical and theoretical foundations of the professional practice of health promotion in school, community, and work site settings, as well as in health promotion consultant activities. Emphasis will be placed on facilitating prepared units/lessons to respective target populations such as students, employees, patients, or community members. (Spring only)

Prereq: H&S 450 or Permission .

H&S 495 (s) Practicum
1 credit, max arranged

Tutorial services performed by advanced students under faculty supervision. Graded P/F.

Prereq: Permission.

H&S 498 (s) Internship
1-9 credits

Supervised field work.

Prereq: REC 445 and Senior standing.

H&S 499 (s) Directed Study
Credit arranged.

H&S 501 (s) Seminar
Credit arranged.

H&S 502 (s) Directed Studies
Credit arranged.

H&S 503 (s) Workshop
Credit arranged.

H&S 504 (s) Special Topics
Credit arranged.

H&S 505 (s) Professional Development
Credit arranged

Credit earned in this course will not be accepted toward grad degree programs.

Prereq: Permission.

H&S 523 School Health Education Methods and Administration
3 credits

Joint-listed with H&S 423.

Curriculum design, organization and administration, methods and strategies, and resource materials for teaching health in school health settings. Team leadership project and activity required for graduate credit. (Fall only)

Prereq: H&S 150 or MVSC 201.

H&S 597 (s) Practicum
1-3 credits.

H&S 599 (s) Research
Credit arranged.

HIGHER EDUCATION (HED)

HED 606 Organizational Development and Change in Higher Education **3 credits**

This is a course addressing issues and methods associated with organizational change and development in higher education organizations. Students will learn about organizational issues, interventions and programs, and the processes specific to change in higher education. Emphasis will be on understanding and application of organizational development in higher education.

Prereq: Admission to the Ph.D./Higher Education Cohort.

HED 607 Social Justice Leadership in Higher Education **3 credits**

This course explores the theoretical and empirical literature on higher education's responsibility to social justice and equity. Students will have opportunities to explore human diversity from perspectives other than their own. Misconceptions and prejudice where it exists, should be replaced by knowledge.

Prereq: Admission to the Ph.D./Higher Education Cohort .

HED 608 Stewardship of Higher Education **3 credits**

This course is designed to give students the opportunity for applying the knowledge they have acquired throughout their coursework in higher education to real-world situations. As part of this course students will work together to design and hold a higher education leadership symposium.

Prereq: Admission to the Ph.D./Higher Education Cohort .

HED 609 Leadership in Higher Education **3 credits**

This course focuses on leadership of higher education and the role it plays in complex organizational environments. Students will explore the nuances of higher education leadership and theory. This course places special emphasis on the connection between leadership and higher education cultures, and contemporary challenges of leadership in times of organizational and social change in higher education.

Prereq: Admission to the Ph.D./Higher Education Cohort.

HED 610 Governance and Public Policy in Higher Education **3 credits**

This course investigates the organization and governance of higher education institutions. Internal and external influences are examined along with administrative roles, decision making, problem solving, and political realities. Current policy issues will be analyzed through the constructs of equity, efficiency, security, and liberty.

Prereq: Admission to the Ph.D./Higher Education Cohort.

HED 611 Research Internship in Higher Education **1-6 credits, max arranged**

This course requires students to actively engage in a variety of project specific research tasks under the supervision of the Major Professor. Responsibilities may include: compiling literature reviews relevant to the research project; sampling and data collection; recording, analyzing and reporting data; formulating a bibliography; preparing manuscripts and conference presentations.

Prereq: Admission to the Ph.D./Higher Education Cohort.

HED 623 (s) Contemporary Issues in Higher Education **1-5 credits, max arranged**

This course will provide opportunities to learn and interact with invited speakers from various departments and colleges who have leadership expertise across disciplines, networking experiences, and identifying resources and mentors for future reference.

Prereq: Admission to the Ph.D./Higher Education Cohort.

HED 625 Finance and Budgeting in Higher Education **3 credits**

This course introduces students to financing methods and budgeting in higher education. Various roles of budgets will be examined in the contexts of institutional plans, resource management, control mechanisms, accountability, forecasting the future, risk tolerance, and political implications.

Prereq: Admission to the Ph.D./Higher Education Cohort.

HED 627 Law and Ethics in Higher Education **3 credits**

This course serves as an overview of the legal issues that confront university personnel. Federal and State statutes as well as case law will be used to instruct about legal rights and responsibilities of university administrators. In addition students will explore institutional policymaking and implementation.

Prereq: Admission to the Ph.D./Higher Education Cohort.

HISTORY (HIST)

HIST 100 What is the Study of the Past

1 credit

This course introduces students to the basic study of the human past. Students will gain a broad overview of the historical discipline and learn about the diverse methods and means of studying peoples and cultures of the past. Note: this class is open for all interested students, not simply history majors.

HIST 101 History of Civilization 1

3 credits

Gen Ed: Social Science, International

Contributions to the modern world, to 1650.

HIST 102 History of Civilization 2

3 credit

Gen Ed: Social Science, International

Contributions to the modern world, 1650 to present.

HIST 111 Introduction to U.S. History

3 credits

Gen Ed: Social Science, American Diversity

Political, diplomatic, economic, social, and cultural history; earliest times to the present, to 1877.

HIST 112 Introduction to U.S. History

3 credits

Gen Ed: Social Science, American Diversity

Political, diplomatic, economic, social, and cultural history; earliest times to the present, 1877 to present.

HIST 180 Introduction to East Asian History

3 credits

Gen Ed: Social Science, International

Survey of traditional and modern Chinese and Japanese history.

HIST 200 (s) Seminar

Credit arranged.

HIST 204 (s) Special Topics

Credit arranged.

HIST 211 Food through the Ages

3 credits

The comparative survey and analysis of how the choice, preparation and eating of food not only shaped and formed cultures but also defined civilizations, from hunting and gathering to the present.

HIST 212 Sex and Gender through the Ages

3 credits

Comparative analysis of sex and gender in global historical setting. Focus upon changing sexual/gender behavior both inside and outside of marriage; shifts in sexual mentalities and moral values; and the efforts to regulate, repress, or encourage forms of sexual behavior and attitudes.

HIST 213 Race and Ethnicity through the Ages

3 credits

Comparative survey of race and ethnicity across region, culture, and time; factors that create social cohesion and/or conflict; political, sociocultural, and economic dimensions of racial and ethnic relations; the making of identity and cultural mentalities in international/global settings.

HIST 214 Warfare through the Ages

3 credits

Comparative survey of war and military history from ancient times to present; emphasis on interrelationship of war, society, and technology; impact of war and violence upon human culture, environment, and everyday life.

HIST 270 Introduction to Greek and Roman Civilization

3 credits

Gen Ed: Social Science, International

Cross-listed with FLEN 270.

Survey of the development of Greek and Roman Civilization, 2000 BC-500 AD.

HIST 290 The Historian's Craft

3 credits

Introduction to the discipline of history, basic skills for course work and research, and major schools of historical writing.

HIST 300 Digital History

3 credits

This course introduces the theory and practice of digital history. Students will use digital technologies to help research and present history and related interdisciplinary subjects. Note: no prior special computing skills are required.

HIST 315 Comparative African-American Cultures

3 credits

Gen Ed: Social Science, American Diversity, International

An overview of African American history in the U.S. from the late 19th century to the present; comparisons with the experience of African Americans in other parts of the Americas; study of important personalities and historical forces that have influenced African Americans and the societies in which they live.

HIST 318 Colonial America: A Collision of Peoples

3 credits

Surveys North American history from the era preceding contact through the American Revolution. Emphasizes encounters and conflicts between Europeans and Native Americans, major political and economic developments, cultural and intellectual transformations, and the formation of American societies.

HIST 319 19th-century America: Expanding America

3 credits

Surveys American history in the nineteenth century. Emphasizes contests over national expansion and inclusion, war and reconstruction, and cultural reform and invention.

HIST 320 20th-century America: The Colossus

3 credits

Surveys American history in the twentieth century. Emphasizes growth of the United States as a world military and economic power, rising nationalism, battles for civil rights and reforms, and rise and consequences of popular culture.

HIST 329 Idaho and the Pacific Northwest

3 credits

Gen Ed: American Diversity

Political, economic, social development; earliest times to the present.

HIST 340 Modern India, 1757-1947**3 credits***Gen Ed: Humanities, International**Examines three crucial centuries of the world's largest democracy, focusing upon British rule, Indian reactions to imperialism, emergence of nationalism, science and technological advances, and socio-religious movements.**Emphasis on what the categories of "tradition" and "modernity" have meant in the subcontinent and how these are associated with understandings of "knowledge," "community," "culture," "caste," and "science and technology."***HIST 350 The Age of Enlightenment: European Culture & Ideas, 1680-1800****3 credits***Gen Ed: Humanities, International**History of thought, material culture, and mentalities in Enlightenment society; focus upon intersection between science and enlightenment values; new ideas about individualism, democracy, race, and gender.***HIST 357 Women in Pre-Modern European History****3 credits***Gen Ed: Humanities, International**Survey of historical experience of women from the Greeks through the 17th century.***HIST 366 Modern European Cultural and Intellectual History, 1880-1980****3 credits***Gen Ed: Humanities, International**Evolution of major cultural attitudes and values in modern European society; relation between modernity and cultural modernism; the impact of war and revolution; key ideas and intellectual movements associated with Nietzsche, Freudianism, the avant-garde, existentialism, structuralism, and postmodernism.***HIST 371 History of England****3 credits***Gen Ed: International**Political, social, economic, and religious development of the British Isles, to 1688.***HIST 372 History of England****3 credits***Gen Ed: International**Political, social, economic, and religious development of the British Isles.***HIST 378 History of Science I: Antiquity to 1700****3 credits***Gen Ed: Humanities, International**Examines the changing nature of scientific thought, institutions, and technological advance from Western antiquity until 1700. Emphasis on the Scientific Revolution and the interrelations between science, culture, and society.***HIST 379 History of Science II: 1700-Present****3 credits***Gen Ed: Humanities, International**Examines the changing nature of scientific thought, institutions, and technological advance from 1700 to the present. Emphasis upon the rapid acceleration of scientific knowledge and practice in the global setting – particularly the physical sciences – as well as the strong interconnections between states, institutions, and broader sociocultural factors in the making of scientific knowledge.***HIST 380 Disease and Culture: History of Western Medicine****3 credits***Gen Ed: Social Science, International**Survey of Western medicine from Antiquity to the present. Examination of changing theories of disease, the scientific study of the human body, evolution of medical practices and treatment, the institutionalization of medical practice, and the evolution of public health policy. (Alt/yrs)**Prereq: Junior standing or Permission.***HIST 382 History of Biology: Conflicts and Controversies****3 credits***Gen Ed: Social Science, International**Explores the social and intellectual development of the life sciences as a discipline in Europe and North America, with focus on biology in the 18th, 19th, and 20th centuries. Emphasis on evolutionary thought, heredity, development, social uses of biology, and women and gender. (Alt/yrs)**Prereq: Junior standing or Permission.***HIST 388 History of Mathematics****3 credits***Gen Ed: Social Science, International**Cross-listed with MATH 388.**History of the development of mathematical ideas from ancient cultures to the present, including the relationship of those ideas to the cultures that produced them as well as an understanding of the mathematics involved.**Cooperative: open to WSU degree-seeking students.**Prereq: MATH 175 or Permission.***HIST 395 (s) Themes and Issues in History****3 credits, max 6***Examines changing themes and issues in the historical discipline; emphasis on approaches and problems in historical research; key focus on research, reading, and writing in the historical field; content will vary according to instructor.**Prereq: HIST 290 or Instructor Permission.***HIST 401 (s) Seminar****Credit arranged***Gen Ed: Senior Experience**Joint-listed with HIST 501.**Research papers in U.S., Latin American, ancient, English, or European history.**Prereq: Permission of department.***HIST 403 (s) Workshop****Credit arranged.****HIST 404 (s) Special Topics****Credit arranged.****HIST 405 (s) Professional Development****Credit arranged***Joint-listed with HIST 505.***HIST 412 Revolutionary North America and Early National Period****3 credits***Gen Ed: Social Science, American Diversity**Era of the American War of Independence; Confederation; Early Nationhood.***HIST 414 (s) History and Film****3 credits, max 6***Gen Ed: Humanities, American Diversity, International**The course focuses on the history of the Americas since 1900. Through readings, discussion and film, historical events and individuals are analyzed. Emphasis is placed on themes related to culture, race, gender, and historical memory.*

HIST 419 (s) Topics in the American West

Hist 419 (s) Topics in the American West (3 cr)

Gen Ed: Social Science, American Diversity

Special Topics in the American West.

HIST 420 History of Women in American Society

3 credits

Gen Ed: Social Science, American Diversity

Joint-listed with HIST 520.

Examination of the roles of women (social, economic, and political) in U.S. history from colonial times to the present.

HIST 424 American Environmental History

3 credits

Gen Ed: Social Science, American Diversity

Joint-listed with HIST 524.

History of changing American attitudes and actions toward the environment over three centuries.

HIST 426 Red Earth White Lies: American Indian History 1840-Present

3 credits

Gen Ed: Social Science, American Diversity

Joint-listed with HIST 526. Cross-listed with AIST 426

Survey 1840 to present; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S. Additional work required for graduate credit.

HIST 430 U.S. Diplomatic History

3 credits

Gen Ed: Social Science, International

Joint-listed with HIST 530.

World power through war and the quest for peace, 1898 to present.

HIST 431 Stolen Continents, The Indian Story: Indian History to 1840

3 credits

Gen Ed: Social Science, American Diversity

Joint-listed with HIST 531. Cross-listed with AIST 431

Survey 1400 to 1840; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S. Additional work required for graduate credit.

HIST 438 Modern Mexico and the Americas

3 credits

Gen Ed: Social Science, International

Cross-listed with LAS 438.

Survey and analysis of political, economic, social, and cultural aspects from independence to present; emphasis on Iberian and Amerindian legacies, economic development, relations with U.S., and social revolution of 1910-1920.

HIST 439 Modern Latin America

3 credits

Gen Ed: Social Science, International

Joint-listed with HIST 539. Cross-listed with LAS 439.

Political, economic, social, and cultural development; search for stability; growth of nationalism.

HIST 440 Social Revolution in Latin America

3 credits

Gen Ed: Social Science, International

Cross-listed with LAS 440.

Analysis and comparison of 20th-century social revolution in selected Latin American countries: Cuba and two others; emphasis on origins of movements for social change, economic development issues, impact of the revolutions, and relations between new governments and the U.S.

HIST 441 Slavery and Freedom in the Americas

3 credits

Gen Ed: Social Science, International

Cross-listed with LAS 441.

Analysis of the way in which African slavery became the predominant labor force in the Americas from 16th century to 19th century. Emphasis on slave resistance and the international abolitionist movement. (1760s to 1888).

HIST 442 The Medieval Church: Europe in the Early and High Middle Ages

3 credits

Gen Ed: Humanities, International

Joint-listed with HIST 542, Cross-listed with RELS 442

Evolution of medieval Christian society from reign of Constantine (c. 300) to pontificate of Innocent III (1215), as expressed in monastic and mendicant orders, crusades, 12th-century Renaissance, and heresy.

HIST 443 The Medieval State: Europe in the High and Late Middle Ages

3 credits

Gen Ed: Humanities, International

Joint-listed with HIST 543, Cross-listed with RELS 443

Analysis of how the vitality of particular medieval princes, of the commercial revolution, and of such movements as development of common law was harnessed in the evolution of medieval government from feudalism to the modern state.

HIST 445 Medieval English Constitutional and Legal History: 1066-1485

3 credits

Gen Ed: Humanities, International

Joint-listed with HIST 545.

The study of the origins and development of English law and the English constitution during the Middle Ages. Additional projects/assignments required for graduate credit.

HIST 447 The Renaissance

3 credits

Gen Ed: Humanities, International

Cross-listed with RELS 447

Explores the transformative movement known as the European Renaissance. Examines how humanism not only shaped and formed art, music, literature and philosophy but also informed one's relationship to the state. Additional projects/assignments required for graduate credit.

HIST 448 The Reformation

3 credits

Gen Ed: Humanities, International

Joint-listed with HIST 548, Cross-listed with RELS 448

This course examines the social and economic as well as the theological dynamic of the Reformation. The course begins by examining the thought of Erasmus and More, continuing through that of Luther, Calvin, and Loyola, to the Anabaptists. Introduction to studying history in an international setting and history as expeditionary learning. Course covers on-site historical experience, including: museums, archives, libraries, historical monuments, daily life and culture, material culture, language, and cultural awareness and sensibility. Travel is a required part of course experience.

HIST 456 Anti-Semitism and the Holocaust**3 credits***Gen Ed: Social Science, International*

The roots and character of European anti-Semitism from the Roman Empire to the Nazis and beyond; special focus on the Third Reich and World War II.

HIST 457 History of the Middle East**3 credits***Gen Ed: Social Science, International**Joint-listed with HIST 557.*

Survey of the Middle East from the beginning of the Islamic period to the present.

HIST 460 Conspiracies and Secret Societies in History**3 credits***Gen Ed: Social Science, International**Joint-listed with HIST 560.*

The notion that human affairs are shaped by conspiratorial and occult forces bent on the achievement of secret agendas has attained wide currency. The idea that the world is governed by powerful, unseen forces has a long history that this course will explore. Additional work required for graduate credit. Recommended Preparation: HIST 101 and HIST 102. (Alt/yrs)

HIST 461 Idaho and the Pacific Northwest**3 credits***Gen Ed: Social Science, American Diversity*

Political, economic, social development; earliest times to the present.

HIST 462 History of the American West**3 credits***Gen Ed: Social Science, American Diversity*

Survey of major developments in the American West, from the Great Plains to the Pacific Ocean and beyond, including racial and ethnic diversity, environment, gender, politics, and economics.

HIST 466 Eastern Europe Since 1774**3 credits***Gen Ed: Social Science, International**Joint-listed with HIST 566.*

Nationality, nation-building, and dissolution; emphasis on Poland, the Habsburg Empire, and the Balkans.

HIST 467 Russia to 1894**3 credits***Gen Ed: Social Science, International**Joint-listed with HIST 567.*

Russia from medieval origins to 1894; development of Tsarist autocracy and serfdom; reaction, reform, and rise of the revolutionary movements.

HIST 468 Russia and Soviet Union Since 1894**3 credits***Gen Ed: Social Science, International**Joint-listed with HIST 568.*

The last years of Tsarism; revolutions of 1905 and 1917; development of the Soviet Union under Lenin, Stalin, and their successors.

HIST 482 Japan, 1600 to Present**3 credits***Gen Ed: Social Science, International**Joint-listed with HIST 582*

Western impact on the political, cultural, and economic fabric of Japanese society.

HIST 484 Modern China, 1840s to Present**3 credits***Gen Ed: Social Science, International**Joint-listed with HIST 584.*

Last century of Qing dynasty, 1911 Revolution and Republican experiment, Revolution of 1949, and People's Republic of China.

HIST 485 Chinese Social and Cultural History**3 credits***Gen Ed: Humanities, International**Joint-listed with HIST 585.*

Survey of Chinese culture and traditions during the first millennium. Additional assignment/projects required for graduate credit.

HIST 495 History Senior Seminar**3 credits**

Directed research in primary and secondary sources, culminating in substantial research paper. Course themes and instructor will vary semester to semester.

Prereq: HIST 290 or equivalent .

HIST 497 (s) Practicum**1-3 credits, max 6.****HIST 498 (s) Internship****Credit arranged.****HIST 499 (s) Directed Study****Credit arranged.****HIST 500 Master's Research and Thesis****Credit arranged.****HIST 501 (s) Seminar****Credit arranged***Gen Ed: Senior Experience**Joint-listed with HIST 401.*

Research papers in U.S., Latin American, ancient, English, or European history.

Prereq: Permission of department .

HIST 502 (s) Directed Study
Credit arranged.

HIST 503 (s) Workshop
Credit arranged.

HIST 504 (s) Special Topics
Credit arranged.

HIST 505 (s) Professional Development
Credit arranged
Joint-listed with HIST 505.

HIST 514 Colloquium in American History
Hist 514 Colloquium in American History (3 cr)

Intense reading in the historical literature on American society, focusing upon questions of race, gender, class, and geographic region. Emphasis on changing approaches to historical problems, different schools of historical thought, methodological issues, and implementation in the classroom. Content will vary with instructor.

Prereq: Graduate Standing or Permission of the Instructor .

HIST 520 History of Women in American Society
3 credits

Joint-listed with HIST 420.

Examination of the roles of women (social, economic, and political) in U.S. history from colonial times to the present.

HIST 522 Colloquium in European History
3 credits

Intense reading in the historical literature on European society. Emphasis on changing approaches to historical problems, different schools of historical thought, methodological issues, and implementation in the classroom. Content will vary with instructor.

Prereq: Graduate Standing or Permission of the Instructor .

HIST 524 American Environmental History
3 credits

Joint-listed with HIST 424.

History of changing American attitudes and actions toward the environment over three centuries.

HIST 526 Red Earth White Lies: American Indian History 1840-Present
3 credits

Joint-listed with HIST 426.

Survey 1840 to present; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S. Additional work required for graduate credit.

HIST 530 U.S. Diplomatic History
3 credits

Joint-listed with HIST 430.

World power through war and the quest for peace, 1898 to present.

HIST 531 Stolen Continents, The Indian Story: Indian History to 1840
3 credits

Joint-listed with HIST 431.

Survey 1400 to 1840; dynamics and themes of Indian history with emphasis on Indian-White relations in the U.S. Additional work required for graduate credit.

HIST 539 Modern Latin America
3 credits

Joint-listed with HIST 439.

Political, economic, social, and cultural development; search for stability; growth of nationalism.

HIST 542 The Medieval Church: Europe in the Early and High Middle Ages
3 credits

Joint-listed with HIST 442

Evolution of medieval Christian society from reign of Constantine (c. 300) to pontificate of Innocent III (1215), as expressed in monastic and mendicant orders, crusades, 12th-century Renaissance, and heresy.

HIST 543 The Medieval State: Europe in the High and Late Middle Ages
3 credits

Joint-listed with HIST 443

Analysis of how the vitality of particular medieval princes, of the commercial revolution, and of such movements as development of common law was harnessed in the evolution of medieval government from feudalism to the modern state.

HIST 544 Colloquium in Global History
3 credits, max 9

Intense reading in the historical literature on topics in global history.

Emphasis on changing approaches to historical problems, different schools of historical thought, methodological issues, and implementation in the classroom. Content will vary with instructor.

HIST 545 Medieval English Constitutional and Legal History: 1066-1485
3 credits

Joint-listed with HIST 445.

The study of the origins and development of English law and the English constitution during the Middle Ages. Additional projects/assignments required for graduate credit.

HIST 548 The Reformation
3 credits

Joint-listed with HIST 448

This course examines the social and economic as well as the theological dynamic of the Reformation. The course begins by examining the thought of Erasmus and More, continuing through that of Luther, Calvin, and Loyola, to the Anabaptists. Religious upheaval lead not only to the political and military upheaval of the Religious Wars, but also to religious debate, the echoes of which resound through to the present. Additional projects/assignments required for gradate credit.

HIST 549 Tudor-Stuart Britian 1485-1660
3 credits

Joint-listed with HIST 449

This course examines the brilliance of the 1485-1660 period in British history. It is organized around three themes: the religious revolution and its consequences; the transformation of personal government of dynasties into Parliamentary government; and the cultural, social and economic ramifications that both drove and was driven by these movements. Recommended Preparation: HIST 371. Additional assignment/projects required for graduate credit.

HIST 557 History of the Middle East
3 credits

Gen Ed: International

Joint-listed with HIST 457.

Survey of the Middle East from the beginning of the Islamic period to the present.

HIST 560 Conspiracies and Secret Societies in History

3 credits

Joint-listed with HIST 460.

The notion that human affairs are shaped by conspiratorial and occult forces bent on the achievement of secret agendas has attained wide currency. The idea that the world is governed by powerful, unseen forces has a long history that this course will explore. Additional work required for graduate credit. Recommended Preparation: HIST 101 and HIST 102. (Alt/yrs)

HIST 566 Eastern Europe Since 1774

3 credits

Gen Ed: International

Joint-listed with HIST 466.

Nationality, nation-building, and dissolution; emphasis on Poland, the Habsburg Empire, and the Balkans.

HIST 567 Russia to 1894

3 credits

Joint-listed with HIST 467.

Russia from medieval origins to 1894; development of Tsarist autocracy and serfdom; reaction, reform, and rise of the revolutionary movements.

HIST 568 Russia and Soviet Union Since 1894

3 credits

Joint-listed with HIST 468.

The last years of Tsarism; revolutions of 1905 and 1917; development of the Soviet Union under Lenin, Stalin, and their successors.

HIST 582 Japan, 1600 to Present

3 credits

Joint-listed with HIST 482

Western impact on the political, cultural, and economic fabric of Japanese society.

HIST 584 Modern China, 1840s to Present

3 credits

Joint-listed with HIST 484.

Last century of Qing dynasty, 1911 Revolution and Republican experiment, Revolution of 1949, and People's Republic of China.

HIST 585 Chinese Social and Cultural History

3 credits

Joint-listed with HIST 485.

Survey of Chinese culture and traditions during the first millennium. Additional assignment/projects required for graduate credit.

HIST 590 Issues and Methods in History

3 credits

This course introduces graduate students to key methodological, theoretical, and disciplinary standards of history; and the significance of comparative and interdisciplinary approaches to understanding historical developments.

HIST 598 (s) Internship

Credit arranged.

HIST 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

HIST 600 Doctoral Research and Dissertation

Credit arranged.

HYDROLOGY (HYDR)

HYDR 404 (s) Special Topics

Credit arranged.

HYDR 409 Quantitative Hydrogeology

3 credits

Joint-listed with HYDR 509

A rigorous introduction to the description of flow in porous media; the basic equations of potential flow theory as they relate to ground water problems, with application to common engineering problems encountered by hydrogeologists and engineers; dimensional analysis, properties assignment, and heterogeneous systems. For graduate credit additional reading, presentations, and/or written reports of assigned literature required.

Prereq: MATH 275, STAT 251 or STAT 301.

HYDR 412 Environmental Hydrogeology

3 credits

Joint-listed with HYDR 512

Methods of hydrogeologic site characterization for the delineation of environmental problems. For graduate credit, students are required to complete an additional independent research paper.

Prereq: GEOL 309.

HYDR 414 Ground Water-Surface Water Interactions

3 credits

Joint-listed with HYDR 514

Physical and chemical ramifications of interactions between ground water flow systems and surface water bodies. Particular emphasis will be placed on water supply and surface water/ground water contamination issues. Graduate credit requires completion of an additional, separate research paper on a selected topic. (Alt/yrs)

Prereq: GEOL 309 or HYDR 409.

HYDR 496 Hydrogeology Senior Thesis

3 credits

Completion of original research and report. Course is taken over two semesters; first semester is graded IP until completion of second semester.

Prereq: GEOL 309 or HYDR 409/HYDR 509 and GEOL 410.

HYDR 499 (s) Directed Study

Credit arranged.

HYDR 500 Master's Research and Thesis

Credit arranged.

HYDR 501 (s) Seminar

Credit arranged

Graded P/F.

Prereq: Permission.

HYDR 502 (s) Directed Study

Credit arranged.

HYDR 503 (s) Workshop

Credit arranged.

HYDR 504 (s) Special Topics

Credit arranged.

HYDR 509 Quantitative Hydrogeology

3 credits

Joint-listed with HYDR 409

A rigorous introduction to the description of flow in porous media; the basic equations of potential flow theory as they relate to ground water problems, with application to common engineering problems encountered by hydrogeologists and engineers; dimensional analysis, properties assignment, and heterogeneous systems. For graduate credit additional reading, presentations, and/or written reports of assigned literature required.

Prereq: MATH 275, STAT 251 or STAT 301.

HYDR 512 Environmental Hydrogeology

3 credits

Joint-listed with HYDR 412

Methods of hydrogeologic site characterization for the delineation of environmental problems. For graduate credit, students are required to complete an additional independent research paper.

Prereq: GEOL 309.

HYDR 514 Ground-Surface Water Interactions

3 credits

Joint-listed with HYDR 414

Physical and chemical ramifications of interactions between ground water flow systems and surface water bodies. Particular emphasis will be placed on water supply and surface water/ground water contamination issues. Graduate credit requires completion of an additional, separate research paper on a selected topic. (Alt/yrs)

Prereq: GEOL 309 or HYDR 409.

HYDR 568 Aquifer Test Design and Analysis

3 credits

Analysis of single and multiple well aquifer tests in a range of hydrogeologic environments. Additional projects/assignments required for graduate credit.

HYDR 576 Fundamentals of Modeling Hydrogeologic Systems

3 credits

Development and application of models representing physical systems, with particular emphasis on ground water flow. Development and solution of the basic equations of potential flow will be covered, along with their assumptions and limitations. Properties assignment, parameter sensitivity, and dimensional analysis will also be discussed. The course will emphasize when modeling is appropriate, how to design a model, and how properties should be selected to achieve meaningful results. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 275 or Permission.

HYDR 598 (s) Internship

Credit arranged.

HYDR 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

INDUSTRIAL TECHNOLOGY (INDT)

INDT 310 Introduction to Industrial Technology

3 credits

This course presents an overview of the careers that comprise the field of industrial technology and the courses and curriculum for the degree. Topical areas include; the concept of technology, overview of materials and manufacturing, safety science, network technology, electricity and electronics, automation and robotics, energy technologies, and nuclear technology. Recommended preparation: completed general education requirements.

Prereq: MATH 160 or MATH 170 .

INDT 311 Problems in Industrial Technology

1 credit

Students will develop a project applying technology to a National Academy of Engineering Challenge Problem. Recommended preparation: completed general education requirements.

Prereq: INDT 310 .

INDT 332 Introduction to Analog and Digital Electronics

4 credits

Introduction to the fundamental laws of electrical engineering, circuit analysis – D.C. and A.C. circuits-R-L and C elements – series and parallel circuits; D.C. and A.C. machines, Transformers, and Electrical measurements. Digital electronics: number system and codes; logic gates; Boolean algebra; ALU; introduction to CMOS.

Prereq: INDT 310 or Permission .

INDT 333 Industrial Electronics and Control Systems

3 credits

Introduction to Control Systems: Fundamentals of programmable logic controllers. Logic concepts, Processing unit, input/output systems, peripheral devices, programming techniques, applications and interfacing. Recommended preparation: completed general education requirements.

Prereq: INDT 332 or Permission .

INDT 350 Introduction to Materials Science

3 credits

Introduction to the fundamentals and applications of materials engineering. Atomic, molecular, and crystalline structures and properties of materials with their relevance to engineering. Topics will include: diffusion, defects, phase diagrams, heat treatment, mechanical behavior, and will cover the different materials classes, i.e., metals, ceramics, polymers, composites, and semiconductors.

Prereq: INDT 310 or Permission .

INDT 353 Manufacturing Systems

3 credits

Introduction to manufacturing processes, mechanical and physical properties of materials, and solidification processes. Metal forming, materials removal processes, property enhancing, Joining and Assembly processes, and surface processing operations. Manufacturing systems, automation, and integrated manufacturing systems. Recommended preparation: completed general education requirements.

Prereq: INDT 350 or Permission .

INDT 362 Behavior Based Safety

3 credits

Principles of paradigm shifts required for total safety, human barriers to safety, the basic principles of behavior-based psychology and behavioral safety analysis and behavior-based interventions.

Prereq: PSYC 101 .

INDT 364 Hazardous Materials

3 credits

Handling, transportation, and storage of hazardous materials; how to protect and suppress fires that occur in hazardous materials. Recommended preparation: completed general education requirements and INDT 310.

Prereq: CHEM 112/CHEM 112L; and MATH 160 or MATH 170.

INDT 400 (s) Seminar

Credit arranged.

INDT 404 (s) Special Topics

Credit arranged.

INDT 405 (s) Professional Development

Credit arranged.

INDT 408 Fire Safety Hazard Analysis

3 credits

Collect and apply fire incident data and analysis. Conduct fire analysis. Conduct fire loss investigation. Identify the components that, alone or in combination, form emergency and standby power systems. Understand the dynamics of heating systems. Identify basic components and hazards associated with 'hot work' and manufacturing processes dealing with proper storage and handling procedures. Identify the fire hazards of grinding processes. Understand proper design, installation, and maintenance of electrical systems and appliances. Identify common types of refrigeration and associated hazards and their corrective actions. Identify the unique hazard of semiconductor manufacturing.

Prereq: Permission .

INDT 409 Fire Suppression Design and Detection

3 credits

Identify the operational characteristics of modern fire alarm systems. Identify the proper applications of automatic fire detectors. Evaluate fire alarm systems, testing and maintenance. Identify the requirements and the benefits of fire alarm systems relating to other systems. Identify and understand the properties, proper use and limitations of non-water systems, halogen and carbon dioxide agents. Identify and understand the water supply system requirements as well as the design criteria for hydraulics for fire protection. Identify the properties and limitations of both dry and wet chemical extinguishing agents. Identify the properties and limitations of various foam extinguishing agents. Identify the properties and proper agents and application techniques for combustible metal fires.

Prereq: Permission .

INDT 410 Loss Control

3 credit

Initiate and coordinate hazard abatement solutions with building managers, plant personnel in providing the corrective actions for life safety and fire protection deficiencies. Use calculations to identify friction loss. Use calculations in determining fire resistive coatings used in buildings. Identify the hazards of explosion prevention and protection. Understand the precautionary need for various types of air-moving equipment. Identify building construction elements for fire protection. Understand the elements of confinement of fire in buildings. Identify and describe the structural damage factors to be evaluated after a fire. Identify fire hazards of construction, alteration and demolition of buildings.

Prereq: Permission .

INDT 411 Fire and Life Safety Management

3 credits

Conduct complex inspection surveys of commercial and residential properties to evaluate physical characteristics of a property and business. Oversee acquisition, installation, operation, maintenance and disposition of building systems. Understand public protection class and municipal and private water systems. Possess knowledge of property fire insurance, building construction and/or field experience in performing fire/property surveys involving detailed analysis. Observe, examine, inspect, gather data and describe all aspects of a property/building and business. Possess knowledge of fire services, environmental hazards, and building construction.

INDT 412 Engineering for Fire and Life Safety

3 credits

Identify fire protection in special occupancies. Identify fire protection in warehouse and storage operations. Identify fire protection of electronic equipment. Understand and apply related NFPA standards and company requirements and standards. Evaluate code, law, and regulation compliance of a facility's operations. Identify safety control systems (PLC controllers, hardwired interlock systems) as it applies to: NFPA 70E, 79, 85 and 86 ANSI/ISA 84.00.01-2003 (IEC 61511) Safety Integrity Levels 1, 2 or 3. Identify principles of human behavior and fire. Identify the chemistry and physics of fire. Identify dynamics of fire growth. Identify challenges to safety in the built environment. Apply fundamentals of safe building design. Identify the local and regional codes and standards for the built environment.

INDT 413 Community Planning and Design for Fire Protection and Management

3 credits

Perform pre-incident planning for industrial and commercial facilities. Identify and understand the operations of fire loss prevention and emergency organizations. Evaluate operations of public emergency operations, fire training and communication systems. Identify the use and function of fire emergency services protective clothing and protective equipment. Identify concepts of egress design. Use calculation methods for egress prediction. Develop and manage emergency preparedness procedures and assure all emergency systems and procedures are tested as planned. Identify the elements of the National Incident Management System (NIMS) in relation to emergencies.

Prereq: Permission .

INDT 415 Impact of Technology on Society

3 credits

In-depth examination of the impact technology has had and will continue to have on society. Recommended preparation: completed general education requirements.

Prereq: INDT 310 or Permission .

INDT 434 Power Generation and Distribution

3 credits

Conventional & Non-Conventional methods – comparison of sources of energy. Growth & future trends in power systems; Hydroelectric, Nuclear, and Gas Turbine power plants – merits & demerits; selection of site. Effect of system voltage on transmission efficiency, circuit breakers, kelvin's Law; radial, ring main systems – different types of DC & AC distributors with concentrated loads. Recommended preparation: completed general education requirements.

Prereq: INDT 332 or Permission .

INDT 435 Network Administration

3 credits

This course provides students with the instruction necessary to install, configure, and troubleshoot a computer network. This course introduces current networking standards, the OSI Model, various protocols and topologies, the interconnections between various hardware components, network operating systems, DNS, DHCP, TCP/ IP, Ethernet, wired and wireless transmission, and security.

Prereq: MATH 160 or MATH 170; and INDT 310 .

INDT 442 Systems Integration

3 credits

This course is designed to provide students with an understanding of Systems Integration (SI) processes, approaches, drivers, tools and techniques required for successful SI, critical success factors, and best practices. The objective of the course is to provide the students an understanding of the technical and business process issues involved in systems integration. Systems integration process is illustrated over the life cycle concept of projects – during design, development, implementation, testing and production. Recommended preparation: completed general education requirements.

Prereq: INDT 310 .

INDT 443 Government Contract Law

3 credits

Contract formation, and contract administration pertaining to government contracts. Recommended preparation: completed general education requirements and INDT 310.

INDT 444 Quality Assurance Organization and Management

3 credits

Industrial management principles applied to effective economic control of quality assurance activities. Recommended preparation: completed general education requirements.

Prereq: INDT 310; and STAT 251 or STAT 301 .

INDT 446 Labor Law

3 credits

Practical legal considerations in employer/employee relationships, including union contracts. Recommended preparation: completed general education requirements and INDT 310.

INDT 448 Project and Program Management

3 credits

This course addresses the project/program life-cycle. It defines projects and programs, and the roles and responsibilities of project and program managers. Students are introduced to the related, but differing, techniques for project/program planning (work structuring, budgeting, scheduling, resource allocation), and execution (monitoring, control, auditing, closure).

Prereq: STAT 251 or STAT 301 .

INDT 453 Computer Integrated and Robotics Manufacturing Technology
3 credits

In-depth examination and implementation of advanced computer aided drafting, 3D solids modeling, computer numerical control, basic and advanced toolpath generation, virtual machining environments, and robotics applications. Enrollment per section limited to lab stations available. Recommended preparation: completed general education requirements.

Prereq: INDT 353 or Permission .

INDT 457 Lean to Green Sustainable Technology
3 credits

Lean production and lean manufacturing refer to the use of systematic methods to reduce costs by eliminating wastes and nonvalue-added activities, while delivering what the customer wants, on time. Even without explicitly targeting environmental outcomes, lean efforts can yield substantial environmental benefits. Recommended preparation: completed general education requirements.

Prereq: INDT 353 or Permission .

INDT 462 Industrial Safety
3 credits

Overview of industrial safety and health in business and industry. Includes Program Organization, Hazard Information, and Program Implementation. Recommended preparation: completed general education requirements.

Prereq: INDT 362 .

INDT 463 Industrial Transportation Safety
3 credits

Principles of safety in all aspects of industrial transportation; roads, railroads, air, water, pipeline.

INDT 464 Human Performance Fundamentals
3 credits

Introduction to the factors that control and influence human performance. Explore the basis of individual and leader behaviors as well as organizational processes and values that either lead to or prevent error. Fundamental knowledge of human and organizational behavior is emphasized so that the manager, supervisor, and worker can better handle error-provoking work situations to prevent human error and workplace events. Recommended preparation: completed general education requirements.

Prereq: INDT 362 .

INDT 465 Construction Safety
3 credits

Major components of construction health and safety, including hazards, law, written programs, implementation, control and behavior.

INDT 466 Human Performance Field Investigation
3 credits

Provides education in the area of participating in an investigation of an incident that has a significant human contribution. Principles of the old view of human error – the problems it holds, the traps it represents, and the temptations that can make one fall into them. The new view of human error in which human error is the starting point for an investigation. Reconstruct the human contribution to system failure and "reverse engineer" the evolving mindset of personnel who were caught up in an event. Investigate the biases and difficulties in understanding past behavior associated with system failure. Recommended preparation: completed general education requirements.

Prereq: INDT 464.

INDT 470 Homeland Security
3 credits

This course will provide students with a basic understanding of terrorism involving Weapons of Mass Destruction (WMD) (e.g. biological, nuclear, incendiary, chemical, radiological, and explosive devices). The history of WMD/Terrorism and how it relates to modern day devices and concepts will be discussed. The students will gain an understanding of International terrorism and homegrown terrorists. Recommended preparation: completed general education requirements.

INDT 472 National Incident Management Systems
3 credits

This course is designed to increase the participants' knowledge and understanding of the inherent flexibility of the Incident Command System to manage major or complex incidents. Utilizing lectures and small group activities, participants will acquire an in-depth knowledge of the National Incident Management System (NIMS), terminology, players, and management philosophy. Participants will also acquire the ability to organize and manage major or complex incidents. The material covered during the course includes command and general staff duties and responsibilities, unified command, major incident management and area command structures. Recommended preparation: completed general education requirements.

INDT 473 Fundamentals of Unmanned Aerial Systems
3 credits

The course introduces students to unmanned aerial systems (UAS) and provides an overview of UAS types, applications, and operation considerations. The general principles of aerodynamics, propulsion, navigation and stability control applied to UAS are studied. The course provides an in-depth coverage of the main components integrated in both civilian and military UAS, such as payloads, ground control systems, communication data links, and launch/recovery systems.

Prereq: General Technical Background .

INDT 474 Mechatronics Systems
3 credits

Mechatronics is a multi-disciplinary engineering discipline representing a synergistic combination of mechanical, electrical, control, and computer engineering, integrated through a design process. The course provides a cross-disciplinary study of mechatronics systems at a theoretical and practical level. The emphasis is on a balanced approach to: (1) theoretical and analytical understanding of the fundamentals of mechatronics system design, and (2) practical implementation of learned concepts. Software and hardware simulation and interfacing is studied and reinforced through a set of assignments, lab exercises, and a project, based on the Lego Mindstorms EV3 kit.

Prereq: INDT 333 or permission .

INDT 484 Industrial Technology Capstone I
3 credits

Gen Ed: Senior Experience

This course is the first of two capstone courses. The students will select and develop a project that applies technology to a problem. Students are encouraged to incorporate service learning into the project and work in teams. Course will have 1 lecture hours and 2, 3 hour labs each week. Recommended preparation: senior standing.

Prereq: INDT 442 and INDT 444 .

INDT 485 Industrial Technology Capstone II

3 credits

This course is second of the two capstone courses. The students will develop their project that applies technology to a problem. Students are encouraged to incorporate service learning into the project and to work in teams. Course will have 1 lecture hours and 2, 3 hour labs each week. Recommended preparation: senior standing.

Prereq: INDT 442 and INDT 444 .

INDT 499 (s) Directed Study

Credit arranged.

INTEGRATED SEMINAR (ISEM)

ISEM 101 (s) <https://www.uidaho.edu/class/general-education/student-information/isem>

3 credits

An interdisciplinary, thematically based course, intended to introduce students beginning their university experience to a variety of humanities and social science disciplines and perspectives on topics of broad interest; all themes/sections emphasize discussion and frequent student-faculty and student-student interactions; each includes attention to issues of critical thinking, diversity, and methods of inquiry. Open to first year students only.

ISEM 301 (s) Great Issues Seminar

1 credit

Open only to students who have earned at least 26 credits (sophomore status), the Great Issues Seminars are interdisciplinary courses typically linked with an annual signature event of the university (e.g., Bellwood Lecture, Borah Symposium, Runstad Lecture, Jazz Festival) that integrate the university learning outcomes and general education goals with a critical examination of the great issues topic. Attendance at an event may be required. See www.webs.uidaho.edu/core for specific course titles and descriptions.

Prereq: ENGL 102 and Sophomore Standing .

INTERDISCIPLINARY STUDIES (INTR)

INTR 101 (s) Focus on Success

1-3 credits, max 6

Develop strategies to help you meet the demands of college-level course work. Includes goal setting, study skills, learning strategies, time management, effective communication skills. This course will introduce you to University requirements and resources, and help you integrate into the academic and social environment at the UI.

INTR 200 (s) Seminar

Credit arranged.

INTR 201 Major/Career Exploration & Decision Making

1 credits

Students are taken through the career decision-making process. Through career assessments, occupation & industry research, and informational interviews, students will learn about themselves and explore possible careers in order to narrow down their options and make informed major and career decisions.

INTR 203 (s) Workshop

Credit arranged.

INTR 204 (s) Special Topics

Credit arranged.

INTR 210 Life Skills for Student Athletes

2 credits

This course supports the development of a well-balanced lifestyle for student-athletes, encouraging emotional well-being, leadership, personal growth and decision-making skills. Upon completion of the course the student-athlete will: 1. Understand the guidelines and resources available for academic success; 2. Take personal responsibility for actions, behaviors and pursuing goals; 3. Effectively manage your time within the constraints of a busy academic schedule; 4. Consistently demonstrate successful classroom behavior, study habits, and test taking skills; 5. Make informed and educated decisions regarding health issues; 6. Learn to prepare nutritious and inexpensive meals; 7. Appreciate the meaning of diversity and culture; 8. Understand how to manage your personal finances; 9. Choose the correct major and identify possible career choices; and 10. Demonstrate the understanding of a service learning experience.

INTR 298 (s) Internship

Credit arranged.

INTR 299 (s) Directed Study

Credit arranged .

INTR 316 Explore Mentoring & Leadership

3 credits

Cross-listed with PSYC 317 and SOC 316

Through the study of both mentoring as well as leadership, this course will prepare students to become effective mentors, citizens and members of the larger community. The course will cover a broad range of topics including: mentoring skills; leadership language, theory and style; communication and conflict; social justice and multiculturalism; values and ethics; and social change.

INTR 398 (s) Internship

Credit arranged.

INTR 400 (s) Seminar

Credit arranged.

INTR 401 Career and Leadership Development

2 credits

Gen Ed: Senior Experience

Provides students with information, resources and tools to help them explore careers, set goals, and make informed educational and career choices. Students will enhance their leadership skills, explore abilities, interests, and values in preparation to excel in the post-graduation world. A main focus of the class will be identifying and assessing strengths, direct and transferable skills students possess, and how to market and effectively communicate the value such skills bring to an organization, graduate program or employer post-graduation. Senior experience seminar for students in general studies and interdisciplinary studies.

Prereq: Junior standing or higher .

INTR 403 (s) Workshop

Credit arranged.

INTR 404 (s) Special Topics

Credit arranged.

INTR 405 (s) Professional Development

Credit arranged

Joint-listed with INTR 505.

INTR 450 University Interdisciplinary Colloquium

1 credit

This course meets in conjunction with the Malcolm Renfrew Interdisciplinary Colloquium, a campus-wide speaker series that meets weekly on Tuesdays during the Fall and Spring semesters. The presentations concern various aspects of teaching and research on campus, and are delivered by faculty and staff from across the university. Attendance at the presentations is required, and students are expected to submit their class notes and reaction essays for each presentation at the end of the semester. Graded Pass/Fail.

INTR 489 Honors Program Ambassadors

1 credit, max 8

Student Ambassadors are selected through an application and interview process. Students will learn leadership, communication, networking and public speaking skills. Students will meet in the classroom with the instructor and will be responsible for representing the University Honors Program at various on- and off-campus events and activities.

INTR 491 College of Letters, Arts, and Social Sciences Ambassadors

Credit arranged

Student ambassadors are selected through an application and interview process. Students will learn skills in leadership, communication, networking, public speaking and time management. Students will be responsible for representing the College of Letters, Arts and Social Sciences in various recruiting activities and events.

INTR 492 College of Science Ambassadors

1 credit, max 8

Student ambassadors are selected through an application and interview process. Students will learn skills in leadership, communication, networking, and public speaking. Students will be responsible for representing the College of Science in various recruiting activities and events.

Prereq: Permission .

INTR 496 Pre-Health Peer Mentors**1 credit, max 4**

Pre-health peer mentors are selected through an application and interview process. The mentor program will help promote a welcoming and supportive community for pre-health-professions-focused students new to the University of Idaho, while providing mentors the opportunity to further develop the inter- and intra-personal competencies expected of future healthcare professionals. These competencies include collaboration, communication, service orientation, and ethical responsibility to self and others.

INTR 498 (s) Internship**1 credit, max 2**

Tutorial services performed by advanced students under faculty supervision.

Prereq: Permission.**INTR 499 (s) Directed Study****Credit arranged.****INTR 500 Master's Research and Thesis****Credit arranged.****INTR 501 (s) Seminar****Credit arranged.****INTR 502 (s) Directed Study****Credit arranged.****INTR 503 (s) Workshop****Credit arranged.****INTR 504 (s) Special Topics****Credit arranged.****INTR 505 (s) Professional Development****Credit arranged**

Joint-listed with INTR 405.

INTR 508 Teaching and Learning Strategies for International Teaching Assistants**1 credit**

This course is designed to help International Teaching Assistants become better teachers and facilitators of student learning . The course will include mentoring through classroom teaching and observation sessions. Graded Pass/Fail.

INTR 598 (s) Internship**Credit arranged.****INTR 599 (s) Research****Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.

INTERIOR DESIGN (ID)

ID 151 Introduction to Interior Design

3 credits

Introduction to interior design theory and process. Explores transdisciplinary design issues and relationships; emphasis areas include basic design theories, vocabulary, and sustainability of the built environment. Attendance at outside events (such as lectures and symposiums) is required.

ID 152 Interior Design I

3 credits

Study of the relationship of design theories to the interior environment; exploration, through a variety of media, of the elements and principles of design, with emphasis on spatial relationships and color theory. Focus of design problems is residential design and small-scale contract design. Attendance at outside events; some class critique sessions outside of scheduled hours at student expense.

Prereq: ID 151 or Permission

Coreq: ARCH 154 .

ID 200 (s) Seminar

Credit arranged.

ID 203 (s) Workshop

Credit arranged.

ID 204 (s) Special Topics

Credit arranged.

ID 244 Computer Aided Drafting and Modeling

2 credits

Cross-listed with ARCH 244

Introduction to computer-aided drafting and modeling techniques and applications.

Prereq: ARCH 154.

ID 254 Architectural Design II

4 credits

Cross-listed with ARCH 254.

Basic integration of principles and concepts for architectural design, both interior & exterior. Two 3-hr studios a wk and assigned work.

Prereq: ARCH 253 or Permission

Coreq: ARCH 243 .

ID 281 History of the Interior I

3 credits

Gen Ed: International

Survey of historical interiors and furnishings from antiquity to the industrial revolution.

ID 282 History of the Interior II

3 credits

Gen Ed: International

Survey of historical interiors and furnishings from the industrial revolution to the present.

Prereq: ID 281 or Permission.

ID 299 (s) Directed Study

Credit arranged.

ID 332 Furniture Design and Construction

4 credits

Theory and application of furniture design and construction emphasizing the continuing development of three-dimensional design skills and attention to physical detail; aspects of structure, ergonomics, and aesthetics are addressed in process of designing and constructing furniture pieces. One and one-half hrs of lec and 3 hrs of lab a wk in class meetings. Recommended Preparation: ID 281, ID 282.

Prereq or Coreq: ID 351 or Permission.

ID 344 Digital Design Tools for Interior Design

2 credits

Introduction to software programs, with emphasis on Revit, for use in designing environments. Including but not limited to 3-D modeling.

Coreq: ID 351 or Permission.

ID 351 Interior Design III

6 credits

Sequence of advanced residential and small scale contract design projects requiring integration of design theories and process in relationship to critical problem solving. Emphasis on formation of interior spaces to correspond to function and flow patterns. Nine hours of studio a week; field trips reqd at student expense; some class jury sessions outside of scheduled hours.

Prereq: ID 152 and ID 254 or Permission .

ID 352 Interior Design IV

6 credits

Sequence of large scale contract and other design problems requiring application of expanded design process including problem identification, analysis, program development, conceptual and design development and solution presentation. Implementation of lighting, codes, systems furniture, and interior specifications in the design process. Nine hours of studio a week; field trips required at student expense; some class jury sessions outside of scheduled hours.

Prereq: ID 351 .

ID 368 Materials and Specifications

3 credits

In-depth study of interior finishes, materials, and products; emphasis on performance characteristics, manufacturing methods, testing, codes, specifications, and professional liability. Field trips reqd at student expense.

ID 400 (s) Seminar

Credit arranged.

ID 403 (s) Workshop

Credit arranged.

ID 404 (s) Special Topics

Credit arranged.

ID 410 Capstone Proposal Development

2 credits

Capstone Studio proposal development requiring systematic approach to the development of project proposal in preparation for ID 452. 8 week course/2 credit hour course.

Coreq: ID 451 .

ID 415 Design Management

3 credits

This course aims to provide a foundation of business knowledge that will prepare design students to work in management. This is a lecture and case study based class.

Prereq: Junior standing or higher.

ID 443 Universal Design

3 credits

Gen Ed: American Diversity

Introduction to and application of universal design and accessible design concepts, principles, products, standards, laws, regulations, and guidelines to the design and adaptation of the built environment. Attendance at outside events (such as lectures, simulations, and completion of a service learning component) is required. One and a half hours lecture and 3 hours arranged. Recommended Preparation: ID 254 or ARCH 254.

ID 451 Interior Design V

6 credits

Advanced problems in mixed use contract interior design requiring synthesis of related course work into comprehensive design resolution that communicates design impact on sense of place and place making; projects will seek to refine the design decision making process by requiring in-depth programming, client participation, and development beyond schematic phases, e.g., integration of building systems, lighting design, interdisciplinary investigation, and understanding of cultural/environmental context. Nine hours of studio a week and assigned work; field trips reqd at student expense; some class jury sessions will meet outside of scheduled hours. Recommended Preparation: ID 443.

Prereq: ID 352.

ID 452 Interior Design VI

6 credits

Gen Ed: Senior Experience

Capstone studio course featuring advanced applications of design theories and processes focusing on complex design issues, synthesis and implementation of previous course work in appropriate student selected project, from the initial programming through the final complete design documentation and presentation. Nine hrs of studio a wk and assigned work; field trips reqd at student expense; some class jury sessions will meet outside of scheduled hours.

Prereq: ID 410 and ID 451.

ID 498 (s) Internship

Credit arranged.

ID 499 (s) Directed Study

Credit arranged.

INTERNATIONAL STUDIES (IS)

IS 195 International Studies Freshman Seminar

3 credits

Introductory course recommended of all International Studies majors in their freshman year. Focuses on introducing interdisciplinary training in global, regional, and issue emphases through oral and written presentations. (Spring only)

IS 200 (s) Seminar

Credit arranged.

IS 203 (s) Workshop

Credit arranged.

IS 204 (s) Special Topics

Credit arranged.

IS 225 International Environmental Issues Seminar

3 credits

Gen Ed: International

Cross-listed with ENVS 225.

Designed for individuals who have an interest in understanding environmental issues from a global perspective. The course focuses on various social and physical issues related to the environment and natural resources using human population dynamics as a backdrop. ENVS 101 recommended. (Spring only)

IS 298 (s) Internship

Credit arranged.

IS 299 (s) Directed Study

Credit arranged.

IS 310 The United Nations

3 credits

Overview of principle UN agencies and current UN activities; emphasis on written and oral presentations through resolution and position paper writing, negotiations, and small group discussions. (Fall only)

IS 320 Model United Nations

2 credits

Advanced preparation for IS 310 members selected to attend the National MUN Conference in New York; emphasis on a particular country and region through study of political, social, and economic indicators, policy goals, and bloc negotiations. (Spring only)

Prereq: IS 310.

IS 321 UN and Related Agencies

1 credit

Companion course to IS 320, this course permits students to further hone their knowledge of a particular UN or related agency through a combination of directed study and roundtable discussions.

Coreq: IS 320 .

IS 322 International Environmental Organizations

3 credits

Overview of principle international environmental agencies and their current activities, with an emphasis on the UN Environment Programme and the organizations which oversee major environmental treaties.

IS 323 International Monetary and Trade Organizations

3 credits

Explores the interaction of countries and international economic/financial institutions, with focus on the political questions that arise from said interaction and organizational policies, the effect of and the conditions for cooperation in international trade and finance, and related legal questions from the treaties that govern this type of cooperation. Recommended Preparation: ECON 201 and POLS 237 or IS 310.

IS 325 The Contemporary Muslim World

3 credits

Gen Ed: Social Science, International

Focus on the states in the Organization of the Islamic Conference, with an emphasis on framing the region, social and popular questions, economic issues, and the global stage.

IS 326 Africa Today

3 credits

Gen Ed: Social Science, International

Focus on the states in Africa, with an emphasis on politics, economy and development, culture and society, and current issues.

IS 350 Sports and International Affairs

3 credits

Gen Ed: Social Science, International

Exploration of the relationship between sports and politics, nationalism, economics, society and culture as they play out in the international arena.

IS 370 African Community, Culture, and Music

1-3 credits

Gen Ed: Humanities, International

Focus on regional and/or national communities and cultures in Africa with an emphasis on musical traditions. Experience based including preparation in the US, field work in one or more African countries, and substantive evaluation after return.

IS 384 African Politics

3 credits

Cross-listed with POLS 384

Exploration of the politics of African countries, beginning with the historical roots of colonialism and decolonization, but concentrating on contemporary issues of state building, war and conflict, development, democratization, and international and regional relations.

IS 398 (s) Internship

Credit arranged.

IS 400 (s) Seminar

Credit arranged.

IS 403 (s) Workshop

Credit arranged.

IS 404 (s) Special Topics

Credit arranged.

IS 410 NGOs in the International System

3 credits

A comparative analysis of nongovernmental organization types, functions, strategies, funding mechanisms, accountability, challenges, and collaborations with other international organizations.

IS 440 (s) International Organizations & International Law

3 credits

Cross-listed with POLS 440

League of Nations, United Nations, and role of international law in international relations; the UN's contribution to international security and economic and social development.

IS 441 International Protection of Human Rights

3 credits

Focus on the law and politics of international human rights, examining the various actors involved in the promotion of human rights around the globe, and exploring competing conceptions of human rights, whether human rights are universal, problems of enforcement, and the role of human rights in foreign policy.

IS 485 (s) Martin Scholars

3 credits

The Martin Scholars program considers a topic related to international conflict and the resolution thereof in a broad context, with specific topics mutually selected by a designated faculty member and the director of the Martin Institute. It serves a small group of students each fall term, with additional work carried out over the course of the ensuing spring term while the Martin Scholars produce masters-level research on that year's specific topics.

Prereq: Departmental Permission .

IS 495 International Studies Senior Seminar

3 credits

Gen Ed: Senior Experience

Capstone course required of all International Studies majors in their senior year. Focuses on incorporating interdisciplinary training in global, regional, and issue emphases through oral and written presentations.

(Spring only)

Prereq: Senior standing, International Studies major or Permission .

IS 497 Practicum in Instruction

2 credits

Tutoring and/or instructional services performed by advanced students under faculty supervision. (Spring only)

Prereq: IS 310, IS 320, and Permission .

IS 498 (s) Internship

Credit arranged.

IS 499 (s) Directed Study

Credit arranged.

JAPANESE (JAPN)

Vertically-related courses in this subject field are: JAPN 101 - JAPN 102 - JAPN 201 - JAPN 202. A maximum of 16 credits may be earned for vertical credit in any language in the Department of Modern Languages & Cultures.

JAPN 101 Elementary Japanese I

4 credits

Gen Ed: International

Writing system, pronunciation, vocabulary, and functional grammar. Students with Japanese experience who place higher than JAPN 101 on the placement exam may not enroll in JAPN 101, but may earn credit for JAPN 101 by successfully completing a higher vertically-related course. Cooperative: open to WSU degree-seeking students.

JAPN 102 Elementary Japanese II

4 credits

Gen Ed: International

Writing system, pronunciation, vocabulary, and functional grammar. Cooperative: open to WSU degree-seeking students.

Prereq: JAPN 101 or placement exam.

JAPN 107 Beginning Japanese Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the beginning Japanese level. Graded P/F.

JAPN 201 Intermediate Japanese I

4 credits

Gen Ed: International

A beginning intermediate course; review and practice of basic language skills; increased emphasis on reading and free discussion. Cooperative: open to WSU degree-seeking students.

Prereq: JAPN 102 or placement exam.

JAPN 202 Intermediate Japanese II

4 credits

Gen Ed: International

An intermediate course; review and practice of basic language skills; increased emphasis on reading and free discussion. Cooperative: open to WSU degree-seeking students.

Prereq: JAPN 201 or placement exam.

JAPN 204 (s) Special Topics

Credit arranged.

JAPN 205 Kanji

3 credits

Acquisition of Kanji skills, including listening, speaking, reading and writing.

Prereq: JAPN 102 or placement exam .

JAPN 207 Intermediate Japanese Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the intermediate Japanese level. Graded P/F.

JAPN 299 (s) Directed Study

Credit arranged.

JAPN 301 Japanese Reading

3 credits

Gen Ed: International

Emphasis on the development of reading skills at the advanced intermediate level; some emphasis on grammar, vocabulary and kanji character acquisition. For students who have completed four semesters of elementary and intermediate Japanese or have an equivalent background. Recommended Preparation: JAPN 202 or equivalent.

JAPN 303 Japanese Speaking

3 credits

Gen Ed: International

Emphasis on the development of speaking skills at the advanced intermediate level; focus on utilizing honorific, modest, and respect expressions. For students who have completed four semesters of elementary and intermediate Japanese or have an equivalent background. Recommended preparation: JAPN 202 or equivalent.

JAPN 305 Japanese Professional Culture

3 credits

Examines current issues in Japanese culture.

Prereq: JAPN 202 or Permission .

JAPN 404 (s) Special Topics

Credit arranged.

JAPN 498 (s) Internship

Credit arranged.

JAPN 499 (s) Directed Study

Credit arranged.

JOURNALISM/MASS MEDIA (JAMM)

JAMM 100 Media and Society

3 credits

Overview of mass communication: history and structure of media organizations; the political, economic and social context of media; legal and ethical considerations; media literacy; cultural approaches to mass communication research.

JAMM 121 Media Writing

3 credits

Basic principles of writing for print, broadcast and online media; skills in identifying and evaluating credible information. Two 2-hr lec-labs a wk. Recommended Preparation: Ability to type.

Prereq: ENGL 102 with a grade of C or better and JAMM 100 with a grade of C or better

Coreq: JAMM 122.

JAMM 122 Multimedia Storytelling

1 credit

Basic principles of photographic and video/audio storytelling techniques emphasizing practical application for mass media. Students in JAMM 121 must also register for JAMM 122 the same semester.

Prereq: ENGL 102 with a grade of 'C' or better and JAMM 100 with a grade of 'C' or better

Coreq: JAMM 121 .

JAMM 200 (s) Seminar

Credit arranged.

JAMM 203 (s) Workshop

Credit arranged.

JAMM 204 (s) Special Topics

Credit arranged.

JAMM 225 Reporting I

3 credits

Writing news for print, broadcast and online media. Introduction to newsroom structures and processes, news judgment and decision making. Two 2-hr lectures/labs a wk.

Prereq:JAMM 100, JAMM 121 and JAMM 122 with grades of 'C' or better .

JAMM 231 Introduction to Screenwriting

3 credits

Cross-listed with ENGL 231

Introduction to the elements of screenwriting; students explore narrative techniques through the study of the short film form, using genre, developing characters, and advancing a story by effectively using cinematic language. Recommended Preparation: ENGL 230 .

JAMM 252 Introduction to Integrated Media Campaigns

3 credits

Overview of issues and methods used by public relations and advertising. Requires that participants engage with their peers to discuss readings, theoretical perspectives, obstacles, history, and current events in integrated marketing communication.

Prereq:JAMM 100, JAMM 121 and JAMM 122 with grades of 'C' or better .

JAMM 265 Principles of Advertising

3 credits

Overview of the role of advertising in American society. Explores the socioeconomic growth and impact of advertising on U.S. consumer culture. Writing assignments include critiques of advertisements and analyses of their intended effects.

Prereq:JAMM 100, JAMM 121 and JAMM 122 with grades of 'C' or better .

JAMM 267 Introduction to Media Design

3 credits

Foundational principles and theories of visual communication; use of graphics to communicate information and support persuasive appeals; hands-on learning using industry standard graphic applications.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better .

JAMM 275 Introduction to Broadcasting and Digital Media Production

4 credits

Principles of digital audio and video production and writing; concentration on skills such as writing, producing, directing, sound recording and mixing, lighting, camera work, and editing for narrative and non-narrative storytelling. Work with digital and high-definition equipment for field and studio production. Hands-on experience, criticism and revision are emphasized. Two 75-minute lectures and one 2-hr lab per week.

Prereq: JAMM 100 and JAMM 121 and JAMM 122 with grades of 'C' or better, or ENGL 230 with a grade of 'C' or better, or Permission.

JAMM 299 (s) Directed Study

Credit arranged.

JAMM 322 Broadcast News

3 credits

News reporting for radio, television and the Internet, emphasizing writing, editing, producing, and on- air performance skills; analysis of broadcast news practices. Recommended preparation: JAMM 275.

Prereq:JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 225 or JAMM 275; or Permission.

JAMM 323 Sports Reporting

3 credits

Sports reporting for television, radio and the Internet; emphasizes writing, editing, producing, camera work and on-air performance skills. Focus on interviews, team coverage, game highlights. Recommended Preparation: JAMM 322. (Fall only)

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 225 or JAMM 275; or Permission .

JAMM 324 News Editing and Production

3 credits

News selection, evaluation, editing, display, pagination and design for print and online media. Two 2-hr lectures/labs a wk. (Spring only)

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 225 or Permission .

JAMM 325 Publications Editing

3 credits

Introduction to the development, management, editing, design and distribution of print and web publications; focuses on periodicals, such as magazines and student-originated projects.

Prereq:JAMM 100, JAMM 121 and JAMM 122 with grades of 'C' or better.

JAMM 326 Design for the Media

3 credits

Principles and applications of design tailored to the media professions. Students learn design principles, software programs and critical thinking applicable to the creation of visual content intended for targeted audiences. (Advertising majors should take the required courses JAMM 267 and JAMM 468 instead of JAMM 326, and will not receive additional JAMM elective credit for JAMM 326 if JAMM 267 and JAMM 468 are counting toward their degree.)

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better .

JAMM 327 Reporting II

3 credits

Interviewing, database research, access to public records and meetings, and development of in-depth news story structure. Includes coverage of government, politics and other public issues. Recommended Preparation: PoLS 275.

Prereq:JAMM 100, JAMM 121 and JAMM 122 with grades of 'C' or better; and JAMM 225 or Permission .

JAMM 328 Science Writing

3 credits

Cross-listed with ENGL 318.

Principles and practices of making scientific concepts and work accessible to general audiences through multiple forms of media; also examines the ways in which media coverage of scientific issues shapes public opinion and policy.

Prereq:ENGL 102 and Sophomore Standing .

JAMM 339 Crime and the Media

3 credits

Cross-listed with SOC 339

Critical evaluation of the media portrayals of crime and the criminal justice system; analysis of how the media help to shape public understanding and public policy.

JAMM 340 Cultural Diversity and the Media

3 credits

Gen Ed: American Diversity

An examination of media studies scholarship related to aging, class, disabilities, gender, race and sexual orientation.

Prereq:JAMM 100, JAMM 121 and JAMM 122 with grades of 'C' or better.

JAMM 341 Mass Media Ethics

3 credits

A critical examination of ethical issues confronting journalists and other media practitioners. Includes moral analysis, argument and decision-making by media organizations. Case studies drawn from journalism, broadcasting, advertising, public relations and digital media.

Prereq:JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better, and Junior Standing, and a Major in the School of Journalism and Mass Media .

JAMM 350 Public Relations Writing and Production

3 credits

Public relations writing, publication and design processes for print, broadcast and online media. Two 2-hr lectures/labs a wk.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 225 and JAMM 252 .

JAMM 352 Event Planning and Management

2 credits

Examination of types and structures of organizations that produce events, with an emphasis on the management of events, including funding, staffing and promotion. Students complete an original management plan for execution.

Prereq: Permission .

JAMM 361 Advertising Creativity

3 credits

Advertising creative process in print, broadcast and online media, including copywriting and production processes and techniques. Recommended preparation: ART 110.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 265.

JAMM 364 Advertising Media Planning

3 credits

Advertising media planning for broadcast, print and online media; includes interpretation of ratings and market data, media strategies and concepts, and specific buying process in each advertising medium.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 265.

JAMM 365 Social Media

3 credits

History, theory, technology, audience impact and strategic uses of social media for advertising, marketing, public relations and journalism purposes. Students critically examine social media uses and employ current technologies to complete hands-on assignments and develop client-based social media strategies.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better .

JAMM 367 Social Media Management and Analytics

3 credits

How to analyze and understand the metric effect social media has on consumer behavior, campaign effectiveness and the return on investment (ROI) of social media in a media plan.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better, and JAMM 265 .

JAMM 370 Digital Audio Production

3 credits

Audio production principles and techniques, with an emphasis on sound design, writing and announcing skills; digital technologies for radio, television, internet, and music recording.

Prereq:JAMM 100 with a grade of 'C' or better and JAMM 121 with a grade of 'C' or better.

JAMM 374 Digital Media Field Production

3 credits

Single-camera field production techniques and aesthetics. Students will write, produce, direct and revise video projects. Includes pre-production planning, aesthetics and post-production realizations.

Prereq: JAMM 275 .

JAMM 378 American Television Genres

3 credits

Historic development of dominant television genres, discussion of characteristics unique to each genre; examination of the cultural context of television programming.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better, or ENGL 230 with a grade of 'C' or better.

JAMM 379 Hollywood Portrayals of Journalists**3 credits**

Addresses the evolving relationship between the American people and their media. It examines the conflicting images of journalists in movies and television and discusses the influence of these images on the American public's perception of news gatherers in the 20th and 21st centuries.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; or ENGL 230 with a grade of 'C' or better.

JAMM 400 (s) Seminar**Credit arranged**

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 403 (s) Workshop**Credit arranged**

May be graded P/F.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and Permission.

JAMM 404 (s) Special Topics**Credit arranged**

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 405 Professional Development for Secondary Teachers**1-3 credits**

Exposure to current developments in mass media, including technology, law and ethics; supervised experience in writing, editing, publication design, video production and Internet publication; work with high school, college students and professional journalists in a workshop setting. (Summer only)

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 418 Teaching High School Journalism**3 credits**

Principles and best practices for teaching high school journalism. Covers evolution of high school journalism, the coaching method, program management, ethics, legal issues and cultural diversity.

Prereq: Permission.

JAMM 422 Advanced Broadcast News**3 credits**

Advanced news reporting for radio, television and the Internet, emphasizing writing, editing, producing, and on-air performance skills; analysis of broadcast news judgments and decision making.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 322.

JAMM 425 Feature Article Writing**3 credits**

Strategies and approaches for writing and producing human-interest stories for print and online media; introduction to a variety of feature-writing styles, including columns, reviews, and arts and culture coverage. Topics vary.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 225 or Permission.

JAMM 426 Narrative Journalism**3 credits**

An examination of the roots and development of American narrative journalism, with an emphasis on contemporary examples and their location in a digital world. Includes critical analysis of narrative structure, sourcing, audio/visual storytelling techniques and audience reception.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and Junior standing or above.

JAMM 428 Environmental Journalism**3 credits**

Reporting on natural resources issues and the environment.

Recommended Preparation: JAMM 225.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 440 Critical Issues in Mass Media**3 credits**

Examination of critical approaches to mass media, including interdisciplinary interpretations of media forms and content. Addresses how new media technologies are changing how media users acquire, distribute and use information. Analyzes media impact on American culture from a variety of critical perspectives.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 443 Media Management and Economics**3 credits**

Management principles as they apply to mass media; emphasis on personnel management, budgeting, programming, sales, marketing and promotion, legal constraints, new technologies, and strategic planning; study of media ownership.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 444 Mass Media and Public Opinion**3 credits**

Role of media in the formation of public opinion; overview of survey methodology and interpretation.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 445 History of Mass Media**3 credits**

Gen Ed: American Diversity

Develops core historical understanding of significant social, political, economic, and technological developments in the mass media. Focuses primarily on developments and trends in the United States between 1900 and the present. Topics include the media as independent witnesses to human events, the role of audiences, contributions made by underrepresented groups and the importance of a free press to democracy.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better, or ENGL 230 with a grade of 'C' or better.

JAMM 446 Women in the Media**3 credits**

Examines the spaces that women occupy in the media, both in front of and behind the camera. Focuses on feminist critiques of the media and issues of representation in a variety of mediums and topics (film, television, print, news, advertising).

Prereq: JAMM 100 with a grade of 'C' or better and JAMM 121 with a grade of 'C' or better and JAMM 122 with a grade of 'C' or better.

JAMM 447 Screenwriting

3 credits

Cross-listed with ENGL 447 and THE 447

Introduction to Study of the fundamental elements of feature film screenwriting; techniques of developing story lines and advancing a narrative in a visual way using the industry standard of a tightly structured long-form feature film. Additional projects/assignments required for graduate credit.

Prereq: ENGL 231 or JAMM 231; Permission.

JAMM 448 Law of Mass Media

3 credits

Gen Ed: Senior Experience

An examination of the legal framework governing the gathering, preparation, and dissemination of information, advertising and entertainment in the United States and globally. Topics include First Amendment, defamation, invasion of privacy, intellectual property, copyright, access to governmental proceedings and records, and regulation of broadcasting, satellite, and cable television.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and Senior standing and a major in the School of Journalism and Mass Media .

JAMM 452 Public Relations Campaign Design

3 credits

Examination of public relations programs; practice in developing and executing campaigns with emphasis on problem/issue identification, design of campaign elements, presentations skills and equipment.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 350.

JAMM 456 Nonprofit Fundraising

3 credits

Cross-listed with COMM 456

Explores theory and practice of fundraising for nonprofit groups. Surveys public campaigns and communication strategies, fundraising methods, ethics of fundraising, and fundraising leadership/management. Students will develop methods of evaluation for fundraising, and do so by case studies and preparation for fundraising campaigns.

JAMM 458 Public Relations Research and Case Studies

3 credits

Basic research techniques used by the public relations practitioners, including philosophy and ethics of research, content analysis, focus groups and surveys. Analysis of public relations case studies and reasons for their success or failure.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and JAMM 252 .

JAMM 466 Media Campaign Strategy

3 credits

Advanced strategies in creative approaches and media usage for Public Relations and Advertising; focuses on the development of a complete campaign for a client.

Prereq: JAMM 350 or JAMM 364 .

JAMM 468 Advanced Media Design

3 credits

Advanced principles and theories of visual communication across multiple channels; working in creative teams; presenting original concepts, copywriting, design and layout; emphasis on finished portfolios.

Prereq: JAMM 265.

JAMM 469 Advertising Competition Team

3 credits, max 6

This course provides students with an opportunity to participate in the annual National Student Advertising Competition (NSAC) sponsored by the American Advertising Federation, as well as other student competitions in advertising or integrated marketing communication.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and Junior/Senior standing and Permission .

JAMM 472 Photojournalism

1 credit

In a workshop environment, students learn techniques for creating documentary still images and gain experience shooting and editing digitally. Criticism, revision, troubleshooting and journalistic ethics are emphasized.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and Instructor Permission .

JAMM 473 Lighting for Digital Media Production

1 credit

In a workshop environment, students learn various lighting styles and techniques through hands-on experience, practical application and analysis. Students will create digital media images with natural and artificial light sources. Criticism, revision, problem solving and troubleshooting are emphasized.

Prereq: JAMM 275 and Instructor Permission .

JAMM 474 Video Editing

1 credit

Exploration of post-production processes, roles, aesthetics, and techniques. Students learn to effectively manipulate video and audio into creative and cohesive works.

Prereq: JAMM 275 and Instructor Permission .

JAMM 475 Advanced Digital Media Production

3 credits

Advanced production and content development for short narrative cinema. Emphasis on story development and pre-production planning. Projects will screen publicly at the annual student digital media festival.

Prereq: Either JAMM 275 and JAMM 374; or JAMM 275 and JAMM 375; or Permission .

JAMM 476 Advanced Digital Media Production II

3 credits

Continues advanced production and content development for short narrative cinema. Emphasis on schedule adherence and aesthetic realization. Projects will screen publicly at the annual student digital media festival.

Prereq: JAMM 475 .

JAMM 477 Documentary Film

3 credits

Cross-listed with ENGL 477.

An examination of the historical development of nonfiction film and television. Study of documentary style and form, a consideration of social issues raised by documentary and a survey of significant practitioners and theorists of documentary film and television. Recommended preparation: ENGL 230.

Prereq:ENGL 102 and sophomore standing .

JAMM 478 Broadcast/Cable/Web Programming

3 credits

Program development, theory, and scheduling, with emphasis on the regulations and strategies involved in radio, television, cable, and web programming at both the national and local levels.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 490 Global Media

3 credits

Gen Ed: International

Technologies and concepts of international media; models of international content flow; cross-cultural mass media.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

JAMM 491 Multimedia Storytelling Abroad

3 credits

Covers foundational media skills in photography, audio, video, social media, and content management, using an organized international travel experience as the inspiration for each student's media production.

Prereq: Permission .

JAMM 497 Practicum in Teaching

1-3 credits, max 3

Supervised experience in assisting in teaching of JAMM courses.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and Upper-class standing and Permission .

JAMM 498 (s) Internship

0-3 credits, max 6

Supervised experience in professional media outlet, non-profit organization, government agency, or educational institution. Graded P/F.

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better; and Junior Standing; and JAMM 225, JAMM 252, JAMM 265, or JAMM 275; or Permission of Instructor .

JAMM 499 (s) Directed Study

Credit arranged, max 6

Prereq: JAMM 100, JAMM 121, and JAMM 122 with grades of 'C' or better.

LANDSCAPE ARCHITECTURE (LARC)

LARC 151 Introduction to the Built Environment

3 credits

May not be taken for credit after ARCH 151. Introduction to the complexities and wonders of the built environment, and the role of the humanities in successful designs. From the regional landscapes to urban design and architecture, to the intimacy of interiors and dwellings, to place making and space making, student perspectives are broadened on how the built environment is shaped by and contributes to an evolving human story. The built environment is also examined as a product of a multitude of forces that include: place, climate, conservation, culture, economics, beliefs, and aspirations for well-being.

LARC 154 Landscape Architecture Representation and Media 1

3 credits

Drawing and graphic techniques traditional to the practice of landscape architecture and design thinking; emphasis on conceptual and analytical graphics, plan section/elevation, perspective illustration and color rendering; introduction to digital technology presentation tools. (Spring only)

LARC 200 (s) Seminar

Credit arranged.

LARC 203 (s) Workshop

Credit arranged.

LARC 204 (s) Special Topics

Credit arranged.

LARC 210 Landscape Architecture Representation and Media 2

3 credits

Exploration of the digital technology tools used by design professionals throughout the design process; emphasis on digital tools that assist with the conceptualization and implementation of site design with an introduction to related landscape architecture specific tools. Open to landscape architecture majors only; non-majors by permission as space permits. (Fall only)

Prereq: LARC 154 and major in Landscape Architecture; non-majors by permission as space permits .

LARC 251 Introduction to Principles of Site Design

3 credits

An overview of site analysis, design, and planning principles addressing the theoretical foundations, emerging cultural practices as well as the technical and functional standards for sustainable landscape architectural site design. Includes a lab section for discussion, critique and presentation of additional technical issues and site-related design projects; field trips and special sessions may be required. (Fall only)

LARC 254 Origins of Landscape Form

2 credits

An overview of the principles and theory of form generation demonstrating the relationship between world-view, historic epoch, science and technology and the creation of form relevant to landscape architecture and other design professions. Summer reading list provided. (Spring only)

Prereq: ART 121 .

LARC 288 Plant Materials & Design 1

3 credits

Joint-listed with LARC 488.

Plant identification and selection; the sustainable use of plant materials in relation to soils, topography, and climate; introduction to the principles in relation to planting design. Selected field trips at student expense. (Fall only)

LARC 289 Plant Materials & Design 2

3 credits

Joint-listed with LARC 489.

Continuation of plant material identification with emphasis on planting design at different scales of the landscape. Exploration of sustainable principles and practices of planting design. Two lec and 4 hrs of lab a wk; selected field trips at student expense. (Spring only)

Prereq: LARC 288 .

LARC 298 (s) Internship

Credit arranged.

LARC 299 (s) Directed Study

Credit arranged.

LARC 310 Landscape Architecture Representation and Media 3

3 credits

Joint-listed with LARC 510

Advanced digital technology tools used by landscape architects throughout the design process; emphasis on digital modeling tools that assist with the conceptualization and development of site design and design detail. Further exploration of digital media to assist with the communication and presentation of design process and concepts. Open to landscape architecture majors only. Additional project required for graduate credit. (Fall only)

Prereq: LARC 154, LARC 210, and major in Landscape Architecture; non-majors by permission as space permits .

LARC 340 Grading, Drainage, and Stormwater Management

4 credits

Joint-listed with LARC 440.

Site grading, drainage and stormwater management design with a focus on siting building elevations and grading open space, green infrastructure, roads, parking, walkways, paved public spaces, cut and fill and horizontal road layout. Sustainable storm water design, grading of swales, calculating runoff and the sizing conveyance and detention basins. Recommended Preparation: MATH 143.

Prereq: Landscape Architecture major, Landscape Architecture minor, or Permission .

LARC 341 Construction Materials, Detailing, and Documentation

4 credits

Joint-listed with LARC 441

Introduction to designing and detailing materials in the landscape. Examines the content and purpose of construction documents, the construction sequence, and properties of common landscape construction materials as they relate to aesthetics, the articulation of place, durability, and performance in outdoor environments. Focus on building a unified set of construction details and document set. Sustainable approaches, practices, and research reports support the work in detailing the materials and completion of the construction document package. Recommended Preparation: LARC 210, LARC 340.

Prereq: Landscape Architecture major, minor or permission .

LARC 353 Landscape Architecture Studio 1**3 credits**

Joint-listed with LARC 450.

Studies and applications in landscape architecture site design process at the small-site scale with an emphasis on critical thinking within the bioregional context; includes readings, lectures and field trips. Course offered in the first half of fall semester. Additional program required for graduate credit. Recommended Preparation: ART 100, ART 121, LARC 151, and LARC 154. (Fall only)

Prereq: ENGL 102, LARC 251, LARC 254, LARC 288, and LARC 289.

LARC 355 Landscape Architecture Studio 2**3 credits**

Joint-listed with LARC 452.

Continued application and exploration of design process with a focus on the significance of site inventory and analysis, design programming and the creation of a conceptual framework to guide the design process. Course offered in the second half of fall semester. (Fall only)

Prereq: LARC 251, LARC 254, LARC 288, and LARC 289

Coreq: LARC 353 or Permission .

LARC 358 Professional Office Practice in Landscape Architecture**2 credits**

Office organization, fees, contracts, bonding, bidding specifications, insurance, and relationships with subcontractors. Cooperative: open to WSU degree-seeking students. (Fall only)

LARC 363 Landscape Architecture Studio 3**3 credits**

Joint-listed with LARC 454.

Exploration of design principles, process, conceptualization, spatial understanding, and craft via narrative; within a cultural, social, and environmental context; and application to creative thinking and decision-making required of site-specific projects. Required field trips and attendance at outside events (lectures, symposiums, films). Course offered first half of semester. Additional project required for graduate credit. Recommended Preparation: LARC 154, LARC 210, and LARC 288 (Spring only)

Prereq: LARC 355 or Permission

Coreq: LARC 365 or Permission .

LARC 364 Summer Study Abroad Design Studio**6 credits**

Joint-listed with LARC 564.

Intermediate site scale planning and design with an emphasis on bioregional context, sustainable development and the cultural landscape as influencing site design factors. A summer abroad studio that may be substituted for LARC 353 and LARC 355, or LARC 363 and LARC 365. Recommended Preparation: ART 110 and ART 121. (Summer only)

Prereq: LARC 151, LARC 154, LARC 210 and LARC 288

Coreq: LARC 382 and LARC 390 .

LARC 365 Landscape Architecture Studio 4**3 credits**

Joint-listed with LARC 462.

Further integration and application of design process explored in LARC 363 via outreach project(s). Focus on sustainable design development. Required field trips and attendance at outside events (lectures, symposiums, films). Course offered second half of semester. Recommended Preparation: LARC 154, LARC 210, and LARC 288. (Spring only)

Prereq: LARC 355 or Permission

Coreq: LARC 363 or Permission .

LARC 380 Water Conservation Technologies**3 credits**

Sustainable irrigation best practices; principles of water conservation and water harvesting in landscape architecture site design with the production of a number of drawings and projects at different scales. Recommended Preparation: LARC 210. (Spring only)

LARC 382 Landscape, Language and Culture**2 credits**

Students study the Italian language, utilizing the regional, historic landscape of southern Piedmont and the markets, museums, and cultural events of Cremolino, Ovada and Aquis Termini as a resource for enhancing language skills. (Summer only)

Coreq: LARC 364 and LARC 390.

LARC 389 History of Landscape Architecture**3 credits**

An overview of the history of landscape design with a focus on pre-Egyptian civilization through Ancient Greece and Rome, the Middle Ages, the Renaissance, the influence of Asian culture, the birth of landscape architecture, modernism, and a contemporary focus of practice. Cooperative: open to WSU degree-seeking students. (Spring only)

LARC 390 Italian Hill Towns and Urban Centers**3 credits**

Gen Ed: International

Joint-listed with LARC 491

A summer lecture and field experience course exploring the historical foundations of community and urban pattern utilizing Italian hill towns and urban centers as a resource. Students study the organic and formal relationships between landscape and human settlement as well as the relationship between urban form and political and historical context. Recommended Preparation: ART 100, ART 111, and LARC 389. (Summer only)

Prereq: LARC 154

Coreq: LARC 364 and LARC 382 .

LARC 395 GIS Applications in Land Planning 1**3 credits**

A primer on geographic information systems (GIS) applied to landscape architecture and land planning with lab exercises exploring the site suitability analysis process at the landscape level. Three hrs of lec-lab a wk. (Fall only)

Prereq: LARC 210 or Permission .

LARC 400 (s) Seminar

Credit arranged.

LARC 403 (s) Workshop

Credit arranged.

LARC 404 (s) Special Topics

Credit arranged.

LARC 440 Grading, Drainage, and Stormwater Management**4 credits**

Joint-listed with LARC 340.

Site grading, drainage and stormwater management design with a focus on siting building elevations and grading open space, green infrastructure, roads, parking, walkways, paved public spaces, cut and fill and horizontal road layout. Sustainable storm water design, grading of swales, calculating runoff and the sizing conveyance and detention basins. Recommended Preparation: MATH 143.

Prereq: Landscape Architecture major, Landscape Architecture minor, or Permission .

LARC 441 Construction Materials, Detailing, and Documentation
4 credits

Joint-listed with LARC 341

Introduction to designing and detailing materials in the landscape. Examines the content and purpose of construction documents, the construction sequence, and properties of common landscape construction materials as they relate to aesthetics, the articulation of place, durability, and performance in outdoor environments. Focus on building a unified set of construction details and document set. Sustainable approaches, practices, and research reports support the work in detailing the materials and completion of the construction document package. Recommended Preparation: LARC 210, LARC 340.

Prereq: Landscape Architecture major, minor or permission .

LARC 450 Landscape Architecture Studio I
3 credits

Joint-listed with LARC 353.

Studies and applications in landscape architecture site design process at the small-site scale with an emphasis on critical thinking within the bioregional context; includes readings, lectures and field trips. Course offered in the first half of fall semester. Additional program required for graduate credit. Recommended Preparation: ART 100, ART 121, LARC 151, and LARC 154. (Fall only)

Prereq: ENGL 102, LARC 251, LARC 254, LARC 288, and LARC 289.

LARC 452 Landscape Architecture Studio 2
3 credits

Joint-listed with LARC 355.

Continued application and exploration of design process with a focus on the significance of site inventory and analysis, design programming and the creation of a conceptual framework to guide the design process. Course offered in the second half of fall semester. (Fall only)

Prereq: LARC 251, LARC 254, LARC 288, and LARC 289

Coreq: LARC 353 or Permission .

LARC 453 Landscape Architecture Studio 5
3 credits

Intermediate scale site planning through integrated studio engagement at the community and urban scale of landscape architecture with a focus on the integration of open space systems in community design. Opportunity to collaborate with students and faculty from allied professional programs. Course offered first half of fall semester. Recommended Preparation: LARC 288, LARC 289, and LARC 389. (Fall only)

Prereq: LARC 365 or Permission

Coreq: LARC 455 or Permission .

LARC 454 Landscape Architecture Studio 3
3 credits

Joint-listed with LARC 363.

Exploration of design principles, process, conceptualization, spatial understanding, and craft via narrative; within a cultural, social, and environmental context; and application to creative thinking and decision-making required of site-specific projects. Required field trips and attendance at outside events (lectures, symposiums, films). Course offered first half of semester. Additional project required for graduate credit. Recommended Preparation: LARC 154, LARC 210, and LARC 288 (Spring only)

Prereq: LARC 355 or Permission

Coreq: LARC 365 or Permission .

LARC 455 Landscape Architecture Studio 6
3 credits

Continued emphasis on community design with a focus on master planning and design development that explores different models of human settlement and patterns of cultural, environmental and social elements. Selected field trips at student expense. Course offered second half of fall semester. Additional project required for graduate credit. Recommended Preparation: LARC 288, LARC 289, and LARC 389. (Fall only)

Coreq: LARC 453 or Permission .

LARC 462 Landscape Architecture Studio 4
3 credits

Joint-listed with LARC 365.

Further integration and application of design process explored in LARC 363 via outreach project(s). Focus on sustainable design development. Required field trips and attendance at outside events (lectures, symposiums, films). Course offered second half of semester. Recommended Preparation: LARC 154, LARC 210, and LARC 288. (Spring only)

Prereq: LARC 355 or Permission

Coreq: LARC 363 or Permission.

LARC 463 Landscape Architecture Studio 7
3 credits

Intermediate scale sustainable land planning and design for the urban and rural environment with a focus on the integration of wetland ecology planning, storm water management and wildlife habitat. Course offered first half of spring semester. Selected field trips at student expense. Recommended Preparation: LARC 288 and LARC 289. (Spring only)

Prereq: LARC 395, LARC 455, or Permission

Coreq: LARC 465 or Permission .

LARC 465 Landscape Architecture Studio 8
3 credits

Intermediate scale land planning and design that emphasizes sustainable development with a focus on landscape restoration and regeneration, visual analysis of the landscape matrix using GIS digital technologies and the use of indigenous plant materials for restoration and rehabilitation. Required Field Trip at student expense. Course offered second half of spring semester. Additional project required for graduate credit. Recommended Preparation: LARC 288 and LARC 289. (Spring only)

Prereq or Coreq: LARC 463, or Permission .

LARC 480 The Resilient Landscape
3 credits

Gen Ed: Senior Experience

Cross-listed with FOR 490.

A capstone course addressing the concept of trade-offs in coupled social ecological technological systems, where landscapes and the communities they support are adaptive and evolving but the ideal is rarely attainable. This is a reading, critical thinking and discussion course with assessment based on class participation in a term project, problem solving, verbal and written communication, collegiality and collaboration (Spring only).

Prereq: ENGL 102 and Junior standing .

LARC 481 Urban Systems in Ecology
3 credits

This course is designed to introduce upper division students of Landscape Architecture and other related disciplines to the principles, theories and processes of urbanism with a focus on sustainability and the integration of natural systems both as metaphor and physical design process.

LARC 488 Plant Materials and Design 1**3 credits**

Joint-listed with LARC 288.

Plant identification and selection; the sustainable use of plant materials in relation to soils, topography, and climate; introduction to the principles in relation to planting design. Selected field trips at student expense. (Fall only)

LARC 489 Plant Materials and Design 2**3 credits**

Joint-listed with LARC 289.

Continuation of plant material identification with emphasis on planting design at different scales of the landscape. Exploration of sustainable principles and practices of planting design. Two lec and 4 hrs of lab a wk; selected field trips at student expense. (Spring only)

Prereq: LARC 288 .

LARC 491 Italian Hill Towns and Urban Centers**3 credits**

Gen Ed: International

Joint-listed with LARC 390

A summer lecture and field experience course exploring the historical foundations of community and urban pattern utilizing Italian hill towns and urban centers as a resource. Students study the organic and formal relationships between landscape and human settlement as well as the relationship between urban form and political and historical context.

Recommended Preparation: ART 100, ART 111, and LARC 389. (Summer only)

Prereq: LARC 154

Coreq: LARC 364 and LARC 382 .

LARC 495 GIS Applications in Land Planning 2**3 credits**

Advanced methods for regional-scale landscape planning using geographic information system (GIS) technology to apply ecological principles and land use analysis and planning. Required of Landscape Architecture majors with a land planning focus.

Prereq: LARC 395 or GEOG 385 or Permission .

LARC 497 Teaching Assistant, Undergraduate**3 credits, max 6**

Teaching assistant services performed by advanced undergraduate students with faculty supervision. By permission only.

LARC 498 (s) Internship

Credit arranged.

LARC 499 (s) Directed Study

Credit arranged.

LARC 500 Master's Research and Thesis

Credit arranged.

LARC 501 (s) Seminar

Credit arranged.

LARC 502 (s) Directed Study

Credit arranged.

LARC 503 (s) Workshop

Credit arranged.

LARC 504 (s) Special Topics

Credit arranged.

LARC 510 Landscape Architecture Representation and Media 3**3 credits**

Joint-listed with LARC 310

Advanced digital technology tools used by landscape architects throughout the design process; emphasis on digital modeling tools that assist with the conceptualization and development of site design and design detail. Further exploration of digital media to assist with the communication and presentation of design process and concepts. Open to landscape architecture majors only. Additional project required for graduate credit. (Fall only)

Prereq: LARC 154, LARC 210, and major in Landscape Architecture; non-majors by permission as space permits .

LARC 520 Regional and Community Design**3 credits**

This course examines contemporary issues of urban and regional planning and design through focus on a particular project, generally in partnership with a local community or agency. It complements the integrated fall studio (LARC 554), utilizing thematic readings, case studies, and GIS-based geodesign methods applied to urban and regional design and planning. Particular emphasis is placed on: theory and methods in community design and planning; analytical methods and modeling; case study method in design; and data-driven design.

Prereq: Admission to M. Arch., M.L.A. or M.S. Bioregional Planning program.

LARC 548 Community Design Studio for Non-majors**3 credits**

This studio is an introductory landscape planning and urban design studio for students in the Urban Design Certificate program that are not in the professional M. Arch. or MLA programs. Students will work with students in the LARC 554 studio on urban design problems of regional and district scales. This course emphasizes understanding and analyzing regional human and natural systems within the context of urban development and landscape change. Students do not need a background in design to participate in the studio. This course may meet with LARC 554.

Prereq: Graduate standing or permission .

LARC 549 Site Integration Studio**3 credits**

Graduate landscape architecture students work with graduate architecture students in the ARCH 553 Comprehensive building design studio to provide disciplinary expertise for site context, planning and design. The collaborative process emphasizes and mirrors interdisciplinary design processes that occur in a professional practice setting.

LARC 554 Landscape Architecture Graduate Studio 1**6 credits**

The professional landscape architecture comprehensive studio with options to study on campus or elsewhere in collaboration with students from allied professions. Attendance at outside events, lectures, symposiums, films may be required. (Fall only)

Prereq: Graduate standing, LARC 465; or Permission .

