Route 1
Kimberly
Idaho

Dear Don,

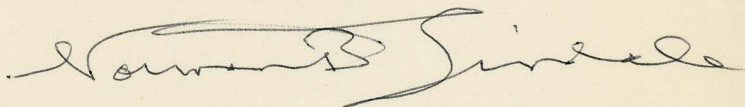

Mrs Tindale and I will be travelling up to Canada via Utah and Pullman, Washington, and are planning to pass through Twin Falls about July 9th or 10th.

Are you likely to be home about that time?. If so we would like to visit with you for an hour or two.

I tried to have a look at you last week from 35,000 feet while on a trip to Oregon, but could see nothing but sheets of basalt (?), I think we passed North of Twin Falls. We are spending a day at Bear Lake en route and I figure we can reach Twin Falls in one day. The trouble is both Dorothy and I are butterfly collectors so we only make good time when the country is desolate.

We will be at Marie Volks' dig at Greeley for a day or two before heading north.

Yours sincerely,

Norman B. Tindale.
