

Savignac. 20.7.70.

Dear Evelyn, dear Don,

I have just finished my excavating season with prof. Bordes at Carsac, and coming back home, I read your letter. It is so kind of Evelyn to be writing us and thinking of us since she is still ill.

I hope the cobalt treatment will be efficient, and you will be much better after. Anyway, we must trust in this kind of medicine for it is the only opportunity of hope.

The field school with F. Bordes has been wonderful: I was the only French student and most of the others were American, so, I spoke English most of the time, I really liked it so much!

I guess I got some friends that I

shall see in Tucson next summer,
I sincerely hope to come and see
Evelyn healthy.

Thank you, Evelyn for the advice
about smoking, I follow it becau-
se, I love you so much and I
realize that it is really dan-
gerous. I follow it as if you
were my own mother.

I am waiting for news as soon
as the treatment will be finished
and it must work.

my father will write you soon,

love to both of you,
you will be in all my thoughts

Don

Je vous embrasse tous les deux
très affectueusement.