LARC 555 Master's Project Preparation**2 credits**

This course guides students through the process of identifying a specific project, and developing a proposal, scope and timeline for their Masters Project. Students will prepare a research report to support their Masters Project, utilizing literature review and case study research methods. Progress is reviewed in weekly peer presentations, giving students practice in developing professional level graphic and verbal presentations.

LARC 556 Landscape Architecture Graduate Studio 2**6 credits**

The professional landscape architecture comprehensive studio with options to study on campus or elsewhere in collaboration with students from allied professions. Attendance at outside events, lectures, symposiums, films may be required. (Spring only)

Prereq: Graduate standing, LARC 465, and LARC 554; or Permission .

LARC 558 Landscape Architecture Graduate Studio 3**6 credits**

Graduate final project with faculty advisor.

Prereq: Graduate standing and LARC 556; or Permission .

LARC 562 Landscape Architecture Graduate Studio 4**6 credits**

Graduate final project with faculty advisor.

Prereq: Graduate standing and LARC 558; or Permission .

LARC 564 Summer Study Abroad Design Studio**6 credits**

Joint-listed with LARC 364.

Intermediate site scale planning and design with an emphasis on bioregional context, sustainable development and the cultural landscape as influencing site design factors. A summer abroad studio that may be substituted for LARC 353 and LARC 355, or LARC 363 and LARC 365.

Recommended Preparation: ART 110 and ART 121. (Summer only)

Prereq: LARC 151, LARC 154, LARC 210 and LARC 288

Coreq: LARC 382 and LARC 390 .

LARC 597 Teaching Assistant, Graduate**3 credits, max 6**

Teaching assistant services performed by advanced graduate students with faculty supervision. By permission only.

LARC 598 (s) Internship

Credit arranged.

LARC 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Graduate standing and Permission.

LATIN AMERICAN STUDIES (LAS)

LAS 200 (s) Seminar
Credit arranged.

LAS 203 (s) Workshop
Credit arranged.

LAS 204 (s) Special Topics
Credit arranged.

LAS 299 (s) Directed Study
Credit arranged.

LAS 306 Culture and Institutions of Latin America
3 credits

Gen Ed: American Diversity, International

Cross-Listed with SPAN 306

Prereq: SPAN 302 or Permission.

LAS 391 Hispanic Film
3 credits

Gen Ed: Humanities, International

Cross-listed with FLEN 391

Open to all students. A maximum of 3 cr in FLEN 391 and FLEN 394 may be counted toward a major in Spanish. Genre, structure, and style of representative fiction and nonfiction films of Spain and Latin America.

LAS 394 Latin American Literature in Translation
3 credits

Gen Ed: Humanities, International

Cross-listed with FLEN 394

A maximum of 3 cr in LAS 391 and LAS 394 may be counted toward a major in Spanish. Major Spanish-language authors in English translation; knowledge of Spanish is not required. (Alt/yr)

LAS 400 (s) Seminar
Credit arranged.

LAS 403 (s) Workshop
Credit arranged.

LAS 404 (s) Special Topics
Credit arranged.

LAS 409 Modern Latin American Society
3 credits

Gen Ed: International

Cross-listed with SPAN 409

Analysis of contemporary issues in Latin American society such as gender, race, environment, and immigration from a variety of cultural perspectives (film, newspapers, literature, etc.).

Prereq: SPAN 306 or LAS 306.

LAS 422 Mexican Culture through Cinema
3 credits

Gen Ed: International

Cross-listed with SPAN 422

Examines how fictional representations of Mexico are driven by specific historical, political, economic, and cultural forces. Students will also reflect on the ways in which films and literature can inform our knowledge of race, gender and socio-economic relations and how these representations of Mexican culture through film have changed over time.

Prereq or Coreq: SPAN 306 or LAS 306.

LAS 424 Human Rights and Hispanic Cinema
3 credits

Cross-listed with SPAN 424

Examines how Hispanic film represents and grapples with the question of human rights.

Prereq or coreq: SPAN 305.

LAS 438 Modern Mexico and the Americas
3 credits

Gen Ed: International

Cross-listed with HIST 438.

Survey and analysis of political, economic, social, and cultural aspects from independence to present; emphasis on Iberian and Amerindian legacies, economic development, relations with U.S., and social revolution of 1910-1920.

LAS 439 Modern Latin America
3 credits

Gen Ed: International

Cross-listed with HIST 439.

Political, economic, social, and cultural development; search for stability; growth of nationalism.

LAS 440 Social Revolution in Latin America
3 credits

Gen Ed: International

Cross-listed with HIST 440.

Analysis and comparison of 20th-century social revolution in selected Latin American countries: Cuba and two others; emphasis on origins of movements for social change, economic development issues, impact of the revolutions, and relations between new governments and the U.S.

LAS 441 Slavery and Freedom in the Americas
3 credits

Gen Ed: International

Cross-listed with HIST 441.

Analysis of the way in which African slavery became the predominant labor force in the Americas from 16th century to 19th century. Emphasis on slave resistance and the international abolitionist movement. (1760s to 1888).

LAS 447 International Development Economics
3 credits

Gen Ed: International

Same as AGE 447 and ECON 447. Characteristics of development; historical perspective; macroeconomic theories and policies: models of growth, poverty, inequality, trade, aid and debt; microeconomic theories and policy: health, nutrition and education, agriculture, rural markets for land, labor and credit, and corruption

Prereq: ECON 201 and ECON 202, or ECON 272, or Permission.

LAS 462 Human Issues in International Development
3 credits

Gen Ed: Social Science, International

Cross-listed with ANTH 462

Course content includes the historical and political contexts that shape development, development theories and approaches, along with the global challenges of poverty, social inequalities, and environment. Culture as an important consideration in development is emphasized. Additional projects/assignments reqd for grad cr. (Alt/yr)

LAS 499 (s) Directed Study
Credit arranged.

LAW (LAW)

LAW 404 (s) Special Topics **Credit arranged.**

LAW 805 Civil Procedure & Intro to Law **2 credits**

Overview of U.S. legal systems, providing basics on civil litigation and legal principles. Covers litigation topics including pleadings, pretrial management, discovery, summary judgment, trial, post-trial motions, judgment, personal jurisdiction, subject matter jurisdiction and related topics with a focus on the Federal Rules of Civil Procedure.

LAW 806 Civil Procedure II **3 credits**

Continuation of LAW 805 on the process and principles of civil litigation in the U.S.

Prereq: LAW 805 .

LAW 807 Property **4 credits**

Future interests, landlord and tenant, bailment, easements, covenants respecting the use and enjoyment of land, rights incident to land ownership and fixtures, adverse possession, gifts of personal property, conveyance of land, recording acts, land title assurance, and public control of land use.

LAW 809 Torts **4 credits**

The common law providing private redress for injuries primarily to person or property. The course examines the three basic theories of tort liability: intent, negligence, and strict liability.

LAW 812 Criminal Law **3 credits**

The sources and purposes of the criminal law; the meaning of criminal responsibility, the elements of crimes, and the administration of criminal justice.

LAW 813 Contracts **2 credits**

Basic elements of private, consensual agreements enforced by law under common law and UCC Article 2: formation, principles of bargain or reliance, methods to police the bargain, interpretation, performance/breach and remedies for breach, defenses to liability, and the rights and liabilities of third parties upon assignment and delegation.

LAW 814 Contracts II **3 credits**

Continuation of LAW 813 on the basic elements of private, consensual agreements enforced by law under common law and UCC Article 2.

Prereq: LAW 813.

LAW 815 Legal Writing and Analysis **0 or 5 credits, max 5)**

Year-long course. Course focusing on written legal analysis in the context of writing predictive and persuasive legal memoranda, along with an introduction to oral advocacy.

LAW 816 Constitutional Law I **3 credits**

An examination of the institution of judicial review and of the constitutional divisions of government power in the United States; the principles of separation of powers and federalism; and the constitutional protection of certain individual rights and liberties, particularly under the 14th Amendment.

LAW 821 Legal Research **1 credit**

Basic elements of legal research in print and electronic resources, including generating search terms; researching secondary sources, cases, and statutes; and using citators for case research.

LAW 850 First Amendment Seminar **3 credits**

Amendment's Speech, Press, Association, Establishment, and Free Exercise Clauses, and the interrelatedness between free expression and religious freedoms. The course investigates analytical problems in First Amendment jurisprudence including philosophical foundations of free expression, free association, free exercise of religion, and the prohibition against government establishment of religion.

Prereq: LAW 816 and LAW 905.

LAW 851 Advanced Torts **2-3 credits**

Selected topics in tort law, including products liability, traditional strict liability, defamation, and business torts. Two-credit course covers fewer areas of study.

Prereq: LAW 809 .

LAW 852 Natural Resource and Environmental Law Field Course **2 credits**

Summer field course exploring the implementation of natural resource and environmental law on the ground in Idaho, focusing on the effects of state and federal resource management and protection statutes on public and private landscapes. Accelerated course.

Prereq: Permission .

LAW 853 Education Law **3 credits**

Issues pertaining to the history and structure of U.S. public education including religious and private school alternatives, school funding, curriculum and governance, student supervision, equal educational opportunity issues including race and disability, employment issues including collective bargaining, and students' and teachers' rights and responsibilities including free speech and due process.

LAW 854 Corporate Taxation **2-3 credits**

Taxation of all aspects of a corporation's life-cycle, including formation, financing, capital structure, distributions, redemptions, reorganizations, and liquidation. The course covers both tax provisions applying to all corporations and those provisions applying specifically to the flow-through "S" corporation. Two-credit course covers fewer areas of study. Recommended Preparation: LAW 919.

Prereq: LAW 930 .

LAW 855 Water Law Practicum **2-3 credits**

Skills course where students take part in various stages of a water law dispute including settlement negotiations, state supreme court briefing, and oral argument. In-depth treatment of cutting edge issues in water law , with an emphasis on the intricate interplay between law, history and science. Two-credit course covers fewer areas of study.

Prereq: LAW 942

Coreq: LAW 971 .

LAW 856 Legal Writing and Research for LL.M. Students**3 credits**

Basic principles of American legal writing for foreign-trained lawyers. Topics covered include the American court system, common law, case briefing, legal analysis, and fundamentals of legal research. Students complete multiple writing and research assignments of increasing complexity geared to exercise their analytical and problem solving abilities.

Prereq: Registered as L.L.M. student .

LAW 857 Introduction to American Law and Legal Education**3 credits**

Examination of the American legal system for foreign-trained lawyers. Topics, related to both statutory and common law, include fundamental legal concepts, key doctrinal areas of law, the American legal education system, how laws are made and function, and how law evolves over time.

Prereq: Registered as L.L.M. student .

LAW 858 Advanced Criminal Procedure: Adjudications**3 credits**

A study of the federal constitutional constraints on criminal adjudications, with a focus on the right to counsel, pretrial release, the grand jury, prosecutorial discretion, discovery obligations, guilty pleas and plea bargaining, jury trial rights, double jeopardy, and sentencing.

Prereq or Coreq: LAW 953 .

LAW 901 (s) Seminar**Credit arranged**

See the *Class Schedule* for specific topics.

LAW 903 Introduction to Intellectual Property**3 credits**

Introduction to the four substantive areas of intellectual property: trade secrets, trademarks, copyrights, and patents, with an emphasis on the tension in each body of law between private rights and the public's interest.

LAW 904 Federal Courts**3 credits**

The constitutional structure and the practical role of the federal court system, with great emphasis on the working relationship between federal and state courts.

LAW 905 Constitutional Law II**3 credits**

Study of individual rights and liberties protected by the Constitution.

LAW 906 Natural Resource Law Seminar**3 credits**

Selected topics in natural resources law and policy. Topics vary with the interest of the instructor and students. (Spring, alt/yr)

LAW 907 Administrative Law**3 credits**

An examination of the constitutional limits on administrative agencies, the procedural requirements for agency decision making, and judicial review of agency actions. The focus is on federal administrative law.

LAW 908 Workplace Law**4 credits**

Survey course covering state common law exceptions to the employment at will doctrine, federal anti-discrimination statutes, federal statutory protection of collective activity, and other state and federal law governing the employment relationship; exploration of the processes of hiring, firing, and setting the terms and conditions of employment.

LAW 910 Antitrust**3 credits**

Study of the application of the antitrust law to cooperation among competitors, agreements between suppliers and customers regarding the resale of products, exclusive dealing arrangements, monopolization, and mergers.

LAW 911 Suretyship and Guaranty**2 credits**

Overview of principles of suretyship and guaranty including rights of the obligee, guarantor, and principal obligor. Study of unique applications of suretyship doctrine including counseling and drafting issues to this tripartite arrangement.

Prereq: LAW 925 or Permission.

LAW 912 Civil Mediation**2 credits**

Credit may not be earned in both LAW 912 and LAW 913. A study of conflict resolution, negotiation, and mediation theory, process, and skills. Exploration of each stage of the mediation process and attendant strategies and skills. Offered through the Northwest Institute for Dispute Resolution. Accelerated course. Graded P/F.

Prereq: Permission .

LAW 913 Family Mediation**2 credits**

Credit may not be earned in both LAW 912 and LAW 913. A skills-based study of family mediation designed for those wishing to mediate or represent clients in the mediation process. Topics covered include structuring the mediation process, guidelines for division of assets, construction of parenting plans, and ethical concerns. Offered through the Northwest Institute for Dispute Resolution. Accelerated course. Graded P/F.

Prereq: Permission .

LAW 914 (s) Dispute Resolution**1 credit, max 4**

Specialty course in dispute resolution offered through the Northwest Institute for Dispute Resolution. Course topic and content will be announced in advance. Accelerated course. Graded P/F.

Prereq: Permission .

LAW 916 Public International Law**3 credits**

Survey of major areas of the law of nations and international organizations.

LAW 917 Negotiation and Appropriate Dispute Resolution**3 credits**

Simulation and seminar style instruction in negotiation techniques, mediation and arbitration, focusing on skill development and legal and ethical issues frequently faced by lawyers.

LAW 918 Internet Law**2-3 credits**

Introduction to the legal and policy challenges presented by commerce and communication on the Internet. Topics include Internet governance, sovereignty and jurisdiction, free speech, privacy and surveillance, and the protection of intellectual property. Two-credit course covers fewer areas of study.

LAW 919 Business Associations**4 credits**

Agency, partnerships, corporations, and other types of business organizations; limitations on powers and authority of partners, corporate officers, and directors.

LAW 920 Securities Regulation

3 credits

The law of corporate finance under the Securities Act of 1933 and the Securities Exchange Act of 1934.

LAW 921 Accounting for Lawyers

2 credits

Examination of basic accounting principles designed as background for the tax and business law courses for those students without accounting and business experience and intended to make the lawyer conversant with accountants.

LAW 922 Trademarks and Trade Dress

2 credits

Trademarks and trade dress include words, symbols, colors, pictures, packaging and product design by which businesses identify themselves and their products and services. This course examines the validity of rights claimed in trademarks and trade dress and what conduct infringes these rights.

LAW 923 Negotiable Instruments, Bank Collections and Deposits, and Other Payment Systems

2-3 credits

The study of paper-based and other methods of payment under state and federal law with primary focus on the law of negotiable instruments under Article 3 of the Uniform Commercial Code, Bank Deposits and Collections, and Electronic Funds Transfers under Articles 4 and 4A of the UCC and Federal Reserve Board Regulations J and CC and related federal statutes.

LAW 924 Sales

3 credits

The study of the law relating to the sale of goods under Article 2 of the Uniform Commercial Code and related statutes and treaties, including introduction to the structure, purposes, and policies of the Uniform Commercial Code.

LAW 925 Property Security

3 credits

Overview of the law relating to secured credit including the mechanisms for creating enforceable security and mortgage interests in real and personal property.

LAW 926 Bankruptcy

3 credits

Federal bankruptcy law, the collective forum for resolving the rights of financially distressed debtors and their creditors, emphasizing basic principles applicable to all filings, liquidation, or rehabilitation of consumer debtors, and the pervasive effect of bankruptcy on everything from family law to business transactions and relationships.

LAW 927 Partnership and LLC Taxation

2-3 credits

Examination of the income tax treatment of partners and partnerships, including Limited Liability Companies and their members, covering the entity's life cycle through formation, operation, and liquidation. Topics include the income tax consequences of the sale of a partnership interest, as well as the death or retirement of a partner. Two-credit course covers fewer areas of study.

Prereq: LAW 930 .

LAW 928 Tribal Nation Economics and Law

3 credits

Cross-listed with AIST 478

Survey of economic development strategies by various Tribal Nations, including an overview of federal incentive programs and disincentives for the growth of strong tribal economies. Tribal legal codes, commercial projects, and federal Indian law parameters will be discussed. Topics will include: the tribal government-owned corporate model, gaming enterprises, economic diversification, the federal 8(a) program, limitations on tribal tax-exempt bond offerings, and value-added on-reservation products. LAW 928 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 478 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course. (Spring, alt/yrs)

LAW 930 Taxation

3-4 credits

Income and deductions, accounting methods, transactions resulting in capital gain, deferral of tax, and choice of the taxable person; introduction to tax procedure and to income taxation of trusts, estates, and partnerships.

LAW 931 Patents

2 credits

This course will examine the law and policy underlying the U.S. patent system, with a focus on the legal means for obtaining, challenging, and enforcing patent rights. A technical background is not required, but a willingness to engage with some technical aspects of patentable subject matter is.

LAW 932 Estate Planning

3 credits

Inter vivos, testate, and intestate disposition of property with emphasis upon estate and gift tax impact and consideration of the law of future interests.

Prereq or Coreq: LAW 941 .

LAW 933 State Debtor-Creditor Law

2 credits

Study of the legal mechanisms for enforcing judgments, and the rights and protections of debtors and creditors as a matter of state law.

LAW 934 Land-Use Law and Planning

3 credits

This course addresses the regulation of private lands by state and local governments; will investigate social and cultural agreements about land as influenced by and institutionalized in Constitutional protections, state statutory regimes and local programs; and will develop a working knowledge of the general legal principles, and policy and planning issues relevant to private land management. Enrollment limited to 25 students.

LAW 937 Wildlife Law and Policy

3 credits

An examination of state and federal law applicable to wildlife. (Spring, alt/yrs)

LAW 938 International Environmental and Water Law

3 credits

An examination of international environmental law and the law of international water courses. (Spring only)

LAW 939 Law, Science, and the Environment**2 credits**

The use of science in the courtroom and in agency decision making, with emphasis on natural resources and environmental law. This course will explore both the process and substantive areas of selected areas of science and the law. Recommended Preparation: LAW 907. (Spring, alt/ yrs)

LAW 940 International Human Rights**3 credits**

An overview of international rights and humanitarian law and advocacy, including a focus on particular topics of timely interest determined by the instructor and students.

LAW 941 Wills, Estates, and Trusts**3 credits**

Intestate succession, wills, and administration of estates in probate.

LAW 942 Water Law I**1-2 credits**

The basics of water allocation law with a focus on western water law. Study of the development of the common law of water allocation and of comprehensive statutory systems including the implementation of water law through administrative agencies and water rights adjudication. One-credit course covers fewer areas of study.

LAW 944 State and Local Government Law**3 credits**

Review of the source, scope, and limits of local government power, with reference to Idaho and other state examples. The course will consider the relationship of local governments to the state and federal government, as well as to neighboring communities and individuals.

LAW 945 Community Property**2 credits**

Special problems that arise in connection with the community property system in the western states.

LAW 946 Water and Energy Policy Seminar**2 credits**

An examination of advanced topics in water and energy law. Recommended Preparation: LAW 942. (Spring, alt/yrs)

LAW 947 Environmental Law**3 credits**

Environmental planning and protection, regulation of air and water pollution, waste disposal, use of pesticides and other toxic chemicals, and remedies for environmental injury. Cooperative: open to WSU degree-seeking students.

LAW 948 Public Lands and Resources Law**3 credits**

This course examines the natural resource allocation and management systems applicable to the public lands, including the Federal Land Policy and Management Act, National Forest Management Act, Mineral Leasing Act, Wilderness Act, and other relevant federal statutes.

LAW 949 Native American Law**3 credits**

Cross-listed with AIST 420

Study of Tribal Sovereignty and interaction with the U.S. government at various levels with an emphasis on treaty rights, jurisdictional issues, the trust relationship, protection of lands, the eras of U.S. Indian policy, and the continued assertion of tribal rights and interests. LAW 949 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 420 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course.

LAW 950 Evidence**3 credits**

The law governing the presentation of proof in Idaho and federal courts.

LAW 951 Environmental Policy**3 credits**

An examination of advanced topics in environmental law and policy.

Recommended Preparation: LAW 947. Limited enrollment. (Spring, alt/ yrs)

LAW 952 Remedies**3 credits**

Consideration of legal and equitable relief available to aggrieved parties in contractual or other relationships.

LAW 953 Criminal Procedure: Investigations**3 credits**

A study of the federal constitutional constraints on criminal investigations, with a focus on searches and seizures, arrests, interrogations, identification procedures, and the right to counsel.

LAW 954 Trial Skills**3 credits**

Credit cannot be earned in both LAW 954 and LAW 958. Instruction in the skills fundamental to litigation and the techniques of persuasive witness examination and argument, combining classroom instruction and individually critiqued student exercises. Limited enrollment.

Prereq: LAW 950 and Permission .

LAW 955 Appellate Advocacy Program**2 credits**

A brief-writing and oral advocacy course run as the McNichols Moot Court competition. Students attend class once a week for the first six weeks of the semester, write a two-issue appellate brief, and make a minimum of two oral arguments. Accelerated course. Graded P/NP; credits earned are not class hours.

Prereq: LAW 815 .

LAW 956 Moot Court**1 or 2 credits**

Preparation of appellate briefs and argument of cases orally in regional or national competition; grading and evaluating briefs of students participating in second-year appellate advocacy program (with approval of the faculty advisor of the second-year appellate advocacy program); the faculty supervisor of each competition is the final arbiter of the number of credits awarded within the guidelines. Graded P/F; credits earned are not class hours. Only those students who will complete all the activities for their appellate moot court program (including attending the competition) by the end of fall semester may register for credits in the fall semester; all other students eligible for credits under this course register in the spring. Graded P/F; credits earned are not class hours. Limited enrollment.

LAW 957 Mock Trial

2 credits

Participation as an attorney on a mock trial team in regional or national competition; the faculty supervisor of each competition is the final arbiter of the credits awarded within the guidelines.

Prereq: LAW 954 or LAW 958 or permission.

LAW 958 Trial Advocacy

2 credits

Credit cannot be earned in both LAW 954 and LAW 958. An intensive seven-day course offered the week before classes regularly begin in the fall. The course follows the National Institute of Trial Advocacy Training format of faculty demonstration, discussion, student performance, and critique, culminating in a mock jury trial on the last day of the training. Limited enrollment. Graded P/F.

Prereq: LAW 950 and Permission; Limited to third-year law students unless waived by the Director of Clinical Programs.

LAW 959 Critical Legal Studies

2-3 credits, max 3

Critical Studies focuses on deconstructing traditional hierarchies within the law and legal institutions and looks to foster change by critically analyzing the law and these institutions. This course will cover one or more of the following subjects: Feminism, Critical Race Studies, Race-Feminism, Gender/Gender Identity/Queer Studies. 3 credit course covers more areas of study.

LAW 960 Conflict of Laws

2-3 credits

A study of the principles for deciding which law applies to incidents and transactions crossing state lines and of the constitutional limitations on a state's rights to impose its own law in suits arising out of such incidents and transactions; enforcement of foreign judgments, the jurisdiction of courts, and the special jurisdictional problems in domestic relations cases.

LAW 961 Jurisprudence

2 credits

Consideration of the various views and philosophies of law as expressed in classical and contemporary writings; methods of legal analysis, the relationship between law and justice, between law and power, and between law and truth.

LAW 962 Professional Responsibility

3 credits

Status and function of the legal profession, responsibility to clients, the profession, the public, and the administration of justice. This course must be taken no later than the summer following the second year of law studies.

LAW 963 Family Law

3 credits

Legal problems of the family, including marriage, annulment, adoption, and divorce.

LAW 964 Children and the Law

2-3 credits

Examines the legal status of children, including topics such as the parent-child relationship, guardianship, representation of children, neglect, and adoption. Two-credit course covers fewer areas of study.

LAW 965 Elder Law

2-3 credits

An overview of the legal regimes and practical issues that face lawyers representing older clients. Topics include Social Security, pensions, annuities, Medicare, Medicaid, health care decision-making, property management, special needs trusts, guardianships, conservatorships, elder abuse, elder housing, end of life issues, and special ethical issues for attorneys representing elder persons. Two-credit course covers fewer areas of study.

LAW 966 Legal Drafting

2 credits

This course will familiarize students with transactional and litigation documents, writing for different audiences, and the effective and appropriate use of forms. Students will focus on strategic use of language, avoiding ambiguity, and writing with clarity. General topics covered will include client letters, contracts, and a complaint and answer. Limited enrollment.

LAW 967 Advanced Legal Writing

2 credits

This course will focus on advanced writing concepts, including advanced study of standards of review, development of policy arguments and legislative intent analysis, writing jury instructions, drafting statutes, and drafting judicial opinions; additionally, there will be a heavy emphasis on style. As such, it is assumed that students have mastered the skills learned in Legal Research & Writing. This course does not satisfy the upper division writing requirement. Limited enrollment.

Prereq: LAW 815 with a minimum grade of 'C' or Permission of instructor .

LAW 968 Domestic Violence and the Law

2-3 credits

This seminar will cover the legal system's response to the problem of domestic violence and to a lesser extent, stalking and sexual assault. Students will explore both civil and criminal avenues of redress. Existing shortcomings of those responses, and proposed reforms, will be examined. The course will address how domestic violence is treated in a variety of legal contexts, including in relation to child abuse, custody, visitation, mediation, parent education at divorce, relocation, child abduction, and torts. Students will partner with members of the Domestic Violence and Sexual Assault Clinic to assist clinic students on actual domestic violence and sexual assault cases. Students are expected to complete sixty hours of clinical service, a paper and a class presentation. Students enrolled in the Domestic Violence and Sexual Assault clinic may take the Domestic Violence & the Law seminar for 2 credit hours and will not be required to complete additional hours of clinical service.

LAW 969 Water Law II

2 credits

In-depth study of topics necessary for the modern practice of water law by approaching water law from the watershed perspective. This perspective also tends to reflect the perspective of water users and other interests who seek solutions to problems that take into account the interaction of the fragmented system of water regulation in the United States

Prereq: LAW 942 .

LAW 970 Advanced Legal Research

2 credits

An advanced course covering all forms of materials, in all formats (print, microformat, electronic), available for conducting legal research.

Prereq: First year legal, research and writing .

LAW 971 Lawyering Process Seminar**2 credits**

Client representation skills, with an emphasis on pre-trial civil litigation; classroom and simulation instruction in interviewing, counseling and negotiating skills, pleading, discovery, and motion practice. Limited enrollment.

LAW 973 Non-Classroom Credit Public Service Externship**1-10 credits, max 10**

Students perform legal work in selected public service positions under the supervision of experienced judges and lawyers. Graded P/F. Credits earned are not classroom credits. Note: a maximum of 5 credits may be taken during the summer semester.

Prereq: Permission .

LAW 974 Legal Aid Clinic**1-6 credits, max 9**

From time to time, specific legal aid clinics may be offered. The content of such clinics is announced in advance of the semester in which they are offered.

Prereq: LAW 962; and permission; and qualification for limited license as legal intern in Idaho .

LAW 975 Classroom Credit Public Service Externship**1-5 credits, max 10**

Students perform legal work in selected public service positions under the supervision of experienced judges and lawyers. Students must attend periodic classes. Graded P/F.

Prereq: Permission .

LAW 976 Semester in Practice**1-12 credits, max 12**

Students attend periodic classes and perform legal work in the public or private sector under the supervision of a faculty supervisor. Open only to students in their last year of law school. Graded P/F.

Prereq: Permission .

LAW 977 Clinical Lab**1 credit, max 4**

One-credit lab courses providing clinical experience for interested upper-division students. The labs, designed to allow students to obtain practical experience in conjunction with upper-division substantive courses, labs are supervised by experienced practitioners. Graded P/F.

Prereq: Permission.

LAW 978 Entrepreneurship Law Clinic**1-6 credits, max 9**

Real-life experience handling transactional legal problems and assisting businesses and not-for-profits.

Prereq: LAW 919 and LAW 962; and LAW 966, LAW 967, or LAW 971; and permission; and qualification for limited license as legal intern in Idaho .

LAW 979 Native American Natural Resource Law**3 credits**

Cross-listed with AIST 421

Study of the natural resources over which Tribal Nations assert stewardship or seek to influence others regarding protection of resources including sacred sites, land use and environmental protection, natural resource development, taxation, water rights, rights associated with hunting, fishing and gathering, and international approaches to indigenous lands and resources. Recommended Preparation: LAW 949. LAW 979 is a law class and will be graded based on the norms and expectations to which law students are normally held. AIST 421 is an undergraduate course that will be assessed on a P/F basis according to the general norms and expectations for an upper division undergraduate course.

LAW 980 Copyrights**2-3 credits**

A survey of U.S. domestic copyright law, focusing on current provisions of the Copyright Act of 1976, as amended, and leading cases interpreting those provisions. Particular attention is paid to policy challenges created by the Internet and by the increasing internationalization of copyright law. Two-credit course covers fewer areas of study.

LAW 981 Critical Legal Studies Journal**1-4 credits, max 4**

Participation in the student edited Crit Law Journal. Credit awarded upon approval of the editor-in-chief and faculty advisor. Graded pass-fail; credits earned are not classroom credit hours.

Prereq: Acceptance to the Crit Journal .

LAW 982 Law Review**1-4 credits, max 4**

Graded P/F; credits earned are not class hours. The awarding of credit is subject to approval by the editor-in-chief and faculty advisor.

LAW 983 Directed Study**1-2 credits, max 4**

Individual research on a significant legal problem and the writing of a paper thereon that must be approved by the faculty member under whose direction the work is done. Graded P/F; credits earned are not class hours.

Prereq: Permission.

LAW 984 Real Estate Transactions**2 credits**

Aspects of the standard commercial real estate purchase transaction, including real estate contracts, title issues, construction, default, financing, leasing, and structuring real estate development transactions. Two-credit course covers fewer areas of study.

LAW 985 Immigration Law and Policy**3 credits**

The rights and limitations relating to various types of immigration status, different kinds of visas, admission and removal procedures, grounds of inadmissibility and deportation, and defenses.

LAW 986 Judicial Clerkship Seminar**1-2 credits**

Seminar focusing on advanced writing concepts within the judicial context, with instruction on common types of legal writing practiced by judicial clerks.

Prereq: Permission .

LAW 987 Law Practice Management**1 credit**

Topics in the business of law practice, including accepting and billing clients, managing case files and client trust accounts, making business arrangements, and managing human, physical, and financial resources. Graded Pass/No Pass. Two-credit course covers more areas of study.

LAW 988 Writing the Environment**1 credit**

Intensive writing course limited to 3L students completing the Natural Resources and Environmental Law Emphasis. Students will develop critical legal writing and analytical skills through public presentations and defenses of their own written work, and the review and editing of their colleagues' works. Permission required. Graded Pass/No Pass. (Fall only)

LAW 989 Mass Media Law

2 credits

Seminar addressing legal issues in new technologies and the rapidly changing mass-media environment. Topics are generally organized around a single theme, such as First Amendment law and theory, privacy or Freedom of Information Act issues, commercial speech regulation, and media and the electoral process.

LAW 991 Skill Practicum

Credit arranged

From time to time, specific skills courses are arranged and made available for a semester. The exact content of each skills course is announced in advance of the semester in which it is offered.

LAW 992 White Collar Crime

2-3 credits

Federal law prohibiting financial, non-violent crime, including fraud, racketeering, and bribery. The course examines principles of statutory interpretation, grand jury investigations, parallel civil proceedings, corporate and individual responsibility, sentencing guidelines, and federal-state coordination.

LAW 993 Appellate Clinic

1-6 credits, max 9

Representation of clients in civil and criminal appeals before the Ninth Circuit Court of Appeals and Idaho appellate courts. Recommended Preparation: Law 953.

Prereq: LAW 950, LAW 962, and LAW 971; and permission; and qualification for limited license as legal intern in Idaho

Coreq: LAW 958 .

LAW 994 Economic Development Clinic

1-6 credits, max 9

Legal aid clinic in which legal interns assist Idaho counties, cities, tribes, and non-governmental agencies with economic development issues and legal problems. Recommended Preparation: LAW 934.

Prereq: LAW 962; and permission; and qualification for limited license as legal intern in Idaho .

LAW 995 Main Street Law Clinic

1-6 credits, max 9

Representing clients in proceedings primarily involving family law issues including divorce, custody, termination of parental rights, adoption, and contempt proceedings. Clinic students also advocate for victims in domestic violence protection order hearings, defend clients in criminal misdemeanor cases, and represent clients in consumer protection matters, landlord-tenant disputes, and probate actions.

Prereq: LAW 950, LAW 962, and LAW 971; and permission; and qualification for limited license as legal intern in Idaho

Coreq: LAW 958.

LAW 996 Immigration Law Clinic

1-6 credits, max 9

Representation of immigrant clients from a variety of countries under the supervision of clinical faculty. Cases may include asylum, permanent residence, citizenship, and relief from deportation. Students may represent clients in administrative, trial, and appellate courts.

Prereq: LAW 950, LAW 962, LAW 971, and LAW 985 or permission; and permission; and qualification for limited license as legal intern in Idaho

Coreq: LAW 958 .

LAW 997 Mediation Clinic

1-6 credits, max 9

Legal aid clinic in which legal interns provide mediation services and hone their skills in communication, facilitation, negotiation, organization, and ethics.

Prereq: LAW 912 or LAW 913; and LAW 950, LAW 962, and LAW 971; and permission; and qualification for limited license as legal intern in Idaho .

LAW 998 Tax Clinic

2-6 credits, max 9

Representation of low-income taxpayers in disputes with the IRS at the audit, appeals, collection, and Tax Court levels. Students are exposed to the Boise tax community through frequent practitioner guest lecturers, an IRS field trip, and by attending Tax Court calendars, and they are required to complete a community outreach project. Recommended Preparation: LAW 927, LAW 950, and LAW 958.

Prereq: LAW 930, LAW 962, and LAW 971; and permission; and qualification for limited license as legal intern in Idaho .

LAW 999 (s) Study Abroad/Off Campus

Credit arranged

Graded P/F.

Prereq: Permission of Associate Dean for Students and Administration, College of Law/

LIBRARY SCIENCE (LIBS)

LIBS 404 (s) Special Topics

Credit arranged.

LIBS 410 Libraries and their Collection: Materials Selection

3 credits

Joint-listed with LIBS 510

Introduction to library science theory and practice with emphasis on material selection and evaluation. Research project and paper required for graduate credit.

LIBS 413 Computer Applications in Libraries

3 credits

Theory and practice of current models of library automation, focusing on choosing, evaluating, and implementing technological tools and services for school and public libraries.

Prereq: LIBS 410 or LIBS 510

Coreq: LIBS 414 and LIBS 418.

LIBS 414 Reference and Information Services

3 credits

Joint-listed with LIBS 514

Introduction to theory and practice of reference and information services, with emphasis on material selection, evaluation, and evaluation for school and public libraries as well as professional standards and rubrics. Research project and paper required for graduate credit.

Prereq: LIBS 410

Coreq: LIBS 413 and LIBS 418.

LIBS 415 Technical Services for Small Libraries

LibS C415 Technical Services for Small Libraries (1 cr)

Examine library technical services of the small or one-person public or school library. Explore techniques for finding sources for material, using cataloging systems to provide access, and processing materials to get them ready for use. Print, multimedia, and electronic formats, automatic systems and networking will be discussed. Recommended Preparation: LibS 425.

LIBS 418 Classification and Cataloging

3 credits

Joint-listed with LIBS 518

Organization of library materials, principles of cataloging, subject analysis, classification, bibliographic methods, Dewey decimal system. Research project and paper required for graduate credit.

Prereq: LIBS 410

Coreq: LIBS 413 and LIBS 414.

LIBS 425 School Library Administration, Leadership, and Management

3 credits

Joint-listed with LIBS 525

This course explores the organization of school libraries with an emphasis on effective management and leadership. Research project and paper required for graduate credit.

Prereq or Coreq: LIBS 433.

LIBS 427 Library and Media Center Practicum

3 credits

Practice experience as a teacher-librarian under professional supervision for the purpose of obtaining an endorsement. Ninety hours of supervised experience per credit.

Prereq: 15 credits of Library Science courses; and Departmental and Site Permission

Prereq or Coreq: LIBS 425 .

LIBS 430 Children's Literature for Teacher Librarian

3 credits

This course will develop students' basic knowledge and understanding of the field of children's literature, particularly as it pertains to teacher librarians, with a focus on children ages 2-12. This course will emphasize skills, tools, and insights necessary for effective professional librarianship in the area of services to children.

Prereq: LIBS 413 and LIBS 414 and LIBS 418; or Permission

Coreq: LIBS 433 .

LIBS 431 Adolescent Literature for Teacher Librarians

3 credits

This course will develop students' knowledge of adolescent literature as it pertains to Teacher Librarians, with a focus on youth grades 6-12.

It emphasizes the skills and discernment necessary by the Teacher Librarian to effectively serve adolescents. Evaluation tools for selecting literature and electronic resources will be covered, and issues relating to materials selection and promotion for the secondary school library will be explored.

Prereq: LIBS 413 and LIBS 414 and LIBS 418; or Permission

Coreq: LIBS 433 .

LIBS 433 Information Literacy for the Teacher Librarian

3 credits

Explores the role of the Teacher Librarian in providing information literacy instruction. Defines information literacy, as well as places it in a national, state and local framework. The research process as it correlates with information literacy and relevant educational theory is covered.

Prereq or Coreq: LIBS 430 or LIBS 431 or Permission .

LIBS 504 (s) Special Topics

Credit arranged.

LIBS 510 Libraries and their Collection: Materials Selection

3 credits

Joint-listed with LIBS 410

Introduction to library science theory and practice with emphasis on material selection and evaluation. Research project and paper required for graduate credit.

Prereq: Instructor Permission.

LIBS 514 Reference and Information Services

3 credits

Joint-listed with LIBS 414

Introduction to theory and practice of reference and information services, with emphasis on material selection, evaluation, and evaluation for school and public libraries as well as professional standards and rubrics. Research project and paper required for graduate credit.

Prereq: Instructor Permission

Coreq: LIBS 413 and LIBS 418.

LIBS 518 Classification and Cataloging

3 credits

Joint-listed with LIBS 418

Organization of library materials, principles of cataloging, subject analysis, classification, bibliographic methods, Dewey decimal system. Research project and paper required for graduate credit.

Prereq: Instructor Permission

Coreq: LIBS 413 and LIBS 414.

LIBS 525 School Library Administration, Leadership, and Management**3 credits**

Joint-listed with LIBS 425

This course explores the organization of school libraries with an emphasis on effective management and leadership. Research project and paper required for graduate credit.

Prereq or Coreq: LIBS 433

Prereq: Instructor Permission.

MANAGEMENT & HUMAN RESOURCES (MHR)

MHR 204 (s) Special Topics
Credit arranged.

MHR 298 (s) Internship
1-3 credits, max 6.

MHR 299 (s) Directed Study
Credit arranged.

MHR 310 Leading Organizations and People
3 credits

Great leaders are made, not born. This course prepares students to effectively acquire and deploy human capital, lead individuals and teams, inspire and motivate people to perform the tasks needed to achieve ambitious goals, and inspire innovation. Includes international and ethical issues. May involve evening exams and presentation practices.

Prereq: ACCT 201 or ACCT 202, BUS 190, and ECON 201 or ECON 202 or ECON 272.

MHR 311 Introduction to Management
3 credits

Planning, organizing resources, leadership, and control in small organizations, large businesses, family businesses and start-ups; evolution of philosophies of management, decision making, motivation, human relations, and communication; organizational behavior and theory; history and present management practices, showing interrelationships between the needs and expectations of the individual, the organization, and society. May involve evening exams.

MHR 398 (s) Internship
1-3 credits, max 6.

MHR 404 (s) Special Topics
Credit arranged.

MHR 411 Acquiring Human Capital
3 credits

An organization's ability to develop and sustain a competitive advantage through human resources begins with successfully attracting and acquiring talented and motivated human capital. This course addresses recruitment and selection practices and their theoretical underpinnings, including such topics as individual differences theories, decision-making heuristics and biases, human perception, staffing strategies, human resource planning, strategic human resource management, EEO and legal issues, job analysis and competency modeling, recruitment methods, selection techniques, and selection validation.

Prereq: MHR 310.

MHR 412 Human Resource Management
3 credits

Human resource/personnel management functions including recruitment, training, compensation, performance appraisal, health and safety, labor relations, and legal issues.

Prereq: BLAW 265; and MHR 310 or MHR 311.

MHR 413 Organizational Behavior
3 credits

Micro oriented treatment of areas including communication, motivation, group process, conflict, leadership style.

Prereq: AGECE 278, MHR 310, or MHR 311.

MHR 416 Managing Reward Systems
3 credits

A key factor in accomplishing organizational goals is the ability to retain and motivate talented human resources. This course addresses compensation and benefits practices and their theoretical underpinnings, including such topics as motivation theories (e.g., equity theory), learning theories, job evaluation, monetary-nonmonetary reward programs, individual, group and organizational incentives.

Prereq: MHR 310.

MHR 417 Deploying and Developing Human Capital
3 credits

Managers work with and through others to achieve organizational goals; therefore, managers must be able to assess and develop an organization's human resources. This course addresses training, development and performance management practices and their theoretical underpinnings, including such topics as motivation theories (e.g., goal setting theory, expectancy theory), learning theories, leadership, employee orientation, needs assessment, training and development methods, evaluating training effectiveness, performance measurement, the HR Scorecard and delivering performance feedback.

Prereq: MHR 310.

MHR 418 Managing Organization Design and Leading Changes
3 credits

In order for an organization to develop and sustain a source of competitive advantage management must maintain a fit between an organization's strategy and its structure. This course addresses organization design and change practices that are used to integrate an organization's strategy with its people, positions, procedures, processes, culture, technology and or elements that comprise the organization and their theoretical underpinnings; including topics such as the Balanced Scorecard, open systems, organizational effectiveness, organizational technology, organization design for the global environment, power and politics, problem diagnosis, change implementation, resistance to change, the role of change agents, and changing the ethical climate.

Prereq: MHR 310 or MHR 311.

MHR 441 Maintaining Employee and Labor Relations
3 credits

Effective employer-employee relationships contribute to successful productivity, motivation, morale and retention. This course addresses employee and labor relations practices and their theoretical underpinnings, including such topics organizational culture and climate, intergroup conflict, communication, conflict resolution, investigating and resolving complaints, unionization and collective bargaining, applying and interpreting employment and labor laws, and maintaining positive relationships.

Prereq: MHR 310 or MHR 311.

MHR 499 (s) Directed Study
Credit arranged.

MHR 513 Leadership and Organizational Behavior
3 credits

Micro oriented treatment of areas including communication, motivation, group process, conflict, leadership style.

MANAGEMENT INFORMATION SYSTEMS (MIS)

MIS 204 (s) Special Topics
Credit arranged.

MIS 250 Introductory Systems Development

3 credits

Introduction to event-driven and object-oriented systems development in a graphical user interface environment; significant hands-on demonstrations and uses of a variety of integrated application development tools.

Prereq: 30 credits.

MIS 298 (s) Internship

1-3 credits, max 6.

MIS 299 (s) Directed Study

Credit arranged.

MIS 350 Managing Information

3 credits

Introduction to use and management of data to support decision making. Includes discussion of relevant international and ethical issues.

Prereq: STAT 251 or STAT 301; and BUS 252.

MIS 351 Intro to Elec Commerce

3 credits

Introduction to the economic, technology and management of e-commerce. Discussion of economic basis for e-commerce, business models, information technology, and management of technology related to the operation of an e-commerce business. May involve evening exams.

Prereq: ACCT 202 or ACCT 205.

MIS 353 Application Development

3 credits

Intro to the design and implementation of IS applications. Topics may include programming for mobile and distributed systems, usability, and security.

Prereq: Junior Standing.

MIS 355 Systems Analysis & Administration

3 credits

Introduction to analysis, development, and management of modern information systems. May involve evening exams.

Prereq: Junior Standing.

MIS 398 (s) Internship

1-3 credits, max 6.

MIS 404 (s) Special Topics

Credit arranged.

MIS 452 Business Telecommunications Management

3 credits

Survey of telecommunications management issues in a business environment; topics include local and wide area networks, telephony, public networks, and application of telecommunications technology in strategic business management.

Prereq: MIS 350, MIS 353, or MIS 355.

MIS 453 Database Design

3 credits

Introduction to modern database management systems and their use in solving business problems. May involve evening exams.

Prereq: MIS 350, MIS 353, MIS 355, or CS 120.

MIS 454 Issues in Information Systems

3 credits

Discussion of major topics of current importance in information systems.

Prereq: MIS 350, MIS 353 or MIS 355 .

MIS 455 Data Management for Big Data

3 credits

Joint-listed with MIS 555

Introduction to big data and the various data models related to managing "Big Data" and very large datasets. Emphasis will be on developing NOSQL data management systems. Additional topics may include data access, data analytics, and data visualization. Additional projects/ assignments required for graduate credit.

MIS 456 Cybersecurity Competition

1 credit, max 6

Students will develop, practice, and validate cybersecurity skills. The skills developed from participating in the virtual labs will be used to participate in the competitions. Graded P/F.

MIS 499 (s) Directed Study

Credit arranged.

MIS 555 Data Management for Big Data

3 credits

Joint-listed with MIS 455

Introduction to big data and the various data models related to managing "Big Data" and very large datasets. Emphasis will be on developing NOSQL data management systems. Additional topics may include data access, data analytics, and data visualization. Additional projects/ assignments required for graduate credit.

MARKETING (MKTG)

MKTG 204 (s) Special Topics
Credit arranged.

MKTG 298 (s) Internship
1-3 credits, max 6.

MKTG 299 (s) Directed Study
Credit arranged.

MKTG 321 Marketing
3 credits

Explores marketing as an integrating function of the firm. Includes the study of product, price, place, and promotions in the creation of customer value, international marketing, and the roles of corporate social responsibility and ethics in marketing decision making. May involve evening exams.

MKTG 324 Consumer Behavior
3 credits

Behavioral science theories, concepts, and methods applied to the understanding and prediction of consumer behavior, including industrial buyer behavior; emphasis on structuring marketing policy to fulfill consumer requirements. May involve evening exams.

Prereq or **Coreq**: MKTG 321.

MKTG 398 (s) Internship
1-3 credits, max 6.

MKTG 404 (s) Special Topics
Credit arranged.

MKTG 420 Integrated Marketing Communication
3 credits

Integrated Marketing Communications (IMC) from a marketing strategy perspective. Application of the IMC planning process and examination of the role of integration to create consistency of strategy using traditional promotion elements (advertising, public relations, sales promotion, reseller support, personal selling) and new media. May involve evening exams.

Prereq: MKTG 321.

MKTG 421 Marketing Research & Analysis
3 credits

Applied research focusing on marketing information needs for managerial decision making; includes research design, data collection methods, statistical analysis, and use of marketing information systems to forecast market and sales potential, measure effectiveness of promotions, and analyze new products and distribution of goods and services. May involve evening exams.

Prereq: STAT 251 or STAT 301; and MKTG 321.

MKTG 422 Sales Management
3 credits

Sales Management includes recruiting, selecting, training, compensating, motivating, supervising, and directing selling efforts. May involve evening exams.

Prereq: MKTG 321.

MKTG 424 Pricing Strategy and Tactics
3 credits

Formulation of pricing strategies and tactics for new and existing products and services; survey of pricing dynamics; competitor response to pricing strategies at the firm and product level; assessment of buyer price sensitivity.

Prereq: MKTG 321, and ECON 202 or ECON 272.

MKTG 425 Retail Distribution Mgmt
3 credits

Analysis of retail operations including location, market selection, capital and physical requirements, store layout, merchandise management, customer relations, channel structure, and channel member relations. May involve evening exams.

Prereq: MKTG 321.

MKTG 426 Marketing Channels Management
3 credits

Analysis of planning, organization, and control issues related to distribution of goods and services; topics include retail and wholesale institutions, channel member behavior patterns, and vertical marketing systems.

Prereq: MKTG 321.

MKTG 427 Services Marketing
3 credits

Survey of concepts addressing distinctive marketing problems and opportunities in service industries, as well as current issues and trends in the service sector; includes discussion of strategies for marketing services, emphasizing the distinctive challenges and approaches that make the marketing of services different from marketing manufactured goods. May involve evening exams.

Prereq: MKTG 321.

MKTG 428 Marketing Management
3 credits

Discussion of major marketing management functions, including market and environmental analysis, as well as marketing planning, strategy, implementation, and control concepts; special emphasis on application of such concepts by developing a marketing plan that identifies market opportunities and proposes relevant marketing programs for a given case study. May involve evening exams.

Prereq: MKTG 324, MKTG 421, and one Tier 1 marketing elective.

MKTG 431 Marketing Analytics
3 credits

Marketing Analytics is concerned with concepts, tools, methods, and applications of modeling and decision making to address important marketing issues such as pricing, segmentation, positioning, market forecasting, new product management and development, sales force management, and promotion planning. The course is aimed at providing students with analytic and interpretive skills needed to make intelligent and critical use of marketing data.

Prereq: MKTG 421 or STAT 431.

MKTG 482 International Marketing
3 credits

Foreign market operations; economic, cultural, and political aspects of international markets and how they interact with the marketing mix.

Prereq: MKTG 321.

MKTG 495 Product Development and Brand Management
3 credits

Gen Ed: Senior Experience

Cross-listed with RMAT 495

This course examines product development strategy and the management of brands. Topics will include strategic intent of product development, the process of product development (ideation through post product launch evaluation), market and financial feasibility of product development, trends in product development, and managing brands (strategic brand management and managing brand equity).

Prereq: ECON 201, MKTG 202, or MKTG 272; and MKTG 321.

Coreq: MKTG 321.

MKTG 498 (s) Internship

1-3 credits, max 6.

MKTG 499 (s) Directed Study

Credit arranged.

MARTIN SCHOOL OF INT'L STUDIES (MRTN)

MRTN 204 (s) Special Topics
Credit arranged.

MRTN 299 (s) Directed Study
Credit arranged.

MRTN 403 (s) Workshop
Credit arranged.

MRTN 404 (s) Special Topics
Credit arranged.

MRTN 498 (s) Internship
Credit arranged.

MRTN 499 (s) Directed Study
Credit arranged.

MATERIALS SCIENCE & ENGR (MSE)

MSE 101 Introduction to Metallurgy and Materials Science

2 credits

Earth resources, metallurgy, materials science, and manufacturing. (Fall only)

MSE 201 Elements of Materials Science

3 credits

Principles relating properties of metals, ceramics, polymers, and composites to their structures.

Prereq: CHEM 111, CHEM 111L .

MSE 204 (s) Special Topics

Credit arranged.

MSE 299 (s) Directed Study

Credit arranged.

MSE 308 Thermodynamics of Materials

3 credits

First, second, and third laws of thermodynamics. Reaction equilibria. Phase diagrams. Thermodynamics of metallic and ceramic materials.

Prereq: MSE 201 and CHEM 112, CHEM 112L.

Coreq: MATH 310 .

MSE 313 Physical Metallurgy

3 credits

Theory, structure, and properties of materials. (Fall only)

Prereq: MSE 201 .

MSE 313L Physical Metallurgy Laboratory

1 credit

Metallographic principles and practices, hardness testing, structure-property correlations. One 2-hr lab per week.

Prereq or Coreq: MSE 313 .

MSE 340 Transport and Rate Processes I

4 credits

Cross-listed with CHE 340

Transport phenomena involving momentum, energy, and mass with applications to process equipment design. Coordinated lec-lab periods.

Prereq: ENGR 335, MATH 310, and CHE 223 or MSE 201 .

MSE 341 Particulate Materials Processing

4 credits

Engineering science of particulates; powder production, powder properties, separation; design of systems applied to metals, ores, and concentrates. Three lec and one hr of lab a wk; two 1-day field trips. Recommended Preparation: CS 121, PHYS 212, PHYS 212L and ENGR 240.

Prereq: CHEM 112, CHEM 112L

Coreq: MATH 310 .

MSE 393 Materials Engineering Projects

1-3 credits, max 9

Problems of a research exploratory nature.

Prereq: Permission.

MSE 400 (s) Seminar

Credit arranged.

MSE 404 (s) Special Topics

Credit arranged.

MSE 412 Mechanical Behavior of Materials

3 credits

Theories of elasticity and plasticity, dislocation based plastic deformation, strengthening mechanisms, mechanical properties of solids and relevant testing methods, failure processes and theories, fracture mechanics. Coordinated lecture-lab periods.

Prereq: MSE 201 and Junior Standing; or Permission .

MSE 413 Phase Transformation and Kinetics

3 credits

Joint-listed with MSE 513

Free energy minimization algorithms. Construction of phase diagrams for liquid and solid systems. Reaction kinetics in liquid and solid systems. Determination of reaction kinetics parameters (reaction order, activation energy, reaction rate constants, etc.). Coordinated lec-lab periods.

Additional projects/assignments reqd for grad cr.

Prereq: CHEM 112, CHEM 112L .

MSE 415 Materials Selection and Design

3 credits

Selection of materials for use in structural applications; consideration of environment, stress conditions, cost, and performance as guide to properties; optimization of choice of materials and fabrication methods; open-ended problems of real applications in various industries. Recommended Preparation: MSE 313 and MSE 456. (Spring only)

Prereq: MSE 201 and ENGR 350 .

MSE 417 Instrumental Analysis

3 credits

Principles and laboratory experiments in x-ray diffraction, scanning electron microscopy, transmission electron microscopy, thermal analysis, etc. (Fall only)

Prereq: Junior/Senior standing in an engineering discipline .

MSE 421 Light Metals

3 credits

Joint-listed with MSE 521

Principles behind the physical and extractive metallurgy of the light metals Al, Mg, Ti, Be; discussion of characteristics and applications of alloys based on these metals. Additional projects/assignments reqd for grad cr. Recommended Preparation: MSE 313.

MSE 423 Corrosion

3 credits

Joint-listed with MSE 523.

Engineering aspects of corrosion and its control presented in ways of importance to a practicing engineer. Topics include corrosion economics, detecting and monitoring corrosion, regulations, specifications, safety. Emphasis on corrosion monitoring and corrosion fundamentals: chemical and electrochemical reactions; chemical and electrochemical equilibria-including Pourbaix diagrams; electrochemical kinetics. Selection and use of materials, from stainless steels to plastics. Failure analysis. Additional projects/assignments reqd for graduate credit. (Fall only)

Prereq: CHEM 112, CHEM 112L and MSE 201 or CHE 223; or Permission .

MSE 427 Ceramics Materials

3 credits

Joint-listed with MSE 527.

Crystallography, ceramic crystal structures, phase diagrams, phase transformation; mechanical properties, thermal properties, electrical and magnetic properties. Additional projects/assignments reqd for graduate credit. Recommended Preparation: MSE 313.

MSE 432 Fundamentals of Thin Film Fabrication**3 credits**

Physical deposition, chemical deposition, post deposition process, film characterization, and film properties. (Spring only)

Prereq: Senior standing or Permission .

MSE 434 Fundamentals of Polymeric Materials**3 credits**

Polymer structure/property relationships and engineering applications. Topics include: overview of polymer chemistry and physics as they inform structure and properties for real-world applications, including sustainability considerations. Coordinated lecture-lab periods.

Prereq: CHEM 111, CHEM 111L and CHEM 112, CHEM 112L .

MSE 437 Radiation Effects on Materials**3 credits**

Joint-listed with MSE 537. Cross-listed with NE 437, NE 537.

Interactions between radiation and solids.

Prereq: MSE 201 or Permission .

MSE 438 Fundamentals of Nuclear Materials**3 credits**

Joint-listed with MSE 538. Cross-listed with NE 438, NE 538.

This course is designed for students who wish to learn about nuclear materials and fuels from a materials science viewpoint. Topics to be covered include crystal structure, diffusion, radiation damage processes etc. Students who wish to receive credit for the 500 level course are required to do term-projects and advanced problems. (Spring only)

Prereq: MSE 201 or NE 450; or Permission .

MSE 453 Process Analysis & Design I**3 credits**

Cross-listed with CHE 453

Estimation of equipment and total plant costs, annual costs, profitability decisions, optimization; design of equipment, alternate process systems and economics, case studies of selected processes. CHE 453 and CHE 454/MSE 453 and MSE 454 are to be taken in sequence. (Fall only)

Prereq: CHE 330, CHE 341, and CHE 423; or MSE 201, MSE 308, MSE 313, MSE 340, and MSE 412 .

MSE 454 Process Analysis & Design II**3 credits**

Gen Ed: Senior Experience

Cross-listed with CHE 454

Estimation of equipment and total plant costs, annual costs, profitability decisions, optimization; design of equipment, alternate process systems and economics, case studies of selected processes. MSE 453 and 454 are to be taken in sequence. (Spring only)

Prereq: CHE 453 or MSE 453 .

MSE 456 Metallic Materials**3 credits**

Processes for extracting metals; various classes of metallic alloys; casting, powder metallurgy, mechanical working, and joining of metals. Emphasis on understanding relationship of processing, structure and properties. Some lab demonstration of metal fabrication processes included.

Prereq: MSE 313 or Permission .

MSE 464 Materials Physics and Engineering**3 credits**

Joint-listed with MSE 564, Cross-listed with PHYS 464

Materials for circuits, Magnetism and magnetic materials, Ferroelectric and piezoelectric materials, Semiconductors, Optical properties of semiconductor for optoelectronics, thermal properties, electron band theory, superconductivity. Additional projects/assignments required for graduate credit. (Spring only)

Prereq: Senior standing in an Engineering or Physics major, or PHYS 305 and PHYS 321; or Permission.

MSE 498 (s) Internship**Credit arranged.****MSE 499 (s) Directed Study****Credit arranged.****MSE 500 Master's Research and Thesis****Credit arranged.****MSE 501 (s) Seminar****Credit arranged.****MSE 502 (s) Directed Study****Credit arranged.****MSE 504 (s) Special Topics****Credit arranged.****MSE 507 Microstructures and Defects****3 credits**

This course correlates microstructure and defects with mechanical, physical and chemical properties of engineering materials. The fundamental characteristics of point, line, surface and volume defects in crystals will be elucidated on an advanced level. The essential elements of microstructure and their role in engineering materials will be discussed.

Prereq: Graduate standing or Permission .

MSE 511 Nuclear Degradation Mechanisms**3 credits**

Cross-listed with NE 511.

Topics include various degradation mechanisms as applicable to nuclear structural components, including corrosion, creep, radiation damage etc.

Prereq: Graduate standing or Permission .

MSE 512 Nuclear Components Inspection**3 credits**

Cross-listed with NE 512.

This course will cover various non-destructive testing techniques to evaluate the environmental degradation of the nuclear structural components. Remnant life estimation of structural components exposed to fatigue, creep and stress corrosion cracking service conditions will be discussed.

Prereq: Graduate standing or Permission .

MSE 513 Phase Transformation and Kinetics**3 credits**

Joint-listed with MSE 413

Free energy minimization algorithms. Construction of phase diagrams for liquid and solid systems. Reaction kinetics in liquid and solid systems. Determination of reaction kinetics parameters (reaction order, activation energy, reaction rate constants, etc.). Coordinated lec-lab periods.

Additional projects/assignments reqd for grad cr.

Prereq: CHEM 112, CHEM 112L.

MSE 517 Reaction Kinetics

3 credits

Application of absolute reaction rate theory; time and temperature dependence; kinetics of gas-solid reactions; kinetics of solid-solid reactions; corrosion, diffusion, and recrystallization. (Alt/yrs)

Prereq: Materials Science Engineering graduate student or Permission .

MSE 521 Light Metals

3 credits

Joint-listed with MSE 421

Principles behind the physical and extractive metallurgy of the light metals Al, Mg, Ti, Be; discussion of characteristics and applications of alloys based on these metals. Additional projects/assignments reqd for grad cr. Recommended Preparation: MSE 313.

MSE 523 Corrosion

3 credits

Joint-listed with MSE 423.

Engineering aspects of corrosion and its control presented in ways of importance to a practicing engineer. Topics include corrosion economics, detecting and monitoring corrosion, regulations, specifications, safety. Emphasis on corrosion monitoring and corrosion fundamentals: chemical and electrochemical reactions; chemical and electrochemical equilibria-including Pourbaix diagrams; electrochemical kinetics. Selection and use of materials, from stainless steels to plastics. Failure analysis. Additional projects/assignments reqd for graduate credit. (Fall only)

Prereq: CHEM 112, CHEM 112L and MSE 201 or CHE 223; or Permission .

MSE 525 Electronic Materials

3 credits

Study of major chemical and physical principles affecting properties of solid state engineering materials. Topics include bonding, carrier statistics, band-gap engineering, optical and transport properties, novel materials systems, characterization, magnetism, and comprehensive introduction to physics of solid state devices.

Prereq: Materials Science Engineering graduate student or Permission .

MSE 527 Ceramic Materials

3 credits

Joint-listed with MSE 427.

Crystallography, ceramic crystal structures, phase diagrams, phase transformation; mechanical properties, thermal properties, electrical and magnetic properties. Additional projects/assignments reqd for graduate credit. Recommended Preparation: MSE 313.

MSE 537 Radiation Effects on Materials

3 credits

Joint-listed with MSE 437. Cross-listed with NE 437, NE 537.

Interactions between radiation and solids.

Prereq: MSE 201 or Permission.

MSE 538 Fundamentals of Nuclear Materials

3 credits

Joint-listed with MSE 438. Cross-listed with NE 438, NE 538.

This course is designed for students who wish to learn about nuclear materials and fuels from a materials science viewpoint. Topics to be covered include crystal structure, diffusion, radiation damage processes etc. Students who wish to receive credit for the 500 level course are required to do term-projects and advanced problems. (Spring only)

Prereq: MSE 201 or NE 450; or Permission .

MSE 564 Materials Physics and Engineering

3 credits

Joint-listed with MSE 464, Cross-listed with PHYS 564

Materials for circuits, Magnetism and magnetic materials, Ferroelectric and piezoelectric materials, Semiconductors, Optical properties of semiconductor for optoelectronics, thermal properties, electron band theory, superconductivity. Additional projects/assignments required for graduate credit. (Spring only)

Prereq: Senior standing in an Engineering or Physics major, or PHYS 305 and PHYS 321; or Permission.

MSE 585 Nuclear Fuel Cycles

3 credits

Processes to support the existing LWR fuel cycle. Alternative fuel cycles including U-233, Pu239 and mixed oxide fuels, and advanced reactor concepts. Recycling and recovery of nuclear materials, with emphasis on traditional fast reactor recycle.

Prereq: Permission .

MSE 598 (s) Internship

Credit arranged .

MSE 599 (s) Research

Credit arranged.

MSE 600 Doctoral Research & Dissertation

Credit arranged.

MATHEMATICS (MATH)

Vertically-related courses in this subject field are: MATH 170-MATH 175-MATH 275-MATH 471-MATH 472.

Credit Limitations: MATH 108 carries no credit after MATH 137 or MATH 143; MATH 137 carries no credit after MATH 143; MATH 143 carries no credit after MATH 160 or MATH 170; MATH 170 carries 2 credits after MATH 160; MATH 160 carries no credit after MATH 170, MATH 215 carries no credit after MATH 461 or MATH 471.

MATH 108 Intermediate Algebra 3 credits

Carries no credit after MATH 137 or MATH 143. Review of algebra including factoring, rational expressions, exponents, radicals, quadratic equations, equations of lines. Taught using the Polya Math Center, a studio environment featuring group study, one-to-one interaction with instructors, computer-mediated modules, and lectures. Does not satisfy general education requirement..

MATH 123 Mathematics Applied to the Modern World 3 credits

Gen Ed: Mathematics

Discussion of some aspects of mathematical thought through the study of problems taken from areas such as logic, political science, management science, geometry, probability, and combinatorics; discussion of historical development and topics discovered in the past 100 years.

MATH 130 Finite Mathematics 3 credits

Gen Ed: Mathematics

Systems of linear equations and inequalities, matrices, linear programming, and probability.

Prereq: Sufficient score on SAT, ACT, or math placement test; or MATH 108 with a "C" or better. Required test scores can be found here: <http://www.uidaho.edu/registrar/registration/placement>.

MATH 137 Algebra with Applications 3 credits

Gen Ed: Mathematics

Carries no credit after MATH 143. Algebraic, exponential, logarithmic functions, systems of equations, applications.

Prereq: A grade of "C" or better in MATH 108 or sufficiently high score on SAT, ACT, or math placement test. It is recommended that MATH 137 be taken within two years of passing MATH 108 or its equivalent. MATH 137 is not sufficient preparation for MATH 170. Students intending to take MATH 170 should enroll in MATH 143 instead. Required test scores can be found here: <http://www.uidaho.edu/registrar/registration/placement>.

MATH 143 Pre-calculus Algebra and Analytic Geometry 3 credits

Gen Ed: Mathematics

Carries no credit after MATH 160 or MATH 170; carries 2 credits after MATH 137. Algebraic, exponential, logarithmic functions; graphs of conics; zeros of polynomials; systems of equations, induction. Taught using the Polya Math Center, a studio environment featuring group study, one-to-one interaction with instructors, computer-mediated modules, and lectures.

Prereq: Sufficient score on SAT, ACT, or math placement test; or MATH 108 with grade of C or better. It is recommended that MATH 143 be taken within two years of passing MATH 108 or its equivalent. Required test scores can be found here: <http://www.uidaho.edu/registrar/registration/placement>.

MATH 144 Analytic Trigonometry 1 credit

Not open for cr to students who have previous high school or college cr in trigonometry. Trigonometric functions, inverse functions, applications. Taught using the Polya Math Center, a studio environment featuring group study, one-to-one interaction with instructors, computer-mediated modules, and lectures.

Prereq: Sufficient score on SAT, ACT, or math placement test. Students may qualify by enrolling concurrently in MATH 143 or MATH 170. Required test scores can be found here: <http://www.uidaho.edu/registrar/registration/placement>.

MATH 160 Survey of Calculus 4 credits

Gen Ed: Mathematics

Carries no credit after MATH 170. Overview of functions, and graphs, derivatives, integrals, exponential and logarithmic functions, functions of several variables, and differential equations. Primarily for students who need only one semester of calculus, such as students in business or architecture.

Prereq: Sufficient score on SAT, ACT, or math placement test, or MATH 137 with a C or better, or MATH 143 with a C or better. Required test scores can be found here: <http://www.uidaho.edu/registrar/registration/placement>.

MATH 170 Analytic Geometry and Calculus I 4 credits

Gen Ed: Mathematics

Carries 2 credits after MATH 160. Functions, limits, continuity, differentiation, integration, applications, differentiation and integration of transcendental functions. Primarily for students in engineering, mathematics, science or computer science.

Prereq: MATH 143 (with a grade of C or better) and MATH 144 (concurrent enrollment in MATH 144 is allowed although it is recommended that students complete MATH 144 before enrolling in MATH 170); or demonstrated proficiency through a sufficiently high score on the ACT, SAT, or math placement test. Required test scores can be found here: <http://www.uidaho.edu/registrar/registration/placement>.

MATH 175 Analytic Geometry and Calculus II 4 credits

Gen Ed: Mathematics

Differentiation and integration of transcendental functions, integration techniques, general mean value theorem, numerical techniques, and series.

Prereq: MATH 170 with a grade of C or better.

MATH 176 Discrete Mathematics 3 credits

Induction, set theory, graph theory, number systems, Boolean algebra, and elementary counting.

Prereq: MATH 143 or sufficiently high score on SAT, ACT, or math placement test. Required test scores can be found here: <http://www.uidaho.edu/registrar/registration/placement>.

MATH 204 (s) Special Topics Credit arranged.

MATH 215 Proof via Number Theory 3 credits

An introduction to mathematical thinking and proof through the development of the basic results of elementary number theory. Emphasis on techniques of mathematical proofs, reading and writing proofs, and fundamental mathematical structures.

Prereq: MATH 175 and MATH 176.

MATH 275 Analytic Geometry and Calculus III

3 credits

Gen Ed: Mathematics

Vectors, functions of several variables, and multiple integration.

Prereq: MATH 175.

MATH 299 (s) Directed Study

Credit arranged.

MATH 310 Ordinary Differential Equations

3 credits

Classification, initial and boundary value problems of one variable, exact equations, methods of solving higher-order linear equations, second-order equations with constant coefficient, series solutions, systems of linear equations, Laplace transforms, and existence theorems. Recommended preparation: MATH 275.

Prereq: MATH 175.

MATH 315 HON:Topics in Pure Mathematics

3 credits

A topic selected each yr that develops skill and appreciation for theoretical nature of mathematics.

Prereq: Permission of director of University Honors Program.

MATH 326 Linear Optimization

3 credits

Geometric solutions, simplex method, duality and revised simplex method, sensitivity, integer programming, applications. Recommended Preparation: MATH 175.

Prereq: MATH 160 or MATH 170 .

MATH 330 Linear Algebra

3 credits

Linear equations, matrices, linear transformations, eigenvalues, diagonalization; applications. Recommended Preparation: MATH 175.

Prereq: MATH 160 or MATH 170.

MATH 371 Mathematical Physics

3 credits

Cross-listed with PHYS 371

Mathematical techniques needed in upper-division physics courses, including vector analysis, matrices, Sturm-Liouville problems, special functions, partial differential equations, complex variables.

Prereq: PHYS 212/PHYS 212L and MATH 275.

MATH 376 Discrete Mathematics II

3 credits

Selected topics from discrete mathematics such as graph theory, modeling, and optimization. Recommended for computer science majors.

Prereq: MATH 176 or Permission.

MATH 385 Theory of Computation

3 credits

Cross-listed with CS 385

Mathematical models of computation, including finite automata and Turing machines. (Fall only)

Prereq: Permission.

MATH 386 Theory of Numbers

3 credits

Second course on number theory, including a historical treatment of efforts to answer basic questions on the density and possible forms of prime numbers. Topics may include: quadratic reciprocity, cubic reciprocity, quadratic forms, genus theory, higher reciprocity laws, Hilbert class field, the prime number theorem, Dirichlet's theorem on primes in an arithmetic progression, elliptic curves, and modular forms.

Prereq: MATH 215 .

MATH 388 History of Mathematics

3 credits

Cross-listed with HIST 388.

History of the development of mathematical ideas from ancient cultures to the present, including the relationship of those ideas to the cultures that produced them as well as an understanding of the mathematics involved. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 175 or Permission .

MATH 390 Axiomatic Geometry

3 credits

Development of Euclidean and hyperbolic geometry using the axiomatic approach. Recommended Preparation: MATH 215.

Prereq: High school geometry and MATH 176, or Instructor Permission .

MATH 391 Modern Geometry

3 credits

Euclidean and non-Euclidean geometries, plus topics chosen from projective, transformational, and computational geometry. Recommended Preparation: MATH 215.

Prereq: High School Geometry and MATH 176, or Instructor Permission .

MATH 395 Analysis of Algorithms

3 credits

Cross-listed with CS 395

Measures of efficiency; standard methods and examples in the design, implementation, and analysis of algorithms. (Spring only)

Prereq: MATH 175 and CS 121.

MATH 400 (s) Seminar

Credit arranged.

MATH 404 (s) Special Topics

Credit arranged.

MATH 415 Cryptography

3 credits

Gen Ed: Senior Experience

Congruences, modular arithmetic, private-key cryptosystems, public-key cryptosystems, and applications. The role of modern mathematics in information age society.

Prereq: MATH 330 .

MATH 420 Complex Variables

3 credits

Complex numbers, elementary functions, derivatives, the residue theorem, conformal mappings, contour integration, infinite series, applications.

Prereq: MATH 275 .

MATH 426 Discrete Optimization

3 credits

Optimization on graphs, networks and flows, and related topics.

Recommended Preparation: MATH 175.

MATH 427 Transformational Geometry

3 credits

Cross-listed with MTHE 527

Geometry concepts of congruence, parallelism, and similarity using rigid motions; the group structure of the collection of isometries and their matrix representations. For graduate credit, additional transformational approaches for calculus integration strategies are required. The course is of particular interest to secondary mathematics teaching majors.

Prereq: MATH 330 or equivalent .

MATH 428 Numerical Methods**3 credits**

Cross-listed with ENGR 428, PHYS 428. Joint-listed with MATH 529.

Systems of equations, root finding, error analysis, numerical solution to differential equations, interpolation and data fitting, numerical integration, related topics and applications.

Prereq: MATH 310.

MATH 430 Advanced Linear Algebra**3 credits**

Vector spaces, linear transformations, characteristic polynomial, eigenvectors, Hermitian and unitary operators, inner products, quadratic forms, Jordan canonical form, applications.

Prereq: MATH 215 and MATH 330 or Instructor Permission .

MATH 432 Numerical Linear Algebra**3 credits**

Analysis of efficiency and accuracy of large linear algebra problems; special emphasis on solving linear equations and finding eigenvalues.

Prereq: MATH 275, MATH 330, and knowledge of a computer language.

MATH 435 (s) Topics in Applied Mathematics**Credit arranged**

Topics chosen from fields of current interest in applied mathematics; inquire at the Department of Mathematics for a description of topics for future semesters.

Prereq: Permission.

MATH 437 Mathematical Biology**3 credits**

Modeling biological phenomena, mostly through differential equations; mathematical topics include stability analysis and limit cycles for nonlinear ODE's, spatial diffusion and traveling waves for PDE's; biological topics include models of predator-prey systems, infectious diseases, and competition. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 310 or Permission.

MATH 438 Mathematical Modeling**3 credits**

Topics in the use of mathematics to model phenomena from science, business, economics, and engineering.

Prereq: CS 120, MATH 310 and MATH 330, or Instructor Permission .

MATH 451 Probability Theory**3 Credits**

Cross-listed with STAT 451

Random variables, expectation, special distributions (normal, binomial, exponential, etc.), moment generating functions, law of large numbers, central limit theorem. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: MATH 275, or Permission

Coreq: MATH 275.

MATH 452 Mathematical Statistics**3 credits**

Cross-listed with STAT 452

Estimation of parameters, confidence intervals, hypothesis testing, likelihood ratio test, sufficient statistics. Cooperative: open to WSU degree-seeking students. (Spring only)

Prereq: MATH 451 or Permission.

MATH 453 Stochastic Models**3 credits**

Joint-listed with MATH 538, Cross-listed with STAT 453

Markov chains, stochastic processes, and other stochastic models; applications. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 451 or Permission.

MATH 455 Applied Actuarial Science**1 credit**

Risk problems on the actuarial exam. Graded P/F.

Prereq: MATH 451.

MATH 461 Abstract Algebra I**3 credits**

Groups, rings, and fields. (Fall only)

Prereq: MATH 215 and MATH 330; or Permission .

MATH 462 Abstract Algebra II**3 credits**

Groups, rings, and fields. (Spring only)

Prereq: MATH 461.

MATH 471 Introduction to Analysis I**3 credits**

Topology of Euclidean n-space, limit and continuity, differentiation, integration. (Fall only)

Prereq: MATH 275 and MATH 215; or Permission .

MATH 472 Introduction to Analysis II**3 credits**

Topology of Euclidean n-space, limit and continuity, differentiation, integration. (Spring only)

Prereq: MATH 471 or Permission .

MATH 476 Combinatorics**3 credits**

Elementary counting methods, generating functions, recurrence relations, Polya's enumeration, enumeration of graphs, trees, searching, combinatorial algorithms. Recommended Preparation: MATH 176, or MATH 215, or MATH 376.

Prereq: MATH 175 and MATH 330.

MATH 480 Partial Differential Equations**3 credits**

Intro to Fourier analysis, application to solution of partial differential equations; classical partial differential equations of engineering and physics.

Prereq: MATH 310 or Permission.

MATH 494 Seminar in Mathematical Biology**1 credit**

Oral presentation of research approaches, research results and literature review of mathematical biology including mathematical modeling of biological systems. Cooperative: open to WSU degree-seeking students.

MATH 499 (s) Directed Study**Credit arranged.****MATH 500 Master's Research and Thesis****Credit arranged.****MATH 501 (s) Seminar****Credit arranged.****MATH 502 (s) Directed Study****Credit arranged.****MATH 504 (s) Special Topics****Credit arranged.**

MATH 505 (s) Professional Development

Credit arranged

Cr earned in this course will not be accepted toward grad degree programs.

Prereq: Permission.

MATH 510 Seminar on College Teaching of Mathematics

1 credit

Development of skills in the teaching of college mathematics; includes structure of class time, test construction, and various methods of teaching mathematics; supervision of teaching assistants in their beginning teaching assignments. Graded P/F.

Prereq: Permission.

MATH 521 Topology I

3 credits

Basic concepts of point set and algebraic topology. Cooperative: open to WSU degree-seeking students.

MATH 522 Topology II

3 credits

Basic concepts of point set and algebraic topology.

MATH 523 Algebraic Topology I

3 credits

Basic homotopy theory, covering spaces, homology theory, and applications.

MATH 528 Differentiable Manifolds

3 credits

Fundamentals of smooth manifolds, tangent spaces, vector fields, Lie groups, integration on manifolds, and applications. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 521 and MATH 472.

MATH 529 Numerical Methods

3 credits

Cross-listed with PHYS 528. Joint-listed with MATH 428. Systems of equations, root finding, error analysis, numerical solution to differential equations, interpolation and data fitting, numerical integration, related topics and applications. Additional projects and/or assignments required for graduate credit in PHYS 528.

Prereq: MATH 310.

MATH 531 Complex Variables

3 credits

Theory of functions of a complex variable. Cooperative: open to WSU degree-seeking students.

MATH 535 Real Variables

3 credits

Measure and integration theory for functions of one or several variables.

MATH 536 Probability Theory

3 credits

Random variables, characteristic functions, convergence theorems, central limit theorem, conditional probability, and stochastic processes as developed from a measure theoretic basis.

Prereq: MATH 535 or Permission.

MATH 538 Stochastic Models

3 credits

Joint-listed with MATH 453, Cross-listed with STAT 544 Markov chains, stochastic processes, and other stochastic models; applications. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 451 or Permission.

MATH 539 Theory of Ordinary Differential Equations

3 credits

Existence, uniqueness, and stability of solutions of first-order systems; other topics. Cooperative: open to WSU degree-seeking students.

MATH 540 Partial Differential Equations

3 credits

Existence and uniqueness theorems for the wave, heat, and Laplace's equations of physics; additional topics such as nonlinear models in mathematical biology, perturbation methods, etc. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 539 or Permission.

MATH 541 (s) Seminar in Analysis

1-3 credits, max arranged

Current literature. Cooperative: open to WSU degree-seeking students.

MATH 543 Approximation Theory

3 credits

Cooperative: open to WSU degree-seeking students.

MATH 555 Groups and Fields I

3 credits

Groups, fields, polynomials, Galois theory, representation theory. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 461 and MATH 462; or equivalent.

MATH 556 Groups and Fields II

3 credits

Groups, fields, polynomials, Galois theory, representation theory. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 555 or Permission .

MATH 557 Ring Theory

3 credits

Rings, ideals, modules, commutative algebra. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 461 and MATH 462; or equivalent .

MATH 558 Introduction to Algebraic Geometry

3 credits

Affine and projective varieties, morphisms, functions on varieties, birational maps, applications. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 557 or Permission .

MATH 561 (s) Seminar In Algebra

1-3 credits, max arranged

Current literature.

MATH 563 Mathematical Genetics

3 credits

Cross-listed with BIOL 563

Investigation of aspects of evolutionary biology with an emphasis on stochastic models and statistical methods; topics include: diffusion methods in molecular evolution, gene genealogies and the coalescent, inferring coalescent times from DNA sequences, population subdivision and F statistics, likelihood methods for phylogenetic inference, statistical hypothesis testing, the parametric bootstrap. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 160 or MATH 170 and STAT 251 or STAT 301 .

MATH 571 Functional Analysis I

3 credits

Linear topological spaces and linear operators.

Prereq: MATH 535.

MATH 572 Functional Analysis II

3 credits

Linear topological spaces and linear operators.

Prereq: MATH 571.

MATH 575 Graph Theory I

3 credits

Basic concepts and theorems; topics include trees and connectivity, eulerian and hamiltonian graphs, graph colorings, matchings, graph decomposition, and extremal graph theory.

MATH 576 Graph Theory II

3 credits

Basic concepts and theorems; topics include trees and connectivity, eulerian and hamiltonian graphs, graph colorings, matchings, graph decomposition, and extremal graph theory.

Prereq: Instructor Permission.

MATH 578 Combinatorial Optimization

3 credits

Optimization problems on graphs, network flow problems, complexity analysis of algorithmic solutions, and related topics.

MATH 579 Combinatorics

3 credits

Topics from enumerative combinatorics, design theory, extremal combinatorics and algebraic combinatorics.

MATH 581 (s) Sem In Combinatorics

1-3 credits, max arranged.

MATH 583 Seminar in Applied Mathematics

3 credits, max arranged

Cooperative: open to WSU degree-seeking students.

MATH 596 MAT Comp Exam

1 credits

Supervised preparation for the Master of Arts in Teaching comprehensive exam. Graded Pass/Fail.

MATH 598 (s) Internship

Credit arranged.

MATH 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

MATH 600 Doctoral Research and Dissertation

Credit arranged.

MATHEMATICS EDUCATION (MTHE)

MTHE 235 Mathematics for Elementary Teachers I

3 credits

Mathematical development of arithmetic and problem solving as those subjects are currently taught in elementary schools. Three lec and one 1-hr lab a wk.

Prereq: MATH 143 or sufficient score on SAT, ACT, or COMPASS Math Test.

MTHE 236 Mathematics for Elementary Teachers II

3 credits

Mathematical development of informal geometry, problem solving, and probability and statistics as those subjects are currently taught in elementary schools. Three lec and one 1-hr lab a wk.

Prereq: MTHE 235 .

MTHE 301 Early Childhood Mathematics

4 credits

Focus on the mathematics for early childhood: numbers and operations, algebraic thinking, geometry, measurement, probability and statistics. Emphasis will be placed on reasoning, representation, connections and communication. This course is restricted to students from either the School of Family and Consumer Sciences or the College of Education. This course will not count as a 300 – level mathematics course in any major or minor in the College of Science.

Prereq: One general education math course .

MTHE 303 Early Childhood Math I

2 credits

Focus on the mathematics of early childhood: numbers and operations. Emphasis is placed on reasoning, representation, connections and communication. This course is restricted to students from either the School of Family and Consumer Sciences or the College of Education. This course will not count as a 300-level mathematics course in any major or minor in the College of Science. Recommended preparation: general education math course.

MTHE 304 Early Childhood Math II

2 credits

Focus on the mathematics of early childhood: algebraic reasoning, geometry, measurement, probability and statistics. Emphasis is placed on reasoning, representation, connections and communication. This course is restricted to students from either the School of Family and Consumer Sciences or the College of Education. This course will not count as a 300-level mathematics course in any major or minor in the College of Science. Recommended preparation: general education math course.

MTHE 409 Algebraic and Functional Reasoning

3 credits

Examines the understandings that are foundational to advanced algebraic concepts, and how grade 5-10 students develop these ideas. Topics include strategies for solving equations and systems, covariational reasoning, properties of linear, quadratic, exponential, and trigonometric functions.

MTHE 410 Proof and Viable Argumentation

3 credits

Develops viable argumentation as it can be found in grades 5-10 as a means of learning content, deepening understanding, and determining what is true and what is false mathematically. Topics include the language of argumentation, argument types, reasoning types, the distinction between proofs and viable arguments. Emphasizes how different argument types can contribute to student learning and increasing student discourse.

MTHE 513 Problem Solving Through History

3 credits

Historical study of approaches to solving problems in geometry, number theory, and set theory. This course is specifically designed for the MAT program, and will not satisfy the requirements of other mathematics degree programs.

MTHE 514 Foundations of Calculus

3 credits

Real numbers, sequences, topology of the real numbers, continuous functions, differentiation, and integration; emphasis on developing the conceptual understanding needed to teach calculus in secondary school. This course is specifically designed for the MAT program, and will not satisfy the requirements of other mathematics degree programs.

MTHE 515 Problems in Geometry

3 credits

Exploration of topics in geometry with emphasis on developing geometric reasoning and problem solving. This course is specifically designed for the MAT program, and will not satisfy the requirements of other mathematics degree programs.

MTHE 516 Groups and Symmetry

3 credits

Exploration of groups, symmetry, and permutations. This course is specifically designed for the MAT program, and will not satisfy the requirements of other mathematics degree programs.

MTHE 519 (s) Special Topics

Credit arranged

Special topics of interest to mathematics teachers. This course is specifically designed for the MAT program, and will not satisfy the requirements of other mathematics degree programs.

Prereq: Permission .

MTHE 527 Transformational Geometry

3 credits

Cross-listed with MATH 427.

Geometry concepts of congruence, parallelism, and similarity using rigid motions; the group structure of the collection of isometries and their matrix representations. For graduate credit, additional transformational approaches for calculus integration strategies are required. The course is of particular interest to secondary mathematics teaching majors.

Prereq: MATH 330 or equivalent .

MTHE 590 Seminar in Math Education

1-3 credits, max arranged

Topics in Mathematics Education. May be repeated for credit. Cooperative: open to WSU degree-seeking students.

MECHANICAL ENGINEERING (ME)

ME 123 Introduction to Mechanical Design

3 credits

Introduction to engineering design process and analysis techniques including problem solving skills, development of software learning skills, graphical analysis, data analysis, and documentation skills. Three lec and one open 2-hr lab a wk. (Fall only)

Coreq: MATH 170.

ME 201 (s) Engineering Team Projects

2-3 credits, max arranged

Joint-listed with ME 401.

Students will be introduced to a systems approach to designing, building and delivering an interdisciplinary engineering project, with an emphasis on learning how to realize a project in an organized team environment.

Projects are chosen at the discretion of the department. Additional project duties/assignments required for 400-level credit.

Prereq for ME 401: ME Certification and Permission .

ME 204 (s) Special Topics

Credit arranged.

ME 223 Mechanical Design Analysis

3 credits

Use of design and problem solving methodology to model requirements, conduct project learning, develop concepts, and realize prototypes. Projects feature elements of electromechanical design, rapid prototyping, and experimentation.

Prereq: ME 123

Coreq: MATH 175.

ME 299 (s) Directed Study

Credit arranged.

ME 301 Computer Aided Design Methods

3 credits

Engineering drawing literacy, pre-CAD planning, part modeling, assembly modeling, drawing package formulation, culminating team project involving virtual dissection and reassembly of a complex machine.

Prereq: ME 223.

ME 307 Group Mentoring I

1 credits

Mentoring of student groups in engineering classes where a process education environment is used; students taking this course will improve their engineering skill in the area they are mentoring as well as improving their team, communication, and leadership skills. Students must attend all classes or labs where group activities in the process education environment are done (a minimum of 2 mentoring sessions per week).

Prereq: Permission.

ME 308 Group Mentoring II

1 credit

Mentoring of student groups in engineering classes where a process education environment is used; students taking this course will improve their engineering skill in the area they are mentoring as well as improving their team, communication, and leadership skills. Students must attend all classes or labs where group activities in the process education environment are done (a minimum of 2 mentoring sessions per week).

Prereq: Permission.

ME 313 Dynamic Modeling of Engineering Systems

3 credits

Application of basic engineering principles to model and analyze the dynamic response of engineering systems; problem solutions will utilize transfer function methods, state variable techniques, and simulation software.

Prereq: ME 223, ENGR 220, ENGR 240, and MATH 310

Coreq: MATH 330 .

ME 322 Mechanical Engineering Thermodynamics

3 credits

Thermodynamic properties of substances, first and second laws of thermodynamics, thermodynamic analysis of mechanical engineering thermal components and cycles, psychrometric process, and introduction to combustion systems. (Fall only)

Prereq: CHEM 111/CHEM 111L and PHYS 211/PHYS 211L .

ME 325 Machine Component Design I

3 credits

Study of stress, deflection and stiffness, material properties, static and fatigue failure theory in the context of the analysis and design of machine components such as fasteners, welds, spring design and bearings. Significant use of solid modeling and use of equation solvers.

Prereq: ME 341 and MSE 201.

ME 330 Experimental Methods for Engineers

3 credits

Measurement systems and their application to engineering problems; topics include generalized performance of measurement systems, measuring and control devices, data acquisition and analysis, and report writing. Two lec and one 2-hr lab a wk.

Prereq: ENGR 240 .

ME 341 Intermediate Mechanics of Materials

3 credits

Mechanics of materials approach to: three-dimensional stress and strain, unsymmetrical bending, shear centers, curved beams, thick-walled pressure vessels, non-circular torsion; energy methods and advanced strength theories. Introduction to elementary kinematics. Significant use of solid modeling and use of equation solvers.

Prereq: ME 301 and Certification

Coreq: MSE 201 .

ME 345 Heat Transfer

3 credits

Transmission by conduction of heat in steady and unsteady states, by free and forced convection, and by radiation; combined effects of conduction, convection, and radiation.

Prereq: ME 322 and MATH 310

Coreq: ENGR 335 .

ME 398 (s) Engr Coop Internship I

Credit arranged

Supervised internship in professional engineering settings, integrating academic study with work experience; requires written report to be evaluated by a designated faculty member; details of coop to be arranged with ME Department before start of coop; cannot be counted as a technical elective. Graded P/F.

Prereq: Permission.

ME 399 (s) Engr Coop Internshp II

Credit arranged

Supervised internship in professional engineering settings, integrating academic study with work experience; requires written report to be evaluated by a designated faculty member; details of coop to be arranged with ME Department before start of coop; cannot be counted as a technical elective. Graded P/F.

Prereq: Permission.

ME 401 (s) Engineering Team Projects

2-3 credits, max arranged

Joint-listed with ME 201.

Students will be introduced to a systems approach to designing, building and delivering an interdisciplinary engineering project, with an emphasis on learning how to realize a project in an organized team environment. Projects are chosen at the discretion of the department. Additional project duties/assignments required for 400-level credit.

Prereq for ME 401: ME Certification and Permission.

ME 403 (s) Workshop

Credit arranged.

ME 404 (s) Special Topics

Credit arranged.

ME 407 Group Mentoring III

1 credit

Mentoring of student groups in engineering classes where a process education environment is used; students taking this course will improve their engineering skill in the area they are mentoring as well as improving their team, communication, and leadership skills. Student must attend all classes or labs where group activities in the process education environment are done (a minimum of 2 mentoring sessions per week).

Prereq: Permission.

ME 410 Principles of Lean Manufacturing

3 credit

Principles of lean manufacturing are introduced that provide a systematic process for identifying and eliminating non-value activities (waste) in production processes. Students learn these principles through a series of workshops, lectures, and hands-on simulations of lean principles. Three hours of lec and six hours of outside work per week.

Prereq: Senior standing in an engineering discipline or Permission.

ME 412 Gas Dynamics

3 credit

Compressible flow in ducts and nozzles, shock waves and expansion waves, and adiabatic two-dimensional compressible flow.

Prereq: MATH 310, ME 322 or ENGR 320, and ENGR 335.

ME 413 Engineering Acoustics

3 credits

Joint-listed with ME 513. Fundamentals of acoustics including wave theory; transmission through layers, generation and reception; low frequency models; application to sound measurement, transducers, loudspeaker cabinet design, and nondestructive testing; acoustic design project reqd. Additional projects/assignments reqd for grad cr. ME 513 is a cooperative course available to WSU degree-seeking students.

Prereq: ENGR 240 or ECE 212, and MATH 310, or ME 313.

ME 414 HVAC Systems

3 credits

Joint-listed with ME 514.

Application of thermodynamics, heat transfer, and fluid flow to understanding the psychrometric performance of systems and equipment; evaluating the performance characteristics, advantages, and disadvantages of the various types of HVAC systems including large tonnage refrigeration/chiller equipment, cooling coils, cooling towers, ducts, fans, and heat pump systems; economics of system and equipment selection. Cooperative: open to WSU degree seeking students.

Prereq: ME 345.

ME 416 FE Exam Review

1 credit

Review of 10 essential topics on the Mechanical Engineering Fundamentals of Engineering exam, including preparation in each topic area based on online review sessions and solving sample problems.

Graded P/F

Prereq: Senior Standing .

ME 417 Turbomachinery

3 credits

Joint-listed with ME 517

Introduction to the basic principles of modern turbomachinery. Emphasis is placed on steam, gas (combustion), wind and hydraulic turbines.

Applications of the principles of fluid mechanics, thermodynamics and aerodynamics to the design and analysis of turbines and compressors are incorporated. Additional technical research report and presentation reqd for grad cr. Cooperative: open to WSU degree-seeking students (ME 517 only). Recommended Preparation: ENGR 320, ENGR 335.

ME 420 Fluid Dynamics

3 credits

Joint-listed with ME 520.

Credit not granted for both ME 420 and ME 520. A second fluid dynamics course featuring vector calculus and integral and differential forms of the conservation laws. Topics include fluid properties, fluid statistics, inviscid flow; conservation of mass, momentum, and energy; and turbulence. Other topics may be covered. Additional projects/assignments reqd for grad cr.

Prereq: ENGR 335, MATH 310, or Permission.

ME 421 (s) Advanced Computer Aided Design

3 credits

Use of solid modeling software for advanced component design, creation of complex multi-component assemblies, animation studies, and rendering. Course concludes with one month-long final project.

Prereq: ME 301

Coreq: ME 341.

ME 422 Applied Thermodynamics

3 credits

Advanced topics in applied thermodynamics including availability (exergy) analysis of systems, advanced power and refrigeration cycles, combustion, and thermodynamic properties of real fluids.

Prereq: ME 345.

ME 423 Human Factors and Ergonomics in Product Design**3 credits**

Joint-listed with ME 523

Introduction to and application of Human Factors & Ergonomics Engineering principles in product design. Engineers design systems (e.g., work environments or products) where the human is an integral component. Human Factors & Ergonomics Engineering puts emphasis on how products should be designed so that they are safe, comfortable, and efficient for the human user. This course will focus on how body characteristics, physical and cognitive abilities, and the environment affect how products should be designed to accommodate the intended user(s). Additional projects/assignments are required for graduate credit.

Prereq: Senior standing in the College of Engineering; or Permission .

ME 424 Mechanical Systems Design I**3 credits**

Gen Ed: Senior Experience

Study of production realization including project planning, concept design, detail design, and manufacturing processes with multiple realistic constraints. Concepts learned are applied to a two-semester, capstone design project. The project is continued in ME 426. (Fall only)

Prereq: ME 301, ME 313, ME 325, ME 330, ME 345, and Certification .

ME 425 Machine Component Design II**3 credits**

A continuation of the analytical study of concepts in ME 325 Machine Component Design, by studying how these components are used in applications. In this context, material selection, machinability and strengthening is addressed. Special emphasis is placed on discussions of case studies and detailed design projects involving machine component elements. Significant use of solid modeling and use of equation solvers.

Prereq: ME 325.

ME 426 Mechanical Systems Design II**3 credits**

Gen Ed: Senior Experience

Continuation of each two-semester, capstone design project that was started in ME 424. (Spring only)

Prereq: ME 424 .

