Dear Don,

I want to thank you for your recent note, and for the permission to go ahead and reuse the photographs which I had published earlier in Predicting the Past. I also appreciate your kind comments regarding the book. At this point any kind word helps.

I also appreciate your efforts to secure photographs of you in action. I have spoken to Junius, but have yet to see the photographs you sent to him.

Best wishes to you for the summer.

Sincerely yours,

David Hurst Thomas
Chairman
