Sept. 26, 1979

Dear Don,

I hope this letter finds you just in as good of spirits as ever. Congratulations on receiving a doctorate degree (PhD). As you probably know I'm now attending HANNAH and trying to polish my skill at pottery sorting. I heard you were looking for 'people' photos and I hope those enclosed will be of some help.

I also heard you may be returning to Colha - I think it would be great if you could - I hope to be there probably a week or two around March 23. If there is anything I can do for you while I'm up here in the east, please let me know.

Well, I guess that is all for now - take care & perhaps I'll get to talk with you at Colha.

Your friend
Fred