ME 430 Senior Lab**3 credits**

Detailed lab investigation of engineering problem; statistical design of experiments; application of engineering principles to analyze experimental data; technical report writing; oral communication skills. One lec and four hrs of lab a wk.

Prereq: ME 313 and ME 330.

ME 433 Combustion Engine Systems**3 credits**

Theory and characteristics of combustion engines; combustion process analysis; fuels, exhaust emissions and controls; system analysis and modeling.

Coreq: ME 345 or Permission.

ME 435 Thermal Energy Systems Design**3 credits**

Application of fluid mechanics, thermodynamics and heat transfer in the design of thermal energy systems; topics include thermal energy system component analysis and selection, component and system simulation, dynamic response of thermal systems, and system optimization.

Prereq: ME 345.

ME 436 Sustainable Energy Sources and Systems**3 credits**

An introduction to renewable energy conversion. Topics include: solar thermal, solar photovoltaic, and wind energy. Cooperative: open to WSU degree seeking students.

Prereq: ME 345 .

ME 438 Sustainability and Green Design**3 credits**

Joint-listed with ME 538.

Understanding the Concept of Sustainability, Industrial Ecology and Sustainable Engineering, Metabolic Analysis, Sustainable Engineering, Design for Environment and Sustainability, Life Cycle Assessment, Energy & Water and Industrial Ecology, The status of Resources, Sustainable Engineering and Economics Development. Cooperative: open to WSU degree seeking students.

Prereq: MATH 310 .

ME 444 Air Conditioning Engineering**3 credits**

Requirements for air conditioned spaces for human comfort; thermodynamic properties of air-water vapor mixtures; heating and cooling loads; design of systems for heating, cooling, and ventilation. Cooperative: open to WSU degree-seeking students.

Prereq: ME 345.

ME 450 Computational Fluid Dynamics**3 credits**

Joint-listed ME 550.

Governing equations of fluid flow; fundamentals of turbulence modeling; accuracy and stability of discretization schemes; verification and validation; boundary and initial conditions; grid generation; CFD post-processing. Application of CFD software (ANSYS FLUENT) through five hands-on CFD Labs including internal viscous pipe flows, external flows over a 2D airfoil and a circular cylinder, and flows in a 2D driven cavity. Additional projects/assignments required for graduate credits. Cooperative: open to WSU degree seeking students.

Prereq: ENGR 335 and MATH 330 .

ME 451 Experimental Methods in Fluid Dynamics**3 credits**

Joint-listed with ME 551.

The objective of this course is to develop the knowledge and skills to be able to design and perform fluid dynamics experiments (and experiments in related areas) and to interpret and report the results. Learn the words, the concepts, and experimental skills in areas including dimensional analysis and scaling of experiments, flow visualization, velocity and flow rate measurements, turbulence measurements, and sediment sizing and transport measurements. Additional projects/assignments reqd for grad cr. One 1-1/2 hr lec and one 3-hr lab a wk. Recommended Preparation: ENGL 317 and ENGR 335.

ME 452 TechVentures: High Technology Entrepreneurship**3 credits**

Joint-listed with ME 552.

TechVentures teaches students how to startup a technology company. Topics are (a) self-management, (b) product design, (c) marketing, (d) finance, and (e) organizational design. This project-based course is open to all majors. One extra project is required for graduate credit.

Prereq: Junior Standing and Permission .

ME 458 Finite Element Applications in Engineering

3 credits

Joint-listed with ME 558.

The finite element method is an essential tool for the design and research activities performed in engineering companies and academic institutions. The goal of this course is to introduce students to the use of the finite element method by focusing on a range of engineering applications and employing an interactive commercial finite element code. Students will learn how to solve various problems from several mechanical engineering areas including solid mechanics, heat transfer and fluid mechanics. When available, analytical solutions will be compared with the finite element solutions for validation purposes. Cooperative: open to WSU degree seeking students (ME 558 only).

Prereq: ME 322 (or ENGR 320) and ENGR 350

Coreq: ME 341 or instructor permission .

ME 461 Fatigue and Fracture Mechanics

3 credits

Fracture mechanics approach to structural integrity, fracture control, transition temperature, microstructural and environmental effects, fatigue and failure analysis.

Prereq: MSE 201 and ENGR 350.

ME 464 Robotics: Kinematics, Dynamics, and Control

3 credits

Joint-listed with ME 564

Mathematical analysis applied to spatial robotics including: Rigid body motion using screw theory, forward and inverse kinematics, analyses of forces and velocities using the manipulator Jacobian, serial and parallel chains, robot dynamics and simulation, nonlinear control and adaptive control, and Lyapunov stability theory. Additional projects/assignments required for graduate credit. Recommended Preparation: CS 120.

Prereq: MATH 310, MATH 330, and ME 313 or Equivalent, ME 330 .

ME 472 Mechanical Vibrations

3 credits

Free and forced vibration of single and multiple degree of freedom systems; response of mechanical systems to inputs of varying complexity, ranging from single frequency to pseudo-random; applications to mechanical design and vibration control. Cooperative: open to WSU degree-seeking students.

Prereq: ENGR 220, MATH 310, and ME 313; or graduate standing.

ME 481 Control Systems

3 credits

Cross-listed with ECE 470.

Analysis and design of feedback control systems using frequency and time domain methods, and computer-aided design tools. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 330

Prereq for Electrical Engineering and Computer Engineering majors: ECE 350

Prereq for Mechanical Engineering majors: ME 313.

ME 490 Solid Modeling, Simulation and Manufacturing Capstone

3 credits Use of solid modeling software focused on preparation for certification examinations, introduction to multi-physics numerical simulation, and computer aided manufacturing (CAM). A major final project is required. (Fall only)

Prereq: Permission .

ME 499 (s) Directed Study

Credit arranged

Selected topics. Detailed report reqd.

Prereq: Senior standing and Permission.

ME 500 Master's Research and Thesis

Credit arranged.

ME 501 (s) Seminar

Credit arranged.

ME 502 (s) Directed Study

Credit arranged

Supervised study, including critical reading of current literature.

Prereq: Permission.

ME 503 (s) Workshop

Credit arranged.

ME 504 (s) Special Topics

Credit arranged.

ME 505 (s) Professional Development

Credit arranged.

ME 513 Engineering Acoustics

3 credits

Joint-listed with ME 413. Cross-listed with ECE 579.

Fundamentals of acoustics including wave theory; transmission through layers, generation and reception; low frequency models; application to sound measurement, transducers, loudspeaker cabinet design, and nondestructive testing; acoustic design project reqd. Additional projects/ assignments reqd for grad cr. ME 513 is a cooperative course available to WSU degree-seeking students.

Prereq: ENGR 240 or ECE 212, and MATH 310, or ME 313.

ME 514 HVAC Systems

3 credits

Joint-listed with ME 414.

Application of thermodynamics, heat transfer, and fluid flow to understanding the psychrometric performance of systems and equipment; evaluating the performance characteristics, advantages, and disadvantages of the various types of HVAC systems including large tonnage refrigeration/chiller equipment, cooling coils, cooling towers, ducts, fans, and heat pump systems; economics of system and equipment selection. Cooperative: open to WSU degree seeking students.

Prereq: ME 345.

ME 517 Turbomachinery

3 credits

Joint-listed with ME 417

Introduction to the basic principles of modern turbomachinery. Emphasis is placed on steam, gas (combustion), wind and hydraulic turbines.

Applications of the principles of fluid mechanics, thermodynamics and aerodynamics to the design and analysis of turbines and compressors are incorporated. Additional technical research report and presentation reqd for grad cr. Cooperative: open to WSU degree-seeking students (ME 517 only). Recommended Preparation: ENGR 320, ENGR 335.

ME 519 Fluid Transients

3 credits

Cross-listed with CE 519.

Development of concepts and modeling techniques for unsteady flow of liquid and gas in piping systems; extensive computer programming used to develop tools for analysis, design, and control of transients. (Alt/yrs)

Prereq: MATH 310 and ENGR 335. A minimum grade of 'C' or better is required for all pre/coreqs.

ME 520 Fluid Dynamics**3 credits**

Joint-listed with ME 420. Cross-listed with CE 520.

Credit not granted for both ME 420 and ME 520. A second fluid dynamics course featuring vector calculus and integral and differential forms of the conservation laws. Topics include fluid properties, fluid statistics, inviscid flow; conservation of mass, momentum, and energy; and turbulence. Other topics may be covered. Additional projects/assignments reqd for grad cr.

Prereq: ENGR 335, MATH 310, or Permission.

ME 521 Design Synthesis with Solid Modeling**3 credits**

Use of solid modeling in the design synthesis process that focuses on optimized designs, reverse engineering to understand design intent, and aesthetics. Course concludes with one month-long final project.

Prereq: Graduate Standing or ME 421 .

ME 523 Human Factors and Ergonomics in Product Design**3 credits**

Joint-listed with ME 423

Introduction to and application of Human Factors & Ergonomics Engineering principles in product design. Engineers design systems (e.g., work environments or products) where the human is an integral component. Human Factors & Ergonomics Engineering puts emphasis on how products should be designed so that they are safe, comfortable, and efficient for the human user. This course will focus on how body characteristics, physical and cognitive abilities, and the environment affect how products should be designed to accommodate the intended user(s). Additional projects/assignments are required for graduate credit.

Prereq: Senior standing in the College of Engineering; or Permission .

ME 525 Advanced Heat Transfer**3 credits**

Study of major chemical and physical principles affecting properties of solid state engineering materials. Topics include bonding, carrier statistics, band-gap engineering, optical and transport properties, novel materials systems, characterization, magnetism, and comprehensive introduction to physics of solid state devices. Cooperative: open to WSU degree-seeking students.

Prereq: Permission.

ME 529 Combustion and Air Pollution**3 credits**

Formation of pollutants during combustion processes and their subsequent transformations in the atmosphere; emphasis on the effects of design and operating parameters of combustion devices on the nature and composition of exhaust gases, improvements, post-combustion treatment of effluent gases, atmospheric chemistry, transport of pollutants, smog formation, acid rain, ozone formation and destruction.

Prereq: ENGR 320 and ENGR 335, ME 345 or Permission.

ME 538 Sustainability and Green Design**3 credits**

Joint-listed with ME 438.

Understanding the Concept of Sustainability, Industrial Ecology and Sustainable Engineering, Metabolic Analysis, Sustainable Engineering, Design for Environment and Sustainability, Life Cycle Assessment, Energy & Water and Industrial Ecology, The status of Resources, Sustainable Engineering and Economics Development. Cooperative: open to WSU degree seeking students.

Prereq: MATH 310 .

ME 539 Advanced Mechanics of Materials**3 credits**

Cross-listed with CE 510 and MSE 539.

Limitations of results of elementary mechanics of materials, complex situations of loading and structural geometry, applications to design of machines and structure, introduction to elasticity. Cooperative: open to WSU degree-seeking students.

Prereq: ME 341 or CE 342 .

ME 540 Continuum Mechanics**3 credits**

Stress and deformation of continua using tensor analysis; relationship between stress, strain, and strain rates in fluids and solids; applications. Cooperative: open to WSU degree seeking students.

Prereq: Permission .

ME 541 Mechanical Engineering Analysis**3 credits**

Mathematical modeling and solutions to mechanical engineering problems; analytical solutions to linear heat and mass diffusion, waves and vibrations; introduction to approximate techniques. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 330 and MATH 310 or Equivalent.

ME 544 Conduction Heat Transfer**3 credits**

Formulation of steady-state and transient one- and multi-dimensional heat conduction problems; analytical solution techniques for linear problems including separation of variables, integral transforms, and Laplace transforms.

Prereq: ME 345 or equivalent, or Permission.

ME 547 Thermal Radiation Processes**3 credits**

Thermal radiation; radiation interchange among surfaces; radiation in absorbing-emitting gases; combined modes of heat transfer.

Prereq: ME 345 or Permission.

ME 548 Elasticity**3 credits**

Mathematical analysis of strain and stress, including vectors, tensors, and coordinate transformations; equations of elasticity; stress problems involving extension, torsion, and flexure; theories of failure.

Prereq: ME 341 or CE 342.

ME 549 Finite Element Analysis**3 credits**

Cross-listed with CE 546.

Formulation of theory from basic consideration of mechanics; applications to structural engineering, solid mechanics, soil and rock mechanics; fluid flow. Cooperative: open to WSU degree seeking students.

Prereq: ME 341 or CE 342.

ME 550 Computational Fluid Dynamics**3 credits**

Joint-listed ME 450.

Governing equations of fluid flow; fundamentals of turbulence modeling; accuracy and stability of discretization schemes; verification and validation; boundary and initial conditions; grid generation; CFD post-processing. Application of CFD software (ANSYS FLUENT) through five hands-on CFD Labs including internal viscous pipe flows, external flows over a 2D airfoil and a circular cylinder, and flows in a 2D driven cavity. Additional projects/assignments required for graduate credits. Cooperative: open to WSU degree seeking students.

Prereq: ENGR 335 and MATH 330 .

ME 551 Experimental Methods in Fluid Dynamics

3 credits

Joint-listed ME 450. Cross-listed with CE 550.

Governing equations of fluid flow; fundamentals of turbulence modeling; accuracy and stability of discretization schemes; verification and validation; boundary and initial conditions; grid generation; CFD post-processing. Application of CFD software (ANSYS FLUENT) through five hands-on CFD Labs including internal viscous pipe flows, external flows over a 2D airfoil and a circular cylinder, and flows in a 2D driven cavity. Additional projects/assignments required for graduate credits. Cooperative: open to WSU degree seeking students.

Prereq: ENGR 335 and MATH 330 .

ME 552 TechVentures: High Technology Entrepreneurship

3 credits

Joint-listed with ME 452.

TechVentures teaches students how to startup a technology company. Topics are (a) self-management, (b) product design, (c) marketing, (d) finance, and (e) organizational design. This project-based course is open to all majors. One extra project is required for graduate credit.

Prereq: Junior Standing and Permission .

ME 558 Finite Element Applications

3 credits

Joint-listed with ME 458.

The finite element method is an essential tool for the design and research activities performed in engineering companies and academic institutions. The goal of this course is to introduce students to the use of the finite element method by focusing on a range of engineering applications and employing an interactive commercial finite element code. Students will learn how to solve various problems from several mechanical engineering areas including solid mechanics, heat transfer and fluid mechanics. When available, analytical solutions will be compared with the finite element solutions for validation purposes. Cooperative: open to WSU degree seeking students (ME 558 only).

Prereq: ME 322 (or ENGR 320) and ENGR 350

Coreq: ME 341 or instructor permission .

ME 564 Robotics: Kinematics, Dynamics, and Control

3 credits

Joint-listed with ME 464

Mathematical analysis applied to spatial robotics including: Rigid body motion using screw theory, forward and inverse kinematics, analyses of forces and velocities using the manipulator Jacobian, serial and parallel chains, robot dynamics and simulation, nonlinear control and adaptive control, and Lyapunov stability theory. Additional projects/assignments required for graduate credit. Recommended Preparation: CS 120.

Prereq: MATH 310, MATH 330, and ME 313 or Equivalent, ME 330 .

ME 571 Building Performance Simulation for Integrated Design

3 credits

Cross-listed with ARCH 574

This course focuses on design decisions that impact energy, thermal, visual and acoustic comfort with a strong emphasis on building simulation tools. This course provides students with the understanding of the nature of building thermal comfort, building envelope behavior, ventilation requirements, indoor air quality, passive cooling systems, energy conservation, and the importance of iterative building simulation in achieving high performance buildings.

ME 580 Linear System Theory

3 credits

Cross-listed with ECE 572.

Linear spaces and linear operators; descriptions of dynamic systems; input-output descriptions; state-space concepts; canonical forms; controllability and observability; minimal realizations; application to control and general systems analysis; pole assignment; observers. Cooperative: open to WSU degree-seeking students.

Prereq: ECE 470 or Equivalent.

ME 598 (s) Internship

Credits arranged.

ME 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

ME 600 Doctoral Research and Dissertation

Credit arranged.

MEDICAL SCIENCE (MEDS)

MEDS 501 (s) Seminar
Credit arranged.

MEDS 502 (s) Directed Study
Credit arranged

Areas normally offered are directed dissection of the extremities, trunk, head, neck, abdomen, and pelvis; endocrinology, physiology, and other medically related studies. (Spring only)

MEDS 504 (s) Special Topics
Credit arranged.

MEDS 506 Introduction to Primary & Continuity Care Clerkship
4 credits

Introduces medical students to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to and the development of the physician role. Topics covered in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health, and pain management. Pass/Fail only. Offered Fall

Prereq: Admission to the University of Washington School of Medicine WWAMI program.

MEDS 507 Introduction to Primary & Continuity Care Clerkship
4 credits

Introduces medical students to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to and the development of the physician role. Topics covered in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health, and pain management. Pass/Fail only. Offered Fall

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 508 Introduction to Primary & Continuity Care Clerkship
4 credits

Introduces medical students to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to and the development of the physician role. Topics covered in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health, and pain management. Pass/Fail only. Offered Spring

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 509 Introduction to Primary & Continuity Care Clerkship
4 credits

Introduces medical students to continuity of care by working with practicing physicians and coinciding with instruction in communication skills, interviewing techniques, physical examinations, documentation, and clinical reasoning. Includes hospital-based patient encounters with an introduction to and the development of the physician role. Topics covered in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health, and pain management. Pass/Fail only. Offered Fall

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 510 Molecular and Cellular Basis of Disease
11 credits

Introduces cell physiology and cell biology, function, genetics, and genetic diseases, genes. Topics include membrane physiology; sensory receptors; muscle energetics and contractibility; autonomic nervous system; tissue response to disease; pharmacodynamics and pharmacokinetics; genetic disorders; pharmacogenetics. Incorporates relevant fundamental principles in anatomy, pathology and pharmacology. Graded Pass/Fail. (Fall only)

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 515 Ecology of Health & Medicine-Foundations 1
1 credit

This course integrates School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Fall and Spring

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 517 Research Methods
6 credits

Community health and disease, including assessment of disease risk and mechanisms of epidemic detection, spread, and control; interpretation of research design, data analysis, bias source; and clinical epidemiology, including evaluation and application of diagnostic tests, natural history of disease, and quantitative aids for clinical decision making. Course offered Summer. 6cr. Must be a WWAMI Medical Education Professional Student. (This course is the equivalent of MedSci 500 offered in Seattle)

Prereq: WWAMI Student .

MEDS 519 Invaders and Defenders
10 credits

This course covers the immune system, microbial biology, infectious diseases, inflammation and repair, and skin and connective tissue. Topics discussed include the pathogenesis and immunity of infectious disease, immunodeficiencies, hypersensitivity, autoimmunity, the basis of immunologic diagnosis. Additionally, this course will include relevant fundamental scientific principles in anatomy, pathology, and pharmacology. Graded Pass/Fail. (Fall only)

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 525 Ecology of Health & Medicine-Foundations 3

1 credit

This course integrates School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Fall and Spring

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 529 Circulatory System

16 credits

This course provides an interdisciplinary approach to cardiovascular, respiratory, and renal-urinary medicine, including anatomy, physiology, pathology, medicine and surgery. Topics include cardiac electrophysiology and cardiac muscle mechanics, myocardial infarction and cardiac repair, thoracic and pulmonary anatomy, ventilator mechanics, gas exchange, obstructive, restrictive, and pulmonary-vascular diseases, renal function, and common kidney diseases. Graded Pass/Fail. (Spring only)

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 536 Ecology of Health & Medicine-Foundations 3

1 credit

This course integrates School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Fall and Spring

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 540 Blood, Cancer & Musculoskeletal

8 credits

This course familiarizes students with the basic pathophysiologic mechanisms leading to disturbances of red cell, white cell, and platelet production, as well as abnormalities of hemostasis presenting clinical problems. The musculoskeletal content will focus on clinical manifestations in the musculoskeletal system and pathophysiology of trauma, aging, infection, and inflammation. Graded Pass/Fail. (Spring only)

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 545 Ecology of Health & Medicine-Foundations 4

1 credit

This course integrates School of Medicine thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health. Pass/Fail only. Fall and Spring

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 550 Energetics and Homeostasis

10 credits

This course covers metabolism, nutrition, obesity, diabetes, gastrointestinal/liver physiology, and endocrinology. Topics include physiology and pathology of digestion and hepatic function, principles and practice of clinical nutrition, the endocrine integration of metabolism, and clinically important endocrine pathophysiology. Additionally, this course introduces anatomy, pathology, and pharmacology of the endocrine and GI Systems. Graded Pass/Fail. (Spring only)

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 560 Mind, Brain and Behavior

14 credits

In this course, the foundational principles of the organization and function of the head, neck and central nervous system are explained with a focus on clinical application of this knowledge to systematically approach the differential diagnosis and management of major neurologic, psychiatric and behavioral disorders. Current therapeutic approaches to disease are explained including pharmacological, behavioral, surgical and other therapies. Graded Pass/Fail. (Fall only)

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 570 Lifecycle and Reproduction

8 credits

This course will cover normal and abnormal human development, reproductive functions including formation and maturation of ova and sperm, menstruation, normal pregnancy, and labor and delivery. Provides information concerning infertility, family planning techniques, urinary disorders, reproductive aging and demography of human population. Additionally, this course includes fundamental scientific principles in pelvic anatomy, pathology, histology, imaging and pharmacology. Graded Pass/Fail. (Fall only)

Prereq: Admission to the University of Washington School of Medicine WWAMI program .

MEDS 580 Consolidation and Transition

12 credits

Reinforces content in the UWSOM foundations phase. Learning experiences will address key content areas which need further review identified throughout terms 1 and 2, with specific sessions developed as indicated; faculty/staff and peer educators will provide sessions for this basic science review as well as preparation for clerkships. Graded Pass/Fail. (Spring Only)

Prereq: Must be admitted to U of Washington School of Medicine.

MILITARY SCIENCE (MS)

MS 101 Intro to the Army & Critical Thinking

1 credit

Introduces Cadets to the personal challenges and competencies that are critical for effective leadership. Cadets learn how the personal development of life skills such as critical thinking, goal setting, time management, stress management, and comprehensive fitness relate to leadership, officership, and the Army profession. Labs include leader's reaction/ropes course, basic survival skills, drill and ceremony, and emergency preparedness. One lecture hour and one leadership lab hour; lab is optional – but highly encouraged – for noncontracted cadets .

MS 102 Intro to the Profession of Arms

1 credit

Overviews basic leadership fundamentals such as setting direction, problem-solving, listening, presenting briefs, providing feedback, and using effective writing skills. Cadets explore dimensions of leadership attributes and core leader competencies in the context of practical, hands-on, and interactive exercises. Labs include orienteering, a teambuilding exercise, first aid, cultural protection, and ethics problem solving. One lecture hour and one leadership lab hour; lab is optional – but highly encouraged – for noncontracted cadets.

MS 201 Foundations of Leadership I

2 credits

Develops leadership skills and introduces different leadership theories. Further personal development such as time management and effective communication and briefing skills. Cadets explore tactics and techniques such as troop leading procedures, tactical movement, problem solving, and land navigation. Labs deepen understanding of the leader's reaction/ropes course, basic survival skills, drill and ceremony, and emergency preparedness. Two lecture hours and one leadership lab hour; lab is optional – but highly encouraged – for noncontracted cadets.

Prereq: MS 102 or Permission .

MS 202 Foundations of Leadership II

2 credits

Examines the challenges of leading teams in the complex operational environment. The course highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army Leadership Requirements Model explores the dynamics of adaptive leadership in the context of military operations. Prepares Cadets for third year MS classes. Cadets develop greater self awareness as they assess their own leadership styles and practice communication and team building skills. Case studies give insight into the importance and practice of teamwork and tactics in real-world scenarios. Labs deepen understanding of orienteering, teambuilding exercise, first aid, cultural protection, and ethics problem solving. Two lecture hours and one leadership lab hour; lab is optional – but highly encouraged – for noncontracted cadets.

Prereq: MS 201 or Permission .

MS 204 (s) Special Topics

Credit arranged

Prereq: Permission.

MS 227 American Military History

3 credits

Using lecture and small group discussions, this is a survey of the American military experience. Events are analyzed using the conventional discipline of historical methodology and the classical norms of the principles of warfare. Fulfills military history requirement for commissioning of cadets. Department permission required.

MS 298 (s) Internship

Credit arranged.

MS 299 (s) Directed Study

Credit arranged.

MS 301 Adaptive Team Leadership

3 credits

Challenges cadets to study, practice, and evaluate adaptive leadership skills as they are presented with challenging scenarios related to squad tactical operations. Cadets receive systematic and specific feedback on their leadership attributes and actions. Based on such feedback, as well as their own self-evaluations, cadets continue to develop their leadership and critical thinking abilities. The focus is developing cadets' tactical leadership abilities to enable them to succeed at ROTC's summer Cadet Leader Course (CLC). Cadets help lead joint labs with the first two MS levels. Three lecture hours and one leadership lab hour.

Prereq: MS 202 or Permission. Permission may be granted to students who have attended Leadership Training Camp or Basic Training from any U.S. military branch of service .

MS 302 Applied Team Leadership

3 credits

Uses increasingly intense situations applying team leadership challenges to build cadet awareness and skills in leadership tactical operations at the small unit level. Cadets review aspects of full spectrum operations. They also conduct military briefings and develop proficiency in the operation orders process. The focus is on exploring, evaluating and developing skills in decision-making, persuading, and motivating team members in the contemporary operating environment. Cadets help lead joint labs with the first two MS levels. Three lecture hours and one leadership lab hour

Prereq: MS 301 or Permission. Permission may be granted to students who have attended Leadership Training Camp or Basic Training from any U.S. military branch of service .

MS 401 Mission Command and the Army Profession

3 credits

Explores the dynamics of leading in the complex situations of current military operations. Cadets will examine differences in customs and courtesies, military law, principles of war, and rules of engagement in the face of international terrorism. Cadets also explore aspects of interacting with non-government organizations, civilians on the battlefield, the decision making processes and host nation support. The course places significant emphasis on preparing Cadets for BOLC B and their first unit of assignment. It uses mission command case studies and scenarios to prepare you to face the complex ethical demands of serving as a commissioned officer in the United States Army. Three lecture hours and one leadership lab hour.

Prereq: MS 301, MS 302 .

MS 402 Mission Command and the Company Grade Officer

3 credits

Explores the dynamics of leading in complex situations during Unified Land Operations. It examines the Art of Command and how to properly communicate with your NCOs and Soldiers. During Cultural Awareness and Cultural Property Protection (CPP), they will discuss numerous situations on how ethical decisions impact personnel and the unit mission. Through the understanding of their roles and responsibilities, they will learn about Comprehensive Soldier Fitness (CSF), Being Ready and Resilient (R2C), and Individual and Family Readiness can assist them in preparing their Soldiers and their Families on reducing and managing stress during times of uncertainty. The course places significant emphasis on preparing Cadets for BOLC B and their first unit of assignment. It uses mission command case studies and scenarios to prepare them to face the complex ethical demands of serving as a commissioned officer in the United States Army. Three lecture hours and one leadership lab hour.

Prereq: MS 301, MS 302 .

MS 404 (s) Special Topics

Credit arranged.

MS 499 (s) Directed Study

Credit arranged.

MOVEMENT SCIENCES (MVSC)

MVSC 201 Physical Activity, Wellness & Behavior Change for Healthy Active Lifestyles

3 credits

Examines personal awareness and responsibility for maintenance of health, proper nutrition, fitness, and well-being. It teaches skills necessary for individual program development and implementation to effect positive health-related behavior change

Prereq: Major in Dance, Exercise Science and Health, Physical Education Teacher Education or Recreation.

Prereq or Coreq: PEP 100, PEP 161, REC 104, or DAN 101 .

MVSC 404 (s) Special Topics

Credit arranged.

MVSC 445 Internship Preparation and Professional Development

1 credit

This course explores the different factors that go into finding, obtaining, and getting the most out of an internship. Emphasis is placed on such skills related to understanding the student's chosen field/career path, professionalism, communication, and dealing with adversity in the work place.

Prereq: MVSC 201 .

MVSC 486 Healthy Active Lifestyle Assessment and Intervention

3 credits

Gen Ed: Senior Experience

Joint-listed with MVSC 586

Develops skills in leadership, assessment, planning and pedagogy to promote and deliver a healthy active lifestyles intervention for individuals, groups and/or communities.

Prereq: Junior, Senior or Graduate Student .

MVSC 570 Research in Physical Activity, Theory and Design

3 credits

To understand and apply principles of scientific inquiry using both quantitative and qualitative research methodology; and apply such principles through individual research projects in physical activity.

MVSC 580 Research: Writing and Dissemination

1 credit

Professional writing of research not directly related to a thesis or dissertation. (Spring only)

Prereq: MVSC 570.

MVSC 581 Research: Group Programming

1 credit

Group professional service projects based on research, needs assessment and implementation strategies. (Spring only)

Prereq: REC 575 .

MVSC 582 Research: Individual Programming

1 credit

Individual professional service projects based on research, needs assessment and implementation strategies. (Spring only)

Prereq: REC 575 .

MVSC 586 Healthy Active Lifestyle Assessment and Intervention

3 credits

Joint-listed with MVSC 486

Develops skills in leadership, assessment, planning and pedagogy to promote and deliver a healthy active lifestyles intervention for individuals, groups and/or communities.

Prereq: Junior, Senior or Graduate Student.

MVSC 610 Pedagogical Immersion in Movement Sciences

Credit arranged

This immersion course is designed to guide the learner in developing and improving effective pedagogical skills while teaching coursework to adults in university and/or community settings.

Prereq: Instructor Permission .

MVSC 611 Outreach and Engagement Immersion in the Movement Sciences

Credit arranged

This immersion course is designed to guide the learner in participating in and/or developing outreach, engagement and/or service activities to clients, communities, and/or professional organizations.

Prereq: Instructor Permission .

MVSC 612 Research Immersion in the Movement Sciences

Credit arranged

The research Immersion course is designed as a first exposure to doctoral non-dissertation research and a precursor to non-dissertation research, where the student collaborates with the major professor on implementing research.

Prereq: Instructor Permission .

MUSIC--APPLIED PERFORMANCE (MUSA)

Vertically-related courses in this subject field are: MUSA 145-MUSA 146-MUSA 245-MUSA 246.

MUSA 114 (s) Studio Instruction

1 credit, max arranged

For secondary or minor instrument, nonmajors, and undeclared majors; may not be taken for audit. Weekly instruction. Instruction offered in piano, organ, harpsichord, voice, flute, oboe, clarinet, saxophone, bassoon, trumpet, horn, euphonium, trombone, tuba, percussion, violin, viola, cello, contrabass, or guitar. Final exam conducted by jury in some sections.

Prereq: Audition or Permission .

MUSA 115 (s) Studio Instruction

2 credits, 8 max

For music majors. Review of fundamentals of technique and musicianship in preparation for MUSA 124 and MUSA 134. Maximum two semesters on the same instrument.

Prereq: Placement audition by committee.

MUSA 116 Concert Choir--Vandaleers

1 credit, max arranged

Joint-listed with MUSA 316, MUSA 516.

Open to all students. Students earning upper division and graduate credits will be held to higher standards. Field trips.

Prereq: Audition and Permission.

MUSA 117 (s) University Choir

1 credit, max arranged

Joint-listed with MUSA 317, MUSA 517.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 118 (s) Jazz Choir

1 credit, max arranged

Joint-listed with MUSA 318, MUSA 518.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 119 (s) Marching Band

1-3 credits, max arranged

Joint-listed with MUSA 319, MUSA 519.

Open to all students. Performance at home football games and other events and travel to selected away football games; field trips. Students earning upper division and graduate credits will be held to higher standards. (Fall only)

MUSA 120 (s) Wind Ensemble

1 credit , max arranged

Joint-listed with MUSA 320, MUSA 520.

Open to all students by audition. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .

MUSA 121 (s) Concert Band

1 credit, max arranged

Joint-listed with MUSA 321, MUSA 521

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 122 (s) Orchestra

1 credit, max arranged

Joint-listed with MUSA 322, MUSA 522.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

Prereq: Audition and Permission.

MUSA 123 (s) Jazz Ensemble

1 credits, max arranged

Joint-listed with MUSA 323, MUSA 523

Open to all students. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .

MUSA 124 (s) Studio Instruction

2 credits, max arranged

Joint-listed with MUSA 324, MUSA 524.

For music majors in music degree programs other than performance; may not be taken for audit. Weekly instruction plus convocation/area recital/studio class; final exam conducted by jury. See MUSA 114 for instruction areas.

Prereq: Placement audition by committee .

MUSA 134 (s) Studio Instruction

3 credits, max arranged

Joint-listed with MUSA 334, MUSA 534.

For music majors in the B.Mus. performance degree; may not be taken for audit. Weekly instruction plus convocation/area recital/studio class; final exam conducted by jury. See MUSA 114 for instruction areas.

Prereq: Placement audition by committee .

MUSA 143 Piano Class for Non-Majors

1 credit

Beginning piano for non-majors. (Spring only)

MUSA 145 (s) Piano Class for Music Majors/Minors

1 credit

May not be taken for audit. The first semester of a four-semester beginning piano sequence. Two lec-labs a wk. (Fall only)

Prereq: Major or minor in the School of Music or Permission .

MUSA 146 Piano Class for Music Majors/Minors

1 credit

May not be taken for audit. The second semester of a four-semester beginning piano sequence. Two lec-labs a wk. (Spring only)

Prereq: "C" or better in MUSA 145 or Permission .

MUSA 147 Voice Class

1 credit

May not be taken for audit. For beginning singers. Two lec-labs a wk.

MUSA 153 Guitar Class

2 credits

Group instruction in guitar. May not be taken for audit.

MUSA 180 (s) Opera/Musical Theatre Studio

1-3 credits, max arranged

Joint-listed with MUSA 380, MUSA 580.

Analysis, rehearsal, and performance of operatic and musical theatre literature. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .

MUSA 200 (s) Seminar

Credit arranged.

MUSA 203 (s) Workshop

Credit arranged.

MUSA 204 (s) Special Topics**Credit arranged.****MUSA 210 Jazz Improvisation****2 credits**

Overview of basic jazz improvisation with an emphasis on style and basic jazz theory. (Spring only)

MUSA 212 Introduction to Jazz Piano I**1 credit**

Interpretation of fake books and lead sheets in various styles including swing, blues, ballad, Latin and pop. Emphasis on chord voicings, comping, style, and basic improvisation. Recommended Preparation: Equivalent of 2 years piano instruction.

MUSA 213 Introduction to Jazz Piano II**1 credit**

This course is designed to expand upon styles and techniques learned in Intro to Jazz Piano I.

Prereq: MusA 212.**MUSA 245 (s) Piano Class for Music Majors/Minors****1 credit.**

May not be taken for audit. The third semester of a four-semester beginning piano sequence. Two lec-labs a wk. (Fall only)

Prereq: "C" or better in MUSA 146 .**MUSA 246 Piano Class for Music Majors/Minors****1 credit**

May not be taken for audit. The fourth semester of a four-semester beginning piano sequence. Two lec-labs a wk. (Spring only) **Prereq:** "C" or better in MUSA 245 or Permission.

MUSA 299 (s) Directed Study**Credit arranged.****MUSA 314 (s) Studio Instruction****1 credit, max arranged**

For secondary or minor instrument, nonmajors, and undeclared majors; may not be taken for audit. Weekly instruction. Instruction offered in piano, organ, harpsichord, voice, flute, oboe, clarinet, saxophone, bassoon, trumpet, horn, euphonium, trombone, tuba, percussion, violin, viola, cello, contrabass, or guitar. Final exam conducted by jury in some sections.

Prereq: Four semesters of MUSA 114, MUSA 124 or MUSA 134 on the same instrument or Permission .**MUSA 315 Collaborative Piano****1 credit, max arranged**

Joint-listed with MUSA 515

Principles of collaborative piano; lab assignments under supervision.

Prereq: Audition and completion of semester of MUSA 124 or MUSA 134 .**MUSA 316 Concert Choir--Vandaleers****1 credit, max arranged**

Joint-listed with MUSA 116, MUSA 516.

Open to all students. Students earning upper division and graduate credits will be held to higher standards. Field trips.

Prereq: Audition and Permission.**MUSA 317 (s) University Chorus****1 credit, max arranged**

Joint-listed with MUSA 117, MUSA 517.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 318 (s) Jazz Choir**1 credit, max arranged**

Joint-listed with MUSA 118, MUSA 518.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 319 (s) Marching Band**1-3 credits, max arranged**

Joint-listed with MUSA 119, MUSA 519.

Open to all students. Performance at home football games and other events and travel to selected away football games; field trips. Students earning upper division and graduate credits will be held to higher standards. (Fall only)

MUSA 320 (s) Wind Ensemble**1 credit , max arranged**

Joint-listed with MUSA 120, MUSA 520.

Open to all students by audition. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .**MUSA 321 (s) Concert Band****1 credit, max arranged**

Joint-listed with MUSA 121, MUSA 521

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 322 (s) Orchestra**1 credit, max arranged**

Joint-listed with MUSA 122, MUSA 522.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

Prereq: Audition and Permission.**MUSA 323 (s) Jazz Ensemble****1 credits, max arranged**

Joint-listed with MUSA 123, MUSA 523

Open to all students. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .**MUSA 324 (s) Studio Instruction****2 credits, max arranged**

Joint-listed with MUSA 124, MUSA 524.

For music majors in music degree programs other than performance; may not be taken for audit. Weekly instruction plus convocation/area recital/studio class; final exam conducted by jury. See MUSA 114 for instruction areas.

Prereq: Placement audition by committee .**MUSA 326 Pep Band****1 credit, max arranged**

Open to all students. Performances at home basketball games and other events. Travel to conference tournament. Recommended Preparation:

MUSA 119/MUSA 319/MUSA 519. (Spring only)

Prereq: Audition and Permission .**MUSA 334 (s) Studio Instruction****3 credits, max arranged**

Joint-listed with MUSA 134, MUSA 534.

For music majors in the B.Mus. performance degree; may not be taken for audit. Weekly instruction plus convocation/area recital/studio class; final exam conducted by jury. See MUSA 114 for instruction areas.

Prereq: Placement audition by committee .

MUSA 365 (s) Chamber Ensemble

1 credit, max arranged

Joint-listed with MUSA 565.

Open to all students. Performance opportunities in chamber ensembles: string, brass, woodwind, percussion, keyboard, vocal, and mixed. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission.

MUSA 380 (s) Opera/Musical Theatre Studio

1-3 credits, max arranged

Joint-listed with MUSA 180, MUSA 580.

Analysis, rehearsal, and performance of operatic and musical theatre literature. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .

MUSA 387 Conducting I

2 credits

Conducting techniques, score reading, and interpretation of scores for large choral and instrumental ensembles. (Fall only)

Prereq: MUSC 141.

MUSA 400 (s) Seminar

Credit arranged .

MUSA 403 (s) Workshop

Credit arranged .

MUSA 404 (s) Special Topics

Credit arranged.

MUSA 410 Advanced Jazz Improvisation

2 credits

Advanced study of jazz improvisation with an emphasis on advanced jazz theory, transcription, and developing facility in all keys. Additional projects/assignments required for graduate credit. (Fall only)

Prereq: MUSA 210 .

MUSA 455 Keyboard Performance Practices

1 credit

Cross-listed with MUSA 555.

Study of interpretation of keyboard music from Baroque through 20th century; learn to interpret scores, teach, and perform keyboard music stylistically; acquire knowledge of major performing artists and recordings from each period of music. Registration for graduate credit requires additional research into original treatises from each period of music, resulting in the editing of a piece of music from each of these periods. (Fall, Alt/even yrs).

MUSA 487 Conducting II

2 credits

(Spring only)

Prereq: MUSA 387 or Permission.

MUSA 490 Half Recital

0 credits

For students required to have one-half recital. Graded P/F.

Prereq: Audition and be enrolled in at least the second semester of MUSA 324 or MUSA 334 individual instruction and Permission

Coreq: MUSA 324 or MUSA 334.

MUSA 491 Recital

0 credits

Gen Ed: Senior Experience

For students required to have a full recital. May be repeated. Graded P/F.

Prereq: Audition and be enrolled in at least the third semester of MUSA 324 or MUSA 334 Individual Instruction and Permission

Coreq: MUSA 334.

MUSA 492 Elective Half Recital

0 credits

For students who wish to present an elective half recital. Graded P/F.

Prereq: Audition and Permission

Coreq: MUSA 324 or MUSA 334 .

MUSA 493 Elective Recital

0 credits

For students who and wish to present an elective full recital. Graded P/F.

Prereq: Audition and Permission

Coreq: MUSA 324 or MUSA 334 .

MUSA 499 (s) Directed Study

Credit arranged.

MUSA 500 Master's Research and Thesis

Credit arranged.

MUSA 501 (s) Seminar

Credit arranged.

MUSA 502 (s) Directed Study

Credit arranged.

MUSA 503 (s) Workshop

Credit arranged.

MUSA 504 (s) Special Topics

Credit arranged.

MUSA 505 (s) Professional Development

Credit arranged.

MUSA 514 (s) Studio Instruction

1 credit, max arranged

For secondary or minor instrument, nonmajors, and undeclared majors; may not be taken for audit. Weekly instruction. Instruction offered in piano, organ, harpsichord, voice, flute, oboe, clarinet, saxophone, bassoon, trumpet, horn, euphonium, trombone, tuba, percussion, violin, viola, cello, contrabass, or guitar. Final exam conducted by jury in some sections.

MUSA 515 Collaborative Piano

1 credit, max arranged

Joint-listed with MUSA 315

Principles of collaborative piano; lab assignments under supervision.

Prereq: Audition and completion of semester of MUSA 124 or MUSA 134 .

MUSA 516 Concert Choir--Vandaleers

1 credit, max arranged

Joint-listed with MUSA 116, MUSA 316.

Open to all students. Students earning upper division and graduate credits will be held to higher standards. Field trips.

Prereq: Audition and Permission.

MUSA 517 (s) University Chorus

1 credit, max arranged

Joint-listed with MUSA 117, MUSA 317.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 518 (s) Jazz Choir
1 credit, max arranged

Joint-listed with MUSA 118, MUSA 318.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 519 (s) Marching Band
1-3 credits, max arranged

Joint-listed with MUSA 119, MUSA 319.

Open to all students. Performance at home football games and other events and travel to selected away football games; field trips. Students earning upper division and graduate credits will be held to higher standards. (Fall only)

MUSA 520 (s) Wind Ensemble
1 credit, max arranged

Joint-listed with MUSA 120, MUSA 320.

Open to all students by audition. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .

MUSA 521 (s) Concert Band
1 credit, max arranged

Joint-listed with MUSA 121, MUSA 321

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

MUSA 522 (s) Orchestra
1 credit, max arranged

Joint-listed with MUSA 122, MUSA 322.

Open to all students. Students earning upper division and graduate credits will be held to higher standards.

Prereq: Audition and Permission.

MUSA 523 (s) Jazz Ensemble
1 credits, max arranged

Joint-listed with MUSA 123, MUSA 323

Open to all students. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .

MUSA 524 (s) Individual Instruction
2 credits, max arranged

Joint-listed with MUSA 124, MUSA 324.

For music majors in music degree programs other than performance; may not be taken for audit. Weekly instruction plus convocation/area recital/studio class; final exam conducted by jury. See MUSA 114 for instruction areas.

Prereq: Placement audition by committee .

MUSA 534 (s) Individual Instruction
3 credits, max arranged

Joint-listed with MUSA 134, MUSA 334.

For music majors in the B.Mus. performance degree; may not be taken for audit. Weekly instruction plus convocation/area recital/studio class; final exam conducted by jury. See MUSA 114 for instruction areas.

Prereq: Placement audition by committee .

MUSA 555 Keyboard Performance Practices
1 credit

Joint-listed with MUSA 455.

Study of interpretation of keyboard music from Baroque through 20th century; learn to interpret scores, teach, and perform keyboard music stylistically; acquire knowledge of major performing artists and recordings from each period of music. Registration for graduate credit requires additional research into original treatises from each period of music, resulting in the editing of a piece of music from each of these periods. (Fall, Alt/even yrs).

MUSA 565 (s) Chamber Ensemble
1 credit, max arranged

Joint-listed with MUSA 365.

Open to all students. Performance opportunities in chamber ensembles: string, brass, woodwind, percussion, keyboard, vocal, and mixed. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission.

MUSA 580 (s) Opera/Musical Theatre Studio
1-3 credits, max arranged

Joint-listed with MUSA 180, MUSA 380.

Analysis, rehearsal, and performance of operatic and musical theatre literature. Students earning graduate credit will be held to a higher standard.

Prereq: Audition and Permission .

MUSA 587 (s) Advanced Conducting
1-2 credits, max arranged

Advanced score study, baton technique, expressive gestures for conductors.

Prereq: Undergraduate conducting course.

MUSA 590 (s) Elective Master's Recital
0 credits

For students whose emphasis is other than performance. May be repeated. Graded P/F.

Prereq: Audition and Permission of committee

Coreq: MUSA 524 .

MUSA 591 (s) Required Master's Recital
0 credits

For students whose emphasis is in performance. May be repeated. Graded P/F.

Prereq: Audition and Permission of committee

Coreq: MUSA 524 or MUSA 534 .

MUSA 599 (s) Research
Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

MUSIC--COMPOSITION AND THEORY (MUSC)

MUSC 139 Aural Skills I

2 credits

Exercises and drill in sight-singing and ear training. Three lec-labs a wk. Recommended coreq: MUSA 145. (Fall only)

Prereq: Permission.

MUSC 140 Aural Skills II

2 credits

Exercises and drill in sight-singing and ear training. Three lec-labs a wk. Recommended coreq: MUSA 146. (Spring only)

Prereq: "C" or better in MUSC 139.

MUSC 141 Theory of Music I

2 credits

Melodic and harmonic materials, part-writing skills, and analysis. (Fall only)

Prereq: Permission.

MUSC 142 Theory of Music II

2 credits

Harmonic materials, part-writing skills, and analysis. (Spring only)

Prereq: "C" or better in MUSC 141 or Permission.

MUSC 200 (s) Seminar

Credit arranged.

MUSC 203 (s) Workshop

Credit arranged.

MUSC 204 (s) Special Topics

Credit arranged.

MUSC 225 Composition

2 credits, max arranged

Joint-listed with MUSC 425, MUSC 525.

For Music Majors. The craft of musical composition, using original composition assignments to focus on common techniques used by past and contemporary composers and to develop skill in notation. Active participation and performance is emphasized. MUSC 425 and MUSC 525 increasingly emphasize varied media and larger forms, but with value being placed on creativity and originality. In MUSC 425 and MUSC 525, class meetings are supplemented by private lessons.

Prereq or Coreq: MUSC 141 or Permission .

MUSC 239 Aural Skills III

1 credit

Continuation of MUSC 140. Two lec-labs a wk. Recommended coreq: MUSA 245. (Fall only)

Prereq: "C" or better in MUSC 139, MUSC 140

Coreq or Prereq: MUSC 241.

MUSC 240 Aural Skills IV

1 credit

Continuation of MUSC 140. Two lec-labs a wk. Recommended coreq: MUSA 246. (Spring only)

Prereq: "C" or better in MUSC 239

Coreq or Prereq: MUSC 242.

MUSC 241 Theory of Music III

3 credits

(Fall only)

Prereq: "C" or better in MUSC 142.

MUSC 242 Theory of Music IV

3 credits

(Spring only)

Prereq: "C" or better in MUSC 241.

MUSC 299 (s) Directed Study

Credit arranged.

MUSC 328 Instrumental and Choral Arranging

2 credits

Principles of instrumentation, transcription, and arranging with emphasis on idiomatic instrumental and choral writing leading to projects in scoring for chamber, band, orchestral, and vocal ensembles. (Spring only)

Prereq: "C" or better in MUSC 242.

MUSC 329 Theoretical Basis of Jazz

2 credits

Harmonic, melodic, rhythmic, and stylistic analysis of principal trends. (Fall only)

Prereq: MUSC 141 or Permission.

MUSC 331 Counterpoint

3 credits

Style and technique of polyphonic 16th century vocal music through 18th century instrumental music, with emphasis on two- to three-part writing; motet, canon, invention, and fugue.

Prereq: MUSC 242 or Permission.

MUSC 400 (s) Seminar

Credit arranged.

MUSC 403 (s) Workshop

Credit arranged.

MUSC 404 (s) Special Topics

Credit arranged.

MUSC 425 Composition

2 credits, max arranged

Joint-listed with MUSC 225, MUSC 525.

For Music Majors. The craft of musical composition, using original composition assignments to focus on common techniques used by past and contemporary composers and to develop skill in notation. Active participation and performance is emphasized. MUSC 425 and MUSC 525 increasingly emphasize varied media and larger forms, but with value being placed on creativity and originality. In MUSC 425 and MUSC 525, class meetings are supplemented by private lessons.

Prereq or Coreq: MUSC 141 or Permission .

MUSC 426 Electronic Music

2 credits

Techniques of musical composition using electronic media. (Spring, Alt/odd yrs)

Prereq: MUSC 242 or Permission.

MUSC 437 Music in Film

3 credits

Joint-listed with MUSC 537

A seminar in the processes, techniques and evaluation of music as used in film. Materials will change each time the course is offered but the major focus will be main-stream motion pictures. Students enrolled for graduate credit will be expected to complete deeper analysis of selected film scores, and to make a presentation in class. (Fall, Alt/odd yrs)

MUSC 442 Musical Analysis

2 credits

Study of traditional forms and analytical techniques. (Spring only)

Prereq: MUSC 242.

MUSC 480 Senior Thesis in Music Theory I

1 credit

Extended research paper, with documentation; subject to be determined in consultation with supervising faculty.

Prereq: MUSC 442.

MUSC 481 Senior Thesis in Music Theory II

1 credit

Gen Ed: Senior Experience

Continuation and completion of extended research paper, with documentation; subject to be determined in consultation with supervising faculty.

Prereq: MUSC 480.

MUSC 490 Senior Recital

0 credits

Gen Ed: Senior Experience

For students in composition required to have a full recital. Graded P/F.

Prereq: audition and Permission

Coreq: MUSC 425.

MUSC 499 (s) Directed Study

Credit arranged.

MUSC 500 Master's Research and Thesis

Credit arranged.

MUSC 501 (s) Seminar

Credit arranged.

MUSC 502 (s) Directed Study

Credit arranged.

MUSC 503 (s) Workshop

Credit arranged.

MUSC 504 (s) Special Topics

Credit arranged.

MUSC 505 (s) Professional Development

Credit arranged.

MUSC 521 Musical Analysis

3 credits

Analysis of selected musical compositions.

Prereq: Permission.

MUSC 525 Composition

2 credits, max arranged

Joint-listed with MUSC 225, MUSC 425.

For Music Majors. The craft of musical composition, using original composition assignments to focus on common techniques used by past and contemporary composers and to develop skill in notation. Active participation and performance is emphasized. MUSC 425 and MUSC 525 increasingly emphasize varied media and larger forms, but with value being placed on creativity and originality. In MUSC 425 and MUSC 525, class meetings are supplemented by private lessons.

Prereq or Coreq: MUSC 141 or Permission .

MUSC 537 Music in Film

3 credits

Joint-listed with MUSC 437

A seminar in the processes, techniques and evaluation of music as used in film. Materials will change each time the course is offered but the major focus will be main-stream motion pictures. Students enrolled for graduate credit will be expected to complete deeper analysis of selected film scores, and to make a presentation in class. (Fall, Alt/odd yrs)

MUSC 590 (s) Master's Comp Recital

0 credits

For students whose degree requires a composition recital as part of the degree requirements. Graded P/F.

Prereq: Audition and Permission of committee

Coreq: MUSC 525 .

MUSC 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

MUSIC--GENERAL (MUSX)

MUSX 101 Orientation for Music Majors

0 credits

An orientation to requirements, processes, and opportunities associated with the study of music as a discipline for new students in the School of Music; a foundation for success and survival in the study of music. Graded P/F. Hybrid lecture and online course for first year students; online only course for transfer students.

MUSX 140 Recital Attendance

0 credits

Students will attend five Lionel Hampton School of Music (LHSOM) Convocations, five faculty/guest recitals, and five other music performances. Graded P/F.

MUSX 200 (s) Seminar

Credit arranged.

MUSX 203 (s) Workshop

Credit arranged.

MUSX 204 (s) Special Topics

Credit arranged.

MUSX 283 (s) English and Italian Diction for Singers

2 credits

The first semester in a yearlong sequence of study of the use of the International Phonetic Alphabet in English and foreign languages for singing. This course covers the phonetic symbols and diction rules for English and Italian.

Prereq: Music Major or Permission .

MUSX 284 (s) German and French Diction

2 credits

Continuation of the study of the use of the International Phonetic Alphabet in singing. This course covers the phonetic symbols and diction rules for German and French.

Prereq: MUSX 283 .

MUSX 298 (s) Internship

1-3 credits, max arranged

Open to all students. Graded P/F.

Prereq: Permission.

MUSX 299 (s) Directed Study

Credit arranged.

MUSX 301 Technology for Musicians

1 credit

Current applicable music technologies and software, as well as lighting, acoustics, recording, sound reinforcement and troubleshooting associated with technology.

Prereq: Music Major or Permission.

MUSX 320 Alexander Technique I

1 credit

Joint-listed with MUSX 520.

An active and scholarly exploration of the Alexander Technique. Participants will discover how their habits of movement are interfering with their overall coordination. The purpose of this course is to unlock creativity, discover freedom and ease in performance, reduce stress and tension throughout the body, and prevent performance related injuries.

MUSX 330 Continuing Studies in the Alexander Technique

1 credit, max arranged

Joint-listed MUSX 530.

Continuation of study of the Alexander Technique for musicians, actors and dancers.

Prereq: MUSX 320 or MUSX 520.

MUSX 400 (s) Seminar

Credit arranged.

MUSX 403 (s) Workshop

Credit arranged.

MUSX 404 (s) Special Topics

Credit arranged.

MUSX 410 Current Topics in Music Business

3 credits

This course will focus on the current topics and trends common to the many areas that fall under the umbrella of Music Business. Topics will include: career niches and opportunities, press kit/introduction materials (bios, resume, CV, cover letters, business cards, headshots), the audition process, touring, branding, marketing and advertising oneself or a group, copyright laws, publications, social media and online presence, taxes, and professional ethics.

MUSX 498 (s) Internship

1-3 credits, max arranged

Open to all juniors and seniors and graduate students. Graded P/F.

Prereq: Permission.

MUSX 499 (s) Directed Study

Credit arranged.

MUSX 500 Master's Research and Thesis

Credit arranged.

MUSX 501 (s) Seminar

Credit arranged.

MUSX 502 (s) Directed Study

Credit arranged.

MUSX 503 (s) Workshop

Credit arranged.

MUSX 504 (s) Special Topics

Credit arranged.

MUSX 511 Bibliography and Research

3 credits

Orientation to grad study; bibliography and research procedures.

Prereq: Admission to graduate program or Permission.

MUSX 520 Alexander Technique I

1 credit

Joint-listed with MUSX 320.

An active and scholarly exploration of the Alexander Technique. Participants will discover how their habits of movement are interfering with their overall coordination. The purpose of this course is to unlock creativity, discover freedom and ease in performance, reduce stress and tension throughout the body, and prevent performance related injuries.

MUSX 530 Continuing Studies in the Alexander Technique

1 credit, max arranged

Joint-listed MUSX 330.

Continuation of study of the Alexander Technique for musicians, actors and dancers.

Prereq: MUSX 320 or MUSX 520.

MUSX 598 (s) Internship

Credit arranged.

MUSX 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

MUSIC--HISTORY AND LITERATURE (MUSH)

MUSH 101 (s) Survey of Music

3 credits

Gen Ed: Humanities

Not open for cr to majors. Intro to the art and nature of music; emphasis on aural skills, historical styles, musical forms, and the literature of music.

MUSH 111 Introduction to Music Literature

3 credits

Gen Ed: Humanities

Introduction to the study of music literature, including western and world traditions. Emphasis on aural and score analysis, writing, and research techniques. (Spring only)

Prereq: MUSC 141.

MUSH 200 (s) Seminar

Credit arranged.

MUSH 201 History of Rock and Roll

3 credits

Gen Ed: Humanities

A study of the history and culture of rock music. May not be counted as a required music history elective for music majors.

MUSH 203 (s) Workshop

Credit arranged.

MUSH 204 (s) Special Topics

Credit arranged.

MUSH 299 (s) Directed Study

Credit arranged.

MUSH 321 Music in Western Civilization I

3 credits

Musical culture, styles, and genres from the Middle Ages through 1750. (Fall only)

Prereq: "C" or better in MUSH 101 or MUSH 111.

MUSH 322 Music in Western Civilization II

3 credits

European and American musical culture, styles, and genres from 1750 to World War I. (Spring only)

Prereq: "C" or better in MUSH 101 or MUSH 111.

MUSH 323 Music in Western Civilization III

3 credits

European and American musical cultures, styles, and genres, including jazz, from World War I to the present. (Fall only)

Prereq: "C" or better in MUSH 101 or MUSH 111.

MUSH 330 History of Music Theatre

3 credits

A study of the development of American musical theatre. Students will analyze the forms and styles of representative works. (Alt/yrs)

MUSH 400 (s) Seminar

Credit arranged.

MUSH 403 (s) Workshop

Credit arranged.

MUSH 404 (s) Special Topics

Credit arranged.

MUSH 410 (s) Studies in Jazz History

3 credits

Gen Ed: American Diversity

Joint-listed with MUSH 510.

Selected topics in jazz. Additional projects/assignments required for graduate credit. (Fall, Alt/odd yrs)

Prereq: MUSH 321, MUSH 322, MUSH 323 or Permission .

MUSH 418 (s) Studies in Classic/Romantic Music

3 credits

Joint-listed with MUSH 518.

Selected topics in Classic/Romantic music. Additional projects/assignments reqd for grad cr. (Fall, Alt/even yrs)

Prereq: MUSH 321, MUSH 322, MUSH 323 or Permission.

MUSH 419 (s) Studies in 20th Century Music

3 credits

Joint-listed with MUSH 519.

Selected topics in 20th-century music. Additional projects/assignments required for graduate credit. (Spring, Alt/even yrs)

Prereq: MUSH 321, MUSH 322, MUSH 323 or Permission .

MUSH 420 Studies in World Music

3 credits

Gen Ed: International

Joint-listed with MUSH 520.

Selected topics in the music of world cultures. Additional projects/assignments required for graduate credit. (Spring, alt/odd yrs)

Prereq: MUSH 321, MUSH 322, and MUSH 323; or Permission .

MUSH 450 Orchestral Literature

2 credits

Joint-listed with MUSH 550.

Open to all students. Survey of standard orchestral literature. Additional assignments required for graduate students. (Spring, Alt/even yrs)

Prereq: MUSH 322, MUSH 323, and Jr standing, or Permission.

MUSH 451 (s) Repertoire

2 credits, max arranged

Joint-listed with MUSH 551.

May be repeated for cr as content changes. Historical and analytical survey of literature available in all performing media. Additional projects/assignments reqd for grad cr.

Prereq: Junior standing and Permission.

MUSH 452 Solo Vocal Repertoire

2 credits

Historical and analytical survey of solo vocal literature. (Fall, Alt/even yrs)

Prereq: Permission.

MUSH 454 Keyboard Repertoire I

2 credits

Joint-listed with MUSH 554.

Content will cover the development of keyboard literature from J.S. Bach through Beethoven. Additional projects/assignments reqd for grad cr. (Fall, Alt/odd yrs)

Prereq: Permission.

MUSH 455 Keyboard Repertoire II

2 credits

Joint-listed with MUSH 555.

Content will cover the development of keyboard literature from Schubert to present. Additional projects/assignments reqd for grad cr. (Spring, Alt/even yrs)

Prereq: Permission.

MUSH 456 Choral Literature I**2 credits**

Joint-listed with MUSH 556.

Historical and analytical survey of choral literature from the early Renaissance through Classical era. Additional projects/assignments required for graduate credit.

MUSH 457 Choral Literature II**2 credits**

Joint-listed with MUSH 557.

Historical and analytical survey of choral literature from the Romantic through Contemporary era. Additional projects/assignments required for graduate credit.

Prereq for MUSH 457: MUSH 456**Prereq** for MUSH 557: MUSH 556 .**MUSH 480 Senior Thesis in Music History I****1 credits**

Extended research paper, with documentation; subject to be determined in consultation with supervising faculty.

Prereq: MUSH 321, MUSH 322, MUSH 323, one 400 music history elective, and Permission.

MUSH 481 Senior Thesis in Music History II**1 credit***Gen Ed: Senior Experience*

Continuation and completion of extended research paper, with documentation; subject to be determined in consultation with supervising faculty.

Prereq: MUSH 480.**MUSH 499 (s) Directed Study****Credit arranged.****MUSH 500 Master's Research and Thesis****Credit arranged.****MUSH 501 (s) Seminar****Credit arranged**

(Spring, even yrs on-line, odd yrs on-campus)

MUSH 502 (s) Directed Study**Credit arranged.****MUSH 503 (s) Workshop****Credit arranged.****MUSH 504 (s) Special Topics****Credit arranged.****MUSH 510 (s) Studies in Jazz History****3 credits**

Joint-listed with MUSH 410.

Gen Ed: American Diversity

Selected topics in jazz. Additional projects/assignments required for graduate credit. (Fall, Alt/odd yrs)

Prereq: MUSH 321, MUSH 322, MUSH 323 or Permission .**MUSH 518 (s) Studies in Classic/Romantic Music****3 credits**

Joint-listed with MUSH 418.

Selected topics in Classic/Romantic music. Additional projects/assignments reqd for grad cr. (Fall, Alt/even yrs)

Prereq: MUSH 321, MUSH 322, MUSH 323 or Permission.**MUSH 519 (s) Studies in 20th Century Music****3 credits**

Joint-listed with MUSH 419.

Selected topics in 20th-century music. Additional projects/assignments required for graduate credit. (Spring, Alt/even yrs)

Prereq: MUSH 321, MUSH 322, MUSH 323 or Permission.**MUSH 520 Studies in World Music****3 credits**

Joint-listed with MUSH 420.

Selected topics in the music of world cultures. Additional projects/assignments required for graduate credit. (Spring, alt/odd yrs)

Prereq: MUSH 321, MUSH 322, and MUSH 323; or Permission .**MUSH 550 Orchestral Literature****2 credits**

Joint-listed with MUSH 450.

Open to all students. Survey of standard orchestral literature. Additional assignments required for graduate students. (Spring, Alt/even yrs)

Prereq: MUSH 322, MUSH 323, and Jr standing, or Permission.**MUSH 551 (s) Repertoire****2 credits, max arranged**

Joint-listed with MUSH 451. May be repeated for cr as content changes.

Historical and analytical survey of literature available in all performing media. Additional projects/assignments reqd for grad cr.

Prereq: Junior standing and Permission.**MUSH 554 Keyboard Repertoire I****2 credits**

Joint-listed with MUSH 454.

Content will cover the development of keyboard literature from J.S. Bach through Beethoven. Additional projects/assignments reqd for grad cr.

(Fall, Alt/odd yrs)

Joint-listed with MUSH 456.

Historical and analytical survey of choral literature from the early Renaissance through Classical era. Additional projects/assignments required for graduate credit.

MUSH 557 Choral Literature II**2 credits**

Joint-listed with MUSH 457.

Historical and analytical survey of choral literature from the Romantic through Contemporary era. Additional projects/assignments required for graduate credit.

Prereq for MUSH 457: MUSH 456**Prereq** for MUSH 557: MUSH 556 .**MUSH 599 (s) Research****Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.

MUSIC--TEACHING (MUST)

MUST 200 (s) Seminar
Credit arranged.

MUST 203 (s) Workshop
Credit arranged.

MUST 204 (s) Special Topics
Credit arranged.

MUST 251 String Instrument Techniques
1 credit

Group instruction. Problems of playing and teaching stringed instruments in elementary and secondary schools. (Fall only)

Prereq: Permission.

MUST 253 Brass Instrument Techniques
1 credit

Group instruction. Problems of playing and teaching brass instruments in elementary and secondary schools. (Spring only)

Prereq: Permission.

MUST 254 Percussion Techniques
1 credit

Group instruction. Problems of playing and teaching percussion instruments in elementary and secondary schools. (Spring only)

Prereq: Permission.

MUST 255 Woodwind Techniques
1 credit

Group instruction. Problems of playing and teaching clarinet, flute, and saxophone in elementary and secondary schools. (Spring only)

Prereq: Permission.

MUST 256 String Techniques and Orchestral Literature
1 credit

Group Instruction. Continued study of problems of playing and teaching stringed instruments, including music literature and materials, elementary and secondary schools.

Prereq: MUST 251.

MUST 299 (s) Directed Study
Credit arranged.

MUST 352 Double Reed Techniques
1 credit

Group instruction. Problems of playing and teaching oboe and bassoon in elementary and secondary schools. (Fall only)

Prereq: MUST 255 or Permission.

MUST 382 General Music Methods
3 credits

Curriculum design, instructional materials, and methodologies (including Orff, Kodaly and Dalcroze approaches) for teaching general music in grades K-8. Practicum -approximately five field-teaching experiences must be scheduled in general music classrooms outside of class time. (Spring only)

Prereq: EDCI 201 and admission to the teacher education program; or Permission

Prereq or Coreq: MUST 383.

MUST 383 Principles of Music Teaching
3 credits

Philosophy, principles, curriculum, and organization of the school music program; world music pedagogy; teaching cultural diverse learners. (Fall only)

Prereq: EDCI 201, MUSC 142, and admission to teacher education program; or Permission .

MUST 385 Choral Music in the Secondary School
3 credits

Methods, instructional materials, rehearsal techniques and techniques for teaching choral music in grades 7-12. Includes practicum hours. (Fall, Alt/odd yrs)

Prereq: 1 cr in MUSA 116/MUSA 316 or 1 cr in MUSA 117/MUSA 317

Prereq or Coreq: 1 additional cr in MUSA 116/MUSA 316 or 1 cr in MUSA 117/MUSA 317; and MUST 383; and MUSA 387; or Permission.

MUST 386 Instrumental Music in the Secondary School
3 credits

Methods, instructional materials, rehearsal techniques and techniques for teaching instrumental music in grades 7-12. Includes practicum hours. (Spring only)

Prereq: MUSC 142

Prereq or Coreq: MUST 383, MUSA 387, or Permission.

MUST 400 (s) Seminar
Credit arranged.

MUST 403 (s) Workshop
Credit arranged.

MUST 404 (s) Special Topics
Credit arranged.

MUST 405 (s) Professional Development
Credit arranged.

MUST 432 (s) Practicum: Music Teaching
11 credits

Gen Ed: Senior Experience

Supervised music teaching in public schools. Graded P/F.

Prereq: Successful completion of all required course work for the Music Education: Vocal or Instrumental major, cumulative GPA of 2.75, acceptance to the College of Education and permission of the School of Music.

Coreq: MUST 445 .

MUST 435 (s) Pedagogy & Materials
2 credits, max arranged

Joint-listed with MUST 535.

Methods and materials of performance techniques for each performance field. Additional projects/assignments reqd for grad cr. (Vocal Pedagogy – Spring, Alt/odd yrs)

Prereq: Permission.

MUST 436 Pedagogy and Materials: Keyboard I
2 credits

Joint-listed with MUST 536.

Objectives and goals of teaching the beginning piano student in regards to business aspects, literature and techniques. Additional projects/assignments reqd for grad cr. (Fall, Alt/even yrs)

Prereq: Permission.

MUST 437 Pedagogy and Materials: Keyboard II**2 credits**

Joint-listed with MUST 537.

Objectives and goals of teaching the intermediate and early advanced piano student in regards to literature and techniques. Additional projects/ assignments reqd for grad cr. (Spring, Alt/odd yrs)

Prereq: Permission.**MUST 438 (s) Practicum****Credit arranged**

Studio and classroom teaching of secondary music majors, minors, or electives.

Prereq: Permission.**MUST 445 Proseminar in Music Teaching****1 credit****Coreq:** MUST 432.**MUST 465 Jazz Band Rehearsal Techniques****2 credits**

Methods, materials, and literature for jazz bands in public schools. (Spring only)

Prereq or Coreq: MUST 383**Coreq:** MUSA 323 or MUSA 365 (Jazz Combo)**MUST 466 Marching Band Techniques****1 credit**

Techniques of drilling; materials for field and street maneuvers; preparation of shows. (Fall only)

Prereq: MUSC 142**Prereq or Coreq:** MUSA 119/MUSA 319; or Permission.**MUST 499 (s) Directed Study****Credit arranged.****MUST 500 Master's Research and Thesis****Credit arranged.****MUST 501 (s) Seminar****Credit arranged.****MUST 502 (s) Directed Study****Credit arranged.****MUST 503 (s) Workshop****Credit arranged.****MUST 504 (s) Special Topics****Credit arranged.****MUST 505 (s) Professional Development****Credit arranged**

Scope and sequence of musical experience in public schools through curriculum development.

MUST 508 Psychology of Music**3 credits**

The physical and psychological aspects of music involving human behavior.

MUST 509 Foundations of Music Education**3 credits**

A treatment of historical perspectives, philosophy- aesthetics identified with music education, and learning theories applied to music teaching/ learning. Basic research and writing skills appropriate to graduate studies in music education. Offered via the Web only. (Spring, odd alt/yrs)

MUST 510 Portfolio 1**1 credit**

First semester of work on the required capstone electronic portfolio. Must be taken the first semester of study. Offered via the Web only.

MUST 511 Introduction to Research in Music Education**3 credits**

Writing skills, materials, and procedures utilized in music research; measurement, experimental design, theories/ procedures for evaluation, statistics, computer applications, and initiation of scholarly research. Offered via the Web only. (Spring, odd alt/yrs)

MUST 512 Contemporary Trends in Music Education**3 credits**

Current philosophies and concepts influencing contemporary music education practices, methods, and material. Investigation into social psychology of music as applied to existing music instruction in public schools. Offered via the Web only. (Fall, odd alt/yrs)

MUST 513 Assessment of Musical Behaviors**3 credits**

Review of standardized music tests and an examination of methods for developing tests related to the measurement of musical behavior. Offered via the Web only. (Spring, odd alt/yrs)

MUST 514 Multicultural Music Education**3 credits**

Overview of historical, philosophical, cultural, and pedagogical issues in multicultural music education. Emphasis on the development of knowledge that will inform and enhance instructional practice. Offered via the Web only. (Spring, odd alt/yrs)

MUST 515 Music for Special Learners**3 credits**

Review of the learning styles of exceptional children and the implications for providing realistic musical activities in the classroom. Emphasis will be placed on developing musical skills with special learners. Offered via the Web only. (Fall, odd alt/yrs)

MUST 535 (s) Pedagogy & Materials**2 credits, max arranged**

Joint-listed with MUST 435.

Methods and materials of performance techniques for each performance field. Additional projects/assignments reqd for grad cr. (Vocal Pedagogy – Spring, Alt/odd yrs)

Prereq: Permission.**MUST 536 Pedagogy and Materials: Keyboard I****2 credits**

Joint-listed with MUST 436.

Objectives and goals of teaching the beginning piano student in regards to business aspects, literature and techniques. Additional projects/ assignments reqd for grad cr. (Fall, Alt/even yrs)

Prereq: Permission.**MUST 537 Pedagogy and Materials: Keyboard II****2 credits**

Joint-listed with MUST 437.

Objectives and goals of teaching the intermediate and early advanced piano student in regards to literature and techniques. Additional projects/ assignments reqd for grad cr. (Spring, Alt/odd yrs)

Prereq: Permission.

MUST 538 (s) Practicum

Credit arranged

Studio and classroom teaching of secondary music majors, minors, or electives.

Prereq: Permission.

MUST 560 Portfolio 2

1 credit

Final semester of work to complete the required capstone electronic portfolio. Offered via the Web only.

Prereq: MUST 510 .

MUST 568 Technology in the Music Classroom

1 credit

Advanced study of music technology with an emphasis on integration into the music classroom. (Summer, even yrs)

MUST 585 Advanced Choral Methods

1 credit

Examination of contemporary research and pedagogy with an emphasis on developing appropriate instructional strategies for use with adolescent students in choral and general music classrooms. (Summer, odd yrs)

MUST 586 Advanced Instrumental Methods

1 credit

Overview of current practice in learning and teaching music with emphasis on the development of practical strategies for implementation within the instrumental music classroom. (Summer, odd yrs)

MUST 598 (s) Internship

Credit arranged.

MUST 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

NATURAL RESOURCES (NR)

NR 101 Exploring Natural Resources

2 credits

Introduction to the interdisciplinary fields and professions in natural resources. Includes field trips. (Fall only)

NR 200 (s) Seminar

Credit arranged.

NR 203 (s) Workshop

Credit arranged.

NR 204 (s) Special Topics

Credit arranged.

NR 299 (s) Directed Study

Credit arranged.

NR 300 Ecology and Conservation Biology Thesis Seminar

1 credit

A survey of issues related to professional development and thesis preparation in the field of Ecology and Conservation Biology.

Prereq: Instructor Permission .

NR 321 Ecology

3 credits

Fundamental principles of the science of ecology. Major topics covered by the course include the physical environment, how organisms interact with each other and their environment, evolutionary processes, population dynamics, communities, energy flow and ecosystems, human influences on ecosystems, and the integration and scaling of ecological processes through systems ecology. Computer-based materials are used extensively for guided independent learning of ecology. Course information: EcologyOnline.net. Recommended Preparation: Introductory botany and zoology.

Prereq: Introductory Biology or permission.

NR 322 Field Ecology

2 credits

Introduction to field methods in the science of ecology. This field course, offered in the Frank Church River of No Return Wilderness, emphasizes a unique outdoor experience for ecological observations and understanding. Methods for monitoring and ecological assessment will include experimental design, use of instruments for data collection, and data analysis.

Prereq: BIOL 102 and BIOL 102L, BIOL 114, BIOL 115, BIOL 115L or permission

Coreq: NR 321 .

NR 400 (s) Seminar

Credit arranged.

NR 403 (s) Workshop

Credit arranged.

NR 404 (s) Special Topics

Credit arranged.

NR 405 (s) Professional Development

Credit arranged.

NR 406 Teaching Asst. Practicum

1-2 credits

Instructional and other classroom assistance for NR 101 – Exploring Natural Resources performed by students under faculty supervision.

Prereq: Permission .

NR 407 Natural Resource Ambassador Practicum

1-2 credits, max 12

Student ambassadors are selected through an application and interview process to represent CNR to future students at recruiting activities and functions. Students will learn skills in leadership, communication, networking, public speaking, and time management. Students will be responsible for visiting high schools, attending college and career fairs, recruiting events on campus.

Prereq: Permission .

NR 497 Senior Thesis

1-3 credits, max 3

Independently plan and conduct a thesis project; write and defend the thesis under supervision of a supervisor.

Prereq: Senior standing and Permission.

NR 498 (s) Internship

Credit arranged.

NR 499 (s) Directed Study

Credit arranged

For the individual student; conferences, library, field, or lab work.

Prereq: Senior standing in the College of Natural Resources, GPA 2.5, and Permission.

NR 501 (s) Seminar

Credit arranged

Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics.

Prereq: Permission.

NR 502 (s) Directed Study

Credit arranged.

NR 503 (s) Workshop

Credit arranged

Selected topics in the conservation and management of natural resources.

Prereq: Permission.

NR 504 (s) Special Topics

Credit arranged.

NR 505 Advanced GIS Applications in Wildlife Sciences

1 credit

Advanced wildlife GIS applications focusing on spatial home range computations and habitat studies; accelerated.

Prereq: GIS experience or Permission.

NR 507 Moral Reasoning in Natural Resources

3 credits

Exploration of the practical aspects of moral reasoning on current issues in natural resources. The purpose of the course is to discover the essence of reasoning, rationality, and reflection on moral and ethical dilemmas with regard to current issues in natural resources.

NR 511 Preparing Scientific Manuscripts

1 credit

Details the preparation of manuscripts for thesis chapters and submission to peer-reviewed journals. Exercises include identifying scope, unique requirements for manuscript parts, use of graphing and reference database tools, editing and peer reviewing. Two 75 min classes per week, first half of semester. Second half of semester involves weekly writing workshops to finalize projects. Entry into class requires possession of analyzed dataset

Prereq: Instructor Permission.

NR 520 Preparing Scientific Manuscripts**3 credits**

Details the preparation of manuscripts for thesis chapters and submission to peer-reviewed journals. Exercises include identifying scope, unique requirements for manuscript parts, use of graphing and reference database tools, editing and peer reviewing. Two 75 min classes per week, first half of semester. Second half of semester involves weekly writing workshops to finalize projects. Entry into class requires possession of analyzed dataset.

Prereq: Permission.

NR 525 Scientific Graphics Design**3 credits**

Principles of graphics design for science, including the graphical presentation of data for printed and electronic journals, poster presentations, and oral presentations. Students will analyze published scientific graphics as well as learn to design their own graphs based on data from their graduate research or other sources.

NR 598 (s) Internship

Credit arranged.

NR 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

NR 600 Doctoral Research and Dissertation

Credit arranged

Prereq: Admission to the doctoral program in "natural resources" and Permission of department.

NATURAL RESOURCES AND SOCIETY (NRS)

NRS 125 Introduction to Conservation and Natural Resources **3 credits**

Gen Ed: Social Science

Foundations of natural resource management and agencies with responsibility for land management; philosophical, theoretical, and historical basis for protected areas; principles and frameworks for managing human use of and recreation on public lands.

NRS 200 (s) Seminar **Credit arranged.**

NRS 203 (s) Workshop **Credit arranged.**

NRS 204 (s) Special Topics **Credit arranged.**

NRS 235 Society and Natural Resources **3 credits**

Gen Ed: Social Science

Cross-listed with FOR 235.

An exploration of how people use, value, manage, impact, and are affected by natural resources; course emphasizes social and economic realities and political and legal processes in a context of current and historical natural resource issues. Two lectures and one 1-hr small discussion group meeting a week.

NRS 250 Environmental Problem Solving **3 credits**

Integrated problem solving through simulations of environmental protection challenges and issues. Utilizing team-building approaches students identify environmental problems, analyze data, and develop strategies for solutions.

NRS 299 (s) Directed Study **Credit arranged.**

NRS 304 Conservation Social Sciences Field Studies **3 credits**

Field site evaluation of conservation social science cases. One hundred and twenty hours of instruction during a 12-day field excursion during summer session; pre- and post-visit written and oral assignments; special fee assessed. (Summer only)

NRS 310 Social Science Methods **4 credits**

Quantitative, qualitative, and mixed approaches to studying social aspects of conservation and the environment; how to choose and apply selective research methods; design, collection, and statistical analysis of primary and secondary data; program evaluation; reporting results; interpreting research literature; lab exercises in research design, data collection, and analysis; and the communication of research issues and findings to lay and professional audiences. Special fee assessed. Three lec and 2 hrs of lab a wk. Recommended Preparation: Basic computer skills. (Fall only)

Prereq: STAT 251 .

NRS 311 Public Involvement in Natural Resource Management **3 credits**

Theoretical and applied concepts of public involvement in both public and private sectors of natural resource management; case studies and applied techniques or methods for public involvement; National Environmental Policy Act (NEPA) regulations and other public involvement policy or law. Field trip may be reqd. (Spring only)

NRS 364 Politics of the Environment **3 credits**

Cross-listed with POLS 364

Political factors that influence formation, implementation, and impact of public policies aimed at protecting the environment.

NRS 375 Introduction to Spatial Analysis for Natural Resource Management **3 credits**

Cross-listed with FOR 375.

Methods and techniques for obtaining quantitative and qualitative geospatial information from aerial and satellite images, maps, and the Global Positioning System for input into geographic information systems. Analysis of geospatial data for mapping, monitoring and planning associated with all aspects of natural resource management. Two lec and one 2-hr lab a wk.

Prereq: College Algebra.

NRS 383 Natural Resource and Ecosystem Service Economics **3 credits**

The role and application of economic theories and methods in natural resource and ecosystem service decision-making. Economic tools are applied to the management of forests, fisheries, rangeland, recreation, wildlife, and other contemporary issues. (Spring only)

Prereq: FOR 235 or NRS 235; and ECON 202 or ECON 272; and MATH 143.

NRS 385 Conservation Management and Planning - I **4 credits**

Theory and practice of decision-making for conservation planning and management, including protected areas, working landscapes, conservation organizations and the challenges facing natural resource managers in the 21st Century. Field trips and a collaborative group community Service-Learning project are required. (Fall only)

NRS 386 Social-Ecological Systems **3 credits**

Social-ecological systems are comprised of interconnected social, economic, and environmental components. Explore social-ecological systems frameworks and fundamental principles of sustainability in social-ecological systems by examining theory and practice in case studies. Topics may include natural resource scarcity and human conflict, ecosystem service provision, management, and conservation, and land tenure, rights, and justice relating to human access to natural resources.

NRS 387 Environmental Communication Skills **3 credits**

Introduction to communications skills in the context of natural resources, including environmental and cultural interpretation; communication psychology and media applied to noncaptive audiences in natural resource situations. Field trip may be required. Special fee assessed.

Prereq: Permission.

NRS 398 (s) Internship **Credit arranged.**

NRS 400 (s) Seminar **Credit arranged.**

NRS 401 (s) Practicum in Tutoring

1-3 credits, max 3

Tutorial services performed by advanced students under faculty supervision. Graded P/F.

Prereq: Permission.

NRS 403 (s) Workshop

Credit arranged.

NRS 404 (s) Special Topics

Credit arranged.

NRS 411 Environmental Project Management and Decision Making

4 credits

Integrated, interdisciplinary approaches to project and program management and decision making. Emphasis on environmental planning techniques, scenario development, analysis, and application of geospatial tools such as GIS and remote sensing. Direct experience and basic skills for project and program development and evaluation.

Prereq: NRS 311 .

NRS 440 Wildland Restoration Ecology

3 credits

Cross-listed with REM 440

Ecological principles and management practices involved in restoring and rehabilitating wildland ecosystems after disturbance or alteration to return damaged ecosystems to a productive and stable state. (Spring only)

Prereq: FOR 221, or REM 221, or equivalent general ecology course.

NRS 450 Global Environmental Change

3 credits

Major global environmental changes addressed using an interdisciplinary approach. Topics may include processes and principles of ecosystems, biogeochemical cycles, impacts and mitigation of climatic change, atmospheric chemistry, feedbacks between climate and various earth system processes, and trends in global biodiversity.

Prereq: MATH 143 or STAT 251.

NRS 462 Natural Resource Policy

3 credits

Cross-listed with POLS 462

Political and institutional context for making natural resource policy; emphasis on interaction between private and public sectors and the federal, state, and tribal governments, including an examination of topical issues in natural resource politics.

NRS 472 Remote Sensing of the Environment

3-4 credits

Cross-listed with FOR 472 and REM 472

Current airborne and satellite systems, data acquisition on ground and from remote locations, instrumentation, imagery interpretation and digital analysis, applications for natural resource science and management.

Two 75-minute lectures and one two-hour lab per week. Recommended Preparation: MATH 143. Cooperative: open to WSU degree-seeking students.

NRS 473 ECB Senior Presentation

1 credit

Gen Ed: Senior Experience

Cross-listed with FISH 473, FOR 473, REM 473, RMA 473, and WLF 473 Reporting and presenting the senior project (thesis or internship); taken after or concurrently with NRS 485 or NRS 497. Serves as the senior capstone course for Ecology and Conservation Biology (ECB).

Prereq: Instructor Permission.

NRS 475 Conservation Planning and Management

4 credits

Gen Ed: Senior Experience

Advanced theory, processes and techniques for the management and planning of conservation systems and working landscapes. In-depth focus on conservation planning approaches such as comprehensive, strategic, advocacy and communicative action planning; critical examination of sprawl and the alternatives for managing land use and development on natural sites and larger landscapes at the urban-rural interface. Collaborative group exercises, a community Service-Learning Project and required field trips.

Prereq: Junior or Senior standing; or Permission.

NRS 481 Conservation Leadership

3 credits

Generates essential understanding, insight, and skills into leadership of political and organizational systems designed to conserve natural resources. Field trip may be required. (Spring only)

Prereq: NRS 235, NRS 125.

NRS 482 Outdoor Leadership Expedition

3 credits

This expedition based course will explore the practice of leadership, using the wilderness experience as the classroom. Topics include trip planning, small group dynamics, decision-making, communication and expedition behavior. Examining leadership theory, modeling of leadership techniques, written assignments, and backcountry skill development are used to support learning.

NRS 483 Senior Project Presentation

1 credit

Cross-listed with FISH 483, FOR 483, REM 483, and WLF 483

Reporting and presenting the senior project (thesis or internship); taken after or concurrently with NRS 485 or NRS 497.

NRS 484 Forest Policy and Admin

2 credits

Cross-listed with FOR 484

Evaluation of land and forest problems and policies in the U.S.; analysis of current conditions and policies; historical development of governmental and private agencies concerned with the administration of forest conservation program. Recommended Preparation: FOR 235.

Prereq: Junior standing.

NRS 485 Ecology and Conservation Biology Senior Project

1-3 credits, max 3

Cross-Listed with FISH 485, FOR 485, and WLF 485

Scholarly work; learning objectives include development and formal proposal of a specific project and conducting the project or research with the guidance of a faculty mentor.

NRS 486 Public Involvement in Natural Resource Management

3 credits

Theoretical and applied concepts of public involvement in both public and private sectors of natural resource management; historical and legal mandates, government agency responsibilities, applied methods and techniques, case studies, and practical experience. Three lec and three hours of lab a week; field trip may be reqd. (Spring only)

NRS 487 Environmental Education

3 credits

Concept and techniques of environmental education with emphasis on informal education settings such as residential and day-use environmental education centers, nature centers, visitor centers. Field trip may be required. (Spring only)

NRS 490 Wilderness and Protected Area Management**3 credits**

Historical and legal aspects of the wilderness and protected area concepts; conceptual and applied approaches, considering both ecological and sociological elements; recent research. (Spring, alt/yr)

NRS 493 International Land Preservation and Conservation Systems**3 credits***Gen Ed: International*

An examination of international approaches to land preservation and conservation; comparative analysis of philosophies, methods of implementation (Parks, Biosphere Reserves, RAMSAR sites, etc.), and associated issues and concerns with these social interventions; ramifications of conservation practices for biophysical and social systems. Field trip may be required. (Spring only)

NRS 496 Monitoring Impacts in Protected Areas and Wilderness**3 credits**

Theoretical and applied concepts of identifying, measuring, and monitoring changes in wilderness and protected area ecosystems caused by human influences, including recreation use, management practices, and both on-site and off-site development. Field trips may be reqd. (Spring, alt/yr)

NRS 498 (s) Internship**Credit arranged.****NRS 499 (s) Directed Study****Credit arranged**

For the individual student; conferences, library, field, or lab work.

Prereq: Senior standing, GPA 2.5, and Permission.

NRS 500 Master's Research and Thesis**Credit arranged.****NRS 501 (s) Seminar: Contemporary Issues in Society and Natural Resources****Credit arranged**

Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics.

Prereq: Permission.

NRS 502 (s) Directed Study**Credit arranged.****NRS 503 (s) Workshop****Credit arranged**

Selected topics in the conservation and management of natural resources.

Prereq: Permission.

NRS 504 (s) Special Topics**Credit arranged.****NRS 505 (s) Professional Development****Credit arranged**

Credit earned in NRS 505 will not be accepted toward graduate degree programs.

NRS 506 Fundamentals of Research**2 credits**

Research approaches, designs, and methodologies as applied in biophysical and social science natural resource professions. Cooperative: open to WSU degree-seeking students.

Prereq: Basic Statistics.

NRS 510 Applications of Communication Theory in Natural Resource Management**3 credits**

Examination of communication theories and their applications in sustainable natural resource management; emphasis on social psychological approaches to understanding persuasive communication and applications in environmental interpretation and education, marketing, and sustainable development. (Alt/yr)

NRS 552 Current Lit in Remote Sensing**1 credit, max arranged**

Cross-listed with FOR 552

Review, present, and discuss recent articles related to remote sensing of the environment. Students choose, critically review, and discuss the articles to develop critical-thinking skills, remote sensing research strategies, and confidence in their knowledge of the literature. Graded P/F.

NRS 558 Science Communication**3 credits**

Examines the flow of scientific information between experts and non-experts, with emphasis on educational settings. Project-based and includes practice in digital storytelling, documentary film, blogs, podcasts, public talks, and field experiences. McCall Field Campus. (Spring Only)

NRS 559 Writing Research and Project Proposals**1 credit**

Structured instruction for developing a thesis/dissertation or project proposal. Role and importance of research goals and objectives, research questions, and project purpose statements. Justifying a study or project, based on literature and theory. Effective writing techniques to describe research designs, methodological and data collection issues for different types of research and projects. How to articulate data analysis and information processing processes used in qualitative and quantitative research and projects. Meets two hours per week for the first 8 weeks of the spring semester.

NRS 560 Place-based Ecology I**4 credits**

Cover plant and animal community ecology from both a qualitative and quantitative perspective. Topics will include: community interaction of plants and animals; community dynamics, succession, and disturbance; basic data collection and statistical analysis of habitat association data; and the effect of abiotic factors on community structure. (Fall only)

NRS 561 Ecological Inquiry for Environmental Educators**2 credits**

Address basic ecological concepts and natural resource management issues in the local ecosystem. Emphasis will be placed on developing critical thinking skills and exploring the effects of resource management policy and actions. Course direction will involve moving from a "known facts" way of thinking into the realm of questioning and evaluating the effects of human management of the system. Offered at the McCall Field Campus. (Spring only)

NRS 562 Field Science Teaching**2 credits**

Address basic natural history concepts for instructors involved in experiential environmental education with students 12 to 18 years old. Field activities, readings, and instructor modeling of teaching techniques will be included in the format of the course. The course will focus on how to engage each student to learn ecological principles and apply them in a field teaching setting. (Fall only)

NRS 563 Place Based Env. Education

4 credits

Educating students so that they have the skills and knowledge base in order to begin to understand the human and natural environment in which they live is a complicated endeavor. This course is designed to provide a foundation of educational pedagogy, a survey of place-based literature in areas critical to this educational endeavor, and opportunities for personal and professional application. (Fall only)

NRS 564 Teaching Environmental Education in a Winter Environment
2 credits

Address basic principles of ecology during winter. Emphasis will be placed on field experiences including principles of teaching in a winter environment, winter weather, and organism adaptation to winter. (Spring only)

NRS 565 Science Communication and the Environment
4 credits

Examines the flow of scientific information between experts and non-experts, with emphasis on educational settings. Project-based and includes practice in digital storytelling, documentary film, blogs, podcasts, public talks, and field experiences. McCall Field Campus. (Spring Only)

NRS 566 Place-based Ecology II
4 credits

Explore how plants and animals manage the unique survival challenges of winter. Delve into fundamentals of winter ecology including the changing snowpack, life under the ice, plants and animals in the winter environment and plant-animal interactions. The middle of the course addresses environmental change and interactions with winter ecology. At the end of the semester, the springtime environment will be used to study fundamental chemical and physical processes that drive the natural world emerging out of its apparent hibernation. Work outdoors to gain hands-on knowledge and practical experience. Field experiences will be fundamental in developing ecological understanding, with field trips to various locations to gain crucial insight into the natural world during the winter and spring seasons. Outdoor experience and learning will be complemented by lectures, group discussions, readings, and field experiments.

NRS 567 Environmental Education Teaching Practicum I
2 credits

The teaching practicum is an opportunity to improve teaching methods and techniques and expand professional skills under the guidance of mentors at a residential environmental learning center. Teaching in a residential environmental learning center consists of classroom lectures and demonstrations with groups up to 30, as well as field teaching groups of 8 to 10. (Fall only)

NRS 568 Environmental Education Teaching Practicum II
1-2 credits

The teaching practicum is an opportunity to improve teaching methods and techniques and expand professional skills under the guidance of mentors at a residential environmental learning center. Teaching in a residential environmental learning center consists of classroom lectures and demonstrations with groups up to 30, as well as field teaching groups of 8 to 10. (Spring only)

NRS 569 Environmental Education Teaching Practicum III
2 credits

The teaching practicum is an opportunity to improve teaching methods and techniques and expand professional skills under the guidance of Teton Science School staff. Teaching at the Teton Science School consists of classroom lectures and demonstrations with groups up to 30, as well as field teaching groups of 8 to 10. (Spring Only)

NRS 572 Human Dimensions of Restoration Ecology
3 credits

An in-depth investigation of multi dimensional human considerations, including economic, social, and cultural values and the role they play in maintaining, restoring, or sustaining ecosystems. Explores the major premise that projects designed for the restoration and sustainable management of ecosystems and associated resources must be ecologically sound, economically viable, and socially desirable to be successful. Web course. (Spring only)

NRS 573 Planning & Decision Making for Watershed Management
3 credits

Focus on ecological and human factors in process-oriented approaches to watershed analysis and planning for effective decision-making; emphasis on practical applications of current tools and approaches, e.g., GIS, MAU Theory, collaborative management. (Fall only)

NRS 574 Environmental Politics and Policy
3 credits

Political and institutional context for the formulation, implementation, and evaluation of U.S. environmental policy.

NRS 575 Leadership for the Environmental Educator
2 credits

Addresses basic outdoor leadership theory and practice for instructors involved with experiential environmental education with students 12 to 18 years old. Includes a backcountry trip, class work, instructor modeling, peer feedback and reflective practice. Focuses on the individual student's understanding of leadership theory and ability to put theory into practice as a member of a community of learners. Offered at the McCall Field Campus. (Fall only)

NRS 580 Restoration Ecology Practicum
2 credits

Capstone experience in the Restoration Ecology Certificate Program. Students work independently to develop plan for implementing and assessing the success of ecological restoration; plan must synthesize literature, concepts, and challenges; plan shall be written with graphics and electronic submission for possible Internet publication.

Prereq: FOR 526 and REM 440 or Permission.

NRS 582 Natural Resource Policy
3 credits

Carries no credit after POLS 462. Political and institutional context for making natural resource policy; emphasis on interaction between private and public sectors and the federal, state, and tribal governments, including an examination of topical issues in natural resource politics.

NRS 585 Economics and Policy of Ecosystem Services
3 credits

Introduction to economic concepts and methods related to ecosystem services. Specific topics include the history of the ecosystem service framework, methods for valuing ecosystem services and market-based approaches for ecosystem service conservation. (Fall only)

NRS 591 Theories of Environmental Behavior

3 credits

Social science perspectives on attitudes and human behavior in relation to environmental concerns; pertinent psychological sociological and anthropological frameworks are explored. (Fall only)

NRS 592 Emerging Media Outreach in Natural Resources

3 credits

This course introduces students to basic media skills in photography, audio, video, microblogging, social media, content management, basic coding — and blog on a topic of their choice. Students also will explore and share their field experience through a variety of media, and will engage and examine social media uses for advertising, marketing and public relations outreach in natural resources.

NRS 593 PR and Communications in Natural Resource Management

3 credits

Key concepts, principles and practices of good public relations, clear communications, and proactive social marketing in the context of natural resource management; practical applications and skills development for increased effectiveness of resource management professionals through case studies and related exercises focused on communication skills, IT tools, media relations, social marketing, and public involvement.

