Dear Don:

We enjoyed greatly your visit to Tucson, and I understand from my visit to the field school the week after you were there that the Crabtrees did their usual fine job of stimulating the students there. Many thanks for your contribution to our program. I enclose a check for \$200 which I hope will help defray the cost of your trip. I am sorry that my manipulation of our bureaucracy was so inefficient that I did not have the check ready for you when you were here.

Bordes has written that there are complications, but he is definitely interested. He thinks that he can only leave the country for a maximum of 2 months, so we are going to offer him a six-week stint sometime during the spring of 1969 at his convenience. I will keep you posted on any developments.

Sincerely,

Raymond H. Thompson
