Dear Jacques:

Received your letter of March 10th and am glad to know that you will drive to Tucson with us. This will give us a chance to show you Arizona and Nevada and also we can take some material with us.

I did not get your letter giving your schedule in the U.S. - don't know what happened to it. The last letter I received from you said that you would be at my home from the 9th of April until the 19th and then we would go to Tucson. Is this date still correct. Whatever dates you plans will be okay with me.

Wormington called last night from Tempe and asked that we leave Idaho a day early and spend the night with her in Tempe ~~Tucson~~ and pay a brief visit to her University. I told her we would at least stop by but could not give an answer for you on spending any time there.

We are looking forward with great anticipation to your visit and hope that Juliette will also like our country. Talked with Clyde Smith at Berkeley last night and he is going to try and have the film of Francois and I here in time for you to see it. Our local T.V. studio says they will have a private showing of both your film and mine for us. They also ask to interview you on the news program.

Francois writes that he may not make it to Kimberly on this trip and I am deeply disappointed plus the fact that I think he will need some rest and he can surely get it here on our quiet little acreage. However, will see him in Tucson.

Dr. Swanson says he has waited perhaps too long to write to you but extends a cordial invitation for you and Juliette to visit our University in Pocatello.

Impatiently waiting our work together,

Yours friend,

Don E. Crabtree