NRS 597 (s) Practicum

Credit arranged

Graded P/F.

Prereq: Permission.

NRS 598 (s) Internship

Credit arranged

Prereq: Permission.

NRS 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

NRS 600 Doctoral Research and Dissertation

Credit arranged

Prereq: Admission to the doctoral program in "natural resources" and permission of department.

NAVAL SCIENCE (NS)

NS 101 Introduction to Naval Science

2 credits

Introduction to the Naval Service: custom and traditions, structure, career paths, basic leadership, ethics and character development, duties of a junior officer, and ships/aircraft of the U.S. Navy Fleet. Cooperative: open to WSU degree-seeking students. (Fall only).

NS 102 Ships Systems I

3 credits

Intro to Naval shipboard engineering systems; propulsion systems; nuclear, gas turbine, and conventional; auxiliary systems and shipboard damage control; basic concepts in ship design. Cooperative: open to WSU degree-seeking students. (Fall only)

NS 103 Introduction to Naval Science Laboratory

1 credit

Practical instruction for introduction to Naval Science. Graded P/F. Cooperative: open to WSU degree-seeking students. (Fall only)

NS 200 (s) Seminar

Credit arranged.

NS 201 Ships Systems II

3 credits

Naval weapons systems; theory and process of detection (radar and sonar), evaluation; weapons; delivery, guidance, and explosives; integration of weapons systems with command, control, and communications systems. Cooperative: open to WSU degree-seeking students. (Spring only).

NS 202 Seapower and Maritime Affairs

3 credits

An overview of U.S. naval history; seapower and maritime affairs beginning with the Continental Navy to present-day naval history. Cooperative: open to WSU degree-seeking students. (Spring only)

NS 299 (s) Directed Study

Credit arranged

Cooperative: open to WSU degree-seeking students.

NS 301 Navigation

3 credits

Theory, principles, and procedures of terrestrial and electronic navigation, and rules of the nautical road." Cooperative: open to WSU degree-seeking students. (Spring only)

NS 302 Naval Operations

3 credits

Naval operations and tactics, relative motion, and Maneuvering Boards. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: NS 301.

NS 311 Evolution of Warfare

3 credits

Evolution of war through tactics; strategy from Sun Tzu to J.F.C. Fuller. Recommended preparation: NS 101, NS 202. Cooperative: open to WSU degree-seeking students. (Spring only).

NS 401 Naval Leadership and Management

3 credits

Theories of management and management resources, motivational theories, and leadership. Cooperative: open to WSU degree-seeking students. (Fall only)

NS 402 Naval Leadership and Ethics

3 credits

An intellectual exploration of Western moral traditions and ethical philosophy within a military context. Topics will include military leadership, core values, professional ethics, and conduct of warfare with applications appropriate for future Navy and Marine Corps officers. Recommended preparation: NS 401. Cooperative: open to WSU degree-seeking students. (Spring only).

NS 412 Fundamentals of Maneuver Warfare

3 credits

Amphibious doctrine and its relation to maneuver warfare. Recommended preparation: NS 311. Cooperative: open to WSU degree-seeking students. (Spring only)

NS 499 (s) Directed Study

Credit arranged

Cooperative: open to WSU degree-seeking students.

NEZ PERCE LANGUAGE (NEZP)

Vertically-related courses in this subject field are: NEZP 101-NEZP 102. A maximum of 16 credits may be earned for vertical credit in any language in the Department of Modern Languages & Cultures.

NEZP 101 Elementary Nez Perce I

4 credits

Pronunciation, vocabulary, reading, spoken Nez Perce, and functional grammar.

NEZP 102 Elementary Nez Perce II

4 credits

Pronunciation, vocabulary, reading, spoken Nez Perce, and functional grammar.

Prereq: NEZP 101.

NEZP 107 Beginning Nez Perce Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the beginning Nez Perce level. Graded P/F.

NEZP 204 (s) Special Topics

Credit arranged.

NEZP 398 (s) Internship

Credit arranged.

NEZP 499 (s) Directed Study

Credit arranged.

NUCLEAR ENGINEERING (NE)

NE 400 (s) Seminar

Credit arranged.

NE 404 (s) Special Topics

Credit arranged.

NE 437 Radiation Effects on Materials

3 credits

Joint-listed with NE 537. Cross-listed with MSE 437.

Interactions between radiation and solids.

Prereq: MSE 201 or Permission.

NE 438 Fundamentals of Nuclear Materials

3 credits

Joint-listed with NE 538. Cross-listed with MSE 438.

This course is designed for students who wish to learn about nuclear materials and fuels from a materials science viewpoint. Topics to be covered include crystal structure, diffusion, radiation damage processes etc. Students who wish to receive credit for the 500 level course are required to do term-projects and advanced problems. (Spring only)

Prereq: MSE 201 or NE 450; or Permission .

NE 450 Principles of Nuclear Engineering

3 credits

Course offered only in Idaho Falls.

Basic nuclear and atomic processes; radioactive decay, binding energy, radiation interactions, reaction cross sections. Neutron diffusion, radiation sources.

Prereq: MATH 310, ENGR 320, or Permission.

NE 498 (s) Internship

Credit arranged.

NE 499 (s) Directed Study

Credit arranged.

NE 500 Master's Research and Thesis

Credit arranged

Course offered only in Idaho Falls.

NE 501 (s) Seminar

Credit arranged

Course offered only in Idaho Falls.

NE 502 (s) Directed Study

Credit arranged.

NE 504 (s) Special Topics

Credit arranged.

NE 511 Nuclear Degradation Mechanisms

3 credits

Cross-listed with MSE 511.

Topics include various degradation mechanisms as applicable to nuclear structural components, including corrosion, creep, radiation damage etc.

Prereq: Graduate standing or Permission .

NE 512 Nuclear Components Inspection

3 credits

Cross-listed with MSE 512.

This course will cover various non-destructive testing techniques to evaluate the environmental degradation of the nuclear structural components. Remnant life estimation of structural components exposed to fatigue, creep and stress corrosion cracking service conditions will be discussed.

Prereq: Graduate standing or Permission .

NE 514 Nuclear Safety

3 credits

Cross-listed with TM 514. An in-depth technical study of safety issues within the nuclear fuel cycle and within various reactor types. Evaluation methods, system disturbances, safety criteria, containment, NRC licensing, and codes for safety analysis will be presented. Case studies of reactor accidents and corrective measures included.

Prereq: Permission.

NE 516 Nuclear Rules and Regulations

3 credits

Cross-listed with TM 516.

An in-depth examination of nuclear regulatory agencies; major nuclear legislation; current radiation protection standards and organizational responsibility for their implementation.

Prereq: Permission.

NE 520 Thermodynamics of Nuclear Power Plants

3 credits

Course covers applications of First Law to power nuclear plants: boiling water, pressurized, high temperature gas, small modular and advanced nuclear power plants. Nuclear power plant applications of pressurizers, suppression pools, nuclear containment, the application of the Second Law to exergy analysis of advanced fuel cycles.

Prereq: Permission .

NE 524 Heat Exchanger Design

3 credits

This course will cover advanced heat exchanger design and apply that knowledge to the design of the following heat exchangers: tube-in-tube heat exchanger, air cooler, compact heat exchanger, feedwater heater and condenser.

Prereq: Permission .

NE 529 Risk Assessment

3 credits

Cross-listed with TM 529.

In-depth evaluation and analysis techniques used to determine the risk of industrial, process, nuclear, and aviation industries; fault tree analysis; human reliability analysis; failure mode and effect analysis.

NE 530 Two-Phase Flow

3 credits

Course offered only in Idaho Falls.

Treatment of fluid mechanics and heat transfer in conjunction with nuclear reactors where two-phase flow problems are found.

Prereq: Permission.

NE 535 Nuclear Criticality Safety

3 credits

Cross-listed with TM 513.

Nuclear criticality safety including nuclear physics, fusion and neutron multiplication, moderation and reflection of neutrons, criticality issues in the fuel cycle, critical experiments and sub-critical limits, calculations of criticality, nuclear criticality safety practices, emergency procedures, and nuclear regulations and standards.

Prereq: NE 450 or Permission.

NE 537 Radiation Effects on Materials

3 credits

Joint-listed with NE 437. Cross-listed with MSE 537.

Interactions between radiation and solids.

Prereq: MSE 201 or Permission.

NE 538 Fundamentals of Nuclear Materials

3 credits

Joint-listed with NE 438. Cross-listed with MSE 538.

This course is designed for students who wish to learn about nuclear materials and fuels from a materials science viewpoint. Topics to be covered include crystal structure, diffusion, radiation damage processes etc. Students who wish to receive credit for the 500 level course are required to do term-projects and advanced problems. (Spring only)

Prereq: MSE 201 or NE 450; or Permission .

NE 551 Nuclear Reactor Fuels

3 credits

Selection of materials and design of nuclear fuels, light water reactor fuels, metal and oxide dispersed fuels, high temperature ceramic fuels.

Prereq: Permission .

NE 554 Radiation Detection and Shielding

3 credits

Cross-listed with TM 535.

Radiation transport and shielding concepts. Methods for quantifying attenuation of nuclear particles and electromagnetic radiation. Radiation detection methods, data acquisition and processing.

Prereq: MATH 310 or Permission.

NE 555 Nuclear Criticality Safety II

3 credits

Course offered only in Idaho Falls.

Applications of criticality safety techniques to facility design and review, requirements for unique isotopes, criticality safety evaluations, connections to nuclear materials management, applications of monte carlo analysis.

Prereq: NE 535 or Permission .

NE 565 Reactor Engineering

3 credits

Course listed only in Idaho Falls.

Radiation shielding, materials, instrumentation and controls, separation of stable isotopes, chemical separation and processing, special techniques.

Prereq: MATH 480 or Permission.

NE 567 Advanced Nuclear Systems and Modeling

3 credits

Comprehensive information about nuclear systems (such as, nuclear steam supply systems, safety systems, etc) and analytical modeling of nuclear systems. Description of reactor technologies (such as, Boiling Water Reactor –BWR- and Pressurized Water Reactor –PWR- systems and corresponding modeling and performance of the systems. Reactor thermal hydraulics models/tools are used to model the systems. Course projects are defined for practicing modeling techniques.

Prereq: NE 565 .

NE 570 Nuclear Chemical Engineering

3 credits

Course offered only in Idaho Falls.

Chemical engineering processes related to the nuclear industry; metals dissolution, solvent extraction, isotope separation, uranium processing and other topics.

Prereq: Permission.

NE 575 Advanced Nuclear Power Engineering

3 credits

Course offered only in Idaho Falls.

Present and advanced nuclear power plant descriptions and analysis. Engineering aspects of converting nuclear fission energy to useful work. Group project design.

Prereq: Permission.

NE 598 (s) Internship

Credit arranged.

NE 599 (s) Research

Credit arranged.

NE 600 Doctoral Research & Dissertation

Credit arranged.

OPERATIONS MANAGEMENT (OM)

OM 204 (s) Special Topics
Credit arranged.

OM 298 (s) Internship
1-3 credits, max 6.

OM 299 (s) Directed Study
Credit arranged.

OM 370 Process Management
3 credits

This course examines the concepts and tools used to design, implement, manage, evaluate and improve the business processes used to create and deliver value to customers. International and ethical issues associated with process management will also be considered. May involve evening exams.

Prereq: BUS 252 and STAT 251 or STAT 301 or MATH 330.

OM 378 Project Management
3 credits

Planning, organizing, staffing, controlling, and directing an organization's resources for special projects; topics include matrix organizations, cross functional teamwork, budgeting, work breakdown structures, critical path method (CPM), program evaluation and review techniques (PERT), capacity planning, and project control. May involve evening exams.

OM 398 Internship
1-3 credits, max 6.

OM 404 (s) Special Topics
Credit arranged.

OM 439 Systems and Simulation
4 credits

Distribution theory, random numbers, modeling concepts and simulation of queuing and inventory systems. Students must have access to a laptop computer for use in class. 3 lectures and one 3 hour lab a week. May involve evening exams. May involve field trips. (Spring only)

Prereq: OM 370, CHE 453, ME 313, or MSE 453; or Permission.

OM 446 Six Sigma Innovation
3 Credits

Six Sigma is a highly structured strategy for acquiring, assessing, and applying customer, competitor, and enterprise intelligence for the purposes of product, system or enterprise innovation and design. It has two major thrusts, one that is directed toward significant innovation or improvement of an existing product, process or service that uses an approach called DMAIC (Define - Measure - Analyze - Improve - Control) and a second dedicated to design of new processes, products or services. This course focuses on the innovation aspects of Six Sigma. Recommended preparation: STAT 431. Cooperative: open to WSU degree-seeking students. (Spring, Alt/yrs)

Prereq: STAT 251 or STAT 301.

OM 456 Quality Management
3 credits

Cross-listed with STAT 456

Principles of total quality management, with emphasis on problem solving techniques to continually improve processes; customer-driven quality, management and employee participation, statistical process control, product/process design, and process capability. May include evening exams. May involve field trips.

Prereq: STAT 251 or STAT 301.

OM 470 Supply Chain Management
3 credits

In-depth study and analysis of the supply chain management integrated approach to business with emphasis on the transportation, purchasing, packaging, inventory management, and international logistics functions, as well as issues in negotiation and relationship management. May involve evening exams.

Prereq: OM 370.

OM 472 Operations Planning and Scheduling
3 credits

In-depth study of planning and scheduling techniques with emphasis on material requirements planning. May involve evening exams and field trips.

Prereq: OM 370.

OM 498 (s) Internship
Credit arranged.

OM 499 (s) Directed Study
Credit arranged.

ORGANIZATIONAL SCIENCES (ORGS)

ORGS 110 Governance in Small Organizations

3 credits

The basics of organizational structure, leadership, interpersonal relations, fiscal responsibility, and accountability. The course is designed to serve students who may be engaged in student or community leadership positions.

ORGS 155 Financial Literacy

3 credits

Basics of financial literacy including terms and concepts. Topics include: influences on financial decisions, goal setting, spending plans, saving and organizing, controlling debt, banking, credit, housing, cars, cell phones, college, careers, life's financial phases, protecting assets, investing, and financial current events.

ORGS 204 (s) Special Topics

Credit arranged.

ORGS 210 Introduction to Organizational Sciences

1 credit

An orientation course for students interested in pursuing the Bachelors Degree in Organizational Sciences. The goal of the course is to expose students to the major specializations offered by the degree program: General Organizational Science, Workplace Relations, and Nonprofit Community Organizations.

Prereq: Completion of at least 15 credit hours of college level course work.

ORGS 305 Nonprofit Organizations

3 credits

An introduction to nonprofit organizations. The course covers the several ways that nonprofits differ from for-profit and governmental organizations: mission and values, legal distinctions, leadership and oversight, expenses and revenue, and community relations/community impact. Recommended preparation: ORGS 210.

ORGS 310 Application/Experience in Organizational Sciences

1-6 credits, max 6

Hands-on experience with a business, governmental agency, community or nonprofit organization. Students will be expected to provide a written account of their experience that both documents the time spent, and that relates the experience to other coursework.

Prereq: Permission of Instructor.

ORGS 312 Practical Gerontology

3 credits

Cross-listed with PSYC 312

Preparation for, and accommodation to, becoming older. Emphases will be on behaviors necessary to maintain physical health, and tactics necessary to maintain brain fitness. Course is appropriate for those interested in eldercare, or for any person concerned about sustaining physical health and mental wellness through the lifespan.

Prereq: PSYC 101 or ORGS 210.

ORGS 320 Budgeting for Small Organizations

1 credit

A basic introduction to budgets and the budgeting process, focusing on how to prepare, interpret, use, and manage organizational budgets to increase students' likelihood of future success.

ORGS 321 Workplace Motivation

1 credit

A review of the issues that affect worker motivation. Evidence and practical implications of forces such as workplace incentives, social and physical environment, organizational structure and tasks, external factors, and individual differences will be considered.

ORGS 322 Workplace Soft Skills

1 credit

Overall organizational performance often depends as much on soft skills (worker social skills and emotional intelligence, communication abilities, and worker professionalism) as it does on hard skills (abilities with the immediate tasks). This course reviews the evidence on the impact of soft skills.

ORGS 323 Messaging for Small Organizations

1 credit

An evaluation of the inexpensive, everyday messaging tools available to smaller organizations that can be used for issue advocacy, service/product promotion, community cohesion, and the like. The course will cover current network applications and their effectiveness including, but not limited to, social media tools.

ORGS 400 (s) Seminar

Credit arranged.

ORGS 404 (s) Special Topics

Credit arranged.

ORGS 407 Advanced Nonprofit Organizations

3 credits

Provides an in-depth exploration of nonprofit organizations and their role in society, nonprofit purpose, mission, characteristics and structure. Topics include how nonprofits differ from for-profit and governmental organizations, nonprofit industry and careers, starting a nonprofit; nonprofit operations (accountability, reporting, staffing, marketing, technology); planning, strategy, governance (boards and volunteers); nonprofit law; nonprofit programs and program evaluation.

Prereq: ORGS 305.

ORGS 410 Capstone Project in Organizational Sciences

1-6 credits, max 6

Gen Ed: Senior Experience

Completion of a project with a business, governmental agency, community or nonprofit organization. The project can be research or service-based. Students will be expected to provide a final document that details all aspects of the project. Approval of a project proposal by the student's advisor should be sought before requesting permission to enroll.

Prereq: Permission of Instructor.

ORGS 414 Traumatic Events: Preparation, Intervention, Evaluation

3 credits

Cross-listed with PSYC 414

Traumatic Events (TEs) range from local to large scale human-induced or catastrophic natural disasters (violent crimes, major accidents, weather events, etc.). This course is designed to address integral response elements: (a) preparation (e.g., organizing, planning, training, equipping) (b) intervention (e.g., multi-agency coordination, logistics, triage, first & secondary responses, volunteers, incident command, communication, mitigation, psychological first aid, media, safety, security) (c) evaluation (e.g., after-action reports, lessons learned, hotwash, best practices, research).

Prereq: PSYC 101 or Permission of Instructor.

ORGS 415 Planning Professional Conferences and Events

3 credits

Organizational planning and logistics for successful professional meetings, conferences, and other events. Considerations include themes and missions; physical, site, and technological needs; budgeting; invitees, attendees, and registrants, vendors; contracts, risk, and liabilities; and contingency planning. Recommended preparation: ORGS 210.

ORGS 416 Planning Professional Conferences and Events Laboratory

1 credit

Laboratory application of tools and concepts learned in ORGS 415. Students will go through procedures to plan an event or conference. The event or conference could be a virtual one, or it could be one associated with their university or outside lives. Organizational planning and logistics for successful professional meetings, conferences, and other events. Considerations include themes and missions; physical, site, and technological needs; budgeting; invitees, attendees, and registrants, vendors; contracts, risk, and liabilities; and contingency planning.

Prereq: ORGS 210.

Coreq: ORGS 415.

ORGS 435 Personnel

3 credits

Joint-listed with ORGS 535, Cross-listed with PSYC 435
Review of theory and methods related to personnel issues; includes topics such as individual differences, selection, psychometrics, compensation, training programs, and performance appraisal. Additional work required for graduate credit.

Prereq: PSYC 101.

ORGS 441 Human Relations in the Workplace

3 credits

Joint-listed with ORGS 541, Cross-listed with PSYC 441
Overview of the general theory and methods of organizational effectiveness; focus on how individual or group behavior is affected by the organizational environment; includes topics such as work motivation, leadership, teams, culture/climate, and job attitudes. Additional assignments/projects required for graduate credit.

Prereq: PSYC 101.

ORGS 444 Methods and Analysis in Organizational Science

4 credits

Overview of the many tools of data gathering and analysis in the applied social sciences. Includes coverage of surveys, study design, analysis, online and bibliographic resources and archives, etc.

Prereq: STAT 251 (Off-campus and distance students may request advisor approval for a substitution for STAT 251).

ORGS 450 Training and Performance Support

3 credits

Joint-listed with ORGS 550, Cross-listed with PSYC 450
Review of applicable theory and methods for developing organizational training programs and performance support systems; emphasis will be on conducting needs analyses, development of systems and training programs to serve needs, and evaluation of program outcomes. Additional project/assignments reqd for grad cr.

Prereq: PSYC 101.

ORGS 494 (s) Research Experience in Organizational Sciences

Credit arranged, max 16

Supervised experience in conducting research in organizational performance/organizational behavior. Topics vary depending on match of student interests to those of current faculty or qualified affiliates. May include research with local business, agencies, or other entities under joint supervision of faculty and entity sponsor. Recommended preparation: ORGS 444 and consultation with ORGS advisor.

Prereq: Sophomore standing or higher.

ORGS 497 (s) Practicum in Instruction

Credit arranged.

ORGS 498 (s) Internship

Credit arranged.

ORGS 499 (s) Directed Study

Credit arranged.

ORGS 502 (s) Directed Study

Credit arranged.

ORGS 504 (s) Special Topics

Credit arranged.

ORGS 505 (s) Professional Development

Credit arranged.

ORGS 535 Personnel

3 credits

Joint-listed with ORGS 435, Cross-listed with PSYC 535
Review of theory and methods related to personnel issues; includes topics such as individual differences, selection, psychometrics, compensation, training programs, and performance appraisal. Additional work required for graduate credit. PSYC 535 is a cooperative course available to WSU degree-seeking students.

Prereq: PSYC 101.

ORGS 541 Human Relations in the Workplace

3 credits

Joint-listed with ORGS 441, Cross-listed with PSYC 541
Overview of the general theory and methods of organizational effectiveness; focus on how individual or group behavior is affected by the organizational environment; includes topics such as work motivation, leadership, teams, culture/climate, and job attitudes. Additional assignments/projects required for graduate credit. PSYC 541 is a cooperative course available to WSU degree-seeking students.

Prereq: PSYC 101.

ORGS 550 Training and Performance Support

3 credits

Joint-listed with ORGS 450, Cross-listed with PSYC 550
Review of applicable theory and methods for developing organizational training programs and performance support systems; emphasis will be on conducting needs analyses, development of systems and training programs to serve needs, and evaluation of program outcomes. Additional project/assignments reqd for grad cr.

Prereq: PSYC 101.

PGA GOLF MANAGEMENT (PGA)

PGA 404 (s) Special Topics
Credit arranged .

PGA 499 (s) Directed Study
Credit arranged.

PGA 103 Introduction to PGA Golf Management

2 credits

This course will examine the golf industry and the golf professional's role within the industry. Attention will focus on the history of the game, PGA Constitution, career enhancement, and the rules of golf. (Fall only)

Prereq: PGM Major.

PGA 110 PGA Golf Management Player Development

1 credit, max arranged

This course will assist PGA Golf Management students in their efforts to pass the PGA of America's Playing Ability Test (PAT) by providing access to a golf game tracking and improvement software along with individual and group golf instruction. All PGA Golf Management students must pass the PAT prior to graduation. Graded Pass/Fail.

Prereq: Marketing - PGA Golf Management major.

PGA 150 PGA Golf Management I

2 credits

This course will examine the golf industry and the golf professional's role within the industry. Attention will focus on Tournament Operations, Golf Car Fleet Management, Golf Club Repair and Design. Other topics previewed will be Business Planning and Operations and Customer Relations.

Prereq: PGA 103.

PGA 204 (s) Special Topics

Credit arranged.

PGA 251 PGA Golf Management II

2 credits

This course will examine the golf industry and the golf professional's role within the industry. Attention will focus on Business Communications, Business Planning & Operations, Customer Relations, and PGA/PGM Electives. Other topics previewed will be Merchandising & Inventory Management and Supervising & Delegating.

Prereq: PGA 103, PGA 150 and PGM major.

PGA 298 (s) Internship

1-3 credits, max 6.

PGA 299 (s) Directed Study

Credit arranged .

PGA 385 PGA Golf Management III

2 credits

This course will examine the golf industry and the golf professional's role within the industry. Attention will focus on Merchandising & Inventory Management and Supervising & Delegating. Other topics previewed will be an overview of the Final Experience. (Spring only)

Prereq: PGA 103, PGA 150, and PGA 251.

PGA 386 Food and Beverage Hospitality with Lab

4 credits

Introduction to hospitality and commercial leisure enterprises. The course will include food and beverage service operation, profit and cost accounting, techniques, marketing, advertising schemes and the relationship between business and leisure programs, services, and products. Field trips required.

Prereq: PGM Major or Permission.

PGA 398 (s) Internship

1-3 credits, max 6.

PHILOSOPHY (PHIL)

PHIL 102 Reason and Rhetoric

2 credits

Gen Ed: Communication

Form and style of argumentative discourse; development of critical thinking and rhetorical skills as students prepare and deliver written and oral presentations; construction, evaluation, and presentation of arguments; identification of arguments and fallacies to improve abilities to organize thoughts, express them clearly and simply, and judge the suitability of material for the audience.

PHIL 103 Ethics

3 credits

Gen Ed: Humanities

Introduction to philosophical reasoning through historical study of Western moral thought.

PHIL 200 Philosophy of Alcohol

3 credits

Gen Ed: Humanities

This course will introduce students to philosophical analysis through the topic of alcohol. Some issues we will cover are ethical: Can we exercise freewill when intoxicated? If not, can we still blame an intoxicated person for their actions? What is the nature of addiction and when are we justified in intervening on someone else's addiction? Some issues are metaphysical: Are beer styles a natural classification or merely conventional? There are also aesthetic issues: Is taste just subjective, or can we scrutinize taste objectively? Some are historical: What is the role of alcohol in the history of philosophy? This course addresses these and many other philosophical issues that can be presented through the topic of alcohol.

PHIL 201 Critical Thinking

3 credits

Gen Ed: Humanities

Acquiring and improving important skills of thinking, reading, and writing critically; emphasis on avoiding fallacies and mastering forms of valid argument in ordinary language.

PHIL 202 Introduction to Symbolic Logic

3 credits

Development of systematic techniques for assessing validity of arguments; includes categorical logic, propositional logic, and elementary quantificational logic.

PHIL 204 (s) Special Topics

Credit arranged.

PHIL 208 Business Ethics

3 credits

Gen Ed: Humanities

Introduction to philosophical reasoning through historical study of Western moral thought, with specific application to ethical issues related to business practice and corporate social responsibility.

PHIL 240 Belief and Reality

3 credits

Gen Ed: Humanities

Introduction to epistemology (examination of grounds and limits of knowledge) and metaphysics (inquiry into the nature of reality) through historical and contemporary readings.

PHIL 302 Biblical Judaism: Texts and Thought

3 credits

Cross-listed with RELS 302

Analysis of the Hebrew Bible (Old Testament) and related texts with an emphasis on hermeneutics and thought.

PHIL 303 Early Christianity: Texts and Thought

3 credits

Cross-listed with RELS 303

Analysis of the New Testament and other early Christian texts of the first and second centuries C.E. with an emphasis on hermeneutics and thought.

PHIL 307 Buddhism

3 credits

Cross-listed with RELS 307

Philosophy and religion of Gautama Buddha as it developed in India, Tibet, China, and Japan.

PHIL 320 History of Ancient and Medieval Philosophy

3 credits

Philosophical thought from the early Greeks through the Middle Ages; concentration on metaphysics and theory of knowledge. Cooperative: open to WSU degree-seeking students.

PHIL 321 History of Modern Philosophy

3 credits

Critical evaluation of the thought of major figures in early modern philosophy, such as Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, and Kant; emphasis on metaphysics and epistemology. Cooperative: open to WSU degree-seeking students.

PHIL 325 (s) Historical Figures in Philosophy

3 credits, max arranged

Study of a major philosophical figure from the history of philosophy. May be repeated for credit. Recommended preparation: one philosophy course.

PHIL 351 Philosophy of Science

3 credits

Gen Ed: Humanities

Introduction to the critical analysis of the aims and methods of science, its principles, practices, and achievements. Cooperative: open to WSU degree-seeking students.

Prereq: 3 credits of philosophy or 3 credits of natural science .

PHIL 352 Philosophy, Politics, and Economics

3 credits

Cross-listed with POLS 352

This course will introduce students to the topics and methods of Philosophy, Politics, and Economics (PPE). The approach will be interdisciplinary, with the aim of investigating and illustrating how and why these three disciplines are indispensable to addressing both the normative and factual issues each poses on its own. The course will cover basic methods in rational choice theory, game theory, social choice theory, and political philosophy to explore problems pertaining to decision-making, coordination, cooperation, and justice. The texts will include both traditional and contemporary writings on these issues.

PHIL 361 (s) Professional Ethics

3 credits, max 6

Gen Ed: Humanities

Study of ethical issues and problems arising in professions. Each section focuses on a specific area of professional ethics including, but not limited to, agricultural ethics, bioethics, business ethics, and engineering ethics.

Prereq: PHIL 103 .

PHIL 367 (s) Global Justice**3 credits, max arranged***Gen Ed: International*

Topical study of issues of justice in the global context.

PHIL 400 (s) Seminar**Credit arranged .****PHIL 404 (s) Special Topics****Credit arranged.****PHIL 405 Feminism & Philosophy****3 credits**

An exploration of how feminist philosophies have brought to light gender bias in western philosophy and have (re)constructed theories in metaphysics, epistemology, and ethics. Students will see how these philosophies address the experiences of women and other groups whose interests have been historically neglected and misrepresented.

PHIL 417 Philosophy of Biology**3 credits**

Philosophical thinking about meaning, reference, and truth. Additional assignments required for graduate credit.

Prereq: 3 credits of biology and 3 credits of philosophy or Permission .**PHIL 426 History of Political Philosophy I****3 credits**

Cross-listed with POLS 425

Perennial problems of politics examined through study of seminal authors of classical antiquity (Plato, Aristotle, Cicero); medieval confrontation of theology with classical political philosophy (Augustine, Aquinas, Marsilius).

PHIL 427 History of Political Philosophy II**3 credits**

Cross-listed with POLS 426

Foundations and development of modern liberalism; analysis of its characteristic goals, and democratic, socialist, and communitarian critics of the project; study of authors including Hobbes, Locke, Rousseau, Marx, and contemporary theorists such as Rawls.

PHIL 429 Contemporary Political Ethics**3 credits**

Cross-listed with POLS 429

Current controversies concerning status and substance of ethical claims about deception, violence, coercion, and economic justice in politics and public action.

PHIL 441 Genes and Justice: Comparative Biotechnology Policy Formation**3 credits**

Cross-listed with POLS 441

This course introduces students to the basic theoretical, ethical, and practical issues surrounding the rise and regulation of recent biotechnological and biomedical advances, including genetically modified animals and plants in agriculture, stem cell research and cloning in biomedical research, and reprogenetics in medically assisted reproductive technology. Students will learn about theoretical and ethical frameworks to investigate questions of domestic and international policy making and the task of governing modern biosciences, including food safety, fair-trade, consumer well-being, informed choice in medical treatment, conservation, biodiversity, and sustainability. Recommended Preparation: PLSC 207 or 3 credits of another science course or 3 credits of political science.

PHIL 442 Philosophy of Mind**3 credits**

Joint-listed with PHIL 542

Survey of current philosophical theories of the nature of minds and mental states, including forms of dualism, reductive physicalism, functionalism, and eliminative materialism. Additional assignments required for graduate credit. Recommended Preparation: PHIL 202 and PHIL 240. This is a cooperative course available to WSU degree-seeking students.

PHIL 443 Philosophy of Language**3 credits**

Joint-listed with PHIL 543

Philosophical thinking about meaning, reference, and truth. Additional assignments required for graduate credit. Recommended Preparation: Phil 202 and 240. This is a cooperative course available to WSU degree-seeking students.

PHIL 450 Ethics in Science**3 credits**

An investigation of social and ethical issues in scientific research and the place of ethics in a scientific worldview.

Prereq: PHIL 103, PHIL 201, PHIL 202, or PHIL 240; or Permission .**PHIL 452 Environmental Philosophy****3 credits**

Joint-listed with PHIL 552, Cross-listed with ENVS 552

Philosophical examination of various ethical, metaphysical, and legal issues concerning humans, nature, and the environment; issues covered may include biodiversity and species protection, animal rights, radical ecology, environmental racism, wilderness theory, population control, and property rights. Additional projects/assignments required for graduate credit.

PHIL 460 Ethical Theory**3 credits**

Critical analysis of classical consequentialist and deontic views as well as one or more recent theories such as emotivism and prescriptivism, feminist ethics, communitarianism, or virtue ethics.

PHIL 469 The Judicial Process**3 credits**

Judicial and legal processes, court structure, procedures; judicial behavior and decision-making; selection of judges. Additional projects/assignments reqd for grad cr.

PHIL 470 Philosophy of Law**3 credits**

Analysis of fundamental philosophical issues in law and legal systems, including the nature of law, relation of law to morality, judicial method, and nature and ascription of rights. Recommended Preparation: PHIL 103. Cooperative: open to WSU degree-seeking students.

PHIL 490 Senior Seminar**3 cr***Gen Ed: Senior Experience*

Required of all philosophy majors; capstone course devoted to mastery of the philosophical essay; topics will vary.

Prereq: Senior standing or completion of 24 credits in philosophy.**PHIL 496 Teaching Methods in Philosophy****2 credits, max 4**

Learn methods of teaching while assisting in an introductory-level philosophy course. Graded P/F.

Prereq: four upper-division courses in philosophy, the introductory course in which the student will participate, and permission of department.

PHIL 498 (s) Internship

Credit arranged .

PHIL 499 (s) Directed Study

Credit arranged.

PHIL 500 Master's Research & Thesis

Credit arranged.

PHIL 501 (s) Seminar

Credit arranged

Graded P/F.

Prereq: Permission.

PHIL 502 (s) Directed Study

Credit arranged.

PHIL 503 (s) Workshop

Credit arranged .

PHIL 504 (s) Special Topics

Credit arranged.

PHIL 542 Philosophy of the Mind

3 credits

Joint-listed with PHIL 442

Survey of current philosophical theories of the nature of minds and mental states, including forms of dualism, reductive physicalism, functionalism, and eliminative materialism. Additional assignments required for graduate credit. Recommended Preparation: PHIL 202 and PHIL 240. This is a cooperative course available to WSU degree-seeking students.

PHIL 543 Philosophy of Language

3 credits

Joint-listed with PHIL 443

Philosophical thinking about meaning, reference, and truth. Additional assignments required for graduate credit. Recommended Preparation: Phil 202 and 240. This is a cooperative course available to WSU degree-seeking students.

PHIL 552 Environmental Philosophy

3 credits

Joint-listed with PHIL 452, Cross-listed with ENVS 552

Philosophical examination of various ethical, metaphysical, and legal issues concerning humans, nature, and the environment; issues covered may include biodiversity and species protection, animal rights, radical ecology, environmental racism, wilderness theory, population control, and property rights. Additional projects/assignments required for graduate credit.

PHIL 553 Ethical Practice in Natural Resource and Environmental Science

3 credits

This course will investigate some of the ethical dimensions of a life in professional science. While it is open to non-scientists, the course is part of the University of Idaho's Professional Science Master's Program, so it will be addressed directly to professional scientists. As its title indicates, its specific focus will be on natural resource and environmental sciences.

PHIL 599 (s) Research

Credit arranged.

PHYSICAL ED--ACTIVITY COURSES (PEB)

PEB 106 (s) Individual & Dual Sports

1 credit, max arranged

Bowling, racket sports, fencing, golf, gymnastics, conditioning, backpacking, cycling, cross-country skiing, etc. Two days of field trips may be a part of the course requirements for such activities as backpacking, cycling, etc. Two hrs a wk. Graded P/F.

PEB 107 (s) Team Sports

1 credit, max arranged

Field sports, volleyball, basketball, and softball. Two hrs a wk. Graded P/F.

PEB 108 (s) Water-Based Sports & Fit Act

1 credit, max arranged

All forms of physical activity performed in the water, including all levels of proficiency in swimming (beginning, intermediate, and advanced), diving, water fitness activities, and scuba. Two hrs a wk. Graded P/F.

PEB 200 (s) Seminar

Credit arranged.

PEB 204 (s) Special Topics

Credit arranged.

PEB 405 (s) Professional Development

Credit arranged.

PEB 505 (s) Professional Development

Credit arranged.

PHYSICAL ED-- PROFESSIONAL (PEP)

PEP 100 Introduction to Exercise Science & Health 1 credit

Introduction to foundational content, subdisciplines of study in exercise science, and fields of health. Students will also gain an understanding of career opportunities within the areas of exercise science & health. (Fall only)

PEP 107 Movement Fundamentals 1 credit

Skill development and teaching knowledge of the fundamentals and concepts of movement. Two lec-labs a wk.

PEP 132 Skill and Analysis of Striking and Net/Wall Activities 1 credit

This course is designed to develop proficiency in basic skills, strategies, tactics, error detection and correction, rules, teaching skills and curricular models for striking and net/wall activities (e.g. tennis, badminton, pickleball, volleyball, softball, cricket, etc.). Lec-lab.

PEP 133 Skill and Analysis of Target and Invasion Activities 1 credit

This course is designed to develop proficiency in basic skills, strategies, tactics, error detection and correction, rules, teaching skills and curricular models for target and invasion activities (e.g. golf, bowling, basketball, soccer, team handball, hockey, football, ultimate Frisbee, etc.). Lec-lab.

PEP 134 Skill and Analysis of Recreation and Outdoor Activities 1 credit

This course is designed to develop proficiency in basic skills, strategies, rules, ethics, teaching skills and designing teaching progressions and curricular models for recreation and outdoor activities (e.g. snow shoeing, wall climbing, orienteering, geocaching, skating, bicycling, hiking/walking, jogging, camping). Field trips required.

PEP 135 Skill and Analysis of Basketball and Volleyball 1 credit

Skill development and knowledge of teaching progressions, techniques, strategies, and analysis and correction of skills in basketball and volleyball. Two lec-labs a wk.

PEP 136 Skill and Analysis of Soccer and Speedball 1 credit

Skill development and knowledge of teaching progressions, techniques, strategies, and analysis and correction of skills in soccer and speedball. Two lec-labs a wk.

PEP 161 Introduction to Physical Education 1 credit

Introduction to the field of physical education teaching and coaching, professional and portfolio development, and national and state standards. (Fall only)

PEP 171 Athletic Training Clinical Experience I - Observation 1 credit

Introductory clinical experience and insight into the profession of Athletic Training. Students will receive supervised clinical education experience in UI's Athletic Training Room. Students will complete the application process into the clinical experience portion of the Athletic Training major in this course. 40 hours/clinical observation. Graded P/F. (Spring only)

Prereq: Permission.

PEP 200 (s) Seminar Credit arranged.

PEP 203 (s) Workshop Credit arranged.

PEP 204 (s) Special Topics Credit arranged.

PEP 243 Recreation Activities 2 credits

Experience in planning, organizing, leading, and evaluating a broad range of games, social recreation, music, drama, arts and crafts, and special events activities.

PEP 275 Moral Reasoning in Sport 2 credits

Joint-listed with PEP 475

PEP 275: Current ethical issues in sport, such as performance-enhancing drugs, mechanization, cheating, eligibility; challenges students to creatively examine their beliefs.

PEP 299 (s) Directed Study Credit arranged.

PEP 300 Applied Human Anatomy and Biomechanics 3 credits

This course is designed to provide the student with the anatomical and biomechanical knowledge essential to conduct a systematic qualitative analysis of human movement in clinical, educational, performance, and wellness settings. Two hrs of lec, two hrs of lab per wk.

Prereq: BIOL 120 or permission.

PEP 301 Mental Training 2 credits

Students will learn and apply mental training skills that are necessary for developing a personalized peak performance program.

Prereq: Permission. Enrollment is restricted to students who are highly engaged in performance activities such as athletes, performing artists, military cadets, etc.

PEP 305 Applied Sports Psychology 3 credits

Overview of key psychological issues in physical education and sport including competition, personality, anxiety, motivation, self-confidence, imagery, and stress management; practical applications of psychological concepts of youth sports and development of key psychological skills for competition.

PEP 350 Elementary Health and Physical Education 3 credits

Specific methods, research, curricula, and media in teaching elementary health and physical education. Three lecture/lab hours per week and 15 hours of practicum work in the schools and community.

Prereq or Coreq: EDCI 327, EDCI 328, and EDCI 329 .

PEP 360 Motor Behavior 3 credits

Overview of development, control, and learning throughout the lifespan. Four hrs of lec-lab a wk.

Prereq or Coreq: BIOL 120.

PEP 371 Athletic Training Clinical Experience IV 1 credit

Students participate in supervised clinical education experience in UI's Athletic Training Room applying athletic training knowledge and skills learned in previous course work.

Prereq: Permission.

PEP 372 Athletic Training Clinical Experience V**1 credit**

Students participate in supervised clinical education experience in UI's Athletic Training Room applying athletic training knowledge and skills learned in previous course work.

Prereq: PEP 371 and Permission.

PEP 380 Assessment & Research in Physical Education Pedagogy**3 credits**

This course will develop learner competencies of assessment and research in physical activity pedagogy. Lec-lab course.

Prereq: MVSC 201 or Permission

Coreq: PEP 440 .

PEP 400 (s) Seminar

Credit arranged.

PEP 403 (s) Workshop

Credit arranged.

PEP 404 (s) Special Topics

Cr arranged.

PEP 405 (s) Professional Development

Credit arranged

Cr earned may not be applied toward grad degree programs but may be accepted for fifth-yr certification. Professional development in physical education and sport professional personnel. Additional projects/ assignments reqd for grad cr.

PEP 409 Concepts in Strength and Conditioning**3 credits**

This course provides students with the theory and practice of resistance training that prepares students to take certification exams such as the National Strength and Conditioning Association Certified Strength and Conditioning Specialist (CSCS) exam. There are two lectures and one lab per week.

PEP 412 Elementary Methods in Physical Activity Pedagogy**3 credits**

This course focuses on the study and application of effective teaching behaviors, methods and curricular models, and the process of planning, implementing, and evaluating teaching and administering a program at the elementary level . A practicum with elementary students is required during this course. Lec-lab.

Prereq: Admission to teacher education program and MVSC 201 and PEP 132 and PEP 133 and PEP 134 and PEP 413 .

PEP 413 Foundations and Assessment in Physical Activity Pedagogy**3 credits**

This course will develop learner competencies in the foundations of physical education, i.e. profession, professional standards, philosophical, cultural, historical and social aspects of physical education and physical activity pedagogy; and assessment, research and technology in physical activity pedagogy.

Prereq: MVSC 201 and PEP 132 and PEP 133 and PEP 134 .

PEP 418 Physiology of Exercise**2 credits**

Effects of physical activity on the circulatory, respiratory, and other systems.

Prereq: MVSC 201, BIOL 120 and BIOL 121; or Permission

Coreq: PEP 418L.

PEP 418L Physiology of Exercise Laboratory**1 credit**

Laboratory section for PEP 418. Study of the impacts of exercise on energy metabolism, the cardiovascular system, and skeletal muscle.

Prereq: MVSC 201, BIOL 120 and BIOL 121; or Permission

Coreq: PEP 418 .

PEP 421 Secondary Methods in Physical Activity Pedagogy**3 credits**

This course focuses on the study and application of effective teaching behaviors, methods and curricular models, and the process of planning, implementing, and evaluating teaching and administering a program at the secondary level . A practicum with middle and high school students is required during this course. Lec-lab.

Prereq: Admission to teacher education program and MVSC 201 and PEP 132 and PEP 133 and PEP 134 and PEP 413 .

PEP 424 Inclusive Physical Education and Recreation**3 credits**

Cross-listed with REC 424

To provide an overview of movement and physical activities in physical education and recreational settings for individuals with disabilities. Emphasis will be on history, etiology, characteristics, services, resources, professional competencies, and instructional strategies. Practical experience (16 hrs in the community) is required to enhance instructional abilities to adapt and create an inclusive physical education and recreational setting for all participants.

Prereq: Senior standing or Permission.

PEP 440 Curriculum & Administration in Physical Activity Pedagogy**1 credit**

This course is designed to develop students' knowledge of curriculum and administration models, and community programming related to physical activity pedagogy.

Prereq: Admission to teacher education program

Prereq or Coreq: PEP 360, PEP 380, and six professional activity courses .

PEP 455 Design & Analysis of Research in Movement Sciences**3 credits**

Cross-listed with H&S 455 and REC 455

This course is designed to survey the basic types of research methods often found in exercise science and health; and recreation. A variety of research designs and computerized statistical analyses are studied to help students understand the systematic nature of problem solving. Various research problems as they relate to exercise science and health; and recreation are discussed for the purpose of identifying the broad and diverse nature of research in the movement, leisure, and health professions. (Spring only)

Prereq: Junior or Senior standing.

PEP 463 Physical Activity, Health and Metabolic Disease**3 credits**

Joint-listed with PEP 563

An introduction to the history of physical activity and health, adaptations to training, and benefits of physical activity as related to specific metabolic disease states and conditions (e.g., insulin resistance). Students will be required to read and discuss pertinent literature in physical activity and health. Additional projects/assignments reqd for grad cr.

Prereq: PEP 418.

PEP 471 Athletic Training Clinical Experience VI

1 credit

Students participate in supervised clinical education experience in the Athletic Training Room applying athletic training knowledge and skills learned in previous course work.

Prereq: PEP 372 and Permission .

PEP 472 Athletic Training Clinical Experience VII

1 credit

Students participate in supervised clinical education experience in the Athletic Training Room applying athletic training knowledge and skills learned in previous course work.

Prereq: PEP 471 and Permission .

PEP 475 Moral Reasoning in Sport

2 credits

Joint-listed with PEP 275

PEP 275: Current ethical issues in sport, such as performance-enhancing drugs, mechanization, cheating, eligibility; challenges students to creatively examine their beliefs.

PEP 484 (s) Internship in Physical Education Teaching

1-14 credits

Guided observation, supervised instruction, and comprehensive team and independent teaching in elementary and secondary school settings. Students will be following the school district full semester calendar. Graded P/F.

Prereq: Admission to teacher education program and PETE faculty approval

Coreq: EDCI 401.

PEP 493 Fitness Assessment and Prescription

3 credits

Development of skills in exercise testing, data interpretation, and prescription for health related fitness. Two lec and 2 hrs of lab per wk. (Spring only)

Prereq: Senior Standing and PEP 418; or Permission .

PEP 495 (s) Practicum

1 credit, max arranged

Tutorial services performed by advanced students under faculty supervision. Graded P/F.

Prereq: Permission.

PEP 498 (s) Internship in Exercise Science & Health

Credit arranged

Gen Ed: Senior Experience

Supervised field work.

Prereq: MVSC 445, H&S 288, H&S 490, PEP 455, PEP 493, and PEP 495; or Permission .

PEP 499 (s) Directed Study

Credit arranged.

PEP 500 Master's Research and Thesis

Credit arranged.

PEP 501 (s) Seminar

Credit arranged.

PEP 502 (s) Directed Study

Credit arranged.

PEP 503 (s) Workshop

Credit arranged.

PEP 504 (s) Special Topics

Credit arranged.

PEP 505 (s) Professional Development

Credit arranged

Joint-listed with PEP 405.

PEP 518 Advanced Physiology of Exercise

3 credits

Principles and methods essential to the experimental approach to understand how the human body responds to short-term bouts of exercise and subsequently adapts to exposure to long-term exercise training. Two lectures per week.

PEP 522 Pedagogy Applied to Health, Physical Education, Recreation, and Dance

3 credits

Provides theoretical and practical skills in the study and analysis of the teaching and learning process in health, physical education, recreation, and dance.

PEP 523 Physical Activity Assessment and Enrichment

3 credits

This course is designed to focus learners on physical activity assessment and enrichment research with specific application to active travel, community, park, school site, and workplace physical activity.

PEP 530 Contemporary Issues in Health and Activity

3 credits

Studies of individual and community behavior, theories, policies and current issues related to health and activity; examination of research and development of research and grant proposals. (Fall only)

PEP 532 Health and Community Development

3 credits

This multidisciplinary course will discuss the determinants of sustainable and active healthy lifestyles, and explore the links between health, physical activity, and community development.

PEP 544 Program Development

3 credits

Developing programs associated with physical education and sport science using current conceptual frameworks and models. Field-testing of programs may be required.

PEP 560 Sport Psychology

3 credits

Provides an understanding of how psychological factors influence performance and how simple and easy-to-use mental training techniques may be employed to enhance performance and enjoyment; using the Coaches' Guide to Sport Psychology and accompanying workbook, teachers/coaches will address such important psychological topics as peak performance, motivation, communication, leadership, self-confidence, concentration, stress management, imagery, goal setting, arousal control, and mental plans/performance routines; workbook exercises, case studies, and hands-on projects will teach mental training principles and help practitioners develop skills that they can successfully use to enhance performance with their students/athletes. (Fall only)

PEP 561 Motivation in Sport and Recreation

3 credits

Practical, hands-on course designed to teach basics of motivation to physical educators, coaches, and recreation professionals; major achievement motivation theories and primary antecedents and consequences of motivated behavior; five major motivational enhancement strategies including goal setting, personal science, competition, feedback, and reinforcement; guidelines for maximizing effectiveness; analysis of applied motivation questions such as dropouts/burnouts, peak performance, exercise adherence, injury rehabilitation, increasing enjoyment, designing reward systems, and positive parental involvement. (Spring only)

PEP 563 Physical Activity, Health and Metabolic Disease

3 credits

Joint-listed with PEP 463

An introduction to the history of physical activity and health, adaptations to training, and benefits of physical activity as related to specific metabolic disease states and conditions (e.g., insulin resistance). Students will be required to read and discuss pertinent literature in physical activity and health. Additional projects/assignments reqd for grad cr.

PEP 570 Ethical Practice and Communication in Physical Activity

3 credits

Problem solving approach to communication and practice of ethics in physical activity. (Fall only)

PEP 598 (s) Internship

Credit arranged

Supervised field experience in an appropriate public or private agency. Graded P/F.

Prereq: Permission.

PEP 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

PEP 600 Doctoral Research and Dissertation

Credit arranged.

PEP 699 Non-Dissertation Doctoral Research

Credit arranged

Research not directly related to dissertation.

Prereq: Enrollment to a doctoral program .

PHYSICS (PHYS)

PHYS 100 Fundamentals of Physics

3 credits

Gen Ed: Natural and Applied Sciences

Carries no credit after PHYS 111 or PHYS 211. For students in nontechnical fields. Conceptual study of laws of nature and their application, including mechanics, heat, electricity and magnetism, light, and modern physics. Three lec per week. (Fall only)

PHYS 100L Fundamentals of Physics Lab

1 credit

Gen Ed: Natural and Applied Sciences

For students in nontechnical fields. Conceptual study of laws of nature and their application, including mechanics, heat, electricity and magnetism, light, and modern physics. One 2-hour lab per week. (Spring only)

PHYS 103 General Astronomy

3 credits

Gen Ed: Natural and Applied Sciences

Descriptive and physical astronomy; development of astronomical thought; properties and evolution of the solar system, stars, galaxies, and the universe. (Fall only)

PHYS 104 Astronomy Lab

1 credit

Gen Ed: Natural and Applied Sciences

Naked eye, telescopic, and photographic observations of constellations, stars, and planets. One 2-hr lab per wk. (Fall only)

Prereq or coreq: PHYS 103.

PHYS 111 General Physics I

3 credits

Gen Ed: Natural and Applied Sciences

Carries no credit after PHYS 211. Kinematics, forces and dynamics, conservation laws, thermodynamics, waves. Three lec and one recitation per wk.

Prereq: MATH 143.

PHYS 111L General Physics I Lab

1 credit

Gen Ed: Natural and Applied Sciences

Kinematics, forces and dynamics, conservation laws, thermodynamics, waves. One 2-hour lab per week.

Prereq: MATH 143.

Coreq: PHYS 111.

PHYS 112 General Physics II

3 credits

Gen Ed: Natural and Applied Sciences

Carries no credit after PHYS 212. Electricity, magnetism, optics, and modern physics. Three lec and one recitation per wk. (Spring only)

Prereq: PHYS 111/PHYS 111L.

PHYS 112L General Physics II Lab

1 credit

Gen Ed: Natural and Applied Sciences

Electricity, magnetism, optics, and modern physics. One 2-hour lab per week.

Prereq: PHYS 111/PHYS 111L.

Coreq: PHYS 112.

PHYS 200 (s) Physics Seminar

1 credit

Introductory-level discussion of topics in modern physics; introduction to physics research topics and scientific information search techniques; written and/or oral reports of a pertinent topic in current physics. (Fall only)

PHYS 203 (s) Workshop

Credit arranged.

PHYS 204 (s) Special Topics

Credit arranged.

PHYS 211 Engineering Physics I

3 credits

Gen Ed: Natural and Applied Sciences

Kinematics and dynamics, Newton's laws, work and energy, rotational dynamics, linear and angular momentum, collisions, static equilibrium, oscillations, gravity and central forces. Three lec and one recitation per wk.

Prereq or Coreq: MATH 170.

PHYS 211L Laboratory Physics I

1 credit

Gen Ed: Natural and Applied Sciences

Kinematics and dynamics, Newton's laws, work and energy, rotational dynamics, linear and angular momentum, collisions, static equilibrium, oscillations, gravity, central forces, and thermodynamics. One 2-hr lab per wk.

Coreq:PHYS 211.

PHYS 212 Engineering Physics II

3 credits

Gen Ed: Natural and Applied Sciences

Electric fields and potentials, magnetic fields, capacitance and inductance, DC and AC circuits, electromagnetic waves. Three lec and one recitation per wk.

Prereq: PHYS 211/PHYS 211L.

Prereq or Coreq: MATH 175.

PHYS 212L Laboratory Physics II

1 credit

Gen Ed: Natural and Applied Sciences

Electric fields and potentials, magnetic fields, capacitance and inductance, DC and AC circuits, electromagnetic waves, mechanical waves, and geometric optics. One 2-hr lab per wk.

Coreq: PHYS 212.

PHYS 213 Engineering Physics III

3 credits

Fluid dynamics, waves in elastic media, sound waves, temperature, heat and thermodynamics, kinetic theory, geometric and physical optics. Three lec and one recitation per wk. (Spring only)

Prereq: PHYS 211/PHYS 211L.

Prereq or coreq: MATH 175.

PHYS 299 (s) Directed Study

Credit arranged.

PHYS 305 Modern Physics

3 credits

Quantum and relativity theories with applications to atomic, solid state, nuclear, and elementary particle physics. (Spring only)

Prereq: PHYS 212/PHYS 212L.

Coreq: MATH 275 and PHYS 213 .

PHYS 321 Analytical Mechanics**3 credits**

Review of single-particle kinematics and dynamics; linear oscillations; Lagrangian dynamics; orbital dynamics; motion in non-inertial systems; space rotation of rigid bodies.

Prereq: PHYS 212/PHYS 212L and MATH 275

Coreq: MATH 310.

PHYS 333 Statistical Thermodynamics**3 credits**

Cross-listed with CHEM 495

Classical thermodynamics, entropy, thermodynamic potentials, kinetic theory, classical and quantum statistical mechanics, ensembles, partition functions, introduction to phase transitions.

Prereq: CHEM 306 or PHYS 305 or equivalent.

PHYS 341 Electromagnetic Fields I**3 credits**

This course is designed to provide undergraduate physics majors advanced instruction in electrostatics. The specific areas which will be covered are electric fields, electric potentials, work and energy in electrostatics, the technique of using the concept of image charges to solve for the electric field and electric potential of complex charge distributions, Laplace's and Poisson's equations, electric dipoles, polarization and polarizable materials, and the electric dipole approximation

Prereq: PHYS 212, PHYS 212L and MATH 275.

PHYS 342 Electromagnetic Fields II**3 credits**

This course is designed to provide undergraduate physics majors advanced instruction in electrodynamics and magnetism. The specific areas that will be covered are magnetostatics, magnetic fields in matter, the vector potential, electrodynamics, the complete set of Maxwell's equations, electromagnetic waves, waveguides, electric and magnetic dipole radiation, retarded and advanced potentials, and radiation arising from accelerated charges and charge distributions

Prereq: PHYS 341.

PHYS 351 Introductory Quantum Mechanics I**3 credits**

One-dimensional theory; free particle, bound states, potential barriers, harmonic oscillator, matrix methods, and Dirac notation; interpretations of quantum theory.

Prereq: PHYS 305, PHYS 371

Coreq: MATH 330.

PHYS 371 Mathematical Physics**3 credits**

Cross-listed with MATH 371

Mathematical techniques needed in upper-division physics courses, including vector analysis, matrices, Sturm-Liouville problems, special functions, partial differential equations, complex variables.

Prereq: PHYS 212/PHYS 212L and MATH 275.

PHYS 400 (s) Seminar

Credit arranged.

PHYS 403 (s) Workshop

Credit arranged.

PHYS 404 (s) Special Topics

Credit arranged.

PHYS 407 Communicating Science**1 credit**

Gen Ed: Senior Experience

Writing scientific abstracts, manuscripts, and grant proposals; peer review; presenting concepts to scientists in oral and poster form; communicating to non-scientists.

Prereq: Junior or Senior Standing.

PHYS 411 Advanced Physics Lab**4 credits**

Research skills, group dynamics, scientific literature research/drafting, automation and design techniques to prepare students for post-graduate life in a physics laboratory setting. 1-hr distributed lecture time and 3-hr effective lab time per week. Some weeks require scheduling machine utilization time outside of standard class hours per student

Prereq: PHYS 305 or Permission.

PHYS 428 Numerical Methods**3 credits**

Joint-listed with PHYS 528, Cross-listed with ENGR 428, MATH 428

Systems of equations, root finding, error analysis, numerical solution to differential equations, interpolation and data fitting, numerical integration, related topics and applications. Additional projects and/or assignments required for graduate credit in PHYS 528.

Prereq: MATH 310.

PHYS 438 Biological Physics**3 credits**

Joint-listed with PHYS 538

Physics principles applied to biological systems including organisms, cells, and biomolecules. Techniques for studying biological systems and phenomena. Additional projects/assignments required for graduate credit.

Prereq for PHYS 438: PHYS 212 or PHYS 213; Junior or Senior standing.

Prereq for PHYS 538: Graduate Standing or Permission.

PHYS 443 Optics**3 credits**

Joint-listed with PHYS 543

Geometrical optics, wave optics and physical optics with emphasis on modern instrumentation and methods of measurement. Additional projects/assignments required for graduate credit.

Prereq for PHYS 443: PHYS 342.

Prereq for PHYS 543: Admission to Physics Graduate program or Permission.

PHYS 464 Materials Physics and Engineering**3 credits**

Joint-listed with PHYS 564, Cross-listed with MSE 464

Materials for circuits, Magnetism and magnetic materials, Ferroelectric and piezoelectric materials, Semiconductors, Optical properties of semiconductor for optoelectronics, thermal properties, electron band theory, superconductivity. Additional projects/assignments required for graduate credit. (Spring only)

Prereq: Senior standing in an Engineering or Physics major, or PHYS 305 and PHYS 321; or Permission.

PHYS 465 Nuclear and Particle Physics

3 credits

Joint-listed with PHYS 565

Particle production and detection, properties and classification of particles, the quark model of hadrons, symmetries and conservation laws, interactions, grand unification, the strong interaction and nuclear forces, models for nuclear structure and reactions. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq for PHYS 465: PHYS 305.

Prereq for PHYS 565: Admission to physics graduate program or Permission.

PHYS 484 Astrophysics

3 credits

Joint-listed with PHYS 584

Celestial mechanics; planets and planetary systems; structure and evolution of stars and star systems; special and general relativity; cosmology. Additional projects/assignments required for graduate credit. PHYS 484 is a cooperative course available to WSU degree-seeking students.

Prereq for PHYS 484: PHYS 305 or MATH 275; or Permission.

Prereq for PHYS 584: Admission to physics graduate program or Permission.

PHYS 490 Research

1-6 credits, max 6

Undergraduate research or thesis.

Prereq: Permission of Instructor.

PHYS 492 Senior Research

1 credit

Gen Ed: Senior Experience

Undergraduate research in one of the department focus areas. Scientific communication through one presentation to the scientific community and one written report.

Prereq Junior or Senior Standing; or Permission of Instructor.

PHYS 498 (s) Internship

Credit arranged.

PHYS 499 (s) Directed Study

Credit arranged.

PHYS 500 Master's Research and Thesis

Credit arranged.

PHYS 501 (s) Seminar

Credit arranged

Graded P/F.

Prereq: Permission.

PHYS 502 (s) Directed Study

Credit arranged.

PHYS 503 (s) Workshop

Credit arranged.

PHYS 504 (s) Special Topics

Credit arranged.

PHYS 521 Advanced Mechanics

3 credits

Classical mechanics; Lagrange's and Hamilton's principles, two-body problem, rigid body motion, special relativity, canonical transformation, Hamilton-Jacobi theory, small oscillations, and Lagrangian and Hamiltonian formulations for continuous systems and fields.

Cooperative: open to WSU degree-seeking students.

Prereq: PHYS 322.

PHYS 528 Numerical Methods

3 credits

Joint-listed with PHYS 428, Cross-listed with MATH 529

Systems of equations, root finding, error analysis, numerical solution to differential equations, interpolation and data fitting, numerical integration, related topics and applications. Additional projects and/or assignments required for graduate credit in PHYS 528.

Prereq: MATH 310.

PHYS 533 Statistical Mechanics

3 credits

Ensembles, partition functions, classical and quantum statistics renormalization group, criticality, scaling, interacting systems, simulation. Cooperative: open to WSU degree-seeking students.

Prereq: PHYS 333.

PHYS 538 Biological Physics

3 credits

Joint-listed with PHYS 438

Physics principles applied to biological systems including organisms, cells, and biomolecules. Techniques for studying biological systems and phenomena. Additional projects/assignments required for graduate credit.

Prereq for PHYS 438: PHYS 212 or PHYS 213; Junior or Senior standing.

Prereq for PHYS 538: Graduate Standing or Permission.

PHYS 541 Electromagnetic Theory I

3 credits

Analytical tools and techniques describing electromagnetic phenomena, particularly Maxwell's equations, electrostatic and magnetostatic systems, including currents and their interactions and boundary value problems. Cooperative: open to WSU degree-seeking students.

Prereq: PHYS 342.

PHYS 542 Electromagnetic TheoryII

3 credits

Further examinations of the analytical tools and techniques that describe electromagnetic phenomena, particularly electrodynamics, the general theory of emission, propagation and absorption of electromagnetic waves, and the relativistic formulation of electrodynamics. Cooperative: open to WSU degree-seeking students.

Prereq: PHYS 541.

PHYS 543 Optics

3 credits

Joint-listed with PHYS 443

Geometrical optics, wave optics and physical optics with emphasis on modern instrumentation and methods of measurement. Additional projects/assignments required for graduate credit.

Prereq for PHYS 443: PHYS 342.

Prereq for PHYS 543: Admission to Physics Graduate program or Permission.

PHYS 550 Quantum Mechanics I**3 credits**

Fundamental concepts, base kets and matrix representation, position and momentum space; Schroedinger and Heisenberg picture, Schroedinger's wave equation and solutions; theory of angular momentum. Cooperative: open to WSU degree-seeking students.

Prereq: PHYS 351.

PHYS 551 Quantum Mechanics II**3 credits**

Theory of angular momentum continued; symmetries in quantum mechanics; approximation methods, time-dependent and time-independent perturbation theory, applications to atomic systems; radiation theory, theory of scattering. Cooperative: open to WSU degree-seeking students.

Prereq: PHYS 550.

PHYS 564 Materials Physics and Engineering**3 credits**

Joint-listed with PHYS 464, Cross-listed with MSE 564

Materials for circuits, Magnetism and magnetic materials, Ferroelectric and piezoelectric materials, Semiconductors, Optical properties of semiconductor for optoelectronics, thermal properties, electron band theory, superconductivity. Additional projects/assignments required for graduate credit. (Spring only)

Prereq: Senior standing in an Engineering or Physics major, or PHYS 305 and PHYS 321; or Permission.

PHYS 565 Particle and Nuclear Physics**3 credits**

Joint-listed with PHYS 465

Particle production and detection, properties and classification of particles, the quark model of hadrons, symmetries and conservation laws, interactions, grand unification, the strong interaction and nuclear forces, models for nuclear structure and reactions. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq for PHYS 465: PHYS 305.

Prereq for PHYS 565: Admission to physics graduate program or Permission.

PHYS 571 Mathematical Methods of Physics**3 credits**

Methods and problems. Cooperative: open to WSU degree-seeking students.

Prereq: PHYS 322 or Permission.

PHYS 584 Astrophysics**3 credits**

Joint-listed with PHYS 484

Celestial mechanics; planets and planetary systems; structure and evolution of stars and star systems; special and general relativity; cosmology. Additional projects/assignments required for graduate credit. PHYS 484 is a cooperative course available to WSU degree-seeking students.

Prereq for PHYS 484: PHYS 305 or MATH 275; or Permission.

Prereq for PHYS 584: Admission to physics graduate program or Permission.

PHYS 598 (s) Internship

Credit arranged.

PHYS 599 (s) Research

Credit arranged.

PHYS 600 Doctoral Research and Dissertation

Credit arranged.

PLANT SCIENCE (PLSC)

PLSC 100 Survey/Plant & Soil Sciences

1-3 credits, max 3

This course is designed to introduce students to a scientific examination of the soil and plant relationships that affect the production and propagation of field crops and landscape plants. Topics include soils, irrigation, crop and weed identification, diseases, insects and plant growth regulators. (Spring only)

PLSC 102 The Science of Plants in Agriculture

3 credits

Principles of structure, biology, and management of agronomic and horticultural crops; interaction of crop plants and cropping systems with environment; current issues related to plant science. Two lecture and one 2-hr lab a week.

PLSC 201 Principles of Horticulture

3 credits

An introduction to the production and management of edible and ornamental horticultural crops and the maintenance of plants and turf in urban landscapes. Two lecture and two hours of lab a week; two field trips. (Spring, alt/yr)

Prereq: PLSC 102.

PLSC 204 (s) Special Topics

Credit arranged.

PLSC 205 General Botany

4 credits

Growth, development and ecology of plants, fungi, and protists in relation to their environments. Recommended Preparation: CHEM 101 and PLSC 102. (Spring only)

Prereq: BIOL 114 or BIOL 115.

PLSC 207 Introduction to Biotechnology

3 credits

Cross-listed with GENE 207

Offers an overview of modern biotechnology, focusing on basic concepts and applications of biotechnology with regards to plants, animals, environment and microorganisms, and medicine. Recommended preparation: CHEM 101 or CHEM 111. (Fall, alt even/yr)

PLSC 212 Master Gardener

1-3 credits, max 3

Basic horticultural skills required for home gardeners and landscapers, including soil, water, and fertility management, composting, pest and disease identification and management, vegetable and fruit culture, ornamentals, plant propagation, and lawn care. Graded P/F. Field trips.

PLSC 300 Plant Propagation

3 credits

Sexual and asexual propagation techniques of herbaceous and woody ornamental plants; propagation methods covered including seed, cuttings, layering, grafting, and cloning/tissue culture. Two lectures and one 3-hour lab a week. (Alt/yr)

Prereq: PLSC 102, PLSC 201, or BIOL 115.

PLSC 338 Weed Control

4 credits

Nature and scope of weed problems, identification and biology of weeds, principles, theory, and practice of mechanical, chemical, and biological control of weeds; legal considerations; integration of methods into functional management systems. Two lectures and one 3-hour lab a week. Recommended Preparation: PLSC 102 or equivalent.

PLSC 340 Nursery Management

3 credits

Management of commercial nurseries from plant propagation through sale of the plants. Cooperative: open to WSU degree-seeking students. (Alt/yr)

PLSC 341 Nursery Management Laboratory

1 credit

Lab study relevant to PLSC 340. Experiments on and demonstrations of different practices used in nurseries. One 2-hr lab a wk; one 1-day field trip. Cooperative: open to WSU degree-seeking students.

Coreq: PLSC 340.

PLSC 398 (s) Internship

1-6 credits, max 6

Graded P/F.

Prereq: Permission of department.

PLSC 400 (s) Seminar

1 credit.

PLSC 401 Plant Physiology

3 credits

Application of physiological principles to the management of plants in agronomic, horticultural and forest systems. (Spring, alt even/yr)

Prereq: PLSC 205 or BIOL 115 and BIOL 115L or Permission.

PLSC 402 Undergraduate Research in Plant Science

1-6 credits, max 6

This course offers credits to students interested in gaining first-hand experience in today's plant research. Each student will acquire research skills by conducting laboratory or field research on a well-defined topic agreed to by the student and by a faculty supervisor. Students must receive permission from that supervisor prior to enrolling. This course is open to all undergraduates, and may be taken multiple times.

Prereq: PLSC 205.

PLSC 404 (s) Special Topics

Credit arranged.

PLSC 405 (s) Professional Development

Credit arranged.

PLSC 407 Field Crop Production

3 credits

Management and use of crops in Idaho and the Northwest.

PLSC 408 Cereal Science

3 credits

Crop history and biology of major cereal crops, emphasizing cool season cereals. Recommended Preparation: BIOL 115.

PLSC 410 Invasive Plant Biology

3 credits

Joint-listed with PLSC 510

Biology, ecology, and physiology of weeds with emphasis on crop and weed interactions. Requirements for grad cr include comprehensive term paper and class presentation on weed-crop interaction. Two lec and one 3-hr lab a wk. PLSC 410 is a cooperative course available to WSU degree-seeking students. (Alt/yr)

PLSC 419 Plant Community Restoration Methods**2 credits**

Students will participate in classroom discussions surrounding topics that are important to modification and implementation of a restoration plan. Students will also participate in practical, hands-on activities during laboratory periods. Those activities include operation of equipment for cultivation and seeding, calibration of herbicide sprayers, calibration of drills, transplanting techniques, monitoring and evaluation of restoration projects and visits to restoration projects.

Prereq: REM 221, equivalent or permission.

PLSC 433 Plant Tissue Culture Techniques**3 credits**

Joint-listed with PLSC 533

Laboratory-oriented course involving tissue culture techniques with an emphasis on regenerating herbaceous and woody plant species from organs or tissues. Requirements for grad cr include completion of a special project and report. One lec and 5 hrs of lab a wk. Recommended Preparation: PLSC 300. PLSC 533 is a cooperative course available to WSU degree-seeking students. (Alt/yr)

PLSC 438 Pesticides in the Environment**3 credits**

Gen Ed: Senior Experience

Cross-listed with ENT 438 and SOIL 438

Principles of pesticide fate in soil, water, and air; pesticide metabolism in plants, pesticide toxicology, and pesticide mode-mechanism of action; pest resistance to pesticides; biotechnology in pest control; regulations and liability; equipment application technology; pesticide transport, storage, and disposal; and social and ethical considerations. Recommended Preparation: CHEM 275.

PLSC 440 Advanced Laboratory Techniques**4 credits**

Cross-listed with GENE 440

Intensive hypothesis-driven laboratory course that will prepare the student for research in molecular biology; emphasis on areas of microbial physiology, microbial genetics, immunology, and pathogenic microbiology. (Spring only)

Prereq: BIOL 250.

PLSC 446 Plant Breeding**3 credits**

Joint-listed with PLSC 546

Application of genetic principles to improvement of crop plants. Grad students reqd to complete additional term paper. PLSC 546 is a cooperative course available to WSU degree-seeking students. (Alt/yr)

Prereq: GENE 314 or Equivalent.

PLSC 451 Vegetable Crops**3 credits**

Joint-listed with PLSC 551

Production, physiology, storage, and marketing of major and minor vegetable, herb, and spice crops from a worldwide perspective. Recommended preparation: PLSc 201, PLSc 205, PLSc 300 or equivalents. This is a cooperative course available to WSU degree-seeking students. **Prereq:** PLSC 102 or equivalent.

PLSC 464 Landscape Maintenance**3 credits**

Use and culture of landscape plants to enhance the environment. Two lec and one 2-hr lab a wk; one 1-day field trip. Recommended Preparation: SOIL 205 and LARC 288. (Alt/yr)

Prereq: PLSC 102 or BIOL 213 or Permission.

PLSC 476 Cell Biology**3 credits**

Joint-listed with PLSC 576

Introduction to the organization and function of the major components of the eukaryotic cell; emphasis on the composition of cells, the structures and assembly processes of molecules that make up cells, diversity of cell types found in multicellular organisms, and how common interacting processes are coordinately controlled. Extra oral and/or written assignments reqd for graduate credit. (Spring, Alt/yr)

Prereq: BIOL 115 and either BIOL 300 or BIOL 380.

PLSC 480 Field Trip**1 credit, max 3**

Three-day field trip to production areas.

Prereq: Permission.

PLSC 486 Plant Biochemistry**3 credits**

Joint-listed with PLSC 586

An in-depth introduction to metabolic processes carried out by plants, some fungi, and some alga with emphasis on cell wall synthesis, hormone synthesis, and photosynthesis. Extra oral and/or written assignments reqd for grad cr. (Spring, alt/years)

Prereq: BIOL 300 or BIOL 380.

PLSC 488 Genetic Engineering**3 credits**

Joint-listed with PLSC 588, Cross-listed with GENE 488

Techniques and theory underlying practical genetic modifications of plants, microbes, and animals. Extra oral and/or written assignments required for graduate credit. Recommended Preparation: BIOL 380. (Fall only)

Prereq: GENE 314 or BIOL 310.

PLSC 490 Potato Science**3 credits**

Joint-listed with PLSC 590

History, botanical characteristics, seed physiology and production, plant population, physiology of growth, and pest management; factors influencing maturation, harvest, yield, grade, bruise control, storage, and quality maintenance; economics of production and research on a global basis. Requirements for graduate credit include comprehensive term paper and class presentation on selected topic. Cooperative: open to WSU degree-seeking students.

PLSC 498 (s) Internship

Credit arranged.

PLSC 499 (s) Directed Study

Credit arranged.

PLSC 500 Master's Research and Thesis

Credit arranged.

PLSC 501 (s) Seminar

Credit arranged.

PLSC 502 (s) Directed Study

Credit arranged.

PLSC 503 (s) Workshop

Credit arranged.

PLSC 504 (s) Special Topics

Credit arranged.

PLSC 505 (s) Professional Development

Credit arranged.

PLSC 510 Invasive Plant Biology

3 credits

Joint-listed with PLSC 410

Biology, ecology, and physiology of weeds with emphasis on crop and weed interactions. Requirements for grad cr include comprehensive term paper and class presentation on weed-crop interaction. Two lec and one 3-hr lab a wk. PLSC 410 is a cooperative course available to WSU degree-seeking students. (Alt/yr)

PLSC 533 Plant Tissue Culture Techniques

3 credits

Joint-listed with PLSC 433

Laboratory-oriented course involving tissue culture techniques with an emphasis on regenerating herbaceous and woody plant species from organs or tissues. Requirements for grad cr include completion of a special project and report. One lec and 5 hrs of lab a wk. Recommended Preparation: PLSC 300. PLSC 533 is a cooperative course available to WSU degree-seeking students. (Alt/yr)

PLSC 542 Biochemistry

3 credits

Maximum of 7 credits in any combination of BIOL 380, PLSC 542, and BIOL 554. Intermediate biochemistry; intro to metabolism and the chemical and physical properties of biomolecules. (Fall only)

Prereq: CHEM 372; BIOL 380 or **Coreq:** CHEM 302 or 306; or Permission.

PLSC 546 Plant Breeding

3 credits

Joint-listed with PLSC 446

Application of genetic principles to improvement of crop plants. Grad students reqd to complete additional term paper. PLSC 546 is a cooperative course available to WSU degree-seeking students. (Alt/yr)

Prereq: GENE 314 or Equivalent.

PLSC 547 Biometrics for Plant Scientists

3 credits

Use of biometrical techniques in research with particular emphasis on designing, analyzing, and interpreting agricultural and biological experiments; application of statistical methods to biological experiments and problems that may be encountered when applying these techniques to biological systems. Cooperative: open to WSU degree-seeking students. (Alt/yr)

Prereq: PLSC 102 and STAT 431 or Equivalent.

PLSC 551 Vegetable Crops

3 credits

Joint-listed with PLSC 451

Production, physiology, storage, and marketing of major and minor vegetable, herb, and spice crops from a worldwide perspective. Recommended preparation: PISc 201, PISc 205, PISc 300 or equivalents. This is a cooperative course available to WSU degree-seeking students.

Prereq: PLSC 102 or equivalent.

PLSC 576 Cell Biology

3 credits

Joint-listed with PLSC 476

Introduction to the organization and function of the major components of the eukaryotic cell; emphasis on the composition of cells, the structures and assembly processes of molecules that make up cells, diversity of cell types found in multicellular organisms, and how common interacting processes are coordinately controlled. Extra oral and/or written assignments reqd for graduate credit. (Spring, Alt/yr)

Prereq: BIOL 115 and either BIOL 300 or BIOL 380.

PLSC 586 Plant Biochemistry

3 credits

Joint-listed with PLSC 486

An in-depth introduction to metabolic processes carried out by plants, some fungi, and some alga with emphasis on cell wall synthesis, hormone synthesis, and photosynthesis. Extra oral and/or written assignments reqd for grad cr. (Spring, alt/years)

Prereq: BIOL 300 or BIOL 380.

PLSC 588 Genetic Engineering

3 credits

Joint-listed with PLSC 488, Cross-listed with GENE 588

Techniques and theory underlying practical genetic modifications of plants, microbes, and animals. Extra oral and/or written assignments required for graduate credit. Recommended Preparation: BIOL 380. (Fall only)

Prereq: GENE 314 or BIOL 310.

PLSC 590 Potato Science

3 credits

Joint-listed with PLSC 490

History, botanical characteristics, seed physiology and production, plant population, physiology of growth, and pest management; factors influencing maturation, harvest, yield, grade, bruise control, storage, and quality maintenance; economics of production and research on a global basis. Requirements for graduate credit include comprehensive term paper and class presentation on selected topic. Cooperative: open to WSU degree-seeking students.

PLSC 597 (s) Practicum

Credit arranged.

PLSC 598 (s) Internship

Credit arranged.

PLSC 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

PLSC 600 Doctoral Research and Dissertation

Credit arranged.

POLITICAL SCIENCE (POLS)

POLS 101 Introduction to Political Science and American Government **3 credits**

Gen Ed: Social Science, American Diversity

Introduction to the study of politics focusing on basic concepts, processes, and institutions; emphasis on government and politics of the U.S. examined in comparative perspective; probable topics include nature of constitutional democracy, ideology, parties and elections, and formation of public policy.

POLS 152 Politics and Pollution **1 credit**

Political, government, and administrative aspects of overcoming air, water, and other types of pollution of our environment.

POLS 200 (s) Seminar **Credit arranged.**

POLS 203 (s) Workshop **Credit arranged.**

POLS 204 (s) Special Topics **Credit arranged.**

POLS 205 Introduction to Comparative Politics **3 credits**

Gen Ed: Social Science, International

Basic structures, patterns, and sociocultural environment of foreign political systems; includes case studies of the government and politics in selected countries.

POLS 207 Introduction to Political Behavior **3 credits**

This course is an introduction to the political behavior of the American electorate. The basic goals of this course are to explain political behavior and investigate the consequences of it. In this course, we will primarily focus on voter turnout; however, we will also discuss other forms of political participation (e.g., giving money), vote choice, partisanship, and ideology. We will address the following questions: Who votes? How have voting rates changed over time? What influences why some people vote? Who votes for whom? In order to address these questions, we will explore literatures, controversies, and theories of political behavior.

POLS 208 Introduction to Political Philosophy **3 credits**

This course will introduce students to the practice and diverse products of political philosophy or normative political theory. Unlike theories in other areas of Political Science, which are typically focused on attempts to provide explanations and predictions regarding empirical phenomena, political philosophy is focused more on normative questions regarding how we ought to arrange our political affairs and how we ought to understand key morally laden concepts, such as obligation, rights, justice, and equality.

POLS 209 Introduction to Public Policy **3 credits**

The study of public policy focuses on how political actors and institutions define public problems, generate solutions to solve them, and evaluate the consequences of those solutions. The course will focus on institutional arrangements for making public policy decisions, the role of various actors – including those from the private and non-profit sectors – in shaping policy outcomes, and the fundamentals of analytic approaches to public policy.

POLS 235 Political Research Methods and Approaches **3 credits**

Introduction to the study of politics, including scope of the discipline, principal fields, research design, and methods of political research and analysis.

POLS 237 Introduction to International Politics **3 credits**

Gen Ed: Social Science, International

Survey of approaches used to describe and explain conflict and cooperation among states in the international system; special emphasis on games of strategic interaction.

POLS 275 American State and Local Government **3 credits**

Gen Ed: Social Science

American state and local politics from a comparative perspective; focus on parties, interest groups, voting behavior, legislative and executive government, judiciary, intergovernmental relations, and public policies.

POLS 299 (s) Directed Study **Credit arranged**

Graded P/F.

Prereq: Permission.

POLS 307 Institutions of the European Union **3 credits**

Gen Ed: Social Science, International

Cross-listed with FLEN 307

A cross-cultural examination of the European Union, its history, evolution, and current functioning; social, cultural, and political differences among union partners; economic structure and demographics; business culture.

POLS 331 American Political Parties and Elections **3 credits**

Gen Ed: Social Science

Development and present character of American political parties and of electoral system, functions of parties in periods of relative consensus and of critical choice regarding fundamental principles, party reform, and future prospects for party system.

POLS 332 American Congress **3 credits**

Gen Ed: Social Science

Roles and functions of Congress in the American political system, theories of representation, recruitment of legislators, Congressional organization and behavior, power structure, relationship to the executive, courts, interest groups, and public.

POLS 333 American Political Culture **3 credits**

Gen Ed: Social Science, American Diversity

Relation of public opinion and political action and affiliation to broad economic, social, religious, and intellectual developments.

POLS 336 Political Research Methods and Approaches II **3 credits**

Course covers advanced research design, social science quantitative methods and data collection issues.

Prereq: POLS 235.

POLS 338 American Foreign Policy **3 credits**

Gen Ed: Social Science, International

Analysis of how key decision makers, such as the President and Congress, convert inputs from the international, national, and societal systems into foreign policy outputs.

POLS 352 Philosophy, Politics, and Economics

3 credits

Cross-listed with PHIL 352

This course will introduce students to the topics and methods of Philosophy, Politics, and Economics (PPE). The approach will be interdisciplinary, with the aim of investigating and illustrating how and why these three disciplines are indispensable to addressing both the normative and factual issues each poses on its own. The course will cover basic methods in rational choice theory, game theory, social choice theory, and political philosophy to explore problems pertaining to decision-making, coordination, cooperation, and justice. The texts will include both traditional and contemporary writings on these issues.

POLS 364 Politics of the Environment

3 credits

Cross-listed with NRS 364

Political factors that influence formation, implementation, and impact of public policies aimed at protecting the environment.

POLS 381 European Politics

3 credits

Gen Ed: Social Science, International

Examination of political processes in European parliamentary systems; topics include parties and elections, coalition formation and dissolution, public policy, and the dynamics of the European Union.

POLS 384 African Politics

3 credits

Cross-listed with IS 384

Exploration of the politics of African countries, beginning with the historical roots of colonialism and decolonization, but concentrating on contemporary issues of state building, war and conflict, development, democratization, and international and regional relations.

POLS 385 Political Psychology

3 credits

Gen Ed: International

The main goal of this course is to provide students with a general understanding of the cognitive biases that influence the choices and behavior of individuals in the realm of global politics. Topics include but are not limited to: loss aversion, personality and beliefs, group influence, analogical reasoning, and emotion. Substantive examples will be drawn from research in International Relations and Comparative Politics. As such, the course will cover the psychology of international conflict, civil war, voting behavior, and public opinion.

POLS 400 (s) Seminar

Credit arranged.

POLS 403 (s) Workshop

Credit arranged.

POLS 404 (s) Special Topics

Credit arranged.

POLS 410 Game Theory

3 credits

Joint-listed with POLS 510

The study of strategic interaction in which an outcome depends upon an individual's own decision and the choices made by others; introduction to the basic tools of game theory used to conceptualize and model political problems as games, including situations involving conflict, cooperation, contracts between agents and principals, coordination, and bargaining. Additional projects/assignments reqd for grad cr.

POLS 420 Introduction to Asian Politics

3 credits

Gen Ed: International

Joint-listed with POLS 520

This course will offer both a country-based and thematic survey of political systems and issues in Asia. Countries to be covered will include (but not be limited to) China, Japan, India, Indonesia, Thailand, and Pakistan. The course will also cover topics such as democratization, economic development, and the changing Asian security environment. Additional projects and/or assignments required for graduate credit. Recommended Preparation: POLS 205. (Spring only)

POLS 423 Politics, Policy and Gender

3 credits

Joint-listed with POLS 523

Examination of the gendered social construction of political processes, outputs, and public policy formation on the national and international level. Study of the historical evolution of women's participation in American politics as well as other countries. Analysis of the politics of gendered representation and political leadership in American politics and elsewhere. Additional projects/assignments reqd for grad cr.

POLS 425 History of Political Philosophy I

3 credits

Joint-listed with POLS 525, Cross-listed with PHIL 426

Perennial problems of politics examined through study of seminal authors of classical antiquity (Plato, Aristotle, Cicero); medieval confrontation of theology with classical political philosophy (Augustine, Aquinas, Marsilius). Additional projects/assignments reqd for grad cr.

POLS 426 History of Political Philosophy II

3 credits

Joint-listed with POLS 526, Cross-listed with PHIL 427

Foundations and development of modern liberalism; analysis of its characteristic goals, and democratic, socialist, and communitarian critics of the project; study of authors including Hobbes, Locke, Rousseau, Marx, and contemporary theorists such as Rawls. Additional projects/assignments reqd for grad cr.

POLS 428 American Political Thought

3 credits

Joint-listed with POLS 528

Major themes and debates in the American search for political self-understanding; topics include representative democracy, religion and politics, the frontier and its legacy, and individualism vs. communitarian claims; study of original sources (Founding Fathers, Thoreau, Lincoln, Populists) and contemporary implications. Additional projects/assignments reqd for grad cr.

POLS 429 Contemporary Political Ethics

3 credits

Joint-listed with POLS 529, Cross-listed with PHIL 429

Current controversies concerning status and substance of ethical claims about deception, violence, coercion, and economic justice in politics and public action. Additional projects/assignments reqd for grad cr.

POLS 430 Political Participation Internship

1-9 credits, max 9

Directed student internship as a participant-observer in the political process, work during a campaign with a candidate, party, or interest group. Graded P/F.

Prereq: Permission.

POLS 437 American Presidency**3 credits**

Roles, power, and functions of the presidency; relationships with other structures and institutions in the U.S. political system. Additional projects/assignments reqd for grad cr.

Prereq: Senior standing or Permission.

POLS 439 Public Policy**3 credits**

Joint-listed with POLS 539

Processes by which domestic policies are formulated and administered; analysis of intentional and unintentional impact of these policies on society. Additional projects/assignments reqd for grad cr.

POLS 440 (s) International Organizations & International Law**3 credits**

Cross-listed with IS 440

League of Nations, United Nations, and role of international law in international relations; the UN's contribution to international security and economic and social development.

POLS 441 Genes and Justice: Comparative Biotechnology Policy Formation**3 credits**

Gen Ed: International

Joint-listed with POLS 541, Cross-listed with PHIL 441

This course introduces students to the basic theoretical, ethical, and practical issues surrounding the rise and regulation of recent biotechnological and biomedical advances, including genetically modified animals and plants in agriculture, stem cell research and cloning in biomedical research, and reprogenetics in medically assisted reproductive technology. Students will learn about theoretical and ethical frameworks to investigate questions of domestic and international policy making and the task of governing modern biosciences, including food safety, fair-trade, consumer well-being, informed choice in medical treatment, conservation, biodiversity, and sustainability. Additional projects/assignments required for graduate credit. Recommended Preparation: PLSC 207 or 3 credits of another science course or 3 credits of political science.

POLS 449 World Politics and War**3 credits**

Gen Ed: International

Joint-listed with POLS 549

A critical analysis of several competing theories that explain why wars occur; some focus on the attempts to control and eliminate warfare as a tool of international diplomacy. Additional projects/assignments required for graduate credit.

POLS 451 Public Administration**3 credits**

Environment of public administration, politics of organizations, public decision-making, public relations, leadership, personnel administration, financial administration, administration ethics; related topics.

POLS 453 Public Management Techniques**3 credits**

Joint-listed with POLS 553

Emphasizes management styles and the empirical basis for decision; focus on conflict management through control or participatory strategies, and the acquisition and analysis of management information. Additional projects/assignments reqd for grad cr.

POLS 454 Public Organization Theory**3 credits**

Joint-listed with POLS 554

Organization theory and behavior in public and nonprofit sector, organization structure and environment, individual behavior in organizations. Additional projects/assignments reqd for grad cr.

POLS 458 Management Internship**1-9 credits, max 9**

Directed internship in an agency of federal, state, or local government or special projects involving federal, state, or local government. One cr for each week of internship work. Graded P/F.

Prereq: Permission.

POLS 459 Legislative Internship**1-9 credits, max 9**

Directed internship in a national, state, municipal, or corporate legislative body. Supervised work experience. Report required. Graded P/F.

Prereq: Permission.

POLS 462 Natural Resource Policy**3 credits**

Cross-listed with NRS 462

Political and institutional context for making natural resource policy; emphasis on interaction between private and public sectors and the federal, state, and tribal governments, including an examination of topical issues in natural resource politics.

POLS 467 Constitutional Law**3 credits**

Joint-listed with POLS 567

The Supreme Court as a constitutional policymaker; federal jurisdiction; constitutional principles concerning judicial review, federalism, implied powers, separation of powers, and due process. Additional projects/assignments reqd for grad cr.

POLS 468 Civil Liberties**3 credits**

Gen Ed: American Diversity

Joint-listed with POLS 568

The Supreme Court and its role in protecting civil liberties; freedom of speech, press, and religion; due process, the Bill of Rights, and its application to the states; criminal justice. Additional projects/assignments required for graduate credit.

POLS 471 Intergovernmental Relations**3 credits**

Joint-listed with POLS 571

Analysis of fiscal and administrative interdependencies among governmental units in the U.S., with an emphasis on public policies. Additional projects/assignments reqd for grad cr.

POLS 472 Local Government Politics and Administration**3 credits**

Joint-listed with POLS 572

Politics, structure, and problems of American cities and other local governments; focus on the urban political economy, the fiscal and social challenges, and the links between public and private sectors; changing social and political functions of American cities and metropolitan fragmentation. Additional projects/assignments reqd for grad cr.

POLS 473 Sustainable Community Development Planning

3 credits

Joint-listed with POLS 573

Course covers theory, methods and national and international practice of sustainable community development planning. Additional projects/ assignments required for graduate credit.

POLS 474 Public Opinion and Political Behavior

3 credits

From this course, you will understand the measurement, structure, and dynamics of public opinion, both what influences it, as well as how it shapes other aspects of politics and public life, including: the character of political attitudes, party identification, turnout and participation, and the vote decision. You will also understand different modes of political participation including conventional and non-conventional and their correlates.

POLS 480 Politics of Development

3 credits

Gen Ed: International

Joint-listed with POLS 580

Role of the state in development, political economy of change, transition to democracy in the Third World, problems of ethnic conflict, overpopulation, and poverty. Additional projects/assignments reqd for grad cr.

POLS 487 Political Violence and Revolution

3 credits

Gen Ed: International

Joint-listed with POLS 587

Survey of the dominant theories attempting to understand the conditions under which humans rebel against their government; from political demonstrations and riots to terrorism to revolution; special emphasis given to the revolutions in Iran and Vietnam. Additional projects/ assignments required for graduate credit.

POLS 490 Senior Experience

3 credits

Gen Ed: Senior Experience

Required of all political science majors; capstone course devoted to mastery of inquiry in political science research; topics will vary.

Prereq: Senior standing and 24 credits in political science.

POLS 498 (s) Internship

Credit arranged.

POLS 499 (s) Directed Study

Credit arranged

Graded P/F.

Prereq: Permission.

POLS 500 Master's Research and Thesis

Credit arranged

Graded P/F.

POLS 501 (s) Seminar

Credit arranged

Areas normally offered incl U.S. politics, U.S. foreign policy, African and Asian politics, community power and politics, U.S. political thought, public law, public administration, and political development. One 2-day field trip is authorized for the seminar in public administration.

Prereq: Permission.

POLS 502 (s) Directed Study

Credit arranged.

POLS 503 (s) Workshop

Credit arranged.

POLS 504 (s) Special Topics

Credit arranged.

POLS 510 Game Theory

3 credits

Joint-listed with POLS 410

The study of strategic interaction in which an outcome depends upon an individual's own decision and the choices made by others; introduction to the basic tools of game theory used to conceptualize and model political problems as games, including situations involving conflict, cooperation, contracts between agents and principals, coordination, and bargaining. Additional projects/assignments reqd for grad cr.

POLS 520 Introduction to Asian Politics

3 credits

Joint-listed with POLS 420

This course will offer both a country-based and thematic survey of political systems and issues in Asia. Countries to be covered will include (but not be limited to) China, Japan, India, Indonesia, Thailand, and Pakistan. The course will also cover topics such as democratization, economic development, and the changing Asian security environment. Additional projects and/or assignments required for graduate credit. Recommended Preparation: POLS 205. (Spring only)

POLS 523 Politics, Policy and Gender

3 credits

Joint-listed with POLS 423

Examination of the gendered social construction of political processes, outputs, and public policy formation on the national and international level. Study of the historical evolution of women's participation in American politics as well as other countries. Analysis of the politics of gendered representation and political leadership in American politics and elsewhere. Additional projects/assignments reqd for grad cr.

POLS 525 History of Political Philosophy I

3 credits

Joint-listed with POLS 425

Perennial problems of politics examined through study of seminal authors of classical antiquity (Plato, Aristotle, Cicero); medieval confrontation of theology with classical political philosophy (Augustine, Aquinas, Marsilius). Additional projects/assignments reqd for grad cr.

POLS 526 History of Political Philosophy II

3 credits

Joint-listed with POLS 426

Foundations and development of modern liberalism; analysis of its characteristic goals, and democratic, socialist, and communitarian critics of the project; study of authors including Hobbes, Locke, Rousseau, Marx, and contemporary theorists such as Rawls. Additional projects/ assignments reqd for grad cr.

POLS 528 American Political Thought

3 credits

Joint-listed with POLS 428

Major themes and debates in the American search for political self-understanding; topics include representative democracy, religion and politics, the frontier and its legacy, and individualism vs. communitarian claims; study of original sources (Founding Fathers, Thoreau, Lincoln, Populists) and contemporary implications. Additional projects/ assignments reqd for grad cr.

POLS 529 Contemporary Political Ethics**3 credits**

Joint-listed with POLS 429

Current controversies concerning status and substance of ethical claims about deception, violence, coercion, and economic justice in politics and public action. Additional projects/assignments reqd for grad cr.

POLS 535 Advanced Political Science and Research Methods**3 credits**

Course covers advanced research design, social science quantitative methods and data collection issues.

POLS 539 Public Policy**3 credits**

Joint-listed with POLS 439

Processes by which domestic policies are formulated and administered; analysis of intentional and unintentional impact of these policies on society. Additional projects/assignments reqd for grad cr.

