Mrs. James B. Watson
9010 North Mercer Way
Mercer Island, Washington 98040

Dear Mrs. Watson:

Thank you for your letter of Feb. 18th regarding the artifacts from New Guinea.

I would be delighted to see the material from New Guinea but, unfortunately, will not be able to attend the conference at Moscow. However, since you will be only eight miles from Washington State University at Pullman, would suggest that you contact the department there for information. If you will contact Dr. Richard Daugherty, either he or some of his staff could help you in the technological or typeological field. This is a fine department well versed in lithic technology.

Am sorry to miss seeing the material and do hope Dr. Daugherty can give you the necessary information.

Sincerely yours,

Don E. Crabtree
