

28th Feb, 1978.

Mr. Don Crabtree,  
Idaho State University Museum,  
Pocatello, Idaho 83201.

Dear Mr. Crabtree,

I am a graduate student at the University of California (Berkeley), and am doing my doctoral research into the form and function of early Stone tools of East Africa, from the East Turkana (Rudolf) area.

I have discussed my project with Bruce Bradley, François Bordes, Mark Newcomer, and Jacques Tixier.

I met Mr. Tixier at the Pan-African Congress in Nairobi last year, and he encouraged me to try to see your workshops in Idaho. I'd like to know if it would be possible (if I can come to Idaho sometime this summer) to visit.

I am also interested in improving my own knapping skills, and would like to know if you plan or know of any workshops in the future, or the possibility of getting some private training for a fee.

I look forward to hearing from you.

Yours very truly,