POLS 541 Genes and Justice: Comparative Biotechnology Policy Formation**3 credits**

Joint-listed with POLS 441

This course introduces students to the basic theoretical, ethical, and practical issues surrounding the rise and regulation of recent biotechnological and biomedical advances, including genetically modified animals and plants in agriculture, stem cell research and cloning in biomedical research, and reproductives in medically assisted reproductive technology. Students will learn about theoretical and ethical frameworks to investigate questions of domestic and international policy making and the task of governing modern biosciences, including food safety, fair-trade, consumer well-being, informed choice in medical treatment, conservation, biodiversity, and sustainability. Additional projects/assignments required for graduate credit. Recommended Preparation: PLSC 207 or 3 credits of another science course or 3 credits of political science.

POLS 549 World Politics and War**3 credits**

Joint-listed with POLS 449

A critical analysis of several competing theories that explain why wars occur; some focus on the attempts to control and eliminate warfare as a tool of international diplomacy. Additional projects/assignments required for graduate credit.

POLS 552 Administrative Law and Regulation**3 credits**

Legal and judicial constraints on administration action, rule-making, adjudication, and other modes of administrative action. Additional projects/assignments reqd for grad cr.

POLS 553 Public Management Techniques**3 credits**

Joint-listed with POLS 453

Emphasizes management styles and the empirical basis for decision; focus on conflict management through control or participatory strategies, and the acquisition and analysis of management information. Additional projects/assignments reqd for grad cr.

POLS 554 Public Organization Theory**3 credits**

Joint-listed with POLS 454

Organization theory and behavior in public and nonprofit sector, organization structure and environment, individual behavior in organizations. Additional projects/assignments reqd for grad cr.

POLS 555 Public Administration Theory**3 credits**

Major writers in public administration theory and concepts such as leadership, supervision, authority, decision-making, and human relations.

POLS 556 Governmental Policy and Program Analysis**3 credits**

Techniques used to analyze policy alternatives and to evaluate program; developing program objectives, management by objectives, productivity analysis, program evaluation, and policy analysis.

POLS 557 Governmental Budgeting**3 credits**

Theory and practice of budgeting in a political environment; focus on potentials and limitations of various budgeting systems, particular viz the federal experience.

POLS 558 Research Methods for Local Government and Community Administration**3 credits**

This course will provide research tools to students interested in local and community administration. Topics will include research design, inferential statistics, regression analysis, binary dependent variable modeling with application to policy analysis and performance measurement, and program evaluation.

Prereq: STAT 251.

POLS 559 Field Based Research**3 credits**

This course gives in-service MPA graduate students the opportunity to conduct applied research under faculty supervision. Research projects will be selected according to the needs of the agency, student interest, and with faculty approval.

POLS 565 Local Government Law**3 credits**

The course examines the major legal issues involving local government, including tax and spending, public employment contracts, delivery of services and tort liability. Also covered are the relationship problems such as inter-local conflicts and the manner in which state governments and the federal government impact local government. This course also will provide practical instruction on the functions and procedures of municipal governing bodies, municipal courts, and planning and zoning boards.

POLS 567 Constitutional Law**3 credits**

Joint-listed with POLS 467

The Supreme Court as a constitutional policymaker; federal jurisdiction; constitutional principles concerning judicial review, federalism, implied powers, separation of powers, and due process. Additional projects/assignments reqd for grad cr.

POLS 568 Civil Liberties**3 credits**

Joint-listed with POLS 468

The Supreme Court and its role in protecting civil liberties; freedom of speech, press, and religion; due process, the Bill of Rights, and its application to the states; criminal justice. Additional projects/assignments required for graduate credit.

POLS 571 Intergovernmental Relations**3 credits**

Joint-listed with POLS 471

Analysis of fiscal and administrative interdependencies among governmental units in the U.S., with an emphasis on public policies. Additional projects/assignments reqd for grad cr.

POLS 572 Local Government Politics and Administration**3 credits**

Joint-listed with POLS 472

Politics, structure, and problems of American cities and other local governments; focus on the urban political economy, the fiscal and social challenges, and the links between public and private sectors; changing social and political functions of American cities and metropolitan fragmentation. Additional projects/assignments reqd for grad cr.

POLS 573 Sustainable Community Development Planning**3 credits**

Joint-listed with POLS 473

Course covers theory, methods and national and international practice of sustainable community development planning. Additional projects/assignments required for graduate credit.

POLS 580 Politics of Development**3 credits**

Joint-listed with POLS 480

Role of the state in development, political economy of change, transition to democracy in the Third World, problems of ethnic conflict, overpopulation, and poverty. Additional projects/assignments reqd for grad cr.

POLS 587 Political Violence and Revolution**3 credits**

Joint-listed with POLS 487

Survey of the dominant theories attempting to understand the conditions under which humans rebel against their government; from political demonstrations and riots to terrorism to revolution; special emphasis given to the revolutions in Iran and Vietnam. Additional projects/assignments required for graduate credit.

POLS 598 (s) Internship

Credit arranged.

POLS 599 (s) Research

Credit arranged.

POLS 600 Doctoral Research and Dissertation

Credit arranged

Graded P/F.

PSYCHOLOGY (PSYC)

PSYC 101 Introduction to Psychology

3 credits

Gen Ed: Social Science

Intro to psychology topics, including sensation and perception, learning and thinking, motivation, personality and adjustment, social processes, psychological testing; emphasis on fundamental principles.

PSYC 200 (s) Seminar

Credit arranged

Prereq: PSYC 101.

PSYC 201 Survey of Contemporary Psychology

1 credit

Introduces students to the psychology major, the psychology faculty, and current research in psychology. Each week a different faculty member will discuss the history, methods, major findings, and recent developments in his or her main areas of study.

Prereq: PSYC 101.

PSYC 203 (s) Workshop

Credit arranged

Prereq: PSYC 101.

PSYC 204 (s) Special Topics

Credit arranged

Prereq: PSYC 101.

PSYC 215 Quantitative Methods in Psychology

3 credits

Primarily for majors in psychology. Introduction to data analytic techniques used by psychologists.

Prereq: PSYC 101 and completion of a math or statistics course (MATH 108, MATH 123, MATH 130, MATH 143, MATH 160, MATH 170, or STAT 251).

PSYC 218 Introduction to Research in the Behavioral Sciences

4 credits

Primarily for majors in psychology. Logic and method of empirical research in the behavioral sciences; design, execution, and reporting of psychological experimentation and research. Three lec and one 2-hr lab a wk.

Prereq: PSYC 101.

Prereq or Coreq: PSYC 215 or STAT 251.

PSYC 299 (s) Directed Study

Credit arranged

Prereq: PSYC 101.

PSYC 305 Developmental Psychology

3 credits

Conception through late adolescence; genetics, anatomy, physiology, biological changes during development, learning, socialization, cognition, and personality.

Prereq: PSYC 101 or EDCI 301.

PSYC 310 Psychology of Personality

3 credits

Theories of personality, basic concepts, techniques of measurement, and experimental methods; the normal personality.

Prereq: PSYC 101.

PSYC 311 Abnormal Psychology

3 credits

Nature, causes, treatment, and prevention of patterns of emotional disturbances and personality disorders, including neuroses and psychoses.

Prereq: PSYC 101.

PSYC 312 Practical Gerontology

3 credits

Cross-listed with ORGS 312

Preparation for, and accommodation to, becoming older. Emphases will be on behaviors necessary to maintain physical health, and tactics necessary to maintain brain fitness. Course is appropriate for those interested in eldercare, or for any person concerned about sustaining physical health and mental wellness through the lifespan.

Prereq: PSYC 101 or ORGS 210.

PSYC 315 Psychology of Women

3 credits

Gen Ed: American Diversity

This course will cover the empirical research regarding gender differences in domains that are of particular interest to women. These topics will include but not be limited to women in the workplace, cognitive and socialization differences, work-family issues, sexuality, childhood, adolescence, motherhood, identity, and intimate relationships. (Spring, alt/yrs)

Prereq: PSYC 101.

PSYC 317 Explore Mentoring & Leadership

3 credits

Cross-listed with INTR 316 and SOC 316

Through the study of both mentoring as well as leadership, this course will prepare students to become effective mentors, citizens and members of the larger community. The course will cover a broad range of topics including: mentoring skills; leadership language, theory and style; communication and conflict; social justice and multiculturalism; values and ethics; and social change.

PSYC 319 Environmental Psychology

3 credits

This course will cover the empirical social science research on a variety of topics within environmental psychology. Specific topics include: conservation, population psychology, built environments, human territoriality, personal space, crowding, environmental stressors, environmental symbolism, cognitive processes, sustainability of spaces and communities.

Prereq: PSYC 101.

PSYC 320 Introduction to Social Psychology

3 credits

Theories, concepts, and research on the social bases of behavior and social interaction; topics of personal and social relevance, aggression, prejudice, altruism and helping behavior, interpersonal attraction, behavior in groups, conformity, attitudes, authoritarianism, and obedience to authority.

Prereq: PSYC 101.

PSYC 325 Cognitive Psychology

3 credits

Joint-listed with PSYC 525

Survey and analysis of major topics in field; emphasis on contemporary research and theory; related topics in perception, memory, and information processing and transformation. Additional projects/ assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 330 Human Sexuality

3 credits

Joint-listed with PSYC 530

Introduction to the fundamentals of human sexuality; emphasis on current trends and research. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101 .

PSYC 345 Group Dynamics

3 credits

Joint-listed with PSYC 545

This course will cover the empirical research regarding group dynamics, including topics of leadership, cohesion, team building, understanding group level data, problem solving, group mood, group creativity, transactive memory, information processing, and other small group processes. Additional projects/assignments required for graduate credit.

Prereq: PSYC 101.

PSYC 347 Survey of Helping Professions

3 credits

Survey of the helping professions involving psychological assistance, including clinical, counseling, school, social work, psychiatric nursing, chaplaincy/ministerial, non-traditional helpers, and peer helpers. Analysis of counseling methods, psychological testing, outcome studies, and professional issues.

Prereq: PSYC 101.

PSYC 360 Positive Psychology

3 credits

The scientific study of human strengths, life fulfillment, and optimal functioning. Topics include well-being, happiness, optimism, resilience, positive relationships, life meaning, gratitude, and positive development across the lifespan.

Prereq: PSYC 101.

PSYC 372 Physiological Psychology

3 credits

Physiological bases of animal and normal human behavior.

Recommended Preparation: BIOL 102/BIOL 102L or higher.

Prereq: PSYC 101.

PSYC 380 Activities-Based Therapies

3 credits

Techniques based on physical and recreational activities, including crafts, individual and team sports, recreational reading and game-playing. The goal of such approached is to assist clients in their return to an adaptive and or comfortable level of functioning. Both physical and psychological functioning are emphasized.

Prereq: PSYC 101 or Permission of Instructor.

PSYC 390 Psychology of Learning

3 credits

Experimental literature of the nature and conditions of classical and operant conditioning, verbal learning, and cognition.

Prereq: PSYC 101.

PSYC 400 (s) Seminar

Credit arranged

Prereq: PSYC 101.

PSYC 403 (s) Workshop

Credit arranged

Prereq: PSYC 101.

PSYC 404 (s) Special Topics

Credit arranged

Prereq: PSYC 101.

PSYC 405 (s) Professional Development

Credit arranged.

PSYC 413 Psychology of Religion

3 credits

Cross-listed with RELS 413

This course examines psychological theories on the origin of the religious impulse in humans, some aspects of religious experience, and contemporary religious phenomena. It provides an overview of the relevance of objective, depth, and humanistic approaches for the psychology of religion. The biographies and theories of particularly Freud, Jung, Erikson, and James are highlighted.

Prereq: PSYC 101 .

PSYC 414 Traumatic Events: Preparation, Intervention, Evaluation

3 credits

Cross-listed with ORGS 414

Traumatic Events (TEs) range from local to large scale human-induced or catastrophic natural disasters (violent crimes, major accidents, weather events, etc.). This course is designed to address integral response elements: (a) preparation (e.g., organizing, planning, training, equipping) (b) intervention (e.g., multi-agency coordination, logistics, triage, first & secondary responses, volunteers, incident command, communication, mitigation, psychological first aid, media, safety, security) (c) evaluation (e.g., after-action reports, lessons learned, hotwash, best practices, research).

Prereq: PSYC 101 or Permission of Instructor.

PSYC 415 History and Systems of Psychology

3 credits

Gen Ed: Senior Experience

History of psychology as a field of scientific inquiry; overview of development of schools of thought, prominent figures, and key theories. Recommended Preparation: Two upper-division psychology courses.

Prereq: PSYC 101.

PSYC 416 Industrial/Organizational Psychology

3 credits

Joint-listed with PSYC 516

Application of psychological principles to the study of work behavior; includes topics such as personnel selection, performance appraisal, training, work motivation, teams, leadership, and job attitudes. Additional work required for graduate credit.

Prereq: PSYC 101.

PSYC 419 Adult Development and Aging

3 credits

Gen Ed: American Diversity

Analysis of change from early adulthood through death in the areas of social, cognitive, and physical development; examination of theories, concepts, and research in the area of lifespan development; study of the problems of aging, plasticity of functioning, and ingredients of successful aging.

Prereq: PSYC 101.

PSYC 420 Personality and Social Development

3 credits

Personality and social development from birth through adolescence, including such topics as attachment, aggression, impulse control, sex differences, self concept, moral development, and effects of parental childrearing styles.

Prereq: PSYC 101 and PSYC 305, or Permission.

PSYC 421 Cognitive Development**3 credits**

Intellectual development of child from birth to maturity, mechanisms of intellectual growth, relationship between language and cognitive development.

Prereq: PSYC 101 and PSYC 305, or Permission.

PSYC 422 Disorders of Childhood and Adolescence**3 credits**

Joint-listed with PSYC 522

Overview of psychological disorders that affect children and adolescents; emphasis on how childhood mental illness is defined, diagnosed, and treated within multiple theoretical perspectives. Examines how multiple, interacting events shape both adaptive and maladaptive developmental outcomes. Additional work required for graduate credit.

Prereq: PSYC 101 and PSYC 305; or Permission.

PSYC 425 Psychology of Action**3 credits**

The psychology of action is about the mind-body connection: what are the underlying psychological and neurological processes that enable us to translate our intentions into action, and that prevent us from doing things as well as we would like? Action control is a fundamental topic in psychology, neuroscience, and related disciplines, important for rehabilitation, training, design of usable devices, and insight into the functioning of the nervous system as a whole. Topics include perceptual-motor integration, skill acquisition, and planning and generation of simple and complex movements.

Prereq: PSYC 101 and PSYC 218.

PSYC 430 Tests and Measurements**3 credits**

Review of the major principles of test development including test construction and methods for determining test validity and reliability, some of the currently used scales, and study of scaling methods such as Thurstone scales, Likert scales, and semantic differentials. Recommended Preparation: STAT 251.

Prereq: PSYC 101.

PSYC 435 Personnel**3 credits**

Joint-listed with PSYC 535, Cross-listed with ORGS 435

Review of theory and methods related to personnel issues; includes topics such as individual differences, selection, psychometrics, compensation, training programs, and performance appraisal. Additional work required for graduate credit. PSYC 535 is a cooperative course available to WSU degree-seeking students.

Prereq: PSYC 101.

PSYC 440 Psychology of Judgement and Decision Making**3 credits**

This course is an introduction to the psychological study of judgment and decision-making. By examining both laboratory and real-world research, we will learn how people (both laypersons and experts) actually make decisions and judgments and how various biases and heuristics can influence their judgments and decisions.

Prereq: PSYC 101.

PSYC 441 Human Relations in the Workplace**3 credits**

Joint-listed with PSYC 541, Cross-listed with ORGS 441

Overview of the general theory and methods of organizational effectiveness; focus on how individual or group behavior is affected by the organizational environment; includes topics such as work motivation, leadership, teams, culture/climate, and job attitudes.

Additional assignments/projects required for graduate credit. PSYC 541 is a cooperative course available to WSU degree-seeking students.

Prereq: PSYC 101.

PSYC 444 Sensation and Perception**3 credits**

Fundamental processes and variables in sensory, perceptual, and cognitive experiences of humans.

Prereq: PSYC 101 and PSYC 218.

PSYC 446 Engineering Psychology**3 credits**

Application of principles of experimental psychology to analysis of interaction of the human operator with machine systems and work environments; emphasis on psychological aspects of human performance. Cooperative: open to WSU degree-seeking students.

Prereq: PSYC 101; and PSYC 218 or STAT 301 or Permission.

PSYC 448 Psycholinguistics**3 credits**

Cross-listed with ENGL 448

Survey of cognitive processes of language comprehension, language/speech production, and language acquisition. Recommended Preparation: ENGL 241 or ANTH 241, PSYC 101.

Prereq: ENGL 102.

PSYC 450 Training and Performance Support**3 credits**

Joint-listed with PSYC 550, Cross-listed with ORGS 450

Review of applicable theory and methods for developing organizational training programs and performance support systems; emphasis will be on conducting needs analyses, development of systems and training programs to serve needs, and evaluation of program outcomes. Additional project/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 452 Ergonomics and Biomechanics**3 credits**

Joint-listed with PSYC 552

Principles of anthropometry, biomechanics, and work physiology applied to workplace. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 456 Psychology of Emotion**3 credits**

Theories of emotion; biological and social variables influencing the activation of emotion.

Prereq: PSYC 101.

PSYC 461 Human-Computer Interaction**3 credits**

Joint-listed with PSYC 561

Overview of human-computer interaction (HCI) topics, including user models, dialog, display design, usability, software development, groupware, and multimedia. Additional projects/assignments required for graduate credit. Recommended Preparation: PSYC 446. PSYC 561 is a cooperative course available to WSU degree-seeking students.

Prereq: PSYC 101.

PSYC 470 Introduction to Chemical Addictions

3 credits

Joint-listed with PSYC 570

Understanding how individuals develop an addiction to psychoactive chemicals and how they recover from such an addiction; recognition, assessment, and treatment of various chemical addictions and how to do interventions for addicted individuals and their families; topics include drugs of abuse, symptoms and warning signs of chemical addiction, assessment, codependency, interventions, treatment, and recovery. Additional projects/assignments required for graduate credit.

Prereq: PSYC 101.

PSYC 472 Introduction to the Pharmacology of Psychoactive Drugs

3 credits

Joint-listed with PSYC 572

Overview of neural mechanisms, behavioral responses, and addictive aspects of psychoactive drugs. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 473 Blood and Airborne Pathogens: HIV/STDs/Hepatitis/TB

3 credits

Joint-listed with PSYC 573

Overview of HIV/AIDS, TB, and other STDs; preparing counselors to work with clients to prevent these diseases or counsel clients who have acquired these diseases; making counselors examine issues related to human sexuality and biases about sexually related topics. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 474 Record Keeping and Case Management in Chemical Addictions Counseling

3 credits

Joint-listed with PSYC 574

Exploration and examination of the sequence of events and services that clients encounter as they begin and move through the treatment process in a typical addictions treatment setting, as outlined in the Twelve Core Functions and Global Criteria of the International Certification Reciprocity Consortium (ICRC); study of the Twelve Core Functions and the Addiction Counseling Competencies relevant to each area. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 475 Professional Ethics in Addictions Counseling

3 credits

Joint-listed with PSYC 581

Overview of ethical issues and decision making related to addictions counseling; ethics related to harm reduction models and other issues. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 476 Relapse Prevention in Chemical Addictions Counseling

3 credits

Joint-listed with PSYC 576

Overview of addictions relapse, issues and triggers related to relapse, prevention of relapse, and issues related to addictions relapse in general. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 477 Chemical Dependency and the Family

3 credits

Joint-listed with PSYC 577

Overview of how chemical dependence impacts the family unit; intervention techniques to assist the family. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 478 Individual Therapy Techniques in Chemical Addictions Counseling

3 credits

Joint-listed with PSYC 578

Techniques related to counseling individual chemical addictions clients; helping skills such as active listening, problem solving, paraphrasing; numerous role plays and other practicum exercises. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 479 Group Therapy Techniques in Chemical Addictions Counseling

3 credits

Joint-listed with PSYC 579

Theoretical and practical understanding of the group therapy process with individuals from chemical addictions counseling; information about group therapy with actual experience of being part of a group. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 482 Addictions Screening and Assessment

3 credits

Joint-listed with PSYC 582

This course is designed to provide a comprehensive overview of substance abuse screening and assessment. This includes information related to interviewing techniques, substance abuse diagnosis, testing instruments, and issues or problems that influence the assessment environment. Additional projects/assignments reqd for grad cr.

Prereq for 482: PSYC 101 and PSYC 478.

Prereq for 582: PSYC 578.

PSYC 483 Substance Abuse Prevention Theory and Applications I

3 credits

Joint-listed with PSYC 583

This course provides a comprehensive overview of substance abuse prevention theories, prevention programming applications. Upon completion, students should understand current prevention models, CSAP prevention strategies and applications, be familiar with the IOM Continuum of Care, and be familiar with state and federal prevention resources. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 490 Psychopharmacology

3 credits

Joint-listed with PSYC 590

This course provides a solid overview of neurobiology, neurophysiology, and pharmacologic treatment for individuals having psychological/psychiatric disorders. It will also examine evidence supporting the use of such interventions. Additional projects/assignments reqd for grad cr. Recommended Preparation: PSYC 311 and PSYC 372.

Prereq: PSYC 101.

PSYC 494 (s) Psychology Research Training

Credit arranged

Supervised experience in conducting psychological research.

Available topics vary depending on current faculty research interests.

Recommended preparation: PSYC 218.

Prereq: PSYC 101 and Permission.

PSYC 496 Applied Behavior Analysis**3 credits**

Analysis and assessment of behavior in real-life settings, e.g., home, business, industry, and institutions such as prisons and psychiatric hospitals; structured programs of intervention and assessment of behavior change; special emphasis on self-management of behavior.

Prereq: PSYC 101, PSYC 218, and PSYC 390.

PSYC 497 (s) Practicum in Instruction**1-3 credits, max 6**

Tutoring and/or instructional services performed by advanced students under faculty supervision.

Prereq: PSYC 101 and Permission.

PSYC 498 (s) Internship**1-6 credits, max arranged**

Directed internship in an approved setting that features psychological applications.

Prereq: PSYC 101 and Permission.

PSYC 499 (s) Directed Study**Credit arranged**

Prereq: PSYC 101.

PSYC 500 Master's Research and Thesis**Credit arranged.****PSYC 501 (s) Seminar****Credit arranged.****PSYC 502 (s) Directed Study****Credit arranged.****PSYC 503 (s) Workshop****Credit arranged.****PSYC 504 (s) Special Topics****Credit arranged.****PSYC 509 Human Factors in Engineering Design****3 credits**

Application of psychological principles to engineering and design; psychological models and principles from areas of perception, cognition, and information processing; the design process; display and control design; work station layout and system integration; environmental factors; safety; mental workload; human-computer interaction; and current research topics. Recommended preparation: PSYC 325 or PSYC 535; PSYC 444; and PSYC 446.

PSYC 512 Research Methods**3 credits**

Philosophy of research, types of design, data analysis, research report.

Prereq: PSYC 218 or equiv, or Permission.

PSYC 513 Advanced Research Methods**3 credits**

Types of research designs and data analyses; application of principles of design and analysis to real-world problems; and use of computer packages for data analysis.

Prereq: Permission.

PSYC 516 Industrial/Organizational Psychology**3 credits**

Joint-listed with PSYC 416

Application of psychological principles to the study of work behavior; includes topics such as personnel selection, performance appraisal, training, work motivation, teams, leadership, and job attitudes. Additional work required for graduate credit.

Prereq: PSYC 101.

PSYC 522 Disorders of Childhood and Adolescence**3 credits**

Joint-listed with PSYC 422

Overview of psychological disorders that affect children and adolescents; emphasis on how childhood mental illness is defined, diagnosed, and treated within multiple theoretical perspectives. Examines how multiple, interacting events shape both adaptive and maladaptive developmental outcomes. Additional work required for graduate credit.

Prereq: PSYC 101 and PSYC 305; or Permission.

PSYC 525 Cognitive Psychology**3 credits**

Joint-listed with PSYC 325

Survey and analysis of major topics in field; emphasis on contemporary research and theory; related topics in perception, memory, and information processing and transformation. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 526 Cognitive Neuroscience**3 credits**

Examine research in human and animal cognition and its neurological basis. Material covered will include the study of normal cognitive processes in humans with noninvasive behavioral and physiological techniques (e.g., reaction times, fMRI, EEG), the study of brain-injured patients, behavioral and neurophysiological research in animals, and the comparative analyses of cognitive processes across organisms. Computational approaches towards cognitive and neural processing will also be addressed. A selection of the following topics will be covered: perception, object recognition, attention, memory, spatial cognition, motor control, language, executive control, and development. Recommended Preparation: PSYC 325.

PSYC 530 Human Sexuality**3 credits**

Joint-listed with PSYC 330

Introduction to the fundamentals of human sexuality; emphasis on current trends and research. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101 .

PSYC 535 Personnel**3 credits**

Joint-listed with PSYC 435, Cross-listed with ORGS 535

Review of theory and methods related to personnel issues; includes topics such as individual differences, selection, psychometrics, compensation, training programs, and performance appraisal. Additional work required for graduate credit. PSYC 535 is a cooperative course available to WSU degree-seeking students.

Prereq: PSYC 101.

PSYC 541 Human Relations in the Workplace**3 credits**

Joint-listed with PSYC 441, Cross-listed with ORGS 541

Overview of the general theory and methods of organizational effectiveness; focus on how individual or group behavior is affected by the organizational environment; includes topics such as work motivation, leadership, teams, culture/climate, and job attitudes.

Additional assignments/projects required for graduate credit. PSYC 541 is a cooperative course available to WSU degree-seeking students.

Prereq: PSYC 101.

PSYC 545 Group Dynamics

3 credits

Joint-listed with PSYC 345

This course will cover the empirical research regarding group dynamics, including topics of leadership, cohesion, team building, understanding group level data, problem solving, group mood, group creativity, transactive memory, information processing, and other small group processes. Additional projects/assignments required for graduate credit.

Prereq: PSYC 101.

PSYC 550 Training and Performance Support

3 credits

Joint-listed with PSYC 450, Cross-listed with ORGS 550

Review of applicable theory and methods for developing organizational training programs and performance support systems; emphasis will be on conducting needs analyses, development of systems and training programs to serve needs, and evaluation of program outcomes. Additional project/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 552 Ergonomics and Biomechanics

3 credits

Joint-listed with PSYC 452

Principles of anthropometry, biomechanics, and work physiology applied to workplace. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 561 Human-Computer Interaction

3 credits

Joint-listed with PSYC 461

Overview of human-computer interaction (HCI) topics, including user models, dialog, display design, usability, software development, groupware, and multimedia. Additional projects/assignments required for graduate credit. Recommended Preparation: PSYC 446. PSYC 561 is a cooperative course available to WSU degree-seeking students.

Prereq: PSYC 101.

PSYC 562 Advanced Human Factors

3 credits

Review of topics and theories germane to human factors such as performance measurement systems, design specifications, research issues, controls and displays, human reliability, and illumination. Cooperative: open to WSU degree-seeking students.

Prereq: PSYC 446, and STAT 431; or Permission.

PSYC 570 Introduction to Chemical Addictions

3 credits

Joint-listed with PSYC 470

Understanding how individuals develop an addiction to psychoactive chemicals and how they recover from such an addiction; recognition, assessment, and treatment of various chemical addictions and how to do interventions for addicted individuals and their families; topics include drugs of abuse, symptoms and warning signs of chemical addiction, assessment, codependency, interventions, treatment, and recovery. Additional projects/assignments required for graduate credit.

Prereq: PSYC 101.

PSYC 572 Introduction to the Pharmacology of Psychoactive Drugs

3 credits

Joint-listed with PSYC 472

Overview of neural mechanisms, behavioral responses, and addictive aspects of psychoactive drugs. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 573 Blood and Airborne Pathogens: HIV/STDs/Hepatitis/TB

3 credits

Joint-listed with PSYC 473

Overview of HIV/AIDS, TB, and other STDs; preparing counselors to work with clients to prevent these diseases or counsel clients who have acquired these diseases; making counselors examine issues related to human sexuality and biases about sexually related topics. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 574 Record Keeping and Case Management in Chemical Addictions Counseling

3 credits

Joint-listed with PSYC 474

Exploration and examination of the sequence of events and services that clients encounter as they begin and move through the treatment process in a typical addictions treatment setting, as outlined in the Twelve Core Functions and Global Criteria of the International Certification Reciprocity Consortium (ICRC); study of the Twelve Core Functions and the Addiction Counseling Competencies relevant to each area. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 576 Relapse Prevention in Chemical Addictions Counseling

3 credits

Joint-listed with PSYC 476

Overview of addictions relapse, issues and triggers related to relapse, prevention of relapse, and issues related to addictions relapse in general. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 577 Chemical Dependency and the Family

3 credits

Joint-listed with PSYC 477

Overview of how chemical dependence impacts the family unit; intervention techniques to assist the family. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 578 Individual Therapy Techniques in Chemical Addictions Counseling

3 credits

Joint-listed with PSYC 478

Techniques related to counseling individual chemical addictions clients; helping skills such as active listening, problem solving, paraphrasing; numerous role plays and other practicum exercises. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 579 Group Therapy Techniques in Chemical Addictions Counseling

3 credits

Joint-listed with PSYC 479

Theoretical and practical understanding of the group therapy process with individuals from chemical addictions counseling; information about group therapy with actual experience of being part of a group. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 581 Professional Ethics in Addictions Counseling

3 credits

Joint-listed with PSYC 475

Overview of ethical issues and decision making related to addictions counseling; ethics related to harm reduction models and other issues. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 582 Addictions Screening and Assessment

3 credits

Joint-listed with PSYC 482

This course is designed to provide a comprehensive overview of substance abuse screening and assessment. This includes information related to interviewing techniques, substance abuse diagnosis, testing instruments, and issues or problems that influence the assessment environment. Additional projects/assignments reqd for grad cr.

Prereq for 482: PSYC 101 and PSYC 478.

Prereq for 582: PSYC 578.

PSYC 583 Substance Abuse Prevention Theory and Applications I

3 credits

Joint-listed with PSYC 483

This course provides a comprehensive overview of substance abuse prevention theories, prevention programming applications. Upon completion, students should understand current prevention models, CSAP prevention strategies and applications, be familiar with the IOM Continuum of Care, and be familiar with state and federal prevention resources. Additional projects/assignments reqd for grad cr.

Prereq: PSYC 101.

PSYC 590 Psychopharmacology

3 credits

Joint-listed with PSYC 490. Cross-listed with RCHS 529.

This course provides a solid overview of neurobiology, neurophysiology, and pharmacologic treatment for individuals having psychological/psychiatric disorders. It will also examine evidence supporting the use of such interventions. Additional projects/assignments reqd for grad cr. Recommended Preparation: PSYC 311 and PSYC 372.

Prereq: PSYC 101.

PSYC 596 Comprehensive Exam

1 credit

Capstone integration and comprehensive examination of material in psychology master's degree program.

PSYC 597 (s) Practicum

Credit arranged

Prereq: permission.

PSYC 598 (s) Internship

Credit arranged.

PSYC 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

PSYC 600 Doctoral Research and Dissertation

Credit arranged.

RANGELAND ECOLOGY & MGMT (REM)

REM 144 Wildland Fire Management

3 credits

Introduction to wildland fire management including fire behavior, fuels, fire prevention and suppression, fire policy and fire ecology. Includes discussion of current fire management issues.

REM 151 Rangeland Principles

3 credits

Rangelands are vast landscapes that cover most of western North America and the earth. Students will examine the ecological principles that cause these grasslands, shrublands, woodlands and deserts to change or stay the same. How humans use and manage these ecosystems will also be explored. The modern challenges of rangeland management must be met with broad thinking and new, sustainable practices to maintain and restore rangelands and the human communities that rely on them. Course requires in-class projects and field experience(s).

REM 152 Rangeland Ecosystem Exploration

1 credit

Students will explore the climates, plants, animals, and human communities of rangeland throughout North America and the globe. The grasslands, shrublands, woodlands, and deserts that are collectively called rangelands include extensive challenges and opportunities for management and conservation. Students will individually explore these ecosystems through photos, ecosystem descriptions, videos, and internet-based tools. In discussions and presentations, students will collectively share their findings about these incredible rangeland ecosystems. (Fall only)

REM 200 (s) Seminar

Credit arranged .

REM 203 (s) Workshop

Credit arranged .

REM 204 (s) Special Topics

Credit arranged .

REM 221 Principles of Ecology

3 credits

Cross-listed with FOR 221 and WLF 220. Principles of ecology and their relevance to management of natural resources. Major topics include plant and wildlife population, community, ecosystem, and landscape level processes and how these processes interact with the environment. Exploration of how ecosystems are affected by humans and global change. Introduction to the types of questions asked by ecologists, the principal concepts and theories that guide ecological inquiry, and the methods that are used to answer ecological questions. Both terrestrial and aquatic systems are considered.

Prereq: BIOL 102/BIOL 102L or BIOL 114 or BIOL 115 or PLSC 205; or Permission.

REM 252 Wildland Plant Identification

3 credits

Develop skills to identify and classify major rangeland plants. Focus is on identification of grasses, forbs, and shrubs. Discussions will also encompass the ecological roles of wildland plants and the ecosystem classification. This course includes a 1-day field trip. Required for REM majors. (Spring only)

REM 253 Wildland Plant Identification Field Studies

1 credit

Develop skills to identify rangeland plants in the field. Focus is on identification of grasses, forbs, and shrubs. Exploration will include ecosystem roles of wildland plants and developing ecological site descriptions. This course includes a 6-day field trip at the beginning of the summer semester. Required for REM majors.

Prereq: REM 252.

REM 280 Introduction to Wildland Restoration

2 credits

History and overview of the ecological, social, and economic aspects of wildland restoration using case studies. Students will explore approaches and philosophies towards restoring and rehabilitating wildlands that have been damaged through natural forces and human activities such as wildfire, overgrazing, cultivation, and weed invasion.

REM 299 (s) Directed Study

Credit arranged.

REM 340 Ethnobotany

2 credits

Course covers the relationships between humans and plants and the ecology of important native wildland plants of western North America. Course focus is on the natural ecology, identification and cultural attributes (historical and present) of 50 to 75 important native wildland plant species found in forestland, rangeland and other wildland settings in the Northwest U.S. Recommended preparation: plant identification course. (Spring only)

REM 341 Systematic Botany

3 credits

Phylogenetic approach to understanding plant systematics and evolution with a primary focus on the flora of the Pacific Northwest. Includes identification of important plant families and the use of dichotomous keys for species identification. (Spring only)

Prereq: BIOL 114 or BIOL 115; and BIOL 213 or PLSC 205.

REM 398 Renewable Natural Resources Internship

Credit arranged

Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F.

Prereq: Permission of department.

REM 400 (s) Seminar

Credit arranged.

REM 403 (s) Workshop

Credit arranged.

REM 404 (s) Special Topics

Credit arranged.

REM 405 (s) Professional Development

Credit arranged.

REM 407 GIS Application in Fire Ecology and Management

2 credits

Joint-listed with REM 510

Introduces applications of GIS in fire ecology, research, and management including incident mapping, fire progression mapping, GIS overlay analysis, remote sensing fire severity assessments, fire atlas analysis and the role of GIS in the Fire Regime Condition Class concept and the National Fire Plan. Additional assignment/projects required for graduate credit. (Spring only)

Prereq: FOR 375 or GEOG 385; or Permission.

REM 410 Principles of Vegetation Monitoring and Measurement
2 credits

This course introduces theory and application of quantitative and qualitative methods for measuring and monitoring vegetation in grasslands, shrublands, woodlands, and forests. Students will gain a solid understanding of how to measure and evaluate vegetation attributes and design and implement monitoring programs relative to wildlife habitat, livestock forage, fire fuel characteristics, watershed function, and many other wildland values. Class field trip required. Recommended Preparation: A basic understanding of how to use computer spreadsheets such as Excel. Students are encouraged to also enroll in REM 411 which builds on the principles of REM 410 for wildland habitat assessment. (Fall only)

Prereq: STAT 251 or permission.

REM 411 Ecological Monitoring and Analysis
2 credits

This course integrates field sampling with quantitative and theoretical concepts related to scientific research, wildlife habitat, and land management practices. Students collect, analyze, and report on ecological data in various formats, and learn specific protocols used by professionals to assess wildlife habitat. Class field trips required. Recommended preparation: REM 252 and REM 253, REM 341, or other plant identification class; ability to use excel. Co-enrollment in REM 410 is recommended.

Prereq: STAT 251 or Permission.

REM 429 Landscape Ecology
3 credits

Cross-listed with FOR 429

Ecological relationships and conservation issues for biotic communities across the landscape, including spatial and temporal dynamics and patterns, and importance of landscapes in maintenance of ecosystem diversity and function. One or more field trips; one 2-3 hour lab period per week. Recommended Preparation: Familiarity with spreadsheet programs and problem solving using computers. (Spring only)

Prereq: FOR 221 or REM 221.

REM 440 Wildland Restoration Ecology
3 credits

Cross-listed with NRS 440

Ecological principles and management practices involved in restoring and rehabilitating wildland ecosystems after disturbance or alteration to return damaged ecosystems to a productive and stable state. (Spring only)

Prereq: FOR 221, or REM 221, or equivalent general ecology course.

REM 452 Western Wildland Landscapes
2 credits

Survey of wildland plant communities of western North America, focusing on their natural history, including the effects of use by human beings, based on their physical, climatic, and biological characteristics. (Spring only)

Prereq: FOR 221 or REM 221; or Permission.

REM 456 Integrated Rangeland Management
3 credits

Gen Ed: Senior Experience

Management strategies for integrating grazing with other natural resource values such as wildlife, water, timber, recreation, and aesthetics; emphasis on herbivore ecology including ecological impacts of grazing, ways to manage grazing, and nutritional relationships between plants and free-ranging ungulates on rangeland, pastureland, and forest ecosystems. One 4 to 5 day field trip. Recommended Preparation: REM 151. (Spring only)

Prereq: ENGL 313 or ENGL 317.

REM 459 Rangeland Ecology
2 credits

Application of ecological principles in rangeland management; stressing response and behavior of range ecosystems to various kinds and intensity of disturbance and management practice. Recommended Preparation: courses in general ecology (e.g., REM 221), technical writing (e.g., ENGL 317), and vegetation assessment (e.g., REM 410 or FOR 274) or Permission. (Fall only)

REM 460 Integrating GIS and Field Studies in Rangelands
1 credit

Topics related to changing knowledge and technology related to GIS and spatial analysis relevant to ecology of grasslands, shrublands and woodlands. Min. six integrated GIS labs; one five-day field trip. Required for REM majors. (Fall only)

Coreq: REM 459.

REM 472 Remote Sensing of the Environment
3-4 credits

Cross-listed with FOR 472 and NRS 472

Current airborne and satellite systems, data acquisition on ground and from remote locations, instrumentation, imagery interpretation and digital analysis, applications for natural resource science and management.

Two 75-minute lectures and one two-hour lab per week. Recommended Preparation: MATH 143. Cooperative: open to WSU degree-seeking students.

REM 473 ECB Senior Presentation
1 credit

Gen Ed: Senior Experience

Cross-listed with FISH 473, FOR 473, NRS 473, RMAT 473, and WLF 473 Reporting and presenting the senior project (thesis or internship); taken after or concurrently with REM 485 or REM 497. Serves as the senior capstone course for Ecology and Conservation Biology (ECB).

Prereq: Instructor Permission.

REM 480 Ecological Restoration
3 credits

Joint-listed with REM 580

Planning and implementing restoration projects in conjunction with land agencies and stakeholders. Includes service-learning projects. Field trip(s) required. Additional literature review, reports, discussion and/or a class project are required for students pursuing this as a 500-level course.

Prereq: REM 440 or Permission.

REM 483 Senior Project Presentation
1 credit

Cross-listed with FISH 483, FOR 483, NRS 483, and WLF 483

Reporting and presenting the senior project (thesis or internship); taken after or concurrently with REM 485 or REM 497.

REM 495 Teaching Practicum

1-3 credits, max arranged

Gen Ed: Senior Experience

Joint-listed with REM 595

Provides students with peer teaching experience and assisting an instructor. May include classroom activities, grading assignments, developing materials, and/or participating in field trips. Students who take this course as the graduate level, as REM 595, will be asked to do additional work related to developing a teaching philosophy, developing assessment, or experimenting with specific pedagogical approaches with the faculty supervisor.

Prereq: Permission.

REM 497 Senior Research and Thesis

Credit arranged

A research investigation, selected and designed jointly by the student and professor, during which the student has the opportunity to learn research techniques of experimental design, proposal writing, data collection and analysis, scientific writing, and publication; at completion, the student will produce a publishable journal manuscript and/or a conference presentation.

Prereq: Senior standing and Permission.

REM 498 (s) Internship

Credit arranged

Supervised field experience where students define specific topics and skills in rangeland management they wish to gain, develop a learning plan, and present a final report of knowledge gained or project outcomes. The internships will be overseen by an on-site field supervisor and a faculty mentor. Instructor permission required.

REM 499 (s) Directed Study

Credit arranged

For the individual student; conferences, library, field, or lab work.

Prereq: Senior standing, GPA 2.5, and Permission.

REM 500 Master's Research and Thesis

Credit arranged.

REM 501 (s) Seminar

Credit arranged

Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics.

Prereq: Permission.

REM 502 (s) Directed Study

Credit arranged.

REM 503 (s) Workshop

Credit arranged

Selected topics in the conservation and management of natural resources.

Prereq: Permission.

REM 504 (s) Special Topics

Credit arranged.

REM 505 (s) Professional Development

Credit arranged.

REM 507 Landscape and Habitat Dynamics

3 credits

Students explore landscape change occurring a variety of spatial and temporal scales, including global change, succession, disturbance events, and change induced by humans. Via scientific readings, models and spatial analysis students will learn how to quantify landscape change and how a change in environmental conditions and disturbance regimes may affect the composition of landscapes, specifically plant and animal habitats. Recommended Preparation: courses in ecology, statistics, and GIS. (Spring, alt/yr)

Prereq: Permission.

REM 510 GIS Application in Fire Ecology and Management

2 credits

Joint-listed with REM 407

Introduces applications of GIS in fire ecology, research, and management including incident mapping, fire progression mapping, GIS overlay analysis, remote sensing fire severity assessments, fire atlas analysis and the role of GIS in the Fire Regime Condition Class concept and the National Fire Plan. Additional assignment/projects required for graduate credit. (Spring only)

Prereq: FOR 375 or GEOG 385; or Permission.

REM 556 Foraging Ecology of Herbivores

2 credits

Synthesis of foraging behavior concepts including nutritive quality of forages, digestive and metabolic constraints, and diet and habitat selection. Cooperative: open to WSU degree-seeking students. (Fall, alt odd/yr)

REM 560 Ecophysiology

3 credits

Functional responses and adaptations of individual species to their environment, emphasizing the physiological mechanisms that influence the interactions between organisms and the major environmental factors (e.g., solar radiation, energy balance, temperature, water and nutrients, climate), and how this affects the interactions among species and their growth and survival (e.g., competition, herbivory, and allelopathy). The interactive learning materials are compatible only with computers that are 100% compatible with the Windows operating system and the browser, Internet Explorer. (Fall only)

Prereq: A course in general ecology (i.e. REM 221) and general botany, or Permission [www.EcologyOnline.net].

REM 580 Ecological Restoration

3 credits

Joint-listed with REM 480

Planning and implementing restoration projects in conjunction with land agencies and stakeholders. Includes service-learning projects. Field trip(s) required. Additional literature review, reports, discussion and/or a class project are required for students pursuing this as a 500-level course.

Prereq: REM 440 or Permission.

REM 595 Teaching Practicum

1-3 credits, max arranged

Joint-listed with REM 495

Provides students with peer teaching experience and assisting an instructor. May include classroom activities, grading assignments, developing materials, and/or participating in field trips. Students who take this course as the graduate level, as REM 595, will be asked to do additional work related to developing a teaching philosophy, developing assessment, or experimenting with specific pedagogical approaches with the faculty supervisor.

Prereq: Permission.

REM 597 (s) Practicum

Credit arranged.

REM 598 (s) Internship

Credit arranged.

REM 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

REM 600 Doctoral Research and Dissertation

Credit arranged

Prereq: Admission to the doctoral program in "natural resources" and
Permission of department.

RECREATION (REC)

REC 104 Introduction to Recreation, Sport, and Tourism Professions **3 credits**

Introduction to the foundations of recreation, sport and tourism professions and careers, and related issues, resources, and professional opportunities. (Fall only)

REC 105 Teaching Golf I **2 credits**

Teach Professional Golf Management students the basics of golf instruction. They will learn how to establish relationships, organize groups, design golf development programs, demonstrate the short game, as well as the full swing. (Spring only)

Prereq: PGA student, or REC 103 and permission.

REC 107 Outdoor Recreation and Adventure Sports **3 credits**

Introduction to leadership and motivational theories, core competencies, trends, and programming for contemporary outdoor recreation and adventure sports. Overnight field trips and weekly labs required.

REC 108 Orienteering & Navigation **1 credit**

This course will provide an introduction to orienteering and basic map and compass navigation skills for working or recreating. The reading and understanding of forest service and topographical maps will be covered with a focus on symbols, legends, border information and contour lines. Magnetic compasses and an introduction to GPS technology will be used to teach course plotting on maps. Orienteering field experience will be integrated throughout the course. Instruction requires practical field application for hands-on experience.

REC 200 (s) Seminar **Credit arranged.**

REC 203 (s) Workshop **Credit arranged.**

REC 204 (s) Special Topics **Credit arranged.**

REC 205 Teaching Golf II **2 credits**

Basic fundamentals of how the golf swing works. Students will learn how to analyze swing motion and observe ball flight characteristics to help the student improve their golf game. Students will also examine ways to generate business using marketing and promotional techniques. (Fall only)

Prereq: PGA student or PGA 103 and Permission.

REC 216 River Recreation and Water Craft Safety **3 credits**

Introduction to water crafts (river board, rafts, canoes, inflatables, etc) and teaching basic paddling skills and aspects of safety. Additional content includes: river policy, history, culture, careers/guiding, equipment maintenance/storage, river camping and leadership. Field days required (3-5 days).

Prereq or Coreq: REC 107.

REC 218 Rock Climbing & Mountaineering **3 credits**

This course will teach: intra to fundamentals of basic rock climbing including equipment, climbing techniques, knots, belaying, and rappelling; emphasis on skill development, risk management, and leadership. Intra to fundamentals of mountaineering including equipment; fundamentals; rock, snow, and ice techniques; climbing equipment; navigation; expedition planning and safety; emphasis on skill development and safety. This course will follow and promote industry safety standards and teach best practices. Instruction requires three to five full days of practical field application for hands-on experience.

Prereq: REC 107.

REC 222 Cross Country Skiing **1 credit**

Intro to skills of cross country skiing including equipment, waxing, climbing techniques, turns, downhill, and diagonal glides. One 1-day field trip. Recommended Preparation: Two courses from NRS 125, NRS 387, NRS 487, NRS 490. (Alt/hrs)

REC 224 Whitewater Rafting **1 credit**

Intro to skills of whitewater rafting including equipment, trip planning, permits, techniques, and river impact. One or two field trips. (Alt/hrs)

Prereq: Two courses from NRS 125, NRS 387, NRS 487, NRS 490, or Permission.

REC 225 Kayaking **1 credit**

Intro to skills of whitewater kayaking including equipment, eskimo rolls, eddy turns, ferrying, and rapid maneuvering. One 2-day field trip. (Alt/hrs)

Prereq: Two courses from NRS 125, NRS 387, NRS 487, NRS 490, or Permission.

REC 227 Mountain Biking **1 credit**

Introduction to fundamentals of mountain biking including equipment, trip planning, skill development, off-road riding, bike repair, and safety. One 3 to 7 day field trip required.

REC 228 Avalanche Fundamentals **2 credits**

This course will teach the skills necessary for understanding the complex systems involved in backcountry winter avalanche conditions. This course will follow and promote industry safety standards and teach best practices based off of the guidelines set by the American Avalanche Association. This two credit course will cover curriculum such as: general information about avalanche hazard, a framework for decision making and risk management while traveling in avalanche terrain, effective field observation techniques, companion rescue and proper equipment for traveling in avalanche terrain. Instruction requires two full days of practical field application for hands-on experience.

Prereq: REC 107 or Equivalent Experience with Instructor Permission.

REC 229 Swiftwater Rescue Training **2 credits**

This course will teach: identifying river hazards, rescue philosophy / liability, self rescue, tethered swimmers / contact rescues, throwbag deployment, boat based / shore based rescues, strainer swimming, shallow water crossings, foot and body entrapment, knots, boat pins, mechanical advantage and technical rope systems, quick, smooth, effective rescue technique. Instruction requires three full days of practical field application for hands-on experience.

Prereq: REC 107 and REC 216; or equivalent experience with instructor permission.

REC 231 Alpine Skiing**1 credit**

Intro to skills of alpine skiing including ski instruction and tactics in various terrain, equipment selection, and waxing. One 2-day field trip.

REC 240 Recreation and Sport Activities, Programming, and Marketing**3 credits**

Introduction to recreation activities with applications to programming and marketing in leisure settings. Programming field experience required.

REC 254 Camp Leadership in Recreation and Sport**3 credits**

Objectives, organizational structures, programs, and philosophies of for-profit and non-profit recreation and sport camps. One 3-4 day field trip. (Alt/yrs)

REC 260 Foundations of Recreation, Sport, and Tourism**3 credits**

History of and expanding role of leisure in modern U.S. life; emphasis on factors influencing leisure; analysis of leisure values as related to the individual and society. (Fall only)

REC 280 Practicum in Recreation, Sport, and Tourism**1 credit, max 3**

Practical experience in agency recreation and leisure services recreation, park, sport, or tourism agency services. Forty clock hrs reqd per cr. Graded P/F.

Prereq: Permission of advisor.

REC 290 Wilderness First Responder**3 credits**

Wilderness First Responder is the accepted standard in wilderness medical training for guides, trip leaders, and outdoor professionals. This course covers the knowledge and skills needed to respond to back country medical and trauma situations. Over night field trip required. (Spring only)

REC 299 (s) Directed Study**Credit arranged.****REC 305 Teaching Golf III****2 credits**

This course will build on the concepts contained in the Analysis of Swing and the preseminar material for Philosophy and Swing Concepts. This course will examine swing philosophy; apply concepts to various situations; understand course management, physical fitness, and special populations; evaluate short game skills; identify and demonstrate different drills; and incorporate video technology.

Prereq: REC 205.

REC 310 Outdoor and Adventure Leadership**3 credits**

Outdoor and adventure leadership for wilderness experiences and effective expedition planning. Fundamentals of handling wilderness emergencies and evacuation. Wilderness backpacking field experience required during course.

Prereq: REC 107.

REC 370 Health and Human Development in Recreation, Sport, and Tourism**3 credits**

Recreation, sport, and tourism across the lifespan (early childhood to late life). Health and human development concepts and theories. (Spring, Alt/yrs even)

REC 380 Principles of Travel and Tourism**3 credits**

Tourism is "the largest scale movement of goods, services, and people that humanity has ever seen." This course provides an overview of tourism as an industry and a sociocultural phenomenon from local to international levels as well as the economic, social, and environmental impacts of tourism on local communities.

REC 395 Diversity in Recreation, Sport and Tourism**3 credits**

Delivery of recreation, sport, and tourism services to diverse populations. Analysis of diversity issues in a wide array of leisure settings.

REC 400 (s) Seminar**Credit arranged.****REC 403 (s) Work Shop****Credit arranged.****REC 404 (s) Special Topics****Credit arranged.****REC 405 (s) Professional Development****Credit arranged**

Joint-listed with REC 505

Credit earned may not be applied toward graduate degree program.

Professional development and enrichment of recreational professionals.

Additional projects/assignments required for graduate credit.

REC 408 Experiential Education and Adventure Recreation**3 credits**

Philosophical and theoretical foundations of experiential education and adventure activities, and applications to individual, group, and organizational development. Field trips required. (Alt/yrs)

REC 411 Expedition Planning and Management**3 credits**

This course will explore the process of expedition planning including skill, resource and risk assessments, and experience design and activity management to meet desired outcomes. Students will carry out a 7-10 day expedition of their own to test their plan.

Prereq or Coreq: REC 107.

REC 415 Turfgrass Management**3 credits**

Turfgrass science, cultivation and management for a wide variety of golf course applications.

REC 424 Inclusive Physical Education and Recreation**3 credits**

Cross-listed with PEP 424

To provide an overview of movement and physical activities in physical education and recreational settings for individuals with disabilities.

Emphasis will be on history, etiology, characteristics, services, resources, professional competencies, and instructional strategies. Practical experience (16 hrs in the community) is required to enhance instructional abilities to adapt and create an inclusive physical education and recreational setting for all participants.

Prereq: Senior standing or Permission.

REC 455 Design & Analysis of Research in Movement Sciences

3 credits

Cross-listed with H&S 455 and PEP 455

This course is designed to survey the basic types of research methods often found in exercise science and health; and recreation. A variety of research designs and computerized statistical analyses are studied to help students understand the systematic nature of problem solving. Various research problems as they relate to exercise science and health; and recreation are discussed for the purpose of identifying the broad and diverse nature of research in the movement, leisure, and health professions. (Spring only)

Prereq: Junior or Senior standing.

REC 485 Trends in Recreation, Sport and Tourism

3 credits

Current trends and issues in the recreation, sport, and tourism field; analysis of selected topics of current relevance. (Alt/yrs)

REC 490 Management and Entrepreneurship in Recreation, Sport, and Tourism

3 credits

Models of entrepreneurship and components of successful management in recreation, sport, park, and tomism settings such as business planning, human resources, operations and risk management. (Alt/yrs)

REC 498 (s) Internship in Recreation, Sport, and Tourism

Credit arranged

Gen Ed: Senior Experience

Supervised field work with a professional, sport, or tourism recreation agency.

Prereq: REC 280, senior status, majority of coursework completed.

REC 499 (s) Directed Study

Credit arranged.

REC 500 Master's Res & Thesis

Credit arranged.

REC 502 (s) Directed Study

Credit arranged.

REC 503 (s) Workshop

Credit arranged.

REC 504 (s) Special Topics

Credit arranged.

REC 505 (s) Professional Development

Credit arranged

Joint-listed with REC 405

Credit earned may not be applied toward graduate degree program.

Professional development and enrichment of recreational professionals. Additional projects/assignments required for graduate credit.

REC 575 Leadership, Programming and Marketing

3 credits

Studies of theories, methods, and styles of effective leadership. Includes group dynamics, motivation, team building and leadership skills. Planning and development of activity programs and implementation of marketing techniques. (Fall only)

REC 585 Policy Analysis and Historical Perspectives of Leisure

3 credits

Examination of the policy issues that affect the physical education and recreation fields; study of the historical significance of key events and individual contributions from cultural, social and economic points of view. (Fall or Summer only)

REC 595 Budgeting, Financing and Managing Recreational Facilities

3 credits

Policies and practices involved in budgeting, financing, acquisition, managing recreation agencies and facilities. (Spring only)

REC 596 Recreation and Sport Management Behavior

3 credits

Management behavior and strategies related to recreation and sport agencies, including leadership, supervision, and a variety of administrative issues. (Spring only)

REC 598 (s) Internship

Credit arranged

Supervised field experience in an appropriate leisure agency.

Prereq: Permission.

REC 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

REHAB COUNSELING & HUMAN SERV (RCHS)

RCHS 405 (s) Professional Development **credit arranged**

Joint-listed with RCHS 505

Professional development and enrichment of certificated school personnel. Credit earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/ assignments reqd for grad cr.

RCHS 500 Master's Research and Thesis **Credit arranged.**

RCHS 502 (s) Directed Study **Credit arranged.**

RCHS 503 (s) Workshop **Credit arranged.**

RCHS 504 (s) Special Topics **Credit arranged.**

RCHS 505 (s) Professional Development **Credit arranged**

Joint-listed with RCHS 405

Professional development and enrichment of certificated school personnel. Credit earned will not be accepted toward grad degree programs, but may be used in a fifth-yr program. Additional projects/ assignments reqd for grad cr.

RCHS 506 Human Growth & Development **3 credits**

Human development theories and needs across a lifespan, personality development and their implications for rehabilitation and counseling of people with disabilities.

RCHS 510 Assessment in Rehab **3 credits**

Theoretical background and practical skills needed to administer, score, and interpret individual assessment procedures in counseling and human services. Broad exposure to techniques and instruments of psychological and educational assessment is provided.

Prereq: Permission.

RCHS 512 Theories and Applications of Counseling **3 credits**

Overview of prevailing theories of counseling, didactic and experiential activities to model application of technique activities; skill mastery through microskills role-playing.

Prereq: Permission.

RCHS 514 Career Counseling and Development **3 credits**

Career development theories, occupational and educational information and systems, career and leisure counseling, life-style and career decision-making, and career development program planning, resources, and evaluation.

Prereq: Permission.

RCHS 517 Group Counseling **2 credits**

Group theory and practice in counseling, including appropriate uses of group, member selection, planning and implementing groups, members' roles, rights, and responsibilities, group leader characteristics and skills, curative factors in group, ethical considerations, problems unique to group, client dynamics in group, and stages of group development.

Prereq: RCHS 512 or RCHS 512 and Permission.

Coreq: RCHS 518.

RCHS 518 Group Counseling Lab **1 credit**

Participation in a personal development group to promote group counseling skills and awareness of the self as an instrument in effective group leadership; participation as group members as well as observing and serving as part of a reflecting team for the group. Graded P/F. Two hours of lab a week.

Prereq: RCHS 512 and Permission.

RCHS 519 Social and Cultural Foundations **2 credits**

Increase student awareness and knowledge of social forces, trends, and changes as they relate to the practice of counseling, assessment, consultation, learning, development, and problem-solving. A particular focus will be the study of cultural pluralism as it relates to cultural mores, social interaction patterns, differing life styles, and the political and economic realities existing in the U.S. today. Through the exploration of contemporary social and cultural issues in the diverse population of the U.S., students will be better able to understand the effects of these issues on their own values and on the practice of their professions as counselors and school psychologists.

RCHS 520 Approaches to Counseling with Families **2 credits**

Introduction to the application of general systems theory to families within the context of the larger culture; overview of systems approaches to family treatment, multicultural aspects of family treatment, ethics involved in consultation with families, and referral to appropriate services.

Prereq: RCHS 512, RCHS 517, and RCHS 519.

RCHS 521 Counseling Techniques **3 credits**

Overview of the skilled-helper counseling model and the counseling approaches; skill mastery through microskills role-playing activities.

RCHS 528 Diagnosis and Case Conceptualization in Counseling and Human Services **3 credits**

Review of adult and child psychopathology with an emphasis on diagnosis and case conceptualization; basic issues in classification and diagnosis; training in differential diagnosis utilizing the DSM-IV diagnostic system.

RCHS 529 Psychopharmacology **3 credits**

Cross-listed with PSYC 590

This course provides a solid overview of neurobiology, neurophysiology, and pharmacologic treatment for individuals having psychological/ psychiatric disorders. It will also examine evidence supporting the use of such interventions. Additional projects/assignments reqd for grad cr. Recommended Preparation: PSYC 311 and PSYC 372.

Prereq: PSYC 101.

RCHS 530 Legislative and Philosophical Foundations in Working with People with Disabilities

3 credits

Orientation to the history, philosophy, legislation, and delivery of services to people with disabilities across placements.

RCHS 531 Psycho-social Aspects of Disability

3 credits

Social and psychological aspects of disability; attitudinal and environmental problems associated with specific disabilities and their implications for intervention, approaches to rehabilitation across all disabilities, and differences between typical and pathological behavior of people with disabilities.

RCHS 532 Medical/Physical Aspects of Rehabilitation

3 credits

Medical terminology, physical characteristics, and medical information needed to serve people with disabilities; medical and health services used to accommodate and remediate medical and physical disabilities.

RCHS 534 Rehabilitation and Community Case Management

3 credits

Making effective case and case load management decisions including intake interviewing; medical, psychological, and vocational evaluation; job placement and rehabilitation/treatment planning; preparation in writing case histories and notes.

RCHS 535 Vocational Placement and Assistive Technology

3 credits

Environmental and attitudinal barriers to employment experienced by people with disabilities; legislation and current assistive technologies examined as a means of addressing barriers to employment; methods and techniques in employer contact, job analysis, job development, job placement, and transitional planning to overcome those barriers; integrating knowledge about the consumer and labor markets to facilitate an appropriate vocational placement and retention.

Prereq: Permission.

RCHS 536 Professional Issues, Ethics, and Law in Counseling

2 credits

Analytical process of ethical decision-making as it applies to casework, organizational policy, and law; examination of relevant professional and legal issues.

RCHS 540 Addictions Counseling

2 credits

Knowledge and abilities of assessment, treatment, and relapse prevention of addictions; focus on interventions appropriate for people with addiction problems.

RCHS 570 Research and Evaluation in Counseling

3 credits

Overview of measures, instruments, and research methodologies used in the fields of counseling and school psychology. Primary focus is on preparing students to understand the process of scientific enquiry, fundamental statistical concepts, the use of technology, data analysis, qualitative research, and single-subject design. Students will be equipped with an ethical and competent skill set that can be used in the research and evaluation of individual/group treatments, programs, and student outcomes. (Summer only)

RCHS 597 (s) Practicum

Credit arranged

Closely supervised experience as a counselor or school psychologist in a professional setting; 50 hrs of experience are required for each credit. Graded P/F.

Prereq: RCHS 510, RCHS 512, CTE 464, and Permission.

RCHS 598 (s) Internship

Credit arranged

For advanced grad students. Currently offered in counselor education, counselor supervision, college counseling, college student personnel services, school special services, school psychology, school counseling, agency counseling, and private counseling practice. Graded P/F.

Prereq: Permission.

RCHS 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

RCHS 600 (s) Doctoral Research and Dissertation

Credit arranged.

RELIGIOUS STUDIES (RELS)

RELS 133 Religion and Family

2 credits

Overview of influence of religion on dating, courtship, marriage, and family life.

RELS 204 (s) Special Topics

Credit arranged.

RELS 299 (s) Directed Study

Credit arranged.

RELS 302 Biblical Judaism: Texts and Thought

3 credits

Cross-listed with PHIL 302

Analysis of the Hebrew Bible (Old Testament) and related texts with an emphasis on hermeneutics and thought.

RELS 303 Early Christianity: Texts and Thought

3 credits

Cross-listed with PHIL 303

Analysis of the New Testament and other early Christian texts of the first and second centuries C.E. with an emphasis on hermeneutics and thought.

RELS 307 Buddhism

3 credits

Cross-listed with PHIL 307

Philosophy and religion of Gautama Buddha as it developed in India, Tibet, China, and Japan.

RELS 311 Development of Social Theory

3 credits

Cross-listed with SOC 311

Development of social theory from classical roots through contemporary schools; biographical accounts and original works in sociological theory.

Prereq: SOC 101.

RELS 327 Belief Systems

3 credits

Cross-listed with ANTH 327

Method and theory of comparative anthropological study of religion.

RELS 375 The Bible as Literature

3 credits

Gen Ed: Humanities

Cross-listed with ENGL 375

Literary qualities of the Bible.

Prereq: ENGL 102.

Prereq or Coreq: ENGL 175 or ENGL 257 or ENGL 258.

RELS 404 (s) Special Topics

Credit arranged.

RELS 413 Psychology of Religion

3 credits

Cross-listed with PSYC 413

This course examines psychological theories on the origin of the religious impulse in humans, some aspects of religious experience, and contemporary religious phenomena. It provides an overview of the relevance of objective, depth, and humanistic approaches for the psychology of religion. The biographies and theories of particularly Freud, Jung, Erikson, and James are highlighted.

Prereq: PSYC 101 .

RELS 422 Plateau Indians

3 credits

Gen Ed: American Diversity

Cross-listed with AIST 422 and ANTH 422

An overview of historic and contemporary Indian cultures of the Plateau; oral traditions, ceremonial life, social organization, and subsistence activities; history of contact with Euro-American society. Two 1 to 2-day field trips reqd. Additional projects/assignments reqd for grad cr. ANTH 422 is a cooperative course available to WSU degree-seeking students.

RELS 442 The Medieval Church: Europe in the Early and High Middle Ages

3 credits

Gen Ed: Humanities

Cross-listed with RELS 442

Evolution of medieval Christian society from reign of Constantine (c. 300) to pontificate of Innocent III (1215), as expressed in monastic and mendicant orders, crusades, 12th-century Renaissance, and heresy.

RELS 443 The Medieval State: Europe in the High and Late Middle Ages

3 credits

Gen Ed: Humanities

Cross-listed with HIST 443

Analysis of how the vitality of particular medieval princes, of the commercial revolution, and of such movements as development of common law was harnessed in the evolution of medieval government from feudalism to the modern state.

RELS 447 The Renaissance

3 credits

Gen Ed: Humanities

Cross-listed with HIST 447

Explores the transformative movement known as the European Renaissance. Examines how humanism not only shaped and formed art, music, literature and philosophy but also informed one's relationship to the state. Additional projects/assignments required for graduate credit.

RELS 448 The Reformation

3 credits

Gen Ed: Humanities

Cross-listed with RELS 448

This course examines the social and economic as well as the theological dynamic of the Reformation. The course begins by examining the thought of Erasmus and More, continuing through that of Luther, Calvin, and Loyola, to the Anabaptists. Religious upheaval lead not only to the political and military upheaval of the Religious Wars, but also to religious debate, the echoes of which resound through to the present. Additional projects/assignments required for graduate credit.

RELS 499 (s) Directed Study

Credit arranged.

RENEWABLE MATERIALS (RMAT)

RMAT 100 Intro to Renewable Resources

2 credits

Overview of renewable building materials and bio-energy industries. Discovery laboratory in the use of renewable and recycled waste stream materials to create useful products. One lecture and one three-hour lab a week. (Spring only)

RMAT 203 (s) Workshop

Credit arranged.

RMAT 204 (s) Special Topics

Credit arranged.

RMAT 299 (s) Directed Study

Credit arranged.

RMAT 321 Properties of Renewable Materials

3 credits

Physiology, structure and physical and mechanical properties of woody and other renewable plant materials. (Fall only)

RMAT 400 (s) Seminar

Credit arranged.

RMAT 401 Undergraduate Research

1-3 credits

Directed undergraduate research at the upper division level.

Prereq: Junior or senior standing.

RMAT 403 (s) Workshop

Credit arranged.

RMAT 404 (s) Special Topics

Credit Arranged.

RMAT 405 (s) Professional Development

Credit Arranged

Credit earned in this course will not be accepted toward grad degree programs.

Prereq: Permission.

RMAT 410 Wood Properties, Processes, and Uses

1-2 credits

Joint-listed with RMAT 510

Open to non-majors only. Physical, mechanical, and chemical properties of wood and wood products; timber harvesting technologies; and issues in use of wood products. Additional projects/assignments reqd for grad cr. Graded P/F. Five days of workshop, including field trip.

RMAT 436 Biocomposites

3 credits

Joint-listed with RMAT 536

Raw material, processes, properties, and their applications for a number of natural fiber and wood composites made of veneers, particles and fibers. Additional projects and assignments reqd for grad cr. Two half day field trips. Two lectures and one 3-hr lab a week. RMAT 536 only: Cooperative: Open to WSU degree-seeking students. (Fall only)

Prereq: CHEM 101 and RMAT 321; and CHEM 275 or CHEM 277.

RMAT 438 Introduction to Lignocellulosic Chemistry

1 credit

The chemistry of lignocellulosic fiber (natural fiber and wood) formation and structure. Two lectures a week for the first half of the semester. This course meets concurrently with RMAT 538. (Spring only)

Prereq: CHEM 101 or CHEM 111; and CHEM 275 or CHEM 277.

RMAT 444 Primary Products Manufacturing

3 credits

Raw materials, procurement, production methods, drying product specifications, and grading for primary products made from renewable materials including lumber, plywood, poles, and energy products; plant layout, machines, and systems analysis; plant tours. Two lec and one 5-hr lab a wk. (Spring only)

Prereq: RMAT 321.

RMAT 450 Biomaterials Deterioration and Protection

2 credits

Agents that cause deterioration of biomaterials; green building durability issues and design considerations; preservative systems and alternative control methods; and environmental considerations. Recommended preparation: RMAT 321 (Fall only)

RMAT 473 ECB Senior Presentation

1 credit

Gen Ed: Senior Experience

Cross-listed with FISH 473, FOR 473, NRS 473, REM 473, and WLF 473 Reporting and presenting the senior project (thesis or internship); taken after or concurrently with 485 or 497. Serves as the senior capstone course for Ecology and Conservation Biology (ECB).

Prereq: Instructor Permission.

RMAT 491 Biomaterial Product and Process Development Lab

2 credits

Lab to accompany RMAT 495. One 3-hr lab per week. (Spring only)

Prereq: ECON 201 or ECON 202, and RMAT 495.

RMAT 495 Product Development and Brand Management

3 credits

Gen Ed: Senior Experience

Cross-listed with MKTG 495

This course examines product development strategy and the management of brands. Topics will include strategic intent of product development, the process of product development (ideation through post product launch evaluation), market and financial feasibility of product development, trends in product development, and managing brands (strategic brand management and managing brand equity).

Prereq: ECON 201 and ECON 202, or ECON 272; and MKTG 321.

Coreq: MKTG 321.

RMAT 498 Renewable Natural Resources Internship

Credit arranged

Supervised field experience with an appropriate public agency or private company. Graded P/F. (Summer only)

Prereq: Permission of advisor.

RMAT 499 (s) Directed Study

Credit arranged

For the individual student; conferences, library, field, or lab work.

Prereq: Senior standing, GPA 2.5, or Permission.

RMAT 500 Master's Research and Thesis

Credit arranged.

RMAT 501 (s) Seminar

Credit arranged

Major philosophy, management, and research problems of forest products industries; presentation of individual studies on assigned topics.

Prereq: Permission.

RMAT 502 (s) Directed Study

Credit arranged.

RMAT 503 (s) Workshop

Credit arranged

Selected topics in the conservation and management of natural resources.

Prereq: Permission.

RMAT 504 (s) Special Topics

Credit arranged.

RMAT 505 (s) Professional Development

Credit arranged

Credit earned in this course will not be accepted toward graduate degree programs.

Prereq: Permission.

RMAT 510 Wood Properties/Processes/Uses

1-2 credits

Joint-listed with RMAT 410

Open to non-majors only. Physical, mechanical, and chemical properties of wood and wood products; timber harvesting technologies; and issues in use of wood products. Additional projects/assignments reqd for grad cr. Graded P/F. Five days of workshop, including field trip.

RMAT 536 Biocomposites

3 credits

Joint-listed with RMAT 436

Raw material, processes, properties, and their applications for a number of natural fiber and wood composites made of veneers, particles and fibers. Additional projects and assignments reqd for grad cr. Two half day field trips. Two lectures and one 3-hr lab a week. RMAT 536 only: Cooperative: Open to WSU degree-seeking students. (Fall only)

Prereq: CHEM 101 and RMAT 321; and CHEM 275 or CHEM 277.

RMAT 538 Lignocellulosic Biomass Chemistry

3 credits

The chemistry of lignocellulosic fiber (natural fiber and wood) formation, agricultural/natural fiber and wood structure and reactions of lignocellulosic compounds. Two lec and one 3-hr lab a wk. Cooperative open to WSU degree-seeking students (Spring only).

Prereq: CHEM 101 and RMAT 321; and CHEM 275 or CHEM 277.

RMAT 552 Wood and Fiber Science

3 credits

Cell physiology and formation, anatomy, chemistry, and physical and mechanical properties. Factors that impact material quality and performance. (Spring only)

Prereq: Graduate Standing.

RMAT 597 (s) Practicum

Credit arranged.

RMAT 598 (s) Internship

Credit arranged.

RMAT 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

RMAT 600 Doctoral Research and Dissertation

Credit arranged

Prereq: Admission to the doctoral program in "natural resources" and Permission of department.

SOCIOLOGY (SOC)

SOC 101 Introduction to Sociology

3 credits

Gen Ed: Social Science, American Diversity

Basic theories, concepts, and processes involved in scientific study of society; includes socialization process, social inequality, the family, religion, deviance, population, the environment, and social change.

SOC 130 Introduction to Criminology

3 credits

Gen Ed: Social Science

This course provides a general introduction to the study of crime, deviance, and crime control. Course material will cover crime measurement, patterns, and trends as well as major theoretical explanations for crime. Criminal justice institutions such as police, courts, and corrections will be considered along with specific topics as they relate to criminology. These topics include social deviance, violence, white collar crime, terrorism, vice, drug use, organized crime, mental health issues, racial inequalities, women and crime, and the depiction of crime in popular media and culture. Specific crime control policies are also considered.

SOC 200 (s) Seminar

Credit arranged.

SOC 203 (s) Workshop

Soc 203 (s) Workshop (cr arr).

SOC 204 (s) Special Topics

Credit arranged.

SOC 230 Social Problems

3 credits

Gen Ed: Social Science, American Diversity

Contemporary social issues and personal deviations; crime and delinquency, poverty and wealth, drugs, sexual variations, racism, sexism, and the environment.

SOC 241 Global Sociology: Gender, Race, and Class Around the World

3 credits

This course introduces students to different social issues and events around the globe. By looking at these phenomena through the lenses of gender, race, and class, students will learn the complexities of different societies that often are not obvious in everyday representations in US culture and media. The goal is to develop student skills at independently investigating and interpreting global issues and events.

SOC 299 (s) Directed Study

Credit arranged.

SOC 301 Introduction to Diversity and Stratification

3 credits

Gen Ed: Social Science, American Diversity

Cross-listed with ANTH 301

An interdisciplinary and historical study of diversity and stratification in a cross-cultural global context. The course examines multiple forms of diversity and stratification including, but not limited to, culture, class, race/ethnic, gender/sexuality, religious diversity, and political ideology in an effort to raise students' ability to interact with and understand others in our increasingly multicultural world. May include service learning.

Prereq: SOC 101.

SOC 309 Social Science Research Methods

3 credits

This course introduces students to quantitative and qualitative research methods employed in the social sciences. It will discuss research design and ethics, data collection processes, and data analysis.

SOC 311 Development of Social Theory

3 credits

Cross-listed with RELS 311

Development of social theory from classical roots through contemporary schools; biographical accounts and original works in sociological theory. Additional projects/assignments required for graduate credit.

Prereq: SOC 101.

SOC 313 Collective Behavior

3 credits

Analysis of such episodes of behavior as riots, demonstrations, panics, hysteria, as well as interaction of sociological, political, and communication processes involved in public acceptance of fashion, fads, and ideology in a mass society.

Prereq: SOC 101.

SOC 316 Explore Mentoring & Leadership

3 credits

Cross-listed with INTR 316 and PSYC 317

Through the study of both mentoring as well as leadership, this course will prepare students to become effective mentors, citizens and members of the larger community. The course will cover a broad range of topics including: mentoring skills; leadership language, theory and style; communication and conflict; social justice and multiculturalism; values and ethics; and social change.

SOC 325 Family, Violence, and Society

3 credits

Sociological analysis of the family, its relationship to other social institutions, and the ways that the family is intersected by conflict, violence and systems of justice. Special attention is given to exploring the causes and impacts of family violence, strategies for its prevention, treatment of those abused, and intervention strategies for abusers.

Prereq: SOC 101.

SOC 327 Sociology of the Family

3 credits

This class is designed to help students critically evaluate and understand the ways they think about families and the role of the families. In this course we will examine families as social institutions that vary across time and culture, the ways that families shape and are constrained by structural conditions, and the interactions between the family and other social institutions.

Prereq: SOC 101.

SOC 328 Deviant Behavior

3 credits

This course is a critical examination of the relationship between deviance and social control. It will investigate how and why certain forms of behavior come to be known as deviant, analyze the nature of formal and informal responses to deviance, and explain the interaction of different social control institutions. Specific topics may include corruption, drug use, prostitution, criminal violence, gangs, corporate crime, and heroic deviance.

Prereq: SOC 101.

SOC 329 Homicide**3 credits**

This course provides an analysis of the dynamics and processes associated with various types of homicides, as well as the theoretical explanations of homicide. Topics may include familial homicide, serial homicide, homicide associated with cults, and gang-related homicide, among others. Issues related to criminal justice processing of offenders are also discussed.

Prereq: SOC 101.

SOC 330 Juvenile Delinquency**3 credits**

Extent, causes, and control of juvenile delinquent behavior.

Prereq: SOC 101 and SOC 328.

SOC 331 Criminology Theory**3 credits**

Review and assessment of common explanations of crime, deviant behavior and control. May include field trips.

Prereq: SOC 101.

SOC 332 Sociology of Punishment**3 credits**

This course will provide an introduction to the history of criminal punishment, as well as the moral rationales for criminal punishment. The remainder of the course will focus on contemporary issues in crime, criminal punishment and imprisonment. Throughout the course, particular attention will be given to the ways that decisions about punishment affect and are affected by American culture and social structure. May include field trips.

Prereq: SOC 101.

SOC 333 Elite and White Collar Crime**3 credits**

The costs, causes, and control of crime by and against businesses and other organizations; the relationship between trust and white collar crime; the impact of the media in shaping perceptions of white collar crime.

Prereq: SOC 101.

SOC 334 Police and Social Control**3 credits**

History, development, and role of the police as a component of the justice system, with particular attention to the relationship of the police to community, society, and related institutions of social control; societal control of the police as well as the influences of social change and urban decay and disorder on methods of policing. May include field trips.

Prereq: SOC 101.

SOC 335 Terrorism, Society and Justice**3 credits**

Analysis of the concepts, issues and dilemmas related to domestic and international terrorism. Terrorist tactics within the context of the global world-system is considered. Examines counterterrorist strategies and the media and government response to terrorism.

SOC 336 Comparative Criminal Justice Systems**3 credits**

Gen Ed: Social Science, International

Comparative study of justice systems in selected foreign countries. (Alt/ yrs)

Prereq: SOC 101.

SOC 337 Violence and Society**3 credits**

Explores the sources and types of violence, victims of violence, impact of firearms on violence, responses to violence by intergovernmental, national criminal justice systems, and non-state actors, and ways to reduce violence in society.

Prereq: SOC 101 or Instructor Permission.

SOC 338 Regulation of Vice**3 credits**

This course explores the intersection of morality, law, and criminal justice through the examination of "vice" crime, such as illegal drug use, gambling, and sex work. The goal of the class is to explore the socially constructed nature of vice and examine the different socio-legal strategies that have been mobilized to control vice, such as criminalization, decriminalization, regulation, and harm reduction. The class will pay particular attention to the intended and unintended consequences that different social control schemes can have on the lives of racial and ethnic minorities, the poor, and urban communities.

Prereq: SOC 101 or Instructor Permission.

SOC 339 Crime and the Media**3 credits**

Cross-listed with JAMM 339

Critical evaluation of the media portrayals of crime and the criminal justice system; analysis of how the media help to shape public understanding and public policy.

SOC 340 Social Change & Globalization**3 credits**

Gen Ed: Social Science, International

Social change is a central area of study in sociology. Original studies tried to explain the reason for, and impact of, the Industrial Revolution in the 19th century. Globalization is among the key social phenomena instructing contemporary discussions in social change. This course introduces students to various discussions of social change, from the Industrial Revolution to Globalization. Through case study analysis, Globalization will be explored in examining the increased role of international organizations (such as, the IMF, World Bank, WTO, and OECD) in globalizing capital markets and trade; the social and psychological conditions of conflict (such as the state of war in the contemporary landscape, genocide, and impoverishment); and the role of diversity (social and environmental) in proposing alternatives to globalization.

SOC 341 Science, Technology, and Society**3 credits**

This course situates science and technology in the social context. The course draws from Sociology of Science and Science and Technology Studies to examine the nature of scientific expertise, processes of knowledge creation, interrelationship between science and technology, impacts of science and technology on society, and science policy. Students will develop the ability to ask important questions about how the human world affects science and technology – and how science and technology affects the human world.

SOC 342 Gender and Science**3 credits**

This course examines the growing body of scholarship that analyzes the intersections of gender, sexuality, science, and technology. Throughout the course, students will explore the various barriers of expertise, the production of scientific knowledge, and the effects of technological developments. Students will participate in a learning community that allows them to shape their own directions of inquiry and develop their skills as scholarly investigators.

SOC 343 Power, Politics, and Society

3 credits

Gen Ed: Social Science, International

Examines the relationship between political and social institutions, the distribution of power and authority in society, the origins and expansion of the modern state, social and cultural basis of political behavior, and characteristics of transnational and global governance. Recommended Preparation: SOC 230.

Prereq: SOC 101 or Instructor Permission.

SOC 344 Urban Sociology

3 credits

This course seeks to explore the city over time, examining in detail the economic, social, cultural, and political forces that shape the city and its character. It is an interdisciplinary course drawing not only from the fields of urban sociology and criminology, but also of literature, cultural studies, planning, and philosophy. In this course we will explore the following questions: What processes underlie urban growth patterns? What are the roles of political action, economic forces, and culture (i.e. ideology, consumption, and preferences) in shaping urban forms? How do these urban forms influence and shape the experiences of different social groups? How do processes related to increasing economic globalization create "global cities"? And how do these processes influence and help to create patterns of crime and urban inequality?

Prereq: SOC 101 or Instructor Permission.

SOC 345 Criminology

3 credits

This course explores sociological perspectives on extremism in American society. We will consider the socio-structural factors that contribute to a rise in extremist activism, that motivate people to join these organizations, and that provide political opportunity for organizational growth. The class will also explore the historical and contemporary circulation of extremist discourse and ideology in more mainstream spaces. Finally, the course will examine the impact these organizations have on broader society: culture, ideology, political discourse, etc. To accomplish this, the course will focus on case studies of past and current reactionary groups, including hate groups (KKK, neo-Nazi), militia and patriot groups (Posse Comitatus), terrorist groups, and other examples of extremism.

Prereq: SOC 101 or Instructor Permission.

SOC 346 Responding to Risk

3 credits

This course uses risk as a paradigm for a sociological analysis of agency and structure. Students are introduced to various theories and frameworks for modeling risk. The course investigates risk in individual and group behavior, decision making in situations of risk, and risk in the workings of social institutions and social practices, within the areas of crime and deviance, science and technology, health, and the environment.

Prereq: SOC 101 or Instructor Permission.

SOC 350 Food, Culture, and Society

3 credits

Gen Ed: Social Science, American Diversity

Cross-listed with ANTH 350

Examines the structural and cultural implications of eating and producing food in a global world. Utilizing a social scientific framework, it explores the history of particular foods and examines how food systems are racialized, classed and gendered. Primary foci include the social history of food holidays and taboos, the relationships between food and identity, the impact of agricultural production practices on food systems and food security, and forms of resistance to these impacts. Recommended Preparation: ANTH 220 or a 200-level sociology course. May include field trips.

Prereq: SOC 101.

SOC 400 (s) Seminar

Credit arranged

Prereq: SOC 101.

SOC 403 (s) Workshop

Credit arranged

Prereq: SOC 101.

SOC 404 (s) Special Topics

Credit arranged

Prereq: SOC 101.

SOC 415 Citizen's Police Academy

3 credits

Offered only in the spring term, students are acquainted with the activities of a local police department in a community-learning style course. This experience is an opportunity for applied learning in the field. Limited space available. Instructor permission required. Pass/fail only.

SOC 416 Qualitative Social Science Methods

3 credits

Cross-listed with ANTH 416

This course introduces students to social science research methods that collect qualitative data. It will discuss research design and ethics, data collection processes, and data analysis.

Prereq: SOC 101.

SOC 417 Social Data Analysis

3 credits

Cross-listed with ANTH 417

This course introduces students to social science research methods that collect quantitative data. It will discuss research design and ethics, data collection processes, and data analysis.

Prereq: STAT 251 and SOC 101.

SOC 420 Sociology of Law

3 credits

The course examines law creation and law enforcement in their social, political, and economic context. Discussions include the major theories of the role of law and functioning of the modern state, and through the use of historical and contemporary case studies students will evaluate the strengths and weaknesses of these theoretical perspectives.

SOC 421 Gender and Crime**3 credits**

This course uses sociological and criminological theories to explore the relationship between gender and crime. Topics explore adult and juvenile females and their entry into the criminal justice system as victims and offenders. The course examines the challenges faced by females working in criminal justice (policing, courts, and corrections). Gender is also discussed by considering issues faced by the LGBT community in terms of how particular behaviors are criminalized, how LGBT individuals are treated within and by the criminal justice system.

Prereq: SOC 101.

SOC 423 Economic (In)Justice in the United States**3 credits**

Gen Ed: Social Science, American Diversity

This course investigates how United States' institutions create and maintain conditions of economic inequality and injustice. Various angles of inquiry include the unequal distribution of wealth amongst different social groups, the rising power of financial institutions, the prevalence of housing insecurity, the causes and consequences of consumer indebtedness and bankruptcy, and unequal community development.

Prereq: SOC 101 or Instructor Permission.

SOC 424 Sociology of Gender**3 credits**

Gen Ed: Social Science, American Diversity

Historical and comparative analysis of the various roles, statuses, and life opportunities of men and women; emphasis on how gender roles develop in society and their effect on social structure, social institutions, and interpersonal interaction.

Prereq: SOC 101 and a 3 cr lower-division SOC course, or SOC 301/ ANTH 301.

SOC 425 Society and Popular Culture**3 credits**

Cross-listed with ANTH 425

An advanced interdisciplinary survey of the contemporary study of popular culture and its forms. Reviews contemporary theoretical approaches, empirical studies, and representative examples of critical issues and various forms including texts, cultural practices, and material culture. Focus on critical analysis and understanding the significance of popular culture to society and students' everyday lives.

Prereq: SOC 101.

SOC 426 Sociology of Sports**3 credits**

A sociological analysis of the impact of sports on our society. This course provides students with the theoretical basis to critically examine the sociological issues found within sports. The role of money, politics, race, gender, and commercialization will be given special consideration.

Prereq: SOC 101.

SOC 427 Racial and Ethnic Relations**3 credits**

Gen Ed: Social Science, American Diversity

Cross-listed with ANTH 427

Examination of the social construction of racial categories and meanings; theories of race relations; historical and contemporary experiences of racial/ethnic groups in the U.S.; contemporary issues and debates.

Prereq: SOC 101 and a 3 cr lower-division SOC course, or SOC 301/ ANTH 301.

SOC 428 Self and Society**3 credits**

This course provides an overview of sociological social psychological research examining the significance of the self within the larger society. Specific attention is paid to symbolic interactionism, including its historical and philosophical roots, its key concepts and ideas, and its different theoretical frameworks and methodologies. Various social psychological topics (e.g., the construction of the self, socialization, deviance, mental health, collective behavior) are examined from a symbolic interactionist perspective.

SOC 431 Personal and Social Issues in Aging**3 credits**

Gen Ed: Social Science, American Diversity

Social, psychological, and physical impacts of aging on the individual and on society.

Prereq: SOC 101.

SOC 435 Psychopathy and Crime**3 credits**

This course provides a general introduction to psychopathy. Emphasis is placed on the perceptions, misconceptions, and the realities of the relationship between psychopathy and crime. In addition, the course explores the historical development of psychopathy, key diagnostic criteria, and the biological and psychological correlates of the disorder.

Prereq: SOC 130.

SOC 436 Mental Health and Crime**3 credits**

This course examines the historical and contemporary relationships between mental health and criminal/deviant behavior. Emphasis is placed on the criminalization of mental illness, the reciprocal influence between mental health and criminal offending, and the role of clinical diagnoses in the criminal justice system.

Prereq: SOC 130.

SOC 439 Inequalities in the Justice System**3 credits**

Gen Ed: Social Science, American Diversity

Critical focus on the issues of race, class, and gender and their consequences for the operation of the justice system; the role of the justice system in the history and experience of various minorities, theories of minority crime, and issues of selective enforcement, sentencing disparity, and disproportionate incarceration; the role of gender considered through the examination of offenders, victims, and criminal justice professionals.

Prereq: SOC 101 and a 3 cr lower-division Soc course, or SOC 301/ ANTH 301.

SOC 442 Substance Use and Society**3 credits**

This course reviews the current theory, empirical research, and controversies in relation to substance use in American society. It focuses on current and historical trends in substance use, definitions of substance use and abuse, the effects of substance use, cultural understandings and media portrayal of drugs and their use, and alcohol and drug policy.

SOC 450 Dynamics of Social Protest

3 credits

Gen Ed: Social Science, American Diversity

Examines the conditions under which social protest occurs, social movement dynamics and processes, and the state's response to political dissent. Addresses how political, organizational, and cultural dimensions shape social movement development, strategies and tactics, and individual participation. Applies sociological theories and concepts to several U.S. and international movements including civil rights, women's, environmental, antiwar, and global justice movements. Recommended Preparation: SOC 230.

Prereq: SOC 101.

SOC 460 Capstone: Sociology in Action

3 credits

Gen Ed: Senior Experience

Sociology in Action is designed to provide the resources and guidance necessary for sociology seniors to complete an independent or collaborative research project.

Prereq: SOC 101 and Senior Standing and Major in Department of Sociology and Anthropology; or Permission.

SOC 461 Capstone: Justice Policy Issues

3 credits

Gen Ed: Senior Experience

Justice Policy Issues is designed to provide the resources and guidance necessary for sociology seniors to complete an independent or collaborative policy-oriented research project.

Prereq: SOC 101 and Senior Standing and Major in Department of Sociology and Anthropology; or Permission.

SOC 462 Senior Practicum

3 credits

Gen Ed: Senior Experience

This course will involve an applied, on-site experience with an organization or group. The applied experience will be the basis for a thesis that will analyze the applied experience by incorporating theory, methods, and knowledge gained from previously-taken sociology classes. In addition, the practicum will include class meetings covering topics related to the applied experience and career paths for majors in Sociology.

Prereq: SOC 101.

SOC 464 Criminology Abroad

3 credits

Gen Ed: Senior Experience

Criminology Abroad combines a 10-day intensive study abroad experience (typically a faculty-led trip over spring break), along with instruction in comparative criminology. Besides an experience abroad a student completes a directed research project related to criminology in the visited country.

Prereq: SOC 101 .

SOC 465 Environment, Policy, and Justice

3 credits

Joint-listed with ANTH 465

The "environment" in modern times has been treated as something separate from human communities, yet our experiences and common understandings of progress and prosperity are integrally tied to our daily interactions with the environment. Environmental and human disasters in recent years have further reminded us of the importance of seeing our dependence on environmental health. This course surveys different perspectives surrounding environmental issues and society's connection to them. Courses will slightly differ in emphasis depending on the instructor, allowing opportunities to explore more deeply how social philosophies, policies, and criminological dimensions can be linked to studying environment. Additional work required for graduate credit.

SOC 468 Capstone: Applied Sociology

3 credits

This course offers sociology seniors the opportunity to pursue applied approaches to sociology. Opportunities include qualified internships or faculty directed projects.

Prereq: SOC 101 and Senior Standing and Major in Department of Sociology and Anthropology; or Permission.

SOC 495 (s) Practicum In Tutoring

1 credit, max 2

Tutorial services performed by advanced students under faculty supervision. Graded P/F.

Prereq: SOC 101 and Permission.

SOC 498 (s) Internship

1-6 credits, max arranged

Supervised professional field experience in human service organizations. Graded P/F.

Prereq: SOC 101 and departmental major and Permission.

SOC 499 (s) Directed Study

Credit arranged

Intended to accommodate a wide variety of sociological topics.

Prereq: SOC 101 and Permission.

SOC 501 (s) Seminar

Credit arranged

Subjects normally offered: sociological research, social problems, and social theory.

Prereq: Permission.

SOC 502 (s) Directed Study

Credit arranged

Subjects normally offered: sociological theory, human ecology, and race relations.

Prereq: Permission.

SOC 504 (s) Special Topics

Credit arranged.

SOC 599 (s) Non-thesis Master's Research

Credit arranged.

SOILS (SOIL)

SOIL 205 The Soil Ecosystem

3 credits

Gen Ed: Natural and Applied Sciences

Introduction to the physical, chemical, and biological nature of soils.

Prereq: CHEM 101 or CHEM 111 or Instructor Permission.

SOIL 206 The Soil Ecosystem Lab

1 credit

Gen Ed: Natural and Applied Sciences

Lab study relevant to SOIL 205. Experiments and demonstrations on basic and applied aspects of soil science. One 3-hour lab a week.

Coreq: SOIL 205.

SOIL 210 Food Systems and Healthy Lifestyles

3 credits

Introduction to food systems including the historical development of our current global food system. Linkages among the production, marketing and transportation of food and food policy on human health will be explored. Students will complete a semester-long assessment of the local food system and its impacts on individual, school and community health and strategies to improve the food system.

SOIL 299 (s) Directed Study

Credit arranged.

SOIL 398 (s) Internship

1-6 credits, max 6

Graded P/F.

Prereq: Permission of department.

SOIL 400 (s) Seminar

Credit arranged.

SOIL 404 (s) Special Topics

Credit arranged.

SOIL 415 Soil and Environmental Physics

3 credits

Joint-listed with SOIL 515

Physical properties of soils and their relationships to moisture, aeration, and temperature; plant-soil-atmospheric relationships; solute transport and soil salinity. Two lec and one 3-hr lab a wk. Recommended Preparation: SOIL 205, SOIL 206, and PHYS 111. SOIL 415 is a cooperative course available to WSU degree-seeking students. (Alt/ yrs, Fall)

SOIL 417 Market Garden Practicum

1-6 credits

Experiential learning based course that covers all aspects of running a small acreage vegetable farm. Topics include farm planning, crop rotation, soil fertility and testing, weed management and food systems. Students satisfy credit hours through participation in lecture/discussion, field work and field trips. Class meets at the Plant Science Farm. Recommended preparation: SOIL 205. (Summer only)

SOIL 422 Environmental Soil Chemistry

3 credits

Chemical processes in soil environment. Recommended Preparation: SOIL 205, SOIL 206, and CHEM 112. Cooperative: open to WSU degree-seeking students. (Alt/yrs)

SOIL 425 Microbial Ecology

3 credits

Joint-listed with SOIL 525

Biogeochemical activities and relationships of microorganisms in soil, water, plants, and animals. Extra oral and/or written assignments required for graduate credit. Recommended Preparation: MATH 143. (Spring alt/ yrs).

Prereq: BIOL 154 or 250.

SOIL 427 Sustainable Food Systems

3 credits

Joint-listed with SOIL 527

The purpose of this course is to help students apply systems thinking and systems methodological problem solving skills to identify and describe current and future food system issues. Through lectures, case studies and research students will explore elements and behavior of food systems that impart sustainability. Students taking the course for graduate credit will complete additional readings, research and presentations.

Prereq: FOR 221, REM 221, or SOIL 210; or Instructor Permission.

SOIL 438 Pesticides in the Environment

3 credits

Gen Ed: Senior Experience

Cross-listed with ENT 438 and PLSC 438

Principles of pesticide fate in soil, water, and air; pesticide metabolism in plants, pesticide toxicology, and pesticide mode-mechanism of action; pest resistance to pesticides; biotechnology in pest control; regulations and liability; equipment application technology; pesticide transport, storage, and disposal; and social and ethical considerations. Recommended Preparation: CHEM 275.

