Dr. and Mrs. Norman Tindale
1608 Bracken Ave. # 1
West Los Angeles, California
90025

Dear Norman and Dorothy:

Please pardon my long delay in answering your very nice letter. I have been very involved with completing the building for the US Forest Service. Had a deadline of Feb. 1st and this was not easy to meet, considering our very bad weather. Also both Evelyn and I came down with the flu and lost a lot of time with this. We are both better now but not entirely over the bug.

Have a man coming from the G&A office in Washington tomorrow to inspect and accept the building and then my troubles should be over and I can think about coming to Los Angeles. With any luck we should be able to get started next Thursday, the 15th. Do hope this will not be too late to contact you before you leave Los Angeles. I am bringing my Mother down to San Fernando to visit with her sister and then will be free to visit with you. With any luck I should be contacting you next week-end.

Please do not change any plans you may have because of my visit, for if you are busy I shall just wait until you are free.

I am certainly looking forward to seeing both of you again and also the film. Was sent a copy of the film Bordes and I made in Berkeley in 1965 and had a showing here yesterday. It is really a fine film and was so happy to have the chance to see it. Also, we got some very fine shots at ISU on pressure flaking. The first ones I have been really happy with.

Until we see you,

Sincerely,

Don
