q Are Tsirk Dr.

Dear Are,

So kind of you to write and keep me informed of what's happening in New Jersey. I understand from Karen Stothert and Lucy Lewis Johnson that you had a nice meeting at your home in New Jersey . Are, I am most impressed by the quality of your work in applied fracture of brittle materials . It will be the only worthwhile information regarding the subject of Lithics in the profession.

Your work on this subject will be most valuable in the years to come.

I hope you will be able to go to the meeting in Tucson. If I am at all able, I plan to be there. It will be great to see you and do hope we can have a long visit. At this time I will cut the letter short , but just a word to let you know that I am still thinking of you .

Your friend,

Don C.