SOIL 446 (s) Soil Fertility

1-3 credits, max 3

Principles of soil fertility management; availability of plant nutrients and their relationship to plant growth and fertilization practices.

Recommended Preparation: SOIL 205 and 206.

SOIL 450 Environmental Hydrology

3 credits

Cross-listed with ENVS 450

Carries no credit after BE 355 or CE 325. Comprehensive understanding of the hydrologic processes associated with the environmental processes. Includes components of the hydrologic cycle, analysis of precipitation and run off, evapotranspiration, routing, peak flow, infiltration, soil and water relationships, snowmelt, and frequency analysis. (Spring only)

Prereq: MATH 170 .

SOIL 454 Pedology

3 credits

Morphology, genesis, and classification of soils; distribution of soils as related to environmental processes and factors. Two lectures and one 4-hr lab a week. Recommended Preparation: SOIL 205 and SOIL 206. Cooperative: open to WSU degree-seeking students.

SOIL 456 North Idaho Field Trip

1 credit

Soils and land use in northern Idaho ecosystems; emphasis on soil parent materials, soil formation and morphology, and soil-plant community relationships. Graded P/F. One 3-day field trip; additional class meetings and assignments before and after field trip. Cooperative: open to WSU degree-seeking students.

Prereq: SOIL 205 or Permission.

SOIL 499 (s) Directed Study

Credit arranged.

SOIL 500 Master's Research and Thesis

Credit arranged.

SOIL 501 (s) Seminar

Credit arranged.

SOIL 502 (s) Directed Study

Credit arranged.

SOIL 504 (s) Special Topics

Credit arranged.

SOIL 514 Environmental Geophysics

3 credits

This course will provide an introduction to near-surface geophysical techniques. The aim is to provide a solid foundation on physical principles used to non-invasively study characteristics and properties of the earth in general, and the shallow subsurface in particular. We will discuss applications ranging from eco-hydrology, precision agriculture, and civil engineering to archeology. The course consists of two parts. Lectures will provide a conceptual understanding of the theory and methods, and a field-based case study will apply these concepts collecting integrated geophysical data that will be processed and interpreted to introduce students to practical procedures and challenges in environmental geophysics. Cooperative: open to WSU degree-seeking students.

SOIL 515 Soil and Environmental Physics

3 credits

Joint-listed with SOIL 415

Physical properties of soils and their relationships to moisture, aeration, and temperature; plant-soil-atmospheric relationships; solute transport and soil salinity. Two lec and one 3-hr lab a wk. Recommended Preparation: SOIL 205, SOIL 206, and PHYS 111. SOIL 415 is a cooperative course available to WSU degree-seeking students. (Alt/ yrs, Fall)

SOIL 525 Microbial Ecology

3 credits

Joint-listed with SOIL 425

Biogeochemical activities and relationships of microorganisms in soil, water, plants, and animals. Extra oral and/or written assignments required for graduate credit. Recommended Preparation: MATH 143. (Spring alt/ yrs).

Prereq: BIOL 154 or 250.

SOIL 527 Sustainable Food Systems

3 credits

Joint-listed with SOIL 427

The purpose of this course is to help students apply systems thinking and systems methodological problem solving skills to identify and describe current and future food system issues. Through lectures, case studies and research students will explore elements and behavior of food systems that impart sustainability. Students taking the course for graduate credit will complete additional readings, research and presentations.

Prereq: FOR 221, REM 221, or SOIL 210; or Instructor Permission.

SOIL 537 Soil Biochemistry

3 credits

Origin, chemical structure, and significance of soil biochemical compounds. Cooperative: open to WSU degree-seeking students. (Alt/yrs)

Prereq: SOIL 422, BIOL 380, BIOL 250 or Permission.

SOIL 597 (s) Practicum

Credit arranged.

SOIL 598 (s) Internship

Credit arranged

Graded P/F.

Prereq: Permission.

SOIL 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

SOIL 600 Doctoral Research and Dissertation

Credit arranged.

SPANISH (SPAN)

Vertically-related courses in this subject field are: SPAN 101 - SPAN 102 (or SPAN 104)- SPAN 201 - SPAN 202. Any one of the following courses may be considered the terminal course for the related vertical sequence above: SPAN 301 or SPAN 302. A maximum of 16 credits may be earned for vertical credit in any language in the Department of Modern Languages & Cultures.

SPAN 101 Elementary Spanish I

4 credits

Gen Ed: International

Credit not given for SPAN 101 after SPAN 104 with the exception of vertical credit (see Regulation I-2-d). Pronunciation, vocabulary, reading, spoken Spanish, and functional grammar. Students with Spanish experience who place higher than SPAN 101 on the placement exam may not enroll in SPAN 101 but may earn credit for SPAN 101 by successfully completing a higher vertically related course.

SPAN 102 Elementary Spanish II

4 credits

Gen Ed: International

Credit not given for SPAN 102 after SPAN 104. Pronunciation, vocabulary, reading, spoken Spanish, and functional grammar.

Prereq: SPAN 101 or placement exam.

SPAN 104 Elementary Spanish Transition

4 credits

Gen Ed: International

Credit not given for SPAN 104 after SPAN 101 or SPAN 102. Not open to students who have completed SPAN 101 or equivalent in college. Intensive, web-assisted Elementary Spanish course intended for students with some previous study of Spanish. Review and practice of the subject matter covered in SPAN 101 and 102: pronunciation, vocabulary, reading, listening, speaking, and functional grammar. Recommended Preparation: One-two years of high school Spanish or equivalent experience.

SPAN 105 Beginning Spanish Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the beginning Spanish level. Graded P/F.

SPAN 200 (s) Seminar

Credit arranged.

SPAN 201 Intermediate Spanish I

4 credits

Gen Ed: International

Reading, grammar review, speaking, and writing.

Prereq: SPAN 102, SPAN 104 or placement exam.

SPAN 202 Intermediate Spanish II

4 credits

Gen Ed: International

Reading, grammar review, speaking, and writing.

Prereq: SPAN 201 or placement exam.

SPAN 204 (s) Special Topics

Credit arranged.

SPAN 205 Intermediate Spanish Conversation Lab

1 credit, max 2

Practice in listening comprehension and conversational skills at the intermediate Spanish level. Graded P/F.

SPAN 299 (s) Directed Study

Credit arranged.

SPAN 301 Advanced Grammar

3 credits

Gen Ed: International

Recommended for prospective teachers of Spanish.

Prereq: SPAN 202 or placement exam.

SPAN 302 Advanced Composition

3 credits

Gen Ed: International

Recommended for prospective teachers of Spanish.

Prereq: SPAN 301 or Permission.

SPAN 303 Spanish Conversation

3 credits

Gen Ed: International

Further development of speaking skills for advanced students; discussion on topics of current cultural interest.

Prereq: SPAN 302 or Permission.

SPAN 305 Culture and Institutions of Spain

3 credits

Gen Ed: International

Prereq: SPAN 302 or Permission.

SPAN 306 Culture and Institutions of Latin America

3 credits

Gen Ed: American Diversity, International

Cross-Listed with LAS 306

Prereq: SPAN 302 or Permission.

SPAN 308 Proficiency in Reading

3 credits

Gen Ed: International

Issues and methods of literary analysis; emphasis on reading, writing, and speaking skills in the target language.

Prereq: SPAN 302 or Permission.

SPAN 309 Spanish for Business

3 credits

Spanish for business, including vocabulary and cultural competency.

Prereq: SPAN 302 or Permission.

SPAN 310 Spanish for the Professions I

3 credits

Gen Ed: International

Language and cultural competency for fields including law, police and the community, banking, finances, and human resources.

Prereq: SPAN 302 or Permission.

SPAN 313 Spanish for the Professions II

3 credits

Language and cultural competency for fields including medicine (social workers, dentists, doctors, and nurses), technology and computer science, human resources, real estate, and housing.

Prereq: SPAN 302 or Permission.

SPAN 398 (s) Internship

Credit arranged.

SPAN 400 (s) Seminar

Credit arranged

Prereq: SPAN 302 or Permission.

SPAN 401 Readings: Spanish Literature**3 credits***Gen Ed: International***Prereq:** SPAN 302 or Permission.**SPAN 402 Readings: Spanish American Literature****3 credits***Gen Ed: International***Prereq:** SPAN 302 or Permission.**SPAN 404 (s) Special Topics****Credit arranged****Prereq:** SPAN 302 or Permission.**SPAN 405 (s) Professional Development****Credit arranged.****SPAN 409 Modern Latin American Society****3 credits***Gen Ed: International**Cross-listed with LAS 409**Analysis of contemporary issues in Latin American society such as gender, race, environment, and immigration from a variety of cultural perspectives (film, newspapers, literature, etc.).***Prereq:** SPAN 306 or LAS 306.**SPAN 412 Spanish Short Fiction****3 credits***Gen Ed: International**A survey of the short story in Spain from the 19th Century to the present.**Focus on major writers and representative movements and styles. (Fall only)***Prereq:** SPAN 302 or Permission.**SPAN 413 Spanish American Short Fiction****3 credits***Gen Ed: American Diversity, International**The short story in 19th- and 20th-century Spanish America.***Prereq:** SPAN 302.**SPAN 419 Latin America Theatre Through Literature****3 credits***Gen Ed: International**Study of representative dramatic works of Latin America.***Prereq:** SPAN 302 or Permission.**SPAN 420 Modern Spanish Theatre Through Literature****3 credits***Gen Ed: International**Study of representative dramatic works of modern Spain.***Prereq:** SPAN 302 or Permission.**SPAN 421 Bilingual and Bicultural Literature****3 credits***Gen Ed: International**The course consists of literary works, theoretical readings, films and documentaries concerned with the complexity of Bilingual and Bicultural concepts. Some of the pressing topics covered in this course will respond to interrogatives such as: What is Bilingual/Bicultural? How does this state affect the development of an identity within the context of Americanness as it is reflected in the Latino/Hispanic Experience in the U.S.? The course will also focus on negotiation of Latin@ Identity (Mexican/Chicano, Dominican, Puerto Rican/Newyorican, and Cuban/American experiences); Concepts of Race; Immigration, Politics of Identity, Language, Gender and the importance of family to these issues. This course also refines research skills and helps the students reach a higher oral and written Spanish proficiency level.***Prereq:** SPAN 301 and SPAN 302; or Instructor Permission.**SPAN 422 Mexican Culture through Cinema****3 credits***Gen Ed: International**Cross-listed with LAS 422**Examines how fictional representations of Mexico are driven by specific historical, political, economic, and cultural forces. Students will also reflect on the ways in which films and literature can inform our knowledge of race, gender and socio-economic relations and how these representations of Mexican culture through film have changed over time.***Prereq or Coreq:** SPAN 306 or LAS 306.**SPAN 423 Gender and Identity in Spanish Cinema****3 credits***Gen Ed: International**Examines how Spanish film explores questions of gender and identity.***Prereq or Coreq:** SPAN 305.**SPAN 424 Human Rights and Hispanic Cinema****3 credits***Cross-listed with LAS 424**Examines how Hispanic film represents and grapples with the question of human rights.***Prereq or coreq:** SPAN 305.**SPAN 425 Spanish-English Translation Skills****3 credits***Theory and practice of translation, Spanish-English and English-Spanish, using a variety of types of text.***Prereq:** SPAN 302 or Permission.**SPAN 449 (s) Practicum in Tutoring****1 credit, max 2***Graded P/F. Tutorial services performed by advanced students under faculty supervision.***Prereq:** Permission of Department.**SPAN 498 (s) Internship****Credit arranged.****SPAN 499 (s) Directed Study****Credit arranged.**

STATISTICS (STAT)

STAT 204 (s) Special Topics

Credit arranged.

STAT 251 Statistical Methods

3 credits

Gen Ed: Mathematics

Credit not awarded for STAT 251 after STAT 301 or STAT 416, or for STAT 416 after STAT 251 or STAT 301.

Intro to statistical methods including design of statistical studies, basic sampling methods, descriptive statistics, probability and sampling distributions; inference in surveys and experiments, regression, and analysis of variance.

Prereq: One of the following: MATH 108, MATH 143, MATH 160, MATH 170, or Sufficient score on SAT, ACT, or math placement test (see www.uidaho.edu/registrar/registration/placement).

STAT 299 (s) Directed Study

Credit arranged.

STAT 301 Probability and Statistics

3 credits

Credit not awarded for STAT 251 after STAT 301 or STAT 416, or for STAT 416 after STAT 251 or STAT 301.

Intended for engineers, mathematicians, and physical scientists. Intro to sample spaces, random variables, statistical distributions, hypothesis testing, basic experimental design, regression, and correlation.

Prereq: MATH 175.

STAT 404 (s) Special Topics

Credit arranged.

STAT 407 Experimental Design

3 credits

Joint-listed with STAT 507

Methods of constructing and analyzing designs for experimental investigations; analysis of designs with unequal subclass numbers; concepts of blocking randomization and replication; confounding in factorial experiments; incomplete block designs; response surface methodology. Additional work required for 500-level credit. Cooperative: Available to WSU degree-seeking students for credit.

Prereq: STAT 431 .

STAT 416 Statistical Methods for Research

3 credits

Credit not awarded for STAT 251 after STAT 301 or STAT 416, or for STAT 416 after STAT 251 or STAT 301.

Concepts and methods in quantitative research including observational and experimental study design, point estimation, hypothesis testing, effect size, sample size, causation, one and two-way ANOVA, simple linear regression, interpreting and reporting results.

Prereq: One of the following: MATH 108, MATH 143, MATH 160, MATH 170, or Sufficient score on SAT, ACT, or math placement test (see www.uidaho.edu/registrar/registration/placement).

STAT 419 Introduction to SAS/R Programming

3 credits

An introduction to the SAS and R programming languages. Topics include creating data, importing data, accessing subsets of data, exporting data, plotting and graphing, loops and functions. Course provides a basic knowledge of SAS and R to help students master statistical tools available in SAS and R, including basic statistical analyses.

Prereq: STAT 251, STAT 301, or STAT 416 .

STAT 422 Sample Survey Methods

3 credits

Introduction to survey sampling designs and inference including simple, stratified, and cluster sampling; ratio and regression estimators, unequal probability sampling, and population size estimation. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 251 or STAT 301 or STAT 416.

STAT 426 SAS Programming

3 credits

Coverage of a variety of methods for data manipulation, data management, and programming in the SAS language. DATA step programming methods including data transformation, functions for numeric and character data, input of complicated data files, and do loop usage. Data management topics include concatenating data files, sorting and merging data files and ARRAY statement usage. SAS programming with SAS modules such as SAS/Graph, SAS/IML, and SAS/Macro language. Other topics in SAS programming, such as covering other SAS modules in depth.

Prereq: STAT 251 or STAT 301 or STAT 416 .

STAT 427 R Programming

3 credits

Credit not awarded for STAT 427 after STAT 419.

Introduction to the R computing language for scientific graphics, statistical analysis, simulation, and mathematical modeling. Topics include functions, data management and manipulation, loops and logical structures, vector and matrix calculations, contemporary graphical displays, probability and simulation, dynamic models, numerical optimization, standard methods of statistical analysis.

Prereq: STAT 251 or STAT 301 or STAT 416 .

STAT 431 Statistical Analysis

3 credits

Concepts and methods of statistical research including multiple regression, contingency tables and chi-square, experimental design, analysis of variance, multiple comparisons, and analysis of covariance. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 251, STAT 301, or STAT 416.

STAT 433 Econometrics

3 Credits

Cross-listed with ECON 453

Application of statistical methods to economics and business studies; emphasis on regression analysis methods.

Prereq: STAT 251 or STAT 301.

STAT 436 Applied Regression Modeling

3 credits

Joint-listed with STAT 516

Statistical modeling and analysis of scientific data using regression model including linear, nonlinear, and generalized linear regression models. Topics also include analysis of survival data, censored and truncated response variables, categorical response variables, and mixed models. Emphasis is on application of these methods through the analysis of real data sets with statistical packages. Additional coursework/projects will be assigned at the 500-level.

Prereq: STAT 431 .

STAT 451 Probability Theory

3 Credits

Cross-listed with MATH 451

Random variables, expectation, special distributions (normal, binomial, exponential, etc.), moment generating functions, law of large numbers, central limit theorem. Cooperative: open to WSU degree-seeking students. (Fall only)

Prereq: MATH 275, or Permission

Coreq: MATH 275.

STAT 452 Mathematical Statistics

3 credits

Cross-listed with MATH 452

Estimation of parameters, confidence intervals, hypothesis testing, likelihood ratio test, sufficient statistics. Cooperative: open to WSU degree-seeking students. (Spring only)

Prereq: MATH 451 or Permission.

STAT 453 Stochastic Models

3 credits

Joint-listed with STAT 544, Cross-listed with MATH 453

Markov chains, stochastic processes, and other stochastic models; applications. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 451 or Permission.

STAT 456 Quality Management

3 credits

Cross-listed with OM 456

Principles of total quality management, with emphasis on problem solving techniques to continually improve processes; customer-driven quality, management and employee participation, statistical process control, product/process design, and process capability. May include evening exams. May involve field trips.

Prereq: STAT 251 or STAT 301.

STAT 498 (s) Internship

Credit arranged

Prereq: Permission.

STAT 499 (s) Directed Study

Credit arranged.

STAT 500 Master's Research and Thesis

Credit arranged.

STAT 501 (s) Seminar

Credit arranged

This course addresses statistical ethics; statistically oriented research; and deeper and more extensive consideration of topics relevant to but not addressed in other graduate level statistics courses offered during that semester. Formal presentations and reports in journal format are used to enhance written, oral, and presentation communication experience and ability.

STAT 502 (s) Directed Study

Credit arranged.

STAT 503 (s) Workshop

Credit arranged.

STAT 504 (s) Special Topics

Credit arranged.

STAT 507 Experimental Design

3 credits

Joint-listed with STAT 507

Methods of constructing and analyzing designs for experimental investigations; analysis of designs with unequal subclass numbers; concepts of blocking randomization and replication; confounding in factorial experiments; incomplete block designs; response surface methodology. Additional work required for 500-level credit. Cooperative: Available to WSU degree-seeking students for credit.

Prereq: STAT 431 .

STAT 514 Nonparametric Statistics

3 credits

Conceptual development of nonparametric methods including one, two, and k-sample tests for location and scale, randomized complete blocks, rank correlation, and runs test. Permutation methods, nonparametric bootstrap methods, density estimation, curve smoothing, robust and rank-based methods for the general linear model, and comparison. Comparison to parametric methods. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 431 .

STAT 516 Applied Regression Modeling

3 credits

Cross-listed with STAT 436

Multivariate linear regression and analysis of variance with economic applications. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 431 or equivalent; or Permission of Instructor .

STAT 517 Statistical Learning and Predictive Modeling

3 credits

A comprehensive overview of statistical learning and predictive modeling techniques to analyze large data sets in science, social science, and other data-rich fields including, for example, biology, business, and engineering. Topics include regression, classification, resampling methods, model selection and regularization, tree-based methods, support vector machines, clustering, and text mining. The implementation of the methods will be in R, and Python as needed. Basic experience with computer programming is assumed.

Prereq: STAT 431 .

STAT 519 Multivariate Analysis

3 credits

The multivariate normal, Hotelling's T², multivariate general linear model, discriminant analysis, covariance matrix tests, canonical correlation, and principle component analysis. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 431 .

STAT 525 Master's Econometrics

3 credits

Cross-listed with AGE 525.

Multivariate linear regression and analysis of variance with economic applications. Cooperative: open to WSU degree-seeking students.

Prereq: STAT 431 or equivalent; or Permission of Instructor .

STAT 535 Introduction to Bayesian Statistics**3 credits**

Exploring the basics of Bayesian thinking with a comparative approach to interpretations of probability. Statistical methods, Bayesian approach to statistical inference. Methods include point and interval estimation under the Normal model, and inference under hierarchical models with emphasis on statistical model building. Computational methods, applications of methods useful for sampling posterior distributions such as rejection sampling, importance sampling and Markov Chain Monte Carlo.

Prereq: STAT 431 or equivalent paperwork .

STAT 544 Stochastic Models**3 credits**

Joint-listed with STAT 453, Cross-listed with MATH 538

Markov chains, stochastic processes, and other stochastic models; applications. Additional projects/assignments required for graduate credit. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 451 or Permission.

STAT 550 Regression**3 credits**

Theory and application of regression models including linear, nonlinear, and generalized linear models. Topics include model specification, point and interval estimators, exact and asymptotic sampling distributions, tests of general linear hypotheses, prediction, influence, multicollinearity, assessment of model fit, and model selection. Cooperative: open to WSU degree-seeking students.

Prereq: MATH 330 and STAT 451.

Coreq: STAT 452.

STAT 555 Statistical Ecology**3 credits**

Cross-listed with WLF 555

Stochastic models in ecological work; discrete and continuous statistical distributions, birth-death processes, diffusion processes; applications in population dynamics, population genetics, ecological sampling, spatial analysis, and conservation biology. Cooperative: open to WSU degree-seeking students. (Spring, Alt/yrs)

Prereq: MATH 451 or Permission.

STAT 565 Computer Intensive Statistics**3 credits**

Numerical stability, matrix decompositions for linear models, methods for generating pseudo-random variates, interactive estimation procedures (Fisher scoring and EM algorithm), bootstrapping, scatterplot smoothers, Monte Carlo techniques including Monte Carlo integration and Markov chain Monte Carlo. Cooperative: open to WSU degree-seeking students. (Alt/yrs)

Prereq: STAT 451, STAT 452, MATH 330, and computer programming experience or Permission.

STAT 597 (s) Consulting Practicum**Credit arranged**

Students will gain experience in statistical consulting and data analysis, using multiple statistical software packages in the analysis process. Topics include communication of statistical information and analysis to non-statisticians, ethics, and computing. Emphasis is placed on written and oral presentation of statistical analysis plans and results.

STAT 598 (s) Internship**Credit arranged**

Students gain experience in statistical consultation and / or statistical data analysis in their present place of employment or an arranged internship organization. Students are jointly accountable to a faculty advisor and a person providing oversight of the individual's efforts within the organization. All internship experiences must be pre-approved.

STAT 599 (s) Research**Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.

TECHNOLOGY MANAGEMENT (TM)

TM 482 Project Engineering

3 credits

Modern project engineering techniques for planning, scheduling, and controlling typical engineering and construction projects; linear programming and other optimization techniques as applied to resource allocation; microcomputer applications are emphasized and appropriate software used throughout the course.

Prereq: STAT 251, STAT 301, or Equivalent, and Senior standing or Permission. A minimum grade of 'C' or better is required for all pre/coreqs.

TM 500 Master's Research and Thesis

Credit arranged.

TM 501 (s) Seminar

Credit arranged.

TM 502 (s) Directed Study

Credit arranged.

TM 504 (s) Special Topics

Credit arranged.

TM 505 (s) Professional Development

Credit arranged.

TM 510 Engineering and Technology Management Fundamentals

3 credits

Cross-listed with EM 510.

Fundamental principles of engineering management addressing management theory applied to the engineering environment; management processes and techniques; attitudes that facilitate the leadership role of the engineering manager in an engineering organization; team-taught by business and engineering faculty.

Prereq: Permission.

TM 513 Nuclear Criticality Safety

3 credits

Cross-listed with NE 535.

Nuclear criticality safety including nuclear physics, fusion and neutron multiplication, moderation and reflection of neutrons, criticality issues in the fuel cycle, critical experiments and sub-critical limits, calculations of criticality, nuclear criticality safety practices, emergency procedures, and nuclear regulations and standards.

Prereq: NE 450 or Permission.

TM 514 Nuclear Safety

3 credits

Cross-listed with NE 514. An in-depth technical study of safety issues within the nuclear fuel cycle and within various reactor types. Evaluation methods, system disturbances, safety criteria, containment, NRC licensing, and codes for safety analysis will be presented. Case studies of reactor accidents and corrective measures included.

Prereq: Permission.

TM 515 (s) Advanced Topics in Engineering Management

2-9 credits, max 9

Advanced topics in Engineering Management and Technology Management.

Prereq: Instructor Permission.

TM 516 Nuclear Rules and Regulations

3 credits

Cross-listed with NE 516.

An in-depth examination of nuclear regulatory agencies; major nuclear legislation; current radiation protection standards and organizational responsibility for their implementation.

Prereq: Permission.

TM 517 Critical Infrastructure Security and Resilience Fundamentals

3 credits

This course provides an introduction to the policy, strategy, and practical application of critical infrastructure security and resilience from an all-hazards perspective. It describes the strategic context presented by the 21st century, and discusses the challenges and opportunities associated with public-private partnerships in infrastructure protection, risk analysis and mitigation, and incident response.

TM 525 Emergency Management and Planning

3 credits

A study of the basic principles in emergency management and planning in the United States. This course is not directed at any particular type of hazard, but the processes and considerations of planning for all-hazards along with the basics of generic protective actions and the planning concepts supporting effective protective action recommendations.

TM 526 Community Emergency Planning

3 credits

A study of the theory and practice of community emergency planning. The Citizen Corps, Principles of Emergency Planning, and CERT programs will be studied. Cases are studied in order to assist students in understanding the management and leadership complexity associated with modern emergencies and disasters. Recommended Preparation: TM 525.

TM 528 Accident Investigation

3 credits

In-depth examination and implementation of system safety concepts, principles, and methods; development of skills in accident investigation, audit and appraisal, operational readiness, and system safety analysis and review. Recommended Preparation: INDT 442.

TM 529 Risk Assessment

3 credits

Cross-listed with NE 529.

In-depth evaluation and analysis techniques used to determine the risk of industrial, process, nuclear, and aviation industries; fault tree analysis; human reliability analysis; failure mode and effect analysis.

TM 533 Chemical Hazards

3 credits

Emergency responders can encounter a wide range of chemical hazards. Topics include information on interpreting hazardous chemical labels and Material Safety Data Sheets and the relationship between those two methods of hazard communication. Acute and chronic effects of hazardous chemicals to which responders may be exposed will be discussed. Recommended Preparation: TM 525.

TM 534 Biological Hazards

3 credits

Emergency responders can encounter a wide range of biological hazards. The objectives of this course are to understand the nature of biological hazards and how to control them. The biological hazards to be discussed are Bacteria, Viruses, Fungi/Molds, Protozoa, Prions – infectious proteins, Biological Toxins. Recommended Preparation: TM 525.

TM 535 Radiation Detection and Measurement

3 credits

Cross-listed with NE 554.

Radiation transport and shielding concepts. Methods for quantifying attenuation of nuclear particles and electromagnetic radiation. Radiation detection methods, data acquisition and processing.

Prereq: MATH 310 or Permission.

TM 552 Industrial Ergonomics

3 credits

A course designed to focus on work design and ergonomics in occupational settings. Specific attention will be focused on introducing the terminology and the techniques used in work design, and on the fundamental concepts embodied in industrial ergonomics. (Summer only)

TM 596 Capstone Integration

1 credit

Capstone integration of degree material in Technology Management and comprehensive final exam.

Prereq: Advisor or Major Professor Permission.

TM 599 (s) Non-thesis Master's Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

THEATRE ARTS (THE)

THE 101 Introduction to the Theatre

3 credits

Gen Ed: Humanities

For non-majors. Building an appreciation for theatre as an art form through understanding the creative process of the playwright, the director, the designer, and the actor. Attendance at theatre productions required.

THE 102 Introduction to Design

3 credits

An introduction to the concept of basic design elements and development of visual vocabulary for theatrical design. This course explores the creative collaborative process of theatrical design through a variety of hands-on projects in scenery, costumes, lighting and sound. This course is a prerequisite for THE 201, THE 202, THE 205.

THE 103 Theatre Technology I

3 credits

Intro to theatre production spaces, shop tools, construction materials, and stage equipment; theories and methods used in lighting and in the construction of scenery. Course includes a lab component.

THE 104 Theatre Technology II

3 credits

Methods of costume construction techniques; intro to sewing, crafting and costuming skills. Course includes a lab component.

THE 105 Basics of Performance I

3 credits

Intro to performance; techniques of relaxation, observation, and justification; work in improvisation, sensory exploration, image-making, and beginning textual analysis; initial monologue and scene performance. One lec and 2 hrs of lab a wk.

THE 106 Basics of Performance II

3 credits

A continuation in the training of performance to deepen the experiential understanding and techniques of relaxation, observation, and justification; work in improvisation, sensory exploration, image-making, and beginning textual analysis, including initial monologue and scene performance. One lec and 2 hrs of lab a wk.

Prereq: THE 105 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 110 Convocation

1 credit, max arranged

One 1-hr weekly seminar discussing performance and production techniques, process and activities.

THE 200 (s) Seminar

Credit arranged.

THE 201 Scene Design I

3 credits

Development of basic skills in visualization, period research, graphic techniques and script interpretation in scenery.

Prereq: THE 102.

THE 202 Costume Design I

3 credits

Costume design skills including script/character analysis, fabric choices, design process, period research, and drawing/painting skills.

Prereq: THE 102.

THE 203 (s) Workshop

Credit arranged.

THE 204 (s) Special Topics

Credit arranged.

THE 205 Lighting Design I

3 credits

Basic and foundational stage lighting equipment, lighting methods, and theory for theatrical production; basic electrical maintenance, hang, focus, and programming of realized productions.

Prereq: THE 102.

THE 206 Theatrical Make-up

1 credit

Practical application techniques for basic contour and old age makeup for the theatre. Limited to 20 students. 2 hrs of lab a wk.

Prereq: Theatre Major or Minor.

THE 298 (s) Internship

Credit arranged.

THE 299 (s) Directed Study

Credit arranged.

THE 305 Intermediate Acting I

3 credits

Exploration of Stanislavsky System "An Actor Prepares", using contemporary text with emphasis on connection and pursuing action and imagery work. One lecture and 3 hours of lab a week.

Prereq: THE 105 and THE 106. A minimum grade of 'C' is required for all co/prerequisites. Permission also required.

THE 306 Intermediate Acting II

3 credits

Continued exploration of Stanislavsky System "Building a Character", using modern classic texts such as Anton Chekhov with emphasis on emotional and physical rigor and discipline. One lecture and 3 hours of lab a week.

Prereq: THE 105 and THE 106. A minimum grade of 'C' is required for all co-prerequisites. Permission also required.

THE 311 Pattern Development Studio

3 credits, max arranged

Patterning and draping techniques for stage costume and apparel construction. May be repeated for course credit. (Fall. Alt/hrs)

Prereq: THE 104. A minimum grade of 'C' is required for all co/prerequisites.

THE 320 Theatre Management

3 credits

Basic and foundational stage management and standard management practices relating to theatre production and business, funding, and public relations.

THE 361 Technical Direction

3 credits

Technical direction and planning for single and multiple set theatre productions; includes shop and personnel management techniques, drafting, budgets, scheduling, and organization.

THE 371 Play Analysis

3 credits

Critical intro to plays as drama and theatre; an approach to tragic and comic genres; major dramatists of the 20th century culminating in an analysis of contemporary theatre styles.

THE 389 (s) Performance Area Participation**1 credit, 8 max**

Open to majors and nonmajors by permission. Practical experience in acting, directing, playwriting, dramaturgy, other performance areas - rehearsal through performance.

Prereq: Permission .**THE 390 (s) Theatre Practice II****1 credit, max 8**

Open to nonmajors. Advanced practical experience in all aspects of theatre production.

THE 395 Summer Theatre II**2-8 credits, max 8****Prereq:** Permission of department.**THE 400 (s) Seminar****Credit arranged.****THE 403 (s) Workshop****Credit arranged.****THE 404 (s) Special Topics****Credit arranged.****THE 405 Individual Instruction in Performance****Credit arranged**

Individualized coaching in performance. One hr of lab a wk per cr.

Prereq: Permission of department.**THE 406 Design Studio****credit arranged**

Individual training in an area of theatre design; includes an advanced design assignment and the public presentation of a play.

Prereq: THE 201, THE 202, or THE 205; or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 410 Costume Design II**3 credits, max 12**

Joint-listed with THE 510

Emphasis on developing characterization, stylization, and fabric choice; explore advanced rendering techniques; continuation of portfolio development. Additional projects/assignments required for graduate credit. Three lec and 1 hr of lab a wk.

Prereq: THE 202 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 417 Movement Studio**3 credits, max 18**

Joint-listed with THE 517

Emphasizes body awareness utilizing yoga and related techniques to increase strength and flexibility, heighten sensory awareness, generate dynamic energy, and mind/body connections. Students are encouraged to explore the creative boundaries of their body and discover the body's effectiveness as a primary expressive tool in performance. Students earning graduate credit will be held to a higher standard.

Prereq: Acceptance into B.F.A./M.F.A. program or Permission.**THE 418 Voice Studio****3 credits, max 18**

Joint-listed with THE 518

Focuses on techniques of vocal production designed to open, free and energize the voice/body and to promote full and supported breathing. Emphasis on breath control, meditation and visualization techniques, vocal warm-ups, and their application to performance. Students earning graduate credit will be held to a higher standard.

Prereq: Acceptance into B.F.A./M.F.A. program or Permission.**THE 421 Advanced Theatre Management****3 credits**

Joint-listed with THE 521

Exploration of advanced theatre management and business management practices relating to theatre production, operations, development, funding, public relations and marketing. Additional projects will be required for graduate credit. Additional projects/assignments required for graduate credit.

Prereq: THE 320 or instructor permission.**THE 425 BFA Acting Studio****3 credits, max arranged**

Joint-listed with THE 525

Rigorous study and practice in performance. Areas of specialization may include: Shakespeare, Devising, Commedia del'arte, Period Styles, Asian Theatre, Animals, Realism, Comedy. The course will be repeated each semester by BFA candidates.

Prereq for 425: Acceptance into BFA program.**Prereq** for 525: Acceptance into MFA program.**THE 440 Playwriting****3 credits**

Joint-listed with THE 540

Introduce the student to the fundamental elements of playwriting, including dramatic structure and action, developing theme and characterization, understanding stagecraft and writing dialogue.

THE 447 Screenwriting**3 credits**

Joint-listed with THE 547, Cross-listed with ENGL 447 and JAMM 447

Introduction to Study of the fundamental elements of feature film screenwriting; techniques of developing story lines and advancing a narrative in a visual way using the industry standard of a tightly structured long-form feature film. Additional projects/assignments required for graduate credit.

Prereq: ENGL 231 or JAMM 231; Permission .**THE 460 Professional Theatre Conference Participation****1 credit, max 12**

Joint-listed with THE 560

Professional Theatre Conference Participation. Additional work required for graduate credit.

THE 463 Advanced Costume Technology Studio**3 credits, max arranged**

Advanced theatrical costume construction techniques and strategies, including: tailoring, costume crafts and period undergarment construction. Materials selection and handling. May be repeated for course credit. Recommended Preparation: The 311. (Fall, Alt/yr.)

Prereq: THE 104 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 464 Scenographic Techniques**3 credits**

Joint-listed with THE 564

Practical survey of graphics used in design and execution of scenery for the stage, including drafting, perspective, front and rear elevations, painters elevations, and properties design and drafting.

Prereq: THE 201 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 465 Advanced Scene Design

3 credits

Joint-listed with THE 565

Development of a conceptual approach to design through assorted design projects.

Prereq: THE 201 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 466 Scene Painting

3 credits

Joint-listed with THE 566

Introduction to the art, practice and technique of large-scale decorative painting for the stage. Development of brush and application techniques, color mixing, and layout skills. Provides instruction in the imitation of wood, marble, brick and stone, as well as sections on stenciling, faux finishing and trompe l'oeil. (Fall only)

Prereq: THE 201 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 468 Theatre History

3 credits

Gen Ed: Humanities, International

A comprehensive survey of the major theatrical trends, theorists, and practitioners from the Golden Age of Greece to 1914.

THE 471 Directing

3 credits

Joint-listed with THE 571

Preparation of a play from casting to performance. Additional projects/assignments required for graduate credit. Three lec and one hr of lab a wk. Recommended Preparation: THE 305.

THE 472 Directing II

3 credits

Joint-listed with THE 572

Staging and interpretation of a play; developing a production concept; coaching actors. Additional projects/assignments required for graduate credit. Three lec and one hr of lab a wk. Recommended Preparation: Upper-division acting course at 300/400 level.

Prereq: Permission.

THE 483 Senior Capstone Project

1 credit

Gen Ed: Senior Experience

A capstone class for graduating theatre majors that requires students to synthesize their experiences in dramatic theory, literature, theatre performance, and production. Seminar students prepare a service learning project and a personal philosophy statement that summarizes their experience and their current vision of the theatre. The class also includes a component in resume preparation and professional presentation.

THE 484 Advanced Lighting Design

3 cr, max 12

Joint-listed with THE 584

Advanced lighting design theories and practice through design of assorted productions in realistic drama, dance, arena, thrust, and mystical theatre. Heavy emphasis on design communication and computer drafting. Additional projects/assignments required for graduate credit.

Prereq: THE 205 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 498 (s) Internship

Credit arranged.

THE 499 (s) Directed Study

Credit arranged.

THE 501 (s) Seminar

Credit arranged.

THE 502 (s) Directed Study

Credit arranged.

THE 503 (s) Workshop

Credit arranged.

THE 504 (s) Special Topics

Credit arranged.

THE 510 Costume Design II

3 credits, max 12

Joint-listed with THE 410

Emphasis on developing characterization, stylization, and fabric choice; explore advanced rendering techniques; continuation of portfolio development. Additional projects/assignments required for graduate credit. Three lec and 1 hr of lab a wk.

Prereq: THE 202 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 512 (s) MFA Directing Studio

3 cr, max 18

Advanced individual study in directing, including work in staging, styles, and interpretation.

THE 513 (s) MFA Design Studio

2 credits, max 18

Advanced individual study in all areas of theatrical design with emphasis on portfolio development. One lec and 2 hrs of lab a wk.

THE 514 (s) MFA Production Studio

2 credits, max 18

Advanced individual study in all areas of technical theatre production and management with emphasis on portfolio development. One lec and 2 hrs of lab a wk.

THE 515 MFA Jury/Portfolio Review

1 credit, max arranged

Preparation and evaluation of performance monologues and design portfolios.

Coreq: MFA studio courses.

THE 516 MFA Graduate Seminar

3 cr, max arranged

An in-depth, rigorous, exploration of theatrical research and collaboration pedagogy and methodologies within the larger context of the artistic, creative process. Course may be repeated.

Prereq: Acceptance into MFA program.

THE 517 Movement Studio

3 credits, max 18

Joint-listed with THE 417

Emphasizes body awareness utilizing yoga and related techniques to increase strength and flexibility, heighten sensory awareness, generate dynamic energy, and mind/body connections. Students are encouraged to explore the creative boundaries of their body and discover the body's effectiveness as a primary expressive tool in performance. Students earning graduate credit will be held to a higher standard.

Prereq: Acceptance into B.F.A./M.F.A. program or Permission.

THE 518 Voice Studio**3 credits, max 18**

Joint-listed with THE 418

Focuses on techniques of vocal production designed to open, free and energize the voice/body and to promote full and supported breathing. Emphasis on breath control, meditation and visualization techniques, vocal warm-ups, and their application to performance. Students earning graduate credit will be held to a higher standard.

Prereq: Acceptance into B.F.A./M.F.A. program or Permission.**THE 521 Advanced Theatre Management****3 credits**

Joint-listed with THE 421

Exploration of advanced theatre management and business management practices relating to theatre production, operations, development, funding, public relations and marketing. Additional projects will be required for graduate credit. Additional projects/assignments required for graduate credit.

Prereq: THE 320 or instructor permission.**THE 522 (s) Advanced Studies in Theatre****3 credits, max 18**

This course is for advanced studies in theatre history, analysis, and criticism for creative writing, performance, directing, design, and technology graduate candidates. Topics are coordinated and rotated departmentally and are beyond the departmental history and play analysis core.

THE 525 MFA Acting Studio**3 credits, max arranged**

Joint-listed with THE 425

Rigorous study and practice in performance. Areas of specialization may include: Shakespeare, Devising, Commedia dell'arte, Period Styles, Asian Theatre, Animals, Realism, Comedy. The course will be repeated each semester by BFA candidates.

Prereq for 425: Acceptance into BFA program.**Prereq** for 525: Acceptance into MFA program.**THE 526 MFA Playwriting Workshop****3 credits, max 18**

The primary goal of the MFA Playwriting Workshop is to help the writers develop their unique voice and vision; understand the role of the writer within a historical, cultural and political context; and expose them to a variety of styles and approaches to creating new work for both stage and screen. Toward that end, the Playwriting Workshop fosters a safe but challenging creative environment, in which writers are presented with assignments designed to help them identify that set of aesthetic concerns which will form the foundation of their Voice and Style as a writer. MFA candidates in Dramatic Writing enroll in this course each semester they are in the program.

THE 535 Production Design**3 credits, max 12**

Design responsibility for a mainstage production.

Prereq: Permission of department.**THE 540 Playwriting****3 credits**

Joint-listed with THE 440

Introduce the student to the fundamental elements of playwriting, including dramatic structure and action, developing theme and characterization, understanding stagecraft and writing dialogue.

THE 547 Screenwriting**3 credits**

Joint-listed with THE 447

Introduction to Study of the fundamental elements of feature film screenwriting; techniques of developing story lines and advancing a narrative in a visual way using the industry standard of a tightly structured long-form feature film. Additional projects/assignments required for graduate credit.

Prereq: ENGL 231 or JAMM 231; Permission.**THE 560 Professional Theatre Conference Participation****1 credit, max 12**

Joint-listed with THE 460

Professional Theatre Conference Participation. Additional work required for graduate credit.

THE 564 Scenographic Techniques**3 credits**

Joint-listed with THE 464

Practical survey of graphics used in design and execution of scenery for the stage, including drafting, perspective, front and rear elevations, painters elevations, and properties design and drafting.

Prereq: THE 201 or Permission. A minimum grade of 'C' is required for all co/prerequisites.**THE 565 Advanced Scene Design****3 credits**

Joint-listed with THE 465

Development of a conceptual approach to design through assorted design projects.

Prereq: THE 201 or Permission. A minimum grade of 'C' is required for all co/prerequisites.**THE 566 Scene Painting****3 credits**

Joint-listed with THE 466

Introduction to the art, practice and technique of large-scale decorative painting for the stage. Development of brush and application techniques, color mixing, and layout skills. Provides instruction in the imitation of wood, marble, brick and stone, as well as sections on stenciling, faux finishing and trompe l'oeil. (Fall only)

Prereq: THE 201 or Permission. A minimum grade of 'C' is required for all co/prerequisites.**THE 571 Directing****3 credits**

Joint-listed with THE 471

Preparation of a play from casting to performance. Additional projects/assignments required for graduate credit. Three lec and one hr of lab a wk. Recommended Preparation: THE 305.

THE 572 Directing II**3 credits**

Joint-listed with THE 472

Staging and interpretation of a play; developing a production concept; coaching actors. Additional projects/assignments required for graduate credit. Three lec and one hr of lab a wk. Recommended Preparation:

Upper-division acting course at 300/400 level.

Prereq: Permission.

THE 584 Advanced Lighting Design**3 cr, max 12**

Joint-listed with THE 584

Advanced lighting design theories and practice through design of assorted productions in realistic drama, dance, arena, thrust, and mystical theatre. Heavy emphasis on design communication and computer drafting. Additional projects/assignments required for graduate credit.

Prereq: THE 205 or Permission. A minimum grade of 'C' is required for all co/prerequisites.

THE 595 Professional Off-Campus Studio**3 credits, max 18**

This is a studio course designed for professional off-campus graduate students only. The course is composed of one on one mentoring for off-campus projects.

Prereq: Permission.

THE 596 MFA Exit Project**3 credits**

Culminating creative project for MFA candidates.

Prereq: Permission of department.

THE 597 (s) Practicum**Credit arranged**

This course is an experiential learning course supervised by theatre faculty to provide the student with a practical application of theatrical theory.

THE 598 (s) Internship**Credit arranged.****THE 599 (s) Non-thesis Master's Research****Credit arranged**

Research not directly related to a thesis or dissertation.

Prereq: Permission.

VIRTUAL TECHNOLOGY/ DESIGN (VTD)

VTD 151 Virtual World Building 1

2 credits

Introduction to the processes and principles of design associated with virtual world building. Two 2-hr lectures a week and assigned work. Recommended Preparation: ART 110 and 121.

VTD 152 Virtual World Building 2

2 credits

Applied tools and techniques. Exploration of the processes and principles of design associated with virtual building. Two 2-hr lectures a week and assigned work. Recommended Preparation: ART 110 and ART 121, VTD 151. (Spring only)

VTD 153 Virtual World Building 3

2 credits

Intermediate level virtual world building with an emphasis on intermediate-level tools and techniques for creating more complex environments, modeling, lighting, materials, characters, interaction, and behaviors. Two 2-hr lectures a week and assigned work. Recommended Preparation: ART 110 and ART 121.

VTD 154 Virtual World Building 4

2 credits

Synthesis of processes, principles, tools and techniques associated with virtual world building. Two 2-hr lectures a week and assigned work. Recommended Preparation: ART 110 and 121.

VTD 200 (s) Seminar

Credit arranged.

VTD 204 (s) Special Topics

Credit arranged.

VTD 244 Introduction to 3D Modeling

3 credits

Introduction to 3D digital modeling focused on high and low poly polygon hard surface assets and digital sets (including basic lighting and materials). Two 1-1/2hr lecture/lab a wk and associated work.

Prereq: Major in Virtual Technology and Design; non-majors by permission as space permits.

VTD 245 Advanced Modeling

3 credits

Exploration of methods used for modeling and sculpting organic surfaces focused on the creation of character and avatar for high and low polygon 3D digital models. Three 1 hr lecture/lab a wk and associated work. (Fall only)

Prereq: VTD 244 or Permission.

VTD 246 Advanced Lighting and Materials

3 credits

Exploration of methods for illuminating and texturing virtual objects and environments. Foreground, middleground and background rendering issues are examined through topics that include radiosity, ray-tracing, procedural materials and render engine options. Three 1hr lecture/lab a wk and associated work. (Fall only)

Prereq: VTD 244 or Permission.

VTD 253 Virtual Design I

3 credits

Investigation of the art and science of virtual design, integrating creative problem solving skills with computer technologies. Sequence of exercises explores the problem domains of virtual objects and environments. Two 3-hr studios a week and assigned work. (Fall only)

Prereq: ART 121 and VTD 152; or Permission.

VTD 254 Virtual Design II

3 credits

Continued development of critical thinking and problem solving skills through a sequence of exercises that emphasize design process, concept and context driven solutions to virtual, tangible and integrated projects. Two 3-hr studios a week and assigned work. (Spring only)

Prereq: VTD 253 or Permission.

VTD 266 Animation

3 credits

Introduction to 3D computer-generated animation addressing interface, character rigging, and linear animation. Two 1-1/2hr lecture/lab a wk and associated work. (Spring only)

Prereq: VTD 244 or Permission.

VTD 271 Interactive Technologies

3 credits

Exploration of technologies to create and deliver interactive and immersive applications. Focus on navigation, way-finding and behavior issues associated with virtual environments. Two 1-1/2hr lecture/lab a wk and associated work. (Fall only)

Prereq: VTD 244 or Permission.

VTD 299 (s) Directed Study

Credit arranged.

VTD 355 Virtual Design III

4 credits

Introduction to virtual design & relationship to human needs; focus on design process & expansion of vocabulary associated with virtual environments; experimentation & creativity encouraged. Three 3-hr Studios a wk and assigned work. (Fall only)

Prereq: VTD 254 or Permission.

VTD 356 Virtual Design IV

4 credits

Design development of conceptual & technical aspects of virtual environments; exploration of design issues from conception to delivery. Three 3-hr studios a wk and assigned work. (Spring only)

Prereq: VTD 355 or Permission.

VTD 367 Visual Effects

3 credits

Exploration of methods used for visual and experiential communication, problem solving, and storytelling through linear and interactive 3D computer generated animation. Three 1 hour lecture/lab a week and associated work. (Spring only)

Prereq: VTD 266 or Permission .

VTD 372 Advanced Interactive Technologies

3 credits

Exploration of advanced methods for the creation and delivery of interactive and immersive applications. Focus on object-oriented, event-driven environments and Virtual Reality technologies. Two 1-1/2hr lecture/lab a wk and associated work. (Spring only)

Prereq: VTD 244 and VTD 271; or Permission.

VTD 380 Advanced Character Design**3 credits**

Exploration of advanced workflows and methods for entertainment focused character design. This course will cover advanced digital painting techniques and basic image compositing in Photoshop while also covering digital sculpting and rendering using Zbrush. One (3 hour) lecture/lab with associated work.

Prereq: Instructor Permission .

VTD 398 (s) Internship

Credit arranged.

VTD 400 (s) Seminar

Credit arranged.

VTD 404 (s) Special Topics

Credit arranged.

VTD 444 Other Media**3 credits**

Exploration of new or emerging technologies including but not limited to software and various hardware devices. The focus is on the communicative, affective, and interactive possibilities of the technology and their application within research or creative production.

Prereq: Permission .

VTD 457 Capstone Design Studio I**6 credits**

Gen Ed: Senior Experience

Sequential contract courses built around the collective content of five interdisciplinary clusters; research, design & implementation of comprehensive virtual design project. Three 3-hr studios a wk and associated work.

Prereq: VTD 356.

VTD 458 Capstone Design Studio II**6 credits**

Sequential contract courses built around the collective content of five interdisciplinary clusters; research, design & implementation of comprehensive virtual design project. Three 3-hr studios a wk and associated work.

Prereq: VTD 457.

VTD 497 Teaching Assistant, Undergraduate

Credit arranged

Teaching assistant services performed by advanced undergraduate students with faculty supervision.

VTD 499 (s) Directed Study

Credit arranged.

WATER RESOURCES (WR)

WR 500 Master's Research and Thesis

Credit arranged.

WR 501 (s) Seminar

Credit arranged.

WR 502 (s) Directed Study

Credit arranged.

WR 503 (s) Workshop

Credit arranged.

WR 504 (s) Special Topics

Credit arranged.

WR 505 (s) Professional Development

Credit arranged.

WR 506 Interdisciplinary Methods in Water Resources

3 credits

Student and faculty teams from traditionally disparate disciplines address real issues to develop methods for communicating across disciplines and for solving water resources problems. The course takes a problem-oriented approach using case studies. Faculty will lead students through this integrative process with lectures and working sessions. (Fall only)

WR 507 Integrated Water Resources Projects

3 credits

In a seminar style format, students present and discuss disciplinary and interdisciplinary aspects of thesis/dissertation research, and finish writing of interdisciplinary aspects of their thesis/dissertation. (Spring only)

Prereq: WR 506.

WR 598 (s) Internship

Credit arranged.

WR 599 (s) Non-thesis Master's Research

Credit arranged.

WR 600 Doctoral Research and Dissertation

Credit arranged.

WR 601 (s) Seminar

Credit arranged.

WR 604 (s) Special Topics

Credit arranged.

WILDLIFE RESOURCES (WLF)

WLF 102 The Fish and Wildlife Professions

1 credit

Cross-listed with FISH 102.

Orientation of students to the profession of fishery resources and wildlife resources: introduction to fish and wildlife faculty, review of fish and wildlife curriculum, awareness of career opportunities, employment procedures, associated job duties/responsibilities, job preparation, educational preparation, and management challenges in the Pacific Northwest. (Fall only)

WLF 105 Hunter Education

1 credit

The course provides an overview of hunter ethics; wildlife management, conservation, and survival; and wildlife laws and law enforcement. This course also fulfills the state requirement for hunter education for purchase of a hunting license. Course includes in-class instruction and one outdoor field day. Graded Pass/Fail.

WLF 200 (s) Seminar

Credit arranged.

WLF 201 Fish and Wildlife Applications I

1 credit

This two semester sequence (WLF 201, FISH 202) of courses will introduce students to research questions and methods in fish and wildlife sciences, the culture and organization of potential state, federal and tribal employers, and management challenges for fish and wildlife populations and habitats. The course will include an experiential learning field trip.

Prereq: NR 101 or Permission .

WLF 203 (s) Workshop

Credit arranged.

WLF 204 (s) Special Topics

Credit arranged.

WLF 205 Wildlife Law Enforcement

2 credits

This course will provide students with an introduction to the history of wildlife laws and the role of a Conservation Officer. It will also provide students with a better understanding of wildlife crimes and the impact they have on fish and wildlife. This course is designed for students seeking a career in wildlife law enforcement as well as those pursuing a career in wildlife/fisheries/habitat management.

WLF 220 Principles of Ecology

3 credits

Cross-listed with FOR 221 and REM 221.

Principles of ecology and their relevance to management of natural resources. Major topics include plant and wildlife population, community, ecosystem, and landscape level processes and how these processes interact with the environment. Exploration of how ecosystems are affected by humans and global change. Introduction to the types of questions asked by ecologists, the principal concepts and theories that guide ecological inquiry, and the methods that are used to answer ecological questions. Both terrestrial and aquatic systems are considered.

Prereq: BIOL 102/BIOL 102L or BIOL 114 or BIOL 115 or PLSC 205; or Permission.

WLF 299 (s) Directed Study

Credit arranged.

WLF 314 Ecology of Terrestrial Vertebrates

3 credits

Ecology and natural history of birds, mammals, reptiles, and amphibians. (Fall only)

Prereq: FOR 221, REM 221, or BIOL 314.

WLF 315 Techniques Laboratory

2 credits

Techniques associated with wildlife research and local habitats and areas where wildlife species are present. Three hours of lab a week. One weekend field trip required. Two additional animal trapping sessions also required. (Fall only)

Prereq or Coreq: WLF 314 .

WLF 370 Management and Communication of Scientific Data

2 credits

Students will learn skills for managing and presenting scientific data. Spreadsheets and basic data management software, summary, and graphical representation. Written presentation of scientific information will include organization, grammar, and citation formats appropriate for scientific reports.

WLF 371 Physiological Ecology of Fish and Wildlife

3 credits

Study of how biotic and abiotic components of the environment influence animal physiology, and how the physiology of animals influences their ecology (e.g., behavior, distribution, etc.). Major topics include energetics, thermal ecology, nutritional ecology, reproductive physiology, osmoregulation, and endocrinology. (Spring only)

Prereq: BIOL 213 .

WLF 398 (s) Renewable Natural Resources Internship

Credit arranged

Supervised field experience with an appropriate public or private agency. Req'd for cooperative education students. Graded P/F.

Prereq: Permission of department .

WLF 400 (s) Seminar

Credit arranged

Prereq: permission.

WLF 403 (s) Workshop

Credit arranged.

WLF 404 (s) Special Topics

Credit arranged.

WLF 415 Wildlife Conclave

1 credit

Objectives of the course are to 1) acquaint students with the procedures and rules used in the Wildlife Quiz Bowl at the Western Students Wildlife Conclave held annually in March, 2) practice in game situations so that our team is competitive at the event, and 3) to learn practical facts and trivia about wildlife natural history, identification, history of wildlife management and laws, wildlife ecology and management, and related natural resource sciences. The course meets twice a week from the beginning of spring semester until spring break (when Conclave is held). Students are assigned areas to study, have quizzes on those areas of knowledge and provide new written questions with answers for possible use in future classes.

WLF 416 Molecular Methods in Population Biology**1 credit**

Joint-listed with WLF 516.

Introductory workshop on basic procedures in molecular biology that have applications in ecology and evolutionary biology. Course includes DNA/RNA extraction, PCR, simple recombinant DNA procedures, DNA sequencing, and data analysis. Graduate level will require independent study project. Recommended preparation: Introductory level genetics, general and organic chemistry courses. (Fall only)

Prereq: Permission.

WLF 440 Conservation Biology**3 credits**

Patterns of biological diversity; factors producing changes in diversity; values of diversity; management principles applied to small populations, protected areas, landscape linkages, biotic integrity, restoration, legal issues, and funding sources. (Fall only)

Prereq: FOR 221, REM 221, or BIOL 314 or Permission.

WLF 448 Fish and Wildlife Population Ecology**4 credits**

Dynamics of animal populations resulting from balance between birth, death, and movement processes; quantitative methods for measuring distribution, abundance, survival and population growth; competition, predation, and self-regulation; viability and management of fish and wildlife populations. Three lec and one lab a wk. (Spring only)

Prereq: STAT 251; MATH 160 or 170.

WLF 473 ECB Senior Presentation**1 credit**

Gen Ed: Senior Experience

Cross-listed with FISH 473, FOR 473, NRS 473, REM 473, and RMAT 473 Reporting and presenting the senior project (thesis or internship); taken after or concurrently with WLF 485 or WLF 497. Serves as the senior capstone course for Ecology and Conservation Biology (ECB).

Prereq: Instructor Permission.

WLF 482 Ornithology**4 credits**

Evolution, systematics, distribution, identification, and biology of birds, including current conservation efforts. Requires two days of field trips. (Spring only)

Prereq: BIOL 114 and BIOL 115.

WLF 483 Senior Project Presentation**1 credit**

Cross-listed with FISH 483, FOR 483, NRS 483, and REM 483 Reporting and presenting the senior project (thesis or internship); taken after or concurrently with WLF 485 or WLF 497.

WLF 485 Ecology and Conservation Biology Senior Project**1-3 credits, max 3**

Cross-Listed with FISH 485, FOR 485, and NRS 485

Scholarly work; learning objectives include development and formal proposal of a specific project and conducting the project or research with the guidance of a faculty mentor.

WLF 492 Wildlife Management**4 credits**

Gen Ed: Senior Experience

Review of social and biological context for current practice of wildlife management including a hands on wildlife management project. Three lectures and one lab a week; two days of field trips. (Spring only)

Prereq: WLF 314, Senior Standing.

Prereq or Coreq: WLF 448.

WLF 497 Senior Thesis**1-3 credits, max 6**

Preparation of thesis, exhibition, video, computer program, multimedia program, or other creative presentation based on research conducted under the guidance of a faculty mentor.

Prereq: Cumulative GPA of at least 3.2 in all college courses, completion of at least 90 credits, and permission of a faculty mentor.

WLF 499 (s) Directed Study**Credit arranged**

For the individual student; conferences, library, field, or lab work.

Prereq: Senior standing, GPA 2.5, and Permission.

WLF 500 Master's Research and Thesis**Credit arranged.****WLF 501 (s) Seminar****Credit arranged**

Major philosophy, management, and research problems of wildlands; presentation of individual studies on assigned topics. Graded P (pass)/F (fail).

Prereq: Permission.

WLF 502 (s) Directed Study**Credit arranged.****WLF 503 (s) Workshop****Credit arranged**

Selected topics in the conservation and management of natural resources.

Prereq: Permission.

WLF 504 (s) Special Topics**Credit arranged.****WLF 505 (s) Professional Development****Credit arranged.****WLF 506 (s) External Speakers****1 credit, max 6**

Students will attend (or view recorded) seminars of fish and wildlife researchers and managers invited to present in our departmental seminar series. Students will read papers of external speakers, lead discussions of papers and assist with hosting speakers. Graded Pass/Fail.

WLF 516 Molecular Methods in Population Biology**1 credit**

Joint-listed with WLF 416.

Introductory workshop on basic procedures in molecular biology that have applications in ecology and evolutionary biology. Course includes DNA/RNA extraction, PCR, simple recombinant DNA procedures, DNA sequencing, and data analysis. Graduate level will require independent study project. Recommended preparation: Introductory level genetics, general and organic chemistry courses. (Fall only)

Prereq: Permission.

WLF 540 Conservation Genetics**1-3 credits, max 3**

Basic principles of population genetics and phylogenetics and their applications to the field of conservation and natural resource management. Taught in three 1-credit modules, and students can register for 1-3 credits. Module 1 includes introduction to conservation genetics and phylogenetics, module 2 includes population genetic theory and methods, and module 3 includes applications in conservation genetics and genomics. Cooperative: open to WSU degree-seeking students.

(Spring, Alt/yr)

WLF 541 Advanced Population Biology

3 credits

Readings and discussion of current theories of population control, their biological basis, and applications to animal populations. (Fall, Alt/yrs)

Prereq: WLF 448 or Permission.

WLF 544 Large Mammal Ecology

3 credits

Readings and discussion on large mammal management and ecology. Requires two days of field trips. Cooperative: open to WSU degree-seeking students. (Spring, Alt/yrs)

Prereq: WLF 492 or Permission.

WLF 545 Wildlife Habitat Ecology

2-3 credits

Reading and discussion on habitat concepts, analyses, and applications. Students enrolled in the 3rd credit will complete additional readings and quantitative problem sets. Cooperative: open to WSU degree-seeking students.

Prereq: WLF 492 or Permission, animal and plant ecology.

WLF 549 Conservation Genetics Lab

1 credit

This optional lab course is a complement to WLF 540 Conservation genetics and should be taken concurrently. Students will learn to analyze and interpret phylogenetic and population datasets using a variety of software packages. Students will also design and implement a lab for their classmates. (Fall, alt/even yrs)

Coreq: WLF 540.

WLF 552 Ecological Modeling

3 credits

Linear and nonlinear dynamical models of biological systems; computer-intensive introduction to concepts of stability, attractors, bifurcations, chaos; model identification, estimation, and evaluation; applications in aquatic and terrestrial ecological communities. (Spring only, Alt/yrs)

Prereq: MATH 175 and FOR 221 or Permission.

WLF 555 Statistical Ecology

3 credits

Cross-listed with STAT 555

Stochastic models in ecological work; discrete and continuous statistical distributions, birth-death processes, diffusion processes; applications in population dynamics, population genetics, ecological sampling, spatial analysis, and conservation biology. Cooperative: open to WSU degree-seeking students. (Spring, Alt/yrs)

Prereq: MATH 451 or Permission.

WLF 561 Landscape Genetics

2 credits

Landscape genetics is an interdisciplinary field of study that evaluates how landscape and environmental features influence gene flow, population structure and local adaptation by integrating landscape ecology, population genetics and spatial statistics. This course covers applications of landscape genetics that can improve our understanding of ecology, evolution, and management of wild populations. Recommended Preparation: Population genetics or conservation genetics, and multivariate or spatial statistics. Cooperative: open to WSU degree-seeking students. (Spring, alt/even yrs)

WLF 562 Landscape Genetics Lab

1-2 credits

This optional lab course is a complement to WLF 561 Landscape genetics and should be taken concurrently. Students will learn to analyze and interpret landscape genetic datasets using a variety of methods. If taken for two credits, students will do a project analyzing landscape genetic data. Recommended Preparation: Population genetics or conservation genetics, and multivariate or spatial statistics. Cooperative: open to WSU degree-seeking students. (Spring, alt/even yrs)

Coreq: WLF 561.

WLF 575 Behavioral Ecology

2 credits

Behavioral Ecology is the study of evolutionary causes and fitness consequences of behavioral decisions by animals. This course will explore theoretical and empirical approaches to understanding behavioral ecology across a diversity of species, with an emphasis on vertebrates. The format will include short lectures and facilitated discussions of primary literature. The course is open to graduate students and seniors with instructor permission.

WLF 598 (s) Internship

Credit arranged.

WLF 599 (s) Research

Credit arranged

Research not directly related to a thesis or dissertation.

Prereq: Permission.

WLF 600 Doctoral Research and Dissertation

Credit arranged

Prereq: Admission to the doctoral program in "natural resources" and Permission of department.

WOMEN'S, GENDER, AND SEXUALITY STUDIES (WGSS)

WGSS 201 Introduction to Women's, Gender, and Sexuality Studies

3 credits

Gen Ed: Humanities, American Diversity

Survey of and introduction to the study of women's lives and the social construction of gender and sexuality across times and cultures. Thematic examination of the diversity of women's experiences in families, at work, with the law, in health care, in literature, in the media, in language; exploration of differences and similarities, including ethnicity, sexuality, class, and age. Examination of ideals of femininity and masculinity in the US and elsewhere.

WGSS 367 (s) Topics in Women's, Gender, and Sexuality Studies

3 credits, max arr

Topical examination of issues in women's, gender and sexuality studies.

WGSS 404 (s) Special Topics

Credit arranged.

WGSS 410 Feminist Theory and Action

3 credits

This course examines a range of feminist theory, including both classic and lesser-known texts, while grounding the study of theory in an examination of historical and contemporary feminist activism. The course covers some of the key concepts and debates within feminism and explores the relationship between theory and action. Students learn how to read theory and apply their knowledge to current events, issues, and problems in the United States and globally.

WGSS 498 (s) Internship in Women's, Gender, and Sexuality Studies

1-6 credits, max arr

Directed student internship in approved setting relevant to women's, gender, and sexuality studies with campus, local, national, or international organizations or offices. Various credits depending on the length and type of internship.

Prereq: WGSS 201, Permission of the Coordinator of Women's, Gender, and Sexuality Studies.

WGSS 499 (s) Directed Study

Credit arranged.

WGSS 502 (s) Directed Study

Credit arranged.

WASHINGTON STATE UNIVERSITY COOPERATIVELY OFFERED COURSES

WSU Cooperative Courses Open to UI students

Students may search for the cooperative courses that are offered for any particular semester by going to <http://schedules.wsu.edu/Coop/> and choosing the appropriate fall or spring semester.

Subject	Number	Course Title and Credits
AGTM	305	Agricultural Precision Systems (3 cr)
AGTM	315	Irrigation Systems and Water Management (3 cr)
ANIM SCI	101	Introductory Animal Science (3 cr)
ANIM SCI	172	Dairy Cattle Management Laboratory (1 cr)
ANIM SCI	174	Beef Cow Calf Management Laboratory (1 cr)
ANIM SCI	178	Swine Management Laboratory (1 cr)
ANIM SCI	260	Live Animal and Carcass Evaluation (3 cr)
ANIM SCI	274	Beef Feedlot Systems (2 cr)
ANIM SCI	285	Rights and Welfare of Animals (3 cr)
ANIM SCI	313	Feeds and Feeding (4 cr)
ANIM SCI	314	Principles of Nutrition (3 cr)
ANIM SCI	330	Animal Genetics (3 cr)
ANIM SCI	345	Introduction to Animal Growth and Development (3 cr)
ANIM SCI	346	Introduction to Skeletal Muscle Physiology (3 cr)
ANIM SCI	350	Physiology of Reproduction (3 cr)
ANIM SCI	351	Physiology of Reproduction Laboratory (1 cr)
ANIM SCI	360	Meat Science (3 cr)
ANIM SCI	405	Ciders and Other Fermented Foods (3 cr)
ANIM SCI	451	Endocrine Physiology (3 cr)
ANIM SCI	454	Artificial Insemination and Pregnancy Detection (2 cr)
ANIM SCI	460	Advanced Meat Science (3 cr)
ANIM SCI	464	Companion Animal Management (3 cr)
ANIM SCI	472	Dairy Cattle Management (3 cr)
ANIM SCI	473	Advanced Dairy Management (3 cr)
ANIM SCI	478	Swine Production (3 cr)
ANIM SCI	485	Applied Animal Behavior (3 cr)
ANIM SCI	488	Perspectives in Biotechnology (3 cr)
ANIM SCI	513	Mineral and Vitamin Metabolism (4 cr)
ANIM SCI	551	Endocrine Physiology (3 cr)
ANIM SCI	558	Molecular and Cellular Reproduction (3 cr)
ANIM SCI	588	Perspectives in Biotechnology (3 cr)
ANIM SCI	598	Advanced Topics in Animal Sciences (V 1-2 cr)

FACULTY

Charles A. Staben, President

John Wiencek, Provost and Executive Vice President

Patrick Hrdlicka, Chair of the Faculty Senate (2017-18)

Elizabeth Brandt, Secretary of the Faculty

An asterisk () denotes graduate faculty.*

A

ABATZOGLOU, Crystal K; 2010; Associate Professor in Forest, Rangeland and Fire Sciences; Affiliate Faculty in Geography; Ph.D.; 2010; Clark University.

*ABATZOGLOU, John T; 2009; Associate Professor of Geography; Ph.D.; 2006; University of California Irvine.

ABBOTT, Ann; 2017; Instructor in Mathematics; Ph.D.; 2018; University of Idaho.

*ABDEL-RAHIM, Ahmed S; 2002; Professor of Civil Engineering (P.E.); Director, National Institute for Advanced Transportation Technology; Ph.D.; 1998; Michigan State University.

*ABO, Hirotachi; 2006; Professor of Mathematics; Ph.D.; 2002; Saarland University.

*ADAMS, Anne E; 2008; Associate Professor of Curriculum and Instruction; M.A.; 1982; University of California Davis.

ADDLEMAN, Shane R; 2013; Adjunct Faculty of Chemistry; Ph.D.; 1999; University of Idaho.

ADKINS, Benjamin; 2017; Clinical Assistant Professor in the Medical Education Program; M.D.; 2000; University of Dublin.

ADLER, David G; 2010; Adjunct Faculty of Law; Director of the James A and Louise McClure Center for Public Policy Research; Ph.D.; 1982; University of Utah.

*ADMASU, Wudneh; 1992; Professor of Chemical Engineering; Ph.D.; 1984; University Of Idaho.

AFATCHAO, Kodjotse; 2014; Clinical Professor and Associate Director, Martin Institute; Ph.D.; 2009; University of Idaho.

AGENBROAD, Ariel L; 2008; Extension Associate Professor and Southern District Extension Educator (Horticulture, Small Acreage); M.S.; 2007; University of Idaho.

*AHMADZAHEH, Amin; 2000; Professor of Animal and Veterinary Science; Interim Department Head, Animal and Veterinary Sciences; Ph.D.; 1998; Virginia Polytechnic Institute.

AIZEN, Elena M; 2015; Research Associate Professor of Geography; Ph.D.; 1986; Russian Academy of Sciences.

*AIZEN, Vladimir; 2001; Research Professor of Geography; Affiliate Faculty in Environmental Sciences; Ph.D.; 1988; Russian Academy of Sciences.

ALBERTSON-PLOUCHA, Helen; 2009; Senior Instructor of Law; Associate Dean of Administration and Students; J.D.; 1997; Temple University.

*ALESSA, Lilian; 2013; Professor of Resilient Landscapes; Ph.D.; 1998; University of British Columbia.

*ALLEN, Peter B; 2014; Assistant Professor of Chemistry; Ph.D.; 2008; University of Washington.

*ALLEN, Richard G; 1998; Professor in Soil and Water Systems; Affiliate Faculty of Biological Engineering and Civil and Environmental Engineering; Ph.D.; 1984; University of Idaho.

ALLEN, Theresa; 2017; Instructor in Mathematics; Ph.D.; 1993; University of Washington.

*ALVES-FOSS, James; 1991; Professor of Computer Science; Director, Center for Secure and Dependable Systems; Affiliate Faculty in Electrical and Computer Engineering; Ph.D.; 1991; University of California Davis.

*AMADOR, Julie M; 2012; Research Associate Professor in Curriculum and Instruction; Ph.D.; 2010; University of Nevada Reno.

AMADOR, Paul V; 2014; Affiliate Faculty of Organizational Sciences; Ph.D.; 2011; University of Nevada Reno.

AMATO, Matthew; 2016; Assistant Professor in History; Ph.D.; 2013; University of Southern California.

AMENDE, Jacqueline R; 2017; Assistant Professor in Family and Consumer Sciences; M.S.; 2016; Saint Louis University.

*ANDERSON, Janice Capel; 1985; Professor of Philosophy and Religious Studies; Ph.D.; 1985; University of Chicago.

*ANDERSON, John W; 2008; Associate Professor of Virtual Technology and Design; Interim Program Head, Virtual Technology & Design Program; M.S.; 2006; University of Idaho.

ANDERSON, Mark D; 1982; Professor of Law; J.D.; 1977; University of Chicago.

*ANDERSON, Michael J; 1989; Professor of Mechanical Engineering; Ph.D.; 1989; Washington State University.

ANDERSON, Miranda S; 2007; Clinical Associate Professor of Interior Design; M.Arch.; 1999; University of Idaho.

*ANTHONY-STEVENS, Vanessa E; 2014; Assistant Professor of Curriculum and Instruction; Affiliate Faculty in American Indian Studies Program; Ph.D.; 2013; University of Arizona.

APOSTOL, Kent G; 2011; Adjunct Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1993; University of Alberta.

ARCILESI, David; 2018; Assistant Professor of Nuclear Engineering; Ph.D.; 2018; Ohio State.

ARNEY, James; 2018; Adjunct Faculty in Forest, Rangeland and Fire Sciences; Ph.D..

ARTHUR, Victoria M; 2016; Instructor in English; Ph.D.; 2006; Washington State University.

*ASTON, D. Eric; 2001; Professor of Chemical Engineering; Affiliate Professor of Materials Science and Engineering and Metallurgical Engineering; Department Chair, Department of Chemical and Materials Engineering; Ph.D.; 2001; University of Washington.

*ATKINSON, David A; 1996; Adjunct Assistant Professor of Chemistry; Ph.D.; 1992; Washington State University.

*ATTEBURY, Ramirose I; 2008; Reference/Instruction Librarian with rank of Associate Professor; Program Head, Technical Services, University Libraries; M.A.; 2007; Central Washington University.

*AUSTIN, Bryan S; 2012; Assistant Professor of Leadership and Counseling; Ph.D.; 2012; Michigan State University.

*AUSTIN, Gary; 1991; Professor of Landscape Architecture; M.L.A.; 1981; California State Polytechnic.

*AWWAD-RAFFERTY, Rula Z; 1998; Professor of Landscape Architecture; Program Head, Interior Design Program; Affiliate Associate Professor of Environmental Science; Ph.D.; 1995; Washington State University.

*AY, Suat U; 2007; Associate Professor of Electrical and Computer Engineering; Ph.D.; 2005; University of Southern California.

B

BABOVIC, Valdan; 1997; Adjunct Assistant Professor of Civil and Environmental Engineering; Ph.D.; 1995; International Institute for Infrastructure.

BAEK, Donna; 2018; Adjunct Assistant Professor of Chemistry; Ph.D.; 2014; University of Idaho.

BAGGS, Belle; 2012; Clinical Assistant Professor of Movement Sciences; M.F.A.; 2011; University of Utah.

*BAILEY, Jeffrey J; 1991; Professor of Business; Ph.D.; 1991; University of Akron.

BAILEY, Joshua P; Joshua; Assistant Professor of Exercise Science and Health; Ph.D.; 2017; University of Nevada, Las Vegas.

BAIRD, David; 2016; Affiliate Faculty in Naval Science.

*BAKER, Leslie L; 2014; Research Associate Professor of Geological Sciences; Department Chair, Department of Geography and Geological Sciences; Ph.D.; 1996; Brown University.

*BAKER, Russell T; 2013; Clinical Assistant Professor of Movement Sciences; D.A.T.; 2013; University of Idaho.

BAKER, Sarah D; 2009; Extension Associate Professor and Eastern District Extension Educator; M.S.; 2005; University of Idaho.

BAKER, Jayme; 2017; Clinical Assistant Professor in the Athletic Training Program; D.P.T.; 2012; 2012.

*BAKER-EVELETH, Lori; 2003; Professor in Business; Ph.D.; 2003; Washington State University.

BAKES, Warren; 2017; Instructor in Curriculum and Instruction; Ed.S.; 1981; University of Idaho.

BALDUS, Ronald J; 1981; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1979.

*BALEMBBA, Onesmo B; 2008; Associate Professor of Medical History/Biological Sciences; Ph.D.; 2001; Royal Veterinary and Agricultural University.

BALL, Katherine; 2017; Clinical Associate Professor of Law and Externship Director-Boise; J.D.; 2002; University of Idaho.

*BANKS, Anna; 1989; Associate Professor of English; Ph.D.; 1989; University of Southern California.

BANKS, John E; 2010; Adjunct Associate Professor of Plant, Soil and Entomological Sciences; Ph.D.; 1997; University of Washington.

*BARANNYK, Lyudmyla; 2007; Associate Professor in Mathematics; Affiliate Faculty in Electrical and Computer Engineering; Ph.D.; 2003; New Jersey Institute of Technology.

*BARNES, Gwendolyn; 2008; Assistant Research Professor of Physics; Ph.D.; 2007; University of Arizona.

*BARNES, Jason W; 2008; Associate Professor of Physics; Affiliate Faculty of Geological Sciences; Ph.D.; 2004; University of Arizona.

BARNES, Justin J; 2012; Assistant Professor of Journalism and Mass Media; Ph.D.; 2009; University of Idaho.

*BARNES, Kim M; 2000; Distinguished Professor in English; M.F.A.; 1995; University of Montana.

BARRA, Ricardo; 2017; Adjunct Faculty in Soil and Water Systems; Ph.D.; 1993; Universidad de Concepcion.

BARROWS, Frederic T; 2006; Adjunct Professor of Animal and Veterinary Sciences; Ph.D.; 1987; Iowa State University.

BARTHOLOMAUS, Timothy; 2016; Assistant Professor in Geological Sciences; Affiliate Faculty in Geography; Ph.D.; 2013; University of Alaska.

BARTOLINO, James R; 2005; Adjunct Assistant Professor of Geological Sciences; Ph.D.; 1991; Texas Technology University.

*BARTON, Benjamin K; 2008; Associate Professor of Psychology; Ph.D.; 2005; University of Alabama.

*BATDORF, James A; 1989; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1988; University of Idaho.

*BATHURST, Pamela G; 1997; Associate Professor of Music (voice); M.Mus.; 1978; University of Michigan.

*BAUMGAERTNER, Bert O; 2013; Assistant Professor of Philosophy; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2013; University of California Davis.

*BAUSCHER, Richard H; 2016; Assistant Professor in Leadership and Counseling; Ed.D.; 1984; Washington State University.

BAXTER, Colden V; 2013; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2002; Oregon State University.

*BAYOMY, Fouad M; 1991; Professor of Civil Engineering (P.E.); Ph.D.; 1982; Ohio State University.

BEARD, D. Benjamin; 1987; Professor of Law; J.D.; 1982; Case Western Reserve University.

*BECKER, Dennis R; 2015; Associate Professor of Natural Resources and Society; Director of the Policy Analysis Group; Interim Dean, College of Natural Resources; Ph.D.; 2002; University of Idaho.

BECKER, Devin; 2010; Librarian with rank of Associate Professor; Program Head, Data and Digital Services in the University Libraries; M.L.S.; 2010; Indiana University.

BECKER, Hydee E; 2015; Instructor of Family and Consumer Sciences; M.S.; 2000; University of Idaho.

BEESTON, Julie; 2017; Clinical Assistant Professor in Computer Science; Ph.D.; 2012; University of Victoria.

Begay, Victor; 2018; Adjunct Professor of Curriculum and Instruction; Ph.D.; 2014; Arizona State University.

BELL, Susan M; 1984; Extension Professor and Ada County Extension Educator (Horticulture); M.A.; 1985; Oregon State University.

BELLMORE, J. Ryan; 2013; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2011; Idaho State University.

BENNETT, Denise J; 2006; Associate Professor of Journalism and Mass Media; M.A.; 2006; Eastern Washington University.

*BERGMAN, Leah; 2000; Professor of Physics; Ph.D.; 1995; North Carolina State University.

*BERNARDS, Matthew; 2016; Assistant Professor in Chemical Engineering; Ph.D.; 2008; University of Washington.

*BERRY, Ray A; 1981; Adjunct Professor of Mechanical Engineering; Ph.D.; 1992; University of Idaho.

*BERVEN, Christine A; 2002; Associate Professor of Physics; Ph.D.; 1995; University of Oregon.

*BEYERLEIN, Steven W; 1987; Professor of Mechanical Engineering; Department Chair, Department of Mechanical Engineering; Ph.D.; 1987; Washington State University.

*BILDERBACK, Barry T; 2008; Associate Professor of Music History; Ph.D.; 2001; University of Oregon.

BILLING, Carol; 2017; Instructor in Curriculum and Instruction; Instructor in Curriculum and Instruction; 2004; National University.

BIRD, R. Kenton; 1999; Associate Professor of Journalism and Mass Media; Ph.D.; 1999; Washington State University.

BIRD, Rayce C; 2015; Clinical Assistant Professor in Virtual Technology and Design; B.S.; 2011; University of Idaho.

BIRD, Kenton; 1996; Associate Professor of Journalism and Mass Media; Ph.D.; 1999; Washington State University.

BISBEE, Yolanda J; 2007; Affiliate Instructor of American Indian Studies; Chief Diversity Officer and Executive Director of Tribal Relations; M.Ed.; 2005; University of Idaho.

*BITTERWOLF, Thomas E; 1988; Professor of Chemistry; Ph.D.; 1976; West Virginia University.

*BJORNBERG, David; 1996; Adjunct Assistant Professor of Biological Engineering; Ph.D.; 1995; University of Iowa.

BLACHFIELD, Brian; 2017; Assistant Professor of Non-Fiction; M.F.A.; 1999; Warren Wilson College.

BLAINE, Anna C; 2016; Law Librarian with rank of Assistant Professor; M.L.I.S.; 2007; Southern Connecticut State University.

BLANCO, Karla; 2017; Assistant Professor; Psychologist; Ph.D.; 2017; Washington State University.

BLANKENSHIP, Bryce; 2017; Instructor of Philosophy; M.A.; 2013; University of Idaho.

BLEVINS, Kathryn; 2016; Assistant Professor of Journalism and Mass Media; Ph.D.; 2014; Pennsylvania State University.

BLEW, Roger D; 2002; Adjunct Assistant Professor of Environmental Science; Ph.D.; 1991; University of Calgary.

BOARDMAN, Richard D; 2013; Adjunct Faculty of Mechanical Engineering; Ph.D.; 1990; Brigham Young University.

BOCKELMAN, Harold E; 1987; Adjunct Assistant Professor in Plant Sciences; Ph.D.; 1974; University of California Davis.

BODINE, Timothy N; 2009; Adjunct Assistant Professor of Animal and Veterinary Science; Ph.D.; 2004; Oklahoma State University.

*BOHACH, Carolyn H; 1990; Distinguished Professor of Biological Sciences; Ph.D.; 1985; University of Minnesota.

BOIE, Jennifer A; 2014; Adjunct Faculty of Natural Resources and Society; Ph.D.; 2013; University of Idaho.

BOLDEN, Bruce M; 1997; Senior Instructor in Computer Science; M.S.; 1987; University of California Davis.

*BOLL, Jan; 1996; Adjunct Professor in Soil and Water Systems; Ph.D.; 1995; Cornell University.

BONMAN, J. Michael; 2003; Adjunct Professor in Entomology, Plant Pathology and Nematology; Ph.D.; 1980; Washington State University.

BORING, Ronald; 2011; Adjunct Faculty in Psychology and Communication Studies; Ph.D.; 2004; Carleton University.

BORIS TARRE, Marta; 2012; Assistant Professor of Modern Languages and Cultures; Ph.D.; 2012; University of Alabama.

*BORRELLI, Robert A; 2015; Assistant Professor of Nuclear Engineering;; Ph.D.; 2006; University of California-Berkeley.

*BOSCHETTI, Luigi; 2012; Associate Professor in Natural Resources and Society; Ph.D.; 2005; Politecnico di Milano.

*BOSQUE-PEREZ, Nilsa A; 1997; Distinguished Professor in Entomology, Plant Pathology and Nematology; Affiliate Associate Professor of Environmental Science; Ph.D.; 1985; University of California Davis.

BRADY, Patricia A; 1983; Adjunct Clinical Professor of Medical Science; M.D.; 1976; Ohio State University.

BRANDT, Elizabeth B; 1988; Professor of Law; J.D.; 1982; Case Western Reserve University.

BRANEN, Joshua R; 2007; Affiliate Assistant Professor of Food Science and Toxicology; Ph.D.; 2006; University of Idaho.

BRAUN, Curt; 2017; Adjunct Faculty in Psychology and Communication Studies; Ph.D.; 1993; University of Central Florida.

*BRAUNS, Eric B; 2005; Associate Professor of Chemistry; Ph.D.; 2001; University of South Carolina.

BREEDLOVESTROUT, Renee; 2015; Adjunct Faculty in Geological Sciences; Ph.D.; 2011; University of Idaho.

BREGITZER, Phillip; 1990; Adjunct Assistant Professor in Plant Sciences; Ph.D.; 1989; University of Minnesota.

*BREHM, Matthew T; 2006; Professor in Architecture; M.Arch.; 1998.

BRIDY, Annemarie; 2007; Professor of Law; J.D.; 2004; Temple University.

*BROOKS, Erin S; 2012; Associate Professor in Soil and Water Systems; Affiliate Faculty of Biological Engineering and Civil and Environmental Engineering; Ph.D.; 2003; University of Idaho.

*BROOKS, Randall H; 1991; Extension Professor and Clearwater County Extension Educator; Ph.D.; 1991; Michigan Technology University.

*BROWN, Ann Frost; 2016; Assistant Professor in Movement Sciences; Ph.D.; 2016; Florida State University.

*BROWN, Celeste J; 2010; Research Professor in Biological Sciences; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1989; University of Georgia.

*BROWN, Helen; 2011; Clinical Associate Professor in Movement Sciences; Ph.D.; 1983; University of North Carolina.

*BROWN, Jack; 1992; Professor in Plant Sciences; Ph.D.; 1988; St Andrews.

*BROWN, Katie N; 2013; Assistant Professor of Family and Consumer Sciences; Ph.D.; 2012; Utah State University.

BRUCK, Hugh A; 1995; Adjunct Assistant Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1994; California Institute of Technology.

BRYANT, Patrick S; 1991; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1993; University of Idaho.

BUCK, Julie H; 2014; Extension Assistant Professor and Extension Educator; Ed.D.; 2014; University of Idaho.

*BUDWIG, Ralph S; 1985; Professor of Mechanical Engineering; Affiliate Faculty of Civil and Environmental Engineering; Ph.D.; 1985; Johns Hopkins University.

BUFFINGTON, John M; 2013; Adjunct Faculty of Civil and Environmental Engineering; Ph.D.; 1998; University of Washington.

*BUKVICH, Daniel J; 1987; Distinguished Professor of Music (percussion, music theory, jazz choirs); M.Mus.; 1978; University of Idaho.

BURDGE, Julia; 2009; Adjunct Associate Professor of Chemistry; Ph.D.; 1994; University of Idaho.

*BURTON, Damon D; 1983; Professor of Physical Education; Ph.D.; 1983; University of Illinois.

BUSH, Sarah; 2018; Assistant Professor of Agricultural and Extension Education; Ph.D.; 2018; Virginia Tech.

BUTT, Darryl P; 2011; Adjunct Professor of Chemical and Materials Engineering; Ph.D.; 1991; Penn State University.

BUTTERFIELD, Sean; 2016; Assistant Professor in the Lionel Hampton School of Music; Ph.D.; 2011; University of Colorado.

*BUZBAS, Erkan O; 2013; Assistant Professor of Statistical Science; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2009; University of Idaho.

C

CAAMANO, Diego; 2017; Adjunct Faculty in Soil and Water Systems; Ph.D.; 2008; University of Idaho.

CADWELL, Jillian R; 2013; Adjunct Faculty of Civil and Environmental Engineering; Ph.D.; 2008; University of Colorado.

*CAIN, Kenneth D; 1999; Professor of Fishery Resources; Associate Director, Aquaculture Research Institute; Ph.D.; 1997; Washington State University.

*CAISLEY, Robert C; 2001; Professor of Theatre Arts and Film; M.F.A.; 1993; Illinois State University.

CALDWELL, William Edward; 2016; Clinical Assistant Professor in Medical Education Program; M.D.; 1980; Johns Hopkins University.

CAMPBELL, Daniel R.L.; 2016; Senior Instructor in Curriculum and Instruction; Ph.D.; 2014; University of Idaho.

*CANFIELD-DAVIS, Kathryn M; 2006; Associate Professor of Leadership and Counseling; Department Chair, Department of Leadership and Counseling; Ph.D.; 1996; Gonzaga University.

*CANNON, John G; 2008; Associate Professor of Career and Technical Education; Ph.D.; 2005; Virginia Polytechnic Institute.

*CAPLAN, Allan B; 1992; Associate Professor in Plant Sciences; Affiliate Associate Professor of Environmental Science; Ph.D.; 1980; University of Iowa.

*CARLSON, Lisa J; 1993; Professor of Political Science; Ph.D.; 1994; Rice University.

CARLTON, Scott; 2016; Adjunct Faculty in Fish and Wildlife Sciences; M.Des.; 1992; Harvard University.

CARNEY, Ginger; 2017; Professor in Biological Sciences; Dean, College of Science; Ph.D.; 1998; University of Georgia.

*CARR-CHELLMAN, Alison; 2016; Professor in Curriculum and Instruction; Dean, College of Education, Health and Human Sciences; Ph.D.; 1993; Indiana University.

*CARR-CHELLMAN, Davin; 2016; Assistant Professor in Leadership and Counseling; Ph.D.; 2011; Pennsylvania State University.

CARTER, Diane L; 2012; Senior Instructor of Communication Studies; Ph.D.; 2011; Washington State University.

CARTER, Val G; 2012; Senior Instructor of Art and Design; M.F.A.; 1997; University of Arizona.

CARVER, Dwaine; 2015; Adjunct Faculty in Architecture; M.Des.; 1992; Harvard University.

CASANOVES, Fernando; 2006; Adjunct Associate Professor of Statistical Science; Ph.D.; 2004; University of Cordoba.

*CASSEL, Elizabeth J; 2014; Assistant Professor of Geological Sciences; Ph.D.; 2010; Stanford University.

*CAUDILL, Christopher C; 2009; Assistant Professor of Fish and Wildlife Sciences; Ph.D.; 2002; Cornell University.

CELAYA, Lori; 2011; Associate Professor in Modern Languages and Cultures; Ph.D.; 2008; University of Tennessee.

*CHAHINE, Mireille; 2003; Extension Professor in Animal and Veterinary Science; Ph.D.; 2003; University of Minnesota.

*CHAKHCHOUKH, Yacine; 2016; Affiliate Assistant Professor in Electrical and Computer Engineering; Ph.D.; 2010; Parid-Sud XI University.

*CHANG, Kevin; 2013; Assistant Professor of Civil Engineering (P.E.); Ph.D.; 2005; University of Washington.

*CHAPMAN, Erin; 2010; Clinical Assistant Professor of Family and Consumer Sciences; Ph.D.; 2009; Iowa State University.

*CHARIT, Indrajit; 2007; Associate Professor of Materials Science and Engineering; Ph.D.; 2004; University of Missouri.

CHASE, Jennifer R; 2006; Adjunct Professor of Biological Sciences; Ph.D.; 1998; Yale University.

*CHEN, Jianli; 2007; Research Associate Professor in Plant Sciences; Ph.D.; 2005; Virginia Polytechnic Institute.

*CHEN, Lide; 2015; Associate Professor in Soil and Water Systems; Affiliate Faculty in Biological Engineering; Affiliate Faculty in Civil and Environmental Engineering; Ph.D.; 2008; Iowa State University.

CHEN, Linda; 2017; Assistant Professor of Accounting; Ph.D.; 2009; University of Arizona.

*CHENG, I. Francis (Frank); Professor in Chemistry; Ph.D.; 1988; Pennsylvania State University.

CHESS, Dale; 2017; Adjunct Faculty in Soil and Water Systems; Ph.D.; 1998; University of Montana.

CHIBISA, Gwinyai; 2015; Assistant Professor of Animal and Veterinary Science; Ph.D.; 2013; University of Saskatchewan.

CHITTARO, Paul M; 2011; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2005; University of Windsor.

CHOPIN, Marc C; 2016; Professor in Business; Dean, College of Business; Ph.D.; 1991; Texas A&M University.

*CHOUDHURY, Samrat; 2015; Assistant Professor of Chemical and Materials Engineering; Ph.D.; 2008; Pennsylvania State University.

*CHRISTENSEN, Richard N; 2015; Professor in Nuclear Engineering; Director, Nuclear Engineering Program; Ph.D.; 1974; Stanford University.

CHUNG, Woodam; 2010; Adjunct Associate Professor of Plant, Soil and Entomological Sciences; Ph.D.; 2002; Oregon State University.

CHUNG, Yunhyung; 2007; Associate Professor of Business; Ph.D.; 2007; Rutgers University.

*CHURCH, James A; 1987; Extension Professor and Idaho County Extension Educator (Beef); M.S.; 1982; University of Idaho.

CLARK, William H; 1989; Adjunct Assistant Professor of Entomology; M.S.; 1972; University of Nevada Reno.

CLAYTON, Stephen R; 2004; Adjunct Assistant Professor of Biological Engineering; Ph.D.; 2002; University of Idaho.

CLEMENT, Stephen L; 1986; Adjunct Professor of Entomology; Ph.D.; 1976; University of California Davis.

*CLEVELEY, C. Brian; 1991; Senior Instructor of Virtual Technology and Design; Program Coordinator, Virtual Technology and Design; M.Arch.; 1986; University of Idaho.

CLINE, Everett Eugene; 2017; Instructor in Music; M.A.; 1969; University of Missouri.

*COATS, Erik R; 2006; Professor of Civil Engineering (P.E.); Affiliate Faculty of Chemical and Materials Engineering; Ph.D.; 2005; Washington State University.

*COHEN, Rajal G; 2012; Assistant Professor of Psychology; Ph.D.; 2008; Penn State University.

*COHN, Teresa; 2014; Research Assistant Professor of Natural Resources and Society; Ph.D.; 2010; Montana State University.

*COLBERG, Patricia J; 2015; Professor of Civil Engineering (P.E.); Department Chair, Department of Civil and Environmental Engineering; Ph.D.; 1983; Stanford University.

COLE, David N; 1980; Adjunct Professor of Natural Resource Conservation; Ph.D.; 1977; University of Oregon.

*COLE, Douglas G; 1998; Professor of Biological Sciences; Associate Chair, Biological Sciences; Ph.D.; 1990; Washington State University.

COLE, James; 2017; Adjunct Faculty in Chemical and Materials Engineering; Ph.D.; 1996; Washington State University.

*COLEMAN, Mark; 2008; Professor of Forest, Rangeland and Fire Science; Director of the Intermountain Forest Tree Nutrition Cooperative; Ph.D.; 1988; University of Washington.

COLLE, Michael; 2017; Research Assistant Professor in Animal and Veterinary Sciences; Ph.D.; 2017; University of Idaho.

CONLON KHAN, Lori; 2017; Clinical Assistant Professor of Music Education; Clinical Assistant Professor of Music Education; 2012; Boise State University.

*CONNELLY, John W; 1987; Adjunct Associate Professor of Fish and Wildlife Sciences; Ph.D.; 1982; Washington State University..

*CONNORS, James J; 2008; Professor of Agricultural Education and 4-H Youth Development; Department Head, Agricultural and Extension Education.

*CONTE DE LEON, Daniel F; 2013; Assistant Professor of Computer Science; Ph.D.; 2006; University of Idaho.

CONWAY, Courtney; 2011; Research Professor in Fish and Wildlife Sciences; Ph.D.; 1998; University of Montana.

*COOK, Stephen P; 1999; Professor of Entomology, Plant Pathology and Nematology; Ph.D.; 1985; North Carolina State University.

COONSE, Joseph; 2017; Affiliate Faculty in Military Science.

*COOPER, Elizabeth L; 2015; Research Associate Professor of Architecture; Director, Integrated Design Lab, Art and Architecture; M.S.; 2012; University of Washington.

*COPELAND, Shawn L; 2014; Assistant Professor of Music; D.Mus.; 2007; University of North Carolina.

COPELAND, Timothy S; 2013; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2004; Virginia Polytechnic Institute.

*CORDON, Daniel A; 2013; Clinical Assistant Professor of Mechanical Engineering; Ph.D.; 2010; University of Idaho.

CORRAO, Mark V; 2017; Adjunct Faculty in Soil and Water Systems; Adjunct Faculty in Natural Resources and Society; Ph.D.; 2015; University of Idaho.

*CORRY, Shauna J; 2001; Associate Professor of Architecture; Interim Dean, College of Art and Architecture; Ph.D.; 2000; Washington State University.

*COSENS, Barbara; 2004; Professor of Law; Associate Dean, College of Law; Interim Director, Waters of the West; L.L.M.; 2003; Lewis & Clark College.

COULTER, Matthew P; 2015; Clinical Assistant Professor of Curriculum and Instruction; Ph.D.; 2013; Washington State University.

COUTURE, Wendy; 2010; Professor in Law; J.D.; 2003; Southern Methodist University.

COVER, Aliza; 2014; Associate Professor of Law; J.D.; 2008; Yale Law School.

COVER, Benjamin; 2017; Associate Professor of Law; J.D.; 2009; Yale Law School.

*CRAIG, Traci Y; 2002; Professor of Psychology; Ph.D.; 2002; Purdue University.

CRAWFORD, Douglas C; 1999; Adjunct Assistant Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1991; University of Michigan.

*CREPEAU, John C; 1994; Professor of Mechanical Engineering; Associate Dean of Undergraduates, College of Engineering; Ph.D.; 1991; University of Utah.

CRIST, Melissa A; 2014; Clinical Assistant Professor of the Center on Disabilities and Human Development; M.S.; 2013; University of Idaho.

CRYDER-WILSON, Cathy; 2016; Adjunct Faculty in Plant Sciences; Ph.D.; 1988; New Mexico State University.

*CSESZKO, Ferenc P; 2003; Associate Professor of Music; D.Mus.; 2000; University of Wisconsin.

CUSHMAN, Samuel A; 2011; Adjunct Professor of Plant, Soil and Entomological Sciences; Ph.D.; 2003; University of Massachusetts.

D

*DACEY, Raymond; 1984; Professor of Business and of Statistical Science; Affiliate Professor of Philosophy; Ph.D.; 1970; Purdue University.

DAINOFF, Charles; 2017; Clinical Assistant Professor of Political Science; Ph.D.; 2017; University of Kentucky.

*DAKINS, Maxine E; 1994; Professor of Environmental Science; Ph.D.; 1994; SUNY at Syracuse.

*DALEY LAURSEN, Steven B; 2002; Professor of Forest, Rangeland, and Fire Sciences and Conservation Social Sciences; Ph.D.; 1984; University of Idaho.

*DALTON, Joseph C; 2000; Extension Professor of Animal and Veterinary Science; Ph.D.; 1999; Virginia Polytechnic Institute.

DALTON, Nikola Mae; 2016; Extension Assistant Professor; Extension Educator; M.S.; 2012; University of Idaho.

DAMMAN, Erin; 2017; Clinical Assistant Professor-Global South; Ph.D.; 2012; Northwestern University.

*DANDURAND, Louise-Marie; 2014; Research Assistant Professor in Entomology, Plant Pathology and Nematology; Ph.D.; 1990; University of California Riverside.

*DARRAGH, Janine J; 2013; Associate Professor of Curriculum and Instruction; Ph.D.; 2010; Washington State University.

*DATTA, Somantika; 2010; Associate Professor of Mathematics; Ph.D.; 2007; University of Maryland.

*DAVIS, Anthony S; 2007; Adjunct Faculty in Forest, Rangeland and Fire Sciences; Ph.D.; 2006; Purdue University.

DAVIS, Helane E; 2014; Associate Professor of Law; Director, Law Library; J.D.; 1985; University of Iowa.

DE ANGELIS, Joseph T; 2014; Associate Professor in Sociology and Anthropology; Ph.D.; 2005; New York University.

DE HARO MARTI, Mario E; 2007; Extension Associate Professor and Southern District Educator; M.S.; 2007; University of Idaho.

DEL GIZZO, Suzanne; 2014; Clinical Associate Professor of English; Ph.D.; 2003; Tulane University.

*DENNIS, Brian C; 1981; Professor of Wildlife Resources and Statistical Science; Affiliate Professor of Bioinformatics and Computational Biology; Ph.D.; 1982; Penn State University.

DEPHELPS, Colette; 2017; Area Extension Educator in the Northern District with rank of Assistant Professor; M.S.; 1994; Washington State University.

*DERINGER, Nancy; 2008; Associate Professor of Family and Consumer Sciences; Ph.D.; 2005; University of Idaho.

DERRICK, Jamie; 1998; Clinical Associate Professor of Psychology; Ph.D.; Stanford University.

DEVEZER, Berna; 2014; Assistant Professor of Business; Affiliate Faculty in Statistical Science; Ph.D.; 2009; Washington State University.

*DEZZANI, Raymond J; 2004; Professor in Geography; Affiliate Faculty in Statistical Science; Ph.D.; 1996; University of California Riverside.

DI PASQUO, Mercedes; 2010; Adjunct Associate Professor of Geological Sciences; Ph.D.; 1999; University of Buenos Aires.

DIEBEL, Penelope L; 1999; Adjunct Associate Professor of Agricultural Economics; Ph.D.; 1990; Virginia Polytechnic Institute..

DILLION, Lee B; 2001; Instructor of Law; Associate Dean for Boise Programs; J.D.; 1979; University of Chicago.

*DIXON, Raymond; 2011; Associate Professor in Curriculum and Instruction; Ph.D.; 2010; University of Illinois.

DODGE, Jeffrey A; 2012; Clinical Associate Professor of Law;; Associate Dean of Students and Administration; J.D.; 2006; Hofstra University School of Law.

DOEBELI, Michael W; 2005; Adjunct Associate Professor of Biological Sciences; Ph.D.; 1992; University of Basel.

Doherty, Michael; 2018.

DOLECHECK, Suzann; 2013; Extension Assistant Professor and Extension Educator; M.S.; 1987; University of Minnesota.

DONELICK, Margaret Burke; 1998; Adjunct Assistant Professor of Geology and Geological Engineering; Ph.D.; 1991; Dalhousie University.

DONELICK, Raymond A; 1998; Adjunct Assistant Professor of Geology and Geological Engineering; Ph.D.; 1988; Rensselaer Polytechnic.

DONEY, Jylisa; 2017; Librarian with the rank of Assistant Professor; Social Sciences Librarian; M.L.S.; 2014; Indiana University.

*DOUMIT, Matthew E; 2008; Professor of Animal and Veterinary Sciences (Meat Specialist); Associate Dean, Academic Programs, College of Agricultural and Life Sciences; Ph.D.; 1994; Michigan State University.

DOUMIT, Stacey A; 2015; Instructor of Animal and Veterinary Science; M.S.; 1994; Michigan State University.

DOUSAY, Tonia; 2017; Assistant Professor of Learning Sciences; Ph.D.; 2013; University of Georgia.

*DOYLE, J. Casey; 2011; Associate Professor in Art and Design Program; M.F.A.; 2007; Ohio State University.

DRAKE, Thomas A; 1999; Senior Instructor in English; M.A.; 1994; University of Idaho.

*DREIKOSEN, Jesse E;; Assistant Professor of Theatre Arts; M.F.A.; 2005; Purdue University.

DU, Xiaoxue; 2017; Assistant Professor of Agricultural Economics; Ph.D.; 2017; University of California at Berkeley.

DUNLAP, Bradley B; 2017; Affiliate Faculty in Naval Science.

DUNZIK-GOUGAR, Mary Lou; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 2003; Pennsylvania State University.

DYAR, Melinda D; 2000; Adjunct Associate Professor of Geological Sciences; Ph.D.; 1985; Massachusetts Institute of Technology (MIT).

DYE, Lorie; 1994; Extension Professor and Jefferson County Extension Educator (Family Relations); M.S.; 1991; Brigham Young University.

*DYRE, Brian P; 1996; Associate Professor of Psychology; Ph.D.; 1993; University of Illinois.

E

EBERHARTER-MAKI, Elaine; 2006; Adjunct Faculty in Leadership and Counseling; J.D.; 1984; University of Idaho.

EBORN, Benjamin M; 2003; Extension Professor and Extension Educator in the Eastern District; M.S.; 2002; University of Idaho.

EDWARDS, Charles G; 2011; Affiliate Professor of Food Sciences; Ph.D.; 1989; Penn State University.

*EDWARDS, Dean B; 1986; Affiliate Professor of Electrical and Computer Engineering; Ph.D.; 1977; California Institute of Technology.

*EGAN, Cate Anne; 2017; Assistant Professor in Physical Activity Pedagogy; Ph.D.; 2017; University of South Carolina.

*EIGENBRODE, Sanford D; 1995; Distinguished Professor in Entomology, Plant Pathology and Nematology; Affiliate Associate Professor of Environmental Science; Ph.D.; 1990; Cornell University.

*EITEL, Jan U; 2012; Research Assistant Professor of Forest, Rangeland, and Fire Sciences; Affiliate Faculty of Curriculum and Instruction; Ph.D.; 2008; University of Idaho.

EITEL, Karla B; 2009; Research Associate Professor of Natural Resource Conservation; Director of Education, McCall Outdoor Science School; Affiliate Faculty in Curriculum and Instruction; Ph.D.; 2009; University of Idaho.

EKINS, James P; 2013; Extension Assistant Professor and Area Education Coordinator; M.S.; 2002; University of Oregon.

EL-BADAWY, Sherif; 2012; Adjunct Faculty of Civil Engineering; Ph.D.; 2006; Arizona State University.

ELLIOT, William J; 2014; Adjunct Faculty of Forest, Rangeland, and Fire Sciences; Adjunct Faculty in Biological Engineering; Ph.D.; 1988; Iowa State University.

ELLIS, Lance T; 2009; Extension Associate Professor and Eastern District Extension Educator; M.T.D.; 2009; Idaho State University.

*ELLISON, Brian; 2013; Professor of Political Science; Ph.D.; 1993; Colorado State University.

ELLISON, Melinda; 2016; Assistant Professor in Animal and Veterinary Science; Ph.D.; 2016; University of Wyoming.

*ELY, Robert E; 2007; Associate Professor of Mathematics Education; Ph.D.; 2007; University of Wisconsin.

EMTMAN, Richard Alan; 2016; Clinical Assistant Professor in Medical Education Program; M.D.; 1981; University of Washington.

*ENGLAND, James J; 1995; Professor of Veterinary Medicine; Director, Caine Veterinary Teaching Center; D.V.M.; 1981; Colorado State University.

ENGLUND, Karl; 2015; Adjunct Faculty of Forest, Rangeland, and Fire Sciences; Ph.D.; 2001; Washington State University.

ERICKSON, Luke V; 2006; Associate Professor; Extension Specialist in Finance; M.S.; 2006; Utah State University.

ESTRADA, David; 2018; Adjunct Faculty in Mechanical Engineering; Ph.D.; 2013; University of Illinois.

ETHEREDGE, Stacy; 2016; Law Librarian with rank of Associate Professor; M.L.I.S.; 2005; University of Washington.

EUM, Koun; 2014; Licensed Psychologist with the rank of Assistant Professor, Counseling and Testing Center; Ph.D.; 2013; University of Florida.

EVANS, Katherine L; 2016; Associate Professor in Law; J.D.; 2009; New York University.

*EVELETH, Daniel M; 1997; Professor of Human Resource Management; Ph.D.; 1996; Washington State University.

*EVENSON, Sandra; 1994; Professor of Family and Consumer Sciences; Ph.D.; 1994; University of Minnesota.

*EWERS, Timothy G; 2003; Associate Extension Professor; 4-H/Youth Development Specialist; Affiliate Associate Professor of Environmental Science; Ph.D.; 2001; University of Idaho.

EWING, Brianna; 2018; Affiliate Professor of Food Science; M.S.; 2016; Virginia Polytechnic Institute and State University.

F

*FAIRLEY, Jerry P; 2000; Professor of Geological Studies; Affiliate Assistant Professor of Environmental Science; Ph.D.; 2000; University of California Berkeley.

*FALK, Jeremy; 2011; Associate Professor in Agricultural and Extension Education; Ph.D.; 2011; Ohio State University.

*FALLAHL, Esmaeil; 1990; Professor in Plant Sciences; Ph.D.; 1983; Oregon State University.

Fan, Chao; 2017; Professor of Geographic Information Sciences; Ph.D.; 2016; Arizona State University.

FAUX, Cynthia M; 2007; Adjunct Professor of Geological Sciences; Ph.D.; 2000; Yale University.

FEARN, Linda H; 2002; Clinical Assistant Professor, WWAMI Medical Education Program; M.D.; 1983; University of Washington.

*FIEDLER, Fritz R; 2000; Associate Professor of Civil Engineering (P.E.); Ph.D.; 1997; Colorado State University.

FILLER, Jeff R; 2000; Adjunct Assistant Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1989; Washington State University.

FINDLAY, J. Reed; 1994; Extension Professor and Bannock County Extension Educator (Crops/Urban Horticulture); M.S.; 1993; Brigham Young University.

FINKELNBURG, Douglas C; 2013; Assistant Extension Professor and Extension Educator, Northern District; M.S.; 2006; University of Idaho.

FLERCHINGER, Gerald N; 1990; Adjunct Assistant Professor of Biological Engineering; Ph.D.; 1987; Washington State University.

*FLETCHER, T. Rick; 1989; Associate Professor of Chemistry; Ph.D.; 1986; University of California Davis.

FLINT, Stephan D; 2009; Adjunct Instructor of Forest, Rangeland, and Fire Sciences; M.S.; Utah State University; 1977.

FLORA, Cornelia; 2015; Adjunct Faculty of Agricultural Economics and Rural Sociology; Ph.D.; 1970; Cornell University.

*FLORES, Stephan P; 1987; Associate Professor of English; 1988; University of Michigan.

*FODOR, Julie A; 1993; Associate Professor of Education; Director of the Idaho Center on Disabilities and Human Development; Ph.D.; 1993; University of Utah.

*FOLWELL, Annette L; 2000; Associate Professor of Communication; Ph.D.; 1997; University of Oklahoma.

FOOTE, Roy F; 1978; Adjunct Professor of Electrical Engineering; M.S.E.E.; 1976; University of Idaho.

FORE, Jane A.; Clinical Assistant Professor in Medical Education Program; M.D.; 1979; University of Kansas.

*FORNEY, Larry J; 2000; Distinguished Professor of Biology; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1982; Michigan State University.

FORNSHELL, Gary C.G.; 1992; Extension Professor and Multi-county Extension Educator (Aquaculture); M.S.; 1986; Auburn University.

*FORTUNATO, Elizabeth; 2000; Professor of Biological Sciences; Ph.D.; 1994; University of California San Diego.

*FOSTER, James A; 1990; Distinguished Professor of Biological Sciences; Affiliate Professor of Computer Science, Philosophy, and Bioinformatics and Computational Biology; Ph.D.; 1990; Illinois Institute of Technology.

FOSTER, Kimberly; 2017; Librarian with the rank of Instructor; First Year Experience Program; M.L.I.S.; 2016; University of Illinois.

FOX, Robert V; 2006; Adjunct Assistant Professor of Chemistry; Ph.D.; 2003; University of Idaho.

FRADKIN, Steven C; 2005; Adjunct Associate Professor of Fish and Wildlife Sciences; Ph.D.; 1997; Dartmouth College.

FREEBURG, Tyranne J; 2013; Extension Assistant Professor and Extension Educator (Southern District); M.S.; 2006; University of Idaho.

FREEMAN, Lynda M; 2016; Clinical Assistant Professor in Medical Education Program; D.H.Sc.; 2014; Nova Southeastern University.

*FREEMAN Jr., Sydney; 2015; Associate Professor of Leadership and Counseling; Ph.D.; 2011; Auburn University.

FREMIER, Alexander K; 2013; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2007; University of California Davis.

*FRENZEL, James F; 1990; Associate Professor of Electrical Engineering; Ph.D.; 1989; Duke University.

FRENZEL, Karen Z; 1990; Assistant Professor of Electrical and Computer Engineering; Ph.D.; 1986; Duke University.

FRITZ, Sharon K; 1996; Licensed Psychologist with rank of Professor in the Counseling and Testing Center; Ph.D.; 1996; University of Idaho..

FU, Daolin; 2016; Research Assistant Professor in Plant Sciences; Ph.D.; 2003; Kansas State University.

*FU, Qiuyan Audrey; 2015; Assistant Professor in Statistical Sciences; Affiliate Faculty of Biological Sciences and Bioinformatics and Computational Biology; Ph.D.; 2008; University of Washington.

*FUERST, Peter G; 2010; Associate Professor in Biological Sciences and WWAMI Medical Education; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2003; Iowa State University.

FUJITA, Yoshiko; 2004; Adjunct Assistant Professor of Environmental Science; Ph.D.; 1997; Stanford University.

FULTON, Ruby; 2016; Assistant Professor in Lionel Hampton School of Music; D.M.A.; 2009; Johns Hopkins University.

FURNISS, Malcom M; 1982; Adjunct Professor of Entomology and of Forest, Rangeland, and Fire Sciences; M.S.; 1966; University of Idaho.

FUTRELL, Jean H; 2000; Adjunct Professor of Chemistry; Ph.D.; 1958; University of California Berkeley.

G

GAINES, Anne M; 2014; Librarian with the rank of Assistant Professor; M.S.; 2011; Drexel University.

GAMETT, Brad J; 2017; Assistant Professor; Extension Educator; M.A.; 2010; Idaho State University.

GAN, Jian; 2005; Adjunct Assistant Professor of Materials Science and Engineering; Ph.D.; 1999; University of Michigan.

GANJYAL, Girish M; 2012; Affiliate Faculty in Food Science; Ph.D.; 2004; University of Nebraska.

*GAO, Fuchang; 1999; Professor of Mathematics; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1999; University of Connecticut.

GARDNER, John F; 2016; Adjunct Faculty in Mechanical Engineering; Ph.D.; 1987; Ohio State University.

GARNETT, Brad J; 2017; Extension Assistant Professor in the Eastern District; M.S.; 2010; Idaho State University.

*GARRISON, Leonard L; 2006; Professor in the Lionel Hampton School of Music; D.M.; 1993; Northwestern University.

GARRITY, Steven R; 2014; Adjunct Faculty of Forest, Rangeland, and Fire Sciences; Ph.D.; 2010; University of Idaho.

GASKIN, John F; 2008; Adjunct Assistant Professor of Plant, Soil and Entomological Sciences; Ph.D.; 2002; Washington University.

GASSMANN, Andre; 2012; Ph.D.; 1990; University of Neuchatel.

*GATHERCOAL, Paul H. Jr; 2008; Professor of Curriculum and Instruction; Ph.D.; 1990; University of Oregon.

GAUTHIER, Jean-Marc F; 2016; Associate Professor in Virtual Technology and Design; M.P.S.; 1998; Tisch School of the Arts.

GAYLORD, T. Gibson; 2007; Adjunct Assistant Professor of Animal and Veterinary Science; Ph.D.; 2000; Texas A&M University.

*GEMBERLING, Alan J; 1986; Professor of Music (trombone, wind ensemble, jazz band); M.Mus.; 1988; University of Idaho.

*GESSLER, Paul E; 1997; Professor of Forest, Rangeland, and Fire Sciences; Affiliate Associate Professor of Environmental Science; Ph.D.; 1996; Australian National University.

GHIMIRE, Nav; 2017; Associate Director, UI Extension with rank of Professor; Ph.D.; 2010; Iowa State University.

GILBERT, Laurel; 2014; Instructor in American Language and Cultures Program; M.A.; 2005; University of Idaho.

*GILBERT, Sophie L; 2016; Assistant Professor in Wildlife Resources; Ph.D.; 2015; University of California Los Angeles.

GILLERMAN, Virginia S; 1989; Research Professor, Idaho Geological Survey; Ph.D.; 1982; University of California Berkeley .

GILLESPIE, Donna R; 2001; Extension Professor and Southern District Extension Educator; M.S.; 1977; University of Idaho.

GLASS, Robert J. Jr.; 2014; Adjunct Faculty of Geological Sciences; Ph.D.; 1988; Cornell University.

*GLAZE, Benton; 2000; Associate Extension Professor and Extension Beef Cattle Specialist; Ph.D.; 1998; Kansas State University.

*GOBLE, Dale D; 1982; Affiliate Professor of Environmental Science; J.D.; 1978; University of Oregon.

*GOC KARP, Grace; 1993; Professor of Physical Education; Ph.D.; 1984; University of Idaho.

GODCHAUX, Martha M; 2000; Adjunct Professor of Geological Sciences; Ph.D.; 1969; University of Oregon.

GODFREY, Bruce R; 2013; Librarian with the rank of Assistant Professor; M.L.I.S.; 2013; University of North Texas.

GODFREY, Laura G; 2013; Instructor in English; B.A.; 1998; Emory University.

GOEBEL, C. Patrick; 2017; Professor in Forest, Rangeland and Fire Sciences; Department Head, Department of Forest, Rangeland and Fire Sciences; Ph.D.; 2001; Michigan Technological University.

GOFF, Kenneth M; 2006; Adjunct Associate Professor of Materials Science and Engineering; Ph.D.; 1991; Georgia Institute of Technology.

GOLDEN, Lauren; 2009; Extension Associate Professor and Southern District Extension Educator; M.A.; 2008; Appalachian State University.

GOMBERT, Dirk; 2000; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1994; University of Idaho.

GOODWIN, Anthony R.H.; 1993; Adjunct Assistant Professor of Chemical Engineering and Mechanical Engineering; Ph.D.; 1987; University College.

GOTTWALD, David J; 2016; Assistant Professor in Art and Design; M.F.A.; 2009; Academy of Art University.

GOUGAR, Hans; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 2004; Pennsylvania State University.

*GRADEN, Dale T; 1992; Professor of History; Ph.D.; 1991; University of Connecticut.

GRADER, George W; 2009; Adjunct Assistant Professor of Geological Sciences; Ph.D.; 2003; University of Idaho.

GREENFIELD, Robin G; 1997; Affiliate Assistant Professor of Special Education and Project Coordinator; Ph.D.; 1991; University of Oregon.

GREENWAY, Suriñe M; 2014; Extension Assistant Professor and Extension Educator; M.S.; 2013; University of Idaho.

*GREGSON, James A; 2001; Professor of Curriculum and Instruction; Ed.D.; 1990; Virginia Polytechnic Institute.

*GRIEB, Terrance; 1996; Professor in Business; Ph.D.; 1996; University of Cincinnati.

GRIESHABER, Nicole; 2014; Research Assistant Professor of Biological Sciences; Ph.D.; 2000; University of Wyoming.

GRIESHABER, Scott; 2014; Associate Professor of Biological Sciences; Ph.D.; 2000; University of Wyoming.

GRINDAL, Matthew; 2017; Assistant Professor of Sociology; Ph.D.; 2014; University of California Riverside.

GRINDLEY, EMMA; 2009; Instructor in Movement Sciences; Ed.D.; 2005; West Virginia University.

GRUSSING, LuVerne D; 1986; Adjunct Assistant Professor of Natural Resource Conservation; M.Ed.; 1975; University of Minnesota.

GUGGENHEIM, Richard Curtis; 2016; Assistant Extension Professor and Southern District Extension Educator; M.Ed.; 2011; Colorado State University.

*GUIZANI, Mohsen M; 2015; Professor of Electrical and Computer Engineering; Ph.D.; 1990; Syracuse University.

GUNDER, Jessica; 2017; Clinical Assistant Professor of Law; J.D.; 2007; University of Missouri.

GUNN, Danielle; 2000; Associate Extension Professor and Fort Hall Extension Educator (4-H/Beef/Range); M.S.; 2007; University of Idaho.

H

*HAFEZ, Saad L; 1984; Research Professor, Extension Specialist in Entomology, Plant Pathology and Nematology; Ph.D.; 1980; University of California Davis.

*HAGGERTY, Robert J; 1985; Affiliate Assistant Professor of Agricultural and Extension Education, and of Food Science and Toxicology; Director for International Programs, College of Agricultural and Life Sciences; Ph.D.; 1997; University of Idaho.

*HAGLUND, Bruce T; 1982; Professor of Architecture; Affiliate Professor of Environmental Science; M.Arch.; 1982; University of Oregon.

HALL, Cassidy S; 2013; Clinical Assistant Professor in Curriculum and Instruction; M.Ed.; 2006; Mansfield University.

*HALL, John B; 2008; Professor of Animal and Veterinary Sciences (Beef Specialist); Superintendent, Nancy M Cummings Research Center; Ph.D.; 1991; University of Kentucky.

HALL, Stephen P; 2013; Associate Director, WWAMI Medical Education Program with rank of Clinical Assistant Professor; M.D.; 1989; George Washington University.

*HALL, Trevor A; 2013; Adjunct Faculty in Curriculum and Instruction; Psy.D.; 2005; George Fox University.

*HALL, Troy E; 2001; Professor of Natural Resource Conservation; Ph.D.; 1996; Oregon State University.

HALTINNER, Kristin; 2013; Assistant Professor of Sociology and Anthropology; Affiliate Faculty in the American Indian Studies Program; Ph.D.; 2013; University of Minnesota.

HALVERSON, Rachel J; 2016; Professor in Modern Languages and Cultures; Department Chair, Modern Languages and Cultures; Ph.D.; 1989; University of Texas at Austin.

HAMBY, Cynthia; 2013; Adjunct Faculty in the School of Food Science; M.Ed.; 1983; Georgia State University.

*HAMILTON, Melinda; 2013; Associate Research Professor of Education; STEM Education Director; Ph.D.; 1990; Utah State University.

HAMILTON, Melissa B; 2014; Assistant Extension Professor; M.S.; 2011; University of Idaho.

HAMPTON, Richard; 1995; Adjunct Professor of Plant Pathology; Ph.D.; 1957; Iowa State University.

*HAMPTON, Stephanie E; 2004; Adjunct Assistant Professor of Fish and Wildlife Sciences; Ph.D.; 2001; Dartmouth College.

*HAN, Keonghee T; 2007; Assistant Professor of Literacy; Ph.D.; 2006; University of Nevada Reno.

*HANEY, Michael A; 2015; Assistant Professor of Computer Science; Ph.D.; 2015; University of Tulsa.

HANN, Wendel J; 1988; Adjunct Associate Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1982; University of Idaho.

HANNINEN, Gail E; 2006; Adjunct Instructor of Leadership and Counseling; Ed.D.; 1989; University of Idaho.

HANSEN, Lyle J; 2005; Extension Professor; Director, Central District; M.S.; 2004; Kansas State University.

HARBERTSON, James F; 2011; Affiliate Associate Professor in the School of Food Science; Ph.D.; 2003; University of California Davis.

*HARDY, Ronald W; 1996; Professor of Animal Science; Director, Aquaculture Research Institute; Ph.D.; 1978; University of Washington.

HARLEY, Grant; 2017; Assistant Professor of Geography; Ph.D.; 2012; University of Tennessee.

HARMON, Lisa L; 2013; Senior Instructor of Biological Sciences; M.S.; 2008; University of Idaho.

*HARMON, Luke J; 2007; Professor in Biological Sciences; Affiliate Faculty of Statistical Science; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2005; Washington University.

*HARNER, Archibald; 2017; Affiliate Faculty in Aerospace Studies; J.D.; 2010; University of Idaho.

HARPP, Karen S; 2013; Adjunct Faculty in Geological Sciences; Ph.D.; 1995; Cornell University.

HARRINGTON, Kyle I; 2016; Research Assistant Professor in Virtual Technology and Design; Affiliate Faculty in Bioinformatics and Computational Biology; Affiliate Faculty in Computer Science; Affiliate Faculty in Biological Engineering; Ph.D.; 2014; Brandeis University.

HARRISON, Steven N; 1990; Extension Professor and Caribou County Extension Educator (Farm Management); M.S.; 1989; Brigham Young University.

*HARRISON, W. Scott; 1999; Assistant Professor of Computer Science; Ph.D.; 1999; Tulane University.

HART, Kenneth N; 1989; Extension Professor and Lewis County Extension Educator (Farm/Crop Management); M.S.; 1992; University of Idaho.

HART, Patricia S; 1981; Associate Professor of Journalism and Mass Media; Ph.D.; 1997; Washington State University.

HATHEWAY Dial, Karin; 2003; Instructor in Accounting; M.Acc; 1999; University of Idaho.

HATTEN, Timothy D; 2013; Adjunct Faculty in Entomology, Plant Pathology and Nematology; Ph.D.; 2006; University of Idaho.

HAYNES, James B; 1989; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1989; University of Idaho.

*HE, Bingjun (Brian); 2001; Research Professor of Biological Engineering; Affiliate Assistant Professor of Food Science and Toxicology; Ph.D.; 2000; University of Illinois.

*HECKENDORN, Robert B; 1999; Associate Professor of Computer Science; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1999; Colorado State University.

HEDDEN-NICELY, Dylan; 2017; Associate Professor of Law; J.S.; 2011; University of Idaho.

*HEDMAN, Matthew; 2013; Assistant Professor of Physics; Ph.D.; 2002; Princeton University.

HEFEIDA, Mohamed; 2017; Clinical Assistant Professor in Electrical and Computer Engineering; Ph.D.; 2013; University of Chicago, Illinois.

HEGLAND, Sara J; 2006; Adjunct Associate Professor of Biological Sciences; Ph.D.; 1995; Kent State University.

HEIMGARTNER, Candi K; 2013; Senior Instructor of Biological Sciences; M.S.; 1999; University of Idaho.

HEIMGARTNER, Marvin; 2008; Senior Instructor in Soil and Water Systems; M.S.; 2011; University of Idaho.

*HEINSE, Robert; 2008; Research Associate Professor in Soil and Water Systems; Interim Director, Water Resources; M.Sc.; 2003; University of Leipzig.

*HEMATI, Saied; 2013; Assistant Professor of Electrical and Computer Engineering; Ph.D.; 2005; Carleton University.

HENAGER, Charles H. Jr.; 1995; Adjunct Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1983; University of Washington.

HENDRICKS, Cher; 2017; Associate Professor in Leadership and Counseling; Vice Provost for Academic Initiatives; Ph.D.; 1998; University of South Carolina.

HENDRIX, Beth R; 2013; Reference and Instruction Resident Librarian with rank of Instructor; M.L.I.S.; 2012; University of Alabama.

HENICK-KLING, Thomas; 2011; Affiliate Professor in Food Science; Ph.D.; 1986; University of Adelaide.

HENRICH, Kristin J; 2008; Reference/Instruction Librarian with rank of Associate Professor; Program Head, User and Research Services at the University of Idaho Library; M.L.S.; 2008; Indiana University.

*HESS, Herbert L; 1993; Professor of Electrical Engineering; Ph.D.; 1993; University of Wisconsin.

*HESS, Susan M; 1994; Associate Professor of Music (bassoon); Assistant Director, Lionel Hampton School of Music; D.M.A.; 1996; University of Colorado.

HEWARD, Heather L; 2015; Senior Instructor in Forest, Rangeland and Fire Sciences; M.S.; University of Idaho.

*HICKE, Jeffrey A; 2006; Associate Professor of Geography; Ph.D.; 2000; University of Colorado.

HICKMAN, Daniel; 2014; Assistant Professor of Business; Ph.D.; 2010; University of Colorado.

*HIGGINS, Lorie L; 2002; Associate Professor of Agricultural Economics and Rural Sociology; Affiliate Assistant Professor of Environmental Science; Ph.D.; 2001; Washington State University.

HILL, Susan; 2017; Adjunct Faculty in Psychology; Ph.D.; 1998; Virginia Polytechnic Institute and State University.

HINES, Steven L; 2000; Extension Professor and Southern District Extension Educator; M.S.; 1996; University of Idaho.

HINZ, Harriet L; 2003; Adjunct Assistant Professor of Plant, Soil and Entomological Sciences; Ph.D.; 1999; University of Fribourg.

HIRNYCK, Ronda E; 2003; Extension Professor and Southern District Extension Educator; M.S.; 1983; University of Nebraska.

*HIROMOTO, Robert E; 2002; Professor of Computer Science; Ph.D.; 1978; California State University Long Beach.

HIXSON, Lee J; 2016; Clinical Assistant Professor in Medical Education Program; M.D.; 1980; University of Utah.

HODGES, George F.; Clinical Assistant Professor in Medical Education Program; M.D.; 1984; George Washington University.

*HODGIN, Jere Lee; 2005; Associate Professor of Theatre; M.F.A.; 1973; University of Georgia.

HODWITZ, Omi; 2017; Assistant Professor of Criminology; Ph.D.; 2015; University of Maryland.

HOFFMAN, Katie J; 2008; Extension Associate Professor and Eastern District Educator; M.S.; 2008; University of Idaho.

HOGGE, Jonathan; 2012; Area Extension Educator in the Eastern District with rank of Assistant Professor; M.S.; 2008; University of Idaho.

*HOHENLOHE, Paul; 2011; Associate Professor in Biological Sciences; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2000; University of Washington.

HOLLANDS, Justin G; 1994; Adjunct Faculty Psychology and Communication Studies; Ph.D.; 1993; University of Toronto.

*HOLLINGSHEAD, Alexsandra; 2013; Assistant Professor of Special Education; Ed.D.; 2013; University of Cincinnati.

HOLMES, Robert G; 1996; Adjunct Faculty in Materials Science and Engineering; Adjunct Faculty in Metallurgical Engineering; Ph.D.; 1975; University of Idaho.

*HOLYOKE, Laura B; 2004; Associate Professor of Leadership and Counseling; Ph.D.; 2004; Gonzaga University.

HONG, Yang-Ki; 2006; Adjunct Professor of Materials Science and Engineering; Ph.D.; 1981; University of Utah.

*HONG, Zonglie; 2005; Associate Professor in Plant Sciences; Ph.D.; 1990; University of Novi Sad.

HOOVER, Robert; 2016; Adjunct Faculty in Chemical and Materials Engineering; Ph.D.; 2014; University of Idaho.

HOPPER, Brian C; 2003; Licensed Psychologist with rank of Associate Professor, Counseling and Testing Center; Psy.D.; 2002; George Fox University.

*HORMEL, Leontina M; 2006; Associate Professor of Sociology; Ph.D.; 2004; University of Oregon.

HORNING, Janet M; 2006; Adjunct Instructor in Leadership and Counseling; Ph.D.; 2004; University of Idaho.

*HOSTE, Ann; 2010; Professor of Theatre; Department Chair, Department of Theatre Arts; M.F.A.; 1984; University of Texas.

HOWELL, Michael E; 2007; Extension Professor; Director, Northern District; M.S.; 1973; University of Idaho.

HOWERTON, Kyle; 2018; Clinical Assistant Professor of Journalism and Mass Media; Ph.D.; 2018; University of Idaho.

*HRDLICKA, Patrick J; 2006; Professor in Chemistry; Affiliate Associate Professor of Biological Sciences; Ph.D.; 2006; University of Southern Denmark.

HU, Gongshe; 2006; Adjunct Assistant Professor in Plant Sciences; Ph.D.; 1995; Kansas State University.

*HU, Xiao; 2008; Associate Professor of Architecture; M.S.; 2003; University of Nebraska.

*HUBBS, Graham; 2010; Associate Professor of Philosophy; Department Chair, Department of Politics and Philosophy; Ph.D.; 2008; University of Pittsburgh.

HUBER, Kerry C; 2013; Adjunct Faculty of Food Science; Ph.D.; 1998; Purdue University.

HUDAK, Andrew; 2018; Adjunct Professor of Forest, Rangeland and Fire Sciences; Ph.D.; 2001; University of Idaho.

*HUDIBURG, Tara W; 2014; Assistant Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 2012; Oregon State University.

*HULET, April; 2015; Assistant Professor of Forest, Rangeland and Fire Sciences; Ph.D.; 2012; Brigham Young University.

*HUMES, Karen S; 1999; Professor of Geography; Affiliate Professor of Environmental Science; Ph.D.; 1992; University of Arizona.

HUNTER, Benjamin A; 2006; Reference/Instruction Librarian with rank of Associate Professor; Associate Dean, University Libraries; M.L.S.; 2005; University of North Carolina.

*HUNTER, Samuel Stephen; 2016; Clinical Assistant Professor in Statistical Science; Affiliate Faculty in Bioinformatics and Computational Biology; Director, IBEST Genomics Resources Core; Ph.D.; 2014; University of Idaho.

HUSSEIN, Ibtesam F; 2014; Instructor in American Language and Culture Program; M.S.; 2010; University of Pennsylvania.

HUTCHINGS, Rebecca Jeanne; 2016; Extension Assistant Professor, Southern District Extension Educator; M.Ed.; 2004; American Intercontinental University.

*HUTCHINSON, Pamela J; 1999; Associate Professor in Plant Sciences; Ph.D.; 1991; University of Nebraska.

I

*IBRAHIM, Ahmed; 2015; Assistant Professor of Civil Engineering (P.E.); Ph.D.; 2010; University of Missouri.

IMBERGER, Jorg; 2003; Adjunct Professor in Civil and Environmental Engineering; Ph.D.; 1970; University of California Berkeley.

IMEL, George; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 1977; Pennsylvania State University.

Instructor of Finance, Phil; 2017; Adjunct Faculty in Geological Sciences; Ph.D.; 2000; Stanford University.

IRVINE, Kathryn M; 2009; Adjunct Assistant Professor of Fish and Wildlife Sciences; Ph.D.; 2007; Oregon State University.

*ISENBARGER, Stacy; 2011; Associate Professor in Art and Design Program; M.F.A.; 2009; University of Georgia.

J

*JACKSON, Russell E; 2012; Associate Professor of Psychology; Ph.D.; 2007; University of Texas.

*JAGER, Rebecca; 2010; Assistant Professor of History; Ph.D.; 2002; University of New Mexico.

*JAIN, Sachin; 2007; Assistant Professor of Leadership and Counseling; Ph.D.; 2006; University of Wyoming.

JAIN, Theresa; 2018; Adjunct Professor of Forest, Rangeland and Fire Sciences; Ph.D.; 2001; University of Idaho.

*JAMES, Erin D; 2012; Associate Professor of English; Ph.D.; 2008; University of Warwick (England).

JAMES, Benjamin; 2012; Clinical Assistant Professor of Film Studies; M.A.; 2005; University of Bristol.

*JAMIL, Hasan M; 2012; Associate Professor of Computer Science; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1996; Concordia University.

JEFFERSON, Glenn E; 2016; Clinical Assistant Professor in Medical Education Program; Associate Director for Clinical Education; M.D.; 1979; Virginia Commonwealth University.

*JEFFERY, Clinton L.; Associate Professor of Computer Science; Ph.D.; 1993; University of Arizona.

JEFFREY, Justin; 2008; Assistant Professor of Philosophy (Ethics); Ph.D.; 2007; University of North Carolina.

JELINEK-LEWIS, Margaret; 2002; Adjunct Faculty in Psychology and Communication Studies; Ph.D.; 1998; Ohio State University.

JENSEN, Jennifer L; 2009; Extension Associate Professor and Northern District Extension Educator; M.S.; 2004; University of Idaho.

JENSEN, K. Scott; 2000; Associate Extension Professor; Owyhee County Extension Educator (Livestock and Range); M.S.; 2000; University of Idaho.

JENSEN, Kirstin D; 2009; Extension Associate Professor; Northern District Extension Educator; M.A.; 1999; Pacific Lutheran University.

*JOHNSON, Aaron J; 2007; Associate Professor of Agricultural Economics; Ph.D.; 2001; Purdue University.

*JOHNSON, Brian K; 1992; Distinguished Professor in Electrical and Computer Engineering; Ph.D.; 1992; University of Wisconsin.

JOHNSON, Hana; 2015; Assistant Professor of Business; Ph.D.; 2015; University of Washington.

*JOHNSON, Janis A; 2004; Assistant Professor of English; Ph.D.; 1999; Tulane University.

*JOHNSON, Jill L; 2002; Professor of Biological Sciences; Ph.D.; 1994; Mayo Graduate School.

JOHNSON, Shelly L; 1999; Extension Professor; Northern District Extension Educator; M.S.; 1998; University of Montana.

*JOHNSON, Timothy R; 2000; Professor of Statistics; Ph.D.; 2001; University of Illinois.

*JOHNSON, Tracey N; 2016; Assistant Professor in Fish And Wildlife Sciences; Ph.D.; 2011; Oregon State University.

JOHNSON, Robin; 2018; Director, School of Journalism and Mass Media; Ph.D.; 2010; University of Iowa.

JOHNSON, Carrie R; 2017; Assistant Professor in 4-H Youth Development; Extension Educator; M.S.; 2012; University of Idaho.

JOHNSON, Casey; 2017; Assistant Professor of Philosophy; Ph.D.; 2015; 2015.

*JOHNSON-LEUNG, Jennifer M; 2007; Associate Professor of Mathematics; Ph.D.; 2005; California Institute of Technology.

*JOHNSON-MAYNARD, Jodi; 2000; Research Professor in Soil and Water Systems; Affiliate Associate Professor of Environmental Science;

Department Head, Soil and Water Systems; Ph.D.; 1999; University of California Riverside.

JOHNSTON, Jason M; 2015; Assistant Professor in the Lionel Hampton School of Music; D.M.A.; 2015; University of Colorado at Boulder.

JOHNSTON, Kevin; 2004; Senior Instructor of Recreation; M.S.; 2003; University of Idaho.

JONES, Adam; 2017; Professor of Evolutionary Biology; Ph.D.; 1998; University of Georgia.

JORCYK, Cheryl L; 2006; Adjunct Associate Professor of Biological Sciences; Ph.D.; 1991; Johns Hopkins University.

*JOYNER, Helen S; 2013; Assistant Professor of Food Science; Ph.D.; 2012; North Carolina State University.

JUDGE, Mary Ann; 1988; Senior Instructor in English; Director of the Writing Center; M.A.; 1990; University of Idaho.

*JUN, Hyung-pil; 2015; Assistant Professor in Movement Sciences; Ph.D.; 2014; University of Miami.

*JUNG, S.J.; 1990; Professor of Geological Engineering (P.E.); Affiliate Professor in Geological Sciences; Ph.D.; 1989; West Virginia University.

JUSTWAN, Florian; 2015; Assistant Professor of Political Science; Ph.D.; 2015; University of Georgia.

K

KANE, Joshua; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 2013; Boise State University.

KAPPLER-CROOKSTON, Irina A; 1985; Senior Instructor in Modern Languages and Cultures (Spanish); Department Chair, Department of Modern Languages & Cultures; M.A.; 1988; Washington State University.

*KARASEV, Alexander V; 2006; Research Professor in Entomology, Plant Pathology and Nematology; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1984; Moscow State University.

KARL, Jason; 2017; Associate Professor in Forest, Rangeland and Fire Sciences; Ruth M. Heady Endowed Chair of Rangeland Ecology; Ph.D.; 2009; Michigan State University.

KARUKAKARAN, Monica Smith; 2016; Adjunct Faculty in Curriculum and Instruction; Ph.D.; 2015; Pennsylvania State University.

*KASSEM, Emad A; 2015; Assistant Professor of Civil Engineering (P.E.); Ph.D.; 2008; Texas A&M University.

*KATTENHORN, Simon A; 1998; Adjunct Faculty in Geological Sciences; Ph.D.; 1998; Stanford University.

*KAVANAGH, Kathleen L; 1999; Professor of Forest, Rangeland, and Fire Sciences; Affiliate Associate Professor of Environmental Science; Ph.D.; 1993; Oregon State University.

KAYLER, Zachary; 2017; Assistant Professor in Watershed Nutrient Management; Ph.D.; 2009; Oregon State University.

KAYODE-POPOOLA, Adeyinka; 2014; Instructor in American Language and Cultures Program; M.A.; 2011; University of Idaho.

*KEEFE, Robert F; 2012; Assistant Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 2011; University of Idaho.

*KEIM, Delphine D; 1997; Professor of Art and Design; M.F.A.; 1995; Kent State University.

KEISER, Dennis D; 2010; Research Professor in Engineering Management; Ph.D.; 1975; University of Idaho.

*KELLIHER, Kevin R; 2006; Assistant Professor of Neurobiology, Biological Sciences and WWAMI; Ph.D.; 2001; Boston University.

*KELLY, Jason; 2018; Assistant Professor of Soil and Water Systems ; Ph.D.; 2016; Oregon State University.

*KELLY-RILEY, Diane O; 2013; Associate Professor of English; Writing Program Administrator; Associate Dean for Research, College of Letters, Arts and Social Sciences; Ph.D.; 2006; Washington State University.

*KENNEDY, Brian P; 2005; Associate Professor of Fishery Biology and Ecology; Affiliate Faculty in Biological Sciences; Affiliate Faculty in Geological Sciences; Ph.D.; 2000; Dartmouth College.

KENNEDY, J. Rory; 2007; Adjunct Assistant Professor of Chemistry; Ph.D.; 1987; Northwestern University.

KENT, Amanda K; 2009; Assistant Extension Instructor and Blaine County Extension Educator (4-H Youth Development); B.S.; 2007; University of Idaho.

KENYON, Jeremy; 2010; Reference/Instruction Librarian with rank of Associate Professor; M.L.S.; 2009; Indiana University.

KERBY, Leslie; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 2015; University of Idaho.

*KERN, Anne L; 2007; Associate Professor of Curriculum and Instruction; M.S.; 1995; Portland State University.

KERR, Ashley E; 2014; Assistant Professor of Modern Languages and Cultures; 2013; Ph.D.; University of Virginia.

KERSTEN, Andrew E; 2014; Professor of History; Dean, College of Letters, Arts, and Social Sciences; Ph.D.; 1997; University of Cincinnati.

KERSTEN, Michael J; 2017; Clinical Assistant Professor of Psychology ; Ph.D.; 2017; Texas Christian University.

KETCHUM, Robert; 2017; Instructor in Curriculum and Instruction; Ph.D.; 1985; Washington State University.

KHRISTOFOROVA, Nadezhda K; 2000; Adjunct Professor of Environmental Sciences; D.Sc.; 1985; Institute of Evolution Morphology & Ecology of Animals.

KIM, Jang Ho; 2015; Research Assistant Professor and Extension Specialist in Family and Consumer Sciences; Ph.D.; 1999; Mississippi State University.

*KIMMONS, Royce; 2013; Assistant Professor of Curriculum and Instruction; Director, Doceo Center for Technology Integration; Ph.D.; 2012; University of Texas.

*KIMSEY JR., Mark James; 2015; Research Assistant Professor of Forest Resources; Ph.D.; 2006; University of Idaho.

KINDER, Cynthia A; 1999; Extension Professor and Southern District Extension Educator; M.S.; 1999; University of Idaho.

KING, Robert; 2017; Adjunct Faculty in Soil and Water Systems; Ph.D.; 1990; University of Saskatchewan.

KINZER, Kasia D; 2016; Research Assistant Professor and Extension Specialist in Entomology, Plant Pathology and Nematology; Ph.D.; 2015; North Dakota State University.

KIRCHMEIER, Barbara Ann; 2016; Instructor in English; M.A.; 2005; University of Idaho.

*KITCHEL, K. Allen; 1998; Associate Professor of Curriculum and Instruction; Associate Dean, College of Education, Health and Human Sciences; Ph.D.; 2006; University of Idaho.

*KITTELL, Ellen E; 1993; Professor of History; Ph.D.; 1983; University of Illinois.

KITZROW, Martha A; 1989; Licensed Psychologist with rank of Professor, Counseling and Testing Center; Affiliate Faculty in Psychology and Communication Studies; Ph.D.; 1990; Oregon State University.

KLAEHN, John Ray; 2015; Adjunct Faculty in Chemistry; Ph.D.; 1999; Texas Christian University.

*KLISKEY, Andrew D; 2013; Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1992; University of Otago.

KNOWLTON, William B; 2004; Adjunct Assistant Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1988; University of California Berkeley.

*KOBZIAR, Leda; 2015; Clinical Associate Professor in Natural Resources and Society; Ph.D.; 2006; University of California at Berkeley.

KOLOK, Alan; 2017; Professor in Fish and Wildlife Sciences; Director, Idaho Water Resources Research Institute; Ph.D.; 1991; University of Colorado.

KONETCHY, Denise; 2017; Assistant Professor in Animal and Veterinary Sciences; M.P.H.; 2017; University of Iowa.

KRANTZ, Robert W; 2011; Adjunct Faculty of Geological Sciences; Ph.D.; 1986; University of Arizona.

*KRAUT, Marla A; 1991; Associate Professor of Accounting; Department Chair, Department of Accounting; Ph.D.; 1991; University of Arizona.

*KRINGS, Axel W; 1995; Professor of Computer Science; Ph.D.; 1993; University of Nebraska.

*KRONE, Stephen M; 1995; Professor of Mathematics; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1990; University of Massachusetts.

KRONENBERG, Jeffrey Paul; 2016; Clinical Assistant Professor in Biological Engineering; M.S.; 1983; Cornell University.

*KROTH, Michael S; 2005; Associate Professor of Adult and Organizational Learning; Ph.D.; 1997; University of New Mexico.

*KUHL, Joseph C; 2009; Research Associate Professor in Plant Sciences; Ph.D.; 2000; University of Wisconsin.

*KUMAR, Gautam; 2016; Assistant Professor in Chemical and Materials Science Engineering; Ph.D.; 2013; Lehigh University.

*KUMAR, Kamal; 2015; Assistant Professor of Animal and Veterinary Science; Ph.D.; 2007; Case Western Reserve University.

KUNZE, Jay; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 1959; Carnegie Mellon University.

KYRIOS, Alex C; 2012; Metadata/Catalog Librarian with rank of Assistant Professor; M.S.; 2011; University of North Carolina.

L

LAARMAN, Anne H; 2015; Research Assistant Professor of Animal and Veterinary Science; Ph.D.; 2014; University of Guelph.

*LADINO, Jennifer; 2010; Associate Professor of English; Ph.D.; 2006; University of Washington.

LAFLIN, Maureen E; 1991; Professor of Law; J.D.; 1982; St Louis University.

LAMBETH, Gregory S; 2016; Licensed Psychologist with rank of Associate Professor; Director, Counseling and Testing Center; Ph.D.; 1994; University of Texas at Austin.

*LANGMAN, Jeffrey B; 2014; Assistant Professor of Geological Sciences; Ph.D.; 2008; University of Texas.

LARKINS, Lindsay; 2015; Clinical Assistant Professor in Movement Sciences; D.A.T.; 2014; University of Idaho.

LARSON, Erick J; 2013; Clinical Assistant Professor of Business; Assistant Dean of Recruitment, Retention and Assessment, College of Business and Economics; M.S.; 2009; University of Idaho.

LATTA, Gregory; 2016; Assistant Professor in Natural Resources and Society; Ph.D.; 2013; Norwegian University of Life Sciences.

LATTIN, William C; 2013; Adjunct Faculty of Environmental Science; Ph.D.; 2008; University of Idaho.

LAUMATIA, Laura A; 2013; Adjunct Faculty of Bioregional Planning and Community Design; M.S.; 2009; University of Idaho.

*LAUNCHBAUGH, Karen L; 1996; Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1992; Utah State University.

LAURIOLA, Rosanna; 2008; Assistant Professor of Modern Languages and Cultures (Classics); Ph.D.; 2002; University of Florence.

*LAW, Joseph D; 1989; Associate Professor of Electrical Engineering; Associate Dean of Undergraduate Academics, College of Engineering; Director, NASA Idaho Space Grant Consortium/NASA Idaho EPSCoR; Ph.D.; 1991; University of Wisconsin.

*LAWRENCE, John J; 1993; Professor of Production/Operations Management and of Statistics; Ph.D.; 1993; Penn State University.

*LAWRENCE, Torrey E; 1998; Professor of Music (tuba, euphonium, bands); Associate Dean of Undergraduate Studies and Faculty Affairs, College of Letters, Arts and Social Sciences; D.M.A.; 2010; University of Orego.

LAWRENCE, Scott; 2017; Assistant Professor of Architecture; M.Arch.; 2009; University of Colorado, Denver.

LEACH, David B; 2002; Adjunct Clinical Professor of Medical Science; M.D.; 1997; University of Kentucky.

LEACHMAN, Jacob W; 2010; Adjunct Assistant Professor of Mechanical Engineering; Ph.D.; 2010; University of Wisconsin-Madison.

LEE, Hyun Jung; 2016; Assistant Professor in Food Science; Ph.D.; 2013; Korea University.

*LEE, Jooho; 2008; Assistant Professor of Political Science; Ph.D.; 2007; Syracuse University.

LEE, Jungmin; 2013; Adjunct Assistant Professor of Food Science and Toxicology; Adjunct Faculty in Plant Sciences; Ph.D.; 2004; Oregon State University.

*LEE, Katherine; 2016; Assistant Professor in Agricultural Economics and Rural Sociology; Ph.D.; 2016; University of Wyoming.

*LEE, Stephen S; 1993; Professor of Statistics; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1991; Florida State University.

LEE, Tracie; 2007; Instructor of Production/Operations Management; M.I.M.; 1997; Thunderbird School.

*LEE-PAINTER, J. David; 1995; Professor of Theatre Arts; M.F.A.; 1991; Illinois State University.

*LEI, Hangtian; 2017; Assistant Professor of Electrical Engineering; Ph.D.; 2016; Texas A&M University.

LEICHLITER, Katrina J; 2015; Research Assistant Professor of Architecture; M.S.; 2009; University of Idaho.

LENTZ, Rodrick D; 1997; Adjunct Assistant Professor in Soil and Water Systems; Ph.D.; 1991; University of Minnesota.

LEVAN, Kristine Mary; 2016; Assistant Professor in Sociology and Anthropology; Affiliate Faculty in American Indian Studies Program; Ph.D.; 2007; University of Texas at Dallas.

LEW, Roger Thomas; 2016; Research Assistant Professor in Virtual Technology and Design; Ph.D.; 2014; University of Idaho.

*LEWIN, Paul A; 2013; Assistant Extension Professor and Extension Specialist of Agricultural Economics and Rural Sociology; Ph.D.; 2011; Oregon State University.

LEWIS, Edwin; 2017; Professor in Entomology, Plant Pathology and Nematology; Department Head, Entomology, Plant Pathology and Nematology; Co-Director of Center for Health in the Human Ecosystem; Ph.D.; 1991; Auburn University.

LEWIS, Reed S; 1995; Research Professor, Idaho Geological Survey; Ph.D.; 1990; Oregon State University.

LEYTEM, April B; 2004; Adjunct Assistant Professor of Soil and Water Systems; Ph.D.; 1999; North Carolina State University.

*LI, Feng; 2014; Clinical Assistant Professor of Electrical and Computer Engineering; Ph.D.; 2012; University of Wisconsin.

LI, Jun; 2006; Adjunct Professor of Chemistry; Ph.D.; 1992; Chinese Academy of Sciences.

*LIANG, Xi; 2014; Research Assistant Professor in Plant Sciences; Ph.D.; 2013; University of Florida.

*LIAO, Haifeng; 2014; Assistant Professor of Geography; M.Phil.; 2008; University of Hong Kong.

LIDE, Chen; 2010; Assistant Professor and Extension Waste Management Engineer of Biological Engineering; Affiliate Faculty of Civil Engineering; Ph.D.; 2008; Iowa State University.

*LIESKE, Sandy; 2016; Instructor in Industrial Education; M.Sci.; 2005; National Technological University.

LIESZ, Thomas J; 2005; Clinical Faculty with the rank of Assistant Professor of Business; Ph.D.; 1989; University of Idaho.

LILLARD, Monique C; 1987; Professor of Law; J.D.; 1983; University of California Los Angeles.

*LIN, Hui-Mei; 2014; Reseach Associate Professor of Food Science; Ph.D.; 2006; National Taiwan University.

LINAREZ-ROYCE, Nancy J; 2000; Adjunct Assistant Professor of Materials Science and Engineering and Metallurgical Engineering;; Ph.D.; 2000; University of Idaho.

LINDSTORM, James H; 2013; Professor of Agricultural Education; Director, 4-H Youth Development; Ph.D.; 2007; University of Montana.

LINEHAN, John C; 2002; Adjunct Associate Professor of Chemistry; Ph.D.; 1986; University of California Davis.

*LINK, Timothy E; 2001; Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 2001; Oregon State University.

*LIOU, Chyr Pyng; 1986; Professor of Civil Engineering (P.E.); Affiliate Professor of Mechanical Engineering; Ph.D.; 1976; University of Michigan.

LIZOTTE, Michelle Cora; 2016; Assistant Professor in Leadership and Counseling; Ph.D.; 2016; Michigan State University.

LOCK, Barbara Z; 2010; Associate Professor of Law; LL.M.; 1998; University of Washington.

*LOCKE, Kenneth D; 1996; Professor of Psychology; Ph.D.; 1989; Stanford University.

LOFTUS, Kelli; 2011; Extension Senior Instructor in the Northern District; M.S.W.; 2002; Eastern Washington University.

*LONG, Jerrold A; 2007; Professor of Law; Associate Dean, College of Law; J.D.; 2000; University of Colorado.

LONG, Jessica Michele; 2016; Clinical Associate Professor in Law; J.D.; 2000; University of Colorado.

*LONG, Ryan A; 2014; Assistant Professor of Fish and Wildlife Sciences; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2013; Idaho State University.

LONG, Sean; 2017; Adjunct Faculty in Geological Sciences; Ph.D.; 2010; Princeton University.

*LOVE, Stephen L; 1985; Professor in Plant Sciences; Ph.D.; 1984; Clemson University.

LOVELACE, Kathi J; 2008; Assistant Professor of Business; Ph.D.; 2002; University of Massachusetts.

LOVELAND, Thomas R; 2004; Adjunct Professor of Fish and Wildlife Sciences; Ph.D.; 1998; University of California Santa Barbara.

*LOWRY, Michael; 2009; Associate Professor of Civil Engineering (P.E.); Ph.D.; 2004; University of Washington.

LU, Li; 2001; Adjunct Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1989; Katholieke Universiteit Te Leu.

LU, Liang; 2017; Assistant Professor of Agricultural Economics; Ph.D.; 2017; University of California at Berkeley.

LUCE, Charles H; 2004; Adjunct Assistant Professor of Civil and Environmental Engineering; Ph.D.; 2000; Utah State University.

LUCKHART, Shirley; 2017; Research Professor of Entomology; Ph.D.; 1995; Rutgers University.

*LUND, William R; 1988; Professor of Political Science; Ph.D.; 1983; University of Washington.

LUONG, Tran Dinh; 2009; Adjunct Assistant Professor of Mathematics; Ph.D.; 2009; University of Idaho.

LYMAN, Kristina; 2017; Instructor in Journalism and Mass Media; MBA; 2014; University of Idaho.

LYMAN, Kristina; Kristina; Instructor in Journalism and Mass Media; M.B.A.; 2014; University of Idaho.

LYNDS, Ranie M; 2012; Adjunct Faculty of Geological Sciences; Ph.D.; 2005; University of Wyoming.

M

*MA, Rong (Rachel); 2017; Research Assistant Professor in Plant Sciences; Ph.D.; 2014; University of Illinois.

*MA, Xiaogang (Marshall); 2016; Assistant Professor in Computer Science; Affiliate Assistant Professor in Geological Sciences; Ph.D.; 2011; University of Twente.

MAAS, Alexander; 2017; Assistant Professor of Agricultural Economics; Ph.D.; 2016; Colorado State University.

*MACDONALD, Tara; 2015; Assistant Professor of English; Ph.D.; 2008; McGill University.

MACFARLANE, Katherine; 2015; Associate Professor of Law; J.D.; 2006; Loyola Law School.

*MACHLEIDT, Ruprecht; 1988; Professor of Physics; Ph.D.; 1973; University of Bonn.

*MAGOLAN, Jakob; 2017; Adjunct Faculty in Chemistry; Ph.D.; 2007; University of Western Ontario.

MAGUIRE, Todd D; 2004; Adjunct Assistant Professor of Environmental Science; M.S.; 1995; Kansas State University.

MAHFOUZ, Julia; 2017; Assistant Professor in Educational Leadership; Ph.D.; 2017; Pennsylvania State University.

*MAHLER, Robert L; 1980; Professor in Soil and Water Systems; Ph.D.; 1980; North Carolina State University.

MAI, Nhu; 2017; Assistant Professor, Psychologist; Ph.D.; 2014; Washington State University.

*MAJOR, Cherie R; 1998; Professor of Teacher Education; Ed.D.; 1983; Utah State University.

*MAKI, Wusi C; 2002; Research Assistant Professor of Biological Sciences; Ph.D.; 1996; University of Cape Town.

MALLATT, Jon; 2017; Clinical Associate Professor in the Medical Education Program; Ph.D.; 1979; University of Chicago.

MANIC, Milos; 2014; Adjunct Faculty in Computer Science; Ph.D.; 2003; University of Idaho.

MANKER, Gretchen L; 2017; Assistant Professor in Family and Consumer Sciences;; Extension Educator; M.S.; 1993; University of New Mexico.

*MANRIQUE HOYOS, Carolina; 2015; Assistant Professor of Architecture; Ph.D.; 2015; Texas A&M University.

MARKS, Danny; 2003; Adjunct Professor of Civil and Environmental Engineering; Ph.D.; 1988; University of California Santa Barbara.

MARLOW, Mikaela L; 2007; Instructor of Communication Studies;; Ph.D.; 2009; University of California, Santa Barbara.

MARSHALL, Alan G; 1978; Adjunct Professor of Anthropology; Ph.D.; 1976; Washington State University.

*MARSHALL, Anne Lawrason; 1996; Professor of Architecture; Interim Program Coordinator, Architecture; M.Arch.; 1989; University of California Berkeley.

MARSHALL, Hans-Peter; 2011; Adjunct Professor of Forest Ecology and Biogeosciences; Ph.D.; 2005; University of Colorado.

MARSHALL, Juliet M; 2004; Research Professor, Extension Specialist in Entomology, Plant Pathology and Nematology; Ph.D.; 1992; University of Illinois.

MARSHALL, Linnea D; 1998; Catalog Librarian with rank of Associate Professor; M.A.L.S.; 1984; University of Denver.

MARTIN, Brad; 2014; Professor of Military Science; M.A.; 2002; Webster University.

*MARTIN, Bryn; 2015; Assistant Professor in Biological Engineering; Affiliate Faculty in Bioinformatics and Computational Biology; Affiliate Faculty in Biological Sciences; Ph.D.; 2012; University of Illinois at Chicago.

MARTIN, Spencer H; 2012; Assistant Professor of Music; M.Mus.; 2002; University of Idaho.

MARTIN, Todd; 2017; Instructor of Operations Management; M.Acct.; 2011; University of Idaho.

MARTINEZ, Jessica; 2017; Librarian with the rank of Assistant Professor; Science Librarian; M.L.S.; 2017; University of Washington.

MARTÍNEZ, Enrique D; 2009; Adjunct Assistant Professor of Geological Sciences; Ph.D.; 1994; University of Idaho.

*MARX, Christopher; 2014; Professor of Biological Sciences; Ph.D.; 2003; University of Washington.

MATTIMOE, Jean; 2005; Law Librarian with rank of Associate Professor; M.A.; 2005; University of Arizona.

MAUGHAN, Bryan D; 2012; Clinical Assistant Professor of Leadership and Counseling; Ph.D.; 2007; University of Idaho.

*MAUGHAN, Michael R; 2015; Clinical Assistant Professor of Mechanical Engineering; Ph.D.; 2015; Purdue University.

MAXAM, Clark L; 2008; Associate Professor of Finance; Ph.D.; 1996; Indiana University.

*MAY, James M; 2014; Clinical Assistant Professor of Movement Sciences; D.A.T.; 2014; University of Idaho.

*MAYES, Iris A; 2012; Extension Assistant Professor and Associate Extension Educator Reservation Program; Affiliate Faculty of Bioregional Planning and Community Design; M.S.; 2010; University of Idaho.

MCANDREW, Shaun; 2017; Affiliate Faculty in Naval Science; B.S.; 2016; United States Naval Academy.

MCCAMMON, Tony A; 2006; Associate Extension Professor and Payette County Extension Educator (Horticulture); M.S.; 2006; Utah State University.

MCCLUSKEY, Jill J; 2014; Adjunct Faculty of Agricultural Economics and Rural Sociology; Ph.D.; 1998; University of California Berkeley.

*MCCOLLOUGH, Michael A; 1995; Professor in Business; Ph.D.; 1995; Texas A&M University.

*MCCORMACK, Jay; 2013; Adjunct Faculty in Mechanical Engineering; Ph.D.; 2003; Carnegie Mellon University.

*MCDONALD, Armando G; 2001; Professor of Forest Products; Affiliate Professor of Chemical and Materials Engineering; Affiliate Faculty in the School of Food Science; Ph.D.; 1993; York University.

MCDONALD, Scott I; 2015; Instructor of Business; M.B.A.; 2015; University of Idaho.

MCDUNN, Benjamin A; 2017; Clinical Assistant Professor of Psychology; Ph.D.; 2017; University of Georgia, Athens.

MCELIGOT, Donald M; 2009; Adjunct Professor of Mechanical Engineering; Ph.D.; 1963; Stanford University.

MCGARY, Stephen D; 1998; Adjunct Professor of Agricultural Economics; Ph.D.; 1984; Washington State University.

MCGEEHAN, Steven L; 2000; Affiliate Faculty in Soil and Water Systems; Chief Chemist, Analytical Sciences Lab; Ph.D.; 1992; University of Idaho.

*MCGOWAN, Craig P; 2010; Associate Professor of Biological Sciences and WWAMI Medical Education; Ph.D.; 2006; Harvard University.

MCGOWAN, Shannon L; 2014; Clinical Professor of Modern Languages and Cultures; Ph.D.; 2014; University of Idaho.

MCGRIFF, Michael; 2016; Assistant Professor in English; M.F.A.; 2006; University of Texas at Austin.

*MCGUIRE, Mark A; 1995; Professor of Lactation Physiology; Associate Dean/Director of the Idaho Agricultural Experiment Stations; Ph.D.; 1994; Cornell University.

*MCINTOSH, Christopher S; 1999; Professor of Agricultural Economics; Interim Department Head, Department of Agricultural Economics and Rural Sociology; Ph.D.; 1987; Texas A&M University.

MCINTOSH, Deborah; 1999; Clinical Associate Professor in Law; J.D.; 1991; University of Idaho.

MCKELLAR, Michael G; 2013; Research Assistant Professor in Nuclear Engineering; Ph.D.; 1992; Purdue University.

MCLAIN, Brian; 2004; Associate Extension Professor and Eastern District Extension Educator; M.S.; 1990; Utah State University.

MCLEOD, Aman; 2016; Assistant Professor in Political Science; Affiliate Faculty in Law; Ph.D.; 2004; University of Michigan.

*MCMURTRY, Jerry R; 1995; Associate Professor of Curriculum and Instruction; Dean, College of Graduate Studies; Ph.D.; 1993; Colorado State University.

MCNAMEE, Liza N; 2011; Adjunct Professor of Statistics; M.A.; 2005; Iowa State University.

*MCVEY, Roger D; 2013; Associate Professor in the Lionel Hampton School of Music; D.M.A.; 2004; University of Kansas.

*MEAD, Phillip G; 2002; Associate Professor of Architecture; M.A.; 1991; University of Texas.

MEENAN, Melanie J; 2013; Clinical Assistant Professor of Movement Sciences; M.F.A.; 2013; University of Oregon.

MEEUF, Russell; 2012; Associate Professor of Journalism and Mass Media; Ph.D.; 2009; University of Oregon.

*MEIER, Steven E; 1987; Associate Professor of Psychology; Affiliate Associate Professor of Neuroscience; Ph.D.; 1991; Washington State University.

MELQUIST, Wayne E; 2004; Research Associate Professor of Fish and Wildlife Sciences; Ph.D.; 1981; University of Idaho.

MELVILLE, Nancy S; 2016; Extension Assistant Professor and Area Extension Educator; M.A.; 1992; University of San Francisco.

MESA FRIAS, Marco Antonio; 2016; Assistant Professor in Statistical Science; Ph.D.; 2013; London School of Hygiene and Tropical Medicine.

MESERVE, Peter L; 2013; Adjunct Faculty of Biological Sciences; Ph.D.; 1972; University of California Irvine.

METLEN, Scott K; 2001; Associate Professor of Operations Management; Affiliate Associate Professor of Engineering Management and Technology Management; Department Head, Department of Business; Ph.D.; 2002; University of Utah.

*MEYER, Sonya S; 2012; Professor of Family and Consumer Sciences; Director, School of Family and Consumer Sciences; Ph.D.; 1986; Kansas State University.

MICKELSEN, J. Carl; 1995; Lecturer in Philosophy; J.D.; 1992; University of Idaho.

MIKLAS, Phillip N; 2006; Adjunct Professor of Plant Sciences; Ph.D.; 1990; North Dakota State University.

*MILLER, Brant; 2011; Associate Professor in Curriculum and Instruction; Affiliate Faculty of Natural Resources and Society; Affiliate Faculty in American Indian Studies Program; Ph.D.; 2011; University of Minnesota.

MILLER, Carol; 2004; Adjunct Assistant Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1998; Colorado State University.

MILLER, Craig R; 2011; Research Associate Professor in Biological Sciences; Ph.D.; 2003; University of Idaho.

MILLER, Elizabeth; 2001; Senior Instructor of Physical Education; M.S.; 1996; University of Wyoming.

MILLER, Jeffrey S; 2008; Adjunct Associate Professor in Plant Sciences; Ph.D.; 1998; Washington State University.

MILLER, John A; 1988; Professor of Law; L.L.M.; 1987; University of Florida.

MILLER, Stephen; 2011; Associate Professor of Law; J.D.; 2006; University of California.

MILLS, Rebecca; 2017; Instructor, Associate Extension Educator; M.A.; 2008; Oklahoma State University.

MINCHER, Bruce J; 1997; Adjunct Assistant Professor of Chemistry; Ph.D.; 1997; University of Idaho.

MINER, Katie R; 2006; Senior Instructor of Food & Nutrition; M.S.; 2004; University of Idaho.

*MINNICH, Scott A; 1989; Professor of Biological Sciences; Ph.D.; 1981; Iowa State University.

MIRKOU EI, Amin; 2018; Assistant Professor in Industrial Technology; Affiliate Assistant Professor in Mechanical Engineering; Ph.D.; 2016; Oregon State University.

MISHRA, Anubha; 2011; Assistant Professor of Marketing; Ph.D.; 2011; University of Arizona.

MITCHELL, Briane N; 2013; Adjunct Faculty of Law; J.D.; 1978; University of Idaho.

MITCHELL, Diana M; 2014; Research Assistant Professor of Biological Sciences; Ph.D.; 2012; University of Utah.

*MITCHELL, Gwen E; 2014; Clinical Assistant Professor of Education; Ph.D.; 2011; University of Idaho.

*MITTELSTAEDT, Eric L; 2013; Assistant Professor of Geological Sciences; Ph.D.; 2008; University of Hawaii.

*MIURA, Tanya A; 2008; Associate Professor of Immunology; Ph.D.; 2000; Colorado State University.

*MOBERLY, James G; 2013; Assistant Professor of Chemical and Materials Engineering; Ph.D.; 2010; Montana State University.

*MOFFITT, Christine M; 1981; Affiliate Professor of Environmental Science; Ph.D.; 1979; University of Massachusetts.

MOLL, Amy J; 2004; Adjunct Assistant Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1994; University of California Berkeley.

*MOMONT, Patrick A; 1990; Extension Professor; Director, Cooperative Extension Southern District; Ph.D.; 1990; South Dakota State University.

MONKS, Kathleen M; 2012; Reference and Instruction Librarian with rank of Assistant Professor; M.L.I.S.; 2010; University of Washington.

MONTIERH, LeLand M; 2014; Adjunct Faculty of Nuclear Engineering; Ph.D.; 1982; University of Arizona.

*MONTOTO, Román; 2004; Professor in Architecture Program; M.Arch.; 1999; University of Wisconsin.

*MOORE, Amber; 2008; Extension Associate Professor in Soil and Water Systems; Ph.D.; 2004; North Carolina State University.

MOORING, Mark; 2014; Affiliate Faculty in Military Science; B.S.; 2008; United States Naval Academy.

*MORGAN, Penelope; 1986; Professor of Fire Ecology and Forest Ecology; Ph.D.; 1984; University of Idaho.

*MORISHITA, Don W; 1990; Extension Professor in Plant Sciences; Superintendent, Kimberly Research and Extension Center; Ph.D.; 1986; University of Idaho.

MORRA, Matthew J; 1986; Professor in Soil and Water Systems; Ph.D.; 1986; Ohio State University.

MORRISON, John L; 1996; Adjunct Assistant Professor of Electrical Engineering; Ph.D.; 1992; University of Idaho.

MORRISROE-AMAN, Bridget M; 2016; Assistant Professor in Family and Consumer Sciences; Extension Educator; M.A.; 2011; Boise State University.

MOSLEY, Glenn; 2001; Senior Instructor in Journalism and Mass Media; M.A.; 1985; University of Maryland.

MOXSON, Vladimir S; 1999; Adjunct Associate Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1979; Moscow Institute of Steel and Alloys.

MUELLER, Kirk M; 2013; Adjunct Faculty of Animal and Veterinary Science; D.V.M.; 2005; University of Minnesota.

*MULKEY, Stephen S; 2008; Associate Professor of Environmental Science; Director, Environmental Science Program; Ph.D.; 1986; University of Pennsylvania.

*MURDOCH, Brenda; 2014; Assistant Professor in Animal and Veterinary Sciences; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2010; University of Alberta.

*MURDOCH, Gordon K; 2006; Associate Professor of Animal Physiology; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2004; University of Alberta.

*MURPHY, Cari L; 2014; Clinical Assistant Professor of Education; Ph.D.; 2005; University of Idaho.

*MÖLLER, Gregory; 1990; Professor of Food Science and Toxicology; Affiliate Professor in Chemical and Materials Engineering and Biological Engineering; Affiliate Faculty in Environmental Science; Technical

Director of UI Analytical Sciences Laboratory; Ph.D.; 1985; University of California Davis.

N

*NAGLER, James J; 1996; Professor of Zoology; Department Chair, Department of Biological Sciences; Ph.D.; 1991; Memorial University of Newfoundland.

NALLE, Darek; 2016; Instructor of Finance; Ph.D.; 2001; Oregon State University.

NAMIN, Aidin; 2015; Assistant Professor of Business; Ph.D.; 2015; University of Texas at Dallas.

NARUM, Shawn R; 2012; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2006; University of Idaho.

NASH, Scott A; 1995; Extension Professor and Bingham County Extension Educator (4-H/Youth); M.S.; 1994; Texas A&M University.

*NASYPANY, Alan M. Jr.; 2007; Clinical Associate Professor in Movement Sciences; Ed.D.; 2005; West Virginia University.

NEHER, Oliver; 2016; Adjunct Faculty in Plant Sciences; Ph.D.; 2008; Montana State University.

*NEIBLING, W. Howard; 1992; Extension Associate Professor in Soil and Water Systems; Affiliate Faculty in Biological Engineering and Civil and Environmental Engineering; Ph.D.; 1984; Purdue University.

NEILSON, Robert M. Jr.; 1994; Adjunct Professor of Materials Science and Engineering and Metallurgy; M.S.; 1979; SUNY at Stony Brook.

*NELSON, Andrew S; 2015; Assistant Professor of Forest, Rangeland and Fire Sciences; Ph.D.; 2013; University of Maine.

NELSON, Janet E; 2016; Clinical Professor in Chemistry; Vice President, Research and Economic Development; Ph.D.; 1991; California Institute of Technology.

*NELSON, Nora Lynn Olsen; 1998; Associate Extension Professor of Plant Science; Ph.D.; 1998; Washington State University.

NELSON, Ross F; 2009; Adjunct Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1994; Virginia Polytechnic Institute.

NELSON, Sarah M; 1999; Associate Professor of Modern Languages and Cultures (French); Ph.D.; 1997; University of Wisconsin.

NEUFELD, Jerold D; 1999; Extension Professor and Canyon County Extension Educator (Crops/Irrigation Management/Pest Management); M.S.; 1988; Kansas State University.

*NEUILLY, Melanie-Angela; 2006; Assistant Professor of Justice Studies; Ph.D.; 2006; Rutgers University.

NEUPANE, Ghanashyam; 2016; Adjunct Faculty in Geological Sciences; Ph.D.; 2012; University of Alabama.

*NEWCOMBE, A. George; 1999; Professor of Forest, Rangeland, and Fire Sciences; Affiliate Professor in Plant Sciences; Ph.D.; 1988; University Guelph.

NEWCOMBE, David A; 2005; Adjunct Assistant Professor of Environmental Science; Ph.D.; 2003; University of Idaho.

NEWINGHAM, Beth A; 2014; Adjunct Faculty of Forest, Rangeland, and Fire Sciences; Ph.D.; 2002; University of Montana.

*NGUYEN, Linh V; 2011; Associate Professor in Mathematics; Ph.D.; 2010; Texas A&M University.

NICHOLAS, Nolan W; 2012; Adjunct Faculty of Chemistry; Ph.D.; 2009; Rice University.

*NICOTRA, Jodie; 2005; Associate Professor of English; Ph.D.; 2005; Penn State University.

*NIELSEN, Mark J; 1990; Professor of Mathematics; Associate Dean, College of Science; Ph.D.; 1990; University of Washington.

*NIELSEN, Richard J; 1986; Associate Professor of Civil Engineering (P.E.); Department Chair, Department of Civil Engineering; Ph.D.; 1986; Stanford University.

*NOFSINGER, David A; 2012; Assistant Professor of Theatre Arts; M.F.A.; 2000; University of Arizona.

NOGUERA, Magdy C; 2013; Associate Professor of Finance; Ph.D.; 2007; Mississippi State University.

NORELL, Richard J; 1982; Extension Professor and Extension Dairy Specialist; Ph.D.; 1983; University of Minnesota.

*NOVY, Richard G; 2000; Adjunct Assistant Professor in Plant Sciences; Ph.D.; 1992; University of Wisconsin.

*NUISMER, Scott L; 2003; Professor of Biological Sciences; Affiliate Faculty in Mathematics and Bioinformatics and Computational Biology; Ph.D.; 2000; Washington State University.

NUNN, Leslie G; 2016; Extension Assistant Professor and Eastern District Extension Educator; M.S.; 2008; Texas A&M University.

O

O'BRIEN, James E; 1995; Adjunct Professor of Mechanical Engineering; Ph.D.; 1981; University of Minnesota.

O'BRIEN, Michael H; 1993; Adjunct Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1987; Iowa State University.

*O'MALLEY, Kathy L; 1981; Professor of Marketing; Ph.D.; 1981; University of Washington.

O'SULLIVAN, Paul B; 2003; Adjunct Assistant Professor of Geological Sciences; Ph.D.; 1993; La Trobe University.

*ODOM, Edwin M; 1991; Professor of Mechanical Engineering; Ph.D.; 1991; University of Wyoming.

OLSEN, Brett C; 2007; Assistant Professor of Finance; Ph.D.; 2007; University of Missouri.

OLSEN, Nora; 1999; Professor in Plant Sciences; Ph.D.; 1998; Washington State University.

OPALACH, Daniel; 2018; Adjunct Faculty in Forest, Rangeland and Fire Sciences; Ph.D..

*OROZCO, Daniel; 2004; Associate Professor of English; M.F.A.; 1994; University of Washington.

*ORR, Mary Theresa Jaglois; 2013; Clinical Assistant Professor of Curriculum and Instruction; M.S.; 2007; University of Idaho.

*OSTROM, Lee T; 2000; Professor of Engineering; Affiliate Faculty in Biological Engineering; Associate Dean & Director of Academic Programs in Idaho Falls; Ph.D.; 1988; Texas Technology University.

OSWALD, Mary E; 2014; Senior Instructor in Biological Sciences; Ph.D.; 2010; University of Idaho.

OTTMAR, Roger D; 2008; Adjunct Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 2008; University of Idaho.

OVERTON, Michael; 2017; Assistant Professor of Political Science; Ph.D.; 2015; 2015.

OVERTURF, Kenneth; 2018; Adjunct Faculty in Animal and Veterinary Science; Doctorate; 1994; University of Nevada, Reno.

OVETUF, Ken; 2018; Adjunct Professor of Animal and Veterinary Sciences; Ph.D.; 1994; University of Nevada-Reno.

OZERAN, Steven E; 1996; Adjunct Clinical Professor of Medical Science; M.D.; 1988; University of Chicago.

P

PACKHAM, Joel H; 1988; Extension Professor and Bear Lake County Extension Educator (Dairy); M.S.; 1990; University of Idaho.

*PADGHAM-ALBRECHT, Carol; 1989; Professor in the Lionel Hampton School of Music; Ph.D.; 2008; Kent State University.

PAGE-DUMROESE, Deborah; 2015; Adjunct Faculty in Forest, Rangeland and Fire Sciences; Ph.D.; 1988; University of Idaho.

PAINTER, Kathleen M; 2011; Extension Assistant Professor and Extension Educator of Agricultural Economics and Rural Sociology; Ph.D.; 1992; Washington State University.

PALMER, Carl D; 2014; Adjunct Faculty of Geological Sciences; Ph.D.; 1983; University of Waterloo.

*PANTTAJA, Dean F; 1986; Professor of Theare Arts; Director of General Education; Ph.D.; 1995; University of Idaho.

PAPIC, Milorad; 1996; Adjunct Assistant Professor of Electrical Engineering; Ph.D.; 1980; University of Sarajevo.

*PARENT, Christine; 2013; Assistant Professor of Biological Sciences; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2008; Simon Fraser University.

PARK, Youngkyun; 2011; Associate Professor in Business; Ph.D.; 2009; Temple University.

PARKS, Donna H; 2016; Clinical Assistant Professor in Biology; Ph.D.; 1987; Bowling Green State University.

PARRELLA, Michael; 2016; Professor in Entomology; Dean, College of Agricultural and Life Sciences; Ph.D.; 1980; Virginia Polytecnic Institute and State University.

PARSONS, Russell A; 2009; Adjunct Assistant Professor of Forest Resources ; Ph.D.; 2007; University of Montana.

*PASILIS, Sofie P; 2008; Assistant Professor of Chemistry; Ph.D.; 2004; University of Arizona.

*PAUL, David R; 2007; Associate Professor of Movement Sciences; Ph.D.; 1999; Ohio State University.

*PAVEGLIO, Travis B; 2014; Assistant Professor of Natural Resources and Society.; Ph.D.; 2010; Washington State University.

PEDRON, Lucio; 2003; Adjunct Assistant Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 2000; Lesgaft Institute.

*PEGG, Jerine M; 2006; Assistant Professor of Curriculum and Instruction; Ph.D.; 2006; Oregon State University.

*PENDEGRAFT, Norman; 1983; Professor of Management Information Systems; Affiliate Professor of Physical Education; Ph.D.; 1978; University of California Los Angeles.

*PENG, Ching-An; 2015; Professor of Bioengineering; Department Chair, Department of Biological Engineering; Ph.D.; 1995; University of Michigan.

PERRET, Robert; 2008; Reference/Instruction Librarian with rank of Associate Professor; M.L.S.; 2006; University of Denver.

PERRIGUEY, Anne M; 2014; Instructor of Modern Languages and Cultures; M.A.; 1991; University of Nebraska.

*PERRY, Joel C; 2014; Assistant Professor of Mechanical Engineering; Ph.D.; 2006; University of Washington.

*PESIC, Batric; 1983; Professor of Materials Science and Engineering and Metallurgical Engineering; Affiliate Professor of Environmental Science; Ph.D.; 1981; University of Utah.

PETERSEN, Jonathan; 2017; Instructor in Engineering; M.Engr.; 2012; University of Idaho.

PETERSON, Steven S; 1991; Clinical Assistant Professor of Business; M.S.; 1991; University of Idaho.

PETTY, Barbara D; 1999; Extension Professor; Associate Dean/Director, University of Idaho Extension, College of Agricultural and Life Sciences; M.S.; 1984; University of Nebraska.

PEUTZ, Joey D; 1999; Extension Professor and Canyon County Extension Educator (Food Safety/Nutrition); M.S.; 1995; University of Idaho.

PFEIFFER, David C; 2014; Professor in Biological Sciences; Director of Undergraduate Research; Ph.D.; 1997; University of British Columbia.

PFUND, Christopher; 2014; Clinical Assistant Professor of Music; M.Mus.; 1997; Manhattan School of Music.

*PHARR, Steven; 1990; Associate Professor of Marketing; Ph.D.; 1987; University of Nebraska.

*PHONGIKAROON, Supathorn; 2013; Adjunct Faculty of Chemical and Materials Engineering; Ph.D.; 2001; University of Maryland.

PICKFORD, Stewart G; 2008; Adjunct Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1972; University of Washington.

PIERCE, Andrew L; 2009; Adjunct Professor of Biological Sciences; Ph.D.; 2003; University of Washington.

PIET, Steven J; 2002; Adjunct Assistant Professor of Environmental Science; D.Sc.; 1999; Massachusetts Institute of Technology (MIT).

PIETRZAK, Dale; 2015; Professor of Leadership and Counseling; Director, Institutional Effectiveness and Accreditation; Ed.D.; 1992; University of South Dakota.

PIEZ, Cynthia M; 1991; Senior Instructor in Mathematics; M.S.; 1990; Northern Arizona University.

*PILGERAM, RYANNE; 2010; Associate Professor of Sociology and Anthropology; Ph.D.; 2010; University of Oregon.

*PILLARS, Roxanne B; 2008; Assistant Professor of Animal and Veterinary Sciences (Veterinary Bovine Specialist); Ph.D.; 2008; Michigan State University.

PIMENTEL, David T; 2015; Associate Professor in Law; J.D.; 1988; Harvard Law School.

PINTO, Jeremiah R; 2011; Adjunct Assistant Professor of Forest Ecology and Biogeosciences; Ph.D.; 2009; University of Idaho.

PLANCK, Suzanne M; 1999; Senior Instructor of Family and Consumer Sciences; M.S.; 1988; University of Idaho.

PODGORNEY, Robert K; 2008; Adjunct Assistant Professor of Geology; Ph.D.; 2007; University of Idaho.

*POLAKIT, Kasama; 2014; Associate Professor of Architecture; Ph.D.; 2004; University of Melbourne.

POPE, Chad; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 2011; Idaho State University.

*PORTER, P. Steven; 1992; Associate Professor of Civil Engineering (P.E.); Affiliate Associate Professor of Environmental Science; Ph.D.; 1986; Colorado State University.

*POTIRNICHE, Gabriel; 2007; Associate Professor of Mechanical Engineering; Ph.D.; 2003; Mississippi State University.

*POWELL, Madison S; 1987; Associate Professor of Animal and Veterinary Science; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1995; Texas Technology University.

POWERS, Joseph R; 2011; Affiliate Professor in Food Science; Ph.D.; 1977; University of California Davis.

POZHAR, Liudmila A; 2008; Assistant Professor of Physics; Ph.D.; 1994; National Academy of Sciences of the Ukraine.

*PRATHER, Timothy S; Timothy; Professor in Plant Sciences; Ph.D.; 1993; University of Idaho.

PRICE, William J; 2016; Affiliate Faculty in Statistical Science; Ph.D.; 1999; University of Idaho.

PRORAK, Diane M; 1989; Science Reference Librarian with rank of Associate Professor; M.L.S.; 1986; University of Wisconsin.

Ptak, Thomas; 2017; Professor of Geography; Ph.D.; 2016; University of Oregon.

PTAK, Thomas; 2017; Assistant Professor of Geography; Ph.D.; 2016; 2016.

PULA, Kacy N; 2014; Clinical Assistant Professor of Psychology; Ph.D.; 2012; Washington State University.

PULAKOS, Joan; 1983; Adjunct Faculty in Psychology and Communication Studies; Ph.D.; 1983; Washington State University.

*PUTSCHE, Laura; 1990; Assistant Professor of Anthropology; Ph.D.; 1993; Washington State University.

Q

*QIANG, You; 2002; Professor of Physics; Ph.D.; 1997.

*QUALLS, Russell J; 1999; Associate Professor of Agricultural Engineering; Ph.D.; 1994; Cornell University.

QUANT, Robert; 2017; Instructor in Curriculum and Instruction; M.Ed; 2012; University of Idaho.

QUELLER, Kurt; 1995; Senior Instructor of English; Ph.D.; 1985; Stanford University.

*QUINLAN, Sean M; 2001; Professor of History; Department Chair, Department of History; Ph.D.; 2000; Indiana University.

QUINN, Aleta; 2017; Assistant Professor of Philosophy; Ph.D.; 2015; University of Pittsburgh.

*QUINNETT, Kelly M; 1998; Professor of Theatre Arts; M.F.A.; 1997; University of Idaho.

*QUIST, Michael C; 2010; Adjunct Associate Professor of Fish and Wildlife Sciences; Ph.D.; 2002; Kansas State University.

R

*RACHLOW, Janet L; 2001; Professor of Wildlife Resources; Ph.D.; 1997; University of Nevada Reno.

*RADIL, Steven; 2014; Assistant Professor of Geography; Ph.D.; 2011; University of Illinois.

*RAJA, Krishnan; 2011; Associate Professor of Chemical and Materials Engineering; Ph.D.; 1993; Indian Institute of Technology.

RAMALINGAM, Sunil; 2013; Clinical Assistant Professor of Law; Director of Externships & Pro Bono; J.D.; 1997; University of Idaho.

RAMIREZ, Stefanie; 2014; Assistant Professor of Business and Economics; Ph.D.; 2014; University of Arizona.

*RAMSAY, Samantha; 2010; Associate Professor of Family and Consumer Sciences; Ph.D.; 2010; University of Idaho.

RANEY, Taylor C; 2015; Clinical Associate Professor of Curriculum and Instruction; Associate Department Chair of Curriculum and Instruction; Director, Teacher Education; Ed.D.; 2014; Northwest Nazarene University.

RASCO, Barbara; 2011; Affiliate Professor of Food Science; Director, UI/WSU School of Food Science; J.D.; 1995; Seattle University.

*RASHED, Arash; 2013; Research Assistant Professor in Entomology, Plant Pathology and Nematology; Ph.D.; 2006; Carleton University.

RATCHFORD, M. Edward; 2014; Research Professor of Geology; Ph.D.; 1994; University of Idaho.

*RATTI, John T; 2005; Adjunct Professor of Fish and Wildlife Sciences; Ph.D.; 1977; Utah State University.

RAUK, Jan M; 2005; Instructor of Management, Marketing and Operations; M.B.A.; 1985; Colorado State University.

*REARDON, Richard; 1998; Professor of Psychology; Ph.D.; 1981; University of Georgia.

REED, David W; 2003; Adjunct Assistant Professor of Environmental Science; Ph.D.; 1999; University of Idaho.

REESE, Garth; 2010; Head, Special Collections and Archives with Rank of Associate Professor; Ph.D.; 200; Claremont Graduate University.

REGO, Francisco C; 2009; Adjunct Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1986; University of Idaho.

REHFELDT, Gerald E; 1967; Adjunct Professor of Forest Genetics; Ph.D.; 1967; University of Wisconsin.

*REID, James E; 1978; Professor of Music (guitar, music history); M.Mus.; 1978; Hartt College of Music.

*REINEKE, Sandra; 2001; Associate Professor of Political Science; Director, Honors Program; Ph.D.; 2000; Indiana University.

*REMBER, William C; 2004; Adjunct Assistant Professor of Geological Sciences; Ph.D.; 1991; University of Idaho.

*REMIEN, Christopher H; 2014; Assistant Professor of Mathematics; Affiliate Faculty in Biological Sciences, Statistical Science, and Bioinformatics and Computational Biology; Ph.D.; 2012; University of Utah.

*REZAIE, Behnaz; 2015; Assistant Professor of Mechanical Engineering; Ph.D.; 2013; University of Ontario Institute of Technology.

*REZAMAND, Pedram; 2008; Associate Professor of Animal and Veterinary Science; Ph.D.; 2006; University of Connecticut.

*REZKI, Zouheir; 2016; Assistant Professor in Electrical and Computer Engineering; Ph.D.; 2008; University of Montreal, Polytechnique.

RICE, Matthew L; 2000; Adjunct Clinical Professor of Medical Science; D.O.; 1993; Oklahoma State University.

RICHARD, Ronald P; 1985; Instructor in Animal Science; M.S.; 1985; Washington State University.

*RICHARDSON, Clarissa; 2015; Assistant Professor of Psychology; Ph.D.; 2015; University of Florida.

RICHARDSON, Ben; 2017; Research Assistant Professor in Biological Engineering; Ph.D.; 2012; Southern Illinois University.

RICHEL, Karen L; 2008; Associate Extension Professor and Northern District Extension Educator; M.S.; 2005; Virginia Polytechnic Institute.

RIDENHOUR, Benjamin J; 2014; Research Assistant Professor of Biological Sciences; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2004; Indiana University.

RINK, Karl; 2012; Adjunct Faculty in Mechanical Engineering; Ph.D.; 1994; University of Utah.

*RINKER, Robert E; 1975; Associate Professor of Computer Science; Affiliate Faculty in Electrical and Computer Engineering; Ph.D.; 2006; Colorado State University.

*ROBBERECHT, Ronald; 1983; Professor of Forest, Rangeland, and Fire Sciences; Affiliate Professor of Environmental Science, and of Bioinformatics and Computational Biology; Ph.D.; 1981; Utah State University.

Roberson, Dakota; 2017; Assistant Professor of Electrical Engineering; Ph.D.; 2017; University of Wyoming.

ROBERTS, Brooks; 2007; Research Professor in Mathematics; Ph.D.; 1992; University of Chicago.

ROBERTSON, Amy M; 2015; Extension Assistant Professor and Extension Educator; M.S.; 2014; University of Idaho.

ROBERTSON, Eric P; 2008; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 2005; Colorado School of Mines.

ROBERTSON, Daniel; 2017; Assistant Professor in Mechanical Engineering; Ph.D.; 2013; Brigham Young University.

ROBICHAUD, Peter R; 1994; Adjunct Assistant Professor of Biological Engineering; Adjunct Faculty of Forest, Rangeland, and Fire Sciences; Ph.D.; 1996; University of Idaho.

*ROBISON, Barrie D; 2003; Professor of Biological Sciences; Affiliate Faculty in Bioinformatics and Computational Biology and Neuroscience; Director, Institute of Bioinformatics and Evolutionary Studies; Ph.D.; 1999; Washington State University.

RODHOUSE, Thomas J; 2013; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2011; University of Idaho.

*RODRIGUEZ, Javier; 2014; Assistant Professor of Music; D.Mus.; 2012; Florida State University.

RODRIGUEZ, Richard; 2017; Affiliate Faculty in Aerospace Studies; B.S.; 2014; Manhattan College.

ROE, Annie JoEllen; 2016; Assistant Professor in Family and Consumer Sciences; Ph.D.; 2015; University Friedman School of Nutrition Science and Policy.

ROGERS, Chris W; 2014; Research Assistant Professor in Plant Sciences; Ph.D.; 2014; University of Arkansas.

ROGERS, J.W.; 2011; Adjunct Faculty of Chemical and Materials Engineering; Ph.D.; 1979; University of Texas.

ROHEIM, Cathy A; 2011; Professor of Agricultural Economics and Rural Sociology; Department Head, Department of Agricultural Economics and Rural Sociology; Ph.D.; 1990; University of California Davis.

ROLAND, Tyanne J; 2013; Extension Assistant Professor and Extension Educator in the Southern District; M.S.; 2006; University of Idaho.

*ROLL, Mark; 2011; Associate Professor in Chemical and Materials Engineering; Ph.D.; 2010; University of Michigan.

ROON, David A; 2012; Clinical Assistant Professor of Fish and Wildlife Sciences; Ph.D.; 2003; University of Idaho.

ROONEY, Michael T; 1989; Adjunct Clinical Professor of Medical Science; M.D.; 1979; Indiana University.

ROSE, Cathy L; 2002; Adjunct Assistant Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1991; Oregon State University.

ROSENBLUM, Erica B; 2008; Adjunct Faculty of Biological Sciences; Ph.D.; 2005; University of California Berkeley.

*ROSENZWEIG, R. Francis; 1992; Adjunct Associate Professor of Biology; Ph.D.; 1991; University of Pennsylvania.

ROSS, Carolyn F; 2011; Affiliate Associate Professor of Food Science; Ph.D.; 2001; Michigan State University.

ROSS-DAVIS, Amy L; 2015; Adjunct Faculty of Forest, Rangeland, and Fire Science; Ph.D.; 2006; Purdue University.

ROUNDS, Mark S; 2003; Instructor in Business; M.S.; 2000; Washington State University.

ROWLEY, Paul; 2016; Assistant Professor in Biological Sciences; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2007; The University of Aberdeen.

ROWLEY, Roger H; 2005; Affiliate Assistant Professor of Art and Design; Director, Prichard Art Gallery; M.F.A.; 1992; SUNY at Buffalo.

*RUDZITIS, Gundars; 1983; Affiliate Professor of Environmental Science; Ph.D.; 1977; University of Chicago.

RUHOFF, Norman Francis; 2016; Extension Assistant Professor and Area Extension Educator in Agricultural Economics and Rural Sociology; M.S.; 1988; University of Idaho.

RUIZ, Rikki Lee; 2007; Extension Associate Professor and Extension Educator in the Southern District; M.S.; 2005; University of Idaho.

RUMEL, John E; 2011; Associate Professor in Law; J.D.; 1981; University of California.

RUNNING, Kristina J; 2012; Instructor of Law; J.D.; 2008; University of Idaho.

RUPP, Richard; 2014; Adjunct Faculty of Forest, Rangeland, and Fire Sciences; Ph.D.; 1986; Washington State University.

*RYU, Dojin; 2012; Research Professor in the School of Food Science; Ph.D.; 1997; University of Nebraska.

*RYU, Jae; 2010; Research Associate Professor in Soil and Water Systems; Affiliate Faculty in Biological Engineering; Affiliate Faculty in Civil and Environmental Engineering; Ph.D.; 2006; University of Washington.

S

SACK, Ronald L; 2014; Adjunct Faculty of Civil and Environmental Engineering; Ph.D.; 1964; University of Minnesota.

*SAFALI, SeAnne J; 2008; Associate Professor of Family and Consumer Sciences; Ph.D.; 2005; University of Idaho.

SAGERS, Joseph K; 2016; Extension Assistant Professor and Eastern District Extension Educator; M.S.; 2016; Utah State University.

SALA, Osvaldo E; 2013; Adjunct Faculty of Forest, Rangeland, and Fire Sciences; Ph.D.; 1982; Colorado State University.

*SALADIN, Steve A; 1985; Licensed Psychologist with rank of Professor in the Counseling and Testing Center; Affiliate Professor in Psychology and Communication Studies; Ph.D.; 1995; University of Idaho.

*SAMMARRUCA, Francesca; 1989; Professor of Physics; Ph.D.; 1988; Virginia Polytechnic Institute.

SANCHEZ, Belinda Joan; 2016; Clinical Assistant Professor in Medical Education Program; D.A.T.; 2016; University of Idaho.

SANDERS, Shaakirrah; 2011; Associate Professor of Law; J.D.; 2001; Loyola University School of Law.

SANSANO, Anthony; 2017; Affiliate Faculty in Aerospace Studies; M.A.; 2014; Air War College.

SANT, Laura L; 2001; Extension Professor and Eastern District Extension Educator; M.S.; 2000; Utah State University.

*SAPPINGTON, R. Lee; 1986; Associate Professor of Anthropology; Ph.D.; 1994; Washington State University.

SARATHCHANDRA, Dilshani; 2014; Assistant Professor of Sociology and Anthropology; Ph.D.; 2013; Michigan State University.

SASAHARA, Akira; 2017; Assistant Professor of Economics; Ph.D.; 2017; University of California, Davis.

SATZ, Michael A; 2006; Associate Professor of Law; Executive Officer, Southwest Idaho; J.D.; 2000; University of Michigan..

*SAXENA, Vishal; 2016; Associate Professor/Micron Endowed Professor in Electrical and Computer Engineering; Ph.D.; 2010; Boise State University.

SAXMAN, Bruce; 2015; Clinical Assistant Professor of Movement Sciences; Recreation, Sport, and Tourism Management Program Coordinator; M.A.; 2000; University of Nebraska-Omaha.

*SCARNECCHIA, Dennis L; 1990; Professor of Fishery Resources; Affiliate Professor of Environmental Science; Ph.D.; 1983; Colorado State University.

SCHAB, Aaron Christopher; 2016; Instructor in English; M.A.; 2006; University of Idaho.

SCHAFFER, James; 2000; Extension Professor and Extension Educator (Fiscal Management); Ph.D.; 1981; Kansas State University.

SCHARNHORST, Angela R; 2016; Clinical Assistant Professor in Medical Education Program; M.D.; 2007; Medical College of Wisconsin.

SCHEEF, Andrew; 2017; Assistant Professor in Special Education; Ph.D.; 2016; Washington State University.

SCHEILE, Nathan R; 2015; Assistant Professor of Biological Engineering; Ph.D.; 2012; Rensselaer Polytechnic Institute.

SCHELDORF, Jay J. Jr; 1992; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1992; University of Idaho.

SCHILL, Daniel J; 2010; Adjunct Assistant Professor of Fish and Wildlife Sciences; Ph.D.; 2009; University of Idaho.

*SCHMIEGE, Cynthia J; 1996; Associate Professor of Family and Consumer Sciences; Ph.D.; 1994; Oregon State University.

*SCHNEIDER, Christopher S; 2004; Associate Professor of Dairy Production Medicine; D.V.M.; 1999; Washington State University.

SCHNEIDER, Lindsey; 2017; Affiliate Faculty in American Indian Studies Program; Ph.D.; 2016; University of California.

SCHNEPF, Christopher C; 1988; Extension Professor and Panhandle Area Extension Educator (Forestry); M.S.; 1987; Washington State University.

SCHRODER, Laura A; 2014; Clinical Assistant Professor of WWAMI Medical Education; Ph.D.; 2007; University of Florida.

*SCHROEDER, Brenda; 2014; Research Associate Professor in Entomology, Plant Pathology and Nematology; Ph.D.; 1997; Washington State University.

*SCHROEDER, Kurtis L; 2013; Assistant Professor in Plant Sciences; Ph.D.; 2004; Washington State University.

SCHULTZ, Irvin R; 2002; Adjunct Associate Professor of Biological Sciences; Ph.D.; 1990; Washington State University.

SCHULTZ, Richard R; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 2010; Idaho State University.

SCHWANDT, John W; 1986; Adjunct Assistant Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1979; University of Idaho.

*SCHWARZLÄNDER, Mark; 2000; Research Professor in Entomology, Plant Pathology and Nematology; Affiliate Associate Professor of Environmental Science; Ph.D.; 1999; Christian Albrechts University.

*SCOFIELD, Rebecc E; 2016; Assistant Professor of History; Ph.D.; 2015; Harvard University.

SCOLES, Glen A; 200; Adjunct Associate Professor of Entomology, Plant Pathology and Nematology; Ph.D.; 1997; University of Notre Dame.

SCOTT, Danielle N; 2016; Senior Instructor and Northern District Associate Extension Educator; B.A.; 2008; Lewis Clark State College.

*SCOTT, Elizabeth A; 2013; Associate Professor of Landscape Architecture; Program Head, Landscape Architecture; M.L.A.; 2005; University of Oregon.

SCOTT, Julie; 2014; Instructor in Journalism and Mass Media; B.A.; 1989; California State University, Florentine.

*SCRUGGS, Philip W; 2008; Professor of Movement Sciences; Department Chair, Department of Movement Sciences; Ph.D.; 2001; University of Utah.

SEALEY, Wendy M; 2009; Adjunct Associate Professor of Animal and Veterinary Science; Ph.D.; 2000; Texas A&M University.

*SEAMON, Richard; 2004; Professor of Law; J.D.; 1986; Duke Univers.

*SEEGMILLER, Jeffrey G; 2007; Associate Professor of WWAMI and Athletic Training; Director, WWAMI Medical Program; Ed.D.; 2003; Illinois State University.

SENOCAK, Inanc; 2013; Adjunct Faculty of Mechanical Engineering; Ph.D.; 2002; University of Florida.

*SHAKLEE, Harriet L; 1999; Extension Professor of Family and Consumer Sciences ; Extension Family Economics Specialist; Ph.D.; 1976; University of Oregon.

*SHAPIRO, Pamela J; 1991; Professor of Chemistry; Ph.D.; 1991; California Institute of Technology.

SHARMA, Bal Krishna; 2016; Assistant Professor in English; Ph.D.; 2016; University of Hawaii at Manoa.

*SHARMA, Sunil; 1986; Professor of Civil Engineering (P.E.); Ph.D.; 1986; Purdue University.

SHAVER, Eric F; 2012; Adjunct Faculty of Psychology and Communication Studies; Ph.D.; 2004; North Carolina State University.

SHAW, Nancy L; 1997; Adjunct Associate Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1992; Oregon State University.

*SHELDON, Frederick T; 2015; Professor of Computer Science; Ph.D.; 1996; University of Texas at Arlington.

SHELLIE, Krista C; 2001; Adjunct Associate Professor in Plant Sciences; Ph.D.; 1990; Michigan State University.

SHELSTAD, Nancy M; 2008; Extension Associate Professor and Southern District Extension Educator; M.S.; 2006; University of Idaho.

SHEPARD, Bradley B; 2013; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2010; Montana State University.

*SHEWMAKER, Glenn E; 1999; Professor in Plant Sciences; Ph.D.; 1998; Utah State University.

*SHIH, Ting-Yen; 2017; Assistant Professor in Electrical and Computer Engineering; Ph.D.; 2017; 2017.

SHIPES, Matthew; 2016; Clinical Assistant Professor in Lionel Hampton School of Music; D.M.A.; 2014; University of Georgia.

SHIPLEY, Lisa A; 2004; Adjunct Associate Professor Fish and Wildlife Sciences; Ph.D.; 1993; Texas A&M University.

SHIRLEY, Lindse M; 2007; Assistant Professor of Family and Consumer Sciences; Ph.D.; 2006; Iowa State University.

*SHOOK, Steven R; 1998; Professor of Renewable Materials; Associate Dean, College of Natural Resources; Ph.D.; 1997; University of Washington.

SHOVIC, John C; 1995; Clinical Faculty in Computer Science; Ph.D.; 1988; University of Idaho.

*SHREEVE, Jean'ne M; 1961; Distinguished Professor of Chemistry; Ph.D.; 1961; University of Washington.

*SHRESTHA, Dev Sagar; 2004; Research Professor in Biological Engineering; Ph.D.; 2003; Iowa State University..

*SHRESTHA, Manoj K; 2008; Associate Professor of Political Science; Ph.D.; 2008; Florida State University.

SHRUM, Renae L; 2014; Senior Instructor in Statistical Sciences; M.S.; 2008; University of Idaho.

*SIELERT, Vanessa; 2007; Associate Professor of Music in the Lionel Hampton School of Music; D.M.A.; 2005; University of Illinois.

*SIELERT, Vern A; 2006; Professor of Music (Trumpet, Jazz Band, Jazz History); D.M.A.; 2005; University of Illinois.

*SIGLER, David S; 2008; Associate Professor of English; Ph.D; 2008; University of Virginia.

SILKWOOD, Gail E; 2013; Extension Assistant Professor and Extension Educator; M.S.; 2012; University of Idaho.

SIMOKAT, Kristin A; 2008; Lecturer in Biological Sciences; Ph.D.; 2005; University of Wisconsin.

SIMPSON, Dennis; 1989; Adjunct Clinical Professor of Medical Science; M.D.; 1976; University of Kansas.

SIMPSON, Michael F; 2004; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1996; Princeton University.

SIMPSON, John T; 2017; Adjunct Faculty in Electrical and Computer Engineering; Ph.D.; 1995; University of Arizona.

*SINI, Raffaella; 2016; Assistant Professor in Landscape Architecture; Ph.D.; 2001; Universita degli Studi de Roma La Sapienza.

SISODIYA, Sanjay R; 2008; Associate Professor of Business; Affiliate Faculty in Forest, Rangeland and Fire Sciences; Affiliate Faculty in Engineering Management; Affiliate Faculty in Technology Management; Ph.D.; 2008; Washington State University.

SKINNER, Marc T; 2015; Executive Officer, Southeast Idaho; Ph.D.; 1999; University of Idaho.

SLATER, Christine M; 2015; Instructor in International Programs; M.A.; 2013; University of Idaho.

*SLOVIC, Scott H; 2012; Professor of English; Department Chair, Department of English; Affiliate Faculty in Natural Resources and Society; Ph.D.; 1990; Brown University.

*SMALL, Brian C; 2016; Professor of Fish and Wildlife Sciences; Ph.D.; 1988; University of Maryland.

SMALL, Meranda J; 2014; Extension Assistant Professor and Eastern District Extension Educator; M.S.; 2014; University of Idaho.

SMARTT, Herschel B; 1986; Adjunct Associate Professor of Materials Science and Engineering and Metallurgical and Mining Engineering; Ph.D.; 1974; University of Texas.

SMENTKOWSKI, Brian;; Professor in Politics and Philosophy; Director, Center for Excellence in Teaching and Learning; Ph.D.; 1994; University of Kentucky.

*SMITH, Alistair M; 2004; Professor in Forest, Rangeland, and Fire Sciences; Director, Forest and Rangeland Measurements Laboratory; Ph.D.; 2004; University of London.

*SMITH, Brennan M; 2014; Assistant Professor of Food Science; Ph.D.; 2012; Kansas State University.

SMITH, Daniel B; 1996; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1991; University of Idaho.

SMITH, David L; 2006; Adjunct Professor of Biological and Agricultural Engineering; Ph.D.; 2003; University of Idaho.

*SMITH, Kasee L; 2016; Assistant Professor in Agricultural and Extension Education; Ph.D.; 2016; Texas A&M University.

SMITH, Rochelle A; 2006; Reference/Instruction Librarian with rank of Associate Professor; M.F.A.; 2006; University of Idaho.

SMITH, Steven A; 2012; Clinical Associate Professor of Journalism and Mass Media; M.A.; 1976; Ohio State University.

SMITH, William L; 2014; Clinical Professor of the Martin School; Affiliate Assistant Professor of History; Ph.D.; 2000; Washington State University.

SNYDER, William; 2015; Adjunct Faculty in Entomology, Plant Pathology and Nematology; Ph.D.; 1999; University of Kentucky.

SOMMERLAD-ROGERS, Deirdre; 2005; Assistant Professor of Justice Studies; Ph.D.; 2004; Bowling Green State University.

*SON, Julie S; 2011; Associate Professor of Movement Sciences; Ph.D.; 2006; Penn State University.

*SONG, Jia (Cindy); 2016; Research Assistant Professor in Computer Science; Ph.D.; 2014; University of Idaho.

*SONNICHSEN, Michael R; 2014; Assistant Professor of Art and Design; M.F.A.; 2005; University of New Mexico.

*SORENSEN, Ginger K; 2014; Clinical Assistant Professor of Theatre Arts; M.F.A.; 2002; North Carolina School of Arts.

SORENSEN, Terrell O; 2016; Extension Assistant Professor; Eastern District Extension Educator; M.S.; 1978; Utah State University.

*SOROUR, Sameh; 2016; Assistant Professor in Electrical and Computer Engineering; Ph.D.; 2011; University of Toronto.

*SOTO, Amanda; 2010; Assistant Professor of Music Education; Ph.D.; 2010; University of Washington.

*SOULE, Terence; 1994; Professor of Computer Science; Affiliate Faculty in Bioinformatics and Computational Biology and Neuroscience; Ph.D.; 1998; University of Idaho.

*SOWARDS, Adam M; 2005; Professor of History; Ph.D.; 2001; Arizona State University.

SPADY, Robert N; 2001; Adjunct Clinical Professor of Medical Science; M.D.; 1985; Loma Linda University.

SPAIN, Francis K; 1979; Adjunct Clinical Professor of Medical Science; M.D.; 1976; University of Washington.

SPENCE, Ingrid E; 2014; Clinical Assistant Professor of Curriculum and Instruction; M.A.; 1995; University of Idaho.

*SPENCE, Richard B; 1986; Professor of History; Ph.D.; 1981; University of California Santa Barbara.

SPENCER, Marnie R; 2000; Extension Professor; Eastern District Extension Educator; Director, Eastern District; M.S.; 1992; Utah State University.

*SPRENKE, Kenneth F; 1982; Professor of Geophysics; Ph.D.; 1982; University of Alberta.

SPRINKLE, James E; 2015; Research Associate Professor; Extension Specialist; Ph.D.; 1995; Texas A&M University.

*SRIVASTAVA, Soumya K; 2013; Assistant Professor of Chemical and Materials Engineering; Ph.D.; 2010; Mississippi State University.

STABEN, Chuck A; 2014; Professor of Biology; President, University of Idaho; Ph.D.; 1984; University of California Berkeley.

STARK, Carrie A; 2007; Extension Associate Professor of 4-H Programs; Ph.D.; 2007; University of Idaho.

*STARK, Jeffrey C; 1981; Research Professor in Plant Sciences; Superintendent, Aberdeen Research and Extension Center; Ph.D.; 1981; University of California Riverside.

*STAUFFER, Larry A; 1987; Professor of Mechanical Engineering; Dean, College of Engineering; Ph.D.; 1987; Oregon State University.

STELCK, Daniel S; 2008; Senior Instructor of Chemistry; Ph.D.; 2001; University of Idaho.

*STENKAMP, Deborah L; 1997; Professor of Zoology; Ph.D.; 1993; Johns Hopkins University.

*STEPHENS, Robert R; 1992; Professor of Mechanical Engineering; Ph.D.; 1990; University of Utah.

STEVENS, Philip J; 2015; Assistant Professor of Sociology and Anthropology; Ph.D.; University of Arizona.

STEWART, Roger C; 1978; Editor, Idaho Geological Survey; M.A.; 1973; University of Utah.

STODDART, Erin L; 2015; Librarian with rank of Associate Professor; Program Head, Special Collections and Archives; M.S.; 2007; University of Michigan.

STOIAN, Sebastian; 2017; Assistant Professor of Chemistry; Ph.D.; 2006; Carnegie Mellon University.

STOKES, Bradley; 2017; Assistant Professor in Irrigated Cropping Systems; Extension Educator; M.S.; 2012; University of Idaho.

*STOLL, Sharon K; 1980; Professor of Physical Education; Ph.D.; 1980; Kent State University.

STOLYAR, Sergey M; 2016; Research Associate Professor in Biological Sciences; Ph.D.; 1991; Institute of Microbiology and Virology.

*STONE, Robert W; 1998; Professor of Accounting and Information Systems; Ph.D.; 1983; Purdue University.

STORFER, Dinara; 2011; Senior Instructor of Chemistry; Ph.D.; 2001; University of Idaho.

*STRAND, Eva; 2000; Associate Professor in Forest, Rangeland, and Fire Sciences; Remote Sensing and GIS Lab Administrator, College of Natural Resources; Ph.D.; 2007; University of Idaho.

STRAND, William; 1989; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1989; University of Idaho.

STRAUSBAUGH, Carl; 2014; Adjunct Faculty in Plant Sciences; Ph.D.; 1988; Washington State University.

*STRAWN, Daniel G; 2000; Professor in Soil and Water Systems; Affiliate Professor of Environmental Science; Ph.D.; 1998; University of Delaware.

STRICKLAND, Michael; 2017; Research Assistant Professor of Microbial Ecology; Ph.D.; 2009; University of Georgia.

STRINGHAM, Tamzen; 2011; Adjunct Professor of Forest Ecology and Biogeosciences; Ph.D.; 1996; Oregon State University.

STROHMEYER, Ronald W; 2006; Adjunct Assistant Professor of Biological Sciences; Ph.D.; 2001; Arizona State University.

STUEN, Eric; 2008; Associate Professor of Economics; Ph.D.; 2008; University of Colorado.

*STUMPF, Bernhard J; 1988; Associate Professor of Physics; Ph.D.; 1981; Saarland.

*SULLIVAN, Dennis M; 1993; Professor of Electrical Engineering; Ph.D.; 1987; University of Utah.

*SULLIVAN, John M; 1996; Professor of Zoology; Affiliate Faculty in Bioinformatics and Computational Biology; Director, Institute of Bioinformatics and Evolutionary Studies; Ph.D.; 1995; University of Connecticut.

SUZUKI, Ikuyo; 1994; Lecturer in Modern Languages and Cultures; Ed.S.; 2006; University of Idaho.

SVANCARA, Leona K; 2011; Adjunct Faculty of Fish and Wildlife Sciences; Ph.D.; 2010; University of Idaho.

SWEAT, Amanda; 2017; Affiliate Faculty of Aerospace Studies; Affiliate Faculty of Aerospace Studies; 2014; University of Connecticut.

SWENSON, Matthew; 2018; Affiliate Professor in Mechanical Engineering; Ph.D.; 2017; Boise State University.

SWENSON, Matthew; 2017; Assistant Professor in Mechanical Engineering; Affiliate Faculty in Chemical and Materials Engineering; Ph.D.; 2017; Boise State University.

SWITZER, William R; 1993; Adjunct Assistant Professor of Chemical Engineering; M.S.Ch.E.; 1972; University of Southern California.

T

*TALCOTT, Patricia A; 1990; Adjunct Associate Professor of Animal and Veterinary Sciences; Ph.D.; 1989; University of Idaho.

TALHELM, Alan; 2015; Adjunct Faculty in Forest, Rangeland and Fire Sciences; Ph.D.; 2007; Michigan Technological University.

*TALLENT, Rebecca J; 2006; Associate Professor of Journalism and Mass Media; Ed.D.; 1995; Oklahoma State University.

TAMADA, Osamu; 2011; Adjunct Professor of Geology; Ph.D.; 1980; Kyoto University.

*TANK, David C; 2008; Associate Professor of Biological Sciences; Director of the Herbarium; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2006; University of Washington.

TANNER, George W; 2012; Instructor of Business; M.B.A.; 1976; West Virginia University.

TARKALSON, David D; 2008; Adjunct Associate Professor in Soil and Water Systems; Ph.D.; 2001; North Carolina State University.

TATE, Kimberly; 2017; Instructor, Associate Extension Educator; B.A.; B.A.; Boise State University.

*TAYLOR, R. Garth; 1998; Associate Professor of Agricultural Economics; Ph.D.; 1991; Colorado State University.

TAYLOR, Robert V; 2011; Adjunct Associate Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1999; University of New Mexico.

*TEAGUE, Alexandra; 2011; Associate Professor of English; M.F.A.; 1999; University of Florida.

*TEAL, Randall F; 2006; Associate Professor of Architecture; Program Head, Architecture; M.I.Arch.; 2000; University of Oregon.

TEJEDA, Hernan; 2016; Extension Assistant Professor; Extension Specialist in Agricultural Economics and Rural Sociology; Ph.D.; 2010; North Carolina State University.

*TELESETSKY, Anastasia; 2009; Professor of Law; L.L.M.; 2009; University of British Columbia.

*TENUTO, Penny L; 2010; Assistant Professor of Leadership and Counseling; Ph.D.; 2006; University of Idaho.

TERRIO, Judi; 2017; Instructor in Mathematics; M.S.; 1998; University of Idaho.

THOMPSON, Darren; 2016; Adjunct Faculty in Chemistry; Ph.D.; 2009; University of California.

THOMPSON, Karen L; 1995; Senior Instructor in English; M.A.; 1994; University of Idaho.

THOMPSON, Paul; 2017; Assistant Professor of Music; Director of Choral Activities; D.M.A.; 2016; University of Colorado.

THORNE, Deborah K; 2016; Associate Professor in Sociology and Anthropology; Ph.D.; 2001; Washington State University.

*THORNTON, Michael K; 1993; Research Professor, Extension Specialist in Plant Sciences; Ph.D.; 1990; University of Idaho.

THORNTON, Robert L; 2006; Lecturer in Architecture and Interior Design; B.Arch.; 1985; University of Idaho.

THORP, Robbin; 2017; Adjunct Faculty in Entomology, Plant Pathology and Nematology; Ph.D.; 1964; University of California, Berkeley.

*THORSTEINSON, Todd J; 1998; Professor of Psychology; Department Chair, Department of Psychology and Communication Studies; Ph.D.; 1998; Bowling Green State University.

TIFFT, Kathleen J; 2001; Assistant Extension Professor; Nez Perce County Extension Educator (Aging Issues/Community Development); M.S.; 2001; University of Idaho.

TING, Robert M; 1999; Adjunct Clinical Professor of Medical Science; M.D.; 1995; Medical College of Ohio.

*TOHANEANU, Stefan O; 2013; Assistant Professor of Mathematics; Ph.D.; 2007; Texas A&M University.

*TONINA, Daniele; 2009; Associate Professor of Civil Engineering (P.E.); Affiliate Faculty of Biological Engineering; Ph.D.; 2005; University of Idaho.

TOOMEY, M. Maureen; 2016; Assistant Professor of Healthy Living; Extension Educator; M.Ed.; 1993; University of Idaho.

*TOP, Eva M; 2001; Professor of Biological Sciences; Affiliate Faculty and Director, Bioinformatics and Computational Biology; Ph.D.; 1993; Ghent University (Belgium).

TOSIC, Predrag; 2017; Assistant Professor in Computer Science; Ph.D.; 2006; University of Illinois at Urbana-Champaign.

TOTEMEIER, Terry C; 1999; Adjunct Assistant Professor of Materials Science and Engineering and Metallurgical Engineering; Ph.D.; 1994; University of Cambridge.

*TRANMER, Andrew Wendall; 2016; Research Assistant Professor of Civil Engineering; Ph.D.; 2013; University of Idaho.

TRAVER, Susan J; 2001; Associate Extension Professor; Bonner County Extension Educator (Community Development); M.S.; 2000; University of Idaho.

TREZZA, Ricardo; 2013; Research Associate Professor of Biological Engineering; Ph.D.; 2002; Utah State University.

TRIGSTED, Kirk C; 1994; Senior Instructor in Mathematics; Director, Polya Math Learning Center; M.S.; 1996; University of Idaho.

*TRIPEPI, Robert R; 1984; Professor in Plant Sciences; Interim Department Head, Department of Plant Sciences; Ph.D.; 1984; Purdue University.

*TROTTER, Thomas V; 1990; Professor of Counseling and School Psychology; Coordinator, Counseling and Human Services Program; Ph.D.; 1981; University of Idaho.

*TSAO, Ling-Ling; 2008; Associate Professor of Family and Consumer Sciences; Ph.D.; 2004; Indiana University.

TURGEON, O. Abe Jr.; 2003; Adjunct Associate Professor of Animal and Veterinary Science; Ph.D.; 1984; University of Nebraska.

*TURNER-RAHMAN, Gregory; 2004; Associate Professor of Art and Design; Program Head, Art and Design; Ph.D.; 2004; Washington State University.

TURPIN, Zachary J; 2017; Assistant Professor of American Literature; Ph.D.; 2017; University of Houston.

TUTHILL, David R; 2007; Adjunct Professor of Civil and Environmental Engineering; Ph.D.; 2002; University of Idaho.

*TYLER, Donald E; 1988; Professor of Anthropology; Ph.D.; 1987; Washington State University.

TYSON, David R; 2006; Adjunct Assistant Professor of Chemical Engineering; Ph.D.; 1990; Iowa State University.

U

*UNLU, Gulhan; 2000; Associate Professor in the School of Food Science; Affiliate Faculty in Biological Engineering; Ph.D.; 1998; University of Wisconsin.

*UTGIKAR, Vivek; 2001; Professor of Chemical and Materials Engineering; Affiliate Professor of Environmental Science; Associate Dean for Research, College of Engineering; Ph.D.; 1993; University of Cincinnati.

UTZMAN, Glen G; 1974; Associate Professor of Accounting; L.L.M.; 1994; New York University.

UTZMAN, Glen G; 1974; Associate Professor of Accounting; L.L.M.; 1994; New York University.

V

*VAKANSKI, Aleksandar; 2014; Clinical Assistant Professor of Industrial Technology; Affiliate Faculty in Computer Science; Ph.D.; 2013; Ryerson University.

*VALLIERE, Robert P; 2012; Clinical Assistant Professor of Theatre Arts; M.F.A.; 2010; University of Idaho.

VAN KIRK, Robert; 2017; Adjunct Faculty in Soil and Water Systems; Ph.D.; 1995; University of Utah.

VANGUNDY, Sarah; 2011; Instruction/Reference Librarian with rank of Senior Instructor; M.L.I.S.; 2008; University of Oklahoma.

VANVRANKEN, Russell A; 2017; Affiliate Faculty in Military Science; B.S.; 2015; University of Phoenix.

*VASDEKIS, Andreas; 2014; Assistant Professor of Physics; Affiliate Faculty in Chemical and Materials Engineering; Professor of Biological Engineering and Bioinformatics and Computational Biology; Ph.D.; 2008; University of St. Andrews.

*VAUGHN, Margaret; 2011; Associate Professor in Curriculum and Instruction; Ph.D.; 2010; University of North Carolina.

VEGA, Liliana; 2008; Extension Associate Professor; Extension Educator in the Southern District; M.S.; 2011; University of Idaho.

*VELLA, Chantal; 2011; Associate Professor of Movement Sciences; Ph.D.; 2004; University of New Mexico.

VELTE, Ashlyn; 2016; Librarian with rank of Assistant Professor; M.L.I.S.; 2016; University of North Carolina at Chapel Hill.

*VIERLING, Kerri T; 2004; Professor of Wildlife Resources; Ph.D.; 1998; University of Colorado.

*VIERLING, Lee A; 2004; Professor of Forest, Rangeland, and Fire Sciences; Department Head, Natural Resources and Society, College of Natural Resources; Ph.D.; 1999; University of Colorado.

VIEUX, Seth; 2017; Affiliate Faculty in Military Science; M.S.; 2008; Hawaii Pacific University.

VON LINDERN, Ian H; 1981; Adjunct Professor of Chemical Engineering; Ph.D.; 1980; Yale University.

*VON WANDRUSZKA, Ray; 1987; Professor of Chemistry; Affiliate Professor of Environmental Science; Department Chair, Department of Chemistry; Interim Department Chair, Department of Physics; Ph.D.; 1977; University of Wyoming.

VOS, Jacobus; 2015; Professor of Bioregional Planning and Community Design; Program Head, Bioregional Planning; Ph.D.; 1996; University of Illinois at Urbana-Champaign.

VU, Thanh Danae; 2017; Clinical Assistant Professor in the Medical Education Program; M.D.; 1997; New York Medical College.

W

WACHS, Daniel M; 2016; Adjunct Faculty in Nuclear Engineering Program; Ph.D.; 2002; University of Idaho.

WAGNER, Christopher; 2009; Adjunct Assistant Professor in Electrical and Computer Engineering; Ph.D.; 2004; Washington State University.

WAGSTAFF, Robert B; 1998; Adjunct Assistant Professor of Materials Science and Engineering and Metallurgical Engineering; B.S.; 1987; University of Idaho.

*WAITS, Lisette P; 1997; Distinguished Professor of Wildlife Resources; Affiliate Professor of Environmental Science, and of Bioinformatics and Computational Biology; Department Head, Department of Fish and Wildlife Sciences; Ph.D.; 1996; University of Utah.

WALDEN, Von P; 2001; Affiliate Professor of Environmental Science; Ph.D.; 1995; University of Washington.

WALKER, Deward E Jr.; 1967; Adjunct Professor of Anthropology; Ph.D.; 1964; University of Oregon.

WALKER, J. LaMonte; 2006; Lecturer in Business; B.S.; 1972; University of Idaho.

WALLIN, Abraham; 2016; Affiliate Faculty in Curriculum and Instruction; Ph.D.; 2015; University of Idaho.

*WALSH, Olga; 2014; Research Assistant Professor in Plant Sciences; Ph.D.; 2009; Oklahoma State University.

WALTNER, Scott S; 2003; Assistant Professor, Dairy Production Medicine Veterinarian; D.V.M.; 1996; University of Washington.

*WANG, Hong; 1997; Professor of Mathematics; Ph.D.; 1992; University of Calgary.

WARD-CLOSE, Malcolm; 1992; Adjunct Professor of Materials Science and Engineering and Metallurgy; Ph.D.; 1977; University of Birmingham.

Wargi, Johnathan; 2018; Affiliate Professor of Naval Science.

WARGO, Elizabeth; 2017; Assistant Professor in Educational Leadership; Ed.D.; 2016; University of Montana.

*WARNER, Mark S; 1998; Professor of Anthropology; Associate Dean of Graduate Studies, College of Letters, Arts and Social Sciences; Ph.D.; 1998; University of Virginia.

WARNICK, Ned E; 2015; Adjunct Faculty in Architecture; M.Arch.; 1995; University of Oregon.

WARREN, William; 2011; Extension Associate Professor; Extension Educator in the Northern District; Ph.D.; 1998; Washington State University.

*WATSON, Philip S; 2008; Research Associate Professor of Agricultural Economics and Rural Sociology; Ph.D.; 2008; Colorado State University.

WAYNANT, Kristopher V; 2014; Assistant Professor of Chemistry; Affiliate Assistant Professor in Chemical and Materials Engineering; Ph.D.; 2008; New Mexico State University.

WEGARS, Priscilla S; 1993; Adjunct Assistant Professor of Anthropology; Ph.D.; 1991; University of Idaho.

WELHAN, Manuel; 2017; Instructor in Mathematics; Ph.D.; 2010; University of Idaho.

WELLS, Richard B; 1981; Adjunct Professor in Chemical and Materials Engineering and in Neuroscience; Ph.D.; 1985; University of Idaho.

WELTZ, Mark A; 2009; Adjunct Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1986; Texas A&M University.

WEN, Haiming; 2017; Adjunct Faculty in Nuclear Engineering; Ph.D.; 2012; University of California.

*WENNINGER, Erik J; 2009; Research Associate Professor in Entomology, Plant Pathology and Nematology; Ph.D.; 2005; University of Massachusetts.

WERLIN, Jennifer Farley; 2016; Extension Assistant Professor; Eastern District Extension Educator; M.S.; 2006; University of Idaho.

*WERNER, Steffen; 2000; Associate Professor of Psychology; Ph.D.; 1994; University of Gottingen.

*WHARTON, Phillip; 2008; Research Associate Professor in Entomology, Plant Pathology and Nematology; Ph.D.; 1997; University of Reading.

WHEELER, Lee; 1983; Adjunct Professor of Chemical Engineering; B.S.; 1970; University of Idaho.

WHEELER, Tadd; Tadd; Instructor in Soil and Water Systems; Ph.D.; 2014; University of Idaho.

WHITEHURST, William A; 2013; Extension Assistant Professor; Extension Educator; M.S.; 2012; Montana State University.

WHITWORTH, Jonathan L; 1997; Adjunct Assistant Professor in Plant Sciences; Ph.D.; 1993; Oregon State University.

*WICHMAN, Holly A; 1988; Distinguished Professor of Zoology; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 1983; Wesleyan University.

WIENCEK, John M; 2015; Professor of Chemical and Materials Engineering; Provost and Executive Vice President, University of Idaho; Ph.D.; 1989; Case Western Reserve University.

*WIEST, Michelle M; 2008; Associate Professor of Statistics; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2007; University of California Davis.

WILDER, Michael David; 2016; Clinical Assistant Professor in Computer Science; Ph.D.; 2012; University of Idaho.

WILFONG, Alaena Karen; 2016; Extension Assistant Professor; Eastern District Extension Educator; M.S.; 2016; Kansas State University.

*WILHELM, Frank M; 2007; Professor in Fish and Wildlife Resources; Ph.D.; 1999; University of Alberta.

*WILHELMSEN, Cheryl A; 2013; Clinical Assistant Professor of Industrial Technology; Director, Industrial Technology; Ph.D.; 2013; University of Idaho.

*WILLIAMS, Christopher J; 1992; Professor of Statistics; Affiliate Professor of Bioinformatics and Computational Biology and Engineering Management and Technology Management; Department Chair,

Department of Statistics; Interim Department Chair, Department of Mathematics.

*WILLIAMS, Richard V; 1989; Professor of Chemistry; Ph.D.; 1978; University of Cambridge.

WILLIAMS, Shannon K; 2000; Extension Professor; Eastern District Extension Educator (Beef/Ranch); M.S.; 1995; Utah State University.

*WILLIAMS, Thomas J; 2013; Clinical Associate Professor of Geological Sciences; Ph.D.; 1995; University of Maryland.

*WILLIAMSON, Richard L; 1994; Adjunct Professor of Mechanical Engineering; Ph.D.; 1989; University of Idaho.

WILLIAMSON, Evan P; 2015; Digital Infrastructure Librarian with rank of Assistant Professor; MLIS; 2015; University of British Columbia.

*WILLIS, Barry; 1993; Professor of Education; Associate Dean of Outreach, College of Engineering; Ed.D.; 1981; Indiana University.

WILLIS, Charla; 2016; Clinical Assistant Professor in Medical Education Program; M.D.; 1991; Loma Linda University.

WILLMORE, Carmen J; 2015; Extension Assistant Professor; Extension Education in the Southern District; M.S.; 2015; University of Nebraska-Lincoln.

WILSON, James B; 1984; Extension Professor; Kootenai County Extension Educator (4-H/Youth Development); M.S.; 1982; University of Nebraska.

*WILSON, Miranda; 2010; Associate Professor of Music, Cello, Bass; D.M.A.; 2005; University of Texas.

*WILSON, Patrick R; 1999; Associate Professor of Natural Resources and Society; Affiliate Assistant Professor of Environmental Science; Interim Department Head, Department of Natural Resources and Society; Ph.D.; 1996; University of Alberta.

WILSON, Sharla Ann; 2016; Extension Assistant Professor; Northern District Extension Educator; M.S.; 2015; University of Idaho.

WINDES, William E; 2008; Adjunct Assistant Professor of Material Science and Engineering; Ph.D.; 2003; University of Idaho.

WINFREE, Jason; 2013; Associate Professor of Agricultural Economics and Rural Sociology; Ph.D.; 2003; Washington State University.

WITHAM, James H; 2001; Adjunct Assistant Professor of Fish and Wildlife Sciences; Ph.D.; 1983; Colorado State University.

WITTMAN, Grace A; 2005; Associate Extension Professor; Cassia County Extension Educator (Food/Nutrition); M.S.; 2004; University of Idaho.

*WOLBRECHT, Eric T; 2007; Associate Professor of Mechanical Engineering; Affiliate Assistant Professor of Electrical and Computer Engineering; Ph.D.; 2007; University of California Irvine.

WOLCOTT, Michael P; 2015; Adjunct Faculty of Forest, Rangeland, and Fire Sciences; Ph.D.; 1989; Virginia Polytechnic Institute.

WOLF, Brian; 2007; Associate Professor of Sociology and Anthropology; Department Chair, Department of Sociology and Anthropology; Ph.D.; 2005; University of Oregon.

*WOLF, Kattlyn J; 2008; Associate Professor of Agricultural and Extension Education; Ph.D.; 2008; Ohio State University.

*WOLFENDEN, Mark; 2014; Research Assistant Professor of Natural Resources and Society; Affiliate Faculty in Chemistry; Ph.D.; 2009; Montana State University.

*WOO, Alexander K; 2011; Associate Professor in Mathematics; Ph.D.; 2005; University of California Berkeley.

*WOOD, Thomas R; 2013; Clinical Associate Professor of Geological Sciences; Ph.D.; 2005; University of Idaho.

WOODHALL, James Warwick; 2016; Research Assistant Professor; Extension Specialist in Entomology, Plant Pathology and Nematology; Ph.D.; 2004; Harper Adams University.

WOOLLEY, Darryl J; 2007; Associate Professor of Accounting; Associate Dean, College of Business and Economics; Ph.D.; 2001; University of Utah.

WORAPONG, Jeerapun; 2009; Affiliate Assistant Professor of Forest Resources; Ph.D.; 2001; Montana State University.

WORTH, Dustin K; 2015; Clinical Assistant Professor in WWAMI Medical Education Program; Ph.D.; 2004; Kirksville College of Osteopathic Medicine.

WRAY, Tobias; 2017; Clinical Assistant Professor in English; Director of the Creative Writing Program; Ph.D.; 2017; University of Wisconsin, Milwaukee .

WRIGHT, Richard N; 1993; Adjunct Professor of Metallurgy; Ph.D.; 1982; Michigan Technology University.

WRIGHT, Nigel G; 2001; Adjunct Associate Professor of Civil and Environmental Engineering; Ph.D.; 1988; University of Leeds.

*WU, Xiao (Sarah); 2016; Assistant Professor in Biological Engineering; Ph.D.; 2009; University of Minnesota.

*WULFHORST, J.D.; 2000; Professor of Agricultural Economics; Affiliate Professor of Environmental Science; Director, Environmental Science; Ph.D.; 1997; Utah State University.

X

Xian, Min; 2017; Assistant Professor in Computer Science; Ph.D.; 2017; Utah State University.

*XIAO, Fangming; 2008; Associate Professor in Plant Sciences; Ph.D.; 2002; Kansas State University.

*XIAO, Fangming; 2008; Associate Professor in Plant Sciences; Ph.D.; 2002; Kansas State University.

*XING, Tao; 2011; Associate Professor of Mechanical Engineering; Ph.D.; 2002; Purdue University.

*XING, Tao; 2011; Associate Professor of Mechanical Engineering; Ph.D.; 2002; Purdue University.

XU, Shenghan; 2007; Associate Professor of Business; Ph.D.; 2007; University of Massachusetts.

XU, Shenghan; 2007; Associate Professor of Business; Ph.D.; 2007; University of Massachusetts.

Y

*YAGER, Elwyn M; 2007; Associate Professor of Civil Engineering (P.G.); Affiliate Faculty of Geological Sciences; Ph.D.; 2006; University of California Berkeley.

YAMA, Mark F; 1987; Associate Professor of Psychology; Ph.D.; 1979; Indiana University.

*YANITES, Brian J; 2016; Adjunct Faculty in Geological Sciences; Ph.D.; 2009; University of Colorado.

*YANITES, Brian J; 2016; Adjunct Faculty in Geological Sciences; Ph.D.; 2009; University of Colorado.

YOPP, David; 2012; Professor of Mathematics; D.A.; 1998; Idaho State University.

YOUNG, William P; 2003; Adjunct Assistant Professor of Biological Sciences; Ph.D.; 1996; Washington State University.

YOUNG, Montessa K; 2013; Extension Assistant Professor and Extension Educator; M.A.; 2006; University of Phoenix.

YOUNG, Shawn; 2017; Adjunct Faculty in Fish and Wildlife Sciences; Ph.D.; 2005; Clemson University.

YOUNG, Shaw; 2017; Adjunct Faculty in Fish and Wildlife Sciences; Ph.D.; 2005; Clemson University.

YOUNG, Montessa K; 2013; Extension Assistant Professor and Extension Educator; M.A.; 2006; University of Phoenix.

YOUNG, William P; 2003; Adjunct Assistant Professor of Biological Sciences; Ph.D.; 1996; Washington State University.

YOUNGS, Yolonda; 2016; Adjunct Faculty in Geography; Ph.D.; 2009; Arizona State University.

*YTREBERG, Marty; 2006; Associate Professor of Biophysics; Affiliate Faculty of Chemistry; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2000; University of Maine.

*YTREBERG, Marty; 2006; Associate Professor of Biophysics; Affiliate Faculty of Chemistry; Affiliate Faculty in Bioinformatics and Computational Biology; Ph.D.; 2000; University of Maine.

Z

ZABEL, Richard W; 2007; Adjunct Associate Professor of Fish and Wildlife Sciences; Ph.D.; 1994; University of Washington.

ZABEL, Richard W; 2007; Adjunct Associate Professor of Fish and Wildlife Sciences; Ph.D.; 1994; University of Washington.

ZACHARIAS, Mark; 2005; Adjunct Assistant Professor of Environmental Science; Ph.D.; 2001; University of Guelph.

ZACHARIAS, Mark; 2005; Adjunct Assistant Professor of Environmental Science; Ph.D.; 2001; University of Guelph.

*ZADEHGOL, Ata; 2014; Assistant Professor of Electrical and Computer Engineering; Ph.D.; 2011; University of Illinois.

*ZADEHGOL, Ata; 2014; Assistant Professor of Electrical and Computer Engineering; Ph.D.; 2011; University of Illinois.

ZEMETRA, Bob; 2012; Adjunct Faculty in Plant Sciences; Ph.D.; 1983; Colorado State University.

ZEMETRA, Bob; 2012; Adjunct Faculty in Plant Sciences; Ph.D.; 1983; Colorado State University.

ZHANG, Yanliang; 2015; Adjunct Faculty in Mechanical Engineering; Ph.D.; 2011; Rensselaer Polytechnic Institute.

ZHANG, Jianwei; 2004; Adjunct Assistant Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1994; University of Idaho.

ZHANG, Jianwei; 2004; Adjunct Assistant Professor of Forest, Rangeland, and Fire Sciences; Ph.D.; 1994; University of Idaho.

ZHANG, Yanliang; 2015; Adjunct Faculty in Mechanical Engineering; Ph.D.; 2011; Rensselaer Polytechnic Institute.

*ZHAO, Haiyan; 2014; Assistant Professor of Chemical and Materials Engineering; Ph.D.; 2009; Virginia Polytechnic Institute.

*ZHU, Pingchao; 1996; Professor of History; Ph.D.; 1996; Miami University.

ZHU, Meijun; 2012; Affiliate Faculty in Food Science; Ph.D.; 2004; Iowa State University.

ZHU, Meijun; 2012; Affiliate Faculty in Food Science; Ph.D.; 2004; Iowa State University.

*ZHU, Pingchao; 1996; Professor of History; Ph.D.; 1996; Miami University.

ZIELINSKI, Robert; 2017; Affiliate Professor of Naval Science Studies; B.S.; 2016; Old Dominion University.

EMERITI FACULTY

A

ABLES, Ernest D; Professor Emeritus of Wildlife Resources

ADAMS, David L; Professor Emeritus of Forest Resources

ADAMS, Douglas Q; Professor Emeritus of English

ADELE, Gail H; Professor Emerita of Mathematics

AIKEN, Katherine G; Professor Emerita in History

ALLDAFFER, Robert C; Extension Professor Emeritus

ANDEREGG, Doyle E; Professor of Biology and Associate Dean Emeritus

ANDERSON, Bruce C; Professor Emeritus of Pathology

ANDERSON, Erik; Professor Emeritus in Agricultural and Extension Education

ARAJI, Ahmed; Professor Emeritus of Agricultural Economics

ARMPRIEST, Diane; Associate Professor Emerita of Architecture

ASSEFI, Touraj; Professor Emeritus in Electrical and Computer Engineering

ATKINSON, David H; Professor Emeritus in Electrical and Computer Engineering

B

BAIRD, Dennis W; Social Science Librarian Emeritus with rank of Professor.

BAIRD, Lynn; Library Dean Emeritus

BALDRIDGE, Donald C; Professor Emeritus of History

BALDRIDGE, Jo A; Associate Registrar Emerita

BANKS, Stephen; Professor Emeritus of Communication

BARBER, David S; Professor of English and Department Chair Emeritus

BARBOUR, James; Professor Emeritus in Entomology, Plant Pathology and Nematology

BARBUT, Erol; Professor Emeritus of Mathematics

BATTAGLIA, Richard A; Professor Emeritus of Animal Science

BECHINSKI, Edward; Extension Professor Emeritus in Entomology, Plant Pathology and Nematology

BEESON, Richard W; Professor Emeritus of Sociology

BELL, Thomas O; Professor of Education and Provost Emeritus

BENNETT, David H; Professor Emeritus of Fishery Resources

BENNETT, Earl H. II; Professor of Geology and Dean Emeritus

BIALOSTOCKI, Arie; Professor Emeritus of Mathematics

BIKKIE, James A; Professor Emeritus of Vocational Teacher Education

BILLER, Ernest F; Professor Emeritus of Adult, Career, and Technology Education

BISCHOFF, Marilyn C; Extension Professor Emerita

BIZEAU, Elwood G; Professor Emeritus of Wildlife Resources

BLANTON, Paul L; Professor of Architecture and Dean Emeritus

BLEW, Mary C; Professor Emerita of English

BOBECK, Gene E; Professor Emeritus of Metallurgy

BOHACH, Gregory A; Professor Emeritus in Biological Sciences

BOHL, Williams H; Extension Professor Emeritus

BOISEN, Monte B. Jr.; Professor Emeritus of Mathematics and Department Head Emeritus

BOLZ, Darrell G; Extension Professor Emeritus

BOWLER, William B. Jr.; Professor Emeritus of Architecture

BRAMWELL, Keith A; Extension Professor Emeritus

BRANDAL, Willy; Professor Emeritus of Mathematics

BRANEN, A. Larry; Professor of Food Science and Associate Vice President of Northern Idaho Emeritus

BRANEN, Laurel J; Professor Emerita of Family and Consumer Sciences

BRANNON, Ernest L; Professor Emeritus of Fishery Resources and Animal Science

BRIDGES, George; Professor Emeritus of Foreign Languages and Literatures

BROCKWAY, Charles E; Professor Emeritus of Agricultural Engineering and Civil Engineering

BROWN, Bradford D; Professor Emeritus of Plant, Soil, and Entomological Sciences

BULGIN, Marie S; Professor Emerita of Veterinary Medicine

BULL, Richard C; Professor Emeritus of Animal Science

BUNTING, Stephen C; Professor Emeritus of Forest and Fire Ecology

BURCAW, G. Ellis; Professor Emeritus of Anthropology

BURNETT, Donald L; Professor Emeritus in Law

BUSH, John H. Jr.; Professor Emeritus of Geology

BYERS, John A; Professor Emeritus in Biological Sciences

C

CALNON, Mark B; Extension Professor Emeritus

CALVERT, James E. Jr.; Professor of Mathematics and Department Chair Emeritus

CAMPBELL, Alton G; Professor in Forest, Rangeland and Fire Sciences and Director, Honors Program Emeritus

CAMPBELL, Howard E; Professor Emeritus of Mathematics

CANNEY, George F; Professor Emeritus of Education

CARLSON, John E; Professor Emeritus of Rural Sociology

CARPENTER, Gene P; Research and Extension Professor Emeritus of Entomology

CARVER, Robert D; Extension Professor Emeritus of Agricultural Economics

CASSETTO, James M; Professor Emeritus of Industrial Technology Education

CAUDILLO, Jess D; Professor Emeritus of Recreation

CHAMBERLAIN, Valerie E; Professor Emerita of Geochemistry

CHAN, Samuel S. M.; Professor Emeritus of Mining Engineering

CHANDLER, Steven; Professor Emeritus in English

CHANDLER, Steven R; Professor Emeritus of English

CHANG, Kang-Tsung (Karl); Professor Emeritus of Geography and Cartography

CHAPMAN, Frederick L; Professor Emeritus of Theatre Arts

CHAVEZ, Edmund M; Professor of Communication and Manager of W. H. Kibbie/ASUI Activity Center Emeritus

CHELDELIN, Kathleen C; Extension Professor Emerita

CHEYNEY, Charles C; Extension Professor and Extension Educator Emeritus in the Eastern District

CHRISTENSON, Charles O; Professor Emeritus of Mathematics

CLEARMAN BLEW, Mary; Professor Emerita in English

CLOUD, Joseph G; Professor Emeritus of Biological Sciences

COCHRAN, Ruth; Reference Librarian Emerita with rank of Assistant Professor

COFFMAN, Richard B; Professor Emeritus of Economics

COLE, J. Roger; Professor Emeritus of Music

COLSON, Dennis C; Professor Emeritus of Law

CONDITT, Paul C; Gifts Librarian Emeritus with rank of Professor

COOK, Wilbur F; Extension Professor Emeritus

COOMBS, Don H; Professor Emeritus of Communication

COSTELLO, Patrick D; Professor Emeritus of Law

CRAWFORD, Donald L; Professor Emeritus of Microbiology

CROSS, Virgil S; Extension Professor Emeritus

CROWLEY, Donald W; Professor Emeritus of Political Science

CURTIS, Mary Lee; Extension Professor Emerita

D

DACEY, Jill A; Professor Emerita of Art and Design

DAHL, Becky L; Extension Professor Emerita

DAHMEN, Jerome J; Professor Emeritus of Animal Science

DALLIMORE, Clarence E; Extension Professor Emeritus

DANGERFIELD, Byron J; Professor Emeritus of Management Information Systems and Dean Emeritus

DAVIS, Jack L; Professor Emeritus of English

DAVIS, James R; Research Professor Emeritus of Plant Pathology

DAVIS, John C; Professor Emeritus of Teacher Education

DAVIS, Karen R; Research Professor Emerita of Home Economics Research

DAVIS, Raynold D; Extension Professor Emeritus of Agriculture

DAVIS, Richard C; Manuscripts-Archives Librarian Emeritus with rank of Professor

DAWSON, Jack L; Professor Emeritus of Education and Dean Emeritus

DEAN, Leslie L; Research Professor Emeritus of Plant Science

DELKA, Gary G; Professor Emeritus of Educational Administration

DEMUTH, Howard B; Professor Emeritus of Electrical Engineering

DEN BRAVEN, Karen R; Professor Emerita of Mechanical Engineering and Director Emerita of NIATT

DESHAZER, James A; Professor of Agricultural Engineering and Department Head Emeritus

DEUTCHMAN, Philip A; Professor Emeritus of Physics

DEVADOSS, Stephen; Professor Emeritus in Agricultural Economics and Rural Sociology

DICKOW, Robert H; Professor Emeritus of Music

DIERKER, Paul F; Professor Emeritus of Mathematics

DINOTO, Michael J; Professor Emeritus of Economics

DOERANN, Judith; Professor Emerita of Educational Administration and of Statistics

DONOHUE, Gregory W; Professor Emeritus in Computer Science

DOWDING, Edwin A; Professor Emeritus of Agricultural Engineering

DOZIER, Richard J; Professor Emeritus of English

DROWN, David C; Professor Emeritus of Chemical Engineering

DROWN, Stephen R; Professor Emeritus in Landscape Architecture

DUNHAM, Charles S; Extension Professor Emeritus of Agriculture

DUNNAM, Anthony K; Professor Emeritus of Computer Science

DUPREE, Mary H; Professor Emeritus of Music

DYER, Ruth G; Extension Professor Emerita

E

EBERLEIN, Charlotte V; Professor Emerita of Plant, Soil, and Entomological Sciences

ECKWRIGHT, Gail Z; Librarian Emerita with rank of Professor

EDER, Sid; Professor of Education and Director of Summer Programs and Extended Learning Emeritus

EDMISON, Glenn A; Professor Emeritus of Adult, Counselor, and Technology Education

EDWARDS, Dean B; Professor Emeritus in Chemical and Materials Engineering

EDWARDS, W. Daniel; Professor Emeritus of Chemistry

EGOLF, David P; Professor Emeritus of Electrical Engineering

EHRENREICH, John H; Professor Emeritus of International Forest and Range Resources

ELGER, Donald F; Professor Emeritus in Mechanical Engineering

ELSHABINI, Aicha; Distinguished Professor Emerita in Electrical and Computer Engineering

EROSCHENKO, Victor P; Professor Emeritus of Zoology

EVERSON, Dale O; Professor Emeritus of Statistics

EXON, Jerry H; Professor Emeritus of Food Science and Toxicology and Department Head Emeritus

F

FALK, Dean E; Extension Professor Emeritus

FALK, Dennis G; Professor Emeritus of Animal Science

FALTER, C. Michael; Professor Emeritus of Fishery Resources

FARLEY, Melvin W; Professor of Education and Director of Clinical Experiences in Teacher Education Emeritus

FAZIO, James R; Professor Emeritus of Conservation Social Sciences

FEELEY, Joseph J; Professor Emeritus of Electrical Engineering

FIEZ, Edward A; Extension Professor Emeritus of Animal Science

FINS, Lauren; Professor Emerita of Forest Genetics

FITZSIMMONS, Delbert W; Professor of Agricultural Engineering and Department Chair Emeritus

FLETCHER, Janice W; Professor Emerita of Family and Consumer Sciences

FLETCHER, Max E; Professor of Economics and Department Head Emeritus

FOLTZ, John C; Professor Emeritus of Agricultural Economics

FORBES, Rose L; Professor Emerita of Family and Consumer Sciences

FORCE, Jo Ellen; Professor Emerita in Forest, Rangeland and Fire Sciences

FORCE, Ronald W; Dean Emeritus of Library Services with rank of Professor

FORIYES, Tina; Professor Emerita of English

FORSTER, Robert L; Extension Professor Emeritus

FOSBERG, Maynard A; Professor Emeritus of Soil Science and Soil Morphology

FRANKLIN, Neil E; Professor Emeritus of Law

FREY, Rodney P; Professor Emeritus of American Indian Studies and Anthropology

FRITZ, Marlene A; Extension Professor Emerita

FROES, Francis H; Professor Emeritus of Material Science and Engineering and Metallurgical Engineering

FUNABIKI, Ruth Patterson; Head, Technical Services in the Law Library with rank of Associate Professor Emerita

G

GALLIAN, John J; Extension Professor Emeritus of Crop Management and Sugar Beet Specialist

GARDINER, Mary; Professor Emerita in Leadership and Counseling

GARDNER, George F; Extension Professor Emeritus

GARDNER, Max A; Extension Professor Emeritus

GARRARD, Richard M; Extension Professor Emeritus

GARTON, Edward O; Professor Emeritus of Wildlife Resources

GEIGER, Joseph J; Professor of Business and Department Chair Emeritus

GEIST, Dennis J; Professor in Geological Sciences

GENTRY, N. Dale; Professor of Special Education and Dean Emeritus

GEORGE, Kathryn Paxton; Professor Emerita of Philosophy

GHAZANFAR, Shaikh M; Professor of Economics and Department Chair Emeritus

GIBSON, Chad C; Extension Professor Emeritus

GIBSON, Gene W; Extension Professor Emeritus

GIER, Nicholas F; Professor Emeritus of Philosophy

GIESE, David F; Professor Emeritus of Art and Design

GILLIS, Candida; Professor Emerita of English

GOBLE, Dale D; Distinguished Professor Emeritus in Law

GOODWIN, Peter; Professor Emeritus of Civil and Environmental Engineering

GORDON, Teresa P; Professor Emerita of Accounting

ORMAN, Thomas M; Professor Emeritus of Forest, Rangeland and Fire Sciences

GORTSEMA, Stanley R; Extension Professor Emeritus

GOSSETT, Linda S; Extension Professor Emerita and Extension Educator

GOSZ, James R; Research Professor Emeritus

GRAY, C. Wilson; Extension Professor Emeritus of Agricultural Economics and Rural Sociology

GREENE, Sally; Professor Emerita of Curriculum and Instruction

GREEVER, Barbara C; Librarian Emerita with rank of Professor

GRIFFITHS, Peter R; Professor Emeritus of Chemistry and Department Chair Emeritus

GUENTHNER, Harold R; Extension Professor Emeritus

GUENTHNER, Joseph F; Extension Professor Emeritus

GUILFOYLE, Karen; Professor Emerita of Education

GUNNERSON, Fred S; Professor of Mechanical Engineering

GUNTER, Mickey E; University Distinguished Professor Emeritus of Geology

H

HAAGENSEN, H. Lynne; Professor Emerita of Art and Design

HABER, Donald F; Professor Emeritus of Civil Engineering and Statistics

HACKMANN, Wm. Kent; Professor of History and Secretary of the Faculty Emeritus

HAGGART, Peter A; Professor of Communication and Director and Secretary of the Faculty Emeritus

HAHN, Richard R; Professor of Music and Director Emeritus

HALDERSON, James L; Research Professor Emeritus of Agricultural Engineering

HALLAQ, John H; Professor Emeritus of Business

HAM, Sam H; Professor of Communication Psychology and International Conversation

HAMILTON, George; Extension Professor Emeritus

HAMILTON, Joel R; Professor Emeritus of Agricultural Economics and Statistics

HAMMEL, John E; Professor Emeritus in Plant, Soil and Entomological Sciences

HAMPTON, Carol D; Extension Professor Emerita

HANSON, D. Jay; Extension Professor Emeritus

HANSON, Donna M; Science Librarian Emerita

HARDCASTLE, Peggy J; Professor Emerita of Family and Consumer Science

HARDING, Gale W; Extension Professor Emerita

HARRIS, Charles C; Research Professor Emeritus in Forest, Rangeland and Fire Sciences

HARTZELL, Patricia L; Professor Emerita in Biological Sciences

HASKO, John J; Professor Emeritus of Law and Director Emeritus of the Law Library

HATCH, Charles R; Professor Emeritus of Forest Resources and Vice President Emeritus

HATHAWAY, Cecil W; Professor Civil Engineering and Director of Engineering Outreach Emeritus

HAUTALA, Robert; Professor of Mining Engineering and Associate Dean Emeritus

HAWKINS, James N; Extension Professor Emeritus

HAYNES, Robert C; Extension Professor Emeritus of Agricultural Education and Agricultural Engineering

HAZEN, William F; Extension Professor Emeritus

HEALY, Beverly A; Extension Professor Emerita of Family and Consumer Sciences

HEFFRON, Florence A; Professor Emeritus of Political Science

HEIMSCH, Richard C; Professor Emeritus of Microbiology

HENDERSON, Joann P; Professor Emerita of Law

HENRY, John A; Extension Professor Emeritus of Agriculture

HESFORD, Walter A; Professor Emeritus of English

HESFORD, Walter A; Professor Emeritus in English

HESS, Thomas F; Professor Emeritus of Biological and Agricultural Engineering and Department Head Emeritus

HILL, Rodney A; Professor Emeritus of Animal and Veterinary Science

HILLMAN, Russell G; Extension Professor Emeritus

HINMAN, Dan D; Professor Emeritus of Nutrition

HOAG, Kenneth; Professor Emeritus of English

HOLE, Dorothy S; Extension Professor Emerita

HOLUP, John P. Jr.; Professor Emeritus of Marketing Education

HOMAN, Hugh W; Extension Professor Emeritus of Entomology

HOPKINS, Ivan C; Extension Professor Emeritus

HOVEY, Bette A; Extension Professor Emerita

HULTSTRAND, Bonnie J; Professor Emerita of Physical Education

HUNGERFORD, Kenneth E; Professor Emeritus of Wildlife Resources

HUNT, Carl W; Professor Emeritus of Animal and Veterinary Sciences and Department Head Emeritus

HUNT, John D; Professor Emeritus of Sustainable Tourism

HUTCHISON, Sharon J; Senior Instructor Emerita of Chemistry

I

ISAACSON, Peter E; Professor Emeritus in Geological Sciences

J

JACOBSEN, Richard T; Professor Emeritus of Mechanical Engineering

JENNESS, Tom E; Professor Emeritus of Communication

JENSEN, Eric L; Professor Emeritus of Sociology

JOHNSON, Donald R; Professor Emeritus of Zoology

JOHNSON, Gary S; Professor Emeritus of Hydrogeology

JOHNSON, Georgia; Professor Emerita of Education

JOHNSON, James B; Professor Emeritus of Entomology

JOHNSON, Leonard R; Professor Emeritus of Forest Engineering

JOHNSON, Maurice E; Extension Professor and Adjunct Professor of Family and Consumer Sciences Emeritus

JOKISAARI, Allan; Senior Instructor Emeritus of Cartography

JONAS, Arlene T; Professor Emerita of Home Economics

JONES, Wayne B; Extension Professor Emeritus

JONES, James R; Professor Emeritus of Agricultural Economics

JUNK, Virginia W; Professor Emerita of Family and Consumer Sciences

JUNK, William S; Professor Emeritus of Computer Science

K

KARSKY, Thomas; Professor Emeritus in Biological and Agricultural Engineering

KAUFMAN, Jack J; Extension Professor Emeritus of Adult, Counselor, and Technology Education

KEELER, Carolyn; Professor Emerita of Education Administration

KEENAN, Richard M; Professor of Foreign Languages and Literatures and Department Chair Emeritus

KEETCH, Gordon C; Extension Professor Emeritus

KELLY, Gwendolyn N; Professor Emerita of Education

KELLY, Joseph T; Professor Emeritus of Education

KESSEL, Elizabeth M; Professor Emerita of Home Economics

KIEHN, Shirley O; Professor Emerita of Home Economics

KINDSCHY, Dwight L; Professor of Agricultural Education and Department Head Emeritus

KINZIGER, Michael; Professor Emeritus of Recreation

KIRCHMEIER, Robert L; Research Professor Emeritus of Chemistry

KLEINKOPF, Gale E; Research Professor Emeritus of Plant Physiology

KLOWDEN, Marc; Professor Emeritus of Entomology

KNUDSEN, John W; Professor Emeritus of Economics

KOCHAN, Walter J; Professor Emeritus of Plant Physiology/Horticulture

KORUS, Roger A; Professor Emeritus of Chemical Engineering and Department Chair Emeritus

KRUMPE, Edwin E; Professor Emeritus of Conservation Social Sciences

KUSKA, James J; Professor Emeritus of Landscape Architecture

KYTE, Michael; Professor Emeritus in Civil Engineering

L

LABAR, George W; Professor Emeritus of Fishery Resources

LANTING, Rhea K; Extension Professor and Extension Educator Emeritus in the Southern District

LASKOWSKI, Michael B; Professor Emeritus of Physiology

LASSEY, Marie L; Professor Emerita of Sociology

LATHEN, Calvin W; Professor Emeritus of Recreation and Director Emeritus

LAWROSKI, Mary A; Extension Professor Emerita

LEMMON, E. Clark; Professor Emeritus of Mechanical Engineering

LEONARD, Robert R; University Physician and Director of the Student Health Service Emeritus

LEWIS, D. Craig; Professor Emeritus of Law

LIDDIL, Audrey C; Extension Professor Emerita

LINCOLN, Stuart D; Professor Emeritus of Veterinary Science

LIND, Douglas; Professor Emeritus in Philosophy

LIU, Chia-Tsang; Extension Professor Emeritus of Crop Science

LOCKARD, Marsha; Extension Professor and Extension Educator Emerita

LONG, Roger B; Professor Emeritus of Agricultural Economics

LOTTMAN, Robert P; Professor Emeritus of Civil Engineering

LOUCKS, Robert R; Extension Professor Emeritus

LUFT, LeRoy D; Professor Emeritus of Agricultural Economics

LUSCHNIG, Cecelia E; Professor Emerita of Foreign Languages and Literatures

LYLE, Corinne M; Extension Professor Emerita of Rural Sociology

LYMAN, R. Ashley; Professor Emeritus of Economics and Statistics

M

MACDONALD, James; Professor Emeritus of Law

MACHLIS, Sally; Professor Emerita of Art and Design

MACHLIS, Gary E; Professor Emeritus of Forest Resources

MAHONEY, Ron; Extension Professor Emeritus

MAKI, Gary; Professor of Electrical and Computer Engineering and Director of CAMBR Emeritus

MAKUS, Larry D; Professor Emeritus in Agricultural Economics and Rural Sociology

MANKIN, J. D.; Extension Professor Emeritus of Animal Science

MARLER, Frankie L; Extension Professor Emerita

MARSHALL, John D; Professor Emeritus in Forest, Rangeland and Fire Sciences

MARTIN, Robert G; Professor Emeritus of Sociology

MAUCHLEY, G. Jay; Professor Emeritus of Music

MAUCHLEY, Sandra L; Professor Emerita of Music

MCCANDLESS, Carol M; Extension Professor Emerita of Home Economics

MCCAWLEY, Paul F; Extension Professor Emeritus and Associate Director Emeritus

MCCLURE, Wendy R; Professor Emerita of Architecture

MCCROSKEY, William B; Professor Emeritus of Architecture

MCCURDY, Sandra M; Extension Professor Emerita of Family and Consumer Sciences

MCDANIEL, Paul A; Professor Emeritus in Soil and Water Systems

MCDOLE, Robert E; Extension Professor Emeritus of Soils

McFARLAND, Ronald; Professor Emeritus of English

MCHARGUE, Jack M; Professor Emeritus of Biological and Agricultural Engineering

MCIVER, John K; Professor Emeritus in Physics and Vice President Emeritus

MCKEAN, Thomas A; Professor Emeritus of Zoology

MCKETTA, Charles W; Research Professor Emeritus of Forest Resources

MEAD, Rodney A; Professor Emeritus of Zoology

MEDEMA, E. Lee; Professor Emeritus of Forest Resources

MEDSKER, Shirley R; Professor Emerita of Home Economics

MELDRUM, Barbara R; Professor Emerita of English

MENSER, Harry A; Research Professor of Horticulture Emeritus & Superintendent of the Sandpoint Research & Extension Center Emeritus

MERK, Lawrence H; Professor of Business and Director Emeritus Center for Business Development and Research

MICHALSON, Edgar L; Professor Emeritus of Agricultural Economics

MICHEL, Elinor L; Professor Emerita of Education

MIH, Dora H; Reference Librarian Emerita with rank of Professor

MILES, Paul L; Professor Emeritus of Communication

MILLER, Jon R; Professor Emeritus of Business

MILLER, Bruce L; Professor Emeritus of Microbiology, Molecular Biology, and Biochemistry

MILLER, John C; Professor Emeritus of Animal Science

MILLER, Laura J; Professor Emerita of Home Economics

MILLER, Robert W; Professor Emeritus of Music

MILLER, Stanley M; Professor Emeritus of Geological Engineering

MILLER, Stephanie S; Professor Emerita of Theatre and Film

MILLER, Thomas H; Professor Emeritus of Computer Science

MILLIGAN, James H; Professor Emeritus of Civil Engineering

MINK, Leland L; Professor of Geology and Director, Idaho Water Resources Research Institute Emeritus

MOFFITT, Christine M; Professor Emerita in Fish and Wildlife Sciences

MOHAN, Philip J; Professor Emeritus of Psychology

MOHAN, S. Krishna; Extension Professor Emeritus of Plant, Soil, and Entomological Sciences

MOLNAU, Myron P; Professor Emeritus of Agricultural Engineering

MONTGOMERY, Beverly A; Extension Professor Emerita

MOODY, Michael W; Professor Emeritus of Foreign Languages and Literatures (Spanish)

MOORE, James A; Professor Emeritus of Forest Resources

MORIN, Bernice M; Director of Food Services and Adjunct Professor of Home Economics Emerita

MORRISON, Charles R; Professor Emeritus

MOWRY, Thomas M; Professor Emeritus of Entomology

MUNDT, John P; Professor Emeritus of Agricultural Education

MUNETTA, Paul; Professor Emeritus of Food Science

MURPHY, James L; Professor Emeritus of Music

MURRAY, Glen A; Professor Emeritus of Agronomy and Crop Physiology

N

NASKALI, Richar J; Arboretum Director with rank of Professor Emeritus

NAUMAN, Arlinda; Extension Professor Emerita

NAYLOR, Denny V; Professor Emeritus of Soil Science

NEHER, Richard S; Professor Emeritus of Music

NELSON, Charles K; Professor Emeritus of Computer Science

NELSON, Jack K; Professor Emeritus of Education

NELSON, Lewis Jr.; Extension Professor Emeritus of Wildlife Resources

NEUENSCHWANDER, Leon F; Professor Emeritus of Forest Resources

NEUHAUS, Ralph J; Professor Emeritus of Mathematics

NIELSEN, Ralph; Special Projects, Librarian Emeritus with rank of Professor

NILES, Marcia S; Professor Emeritus of Accounting and Department Chair Emeritus

NOLTE, Phillip; Extension Professor Emeritus and Seed Potato Specialist

NYSTROM, Esther A; Extension Professor Emerita

O

O'KEEFFE, Lawrence E; Professor of Entomology and Department Head Emeritus

O'LAUGHLIN, John J; Professor Emeritus of Conservation Social Sciences

OHLENSEHLEN, Robert M; Extension Professor Emeritus

OLSON, Norman C; Professor of Management, Department Head, and Dean Emeritus

OLSON, Philip D; Professor Emeritus of Business

OMAN, Paul W; Professor Emeritus of Computer Science

OSBORNE, Harold L; Extension Professor Emeritus of Forest Resources and Forest Manager

OSIENSKY, James L; Professor Emeritus of Hydrogeology

OTAWA, Toru; Professor Emeritus in Landscape Architecture

OTHBERG, Kurt L; Professor Emeritus of Geology

OWEN, Glenn B; Director of Institutional Services Emeritus

P

PACE, Lois W; Extension Professor Emerita

PALS, Douglas A; Professor Emeritus of Agricultural Education

PANTING, Ruhn R; Extension Professor Emeritus

PARISH, William R; Professor Emeritus of Electrical Engineering

PARK, Jin Y; Professor Emeritus of Chemical Engineering

PARKINSON, Stuart C; Extension Professor Emeritus and Extension Educator - Agriculture/Horticulture

PARKS, William H; Professor Emeritus of Business Strategies

PARR, Joan K; Extension Professor Emerita

PARRISH-JONES, Judith T; Professor Emerita of Geological Sciences

PARTON, Robert R; Director of Housing and Food Service Emeritus

PARTRIDGE, Arthur D; Professor Emeritus of Forest Resources

PASSANANTE, Joy; Professor Emerita in English

PASSANANTE, Joy; Professor Emerita of English

PASZCZYNSKI, Andrzej; Professor Emeritus in the School of Food Science

PASZCZYNSKI, Williams; Assistant Professor Emeritus in Idaho Geological Survey

PATTERSON, Paul E; Extension Professor and Extension Specialist Emeritus in Agricultural Economics and Rural Sociology

PEAVY, Howard; Professor Emeritus of Civil Engineering

PEDRAS, Melvin J; Professor Emeritus of Education

PEEBLES, Stephen L; Extension Professor Emeritus

PEEK, Jame M; Professor Emeritus of Wildlife Resource

PENONCELLO, Steven G; Professor Emeritus of Mechanical Engineering

PERRAUD, Louis A; Professor Emeritus of Foreign Languages and Literatures

PETERSON, Charles L; Professor Emeritus of Biological and Agricultural Engineering

PETERSON, Floyd H; Professor of Music and Director Emeritus

PETERSON, Hazel C; Professor Emerita of Physical Education

PETERSON, James N; Professor Emeritus of Electrical Engineering

PLACE, T. Alan; Professor Emeritus of Mechanical Engineering

PLANCK, Suzanne M; Senior Instructor Emeritus in Family and Consumer Sciences and Director, Chile Development Laboratory

POLLARD, Richard R; Professor Emeritus of Educational Administration

PORTER, Paul S; Professor Emeritus of Civil Engineering

POTRATZ, Clarence J; Professor of Mathematics and Statistics

POTTER, Gretchen L; Professor Emerita of Home Economics

PREGITZER, Kurt; Professor of Forest, Rangeland, and Fire Sciences

PRICE, Elizabeth A; Associate Professor Emerita of Early Childhood Development and Education

PRIGGE, G. Raymond; Extension Professor Emeritus of Agriculture

PRISBREY, Keith A; Professor Emeritus of Metallurgy

PRITCHETT, Jane; Lecturer Emerita in Communication

PROBASCO, Robert C; Professor Emeritus of Computer Science

PULAKOS, Joan; Licensed Psychologist Emerita with rank of Professor and Director Emerita, Counseling and Testing Center

PYLE, Jan M; Catalog Librarian Emeritus with rank of Professor

R

RABE, Fred W; Professor Emeritus of Zoology

RAIDL, Martha A; Extension Professor Emerita in the School of Family and Consumer Sciences

RALSTON, Dale R; Professor Emeritus of Hydrology

REECE, James R; Professor Emeritus of Foreign Languages and Literatures

REESE, D. Nels; Professor Emeritus of Architecture

REESE, Kerry P; Professor Emeritus of Fish and Wildlife Sciences

REXFORD, Villa R; Extension Professor Emerita

REYES, Mari G; Professor Emeritus in Business

REYNOLDSON, Roge L; Professor Emeritus of Educational Administration

RIGAS, Anthony L; Professor of Electrical Engineering and Director of Engineering Outreach Emeritus

ROBBINS, Jo A.; Extension Professor Emerita

ROBERTS, Florence; Professor Emerita of English

ROBERTSON, Larry D; Professor Emeritus of Plant Genetics

ROSE, Alan; Professor Emeritus of Foreign Languages and Literature

ROURKE, Arthu W; Professor of Zoology and Department Chair Emeritus

ROUYER, Alwyn R; Professor Emeritus of Political Science

ROYALTY, William D; Professor Emeritus of Mathematics

RUBY, Mary Lou; Extension Professor Emerita

RUDZITIS, Gundars; Professor Emeritus of Geography

S

SANDERS, Kenneth D; Professor Emeritus of Rangeland Ecology and Management and Range Extension Specialist

SANDVOL, Larry E; Extension Professor Emeritus of Entomology

SANYAL, Nick; Professor Emeritus in Natural Resources and Society

SASSER, R. Garth; Professor Emeritus of Animal Science

SCOTT, J. Michael; Professor Emeritus of Fish and Wildlife Sciences

SCOTT, Roger L; Professor Emeritus of Industrial Technology

SCRIPTER, Sam M. W. ; Professor Emeritus of Geography

SEARS, Forrest E; Professor Emeritus of Theatre Arts

SECRIST, Mark; Professor Emeritus in the School of Journalism and Mass Media

SEYEDBAGHERI, Mir-Mohammed; Extension Professor and Extension Educator Emeritus in the Southern District

SHAFII, Bahman; Professor Emeritus in Plant, Soil and Entomological Sciences and Statistical Sciences

SHAKLEE, Harriet; Extension Professor and Extension Specialist Emerita in Family and Consumer Sciences

SHANE, William H; Extension Professor Emeritus

SHARP, D. Wayne; Extension Professor Emeritus

SHOWELL, Jean C; Extension Professor Emerit

SIEMS, Pete L; Professor Emeritus of Geology

SIMMONS, George M; Professor Emeritus of Chemical Engineering

SINGH, Shree; Research Professor Emeritus in Plant, Soil and Entomological Sciences

SKINNER, Lyn J; Professor Emeritus of Music Education

SLADE, H. Eugene; Business Manager Emeritus

SMITH, Arthu D; Professor Emeritus of Law

SMITH, Larr J; Extension Professor Emeritus

SMITH, Lewis B; Professor Emeritus of Education

SMITH, Rosa L; Extension Professor Emerita

SPEVACEK, Robert J; Professor Emeritus of Music

SPOMER, George G; Professor Emeritus of Botany

SPRAGUE, Nancy R; Reference Librarian Emerita with rank of Associate Professor

STECIAK, Judith A; Professor Emerita of Mechanical Engineering

STECKEL, Gerd; Professor Emeritus in Modern Languages and Cultures

STEIGER, Monte L; Library Associate Dean Emeritus with rank of Professor

STEINHORST, R. Kirk; Professor Emeritus of Statistics

STELLMON, M. William; Professor Emeritus of Agricultural Information

STEVENSON, Jeanne M; Associate Professor Emerita in Curriculum and Instruction

STIMPSON, Janice K; Extension Professor Emerita

STOCK, Molly W; Professor Emeritus of Forest Resources and Computer Science

STOLTZ, Robert L; Extension Professor Emeritus of Entomology

STOSZEK, Karel J; Professor Emeritus of Forest Resources

STRANAHAN, Clyde H; Extension Professor Emeritus

STURGUL, John R; Professor Emeritus of Mining Engineering

SUMPTION, Brian F; Professor Emeritus of Architecture

T

TELIN, Matt E; Registrar Emeritus

THILL, Donald C; Professor Emeritus in Plant, Soil and Entomological Sciences

THOMAS, Charles M; Extension Professor Emeritus of Agriculture

THOMAS, Gordon P; Professor Emeritus of English

THOMPSON, Charles J; Professor Emeritus of Physical Education

THOMPSON, David E; Professor Emeritus of Mechanical Engineering

TOVEY, DeVere; Extension Professor Emeritus

TOVEY, Weldon R; Professor of Engineering Science and Associate Dean Emeritus

TRACY, John C; Professor Emeritus in Civil Engineering

TROTTER, Thomas V; Professor Emeritus of Counseling and School Psychology.

TUCHSCHERER, Jerry L; Professor Emeritus of Curriculum and Instruction

TUNG, Mason; Professor Emeritus of English

TURNER, Betty J; Extension Professor Emerita of Home Economics

TYLUTKI, Edmund E; Professor Emeritus of Botany

U

ULLIMAN, Joseph J; Professor Emeritus of Forest Resources

V

VAN GERPEN, Jon H; Professor Emeritus of Biological and Agricultural Engineering

VAN HOUTEN, Karen J; Professor Emerita of Computer Science

VENT, Herbert J; Professor Emeritus of Education

VETTRUS, Dean L; General Manager of ASUI and Student Union Emeritus

VINCENT, Jack E; Borah Professor Emeritus of International Relations

VON BRAUN, Margrit; Professor Emerita of Chemical Engineering

VOORHEES, Jack R; Professor of Naval Science and Department Head Emeritus

VOXMAN, William L; Professor Emeritus of Mathematics

W

WAGNER, Francis G; Professor Emeritus of Forest Products

WAI, WAI M; Professor Emeritus of Chemistr

WALKER, David J; Professor Emeritus of Agricultural Economics

WALKER, Diane B; Professor Emerita of Dance

WALKER, Norman L; Extension Professor Emeritus

WALL, Richard W; Professor Emeritus of Electrical Engineering

WALLACE, Alfred T; Professor Emeritus of Civil Engineering

WALLENHAUPT, Katherine M; Extension Professor Emerita

WALLINS, Roger P; Professor of English and Associate Dean Emeritus

WANAMAKER, Nancy J; Professor Emerita of Family and Consumer Sciences

WARD, Alton C. S.; Professor Emeritus of Veterinary Medicine

WATTENBARGER, David W; Extension Professor Emeritus

WATTS, Frederick J; Professor of Civil Engineering and Department Chair Emeritus

WEBB, Linda I; Extension Professor Emerita

WEGMAN, Jerry L; Professor Emeritus of Business Law

WELHAN, John A; Research Professor Emeritus, Idaho Geological Survey

WELLS, Richard B; Professor Emeritus of Electrical Engineering

WEST, Dennis D; Professor Emeritus of Foreign Languages and Literatures (Spanish)

WEST, Joan M; Professor Emeritus of Foreign Languages and Literatures (French)

WHARTON, William C; Professor Emeritus of Music

WHITE, Donald R; Extension Professor Emeritus of Forest Resources

WHITE, Florence A; Professor Emerita of Education

WHITLOCK, Alan J; Instructor Emeritus of Psychology and Communication Studies

WIESE, Maurice V; Research Professor of Plant Pathology and Chair Emeritus

WILLETT, Gerald A. Jr.; Professor Emeritus of Civil Engineering

WILLIAMS, Gary; Professor Emeritus of English

WILLIAMS, Barbara C; Professor Emerita of Biological and Agricultural Engineering

WILLIAMS, Cinda E; Area Extension Educator Emerita with rank of Associate Professor in the Northern District

WILLIAMS, Doris K; Professor Emerita of Family and Consumer Sciences

WILLIAMS, Gary J; Professor Emeritus in English

WILLIAMS, Larry G; Professor Emeritus of Agricultural Engineering

WILSON, Lucia L; Extension Professor Emerita

WITHERS, Russell V; Professor Emeritus of Agricultural Economics

WOFFINDEN, Sharlene; Extension Professor Emerita of 4-H Youth Development

WOLF, Virginia; Professor Emerita of Physical Education

WOOD, Mary Lee; Extension Professor Emerita of Family and Consumer Sciences

WOOLSTON, William P; Professor Emeritus of Art and Design

WRAY, George T; Professor Emeritus of Art

WRIGGLE, Larry K; Professor Emeritus of Education

WRIGHT, R. Gerald; Professor Emeritus in Fish and Wildlife Sciences

WRIGLEY, Robert A; Professor Emeritus of English

Y

YEH, Wei J; Professor Emeritus of Physics

YOUNG, Jeffrey L; Professor Emeritus of Electrical Engineering

YOUNG, Nancy J; Reference Librarian Emerita with rank of Professor

Z

ZEIGER, Dinah L; Professor Emerita of Journalism and Mass Media

INDEX

A

A - Matriculation	72
Academic Calendar	10
Academic Offerings at the University of Idaho	33
Accountancy (M.Acct.)	150
Accounting	149
Accounting (ACCT)	372
Accounting (B.S.Bus.)	150
Accounting Minor	151
Addictions Minor	275
Admission to the University	41
Adult, Org Learnng and Ldrshp (AOLL)	375
Adult Organizational Learning and Leadership (M.S.)	182
Advanced Materials Technology Graduate Academic Certificate	195
Advertising (B.A. OR B.S.)	258
Advertising Minor	258
Aerospace Studies	356
Aerospace Studies (AERO)	377
Aerospace Studies Minor	356
Aerospace Studies Programs	356
Africana Studies (AFST)	378
Africana Studies Minor	278
Aging Studies	239
Aging Studies Minor	240
Agribusiness Minor	105
Agricultural and Extension Education	102
Agricultural and Life Sciences (AGLS)	379
Agricultural Communications and Leadership Minor	104
Agricultural Economics (AGEC)	380
Agricultural Economics and Rural Sociology	105
Agricultural Economics and Rural Sociology (M.S.)	106
Agricultural Economics (B.S.Ag.Econ.)	105
Agricultural Education (AGED)	384
Agricultural Education (B.S.Ag.Ed.)	103
Agricultural Education (M.S.)	104
Agricultural Extension Education Minor	104
Agricultural Science, Communication and Leadership (B.S.Ag.L.S.)	104
Agricultural Systems Management (B.S.S.W.S.)	126
Agricultural Systems Management Minor	127
Agricultural Systems Mgt (ASM)	387

American Indian Studies	240
American Indian Studies (AIST)	388
American Indian Studies Minor	242
American Studies	242
American Studies (AMST)	390
American Studies Minor	243
Analog Integrated Circuit Design Graduate Academic Certificate	207
Animal and Veterinary Science	107
Animal and Veterinary Science (AVS)	391
Animal and Veterinary Science (B.S.A.V.S.)	108
Animal and Veterinary Science (M.S.)	110
Animal and Veterinary Science (Ph.D.)	110
Animal Science Minor	110
Anthropology (ANTH)	394
Anthropology (B.A. or B.S.)	279
Anthropology (M.A.)	279
Anthropology Minor	280
Apparel, Textiles and Design (B.S.F.C.S.)	113
Aquaculture Minor	299
Archaeological Technician Undergraduate Academic Certificate	280
Architecture (ARCH)	398
Architecture (B.S.Arch.)	139
Architecture (M.Arch.)	140
Architecture Minor	140
Art	170
Art and Architecture	135
Art (ART)	403
Art (B.A.)	140
Art Core	139
Art Galleries	24
Art (M.F.A)	141
Art Minor	141
Asian Studies Minor	250
Athletic Leadership Undergraduate Academic Certificate	184
Athletic Training (AT)	408
Athletic Training (D.A.T.)	184
Athletic Training (M.S.A.T.)	184

B

B - Registration	73
Bachelor of General Studies Curriculum	248
Basic Mathematics	171
Biochemistry (B.S.Biochem.)	321

Biochemistry Minor	322	Chemical Engineering (CHE)	427
Bioethics Minor	271	Chemical Engineering (M.Engr.)	197
Bioinformatics and Computational Biology	326	Chemical Engineering (M.S.)	197
Bioinformatics and Computational Biology Graduate Academic Certificate	329	Chemical Engineering (Ph.D.)	197
Bioinformatics and Computational Biology (M.S.)	327	Chemistry	172
Bioinformatics and Computational Biology (Ph.D.)	328	Chemistry	329
Bioinformatics/Computatnl Biol (BCB)	411	Chemistry (B.S.)	330
Biological Engineering	192	Chemistry (CHEM)	429
Biological Engineering (B.S.)	193	Chemistry (M.S.)	332
Biological Engineering (BE)	412	Chemistry Minor	332
Biological Engineering (M.Engr.)	193	Chemistry (Ph.D.)	332
Biological Engineering (M.S.)	193	Child, Family, and Consumer Studies (B.S.F.C.S.)	114
Biological Engineering (Ph.D.)	193	Chinese (CHIN)	433
Biological Sciences	171	Civil and Environmental Engineering	199
Biological Sciences	321	Civil Engineering (B.S.C.E.)	200
Biology (B.A. or B.S.)	322	Civil Engineering (CE)	435
Biology (BIOL)	415	Civil Engineering (M.Engr.)	201
Biology (M.S.)	323	Civil Engineering (M.S.)	201
Biology Minor	323	Civil Engineering (Ph.D.)	201
Biology (Ph.D.)	323	Climate Change Undergraduate Academic Certificate	333
Bioregional Plan & Comm Design (BIOP)	420	College of Agricultural and Life Sciences	101
Bioregional Planning and Community Design	146	College of Art & Architecture (CAA)	441
Bioregional Planning and Community Design Graduate Academic Certificate	146	College of Art and Architecture	135
Bioregional Planning and Community Design (M.S.)	146	College of Business and Economics	148
Biotechnology and Plant Genomics (B.S.Pl.Sc.)	121	College of Education, Health and Human Sciences	161
Biotechnology and Plant Genomics Minor	122	College of Engineering	190
Broadcasting and Digital Media (B.A. OR B.S.)	259	College of Graduate Studies	221
Broadcasting and Digital Media Minor	259	College of Law	230
Business	151	College of Letters, Arts and Social Sciences	238
Business Analytics Minor	152	College of Natural Resources	288
Business (BUS)	421	College of Science	320
Business Economics (B.S.Bus.)	152	Colleges and Related Units	100
Business Education	171	Communication (COMM)	442
Business Law (BLAW)	423	Communication Studies Minor	275
Business Minor	153	Comparative/International Politics Minor	271
C		Computer Engineering (B.S.Comp.E.)	207
C - Changes in Registration	75	Computer Engineering (M.Engr.)	208
Career and Technical Education (B.S.Ed.)	165	Computer Engineering (M.S.)	208
Career and Technical Education (CTE)	424	Computer Science	202
Chemical and Materials Engineering	193	Computer Science (B.S.C.S.)	203
Chemical Engineering (B.S.Ch.E.)	196	Computer Science (CS)	444
		Computer Science (M.S.)	203

Computer Science Minor	205	Ed-Special Education (EDSP)	461
Computer Science (Ph.D.)	204	Education (ED)	464
Concurrent Degrees	232	Education (Ed.D.)	168
Concurrent J.D./M.S. Environmental Science Degrees	290	Education (Ph.D.)	168
Continuing Education	348	Education (Ph.D.)	182
Cooperative Programs	349	Education Specialist Degrees	228
Core Science (CORS)	450	Educational Administration (EDAD)	466
Course Information	368	Educational Leadership (M.Ed.)	182
Courses	370	Electrical & Computer Engr (ECE)	468
Creative Writing (M.F.A.)	243	Electrical and Computer Engineering	205
Creative Writing Minor	244	Electrical Engineering (B.S.E.E.)	209
Critical Infrastructure Resilience Graduate Certificate	213	Electrical Engineering (M.Engr.)	211
Crop Management (B.S.Pl.Sc.)	122	Electrical Engineering (M.S.)	212
Crop Management Minor	123	Electrical Engineering (Ph.D.)	212
Crop Science (B.S.Pl.Sc.)	123	Elementary Education (B.S.Ed.)	168
Crop Science Minor	124	Emergency Planning and Management Graduate Academic Certificate	214
Curriculum and Instruction	164	Emeriti Faculty	733
Curriculum and Instruction (Ed.S.)	167	Engineering	213
Curriculum and Instruction (M.Ed.)	167	Engineering and Technology Education	173
D		Engineering Management	215
D - Credit and Continuing Education Unit	76	Engineering Management (EM)	476
Dance (B.S.Dan.)	185	Engineering Management (M.Engr.)	215
Dance (DAN)	451	Engineering Outreach Program	350
Dance Minor	186	Engineering-General (ENGR)	477
Data Analytics Graduate Academic Certificate	345	English	173
Degrees Granted	32	English	243
Department of Military Science	357	English as a New Language	174
Department of Naval Science	357	English (B.A.)	244
Departments of Instruction	367	English (ENGL)	478
Diversity and Stratification Undergraduate Academic Certificate	281	English (M.A.)	247
Doctoral Degrees	228	English Minor	247
E		Entomology (B.S.Ag.L.S.)	111
E - Grades	77	Entomology (ENT)	485
Early Childhood Development and Education (B.S.Erly.Chldhd.Dev.Ed.)	116	Entomology (M.S)	112
Earth Science	172	Entomology Minor	112
Ecology and Conservation Biology (B.S.Ecol.Cons.Biol.)	310	Entomology (Ph.D.)	112
Ecology Minor	304	Entomology, Plant Pathology and Nematology	111
Economics	173	Entrepreneurship (ENTR)	486
Economics (B.A. or B.S.)	153	Entrepreneurship Undergraduate Academic Certificate	154
Economics (ECON)	454	Environmental Communication Minor	316
Economics Minor	153	Environmental Education and Science Communication Academic Graduate Certificate	316
Ed-Curriculum & Instruction (EDCI)	456	Environmental Engineering (ENVE)	487

Environmental Science	289	Forest, Rangeland, and Fire Sciences (M.S.)	307
Environmental Science (B.S.Env.S.)	290	Forest Resources (FOR)	512
Environmental Science (ENVS)	488	Forest Resources Minor	306
Environmental Science (M.S.)	296	Forestry (B.S.Forestry)	307
Environmental Science (Ph.D.)	296	French	175
Environmental Soil Science (B.S.S.W.S.)	127	French (B.A.)	250
Exceptional Child Generalist Teaching Major	174	French (FREN)	518
Exec Master in Business Admin (EMBA)	491	French Minor	250
Exercise, Sport, and Health Sciences (B.S.E.S.H.S.)	186		
Experimental Psychology (Ph.D.)	275	G	
F		G - Withdrawal Procedures	80
F - Grades of Incomplete	79	General Honorary Societies	22
Faculty	702	General Management (M.B.A.)	155
Family and Consumer Sciences	112	General Requirements and Academic Procedures	71
Family and Consumer Sciences (FCS)	493	General Requirements for all B.A., B.S., and B.Mus. Degrees	262
Family and Consumer Sciences (M.S.)	116	General Studies	248
Fees and Expenses	51	Genetics (GENE)	520
Film and Television Studies (B.A. OR B.S.)	259	Geographic Information Systems Undergraduate Academic Certificate	334
Finance (B.S.Bus.)	154	Geography	175
Finance (FIN)	499	Geography	333
Fire Ecology and Management (B.S.Fire.Ecol.Mgmt.)	304	Geography (B.S.)	334
